Admissions

Admissions: General Information

1. Requirements for Admission
2. Competency Examinations

Application Procedure and Fee

1. Applying
2. Admitted Students Submitting Official Transcripts
3. Applying: Additional Materials
4. Application Fee

International Students

1. Requirements for Admission
2. Housing Arrangements

Admission Status

1. Matriculated
2. Matriculated with conditions
3. Nonmatriculated
4. Approval of Credit from Nonmatriculant to Matriculant Status

Transfer of Credit

1. Transfer of Credit

Undergraduates taking Graduate Courses

1. Policy for Undergraduates taking Graduate Courses
Re-Admission

1. Students not in attendance for more than one semester
2. Application
3. Fees
4. Re-Admission: Students Academically Eligible

Change of Degree Program and Courses Outside Degree Program

1. Change of Degree Program
2. Courses Outside the Degree Program

Enrollment & Financial Aid

Degree Requirements

A matriculated graduate student enrolled in the graduate program and accepted as a candidate for a master's degree will be recommended for the degree after the following requirements have been satisfied:

- Courses
- Grades
- Thesis
- Foreign Language
- Time Limit
- Enrollment
- Graduation

Financial Aid

- Office of Financial Aid
- Tuition and Fees
- Financial Aid: Application Procedure
- Financial Need
- The Cost of Attendance
- 2018-2019 Cost of Attendance
- Student Resources
- Packaging
- Student Eligibility
- Federal Aid Eligibility
- Federal Financial Aid Programs

Scholarships and Grants
• General Information: Scholarships and Grants
• Departmental Award
• The George N. Shuster Master's Thesis Award
• Graduate Assistantships
• School of Social Work: Tuition Assistance
• School of Health Professions: Tuition Assistance
• Veterans
• External Scholarships

Bursar's Office

The bursar's office collects all tuition and fees in accordance with CUNY policies and procedures set forth by the Federal, State and City Governments.

• Bursar's Office

• Food Services

Performing and Fine Arts Venues
Research Centers

- Hunter Campus Centers
- Center for Communication Disorders
- The Center for Puerto Rican Studies
- Brookdale Center for Healthy Aging at Hunter College
- Center for Basic and Translational Research

Course Descriptions

**Numbering System** Each course in the curriculum is defined by an alphabetical prefix and a 3-digit number. The 3-digit number indicates the level of study: 500-, 600-, and 700-level courses are graduate courses.

**Alphabetical Prefixes** The following prefixes are used, preceding the 3-digit number, to designate the field of study. They are listed here alphabetically, with the field and department or program to which they pertain. Specific departments and programs appear alphabetically in the table of contents and the index.

**Accounting**

Students who have satisfied the requirements of the Hunter BS degree in Accounting (or their equivalent) will have met all course prerequisites other than those indicated below. Students who have not satisfied such requirements will need permission of the program adviser to take any of these courses.

**ACC 66000 - Managerial Economics for Accountants**

The decision making process within the firm through the prism of microeconomics. Topics include optimal pricing strategies, demand forecasting, hiring, and investment decisions. Specific analytical and quantitative tools will be developed.

*prereq: ECO 32100* and either ECO 30000 or ECO 60000. The graduate adviser may waive the ECO 30000/60000 requirement in appropriate circumstances

Hours 3
Credits 3

*If these courses have not been taken at the time of admission, they may be taken while in the MS program but will not count towards the 30 credits needed to complete the degree.*

**ACC 77000 - Research Techniques in Accounting**

The course will clarify the nature of accounting research for the student, and survey important research methods and techniques.

**ACC 77100 - Advanced Financial Accounting Theory**
Coverage will include contemporary financial reporting issues as they relate to FASB's conceptual framework, financial statement analysis, and specialized accounting areas such as cash flows, accounting for pensions, and employment benefits.

**ACC 77200 - Accounting Information Systems**

An introduction to information systems as they relate to organizational structure, managerial decision-making, and accounting. Topics include accounting systems and design theory, file structure, and the implementation and evaluation of systems.

**ACC 77300 - Advanced Federal Income Taxation**

Coverage will include taxation of estates, gifts, and trusts; advanced topics in corporate and partnership taxation; international tax issues, and tax research techniques.

**ACC 77400 - Advanced Managerial Accounting**

Trains students to help managers obtain and analyze information for decision-making, planning, control and performance evaluation. Topics include new manufacturing environments, cost behavior, inventory costing, budgeting and variance analysis.

**ACC 77500 - Advanced Auditing**

Applies principles covered in undergraduate auditing. Topics include auditing of EDP systems; computer-assisted auditing techniques; and a review of special reports, reports on internal control, accounting and review services; and governmental auditing standards.

**ACC 77600 - Governmental Accounting**

Accounting, reporting, and auditing issues unique to governmental and nonprofit entities, as well as multinational business entities. Special issues related to audits under GAS and for US companies operating internationally will be covered.

**ACC 77700 - State and Local Taxation**

State and local business and personal tax policies of the tri-state region, with an emphasis on New York State and City taxation.

**ACC 78000 - Business Ethics, Communications, and Research Project**

Ethical issues in accountancy will be covered, as well as ethical concerns in marketing, corporate social responsibility, and global operations. Business communication skills will be developed. A capstone research project will be completed.

*prereq: ACC 77000*

**Anthropology Independent Study or Research**
**ANTH 78500 - Independent Study**

Directed research in any of the 4 subdisciplines on topic chosen by student. Permission of instructor and grad adviser required prior to registration.

*Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.*

**ANTH 78600 - Research in Anthropology**

Directed research in any of the 4 subdisciplines on topic chosen by student. Permission of instructor and grad adviser required prior to registration.

*Hours 3 hrs, including conferences,
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course. Courses offered upon sufficient student demand.*

**Anthropology Thesis**

**ANTH 70600 - Master's Thesis Seminar**

Individual research under supervision of student's thesis adviser, limited to students matriculated in the MA program. Credit awarded upon approval of master's thesis.

*Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.*

**Archaeology**

**ANTH 75000 - Archaeology (Core Course)**

Introduces basic theory, method, and findings of prehistoric archaeology in an anthropological framework.

*Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.*

**ANTH 75100 - Seminar in Archaeology**

Each of the following advanced seminars deals with a set of theoretical and methodological topics related to current developments in archaeology: Regional Analysis – a survey and discussion of approaches to the analysis of ancient settlement patterns. Faunal Analysis – an introduction to methods and theoretical problems involved in the use of animal bone evidence for prehistoric economies. Analytical Methods – an introduction to a range of methods of data
management and analysis in archaeology; includes training in the use of computer software. Field Methods – an introduction to the problems of practical field research design in archaeology and basic field techniques. Use of basic surveying equipment is covered, with extensive hands-on experience provided.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 75600 - Prehistoric Human Ecology**

Problems in analysis of interaction of human economies and changing natural environments. Archaeological view of human role in various ancient ecosystems.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 75800 - Rise of Civilization**

Theoretical and empirical investigation of evolution of urbanism and state in both hemispheres.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 75900 - Archaeology of Europe**

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 76000 - Archaeology of Africa**

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 76100 - Archaeology of Near East**

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.
ANTH 76200 - Archaeology of New World

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

*Hours 3 hrs, including conferences,
Credits 3 cr.*
*All students must consult with the graduate adviser before registering for any course.*

ANTH 76300 - Archaeology of Mesoamerica

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

*Hours 3 hrs, including conferences.
Credits 3 cr.*
*All students must consult with the graduate adviser before registering for any course.*

Biological Anthropology

ANTH 79000 - Biological Anthropology (Core Course)

An introduction to the biology and evolutionary history of humans, including evolutionary theory, genetics, morphology, primate behavior, sociobiology, and paleontology.

*Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

ANTH 79100 - Seminar in Biological Anthropology

*Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.*

ANTH 79200 - Human Ecology and Population Dynamics

From viewpoint of biological anthropology, course examines environmental factors that affect distribution, growth, and senescence of human populations.

*Hours 3 hrs, including conferences
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.*

ANTH 79300 - Human Evolutionary Genetics

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.
Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 79900 - Human Fossil Record

Fossil evidence on human evolution from Pliocene Australopithecus to modern Homo sapiens. Considers paleoecology, morphology, chronology, and phylogeny.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

Ethnology

ANTH 70100 - Ethnology (Core Course)

Surveys history, methods, theory, and basic findings of cultural and social anthropology.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 70200 - Seminar in Ethnology

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 70300 - History of Anthropological Theory

Treatment of major currents and schools in anthropological thought from 19th century to present.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 70700 - Kinship and Social Structure

Comparative analysis of kinship systems including kinship terminology, descent groups, family and household forms, and various models of explanation.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 70800 - Religion and Ideology
Comparative analysis of religious beliefs and practices, cosmology, and other aspects of ideology, especially in non-Western societies.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 71200 - Hunters and Gatherers

Analyzes both modern and prehistoric foraging societies with particular emphasis on ecological approach.

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 71500 - Cultural Ecology

Evolutionary view of interactions of human populations and their environment with emphasis on processes of cultural adaptation.

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 71600 - Medical Anthropology

Health and disease viewed comparatively in terms of how societies perceive, explain, prevent, and treat illness.

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 71800 - Applied Anthropology

Cross-cultural aspects of development work in U.S. and abroad. Theoretical foundations and practical aspects with emphasis on necessary ancillary skills.

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 72000 - Political Anthropology

Examination of different systems of political organization with emphasis on tribal and peasant societies.

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 72100 - Anthropology of Art
Comparative study of expressive culture in Western and non-Western societies with special emphasis on plastic arts.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

**ANTH 72500 - Sex and Gender in Anthropological Perspective**

Reading and research on human sexual dimorphism, reproductive behavior, and cultural conditioning of gender roles.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

**ANTH 72600 - Ethnology of Africa**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

**ANTH 72700 - Ethnology of Europe**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

**ANTH 72800 - Ethnology of Near East**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

**ANTH 72900 - Ethnology of Southeast Asia**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 3 hrs, including conferences,
All students must consult with the graduate adviser before registering for any course.

**ANTH 73000 - Ethnology of China and East Asia**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth—through readings, guided research, and discussion—some of the major ethnological problems arising in that region.

*Hours 3 hrs, including conferences,*  
*Credits 3 cr*  
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 73100 - Ethnology of Caribbean**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth—through readings, guided research, and discussion—some of the major ethnological problems arising in that region.

*Hours 3 hrs, including conferences,*  
*Credits 3 cr*  
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 73400 - Ethnology of South America**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth—through readings, guided research, and discussion—some of the major ethnological problems arising in that region.

*Hours 3 hrs, including conferences,*  
*Credits 3 cr*  
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 73500 - Ethnology of North American Indians**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth—through readings, guided research, and discussion—some of the major ethnological problems arising in that region.

*Hours 3 hrs, including conferences,*  
*Credits 3 cr*  
*All students must consult with the graduate adviser before registering for any course.*

**Linguistics**

**ANTH 77000 - Linguistics (Core Course)**

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 77100 - Seminar in Linguistics

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 77700 - Language and Culture

Role of language, dialect, and bilingualism in social life, including language of politics, language in education, language variation as related to context, sex, status, topic, etc.

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 77800 - Seminar in Sociolinguistics

Selected topics in language and society, such as language and ethnicity, bilingualism, language contact, creole languages, etc.

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

Anthropology: Courses offered upon sufficient student demand

ANTH 70400 - Field Research

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 70500 - Quantitative Measures

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 70900 - Folklore and Mythology
Hours 3 hrs, including conferences
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

**ANTH 71000 - Psychological Anthropology**

Hours 3 hrs including conferences
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

**ANTH 71100 - Economic Anthropology**

Hours 3 hrs, including conferences
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

**ANTH 77200 - Phonological Analysis and Theory**

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

**ANTH 77300 - Grammatical Analysis and Theory**

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

**ANTH 77500 - Linguistic Field Techniques and Methods**

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

**ANTH 77600 - Cognitive Anthropology**

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

**ANTH 79400 - Primate Ecology and Behavior**

Hours 3 hrs, including conferences
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 79500 - Primate Paleontology**
Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

Art History

Art History courses serve both MA and MFA student populations

ARTH 60200 - Research Methods of Art History
Training in bibliographical materials and research methods through examination of special problems in art history and writing of research paper.

Hours 45 hrs,
Credits 3 cr
Offered every semester

ARTH 61900 - Greek Art
Greek sculpture and painting from Geometric to Hellenistic period. Emphasis on masterpieces of Archaic, Classical, and Hellenistic eras.

Hours 45 hrs,
Credits 3 cr

ARTH 62000 - Roman Art
Roman art from Republican period to Age of Constantine. Emphasis on imperial reliefs, portraits, sarcophagi, and wall painting.

Hours 45
Credits 3

ARTH 62100 - Modern Art I
Origins and history of modern art in 19th century.

Hours 45
Credits 3

ARTH 62200 - Modern Art II
Modern art in 20th century.

Spring only

ARTH 62300 - Renaissance Art I

Studies in art of 14th and 15th centuries.
Hours 45  
Credits 3

**ARTH 62400 - Renaissance Art II**

Studies in art of 16th century.

**ARTH 62500 - Baroque Art**

Studies in art of 17th century.

**ARTH 63600 - Chinese and Japanese Art**

Studies in Chinese and Japanese painting.

**ARTH 63700 - Medieval Art I**

Studies in art of early Middle Ages.

**ARTH 63800 - Medieval Art II**

Studies in art of later Middle Ages.  
*spring only*

**ARTH 64100 - Islamic Art**

Art and architecture of Islamic world from Spain to India.

**ARTH 73400 - Theory and Criticism of Art**

Readings in the history of art history and/or critical theory as a background and methodology for current problems in the discipline and in contemporary art criticism.

**ARTH 74000 - Photography in the 19th Century**

Studies in 19th Century photography.

*Hours 45  
Credits 3*

**ARTH 75000 - Photography in the Twentieth Century**

An historical and critical survey of the art of photography in Europe and in the United States from the avant-gardes in the early twentieth century to conceptual art and postmodernism in the 1970s.

**ARTH 76000 - Curatorial Practicum**
A subject specific Exhibition seminar/practicum: the course would focus on an exhibition project, led by a faculty member and researched by students, culminating in an exhibition. It will acquaint students with all aspects, from creative to practical, in mounting an exhibition.

*Hours 3 hrs.*
*Credits 3 cr.*

**ARTH 76100 - Special Topics Seminar in Exhibitions and Collecting**

This course addresses the history of collecting as the foundation of institutions that foster the production, dissemination, and preservation of art. Dependent on the expertise of the instructor, this course varies among topics such as History of Museums, History of Biennials, History of Collecting, Taste, and Patronage, and Theoretical and Critical investigations of Collecting Practices.

*Hours 3 hrs.*
*Credits 3 cr.*

**ARTH 78000 - Special Topics in Art**

Graduate seminars on specific topics established by individual faculty. Topics in recent years have included Greek Vase Painting, The Islamic Object, Botticelli, Architecture of the Italian Renaissance, Origins of Abstraction, History of Photography, Art and Totalitarianism, Color Theory in Relation to Painting.

**ARTH 78007 - Modern Art III**

Studies in contemporary art.

**Art History Independent Research**

**ARTH 75500 - Independent Study**

Independent studies in history or theory of art under direction of faculty member.

*Credits 3*

**ARTH 79900 - Thesis Research**

Independent research toward MA thesis under direction of faculty member. This course aims to introduce Art History MA students to the steps needed to plan and begin writing their thesis. Each student works with his/her primary advisor towards the development of a manageable and original thesis topic, which involves primary research and the preparation of an annotated bibliography pertaining to the subject, the development of an argument, and the writing of a 6-page prospectus and one chapter (20-pages-long), both doublespaced, 12-size font, with footnotes included. Limited to matriculated MA students in art who have completed 20 grad cr. Independent research toward MA thesis under direction of faculty member.

*prereq: Department Permission Required*
ARTH 80000 - Thesis Writing

Over the course of this class, each student works individually with his/her primary adviser towards the completion of polished, submission-ready thesis chapters, which involves the deployment of primary and secondary research, the analysis of objects of visual and material culture, the crafting and polishing of convincing argumentation, and the editing and polishing of language at the sentence, paragraph, and thesis-level. The student will write during this course, breaking down the process into drafting, rewriting and restricting, and editing. Open to students who have completed ARTH 79900.

prereq: Department permission and completion of ARTH 79900 required
Hours 3 hrs
Credits 3 cr.

Studio Art - Tutorials

ARTCR 61100 - Advanced Painting I

Individual tutorial with full-time faculty member.

Hours 45 hrs,
Credits 3 cr
MFA majors in painting only

ARTCR 61200 - Advanced Painting II

Individual tutorial with full-time faculty member.

Hours 45 hrs,
Credits 3 cr
MFA majors in painting only

ARTCR 61300 - Advanced Painting III

Individual tutorial with full-time faculty member.

Hours 45 hrs,
Credits 3 cr
MFA majors in painting only

ARTCR 62100 - Advanced Sculpture I

Individual tutorial with full-time faculty member. Development of creative expression in sculpture, including research projects in various media.

Hours 45 hrs,
Credits 3 cr
ARTCR 62200 - Advanced Sculpture II

Individual tutorial with full-time faculty member. Development of creative expression in sculpture, including research projects in various media.

Hours 45 hrs,
Credits 3 cr

ARTCR 62300 - Advanced Sculpture III

Individual tutorial with full-time faculty member. Development of creative expression in sculpture, including research projects in various media.

Hours 45 hrs,
Credits 3 cr

ARTCR 62500 - Advanced Graphic Arts I

Individual tutorial with full-time faculty member. Woodcut (black and white and color) printing. Soft ground and hard ground etching. Aquatint. Line engraving on metal. Dry point. Color printing with metal; surface printing offset, and intaglio color from traditional to latest experimental methods.

Hours 45 hrs,
Credits 3 cr
MFA majors in graphics only

ARTCR 62600 - Advanced Graphic Arts II

Hours 45 hrs,
Credits 3 cr

ARTCR 62700 - Advanced Graphic Arts III

Hours 45 hrs,
Credits 3 cr

ARTCR 62900 - Combined Media

Individual tutorial with full-time faculty member. Tutorial in various experimental media such as environmental, conceptual, film, video, etc.

Hours 45 hrs,
Credits 3 cr

ARTCR 63100 - Advanced Photography I
Individual tutorial with full-time faculty member. Advanced projects in photography ranging from photojournalism through formal and experimental multimedia imagery.

