BIOL 66000 - Challenging Concepts in the Biological Sciences

Overview of research and theory related to misconceptions in biology. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.
Exit Standards

An overall GPA of 3.0.

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master’s degree students will also be expected to prepare a research proposal or to conduct a research project while enrolled in BIOL 66000 - Challenging Concepts in the Biological Sciences, which serves as the capstone course in biology.

Students must pass the School of Education technology assessment.

Adolescent Chemistry - MA / Advanced Certificate

Education Adviser Stephen Demeo; (212) 772-4776; sdemeo@hunter.cuny.edu

Chemistry Department Adviser (Master's Degree only) Pamela Mills; (212) 772-5331; pam.mills@hunter.cuny.edu

These programs are designed to serve individuals who do not have initial, professional or permanent certification in the teaching of science.

Admission Requirements

Master's Degree

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.

2. A minimum of 29 credits in science and mathematics to include one year of chemistry, one year of introductory physics with laboratory, and one semester of calculus.

3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one college course in calculus.

4. Two professional references to be included with the application for admission.

5. A personal statement to be completed as part of the application for admission.
Advanced Certificate

1. An undergraduate major of at least 30 credits in chemistry and a master’s degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College. Coursework at either the undergraduate or graduate level must include a course in introductory chemistry with laboratory, one year of introductory physics with laboratory, and one semester of calculus.

2. A general education core in the liberal arts and sciences to include the following (in addition to chemistry): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of “C” or better satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one college course in calculus.

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in chemistry.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.
Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Adolescent Chemistry Course of Study

Education Courses: (22-23 credits) for Advanced Certificate and Master's Degree

Education Courses

Total Credits for Advanced Certificate: 22-23 credits

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,
Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.
prereq: SEDF 70500
coreq:
Hours 30 hrs, plus lab,
Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent’s learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 30 hrs plus, 36 hrs fieldwork,
Credits 2 cr

Take Either
SEDC 75402 - Student Teaching in Chemistry, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
Hours 30 hrs, 60 days student teaching plus workshops and conferences, 
Credits 5 cr

Or

SEDC 77412 - Practicum in Chemistry, Grades 7–9

Supervised practicum for teachers of chemistry in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400
Hours 30 hrs plus conferences, 
Credits 2 cr
Students who take SEDC 77412 must also take SEDC 77422.

Plus One of the Following

SEDC 77422 - Practicum in Chemistry, Grades 10–12

Supervised practicum for teachers of chemistry in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400
Hours 30 hrs plus conferences, 
Credits 2 cr
Students who take SEDC 77422 must also take SEDC 77412.

Chemistry Courses (minimum of 15 cr) for Master's Degree Programs

Total credits for Master's Degree: 37-38 credits

For Master's Programs Only

CHEM 65500 - Demonstrations, Models, and Technology

Demonstrations, models, and technology.

Credits 3 cr

CHEM 63000 - Science and Society
A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

*prereq: permission of instructor*
*Credits 3*

**CHEM 66000 - Challenging Concepts in Chemistry**

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

*Hours 4 hrs,*
*Credits 4 cr*
  * Two electives chosen from 600- or 700-level courses in chemistry or biochemistry at least 5 cr.

for students who have not taken physical chemistry, one of the electives must be:

**CHEM 65000 - Biophysical Chemistry**

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

*prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent*
*Hours 4 hrs,*
*Credits 4 cr*
*Fall*

**Culminating Experiences**

  * Professional teaching portfolio

**Culminating Project in Chemistry:**

See Exit Standards

**CHEM 66000 - Challenging Concepts in Chemistry**

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

*Hours 4 hrs,*
*Credits 4 cr*

**Exit Standards**
An overall GPA of 3.0

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master’s degree students will also be expected to either prepare a research proposal or to conduct a research project while enrolled in CHEM 66000 - Challenging Concepts in Chemistry, which serves as the capstone course in chemistry.

Students must pass the School of Education technology assessment.

**Adolescent Chinese - MA**

**Program Adviser Der-Lin Chao;**  
1429 West Building; (212) 772-4965;  
dchao@hunter.cuny.edu

The MA program in the teaching of Chinese is designed for students who have majored in Chinese at the undergraduate level and want to pursue a teaching career in adolescent education. This program is not for individuals with initial, professional, or permanent certification in Chinese. The Teacher Education Program in Chinese does not offer an advanced certificate program.

**Admission Requirements**

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8 and a major in Chinese with a grade point average of 3.0, including a minimum of 18 credits in Chinese literature above the intermediate level and oral proficiency at the advanced low level of the American Council on the Teaching of Foreign Language (ACTFL) Oral Proficiency Interview (OPI); OR

2. Applicants who do not have a Chinese major but have a liberal arts and science major (or interdisciplinary liberal arts or science concentration) of at least 30 credits can take two exams to meet the Chinese coursework requirement: the Oral Proficiency Interview (OPI) and the Written Proficiency Test (WPT) administered by American Council on the Teaching of Foreign Language (ACTFL). Candidates must achieve a minimum score of advanced-low on each to meet the admission requirement and must achieve a passing score on the on-site written test in Chinese/English about Chinese literature.

PLUS (for ALL applicants)

3. A general education core in the liberal arts and science to include the following: 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

4. Two professional references to be included with the application for admission.

5. A personal statement to be completed as part of the application for admission.
6. An interview conducted in Chinese/English with program adviser.

7. An on-site English writing sample.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC, SEDF, or CHND course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Adolescent Chinese Course of Study

Education Courses (22-23 Credits)

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs, 
Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12
The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

_Hours 30 hrs, plus 36 hrs fieldwork,
_Credits 2 cr_

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400*

_Hours 30 hrs, plus 36 hrs fieldwork,
_Credits 2 cr_

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500*

*coreq:*

_Hours 30 hrs, plus lab,
_Credits 2 cr_

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

_Hours 45 hrs,
_Credits 3 cr_

**SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12**

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

*prereq or coreq: SEDF 70400*

_Hours 45 hrs,
_Credits 3 cr_

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**
Examines the interrelationship between the educational environment and the adolescent’s learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

**prereq or coreq:** SEDF 70400  
**Hours** 45 hrs,  
**Credits** 3 cr

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

**Hours** 15 hrs,  
**Credits** 1 cr

**Take Either**

**CHND 73100 - Student Teaching in Chinese, Grades 7-12**

Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticism. These presentations will be videotaped for further self-analysis at home.

**prereq or coreq:** CHND 71300 or permission of the adviser  
**Hours** 60 days, 30 hrs seminar plus workshops and conferences  
**Credits** 5

**or**

**CHND 74110 - Practicum in Chinese, Grades 7-9**

Supervised practicum for teachers of Chinese in grades 7-9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74110 must also take CHND 74120.

**prereq or coreq:** CHND 71200 or permission of the adviser  
**Hours** 30 hrs plus conferences  
**Credits** 2

**plus**
CHND 74120 - Practicum in Chinese, Grades 10-12

Supervised practicum for teachers of Chinese in grades 10-12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74120 must also take CHND 74110.

prereq or coreq: CHND 71200 or permission of the adviser.
Hours 30 hrs plus conferences,
Credits 2

Chinese Courses (12 Credits)

CHIN 70100 - Chinese Phonology and Romanization

This course will introduce Chinese phonetics, phonology, and the major sound transcription systems commonly used in teaching Chinese as a foreign language and found in Chinese dictionaries. Emphasis will be on acquiring accurate tones and standard pronunciation for English-speaking learners as well as learners who speak a Chinese dialect at home.

Hours 3
Credits 3

CHIN 70300 - Chinese Orthography and Lexicology

This course will give an overview of the development of Chinese orthography and Chinese lexicology. Differences between the spoken and written styles will be discussed. The relationship of formation methods of the Chinese lexicon to syntactic functions and the process of character-based meaning derivation will be emphasized.

Hours 3
Credits 3

CHIN 70200 - Modern Chinese Pedagogical Grammar

This course will introduce the grammatical system of modern Mandarin Chinese, including the characteristics of grammatical morphemes, word order, and sentence and discourse structures. The content will highlight difficulties for native speakers of English and helping them to overcome these difficulties effectively. The course will discuss pedagogical issues concerning grammar instruction such as how it differs from syntax; what grammar points need to be taught at each level; and the methods of teaching grammar.

Hours 3
Credits 3

Advanced Language and Culture Training (may choose 1 or more)

CHIN 70500 - Topics in Advanced Conversation
This course will give students advanced language training in speaking in a wide range of topics as well as specialized vocabulary needed to discuss Chinese instruction in Chinese. Students will further practice speaking skills to achieve advanced-mid or advanced-high oral proficiency according to the ACTFL (American Council for Teachers of Foreign Languages) scale. Authentic materials will be used throughout the course.

Hours 3  
Credits 3

**CHIN 70600 - Topics in Advanced Writing**

This course will give students advanced language training in writing Chinese in everyday life situations as well as a Chinese language teaching professional with writing samples. Students will further practice writing skills to achieve advanced-low proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3  
Credits 3

**CHIN 70700 - Topics in Advanced Reading**

This course will give students advanced language training in reading Chinese. Students will further practice reading skills to achieve advanced-mid or advanced-high proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3  
Credits 3

**CHIN 70800 - Topics in Chinese Culture and Society**

This course will give students advanced language training in topics related to Chinese culture and society. Students will learn topics concerning Chinese culture and society in traditional and contemporary China. Authentic writing tasks and materials will be used throughout the course.

Hours 3  
Credits 3

**CHIN 70900 - Independent Study**

Students will carry out an independent project approved by their faculty advisor and chairperson and supervised by a staff member.

Credits 1-3

**Notes:**
1. Students who enter with initial or professional certification in adolescent education in another area will not be required to take any SEDC or SEDF courses. They will be required to take all CHIN and CHND courses in the program.
2. The minimum number of credits for the degree for students who enter with...
Culminating Experiences

Professional teaching portfolio - School of Education

Total credits: 24-35 credits.

Adolescent Earth Science - MA / Advanced Certificate

Education Adviser Stephen Demeo; (212) 772-4776; 908 West Building; sdemeo@hunter.cuny.edu

Geography Department General Advising Dana Reimer; 1006 North Building; (212) 772-5212; geo@geo.hunter.cuny.edu

This program is designed to serve individuals who do not have initial, professional or permanent certification in the teaching of science.

Admission Requirements

Master's Degree

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.

2. A major of at least 30 credits in the liberal arts or sciences.

3. At least 21 credits in geology, physical geography, earth science, or environmental science, including geographic techniques.

4. A general education core in the liberal arts and sciences to include: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in math/technology (a college course in calculus meets this requirement).

5. Two professional references to be included with the application for matriculation.

6. A personal statement to be completed as part of the application for admission.
Advanced Certificate

1. An undergraduate major of at least 30 credits in earth science and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College. Coursework at either the undergraduate or graduate level must include a course in introductory earth science with laboratory, one of introductory physics with laboratory, and one semester of calculus.

2. A general education core in the liberal arts and sciences to include the following (in addition to earth science): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of “C” or better satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one college course in calculus.

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in earth science.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

      Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.
Adolescent Earth Science Course of Study

(38-40 credits)

Education Courses (22-23 Credits) for Advanced Certificate and Master's Degree

Total credits for Advanced Certificate: 22-23 credits

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 30 hrs plus, 36 hrs fieldwork,
Credits 2 cr

Take Either

SEDC 75404 - Student Teaching in Earth Science, Grades 7–12
Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

Or

**SEDC 77414 - Practicum in Earth Science, Grades 7–9**

Hunter College-supervised practicum for teachers of earth science in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77414 must also take SEDC 77424.

*prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr

Plus

**SEDC 77424 - Practicum in Earth Science, Grades 10–12**

Hunter College-supervised practicum for teachers of earth science in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77424 must also take SEDC 77414.

*prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr

**Earth Science Courses (minimum of 16 cr) for Master's Degree Programs Only**

Total credits for Master's Degree: 30-40 credits

**PGEOG 70563 - Earth Science Today**

A survey of the primary topics included in an earth science curriculum (grades 7-12). Laboratory methodology and demonstration techniques used to convey information about the earth’s lithosphere, hydrosphere and atmosphere, as well as its place in the solar system, will be introduced.
Hours 45 hrs including conference,
Credits 3 cr
Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

GTECH 71000 - Introduction to GIS

Thorough introduction to geographic information systems with an emphasis on spatial data handling and project management.

Hours 60 hrs including conference (2 lectures, 2 labs),
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

Hours 45 hrs including conference,
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in the earth sciences. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA-TEP degree.

Hours 45 hrs, including conferences,
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

Students lacking a significant background in geology or earth science may be required to take the following course as their elective:

PGEOG 70564 - Introducing Earth Science at the Museum of Natural History
This course is part of the MA Teacher Education Program in Earth Sciences.

Culminating Experiences

- Professional teaching portfolio

Culminating Project in Earth Science:

Students will be expected either to prepare a research proposal or to conduct a research project while enrolled in the following, which serves as the capstone course in earth science.

**PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning**

Overview of research and theory related to misconceptions in the earth sciences. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA-TEP degree.

*Hours 45 hrs, including conferences,

Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

Exit Standards

An overall GPA of 3.0.

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master’s degree students will also be expected to either prepare a research proposal or to conduct a research project while enrolled in PGEOG 660, which serves as the capstone course in earth science.

Students must pass the School of Education technology assessment.

**Adolescent Education**

Return to: School of Education

Master's degree and advanced certificate programs at Hunter College prepare prospective teachers to serve as highly effective educators in urban middle and high schools. Through rigorous course work, fieldwork and student teaching
experiences in New York City schools, students learn how to provide an academically rigorous education to students of diverse backgrounds, abilities and interests.

**Content Knowledge**

Courses in the academic discipline offered by the School of Arts & Sciences will deepen teacher candidates' subject knowledge. They will learn how to use knowledge of their subject to design and implement classroom instruction that reflects State and professional standards.

**Professional Knowledge**

Teacher candidates will learn the theory and practice of effective pedagogy in their subject area. They will gain a grounding in the history, philosophy, psychology and sociology of education that will inform their teaching. They will study research-based theories and methods of teaching their subject to students with special needs, including special education students and English language learners.

**Skills**

Teacher candidates will learn to design lessons and units of work for students, and to adapt their instruction to students' prior knowledge and level of skill. They will gain expertise in analyzing and using assessments of student achievement to guide and inform their instruction. They will master the use of technology as a tool for teaching their subject. They will learn to manage their classrooms to provide effective instruction for all students. They will practice ways to assess and reflect on their teaching practice in order to strengthen their work with students and grow as professionals.

**Creating Community**

Teacher candidates will learn to create humane and ethical learning communities in their classrooms and schools in which all students receive the support they need to achieve academically. They will learn to communicate effectively with parents, families, community members and other members of the school faculty and staff in order to provide this support.

Education Adviser Jason Wirtz; (212) 772-4728; 949 West Building; jwirtz@hunter.cuny.edu

English Department Adviser (Master’s Degree only) Angela Reyes; (212) 772-5076; 1248 West Building; gradenglished@hunter.cuny.edu

These programs are designed to serve individuals who do not have initial, professional, or permanent certification in the teaching of English. Provisionally certified teachers should apply for the MA in English.

Admission Requirements

Master's Degree

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.

2. A minimum of 21 credits of advanced courses in British, American or World Literature written in English (no more than 3 credits of the latter).

3. A general education core in the liberal arts and sciences to include the following (in addition to English major): 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

4. Students must submit a writing sample of about 10 pages (preferably an undergraduate research paper of literary criticism).

5. Two references (preferably including at least one academic reference) to be included with the application for matriculation.

6. A personal statement to be completed as part of the application for matriculation.

Advanced Certificate

1. An undergraduate major of at least 30 credits in English, and a master’s degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College.

2. A general education core in the liberal arts and sciences to include the following (in addition to English): 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 6 credits in a language other than English (3 years of the same language in high school with a grade of “C” or better fulfills this requirement), 3 credits in the arts, and 12 credits in math/ science/ technology (a college course in calculus satisfies 6 credits of this requirement).

3. Two professional references to be included with the application for admission.
4. A personal statement to be completed as part of the application for admission.

5. In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in English.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. A student who receives a grade of F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students should take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

   Please note: Nonmatriculated students should apply for matriculation at the beginning of the semester in which they will complete 12 credits in the program.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Graduate English Course of Study

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.
SED 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

SED 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400

SED 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500
coreq:

SED 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

SED 71100 - Advanced Study of Young Adult Literature in Our Diverse Society

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

prereq or coreq: SEDF 70400
Hours 45 hrs, 
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs, 
Credits 1 cr

SEDC 72100 - Advanced Study of Teaching English Methods to a Diverse Population in Grades 7–12

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. These presentations will be videotaped for further self-analysis at home. New York State and city teaching standards will be applied throughout the course.

prereq: SEDC 71100
prereq or coreq: SEDF 70500
Hours 30 hrs plus, 36 hrs fieldwork, 
Credits 2 cr

Take Either

SEDC 75100 - Student Teaching in English, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72100
Hours 30 hrs, 60 days student teaching plus workshops and conferences, 
Credits 5 cr

Or

SEDC 77110 - Practicum in English, Grades 7–9

Supervised practicum for teachers of English in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 771.10 must also take SEDC 77120.

prereq: SEDC 72100
Supervised practicum for teachers of English in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77120 must also take SEDC 77110.

prereq: SEDC 72100
Hours 30 hrs plus conferences,
Credits 2 cr

English Department Courses (24 credits) for Master's Degree Programs

(see English Programs and Courses, for course descriptions)

Total Credits for Master's Degree: 46-47 credits

- **Literature** Eighteen credits in literature courses given by the English department, including 3 credits in Shakespeare, 3 credits in literature with a multicultural/minority emphasis, and 3-6 credits in American literature. *(Six credits of American literature are required, but 3 credits of undergraduate course work in American literature may be applied to this requirement; 3 credits from an appropriate undergraduate course in literature with a multicultural/minority emphasis may also be applied to this requirement.)*

**ENGL 60700 - English Linguistics**

Structure of Modern English, with emphasis on analytical method and pedagogical implications. Survey of phonology, morphology, syntax, and dialectal variation.

*Hours 45 hrs,*
*Credits 3 cr*

**ENGL 61500 - Rhetoric and Composition**

Rhetorical theory; analysis of selected masterpieces of prose; practice in writing a variety of prose forms.

*Hours 45 hrs,*
*Credits 3 cr*

Exit Criteria: Culminating Experiences
An overall GPA of 3.0.

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master's degree students must also pass a written comprehensive examination in British and American literature.

Students must pass the School of Education technology assessment.

**Adolescent French - MA / Advanced Certificate**

**Education Adviser Jenny Castillo;** (212) 772-4614; 905 West Building; jmcastil@hunter.cuny.edu

**Romance Languages Department Adviser (Master's Degree only) Marlene Barsoum;** (212) 772-3511; 1320 West Building; mbarsoum@hunter.cuny.edu

This program is designed to serve individuals who do not have initial or provisional certification in the teaching of French.

**Admission Requirements**

**Master's Degree**

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8 and a major of at least 30 credits in French with a GPA of 3.0.

2. A general education core in the liberal arts and sciences to include the following (in addition to a French major): 6 credits in English, 3 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

**Advanced Certificate**

Adolescent Italian - MA / Advanced Certificate

Education Adviser Jenny Castillo; (212) 772-4614; 905 West Building: jmcastil@hunter.cuny.edu

Romance Languages Department Adviser (Master's Degree Only) (Italian) Maria Paynter; (212) 772-5090; 1312 West Building: mpaynter@hunter.cuny.edu

and/or

Paolo Fasoli; (212) 772-5129; 1307 West Building: pfasoli@hunter.cuny.edu

These programs are designed to serve individuals who do not have initial or provisional certification in the teaching of Italian.

Admission Criteria

Master's Degree

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8 and a major of at least 30 credits in Italian with a GPA of 3.0.

2. A general education core in the liberal arts and sciences to include the following (in addition to an Italian major): 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

Advanced Certificate

1. An undergraduate major of at least 30 credits in Italian, and a master’s degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College.
2. A general education core in the liberal arts and sciences to include the following (in addition to Italian): 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus satisfies 6 credits of this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in Italian.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Adolescent Italian Course of Study

Total Credits for Advanced Certificate: 22-23 credits

SEDF 70300 - Social Foundations of Adolescent Education
Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

**Hours 45 hrs,  
Credits 3 cr**

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

**Hours 30 hrs, plus 36 hrs fieldwork,  
Credits 2 cr**

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400  
Hours 30 hrs, plus 36 hrs fieldwork,  
Credits 2 cr**

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500  
coreq:  
Hours 30 hrs, plus lab,  
Credits 2 cr**

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,  
Credits 3 cr**

**SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12**
Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

prereq or coreq: SEDF 70400  
*Hours 45 hrs,*  
*Credits 3 cr*

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,*  
*Credits 1 cr*

**SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71200  
prereq or coreq: SEDF 70500  
*Hours 30 hrs plus, 36 hrs fieldwork,*  
*Credits 2 cr*

*Take Either*

**SEDC 75202 - Student Teaching in Italian, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200  
*Hours 30 hrs, 60 days student teaching plus workshops and conferences,*  
*Credits 5 cr*

*Or*

**SEDC 77212 - Practicum in Italian, Grades 7–9**

Supervised practicum for teachers of Italian in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77212 must also take SEDC 77222 .
**SEDC 77222 - Practicum in Italian, Grades 10–12**

Supervised practicum for teachers of Italian in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77222 must also take SEDC 77212.

**Romance Languages (Italian) Courses (21 credits) for Master's Degree Programs Only**

- Graduate level Italian literature. See the Department of Romance Languages.

**Total Credits for Master's degree Program** 43-44

**Exit Criteria: Culminating Experiences**

Students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection.

Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation). See the School of Education Graduate Handbook in Adolescent Education, available in the Office of Educational Services, Room 1000 West Building, for specific guidelines.

See the Romance Languages section of the catalog for information about the comprehensive examination in Italian.

**Adolescent Latin - MA**

*Education Adviser Carla Asher;* (212) 772-4621; 1000 West Building; carla.asher@hunter.cuny.edu

*Classical and Oriental Studies Department Adviser Ronnie Ancona;* (212)772-4960; 1402 West Building; rancona@hunter.cuny.edu

This program is offered with the Classical and Oriental Studies Department. The applicant must be admitted by both the School of Education and the Classical and Oriental Studies Department.
The MA program in the teaching of Latin is designed for students who have majored in Latin on the undergraduate level and want to pursue a teaching career in adolescent education, and for teachers certified in another area who wish to gain certification in Latin. This program is not for individuals with initial or provisional certification in Latin.

Admission Criteria

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.
2. An index of at least 3.0 in an undergraduate major or the equivalent in Latin or classics. Students with 18 credits in Latin may be admitted provisionally if they are certified to teach a language other than Latin.
3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 3 credits in the arts, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
4. Two professional references to be included with the application for matriculation.
5. A personal statement to be completed as part of the application for matriculation.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC, SEDF, or LATED course work will not be allowed to continue in the program.
3. A student who receives a grade of F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.
5. All students should take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop series before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.
Adolescent Latin Course of Study

Education Courses (22-23 credits)

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
*Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
*Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
*Hours 30 hrs, plus 36 hrs fieldwork,
*Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
*coreq: SEDF 70500
*Hours 30 hrs, plus lab,
*Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education
Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,*
*Credits 3 cr*

**LATED 71200 - Methods 1: Classroom Organization, Management, and Assessment of Instruction in Latin**

Familiarizes prospective teachers of grades 7–12 with classroom organization patterns, rules and routines appropriate to the teaching of Latin. Close work with the design and evaluation of classroom lessons and materials in the context of national and state standards will be emphasized.

*prereq: completion of 18 credits of graduate Latin courses*
*prereq or coreq: SEDF 70400*

*Hours 45 hrs, including conferences,*
*Credits 3*

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,*
*Credits 1 cr*

**LATED 71300 - Methods 2: Teaching for Diverse Learners in Latin**

Familiarizes prospective teachers of grades 7–12 with pedagogical approaches for teaching a diverse body of learners, in light of national and state standards, in part by utilizing aspects of diversity in the ancient world. Innovative uses of technology, development of instructional units, individualizing for students with special needs, exploring aspects for a student-centered classroom will be emphasized.

*prereq: LATED 71200*
*prereq or coreq: SEDF 70500*

*Hours 30 hrs plus 36 hrs fieldwork,*
*Credits 2*

**Take Either**

**LATED 73100 - Student Teaching in Latin, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program.
prereq: LATED 71300
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

Or

**LATED 74110 - Practicum in Latin, Grades 7-9**

Supervised practicum in the teaching of Latin in grades 7–9. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take LATED 74110 must also take LATED 74120.

prereq: LATED 71300
Hours 30 hrs plus conferences,
Credits 2 cr

plus

**LATED 74120 - Practicum in Latin, Grades 10-12**

Supervised practicum in the teaching of Latin in grades 10–12. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take LATED 74120 must also take LATED 74110.

prereq: LATED 71300
Hours 30 hrs plus conferences,
Credits 2 cr

Latin Literature and Composition and Classical Culture Courses (24 credits)

*Each course is 45 hours, including conferences, and 3 credits unless otherwise noted.*

Latin 18 credits

**LAT 72700 - Speaking and Writing Latin**

Development of aural/oral and written skills, including traditional Latin Composition, history of the language, and analysis of Latin grammar and syntax.

**LAT 70800 - Supervised Reading**
Independent reading in individual Roman authors or particular literary genres supervised by a faculty member.

Prior approval of graduate director required. May be taken three times for credit. See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

**LAT 71000 - Topics in Latin literature.**

May be taken three times for credit.

A. At least 3 credits from the following courses:

- **LAT 71100 - Literature of the Republic**
  
  Selection from poetry and prose authors of the Latin language and the development of literary forms and styles.

- **LAT 71200 - Literature of the Augustan Age**
  
  Selections from poetry and prose authors of the Augustan period.

- **LAT 71300 - Literature of the Empire**
  
  Selections from poetry and prose authors of the Imperial period.

B. At least 3 credits from the following courses:

- **LAT 70500 - Caesar**
  
  Selections from the Commentaries on the Civil War and Commentaries on the Gallic War.

  See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

- **LAT 70600 - Cicero**
  
  Selections from the orations, philosophical treatises, and letters of Cicero.

  See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

- **LAT 70700 - Vergil**
  
  Selections from the Aeneid, Eclogues, and Georgics.

  See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

- **LAT 72500 - Ovid**
  
  Selections from the *Metamorphoses* and *Amores*. 
LAT 72600 - Horace and Catullus

Selections.

6 additional credits from the courses in section A and/or B or LAT 708 or LAT 710 (LAT 708 and LAT 710 may each be taken up to 3 times total).

Classical Culture 6 credits

CLA 70100 - The Legacy of Ancient Greece

A survey of Greek culture and civilization from the second millennium BCE to the rise of Alexander.

Hours 45 hrs, including conferences,
Credits 3 cr
See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70200 - The Legacy of Ancient Rome

A survey of the culture and civilization of Rome from the founding of the city to the reign of Marcus Aurelius.

Hours 45 hrs, including conferences,
Credits 3 cr
See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70700 - A Survey of Classical Literature in Translation

CLA 70600 - Supervised Reading

Independent reading on a particular aspect of ancient Greek or Roman culture, supervised by a faculty member.

Prior approval of graduate adviser required. May be taken twice for credit.

Culminating Experiences

Comprehensive examination in Latin and Classical Culture: Classics Division
Professional teaching portfolio: School of Education
See Exit Criteria

Total Credits for Master's Degree Program 39 - 47 credits

Note(s)
Students who enter with initial or provisional certification in adolescent education in a language other than English will be required to take LATED 712, LATED 713, and either LATED 731 or two of the other student teaching/practicum courses that cover grades 7–9 and 10–12 (9–11 credits). Based on a transcript review by the School of Education, such students may be required to complete additional courses in the pedagogical sequence as well. The minimum number of credits for the degree for students who enter with certification in adolescent education is 39 credits. Students may be exempted from up to 6 credits based on prior equivalent course work.

**Exit Criteria: Culminating Experiences**

An overall GPA of 3.0.

At the completion of all course work, candidates are required to take comprehensive examinations in Latin translation, Latin grammar, and classical culture. See the Classics section of this catalog for further information about these examinations.

Students will also develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Students must pass the School of Education technology assessment.

Check with the Classical and Oriental Studies Department adviser for information about the Comprehensive Examination in Latin and Classical Culture.

**Adolescent Mathematics - MA / Advanced Certificate**

**Program Coordinator Patrick Burke**
1138 West Building; (212) 772-4728;
patrick.burke@hunter.cuny.edu

The master's degree and advanced certificate degree programs are designed to serve individuals who do not have initial, professional, or permanent certification in the teaching of mathematics.

Applicants with permanent or professional certification in mathematics should apply to the Professional Certificate master's degree program.

**Admission Requirements**

**Master's Degree**

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.
2. 24 or more credits in mathematics approved by the graduate mathematics adviser, including a course in elementary statistics, a year of calculus and a course in matrix algebra or linear algebra. Applicants may be admitted on the condition that they complete up to 12 credits of additional course work in mathematics. A transcript review will determine which additional credits, if any, are needed.

3. A grade point average of at least 2.7 in mathematics courses.

4. A general education core in the liberal arts and sciences to include the following in addition to math: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 6 credits in science/technology, 3 credits in the arts.

5. A personal statement to be completed as part of the application for admission.

Advanced Certificate

1. An undergraduate major of at least 30 credits in mathematics and a master’s degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College. Coursework at either the undergraduate or graduate level must include a course in elementary statistics, a year of calculus and a course in matrix algebra or linear algebra.

2. A general education core in the liberal arts and sciences to include the following (in addition to mathematics): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of “C” or higher satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in science and technology.

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in mathematics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

*Note: It is recommended that students with two or more INs take an official leave of absence.*
5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

*prereq: SEDF 70400*

*Hours 30 hrs, plus 36 hrs fieldwork,*

*Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education
Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

**prereq:** SEDF 70500  
**coreq:**

**Hours** 30 hrs, plus lab,  
**Credits** 2 cr

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

**Hours** 45 hrs,  
**Credits** 3 cr

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent’s learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

**prereq or coreq:** SEDF 70400  
**Hours** 45 hrs,  
**Credits** 3 cr

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

**Hours** 15 hrs,  
**Credits** 1 cr

**SEDC 72300 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.
prereq: SEDC 71300

Take either

SEDC 75300 - Student Teaching in Mathematics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300

SEDC 77310 - Practicum in Mathematics, Grades 7–9

Supervised practicum for teachers of mathematics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77310 must also take SEDC 77320.

prereq: SEDC 72300

SEDC 77320 - Practicum in Mathematics, Grades 10-12

Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 773.20 must also take SEDC 77310.

prereq: SEDC 723

Mathematics and Statistics Master's Degree Only Course of Study

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra
MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 45
Credits 3
Open only to Teacher Education Program students.

MATH 64000 - Topics in Calculus

Topics in single and multi-variable calculus examined from an advanced standpoint and incorporating use of graphing calculators and such computer packages as MAPLE and MATHEMATICA.

prereq: MATH 63000
Hours 45
Credits 3
Open only to Teacher Education Program students

MATH 66100 - History of Mathematics

Survey of the history of mathematics and statistics to the present including roots in non-Western culture and contributions of women and minorities.

Hours 45
Credits 3

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course familiarity with a Windows computing environment encouraged
Hours 45
Credits 3

Note: Students who present certain courses and prior experience may be able to substitute another course or seminar(s) with approval of graduate mathematics adviser.

Culminating Experiences

Comprehensive examination in two parts: mathematics and pedagogy:

See Exit Standards Mathematics and Statistics department
Exit Standards

An overall GPA of 3.0.

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master's degree students must also pass a comprehensive examination in mathematics. A student can take the comprehensive exam in mathematics twice; after that, a committee formed by the mathematics/statistics chairperson and consisting of members from the Department of Mathematics and Statistics and the School of Education will decide if the students can take the exam a third and final time.

Students must pass the School of Education technology assessment.

Adolescent Mathematics Professional Certificate- MA

Program Coordinator Patrick Burke
1138 West Building; (212) 772-4728;
patrick.burke@hunter.cuny.edu

This 30-credit program provides advanced coursework in methods of teaching mathematics, as well as coursework in mathematics focused on the needs of secondary teachers. It is intended for teachers holding initial certification in mathematics 7-12 and leads to professional certification in adolescent mathematics. It is also intended for teachers who already hold professional or permanent certification and who are seeking to further their knowledge/skills, and gain additional graduate credits. Teachers holding initial, permanent or professional certification in adolescent mathematics may apply to this program. Students who do not hold New York State certification in mathematics should refer to the Adolescent Mathematics program, which leads to initial certification.

The program is designed to increase students' pedagogical and content knowledge in mathematics. Coursework includes courses in the School of Education and in the Mathematics Department of the School of Arts & Sciences.

Admission Requirements

1. Completion of an approved bachelor's degree program with a minimum overall GPA of 2.8
2. New York State Certification to teach mathematics in grades 7-12.
3. Students must have at least 24 undergraduate credits in mathematics with a B average, including courses in Calculus and Linear Algebra.

4. Students who possess a master’s degree in mathematics or mathematics education must have a minimum overall GPA of 3.0 in their graduate courses, with a B average in mathematics courses.

Professional Certification in Mathematics Course of Study

Total Credits: 30 credits

**CEDC 74000 - Contemporary Mathematics in the Elementary School**

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

*Hours 45 hrs,
Credits 3 cr*

**SEDC 73000 - Development of Mathematical Thinking: Implications For Teaching and Learning Mathematics in Grades 7 to 12**

A course exploring the role of the teacher in developing mathematical reasoning ability in students. What are the possibilities and limitations? A research-based approach to the problem of providing a solid mathematics education for all students.

**SEDC 73100 - Seminar in Mathematics Curriculum, Grades 7-12**

A study of the current Standards-Based Mathematics Curriculum from an historical perspective.

**SEDC 73200 - Research Seminar in Mathematics Education, Grades 7-12**

A course in which students will study the research relative to the mathematics curriculum and complete a research project in a field of mathematics education of their choice.

**MATH 62000 - Secondary School Mathematics from an Advanced Perspective I**

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

*prereq: Calculus II and a course in linear or matrix algebra
Hours 45 hrs,
Credits 3 cr
Open only to Teacher Education Program students.*
MATH 62300 - Theory of Numbers

Congruences, quadratic residues, elementary diophantine analysis, continued fractions, sums of squares.

prereq: a course in linear algebra
Hours 45 hrs,
Credits 3 cr

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 45
Credits 3
Open only to Teacher Education Program students.

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course familiarity with a Windows computing environment encouraged
Hours 45
Credits 3

Electives (Choose 2): Any MATH or STAT 600 or 700 Level Course (6 cr)

Exit Standards

An overall GPA of 3.0.

Students must pass the School of Education technology assessment.

Adolescent Physics - MA / Advanced Certificate

Education Adviser Stephen Demeo; (212) 772-4776; 908 West Building; sdemeo@hunter.cuny.edu

Physics and Astronomy Department Adviser (Master's Degree Only) Rodney Varley; (212) 772-5252; 1216 North Building; rvarley@hunter.cuny.edu

This program is designed to serve individuals who do not have initial, professional or permanent certification in the teaching of science.

Admission Requirements
Master's Degree

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.

2. A major in physics.

3. A general education core in the liberal arts and sciences to include the following (in addition to a physics major): 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in math/technology (a college course in calculus meets 6 credits of this requirement).

4. Two professional references to be included with the application for admission.

5. A personal statement to be completed as part of the application for admission.

Advanced Certificate

1. An undergraduate major of at least 30 credits in physics and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College.

2. A general education core in the liberal arts and sciences to include the following (in addition to physics): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of “C” or higher satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in math/technology (a college course in calculus meets this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in physics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of coursework. Any student who does not receive a passing score on the LAST must enroll in the school’s reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Adolescent Physics Course of Study

Education Courses For Advanced Certificate And Master’s Degree Programs

Total Credits for Advanced Certificate: 22-23 credits

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,*  
*Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,*  
*Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**
Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500
coreq: 
Hours 30 hrs, plus lab,
Credits 2 cr

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent’s learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr
SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

_prereq:_ SEDC 71300
_prereq or coreq:_ SEDF 70500

*Hours* 30 hrs plus, 36 hrs fieldwork,
*Credits* 2 cr

_Take either_

SEDC 75403 - Student Teaching in Physics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

_prereq:_ SEDC 72400

*Hours* 30 hrs, 60 days student teaching plus workshops and conferences,
*Credits* 5 cr

—or—

SEDC 77413 - Practicum in Physics, Grades 7–9

Hunter College-supervised practicum for teachers of physics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77413 must also take SEDC 77424.

_prereq:_ SEDC 72400

*Hours* 30 hrs plus conferences,
*Credits* 2 cr

plus

SEDC 77423 - Practicum in Physics, Grades 10–12

Hunter College-supervised practicum for teachers of physics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77423 must also take SEDC 77413.

_prereq:_ SEDC 72400

*Hours* 30 hrs plus conferences,
*Credits* 2 cr
Physics Courses* (16 Credits) For Master’s Degree Programs Only

**PHYS 63000 - Science and Society**

Study of the interactions between technological and societal changes, with an emphasis on directing productive critiques and debates over potentially controversial technological change within the classroom. Focusing on present-day issues, students will learn various models of analyzing the impact of scientific change on society and how social change directs science.

*prereq: one graduate-level physics course or permission of instructor*

*Hours 45*

*Credits 3*

**PHYS 66000 - Challenging Concepts in Physics: Using Research to Identify Student Misconceptions and Assess Student Learning**

Overview of research and theory related to misconceptions in physics. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the comprehensive examination for the science portion of the MA degree.

*prereq: PHYS 63000 and two elective courses in physics or permission of instructor*

*Hours 60*

*Credits 4*

**Plus three electives (9 cr)**

**PHYS 60500 - Mathematical Physics**

Introduction to basic mathematical techniques used in physics.

*Hours 45*

*Credits 3*

**PHYS 61500 - Electromagnetic Theory**

Electrostatics; electromagnetics; Maxwell’s equations with application to waves; waves in guides; radiation.

*Hours 45*

*Credits 3*

**PHYS 62500 - Introduction to Quantum Mechanics**

Fundamental ideas in the study of atomic sized systems.

*Hours 45*

*Credits 3*

**PHYS 64500 - Solid State Physics**
Introduction to basic theory and techniques in study of matter on solid state.

*Hours 45  
*Credits 3

**PHYS 68500 - Numerical Methods I**

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations.

*Cross-listed* (Cross-listed with MATH 68500.)

*prereq: MATH 15500  
*Hours 45  
*Credits 3

*Note: 700-level physics courses offered at the Graduate Center can be substituted for 600-level courses with permission of the graduate adviser.*

**Culminating Experiences**

Culminating Project in Physics: See Exit Standards  
Physics Department

Professional teaching portfolio  
School of Education

**Total Credits of Master's Degree Program 38-39 credits**

**Exit Standards**

An overall GPA of 3.0

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will be implemented to assess the quality of the culminating experiences (portfolio and reflective presentation).

Master’s degree students will also be expected to either prepare a research proposal or to conduct a research project while enrolled in PHYS 660, which serves as the capstone course in physics.

Students must pass the School of Education technology assessment.

**Adolescent Social Studies - MA / Advanced Certificate**

*Education Adviser Terrie Epstein*; (212) 772-4675; 1108 West Building; tepstein@hunter.cuny.edu

*History Department Adviser (Master's Degree only) Jonathan Rosenberg*; (212) 772-5546; 1519A West Building; jrosen8637@aol.com
This program is designed to serve individuals who do not have initial, professional or permanent certification in the teaching of social studies.

**Admission Requirements**

**Master's Degree**

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.

2. A major of at least 30 credits in one of the areas of social studies (history, political science, geography, or economics) with a GPA of 3.0, including at least 12 credits in history, 3 credits in geography, 3 credits in political science, and 3 credits in economics. The course work in history must include at least one course in each of the following areas: U.S. history, European history, and world or non-Western history.

3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

4. Two professional references to be included with the application for admission.

5. A personal statement to be completed as part of the application for admission.

**Advanced Certificate**

1. An undergraduate major of at least 30 credits in one of the areas of social studies, and a master’s degree in the discipline (history, political science, geography, or economics) with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College. Coursework at either the undergraduate or graduate level must include 21 credits of history, 3 credits in geography, 3 credits in political science and 3 credits in economics. The coursework in history must include at least one course in each of the following areas: U.S. history, European history, and world or non-Western history.

2. A general education core in the liberal arts and sciences to include the following (in addition to social studies): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school fulfills this requirement), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus satisfies 6 credits of this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in social studies.
Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Adolescent Social Studies Course of Study

Education Courses for Advanced Certificate and Master’s Degree Programs

Total Credits for Advanced Certificate: 22-23 credits

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,
Credits 3 cr
SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
*Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
*Hours 30 hrs, plus 36 hrs fieldwork,
*Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
*coreq: SEDF 70600
*Hours 30 hrs, plus lab,
*Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
*Credits 3 cr

SEDC 71500 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Social Studies, Grades 7–12

Rationales and methodologies for teaching social studies based on current theories of the nature of students, the social sciences and secondary schooling.

*prereq or coreq: SEDF 70400
*Hours 45 hrs,
*Credits 3 cr

SEDC 72000 - Adolescent Health and Safety
Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,*

*Credits 1 cr*

**SEDC 72500 - Methods II: Intensive Study of Teaching Diverse Learners in Social Studies, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71500*

*prereq or coreq: SEDF 70500*

*Hours 30 hrs plus, 36 hrs fieldwork,*

*Credits 2 cr*

**Take either**

**SEDC 75500 - Student Teaching in Social Studies, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72500*

*Hours 30 hrs, 60 days student teaching plus workshops and conferences,*

*Credits 5 cr*

-or-

**SEDC 77510 - Practicum in Social Studies, Grades 7–9**

Supervised practicum for teachers of social studies in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77520.

*prereq: SEDC 72500*

*Hours 30 hrs plus conferences,*

*Credits 2 cr*

-plus-

**SEDC 77520 - Practicum in Social Studies, Grades 10–12**
Supervised practicum for teachers of social studies in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77510.

prereq: SEDC 72500
Hours 30 hrs plus conferences,
Credits 2 cr

History And Geography Courses (18 Credits) For Master’s Degree Programs Only

History and Geography Courses

**History**  
15 credits in history including 3 credits in each of the following areas: U.S. history, European history, world or non-Western history. Students who have completed 6 credits in any one of these areas at the undergraduate level will have fulfilled this requirement for that particular area, but will still have to complete at least 15 credits in graduate history courses. Within the 15 credits required in history, at least 3 credits should focus on gender in history and 3 credits should focus on an analysis of diversity in the U.S.

**Plus 3 Credits (One Course) from the Following:**

**GEOG 70100 - Geographic Thought and Theory**

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

*Hours 45 hrs including conference,*
*Credits 3 cr*

*fall only*This course may be used as part of the MA Teacher Education Program in Social Studies.

**GEOG 70500 - Cultural and Social Geography**

Review of recent work in cultural and social geography; emphasis on literature, critiques.

*prereq: GEOG 34700 and 34100 or permission of instructor*
*Hours 45 hrs including conference,*
*Credits 3 cr*

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

**GEOG 70600 - Latin Americanist Geography**

Major paradigms, theories and methodologies in geographic research on Latin America including historical, cultural, social, economic, urban, physical, and environmental geography.

*Hours 45 hrs including conference,*
Credits 3 cr
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70900 - Geography of Selected World Regions

Intensive examination of physical and social geography of specific world regions. (Each semester one or two regions will be covered.)

 prerequisites: permission of the graduate adviser
Hours 45 hrs including conference
Credits 3 cr
Field courses may be offered during intersession periods. GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 71200 - Geography of Sustainable Development in Developing Countries

Analysis of factors that influence sustainable development, e.g., available resources, environment, population, food production, water supply in developing countries.

 prerequisites: graduate standing and one course focusing on development of a developing region, or permission of instructor
Hours 45 hrs including conference,
Credits 3 cr
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 74100 - Population Geography

Theoretical and empirical analyses of spatial distribution of population. Particular emphasis is on processes and impacts of migration, residential mobility, and immigration.

 Hours 45 hrs including conference,
Credits 3 cr
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 74200 - International Migration and Ethnicity

Asynchronous online seminar. Examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analyses of ethnic and racial minorities in the United States.

 Hours 45 hrs including conference,
Credits 3 cr
GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

Culminating Experiences

Comprehensive examination in history: History department (see Exit Standards)

Professional teaching portfolio: School of Education

Total Credits for Master's Degree Program: 40-41 credits

Exit Standards

An overall GPA of 3.0

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master’s degree students must also pass a written comprehensive examination in history. These examinations are offered twice each year, in February and September. A student who fails the examination twice is dropped from the program but may appeal in writing to the Graduate Committee, Department of History, to take the examination a third time.

Students must pass the School of Education technology assessment.

Adolescent Spanish - MA / Advanced Certificate

Education Advisor Jenny Castillo; (212) 772-4614; 905 West Building; jmcastil@hunter.cuny.edu

Romance Languages Department Adviser, Spanish (Master's Degree only) Magdalena Perkowska; (212) 772-5132; 1319 West Building; mperkows@hunter.cuny.edu

and/or

James Pellicer; (212) 772-5125; 1333 West Building; jpellice@hunter.cuny.edu

This program is designed to serve individuals who do not have initial or provisional certification in the teaching of Spanish.
Admission Criteria

Master's Degree

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8, or better, and a grade point average in Spanish courses of 3.0. Applicants must have a minimum of 18 credits in Spanish literature above the intermediate level.

2. A general education core in the liberal arts and sciences to include the following (in addition to a Spanish major): 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

Advanced Certificate

1. An undergraduate major of at least 30 credits in Spanish, and a master’s degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College.

2. A general education core in the liberal arts and sciences to include the following (in addition to Spanish): 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus satisfies 6 credits of this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in Spanish.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   *Note: It is recommended that students with two or more INs take an official leave of absence.*

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

**B. Fieldwork Benchmarks**

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

---

**Adolescent Spanish Course of Study**

**Total Credits for Advanced Certificate: 22-23 credits**

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,  
Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,  
Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms,
motivating students, and assessing their learning.

*prereq: SEDF 70400
*Hours 30 hrs, plus 36 hrs fieldwork,
*Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
*coreq: Hours 30 hrs, plus lab,
*Credits 2 cr*

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
*Credits 3 cr*

**SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12**

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

*prereq or coreq: SEDF 70400
*Hours 45 hrs,
*Credits 3 cr*

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,
*Credits 1 cr*

**SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum
in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71200
prereq or coreq: SEDF 70500
Hours 30 hrs plus, 36 hrs fieldwork,
Credits 2 cr

Take either

**SEDC 75203 - Student Teaching in Spanish, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 722
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

Or

**SEDC 77213 - Practicum in Spanish, Grades 7–9**

Supervised practicum for teachers of Spanish in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77213 must also take SEDC 77223.

prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr

Plus

**SEDC 77223 - Practicum in Spanish, Grades 10**

Supervised practicum for teachers of Spanish in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77223 must also take SEDC 77213.

prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr

Romance Languages (Spanish) Courses for Master's Degree Program Only (21 credits)
• Graduate level Spanish and Spanish-American literature. See Romance Languages department.

Culminating Experiences

• Comprehensive examination in Spanish
• Professional teaching portfolio

Total Credits for Master's Degree Program 43-44 credits

Exit Standards

Students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection.

Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation). See the School of Education Graduate Handbook in Adolescent Education, available in the Office of Educational Services, Room 1000 West Building, for specific guidelines.

See the Romance Languages section of the catalog for information about the comprehensive examination in Spanish.

Childhood, Early Childhood, and Bilingual Education Programs

Bilingual Education Extension (Spanish/English) - Advanced Certificate

This is a five-course, 14 credit free-standing program of study for two groups of students.

The first group consists of teachers, supervisors or administrators who already have a master’s degree and either permanent or professional teaching certification. The second group consists of individuals with a bachelor’s degree who hold a teaching position in a bilingual setting and have an initial certificate.

The program has been designed to prepare individuals to become effective bilingual practitioners with high levels of competence using two languages as mediums of instruction.

Admission Requirements

Students with a Master's Degree

1. A master’s degree from an accredited institution acceptable to Hunter College with an overall GPA of at least 3.5.

2. Initial, professional or permanent certification in any of the areas below, as indicated in the State regulations:
• Early childhood education (birth-grade 2)
• Childhood education (grades 1-6)
• Common Branches PreK-grade 6
• Middle childhood education (grades 5-9)
• Adolescent education (grades 7-12)
• Special subjects
• Literacy education
• Students with disabilities in early childhood, childhood, middle childhood, or adolescent education or special education K-12
• Teachers of students who are blind or visually impaired, deaf or hard of hearing, or speech and language impaired

3. An on-site writing sample in English and in Spanish and an interview conducted in English and in Spanish.

4. Two letters of recommendation including one from a supervisor.

Students with a Bachelor's Degree:

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall GPA of 2.8 or better.

2. A teaching position in a bilingual setting and NYS initial or permanent certification.

3. An on-site writing sample in English and in Spanish and an interview conducted in English and Spanish.

4. A recommendation from a supervisor.

Bilingual Extension (Spanish-English) Course of Study

Total Credits: 14 credits

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*

**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

*prereq or coreq: BILED 70100
Hours includes 5 hrs of fieldwork
Credits 3 cr*
BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: BILED 70100
Hours 30 hrs plus 5 hrs of fieldwork and lab,
Credits 2 cr

BILED 71100 - Bilingual Literacy

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

coreq: BILED 71150
prereq or coreq: BILED 77100
Hours 30 hrs,
Credits 2 cr

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100
Hours 75 hrs,
Credits 1 cr

BILED 77800 - Instruction Through the Native Language

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq:
prereq or coreq: BILED 70100
Hours 45 hrs plus 10 hrs of fieldwork,
Credits 3 cr

Exit Standards:
1. An overall GPA of 3.0

2. A grade of at least B in the field experience course BILED 711.50.

**Childhood Education, Grades 1-6 - MSEd**

*Program Coordinator Jason Riffaterre; 1001 West; (212) 772-4638; jriffate@hunter.cuny.edu*

Hunter College’s program in childhood education has been nationally recognized by the Association for Childhood Education International (ACEI). This program, which focuses on preparing teachers for New York City public schools, is designed for students who do not have New York State certification in childhood education. Applicants who have initial certification in childhood education should apply to one of the other graduate teacher education programs at Hunter College such as Literacy; Childhood Special Education, Grades 1-6; TESOL (pre-K - 12); Early Childhood Education, Birth through Grade 2; or the Childhood Education Math/Science Specialist program. A master’s degree from any of these programs will meet the academic requirements for a professional certificate in that area as well as in childhood education.

The number of credits required to complete this master’s degree program is determined by the student’s educational background. Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 45-47 credits. Students may be exempted from up to 12 credits based on prior equivalent course work.

**Admission Requirements**

1. An undergraduate degree with a grade point average of at least 2.8.

2. A liberal arts or sciences major (or interdisciplinary concentration) of at least 30 credits.

3. A liberal arts core to include the following: 6 credits in English, including one course in English composition in with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better); 6 credits in social studies (one course in must be in history or geography); 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 3 credits in the arts; 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement); and 3 credits in information retrieval (library studies, research, computer literacy or educational technology).

4. A personal statement to be completed as part of the application for admission.

**Progress Standards**

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students should take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any additional courses.

B. Fieldwork Benchmark

All field experiences and student teaching will take place in New York City public schools.

Students must receive a grade of at least B in fieldwork (CEDC 715). Any student who receives a grade of B-, C+ or C must apply to the Chairperson of the Department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F will not be allowed to continue in the program.

Childhood Education Course of Study

Total Credits: 33 - 47 credits

This program includes four types of courses: Initial Core; Literacy Core; Extended Core; and Culminating Core. Teacher candidates should complete the courses in the Initial Core before starting the Literacy Core. Matriculated students may take courses from the Extended Core at any time as long as they meet the individual course prerequisite requirements. The Culminating Core is completed during the last semester or last two semesters of the program.

Initial Core:

CEDF 71500 - Diversity in the American School

Advanced, graduate-level survey of current issues and theories of diversity and their impact upon the contemporary American school. Topics will be from an interdisciplinary perspective with attention to social policy implications.

Hours 45 hrs,
Credits 3 cr

CEDC 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

Literacy Core:

CEDC 73000 - Perspectives on Literacy Across the Content Areas

Literacy across the curriculum. Skills, strategies and techniques to teach reading and writing in the content areas will be developed. Expository as well as narrative texts will be utilized.

prereq: CEDF 70900; CEDC 70400
coreq: CEDC 71500 and 72200
Hours 30 hrs,
Credits 2 cr

CEDC 72200 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq: CEDF 70900
coreq: CEDC 71500 and CEDC 73000
Hours 30 hrs,
Credits 2 cr

CEDC 71500 - Fieldwork: Reading and Social Studies

Supervised experiences in pedagogical applications of literacy and social studies methods courses. Students will complete six hours of fieldwork per week for a minimum of 75 contact hours per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individual and small groups of children. Students will be placed in Hunter College-selected elementary schools and other educational programs.
prereq: CEDF 70900
coreq: CEDC 73000 and 72200
Hours 75 hrs of fieldwork,
Credits 1 cr

Extended Core:

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

prereq: CEDF 70900
Hours includes 5 hrs of field work

CEDC 70000 - The Art of Effective Teaching

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

prereq or coreq: CEDF 70900
Hours includes 5 hrs of fieldwork

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900
CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

prereq or coreq: CEDF 70900

CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

CEDF 79200 - Integrative Seminar: Research in Childhood Education

Students prepare research proposals on topics which summarize and apply previous learnings. Written and oral presentations.

CEDC 72400 - Student Teaching in Grades 1–3 and 4–6
Supervised student teaching at two grade levels, 1–3 and 4–6, in an elementary school selected by Hunter College; four full days a week plus conferences and professional development workshops. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

**prereq:** completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

**Hours** 30 hrs of seminar plus a minimum of 60 days of student teaching.

**Credits** 5 cr

Or one of the following:

**CEDC 72500 - Student Teaching in Grades 1–3**

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 728: Practicum in grades 4–6. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed EDC 72400 or 72700.

**prereq:** completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

**Hours** 30 hrs of seminar plus 30 days of student Teaching

**CEDC 72700 - Practicum in Grades 1–3**

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800. Note: Applications for spring semester student teaching are due in October; applications for fall semester practicum are due in March. Students who receive a grade of C+ or C in practicum must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72700.

**prereq:** completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

**Hours** 30 hrs of seminar plus supervision and conferences.

**Credits** 2 cr

Plus either

**CEDC 72600 - Student Teaching in Grades 4–6**

Teacher candidates who take this course must also take CEDC 72500 or CEDC 72700. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This
course is limited to students who are employed as teachers and have completed, or will complete, CEDC 72700 Practicum in grades 1–3.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus 30 days of student teaching

Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72800.

Or

CEDC 72800 - Practicum in Grades 4–6

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72700.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus supervision and conferences, Credits 2 cr

Note: Applications for spring semester practicum are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in practicum must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72600.

Exit Standards

1. An overall GPA of at least 3.0.

2. A grade of B or better in student teaching and/or practicum. Any student who obtains a grade of F in student teaching and/or practicum will not be allowed to continue in the program. Any student who obtains a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for student teaching and/or practicum, which may be repeated only once. Students must complete all required days for student teaching. Those who do not complete the minimum required days will receive a grade of Incomplete in that course, preventing them from graduating that semester.

3. Completion of Integrative Seminar (CEDF 792) with a grade of B or better.

4. Students must pass the School of Education technology assessment.

Childhood Education, Grades 1-6 Bilingual (Spanish/English) - MSEd
The number of credits required to complete the master’s degree in childhood education with a bilingual extension is determined by the student’s educational background.

Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 46 credits. Master’s candidates who have completed some pedagogical coursework may be exempted from up to 12 required credits by providing transcripts and course syllabi as evidence that the content is equivalent and a grade of at least B has been attained. In such cases, the minimum number of credits for the degree is 34.

This program is for students who do not have New York State initial or provisional teacher certification. The purpose of this program is to prepare individuals to become effective bilingual teachers. The focus of the program is to develop high levels of teaching competencies in the participants based on using two languages as mediums of instruction.

**Admission Requirements**

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with a GPA of 2.8 or better.

2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.

3. A general core in the liberal arts and sciences of at least 27 credits, distributed as follows: 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement); 6 credits in English including one course in English composition with a grade of B plus a writing intensive course in any discipline with a grade of B or better; 6 credits in social studies (of which one course must be in history or geography); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational).

4. Completion of a satisfactory writing sample in English and in Spanish as part of the application process.

5. An on-site writing sample in English and in Spanish and an interview conducted with at least two professors.

**Progress Standards**

**A. 12-Credit Progress Standards for Matriculated Students**

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   *Note: It is recommended that students with two or more INs take an official leave of absence.*

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course
work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Childhood Education With a Bilingual Extension: Course of Study

Total Credits: 46 credits

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

*Hours includes 5 hrs of fieldwork*

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*

CEDCF 70050 - The Art and Science of Effective Teaching

This course is designed to introduce pre-service bilingual and TESOL educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

*Hours includes 5 hrs of fieldwork*

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

*prereq or coreq: CEDF 70900*

*Hours includes 10 hrs of fieldwork*
**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

*prereq or coreq: BILED 70100*

*Hours includes 5 hrs of fieldwork*

*Credits 3 cr*

**CEDC 72950 - Fieldwork in Childhood Education for Bilingual Educators**

Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*prereq: CEDF 70900; BILED 70100. Observing and assisting teaching in an elementary school setting*

*Hours 15 hrs of seminar plus 50 hrs fieldwork,*

*Credits 1 cr*

**BILED 77100 - Psychology of Language Learning and Teaching**

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

*prereq or coreq: BILED 70100*

*Hours 30 hrs plus 5 hrs of fieldwork and lab,*

*Credits 2 cr*

**CEDF 70800 - Social, Historical, Philosophical Foundations of Education: The American School**

For students pursuing certification in childhood education with a bilingual extension or in TESOL. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

*prereq or coreq: CEDF 70900*

*Hours 45 hrs,*

*Credits 3 cr*

**BILED 71100 - Bilingual Literacy**

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.
**BILED 71150 - Fieldwork in Bilingual Literacy**

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

**CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology**

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

**CEDC 70500 - Mathematics Curriculum and Methods**

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

**CEDC 70300 - Teaching Science in the Elementary School**

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.
CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

BILED 71700 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

BILED 77800 - Instruction Through the Native Language

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

BILED 78000 - Bilingual Research Seminar

The bilingual research seminar, which serves as the culminating experience, focuses on the relationship between educational research and the classroom teacher. Students will review significant bilingual research to consider the implications of findings for bilingual instruction, and they will initiate their own classroom/community studies to reflect upon their own practice and to become critical consumers of research.
Take Either

**BILED 78200 - Supervised Student Teaching Grades 1–3 and 4–6**

Supervised student teaching at two grade levels in an elementary bilingual setting selected by Hunter College; four full days a week plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*prereq or coreq: completion of 39 cr of course work or permission of the program coordinator*

**Hours** 40 days (20 in grades 1-3, 20 in grades 4-6) plus 15 hrs of seminar

**Credits** 4

Or One of the Following

**BILED 78500 - Student Teaching in Grades 1–3**

Twenty days of supervised student teaching at grade level 1–3 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

*prereq: completion of 39 cr of course work or permission of the program coordinator*

**Hours** 20 days student teaching, 15 hrs of seminar plus conferences

**Credits** 2

**BILED 78300 - Practicum in Grades 1–3**

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

*prereq: completion of 39 cr of course work or permission of the program coordinator*

**Hours** 15 hrs of seminar plus conferences

**Credits** 2

Plus One of the Following

**BILED 78600 - Student Teaching in Grades 4–6**
Twenty days of supervised student teaching at grade level 4–6 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

prereq: completion of 39 credits of course work or permission of the program coordinator

BILED 78400 - Practicum in Grades 4–6

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500

prereq: completion of 39 cr of course work or permission of the program coordinator

Exit Standards

1. An overall GPA of 3.0.

2. A grade of B or better in student teaching and/or practicum. Any student who obtains a grade of F in student teaching and/or practicum will not be allowed to continue in the program. Any student who obtains a grade of B-, C+, or C must apply to the department chairperson for permission to reregister for student teaching and/or practicum, which may be repeated only once. Any student who does not complete the full complement of required days of student teaching will receive a course grade of IN (Incomplete) and must fulfill the remaining mandated days.

3. Completion of the culminating experience BILED 780 (Bilingual Research Seminar), with a grade of B or better.

Childhood Education: Mathematics/Science Specialization - MSEd

Program Coordinator Patrick Burke; 1138 West Building; (212) 772-4728; patrick.burke@hunter.cuny.edu

This is a 33-credit program that prepares students with NYS initial/permanent certification in childhood education to become better qualified in the teaching of mathematics and science in the elementary grades. This program leads to professional certification in childhood education.
Admission Requirements

1. Undergraduate degree with a GPA of at least 2.8.
2. New York State initial professional or permanent certification in childhood education.
3. Completion of a satisfactory writing sample as part of the application process.
4. Two letters of recommendation including one from a supervisor.
5. Successful completion with a grade of C or better of college level mathematics course and a lab science course. Those who do not meet the mathematics requirement must successfully complete MATH 104 and MATH 105 in the School of Arts and Sciences. Those who do not meet the science requirement must take a one semester course in a lab science (biology, chemistry, physics or geology.)

Course Waivers

1. Master’s candidates may transfer in and/or waive up to three required courses in the master’s in mathematics and science education by providing evidence of prior equivalent coursework.
2. An elective course must be substituted for a waived course with adviser’s approval.
3. Waived courses provide an opportunity for teacher candidates to deepen their knowledge by taking advantage of the academic wealth available in the departments within the School of Education or the School of Arts and Sciences. Any graduate course(s) in either the School of Education or the School of Arts and Sciences for which prerequisites have been met may be substituted for waived courses with the permission of the program coordinator.

Progress Standards

1. Students must maintain an overall GPA of 3.0, which includes courses in the arts and sciences subject as well as in teacher education, in order to continue the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade of F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
   Note: It is recommended that students with two or more INs take an official leave of absence.

Childhood Education Mathematics/Science Specialization Course of Study

Total Credits: 33 credits
CEDC 71600 - Educational Technology in Mathematics and Science Teaching/Learning

An advanced educational technology course for students concentrating in mathematics and science at the elementary school level. Students will link prior knowledge of instructional technology to curriculum development creating the strategies to design integrated learning materials in mathematics and science.

Hours 45 hrs,
Credits 3 cr

CEDC 73800 - The English Language: Theories and Pedagogical Implications

An overview of the acquisition, structure and use of English. Its goal is to provide Pre-K thru 6 teachers who already have prior certification in childhood education with the awareness and understanding of the aspects of the English language they will need in order to teach a variety of content area in grades Pre-K thru 6.

Hours 45 hrs,
Credits 3 cr

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

Hours 45 hrs,
Credits 3 cr

CEDC 74200 - Workshop Seminar in Elementary School Mathematics/Science

The major course goals are to continue to develop a foundation for the growth of the professional mathematics/science educator and to increase the effectiveness as a curriculum decision-maker. Through selective experiences, the course will focus on instructional styles and strategies.

prereq: all program courses except CEDC 74300

Hours 45 hrs,
Credits 3 cr

CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

Hours 45 hrs,
Credits 3 cr

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.
prereq: all program courses except CEDC 74200 and CEDC 74300

Hours 45 hrs,
Credits 3 cr

CEDC 77600 - Planet Earth: Life Science, Environmental and Earth Science for Elementary School Teachers

Concepts in the biological sciences, ecological and earth sciences necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

Hours 45 hrs,
Credits 3 cr

CEDC 77700 - Physical Science for Elementary Teachers

Concepts in the physical sciences, chemistry and physics necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

Hours 45 hrs,
Credits 3 cr

CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.
CEDF 79200

CEDC 74600 - Geographic Perspectives in Elementary Education

Geographic principles and practices; development of pedagogic skills to teach geography at the elementary school level; development of skills in teaching geography of New York City and New York State; development of understanding of global issues and of geographic factors affecting historical events.

Hours 45
Credits 3

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours Includes 5 hours of field experience, 45 hrs.
Credits 3 cr

CEDC 71700 - Independent Study in Curriculum and Teaching
Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1

CEDC 71800 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2

CEDC 71900 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3

* Note: Students who have already completed an introductory special education course may enroll in SPED 783.50 Math, Organizational and Social Strategies for Students with Learning Disabilities (for those not in the LD specialization).

** Independent study may be taken in lieu of a required course with permission of the program coordinator.

Exit Standards

1. Overall GPA of 3.0 or better.
2. Students must pass the School of Education technology assessment.

Early Childhood Education, Birth through Grade 2 - MSEd

Coordinator Christina Taharally; (212) 772-4679; 1103 West Building; christina.taharally@hunter.cuny.edu

There are two programs within this early childhood education master’s degree program. Program 1 is for students without prior teaching certification. Program 2 is for students with NYS initial, professional, or permanent certification in childhood education, elementary education pre-K-6, special education, or TESOL. The early childhood programs are not for applicants who already have initial certification in early childhood education (ECE). Students who seek a master’s degree and who already have ECE initial certification may want to consider the early childhood special education program or some other certification area at the graduate level. The programs in early childhood education have been recognized by the National Association for the Education of Young Children.

Admission Requirements

PROGRAM 1
(For applicants who do not hold New York State Certification)

1. A cumulative undergraduate grade point average (GPA) of 2.8 from an accredited bachelor’s degree program or a master’s degree with a GPA of 3.5 or better.

2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.

3. A general education core in the liberal arts and sciences distributed as follows: 9 credits in math, and science with at least one course in math and one course in science (a course in calculus meets 6 credits of this requirement); 6 credits in English; 6 credits in social studies (of which at least one course must be in history or geography); 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

4. A personal statement to be completed as part of the application for admission.

5. Two letters of recommendation.

**PROGRAM 2:**

(For applicants who hold New York State Certification in childhood education, preK-6 education, childhood or early childhood special education, or TESOL)

1. Undergraduate degree with GPA of 2.8 or master’s degree with GPA of 3.5 or better.

2. New York State initial, professional, or permanent teacher certification in childhood education, elementary education Pre-K-6, special education, or TESOL.

3. A personal statement.

4. Two letters of recommendation.

**Progress Standards**

**A. 12-Credit Progress Standards for Matriculated Students**

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

*Note: It is recommended that students with two or more INs take an official leave of absence.*

5. Program 1 students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school’s reading/writing workshop before being permitted to register for any additional courses.
B. Fieldwork Benchmark

All field experiences and student teaching will take place in New York City public schools.

Program 1 students must receive a grade of at least B in fieldwork (ECC 712). Any student who receives a grade of B-, C+ or C must apply to the Chairperson of the Department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F will not be allowed to continue in the program.

Early Childhood Education Course of Study - Program 1

Total Credits: 36-42 credits

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,
Credits 3 cr

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

Hours 45 hrs,
Credits 3 cr

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

prereq: ECF 70000
Hours 45 hrs,
Credits 3 cr

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.
prereq or coreq: ECF 70000  
*Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*

**ECC 70500 - Language and Literacy: Birth through Kindergarten**

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

*prereq or coreq: ECF 70000  
*Hours 45 hrs,  
*Credits 3 cr*

**ECC 70600 - Language and Literacy: K through Grade 2**

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children’s literacy development in urban environments is explored. (Not for Program 2 students.)

*prereq or coreq: ECC 70500 (early childhood students only)  
*Hours 45 hrs,  
*Credits 3 cr*

**ECC 70700 - Language and Literacy: English Language Learners**

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

*coreq: ECC 70400  
*prereq or coreq: 70500 or 70600  
*Hours 15 hrs,  
*Credits 1 cr*

**ECC 70800 - Children with Special Needs: Birth through Grade 2**

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

*prereq: ECC 70300  
*prereq or coreq: ECF 70200  
*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels*

**ECC 71000 - Early Childhood Mathematics: Birth through Grade 2**

Theories and research that focus on the relationship between children’s development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)
ECC 71100 - Science in Early Childhood Education: Birth through Grade 2

Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K–2 settings. (Required in Program 1.)

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

ECC 71500 - Educational Technology in Early Childhood
Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,
Credits 1 cr

**ECC 72000 - Integrative Seminar in Early Childhood Education**

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

_prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)_

**Take Either**

**ECC 71600 - Student Teaching in Early Childhood Settings**

Two student-teaching placements of 20 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience. (Birth–3, preK–2)

_prereq: prereqs: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only)_

_Hours 30 hrs of seminar plus 40 days of student teaching for students who are not teaching in an early childhood program_

Or

**ECC 71700 - Supervised Practicum in Early Childhood**

Teaching practicum for students in early childhood education. Students who take ECC 717 must also complete ECC 71800. (Not for students who have completed ECC 716.)

_prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1)_

_Hours 15 hrs of seminar plus conferences,
Credits 1 cr_

**Plus**

**ECC 71800 - Early Childhood Student Teaching**
Student teaching for 20 days at one age/grade level: Pre-K–K, or grades 1–2. Students who take ECC 718 must also complete ECC 71700. (Also offered during the summer.) (Not for students who have completed ECC 716.)

**prereq:** ECF 702; ECC 703, 704 (program 2) or 705 and 706 (program 1), 707, 708, 709 (program 2) or 710 and 711 (program 1), 712 (program 1)

*Hours 15 hrs of seminar plus 20 days of student teaching,*

*Credits 2 cr*

**Note(s)**

*Please note: Students who qualify for waivers may take ECC 719.51, .52, .53 (Special Topics in Early Childhood Education, 1, 2 and 3 credits), or a course in another program with permission of the Early Childhood Program coordinator. Students may be exempted from up to 6 credits (Program 1) or 5 credits (Program 2) based on prior equivalent course work.*

**Early Childhood Education Course of Study - Program 2**

**Total Credits: 30-35 credits**

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,*

*Credits 3 cr*

**ECF 70100 - Social and Historical Contexts of Early Childhood Education**

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs,*

*Credits 3 cr*

**ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2**

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000*

*Hours 45 hrs,*

*Credits 3 cr*
ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

prereq or coreq: ECF 70000
Hours 45 hrs,
Credits 3 cr

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400
prereq or coreq: 70500 or 70600
Hours 15 hrs,
Credits 1 cr

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300
prereq or coreq: ECF 70200
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children’s acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300
ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

Take Either

ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 20 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience.(Birth– 3, preK–2)
**prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only)**

*Hours 30 hrs of seminar plus 40 days of student teaching for students who are not teaching in an early childhood program*

Or

**ECC 71700 - Supervised Practicum in Early Childhood**

Teaching practicum for students in early childhood education. Students who take ECC 717 must also complete ECC 71800. (Not for students who have completed ECC 716.)

*prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1)*

*Hours 15 hrs of seminar plus conferences, Credits 1 cr*

Plus

**ECC 71800 - Early Childhood Student Teaching**

Student teaching for 20 days at one age/grade level: Pre-K – K, or grades 1–2. Students who take ECC 718 must also complete ECC 71700. (Also offered during the summer.) (Not for students who have completed ECC 716.)

*prereq: ECF 702; ECC 703, 704 (program 2) or 705 and 706 (program 1), 707, 708, 709 (program 2) or 710 and 711 (program 1), 712 (program 1)*

*Hours 15 hrs of seminar plus 20 days of student teaching, Credits 2 cr*

**Note(s)**

*Please note: Students who qualify for waivers may take ECC 719.51, .52, .53 (Special Topics in Early Childhood Education, 1, 2 and 3 credits), or a course in another program with permission of the Early Childhood Program coordinator. Students may be exempted from up to 6 credits (Program 1) or 5 credits (Program 2) based on prior equivalent course work.*

**Exit Standards**

1. An overall GPA of 3.0.
2. A grade of B or better in student teaching and/or practicum. Any student who obtains a grade of F in student teaching and/or practicum will not be allowed to continue in the program. Any student who obtains a grade of B-, C+, or C must apply to the department chairperson for permission to reregister for student teaching and/or practicum and repeat this experience. Students will be allowed to repeat student teaching and/or practicum only once. Any student who does not complete the full complement of required days of student teaching will receive a course grade of IN and must fulfill the remaining mandated days.

3. Completion of ECC 720 (Integrative Seminar in Early Childhood Education).

4. Students must pass the School of Education technology assessment.

**Early Childhood Education, Birth through Grade 2, Bilingual - MSEd**

There are three master’s degree programs in Early Childhood Education with a Bilingual Extension.

- Program 1 is for students without prior NYS certification.
- Program 2 is for students with initial certification in childhood education or with provisional certification in elementary education, special education, or TESOL.
- Program 3 is for students who have initial certification in early childhood education.

**Program 1**

The number of credits required to complete Program 1 of the master's degree in Early Childhood Education with a Bilingual Extension is determined by the student's educational background. Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 52 credits. Master's candidate who have completed some pedagogical courses may be exempted from up to 12 credits of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained. No one may be exempted from student teaching or practicum.

**Program 2**

The number of credits required to complete Program 2 of the master's degree in Early Childhood Education with a Bilingual Extension is determined by the student's educational background. Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 45 credits. Master's candidate who have completed some pedagogical courses may be exempted from up to 12 credits of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained. No one may be exempted from student teaching or practicum.

**Program 3**

The number of credits required to complete Program 3 of the master's degree in Early Childhood Education with a Bilingual Extension is determined by the student's educational background. Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 36 credits. Master's candidate who have completed some pedagogical courses may be exempted from up to 6 credits of coursework by providing
transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained. No one may be exempted from student teaching or practicum.

Admission Standards

Program 1

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with a GPA of 2.8 or better.

2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.

3. A general core in the liberal arts and sciences distributed as follows: 9 credits in math and science (a college course in calculus meets 6 credits of this requirement); 6 credits in English; 6 credits in social studies (of which one course must be in history or geography); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

4. Completion of a satisfactory on-site writing sample in English and in Spanish as part of the application process.

5. Demonstration of satisfactory oral English and Spanish through an interview.

Program 2

1. Undergraduate degree with GPA of 2.8 or master’s degree with GPA of 3.5 or better.

2. NYS initial/professional/permanent teacher certification in childhood education, elementary education Pre-K-6, special education, or TESOL.

3. Completion of a satisfactory writing sample in English and in Spanish as part of the application process.

4. An on-site writing sample in English and in Spanish and an interview.

Program 3

1. Undergraduate degree with GPA of 2.8 or master’s degree with GPA of 3.5 or better.

2. NYS initial teacher certification in early childhood education.

3. Completion of a satisfactory writing sample in English and in Spanish as part of the application process.

4. An on-site writing sample in English and in Spanish and an interview.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. All Program 1 students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of coursework. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any additional courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Students must receive a grade of at least B in fieldwork (BILED 71150). Any student who receives a grade of B-, C+ or C must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F will not be allowed to continue in the program.

---

**Early Childhood Bilingual Education Birth through Grade 2, with a Bilingual Extension Course of Study**

**Total Credits:**

Program 1: 40-52 credits  
Program 2: 33-45 credits  
Program 3: 30-36 credits

**Programs 1 and 2**

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,  
Credits 3 cr*

**ECF 70100 - Social and Historical Contexts of Early Childhood Education**

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs,  
Credits 3 cr*

**ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2**
Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

**prereq: ECF 70000**  
*Hours 45 hrs,  
Credits 3 cr*

**ECC 70300 - Early Childhood Curriculum: Birth through Grade 2**

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

**prereq or coreq: ECF 70000**  
*Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*

**ECC 70800 - Children with Special Needs: Birth through Grade 2**

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

**prereq: ECC 70300**  
**prereq or coreq: ECF 70200**  
*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels*

**ECC 70900 - Mathematical and Scientific Thinking in Early Childhood**

Research and practice that focus on children’s acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

**prereq or coreq: ECC 70300**  
*Hours 45 hrs,  
Credits 3 cr*

**ECC 71300 - The Expressive Arts in Early Childhood**

Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

*Hours 45 hrs,  
Credits 3 cr*

**ECC 71500 - Educational Technology in Early Childhood**
Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

*Hours 15 hrs,*
*Credits 1 cr*

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*

**BILED 71100 - Bilingual Literacy**

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

*coreq: BILED 71150*
*prereq or coreq: BILED 77100*

*Hours 30 hrs,*
*Credits 2 cr*

**BILED 71150 - Fieldwork in Bilingual Literacy**

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*coreq: BILED 77100*

*Hours 75 hrs,*
*Credits 1 cr*

**BILED 77100 - Psychology of Language Learning and Teaching**

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

*prereq or coreq: BILED 70100*

*Hours 30 hrs plus 5 hrs of fieldwork and lab,*
*Credits 2 cr*
**BILED 77800 - Instruction Through the Native Language**

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

*Prereq:*
*Prereq or coreq: BILED 70100*
*Hours: 45 hrs plus 10 hrs of fieldwork, Credit: 3 cr*

**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

*Prereq or coreq: BILED 70100*
*Hours includes 5 hrs of fieldwork*
*Credit: 3 cr*

**ECC 72000 - Integrative Seminar in Early Childhood Education**

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

*Prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)*

**Take Either**

**ECC 71650 - Student Teaching in Early Childhood Bilingual Settings**

Two student teaching placements of 20 days each at different age/grade levels (Pre-K–K and 1–2).

*Prereq: Prereqs: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)*
*Hours: 30 hrs of seminar plus 40 days of student teaching*

**Or**

**ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting**

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)
Hours 15 hrs of seminar plus conferences,
Credits 1 cr

Plus

**ECC 71850 - Early Childhood Bilingual Student Teaching**

Student teaching for 20 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750. (Not for students who have completed ECC 71650.)

**prereq:** ECC 70200; ECF 70300; ECF 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)

Hours 15 hrs of seminar plus 20 days of student teaching,
Credits 2 cr

**Additional Courses for Program 1**

**ECC 70400 - Language and Literacy: Birth through Grade 2**

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

**prereq or coreq:** ECF 70000

**Hours 45 hrs,**
**Credits 3 cr**

**ECC 70500 - Language and Literacy: Birth through Kindergarten**

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

**prereq or coreq:** ECF 70000

**Hours 45 hrs,**
**Credits 3 cr**

**ECC 70600 - Language and Literacy: K through Grade 2**

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children’s literacy development in urban environments is explored. (Not for Program 2 students.)

**prereq or coreq:** ECC 70500 (early childhood students only)
ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300

Hours 15 hrs of seminar plus 50 hrs in the field,
Credits 1 cr

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000

Hours 45 hrs,
Credits 3 cr

Master’s candidates who have completed some pedagogical courses may be exempted from up to 12 credits of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained.

Program 3

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000

Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
**BILED 71100 - Bilingual Literacy**

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

*coreq: BILED 71150*
*prereq or coreq: BILED 77100*
*Hours 30 hrs, Credits 2 cr*

**BILED 71150 - Fieldwork in Bilingual Literacy**

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*coreq: BILED 77100*
*Hours 75 hrs, Credits 1 cr*

**BILED 77100 - Psychology of Language Learning and Teaching**

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

*prereq or coreq: BILED 70100*
*Hours 30 hrs plus 5 hrs of fieldwork and lab, Credits 2 cr*

**BILED 77800 - Instruction Through the Native Language**

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

*prereq:*
*prereq or coreq: BILED 70100*
*Hours 45 hrs plus 10 hrs of fieldwork, Credits 3 cr*

**BILED 77900 - Multicultural Education**
Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

**ECC 72000 - Integrative Seminar in Early Childhood Education**

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

**Take Either**

**ECC 71650 - Student Teaching in Early Childhood Bilingual Settings**

Two student teaching placements of 20 days each at different age/grade levels (Pre-K–K and 1–2).

**ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting**

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)

**Plus**

**ECC 71850 - Early Childhood Bilingual Student Teaching**

Student teaching for 20 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750. (Not for students who have completed ECC 71650.)
Hours 15 hrs of seminar plus 20 days of student teaching,  
Credits 2 cr

Plus 7-13 credits from the courses below based on a transcript review of prior coursework in early childhood education

**ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2**

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000  
Hours 45 hrs,  
Credits 3 cr*

**ECC 70400 - Language and Literacy: Birth through Grade 2**

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

*prereq or coreq: ECF 70000  
Hours 45 hrs,  
Credits 3 cr*

**ECC 70800 - Children with Special Needs: Birth through Grade 2**

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

*prereq: ECC 70300  
prereq or coreq: ECF 70200  
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels*

**ECC 70900 - Mathematical and Scientific Thinking in Early Childhood**

Research and practice that focus on children’s acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

*prereq or coreq: ECC 70300  
Hours 45 hrs,  
Credits 3 cr*

**ECC 71300 - The Expressive Arts in Early Childhood**
Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

*Hours 45 hrs,*  
*Credits 3 cr*

**ECC 71500 - Educational Technology in Early Childhood**

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

*Hours 15 hrs,*  
*Credits 1 cr*

*Master’s candidates who have completed some pedagogical courses may be exempted from up to 12 credits (Program 2) or 6 credits (program 3) of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained.*

**Exit Standards**

1. An overall GPA of 3.0
2. A grade of B or better in Student Teaching and/or Practicum. Any student who obtains a grade of B-, C+, or C must apply to the department chairperson for permission to reregister for Student Teaching and/or Practicum, which may be repeated only once. Any student who obtains a grade of F in Student Teaching and/or Practicum will not be allowed to continue in the program.
3. Completion of ECC 72000 (Integrative Seminar in Early Childhood Education) with a grade of B or better.
4. Students must pass the School of Education technology assessment.

**Counseling Programs**

**Mental Health Counseling - MSEd**

*Program Coordinator Arnold Wolf; 1127 West Building; (212) 772-4616; awo@hunter.cuny.edu*

Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.

The curriculum at Hunter includes basic core courses for the three counseling programs and specialization courses. Mental Health Counseling students select one elective from a sequence of predetermined courses. School Counseling
students do not take electives. The curriculum integrates theory and practice through a carefully sequenced series of courses with emphasis on fieldwork in urban settings.

The Mental Health Counseling Program prepares graduates to work as mental health counselors in hospital, agency and community settings as well as in private practice. This program leads to professional licensure in New York State; professional licensure is required to practice mental health counseling.

Students in the mental health counseling program are eligible for licensure by New York State. Students in rehabilitation counseling may take the national certification examination for the Certified Rehabilitation Counselor (CRC) status after completing 75% of their course work.

Philosophy of the Graduate Programs

Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.

Admission Standards

1. Minimum undergraduate grade point average of 2.7; the Graduate Record Examination is not required.

2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas.

3. Evidence of oral and written expression consonant with graduate-level study.

4. Interviews with faculty members, alumni, or currently enrolled students. Central purposes of these interviews include assessing counselor potential, applicability of work and life experience, and candidate expectations about both the programs and the field.

5. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.

6. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant’s grade point average, counselor potential, and applicability of work and life experience are carefully considered.

Progress Standards

1. Students must maintain a 3.0 GPA to remain in the program and must complete the total number of credits of course work to graduate.

2. Students must demonstrate counseling knowledge and skills as defined by the faculty and community agency supervisors.
3. Active participation in small group seminars and community and professional activities is required.

4. A student receiving a grade of B or below in any of the following courses cannot continue in the programs: COCO 701, COCO 706, COCO 718, COCO 719 and COCO 725 and 726.

5. The faculty may require that a student gain additional experience in counseling skills and competencies before permission is granted to complete the program.

6. Seven courses – COCO 701, 706, 707, 718, 719, 725, 726 – cannot be taken at other colleges or universities. These courses must be taken in the Hunter College Counselor Education program.

**COCO 70100 - Counseling Skills and Interviewing Techniques**

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs,*  
*Credits 3 cr*

**COCO 70600 - Group Counseling**

Theory and principles of group counseling. Developing group-counseling skills through practice.

*prereq: COCO 70100 and COCO 70200*  
*Hours 45 hrs,*  
*Credits 3 cr*

**COCO 71800 - Practicum in Counseling**

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

*prereq: COCO 701*  
*Hours 100 hrs*

**COCO 71900 - Individual Supervision**

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student’s proficiency and competence as a professional counselor.

*Hours 45 hrs,*  
*Credits 3 cr*

**COCO 72500 - Internship in Counseling I**

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

*prereq: COCO 71800 and 24 cr in required courses or the approved equivalent; permission of college fieldwork*
supervisor required.
Hours Each 300 hrs to be arranged in selected field settings
Credits 4 cr each semester

**COCO 72600 - Internship in Counseling II**

COCO 725 Internship in Counseling I, the second half.

Hours 45 hrs,
Credits 3 cr

**Mental Health Counseling Course of Study**

Total Credits: 60 credits

**COCO 70000 - Life Stage Development**

Analysis of developmental stages throughout the lifespan.

Hours 45 hrs,
Credits 3 cr

**COCO 70100 - Counseling Skills and Interviewing Techniques**

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs,
Credits 3 cr

**COCO 70200 - Theories of Counseling**

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

Hours 45 hrs,
Credits 3 cr

**COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education**

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

Hours 45 hrs,
Credits 3 cr

**COCO 70600 - Group Counseling**
Theory and principles of group counseling. Developing group-counseling skills through practice.

**prereq:** COCO 70100 and COCO 70200

**Hours 45 hrs,**

**Credits 3 cr**

**COCO 70700 - Multicultural Aspects of Counseling**

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

**Hours 45 hrs,**

**Credits 3 cr**

**COCO 70800 - Measurement and Appraisal**

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

**Hours 45 hrs,**

**Credits 3 cr**

**COCO 70900 - Research Methods in Counseling**

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

**Hours 45 hrs,**

**Credits 3 cr**

**COCO 71100 - Supervision and Administration in Counseling**

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

**prereq:** COCO 70600 and COCO 71800

**Hours 45 hrs,**

**Credits 3 cr**

**COCO 71200 - Career Counseling, Assessment and Placement**

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

**Hours 60 hrs,**

**Credits 4 cr**

**COCO 71500 - Family Systems and Counseling Issues**
Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

*Hours 45 hrs,
Credits 3 cr*

**COCO 71800 - Practicum in Counseling**

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

*prereq: COCO 701
Hours 100 hrs*

**COCO 71900 - Individual Supervision**

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student’s proficiency and competence as a professional counselor.

*Hours 45 hrs,
Credits 3 cr*

**COCO 72500 - Internship in Counseling I**

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

*prereq: COCO 71800 and 24 cr in required courses or the approved equivalent; permission of college fieldwork supervisor required.
Hours Each 300 hrs to be arranged in selected field settings
Credits 4 cr each semester*

**COCO 72600 - Internship in Counseling II**

COCO 725 Internship in Counseling I, the second half.

*Hours 45 hrs,
Credits 3 cr*

**COUNM 71600 - Foundations of Mental Health Counseling**

This course provides an overview of mental health counseling. The course will address the following: professional identity, functions and issues facing mental health practitioners; disparities in mental health services across culturally and linguistically diverse communities; principles, theories and practice of community interventions; public policy and governmental relations impacting mental health.

*pre- or coreq: DSM-IV Workshop*
COUNM 71700 - Psychopathology: Diagnosis and Treatment

This course provides a framework for understanding the range of personality and behavioral conditions that are presented in the Diagnosis and Statistical Manual of Mental Disorders of the American Psychiatric Association (DSM-IV). The class focuses on the description, etiology, assessment, diagnosis, treatment and prevention of these disorders within diverse urban settings.

prereq or coreq: COUNM 71600
Hours 45
Credits 3

Electives (Select One Course)

COCO 71000 - Chemical Dependency: Issues in Counseling

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

Hours 45 hrs,
Credits 3 cr

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

Hours 45 hrs,
Credits 3 cr

COUNS 72100 - Counseling Interventions for Children and Adolescents

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

prereq: COCO 70000, COCO 70200, COCO 70600, COCO 70800, COCO 71800, DSM IV Workshop
coreq: COCO 72500
Hours 45
Credits 3

Exit Standards

1. An overall GPA of 3.0.
2. Students must pass the School of Education technology assessment.
Rehabilitation Counseling - MSEd

Program Coordinator Arnold Wolf; 1127 West Building; (212) 772-4616; awo@hunter.cuny.edu

Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.

The curriculum at Hunter includes basic core courses for the three counseling programs and specialization courses. Rehabilitation Counseling students select two electives from a sequence of predetermined courses. The curriculum integrates theory and practice through a carefully sequenced series of courses with emphasis on fieldwork in urban settings.

The Rehabilitation Counseling Program prepares students to assist people with disabilities to realize personal goals and maximize their physical, emotional, social, intellectual and vocational potential. Rehabilitation counselors work with youth and adults in a variety of community-based settings such as hospitals, rehabilitation centers, colleges, chemical dependency agencies and career/vocational counseling programs.

Students in rehabilitation counseling may take the national certification examination for the Certified Rehabilitation Counselor (CRC) status after completing 75% of their course work. Students may take additional courses and work toward becoming eligible for both certifications.

Philosophy of the Graduate Programs

Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.

Admission Requirements

1. Minimum undergraduate grade point average of 2.7; the Graduate Record Examination is not required.

2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas.

3. Evidence of oral and written expression consonant with graduate-level study.

4. Interviews with faculty members, alumni, or currently enrolled students. Central purposes of these interviews include assessing counselor potential, applicability of work and life experience, and candidate expectations about both the programs and the field.

5. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
6. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant’s grade point average, counselor potential, and applicability of work and life experience are carefully considered.

Progress Standards

1. Students must maintain a 3.0 GPA to remain in the program and must complete the total number of credits of course work to graduate.

2. Students must demonstrate counseling knowledge and skills as defined by the faculty and community agency supervisors.

3. Active participation in small group seminars and community and professional activities is required.

4. A student receiving a grade of B or below in any of the following courses cannot continue in the programs: COCO 701, COCO 706, COCO 718, COCO 719, and COCO 725 and 726.

5. The faculty may require that a student gain additional experience in counseling skills and competencies before permission is granted to complete the program.

6. Seven courses—COCO 707, 701, 706, 718, 719, 725, and 726—cannot be taken at other colleges or universities. These courses must be taken in the Hunter College Counselor Education program.

- COCO 70100 - Counseling Skills and Interviewing Techniques
- COCO 70600 - Group Counseling
- COCO 71800 - Practicum in Counseling
- COCO 71900 - Individual Supervision
- COCO 72500 - Internship in Counseling I
- COCO 72600 - Internship in Counseling II

Rehabilitation Counseling Sequence of Courses

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs,
*Credits 3 cr

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

*Hours 45 hrs,
*Credits 3 cr

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education
Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

*Hours 45 hrs,
Credits 3 cr*

**COCO 70600 - Group Counseling**

Theory and principles of group counseling. Developing group-counseling skills through practice.

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student’s proficiency and competence as a professional counselor.

*Hours 45 hrs,*  
*Credits 3 cr*

**COCO 72500 - Internship in Counseling I**

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

*prereq: COCO 71800 and 24 cr in required courses or the approved equivalent; permission of college fieldwork supervisor required.*  
*Hours Each 300 hrs to be arranged in selected field settings*  
*Credits 4 cr each semester*

**COCO 72600 - Internship in Counseling II**

COCO 725 Internship in Counseling I, the second half.

*Hours 45 hrs,*  
*Credits 3 cr*

**COUNR 71600 - Resources and Foundations of Rehabilitation**

History, philosophy, and principles of the vocational rehabilitation process. Economic, legal, ethical, and social issues influencing rehabilitation services. Observation of services available in state, city, and private agencies.

*Hours 45 hrs,*  
*Credits 3 cr*

**COUNR 72000 - Medical Aspects of Disability**
Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

*Hours 45 hrs,  
Credits 3 cr*

**Electives (select two courses)**

**COCO 70000 - Life Stage Development**

Analysis of developmental stages throughout the lifespan.

*Hours 45 hrs,  
Credits 3 cr*

**COCO 71000 - Chemical Dependency: Issues in Counseling**

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

*Hours 45 hrs,  
Credits 3 cr*

**COCO 72300 - Transition from School to Adult Living for Youth with Disabilities**

Services, programs, and processes for facilitating the transition of youth with disabilities and youth at risk from school to work, postsecondary education, independent living, and adult roles.

*Hours 45 hrs,  
Credits 3 cr*

**COCO 72700 - Special Topics in Counseling**

Study of significant issues, problems, and emerging trends in counseling.

*Hours 45 hrs,  
Credits 3 cr*

**COCO 71500 - Family Systems and Counseling Issues**

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

*Hours 45 hrs,  
Credits 3 cr*

Total 54 credits

Exit Standards
1. An overall GPA of 3.0.
2. Students must pass the School of Education technology assessment.

**School Counseling - MSEd**

**Program Coordinator Arnold Wolf; 1127 West Building; (212) 772-4616; awo@hunter.cuny.edu**

Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.

The curriculum at Hunter includes basic core courses for the three counseling programs and specialization courses. The curriculum integrates theory and practice through a carefully sequenced series of courses with emphasis on fieldwork in urban settings.

The School Counseling Program primarily prepares graduates for careers in a variety of school settings, including elementary schools, junior high schools, senior high schools and colleges. School counselors can also be employed by organizations that are not primarily educational, such as correctional facilities, hospitals, and a wide variety of community-based organizations.

Those students specializing in school counseling may apply individually for the New York State provisional certificate for school counselor at the completion of 30 credits and a school-based practicum experience. Permanent certification recommendation is made after graduation.

In addition, school counseling students fluent in Spanish and English have the option of obtaining a New York State Department of Education Bilingual (Spanish/English) Extension in Pupil Personnel Services.

**Philosophy of the Graduate Programs**

Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.

**Admission Requirements**

School Counseling Course of Study

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs,
*Credits 3 cr

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.
COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

COCO 70600 - Group Counseling

Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.
prereq: COCO 70600 and COCO 71800

Hours 45 hrs,
Credits 3 cr

**COCO 71200 - Career Counseling, Assessment and Placement**

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

Hours 60 hrs,
Credits 4 cr

**COCO 71800 - Practicum in Counseling**

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

prereq: COCO 701

Hours 100 hrs

**COCO 71900 - Individual Supervision**

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student’s proficiency and competence as a professional counselor.

Hours 45 hrs,
Credits 3 cr

**COCO 72500 - Internship in Counseling I**

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and 24 cr in required courses or the approved equivalent; permission of college fieldwork supervisor required.

Hours Each 300 hrs to be arranged in selected field settings
Credits 4 cr each semester

**COCO 72600 - Internship in Counseling II**

COCO 725 Internship in Counseling I, the second half.

Hours 45 hrs,
Credits 3 cr

**COCO 70000 - Life Stage Development**
Analysis of developmental stages throughout the lifespan.

Hours 45 hrs,  
Credits 3 cr

**COCO 71500 - Family Systems and Counseling Issues**

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

Hours 45 hrs,  
Credits 3 cr

**COUNS 71700 - Foundations of School Counseling**

History, philosophy, legal, and ethical considerations in school counseling. The school context and professional issues in school counseling will be emphasized, including the school counselor’s role, developmental programming, counseling interventions, consultation and liaison, and advocacy.

Hours 45  
Credits 3

**COUNS 72000 - Culminating Seminar in School Counseling**

With the permission of the supervising faculty member, the culminating experience in counseling provides the student with an opportunity to (a) participate as an integral member of a team involved in a research project, or (b) design an original evaluation or research project, or (c) complete a creative scholarly paper such as an extensive literature review. (Taken last semester prior to graduation)

prereq: COCO 70900  
Hours 45 hrs,  
Credits 3 cr

**COUNS 72100 - Counseling Interventions for Children and Adolescents**

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

prereq: COCO 70000, COCO 70200, COCO 70600, COCO 70800, COCO 71800, DSMV IV Workshop  
coreq: COCO 72500  
Hours 45  
Credits 3

**COUNS 72200 - School Based Consultation**
This upper level course provides counselors with the knowledge and skills necessary to engage in consultation, collaborative problem solving, and systems level intervention in educational settings. Theories, models, and processes of consultation of change will be examined.

**prereq:** COCO 70000, COCO 70100, COCO 70200, COCO 70600, COCO 71700, COCO 71800, COUNS 72100, DSMV IV Workshop

**coreq:** COCO 72600

**Hours** 45

**Credits** 3

**Total 60 credits**

**Bilingual (Spanish/English) Extension In Pupil Personnel Services**

Students in the School Counselor Program at Hunter College may obtain a Bilingual (Spanish/English) Extension in Pupil Personnel Services. Students who elect to take this option will be evaluated for written and oral proficiency in both Spanish and English. Students who are determined to be bilingually proficient will take the following two courses in addition to the Counseling Programs Sequence of Courses:

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*

**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

*prereq or coreq: BILED 70100*

*Hours includes 5 hrs of fieldwork*

*Credits 3 cr*

**Total 66 credits**

**Exit Standards**

1. An overall GPA of 3.0.

2. Students must pass the School of Education technology assessment.
The mission of the Hunter College Educational Psychology Program is to advance understanding and generate knowledge of human learning, development, and motivation; and to develop a solid foundation of research, measurement, assessment, program evaluation, and applied statistics in educational settings and related fields.

The Educational Psychology program at Hunter offers two concentrations of study: (1) General Educational Psychology; and (2) Assessment, Research, and Evaluation. This 32-credit program is designed for students with no prior experience in education as well as those who have a background in education and want to expand their skills and knowledge. All students will engage in analytical and scholarly approaches to assessing theoretical perspectives, research, and practice within and across disciplines.

The program is appropriate for students with diverse goals. Students in this program may use the degree as a bridge to a doctoral program in Educational Psychology or a related discipline. Alternatively, students may prepare for professional careers in program evaluation; institutional research; assessment, measurement and testing; and instruction and curriculum development in public and private institutions. The skills and knowledge base acquired in the program can be used in schools, education-related and government agencies, and business and health-related settings.

**Admission Requirements**

1. Prospective applicants must hold a Bachelor's degree from a regionally accredited institution, comparable in standard and content to a Bachelor's degree from Hunter College. Degrees granted on the basis of work completed at institutions that are not fully accredited, or on the basis of nonacademic prior learning, test scores, and any coursework other than organized supervised coursework in academic subjects may not be considered comparable.

2. A 2.8 minimum undergraduate GPA. Students who do not meet the minimum GPA requirement may submit scores on the general aptitude test of the Graduate Record Examination (GRE) to serve as evidence of their ability to complete graduate-level work.

3. On-site interview.

**Progress Standards**

1. Students must maintain an overall GPA of 3.0 to continue in the program.

2. Students with more than one course grade below B in the first 12 credits of EDPS coursework will not be allowed to continue in the program.

3. Any student who receives a grade of F in the first 12 credits will not be allowed to continue in the program.

**Educational Psychology Course of Study**

Total Credits: 32 credits
Core Courses

All students in the Master's Program are required to take 3 core courses and a proseminar.

**EDPS 70100 - Statistics and Statistical Computing in Education I**

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, t-tests, analysis of variance, correlation, regression, and the use of computer packages for these analyses.

*Hours 60
Credits 4*

**EDPS 70200 - Educational Research Methods**

This course is to increase students' understanding of the nature, purposes, needs, and types of research conducted by educational researchers and psychologists. Students will learn a range of research designs and methods, and their applications to education-related settings and issues.

*Hours 60
Credits 4*

**EDPS 70300 - Learning and Behavior Theories**

This course provides students with an overview of the study of human learning and behavior. A major goal of this course is to provide students with the knowledge and skills necessary to enable them to appropriately apply theories of learning in instructional settings.

*Hours 60
Credits 4*

**EDPS 70000 - Educational Psychology Proseminar**

This proseminar consists of workshops, discussions and presentations on topics orienting students to the field of educational psychology and introducing them to the research interests of faculty members.

*Credits: none*

Concentration Area Courses

Students are required to select 8 credits in their concentration area.

**Concentration I: General Educational Psychology**
EDPS 71100 - EDPS Metacognitive and Cognitive Processes in Education

This course provides students with an overview of major research on metacognitive and cognitive processes in learning and instruction. Focuses will be on major theories and research as well as metacognitive and cognitive processes and strategy applications in the areas of mathematical learning, text comprehension, science, and writing.

prereq: EDPS 70200  
coreq: EDPS 70300  
Hours 60  
Credits 4

EDPS 71200 - Multicultural Issues in Learning and Instruction

This course will examine the current research in K-12 education to explore the role of multicultural issues in teaching and learning.

prereq or coreq: EDPS 70200  
Hours 60  
Credits 4

EDPS 71300 - Cognition and Educational Technology

This course covers research about the influence of educational technology on the development of thinking and learning.

prereq: EDPS 70300  
Hours 60  
Credits 4

Or

Concentration II: Assessment, Research, and Evaluation

EDPS 72100 - Statistics and Statistical Computing in Education II

This course builds on knowledge of basic statistics, focusing on multiple regression and factorial ANOVA for statistical analysis of continuous and categorical independent variables. Diagnosis and treatment of data analytic problems such as missing data are discussed.

prereq: EDPS 70100, EDPS 70200  
Hours 60  
Credits 4
EDPS 72200 - Tests and Measurement

This course covers the following topics: classical test theory, tests construction, reliability estimation and generalizability theory, validation, item analysis, test bias, and introduction to item response theory, and the use of high-stakes testing in educational policy.

prereq: EDPS 70100, EDPS 70200
Hours 60
Credits 4

EDPS 72300 - Educational Program Evaluation

This course is designed to provide students with an overview of key concepts, theories, and methodologies utilized in the field educational evaluation.

Hours 60
Credits 4

Elective Courses in Educational Psychology

Students select 8 additional credits either from a concentration area or from the following electives:

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

prereq: CEDF 70900
Hours includes 5 hrs of field work

or

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork.
Credits 2 cr

CEDF 70900 - Child Development Grades 1-9
Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

*Hours includes 5 hrs of field work*

or

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,  Credits 2 cr*

or

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,  Credits 3 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500  
coreq:  
Hours 30 hrs, plus lab,  Credits 2 cr*

or

**CEDF 71600 - Assessment of Teaching and Learning**

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

CEDF 79200

or

**ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2**

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.
COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

Hours 45 hrs,  
Credits 3 cr

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

Hours 45 hrs,  
Credits 3 cr

EDPS 74100 - Mediating Factors in Student Achievement

This course will examine the current research in K-12 education in an effort to explore several of the more widely identified mediating factors that directly impact upon student achievement.

prereq: EDPS 70300  
Hours 60  
Credits 4

EDPS 74200 - Special Topics in Educational Research Methods

This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300  
Hours 60  
Credits 4

EDPS 74300 - Special Topics in Educational Psychology

This course will examine current research regarding a selected topic within the field of educational psychology; topics and readings will vary by semester.
EDPS 74900 - Independent Study in Educational Psychology

Permission of faculty adviser and chairperson required. Independent study in the area of educational psychology. A maximum of 4 credits of independent study may be counted toward the degree.

Credits 1 - 4

Culminating Courses

As a culminating experience, students elect either a thesis or a non-thesis option.

Students electing Thesis Research (EDPS 79501) and (EDPS 79502) will prepare a report of a research investigation in which they design and execute an empirical study under the supervision of a faculty advisor. Students electing the non-thesis option will enroll in a seminar course (EDPS 79000) in which they prepare a scholarly publishable-quality review of the research literature on a topic approved by the faculty.

EDPS 79000 - Educational Psychology Seminar

This course provides an opportunity for students to prepare an original scholarly review of research literature or theoretical paper of publishable quality on an educational psychological topic of interest. The general goal of the course is to enable students to apply their knowledge of educational psychological issues and research through the development of a scholarly research paper.

prereq: students must have completed a minimum of 24 credits
Hours 60
Credits 4

or

EDPS 79501 - Educational Psychology Thesis Research 1

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: students must have completed a minimum of 24 credits
Hours 30
Credits 2

and

EDPS 79502 - Educational Psychology Thesis Research 2
This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: students must have completed a minimum of 24 credits

Hours 30
Credits 2

Exit Standards

1. An overall GPA of 3.0.
2. Completion of all required courses (32 credits).
3. Completion of Culminating Experience.
4. Students must pass the School of Education technology assessment.

Literacy Programs

Literacy Education: Birth - Grade 6 - MSEd

Program Coordinator Yang Hu; 901 West Building; (212) 772-4753; yang.hu@hunter.cuny.edu

This is a 31-37 credit program that prepares teachers with NYS initial, professional, or permanent certification to meet New York State requirements for permanent certification as a teacher of literacy-birth through grade 6. The program has been nationally recognized by the International Reading Association (IRA).

Admission Requirements

1. Undergraduate degree with a GPA of at least 2.8.
2. New York State initial, professional, or permanent teacher certification in early childhood education, childhood education, elementary education, TESOL or special education.
3. Submission of a letter of recommendation from a supervisor as one of the two letters of recommendation to be included in the graduate application.
4. Completion of a satisfactory on-site writing sample after the application is reviewed.
5. Completion of a satisfactory interview.

Progress Standards
1. Master’s candidates must maintain a GPA of a minimum of 3.0 on all courses taken in the literacy master’s program.

2. Master’s candidates with any course grades below B- in literacy courses EDLIT 736, EDLIT 737, EDLIT 742 and EDLIT 740 will not be allowed to continue in the program.

3. Master’s candidates with a grade of Incomplete in any course will be restricted from registering for more than one course.

4. Master’s candidates with two or more grades of Incomplete are prohibited from registering for more than one course. Those with two or more grades of Incomplete are prohibited from registering for any more courses until the Incomplete grades are removed.

*Note: It is recommended that students with two or more INs take an official leave of absence.*

**Literacy Education: Birth through Grade 6 Course of Study**

**Total Credits: 31-37 credits**

**ECC 70400 - Language and Literacy: Birth through Grade 2**

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

*prereq or coreq: ECF 70000*

*Hours 45 hrs,  
Credits 3 cr*

**EDLIT 73200 - Children’s Literature**

Exposure to the breadth, depth, and utilization of children’s literature and its role in children’s development, appreciating diversity and fostering a lifelong interest in reading. Sensitive issues (health, abuses, addictions), technology and management issues are examined.

*Hours Includes 5 hrs in a classroom-based dramatic demonstration  
Credits 3 cr*

**EDLIT 73300 - Theories and Process of Teaching Writing: Pre-K–Grade 6**

Development and assessment of writing skills including analysis of techniques and environments that foster writing development in all children (ESL, gifted, special needs). State writing standards and technology are integrated.

*Hours Includes 15 hours in the field observing and analyzing writing development  
Credits 3 cr*

**EDLIT 73500 - Survey of Instructional Approaches for Language and Literacy Development: Grades K-12**
Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

Hours Includes 5 hours fieldwork
Credits 3 cr

EDLIT 73000 - Language, Literacy and Culture, Grades 1-12

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners’ needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500
Hours includes 10 hrs in the field analyzing language use of ESL learners
Credits 3 cr

EDLIT 73100 - Literacy Assessment: Birth–Grade 6

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instructional planning and meeting NYS English Language Arts performance standards.

prereq or coreq: ECC 70400 and EDLIT 73500
Hours Includes 15 hrs in the field assessing diverse learners 45 hrs,
Credits 3 cr

EDLIT 73400 - Literacies within the Disciplines: K–Grade 6

Exploration into the literacy demands inherent in the academic subjects of math, science, health education and social studies, as well as media, technology and the arts.

prereq or coreq: ECC 70400 and EDLIT 73500
Hours Includes 10 hrs in a classroom focused on older learners (grades 3-6) and content area literacy
Credits 3 cr

EDLIT 73600 - Diagnosis of Reading Difficulties

A study of factors related to students who are experiencing difficulty acquiring literacy. Procedures for diagnosing reading achievement and related language skills.
prereq: EDLIT 73100
Hours Includes 15 hours of diagnosis, under supervision, of students with reading difficulties
Credits 3 cr

EDLIT 73700 - Practicum in Remedial Reading

Theoretical consideration and procedures in the instruction of students with reading difficulties.

prereq: EDLIT 73600
Hours Includes 20 hrs of supervised remedial sessions with individual students on-site at Hunter College
Credits 3 cr

EDLIT 73800 - Literacy Programs: Organization and Resources

Seminar of a survey of literacy programs in diverse settings utilizing a range of techniques and organizational approaches in the literacy instruction of students, with and without discernible reading difficulties.

prereq: EDLIT 73100 (for Birth-Grade 6 students only)
Hours Includes 15 hours of survey for the enhancement of literacy programs
Credits 3 cr

EDLIT 73901 - Delays in Early Language and Literacy Development in Young Children with Special Needs

Historical, theoretical, and research-based teaching practice issues related to literacy and language instruction for children with special needs, ages birth through second grade.

coreq: ECC 70400
Hours Includes 5 hrs observation in an inclusive early childhood setting or a program with special needs focus, 15 hrs,
Credits 1 cr

EDLIT 73902 - Special Needs Issues in Literacies within the Curriculum

Adaptation, modification and management of instruction, curriculum, the learning environment, materials and technology across the curriculum for children with special learning needs.

prereq: EDLIT 73901
Hours 15 hrs,
Credits 1 cr

EDLIT 73903 - Adaptations and Modifications in Approaches to Literacy for Students with Special Needs

Adaptation and modification of instructional strategies, technology and curriculum in literacy for full inclusion of children with disabilities.
EDLIT 74000 - Leadership in Literacy

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master’s in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

prereq: minimum of 27 cr. in the literacy program
Hours 45 hrs,
Credits 3 cr

EDLIT 74200 - Practicum in Literacy

Fifty-hour college-supervised practicum divided into two 25-hour placements; one at early childhood level and one at the childhood level.

prereq: 15 credit hours in the literacy master’s program
Hours 15 hr seminar plus 50 hrs in the field,
Credits 1 cr

Students may be exempted from up to 6 credits on the basis of prior or equivalent coursework.

Exit Standards

1. Overall GPA of 3.0 or better.
2. An "achieved the standard" rating, or better, on the Professional Teaching Portfolio during final presentation to the Master's in Literacy Portfolio Review Committee.
3. A grade of B or better in literacy courses EDLIT 736, EDLIT 737, EDLIT 742, and EDLIT 740.
4. Students must pass the School of Education technology assessment.

Literacy Education: Grades 5-12 - MSEd

Program Coordinator Yang Hu; 901 West Building; (212) 772-4753; yang.hu@hunter.cuny.edu

This is a 27-30 credit program that prepares teachers with NYS initial, professional, or permanent certification to meet New York State requirements for certification as a teacher of adolescent literacy. The program has been nationally recognized by the International Reading Association (IRA).
Admission Requirements

1. A cumulative undergraduate GPA of at least 2.8 from an accredited bachelor's degree program or a GPA of at least 3.5 from a master's program.

2. New York State initial, professional, or permanent teacher certification as a middle childhood (5-9) or adolescent (7-12) content teacher.

3. Satisfactory communication skills, as demonstrated through an oral interview and an on-site writing sample, after the application is reviewed.

4. Submission of a letter of recommendation from a supervisor to be included in the application as one of two required recommendations.

Progress Standards

1. Master's candidates must maintain an overall GPA of at least 3.0.

2. Master's candidates with more than one course grade below B- in literacy courses will not be allowed to continue in the program.

3. Master's candidates with a grade of Incomplete in any course will be restricted from registering for more than one course. Those with two or more grades of Incomplete are prohibited from registering for any courses. 

   Note: It is recommended that students with two or more IN's take an official leave of absence.

Literacy Education: Adolescent Grades 5-12 Course of Study

Total Credits: 27-30 credits

Content Core (15 Credits)

EDLIT 73000 - Language, Literacy and Culture, Grades 1-12

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners’ needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500

Hours includes 10 hrs in the field analyzing language use of ESL learners

Credits 3 cr
SED C 71100 - Advanced Study of Young Adult Literature in Our Diverse Society

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

EDLIT 75300 - Methods of Teaching Writing: Grades 5-12

Development and assessment of writing skills and methods for teaching writing including analysis of techniques and environments that foster writing development, and writing across the disciplines, in all students at middle childhood and adolescent levels (ELL, gifted, special needs). State writing standards and technology are integrated.

Hours includes 15 hours fieldwork
Credits 3

EDLIT 75400 - Literacies within the Disciplines: Grades 5-12

Exploration into the literacy demands and challenges inherent in the academic subjects of math, science, history and social studies, as well as media, health, technology and the arts.

Hours includes 10 hours in classrooms focused on literacies within the disciplines
Credits 3

EDLIT 73500 - Survey of Instructional Approaches for Language and Literacy Development: Grades K-12

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

Hours includes 5 hours fieldwork
Credits 3 cr

Intervention Core (9 Credits)

EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12
Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing difficulties. Assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

*Hours includes 15 hours fieldwork*

**EDLIT 75600 - Literacy Assessment: Grades 5-12**

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instruction planning and meeting NYS English Language Arts performance standards.

*prereq: 9 credits in the content core*

*Hours includes 15 hours in the field assessing diverse learners*

**EDLIT 75700 - Practicum in Literacy Assessment and Intervention: Grades 5-12**

A study of factors related to middle and high school students who are experiencing difficulty acquiring literacy. Implement, design and use a variety of procedures for diagnosing reading achievement and related language skills. Use assessment data to plan and implement intervention activities for students with literacy difficulties.

*prereq: EDLIT 75600*

*Hours includes 25 hours of supervised assessment and intervention sessions with individual middle school students on-site at Hunter College Literacy Space and 25 hours of supervised assessment/intervention sessions off site with high school students*

*Credits 3*

**Leadership Core (6 Credits)**

**EDLIT 73800 - Literacy Programs: Organization and Resources**

Seminar of a survey of literacy programs in diverse settings utilizing a range of techniques and organizational approaches in the literacy instruction of students, with and without discernible reading difficulties.

*prereq: EDLIT 73100 (for Birth-Grade 6 students only)*

*Hours includes 15 hours of survey for the enhancement of literacy programs*

*Credits 3 cr*

**EDLIT 74000 - Leadership in Literacy**
Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master’s in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

**prereq:** minimum of 27 cr. in the literacy program
**Hours** 45 hrs,
**Credits** 3 cr

*Students may be exempted from up to 3 credits based on prior equivalent coursework.*

**Exit Standards**

1. An overall GPA of 3.0.
2. A grade of B or better in EDLIT 740, in which a culminating project is completed.
3. A grade of B or better in EDLIT 756.
4. An "achieved the standard" rating, or better, on the Professional Teaching Portfolio during final presentation to the Master's in Literacy Portfolio Review Committee.
5. Students must pass the School of Education technology assessment.

**Music**

**Music Education: Pre-K-12 – MA**

**Education Adviser Carla Asher;** (212) 772-4621; 1000 West Building; carla.asher@hunter.cuny.edu

**Music Department Adviser Victor Bobetsky;** (212) 650-3574; 400A North Building; victor.bobetsky@hunter.cuny.edu

The MA program in the teaching of Music is designed for students who have majored in music on the undergraduate level and want to pursue a teaching career in K-12 education. This program is not for individuals with initial, professional, or permanent certification in Music. The Teacher Education Program in Music does not offer an advanced certificate.

**Admission Requirements**

Applicants must be admitted by both the School of Education and the Music Department.

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.
2. A major in music (with a minimum of 24 credits) or the equivalent. See the Music department section of the Hunter College catalog for additional requirements.

3. A general education core in the liberal arts and sciences to include the following (in addition to music): 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (with at least one course in U.S. history or U.S. geography), and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

4. Two professional references to be included with the application for admission.

5. A personal statement to be completed as part of the application for admission.

6. An audition and interview.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Music Education Course of Study

Education Courses (20-21)

SEDF 70300 - Social Foundations of Adolescent Education
Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,*  
*Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,*  
*Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400*  
*Hours 30 hrs, plus 36 hrs fieldwork,*  
*Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500*  
*coreq:*  
*Hours 30 hrs, plus lab,*  
*Credits 2 cr*

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,*  
*Credits 3 cr*

**MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12**

Organization and administration of school instrumental programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques, including a review of principles of performance
for strings, woodwinds, brass, and percussion; classroom management strategies; supervised fieldwork in applying
these topics.

prereq or coreq: SEDF 70400
Hours 45 hrs plus 18 hrs of fieldwork
Credits 2

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse
backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education,
child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12

Organization and administration of school vocal programs serving diverse student populations; New York State
standards in the arts; rehearsal, teaching, and conducting techniques; an overview of technology, content, and materials
of the nonperforming general music curriculum; classroom management strategies; supervised fieldwork in applying
these topics.

prereq: MUSED 67700
prereq or coreq: SEDF 70500
Hours 45 hrs plus 18 hrs fieldwork
Credits 2

Take either

SEDC 75600 - Student Teaching in Music, Pre-K–12

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 and 30 days at grades 7–12 under the
supervision of a Hunter College faculty member in a New York City school selected by the college. Students will
further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for
classroom instruction and management.

prereq: MUSED 67800
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

-or-

SEDC 77610 - Practicum in Music, Grades Pre-K–6
Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77620.

prereq: MUSED 67800
Hours 30 hrs plus conferences,
Credits 2 cr

plus

SEDC 77620 - Practicum in Music, Grades 7–12

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77610.

prereq: MUSED 67800
Hours 30 hrs plus conferences,
Credits 2 cr

Music Department Courses (16-21 credits)

MUS 64100 - Strings

Teaching fundamentals of string playing (violin, viola, cello, and double bass) in context of solo, orchestral and chamber music; thorough review of basic string technique.

Hours 225
Credits 1

MUS 64300 - Woodwinds

Teaching fundamental techniques of playing a number of woodwind instruments: breathing, tone production and fingering; acoustical principles of woodwinds; thorough review of woodwind technique; basic pedagogical methods.

Hours 225
Credits 1

MUS 64500 - Brass

Teaching fundamental techniques of playing a number of brass instruments: breathing, tone production, fingerings and slide positions; acoustical principles of brasses; thorough review of brass technique; basic pedagogical methods.

Hours 225
Credits 1

MUS 64700 - Percussion Skills
The teaching of fundamental techniques of playing percussion instruments: rudiments, stick control, coordination of hands and feet, syncopation, ensemble playing; acoustical principles of percussion; thorough review of percussion technique; basic pedagogical methods.

**MUS 64900 - Piano Skills for Music Teachers**

Introduction to piano skills including scales, chord progressions, keyboard harmony and sightreading. The activities and materials used will reflect the needs of music education students.

**MUS 65100 - Conducting**

The teaching of technique and proficiency in basic conducting skills including conducting patterns, baton technique, expressive gestures, score study, and philosophical and psychological approaches to ensemble management.

**MUS 72400 - Advanced Studies in Music Theory 1**

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

*prereq: 4 sem. of undergraduate music theory courses*

*Hours 45 hrs,*

*Credits 3 cr*

**MUS 75100 - Advanced Studies in Music History 1**

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

*Hours 45*

*Credits 3*

**MUS 75200 - Advanced Studies in Music History 2**

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

*Hours 45*

*Credits 3*

**MUS 77900 - World Music Education**

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

*Hours 45*

*Credits 3*

Music electives: Courses chosen in consultation with graduate adviser.
* Students who have studied these subjects at the undergraduate level may be exempted from these requirements.

** Please note that students admitted to the program must take a proficiency examination during the first two semesters of matriculation in order to remain in the program. This examination will test competence in music theory, music history and literature and applied skills. Deficiencies revealed by the proficiency examination must be made up by studying the relevant subject matter and passing a reexamination. The proficiency examination requirement must be fulfilled before a student may proceed beyond 18 credits.

Culminating Experiences

Professional teaching portfolio  School of Education

Total credits: 38-43 credits

Exit Standards

An overall GPA of 3.0

Students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

A project involving research is required of each student in the teacher education program. On completion of the courses of study and after approval of the project by the Graduate Faculty Committee, a candidate will be examined orally on the topic of the project and related issues. Students may register for 1 credit of independent study (MUS 791) if they wish to receive credit toward the MA degree for work done in fulfilling the TEP Project.

Students must pass the School of Education technology assessment.

Special Education Programs

Advanced Preparation in Special Education - MSEd

This is a 30-credit program leading to a master's degree in Special Education: Advanced Preparation in Special Education as well as NYS Professional Certification in Childhood Special Education or Early Childhood Special Education. The program offers three tracks, each designed for teachers certified in special education who are seeking advanced preparation related to Special Education: Learning Disabilities (LD), Behavior Disorders (BD) or Early
Childhood Special Education. The program is designed for those with initial NYS teacher certification in special education who are in need of graduate work leading to a master's degree and Professional Certification in Childhood Special Education or Early Childhood Special Education. It is also designed for those who hold NYS teacher certification in Special Education and a master's degree (e.g., those with permanent or professional certification at any age-level of special education) who are seeking to further their knowledge/skills, gain additional graduate credits, and, at the same time, add an extension, annotation, or additional age-level certificate.

The purpose of this program is to provide an advanced master's program that encourages practicing teachers to continue their professional development via individually tailored and highly practical graduate preparation focused on effective practices and specially designed instruction in Special Education.

Admission Requirements

1. New York State initial or professional teacher certification in Students with Disabilities grades 1-6 or birth to grade 2 or New York State permanent certification in special education, K-12.

2. An undergraduate BA or BS degree with a GPA of 2.8 or higher from an approved college or a graduate degree in special education (any age-level) with a GPA of 3.5 or higher.

3. Two professional references to be included with the application for admission.

4. A personal statement to be included as part of the application for admission.

Progress Standards

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. It is recommended that students with two or more INs take an official leave of absence while they are completing their IN courses.

Advanced Preparation in Special Education Course of Study

Total Credits: 30 credits

Learning Disabilities (Track 1)

16-Credit Core of Courses

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1
Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45  
Credits 3

SPED 78251 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use. Advanced students must complete individually-tailored assignments.

Hours 15 hrs seminar, plus 20 hrs lab  
Credits 2

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45  
Credits 3

SPED 78451 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use. Advanced students must complete individually-tailored assignments.

Hours 15 hrs seminar, plus 20 hrs lab  
Credits 2

SPED 70151 - Advanced Preparation in Educational Assessment
Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

**Hours 45**  
**Credits 3**

**SPED 70751 - Advanced Seminar in Special Education Practice**

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

**Hours 45**  
**Credits 3**

**Plus**

14 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly in mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Representative of the spectrum of choices, but not an exhaustive list of the elective options.

**Behavior Disorders (Track 2)**

**Total Credits: 30 credits**

**18-credit Core of Courses**

**SPED 75051 - The Study of Behavior Disorders**

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual’s behavior and customs. Advanced students must complete individually-tailored assignments.
SPED 75151 - Methods and Materials for Teaching Students with Behavior Disorders

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students. Advanced students must complete individually-tailored assignments.

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).
**SPED 70751 - Advanced Seminar in Special Education Practice**

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

**Plus**

12 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly with mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Representative of the spectrum of choices, but not an exhaustive list of the elective options.

**Early Childhood Special Education (Track 3)**

**Total Credits: 30 credits**

**17-Credit Core of Courses**

**SPEDE 77151 - Autistic Spectrum Disorders: Characteristics, Implications for Intervention, and Educational Strategies**

Special learning and behavioral issues in educating infants/toddlers, preschoolers, and elementary age students with autism spectrum disorders; instructional strategies of particular value in working with children who have autism, PDD-NOS, and Asperger’s syndrome. Advanced students must complete individually-tailored assignments.

*Hours includes 5 hrs of field experience.*

**SPEDE 77251 - Behavioral Theory and Its Applications to Young Children with Special Needs**
The major tenets of behavioral theory; variations in approaches to applied behavior analysis; how to do and use functional behavioral analysis with young children who have special needs. Advanced students must complete individually-tailored assignments.

*Hours includes 5 hrs of field experience*
*Credits 3*

**SPED 70751 - Advanced Seminar in Special Education Practice**

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

*Hours 45*
*Credits 3*

**SPED 77951 - Practicum in Early Childhood Special Education**

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. Advanced students must complete individually-tailored assignments.

*Hours 30 hrs seminar plus conferences*
*Credits 2*

**Plus**

**SPED 77051 - Curriculum Models and Methods in Early Intervention and Early Childhood Special Education**

Major approaches in early intervention and early childhood special education; instructional sequences and methods for use in different settings such as inclusion programs and the natural environment of the home; team and collaborative teaching models; the process of using assessment data to create IFSP and IEP goals and objectives and match them to teaching strategies; program evaluation. Advanced students must complete individually-tailored assignments.

*Hours includes 5 hrs field experience*
*Credits 3*

**SPED 79251 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness**
Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication. Advanced students must complete individually-tailored assignments.

*Hours includes 15 hrs of field experience*
*Credits 3*

Or

**SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1**

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

*Hours 45*
*Credits 3*

**SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

*Hours 45*
*Credits 3*

Plus

13 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly with mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Representative of the spectrum of choices, but not an exhaustive list of the elective options.

**Exit Standards**
1. An overall GPA of 3.0.

2. Students must demonstrate consistently satisfactory written English in all course work.

3. Student teaching, Supervised Practicum, and Clinical Teaching Lab:

   A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

   B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

4. Culminating Activity—Students must perform satisfactorily on a two-part culminating activity:

   A comprehensive research-based oral presentation on a current special education issue

   and either an original written research proposal or a written proposal for competitive grant funding.

5. Students must pass the School of Education technology assessment.

Applied Behavior Analysis - Advanced Certificate

This 15-credit program provides intensive training in Applied Behavior Analysis to professionals working with children, youth, and adults on the autism spectrum as well as to the supervisors and administrators of the programs in which they work. This program is designed to prepare professionals to implement Applied Behavior Analytic intervention for individuals with autism spectrum disorders. In addition, students who complete the Advanced Certificate will have the graduate training necessary to sit for the international Board Certified Behavior Analyst® exam.

Admission Requirements

1. A master's degree in education, psychology, social work, counseling, speech-language pathology, nursing or related field.

2. Completed a graduate level course in autism spectrum disorders. Applicants who have not completed such a course will be conditioned in SPEDE 77100, Autism Spectrum Disorders, and must complete that course during their first semester in the program.

3. On-site interview will be required.

Advanced Certificate in Applied Behavior Analysis Course of Study

Total Credits: 15 credits

EDABA 79500 - Applied Behavior Analysis I
The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

**prereq or coreq:** SPEDE 77100

**Hours 45**

**Credits 3**

**EDABA 79600 - Applied Behavior Analysis II**

This course examines specific behavior analysis methods and applications, including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.

**prereq:** EDABA 79500

**Hours 45**

**Credits 3**

**EDABA 79800 - Behavior Analytic Approaches to Learning**

This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

**Hours 45**

**Credits 3**

**EDABA 79700 - Applied Behavior Analysis Research Methods and Ethics**

This course is an introduction to research methods used in applied behavior analysis. Topics include the development of research questions, measurement of behavior, single-subject experimental design, data collection, and data analysis. In addition, this course covers ethics and professional behavior for applied behavior analysts as they relate to research and practice.

**Hours 45**

**Credits 3**

**EDABA 79900 - Applied Behavior Analytic Autism Intervention**

This course examines applied behavior analytic intervention for individuals with autism. Research-based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive
environments.

prereq: EDABA 79500 or EDABA 79800
Hours 45
Credits 3

Progress Standards/Exit Standards

No course grade below B.

Blind and Visually Impaired - MSEd

Blind and Visually Impaired Program Coordinator: Rosanne K. Silberman; 911 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu, Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

Admission Requirements

Program 1

For applicants who do not hold New York State Certification

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better

or

A graduate degree from an approved college with a GPA of 3.5 or better

plus

2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.

3. General education core in liberal arts and sciences to include a minimum of 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 2

For applicants who hold early childhood, childhood, PreK-grade 6, middle school or adolescent education New York State teacher certification

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher

or
A graduate degree from an approved college with a GPA of 3.5 or better

plus

2. New York State initial, professional, or permanent teacher certification in early childhood, childhood, PreK-grade 6, middle school or adolescent education. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 715, a 1-credit course covering these topics.

**Progress Standards**

**A. 12-Credit Progress Standards for Matriculated Students**

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. Any student who receives an F will not be allowed to continue.

5. Program I students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of coursework. Any student who does not receive a passing score on the LAST must enroll in the School's reading/writing workshop before being permitted to register for any courses.

**B. Fieldwork Benchmark**

All field experiences and student teaching will take place in New York City public schools.

Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 782, SPED 784, CEDC 729; ECC 712; SPEDE 776 or SPEDE 767). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once.

**C. A student with two or more INs is prohibited from registering for any course.**

Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

**D. In order to enroll in student teaching or supervised practicum, all students must:**

- Have an overall GPA of at least 3.0
- Have no outstanding INs.

Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 700, 701 or 791 and 702 or 702.50 Have taken or be registered concurrently for one methods course (e.g., SPED 706, 706.50, 731, 741, 751, 781, 781.50) Students in early childhood special education must complete SPEDE 776 or 767.
Blind and Visually Impaired Course of Study

Program 2

Total Credits: 40-41 credits

Cross-Categorical Core Courses (12 cr)

**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours Includes 5 hours of field experience, 45 hrs,
Credits 3 cr*

**SPED 70250 - Classroom Management in Special Education and Inclusive Settings**

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

*prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100
Hours Includes 20 hrs of field experience, 45 hrs,
Credits 3 cr*

**SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

*prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100
Hours (includes 10 hours of field experience),
Credits 3 cr*

**SPED 70700 - Research Seminar: Issues in Special Education**

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.
Hours 45 hrs,  
Credits 3 cr

Blind and Visually Impaired Specialization

**SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments**

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

*prereq or coreq: SPED 70000*  
*Hours includes 10 hrs of field experience*  
*Credits 3 cr*

**SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments**

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

*prereq or coreq: SPED 74000*  
*Hours Includes 10 hrs of field experience*

**SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities**

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

*prereq or coreq: SPED 70000, SPED 79000*  
*Hours Includes 15 hrs of field experience*

**SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments**

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.
**SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments**

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

**SPED 74400 - Assistive Technology for Learners with Visual Impairments**

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

**SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments**

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

**SPED 74600 - Educational Implications of Learners Who Are Deafblind**

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.
prereq: SPED 70000, SPED 79000 or SPED 74100  
Hours: Includes 10 hrs of field experience

**SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments**

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000, 74100  
Hours: Includes 10 hrs of filed experience  
Credits: 3 cr

Take either

**SPED 74800 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 12**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired at two grade levels that do not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, adapting sensory environments, selecting appropriate learning media, adapting curriculum through tactile graphics, developing IEPs, and forming partnerships with families.

prereq or coreq: SPED 74000, 74100  
Hours: 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels  
Credits: 4 cr

Or one of the following:

**SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, 74100  
Hours: 30 hrs seminar, plus conferences, plus 20 days student teaching  
Credits: 2 cr
SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

*prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

*prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

*prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

Plus one of the following:

SPED 74854 - Student Teaching 2: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plan, writing functional vision assessment reports, selecting appropriate learning media, developing IEP’s, forming partnerships with families.
**SPED 74855 - Student Teaching 2: Blindness and Visual Impairment, Grade 7–12**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnership with families.

**SPED 74856 - Supervised Practicum 2: Blind and Visual Impairment Preschool–Grade 6**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placement. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEP’s, forming partnerships with families.

**SPED 74857 - Supervised Practicum 2: Blind and Visual Impairment, Grades 7–12**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placement. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP’s, forming partnerships with families.

**Additional Requirements for Program 1**

**Program 1**

**Total Credits: 47-60 credits**
Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

**CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School**

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

*prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3 cr*

**CEDF 70900 - Child Development Grades 1-9**

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

*Hours includes 5 hrs of field work*

**CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology**

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

*prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2 cr*

**CEDC 70350 - Teaching Science in the Elementary School**

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

*prereq or coreq: CEDF 70900*

**CEDC 70450 - Teaching Developmental Reading**
For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900

Hours includes 10 hrs of fieldwork

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: CEDF 70900, CEDC 70450 and 70550

Hours 15 hrs of seminar plus 50 hrs fieldwork,
Credits 1 cr

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student Teaching, Supervised Practicum, and Clinical Teaching Lab
A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. No grade less than B is acceptable for these teaching skill courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

   a comprehensive research-based oral presentation on a current special education issue
   and either
   an original written research proposal
   or
   a written proposal for competitive grant funding.

5. Students must pass the School of Education technology assessment.

Blind and Visually Impaired: Orientation and Mobility - Advanced Certificate

Blind and Visually Impaired Program Coordinator: Rosanne K. Silberman; 911 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu, Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

The 18 credit advanced certificate in orientation and mobility is designed to prepare rehabilitation teachers who have master’s degrees and academy certification and/or teachers of the blind and visually impaired who have New York State certification to serve as orientation and mobility specialists in educational programs for infants, toddlers, children and youths, and adults who are blind and visually impaired, including those with multiples disabilities. The focus is on the development of specialized knowledge and skills through course work and internship experiences in the field of blindness and visual impairment. Graduates of this program will be eligible to obtain national certification from the academy for certification of vision rehabilitation and education professionals as orientation and mobility specialists.

Admissions Standards

1. Undergraduate BA or BS degree from an accredited institution, with a GPA 2.8 or better, plus teacher of the blind and visually impaired teaching certificate.

   OR

   Master’s degree from an approved college in rehabilitation teaching or teacher of the blind and visually impaired with a GPA of 3.5 or better,

2. Evidence of acceptable written languages skills,

3. Three letters of recommendation,
4. Evidence of work, volunteer or personal experience with individuals with visual impairments,

5. An interview with a special education faculty member.

Progress Standards

1. Students must maintain an overall GPA of at least 3.0 in order to continue the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   NOTE: It is recommended that students with two or more INs take an official leave of absence.

Orientation and Mobility Course of Study

Total Credits: 18 credits

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

Hours 45 hrs,
Credits 3 cr

SPED 74900 - Orientation and Mobility for Students with Visual Impairments and Additional Disabilities

An advanced orientation and mobility course on specialized instructional strategies that address the special travel difficulties of learners (infants to older adults) who are blind or visually impaired with additional disabilities. Topics include deafness, deafblindness, multiple impairments, motoric, cognitive and affective impairments. This course also addresses instructional strategies for persons in unique living situations or environments.

Hours includes 10 hrs field experience, 45 hrs,
Credits 3 cr

SPED 76500 - Intermediate Orientation and Mobility

Theories related to perception, learning and development of individuals who are blind or visually impaired, and/or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice,
the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

*prereq or coreq: SPED 76800
*Hours includes 50 hrs of lab plus 15 hrs field experience
*Credits 3 cr

**SPED 76600 - Advanced Orientation and Mobility**

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

*prereq or coreq: SPED 76500, 76800
*Hours includes 50 hrs of lab plus 15 hrs field experience
*Credits 3 cr

**SPED 76700 - Orientation and Mobility: Internship/Seminar**

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

*prereq or coreq: SPED 76500, 76600, 76800, 76900
*Hours 30 hrs seminar, plus conferences plus 340 hours of internship,
*Credits 2 cr

**SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar**

This course teaches assessment of the systems of mobility used by persons who are visually impaired and develops competencies in teaching indoor travel techniques used by persons with visual impairments. Two week summer course.

*prereq or coreq: permission of adviser
*Credits 2 cr
*Two week summer course.

**SPED 76900 - Advanced Orientation and Mobility Lab and Seminar**

This course demonstrates practical application of Orientation and Mobility instructional techniques as they are applied in outdoor settings under blindfold and with low vision simulators. Content related to instructional strategies will be provided during the in-class seminar. Two week summer course.
prereq or coreq: SPED 76500, 76600, 76800

Credits 2

Two week summer course.

Exit Standards

1. Students must attain an overall GPA at least 3.0 to be recommended for the certificate.

2. Students must demonstrate consistently satisfactory written English in all coursework.

Blind and Visually Impaired: Teacher of the Blind and Visually Impaired - Advanced Certificate

Blind and Visually Impaired Program Coordinator: Rosanne K. Silberman; 911 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu, Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

The 22-credit advanced certificate in teacher of the blind and visually impaired is designed to prepare special education teachers who have master's degrees and New York State Certification in special education to serve as teachers of the blind and visually impaired in educational programs for infants, toddlers, children and youths, including those with multiple disabilities. The focus is on the development of specialized knowledge and skills through course work and practicum experiences in the field of blindness and visual impairment. Graduates of this program will be eligible for New York State Certification as teacher of the blind and visually impaired.

Admission Requirements

1. Master's degree from an approved teacher preparation college in special education with a GPA of 3.5 or better.

2. Teaching certificate in students with disabilities or special education.

3. Evidence of acceptable writing skills.

4. Three letters of recommendation.

5. Evidence of work, volunteer, or personal experience with individuals with visual impairments.

6. An interview with a special education faculty member.

Progress Standards

1. Students must maintain an overall GPA of at least 3.0 in order to continue the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.  
*Note: It is recommended that students with two or more INs take an official leave of absence to complete their INs.*

**Teacher of the Blind and Visually Impaired Course of Study**

Total Credits: 22 credits

**SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments**

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

*prereq or coreq: SPED 70000  
Hours includes 10 hrs of field experience  
Credits 3 cr*

**SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments**

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

*prereq or coreq: SPED 74000  
Hours includes 10 hrs of field experience*

**SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments**

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

*prereq or coreq: SPED 74000, SPED 74100  
Hours includes 15 hrs of field experience*

**SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments**

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading
and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 10 hrs of field experience

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq: SPED 74300
Hours 45 hrs,
Credits 3 cr

SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

prereq or coreq: SPED 74000, 74100, 74200, 74300
Hours 15 hrs,
Credits 1 cr

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000, 74100
Hours includes 10 hrs of filed experience
Credits 3 cr

SPED 71451 - Topics in Special Education: ITI Practicum in Visual Impairment

Credits 1 cr
And one of the following

**SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

*prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr*

**SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

*prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr*

**SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

*prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr*

**SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.
prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences.
Credits 2 cr

Exit Standards

1. An overall GPA of 3.0.

2. Students must demonstrate consistently satisfactory written English in all coursework.

3. Students must pass the School of Education technology assessment.

Childhood Special Education: Behavior Disorders - MSEd

Behavior Disorders Program Coordinator: Tom McIntyre; 914 West Building; (212) 772-4706; thomas.mcintyre@hunter.cuny.edu

Childhood Special Education: Admission Requirements

Program 1

For applicants who do not hold New York State Childhood or PreK-6 Certification.

Admission Requirements

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better

   or

   A graduate degree from an approved college with a GPA of 3.5 or better

   plus

2. A liberal arts or science major or interdisciplinary concentration of at least 30.

3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
Program 2

Admission Requirements

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher
   or
   A graduate degree from an approved college with a GPA of 3.5 or better
   plus
2. New York State initial or professional teacher certification in Childhood or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

Childhood Special Education: Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

5. Program 1 students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the School's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmark

- All field experiences and student teaching will take place in New York City public schools.
- Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 78200, SPED 78400, CEDC 72900; ECC 71200; SPEDE 77600 or SPEDE 76700). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once.
C. Students with a grade of F will not be allowed to continue.

D. In order to enroll in student teaching or supervised practicum all students must:

- Have an overall GPA of at least 3.0.
- Have no outstanding INs.
- Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, 70100 or 79100 and 70200 or 70250 and have taken or be registered concurrently for one methods course (e.g., SPED 70600, 70650, 73100, 74100, 75100, 78150).

Special Education: Exit Standards

1. An overall GPA of 3.0.

2. Students must demonstrate consistently satisfactory written English in all course work.

3. Student teaching, Supervised Practicum, and Clinical Teaching Lab:

   A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue the program.

   B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

4. Culminating Activity—Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education):

   A comprehensive research-based oral presentation on a current special education issue

   and either an original written research proposal or a written proposal for competitive grant funding.

5. Students must pass the School of Education technology assessment.

Childhood Special Education: Behavior Disorders Course of Study

Program 2: 36 Credits

Cross-Categorical Core Courses (20 cr)

SPED 70000 - Issues and Practices in Educating Students with Disabilities
Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours Includes 5 hours of field experience, 45 hrs,  
Credits 3 cr*

**SPED 70100 - Assessment of Students with Disabilities**

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

*prereq or coreq: SPED 70000  
Hours Includes 10 hrs of field experience,  
Credits 3 cr*

**SPED 70200 - Classroom Management in Special Education and Inclusive Settings**

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

*prereq or coreq: SPED 70000  
Hours Includes 15 hrs of field experience, 45 hrs,  
Credits 3 cr*

**SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders**

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

*prereq: SPED 70000  
coreq: current employment as a teacher or enrollment in student teaching  
Hours Includes 10 hrs of field experience, 45 hrs,  
Credits 3 cr*

**SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs**

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.
SPED 70500 - Use of Instructional Technology in Special Education

Computer lab course focused on both broadly based and specialized applications for supporting students with learning disabilities, mild, moderate mental retardation, and behavioral disorders. Focus on select number of tools and their multiple uses. Also, overview of specialized computer curriculum software, web resources, and assistive technology for students with severe disabilities.

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.

Behavior Disorders Specialization (16 cr)

SPED 75000 - The Study of Behavior Disorders

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual’s behavior and customs.
prereq or coreq: SPED 70000
Hours Includes 20 hrs of field experience

SPED 75100 - Methods and Materials for Teaching Students with Behavior Disorders

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students.

prereq or coreq: SPED 75000
Hours Includes 20 hrs of field experience
Credits 3

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience

SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr

Plus Either:

SPED 75200 - Student Teaching: Behavior Disorders, Grades 1–3 and 4–6

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing
appropriate instructions at grade levels 1–3 and 4–6. Factors influencing teaching and management outcomes such as family influences.

prereq: SPED 75000
prereq or coreq: SPED 75100 or SPED 78150
Hours 30 hrs seminar, plus conferences, plus 40 hours student teaching at two age levels,
Credits 4 cr

Or two of the following (must include two different grade levels):

SPED 75250 - Student Teaching: Behavior Disorders, Grades 1–3

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes such as family influences.

prereq: SPED 75000
prereq or coreq: SPED 75100 or SPED 78150
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

SPED 75251 - Student Teaching: Behavior Disorders, Grades 4–6

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000
prereq or coreq: SPED 75100 or SPED 78150
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

SPED 75252 - Supervised Practicum: Behavior Disorders, Grades 1–3

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000
prereq or coreq: SPED 75100 or SPED 78150
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 75253 - Supervised Practicum: Behavior Disorders, Grades 4–6
Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

**prereq:** SPED 75000
**prereq or coreq:** SPED 75100 or SPED 78150
**Hours** 30 hrs seminar plus conferences,
**Credits** 2 cr

**Additional Course Requirements**

**Program 1: 43-55 Credits**

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or the undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

**CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School**

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

**prereq or coreq:** CEDF 70900
**Hours** 45 hrs,
**Credits** 3 cr

**CEDF 70900 - Child Development Grades 1-9**

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

**Hours includes 5 hrs of field work**

**CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology**

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.
CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.
HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Childhood Special Education: Learning Disabilities - MSEd

Learning Disabilities Program Coordinators:
Kate Garnett; 910 West Building; (212) 772-4700; kgarnett@hunter.cuny.edu
David Connor; 917 West Building; (212) 772-4746; dconnor@hunter.cuny.edu
Sara Hines; 915 West Building; (212) 772-5667; shine@hunter.cuny.edu

Childhood Special Education: Admission Requirements

Program 1

For applicants who do not hold New York State Childhood or PreK-6 Certification.

Admission Requirements

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better

   or

   A graduate degree from an approved college with a GPA of 3.5 or better

   plus

2. A liberal arts or science major or interdisciplinary concentration of at least 30.

3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 2
Admission Requirements

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher
   or
   A graduate degree from an approved college with a GPA of 3.5 or better
   plus

2. New York State initial or professional teacher certification in Childhood or PreK-grade 6. Those holding
   permanent certification must either show proof that they have satisfied the New York State requirements
   regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one
   credit course covering these topics.

Childhood Special Education: Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in
   the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the
   program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more
   than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that when not enrolled in any course students take an official leave of absence to
   complete their INs.

5. Program 1 students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher
   Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West
   Building) before they complete 12 credits of course work. Any student who does not receive a passing score
   on the LAST must enroll in the School's reading/writing workshop before being permitted to register for any
   courses.

B. Fieldwork Benchmark

- All field experiences and student teaching will take place in New York City public schools.

- Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 78200,
  SPED 78400, CEDC 72900; ECC 71200; SPEDE 77600 or SPEDE 76700). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which
  may be repeated only once.

C. Students with a grade of F will not be allowed to continue.
D. In order to enroll in student teaching or supervised practicum all students must:

- Have an overall GPA of at least 3.0.
- Have no outstanding INs.
- Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, 70100 or 79100 and 70200 or 70250 and have taken or be registered concurrently for one methods course (e.g., SPED 70600, 70650, 73100, 74100, 75100, 78150).

Special Education: Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student teaching, Supervised Practicum, and Clinical Teaching Lab:
   A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.
   B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.
4. Culminating Activity—Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education):
   A comprehensive research-based oral presentation on a current special education issue
   and either an original written research proposal or a written proposal for competitive grant funding.
5. Students must pass the School of Education technology assessment.

Learning Disabilities Course of Study

Program 2: 35-37 Credits

Cross-Categorical Core Courses (20 cr)

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.
SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000

Hours Includes 5 hours of field experience, 45 hrs,
Credits 3 cr

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience, 45 hrs,
Credits 3 cr

SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000
coreq: current employment as a teacher or enrollment in student teaching

Hours Includes 10 hrs of field experience, 45 hrs,
Credits 3 cr

SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000
SPED 70500 - Use of Instructional Technology in Special Education

Computer lab course focused on both broadly based and specialized applications for supporting students with learning disabilities, mild, moderate mental retardation, and behavioral disorders. Focus on select number of tools and their multiple uses. Also, overview of specialized computer curriculum software, web resources, and assistive technology for students with severe disabilities.

prereq or coreq: SPED 70000

Hours 15 hrs,
Credits 1 cr

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

prereq or coreq: SPED 70000 or SPEDE 76800

Hours Includes 10 hours of field experience, 45 hrs,
Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.

Hours 45 hrs,
Credits 3 cr

Learning Disabilities Specialization (15-17 cr)

SPED 78000 - The Study of Learning Disabilities

History of theory, practices and conceptualizations of learning disabilities and mild/moderate mental retardation. Current issues, controversies and research, offering frameworks for appropriate instruction. Includes student characteristics, LD as an approach to teaching, family and cultural needs, as well as services and settings from special schools to supported inclusion.

prereq or coreq: SPED 70000
SPED 78100 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

coreq: SPED 78200
prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience
Only in the fall semester(note: must take concurrently with SPED 78200 and must take SPED 78300/78400 in semester immediately following)

SPED 78200 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100
prereq or coreq: SPED 70000
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Fall only(note: must take concurrently with SPED 78100 and must take SPED 78300/78400 in semester immediately following)

SPED 78300 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 78100/78200
coreq: SPED 78400
Hours 45 hrs,
Credits 3 cr
Spring only(note: must take concurrently with SPED 78400 and have taken SPED 78100/78200 in preceding semester)
SPED 78400 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use

prereq: SPED 781/782
coreq: SPED 783
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Spring only

Either:

SPED 78500 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 782/784. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq or coreq: SPED 70000
Hours 30 hrs seminar, plus conferences, plus 40 days student teaching,
Credits 4 cr

Or:

SPED 78550 - Supervised Practicum: Learning Disabilities, Grades 1–3 or 4–6

Supervised practicum, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 782/784. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Includes IEP, families and communities.

prereq or coreq: SPED 70000
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

Or both of the following:

SPED 78551 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6
Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78552.

*preq or coreq: SPED 70000
*Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,
*Credits 2 cr

SPED 78552 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78551.

*preq or coreq: SPED 700
*Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,
*Credits 2 cr

Additional Course Requirements

Program 1: 42-56 Credits

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

*preq or coreq: CEDF 70900
*Hours 45 hrs,
*Credits 3 cr

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

*Hours includes 5 hrs of field work

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology
For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2 cr

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork
must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

**prereq:** CEDF 70900, CEDC 70450 and 70550
**Hours** 15 hrs of seminar plus 50 hrs fieldwork,
**Credits** 1 cr

**HED 71500 - Health Education for Special Educators**

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

**Hours** 15 hrs,
**Credits** 1 cr

**Childhood Special Education: Severe/Multiple Disabilities**
**(including Deafblindness) - MSEd**

**Severe/Multiple Disabilities (including Deafblindness) Program Coordinators:**
Rosanne K. Silberman; 916 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu
Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

**Childhood Special Education: Admission Requirements**

**Program 1**

For applicants who do not hold New York State Childhood or PreK-6 Certification.

**Admission Requirements**

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better
   or
   A graduate degree from an approved college with a GPA of 3.5 or better
   plus
2. A liberal arts or science major or interdisciplinary concentration of at least 30.
3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6
credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 2

Admission Requirements

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher

   or

   A graduate degree from an approved college with a GPA of 3.5 or better

   plus

2. New York State initial or professional teacher certification in Childhood or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

Childhood Special Education: Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

5. Program 1 students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the School's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmark
• All field experiences and student teaching will take place in New York City public schools.

• Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 78200, SPED 78400, CEDC 72900; ECC 71200; SPEDE 77600 or SPEDE 76700). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once.

C. Students with a grade of F will not be allowed to continue.

D. In order to enroll in student teaching or supervised practicum all students must:

• Have an overall GPA of at least 3.0.

• Have no outstanding INs.

• Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, 70100 or 79100 and 70200 or 70250 and have taken or be registered concurrently for one methods course (e.g., SPED 70600, 70650, 73100, 74100, 75100, 78150).

Severe/Multiple Disabilities (Including Deafblindness) Course of Study

Program 2: 37 Credits

Cross-Categorical Core Courses (12 cr)

**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours Includes 5 hours of field experience, 45 hrs, Credits 3 cr*

**SPED 70250 - Classroom Management in Special Education and Inclusive Settings**

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

*prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100*
**SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

*prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100

**SPED 70700 - Research Seminar: Issues in Special Education**

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.

*Hours 45 hrs,
Credits 3 cr*

**Severe/Multiple Disabilities (including Deafblindness) Specialization (25 cr)**

**SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities**

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

*prereq or coreq: SPED 70000

**SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities**

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.
SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

SPED 79400 - Functional Language and Culture of Learners with Low Incidence Disabilities

This course emphasizes language strategies for English language learners (ELL), cultural/family values, home/school partnerships, teacher expectations and assumptions, classroom environments, learning materials. Students are expected to relate and adapt curriculum and ELL instructional strategies to learners with severe disabilities.

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.
prereq: SPED 70000, SPED 79000 or SPED 74100

Hours Includes 10 hrs of field experience

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience

SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000

Hours 45 hrs,

Credits 3 cr

Either:

SPED 79500 - Student Teaching: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness in grades 1–3 and 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 30 hrs seminar, plus 40 days of student teaching at two grade levels,

Credits 4 cr

Or two of the following (must include two different grade levels):

SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3
Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,
Credits 2 cr

SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus 20 days of student teaching,
Credits 2 cr

SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3

Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hours seminar, plus conferences,
Credits 2 cr
Additional Course Requirements

Program 1: 44-56 Credits

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

*prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3 cr*

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

*Hours includes 5 hrs of field work*

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

*prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2 cr*

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.
CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.
Special Education: Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student teaching, Supervised Practicum, and Clinical Teaching Lab:
   A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.
   B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.
4. Culminating Activity—Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education):
   A comprehensive research-based oral presentation on a current special education issue and either an original written research proposal or a written proposal for competitive grant funding.
5. Students must pass the School of Education technology assessment.

Deaf and Hard-of-Hearing - MSEd

Deaf and Hard-of-Hearing Program Coordinator: Elaine Gale; 918 West Building; (212) 772-4702; egale@hunter.cuny.edu

Admission Requirements

Program 1

For applicants who do not hold New York State Certification
1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better
   or
   A graduate degree from an approved college with a GPA of 3.5 or better
   plus
   2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. General education core in liberal arts and sciences to include a minimum of 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 2

For applicants who hold early childhood, childhood, PreK-grade 6, middle school or adolescent education New York State teacher certification

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher

or

A graduate degree from an approved college with a GPA of 3.5 or better

plus

2. New York State initial, professional, or permanent teacher certification in early childhood, childhood, PreK-grade 6, middle school or adolescent education. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 715, a 1-credit course covering these topics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. Any student who receives an F will not be allowed to continue.

5. Program 1 students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the School's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmark

All field experiences and student teaching will take place in New York City public schools.
Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 782, SPED 784, CEDC 729; ECC 712; SPEDE 776 or SPEDE 767). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once.

C. A student with two or more INs is prohibited from registering for any course.

Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

D. In order to enroll in student teaching or supervised practicum, all students must:

Have an overall GPA of at least 3.0

Have no outstanding INs.

Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 700, 701 or 791 and 702 or 702.50 Have taken or be registered concurrently for one methods course (e.g., SPED 706, 706.50, 731, 741, 751, 781, 781.50) Students in early childhood special education must complete SPEDE 776 or 767.

Deaf and Hard of Hearing Course of Study / Cross-Categorical Core Courses (12 cr)

**Program 2**

**Total Credits: 33-39 credits**

**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours Includes 5 hours of field experience, 45 hrs, Credits 3 cr*

**SPED 70100 - Assessment of Students with Disabilities**

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

*prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience, Credits 3 cr*

**SPED 70200 - Classroom Management in Special Education and Inclusive Settings**
Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000

*Includes 15 hrs of field experience, 45 hrs,
Credits 3 cr

**SPED 70700 - Research Seminar: Issues in Special Education**

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.

*Hours* 45 hrs,
*Credits* 3 cr

**Specialization**

21-27 credits*

**SPED 72000 - American Sign Language I**

An intensive first course in American Sign Language (ASL), designed to establish a foundation of ASL communicative competence. Emphasizes ASL grammar, vocabulary, receptive and expressive skills, fingerspelling, numbers, and spatial and pronominal reference.

prereq or coreq: SPED 70000

*Includes 10 hrs of field experience, 90 hrs lab,
Credits 3 cr

**SPED 72100 - American Sign Language II**

This intensive course continues material covered in SPED 720. Emphasizes increased communicative competence in ASL, as well as grammar, vocabulary, and receptive and expressive skills.

prereq: SPED 72000

*Includes 10 hrs of field experience 90 hrs lab,
Credits 3 cr

**SPED 72200 - The Study of ASL Educational Linguistics**

Focus on the linguistic structure of ASL: phonology, morphology, syntax, pragmatics, and discourse rules. Traces acquisition of ASL during infancy, childhood and adolescent. Differences are highlighted between ASL and English
linguistics, as well as the interaction between such structures and children’s learning. ASL is the instructional language used to teach this course.

**prereq: SPED 72100**  
*Hours 60 hrs lab,*  
*Credits 2 cr*

**SPED 73000 - Education of Students Who Are Deaf and Hard-of-Hearing**

History of theory, practice and conceptualizations in the education of students who are deaf and hard-of-hearing. The study of language acquisition (English and ASL), bilingualism, and learning English as a second language in hearing and deaf children. Linguistic understanding and analysis of the components of language proficiency. Educational settings, issues of inclusion, and use of technology.

*Hours Includes 10 hours of field experience 45 hrs,*  
*Credits 3 cr*

**SPED 73100 - Reading and Writing Development for Students Who Are Deaf and Hard-of-Hearing: Methods 1**

Theoretical and practical aspects of deaf children’s receptive and expressive language use. Instructional procedures used to facilitate language acquisition in deaf and hard-of-hearing children and their learning to read and write. Assessment, instructional procedures, specific remediation techniques, and technology supports.

*coreq: must take SPED 73300 in semester immediately following.*  
*prereq or coreq: SPED 73000*  
*Hours Includes 15 hrs of field experience 45 hrs,*  
*Credits 3 cr*  
*Fall only*

**SPED 73300 - Math and Across-the-Curriculum Adaptations for Students who are Deaf and Hard-of-Hearing: Methods 2**

Methods for assessing and teaching deaf and hard-of-hearing students in mathematics, science, social studies, other content areas, and time/space organization. Focus on math concept development and compensations; reading/writing and the arts across the curriculum; and organizational strategies for school, home and life.

*prereq: (immediate preceding semester) SPED 73100*  
*prereq or coreq: SPED 70000*  
*Hours Includes 15 hrs of field experience*  
*Spring only*

**SPED 73500 - Speech Development and Remediation of Students who are Deaf and Hard-of-Hearing**
Psycho-acoustic aspects of speech sounds and their relationship to speech acquisition in hearing and deaf children. Effects of various degrees of hearing loss on speech acquisition; sense modalities in speech production; typical voice and speech errors in deaf and hard-of-hearing children; methods, procedures, materials, and technology used for speech development and remediation; inclusion of deaf and hard-of-hearing students.

prereq or coreq: SPED 70000
Hours Includes 5 hrs of field experience
Credits 3

SPED 73600 - Aural Rehabilitation of Students who are Deaf and Hard-of-Hearing

Principles and methods of teaching speech and auditory training. Methods, procedures and materials used in development of oral communication, supports for inclusive settings and use of technology.

prereq or coreq: SPED 70000
Hours Includes 5 hrs of field experience

Note(s)

* Students entering program with ASL proficiency may be exempted from either or both of the ASL courses, without being required to replace those credits with other course work. Such students would, thus, complete the specialization sequence with either 24 or 21 credits.

Take either:

SPED 73700 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 12

Supervised student teaching placement providing direct, specially designed classroom instruction for deaf and hard-of-hearing students at two grade levels that do not overlap with either pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills prerequisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,
Credits 4 cr

Or two of the following (must include two different grade levels):

SPED 73760 - Supervised Practicum: Deaf and Hard-of-Hearing, Preschool–2nd Grade

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that
Supervised Practicum: Deaf and Hard-of-Hearing, Grades 1-6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

Supervised Practicum: Deaf and Hard-of-Hearing, Grades 5-9

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

Supervised Practicum: Deaf and Hard-of-Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

Additional Course Requirements for Program 1
Program 1

Total Credits: 40-58 Credits

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

Hours 45 hrs,
Credits 3 cr

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450

Hours 30 hrs,
Credits 2 cr

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900

CEDC 70450 - Teaching Developmental Reading
For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork,
Credits 1 cr

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student Teaching, Supervised Practicum, and Clinical Teaching Lab
A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab
courses. No grade less than B is acceptable for these teaching skill courses. Students receiving B-, C+, or C for any one
of these courses must apply to the department chairperson for permission to repeat that course, which may be repeated
only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to
continue in the program.

B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching
lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that
course, prohibiting them from graduating.

4. Culminating Activity. Students must perform satisfactorily on a two-part culminating activity (partial requirements
of SPED 707, Research Seminar: Issues in Special Education):

a comprehensive research-based oral

presentation on a current special education issue

and either

an original written research proposal

or

a written proposal for competitive grant funding.

5. Students must pass the School of Education technology assessment.

**Admission Requirements: Program 1**

**Program 1A**

For applicants who do not hold New York State Certification.

**Admission Requirements**

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better or a graduate degree
   from an approved college with a GPA of 3.5 or better

2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.

3. A general education core in liberal arts and sciences to include 6 credits in English including a course in
   English composition with a grade of B or better (or a writing intensive course in any discipline with a grade
   of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math
   and science with at least one course in math and one course in science (a college course in calculus meets 6
Program 1B

This program is for applicants who hold New York State Certification in an area other than early childhood. Those with a childhood or preK-6 certificate complete 36-40 credits. Those with certification in an area other than childhood complete 40-50 credits.

1. Any New York State teacher certificate other than early childhood education.

2. An undergraduate BA or BS from an approved college with a GPA of 2.8 or a graduate degree from an approved college with a GPA of 3.5 or better.

Admission Requirements: Program 2

Admission Requirements

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher or a graduate degree from an approved college with a GPA of 3.5 or better

2. New York State initial/permanent teacher certification in early childhood or preK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence while they are completing their IN courses.

5. Program 1A students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST and
who does poorly on the test of written analysis and expression must enroll in a college writing course or workshop series approved by an adviser, before being permitted to register for any courses.

B. Fieldwork Benchmark

Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 782, SPED 784, CEDC 729; ECC 712; SPEDE 776 or SPEDE 767). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

C. In order to enroll in student teaching or supervised practicum, all students must:

1. Have an overall GPA of at least 3.0; and
2. Have no outstanding INs.

Early Childhood Special Education Course of Study

Program 2

Total Credits: 36 credits

SPEDE 71400 - History and Context of Early Intervention and Early Childhood Special Education

Historical and current views of infants and young children with developmental delays and disorders; “War on Poverty” antecedents of current early childhood special education services; federal, state, and city regulations covering intervention services to young children with disabilities.

Hours 15 hrs,
Credits 1 cr

SPEDE 76800 - Characteristics and Developmental Problems of Infants and Young Children with Special Needs

Definition of populations; effects of disabilities on cognitive, social/emotional, language, and motor development; implications for early intervention and education.

Hours Includes 2.5 hrs field experience,
Credits 3
SPEDE 76900 - Assessment of Development and Learning in Infants and Young Children with Special Needs

Processes and procedures appropriate for assessing the development and learning of children from infancy through age 7 (second grade), including multidisciplinary screening and assessment; uses and limitations of assessment measures; practice in the use of selected assessment tools.

*Hours* Includes 5 hrs field experience,
*Credits* 3

SPEDE 77000 - Curriculum Models and Methods in Early Intervention and Early Childhood Special Education

Major approaches in early intervention and early childhood special education; instructional sequences and methods for use in different settings such as inclusion programs and the natural environment of the home; team and collaborative teaching models; the process of using assessment data to create IFSP and IEP goals and objectives and match them to teaching strategies; program evaluation.

*Hours* Includes 5 hrs field experience,
*Credits* 3

SPEDE 77100 - Autistic Spectrum Disorders: Characteristics, Implications for Intervention, and Educational Strategies

Special learning and behavioral issues in educating infants/toddlers, preschoolers, and elementary age students with autism spectrum disorders; instructional strategies of particular value in working with children who have autism, PDD-NOS, and Asperger's syndrome.

prereq or coreq: one of the following: SPEDE 76800, 76900, SPED 73000, 74000, 75000, 78000, 78100, 70600, 70650, 79000, or permission of the early childhood special education program coordinator

*Hours* Includes 5 hrs of field experience

*Credits* 3

SPEDE 77200 - Behavioral Theory and Its Applications to Young Children with Special Needs

The major tenets of behavioral theory; variations in approaches to applied behavior analysis; how to do and use functional behavioral analysis with young children who have special needs.

prereq or coreq: SPEDE 76900 or SPED 79000 or permission of the coordinator of the early childhood special education program

*Hours* Includes 5 hrs of field experience

*Credits* 3
SPEDE 77300 - Developing Partnerships with Families for Their Child’s Development and Learning

The roles of parents in the development and education of infants and young children with special needs; communicating and relating appropriately and effectively with parents of diverse educational, language, economic, and ethnic backgrounds; including parents in the intervention team; resources for parents.

prereq or coreq: SPEDE 76800
Hours 15 hrs includes 2.5 hrs field experience
Credits 1

SPEDE 77400 - Reading and Writing for Students with Special Education Needs, Grades K–2

Methods for developing reading and writing in students with disabilities and special education needs, grades K–2; instructional approaches and specific methodologies effective with young children who have a variety of learning disorders. From this instructional base, teachers can make informed decisions regarding the importance and propriety of special teaching strategies for use with particular students.

prereq or coreq: SPEDE 76900
Hours Includes 5 hrs field experience
Credits 3

SPEDE 77500 - Mathematics for Students with Special Education Needs, Grades K–2

Principles, methods, and specially-designed mathematics instruction for students with disabilities and special education needs, grades K–2; focus on concept development, concrete materials, the counting substrate and strategies, and verbal memory supports, as well as on differentiating kinds and degrees of math learning and disability.

prereq or coreq: SPEDE 76900
Hours 15 hrs,
Credits 1 cr

SPEDE 77600 - Field Experiences in Early Childhood Special Education

Two field placements of 30 hours each, with the placements at different age/grade levels: Pre–K (Birth–five), Kindergarten, grades 1 or 2; one of these experiences must be in a program using an ABA approach with children who have autistic spectrum disorders, while the other experience must be in a program with a different approach.

prereq or coreq: SPEDE 77000, 77100, 77400; SPED 70600 or 70650 or 79200
Hours 30 hr seminar plus 60 hrs of field experience,
Credits 2 cr
**SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

*prereq or coreq: SPED 70000 or SPEDE 76800*

*Hours Includes 10 hours of field experience, 45 hrs, Credits 3 cr*

**SPED 70700 - Research Seminar: Issues in Special Education**

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.

*Hours 45 hrs, Credits 3 cr*

**SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness**

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

*prereq or coreq: SPED 70000 or SPEDE 76800*

*Hours Includes 15 hrs of field experience*

**Take either:**

**SPEDE 77700 - Student Teaching: Early Childhood Special Education**

Supervised student teaching in two settings with 20 days in each placement; placements must be at different age/grade levels: Pre-K (Birth–five); Kindergarten; grades 1–2; practice in the implementation of skills developed through coursework and field experiences.

*prereq: SPEDE 77600*

*Hours 30 hrs seminar plus 40 days, Credits 4 cr*
Supervised student teaching for 20 days at one of the following age/grade levels: Pre-K (Birth–5), Kindergarten, grades 1–2; practice in implementation of skills developed through coursework and field experiences.

prereq: SPEDE 77600
Hours 30 hrs seminar plus 20 days,
Credits 2 cr
(Note that students who take SPEDE 77800 must also take SPEDE 77900 and the placements must be at different age/grade levels.)

Plus*:

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences.

prereq: SPEDE 77600
Hours 30 hrs seminar plus conferences,
Credits 2 cr
(Note that students who take SPEDE 77900 must also take SPEDE 77800 and the two experiences must be at different age/grade levels. Pre-K [Birth–five], Kindergarten, grades 1–2. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

Note(s)

* or a second semester of SPEDE 778. Students on Internship Certificates may complete a second semester of SPEDE 779. Students may also be exempted from the second semester of student teaching or practicum. Please see the program adviser for the criteria.

Additional Course Requirements for Program 1

Program 1A

Program 1A (47-54 credits) is for students who do not have any teaching certificate. Students must take between 11-18 credits of early education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 7 credits of the coursework listed below on the basis of equivalent courses taken at the graduate or undergraduate level.

ECF 70000 - Child Development: Birth to Age Eight
Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,  
Credits 3 cr*

**ECC 70300 - Early Childhood Curriculum: Birth through Grade 2**

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000  
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*

**ECC 70600 - Language and Literacy: K through Grade 2**

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children’s literacy development in urban environments is explored. (Not for Program 2 students.)

*prereq or coreq: ECC 70500 (early childhood students only)  
Hours 45 hrs,  
Credits 3 cr*

**ECC 70700 - Language and Literacy: English Language Learners**

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

*coreq: ECC 70400  
prereq or coreq: 70500 or 70600  
Hours 15 hrs,  
Credits 1 cr*

**ECC 70900 - Mathematical and Scientific Thinking in Early Childhood**

Research and practice that focus on children’s acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

*prereq or coreq: ECC 70300  
Hours 45 hrs,  
Credits 3 cr*

**ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood**
This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

*prereq: ECC 70300
*Hours 15 hrs of seminar plus 50 hrs in the field,
*Credits 1 cr

**ECC 71300 - The Expressive Arts in Early Childhood**

Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

*Hours 45 hrs,
*Credits 3 cr

**HED 71500 - Health Education for Special Educators**

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

*Hours 15 hrs,
*Credits 1 cr

**Program 1B**

**Program 1B (36-40 credits)** is for students who have a teaching certificate in an age level or area other than early childhood education. Students in Program 1B who have teacher certification in childhood education or in elementary preK-grade 6 will complete the 36-credit special education sequence plus the two early childhood courses listed below (unless a student is exempted from one or both of those courses based on an analysis of the applicant's prior coursework).

**ECC 70300 - Early Childhood Curriculum: Birth through Grade 2**

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000
*Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

**ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood**
This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

**prereq: ECC 70300**

*Hours 15 hrs of seminar plus 50 hrs in the field,*

*Credits 1 cr*

### Exit Standards

1. An overall GPA of 3.0.

2. Students must demonstrate consistently satisfactory written English in all course work.

3. **Student Teaching, Supervised Practicum, and Clinical Teaching Lab.**

   A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. No grade less than B is acceptable for these teaching skill courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

   B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

4. **Culminating Activity.** Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 707, Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue

and either

an original written research proposal

or

a written proposal for competitive grant funding.

5. Students must pass the School of Education technology assessment.

### Early Childhood Special Education: Severe/Multiple Disabilities - MSEd

**Early Childhood Special Education Program Coordinators:**

Jamie Bleiweiss; 929 West Building; (212) 772-4229; jbleiwei@hunter.cuny.edu

Shirley Cohen; 915 West Building; (212) 772-4708; shirley.cohen@hunter.cuny.edu

Donia Fahim; 919 West Building; (212) 772-4745; dfahim@hunter.cuny.edu

**Admission Requirements: Program 1**
Program 1A

For applicants who do not hold New York State Certification.

Admission Requirements

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better or a graduate degree from an approved college with a GPA of 3.5 or better

2. A liberal arts or science major or interdisciplinary concentration of at least 30.

3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 1B

This program is for applicants who hold New York State Certification in an area other than early childhood. Those with a childhood or preK-6 certificate complete 36-40 credits. Those with certification in an area other than childhood complete 40-50 credits.

1. Any New York State teacher certificate other than early childhood education.

2. An undergraduate BA or BS from an approved college with a GPA of 2.8 or a graduate degree from an approved college with a GPA of 3.5 or better.

Admission Requirements: Program 2

For applicants who hold early childhood New York State Certification

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher or a graduate degree from an approved college with a GPA of 3.5 or better

2. New York State initial/permanent teacher certification in early childhood or preK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence while they are completing their IN courses.

5. Program 1A students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST and who does poorly on the test of written analysis and expression must enroll in a college writing course or workshop series approved by an adviser, before being permitted to register for any courses.

B. Fieldwork Benchmark

Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 782, SPED 784, CEDC 729; ECC 712; SPEDE 776 or SPEDE 767). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

C. In order to enroll in student teaching or supervised practicum, all students must:

1. Have an overall GPA of at least 3.0; and

2. Have no outstanding INs.

Early Childhood Special Education with an Annotation in Severe/Multiple Disabilities Course of Study

Program 2

Total Credits: 41 credits

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours Includes 5 hours of field experience, 45 hrs,
Credits 3 cr

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social
inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

**prereq or coreq:** SPED 70000 and SPED 79000 or SPED 74100

**Hours (includes 10 hours of field experience),**

**Credits 3 cr**

**SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities**

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

**prereq or coreq:** SPED 70000

**Hours 45 hrs,**

**Credits 3 cr**

**SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities**

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum- based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

**prereq or coreq:** SPED 70000, SPED 79000

**Hours Includes 15 hrs of field experience**

**SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness**

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

**prereq or coreq:** SPED 70000 or SPEDE 76800

**Hours Includes 15 hrs of field experience**

**SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities**

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.
SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100
Hours includes 10 hrs of field experience

SPEDE 77000 - Curriculum Models and Methods in Early Intervention and Early Childhood Special Education

Major approaches in early intervention and early childhood special education; instructional sequences and methods for use in different settings such as inclusion programs and the natural environment of the home; team and collaborative teaching models; the process of using assessment data to create IFSP and IEP goals and objectives and match them to teaching strategies; program evaluation.

Hours includes 5 hrs field experience,
Credits 3

SPEDE 77100 - Autistic Spectrum Disorders: Characteristics, Implications for Intervention, and Educational Strategies

Special learning and behavioral issues in educating infants/toddlers, preschoolers, and elementary age students with autism spectrum disorders; instructional strategies of particular value in working with children who have autism, PDD-NOS, and Asperger's syndrome.

prereq or coreq: one of the following: SPEDE 76800, 76900, SPED 73000, 74000, 75000, 78000, 78100, 70600, 70650, 79000, or permission of the early childhood special education program coordinator
Hours includes 5 hrs field experience
Credits 3

SPEDE 77200 - Behavioral Theory and Its Applications to Young Children with Special Needs

The major tenets of behavioral theory; variations in approaches to applied behavior analysis; how to do and use functional behavioral analysis with young children who have special needs.
prereq or coreq: SPEDE 76900 or SPED 79000 or permission of the coordinator of the early childhood special education program

**SPEDE 77300 - Developing Partnerships with Families for Their Child’s Development and Learning**

The roles of parents in the development and education of infants and young children with special needs; communicating and relating appropriately and effectively with parents of diverse educational, language, economic, and ethnic backgrounds; including parents in the intervention team; resources for parents.

**SPEDE 77400 - Reading and Writing for Students with Special Education Needs, Grades K–2**

Methods for developing reading and writing in students with disabilities and special education needs, grades K–2; instructional approaches and specific methodologies effective with young children who have a variety of learning disorders. From this instructional base, teachers can make informed decisions regarding the importance and propriety of special teaching strategies for use with particular students.

**SPEDE 77500 - Mathematics for Students with Special Education Needs, Grades K–2**

Principles, methods, and specially-designed mathematics instruction for students with disabilities and special education needs, grades K–2; focus on concept development, concrete materials, the counting substrate and strategies, and verbal memory supports, as well as on differentiating kinds and degrees of math learning and disability.

**SPED 70700 - Research Seminar: Issues in Special Education**
Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.

Hours 45 hrs,
Credits 3 cr

Take Two of the Following (Must Include Two Different Grade Levels)

**SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 36 days (30 hr seminar plus 36 days pre-K) plus conferences

Or

**SPEDE 79552 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

Supervised practicum in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 36 days (30 hr seminar, pre-K), plus conferences
Credits 2

And

**SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
*Hours 36 days (30 hr seminar plus 36 days student teaching K-2), plus conferences*
*Credits 2*

Or

**SPEDE 79553 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

Supervised practicum in a disability-specific or inclusive school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

*prereq or coreq: SPED 79000, 79100*
*Hours 36 days (30 hr seminar, K-2), plus conferences*
*Credits 2*

**Additional Course Requirements for Program 1**

**Program 1A**

**Total Credits: 52-59 credits** students must take between 11-18 credits of early childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 7 credits of the coursework listed below on the basis of equivalent courses taken at the graduate or undergraduate level.

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,*
*Credits 3 cr*

**ECC 70300 - Early Childhood Curriculum: Birth through Grade 2**

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000*
*Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*

**ECC 70600 - Language and Literacy: K through Grade 2**
Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children’s literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)
Hours 45 hrs,
Credits 3 cr

**ECC 70700 - Language and Literacy: English Language Learners**

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400
prereq or coreq: 70500 or 70600
Hours 15 hrs,
Credits 1 cr

**ECC 70900 - Mathematical and Scientific Thinking in Early Childhood**

Research and practice that focus on children’s acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300
Hours 45 hrs,
Credits 3 cr

**ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood**

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field,
Credits 1 cr

**ECC 71300 - The Expressive Arts in Early Childhood**

Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs,
Credits 3 cr
HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Program 1B

Total Credits: 41-45 credits Students in Program 1B who have teacher certification in childhood education or preK-grade 6 will complete the 41-credit special education sequence plus the two early childhood courses listed below (unless a student is exempted from one or both of these courses on the basis of an analysis of the applicant's prior coursework.

Students whose prior certification is in an area other than childhood or elementary education (e.g., adolescent education, middle school education, music, dance, TESOL) may need to do additional coursework in early childhood education. The additional required number of credits and specific courses will be determined by an analysis of the applicant's prior coursework.

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field,
Credits 1 cr

Gifted Education Extension - Advanced Certificate

Gifted Education Program Coordinator:
Razel Solow; 909 West Building; (212) 650-3599; rsolow@hunter.cuny.edu

This is a 12-credit course of study for students who already have NYS teacher certification or who are in the process of completing such certification. It is designed to provide educators with a solid background of expertise in gifted
education, enabling them to work effectively with exceptionally capable learners and to take leadership roles in the field. Achievement of specialized expertise in gifted education will be recognized by a post-master's degree certificate.

Admission Requirements

1. NYS teacher certification and at least 15 credits of graduate study in education for a specific school population, with at least one course in human development (including child or adolescent development).

2. A GPA of at least 3.5 in graduate courses.

3. Two letters of recommendation from appropriate professional or academic sources.

Extension in Gifted Education Course of Study

Total Credits: 12 credits

**SPED 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity**

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

*Cross-listed* (Cross-listed with CEDF 75300.)

*Hours* 45 hrs includes 10 hrs field experience

*Credits* 3 cr

**SPED 75400 - Differentiating Curriculum for Gifted and Talented Learners**

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the full time gifted school.

*Cross-listed* (Cross-listed with CEDF 75400.)

*Hours* Includes 10 hrs field experience

*Credits* 3

**SPED 75500 - Assessment and Instruction for Diversely Gifted Learners**

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.
Cross-listed (Cross-listed with CEDC 755.)
prereq or coreq: SPED 75300 and SPED 75400
Hours Includes 20 hrs field experience

SPED 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed ADSUP 75600, CEDC 75600, CEDF 75600
prereq or coreq: SPED 75300 and SPED 75400
Hours Includes 10 hrs field experience

Progress Standards/Exit Standards

No course grade below B.

Special Education - MSEd

Secretary Jean Leung; 909 West Building; (212) 772-4700; fax (212) 650-3542; jleung@hunter.cuny.edu

Acting Chairperson Tim Lackaye; 920 West Building; (212) 772-4777; tlackaye@hunter.cuny.edu

Advisers:

Learning Disabilities

- Kate Garnett; 910 West Building (212) 772-4700; kgarnett@hunter.cuny.edu
- David Connor; 917 West Building (212) 772-4746; dconnor@hunter.cuny.edu
- Sara Hines; 915 West Building; (212) 772-5667; shine@hunter.cuny.edu

Behavior Disorders

- Tom McIntyre; 914 West Building; (212) 772-4706; thomas.mcintyre@hunter.cuny.edu

Severe/Multiple Disabilities (including Deafblindness)

- Rosanne K. Silberman; 916 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu
- Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

Early Childhood Special Education

- Jamie Bleiweiss; 929 West Building; (212) 772-4229; jbleiwei@hunter.cuny.edu
- Shirley Cohen; 915 West Building; (212) 772-4708; shirley.cohen@hunter.cuny.edu
- Donia Fahim; 919 West Building; (212) 772-4745; dfahim@hunter.cuny.edu

Deaf and Hard-of-Hearing
Hunter's graduate programs in special education prepare teachers to provide specially designed instruction for students with disabilities and to work across a variety of educational settings, including: special school, special classes, resource rooms, pre-schools, early intervention programs, supported general education classrooms in public and private schools, hospitals, clinics, health agencies, home programs, and residential facilities. Special education programs at Hunter have been nationally recognized by the Council for Exceptional Children.

Completion of any one of Hunter's for the master's degree in special education leads to New York State teacher certification. Hunter's specializations are:

- childhood special education: learning disabilities
- childhood special education: behavior disorders
- childhood special education with an annotation in severe/multiple disabilities (including deafblindness)
- early childhood special education
- early childhood with an annotation in severe/multiple disabilities (including deafblindness)
- deaf and hard-of-hearing
- blind and visually impaired

Students who enter the programs with no previous certification and subsequently complete the master's degree will meet the education requirements for New York State initial and professional certification in either childhood special education or early childhood special education and either childhood general education or early childhood general education. Students without prior teacher certification enter the Program 1 track.

Students who enter the childhood special education program with initial certification in grades 1-6 and subsequently complete the master's degree, will meet the education requirements for New York State professional certification in childhood/elementary education as well as for professional certification in childhood special education grades 1-6. Students with prior childhood certification enter the program 2 track.

Similarly, students who enter the early childhood special education program with initial certification in early childhood Birth to Grade 2 and subsequently complete the master's degree, will meet the education requirements for New York State professional certification in early childhood education as well as for professional certification in early childhood special education Birth to Grade 2. Students who hold early childhood certification enter the Program 2 track in early childhood special education.

The early childhood master's programs are designed for students whose primary interest is in teaching children from infancy through kindergarten. While students in the early childhood special education programs will also be prepared to teach grades 1 and 2, applicants whose primary interest is in these grades should apply to the childhood special education program, which encompasses grades 1-6.

The programs (with the exception of early childhood special education) are organized into a set of cross-categorical core courses and disability-specific specializations. Core courses develop knowledge and skills across a range of education settings; specializations provide in-depth preparation for working with students within a particular disability area. Both core and specialization courses provide historical, theoretical, and clinical perspectives, as well as current research and direct experiences with students of different ages and profiles. A hallmark of Hunter's programs is their linking of theory to effective instruction.
Special Education: Visual Impairment: Rehabilitation Teaching

40 cr in total or 55 cr with optional sequence in O&M

Cross-Categorical Core Courses (3 cr)

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours Includes 5 hours of field experience, 45 hrs,
Credits 3 cr*

Visual Impairment: Rehabilitation Teaching Specialization (37 cr)

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

*prereq or coreq: SPED 70000
Hours includes 10 hrs of field experience
Credits 3 cr*

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

*prereq or coreq: SPED 74000
Hours Includes 10 hrs of field experience*

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillerwriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.
**SPED 74400 - Assistive Technology for Learners with Visual Impairments**

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

**SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments**

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

**SPED 76000 - Skills and Techniques for Rehabilitation Teaching I**

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

**SPED 76100 - Skills and Techniques for Rehabilitation Teaching II**

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.
prereq: SPED 76000  
*Hours includes 10 hrs field experience*  
Credits 3 cr

**SPED 76200 - Principles of Vocational Rehabilitation and Independent Living**  
Rehabilitation for Adults with Visual Impairments

Job modification options. Transition planning from education to adult services.

prereq: SPED 74000, 74100  
*Hours 45 hrs,*  
Credits 3 cr

**SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments**

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100  
*Hours 230 hrs,*  
Credits 2 cr

**SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments**

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100  
*Hours 230 hrs,*  
Credits 2 cr

**COUNR 72000 - Medical Aspects of Disability**

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

*Hours 45 hrs,*  
Credits 3 cr

**COUNR 73000 - Counseling with the Aging**
Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

*Hours 45 hrs,
*Credits 3 cr

**COCO 70100 - Counseling Skills and Interviewing Techniques**

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs,
*Credits 3 cr

**Optional Sequence in Orientation and Mobility (15 cr)**

**SPED 76500 - Intermediate Orientation and Mobility**

Theories related to perception, learning and development of individuals who are blind or visually impaired, and/or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

*prereq or coreq: SPED 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr

**SPED 76600 - Advanced Orientation and Mobility**

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

*prereq or coreq: SPED 76500, 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr

**SPED 76700 - Orientation and Mobility: Internship/Seminar**

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.
prereq or coreq: SPED 76500, 76600, 76800, 76900

Hours 30 hrs seminar, plus conferences plus 340 hours of internship,
Credits 2 cr

**SPED 74900 - Orientation and Mobility for Students with Visual Impairments and Additional Disabilities**

An advanced orientation and mobility course on specialized instructional strategies that address the special travel difficulties of learners (infants to older adults) who are blind or visually impaired with additional disabilities. Topics include deafness, deafblindness, multiple impairments, motoric, cognitive and affective impairments. This course also addresses instructional strategies for persons in unique living situations or environments.

*Hours includes 10 hrs field experience, 45 hrs,
Credits 3 cr*

**SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar**

This course teaches assessment of the systems of mobility used by persons who are visually impaired and develops competencies in teaching indoor travel techniques used by persons with visual impairments. Two week summer course.

*prereq or coreq: permission of adviser
Credits 2 cr
Two week summer course.*

**SPED 76900 - Advanced Orientation and Mobility Lab and Seminar**

This course demonstrates practical application of Orientation and Mobility instructional techniques as they are applied in outdoor settings under blindfold and with low vision simulators. Content related to instructional strategies will be provided during the in-class seminar. Two week summer course.

*prereq or coreq: SPED 76500, 76600, 76800
Credits 2
Two week summer course.*

**Note(s)**

*The Rehabilitation Teaching program alone does not lead to New York State teacher certification.*

**Visual Impairment: Rehabilitation Teaching - MSEd**

**Visual Impairment: Rehabilitation Teaching Program Coordinators:** Rosanne K. Silberman; 911 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu, Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu
This Program does not lead to New York State Teacher Certification.

Admission Requirements

An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher or a graduate degree from an approved college with a GPA of 3.5 or better.

Progress Standards

12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

Visual Impairment: Rehabilitation Teaching Course of Study

Total Credits: 40 credits

The Rehabilitation Teaching program alone does not lead to New York State teacher certification.

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours Includes 5 hours of field experience, 45 hrs.
Credits 3 cr

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000
SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

Prerequisite or Corequisite: SPED 74000

Hours Includes 10 hrs of field experience

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

Prerequisite or Corequisite: SPED 74000, SPED 74100

Hours Includes 10 hrs of field experience

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

Prerequisite: SPED 74300

Hours 45 hrs,
Credits 3 cr

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

Prerequisite or Corequisite: SPED 74000, 74100
SPED 76000 - Skills and Techniques for Rehabilitation Teaching I

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

prereq: SPED 74000, 74100
Hours includes 10 hrs field experience
Credits 3

SPED 76100 - Skills and Techniques for Rehabilitation Teaching II

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

prereq: SPED 76000
Hours includes 10 hrs field experience
Credits 3

SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments

Job modification options. Transition planning from education to adult services.

prereq: SPED 74000, 74100
Hours 45 hrs,
Credits 3 cr

SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100
Hours 230 hrs,
Credits 2 cr
SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100
Hours 230 hrs,
Credits 2 cr

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

Hours 45 hrs,
Credits 3 cr

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

Hours 45 hrs,
Credits 3 cr

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs,
Credits 3 cr

Exit Standards

1. An overall GPA of 3.0.

2. Students must demonstrate consistently satisfactory written English in all course work.

3. Student teaching, Supervised Practicum, and Clinical Teaching Lab:

   A. Students are required to attain a minimum grade of B in the internship courses (SPED 76300 and 76400). Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once.
Any student who receives a grade of F will not be allowed to continue.

B. Students must complete all required days and hours for each of the internship courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

Teaching English to Speakers of Other Languages Programs (TESOL)

TESOL Adult Program - MA

Program Coordinator: Anne Eidiger; 1022 West Building; (212) 772-4686; aediger@hunter.cuny.edu

The TESOL program is designed to educate people who wish to teach students for whom English is a second or foreign language – either children or adults. The skill of teaching English to speakers of other languages is acquired through studying specialized methods and techniques that differ from those used by teachers of English to native speakers. This preparation is the focus of the MA program in TESOL.

The TESOL Adult Program prepares students to teach adults in college, continuing education, literacy, business, private, and other community, academic and professional programs in the United States or abroad. It does not prepare teachers for New York State certification to teach in the public schools.

The MA program in TESOL is interdisciplinary. It encompasses courses that provide students with a theoretical and practical background in general linguistics, phonetics, the structure of American English, second language acquisition, related psychological, sociological, and anthropological aspects, as well as the methods and materials of English language instruction to various populations. Student must also complete a student teaching/practicum at the level(s) at which they intend to teach. Courses in the TESOL curriculum reflect three levels of hierarchy: introductory, intermediate and advanced. Because introductory courses are prerequisites for more advanced courses, students are to take courses in this sequence.

Students may be exempted from up to six credits of course work in any of the TESOL programs, subject to program approval, if they have taken similar content elsewhere.

Meeting minimum admission requirements does not guarantee acceptance into the program. Admission to the program is highly competitive. Each applicant’s grade point average, college coursework, written personal statement and interview, English language proficiency, foreign language credits, letter of recommendation and quality of experience are all carefully considered for admission to the program.

Links to the ESL classroom are emphasized and students are exposed to extensive field experiences and practice. Students should be prepared to spend considerable amounts of time observing and participating in educational settings in addition to attending classes at Hunter.

Admission Requirements

1. A cumulative undergraduate GPA of 2.8 from an accredited bachelor’s degree program or a GPA of 3.5 from a master’s degree program. Applicants who have an undergraduate GPA between 2.5 and 2.8 may be interviewed by the TESOL faculty and accepted on a non-matriculated basis if space is available.
2. Twelve (12) credits of foreign-language study documented on the transcript or equivalent credits on a standardized proficiency test like the College Level Proficiency Program (CLEP) or the NYU Proficiency Test in a Foreign Language.

3. Submission of two letters of recommendation to be included in the graduate application.

4. Submission of statement of purpose to be included in the graduate applicant.

5. Applicants who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit an official TOEFL score report. These applicants must score at least 600 on the paper-administered test or 250 on the computer-administered test or 75 (less speaking component) on the TOEFL IBT. They must score at least 5.0 on the Test of Written English (TWE) or 24 on the IBT Writing Section; and 50 on the Test of Spoken English (TSE) or 26 on the IBT Speaking Section.

6. Satisfactory communication skills, as demonstrated through an oral interview and an on-site writing sample.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0, which includes courses in the arts and sciences subject as well as in teacher education, in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. Student who receive a grade of F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

B. Fieldwork Benchmarks

- Fieldwork and clinical experience courses (EDESL 77900 and EDESL 77800) must be passed with at least a B.

TESOL Adult Program Course of Study

Total Credits: 28-40 credits

Core Requirements

**EDESL 79600 - Methodology of Teaching English to Speakers of Other Languages**

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.
Hours includes 25 hours fieldwork, 4 cr
Credits 4

LING 70200 - Analysis and Structure of English from a Pedagogical Perspective

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

Hours includes 10 hrs fieldwork
Credits 4

LING 77400 - Theory and Research in Second Language Acquisition and Learning

A survey of current theory and research in second language acquisition with particular reference to the acquisition of English and applications of the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Credits 4

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610
Credits 4

EDESL 77000 - Content and Curriculum & Materials in Adult TESOL

An overview of current theory and practice in the design of content, curriculum, and materials for the teaching of Adult ESL, focusing primarily on designing ESL instruction for academic and adult continuing ESL contexts. Includes adult content area learning and English for Specific purposes, and integrating the 4 language skills.

prereq or coreq: pre- or coreq: EDESL 79600 or permission of TESOL adviser
Hours includes 10 hrs of fieldwork in Adult ESL classrooms.
Credits 4

EDESL 78410 - Practicum in TESOL for Adults

A hands-on Practicum/teaching experience with adult ESL students in the Community Outreach Program in English (COPE) at Hunter College, that serves as one of two culminating teaching experiences in the Adult Track of the
TESOL Program. Students also meet in a weekly seminar immediately after their COPE classes. Required of students in Program 3.

**prereq:** completion of 24 credits or permission of TESOL adviser  
**Hours** 30 hrs plus 60 hrs classroom teaching,  
**Credits** 2

**EDESL 78420 - Student Teaching in TESOL for Adults**

A student teaching experience (with the guidance of a cooperating teacher) in an academic ESL context (either an Intensive ESL Program or a college ESL class), that serves as one of two culminating teaching experiences in the Adult Track of the TESOL Program. Students also meet in a weekly seminar to discuss their student teaching experiences. Required of students in Program 3.

**prereq:** completion of 24 credits or permission of TESOL adviser  
**Hours** 30 hrs plus 60 hrs classroom teaching,  
**Credits** 2

**At Least Two of the Following:**

**EDESL 77600 - Language Assessment in Adult TESOL**

An overview of the theories, concepts, methods, and materials for assessing the language and content knowledge of adult ESL students. For students in Program 3.

**prereq:** EDESL 79600, LING 70200, EDESL 77000; **coreqs:** EDESL 77800, 77900, or permission of TESOL adviser  
**Hours** includes 10 hrs of fieldwork in Adult ESL classrooms,  
**Credits** 4

**EDESL 77800 - Teaching Oral Language Skills in Adult TESOL**

An overview of current theory and practice in the teaching of oral skills (speaking, listening, and pronunciation) to adult ESL students, focusing primarily on designing ESL instruction to enhance students’ skills in these areas. For students in Program 3.

**prereq:** EDESL 79600  
**prereq or coreq:** pre- or coreq: EDESL 77000  
**Credits** 4

**EDESL 77900 - Teaching Reading and Writing Skills in Adult TESOL**

An overview of the theory and practice of teaching reading and writing to adults in ESL, with considerations for the wide range of adult ESL learning contexts, including adult continuing education, college English/ESL programs and English for academic purposes. For students in Program 3.
4 Credits of Electives From

**EDESL 70100 - Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

*prereq: permission of TESOL adviser
Credits 1

**EDESL 70200 - Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

*prereq: permission of TESOL adviser
Credits 2

**EDESL 70300 - Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

*prereq: permission of TESOL adviser
Credits 3

**EDESL 70400 - Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

*prereq: permission of TESOL adviser
Credits 4
EDESL 79000 - Technology in TESOL: Adults

Through reading, class discussions, demonstrations, and hands-on applications, students are introduced to a range of technologies available to adult language learners in the computer laboratory, through distance learning, and on the Internet; students are also exposed to procedures in computer-assisted language learning (CALL) and computer-assisted instruction (CAI).

Hours 45 hrs,
Credits 3 cr
An elective for students in Program 3 and for students in Programs 1 and 2 who have been waived from a required course.

ENGL 61500 - Rhetoric and Composition

Rhetorical theory; analysis of selected masterpieces of prose; practice in writing a variety of prose forms.

Hours 45 hrs,
Credits 3 cr

CEDC 71700 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1

CEDC 71800 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2

CEDC 71900 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3

Exit Standards

1. An overall GPA of 3.0.
2. Comprehensive examination or a master's essay (EDESL 76000)
3. Students must pass the School of Education technology assessment.

TESOL PreK-12 - MA
The TESOL program is designed to educate people who wish to teach students for whom English is a second or foreign language – either children or adults. The skill of teaching English to speakers of other languages is acquired through studying specialized methods and techniques that differ from those used by teachers of English to native speakers. This preparation is the focus of the MA program in TESOL.

The MA program in TESOL is interdisciplinary. It encompasses courses that provide students with a theoretical and practical background in general linguistics, phonetics, the structure of American English, second language acquisition, related psychological, sociological, and anthropological aspects, as well as the methods and materials of English language instruction to various populations. Student must also complete a student teaching/practicum at the level(s) at which they intend to teach. Courses in the TESOL curriculum reflect three levels of hierarchy: introductory, intermediate and advanced. Because introductory courses are prerequisites for more advanced courses, students are to take courses in this sequence.

TESOL Programs 1 and 2 satisfy the requirements for New York State certification:

These tracks are not interchangeable, and students must specify one of them for their applications to be processed.

Students may be exempted from up to six credits of course work in any of the TESOL programs, subject to program approval, if they have taken similar content elsewhere.

Meeting minimum admission requirements does not guarantee acceptance into the program. Admission to the program is highly competitive. Each applicant’s grade point average, college coursework, written personal statement and interview, English language proficiency, foreign language credits, letter of recommendation and quality of experience are all carefully considered for admission to the program.

In these programs, links to the ESL classroom are emphasized and students are exposed to extensive field experiences and practice. Students should be prepared to spend considerable amounts of time observing and participating in educational settings in addition to attending classes at Hunter. All fieldwork experience must be done in New York City public schools.

Admission Requirements

Program 1 for Students Without Prior Certification

The Pre-K-12 Program 1 prepares students for New York State certification in TESOL, for which students apply through the college during the last semester in the program.

1. A cumulative undergraduate grade point average of 2.8 from an accredited bachelor’s degree program or 3.5 from a master’s degree program; those applicants who have a GPA between 2.5 and 2.8 may be interviewed by the TESOL faculty and accepted on a non-matriculated basis if space is available.

2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.

3. A general education core in liberal arts and sciences to include:

   - 12 credits of foreign language documented on a transcript or equivalent credits on a standardized proficiency test like the College Level Examination Program (CLEP) or the NYU Proficiency Test in Foreign Language
• 9 credits in communication and English with at least one course in written analysis and expression and one course in English literature

• 9 credits in science and mathematics, with at least one course in math and one course in science (a college course in calculus satisfies 6 credits of this requirement)

• 6 credits in social studies (including at least one course in history or geography)

• 3 credits in the arts

• 3 credits in information retrieval (library studies, research, computer literacy, or educational technology)

4. Satisfactory communication skills, as demonstrated through an oral interview and an on-site writing sample.

5. Submission of two letters of recommendation to be included in the graduate application.

6. A statement of purpose to be included in the graduate application.

7. Applicants who have taken all or part of their undergraduate education in a country where English is not the native language countries are required to submit an official TOEFL test score report. These applicants must score at least 600 on the paper administered test or 250 on the computer administered test or 75 (less speaking component) on the TOEFL IBT. They must score at least 5.0 on the Test of Written English (TWE) or 24 on the IBT Writing Section; and 50 on the Test of Spoken English (TSE) or 26 on the IBT Speaking section.

Program 2 for Students With Prior Certification

The Pre-K-12 Program 2 is intended for students who already have prior New York State certification in another subject area. Students completing this program qualify for New York State certification in TESOL, in this case, an additional certification.

1. A cumulative undergraduate grade point average of 2.8 from an accredited bachelor’s degree program or a GPA of 3.5 from a master’s program.

2. 12 credits of foreign language documented on a transcript or equivalent credits on a standardized proficiency test like the College Level Examination Program (CLEP) or the NYU Proficiency Test in a Foreign Language.

3. Proof of New York State teacher certification in an area other than TESOL (specifically, early childhood, childhood, middle childhood, or adolescent education; special subjects; students with disabilities; or literacy).

4. Satisfactory communication skills, as demonstrated through an oral interview and an on-site writing sample.

5. Submission of two letters of recommendation, to be included in the graduate application.

6. Applicants who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit an official TOEFL score report. These applicants must score at least a 600 on the paper-administered test or 250 on the computer-administered test or 75 (less speaking component) on the TOEFL IBT. They must score at least 5.0 on the Test of Written English (TWE) or 24 on the IBT Writing Section; and 50 on the Test of Spoken English (TSE) or 26 on the IBT Speaking Section.
Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0, which includes courses in the arts and sciences subjects as well as in teacher education, in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   *Note: It is recommended that students with two or more INs take an official leave of absence.*

5. Program 1 students must take the Liberal Arts and Sciences Test (LAST) of the New York State Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in a college writing course or workshop series approved by an adviser before being permitted to register for any additional courses.

B. Fieldwork Benchmarks

Students must receive a grade of at least B in EDESL 79610, EDESL 78500, and EDESL 78800. Any student who receives a grade of B-, C+ or C must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F will not be allowed to continue in the program.

TESOL Program 1 Course of Study

Total Credits: 30-42 credits

Core Requirements

**EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages**

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in Program 1.

*Credits 4*

*includes 50 hours fieldwork*

**LING 70200 - Analysis and Structure of English from a Pedagogical Perspective**
A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

Hours includes 10 hrs fieldwork
Credits 4

**LING 77400 - Theory and Research in Second Language Acquisition and Learning**

A survey of current theory and research in second language acquisition with particular reference to the acquisition of English and applications of the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Credits 4

**EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy**

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610
Credits 4

**EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas**

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: EDESL 79600/79610
Hours includes 10 hrs fieldwork in K-12 classrooms
Credits 4

**EDESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL**

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in Program 1 and Program 2.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser
Credits 4
includes 10 hrs fieldwork
EDESL 77200 - First and Second Language, and Technological Literacy in K-12 ESL

An in-depth treatment of theory and practice in the teaching of literacy skills, including technological, to English language learners in the public schools. Required of students in both Pre-K-12 Programs 1 and 2.

**prereq:** EDESL 79600/79610 and LING 70200 or permission of TESOL adviser

*Hours includes 10 hrs fieldwork*

*Credits 4*

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

*Hours includes 5 hrs of field work*

*Credits 4*

CEDCF 71000 - Social, Historical, & Philosophical Foundations of General and Bilingual Education: Theory and Practice

This course provides a foundation for TESOL and Bilingual Education students in the historical, social and philosophical foundations of general and bilingual education with an emphasis on the development and current educational policies and practices of educating English language learners. Required for TESOL Program 1.

*Hours includes 5 hrs of fieldwork*

*Credits 4*

Plus One of the Following:

EDESL 78500 - Supervised Student Teaching, Pre-K-6 and 7-12

Two-semester supervised student teaching experience in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

**prereq:** completion of 24 credits or permission of TESOL adviser

*Hours 60 hrs seminar plus student teaching and conference*

*Credits 2*

*this is a year-long course*

EDESL 78800 - Supervised Practicum, Pre-K-6 and 7-12
Two-semester supervised practicum in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs seminar plus student teaching and conference
Credits 2
this is a year-long course

And One of the Following:

**EDESL 76000 - Master's Essay Seminar in Educational Research**

A written study, requiring a literature review and an in-depth research project that may take a variety of forms. Students meet in a seminar and individually with the adviser; instructor’s approval of research project topic required. Taken in lieu of the comprehensive examination. Course extends across two semesters (Y course) or until written study is submitted. Registration by adviser’s approval only. Elective for all students.

prereq: completion of 24 credits or permission of TESOL adviser
Credits 4
Comprehensive Examination

**Note(s)**

Students may transfer, waive, or be exempted from up to 8 credits if they have taken equivalent course work elsewhere. Credit transfers, waivers, and exemptions are determined by the School of Education upon presentation of acceptable supporting paperwork. Taking EDESL 76000 MA Essay adds 4 credits to the degree.

*Student teaching is a year-long course. Students must complete 60 days during one semester at the K-6 level, and 60 days during the other semester at the 7-12 level. Student teachers may start their student teaching in either the fall or spring semester.*

**Practicum Teaching is a year-long course. Students are expected to be in the classroom during the entire year of teaching. Practicum students may start their practicum in either the fall or spring semester.**

**TESOL Program 2 Course of Study**

Total Credits: 25-37 credits

**Core Requirements**

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.
EDESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in Program 1 and Program 2.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Credits 4

includes 10 hrs fieldwork

EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: EDESL 79600/79610

Hours includes 10 hrs fieldwork in K-12 classrooms

Credits 4

EDESL 77200 - First and Second Language, and Technological Literacy in K-12 ESL

An in-depth treatment of theory and practice in the teaching of literacy skills, including technological, to English language learners in the public schools. Required of students in both Pre-K-12 Programs 1 and 2.

prereq: EDESL 79600/79610 and LING 70200 or permission of TESOL adviser

Hours includes 10 hrs fieldwork

Credits 4

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610

Credits 4

EDESL 79600 - Methodology of Teaching English to Speakers of Other Languages

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning
environments. Required of students in Programs 2 and 3.

*Hours includes 25 hours fieldwork, 4 cr
Credits 4*

**LING 70200 - Analysis and Structure of English from a Pedagogical Perspective**

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

*Hours includes 10 hrs fieldwork
Credits 4*

**LING 77400 - Theory and Research in Second Language Acquisition and Learning**

A survey of current theory and research in second language acquisition with particular reference to the acquisition of English and applications of the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

*prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser*

*Credits 4*

**Plus One of the Following**

**EDESL 78500 - Supervised Student Teaching, Pre-K-6 and 7-12**

Two-semester supervised student teaching experience in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

*prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs seminar plus student teaching and conference
Credits 2
this is a year-long course*

**EDESL 78800 - Supervised Practicum, Pre-K-6 and 7-12**

Two-semester supervised practicum in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

*prereq: completion of 24 credits or permission of TESOL adviser*
Hours 60 hrs seminar plus student teaching and conference
Credits 2
this is a year-long course

And One of the Following

EDES 76000 - Master's Essay Seminar in Educational Research

A written study, requiring a literature review and an in-depth research project that may take a variety of forms. Students meet in a seminar and individually with the adviser; instructor’s approval of research project topic required. Taken in lieu of the comprehensive examination. Course extends across two semesters (Y course) or until written study is submitted. Registration by adviser’s approval only. Elective for all students.

prereq: completion of 24 credits or permission of TESOL adviser
Credits 4

Note(s)

Students may be exempted from up to eight credits if they have taken equivalent course work elsewhere

*Student Teaching is a year-long course. Students must complete 60 days during one semester at the K-6 level, and 60 days during the other semester at the 7-12 level. Student teachers may start their student teaching in either the fall or spring semester.

**Practicum Teaching is a year-long course. Students are expected to be in the classroom during the entire year of teaching. Practicum students may start their practicum in either the fall or spring semester.

Exit Standards

1. A passing score on the comprehensive examination or successful completion of a master's essay (EDES 76000).

2. Students must demonstrate graduate-level academic oral and written communication skills in their coursework, and the ability to serve as appropriate models of the English language for their future students. Students who cannot demonstrate this level of language ability must take a non-credit writing course offered by the School of Education in order to enroll in any courses after completing 12 credits.

3. An overall GPA of 3.0.

4. Students must pass the School of Education technology assessment.

Department of Curriculum and Teaching

About the Department

Welcome to the Department of Curriculum and Teaching at Hunter College, the home of a wide variety of graduate and undergraduate programs that will prepare you for one of the highest callings in society: education. Along with the other departments in the School of Education, we carry on the original mission of Hunter College: the preparation of educators.
As part of the largest department in the Hunter College School of Education, Curriculum & Teaching programs prepare teachers and other school personnel in the areas of Childhood Education (elementary), Adolescent Education (secondary), Early Childhood Education, Literacy, Bilingual Education, Teaching English to Speakers of Other Languages (TESOL--K-12 and Adult), and Administration & Supervision. Our primary mission is to prepare teachers for any classroom environment, although we are particularly committed to preparing teachers for the challenges of public education in an urban setting.

The Department of Curriculum and Teaching houses the majority of the programs and courses in the Hunter College School of Education, working closely with departments in the School of Arts & Sciences to train teachers in content area knowledge, and in the methods of teaching such subject areas as English/Language Arts, Social Studies, Foreign Languages, Music, ESL, Bilingual Education, Math, and Science. Its programs ask future teachers and administrators to be thoughtful and knowledgeable educators, advocates for children and other learners, active promoters of social justice, knowledgeable resources, and effective future leaders in education.

Department of Educational Foundations

About the Department

The Department of Educational Foundations & Counseling Programs prepares students to enter the teaching and counseling professions, eventually to obtain the appropriate certification(s), which will help them establish, improve and maintain themselves within these professions.

Departmental courses are the basis of training in education and human services. The Department of Educational Foundations includes the disciplines of psychology, sociology, anthropology, history and philosophy. Research in these areas, when applied to education and counseling, provides the foundation for understanding individuals in the learning and counseling process and the social psychological context in which personal development and learning occur. In addition, the study of the history and the philosophic foundations of American education and counseling is essential for enabling future teachers and counselors to meet the ever-changing intellectual and social needs of a diverse body of individuals in a pluralistic, democratic society.

Departmental course offerings are offered in three distinct areas: psychological foundations; social foundations and counseling. All courses are anchored in theory and research-based knowledge from which we emphasize applications to the urban environment, the applied use of theory to influence policy and practice, and solutions to concrete and practical problems that school and counseling professionals experience in daily practice.

The department’s preparation of teachers and counselors goes beyond the acquisition of specific skills and methods. The focus of the department is on the professional identity and development of students so that they understand and seek to influence the social, political and economic context in which they function.

Department of Special Education

About the Department

Hunter’s graduate programs in special education prepare teachers to provide specially designed instruction for students with disabilities and to work across a variety of educational settings, including: special schools, special classes, resource rooms, pre-schools, early intervention programs, supported general education classrooms in public and private schools, hospitals, clinics, health agencies, home programs, and residential facilities. Special education programs at Hunter College have been nationally recognized by the Council for Exceptional Children. Completion of any one of Hunter’s specializations for the master’s degree in special education leads to New York State teacher certification. Hunter’s specializations are: childhood special education: learning disabilities; childhood special education: behavior disorders; childhood special education with an annotation in severe/multiple disabilities (including deafblindness); early childhood special education; early childhood special education with an annotation in severe/multiple disabilities (including deafblindness); deaf and hard-of-hearing; and blind and visually impaired.
Students who enter the programs with no previous certification and subsequently complete the master’s degree will meet the education requirements for New York State initial and professional certification in either childhood special education or early childhood special education and either childhood general education or early childhood general education. Students without prior teacher certification enter the Program 1 track.

Students who enter the childhood special education program with initial certification in childhood grades 1-6 and subsequently complete the master’s degree, will meet the education requirements for New York State professional certification in childhood/elementary education as well as for professional certification in childhood special education grades 1-6. Students with prior childhood certification enter the Program 2 track. Similarly, students who enter the early childhood special education program with initial certification in early childhood birth-grade 2 and subsequently complete the master’s degree, will meet the education requirements for New York State professional certification in early childhood education as well as for professional certification in early childhood special education birth to grade 2. Students who hold early childhood certification enter the Program 2 track in early childhood special education.

The early childhood master’s degree programs are designed for students whose primary interest is in teaching children from infancy through kindergarten. While students in the early childhood special education programs will also be prepared to teach grades 1 and 2, applicants whose primary interest is in these grades should apply to the childhood special education program, which encompasses grades 1-6.

The programs (with the exception of early childhood special education) are organized into a set of cross-categorical core courses and disability-specific specializations. Core courses develop knowledge and skills across a variety of disabilities to be applied across a range of education settings; specializations provide in-depth preparation for working with students within a particular disability area. Both core and specialization courses provide historical, theoretical, and clinical perspectives, as well as current research and direct experiences with students of different ages and profiles. A hallmark of Hunter’s programs is their linking of theory to effective instruction.

School of Health Sciences

About the School of Health Sciences

Hunter’s Institute of Health Sciences, dedicated to the educational preparation of a range of health care professions, opened its doors on East 106th Street in 1968. Six years later, the Institute became the School of Health Sciences and moved downtown to the Brookdale Campus. Today Hunter College’s School of Health Sciences’ mission is the education of the next generation of health care professionals in the areas of Communication Sciences and Audiology, Medical Laboratory Sciences and Physical Therapy. These professionals will work in health care centers, schools, organizations and private practice to improve the lives of those they assist through direct service delivery, research and education.

The Physical Therapy program is a three-year post-baccalaureate Doctor of Physical Therapy degree curriculum, a collaboration between the Graduate Center of CUNY and the physical therapy programs at Hunter College and the College of Staten Island. For information about the program go to http://web.gc.cuny.edu/physicaltherapy/

The Centers

Brookdale Center for Health Aging and Longevity of Hunter College

Brookdale Campus (BC) 13th floor, North Building; (212) 481-3780
Website: http://www.brookdale.org/

The Brookdale Center for Healthy Aging & Longevity of Hunter College is a multi-disciplinary center of excellence dedicated to the advancement of successful aging and longevity through research, policy analysis, advocacy, education, and the development of evidence-based practice models. The Center is supported by funding from Hunter College, grants from philanthropic and corporate foundations, grants and contracts from federal, state, and local governments, and contributions from the general public.

The Center includes the Sadin Institute for Law and Public Policy and the Jacob Reingold Institute for the Prevention of Elder Abuse. Current projects address legal rights of older people, elder abuse prevention, neighborhood-based determinants of healthy urban aging, community-based models of chronic disease management and prevention, emergency preparedness, and emerging policy issues affecting older populations.

Center for Urban and Community Health

Brookdale Campus (BC) 10th floor West Building; (646) 733-2862
Website: http://www.hunter.cuny.edu/health/aidshp/

The Center for Urban and Community Health seeks to help New York City community organizations and human-service agencies to develop effective programs for the control of HIV/AIDS, substance abuse, tuberculosis, violence, asthma, and related threats to health. By providing training, helping in program development, and conducting research and evaluation, the center enables communities that have been most adversely affected by these intersecting epidemics to mobilize for health.

Current projects are based in city jails, public high schools, community organizations and after-school programs. The center is funded by grants from several private foundations and city, state and federal governments.

Center for Occupational and Environmental Health
The Hunter College Center for Occupational and Environmental Health was established in 1986 to improve workplace and environmental health by assisting worker and community efforts to understand and ameliorate hazardous conditions. The center conducts training classes to assist labor unions, government agencies and other groups to strengthen their capacity to respond to workplace hazards; assists communities in addressing urban environmental concerns; and sponsors graduate student internships in occupational and environmental health.

Current areas of interest and study include asbestos, lead poisoning, hazardous waste and materials, asthma, air pollution, ergonomics and public health policy. The Center for Occupational and Environmental Health is funded by federal and state grants, labor unions and private foundations.

Center for Communication Disorders

The Hunter College Center for Communication Disorders (Speech-Language-Hearing Clinic) is located at the Brookdale Health Sciences campus, 425 East 25 St., Room 133 North. The Center is an integral part of the Communication Sciences Program. The Center provides diagnostic and therapeutic services for a wide variety of language, speech, voice, fluency, swallowing, hearing, communication modality, and social communication disorders. Audiological services include complete audiological evaluations, auditory processing disorder testing, and auditory brainstem response assessment with state of the art instrumentation. Services are available to the Hunter College community as well as the general public. Appointments can be made by calling (212) 481-4464.

Academic Services for Faculty, Students and Staff

Hunter Health Professions Library (HPL)

The Hunter Health Professions Library (HPL) is located on the Brookdale Campus and is open 74 hours a week. HPL supports the curricular and research needs of the CUNY School of Public Health at Hunter College, Hunter-Bellevue School of Nursing and the Hunter School of Health Sciences. It also serves several research institutes at Brookdale, namely the Brookdale Center on Aging, the Center for Community and Urban Health, and the Center for Environmental & Occupational Health. The library has 26,500 volumes and 224 professional journals housed in its 10,000 sq./ft. In addition, full-text articles from over 50,000 journals are accessible via the library's electronic resources. The library provides seating for 212 (156 in the library and 56 computers).

Health Professions Education Center (HPEC)

Mezzanine floor
Brookdale West Building
(212) 481-5129

Health Professions Education Center

Director:

Mr. Martin Dornbaum
Mezzanine floor
Brookdale West Building
The Health Professions Education Center (HPEC) supports student learning and faculty teaching in the health professions by providing state-of-the-art instructional media and technology, audio/visual support, and highly specialized computer learning modules, which enhance the curricula of the School of Nursing, School of Public Health, Brookdale Center on Healthy Aging and Longevity, Center for Occupational and Environmental Health, Center for Community and Urban Health, and the Center for Communication Disorders.

The HPEC offers a unique service in that it approaches learning from a transdisciplinary perspective and combines traditional approaches to teaching with media-enhanced instruction and new technologies.

The HPEC provides a wide range of services to students and faculty, including:

- Access to the largest collection of health-related videos and instructional media within CUNY
- Computer-aided instruction through the use of educational software and virtual training technologies.
- State board testing preparation, where students gain a mastery of their disciplines through cutting-edge software.
- PC labs, multimedia study carrels, and reserve materials, including anatomical models and high resolution slides for use as visual aids.
- Smart classroom, distance learning, and audio/visual support for all Brookdale classes.
- Beta testing and evaluation of new instructional media, allowing us to continually update and expand our media collection.
- Consultation with faculty on embedding instructional technology into their syllabi to enhance the classroom learning experience, as well as into their research projects, trainings, and other activities.
- Development of strategic partnerships with vendors in order to provide a growing range of services to faculty, staff, and students.
- Development and administration of e-learning initiatives, online testing, and digital content.

Faculty and students from all Hunter College schools and departments are always welcome to view the many resources available at the HPEC.

The center maintains regular office hours throughout the academic year, Monday-Thursday 9AM-9PM and Fridays 9AM-5PM.

**School of Health Sciences Faculty**

**Suzanne Babyar, Associate Professor, Physical Therapy**; PhD, NYU, Physical Mobility

**Giulia Bencini, Assistant Professor, Communication Sciences**; PhD, Illinois-Champaign Urbana; language acquisition, language processing, neurolinguistics, aphasia, dementia
Paul Cascella, Professor, Communication Sciences; PhD, Connecticut; developmental disabilities, augmentative communication, stuttering, phonology

Nancy Eng, Associate Professor, Communication Sciences; PhD, CUNY; Typical language development bilingual speakers, specific language impairment

Michele MacCroy Higgins, Assistant Professor, Communication Sciences; PhD, CUNY; typical language acquisition, language and phonological disorders in children, Autism spectrum disorders

Thomas Holland, Assistant Professor, Physical Therapy; PTPhD, NYU, Kinesiology, stroke rehabilitation, wound care and prevention

Herbert Karpatkin, Assistant Professor, Physical Therapy; PhD, Rocky Mountain University; Multiple Sclerosis, Neurorehabilitation, Neuroplasticity

Gary Krasilovsky, Associate Professor, Physical Therapy; PhD, NYU, Parkinson’s Disease and Neurological Rehabilitation

Milo Lipovac, Associate Professor, Physical Therapy; PhD, Belgrade, Neuroanatomy and Physiology, Pharmacology

Michele MacCroy Higgins, Assistant Professor, Communication Sciences; PhD, CUNY; typical language acquisition, language and phonological disorders in children

Susan Pivko, Assistant Professor, Physical Therapy; PhD, UMDNJ; Clinical Education, spine, Performing Artists/Musicians, Elite Athletes

John Preece, Professor, Communication Sciences; PhD, Iowa, Rehabilitative Audiology, tinnitus, cochlear implants

Elaine Rosen, Professor, Physical Therapy; DPT, Institute of Physical Therapy, Orthopedic Management of Extremities and Spine

Carol R. Silverman, Professor, Communication Sciences; PhD, NYU, Diagnostic and Rehabilitative Audiology, Medical audiology

Donald Vogel, Assistant Professor, Communication Sciences; AuD, Central Michigan, pediatric difficult-to-test populations, vestibular and audiometric graphics

Dava Waltzman, Assistant Professor, Communication Sciences; PhD, CUNY, Preschool and School Age Language Development and Disorders, Cultural and Linguistic Diversity

Susan Wortsman, Instructor, Communication Sciences; MA, City College; Diagnostic Audiology, Pediatric Audiology, Patient Counseling

Hunter-Bellevue School of Nursing

About the School
The Hunter-Bellevue School of Nursing offers accredited programs leading to the master of science degree, the MS as part of a dual degree and advanced certificates. Each program provides an advanced body of nursing knowledge that builds on the knowledge and competencies acquired through a baccalaureate education in nursing. Graduates are prepared to assume leadership positions and make significant contributions to the quality of health care through roles such as nurse practitioners, clinical nurse specialists, clinical nurse leaders, nursing administrators, advanced public health nurses, and nursing educators.

The MS degree can be earned in clinical specializations of community/public health nursing, adult health (medical-surgical nursing), primary care and psychiatric/mental health. Dual degrees are available in nursing administration (MS/MPA program with Baruch) and public health (MS /MPH in public health with the CUNY School of Public Health at Hunter. Graduates of these programs meet the educational requirement for certification by the American Nurses Credentialing Center.

The MS degree can be earned in nurse practitioner (NP) programs for gerontological/adult health nurse practitioner, adult nurse practitioner, and psychiatric nurse practitioner. Graduates of these programs are eligible to apply for New York State Certification as NPs. They can also apply to specialty organizations for national certification after passing a national certification examination.

Each specialization provides the opportunity for interested students to complete a sub-specialization in the care of HIV/AIDS clients, integrative modalities, or nursing education.

The School of Nursing offers two post-master’s certificate programs: nursing education and psychiatric nursing (nurse practitioner).

All students must have an annual physical examination and submit the necessary clearance forms including malpractice and health insurance in order to progress through the clinical courses. Some clinical placements might have additional requirements.

Please note: Hunter College, Lehman, and The College of Staten Island, City University of New York, offer a Doctor of Nursing Science (DNS) through the Graduate Center. For information, please go to http://web.gc.cuny.edu/Clinical Doctoral/index.htm and access the link to the DNS site.

Nursing Laboratory

The Nursing Laboratory provides space for graduate and undergraduate students to learn and practice basic skills and more advanced nursing interventions in simulated outpatient and hospital settings using a mix of anatomical models, high-fidelity simulators and some paid, trained "patients." Use of the laboratory is built into most clinical courses; individual appointments for practice or special project work can be arranged.

**Graduate Certificate**

**Nursing Education Advanced Certificate**

Specialization Coordinator: Joan Arnold, jar0004@hunter.cuny.edu
This specialization is for registered nurses who hold a master’s degree in nursing from an accredited school preparing nurses for beginning positions as educators in both academic settings and in health care agencies. The 13 credit program consists of four courses, one of which is a 4 credit practicum including 135 hours of preceptored practice teaching. Graduates are eligible for to sit for certification as a Nursing Educator by the National League for Nursing.

Specialization Courses 13 credits

**NURS 70100 - Assessment, Measurement, and Evaluation in Nursing Education**

Various methods of assessment and evaluation of learning will be addressed within a nursing context.

**NURS 73000 - Instructional Design in Nursing Education**

Examination of theoretical models and empirical factors that affect teaching-learning process in educational settings in nursing.

*prereq: NURS 70000 or equivalent course*

**NURS 75200 - Advanced Concepts in Nursing Education**

Advanced concepts in nursing education that allow for the construction of nursing education programs will be explored. Issues critical to academic and institutional education will be examined.

*prereq: NURS 73000*

**NURS 73100 - Practicum in Nursing Education**

Preceptored-supervised practicum emphasizing utilization of practice-related role of nurse educator and application of theoretical formulations in educational settings in nursing.

*prereq: NURS 730
Hours 15 hrs seminar, 135 hrs practice,
Credits 4 cr*

**Nursing: Psychiatric Nurse Practitioner Advanced Certificate**

**Specialization Coordinators:** Anna Acee, Kunsook Bernstein, aacee@hunter.cuny.edu, kbernst@hunter.cuny.edu

This specialization for registered nurses who hold a master’s degree in nursing from an accredited school, prepares nurses to assume an advanced practice nursing role in a variety of community as well as institutional settings, in private practice, and in such fields as liaison nursing and hospice care. Faculty and preceptor supervised clinical experiences of a total of 600 clinical hours are in hospitals, private practice office, OPD, clinics, and community settings. Graduates of the program are eligible for certification as psychiatric/mental health nurse practitioners by New York State and meet educational requirements for application to the national certification examination by the American Nurses Credentialing Center.

**Advanced Practice Core 9 credits**
(May be waived)

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies.

*prereq: NURS 74900*

*Hours 45 hrs practicum, 3 cr*

**Advanced Practicce Specialization Courses 15 credits**

**NURS 74200 - Advanced Practice Psychiatric-Mental Health Nursing I**

Exploration of mental health problems, recovery-oriented services and promotion of mental health in individuals. Students learn to provide primary mental health care for individuals experiencing a range of complex problems.

*prereq: NURS 70000*

*prereq or coreq: NURS 70200, NURS 71700, NURS 74900, NURS 75000, NURS 75100*

*Hours 30 hrs lecture, 15 hrs seminar, 166 hrs clinical, 5 cr*

**NURS 74300 - Advanced Practice Psychiatric-Mental Health Nursing II**

Exploration of mental health of families. Students learn to provide primary mental healthcare for families experiencing a range of complex problems.

*prereq: NURS 742*

*prereq or coreq: NURS 704*

*Hours 30 lecture hours, 15 hrs seminar, 167 hrs clinical, 5 cr*

**NURS 74400 - Advanced Practice Psychiatric-Mental Health Nursing III**
An exploration of contemporary mental health issues from group and community perspectives. Students learn to develop advanced practice group and community interventions that reduce risk, promote resilience, and enhance mental health.

**prereq:** NURS 74300

*Hours* 30 hrs lecture, 15 hrs seminar, 167 hrs of clinical practicum,

*Credits* 5 cr

Highly recommended elective 3 credits

NURS 71900 - Psychopharmacology

Course provides evidence-based guidelines of pharmacology in treating mentally ill individuals. Neuro-biology and psychopharmacology theories, current clinical practice of pharmacology for major psychiatric diagnoses, and practical clinical application of relevant pharmacotherapy will be explored.

Graduate Masters

Nursing: Adult Health/Med-Surg Nursing MS

(42 Credits)

Specialization Coordinator Dr. Christine Cutugno

ccutugno@hunter.cuny.edu

The program prepares nurses to assume an advanced practice nursing role as a Clinical Nurse Specialist in a variety of health care settings, from acute care to home care. Nurses who earn this degree are preparing themselves for advanced practice positions in medical-surgical specialties within acute care or community-based nursing services.

Through course work, practicums (500 hours), and carefully selected electives, students develop expertise in such specialties as cardiovascular nursing, oncology, rehabilitation, and critical care. The advanced practicums are offered in a variety of medical-surgical specialties. Students also have an opportunity to participate in community-based programs aimed at serving a selected target population and promoting policy changes in the health care delivery system. Graduates of the program meet educational requirements for specialty certification by the American Nurses Credentialing Center (ANCC).

Core Courses (12 cr.)

NURS 70000 - Theoretical Foundations of Nursing Science

Examination of worldviews represented in nursing science today. Presentation of major nursing theories and models, highlighting their philosophical assumptions, major concepts and propositions. Explication of criteria for analysis and evaluation of nursing theories and models and the interrelationships of theory, research, and practice. Discussion of advanced practice roles.

NURS 70200 - Nursing Research
Introduction to basic and applied research methods. Analysis of research and research utilization process concerning nursing science phenomena that have relevance for evidence-based advanced practice nursing in various roles.

**prereq: NURS 70000 and competence in basic statistical methods as assessed by an in class pretest.**

**NURS 70400 - Urban Health Care Systems**

Evaluation of the impact of individual, social and environmental determinants on different levels of wellness and analysis of culturally competent nursing interventions.

**NURS 74900 - Health Promotion/Disease Prevention in Diverse Populations**

Theories and models of health promotion/disease prevention including Healthy People documents are analyzed. Strategies to enhance global awareness in order to provide culturally competent nursing care for diverse populations are discussed.

**Advanced Practice Core (9 cr.)**

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies.

**prereq: NURS 74900**  
**Hours 45 hrs practicum,**  
**Credits 3 cr**

**Advanced Practice Specialization Courses (15 cr.)**

**NURS 76100 - Clinical Leadership in Nursing I**

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health
disparities in specific clinical settings.

**prereq:** NURS 70000; NURS 70200, NURS 70400, NURS 74900  
**prereq or coreq:** NURS 71700, NURS 75000, NURS 75100  
**Hours** 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars,  
**Credits** 5

**NURS 76600 - Advanced Medical Surgical Nursing I**

Provides specialized knowledge and clinical experience in order to implement the diverse roles of the clinical nurse specialist (CNS) in a variety of settings and with patients of different age groups.

**prereq:** NURS 76100  
**Hours** 30 hours theory, 15 hours seminar, 167 hours clinical practicum  
**Credits** 5

**NURS 76700 - Advanced Medical Surgical Nursing II**

Builds on specialized knowledge and clinical experience in order to implement the diverse roles of the clinical nurse specialist (CNS) in a variety of settings and with patients of different age groups.

**prereq:** NURS 76600  
**Hours** 30 hours theory, 15 hours seminar, 167 hours clinical practicum  
**Credits** 5

**Electives (6 cr.)**

**Nursing: Adult Nurse Practitioner MS**

42 credits

**Specialization Coordinators:** Joanna Hofmann, johofmann@hunter.cuny.edu. Kenya Beard, kbeard@hunter.cuny.edu

This specialization prepares nurses to deliver primary care for adults in primary-care centers, community health centers, college health and wellness centers, clinics and hospitals. Students learn to apply theories and research findings to an advanced practice role through core and specialization courses and multidisciplinary practicums (630 hours). Practitioner courses emphasize health promotion and protection and primary care and case management with selected populations. Faculty and preceptor supervised clinical experiences are in primary care centers and community health centers, clinics and hospitals. Graduates of the program are eligible for certification as adult nurse practitioners by New York State Education Department and by the American Nurses Credentialing Center after passing the national certification examination.

**Nursing core courses 12 credits**

**NURS 70000 - Theoretical Foundations of Nursing Science**
Examination of worldviews represented in nursing science today. Presentation of major nursing theories and models, highlighting their philosophical assumptions, major concepts and propositions. Explication of criteria for analysis and evaluation of nursing theories and models and the interrelationships of theory, research, and practice. Discussion of advanced practice roles.

**NURS 70200 - Nursing Research**

Introduction to basic and applied research methods. Analysis of research and research utilization process concerning nursing science phenomena that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000 and competence in basic statistical methods as assessed by an in class pretest.*

**NURS 70400 - Urban Health Care Systems**

Evaluation of the impact of individual, social and environmental determinants on different levels of wellness and analysis of culturally competent nursing interventions.

**NURS 74900 - Health Promotion/Disease Prevention in Diverse Populations**

Theories and models of health promotion/disease prevention including Healthy People documents are analyzed. Strategies to enhance global awareness in order to provide culturally competent nursing care for diverse populations are discussed.

**Advanced Practice Core 9 credits**

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies.

*prereq: NURS 74900*

*Hours 45 hrs practicum, Credits 3 cr*
Specialization Courses 15 credits

**NURS 75500 - Primary Care Nursing I**

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

*prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100
prereq or coreq: NURS 75000
Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum
Credits 5 cr

**NURS 75700 - Primary Care Nursing II**

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

*prereq: NURS 75500
prereq or coreq: NURS 70400
Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,
Credits 5

**NURS 76800 - Primary Care Nursing III**

Theories, research and strategies for primary care nursing of adolescent, adult, and older adults with complex multisystem health problems are analyzed and applied; role expectations of nurse practitioners are synthesized. Capstone project is finalized.

*prereq: NURS 75700
Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,
Credits 5 cr

Electives 6 credits

**Nursing: Clinical Nurse Leader MS**

(42 Credits)

Specialization Coordinator Mattia Gilmartin
mgilmar@hunter.cuny.edu
The program prepares nurses to assume a Clinical Nurse Leader™ role in a variety of health care settings, from acute care to home care. Students learn to apply theories and research findings to practice through course work and in a series of practica for a total of 500 hours. Nurses who earn this degree are preparing themselves for practice as advanced generalists with competence in providing clinical outcomes management, care environment management, and clinical leadership for setting specific practice throughout the healthcare delivery system. Graduates of the program meet educational requirements for specialty certification by the American Association of Colleges of Nursing (AACN).

Nursing Core Courses (12 cr.)

NURS 70000 - Theoretical Foundations of Nursing Science

Examination of worldviews represented in nursing science today. Presentation of major nursing theories and models, highlighting their philosophical assumptions, major concepts and propositions. Explication of criteria for analysis and evaluation of nursing theories and models and the interrelationships of theory, research, and practice. Discussion of advanced practice roles.

NURS 70200 - Nursing Research

Introduction to basic and applied research methods. Analysis of research and research utilization process concerning nursing science phenomena that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000 and competence in basic statistical methods as assessed by an in class pretest.

NURS 70400 - Urban Health Care Systems

Evaluation of the impact of individual, social and environmental determinants on different levels of wellness and analysis of culturally competent nursing interventions.

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies.

prereq: NURS 74900
Hours 45 hrs practicum, 
Credits 3 cr

Specialization Courses (15 cr.)

NURS 76100 - Clinical Leadership in Nursing I

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

prereq: NURS 70000; NURS 70200, NURS 70400, NURS 74900
prereq or coreq: NURS 71700, NURS 75000, NURS 75100
Hours 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars,
Credits 5

NURS 76200 - Clinical Leadership in Nursing II

Synthesis of all aspects of leadership, care, and information management. Guided learning opportunities and clinical immersion in a unit or setting specific area; facilitates the integration of the multiple CNL functions into a professional model of CNL practice.

prereq: NURS 76100
Hours 60 hrs theory; 335 hrs clinical practicum (immersion), including 30 hrs clinical seminars
Credits 10

Electives (6 cr.)

Nursing: Community/Public Health Nursing MS

(42 credits)

Specialization Coordinator: Judith Aponte, jap@hunter.cuny.edu
The program prepares nurses as advanced public health nurses to assume leadership roles in community/public health nursing in a variety of settings including home care, public health, and community-based agencies. Students learn to apply theories and research findings to nursing practice through course work and a series of practicums for a total of 500 hours. Graduates of the program meet additional requirements for specialty certification by the American Nurses Credentialing Center.

**Nursing core courses 12 credits**

**NURS 70000 - Theoretical Foundations of Nursing Science**

Examination of worldviews represented in nursing science today. Presentation of major nursing theories and models, highlighting their philosophical assumptions, major concepts and propositions. Explication of criteria for analysis and evaluation of nursing theories and models and the interrelationships of theory, research, and practice. Discussion of advanced practice roles.

**NURS 70200 - Nursing Research**

Introduction to basic and applied research methods. Analysis of research and research utilization process concerning nursing science phenomena that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000 and competence in basic statistical methods as assessed by an in class pretest.*

**NURS 70400 - Urban Health Care Systems**

Evaluation of the impact of individual, social and environmental determinants on different levels of wellness and analysis of culturally competent nursing interventions.

**NURS 74900 - Health Promotion/Disease Prevention in Diverse Populations**

Theories and models of health promotion/disease prevention including Healthy People documents are analyzed. Strategies to enhance global awareness in order to provide culturally competent nursing care for diverse populations are discussed.

**Public Health Core Courses 9 credits**

**PH 75000 - Introduction to Biostatistics**

This course is designed to enable students to analyze, present and interpret population health data.

*prereq: Elementary statistics or calculus or equivalent.*

**PH 75200 - Introduction to Epidemiology**

An introduction to epidemiologic principles, methods and measures commonly used in public health. T

*prereq: PH 75000*
PH 75400 - Environmental Health and Safety

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation and noise hazards; hazardous substances; solid wastes; food protection; natural and human-made disasters; and specific hazards such as lead, asbestos, mold and pesticides.

Specialization Courses 15 credits

NURS 77100 - Community/Public Health Nursing I

Analysis of how clinical specialists in community/public health nursing conduct a community health assessment and participate on multidisciplinary teams that work in partnership with culturally diverse communities.

prereq: NURS 700, PH 700
prereq or coreq: NURS 702, NURS 749
Hours 30 hrs theory, 166 hrs practicum, 15 hrs seminar,
Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100
prereq or coreq: NURS 70400
Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,
Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772
Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,
Credits 5 cr

Electives 6 credits

Nursing: Community/Public Health Nursing/Urban Public Health MS/MPH Dual Degree

57 credits

Specialization Coordinator: Judith Aponte, jap@hunter.cuny.edu

The program prepares nurses as advanced public health nurses to assume leadership roles in community/public health nursing in a variety of settings including home care, public health, and community-based agencies. Students learn to
apply theories and research findings to nursing practice through course work and a series of practicums for a total of 500 hours. Students who select the dual degree option attain additional knowledge of public health sciences with the option of either environmental and occupational health or community health education. Graduates of the program meet educational requirements for specialty certification by the American Nurses Credentialing Center.

**Nursing core courses 12 credits**

**NURS 70000 - Theoretical Foundations of Nursing Science**

Examination of worldviews represented in nursing science today. Presentation of major nursing theories and models, highlighting their philosophical assumptions, major concepts and propositions. Explication of criteria for analysis and evaluation of nursing theories and models and the interrelationships of theory, research, and practice. Discussion of advanced practice roles.

**NURS 70200 - Nursing Research**

Introduction to basic and applied research methods. Analysis of research and research utilization process concerning nursing science phenomena that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000 and competence in basic statistical methods as assessed by an in class pretest.*

**NURS 70400 - Urban Health Care Systems**

Evaluation of the impact of individual, social and environmental determinants on different levels of wellness and analysis of culturally competent nursing interventions.

**NURS 74900 - Health Promotion/Disease Prevention in Diverse Populations**

Theories and models of health promotion/disease prevention including Healthy People documents are analyzed. Strategies to enhance global awareness in order to provide culturally competent nursing care for diverse populations are discussed.

**Advanced Practice Core 9 credits**

**PH 75000 - Introduction to Biostatistics**

This course is designed to enable students to analyze, present and interpret population health data.

*prereq: Elementary statistics or calculus or equivalent.*

**PH 75200 - Introduction to Epidemiology**

An introduction to epidemiologic principles, methods and measures commonly used in public health. T

*prereq: PH 75000*
PH 75400 - Environmental Health and Safety

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation and noise hazards; hazardous substances; solid wastes; food protection; natural and human-made disasters; and specific hazards such as lead, asbestos, mold and pesticides.

Specialization Courses 15 credits

NURS 77100 - Community/Public Health Nursing I

Analysis of how clinical specialists in community/public health nursing conduct a community health assessment and participate on multidisciplinary teams that work in partnership with culturally diverse communities.

prereq: NURS 700, PH 700
prereq or coreq: NURS 702, NURS 749
Hours 30 hrs theory, 166 hrs practicum, 15 hrs seminar,
Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100
prereq or coreq: NURS 70400
Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,
Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772
Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,
Credits 5 cr

Public Health Core Courses 9 credits

PH 75500 - Urban Health and Society

Examines impact of social and political forces on the health of urban populations and describes roles for public health professionals in promoting health of urban communities.

PH 75600 - Public Health and Health Care Policy and Management
This course examines the organization, delivery and financing of health care in the United States with an understanding of the health policy-making process and a focus on issues related to the management of public health agencies.

**HPM 75000 - Public Health Management**

Focuses on management issues in a variety of organizational settings and the larger public health environment; describes managerial functions and problem solving strategies, financial management principles, and management models for change; develops specific skills in program management, budgeting, workforce development, and managing intersectoral programs.

*prereq: PH 70100 or 71000*

**Choice of:**

**Community Health Education Courses 9 credits**

**COMHE 75100 - Community Health Interventions**

An introduction to community-level interventions as explained by theories of individual, organizational and community change from the disciplines of psychology, sociology and health education.

*prereq: PH 75500, COMHE 75000
Credits 3*

**COMHE 75300 - Health Program Planning and Funding**

This course will engage students in identifying or designing a health program, finding funding sources, and developing a proposal covering program need, program objectives, a management and quality assurance plan, preliminary work, evaluation, budget, and a plan for funding support.

*prereq: completion of 15 cr incl PH 75000 or 75100, PH 75500 and either COMHE 75000, COMHE 75100, COMHE 75200 or COMHE 75000 and NUTR 71000 or NURS 77100, COMHE 75100 and COMHE 75200.
Credits 3 cr*

**COMHE 75200 - Community Organizing and Development for Health**

Prepares students to work in communities by presenting the theory and practice of organizing for social justice, skills for promoting leadership development within communities, and the tools to create and sustain healthy organizations.

*prereq: PH 75000, COMHE 75000, COMHE 75100
-or-

**Environmental and Occupational Health Sciences Courses 9 credits**

**EOHS 70200 - Introduction to Occupational Safety and Health**
Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

**EOHS 75700 - Principles of Industrial Hygiene**

Recognition, evaluation, and control of industrial hazards due to chemical and physical agents. Topics include occupational health standards, regulatory agency activities, effects of contaminants on human health, sampling and control of hazards, current issues.

*prereq: EOHS 70200 and 70500*

**EOHS 75400 - Environment and Occupational Toxicology**

Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of toxicological testing and evaluation.

*prereq: PH 75400 and EOHS 70500*

**Electives 3 credits**

**Nursing: Gerontological/Adult Health Nurse Practitioner Program MS**

42 credits

**Specialization Coordinator: Steven Baumann, sbaumann@hunter.cuny.edu**

This specialization prepares nurses to assume a leadership role in primary care for adults and older adults in the community and in a variety of health care settings. Students learn to apply select theories and research in 735 hours of preceptored practicums. Graduates of the program will be eligible for certification as adult nurse practitioners and gerontological nurse practitioners by the New York State Education Department and by the American Nurses Credentialing Center after passing the national certification examination.

**Nursing core courses 12 credits**

**NURS 70000 - Theoretical Foundations of Nursing Science**

Examination of worldviews represented in nursing science today. Presentation of major nursing theories and models, highlighting their philosophical assumptions, major concepts and propositions. Explication of criteria for analysis and evaluation of nursing theories and models and the interrelationships of theory, research, and practice. Discussion of advanced practice roles.

**NURS 70200 - Nursing Research**

Introduction to basic and applied research methods. Analysis of research and research utilization process concerning nursing science phenomena that have relevance for evidence-based advanced practice nursing in various roles.
prereq: NURS 70000 and competence in basic statistical methods as assessed by an in class pretest.

**NURS 70400 - Urban Health Care Systems**

Evaluation of the impact of individual, social and environmental determinants on different levels of wellness and analysis of culturally competent nursing interventions.

**NURS 74900 - Health Promotion/Disease Prevention in Diverse Populations**

Theories and models of health promotion/disease prevention including Healthy People documents are analyzed. Strategies to enhance global awareness in order to provide culturally competent nursing care for diverse populations are discussed.

**Advanced Practice Core 9 credits**

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies.

prereq: NURS 74900

*Hours 45 hrs practicum,*

*Credits 3 cr*

**Specialization Courses 18 credits**

**NURS 75500 - Primary Care Nursing I**

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are introduced.

prereq: NURS 70000, NURS 70200, NURS 71700, NURS 74900, NURS 75100
prereq or coreq: NURS 75000
Hours 30 hrs. theory, 15 hrs seminar, 210 hrs practicum
Credits 5 cr

NURS 75700 - Primary Care Nursing II

Theories, research and strategies for primary care nursing of clients aged adolescence through older adult with selected health and illness states are analyzed and applied. Role expectations of nurse practitioners are developed.

prereq: NURS 75500
prereq or coreq: NURS 70400
Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,
Credits 5

NURS 76800 - Primary Care Nursing III

Theories, research and strategies for primary care nursing of adolescent, adult, and older adults with complex multisystem health problems are analyzed and applied; role expectations of nurse practitioners are synthesized. Capstone project is finalized.

prereq: NURS 75700

Hours 30 hrs theory, 15 hrs seminar, 210 hrs practicum,
Credits 5 cr

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

coreq: NURS 755
Hours 15 hrs seminar, 105 hrs practicum,
Credits 3 cr

Electives 3 credits

Select courses such as NURS 75400 - Psychosocial Behavioral Patterns of Older Adults

Nursing: Nursing Administration/Public Administration

MS/MPA Dual Degree with Baruch College
Specialization Coordinator: David Keepnews, dkeepnew@hunter.cuny.edu

This specialization prepares nurses to assume positions of leadership in nursing in a variety of health care settings, systems and agencies. The program emphasizes multidisciplinary approaches to management and policy in nursing and health care including practicum experiences (500 hours). Graduates of the program meet the educational requirements for specialty certification by the American Nurses Credentialing Center.

Nursing core courses 12 credits

**NURS 70000 - Theoretical Foundations of Nursing Science**

Examination of worldviews represented in nursing science today. Presentation of major nursing theories and models, highlighting their philosophical assumptions, major concepts and propositions. Explication of criteria for analysis and evaluation of nursing theories and models and the interrelationships of theory, research, and practice. Discussion of advanced practice roles.

**NURS 70200 - Nursing Research**

Introduction to basic and applied research methods. Analysis of research and research utilization process concerning nursing science phenomena that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000 and competence in basic statistical methods as assessed by an in class pretest.*

**NURS 70400 - Urban Health Care Systems**

Evaluation of the impact of individual, social and environmental determinants on different levels of wellness and analysis of culturally competent nursing interventions.