Hours 45 hrs,
Credits 3 cr
MFA majors in photography only

**ARTCR 63200 - Advanced Photography II**

Individual tutorial with full-time faculty member. Advanced projects in photography ranging from photojournalism through formal and experimental multimedia imagery.

Hours 45 hrs,
Credits 3 cr
MFA majors in photography only

**ARTCR 63300 - Advanced Photography III**

Individual tutorial with full-time faculty member. Advanced projects in photography ranging from photojournalism through formal and experimental multimedia imagery.

Hours 45 hrs,
Credits 3 cr
MFA majors in photography only

**ARTCR 63500 - Advanced Ceramics I**

Individual tutorial with full-time faculty member.

Hours 45 hrs,
Credits 3 cr
MFA majors in clay and casting only

**ARTCR 63600 - Advanced Ceramics II**

Individual tutorial with full-time faculty member.

Hours 45 hrs,
Credits 3 cr
MFA majors in clay and casting only

**ARTCR 63700 - Advanced Ceramics III**

Individual tutorial with full-time faculty member.

Hours 45 hrs,
Credits 3 cr
MFA majors in clay and casting only

**Studio Art - Seminars**
Corerequirement: All seminars are to be taken simultaneously with a tutorial in the student’s area of concentration. See Studio Art -Tutorials listings.

**ARTCR 65100 - Seminar in Two-dimensional Art I**
A weekly seminar to discuss students' work and related topics.

*Hours 45 hrs,
Credits 3 cr*

**ARTCR 65200 - Seminar in Two-dimensional Art II**
A weekly seminar to discuss students' work and related topics.

*Hours 45 hrs,
Credits 3 cr*

**ARTCR 65300 - Seminar in Two-dimensional Art III**
A weekly seminar to discuss students' work and related topics.

*Hours 45 hrs,
Credits 3 cr*

**ARTCR 65500 - Seminar in Three-dimensional Art I**
A weekly seminar to discuss students' work and related topics.

*Hours 45 hrs,
Credits 3 cr*

**ARTCR 65600 - Seminar in Three-dimensional Art II**
A weekly seminar to discuss students' work and related topics.

*Hours 45 hrs,
Credits 3 cr*

**ARTCR 65700 - Seminar in Three-dimensional Art III**
A weekly seminar to discuss students' work and related topics.

*Hours 45 hrs,
Credits 3 cr*

**ARTCR 66100 - Seminar in Combined Media**
A weekly seminar to discuss students' work and related topics.
Studio Electives

ARTCR 64000 - Advanced Drawing I
A studio elective for MFA students.

Hours 4
Credits 3

ARTCR 64100 - Advanced Drawing II
A studio elective for MFA students.

Hours 4
Credits 3

ARTCR 64200 - Advanced Drawing III
A studio elective for MFA students.

Hours 4
Credits 3

ARTCR 75000 - Independent Study in Studio Art 1, 2

Hours 45 hrs,
Credits 3 cr
These credits are used when a student travels to one of our exchange programs.

ARTCR 75100 - Special Topics in Studio Art
Special projects in photography, ceramics, color theory, three-dimensional form theory, collage, time-based media and related topics. Topics offered vary from semester to semester.

Hours 4
Credits 3

ARTCR 75156 - Apprenticeship
Teaching Assistantship with a Full-time Faculty Member

prereq: must have passed Mid-Program Review, permission of the instructor
Studio Art MFA Thesis Project

ARTCR 79100 - MFA Project

Limited to matriculated students in MFA program who have completed 42 graduate credits. Independent research toward the MFA project under direction of faculty member.

*Hours 45 hrs,*  
*Credits 6 cr*

Audiology

AUD 70000 - Anatomy and Physiology of the Audio-Vestibular System

Investigation of the embryology, structure, and function of the auditory and vestibular systems.

*Hours 30 hours lecture plus conference,*  
*Credits 3 cr*

AUD 70300 - Acoustics and Psychoacoustics

Exploration of the decibel, sound transmission, complex stimuli, psychoacoustic methods, signal detection theory, auditory sensitivity, masking, loudness, pitch, binaural hearing.

*coreq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology*  
*Hours 30 hours lecture, 15 hours laboratory,*  
*Credits 3 cr*

AUD 70500 - Speech-Language Sciences

Exploration of phonological, lexical syntacticmorphological, and pragmatic aspects of human communication associated with speech, language, hearing and related disorders, normal processes of speech and language comprehension and production over the life span.

*Hours 30 hours lecture plus conference,*  
*Credits 3 cr*

AUD 70900 - Instrumentation in Audiology

Measurement and calibration of the physical characteristics of acoustic, electric, and other non-acoustic stimuli; instrumentation, digital technology; bio-electrical hazards.

*prereq: Psychoacoustics*  
*coreq: Physiological Acoustics*  
*Hours 15 hours lecture; 30 hours laboratory,*  
*Credits 3 cr*
AUD 71000 - Diagnostic Audiology

Study of audiological test procedures and interpretation in the assessment of peripheral and functional hearing impairment.

prereq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology; Psychoacoustics
Hours 30 hours lecture plus conference; 15 hours laboratory,
Credits 4 cr

AUD 71200 - Speech-Language Pathology for Audiologists

Exploration of the effects of communication disorders and differences on audiological testing, treatment and counseling; screening and prevention of communication disorders across the life span. In accordance with the American Speech-Language-Hearing Association's certification standards, students will complete the hours of speech and language screenings in a variety of settings.

prereq: Speech-Languages Sciences
coreq: Diagnostic Audiology
Hours 15 hours lecture plus conference, 15 hours laboratory,
Credits 3 cr

AUD 71600 - Physiological Acoustics

Detailed study of the pneumatic/mechanical/hydraulic/electrical interfaces involved in the transduction of acoustic energy through the auditory system. In-depth investigation of the external ear biophysics, the middle ear transfer function, cochlear hydrodynamics and hydromechanics, auditory biopotentials, cochlear non linearity, neural transduction and neural coding in the peripheral and central auditory systems.

prereq: courses in Anatomy & Physiology of the Audio-Vestibular System and Psychoacoustics
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 71800 - Introduction to Research Methods

Exploration of issues and concepts in study design and analysis including types of research, controlling for confounding variables, measurement errors and their effects, statistical methods, and their applications to clinical populations.

prereq: 30 hours lecture plus conference
Credits 3 cr

AUD 72000 - Multicultural Issues for Audiologists

Examination of multicultural influences on the prevalence of auditory, vestibular, and otologic disorders; dialectical considerations for suprathreshold speech-recognition assessment; multicultural influences on attitudes toward health care providers, health care, disability, and deaf; ramifications of cultural diversity for professional practice; using culturally sensitive measures and protocols for assessment and management.

prereq: Diagnostic Audiology
Hours 30 hours lecture plus conference,
Credits 3 cr
AUD 73000 - Amplification I

Examination of hearing-aid components, hearing aid candidacy, output limiting/compression, electroacoustic and real-ear measures, prescriptive procedures, amplification, earmolds and earmold acoustics, cerumen management, binaural issues including deprivation and acclimatization, approaches to hearing aid evaluation.

prereq: Diagnostic Audiology, Physiological Acoustics, and 1 cr of Audiology Practicum
Hours 30 hours lecture plus conference; 15 hours laboratory,
Credits 4 cr

AUD 73300 - Communication Skills of Adults with Hearing Loss

A comprehensive approach to rehabilitation of adults with hearing impairment. Assessment of adult communicative function including auditory/visual speech perception, and use of self-assessment using cochlear implants and other sensory aids.

prereq: Diagnostic Audiology and 1 cr of Audiology Practicum
coreq: Amplification I
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 73500 - Auditory Electrophysiology

Advanced differential diagnosis of auditory disorders. Exploration of theoretical bases and clinical aspects of otoacoustic emissions and middle ear measurement.

prereq: Diagnostic Audiology and 1 cr of Audiology Practicum
coreq: 2nd cr of Audiology Practicum
Hours 15 hours lecture and conference; 15 hours laboratory,
Credits 3 cr

AUD 73700 - Prevention and Identification of Hearing Loss

Exploration of procedures to prevent the onset and minimize the development of hearing disorders; identifying individuals at risk for hearing impairment throughout the lifespan; screening individuals for hearing impairment and disability/handicap; administering hearing conservation programs.

prereq: courses in Diagnostic Audiology and Auditory Evoked Responses
coreq: course in Audiology Electrophysiology
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 74000 - Aural Habilitation

Roles and responsibilities of the audiologist in clinical and educational settings. Assessment and management of communicative function in children with hearing impairment, including those with minimal hearing loss. Development of strategies for improving speech perception skills, including usage of assistive technology.

prereq: Auditory Evoked Responses; Speech-Language Pathology for Audiologists; and, 2 cr of Audiology Practicum
coreq: Audiology Electrophysiology
AUD 74200 - Auditory Evoked Responses

Exploration of the theoretical bases and clinical applications of the auditory evoked potentials.

*prereq: Audiometry, Electrophysiology, and 2 cr of Audiology Practicum*

AUD 74600 - Pediatric Audiology

Exploration of the effects of hearing loss on child development, prevalence of hearing loss in childhood, embryology, genetic issues, development of auditory function, hearing and balance disorders in children, pediatric audiology assessment battery, pediatric considerations in amplification, assessment of special populations.

*prereq: Amplification I, Auditory Evoked Responses and 2 cr of Audiology Practicum*

*coreq: Audiology Electrophysiology, Prevention and Identification of Hearing Loss*

AUD 74800 - Amplification II

Advanced signal processing, verification, validation/outcome measures, pediatric amplification fitting, noise-reduction strategies, multi-microphone/directional technology, troubleshooting/repair, hearing-aid orientation.

*prereq: Amplification I and 2 cr of Audiology Practicum*

AUD 75000 - Counseling

Contemporary theories of counseling. Application of principles and methods to problems faced by individuals with communication, hearing, vestibular and tinnitus disorders and their families. Counseling strategies to maximize individual's ability to understand, adapt and cope with his/her disorder.

*prereq: Diagnostic Audiology*

AUD 76000 - Medical Audiology

Medical and audiological aspects of hearing and balance disorders, including issues in genetics, otologic assessment and treatment, and use of imaging studies.

*prereq: Auditory Evoked Responses and 2 cr of Audiology Practicum*

*coreq: Audiology Electrophysiology*
AUD 76300 - Vestibular and Tinnitus Evaluation and Management

Investigation of balance tests including electronystagmography, posturography, and rotary chair; vestibular rehabilitation; electrophysiologic and behavioral techniques for the assessment of tinnitus; tinnitus management.

prereq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology, Diagnostic Audiology, Auditory Evoked Responses, Audiology Electrophysiology
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 76500 - Audiologic Research Proposal

Critiquing of research and the development of individual research proposals. Development of Institutional Review Board (IRB) application.

prereq: Introduction to Research Methods and completion of 45 Au.D. credits
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 76700 - Amplification III

Advanced programming. FM fitting and evaluation; special fittings; developing technologies; current research in amplification.

prereq: Amplification I and 2 cr of Audiology Practicum
Hours 15 hours lecture and conference; 15 hours laboratory,
Credits 3 cr

AUD 77000 - Cochlear Implants and other Sensory Aids

Effects of electrical stimulation on the auditory system; exploration of candidacy, principles of signal processing, and audiologic management for children and adults who use cochlear implants and other sensory aids.

prereq: courses in Anatomy & Physiology of the Audio-Vestibular System; Acoustics and Psychoacoustics; Speech-Language Sciences; Physiological Acoustics; Instrumentation in Audiology, Amplification I
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 77200 - Auditory Processing Disorders: Assessment and Treatment

Relevant neuroanatomy and physiology of auditory pathways: behavioral and physiological assessment techniques and management procedures for children and adults with auditory processing disorders.

prereq: Auditory Evoked Responses; Auditory Electrophysiology, Speech-Language Pathology for Audiologists, Pediatric Audiology, Audiologic Habilitation and 2 cr of Audiology Practicum
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 77400 - Hearing and Aging
Examination of the biological, physiological and sociological changes accompanying the aging process; protocols for evaluating and treating older adults with hearing impairment.

prereq: courses in Diagnostic Audiology and Anatomy & Physiology of the Audio-Vestibular System; Auditory Electrophysiology; Communication Skills of Adults with Hearing Loss

Hours 30 hours lecture plus conference,
Credits 3 cr

**AUD 77600 - Seminar in Professional Practice - Business Practices**

Issues of a professional nature that impact on the practice of audiology. Topics include licensure, accreditation/certification, quality assurance, reimbursement, establishing a private practice, professional liability, privacy/confidentiality and ethics.

prereq: courses in Diagnostic Audiology; Audiology Practicum; Audiology Seminar; Amplification ll

Hours 30 hours lecture plus conference,
Credits 3 cr

**AUD 78000 - Audiologic Research**

Students, under the direction of their clinical research project committee, will carry out the proposal developed in Audiologic Research Proposal.

prereq: Audiologic Research Proposal

Hours 15 hours,
Credits 1 cr

**AUD 79000 - Audiology Practicum**

Clinical Practicum in assessment and management of a wide variety of hearing disorders under the supervision of an ASHA certified and New York licensed audiologist.

Hours 15 hours laboratory,
Credits 1 cr

**AUD 79600 - Seminar in Audiology**

Examination of ethical issues, certification standards, Center policies and procedures, infectious disease and infection control, history taking, report-writing, counseling, case studies, procedures and protocol in various settings.

Hours 15 hours,
Credits 1 cr

**AUD 79800 - Independent Study**

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

Hours Conference,
Credits 1-3 cr

**AUD 79900 - Audiology Residency**
Students will be placed and supervised in setting(s), which will meet CAA standards for the certificate of Clinical Competence for the clinical residency year. Student must successfully complete this course two times.

coreq: Audiology Residency Seminar.
Credits 1-3 cr
prereq for the 1st semester of Audiology Residency: Completion of 6 credits of Audiology Practicum and 6 credits of Audiology Seminar

Biochemistry

Please consult Courses in Biological Sciences and Courses in Chemistry or the courses in the Biochemistry - MA program for additional required courses in the program

BIOCHEM U71010 - Advanced Biochemistry 1

prereq: a 1-semester course in biochemistry or equiv and physical chemistry
Hours 3 hrs,
Credits 3 cr
Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U71020 - Advanced Biochemistry 2

prereq: BIOCHEM 71010 or equivalent
Hours 3 hrs,
Credits 3 cr
Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,
Credits 3 cr
Fall only, offered at the Graduate Center

BIOCHEM U77000 - Physical Biochemistry

prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry
Hours 3
Spring only, offered at the Graduate Center

BIOCHEM 71100 - Basic Laboratory Techniques for Research in Biochemistry

Individual projects, arranged with at least two faculty members. Lab and conferences.

Hours 8
Credits 4

BIOCHEM 71201 - Advanced Laboratory Techniques for Research in Biochemistry
Individual research project arranged with a faculty member of Department of Chemistry or Department of Biology. Students may register for 1 to 4 credits.

prereq: Department Permission Required
Hours 1 hr
Credits 1 cr.

BIOCHEM 71202 - Advanced Laboratory Techniques for Research in Biochemistry

Individual research project arranged with a faculty member of Department of Chemistry or Department of Biology. Students may register for 1 to 4 credits.

prereq: Department Permission Required
Hours 2 hrs
Credits 2 cr.

BIOCHEM 71203 - Advanced Laboratory Techniques for Research in Biochemistry

Individual research project arranged with a faculty member of Department of Chemistry or Department of Biology. Students may register for 1 to 4 credits.

prereq: Department Permission Required
Hours 3 hrs
Credits 3 cr.

BIOCHEM 71204 - Advanced Laboratory Techniques for Research in Biochemistry

Individual research project arranged with a faculty member of Department of Chemistry or Department of Biology. Students may register for 1 to 4 credits.

prereq: Department Permission Required
Hours 4 hrs
Credits 4 cr.

BIOCHEM 71551 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 71552 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 71553 - Seminar in Biochemistry
**BIOCHEM 71554 - Seminar in Biochemistry**

*Hours 1  
Credits 1  
offered Fall and Spring*

**BIOCHEM 79901 - Thesis Research**

*Credits (Master's) 1*

**BIOCHEM 79902 - Thesis Research**

*Credits (Master's) 2*

**BIOCHEM 79903 - Thesis Research**

*Credits (Master's) 3  
offered Fall, Spring, and Summer  
Open only to students writing a thesis as part of the requirements*

**CHEM 64000 - Biochemistry I**

Proteins, enzymes, bioenergetics, recombinant DNA.

*prereq: 1 yr of undergraduate organic chemistry  
Hours 3 hrs.  
Credits 3 cr.  
fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.*

**CHEM 64100 - Biochemistry II**

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

*prereq: CHEM 64000  
Hours 3 hrs.  
Credits 3 cr.  
Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.*

**CHEM 64900 - Instrumental Analysis**

A laboratory-based introduction to electronic instrumentation-based analytical techniques for chemistry and biochemistry, which focuses on theoretical foundations and practical applications. The course discusses instrumental analysis applications in pharmaceutical research and production, materials, food science, forensics, energy, and medical laboratories, as well as basic research in chemistry, physics and biology. The course will be taught in a mixed format including lectures and laboratory projects, student-led discussions, and a final writing/oral presentation project, with a primary emphasis on laboratory experience.
CHEM 66800 - Structural Biology

This course introduces to students the applications of molecular spectroscopy and other emerging techniques used to study the structure, the molecular interactions of, and the self-assembly of biomolecules. The course will be taught in a mixed format including lectures, computer laboratory projects, student-led discussions on journal papers, and a final writing/oral presentation project. Not open to students who have taken CHEM 369800

CHEM 67000 - Introduction to Nanotechnology

This course introduces students to the underlying principles and applications of the emerging fields of nanotechnology and nanoscience. Intended for a multidisciplinary audience with a variety of backgrounds, the course introduces tools and principles relevant at the nano scale. The course discusses current and future nanotechnology applications in engineering, materials, physics, chemistry, biology, electronics, and energy. Not open to students who have taken CHEM 36000

CHEM 69800 - Chemical Genomics

The advent of high-throughput technologies and powerful computational tools is transforming the manner new drugs are developed. This course (bioinformatics) is designed to introduce students to two emerging areas of drug development, namely (1) computer-assisted drug design and (2) personalized medicine. Computer-assisted drug design is an approach to design drugs based on three dimensional structures of macromolecules. Personalized medicine, on the other hand, aims at tailoring patient treatments based on individual genetic information (biomarkers). In this course, students will be first equipped with fundamental theoretical and experimental concepts related to these topics. Then, they will learn how to acquire new knowledge in these exciting fields of drug development through critical analysis of literature.