**NURS 74900 - Health Promotion/Disease Prevention in Diverse Populations**

Theories and models of health promotion/disease prevention including Healthy People documents are analyzed. Strategies to enhance global awareness in order to provide culturally competent nursing care for diverse populations are discussed.

Advanced Core Courses 18 credits

**PAF 91000 - Introduction to Public Affairs**

Systematic study of the institutions Americans have developed to pursue the public interest; government, markets, nonprofit organizations, the family. Overview of political economy, institutions, and culture; the policy process; role of values and ethics.

**PAF 91720 - Applying Information, Research, and Analysis II**
This course is the second in a two-course sequence that provides an introduction to research and analytical methods as applied to public policy and management. Students will develop expertise as consumers of research findings and learn methods for designing and conducting research.

**PAF 91200 - Managing Organizations in the Public and Not-for-Profit Sectors**

Fundamental concepts and techniques for managing government and not-for-profit agencies, including schools. This course focuses on structural models, individual behavior, including group dynamics and leadership, and political and cultural frameworks. Questions of effectiveness, responsibility, and professional relations are considered.

**PAF 91300 - Economic Analysis and Public Policy**

Introduction to concepts and analytic tools necessary to economic examination of individual and firm behavior; analysis of causes and consequences of public sector intervention in the economy.

**PAF 91400 - Budgeting, Accounting and Financial Analysis**

Introduction to budgeting, accounting and financial analysis. Overview of the context of budgeting in the government decision process and analysis of the fiscal cycle through budget development, implementation, and review. Incorporates basic accounting concepts and information presentation and retrieval skills.

**PAF 91030 - Communication in Public Settings**

Introduces students to communication in public settings and provides extensive opportunities for practice with basic written and oral forms. Interrelationships among communicative activities and organizational goals. Internal and external messages are given equal weight. Argumentative structures necessary for constructing sound policy and persuasive techniques relevant to funding, regulation, client, and public constituencies. Topics will vary somewhat from semester to semester depending on the instructor’s and students’ interests. The course follows a workshop/laboratory format with intensive attention to student work as a fulcrum for the application of theory and refinement of skills.

**Specialization Courses 15 credits**

**NURS 73500 - Leadership and Management in Health Care I**

Analyses of how nurse leaders and other health professionals in integrated managed care networks and community-based organizations understand and apply leadership and management theories and principles.

*prereq: NURS 70000, NURS 70200, NURS 74900  
coreq: PAF 91000, PAF 91030  
Hours 30 hours theory, 15 hours seminar, 166 hours practicum,  
Credits 5 cr*

**NURS 74000 - Leadership and Management in Health Care II**

Analysis of how nurse leaders and other professional in health care agencies interact at local, regional, and national levels, conduct policy assessment, identify health needs of culturally diverse aggregates, and develop culturally focused policies and programs to address the needs.

*prereq: NURS 70400, NURS 73500, PAF 91200, PAF 91720*
coreq: PAF 91400, PAF 91300
Hours 30 hours theory, 15 hours seminar, 167 hours practicum,
Credits 5 cr

NURS 74500 - Capstone Seminar for the MS/MPA in Nursing Administration

An integrative experience in the field of public affairs as it relates to health care generally and nursing specifically. Students will prepare a professional work in policy analysis or an organizational assessment.

Cross-listed (Cross-listed with PAF 97930)
prereq: NURS 74000
Hours 30 hours theory, 15 hours seminar, 167 hours practicum,
Credits 5 cr

Nursing Electives 3 credits

Public Affairs Electives 9 credits

PAF 91700 - Research and Analysis I

The first course in a two-course sequence (the second course is PAF 91720) that provides an introduction to research and analytical methods as applied to public policy and management. Students will develop expertise as consumers of research findings and learn methods for designing and conducting research. This first course provides an introduction to data analysis and statistical inference, with an emphasis on policy and management applications. Topics include graphing and numerical summaries, normal distributions, descriptive correlation and regression, basic probability and sampling distributions, confidence intervals, significance tests, chi-square tests, and inference for regression. Students learn these techniques through hands-on work with real data and statistical software.

Plus two additional electives, including (for example)

PAF 91800 - Policy Analysis

Overview of the use of analytic techniques in solving public sector problems and designing government programs. Topics include agenda setting, approaches to problem solving, the role of values in policy making and policy analysis, policy-relevant data collection and analysis, principles of benefit-cost analysis, techniques of policy analysis (e.g., queuing, simulations, formal modeling), strategies for policy adoption and implementation, and the politics of policy analysis.

Hours 2 hours plus conference
Credits 3

PAF 97350 - Health Politics and Policymaking

This course examines the evolution of the major governmental programs involved with health insurance and health care in the United States. The goal is an understanding of the political dynamics that lead to successes and failures in health policymaking, and the development of strategies that can be used by governmental and non-governmental actors to accomplish policy change.
PAF 91230 - Program Evaluation

Examination of the process and techniques of program evaluation and the assessment of effectiveness of public sector policies. Various performance assessment criteria, problems of evaluation research, and the politics of program evaluation are reviewed.

Hours 2 hours plus conference
Credits 3

Nursing: Psychiatric Nurse Practitioner MS

42 credits

Specialization Coordinators: Anna Acee/Kunsook Bernstein, aacee@hunter.cuny.edu, kbernst@hunter.cuny.edu

This specialization prepares nurses to assume an independent and autonomous role in psychiatric nursing and primary care for the mentally ill population in the community and in a variety of health care settings. Students learn to work with other mental health professionals in providing preventive mental health services to target populations in the community and in designing and implementing new treatment approaches. Specialization courses provide advanced nursing content and guided learning experiences in a variety of settings and roles completing a total of 600 clinical hours. Graduates of the program are eligible for certification as psychiatric/mental health nurse practitioners by New York State Education Department, and meet educational requirements for specialty certification by the American Nurses Credentialing Center.

Nursing core courses 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Examination of worldviews represented in nursing science today. Presentation of major nursing theories and models, highlighting their philosophical assumptions, major concepts and propositions. Explication of criteria for analysis and evaluation of nursing theories and models and the interrelationships of theory, research, and practice. Discussion of advanced practice roles.

NURS 70200 - Nursing Research

Introduction to basic and applied research methods. Analysis of research and research utilization process concerning nursing science phenomena that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000 and competence in basic statistical methods as assessed by an in class pretest.

NURS 70400 - Urban Health Care Systems

Evaluation of the impact of individual, social and environmental determinants on different levels of wellness and analysis of culturally competent nursing interventions.
NURS 74900 - Health Promotion/Disease Prevention in Diverse Populations

Theories and models of health promotion/disease prevention including Healthy People documents are analyzed. Strategies to enhance global awareness in order to provide culturally competent nursing care for diverse populations are discussed.

Advanced Practice Core 9 credits

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies.

prereq: NURS 74900
Hours: 45 hrs practicum,
Credits: 3 cr

Specialization Courses 15 credits

NURS 74200 - Advanced Practice Psychiatric-Mental Health Nursing I

Exploration of mental health problems, recovery-oriented services and promotion of mental health in individuals. Students learn to provide primary mental health care for individuals experiencing a range of complex problems.

prereq: NURS 70000
prereq or coreq: NURS 70200, NURS 71700, NURS 74900, NURS 75000, NURS 75100
Hours: 30 hrs lecture, 15 hrs seminar, 166 hrs clinical,
Credits: 5 cr

NURS 74300 - Advanced Practice Psychiatric-Mental Health Nursing II

Exploration of mental health of families. Students learn to provide primary mental healthcare for families experiencing a range of complex problems.
prereq: NURS 742
prereq or coreq: NURS 704
Hours 30 lecture hours, 15 hrs seminar, 167 hrs clinical,
Credits 5 cr

NURS 74400 - Advanced Practice Psychiatric-Mental Health Nursing III

An exploration of contemporary mental health issues from group and community perspectives. Students learn to
develop advanced practice group and community interventions that reduce risk, promote resilience, and enhance mental
health.

prereq: NURS 74300
Hours 30 hrs lecture, 15 hrs seminar, 167 hrs of clinical practicum,
Credits 5 cr

Electives 6 credits

Selections may be from graduate offerings in nursing, health science or other disciplines as applicable.

Highly recommended elective 3 credits

NURS 71900 - Psychopharmacology

Course provides evidence-based guidelines of pharmacology in treating mentally ill individuals. Neuro-biology and
psychopharmacology theories, current clinical practice of pharmacology for major psychiatric diagnoses, and practical
clinical application of relevant pharmacotherapy will be explored.

- School of Social Work

School of Social Work

About the School

The Hunter College School of Social Work, founded in 1956, is the largest and oldest public graduate school of social
work in New York City. The School’s mission is to promote excellence in social work practice by preparing
knowledgeable, ethical, and highly competent social work leaders for a variety of professional roles and settings. Our
pedagogy, scholarship, and service reflect social work’s historic commitment to human rights, cultural complexity, and
social and economic justice. Commensurate with the missions of our host institutions, the School promotes community-engaged and practice-based scholarship that pursues policy and practice solutions to real world problems, thereby reinforcing the strengths of people and the communities in which they live, in New York and other major urban areas.

The School of Social Work is fully accredited by the Council on Social Work Education.
The Building and Its Uses

The Hunter College School of Social Work is currently located in its own building near the corner of East 79th Street and Lexington Avenue on Manhattan’s Upper East Side. This building was financed, originally constructed and subsequently expanded by the Lois and Samuel Silberman Fund. Over the years, the Fund has had an important impact on both social work education and social work practice. In addition, the Fund provided scholarship assistance for students.

In the fall of 2011, the School will move to a new state-of-the-art building, designed specifically to meet its needs, forty blocks north in East Harlem. In addition to resources in the School of Social Work building, there are extensive resources at the main campus of Hunter College (East 68th St. and Lexington Ave.), the Graduate Center and the other units of the City University of New York (CUNY).

Nancy Giunta, Assistant Professor; PhD, UC Berkeley; Community Organization; Older Adults

Manny Gonzalez, Associate Professor; DSW, Adelphi; Clinical Practice; Children's and Adult Mental Health; Psycho-Social Treatment of Urban Children and Adolescents; Health and Mental Health of Hispanics

Harriet Goodman, Associate Professor; DSW, CUNY; Social Group Work; Evidenced-Based Practice; Criminal Justice; Child Welfare; Teaching through Technology

Bernadette Hadden, Assistant Professor; PhD, Columbia; HIV/AIDS, Cognitive-Behavioral Skills-Building Group-Based HIV Prevention; Health and Mental Health; the Elderly

Paul A. Kurzman, Professor; PhD, NYU; Occupational Social Work Policy and Practice; Professional Ethics and Risk-Management; Licensure; Organizational Theory; Management and Administration

Kenny Kwong, Assistant Professor; PhD, CUNY; Health Disparities; Culture, Immigration, Health and Mental Health Practices in the Asian American Community; Capacity Building, Asset-Mapping and Community Collaboration

Marina Lalayants, Assistant Professor; PhD, CUNY; International Social Work and Social Policy; Organization Management and Leadership; Program Evaluation

Michael A. Lewis, Associate Professor; PhD, CUNY; Social Policy; Quantitative Methods

Annette Mahoney, Assistant Professor; DSW, CUNY; Survivors of Trauma; Caribbean Immigrant Adolescents and Families; Incarcerated Women

Gary Mallon, Professor; DSW, CUNY; Child Welfare Policy and Practice; Practice with LGBT Populations; Animal-Assisted Therapy

Terry Mizrahi, Professor; PhD, Virginia Commonwealth; Community Organizing and Development; Health Policy and Services; Collaborations and Coalition-Building

Jacqueline B. Mondros, Professor and Dean; DSW, Pennsylvania; Urban Neighborhoods; Social Work Pedagogy, Social Work Leadership

Carmen Morano, Associate Professor; PhD, Florida International; Alzheimer’s Disease Caregivers; Aging in the Urban Environment; Social Work Interventions for Older Adults with Chronic Health Conditions

George Patterson, Associate Professor; PhD, SUNY-Buffalo; Police Social Work; Criminal Justice; Cognitive and Behavioral Coping Strategies

Ana Paulino, Associate Professor; EdD, Columbia; Clinical Practice; School-Based Social Work; Immigration; Children, Youth and Families; Childhood Developmental Disorders, e.g. Autism Spectrum Disorders

Jonathan D. Prince, Assistant Professor; PhD, UC Berkeley; Mental Health; Older Adults

Judith Rosenberger, Professor; PhD, Michigan; Development, Psychopathology, Psychodynamics; Brief Treatment

Anthony Sainz, Associate Professor; DSW, Columbia; Spirituality and Healing; Substance Abuse; Cross-Cultural Practice and Research

Andrea Savage, Associate Professor and Associate Dean for Academic and Faculty Affairs; PhD, Michigan; Human Service Organizations; Substance Abusing Women, Trauma and Co-Occurring Disorders
Roger J. Sherwood, Associate Professor; DSW, Columbia; Trauma and Post Traumatic Stress Disorder; Veterans and PTSD; Addictions and Recovery

Dominique Moyse Steinberg, Assistant Professor; DSW, CUNY; Group Work Practice; Practice; Conflict Resolution; Mediation; Research

Willie F. Tolliver, Associate Professor; DSW, CUNY; Human Diversity and Cultural Competence; Anti-Oppressive and Restorative Practice; Leadership Development; Spirituality

Deborah Tolman, Professor; EdD, Harvard; Adolescent Sexuality; Gender Development; Gender Equity; Research Methods

Roderick J. Watts, Professor PhD, Maryland; Sociopolitical development and activism, manhood development; psychoeducational interventions; social identity; qualitative/action research methodology

Darrell P. Wheeler, Associate Professor and Associate Dean for Research and Community Partnerships; PhD, Pittsburgh; Public Health Social Work; HIV/AIDS Prevention and Interventions with African American Men; Participatory Evaluation Methods

IMPORTANT: Please check the Hunter College School of Social Work website: www.hunter.cuny.edu/socwork and registration materials for up-to-date information on course offerings.

Post-Graduate Certificate Programs in Social Work

The Hunter College School of Social Work hosts several post-graduate certificate programs designed for people with the MSW degree seeking to further their education in an area of interest to them, who wish to remain current in the field or who want to become certified within a specific area of study. Generally these programs are not part of any academic degree-granting program and do not carry academic credit. For detailed information see the program descriptions at www.hunter.cuny.edu/socwork/programs/post-masters-programs.html.

Each program is independently operated with separate criteria for admission and completion. They are open to qualified individuals. A certificate will be awarded at the end of each program following the successful completion of all requirements.

In addition to these programs the School has launched Center for Advanced Clinical Education. This program is home base for a variety of classes, conferences, and other special events that address specific issues of current focus in clinical social work. The specific offerings change regularly, and are responsive to both individual practitioners and agency training needs. Teleconferencing is available for distance as well as classroom learning. Upcoming offerings will be posted on the Hunter College School of Social Work website.

Some classes within this Center satisfy the additional clinical education credit needs of those LMSW social workers who are seeking eligibility for the LCSW. These classes will be identified as such on the website, along with specific contact information.

Adoption Therapy

The Post-Graduate Certificate Program in Adoption Competency provides non-credit bearing advanced education and training for social workers and mental health professionals, particularly those working to promote adoption from public foster care. In a ten-session course, The Post Graduate Certificate Program is designed to offer social workers and mental health professionals the opportunity to advance their level of competency in practice with persons affected by adoption. It enables the practitioner to be current on the latest approaches and research involving children/youth and families whose lives are affected by the foster care system and adoption.
A limited number of students are accepted into the program, between 25 and 30. Admissions priority is given to students who are employed by public child welfare agencies and those from licensed foster care agencies in New York State with a master’s degree in social work or a mental health field or who have a bachelor’s degree plus several years of experience working with populations affected by adoption. This program is funded by the New York State Office of Children and Families. For more information about this post graduate certificate program go to the program website at: www.hunter.cuny.edu/socwork/nrcfcpp/adooptiontherapy/.

**Advanced Clinical Social Work: Individual and Family Treatment**

This certificate program is designed to meet the needs of LMSWs and LCSWs who want to deepen their clinical practice knowledge for work in a variety of social work settings. The curriculum reflects the belief that the professional identity of clinical social work rests on the use of social work values and knowledge incorporated in practice skill, including a bio-psycho-social context of assessment and intervention, an emphasis on cultural competence, and recognition of the value of advanced clinical knowledge in serving clients in diverse arenas of practice.

Students complete a one year advanced clinical training program focusing on the integration of theory and practice with both individuals and families. The course work combines theoretical and treatment approaches with case supervision. All courses are taught by instructors experienced in agency-based social work. The course takes place on Thursday evenings from 6 - 10 pm.

For further information or application, please call 212-452-7050

**Social Work Administration**

This program is given in conjunction with the Harold Weissman Center for the Study of Social Administration, a nonprofit institute dedicated to furthering management skills of social welfare practitioners. It was developed in response to a growing interest in raising the standards of administrative practice in the social welfare field and reflects a belief that management is rooted in the values and principles of social work practice. All courses involve a practice component, and all faculty members are practicing managers. This program leads to a Post-Graduate Certificate in Social Work Administration or to a Diploma in Social Work Supervision and Training.

For further information or application, please call 212-452-7046.

**Social Welfare PhD at the Graduate Center**

**Doctor of Philosophy**

The PhD program in Social Welfare of the Graduate Center of City University of New York was established in 1973. The Graduate Center offers this doctoral program in social welfare at the Hunter College School of Social Work. The PhD program draws the majority of its 22-member doctoral faculty from the Hunter College MSW program. For further information, go to: http://web.gc.cuny.edu/Socialwelfare/

**Requests for applications should be addressed to:**

Admissions Office  
The Graduate Center  
The City University of New York  
365 Fifth Avenue  
New York, NY 10016
Specific inquiries about program details should be addressed to:

Social Work - MSW

The MSW curriculum reflects a commitment to social justice, diversity and practice in the urban environment. The school offers several program tracks leading to the master of social work (MSW) degree. These include the full-time Two-Year, the One-Year Residency (work study), the Accelerated Programs, the Advanced Standing Program for those possessing a BSW, and the Dual Degree program with the Bank Street College of Education.

The social work curriculum is designed to assure that graduates master the core competencies and practice behaviors identified as essential for all social workers by the Council on Social Work Education, our accrediting body. The curriculum assures that students also acquire advanced practice behaviors in their practice concentration and a field of practice. Please see http://www.hunter.cuny.edu/socwork/download/Competencies_and_Practice_Behaviors.pdf for a listing of these competencies and advanced practice behaviors.

The curriculum includes courses in human behavior and the social environment, social welfare policy and services, social work research, social work practice, including four practice concentrations: clinical practice with individuals and families; group work; community organizing, planning and development; organizational management and leadership. In addition to course work, all students are expected to complete at least one field practicum that is an internship in an approved field agency. All two year program students and accelerated full time students are expected to have two fieldwork placements of two semesters each, which involve three days per week in a field agency. Students accepted into the work-study program (OYR) complete only one year of fieldwork with four day per week assignments. All students enroll in a year long Social Work Practice Learning Lab. All students are required to take three courses in one of four practice concentrations. The field practicum must be taken concurrently with a practice course. In addition, students must select advanced courses which focus on a field of practice: a specific social problem, population or institutional auspice. The fields of practice offered are: children, youth and families; gerontology; world of work; health and mental health; immigrants and global social work. Elective courses in these areas and in specialized skills and problem areas such as family treatment, treatment of trauma, and substance abuse are also offered.

Admission Requirements

Successful performance in graduate social work education requires emotional maturity and stability, interest in working with people and readiness to assume professional responsibilities. The applicant's knowledge of professional social work and/or experience in social work settings is an important consideration for admission. The criteria for admissions are as follows:

- Applicants must hold a bachelor's degree from an accredited college or university. Undergraduate preparation should demonstrate a liberal arts background and intellectual capacity for graduate study.

- Records of international students require special evaluation and should be submitted as early as possible. All applicants whose prior language of instruction was not English are required to take the TOEFL and achieve a minimum score of 213; 80 IBT (internet-based test).
• Good undergraduate preparation along with tested understanding of the profession gained through voluntary, internship and/or paid experience are the keys to a successful application for admission.

• Advanced Standing applicants, in addition, must have an overall GPA of 3.0 and GPA of 3.2 in the social work major and must have received the BSW degree within the last 5 years. Advanced Standing students must submit Core Competency forms from their faculty advisor and senior placement field instructor which rate the applicant on the core (foundational) practice behaviors identified by HCSSW.

• One Year Residency (OYR) applicants, in addition, must have a minimum of two years full time work experience as a social service worker or supervisor of social service workers. OYR applicants must provide a letter from their agency executive documenting full time employment, and the Agency Executive Agreement Form which commits the agency to release the student for classes during Time Frame I and III, and to move the student from their current position and supervisor to a new assignment and supervisor during Time Frame II, the residency year.

• All applicants must submit an application, transcripts from all previous academic study, three professional letters of reference, and application fees. Completed applications for admission should be submitted by the deadline date established by the School each year. All admissions are subject to limitations of available seats in the school and placement in a field practicum. Applications for admission into the MSW program must be submitted online.

Applicants may be required to participate in a group discussion as part of the admissions process.

For further information on admissions, e-mail admissions: grad.socworkadvisor@hunter.cuny.edu or swapp@hunter.cuny.edu or see the School’s website at www.hunter.cuny.edu/socwork

Transfer

Up to 12 non-matriculated credits of graduate social work courses, with a grade of B or better, completed within five years of MSW degree completion may be transferred from a social work program accredited by the Council on Social Work Education.

Students must complete a Transfer of Credit Form and supply a course description and syllabus for each course for which they are requesting transfer credit. Once all the documentation has been collected, the packet should be sent to the Admissions Office (for new students) or to the Student Affairs Office (for continuing students). The associate dean for academic and faculty affairs reviews all requests for transfer of credit. The maximum number of transfer credits is waived in the cases of applicants who apply and enter the program as transfer students. Once an applicant is accepted into the program and their documentation packet is collected, their transfer credits will be assessed, a course of study outlined, and the credits added to your Hunter College transcript as appropriate. Unfortunately, no academic credit can be given for life experience or previous work experience.

Professional Liability Insurance

As a condition of registration for fieldwork, students must have professional liability insurance. Professional liability insurance is provided through a school group policy, and payment for this policy is made at the time of registration. Cost of liability insurance does not exceed $20 per year. Fieldwork agencies may also require that students undergo a background check and pay for fingerprinting. The cost of fingerprinting varies.

MSW Degree Program

Degree Requirements
All students in the MSW Program must complete 60 credits composed of 16 three-credit courses and a requirement for a field practicum designed to ensure that students master the core (foundation) and advanced practice behaviors. The curriculum is organized into content areas; each area includes one to three courses required for degree completion. These areas are:

- Human Behavior and the Social Environment
- Social Welfare Policy and Services
- Social Work Ways of Knowing and Communicating
- Social Work Practice Learning Lab
- Research
- Practice Methods
- Professional Seminar
- Field Education

All work must be completed within a five-year period with grades of "Credit" or "Honors".

**Degree Program Tracks**

**Two-Year Full-time Program**

The two-year full-time program is for qualified students who can devote themselves to full-time academic and field study. Full-time students are expected to attend classes two days a week, and to be in a field placement three days a week, for two academic years.

**One-Year Residence (OYR) Work-Study Program**

The one-year residence (OYR) program is a work-study program designed to provide graduate social work education for experienced students whose personal responsibilities make the two year full-time program impractical. At the time of application OYR applicants must have completed at least two years of full-time employment in a recognized social welfare organization or agency and their current social welfare employer must agree to sponsor them including providing them with an internship approved by the school during their second year in the program.

The program is organized around three “time frames,” which include both part-time and full-time study. In total, in the standard OYR program students enroll in course work for five semesters and two summers. Students are permitted to take up to 30 hours of course work on a part-time basis while remaining in full-time employment.

In this work-study model of social work education, the student’s field work requirements are met at the agency of employment. As a result the student is able to remain employed while earning MSW degree credits through all phases of the program until completion of the degree.

Students in the OYR program must have written agreement from their current employer to provide them with a social work internship and to allow them to attend classes one day a week during the field practicum year.

**Time Frame I** is completed in evening or day classes over two semesters and one summer. Most students complete the first time frame in one year, earning 21 credits.
Time Frame II, also known as the “residency” year, begins following the completion of 21 credits of course work and occurs during the second year of matriculation. The requirement for a single practicum is based on the student’s prior knowledge of social service organizations and the delivery of social services on a pre-professional level. The current employer agrees, prior to admission, to provide an internship which must then be approved by the School. The practicum requirement is for four days a week (28 hours per week) during the entire academic year, including January when classes may not be in session. Students take a full day of classes (most often either on a Tuesday or a Wednesday.) Saturday classes are also available during Time Frame II.

Time Frame III represents the culmination of course work requirements. Classes are held one evening a week for the fall semester; graduation follows in January.

Accelerated Full-Time and Accelerated OYR Programs

The Accelerated Programs are designed for outstanding students prepared to participate in an intensive, year-round learning experience beginning in January. The Accelerated Program option is available only to those students wishing to specialize in Clinical Practice with Individuals and Families. Full-time students complete the program in three semesters plus two summers of study. Availability for class in the afternoon and evening during the first semester and summer of enrollment is essential. These students are assigned field placements and complete their first year requirements by the end of the summer in their first 8 months of enrollment. They start their third semester in the fall and graduate in the following August.

Students who are already working in the human service field and meet the entry criteria for the One-Year Residency Program described above, complete the program in four semesters and two summers of study. They enter the Accelerated OYR program beginning with evening study in January through the summer and complete their Time Frame II studies in the following fall and spring. They are eligible to graduate in their second summer or the following December. Winter session study is also required.

Advanced Standing Program

The advanced standing program is an intensive program for outstanding students who have graduated from a baccalaureate social work program accredited by the Council on Social Work Education. A limited number of qualified applicants are accepted. Applicants must have received their undergraduate degree within the last five years.

Applicants to the advanced standing program must have an overall grade point average (GPA) of 3.0 and a GPA of 3.2 in the social work major. Applicants must meet all other admission criteria for acceptance into the graduate social work program at Hunter. Some courses required in the first year of the MSW program will be waived for applicants accepted in the advanced standing program. Hunter’s advanced standing students typically begin in the summer and continue through the following academic year of full-time study.

Dual Degree Program: Hunter College School of Social Work and the Bank Street College of Education Infant and Parent Development Program

This dual degree program is designed to prepare social workers to understand and work with the special needs and vulnerabilities of children from birth to age three and their families. The program prepares social workers for professional roles that combine both educational and clinical skills. The curriculum design incorporates theoretical and practice aspects of each degree into a cohesive educational and professional program. Applicants apply to each institution separately. The program requirements satisfy the accreditation standards for each degree.

In the first two years, students attend the two institutions sequentially, pursuing an intensive program at each of them. In the third year, students move between institutions to complete course work. Both institutions require a supervised field practicum. Applicants must meet all admission standards of the MSW program and are required to have experience in working with children.

Program for Nonmatriculated Students
The School has learning opportunities for both pre- and post-masters students. Taking courses as a nonmatriculated student can be a stimulating introduction to the MSW program and often motivates participants to apply for admission to a degree program. A maximum of nine credits is allowed and may be credited toward the degree upon matriculation. Only one course may be taken per semester.

Those students who already have completed their MSW may seek additional clinical learning to meet licensing requirements. Such students should contact the Associate Dean for Academic and Faculty Affairs at ssw.office@hunter.cuny.edu.

Inquiries for pre-masters non-matriculation should be directed to the Admissions Office at the main campus (68th Street) of Hunter College. See http://www.hunter.cuny.edu/graduateadmissions.

Field Practicum

The Hunter College School of Social Work has strong ties to many social agencies, which provide students with field placements in a variety of practice areas. Qualified agency staff members serve as student field instructors. The field practicum is an integral part of the social work curriculum. Agencies used as field practicum sites by the school are selected and approved by the school’s Office of Field Education. Approval criteria include field learning opportunities and availability of qualified agency-based field instructors. Students are expected to follow agency policies, including conducting home visits.

MSW Curriculum

The School of Social Work holds that social work education must integrate core social work values and knowledge with practical application in the field. Professional, academic and field learning experiences must satisfy the highest standards of excellence. The curriculum is designed to instill a sense of respect for human integrity, a concern for social conditions and a commitment to service within the value system of the profession.

The curriculum is developed according to the standards of the Commission on Accreditation of the Council on Social Work Education. Copies of these standards and the Educational Policy Statement are available in the reserve section of the Social Work Library, and in the office of the dean. These are also available online at http://www.cswe.org/File.aspx?id=13780. Consistent with CSWE standards our curriculum is designed to assure that graduates master the core competencies and practice behaviors identified as essential for all social workers. The curriculum assures that students also acquire advanced practice behaviors in their practice concentration and a field of practice. Please see http://www.hunter.cuny.edu/socwork/download/Competencies_and_Practice_Behaviors.pdf for a listing of these competencies and advanced practice behaviors.

The orienting knowledge courses at the core of the curriculum are related to human needs, particularly to the problems of the more vulnerable and disadvantaged populations of New York City. The required courses, electives and majors are all constructed to teach the social work approach to meeting the needs of society.

In addition to courses offered for credit, the school provides workshops on topics such as child abuse and neglect, cultural diversity, ethics, and government benefits, as required by the New York State Department of Education, Division of Professional Licensing. Course work is augmented and reinforced by the all-important field practicum. Agencies and service organizations in the various areas of social work practice, with their qualified agency supervisors and field instructors, provide the vital training and experience for students. The curriculum is organized into five professional curriculum areas and five fields of practice that reflect human needs and values and their associated social institutions and services. The curriculum includes foundation and advanced courses in:

- **Human Behavior and the Social Environment**
- **Social Welfare Policy and Services**
- **Social Work Ways of Knowing and Communicating**
- **Practice including Social Work Practice Learning Lab**
Practice Method Concentrations
Social Work Research
Professional Seminar
Field Education

Human Behavior and the Social Environment

This three-course sequence SSW 71100 SSW 71200 SSW 71300 and its related electives address the person-in-situation matrix with a specific focus of attention on issues of diversity (culture, class, ethnicity, race, age, sexual orientation, spirituality, ability, and gender). Stages of development across the life span define one axis, while critical contexts (individual, family, function and role-based groups, communities, organizations, and society) define the other axis of environmental forces that may impinge on social functioning.

Social Welfare Policy and Services

This two-course sequence SSW 70100 and one course in the 70200 series explores the history, planning, intent and operations of the US social welfare system. The courses identify key ideological frameworks that shape the current public debates over social welfare policy, analyze the structure of the social welfare system, and explore issues of poverty in the context of oppression, diversity and social justice. The 70200 courses each focus on a selected social welfare issue or special population.

Social Work Ways of Knowing and Communicating

This single course Special Topics in Social Work Ways of Knowing and Communicating SSW 77500 builds students’ capacity to acquire critical thinking skills, information literacy and to communicate both orally and in writing. Taken in the first semester, a menu of sections is available to students, each with a different topical focus.

**SSW 77501 - Ways of Knowing: Theories and Perspectives on Aging**

*Credits 3*

*This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.*

**SSW 77502 - Ways of Knowing: Theories and Perspectives on Child Welfare**

*Credits 3*

*This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.*

**SSW 77503 - Ways of Knowing: Theories and Perspectives on Health**

*Credits 3*

*This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.*

**SSW 77504 - Ways of Knowing: Theories and Perspectives on Domestic Violence**
This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

**SSW 77505 - Ways of Knowing: Theories and Perspectives on Mental Health**

Credits 3
This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

**SSW 77506 - Ways of Knowing: Theories and Perspectives on Criminal Justice**

Credits 3
This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

**SSW 77507 - Ways of Knowing: Theories and Perspectives on Authority Settings**

Credits 3
This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

**SSW 77508 - Ways of Knowing: Theories and Perspectives on Trauma**

Credits 3
This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

**SSW 77509 - Ways of Knowing: Theories and Perspectives on Immigrant Experience**

Credits 3
This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

**SSW 77510 - Ways of Knowing: Theories and Perspectives on Trauma and Co-Occurring Disorders**

Credits 3
This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.
SSW 77511 - Ways of Knowing: Theories and Perspectives on Social Work and the Arts

Credits 3
This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77512 - Ways of Knowing: Theories and Perspectives on Drugs and Alcohol

Credits 3
This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77513 - Ways of Knowing: Theories and Perspectives on Schools

Credits 3
This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77514 - Ways of Knowing: Theories and Perspectives: Early Development

Credits 3
This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

SSW 77515 - Ways of Knowing: Theories and Perspectives: Youth Development

Credits 3
This is an example of a required Ways of Knowing topics class. More than 10 Ways of Knowing topics classes are offered in the fall. One or two are offered in the spring.

Ways of Knowing and Communicating series course must be taken in the first semester for those students in the Two-Year Program and within the first year or enrollment for OYR students.

Social Work Practice Learning Lab

SSW 71700 - Social Work Practice Learning Lab 1

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.
SSW 71800 - Social Work Practice Learning Lab 2

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.

prereq: SSW 71700
Credits 3
SSW 71700 and 71800 are required. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

The development of foundation competence is required in cross methods practice. This is achieved through enrollment in the Social Work Practice Learning Lab I & II and related field practicum skill workshops.

In the first year all students take SSW 71700 and SSW 71800 Social Work Practice Learning Lab. This course explores the institutional and social context of social work practice, the problem areas and populations served by social workers, and the differential use of practice methods and builds foundation competencies in professional social work. After successful completion of SSW 71700 students commence courses in their concentration.

Social Work Research

SSW 75100 - Social Work Research I

Principles of social research methods in the context of social work practice. Problem formulation, research design and role of research in social work, ethical issues, sampling, measurement and data collection.

Credits 3
SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 75200 - Social Work Research II

Measurement strategies, qualitative data analysis, descriptive and inferential statistics, and methods of quantitative data analysis; data management. Data collected by students from their research projects is analyzed.

prereq: SSW 75100 or equivalent
Credits 3
SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Practice Methods Concentrations

Development of advanced competence in one of the following practice method concentrations: clinical practice with individuals and families; group work; community organization, planning, and development; and organizational management and leadership is required. Every student majors in one of these concentrations and must take three
sequential courses in that concentration or (with permission) two sequential courses in that concentration and an approved multi-method practice elective. Additional method and practice courses are offered; sequencing of requirements varies according to the various programs.

Clinical Practice with Individuals and Families

SSW 72100 - Social Casework I

Development and use of casework theory, practice and process. Integration and application of the values that underpin social work practice.

_prereq: SSW 71700
_Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 72200 - Social Casework II

Application of casework principles. Knowledge from human behavior and the social environment and social welfare policy and services areas and research findings is applied to the assessment of clients and their situations.

_prereq: SSW 72100
_Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 72300 - Social Casework III

Expands and deepens knowledge and skills for professional practice. Intervention modes, based on biopsychosocial assessment, are presented. Dealing with problem assessment and intervention; cultural specificity.

_prereq: SSW 72100 and 72200
_Credits 3

NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

The clinical practice with individuals and families concentration prepares students for agency-based clinical practice in the urban environment. Students in this concentration are prepared to counsel individuals, pairs and families in order to help with a variety of personal, interactional and social problems. Concepts of clinical assessment and intervention are taught from a biopsychosocial perspective. Students are exposed to a variety of theoretical modalities that are augmented by evidence-based-practice perspectives. Issues of diversity and oppression are integrated into the study of assessment, treatment planning and intervention as well as the professional relationship. Emphasis is placed on differential assessment and intervention with a variety of diverse client groups. Clinical services are offered in a wide range of settings, such as child and family agencies, unions, industries, hospitals, mental health and substance abuse clinics, courts and settlement houses. The setting of the service makes possible in-depth teaching about specific populations and problems, managing service needs and styles and such specific intervention models as crisis intervention, advocacy, and various brief and long-term treatment modalities.

Group Work
SSW 73100 - Social Group Work I

Prepares students for working with groups in community-based and clinical settings. Understanding social group work as a problem-solving method in widely varied settings and fields of practice.

**prereq:** SSW 71700

**Credits** 3

**NOTE:** SSW 731, 732 and 733 are required for all Group Work majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 73200 - Social Group Work II

Role of the worker in the middle and ending stages of group development; interventions; dealing with problematic roles; dealing with group conflict.

**prereq:** SSW 73100

**Credits** 3

**NOTE:** SSW 73100, 73200 and 73300 are required for all Group Work majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 73300 - Social Group Work III

Application of practice principles. Advocate, develop and deliver ethical and effective group work services in current agency settings.

**prereq:** SSW 73200

**Credits** 3

**NOTE:** SSW 73100, 73200 and 73300 are required for all Group Work majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Students are prepared to provide in-depth work with individuals in small groups. Groups may be formed around commonality of need or problem ranging from socialization to social action. The curriculum emphasizes group formation within a psycho-socio-political context and uses group-development theory as the primary paradigm for shaping practice with diverse populations in widely varied clinical and community settings. Concepts central to practice are contextual assessment, planning, group stage theory, group development, mutuality, mutual aid, common ground, roles, dual focus, decentralized authority, and problem solving.

Field practicum settings in group work include mental health clinics, hospitals, settlement houses, schools, community centers, senior centers, and day treatment and substance abuse programs. Social group work practice is used with a variety of populations from children to older adults, for meeting a range of needs from normal development to managing acute crisis situations and for dealing with all types of problems ranging from interpersonal to social action.

Community Organization, Planning and Development

SSW 74100 - Community Organization and Planning-I

Theory and practice of community organization and planning. Models and strategies for professional practice for community and client participation and empowerment. Community needs and resources; practice dynamics; dilemmas.
SSW 74200 - Community Organization and Planning-II

Development of community organization skills in relation to group structure and development. Group dynamics, role theory and reference group theory. Community power and influence on problem solving structures.

prereq: SSW 74100
Credits 3
SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 74300 - Community Organization and Planning-III

Role of the social worker and social planner; theoretical and practice aspects of program development and community planning within a political system. Concepts and techniques in management of social service programs.

prereq: SSW 74100 and 74200
Credits 3
SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

This concentration develops students' competence for community-based practice. It stresses the skills, techniques and strategies needed to mobilize people and resources to solve basic social problems at either the neighborhood or city-wide level. The social planning and social reform aspects of social work practice are underscored in seeking change to alleviate individual and family problems. Education and training are developed in collective action, advocacy, program evaluation, proposal writing, community outreach, legislative advocacy and other vital organizing roles. Field practicums occur in a number of settings in international organizations, city and state planning agencies, legislative offices, community engagement arms of human service organizations, and a wide variety of grassroots organizations. Students in these placements work on everything from local economic development issues, food and hunger projects, and tenant advocacy to LGBTQ issues and women’s rights.

Organizational Management and Leadership

SSW 78100 - Social Welfare Administration I

Theoretical understanding of the operation of social agencies. Organizational structure, authority, goal setting and service implementation, interorganizational positioning, stability and survival, and staff and administrative functioning.

Credits 3
SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 78200 - Social Welfare Administration II
Personnel management, staff training, volunteers and paraprofessionals, decision-making processes, budgeting, boards and committees, public relations and marketing, and methods of accountability.

prereq: SSW 78100 or dept perm
Credits 3
SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 78300 - Social Welfare Administration III

Program design in social agencies. Emphasis on assuring access, consistency, continuity and comprehensiveness of services, as well as client feedback mechanisms. Financial management, budgeting, strategic planning.

prereq: SSW 78100 and 78200
Credits 3
SSW 781, 782 and 783 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Students who elect to concentrate in Organizational Management and Leadership (OML) are prepared to assume varied management positions in social agencies, including the traditional supervisory, middle management, and executive positions as well as jobs as program planner and analyst, staff trainer, program director, or budget analyst. Those focusing on OML develop conscious and strategic use of self in managing the complex tasks of program managers. Students seeking to concentrate in OML should have some prior experience either in management and/or social work or human services line work. Field practicums are available in a wide range of public and private social agencies. Many students entering OML are in our One-Year Residency Program. A wide variety of placements are available for two-year OML students with the many graduates of HCSSW in leadership roles around the city.

Professional Seminar

SSW 79000 - Professional Seminar

Utilization and integration of practice, research and policy to determine how an issue may be ameliorated or resolved. Taken in the final semester.

Credits 3
This is a required course for all students.

The Professional Seminar is a capstone seminar that requires students to identify an emerging practice issue or concern, examine the known evidence, and design a study that better addresses the issue at hand. The course is designed as an integrating and synthesizing experience, wherein students consult with one another in addressing a specific concern. The course launches students into the profession with a keen sense that they can influence the context in which they will practice as social workers.

Field Education

Two-year and Advanced Standing Programs

SSW 76100 - Field Instruction I
Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information and full course descriptions.

SSW 76200 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76100
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 76300 - Field Instruction III

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76100 and 76200. Advanced standing program students enroll without prereq.
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 76400 - Field Instruction IV

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76200 and 76300
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

- or -
One Year Residency and Dual Degree Programs

SSW 76700 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

Credits 6
OYR and Dual Degree students only. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 76800 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.
prereq: SSW 76700
Credits 6
OYR and Dual Degree students only
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

This two-to-four-term sequence of on-site work in social service agencies is an integral component of all pathways to the MSW degree. Students in field placement must be concurrently enrolled in a practice course: Social Work Practice Learning Lab, methods course or other practice course. Training is provided by a field instructor; it is monitored by the instructional faculty and the student’s adviser.

Electives

Students may choose from a menu of courses within each curriculum area

Fields of Practice Specializations

Students are, expected to specialize in one of the following Fields of Practice. This includes an appropriate field practicum, enrollment in two pre-designated courses, and a specialization focus in research or professional seminar. Students should consult their faculty adviser for details.

Children, Youth and Families

This field of practice is designed for students interested in working in public and/or private child welfare agencies, schools, or children, youth, and family organizations in direct service, supervisory, or administrative capacities. The developmental needs of children, youth and families; crises and disruptions in family life (broadly defined); conflicts and violence; child placement issues are a focus of attention. It prepares social workers to provide a broad range of services to individuals, groups and families in all phases of the family life cycle.

Gerontology

This specialization explores the aging process and the variety of issues affecting older adults and their family systems. It is guided by the principle that older adults are individuals and members of a family and community with rights and responsibilities—who must be afforded the necessary protection and assistance to participate fully in family, cultural and social life.

Health and Mental Health

This field of practice is designed for students interesting in meeting the changing needs of people with medical and psychiatric problems; addressing patients’ rights, delivering services in hospitals, ambulatory care or primary care facilities, community-based clinics; chronic and long-term care settings.

World of Work
The theme of work over the life span including services to employed, unemployed, and underemployed adults, older adults and their families, often through management or labor-sponsored service programs.

**Immigrants and Global Social Work**

Indigenous perspectives from around the globe inform learning and practice in international contexts, and with immigrants and refugees in the urban environment. Special attention is paid to understanding the diverse meaning of adversity, strength and well-being towards developing sustainable, rights-driven and culturally relevant policy and practice.

**Catalog Home**

**Hunter College of The City University of New York**

**Features of the Online Catalog**

We want to make you aware of the features and tools for both current and prospective students in the new online catalog that were not previously available.

- Completely searchable by using the keyword function
- All program/course descriptions are printable.

**Need another catalog?**

Catalogs in PDF format are available online for years after 2000 (undergraduate) and 2001 (graduate).

**Graduate Study at Hunter**

Hunter College, the second oldest college in The City University of New York, offers master’s degrees in more than 50 fields of study. We have graduate programs in the arts, sciences, languages and literature – as well as in the professional fields of education, health sciences, nursing, public health, social work and urban planning – and all are considered exceptional. Currently about 6,300 students enroll in these programs.

One of our most important areas – now, as throughout our more than 130-year history – is teacher education. The School of Education today offers a broad range of graduate programs designed to prepare teachers, counselors and administrators for practice, leadership and innovation in education. These programs are defined both by the Hunter tradition of excellence and by our location in the greatest, most vibrant, most diverse urban center in the world.

The Hunter-Bellevue School of Nursing, the School of Health Sciences, and the newly named CUNY School of Public Health at Hunter College are nationally recognized for new approaches to teaching, research and service in health care. The School of Nursing provides a wide array of accredited programs designed to prepare students for leadership
positions in health care; the School of Health Sciences offers an outstanding graduate program in speech-language pathology. The CUNY School of Public Health offers environmental and occupational health, community health education, epidemiology, nutrition and public health. Through the City University Graduate Center, doctoral degrees in audiology, nursing and physical therapy are available.

The Hunter College School of Social Work, which offers several flexible program options leading to the master of social work degree, is one of the top graduate social work schools in the country. Its faculty is renowned both for training leaders and innovative thinkers in social work and for providing expert service to New York’s multicultural community. Through leading-edge course work as well as opportunities for challenging field experience, through method-based training and a practice-centered education, the Hunter College School of Social Work provides unequaled opportunities to learn and excel in our dynamic urban environment.

The School of Arts and Sciences has a first-rate roster of graduate programs in the fine arts, humanities, social sciences, sciences and mathematics. Throughout the long history of graduate studies at Hunter, graduates of these programs have gone on to elite doctoral programs and to distinguished careers. Enhanced by excellent performance facilities, research laboratories, and art studio space, our programs define the frontiers of knowledge in areas as diverse as biotechnology, creative writing and social research, among many others. An MS in accounting responds to changes in the CPA license requirements in New York State.

Centrally located on Manhattan’s East Side, Hunter College benefits from its daily contact with the vibrant cultural life of New York City. The city’s major museums, concert halls and galleries are within easy walking distance, as are famed biomedical research facilities, which offer extraordinary opportunities for collaborative study and research.

Hunter’s faculty includes many distinguished scholars, educators, and creative artists, all of whom play major roles in New York’s academic, cultural, civic and educational life. With over $53 million annually in research grants and awards, Hunter’s faculty is internationally respected for its creativity, energy and scholarship.

CUNY School of Public Health at Hunter College

CUNY School of Public Health at Hunter College

About the School

Hunter College is a consortial partner and the lead institution in the CUNY School of Public Health (SPH). The CUNY SPH is comprised of public health degree programs at Brooklyn College, Hunter College, Lehman College and the
Graduate School and University Center (Graduate Center) of CUNY. Within the CUNY SPH, teaching, research and service are focused on four broad inter-related goals that reflect major health challenges in the current era:

1) creating healthier cities
2) promoting healthy aging through the lifespan
3) preventing chronic diseases and improving their management
4) promoting health equity

The graduate programs in public health at the CUNY SPH at Hunter College educate public health professionals to promote health; prevent disease among urban populations. These programs prepare students to work with the diverse populations living in cities, and to serve in a variety of settings in government, non-profit organizations, businesses and communities.

CUNY SPH at Hunter College offers a master of public health (MPH) degree, with specializations in community health education (COMHE), environmental and occupational health sciences (EOHS-MPH), epidemiology and biostatistics (EPI-BIOS), public health policy and management (HPM) and nutrition (NUTR-MPH). It also offers a Master of Science (MS) degree, with specializations in environmental and occupational sciences (EOHS-MS) and Nutrition (NUTR-MS). The MS degree in Nutrition (NUTR-MS) is an accredited didactic program in dietetics (DPD), and is designed for individuals seeking to become eligible to sit for the national registration examination in dietetics to become credentialed as a Registered Dietitian (RD). With the Hunter-Bellevue School of Nursing, it also offers an MSN/MPH degree in community health nursing. This dual-degree program is described in the School of Nursing section of this catalog.

With the Graduate Center, the CUNY SPH at Hunter College offers a doctor of public health (DPH) degree, with specializations in community society and health, epidemiology, environmental and occupational health and public health policy and management. The DPH degree program is described in the Graduate Center Catalogue. Doctoral students in some CUNY Graduate Center PhD programs, including sociology and psychology, can also earn an MPH while pursuing their doctorate.

The MPH degree is accredited by the Council on Education for Public Health (CEPH), the national educational accrediting body for public health programs in community health/preventive medicine. The EOHS-MS degree is accredited by the Accreditation Board for Engineering and Technology (ABET) and is geared towards students pursuing Certification in Industrial Hygiene. The NUTR-MS is accredited by the Commission on Accreditation of Dietetics Education (CADE), the accrediting agency of the American Dietetic Association (ADA).

During the fall and spring semesters, MPH and EOHS-MS courses are held once a week, Mondays through Thursday, in the late afternoon and evening. NUTR-MS courses are held during the day. MPH and EOHS-MS degrees can be pursued on a full or part-time basis. The NUTR-MS degree program is full-time. During the summer, there are a limited number of course offerings, which are held twice a week in the late afternoon and evening. During the January winter semester, there are a limited number of intensive courses which meet full days for one week or extended late afternoon/evening hours over a three week period.

The graduate programs at the CUNY SPH at Hunter College provide students with a broad multidisciplinary background in public, urban health and specializations in community health education, environmental and occupational health sciences, epidemiology and biostatistics, public health policy and management and public health nutrition.

Each specialization prepares students for specific job opportunities. Graduates of the community health education program plan and manage community health programs and interventions to reduce social and behavioral threats to health. Graduates of the environmental and occupational health program anticipate, identify, assess and control community and workplace exposure that jeopardize the health of populations. Graduates of the epidemiology and biostatistics program conduct health studies and apply their findings to improve population health. Graduates of the public health policy and management specialization work as analysts, managers and/or researchers to advocate for,
administer, and/or analyze public health policies and programs. Public-health nutrition graduates promote the nutritional well-being of urban populations and manage community nutrition programs.

The NUTR-MPH specialization includes courses that meet the requirements of the Dietetic Internship (DI), a 1200-hour fieldwork and didactic experience accredited by CADE. Students who are accepted into the DI and successfully complete the program are eligible to sit for the national registration in dietetics to become credentialed as registered dietitians (RD). Students who enter the MPH program with a Bachelor of Science degree in nutrition that fulfills CADE competencies may simultaneously work toward the MPH degree and dietetics registration, two credentials that will increase skills and employability.

Centers

Three centers are affiliated with the academic programs in public health at Hunter College which provide opportunities the Center for Community and Urban Health the Brookdale Center on Healthy Aging and Longevity and the Center for Occupational and Environmental Health. They provide opportunities for students to become involved in demonstration projects and research through internships and independent study.

1. **The Center for Community and Urban Health** (CCUH) was founded in 1986. The center’s Director, Beatrice J. Krauss, PhD, is a full-time tenured professor at the SPH. The CCUH is dedicated to strengthening the capacity of individuals, families, organizations and populations to address and resolve contemporary community and urban health issues and concerns. The center conducts scientifically informed, interdisciplinary research and evaluation, program development, training and education, technical assistance and consultation and policy advisement. [http://www.hunter.cuny.edu/schoolhp/centers/comm_urb/index.htm](http://www.hunter.cuny.edu/schoolhp/centers/comm_urb/index.htm)

2. **The Brookdale Center for Healthy Aging & Longevity** (BCHAL) was founded in 1974 and is one of the country’s first multi-disciplinary academic centers dedicated to the advancement of successful aging and longevity. Through research, education, training and evaluation of evidence-based models of practice and policy, it plays a vital role in enhancing the quality of life of older Americans and their families. Its current focus is on contributing the knowledge that can help cities to support healthy aging. The center’s Co-Director and Director of Research, Marianne Fahs, PhD, and Associate Director for Research, William T. Gallo, PhD, are both full-time tenured faculty at the SPH. [http://www.brookdale.org/index.htm](http://www.brookdale.org/index.htm)

3. **The Center for Occupational and Environmental Health** (COEH) was founded as a research, training and educational center whose mission is to promote community and workplace health. The Hunter COEH works with community-based organizations, schools, labor unions, private employers and federal, municipal and state agencies to promote better understanding, access to information and improved skills in addressing workplace and environmental hazards. The center’s Director, Professor Jack Caravanos, is a full-time faculty member in the SPH. Recent areas of COEH’s focus include: improving the skills of hazardous materials and emergency response workers, enhancing community-based research partnerships to address neighborhood air pollution, reducing asthma rates in New York City and training Community Health Workers. [http://www.hunter.cuny.edu/health/coeh/](http://www.hunter.cuny.edu/health/coeh/).

In addition, Brooklyn College offers an MPH degree, with specializations in general public health and health care administration and policy; Lehman College offers an MPH degree with a specialization in community-based public health and health equity.

Faculty of the CUNY School of Public Health at Hunter College

Philip Alcabes, Professor, Urban Public Health; MPH, Columbia; PhD, Johns Hopkins; Epidemiology, Biostatistics, AIDS and HIV, Tuberculosis

Marilyn Iris Auerbach, Associate Professor, Urban Public Health; DrPH, Columbia; Women’s Issues, Chronic Illness, HIV/AIDS

Barbara Berney, Associate Professor, Urban Public Health; PhD, Boston University; School Related Health Issues, Working Conditions in Healthcare, Environmental Health and Environmental Health Policy

Jack Caravanos, Associate Professor, Urban Public Health; DrPH, Columbia; Industrial Hygiene, Environmental Assessments, Hazardous Wastes

Neal L. Cohen, Distinguished Lecturer, Urban Public Health; MD, New York University School of Medicine; Public Mental Health, the Interrelationship of Physical and Mental Well-Being, Stress

Jessie Daniels, Associate Professor, Urban Public Health; PhD, University of Texas at Austin; Internet and media, racial inequality, lgbt health, adolescent health

Jennifer Dowd, Assistant Professor, Urban Public Health; Ph.D, Princeton University; Integrating biomarking into social research, health disparities, stress and immune function
Marianne Fahs, Professor, Urban Public Health; PhD, Michigan; Public Health Economics and Policy, Urban Aging

Nicholas Freudenberg, Distinguished Professor, Urban Public Health; DrPH, Columbia; Urban Public Health, HIV Prevention, Public Health Policy

Ann Gaba, Assistant Professor, Urban Public Health; EdD, Teachers College, Columbia; Movement Disorders, Cancer Prevention, and Needs Assessment for Nutrition Education

William Gallo, Professor, Urban Public Health, PhD, University of Connecticut; Health Economics, Social Epidemiology, Health Policy

Mark Goldberg, Associate Professor, Urban Public Health; PhD, NYU; Industrial Hygiene, Exposure Assessment, Construction Health and Safety

David U. Himmelstein, Professor, Urban Public Health; M.D. Columbia; health care finance and policy, health services research, health care inequality, social justice

Shiro Horiuchi, Associate Professor, Urban Public Health; Ph.D, John Hopkins; Longevity and aging, health demography, quantitative methods of data analysis

Lydia Isaac, Assistant Professor, Urban Public Health; PhD, Johns Hopkins; Racial/ethnic health disparities; Social determinants of health; Chronic diseases; and Public Policy

Heidi E. Jones, Assistant Professor, Epidemiology, Urban Public Health; MPH, Hunter College; PhD, Columbia; Reproductive Health, HIV/AIDS, Infectious Diseases

Elizabeth Kelvin, Assistant Professor, Urban Public Health; PhD, Columbia; Epidemiology, infectious diseases, including HIV, environmental causes of disease and international health.

Susan Klitzman, Professor, Urban Public Health; DrPH, Columbia; Environmental and Occupational Health and Disease Prevention

David Kotelchuck, Associate Professor Emeritus, Urban Public Health; PhD, Cornell; Occupational Health, Industrial Hygiene, Epidemiology

Beatrice Krauss, Professor, Urban Public Health; PhD, CUNY; Community, Family and Individual Adjustment to Health Threats; HIV/AIDS

May May Leung, Assistant Professor, Urban Public Health; PhD, RD, The University of North Carolina; Childhood obesity, Health Communication, Translational research

Thomas Matte, Professor, Urban Public Health; MD, Albany, Air pollution, climate and health, health disparities

Frank Mirer, Professor, Urban Public Health; PhD, Harvard; Toxicology, occupational health and safety, risk assessment, regulatory policy

Khursheed Navder, Associate Professor, Urban Public Health; PhD, Kansas; Lipid Metabolism, Alcohol Metabolism, Sensory Evaluation of Foods

Denis Nash, Associate Professor, Epidemiology, Urban Public Health; PhD, University of Maryland; Public Health Surveillance, Health Disparities, and HIV/AIDS

Stacey Plichta, Professor, Urban Public Health; ScD, Johns Hopkins; Health Services Research, Women’s Health, Intimate partner violence, rape and sexual violence
Lynn Roberts, Assistant Professor, Urban Public Health; PhD, Cornell; Adolescent Health, Violence and Prevention, Minority Health

Diana Romero, Associate Professor, Urban Public Health; PhD, Columbia; Poverty and maternal, child and reproductive health; racial/ethnic health disparities, reproductive health policy

Renata Schiavo, Associate Professor, Urban Public Health: PhD, University of Naples, Italy, MA, New York University; Strategic health communication for behavioral, social, and organizational change; program evaluation; global health

Mary Schooling, Associate Professor, Urban Public Health, PhD, UC London

Arlene Spark, Professor, Urban Public Health; EdD, Columbia; Pediatric Nutrition, Nutrition Education, Cardiovascular Health and Promotion

Makram Talih, Associate Professor, Urban Public Health; Ph.D, Yale; Statistics, Data Analysis, Health Disparities Measurement

Lorna Thorpe, Associate Professor, Urban Public Health; Ph.D, University of Illinois at Chicago; Chronic disease epidemiology, public health surveillance, tuberculosis and injury epidemiology

Steffie Woolhandler, Professor, Urban Public Health; M.D. LSU New Orleans, MPH U.C. Berkeley; health care finance and policy, health services research, health care inequality, social justice

Ming-Chin Yeh, Associate Professor, Urban Public Health; PhD, North Carolina, Public Health Nutrition, Nutrition Intervention and Policy, Nutritional Epidemiology

Graduate Masters

Environmental and Occupational Health Sciences - MS

This program is designed for individuals seeking careers as environmental and occupational health professionals. While emphasizing the recognition, evaluation, and control of environmental and occupational factors affecting health, the curriculum also includes consideration of economic, sociopolitical, and regulatory issues. Offerings are designed so that students may also pursue study in environmental health science in addition to specialization in occupational health and safety. Opportunities are available for internships with numerous outside organizations (see list of field instruction centers) as well as for research with faculty members. Together with several other major professional training institutions, this program is a component of the Education and Research Center designated for this region by the National Institute for Occupational Safety and Health. A limited number of tuition scholarships are available to qualified students.

Graduates of the program are qualified for research, management, and planning positions in a variety of private and public institutions. Career options include air and water pollution control, hazardous waste management, industrial hygiene, occupational health and safety, environmental planning, and environmental public health. After a prescribed period of work experience, graduates can qualify for examinations to become certified industrial hygienists (CIH), certified safety professionals (CSP), certified hazardous materials managers (CHMM).

Scholarships may be available from the National Institute for Occupational Safety and Health (NIOSH) (EOHS Students) and other public and private sources. Contact the program office for further information.

Admission Requirements
1. General admission requirements to the graduate programs in arts and sciences are observed.

2. The aptitude section of the Graduate Record Examination or a master’s degree from an accredited U.S. university

An undergraduate major in science or engineering is desirable.

Students are expected to have completed at least 40 credits in undergraduate or graduate-level basic science and math courses such as courses in organic chemistry (with labs), general chemistry, general physics, biology, and environmental or health sciences. Generally, an undergraduate major in biology, chemistry, environmental sciences or physics would satisfy these requirements. Students must also have completed one semester of calculus and one of statistics. Students with a good academic record who do not meet the above requirements may be admitted with conditions upon recommendation of the program admissions committee.

**Academic Requirements**

46 credits chosen as follows: All courses in Group A (15 credits) Public Health Core courses (see below under Course Distribution); Group B (19 credits) Specialization courses within environmental and occupational health sciences; Group C (6 credits) Elective courses; and Group D (6 credits) Supervised Fieldwork and Capstone Project.

The capstone project consists of a comprehensive examination, a professional portfolio and either: A seminar, and paper and oral presentation based on an aspect of the student’s fieldwork; or, for student’s with GPA’s ≥3.7 and strong independent research and writing skills, a master’s essay. The Capstone Project allows students to synthesize academic knowledge with practical skills and experiences. It is designed to assess student skills and competencies in public health and the specialty area. A list of these competencies is available through the CUNY School of Public Health at Hunter College.

**Course Distribution**

**Group A - Public Health Core Courses required. 15 credits**

**PH 75100 - Principles of Biostatistics**

This is a first-level requirement for students specializing in EPI-BIOS, who will take subsequent intermediate and advanced level biostatistics courses. It will introduce students to the theoretical basis for and practical application of common statistical methods and principles used in public health.

*prereq: evidence of quantitative abilities, such as college-level algebra with a grade of B+ or better, GRE scores ≥550 and analytic scores ≥4.5.*

**PH 75200 - Introduction to Epidemiology**

An introduction to epidemiologic principles, methods and measures commonly used in public health. T

*prereq: PH 75000  
-or-

**PH 75300 - Principles of Epidemiology**

A first-level requirement for student specializing in EPI-BIOS, who will take subsequent intermediate and advanced level epidemiology courses. It will introduce students to epidemiologic theory, principles, methods and measures commonly used in public health.
PH 75400 - Environmental Health and Safety

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation and noise hazards; hazardous substances; solid wastes; food protection; natural and human-made disasters; and specific hazards such as lead, asbestos, mold and pesticides.

PH 75500 - Urban Health and Society

Examines impact of social and political forces on the health of urban populations and describes roles for public health professionals in promoting health of urban communities.

PH 75600 - Public Health and Health Care Policy and Management

This course examines the organization, delivery and financing of health care in the United States with an understanding of the health policy-making process and a focus on issues related to the management of public health agencies.

Group B Specialization Courses required, 19 credits

EOHS 70200 - Introduction to Occupational Safety and Health

Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

EOHS 74100 - Environmental and Industrial Hygiene Laboratory

Physical, chemical, and instrumental methods for measuring environmental and occupational contaminants.

prereq or coreq: EOHS 70500

Hours 90 hrs lec and lab,
Credits 4 cr

EOHS 75400 - Environment and Occupational Toxicology

Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of toxicological testing and evaluation.

prereq: PH 75400 and EOHS 70500

EOHS 75500 - Industrial Ventilation and Environmental Control

Fundamentals of industrial ventilation: air flow, local and dilution exhaust ventilation systems, hood and piping design, fan type and selection, air cleaning devices, system-testing; problem-solving; engineering controls.
**EOHS 75700 - Principles of Industrial Hygiene**

Recognition, evaluation, and control of industrial hazards due to chemical and physical agents. Topics include occupational health standards, regulatory agency activities, effects of contaminants on human health, sampling and control of hazards, current issues.

*prereq: EOHS 70200 and 70500*

**EOHS 76200 - Noise and Radiation Hazards and Controls**

Introduction to basic concepts of sound, noise measurement, and noise control in community and occupational environments. Health and safety problems involved with the use of ionizing and non-ionizing radiation, with an emphasis on identification and control.

*prereq or coreq: EOHS 70500*

**Group C Elective Courses required, 6 credits**

**Group D Supervised Fieldwork and Culminating Experience**

Supervised Fieldwork required, 3 credits

**PH 73700 - Supervised Fieldwork**

Students will carry out directed field experiences in public health agencies or programs. Placements are in relation to student’s academic background, specialization and career expectations. Emphasis is on applying classroom-acquired concepts and skills. The content and scope of the fieldwork should be similar to work performed by an entry level public health professional.

*prereq: Completion of 18 credits toward the master’s degree, including at least 3 required core courses (biostatistics, epidemiology, and the course most relevant to your specialization) and at least 2 courses in students’ specialization.*

**PH 73800 - Capstone Project**

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the MPH or MS program. Students will complete either a paper based on fieldwork, a research paper or a Master’s Essay. The paper must be completed no sooner than during students’ penultimate or final semester.

*prereq: Completion of at least 36 credits of coursework toward the Master of Public Health (MPH) or Master of Science degree, including at least one course in each of the 5 core areas of public health (biostatistics, epidemiology, social and behavioral sciences, public health policy and environmental health and safety); and at least 3 specialization courses.*

**Nutrition MS**

The MS degree in Nutrition is designed for individuals seeking to attain the RD credential. The MS in Nutrition is an accredited didactic program in dietetics (DPD), completion of which certifies eligibility to apply for a dietetic
internship. Graduates of the NUTR-MS program may work as nutritionists in a wide variety of health care facilities including hospitals and public health agencies.

**Admission Requirements**

1. General admission requirements to the graduate programs in arts and sciences are observed.
2. An undergraduate major in any field.
3. The aptitude section of the Graduate Record Examination or a master’s degree from an accredited U.S. university.
4. At least 30 credits in the following undergraduate or graduate-level basic science and math courses: one semester each of undergraduate courses in introductory foods, introductory nutrition, general chemistry (with lab), organic chemistry (with lab), microbiology (with lab), and statistics or calculus, and two semesters of anatomy and physiology (with lab).

**Academic Requirements and Course Distribution**

41 credits as follows:

**NUTR 70500 - Nutrition and Biochemistry**

The structure and metabolism of macro- and micronutrients, kinetics and regulation of enzymes; energetic of biochemical reactions.

**NUTR 71500 - Food Service and Management**

An overview of good service operations and theories, functions and tasks of management.

**NUTR 72000 - Community Nutrition Education**

Nutrition programs and materials for health promotion in the community.

**NUTR 72500 - Nutrition Research**

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

**NUTR 73100 - Human Nutrition and Metabolism**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

*prereq: NUTR 70500*

**NUTR 73200 - Advanced Nutrition II**
Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

prereq: NUTR 73100

**NUTR 73300 - Nutrition and Human Development**

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

**NUTR 73400 - Clinical Nutrition I**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73100

**NUTR 73500 - Clinical Nutrition II**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73400

**NUTR 74600 - Nutrition and Disease**

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

coreq: NUTR 74700

**NUTR 74700 - Advanced Nutrition and Assessment Laboratory**

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of various population groups.

coreq: NUTR 74600

**NUTR 75600 - Food Science and the Environment**

Scientific principles of food and food ingredients: composition, function, regulation, safety, quality, testing, processing, packaging, formulation, production and evaluation of foods.

coreq: NUTR 75700

**NUTR 75700 - Food Science and the Environment Laboratroy**

Laboratory experience with the chemical and physical properties of food components.

coreq: NUTR 75600

Credits 1

**NUTR 76000 - Practicum**
Nutrition and food science-related fieldwork in hospitals, schools, laboratories, and community-based organizations designed to provide opportunities to apply knowledge and skills gained from the classroom education to professional practice.

**prereq:** completion of 27 credits in NUTR

**PH 75000 - Introduction to Biostatistics**

This course is designed to enable students to analyze, present and interpret population health data.

**prereq:** Elementary statistics or calculus or equivalent.

**Urban Public Health - MPH**

Return to: CUNY School of Public Health

**Admission Requirements**

1. General admissions requirements to the graduate programs in the arts and sciences are observed.

2. The Graduate Record Examination General Test (quantitative, verbal, written) or a prior master’s degree from an accredited U.S. university

3. Students are expected to present a background in both natural sciences and social sciences

Applicants to the Environmental and Occupational Health Sciences Program should have a background in science and mathematics, usually at least 18 undergraduate credits, including a course in statistics or calculus.

Applicants to the Nutrition Program should have a background in science and mathematics, usually at least 18 undergraduate credits, including a course in statistics or calculus and are required to have completed coursework in food, nutrition, biology and chemistry.

Applicants to the Epidemiology-Biostatistics Program should demonstrate evidence of quantitative abilities, such as GRE quantitative score of 550 or better.

Applications to the Public Health Policy and Management Program should have completed at least 3 undergraduate courses in economics, accounting, business administration, management, public policy, urban affairs, sociology, or political science or a related field.

4. At least one year of work or volunteer experience related to public health, nutrition, environmental or occupational health, social services or community health, health-related research, or health policy, management, administration or a related field is required.

5. For graduates of universities in non-English-speaking nations, a TOEFL score of 600 (paper-based), 250 (computer-administered), or 75 (internet-based, less the speaking component) is required for admission.

**Academic Requirements**

45 credits chosen as follows: All courses in Group A (15 credits) Public Health Core courses (see below under Course Distribution); Group B (15-18cr) Specialization courses within one of five areas: community health education, environmental and occupational health sciences, epidemiology and biostatistics, public health policy and management.
or public health nutrition; Group C (0-9 credits) Elective courses; and Group D (6-12 credits) Supervised Fieldwork and Culminating Experience.

The culminating experience consists of a professional portfolio and either: a seminar, and paper and oral presentation based on an aspect of the student’s fieldwork; or, for student’s with GPA’s ≥3.7 and strong research and writing skills, a master’s essay. The capstone project allows students to synthesize academic knowledge with practical skills and experiences. It is designed to assess student skills and competencies in public health, urban health and the specialty area. A list of these competencies is available through the CUNY School of Public Health at Hunter College.

Course Distribution

Group A - Public Health Core Required: 15 cr

**PH 75000 - Introduction to Biostatistics**

This course is designed to enable students to analyze, present and interpret population health data.

*prereq: Elementary statistics or calculus or equivalent.

-or-

**PH 75100 - Principles of Biostatistics**

This is a first-level requirement for students specializing in EPI-BIOS, who will take subsequent intermediate and advanced level biostatistics courses. It will introduce students to the theoretical basis for and practical application of common statistical methods and principles used in public health.

*prereq: evidence of quantitative abilities, such as college-level algebra with a grade of B+ or better, GRE scores ≥550 and analytic scores ≥4.5.

**PH 75200 - Introduction to Epidemiology**

An introduction to epidemiologic principles, methods and measures commonly used in public health. T

*prereq: PH 75000

-or-

**PH 75300 - Principles of Epidemiology**

A first-level requirement for student specializing in EPI-BIOS, who will take subsequent intermediate and advanced level epidemiology courses. It will introduce students to epidemiologic theory, principles, methods and measures commonly used in public health.

*prereq or coreq: PH 75100

**PH 75400 - Environmental Health and Safety**
Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation and noise hazards; hazardous substances; solid wastes; food protection; natural and human-made disasters; and specific hazards such as lead, asbestos, mold and pesticides.

**PH 75500 - Urban Health and Society**

Examines impact of social and political forces on the health of urban populations and describes roles for public health professionals in promoting health of urban communities.

**PH 75600 - Public Health and Health Care Policy and Management**

This course examines the organization, delivery and financing of health care in the United States with an understanding of the health policy-making process and a focus on issues related to the management of public health agencies.

**Group B Specialization Courses Required:**

15-18 cr in one specialization area

Community Health Education

**COMHE 75000 - Community Health Assessment**

This course prepares students to collect and analyze data on community health from a variety of sources, to identify problems and assets, and to develop objectives for community health interventions.

*prereq: PH 75500*

**COMHE 75100 - Community Health Interventions**

An introduction to community-level interventions as explained by theories of individual, organizational and community change from the disciplines of psychology, sociology and health education.

*prereq: PH 75500, COMHE 75000
Credits 3*

**COMHE 75200 - Community Organizing and Development for Health**

Prepares students to work in communities by presenting the theory and practice of organizing for social justice, skills for promoting leadership development within communities, and the tools to create and sustain healthy organizations.

*prereq: PH 75000, COMHE 75000, COMHE 75100*

**COMHE 75300 - Health Program Planning and Funding**

This course will engage students in identifying or designing a health program, finding funding sources, and developing a proposal covering program need, program objectives, a management and quality assurance plan, preliminary work, evaluation, budget, and a plan for funding support.
prereq: completion of 15 cr incl PH 75000 or 75100, PH 75500 and either COMHE 75000, COMHE 75100, COMHE 75200 or COMHE 75000 and NUTR 71000 or NURS 77100, COMHE 75100 and COMHE 75200.

Credits 3 cr

**COMHE 75400 - Research and Evaluation for Community Health**

Basic concepts, methods and approaches for evaluation research applied to community health education and health-related programs through a critical review of literature and a program evaluation design.

**prereq: 15 cr in program incl PH 75000 or PH 75100, PH 75500, COMHE 75000, COMHE 75100, COMHE 75200**

Credits 3 cr

**or**

Environmental and Occupational Health Sciences

**EOHS 70200 - Introduction to Occupational Safety and Health**

Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

**EOHS 70500 - Environmental Chemistry**

Survey of chemical and physical concepts essential for understanding environmental and occupational health sciences, including study of the atmosphere, air and water pollution, and energy resources. Physical principles of heat and energy, and radioactivity will be discussed.

**EOHS 74700 - Hazard Evaluation and Instrumentation**

An introduction to instrumental methods used to assess environmental and occupational health hazards. Principles and operation of commonly used direct reading instruments and demonstration of their application.

**prereq: PH 70000, EOHS 70200**

**EOHS 75400 - Environment and Occupational Toxicology**

Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of toxicological testing and evaluation.

**prereq: PH 75400 and EOHS 70500**

**EOHS 76500 - Environmental Audits and Remediation**

Introduction to environmental investigation and remediation technologies commonly used in professional practice. Presents proper practices for assessing and remediating asbestos, lead-based paint, indoor air quality, and underground storage tanks situations and Phase I site audits.

**prereq: PH 70000**

-or-
BIOS 75000 - Applied Biostatistics I

A follow up course to PH7500 and PH75300, covering intermediate-level statistical methods commonly used in public health research. Topics include: simple and multiple linear regression; logistic regression; residual analysis; variable selection. Focus on practical applications, utilizing statistical software.

Cross-listed STAT 75000
prereq: PH 75100, PH 75300

BIOS 75100 - Applied Biostatistics II

A follow up course to BIOS 75000, covering intermediate and advanced statistical methods commonly used in public health research. Topics include: log linear and generalized linear models; random and mixed effects models; survival analysis. Focus on practical applications utilizing statistical software.

Cross-listed STAT 75100
prereq: BIOS 75000

EPI 75000 - Epidemiologic Methods I: Study Research Design

This course will provide an in depth understanding of the design and conduct of epidemiological studies, including causal inferences, measurement, major study designs, threats to validity, and urban public health applications. Examples will be based on the health of New York City residents. Prereq: ,

Cross-listed GC PH 82000
prereq: PH 75100, PH 75300

EPI 75100 - Epidemiologic Methods II: Survey and Research Methods

This course will provide students with an understanding of the methods used to test research hypotheses; tools for selecting statistical tests appropriate for the particular study design and research hypotheses; and an ability to recognize the importance and impact of threat to validity such as confounding and bias. This course will also cover survey methods used in epidemiologic research.

Cross-listed GC PH 82100
prereq: EPI 75000

EPI 75200 - Applied Research: Data management and analysis

This course provides students with the opportunity to apply epidemiological and statistical concepts using several datasets to answer a given research question and test the hypotheses associated with it

prereq: BIOS 75100, EPI 75100 or instructor's permission
(or)

Public Health Policy and Management

HPM 75000 - Public Health Management
Focuses on management issues in a variety of organizational settings and the larger public health environment; describes managerial functions and problem solving strategies, financial management principles, and management models for change; develops specific skills in program management, budgeting, workforce development, and managing intersectoral programs.

prereq: PH 75500, PH 75600

**HPM 75100 - Public Health and Health Care Law**

Reviews key areas of the legal process relevant to health care delivery and public health; analyzes major court decisions that have affected the field and selected federal, state and local statutes that affect public health and health care practice; acquaints students with the basics of legal research and legal reasoning as applied to public health and health care.

prereq or coreq: PH 75500, PH 75600 or with instructor’s permission for those with at least one year of health care experience

**HPM 75200 - Comparative Analyses of Urban Health Care Systems**

Examines unique challenges and opportunities for delivering health care in developed and developing world cities; analyses impact of national and local policies and social and political factors on health care access, quality and outcomes; introduces empirical methods for making comparative studies across municipalities and nations.

prereq: PH 75500, PH 75600

*Students can take this course or HPM 75400*

-or-

**HPM 75400 - Public Health Advocacy**

Prepares students to advocate for policies that promote public health, develops skills in planning and implementing advocacy campaigns; assess theories on role of coalitions and advocacy in changing health policy.

prereq: PH 75500, PH 75600

*Students can take this course or HPM 75200*

**HPM 75300 - Public Health Policy Analysis**

Examines common approaches and concepts of policy analysis for public health, including market efficiency and failures, cost-benefit analysis, problem and decision making analysis; describes critiques of such models with public health examples; focuses on the Health Impact Assessment as a method for analyzing costs and benefits of health and non-health policies.

prereq: PH 75500, PH 75600

**HPM 75500 - Health Economics**

This course in health economics introduces students to essential microeconomic concepts as they apply to health systems, individual and public health.

prereq: Recommended pre-req: PH 75500, PH 75600
Nutrition

**NUTR 71000 - Principles of Public Health Nutrition**

Fundamentals of nutrition in public health as they apply to health promotion and disease prevention for individuals and society, with emphasis on urban populations.

**NUTR 72000 - Community Nutrition Education**

Nutrition programs and materials for health promotion in the community.

**NUTR 73300 - Nutrition and Human Development**

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

**PH 72200 - Food Politics and Policy**

This policy course examines the influence of the food industry and of government on the U.S. food system and the way we eat, and on efforts to prevent and treat chronic diet-related conditions, such as obesity. This is a hybrid course that meets in person 5 times during the semester; the remainder of the time the course is conducted online asynchronously through Blackboard.

*Cross-listed GC PH 81400*

prereq: 30 MPH credits
- COMHE 75000 and either
- COMHE 75300 (for NUTR non-DI students)

- or-

**NUTR 70000 - Seminar in Dietetics Practice**

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

Open to dietetic internship (DI) students only.

**Group C - Elective/Concentration Courses required, 0-9 credits**

COMHE 9 credits

EOHS 9 credits

EPI/BIOS 9 credits of which at least 6 must be from EPI75300-75900 for students who choose EPI option or BIOS 75200-75800 for students who choose BIOS option. EPI-BIOS students may also take electives in mapping public health data and clinical trials or other topical electives offered.

HPM 9 credits of which at least 3 credits must be in finance or economics and 3 must be in program or policy evaluation

NUTR 6 credits (for NUTR non-Dietetic Internship (DI) students) and 0 credits for NUTR – DI students
Group D - Supervised Field Work and Capstone Project

**Supervised Fieldwork required, 3 credits**

PH 73700 (210 hrs) or NUTR 70100 NUTR 70300 NUTR 70200 for NUTR-DI Students

**Capstone Seminar required, 3 credits**

PH 73800

*Note: To be eligible for the American Dietetic Association’s Dietetic Internship Certificate, a requirement for taking the examination to become a registered dietitian, students in the public-health nutrition specialization must complete NUTR 70000 NUTR 70100 NUTR 70200 NUTR 70300.*

**Using Archived Catalogs**

These archived catalogs are stored in pdf format. To view these documents you will need the Adobe Acrobat Reader software installed. To obtain this free software please visit [http://get.adobe.com/reader/](http://get.adobe.com/reader/).

**Academic Policies and Regulations**

**Change of Name or Address**

If you are changing your name, address, or ID number, you must submit a “change of name, address or ID” form. Forms are available in the OASIS, Room 217 Hunter North. In the case of a change of address, the post office at the former address should be notified to forward the mail.
Withdrawal from Courses

Any course from which a student officially withdraws after the third week of courses and before Monday of the 10th week of the term will be recorded as W, indicating that the withdrawal was without prejudice. Official withdrawal is accomplished by filing a withdrawal application in the OASIS, Room 217 HN, on or before the deadline.

A student should notify the graduate adviser of any such course withdrawal.

After the 10th week of the term, all official withdrawals must have the approval of the graduate adviser on an official withdrawal form and be recommended for documented reasons of illness or serious personal emergency. Unofficial withdrawal will result in a grade of WU.

Grades

Effective fall 2007, grades in graduate courses are reported as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Definition</th>
<th>Quality Points (GPA Index)</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>97.5 – 100%</td>
<td>4.0</td>
</tr>
<tr>
<td>A</td>
<td>92.5 – 97.4%</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>90.0 – 92.4%</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>87.5 – 89.9%</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>82.5 – 87.4%</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>80.0 – 82.4%</td>
<td>2.7</td>
</tr>
<tr>
<td>C+</td>
<td>77.5 – 79.9%</td>
<td>2.3</td>
</tr>
<tr>
<td>C</td>
<td>70.0 – 77.4%</td>
<td>2.0</td>
</tr>
<tr>
<td>F</td>
<td>77.0 – 69.9%</td>
<td>0</td>
</tr>
<tr>
<td>P</td>
<td>Satisfactory completion. Used only for the thesis research or equivalent course where required in the particular graduate program.</td>
<td></td>

</table>
Y = Year’s course of study – must continue to completion

In the School of Social Work the H/CR/NC grading system is mandatory. These grades, which carry no quality points, are assigned as follows:

H = Honor
CR = Credit
NC = No credit

The assignment of traditional letter grades in the School of Social Work may be arranged by consultation with the instructor at the beginning of each semester. A grade of Credit includes acceptable graduate-level work equivalent to a B or an A. The grade of Honor, rarely given, signifies unusual or outstanding work, well above the A level.

Students shall not be permitted to repeat courses in which they have previously received a grade of B or better. Courses in which a grade of C is earned may be repeated only with departmental permission. Credit for the repeated course will be counted in the GPA, but not toward graduation.

**Minimum GPA for Retention**

Both matriculated and nonmatriculated graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

After the posting of grades, the registrar’s office will notify graduate advisers of students whose GPAs fall below 3.0. Those students will receive warning notices that they have one probationary semester in which to raise their GPAs. Students who fail to raise their averages sufficiently will be dropped from their programs.

Students are placed on probation and are dismissed at the end of each fall and spring semester.

**Appeals Procedure for Students on Probation**

1. Student appeals shall be made in writing to the dean of the appropriate school, who will forward copies to the appropriate graduate adviser. Appeals must be received no later than the first day of classes of the following semester.

2. Upon receipt of this written letter of appeal, the dean shall convene a probation appeals committee composed of representatives from the graduate programs in the appropriate school, to include the graduate adviser from the appropriate program or a comparable program representative.

3. The specifically constituted probation appeals committee shall meet to review each case and shall produce a written report stating the grounds for its decision. Copies of this report shall be sent to the student, to the dean, and to the student’s file. The decision of this committee is final. If the appeal is successful, the committee shall send official notification to the registrar that the student will be retained on probation and allowed to register.

4. Student appeals which are received by the first day of classes shall be handled with dispatch in order that the student may register within the period of late registration without payment of late registration fee.

**Minimum GPA for Graduation**
Students will not qualify for a graduate degree, diploma or certificate unless, by the time of graduation, they achieve a cumulative GPA of 3.0 (B) in all graduate work taken at Hunter.

**Incomplete Work in Course**

Instructors may assign the grade IN, meaning that course work (examinations, assignments, classwork, lab work) was not completed. For an IN grade to be changed to a letter grade, all required coursework must be completed within one year after the IN grade is entered. If not changed to a letter grade within one year, the IN grade will become permanent. Penalties for lateness that were previously established for the course will remain in effect.

Students will have a maximum of one year to complete required course work, whether or not they are in attendance. Instructors and departments may choose to have makeup final examinations administered by the college. Such examinations will be given before the Monday of the seventh week of the following semester. It is the responsibility of the student who must take a makeup examination to determine from the instructor or department whether the exam will be administered by the college, and to file the appropriate form and pay any required fee by the deadline specified by the college.

**Credit**

In general one credit represents 15 semester hours of classroom work or 30 semester hours of laboratory work, or the equivalent. Students are automatically classified as full-time during any given semester if they are taking 12 credits. They may be certified as full-time if they are taking fewer than 12 credits but are pursuing additional academic work that is required for the degree and that amounts to full-time study, such as preparing for comprehensive examinations, writing a thesis, teaching on a fellowship, student teaching or undertaking an internship or fieldwork under faculty supervision. Students who believe they qualify for certified full-time status and wish to protect their status as full-time students because of eligibility requirements for financial aid must ask their graduate advisers to verify the full-time nature of their academic work and to make a recommendation on this matter to the registrar prior to the beginning of classes of each semester.

**Notification**

This catalog is published every three years, and some of the material may become outdated. For updated information, please contact the Office of the Registrar or the specific school or department of interest.

**Academic Honesty**

Any deliberate borrowing of the ideas, terms, statements, or knowledge of others without clear and specific acknowledgment of the source is intellectual theft and is called plagiarism.

It is not plagiarism to borrow the ideas, terms, statements, or knowledge of others if the source is clearly and specifically acknowledged. Students who consult such critical material and wish to include some of the insights, terms, or statements encountered must provide full citations in an appropriate form.

**Appeals-Grades**

When a student considers a final course grade unsatisfactory, the student should first confer with the instructor regarding the accuracy of the grade received. This conference should be held within the first three weeks of the
semester following receipt of the grade. At this time, errors may be corrected. If the grade is not an error, the student and instructor must together review all class material pertinent to the grade. If the student is not satisfied, or the instructor does not confer with the student within the first three weeks of the semester, the student should promptly contact the department chair by submitting a written appeal, consisting of a statement giving the factual reasons and basis for the complaint. The student has the right to request in writing that the chair appoint a student as a member to the department/school Grade Appeals Committee. This appeal at the department/school level must be submitted within the first five weeks of the semester following receipt of the grade, in accordance with the “College-wide Grade Appeals Procedures” adopted by the Senate in fall 1985. Copies of this procedure may be obtained in the Senate Office, the Office of Student Services, or departmental offices.

Students appealing a grade to the School of Nursing or the School of Health Sciences should direct the appeal to the director of the school. Students appealing a grade to the School of Social Work should direct the appeal to the dean of the school, who shall carry out the responsibilities of the department chair.

Return to: General Information

Admission to Graduate Programs

General

An applicant for admission to Hunter College as a matriculated student in any of the master’s programs must meet the following minimum requirements in order to be considered: (For admission to the School of Social Work, see School of Social Work section of this catalog.)

1. The student must hold a bachelor’s degree from a regionally accredited institution, comparable in standard and content to a bachelor’s degree from Hunter College.

   Degrees granted on the basis of work completed at institutions which are not fully accredited, or on the basis of nonacademic prior learning, test scores, and other than organized supervised course work in academic subjects may not be considered comparable.

2. The student must demonstrate ability to pursue graduate work successfully. In general, the minimum requirements for consideration are an undergraduate average of B in the area in which the student wishes to specialize and an average of B minus in the undergraduate record as a whole. Applicants are required to submit official transcripts from all undergraduate and graduate institutions attended other than Hunter College.

3. For admission in the School of Arts and Sciences, the student is usually required to present at least 18 credits of previous work in the area of specialization acceptable to the school or department concerned and two letters of reference. See specific program descriptions for additional requirements.

   For admission to the School of Education, the student is usually required to present at least 36 credits of previous liberal arts and science courses and a liberal arts or science major of at least 30 credits. See specific program descriptions for detailed requirements.

4. **Competency Examinations**

   **The Graduate Record Examination:** The general aptitude test of the Graduate Record Examination (GRE) is required of most applicants to the School of Arts and Sciences and to the School of Health Sciences. See specific program descriptions regarding this requirement. It is not required for the School of Education or the School of Nursing.
Applicants should write directly to:
Graduate Record Examination, Educational Testing Service
Box 6000, Princeton, NJ 08541-6000
(609) 771-7670
http://www.gre.org
for full information and arrangements to take the test. The GRE should be taken no later than February for fall admission and September for spring admission. The Hunter College institution code is 2301.

The Test of English as a Foreign Language (TOEFL)* is required of all applicants whose native language is not English and/or who have taken all or part of their post-secondary education in a country where English is not the native language. Such applicants, regardless of country of citizenship or U.S. permanent resident status, must take this examination. Depending on the program selected, an applicant may also be required to take the TWE (Test of Written English) and the TSE (Test of Spoken English), also administered by the Educational Testing Service.

Applicants should plan to take these examination(s) at least nine months before their intended date of enrollment. Information about TOEFL, TWE, and TSE can be obtained by writing to TOEFL Bulletins, P.O. Box 6151, Princeton, NJ 08541-6151-(609) 771-7100-http://www.toefl.org. The Hunter College institution code is 2301.

International Students

An international applicant for admission to Hunter College is expected to have a firm command of the English language before he/she applies. No provisional admission is offered whereby a student may come to the university and spend a semester or a year learning English at the college.

If the applicant plans to enter or remain in the U.S. on a student visa (F-1), it will be necessary to complete a Certification of Finances form and provide documented proof of financial support confirming that he or she has the funds necessary to cover all college tuition and personal expenses (approximately $35,275 per year). This form and documentation are required in order to obtain the I-20 AB Certificate of Eligibility. This procedure takes place after determination of academic eligibility and before registration for the first semester, and is carried out under the auspices of the International Students Office in the Office of Student Services.

Note: Overseas applicants who are interested in attending Hunter College are advised not to come to the U.S. on a B-2 visitor’s visa. Unless prearranged through the American consul (and unless the visa is marked “prospective student”), the B-2 visitor’s visa will not be changed to the F-1 student visa once the applicant enters the U.S. The I-20 form (required by the U.S. Immigration Office) is issued only to students who have been accepted as full-time matriculants.

Applicants are responsible for the payment of all tuition fees at the time of registration. International students must be in a position to finance the cost of their education and living expenses as college-based financial assistance is not available.

Hunter College does not make housing arrangements for students; it is essential that students be prepared to make their own housing arrangements before arrival.

Note: Academic credentials from non-U.S. institutions are evaluated by the Office of Graduate Admissions in order to establish U.S. baccalaureate degree equivalency. Applicants need not submit third party equivalencies; however, they must submit official English translations of academic records written in languages other than English. The evaluation is conducted in accordance with minimum criteria set by the Hunter College Senate, and it takes place before the completed application is referred to the departmental admissions committee.

*Minimum satisfactory score on the TOEFL is 550-600 on the paper based test or 213-250 on the computer administered test or 60-75 (less speaking component) on the TOEFL IBT, depending upon the curriculum.

Application Procedure
Applicants may apply to only one program for any given semester; please decide which of our programs is the most appropriate before filing the application. The deadline for applications varies by program. The earliest deadlines are January 15 for fall admission and September 1 for spring admission. Applicants are responsible for submitting their application and supporting application materials by the deadline for their desired graduate program. More information on the exact application deadlines can be found at: http://www.hunter.cuny.edu/graduateadmissions/applying/deadlines/degree-applications.

Applying for admission to a graduate program at Hunter College is a two-step process. The first step is completing the online Application for Graduate Degree Admissions. Hunter College offers a web-based application for graduate degree admission which can be accessed at: https://app.applyyourself.com/?id=Hunter-G. The second step is collecting and submitting the required supporting application materials, such as letters of recommendation and official transcripts from each institution attended. Applicants are responsible for collecting all supporting documents needed for the review and evaluation of their applications and submitting them before the application deadline. Supporting application materials must be mailed in one envelope to: Graduate Admissions, 223 Noth, 695 Park Ave., New York, NY, 10065 for applicants applying to the School of Arts & Sciences, School of Education, School of Health Professions, and School of Nursing. Applicants to the School of Social Work must mail their supporting application materials to: School of Social Work, Office of Admissions Room 704, 129 East 79th Street, New York, NY 10075. Additional information on submitting the supporting application materials can be found at: http://www.hunter.cuny.edu/graduateadmissions/applying/degree-application/supporting-application-documents.

Applicants to some graduate programs may be asked for additional materials and may be interviewed by a member of the program to which the application is made.

Credentials submitted in support of an application become the property of Hunter College and will not be released to the applicant or transmitted to a third party, except for those foreign certificates considered irreplaceable. Original foreign documents will be returned to the applicant only if, at the time of filing, they are accompanied by photocopies.

**Application Fee**

A $125 application fee is required of all applicants. Applications submitted without the fee cannot be processed. You can pay your application fee via credit card online when you are ready to submit your online application form or you can mail a check or money order to the Graduate Admissions Office. Please make checks or money orders payable to Hunter College. If a check is written for you by someone else, be sure your name appears on the face of the check. Those currently attending Hunter as graduate non-degree students who are applying for degree status need not pay this fee. As the application fee is devoted to the administrative cost of processing all applications, it is not refundable under any circumstances, regardless of the outcome, the date of filing, the time of review, or, if for whatever reason, the application is withdrawn.

**Admission Status**

Applicants are approved for admission by the graduate adviser or coordinator of the program and the appropriate dean under any one of the following categories:

1. **Matriculated** – For matriculation, students must fulfill all the requirements for admission.
2. **Matriculated with conditions** – Students whose undergraduate training is inadequate, but who are otherwise qualified, may be admitted with not more than 6 credits of course conditions to either the School of Arts and Sciences or to the Schools of the Health Professions, and with not more than 12 credits of course conditions to the School of Education. Such students are expected to satisfy their conditions by eliminating all deficiencies within one year of matriculation if admitted to a program in the School of Arts and Sciences and the Schools of the Health Professions, and within three semesters in the School of Education.
Note: Applicants admitted to matriculated status who wish to delay their admission to the following semester must reapply by filing a new application prior to the next semester’s deadline. Credentials submitted in support of the original application need not be resubmitted.

3. **Nonmatriculated** – A formal application must be filed in the Office of Admissions, Room 203 HN, 695 Park Avenue, New York, NY 10065, approximately two months before registration. The undergraduate degree must be equivalent to at least a U.S. bachelor’s degree. If the application and supporting material are acceptable, registration material will be sent with further instructions. Applicants should present a student copy of their undergraduate transcripts as well as a copy of the undergraduate catalog(s) to the departmental adviser in order to obtain course approval. The nonmatriculation application fee of $125.00 will be charged when the student registers.

Acceptance to nonmatriculated status does not imply approval to take a specific course. This approval rests solely with the graduate program adviser involved. Students should consult the graduate program adviser in the appropriate department for specific information.

To be considered for possible matriculation, a nonmatriculated student must have earned grades of B or better for the course credits taken. For most programs in education, 9 credits must be presented with a minimum grade point average of 3.0. This requirement is in addition to the college and program admission requirements for matriculation.

A separate application for matriculated status must be completed and can be filed while the nonmatriculated courses are in progress. The application for matriculated status must be filed by the appropriate deadline for the individual program desired. Consult the Application for Graduate Degree Programs for specific dates.

A nonmatriculated student may be limited to 12 credits (check with departmental adviser). A minimum grade point average of 3.0 must be maintained.

Registration as a nonmatriculant does not entitle an international student to an I-20 AB (Certificate of Eligibility).

**Approval of Credit from Nonmatriculant to Matriculant Status**

Approval will automatically be granted for courses taken in support of the degree if the grades received are B or higher. Approval is not automatic for courses in which the grade received is less than B, nor for courses not required for the degree. To have such a course considered for approval, the student must submit a credit approval form, which may be obtained in the Office of Graduate Admissions. Note: Grades in courses taken as a nonmatriculant at Hunter will be calculated into the student’s grade point average (GPA) whether approved toward the degree or not.

**Transfer of Credit**

Students may request transfer credit for relevant graduate courses taken at regionally accredited institutions, including courses taken at Hunter College while matriculated in another degree program, whether or not the master’s degree was awarded.

A form for such a transfer may be downloaded at http://www.hunter.cuny.edu/graduateadmissions/applying/degree-application/transfer-credit.

Transfer of credits is subject to the approval of the department or graduate adviser and to the regulations of the Hunter program in which the student is matriculated. The following additional limitations apply:
1. In order to be counted toward graduation, the course(s) for which transfer credit is requested must have been completed within five years prior to the awarding of the Hunter graduate degree. (A four-year restriction applies to the School of Arts and Sciences.)

2. Credits for courses in which the student earned a grade below B, or took a non-letter grade such as a pass/fail option, are not transferable.

3. A maximum of 12 credits may be transferred.

4. Courses used to satisfy entrance requirements, as well as courses used as part of a previously completed bachelor’s program, may not be transferred.

Note: Grades in courses transferred from other institutions, or from a prior master’s degree program taken at Hunter College, will not be calculated into the student’s grade point average (GPA), nor will these grades be posted on the current Hunter College record.

Undergraduates

Upon the recommendation of the student’s undergraduate major or program adviser, and with the approval of the adviser of the graduate program offering the course, highly qualified undergraduate degree students may take graduate courses for credit toward the bachelor’s degree. If it is determined that the courses were not used for the bachelor’s degree and the graduate transfer is acceptable, then the student will be charged the difference between the undergraduate and graduate tuition rates at the time the student took the course. No course may be applied to both the undergraduate degree and the graduate degree.

Readmission: Matriculated and Nonmatriculated Students

A student who has not been in attendance for one or more semesters must apply for readmission to the college. Students who registered for the previous semester and officially withdrew after the third week of classes are not required to file for readmission.

Applications may be downloaded at: http://www.hunter.cuny.edu/graduateadmissions/applying/readmission-application/application-form. The completed form needs to be submitted or mailed to Graduate Admissions, 223 North, 695 Park Ave., New York, NY 10065. There is a $10 nonrefundable readmission fee. The fee is $125.00 for nonmatriculants.

Students who are academically eligible (GPA at least 3.0) and are within their program’s time limit (five years except for the program in the School of Arts and Sciences, which has a time limit of four years) are generally approved for readmission. Applications for readmission must be filed at least two months before the beginning of the semester in which the student plans to resume studies.

Change of Degree Program

A matriculated student who wishes to change from one graduate curriculum to another is required to file formal application for admission and submit an application fee of $125.00 to the Office of Admissions. The application must be filed by the appropriate deadline for the individual program. Please consult the application for specific deadlines.
Courses Outside the Degree Program

It is the responsibility of the graduate adviser to see that matriculated students do not register for any graduate courses outside their program without written permission of the graduate adviser or coordinator of the program in which they are matriculated.

Board of Trustees

The City University of New York

Rules and Regulations for the Maintenance of Public Order
Pursuant to Article 129-A of the Education Law

The tradition of the University as a sanctuary of academic freedom and center of informed discussion is an honored one, to be guarded vigilantly. The basic significance of that sanctuary lies in the protection of intellectual freedom: the rights of professors to teach, of scholars to engage in the advancement of knowledge, of students to learn and to express their views, free from external pressures or interference. These freedoms can flourish only in an atmosphere of mutual respect, civility, and trust among teachers and students, only when members of the University community are willing to accept self-restraint and reciprocity as the condition upon which they share in its intellectual autonomy.

Academic freedom and the sanctuary of the University campus extend to all who share these aims and responsibilities. They cannot be invoked by those who would subordinate intellectual freedom to political ends, or who violate the norms of conduct established to protect that freedom. Against such offenders the University has the right, and indeed the obligation, to defend itself. We accordingly announce the following rules and regulations to be in effect at each of our colleges which are to be administered in accordance with the requirements of due process as provided in the Bylaws of the Board of Trustees.

With respect to enforcement of these rules and regulations we note that the Bylaws of the Board provide that:

“THE PRESIDENT. The president, with respect to his education unit, shall:

a. Have the affirmative responsibility of conserving and enhancing the educational standards of the college and schools under his jurisdiction;
b. Be the advisor and executive agent of the Board and of his respective College Committee and as such shall have the immediate supervision with full discretionary power in carrying into effect the Bylaws, resolutions, and policies of the Board, the lawful resolutions of any of its committees and the policies, programs, and lawful resolutions of the several faculties;
c. Exercise general superintendence over the concerns, officers, employees, and students of his educational unit.”

I. Rules

1. A member of the academic community shall not intentionally obstruct and/or forcibly prevent others from the exercise of their rights. Nor shall he interfere with the institution’s educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution’s instructional, personal, administrative,
recreational, and community services.

2. Individuals are liable for failure to comply with lawful directions issued by representatives of the University/college when they are acting in their official capacities. Members of the academic community are required to show their identification cards when requested to do so by an official of the college.

3. Unauthorized occupancy of University/college facilities or blocking access to or from such areas is prohibited. Permission from appropriate college authorities must be obtained for removal, relocation, and use of University/college equipment and/or supplies.

4. Theft from, or damage to, University/college premises of property, or theft of or damage to property of any person on University/college premises is prohibited.

5. Each member of the academic community or an invited guest has the right to advocate his position without having to fear abuse, physical, verbal, or otherwise, from others supporting conflicting points of view. Members of the academic community and other persons on the college grounds shall not use language or take actions reasonably likely to provoke or encourage physical violence by demonstrators, those demonstrated against, or spectators.

6. Action may be taken against any and all persons who have no legitimate reason for their presence on any campus within the University/college, or whose presence on any such campus obstructs and/or forcibly prevents others from the exercise of their rights or interferes with the institution’s educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution’s instructional, personal, administrative, recreational, and community services.

7. Disorderly or indecent conduct on University/college-owned or controlled property is prohibited.

8. No individual shall have in his possession a rifle, shotgun, or firearm or knowingly have in his possession any other dangerous instruments or material that can be used to inflict bodily harm on an individual or damage upon a building or the grounds of the University/college without the written authorization of such educational institution. Nor shall any individual have in his possession any other instrument or material which can be used and is intended to inflict bodily harm on any individual or damage upon a building or the grounds of the University/college.

9. Any action or situation which recklessly or intentionally endangers mental or physical health or involves the forced consumption of liquor or drugs for the purpose of initiation into or affiliation with any organization is prohibited.

10. The unlawful manufacture, distribution, dispensation, possession, or use of illegal drugs or other controlled substances by University students or employees on University/college premises, or as part of any University/college activities is prohibited. Employees of the University must also notify the College Personnel Director of any criminal drug statute conviction for a violation occurring in the workplace not later than five (5) days after such conviction.

11. The unlawful possession, use, or distribution of alcohol by students or employees on University/college premises or as part of any University/college activities is prohibited.

II. Penalties

1. Any student engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to the following range of sanctions as hereafter defined in the attached Appendix: admonition, warning, censure, disciplinary probation, restitution, suspension, expulsions, ejection, and/or arrest by the civil authorities.
2. Any tenured or non-tenured faculty member, or other member of the instructional staff, or member of the classified staff engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to the following range of penalties: warning, censure, restitution, fine not exceeding those permitted by law or by the Bylaws of The City University of New York or suspension with/without pay pending a hearing before an appropriate college authority, dismissal after a hearing, ejection, and/or arrest by the civil authorities, and, for engaging in any manner in conduct prohibited under substantive Rule 10, may, in the alternative, be required to participate satisfactorily in an appropriately licensed drug treatment or rehabilitation program. A tenured or non-tenured faculty member, or other member of the instructional staff, or member of the classified staff charged with engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be entitled to be treated in accordance with applicable provisions of the Education Law, or the Civil Service Law, or the applicable collective bargaining agreement, or the Bylaws or written policies of The City University of New York.

3. Any visitor, licensee, or invitee engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to ejection and/or arrest by the civil authorities.

4. Any organization which authorized the conduct prohibited under substantive Rules 1-11 shall have its permission to operate on campus rescinded.

Penalties 1-4 shall be in addition to any other penalty provided by law or The City University Trustees.

Appendix

Sanctions Defined:

A. ADMONITION. An oral statement to the offender that he has violated university rules.

B. WARNING. Notice to the offender, orally or in writing, that continuation or repetition of the wrongful conduct, within a period of time stated in the warning, may cause far more severe disciplinary action.

C. CENSURE. Written reprimand for violation of specified regulation, including the possibility of more severe disciplinary sanction in the event of conviction for the violation of any University regulation within a period stated in the letter of reprimand.

D. DISCIPLINARY PROBATION. Exclusion from participation in privileges or extracurricular University activities as set forth in the notice of disciplinary probation for a specified period of time.

E. RESTITUTION. Reimbursement for damage to or misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damages.

F. SUSPENSION. Exclusion from classes and other privileges or activities as set forth in the notice of suspension for a definite period of time.

G. EXPULSION. Termination of student status for an indefinite period. The conditions for readmission, if any is permitted, shall be stated in the order of expulsion.

H. COMPLAINT TO CIVIL AUTHORITIES.

I. EJECTION.

The bursar’s office collects all tuition and fees in accordance with CUNY policies and procedures set forth by the Federal, State and City Governments.

Method of Payment for Tuition and Fees Students may pay for tuition and fees by cash, check, money order in person at the cashier windows, through the mail using a money order or check or online using acceptable credit cards (MasterCard, American Express or Discover) or an EFT from a bank account. All checks and money orders must be made payable Hunter College in U.S. currency only. Details concerning payment options are available online at www.hunter.cuny.edu/bursar.

A tuition payment plan can be arranged through TuitionPay for an $18 fee. TuitionPay permits students to pay semester expenses over a five-month period for the Fall and Spring terms and a three-month period for the Summer term.

For more information, please log on to www.tuitionpay.com or call 1-866-267-CUNY.

Financial Obligations Students are expected to settle their bill by the college’s designated due dates. Pursuant to CUNY policy, students who have unsettled bills are cancelled for non-payment. Student accounts that remain unpaid for one year or more are turned over to the university’s collection agency. Students who have an unpaid balance or have not completed entrance/exit interviews for loan programs or other specific requirements of the college or an appropriate state or federal agency for which the university acts as either a disbursing or certifying agent will not be permitted to register for classes or obtain a transcript.

The bursar’s office collects all tuition and fees in accordance with CUNY policies and procedures set forth by the Federal, State and City Governments.

Bylaws of the Board of Trustees

Article XV - Students

Section 15.0 Preamble

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society. Student participation, responsibility, academic freedom, and due process are essential to the operation of the academic enterprise. As members of the academic community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth.

Freedom to learn and to explore major social, political, and economic issues are necessary adjuncts to student academic freedom, as is freedom from discrimination based on racial, ethnic, religious, sex, political, and economic differentiations.
Freedom to learn and freedom to teach are inseparable facets of academic freedom. The concomitant of this freedom is responsibility. If members of the academic community are to develop positively in their freedom; if these rights are to be secure, then students should exercise their freedom with responsibility.

Section 15.1 Conduct Standard Defined

Each student enrolled or in attendance in any college, school, or unit under the control of the board and every student organization, association, publication, club, or chapter shall obey the laws of the City, State, and Nation, and the bylaws and resolutions of the board, and the policies, regulations, and orders of the college.

The faculty and student body at each college shall share equally the responsibility and the power to establish subject to the approval of the board more detailed rules of conduct and regulations in conformity with the general requirement of this article.

This regulatory power is limited by the right of students to the freedoms of speech, press, assembly, and petition as applied to others in the academic community and to citizens generally.

Section 15.2. Student Organizations

a. Any group of students may form an organization, association, club, or chapter by filing with the duly elected student government organization of the college or school at which they are enrolled or in attendance and with an officer to be designated by the faculty of the college or school at which they are enrolled or in attendance (1) the name and purposes of the organization, association, club, or chapter, (2) the names and addresses of its president and secretary or other officers corresponding in function to president and secretary.

However, no group, organization, or student publication with a program against the religion, race, ethnic origin, or identification or sex of a particular group or which makes systematic attacks against the religion, race, ethnic origin or sex of a particular group shall receive support from any fees collected by the college or be permitted to organize or continue at any college or school. No organizations, military or semi-military in character, not connected with established college or school courses, shall be permitted without the authorization of the faculty and the duly elected student government and the board.

b. Extra-curricular activities at each college or school shall be regulated by the duly elected student government organization to insure the effective conduct of such college or school as an institution of higher learning and for the prevention of activities which are hereafter proscribed or which violate the standards of conduct of the character set forth in bylaw 15.1. Such powers shall include:

1. The power to charter or otherwise authorize teams (excluding inter-collegiate athletics), publications, organizations, associations, clubs, or chapters, and, when appropriate in the exercise of such regulatory power, the power to refuse, suspend, or revoke any charter or other authorization for cause after hearing on notice.

2. The power to delegate responsibility for the effective implementation of its regulatory functions hereunder to any officer or committee which it may appoint. Any aggrieved student or group whose charter or other authorization has been refused, suspended, or revoked may appeal such adverse action by such officer or committee of student government to the duly elected student government. On appeal an aggrieved student or group shall be entitled to a hearing following the due process procedures as set forth in section 15.3. Following such hearing the duly elected student government shall have the authority to set aside, decrease, or confirm the adverse action.

c. Any person or organization affiliated with the college may file charges with an office of the dean of students** alleging that a student publication has systematically attacked the religion, race, ethnic origin, or
sex of a particular group, or has otherwise contravened the laws of the City, State, or Nation, or any bylaw or resolution of the board, or any policy, regulation, or order of the college, within a reasonable period of time after such occurrence. If the dean of students determines, after making such inquiries as he/she may deem appropriate, that the charges are substantial, he/she shall attempt to resolve the dispute, failing which he/she shall promptly submit the charges to the faculty-student disciplinary committee for disposition in accordance with the due process procedures of section 15.3 thereof.

If the committee sustains the charges or any part thereof against the student publication, the committee shall be empowered to (1) reprimand the publication, or (2) recommend to the appropriate funding bodies the withdrawal of budget funds. The funding body shall have the authority to implement fully, modify, or overrule the recommendations.

d. Each college shall establish a student elections review committee in consultation with the various student governments. The student elections review committee shall approve the election procedures and certify the results of elections for student governments, and student body referenda.

e. Student government elections shall be scheduled and conducted, and newly elected student governments shall take office, in accordance with policies of the board, and implementing regulations.

Student Disciplinary Procedure Bylaws of the City University of New York, as Amended by the Board of Trustees on February 24, 1992

Section 15.3. Student Disciplinary Procedures

Complaint Procedures:

a. Any charge, accusation, or allegation which is to be presented against a student, and which, if proved, may subject a student to disciplinary action, must be submitted in writing in complete detail to the office of the dean of students promptly by the individual, organization, or department making the charge.

b. The chief student affairs officer of the college or his or her designee will conduct a preliminary investigation in order to determine whether disciplinary charges should be preferred. The chief student affairs officer or his or her designee will advise the student of the charge(s) against him or her, consult with other parties who may be involved or who have information regarding the incident, and review other relevant evidence. Following this preliminary investigation, which shall be concluded within thirty (30) calendar days of the filing of the complaint, the chief student affairs officer or designee shall take one of the following actions:

   i. dismiss the matter if there is no basis for the allegation(s) or the allegation(s) does not warrant disciplinary actions. The individuals involved shall be notified that the complaint has been dismissed;

   ii. refer the matter to conciliation. If a matter is referred to conciliation the accused student shall receive a copy of the notice required pursuant to section 15.3e of this bylaw; or

   iii. prefer formal disciplinary charges.

Conciliation Conference:
c. The conciliation conference shall be conducted by the counselor in the office of the dean of students or a qualified staff or faculty member designated by the chief student affairs officer. The following procedures shall be in effect at this conference:

1. An effort will be made to resolve the matter by mutual agreement.

2. If an agreement is reached, the counselor shall report his/her recommendation to the chief student affairs officer for approval and, if approved, the complainant shall be notified.

3. If no agreement is reached, or if the student fails to appear, the counselor shall refer the matter back to the chief student affairs officer who will prefer disciplinary charges.

** Throughout these bylaws, in any college or unit where the title “dean of students” does not exist, the same shall refer to the officer performing the functions which would otherwise be performed by a dean of students.

4. The counselor is precluded from testifying in a college hearing regarding information received during the conciliation conference.

Notice of Hearing and Charges:

d. Notice of the charge(s) and of the time and place of the hearing shall be personally delivered or sent by the chief student affairs officer of the college to the student at the address appearing on the records of the college, by registered or certified mail and by regular mail. The hearing shall be scheduled within a reasonable time following the filing of the charges or the conciliation conference. Notice of at least five business days shall be given to the student in advance of the hearing unless the student consents to an earlier hearing.

e. The notice shall contain the following:

1. A complete and itemized statement of the charge(s) being brought against the student including the rule, bylaw or regulation he/she is charged with violating, and the possible penalties for such violation.

2. A statement that the student has the following rights:

   i. to present his/her side of the story;

   ii. to present witnesses and evidence on his/her behalf;

   iii. to cross-examine witnesses presenting evidence against the student;

   iv. to remain silent without assumption of guilt; and

   v. to be represented by legal counsel or an advisor at the student’s expense.

3. A warning that anything the student says may be used against him/her at a non-college hearing.

**Faculty-Student Disciplinary Committee Procedures:**

f. The following procedures shall apply at the hearing before the faculty-student disciplinary committee:

1. The chairperson shall preside at the hearing. The chairperson shall inform the student of the charges, the hearing procedures and his or her rights.
2. After informing the student of the charges, the hearing procedures, and his or her rights, the chairperson shall ask the student charged to plead guilty or not guilty. If the student pleads guilty, the student shall be given an opportunity to explain his/her actions before the committee. If the student pleads not guilty, the college shall present its case. At the conclusion of the college’s case, the student may move to dismiss the charges. If the motion is denied by the committee the student shall be given an opportunity to present his or her defense.

3. Prior to accepting testimony at the hearing, the chairperson shall rule on any motions questioning the impartiality of any committee member or the adequacy of the notice of the charge(s). Subsequent thereto, the chairperson may only rule on the sufficiency of the evidence and may exclude irrelevant, immaterial or unduly repetitive evidence. However, if either party wishes to question the impartiality of a committee member on the basis of evidence which was not previously available at the inception of the hearing, the chairperson may rule on such a motion. The chairperson shall exclude all persons who are to appear as witnesses, except the accused student.

4. The college shall make a record of each fact-finding hearing by some means such as a stenographic transcript, a tape recording or the equivalent. A disciplined student is entitled upon request to a copy of such a transcript, tape or equivalent without cost.

5. The student is entitled to a closed hearing but has the right to request an open public hearing. However, the chairperson has the right to hold a closed hearing when an open public hearing would adversely affect and be disruptive of the committee’s normal operations.

6. The college bears the burden of proving the charge(s) by a preponderance of the evidence.

7. The role of the faculty-student disciplinary committee is to listen to the testimony, ask questions of the witnesses, review the testimony and evidence presented at the hearing and the papers filed by the parties and render a determination as to guilt or innocence. In the event the student is found guilty, the committee shall then determine the penalty to be imposed.

8. At the end of the fact-finding phase of the hearing, the student may introduce additional records, such as character references. The college may introduce a copy of the student’s previous disciplinary record, where applicable, provided the student was shown a copy of the record prior to the commencement of the hearing. The disciplinary record shall be submitted to the committee in a sealed envelope and shall not be opened until after the committee has made its findings of fact. In the event the student has been determined to be guilty of the charge or charges the records and documents introduced by the student and the college shall be opened and used by the committee for dispositional purposes, i.e. to determine an appropriate penalty if the charges are sustained.

9. The committee shall deliberate in closed session. The committee’s decision shall be based solely on the testimony and evidence presented at the hearing and the papers filed by the parties.

10. The student shall be sent a copy of the faculty-student disciplinary committee’s decision within five days of the conclusion of the hearing. The decision shall be final subject to the student’s right of appeal.

11. Where a student is represented by legal counsel the president of the college may request that a lawyer from the general counsel’s office appear at the hearing to present the college’s case.

Section 15.4 Appeals

An appeal from the decision of the faculty-student disciplinary committee may be made to the president, who may confirm or decrease the penalty but not increase it. His/her decision shall be final except in the case of dismissals or
suspension for more than one term. An appeal from a decision of dismissal or suspension for more than one term may be made to the appropriate committee of the board. Any appeal under this section shall be made in writing within fifteen days after the delivery of the decision appealed from. This requirement may be waived in a particular case for good cause by the president or board committee as the case may be. If the president is a party to the dispute, his/her functions with respect to an appeal shall be discharged by an official of the university to be appointed by the chancellor.

Section 15.5 Committee Structure

a. Each faculty-student disciplinary committee shall consist of two faculty members and two student members and a chairperson. A quorum shall consist of the chair and any two members. Hearings shall be scheduled at a convenient time and efforts shall be made to insure full student and faculty representation.

b. The president shall select in consultation with the head of the appropriate campus governance body or where the president is the head of the governance body, its executive committee, three (3) members of the instructional staff of that college to receive training and to serve in rotation as chair of the disciplinary committees. If none of the chairpersons appointed from the campus can serve, the president, at his/her discretion, may request that a chairperson be selected by lottery from the entire group of chairpersons appointed by other colleges. The chairperson shall preside at all meetings of the faculty/student disciplinary committee and decide and make all rulings for the committee. He/she shall not be a voting member of the committee but shall vote in the event of a tie.

c. The faculty members shall be selected by lot from a panel of six elected annually by the appropriate faculty body from among the persons having faculty rank or faculty status. The student members shall be selected by lot from a panel of six elected annually in an election in which all students registered at the college shall be eligible to vote. In the event that the student or faculty panel or both are not elected, or if more panel members are needed, the president shall have the duty to select the panel or panels which have not been elected. No individuals on the panel shall serve on the panel for more than two consecutive years.

d. In the event that the chairperson cannot continue, the president shall appoint another chairperson. In the event that a student or faculty seat becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the faculty or student panel by lottery.

e. Persons who are to be participants in the hearings as witnesses or have been involved in preferring the charges or who may participate in the appeals procedures or any other person having a direct interest in the outcome of the hearing shall be disqualified from serving on the committee.

Section 15.6 Suspension or Dismissal

The board reserves full power to dismiss or suspend a student, or suspend a student organization for conduct which impedes, obstructs, or interferes with the orderly and continuous administration and operation of any college, school, or unit of the university in the use of its facilities or in the achievement of its purposes as an educational institution.

The chancellor or chancellor’s designee, president or any dean may, in emergency or extraordinary circumstances, temporarily suspend a student, or temporarily suspend the privileges of a student organization or group for cause, pending an early hearing as provided in bylaw section 15.3 to take place within not more than seven (7) school days. Prior to the commencement of a temporary suspension of a student, the college shall give such student oral or written notice of the charges against him/her and, if he/she denies them, the college shall forthwith give such student an informal oral explanation of the evidence supporting the charges and the student may present informally his/her explanation or theory of the matter. When a student’s presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process, notice and opportunity for denial and explanation may follow suspension, but shall be given as soon as feasible thereafter.
Section 15.7 The University Student Senate

There shall be a university student senate responsible, subject to the board, for the formulation of university-wide student policy relating to the academic status, role, rights, and freedoms of the student. The authority and duties of the university student senate shall not extend to areas of interest which fall exclusively within the domain of the student governments of the constituent units of the university. Consistent with the authority of the board of trustees in accordance with the education law and the bylaws of the board of trustees, the university student senate shall make its own bylaws providing for the election of its own officers, the establishment of its own rules and procedures, for its internal administration and for such other matters as is necessary for its existence. The university student senate shall have the full rights and responsibilities accorded student organizations as provided in these bylaws. The delegates and alternate delegates to the university student senate shall be elected by their respective constituencies, or by their student governments from the elected members of the respective student governments.

Section 15.8 College Governance Plans

The provisions in a duly adopted college governance plan shall not be inconsistent with the provisions contained in this article.

Article XVI – Student Activity Fees and Auxiliary Enterprises

Section 16.1 Student Activity Fee

The student activity fee is the total of the fees for student government and other student activities. Student activity fees, including student government fees collected by a college of the university, shall be deposited in a college central depository and, except where earmarked by the board, allocated by a college association budget committee subject to review by the college association as required in these bylaws.

Section 16.2 Student Activity Fees Use — Expenditure Categories

Student activity fee funds shall be allocated and expended only for the following purposes:

1. Extracurricular educational programs;
2. Cultural and social activities;
3. Recreational and athletic programs;
4. Student government;
5. Publications and other media;
6. Assistance to registered student organizations;
7. Community service programs;
8. Enhancement of the college and university environment;
9. Transportation, administration and insurance related to the implementation of these activities;
10. Student services to supplement or add to those provided by the university;
11. Stipends to student leaders.

Section 16.3 Student Government Fee

The student government fee is that portion of the student activity fee levied by resolution of the board which has been established for the support of student government activities. The existing student government fees now in effect shall continue until changed. Student government fees shall be allocated by the duly elected student government or each student government where more than one duly elected student government exists, for its own use and for the use of student organizations, as specified in section 15.2 of these bylaws, provided, however, that the allocation is based on a budget approved by the duly elected student government after notice and hearing, subject to the review of the college association. Where more than one duly elected student government exists, the college association shall apportion the student government fees to each student government in direct proportion to the amount collected from members of each student government.

Section 16.4 Student Government Activity Defined

Student government activity is any activity operated by and for the students enrolled at any unit of the university, provided (1) that such activity is for the direct benefit of students enrolled at the college, (2) that participation in the activity and the benefit thereof is available to all students enrolled in the unit or student government thereof, and (3) that the activity does not contravene the laws of the city, state, or nation, or the published rules, regulations, and orders of the university or the duly established college authorities.

Section 16.5 College Association

a. The college association shall have responsibility for the supervision and review over college student activity fee supported budgets. All budgets of college student activity fees, except where earmarked by the board to be allocated by another body, should be developed by a college association budget committee and recommended to the college association for review by the college association prior to expenditure. The college association shall review all college student activity fees, including student government fee allocations and expenditures, for conformance with the expenditure categories defined in section 16.2 of this article and the college association shall disapprove any allocation or expenditure it finds does not so conform or is inappropriate, improper, or inequitable.

b. A college association shall be considered approved for purposes of this article if it consists of thirteen (13) members, its governing documents are approved by the college president and the following requirements are met:

1. The governing board of the college association is composed of:

   i. The college president or his/her designee as chair

   ii. Three administrative members appointed by the college president
iii. Three faculty members appointed by the college president from a panel whose size is twice the number of seats to be filled and the panel is elected by the appropriate college faculty governance body.

iv. Six student members comprised of the student government president(s) and other elected students with the student seats allocated on a basis which will provide representation to each government, where more than one exists, as nearly as practicable in proportion to the student activity fees provided by the students from the respective constituencies.

2. The college association structure provides a budget committee composed of members of the governing board, at least a majority of whom are students selected in accordance with section 16.5(b) (1)(iv) of these bylaws. The budget committee shall be empowered to receive and review student activity fee budget requests and to develop a budget subject to the review of the college association. The college association may choose to not approve the budget or portions of the budget if in their opinion such items are inappropriate, improper, or inequitable. The budget shall be returned to the budget committee with the specific concerns of the college association noted for further deliberation by the budget committee and subsequent resubmittal to the college association. If the budget is not approved within thirty (30) days those portions of the budget voted upon and approved by the college association board will be allocated. The remainder shall be held until the college association and the budget committee agree.

3. The governing documents of the college association have been reviewed by the board’s general counsel and approved by the board.

Section 16.6 Management and Disbursement of Funds

The college and all student activity fee allocating bodies shall employ generally accepted accounting and investment procedures in the management of all funds. All funds for the support of student activities are to be disbursed only in accordance with approved budgets and be based on written documentation. A requisition for disbursement of funds must contain two signatures; one, the signature of a person with responsibility for the program; the other, the signature of an approved representative of the allocating body.

Section 16.7 Revenues

All revenues generated by student activities funded through student activity fees shall be placed in a college central depository subject to the control of the allocating body. The application of such revenues to the account of the income generating organization shall require the specific authorization of the allocating body.

Section 16.8 Fiscal Accountability Handbook

The chancellor or his/her designee shall promulgate regulations in a fiscal accountability handbook, to regulate all aspects of the collection, deposit, financial disclosure, accounting procedures, financial payments, documentation, contracts, travel vouchers, investments and surpluses of student activity fees and all other procedural and documentary aspects necessary, as determined by the chancellor or his designee to protect the integrity and accountability of all student activity fee funds.

Section 16.9 College Purposes Fund

a. A college purposes fund may be established at each college and shall be allocated by the college president. This fund may have up to twenty-five (25) percent of the unearmarked portion of the student activity fee
earmarked to it by resolution of the board, upon the presentation to the board of a list of activities that may be properly funded by student activity fees that are deemed essential by the college president.

b. Expenditures from the college purposes fund shall be subject to full disclosure under section 16.13 of these bylaws.

c. Referenda of the student body with respect to the use and amount of the college purposes fund shall be permitted under the procedures and requirements of section 16.12 of these bylaws.

Section 16.10 Auxiliary Enterprise Board

a. The auxiliary enterprise board shall have responsibility for the oversight, supervision and review over college auxiliary enterprises. All budgets of auxiliary enterprise funds and all contracts for auxiliary enterprises shall be developed by the auxiliary enterprise budget and contract committee and reviewed by the auxiliary enterprise board prior to expenditure or execution.

b. The auxiliary enterprise board shall be considered approved for the purposes of this article if it consists of at least eleven (11) members, its governing documents are approved by the college president, and the following requirements are met:

1. The governing board is composed of the college president or his/her designee as chair, plus an equal number of students and the combined total of faculty and administrative members.

2. The administrative members are appointed by the college president.

3. The faculty members are appointed by the college president from a panel whose size is twice the number of seats to be filled and the panel is elected by the appropriate college faculty governance body.

4. The student members are the student government president(s) and other elected students and the student seats are allocated on a basis which will provide representation to each government, where more than one exists, as nearly as practicable, in proportion to the student enrollment by headcount from the respective constituencies.

5. The auxiliary enterprise board structure provides for a budget and contract committee composed of a combined total of faculty and administrative members that is one more than the number of student members. The budget and contract committee shall be empowered to develop all contract and budget allocation proposals subject to the review and approval of the auxiliary enterprise board.

6. The governing documents of the auxiliary enterprise board have been reviewed by the board’s general counsel and approved by the board.

Section 16.11 The Review Authority of College Presidents Over Student Activity Fee Allocating Bodies and Auxiliary Enterprise Boards

a. The president of the college shall have the authority to disapprove any student activity fee, including student government fee, or auxiliary enterprise allocation or expenditure, which in his or her opinion contravenes the laws of the city, state, or nation or any bylaw or policy of the university or any policy, regulation, or order of the college. If the college president chooses to disapprove an allocation or expenditure, he or she shall consult
with the general counsel and vice chancellor for legal affairs and thereafter communicate his/her decision to the allocating body or auxiliary enterprise board.

b. The president of the college shall have the authority to suspend and send back for further review any student activity fee, including student government fee, allocation or expenditure which in his or her opinion is not within the expenditure categories defined in section 16.2 of this article. The college association shall, within ten (10) days of receiving a proposed allocation or expenditure for further review, study it and make a recommendation to the president with respect to it. The college president shall thereafter consider the recommendation, shall consult with the general counsel and vice chancellor for legal affairs, and thereafter communicate his/her final decision to the allocating body as to whether the allocation or expenditure is disapproved.

c. The chancellor or his designee shall have the same review authority with respect to university student activity fees that the college president has with respect to college student activity fees.

d. All disapprovals exercised under this section shall be filed with the general counsel and vice-chancellor for legal affairs.

e. Recipients of extramural student activity fees shall present an annual report to the chancellor for the appropriate board committee detailing the activities, benefits and finances of the extramural body as they pertain to the colleges where students are paying an extramural fee.

Section 16.12 Referenda

A referendum proposing changes in the student activity fee shall be initiated by a petition of at least ten (10) percent of the appropriate student body and voted upon in conjunction with student government elections.

a. Where a referendum seeks to earmark student activity fees for a specific purpose or organization without changing the total student activity fee, the results of the referendum shall be sent to the college association for implementation.

b. Where a referendum seeks to earmark student activity fees for a specific purpose or organization by changing the total student activity fee, the results of such referendum shall be sent to the board by the president of the college together with his/her recommendation.

c. At the initiation of a petition of at least ten (10) percent of the appropriate student body, the college president may schedule a student referendum at a convenient time other than in conjunction with student government elections.

d. Where the referendum seeks to affect the use or amount of student activity fees in the college purposes fund, the results of the referendum shall be sent to the board by the college president together with his/her recommendation.

Section 16.13 Disclosure

a. The college president shall be responsible for the full disclosure to each of the student governments of the college of all financial information with respect to student activities fees.

b. The student governments shall be responsible for the full disclosure to their constituents of all financial information with respect to student government fees.
c. The student activity fee allocating bodies shall be responsible for the full disclosure of all financial information to its membership, to the college and to the student governments with respect to all of its activities.

d. The auxiliary enterprise board shall be responsible for the full disclosure of all financial information to its membership, to the college and to the student governments with respect to auxiliary enterprises.

e. For purposes of the foregoing paragraphs, full disclosure shall mean the presentation each semester of written financial statements which shall include, but need not be limited to, the source of all fee income by constituency, income from other sources creditable to student activity fee accounts, disbursements, transfers, past reserves, surplus accounts, and contingency and stabilization funds. Certified independent audits performed by a public auditing firm shall be conducted at least once each year.

Section 16.14. Stipends

The payment of stipends to student leaders is permitted only within those time limits and amounts authorized by the board.

Center for Communication Disorders

The Hunter College Center for Communication Disorders (Speech-Language-Hearing Clinic) is located at the Brookdale Health Sciences Campus, 425 East 25 St., Room 133 North. The Center is an integral part of the Communication Sciences Program. The Center provides diagnostic and therapeutic services for a wide variety of language, speech, voice, fluency, swallowing, hearing, communication modality, and social communication disorders. Audiological services include complete audiological evaluations, auditory processing disorder testing, and auditory brainstem response assessment with state of the art instrumentation. Services are available to the Hunter College community as well as the general public. Appointments can be made by calling (212) 481-4464.

Courses in Biological Sciences

Biological Sciences

About the Department
The Department of Biological Sciences has graduate and post-graduate research programs in molecular and cell biology, cancer biology, molecular and developmental genetics, and molecular neuroscience. Students may obtain the MA from Hunter College and/or the PhD jointly from Hunter College and the City University Graduate Center. The doctoral program is designed to prepare students to cope with the radical changes in direction and experimental approaches that will characterize future developments in biology, as well as to train highly qualified research scientists who are fully equipped to teach and to direct research in a wide variety of university and industry programs in the biological sciences.

Faculty of the department are pursuing projects in the forefront of modern research. In addition to the individual research laboratories, a number of shared facilities are housed in the department. They include transmission and scanning electron microscopes, a sequencing and synthesis facility equipped with a DNA synthesizer, a peptide synthesizer, a gasphase sequencer, DNA sequencer and advanced HPLC and data processing equipment, a bioimaging facility, a fluorescence-activated cell sorter and a biopreparation facility. Several facilities are available through the chemistry department, including X-ray diffraction, NMR, mass spectroscopy and biomolecular computation. Shared modern animal facilities are also available.

## Faculty

**Adrienne Alaie, Assistant Professor;** PhD, CUNY, Science Education

**Jesus Angulo, Professor;** PhD, CUNY; Addictive Drugs and Neurochemistry of the Synapse

**Jill Bargonetti, Professor;** PhD, NYU; Molecular Mechanisms of Tumorigenesis

**Diana Bratu, Assistant Professor;** PhD, NYU Medical, 4-D Visualization of mRNA Processes

**Derrick Brazill, Associate Professor;** PhD, California (Berkeley); Mechanisms of Cell Density Sensing in Eukaryotes

**Richard L. Chappell, Professor;** PhD, Johns Hopkins; Neural Interactions of the Retina

**Jason Dictenberg, Assistant Professor;** PhD, Massachusetts Medical, Gene Expression in Synaptic Development and Plasticity

**Robert P. Dottin, Professor;** PhD, Toronto; Regulation of Gene Expression by Signal Transduction

**Laurel A. Eckhardt, Marie L. Hesselbach Professor;** PhD, Stanford; Molecular Immunology; Executive Officer, Joint Hunter/City University Graduate Center PhD Program in Biological Sciences

**Paul Feinstein, Associate Professor;** PhD, Columbia, Genetics, Embryonic Stem Cells and Neural Development

**Maria Figueiredo-Pereira, Professor;** PhD, NYU; The Ubiquitin/Proteasome Pathway in Neurodegeneration

**Marie T. Filbin, CUNY Distinguished Professor;** PhD, Bath (England); Molecular Mechanisms of Axonal Regeneration

**David A. Foster, Rosalyn Yalow Professor of Biology and Biochemistry;** PhD, Columbia; Oncogenes and Signal Transduction
Mitchell Goldfarb, Professor; PhD, MIT; Molecular Neurobiology: Functions of Fibroblast Growth Factor-Homologous Factors (FHFs) and Other Signaling Molecules

Diego Loayza, Assistant Professor; PhD, Johns Hopkins; Molecular Biology of Telomeres and Genetics

Carmen Melendez-Vasquez, Assistant Professor; PhD, London; Cytoskeletal Regulation of Myelin Formation

Benjamin Ortiz, Associate Professor; PhD, Stanford; Regulation of Chromatin Structure and its Role in T-Cell Development

Roger Persell, Associate Professor; PhD, CUNY; Interdisciplinary Approaches to Biological Concepts, Evolution of Behavior, Science Education

Weigang Qiu, Associate Professor; PhD, SUNY, Stony Brook; Evolutionary Bioinformatics and Population Genetics of Bacterial Diversity.

Shirley Raps, Professor; PhD, Illinois; Cyanobacterial Plasmids, Microcystins and Phycobilisomes, Science Education

Patricia Rockwell, Associate Professor; PhD, CUNY; Signal Transduction and Gene Expression Associated with Alzheimer’s Disease

Thomas Schmidt-Glenewinkel, Associate Professor; Dr Phil Nat, Frankfurt (Germany); Molecular Biology of Nervous System Development

Ezra Shahn, Professor; PhD, Pennsylvania; Science Education

Hualin Zhong, Assistant Professor; PhD, Rutgers; Cell Biology the Nuclear Envelope and Molecular Genetics

BIOL U89910 - Independent Doctoral Research

prereq: permission from graduate adviser

BIOL U89910 - Independent Doctoral Research

prereq: permission from graduate adviser

Hours each 15 to 150 hrs,

Credits 1 to 10 cr

(Course listed in the schedule of classes at the CUNY Graduate Center)

BIOL 790xx - Special Topics Courses

Seminar in Immunology, Cancer Research, Signal Transduction, Bioinformatics, Neurobiology, etc.

Credits 3

BIOL 60000 - Molecular Biology for Science Teachers

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes, and nucleic acids; cellular mechanisms of energy
transduction; integration and control of cell metabolism.

prereq: An undergraduate degree in Biology and a course in Organic Chemistry and permission of instructor.
Fall only

BIOL 60210 - Molecular Genetics for Science Teachers

A comparison of viral, procaryotic, and eucaryotic systems; review of classical Mendelian principles and mechanisms; bacterial DNA replication, transcription, and their control; mechanisms of gene mutation, repair, recombination, and transposition; applications of recombinant DNA technology; organization of nucleic acid into chromosomes; control of gene expression in procaryotes, in the eucaryotic cell cycle, and in cell development.

prereq: BIOL 60000 or equivalent and permission of instructor
Spring only

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor
Hours 30 hrs/wk for 4 wks,
Credits 4 cr

BIOL 61055 - Laboratory Workshop in Biology Education

A series of laboratory-intensive experimental projects, each lasting one week or more, which introduce current research techniques and include individual participation in planning, preparation, and analysis of experiments. The focus is on broad biotechnology topics such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics, and how these topics may be applied to the high school science classroom.

prereq: a graduate course in biology or permission of instructor
Hours 120 hrs,
Credits 3 cr

BIOL 62000 - Internship

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

prereq: BIOL 61000
Credits 3 months, 4 cr

BIOL 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.
prereq: BIOL 61055 or permission of instructor

**BIOL 65000 - Cell and Tissue Culture**

**BIOL 66000 - Challenging Concepts in the Biological Sciences**

Overview of research and theory related to misconceptions in biology. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

prereq: BIOL 61055, BIOL 63000, and one elective course or permission of instructor

*Hours 4 hrs, Credits 4 cr*

**BIOL 70005 - Genetics**

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

*Hours 60 lec, Credits 4 cr*

*Fall only*

**BIOL 71013 - Molecular Biology Lecture**

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

*Hours 75 hrs, Credits 5 cr*

*Fall only*

**BIOL 71014 - Molecular Biology Laboratory**

Isolation of RNA and DNA, construction and screening of DNA libraries, Southern and Northern blot analysis, cloning, DNA sequencing.

coreq: BIOL 71013 or comparable course in biochemistry

*Hours 105 hrs lab and conf, Credits 4 cr*

*Fall only*

**BIOL 71401 - Cell Biology**

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.
prereq: undergraduate organic chemistry or biochemistry

Hours 60 hrs,
Credits 4 cr
spring only

BIOL 72202 - Endocrinology

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,
Credits 4 cr
Spring only

BIOL 77006 - Fine Structure of Cells

BIOL 77101 - Analysis of Mammalian Cells in Tissue Culture

BIOL 79049 - Computational Molecular Biology

An introduction to bioinformatics theories and practices. Topics include database searching, sequence alignment, molecular phylogenetics, structure predication, and microarray analysis. The course is held in a UNIX-based instructional lab specifically configured for bioinformatics applications. Each session consists of instruction on bioinformatics theories and hands-on exercises.

This course is designed for upper-level undergraduates and graduate students. Prior experiences in the UNIX Operating System and at least one programming language are required.

prereq: CSCL132 (Practical Unix and Perl Programming) and BIOL 300 (Biochemistry), or permission by the instructor.

spring only

BIOL 79051 - Neuroscience I

Given at CUNY Graduate Center. Comprehensive introduction to neuroscience with regard to structure and function at the cellular level.

fall onlyStudents must register for Neuroscience I at City College of CUNY.

BIOL 79051 - Seminar
Seminars may be offered in any of the following areas: cell biology, genetics, biochemistry, molecular genetics, physiology, developmental biology, neuroscience, biotechnology, and other special topics.

**prereq:** BIOL 70005 and BIOL 71013

**Fall and Spring**

**BIOL 79070 - Neuroscience II**

Given at CUNY Graduate Center. Introduction to sensory and motor systems and to neural behavioral development.

*spring only*

**BIOL 79099 - Seminar**

Seminars may be offered in any of the following areas: cell biology, genetics, biochemistry, molecular genetics, physiology, developmental biology, neuroscience, biotechnology, and other special topics.

**prereq:** BIOL 70005 and BIOL 71014

**BIOL 79202 - Tutorial**

**prereq:** permission of graduate adviser

Hours 30 or 60 hrs,
Credits 2 or 4 cr

**BIOL 79204 - Tutorial**

**prereq:** permission of graduate adviser

Hours 30 or 60 hrs,
Credits 2 or 4 cr

**BIOL 79910 - Thesis Research-MA**

**prereq:** permission of graduate adviser

Hours 15, 30, or 45 hrs,
Credits 1, 2, or 3 cr, respectively

**BIOL 79920 - Thesis Research-MA**

**prereq:** perm grad adviser

Hours 15, 30, or 45 hrs,
Credits 1, 2, or 3 cr, respectively

**BIOL 79930 - Thesis Research-MA**

**prereq:** permission of graduate adviser

Hours 15, 30, or 45 hrs,
Credits 1, 2, or 3 cr, respectively
Courses in Chemistry

Chemistry

About the Department

The Department of Chemistry offers a range of graduate educational opportunities with strengths in both the fundamental areas of the discipline and in emerging fields and applications. Students may obtain the PhD degree from Hunter College jointly with the City University of New York (CUNY) Graduate Center with concentrations in: Analytical Chemistry, Inorganic Chemistry, Organic Chemistry, Physical Chemistry, Biophysical Chemistry, Biochemistry, Nano-technology and Materials Chemistry and Environmental Chemistry. In any subdiscipline, PhD students can opt for an interdisciplinary radiochemistry component that is funded by a National Science Foundation Integrative Graduate Education and Research Training (NSF-IGERT) program. Additionally, students may also obtain the MA degree in Biochemistry jointly offered by the Department of Chemistry and the Department of Biology from Hunter College, or an MA in education jointly offered by the Department of Chemistry and the School of Education of Hunter College. Graduate level courses are offered at Hunter College and in the CUNY Graduate Center. Master’s programs can be completed as a full or part–time student, with or without a research thesis. Most graduate courses are offered in the evening to facilitate enrollment of part–time students.

A major goal of our graduate programs is to train research scientists to create new knowledge that impacts both fundamental scientific principles and addresses societal needs. The continuing success and future development of most areas in academic, industrial, and government institutions will increasingly depend on a well-trained science workforce for innovation, planning, and policy. The vibrant and well-funded research labs of our faculty in the Department of Chemistry at Hunter College provide the essential part of research training of the graduate programs. Students in Ph.D. program are expected to start their independent research at the end of the first year of study, and to complete their thesis on an original research subject under the supervision of our faculty. Students can also opt to pursue an independent pedagogical research project as part of their thesis research. The research activities are further supported by an array of shared facilities and the state-of-art instruments including the NMR facility, the X-ray crystallography and electron microscope facility and the Mass-spectrometry facility. Other facilities and instruments are available in the Department of Biosciences and in the NIH funded Hunter Gene center.

Programs and Courses

Programs and Courses in Chemistry

Program for Teachers of Adolescent Education (Grades 7-12) – Chemistry TEP MA

See the School of Education section of this catalog for additional information on admission and program requirements.

Doctor of Philosophy

Students are encouraged to apply directly to the PhD program, which is offered in conjunction with the CUNY Graduate School and University Center. PhD dissertation research is carried out in the Hunter College Department of Chemistry.
A PhD in biochemistry is also offered in conjunction with the CUNY Graduate School and University Center. For further information contact Professor Akira Kawamura, 1312 North Building, (212) 650-3095 or visit the website at http://www.gc.cuny.edu.

Yujia Xu, Associate Professor; PhD, Connecticut; Biophysics; Member of Doctoral Faculty Chemistry, Biochemistry

Shengping Zheng, Assistant Professor; PhD, Columbia; Organic Chemistry; Member of Doctoral Faculty Chemistry

CHEM U79000 - Basic Laboratory Techniques for Research in Biochemistry

Lecture and laboratory work dealing with the theories and applications of modern approaches to the solution of chemical problems.

Credits 4 cr

CHEM U79500 - First Level Doctoral Laboratory Research

Hours to be arranged, credits variable.

CHEM U81010 - Research for the Doctoral Dissertation

Credits credits variable, one or more credits per semester
Offered at The Graduate Center

CHEM U81040 - Research for the Doctoral Dissertation

Credits credits variable, one or more credits per semester
Offered at The Graduate Center

CHEM 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

prereq: permission of instructor
Credits 3

CHEM 64000 - Biochemistry 1

Credits lec., 3 cr
CHEM 64000 - Biochemistry I

Proteins, enzymes, bioenergetics, recombinant DNA.

_prereq:_ 1 yr of undergraduate organic chemistry
_Hours 3 hrs,
_Credits 3 cr
_fallCHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020._

CHEM 64100 - Biochemistry 2

Metabolism, biomedical genetics, immuno-biochemistry, hormones, muscle biochemistry.

_prereq: CHEM 64000 or BIO 71013 or 30000
_Credits lec., 3 cr

CHEM 64100 - Biochemistry II

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

_prereq: CHEM 64000 or BIO 71013 or 30000
_Hours 3 hrs,
_Credits 3 cr
_SpringCHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020

CHEM 64300A - Seminar

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

_Credits 1 cr

CHEM 64300B - Seminar

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

_Credits 1 cr

CHEM 65000 - Biophysical Biochemistry

Physical chemistry as applied to biochemical systems.

_Credits 4 cr

CHEM 65000 - Biophysical Chemistry

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.
CHEM 65500 - Demonstrations, Models, and Technology

Demonstrations, models, and technology.

Credits 3 cr

CHEM 66000 - Challenging Concepts in Chemistry

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

Hours 4 hrs,
Credits 4 cr

CHEM 69803 - Chemical Genomics

The advent of high-throughput technologies and powerful computational tools is transforming the manner new drugs are developed. This course (bioinformatics) is designed to introduce students to two emerging areas of drug development, namely (1) computer-assisted drug design and (2) personalized medicine. Computer-assisted drug design is an approach to design drugs based on three dimensional structures of macromolecules. Personalized medicine, on the other hand, aims at tailoring patient treatments based on individual genetic information (biomarkers). In this course, students will be first equipped with fundamental theoretical and experimental concepts related to these topics. Then, they will learn how to acquire new knowledge in these exciting fields of drug development through critical analysis of literature.

Hours 3
Credits 3

CHEM 71000 - Advanced Inorganic Chemistry

The theoretical and experimental fundamentals of atomic and molecular structure. Emphasis is on physical interpretation.

prereq: an advanced undergraduate inorganic chemistry course or CHEM 76000
Hours 45 hrs,
Credits 3 cr

CHEM 75000 - Advanced Organic Chemistry I

Fundamentals of organic chemical principles, reactions and structures.

Hours 45 hrs,
Credits 3 cr

CHEM 75100 - Advanced Organic Chemistry II

prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent
Hours 4 hrs,
Credits 4 cr
A continuation of CHEM 75000

*Hours 45 hrs, 
*Credits 3 cr*

**CHEM 75200 - Quantum Organic Chemistry**

The application of modern theoretical techniques to organic chemical problems

*prereq: CHEM 75000 and CHEM 76000
*Hours 45 hrs, 
*Credits 3 cr*

**CHEM 76000 - Introductory Quantum Chemistry**

Systematic development of the theories of chemistry including mathematical development and structural effects and the application of these theories to chemical systems.

*Hours 45 hrs, 
*Credits 3 cr*

**CHEM 76100 - Spectroscopy**

A continuation of CHEM 76000

*Hours 45 hrs, 
*Credits 3 cr*

**CHEM 77000 - Chemical Thermodynamics**

The development of the thermodynamic foundations of chemical processes: both the classical and statistical-mechanical approaches will be used.

*Hours 45 hrs, 
*Credits 3 cr*

**CHEM 79900 - Thesis Research**

Individual research under supervision. Limited to students matriculated for the MA in chemistry.

*Credits 3 cr 
*permission of department required*

**CUNY Policy on Academic Integrity**

Academic dishonesty is prohibited in The City University of New York and is punishable by penalties, including failing grades, suspension, and expulsion, as provided herein.
I. Definitions and Examples of Academic Dishonesty

**Cheating** is the unauthorized use or attempted use of material, information, notes, study aids devices or communication during an academic exercise.

The following are some examples of cheating, but by no means is it an exhaustive list:

- Copying from another student during an examination or allowing another to copy your work.
- Unauthorized collaboration on a take home assignment or examination.
- Using notes during a closed book examination.
- Taking an examination for another student, or asking or allowing another student to take an examination for you.
- Changing a graded exam and returning it for more credit.
- Submitting substantial portions of the same paper to more than one course without consulting with each instructor.
- Preparing answers or writing notes in a blue book (exam booklet) before an examination.
- Allowing others to research and write assigned papers or do assigned projects, including use of commercial term paper services.
- Giving assistance to acts of academic misconduct/dishonesty.
- Fabricating data (all or in part).
- Submitting someone else’s work as your own.
- Unauthorized use during an examination of any electronic devices such as cell phones, palm pilots, computers or other technologies to retrieve or send information.

**Plagiarism** is the act of presenting another person’s ideas, research or writings as your own.

The following are some examples of plagiarism, but by no means is it an exhaustive list:

- Copying another person’s actual words without the use of quotation marks and footnotes attributing the words to their source.
- Presenting another person’s ideas or theories in your own words without acknowledging the source.
- Using information that is not common knowledge without acknowledging the source.
- Failing to acknowledge collaborators on homework and laboratory assignments.

**Internet Plagiarism** includes submitting downloaded term papers or parts of term papers, paraphrasing or copying information from the internet without citing the source, and “cutting & pasting” from various sources without proper attribution.
Obtaining Unfair Advantage is any activity that intentionally or unintentionally gives a student an unfair advantage in his/her academic work over another student.

The following are some examples of obtaining an unfair advantage, but by no means it is an exhaustive list:

- Stealing, reproducing, circulating or otherwise gaining advance access to examination materials.
- Depriving other students of access to library materials by stealing, destroying, defacing, or concealing them.
- Retaining, using or circulating examination materials which clearly indicate that they should be returned at the end of the exam.
- Intentionally obstructing or interfering with another student’s work.

Falsification of Records and Officials Documents

The following are some examples of falsification, but by no means is it an exhaustive list:

- Forging signatures of authorization.
- Falsifying information on an official academic record.
- Falsifying information on an official document such as a grade report, letter of permission, drop/add form, ID card or other college document.

Adapted with permission from Baruch College: A Faculty Guide to Student Academic Integrity. The Baruch College document includes excerpts from University of California’s web page entitled “The Academic Dishonesty Question: A guide to an Answer through Education, Prevention, Adjudication and Obligation” by Prof. Harry Nelson.

Hunter College Policy on Academic Integrity

To initiate the procedure for addressing an allegation of academic dishonesty, faculty members must first determine if they are seeking an academic sanction or a disciplinary sanction. An academic sanction involves a grade penalty only (i.e., a reduced grade); a disciplinary sanction involves various penalties, which may include a grade penalty.

I. Procedure for Academic Sanctions

A. When the faculty member suspects academic dishonesty and wants only an academic sanction, the professor should first confer with the student. If the student admits to the violation, the instructor should inform the student of the grade penalty and report the action taken on the “Report Form: Academic Dishonesty-Academic Sanctions” to the Hunter College Academic Integrity Official, currently, Dean Michael Escott, in the Office of Student Services, room 1103 East Building.

B. If the student admits to academic dishonesty but believes the grade penalty is too severe, the instructor should fill out the appropriate line on the “Report Form: Academic Dishonesty-Academic Sanctions” and submit it to the Hunter College Academic Integrity Official. The instructor shall submit the grade at the end of the semester. At that point, the student may contest the grade sanction by appealing the course grade through the college’s grade appeal procedure. Once the student has admitted the violation, s/he may contest only the severity of the grade sanction, not the dishonesty allegation itself. If the student appeals the grade, the departmental and Senate grade appeals committees should send copies of their findings to the Hunter College
Academic Integrity Official.

C. If the student denies the allegation of academic dishonesty, the faculty member will report that this is the student’s position on “Report Form: Academic Dishonesty–Academic Sanctions.” The matter will then be reviewed and a judgment rendered by the Academic Integrity Review Committee (described below).

D. Students who either admit to an act of academic dishonesty or are found to have committed one by the Academic Integrity Review Committee will receive a letter from Hunter College Academic Integrity Official notifying them that this matter has been reported to the Office of Student Services. When an academic dishonesty accusation is resolved by the Academic Integrity Review Committee, the student and faculty member will be notified of the findings.

II. Procedure for Disciplinary Sanctions

A. If the faculty member suspects academic dishonesty and seeks a disciplinary sanction (see “Report Form: Academic Dishonesty–Disciplinary Sanctions” for a list of options), which may also include an academic sanction, the faculty member should submit the attached “Report Form: Academic Dishonesty–Disciplinary Sanctions” to the Hunter College Academic Integrity Official. (Disciplinary sanctions are not issued when only academic sanctions are sought. The college always retains the right, however, to bring disciplinary charges against the student if there is a history of academic dishonesty.)

B. The allegation against the student will then be adjudicated, as is currently done, through the CUNY Faculty Student Disciplinary Procedure. This procedure, in its entirety, can be found in Appendix E of the Hunter College Undergraduate Catalog, 2007-2010, and in Bylaws of the Board of Trustees of the Hunter College Graduate Catalog, 2006-2009.

III. Academic Integrity Review Committee

The purpose of the Academic Integrity Review Committee is to review evidence when an academic sanction is being sought and when the allegations of academic dishonesty are in dispute. The Committee will proceed in the following manner:

1. If the charge of academic dishonesty is denied by the student, the faculty member will advise the student that the matter has been referred to Hunter College Academic Integrity Official, who will initiate the fact-finding process to be conducted by the Academic Integrity Review Committee.

2. A panel of three Academic Integrity Review Committee members will be selected and convened by Hunter College Academic Integrity Official to review the evidence for each case.

3. The faculty member and student will be invited to present their case at a formal hearing, which will be conducted within 30 days of receipt of “The Report Form: Academic Dishonesty–Academic Sanctions.”

4. The committee will deliberate in closed session (i.e., with neither student nor instructor present) and submit its findings, in writing, to the Hunter College Academic Integrity Official, who will then notify the faculty member and student. Although faculty members reserve the right to submit grades whenever they deem appropriate, they are encouraged not to submit grades for the disputed work or a final course grade until they have been notified of the committee’s findings. Students may appeal the final course grade through the college’s grade appeal process.

Committee Structure:

The Academic Integrity Review Committee will be appointed by the Vice President for Student Affairs. The Hunter College Senate will nominate four faculty members and eight students to serve on this committee. The Faculty Delegate Assembly will also nominate four faculty members.
A panel of three, consisting of two faculty members and one student selected from the sixteen committee members, will be convened by the Hunter College Academic Integrity Official for each review or hearing. Faculty members and graduate students affiliated with the department, and undergraduate students majoring in the department’s programs, will not be selected to serve on that particular panel.

IV. Clarifications of the Process

All questions regarding these procedures or the college’s disciplinary process should be referred to the Hunter College Academic Integrity Official, currently, Sharmeen Ahmed (Room 1131 East Building, phone (212) 396-6484 or e-mail at sharmeen.ahmed@hunter.cuny.edu).

Complete policy and forms to report instances of suspected academic dishonesty and/or forms to request disciplinary action are available at http://www.hunter.cuny.edu senate/documents.shtml or in the office of the Vice President for Student Affairs, 1103 Hunter East.

CUNY School of Public Health Courses

COURSE LISTINGS for MPH and MS PROGRAMS

Each course is 45 hrs, including conferences, 3 credits, unless otherwise noted.
Most elective courses are offered intermittently (i.e., once every 2 years or at longer intervals). The frequency with which specific electives are offered is generally based upon student request and faculty expertise and are designed to reflect emergent issues in the field. Examples of recent elective courses are listed in this catalogue. Please consult the Schedule of Classes for current elective course listings.

CUNY School of Public Health at Hunter College

About the School

Hunter College is a consortial partner and the lead institution in the CUNY School of Public Health (SPH). The CUNY SPH is comprised of public health degree programs at Brooklyn College, Hunter College, Lehman College and the Graduate School and University Center (Graduate Center) of CUNY. Within the CUNY SPH, teaching, research and service are focused on four broad inter-related goals that reflect major health challenges in the current era:

1) creating healthier cities
2) promoting healthy aging through the lifespan
3) preventing chronic diseases and improving their management
4) promoting health equity

The graduate programs in public health at the CUNY SPH at Hunter College educate public health professionals to promote health; prevent disease among urban populations. These programs prepare students to work with the diverse populations living in cities, and to serve in a variety of settings in government, non-profit organizations, businesses and communities.

CUNY SPH at Hunter College offers a master of public health (MPH) degree, with specializations in community health education (COMHE), environmental and occupational health sciences (EOHS-MPH), epidemiology and biostatistics (EPI-BIOS), public health policy and management (HPM) and nutrition (NUTR-MPH). It also offers a Master of Science (MS) degree, with specializations in environmental and occupational sciences (EOHS-MS) and Nutrition (NUTR-MS). The MS degree in Nutrition (NUTR-MS) is an accredited didactic program in dietetics (DPD), and is designed for individuals seeking to become eligible to sit for the national registration examination in dietetics to become credentialed as a Registered Dietitian (RD). With the Hunter-Bellevue School of Nursing, it also offers an MSN/MPH degree in community health nursing. This dual-degree program is described in the School of Nursing section of this catalog.

With the Graduate Center, the CUNY SPH at Hunter College offers a doctor of public health (DPH) degree, with specializations in community society and health, epidemiology, environmental and occupational health and public health policy and management. The DPH degree program is described in the Graduate Center Catalogue. Doctoral students in some CUNY Graduate Center PhD programs, including sociology and psychology, can also earn an MPH while pursuing their doctorate.

The MPH degree is accredited by the Council on Education for Public Health (CEPH), the national educational accrediting body for public health programs in community health/preventive medicine. The EOHS-MS degree is accredited by the Accreditation Board for Engineering and Technology (ABET) and is geared towards students pursuing Certification in Industrial Hygiene. The NUTR-MS is accredited by the Commission on Accreditation of Dietetics Education (CADE), the accrediting agency of the American Dietetic Association (ADA).
During the fall and spring semesters, MPH and EOHS-MS courses are held once a week, Mondays through Thursday, in the late afternoon and evening. NUTR-MS courses are held during the day. MPH and EOHS-MS degrees can be pursued on a full or part-time basis. The NUTR-MS degree program is full-time. During the summer, there are a limited number of course offerings, which are held twice a week in the late afternoon and evening. During the January winter semester, there are a limited number of intensive courses which meet full days for one week or extended late afternoon/evening hours over a three week period.

The graduate programs at the CUNY SPH at Hunter College provide students with a broad multidisciplinary background in public, urban health and specializations in community health education, environmental and occupational health sciences, epidemiology and biostatistics, public health policy and management and public health nutrition.

Each specialization prepares students for specific job opportunities. Graduates of the community health education program plan and manage community health programs and interventions to reduce social and behavioral threats to health. Graduates of the environmental and occupational health program anticipate, identify, assess and control community and workplace exposure that jeopardize the health of populations. Graduates of the epidemiology and biostatistics program conduct health studies and apply their findings to improve population health. Graduates of the public health policy and management specialization work as analysts, managers and/or researchers to advocate for, administer, and/or analyze public health policies and programs. Public-health nutrition graduates promote the nutritional well-being of urban populations and manage community nutrition programs.

The NUTR-MPH specialization includes courses that meet the requirements of the Dietetic Internship (DI), a 1200-hour fieldwork and didactic experience accredited by CADE. Students who are accepted into the DI and successfully complete the program are eligible to sit for the national registration in dietetics to become credentialed as registered dietitians (RD). Students who enter the MPH program with a Bachelor of Science degree in nutrition that fulfills CADE competencies may simultaneously work toward the MPH degree and dietetics registration, two credentials that will increase skills and employability.

Centers

Three centers are affiliated with the academic programs in public health at Hunter College which provide opportunities the Center for Community and Urban Health the Brookdale Center on Healthy Aging and Longevity and the Center for Occupational and Environmental Health. They provide opportunities for students to become involved in demonstration projects and research through internships and independent study.

1. **The Center for Community and Urban Health** (CCUH) was founded in 1986. The center’s Director, Beatrice J. Krauss, PhD, is a full-time tenured professor at the SPH. The CCUH is dedicated to strengthening the capacity of individuals, families, organizations and populations to address and resolve contemporary community and urban health issues and concerns. The center conducts scientifically informed, interdisciplinary research and evaluation, program development, training and education, technical assistance and consultation and policy advisement. [http://www.hunter.cuny.edu/schoolhp/centers/comm_urb/index.htm](http://www.hunter.cuny.edu/schoolhp/centers/comm_urb/index.htm)

2. **The Brookdale Center for Healthy Aging & Longevity** (BCHAL) was founded in 1974 and is one of the country’s first multi-disciplinary academic centers dedicated to the advancement of successful aging and longevity. Through research, education, training and evaluation of evidence-based models of practice and policy, it plays a vital role in enhancing the quality of life of older Americans and their families. Its current focus is on contributing the knowledge that can help cities to support healthy aging. The center’s Co-Director and Director of Research, Marianne Fahs, PhD, and Associate Director for Research, William T. Gallo, PhD, are both full-time tenured faculty at the SPH. [http://www.brookdale.org/index.htm](http://www.brookdale.org/index.htm)

3. **The Center for Occupational and Environmental Health** (COEH) was founded as a research, training and educational center whose mission is to promote community and workplace health. The Hunter COEH works with community-based organizations, schools, labor unions, private employers and federal, municipal and state agencies to promote better understanding, access to information and improved skills in addressing
workplace and environmental hazards. The center’s Director, Professor Jack Caravanos, is a full-time faculty member in the SPH. Recent areas of COEH’s focus include: improving the skills of hazardous materials and emergency response workers, enhancing community-based research partnerships to address neighborhood air pollution, reducing asthma rates in New York City and training Community Health Workers. http://www.hunter.cuny.edu/health/coeh/.

In addition, Brooklyn College offers an MPH degree, with specializations in general public health and health care administration and policy; Lehman College offers an MPH degree with a specialization in community-based public health and health equity.

Barbara Berney, Associate Professor, Urban Public Health; PhD, Boston University; School Related Health Issues, Working Conditions in Healthcare, Environmental Health and Environmental Health Policy

Jack Caravanos, Associate Professor, Urban Public Health; DrPH, Columbia; Industrial Hygiene, Environmental Assessments, Hazardous Wastes

Neal L. Cohen, Distinguished Lecturer, Urban Public Health; MD, New York University School of Medicine; Public Mental Health, the Interrelationship of Physical and Mental Well-Being, Stress

Jessie Daniels, Associate Professor, Urban Public Health; PhD, University of Texas at Austin; Internet and media, racial inequality, lgbt health, adolescent health

Jennifer Dowd, Assistant Professor, Urban Public Health; Ph.D, Princeton University; Integrating biomarking into social research, health disparities, stress and immune function

Marianne Fahs, Professor, Urban Public Health; PhD, Michigan; Public Health Economics and Policy, Urban Aging

Nicholas Freudenberg, Distinguished Professor, Urban Public Health; DrPH, Columbia; Urban Public Health, HIV Prevention, Public Health Policy

Ann Gaba, Assistant Professor, Urban Public Health; EdD, Teachers College, Columbia; Movement Disorders, Cancer Prevention, and Needs Assessment for Nutrition Education

William Gallo, Professor, Urban Public Health, PhD, University of Connecticut; Health Economics, Social Epidemiology, Health Policy

Mark Goldberg, Associate Professor, Urban Public Health; PhD, NYU; Industrial Hygiene, Exposure Assessment, Construction Health and Safety

David U. Himmelstein, Professor, Urban Public Health; M.D. Columbia; health care finance and policy, health services research, health care inequality, social justice

Shiro Horiuchi, Associate Professor, Urban Public Health; Ph.D, John Hopkins; Longevity and aging, health demography, quantitative methods of data analysis

Lydia Isaac, Assistant Professor, Urban Public Health; PhD, Johns Hopkins; Racial/ethnic health disparities; Social determinants of health; Chronic diseases; and Public Policy

Heidi E. Jones, Assistant Professor, Epidemiology, Urban Public Health; MPH, Hunter College; PhD, Columbia; Reproductive Health, HIV/AIDS, Infectious Diseases

Elizabeth Kelvin, Assistant Professor, Urban Public Health; PhD, Columbia ; Epidemiology, infectious diseases, including HIV , environmental causes of disease and international health.

Susan Klitzman, Professor, Urban Public Health; DrPH, Columbia; Environmental and Occupational Health and Disease Prevention

David Kotelchuck, Associate Professor Emeritus, Urban Public Health; PhD, Cornell; Occupational Health, Industrial Hygiene, Epidemiology

Beatrice Krauss, Professor, Urban Public Health; PhD, CUNY; Community, Family and Individual Adjustment to Health Threats; HIV/AIDS
May May Leung, Assistant Professor, Urban Public Health; PhD, RD, The University of North Carolina; Childhood obesity, Health Communication, Translational research

Thomas Matte, Professor, Urban Public Health; MD, Albany, Air pollution, climate and health, health disparities

Frank Mirer, Professor, Urban Public Health; PhD, Harvard; Toxicology, occupational health and safety, risk assessment, regulatory policy

Khursheed Navder, Associate Professor, Urban Public Health; PhD, Kansas; Lipid Metabolism, Alcohol Metabolism, Sensory Evaluation of Foods

Denis Nash, Associate Professor, Epidemiology, Urban Public Health; PhD, University of Maryland; Public Health Surveillance, Health Disparities, and HIV/AIDS

Stacey Plichta, Professor, Urban Public Health; ScD, Johns Hopkins; Health Services Research, Women’s Health, Intimate partner violence, rape and sexual violence

Lynn Roberts, Assistant Professor, Urban Public Health; PhD, Cornell; Adolescent Health, Violence and Prevention, Minority Health

Diana Romero, Associate Professor, Urban Public Health; PhD, Columbia; Poverty and maternal, child and reproductive health; racial/ethnic health disparities, reproductive health policy

Renata Schiavo, Associate Professor, Urban Public Health; PhD, University of Naples, Italy, MA, New York University; Strategic health communication for behavioral, social, and organizational change; program evaluation; global health

Mary Schooling, Associate Professor, Urban Public Health, PhD, UC London

Arlene Spark, Professor, Urban Public Health; EdD, Columbia; Pediatric Nutrition, Nutrition Education, Cardiovascular Health and Promotion

Makram Talih, Associate Professor, Urban Public Health; Ph.D, Yale; Statistics, Data Analysis, Health Disparities Measurement

Lorna Thorpe, Associate Professor, Urban Public Health; Ph.D, University of Illinois at Chicago; Chronic disease epidemiology, public health surveillance, tuberculosis and injury epidemiology

Steffie Woolhandler, Professor, Urban Public Health; M.D. LSU New Orleans, MPH U.C. Berkeley; health care finance and policy, health services research, health care inequality, social justice

Ming-Chin Yeh, Associate Professor, Urban Public Health; PhD, North Carolina, Public Health Nutrition, Nutrition Intervention and Policy, Nutritional Epidemiology

Community Health Education Required Courses

COMHE 75000 - Community Health Assessment

This course prepares students to collect and analyze data on community health from a variety of sources, to identify problems and assets, and to develop objectives for community health interventions.

prereq: PH 75500
COMHE 75100 - Community Health Interventions

An introduction to community-level interventions as explained by theories of individual, organizational and community change from the disciplines of psychology, sociology and health education.

prereq: PH 75500, COMHE 75000
Credit 3

COMHE 75200 - Community Organizing and Development for Health

Prepares students to work in communities by presenting the theory and practice of organizing for social justice, skills for promoting leadership development within communities, and the tools to create and sustain healthy organizations.

prereq: PH 75000, COMHE 75000, COMHE 75100

COMHE 75300 - Health Program Planning and Funding

This course will engage students in identifying or designing a health program, finding funding sources, and developing a proposal covering program need, program objectives, a management and quality assurance plan, preliminary work, evaluation, budget, and a plan for funding support.

prereq: completion of 15 cr incl PH 75000 or 75100, PH 75500 and either COMHE 75000, COMHE 75100, COMHE 75200 or COMHE 75000 and NUTR 71000 or NURS 77100, COMHE 75100 and COMHE 75200.

Credit 3 cr

COMHE 75400 - Research and Evaluation for Community Health

Basic concepts, methods and approaches for evaluation research applied to community health education and health-related programs through a critical review of literature and a program evaluation design.

prereq: 15 cr in program incl PH 75000 or PH 75100, PH 75500, COMHE 75000, COMHE 75100, COMHE 75200
Credit 3 cr

COMHE 77025 - Maternal and Child Health

This course explores maternal and child health issues both domestically and internationally.

Community Health Education Elective Courses

COMHE 71400 - Human Sexuality

Emotional, social, and physical development related to human sexuality. Emphasis on self-understanding and awareness of own sexual nature and needs. Methods, materials, and evaluation of sex education program in community settings.
COMHE 72300 - Sexuality Through the Life Cycle: Educational and Clinical Aspects

Considers issues of gender role, gender identity, eroticism, intimacy, love, sexual orientation, social role and genital sexual expression, assists students to distinguish between normal and problematic sexual expression in various life stages.

prereq: COMHE 71400 or instructor's permission

COMHE 77000 - Topics in Community Health Education

Courses on current topics in community health education.

offered periodically

Environmental and Occupational Health Sciences Required Courses

EOHS 70200 - Introduction to Occupational Safety and Health

Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

EOHS 70500 - Environmental Chemistry

Survey of chemical and physical concepts essential for understanding environmental and occupational health sciences, including study of the atmosphere, air and water pollution, and energy resources. Physical principles of heat and energy, and radioactivity will be discussed.

EOHS 74100 - Environmental and Industrial Hygiene Laboratory

Physical, chemical, and instrumental methods for measuring environmental and occupational contaminants.

prereq or coreq: EOHS 70500
Hours 90 hrs lec and lab,
Credits 4 cr

EOHS 74700 - Hazard Evaluation and Instrumentation

An introduction to instrumental methods used to assess environmental and occupational health hazards. Principles and operation of commonly used direct reading instruments and demonstration of their application.

prereq: PH 70000, EOHS 70200

EOHS 75400 - Environment and Occupational Toxicology

Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of toxicological testing and evaluation.
prereq: PH 75400 and EOHS 70500

EOHS 75500 - Industrial Ventilation and Environmental Control

Fundamentals of industrial ventilation: air flow, local and dilution exhaust ventilation systems, hood and piping design, fan type and selection, air cleaning devices, system-testing; problem-solving; engineering controls.

EOHS 75700 - Principles of Industrial Hygiene

Recognition, evaluation, and control of industrial hazards due to chemical and physical agents. Topics include occupational health standards, regulatory agency activities, effects of contaminants on human health, sampling and control of hazards, current issues.

prereq: EOHS 70200 and 70500

EOHS 76200 - Noise and Radiation Hazards and Controls

Introduction to basic concepts of sound, noise measurement, and noise control in community and occupational environments. Health and safety problems involved with the use of ionizing and non-ionizing radiation, with an emphasis on identification and control.

prereq or coreq: EOHS 70500

EOHS 76500 - Environmental Audits and Remediation

Introduction to environmental investigation and remediation technologies commonly used in professional practice. Presents proper practices for assessing and remediating asbestos, lead-based paint, indoor air quality, and underground storage tanks situations and Phase I site audits.

prereq: PH 70000

Environmental and Occupational Health Sciences Elective Courses

EOHS 71000 - Industrial Safety and Safety Management

Fundamental concepts and principles of industrial accident prevention and loss control; safety program organization; hazard recognition and evaluation; accident investigation; machine guarding; tire protection; personal protective equipment.

EOHS 74300 - Air Resource Management

Air pollution sources, types of pollutants, transport phenomena, effects on health and on vegetation and materials; air quality monitoring, criteria, standards, and control methods.

EOHS 74500 - Hazardous Waste Management
A review of the sources, transportation and control of hazardous chemical wastes. Regulatory requirements, disposal methods and health effects will also be presented.

**EOHS 74600 - Water Resources**

Water and waste water technology related to public health. Sources of water supply, distribution, treatment, chemical, biological and physical water pollutants and their health consequences. Review of federal legislation. Field trip to waste water treatment plant.

**EOHS 75900 - Industrial Processes and Plant Visits**

A review of major industrial processes and health hazards associated with each. Includes site visits to metropolitan NY industrial facilities during working hours.

*prereq: EOHS 75700*

**EOHS 77000 - Topics in Environmental and Occupational Health Sciences**

Courses on current topics in environmental and occupational health sciences.

*Offered periodically.*

**EOHS 77500 - Indoor Air Quality**

A review of sources indoor air pollution and its evaluation and control. Topics include assessment techniques, air sampling, HVAC assessment and remediation approaches.

**Epidemiology and Biostatistics Required Courses**

**BIOS 75000 - Applied Biostatistics I**

A follow up course to PH7500 and PH75300, covering intermediate-level statistical methods commonly used in public health research. Topics include: simple and multiple linear regression; logistic regression; residual analysis; variable selection. Focus on practical applications, utilizing statistical software.

*Cross-listed STAT 75000*

*prereq: PH 75100, PH 75300*

**BIOS 75100 - Applied Biostatistics II**

A follow up course to BIOS 75000, covering intermediate and advanced statistical methods commonly used in public health research. Topics include: log linear and generalized linear models; random and mixed effects models; survival analysis. Focus on practical applications utilizing statistical software.

*Cross-listed STAT 75100*

*prereq: BIOS 75000*

**EPI 75000 - Epidemiologic Methods I: Study Research Design**
This course will provide an in depth understanding of the design and conduct of epidemiological studies, including causal inferences, measurement, major study designs, threats to validity, and urban public health applications. Examples will be based on the health of New York City residents. Prereq: .

Cross-listed GC PH 82000
prereq: PH 75100, PH 75300

EPI 75100 - Epidemiologic Methods II: Survey and Research Methods

This course will provide students with an understanding of the methods used to test research hypotheses; tools for selecting statistical tests appropriate for the particular study design and research hypotheses; and an ability to recognize the importance and impact of threat to validity such as confounding and bias. This course will also cover survey methods used in epidemiologic research.

Cross-listed GC PH 82100
prereq: EPI 75000

EPI 75200 - Applied Research: Data management and analysis

This course provides students with the opportunity to apply epidemiological and statistical concepts using several datasets to answer a given research question and test the hypotheses associated with it

prereq: BIOS 75100, EPI 75100 or instructor's permission

Epidemiology and Biostatistics Elective Courses

BIOS 75200 - Analysis of Categorical Data

An introduction to statistical models for analyzing categorical data, with emphasis on examples from the health sciences. Topics include: contingency tables and corresponding tests such as chi-square, CMH and trend test, count data, logistic regression and log-linear models.

Cross-listed STAT 75200
prereq: BIOS 75000

BIOS 75300 - Analysis of Longitudinal Data

An introduction to statistical models and methods for analyzing longitudinal data in public health. Topics include: longitudinal designs and cohort sampling, general linear models for longitudinal data, marginal & random effects models, time-dependent covariates, missing values.

Cross-listed STAT 75300
prereq: BIOS 75000

BIOS 75400 - Design and Analysis of Complex Surveys

This course provides an introduction to statistical issues in the design and analysis of complex surveys, with a particular emphasis on public health research. Topics include: basic sampling techniques, stratified and cluster sampling, non-sampling errors, and case studies.
Cross-listed STAT 75400
prereq: BIOS 75000

BIOS 75500 - Survival Analysis

An introduction to regression modeling used in the analysis of time-to-event data in epidemiological, biostatistical, and other health-related research. Topics include: survival functions, proportional-hazards, parametric and competing-risks models, missing data, using case studies.

Cross-listed STAT 75500
prereq: BIOS 75000

BIOS 75600 - Data Analysis

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics include: data summaries; transformations; the jackknife and resampling schemes; robust estimation; and robust regression methods.

Cross-listed STAT 71600
prereq: BIOS 75000

BIOS 75800 - Analysis of Variance

Intermediate topics in analysis of variance (ANOVA), with an emphasis on exploratory aspects. Topics including: one, two and many way layouts; decomposition and partitioning of variance; fixed, random, and mixed effects models; repeated measures; contrasts; multiple comparisons; and robust analogs.

Cross-listed STAT 71800
prereq: BIOS 75000

BIOS 77000 - Topics in Biostatistics

Courses on current topics in biostatistics.

Offered periodically

EPI 75400 - Social Epidemiology

This course will introduce public health and other interested graduate students to the sub-discipline of social epidemiology, including theory and methods. Specifically, students will gain an understanding of how an individual’s interactions with factors associated with the social fabric of the society affect and shape health outcomes. This class will also examine the etiology and prevention of disease within both ecological (multi-level) and multidisciplinary frameworks.

prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75500 - Epidemiology of Chronic Diseases

This course provides students with epidemiological background information for the most common chronic disease conditions. In addition, the course provides students with hands-on experience to characterize the frequency and impact of chronic diseases and their risk factors in New York City (NYC) using public data available through the Department of Health and Mental Hygiene.
EPI 75600 - Epidemiology of Infectious Diseases

This course will examine the role of epidemiology in understanding transmission, surveillance and control of infectious diseases. Special focus will be on emerging infectious diseases in urban settings.

Offered periodically.

EPI 75700 - Reproductive and Perinatal Epidemiology

This course covers current research, controversial issues, and methodological problems in the epidemiology of male and female reproduction and perinatal health. Topics include: epidemiology of fertility and infertility, contraception and hormone usage, reproductive cancers and other diseases, pregnancy complications, maternal mortality, adverse pregnancy outcomes and birth defects.

Offered periodically.

EPI 75800 - Nutritional Epidemiology

This course teaches concepts and principles used in nutritional epidemiology. It provides skills required to critically evaluate dietary assessment methodology and reviews current topics in nutritional epidemiology. In addition, the role of nutrition in health and how this applies to public health is discussed.

Cross-listed GC PH 81200

EPI 75900 - Environmental and Occupational Epidemiology

Using a case study approach, this course will explore epidemiologic methods for studying environmentally and occupationally related diseases. Key methodologic issues, such as exposure and outcome assessment, cumulative and multiple exposures, exposure pathways, research ethics, and policy implications of epidemiological findings will also be discussed. The focus will be on the environmental and occupational health of urban populations.

EPI 77000 - Topics in Epidemiology

Courses on current topics in epidemiology.

Offered periodically.

Nutrition Required Courses

NUTR 70000 - Seminar in Dietetics Practice
Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

Open to dietetic internship (DI) students only.

**NUTR 70100 - Pre-Professional Practice in Dietetics: Clinical**

Supervised externship in clinical dietetics and classroom discussions of readings and field experiences.

Open to DI students only.

**NUTR 70200 - Pre-Professional Practice in Dietetics: Food Service**

Supervised externship in food service and personnel management, and classroom discussions of readings and field experiences.

Open to DI students only.

**NUTR 70300 - Pre-Professional Practice in Dietetics: Community**

Supervised externship in community nutrition and classroom discussions of readings and field experiences.

Credits 1

Open to DI students only.

**NUTR 70500 - Nutrition and Biochemistry**

The structure and metabolism of macro- and micronutrients, kinetics and regulation of enzymes; energetic of biochemical reactions.

**NUTR 71000 - Principles of Public Health Nutrition**

Fundamentals of nutrition in public health as they apply to health promotion and disease prevention for individuals and society, with emphasis on urban populations.

**NUTR 71500 - Food Service and Management**

An overview of good service operations and theories, functions and tasks of management.

**NUTR 72000 - Community Nutrition Education**

Nutrition programs and materials for health promotion in the community.

**NUTR 72500 - Nutrition Research**

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

**NUTR 73100 - Human Nutrition and Metabolism**
Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

*prereq: NUTR 70500

**NUTR 73200 - Advanced Nutrition II**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

*prereq: NUTR 73100

**NUTR 73300 - Nutrition and Human Development**

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

**NUTR 73400 - Clinical Nutrition I**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73100

**NUTR 73500 - Clinical Nutrition II**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73400

**NUTR 73800 - Public Health Nutrition Seminar**

In-depth analysis of the literature and research in specific areas of public health nutrition.

**NUTR 74600 - Nutrition and Disease**

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

*coreq: NUTR 74700

**NUTR 74700 - Advanced Nutrition and Assessment Laboratory**

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of various population groups.

*coreq: NUTR 74600

**NUTR 75600 - Food Science and the Environment**
Scientific principles of food and food ingredients: composition, function, regulation, safety, quality, testing, processing, packaging, formulation, production and evaluation of foods.

coreq: NUTR 75700

NUTR 75700 - Food Science and the Environment Laboratroy

Laboratory experience with the chemical and physical properties of food components.

coreq: NUTR 75600
Credits 1

NUTR 76000 - Practicum

Nutrition and food science-related fieldwork in hospitals, schools, laboratories, and community-based organizations designed to provide opportunities to apply knowledge and skills gained from the classroom education to professional practice.

prereq: completion of 27 credits in NUTR

Nutrition Elective Courses

NUTR 73000 - Nutritional Assessment of Urban Communities and Populations at Risk

The collection and analysis of data for the purposes of identification of, and designing interventions for, individuals and urban populations at nutritional risk.

NUTR 73710 - Public Health Nutrition Fieldwork I

Directed field experiences in public health nutrition agencies and/or programs.

Hours 210 hrs,
Credits 3 cr

NUTR 73720 - Public Health Nutrition Fieldwork II

Directed field experiences in public health nutrition agencies and/or programs.

NUTR 74100 - Nutritional Assessment

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of individuals.

prereq: NUTR 73100

NUTR 75100 - Nutritional Contribution of Foods
Nutrient and non-nutrient components of foods. Physical and chemical properties of foods and their relationship to health.

**NUTR 75200 - Food Service and Personnel Management**

The organization and administration of food service operations, especially in community settings.

**NUTR 77000 - Topics in Public Health Nutrition**

Courses on current topics in public health nutrition.

*Offered periodically.*

**NUTR 77010 - Cultural Aspects of Food and Nutrition**

Study of the ways in which cultural and social factors influence food behaviors and dietary patterns.

**NUTR 77020 - Consumer and Food**

Available food supply, world hunger, marketing, and legislation.

**Public Health Required Courses**

**PH 73700 - Supervised Fieldwork**

Students will carry out directed field experiences in public health agencies or programs. Placements are in relation to student’s academic background, specialization and career expectations. Emphasis is on applying classroom-acquired concepts and skills. The content and scope of the fieldwork should be similar to work performed by an entry level public health professional.

*prereq: Completion of 18 credits toward the master’s degree, including at least 3 required core courses (biostatistics, epidemiology, and the course most relevant to your specialization) and at least 2 courses in students’ specialization.*

**PH 73800 - Capstone Project**

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the MPH or MS program. Students will complete either a paper based on fieldwork, a research paper or a Master’s Essay. The paper must be completed no sooner than during students’ penultimate or final semester.

*prereq: Completion of at least 36 credits of coursework toward the Master of Public Health (MPH) or Master of Science degree, including at least one course in each of the 5 core areas of public health (biostatistics, epidemiology, social and behavioral sciences, public health policy and environmental health and safety); and at least 3 specialization courses.*

**PH 75000 - Introduction to Biostatistics**

This course is designed to enable students to analyze, present and interpret population health data.
prereq: Elementary statistics or calculus or equivalent.

**PH 75100 - Principles of Biostatistics**

This is a first-level requirement for students specializing in EPI-BIOS, who will take subsequent intermediate and advanced level biostatistics courses. It will introduce students to the theoretical basis for and practical application of common statistical methods and principles used in public health.

*prereq: evidence of quantitative abilities, such as college-level algebra with a grade of B+ or better, GRE scores ≥550 and analytic scores ≥4.5.*

**PH 75200 - Introduction to Epidemiology**

An introduction to epidemiologic principles, methods and measures commonly used in public health. T

*prereq: PH 75000*

**PH 75300 - Principles of Epidemiology**

A first-level requirement for student specializing in EPI-BIOS, who will take subsequent intermediate and advanced level epidemiology courses. It will introduce students to epidemiologic theory, principles, methods and measures commonly used in public health.

*prereq or coreq: PH 75100*

**PH 75400 - Environmental Health and Safety**

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation and noise hazards; hazardous substances; solid wastes; food protection; natural and human-made disasters; and specific hazards such as lead, asbestos, mold and pesticides.

**PH 75500 - Urban Health and Society**

Examines impact of social and political forces on the health of urban populations and describes roles for public health professionals in promoting health of urban communities.

**PH 75600 - Public Health and Health Care Policy and Management**

This course examines the organization, delivery and financing of health care in the United States with an understanding of the health policy-making process and a focus on issues related to the management of public health agencies.

**PH 78300 - 1, 2, 3 Independent Study in Urban Public Health**

Directed reading, research or field study designed to permit exploration of a single area related to urban health in depth, with faculty guidance. A faculty sponsor must agree to sponsor independent study prior to registration. Each of the research centers affiliated with the MPH and MS programs offer supervised independent study projects.
prereq: perm program director, matriculated status, and completion of at least 12 cr. hrs to be arranged
Credits 1, 2 or 3 cr

PH 78400 - 1, 2, 3 Independent Study in Urban Public Health

Directed reading, research or field study designed to permit exploration of a single area related to urban health in depth, with faculty guidance. A faculty sponsor must agree to sponsor independent study prior to registration. Each of the research centers affiliated with the MPH and MS programs offer supervised independent study projects.

prereq: perm program director, matriculated status, and completion of at least 12 cr hrs to be arranged
Credits 1, 2 or 3 cr

Public Health Elective Courses

PH 71100 - Visual Media, Technology and Health

In this intensive and hands-on course students will learn how to use a critical media literacy perspective to disrupt dominant images and representations of health, illness and the body, while they will also take part in creating their own participatory media project (digital ethnography or short [10 minutes or less] digital video). From the first day, the class will meet in a computer lab and students will create their own media

PH 71300 - Immigration and Health

This course offers a comprehensive overview of immigrant health in the US. By relying on the sociological, anthropological and public health literature, this course will examine policy issues involving immigrant populations in the US (e.g., immigration law and changes in welfare reform), service provision, the diversity of alternative healing systems and practices among immigrant groups, and the importance of socioeconomic and cultural determinants on immigrants’ health outcomes. Immigrants’ differences in terms of culture and nationality, class, race/ethnicity, age, and gender will also be considered.

PH 71400 - Human Rights and Public Health

This course focuses on the skills needed to investigate, analyze, and document abuses of human rights as they relate to health and public health practice.

PH 71700 - Global Health

This course is intended to meet the needs of students who are committed to becoming experts and practitioners in both the theory and practice of global health. Globalization trends, and their effect on population health, will be studied from a comparative perspective in both the developed and the developing world. To that end, this course aims at promoting awareness on the cultural, socioeconomic and political effects of the globalization process on population health. During the semester, students will examine the emerging field of global health from an interdisciplinary perspective, by addressing the main health issues experienced by vulnerable populations worldwide.

PH 71800 - Perspectives on Public Mental Health Policy and Practice

This course examines the evidence-base that supports a wider appreciation for the public health significance of mental health and the translation of this evidence-base into relevant social policy and multi-disciplinary approaches to public health and social work practice.
PH 71900 - Healthy Urban Aging: Economics and Policy Issues

This course examines key social, economic, and policy issues at the intersection of the changing demographics of aging, urbanization, public health.

PH 72000 - Cities, Society and Health

This course presents an ecological, multilevel approach to the study of urban health and brings together public health and social science disciplines to examine the impact of city living on population health. Its focus is on changes in health in US urban populations in the post-World War II period. It is required for all DPH students.

PH 72200 - Food Politics and Policy

This policy course examines the influence of the food industry and of government on the U.S. food system and the way we eat, and on efforts to prevent and treat chronic diet-related conditions, such as obesity. This is a hybrid course that meets in person 5 times during the semester; the remainder of the time the course is conducted online asynchronously through Blackboard.

Cross-listed GC PH 81400
prereq: 30 MPH credits

PH 72300 - Chronic Disease Management

This course studies the extensive knowledge and understanding of multidisciplinary approaches to managing chronic disease. The course will provide students with the opportunity to study specific issues relating to chronic disease management and link this to their own practice.

PH 72400 - Ethics in Public Health

This seminar course will consider questions about the practice of health promotion, disease control, and health research -- questions about morality, not effectiveness.

PH 77000 - Topics in Public Health

Courses on current topics in public health.

Offered periodically.

Public Health Policy and Management Required Courses

HPM 75000 - Public Health Management

Focuses on management issues in a variety of organizational settings and the larger public health environment; describes managerial functions and problem solving strategies, financial management principles, and management models for change; develops specific skills in program management, budgeting, workforce development, and managing intersectoral programs.

prereq: PH 75500, PH 75600
HPM 75100 - Public Health and Health Care Law

Reviews key areas of the legal process relevant to health care delivery and public health; analyzes major court decisions that have affected the field and selected federal, state and local statutes that affect public health and health care practice; acquaints students with the basics of legal research and legal reasoning as applied to public health and health care.

prereq or coreq: PH 75500, PH 75600 or with instructor’s permission for those with at least one year of health care experience

HPM 75200 - Comparative Analyses of Urban Health Care Systems

Examines unique challenges and opportunities for delivering health care in developed and developing world cities; analyzes impact of national and local policies and social and political factors on health care access, quality and outcomes; introduces empirical methods for making comparative studies across municipalities and nations.

prereq: PH 75500, PH 75600
Students can take this course or HPM 75400

HPM 75300 - Public Health Policy Analysis

Examines common approaches and concepts of policy analysis for public health, including market efficiency and failures, cost-benefit analysis, problem and decision making analysis; describes critiques of such models with public health examples; focuses on the Health Impact Assessment as a method for analyzing costs and benefits of health and non-health policies.

prereq: PH 75500, PH 75600

HPM 75400 - Public Health Advocacy

Prepares students to advocate for policies that promote public health, develops skills in planning and implementing advocacy campaigns; assess theories on role of coalitions and advocacy in changing health policy.

prereq: PH 75500, PH 75600
Students can take this course or HPM 75200

HPM 75500 - Health Economics

This course in health economics introduces students to essential microeconomic concepts as they apply to health systems, individual and public health.

prereq: Recommended pre-req: PH 75500, PH 75600

HPM 77000 - Topics in Public Health Policy and Management

Courses on current topics in public health policy and management.

Offered periodically

CUNY Sexual Assault Policy
I. POLICY STATEMENT

The City University of New York seeks to create and maintain a safe environment in which all members of the University community—students, faculty and staff—can learn and work free from the fear of sexual assault and other forms of violence. The University’s policies on Workplace Violence and Domestic Violence and the Workplace apply to all acts of violence that occur in the workplace or that may spill over into the workplace. The University’s Sexual Harassment Policy prohibits many forms of unwelcome conduct, including but not limited to, physical conduct of a sexual nature. This policy is specifically directed towards sexual assault, domestic and intimate partner violence and stalking committed against students on and off-campus.

CUNY wants all victims of sexual assault, stalking and domestic and intimate partner violence to know that the University has professionals and law enforcement officers who are trained in the field to assist student victims in obtaining help, including immediate medical care, counseling and other essential services. If the alleged perpetrator is also a member of the CUNY community, the college will take prompt action to investigate, and, where appropriate, to discipline and sanction the alleged perpetrator. CUNY urges all victims to seek immediate help in accordance with the guidelines set forth in this policy with the assurance that all information received from a complaint will be handled as confidentially as possible.

In order to eliminate sexual assaults and other forms of violence perpetrated against students, and to create a safe college community, it is critical to provide an appropriate prevention education program and have trained professionals to provide vital supportive services.

Accordingly, CUNY is committed to the following goals:

• Providing clear and concise guidelines for students to follow in the event that they or someone they know have been the victim of a sexual assault, domestic/intimate partner violence, or stalking.

• Assisting victims of sexual assault or abuse in obtaining necessary medical care and counseling, whether on or off-campus.

• Providing the most informed and up-to-date education and information to its students about how to identify situations that involve sexual assault, domestic and intimate partner violence, or stalking, and ways to prevent these forms of violence.

• Educating and training all staff members, including counselors, public safety officers and student affairs staff and faculty, to assist victims of sexual assault, domestic/intimate partner violence, or stalking.

• Ensuring that disciplinary procedures are followed in the event that the alleged perpetrator is a CUNY student or employee.

II. PROCEDURES FOR REPORTING INCIDENTS OF SEXUAL ASSAULT AND OTHER FORMS OF VIOLENCE

Obtaining assistance after a student is sexually assaulted, stalked or is in an abusive relationship is extremely important and can involve different points of on-campus contact for students, faculty and staff, including the Public Safety
Department, Women’s/Men’s Centers and Counseling Departments, and/or the Dean of Student Development/Student Affairs. Each provides different forms of assistance which together address many of the needs of survivors.

- **Contact Law Enforcement Personnel Immediately**

CUNY urges any student who has been the victim of a sexual assault or other act of violence or abuse, or any student or employee who has witnessed a sexual assault or other act of violence against a student, to immediately report the incident to the college Public Safety Department if the attack occurred on-campus, or to call 911 or go to the local NYPD precinct if the incident took place off-campus. Each college shall be provided with a list of emergency contact numbers as part of its orientation and training programs.

- **Seek Immediate Medical Attention**

It is critical that victims of a physical assault receive comprehensive medical attention as soon as possible. For a sexual assault in particular, immediate treatment and the preservation of evidence of the attack (i.e. retain the clothing worn during the attack and do not shower) is crucial to a criminal investigation. If a student believes that she/he may be the victim of date rape by being drugged, she/he should go directly to a hospital to receive a toxicology examination since such drugs only remain in a person’s system for a short period of time. In all other circumstances, public safety and police personnel can assist the victim in obtaining medical care. Each college shall be provided with a list of local hospitals, some of which are designated as SAFE (Sexual Assault Forensic Examiner) hospitals that are specially equipped to handle sexual assaults and are trained to gather minute evidence from such assaults. Rape crisis advocates at emergency rooms are also trained to handle domestic violence. EMS will be directed to bring victims to a SAFE hospital at their request. Medical attention is critical not only to treat internal and external injuries and to combat the possibilities of sexually transmitted infections and/or pregnancy, but also to collect evidence that can be used against the alleged perpetrator. It is also vital to ongoing safety and recovery that victims receive emotional support and professional counseling as soon as possible after the attack.

- **Seek On-Campus Assistance**

CUNY encourages student victims to contact the Dean of Student Affairs/Student Development to obtain assistance in accessing medical and counseling services, or to make any necessary changes to the student’s academic program or residential housing situation. Public Safety can assist victims getting to and from campus safely, filing a police report and obtaining an order of protection against the alleged perpetrator. Victims can also file a complaint with the College against an alleged perpetrator who is a student or employee of the University with the Dean of Student Affairs/Student Development and the Public Safety Office.

- **Obtaining an On-Campus Advocate**

Student victims of a sexual assault, stalking or domestic or intimate partner violence shall be provided with on-campus support in the form of an advocate from the Women’s/Men’s Center (if there is one on campus) or an appropriately trained counselor to assist them in handling the various aspects of their ordeal, such as: 1) explaining to victims their options of whether or not to report the incident to campus or law enforcement authorities; 2) providing guidance if they require medical attention; 3) providing guidance in obtaining crisis intervention and/or ongoing counseling services (or a referral to obtain the necessary services if such services are not available on campus); and 4) assisting victims throughout the College’s disciplinary process if they choose to file a complaint against another student in connection with the incident.
• **Handling Sexual Assault, Stalking and Domestic and Intimate Partner Violence Complaints On-Campus**

The Colleges shall act promptly in response to information that a student has been sexually assaulted, or has been the victim of domestic or intimate partner violence or stalking by another member of the CUNY community. Upon receipt of a complaint, the College shall undertake an appropriate investigation. If it appears that there is sufficient evidence to warrant disciplinary charges against a student or staff member, such charges shall be brought pursuant to the appropriate University procedures or collective bargaining agreement. If the alleged perpetrator is a student and the matter is brought before a hearing, the victim and alleged perpetrator are entitled to the same opportunities to have others present and to be informed of the outcome of the proceedings. The victim is entitled to a report of the results of the proceeding at her/his request. If a student is found guilty of committing a sexual assault or other act of violence against another CUNY student or employee after a disciplinary hearing, the penalties may include suspension, expulsion from residence halls, or permanent dismissal from CUNY.

In addition, if during the course of the investigation and/or disciplinary process the alleged perpetrator, or anyone on his/her behalf, seeks to contact the victim so as to harass, intimidate, threaten or coerce the victim in any way, the college reserves the right to bring additional disciplinary action against the actor. Such conduct by any member of the CUNY community will not be tolerated.

• **Confidentiality**

The university recognizes that confidentiality is particularly important to victims of sex crimes, domestic and intimate partner violence and stalking. If the victim seeks counseling with a licensed professional and/or works with an advocate from the campus, those communications will be confidential. CUNY encourages victims in all circumstances to seek counseling in order to speak about her/his options and to begin the recovery period.

While complete confidentiality cannot be guaranteed, every effort will be made to maintain confidentiality on a “need to know” basis. Generally, the wishes of a victim not to report a sexual assault or incident of domestic/intimate partner violence or stalking to the police will prevail, though the college reserves the right to notify the police when it believes that such reporting is necessary for the protection of the college community. Such notification, however, will generally be done without divulging the victim’s identity and for the purpose of providing a campus-wide safety alert. In addition, the College must adhere to legal mandates such as Title IX, medical reporting laws, and the Campus Security Act. For example, CUNY is required to make an annual report documenting the occurrences of violent crimes on campus, including sexual assault. However, this report does not include any information identifying the individuals (including the victims) linked to these crimes.

**III. IMPLEMENTATION OF THE POLICIES AND PROCEDURES CONCERNING SEXUAL ASSAULT AND OTHER FORMS OF VIOLENCE AGAINST STUDENTS**

The President and Vice President for Student Affairs/Student Development of each college shall be responsible for implementing this policy in accordance with the most up-to-date information and resources pertaining to sexual assault, stalking and domestic/intimate partner violence education and prevention, and victim assistance. The following steps must be taken to implement this policy:

1. **Publication**: A copy of this policy shall be easily accessible on the CUNY website and on the website administered by each College. A summary shall also be incorporated into every college student handbook. In addition, copies of the policy and procedures shall be made available in student centers, residence halls, student affairs/student development offices, women’s/men’s centers, counseling centers, health clinics and public safety departments, and shall be distributed to all new students during orientations.
2. **Prevention/Risk Reduction Education:** Each college shall develop materials and programs to educate its students, faculty and staff on the nature, dynamics, common circumstances and effects of sexual assault, domestic/intimate partner violence and stalking, and the means to reduce their occurrence and prevent them. Prevention education should provide up-to-date and relevant information, such as education pertaining to bystander intervention, the importance of peer networks and the significance of fostering a community of responsibility.

Prevention education materials and programs shall be incorporated into campus orientation activities for all incoming undergraduate and graduate students (including transfers), and shall be made available to all student activity groups, clubs and athletic teams. In addition, all residence halls shall have a mandatory orientation on sexual assault, stalking and domestic/intimate partner violence prevention. Colleges are encouraged to assist in the organization of peer education groups and to provide resources to such groups so that the groups can provide training and outreach to other students throughout the academic year. Since the abuse of alcohol is frequently involved in occurrences of sexual assault and other forms of violence, it is important that the education program include education about the deleterious effects of alcohol abuse.

3. **Professional Training:** Each college shall provide periodic training relating to the prevention and handling of sexual assaults, stalking and domestic/intimate partner violence for all relevant personnel, including public safety officers, counselors, student affairs staff and residence hall assistants by experts trained in the field. Education and training shall also be made available to any interested faculty and staff member. Each campus must have at least one qualified staff or faculty member serve as a designated liaison and trainer.

4. **Oversight by CUNY Central Administration:** The University Vice Chancellor for Student Affairs shall monitor compliance with this policy at all of the campuses, shall review the policies and procedures on an annual basis, and shall make recommendations in the event that updates to prevention and education information are necessitated. In addition, the Office of the Vice Chancellor for Student Affairs shall provide educational materials that may be needed to ensure full implementation of this policy on every campus. Liaisons will be identified from each campus who will receive standardized training in order to fulfill their responsibilities on their campuses. The policies, procedures and outreach materials and programs will be subject to a periodic process of assessment in order to maintain efficacy.

**Sexual Assault And Other Crimes Of Violence: Definitions and Background Information**

Sexual assault is a crime. Under Article 130 of the New York State Penal Law, it is a sex offense to engage in sexual contact or to engage in sexual intercourse, sodomy or sexual abuse by contact without the consent of the victim or where the victim is incapable of giving consent. Criminal sex offenses are classified in degree according to the seriousness of sexual activity, the degree of force used, the age of the victim and the physical and mental capacity of the offender and victim.

Stalking is also a crime. Under Article 120 of the New York State Penal Law, a person is guilty of stalking when he/she intentionally, and for no legitimate purpose, engages in a course of conduct directed at a specific person, and knows or should know that such conduct is likely to cause fear of material harm to the health, safety or property of the victim. Examples of such conduct are following, telephoning or initiating communication or contact (i.e. via email) with the victim. Dating and domestic violence is controlling, abusive, and aggressive behavior in a romantic relationship, and often involves illegal conduct on the part of the aggressor, including sex offenses, stalking and/or harassment.

See Attachment for a list of some of the relevant sex and stalking offenses and their maximum penalties under New York State Law.

**A. Sexual Assault**

Sexual assault is a crime of power, aggression and violence. Terms such as “date rape” and “acquaintance rape” tend to minimize the fact that the act of rape, or any sexual assault, is a serious crime.
There is never an excuse or a reason for a person to rape, assault or even touch another person’s private parts without consent. The impact on survivors of such an attack can cause severe and lasting physical, mental and emotional damage.

• Who is a perpetrator?  Many people think that sexual assaults are only perpetrated by vicious strangers on dark, deserted streets. In fact, studies indicate that between 80 and 90 percent of all people who have been raped know their perpetrator(s). This is called “date rape” or “acquaintance rape.” “Date rape” is not a legally distinct or lesser category of rape. It refers to a relationship and situational context in which rape occurs on a date. Rape or any sexual offense, whether on a date or not, is the same criminal offense involving the same elements of force, exploited helplessness or underage participation. With sexual assaults where the victim knows the perpetrator, alcohol use is often involved on the part of either the victim or the perpetrator. However, a sexual assault is still a crime regardless of the intoxication of the perpetrator or the victim.

• Who is a victim?

Anyone can be a victim, regardless of gender, age, race, sexual orientation, religion, ethnicity, class or national origin. Though women and girls are primary targets of these crimes, men and boys are sexually victimized too, and have been found to suffer the same aftermath as women. Regardless of whether the victim was abusing alcohol and/or underage, she or he is still the victim of the sex offense.  • When is there lack of consent?  Under New York law, lack of consent to a sexual contact may be demonstrated in the following ways: (1) forcible compulsion including the use of physical force or threat (express or implied) which places the person in fear of physical injury to self or another; (2) incapacity to consent on the part of the victim; (3) circumstances in which the victim does not expressly or impliedly acquiesce in the actor’s conduct; or (4) circumstances in which the victim clearly expressed by words or actions that he or she did not consent to engage in such sexual act and a reasonable person would have understood such person’s words or actions as an expression of lack of consent to such conduct.  A person is deemed incapable of giving consent if she/he is (a) under the age of 17, (b) mentally incapacitated (which may include incapacity due to the victim’s ingestion of alcohol or drugs), (c) physically disabled or (d) physically helpless (asleep, unconscious or for any other reason physically unable to communicate unwillingness to act, which may also include incapacity due to the victim’s ingestion of alcohol or drugs).

• Who is responsible for a sexual attack?

In the absence of consent, the attacker is always responsible for having committed the sexual assault regardless of the victim’s appearance, behavior, or conduct on previous occasions. An attacker cannot assume that the way a person dresses or acts is an invitation for sexual advances. A person may welcome some forms of sexual contact and be opposed to others. The more impaired a person is from alcohol or drugs, the less likely she/he can give consent; having sex with someone who is “passed out” or sleeping is rape. And regardless of previous sexual activity, if someone refuses sexual contact, the failure to respect that limit constitutes non-consensual sex.

• Who can prevent a sexual attack from occurring?

Every member of the CUNY community, by recognizing situations where sexual violence occurs, by acknowledging that anyone can be a victim of sexual assault, and by becoming active, positive and responsible community members who look out for other members of the CUNY community.

B. Stalking

Stalking generally refers to harassing or threatening behavior that an individual engages in repeatedly, such as following a person, appearing at a person’s home or place of business, making harassing calls, or leaving written messages or objects. Unlike other crimes, which normally consist of a single illegal act, stalking is a series of actions that, when taken individually, may be perfectly legal. For instance, sending a birthday card or flowers or standing across the street from someone’s house is not a crime. When these actions are part of a course of conduct that is intended to instill fear in a victim, however, they may be considered illegal behavior.
Who is a stalker?

Nearly 90% of stalkers are male, and most stalkers know their victims (60% are current or former intimate partners.) Most stalkers are in their late teens to middle-aged, and stalkers may come from every socio-economic background. Stalkers are motivated by obsession and a desire for control, which stem from either a real or imagined relationship with the victim.

Who is a victim of stalking?

In stalking cases, more than half of the victims are between 18 and 29 years old and 75% of victims are female. Male victims are stalked by male and female offenders at the same rate, and tend to be stalked by strangers and acquaintances rather than intimates. According to a 2000 study, more than 13% of college women indicated that they have been stalked in one college year.

What are the consequences of stalking?

Stalking often causes pervasive, intense fear and can be extremely disruptive for the victim. In addition to presenting a continual threat of physical and/or sexual violence, the stalker can erode the victim’s sense of safety and personal control. Stalking causes victims to miss work and school. And stalking in dating and domestic violence cases is often related to more severe violence.

Is stalking a common occurrence on college campuses?

Research shows that stalking has become a common occurrence on today’s college campuses. Some of the very aspects that make campus life appealing aid the potential stalker. The campus is a closed environment where it is easy to determine a student’s schedule; it is a highly social atmosphere where stalking behavior may be confused with positive, romantic attention at first; student movement through the campus is predictable, and access to academic buildings may be quite easy. One can easily find information about a selected student through the campus directory, including the student’s address, telephone number and email address. As a result of obtaining students’ email addresses, cyber-stalking has become common, which can lead to other forms of stalking and is equally as frightening for victims.

C. Dating and Domestic Violence

Dating and Domestic violence is a pattern of abusive behavior in any relationship that is used by one partner to gain or maintain power and control over another intimate partner. Domestic violence can be physical, sexual, emotional, economic, or psychological actions or threats of actions that influence another person. This includes any behaviors that intimidate, manipulate, humiliate, isolate, frighten, terrorize, coerce, threaten, blame, or injure someone.

Intimate partner includes persons legally married to one another; persons formerly married to one another; persons who have a child in common, regardless of whether such persons are married or have lived together any time; couples who live together or have lived together; or persons who are dating or who have dated in the past, including same sex couples.

Some of the forms of domestic and dating abuse include:

- **Physical Abuse**: Hitting, slapping, shoving, grabbing, pinching, hair-pulling, biting, etc. Physical abuse also includes denying a partner medical care or forcing alcohol and/or drug use.

- **Sexual Abuse**: Coercing or attempting to coerce any sexual contact or behavior without consent. Sexual abuse includes, but is certainly not limited to marital rape, attacks on sexual parts of the body, forcing sex after physical violence has occurred, or treating one in a sexually demeaning manner.

- **Emotional Abuse**: Undermining an individual's sense of self-worth and/or self-esteem. This may include, but is not limited to, constant criticism, diminishing one's abilities, name-calling, or damaging one's relationship with his or her children.
• **Economic Abuse**: Making or attempting to make an individual financially dependent by maintaining total control over financial resources, withholding one's access to money, or forbidding one's attendance at school or employment.

• **Psychological Abuse**: Causing fear by intimidation; threatening physical harm to self, partner, children, or partner's family or friends; destruction of pets and property; or forcing isolation from family, friends, or school and/or work.

Dating and Domestic violence can happen to anyone regardless of race, age, religion, or gender, and affects people of all socioeconomic backgrounds and education levels. Domestic violence occurs in both opposite-sex and same-sex relationships and can happen to intimate partners who are married, living together, or dating. Dating and domestic violence can be difficult to identify because violence can occur in cycles that alternate with the perpetrator’s expressed devotion and love for the partner. This is all part of the cycle of manipulation and control.

### Sexual Assault Criminal Sanctions

Degree Requirements

A matriculated graduate student enrolled in the graduate program and accepted as a candidate for a master’s degree will be recommended for the degree after the following requirements have been satisfied:

Courses

The candidate must have registered for and attended courses totaling the number of credits specified for the individual program. Courses other than those in the department of specialization may be credited toward the degree only with the approval of the graduate adviser. Waiver of course(s) does not release the student from the total number of credits required for the degree. Full-time graduate students may enroll for no more than 18 credits in any one semester.

Grades
The candidate must have achieved a cumulative grade point average of not less than 3.0 (B) in all graduate work taken at Hunter.

**Thesis**

A master’s thesis is usually required. After it is approved, the original and one copy of the thesis is deposited with the appropriate school. It must be accompanied by a receipt from the Bursar’s Office for the payment of the fee for binding one copy of the thesis.

A thesis approval form and style sheet, the requirements of which must be met strictly, are available from the graduate advisers’ and the school deans’ offices.

When the thesis approval form has been signed by the department graduate adviser and school dean, the original must be sent to the Degree Audit Unit of the Registrar’s Office.

Where a thesis does not appear to be an appropriate measure of achievement, the Graduate Course of Study Committee of the Hunter College Senate has approved an acceptable substitution or equivalent.

**Foreign Language**

A reading knowledge of a foreign language is usually required. In programs where this knowledge does not appear to be necessary or appropriate, the Graduate Course of Study Committee has granted an exception.

**Time Limit**

The total time for completing all degree requirements from the beginning of matriculation is four years. (For programs in education, nursing, health sciences, and social work it is five years.) Courses exceeding the limit at graduation will not be included in degree credits unless approved by the department and the appropriate dean.

**Enrollment**

A student must be registered for the semester of graduation, either by maintaining matriculation (see “Maintaining Matriculation” in section on Registration) or by registering for a course.

**Graduation**

A formal application and certification form for graduation must be filed in the OASIS (Office of AdminiStrative and Information Services), Room 217 Hunter North, at the beginning of the semester in which the student expects to receive a degree or certificate. (Check the calendar in the Schedule of Classes for deadline dates.) All course work, including thesis/major project and exams, must be completed by the date of commencement. The student record is sealed at graduation. No changes to the record can be made after the degree has been awarded.

Return to: General Information

**Department of Public Safety and Security**
Hunter College Department of Public Safety

695 Park Avenue, West B-122
New York, New York, 10065

Director of Public Safety:
Louis J. Mader

Telephone: (212) 772-4521

Hunter College is centrally located on 68th Street and Lexington Avenue, in the heart of one of the most exciting neighborhoods in the city. The shops, restaurants, and close proximately to Central Park, makes the area attractive to all New Yorkers. The subway system makes the daily commute convenient and refreshing with the Number 6 line stopping right at the Main Campus.

Hunter College offers graduate and undergraduate courses of study in liberal arts and sciences, as well as several professional fields; education, health and sciences, nursing and social work. With a student body of nearly 22,000 male and female students in day and evening classes, the college employs 1,200 full time faculty and staff personnel.

Hunter College’s uniqueness does not stop there. Our residential dormitory, known as the Brookdale Campus, is located at 25th Street and 1st Avenue. Brookdale is the home to nearly 600 male and female students and resident nurses. Because the dorm is located in lower Manhattan and is close to everything that a resident needs. The campus is closely monitored by public safety personnel 24 hours a day.

About Public Safety

Established in 1991, the CUNY Public Safety Department was created to further ensure that those who attend any of the CUNY institutions do so in a safe and comfortable environment. CUNY Public Safety Officers are sworn Peace Officers and have arrest authority granted them by the City of New York. They are designated as New York City Special Patrolmen/Peace Officers in accordance with Section 2.10, subsection 27 of the New York State Criminal Procedure Law. Campus Peace Officers (CPO) undergo seven weeks of training at York College, where they receive training pertaining to servicing the college community and how to effectively handle situations which may occur on a college campus and in the surrounding community. Campus Security Assistants (CSA) are employed as security guards in accordance with Article 7A of the General Business Law. CSA’s do not have arrest authority above that of a private citizen.

All Hunter College Department of Public Safety personnel wear distinctive uniforms and carry two-way radios. Additionally, the college has a New York State Certified Emergency Medical Unit to respond to medical emergencies on the Main Campus. These personnel are trained in first aid, cardiopulmonary resuscitation and other emergency response procedures.

Campus Peace Officers (CPO’s) are charged with the responsibility of making sure federal, state and local laws, as well as University policies and procedures are obeyed. Although officers are not city police officers, they are granted “Peace Officer” status through the City of New York and have limited arrest powers on all Hunter campuses. This allows officers to make an arrest and to search and seize evidence in connection with an arrest as long as the crime was committed in their presence or for a felony, not committed in their presence or view, but reasonable grounds exist that the offense was committed by the person the officer is arresting on the campus. The Hunter College Public Safety Department also maintains a strong working relationship with the City of New York Police Department (NYPD) as well as county, state and federal authorities and the City of New York Fire Department.
NOTE: The Hunter College Department of Public Safety does not provide security at any off-campus events; or for any off-campus organizations and/or residences not owned by Hunter College.

Students, staff and faculty are encouraged to report all public safety concerns to this department. In 2005 a mechanism has been added to the Hunter Public Safety web page which allows the college community to report crimes anonymously, known as “Silent Witness”. At the present time pastoral and professional counselors do not have to inform the persons that they are counseling to report crimes on a voluntary, confidential basis.

The Director of the Public Safety Department is Mr. Louis J. Mader, who has an extensive public safety background. Mr. Mader is assisted in the daily operations of the Department by a Deputy Director, Mr. Richard Meier. The Public Safety staff includes three Lieutenants, six Sergeants, seven Corporals, four Specialists, 36 Campus Peace Officers, and 29 Campus Security Assistants. The staff maintains several “fixed” posts, a communications center as well as roving patrols.

Campus Access

The campus is monitored 24 hours a day by members of the Public Safety staff. After the campus is closed all persons entering the institution must sign in. The lobby of the West Building is available to all current Hunter College students to be used as a place of study 24 hours a day. Only those students with written permission from a department head, or faculty member, are permitted to go to areas other than the West Lobby. A student that wants to remain on campus after hours must request permission to do so, in writing, through their Department head, or designee sponsoring the after hour visit. The permission and a supporting letter must be provided to Public Safety.

Identification Cards

Every member of the college community is required to carry a validated identification card while on campus. Upon request of a Public Safety Officer or college official, the ID card must be presented. Refusal to present the ID card will result in denial of access to the campus. ID cards are NON-TRANSFERABLE and may not be used by any other person, for any reason. The college will prosecute any unauthorized person who trespasses or loiters on college property. Students, faculty, and staff will need an ID card in order to gain access to buildings, or to gain access to offices when keys are forgotten. Student ID cards shall be validated each semester.

Complaints and Information

Complaints and requests for information concerning Public Safety services should be made to Mr. Louis J. Mader, the Director of Public Safety at (212) 772-4521.

After hours, all calls for Public Safety service should be made to (212) 772-4447.

Reporting a Crime

All crimes against person and property should be reported as soon as possible to the Office of Public Safety. This helps us apprehend criminals and make strategic decisions about the deployment of security resources. Incidents can be reported in person in the Public Safety office (B-122 in the West Building); by phone X 1-4444 if the crime is in process, (X 1-4447 after the fact) or to any uniformed officer on campus. The Office of Public Safety will assist you in reporting a crime to the NYPD as necessary.

Even if you do not want to pursue action with the College or the criminal justice system, please make a confidential report which does not reveal your identity to the Public Safety Office. This helps us keep an accurate record of the number and nature of incidents, determine whether there is a pattern of crime and we need to redeploy our security officers, and alert the campus community to a potential danger. Reports filed in this manner are counted and disclosed in the crime statistics of the College.
Security Policies

The policy of the City University and of Hunter College is that:

Students and employees will report safety hazards; crimes; loss of property; illness or injury. Proper reporting assists in the apprehension of criminals and ensures the safety of the college community. Incidents can be reported to any Public Safety officer or by calling the Office of Public Safety.

Investigation of Violent Felony Offenses

Hunter College has adopted and implemented a plan providing for the investigation of any violent felony offenses occurring on Campus, and providing for the investigation of resident Missing Persons. Such plans provide for the coordination of the investigation of such crimes and reports with the New York City Police Department (NYPD). Such plans shall include, but not be limited to, written agreements with the NYPD providing for the prompt investigation of such crimes and reports.

Violent Felony Offenses

Defined in Section 70.02 sub. 1 of the New York State Penal Law and include Class A, B, C, D and E violent felony offenses. These crimes will be immediately reported to the New York City Police Department by the Hunter College Department of Public Safety Office. A joint initial investigation will be conducted and then a follow up investigation will be conducted by the appropriate unit of the New York City Police Department. The college administration and college community will be kept informed and will be updated on developments.

Alcohol and Drugs:

Any action or situation which recklessly or intentionally endangers mental or physical health, or involves forced consumption of liquor or drugs for the purpose of initiation or affiliation with any organization is prohibited. The unlawful manufacture, distribution, dispensation, possession, or use of illegal drugs or controlled substance by University students or employees on University/College property, or as part of any University/College activities is prohibited. Employees of the University must also notify the College Personnel Director of any criminal conviction for a violation occurring in the workplace no later than (5) days after such conviction.

The unlawful possession, use, or distribution of alcohol by students or employees on University/College property, or as part of any University/College activities is prohibited.

The legal age for possession and consumption of alcohol in New York State is 21. It is against the law to sell or give away alcohol to anyone under the age of 21.

The possession or use of illegal drugs is a crime in the State of New York. Anyone found in possession of or using such drugs on college property will be severely dealt with and will face criminal charges.

Hunter College is in compliance with the Drug-Free Schools and Communities Act Amendments of 1989 (Public Law 101-226). The New York State minimum drinking age (21 years) is observed at all campus functions. Proof of age is required to consume alcoholic beverages and no individual appearing to be under the influence of alcohol will be served.

The unlawful possession, use or distribution of drugs is prohibited on the campus. Violators will be subject to penalties ranging from reprimand and warning for a first infraction, to separation from the college for a subsequent offense.

Legal sanctions against students alleged to be in violation of Public Law 101-226 will be determined according to Article 15 Section 3 of the CUNY Board of Trustees Bylaws. Sanctions for members of the instructional staff and non-
Instructional staff will be governed by Article VII of the CUNY Board of Trustees Bylaws and Article XIV, respectively.

**Weapons**

No individual within the university community, except Peace Officers, pursuant to authorization of the college presidents, shall have in their possession a rifle, shotgun, firearm or any other dangerous instrument or material that can be used to inflict bodily harm on an individual, or damage to a building or the grounds of the campus.

**Public Safety Emergencies**

Throughout the Hunter College Main Campus and Brookdale Campus are stainless steel colored “Talk-A-Lert” boxes. The Talk-Alert boxes are mounted on walls near elevators, stairways and female bathrooms. Talk-Alerts are to be used for any and all emergencies on campus. Just push the black button, wait for the box to connect with Public Safety communications and a verbal response to your emergency. You may always reach Public Safety by dialing 1-4444 from any internal telephone, or 911 from a cellular phone will connect you with NYPD. To dial 911 from an interior campus telephone you must dial a 9 first (9-911).

**Evacuation Procedures**

Usually evacuation procedures concern a working fire; however there may be other reasons that a building may have to be evacuated. Examples of this may be a bomb threat; a chemical spill in a lab; a police action; a power failure; or other situation where it would be in the best interest of the occupants to evacuate. *(PROCEDURES ARE LISTED UNDER THE FIRE SAFETY SECTION)*

**Timely Emergency Warnings**

If a situation arises either on or off campus that, in the judgment of the Director of Public Safety, constitutes an ongoing threat, a campus wide "timely warning’ will be issued through the College e-mail system to all students, faculty and staff.

Depending on the particular circumstances of the crime, especially in all situations that could pose an immediate threat to the community and individuals, the Department of Public Safety may also send out a notice using the CUNY ALERT system.

**ALL students; faculty and staff are requested to sign up for CUNY Alert at the following web site:** [http://web.cuny.edu/news/alert.html](http://web.cuny.edu/news/alert.html)

**Sexual Harassment**

It is the policy of The City University of New York and Hunter College to prohibit sexual harassment of employees and students. It is a violation of policy for any member of the college community to take action against any individual for reporting sexual harassment.

Hunter College has a sexual harassment panel, appointed by the President, which consists of faculty, staff, and students. The panel is charged with ensuring that the college community is familiar with the sexual harassment policies of Hunter College and the City University. Other responsibilities include investigating reports of sexual harassment and forwarding findings and recommendations to the college President. A member of the faculty, staff, or student should report sexual harassment occurrences to a member of the Sexual Harassment Panel or to the Dean of Students. And, if required, to the local city police precinct. Reporting information can also be found in college catalogs and schedule of classes.

Employees covered by collective bargaining agreements, should also contact their union representative to file a formal grievance if they are being sexually harassed by a member of their department. Confidential counseling is available through the Office of the Dean of Students and through the Employee Assistance Program.
Daily Crime and Fire Log

The Department of Public Safety maintains a “daily crime log” and a “daily fire log” in two ways. One is placed in electronic form and may be viewed on our web site at http://www.hunter.cuny.edu/publicsafety/reports. This forum lists all crimes that are reported at all Hunter campuses. The second manner is a “daily crime log” that is maintained at each Hunter campus of crimes reported to the particular campus. That log will show reported crimes for the past 60 days and is available for viewing by students, faculty and staff during normal business hours.

ASR availability:
The Annual Statistical Report, commonly known as the ASR, provides information about Hunter Colleges Public Safety Department; policies and procedures; types of crimes and definitions; college resources for students and victims of a crime and crime statistics for the college.

The Annual Statistical Report (ASR) is mandated by the Clery Act to be available to all students, faculty and potential students: ASR's can be obtained on-line http://www.hunter.cuny.edu/publicsafety/reports, at any public safety desk at any one of Hunters campuses or at Public Safety's Administrative Office located in the West Building in room B-122A.

Lost and Found

All items found on campus that are lost should be turned in to any public safety officer; public safety desk; or a drop box or safe located at some campuses. Found or recovered items will be recorded and stored in the campuses “Lost & Found” locker. Persons who have lost property should complete and Lost & Found slip and turn it in to Public Safety.

Or, go to the following link to report a lost item on line: http://www.hunter.cuny.edu/publicsafety/contact-us

Public Safety does not permit the random rummaging through the lost and found area for lost items. If an item is “reported” lost and it is located by public safety, you will be contacted by telephone and arrangements will be made to return the property. Found property will be stored for sixty (60) days only.

FIRE SAFETY

Each campus has a fire alarm system that meets the fire code of New York City. In most campuses a Fire Warden is assigned to each floor and is responsible for implementing the fire safety policy and evacuation during a fire emergency.

Things to Remember:

- If you notice a fire - pull the fire alarm pull station - do not waste time calling public safety. (Once activated, the alarm goes directly to a central station and NYFD is automatically notified and dispatched.
- If a "pull station" is not close to you then,
  - Activate one of the silver wall mounted "Talk-Alert" boxes
  - Dial 1-4444 on a main campus telephone
  - Dial 911 on your cell phone.
- Fire extinguishers are located on all floors of all campuses.
- A Fire Warden is assigned to each floor and is responsible for implementing the fire safety policy and evacuation during a fire emergency.
- It is important to follow their instructions, they are there for your safety
- Stairway "A" is the primary staircase to be used for evacuation, unless told otherwise.
- Disabled individuals should enter the stairway and stay on the landing of their floor. NYFD will come and get you!
- A delay in public address announcements after a fire alarm sounds is usually because public safety is investigating the source of the alarm to determine what needs to be done.
  - Always listen for public address announcements.
- If there is a fire or smoke condition in, or near an elevator shaft, the fire alarms will sound on all floors.
Elevators will get automatically re-called to the lowest floor/lobby.

- Some elevators may be re-called to the main floor due to a fire.
- After a fire alarm is activated, the alarm and the elevators cannot be reset until the NY Fire Department authorizes it and gives the "all clear".
- Evacuations may only occur on the "fire floor" and one floor above, and one floor below and not the entire building.
- Organized "Fire Brigades" will respond to the floor below the fire floor.
- Each semester Public Safety performs fire drills at each campus.

### Evacuation Procedures

Usually evacuation procedures concern a working fire; however, there may be other reasons that a building may have to be evacuated. Examples of this may be a bomb threat; a chemical spill in a lab; a police action; a power failure; or other situation where it would be in the best interest of the occupants to evacuate.

- **Do Not Use Elevators** Remain calm.
- Everyone will listen for a public address announcement to evacuate the building when the fire alarm is sounded.
- Normally, evacuation is ordered by building and by floor to prevent overcrowding in the stairwells.
- Upon activation of the fire alarm, and the announcement to evacuate, all occupants will immediately exit the building using the nearest exit stairwell and proceed across the street from the building.
- Excessive smoke, smell of gas is reason to immediately evacuate even if no announcement was heard.
- Evacuation floor plans are posted on each floor by the elevators throughout each campus.
- Close windows and doors. Leave lights on and doors unlocked.
- When you evacuate, do not stop for personal belongings or records.
- If there is excessive smoke, crawl to an exit. If you are unable to exit, stay low and plug all openings around doors, windows and vents.
- If you find yourself trapped dial 911 and give them your location, room number and floor.
- Before entering another room or stairwell, check for heat by placing your hand near the door.
- Fire Wardens that are familiar with the evacuation procedures will alert on their assigned floor to follow their emergency procedures.
- **Disabled persons** will enter the closest stairwell and await NYFD to assist them in exiting the building.
- A “runner” should be dispatched to tell the responding officer (fire or police) the location of the handicapped individual(s), so that a rescue can be initiated.
- Building occupants must immediately advise the responding Public Safety Officers of the possibility and location of any persons who have not yet evacuated the buildings due to injury or incapacitation.
- No one is permitted to re-enter an evacuated building until the building is determined to be safe by the emergency service personnel and NYFD advises that re-entry into the building is permitted.

---

**Disclaimers and Statement of Rights**

Return to: General Information

**Notice of Possible Changes**
The Board of Trustees of The City University of New York reserves the right to make changes of any nature in the academic programs and requirements of The City University of New York and its constituent colleges. All programs, requirements, and courses are subject to termination or change without advance notice. Tuition and fees set forth in this publication are similarly subject to change by the Board of Trustees of The City University of New York.

The course descriptions in this catalog summarize the full, official descriptions authorized by the Hunter College Senate. Full descriptions are available in the appropriate school and department offices. Hunter College reserves the right to change rules, policies, fees, and curricula without advance notice.

STATEMENT OF NONDISCRIMINATION Hunter College is an Equal Opportunity and Affirmative Action Institution. The college does not discriminate on the basis of age, sex, sexual orientation, transgender, religion, race, color, alienage, citizenship status, national or ethnic origin, physical or mental disability, genetic predisposition or carrier status, veteran or marital status in its student admissions, employment, access to programs, and administration of educational policies.

Dean John T. Rose is the college officer responsible for affirmative action matters. He is also the coordinator for Title IX, which prohibits sex discrimination in federally assisted education programs. His office is located in the Office of the President, 1706 Hunter East, (212) 772-4242.

Professor Tamara Green is the college Section 504 Coordinator for the Handicapped. Her office is located in 1425A Hunter West, (212) 772-5061.

Freedom of Information Law

Request to inspect public records at the college should be made to the Records Access Officer, Gail Aidinoff Scovell, Special Counsel to the President, who is located at the Hunter College Legal Office, 695 Park Avenue, 1705 Hunter East, (212) 772-4220. Public records are available for inspection and copying by appointment only at a location to be designated. You have a right to appeal a denial of a request for access to records to the CUNY Senior Vice Chancellor for Legal Affairs and General Counsel. Copies of the CUNY Procedures for Public Access to Public Records Pursuant to Article 6 of the Public Officers Law and the appeal form are available at the reference desk of the library and on the college website.

Drug-Free Schools and Campuses

Return to: General Information

Return to: Student Rights and School Policies

Public Law 101-226

Hunter College is in compliance with the Drug-Free Schools and Communities Act Amendments of 1989 (Public Law 101-226).

The New York State minimum drinking age (21 years) is observed at all campus functions. Proof of age is required to consume alcoholic beverages and no individual appearing to be under the influence of alcohol will be served.

All Hunter College organizations sponsoring events must, in advance of the event, agree to the following conditions:
1. No person shall sell or provide an alcoholic beverage to a person under the age of 21. Where documentation of age is unavailable or not reasonably certain, the law requires denial of an alcoholic beverage to that person.

2. No person shall sell or provide an alcoholic beverage to a person actually or apparently under the influence of alcohol.

3. No person shall sell or provide an alcoholic beverage to a person known to be a habitual excessive drinker.

4. All advertising, promotion, publicity, invitations, etc. stating the availability of alcoholic beverages at an event, must include the following statement:

The unlawful possession, use or distribution of drugs is prohibited on the campus. Violators will be subject to penalties ranging from reprimand and warning for a first infraction, to separation from the college for a subsequent offense.

Legal sanctions against students alleged to be in violation of Public Law 101-226 will be determined according to Article 15 Section 3 of the CUNY Board of Trustees By-Laws. Sanctions for members of the instructional staff and non-instructional staff will be governed by Article VII of the CUNY Board of Trustees By-Laws and Article XIV, respectively.

Health Risks of Alcohol Abuse

| Dependency | Malnutrition |
| Impaired judgment | Reduced alertness |
| Slow reaction time | Sensory and motor depression |
| Cirrhosis of the liver |

Health Risks of Illegal Drug Abuse

| Dependency | Malnutrition |
| Loss of control | Skin abscesses |
| Vein inflammation | Serum hepatitis |
| Increased risk of HIV infection | Reduced immunity |

Assistance is available by calling:

Hunter College Emergency Medical Services (212) 772-4801
Employee Assistance Program (212) 772-4051
Student Services (212) 772-4882

Return to: General Information

Financial Aid
The Office of Financial Aid helps graduate students with securing funds to meet their educational expenses through a variety of programs, including student loans, Federal Work Study, and grants. The college participates in both Title IV federal financial aid and New York State financial aid programs.

Federal Student Aid (FSA) programs include the Federal Direct Loan program, the Federal Perkins Loan program and Federal Work-Study program. The New York State aid programs include the Tuition Assistance Program (TAP) and Professional Opportunity Scholarships. For information on other scholarships and grants, students may log on to the financial aid website for outside scholarship information. For information on graduate assistantships and fellowships students may contact their departmental adviser.

The Office of Financial Aid is located in 241 North Building.

The OASIS (Office of Administrative and Information Services) is located in 217 North Building and it is the college’s one-stop service center for financial aid, registrar and bursar services.

Students are encouraged to refer frequently to the Hunter College Office of Financial Aid website at www.hunter.cuny.edu/finaid as an information resource.

Application Procedure

The fastest and easiest way to apply for financial aid is by completing the Free Application for Federal Student Aid (FAFSA) online. FAFSA on the Web is available at www.fafsa.ed.gov. Before beginning the application we encourage you to first fill out the FAFSA Worksheet.

The worksheet does NOT need to be submitted. When the student completes the FAFSA, Hunter College should be included among the colleges to which the application information is reported (HUNTER COLLEGE FEDERAL SCHOOL CODE: 002689). When the FAFSA is processed, CUNY will receive an electronic record of the student’s application information. The student may be required to provide additional documentation to the Office of Financial Aid to verify the application information or to clarify any discrepancies found in the application.

Students who are New York State residents can apply for both federal and New York State aid using a single online session. After completing FAFSA on the Web, New York residents are able to link to the TAP on the Web Form, which is pre-filled with their FAFSA data.

In order to request a Federal Direct Loan at Hunter College, the student must first complete the FAFSA and a Direct Loan Request on the Hunter College Financial Aid Office website at www.hunter.cuny.edu/finaid.

Financial Need

All funds from federal financial aid programs administered by the Office of Financial Aid are awarded on the basis of financial need with the exception of the Federal Direct Unsubsidized Loan.

When the student applies for federal student aid, the information that is reported on the FAFSA is used in a formula, established by the U.S. Dept. of Education and approved by the U.S. Congress. The Expected Family Contribution (EFC) which is the amount that the student and the family are expected to contribute toward the student’s education is then calculated.

There is not a maximum EFC that defines eligibility for financial aid programs. Instead, the EFC is used in an equation to determine financial need:

Cost of Attendance
The Office of Financial Aid takes the Cost of Attendance and subtracts the Expected Family Contribution (EFC). The amount left over is considered the student’s financial need. In determining the student’s need for aid from the federal financial aid programs, the Office of Financial Aid must first consider all other aid that the student is expected to receive.

The Cost of Attendance

Costs must be considered when a student is making decisions about whether, where, or when to attend college. A student budget is used as an estimate of the amount of money it will cost a student to attend college.

The budget includes allowances for tuition, fees, books, transportation, housing, food and personal expenses. Additional allowances may be made for unusual expenses such as dependent-care costs.

Student budgets are set each year by CUNY (City University of New York). They reflect the average expenses of all students who are living with their parents or living away from their parents. Students with disabilities should speak to a financial aid counselor about budget adjustments for their special needs.

The 2010-11 Hunter College expense budgets for full-time graduate students, who are charged the NY State Resident tuition rate, are as follows for the 9-month period of the fall and spring semesters:

### 2010-2011 Cost of Attendance

**Expenses Living with Parents/Living away from Parent**

*Tuition and Fees Please refer to the Office of the Bursar for individual program Tuition and Fees: [http://www.hunter.cuny.edu/bursar/](http://www.hunter.cuny.edu/bursar/)*

<table>
<thead>
<tr>
<th>Expense</th>
<th>Cost with Parents</th>
<th>Cost away from Parent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Books and Supplies</td>
<td>$1,146</td>
<td>$1,146</td>

</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$6,568</strong></td>
<td><strong>$16,231</strong></td>
</tr>
</tbody>
</table>

The Housing component of the Living Away From Parent budget is derived using average housing charges for a rental apartment in metropolitan New York, and using the assumption that the student is sharing the cost of housing with a roommate. The Personal Expenses component includes an allowance for medical expenses and/or health insurance.

Student Resources
In reviewing the student budget, a prospective student should consider the resources that will be available from earnings and savings, the amount that parents can contribute, and any benefits the prospective student receives, such as social security, veteran’s benefits, unemployment, or welfare.

Summer employment can help to meet the first costs of enrollment, and the prospective student should plan to save money from summer earnings.

Cash will be needed right away for books, supplies, and transportation.

**Packaging**

Rather than using only one source to finance education, students may use a combination of monies from all of the programs for which they are eligible. This system for allocating aid is called packaging. Funds will be allocated first to meet the basic costs of attendance (tuition, books, transportation). If funding permits, other living expenses will then be addressed.

Applications for financial aid must be filed each year. FAFSA on the Web for the coming academic year is available starting on January 1.

**Student Eligibility**

To be eligible for federal and state aid, a student must be a United States citizen or an eligible non-citizen, who is making satisfactory academic progress toward a degree. Students who have defaulted on a loan or owe a repayment of a federal grant at any post-secondary school must make satisfactory repayment arrangements with that institution before they will be eligible to receive aid at Hunter College.

**Satisfactory Academic Progress**

All recipients of financial aid must be making satisfactory progress toward a degree. There are two different formulas used to make this determination, one for state aid and another for federal aid.

**State Aid Eligibility**

Program Pursuit for graduate students who received their first state award during the 1981-82 award year or thereafter is based on the total number of semesters of previous participation in the program. Undergraduate payments are counted toward program pursuit for graduate students.

Academic Progress standards for graduate students are applicable only to a student’s semesters of graduate-level support. Whether or not a student has received state aid as an undergraduate will have no bearing in determining the student’s academic progress.

A student seeking his/her first graduate award from the same institution that he/she received his/her undergraduate degree would be evaluated for program pursuit on the basis of the last semester that he/she received state support as an undergraduate. A student seeking his/her first graduate award from a different institution would be considered a transfer student and therefore automatically eligible for the first graduate award. When the graduate full-time course load does not consist of credits (e.g., the clinical practicum courses), college documentation recording the student’s demonstrated program pursuit must support the student’s continued eligibility.
Waiver of Academic Standing Requirements

Students who become academically ineligible to receive assistance from state programs because of a documentable unusual circumstance (e.g., illness) may apply for a one-time waiver of the Satisfactory Academic Progress requirements. For further information, contact the Office of Student Services at (212) 772-4878.

Federal Aid Eligibility

The Federal Satisfactory Academic Progress standard applies to students seeking assistance from all federal student financial aid programs available at Hunter College.

To be eligible, a graduate student must achieve at least the GPA required for good academic standing at the institution and:

A. Accumulate credits toward the degree greater than or equal to two thirds of the cumulative credits attempted at the institution.

B. Not have attempted more than 150 percent of the credits normally required for completion of the degree.

Federal Financial Aid Programs

Campus-Based Programs

The Federal Work-Study (FWS) Program and the Federal Perkins Loan Program are considered campus-based programs because they are administered directly by the college. How much aid a student receives depends on the student’s financial need, the amount of other aid the student will receive, and the availability of funds. Students must apply early in order to be considered for these funds. The priority deadline is May 1. When funds are no longer available, no more awards can be made that year.

Federal Work-Study

The Federal Work-Study (FWS) Program provides jobs for graduate students with financial need, allowing them to earn money to help pay education expenses. The program encourages community service work and work related to the student’s course of study. The FWS salary will be at least the current federal minimum wage, but it may be higher, depending on the type of work the student does and the skills required. The total FWS award depends on the availability of funds and the student’s level of need at the time of application.

Federal Perkins Loans

A Federal Perkins Loan is a low-interest (5 percent) loan for students with exceptional financial need. Federal Perkins Loans are made through Hunter College as the lender, although the loan is made with government funds. Students must repay this loan to Hunter College. The borrowing limit established by the U. S. Dept. of Education for eligible graduate students is $5,000 per year for each year of graduate/professional study.

The total amount graduate students can borrow is $30,000. (This amount includes any Federal Perkins Loans borrowed as an undergraduate). The actual amount of the loan is dependent on financial need and the availability of funds.
William D. Ford Federal Direct Loan

The Federal Direct Loan Program, established by the Student Loan Reform Act of 1993, provides low-interest loans for students. Under the Direct Loan Program, the federal government makes loans directly to students through the college.

There are two kinds of direct loans available to graduate students:

Federal Direct Subsidized Loans

A subsidized loan is awarded on the basis of financial need. (See section on Financial Need.) If a student qualifies for a subsidized loan, the federal government pays the interest on the loan(s), hence “subsidizes” the loan, until repayment begins and during authorized periods of deferment thereafter.

Federal Direct Unsubsidized Loans

An unsubsidized loan is not awarded on the basis of need. If a student qualifies for an unsubsidized loan, interest will be charged from the time the loan is disbursed until it is paid in full. Students can choose to pay the interest or allow it to accumulate. If students allow the interest to accumulate, it will be capitalized – that is, the interest will be added to the principal amount of the loan and will increase the amount that has to be repaid. If the interest is paid as it accumulates, the student will have less to repay in the long run.

The U. S. Dept. of Education has established a borrowing limit of $20,500 each academic year for the Federal Direct Loan program, with no more than $8,500 of that amount in Subsidized Loan funds. A student may receive less than the yearly maximum amount if other financial aid is received. Total aid including loans may not exceed the cost of attendance.

The total outstanding debt from all Federal Direct and Federal Stafford Loans combined that a graduate or professional student may have is $138,500; no more than $65,500 of this amount may be in subsidized loans. The graduate debt limit includes any Federal Direct Loans and Federal Stafford Loans received for undergraduate study. Federal Direct Loans are not made to students enrolled in programs that are less than one third of an academic year in duration. For students whose Federal Direct Loans were first disbursed on or after July 1, 1994, the interest rate is variable, but it will never exceed 8.25 percent. The interest rate is adjusted each year on July 1. Students will be notified of interest rate changes throughout the life of their loan.

Once a Federal Direct Loan is made, it is managed and collected by the U.S. Department of Education’s Direct Loan Servicing Center. The toll-free telephone number is (800) 848-0979.

New York State Financial Aid Programs

Tuition Assistance Program (TAP)

To apply for TAP a student must be a U.S. citizen or eligible non-citizen, as well as a legal resident of New York State for at least a year. The amount of a TAP award depends upon the family’s size and net taxable income, which is defined as the combined income of the applicant, the applicant’s parents, and the applicant’s spouse as reported in New York State income tax returns for the previous year. Students who are financially dependent upon their parents, and students who are financially independent of their parents and are married or have tax dependents may be eligible for TAP if their family’s net taxable income is less than $20,001. Graduate students who are financially independent may be eligible if their net taxable income is less than $5,666. (Adjustments are made if other family household...
members are attending college full-time.) The maximum TAP award for a graduate student at Hunter College ranges from $75 – $550 per year.

The deadline for filing TAP applications is May 1 of the following year (e.g., for the academic year 2010-2011 the deadline would be May 1, 2011).

A student with a disability that prevents attendance on a full-time basis may be eligible to receive TAP while attending on a part-time basis.

**Professional Opportunity Scholarships**

Professional Opportunity Scholarships (for approved professional programs, e.g., accounting, architecture, dental hygiene, engineering, law, landscape, architecture, nursing, occupational therapy, ophthalmic dispensing, optometry, pharmacy, physical therapy, physician’s assistant, podiatry, psychology, social work, veterinary medicine, speech-language pathology/audiology) are available to U.S. citizens and permanent New York State residents. Students must be enrolled full-time (matriculated) in an approved program of study in New York State. Students must agree to practice in New York State for one year in their chosen profession for each annual payment received. Students must demonstrate good academic standing and meet college guidelines for pursuit of the program.

Recipients must be chosen in the following order of priority:

1. Economically disadvantaged (prescribed criteria) and a minority group member historically underrepresented in the profession.

2. Minority-group member underrepresented in the profession.

3. Candidate who is enrolled in or a graduate of COLLEGE DISCOVERY (CD); SEARCH FOR ELEVATION, EDUCATION AND KNOWLEDGE (SEEK); EDUCATIONAL OPPORTUNITY PROGRAM (EOP); HIGHER EDUCATIONAL OPPORTUNITY PROGRAMS (HEOP).

Awards range from $1,000 to $5,000 a year for up to four years, or five years in certain programs. TAP and some other benefits may supplement this award.

Contact the New York State Education Department, Bureau of Post-Secondary Grants Administration, Cultural Education Center, Rm. 5B68, Albany, NY 12230, (518) 474-5705. Applications must be submitted each year.

Return to: General Information

**Fire Safety Plan**

**Instructions**

**A. In case of a fire or smoke condition stay calm and do the following:**

- Pull the fire alarm box
- Call the Fire Department (911), and
• Notify Public Safety either via Emergency Number (212) 772-4444 or press the button on the Talk Alert box.

• Then, follow the procedures listed below:

**B. Procedure**

1. Evacuate your area.

2. Close, but do not lock the doors behind you.

3. Follow instructions transmitted over the Public Address system.

4. Proceed to evacuate the building through designated exit areas.

5. Before entering a stairwell touch the door with the palm of your hand. If the door feels warm or hot do not enter the stairwell. Proceed to the next stairwell.

6. When leaving the building keep your head turned to the center of the stairway.

8. Only use elevators when authorized to do so by the Fire Department.

9. When using the down escalators make long wide turns going from one escalator to the next escalator in order to prevent pedestrian congestion.

10. When you are outside the building, move away from the entrance approximately 200ft.

11. Public Safety will notify you when the building is safe and then you may re-enter.

**Hunter College Department of Public Safety Fire Safety Plan for the Physically Challenged**

The Fire Safety Plan for the physically challenged is established for the safety of the physically challenged members of the Hunter College community and physically challenged visitors to the college in the event of a fire or other life-threatening emergency. This plan will be implemented in any situation in which there may be a need to relocate physically challenged individuals to a safe location.

The Fire Safety Plan for the Physically Challenged identifies the New York City Fire Department as the agency having the primary responsibility for relocating any physically challenged person from an endangered floor to a safe location.

However, if the Fire Department or other New York emergency agency response is not exercised in a timely fashion, and the situation requires immediate removal of physically challenged individuals, Public safety personnel will transport such individual(s) to a safe location. The Fire Safety Plan for the Physically Challenged is part of the Hunter College Fire Safety Plan. All faculty, staff and students are advised to read and be fully familiar with the entire Fire Safety Plan.

**Instructions**
A. In case of a fire or smoke condition, do the following:

- Pull the fire alarm box.
- Call the Fire Department (911), and
- Notify Public Safety either Emergency Number (212) 772-4444 or press the button on the Talk Alert Box.
- Then Follow these procedures:

B. Procedure for the Physically Challenged

1. During an emergency, the entire floor may or may not need to be evacuated. In either case, when you hear the emergency alarm, assemble by any exit door near the elevators.

2. Do not enter the stairwell. Do not use the elevator unless directed by the Fire Department.

Relocation Procedures for the Physically Challenged

If it is necessary to evacuate the entire floor, a member of the Fire Department will Search the entire floor to locate physically challenged individuals. The emergency Personnel will remove you to a safe location by the elevator or stairwell. The sign marked “You Are Here Sign” containing these procedures shall be placed on each floor.