Molecular and Cell Biology

BIOL 71013 - Molecular Biology Lecture
Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry
Hours 75 hrs,
Credits 5 cr
fall only

BIOL 71014 - Molecular Biology Laboratory

Isolation of RNA and DNA, construction and screening of DNA libraries, Southern and Northern blot analysis, cloning, DNA sequencing.

coreq: BIOL 71013 or comparable course in biochemistry
Hours 105 hrs lab and conf,
Credits 4 cr
Fall only

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
spring only

BIOL 77008 - Laboratory in Cell Structure -- Biological Electron Microscopy

The students will learn basic concepts of transmission electron microscope, principles of biological sample preparation for transmission electron microscopy, various electron microscopy applications, to be familiar with the morphology of different organelles inside the mammalian cell, and understand the functions of each organelle.

prereq: Permission of instructor
Hours 7 hrs (1 lecture + 6 lab)
Credits 4 cr.

BIOL 79049 - Computational Molecular Biology

An introduction to bioinformatics theories and practices. Topics include database searching, sequence alignment, molecular phylogenetics, structure predication, and microarray analysis. The course is held in a UNIX-based instructional lab specifically configured for bioinformatics applications. Each session consists of instruction on bioinformatics theories and hands-on exercises.

This course is designed for upper-level undergraduates and graduate students. Prior experiences in the UNIX Operating System and at least one programming language are required.
prereq: CSCL132 (Practical Unix and Perl Programming) and BIOL 300 (Biochemistry), or permission by the instructor.

Genetics and Developmental Biology

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,
Credits 4 cr

fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,
Credits 4 cr

Spring only

BIOL 79070 - Neuroscience II

Given at CUNY Graduate Center. Introduction to sensory and motor systems and to neural behavioral development.

spring only

Physiology and Neuroscience

BIOL 79051 - Neuroscience I

Given at CUNY Graduate Center. Comprehensive introduction to neuroscience with regard to structure and function at the cellular level.

fall only Students must register for Neuroscience I at City College of CUNY.
Biotechnology

**BIOL 61000 - Workshop in Biotechnology**

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

*prereq: BIOL 71000 or permission of instructor
Hours 30 hrs/wk for 4 wks,
Credits 4 cr*

**BIOL 62000 - Internship**

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

*prereq: BIOL 61000
Credits 3 months, 4 cr*

**BIOL 79073 - Seminar Topics in Biotechnology**

Seminar course entitled "From the Bench to the Clinic," which includes the molecular basis for diseases such as specific cancers and neurodegenerative disorders and current trends in their treatment.

*Hours 45
Credits 3*

**Biological Sciences Seminars**

**BIOL 79051 - Seminar**

Seminars may be offered in any of the following areas: cell biology, genetics, biochemistry, molecular genetics, physiology, developmental biology, neuroscience, biotechnology, and other special topics.

*prereq: BIOL 70005 and BIOL 71013
Fall and Spring*

**BIOL 79099 - Seminar**

Seminars may be offered in any of the following areas: cell biology, genetics, biochemistry, molecular genetics, physiology, developmental biology, neuroscience, biotechnology, and other special topics.

*prereq: BIOL 70005 and BIOL 71014*
Biological Sciences Tutorials

BIOL 79202 - Tutorial

prereq: permission of graduate adviser
Hours 30 or 60 hrs,
Credits 2 or 4 cr

BIOL 79204 - Tutorial

prereq: permission of graduate adviser
Hours 30 or 60 hrs,
Credits 2 or 4 cr

Biological Sciences Thesis Research - MA

BIOL 77100 - Special Topics in Experimental Biology

This course was designed to further the understanding of a broad range of topics in biology. This is an interactive lecture course where students are initially taught the tools of experimental biology. Students are then taught how to use those tools to study any subject matter (e.g., cancer, neurobiology, molecular biology). Students are then taught how to use those tools. Students are required to design experiments during discussion periods and critically assess the negative and positive outcomes of an experimental design. Master's-degree students seeking to pursue further graduate studies will greatly benefit and are highly encouraged to enroll. This course will also be complementary to pre-candidacy doctoral students that wish to design experiments towards their doctoral theses. In this regard, our course will help students pass the level I exam given to students at the end of a BA/MA or MA degree.

prereq: Department permission
Hours 3 hrs
Credits 3 cr.
Accepted for credit towards a Master's in Biology.

BIOL 79910 - Thesis Research-MA

prereq: permission of graduate adviser
Hours 15, 30, or 45 hrs,
Credits 1, 2, or 3 cr, respectively

BIOL 79920 - Thesis Research-MA

prereq: perm grad adviser
Hours 15, 30, or 45 hrs,
Credits 1, 2, or 3 cr, respectively

BIOL 79930 - Thesis Research-MA
**Biological Sciences Independent Doctoral Research**

**BIOL U89910 - Independent Doctoral Research**

*prereq: permission from graduate adviser*

**BIOL U89910 - Independent Doctoral Research**

*prereq: permission from graduate adviser*

**Hours each 15 to 150 hrs,**

**Credits 1 to 10 cr**

*(Course listed in the schedule of classes at the CUNY Graduate Center)*

**Biological Sciences: Special Topics**

**BIOL 790xx - Special Topics Courses**

Seminar in Immunology, Cancer Research, Signal Transduction, Bioinformatics, Neurobiology, etc.

*Credits 3*

**Biological Sciences Program for Teachers of Adolescent Education**

**BIOL 60000 - Molecular Biology for Science Teachers**

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes, and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism.

*prereq: An undergraduate degree in Biology and a course in Organic Chemistry and permission of instructor. Fall only*

**BIOL 60210 - Molecular Genetics for Science Teachers**

A comparison of viral, procaryotic, and eucaryotic systems; review of classical Mendelian principles and mechanisms; bacterial DNA replication, transcription, and their control; mechanisms of gene mutation, repair, recombination, and transposition; applications of recombinant DNA technology; organization of nucleic acid into chromosomes; control of
gene expression in procaryotes, in the eucaryotic cell cycle, and in cell development.

prereq: BIOL 60000 or equivalent and permission of instructor
Spring only

BIOL 60400 - Biology Education 1

This course is designed to provide instructors of high school biology with graduate-level biological content knowledge and a sound pedagogical approach to teaching. The goal of this course is to train secondary science educators to understand basic principles in the life sciences and prepare them to teach the Living Environment for middle-school and high-school students. This course curriculum focuses on basic cellular and molecular concepts in biology.

prereq or coreq: BA degree in Biology/Biology Education, or permission of instructor
Hours 3 hrs
Credits 3 cr.

BIOL 60500 - Biology Education 2

This course is designed to dive deep into selected topics in ecology and evolution in a pedagogical content knowledge framework. Using a blend of online and in-person activities, the course guides participants through a series of content area exercises that can be translated to the middle-school or high-school classroom. The vision for the class is to provide in-depth instruction on ecology and evolution while developing best practices for instruction.

prereq or coreq: BA degree in Biology/Biology Education, or permission of instructor
Hours 3 hrs
Credits 3 cr.

BIOL 61055 - Laboratory Workshop in Biology Education

A series of laboratory-intensive experimental projects, each lasting one week or more, which introduce current research techniques and include individual participation in planning, preparation, and analysis of experiments. The focus is on broad biotechnology topics such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics, and how these topics may be applied to the high school science classroom.

prereq: a graduate course in biology or permission of instructor
Hours 120 hrs
Credits 3 cr

BIOL 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

prereq: BIOL 61055 or permission of instructor

BIOL 64000 - Biodiversity and Evolution
This course is designed to prepare secondary science educators to examine essential questions in the life sciences and prepare them to teach the Living Environment regents course for ninth grade high school students and eighth grade middle school students, through the use of resources at the American Museum of Natural History.

prereq: BA degree in Biology/Biology Education, or permission of instructor

Hours 2 hrs
Credits 2 cr.
Offered summer at the American Museum of Natural History

BIOL 66000 - Challenging Concepts in the Biological Sciences

Overview of research and theory related to misconceptions in biology. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

prereq: BIOL 61055, BIOL 63000, and one elective course or permission of instructor

Hours 4 hrs,
Credits 4 cr

Biological Sciences: Courses offered only upon sufficient student demand

BIOL 65000 - Cell and Tissue Culture

BIOL 72202 - Endocrinology

BIOL 77006 - Laboratory in Cell Structure

Applications of light and confocal microscopy, using fluorescence and multidimensional imaging to study cell structures. Lab projects involve immunofluorescence: fixation methods and immunocytochemistry. Illumination methods including multi-channel 3D rendering, image processing and visualization software.

Hours 7 (2 lecture, 5 lab)
Credits 4.5

BIOL 77101 - Analysis of Mammalian Cells in Tissue Culture

Chemistry

CHEM U79000 - Basic Laboratory Techniques for Research in Biochemistry

Lecture and laboratory work dealing with the theories and applications of modern approaches to the solution of chemical problems.

Credits 4 cr
CHEM U79500 - First Level Doctoral Laboratory Research

Hours to be arranged, credits variable.

CHEM U81010 - Research for the Doctoral Dissertation

Credits credits variable, one or more credits per semester
Offered at The Graduate Center

CHEM U81040 - Research for the Doctoral Dissertation

Credits credits variable, one or more credits per semester
Offered at The Graduate Center

CHEM 64000 - Biochemistry 1

Credits lec., 3 cr

CHEM 64100 - Biochemistry 2

Metabolism, biomedical genetics, immuno-biochemistry, hormones, muscle biochemistry.

prereq: CHEM 64000
Credits lec., 3 cr

CHEM 64300A - Seminar

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

Credits 1 cr

CHEM 64300B - Seminar

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

Credits 1 cr

CHEM 64900 - Instrumental Analysis

CHEM 64900 is a laboratory-based introduction to electronic instrumentation-based analytical techniques for chemistry and biochemistry, which focuses on theoretical foundations and practical applications. The course discusses instrumental analysis applications in pharmaceutical research and production, materials, food science, forensics, energy, and medical laboratories, as well as basic research in chemistry, physics and biology. The course will be taught in a mixed format including lectures and laboratory projects, student-led discussions, and a final writing/oral presentation project, with a primary emphasis on laboratory experience.
CHEM 65000 - Biophysical Chemistry

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent

Hours 4 hrs.
Credits 4 cr

Fall

CHEM 65500 - Demonstrations, Models, and Technology

Demonstrations, models, and technology.

Credits 3 cr

CHEM 66000 - Challenging Concepts in Chemistry

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

Hours 4 hrs.
Credits 4 cr

CHEM 66800 - Structural Biology

This course introduces to students the applications of molecular spectroscopy and other emerging techniques used to study the structure, the molecular interactions of, and the self-assembly of biomolecules. The course will be taught in a mixed format including lectures, computer laboratory projects, student-led discussions on journal papers, and a final writing/oral presentation project. Not open to students who have taken CHEM 369800

prereq: Instructor Permission

Hours 3 hrs
Credits 3 cr

CHEM 67000 - Introduction to Nanotechnology

This course introduces students to the underlying principles and applications of the emerging fields of nanotechnology and nanoscience. Intended for a multidisciplinary audience with a variety of backgrounds, the course introduces tools and principles relevant at the nano scale. The course discusses current and future nanotechnology applications in engineering, materials, physics, chemistry, biology, electronics, and energy. Not open to students who have taken CHEM 36000
CHEM 69803 - Chemical Genomics

The advent of high-throughput technologies and powerful computational tools is transforming the manner new drugs are developed. This course (bioinformatics) is designed to introduce students to two emerging areas of drug development, namely (1) computer-assisted drug design and (2) personalized medicine. Computer-assisted drug design is an approach to design drugs based on three dimensional structures of macromolecules. Personalized medicine, on the other hand, aims at tailoring patient treatments based on individual genetic information (biomarkers). In this course, students will be first equipped with fundamental theoretical and experimental concepts related to these topics. Then, they will learn how to acquire new knowledge in these exciting fields of drug development through critical analysis of literature.

CHEM 71000 - Advanced Inorganic Chemistry

The theoretical and experimental fundamentals of atomic and molecular structure. Emphasis is on physical interpretation.

CHEM 75000 - Advanced Organic Chemistry I

Fundamentals of organic chemical principles, reactions and structures.

CHEM 75100 - Advanced Organic Chemistry II

A continuation of CHEM 75000

CHEM 75200 - Quantum Organic Chemistry

The application of modern theoretical techniques to organic chemical problems

CHEM 76000 - Introductory Quantum Chemistry
Systematic development of the theories of chemistry including mathematical development and structural effects and the application of these theories to chemical systems.

*Hours 45 hrs,*  
*Credits 3 cr*

**CHEM 76100 - Spectroscopy**

A continuation of CHEM 76000

*Hours 45 hrs,*  
*Credits 3 cr*

**CHEM 77000 - Chemical Thermodynamics**

The development of the thermodynamic foundations of chemical processes: both the classical and statistical-mechanical approaches will be used.

*Hours 45 hrs,*  
*Credits 3 cr*

**CHEM 79900 - Thesis Research**

Individual research under supervision. Limited to students matriculated for the MA in chemistry.

*Credits 3 cr*  
*permission of department required*

**Chinese**

**CHIN 70100 - Chinese Phonology and Romanization**

This course will introduce Chinese phonetics, phonology, and the major sound transcription systems commonly used in teaching Chinese as a foreign language and found in Chinese dictionaries. Emphasis will be on acquiring accurate tones and standard pronunciation for English-speaking learners as well as learners who speak a Chinese dialect at home.

*Hours 3*  
*Credits 3*

**CHIN 70200 - Modern Chinese Pedagogical Grammar**

This course will introduce the grammatical system of modern Mandarin Chinese, including the characteristics of grammatical morphemes, word order, and sentence and discourse structures. The content will highlight difficulties for native speakers of English and helping them to overcome these difficulties effectively. The course will discuss pedagogical issues concerning grammar instruction such as how it differs from syntax; what grammar points need to be taught at each level; and the methods of teaching grammar.
**CHIN 70300 - Chinese Orthography and Lexicology**

This course will give an overview of the development of Chinese orthography and Chinese lexicology. Differences between the spoken and written styles will be discussed. The relationship of formation methods of the Chinese lexicon to syntactic functions and the process of character-based meaning derivation will be emphasized.

**CHIN 70500 - Topics in Advanced Conversation**

This course will give students advanced language training in speaking in a wide range of topics as well as specialized vocabulary needed to discuss Chinese instruction in Chinese. Students will further practice speaking skills to achieve advanced-mid or advanced-high oral proficiency according to the ACTFL (American Council for Teachers of Foreign Languages) scale. Authentic materials will be used throughout the course.

**CHIN 70600 - Topics in Advanced Writing**

This course will give students advanced language training in writing Chinese in everyday life situations as well as a Chinese language teaching professional with writing samples. Students will further practice writing skills to achieve advanced-low proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

**CHIN 70700 - Topics in Advanced Reading**

This course will give students advanced language training in reading Chinese. Students will further practice reading skills to achieve advanced-mid or advanced-high proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

**CHIN 70800 - Topics in Chinese Culture and Society**

This course will give students advanced language training in topics related to Chinese culture and society. Students will learn topics concerning Chinese culture and society in traditional and contemporary China. Authentic writing tasks and materials will be used throughout the course.
CHIN 70900 - Independent Study

Students will carry out an independent project approved by their faculty advisor and chairperson and supervised by a staff member.

Credits 1-3

Classics

CLA 70100 - The Legacy of Ancient Greece

A survey of Greek culture and civilization from the second millennium BCE to the rise of Alexander.

Hours 45 hrs, including conferences,
Credits 3 cr
See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70200 - The Legacy of Ancient Rome

A survey of the culture and civilization of Rome from the founding of the city to the reign of Marcus Aurelius.

Hours 45 hrs, including conferences,
Credits 3 cr
See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70600 - Supervised Reading

Independent reading on a particular aspect of ancient Greek or Roman culture, supervised by a faculty member.

Prior approval of graduate adviser required. May be taken twice for credit.

CLA 70700 - A Survey of Classical Literature in Translation

Communication Sciences Prerequisite Courses

COMSC 60400 - Introduction to Language Science
An introduction to the nature of language and communication. Topics include components of the linguistic system, relationship between verbal and non-verbal communication, and language acquisition across the life span.

Hours 45
Credits 3

COMSC 60700 - Phonetics of American English

Hours 45
Credits 3

COMSC 61500 - Speech and Its Production

An overview of the structure of speech and the basic mechanisms involved the production of speech sounds; a foundation for a more in-depth study of speech science and its application to clinical practice in speech-language pathology and audiology; structure and organization of the ventilatory, laryngeal, supralaryngeal and orofacial mechanisms; issues in basic speech acoustics and perception.

Hours 45
Credits 3

COMSC 62000 - Introduction to Speech-Language Pathology

Introduction to organic and behavioral correlates of human communication; its development and disorders. The influence of culture, heritage, and socioeconomic status on the disorders of voice, articulation, fluency, and language.

Hours 45
Credits 3

COMSC 64000 - Introduction to Audiology

Etiology and pathology of hearing disorders, basic properties of the auditory stimulus: measurement of pure tone thresholds by air and bone conduction. Overview of the audiologist in diagnosis and management of hearing disorders.