Other Precautions

1. Remain calm. Your safety and the security of others depend on the absence of panic.

2. Before entering any stairwell, touch the door with the palm of your hand. If the door feels warm or hot do not enter the stairwell. Proceed to the next stairwell.

3. If you cannot reach the stairwell near an elevator, and you are in an office or classroom and have access to a phone, call Public Safety at (212) 772-4444 or press the button on the Talk Alert or call 911.

4. If you are in an area with a door and cannot reach an exit near the elevators, seal the crack around the door with rags or clothing.

What Emergency Personnel Will Do

The Fire Warden, Fire Searchers, Public Safety Officers or a member of the Fire Brigade will report your location to the fire command station. The Fire Safety Director manning the fire command station will inform the Fire Department of your location.

If you are in need of relocation and the Fire Department is not available to relocate You, a member of the Public Safety Department will relocate you in a safe location.

If necessary, you will be relocated to a safe floor or taken out of the building.
Training and Orientation

A. Training

Public Safety personnel are trained in the proper methods for safe lifting and carrying of physically challenged individuals. (See Assembling and Relocation Procedures).

B. Orientation

Orientation to the Fire Safety plan, including the relocation procedures, will be provided for the physically challenged faculty, students, and staff yearly under the auspices of the 504 committee. Orientation for the new physically challenged students will be included in the orientation program for entering freshman. Instructions regarding the Fire Safety Plan and Relocation Procedures will be included in the regularly conducted fire drills.

Locating Physically Challenged Individuals

Public Safety maintains class schedules for the physically challenged and work Schedules for physically disabled faculty and staff. These schedules will be used to assist emergency personnel to locate disabled individuals in an emergency.

Students are responsible for reporting their class schedules, work schedules, and schedule changes to the Coordinator of the Office of Access and Accommodations located in the East Building room E-1124.

Physically challenged faculty and staff are responsible for reporting their work schedules and any changes to the Director of Human Resources located in the East Building room 1502 A.

Responsibility for Implementation

The Director of the Department of Public safety is responsible for the Implementation of the Fire Safety Plan.

Distribution of Fire Safety Plan for Physically Challenged

The Hunter College Fire Safety Plan for Physically Challenged Individuals will be distributed to all physically challenged faculty, students and staff.

Assembling and Relocation Procedures

When there is a fire alarm in one of the college’s buildings, physically challenged individuals who are unable to walk down steps should assemble at one of the Physically Challenged Individuals Fire Emergency Assembly Areas (P.C.I.F.E.A.A.)

These areas are located on every floor of Hunter College’s buildings near the two stairwells closet to the elevators. Please look for the signs marked “Physically Challenged Individuals Fire Emergency Assembly Area.”
During a fire alarm, fire wardens, fire searchers and Public safety personnel have been directed to communicate the number, the location, and the status of all physically challenged individuals via Fire Warden Phones or through Public Safety personnel at the Fire Command Station. The Fire Safety Director or Public Safety Officer at the Fire Command Station will notify members of the New York City Fire Department that responds to the building of the status of all physically challenged individuals in the building.

No person should ever use an elevator in a fire unless directed by Fire Department personnel. The New York City Fire Department has stated that they have the primary responsibility to determine if elevators can be used to transport physically challenged individuals during fire emergencies. Fire Department officials also state that they are responsible for relocating physically challenged individuals to a safe location if such action is deemed necessary.

The New York City Fire Department considers transporting physically challenged individuals in an emergency a very risky procedure. The relocation process may subject physically disabled individuals and those assisting to transport them to sustain injuries. However, if it is necessary to relocate physically challenged individuals during an emergency, the Fire Department will handle the relocation using safe procedures and experienced Fire Department personnel.

If the elevators have been deemed safe by The New York City Fire Department to be used for transporting physically challenged individuals during a fire alarm all assembled individuals will be relocated to a safer area. The New York City Fire Department considers use of elevators to be the best method of relocation because it is practical, safe and efficient. This explains the Fire Departments position of advocating emergency assembly areas for physically challenged individuals. The Fire Department often refers to this type of assembly area as a refuge area.

If there have been excessive alarms activated in the building it may be the result of either a system function that was activated but response by the Fire Department was not necessary such as cigarette smoke near a smoke detector or an unwarranted alarm due to a system malfunction. If there is no imminent threat of danger from fire or smoke the Fire Department does not automatically recommend the evacuation of physically challenged individuals outside the building. In most cases, the Fire Department would recommend that such individuals be moved to a safe location within the building.

If you have any questions regarding the standards used to determine the need for evacuating the buildings, contact the Director of Public Safety at (212) 772-4521.

When Public Safety Officers will Relocate Physically Challenged Individuals

If, for any reason, a physically challenged individual is in imminent danger due to fire, smoke, or any other life-threatening situation on campus, and members of the Fire Department are not present to relocate the physically challenged individual, Public Safety Officers and other members of the Fire Brigade will assume the responsibility of relocating that individual to a safe location.

Public Safety Officers and members of the Fire Brigade operating under the direction of the Fire Safety Director will take command and take immediate action to relocate physically challenged individuals to a safe location.

Note: The Public Safety Officer in charge of the evacuation process will determine the number of carriers needed to relocate a physically challenged individual. Factors to be considered when making these assignments will be weight of physically challenged individual, the weight of the wheelchair, the width of the staircase and any other factors that are deemed necessary to successfully carry out these functions without incident.

Procedures

Person Who Is Visually Impaired
A physically challenged person who is visually impaired and has to be relocated but is able to walk downstairs, will be personally escorted to a safe location by either a Public Safety Officer, a Fire Warden, a Fire Searcher, or a member of the college Fire Brigade.

**Person Who Is Hearing Impaired**

A person who is hearing impaired will be alerted to a fire alarm by either blinking strobe lights, a Public Safety Officer, a Fire Warden, a Fire Searcher, or a member of the Fire Brigade. A person who is hearing impaired and has to be relocated but is able to walk downstairs, will be escorted to a safe location by either a Public Safety Officer, a Fire Warden, a Fire Searcher, or a member of the college Fire Brigade.

**Lifting and Carrying Physically Challenged Individuals**

Before lifting any physically challenged person, when possible ask the physically challenged person how they should be lifted. A physically challenged person knows better than anyone else how she/he should be lifted or carried in order to avoid any unnecessary injuries to herself/himself.

**For Your Safety**

All Hunter College buildings are equipped with Fire Emergency notification devices. It is the responsibility of everyone to become familiar with their locations and their uses. These Fire Emergency notification devices consists of the following:

**Fire Alarm**

The Fire Alarm Pull Stations are small red boxes. They are mounted on the walls and located next to a fire exit. Printed on these pull stations is “Pull Here In Case Of Fire”. To activate the Fire Alarm Pull station, follow these steps:

Pull down the white lever on the Fire Alarm Pull Station box. This will cause the fire alarm to sound on that floor and the floor above. In addition, it will send a signal to the Fire Command Station indicating the location of activation. The Fire Safety Director at the Fire Command Station will carry out the fire emergency procedures. Familiarize yourself with the Fire Alarm Pull Stations so in an event of a fire you will know where they are located.

During a fire alarm, Fire Wardens, Fire Searchers and Public Safety Officers have been directed to communicate the number, the location, and status of all physically challenged individuals via Fire Warden Phones to the Fire Command Station. The Fire Safety Director will notify members of the New York City Department regarding the status of all Physically Challenged Individuals in the building as soon as the Fire Department arrives on campus.

No person should ever use the elevator unless directed by the Fire Department personnel. Using the elevator in a fire is extremely dangerous and Hunter College has been informed by the Fire Department that the use of elevators in a fire has, in many incidents, resulted in unfortunate deaths of many people.

The New York City Fire Department will be responsible for the relocation of physically challenged individuals to a safe location if deemed necessary. The Fire Department considers relocation of physically challenged individuals to be very hazardous during an emergency. The relocation process may subject individuals to sustain injuries or have accidents.

If the elevators can be used during a fire alarm, the Fire Department considers this the best method of relocation because it is practical, safe and efficient. This explains the Fire Department’s position of advocating emergency
assembly areas for physically challenged individuals. The Fire Department refers to this type of assembly area as a refuge area.

When there is report of a fire alarm in the building and physically challenged individual is not specifically in any danger from the fire or smoke condition, the Fire Department does not automatically recommend a full building evacuation, rather relocation to a safe area within the building.

*Note: It is imperative that every member of the Hunter College community understand the protocol of the New York City Fire Department for evacuation of a building that is experiencing a fire. Everyone in the building should not automatically evacuate to the street or be relocated within the building. This is the policy for both physically challenged and non-physically challenged individuals.*

If you have any questions regarding the various parameters used to evaluate the necessity of evacuations and relocations, please consult with the Fire Safety Director at (212) 772-4521.

Health Requirements for Enrollment

Return to: General Information

Health Requirements

Prior to registration, the following health requirements must be met:

**Immunizations for Measles, Mumps and Rubella** Public Health Law 2165 requires college students to present a complete record of two live immunizations against measles and a single immunization against mumps and rubella. Students born on/or after January 1, 1957 must submit a complete immunization record signed by a health practitioner. Further information regarding health standards may be found in the Student Rights and Regulations section of this catalog.

**Meningococcal Disease** Public Health Law 2167 requires institutions, including colleges and universities, to distribute information about meningococcal disease and vaccination to all students meeting the enrollment criteria, whether they live on or off campus. Hunter College of the City University of New York is required to maintain a record of the following for each student: a) response to receipt of meningococcal disease and vaccine information signed by the student; b) record of meningococcal meningitis immunization within the past 10 years; or c) acknowledgement of meningococcal disease risks and refusal of meningococcal meningitis immunization signed by the student. Please note that students will not be allowed to continue at Hunter if they are not compliant (have not handed in their Response Form) within 30 days from the first scheduled day of classes. To learn more about meningitis and the vaccine, please consult your physician. You can also find information about the disease at http://www.cdc.gov.

For more information and to download/print the Immunization Requirement Form please see the following website: http://studentservices.hunter.edu/. The form must be returned to the Office of Health Services, 307 Hunter North. Office hours are Monday-Thursday 10-6 and Friday 10-3 pm.
HEGIS and Admission/Curriculum Codes

This is a list of graduate degree, advanced certificate, and combined undergraduate/graduate degree program offered at Hunter College. These programs have been approved by the New York State Education Department and are listed in the Inventory of Registered Programs, http://www.nysed.gov/heds/irps11.html.

Next to each program on the list are the appropriate Higher Education General Information Survey (HEGIS) code number and the Hunter College admission/curriculum code number.

For specific information on a particular graduate program – including faculty, admission and degree requirements, and course descriptions, consult Programs of Study.

School of Arts and Sciences

HEGIS and Admission/ Curriculum Codes for the School of Arts and Sciences.

CUNY School of Public Health at Hunter College

HEGIS and Admission/ Curriculum Codes for the CUNY School of Public Health at Hunter College

Hunter-Bellevue School of Nursing

HEGIS and Admission/ Curriculum Codes for the Hunter-Bellevue School of Nursing.

School of Social Work

HEGIS and Admission/ Curriculum Codes for the School of Social Work.

School of Education

HEGIS and Admission/ Curriculum Codes for the School of Education.

Accreditation

The programs of Hunter College are registered by Regents of the State of New York. The college is accredited by the Middle States Commission on Higher Education. Individual programs and schools are recognized and accredited by their national bodies. These are: the National Council for Accreditation of Teacher Education; the Council of Social Work Education; the Commission of Collegiate Nursing Education of the American Association of Colleges of Nursing; the Planning Accreditation Board of the American Planning Association, the Association of Collegiate Schools of Planning and the American Institute of Certified Planners; the Council on Rehabilitation Education; the Council on Academic Accreditation of the American Speech-Language-Hearing Association, the Council on Education for Public Health, the American Dietetic Association Council on Accreditation of Dietetic Education; the Commission on Accreditation in Physical Therapy; Accreditation Board for Engineering and Technology.
Graduate Programs

Page 5 contains a list of graduate degree, advanced certificate, and combined undergraduate/graduate degree program offered at Hunter College. These programs have been approved by the New York State Education Department and are listed in the Inventory of Registered Programs, http://www.nysed.gov/heds/irps11.html.

Next to each program on the list appearing the this catalog are the appropriate Higher Education General Information Survey (HEGIS) code number and the Hunter College admission/curriculum code number.

For specific information on a particular graduate program – including faculty, admission and degree requirements, and course descriptions, consult the appropriate section of this catalog.

Doctoral Program

The university-wide doctoral program, centrally supervised by the City University Graduate Center, offers a PhD in the following academic disciplines: anthropology, art history, audiology (AudD), biochemistry, biology, biomedical sciences, business, chemistry, classics, comparative literature, computer science, criminal justice, earth and environmental sciences, economics, education (educational psychology and urban education), engineering, English, French, Germanic languages and literature, Hispanic and Luso-Brazilian literatures, history, linguistics, mathematics, music (PhD, DMA), musical arts, nursing (DNS), philosophy, physical therapy (DPT), physics, political science, psychology, social welfare, sociology, speech and hearing sciences, and theatre. The doctoral faculty is composed of faculty members from the senior colleges who hold CUNY Graduate Center appointments. Doctoral courses are taught at the Graduate Center and on the senior college campuses. The Graduate Center is located at 365 Fifth Avenue, New York NY 10016.

Hunter College Administration

Return to: General Information

President:

Jennifer J. Raab, JD

Provost and Vice President for Academic Affairs:

Vita C. Rabinowitz, PhD

Vice President for Student Affairs and Dean of Students:
Hunter College Mission Statement

Hunter College is a comprehensive teaching, research and service institution, long committed to excellence and access in the education of undergraduate and graduate students in the liberal arts and sciences, as well as in several professional fields: education, health sciences, nursing and social work.

Founded in 1870, Hunter is one of the oldest public colleges in the country, dedicated from its earliest days to serving a student body which reflects the diversity of New York City. Hunter takes pride in the success it has had over the years
in enabling the people of New York to combine the strengths of their varied experiences with the skills they need to participate effectively in the wider society. Committed to the achievement of a pluralistic community, Hunter College offers a curriculum designed to meet the highest academic standards while also fostering understanding among groups from different racial, cultural and ethnic backgrounds.

The goal of a Hunter College education is to encourage the fullest possible intellectual and personal growth in each student. While preparation for specific careers is an important objective of many programs, the fundamental aim of the college experience as a whole is to develop a student’s rational, critical and creative powers. Such development involves the abilities to conceptualize and analyze, to relate the concrete and particular to the abstract and general, and to think and write logically and coherently. It also includes a broadening and deepening of outlook: an awareness of one’s own and other cultures as well as of the enduring questions and answers concerning being, purpose, and value that confront humanity. Finally, the educational experience at Hunter is intended to inspire a zest for learning as well as to bring the recognition that learning is pleasurable and knowledge is useful.

While teaching and research are its primary missions, community service is also an essential goal of the college. Hunter faculty seek to generate new knowledge and to design programs to address the myriad cultural, social and political needs of New York City and the world.

</table>
Anthropology is the study of humanity in all its cultural and biological diversity. In the United States, the discipline traditionally includes four fields: archaeological, biological, sociocultural, and linguistic anthropology, although research increasingly examines questions at the borders of the fields or which span more than one field. The department maintains a commitment to a four-field approach to graduate training despite a national trend towards increasing specialization at earlier stages of graduate training. A student with a solid four-field background can readily opt to specialize, while one-field specialists are hard to retrain as generalists. Anthropology provides essential foundations and perspectives for the study of the social and natural sciences and the humanities, as well as for applied professions such as education, public health, and social work. The Anthropology curriculum emphasizes original research, scholarly writing, informed critical thinking, and the understanding of, and tolerance for diverse cultures and ways of life.

We consider hands-on training in ethnographic fieldwork, archaeology, biological anthropology, and quantitative methods to be an integral part of graduate training. The faculty is actively involved in interdisciplinary teaching, interdepartmental collaborative efforts, and individual and team research projects, including many that involve new information technologies, cultural resource management, environmental impact assessment, ethnicity and gender, regional and area studies, and economic development—to name a few. The Department is also committed to involving graduate students in ongoing faculty-supported research, and in encouraging independent student-initiated research projects.

The entire Master's Degree Program is tied to an evening course schedule thereby offering a unique educational resource in an urban area where the majority of potential graduate students are self-supporting and hold full-time jobs.

Thomas H. McGovern, Professor; PhD, Columbia; Archaeology, Paleoecology, Faunal Analysis, Norse and Inuit Cultures, Human Dimensions of Global Change

William J. Parry, Professor; PhD, Michigan; Southwest U.S., Mesoamerica, Lithic Analysis, Hunter-Gatherers

Herman Pontzer, Assistant Professor; PhD, Harvard; Human Foragers, Energetics and Evolution of Bipedalism, Hominin Biomechanics

Jessica Rothman, Assistant Professor; PhD, Cornell; Primate Ecology and Behavior, Nutrition, Evolutionary Ecology, Tropical Forest Ecology, Africa

Jonathan Shannon, Associate Professor; PhD, CUNY; Cultural Anthropology, Aesthetics, Ethnomusicology, The Middle East, Islamic Society
**Graduate Masters**

**Anthropology - MA**

The Department of Anthropology at Hunter College offers the only master’s program in general anthropology within the City University. The program has a commitment to a four-field approach to graduate training, requiring a substantial background in cultural anthropology (ethnology), physical anthropology, anthropological archaeology and anthropological linguistics, in order to prepare students for flexibility in future careers in research, teaching and related fields.

The entire program is scheduled in the evening, to accommodate students who hold full-time jobs.

Virtually all students who complete the MA program and apply to PhD programs at other institutions are admitted to a program.

A substantial proportion of MA students are accepted in PhD programs before completing requirements for the Hunter MA. Hunter MA students may take courses at the CUNY Graduate Center. Most of the Hunter anthropology faculty are also members of the faculty of the Graduate Center doctoral program in anthropology.

Students are encouraged to participate in faculty research, much of which is externally funded, providing limited opportunities for part-time employment. Scholarships are also available for students in the program to participate in field schools and to conduct field research. Write or email the graduate adviser for further information.

**Requirements for Admission**

In addition to meeting the general requirements for admission, students must have at least 9 credits in undergraduate anthropology or a related field, although in special cases this requirement may be waived.

**Requirements for the Degree**

1. **30 credits**

   A minimum of 30 credits beyond the BA

2. **Fields of the discipline**

   The program of study must be chosen to fulfill a general knowledge in all four fields of the discipline. The four fields are: anthropological linguistics, anthropological archaeology, biological anthropology, and ethnology.
3. The following courses are required:

**ANTH 70100 - Ethnology (Core Course)**

Surveys history, methods, theory, and basic findings of cultural and social anthropology.

*Hours 45 hrs, including conferences,*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 75000 - Archaeology (Core Course)**

Introduces basic theory, method, and findings of prehistoric archaeology in an anthropological framework.

*Hours 45 hrs, including conferences,*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 77000 - Linguistics (Core Course)**

*Hours 45 hrs, including conferences,*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 79000 - Biological Anthropology (Core Course)**

An introduction to the biology and evolutionary history of humans, including evolutionary theory, genetics, morphology, primate behavior, sociobiology, and paleontology.

*Hours 45 hrs, including conferences,*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

**Additional Information**

The examinations in each of these courses represent the qualifying exam for each of the four fields. Students are required to pass those courses with a grade of “B” or better. Students are strongly advised to complete these courses early in their graduate training. Overlaps in undergraduate and graduate course requirements for BA/MA students may justify some adjustments in consultation with the graduate adviser on a case-by-case basis, but qualifying exams will be required in any case. BA/MA students must complete the requirements for both degrees.

4. Foreign language

A reading knowledge of at least one foreign language appropriate to the field of specialization, or a demonstrated competence in statistics
5. A master’s thesis

**Anthropology Independent Study or Research**

**ANTH 78500 - Independent Study**

Directed research in any of the 4 subdisciplines on topic chosen by student. Permission of instructor and grad adviser required prior to registration.

*Hours 45 hrs, including conferences,*  
*Credits 3 cr*  
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 78600 - Research in Anthropology**

Directed research in any of the 4 subdisciplines on topic chosen by student. Permission of instructor and grad adviser required prior to registration.

*Hours 45 hrs, including conferences,*  
*Credits 3 cr*  
*All students must consult with the graduate adviser before registering for any course. Courses offered upon sufficient student demand*

**Anthropology Thesis**

**ANTH 70600 - Master’s Thesis Seminar**

Individual research under supervision of student’s thesis adviser, limited to students matriculated in the MA program. Credit awarded upon approval of master’s thesis.

*Hours 45 hrs, including conferences,*  
*Credits 3 cr*  
*All students must consult with the graduate adviser before registering for any course.*

**Archaeology**

**ANTH 75000 - Archaeology (Core Course)**

Introduces basic theory, method, and findings of prehistoric archaeology in an anthropological framework.

*Hours 45 hrs, including conferences,*  
*Credits 3 cr*  
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 75100 - Seminar in Archaeology**

Each of the following advanced seminars deals with a set of theoretical and methodological topics related to current developments in archaeology: Regional Analysis – a survey and discussion of approaches to the analysis of ancient settlement patterns. Faunal Analysis – an introduction to methods and theoretical problems involved in the use of
animal bone evidence for prehistoric economies. Analytical Methods – an introduction to a range of methods of data management and analysis in archaeology; includes training in the use of computer software. Field Methods – an introduction to the problems of practical field research design in archaeology and basic field techniques. Use of basic surveying equipment is covered, with extensive hands-on experience provided.

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 75600 - Prehistoric Human Ecology**

Problems in analysis of interaction of human economies and changing natural environments. Archaeological view of human role in various ancient ecosystems.

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 75800 - Rise of Civilization**

Theoretical and empirical investigation of evolution of urbanism and state in both hemispheres.

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 75900 - Archaeology of Europe**

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 76000 - Archaeology of Africa**

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 76100 - Archaeology of Near East**

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 76200 - Archaeology of New World

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 76300 - Archaeology of Mesoamerica

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

Biological Anthropology

ANTH 79000 - Biological Anthropology (Core Course)

An introduction to the biology and evolutionary history of humans, including evolutionary theory, genetics, morphology, primate behavior, sociobiology, and paleontology.

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 79100 - Seminar in Biological Anthropology

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 79200 - Human Ecology and Population Dynamics

From viewpoint of biological anthropology, course examines environmental factors that affect distribution, growth, and senescence of human populations.

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 793000 - Human Evolutionary Genetics
Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

*Hours 45 hrs, including conferences,*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 79900 - Human Fossil Record**

Fossil evidence on human evolution from Pliocene Australopithecus to modern Homo sapiens. Considers paleoecology, morphology, chronology, and phylogeny.

*Hours 45 hrs, including conferences,*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

**Ethnology**

**ANTH 70100 - Ethnology (Core Course)**

Surveys history, methods, theory, and basic findings of cultural and social anthropology.

*Hours 45 hrs, including conferences,*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 70200 - Seminar in Ethnology**

*Hours 45 hrs, including conferences,*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 70300 - History of Anthropological Theory**

Treatment of major currents and schools in anthropological thought from 19th century to present.

*Hours 45 hrs, including conferences,*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 70700 - Kinship and Social Structure**

Comparative analysis of kinship systems including kinship terminology, descent groups, family and household forms, and various models of explanation.

*Hours 45 hrs, including conferences,*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 70800 - Religion and Ideology**
Comparative analysis of religious beliefs and practices, cosmology, and other aspects of ideology, especially in non-Western societies.

*Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 71200 - Hunters and Gatherers**

Analyzes both modern and prehistoric foraging societies with particular emphasis on ecological approach.

*Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 71500 - Cultural Ecology**

Evolutionary view of interactions of human populations and their environment with emphasis on processes of cultural adaptation.

*Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 71600 - Medical Anthropology**

Health and disease viewed comparatively in terms of how societies perceive, explain, prevent, and treat illness.

*Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 71800 - Applied Anthropology**

Cross-cultural aspects of development work in U.S. and abroad. Theoretical foundations and practical aspects with emphasis on necessary ancillary skills.

*Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 72000 - Political Anthropology**

Examination of different systems of political organization with emphasis on tribal and peasant societies.

*Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 72100 - Anthropology of Art**
Comparative study of expressive culture in Western and non-Western societies with special emphasis on plastic arts.

*Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 72500 - Sex and Gender in Anthropological Perspective**

Reading and research on human sexual dimorphism, reproductive behavior, and cultural conditioning of gender roles.

*Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 72600 - Ethnology of Africa**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

*Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 72700 - Ethnology of Europe**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

*Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 72800 - Ethnology of Near East**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

*Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 72900 - Ethnology of Southeast Asia**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

*Hours 45 hrs, including conferences,*
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 73000 - Ethnology of China and East Asia**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

*Hours 45 hrs, including conferences,*

Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 73100 - Ethnology of Caribbean**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

*Hours 45 hrs, including conferences,*

Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 73400 - Ethnology of South America**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

*Hours 45 hrs, including conferences,*

Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 73500 - Ethnology of North American Indians**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

*Hours 45 hrs, including conferences,*

Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**Linguistics**

**ANTH 77000 - Linguistics (Core Course)**

All students must consult with the graduate adviser before registering for any course.

ANTH 77100 - Seminar in Linguistics

Hours 45 hrs, including conferences,
Credits 3 cr

ANTH 77700 - Language and Culture

Role of language, dialect, and bilingualism in social life, including language of politics, language in education, language variation as related to context, sex, status, topic, etc.

Hours 45 hrs, including conferences,
Credits 3 cr

ANTH 77800 - Seminar in Sociolinguistics

Selected topics in language and society, such as language and ethnicity, bilingualism, language contact, creole languages, etc.

Hours 45 hrs, including conferences,
Credits 3 cr

Anthropology: Courses offered upon sufficient student demand

ANTH 70400 - Field Research

Hours 45 hrs, including conferences,
Credits 3 cr

ANTH 70500 - Quantitative Measures

Hours 45 hrs, including conferences,
Credits 3 cr

ANTH 70900 - Folklore and Mythology

Hours 45 hrs, including conferences,
Credits 3 cr

ANTH 71000 - Psychological Anthropology
Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 71100 - Economic Anthropology**

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 77200 - Phonological Analysis and Theory**

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 77300 - Grammatical Analysis and Theory**

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 77500 - Linguistic Field Techniques and Methods**

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 77600 - Cognitive Anthropology**

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 79400 - Primate Ecology and Behavior**

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 79500 - Primate Paleontology**

Hours 45 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**Programs and Courses in Art**
Art

About the Department

The Hunter College art department offers two distinguished master’s programs, an MA in art history and an MFA in creative art. The department boasts world renowned faculty in art history and studio art.

Hunter is situated within walking distance of a range of resources unsurpassed anywhere for the study of art history: outstanding museums, galleries and specialized research libraries. The Art History - MA , granted by Hunter College since 1952, is a comprehensive program of study intended to give the student a broad background in the history of art as well as an in-depth concentration in a particular area. It leads to enrollment in PhD programs throughout the country and serves as a terminal degree for professional work in museums, galleries, arts organizations and art publishing.

In New York, as nowhere else, the Creative Art - MFA student has access to the changing ideas and forms of contemporary art. This is crucial to the achievement of the goal of the MFA program: to develop professional artists capable of continued growth once they leave the relatively structured university environment. The program is designed to offer broad training for the artist in the development of critical and analytical visual thinking as it relates to their work. Students are encouraged to develop their own art through constant peer contact in the studios, individual work with faculty tutors, critical seminars focusing on student work, and classes in the theory and history of art. Electives in a range of studio practices broaden student experience and are also required. In addition, many artists, curators, critics and historians are invited to meet with students.

Facilities

The department functions in two main Manhattan locations, the main campus at 68th Street and Lexington Avenue and the MFA Studio Building at 450 West 41st Street. The main campus at 68th Street houses the administration, the Leubsdorf Art Gallery, and the new Zabar Art Library with extensive databases including Artstor, a digital source of over one million images in the arts and humanities. It also houses fully equipped workshops on the 11th floor in photography, graphics (printmaking), metal, wood and plaster, as well as a computer lab and painting and drawing studios. The basement of Thomas Hunter Hall, the adjacent building, houses the clay workshop.

The MFA Building is a large, unique facility that plays a significant role in the life of the college and, indeed, the city as a whole. It includes approximately 140 studios, averaging 300 square feet in size, and the 11,000 square foot Time Square Gallery. The building houses a number of workshops and labs including photography, wood, metal, printmaking and ceramics studios, as well as digital labs.

Galleries

The Bertha and Karl Leubsdorf Art Gallery, located at the main campus, houses professionally organized exhibits that support the educational programs of the Art Department of Hunter College.

The Times Square Gallery at 450 West 41st Street is a 11,000-sq. ft. space renovated by graduate students and faculty.

Students in both programs have opportunities to make curatorial and research contributions to shows mounted at the Hunter College Galleries.

Faculty

Studio

Andrea Blum, Professor; MFA, Art Institute of Chicago

Joel Carreiro, Professor and MFA Program Director; MFA, Hunter

Susan Crile, Professor; BA, Bennington

Lisa Corinne Davis, Associate Professor; MFA, Hunter

Constance De Jong, Distinguished Lecturer; MFA, Ohio State

Gabriele Evertz, Associate Professor; MFA, Hunter

Valerie Jaudon, Professor; St. Martins School of Art, London

Reiner Leist, Associate Professor; MFA, School of Visual Arts

Jeffrey Mongrain, Professor; MFA, Southern Illinois

Anthony Panzera, Professor; MFA, Southern Illinois

Paul Ramirez Jonas, Assistant Professor; MFA, Rhode Island School of Design
Juan Sánchez, Professor; MFA, Rutgers

Robert Swain, Professor; BA, American

Nari Ward, Professor; MFA, Brooklyn

Thomas Weaver, Professor and Department Chair, Executive Director, Hunter Galleries; MFA, Hunter

Brian Wood, Associate Professor; MA, Hunter

Sanford Wurmfeld, Phyllis and Joseph Caroff Professor of Art; BA, Dartmouth

**History and Criticism**

William Agee, Kossak Distinguished Professor; MA, Yale; 20th-century American Art, Theory and Criticism

Ülkü Bates, Professor; PhD, Michigan; Islamic Art

Emily Braun, Distinguished Professor and Art History Deputy Chair; PhD, NYU; 20th-century Art

Hendrik W. Dey, Assistant Professor; PhD, Michigan, Ancient Art, Architecture, and Archaeology

Cynthia Hahn, Professor; Medieval Art, PhD, Johns Hopkins

Maria Antonella Pelizzari, Associate Professor; PhD, New Mexico, History of Photography

Joachim Pissarro, Bershad Professor of Art History & Director of Hunter Galleries; PhD, Texas, 19th Century to Contemporary Art, Museum Studies

Elinor Richter, Associate Professor; PhD, Columbia; Renaissance Art

Katy Siegel, Associate Professor; PhD, Texas (Austin); Contemporary Art History and Criticism

Richard Stapleford, Professor; PhD, NYU; History of Architecture; Late Antique-Early Medieval Art; Renaissance Art

Lisa Vergara, Associate Professor; PhD, Columbia; Baroque and Northern Renaissance Art

Tara Zanardi, Assistant Professor; PhD, Virginia; 18th and 19th Century Art, Spanish and Colonial Art

**Graduate Masters**

**Art History - MA**

The MA in art history, granted by Hunter College since 1952, is a comprehensive program of study intended to give the student a broad background in the history of art as well as an in-depth concentration in a particular area. It leads to
enrollment in PhD programs throughout the country and serves as a terminal degree for professional work in museums, galleries, arts organizations and art publishing.

**Admission Requirements**

Applicants are admitted in both fall and spring semesters. The applicant must have completed 12 credits of undergraduate courses in art history. Reading knowledge of a foreign language (French, German, or Italian) is required. All supporting material requested by the college’s Graduate Admissions Office (GRE score, official transcript, two to three letters of recommendation) as well as the completed on-line application form must be supplied by the application deadlines. **Application Deadlines: for fall admission, February 1; for spring admission, October 1.**

**Requirements for the MA in Art History (30 cr)**

1. **Course distribution:**

   Students are required to take ARTH 60200 (Research Methods in Art History), as early as possible in their course of study. At least one course must be taken in art historical theory or historiography, such as ARTH 73400, or a special topics course directly related to one of these areas. In addition, at least one course must be taken in each of three of the following areas, a, b, c, and d:
   
   a. Ancient and Medieval Art
   
   b. Renaissance, Baroque, and 18th-century Art
   
   c. Modern (19th- or 20th-century) and American Art
   
   d. Non-Western Art

2. **Permission of the graduate adviser:**

   With the permission of the graduate adviser, candidates for the MA in art history may take up to 6 credits in studio courses or in courses in related areas.

3. **Transfer students:**

   Students may apply for transfer of up to, but no more than, 9 credits from another institution (including the Graduate Center of the City University of New York). Permission to transfer credits is not guaranteed and is considered on a case by case basis.

4. **Examinations:**

   Students must take and pass two examinations before they are permitted to proceed beyond 15 credits. It is recommended that they take these examinations as early in their careers as possible. Both examinations are given once each semester.

   **Language Examination:**

   Students must demonstrate their ability to use at least one foreign language as a research tool by passing a written examination in French, German or Italian.
Comprehensive Examination:

Passing a written examination in the history of art is required of all candidates.

5. Mid-program evaluation:

The progress of each student will be reviewed upon the completion of 15 credits. Students will be permitted to proceed if they have demonstrated proficiency in writing and research skills and have passed the comprehensive and foreign language examinations.

6. Incomplete credit:

Students with 6 credits of IN (“Incomplete”) will not be permitted to register for courses.

7. Master’s thesis:

A thesis is required. The following (Thesis Research) (3 cr) is an elective.

**ARTH 79900 - Thesis Research**

Limited to matriculated MA students in art who have completed 20 grad cr. Independent research toward MA thesis under direction of faculty member.

Additional Information

For further information write the Graduate Adviser, Art History Program.

Facilities

The department functions in two main locations, the main campus at 68th Street and Lexington Avenue and the MFA Studio Building at 450 West 41st Street. The North Building at 68th Street houses the administration and the library and has fully equipped, newly renovated workshops on the 11th floor in photography, graphics, metal, wood, plaster, computer graphics and general painting studios. The basement of Thomas Hunter Hall, the adjacent building, houses the clay workshop. The MFA Building houses the graduate studios, the MFA Gallery, and the graduate photo, wood, metal and ceramics studios.

Galleries

The Bertha and Karl Leubsdorf Art Gallery, located at the main campus, houses professionally organized exhibits that support the educational programs of the Art Department of Hunter College.

The MFA Gallery at 450 West 41st Street is a 12,000-sq. ft. space renovated by graduate students and faculty.

The entire exhibition program maximizes student and faculty participation to expand the parameters of the graduate programs in both fine arts and art history.

Scholarships and Travel Grants
The Esther Fish Perry Award for outstanding students is given each year to an MFA student in the final year of study. Enrolled students are encouraged to apply for the William Graf Travel Grant: approximately two awards of up to $1,200 each are given every semester to an MA and MFA student. Tony Smith Awards are given to students at the discretion of faculty.

Creative Art - MFA

Hunter’s ideal location in Manhattan offers students and faculty many intellectual, cultural and creative resources. In New York, as nowhere else, the student has access to the changing ideas and forms of contemporary art. This is crucial to the achievement of our educational goal: to develop professional artists capable of continued growth once they leave the relatively structured university environment. The program is designed to offer broad training for the artist in the development of critical and analytical visual thinking as it relates to their work. In this programmatic context students are encouraged to develop their own art through constant peer contact in the studios, individual work with faculty tutors, critical seminars focusing on student work, and classes in the theory, criticism and history of art. Electives in a range of studio practices are also required. In addition, many artists, curators, critics and historians are invited to meet with students.

Admission Requirements

Applications are reviewed once a year. The applicant must have completed at least 24 credits of undergraduate courses in studio art and 9 credits in art history, as well as an undergraduate degree from an accredited institution. Applicants who have a previously completed MFA in art cannot be considered for admission to the studio art program at Hunter College. Applicants must submit the on-line Hunter College Graduate Application for Admission. This application, with all supporting materials, must be submitted prior to the January 15 deadline. In addition, applicants must upload their portfolio and statement of purpose to slideroom.com. Further instructions can be found on the Art Department website at:

http://www.hunter.cuny.edu/art/MFA/mfa_application.htm

The Art Department Graduate Admissions Committee will select finalists for admission to the MFA program. All finalists will be scheduled for an interview. Final decisions will be determined by mid-April.

MFA Application Deadline: January 15 for admission in the following academic year.

Requirements for the MFA in Creative Art (48 cr)

Each candidate for the MFA must select one field of concentration in studio art: painting, sculpture, printmaking/drawing/works on paper, photography, clay & casting, or combined media, and present an MFA project in that area.

Candidates must complete 48 credits, distributed as follows:

9 credits of tutorial work;

9 credits of seminar work;

9 credits of studio electives (exclusive of the area of concentration);

9 credits of liberal arts electives in the history, theory, and criticism of art;

6 elective credits which may be used for additional art history or studio electives, or non-traditional courses or projects such as apprenticeships, teaching assistantships or participation in the foreign exchange program;
Mid Program Review: Eligibility to continue to work toward the degree is evaluated by a committee of all MFA faculty in the semester of the second tutorial and seminar.

6 credit MFA Thesis Project (ARTCR 79100) completed under the guidance of a faculty Thesis Advisor.

All students are provided individual work spaces in the MFA Studio Building and are required to work in them throughout their residency. There are four floors (approximately 10,000 sq. ft. each) for student studios, seminar rooms, and workshop and exhibition areas. The regular curriculum will be supplemented by a monthly lecture series, providing a forum for the presentation of aesthetic ideas by artists, critics, historians, and resident faculty.

Foreign Exchange Program

Several MFA students are selected each year to receive stipends for a period of one semester at the Glasgow School of Art, Scotland; the Ecole des Beaux-Arts, Paris; the Royal College of Art, London; the Hochschule der Künste, Berlin, Frank Mohr Institute, the Netherlands.

Scholarships and Travel Grants

Among other awards, the Esther Fish Perry Award for outstanding students is given each year to an MFA student in the final year of study. Also, grants from the Tony Smith find are awarded to selected MFA students upon graduation. Enrolled students are encouraged to apply for the William Graf Travel Grant: approximately two awards of up to $1,200 each are given every semester to an MA and MFA student.

Art History

Art History courses serve both MA and MFA student populations

ARTH 60200 - Research Methods of Art History

Training in bibliographical materials and research methods through examination of special problems in art history and writing of research paper.

*Hours 45 hrs,  *  
*Credits 3 cr  *
*offered every semester*

ARTH 61900 - Greek Art

Greek sculpture and painting from Geometric to Hellenistic period. Emphasis on masterpieces of Archaic, Classical, and Hellenistic eras.

*Hours 45 hrs,  *  
*Credits 3 cr  *

ARTH 62000 - Roman Art

Roman art from Republican period to Age of Constantine. Emphasis on imperial reliefs, portraits, sarcophagi, and wall painting.
**ARTH 62100 - Modern Art I**

Origins and history of modern art in 19th century.

*Hours 45  
Credits 3*

**ARTH 62200 - Modern Art II**

Modern art in 20th century.

*spring only*

**ARTH 62300 - Renaissance Art I**

Studies in art of 14th and 15th centuries.

*Hours 45  
Credits 3*

**ARTH 62400 - Renaissance Art II**

Studies in art of 16th century.

**ARTH 62500 - Baroque Art**

Studies in art of 17th century.

**ARTH 63600 - Chinese and Japanese Art**

Studies in Chinese and Japanese painting.

**ARTH 63700 - Medieval Art I**

Studies in art of early Middle Ages.

**ARTH 63800 - Medieval Art II**

Studies in art of later Middle Ages.

*spring only*

**ARTH 64100 - Islamic Art**

Art and architecture of Islamic world from Spain to India.
**ARTH 73400 - Theory and Criticism of Art**

Readings in the history of art history and/or critical theory as a background and methodology for current problems in the discipline and in contemporary art criticism.

**ARTH 74000 - Photography in the 19th Century**

Studies in 19th Century photography.

*Hours 45  
Credits 3*

**ARTH 75000 - Photography in the Twentieth Century**

An historical and critical survey of the art of photography in Europe and in the United States from the avant-gardes in the early twentieth century to conceptual art and postmodernism in the 1970s.

**ARTH 78000 - Special Topics in Art**

Graduate seminars on specific topics established by individual faculty. Topics in recent years have included Greek Vase Painting, The Islamic Object, Botticelli, Architecture of the Italian Renaissance, Origins of Abstraction, History of Photography, Art and Totalitarianism, Color Theory in Relation to Painting.

**ARTH 78007 - Modern Art III**

Studies in contemporary art.

**Art History Independent Research**

**ARTH 75500 - Independent Study**

Independent studies in history or theory of art under direction of faculty member.

*Credits 3*

**ARTH 79900 - Thesis Research**

Limited to matriculated MA students in art who have completed 20 grad cr. Independent research toward MA thesis under direction of faculty member.

**Studio Art - Tutorials**

**ARTCR 61100 - Advanced Painting I**
Individual tutorial with full-time faculty member.

*Hours 45 hrs,  
Credits 3 cr  
MFA majors in painting only*

**ARTCR 61200 - Advanced Painting II**

Individual tutorial with full-time faculty member.

*Hours 45 hrs,  
Credits 3 cr  
MFA majors in painting only*

**ARTCR 61300 - Advanced Painting III**

Individual tutorial with full-time faculty member.

*Hours 45 hrs,  
Credits 3 cr  
MFA majors in painting only*

**ARTCR 62100 - Advanced Sculpture I**

Individual tutorial with full-time faculty member. Development of creative expression in sculpture, including research projects in various media.

*Hours 45 hrs,  
Credits 3 cr*

**ARTCR 62200 - Advanced Sculpture II**

Individual tutorial with full-time faculty member. Development of creative expression in sculpture, including research projects in various media.

*Hours 45 hrs,  
Credits 3 cr*

**ARTCR 62300 - Advanced Sculpture III**

Individual tutorial with full-time faculty member. Development of creative expression in sculpture, including research projects in various media.

*Hours 45 hrs,  
Credits 3 cr*

**ARTCR 62500 - Advanced Graphic Arts I**

Individual tutorial with full-time faculty member. Woodcut (black and white and color) printing. Soft ground and hard ground etching. Aquatint. Line engraving on metal. Dry point. Color printing with metal; surface printing offset, and
intaglio color from traditional to latest experimental methods.

Hours 45 hrs,
Credits 3 cr
MFA majors in graphics only

**ARTCR 62600 - Advanced Graphic Arts II**

Hours 45 hrs,
Credits 3 cr

**ARTCR 62700 - Advanced Graphic Arts III**

Hours 45 hrs,
Credits 3 cr

**ARTCR 62900 - Combined Media**

Individual tutorial with full-time faculty member. Tutorial in various experimental media such as environmental, conceptual, film, video, etc.

Hours 45 hrs,
Credits 3 cr

**ARTCR 63100 - Advanced Photography I**

Individual tutorial with full-time faculty member. Advanced projects in photography ranging from photojournalism through formal and experimental multimedia imagery.

Hours 45 hrs,
Credits 3 cr
MFA majors in photography only

**ARTCR 63200 - Advanced Photography II**

Individual tutorial with full-time faculty member. Advanced projects in photography ranging from photojournalism through formal and experimental multimedia imagery.

Hours 45 hrs,
Credits 3 cr
MFA majors in photography only

**ARTCR 63300 - Advanced Photography III**

Individual tutorial with full-time faculty member. Advanced projects in photography ranging from photojournalism through formal and experimental multimedia imagery.

Hours 45 hrs,
Credits 3 cr
MFA majors in photography only

**ARTCR 63500 - Advanced Ceramics I**

Individual tutorial with full-time faculty member.

*Hours 45 hrs,
Credits 3 cr
MFA majors in clay and casting only*

**ARTCR 63600 - Advanced Ceramics II**

Individual tutorial with full-time faculty member.

*Hours 45 hrs,
Credits 3 cr
MFA majors in clay and casting only*

**ARTCR 63700 - Advanced Ceramics III**

Individual tutorial with full-time faculty member.

*Hours 45 hrs,
Credits 3 cr
MFA majors in clay and casting only*

**Studio Art - Seminars**

*Coreqirement: All seminars are to be taken simultaneously with a tutorial in the student’s area of concentration. See Studio Art - Tutorials listings.*

**ARTCR 65100 - Seminar in Two-dimensional Art I**

A weekly seminar to discuss students’ work and related topics.

*Hours 45 hrs,
Credits 3 cr*

**ARTCR 65200 - Seminar in Two-dimensional Art II**

A weekly seminar to discuss students’ work and related topics.

*Hours 45 hrs,
Credits 3 cr*

**ARTCR 65300 - Seminar in Two-dimensional Art III**

A weekly seminar to discuss students’ work and related topics.
ARTCR 65500 - Seminar in Three-dimensional Art I

A weekly seminar to discuss students’ work and related topics.

ARTCR 65600 - Seminar in Three-dimensional Art II

A weekly seminar to discuss students’ work and related topics.

ARTCR 65700 - Seminar in Three-dimensional Art III

A weekly seminar to discuss students’ work and related topics.

ARTCR 66100 - Seminar in Combined Media

A weekly seminar to discuss students’ work and related topics.

Studio Electives

ARTCR 64000 - Advanced Drawing I

A studio elective for MFA students.

ARTCR 64100 - Advanced Drawing II

A studio elective for MFA students.
ARTCR 64200 - Advanced Drawing III

A studio elective for MFA students.

Hours 45 hrs,
Credits 3 cr

ARTCR 75000 - Independent Study in Studio Art 1, 2

Hours 45 hrs,
Credits 3 cr
These credits are used when a student travels to one of our exchange programs.

ARTCR 75100 - Special Topics in Studio Art

Special projects in photography, ceramics, color theory, three-dimensional form theory, collage, time-based media and related topics. Topics offered vary from semester to semester.

Hours 45 hrs,
Credits 3 cr

ARTCR 75156 - Apprenticeship

Teaching Assistantship with a Full-time Faculty Member

prereq: must have passed Mid-Program Review, permission of the instructor

Studio Art MFA Thesis Project

ARTCR 79100 - MFA Project

Limited to matriculated students in MFA program who have completed 42 graduate credits. Independent research toward the MFA project under direction of faculty member.

Hours 45 hrs,
Credits 6 cr

Programs and Courses in Biochemistry

Biochemistry

About the Department
The interdisciplinary program in Biochemistry is jointly administered and staffed by members of the Biological Sciences and Chemistry departments. The master’s degree is offered as a terminal degree. Both first-year courses and advanced courses are available at Hunter College and/or at the Graduate Center, 365 Fifth Avenue, New York, NY 10016.

Faculty
Biological Sciences

Jesus Angulo, Professor; PhD, CUNY; Molecular Mechanisms of Drug-Induced Toxicity and Cell Death in the Brain

Jill Bargonetti-Chavarria, Professor; PhD, CUNY; The Role of p53 in Tumorigenesis

Derrick Brazill, Associate Professor; PhD, California (Berkeley); The Signal Transduction of Cell Density Sensing

Robert Dottin, Professor; Ph.D, Toronto; Regulation of Gene Expression by Signal Transduction

Laurel Eckhardt, Marie L. Hesselbach Professor; Ph.D, Stanford; Molecular Genetics of Lymphocyte Development and Function

Maria Figueiredo-Pereira, Professor; PhD, NYU; The Ubiquitin Pathway & Neurodegeneration

Marie Filbin, Distinguished Professor; PhD, Bath (England); Myelin Formation & Inhibitory Molecules in Myelin

David Foster, Rosalyn Yalow Professor of Biology and Biochemistry; PhD, Columbia; Oncogenes and Signal Transduction

Benjamin Ortiz, Associate Professor; PhD, Stanford; Chromatin, Transcription and Immune System Development

Patricia Rockwell, Associate Professor; PhD, CUNY; signal transduction and gene expression associated with Alzheimer's disease.

Thomas Schmidt-Glenewinkel, Associate Professor; Dr Phil Nat, Frankfort (Germany); Neurotransmitter Receptors and Ion Channels in Drosophila Melanogaster

Chemistry

Joseph J. Dannenberg, Professor; PhD, California Institute of Technology; Organic and Physical Chemistry; Biophysics

Charles M. Drain, Professor; PhD, Tufts; Bioinorganic Chemistry; Adjunct Faculty, Rockefeller University; Photodynamic Therapies of Cancer, Infections, and Other Diseases

Lynn Francesconi, Professor; PhD, Illinois; Inorganic Chemistry and Materials Chemistry, Radiochemistry

Dixie J. Goss, Gertrude B. Elion Endowed Scholar and Professor; PhD, Nebraska; Biophysical Chemistry, Role of RNA structure in regulation of iron homeostasis and viral protein synthesis

Nancy Greenbaum, Professor; PhD, Pennsylvania; Biochemistry, Biophysical chemistry, RNA folding

Wayne W. Harding, Assistant Professor; PhD, West Indies; Synthesis and Evaluation of CNS-active Natural Products

Akira Kawamura, Associate Professor; PhD, Columbia; Bioorganic Chemistry, Genomics

Frida Kleiman, Associate Professor; PhD, Nat. University of Cordoba, Argentina; Biochemistry, Mechanisms of Response to DNA Damage by Nuclear Factors

Louis Massa, Professor; PhD, Georgetown; Physical Chemistry, Biophysics, Calculating the quantum mechanical electronic states of biological molecules of known crystal structure
Hiroshi Matsui, Professor; PhD, Purdue; Materials Chemistry; Bio-nanotechnology, Protein nanotubes, electronics and sensors

David R. Mootoo, Professor; PhD, Maryland; Organic Chemistry, Synthesis and applications of glycomimetics

Yujia Xu, Associate Professor; PhD, Connecticut; Biophysics, Mechanisms of self-assembly and molecular recognition of protein

Shengping Zheng, Assistant Professor; PhD, Columbia; Organic Chemistry

Graduate Masters

Biochemistry - MA

Requirements for Admission

General admission requirements to Hunter’s graduate programs are observed. GRE (verbal and quantitative reasoning); TOEFL (for foreign students whose native language is other than English).

In addition, the student must have completed the following courses: general chemistry (including qualitative analysis) (one year), quantitative analysis, organic chemistry (one year), physical chemistry (one semester lecture and laboratory), biology (one year), biochemistry lecture and laboratory (one semester). Deficiencies may be made up during the first three semesters of graduate study.

Requirements for the Degree

Comprehensive Examination or Thesis:

Students may complete the requirements for the MA through either of the following two plans:

- Plan (1): A minimum of 30 credits of course work plus a passing grade in a comprehensive examination.

- Plan (2): A minimum of 24 credits of course work, plus 6 credits from a thesis on an original research problem. The thesis must be approved by the student’s adviser, and it must be defended before a thesis committee.

Courses:

The student must complete the following courses from the list below. Note that no more than 10 credits of 600-level courses may be taken.

Plan (1):
CHEM 64000 - Biochemistry I

Proteins, enzymes, bioenergetics, recombinant DNA.

prereq: 1 yr of undergraduate organic chemistry
Hours 3 hrs,
Credits 3 cr
CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

CHEM 64100 - Biochemistry II

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

prereq: CHEM 64000 or BIO 71013 or 30000
Hours 3 hrs,
Credits 3 cr
CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020

BIOCHEM U71010 - Advanced Biochemistry 1

prereq: a 1-semester course in biochemistry or equiv and physical chemistry
Hours 3 hrs,
Credits 3 cr
Fall only, offered at the Graduate CenterCHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U71020 - Advanced Biochemistry 2

prereq: BIOCHEM 71010 or equivalent
Hours 3 hrs,
Credits 3 cr
Spring only, offered at the Graduate CenterCHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM 71100 - Basic Laboratory Techniques for Research in Biochemistry

Individual projects, arranged with at least two faculty members. Lab and conferences.

Hours 8
Credits 4

BIOCHEM 71551 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 71552 - Seminar in Biochemistry
BIOCHEM 71553 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 71554 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,
Credits 3 cr
Fall only, offered at the Graduate Center

CHEM 65000 - Biophysical Biochemistry

Physical chemistry as applied to biochemical systems.

Credits 4 cr

BIOCHEM U77000 - Physical Biochemistry

prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry
Hours 3
Spring only, offered at the Graduate Center

A minimum of two courses in biology (8 or 9 credits) that must come from

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
spring only

or

BIOL 70005 - Genetics
Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)
Hours 60 lec,
Credits 4 cr
fall only

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry
Hours 75 hrs,
Credits 5 cr
fall only

BIOL 71014 - Molecular Biology Laboratory

Isolation of RNA and DNA, construction and screening of DNA libraries, Southern and Northern blot analysis, cloning, DNA sequencing.

coreq: BIOL 71013 or comparable course in biochemistry
Hours 105 hrs lab and conf,
Credits 4 cr
Fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401
Hours 60 lec,
Credits 4 cr
Spring only

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor
Hours 30 hrs/wk for 4 wks,
Credits 4 cr
Additional Information

Any remaining or additional credits may be taken by choosing courses in biology or chemistry as electives.

Plan (2):

**CHEM 64000 - Biochemistry I**

Proteins, enzymes, bioenergetics, recombinant DNA.

*prereq: 1 yr of undergraduate organic chemistry*

- **Hours**: 3 hrs,
- **Credits**: 3 cr

*Fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.*

**CHEM 64100 - Biochemistry II**

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

*prereq: CHEM 64000 or BIO 71013 or 30000*

- **Hours**: 3 hrs,
- **Credits**: 3 cr

*Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020*

**BIOCHEM U71010 - Advanced Biochemistry 1**

*prereq: a 1-semester course in biochemistry or equiv and physical chemistry*

- **Hours**: 3 hrs,
- **Credits**: 3 cr

*Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.*

**BIOCHEM U71020 - Advanced Biochemistry 2**

*prereq: BIOCHEM 71010 or equivalent*

- **Hours**: 3 hrs,
- **Credits**: 3 cr

*Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.*

**BIOCHEM 71100 - Basic Laboratory Techniques for Research in Biochemistry**

Individual projects, arranged with at least two faculty members. Lab and conferences.

- **Hours**: 8
- **Credits**: 4

**BIOCHEM 71551 - Seminar in Biochemistry**
BIOCHEM 71552 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 71553 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 71554 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 79901 - Thesis Research

Credits (Master's) 1

BIOCHEM 79902 - Thesis Research

Credits (Master's) 2

BIOCHEM 79903 - Thesis Research

Credits (Master's) 3
offered Fall, Spring, and Summer
Open only to students writing a thesis as part of the requirements

CHEM 65000 - Biophysical Biochemistry

Physical chemistry as applied to biochemical systems.

Credits 4 cr

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,
Credits 3 cr
Fall only, offered at the Graduate Center

BIOCHEM U77000 - Physical Biochemistry
prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry

Hours 3
Spring only, offered at the Graduate Center

A minimum of 6 credits of courses in biology, with at least one course chosen from

**BIOL 71401 - Cell Biology**

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry

Hours 60 hrs,
Credits 4 cr
spring only

or

**BIOL 70005 - Genetics**

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,
Credits 4 cr
fall only

or

**BIOL 71013 - Molecular Biology Lecture**

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,
Credits 5 cr
fall only

or

**BIOL 71014 - Molecular Biology Laboratory**

Isolation of RNA and DNA, construction and screening of DNA libraries, Southern and Northern blot analysis, cloning, DNA sequencing.

coreq: BIOL 71013 or comparable course in biochemistry

Hours 105 hrs lab and conf,
Credits 4 cr
Fall only

or
BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401  
Hours 60 lec,  
Credits 4 cr  
Spring only

or

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor  
Hours 30 hrs/wk for 4 wks,  
Credits 4 cr

Biochemistry

Please consult Courses in Biological Sciences and Courses in Chemistry or the courses in the Biochemistry - MA program for additional required courses in the program

BIOCHEM U71010 - Advanced Biochemistry 1

prereq: a 1-semester course in biochemistry or equiv and physical chemistry  
Hours 3 hrs,  
Credits 3 cr  
Fall only, offered at the Graduate CenterCHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U71020 - Advanced Biochemistry 2

prereq: BIOCHEM 71010 or equivalent  
Hours 3 hrs,  
Credits 3 cr  
Spring only, offered at the Graduate CenterCHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,  
Credits 3 cr  
Fall only, offered at the Graduate Center

BIOCHEM U77000 - Physical Biochemistry
prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry
Hours 3
Spring only, offered at the Graduate Center

BIOCHEM 71100 - Basic Laboratory Techniques for Research in Biochemistry

Individual projects, arranged with at least two faculty members. Lab and conferences.

Hours 8
Credits 4

BIOCHEM 71551 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 71552 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 71553 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 71554 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 79901 - Thesis Research

Credits (Master's) 1

BIOCHEM 79902 - Thesis Research

Credits (Master's) 2

BIOCHEM 79903 - Thesis Research

Credits (Master's) 3
offered Fall, Spring, and Summer
Open only to students writing a thesis as part of the requirements
Programs and Courses in Biology

Return to: Biological Sciences

Biological Sciences

About the Department

The Department of Biological Sciences has graduate and post-graduate research programs in molecular and cell biology, cancer biology, molecular and developmental genetics, and molecular neuroscience. Students may obtain the MA from Hunter College and/or the PhD jointly from Hunter College and the City University Graduate Center. The doctoral program is designed to prepare students to cope with the radical changes in direction and experimental approaches that will characterize future developments in biology, as well as to train highly qualified research scientists who are fully equipped to teach and to direct research in a wide variety of university and industry programs in the biological sciences.

Faculty of the department are pursuing projects in the forefront of modern research. In addition to the individual research laboratories, a number of shared facilities are housed in the department. They include transmission and scanning electron microscopes, a sequencing and synthesis facility equipped with a DNA synthesizer, a peptide synthesizer, a gashphase sequencer, DNA sequencer and advanced HPLC and data processing equipment, a bioimaging facility, a fluorescence-activated cell sorter and a biopreparation facility. Several facilities are available through the chemistry department, including X-ray diffraction, NMR, mass spectroscopy and biomolecular computation. Shared modern animal facilities are also available.

Graduate Doctorate

Doctoral Program in Biological Sciences

Return to: Programs and Courses in Biology

Doctor of Philosophy

Students are encouraged to apply directly to the Doctoral Program in Biological Sciences, which is offered jointly by Hunter College and the CUNY Graduate School and University Center. Doctoral dissertation research is carried out in
the Hunter College Department of Biological Sciences. A PhD in Biochemistry is also offered jointly with the CUNY Graduate School and University Center. For further information contact Professor Patricia Rockwell, 821 North Building, (212) 396-6202 or visit the Graduate Center website at http://www.gc.cuny.edu.

Hunter MA students who have been accepted to the joint Hunter College/CUNY Doctoral Program in Biological Sciences will have their required MA Comprehensive Exam as equivalent to a Doctoral First-Level Exam. If a Hunter College applicant is accepted into the Doctoral Program, a passing grade at the doctoral level on the exam will allow acceptance into the Doctoral Program as a Second-Level doctoral student.

Graduate Masters

Biological Sciences - MA

Return to: Biological Sciences

The degree is offered either as a terminal degree or as the first year toward the PhD within CUNY. Both introductory and advanced graduate courses are available at Hunter College.

Requirements for Admission

In addition to the general requirements for admission to graduate programs, the following departmental requirements must be met:

1. One year of organic chemistry with laboratory
2. One year of college physics
3. One semester of calculus and a second semester of either calculus or statistics
4. An undergraduate major in biology, botany, physiology, zoology, chemistry, physics, or other appropriate discipline. A minimum of 18 credits in appropriate undergraduate science and mathematics courses should be presented. Chemistry or physics majors must offer at least one year of appropriate life science for admission to any of the majors in the MA program in biological sciences including a semester of genetics, molecular biology or biochemistry.
5. General Test of the Graduate Record Examination (GRE) (verbal and quantitative). Other examination scores, including the MCAT, may not be substituted for the GRE.
6. TOEFL Test for international students with a non-English speaking background.

Requirements for the Degree

The program of course work, planned with the graduate adviser, is concentrated in one of the following major areas: molecular and cell biology, cancer biology, molecular and developmental genetics, molecular neuroscience, and biotechnology.

Required Courses
BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

_prereq:_ undergraduate genetics and molecular biology (or biochemistry)

*Hours 60 lec,*

_Credits 4 cr*

_fall only_

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

_prereq:_ 1 yr of organic chemistry

*Hours 75 hrs,*

_Credits 5 cr*

_fall only_

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

_prereq:_ undergraduate organic chemistry or biochemistry

*Hours 60 hrs,*

_Credits 4 cr*

_spring only_

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

_prereq or coreq:_ BIOL 71013 and BIOL 71401

*Hours 60 lec,*

_Credits 4 cr*

_Spring only_

Additional Information

Up to 4 credits of tutorial are accepted toward the degree. Only one 600-level course including courses outside Biological Sciences, such as Biochemistry may be credited toward the degree.

Matriculated Students May Fulfill Requirements for the MA

Matriculated Students may fulfill requirements for the MA through either of the following plans:
• **Plan A - Comprehensive Exam Only**: A minimum of 30 credits of course work plus a passing grade in a written Comprehensive Examination in the areas covered by the four required core courses. The Comprehensive Examination is given annually in June. Only fully matriculated students who have completed all four required courses may take the comprehensive examination.

• **Plan B - Comprehensive Exam and Thesis**: A minimum of 24 credits of course work plus a passing grade in a written Comprehensive Examination and a minimum of 6 credits of original research that is summarized in a written thesis. The completed thesis must be approved by the student’s faculty mentor, the MA adviser, and the Office of the Dean of Arts & Sciences at least one month before the expected date of graduation. An oral presentation of the MA thesis is required.”

**Courses for Non-matriculated Graduate Students**

Students with a baccalaureate degree may register for some graduate courses without matriculation. After being admitted as a non-matriculating graduate student, students may take BIOL 70005 - Genetics (fall only) or BIOL 71401 - Cell Biology (spring only) without prior departmental permission. For all other courses, non-matriculating students must get permission directly from the course instructor. Specific graduate courses being offered each semester are listed at http://registrar.hunter.cuny.edu/subpages/searchclass.shtml

There is no dedicated adviser for non-matriculating students who want to take graduate Biology courses. Non-matriculating students should see any Biology faculty member during regular office hours for advising. Please contact the department secretary at 212-772-5293 to find out faculty office hours.

Return to: Biological Sciences

**Biology with Specialization in Biotechnology - MA**

Return to: Biological Sciences

**Admission Requirements**

GPA 3.0

GRE (general part) to be taken before registering for 700-level courses

Baccalaureate degree in biology or related fields

**Degree Requirements**

30 credits plus a passing grade on a comprehensive examination or a thesis

**BIOL 62000 - Internship**

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

*prereq: BIOL 61000
Credits 3 months, 4 cr*
Core Courses for the MA (21-28 credits)

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry

Hours 60 hrs,
Credits 4 cr
spring only

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,
Credits 5 cr
fall only

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,
Credits 4 cr
fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,
Credits 4 cr
Spring only

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor
**BIOL 62000 - Internship**

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

*prereq: BIOL 61000  
Credits 3 months, 4 cr*

**Electives (5-13 credits)**

Additional Information

For additional elective courses, consult department adviser.

Return to: Biological Sciences

**Undergraduate Major/Graduate Masters**

**Biological Sciences with Specialization in Biotechnology - BA/MA**

In this five-year program, qualified undergraduate Hunter College biology majors begin graduate work as seniors and receive the MA one year after completing BA requirements. Students are provided with theoretical knowledge and skills in molecular biology, and a foundation for application of these skills in careers in the biotechnology/pharmaceutical industry, academic research, or public health. Successful completion of the biotechnology workshop, an essential program component, entitles students to a summer internship in an industrial or private research laboratory.

**Biological Sciences/Environmental and Occupational Health Sciences - BA/MS**

Return to: Programs and Courses in Biology

This is an accelerated program leading to a BA in biology and an MS in environmental and occupational health sciences in five years. Hunter College Biology majors admitted to the program start graduate work in their senior year. Interested students should contact a Biology Department adviser — as well as the coordinator of the Program in Environmental and Occupational Health Sciences at the Brookdale Campus — early in their undergraduate studies. See Environmental and Occupational Health Sciences - MS (part of the CUNY School of Public Health at Hunter College) for more information.
Medical Laboratory Sciences/Biological Sciences with Specialization in Biotechnology - BS/MA

Qualified Hunter College seniors majoring in medical lab sciences in the School of Health Sciences may apply to the new BS/MA collaboration between medical lab sciences and the Department of Biology. An intensive techniques workshop (BIOL 410) is taken prior to graduation and upon successful completion, students may continue with professional internship, and accelerated MA program.

Molecular and Cell Biology

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,
Credits 5 cr
fall only

BIOL 71014 - Molecular Biology Laboratory

Isolation of RNA and DNA, construction and screening of DNA libraries, Southern and Northern blot analysis, cloning, DNA sequencing.

coreq: BIOL 71013 or comparable course in biochemistry

Hours 105 hrs lab and conf,
Credits 4 cr
Fall only

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry

Hours 60 hrs,
Credits 4 cr
Spring only

BIOL 79049 - Computational Molecular Biology

An introduction to bioinformatics theories and practices. Topics include database searching, sequence alignment, molecular phylogenetics, structure predication, and microarray analysis. The course is held in a UNIX-based instructional lab specifically configured for bioinformatics applications. Each session consists of instruction on
bioinformatics theories and hands-on exercises.

This course is designed for upper-level undergraduates and graduate students. Prior experiences in the UNIX Operating System and at least one programming language are required.

prereq: CSCL132 (Practical Unix and Perl Programming) and BIOL 300 (Biochemistry), or permission by the instructor.

spring only

Genetics and Developmental Biology

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,
Credits 4 cr

fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,
Credits 4 cr
Spring only

BIOL 79070 - Neuroscience II

Given at CUNY Graduate Center. Introduction to sensory and motor systems and to neural behavioral development.

spring only

Physiology and Neuroscience

BIOL 79051 - Neuroscience I

Given at CUNY Graduate Center. Comprehensive introduction to neuroscience with regard to structure and function at the cellular level.

fall only Students must register for Neuroscience I at City College of CUNY.
Biotechnology

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor
Hours 30 hrs/wk for 4 wks,
Credits 4 cr

BIOL 62000 - Internship

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

prereq: BIOL 61000
Credits 3 months, 4 cr

Biological Sciences Seminars

BIOL 79051 - Seminar

Seminars may be offered in any of the following areas: cell biology, genetics, biochemistry, molecular genetics, physiology, developmental biology, neuroscience, biotechnology, and other special topics.

prereq: BIOL 70005 and BIOL 71013
Fall and Spring

BIOL 79099 - Seminar

Seminars may be offered in any of the following areas: cell biology, genetics, biochemistry, molecular genetics, physiology, developmental biology, neuroscience, biotechnology, and other special topics.

prereq: BIOL 70005 and BIOL 71014

Biological Sciences Tutorials

BIOL 79202 - Tutorial

prereq: permission of graduate adviser
Hours 30 or 60 hrs,
Credits 2 or 4 cr

BIOL 79204 - Tutorial
Biological Sciences Thesis Research - MA

BIOL 79910 - Thesis Research-MA

prereq: permission of graduate adviser
Hours 30 or 60 hrs,
Credits 2 or 4 cr

BIOL 79920 - Thesis Research-MA

prereq: perm grad adviser
Hours 15, 30, or 45 hrs,
Credits 1, 2, or 3 cr, respectively

BIOL 79930 - Thesis Research-MA

prereq: permission of graduate adviser
Hours 15, 30, or 45 hrs,
Credits 1, 2, or 3 cr, respectively

Biological Sciences Independent Doctoral Research

BIOL U89910 - Independent Doctoral Research

prereq: permission from graduate adviser

BIOL U89920 - Independent Doctoral Research

prereq: permission from graduate adviser
Hours each 15 to 150 hrs,
Credits 1 to 10 cr
(Course listed in the schedule of classes at the CUNY Graduate Center)

Biological Sciences: Special Topics

BIOL 790xx - Special Topics Courses

Seminar in Immunology, Cancer Research, Signal Transduction, Bioinformatics, Neurobiology, etc.

Credits 3

Biological Sciences Program for Teachers of Adolescent Education
BIOL 60000 - Molecular Biology for Science Teachers

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes, and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism.

*prereq: An undergraduate degree in Biology and a course in Organic Chemistry and permission of instructor.
Fall only*

BIOL 60210 - Molecular Genetics for Science Teachers

A comparison of viral, procaryotic, and eucaryotic systems; review of classical Mendelian principles and mechanisms; bacterial DNA replication, transcription, and their control; mechanisms of gene mutation, repair, recombination, and transposition; applications of recombinant DNA technology; organization of nucleic acid into chromosomes; control of gene expression in procaryotes, in the eucaryotic cell cycle, and in cell development.

*prereq: BIOL 60000 or equivalent and permission of instructor
Spring only*

BIOL 61055 - Laboratory Workshop in Biology Education

A series of laboratory-intensive experimental projects, each lasting one week or more, which introduce current research techniques and include individual participation in planning, preparation, and analysis of experiments. The focus is on broad biotechnology topics such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics, and how these topics may be applied to the high school science classroom.

*prereq: a graduate course in biology or permission of instructor
Hours 120 hrs,
Credits 3 cr*

BIOL 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

*prereq: BIOL 61055 or permission of instructor*

BIOL 66000 - Challenging Concepts in the Biological Sciences

Overview of research and theory related to misconceptions in biology. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

*prereq: BIOL 61055, BIOL 63000, and one elective course or permission of instructor
Hours 4 hrs,
Credits 4 cr*
Biological Sciences: Courses offered only upon sufficient student demand

BIOL 65000 - Cell and Tissue Culture

BIOL 72202 - Endocrinology

BIOL 77006 - Fine Structure of Cells

BIOL 77101 - Analysis of Mammalian Cells in Tissue Culture

Programs and Courses in Chemistry

Chemistry

About the Department

The Department of Chemistry offers a range of graduate educational opportunities with strengths in both the fundamental areas of the discipline and in emerging fields and applications. Students may obtain the PhD degree from Hunter College jointly with the City University of New York (CUNY) Graduate Center with concentrations in: Analytical Chemistry, Inorganic Chemistry, Organic Chemistry, Physical Chemistry, Biophysical Chemistry, Biochemistry, Nano-technology and Materials Chemistry and Environmental Chemistry. In any subdiscipline, PhD students can opt for an interdisciplinary radiochemistry component that is funded by a National Science Foundation Integrative Graduate Education and Research Training (NSF-IGERT) program. Additionally, students may also obtain the MA degree in Biochemistry jointly offered by the Department of Chemistry and the Department of Biology from Hunter College, or an MA in education jointly offered by the Department of Chemistry and the School of Education of Hunter College. Graduate level courses are offered at Hunter College and in the CUNY Graduate Center. Master’s programs can be completed as a full or part–time student, with or without a research thesis. Most graduate courses are offered in the evening to facilitate enrollment of part–time students.

A major goal of our graduate programs is to train research scientists to create new knowledge that impacts both fundamental scientific principles and addresses societal needs. The continuing success and future development of most areas in academic, industrial, and government institutions will increasingly depend on a well-trained science workforce for innovation, planning, and policy. The vibrant and well-funded research labs of our faculty in the Department of Chemistry at Hunter College provide the essential part of research training of the graduate programs. Students in Ph.D. program are expected to start their independent research at the end of the first year of study, and to complete their thesis on an original research subject under the supervision of our faculty. Students can also opt to pursue an independent pedagogical research project as part of their thesis research. The research activities are further supported by an array of shared facilities and the state-of-art instruments including the NMR facility, the X-ray crystallography and electron microscope facility and the Mass-spectrometry facility. Other facilities and instruments are available in the Department of Biosciences and in the NIH funded Hunter Gene center.

Programs and Courses

See the School of Education section of this catalog for additional information on admission and program requirements.

Adolescent Chemistry - MA / Advanced Certificate

Doctor of Philosophy

Students are encouraged to apply directly to the PhD program, which is offered in conjunction with the CUNY Graduate School and University Center. PhD dissertation research is carried out in the Hunter College Department of Chemistry. A PhD in biochemistry is also offered in conjunction with the CUNY Graduate School and University Center. For further information contact Professor Akira Kawamura, 1312 North Building, (212) 650-3095 or visit the website at http://www.gc.cuny.edu.

**Graduate Masters**

**Chemistry - MA**

An MA in chemistry will be offered. Students will have to receive departmental permission to enroll in the classes they need according to the master’s track they wish to pursue.

**Research/Industrial/Teaching Chemistry - MA**

**Departmental Requirements for Admission**

General admission requirements to the graduate programs in the Arts and Sciences are observed.

**Departmental Requirements for Matriculation**

**Undergraduate record:**

1. Undergraduate work in chemistry to include a minimum of one-year courses in each of the following fields: general, analytical, organic, and physical chemistry, or their equivalents.
2. A strong record in all undergraduate chemistry courses and a general undergraduate record indicating ability to profit from graduate study. Performance on the Graduate Record Examination and letters of recommendation are also considered.

Departmental Requirements for the Degree

A. Residence

A minimum residence of two full semesters or four half-time semesters.

B. Course distribution

1. 30 graduate credits

A minimum of 30 graduate credits.

2. Required courses (one semester each)

The department graduate committee may at its discretion waive or modify some of these required courses for students who have had the equivalent training. In such cases the student may be required to show competence through formal or informal examination.

**CHEM 71000 - Advanced Inorganic Chemistry**

Theoretical and experimental fundamentals of atomic and molecular structure. Emphasis is on physical interpretation.

*prereq: an advanced undergraduate inorganic chemistry course or CHEM 76000*

*Hours 45 hrs,*  
*Credits 3 cr*

**CHEM 75000 - Advanced Organic Chemistry I**

Fundamentals of organic chemical principles, reactions and structures.

*Hours 45 hrs,*  
*Credits 3 cr*

**CHEM 76000 - Introductory Quantum Chemistry**

Systematic development of the theories of chemistry including mathematical development and structural effects and the application of these theories to chemical systems.

*Hours 45 hrs,*  
*Credits 3 cr*

**CHEM U79000 - Basic Laboratory Techniques for Research in Biochemistry**
Lecture and laboratory work dealing with the theories and applications of modern approaches to the solution of chemical problems.

Credits 4 cr

**CHEM 64300A - Seminar**

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

Credits 1 cr

**CHEM 64300B - Seminar**

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

Credits 1 cr

Total 15

3. Proficiency

Students must be able to demonstrate proficiency in laboratory techniques. Students unable to demonstrate such proficiency may be required to take whatever laboratory work the graduate committee deems necessary.

4. Foreign language

Demonstrated ability to read and utilize in research the foreign language chosen from French, German, or Russian, most closely related to the student’s program of graduate study.

5. Mathematics, Physics and Chemical Engineering

Graduate courses in mathematics, physics and chemical engineering up to maximum of 6 credits may be taken with the approval of the departmental committee.

C. Comprehensive examination

A comprehensive examination will be required of all candidates.

**Biochemistry**

**CHEM 64000 - Biochemistry I**

Proteins, enzymes, bioenergetics, recombinant DNA.

*prereq: 1 yr of undergraduate organic chemistry

*Hours 3 hrs,*
CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

CHEM 64100 - Biochemistry II

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

prereq: CHEM 64000 or BIO 71013 or 30000
Hours 3 hrs,
Credits 3 cr
SpringCHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020

Chemistry

CHEM U79000 - Basic Laboratory Techniques for Research in Biochemistry

Lecture and laboratory work dealing with the theories and applications of modern approaches to the solution of chemical problems.

Credits 4 cr

CHEM U79500 - First Level Doctoral Laboratory Research

Hours to be arranged, credits variable.

CHEM U81010 - Research for the Doctoral Dissertation

Credits credits variable, one or more credits per semester
Offered at The Graduate Center

CHEM U81040 - Research for the Doctoral Dissertation

Credits credits variable, one or more credits per semester
Offered at The Graduate Center

CHEM 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

prereq: permission of instructor
Credits 3

CHEM 64000 - Biochemistry 1

CHEM 64100 - Biochemistry 2

Metabolism, biomedical genetics, immuno-biochemistry, hormones, muscle biochemistry.

*prereq: CHEM 64000 or BIO 71013 or 30000
Credits lec., 3 cr

CHEM 64300A - Seminar

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

Credits 1 cr

CHEM 64300B - Seminar

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

Credits 1 cr

CHEM 65000 - Biophysical Biochemistry

Physical chemistry as applied to biochemical systems.

Credits 4 cr

CHEM 65000 - Biophysical Chemistry

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

*prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent
Hours 4 hrs,
Credits 4 cr
Fall

CHEM 65500 - Demonstrations, Models, and Technology

Demonstrations, models, and technology.

Credits 3 cr

CHEM 66000 - Challenging Concepts in Chemistry

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article.
The article will serve as the culminating project for the science portion of the MA.

*Hours 4 hrs,  
Credits 4 cr*

**CHEM 69803 - Chemical Genomics**

The advent of high-throughput technologies and powerful computational tools is transforming the manner new drugs are developed. This course (bioinformatics) is designed to introduce students to two emerging areas of drug development, namely (1) computer-assisted drug design and (2) personalized medicine. Computer-assisted drug design is an approach to design drugs based on three-dimensional structures of macromolecules. Personalized medicine, on the other hand, aims at tailoring patient treatments based on individual genetic information (biomarkers). In this course, students will be first equipped with fundamental theoretical and experimental concepts related to these topics. Then, they will learn how to acquire new knowledge in these exciting fields of drug development through critical analysis of literature.

*Hours 3  
Credits 3*

**CHEM 71000 - Advanced Inorganic Chemistry**

The theoretical and experimental fundamentals of atomic and molecular structure. Emphasis is on physical interpretation.

*prereq: an advanced undergraduate inorganic chemistry course or CHEM 76000  
Hours 45 hrs,  
Credits 3 cr*

**CHEM 79900 - Thesis Research**

Individual research under supervision. Limited to students matriculated for the MA in chemistry.

*Credits 3 cr  
permission of department required*

**Chemistry Fundamental**

**CHEM 75000 - Advanced Organic Chemistry I**

Fundamentals of organic chemical principles, reactions and structures.

*Hours 45 hrs,  
Credits 3 cr*

**CHEM 75100 - Advanced Organic Chemistry II**

A continuation of CHEM 75000

*Hours 45 hrs,  
Credits 3 cr*
CHEM 75200 - Quantum Organic Chemistry

The application of modern theoretical techniques to organic chemical problems

prereq: CHEM 75000 and CHEM 76000
Hours 45 hrs,
Credits 3 cr

CHEM 76000 - Introductory Quantum Chemistry

Systematic development of the theories of chemistry including mathematical development and structural effects and the application of these theories to chemical systems.

Hours 45 hrs,
Credits 3 cr

CHEM 76100 - Spectroscopy

A continuation of CHEM 76000

Hours 45 hrs,
Credits 3 cr

CHEM 77000 - Chemical Thermodynamics

The development of the thermodynamic foundations of chemical processes: both the classical and statistical-mechanical approaches will be used.

Hours 45 hrs,
Credits 3 cr

Programs and Courses in Communication Sciences

Communication Sciences (Speech-Language Pathology; Audiology)

Department Information

Program Director:

Paul W, Cascella PhD
Brookdale Campus
900A West
(212) 481-3273

CUNY Office Manager:
Program and Courses in Communication Sciences

PROGRAM OBJECTIVES

The primary objective of the Communication Sciences Program is to provide a broad theoretical background in human communication and its disorders that fulfill the academic and clinical requirements for the American Speech-Language-Hearing Association (ASHA) professional certification (Certificate of Clinical Competence) and New York State licensure. The COMSC Master of Science (MS) degree program in Speech-Language Pathology (SLP) is accredited by the Council on Academic Accreditation (CAA) of the American Speech-Language-Hearing Association. The course of study generally requires two years of full-time participation including summers.

Definition of a Speech-Language Pathologist

Speech-language pathologists (SLPs) are autonomous professionals who identify, assess, prevent, and manage communicative disorders as well as swallowing or other upper aerodigestive disorders. Speech-language pathologists seek to optimize the communicative abilities of individuals, across the lifespan. Speech-language pathologists provide services to individuals

in nine clinical areas: articulation and phonology, fluency and stuttering, voice and resonance, receptive and expressive language, swallowing, cognitive aspects of communication (e.g., executive functioning), hearing, social aspects of communication (e.g., communication opportunities, social skills), and communication modalities (i.e., oral, manual, augmentative and alternative communication; assistive technologies).

Center for Communication Disorders

The Hunter College Center for Communication Disorders (Speech-Language-Hearing Clinic) is located at the Brookdale Health Sciences campus, 425 East 25 St., Room 133 North. The Center is an integral part of the Communication Sciences Program. The Center provides diagnostic and therapeutic services for a wide variety of language, speech, voice, fluency, swallowing, hearing, communication modality, and social communication disorders. Audiological services include complete audiological evaluations, auditory processing disorder testing, and auditory brainstem response assessment with state of the art instrumentation. Services are available to the Hunter College community as well as the general public. Appointments can be made by calling (212) 481-4464.

Communication Sciences - Speech-Language Pathology: Health Sciences Curriculum; TSSLD Curriculum

MS Degree in Communication Sciences – Speech-Language Pathology

The Health Sciences (HS) curriculum prepares individuals to become speech-language pathologists working in hospitals, rehabilitative centers, college or university clinics, health-care agencies, specialized clinical settings, or private practice (Code 556)
The Teacher of Students with Speech and Language Disabilities (TSSLD) curriculum prepares students for health sciences settings (as above) as well as for professional practices in New York State preschools, elementary and secondary schools, and early-intervention settings. The TSSLD curriculum requires 6 additional credits (COMSC 703; CEDF 706) 150 hours of practicum among school-age children, and one 3-credit elective with a TSSLD designation. This curriculum leads to recommendation for New York State certification as a teacher of students with speech and language disabilities (Code 132).

Admission Requirements

1. General requirements

for admission to both the health sciences curriculum and the TSSLD curriculum:

a. Baccalaureate degree from an accredited institution acceptable to Hunter College with an undergraduate GPA of at least 3.0

b. The Graduate Record Examination (Verbal reasoning, Quantitative reasoning, and Analytical writing)

c. Statement of intent

d. Two letters of reference

e. For international students: the Test of English as a Foreign Language (TOEFL) for applicants who have not studied in English-speaking countries.

2. Background course work: To be considered for acceptance, applicants for the HS curriculum and the TSSLD curriculum must have completed (or have pending) 45 credits in prerequisite course work. At the time of graduate study matriculation, a student can be missing no more than six credits of prerequisite course work. The prerequisite course work includes 15 credits of communication sciences and disorders courses (see specific courses or equivalents below) and 30 credits of courses in liberal arts and sciences (see specific topics below). The liberal arts and sciences prerequisite courses are consistent with ASHA requirements in the basic and applied sciences and New York State teaching certification requirements. Liberal arts and sciences prerequisite courses are not credited toward the MS degree. For further information about admission, matriculation requirements, and prerequisite classes, please review the program website at http://www.hunter.cuny.edu/comsc or contact the program office (comsc@hunter.cuny.edu).

a. Communication Sciences prerequisites (15 credits):

**COMSC 60400** Introduction to Language Science (Language Development; Introduction to Linguistics)

**COMSC 60700** Phonetics of American English

**COMSC 61500** Speech and Its Production (Anatomy and Physiology of Speech)

**COMSC 62000** Introduction to Speech-Language Pathology

**COMSC 64000** Introduction to Audiology

(Course equivalents taken at other institutions are reviewed for approval by the COMSC faculty.)

b. Liberal Arts and Sciences prerequisites (30 credits):

3 credits in **biological sciences** (examples: botany, biology, ecology, genetics, marine biology, nutrition, physiology, zoology)
3 credits in **physical sciences** (examples: chemistry, physics, earth science, oceanography, geology, astronomy)

3 credits in **mathematics or statistics** (examples: college algebra and trigonometry, calculus) Note: remedial, historical, or methods courses do not fulfill this requirement

6 credits in **behavioral or social sciences**, i.e., study that pertains to understanding normal or abnormal human behavior, development across the life span, social interaction, and issues with culturally diverse populations (examples: anthropology, criminology, sociology, psychology, human behavior, cultural diversity, and gender issues)

6 credits in **English** (examples: creative writing, composition, literature) Note: at least 3 credits must be intensive writing and/or written analysis

3 credits in **United States political science or history**

3 credits in the **arts or fine arts** (examples: pottery, painting, drawing, theater performance, dance, musical instrument performance, music appreciation, art history)

3 credits in a **language other than English** (examples: American Sign Language, Spanish, French, Hebrew, German, Arabic, Greek, etc.). Note: evidence of three credits must be provided on an academic transcript from an accredited institution acceptable to Hunter College

**Requirements for the Degree**

**Core Curriculum:**

**First Year Curriculum Required Courses: 30 cr**

**COMSC 70000 - Introduction to Research Methods**

Introduction to basic research design and techniques used to study basic and applied communication science. Included is an overview of basic concepts and terminology, with emphasis on developing the ability to form a reasonable critical assessment of published literature. The course will focus on the development of technical writing skills, conducting thorough and efficient library and Internet research, the interpretation of graphical information, and a working understanding of common statistical models.

*prereq: none*

*Hours 45*

*Credits 3*

**COMSC 70500 - Acoustics, Physiologic and Auditory Phonetics**

A comprehensive overview of basic phonetic science, as well as a foundation for its application to clinically relevant issues; basic concepts and terminology associated with the scientific study of the production, structure, transmission, and perception of the speech signal; acquisition, measurement and interpretation of physical data; speech and voice acoustics, aerodynamics, glottography, and kinematics.

*prereq: COMSC 70800*

*Hours 45*

*Credits 3*
COMSC 71100 - Language Acquisition and Development as it Relates to Typical and Late Talking Toddlers

Speech and language developmental processes in the young and school-age child; acquisition of pre-literacy skills from pre-linguistic stages to complex language development in typically developing monolingual and bilingual children; impact of cultural, ethnic, gender, socioeconomic, and individual variation on language acquisition.

prereq: none
Hours 45
Credits 3

COMSC 71200 - Neural Processes of Communication

Neuroanatomy of normal processes and disorders of speech, swallowing, language, vision, hearing, emotion, cognition and communication; development of the human nervous system; neurological disorders and their effects on communication processes.

prereq: none
Hours 45
Credits 3

COMSC 71600 - Phonological Development and Disorders

Anatomical/physiological, cultural and psychological aspects of articulatory and phonological development and disorders; methods of prevention, assessment and intervention across the range of severity and etiology; impact of phonological disorders on acquisition of literacy; collaboration with teachers in management.

prereq: COMSC 72000
Hours 45
Credits 3

COMSC 71700 - Language Disorders in Preschool-Age Children

Language and communication disorders and differences in preschool-age children including specific language impairment, pervasive developmental delay, autism, and mental retardation, cognitive and social aspects of communication, variation in severity and type of disorders; implications of early language disorders on literacy acquisition, assessment and intervention; cultural diversity issues; strategies for within the home, preschool, and community settings.

prereq: COMSC 71100
Hours 45
Credits 3

COMSC 72000 - Introduction to Clinic for Speech-Language Pathology

An introduction to the scope and essentials of clinical practicum across the life span as reflected in the prevention, identification, assessment and management of speech and language disorders. Includes 25 hours of observation.

coreq: COMSC 70000, 70800, 71100, 71200
Hours 45 hrs,
Credits 3 cr
COMSC 72600 - Adult Neurogenic Communication Disorders

Neurological, linguistic, cognitive and psychological aspects of acquired communication disorders across the life span, including aphasia, traumatic brain injury, and dementia; prevention, assessment and intervention across a range of severity and etiology; interdisciplinary collaboration in acute care, home, educational and vocational settings.

*prereq: COMSC 71200
*Hours 45 hrs,
*Credits 3 cr

COMSC 72800 - Clinical Practicum in Speech-Language Pathology

First-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 728.04, for students in the bilingual extension, designates a special section of COMSC 728 for practicum with Spanish-speaking children eligible for bilingual services.

*prereq: COMSC 72000, 73300
*Credits 1 cr

COMSC 73300 - Clinical Methods in Speech-Language Pathology

Advanced clinical seminar devoted to the changing nature of clinical populations, delivery of health-care service in the home, hospital, school and work environments; measures of clinical outcomes, prevention, and professional/ethical practices; analysis of clinical and classroom management and instruction.

*prereq: COMSC 72000
*Hours 30 hrs,
*Credits 2 cr

+ one elective

First Year Summer Required Courses: 3 cr

COMSC 73500 - Methods in Speech-Language Pathology II

Summer clinical seminar devoted to the changing nature of clinical populations; intervention strategies for individuals with disorders of speech and language across the lifespan in various hospital and clinic settings; continued development of professional oral and written communication skills; professional/ethical practices.

*prereq: COMSC 73300, 77100
*Hours 30 hrs,
*Credits 2 cr

COMSC 77100 - Summer Clinical Practicum in Speech-Language Pathology 1

First-year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervisor of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practicum and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood and adolescence,
as well as with adults.

prereq: COMSC 73300
Credits 1 cr

First Year Summer Elective Course: 3 cr

COMSC elective

First Year Summer Elective Courses (TSSLD curriculum-only):

**COMSC 70300 - Professional Practice in Educational Settings**

The multifaceted role of the speech language pathologist in school settings; models of service delivery; collaborative assessment and teaching; computerized teaching programs; national and state legislation and regulations; rights and responsibilities of teachers and other staff; individualized educational planning; language-based learning disabilities; cultural diversity issues including bilingual and multicultural issues; roles of language in academic development and instruction; drug abuse education and fire safety. For successful completion of the course, students must also attend (a) a 2-hour workshop on identifying and reporting suspected child abuse or maltreatment; (b) a 2-hour workshop on school violence prevention and intervention.

prereq: COMSC 72000
Hours 45
Credits 3

**CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School**

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Hours 45 hrs,
Credits 3 cr

Second Year Curriculum Required Courses: 27 cr

**COMSC 70200 - Multicultural Issues in Counseling and Communication**

This course presents a multicultural perspective of counseling theories, techniques and strategies for persons with disorders and their families. It addresses the impact of cultural, ethnic, gender, socioeconomic and individual variations in culturally appropriate delivery of services to individuals with speech-language disorders as well as those acquiring English as a second language.

prereq: COMSC 72000
Hours 45
Credits 3

**COMSC 71800 - Language and Literacy Disorders in School-Age Children**
The impact of language disorders in school-age children and adolescents on their acquisition of academic skills required for the development of literacy skills and written language (reading, spelling and writing); cognitive and social aspects of communication; formal and informal assessment; collaborative management strategies; cultural diversity issues.

prereq: COMSC 71100  
Hours 45  
Credits 3

**COMSC 71900 - Assessment and Management of Dysphagia**

Normal and abnormal swallowing function; evaluation, management, and treatment of dysphagia across various neurological, mechanical, and esophageal conditions; interpretation of modified barium swallow (MBS) and fiberoptic endoscopic evaluation of swallow (FEES) studies; non-oral options for nutrition/hydration.

**COMSC 72400 - Acquired Motor Speech and Swallowing Disorders**

Disorders of speech resulting from neurologic impairment affecting the motor programming (apraxia) or neuromuscular execution (dysarthria) of speech and related neurogenic dysphagia in adults, assessment and therapeutic management strategies in social, educational and vocational settings.

prereq: none  
Hours 45 hrs,  
Credits 3 cr

**COMSC 73600 - Clinical Seminar in Speech-Language Pathology 1**

Assessment measures and intervention strategies for individuals with disorders of speech and language across the lifespan; development of professional oral and written communication skills.

prereq: COMSC 73300  
Hours 30 hrs,  
Credits 2 cr

**COMSC 73700 - Clinical Seminar in Speech-Language Pathology 2**

This seminar focuses on models of clinical delivery, legislative and managed care policies as they influence the practice of speech-language pathology; requirements for certification and licensure.

prereq: COMSC 73600  
coreq: COMSC 73900  
Hours 30 hrs,  
Credits 2 cr

**COMSC 72900 - Clinical Practicum in Speech-Language Pathology 1**

Second-year fall semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica or off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 72904 for students in the bilingual extension, designates a special section of COMSC 72900 for
practicum with Spanish speaking children eligible for bilingual services.

**prereq:** COMSC 73300  
**coreq:** COMSC 73600  
**Credits** 1 cr

**COMSC 73900 - Clinical Practicum in Speech-Language Pathology 2**

Second-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence, or adulthood.

**prereq:** COMSC 72900  
**coreq:** COMSC 73700  
**Credits** 1 cr

**COMSC 75200 - Audiology for Speech-Language Pathologists**

Topics in auiiological assessment and management of children and adults with hearing loss that are relevant to the practicing speech language pathologist.

**prereq:** none  
**Hours** 45 hrs,  
**Credits** 3 cr  
+ 2 electives

Second Year Summer Required Courses*: 1 cr

**COMSC 77200 - Summer Clinical Practicum in Speech-Language Pathology 2**

Second year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood, adolescence, as well as with adults.

**prereq:** COMSC 77100  
**Credits** 1 cr

Second Year Summer Courses (TSSLD curriculum-only if not already completed):

**COMSC 70300 - Professional Practice in Educational Settings**

The multifaceted role of the speech language pathologist in school settings; models of service delivery; collaborative assessment and teaching; computerized teaching programs; national and state legislation and regulations; rights and responsibilities of teachers and other staff; individualized educational planning; language-based learning disabilities; cultural diversity issues including bilingual and multicultural issues; roles of language in academic development and
instruction; drug abuse education and fire safety. For successful completion of the course, students must also attend (a) a 2-hour workshop on identifying and reporting suspected child abuse or maltreatment; (b) a 2-hour workshop on school violence prevention and intervention.

prereq: COMSC 72000
Hours 45
Credits 3

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Hours 45 hrs,
Credits 3 cr

Note(s)

* Students begin their initial clinical placement in either the fall, spring or summer semester of the first year. Timing of this placement will depend on academic achievement, clinic readiness criteria and space availability. Those who begin clinic in the summer session of the first year must anticipate graduating in the summer following the second year. All students are required to complete a minimum of three clinical practica and achieve a minimum passing grade to earn credit in each clinical experience.

Additional Information

The COMSC Master of Science (MS) degree program in speech-language pathology is accredited by the Council on Academic Accreditation (CAA) of the American Speech-Language-Hearing Association. The course of study generally requires two years of full-time participation, including summers.

Students in the TSSLD curriculum are required to complete at least one school-based practicum and 150 clock hours among school-aged children, six credits of additional coursework (COMSC 703; CEDF 706) and one elective course designated within the TSSLD curriculum. Students must also complete a child-abuse workshop, a school violence prevention and intervention workshop, and a workshop in autism spectrum disorders as mandated by the New York State Education Department.

Students are encouraged to enroll as full-time students (15 credits). Part-time status requires enrollment in a minimum of 6 credits during each of the first two semesters. Part time students must complete the first year coursework within two years. All students must complete the coursework for the Master of Science within five years after initial matriculation. Students must maintain a grade point average of 3.0 or better.
Students who demonstrate an overall GPA below 3.0 placing them on academic probation are ineligible for clinical practicum or externship placement. Students who do not earn a grade of ‘B’ in any class, must complete a remediation plan in the subsequent semester. This remediation plan requires the student to subsequently demonstrate knowledge and skills for the course’s student learning objectives not previously achieved.

Students are required to earn a grade of CREDIT (CR) for at least four clinical practica (COMSC 728, 729, 739, 771). All COMSC clinical practica are graded as CREDIT (CR) or NO CREDIT (NC). Any NC grade is considered a failing grade. A grade of NC will require the student to retake the course and will place the student on clinical probation. Students who repeat a practicum will not be allowed to continue to enroll in academic courses until the repeated practicum earns credit. During the retake semester, the student will be provided with specific clinical remediation goals developed by the COMSC faculty that will directly address the knowledge and skills required in a clinical setting. The repeated clinical practicum course must occur during the fall or spring semester following the semester in which the student received a grade of NC. Students will not be allowed to repeat a clinical practicum in the summer semester. A student who receives a grade of NC for the clinical probation semester will be disbarred from the COMSC program.

In addition, students who earn credit in a clinical practicum but do not meet all of the KASA standards for that practicum must also complete a remediation plan in the subsequent semester on those standards that had not been previously met.

Students must complete a minimum of 400 direct client contact clock hours (including 25 hours of clinical observation in speech-language pathology). At least 10-20 hours must be derived from supervised practicum contact in audiology. Clinical practica are supervised and include populations across the life span representing a variety of communication disorders. All client contact hours must be obtained at the graduate level and must include satisfactory performance in (a) clinical practica within the Center for Communication Disorders, and (b) at least two practicum experiences at different externship settings. The 400 clinical practicum hours must comply with the 2005 standards of the American Speech-Language-Hearing Association. The COMSC program does not accept transfer clinical hours neither at an undergraduate level nor at a master’s level from another graduate program. Students who demonstrate an overall GPA below 3.0 are placed on academic probation and are ineligible for clinical practicum or externship placement.

Students must complete all academic and clinical requirements in order to be awarded the MS degree and become eligible to apply for certification by ASHA and licensure in the state of initial post-degree employment.

Students must submit passing scores for the Praxis II National Examination in Speech-Language Pathology (administered by the Educational Testing Service) for program sign-off of ASHA and state licensure forms.

**Teachers of Students with Speech-Language Disabilities – Bilingual (English-Spanish Extension) MS**

**Requirements for Admission**

In addition to all of the requirements for admission to the TSSLD curriculum, students applying for the bilingual (Spanish and English) extension must pass a Communication Sciences Program-administered evaluation of written and oral proficiency in Spanish and English.

**Requirements for the Degree**
In addition to all of the TSSLD requirements identified above, students must complete the following Extension requirements:

A. 12 additional credits of coursework:

**EDESL 79600 - Methodology of Teaching English to Speakers of Other Languages**

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

*Hours includes 25 hours fieldwork, 4 cr  
Credits 4*

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*

**BILED 77100 - Psychology of Language Learning and Teaching**

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

*prereq or coreq: BILED 70100  
Hours 30 hrs plus 5 hrs of fieldwork and lab,  
Credits 2 cr*

**BILED 77800 - Instruction Through the Native Language**

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

*prereq:  
prereq or coreq: BILED 70100  
Hours 45 hrs plus 10 hrs of fieldwork,  
Credits 3 cr*

B. School-based Language Practicum

A school-based language practicum (COMSC 72900 for 1 credit) must involve work with Spanish-speaking children eligible for bilingual education services.
C. NYSTCE Tests for English Language Proficiency

NYSTCE tests for English Language Proficiency Assessment (LPA) and the Target Language Proficiency Assessment (TLPA).

**COMSC 60400 - Introduction to Language Science**

An introduction to the nature of language and communication. Topics include components of the linguistic system, relationship between verbal and non-verbal communication, and language acquisition across the life span.

*Hours 45  
Credits 3*

**COMSC 60700 - Phonetics of American English**

*Hours 45  
Credits 3*

**COMSC 61500 - Speech and Its Production**

An overview of the structure of speech and the basic mechanisms involved the production of speech sounds; a foundation for a more in-depth study of speech science and its application to clinical practice in speech-language pathology and audiology; structure and organization of the ventilatory, laryngeal, supralaryngeal and orofacial mechanisms; issues in basic speech acoustics and perception.

*Hours 45  
Credits 3*

**COMSC 62000 - Introduction to Speech-Language Pathology**

Introduction to organic and behavioral correlates of human communication; its development and disorders. The influence of culture, heritage, and socioeconomic status on the disorders of voice, articulation, fluency, and language.

*Hours 45  
Credits 3*

**COMSC 64000 - Introduction to Audiology**

Etiology and pathology of hearing disorders, basic properties of the auditory stimulus: measurement of pure tone thresholds by air and bone conduction. Overview of the audiologist in diagnosis and management of hearing disorders.

*Hours 45  
Credits 3*

**COMSC 70000 - Introduction to Research Methods**
Introduction to basic research design and techniques used to study basic and applied communication science. Included is an overview of basic concepts and terminology, with emphasis on developing the ability to form a reasonable critical assessment of published literature. The course will focus on the development of technical writing skills, conducting thorough and efficient library and Internet research, the interpretation of graphical information, and a working understanding of common statistical models.

prereq: none
Hours 45
Credits 3

COMSC 70200 - Multicultural Issues in Counseling and Communication

This course presents a multicultural perspective of counseling theories, techniques and strategies for persons with disorders and their families. It addresses the impact of cultural, ethnic, gender, socioeconomic and individual variations in culturally appropriate delivery of services to individuals with speech-language disorders as well as those acquiring English as a second language.

prereq: COMSC 72000
Hours 45
Credits 3

COMSC 70300 - Professional Practice in Educational Settings

The multifaceted role of the speech language pathologist in school settings; models of service delivery; collaborative assessment and teaching; computerized teaching programs; national and state legislation and regulations; rights and responsibilities of teachers and other staff; individualized educational planning; language-based learning disabilities; cultural diversity issues including bilingual and multicultural issues; roles of language in academic development and instruction; drug abuse education and fire safety. For successful completion of the course, students must also attend (a) a 2-hour workshop on identifying and reporting suspected child abuse or maltreatment; (b) a 2-hour workshop on school violence prevention and intervention.

prereq: COMSC 72000
Hours 45
Credits 3

COMSC 70500 - Acoustics, Physiologic and Auditory Phonetics

A comprehensive overview of basic phonetic science, as well as a foundation for its application to clinically relevant issues; basic concepts and terminology associated with the scientific study of the production, structure, transmission, and perception of the speech signal; acquisition, measurement and interpretation of physical data; speech and voice acoustics, aerodynamics, glottography, and kinematics.

prereq: COMSC 70800
Hours 45
Credits 3

COMSC 71100 - Language Acquisition and Development as it Relates to Typical and Late Talking Toddlers

Speech and language developmental processes in the young and school-age child; acquisition of pre-literacy skills from pre-linguistic stages to complex language development in typically developing monolingual and bilingual children; impact of cultural, ethnic, gender, socioeconomic, and individual variation on language acquisition.
COMSC 71200 - Neural Processes of Communication

Neuroanatomy of normal processes and disorders of speech, swallowing, language, vision, hearing, emotion, cognition and communication; development of the human nervous system; neurological disorders and their effects on communication processes.

COMSC 71500 - Communication Processes Related to Aging

Current understanding of adult development and aging as related to communication processes and disorders. Speech, language and hearing changes, as well as social, behavioral, physical and cognitive changes associated with normal and pathological aging processes. Intervention strategies, diagnostic and treatment materials, and audiological equipment for the communicatively impaired elderly population.

COMSC 71600 - Phonological Development and Disorders

Anatomical/physiological, cultural and psychological aspects of articulatory and phonological development and disorders; methods of prevention, assessment and intervention across the range of severity and etiology; impact of phonological disorders on acquisition of literacy; collaboration with teachers in management.

COMSC 71700 - Language Disorders in Preschool-Age Children

Language and communication disorders and differences in preschool-age children including specific language impairment, pervasive developmental delay, autism, and mental retardation, cognitive and social aspects of communication, variation in severity and type of disorders; implications of early language disorders on literacy acquisition, assessment and intervention; cultural diversity issues; strategies for within the home, preschool, and community settings.

COMSC 71800 - Language and Literacy Disorders in School-Age Children
The impact of language disorders in school-age children and adolescents on their acquisition of academic skills required for the development of literacy skills and written language (reading, spelling and writing); cognitive and social aspects of communication; formal and informal assessment; collaborative management strategies; cultural diversity issues.

*prereq:* COMSC 71100  
*Hours* 45  
*Credits* 3

**COMSC 71900 - Assessment and Management of Dysphagia**

Normal and abnormal swallowing function; evaluation, management, and treatment of dysphagia across various neurological, mechanical, and esophageal conditions; interpretation of modified barium swallow (MBS) and fiberoptic endoscopic evaluation of swallow (FEES) studies; non-oral options for nutrition/hydration.

**COMSC 72000 - Introduction to Clinic for Speech-Language Pathology**

An introduction to the scope and essentials of clinical practicum across the life span as reflected in the prevention, identification, assessment and management of speech and language disorders. Includes 25 hours of observation.

*coreq:* COMSC 70000, 70800, 71100, 71200  
*Hours* 45 hrs,  
*Credits* 3 cr

**COMSC 72200 - Fluency Disorders**

Anatomical/physiological, neurological, psychological, developmental, linguistic and cultural bases of fluency disorders; methods of prevention, assessment and intervention across the life span and range of severity and etiology; management in social, educational and vocational settings.

*prereq:* COMSC 70800, 71200  
*Hours* 45 hrs,  
*Credits* 3 cr

**COMSC 72400 - Acquired Motor Speech and Swallowing Disorders**

Disorders of speech resulting from neurologic impairment affecting the motor programming (apraxia) or neuromuscular execution (dysarthria) of speech and related neurogenic dysphagia in adults, assessment and therapeutic management strategies in social, educational and vocational settings.

*prereq: none*  
*Hours* 45 hrs,  
*Credits* 3 cr

**COMSC 72500 - Developmental Motor Speech and Swallowing Disorders**

Diagnosis and management of childhood dysarthrias, developmental apraxia of speech and related disorders of swallowing.

*prereq: COMSC 70800, 71200*
**COMSC 72600 - Adult Neurogenic Communication Disorders**

Neurological, linguistic, cognitive and psychological aspects of acquired communication disorders across the life span, including aphasia, traumatic brain injury, and dementia; prevention, assessment and intervention across a range of severity and etiology; interdisciplinary collaboration in acute care, home, educational and vocational settings.

*prereq: COMSC 71200*

**COMSC 72700 - Voice Disorders**

The identification, assessment, diagnosis, and management of dysphonia and related disorders; an overview of the functional, congenital, psychogenic, organic and neurogenic disorders that can affect vocal function, respiration, resonance, and deglutition; the role of stroboscopy, glottography, and aerodynamic and acoustic measures in the assessment of phonatory disorder and laryngeal impairment. A survey of treatment techniques and strategies for pediatric, adolescent, adult and geriatric voice patients; interdisciplinary collaboration in acute care, home, educational and vocational settings.

*prereq: COMSC 70800, 71200*

**COMSC 72800 - Clinical Practicum in Speech-Language Pathology**

First-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica or off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 728.04, for students in the bilingual extension, designates a special section of COMSC 728 for practicum with Spanish-speaking children eligible for bilingual services.

*prereq: COMSC 72000, 73300*

**COMSC 72900 - Clinical Practicum in Speech-Language Pathology 1**

Second-year fall semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica or off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 72904 for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish speaking children eligible for bilingual services.

*prereq: COMSC 73300*

*coreq: COMSC 73600*

**Credits 1 cr**
COMSC 72904 - Clinical Practicum in Speech-Language Pathology 1

for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 73300
coreq: COMSC 73600
Credits 1

COMSC 73000 - Cleft Palate and Craniofacial Disorders of Speech

Broad spectrum of velopharyngeal incompetence, including embryogenesis, classification of clefts, aspects of cleft palate speech, associated disorders, modes of formal and informal assessment and intervention strategies within the home, school, hospital and work environments; current surgical and prosthetic management of cleft lip, palate and related craniofacial disorders; impact on learning and literacy acquisition.

prereq: COMSC 70800, 71200
Hours 45 hrs,
Credits 3 cr

COMSC 73100 - Assessment and Management of Speech, Voice, and Swallowing Following Surgical Intervention for Head and Neck Cancer

Assessment and management of surgically based swallowing disorders in children, adolescents and adults; rehabilitation of speech, voice following oral and laryngeal surgery including the use of speech aids.

prereq: COMSC 70800, 71200
Hours 45 hrs,
Credits 3 cr

COMSC 73300 - Clinical Methods in Speech-Language Pathology

Advanced clinical seminar devoted to the changing nature of clinical populations, delivery of health-care service in the home, hospital, school and work environments; measures of clinical outcomes, prevention, and professional/ethical practices; analysis of clinical and classroom management and instruction.

prereq: COMSC 72000
Hours 30 hrs,
Credits 2 cr

COMSC 73500 - Methods in Speech-Language Pathology II

Summer clinical seminar devoted to the changing nature of clinical populations; intervention strategies for individuals with disorders of speech and language across the lifespan in various hospital and clinic settings; continued development of professional oral and written communication skills; professional/ethical practices.

prereq: COMSC 73300, 77100
Hours 30 hrs,
Credits 2 cr
COMSC 73600 - Clinical Seminar in Speech-Language Pathology 1

Assessment measures and intervention strategies for individuals with disorders of speech and language across the lifespan; development of professional oral and written communication skills.

prereq: COMSC 73300
Hours 30 hrs,
Credits 2 cr

COMSC 73700 - Clinical Seminar in Speech-Language Pathology 2

This seminar focuses on models of clinical delivery, legislative and managed care policies as they influence the practice of speech-language pathology; requirements for certification and licensure.

prereq: COMSC 73600
coreq: COMSC 73900
Hours 30 hrs,
Credits 2 cr

COMSC 73800 - Communication and Developmental Disabilities

This course surveys the communication status of individuals with developmental disabilities (i.e., intellectual disability, autism spectrum disorder, and cerebral palsy) with a focus on evidence-based assessment and intervention practices across the life span.

prereq: none
Credits 3

COMSC 73900 - Clinical Practicum in Speech-Language Pathology 2

Second-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence, or adulthood.

prereq: COMSC 72900
coreq: COMSC 73700
Credits 1 cr

COMSC 73904 - Clinical Practicum in Speech-Language Pathology 2

For students in the bilingual extension, designates a special section of COMSC 73900 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 72900
coreq: COMSC 73700
Hours 45 hrs,
Credits 3 cr

COMSC 75200 - Audiology for Speech-Language Pathologists
Topics in auiological assessment and management of children and adults with hearing loss that are relevant to the practicing speech language pathologist.

prereq: none
Hours 45 hrs,
Credits 3 cr

COMSC 77100 - Summer Clinical Practicum in Speech-Language Pathology 1

First-year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervisor of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practicum and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood and adolescence, as well as with adults.

prereq: COMSC 73300
Credits 1 cr

COMSC 77200 - Summer Clinical Practicum in Speech-Language Pathology 2

Second year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood, adolescence, as well as with adults.

prereq: COMSC 77100
Credits 1 cr

COMSC 78100 - Independent Study

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

prereq: completion of 24 cr. minimum
Hours Hours to be arranged
Credits 2 cr

COMSC 78200 - Independent Study

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

prereq: completion of 24 cr. minimum
Hours Hours to be arranged
Credits 2 cr

COMSC 79000 - Special Topics in Speech-Language Pathology or Audiology

Hours 45 hrs,
Credits 3 cr

COMSC 79600 - Special Problems
Directed study under supervision of faculty members. For doctoral credit, must be supervised by member of doctoral faculty.

*Hours 45 hrs,  
Credits 3 cr*

**COMSC 79900 - Thesis Seminar**

Individual research under supervision.

*Hours Hours to be arranged  
Credits 3 cr*

**Programs and Courses in CUNY School of Public Health at Hunter College**

**CUNY School of Public Health at Hunter College**

**About the School**

Hunter College is a consortial partner and the lead institution in the CUNY School of Public Health (SPH). The CUNY SPH is comprised of public health degree programs at Brooklyn College, Hunter College, Lehman College and the Graduate School and University Center (Graduate Center) of CUNY. Within the CUNY SPH, teaching, research and service are focused on four broad inter-related goals that reflect major health challenges in the current era:

1) creating healthier cities
2) promoting healthy aging through the lifespan
3) preventing chronic diseases and improving their management
4) promoting health equity

The graduate programs in public health at the CUNY SPH at Hunter College educate public health professionals to promote health; prevent disease among urban populations. These programs prepare students to work with the diverse populations living in cities, and to serve in a variety of settings in government, non-profit organizations, businesses and communities.

CUNY SPH at Hunter College offers a master of public health (MPH) degree, with specializations in community health education (COMHE), environmental and occupational health sciences (EOHS-MPH), epidemiology and biostatistics (EPI-BIOS), public health policy and management (HPM) and nutrition (NUTR-MPH). It also offers a Master of Science (MS) degree, with specializations in environmental and occupational sciences (EOHS-MS) and Nutrition (NUTR-MS). The MS degree in Nutrition (NUTR-MS) is an accredited didactic program in dietetics (DPD), and is designed for individuals seeking to become eligible to sit for the national registration examination in dietetics to become credentialed as a Registered Dietitian (RD). With the Hunter-Bellevue School of Nursing, it also offers an MSN/MPH degree in community health nursing. This dual-degree program is described in the School of Nursing section of this catalog.

With the Graduate Center, the CUNY SPH at Hunter College offers a doctor of public health (DPH) degree, with specializations in community society and health, epidemiology, environmental and occupational health and public
health policy and management. The DPH degree program is described in the Graduate Center Catalogue. Doctoral students in some CUNY Graduate Center PhD programs, including sociology and psychology, can also earn an MPH while pursuing their doctorate.

The MPH degree is accredited by the Council on Education for Public Health (CEPH), the national educational accrediting body for public health programs in community health/preventive medicine. The EOHS-MS degree is accredited by the Accreditation Board for Engineering and Technology (ABET) and is geared towards students pursuing Certification in Industrial Hygiene. The NUTR-MS is accredited by the Commission on Accreditation of Dietetics Education (CADE), the accrediting agency of the American Dietetic Association (ADA).

During the fall and spring semesters, MPH and EOHS-MS courses are held once a week, Mondays through Thursday, in the late afternoon and evening. NUTR-MS courses are held during the day. MPH and EOHS-MS degrees can be pursued on a full or part-time basis. The NUTR-MS degree program is full-time. During the summer, there are a limited number of course offerings, which are held twice a week in the late afternoon and evening. During the January winter semester, there are a limited number of intensive courses which meet full days for one week or extended late afternoon/evening hours over a three week period.

The graduate programs at the CUNY SPH at Hunter College provide students with a broad multidisciplinary background in public, urban health and specializations in community health education, environmental and occupational health sciences, epidemiology and biostatistics, public health policy and management and public health nutrition.

Each specialization prepares students for specific job opportunities. Graduates of the community health education program plan and manage community health programs and interventions to reduce social and behavioral threats to health. Graduates of the environmental and occupational health program anticipate, identify, assess and control community and workplace exposure that jeopardize the health of populations. Graduates of the epidemiology and biostatistics program conduct health studies and apply their findings to improve population health. Graduates of the public health policy and management specialization work as analysts, managers and/or researchers to advocate for, administer, and/or analyze public health policies and programs. Public-health nutrition graduates promote the nutritional well-being of urban populations and manage community nutrition programs.

The NUTR-MPH specialization includes courses that meet the requirements of the Dietetic Internship (DI), a 1200-hour fieldwork and didactic experience accredited by CADE. Students who are accepted into the DI and successfully complete the program are eligible to sit for the national registration in dietetics to become credentialed as registered dietitians (RD). Students who enter the MPH program with a Bachelor of Science degree in nutrition that fulfills CADE competencies may simultaneously work toward the MPH degree and dietetics registration, two credentials that will increase skills and employability.

**Centers**

Three centers are affiliated with the academic programs in public health at Hunter College which provide opportunities the Center for Community and Urban Health the Brookdale Center on Healthy Aging and Longevity and the Center for Occupational and Environmental Health. They provide opportunities for students to become involved in demonstration projects and research through internships and independent study.

1. **The Center for Community and Urban Health** (CCUH) was founded in 1986. The center’s Director, Beatrice J. Krauss, PhD, is a full-time tenured professor at the SPH. The CCUH is dedicated to strengthening the capacity of individuals, families, organizations and populations to address and resolve contemporary community and urban health issues and concerns. The center conducts scientifically informed, interdisciplinary research and evaluation, program development, training and education, technical assistance and consultation and policy advisement. http://www.hunter.cuny.edu/schoolhp/centers/comm_urb/index.htm

2. **The Brookdale Center for Healthy Aging & Longevity** (BCHAL) was founded in 1974 and is one of the country’s first multi-disciplinary academic centers dedicated to the advancement of successful aging and longevity. Through research, education, training and evaluation of evidence-based models of practice and
policy, it plays a vital role in enhancing the quality of life of older Americans and their families. Its current focus is on contributing the knowledge that can help cities to support healthy aging. The center’s Co-Director and Director of Research, Marianne Fahs, PhD, and Associate Director for Research, William T. Gallo, PhD, are both full-time tenured faculty at the SPH. http://www.brookdale.org/index.htm

3. The Center for Occupational and Environmental Health (COEH) was founded as a research, training and educational center whose mission is to promote community and workplace health. The Hunter COEH works with community-based organizations, schools, labor unions, private employers and federal, municipal and state agencies to promote better understanding, access to information and improved skills in addressing workplace and environmental hazards. The center’s Director, Professor Jack Caravanos, is a full-time faculty member in the SPH. Recent areas of COEH’s focus include: improving the skills of hazardous materials and emergency response workers, enhancing community-based research partnerships to address neighborhood air pollution, reducing asthma rates in New York City and training Community Health Workers. http://www.hunter.cuny.edu/health/coeh/

In addition, Brooklyn College offers an MPH degree, with specializations in general public health and health care administration and policy; Lehman College offers an MPH degree with a specialization in community-based public health and health equity.

**Programs and Courses**

Programs and Courses in CUNY School of Public Health at Hunter College

**Degrees Offered**

- **MPH** Urban Public Health - MPH
- **MS/MPH** Nursing: Community/Public Health Nursing/Urban Public Health MS/MPH Dual Degree
- **MS** Environmental and Occupational Health Sciences - MS
- **MS** Nutrition MS

**Administration and Faculty**

**Administrative Office:**

(212) 481-5111
cuny sph@hunter.cuny.edu
**Website:** http://www.hunter.cuny.edu/uph

**Dean:**

Kenneth Olden
Brookdale Center
610 West
(212) 481-4314
kolden@hunter.cuny.edu

**Acting University Associate Dean for Academic Affair:**

Susan Klitzman
Brookdale Center
1020 West
Community Health Education Program:

Renata Schiavo, Ph
Brookdale Center
829-West
212-481-4352
renata.schiavo@hunter.cuny.edu

Epidemiology and Biostatistics Program:

Lorna Thorpe, PhD
Brookdale Center
1027W West
(212) 481-77580

Faculty of the CUNY School of Public Health at Hunter College

**Philip Alcabes, Professor, Urban Public Health;** MPH, Columbia; PhD, Johns Hopkins; Epidemiology, Biostatistics, AIDS and HIV, Tuberculosis

**Marilyn Iris Auerbach, Associate Professor, Urban Public Health;** DrPH, Columbia; Women’s Issues, Chronic Illness, HIV/AIDS

**Barbara Berney, Associate Professor, Urban Public Health;** PhD, Boston University; School Related Health Issues, Working Conditions in Healthcare, Environmental Health and Environmental Health Policy

**Jack Caravanos, Associate Professor, Urban Public Health;** DrPH, Columbia; Industrial Hygiene, Environmental Assessments, Hazardous Wastes

**Neal L. Cohen, Distinguished Lecturer, Urban Public Health;** MD, New York University School of Medicine; Public Mental Health, the Interrelationship of Physical and Mental Well-Being, Stress

**Jessie Daniels, Associate Professor, Urban Public Health;** PhD, University of Texas at Austin; Internet and media, racial inequality, LGBT health, adolescent health

**Jennifer Dowd, Assistant Professor, Urban Public Health;** Ph.D, Princeton University; Integrating biomarking into social research, health disparities, stress and immune function

**Marianne Fahs, Professor, Urban Public Health;** PhD, Michigan; Public Health Economics and Policy, Urban Aging

**Nicholas Freudenberg, Distinguished Professor, Urban Public Health;** DrPH, Columbia; Urban Public Health, HIV Prevention, Public Health Policy

**Ann Gaba, Assistant Professor, Urban Public Health;** EdD, Teachers College, Columbia; Movement Disorders, Cancer Prevention, and Needs Assessment for Nutrition Education

**William Gallo, Professor, Urban Public Health, PhD, University of Connecticut;** Health Economics, Social Epidemiology, Health Policy

**Mark Goldberg, Associate Professor, Urban Public Health;** PhD, NYU; Industrial Hygiene, Exposure Assessment, Construction Health and Safety

**David U. Himmelstein, Professor, Urban Public Health: M.D. Columbia;** health care finance and policy, health services research, health care inequality, social justice

**Shiro Horiuchi, Associate Professor, Urban Public Health;** Ph.D, John Hopkins; Longevity and aging, health demography, quantitative methods of data analysis

**Lydia Isaac, Assistant Professor, Urban Public Health;** PhD, Johns Hopkins; Racial/ethnic health disparities; Social determinants of health; Chronic diseases; and Public Policy

**Heidi E. Jones, Assistant Professor, Epidemiology, Urban Public Health; MPH, Hunter College; PhD, Columbia; Reproductive Health, HIV/AIDS, Infectious Diseases

**Elizabeth Kelvin, Assistant Professor, Urban Public Health;** PhD, Columbia; Epidemiology, infectious diseases, including HIV, environmental causes of disease and international health.
Susan Klitzman, Professor, Urban Public Health; DrPH, Columbia; Environmental and Occupational Health and Disease Prevention

David Kotelchuck, Associate Professor Emeritus, Urban Public Health; PhD, Cornell; Occupational Health, Industrial Hygiene, Epidemiology

Beatrice Krauss, Professor, Urban Public Health; PhD, CUNY; Community, Family and Individual Adjustment to Health Threats; HIV/AIDS

May May Leung, Assistant Professor, Urban Public Health; PhD, RD, The University of North Carolina; Childhood obesity, Health Communication, Translational research

Thomas Matte, Professor, Urban Public Health; MD, Albany; Air pollution, climate and health, health disparities

Frank Mirer, Professor, Urban Public Health; PhD, Harvard; Toxicology, occupational health and safety, risk assessment, regulatory policy

Khursheed Navder, Associate Professor, Urban Public Health; PhD, Kansas; Lipid Metabolism, Alcohol Metabolism, Sensory Evaluation of Foods

Denis Nash, Associate Professor, Epidemiology, Urban Public Health; PhD, University of Maryland; Public Health Surveillance, Health Disparities, and HIV/AIDS

Stacey Plichta, Professor, Urban Public Health; ScD, Johns Hopkins; Health Services Research, Women’s Health, Intimate partner violence, rape and sexual violence

Lynn Roberts, Assistant Professor, Urban Public Health; PhD, Cornell; Adolescent Health, Violence and Prevention, Minority Health

Diana Romero, Associate Professor, Urban Public Health; PhD, Columbia; Poverty and maternal, child and reproductive health; racial/ethnic health disparities, reproductive health policy

Renata Schiavo, Associate Professor, Urban Public Health; PhD, University of Naples, Italy, MA, New York University; Strategic health communication for behavioral, social, and organizational change; program evaluation; global health

Mary Schooling, Associate Professor, Urban Public Health, PhD, UC London

Arlene Spark, Professor, Urban Public Health; EdD, Columbia; Pediatric Nutrition, Nutrition Education, Cardiovascular Health and Promotion

Makram Talih, Associate Professor, Urban Public Health; Ph.D, Yale; Statistics, Data Analysis, Health Disparities Measurement

Lorna Thorpe, Associate Professor, Urban Public Health; Ph.D, University of Illinois at Chicago; Chronic disease epidemiology, public health surveillance, tuberculosis and injury epidemiology

Steffie Woolhandler, Professor, Urban Public Health; M.D. LSU New Orleans, MPH U.C. Berkeley; health care finance and policy, health services research, health care inequality, social justice

Ming-Chin Yeh, Associate Professor, Urban Public Health; PhD, North Carolina, Public Health Nutrition, Nutrition Intervention and Policy, Nutritional Epidemiology

Graduate Masters
Environmental and Occupational Health Sciences - MS

This program is designed for individuals seeking careers as environmental and occupational health professionals. While emphasizing the recognition, evaluation, and control of environmental and occupational factors affecting health, the curriculum also includes consideration of economic, sociopolitical, and regulatory issues. Offerings are designed so that students may also pursue study in environmental health science in addition to specialization in occupational health and safety. Opportunities are available for internships with numerous outside organizations (see list of field instruction centers) as well as for research with faculty members. Together with several other major professional training institutions, this program is a component of the Education and Research Center designated for this region by the National Institute for Occupational Safety and Health. A limited number of tuition scholarships are available to qualified students.