Hours 45
Credits 3

Communication Sciences

COMSC 70000 - Introduction to Research Methods

Introduction to basic research design and techniques used to study basic and applied communication science. Included is an overview of basic concepts and terminology, with emphasis on developing the ability to form a reasonable critical assessment of published literature. The course will focus on the development of technical writing skills, conducting thorough and efficient library and Internet research, the interpretation of graphical information, and a working
understanding of common statistical models.

prereq: none
Hours 45
Credits 3

COMSC 70200 - Multicultural Issues in Counseling and Communication

This course presents a multicultural perspective of counseling theories, techniques and strategies for persons with disorders and their families. It addresses the impact of cultural, ethnic, gender, socioeconomic and individual variations in culturally appropriate delivery of services to individuals with speech-language disorders as well as those acquiring English as a second language.

prereq: COMSC 72000
Hours 45
Credits 3

COMSC 70300 - Professional Practice in Educational Settings

The multifaceted role of the speech language pathologist in school settings; models of service delivery; collaborative assessment and teaching; computerized teaching programs; national and state legislation and regulations; rights and responsibilities of teachers and other staff; individualized educational planning; language-based learning disabilities; cultural diversity issues including bilingual and multicultural issues; roles of language in academic development and instruction; drug abuse education and fire safety. For successful completion of the course, students must also attend (a) a 2-hour workshop on identifying and reporting suspected child abuse or maltreatment; (b) a 2-hour workshop on school violence prevention and intervention.

prereq: COMSC 72000
Hours 45
Credits 3

COMSC 70500 - Acoustics, Physiologic and Auditory Phonetics

A comprehensive overview of basic phonetic science, as well as a foundation for its application to clinically relevant issues; basic concepts and terminology associated with the scientific study of the production, structure, transmission, and perception of the speech signal; acquisition, measurement and interpretation of physical data; speech and voice acoustics, aerodynamics, glottography, and kinematics.

prereq: COMSC 70800
Hours 45
Credits 3

COMSC 70600 - Summative Project I

The intention of this project is for students to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter College will be considered.

prereq or coreq: none
COMSC 70700 - Summative Project II

COMSC 70600 and 70700 are designed to facilitate the completion of a summative project. Students are intended to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students’ coursework at Hunter college will be considered.

prereq or coreq: none

Hours 30
Credits 2

COMSC 71100 - Models of Language

Designed to further the understanding of the nature of language acquisition process as it pertains to the field of speech/language pathology. By surveying the various scientific proposals with respect to language learning, the student will gain a richer understanding of how language learning might be interrupted. The student will gain exposure to an interdisciplinary approach to the notion of language learning.

prereq: none

Hours 45
Credits 3

COMSC 71200 - Neural Processes of Communication

Neuroanatomy of normal processes and disorders of speech, swallowing, language, vision, hearing, emotion, cognition and communication; development of the human nervous system; neurological disorders and their effects on communication processes.

prereq: none

Hours 45
Credits 3

COMSC 71500 - Communication Processes Related to Aging

Current understanding of adult development and aging as related to communication processes and disorders. Speech, language and hearing changes, as well as social, behavioral, physical and cognitive changes associated with normal and pathological aging processes. Intervention strategies, diagnostic and treatment materials, and audiological equipment for the communicatively impaired elderly population.

prereq: COMSC 70800, 75300

Hours 45
Credits 3

COMSC 71600 - Phonological Development and Disorders

Anatomical/physiological, cultural and psychological aspects of articulatory and phonological development and disorders; methods of prevention, assessment and intervention across the range of severity and etiology; impact of
COMSC 71700 - Language Disorders in Children

Language and communication disorders and differences in children from infancy through adolescence, including specific language impairment, pervasive developmental delay, autism and mental retardation, cognitive and social aspects of communication, variation in severity and type of disorders; management of children requiring special education as mandated by Federal Law; implications of early language disorders on literacy acquisition, assessment and intervention; cultural diversity issues; interdisciplinary strategies for intervention for children with communication challenges within the home, preschool, school, and community settings.

prereq: COMSC 71100
Hours 45
Credits 3

COMSC 71800 - Language and Literacy Disorders in School-Age Children

The impact of language disorders in school-age children and adolescents on their acquisition of academic skills required for the development of literacy skills and written language (reading, spelling and writing); cognitive and social aspects of communication; formal and informal assessment; collaborative management strategies; cultural diversity issues.

prereq: COMSC 71100
Hours 45
Credits 3

COMSC 71900 - Assessment and Management of Dysphagia across the Lifespan

Normal and abnormal swallowing function across the lifespan, clinically known as dysphagia; evaluation, management, and treatment of dysphagia across various neurological, mechanical, and esophageal conditions in infants, children and adults will be emphasized. Interpretation of modified barium swallow (MBS) and fiberoptic endoscopic evaluation of swallow (FEES) studies as well as non-oral options for nutrition/hydration will be addressed.

Hours 60
Credits 4

COMSC 72000 - Clinical Methods in Speech-Language Pathology

This course is an introduction to the scope and essentials of clinical practicum across the life span as reflected in the management of speech and language disorders in pediatric and adult populations. Basic clinical methods and procedures will be emphasized, including the development of the skills to select therapy targets, develop session plans, generate behavioral objectives and write SOAP notes. 25 hours of clinical observation (external to the course hours) are included. Completion of workshops in reporting child abuse and violence protection in the classroom will be required.

coreq: COMSC 70000, 70800, 71100, 71200
Hours 45
Credits 3
COMSC 72200 - Fluency Disorders

Anatomical/physiological, neurological, psychological, developmental, linguistic and cultural bases of fluency disorders; methods of prevention, assessment and intervention across the life span and range of severity and etiology; management in social, educational and vocational settings.

*prereq: COMSC 70800, 71200
*Hours 30
*Credits 2

COMSC 72300 - Studies in Bilingualism

A survey of classical and contemporary psycholinguistics literature as it pertains to bilingual speakers (both children and adults). The ways in which languages can be acquired and be represented will be reviewed in preparation for understanding how language and communication disorders might manifest in bilingual speakers. Several critical articles on the study of bilingualism will be discussed, under the following headings: (1) psycholinguistics from a cross language perspective, (2) early bilingual development, (3) the bilingual brain, (4) learning to read in more than one script, and (5) the cognitive impact of bilingualism. In addition, students will be engaged in discussions regarding the nature of bilingual language skills, the role of language in second language learning and how these factors impact assessment and treatment of language and communication disorders.

*Hours 45
*Credits 3

COMSC 72400 - Developmental and Acquired Motor Speech and Swallowing Disorders

Disorders of speech resulting from neurologic impairment affecting the motor programming (apraxia) or neuromuscular execution (dysarthria) of speech in infants, children, and adults; assessment and therapeutic management strategies in social, educational and vocational settings.

*prereq: none
*Hours 60
*Credits 4

COMSC 72500 - Developmental Motor Speech and Swallowing Disorders

Diagnosis and management of childhood dysarthrias, developmental apraxia of speech and related disorders of swallowing.

*prereq: COMSC 70800, 71200
*Hours 45 hrs
*Credits 3 cr

COMSC 72600 - Adult Neurogenic Communication Disorders

Neurological, linguistic, cognitive and psychological aspects of acquired communication disorders across the life span, including aphasia, traumatic brain injury, and dementia; prevention, assessment and intervention across a range of severity and etiology; interdisciplinary collaboration in acute care, home, educational and vocational settings.

*prereq: COMSC 71200
**COMSC 72700 - Voice Disorders**

The identification, assessment, diagnosis, and management of dysphonia and related laryngeal disorders; an overview of the functional, congenital, psychogenic, trauma-related, organic and neurogenic disorders that can affect vocal function, respiration, and resonance. The role of stroboscopy, glottography, aerodynamic and acoustic measures in the assessment of phonatory disorder is discussed and a survey of treatment techniques and strategies for voice patients is discussed. An off-campus trip to an ENT/voice lab in the metropolitan area will be scheduled for later in the semester.

*prereq: COMSC 70800, 71200*

**COMSC 72800 - Clinical Practicum in Speech-Language Pathology**

First-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 728.04, for students in the bilingual extension, designates a special section of COMSC 728 for practicum with Spanish-speaking children eligible for bilingual services.

*prereq: COMSC 72000, 73300*

**COMSC 72900 - Clinical Practicum in Speech-Language Pathology 1**

Second-year fall semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica or off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 72904 for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish speaking children eligible for bilingual services.

*prereq: COMSC 73300*

*coreq: COMSC 73600*

**COMSC 72904 - Clinical Practicum in Speech-Language Pathology 1**

for students in the bilingual extension, designates a special section of **COMSC 72900** for practicum with Spanish-speaking children eligible for bilingual services.

*prereq: COMSC 73300*

*coreq: COMSC 73600*

**COMSC 73000 - Cleft Palate and Craniofacial Disorders of Speech**
Broad spectrum of velopharyngeal incompetence, including embryogenesis, classification of clefts, aspects of cleft palate speech, associated disorders, modes of formal and informal assessment and intervention strategies within the home, school, hospital and work environments; current surgical and prosthetic management of cleft lip, palate and related craniofacial disorders; impact on learning and literacy acquisition.

**COMSC 73100 - Assessment and Management of Speech, Voice, and Swallowing Following Surgical Intervention for Head and Neck Cancer**

Assessment and management of surgically based swallowing disorders in children, adolescents and adults; rehabilitation of speech, voice following oral and laryngeal surgery including the use of speech aids.

**COMSC 73300 - Clinical Methods in Speech-Language Pathology: Diagnosis and Assessment**

This course is a continuation of the discussion of the scope and essentials of clinical practicum, as reflected in the identification and assessment of speech and language disorders across the life span. Basic clinical methods and procedures will be emphasized, including the development of the skills related to generating and interpreting diagnostic reports. Students will learn about processes related to the selection, interpretation, and administration of appropriate, client-specific formal and informal assessment tools.

**COMSC 73500 - Clinical Methods in Speech-Language Pathology: Reading and Dyslexia**

This clinical seminar addresses typical processes of reading across the life span including pre-literacy skills. Reading disorders in children and adults are discussed; differential diagnosis; therapeutic intervention; the role of the speech-language pathologist in the educational setting; collaboration among reading professionals, school-based curriculum and neuro-rehabilitation.

**COMSC 73600 - Clinical Seminar in Speech-Language Pathology 1**

Assessment measures and intervention strategies for individuals with disorders of speech and language across the lifespan; development of professional oral and written communication skills.
COMSC 73700 - Clinical Methods in Speech Language Pathology: Developmental Disabilities and AAC

This seminar focuses on knowledge and skills in speech-language pathology related to clinical competence and professionalism, clinical interventions, and clinical research with a focus on Developmental Disabilities (DD) (intellectual disability, autism spectrum disorders, cerebral palsy, and others) & Alternative and Augmentative Communication (AAC). Topics discussed include fundamental principles of assessment, diagnostic intervention planning & implementation, data- collection & interpretation, and follow-up assessment for monitoring progress across the lifespan in individuals with developmental disabilities. Presentation of no-tech (unaided communication), low-tech, mid-tech and high-tech AAC supports will be made available.

Hours 4 hrs
Credits 4 cr.

COMSC 73800 - Communication and Developmental Disabilities

This course surveys the communication status of individuals with developmental disabilities (i.e., intellectual disability, autism spectrum disorder, and cerebral palsy) with a focus on evidence-based assessment and intervention practices across the life span.

prereq: none
Credits 3

COMSC 73900 - Clinical Practicum in Speech-Language Pathology 2

Second-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence, or adulthood.

prereq: COMSC 72900
coreq: COMSC 73700
Credits 1 cr

COMSC 73904 - Clinical Practicum in Speech-Language Pathology 2

For students in the bilingual extension, designates a special section of COMSC 73900 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 72900
coreq: COMSC 73700
Hours 45 hrs,
Credits 3 cr

COMSC 75200 - Audiology for Speech-Language Pathologists

This course provides an overview of topics in audiology that are highly relevant to the professional in speech-language pathology. Specifically, identification, assessment and management of individuals across the life span (newborns through older adults) who have hearing loss and auditory processing disorders and disabilities are topics covered.
Particular emphasis will be on the role of speech-language pathologists in aural rehabilitive processes including cochlear implant use and other assistive technologies. Roles and responsibilities of the speech-language pathologist working with professionals in other disciplines as delineated in the Scope of Practice for the profession and the Code of Ethics of the American Speech-Language-Hearing Association are similarly reviewed.

**COMSC 77100 - Summer Clinical Practicum in Speech-Language Pathology 1**

First-year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practicum and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood and adolescence, as well as with adults.

**COMSC 77200 - Summer Clinical Practicum in Speech-Language Pathology 2**

Second year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood, adolescence, as well as with adults.

**COMSC 78100 - Independent Study**

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

**COMSC 78200 - Independent Study**

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

**COMSC 79000 - Special Topics in Speech-Language Pathology or Audiology**

**COMSC 77100 - Summer Clinical Practicum in Speech-Language Pathology 1**

First-year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervisor of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practicum and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood and adolescence, as well as with adults.

**COMSC 77200 - Summer Clinical Practicum in Speech-Language Pathology 2**

Second year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood, adolescence, as well as with adults.

**COMSC 78100 - Independent Study**

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

**COMSC 78200 - Independent Study**

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

**COMSC 79000 - Special Topics in Speech-Language Pathology or Audiology**

*Hours 45 hrs, Credits 3 cr*
COMSC 79600 - Special Problems

Directed study under supervision of faculty members. For doctoral credit, must be supervised by member of doctoral faculty.

Hours 45 hrs,
Credits 3 cr

COMSC 79900 - Thesis Seminar

Individual research under supervision.

Hours Hours to be arranged
Credits 3 cr

Community Health Education Required Courses

All COMHE Courses are 3 credits

COMHE 75000 - Community Health Assessment

This course prepares students to collect and analyze data on community health from a variety of sources, to identify problems and assets, and to develop objectives for community health interventions.

prereq: PH 75500
Hours 45
Credits 3

COMHE 75100 - Community Health Interventions

An introduction to community-level interventions as explained by theories of individual, organizational and community change from the disciplines of psychology, sociology and health education.

prereq: PH 75500, COMHE 75000
Credits 3

COMHE 75200 - Community Organizing and Development for Health

Prepares students to work in communities by presenting the theory and practice of organizing for social justice, skills for promoting leadership development within communities, and the tools to create and sustain healthy organizations.

prereq: PH 75500, COMHE 75000, COMHE 75100
Credits 3

COMHE 75300 - Health Program Planning and Funding

This course will engage students in identifying or designing a health program, finding funding sources, and developing a proposal covering program need, program objectives, a management and quality assurance plan, preliminary work, evaluation, budget, and a plan for funding support.
prereq: completion of 15 cr incl PH 75000 or 75100, PH 75500 and either COMHE 75000, COMHE 75100, COMHE
75200 or COMHE 75000 and NUTR 71000 or NURS 77100, COMHE 75100 and COMHE 75200.
Credits 3 cr

COMHE 75400 - Research and Evaluation for Community Health

Basic concepts, methods and approaches for evaluation research applied to community health education and health-
related programs through a critical review of literature and a program evaluation design.

prereq: 15 cr in program incl PH 75000 or PH 75100, PH 75500, COMHE 75000, COMHE 75100, COMHE 75200
Credits 3 cr

Community Health Education Elective Courses

All COMHE Electives are 3 Credits

COMHE 77000 - Topics in Community Health Education

Courses on current topics in community health education.

offered periodically

COMHE 77025 - Maternal and Child Health

This course explores maternal and child health issues both domestically and internationally.

Credits 3

Computer Science

CSCI 70100 - Theory of Operating Systems

Resources, concurrent processes, processor scheduling, probability models of sequencing, memory management,
performance analysis models.

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 70500 - Algorithms

Complexity and applicability of file and data manipulation techniques including searching, sorting, supporting internal
and external data structures, sequential and random access methods, basic big data techniques and other topics.

prereq: departmental permission
Hours 3 hrs
Credits 3 cr.
CSCI 71000 - Contemporary Data Base Technology

Current techniques in technology; case studies of pioneering applications; next-generation breakthrough analysis; current research efforts.

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 71100 - Cloud Database Security and Integrity

Privacy requirements, computer system security; policy formation, authorization, data integrity, audit control; other topics.

prereq: departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 72200 - Formal Methods in Programming Languages

Data and control abstractions; backtracking and nondeterminism; the effects of formal methods for program description; proving correctness.

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 72400 - Computational Theory

Turing machine model for computation: multiple tapes, multiple heads and nondeterminism, space-bounded and time-bounded TMs; completeness theorems.

prereq: departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 73000 - Computer Systems

Terminology, function units, buses, DMA, interrupts, priorities, memory systems, I/O systems, parallel processing and networking.

prereq: departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 74000 - Computer Modeling and Simulation

Examination of major models of data systems; Petri nets, data flow diagrams, queuing theory, other topics.
CSCI 75000 - Combinatorial Computing

Computer representation of combinatorial objects; back-tracking; generating and enumerating combinatorial objects; other topics

CSCI 75100 - Cryptography

Problems and possibilities of encryption and decoding; traditional and contemporary methods of encryption and time/memory trade-off.

CSCI 75200 - Graph Theory I

Permutations and combinations, generating functions, advanced counting numbers, cycles, parity, conjugacy classes, graphs, other topics.

CSCI 75300 - Graph Theory II

Depth-first search, ordered trees, codes, optimization problem, sort-by-merge; applications of network flow techniques; other topics.

CSCI 76000 - Computational Linguistics

Formal grammars, transformational models, augmented transition networks, design of parsers, parsing techniques, Determinism Hypothesis, other topics.
CSCI 76100 - Artificial Intelligence

Levels and types of knowledge, uses and induction of knowledge, logic, machine learning, scope and specificity choice of primitives, other topics.

CSCI 77100 - Contemporary Application Development

Current techniques in technology, pioneering applications; analysis of next-generation breakthroughs and current research efforts.

CSCI 79500 - Advanced Topics in Computer Science

Topics will vary, dealing primarily with state-of-the-art material in computer science. May be repeated for a maximum of 6 cr.

CSCI 79900 - Thesis Research in Computer Science

Thesis research. The course is open only to students selecting the thesis option. May be repeated for a maximum of 6 cr.

DAN 70100 - Physical Training

The ongoing, rigorous training in a dance/movement style pertinent to the individual student's artistic and pedagogical goals. Exploration of unfamiliar movement disciplines will be required. This course is designed to allow each student
to articulate and execute a regular training regimen that will build and refine her/his skills as practitioner of an artistic movement discipline. A variety of individual training plans are overseen by faculty. Regular group meetings examine how underlying aesthetic and kinesiological assumptions embodied by the training inform students' approaches to teaching artistry, improvisation, and choreography.

**DAN 70500 - Maintenance of the Dancer's Instrument**

An in-depth survey of a wide variety of somatic approaches to and interventions in dance training including ideokinetic and bodywork techniques, postural and motional training methods, and alternative movement disciplines. The course includes analytical, observational and participatory experiences, and will build on individual needs and interests of the students. Application of somatic knowledge to teaching movement and dance is stressed.

**prereq or coreq:** DAN 35000 or equivalent course and/or related professional background  
**Hours** 3  
**Credits** 3

**DAN 73000 - Studies of Forms**

This course develops choreographic proficiency through practical experience with, and observation of, artistic form and content across a range of disciplines. Short- and long-term experiments are presented in class and in occasional showings open to the public. The role of self-review, as well as external feedback during creative processes, is considered by utilizing a variety of protocols for response.

**prereq:** Undergraduate choreography training and/or equivalent professional experience, permission of department  
**Hours** 3  
**Credits** 3  
_This course is repeatable once for credit._

**DAN 73300 - Process and Projects**

This course asks the Dance student to explore unfamiliar genres, styles and methodologies through a variety of choreographic project assignments. An inventory of each student's past experiences leads to a collaboratively designed and individualized series of assignments designed to stretch the student's experiences and capabilities.

**prereq:** Undergraduate choreography training and/or equivalent professional experience, permission of department  
**Hours** 3  
**Credits** 3

**DAN 73500 - Performance and Presentation**

The development and public presentation of original choreography in performance at Hunter College or another suitable public venue. Regularly scheduled showings will offer opportunities to reflect on the work, receive feedback, and dialogue with faculty during the process of conception and execution.

**prereq:** Acceptance into one of the graduate dance programs: BA/MA, MA  
**Hours** 3
Credits 1
This course is repeatable once for credit.

DAN 73700 - MFA Project

The development, supported by regular faculty mentorship, of at least 30 minutes of original choreography. The work will be presented in a formal venue at Hunter College or another suitable performance space. A reflective paper synthesizing process, product and context will culminate the project.

prereq: Studies and Forms (2x) DAN 730, Process and Projects DAN 733, Performance Presentation (2x) DAN 735, Modes of Inquiry DAN 744, Aesthetics DAN 740, Graduate Dance History DAN 742, Physical Training DAN 701
Hours 3 hrs
Credits 8 cr.

DAN 74000 - Aesthetics

A seminar examining a variety of global artistic practices and value systems from both aesthetic and cultural perspectives. The course focuses on a broad range of dance and examines how choreographers, dancers, designers, critics, audience members, teachers, producers and scholars function and interrelate. Students examine a variety of analytical paradigms-- including structuralism, semiotics and literary theory -- through the study of the major writers and thinkers in the field. A culminating study is typically a close analysis of the student's personal creative work.

prereq: Admission to one of the graduate dance programs

Hours 3
Credits 3

DAN 74200 - Graduate Dance History

This course deepens the student's understanding of key points in concert and global vernacular dance in the 20th century. How those points have reflected social, cultural, and political forces, and impacted 21st century dance, is examined throughout the course. A major research paper is the culminating project. Both practice and theory are engaged through readings of historic texts and public reviews, film/video viewings, attendance at live performances, and group discussions.

prereq: Admission to one of the graduate dance programs AND DAN 23200 or comparable undergraduate dance history course or equivalent experience.

Hours 3
Credits 3

DAN 74400 - Modes of Inquiry

This course introduces various research approaches and methods. Research design - including statements of purpose, review of related literature, articulation of methods, and definition of terms – the place of action research in creative exploration (including teaching practice), arts-based research, and the role of theory in research are addressed through readings, discussion, practical experience, and written exercises and papers.

prereq: Admission to MFA Dance program
Hours 3
Credits 3
DAN 74600 - Special Topics in Dance

A seminar/laboratory course focusing on a varying series of topics, selected according to student interests, current faculty research, and available guest artists and master teachers. Topics can include a wide variety of historical, aesthetic, cultural, technological and political issues. The course encourages advanced study in specialized areas of particular student interest. Possible topics include: dance in the digital age, specific cultural forms, dance in community settings, motor learning from multiple perspectives, etc.

prereq: Admission to one of the graduate dance programs
Hours 3
Credits 3
Can be repeated for credit with different content areas

DAN 75000 - Topics in Teaching for College/University

Intensive examination of the relationship between pedagogy, teaching artistry, and curriculum design. Includes study of the history, philosophy, and cultures of dance in higher education. Topics include lesson, unit, course, and curriculum structuring, assessment strategies; application of choreographic principles to course design; the relationship between higher education and the changing dance environment, and understanding the administrative hierarchy in higher ed. Students are observed and mentored in their roles as teachers.

prereq: DANED 76000
Hours 3
Credits 3

Economics

Equivalent courses at other institutions satisfy prerequisite and corequisite requirements.

ECO 70100 - Microeconomic Theory

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500

ECO 70300 - Macroeconomic Theory

Determinants of national income, output, employment and price levels, including microeconomic foundations of aggregate consumption, saving, and investment; theories of the business cycle and long-term growth; effects of public policies on employment, inflation and economic growth.

prereq: ECO 30100 with a grade of B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500

ECO 71000 - Monetary Theory and Policy

Factors determining demand for and supply of money; theories of rate of interest; issues of monetary policy.
prereq: ECO 21000
prereq or coreq: ECO 70300 and ECO 72100

**ECO 71100 - Banking and Financial Markets**

Factors determining banking and financial structure in US. Issues involving financial crises and bank failure, allocation of financial resources, regulation and competition.

prereq: ECO 21000
prereq or coreq: ECO 70300 and ECO 72100

**ECO 71500 - Public Finance**

Principles of taxation and government spending; efficiency and equity trade offs; decentralized public finance and fiscal federalism.

prereq or coreq: ECO 70100 and ECO 72100

**ECO 72100 - Linear Econometric Analysis**

Econometric analysis of linear statistical models. Topics include: ordinary least squares-estimation, inference, testing and specification testing; instrumental variables and simultaneous equations models; panel data regression; time series and forecasting

prereq: ECO 32100 with a grade of B; MATH 15000 and MATH 16000 with an average grade of B
prereq or coreq: MATH 15500

**ECO 72200 - Non-Linear Econometric Analysis**

Econometric analysis of nonlinear statistical models. Maximum likelihood estimation; models for binary outcomes; models for ordered and unordered multinomial outcomes; models for self-selection; count data models.

prereq: ECO 72100
prereq or coreq: MATH 16000

**ECO 72300 - Time Series and Forecasting**

Econometrics of time-series data; application of autoregressive and moving average (ARIMA) models to economic data.

prereq: ECO 72200

**ECO 72400 - Microeconometrics**

Introduction to advanced econometric techniques commonly used in applied microeconomic research. The topics covered will be panel data, instrumental variables estimation, limited dependent variables, truncated, censored and selected samples, and duration models.

prereq: ECO 72200
ECO 72600 - Policy and Program Evaluation

Econometric techniques for evaluating programs. Topics include randomized experiments, propensity score matching, instrumental variables, difference-in-difference estimates, regression discontinuity models and the ethics of human subject research. Most of the assignments will be problems sets involving analysis of data using a statistical package and written up in the form of research reports. Estimates 5 reports of 5 pages each. One term paper of 15 pages.

*prereq: ECO 72200 or STAT 70700*

*Hours 3*  
*Credits 3*

ECO 72900 - Behavioral Economics

This is a Masters level course in behavioral economics (also known as: economics and psychology). You will be introduced to several topics in this new and exciting field. The main objective of behavioral economics is to modify existing models of economic decision-making using results from experiments in economics and psychology. We will continue to use the methodology of economics, but we will 'tweak' the models to make them more realistic. We will then use these models to try and predict behavior in various settings, from standard economic ones (like consumption-saving decisions) to non-economic ones (like deciding when to go to the gym). Some examples of topics to be studied: procrastination, altruism, gambling, and self-control.

*prereq: ECO 70100 (MA Microeconomic Theory) or equivalent*  
*Hours 3 hrs.*  
*Credits 3 cr.*

ECO 73000 - Economic Development

Theories of economic development and economic issues of developing countries. Possible topics include the analysis of poverty, inequality, rural financial markets, labor and land markets, trade and environmental policies.

*prereq or coreq: ECO 70100 or ECO 70300, and ECO 72100*

ECO 73200 - Economic Growth

Investigation of the issue of why some countries become rich while other do not. Study of the factors that contribute to and retard economic growth.

*prereq or coreq: ECO 70100 and ECO 70300*

ECO 73500 - Urban Economics

Economic analysis of form and functioning of big cities. Analyses of location of economic activity within metropolitan areas and market for land; analyses of major urban policy issues, including housing, transportation, urban poverty, urban public finance.

*prereq or coreq: ECO 70100 and ECO 72100*
**ECO 74000 - International Trade: Theory and Policy**

International trade theory and analysis of current economic problems; terms of trade; balance of payments; trade regulations and policies, international financial institutions, foreign aid, regional integration.

*prereq or coreq: ECO 70100 and ECO 72100 recommended prereq or coreq: ECO 70300*

**ECO 74100 - International Finance**

Examination of the international financial system, models of exchange rate determination, open economy macroeconomics, and international financial markets.

*prereq or coreq: ECO 70100 and ECO 72100*

**ECO 74500 - Labor Economics**

Economic theory and research on differences in employment and compensation; effects of demographic characteristics, human capital, labor unions, and income maintenance policies.

*prereq or coreq: ECO 70100 and ECO 72100*

**ECO 74800 - Health Economics**

Economic analysis of the health care industry to explain the demand for and supply of medical care. Includes analysis of behavior of consumers, producers, and insurers; and public policies to regulate the industry and to provide services for the poor and elderly.

*prereq or coreq: ECO 70100 and ECO 72100*

**ECO 75500 - Industrial Organization**

Product market decisions by firms in monopoly and oligopoly; the boundaries of the firm and vertical integration; applications to antitrust and regulatory policy.

*prereq or coreq: ECO 70100 and ECO 72100*

**ECO 75600 - Law and Economics**

A study of economic foundations of law. Topics include the role of property rights and liability rules in the control of externalities, controlling the cost of accidents, the control of criminal behavior, product failure and damage, medical malpractice. Consideration of the economic logic underlying the law.

*prereq or coreq: ECO 70100 and ECO 72100*

**ECO 76000 - Financial Economics**

Examination of the models of finance: optimization over time, asset valuation and risk management. Applications to models of asset pricing, including stocks, bonds and options; portfolio selection; and problems in corporate finance including investment analysis and capital structure.
ECO 76100 - Advanced Concepts in Financial Markets

Study of the essential techniques of pricing financial derivatives, including the Black-Scholes formula, binomial trees, and risk-neutral valuation methods. Discussion of trading strategies associated with the use of financial derivatives for different purposes, and potential problems that can arise in the application of financial derivatives.

prereq: ECO 76000

ECO 76200 - Corporate Governance

Economic analysis of how institutional arrangements distribute power, authority, and control across different stakeholders of the firm; contractual agreements as a means to render such institutional arrangements unnecessary.

prereq or coreq: ECO 70100 and ECO 72100

ECO 76500 - Games and Information

Game theory offers a framework for analyzing social interactions and emergent behavior in a very wide variety of human contexts. The purpose of this course is to offer a critical introduction to game theory and its applications. Economic applications include the analysis of conflict and the emergence of trust and cooperation out of anarchy, the analysis of firms' strategic behavior in concentrated markets, or of herd behavior and panics in financial markets. Asymmetric information economics and mechanism design extend game theory by exploring how the design of the rules of a game, or the initial distribution of information might affect equilibrium behavior outcomes, and therefore how one might choose to set up the rules of the game to govern their interactions.

prereq or coreq: ECO 70100

ECO 78500 - Internship

Internships with organizations engaged in economic research. Students write a research paper under direction of said organization and concomitant supervision of instructor. Open to MA students who have completed at least 15 cr of graduate work; may be taken only once.

Open to MA students who have completed at least 15 cr of graduate work; may be taken only once.

ECO 79000 - Independent Study

Intensive study of special field of economics under supervision of member of graduate faculty.

prereq: permission of instructor and graduate adviser

ECO 79100 - Independent Study

Intensive study of special field of economics under supervision of member of graduate faculty.

prereq: perm instr and graduate adviser
Credits 1 cr
May be taken only once.
**ECO 79500 - Economics Seminar**

Special topic and research in economics.

*May be repeated for credit by perm chair or graduate adviser*

**ECO 79800 - Thesis Research**

Preparation of acceptable MA thesis under faculty supervision.

*Credit not granted until thesis is accepted*

**Education: School Administration and Supervision**

**ADSUP 70400 - Leadership to Enhance Human Resources**

Interpersonal and group relationships applied to administrative and supervisory functions in schools and districts; intensive experience in group process and the development of a positive school climate and culture.

*Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work*

*Credits 4*

**ADSUP 70600 - School-Based Field Experience Seminar in Administration and Supervision**

An intensive school-based leadership experience in which students apply knowledge and skills developed in prior coursework. A weekly seminar includes required workshops on child abuse and violence prevention.

*Hours 200 hrs of leadership experiences in field work*

**ADSUP 70700 - District/Region Field Experience Seminar in Administration and Supervision**

An intensive district/region-based leadership experience in which students apply knowledge and skills developed in prior coursework. A weekly seminar includes required workshops on child abuse and violence prevention.

*Hours 200 hrs of leadership experiences in field work*

**ADSUP 71500 - Supervision for the Improvement of Instruction**

An examination of varied productive supervisory techniques which promote the improvement of instruction and enhance the supervisory process.
Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

**ADSUP 71600 - Leadership Strategies for School Reform**

An introduction to leadership theory, school, district reform and the school principalship. Leadership theory is explored from a systems perspective with a focus on both the theoretical and practical tools for promoting school and district change that leads to high levels of student achievement.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

**ADSUP 71700 - Seminar in Evaluating and Applying Educational Research**

This course provides students seeking to be educational leaders with the theoretical and the practical considerations for evaluating, conducting and using research in schools and school districts.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

**ADSUP 72100 - Legal Issues, Finance, Facilities and Operations**

A study of school legal issues finance and budgeting. Processes and cases from New York State, New York City, local school district and building level management of operations and facilities.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work
Credits 4

**ADSUP 73100 - Using Data, Technology and Assessment to Plan and Design Curriculum and Instruction**

This course provides students seeking to be instructional leaders with both the theoretical and the practical considerations necessary for using technology, data, and assessment to plan and design curriculum for effective instruction.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work
Credits 4

**ADSUP 74100 - School District Leadership: Problems and Issues**
System-wide administrators must combine the elements of vision, with instructional and administrative leadership in order to guide learning organizations. They must develop skills, strategies and knowledge of the leading educational issues they are facing to be able to create collaborative, safe, and successful educational environments capable of being successful.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work*

*Credits 4*

**ADSUP 75100 - District and School Based Field Experience Seminar in Administration and Supervision**

Intensive applications of program knowledge, skills and dispositions in school and district field settings available to the student, and a 40 hour seminar that includes a two-hour unit on each of both child abuse prevention and violence prevention.

*Hours 60 hrs plus 200 hrs of leadership experiences in field work stipulated in a contract*

*Credits 4*

**ADSUP 75600 - Professional Discourse and Leadership in Gifted Education**

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

*Cross-listed SPED 75600, CEDC 75600, CEDF 75600*

*prereq or coreq: SPED 75300 and SPED 75400*

*Hours includes 10 hrs field experience*

*Credits 3*

**Education: Adolescent Education**

**ARTED 71000 - Methods for Childhood Art Education - Grades PreK-6**

This course focuses on visual arts education methods, philosophies and theories of learning and development in the visual arts for children from Pre-K- grade 6. It emphasizes children's aesthetic development, safe and appropriate uses of materials and resources, and appropriate methods and pedagogy for teaching the visual arts in grades PreK-6.

Includes 36 hours of fieldwork in a school.

*prereq or coreq: SEDF 70300 and SEDF 70400*

*Hours 3 hrs*

*Credits 3 cr.*
ARTED 71100 - Methods of Teaching the Visual Arts Grades 7-12

This course focuses on visual arts education methods, philosophies and theories of learning and development in the visual arts for the adolescent. Focus: It emphasizes adolescent aesthetic development, safe and appropriate uses of materials and resources, and appropriate methods and pedagogy for teaching the visual arts in grades 7-12.

Course includes 48 hours of fieldwork in a school. Students are observed and evaluated in the field at least once.

prereq: ARTED 71000 and SEDF 70500
Hours 3 hrs
Credits 3 cr.

ARTED 71200 - Student Teaching in the Visual Arts Grades Pre-K-12

Teacher candidates complete a total of 60 days of student teaching Monday through Friday (30 days at grades pre-K-6 and 30 days at grades 7-12) under the supervision of a Hunter College faculty member and a certified Art Educator in a New York City school selected by the college.

prereq: ARTED 71000 and ARTED 71100 plus 6 credits in ARTH and ARTCR
Hours 5 hrs
Credits 2 cr.

CHND 71200 - Methods 1: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Chinese, Grades 7-12

The course covers options for classroom management, learning environment appropriate to 7-12 classrooms, and assessment. Attention is given to classroom management task, setting up and exploiting various learning environments, and methods for assessment. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes homework assignment and projects.

prereq or coreq: SEDF 70400 or permission of the adviser
Credits 3

CHND 71300 - Methods 2: Intensive Study of Teaching Diverse Learners in Chinese, Grades 7-12

This course aims to familiarize prospective school teachers, grades 7-12 with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curricula in Chinese. Innovative uses of technology, development of instructional units, individualization for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course. Thirty-six hours of field experience/observation is a part of this course. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes development of lesson plans, homework assignment, and projects for classroom use.

prereq or coreq: CHND 71200 and SEDF 70500 or permission of the adviser
Hours 30 hrs plus 36 hrs fieldwork
Credits 2
CHND 73100 - Student Teaching in Chinese, Grades 7-12

Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticism. These presentations will be videotaped for further self-analysis at home.

prereq or coreq: CHND 71300 or permission of the adviser.
Hours 60 days, 30 hrs seminar plus workshops and conferences,
Credits 5

CHND 74110 - Practicum in Chinese, Grades 7-9

Supervised practicum for teachers of Chinese in grades 7-9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74110 must also take CHND 74120.

prereq or coreq: CHND 71200 or permission of the adviser.
Hours 30 hrs plus conferences
Credits 2

CHND 74120 - Practicum in Chinese, Grades 10-12

Supervised practicum for teachers of Chinese in grades 10-12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74120 must also take CHND 74110

prereq or coreq: CHND 71200 or permission of the adviser.
Hours 30 hrs plus conferences,
Credits 2

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.
prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 71500 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Social Studies, Grades 7–12

Rationales and methodologies for teaching social studies based on current theories of the nature of students, the social sciences and secondary schooling.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 71600 - Math: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the contents of mathematics programs and curricula in grades 7–12 and will formulate teaching methodology for the meaningful learning of mathematics. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45 hrs
Credits 3
SEDC 71700 - Social Studies: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of social studies programs and curricula in grades 7–12 and will formulate teaching methodology for the meaningful learning of social studies. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45
Credits 3

SEDC 71800 - Science: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of science programs and curricula in grades 7–12 and formulate teaching methodology for the meaningful learning of science. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45 hrs
Credits 3

SEDC 71900 - Methods 1: Advanced Study of Secondary Learning Environments for Teaching Computer Science

Examines the interrelationship between the educational environment and the adolescent's learning of computer science. Teacher candidates study the basics of classroom management in the teaching of computer science as they explore the content and implementation of proposed national, New York State, and New York City standards for computer science. Fosters the use of technology as an educational tool to improve the technical literacy of the adolescent.