Graduates of the program are qualified for research, management, and planning positions in a variety of private and public institutions. Career options include air and water pollution control, hazardous waste management, industrial hygiene, occupational health and safety, environmental planning, and environmental public health. After a prescribed period of work experience, graduates can qualify for examinations to become certified industrial hygienists (CIH), certified safety professionals (CSP), certified hazardous materials managers (CHMM).

Scholarships may be available from the National Institute for Occupational Safety and Health (NIOSH) (EOHS Students) and other public and private sources. Contact the program office for further information.

Admission Requirements

1. General admission requirements to the graduate programs in arts and sciences are observed.

2. The aptitude section of the Graduate Record Examination or a master’s degree from an accredited U.S. university

An undergraduate major in science or engineering is desirable.

Students are expected to have completed at least 40 credits in undergraduate or graduate-level basic science and math courses such as courses in organic chemistry (with labs), general chemistry, general physics, biology, and environmental or health sciences. Generally, an undergraduate major in biology, chemistry, environmental sciences or physics would satisfy these requirements. Students must also have completed one semester of calculus and one of statistics. Students with a good academic record who do not meet the above requirements may be admitted with conditions upon recommendation of the program admissions committee.

Academic Requirements

46 credits chosen as follows: All courses in Group A (15 credits) Public Health Core courses (see below under Course Distribution); Group B (19 credits) Specialization courses within environmental and occupational health sciences; Group C (6 credits) Elective courses; and Group D (6 credits) Supervised Fieldwork and Capstone Project.

The capstone project consists of a comprehensive examination, a professional portfolio and either: A seminar, and paper and oral presentation based on an aspect of the student’s fieldwork; or, for student’s with GPA’s ≥3.7 and strong independent research and writing skills, a master’s essay. The Capstone Project allows students to synthesize academic knowledge with practical skills and experiences. It is designed to assess student skills and competencies in public health and the specialty area. A list of these competencies is available through the CUNY School of Public Health at Hunter College.

Course Distribution
Group A - Public Health Core Courses required. 15 credits

**PH 75100 - Principles of Biostatistics**

This is a first-level requirement for students specializing in EPI-BIOS, who will take subsequent intermediate and advanced level biostatistics courses. It will introduce students to the theoretical basis for and practical application of common statistical methods and principles used in public health.

*prereq: evidence of quantitative abilities, such as college-level algebra with a grade of B+ or better, GRE scores $\geq 550$ and analytic scores $\geq 4.5$.*

**PH 75200 - Introduction to Epidemiology**

An introduction to epidemiologic principles, methods and measures commonly used in public health. T

*prereq: PH 75000 or PH 75300*

**PH 75300 - Principles of Epidemiology**

A first-level requirement for student specializing in EPI-BIOS, who will take subsequent intermediate and advanced level epidemiology courses. It will introduce students to epidemiologic theory, principles, methods and measures commonly used in public health.

*prereq or coreq: PH 75100*

**PH 75400 - Environmental Health and Safety**

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation and noise hazards; hazardous substances; solid wastes; food protection; natural and human-made disasters; and specific hazards such as lead, asbestos, mold and pesticides.

**PH 75500 - Urban Health and Society**

Examines impact of social and political forces on the health of urban populations and describes roles for public health professionals in promoting health of urban communities.

**PH 75600 - Public Health and Health Care Policy and Management**

This course examines the organization, delivery and financing of health care in the United States with an understanding of the health policy-making process and a focus on issues related to the management of public health agencies.

Group B Specialization Courses required, 19 credits

**EOHS 70200 - Introduction to Occupational Safety and Health**
Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

**EOHS 74100 - Environmental and Industrial Hygiene Laboratory**

Physical, chemical, and instrumental methods for measuring environmental and occupational contaminants.

*prereq or coreq: EOHS 70500
Hours 90 hrs lec and lab,
Credits 4 cr*

**EOHS 75400 - Environment and Occupational Toxicology**

Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of toxicological testing and evaluation.

*prereq: PH 75400 and EOHS 70500*

**EOHS 75500 - Industrial Ventilation and Environmental Control**

Fundamentals of industrial ventilation: air flow, local and dilution exhaust ventilation systems, hood and piping design, fan type and selection, air cleaning devices, system-testing; problem-solving; engineering controls.

**EOHS 75700 - Principles of Industrial Hygiene**

Recognition, evaluation, and control of industrial hazards due to chemical and physical agents. Topics include occupational health standards, regulatory agency activities, effects of contaminants on human health, sampling and control of hazards, current issues.

*prereq: EOHS 70200 and 70500*

**EOHS 76200 - Noise and Radiation Hazards and Controls**

Introduction to basic concepts of sound, noise measurement, and noise control in community and occupational environments. Health and safety problems involved with the use of ionizing and non-ionizing radiation, with an emphasis on identification and control.

*prereq or coreq: EOHS 70500*

**Group C Elective Courses required, 6 credits**

**Group D Supervised Fieldwork and Culminating Experience**

Supervised Fieldwork required, 3 credits

**PH 73700 - Supervised Fieldwork**
Students will carry out directed field experiences in public health agencies or programs. Placements are in relation to student’s academic background, specialization and career expectations. Emphasis is on applying classroom-acquired concepts and skills. The content and scope of the fieldwork should be similar to work performed by an entry level public health professional.

**prereq:** Completion of 18 credits toward the master's degree, including at least 3 required core courses (biostatistics, epidemiology, and the course most relevant to your specialization) and at least 2 courses in students’ specialization.

**PH 73800 - Capstone Project**

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the MPH or MS program. Students will complete either a paper based on fieldwork, a research paper or a Master’s Essay. The paper must be completed no sooner than during students’ penultimate or final semester.

**prereq:** Completion of at least 36 credits of coursework toward the Master of Public Health (MPH) or Master of Science degree, including at least one course in each of the 5 core areas of public health (biostatistics, epidemiology, social and behavioral sciences, public health policy and environmental health and safety); and at least 3 specialization courses.

**Nutrition MS**

The MS degree in Nutrition is designed for individuals seeking to attain the RD credential. The MS in Nutrition is an accredited didactic program in dietetics (DPD), completion of which certifies eligibility to apply for a dietetic internship. Graduates of the NUTR-MS program may work as nutritionists in a wide variety of health care facilities including hospitals and public health agencies.

**Admission Requirements**

1. General admission requirements to the graduate programs in arts and sciences are observed.

2. An undergraduate major in any field.

3. The aptitude section of the Graduate Record Examination or a master’s degree from an accredited U.S. university.

4. At least 30 credits in the following undergraduate or graduate-level basic science and math courses: one semester each of undergraduate courses in introductory foods, introductory nutrition, general chemistry (with lab), organic chemistry (with lab), microbiology (with lab), and statistics or calculus, and two semesters of anatomy and physiology (with lab).

**Academic Requirements and Course Distribution**

41 credits as follows:

**NUTR 70500 - Nutrition and Biochemistry**

The structure and metabolism of macro- and micronutrients, kinetics and regulation of enzymes; energetic of biochemical reactions.
NUTR 71500 - Food Service and Management

An overview of good service operations and theories, functions and tasks of management

NUTR 72000 - Community Nutrition Education

Nutrition programs and materials for health promotion in the community.

NUTR 72500 - Nutrition Research

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

NUTR 73100 - Human Nutrition and Metabolism

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

*prereq: NUTR 70500*

NUTR 73200 - Advanced Nutrition II

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

*prereq: NUTR 73100*

NUTR 73300 - Nutrition and Human Development

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

NUTR 73400 - Clinical Nutrition I

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73100*

NUTR 73500 - Clinical Nutrition II

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73400*

NUTR 74600 - Nutrition and Disease

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

*coreq: NUTR 74700*
NUTR 74700 - Advanced Nutrition and Assessment Laboratory

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of various population groups.

coreq: NUTR 74600

NUTR 75600 - Food Science and the Environment

Scientific principles of food and food ingredients: composition, function, regulation, safety, quality, testing, processing, packaging, formulation, production and evaluation of foods.

coreq: NUTR 75700

NUTR 75700 - Food Science and the Environment Laboratory

Laboratory experience with the chemical and physical properties of food components.

coreq: NUTR 75600
Credits 1

NUTR 76000 - Practicum

Nutrition and food science-related fieldwork in hospitals, schools, laboratories, and community-based organizations designed to provide opportunities to apply knowledge and skills gained from the classroom education to professional practice.

prereq: completion of 27 credits in NUTR

PH 75000 - Introduction to Biostatistics

This course is designed to enable students to analyze, present and interpret population health data.

prereq: Elementary statistics or calculus or equivalent.

Urban Public Health - MPH

Return to: CUNY School of Public Health

Admission Requirements

1. General admissions requirements to the graduate programs in the arts and sciences are observed.

2. The Graduate Record Examination General Test (quantitative, verbal, written) or a prior master’s degree from an accredited U.S. university

3. Students are expected to present a background in both natural sciences and social sciences
Applicants to the Environmental and Occupational Health Sciences Program should have a background in science and mathematics, usually at least 18 undergraduate credits, including a course in statistics or calculus.

Applicants to the Nutrition Program should have a background in science and mathematics, usually at least 18 undergraduate credits, including a course in statistics or calculus and are required to have completed coursework in food, nutrition, biology and chemistry.

Applicants to the Epidemiology-Biostatistics Program should demonstrate evidence of quantitative abilities, such as GRE quantitative score of 550 or better.

Applications to the Public Health Policy and Management Program should have completed at least 3 undergraduate courses in economics, accounting, business administration, management, public policy, urban affairs, sociology, or political science or a related field.

4. At least one year of work or volunteer experience related to public health, nutrition, environmental or occupational health, social services or community health, health-related research, or health policy, management, administration or a related field is required.

5. For graduates of universities in non-English-speaking nations, a TOEFL score of 600 (paper-based), 250 (computer-administered), or 75 (internet-based, less the speaking component.) is required for admission.

Academic Requirements

45 credits chosen as follows: All courses in Group A (15 credits) Public Health Core courses (see below under Course Distribution); Group B (15-18cr) Specialization courses within one of five areas: community health education, environmental and occupational health sciences, epidemiology and biostatistics, public health policy and management or public health nutrition; Group C (0-9 credits) Elective courses; and Group D (6-12 credits) Supervised Fieldwork and Culminating Experience.

The culminating experience consists of a professional portfolio and either: a seminar, and paper and oral presentation based on an aspect of the student’s fieldwork; or, for student’s with GPA’s ≥3.7 and strong research and writing skills, a master’s essay. The capstone project allows students to synthesize academic knowledge with practical skills and experiences. It is designed to assess student skills and competencies in public health, urban health and the specialty area. A list of these competencies is available through the CUNY School of Public Health at Hunter College.

Course Distribution

Group A - Public Health Core Required: 15 cr

**PH 75000 - Introduction to Biostatistics**

This course is designed to enable students to analyze, present and interpret population health data.

*prereq: Elementary statistics or calculus or equivalent.*

-or-

**PH 75100 - Principles of Biostatistics**
This is a first-level requirement for students specializing in EPI-BIOS, who will take subsequent intermediate and advanced level biostatistics courses. It will introduce students to the theoretical basis for and practical application of common statistical methods and principles used in public health.

prereq: evidence of quantitative abilities, such as college-level algebra with a grade of B+ or better, GRE scores ≥550 and analytic scores ≥4.5.

**PH 75200 - Introduction to Epidemiology**

An introduction to epidemiologic principles, methods and measures commonly used in public health. T

prereq: PH 75000

-or-

**PH 75300 - Principles of Epidemiology**

A first-level requirement for student specializing in EPI-BIOS, who will take subsequent intermediate and advanced level epidemiology courses. It will introduce students to epidemiologic theory, principles, methods and measures commonly used in public health.

prereq or coreq: PH 75100

**PH 75400 - Environmental Health and Safety**

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation and noise hazards; hazardous substances; solid wastes; food protection; natural and human-made disasters; and specific hazards such as lead, asbestos, mold and pesticides.

**PH 75500 - Urban Health and Society**

Examines impact of social and political forces on the health of urban populations and describes roles for public health professionals in promoting health of urban communities.

**PH 75600 - Public Health and Health Care Policy and Management**

This course examines the organization, delivery and financing of health care in the United States with an understanding of the health policy-making process and a focus on issues related to the management of public health agencies.

**Group B Specialization Courses Required:**

15-18 cr in one specialization area

   Community Health Education

**COMHE 75000 - Community Health Assessment**

This course prepares students to collect and analyze data on community health from a variety of sources, to identify problems and assets, and to develop objectives for community health interventions.
COMHE 75100 - Community Health Interventions

An introduction to community-level interventions as explained by theories of individual, organizational and community change from the disciplines of psychology, sociology and health education.

*prereq: PH 75500, COMHE 75000
Credits 3*

COMHE 75200 - Community Organizing and Development for Health

Prepares students to work in communities by presenting the theory and practice of organizing for social justice, skills for promoting leadership development within communities, and the tools to create and sustain healthy organizations.

*prereq: PH 75000, COMHE 75000, COMHE 75100*

COMHE 75300 - Health Program Planning and Funding

This course will engage students in identifying or designing a health program, finding funding sources, and developing a proposal covering program need, program objectives, a management and quality assurance plan, preliminary work, evaluation, budget, and a plan for funding support.

*prereq: completion of 15 cr incl PH 75000 or 75100, PH 75500 and either COMHE 75000, COMHE 75100, COMHE 75200 or COMHE 75000 and NUTR 71000 or NURS 77100, COMHE 75100 and COMHE 75200.*

*Credits 3 cr*

COMHE 75400 - Research and Evaluation for Community Health

Basic concepts, methods and approaches for evaluation research applied to community health education and health-related programs through a critical review of literature and a program evaluation design.

*prereq: 15 cr in program incl PH 75000 or PH 75100, PH 75500, COMHE 75000, COMHE 75100, COMHE 75200*

*Credits 3 cr*

EOHS 70200 - Introduction to Occupational Safety and Health

Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

EOHS 70500 - Environmental Chemistry

Survey of chemical and physical concepts essential for understanding environmental and occupational health sciences, including study of the atmosphere, air and water pollution, and energy resources. Physical principles of heat and energy, and radioactivity will be discussed.
EOHS 74700 - Hazard Evaluation and Instrumentation

An introduction to instrumental methods used to assess environmental and occupational health hazards. Principles and operation of commonly used direct reading instruments and demonstration of their application.

_prereq: PH 70000, EOHS 70200_

EOHS 75400 - Environment and Occupational Toxicology

Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of toxicological testing and evaluation.

_prereq: PH 75400 and EOHS 70500_

EOHS 76500 - Environmental Audits and Remediation

Introduction to environmental investigation and remediation technologies commonly used in professional practice. Presents proper practices for assessing and remediating asbestos, lead-based paint, indoor air quality, and underground storage tanks situations and Phase I site audits.

_prereq: PH 70000_

_or_

Epidemiology and Biostatistics

BIOS 75000 - Applied Biostatistics I

A follow up course to PH7500 and PH75300, covering intermediate-level statistical methods commonly used in public health research. Topics include: simple and multiple linear regression; logistic regression; residual analysis; variable selection. Focus on practical applications, utilizing statistical software.

Cross-listed STAT 75000  
_prereq: PH 75100, PH 75300_

BIOS 75100 - Applied Biostatistics II

A follow up course to BIOS 75000, covering intermediate and advanced statistical methods commonly used in public health research. Topics include: log linear and generalized linear models; random and mixed effects models; survival analysis. Focus on practical applications utilizing statistical software.

Cross-listed STAT 75100  
_prereq: BIOS 75000_

EPI 75000 - Epidemiologic Methods I: Study Research Design

This course will provide an in depth understanding of the design and conduct of epidemiological studies, including causal inferences, measurement, major study designs, threats to validity, and urban public health applications. Examples will be based on the health of New York City residents. Prereq: .
Cross-listed GC PH 82000  
prereq: PH 75100, PH 75300

**EPI 75100 - Epidemiologic Methods II: Survey and Research Methods**

This course will provide students with an understanding of the methods used to test research hypotheses; tools for selecting statistical tests appropriate for the particular study design and research hypotheses; and an ability to recognize the importance and impact of threat to validity such as confounding and bias. This course will also cover survey methods used in epidemiologic research.

Cross-listed GC PH 82100  
prereq: EPI 75000

**EPI 75200 - Applied Research: Data management and analysis**

This course provides students with the opportunity to apply epidemiological and statistical concepts using several datasets to answer a given research question and test the hypotheses associated with it.

prereq: BIOS 75100, EPI 75100 or instructor's permission  
-or-  
Public Health Policy and Management

**HPM 75000 - Public Health Management**

Focuses on management issues in a variety of organizational settings and the larger public health environment; describes managerial functions and problem solving strategies, financial management principles, and management models for change; develops specific skills in program management, budgeting, workforce development, and managing intersectoral programs.

prereq: PH 75500, PH 75600

**HPM 75100 - Public Health and Health Care Law**

Reviews key areas of the legal process relevant to health care delivery and public health; analyzes major court decisions that have affected the field and selected federal, state and local statutes that affect public health and health care practice; acquaints students with the basics of legal research and legal reasoning as applied to public health and health care.

prereq or coreq: PH 75500, PH 75600 or with instructor’s permission for those with at least one year of health care experience

**HPM 75200 - Comparative Analyses of Urban Health Care Systems**

Examines unique challenges and opportunities for delivering health care in developed and developing world cities; analyses impact of national and local policies and social and political factors on health care access, quality and outcomes; introduces empirical methods for making comparative studies across municipalities and nations.

prereq: PH 75500, PH 75600  
Students can take this course or HPM 75400
HPM 75400 - Public Health Advocacy

Prepares students to advocate for policies that promote public health, develops skills in planning and implementing advocacy campaigns; assess theories on role of coalitions and advocacy in changing health policy.

prereq: PH 75500, PH 75600
Students can take this course or HPM 75200

HPM 75300 - Public Health Policy Analysis

Examines common approaches and concepts of policy analysis for public health, including market efficiency and failures, cost-benefit analysis, problem and decision making analysis; describes critiques of such models with public health examples; focuses on the Health Impact Assessment as a method for analyzing costs and benefits of health and non-health policies.

prereq: PH 75500, PH 75600

HPM 75500 - Health Economics

This course in health economics introduces students to essential microeconomic concepts as they apply to health systems, individual and public health.

prereq: Recommended pre-req: PH 75500, PH 75600
-or-

Nutrition

NUTR 71000 - Principles of Public Health Nutrition

Fundamentals of nutrition in public health as they apply to health promotion and disease prevention for individuals and society, with emphasis on urban populations.

NUTR 72000 - Community Nutrition Education

Nutrition programs and materials for health promotion in the community.

NUTR 73300 - Nutrition and Human Development

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

PH 72200 - Food Politics and Policy

This policy course examines the influence of the food industry and of government on the U.S. food system and the way we eat, and on efforts to prevent and treat chronic diet-related conditions, such as obesity. This is a hybrid course that meets in person 5 times during the semester; the remainder of the time the course is conducted online asynchronously through Blackboard.
Cross-listed GC PH 81400
prereq: 30 MPH credits

- COMHE 75000 and either
- COMHE 75300 (for NUTR non-DI students)

-or-

NUTR 70000 - Seminar in Dietetics Practice

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

Open to dietetic internship (DI) students only.

Group C - Elective/Concentration Courses required, 0-9 credits

COMHE 9 credits
EOHS 9 credits

EPI/BIOS 9 credits of which at least 6 must be from EPI75300-75900 for students who choose EPI option or BIOS 75200-75800 for students who choose BIOS option. EPI-BIOS students may also take electives in mapping public health data and clinical trials or other topical electives offered.

HPM 9 credits of which at least 3 credits must be in finance or economics and 3 must be in program or policy evaluation

NUTR 6 credits (for NUTR non-Dietetic Internship (DI) students) and 0 credits for NUTR – DI students

Group D - Supervised Field Work and Capstone Project

Supervised Fieldwork required, 3 credits

PH 73700 (210 hrs) or NUTR 70100 NUTR 70300 NUTR 70200 for NUTR-DI Students

Capstone Seminar required, 3 credits

PH 73800

Note: To be eligible for the American Dietetic Association’s Dietetic Internship Certificate, a requirement for taking the examination to become a registered dietitian, students in the public-health nutrition specialization must complete NUTR 70000 NUTR 70100 NUTR 70200 NUTR 70300.

Community Health Education Required Courses
COMHE 75000 - Community Health Assessment

This course prepares students to collect and analyze data on community health from a variety of sources, to identify problems and assets, and to develop objectives for community health interventions.

prereq: PH 75500

COMHE 75100 - Community Health Interventions

An introduction to community-level interventions as explained by theories of individual, organizational and community change from the disciplines of psychology, sociology and health education.

prereq: PH 75500, COMHE 75000
Credits 3

COMHE 75200 - Community Organizing and Development for Health

Prepares students to work in communities by presenting the theory and practice of organizing for social justice, skills for promoting leadership development within communities, and the tools to create and sustain healthy organizations.

prereq: PH 75000, COMHE 75000, COMHE 75100

COMHE 75300 - Health Program Planning and Funding

This course will engage students in identifying or designing a health program, finding funding sources, and developing a proposal covering program need, program objectives, a management and quality assurance plan, preliminary work, evaluation, budget, and a plan for funding support.

prereq: completion of 15 cr incl PH 75000 or 75100, PH 75500 and either COMHE 75000, COMHE 75100, COMHE 75200 or COMHE 75000 and NUTR 71000 or NURS 77100, COMHE 75100 and COMHE 75200.

Credits 3 cr

COMHE 75400 - Research and Evaluation for Community Health

Basic concepts, methods and approaches for evaluation research applied to community health education and health-related programs through a critical review of literature and a program evaluation design.

prereq: 15 cr in program incl PH 75000 or PH 75100, PH 75500, COMHE 75000, COMHE 75100, COMHE 75200
Credits 3 cr

COMHE 77025 - Maternal and Child Health

This course explores maternal and child health issues both domestically and internationally.

Community Health Education Elective Courses

COMHE 71400 - Human Sexuality
Emotional, social, and physical development related to human sexuality. Emphasis on self-understanding and awareness of own sexual nature and needs. Methods, materials, and evaluation of sex education program in community settings.

**COMHE 72300 - Sexuality Through the Life Cycle: Educational and Clinical Aspects**

Considers issues of gender role, gender identity, eroticism, intimacy, love, sexual orientation, social role and genital sexual expression, assists students to distinguish between normal and problematic sexual expression in various life stages.

*prereq: COMHE 71400 or instructor's permission*

**COMHE 77000 - Topics in Community Health Education**

Courses on current topics in community health education.

*offered periodically*

**Environmental and Occupational Health Sciences Required Courses**

**EOHS 70200 - Introduction to Occupational Safety and Health**

Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

**EOHS 70500 - Environmental Chemistry**

Survey of chemical and physical concepts essential for understanding environmental and occupational health sciences, including study of the atmosphere, air and water pollution, and energy resources. Physical principles of heat and energy, and radioactivity will be discussed.

**EOHS 74100 - Environmental and Industrial Hygiene Laboratory**

Physical, chemical, and instrumental methods for measuring environmental and occupational contaminants.

*prereq or coreq: EOHS 70500
Hours 90 hrs lec and lab,
Credits 4 cr*

**EOHS 74700 - Hazard Evaluation and Instrumentation**

An introduction to instrumental methods used to assess environmental and occupational health hazards. Principles and operation of commonly used direct reading instruments and demonstration of their application.

*prereq: PH 70000, EOHS 70200*

**EOHS 75400 - Environment and Occupational Toxicology**
Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of toxicological testing and evaluation.

**prereq:** PH 75400 and EOHS 70500

**EOHS 75500 - Industrial Ventilation and Environmental Control**

Fundamentals of industrial ventilation: air flow, local and dilution exhaust ventilation systems, hood and piping design, fan type and selection, air cleaning devices, system-testing; problem-solving; engineering controls.

**EOHS 75700 - Principles of Industrial Hygiene**

Recognition, evaluation, and control of industrial hazards due to chemical and physical agents. Topics include occupational health standards, regulatory agency activities, effects of contaminants on human health, sampling and control of hazards, current issues.

**prereq:** EOHS 70200 and 70500

**EOHS 76200 - Noise and Radiation Hazards and Controls**

Introduction to basic concepts of sound, noise measurement, and noise control in community and occupational environments. Health and safety problems involved with the use of ionizing and non-ionizing radiation, with an emphasis on identification and control.

**prereq or coreq:** EOHS 70500

**EOHS 76500 - Environmental Audits and Remediation**

Introduction to environmental investigation and remediation technologies commonly used in professional practice. Presents proper practices for assessing and remediating asbestos, lead-based paint, indoor air quality, and underground storage tanks situations and Phase I site audits.

**prereq:** PH 70000

**Environmental and Occupational Health Sciences Elective Courses**

**EOHS 71000 - Industrial Safety and Safety Management**

Fundamental concepts and principles of industrial accident prevention and loss control; safety program organization; hazard recognition and evaluation; accident investigation; machine guarding; tire protection; personal protective equipment.

**EOHS 74300 - Air Resource Management**

Air pollution sources, types of pollutants, transport phenomena, effects on health and on vegetation and materials; air quality monitoring, criteria, standards, and control methods.
**EOHS 74500 - Hazardous Waste Management**

A review of the sources, transportation and control of hazardous chemical wastes. Regulatory requirements, disposal methods and health effects will also be presented.

**EOHS 74600 - Water Resources**

Water and waste water technology related to public health. Sources of water supply, distribution, treatment, chemical, biological and physical water pollutants and their health consequences. Review of federal legislation. Field trip to waste water treatment plant.

**EOHS 75900 - Industrial Processes and Plant Visits**

A review of major industrial processes and health hazards associated with each. Includes site visits to metropolitan NY industrial facilities during working hours.

*prereq: EOHS 75700*

**EOHS 77000 - Topics in Environmental and Occupational Health Sciences**

Courses on current topics in environmental and occupational health sciences.

*Offered periodically.*

**EOHS 77500 - Indoor Air Quality**

A review of sources indoor air pollution and its evaluation and control. Topics include assessment techniques, air sampling, HVAC assessment and remediation approaches.

**Epidemiology and Biostatistics Required Courses**

**BIOS 75000 - Applied Biostatistics I**

A follow up course to PH7500 and PH75300, covering intermediate-level statistical methods commonly used in public health research. Topics include: simple and multiple linear regression; logistic regression; residual analysis; variable selection. Focus on practical applications, utilizing statistical software.

*Cross-listed STAT 75000*

*prereq: PH 75100, PH 75300*

**BIOS 75100 - Applied Biostatistics II**

A follow up course to BIOS 75000, covering intermediate and advanced statistical methods commonly used in public health research. Topics include: log linear and generalized linear models; random and mixed effects models; survival analysis. Focus on practical applications utilizing statistical software.

*Cross-listed STAT 75100*

*prereq: BIOS 75000*
EPI 75000 - Epidemiologic Methods I: Study Research Design

This course will provide an in depth understanding of the design and conduct of epidemiological studies, including causal inferences, measurement, major study designs, threats to validity, and urban public health applications. Examples will be based on the health of New York City residents. Prereq: ,

Cross-listed GC PH 82000
prereq: PH 75100, PH 75300

EPI 75100 - Epidemiologic Methods II: Survey and Research Methods

This course will provide students with an understanding of the methods used to test research hypotheses; tools for selecting statistical tests appropriate for the particular study design and research hypotheses; and an ability to recognize the importance and impact of threat to validity such as confounding and bias. This course will also cover survey methods used in epidemiologic research.

Cross-listed GC PH 82100
prereq: EPI 75000

EPI 75200 - Applied Research: Data management and analysis

This course provides students with the opportunity to apply epidemiological and statistical concepts using several datasets to answer a given research question and test the hypotheses associated with it

prereq: BIOS 75100, EPI 75100 or instructor's permission

Epidemiology and Biostatistics Elective Courses

BIOS 75200 - Analysis of Categorical Data

An introduction to statistical models for analyzing categorical data, with emphasis on examples from the health sciences. Topics include: contingency tables and corresponding tests such as chi-square, CMH and trend test, count data, logistic regression and log-linear models.

Cross-listed STAT 75200
prereq: BIOS 75000

BIOS 75300 - Analysis of Longitudinal Data

An introduction to statistical models and methods for analyzing longitudinal data in public health. Topics include: longitudinal designs and cohort sampling, general linear models for longitudinal data, marginal & random effects models, time-dependent covariates, missing values.

Cross-listed STAT 75300
prereq: BIOS 75000

BIOS 75400 - Design and Analysis of Complex Surveys

This course provides an introduction to statistical issues in the design and analysis of complex surveys, with a particular emphasis on public health research. Topics include: basic sampling techniques, stratified and cluster
sampling, non-sampling errors, and case studies.

Cross-listed STAT 75400  
prereq: BIOS 75000

BIOS 75500 - Survival Analysis

An introduction to regression modeling used in the analysis of time-to-event data in epidemiological, biostatistical, and other health-related research. Topics include: survival functions, proportional-hazards, parametric and competing-risks models, missing data, using case studies.

Cross-listed STAT 75500  
prereq: BIOS 75000

BIOS 75600 - Data Analysis

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics include: data summaries; transformations; the jackknife and resampling schemes; robust estimation; and robust regression methods.

Cross-listed STAT 71600  
prereq: BIOS 75000

BIOS 75800 - Analysis of Variance

Intermediate topics in analysis of variance (ANOVA), with an emphasis on exploratory aspects. Topics including: one, two and many way layouts; decomposition and partitioning of variance; fixed, random, and mixed effects models; repeated measures; contrasts; multiple comparisons; and robust analogs.

Cross-listed STAT 71800  
prereq: BIOS 75000

BIOS 77000 - Topics in Biostatistics

Courses on current topics in biostatistics.

Offered periodically

EPI 75400 - Social Epidemiology

This course will introduce public health and other interested graduate students to the sub-discipline of social epidemiology, including theory and methods. Specifically, students will gain an understanding of how an individual’s interactions with factors associated with the social fabric of the society affect and shape health outcomes. This class will also examine the etiology and prevention of disease within both ecological (multi-level) and multidisciplinary frameworks.

prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75500 - Epidemiology of Chronic Diseases

This course provides students with epidemiological background information for the most common chronic disease conditions. In addition, the course provides students with hands on experience to characterize the frequency and impact
of chronic diseases and their risk factors in New York City (NYC) using public data available through the Department of Health and Mental Hygiene.

prereq: PH 75000 or 75100, PH 75200 or 75300

**EPI 75600 - Epidemiology of Infectious Diseases**

This course will examine the role of epidemiology in understanding transmission, surveillance and control of infectious diseases. Special focus will be on emerging infectious diseases in urban settings.

prereq: PH 75000 or 75100, PH 75200 or 75300
Offered periodically.

**EPI 75700 - Reproductive and Perinatal Epidemiology**

This course covers current research, controversial issues, and methodological problems in the epidemiology of male and female reproduction and perinatal health. Topics include: epidemiology of fertility and infertility, contraception and hormone usage, reproductive cancers and other diseases, pregnancy complications, maternal mortality, adverse pregnancy outcomes and birth defects.

prereq: PH 75000 or 75100, PH 75200 or 75300

**EPI 75800 - Nutritional Epidemiology**

This course teaches concepts and principles used in nutritional epidemiology. It provides skills required to critically evaluate dietary assessment methodology and reviews current topics in nutritional epidemiology. In addition, the role of nutrition in health and how this applies to public health is discussed.

*Cross-listed GC PH 81200*

prereq: PH 75000 or 75100, PH 75200 or 75300

**EPI 75900 - Environmental and Occupational Epidemiology**

Using a case study approach, this course will explore epidemiologic methods for studying environmentally and occupationally related diseases. Key methodologic issues, such as exposure and outcome assessment, cumulative and multiple exposures, exposure pathways, research ethics, and policy implications of epidemiological findings will also be discussed. The focus will be on the environmental and occupational health of urban populations.

prereq: PH 75000 or PH 75100, PH 75200 or 75300, PH 75400

**EPI 77000 - Topics in Epidemiology**

Courses on current topics in epidemiology.

*Offered periodically.*

**Nutrition Required Courses**

**NUTR 70000 - Seminar in Dietetics Practice**
Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

_Open to dietetic internship (DI) students only._

**NUTR 70100 - Pre-Professional Practice in Dietetics: Clinical**

Supervised externship in clinical dietetics and classroom discussions of readings and field experiences.

_Open to DI students only._

**NUTR 70200 - Pre-Professional Practice in Dietetics: Food Service**

Supervised externship in food service and personnel management, and classroom discussions of readings and field experiences.

_Open to DI students only._

**NUTR 70300 - Pre-Professional Practice in Dietetics: Community**

Supervised externship in community nutrition and classroom discussions of readings and field experiences.

_Credits 1_

_Open to DI students only._

**NUTR 70500 - Nutrition and Biochemistry**

The structure and metabolism of macro- and micronutrients, kinetics and regulation of enzymes; energetic of biochemical reactions.

**NUTR 71000 - Principles of Public Health Nutrition**

Fundamentals of nutrition in public health as they apply to health promotion and disease prevention for individuals and society, with emphasis on urban populations.

**NUTR 71500 - Food Service and Management**

An overview of good service operations and theories, functions and tasks of management

**NUTR 72000 - Community Nutrition Education**

Nutrition programs and materials for health promotion in the community.

**NUTR 72500 - Nutrition Research**

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

**NUTR 73100 - Human Nutrition and Metabolism**
Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

prereq: NUTR 70500

**NUTR 73200 - Advanced Nutrition II**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

prereq: NUTR 73100

**NUTR 73300 - Nutrition and Human Development**

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

**NUTR 73400 - Clinical Nutrition I**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73100

**NUTR 73500 - Clinical Nutrition II**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73400

**NUTR 73800 - Public Health Nutrition Seminar**

In-depth analysis of the literature and research in specific areas of public health nutrition.

**NUTR 74600 - Nutrition and Disease**

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

coreq: NUTR 74700

**NUTR 74700 - Advanced Nutrition and Assessment Laboratory**

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of various population groups.

coreq: NUTR 74600

**NUTR 75600 - Food Science and the Environment**
Scientific principles of food and food ingredients: composition, function, regulation, safety, quality, testing, processing, packaging, formulation, production and evaluation of foods.

**coreq:** NUTR 75700

**NUTR 75700 - Food Science and the Environment Laboratroy**

Laboratory experience with the chemical and physical properties of food components.

**coreq:** NUTR 75600

**Credits 1**

**NUTR 76000 - Practicum**

Nutrition and food science-related fieldwork in hospitals, schools, laboratories, and community-based organizations designed to provide opportunities to apply knowledge and skills gained from the classroom education to professional practice.

**prereq:** completion of 27 credits in NUTR

**Nutrition Elective Courses**

**NUTR 73000 - Nutritional Assessment of Urban Communities and Populations at Risk**

The collection and analysis of data for the purposes of identification of, and designing interventions for, individuals and urban populations at nutritional risk.

**NUTR 73710 - Public Health Nutrition Fieldwork I**

Directed field experiences in public health nutrition agencies and/or programs.

*Hours 210 hrs.*

*Credits 3 cr*

**NUTR 73720 - Public Health Nutrition Fieldwork II**

Directed field experiences in public health nutrition agencies and/or programs.

**NUTR 74100 - Nutritional Assessment**

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of individuals.

**prereq:** NUTR 73100

**NUTR 75100 - Nutritional Contribution of Foods**
Nutrient and non-nutrient components of foods. Physical and chemical properties of foods and their relationship to health.

**NUTR 75200 - Food Service and Personnel Management**

The organization and administration of food service operations, especially in community settings.

**NUTR 77000 - Topics in Public Health Nutrition**

Courses on current topics in public health nutrition.

*Offered periodically.*

**NUTR 77010 - Cultural Aspects of Food and Nutrition**

Study of the ways in which cultural and social factors influence food behaviors and dietary patterns.

**NUTR 77020 - Consumer and Food**

Available food supply, world hunger, marketing, and legislation.

**Public Health Required Courses**

**PH 73700 - Supervised Fieldwork**

Students will carry out directed field experiences in public health agencies or programs. Placements are in relation to student’s academic background, specialization and career expectations. Emphasis is on applying classroom-acquired concepts and skills. The content and scope of the fieldwork should be similar to work performed by an entry level public health professional.

*prereq: Completion of 18 credits toward the master’s degree, including at least 3 required core courses (biostatistics, epidemiology, and the course most relevant to your specialization) and at least 2 courses in students’ specialization.*

**PH 73800 - Capstone Project**

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the MPH or MS program. Students will complete either a paper based on fieldwork, a research paper or a Master’s Essay. The paper must be completed no sooner than during students’ penultimate or final semester.

*prereq: Completion of at least 36 credits of coursework toward the Master of Public Health (MPH) or Master of Science degree, including at least one course in each of the 5 core areas of public health (biostatistics, epidemiology, social and behavioral sciences, public health policy and environmental health and safety); and at least 3 specialization courses.*

**PH 75000 - Introduction to Biostatistics**

This course is designed to enable students to analyze, present and interpret population health data.
prereq: Elementary statistics or calculus or equivalent.

**PH 75100 - Principles of Biostatistics**

This is a first-level requirement for students specializing in EPI-BIOS, who will take subsequent intermediate and advanced level biostatistics courses. It will introduce students to the theoretical basis for and practical application of common statistical methods and principles used in public health.

prereq: evidence of quantitative abilities, such as college-level algebra with a grade of B+ or better, GRE scores ≥550 and analytic scores ≥4.5.

**PH 75200 - Introduction to Epidemiology**

An introduction to epidemiologic principles, methods and measures commonly used in public health. T

prereq: PH 75000

**PH 75300 - Principles of Epidemiology**

A first-level requirement for student specializing in EPI-BIOS, who will take subsequent intermediate and advanced level epidemiology courses. It will introduce students to epidemiologic theory, principles, methods and measures commonly used in public health.

prereq or coreq: PH 75100

**PH 75400 - Environmental Health and Safety**

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation and noise hazards; hazardous substances; solid wastes; food protection; natural and human-made disasters; and specific hazards such as lead, asbestos, mold and pesticides.

**PH 75500 - Urban Health and Society**

Examines impact of social and political forces on the health of urban populations and describes roles for public health professionals in promoting health of urban communities.

**PH 75600 - Public Health and Health Care Policy and Management**

This course examines the organization, delivery and financing of health care in the United States with an understanding of the health policy-making process and a focus on issues related to the management of public health agencies.

**PH 78300 - 1, 2, 3 Independent Study in Urban Public Health**

Directed reading, research or field study designed to permit exploration of a single area related to urban health in depth, with faculty guidance. A faculty sponsor must agree to sponsor independent study prior to registration. Each of the research centers affiliated with the MPH and MS programs offer supervised independent study projects.
PH 78400 - 1, 2, 3 Independent Study in Urban Public Health

Directed reading, research or field study designed to permit exploration of a single area related to urban health in depth, with faculty guidance. A faculty sponsor must agree to sponsor independent study prior to registration. Each of the research centers affiliated with the MPH and MS programs offer supervised independent study projects.

PH 71100 - Visual Media, Technology and Health

In this intensive and hands-on course students will learn how to use a critical media literacy perspective to disrupt dominant images and representations of health, illness and the body, while they will also take part in creating their own participatory media project (digital ethnography or short [10 minutes or less] digital video). From the first day, the class will meet in a computer lab and students will create their own media.

PH 71300 - Immigration and Health

This course offers a comprehensive overview of immigrant health in the US. By relying on the sociological, anthropological and public health literature, this course will examine policy issues involving immigrant populations in the US (e.g., immigration law and changes in welfare reform), service provision, the diversity of alternative healing systems and practices among immigrant groups, and the importance of socioeconomic and cultural determinants on immigrants’ health outcomes. Immigrants’ differences in terms of culture and nationality, class, race/ethnicity, age, and gender will also be considered.

PH 71400 - Human Rights and Public Health

This course focuses on the skills needed to investigate, analyze, and document abuses of human rights as they relate to health and public health practice.

PH 71700 - Global Health

This course is intended to meet the needs of students who are committed to becoming experts and practitioners in both the theory and practice of global health. Globalization trends, and their effect on population health, will be studied from a comparative perspective in both the developed and the developing world. To that end, this course aims at promoting awareness on the cultural, socioeconomic and political effects of the globalization process on population health. During the semester, students will examine the emerging field of global health from an interdisciplinary perspective, by addressing the main health issues experienced by vulnerable populations worldwide.

PH 71800 - Perspectives on Public Mental Health Policy and Practice

This course examines the evidence-base that supports a wider appreciation for the public health significance of mental health and the translation of this evidence-base into relevant social policy and multi-disciplinary approaches to public health and social work practice.
PH 71900 - Healthy Urban Aging: Economics and Policy Issues

This course examines key social, economic, and policy issues at the intersection of the changing demographics of aging, urbanization, public health.

PH 72000 - Cities, Society and Health

This course presents an ecological, multilevel approach to the study of urban health and brings together public health and social science disciplines to examine the impact of city living on population health. Its focus is on changes in health in US urban populations in the post-World War II period. It is required for all DPH students.

PH 72200 - Food Politics and Policy

This policy course examines the influence of the food industry and of government on the U.S. food system and the way we eat, and on efforts to prevent and treat chronic diet-related conditions, such as obesity. This is a hybrid course that meets in person 5 times during the semester; the remainder of the time the course is conducted online asynchronously through Blackboard.

Cross-listed GC PH 81400
prereq: 30 MPH credits

PH 72300 - Chronic Disease Management

This course studies the extensive knowledge and understanding of multidisciplinary approaches to managing chronic disease. The course will provide students with the opportunity to study specific issues relating to chronic disease management and link this to their own practice.

PH 72400 - Ethics in Public Health

This seminar course will consider questions about the practice of health promotion, disease control, and health research -- questions about morality, not effectiveness.

PH 77000 - Topics in Public Health

Courses on current topics in public health.

Offered periodically.

Public Health Policy and Management Required Courses

HPM 75000 - Public Health Management

Focuses on management issues in a variety of organizational settings and the larger public health environment; describes managerial functions and problem solving strategies, financial management principles, and management models for change; develops specific skills in program management, budgeting, workforce development, and managing intersectoral programs.

prereq: PH 75500, PH 75600
HPM 75100 - Public Health and Health Care Law

Reviews key areas of the legal process relevant to health care delivery and public health; analyzes major court decisions that have affected the field and selected federal, state and local statutes that affect public health and health care practice; acquaints students with the basics of legal research and legal reasoning as applied to public health and health care.

prereq or coreq: PH 75500, PH 75600 or with instructor’s permission for those with at least one year of health care experience

HPM 75200 - Comparative Analyses of Urban Health Care Systems

Examines unique challenges and opportunities for delivering health care in developed and developing world cities; analyses impact of national and local policies and social and political factors on health care access, quality and outcomes; introduces empirical methods for making comparative studies across municipalities and nations.

prereq: PH 75500, PH 75600
Students can take this course or HPM 75400

HPM 75300 - Public Health Policy Analysis

Examines common approaches and concepts of policy analysis for public health, including market efficiency and failures, cost-benefit analysis, problem and decision making analysis; describes critiques of such models with public health examples; focuses on the Health Impact Assessment as a method for analyzing costs and benefits of health and non-health policies.

prereq: PH 75500, PH 75600

HPM 75400 - Public Health Advocacy

Prepares students to advocate for policies that promote public health, develops skills in planning and implementing advocacy campaigns; assess theories on role of coalitions and advocacy in changing health policy.

prereq: PH 75500, PH 75600
Students can take this course or HPM 75200

HPM 75500 - Health Economics

This course in health economics introduces students to essential microeconomic concepts as they apply to health systems, individual and public health.

prereq: Recommended pre-req: PH 75500, PH 75600

HPM 77000 - Topics in Public Health Policy and Management

Courses on current topics in public health policy and management.

Offered periodically
Programs and Courses in Economics and Accounting

Economics/Accounting

About the Department

The Department of Economics at Hunter College is home to a faculty that is dedicated to excellence in research and teaching. In addition to faculty, graduate students are also actively engaged in the research and teaching missions of the department. The Department has two Master's degree programs, one in Economics and the other in Accounting. Both programs equip students with analytic tools that can be directly applied to business and public policy. Because both programs integrate theory, quantitative methods, and practical applications, Hunter MA and MS graduates regularly move into interesting, well-paid positions in business, government, and international organizations. They are also prepared to enter Ph.D programs at top-ranking universities. In addition, Accounting graduates are qualified to take the CPA examination in New York State.

Programs and courses

Programs and Courses in Economics and Accounting

Economics - Doctor of Philosophy

The PhD program in economics is based at the City University Graduate Center. Under special circumstances, advanced students in the MA program may take up to 12 credits and transfer them to Hunter towards their MA. In addition, students in the PhD program who wish to transfer to the Hunter MA program may transfer up to 12 credits towards the Hunter MA. PhD students at the City University Graduate Center who wish to earn an en passant master’s degree after completing 45 credits at the Graduate Center – in cooperation with Hunter College – should consult the executive officer of the PhD program. http://web.gc.cuny.edu/Economics/

Faculty

Economics

Temisan Agbeyegbe, Professor; PhD, Essex; Econometrics, Economic Development, Environment and Resource Economics, Time Series

Karna Basu, Associate Professor; PhD, MIT; Development Economics, Behavioral Economics, Applied Microeconomic Theory

Howard Chernick, Professor; PhD, Pennsylvania; Public Economics, Urban Economics, Fiscal Federalism, Urban Public Finance, Financing of Redistribution

Jonathan Conning, Assistant Professor; PhD, Yale; Development Economics, Financial Markets, Political Economy

Partha Deb, Associate Professor; PhD, Rutgers; Econometrics, Health Economics

Randall Filer, Professor; PhD, Princeton; Applied Microeconomics, Economics of Transition in Eastern Europe, Labor Economics, Public Policy

Lisa George, Associate Professor; PhD, Pennsylvania; Industrial Organization, Political Economy

Devra Golbe, Professor; PhD, NYU; Corporate Control and Governance, Industrial Organization, Government Regulation

Timothy Goodspeed, Professor; PhD, Maryland; Applied Microeconomics, Public Economics

Marjorie Honig, Professor and Department Chair; PhD, Columbia; Applied Microeconomics, Labor Economics, Retirement, Public Policy

Kenneth McLaughlin, Associate Professor; PhD, Chicago; Job Turnover and Incentives, Labor Economics

Ingmar Nyman, Assistant Professor; PhD, Columbia; Corporate Finance, Industrial Organization

Sangeeta Pratap, Associate Professor; PhD, NYU; Macroeconomics, Industrial Organization

Purvi Sevak, Assistant Professor; PhD, Michigan; Labor Economics, Public Economics

Accounting

Fatma Cebenoyan, Associate Professor; PhD, Maryland; Financial Accounting, Financial Institutions and Government Regulation.
Bachelor of Arts/Master of Arts - BA/MA

Economics - BA/MA

The Department of Economics makes it possible for students to earn both a BA and an MA degree in economics within the credits required for a BA at Hunter. BA/MA students must complete the requirements for both the BA and MA degree.

Students who wish to declare the BA/MA major must have a 3.0 average in Economics and in the cumulative index, with a minimum grade of B in ECO 300, and ECO 321, and a C in Math 150, or their equivalents. Continuing in the program is contingent upon maintaining a 3.0 GPA in Economics and the cumulative index and receiving a minimum grade of B in ECO 301 and an average grade of B in Math 150 and Math 160.

Master of Arts - MA

Economics - MA

Hunter’s master’s program in economics equips students with analytic tools that can be directly applied to business and public policy. The program integrates economic theory, quantitative methods and practical applications, and emphasizes elective courses in international trade and finance, economic development, financial economics, industrial organization, corporate governance, labor economics and public finance. Hunter MAs regularly move into interesting, well-paid positions in business, government, and international organizations. They are equally prepared to enter PhD programs at top-ranking universities.

Under the direction of professors who combine distinguished academic credentials with wide experience in economic research and applications, students studying for an MA at Hunter may participate in such major ongoing projects as: taxation, government spending, and economic growth; earnings of immigrants and minority groups; saving and investment in rural economies; taxation and the regional economy; social security and public welfare; tax competition; health outcomes; corporate investment and financial decisions; regulatory policy; corporate control; location choices of immigrants.

The program is offered in the evening to accommodate students who hold full- and part-time jobs.

Requirements for Admission

Applicants to the MA program in economics must provide their scores on either the Graduate Record Examination (GRE) or the Graduate Management Admission Test (GMAT). In addition to the other general requirements for
graduate admission to Hunter, the following departmental requirements must be met: at least 18 credits of undergraduate courses in economics, at least 9 credits of undergraduate courses in mathematics, and two letters of recommendation from college teachers, including one from a member of an economics department. The credits in economics must include at least six in principles of economics, and at least three in each of the following courses: economic statistics, introductory econometrics, intermediate microeconomics, and intermediate macroeconomics. The credits in mathematics must include two semesters of calculus and one of matrix algebra. Intermediate microeconomics, intermediate macroeconomics, introductory econometrics, calculus I and II, and matrix algebra are prerequisites for required courses in the MA program.

Students who have not completed these courses at the time of admission will be required to complete the needed course(s) during their first semester at Hunter. (Completion of such courses cannot be counted towards the MA.)

Requirements for the Degree

Of the 30 credits required for the degree, at least 24 must be devoted to courses in economics. The remaining 6 may be taken in related fields with permission of the department. All candidates are required to complete the following.

**ECO 70100 - Microeconomic Theory**

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

*prereq: ECO 30000 with a grade of B; MATH 15000 and MATH 16000 with average grade of B*

*prereq or coreq: MATH 15500*

**ECO 70300 - Macroeconomic Theory**

Determinants of national income, output, employment and price levels, including microeconomic foundations of aggregate consumption, saving, and investment; theories of the business cycle and long-term growth; effects of public policies on employment, inflation and economic growth.

*prereq: ECO 30100 with a grade of B; MATH 15000 and MATH 16000 with average grade of B*

*prereq or coreq: MATH 15500*

**ECO 72100 - Economic Statistics**

Rigorous statistical foundation for the study of econometrics. Topics include probability theory; asymptotic theory; parameter estimation; hypothesis testing; least squares regression; matrix algebra.

*prereq: ECO 32100 with a grade of B; MATH 15000 and MATH 16000 with an average grade of B*

*prereq or coreq: MATH 15500*

**ECO 72200 - Econometrics**

Econometric methods for single equation models; ordinary least squares, generalized least squares, and variance estimation; maximum likelihood and limited dependent variables.

*prereq: ECO 72100*

*prereq or coreq: MATH 16000*
The degree can be earned in two ways:

1. Completion of 27 credits of course work and 3 credits of Thesis Research. Students must submit a satisfactory master’s thesis written under the supervision of a member of the economics faculty.

2. Completion of 30 credits of course work. Students must prepare a supervised extended research paper in two of their courses and earn at least a B+ on each paper.

Master of Science - MS

Accountancy - MS

The MS in Accounting program at Hunter College is designed for students who have satisfied the academic requirements for an undergraduate degree in accounting. It will provide intensive training in accounting research, information systems, ethics, and advanced coverage of the core topics in accountancy. Students completing the program will be well equipped for a successful career in accounting. Hunter’s MS in Accounting has been approved by the New York State Department of Education as a CPA licensure-qualifying program for students who have earned a BS in Accounting at Hunter College or an equivalent undergraduate program.

Beginning in August of 2009, New York State requires all CPA candidates to have completed 150-credit hours in order to sit for the Uniform CPA Examinations. The graduates of the MS program will be able to fulfill this requirement.

The MS program is a 30-credit program consisting of six required courses, two accounting electives, and two non-accounting electives. It can be pursued on a full-time or part-time basis. The program curriculum and admission requirements are outlined below. The accounting faculty within the Economics Department at Hunter College has established a record of teaching excellence, and has produced research of the highest quality within the field of accounting.

Requirements for Admission

A BS degree in Accounting from Hunter College or the equivalent from another regionally accredited college or university with:

- An overall GPA of 2.75 and A GPA of 3.0 in accounting courses
- Two letters of recommendation
- A GMAT score
- A TOEFL score (if an applicant has received all or part of the undergraduate education in a country where English is not the native language).

Students applying with undergraduate degrees other than a BS in Accounting from Hunter may be accepted under the above standards but will need to meet the academic requirements of Hunter’s BS in Accounting in addition to the requirements for the MS degree. (The undergraduate requirements include an accounting core comprised of ECO 27100 and 27200, Principles of Accounting I and II; ECO 37100 and 37200, Intermediate Accounting I and II; ECO 47100 and 47200, Advanced Accounting I and II; ECO 28000 and 38000, Business Law I and II; ECO 37400, Cost Accounting; ECO 37300 and 47300, Individual and Business Taxation; and ECO 47500, Auditing. For a complete description of the undergraduate requirements, see the Hunter College Undergraduate Catalog.).

Requirements for the Degree
The MS in Accounting program requires a student to earn 30 credits: 18 credits from a required core of six courses, 6 credits in accounting electives, and 6 credits in non-accounting electives, as outlined below. Additionally, a capstone research project will be undertaken as part of the required coursework.

Required courses

The following 3-credit courses are required of all students in the program:

**ECO 77000 - Research Techniques in Accounting**

The course will clarify the nature of accounting research for the student, and survey important research methods and techniques.

**ECO 77100 - Advanced Financial Accounting Theory**

Coverage will include contemporary financial reporting issues as they relate to FASB's conceptual framework, financial statement analysis, and specialized accounting areas such as cash flows, accounting for pensions, and employment benefits.

**ECO 77200 - Accounting Information Systems**

An introduction to information systems as they relate to organizational structure, managerial decision-making, and accounting. Topics include accounting systems and design theory, file structure, and the implementation and evaluation of systems.

**ECO 66000 - Managerial Economics for Accountants**

The decision making process within the firm through the prism of microeconomics. Topics include optimal pricing strategies, demand forecasting, hiring, and investment decisions. Specific analytical and quantitative tools will be developed.

*prereq: ECO 32100* and either ECO 30000 or ECO 60000. The graduate adviser may waive the ECO 30000/60000 requirement in appropriate circumstances

*If these courses have not been taken at the time of admission, they may be taken while in the MS program but will not count towards the 30 credits needed to complete the degree.*

**ECO 78000 - Business Ethics, Communications, and Research Project**

Ethical issues in accountancy will be covered, as well as ethical concerns in marketing, corporate social responsibility, and global operations. Business communication skills will be developed. A capstone research project will be completed.

*prereq: ECO 77000*

**ECO 77500 - Advanced Auditing**

Applies principles covered in undergraduate auditing. Topics include auditing of EDP systems; computer-assisted auditing techniques; and a review of special reports, reports on internal control, accounting and review services; and governmental auditing standards.
Note(s)

*The following may be substituted for ECO 660 with permission of the program adviser.

ECO 70100 - Microeconomic Theory

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500

Electives

An additional twelve (12) credit hours, selected from among the following 3-credit courses, are also required. Students are required to take two courses from the accounting electives and two from liberal arts (non-accounting electives).

Accounting Electives

ECO 77300 - Advanced Federal Income Taxation

Coverage will include taxation of estates, gifts, and trusts; advanced topics in corporate and partnership taxation; international tax issues, and tax research techniques.

ECO 77400 - Advanced Managerial Accounting

Trains students to help managers obtain and analyze information for decision-making, planning, control and performance evaluation. Topics include new manufacturing environments, cost behavior, inventory costing, budgeting and variance analysis.

ECO 77600 - Governmental Accounting

Accounting, reporting, and auditing issues unique to governmental and nonprofit entities, as well as multinational business entities. Special issues related to audits under GAS and for US companies operating internationally will be covered.

ECO 77700 - State and Local Taxation

State and local business and personal tax policies of the tri-state region, with an emphasis on New York State and City taxation.

Other (Non-Accounting) Electives

Any other 600- or 700-level course offered by the Hunter College Economics Department may be taken as a non-accounting elective.

Graduate level courses within the Department of Urban Affairs and Planning and the graduate program in Social Research may also be taken as electives.
Accounting

ECO 66000 - Managerial Economics for Accountants

The decision making process within the firm through the prism of microeconomics. Topics include optimal pricing strategies, demand forecasting, hiring, and investment decisions. Specific analytical and quantitative tools will be developed.

prereq: ECO 32100* and either ECO 30000 or ECO 60000. The graduate adviser may waive the ECO 30000/60000 requirement in appropriate circumstances
* If these courses have not been taken at the time of admission, they may be taken while in the MS program but will not count towards the 30 credits needed to complete the degree.

ECO 77000 - Research Techniques in Accounting

The course will clarify the nature of accounting research for the student, and survey important research methods and techniques.

ECO 77100 - Advanced Financial Accounting Theory

Coverage will include contemporary financial reporting issues as they relate to FASB's conceptual framework, financial statement analysis, and specialized accounting areas such as cash flows, accounting for pensions, and employment benefits.

ECO 77200 - Accounting Information Systems

An introduction to information systems as they relate to organizational structure, managerial decision-making, and accounting. Topics include accounting systems and design theory, file structure, and the implementation and evaluation of systems.

ECO 77300 - Advanced Federal Income Taxation

Coverage will include taxation of estates, gifts, and trusts; advanced topics in corporate and partnership taxation; international tax issues, and tax research techniques.

ECO 77400 - Advanced Managerial Accounting

Trains students to help managers obtain and analyze information for decision-making, planning, control and performance evaluation. Topics include new manufacturing environments, cost behavior, inventory costing, budgeting and variance analysis.

ECO 77500 - Advanced Auditing

Applies principles covered in undergraduate auditing. Topics include auditing of EDP systems; computer-assisted auditing techniques; and a review of special reports, reports on internal control, accounting and review services; and governmental auditing standards.

ECO 77600 - Governmental Accounting
Accounting, reporting, and auditing issues unique to governmental and nonprofit entities, as well as multinational business entities. Special issues related to audits under GAS and for US companies operating internationally will be covered.

**ECO 77700 - State and Local Taxation**

State and local business and personal tax policies of the tri-state region, with an emphasis on New York State and City taxation.

**ECO 78000 - Business Ethics, Communications, and Research Project**

Ethical issues in accountancy will be covered, as well as ethical concerns in marketing, corporate social responsibility, and global operations. Business communication skills will be developed. A capstone research project will be completed.

*prereq: ECO 77000*

**Economics**

**ECO 70100 - Microeconomic Theory**

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

*prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B  
prereq or coreq: MATH 15500*

**ECO 70300 - Macroeconomic Theory**

Determinants of national income, output, employment and price levels, including microeconomic foundations of aggregate consumption, saving, and investment; theories of the business cycle and long-term growth; effects of public policies on employment, inflation and economic growth.

*prereq: ECO 30100 with a grade of B; MATH 15000 and MATH 16000 with average grade of B  
prereq or coreq: MATH 15500*

**ECO 71000 - Monetary Theory and Policy**

Factors determining demand for and supply of money; theories of rate of interest; issues of monetary policy.

*prereq: ECO 21000  
prereq or coreq: ECO 70300 and ECO 72100*

**ECO 71100 - Banking and Financial Markets**

Factors determining banking and financial structure in US. Issues involving financial crises and bank failure, allocation of financial resources, regulation and competition.

*prereq: ECO 21000  
prereq or coreq: ECO 70300 and ECO 72100*
ECO 71500 - Public Finance

Principles of taxation and government spending; efficiency and equity trade offs; decentralized public finance and fiscal federalism.

prereq or coreq: ECO 70100 and ECO 72100

ECO 72100 - Economic Statistics

Rigorous statistical foundation for the study of econometrics. Topics include probability theory; asymptotic theory; parameter estimation; hypothesis testing; least squares regression; matrix algebra.

prereq: ECO 32100 with a grade of B; MATH 15000 and MATH 16000 with an average grade of B
prereq or coreq: MATH 15500

ECO 72200 - Econometrics

Econometric methods for single equation models; ordinary least squares, generalized least squares, and variance estimation; maximum likelihood and limited dependent variables.

prereq: ECO 72100
prereq or coreq: MATH 16000

ECO 72300 - Time Series and Forecasting

Econometrics of time-series data; application of autoregressive and moving average (ARIMA) models to economic data.

prereq: ECO 72200

ECO 72400 - Microeconometrics

Introduction to advanced econometric techniques commonly used in applied microeconomic research. The topics covered will be panel data, instrumental variables estimation, limited dependent variables, truncated, censored and selected samples, and duration models.

prereq: ECO 72200

ECO 72600 - Policy and Program Evaluation

Econometric techniques for evaluating programs. Topics include randomized experiments, propensity score matching, instrumental variables, difference-in-difference estimates, regression discontinuity models and the ethics of human subject research. Most of the assignments will be problems sets involving analysis of data using a statistical package and written up in the form of research reports. Estimates 5 reports of 5 pages each. One term paper of 15 pages.

prereq: ECO 72200 or STAT 70700
ECO 73000 - Economic Development

Theories of economic development and economic issues of developing countries. Possible topics include the analysis of poverty, inequality, rural financial markets, labor and land markets, trade and environmental policies.

prereq or coreq: ECO 70100 or ECO 70300, and ECO 72100

ECO 73200 - Economic Growth

Investigation of the issue of why some countries become rich while other do not. Study of the factors that contribute to and retard economic growth.

prereq or coreq: ECO 70100 and ECO 70300

ECO 73500 - Urban Economics

Economic analysis of form and functioning of big cities. Analyses of location of economic activity within metropolitan areas and market for land; analyses of major urban policy issues, including housing, transportation, urban poverty, urban public finance.

prereq or coreq: ECO 70100 and ECO 72100

ECO 74000 - International Trade: Theory and Policy

International trade theory and analysis of current economic problems; terms of trade; balance of payments; trade regulations and policies, international financial institutions, foreign aid, regional integration.

prereq or coreq: ECO 70100 and ECO 72100 recommended prereq or coreq: ECO 70300

ECO 74100 - International Finance

Examination of the international financial system, models of exchange rate determination, open economy macroeconomics, and international financial markets.

prereq or coreq: ECO 70100 and ECO 72100

ECO 74500 - Labor Economics

Economic theory and research on differences in employment and compensation; effects of demographic characteristics, human capital, labor unions, and income maintenance policies.

prereq or coreq: ECO 70100 and ECO 72100

ECO 74800 - Health Economics

Economic analysis of the health care industry to explain the demand for and supply of medical care. Includes analysis of behavior of consumers, producers, and insurers; and public policies to regulate the industry and to provide services
for the poor and elderly.

*Prereq or coreq: ECO 70100 and ECO 72100*

**ECO 75500 - Industrial Organization**

Product market decisions by firms in monopoly and oligopoly; the boundaries of the firm and vertical integration; applications to antitrust and regulatory policy.

*Prereq or coreq: ECO 70100 and ECO 72100*

**ECO 75600 - Law and Economics**

A study of economic foundations of law. Topics include the role of property rights and liability rules in the control of externalities, controlling the cost of accidents, the control of criminal behavior, product failure and damage, medical malpractice. Consideration of the economic logic underlying the law.

*Prereq or coreq: ECO 70100 and ECO 72100*

**ECO 76000 - Financial Economics**

Examination of the models of finance: optimization over time, asset valuation and risk management. Applications to models of asset pricing, including stocks, bonds and options; portfolio selection; and problems in corporate finance including investment analysis and capital structure.

*Prereq or coreq: ECO 70100 and ECO 72100*

**ECO 76100 - Advanced Concepts in Financial Markets**

Study of the essential techniques of pricing financial derivatives, including the Black-Scholes formula, binomial trees, and risk-neutral valuation methods. Discussion of trading strategies associated with the use of financial derivatives for different purposes, and potential problems that can arise in the application of financial derivatives.

*Prereq: ECO 76000*

**ECO 76200 - Corporate Governance**

Economic analysis of how institutional arrangements distribute power, authority, and control across different stakeholders of the firm; contractual agreements as a means to render such institutional arrangements unnecessary.

*Prereq or coreq: ECO 70100 and ECO 72100*

**ECO 76500 - Games and Information**

Game theory offers a framework for analyzing social interactions and emergent behavior in a very wide variety of human contexts. The purpose of this course is to offer a critical introduction to game theory and its applications. Economic applications include the analysis of conflict and the emergence of trust and cooperation out of anarchy, the analysis of firms’ strategic behavior in concentrated markets, or of herd behavior and panics in financial markets. Asymmetric information economics and mechanism-design extend game theory by exploring how the design of the rules of a game, or the initial distribution of information might affect equilibrium behavior outcomes, and therefore how one might choose to set up the rules of the game to govern their interactions.
prereq or coreq: ECO 70100

**ECO 78500 - Internship**

Internships with organizations engaged in economic research. Students write a research paper under direction of said organization and concomitant supervision of instructor. Open to MA students who have completed at least 15 cr of graduate work; may be taken only once.

*Open to MA students who have completed at least 15 cr of graduate work; may be taken only once.*

**ECO 79000 - Independent Study**

Intensive study of special field of economics under supervision of member of graduate faculty.

*prereq: permission of instructor and graduate adviser*

**ECO 79100 - Independent Study**

Intensive study of special field of economics under supervision of member of graduate faculty.

*prereq: perm instr and graduate adviser*  
*Credits 1 cr*  
*May be taken only once.*

**ECO 79500 - Economics Seminar**

Special topic and research in economics.

*May be repeated for credit by perm chair or graduate adviser*

**ECO 79800 - Thesis Research**

Preparation of acceptable MA thesis under faculty supervision.

*credit not granted until thesis is accepted*

**Economics - Courses offered upon sufficient student and faculty interest**

**ECO 72500 - Economics of Consumption**

This course may be offered depending on student and faculty interest

**ECO 73100 - American Economic History**

This course may be offered depending on student and faculty interest
ECO 74700 - Income Distribution and Public Policy

This course may be offered depending on student and faculty interest

ECO 75000 - Comparative Economic Systems

This course may be offered depending on student and faculty interest

ECO 75100 - Economic Development of Latin America

This course may be offered depending on student and faculty interest

Programs and Courses in Education

School of Education

General Information

Teacher Education Programs

Graduate programs in education are designed to equip teachers with the knowledge and skills they will need to have a major and positive impact on the learning of their future students. Our programs integrate current research findings, offer exposure to best practices through coursework and field experiences, incorporate instruction in the analysis and timely use of assessment data, and include the use of case studies to ensure proper modeling of real world teacher challenges. The graduate education and counseling programs offer opportunities for greater mastery of academic disciplines, development of professional theory and practice, study of problems confronting the professional in the field, and the building of competence for research. All programs are registered with the New York State Education Department and most lead to New York State certification.

Each graduate program includes three components: course work (including fieldwork); student teaching, practicum or internship; and a culminating activity. Criteria for continued matriculation include both the maintenance of academic standards and the demonstration of professional standards of performance in fieldwork settings.

Time Considerations

Candidates for a master’s degree in the School of Education must complete the program within a maximum of five years from the date of matriculation. Students may be granted a leave of absence by permission of their adviser and with the approval of the Office of Educational Services for serious illness, maternity, or military leave. In such cases the time limit is extended by the duration of the leave, not to exceed one year.

Students exceeding the time limit may be required to take more than the number of credits normally required for the degree. Course credits more than five years old when the degree is to be awarded are not applicable to the degree unless a time extension is granted.

Part-time students are permitted to take up to nine credits a semester; however, exceptions are possible with permission of the program coordinator and chairperson when resources permit. Opportunities for graduate study are available during the summer. Some programs may offer daytime courses for full-time students.
Most graduate courses in education held during the academic year begin at either 4:30 PM or 7:10 PM to meet the needs of students who are employed during the day. Summer courses are offered during the day, early evening or on-line.

The graduate programs prepare professional educators for a variety of roles in schools and other educational settings. A commitment to public urban education is evidenced in classroom activities, laboratory experiences, and field placements that reflect the ethnic and cultural richness and diversity of New York City.

Hunter College Elementary School and Hunter College High School serve children from nursery school through the 12th grade, and have an international reputation for the exploration of programs for gifted children. Their facilities are also available for observation, demonstration and research.

**Research and Training in Teacher Education**

A variety of programs in research and training in teacher education have attracted substantial support from federal, state and private sources. Projects currently in process include training in bilingual education, improvement of the teaching of secondary mathematics and science, educational technology, and preparation of rehabilitation counselors and teachers for children with disabilities. These projects afford graduate students an opportunity for advanced training or development of research skills.

**Accreditation**

The School of Education is accredited by the National Council for Accreditation of Teacher Education (NCATE). Many of our programs have also received national recognition status from their respective specialized professional associations.

**The Office of Educational Services**

1000 West Building  
(212) 772-4624

The Office of Educational Services (O.E.S.) provides support services to students enrolled in classes offered by the three teacher education departments of the School of Education. The primary areas of services provided include: advisement; assistance with registration; placements for fieldwork and student teaching; graduation audit; New York State certification; job placement; and various other student services such as course permits, transfers of credit, course waivers or exemptions, and leaves of absence.

The O.E.S. maintains regular office hours throughout the year and is open from 10-6 PM. Monday through Thursday and 10-4 PM. on Fridays, whenever the college is open.

Hours may vary during registration periods, during the summer months, and when classes are not in session. Office hours are posted outside 1000 West Building.

**Admission**

Graduate admissions to the School of Education are coordinated by:

Coordinator of Educational Services for  
Admissions and Recruitment:
Minimum Admission Requirements

Applicants will be considered for admission to matriculation if they are graduates of accredited colleges with baccalaureate degrees comparable to those of Hunter College, and if they meet the minimum criteria required by the specific program, each described below. Each applicant’s academic record, along with other factors, is considered.

Applicants who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit an official TOEFL score report. These applicants must score at least a 575 on the paper-administered test or 233 on the computer administered test or 68 (less speaking component) on the TOEFL IBT. They must score at least 4.5 on the Test of Written English (TWE) or 22 on the IBT Writing Section; and 45 on the Test of Spoken English (TSE) or 23 on the IBT Speaking section. The TESOL PreK-12 MA program has its own requirements.

Admission to programs is competitive; the number of qualified applicants may exceed the number of students who can be admitted.

Admission with Conditions

A student who is otherwise qualified for a particular program but who has not completed the course prerequisites to matriculation may be admitted to matriculation with conditions, provided deficiencies do not exceed 12 credits. Work to remove conditions must begin in the first semester and be completed in no more than three consecutive semesters. A course taken as a condition of matriculation will not be credited toward the master’s degree.

Nonmatriculated Status

Applicants for matriculation who do not meet the overall GPA or certification requirements for the program but meet all other requirements for matriculation may, in a very small number of cases, be considered for admission as nonmatriculants if there is room in the program.

Students who are admitted as non-matriculants must reapply for matriculation at the beginning of the semester in which they take the 12th nonmatriculant credit. In the second admission review, the grades of the courses taken at Hunter as a nonmatriculant will be reviewed as evidence of academic capability for admission as a matriculant. Grades of “Incomplete” must be changed to letter grades before an applicant is considered for matriculation. To be considered for matriculation, the student must have an overall GPA of 3.0 and no grade lower than a B.

No more than 12 credits earned as a nonmatriculant at Hunter may be approved for transfer to the record of the student later accepted as a matriculant. Any course taken as a nonmatriculant for which a student receives a grade of C will not count toward the degree unless a special waiver is granted by the dean.
Changing Programs

Students who have been matriculated for one master’s degree in the School of Education must formally apply through the Office of Admissions if they wish to change programs. Students wishing to change from one track in their program to another must complete a change of major form, available in 1000 West Building.

Readmission

Students should apply for readmission in April for the fall semester and November for the spring semester (check the Admissions Office for deadlines). A student with a GPA below 3.0 must apply for special permission for readmission on probation.

Degree Requirements

Master’s program requirements vary according to students’ qualifications and the requirements of the specific program. Students must achieve a GPA of at least 3.0 in both graduate courses and undergraduate courses needed to satisfy admission conditions. Students should not expect to complete the master’s degree requirements by attending full-time, although this may be possible in some cases.

Candidates should consult their program coordinator or adviser about the comprehensive examination or culminating project at least one year in advance of the expected date of graduation.

All graduate students are expected to demonstrate competence in the use of technology. Most programs require passing the School of Education technological competency assessment before graduation. All students are assigned a college e-mail address to which important announcements and materials are sent.

Course Equivalency

Students who have taken graduate-level courses at another college may, with written approval, apply those courses to their program in two ways: “Transfer of Credit” or “Permit Credit.”

Transfer Credit

Graduate courses taken prior to matriculation are considered “Transfer of Credit.”

The following limitations apply:

1. No more than a total of 12 credits will be allowed for courses completed at other colleges, for courses taken on permit, or for Hunter College courses taken prior to matriculation.

2. Courses for which transfer and approval of credit are sought must have been completed within five years preceding the anticipated date of graduation.

3. Application for transfer and approval of course credits taken prior to matriculation may be made after registering for the first semester of matriculation.

4. Transfer of credit can only be granted for courses with grades of B or better.
Permit Credit

Graduate courses taken at other colleges or universities after matriculation are considered “Permit” credit. Students planning to take courses “on permit” at other colleges or universities during the period of matriculation must request and receive permission prior to taking the course. The student should obtain the appropriate form in Room 1000 West Building; attach course descriptions and obtain appropriate signatures from the department office; and return the completed form to Room 1000 West Building.

Progress Standards

Students at Hunter College must maintain a cumulative GPA of 3.0. A student whose cumulative GPA falls below 3.0 at the end of any semester will be placed on probation. If the student fails to raise his/her cumulative GPA to 3.0 after one semester on probation, the student will be debarred and will not be allowed to continue at Hunter College.

All matriculated students in programs that lead to New York State Certification and who do not have prior NYS teacher certification must submit their scores on the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examination (NYSTCE) within completion of 12 credits of study. NYSTCE booklets are available in the Office of Educational Services, 1000 West. Any student who fails the LAST and obtains a score below 220 on the subtest of “Written Analysis and Expression” may be required to enroll in a reading/writing course before being permitted to register for any additional courses.

The School of Education has an outstanding pass rate on the New York State Teacher Certification Examinations. The pass rate on the LAST for 2008-2009 was 100%; the pass rate on the ATS-W (Assessment of Teaching Skills-Written) for 2008-2009 was also 100%.

Student Teaching, Field Experiences and Practica

All teacher preparation, counseling, and school leadership programs require field experiences and student teaching or practica. Students must apply for student teaching in the fall semester if they have completed prerequisite courses and expect to student teach in the spring, and in the spring semester if they wish to student teach in the fall. In some programs student teaching is offered only once a year. Consultation with a program adviser is necessary in developing a program plan. All field experiences, practica, and student teaching take place in New York City schools. Applicants for admission and teacher candidates should be aware of this policy when planning their programs.

Graduation

All potential graduates must apply for graduation within the first three weeks of the semester in which they plan to graduate. A graduation audit form may be obtained from our website: hunter.cuny.edu/education under Current Students, Degree Audit. Completed graduation audits must be returned to Room 1000 West Building.

New York State Certification

The graduate education programs described below (unless otherwise indicated) have been approved by the New York State Education Department to lead to initial and professional certification for teaching in New York State. To be recommended for certification the student must complete the approved program of study, and file an on-line application for certification. Instructions for applying for certification are available in the Office of Educational Services and on the School of Education website.
Students must pass the required New York State Teacher Certification Examinations (NYSTCE) in order to be granted certification by the State. For an initial certificate, the State of New York requires the applicant to pass three examinations: the Liberal Arts and Science Test (LAST), the Assessment of Teaching Skills-Written (ATS-W) and the appropriate Content Specialty Test (CST) for their certificate. The ATS-W is offered at the elementary and secondary levels; students should check with the Office of Educational Services or an adviser if they are unsure about which version to take.

Students must officially graduate from one of our approved preparation programs in order to receive a recommendation for NYS Teacher Certification.

New York State certification is reciprocally accepted by many other states upon application, although other states do not accept the NYSTCE. Students with questions about certification should contact the Office of Educational Services at tcert.@hunter.cuny.edu.

**Administration and Faculty**

**Acting Dean:**

Sherryl Browne Graves  
1000 West  
(212) 772-4622

Curriculum and Teaching

Laura Baecher, Assistant Professor; EdD, Teachers College, Columbia; TESOL

Nadine Bryce, Assistant Professor; EdD, Teachers College, Columbia; Reading and Language Arts

Jenny Castillo, Associate Professor; PhD, CUNY; Hispanic and Luso-Brazilian Literature

Brian Collins, Assistant Professor; PhD, NYU; Bilingual Education

Yvonne De Gaetano, Associate Professor; EdD, Columbia; Philosophy, Social Sciences

Stephen DeMeo, Professor; EdD, Teachers College, Columbia; Secondary Science Education

Ann Ebe, Assistant Professor; PhD, Univ. of Arizona; Language Reading and Culture: Reading and Writing Processes, Uses and Research

Anne M. Ediger, Professor; PhD, UCLA; Applied Linguistics

Terrie Epstein, Professor; EdD, Harvard; Education

Timothy Farnsworth, Assistant Professor; PhD, UCLA; Applied Linguistics

Dolores Fernández, Professor; PhD, Hofstra; Language and Cognition

Francis Gardella, Associate Professor; EdD, Rutgers; Mathematics Education

George Gonzalez, Associate Professor; PhD, Yeshiva; Developmental Psychology, Reading and Language Arts, Bilingual/Special Education

Robert Gyles, Professor; PhD, NYU; Mathematics Education/Curriculum and Instruction

Yang Hu, Associate Professor; EdD, Teachers College, Columbia; English Education

Deborah Ann Jensen, Associate Professor; PhD, Fordham; Language, Literacy and Learning

Abigail Jewkes, Assistant Professor; PhD, Univ. of Michigan; Education

Karen Koellner, Associate Professor, PhD, Arizona State; Mathematics

Marcia Knoll, Associate Professor; EdD, St. John’s; Curriculum and Teaching

Carmen Mercado, Professor; PhD, Fordham; Reading and Language Arts
John Niman, **Professor**; PhD, Columbia; Mathematics and Mathematics Education

Barbara Ottaviani, **Assistant Professor**; EdD, Columbia; Instructional Technology

Janet Patti, **Professor**; EdD, Northern Arizona; Education

Anthony Picciano, **Professor**; PhD, Fordham Univ.; Educational Administration, Technology

Jody Pollec, **Assistant Professor**; PhD, NYU; English Education

Dennis Robbins, **Associate Professor**; EdD, Teachers College, Columbia; Science Education

Christine Rosalia, **Assistant Professor**; PhD, Teachers College, Columbia; Educational Communications & Technology

Melissa Schieble, **Assistant Professor**; PhD, Univ. of Wisconsin-Madison; Curriculum/Instruction

Debbie Sonu, **Assistant Professor**; EdD, Teacher's College, Columbia; Curriculum and Teaching Urban-Multicultural Education

L. Christina Taharally, **Associate Professor**; EdD, Univ. of Massachusetts (Amherst); Early Childhood Education

Virginia Tong, **Assistant Professor**; PhD, NYU; Bilingual Education

John Toth, **Assistant Professor**; PhD, European Graduate School; Media & Communications

Jenny Tuten, **Associate Professor and Chair**; PhD, Fordham; Language and Literacy Education

Rachael Welder, **Assistant Professor**; PhD, Montana State; Mathematics and Mathematics Education

Sandra Wilde, **Professor**; PhD, Univ. of Arizona; Elementary Education

Jason Wirtz, **Assistant Professor**; PhD, Michigan State; Rhetoric and Writing

**Educational Foundations**

Markus Bidell, **Associate Professor**; PhD, Univ. of California, Santa Barbara; Clinical Counseling/School Psychology

Sarah Bonner, **Associate Professor**; PhD, Univ. of Arizona; Educational Psychology

Tamara Buckley, **Associate Professor**; PhD, Teachers College, Columbia; Counseling Psychology

Elizabeth Cardoso, **Professor**; PhD, Univ. of Wisconsin-Madison; Psychology

Peggy Pei-I Chen, **Associate Professor**; PhD, CUNY; Educational Psychology

Henry L. Evans, **Lecturer**; MFA, Columbia; Writing

Sherryl Browne Graves, **Professor and Acting Dean**; PhD, Harvard; Clinical Psychology, Public Practice

Priscilla Hambrick-Dixon, **Associate Professor**; PhD, Univ. of Michigan; Education, Psychology
Calliope Haritos, Associate Professor; PhD, CUNY; Developmental Psychology

Mario A. Kelly, Associate Professor; EdD, Univ. of Rochester; Developmental/Educational Psychology

Kimberly Kinsler, Professor; PhD, CUNY; Educational Psychology

Gess LeBlanc, Associate Professor and Acting Chair; PhD, CUNY; Developmental Psychology

John O’Neill, Professor; PhD, Syracuse; Rehabilitation Research

Ruth Rose, Lecturer; MA, Southern Illinois; Linguistics/EFL

Cynthia Wall, Assistant Professor; PhD, Old Dominion; Counseling

Jeanne Weiler, Associate Professor; PhD, SUNY (Stony Brook); Social Foundations of Education

Arnold Wolf, Professor; PhD, NYU; Philosophy

Special Education

Jamie Bleiweiss, Assistant Professor; PhD, SUNY (Stony Brook); Clinical Psychology

David Connor, Associate Professor; EdD, Teachers College, Columbia; Curriculum and Teaching, Learning Disabilities

Donia Fahim, Assistant Professor; PhD, Birkbeck College, London; Applied Linguistics

Elaine Gale, Assistant Professor; PhD, Univ. of Colorado, Boulder; Speech, Language and Hearing Sciences

Katherine Garnett, Professor; EdD, Columbia; Assessment and Curriculum Development–Learning Disabilities

Sara Hines, Assistant Professor; PhD, Univ. of Maryland, College Park; Special Education

Timothy Lackaye, Assistant Professor and Acting Chair; EdD, Teachers College, Columbia; Learning Disabilities

Thomas C. McIntyre, Professor; PhD, Univ. of Connecticut; Emotional and Behavior Disorders

Angela Mouzakitis, Instructor; MS, Queens College, CUNY; School Psychology

Rosanne K. Silberman, Professor; EdD, Columbia; Visual Impairment, Severe/Multiple Disabilities

Ellen Trief, Professor; EdD, Teachers College, Columbia; Visual Impairment, Severe/Multiple Disabilities

Master of Arts - MA
Graduate Adolescent Education Course Sequence: Mathematics Track I

(37-39 credits)

Education Courses

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs, 
Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7-12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork, 
Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork, 
Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500 
coreq: 
Hours 30 hrs, plus lab, 
Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education
Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,*
*Credits 3 cr*

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent’s learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

*prereq or coreq: SEDF 70400*

*Hours 45 hrs,*
*Credits 3 cr*

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,*
*Credits 1 cr*

**Take Either**

**SEDC 75300 - Student Teaching in Mathematics, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72300*

*Hours 30 hrs, 60 days student teaching plus workshops and conferences,*
*Credits 5 cr*

**Or One of the Following**

**SEDC 76310 - Student Teaching in Mathematics, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified mathematics teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.
prereq: SEDC 72300
prereq or coreq: SEDF 70600
Hours 30 hrs, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76310 must also complete SEDC 76320 or SEDC 77320.

SEDC 77310 - Practicum in Mathematics, Grades 7–9

Supervised practicum for teachers of mathematics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77310 must also take SEDC 77320.

prereq: SEDC 72300
Hours 30 hrs plus conferences,
Credits 2 cr

Plus One of the Following

SEDC 76320 - Student Teaching in Mathematics, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300
prereq or coreq: SEDF 70600
Hours 30 hrs, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76320 must also complete SEDC 76310 or SEDC 77310.

SEDC 77320 - Practicum in Mathematics, Grades 10–12

Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77320 must also take SEDC 77310.

prereq: SEDC 723
Hours 30 hrs plus conferences,
Credits 2 cr

Mathematics and Statistics Department Courses for Track I

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra
**MATH 63000 - Secondary School Mathematics from an Advanced Perspective II**

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

*Hours 45  
Credits 3  
Open only to Teacher Education Program students.*

**MATH 64000 - Topics in Calculus**

Topics in single and multi-variable calculus examined from an advanced standpoint and incorporating use of graphing calculators and such computer packages as MAPLE and MATHEMATICA.

*prereq: MATH 63000  
Hours 45  
Credits 3  
Open only to Teacher Education Program students*

**MATH 66100 - History of Mathematics**

Survey of the history of mathematics and statistics to the present including roots in non-Western culture and contributions of women and minorities.

*Hours 45  
Credits 3*

**STAT 61400 - Data Analysis Using Statistical Software**

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

*prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course  
familiarity with a Windows computing environment encouraged  
Hours 45  
Credits 3*

**Culminating Experiences**

- Comprehensive examination in two parts: mathematics and pedagogy
- Professional teaching portfolio

**Note(s)**
* Students who present certain courses and prior experience may be able to substitute another course or seminar(s) with approval of graduate mathematics adviser. See mathematics and statistics department.

See the Mathematics and Statistics section of the catalog for information about the comprehensive examination in mathematics.

**Graduate Adolescent Education Course Sequence:**

**Mathematics Track II**

(34.5-38 credits)

*Note: The course sequence listed below is minimal. A transcript review will determine which, if any, additional courses from the full pedagogical sequence (see Track I) will be required.*

**Education Courses**

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent’s learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

*prereq or coreq: SEDF 70400*

*Hours 45 hrs,*

*Credits 3 cr*

**One of the Following:**

**SEDC 76310 - Student Teaching in Mathematics, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified mathematics teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72300*

*prereq or coreq: SEDF 70600*

*Hours 30 hrs, 30 days student teaching plus conferences,*

*Credits 3 cr*

*Students who enroll in SEDC 76310 must also complete SEDC 76320 or SEDC 77320.*

**SEDC 77310 - Practicum in Mathematics, Grades 7–9**

Supervised practicum for teachers of mathematics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77310 must also take SEDC 77320.
prereq: SEDC 72300  
*Hours 30 hrs plus conferences,  
Credits 2 cr*

Plus One of the Following

**SEDC 76320 - Student Teaching in Mathematics, Grades 10–12**

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300  
prereq or coreq: SEDF 70600  
*Hours 30 hrs, 30 days student teaching plus conferences,  
Credits 3 cr*

Students who enroll in SEDC 76320 must also complete SEDC 76310 or SEDC 77310.

**SEDC 77320 - Practicum in Mathematics, Grades 10–12**

Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 773.20 must also take SEDC 77310.

prereq: SEDC 723  
*Hours 30 hrs plus conferences,  
Credits 2 cr*

Mathematics and Statistics Department Courses for Track II

**MATH 62000 - Secondary School Mathematics from an Advanced Perspective I**

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra  
*Hours 45 hrs,  
Credits 3 cr*

Open only to Teacher Education Program students.

**MATH 63000 - Secondary School Mathematics from an Advanced Perspective II**

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

*Hours 45*
Credits 3
Open only to Teacher Education Program students.

**MATH 64000 - Topics in Calculus**

Topics in single and multi-variable calculus examined from an advanced standpoint and incorporating use of graphing calculators and such computer packages as MAPLE and MATHEMATICA.

*prereq: MATH 63000*
*Hours 45*
*Credits 3*
Open only to Teacher Education Program students

**MATH 62100 - Introduction to Abstract Algebra**

Introduction to the theory of groups and rings.

*prereq: a course in linear algebra*
*Hours 45 hrs,*
*Credits 3 cr*

**MATH 62300 - Theory of Numbers**

Congruences, quadratic residues, elementary diophantine analysis, continued fractions, sums of squares.

*prereq: a course in linear algebra*
*Hours 45 hrs,*
*Credits 3 cr*

**MATH 66100 - History of Mathematics**

Survey of the history of mathematics and statistics to the present including roots in non-Western culture and contributions of women and minorities.

*Hours 45*
*Credits 3*

**STAT 61400 - Data Analysis Using Statistical Software**

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

*prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course familiarity with a Windows computing environment encouraged*
*Hours 45*
*Credits 3*

Electives
- Courses in math and statistics or such areas as computer science, with approval of graduate mathematics adviser. 4 1/2 – 6 cr

**Culminating Experiences**

- Comprehensive examination in two parts: mathematics and pedagogy
- Professional teaching portfolio

**Note(s)**

*Students who present certain courses and prior experience may be able to substitute another course or seminar(s) with approval of graduate mathematics adviser. See mathematics and statistics department.*

**TESOL Program 2**

**TESOL Pre-K-12 Program for Students with Prior Certification**

**Admission Requirements**

The Pre-K-12 Program 2 is intended for students who already have prior New York State certification in another subject area. Students completing this program qualify for New York State certification in TESOL, in this case, an additional certification.

1. A cumulative undergraduate grade point average of 2.8 from an accredited bachelor’s degree program or a GPA of 3.5 from a master’s program.

2. 12 credits of foreign language documented on a transcript or equivalent credits on a standardized proficiency test like the College Level Examination Program (CLEP) or the NYU Proficiency Test in a Foreign Language.

3. Proof of New York State teacher certification in an area other than TESOL (specifically, early childhood, childhood, middle childhood, or adolescent education; special subjects; students with disabilities; or literacy).

4. Satisfactory communication skills, as demonstrated through an oral interview and an on-site writing sample.

5. Submission of two letters of recommendation, to be included in the graduate application.

6. Applicants who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit an official TOEFL score report. These applicants must score at least a 600 on the paper-administered test or 250 on the computer-administered test or 75 (less speaking component) on the TOEFL IBT. They must score at least 5.0 on the Test of Written English (TWE) or 24 on the IBT Writing Section; and 50 on the Test of Spoken English (TSE) or 26 on the IBT Speaking Section.

**A. 12-Credit Progress Standards for Matriculated Students**
1. Students must maintain an overall GPA of 3.0, which includes courses in the arts and sciences subjects as well as in teacher education, in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. Program 1 students must take the Liberal Arts and Sciences Test (LAST) of the New York State Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in a college writing course or workshop series approved by an adviser before being permitted to register for any additional courses.

B. Fieldwork Benchmarks

Students must receive a grade of at least B in EDESL 79610, EDESL 78500, and EDESL 78800. Any student who receives a grade of B-, C+ or C must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F will not be allowed to continue in the program.

TESOL Program 2 Course of Study

Total Credits: 25-37 credits

Core Requirements

EDESL 79600 - Methodology of Teaching English to Speakers of Other Languages

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

Hours includes 25 hours fieldwork, 4 cr
Credits 4

LING 70200 - Analysis and Structure of English from a Pedagogical Perspective

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.
LING 77400 - Theory and Research in Second Language Acquisition and Learning

A survey of current theory and research in second language acquisition with particular reference to the acquisition of English and applications of the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Credits 4

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610

Credits 4

EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: EDESL 79600/79610

Hours includes 10 hrs fieldwork in K-12 classrooms

Credits 4

EDESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in Program 1 and Program 2.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Credits 4

includes 10 hrs fieldwork

EDESL 77200 - First and Second Language, and Technological Literacy in K-12 ESL

An in-depth treatment of theory and practice in the teaching of literacy skills, including technological, to English
language learners in the public schools. Required of students in both Pre-K-12 Programs 1 and 2.

prereq: EDESL 79600/79610 and LING 70200 or permission of TESOL adviser
Hours includes 10 hrs fieldwork
Credits 4

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

Plus One of the Following:

**EDESL 78500 - Supervised Student Teaching, Pre-K-6 and 7-12**

Two-semester supervised student teaching experience in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs seminar plus student teaching and conference
Credits 2
this is a year-long course

**EDESL 78800 - Supervised Practicum, Pre-K-6 and 7-12**

Two-semester supervised practicum in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs seminar plus student teaching and conference
Credits 2
this is a year-long course

And One of the Following:

**EDESL 76000 - Master's Essay Seminar in Educational Research**

A written study, requiring a literature review and an in-depth research project that may take a variety of forms. Students meet in a seminar and individually with the adviser; instructor's approval of research project topic required. Taken in lieu of the comprehensive examination. Course extends across two semesters (Y course) or until written study is submitted. Registration by adviser’s approval only. Elective for all students.
prereq: completion of 24 credits or permission of TESOL adviser
Credits 4
    Comprehensive Examination

Note(s)

Students may be exempted from up to eight credits if they have taken equivalent course work elsewhere

*Student Teaching is a year-long course. Students must complete 60 days during one semester at the K-6 level, and 60 days during the other semester at the 7-12 level. Student teachers may start their student teaching in either the fall or spring semester.

**Practicum Teaching is a year-long course. Students are expected to be in the classroom during the entire year of teaching. Practicum students may start their practicum in either the fall or spring semester.

Exit Standards

1. A passing score on the comprehensive examination or successful completion of a master's essay (EDESL 76000).

2. Students must demonstrate graduate-level academic oral and written communication skills in their coursework, and the ability to serve as appropriate models of the English language for their future students. Students who cannot demonstrate this level of language ability must take a non-credit writing course offered by the School of Education in order to enroll in any courses after completing 12 credits.

3. An overall GPA of 3.0.

4. Students must pass the School of Education technology assessment.

Master of Science in Education - MSEd

Early Childhood Education, Birth through Grade 2: Program 1
(For applicants who do not hold New York State Certification)

Admission Requirements

1. A cumulative undergraduate grade point average (GPA) of 2.8 from an accredited bachelor’s degree program or a master’s degree with a GPA of 3.5 or better.

2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.

3. A general education core in the liberal arts and sciences of at least 36 credits, distributed as follows: 9 credits in math and science with at least one course in math and one course in science (a course in calculus meets 6 credits of this requirements); 6 credits in English; 6 credits in social studies (of which at least one course must be in history or geography); 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this
requirement); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

4. A personal statement as part of the application for admission.

5. Two letters of recommendation.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. Program 1 students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of coursework. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any additional courses.

B. Fieldwork Benchmark

All field experiences and student teaching will take place in New York City public schools.

Program 1 students must receive a grade of at least B in fieldwork (ECC 712). Any student who receives a grade of B-, C+ or C must apply to the Chairperson of the Department for permission to repeat the course, which may be repeated only once. Any student who receives a grade of F will not be allowed to continue in the program.

Exit Standards

1. Overall GPA of at least 3.0.

2. A grade of B or better in student teaching and/or practicum. Any student who obtains a grade of F in student teaching and/or practicum will not be allowed to continue in the program. Any student who obtains a grade of B-, C+, or C must apply to the department chairperson for permission to reregister for student teaching and/or practicum and repeat this experience. Students will be allowed to repeat student teaching and/or practicum only once. Any student who does not complete the full complement of required days of student teaching will receive a course grade of IN and must fulfill the remaining mandated days.

3. Completion of ECC 720 (Integrative Seminar in Early Childhood Education).
4. Students must pass the School of Education technology assessment.

Early Childhood Course of Study — Program 1:

36-42 credits

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,*
*Credits 3 cr*

**ECF 70100 - Social and Historical Contexts of Early Childhood Education**

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs,*
*Credits 3 cr*

**ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2**

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000*
*Hours 45 hrs,*
*Credits 3 cr*

**ECC 70300 - Early Childhood Curriculum: Birth through Grade 2**

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000*
*Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*

**ECC 70500 - Language and Literacy: Birth through Kindergarten**
Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

**prereq or coreq:** ECF 70000
**Hours** 45 hrs,
**Credits** 3 cr

**ECC 70600 - Language and Literacy: K through Grade 2**

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children’s literacy development in urban environments is explored. (Not for Program 2 students.)

**prereq or coreq:** ECC 70500 (early childhood students only)
**Hours** 45 hrs,
**Credits** 3 cr

**ECC 70700 - Language and Literacy: English Language Learners**

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

**coreq:** ECC 70400
**prereq or coreq:** 70500 or 70600
**Hours** 15 hrs,
**Credits** 1 cr

**ECC 70800 - Children with Special Needs: Birth through Grade 2**

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

**prereq:** ECC 70300
**prereq or coreq:** ECF 70200
**Hours** 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

**ECC 71000 - Early Childhood Mathematics: Birth through Grade 2**

Theories and research that focus on the relationship between children’s development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

**prereq or coreq:** ECC 70300
**Hours** 45 hrs,
**Credits** 3 cr

**ECC 71100 - Science in Early Childhood Education: Birth through Grade 2**
Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K–2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300
Hours 45 hrs,
Credits 3 cr

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field,
Credits 1 cr

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs,
Credits 3 cr

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000
Hours 45 hrs,
Credits 3 cr

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,
Credits 1 cr
ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

Take Either

ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 20 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience.(Birth–3, PreK–2)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only)

Hours 30 hrs of seminar plus 40 days of student teaching for students who are not teaching in an early childhood program

Or

ECC 71700 - Supervised Practicum in Early Childhood

Teaching practicum for students in early childhood education. Students who take ECC 717 must also complete ECC 71800. (Not for students who have completed ECC 716.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1)

Hours 15 hrs of seminar plus conferences.
Credits 1 cr

Plus

ECC 71800 - Early Childhood Student Teaching

Student teaching for 20 days at one age/grade level: Pre-K–K, or grades 1–2. Students who take ECC 718 must also complete ECC 71700. (Also offered during the summer.) (Not for students who have completed ECC 716.)

prereq: ECF 702; ECC 703, 704 (program 2) or 705 and 706 (program 1), 707, 708, 709 (program 2) or 710 and 711 (program 1), 712 (program 1)
Hours 15 hrs of seminar plus 20 days of student teaching,
Credits 2 cr

Total credits: 36-42

Note(s)

ECF refers to courses in the foundations of education; ECC refers to courses in curriculum.

Please note: Students who qualify for waivers may take ECC 71951, ECC 71952, ECC 71953 (Special Topics in Early childhood Education, 1, 2 and 3 credits), or a course in another program with permission of the Early Childhood Program coordinator. Students may be exempted from up to 6 credits (Program 1) or 5 credits (Program 2) based on prior equivalent course work.

Early Childhood Education, Birth through Grade 2: Program 2

Admission Requirements: Program 2

(For students with New York State teacher certification.)

1. Undergraduate degree with GPA of 2.8 or master’s degree with GPA of 3.5 or better.

2. New York State initial, professional, or permanent teacher certification in childhood education, elementary education Pre-K-6, special education, or TESOL.

3. A personal statement.

4. Two letters of recommendation.

Progress Standards

A. 12 Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence.

B. Fieldwork Benchmark

All field experiences and student teaching will take place in New York City public schools.

Exit Standards

1. Overall GPA of at least 3.0

2. A grade of B or better in student teaching and/or practicum. Any student who obtains a grade of F in student teaching and/or practicum will not be allowed to continue in the program. Any student who obtains a grade of B-, C+, or C must apply to the department chairperson for permission to reregister for student teaching and/or practicum and repeat this experience. Students will be allowed to repeat student teaching and/or practicum only once. Any student who does not complete the full complement of required days of student teaching will receive a course grade of IN and must fulfill the remaining mandated days.

3. Completion of ECC 720 (Integrative Seminar in Early Childhood Education).

4. Students must pass the School of Education technology assessment.

Early Childhood Course of Study — Program 2:

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,
Credits 3 cr

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

Hours 45 hrs,
Credits 3 cr

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.
ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood
Research and practice that focus on children’s acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

_prereq or coreq: ECC 70300
_Hours 45 hrs,
_Credits 3 cr

**ECC 71300 - The Expressive Arts in Early Childhood**

Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

_Hours 45 hrs,
_Credits 3 cr

**ECC 71400 - Health, Safety and Nutrition in Early Childhood**

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

_prereq or coreq: ECF 70000
_Hours 45 hrs,
_Credits 3 cr

**ECC 71500 - Educational Technology in Early Childhood**

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

_Hours 15 hrs,
_Credits 1 cr

**ECC 72000 - Integrative Seminar in Early Childhood Education**

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

_prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

Take Either
ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 20 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience. (Birth–3, preK–2)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only)

Hours 30 hrs of seminar plus 40 days of student teaching for students who are not teaching in an early childhood program

Or

ECC 71700 - Supervised Practicum in Early Childhood

Teaching practicum for students in early childhood education. Students who take ECC 717 must also complete ECC 71800. (Not for students who have completed ECC 716.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1)

Hours 15 hrs of seminar plus conferences,
Credits 1 cr

Plus

ECC 71800 - Early Childhood Student Teaching

Student teaching for 20 days at one age/grade level: Pre-K–K, or grades 1–2. Students who take ECC 718 must also complete ECC 71700. (Also offered during the summer.) (Not for students who have completed ECC 716.)

prereq: ECF 702; ECC 703, 704 (program 2) or 705 and 706 (program 1), 707, 708, 709 (program 2) or 710 and 711 (program 1), 712 (program 1)

Hours 15 hrs of seminar plus 20 days of student teaching,
Credits 2 cr

Total credits: 30-35

Note(s)

ECF refers to courses in the foundations of education; ECC refers to courses in curriculum.

Please note: Students who qualify for waivers may take ECC 71951, ECC 71952, ECC 71953 (Special Topics in Early childhood Education, 1, 2 and 3 credits), or a course in another program with permission of the Early Childhood
Program coordinator. Students may be exempted from up to 6 credits (Program 1) or 5 credits (Program 2) based on prior equivalent course work.

**ADSUP 70400 - Leadership to Enhance Human Resources**

Interpersonal and group relationships applied to administrative and supervisory functions in schools and districts; intensive experience in group process and the development of a positive school climate and culture.

*Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work*  
*Credits 4*

**ADSUP 71500 - Supervision for the Improvement of Instruction**

An examination of varied productive supervisory techniques which promote the improvement of instruction and enhance the supervisory process.

*Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work*  
*Credits 4*

**ADSUP 71600 - Leadership Strategies for School Reform**

An introduction to leadership theory, school, district reform and the school principalship. Leadership theory is explored from a systems perspective with a focus on both the theoretical and practical tools for promoting school and district change that leads to high levels of student achievement.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work*  
*Credits 4*

**ADSUP 71700 - Seminar in Evaluating and Applying Educational Research**

This course provides students seeking to be educational leaders with the theoretical and the practical considerations for evaluating, conducting and using research in schools and school districts.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work*  
*Credits 4*

**ADSUP 72100 - Legal Issues, Finance, Facilities and Operations**

A study of school legal issues finance and budgeting. Processes and cases from New York State, New York City, local school district and building level management of operations and facilities.
**ADSUP 73100 - Using Data, Technology and Assessment to Plan and Design Curriculum and Instruction**

This course provides students seeking to be instructional leaders with both the theoretical and the practical considerations necessary for using technology, data, and assessment to plan and design curriculum for effective instruction.

**ADSUP 74100 - School District Leadership: Problems and Issues**

System-wide administrators must combine the elements of vision, with instructional and administrative leadership in order to guide learning organizations. They must develop skills, strategies and knowledge of the leading educational issues they are facing to be able to create collaborative, safe, and successful educational environments capable of being successful.

**ADSUP 75100 - District and School Based Field Experience Seminar in Administration and Supervision**

Intensive applications of program knowledge, skills and dispositions in school and district field settings available to the student, and a 40 hour seminar that includes a two-hour unit on each of both child abuse prevention and violence prevention.

**CEDC 70000 - The Art of Effective Teaching**

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.
CEDCF 70050 - The Art and Science of Effective Teaching

This course is designed to introduce pre-service bilingual and TESOL educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

EDESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in Program 1 and Program 2.

Prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser
Credits 4
Includes 10 hrs fieldwork

Administration & Supervision Programs

Advanced Certificate

School Building Leader/School District Leader - Advanced Certificate

Program Coordinator:

Marcia Knoll; 1025 West Building; (212) 772-4761; mknoll@hunter.cuny.edu

Hunter College offers qualified candidates a program in the administration and supervision of nursery, Pre-K, elementary, and secondary schools. The program leads to an advanced certificate granted by Hunter College. Students who complete the program qualify for New York State certification as school building leader (SBL) and school district leader (SDL). Leadership experiences of 25-35 hours, which provide field applications of course knowledge, skills and dispositions, are required in each course in the program. Students must also pass the required NY State exams to be certified in SBL and SDL.

All students must meet with a faculty member for advisement prior to registration each semester. All courses must be completed in five years.

Admission Requirements
1. Completion of an approved master’s degree with a minimum average of B (3.0).

2. NYS certification as a teacher and/or pupil personnel service provider within grades N-12 is required.

3. A minimum of three years of approved teaching and/or school service within grades N-12 under regular appointment (or its equivalent for counselors, social workers, and school psychologists) or two years approved teaching and/or school service and at least one year of relevant management/leadership experience.

4. Submission of two letters of recommendation, including a letter of support from the candidate’s immediate site supervisor.

5. Promise of success in educational supervision and administration as determined by the completion of a comprehensive interview process that includes both oral and written activities.

Total Credits 32

**ADSUP 70400 - Leadership to Enhance Human Resources**

Interpersonal and group relationships applied to administrative and supervisory functions in schools and districts; intensive experience in group process and the development of a positive school climate and culture.

*Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work*  
*Credits 4*

**ADSUP 71500 - Supervision for the Improvement of Instruction**

An examination of varied productive supervisory techniques which promote the improvement of instruction and enhance the supervisory process.

*Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work*  
*Credits 4*

**ADSUP 71600 - Leadership Strategies for School Reform**

An introduction to leadership theory, school, district reform and the school principalship. Leadership theory is explored from a systems perspective with a focus on both the theoretical and practical tools for promoting school and district change that leads to high levels of student achievement.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work*  
*Credits 4*

**ADSUP 71700 - Seminar in Evaluating and Applying Educational Research**
This course provides students seeking to be educational leaders with the theoretical and the practical considerations for evaluating, conducting and using research in schools and school districts.

_Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work_  
_Credits 4_

**ADSUP 72100 - Legal Issues, Finance, Facilities and Operations**

A study of school legal issues finance and budgeting. Processes and cases from New York State, New York City, local school district and building level management of operations and facilities.

_Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work_  
_Credits 4_

**ADSUP 73100 - Using Data, Technology and Assessment to Plan and Design Curriculum and Instruction**

This course provides students seeking to be instructional leaders with both the theoretical and the practical considerations necessary for using technology, data, and assessment to plan and design curriculum for effective instruction.

_Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work_  
_Credits 4_

**ADSUP 75100 - District and School Based Field Experience Seminar in Administration and Supervision**

Intensive applications of program knowledge, skills and dispositions in school and district field settings available to the student, and a 40 hour seminar that includes a two-hour unit on each of both child abuse prevention and violence prevention.

_Hours 60 hrs plus 200 hrs of leadership experiences in field work stipulated in a contract_  
_Credits 4_

**ADSUP 74100 - School District Leadership: Problems and Issues**

System-wide administrators must combine the elements of vision, with instructional and administrative leadership in order to guide learning organizations. They must develop skills, strategies and knowledge of the leading educational issues they are facing to be able to create collaborative, safe, and successful educational environments capable of being successful.
Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work
Credits 4

Exit Requirements

1. The culminating experiences of the program consist of an oral exit interview and a program portfolio review of selected leadership experiences and reflections on the learning process.

2. Students must pass the School of Education technology assessment.

Adolescent Education Programs

Master of Arts - MA / Advanced Certificate

Adolescent Biology - MA / Advanced Certificate

Education Adviser

Stephen Demeo
(212) 772-4776
908 West
sdemeo@hunter.cuny.edu

Biology Department Adviser (master's degree only)

Patricia Rockwell
(212) 650-3234
821 North
rockwell@genectr.hunter.cuny.edu

These programs are designed to serve individuals who do not have initial, professional or permanent certification in the teaching of science.

Admission Requirements

Master's Degree

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative GPA of 2.8.

2. A minimum of 21 credits in biology to include a year of introductory biology with laboratory and a semester of organic chemistry.

3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better
documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one course in calculus.

4. Two professional references to be included with the application for admission.

5. A personal statement to be completed as part of the application for admission.

**Advanced Certificate**

1. An undergraduate major of at least 30 credits in biology and a master’s degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College. Coursework at either the undergraduate or graduate level must include a course in introductory biology with laboratory and a semester of organic chemistry.

2. A general education core in the liberal arts and sciences to include the following (in addition to biology): 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one course in calculus.

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in biology.

**Progress Standards**

**A. 12-Credit Progress Standards for Matriculated Students**

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. A student who receives a grade of F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   *Note: It is recommended that students with two or more INs take an official leave of absence.*

5. All students should take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school’s reading/writing workshop series for teachers before being permitted to register for any further courses.

**B. Fieldwork Benchmarks**
All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Adolescent Biology Course of Study

Education Courses (22-23 Credits) for Advanced Certificate and Master's Degree Programs

Total credits for Advanced Certificate: 22-23 credits

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,*
*Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,*
*Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400*
*Hours 30 hrs, plus 36 hrs fieldwork,*
*Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.
prereq: SEDF 70500
coreq:  
Hours 30 hrs, plus lab,
Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent’s learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 30 hrs plus, 36 hrs fieldwork,
Credits 2 cr

Take either
SEDC 75401 - Student Teaching in Biology, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

-or-

SEDC 77411 - Practicum in Biology, Grades 7–9

Hunter College-supervised practicum for teachers of biology in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 724
Hours 30 hrs plus conferences,
Credits 2 cr
Students who take SEDC 774.11 must also take SEDC 774.21.

SEDC 77421 - Practicum in Biology, Grades 10-12

Hunter College-supervised practicum for teachers of biology in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr
Students who take SEDC 77421 must also take SEDC 77411.

Biological Science Courses (15-17 credits) for Master's Degree Programs

Total credits for Master’s Degree: 37-40 credits

BIOL 61055 - Laboratory Workshop in Biology Education

A series of laboratory-intensive experimental projects, each lasting one week or more, which introduce current research techniques and include individual participation in planning, preparation, and analysis of experiments. The focus is on broad biotechnology topics such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics, and how these topics may be applied to the high school science classroom.

prereq: a graduate course in biology or permission of instructor
Hours 120 hrs,
Credits 3 cr

**BIOL 63000 - Science and Society**

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

*prereq: BIOL 61055 or permission of instructor*

**BIOL 66000 - Challenging Concepts in the Biological Sciences**

Overview of research and theory related to misconceptions in biology. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

*prereq: BIOL 61055, BIOL 63000, and one elective course or permission of instructor*

**Category A:**

For students who have completed molecular biology and molecular genetics at the undergraduate level. Choose one:

**BIOL 70005 - Genetics**

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

*prereq: undergraduate genetics and molecular biology (or biochemistry)*

*Hours 60 lec,*

*Credits 4 cr*

*fall only*

**BIOL 71013 - Molecular Biology Lecture**

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

*prereq: 1 yr of organic chemistry*

*Hours 75 hrs,*

*Credits 5 cr*

*fall only*

**BIOL 71401 - Cell Biology**

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and
assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
spring only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401
Hours 60 lec,
Credits 4 cr
Spring only

Category B:

For students who have not taken either molecular biology or molecular genetics at the undergraduate level. Students must take both courses below:

BIOL 60000 - Molecular Biology for Science Teachers

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes, and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism.

prereq: An undergraduate degree in Biology and a course in Organic Chemistry and permission of instructor.
Fall only

BIOL 60210 - Molecular Genetics for Science Teachers

A comparison of viral, procaryotic, and eucaryotic systems; review of classical Mendelian principles and mechanisms; bacterial DNA replication, transcription, and their control; mechanisms of gene mutation, repair, recombination, and transposition; applications of recombinant DNA technology; organization of nucleic acid into chromosomes; control of gene expression in procaryotes, in the eucaryotic cell cycle, and in cell development.

prereq: BIOL 60000 or equivalent and permission of instructor
Spring only

Culminating Experiences

- Professional teaching portfolio

Culminating Project in Biology:

Students will be expected either to prepare a research proposal or to conduct a research project while enrolled in the following, which serves as the capstone course in biology.
BIOL 66000 - Challenging Concepts in the Biological Sciences

Overview of research and theory related to misconceptions in biology. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

**prereq:** BIOL 61055, BIOL 63000, and one elective course or permission of instructor

**Hours** 4 hrs,

**Credits** 4 cr

Exit Standards

An overall GPA of 3.0.

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master's degree students will also be expected to prepare a research proposal or to conduct a research project while enrolled in BIOL 66000 - Challenging Concepts in the Biological Sciences, which serves as the capstone course in biology.

Students must pass the School of Education technology assessment.

Adolescent Chemistry - MA / Advanced Certificate

**Education Adviser Stephen Demeo;** (212) 772-4776; sdemeo@hunter.cuny.edu

**Chemistry Department Adviser (Master's Degree only) Pamela Mills;** (212) 772-5331; pam.mills@hunter.cuny.edu

These programs are designed to serve individuals who do not have initial, professional or permanent certification in the teaching of science.

Admission Requirements

**Master's Degree**

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.

2. A minimum of 29 credits in science and mathematics to include one year of chemistry, one year of introductory physics with laboratory, and one semester of calculus.

3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better
documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one college course in calculus.

4. Two professional references to be included with the application for admission.

5. A personal statement to be completed as part of the application for admission.

**Advanced Certificate**

1. An undergraduate major of at least 30 credits in chemistry and a master’s degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College. Coursework at either the undergraduate or graduate level must include a course in introductory chemistry with laboratory, one year of introductory physics with laboratory, and one semester of calculus.

2. A general education core in the liberal arts and sciences to include the following (in addition to chemistry): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of “C” or better satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one college course in calculus.

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in chemistry.

**Progress Standards**

**A. 12-Credit Progress Standards for Matriculated Students**

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   *Note: It is recommended that students with two or more INs take an official leave of absence.*

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school’s reading/writing workshop before being permitted to register for any courses.
B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Adolescent Chemistry Course of Study

Education Courses: (22-23 credits) for Advanced Certificate and Master's Degree

Education Courses

Total Credits for Advanced Certificate: 22-23 credits

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,
Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education
Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500
coreq:
Hours 30 hrs, plus lab,
Credits 2 cr

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,*
*Credits 3 cr*

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent’s learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

*prereq or coreq: SEDF 70400*
*Hours 45 hrs,*
*Credits 3 cr*

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,*
*Credits 1 cr*

**SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71300*
*prereq or coreq: SEDF 70500*
*Hours 30 hrs plus, 36 hrs fieldwork,*
*Credits 2 cr*
Take Either

**SEDC 75402 - Student Teaching in Chemistry, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*
*Hours 30 hrs, 60 days student teaching plus workshops and conferences,*
*Credits 5 cr*

Or

**SEDC 77412 - Practicum in Chemistry, Grades 7–9**

Supervised practicum for teachers of chemistry in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

*prereq: SEDC 72400*
*Hours 30 hrs plus conferences,*
*Credits 2 cr*
*Students who take SEDC 77412 must also take SEDC 77422.*

Plus One of the Following

**SEDC 77422 - Practicum in Chemistry, Grades 10–12**

Supervised practicum for teachers of chemistry in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

*prereq: SEDC 72400*
*Hours 30 hrs plus conferences,*
*Credits 2 cr*
*Students who take SEDC 77422 must also take SEDC 77412.*

Chemistry Courses (minimum of 15 cr) for Master's Degree Programs

Total credits for Master's Degree: 37-38 credits

For Master's Programs Only

**CHEM 65500 - Demonstrations, Models, and Technology**

Demonstrations, models, and technology.

*Credits 3 cr*
CHEM 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

*prereq: permission of instructor
Credits 3

CHEM 66000 - Challenging Concepts in Chemistry

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

*Hours 4 hrs,
Credits 4 cr
- Two electives chosen from 600- or 700-level courses in chemistry or biochemistry at least 5 cr.

for students who have not taken physical chemistry, one of the electives must be:

CHEM 65000 - Biophysical Chemistry

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

*prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent
Hours 4 hrs,
Credits 4 cr
Fall

Culminating Experiences

- Professional teaching portfolio

Culminating Project in Chemistry:

See Exit Standards

CHEM 66000 - Challenging Concepts in Chemistry

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

*Hours 4 hrs,
Credits 4 cr
Exit Standards

An overall GPA of 3.0

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master’s degree students will also be expected to either prepare a research proposal or to conduct a research project while enrolled in CHEM 66000 - Challenging Concepts in Chemistry, which serves as the capstone course in chemistry.

Students must pass the School of Education technology assessment.

Adolescent Earth Science - MA / Advanced Certificate

Education Adviser Stephen Demeo; (212) 772-4776; 908 West Building; sdemeo@hunter.cuny.edu

Geography Department General Advising Dana Reimer; 1006 North Building; (212) 772-5212; geo@geo.hunter.cuny.edu

This program is designed to serve individuals who do not have initial, professional or permanent certification in the teaching of science.

Admission Requirements

Master's Degree

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.

2. A major of at least 30 credits in the liberal arts or sciences.

3. At least 21 credits in geology, physical geography, earth science, or environmental science, including geographic techniques.

4. A general education core in the liberal arts and sciences to include: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in math/technology (a college course in calculus meets this requirement).

5. Two professional references to be included with the application for matriculation.
6. A personal statement to be completed as part of the application for admission.

Advanced Certificate

1. An undergraduate major of at least 30 credits in earth science and a master’s degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College. Coursework at either the undergraduate or graduate level must include a course in introductory earth science with laboratory, one of introductory physics with laboratory, and one semester of calculus.

2. A general education core in the liberal arts and sciences to include the following (in addition to earth science): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of “C” or better satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and one college course in calculus.

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in earth science.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

*Note: It is recommended that students with two or more INs take an official leave of absence.*

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.
Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Adolescent Earth Science Course of Study

(38-40 credits)

Education Courses (22-23 Credits) for Advanced Certificate and Master's Degree

Total credits for Advanced Certificate: 22-23 credits

SEDФ 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDФ 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDФ 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDФ 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDФ 70600 - Assessment of Teaching and Learning in Adolescent Education
Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500  
coreq:  
Hours 30 hrs, plus lab,  
Credits 2 cr

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,  
Credits 3 cr

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent’s learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

*prereq or coreq: SEDF 70400  
Hours 45 hrs,  
Credits 3 cr

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,  
Credits 1 cr

**SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71300  
prereq or coreq: SEDF 70500  
Hours 30 hrs plus, 36 hrs fieldwork,  
Credits 2 cr*
Take Either

**SEDC 75404 - Student Teaching in Earth Science, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*

*Hours 30 hrs, 60 days student teaching plus workshops and conferences,*

*Credits 5 cr*

Or

**SEDC 77414 - Practicum in Earth Science, Grades 7–9**

Hunter College-supervised practicum for teachers of earth science in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77414 must also take SEDC 77424.

*prereq: SEDC 72400*

*Hours 30 hrs plus conferences,*

*Credits 2 cr*

Plus

**SEDC 77424 - Practicum in Earth Science, Grades 10–12**

Hunter College-supervised practicum for teachers of earth science in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77424 must also take SEDC 77414.