Hours 3.0
Credits 3.0

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72100 - Advanced Study of Teaching English Methods to a Diverse Population in Grades 7–12

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. These presentations will be videotaped for further self-analysis at home. New York State and city teaching standards will be applied throughout the course.

prereq: SEDC 71100
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71200
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SEDC 72300 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SEDC 72500 - Methods II: Intensive Study of Teaching Diverse Learners in Social Studies, Grades 7–12
Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71500
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

**SEDC 72900 - Methods II: Intensive study of Teaching Computer Diverse Learners in Computer Science Grades 7-12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population emerging state and professional standards-based curriculum in computer science. Innovative uses of technology, development of instructional units, individualizing for a diverse population of students, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71900
coreq: SEDC 74100
Hours 3.0
Credits 3.0

**SEDC 73000 - Development of Mathematical Thinking: Implications For Teaching and Learning Mathematics in Grades 7 to 12**

A course exploring the role of the teacher in developing mathematical reasoning ability in students. What are the possibilities and limitations? A research-based approach to the problem of providing a solid mathematics education for all students.

**SEDC 73100 - Seminar in Mathematics Curriculum, Grades 7-12**

A study of the current Standards-Based Mathematics Curriculum from an historical perspective.

**SEDC 73200 - Research Seminar in Mathematics Education, Grades 7-12**

A course in which students will study the research relative to the mathematics curriculum and complete a research project in a field of mathematics education of their choice.

**SEDC 73600 - Curriculum Design for Computer Science**

This course will prepare candidate teachers to design complete units of study ranging from standalone class units to complete courses to a sequence of courses. Candidates will learn to build developmentally appropriate materials by looking at curriculum from top down and bottom up perspectives as well as how computer science fits within an adolescent's full education.

Hours 3.0
Credits 3.0
**SEDC 74100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

*Cross-listed SEDC 34100*

*coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500*

*Hours 15 hours of seminar; 48 hours of fieldwork*

*Credits 1*

**SEDC 75100 - Student Teaching in English, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72100*

*prereq or coreq: SEDF 70600*

*Hours 45; 60 days student teaching plus workshops and conferences*

*Credits 5*

**SEDC 75201 - Student Teaching in French, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72200*

*prereq or coreq: SEDF 70600*

*Hours 45; 60 days student teaching plus workshops and conferences*

*Credits 5*

**SEDC 75202 - Student Teaching in Italian, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72200*

*prereq or coreq: SEDF 70600*

*Hours 45; 60 days student teaching plus workshops and conferences*

*Credits 5*

**SEDC 75203 - Student Teaching in Spanish, Grades 7–12**
Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200  
prereq or coreq: SEDF 70600  
Hours 45; 60 days student teaching plus workshops and conferences,  
Credits 5

SEDC 75300 - Student Teaching in Mathematics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300  
prereq or coreq: SEDF 70600  
Hours 45; 60 days student teaching plus workshops and conferences,  
Credits 5

SEDC 75401 - Student Teaching in Biology, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400  
prereq or coreq: SEDF 70600  
Hours 45; 60 days student teaching plus workshops and conferences,  
Credits 5

SEDC 75402 - Student Teaching in Chemistry, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400  
prereq or coreq: SEDF 70600  
Hours 45; 60 days student teaching plus workshops and conferences,  
Credits 5

SEDC 75403 - Student Teaching in Physics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5

SEDC 75404 - Student Teaching in Earth Science, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5

SEDC 75500 - Student Teaching in Social Studies, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72500
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences
Credits 5

SEDC 75600 - Student Teaching in Music, Pre-K–12

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 and 30 days at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: MUSED 67800
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

SEDC 75900 - Student Teaching for Computer Science

Teacher candidates complete 60 days of student teaching at grades 7–12 under the supervision of a Hunter College faculty member and a certified teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 71900 and SEDC 72900
Hours 3.0
Credits 3.0
**SEDC 76110 - Student Teaching in English, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72100
prereq or coreq: SEDF 70600
Hours 45 hours, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76110 must also complete SEDC 76120 or SEDC 77120.*

**SEDC 76120 - Student Teaching in English, Grades 10–12**

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72100
prereq or coreq: SEDF 70600
Hours 30 hours, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76120 must also complete SEDC 76110 or SEDC 77110.*

**SEDC 76211 - Student Teaching in French, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45 hrs plus, 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76211 must also complete SEDC 76221 or SEDC 77221.*

**SEDC 76212 - Student Teaching in Italian, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76212 must also complete SEDC 76222 or SEDC 77222.*

**SEDC 76213 - Student Teaching in Spanish, Grades 7–9**
Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76213 must also complete SEDC 76223 or SEDC 77223.

SEDC 76221 - Student Teaching in French, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76221 must also complete SEDC 76211 or SEDC 77211.

SEDC 76222 - Student Teaching in Italian, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76222 must also complete SEDC 76212 or SEDC 77212.

SEDC 76223 - Student Teaching in Spanish, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76223 must also complete SEDC 76213 or SEDC 77213.

SEDC 76310 - Student Teaching in Mathematics, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified mathematics teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.
prereq: SEDC 72300
prereq or coreq: SEDF 70600
Hours 45 hrs, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76310 must also complete SEDC 76320 or SEDC 77320.

SEDC 76320 - Student Teaching in Mathematics, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300
prereq or coreq: SEDF 70600
Hours 30 hrs, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76320 must also complete SEDC 76310 or SEDC 77310.

SEDC 76411 - Student Teaching in Biology in Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76411 must also complete SEDC 76421 or SEDC 77421.

SEDC 76412 - Student Teaching in Chemistry, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76412 must also complete SEDC 76422 or SEDC 77422.

SEDC 76413 - Student Teaching in Physics, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
**SEDC 76414 - Student Teaching in Earth Science, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. They will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76414 must also complete SEDC 76423 or SEDC 77423.*

**SEDC 76421 - Student Teaching in Biology, Grades 10–12**

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76421 must also complete SEDC 76411 or SEDC 77411.*

**SEDC 76422 - Student Teaching in Chemistry, Grades 10–12**

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76422 must also complete SEDC 76412 or SEDC 77412.*

**SEDC 76423 - Student Teaching in Physics, Grades 10–12**

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76423 must also complete SEDC 76413 or SEDC 77413.*
SEDC 76424 - Student Teaching in Earth Science, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. They will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76424 must also complete SEDC 76414 or SEDC 77414.

SEDC 76510 - Student Teaching in Social Studies, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDF 72500
prereq or coreq: SEDF 70600
Hours 45 hrs, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76510 must also complete SEDC 76520 or SEDC 77520.

SEDC 76520 - Student Teaching in Social Studies, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDF 72500
prereq or coreq: SEDF 70600
Hours 30 hrs, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76520 must also complete SEDC 76510 or SEDC 77510.

SEDC 76610 - Student Teaching in Music, Grades Pre-K–6

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: MUSED 67800
prereq or coreq: SEDF 70600
Hours 30 hrs, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76610 must also complete SEDC 76520 or SEDC 77520.

SEDC 76620 - Student Teaching in Music, Grades 7–12
Teacher candidates complete 30 days of student teaching at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** MUSED 67800  
**prereq or coreq:** SEDF 70600  
*Hours 30 hrs, 30 days student teaching plus conferences,*  
*Credits 3 cr*  
*Students who enroll in SEDC 76620 must also complete SEDC 76510 or SEDC 77510.*

**SEDC 77110 - Practicum in English, Grades 7–9**

Supervised practicum for teachers of English in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77110 must also take SEDC 77120.

**prereq:** SEDC 72100  
**prereq or coreq:** SEDF 70600  
*Hours 45 hours plus conferences,*  
*Credits 3*  

**SEDC 77120 - Practicum in English, Grades 10–12**

Supervised practicum for teachers of English in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77120 must also take SEDC 77110.

**prereq:** SEDC 72100  
*Hours 30 hrs plus conferences,*  
*Credits 2 cr*  

**SEDC 77211 - Practicum in French, Grades 7–9**

Supervised practicum for teachers of French in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77211 must also take SEDC 77221.

**prereq:** SEDC 72200  
**prereq or coreq:** SEDF 70600  
*Hours 45 hours plus conferences,*  
*Credits 3*  

**SEDC 77212 - Practicum in Italian, Grades 7–9**

Supervised practicum for teachers of Italian in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77212 must also take SEDC 77222.
SEDC 77213 - Practicum in Spanish, Grades 7–9

Supervised practicum for teachers of Spanish in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77213 must also take SEDC 77223.

SEDC 77221 - Practicum in French, Grades 10–12

Supervised practicum for teachers of French in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77221 must also take SEDC 77211.

SEDC 77222 - Practicum in Italian, Grades 10–12

Supervised practicum for teachers of Italian in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77222 must also take SEDC 77212.

SEDC 77223 - Practicum in Spanish, Grades 10-12

Supervised practicum for teachers of Spanish in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77223 must also take SEDC 77213.
SEDC 77310 - Practicum in Mathematics, Grades 7–9

Supervised practicum for teachers of mathematics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77310 must also take SEDC 77320.

prereq: SEDC 72300
prereq or coreq: SEDF 70600
Hours 45 hrs plus conferences
Credits 3

SEDC 77320 - Practicum in Mathematics, Grades 10-12

Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 773.20 must also take SEDC 77310.

prereq: SEDC 723
Hours 30 hrs plus conferences,
Credits 2 cr

SEDC 77411 - Practicum in Biology, Grades 7–9

Hunter College-supervised practicum for teachers of biology in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77411 must also take SEDC 77421.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

SEDC 77412 - Practicum in Chemistry, Grades 7–9

Supervised practicum for teachers of chemistry in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77412 must also take SEDC 77422.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

SEDC 77413 - Practicum in Physics, Grades 7–9

Hunter College-supervised practicum for teachers of physics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77413 must also take SEDC 77423.
prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

**SEDC 77414 - Practicum in Earth Science, Grades 7–9**

Hunter College-supervised practicum for teachers of earth science in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77414 must also take **SEDC 77424**.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences
Credits 3

**SEDC 77421 - Practicum in Biology, Grades 10-12**

Hunter College-supervised practicum for teachers of biology in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr
Students who take SEDC 77421 must also take SEDC 77411.

**SEDC 77422 - Practicum in Chemistry, Grades 10–12**

Supervised practicum for teachers of chemistry in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr
Students who take SEDC 77422 must also take SEDC 77412.

**SEDC 77423 - Practicum in Physics, Grades 10–12**

Hunter College-supervised practicum for teachers of physics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77423 must also take SEDC 77413.
**SEDC 77424 - Practicum in Earth Science, Grades 10–12**

Hunter College-supervised practicum for teachers of earth science in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77424 must also take SEDC 77414.

*prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr*

**SEDC 77510 - Practicum in Social Studies, Grades 7–9**

Supervised practicum for teachers of social studies in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77520.

*prereq: SEDC 72500
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences
Credits 3*

**SEDC 77520 - Practicum in Social Studies, Grades 10–12**

Supervised practicum for teachers of social studies in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77510.

*prereq: SEDC 72500
Hours 30 hrs plus conferences,
Credits 2 cr*

**SEDC 77610 - Practicum in Music, Grades Pre-K–6**

Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77620.

*prereq: MUSED 67800
Hours 30 hrs plus conferences,
Credits 2 cr*

**SEDC 77620 - Practicum in Music, Grades 7–12**

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77610.
prereq: MUSED 67800
Hours 30 hrs plus conferences,
Credits 2 cr

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,
Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500
coreq: One of the following must be a Co-req:

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 774.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23
SEDFF 71400 - Adolescent Development and Learning: Grades 7-12

This course prepares teacher candidates to think about how adolescents develop and learn by examining the process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and levels of ability. Emphasis will be placed on creating culturally compatible classrooms, motivating students, and assessing their learning.

Education: Bilingual Education

BILED 70100 - Foundations of Bilingual Education

A historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

BILED 71100 - Bilingual Literacy-Spanish

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.
**BILED 71200 - Bilingual Literacy-French**

Bilingual literacy - French: conducted in French and English and will present how to differentiate instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners. The course aims to develop teachers' ability to plan for language, content and literacy skills by designing a thematic integrated literacy unit. The course will assist teachers in understanding how to develop students' oral language, spelling, grammar, and vocabulary.

*prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education*

Hours 30  
Credits 2

**BILED 71300 - Bilingual Literacy-Chinese**

Bilingual Literacy – Chinese focuses on the development of literacy skills in both English and Chinese for students in bilingual programs. The emphasis is on L1 and L2 literacy using narrative and expository text, technology, and the arts as mediums for developing skills. This course will be conducted in Chinese and English.

*prereq or coreq: BILED 77100, BILED 77150*

Hours 30  
Credits 2

*For the Advanced Certificate Leading to an Extension in Bilingual program: the prereq or coreq is BILED 77150*

**BILED 71700 - Language Assessment for English Language Learners**

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

*prereq: BILED 77100, CEDCF 70050*

Hours 45 hrs,  
Credits 3 cr

**BILED 76800 - Instruction through the Native Language-French**

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

*prereq or coreq: BILED 70100 and CEDF 70900 for the MSEd/Childhood Education Grades 1-6 with bilingual extension; for the MSEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100*

Hours 45  
Credits 3

**BILED 76900 - Instruction through the Native Language-Chinese**

To enhance Chinese language skills of teacher candidates for the purpose of teaching content areas in and through Chinese. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop,
adapt and revise curriculum materials in Chinese for the bilingual classroom.

**Hours 45 hours plus 10 hours of fieldwork**
**Credits 3**

**Prereq or Coreq:** For the Childhood education Grades 1-6 with a Bilingual Extension program: BILED 70100, CEDF 70900; For the MSEd in Early Childhood Education Birth through Grade 1 with a Bilingual Extension: Program 1, BILED 70100, ECF 70000; Program 2, none; Program 3, BILED 70100; For the Advanced Certificate Leading to and Extension in Bilingual program: none.

**BILED 77100 - Psychology of Language Learning and Teaching**

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

**prereq or coreq:** BILED 70100

**Hours 30 hrs plus 5 hrs of fieldwork and lab**
**Credits 2 cr**

**BILED 77800 - Instruction Through the Native Language-Spanish**

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

**prereq or coreq:** BILED 70100

**Hours 45 hrs plus 10 hrs of fieldwork**
**Credits 3**

**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

**prereq or coreq:** BILED 70100

**Hours includes 5 hrs of fieldwork**
**Credits 3 cr**

**BILED 78000 - Bilingual Research Seminar**

The bilingual research seminar, which serves as the culminating experience, focuses on the relationship between educational research and the classroom teacher. Students will review significant bilingual research to consider the implications of findings for bilingual instruction, and they will initiate their own classroom/community studies to reflect upon their own practice and to become critical consumers of research.

**prereq or coreq:** 39 credits or permission of program coordinator

**Hours 30 hrs plus lab**
**Credits 2 cr**
BILED 78200 - Supervised Student Teaching Grades 1–3 and 4–6

Supervised student teaching at two grade levels in an elementary bilingual setting selected by Hunter College; four full days a week plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

**prereq or coreq:** completion of 39 cr of course work or permission of the program coordinator  
**Hours** 60 days (30 in grades 1-3, 30 in grades 4-6) plus 15 hrs of seminar  
**Credits** 4

BILED 78300 - Practicum in Grades 1–3

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

**prereq:** completion of 39 cr of course work or permission of the program coordinator  
**Hours** 15 hrs of seminar plus conferences  
**Credits** 2 cr

BILED 78400 - Practicum in Grades 4–6

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

**prereq:** completion of 39 cr of course work or permission of the program coordinator  
**Hours** 15 hrs of seminar plus conferences,  
**Credits** 2 cr

BILED 78500 - Student Teaching in Grades 1–3

Twenty days of supervised student teaching at grade level 1–3 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

**prereq:** completion of 39 cr of course work or permission of the program coordinator  
**Hours** 30 days student teaching, 15 hrs of seminar plus conferences,  
**Credits** 2 cr

BILED 78600 - Student Teaching in Grades 4–6
Twenty days of supervised student teaching at grade level 4–6 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

**prereq:** completion of 39 credits of course work or permission of the program coordinator  
**Hours** 30 days student teaching, 15 hrs of seminar plus conferences  
**Credits** 2 cr

**Education: Childhood Education**

**CEDC 70000 - The Art of Effective Teaching**

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

**prereq or coreq:** CEDF 70900  
**Hours** includes 5 hrs of fieldwork  
**Credits** 3

**CEDC 70100 - Beginning Elementary Literacy Methods**

Beginning Elementary Literacy Methods is the first of a two-part sequence designed for pre-service graduate teacher candidates as an introduction to the content and procedures used to teach English language arts to elementary students. Students will learn how children develop reading and writing concepts and abilities, become familiar with children's literature, both nonfiction and fiction, and understand current practices of literacy instruction and assessment.

**coreq:** This course should be taken with CEDF 70900, CEDC 70500, EDSEL 79600, CEDC 77200 Fieldwork & Teaching Seminar 1.  
**Hours** 45  
**Credits** 3

**CEDC 70200 - Advanced Elementary Literacy Methods**

Advanced Elementary Literacy Methods is the second course of a two-part sequence designed for graduate, pre-service teacher candidates to expand and apply their understanding of the pedagogical strategies and content necessary to teach English language arts to elementary students. In this course, teacher candidates will demonstrate effective literacy instruction through assessing, planning, and teaching elementary students' learning in all facets of literacy and throughout the content areas.