*prereq: SEDC 72400*

*Hours 30 hrs plus conferences,*

*Credits 2 cr*

Earth Science Courses (minimum of 16 cr) for Master's Degree Programs Only

*Total credits for Master's Degree: 30-40 credits*

**PGEOG 70563 - Earth Science Today**
A survey of the primary topics included in an earth science curriculum (grades 7-12). Laboratory methodology and demonstration techniques used to convey information about the earth’s lithosphere, hydrosphere and atmosphere, as well as its place in the solar system, will be introduced.

*Hours 45 hrs including conference,*
*Credits 3 cr*
*Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.*

**GTECH 71000 - Introduction to GIS**

Thorough introduction to geographic information systems with an emphasis on spatial data handling and project management.

*Hours 60 hrs including conference (2 lectures, 2 labs),*  
*Credits 3 cr*
*Fall and springCourses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.*

**PGEOG 63000 - Science and Society**

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

*Hours 45 hrs including conference,*  
*Credits 3 cr*
*Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.*

**PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning**

Overview of research and theory related to misconceptions in the earth sciences. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA-TEP degree.

*Hours 45 hrs, including conferences,*  
*Credits 3 cr*
*Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.*
Students lacking a significant background in geology or earth science may be required to take the following course as their elective:

**PGEOG 70564 - Introducing Earth Science at the Museum of Natural History**

This course is part of the MA Teacher Education Program in Earth Sciences.

**Culminating Experiences**

- Professional teaching portfolio

**Culminating Project in Earth Science:**

Students will be expected either to prepare a research proposal or to conduct a research project while enrolled in the following, which serves as the capstone course in earth science.

**PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning**

Overview of research and theory related to misconceptions in the earth sciences. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA-TEP degree.

*Hours 45 hrs, including conferences,*

*Credits 3 cr*

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

**Exit Standards**

An overall GPA of 3.0.

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master’s degree students will also be expected to either prepare a research proposal or to conduct a research project while enrolled in PGEOG 660, which serves as the capstone course in earth science.

Students must pass the School of Education technology assessment.

**Adolescent English - MA / Advanced Certificate**
These programs are designed to serve individuals who do not have initial, professional, or permanent certification in the teaching of English. Provisionally certified teachers should apply for the MA in English.

**Admission Requirements**

**Master's Degree**

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.

2. A minimum of 21 credits of advanced courses in British, American or World Literature written in English (no more than 3 credits of the latter).

3. A general education core in the liberal arts and sciences to include the following (in addition to English major): 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

4. Students must submit a writing sample of about 10 pages (preferably an undergraduate research paper of literary criticism).

5. Two references (preferably including at least one academic reference) to be included with the application for matriculation.

6. A personal statement to be completed as part of the application for matriculation.

**Advanced Certificate**

1. An undergraduate major of at least 30 credits in English, and a master’s degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College.

2. A general education core in the liberal arts and sciences to include the following (in addition to English): 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 6 credits in a language other than English (3 years of the same language in high school with a grade of “C” or better fulfills this requirement), 3 credits in the arts, and 12 credits in math/ science/ technology (a college course in calculus satisfies 6 credits of this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.
5. In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in English.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. A student who receives a grade of F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students should take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school’s reading/writing workshop before being permitted to register for any courses.

   Please note: Nonmatriculated students should apply for matriculation at the beginning of the semester in which they will complete 12 credits in the program.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Graduate English Course of Study

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.
**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq:
Hours 30 hrs, plus lab,
Credits 2 cr*

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
Credits 3 cr*

**SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society**

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

*prereq or coreq: SEDF 70400*
SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 45 hrs,
Credits 3 cr

SEDC 72100 - Advanced Study of Teaching English Methods to a Diverse Population in Grades 7–12

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. These presentations will be videotaped for further self-analysis at home. New York State and city teaching standards will be applied throughout the course.

prereq: SEDC 71100
prereq or coreq: SEDF 70500
Hours 30 hrs plus, 36 hrs fieldwork,
Credits 2 cr

Take Either

SEDC 75100 - Student Teaching in English, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72100
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

Or

SEDC 77110 - Practicum in English, Grades 7–9

Supervised practicum for teachers of English in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 771.10 must also take SEDC 77120.

prereq: SEDC 72100
Hours 30 hrs plus conferences,
Credits 2 cr

Plus

**SEDC 77120 - Practicum in English, Grades 10–12**

Supervised practicum for teachers of English in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take *SEDC 77120* must also take SEDC 77110.

*prereq: SEDC 72100
Hours 30 hrs plus conferences,
Credits 2 cr*

**Total Credits for Advanced Certificate: 22-23 credits**

**English Department Courses (24 credits) for Master's Degree Programs**

*(see English Programs and Courses, for course descriptions)*

**Total Credits for Master's Degree: 46-47 credits**

- **Literature** Eighteen credits in literature courses given by the English department, including 3 credits in Shakespeare, 3 credits in literature with a multicultural/minority emphasis, and 3-6 credits in American literature. *(Six credits of American literature are required, but 3 credits of undergraduate course work in American literature may be applied to this requirement; 3 credits from an appropriate undergraduate course in literature with a multicultural/minority emphasis may also be applied to this requirement.)*

**ENGL 60700 - English Linguistics**

Structure of Modern English, with emphasis on analytical method and pedagogical implications. Survey of phonology, morphology, syntax, and dialectal variation.

*Hours 45 hrs,
Credits 3 cr*

**ENGL 61500 - Rhetoric and Composition**

Rhetorical theory; analysis of selected masterpieces of prose; practice in writing a variety of prose forms.

*Hours 45 hrs,
Credits 3 cr*

**Exit Criteria: Culminating Experiences**
An overall GPA of 3.0.

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master's degree students must also pass a written comprehensive examination in British and American literature.

Students must pass the School of Education technology assessment.

**Adolescent French - MA / Advanced Certificate**

*Education Adviser Jenny Castillo; (212) 772-4614; 905 West Building; jmcastil@hunter.cuny.edu*

*Romance Languages Department Adviser (Master's Degree only) Marlene Barsoum; (212) 772-3511; 1320 West Building; mbarsoum@hunter.cuny.edu*

This program is designed to serve individuals who do not have initial or provisional certification in the teaching of French.

**Admission Requirements**

**Master's Degree**

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8 and a major of at least 30 credits in French with a GPA of 3.0.

2. A general education core in the liberal arts and sciences to include the following (in addition to a French major): 6 credits in English, 3 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

**Advanced Certificate**

1. An undergraduate major of at least 30 credits in French, and a master’s degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College.
2. A general education core in the liberal arts and sciences to include the following (in addition to French): 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus satisfies 6 credits of this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in French.

**Progress Standards**

**A. 12-Credit Progress Standards for Matriculated Students**

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   *Note: It is recommended that students with two or more INs take an official leave of absence.*

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school’s reading/writing workshop before being permitted to register for any courses.

**B. Fieldwork Benchmarks**

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

**Adolescent French Course of Study**

**Total Credits for Advanced Certificate: 22-23 credits**
SED 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,
Credits 3 cr

SED 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

SED 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

SED 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500
coreq:
Hours 30 hrs, plus lab,
Credits 2 cr

SED 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr
SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71200
prereq or coreq: SEDF 70500
Hours 30 hrs plus, 36 hrs fieldwork,
Credits 2 cr

Take either

SEDC 75201 - Student Teaching in French, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 722
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

-or-

SEDC 77211 - Practicum in French, Grades 7–9
Supervised practicum for teachers of French in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77211 must also take SEDC 77221.

prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr

plus

SEDC 77221 - Practicum in French, Grades 10–12

Supervised practicum for teachers of French in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77221 must also take SEDC 77211.

prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr

A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation). See the School of Education Graduate Handbook in Adolescent Education, available in the Office of Educational Services, Room 1000 West Building, for specific guidelines.

See the Romance Languages section of the catalog for information about the comprehensive examination in Italian.

**Adolescent Mathematics - MA / Advanced Certificate**

**Program Coordinator Patrick Burke**

1138 West Building; (212) 772-4728; patrick.burke@hunter.cuny.edu

The master's degree and advanced certificate degree programs are designed to serve individuals who do not have initial, professional, or permanent certification in the teaching of mathematics.
Applicants with permanent or professional certification in mathematics should apply to the Professional Certificate master's degree program.

Admission Requirements

**Master's Degree**

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.

2. 24 or more credits in mathematics approved by the graduate mathematics adviser, including a course in elementary statistics, a year of calculus and a course in matrix algebra or linear algebra. Applicants may be admitted on the condition that they complete up to 12 credits of additional course work in mathematics. A transcript review will determine which additional credits, if any, are needed.

3. A grade point average of at least 2.7 in mathematics courses.

4. A general education core in the liberal arts and sciences to include the following in addition to math: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 6 credits in science/technology, 3 credits in the arts.

5. A personal statement to be completed as part of the application for admission.

**Advanced Certificate**

1. An undergraduate major of at least 30 credits in mathematics and a master’s degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College. Coursework at either the undergraduate or graduate level must include a course in elementary statistics, a year of calculus and a course in matrix algebra or linear algebra.

2. A general education core in the liberal arts and sciences to include the following (in addition to mathematics): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of “C” or higher satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in science and technology.

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in mathematics.

**Progress Standards**
A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Adolescent Mathematics Course of Study

Total Credits for Advanced Certificate: 22-23 credits

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

   Hours 45 hrs,
   Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

   Hours 30 hrs, plus 36 hrs fieldwork,
   Credits 2 cr
SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500
coreq:
Hours 30 hrs, plus lab,
Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent’s learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr
SEDC 72300 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
*Hours 30 hrs plus 36 hrs fieldwork,
Credits 2

Take either

SEDC 75300 - Student Teaching in Mathematics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300

Mathematics and Statistics Master's Degree Only Course of Study

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra
Hours 45 hrs, 
Credits 3 cr
Open only to Teacher Education Program students.

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 45 
Credits 3 
Open only to Teacher Education Program students.

MATH 64000 - Topics in Calculus

Topics in single and multi-variable calculus examined from an advanced standpoint and incorporating use of graphing calculators and such computer packages as MAPLE and MATHEMATICA.

prereq: MATH 63000
Hours 45 
Credits 3 
Open only to Teacher Education Program students

MATH 66100 - History of Mathematics

Survey of the history of mathematics and statistics to the present including roots in non-Western culture and contributions of women and minorities.

Hours 45
Credits 3

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course familiarity with a Windows
computing environment encouraged
Hours 45
Credits 3

Note: Students who present certain courses and prior experience may be able to substitute another course or seminar(s) with approval of graduate mathematics adviser.

Culminating Experiences

Comprehensive examination in two parts: mathematics and pedagogy:

See Exit Standards Mathematics and Statistics department
Professional teaching portfolio School of Education

Total Credits for Master’s Degree Program 37-38 credits

Exit Standards

An overall GPA of 3.0.

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master's degree students must also pass a comprehensive examination in mathematics. A student can take the comprehensive exam in mathematics twice; after that, a committee formed by the mathematics/statistics chairperson and consisting of members from the Department of Mathematics and Statistics and the School of Education will decide if the students can take the exam a third and final time.

Students must pass the School of Education technology assessment.

Adolescent Physics - MA / Advanced Certificate

Education Adviser Stephen Demeo; (212) 772-4776; 908 West Building; sdemeo@hunter.cuny.edu

Physics and Astronomy Department Adviser (Master's Degree Only) Rodney Varley; (212) 772-5252; 1216 North Building; rvarley@hunter.cuny.edu

This program is designed to serve individuals who do not have initial, professional or permanent certification in the teaching of science.
Admission Requirements

Master's Degree

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.

2. A major in physics.

3. A general education core in the liberal arts and sciences to include the following (in addition to a physics major): 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in math/technology (a college course in calculus meets 6 credits of this requirement).

4. Two professional references to be included with the application for admission.

5. A personal statement to be completed as part of the application for admission.

Advanced Certificate

1. An undergraduate major of at least 30 credits in physics and a master’s degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College.

2. A general education core in the liberal arts and sciences to include the following (in addition to physics): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school with a grade of “C” or higher satisfies this requirement), 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 6 credits in math/technology (a college course in calculus meets this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in physics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Adolescent Physics Course of Study

Education Courses For Advanced Certificate And Master’s Degree Programs

Total Credits for Advanced Certificate: 22-23 credits

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

   Hours 45 hrs,
   Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7-12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

   Hours 30 hrs, plus 36 hrs fieldwork,
   Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education
Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

_prereq: SEDF 70400_

_Hours 30 hrs, plus 36 hrs fieldwork,_

_Credits 2 cr_

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

_prereq: SEDF 70500_

_coreq:_

_Hours 30 hrs, plus lab,_

_Credits 2 cr_

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

_Hours 45 hrs,_

_Credits 3 cr_

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent’s learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

_prereq or coreq: SEDF 70400_

_Hours 45 hrs,_

_Credits 3 cr_

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

_Hours 15 hrs,_

_Credits 1 cr_
SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 30 hrs plus, 36 hrs fieldwork,
Credits 2 cr

Take either

SEDC 75403 - Student Teaching in Physics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

-or-

SEDC 77413 - Practicum in Physics, Grades 7–9

Hunter College-supervised practicum for teachers of physics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77413 must also take SEDC 77424.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2

plus

SEDC 77423 - Practicum in Physics, Grades 10–12

Hunter College-supervised practicum for teachers of physics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77423 must also take SEDC 77413.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr
Physics Courses* (16 Credits) For Master’s Degree Programs Only

**PHYS 63000 - Science and Society**

Study of the interactions between technological and societal changes, with an emphasis on directing productive critiques and debates over potentially controversial technological change within the classroom. Focusing on present-day issues, students will learn various models of analyzing the impact of scientific change on society and how social change directs science.

*prereq: one graduate-level physics course or permission of instructor
Hours 45
Credits 3*

**PHYS 66000 - Challenging Concepts in Physics: Using Research to Identify Student Misconceptions and Assess Student Learning**

Overview of research and theory related to misconceptions in physics. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the comprehensive examination for the science portion of the MA degree.

*prereq: PHYS 63000 and two elective courses in physics or permission of instructor
Hours 60
Credits 4*

Plus three electives (9 cr)

**PHYS 60500 - Mathematical Physics**

Introduction to basic mathematical techniques used in physics.

*Hours 45
Credits 3*

**PHYS 61500 - Electromagnetic Theory**

Electrostatics; electromagnetics; Maxwell’s equations with application to waves; waves in guides; radiation.

*Hours 45
Credits 3*

**PHYS 62500 - Introduction to Quantum Mechanics**

Fundamental ideas in the study of atomic sized systems.

*Hours 45
Credits 3*

**PHYS 64500 - Solid State Physics**
Introduction to basic theory and techniques in study of matter on solid state.

Hours 45
Credits 3

**PHYS 68500 - Numerical Methods I**

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations.

*Cross-listed (Cross-listed with MATH 68500.)*

*prereq: MATH 15500*

Hours 45
Credits 3

*Note: 700-level physics courses offered at the Graduate Center can be substituted for 600-level courses with permission of the graduate adviser.*

**Culminating Experiences**

Culminating Project in Physics: See Exit Standards

Professional teaching portfolio

**Total Credits of Master's Degree Program 38-39 credits**

**Exit Standards**

An overall GPA of 3.0

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will be implemented to assess the quality of the culminating experiences (portfolio and reflective presentation).

Master’s degree students will also be expected to either prepare a research proposal or to conduct a research project while enrolled in PHYS 660, which serves as the capstone course in physics.

Students must pass the School of Education technology assessment.

**Adolescent Social Studies - MA / Advanced Certificate**

**Education Adviser Terrie Epstein**; (212) 772-4675; 1108 West Building; tepstein@hunter.cuny.edu

**History Department Adviser (Master's Degree only) Jonathan Rosenberg**; (212) 772-5546; 1519A West Building; jrosen8637@aol.com
This program is designed to serve individuals who do not have initial, professional or permanent certification in the teaching of social studies.

**Admission Requirements**

**Master's Degree**

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.

2. A major of at least 30 credits in one of the areas of social studies (history, political science, geography, or economics) with a GPA of 3.0, including at least 12 credits in history, 3 credits in geography, 3 credits in political science, and 3 credits in economics. The course work in history must include at least one course in each of the following areas: U.S. history, European history, and world or non-Western history.

3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

4. Two professional references to be included with the application for admission.

5. A personal statement to be completed as part of the application for admission.

**Advanced Certificate**

1. An undergraduate major of at least 30 credits in one of the areas of social studies, and a master’s degree in the discipline (history, political science, geography, or economics) with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College. Coursework at either the undergraduate or graduate level must include 21 credits of history, 3 credits in geography, 3 credits in political science and 3 credits in economics. The coursework in history must include at least one course in each of the following areas: U.S. history, European history, and world or non-Western history.

2. A general education core in the liberal arts and sciences to include the following (in addition to social studies): 6 credits in English, 6 credits in a language other than English (3 years of the same language in high school fulfills this requirement), 3 credits in the arts, and 12 credits in math/ science/ technology (a college course in calculus satisfies 6 credits of this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in social studies.
Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Adolescent Social Studies Course of Study

Education Courses for Advanced Certificate and Master's Degree Programs

Total Credits for Advanced Certificate: 22-23 credits

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,
Credits 3 cr
SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,*
*Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400*
*Hours 30 hrs, plus 36 hrs fieldwork,*
*Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500*
*coreq:*
*Hours 30 hrs, plus lab,*
*Credits 2 cr*

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,*
*Credits 3 cr*

SEDC 71500 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Social Studies, Grades 7–12

Rationales and methodologies for teaching social studies based on current theories of the nature of students, the social sciences and secondary schooling.

*prereq or coreq: SEDF 70400*
*Hours 45 hrs,*
*Credits 3 cr*

SEDC 72000 - Adolescent Health and Safety
Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72500 - Methods II: Intensive Study of Teaching Diverse Learners in Social Studies, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71500
prereq or coreq: SEDF 70500

Hours 30 hrs plus, 36 hrs fieldwork,
Credits 2 cr

Take either

SEDC 75500 - Student Teaching in Social Studies, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72500
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

-or-

SEDC 77510 - Practicum in Social Studies, Grades 7–9

Supervised practicum for teachers of social studies in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77520.

prereq: SEDC 72500
Hours 30 hrs plus conferences,
Credits 2 cr

plus

SEDC 77520 - Practicum in Social Studies, Grades 10–12
Supervised practicum for teachers of social studies in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77510.

**prereq:** SEDC 72500

*Hours 30 hrs plus conferences,*

*Credits 2 cr*

### History And Geography Courses (18 Credits) For Master’s Degree Programs Only

### History and Geography Courses

**History**

15 credits in history including 3 credits in each of the following areas: U.S. history, European history, world or non-Western history. Students who have completed 6 credits in any one of these areas at the undergraduate level will have fulfilled this requirement for that particular area, but will still have to complete at least 15 credits in graduate history courses. Within the 15 credits required in history, at least 3 credits should focus on gender in history and 3 credits should focus on an analysis of diversity in the U.S.

### Plus 3 Credits (One Course) from the Following:

**GEOG 70100 - Geographic Thought and Theory**

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

*Hours 45 hrs including conference,*

*Credits 3 cr*

*fall only This course may be used as part of the MA Teacher Education Program in Social Studies.*

**GEOG 70500 - Cultural and Social Geography**

Review of recent work in cultural and social geography; emphasis on literature, critiques.

**prereq:** GEOG 34700 and 34100 or permission of instructor

*Hours 45 hrs including conference,*

*Credits 3 cr*

*Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.*

**GEOG 70600 - Latin Americanist Geography**

Major paradigms, theories and methodologies in geographic research on Latin America including historical, cultural, social, economic, urban, physical, and environmental geography.

*Hours 45 hrs including conference,*
Credits 3 cr
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70900 - Geography of Selected World Regions

Intensive examination of physical and social geography of specific world regions. (Each semester one or two regions will be covered.)

prereq: permission of the graduate adviser
Hours 45 hrs including conference
Credits 3 cr
Field courses may be offered during intersession periods. GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 71200 - Geography of Sustainable Development in Developing Countries

Analysis of factors that influence sustainable development, e.g., available resources, environment, population, food production, water supply in developing countries.

prereq: graduate standing and one course focusing on development of a developing region, or permission of instructor
Hours 45 hrs including conference,
Credits 3 cr
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 74100 - Population Geography

Theoretical and empirical analyses of spatial distribution of population. Particular emphasis is on processes and impacts of migration, residential mobility, and immigration.

Hours 45 hrs including conference,
Credits 3 cr
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 74200 - International Migration and Ethnicity

Asynchronous online seminar. Examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analyses of ethnic and racial minorities in the United States.

Hours 45 hrs including conference,
Credits 3 cr
GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

Culminating Experiences

**Comprehensive examination in history**: History department (see Exit Standards)

Professional teaching portfolio: School of Education

**Total Credits for Master’s Degree Program**: 40-41 credits

Exit Standards

An overall GPA of 3.0

Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Master’s degree students must also pass a written comprehensive examination in history. These examinations are offered twice each year, in February and September. A student who fails the examination twice is dropped from the program but may appeal in writing to the Graduate Committee, Department of History, to take the examination a third time.

Students must pass the School of Education technology assessment.

**Adolescent Spanish - MA / Advanced Certificate**

**Education Advisor Jenny Castillo**; (212) 772-4614; 905 West Building; jmcastil@hunter.cuny.edu

**Romance Languages Department Adviser, Spanish (Master's Degree only) Magdalena Perkowska**; (212) 772-5132; 1319 West Building; mperkows@hunter.cuny.edu

and/or

**James Pellicer**; (212) 772-5125; 1333 West Building; jpellice@hunter.cuny.edu

This program is designed to serve individuals who do not have initial or provisional certification in the teaching of Spanish.
Admission Criteria

Master's Degree

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8, or better, and a grade point average in Spanish courses of 3.0. Applicants must have a minimum of 18 credits in Spanish literature above the intermediate level.

2. A general education core in the liberal arts and sciences to include the following (in addition to a Spanish major): 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

Advanced Certificate

1. An undergraduate major of at least 30 credits in Spanish, and a master’s degree in the content area with a GPA of at least 3.3 from an accredited institution acceptable to Hunter College.

2. A general education core in the liberal arts and sciences to include the following (in addition to Spanish): 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus satisfies 6 credits of this requirement).

3. Two professional references to be included with the application for admission.

4. A personal statement to be completed as part of the application for admission.

In addition, all students in this program will be required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before they complete 12 credits of course work. A student who does not receive a passing score on the CST may be required to enroll in additional courses in Spanish.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

*Note*: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school’s reading/writing workshop before being permitted to register for any courses.

**B. Fieldwork Benchmarks**

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

**Adolescent Spanish Course of Study**

**Total Credits for Advanced Certificate: 22-23 credits**

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms,
motivating students, and assessing their learning.

prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500
coreq:
Hours 30 hrs, plus lab,
Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum
in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71200
*prereq or coreq: SEDF 70500
*Hours 30 hrs plus, 36 hrs fieldwork,
*Credits 2 cr

Take either

**SEDC 75203 - Student Teaching in Spanish, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 722
*Hours 30 hrs, 60 days student teaching plus workshops and conferences,
*Credits 5 cr

Or

**SEDC 77213 - Practicum in Spanish, Grades 7–9**

Supervised practicum for teachers of Spanish in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77213 must also take SEDC 77223.

*prereq: SEDC 72200
*Hours 30 hrs plus conferences,
*Credits 2 cr

Plus

**SEDC 77223 - Practicum in Spanish, Grades 10**

Supervised practicum for teachers of Spanish in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77223 must also take SEDC 77213.

*prereq: SEDC 72200
*Hours 30 hrs plus conferences,
*Credits 2 cr

Romance Languages (Spanish) Courses for Master's Degree Program Only (21 credits)
Culminating Experiences

- Comprehensive examination in Spanish
- Professional teaching portfolio

Total Credits for Master's Degree Program: 43-44 credits

Exit Standards

Students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection.

Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation). See the School of Education Graduate Handbook in Adolescent Education, available in the Office of Educational Services, Room 1000 West Building, for specific guidelines.

See the Romance Languages section of the catalog for information about the comprehensive examination in Spanish.

Master of Arts - MA

Adolescent Chinese - MA

Program Adviser Der-Lin Chao;
1429 West Building; (212) 772-4965;
dchao@hunter.cuny.edu

The MA program in the teaching of Chinese is designed for students who have majored in Chinese at the undergraduate level and want to pursue a teaching career in adolescent education. This program is not for individuals with initial, professional, or permanent certification in Chinese. The Teacher Education Program in Chinese does not offer an advanced certificate program.

Admission Requirements

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8 and a major in Chinese with a grade point average of 3.0, including a minimum of 18 credits in Chinese literature above the intermediate level and oral proficiency at the advanced low level of the American Council on the Teaching of Foreign Language (ACTFL) Oral Proficiency Interview (OPI);

OR

2. Applicants who do not have a Chinese major but have a liberal arts and science major (or interdisciplinary liberal arts or science concentration) of at least 30 credits can take two exams to meet the Chinese coursework requirement: the Oral Proficiency Interview (OPI) and the Written Proficiency Test (WPT) administered by American Council on the Teaching of Foreign Language (ACTFL). Candidates must achieve a minimum score of advanced-low on each to
meet the admission requirement and must achieve a passing score on the on-site written test in Chinese/English about Chinese literature.

PLUS (for ALL applicants)

3. A general education core in the liberal arts and science to include the following: 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

4. Two professional references to be included with the application for admission.

5. A personal statement to be completed as part of the application for admission.

6. An interview conducted in Chinese/English with program adviser.

7. An on-site English writing sample.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC, SEDF, or CHND course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

*Note: It is recommended that students with two or more INs take an official leave of absence.*

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Adolescent Chinese Course of Study

Education Courses (22-23 Credits)

**SEDF 70300 - Social Foundations of Adolescent Education**
Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,  
*Credits 3 cr

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,  
*Credits 2 cr

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400  
Hours 30 hrs, plus 36 hrs fieldwork,  
Credits 2 cr

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500  
coreq:  
Hours 30 hrs, plus lab,  
Credits 2 cr

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,  
*Credits 3 cr

**SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12**
Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

\textit{prereq or coreq: SEDF 70400}
\textit{Hours 45 hrs,}
\textit{Credits 3 cr}

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent’s learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

\textit{prereq or coreq: SEDF 70400}
\textit{Hours 45 hrs,}
\textit{Credits 3 cr}

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

\textit{Hours 15 hrs,}
\textit{Credits 1 cr}

**Take Either**

**CHND 73100 - Student Teaching in Chinese, Grades 7-12**

Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticism. These presentations will be videotaped for further self-analysis at home.

\textit{prereq or coreq: CHND 71300 or permission of the adviser.}
\textit{Hours 60 days, 30 hrs seminar plus workshops and conferences,}
\textit{Credits 5}

**Or**

**CHND 74110 - Practicum in Chinese, Grades 7-9**

Supervised practicum for teachers of Chinese in grades 7-9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student
learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74110 must also take CHND 74120.

**prereq or coreq: CHND 71200 or permission of the adviser.**

**Hours 30 hrs plus conferences**  
**Credits 2**

plus

**CHND 74120 - Practicum in Chinese, Grades 10-12**

Supervised practicum for teachers of Chinese in grades 10-12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74120 must also take CHND 74110.

**prereq or coreq: CHND 71200 or permission of the adviser.**

**Hours 30 hrs plus conferences,**  
**Credits 2**

**Chinese Courses (12 Credits)**

**CHIN 70100 - Chinese Phonology and Romanization**

This course will introduce Chinese phonetics, phonology, and the major sound transcription systems commonly used in teaching Chinese as a foreign language and found in Chinese dictionaries. Emphasis will be on acquiring accurate tones and standard pronunciation for English-speaking learners as well as learners who speak a Chinese dialect at home.

**Hours 3**  
**Credits 3**

**CHIN 70300 - Chinese Orthography and Lexicology**

This course will give an overview of the development of Chinese orthography and Chinese lexicology. Differences between the spoken and written styles will be discussed. The relationship of formation methods of the Chinese lexicon to syntactic functions and the process of character-based meaning derivation will be emphasized.

**Hours 3**  
**Credits 3**

**CHIN 70200 - Modern Chinese Pedagogical Grammar**
This course will introduce the grammatical system of modern Mandarin Chinese, including the characteristics of grammatical morphemes, word order, and sentence and discourse structures. The content will highlight difficulties for native speakers of English and helping them to overcome these difficulties effectively. The course will discuss pedagogical issues concerning grammar instruction such as how it differs from syntax; what grammar points need to be taught at each level; and the methods of teaching grammar.

Hours 3  
Credits 3  

Advanced Language and Culture Training (may choose 1 or more)

CHIN 70500 - Topics in Advanced Conversation

This course will give students advanced language training in speaking in a wide range of topics as well as specialized vocabulary needed to discuss Chinese instruction in Chinese. Students will further practice speaking skills to achieve advanced-mid or advanced-high oral proficiency according to the ACTFL (American Council for Teachers of Foreign Languages) scale. Authentic materials will be used throughout the course.

Hours 3  
Credits 3  

CHIN 70600 - Topics in Advanced Writing

This course will give students advanced language training in writing Chinese in everyday life situations as well as a Chinese language teaching professional with writing samples. Students will further practice writing skills to achieve advanced-low proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3  
Credits 3  

CHIN 70700 - Topics in Advanced Reading

This course will give students advanced language training in reading Chinese. Students will further practice reading skills to achieve advanced-mid or advanced-high proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3  
Credits 3  

CHIN 70800 - Topics in Chinese Culture and Society

This course will give students advanced language training in topics related to Chinese culture and society. Students will learn topics concerning Chinese culture and society in traditional and contemporary China. Authentic writing tasks and materials will be used throughout the course.

Hours 3  
Credits 3
CHIN 70900 - Independent Study

Students will carry out an independent project approved by their faculty advisor and chairperson and supervised by a staff member.

Credits 1-3

Notes:
1. Students who enter with initial or professional certification in adolescent education in another area will not be required to take any SEDC or SEDF courses. They will be required to take all CHIN and CHND courses in the program. 2. The minimum number of credits for the degree for students who enter with certification in adolescent education is 24 credits. 3. Students without certification may be exempted from up to 6 credits based on prior equivalent course work.

Culminating Experiences

Professional teaching portfolio - School of Education

Total credits: 24-35 credits.

Adolescent Education

Return to: School of Education

Master's degree and advanced certificate programs at Hunter College prepare prospective teachers to serve as highly effective educators in urban middle and high schools. Through rigorous course work, fieldwork and student teaching experiences in New York City schools, students learn how to provide an academically rigorous education to students of diverse backgrounds, abilities and interests.

Content Knowledge

Courses in the academic discipline offered by the School of Arts & Sciences will deepen teacher candidates’ subject knowledge. They will learn how to use knowledge of their subject to design and implement classroom instruction that reflects State and professional standards.

Professional Knowledge

Teacher candidates will learn the theory and practice of effective pedagogy in their subject area. They will gain a grounding in the history, philosophy, psychology and sociology of education that will inform their teaching. They will study research-based theories and methods of teaching their subject to students with special needs, including special education students and English language learners.
Skills

Teacher candidates will learn to design lessons and units of work for students, and to adapt their instruction to students’ prior knowledge and level of skill. They will gain expertise in analyzing and using assessments of student achievement to guide and inform their instruction. They will master the use of technology as a tool for teaching their subject. They will learn to manage their classrooms to provide effective instruction for all students. They will practice ways to assess and reflect on their teaching practice in order to strengthen their work with students and grow as professionals.

Creating Community

Teacher candidates will learn to create humane and ethical learning communities in their classrooms and schools in which all students receive the support they need to achieve academically. They will learn to communicate effectively with parents, families, community members and other members of the school faculty and staff in order to provide this support.

Adolescent Latin - MA

**Education Adviser Carla Asher;** (212) 772-4621; 1000 West Building; carla.asher@hunter.cuny.edu

**Classical and Oriental Studies Department Adviser Ronnie Ancona;** (212) 772-4960; 1402 West Building; rancona@hunter.cuny.edu

This program is offered with the Classical and Oriental Studies Department. The applicant must be admitted by both the School of Education and the Classical and Oriental Studies Department.

The MA program in the teaching of Latin is designed for students who have majored in Latin on the undergraduate level and want to pursue a teaching career in adolescent education, and for teachers certified in another area who wish to gain certification in Latin. This program is not for individuals with initial or provisional certification in Latin.
Admission Criteria

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.

2. An index of at least 3.0 in an undergraduate major or the equivalent in Latin or classics. Students with 18 credits in Latin may be admitted provisionally if they are certified to teach a language other than Latin.

3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 3 credits in the arts, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

4. Two professional references to be included with the application for matriculation.

5. A personal statement to be completed as part of the application for matriculation.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC, SEDF, or LATED course work will not be allowed to continue in the program.

3. A student who receives a grade of F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students should take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop series before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Latin Literature and Composition and Classical Culture Courses (24 credits)

*Each course is 45 hours, including conferences, and 3 credits unless otherwise noted.*

**Latin 18 credits**

**LAT 72700 - Speaking and Writing Latin**

Development of aural/oral and written skills, including traditional Latin Composition, history of the language, and analysis of Latin grammar and syntax.

**LAT 70800 - Supervised Reading**

Independent reading in individual Roman authors or particular literary genres supervised by a faculty member.

*Prior approval of graduate director required. May be taken three times for credit. See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.*
LAT 71000 - Topics in Latin literature.

May be taken three times for credit.

A. At least 3 credits from the following courses:

**LAT 71100 - Literature of the Republic**

Selection from poetry and prose authors of the Latin language and the development of literary forms and styles.

**LAT 71200 - Literature of the Augustan Age**

Selections from poetry and prose authors of the Augustan period.

**LAT 71300 - Literature of the Empire**

Selections from poetry and prose authors of the Imperial period.

B. At least 3 credits from the following courses:

**LAT 70500 - Caesar**

Selections from the Commentaries on the Civil War and Commentaries on the Gallic War.

*See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.*

**LAT 70600 - Cicero**

Selections from the orations, philosophical treatises, and letters of Cicero.

*See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.*

**LAT 70700 - Vergil**

Selections from the Aeneid, Eclogues, and Georgics.

*See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.*

**LAT 72500 - Ovid**

Selections from the *Metamorphoses* and *Amores*.

**LAT 72600 - Horace and Catullus**

Selections.
6 additional credits from the courses in section A and/or B or LAT 708 or LAT 710 (LAT 708 and LAT 710 may each be taken up to 3 times total).

Classical Culture 6 credits

CLA 70100 - The Legacy of Ancient Greece

A survey of Greek culture and civilization from the second millennium BCE to the rise of Alexander.

Hours 45 hrs, including conferences,  
Credits 3 cr

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70200 - The Legacy of Ancient Rome

A survey of the culture and civilization of Rome from the founding of the city to the reign of Marcus Aurelius.

Hours 45 hrs, including conferences,  
Credits 3 cr

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70700 - A Survey of Classical Literature in Translation

CLA 70600 - Supervised Reading

Independent reading on a particular aspect of ancient Greek or Roman culture, supervised by a faculty member.

Prior approval of graduate adviser required. May be taken twice for credit.

Comprehensive examination in Latin and Classical Culture: Classics Division

Professional teaching portfolio: School of Education

See Exit Criteria

Total Credits for Master’s Degree Program 39 - 47 credits

Note(s)

Students who enter with initial or provisional certification in adolescent education in a language other than English will be required to take LATED 712, LATED 713, and either LATED 731 or two of the other student teaching/practicum courses that cover grades 7–9 and 10–12 (9–11 credits). Based on a transcript review by the School of Education, such students may be required to complete additional courses in the pedagogical sequence as
The minimum number of credits for the degree for students who enter with certification in adolescent education is 39 credits. Students may be exempted from up to 6 credits based on prior equivalent course work.

Exit Criteria: Culminating Experiences

An overall GPA of 3.0.

At the completion of all course work, candidates are required to take comprehensive examinations in Latin translation, Latin grammar, and classical culture. See the Classics section of this catalog for further information about these examinations.

Students will also develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

Students must pass the School of Education technology assessment.

Check with the Classical and Oriental Studies Department adviser for information about the Comprehensive Examination in Latin and Classical Culture.

Adolescent Mathematics Professional Certificate - MA

Program Coordinator Patrick Burke
1138 West Building; (212) 772-4728;
patrick.burke@hunter.cuny.edu

This 30-credit program provides advanced coursework in methods of teaching mathematics, as well as coursework in mathematics focused on the needs of secondary teachers. It is intended for teachers holding initial certification in mathematics 7-12 and leads to professional certification in adolescent mathematics. It is also intended for teachers who already hold professional or permanent certification and who are seeking to further their knowledge/skills, and gain additional graduate credits. Teachers holding initial, permanent or professional certification in adolescent mathematics may apply to this program. Students who do not hold New York State certification in mathematics should refer to the Adolescent Mathematics program, which leads to initial certification.

The program is designed to increase students’ pedagogical and content knowledge in mathematics. Coursework includes courses in the School of Education and in the Mathematics Department of the School of Arts & Sciences.

Admission Requirements

1. Completion of an approved bachelor’s degree program with a minimum overall GPA of 2.8

2. New York State Certification to teach mathematics in grades 7-12.

3. Students must have at least 24 undergraduate credits in mathematics with a B average, including courses in Calculus and Linear Algebra.
4. Students who possess a master’s degree in mathematics or mathematics education must have a minimum overall GPA of 3.0 in their graduate courses, with a B average in mathematics courses.

Professional Certification in Mathematics Course of Study

Total Credits: 30 credits

**CEDC 74000 - Contemporary Mathematics in the Elementary School**

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

*Hours 45 hrs,*
*Credits 3 cr*

**SEDC 73000 - Development of Mathematical Thinking: Implications For Teaching and Learning Mathematics in Grades 7 to 12**

A course exploring the role of the teacher in developing mathematical reasoning ability in students. What are the possibilities and limitations? A research-based approach to the problem of providing a solid mathematics education for all students.

**SEDC 73100 - Seminar in Mathematics Curriculum, Grades 7-12**

A study of the current Standards-Based Mathematics Curriculum from an historical perspective.

**SEDC 73200 - Research Seminar in Mathematics Education, Grades 7-12**

A course in which students will study the research relative to the mathematics curriculum and complete a research project in a field of mathematics education of their choice.

**MATH 62000 - Secondary School Mathematics from an Advanced Perspective I**

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

*prereq: Calculus II and a course in linear or matrix algebra*

*Hours 45 hrs,*
*Credits 3 cr*

*Open only to Teacher Education Program students.*

**MATH 62300 - Theory of Numbers**
Congruences, quadratic residues, elementary diophantine analysis, continued fractions, sums of squares.

**prereq: a course in linear algebra**

**Hours 45 hrs,**

**Credits 3 cr**

**MATH 63000 - Secondary School Mathematics from an Advanced Perspective II**

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

**Hours 45**

**Credits 3**

*Open only to Teacher Education Program students.*

**STAT 61400 - Data Analysis Using Statistical Software**

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

**prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course familiarity with a Windows computing environment encouraged**

**Hours 45**

**Credits 3**

Electives (Choose 2): Any MATH or STAT 600 or 700 Level Course (6 cr)

**Exit Standards**

An overall GPA of 3.0.

Students must pass the School of Education technology assessment.

**ADSUP 70600 - School-Based Field Experience Seminar in Administration and Supervision**

An intensive school-based leadership experience in which students apply knowledge and skills developed in prior coursework. A weekly seminar includes required workshops on child abuse and violence prevention.

**Hours 200 hrs of leadership experiences in field work**

**ADSUP 70700 - District/Region Field Experience Seminar in Administration and Supervision**

An intensive district/region-based leadership experience in which students apply knowledge and skills developed in prior coursework. A weekly seminar includes required workshops on child abuse and violence prevention.

**Hours 200 hrs of leadership experiences in field work**

**ADSUP 75600 - Professional Discourse and Leadership in Gifted Education**
Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed SPED 75600, CEDC 75600, CEDF 75600
prereq or coreq: SPED 75300 and SPED 75400
Hours includes 10 hrs field experience
Credits 3

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

BILED 71100 - Bilingual Literacy

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

coreq: BILED 71150
prereq or coreq: BILED 77100
Hours 30 hrs,
Credits 2 cr

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100
Hours 75 hrs,
Credits 1 cr

BILED 717000 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.
prereq: BILED 77100, CEDCF 70050
Hours 45 hrs,
Credits 3 cr

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: BILED 70100
Hours 30 hrs plus 5 hrs of fieldwork and lab,
Credits 2 cr

BILED 77800 - Instruction Through the Native Language

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq: BILED 70100
Hours 45 hrs plus 10 hrs of fieldwork,
Credits 3 cr

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100
Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 78000 - Bilingual Research Seminar

The bilingual research seminar, which serves as the culminating experience, focuses on the relationship between educational research and the classroom teacher. Students will review significant bilingual research to consider the implications of findings for bilingual instruction, and they will initiate their own classroom/community studies to reflect upon their own practice and to become critical consumers of research.

prereq or coreq: 39 credits or permission of program coordinator
Hours 30 hrs plus lab,
Credits 2 cr
BILED 78200 - Supervised Student Teaching Grades 1–3 and 4–6

Supervised student teaching at two grade levels in an elementary bilingual setting selected by Hunter College; four full days a week plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*prereq or coreq: completion of 39 cr of course work or permission of the program coordinator*
*Hours 40 days (20 in grades 1-3, 20 in grades 4-6) plus 15 hrs of seminar*
*Credits 4*

BILED 78300 - Practicum in Grades 1–3

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

*prereq: completion of 39 cr of course work or permission of the program coordinator*
*Hours 15 hrs of seminar plus conferences*
*Credits 2 cr*

BILED 78400 - Practicum in Grades 4–6

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

*prereq: completion of 39 cr of course work or permission of the program coordinator*
*Hours 15 hrs of seminar plus conferences*
*Credits 2 cr*

BILED 78500 - Student Teaching in Grades 1–3

Twenty days of supervised student teaching at grade level 1–3 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

*prereq: completion of 39 cr of course work or permission of the program coordinator*
*Hours 20 days student teaching, 15 hrs of seminar plus conferences*
*Credits 2 cr*

BILED 78600 - Student Teaching in Grades 4–6
Twenty days of supervised student teaching at grade level 4–6 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

**prereq:** completion of 39 credits of course work or permission of the program coordinator  
**Hours** 20 days student teaching, 15 hrs of seminar plus conferences,  
**Credits** 2 cr

**CEDC 70300 - Teaching Science in the Elementary School**

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

**prereq or coreq:** CEDF 70900 and CEDC 70000

**CEDC 70350 - Teaching Science in the Elementary School**

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

**prereq or coreq:** CEDF 70900

**CEDC 70400 - Teaching Developmental Reading**

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

**prereq or coreq:** CEDF 70900  
**Hours** includes 10 hrs of fieldwork

**CEDC 70450 - Teaching Developmental Reading**

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

**prereq or coreq:** CEDF 70900  
**Hours** includes 10 hrs of fieldwork
CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork

CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3 cr

CEDC 71200 - Advanced Methods of Teaching Math in Elementary Schools

Ways to set up and monitor mathematical investigations designed to promote flexible problem solving, active learning, finding patterns, reasoning logically, formulating and verifying hypotheses. Error analysis and remediation.

prereq: CEDC 70500
Hours 45 hrs,
Credits 3 cr

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.
CEDC 71400 - Advanced Educational Technology for Elementary School Teachers

Students will link prior knowledge of instructional technology with curriculum development strategies to design integrated learning events.

prereq: CEDF 70900, and a course on computers or demonstrated literacy in basic computer skills and tool applications (word processing, spreadsheets, database, and presentation as well as the Internet)

CEDC 71500 - Fieldwork: Reading and Social Studies

Supervised experiences in pedagogical applications of literacy and social studies methods courses. Students will complete six hours of fieldwork per week for a minimum of 75 contact hours per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individual and small groups of children. Students will be placed in Hunter College-selected elementary schools and other educational programs.

prereq: CEDF 70900

coreq: CEDC 73000 and 72200

CEDC 71600 - Educational Technology in Mathematics and Science Teaching/Learning

An advanced educational technology course for students concentrating in mathematics and science at the elementary school level. Students will link prior knowledge of instructional technology to curriculum development creating the strategies to design integrated learning materials in mathematics and science.

CEDC 71700 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

CEDC 71800 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.
CEDC 71900 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

CEDC 72200 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq: CEDF 70900
coreq: CEDC 71500 and CEDC 73000
Hours 30 hrs,
Credits 2

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2 cr

CEDC 72400 - Student Teaching in Grades 1–3 and 4–6

Supervised student teaching at two grade levels, 1–3 and 4–6, in an elementary school selected by Hunter College; four full days a week plus conferences and professional development workshops. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who
receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus a minimum of 60 days of student teaching.
Credits 5 cr

CEDC 72500 - Student Teaching in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 728: Practicum in grades 4–6. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed EDC 72400 or 72700.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus 30 days of student teaching

CEDC 72600 - Student Teaching in Grades 4–6

Teacher candidates who take this course must also take CEDC 72500 or CEDC 72700. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 72700 Practicum in grades 1–3.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus 30 days of student teaching

Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72800.

CEDC 72700 - Practicum in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800. Note: Applications for spring semester student teaching are due in October; applications for fall semester practicum are due in March. Students who receive a grade of C+ or C in practicum must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72500.
prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus supervision and conferences,
Credits 2 cr

CEDC 72800 - Practicum in Grades 4–6

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72700.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus supervision and conferences,
Credits 2 cr

Note: Applications for spring semester practicum are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in practicum must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72600.

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: CEDF 70900, CEDC 70450 and 70550

Hours 15 hrs of seminar plus 50 hrs fieldwork,
Credits 1 cr

CEDC 72950 - Fieldwork in Childhood Education for Bilingual Educators

Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: CEDF 70900; BILED 70100. Observing and assisting teaching in an elementary school setting

Hours 15 hrs of seminar plus 50 hrs fieldwork,
Credits 1 cr

CEDC 73000 - Perspectives on Literacy Across the Content Areas
Literacy across the curriculum. Skills, strategies and techniques to teach reading and writing in the content areas will be developed. Expository as well as narrative texts will be utilized.

*prereq: CEDF 70900; CEDC 70400
*coreq: CEDC 71500 and 72200
*Hours 30 hrs,
*Credits 2 cr

**CEDC 73800 - The English Language: Theories and Pedagogical Implications**

An overview of the acquisition, structure and use of English. Its goal is to provide Pre-K thru 6 teachers who already have prior certification in childhood education with the awareness and understanding of the aspects of the English language they will need in order to teach a variety of content area in grades Pre-K thru 6.

*Hours 45 hrs,
*Credits 3 cr

**CEDC 74000 - Contemporary Mathematics in the Elementary School**

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

*Hours 45 hrs,
*Credits 3 cr

**CEDC 74200 - Workshop Seminar in Elementary School Mathematics/Science**

The major course goals are to continue to develop a foundation for the growth of the professional mathematics/science educator and to increase the effectiveness as a curriculum decision-maker. Through selective experiences, the course will focus on instructional styles and strategies.

*prereq: all program courses except CEDC 74300
*Hours 45 hrs,
*Credits 3 cr

**CEDC 74300 - Research Seminar in Mathematics/Science Education**

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

*Hours 45 hrs,
*Credits 3 cr

**CEDC 74400 - Development of Mathematical/Scientific Concepts in Children**

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.
prereq: all program courses except CEDC 74200 and CEDC 74300

CEDC 74600 - Geographic Perspectives in Elementary Education

Geographic principles and practices; development of pedagogic skills to teach geography at the elementary school level; development of skills in teaching geography of New York City and New York State; development of understanding of global issues and of geographic factors affecting historical events.

Hours 45
Credits 3

CEDC 75500 - Assessment and Instruction for Diversely Gifted Learners

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

Cross-listed SPED 75500
prereq or coreq: SPED 75300 and SPED 75400
Hours 45, includes 20 hrs field experience
Credits 3

CEDC 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed SPED 75600, ADSUP 76500, CEDF 75600
prereq or coreq: SPED 75300 and SPED 75400
Hours includes 10 hrs field experience
Credits 3

CEDC 76000 - Special Topics in the Arts

The theory and application of children’s artistic development. Course includes visual arts contents, instructional techniques, technology, materials and their use across the elementary school curriculum. Through hands-on workshops the teacher candidate will understand how to plan and utilize a visual arts curriculum to enhance student’s cognitive, perceptual, expressive and imaginative abilities.

prereq: CEDC 70700
Hours 45 hrs,
Credits 3 cr
CEDC 77600 - Planet Earth: Life Science, Environmental and Earth Science for Elementary School Teachers

Concepts in the biological sciences, ecological and earth sciences necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

*Hours 45 hrs,*  
*Credits 3 cr*

CEDC 77700 - Physical Science for Elementary Teachers

Concepts in the physical sciences, chemistry and physics necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

*Hours 45 hrs,*  
*Credits 3 cr*

CHND 71200 - Methods 1: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Chinese, Grades 7-12

The course covers options for classroom management, learning environment appropriate to 7-12 classrooms, and assessment. Attention is given to classroom management task, setting up and exploiting various learning environments, and methods for assessment. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes homework assignment and projects.

*prereq or coreq: SEDF 70400 or permission of the adviser*

CHND 73100 - Student Teaching in Chinese, Grades 7-12

Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticism. These presentations will be videotaped for further self-analysis at home.

*prereq or coreq: CHND 71300 or permission of the adviser.*  
*Hours 60 days, 30 hrs seminar plus workshops and conferences,*  
*Credits 5*

CHND 74110 - Practicum in Chinese, Grades 7-9

Supervised practicum for teachers of Chinese in grades 7-9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74110 must also take CHND 74120.

*prereq or coreq: CHND 71200 or permission of the adviser.*
**CHND 74120 - Practicum in Chinese, Grades 10-12**

Supervised practicum for teachers of Chinese in grades 10-12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74120 must also take CHND 74110.

*prereq or coreq: CHND 71200 or permission of the adviser.*

**ECC 70300 - Early Childhood Curriculum: Birth through Grade 2**

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000*

**ECC 70400 - Language and Literacy: Birth through Grade 2**

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

*prereq or coreq: ECF 70000*

**ECC 70500 - Language and Literacy: Birth through Kindergarten**

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

*prereq or coreq: ECF 70000*

**ECC 70600 - Language and Literacy: K through Grade 2**
Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children’s literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)
Hours 45 hrs,
Credits 3 cr

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400
prereq or coreq: 70500 or 70600
Hours 15 hrs,
Credits 1 cr

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300
prereq or coreq: ECF 70200
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children’s acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300
Hours 45 hrs,
Credits 3 cr

ECC 71000 - Early Childhood Mathematics: Birth through Grade 2

Theories and research that focus on the relationship between children’s development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300
Hours 45 hrs,
Credits 3 cr

ECC 71100 - Science in Early Childhood Education: Birth through Grade 2
Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K–2 settings. (Required in Program 1.)

**prereq or coreq: ECC 70300**

*Hours 45 hrs,*

*Credits 3 cr*

**ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood**

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

**prereq: ECC 70300**

*Hours 15 hrs of seminar plus 50 hrs in the field,*

*Credits 1 cr*

**ECC 71300 - The Expressive Arts in Early Childhood**

Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

*Hours 45 hrs,*

*Credits 3 cr*

**ECC 71400 - Health, Safety and Nutrition in Early Childhood**

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

**prereq or coreq: ECF 70000**

*Hours 45 hrs,*

*Credits 3 cr*

**ECC 71500 - Educational Technology in Early Childhood**

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

*Hours 15 hrs,*

*Credits 1 cr*
ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 20 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience. (Birth–3, preK–2)

prereq: prereqs: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only)

Hours 30 hrs of seminar plus 40 days of student teaching for students who are not teaching in an early childhood program.

ECC 71650 - Student Teaching in Early Childhood Bilingual Settings

Two student teaching placements of 20 days each at different age/grade levels (Pre-K–K and 1–2).

prereq: prereqs: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)

Hours 30 hrs of seminar plus 40 days of student teaching.

ECC 71700 - Supervised Practicum in Early Childhood

Teaching practicum for students in early childhood education. Students who take ECC 717 must also complete ECC 71800. (Not for students who have completed ECC 716.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1)

Hours 15 hrs of seminar plus conferences.

Credits 1 cr

ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)

Hours 15 hrs of seminar plus conferences.

Credits 1 cr

ECC 71800 - Early Childhood Student Teaching

Student teaching for 20 days at one age/grade level: Pre-K–K, or grades 1–2. Students who take ECC 718 must also complete ECC 71700. (Also offered during the summer.) (Not for students who have completed ECC 716.)

prereq: prereqs: ECF 702; ECC 703, 704 (program 2) or 705 and 706 (program 1), 707, 708, 709 (program 2) or 710 and 711 (program 1), 712 (program 1)
**ECC 71850 - Early Childhood Bilingual Student Teaching**

Student teaching for 20 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750. (Not for students who have completed ECC 71650.)

**prereq:** ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)

**Hours** 15 hrs of seminar plus 20 days of student teaching,

**Credits** 2 cr

---

**ECC 71951 - Special Topics in Early Childhood Education**

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

**prereq:** special permission of an early childhood education adviser

**Hours** 15, 30, and 45 hrs,

**Credits** 1, 2, and 3 cr

---

**ECC 71952 - Special Topics in Early Childhood Education**

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

**prereq:** special permission of an early childhood education adviser

**Hours** 15, 30, and 45 hrs,

**Credits** 1, 2, and 3 cr

---

**ECC 71953 - Special Topics in Early Childhood Education**

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

**prereq:** special permission of an early childhood education adviser

**Hours** 15, 30, and 45 hrs,

**Credits** 1, 2, and 3 cr

---

**ECC 72000 - Integrative Seminar in Early Childhood Education**

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.
prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

**EDESL 70100 - Selected Topics in TESOL**

**EDESL 701-704 Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

*prereq: permission of TESOL adviser*

*Credits 1*

**EDESL 70200 - Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

*prereq: permission of TESOL adviser*

*Credits 2*

**EDESL 70300 - Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

*prereq: permission of TESOL adviser*

*Credits 3*

**EDESL 70400 - Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

*prereq: permission of TESOL adviser*

*Credits 4*

**EDESL 70500 - Structure of English: A Pedagogical View**
The total grammatical system of English seen functionally and pedagogically. Students examine research on various English language structures and develop optimum teaching approaches for presenting these structures.

**EDESL 76000 - Master's Essay Seminar in Educational Research**

A written study, requiring a literature review and an in-depth research project that may take a variety of forms. Students meet in a seminar and individually with the adviser; instructor’s approval of research project topic required. Taken in lieu of the comprehensive examination. Course extends across two semesters (Y course) or until written study is submitted. Registration by adviser’s approval only. Elective for all students.

**prereq:** completion of 24 credits or permission of TESOL adviser  
**Credits:** 4

**EDESL 77000 - Content and Curriculum & Materials in Adult TESOL**

An overview of current theory and practice in the design of content, curriculum, and materials for the teaching of Adult ESL, focusing primarily on designing ESL instruction for academic and adult continuing ESL contexts. Includes adult content area learning and English for Specific purposes, and integrating the 4 language skills.

**prereq or coreq:** pre- or coreq: EDESL 79600 or permission of TESOL adviser  
**Hours includes 10 hrs of fieldwork in Adult ESL classrooms.**  
**Credits:** 4

**EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas**

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

**prereq:** EDESL 79600/79610  
**Hours includes 10 hrs fieldwork in K-12 classrooms**  
**Credits:** 4

**EDESL 77200 - First and Second Language, and Technological Literacy in K-12 ESL**

An in-depth treatment of theory and practice in the teaching of literacy skills, including technological, to English language learners in the public schools. Required of students in both Pre-K-12 Programs 1 and 2.

**prereq:** EDESL 79600/79610 and LING 70200 or permission of TESOL adviser  
**Hours includes 10 hrs fieldwork**  
**Credits:** 4
EDESL 77600 - Language Assessment in Adult TESOL

An overview of the theories, concepts, methods, and materials for assessing the language and content knowledge of adult ESL students. For students in Program 3.

**prereq:** EDESL 79600, LING 70200, EDESL 77000; **coreqs:** EDESL 77800, 77900, or permission of TESOL adviser

**Hours includes 10 hrs of fieldwork in Adult ESL classrooms.**

**Credits 4**

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

**prereq or coreq:** LING 70200, EDESL 79600/79610

**Credits 4**

EDESL 77800 - Teaching Oral Language Skills in Adult TESOL

An overview of current theory and practice in the teaching of oral skills (speaking, listening, and pronunciation) to adult ESL students, focusing primarily on designing ESL instruction to enhance students’ skills in these areas. For students in Program 3.

**prereq:** EDESL 79600

**prereq or coreq:** pre- or coreq: EDESL 77000

**Credits 4**

EDESL 77900 - Teaching Reading and Writing Skills in Adult TESOL

An overview of the theory and practice of teaching reading and writing to adults in ESL, with considerations for the wide range of adult ESL learning contexts, including adult continuing education, college English/ESL programs and English for academic purposes. For students in Program 3.

**prereq:** prereq: EDESL 79600

**prereq or coreq:** pre- or coreqs: EDESL 7700 or EDESL 78700 or EDESL 77500

**Credits 4**

EDESL 78000 - Seminar in Educational Research (Master’s Essay)

A written study, which may include a researched area, an analysis of a methodology, a review, evaluation, or critique of relevant literature, or a proposal for learning materials. Students in this course, who meet as a group and individually with the adviser, are exempt from taking the comprehensive examination.

**prereq:** completion of 24 credits and permission of TESOL adviser

**Hours 45 hrs,**
EDESL 78100 - Curriculum and Materials in TESOL

Overview of the various curriculum and materials options for learning ESL/EFL (listening and an oral comprehension, speaking and conversation, reading and vocabulary building, writing and composing, textbook series for children and adults, dictionaries, computer-assisted learning materials, video programs and others). Attention is given to classroom management tasks, setting up and exploiting various learning environments, and general literacy concerns.

prereq or coreq: LING 70100, EDESL 78300 or permission of TESOL adviser
Hours 45 hrs,
Credits 3 cr
(Required of students in Programs One, Two, and the Adult Program.)

EDESL 78200 - TESOL in Adult Education

A treatment of effective TESOL practices, classroom management, and learning environments appropriate to the adult classroom. Twenty-five hours of field experience/observation is a part of this course.

prereq: LING 70100, EDESL 78300 or permission of TESOL adviser
Hours 45 hrs,
Credits 3 cr
Required of students in the Adult Program and an elective for students in the Pre-K–12 Programs One and Two who have been waived from a required course.

EDESL 78400 - Fieldwork in TESOL with Adults

Teaching practicum in a field setting with adult learners of English in the Community Outreach Program in English (COPE) on Saturdays. (Sabbath observers meet during the week.) During a weekly seminar, emphasis is placed on peer dynamics, classroom management and setting and exploiting learning activities and environments.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs,
Credits 3 cr
Required of students in the Adult Program.

EDESL 78410 - Practicum in TESOL for Adults

A hands-on Practicum/teaching experience with adult ESL students in the Community Outreach Program in English (COPE) at Hunter College, that serves as one of two culminating teaching experiences in the Adult Track of the TESOL Program. Students also meet in a weekly seminar immediately after their COPE classes. Required of students in Program 3.

prereq: prereq: completion of 24 credits or permission of TESOL adviser
Hours 30 hrs plus 60 hrs classroom teaching,
Credits 2

EDESL 78420 - Student Teaching in TESOL for Adults
A student teaching experience (with the guidance of a cooperating teacher) in an academic ESL context (either an Intensive ESL Program or a college ESL class), that serves as one of two culminating teaching experiences in the Adult Track of the TESOL Program. Students also meet in a weekly seminar to discuss their student teaching experiences. Required of students in Program 3.

**prereq:** completion of 24 credits or permission of TESOL adviser  
**Hours** 30 hrs plus 60 hrs classroom teaching  
**Credits** 2

**EDESL 78500 - Supervised Student Teaching, Pre-K-6 and 7-12**

Two-semester supervised student teaching experience in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

**prereq:** completion of 24 credits or permission of TESOL adviser  
**Hours** 60 hrs seminar plus student teaching and conference  
**Credits** 2  
**this is a year-long course**

**EDESL 78510 - Supervised Student Teaching in the Elementary School: Pre-K–6**

Supervised student teaching in Pre-K through grade 6 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. (1) Students without prior certification in another area must teach 30 days in Pre-K–6; (2) Students with prior certification in another area must teach 20 days in Pre-K–6.

**prereq:** completion of 30 credits or permission of TESOL adviser  
**Hours** 15 hr seminar plus student teaching and conferences  
**Credits** 2 cr  
**Required of students in Programs One and Two. note: students should not take 788.10 if they are in this course**

**EDESL 78520 - Supervised Student Teaching in the Secondary School: Grades 7–12**

Supervised student teaching in grades 7–12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. (1) Students without prior certification in another area must teach 30 days in grades 7–12; (2) Students with prior certification in another area must teach 20 days in grades 7–12.

**prereq:** completion of 30 credits or permission of TESOL adviser  
**Hours** 5 hrs seminar plus student teaching and conference  
**Credits** 2 cr  
**Required of students in Programs One and Two. note: students should not take 788.20 if they are in this course**

**EDESL 78600 - Phonetics of American English**
Phonological (phonetic and phonemic) analysis of contemporary American speech.

prereq or coreq: LING 70100 or permission of TESOL adviser
Hours 45 hrs,
Credits 3 cr
Required of students in the Adult Program and for students in Pre-K–12 Programs One and Two who have been waived from a required course.

EDESL 78700 - TESOL for Children: Pre-K–12

Applications of methods, techniques, and approaches for teaching English as a second/foreign language to children. Intensive treatment coverage of classroom management and the setting and exploitation of learning environments.

prereq: LING 70100, EDESL 78300 or permission of TESOL adviser
Hours Includes 25 hrs fieldwork
A field experience is a part of this course. Required of students in both Pre-K–12 Programs One and Two.

EDESL 78800 - Supervised Practicum, Pre-K-6 and 7-12

Two-semester supervised practicum in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs seminar plus student teaching and conference
Credits 2
this is a year-long course

EDESL 78810 - Supervised Practicum in the Elementary School: Pre-K–6

Teaching practicum at the elementary level in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices.

prereq: completion of 30 credits or permission of TESOL adviser
Hours 15 hr seminar plus supervised teaching and conferences,
Credits 1 cr
For students in Programs One and Two who teach ESL in an elementary school setting. note: students should not take 785.10 if they are in this course

EDESL 78820 - Supervised Practicum in the Secondary School: Grades 7–12

Teaching practicum at the secondary level in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices.

prereq: completion of 30 credits or permission of TESOL adviser
Hours 15 hr seminar plus supervised teaching and conferences,
Credits 1 cr
For students in Programs One and Two who teach ESL in a secondary school setting. note: students should not take 785.20 if they are in this course
**EDESL 78900 - Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/ELF to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, materials development.

*prereq: LING 701 or permission of TESOL adviser*

*Hours 45 hrs,*

*Credits 3 cr*

*Elective for students in the Adult Program and for students in the Pre-K–12 Programs One and Two who have been waived from a required course.*

**EDESL 79000 - Technology in TESOL: Adults**

Through reading, class discussions, demonstrations, and hands-on applications, students are introduced to a range of technologies available to adult language learners in the computer laboratory, through distance learning, and on the Internet; students are also exposed to procedures in computer-assisted language learning (CALL) and computer-assisted instruction (CAI).

*Hours 45 hrs,*

*Credits 3 cr*

*An elective for students in Program 3 and for students in Programs 1 and 2 who have been waived from a required course.*

**EDESL 79100 - Language Assessment in TESOL**

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing.

*prereq: LING 70100 or BILED 77100*

*prereq or coreq: EDESL 70500 or permission of TESOL adviser*

*Hours 45 hrs,*

*Credits 3 cr*

*Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.*

**EDESL 79200 - Second Language Literacy: Reading and Writing, Pre-K–12**

An in-depth treatment of theory and practice in the teaching of literacy skills, specifically reading and writing, to English language learners in the public schools.

*prereq: LING 70100, EDESL 70500 or permission of TESOL adviser; EDC 70400*

*Hours 45 hrs,*

*Credits 3 cr*

*Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.*

**EDESL 79300 - Technology in TESOL: Pre-K–12**

This mini-course covers basic technology and computer operations/concepts (second language learning software; accessing, generating, manipulating data, and publishing results); the use of technology in personal/professional
growth; and the applications of technology for language instruction.

**Hours 15 hrs,  
Credits 1 cr  
Required of students in both Programs One and Two and an elective in the Adult Program.**

**EDESL 79400 - Teaching ESL Students with Disabilities: Pre-K–12**

Overview of issues and practices relevant to the teaching and learning of second language learners with special education needs.

**Hours 15 hrs,  
Credits 1 cr  
Required of students in Programs One and Two.**

**EDESL 79500 - Health Education for Teachers of ESL: Pre-K–12**

An overview of health promotion and wellness for teachers of ESL students from diverse ethnic/cultural backgrounds and different abilities in grades pre-K through grade 12. It includes child abuse and neglect, drug education, fire safety education, nutrition and fitness, and violence prevention.

**Hours 15 hrs,  
Credits 1 cr  
Required of students in Programs One and Two.**

**EDESL 79600 - Methodology of Teaching English to Speakers of Other Languages**

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

**Hours includes 25 hours fieldwork, 4 cr  
Credits 4**

**EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages**

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in **Program 1**.

**Credits 4  
includes 50 hours fieldwork**

**EDLIT 73000 - Language, Literacy and Culture, Grades 1-12**

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language
learners’ needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

\textit{prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500  
Hours includes 10 hrs in the field analyzing language use of ESL learners  
Credits 3 cr}

**EDLIT 73100 - Literacy Assessment: Birth–Grade 6**

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instructional planning and meeting NYS English Language Arts performance standards.

\textit{prereq or coreq: ECC 70400 and EDLIT 73500  
Hours Includes 15 hrs in the field assessing diverse learners 45 hrs,  
Credits 3 cr}

**EDLIT 73200 - Children’s Literature**

Exposure to the breadth, depth, and utilization of children’s literature and its role in children’s development, appreciating diversity and fostering a lifelong interest in reading. Sensitive issues (health, abuses, addictions), technology and management issues are examined.

\textit{Hours Includes 5 hrs in a classroom-based dramatic demonstration  
Credits 3 cr}

**EDLIT 73300 - Theories and Process of Teaching Writing: Pre-K–Grade 6**

Development and assessment of writing skills including analysis of techniques and environments that foster writing development in all children (ESL, gifted, special needs). State writing standards and technology are integrated.

\textit{Hours Includes 15 hours in the field observing and analyzing writing development  
Credits 3 cr}

**EDLIT 73400 - Literacies within the Disciplines: K–Grade 6**

Exploration into the literacy demands inherent in the academic subjects of math, science, health education and social studies, as well as media, technology and the arts.

\textit{prereq or coreq: ECC 70400 and EDLIT 73500  
Hours Includes 10 hrs in a classroom focused on older learners (grades 3-6) and content area literacy  
Credits 3 cr}
EDLIT 73500 - Survey of Instructional Approaches for Language and Literacy Development: Grades K-12

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

*Hours Includes 5 hours fieldwork
Credits 3 cr*

EDLIT 73600 - Diagnosis of Reading Difficulties

A study of factors related to students who are experiencing difficulty acquiring literacy. Procedures for diagnosing reading achievement and related language skills.

*prereq: EDLIT 73100
Hours Includes 15 hours of diagnosis, under supervision, of students with reading difficulties
Credits 3 cr*

EDLIT 73700 - Practicum in Remedial Reading

Theoretical consideration and procedures in the instruction of students with reading difficulties.

*prereq: EDLIT 73600
Hours Includes 20 hrs of supervised remedial sessions with individual students on-site at Hunter College
Credits 3 cr*

EDLIT 73800 - Literacy Programs: Organization and Resources

Seminar of a survey of literacy programs in diverse settings utilizing a range of techniques and organizational approaches in the literacy instruction of students, with and without discernible reading difficulties.

*prereq: EDLIT 73100 (for Birth-Grade 6 students only)
Hours Includes 15 hours of survey for the enhancement of literacy programs
Credits 3 cr*

EDLIT 73901 - Delays in Early Language and Literacy Development in Young Children with Special Needs

Historical, theoretical, and research-based teaching practice issues related to literacy and language instruction for children with special needs, ages birth through second grade.

*coreq: ECC 70400*
Hours Includes 5 hrs observation in an inclusive early childhood setting or a program with special needs focus, 15 hrs, Credits 1 cr

**EDLIT 73902 - Special Needs Issues in Literacies within the Curriculum**

Adaptation, modification and management of instruction, curriculum, the learning environment, materials and technology across the curriculum for children with special learning needs.

*prereq: EDLIT 73901
Hours 15 hrs,
Credits 1 cr*

**EDLIT 73903 - Adaptations and Modifications in Approaches to Literacy for Students with Special Needs**

Adaptation and modification of instructional strategies, technology and curriculum in literacy for full inclusion of children with disabilities.

*prereq: EDLIT 73902
Hours 15 hrs,
Credits 1 cr*

**EDLIT 74000 - Leadership in Literacy**

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master's in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

*prereq: minimum of 27 cr. in the literacy program
Hours 45 hrs,
Credits 3 cr*

**EDLIT 74100 - Selected Topics**

In-depth study of emerging areas related to literacy education for children birth through grade 6.

*prereq or coreq: approval of the instructor
Hours 45 hrs,
Credits 3 cr
This is an elective course.*

**EDLIT 74200 - Practicum in Literacy**

Fifty-hour college-supervised practicum divided into two 25-hour placements; one at early childhood level and one at the childhood level.

*prereq: 15 credit hours in the literacy master’s program*
EDLIT 75300 - Methods of Teaching Writing: Grades 5-12

Development and assessment of writing skills and methods for teaching writing including analysis of techniques and environments that foster writing development, and writing across the disciplines, in all students at middle childhood and adolescent levels (ELL, gifted, special needs). State writing standards and technology are integrated.

EDLIT 75400 - Literacies within the Disciplines: Grades 5-12

Exploration into the literacy demands and challenges inherent in the academic subjects of math, science, history and social studies, as well as media, health, technology and the arts.

EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12

Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing difficulties. Assessment and intervention strategies, adapatation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

EDLIT 75600 - Literacy Assessment: Grades 5-12

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instruction planning and meeting NYS English Language Arts performance standards.

prereq: 9 credits in the content core

EDLIT 75700 - Practicum in Literacy Assessment and Intervention: Grades 5-12
A study of factors related to middle and high school students who are experiencing difficulty acquiring literacy. Implement, design and use a variety of procedures for diagnosing reading achievement and related language skills. Use assessment data to plan and implement intervention activities for students with literacy difficulties.

**EDPS 70000 - Educational Psychology Proseminar**

This proseminar consists of workshops, discussions and presentations on topics orienting students to the field of educational psychology and introducing them to the research interests of faculty members.

*Credits: none*

**ESESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL**

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in Programs 1 and 2.

*prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

*Hours includes 10 hrs fieldwork

*Credits: 4*

**ESESL 77700 - Socio-Cultural Aspects of Language and Pedagogy**

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

*prereq or coreq: LING 70200, EDESL 79600/79610

*Credits: 4*

**HED 71400 - Health Education for the Classroom Teacher**

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

*prereq or coreq: CEDF 70900*
HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

LING 70200 - Analysis and Structure of English from a Pedagogical Perspective

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

LING 77400 - Theory and Research in Second Language Acquisition and Learning

A survey of current theory and research in second language acquisition with particular reference to the acquisition of English and applications to the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

prereq or coreq: SEDF 70400
SED 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

prereq or coreq: SEDF 70400

SED 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent’s learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400

SED 71500 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Social Studies, Grades 7–12

Rationales and methodologies for teaching social studies based on current theories of the nature of students, the social sciences and secondary schooling.

prereq or coreq: SEDF 70400

SED 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SED 72100 - Advanced Study of Teaching English Methods to a Diverse Population in Grades 7–12
Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. These presentations will be videotaped for further self-analysis at home. New York State and city teaching standards will be applied throughout the course.

**prereq:** SEDC 71100  
**prereq or coreq:** SEDF 70500  
**Hours** 30 hrs plus, 36 hrs fieldwork,  
**Credits** 2 cr

**SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

**prereq:** SEDC 71200  
**prereq or coreq:** SEDF 70500  
**Hours** 30 hrs plus, 36 hrs fieldwork,  
**Credits** 2 cr

**SEDC 72300 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

**prereq:** SEDC 71300  
**prereq or coreq:** SEDF 70500  
**Hours** 30 hrs plus 36 hrs fieldwork,  
**Credits** 2

**SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

**prereq:** SEDC 71300
**SEDC 72500 - Methods II: Intensive Study of Teaching Diverse Learners in Social Studies, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

**SEDC 73000 - Development of Mathematical Thinking: Implications For Teaching and Learning Mathematics in Grades 7 to 12**

A course exploring the role of the teacher in developing mathematical reasoning ability in students. What are the possibilities and limitations? A research-based approach to the problem of providing a solid mathematics education for all students.

**SEDC 73100 - Seminar in Mathematics Curriculum, Grades 7-12**

A study of the current Standards-Based Mathematics Curriculum from an historical perspective.

**SEDC 73200 - Research Seminar in Mathematics Education, Grades 7-12**

A course in which students will study the research relative to the mathematics curriculum and complete a research project in a field of mathematics education of their choice.

**SEDC 75100 - Student Teaching in English, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**SEDC 75201 - Student Teaching in French, Grades 7–12**
Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 722
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

SEDC 75202 - Student Teaching in Italian, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

SEDC 75203 - Student Teaching in Spanish, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 722
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

SEDC 75300 - Student Teaching in Mathematics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

SEDC 75401 - Student Teaching in Biology, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
**SEDC 75402 - Student Teaching in Chemistry, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*

**SEDC 75403 - Student Teaching in Physics, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*

**SEDC 75404 - Student Teaching in Earth Science, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*

**SEDC 75500 - Student Teaching in Social Studies, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72500*

**SEDC 75600 - Student Teaching in Music, Pre-K–12**

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 and 30 days at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will
further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** MUSED 67800  
**Hours** 30 hrs, 60 days student teaching plus workshops and conferences,  
**Credits** 5 cr

**SEDC 76110 - Student Teaching in English, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** SEDC 72100  
**prereq or coreq:** SEDF 70600  
**Hours** 30 hours, 30 days student teaching plus conferences,  
**Credits** 3 cr  
*Students who enroll in SEDC 76110 must also complete SEDC 76120 or SEDC 77120.*

**SEDC 76120 - Student Teaching in English, Grades 10–12**

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** SEDC 72100  
**prereq or coreq:** SEDF 70600  
**Hours** 30 hours, 30 days student teaching plus conferences,  
**Credits** 3 cr  
*Students who enroll in SEDC 76120 must also complete SEDC 76110 or SEDC 77110.*

**SEDC 76211 - Student Teaching in French, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** SEDC 72200  
**prereq or coreq:** SEDF 70600  
**Hours** 30 hrs plus, 30 days and conferences,  
**Credits** 3 cr  
*Students who enroll in SEDC 76211 must also complete SEDC 76221 or SEDC 77221.*

**SEDC 76212 - Student Teaching in Italian, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** SEDC 72200  
**prereq or coreq:** SEDF 70600  
**Hours** 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76212 must also complete SEDC 76222 or SEDC 77222.

SEDC 76213 - Student Teaching in Spanish, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76213 must also complete SEDC 76223 or SEDC 77223.

SEDC 76221 - Student Teaching in French, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76221 must also complete SEDC 76211 or SEDC 77211.

SEDC 76222 - Student Teaching in Italian, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76222 must also complete SEDC 76212 or SEDC 77212.

SEDC 76223 - Student Teaching in Spanish, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76223 must also complete SEDC 76213 or SEDC 77213.
**SEDC 76310 - Student Teaching in Mathematics, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified mathematics teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72300*
*prereq or coreq: SEDF 70600*
*Hours 30 hrs, 30 days student teaching plus conferences,*
*Credits 3 cr*
*Students who enroll in SEDC 76310 must also complete SEDC 76320 or SEDC 77320.*

**SEDC 76320 - Student Teaching in Mathematics, Grades 10–12**

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72300*
*prereq or coreq: SEDF 70600*
*Hours 30 hrs, 30 days student teaching plus conferences,*
*Credits 3 cr*
*Students who enroll in SEDC 76320 must also complete SEDC 76310 or SEDC 77310.*

**SEDC 76411 - Student Teaching in Biology in Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*
*prereq or coreq: SEDF 70600*
*Hours 30 hrs plus 30 days and conferences,*
*Credits 3 cr*
*Students who enroll in SEDC 76411 must also complete SEDC 76421 or SEDC 77421.*

**SEDC 76412 - Student Teaching in Chemistry, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*
*prereq or coreq: SEDF 70600*
*Hours 30 hrs plus 30 days and conferences,*
*Credits 3 cr*
*Students who enroll in SEDC 76412 must also complete SEDC 76422 or SEDC 77422.*

**SEDC 76413 - Student Teaching in Physics, Grades 7–9**
Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76413 must also complete SEDC 76423 or SEDC 77423.

SEDC 76414 - Student Teaching in Earth Science, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. They will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76414 must also complete SEDC 76424 or SEDC 77424.

SEDC 76421 - Student Teaching in Biology, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76421 must also complete SEDC 76411 or SEDC 77411.

SEDC 76422 - Student Teaching in Chemistry, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76422 must also complete SEDC 76412 or SEDC 77412.

SEDC 76423 - Student Teaching in Physics, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.
SEDC 76424 - Student Teaching in Earth Science, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. They will assume significant responsibility for classroom instruction and management.

SEDC 76510 - Student Teaching in Social Studies, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

SEDC 76520 - Student Teaching in Social Studies, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

SEDC 76610 - Student Teaching in Music, Grades Pre-K–6

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.
**SEDC 76620 - Student Teaching in Music, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: MUSED 67800*
*prereq or coreq: SEDF 70600*

**SEDC 77110 - Practicum in English, Grades 7–9**

Supervised practicum for teachers of English in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77110 must also take SEDC 77120.

*prereq: SEDC 72100*

**SEDC 77120 - Practicum in English, Grades 10–12**

Supervised practicum for teachers of English in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77120 must also take SEDC 77110.

*prereq: SEDC 72100*

**SEDC 77211 - Practicum in French, Grades 7–9**

Supervised practicum for teachers of French in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

Students who take SEDC 77211 must also take SEDC 77221.

*prereq: SEDC 72200*

**SEDC 77212 - Practicum in Italian, Grades 7–9**
Supervised practicum for teachers of Italian in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77212 must also take SEDC 77222.

prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr

SEDC 77213 - Practicum in Spanish, Grades 7–9

Supervised practicum for teachers of Spanish in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77213 must also take SEDC 77223.

prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr

SEDC 77221 - Practicum in French, Grades 10–12

Supervised practicum for teachers of French in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77221 must also take SEDC 77211.

prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr

SEDC 77222 - Practicum in Italian, Grades 10–12

Supervised practicum for teachers of Italian in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77222 must also take SEDC 77212.

prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr

SEDC 77223 - Practicum in Spanish, Grades 10

Supervised practicum for teachers of Spanish in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77223 must also take SEDC 77213.

prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr
**SEDC 77310 - Practicum in Mathematics, Grades 7–9**

Supervised practicum for teachers of mathematics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77310 must also take SEDC 77320.

*prereq: SEDC 72300  
Hours 30 hrs plus conferences,  
Credits 2 cr*

**SEDC 77320 - Practicum in Mathematics, Grades 10-12**

Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 773.20 must also take SEDC 77310.

*prereq: SEDC 723  
Hours 30 hrs plus conferences,  
Credits 2 cr*

**SEDC 77411 - Practicum in Biology, Grades 7–9**

Hunter College-supervised practicum for teachers of biology in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

*prereq: SEDC 724  
Hours 30 hrs plus conferences,  
Credits 2 cr*

*Students who take SEDC 774.11 must also take SEDC 774.21.*

**SEDC 77412 - Practicum in Chemistry, Grades 7–9**

Supervised practicum for teachers of chemistry in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

*prereq: SEDC 72400  
Hours 30 hrs plus conferences,  
Credits 2 cr*

*Students who take SEDC 77412 must also take SEDC 77422.*

**SEDC 77413 - Practicum in Physics, Grades 7–9**

Hunter College-supervised practicum for teachers of physics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77413 must also take SEDC 77424.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2

SEDC 77414 - Practicum in Earth Science, Grades 7–9

Hunter College-supervised practicum for teachers of earth science in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77414 must also take SEDC 77424.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2

SEDC 77421 - Practicum in Biology, Grades 10-12

Hunter College-supervised practicum for teachers of biology in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr
Students who take SEDC 77421 must also take SEDC 77411.

SEDC 77422 - Practicum in Chemistry, Grades 10–12

Supervised practicum for teachers of chemistry in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr
Students who take SEDC 77422 must also take SEDC 77412.

SEDC 77423 - Practicum in Physics, Grades 10–12

Hunter College-supervised practicum for teachers of physics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77423 must also take SEDC 77413.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr

SEDC 77424 - Practicum in Earth Science, Grades 10–12
Hunter College-supervised practicum for teachers of earth science in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77424 must also take SEDC 77414.

prereq: SEDC 72400  
Hours 30 hrs plus conferences,  
Credits 2 cr

SEDC 77510 - Practicum in Social Studies, Grades 7–9  

Supervised practicum for teachers of social studies in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77520.

prereq: SEDC 72500  
Hours 30 hrs plus conferences,  
Credits 2 cr

SEDC 77520 - Practicum in Social Studies, Grades 10–12  

Supervised practicum for teachers of social studies in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77510.

prereq: SEDC 72500  
Hours 30 hrs plus conferences,  
Credits 2 cr

SEDC 77610 - Practicum in Music, Grades Pre-K–6  

Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77620.

prereq: MUSED 67800  
Hours 30 hrs plus conferences,  
Credits 2 cr

SEDC 77620 - Practicum in Music, Grades 7–12  

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77610.

prereq: MUSED 67800  
Hours 30 hrs plus conferences,  
Credits 2 cr
Childhood, Early Childhood, and Bilingual Education Programs

Advanced Certificate

Bilingual Education Extension (Spanish/English) - Advanced Certificate

This is a five-course, 14 credit free-standing program of study for two groups of students.

The first group consists of teachers, supervisors or administrators who already have a master’s degree and either permanent or professional teaching certification. The second group consists of individuals with a bachelor’s degree who hold a teaching position in a bilingual setting and have an initial certificate.

The program has been designed to prepare individuals to become effective bilingual practitioners with high levels of competence using two languages as mediums of instruction.

Admission Requirements

Students with a Master’s Degree

1. A master’s degree from an accredited institution acceptable to Hunter College with an overall GPA of at least 3.5.

2. Initial, professional or permanent certification in any of the areas below, as indicated in the State regulations:
   - Early childhood education (birth-grade 2)
   - Childhood education (grades 1-6)
   - Common Branches PreK-grade 6
   - Middle childhood education (grades 5-9)
   - Adolescent education (grades 7-12)
   - Special subjects
   - Literacy education
   - Students with disabilities in early childhood, childhood, middle childhood, or adolescent education or special education K-12
   - Teachers of students who are blind or visually impaired, deaf or hard of hearing, or speech and language impaired

3. An on-site writing sample in English and in Spanish and an interview conducted in English and in Spanish.

4. Two letters of recommendation including one from a supervisor.

Students with a Bachelor’s Degree:
1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall GPA of 2.8 or better.

2. A teaching position in a bilingual setting and NYS initial or permanent certification.

3. An on-site writing sample in English and in Spanish and an interview conducted in English and Spanish.

4. A recommendation from a supervisor.

Bilingual Extension (Spanish-English) Course of Study

Total Credits: 14 credits

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*

**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

*prereq or coreq: BILED 70100*

*Hours includes 5 hrs of fieldwork*

*Credits 3 cr*

**BILED 77100 - Psychology of Language Learning and Teaching**

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

*prereq or coreq: BILED 70100*

*Hours 30 hrs plus 5 hrs of fieldwork and lab, Credits 2 cr*

**BILED 71100 - Bilingual Literacy**

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

*coreq: BILED 71150*
BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

BILED 77800 - Instruction Through the Native Language

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

Exit Standards:

1. An overall GPA of 3.0
2. A grade of at least B in the field experience course BILED 711.50.

Master of Science in Education - MSEd

Childhood Education, Grades 1-6 - MSEd

Program Coordinator Jason Riffaterre; 1001 West; (212) 772-4638; jriffate@hunter.cuny.edu

Hunter College’s program in childhood education has been nationally recognized by the Association for Childhood Education International (ACEI). This program, which focuses on preparing teachers for New York City public schools is designed for students who do not have New York State certification in childhood education. Applicants who have initial certification in childhood education should apply to one of the other graduate teacher education programs at Hunter College such as Literacy; Childhood Special Education, Grades 1-6; TESOL (pre-K - 12); Early Childhood Education, Birth through Grade 2; or the Childhood Education Math/Science Specialist program. A master’s degree from any of these programs will meet the academic requirements for a professional certificate in that area as well as in childhood education.
The number of credits required to complete this master’s degree program is determined by the student’s educational background. Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 45-47 credits. Students may be exempted from up to 12 credits based on prior equivalent course work.

Admission Requirements

1. An undergraduate degree with a grade point average of at least 2.8.
2. A liberal arts or sciences major (or interdisciplinary concentration) of at least 30 credits.
3. A liberal arts core to include the following: 6 credits in English, including one course in English composition in with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better); 6 credits in social studies (one course in must be in history or geography); 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 3 credits in the arts; 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement); and 3 credits in information retrieval (library studies, research, computer literacy or educational technology).
4. A personal statement to be completed as part of the application for admission.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
   
   Note: It is recommended that students with two or more INs take an official leave of absence.
5. All students should take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any additional courses.

B. Fieldwork Benchmark

All field experiences and student teaching will take place in New York City public schools.

Students must receive a grade of at least B in fieldwork (CEDC 715). Any student who receives a grade of B-, C+ or C must apply to the Chairperson of the Department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F will not be allowed to continue in the program.

Childhood Education Course of Study
This program includes four types of courses: Initial Core; Literacy Core; Extended Core; and Culminating Core. Teacher candidates should complete the courses in the Initial Core before starting the Literacy Core. Matriculated students may take courses from the Extended Core at any time as long as they meet the individual course prerequisite requirements. The Culminating Core is completed during the last semester or last two semesters of the program.

Initial Core:

CEDF 71500 - Diversity in the American School

Advanced, graduate-level survey of current issues and theories of diversity and their impact upon the contemporary American school. Topics will be from an interdisciplinary perspective with attention to social policy implications.

*Hours 45 hrs,
*Credits 3 cr

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

*Hours includes 5 hrs of field work

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

*prereq or coreq: CEDF 70900
*Hours includes 10 hrs of fieldwork

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

*prereq or coreq: CEDF 70900
*Hours includes 10 hrs of fieldwork

Literacy Core:

CEDC 73000 - Perspectives on Literacy Across the Content Areas

Literacy across the curriculum. Skills, strategies and techniques to teach reading and writing in the content areas will be developed. Expository as well as narrative texts will be utilized.
CEDC 72200 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

CEDC 71500 - Fieldwork: Reading and Social Studies

Supervised experiences in pedagogical applications of literacy and social studies methods courses. Students will complete six hours of fieldwork per week for a minimum of 75 contact hours per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individual and small groups of children. Students will be placed in Hunter College-selected elementary schools and other educational programs.

Extended Core:

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.
CEDC 70000 - The Art of Effective Teaching

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

prereq or coreq: CEDF 70900
Hours includes 5 hrs of fieldwork

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3 cr

CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3 cr

CEDF 71600 - Assessment of Teaching and Learning
Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.
CEDF 79200

**CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School**

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

*Hours 45 hrs,
Credits 3 cr*

**Culminating Core**

**CEDF 79200 - Integrative Seminar: Research in Childhood Education**

Students prepare research proposals on topics which summarize and apply previous learnings. Written and oral presentations.

*prerequisite: completion of 31 credits of course work including CEDC 73000 and CEDF 71600 or permission of the childhood education adviser
Hours 45 hrs,
Credits 3 cr*

Choose either:

**CEDC 72400 - Student Teaching in Grades 1–3 and 4–6**

Supervised student teaching at two grade levels, 1–3 and 4–6, in an elementary school selected by Hunter College; four full days a week plus conferences and professional development workshops. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*prerequisite: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus a minimum of 60 days of student teaching,
Credits 5 cr*

Or one of the following:

**CEDC 72500 - Student Teaching in Grades 1–3**
Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 728: Practicum in grades 4–6. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed EDC 72400 or 72700.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus 30 days of student Teaching

CEDC 72700 - Practicum in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800. Note: Applications for spring semester student teaching are due in October; applications for fall semester practicum are due in March. Students who receive a grade of C+ or C in practicum must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72500.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus supervision and conferences,
Credits 2 cr

Plus either

CEDC 72600 - Student Teaching in Grades 4–6

Teacher candidates who take this course must also take CEDC 72500 or CEDC 72700. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 72700 Practicum in grades 1–3.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus 30 days of student teaching

Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in student teaching must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72800.

Or

CEDC 72800 - Practicum in Grades 4–6
Teacher candidates who take this course must also take CEDC 72600 or CEDC 72700.

**prereq:** completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

**Hours** 30 hrs of seminar plus supervision and conferences,

**Credits** 2 cr

**Note:** Applications for spring semester practicum are due in October; applications for fall semester student teaching are due in March. Students who receive a grade of C+ or C in practicum must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Not for students who have completed CEDC 72400 or 72600.

**Exit Standards**

1. An overall GPA of at least 3.0.

2. A grade of B or better in student teaching and/or practicum. Any student who obtains a grade of F in student teaching and/or practicum will not be allowed to continue in the program. Any student who obtains a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for student teaching. Those who do not complete the minimum required days will receive a grade of Incomplete in that course, preventing them from graduating that semester.

3. Completion of Integrative Seminar (CEDF 792) with a grade of B or better.

4. Students must pass the School of Education technology assessment.

**Childhood Education, Grades 1-6 Bilingual (Spanish/English) - MSEd**

The number of credits required to complete the master’s degree in childhood education with a bilingual extension is determined by the student’s educational background.

Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 46 credits. Master’s candidates who have completed some pedagogical coursework may be exempted from up to 12 required credits by providing transcripts and course syllabi as evidence that the content is equivalent and a grade of at least B has been attained. In such cases, the minimum number of credits for the degree is 34.

This program is for students who do not have New York State initial or provisional teacher certification. The purpose of this program is to prepare individuals to become effective bilingual teachers. The focus of the program is to develop high levels of teaching competencies in the participants based on using two languages as mediums of instruction.

**Admission Requirements**
1. A bachelor’s degree from an accredited institution acceptable to Hunter College with a GPA of 2.8 or better.

2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.

3. A general core in the liberal arts and sciences of at least 27 credits, distributed as follows: 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement); 6 credits in English including one course in English composition with a grade of B plus a writing intensive course in any discipline with a grade of B or better; 6 credits in social studies (of which one course must be in history or geography); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational).

4. Completion of a satisfactory writing sample in English and in Spanish as part of the application process.

5. An on-site writing sample in English and in Spanish and an interview conducted with at least two professors.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Childhood Education With a Bilingual Extension: Course of Study

Total Credits: 46 credits

CEDF 70900 - Child Development Grades 1-9
Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

*Hours includes 5 hrs of field work*

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*

**CEDCF 70050 - The Art and Science of Effective Teaching**

This course is designed to introduce pre-service bilingual and TESOL educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

*Hours includes 5 hrs of fieldwork*

**CEDC 70400 - Teaching Developmental Reading**

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

Prereq or coreq: CEDF 70900

*Hours includes 10 hrs of fieldwork*

**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

Prereq or coreq: BILED 70100

*Hours includes 5 hrs of fieldwork*

Credits 3 cr

**CEDC 72950 - Fieldwork in Childhood Education for Bilingual Educators**

Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C+ or C in fieldwork must apply to the chairperson for permission to preregister for the
course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not
continue in the program.

prereq: CEDF 70900; BILED 70100. Observing and assisting teaching in an elementary school setting
Hours 15 hrs of seminar plus 50 hrs fieldwork,
Credits 1 cr

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the
psychological underpinnings of the language acquisition process and their implications for language learning in the
classroom. Lab time is an integral part of this course.

prereq or coreq: BILED 70100
Hours 30 hrs plus 5 hrs of fieldwork and lab,
Credits 2 cr

CEDF 70800 - Social, Historical, Philosophical Foundations of Education: The
American School

For students pursuing certification in childhood education with a bilingual extension or in TESOL. Advanced review of
issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3 cr

BILED 71100 - Bilingual Literacy

This course will focus on the development of literacy skills among students for whom English is a second language
based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both
narrative and expository text as well as the arts.

coreq: BILED 71150
prereq or coreq: BILED 77100
Hours 30 hrs,
Credits 2 cr

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and
management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to
practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school
or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to
preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the
course and may not continue in the program.
coreq: BILED 77100  
Hours 75 hrs,  
Credits 1 cr  

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450  
Hours 30 hrs,  
Credits 2 cr  

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900  
Hours includes 10 hrs of fieldwork

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900
BILED 71700 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

prereq: BILED 77100, CEDCF 70050

Hours 45 hrs,
Credits 3 cr

BILED 77800 - Instruction Through the Native Language

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq: BILED 70100

Hours 45 hrs plus 10 hrs of fieldwork,
Credits 3 cr

BILED 78000 - Bilingual Research Seminar

The bilingual research seminar, which serves as the culminating experience, focuses on the relationship between educational research and the classroom teacher. Students will review significant bilingual research to consider the implications of findings for bilingual instruction, and they will initiate their own classrooms/community studies to reflect upon their own practice and to become critical consumers of research.

prereq or coreq: 39 credits or permission of program coordinator

Hours 30 hrs plus lab,
Credits 2 cr

Take Either

BILED 78200 - Supervised Student Teaching Grades 1–3 and 4–6

Supervised student teaching at two grade levels in an elementary bilingual setting selected by Hunter College; four full days a week plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq or coreq: completion of 39 cr of course work or permission of the program coordinator

Hours 40 days (20 in grades 1-3, 20 in grades 4-6) plus 15 hrs of seminar
Credits 4
Or One of the Following

**BILED 78500 - Student Teaching in Grades 1–3**

Twenty days of supervised student teaching at grade level 1–3 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

**prereq:** completion of 39 cr of course work or permission of the program coordinator

**Hours** 20 days student teaching, 15 hrs of seminar plus conferences,

**Credits** 2 cr

**BILED 78300 - Practicum in Grades 1–3**

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

**prereq:** completion of 39 cr of course work or permission of the program coordinator

**Hours** 15 hrs of seminar plus conferences

**Credits** 2 cr

Plus One of the Following

**BILED 78600 - Student Teaching in Grades 4–6**

Twenty days of supervised student teaching at grade level 4–6 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

**prereq:** completion of 39 credits of course work or permission of the program coordinator

**Hours** 20 days student teaching, 15 hrs of seminar plus conferences,

**Credits** 2 cr

**BILED 78400 - Practicum in Grades 4–6**

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.
prereq: completion of 39 cr of course work or permission of the program coordinator

Hours 15 hrs of seminar plus conferences.

Credits 2 cr

* Master’s candidates who have completed some pedagogical courses may be exempted from up to 12 credits of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained.

Exit Standards

1. An overall GPA of 3.0.

2. A grade of B or better in student teaching and/or practicum. Any student who obtains a grade of F in student teaching and/or practicum will not be allowed to continue in the program. Any student who obtains a grade of B-, C+, or C must apply to the department chairperson for permission to reregister for student teaching and/or practicum, which may be repeated only once. Any student who does not complete the full complement of required days of student teaching will receive a course grade of IN (Incomplete) and must fulfill the remaining mandated days.

3. Completion of the culminating experience BILED 780 (Bilingual Research Seminar), with a grade of B or better.

Childhood Education: Mathematics/Science Specialization - MSEd

Program Coordinator Patrick Burke; 1138 West Building; (212) 772-4728; patrick.burke@hunter.cuny.edu

This is a 33-credit program that prepares students with NYS initial/permanent certification in childhood education to become better qualified in the teaching of mathematics and science in the elementary grades. This program leads to professional certification in childhood education.

Admission Requirements

1. Undergraduate degree with a GPA of at least 2.8.

2. New York State initial professional or permanent certification in childhood education.

3. Completion of a satisfactory writing sample as part of the application process.

4. Two letters of recommendation including one from a supervisor.

5. Successful completion with a grade of C or better of college level mathematics course and a lab science course. Those who do not meet the mathematics requirement must successfully complete MATH 104 and MATH 105 in the School of Arts and Sciences. Those who do not meet the science requirement must take a one semester course in a lab science (biology, chemistry, physics or geology.)

Course Waivers
1. Master’s candidates may transfer in and/or waive up to three required courses in the master’s in mathematics and science education by providing evidence of prior equivalent coursework.

2. An elective course must be substituted for a waived course with adviser’s approval.

3. Waived courses provide an opportunity for teacher candidates to deepen their knowledge by taking advantage of the academic wealth available in the departments within the School of Education or the School of Arts and Sciences. Any graduate course(s) in either the School of Education or the School of Arts and Sciences for which prerequisites have been met may be substituted for waived courses with the permission of the program coordinator.

Progress Standards

1. Students must maintain an overall GPA of 3.0, which includes courses in the arts and sciences subject as well as in teacher education, in order to continue the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade of F in any course including arts and sciences courses in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

*Note: It is recommended that students with two or more INs take an official leave of absence.*

Childhood Education Mathematics/Science Specialization Course of Study

Total Credits: 33 credits

**CEDC 71600 - Educational Technology in Mathematics and Science Teaching/Learning**

An advanced educational technology course for students concentrating in mathematics and science at the elementary school level. Students will link prior knowledge of instructional technology to curriculum development creating the strategies to design integrated learning materials in mathematics and science.

*Hours 45 hrs,
Credits 3 cr*

**CEDC 73800 - The English Language: Theories and Pedagogical Implications**

An overview of the acquisition, structure and use of English. Its goal is to provide Pre-K thru 6 teachers who already have prior certification in childhood education with the awareness and understanding of the aspects of the English language they will need in order to teach a variety of content area in grades Pre-K thru 6.

*Hours 45 hrs,
Credits 3 cr*
CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

Hours 45 hrs,
Credits 3 cr

CEDC 74200 - Workshop Seminar in Elementary School Mathematics/Science

The major course goals are to continue to develop a foundation for the growth of the professional mathematics/science educator and to increase the effectiveness as a curriculum decision-maker. Through selective experiences, the course will focus on instructional styles and strategies.

prereq: all program courses except CEDC 74300
Hours 45 hrs,
Credits 3 cr

CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

Hours 45 hrs,
Credits 3 cr

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.

prereq: all program courses except CEDC 74200 and CEDC 74300
Hours 45 hrs,
Credits 3 cr

CEDC 77600 - Planet Earth: Life Science, Environmental and Earth Science for Elementary School Teachers

Concepts in the biological sciences, ecological and earth sciences necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

Hours 45 hrs,
Credits 3 cr

CEDC 77700 - Physical Science for Elementary Teachers

Concepts in the physical sciences, chemistry and physics necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.
CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

CEDF 71700 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

CEDC 74600 - Geographic Perspectives in Elementary Education

Geographic principles and practices; development of pedagogic skills to teach geography at the elementary school level; development of skills in teaching geography of New York City and New York State; development of understanding of global issues and of geographic factors affecting historical events.

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

CEDC 71800 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

CEDC 71900 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.
Exit Standards

1. Overall GPA of 3.0 or better.
2. Students must pass the School of Education technology assessment.

Early Childhood Education, Birth through Grade 2 - MSEd

Coordinator Christina Taharally; (212) 772-4679; 1103 West Building; christina.taharally@hunter.cuny.edu

There are two programs within this early childhood education master’s degree program. Program 1 is for students without prior teaching certification. Program 2 is for students with NYS initial, professional, or permanent certification in childhood education, elementary education pre-K-6, special education, or TESOL. The early childhood programs are not for applicants who already have initial certification in early childhood education (ECE). Students who seek a master’s degree and who already have ECE initial certification may want to consider the early childhood special education program or some other certification area at the graduate level. The programs in early childhood education have been recognized by the National Association for the Education of Young Children.

Admission Requirements

PROGRAM 1

(For applicants who do not hold New York State Certification)

1. A cumulative undergraduate grade point average (GPA) of 2.8 from an accredited bachelor’s degree program or a master’s degree with a GPA of 3.5 or better.

2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.

3. A general education core in the liberal arts and sciences distributed as follows: 9 credits in math, and science with at least one course in math and one course in science (a course in calculus meets 6 credits of this requirements); 6 credits in English; 6 credits in social studies (of which at least one course must be in history or geography); 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

4. A personal statement to be completed as part of the application for admission.

5. Two letters of recommendation.

PROGRAM 2:
(For applicants who hold New York State Certification in childhood education, preK-6 education, childhood or early childhood special education, or TESOL)

1. Undergraduate degree with GPA of 2.8 or master’s degree with GPA of 3.5 or better.
2. New York State initial, professional, or permanent teacher certification in childhood education, elementary education Pre-K-6, special education, or TESOL.
3. A personal statement.
4. Two letters of recommendation.

**Progress Standards**

**A. 12-Credit Progress Standards for Matriculated Students**

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

*Note: It is recommended that students with two or more INs take an official leave of absence.*

5. Program 1 students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any additional courses.

**B. Fieldwork Benchmark**

All field experiences and student teaching will take place in New York City public schools.

Program 1 students must receive a grade of at least B in fieldwork (ECC 712). Any student who receives a grade of B-, C+ or C must apply to the Chairperson of the Department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F will not be allowed to continue in the program.

**Early Childhood Education Course of Study - Program 1**

**Total Credits: 36-42 credits**

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.
ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

prereq: ECF 70000

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000

ECC 70500 - Language and Literacy: Birth through Kindergarten

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

prereq or coreq: ECF 70000

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children’s literacy development in urban environments is explored. (Not for Program 2 students.)
prereq or coreq: ECC 70500 (early childhood students only)
Hours 45 hrs,
Credits 3 cr

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400
prereq or coreq: 70500 or 70600
Hours 15 hrs,
Credits 1 cr

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300
prereq or coreq: ECF 70200
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

ECC 71000 - Early Childhood Mathematics: Birth through Grade 2

Theories and research that focus on the relationship between children’s development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300
Hours 45 hrs,
Credits 3 cr

ECC 71100 - Science in Early Childhood Education: Birth through Grade 2

Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K–2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300
Hours 45 hrs,
Credits 3 cr

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students
will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

*prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field,
Credits 1 cr

**ECC 71300 - The Expressive Arts in Early Childhood**

Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

*Hours 45 hrs,
Credits 3 cr

**ECC 71400 - Health, Safety and Nutrition in Early Childhood**

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

*prereq or coreq: ECF 70000
Hours 45 hrs,
Credits 3 cr

**ECC 71500 - Educational Technology in Early Childhood**

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

*Hours 15 hrs,
Credits 1 cr

**ECC 72000 - Integrative Seminar in Early Childhood Education**

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

*prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

**Take Either**
ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 20 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience. (Birth–3, preK–2)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only)

Hours 30 hrs of seminar plus 40 days of student teaching for students who are not teaching in an early childhood program

Or

ECC 71700 - Supervised Practicum in Early Childhood

Teaching practicum for students in early childhood education. Students who take ECC 717 must also complete ECC 71800. (Not for students who have completed ECC 716.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1)

Hours 15 hrs of seminar plus conferences,
Credits 1 cr

Plus

ECC 71800 - Early Childhood Student Teaching

Student teaching for 20 days at one age/grade level: Pre-K–K, or grades 1–2. Students who take ECC 718 must also complete ECC 71700. (Also offered during the summer.) (Not for students who have completed ECC 716.)

prereq: ECF 702; ECC 703, 704 (program 2) or 705 and 706 (program 1), 707, 708, 709 (program 2) or 710 and 711 (program 1), 712 (program 1)

Hours 15 hrs of seminar plus 20 days of student teaching,
Credits 2 cr

Note(s)

Please note: Students who qualify for waivers may take ECC 719.51, .52, .53 (Special Topics in Early Childhood Education, 1, 2 and 3 credits), or a course in another program with permission of the Early Childhood Program coordinator. Students may be exempted from up to 6 credits (Program 1) or 5 credits (Program 2) based on prior equivalent course work.

Early Childhood Education Course of Study - Program 2
Total Credits: 30-35 credits

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,*
*Credits 3 cr*

**ECF 70100 - Social and Historical Contexts of Early Childhood Education**

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs,*
*Credits 3 cr*

**ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2**

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000*
*Hours 45 hrs,*
*Credits 3 cr*

**ECC 70300 - Early Childhood Curriculum: Birth through Grade 2**

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000*
*Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*

**ECC 70400 - Language and Literacy: Birth through Grade 2**

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

*prereq or coreq: ECF 70000*
**ECC 70700 - Language and Literacy: English Language Learners**

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

*coreq: ECC 70400*

*prereq or coreq: 70500 or 70600*

**ECC 70800 - Children with Special Needs: Birth through Grade 2**

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

*prereq: ECC 70300*

*prereq or coreq: ECF 70200*

**ECC 70900 - Mathematical and Scientific Thinking in Early Childhood**

Research and practice that focus on children’s acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

*prereq or coreq: ECC 70300*

**ECC 71300 - The Expressive Arts in Early Childhood**

Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

**ECC 71400 - Health, Safety and Nutrition in Early Childhood**

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.
ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Prerequisites or corequisites: ECF 70000

Hours 45 hrs,
Credits 3 cr

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

Prerequisites: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

Take Either

ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 20 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience. (Birth–3, preK–2)

Prerequisites: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only)

Hours 30 hrs of seminar plus 40 days of student teaching for students who are not teaching in an early childhood program

Or

ECC 71700 - Supervised Practicum in Early Childhood

Teaching practicum for students in early childhood education. Students who take ECC 717 must also complete ECC 71800. (Not for students who have completed ECC 716.)

Prerequisites: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1)
**Hours 15 hrs of seminar plus conferences,**

**Credits 1 cr**

Plus

**ECC 71800 - Early Childhood Student Teaching**

Student teaching for 20 days at one age/grade level: Pre-K–K, or grades 1–2. Students who take ECC 718 must also complete ECC 71700. (Also offered during the summer.) (Not for students who have completed ECC 716.)

**prereq: ECF 702; ECC 703, 704 (program 2) or 705 and 706 (program 1), 707, 708, 709 (program 2) or 710 and 711 (program 1), 712 (program 1)**

**Hours 15 hrs of seminar plus 20 days of student teaching,**

**Credits 2 cr**

**Note(s)**

*Please note: Students who qualify for waivers may take ECC 719.51, .52, .53 (Special Topics in Early Childhood Education, 1, 2 and 3 credits), or a course in another program with permission of the Early Childhood Program coordinator. Students may be exempted from up to 6 credits (Program 1) or 5 credits (Program 2) based on prior equivalent course work.*

**Exit Standards**

1. An overall GPA of 3.0.
2. A grade of B or better in student teaching and/or practicum. Any student who obtains a grade of F in student teaching and/or practicum will not be allowed to continue in the program. Any student who obtains a grade of B-, C+, or C must apply to the department chairperson for permission to reregister for student teaching and/or practicum and repeat this experience. Students will be allowed to repeat student teaching and/or practicum only once. Any student who does not complete the full complement of required days of student teaching will receive a course grade of IN and must fulfill the remaining mandated days.
3. Completion of ECC 720 (Integrative Seminar in Early Childhood Education).
4. Students must pass the School of Education technology assessment.

**Early Childhood Education, Birth through Grade 2, Bilingual - MSEd**

There are three master’s degree programs in Early Childhood Education with a Bilingual Extension.

- Program 1 is for students without prior NYS certification.
• Program 2 is for students with initial certification in childhood education or with provisional certification in elementary education, special education, or TESOL.

• Program 3 is for students who have initial certification in early childhood education.

Program 1

The number of credits required to complete Program 1 of the master's degree in Early Childhood Education with a Bilingual Extension is determined by the student's educational background. Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 52 credits. Master's candidate who have completed some pedagogical courses may be exempted from up to 12 credits of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained. No one may be exempted from student teaching or practicum.

Program 2

The number of credits required to complete Program 2 of the master's degree in Early Childhood Education with a Bilingual Extension is determined by the student's educational background. Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 45 credits. Master's candidate who have completed some pedagogical courses may be exempted from up to 12 credits of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained. No one may be exempted from student teaching or practicum.

Program 3

The number of credits required to complete Program 3 of the master's degree in Early Childhood Education with a Bilingual Extension is determined by the student's educational background. Students who have not previously completed any pedagogical courses equivalent to those in the program must complete 36 credits. Master's candidate who have completed some pedagogical courses may be exempted from up to 6 credits of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained. No one may be exempted from student teaching or practicum.

Admission Standards

Program 1

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with a GPA of 2.8 or better.

2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.

3. A general core in the liberal arts and sciences distributed as follows: 9 credits in math and science (a college course in calculus meets 6 credits of this requirement); 6 credits in English; 6 credits in social studies (of which one course must be in history or geography); 3 credits in the arts; and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. Completion of a satisfactory on-site writing sample in English and in Spanish as part of the application process.

5. Demonstration of satisfactory oral English and Spanish through an interview.

Program 2

1. Undergraduate degree with GPA of 2.8 or master’s degree with GPA of 3.5 or better.

2. NYS initial/professional/permanent teacher certification in childhood education, elementary education Pre-K-6, special education, or TESOL.

3. Completion of a satisfactory writing sample in English and in Spanish as part of the application process.

4. An on-site writing sample in English and in Spanish and an interview.

Program 3

1. Undergraduate degree with GPA of 2.8 or master’s degree with GPA of 3.5 or better.

2. NYS initial teacher certification in early childhood education.

3. Completion of a satisfactory writing sample in English and in Spanish as part of the application process.

4. An on-site writing sample in English and in Spanish and an interview.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first credits will not be allowed to continue in the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. All Program 1 students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of coursework. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any additional courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Students must receive a grade of at least B in fieldwork (BILED 71150). Any student who receives a grade of B-, C+ or C must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F will not be allowed to continue in the program.
Earl

Early Childhood Bilingual Education Birth through Grade 2, with a Bilingual Extension Course of Study

Total Credits:  
Program 1: 40-52 credits  
Program 2: 33-45 credits  
Program 3: 30-36 credits

Programs 1 and 2

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,*  
*Credits 3 cr*

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs,*  
*Credits 3 cr*

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000*  
*Hours 45 hrs,*  
*Credits 3 cr*

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000*  
*Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*
ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

_prereq: ECC 70300
_prereq or coreq: ECF 70200
_Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children’s acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

_prereq or coreq: ECC 70300
_Hours 45 hrs,
_Credits 3 cr

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

_Hours 45 hrs,
_Credits 3 cr

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

_Hours 15 hrs,
_Credits 1 cr

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

_Hours includes 5 hrs of fieldwork

BILED 71100 - Bilingual Literacy
This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

**coreq:** BILED 71150  
**prereq or coreq:** BILED 77100  
**Hours** 30 hrs,  
**Credits** 2 cr

**BILED 71150 - Fieldwork in Bilingual Literacy**

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

**coreq:** BILED 77100  
**Hours** 75 hrs,  
**Credits** 1 cr

**BILED 77100 - Psychology of Language Learning and Teaching**

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

**prereq or coreq:** BILED 70100  
**Hours** 30 hrs plus 5 hrs of fieldwork and lab,  
**Credits** 2 cr

**BILED 77800 - Instruction Through the Native Language**

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

**prereq:**  
**prereq or coreq:** BILED 70100  
**Hours** 45 hrs plus 10 hrs of fieldwork,  
**Credits** 3 cr

**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.
**ECC 72000 - Integrative Seminar in Early Childhood Education**

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

**Take Either**

**ECC 71650 - Student Teaching in Early Childhood Bilingual Settings**

Two student teaching placements of 20 days each at different age/grade levels (Pre-K–K and 1–2).

**ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting**

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)

**Plus**

**ECC 71850 - Early Childhood Bilingual Student Teaching**

Student teaching for 20 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750. (Not for students who have completed ECC 71650.)
Additional Courses for Program 1

**ECC 70400 - Language and Literacy: Birth through Grade 2**

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

*prereq or coreq: ECF 70000  
Hours 45 hrs,  
Credits 3 cr*

**ECC 70500 - Language and Literacy: Birth through Kindergarten**

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

*prereq or coreq: ECF 70000  
Hours 45 hrs,  
Credits 3 cr*

**ECC 70600 - Language and Literacy: K through Grade 2**

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children’s literacy development in urban environments is explored. (Not for Program 2 students.)

*prereq or coreq: ECC 70500 (early childhood students only)  
Hours 45 hrs,  
Credits 3 cr*

**ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood**

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

*prereq: ECC 70300  
Hours 15 hrs of seminar plus 50 hrs in the field,  
Credits 1 cr*

**ECC 71400 - Health, Safety and Nutrition in Early Childhood**
This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000  
Hours 45 hrs,  
Credits 3 cr

Master’s candidates who have completed some pedagogical courses may be exempted from up to 12 credits of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained.

Program 3

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000  
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork

BILED 71100 - Bilingual Literacy

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

coreq: BILED 71150

Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs,  
Credits 3 cr

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,  
Credits 1 cr
Master’s candidates who have completed some pedagogical courses may be exempted from up to 12 credits (Program 2) or 6 credits (program 3) of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained.

Exit Standards

1. An overall GPA of 3.0

2. A grade of B or better in Student Teaching and/or Practicum. Any student who obtains a grade of B-, C+, or C must apply to the department chairperson for permission to reregister for Student Teaching and/or Practicum, which may be repeated only once. Any student who obtains a grade of F in Student Teaching and/or Practicum will not be allowed to continue in the program.

3. Completion of ECC 72000 (Integrative Seminar in Early Childhood Education) with a grade of B or better.

4. Students must pass the School of Education technology assessment.

Counseling Programs

Master of Science in Education - MSEd

Mental Health Counseling - MSEd

Program Coordinator Arnold Wolf; 1127 West Building; (212) 772-4616; awo@hunter.cuny.edu

Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.

The curriculum at Hunter includes basic core courses for the three counseling programs and specialization courses. Mental Health Counseling students select one elective from a sequence of predetermined courses. School Counseling students do not take electives. The curriculum integrates theory and practice through a carefully sequenced series of courses with emphasis on fieldwork in urban settings.

The Mental Health Counseling Program prepares graduates to work as mental health counselors in hospital, agency and community settings as well as in private practice. This program leads to professional licensure in New York State; professional licensure is required to practice mental health counseling.

Students in the mental health counseling program are eligible for licensure by New York State. Students in rehabilitation counseling may take the national certification examination for the Certified Rehabilitation Counselor (CRC) status after completing 75% of their course work.

Philosophy of the Graduate Programs
Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.

**Admission Standards**

1. Minimum undergraduate grade point average of 2.7; the Graduate Record Examination is not required.

2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas.

3. Evidence of oral and written expression consonant with graduate-level study.

4. Interviews with faculty members, alumni, or currently enrolled students. Central purposes of these interviews include assessing counselor potential, applicability of work and life experience, and candidate expectations about both the programs and the field.

5. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.

6. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant's grade point average, counselor potential, and applicability of work and life experience are carefully considered.

**Progress Standards**

1. Students must maintain a 3.0 GPA to remain in the program and must complete the total number of credits of course work to graduate.

2. Students must demonstrate counseling knowledge and skills as defined by the faculty and community agency supervisors.

3. Active participation in small group seminars and community and professional activities is required.

4. A student receiving a grade of B or below in any of the following courses cannot continue in the programs: COCO 701, COCO 706, COCO 718, COCO 719 and COCO 725 and 726.

5. The faculty may require that a student gain additional experience in counseling skills and competencies before permission is granted to complete the program.

6. Seven courses – COCO 701, 706, 707, 718, 719, 725, 726 – cannot be taken at other colleges or universities. These courses must be taken in the Hunter College Counselor Education program.

**COCO 70100 - Counseling Skills and Interviewing Techniques**

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.
COCO 70600 - Group Counseling

Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

prereq: COCO 701

COCO 71900 - Individual Supervision

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student’s proficiency and competence as a professional counselor.

COCO 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and 24 cr in required courses or the approved equivalent; permission of college fieldwork supervisor required.

COCO 72600 - Internship in Counseling II

COCO 725 Internship in Counseling I, the second half.

Mental Health Counseling Course of Study

Total Credits: 60 credits
COCO 70000 - Life Stage Development

Analysis of developmental stages throughout the lifespan.

Hours 45 hrs,
Credits 3 cr

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs,
Credits 3 cr

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

Hours 45 hrs,
Credits 3 cr

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

Hours 45 hrs,
Credits 3 cr

COCO 70600 - Group Counseling

Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200
Hours 45 hrs,
Credits 3 cr

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs,
Credits 3 cr

COCO 70800 - Measurement and Appraisal
Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

Hours 45 hrs,
Credits 3 cr

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

Hours 45 hrs,
Credits 3 cr

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

prereq: COCO 70600 and COCO 71800
Hours 45 hrs,
Credits 3 cr

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

Hours 60 hrs,
Credits 4 cr

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

Hours 45 hrs,
Credits 3 cr

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

prereq: COCO 701
Hours 100 hrs
COCO 71900 - Individual Supervision

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student’s proficiency and competence as a professional counselor.

Hours 45 hrs,
Credits 3 cr

COCO 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and 24 cr in required courses or the approved equivalent; permission of college fieldwork supervisor required.

Hours Each 300 hrs to be arranged in selected field settings
Credits 4 cr each semester

COCO 72600 - Internship in Counseling II

COCO 725 Internship in Counseling I, the second half.

Hours 45 hrs,
Credits 3 cr

COUNM 71600 - Foundations of Mental Health Counseling

This course provides an overview of mental health counseling. The course will address the following: professional identity, functions and issues facing mental health practitioners; disparities in mental health services across culturally and linguistically diverse communities; principles, theories and practice of community interventions; public policy and governmental relations impacting mental health.

pre- or coreq: DSM-IV Workshop

COUNM 71700 - Psychopathology: Diagnosis and Treatment

This course provides a framework for understanding the range of personality and behavioral conditions that are presented in the Diagnosis and Statistical Manual of Mental Disorders of the American Psychiatric Association (DSM-IV). The class focuses on the description, etiology, assessment, diagnosis, treatment and prevention of these disorders within diverse urban settings.

prereq or coreq: COUNM 71600
Hours 45
Credits 3
Electives (Select One Course)

COCO 71000 - Chemical Dependency: Issues in Counseling

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

*Hours 45 hrs,
Credits 3 cr*

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

*Hours 45 hrs,
Credits 3 cr*

COUNS 72100 - Counseling Interventions for Children and Adolescents

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

*prereq: COCO 70000, COCO 70200, COCO 70600, COCO 70800, COCO 71800, DSMV IV Workshop
coreq: COCO 72500
Hours 45
Credits 3*

Exit Standards

1. An overall GPA of 3.0.
2. Students must pass the School of Education technology assessment.

Rehabilitation Counseling - MSEd

Program Coordinator Arnold Wolf; 1127 West Building; (212) 772-4616; awo@hunter.cuny.edu

Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.

The curriculum at Hunter includes basic core courses for the three counseling programs and specialization courses. Rehabilitation Counseling students select two electives from a sequence of predetermined courses. The curriculum
integrates theory and practice through a carefully sequenced series of courses with emphasis on fieldwork in urban settings.

The Rehabilitation Counseling Program prepares students to assist people with disabilities to realize personal goals and maximize their physical, emotional, social, intellectual and vocational potential. Rehabilitation counselors work with youth and adults in a variety of community-based settings such as hospitals, rehabilitation centers, colleges, chemical dependency agencies and career/vocational counseling programs.

Students in rehabilitation counseling may take the national certification examination for the Certified Rehabilitation Counselor (CRC) status after completing 75% of their course work. Students may take additional courses and work toward becoming eligible for both certifications.

Philosophy of the Graduate Programs

Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.

Admission Requirements

1. Minimum undergraduate grade point average of 2.7; the Graduate Record Examination is not required.

2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas.

3. Evidence of oral and written expression consonant with graduate-level study.

4. Interviews with faculty members, alumni, or currently enrolled students. Central purposes of these interviews include assessing counselor potential, applicability of work and life experience, and candidate expectations about both the programs and the field.

5. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.

6. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant’s grade point average, counselor potential, and applicability of work and life experience are carefully considered.

Progress Standards

1. Students must maintain a 3.0 GPA to remain in the program and must complete the total number of credits of course work to graduate.

2. Students must demonstrate counseling knowledge and skills as defined by the faculty and community agency supervisors.

3. Active participation in small group seminars and community and professional activities is required.

School Counseling - MSEd

Program Coordinator Arnold Wolf; 1127 West Building; (212) 772-4616; awo@hunter.cuny.edu

Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.
The curriculum at Hunter includes basic core courses for the three counseling programs and specialization courses. The curriculum integrates theory and practice through a carefully sequenced series of courses with emphasis on fieldwork in urban settings.

The School Counseling Program primarily prepares graduates for careers in a variety of school settings, including elementary schools, junior high schools, senior high schools and colleges. School counselors can also be employed by organizations that are not primarily educational, such as correctional facilities, hospitals, and a wide variety of community-based organizations.