**coreq:** This course should be taken with CEDF 71000, CEDC 70300, CEDC 70600 Reflective Practice in Elementary School Social Studies Curriculum Development, SPED 70800, CEDC 77300 Fieldwork & Teaching Seminar 2.
CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000
Credits 3

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900
Credits 3

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.
CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

CEDC 70600 - Reflective Practice in Elementary School Social Studies Curriculum Development

The course addresses the knowledge, skills, and attitudes for teaching the Social Studies curriculum to elementary grade students. This course is designed to introduce the content of the New York State Social Studies curriculum and the national standards for teaching Social Studies (http://www.socialstudies.org/standards/strands/) and focus on multiple instructional strategies to deliver this curriculum. There is an emphasis on integrating children's literature, the arts, and technology into the Social Studies curriculum and on experiencing the kinds of instructional methods and strategies recommended as current best practices for teaching the Social Studies curriculum.

CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

CEDC 71200 - Advanced Methods of Teaching Math in Elementary Schools

Ways to set up and monitor mathematical investigations designed to promote flexible problem solving, active learning, finding patterns, reasoning logically, formulating and verifying hypotheses. Error analysis and remediation.
CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900  
Hours 45 hrs,  
Credits 3

CEDC 71400 - Advanced Educational Technology for Elementary School Teachers

Students will link prior knowledge of instructional technology with curriculum development strategies to design integrated learning events.

prereq: CEDF 70900, and a course on computers or demonstrated literacy in basic computer skills and tool applications (word processing, spreadsheets, database, and presentation as well as the Internet)  
Hours 45 hrs,  
Credits 3

CEDC 71500 - Fieldwork: Reading and Social Studies

Supervised experiences in pedagogical applications of literacy and social studies methods courses. Students will complete six hours of fieldwork per week for a minimum of 75 contact hours per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individual and small groups of children. Students will be placed in Hunter College-selected elementary schools and other educational programs.

prereq: CEDF 70900  
coreq: CEDC 73000 and 72200  
Hours 75 hrs of fieldwork,  
Credits 1

CEDC 71600 - Educational Technology in Mathematics and Science Teaching/Learning

An advanced educational technology course for students concentrating in mathematics and science at the elementary school level. Students will link prior knowledge of instructional technology to curriculum development creating the strategies to design integrated learning materials in mathematics and science.

Hours 45 hrs.  
Credits 3

CEDC 71700 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.
CEDC 71800 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

CEDC 71900 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

CEDC 72200 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

Prereq: CEDF 70900
Coreq: CEDC 71500 and CEDC 73000
Hours 30 hrs,
Credits 2

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

Prereq or Coreq: CEDF 70900 and CEDC 70450
CEDC 72400 - Student Teaching in Grades 1–3 and 4–6

Supervised student teaching at two grade levels, 1–3 and 4–6, in an elementary school selected by Hunter College; four full days a week plus conferences and professional development workshops.

Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March.

_prereq:_ completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus a minimum of 60 days of student teaching

Credits 5

CEDC 72500 - Student Teaching in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 728: Practicum in grades 4–6. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Not for students who have completed EDC 72400 or 72700.

_prereq:_ completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus 30 days of student teaching

Credits 3

CEDC 72600 - Student Teaching in Grades 4–6

Teacher candidates who take this course must also take CEDC 72500 or CEDC 72700. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 72700 Practicum in grades 1–3. Not for students who have completed CEDC 72400 or 72800.

_prereq:_ completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus 30 days of student teaching

Credits 3

CEDC 72700 - Practicum in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72700. Note: Applications for spring semester student teaching are due in October; applications for fall semester practicum are due in March. Not for students who have completed CEDC 72400 or 72500.

_prereq:_ completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
**CEDC 72800 - Practicum in Grades 4–6**

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72700.

Note: Applications for spring semester practicum are due in October; applications for fall semester student teaching are due in March. Not for students who have completed CEDC 72400 or 72600.

**prereq:** completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

**CEDC 72900 - Fieldwork in Childhood Education for Special Educators**

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

**prereq:** CEDF 70900, CEDC 70450 and 70550

**CEDC 72950 - Fieldwork in Childhood Education for Bilingual Educators**

Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

**prereq:** CEDF 70900; BILED 70100.

**CEDC 73000 - Perspectives on Literacy Across the Content Areas**

Literacy across the curriculum. Skills, strategies and techniques to teach reading and writing in the content areas will be developed. Expository as well as narrative texts will be utilized.

**prereq:** CEDF 70900; CEDC 70400

**coreq:** CEDC 71500 and 72200

**CEDC 73800 - The English Language: Theories and Pedagogical Implications**

An overview of the acquisition, structure and use of English. Its goal is to provide Pre-K thru 6 teachers who already have prior certification in childhood education with the awareness and understanding of the aspects of the English language they will need in order to teach a variety of content area in grades Pre-K thru 6.
CEDC 73900 - Advanced Methods in Elementary School: Mathematics, Science, and Social Studies

This graduate advanced methods builds on and extends the initial methods courses in the areas of mathematics, science, and social studies and also explicitly connects theory from mathematics, social studies, and science methods courses to practice by supporting teacher candidates to design and enact lessons in the context of the elementary school classroom. Students will grapple with the complexities of how students learn content and design/conduct assessments, develop lesson plans and unit plans, and critically reflect on their teaching practice. Students will face the realities of teaching content in schools given the school resources in terms of curriculum and technology and within the curriculum guidelines of the state and district.

prereq or coreq: CEDC 70300, CEDC 70600, CEDC 70500
Credits 3
In order to take this course students have to be accepted into the 'clinically rich' track of the Masters in Childhood Education program that leads to certification.

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

Hours 45 hrs.
Credits 3

CEDC 74200 - Workshop Seminar in Elementary School Mathematics/Science

The major course goals are to continue to develop a foundation for the growth of the professional mathematics/science educator and to increase the effectiveness as a curriculum decision-maker. Through selective experiences, the course will focus on instructional styles and strategies.

prereq: all program courses except CEDC 74300
Hours 45 hrs
Credits 3

CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

Hours 45 hrs
Credits 3

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.
prereq: all program courses except CEDC 74200 and CEDC 74300
Hours 45 hrs
Credits 3

CEDC 74600 - Geographic Perspectives in Elementary Education

Geographic principles and practices; development of pedagogic skills to teach geography at the elementary school level; development of skills in teaching geography of New York City and New York State; development of understanding of global issues and of geographic factors affecting historical events.

Hours 45
Credits 3

CEDC 74700 - Number Theory and Algebra in Elementary Curriculum

A study of the underpinnings of Number Theory and Algebra and the role they play in curriculum, teaching and student learning. This course gives participants a deeper understanding of algebra and how students learn transition from arithmetic to algebraic reasoning.

prereq: The course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.
Hours 45 hrs
Credits 3

CEDC 74800 - Geometry and Measurement in the Elementary School

A study of the underpinnings of Geometry and Measurement and the role they play in curriculum, teaching, and supporting student learning. Topics in Geometry and Measurement are important concepts at the elementary school level and this course gives participants a deeper background in these two areas. Additionally, pedagogical practices important in these areas will be examined as well as a deep study of how students develop these concepts through curriculum, representations, manipulatives, and pedagogical practices will be discussed.

prereq: This course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.
Hours 45
Credits 3

CEDC 74900 - Leadership in Elementary School Mathematics

A study of mathematics leadership and the development of mentors, coaches, and leaders of professional development.

prereq: This course is intended for students in the Elementary Mathematics Specialist program. Completion of at least 24 credits in the program.
Hours 45
Credits 3

CEDC 75500 - Assessment and Instruction for Diversely Gifted Learners
Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

Cross-listed SPED 75500  
prereq or coreq: SPED 75300 and SPED 75400  
Hours 45, includes 20 hrs field experience  
Credits 3

**CEDC 75600 - Professional Discourse and Leadership in Gifted Education**

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed SPED 75600, ADSUP 76500, CEDF 75600  
prereq or coreq: SPED 75300 and SPED 75400  
Hours includes 10 hrs field experience  
Credits 3

**CEDC 76000 - Special Topics in the Arts**

The theory and application of children's artistic development. Course includes visual arts contents, instructional techniques, technology, materials and their use across the elementary school curriculum. Through hands-on workshops the teacher candidate will understand how to plan and utilize a visual arts curriculum to enhance student's cognitive, perceptual, expressive and imaginative abilities.

prereq: CEDC 70700  
Hours 45 hrs  
Credits 3

**CEDC 77200 - Fieldwork & Teaching Seminar 1**

Fieldwork & Teaching Seminar 1 is the initial experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

coreq: This course should be taken with CEDF 70900, CEDC 70500, CEDC 70100, EDESL 77100.  
Hours 30  
Credits 2  
30 days (field) & 15 hrs (course)

**CEDC 77300 - Fieldwork & Teaching Seminar 2**

Fieldwork & Teaching Seminar 2 is the second experience in an elementary partner school for the clinically rich track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDF 71000, CEDC 70300, CEDC 70600, CEDC 70200.  
Hours 30  
Credits 2  
30 days (field) & 15 hrs (course)
CEDC 77400 - Fieldwork & Teaching Seminar 3

Fieldwork & Teaching Seminar 3 is the third experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDF 71600, CEDC 73900, CEDC 70700, CEDC 71300.
Hours 30
Credits 2
45 days (field) & 15 hrs (course)

CEDC 77500 - Fieldwork & Teaching Seminar 4

Fieldwork & Teaching Seminar 4 is the fourth and final experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDC 71000.
Hours 45
Credits 3
75 days (field) & 15 hrs (course)

CEDC 77600 - Planet Earth: Earth and Space Sciences for Elementary School Teachers

Methods and content of teaching Earth and Space sciences topics to children. The course integrates issues of pedagogy and science content through interactive class meetings. Students will experience hands-on and mind-on science activities appropriate for the grade school level. Courses materials are aligned with K-12 Next Generation Science Standards (2013). All students are expected to learn science content, student's alternative ideas, lesson design and methods of teaching life science.

Hours 3 hrs
Credits 3

CEDC 77700 - Physical Science Background for Elementary Teachers

Concepts in the physical sciences, chemistry and physics necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

Hours 45 hrs
Credits 3

CEDC 77800 - Life Sciences

The methods and content of teaching life science topics to children. The course integrates issues of pedagogy and science content through interactive class meetings. Students will experience hands-on and mind-on science activities appropriate for the grade school level. Courses materials are aligned with K-12 Next Generation Science Standards (2013). All students are expected to learn science content, student's alternative ideas, lesson design and methods of teaching life science.

Hours 3
Credits 3
**CEDC 77900 - Robotics and Engineering**

New methods of teaching innovative school curricula in robotics and engineering. Students will design and program their own robotic vehicles and learn elementary school materials by a hands-on process and project work. The curriculum is modeled on the First LEGO League competitions popular at the grade school-level. Engineering is Elementary, a school curriculum to improve children's understanding of engineering principles, is also explored from a student-centered perspective. These new STEM curriculum for elementary schools are supported by K-12 Next Generation Science Standards (2013). All students who enroll in the course will emerge with training to teach these curricula in elementary schools, in informal settings and after school programs.

*Hours 3  
Credits 3*

**CEDCF 70050 - The Art and Science of Effective Teaching**

This course is designed to introduce pre-service bilingual and TESOL educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

*Hours includes 5 hrs of fieldwork  
Credits 3*

**CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School**

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

*Hours 45 hrs  
Credits 3*

**CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School**

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

*prereq or coreq: CEDF 70900  
Hours 45 hrs  
Credits 3*

**CEDF 70800 - Social, Historical, Philosophical Foundations of Education: The American School**

For students pursuing certification in childhood education with a bilingual extension or in TESOL. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.
prereq or coreq: CEDF 70900

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work
Credits 3

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

prereq: CEDF 70900
Hours includes 5 hrs of field work
Credits 3

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

Hours includes 5 hrs of field work
Credits 4

CEDF 71500 - Diversity in the American School

Advanced, graduate-level survey of current issues and theories of diversity and their impact upon the contemporary American school. Topics will be from an interdisciplinary perspective with attention to social policy implications.

Hours 45 hrs
Credits 3

CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

Credits 3

CEDF 71700 - Independent Study in Educational Foundations
Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1
permission of faculty adviser and chairperson required

CEDF 71800 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2
permission of faculty adviser and chairperson required

CEDF 71900 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3
permission of faculty adviser and chairperson required

CEDF 75000 - Special Topics in Diversity

An examination of the history and adaptation of diverse groups in the U.S. and their experience in the American educational system. Emphasis is on the role of culture, structure and policy in facilitating and/or hindering opportunities for these groups to achieve educational equity.

prereq: CEDF 70900
prereq or coreq: CEDF 70600
Hours 45 hrs
Credits 3

CEDF 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

Cross-listed SPED 75300
Hours includes 10 hrs field experience
Credits 3

CEDF 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices
schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed SPED 75600, ADSUP 75600, CEDC 75600
prereq or coreq: SPED 75300 and SPED 75400
Hours includes 10 hrs field experience
Credits 3

CEDF 79200 - Integrative Seminar: Research in Childhood Education

Students prepare research proposals on topics which summarize and apply previous learnings. Written and oral presentations.

prereq: completion of 31 cr. of course work including CEDC 73000 and CEDF 71600 or permission of the childhood education adviser
Hours 45 hrs
Credits 3

Education: Dance Education

DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning

An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct "action research" in order to identify conditions that support or hinder productive teaching and learning. This first phase of the "methods" course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).

prereq or coreq: 6 credits in education and 12 credits in dance
Hours 3 hrs + 36 hrs of fieldwork
Credits 3

DANED 76200 - Dance Methods II: Advanced Curriculum Design and Pedagogy for Productive Teaching and Learning

Advanced investigation of contexts for productive teaching and learning. Students will engage in intensive examinations of pedagogical theories and practices, conduct "action research" in order to identify conditions that support or hinder productive teaching and learning, develop unit plans, and participate in peer-to-peer inquiry groups to develop their own artistry in teaching.

prereq: DANED 76000
Credits 3

DANED 76400 - Practicum
Students with initial state certification in dance complete a semester of Practicum in their current full-time dance teaching situation or in assigned schools under the supervision of a Hunter College faculty member. Practicum teachers will assume all responsibility for classroom instruction and management and will be observed by Hunter faculty 4 times during the course of the semester. All Practicum students are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

**prereq:** DANED 76000, DANED 76200  
**Hours** 2 hrs plus 15 hrs seminar required  
**Credits** 2

**DANED 76602 - Student Teaching**

Teacher candidates complete a total of 20 days of student teaching under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty twice during the course of their student teaching experience. All student teachers are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

**prereq:** SEDF 70300, 70400, 70500, 70600; SEDC 71000; DANED 76000, DANED 76200  
**Hours** 20 days plus 15 hrs seminar  
**Credits** 2

**DANED 76605 - Student Teaching**

Teacher candidates complete a total of 60 days of student teaching (30 days of student teaching at grades pre-K-5 and 30 days at grades 6-12) under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty 4 times during their student teaching experience. All student teachers are required to participate in a seminar class meeting 1 hour per week for 15 weeks. A culminating professional project is required before graduation.

**prereq:** SEDF 70300, 70400, 70500, 70600; SEDC 71000, DANED 76000, 76200  
**Hours** 60 days plus 15 hrs seminar  
**Credits** 5

**Education: Doctoral**

**EDF 80000 - Statistics for Applied Educational Research I**

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, statistical assumptions, t-tests, analysis of variance, correlation, and chi-squared.

**prereq:** SPED 80000  
**Hours** 3 hrs  
**Credits** 3 cr

**EDF 80100 - Qualitative Methods in Educational Research**
This graduate course introduces students to qualitative research within the field of education. The course provides an overview of the different approaches to qualitative research and specific strategies of data collection and analysis, their underlying assumptions and appropriateness for particular research questions, and authentic experience with qualitative research.

prereq: SPED 80000
Hours 3 hrs
Credits 3 cr

EDF 80200 - Quantitative Methods and Measurement

The purpose of this course is to increase students' understanding of quantitative research methods and design issues relevant to the pursuit of research in education, with a focus on correlational, experimental and quasi-experimental design.

prereq: EDF 80000
Credits 3 cr

EDF 80300 - Statistics for Applied Educational Research II

This course builds on knowledge of basic statistics, focusing on multiple regression and analysis of covariance for statistical analysis of continuous and categorical independent variables. Data exploration and assumptions are discussed in detail. Computer software for analysis of quantitative data is introduced.

Hours 3.0
Credits 3.0

EDF 80400 - Analysis of Major Issues in Contemporary Education Reform

After a brief review of the history of education reform efforts, we will study the major debates and policy initiatives that have shaped the contemporary structures of American public education. We will seek to understand what is at stake in these initiatives, the evidence behind their adoption and resistance to them.

Hours 3 hrs
Credits 3 cr

EDF 81000 - Mind, Brain, and Education

This course provides students with knowledge from the neuro and cognitive sciences that can be applied in practice. This course begins with an introduction to mapping the physical features of the brain before leading into contemporary research on "brain-based" research and educational curricula and programs. Students will engage in examining research and separate "nureomyth" from "neuroscience" in order to be informed by new knowledge from the science of learning.

Hours 3 hrs
Credits 3 cr

EDF 83000 - Dissertation Proposal Seminar

This course is a seminar designed to provide students with a general overview of the structure and components of a dissertation proposal. It serves as common ground for all cohort members to prepare for highly individualized work
with a dissertation advisor in subsequent semesters. Throughout this course, students will focus upon the following components: (1) the background of the problem to be investigated; (2) formulating a research question(s); (3) developing a theoretical framework; (4) conducting a literature review; (5) choosing research methods to collect data; (6) analyzing findings; and (7) generating implications. These elements will be taught in relation to a "traditional" five-chapter dissertation, along with variations and expansions of this structure. In addition, students will review and become certified in appropriate IRB requirements. A major goal of this seminar is to individualize support with view to preparing each student to develop a topic for approval that will continue to be worked upon with a dissertation advisor during the following semester.

Hours 3 hrs
Credits 3 cr

EDF 83100 - Dissertation Advisement I

Dissertation Advisement I is a customized course of study taken immediately after Dissertation Seminar. The purpose of this course is to provide individualized support to doctoral students as they continue to engage with components of their dissertation to develop a robust proposal. The dissertation proposal must minimally consist of the first three chapters that include the following components:

- the background of the problem to be investigated;
- research question(s);
- a theoretical framework, where appropriate;
- a literature review;
- selected research methods to collect data;
- tentative description of intended analysis. In addition, it should be sufficient to be the basis of creating an IRB research proposal.

Note: This course is cross listed with SPED 83100

prereq: Dissertation Proposal Seminar (Pre-Requisite)
Hours 2 hrs
Credits 2 cr

EDUC 80100 - Research on Curriculum and Teaching of English Language Learners

The focus of this course is on effective curriculum and instruction supporting the academic, social, and emotional development of ELLs. Topics and assignments provide a direct connection of research to programming, and policy for ELLs in P-12 school contexts. Analysis of research on ELL education, including review of quantitative and qualitative studies of instruction and curriculum for ELLs will provide the foundation for the course content. This course will prepare doctoral students to critically evaluate educational research on ELLs, deeply understand the core components of quality instruction for ELLs in P-12 classrooms, and be able to clearly identify appropriate methods for addressing and improving instruction and curriculum for ELLs. Topics and assignments are designed to provide theory that directly connects to the design of instructional models of and curricula for ELL instruction.

Hours 3 hrs
Credits 3 cr

EDUC 80300 - Research on Effective Practice and Curriculum in Math
The course will examine the current research on effective mathematical teaching, assessment practices, student learning, and curriculum design. Students will synthesize research and engage in research explorations focused on problems of practice.

*Hours 3 hrs  
Credits 3 cr*

**EDUC 80400 - Research on Effective Practice and Curriculum in Arts and Humanities**

This course examines current research in Arts and Humanities curriculum and its implementation. It addresses a host of theoretical and policy-oriented approaches to the teaching and learning of the arts and humanities. Particular attention will be paid to research on arts and humanities instruction and interventions that serve the needs of diverse students in urban schools.

*Hours 3 hrs  
Credits 3 cr*

**EDUC 80500 - Research on Effective Practice and Curriculum (REPAC) in Literacy**

This course examines current research in literacy curriculum and its implementation. A host of theoretical approaches to the teaching of literacy and language development will be addressed and critiqued. Particular attention will be paid to research on literacy instruction and interventions that serve the needs of diverse students in urban schools.

*prereq: SPED 80000 Intro to Doc Seminar  
Hours 3.0  
Credits 3.0*

**EDUC 80600 - Effective Professional Development of Teachers**

In-depth study of research and practice in professional development for educators. Students will explore the literature about effective methods, contexts, and delivery of coaching, mentoring, and professional learning for teachers and other educators. Focus on understanding the strengths and weaknesses of different approaches to professional development, and on learning how to assess the appropriateness of a professional development strategy with respect to content and the teacher population to be served.

*Hours 3 hrs  
Credits 3 cr*

**EDUC 80700 - Professional Communications for Educational Settings**

This course explores a range of educational and school-based writing genres and writing for a variety of audiences. Resources and practices related to developing and writing within a variety of genres from traditional print publications to new media outlets will be introduced, explored and, most importantly, enacted.

*Hours 3 hrs  
Credits 3 cr*

**EDUC 80800 - Action Research**
The purpose of this course is to explore various aspects of a movement in education and educational research in which educators (e.g., P-12 teachers, school administrators, etc.) actively participate in making change in their practice through conducting systematic inquiry and research. The course will provide a broad overview of the epistemological, political, and methodological issues associated with the idea of practitioner research.

*prereq or coreq: EDS 80300 Qualitative Research Methods*
*Hours 3 hrs*
*Credits 3 cr*

**EDUC 80900 - Case Studies in Education: Institutions, Schools, Programs, Classrooms, and Individuals.**

This course examines case study as a research design in educational contexts. The unit of study can include institutions, schools, programs, and individuals. A variety of topics will be explored, including becoming familiar with types of case studies, conceptualizing case study research, creating research questions, generating data, use of analytic methods, and application of case study findings to leadership and practice. In addition, the course will feature related, sometimes overlapping, methodological approaches such as portraiture and narratives. The course engages students in substantial study and critique of current and "classic" cases in educational research based on candidates' fields of interest. Particular attention will be paid to ethical considerations in conducting case study research in urban schools and communities.

*Hours 3 hrs*
*Credits 3 cr*

**SPED 80000 - Introduction to Doctoral Studies: Theory and Research in Curriculum and Teaching**

This course provides a brief overview of theory and research in curriculum and teaching. Students will consider how their own positionality influences ways in which they read and interpret educational research. Conversely, students will also understand how a researcher's positionality influences all aspects of their research, including: questions asked; theoretical framework adopted; methodologies chosen; data collection; analysis and interpretation of data; results or findings; and implications. Students will also engage in studying selected influences of curriculum history, particularly post 1945-present. These influences include: The Cold War, Civil Rights Movement, The War on Poverty, No Child Left Behind, and the Standards Movement. This course will serve as a beginning to cultivating student interests in developing their own research studies by weaving together theory, research, practice, and policy within education.

*Hours 3 hrs*
*Credits 3 cr*

**SPED 80100 - Research on Effective Practice and Curriculum for Students with Disabilities**

This course provides the opportunity to consider disability in the context of schools and society—with view to engaging with, and critiquing, existing research in the fields of special education and disability studies in education (DSE). We will be mindful of how the disposition and paradigm of researchers influences all aspects of their work including: problems identified; questions asked; methods used; analysis employed; findings or results; interpretations, and implications. This course focuses on the nature of evidence-based practice involving students with disabilities within specific contexts. The course is designed to provide a foundation for the course work, independent scholarship, and educational research that students will undertake in the process of completing the doctoral degree.
SPED 80200 - Enhancing Achievement through Family & Community Relationships

This course examines the role of school, family and community in educational policy and practice. Students will read and critique a variety of theoretical frameworks about the intersection of home, school, and community; analyze current research on the impact of family and community engagement on student learning and school improvement; explore policies at local, state, and federal level.

Education: Early Childhood

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels
Credits 3

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70500 - Language and Literacy: Birth through Kindergarten

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3
**ECC 70600 - Language and Literacy: K through Grade 2**

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

*prereq or coreq: ECC 70500 (early childhood students only)*  
*Hours 45 hrs*  
*Credits 3*

**ECC 70700 - Language and Literacy: English Language Learners**

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

*coreq: ECC 70400*  
*prereq or coreq: 70500 or 70600*  
*Hours 15 hrs*  
*Credits 1*

**ECC 70800 - Children with Special Needs: Birth through Grade 2**

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

*prereq: ECC 70300*  
*prereq or coreq: ECF 70200*  
*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels*  
*Credits 3*

**ECC 70900 - Mathematical and Scientific Thinking in Early Childhood**

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (Not for Program 1 students)

*prereq or coreq: ECC 70300*  
*Hours 45 hrs*  
*Credits 3*

**ECC 71000 - Early Childhood Mathematics: Birth through Grade 2**

Theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

*prereq or coreq: ECC 70300*
ECC 71100 - Science in Early Childhood Education: Birth through Grade 2

Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K–2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field
Credits 1

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs
Credits 3

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 71500 - Educational Technology in Early Childhood
Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

*Hours 15 hrs,*  
*Credits 1 cr*

**ECC 71600 - Student Teaching in Early Childhood Settings**

Two student-teaching placements of 30 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience.(Birth– 3, preK–2)

*prereq: prereqs: ECF 70200; ECC 70300; ECC 70400 (program 2) or 705000 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only))  
*Hours 30 hrs of seminar plus 60 days of student teaching*  
*Credits 3*

**ECC 71650 - Student Teaching in Early Childhood Bilingual Settings**

Two student teaching placements of 30 days each at different age/grade levels (Pre-K–K and 1–2).

*prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 705000 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)  
*Hours 30 hrs of seminar plus 60 days of student teaching*  
*Credits 3*

**ECC 71700 - Supervised Practicum in Early Childhood**

This course has two key components: (1) A full semester of practicum in Pre- K, K, or grades 1-2 and (2) biweekly seminar (30 hours). It builds on prior coursework and field experiences by providing guidance and reflective discussion that allow teacher candidates to enhance their teaching skills in early childhood education settings. Specific information regarding professional issues, ethical behaviors, and child advocacy is provided and reviewed. In addition, this course will align the practicum experience with the expectations of the edTPA in order to support teacher candidates with the preparation and submission of their portfolios.

*prereq: ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200  
*Hours Bi-weekly seminar (30 hrs)*  
*Credits 2*

**ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting**

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)

*Hours 15 hrs of seminar plus conferences,*  
*Credits 1*
ECC 71800 - Early Childhood Student Teaching

This is a college supervised experience and is offered during the regular academic year and in the summer to facilitate the opportunity for practice at a different age/grade level than ECC 71700. This course has two key components: (1) a minimum of 30-days of student teaching in Pre-K, or grades 1-2 and; (2) biweekly seminar (15 hours).

prereq: ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200

Hours Bi-weekly seminar (15 hrs)

Credits 1

ECC 71850 - Early Childhood Bilingual Student Teaching

Student teaching for 30 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750. (Not for students who have completed ECC 71650.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)

Hours 15 hrs of seminar plus 30 days of student teaching

Credits 2

ECC 71951 - Special Topics in Early Childhood Education

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

prereq: special permission of an early childhood education adviser

Hours 15, 30, and 45 hrs

Credits 1, 2, and 3

ECC 71952 - Special Topics in Early Childhood Education

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

prereq: special permission of an early childhood education adviser

Hours 15, 30, and 45 hrs

Credits 1, 2, and 3

ECC 71953 - Special Topics in Early Childhood Education

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

prereq: special permission of an early childhood education adviser

Hours 15, 30, and 45 hrs

Credits 1, 2, and 3

ECC 72000 - Integrative Seminar in Early Childhood Education
Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

**Prerequisite:** ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

**Credits**

**ECC 80100 - Research and Practice in Early Childhood Education**

Overview of the historical and social influences on early childhood research and practice. Candidates will gain a comprehensive understanding of the significant policy, programmatic and pedagogical factors affecting the formal, symbolic and societal curricula, within and across early childhood education and care settings.

**Hours** 3 hrs

**Credits** 3 cr

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

**Hours** 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels

**Credits** 3

**ECF 70100 - Social and Historical Contexts of Early Childhood Education**

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

**Hours** 45 hrs

**Credits** 3

**ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2**

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

**Prerequisite:** ECF 70000

**Hours** 45 hrs

**Credits** 3

**Early Childhood Special Education**
SPEDE 76500 - Special Topics in Early Childhood Special Education

One-credit special topics courses focus on narrowly defined topics of high current relevance in the field of early childhood special education.

prereq: SPEDE 76800 and 76900 or permission of the coordinator of the early childhood special education program

Hours 15 hrs,
Credits 1 cr

SPEDE 76700 - Field Experiences in Early Childhood Special Education with an Annotation in Severe Disabilities

prereq: SPEDE 77000, SPED 79000, and SPED 79100
prereq or coreq: SPEDE 77100

Hours 15 hour seminar plus 30 hrs of fieldwork in one of the following age/grade levels: 0-3; 3-5; or Kindergarten, grades 1 and 2 in a program for children with severe disabilities,
Credits 1 cr

SPEDE 76800 - Fostering Development in Young Children with Diverse Abilities: Historical, Political, and Inclusive Perspectives

This course explores the variability of development in infants and young children, and related developmental promotion approaches, through a lens of cultural, linguistic, and ability diversity. Functional developmental competencies and the range of developmental consequences within specific diagnoses will be examined, including the implications for supporting learning and development in classrooms, homes, and communities. The evolution of laws, regulations, and inclusive practices to current early intervention and early childhood special education recommended practices will be situated within this developmental framework.

prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only)

Hours Includes 5 hrs field experience,
Credits 3

SPEDE 76900 - Evaluation, Assessment, and Program Planning for Infants and Young Children with Special Needs

Developmentally appropriate and recommended practices for assessing the development and learning of young children from infancy through age 7 years (second grade) and identifying family strengths and supports. Application of tools, observations, and discussions with informed others to make decisions in screening, evaluation and program planning will be explored within a transdisciplinary team. Students must receive a grade of B or better.

prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only); and SPEDE 768

Hours Includes 15 hrs field experience,
Credits 3

SPEDE 77000 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods.
Students must receive a grade of B or better.

**prereq or coreq:** SPEDE 768 and SPEDE 769; OR SPED 700 and SPED 790

**Hours** Includes 15 hrs field experience.

**Credits** 3

**SPEDE 77100 - Autism Spectrum Disorder: Characteristics and Implications for Intervention**

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

**prereq or coreq:** SPEDE 770

**Hours** Includes 5 hrs of field experience

**Credits** 3 cr

**SPEDE 77200 - Positive Behavior Support (PBS) and Its Application to Young Children with Special Needs**

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

**prereq:** SPEDE 768 OR SPED 700

**Hours** Includes 5 hrs of field experience

**Credits** 3 cr

**SPEDE 77300 - Families, Parenting, and Family-Professional Partnerships: Theories, Research, and Practices**

This yearlong course focuses on the significant influence of the family in early childhood learning and development and evidence-based strategies for creating and sustaining effective family-professional partnerships to optimize family and child outcomes in classroom, home, and community settings. The developmental process of parenting, family capacity-building approaches, and convergence of family and professional expertise to promote child learning and development will be examined across diverse cultures, languages, abilities, settings, and urban contexts.

**prereq or coreq:** SPEDE 770

**Hours** 3.0 (YL)

**Credits** 3.0 (YL)

**Includes** 5 hrs field experience.

*This is a yearlong course.*

**SPEDE 77400 - Adaptations for Individual Learners Across the K-2 Curriculum**
Methods for supporting children with disabilities and special education needs, grades K–2 access the general education curriculum; Data-based decisions within a response to intervention framework and individualized modifications and adaptations, instructional approaches and specific methodologies effective with young children are emphasized.

**prereq:** SPEDE 77000 and SPEDE 77200 (for all programs); and ECC 70400 or ECC 70900 (for Program 1 students only)
*Hours 3 hrs: includes 5 hrs field experience*
*Credits 3 cr*

**SPEDE 77500 - Mathematics for Students with Special Education Needs, Grades K–2**

Principles, methods, and specially-designed mathematics instruction for students with disabilities and special education needs, grades K–2; focus on concept development, concrete materials, the counting substrate and strategies, and verbal memory supports, as well as on differentiating kinds and degrees of math learning and disability.

**prereq or coreq:** SPEDE 76900
*Hours 15 hrs,*
*Credits 1 cr*

**SPEDE 77600 - Introductory Field Experience in Early Childhood Special Education**

Preparatory experience in a program supporting young children with diverse abilities; emphasis on what it means to be an early intervention/early childhood special education professional; One field placement of 10 days in a Kindergarten or Grade 1 or 2 setting.

**prereq:** ECC 71200 (for Program 1 students only)
**prereq or coreq:** SPEDE 77000
*Hours 2 hrs.*
*Credits 2 cr.*

**SPEDE 77651 - Field Experiences in Early Childhood and/or Childhood Special Education with an Annotation in Severe Disabilities: Autism**

Two field placements of 30 hours each, with the placements at different age/grade levels: Pre-K (Birth–5), Kindergarten, grades 1 and 2, grades 306; both of these experiences must be with children who have autism spectrum disorders.

**prereq or coreq:** SPEDE 77100 or permission of the program coordinator
*Hours 30 hours seminar plus 60 hours of field experience,*
*Credits 2 cr*

**SPEDE 77750 - Student Teaching: Early Childhood Special Education with Annotation in Severe Disabilities**

Supervised student teaching in two settings with 20 days in each placement; placements must be at different age/grade levels; Pre-K (Birth–5); Kindergarten; grades 1–2; practice in the implementation of skills developed through coursework and field experiences.
**SPEDE 7780** - Student Teaching in Early Childhood Special Education

Supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and an abbreviated field experience. (Note that students who take SPEDE 7780 must also take SPEDE 7790 in addition to either SPEDE 77910 or SPEDE 77920 and the placement for SPEDE 7780 must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2 – than SPEDE 779. One semester of SPEDE 778 or SPEDE 779 must be in a PreK setting.)

**SPEDE 77810** - Initial Student Teaching in Early Childhood Special Education

First, full semester, supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.10 must also take either SPEDE 77820 or SPEDE 77920 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 7780 or SPEDE 7790 must be in a PreK setting.)

**SPEDE 77820** - Final Student Teaching in Early Childhood Special Education

Second, full-semester, intensive supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.20 must have already taken either SPEDE 77810 or SPEDE 77910 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 7780 or SPEDE 7790 must be in a PreK setting.)

**SPEDE 77850** - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised student teaching for 20 days at one of the following age/grade levels: Pre-K (Birth–5), Kindergarten, grades 1–2; practice in implementation of skills developed through coursework and field experiences.
prereq: SPEDE 76700
Hours 30 hrs seminar plus 20 days,
Credits 2 cr
(Note that students who take SPEDE 77850 must also take SPEDE 77950 and the placements must be at different age/grade levels. Students must be in an early childhood program with learners with severe disabilities for the entire semester.)

**SPEDE 77900 - Practicum in Early Childhood Special Education**

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences.

prereq: SPEDE 77600, ECC 71200
prereq or coreq: SPEDE 77100
Hours 30 hrs seminar plus conferences,
Credits 2
(Note that students who take SPEDE 77900 must also take SPEDE 77800 and the two experiences must be at different age/grade levels. Pre-K [Birth–five], Kindergarten, grades 1–2. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

**SPEDE 77910 - Initial Practicum in Early Childhood Special Education**

First intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.10 must also take SPEDE 77820 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

prereq: SPEDE 77600
Hours 3 hrs plus full semester of practicum experience in worksite
Credits 3 cr.

**SPEDE 77920 - Final Practicum in Early Childhood Special Education**

Second intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.20 must have already taken SPEDE 77810 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

prereq: SPEDE 77400 and SPEDE 77810
Hours 3 hrs. plus full semester of practicum experience in worksite
Credits 3 cr.

**SPEDE 77950 - Practicum in Early Childhood Special Education with an Annotation in Severe Disabilities**

Supervised practicum in an age/grade level other than that used in SPEDE 77850 practice in the implementation of skills developed through coursework and field experiences. Students must be in an early childhood program with
learners with severe disabilities for the entire semester.

**prereq:** SPEDE 76700  
Hours 30 hrs seminar plus conferences,  
Credits 2 cr

**SPEDE 77951 - Practicum in Early