Those students specializing in school counseling may apply individually for the New York State provisional certificate for school counselor at the completion of 30 credits and a school-based practicum experience. Permanent certification recommendation is made after graduation.

In addition, school counseling students fluent in Spanish and English have the option of obtaining a New York State Department of Education Bilingual (Spanish/English) Extension in Pupil Personnel Services.

**Philosophy of the Graduate Programs**

Central to all counseling approaches is the belief that people can develop, assume responsibility, achieve autonomy, and engage in problem-solving. Effective counseling requires that counselors understand and accept clients, develop rapport, and establish collaborative working relationships. To achieve these ends, counselors need a background in the psychology of human development, counseling theories, and cultural similarities and differences, as well as skills in individual and group counseling, mastery of assessment techniques, and knowledge of current issues and research.

**Admission Requirements**

1. Minimum undergraduate grade point average of 2.7; the Graduate Record Examination is not required.

2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas

3. Evidence of oral and written expression consonant with graduate-level study.

4. Interviews with faculty members, alumni, or currently enrolled students. Central purposes of these interviews include assessing counselor potential, applicability of work and life experience, and candidate expectations about both the programs and the field.

5. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.

6. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant’s grade point average, counselor potential, and applicability of work and life experience are carefully considered.

**Progress Standards**
1. Students must maintain a 3.0 GPA to remain in the program and must complete a minimum of 51 credits of course work to graduate.

2. Students must demonstrate counseling knowledge and skills as defined by the faculty and community agency supervisors.

3. Active participation in small group seminars and community and professional activities is required.

4. A student receiving a grade of B or below in any of the following courses cannot continue in the programs.

5. The faculty may require that a student gain additional experience in counseling skills and competencies before permission is granted to complete the program.

6. Seven courses – COCO 701, 706, 707, 718, 719, 725, 726 – cannot be taken at other colleges or universities. These courses must be taken in the Hunter College Counselor Education program.
   - COCO 70100 - Counseling Skills and Interviewing Techniques

School Counseling Course of Study

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs,*  
*Credits 3 cr*

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

*Hours 45 hrs,*  
*Credits 3 cr*

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

*Hours 45 hrs,*  
*Credits 3 cr*

COCO 70600 - Group Counseling
Theory and principles of group counseling. Developing group-counseling skills through practice.

 prerequisites: COCO 70100 and COCO 70200
Hours 45 hrs,
Credits 3 cr

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing worldviews, and knowledge of appropriate intervention strategies.

Hours 45 hrs,
Credits 3 cr

COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

Hours 45 hrs,
Credits 3 cr

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

Hours 45 hrs,
Credits 3 cr

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

prerequisites: COCO 70600 and COCO 71800
Hours 45 hrs,
Credits 3 cr

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

Hours 60 hrs,
Credits 4 cr

COCO 71800 - Practicum in Counseling
To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

**prereq:** COCO 701  
**Hours** 100 hrs

**COCO 71900 - Individual Supervision**

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student’s proficiency and competence as a professional counselor.

**Hours** 45 hrs,  
**Credits** 3 cr

**COCO 72500 - Internship in Counseling I**

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

**prereq:** COCO 71800 and 24 cr in required courses or the approved equivalent; permission of college fieldwork supervisor required.  
**Hours** Each 300 hrs to be arranged in selected field settings  
**Credits** 4 cr each semester

**COCO 72600 - Internship in Counseling II**

COCO 725 Internship in Counseling I, the second half.

**Hours** 45 hrs,  
**Credits** 3 cr

**COCO 70000 - Life Stage Development**

Analysis of developmental stages throughout the lifespan.

**Hours** 45 hrs,  
**Credits** 3 cr

**COCO 71500 - Family Systems and Counseling Issues**

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

**Hours** 45 hrs,  
**Credits** 3 cr

**COUNS 71700 - Foundations of School Counseling**
History, philosophy, legal, and ethical considerations in school counseling. The school context and professional issues in school counseling will be emphasized, including the school counselor’s role, developmental programming, counseling interventions, consultation and liaison, and advocacy.

*Hours 45
Credits 3*

**COUNS 72000 - Culminating Seminar in School Counseling**

With the permission of the supervising faculty member, the culminating experience in counseling provides the student with an opportunity to (a) participate as an integral member of a team involved in a research project, or (b) design an original evaluation or research project, or (c) complete a creative scholarly paper such as an extensive literature review. (Taken last semester prior to graduation)

*prereq: COCO 70900
*Hours 45 hrs,
*Credits 3 cr

**COUNS 72100 - Counseling Interventions for Children and Adolescents**

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

*prereq: COCO 70000, COCO 70200, COCO 70600, COCO 70800, COCO 71800, DSMV IV Workshop
coreq: COCO 72500
*Hours 45
*Credits 3

**COUNS 72200 - School Based Consultation**

This upper level course provides counselors with the knowledge and skills necessary to engage in consultation, collaborative problem solving, and systems level intervention in educational settings. Theories, models, and processes of consultation of change will be examined.

*prereq: COCO 70000, COCO 70100, COCO 70200, COCO 70600, COCO 71700, COCO 71800, COUNS 72100, DSMV IV Workshop
coreq: COCO 72600
*Hours 45
*Credits 3

Total 60 credits

**Bilingual (Spanish/English) Extension In Pupil Personnel Services**
Students in the School Counselor Program at Hunter College may obtain a Bilingual (Spanish/English) Extension in Pupil Personnel Services. Students who elect to take this option will be evaluated for written and oral proficiency in both Spanish and English. Students who are determined to be bilingually proficient will take the following two courses in addition to the Counseling Programs Sequence of Courses:

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*

**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

*prereq or coreq: BILED 70100
*Hours includes 5 hrs of fieldwork
*Credits 3 cr*

Total 66 credits

**Exit Standards**

1. An overall GPA of 3.0.
2. Students must pass the School of Education technology assessment.

**CEDCF 71000 - Social, Historical, & Philosophical Foundations of General and Bilingual Education: Theory and Practice**

This course provides a foundation for TESOL and Bilingual Education students in the historical, social and philosophical foundations of general and bilingual education with an emphasis on the development and current educational policies and practices of educating English language learners. Required for TESOL Program 1.

*Hours includes 5 hrs of fieldwork
*Credits 4*

**CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School**

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.
CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

CEDF 70800 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing certification in childhood education with a bilingual extension or in TESOL. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

prereq: CEDF 70900

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.
Hours includes 5 hrs of field work
Credits 4

CEDF 71500 - Diversity in the American School

Advanced, graduate-level survey of current issues and theories of diversity and their impact upon the contemporary American school. Topics will be from an interdisciplinary perspective with attention to social policy implications.

Hours 45 hrs,
Credits 3 cr

CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.
CEDF 79200

CEDF 71700 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1 cr
permission of faculty adviser and chairperson required

CEDF 71800 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2 cr
permission of faculty adviser and chairperson required

CEDF 71900 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3 cr
permission of faculty adviser and chairperson required

CEDF 75000 - Special Topics in Diversity

An examination of the history and adaptation of diverse groups in the U.S. and their experience in the American educational system. Emphasis is on the role of culture, structure and policy in facilitating and/or hindering opportunities for these groups to achieve educational equity.

prereq: CEDF 70900
prereq or coreq: CEDF 70600
CEDF 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

Cross-listed SPED 75300
**Hours includes 10 hrs field experience**
Credits 3

CEDF 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed SPED 75600, ADSUP 75600, CEDC 75600
**prereq or coreq: SPED 75300 and SPED 75400**
**Hours includes 10 hrs field experience**
Credits 3

CEDF 79200 - Integrative Seminar: Research in Childhood Education

Students prepare research proposals on topics which summarize and apply previous learnings. Written and oral presentations.

**prereq: completion of 31 credits of course work including CEDC 73000 and CEDF 71600 or permission of the childhood education adviser**
**Hours 45 hrs,**
Credits 3 cr

COCO 70000 - Life Stage Development

Analysis of developmental stages throughout the lifespan.

**Hours 45 hrs,**
Credits 3 cr

COCO 70100 - Counseling Skills and Interviewing Techniques
Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs,
Credits 3 cr

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

Hours 45 hrs,
Credits 3 cr

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

Hours 45 hrs,
Credits 3 cr

COCO 70500 - Vocational Assessment and Placement

Application of principles of occupational development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of the disabled. Sources and uses of occupational information, labor market trends. Emphasis on vocational evaluation, job development, follow-up.

Hours 45 hrs,
Credits 3 cr

COCO 70600 - Group Counseling

Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200
Hours 45 hrs,
Credits 3 cr

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs,
Credits 3 cr

COCO 70800 - Measurement and Appraisal
Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

*Hours 45 hrs, 
Credits 3 cr*

**COCO 70900 - Research Methods in Counseling**

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

*Hours 45 hrs, 
Credits 3 cr*

**COCO 71000 - Chemical Dependency: Issues in Counseling**

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

*Hours 45 hrs, 
Credits 3 cr*

**COCO 71100 - Supervision and Administration in Counseling**

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

*prereq: COCO 70600 and COCO 71800 
Hours 45 hrs, 
Credits 3 cr*

**COCO 71200 - Career Counseling, Assessment and Placement**

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

*Hours 60 hrs, 
Credits 4 cr*

**COCO 71500 - Family Systems and Counseling Issues**

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

*Hours 45 hrs, 
Credits 3 cr*

**COCO 71800 - Practicum in Counseling**
To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

prereq: COCO 701
Hours 100 hrs

COCO 71900 - Individual Supervision

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student’s proficiency and competence as a professional counselor.

Hours 45 hrs,
Credits 3 cr

COCO 72300 - Transition from School to Adult Living for Youth with Disabilities

Services, programs, and processes for facilitating the transition of youth with disabilities and youth at risk from school to work, postsecondary education, independent living, and adult roles.

Hours 45 hrs,
Credits 3 cr

COCO 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and 24 cr in required courses or the approved equivalent; permission of college fieldwork supervisor required.
Hours Each 300 hrs to be arranged in selected field settings
Credits 4 cr each semester

COCO 72600 - Internship in Counseling II

COCO 725 Internship in Counseling I, the second half.

Hours 45 hrs,
Credits 3 cr

COCO 72700 - Special Topics in Counseling

Study of significant issues, problems, and emerging trends in counseling.

Hours 45 hrs,
Credits 3 cr

COCO 72800 - Special Topics in Counseling
Study of significant issues, problems, and emerging trends in counseling.

*Hours 45 hrs,*  
*Credits 3 cr*

**COCO 73500 - Seminar in Chemical Dependency**

Counseling Skills and Techniques Introduces students to the various types of counseling involved in working with people who are chemically dependent. Students will have the opportunity to test skills and techniques necessary for counseling in a variety of settings that serve people with chemical dependencies.

*Hours 45 hrs,*  
*Credits 3 cr*

**COCO 74100 - Independent Study**

Students will carry out independent project approved by faculty and supervised by a staff member.

*Hours 15 hrs (supervised),*  
*Credits 1 cr*

**COCO 74200 - Independent Study**

Students will carry out independent project approved by faculty and supervised by a staff member.

*Hours 30 hours (supervised),*  
*Credits 2 cr*

**COCO 74300 - Independent Study**

Students will carry out independent project approved by faculty and supervised by a staff member.

*Hours 45 hrs hours (supervised),*  
*Credits 3 cr*

**COUNM 71600 - Foundations of Mental Health Counseling**

This course provides an overview of mental health counseling. The course will address the following: professional identity, functions and issues facing mental health practitioners; disparities in mental health services across culturally and linguistically diverse communities; principles, theories and practice of community interventions; public policy and governmental relations impacting mental health.

*pre- or coreq: DSM-IV Workshop*

**COUNM 71700 - Psychopathology: Diagnosis and Treatment**
This course provides a framework for understanding the range of personality and behavioral conditions that are presented in the Diagnosis and Statistical Manual of Mental Disorders of the American Psychiatric Association (DSM-IV). The class focuses on the description, etiology, assessment, diagnosis, treatment and prevention of these disorders within diverse urban settings.

**prereq or coreq: COUNM 71600**  
*Hours 45*  
*Credits 3*

**COUNM 72000 - Mental Health Counseling: Program Development and Evaluation**

The course focuses on the development and evaluation of mental health programs in culturally/linguistically diverse urban settings from program inception onward including assessment to insure quality services. The course covers federal, state and local governmental inpatient and outpatient mental health treatment services, not-for-profit organizations and community-based mental health service programs.

**prereq or coreq: COUNM 71600 and COUNM 71700**  
*Hours 45*  
*Credits 3*

**COUNR 71600 - Resources and Foundations of Rehabilitation**

History, philosophy, and principles of the vocational rehabilitation process. Economic, legal, ethical, and social issues influencing rehabilitation services. Observation of services available in state, city, and private agencies.

*Hours 45 hrs,*  
*Credits 3 cr*

**COUNR 72000 - Medical Aspects of Disability**

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

*Hours 45 hrs,*  
*Credits 3 cr*

**COUNR 73000 - Counseling with the Aging**

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

*Hours 45 hrs,*  
*Credits 3 cr*
COUNS 71700 - Foundations of School Counseling

History, philosophy, legal, and ethical considerations in school counseling. The school context and professional issues in school counseling will be emphasized, including the school counselor’s role, developmental programming, counseling interventions, consultation and liaison, and advocacy.

Hours: 45  
Credits: 3

COUNS 72000 - Culminating Seminar in School Counseling

With the permission of the supervising faculty member, the culminating experience in counseling provides the student with an opportunity to (a) participate as an integral member of a team involved in a research project, or (b) design an original evaluation or research project, or (c) complete a creative scholarly paper such as an extensive literature review. (Taken last semester prior to graduation)

prereq: COCO 70900  
Hours: 45 hrs,  
Credits: 3 cr

COUNS 72100 - Counseling Interventions for Children and Adolescents

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

prereq: COCO 70000, COCO 70200, COCO 70600, COCO 70800, COCO 71800, DSMV IV Workshop  
coreq: COCO 72500  
Hours: 45  
Credits: 3

COUNS 72200 - School Based Consultation

This upper level course provides counselors with the knowledge and skills necessary to engage in consultation, collaborative problem solving, and systems level intervention in educational settings. Theories, models, and processes of consultation of change will be examined.

prereq: COCO 70000, COCO 70100, COCO 70200, COCO 70600, COCO 71700, COCO 71800, COUNS 72100, DSMV IV Workshop  
coreq: COCO 72600  
Hours: 45  
Credits: 3

ECF 70000 - Child Development: Birth to Age Eight
Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,  
Credits 3 cr*

**ECF 70100 - Social and Historical Contexts of Early Childhood Education**

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs,  
Credits 3 cr*

**ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2**

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000  
Hours 45 hrs,  
Credits 3 cr*

**EDPS 70100 - Statistics and Statistical Computing in Education I**

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, t-tests, analysis of variance, correlation, regression, and the use of computer packages for these analyses.

*Hours 60  
Credits 4*

**EDPS 70200 - Educational Research Methods**

This course is to increase students’ understanding of the nature, purposes, needs, and types of research conducted by educational researchers and psychologists. Students will learn a range of research designs and methods, and their applications to education-related settings and issues.

*Hours 60  
Credits 4*

**EDPS 70300 - Learning and Behavior Theories**
This course provides students with an overview of the study of human learning and behavior. A major goal of this course is to provide students with the knowledge and skills necessary to enable them to appropriately apply theories of learning in instructional settings.

Hours 60
Credits 4

EDPS 71100 - EDPS Metacognitive and Cognitive Processes in Education

This course provides students with an overview of major research on metacognitive and cognitive processes in learning and instruction. Focuses will be on major theories and research as well as metacognitive and cognitive processes and strategy applications in the areas of mathematical learning, text comprehension, science, and writing.

prereq: EDPS 70200
coreq: EDPS 70300
Hours 60
Credits 4

EDPS 71200 - Multicultural Issues in Learning and Instruction

This course will examine the current research in K-12 education to explore the role of multicultural issues in teaching and learning.

prereq or coreq: EDPS 70200
Hours 60
Credits 4

EDPS 71300 - Cognition and Educational Technology

This course covers research about the influence of educational technology on the development of thinking and learning.

prereq: EDPS 70300
Hours 60
Credits 4

EDPS 72100 - Statistics and Statistical Computing in Education II

This course builds on knowledge of basic statistics, focusing on multiple regression and factorial ANOVA for statistical analysis of continuous and categorical independent variables. Diagnosis and treatment of data analytic problems such as missing data are discussed.
prereq: EDPS 70100, EDPS 70200
Hours 60
Credits 4

EDPS 72200 - Tests and Measurement

This course covers the following topics: classical test theory, tests construction, reliability estimation and generalizability theory, validation, item analysis, test bias, and introduction to item response theory, and the use of high-stakes testing in educational policy.

prereq: EDPS 70100, EDPS 70200
Hours 60
Credits 4

EDPS 72300 - Educational Program Evaluation

This course is designed to provide students with an overview of key concepts, theories, and methodologies utilized in the field educational evaluation.

Hours 60
Credits 4

EDPS 74100 - Mediating Factors in Student Achievement

This course will examine the current research in K-12 education in an effort to explore several of the more widely identified mediating factors that directly impact upon student achievement.

prereq: EDPS 70300
Hours 60
Credits 4

EDPS 74200 - Special Topics in Educational Research Methods

This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300
Hours 60
Credits 4

EDPS 74300 - Special Topics in Educational Psychology
This course will examine current research regarding a selected topic within the field of educational psychology; topics and readings will vary by semester.

*prereq: EDPS 70100, EDPS 70200, EDPS 70300*

*Hours 60*

*Credits 4*

**EDPS 74900 - Independent Study in Educational Psychology**

Permission of faculty adviser and chairperson required. Independent study in the area of educational psychology. A maximum of 4 credits of independent study may be counted toward the degree.

*Credits 1 - 4*

**EDPS 79000 - Educational Psychology Seminar**

This course provides an opportunity for students to prepare an original scholarly review of research literature or theoretical paper of publishable quality on an educational psychological topic of interest. The general goal of the course is to enable students to apply their knowledge of educational psychological issues and research through the development of a scholarly research paper.

*prereq: students must have completed a minimum of 24 credits*

*Hours 60*

*Credits 4*

**EDPS 79501 - Educational Psychology Thesis Research 1**

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

*prereq: students must have completed a minimum of 24 credits*

*Hours 30*

*Credits 2*

**EDPS 79502 - Educational Psychology Thesis Research 2**

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

*prereq: students must have completed a minimum of 24 credits*
SEDФ 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

SEDФ 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

SEDФ 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDФ 70400

SEDФ 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDФ 70500
coreq:

Educational Psychology

Master of Arts - MA

Educational Psychology - MA
The mission of the Hunter College Educational Psychology Program is to advance understanding and generate knowledge of human learning, development, and motivation; and to develop a solid foundation of research, measurement, assessment, program evaluation, and applied statistics in educational settings and related fields.

The Educational Psychology program at Hunter offers two concentrations of study: (1) General Educational Psychology; and (2) Assessment, Research, and Evaluation. This 32-credit program is designed for students with no prior experience in education as well as those who have a background in education and want to expand their skills and knowledge. All students will engage in analytical and scholarly approaches to assessing theoretical perspectives, research, and practice within and across disciplines.

The program is appropriate for students with diverse goals. Students in this program may use the degree as a bridge to a doctoral program in Educational Psychology or a related discipline. Alternatively, students may prepare for professional careers in program evaluation; institutional research; assessment, measurement and testing; and instruction and curriculum development in public and private institutions. The skills and knowledge base acquired in the program can be used in schools, education-related and government agencies, and business and health-related settings.

Admission Requirements

1. Prospective applicants must hold a Bachelor's degree from a regionally accredited institution, comparable in standard and content to a Bachelor's degree from Hunter College. Degrees granted on the basis of work completed at institutions that are not fully accredited, or on the basis of nonacademic prior learning, test scores, and any coursework other than organized supervised coursework in academic subjects may not be considered comparable.

2. A 2.8 minimum undergraduate GPA. Students who do not meet the minimum GPA requirement may submit scores on the general aptitude test of the Graduate Record Examination (GRE) to serve as evidence of their ability to complete graduate-level work.

3. On-site interview.

Progress Standards

1. Students must maintain an overall GPA of 3.0 to continue in the program.

2. Students with more than one course grade below B in the first 12 credits of EDPS coursework will not be allowed to continue in the program.

3. Any student who receives a grade of F in the first 12 credits will not be allowed to continue in the program.

Educational Psychology Course of Study

Total Credits: 32 credits

Core Courses

All students in the Master's Program are required to take 3 core courses and a proseminar.
EDPS 70100 - Statistics and Statistical Computing in Education I

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, t-tests, analysis of variance, correlation, regression, and the use of computer packages for these analyses.

Hours 60  
Credits 4

EDPS 70200 - Educational Research Methods

This course is to increase students’ understanding of the nature, purposes, needs, and types of research conducted by educational researchers and psychologists. Students will learn a range of research designs and methods, and their applications to education-related settings and issues.

Hours 60  
Credits 4

EDPS 70300 - Learning and Behavior Theories

This course provides students with an overview of the study of human learning and behavior. A major goal of this course is to provide students with the knowledge and skills necessary to enable them to appropriately apply theories of learning in instructional settings.

Hours 60  
Credits 4

EDPS 70000 - Educational Psychology Proseminar

This proseminar consists of workshops, discussions and presentations on topics orienting students to the field of educational psychology and introducing them to the research interests of faculty members.

Credits : none

Concentration Area Courses

Students are required to select 8 credits in their concentration area.

Concentration I: General Educational Psychology

EDPS 71100 - EDPS Metacognitive and Cognitive Processes in Education
This course provides students with an overview of major research on metacognitive and cognitive processes in learning and instruction. Focuses will be on major theories and research as well as metacognitive and cognitive processes and strategy applications in the areas of mathematical learning, text comprehension, science, and writing.

**prereq: EDPS 70200**  
**coreq: EDPS 70300**  
**Hours 60**  
**Credits 4**

**EDPS 71200 - Multicultural Issues in Learning and Instruction**

This course will examine the current research in K-12 education to explore the role of multicultural issues in teaching and learning.

**prereq or coreq: EDPS 70200**  
**Hours 60**  
**Credits 4**

**EDPS 71300 - Cognition and Educational Technology**

This course covers research about the influence of educational technology on the development of thinking and learning.

**prereq: EDPS 70300**  
**Hours 60**  
**Credits 4**

Or

**Concentration II: Assessment, Research, and Evaluation**

**EDPS 72100 - Statistics and Statistical Computing in Education II**

This course builds on knowledge of basic statistics, focusing on multiple regression and factorial ANOVA for statistical analysis of continuous and categorical independent variables. Diagnosis and treatment of data analytic problems such as missing data are discussed.

**prereq: EDPS 70100, EDPS 70200**  
**Hours 60**  
**Credits 4**

**EDPS 72200 - Tests and Measurement**
This course covers the following topics: classical test theory, tests construction, reliability estimation and generalizability theory, validation, item analysis, test bias, and introduction to item response theory, and the use of high-stakes testing in educational policy.

prereq: EDPS 70100, EDPS 70200
Hours 60
Credits 4

EDPS 72300 - Educational Program Evaluation

This course is designed to provide students with an overview of key concepts, theories, and methodologies utilized in the field educational evaluation.

Hours 60
Credits 4

Elective Courses in Educational Psychology

Students select 8 additional credits either from a concentration area or from the following electives:

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

prereq: CEDF 70900
Hours includes 5 hrs of field work

or

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.
**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork, 2 cr*

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels, 3 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500*

*coreq:*

*Hours 30 hrs, plus lab, 2 cr*

**CEDF 71600 - Assessment of Teaching and Learning**

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

CEDF 79200

*or*

**ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2**

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000*
COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

EDPS 74100 - Mediating Factors in Student Achievement

This course will examine the current research in K-12 education in an effort to explore several of the more widely identified mediating factors that directly impact upon student achievement.

prereq: EDPS 70300

EDPS 74200 - Special Topics in Educational Research Methods

This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300

EDPS 74300 - Special Topics in Educational Psychology

This course will examine current research regarding a selected topic within the field of educational psychology; topics and readings will vary by semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300
EDPS 74900 - Independent Study in Educational Psychology

Permission of faculty adviser and chairperson required. Independent study in the area of educational psychology. A maximum of 4 credits of independent study may be counted toward the degree.

Credits 1 - 4

Culminating Courses

As a culminating experience, students elect either a thesis or a non-thesis option.

Students electing Thesis Research (EDPS 79501) and (EDPS 79502) will prepare a report of a research investigation in which they design and execute an empirical study under the supervision of a faculty advisor. Students electing the non-thesis option will enroll in a seminar course (EDPS 79000) in which they prepare a scholarly publishable-quality review of the research literature on a topic approved by the faculty.

EDPS 79000 - Educational Psychology Seminar

This course provides an opportunity for students to prepare an original scholarly review of research literature or theoretical paper of publishable quality on an educational psychological topic of interest. The general goal of the course is to enable students to apply their knowledge of educational psychological issues and research through the development of a scholarly research paper.

prereq: students must have completed a minimum of 24 credits
Hours 60
Credits 4
or

EDPS 79501 - Educational Psychology Thesis Research 1

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: students must have completed a minimum of 24 credits
Hours 30
Credits 2

and

EDPS 79502 - Educational Psychology Thesis Research 2

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.
prereq: students must have completed a minimum of 24 credits

Hours 30
Credits 2

Exit Standards

1. An overall GPA of 3.0.
2. Completion of all required courses (32 credits).
3. Completion of Culminating Experience.
4. Students must pass the School of Education technology assessment.

Literacy Programs

Master of Science in Education - MSEd

Literacy Education: Birth - Grade 6 - MSEd

Program Coordinator Yang Hu; 901 West Building; (212) 772-4753; yang.hu@hunter.cuny.edu

This is a 31-37 credit program that prepares teachers with NYS initial, professional, or permanent certification to meet New York State requirements for permanent certification as a teacher of literacy-birth through grade 6. The program has been nationally recognized by the International Reading Association (IRA).

Admission Requirements

1. Undergraduate degree with a GPA of at least 2.8.
2. New York State initial, professional, or permanent teacher certification in early childhood education, childhood education, elementary education, TESOL or special education.
3. Submission of a letter of recommendation from a supervisor as one of the two letters of recommendation to be included in the graduate application.
4. Completion of a satisfactory on-site writing sample after the application is reviewed.
5. Completion of a satisfactory interview.

Progress Standards

1. Master’s candidates must maintain a GPA of a minimum of 3.0 on all courses taken in the literacy master’s program.
2. Master’s candidates with any course grades below B- in literacy courses EDLIT 736, EDLIT 737, EDLIT 742 and EDLIT 740 will not be allowed to continue in the program.

3. Master’s candidates with a grade of Incomplete in any course will be restricted from registering for more than one course.

4. Master’s candidates with two or more grades of Incomplete are prohibited from registering for more than one course. Those with two or more grades of Incomplete are prohibited from registering for any more courses until the Incomplete grades are removed.

*Note: It is recommended that students with two or more INs take an official leave of absence.*

**Literacy Education: Birth through Grade 6 Course of Study**

**Total Credits: 31-37 credits**

**ECC 70400 - Language and Literacy: Birth through Grade 2**

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

*prereq or coreq: ECF 70000
Hours 45 hrs,
Credits 3 cr*

**EDLIT 73200 - Children’s Literature**

Exposure to the breadth, depth, and utilization of children’s literature and its role in children’s development, appreciating diversity and fostering a lifelong interest in reading. Sensitive issues (health, abuses, addictions), technology and management issues are examined.

*Hours Includes 5 hrs in a classroom-based dramatic demonstration
Credits 3 cr*

**EDLIT 73300 - Theories and Process of Teaching Writing: Pre-K–Grade 6**

Development and assessment of writing skills including analysis of techniques and environments that foster writing development in all children (ESL, gifted, special needs). State writing standards and technology are integrated.

*Hours Includes 15 hours in the field observing and analyzing writing development
Credits 3 cr*

**EDLIT 73500 - Survey of Instructional Approaches for Language and Literacy Development: Grades K-12**

Critically examine instructional approaches appropriate for language and literacy development in literacy education
informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

Hours Includes 5 hours fieldwork
Credits 3 cr

EDLIT 73000 - Language, Literacy and Culture, Grades 1-12

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners' needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500
Hours includes 10 hrs in the field analyzing language use of ESL learners
Credits 3 cr

EDLIT 73100 - Literacy Assessment: Birth–Grade 6

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instructional planning and meeting NYS English Language Arts performance standards.

prereq or coreq: ECC 70400 and EDLIT 73500
Hours Includes 15 hrs in the field assessing diverse learners 45 hrs,
Credits 3 cr

EDLIT 73400 - Literacies within the Disciplines: K–Grade 6

Exploration into the literacy demands inherent in the academic subjects of math, science, health education and social studies, as well as media, technology and the arts.

prereq or coreq: ECC 70400 and EDLIT 73500
Hours Includes 10 hrs in a classroom focused on older learners (grades 3-6) and content area literacy
Credits 3 cr

EDLIT 73600 - Diagnosis of Reading Difficulties

A study of factors related to students who are experiencing difficulty acquiring literacy. Procedures for diagnosing reading achievement and related language skills.

prereq: EDLIT 73100
EDLIT 73700 - Practicum in Remedial Reading

Theoretical consideration and procedures in the instruction of students with reading difficulties.

prereq: EDLIT 73600

EDLIT 73800 - Literacy Programs: Organization and Resources

Seminar of a survey of literacy programs in diverse settings utilizing a range of techniques and organizational approaches in the literacy instruction of students, with and without discernible reading difficulties.

prereq: EDLIT 73100 (for Birth-Grade 6 students only)

EDLIT 73901 - Delays in Early Language and Literacy Development in Young Children with Special Needs

Historical, theoretical, and research-based teaching practice issues related to literacy and language instruction for children with special needs, ages birth through second grade.

coreq: ECC 70400

EDLIT 73902 - Special Needs Issues in Literacies within the Curriculum

Adaptation, modification and management of instruction, curriculum, the learning environment, materials and technology across the curriculum for children with special learning needs.

prereq: EDLIT 73901

EDLIT 73903 - Adaptations and Modifications in Approaches to Literacy for Students with Special Needs

Adaptation and modification of instructional strategies, technology and curriculum in literacy for full inclusion of children with disabilities.

prereq: EDLIT 73902
EDLIT 74000 - Leadership in Literacy

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master’s in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

prereq: minimum of 27 cr. in the literacy program

EDLIT 74200 - Practicum in Literacy

Fifty-hour college-supervised practicum divided into two 25-hour placements; one at early childhood level and one at the childhood level.

prereq: 15 credit hours in the literacy master’s program

Exit Standards

1. Overall GPA of 3.0 or better.
2. An "achieved the standard" rating, or better, on the Professional Teaching Portfolio during final presentation to the Master's in Literacy Portfolio Review Committee.
3. A grade of B or better in literacy courses EDLIT 736, EDLIT 737, EDLIT 742, and EDLIT 740.
4. Students must pass the School of Education technology assessment.

Literacy Education: Grades 5-12 - MSED

Program Coordinator Yang Hu; 901 West Building; (212) 772-4753; yang.hu@hunter.cuny.edu

This is a 27-30 credit program that prepares teachers with NYS initial, professional, or permanent certification to meet New York State requirements for certification as a teacher of adolescent literacy. The program has been nationally recognized by the International Reading Association (IRA).

Admission Requirements
1. A cumulative undergraduate GPA of at least 2.8 from an accredited bachelor's degree program or a GPA of at least 3.5 from a master's program.

2. New York State initial, professional, or permanent teacher certification as a middle childhood (5-9) or adolescent (7-12) content teacher.

3. Satisfactory communication skills, as demonstrated through an oral interview and an on-site writing sample, after the application is reviewed.

4. Submission of a letter of recommendation from a supervisor to be included in the application as one of two required recommendations.

Progress Standards

1. Master's candidates must maintain an overall GPA of at least 3.0.

2. Master's candidates with more than one course grade below B- in literacy courses will not be allowed to continue in the program.

3. Master's candidates with a grade of Incomplete in any course will be restricted from registering for more than one course. Those with two or more grades of Incomplete are prohibited from registering for any courses. 

   Note: It is recommended that students with two or more IN's take an official leave of absence.

Literacy Education: Adolescent Grades 5-12 Course of Study

Total Credits: 27-30 credits

Content Core (15 Credits)

EDLIT 73000 - Language, Literacy and Culture, Grades 1-12

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners’ needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

_prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500
_Hours includes 10 hrs in the field analyzing language use of ESL learners
_Credits 3 cr

SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society
Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

*prereq or coreq: SEDF 70400*
*Hours 45 hrs,*
*Credits 3 cr*

**EDLIT 75300 - Methods of Teaching Writing: Grades 5-12**

Development and assessment of writing skills and methods for teaching writing including analysis of techniques and environments that foster writing development, and writing across the disciplines, in all students at middle childhood and adolescent levels (ELL, gifted, special needs). State writing standards and technology are integrated.

*Hours includes 15 hours fieldwork*
*Credits 3*

**EDLIT 75400 - Literacies within the Disciplines: Grades 5-12**

Exploration into the literacy demands and challenges inherent in the academic subjects of math, science, history and social studies, as well as media, health, technology and the arts.

*Hours includes 10 hours in classrooms focused on literacies within the disciplines*
*Credits 3*

**EDLIT 73500 - Survey of Instructional Approaches for Language and Literacy Development: Grades K-12**

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

*Hours Includes 5 hours fieldwork*
*Credits 3 cr*

**Intervention Core (9 Credits)**

**EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12**

Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing
difficulties. Assessment and intervention strategies, adapatation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

Hours includes 15 hours fieldwork
Credits 3

EDLIT 75600 - Literacy Assessment: Grades 5-12

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instruction planning and meeting NYS English Language Arts performance standards.

prereq: 9 credits in the content core
Hours includes 15 hours in the field assessing diverse learners

EDLIT 75700 - Practicum in Literacy Assessment and Intervention: Grades 5-12

A study of factors related to middle and high school students who are experiencing difficulty acquiring literacy. Implement, design and use a variety of procedures for diagnosing reading achievement and related language skills. Use assessment data to plan and implement intervention activities for students with literacy difficulties.

prereq: EDLIT 75600
Hours includes 25 hours of supervised assessment and intervention sessions with individual middle school students on-site at Hunter College Literacy Space and 25 hours of supervised assessment/intervention sessions off site with high school students
Credits 3

Leadership Core (6 Credits)

EDLIT 73800 - Literacy Programs: Organization and Resources

Seminar of a survey of literacy programs in diverse settings utilizing a range of techniques and organizational approaches in the literacy instruction of students, with and without discernible reading difficulties.

prereq: EDLIT 73100 (for Birth-Grade 6 students only)
Hours Includes 15 hours of survey for the enhancement of literacy programs
Credits 3 cr

EDLIT 74000 - Leadership in Literacy

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master’s in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.
prereq: minimum of 27 cr. in the literacy program  
Hours 45 hrs,  
Credits 3 cr

Students may be exempted from up to 3 credits based on prior equivalent coursework.

Exit Standards

1. An overall GPA of 3.0.
2. A grade of B or better in EDLIT 740, in which a culminating project is completed.
3. A grade of B or better in EDLIT 756.
4. An "achieved the standard" rating, or better, on the Professional Teaching Portfolio during final presentation to the Master's in Literacy Portfolio Review Committee.
5. Students must pass the School of Education technology assessment.

Music

Master of Arts - MA

Music Education: Pre-K-12 – MA

Education Adviser Carla Asher; (212) 772-4621; 1000 West Building; carla.asher@hunter.cuny.edu

Music Department Adviser Victor Bobetsky; (212) 650-3574; 400A North Building; victor.bobetsky@hunter.cuny.edu

The MA program in the teaching of Music is designed for students who have majored in music on the undergraduate level and want to pursue a teaching career in K-12 education. This program is not for individuals with initial, professional, or permanent certification in Music. The Teacher Education Program in Music does not offer an advanced certificate.

Admission Requirements

Applicants must be admitted by both the School of Education and the Music Department.

1. A bachelor’s degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8.
2. A major in music (with a minimum of 24 credits) or the equivalent. See the Music department section of the Hunter College catalog for additional requirements.

3. A general education core in the liberal arts and sciences to include the following (in addition to music): 6 credits in English, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement), 6 credits in social studies (with at least one course in U.S. history or U.S. geography), and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).

4. Two professional references to be included with the application for admission.

5. A personal statement to be completed as part of the application for admission.

6. An audition and interview.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

5. All students must take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the school's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmarks

All field experiences and student teaching will take place in New York City public schools.

Any student who receives a grade of B-, C+ or C in a field experience or student teaching course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F may not reregister and will not be allowed to continue in the program.

Music Education Course of Study

Education Courses (20-21)

SEDF 70300 - Social Foundations of Adolescent Education
Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq: SEDC 71000
Hours 30 hrs, plus lab,
Credits 2 cr*

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
Credits 3 cr*

**MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12**

Organization and administration of school instrumental programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques, including a review of principles of performance
for strings, woodwinds, brass, and percussion; classroom management strategies; supervised fieldwork in applying these topics.

_prereq or coreq: SEDF 70400_

_Hours 45 hrs plus 18 hrs of fieldwork_

_Credits 2_

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

_Hours 15 hrs,
_Credits 1 cr_

**MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12**

Organization and administration of school vocal programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques; an overview of technology, content, and materials of the nonperforming general music curriculum; classroom management strategies; supervised fieldwork in applying these topics.

_prereq: MUSED 67700_

_prereq or coreq: SEDF 70500_

_Hours 45 hrs plus 18 hrs fieldwork.
_Credits 2_

**Take either**

**SEDC 75600 - Student Teaching in Music, Pre-K–12**

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 and 30 days at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

_prereq: MUSED 67800_

_Hours 30 hrs, 60 days student teaching plus workshops and conferences,
_Credits 5 cr_

-or-

**SEDC 77610 - Practicum in Music, Grades Pre-K–6**
Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77620.

\textit{prereq: MUSED 67800}
\textit{Hours} 30 hrs plus conferences,
\textit{Credits} 2 cr

plus

\textbf{SEDC 77620 - Practicum in Music, Grades 7–12}

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77610.

\textit{prereq: MUSED 67800}
\textit{Hours} 30 hrs plus conferences,
\textit{Credits} 2 cr

\textbf{Music Department Courses (16-21 credits)}

\textbf{MUS 64100 - Strings}

Teaching fundamentals of string playing (violin, viola, cello, and double bass) in context of solo, orchestral and chamber music; thorough review of basic string technique.

\textit{Hours} 225
\textit{Credits} 1

\textbf{MUS 64300 - Woodwinds}

Teaching fundamental techniques of playing a number of woodwind instruments: breathing, tone production and fingering; acoustical principles of woodwinds; thorough review of woodwind technique; basic pedagogical methods.

\textit{Hours} 225
\textit{Credits} 1

\textbf{MUS 64500 - Brass}

Teaching fundamental techniques of playing a number of brass instruments: breathing, tone production, fingerings and slide positions; acoustical principles of brasses; thorough review of brass technique; basic pedagogical methods.

\textit{Hours} 225
\textit{Credits} 1

\textbf{MUS 64700 - Percussion Skills}
The teaching of fundamental techniques of playing percussion instruments: rudiments, stick control, coordination of hands and feet, syncopation, ensemble playing; acoustical principles of percussion; thorough review of percussion technique; basic pedagogical methods.

**MUS 64900 - Piano Skills for Music Teachers**

Introduction to piano skills including scales, chord progressions, keyboard harmony and sightreading. The activities and materials used will reflect the needs of music education students.

**MUS 65100 - Conducting**

The teaching of technique and proficiency in basic conducting skills including conducting patterns, baton technique, expressive gestures, score study, and philosophical and psychological approaches to ensemble management.

**MUS 72400 - Advanced Studies in Music Theory 1**

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

*prereq: 4 sem. of undergraduate music theory courses
Hours 45 hrs,
Credits 3 cr*

**MUS 75100 - Advanced Studies in Music History 1**

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

*Hours 45
Credits 3*

**MUS 75200 - Advanced Studies in Music History 2**

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

*Hours 45
Credits 3*

**MUS 77900 - World Music Education**

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

*Hours 45
Credits 3*

Music electives: Courses chosen in consultation with graduate adviser
Students who have studied these subjects at the undergraduate level may be exempted from these requirements.

Please note that students admitted to the program must take a proficiency examination during the first two semesters of matriculation in order to remain in the program. This examination will test competence in music theory, music history and literature and applied skills. Deficiencies revealed by the proficiency examination must be made up by studying the relevant subject matter and passing a reexamination. The proficiency examination requirement must be fulfilled before a student may proceed beyond 18 credits.

Culminating Experiences

Professional teaching portfolio School of Education

Total credits: 38-43 credits

Exit Standards

An overall GPA of 3.0

Students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to complete a major research-based project, include artifacts that reflect the theme of that research, and connect all components through critical reflection. Teacher candidates must show progress toward the completion of the portfolio through regular review by their advisers. Students will arrange for a presentation and final review of their work during the last semester in the program. A performance assessment checklist and rating scale will assess the quality of the culminating experiences (portfolio and reflective presentation).

A project involving research is required of each student in the teacher education program. On completion of the courses of study and after approval of the project by the Graduate Faculty Committee, a candidate will be examined orally on the topic of the project and related issues. Students may register for 1 credit of independent study (MUS 791) if they wish to receive credit toward the MA degree for work done in fulfilling the TEP Project.

Students must pass the School of Education technology assessment.

Special Education Programs

Advanced Certificate

Applied Behavior Analysis - Advanced Certificate
This 15-credit program provides intensive training in Applied Behavior Analysis to professionals working with children, youth, and adults on the autism spectrum as well as to the supervisors and administrators of the programs in which they work. This program is designed to prepare professionals to implement Applied Behavior Analytic intervention for individuals with autism spectrum disorders. In addition, students who complete the Advanced Certificate will have the graduate training necessary to sit for the international Board Certified Behavior Analyst® exam.

Admission Requirements

1. A master's degree in education, psychology, social work, counseling, speech-language pathology, nursing or related field.

2. Completed a graduate level course in autism spectrum disorders. Applicants who have not completed such a course will be conditioned in SPEDE 77100, Autism Spectrum Disorders, and must complete that course during their first semester in the program.

3. On-site interview will be required.

Advanced Certificate in Applied Behavior Analysis Course of Study

Total Credits: 15 credits

EDABA 79500 - Applied Behavior Analysis I

The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

Prereq or coreq: SPEDE 77100
Hours 45
Credits 3

EDABA 79600 - Applied Behavior Analysis II

This course examines specific behavior analysis methods and applications including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.

Prereq: EDABA 79500
Hours 45
Credits 3

EDABA 79800 - Behavior Analytic Approaches to Learning
This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

*Hours 45  
*Credits 3

**EDABA 79700 - Applied Behavior Analysis Research Methods and Ethics**

This course is an introduction to research methods used in applied behavior analysis. Topics include the development of research questions, measurement of behavior, single-subject experimental design, data collection, and data analysis. In addition, this course covers ethics and professional behavior for applied behavior analysts as they relate to research and practice.

*Hours 45  
*Credits 3

**EDABA 79900 - Applied Behavior Analytic Autism Intervention**

This course examines applied behavior analytic intervention for individuals with autism. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive environments.

*prereq: EDABA 79500 or EDABA 79800  
*Hours 45  
*Credits 3

**Progress Standards/Exit Standards**

No course grade below B.

**Blind and Visually Impaired: Orientation and Mobility - Advanced Certificate**

**Blind and Visually Impaired Program Coordinator:** Rosanne K. Silberman; 911 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu, Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

The 18 credit advanced certificate in orientation and mobility is designed to prepare rehabilitation teachers who have master’s degrees and academy certification and/or teachers of the blind and visually impaired who have New York State certification to serve as orientation and mobility specialists in educational programs for infants, toddlers, children and youths, and adults who are blind and visually impaired, including those with multiples disabilities. The focus is on the development of specialized knowledge and skills through course work and internship experiences in the field of
blindness and visual impairment. Graduates of this program will be eligible to obtain national certification from the academy for certification of vision rehabilitation and education professionals as orientation and mobility specialists.

Admissions Standards

1. Undergraduate BA or BS degree from an accredited institution, with a GPA 2.8 or better, plus teacher of the blind and visually impaired teaching certificate.

OR

2. Master’s degree from an approved college in rehabilitation teaching or teacher of the blind and visually impaired with a GPA of 3.5 or better,

2. Evidence of acceptable written languages skills,

3. Three letters of recommendation,

4. Evidence of work, volunteer or personal experience with individuals with visual impairments,

5. An interview with a special education faculty member.

Progress Standards

1. Students must maintain an overall GPA of at least 3.0 in order to continue the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

NOTE: It is recommended that students with two or more INs take an official leave of absence.

Orientation and Mobility Course of Study

Total Credits: 18 credits

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

Hours 45 hrs,
Credits 3 cr

SPED 74900 - Orientation and Mobility for Students with Visual Impairments and Additional Disabilities
An advanced orientation and mobility course on specialized instructional strategies that address the special travel difficulties of learners (infants to older adults) who are blind or visually impaired with additional disabilities. Topics include deafness, deafblindness, multiple impairments, motoric, cognitive and affective impairments. This course also addresses instructional strategies for persons in unique living situations or environments.

*Hours includes 10 hrs field experience, 45 hrs,  
Credits 3 cr*  

**SPED 76500 - Intermediate Orientation and Mobility**

Theories related to perception, learning and development of individuals who are blind or visually impaired, and/or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

*prereq or coreq: SPED 76800  
Hours includes 50 hrs of lab plus 15 hrs field experience  
Credits 3 cr*  

**SPED 76600 - Advanced Orientation and Mobility**

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

*prereq or coreq: SPED 76500, 76800  
Hours includes 50 hrs of lab plus 15 hrs field experience  
Credits 3 cr*  

**SPED 76700 - Orientation and Mobility: Internship/Seminar**

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

*prereq or coreq: SPED 76500, 76600, 76800, 76900  
Hours 30 hrs seminar, plus conferences plus 340 hours of internship,  
Credits 2 cr*  

**SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar**

This course teaches assessment of the systems of mobility used by persons who are visually impaired and develops
competencies in teaching indoor travel techniques used by persons with visual impairments. Two week summer course.

prereq or coreq: permission of adviser
Credits 2 cr
Two week summer course.

**SPED 76900 - Advanced Orientation and Mobility Lab and Seminar**

This course demonstrates practical application of Orientation and Mobility instructional techniques as they are applied in outdoor settings under blindfold and with low vision simulators. Content related to instructional strategies will be provided during the in-class seminar. Two week summer course.

prereq or coreq: SPED 76500, 76600, 76800
Credits 2
Two week summer course.

**Exit Standards**

1. Students must attain an overall GPA at least 3.0 to be recommended for the certificate.
2. Students must demonstrate consistently satisfactory written English in all coursework.

**Blind and Visually Impaired: Teacher of the Blind and Visually Impaired - Advanced Certificate**

**Blind and Visually Impaired Program Coordinator:** Rosanne K. Silberman; 911 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu, Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

The 22-credit advanced certificate in teacher of the blind and visually impaired is designed to prepare special education teachers who have master's degrees and New York State Certification in special education to serve as teachers of the blind and visually impaired in educational programs for infants, toddlers, children and youths, including those with multiple disabilities. The focus is on the development of specialized knowledge and skills through course work and practicum experiences in the field of blindness and visual impairment. Graduates of this program will be eligible for New York State Certification as teacher of the blind and visually impaired.

**Admission Requirements**

1. Master's degree from an approved teacher preparation college in special education with a GPA of 3.5 or better.
2. Teaching certificate in students with disabilities or special education.
3. Evidence of acceptable writing skills.
4. Three letters of recommendation.

5. Evidence of work, volunteer, or personal experience with individuals with visual impairments.

6. An interview with a special education faculty member.

**Progress Standards**

1. Students must maintain an overall GPA of at least 3.0 in order to continue the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

*Note: It is recommended that students with two or more INs take an official leave of absence to complete their INs.*

**Teacher of the Blind and Visually Impaired Course of Study**

**Total Credits: 22 credits**

**SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments**

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

*prereq or coreq: SPED 70000
Hours includes 10 hrs of field experience
Credits 3 cr*

**SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments**

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

*prereq or coreq: SPED 74000
Hours Includes 10 hrs of field experience*
SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 15 hrs of field experience

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 10 hrs of field experience

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq: SPED 74300
Hours 45 hrs,
Credits 3 cr

SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

prereq or coreq: SPED 74000, 74100, 74200, 74300
Hours 15 hrs,
Credits 1 cr

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments
The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

**prereq or coreq:** SPED 74000, 74100  
*Hours includes 10 hrs of filed experience*  
*Credits 3 cr*

**SPED 71451 - Topics in Special Education: ITI Practicum in Visual Impairment**

*Credits 1 cr*

And one of the following

**SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

**prereq or coreq:** SPED 74000, SPED 74100  
*Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,*  
*Credits 2 cr*

**SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

**prereq or coreq:** SPED 74000, SPED 74100  
*Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,*  
*Credits 2 cr*

**SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field
placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all coursework.
3. Students must pass the School of Education technology assessment.

Gifted Education Extension - Advanced Certificate

Gifted Education Program Coordinator:
Razel Solow; 909 West Building; (212) 650-3599; rsolow@hunter.cuny.edu

This is a 12-credit course of study for students who already have NYS teacher certification or who are in the process of completing such certification. It is designed to provide educators with a solid background of expertise in gifted education, enabling them to work effectively with exceptionally capable learners and to take leadership roles in the field. Achievement of specialized expertise in gifted education will be recognized by a post-master's degree certificate.

Admission Requirements

1. NYS teacher certification and at least 15 credits of graduate study in education for a specific school population, with at least one course in human development (including child or adolescent development).
2. A GPA of at least 3.5 in graduate courses.
3. Two letters of recommendation from appropriate professional or academic sources.
Extension in Gifted Education Course of Study

Total Credits: 12 credits

SPED 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

Cross-listed (Cross-listed with CEDF 75300.)
Hours 45 hrs includes 10 hrs field experience
Credits 3 cr

SPED 75400 - Differentiating Curriculum for Gifted and Talented Learners

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the full time gifted school.

Cross-listed (Cross-listed with CEDF 75400.)
Hours Includes 10 hrs field experience
Credits 3

SPED 75500 - Assessment and Instruction for Diversely Gifted Learners

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

Cross-listed (Cross-listed with CEDC 755.)
prereq or coreq: SPED 75300 and SPED 75400
Hours Includes 20 hrs field experience

SPED 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed ADSUP 75600, CEDC 75600, CEDF 75600
prereq or coreq: SPED 75300 and SPED 75400

Hours Includes 10 hrs field experience

Progress Standards/Exit Standards

No course grade below B.

Master of Science in Education - MSEd

Advanced Preparation in Special Education - MSEd

This is a 30-credit program leading to a master's degree in Special Education: Advanced Preparation in Special Education as well as NYS Professional Certification in Childhood Special Education or Early Childhood Special Education. The program offers three tracks, each designed for teachers certified in special education who are seeking advanced preparation related to Special Education: Learning Disabilities (LD), Behavior Disorders (BD) or Early Childhood Special Education. The program is designed for those with initial NYS teacher certification in special education who are in need of graduate work leading to a master's degree and Professional Certification in Childhood Special Education or Early Childhood Special Education. It is also designed for those who hold NYS teacher certification in Special Education and a master's degree (e.g., those with permanent or professional certification at any age-level of special education) who are seeking to further their knowledge/skills, gain additional graduate credits, and, at the same time, add an extension, annotation, or additional age-level certificate.

The purpose of this program is to provide an advanced master's program that encourages practicing teachers to continue their professional development via individually tailored and highly practical graduate preparation focused on effective practices and specially designed instruction in Special Education.

Admission Requirements

1. New York State initial or professional teacher certification in Students with Disabilities grades 1-6 or birth to grade 2 or New York State permanent certification in special education, K-12.

2. An undergraduate BA or BS degree with a GPA of 2.8 or higher from an approved college or a graduate degree in special education (any age-level) with a GPA of 3.5 or higher.

3. Two professional references to be included with the application for admission.

4. A personal statement to be included as part of the application for admission.

Progress Standards

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. It is recommended that students with two or more INs take an official leave of absence while they are completing their IN courses.

Advanced Preparation in Special Education Course of Study

Total Credits: 30 credits

Learning Disabilities (Track 1)

16-Credit Core of Courses

**SPED 78151 - Reading and Writing for Students with Learning Disabilities:**

Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

*Hours 45*

*Credits 3*

**SPED 78251 - Supervised Clinical Teaching of Students with Learning Disabilities:**

Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use. Advanced students must complete individually-tailored assignments.

*Hours 15 hrs seminar, plus 20 hrs lab*

*Credits 2*

**SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities:**

Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.
SPED 78451 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use. Advanced students must complete individually-tailored assignments.

Hours 15 hrs seminar, plus 20 hrs lab
Credits 2

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45
Credits 3

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45
Credits 3

Plus

14 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly in mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Representative of the spectrum of choices, but not an exhaustive list of the elective options.
Behavior Disorders (Track 2)

Total Credits: 30 credits

18-credit Core of Courses

**SPED 75051 - The Study of Behavior Disorders**

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual’s behavior and customs. Advanced students must complete individually-tailored assignments.

*Hours 45*
*Credits 3*

**SPED 75151 - Methods and Materials for Teaching Students with Behavior Disorders**

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students. Advanced students must complete individually-tailored assignments.

*Hours 45*
*Credits 3*

**SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1**

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

*Hours 45*
*Credits 3*

**SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning,
memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45  
Credits 3

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45  
Credits 3

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45  
Credits 3

Plus

12 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly with mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Representative of the spectrum of choices, but not an exhaustive list of the elective options.

Early Childhood Special Education (Track 3)

Total Credits: 30 credits

17-Credit Core of Courses
SPEDE 77151 - Autistic Spectrum Disorders: Characteristics, Implications for Intervention, and Educational Strategies

Special learning and behavioral issues in educating infants/toddlers, preschoolers, and elementary age students with autism spectrum disorders; instructional strategies of particular value in working with children who have autism, PDD-NOS, and Asperger’s syndrome. Advanced students must complete individually-tailored assignments.

*Hours includes 5 hrs of field experience.*
*Credits 3*

SPEDE 77251 - Behavioral Theory and Its Applications to Young Children with Special Needs

The major tenets of behavioral theory; variations in approaches to applied behavior analysis; how to do and use functional behavioral analysis with young children who have special needs. Advanced students must complete individually-tailored assignments.

*Hours includes 5 hrs of field experience*
*Credits 3*

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

*Hours 45*
*Credits 3*

SPEDE 77951 - Practicum in Early Childhood Special Education

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. Advanced students must complete individually-tailored assignments.

*Hours 30 hrs seminar plus conferences*
*Credits 2*

Plus
SPEDE 77051 - Curriculum Models and Methods in Early Intervention and Early Childhood Special Education

Major approaches in early intervention and early childhood special education; instructional sequences and methods for use in different settings such as inclusion programs and the natural environment of the home; team and collaborative teaching models; the process of using assessment data to create IFSP and IEP goals and objectives and match them to teaching strategies; program evaluation. Advanced students must complete individually-tailored assignments.

*Hours includes 5 hrs field experience
*Credits 3

SPED 79251 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication. Advanced students must complete individually-tailored assignments.

*Hours includes 15 hrs of field experience
*Credits 3

Or

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

*Hours 45
*Credits 3

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning,
memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

*Hours 45*  
*Credits 3*

**Plus**

13 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly with mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Representative of the spectrum of choices, but not an exhaustive list of the elective options.

**Exit Standards**

1. An overall GPA of 3.0.

2. Students must demonstrate consistently satisfactory written English in all course work.

3. Student teaching, Supervised Practicum, and Clinical Teaching Lab:

   A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

   B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

4. Culminating Activity—Students must perform satisfactorily on a two-part culminating activity:

   A comprehensive research-based oral presentation on a current special education issue

   and either an original written research proposal or a written proposal for competitive grant funding.

5. Students must pass the School of Education technology assessment.

**Blind and Visually Impaired - MSEd**

**Blind and Visually Impaired Program Coordinator:** Rosanne K. Silberman; 911 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu, Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

**Admission Requirements**
Program 1

For applicants who do not hold New York State Certification

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better
   or
2. A graduate degree from an approved college with a GPA of 3.5 or better
   plus
3. General education core in liberal arts and sciences to include a minimum of 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 2

For applicants who hold early childhood, childhood, PreK-grade 6, middle school or adolescent education New York State teacher certification

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher
   or
2. A graduate degree from an approved college with a GPA of 3.5 or better
   plus
3. New York State initial, professional, or permanent teacher certification in early childhood, childhood, PreK-grade 6, middle school or adolescent education. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 715, a 1-credit course covering these topics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. Any student who receives an F will not be allowed to continue.

5. Program 1 students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the School’s reading/writing workshop before being permitted to register for any courses.

**B. Fieldwork Benchmark**

All field experiences and student teaching will take place in New York City public schools.

Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 782, SPED 784, CEDC 729; ECC 712; SPEDE 776 or SPEDE 767). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once.

**C. A student with two or more INs is prohibited from registering for any course.**

Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

**D. In order to enroll in student teaching or supervised practicum, all students must:**

- Have an overall GPA of at least 3.0
- Have no outstanding INs.
- Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 700, 701 or 791 and 702 or 702.50
- Have taken or be registered concurrently for one methods course (e.g., SPED 706, 706.50, 731, 741, 751, 781, 781.50)
- Students in early childhood special education must complete SPEDE 776 or 767.

**Blind and Visually Impaired Course of Study**

**Program 2**

**Total Credits: 40-41 credits**

**Cross-Categorical Core Courses (12 cr)**

**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours Includes 5 hours of field experience, 45 hrs.*

*Credits 3 cr*

**SPED 70250 - Classroom Management in Special Education and Inclusive Settings**
Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

**SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

**SPED 70700 - Research Seminar: Issues in Special Education**

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.

**Blind and Visually Impaired Specialization**

**SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments**

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.
SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000
Hours Includes 10 hrs of field experience

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000
Hours Includes 15 hrs of field experience

SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 15 hrs of field experience

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 10 hrs of field experience

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators,
refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

**prereq: SPED 74300**  
*Hours 45 hrs,*  
*Credits 3 cr*

**SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments**

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

**prereq or coreq: SPED 74000, 74100, 74200, 74300**  
*Hours 15 hrs,*  
*Credits 1 cr*

**SPED 74600 - Educational Implications of Learners Who Are Deafblind**

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

**prereq: SPED 70000, SPED 79000 or SPED 74100**  
*Hours Includes 10 hrs of field experience*

**SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments**

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

**prereq or coreq: SPED 74000, 74100**  
*Hours includes 10 hrs of filed experience*  
*Credits 3 cr*

Take either

**SPED 74800 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 12**
Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired at two grade levels that do not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, adapting sensory environments, selecting appropriate learning media, adapting curriculum through tactile graphics, developing IEPs, and forming partnerships with families.

_prereq or coreq: SPED 74000, SPED 74100_
_Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,_
_Credits 4 cr_

Or one of the following:

**SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

_prereq or coreq: SPED 74000, SPED 74100_
_Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,_
_Credits 2 cr_

**SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

_prereq or coreq: SPED 74000, SPED 74100_
_Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,_
_Credits 2 cr_

**SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

_prereq or coreq: SPED 74000, SPED 74100_
SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours 30 hrs seminar, plus conferences,
Credits 2 cr

Plus one of the following:

SPED 74854 - Student Teaching 2: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plan, writing functional vision assessment reports, selecting appropriate learning media, developing IEP’s, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours structured conferences, plus 20 days student teaching,
Credits 1

SPED 74855 - Student Teaching 2: Blindness and Visual Impairment, Grade 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP’s, forming partnership with families.

prereq or coreq: SPED 74000, SPED 74100

Hours Structured conferences, plus 20 days student teaching
Credits 1 cr

SPED 74856 - Supervised Practicum 2: Blind and Visual Impairment Preschool–Grade 6
Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placement. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEP’s, forming partnerships with families.

**prereq or coreq:** SPED 74000, SPED 74100  
**Hours** Structured conferences  
**Credits** 1 cr

**SPED 74857 - Supervised Practicum 2: Blind and Visual Impairment, Grades 7–12**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placement. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP’s, forming partnerships with families.

**prereq or coreq:** SPED 74000, SPED 74100  
**Hours** Structured conferences  
**Credits** 1 cr

**Additional Requirements for Program 1**

**Program 1**

**Total Credits: 47-60 credits**

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

**CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School**

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

**prereq or coreq:** CEDF 70900  
**Hours** 45 hrs,  
**Credits** 3 cr

**CEDF 70900 - Child Development Grades 1-9**

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.
CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

**prereq or coreq:** CEDF 70900 and CEDC 70450  
**Hours** 30 hrs,  
**Credits** 2 cr

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

**prereq or coreq:** CEDF 70900

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

**prereq or coreq:** CEDF 70900  
**Hours includes 10 hrs of fieldwork**

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

**prereq or coreq:** CEDF 70900  
**Hours includes 10 hrs of fieldwork**
CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: CEDF 70900, CEDC 70450 and 70550

Hours 15 hrs of seminar plus 50 hrs fieldwork,
Credits 1 cr

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Standards

1. An overall GPA of 3.0.

2. Students must demonstrate consistently satisfactory written English in all course work.

3. Student Teaching, Supervised Practicum, and Clinical Teaching Lab

   A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. No grade less than B is acceptable for these teaching skill courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

   B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

   a comprehensive research-based oral presentation on a current special education issue

   and either
   
   an original written research proposal

   or

   a written proposal for competitive grant funding.
5. Students must pass the School of Education technology assessment.

Childhood Special Education: Behavior Disorders - MSEd

**Behavior Disorders Program Coordinator:** Tom McIntyre; 914 West Building; (212) 772-4706; thomas.mcintyre@hunter.cuny.edu

Childhood Special Education: Admission Requirements

**Program 1**

For applicants who do not hold New York State Childhood or PreK-6 Certification.

**Admission Requirements**

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better

   or

   A graduate degree from an approved college with a GPA of 3.5 or better

   plus

2. A liberal arts or science major or interdisciplinary concentration of at least 30.

3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

**Program 2**

**Admission Requirements**

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher

   or

   A graduate degree from an approved college with a GPA of 3.5 or better
2. New York State initial or professional teacher certification in Childhood or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

Childhood Special Education: Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

5. Program 1 students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the School's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmark

- All field experiences and student teaching will take place in New York City public schools.

- Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 78200, SPED 78400, CEDC 72900; ECC 71200; SPEDE 77600 or SPEDE 76700). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once.

C. Students with a grade of F will not be allowed to continue.

D. In order to enroll in student teaching or supervised practicum all students must:

- Have an overall GPA of at least 3.0.
• Have no outstanding INs.

• Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, 70100 or 79100 and 70200 or 70250 and have taken or be registered concurrently for one methods course (e.g., SPED 70600, 70650, 73100, 74100, 75100, 78150).

Special Education: Exit Standards

1. An overall GPA of 3.0.

2. Students must demonstrate consistently satisfactory written English in all course work.

3. Student teaching, Supervised Practicum, and Clinical Teaching Lab:

   A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

   B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

4. Culminating Activity—Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education):

   A comprehensive research-based oral presentation on a current special education issue and either an original written research proposal or a written proposal for competitive grant funding.

5. Students must pass the School of Education technology assessment.

Childhood Special Education: Behavior Disorders Course of Study

Program 2: 36 Credits

Cross-Categorical Core Courses (20 cr)

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours Includes 5 hours of field experience, 45 hrs,  
Credits 3 cr*

SPED 70100 - Assessment of Students with Disabilities
The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

**prereq or coreq:** SPED 70000  
*Hours* Includes 10 hrs of field experience,  
*Credits* 3 cr

**SPED 70200 - Classroom Management in Special Education and Inclusive Settings**

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

**prereq or coreq:** SPED 70000  
*Hours* Includes 15 hrs of field experience, 45 hrs,  
*Credits* 3 cr

**SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders**

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

**prereq:** SPED 70000  
**coreq:** current employment as a teacher or enrollment in student teaching  
*Hours* Includes 10 hrs of field experience, 45 hrs,  
*Credits* 3 cr

**SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs**

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

**prereq or coreq:** SPED 70000  
*Hours* 15 hrs,  
*Credits* 1 cr

**SPED 70500 - Use of Instructional Technology in Special Education**

Computer lab course focused on both broadly based and specialized applications for supporting students with learning
disabilities, mild, moderate mental retardation, and behavioral disorders. Focus on select number of tools and their multiple uses. Also, overview of specialized computer curriculum software, web resources, and assistive technology for students with severe disabilities.

**prereq or coreq: SPED 70000**
*Hours 30 hrs lab,*
*Credits 1 cr*

**SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

**prereq or coreq: SPED 70000 or SPEDE 76800**
*Hours Includes 10 hours of field experience, 45 hrs,*
*Credits 3 cr*

**SPED 70700 - Research Seminar: Issues in Special Education**

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.

*Hours 45 hrs,*
*Credits 3 cr*

**Behavior Disorders Specialization (16 cr)**

**SPED 75000 - The Study of Behavior Disorders**

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual’s behavior and customs.

**prereq or coreq: SPED 70000**
*Hours Includes 20 hrs of field experience*

**SPED 75100 - Methods and Materials for Teaching Students with Behavior Disorders**

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral
areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students.

**prereq or coreq: SPED 75000**

*Hours* Includes 20 hrs of field experience  
*Credits* 3

**SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)**

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

**prereq or coreq: SPED 70000**

*Hours* Includes 10 hrs of field experience

**SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

**prereq or coreq: SPED 70000**

*Hours* 45 hrs,  
*Credits* 3 cr

**Plus Either:**

**SPED 75200 - Student Teaching: Behavior Disorders, Grades 1–3 and 4–6**

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instructions at grade levels 1–3 and 4–6. Factors influencing teaching and management outcomes such as family influences.

**prereq: SPED 75000**

**prereq or coreq: SPED 75100 or SPED 78150**

*Hours* 30 hrs seminar, plus conferences, plus 40 hours student teaching at two age levels,  
*Credits* 4 cr
Or two of the following (must include two different grade levels):

**SPED 75250 - Student Teaching: Behavior Disorders, Grades 1–3**

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes such as family influences.

*prereq: SPED 75000*
*prereq or coreq: SPED 75100 or SPED 78150*
*Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,*
*Credits 2 cr*

**SPED 75251 - Student Teaching: Behavior Disorders, Grades 4–6**

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

*prereq: SPED 75000*
*prereq or coreq: SPED 75100 or SPED 78150*
*Hours 30 hrs seminar, plus conferences, plus 20 days student teaching, *
*Credits 2 cr*

**SPED 75252 - Supervised Practicum: Behavior Disorders, Grades 1–3**

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

*prereq: SPED 75000*
*prereq or coreq: SPED 75100 or SPED 78150*
*Hours 30 hrs seminar, plus conferences, *
*Credits 2 cr*

**SPED 75253 - Supervised Practicum: Behavior Disorders, Grades 4–6**

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

*prereq: SPED 75000*
*prereq or coreq: SPED 75100 or SPED 78150*
Additional Course Requirements

Program 1: 43-55 Credits

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or the undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the
philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

**prereq or coreq: CEDF 70900**

**CEDC 70450 - Teaching Developmental Reading**

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

**prereq or coreq: CEDF 70900**

*Hours includes 10 hrs of fieldwork*

**CEDC 70550 - Mathematics Curriculum and Methods**

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

**prereq or coreq: CEDF 70900**

*Hours includes 10 hrs of fieldwork*

**CEDC 72900 - Fieldwork in Childhood Education for Special Educators**

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

**prereq: CEDF 70900, CEDC 70450 and 70550**

*Hours 15 hrs of seminar plus 50 hrs fieldwork, Credits 1 cr*

**HED 71500 - Health Education for Special Educators**

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

*Hours 15 hrs, Credits 1 cr*
Childhood Special Education: Admission Requirements

Program 1

For applicants who do not hold New York State Childhood or PreK-6 Certification.

Admission Requirements

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better

   or

   A graduate degree from an approved college with a GPA of 3.5 or better

   plus

2. A liberal arts or science major or interdisciplinary concentration of at least 30.

3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 2

Admission Requirements

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher

   or

   A graduate degree from an approved college with a GPA of 3.5 or better

   plus
2. New York State initial or professional teacher certification in Childhood or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

Childhood Special Education: Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

5. Program 1 students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the School's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmark

- All field experiences and student teaching will take place in New York City public schools.

- Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 78200, SPED 78400, CEDC 72900; ECC 71200; SPEDE 77600 or SPEDE 76700). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once.

C. Students with a grade of F will not be allowed to continue.

D. In order to enroll in student teaching or supervised practicum all students must:

- Have an overall GPA of at least 3.0.

- Have no outstanding INs.
• Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, 70100 or 79100 and 70200 or 70250 and have taken or be registered concurrently for one methods course (e.g., SPED 70600, 70650, 73100, 74100, 75100, 78150).

Special Education: Exit Standards

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student teaching, Supervised Practicum, and Clinical Teaching Lab:
   A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.
   B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.
4. Culminating Activity—Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education):
   A comprehensive research-based oral presentation on a current special education issue and either an original written research proposal or a written proposal for competitive grant funding.
5. Students must pass the School of Education technology assessment.

Learning Disabilities Course of Study

Program 2: 35-37 Credits

Cross-Categorical Core Courses (20 cr)

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours Includes 5 hours of field experience, 45 hrs.
Credits 3 cr

SPED 70100 - Assessment of Students with Disabilities
The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

**prereq or coreq:** SPED 70000  
*Hours* Includes 10 hrs of field experience,  
*Credits* 3 cr

**SPED 70200 - Classroom Management in Special Education and Inclusive Settings**

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

**prereq or coreq:** SPED 70000  
*Hours* Includes 15 hrs of field experience, 45 hrs,  
*Credits* 3 cr

**SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders**

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

**prereq:** SPED 70000  
**coreq:** current employment as a teacher or enrollment in student teaching  
*Hours* Includes 10 hrs of field experience, 45 hrs,  
*Credits* 3 cr

**SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs**

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

**prereq or coreq:** SPED 70000  
*Hours* 15 hrs,  
*Credits* 1 cr

**SPED 70500 - Use of Instructional Technology in Special Education**

Computer lab course focused on both broadly based and specialized applications for supporting students with learning
disabilities, mild, moderate mental retardation, and behavioral disorders. Focus on select number of tools and their multiple uses. Also, overview of specialized computer curriculum software, web resources, and assistive technology for students with severe disabilities.

**prereq or coreq: SPED 70000**  
*Hours 30 hrs lab,*  
*Credits 1 cr*

**SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

**prereq or coreq: SPED 70000 or SPEDE 76800**  
*Hours Includes 10 hours of field experience, 45 hrs,*  
*Credits 3 cr*

**SPED 70700 - Research Seminar: Issues in Special Education**

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.

*Hours 45 hrs,*  
*Credits 3 cr*

**Learning Disabilities Specialization (15-17 cr)**

**SPED 78000 - The Study of Learning Disabilities**

History of theory, practices and conceptualizations of learning disabilities and mild/moderate mental retardation. Current issues, controversies and research, offering frameworks for appropriate instruction. Includes student characteristics, LD as an approach to teaching, family and cultural needs, as well as services and settings from special schools to supported inclusion.

**prereq or coreq: SPED 70000**  
*Hours 45 hrs,*  
*Credits 3 cr*

**SPED 78100 - Reading and Writing for Students with Learning Disabilities: Methods 1**
Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

coreq: SPED 78200
prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience
Only in the fall semester(note: must take concurrently with SPED 78200 and must take SPED 78300/78400 in semester immediately following)

SPED 78200 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100
prereq or coreq: SPED 70000
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Fall only(note: must take concurrently with SPED 78100 and must take SPED 78300/78400 in semester immediately following)

SPED 78300 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 78100/78200
coreq: SPED 78400
Hours 45 hrs,
Credits 3 cr
Spring only(note: must take concurrently with SPED 78400 and have taken SPED 78100/78200 in preceding semester)

SPED 78400 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use
prereq: SPED 781/782
coreq: SPED 783

Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Spring only

Either:

**SPED 78500 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6**

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 782/784. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq or coreq: SPED 70000

Hours 30 hrs seminar, plus conferences, plus 40 days student teaching,
Credits 4 cr

Or:

**SPED 78550 - Supervised Practicum: Learning Disabilities, Grades 1–3 or 4–6**

Supervised practicum, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 782/784. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Includes IEP, families and communities.

prereq or coreq: SPED 70000

Hours 30 hrs seminar, plus conferences,
Credits 2 cr

Or both of the following:

**SPED 78551 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6**

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78552.

prereq or coreq: SPED 70000

Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,
Credits 2 cr

**SPED 78552 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6**
Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78551.

**prereq or coreq:** SPED 700  
*Hours* 30 hrs seminar, plus conferences, plus 20 days of student teaching.  
*Credits* 2 cr

### Additional Course Requirements

**Program 1: 42-56 Credits**

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

**CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School**

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

**prereq or coreq:** CEDF 70900  
*Hours* 45 hrs,  
*Credits* 3 cr

**CEDF 70900 - Child Development Grades 1-9**

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.  

*Hours includes 5 hrs of field work*

**CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology**

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illumine and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.  

**prereq or coreq:** CEDF 70900 and CEDC 70450
**CEDC 70350 - Teaching Science in the Elementary School**

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

*prereq or coreq: CEDF 70900*

**CEDC 70450 - Teaching Developmental Reading**

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

*prereq or coreq: CEDF 70900*

*Hours includes 10 hrs of fieldwork*

**CEDC 70550 - Mathematics Curriculum and Methods**

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

*prereq or coreq: CEDF 70900*

*Hours includes 10 hrs of fieldwork*

**CEDC 72900 - Fieldwork in Childhood Education for Special Educators**

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*prereq: CEDF 70900, CEDC 70450 and 70550*

*Hours 15 hrs of seminar plus 50 hrs fieldwork, Credits 1 cr*

**HED 71500 - Health Education for Special Educators**
This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

**Hours** 15 hrs,
**Credits** 1 cr

**Childhood Special Education: Severe/Multiple Disabilities (including Deafblindness) - MSEd**

**Severe/Multiple Disabilities (including Deafblindness) Program Coordinators:**
Rosanne K. Silberman; 916 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu
Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

**Childhood Special Education: Admission Requirements**

**Program 1**

For applicants who do not hold New York State Childhood or PreK-6 Certification.

**Admission Requirements**

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better

   or

   A graduate degree from an approved college with a GPA of 3.5 or better

   plus

2. A liberal arts or science major or interdisciplinary concentration of at least 30.

3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

**Program 2**

**Admission Requirements**
1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher
   or
   A graduate degree from an approved college with a GPA of 3.5 or better
   plus

2. New York State initial or professional teacher certification in Childhood or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

Childhood Special Education: Progress Standards

**A. 12-Credit Progress Standards for Matriculated Students**

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   *Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.*

5. Program 1 students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the School's reading/writing workshop before being permitted to register for any courses.

**B. Fieldwork Benchmark**

- All field experiences and student teaching will take place in New York City public schools.

- Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 78200, SPED 78400, CEDC 72900; ECC 71200; SPEDE 77600 or SPEDE 76700). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once.

**C. Students with a grade of F will not be allowed to continue.**
D. In order to enroll in student teaching or supervised practicum all students must:

- Have an overall GPA of at least 3.0.
- Have no outstanding INs.
- Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 70000, 70100 or 79100 and 70200 or 70250 and have taken or be registered concurrently for one methods course (e.g., SPED 70600, 70650, 73100, 74100, 75100, 78150).

Severe/Multiple Disabilities (Including Deafblindness) Course of Study

Program 2: 37 Credits

Cross-Categorical Core Courses (12 cr)

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours Includes 5 hours of field experience, 45 hrs,
*Credits 3 cr

SPED 70250 - Classroom Management in Special Education and Inclusive Settings

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

*prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100
*Hours Includes 20 hrs of field experience, 45 hrs,
*Credits 3 cr

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum
adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

**prereq or coreq:** SPED 70000 and SPED 79000 or SPED 74100
*Hours (includes 10 hours of field experience),
Credits 3 cr*

**SPED 70700 - Research Seminar: Issues in Special Education**

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.

*Hours 45 hrs,
Credits 3 cr*

**Severe/Multiple Disabilities (including Deafblindness) Specialization (25 cr)**

**SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities**

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

**prereq or coreq:** SPED 70000
*Hours 45 hrs,
Credits 3 cr*

**SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities**

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

**prereq or coreq:** SPED 70000, SPED 79000
*Hours Includes 15 hrs of field experience*

**SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness**

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities
including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours Includes 15 hrs of field experience

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000
Hours includes 10 hrs of field experience, 30 hrs
Credits 2 cr

SPED 79400 - Functional Language and Culture of Learners with Low Incidence Disabilities

This course emphasizes language strategies for English language learners (ELL), cultural/family values, home/school partnerships, teacher expectations and assumptions, classroom environments, learning materials. Students are expected to relate and adapt curriculum and ELL instructional strategies to learners with severe disabilities.

prereq: SPED 70600
HoursIncludes 5 hrs of field experience,
Credits 1 cr

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100
Hours Includes 10 hrs of field experience

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.
prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience

SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr

Either:

SPED 79500 - Student Teaching: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness in grades 1–3 and 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus 40 days of student teaching at two grade levels,
Credits 4 cr

Or two of the following (must include two different grade levels):

SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,
Credits 2 cr
SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus 20 days of student teaching,
Credits 2 cr

SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3

Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hours seminar, plus conferences,
Credits 2 cr

Additional Course Requirements

Program 1: 44-56 Credits

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).
CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3 cr

CEDF 70900 - Child Development Grades 1-9

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2 cr

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In
addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900  
*Hours includes 10 hrs of fieldwork*

**CEDC 70550 - Mathematics Curriculum and Methods**

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900  
*Hours includes 10 hrs of fieldwork*

**CEDC 72900 - Fieldwork in Childhood Education for Special Educators**

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq: CEDF 70900, CEDC 70450 and 70550  
*Hours 15 hrs of seminar plus 50 hrs fieldwork,  
Credits 1 cr*

**HED 71500 - Health Education for Special Educators**

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

*Hours 15 hrs,  
Credits 1 cr*

**Special Education: Exit Standards**

1. An overall GPA of 3.0.

2. Students must demonstrate consistently satisfactory written English in all course work.

3. Student teaching, Supervised Practicum, and Clinical Teaching Lab:
   A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching
lab courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

4. Culminating Activity—Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education):

A comprehensive research-based oral presentation on a current special education issue

and either an original written research proposal or a written proposal for competitive grant funding.

5. Students must pass the School of Education technology assessment.

Deaf and Hard-of-Hearing - MSEd

Deaf and Hard-of-Hearing Program Coordinator: Elaine Gale; 918 West Building; (212) 772-4702; egale@hunter.cuny.edu

Admission Requirements

Program 1

For applicants who do not hold New York State Certification

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better

or

A graduate degree from an approved college with a GPA of 3.5 or better

plus

2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.

3. General education core in liberal arts and sciences to include a minimum of 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 2
For applicants who hold early childhood, childhood, PreK-grade 6, middle school or adolescent education New York State teacher certification

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher

or

A graduate degree from an approved college with a GPA of 3.5 or better

plus

2. New York State initial, professional, or permanent teacher certification in early childhood, childhood, PreK-grade 6, middle school or adolescent education. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 715, a 1-credit course covering these topics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. Any student who receives an F will not be allowed to continue.

5. Program 1 students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST must enroll in the School's reading/writing workshop before being permitted to register for any courses.

B. Fieldwork Benchmark

All field experiences and student teaching will take place in New York City public schools.

Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 782, SPED 784, CEDC 729; ECC 712; SPEDE 776 or SPEDE 767). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once.

C. A student with two or more INs is prohibited from registering for any course.

Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

D. In order to enroll in student teaching or supervised practicum, all students must:

Have an overall GPA of at least 3.0
Have no outstanding INs.

Complete at least 15 SPED credits, including the pre-student teaching field assignments that are part of SPED 700, 701 or 791 and 702 or 702.50 Have taken or be registered concurrently for one methods course (e.g., SPED 706, 706.50, 731, 741, 751, 781, 781.50) Students in early childhood special education must complete SPEDE 776 or 767.

Deaf and Hard of Hearing Course of Study / Cross-Categorical Core Courses (12 cr)

Program 2

Total Credits: 33-39 credits

**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours Includes 5 hours of field experience, 45 hrs, Credits 3 cr*

**SPED 70100 - Assessment of Students with Disabilities**

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

*prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience, Credits 3 cr*

**SPED 70200 - Classroom Management in Special Education and Inclusive Settings**

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

*prereq or coreq: SPED 70000
Hours Includes 15 hrs of field experience, 45 hrs, Credits 3 cr*

**SPED 70700 - Research Seminar: Issues in Special Education**
Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.

*Hours 45 hrs,*
*Credits 3 cr*

**Specialization**

**21-27 credits*  

**SPED 72000 - American Sign Language I**

An intensive first course in American Sign Language (ASL), designed to establish a foundation of ASL communicative competence. Emphasizes ASL grammar, vocabulary, receptive and expressive skills, fingerspelling, numbers, and spatial and pronominal reference.

*prereq or coreq: SPED 70000  
Hours Includes 10 hrs of field experience, 90 hrs lab,  
Credits 3 cr*

**SPED 72100 - American Sign Language II**

This intensive course continues material covered in SPED 720. Emphasizes increased communicative competence in ASL, as well as grammar, vocabulary, and receptive and expressive skills.

*prereq: SPED 72000  
Hours Includes 10 hrs of field experience 90 hrs lab,  
Credits 3 cr*

**SPED 72200 - The Study of ASL Educational Linguistics**

Focus on the linguistic structure of ASL: phonology, morphology, syntax, pragmatics, and discourse rules. Traces acquisition of ASL during infancy, childhood and adolescent. Differences are highlighted between ASL and English linguistics, as well as the interaction between such structures and children’s learning. ASL is the instructional language used to teach this course.

*prereq: SPED 72100  
Hours 60 hrs lab,  
Credits 2 cr*

**SPED 73000 - Education of Students Who Are Deaf and Hard-of-Hearing**
History of theory, practice and conceptualizations in the education of students who are deaf and hard-of-hearing. The study of language acquisition (English and ASL), bilingualism, and learning English as a second language in hearing and deaf children. Linguistic understanding and analysis of the components of language proficiency. Educational settings, issues of inclusion, and use of technology.

*Hours Includes 10 hours of field experience 45 hrs,  
Credits 3 cr*

**SPED 73100 - Reading and Writing Development for Students Who Are Deaf and Hard-of-Hearing: Methods 1**

Theoretical and practical aspects of deaf children’s receptive and expressive language use. Instructional procedures used to facilitate language acquisition in deaf and hard-of-hearing children and their learning to read and write. Assessment, instructional procedures, specific remediation techniques, and technology supports.

*coreq: must take SPED 73300 in semester immediately following.  
prereq or coreq: SPED 73000  
Hours Includes 15 hrs of field experience 45 hrs,  
Credits 3 cr  
Fall only*

**SPED 73300 - Math and Across-the Curriculum Adaptations for Students who are Deaf and Hard-of-Hearing: Methods 2**

Methods for assessing and teaching deaf and hard-of-hearing students in mathematics, science, social studies, other content areas, and time/space organization. Focus on math concept development and compensations; reading/writing and the arts across the curriculum; and organizational strategies for school, home and life.

*prereq: (immediate preceding semester) SPED 73100  
prereq or coreq: SPED 70000  
Hours Includes 15 hrs of field experience  
Spring only*

**SPED 73500 - Speech Development and Remediation of Students who are Deaf and Hard-of-Hearing**

Psycho-acoustic aspects of speech sounds and their relationship to speech acquisition in hearing and deaf children. Effects of various degrees of hearing loss on speech acquisition; sense modalities in speech production; typical voice and speech errors in deaf and hard-of-hearing children; methods, procedures, materials, and technology used for speech development and remediation; inclusion of deaf and hard-of-hearing students.

*prereq or coreq: SPED 70000  
Hours Includes 5 hrs of field experience  
Credits 3*
SPED 73600 - Aural Rehabilitation of Students who are Deaf and Hard-of-Hearing

Principles and methods of teaching speech and auditory training. Methods, procedures and materials used in development of oral communication, supports for inclusive settings and use of technology.

prereq or coreq: SPED 70000
Hours Includes 5 hrs of field experience

Note(s)

* Students entering program with ASL proficiency may be exempted from either or both of the ASL courses, without being required to replace those credits with other course work. Such students would, thus, complete the specialization sequence with either 24 or 21 credits.

Take either:

SPED 73700 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 12

Supervised student teaching placement providing direct, specially designed classroom instruction for deaf and hard-of-hearing students at two grade levels that do not overlap with either pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills prerequisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,
Credits 4 cr

Or two of the following (must include two different grade levels):

SPED 73760 - Supervised Practicum: Deaf and Hard-of-Hearing, Preschool–2nd Grade

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2

SPED 73761 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 1-6
Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching
Credits 2

SPED 73762 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 5-9

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences,
Credits 2

SPED 73763 - Supervised Practicum: Deaf and Hard-of-Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 7300, SPED 73300
Hours 30 hrs seminar, plus conferences,
Credits 2

Additional Course Requirements for Program 1

Program 1

Total Credits: 40-58 Credits

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.
**CEDF 70900 - Child Development Grades 1-9**

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

*Hours includes 5 hrs of field work*

**CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology**

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminte and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

*prereq or coreq: CEDF 70900 and CEDC 70450*

**CEDC 70350 - Teaching Science in the Elementary School**

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

*prereq or coreq: CEDF 70900*

**CEDC 70450 - Teaching Developmental Reading**

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

*prereq or coreq: CEDF 70900*

*Hours includes 10 hrs of fieldwork*
**CEDC 70550 - Mathematics Curriculum and Methods**

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

*prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork*

**CEDC 72900 - Fieldwork in Childhood Education for Special Educators**

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of B-, C+ or C in fieldwork must apply to the chairperson for permission to preregister for the course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork,
Credits 1 cr*

**HED 71500 - Health Education for Special Educators**

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

*Hours 15 hrs,
Credits 1 cr*

**Exit Standards**

1. An overall GPA of 3.0.
2. Students must demonstrate consistently satisfactory written English in all course work.
3. Student Teaching, Supervised Practicum, and Clinical Teaching Lab
   A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. No grade less than B is acceptable for these teaching skill courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.
   B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

a comprehensive research-based oral presentation on a current special education issue

and either

an original written research proposal

or

a written proposal for competitive grant funding.

5. Students must pass the School of Education technology assessment.

Early Childhood Special Education - MSEd

Early Childhood Special Education Program Coordinators:
Jamie Bleiweiss; 929 West Building; (212) 772-4229; jbleiwei@hunter.cuny.edu
Shirley Cohen; 915 West Building; (212) 772-4708; shirley.cohen@hunter.cuny.edu
Donia Fahim; 919 West Building; (212) 772-4745; dfahim@hunter.cuny.edu

Admission Requirements: Program 1

Program 1A

For applicants who do not hold New York State Certification.

Admission Requirements

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better or a graduate degree from an approved college with a GPA of 3.5 or better

2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.

3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

Program 1B
This program is for applicants who hold New York State Certification in an area other than early childhood. Those with a childhood or preK-6 certificate complete 36-40 credits. Those with certification in an area other than childhood complete 40-50 credits.

1. Any New York State teacher certificate other than early childhood education.

2. An undergraduate BA or BS from an approved college with a GPA of 2.8 or a graduate degree from an approved college with a GPA of 3.5 or better.

Admission Requirements: Program 2

Admission Requirements

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher or a graduate degree from an approved college with a GPA of 3.5 or better

2. New York State initial/permanent teacher certification in early childhood or preK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence while they are completing their IN courses.

5. Program 1A students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST and who does poorly on the test of written analysis and expression must enroll in a college writing course or workshop series approved by an adviser, before being permitted to register for any courses.

B. Fieldwork Benchmark

Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 782, SPED 784, CEDC 729; ECC 712; SPEDE 776 or SPEDE 767). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once. Any student who
receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

C. In order to enroll in student teaching or supervised practicum, all students must:

1. Have an overall GPA of at least 3.0; and
2. Have no outstanding INs.

Early Childhood Special Education Course of Study

Program 2

Total Credits: 36 credits

SPEDE 71400 - History and Context of Early Intervention and Early Childhood Special Education

Historical and current views of infants and young children with developmental delays and disorders; “War on Poverty” antecedents of current early childhood special education services; federal, state, and city regulations covering intervention services to young children with disabilities.

Hours 15 hrs,
Credits 1 cr

SPEDE 76800 - Characteristics and Developmental Problems of Infants and Young Children with Special Needs

Definition of populations; effects of disabilities on cognitive, social/emotional, language, and motor development; implications for early intervention and education.

Hours Includes 2.5 hrs field experience,
Credits 3

SPEDE 76900 - Assessment of Development and Learning in Infants and Young Children with Special Needs

Processes and procedures appropriate for assessing the development and learning of children from infancy through age 7 (second grade), including multidisciplinary screening and assessment; uses and limitations of assessment measures; practice in the use of selected assessment tools.
SPEDE 77000 - Curriculum Models and Methods in Early Intervention and Early Childhood Special Education

Major approaches in early intervention and early childhood special education; instructional sequences and methods for use in different settings such as inclusion programs and the natural environment of the home; team and collaborative teaching models; the process of using assessment data to create IFSP and IEP goals and objectives and match them to teaching strategies; program evaluation.

SPEDE 77100 - Autistic Spectrum Disorders: Characteristics, Implications for Intervention, and Educational Strategies

Special learning and behavioral issues in educating infants/toddlers, preschoolers, and elementary age students with autism spectrum disorders; instructional strategies of particular value in working with children who have autism, PDD-NOS, and Asperger's syndrome.

prereq or coreq: one of the following: SPEDE 76800, 76900, SPED 73000, 74000, 75000, 78000, 78100, 70600, 70650, 79000, or permission of the early childhood special education program coordinator

SPEDE 77200 - Behavioral Theory and Its Applications to Young Children with Special Needs

The major tenets of behavioral theory; variations in approaches to applied behavior analysis; how to do and use functional behavioral analysis with young children who have special needs.

prereq or coreq: SPEDE 76900 or SPED 79000 or permission of the coordinator of the early childhood special education program

SPEDE 77300 - Developing Partnerships with Families for Their Child’s Development and Learning

The roles of parents in the development and education of infants and young children with special needs;
Communicating and relating appropriately and effectively with parents of diverse educational, language, economic, and ethnic backgrounds; including parents in the intervention team; resources for parents.

Prereq or coreq: SPEDE 76800
Hours 15 hrs includes 2.5 hrs field experience
Credits 1

SPEDE 77400 - Reading and Writing for Students with Special Education Needs, Grades K–2

Methods for developing reading and writing in students with disabilities and special education needs, grades K–2; instructional approaches and specific methodologies effective with young children who have a variety of learning disorders. From this instructional base, teachers can make informed decisions regarding the importance and propriety of special teaching strategies for use with particular students.

Prereq or coreq: SPEDE 76900
Hours Includes 5 hrs field experience
Credits 3

SPEDE 77500 - Mathematics for Students with Special Education Needs, Grades K–2

Principles, methods, and specially-designed mathematics instruction for students with disabilities and special education needs, grades K–2; focus on concept development, concrete materials, the counting substrate and strategies, and verbal memory supports, as well as on differentiating kinds and degrees of math learning and disability.

Prereq or coreq: SPEDE 76900
Hours 15 hrs,
Credits 1 cr

SPEDE 77600 - Field Experiences in Early Childhood Special Education

Two field placements of 30 hours each, with the placements at different age/grade levels: Pre–K (Birth–five), Kindergarten, grades 1 or 2; one of these experiences must be in a program using an ABA approach with children who have autistic spectrum disorders, while the other experience must be in a program with a different approach.

Prereq or coreq: SPEDE 77000, 77100, 77400; SPED 70600 or 70650 or 79200
Hours 30 hr seminar plus 60 hrs of field experience,
Credits 2 cr

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social
inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

*prereq or coreq: SPED 70000 or SPEDE 76800
*Hours Includes 10 hours of field experience, 45 hrs,
*Credits 3 cr

**SPED 70700 - Research Seminar: Issues in Special Education**

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.

*Hours 45 hrs,
*Credits 3 cr

**SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness**

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

*prereq or coreq: SPED 70000 or SPEDE 76800
*Hours Includes 15 hrs of field experience

Take either:

**SPEDE 77700 - Student Teaching: Early Childhood Special Education**

Supervised student teaching in two settings with 20 days in each placement; placements must be at different age/grade levels: Pre-K (Birth–five); Kindergarten; grades 1–2; practice in the implementation of skills developed through coursework and field experiences.

*prereq: SPEDE 77600
*Hours 30 hrs seminar plus 40 days,
*Credits 4 cr

Or:

**SPEDE 77800 - Student Teaching in Early Childhood Special Education**
Supervised student teaching for 20 days at one of the following age/grade levels: Pre-K (Birth–5), Kindergarten, grades 1–2; practice in implementation of skills developed through coursework and field experiences.

*prereq: SPEDE 77600  
Hours 30 hrs seminar plus 20 days,  
Credits 2 cr  
(Note that students who take SPEDE 77800 must also take SPEDE 77900 and the placements must be at different age/grade levels.)

**Plus**:  

**SPEDE 77900 - Practicum in Early Childhood Special Education**

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences.

*prereq: SPEDE 77600  
Hours 30 hrs seminar plus conferences,  
Credits 2 cr  
(Note that students who take SPEDE 77900 must also take SPEDE 77800 and the two experiences must be at different age/grade levels. Pre-K [Birth–five], Kindergarten, grades 1–2. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

**Note(s)**

* or a second semester of SPEDE 778. Students on Internship Certificates may complete a second semester of SPEDE 779. Students may also be exempted from the second semester of student teaching or practicum. Please see the program adviser for the criteria.

**Additional Course Requirements for Program 1**

**Program 1A**

*Program 1A (47-54 credits) is for students who do not have any teaching certificate. Students must take between 11-18 credits of early education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 7 credits of the coursework listed below on the basis of equivalent courses taken at the graduate or undergraduate level.*

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,
Credits 3 cr

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children’s literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)
Hours 45 hrs,
Credits 3 cr

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400
prereq or coreq: 70500 or 70600
Hours 15 hrs,
Credits 1 cr

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children’s acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300
Hours 45 hrs,
Credits 3 cr

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.
**prereq: ECC 70300**  
*Hours 15 hrs of seminar plus 50 hrs in the field.*  
*Credits 1 cr*

**ECC 71300 - The Expressive Arts in Early Childhood**

Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

*Hours 45 hrs,*  
*Credits 3 cr*

**HED 71500 - Health Education for Special Educators**

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

*Hours 15 hrs,*  
*Credits 1 cr*

**Program 1B**

**Program 1B (36-40 credits)** is for students who have a teaching certificate in an age level or area other than early childhood education. Students in Program 1B who have teacher certification in childhood education or in elementary preK-grade 6 will complete the 36-credit special education sequence plus the two early childhood courses listed below (unless a student is exempted from one or both of those courses based on an analysis of the applicant’s prior coursework).

**ECC 70300 - Early Childhood Curriculum: Birth through Grade 2**

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000*  
*Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*

**ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood**

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.
Exit Standards

1. An overall GPA of 3.0.

2. Students must demonstrate consistently satisfactory written English in all course work.

3. Student Teaching, Supervised Practicum, and Clinical Teaching Lab.
   
   A. Students are required to attain a minimum grade of B in all student teaching, practica and clinical teaching lab courses. No grade less than B is acceptable for these teaching skill courses. Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

   B. Students must complete all required days and hours for each of the student teaching, practica and clinical teaching lab courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

4. Culminating Activity. Students must perform satisfactorily on a two-part culminating activity (partial requirements of SPED 707, Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue

   and either

   an original written research proposal

   or

   a written proposal for competitive grant funding.

5. Students must pass the School of Education technology assessment.

Early Childhood Special Education: Severe/Multiple Disabilities - MSeD

Early Childhood Special Education Program Coordinators:
Jamie Bleiweiss; 929 West Building; (212) 772-4229; jbleiwei@hunter.cuny.edu
Shirley Cohen; 915 West Building; (212) 772-4708; shirley.cohen@hunter.cuny.edu
Donia Fahim; 919 West Building; (212) 772-4745; dfahim@hunter.cuny.edu

Admission Requirements: Program 1

Program 1A
For applicants who do not hold New York State Certification.

**Admission Requirements**

1. Undergraduate BA or BS degree from an approved college, with a GPA of 2.8 or better or a graduate degree from an approved college with a GPA of 3.5 or better

2. A liberal arts or science major or interdisciplinary concentration of at least 30.

3. A general education core in liberal arts and sciences to include 6 credits in English including a course in English composition with a grade of B or better (or a writing intensive course in any discipline with a grade of B or better), 6 credits in social studies (with at least one course in history or geography), 9 credits in math and science with at least one course in math and one course in science (a college course in calculus meets 6 credits of this requirement), 3 credits in the arts, 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript meets this requirement) and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).

**Program 1B**

This program is for applicants who hold New York State Certification in an area other than early childhood. Those with a childhood or preK-6 certificate complete 36-40 credits. Those with certification in an area other than childhood complete 40-50 credits.

1. Any New York State teacher certificate other than early childhood education.

2. An undergraduate BA or BS from an approved college with a GPA of 2.8 or a graduate degree from an approved college with a GPA of 3.5 or better.

**Admission Requirements: Program 2**

For applicants who hold early childhood New York State Certification

1. An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher or a graduate degree from an approved college with a GPA of 3.5 or better

2. New York State initial/permanent teacher certification in early childhood or preK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

**Progress Standards**

**A. 12-Credit Progress Standards for Matriculated Students**

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. A student who receives a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

*Note: It is recommended that students with two or more INs take an official leave of absence while they are completing their IN courses.*

5. Program 1A students must take the Liberal Arts and Science Test (LAST) of the New York State Teacher Certification Examinations and submit their scores to the Office of Educational Services (Room 1000 West Building) before they complete 12 credits of course work. Any student who does not receive a passing score on the LAST and who does poorly on the test of written analysis and expression must enroll in a college writing course or workshop series approved by an adviser, before being permitted to register for any courses.

**B. Fieldwork Benchmark**

Students must receive a grade of at least B in fieldwork and clinical teaching courses (e.g., SPED 782, SPED 784, CEDC 729; ECC 712; SPEDE 776 or SPEDE 767). Any student who receives a grade of B-, C+ or C must apply to the chair of the department for permission to retake the course, which may be repeated only once. Any student who receives a grade of F in a fieldwork or clinical teaching course will not be allowed to continue in the program.

**C. In order to enroll in student teaching or supervised practicum, all students must:**

1. Have an overall GPA of at least 3.0; and

2. Have no outstanding INs.

---

**Early Childhood Special Education with an Annotation in Severe/Multiple Disabilities Course of Study**

**Program 2**

**Total Credits: 41 credits**

**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours Includes 5 hours of field experience, 45 hrs.*

*Credits 3 cr*

**SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.
prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100

Hours (includes 10 hours of field experience),
Credits 3 cr

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

prereq or coreq: SPED 70000

Hours 45 hrs,
Credits 3 cr

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000

Hours Includes 15 hrs of field experience

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800

Hours Includes 15 hrs of field experience

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000
SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100

SPED 77000 - Curriculum Models and Methods in Early Intervention and Early Childhood Special Education

Major approaches in early intervention and early childhood special education; instructional sequences and methods for use in different settings such as inclusion programs and the natural environment of the home; team and collaborative teaching models; the process of using assessment data to create IFSP and IEP goals and objectives and match them to teaching strategies; program evaluation.

SPED 77100 - Autistic Spectrum Disorders: Characteristics, Implications for Intervention, and Educational Strategies

Special learning and behavioral issues in educating infants/toddlers, preschoolers, and elementary age students with autism spectrum disorders; instructional strategies of particular value in working with children who have autism, PDD-NOS, and Asperger's syndrome.

prereq or coreq: one of the following: SPEDE 76800, 76900, SPED 73000, 74000, 75000, 78000, 78100, 70600, 70650, 79000, or permission of the early childhood special education program coordinator

SPED 77200 - Behavioral Theory and Its Applications to Young Children with Special Needs

The major tenets of behavioral theory; variations in approaches to applied behavior analysis; how to do and use functional behavioral analysis with young children who have special needs.

prereq or coreq: SPEDE 76900 or SPED 79000 or permission of the coordinator of the early childhood special
education program
Hours Includes 5 hrs of field experience
Credits 3

SPEDE 77300 - Developing Partnerships with Families for Their Child’s Development and Learning

The roles of parents in the development and education of infants and young children with special needs; communicating and relating appropriately and effectively with parents of diverse educational, language, economic, and ethnic backgrounds; including parents in the intervention team; resources for parents.

prereq or coreq: SPEDE 76800
Hours 15 hrs includes 2.5 hrs field experience
Credits 1

SPEDE 77400 - Reading and Writing for Students with Special Education Needs, Grades K–2

Methods for developing reading and writing in students with disabilities and special education needs, grades K–2; instructional approaches and specific methodologies effective with young children who have a variety of learning disorders. From this instructional base, teachers can make informed decisions regarding the importance and propriety of special teaching strategies for use with particular students.

prereq or coreq: SPEDE 76900
Hours Includes 5 hrs field experience
Credits 3

SPEDE 77500 - Mathematics for Students with Special Education Needs, Grades K–2

Principles, methods, and specially-designed mathematics instruction for students with disabilities and special education needs, grades K–2; focus on concept development, concrete materials, the counting substrate and strategies, and verbal memory supports, as well as on differentiating kinds and degrees of math learning and disability.

prereq or coreq: SPEDE 76900
Hours 15 hrs,
Credits 1 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.
Take Two of the Following (Must Include Two Different Grade Levels)

**SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

*prereq or coreq: SPED 79000, 79100  
Hours 36 days (30 hr seminar plus 36 days pre-K) plus conferences*

Or

**SPEDE 79552 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

Supervised practicum in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

*prereq or coreq: SPED 79000, 79100  
Hours 36 days (30 hr seminar, pre-K), plus conferences  
Credits 2*

And

**SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

*prereq or coreq: SPED 79000, 79100  
Hours 36 days (30 hr seminar plus 36 days student teaching K-2), plus conferences  
Credits 2*

Or
SPEDE 79553 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised practicum in a disability-specific or inclusive school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 36 days (30 hr seminar, K-2), plus conferences
Credits 2

Additional Course Requirements for Program 1

Program 1A

Total Credits: 52-59 credits students must take between 11-18 credits of early childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 7 credits of the coursework listed below on the basis of equivalent courses taken at the graduate or undergraduate level.

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels,
Credits 3 cr

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children’s literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)
ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400
prereq or coreq: 70500 or 70600

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children’s acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children’s development. Inquiry into children’s artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.
Program 1B

Total Credits: 41-45 credits  Students in Program 1B who have teacher certification in childhood education or preK-grade 6 will complete the 41-credit special education sequence plus the two early childhood courses listed below (unless a student is exempted from one or both of these courses on the basis of an analysis of the applicant’s prior coursework.

Students whose prior certification is in an area other than childhood or elementary education (e.g., adolescent education, middle school education, music, dance, TESOL) may need to do additional coursework in early childhood education. The additional required number of credits and specific courses will be determined by an analysis of the applicant’s prior coursework.

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children’s behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field,
Credits 1 cr

Special Education - MSEd

Department Office: 909 West Building; (212) 772-4700

Secretary Jean Leung; 909 West Building; (212) 772-4700; fax (212) 650-3542; jleung@hunter.cuny.edu

Acting Chairperson Tim Lackaye; 920 West Building; (212) 772-4777; tlackaye@hunter.cuny.edu

Advisers:
Learning Disabilities
Hunter's graduate programs in special education prepare teachers to provide specially designed instruction for students with disabilities and to work across a variety of educational settings, including: special school, special classes, resource rooms, pre-schools, early intervention programs, supported general education classrooms in public and private schools, hospitals, clinics, health agencies, home programs, and residential facilities. Special education programs at Hunter have been nationally recognized by the Council for Exceptional Children.

Completion of any one of Hunter's for the master's degree in special education leads to New York State teacher certification. Hunter's specializations are:

- childhood special education: learning disabilities
- childhood special education: behavior disorders
- childhood special education with an annotation in severe/multiple disabilities (including deafblindness)
- early childhood special education
- early childhood with an annotation in severe/multiple disabilities (including deafblindness)
- deaf and hard-of-hearing
- blind and visually impaired

Students who enter the programs with no previous certification and subsequently complete the master's degree will meet the education requirements for New York State initial and professional certification in either childhood special education or early childhood special education and either childhood general education or early childhood general education. Students without prior teacher certification enter the Program 1 track.

Students who enter the childhood special education program with initial certification in grades 1-6 and subsequently complete the master's degree, will meet the education requirements for New York State professional certification in childhood/elementary education as well as for professional certification in childhood special education grades 1-6. Students with prior childhood certification enter the program 2 track.
Similarly, students who enter the early childhood special education program with initial certification in early childhood Birth to Grade 2 and subsequently complete the master's degree, will meet the education requirements for New York State professional certification in early childhood education as well as for professional certification in early childhood special education Birth to Grade 2. Students who hold early childhood certification enter the Program 2 track in early childhood special education.

The early childhood master's programs are designed for students whose primary interest is in teaching children from infancy through kindergarten. While students in the early childhood special education programs will also be prepared to teach grades 1 and 2, applicants whose primary interest is in these grades should apply to the childhood special education program, which encompasses grades 1-6.

The programs (with the exception of early childhood special education) are organized into a set of cross-categorical core courses and disability-specific specializations. Core courses develop knowledge and skills across a range of education settings; specializations provide in-depth preparation for working with students within a particularly disability area. Both core and specialization courses provide historical, theoretical, and clinical perspectives, as well as current research and direct experiences with students of different ages and profiles. A hallmark of Hunter's programs is their linking of theory to effective instruction.

**Special Education: Visual Impairment: Rehabilitation Teaching**

40 cr in total or 55 cr with optional sequence in O&M

**Cross-Categorical Core Courses (3 cr)**

**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours Includes 5 hours of field experience, 45 hrs,*  
*Credits 3 cr*

**Visual Impairment: Rehabilitation Teaching Specialization (37 cr)**

**SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments**

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

*prereq or coreq: SPED 70000*  
*Hours includes 10 hrs of field experience*  
*Credits 3 cr*

**SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments**
Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

**prereq or coreq:** SPED 74000  
*Hours* Includes 10 hrs of field experience

**SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments**

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

**prereq or coreq:** SPED 74000, SPED 74100  
*Hours* Includes 10 hrs of field experience

**SPED 74400 - Assistive Technology for Learners with Visual Impairments**

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

**prereq:** SPED 74300  
*Hours* 45 hrs,  
*Credits* 3 cr

**SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments**

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

**prereq or coreq:** SPED 74000, 74100  
*Hours includes* 10 hrs of filed experience  
*Credits* 3 cr

**SPED 76000 - Skills and Techniques for Rehabilitation Teaching I**
Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

**SPED 76100 - Skills and Techniques for Rehabilitation Teaching II**

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

**SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments**

Job modification options. Transition planning from education to adult services.

**SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments**

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

**SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments**

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments.
including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

**prereq: SPED 76000, 76100**  
*Hours 230 hrs,*  
*Credits 2 cr*

**COUNR 72000 - Medical Aspects of Disability**

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

*Hours 45 hrs,*  
*Credits 3 cr*

**COUNR 73000 - Counseling with the Aging**

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

*Hours 45 hrs,*  
*Credits 3 cr*

**COCO 70100 - Counseling Skills and Interviewing Techniques**

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs,*  
*Credits 3 cr*

**Optional Sequence in Orientation and Mobility (15 cr)**

**SPED 76500 - Intermediate Orientation and Mobility**

Theories related to perception, learning and development of individuals who are blind or visually impaired, and/or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

**prereq or coreq: SPED 76800**  
*Hours includes 50 hrs of lab plus 15 hrs field experience*  
*Credits 3 cr*

**SPED 76600 - Advanced Orientation and Mobility**
Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

prereq or coreq: SPED 76500, 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr

SPED 76700 - Orientation and Mobility: Internship/Seminar

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

prereq or coreq: SPED 76500, 76600, 76800, 76900
Hours 30 hrs seminar, plus conferences plus 340 hours of internship,
Credits 2 cr

SPED 74900 - Orientation and Mobility for Students with Visual Impairments and Additional Disabilities

An advanced orientation and mobility course on specialized instructional strategies that address the special travel difficulties of learners (infants to older adults) who are blind or visually impaired with additional disabilities. Topics include deafness, deafblindness, multiple impairments, motoric, cognitive and affective impairments. This course also addresses instructional strategies for persons in unique living situations or environments.

Hours includes 10 hrs field experience, 45 hrs,
Credits 3 cr

SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar

This course teaches assessment of the systems of mobility used by persons who are visually impaired and develops competencies in teaching indoor travel techniques used by persons with visual impairments. Two week summer course.

prereq or coreq: permission of adviser
Credits 2 cr
Two week summer course.

SPED 76900 - Advanced Orientation and Mobility Lab and Seminar

This course demonstrates practical application of Orientation and Mobility instructional techniques as they are applied
in outdoor settings under blindfold and with low vision simulators. Content related to instructional strategies will be provided during the in-class seminar. Two week summer course.

prereq or coreq: SPED 76500, 76600, 76800
Credits 2
Two week summer course.

Note(s)

* The Rehabilitation Teaching program alone does not lead to New York State teacher certification.

Visual Impairment: Rehabilitation Teaching - MSEd

Visual Impairment: Rehabilitation Teaching Program Coordinators: Rosanne K. Silberman; 911 West Building; (212) 772-4740; rsilberm@hunter.cuny.edu, Ellen Trief; 921 West Building; (212) 772-4110; etrief@hunter.cuny.edu

This Program does not lead to New York State Teacher Certification.

Admission Requirements

An undergraduate BA or BS degree from an approved college with a GPA of 2.8 or higher or a graduate degree from an approved college with a GPA of 3.5 or better.

Progress Standards

12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   Note: It is recommended that students with two or more INs take an official leave of absence.

Visual Impairment: Rehabilitation Teaching Course of Study

Total Credits: 40 credits

The Rehabilitation Teaching program alone does not lead to New York State teacher certification.

SPED 70000 - Issues and Practices in Educating Students with Disabilities
Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours* Includes 5 hours of field experience, 45 hrs.  
*Credits* 3 cr

**SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments**

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

*prereq or coreq: SPED 70000*  
*Hours includes 10 hrs of field experience*  
*Credits* 3 cr

**SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments**

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

*prereq or coreq: SPED 74000*  
*Hours Includes 10 hrs of field experience*

**SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments**

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

*prereq or coreq: SPED 74000, SPED 74100*  
*Hours Includes 10 hrs of field experience*

**SPED 74400 - Assistive Technology for Learners with Visual Impairments**

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.
SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

SPED 76000 - Skills and Techniques for Rehabilitation Teaching I

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

SPED 76100 - Skills and Techniques for Rehabilitation Teaching II

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments

Job modification options. Transition planning from education to adult services.
**SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments**

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

*prereq: SPED 76000, 76100*

**SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments**

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

*prereq: SPED 76000, 76100*

**COUNR 72000 - Medical Aspects of Disability**

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

**COUNR 73000 - Counseling with the Aging**

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

**COCO 70100 - Counseling Skills and Interviewing Techniques**

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.
Exit Standards

1. An overall GPA of 3.0.

2. Students must demonstrate consistently satisfactory written English in all course work.

3. Student teaching, Supervised Practicum, and Clinical Teaching Lab:
   
   A. Students are required to attain a minimum grade of B in the internship courses (SPED 76300 and 76400). Students receiving B-, C+, or C for any one of these courses must apply to the department chairperson for permission to retake that course, which may be repeated only once.

   Any student who receives a grade of F will not be allowed to continue.

   B. Students must complete all required days and hours for each of the internship courses. Students not completing the minimum required days and hours will receive a course grade of IN for that course, prohibiting them from graduating.

CEDC 75400 - Differentiating Curriculum for Gifted and Talented Learners

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the fulltime gifted school.

Cross-listed SPED 75400
Hours includes 10 hrs field experience
Credits 3

CHND 71300 - Methods 2: Intensive Study of Teaching Diverse Learners in Chinese, Grades 7-12

This course aims to familiarize prospective school teachers, grades 7-12 with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curricula in Chinese. Innovative uses of technology, development of instructional units, individualization for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course. Thirty-six hours of field experience/observation is a part of this course. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes development of lesson plans, homework assignment, and projects for classroom use.

prereq or coreq: CHND 71200 and SEDF 70500 or permission of the adviser
Hours 30 hrs plus 36 hrs fieldwork,
Credits 2

EDABA 79500 - Applied Behavior Analysis I
The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

prereq or coreq: SPEDE 77100
Hours 45
Credits 3

EDABA 79600 - Applied Behavior Analysis II

This course examines specific behavior analysis methods and applications including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.

prereq: EDABA 79500
Hours 45
Credits 3

EDABA 79700 - Applied Behavior Analysis Research Methods and Ethics

This course is an introduction to research methods used in applied behavior analysis. Topics include the development of research questions, measurement of behavior, single-subject experimental design, data collection, and data analysis. In addition, this course covers ethics and professional behavior for applied behavior analysts as they relate to research and practice.

Hours 45
Credits 3

EDABA 79800 - Behavior Analytic Approaches to Learning

This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

Hours 45
Credits 3

EDABA 79900 - Applied Behavior Analytic Autism Intervention

This course examines applied behavior analytic intervention for individuals with autism. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive
environments.

prereq: EDABA 79500 or EDABA 79800
Hours 45
Credits 3

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours Includes 5 hours of field experience, 45 hrs,
Credits 3 cr

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience,
Credits 3 cr

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45
Credits 3

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).
SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000
Hours Includes 15 hrs of field experience, 45 hrs,
Credits 3 cr

SPED 70250 - Classroom Management in Special Education and Inclusive Settings

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100
Hours Includes 20 hrs of field experience, 45 hrs,
Credits 3 cr

SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000
coreq: current employment as a teacher or enrollment in student teaching
Hours Includes 10 hrs of field experience, 45 hrs,
Credits 3 cr

SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000
SPED 70500 - Use of Instructional Technology in Special Education

Computer lab course focused on both broadly based and specialized applications for supporting students with learning disabilities, mild, moderate mental retardation, and behavioral disorders. Focus on select number of tools and their multiple uses. Also, overview of specialized computer curriculum software, web resources, and assistive technology for students with severe disabilities.

prereq or coreq: SPED 70000

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations; innovative scheduling, and access to technological support.

prereq or coreq: SPED 70000 or SPEDE 76800

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations; innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program’s culminating activity.
SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45
Credits 3

SPED 70751 - Advanced Seminar in Special Education Practice (For those in Advanced Preparation in Special Education)

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45
Credits 3

SPED 71051 - Independent Study in Special Education

Designed to allow advanced students to further their understanding and skill within special education.

Hours 15-45 hrs,
Credits 1-3 cr

Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71052 - Independent Study in Special Education

Designed to allow advanced students to further their understanding and skill within special education.

Hours 15-45 hrs,
Credits 1-3 cr

Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71053 - Independent Study in Special Education
Designed to allow advanced students to further their understanding and skill within special education.

Hours 15-45 hrs,
Credits 1-3 cr
Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71151 - Independent Study in Deaf and Hard-of-Hearing**

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

Hours 15-45 hrs,
Credits 1-3 cr
Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71152 - Independent Study in Deaf and Hard-of-Hearing**

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

Hours 15-45 hrs,
Credits 1-3 cr
Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71153 - Independent Study in Deaf and Hard-of-Hearing**

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

Hours 15-45 hrs,
Credits 1-3 cr
Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71251 - Independent Study in Blindness and Visual Impairment**

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

Hours 15-45 hrs,
Credits 1-3 cr
Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71252 - Independent Study in Blindness and Visual Impairment**

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.
Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71253 - Independent Study in Blindness and Visual Impairment

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71352 - Topics in Special Education

In-depth study of one area relevant to teaching students with disabilities.

prereq or coreq: SPED 700

Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

SPED 71353 - Topics in Special Education

In-depth study of one area relevant to teaching students with disabilities.

prereq or coreq: SPED 700

SPED 71451 - Topics in Special Education: ITI Practicum in Visual Impairment

Credits 1 cr

SPED 72000 - American Sign Language I

An intensive first course in American Sign Language (ASL), designed to establish a foundation of ASL communicative competence. Emphasizes ASL grammar, vocabulary, receptive and expressive skills, fingerspelling, numbers, and spatial and pronominal reference.

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience, 90 hrs lab,

Credits 3 cr

SPED 72100 - American Sign Language II
This intensive course continues material covered in SPED 720. Emphasizes increased communicative competence in ASL, as well as grammar, vocabulary, and receptive and expressive skills.

*prereq: SPED 72000

*Hours Includes 10 hrs of field experience 90 hrs lab,

*Credits 3 cr

**SPED 72200 - The Study of ASL Educational Linguistics**

Focus on the linguistic structure of ASL: phonology, morphology, syntax, pragmatics, and discourse rules. Traces acquisition of ASL during infancy, childhood and adolescent. Differences are highlighted between ASL and English linguistics, as well as the interaction between such structures and children’s learning. ASL is the instructional language used to teach this course.

*prereq: SPED 72100

*Hours 60 hrs lab,

*Credits 2 cr

**SPED 73000 - Education of Students Who Are Deaf and Hard-of-Hearing**

History of theory, practice and conceptualizations in the education of students who are deaf and hard-of-hearing. The study of language acquisition (English and ASL), bilingualism, and learning English as a second language in hearing and deaf children. Linguistic understanding and analysis of the components of language proficiency. Educational settings, issues of inclusion, and use of technology.

*Hours Includes 10 hours of field experience 45 hrs,

*Credits 3 cr

**SPED 73100 - Reading and Writing Development for Students Who Are Deaf and Hard-of-Hearing: Methods 1**

Theoretical and practical aspects of deaf children’s receptive and expressive language use. Instructional procedures used to facilitate language acquisition in deaf and hard-of-hearing children and their learning to read and write. Assessment, instructional procedures, specific remediation techniques, and technology supports.

*coreq: must take SPED 73300 in semester immediately following.

*prereq or coreq: SPED 73000

*Hours Includes 15 hrs of field experience 45 hrs,

*Credits 3 cr

*Fall only

**SPED 73300 - Math and Across-the-Curriculum Adaptations for Students who are Deaf and Hard-of-Hearing: Methods 2**
Methods for assessing and teaching deaf and hard-of-hearing students in mathematics, science, social studies, other content areas, and time/space organization. Focus on math concept development and compensations; reading/writing and the arts across the curriculum; and organizational strategies for school, home and life.

**SPED 73500 - Speech Development and Remediation of Students who are Deaf and Hard-of-Hearing**

Psycho-acoustic aspects of speech sounds and their relationship to speech acquisition in hearing and deaf children. Effects of various degrees of hearing loss on speech acquisition; sense modalities in speech production; typical voice and speech errors in deaf and hard-of-hearing children; methods, procedures, materials, and technology used for speech development and remediation; inclusion of deaf and hard-of-hearing students.

**SPED 73600 - Aural Rehabilitation of Students who are Deaf and Hard-of-Hearing**

Principles and methods of teaching speech and auditory training. Methods, procedures and materials used in development of oral communication, supports for inclusive settings and use of technology.

**SPED 73700 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 12**

Supervised student teaching placement providing direct, specially designed classroom instruction for deaf and hard-of-hearing students at two grade levels that do not overlap with either pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills prerequisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

**SPED 73750 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 6**
Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

SPED 73751 - Student Teaching: Deaf and Hard-of-Hearing, Grades 7–12

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

SPED 73752 - Practicum: Deaf and Hard-of-Hearing, Preschool–Grade 6

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 73753 - Practicum: Deaf and Hard-of-Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 73760 - Supervised Practicum: Deaf and Hard-of-Hearing, Preschool–2nd Grade

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.
prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2

SPED 73761 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 1-6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching
Credits 2

SPED 73762 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 5-9

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences,
Credits 2

SPED 73763 - Supervised Practicum: Deaf and Hard-of-Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 7300, SPED 73300
Hours 30 hrs seminar, plus conferences,
Credits 2

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations
of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

**prereq or coreq:** SPED 70000  
**Hours includes 10 hrs of field experience**  
**Credits 3 cr**

**SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments**

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

**prereq or coreq:** SPED 74000  
**Hours Includes 10 hrs of field experience**

**SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments**

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

**prereq or coreq:** SPED 74000, SPED 74100  
**Hours Includes 15 hrs of field experience**

**SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments**

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Brailletwriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

**prereq or coreq:** SPED 74000, SPED 74100  
**Hours Includes 10 hrs of field experience**

**SPED 74400 - Assistive Technology for Learners with Visual Impairments**

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.
prereq: SPED 74300
Hours 45 hrs,
Credits 3 cr

**SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments**

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

prereq or coreq: SPED 74000, 74100, 74200, 74300
Hours 15 hrs,
Credits 1 cr

**SPED 74600 - Educational Implications of Learners Who Are Deafblind**

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100
Hours Includes 10 hrs of field experience

**SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments**
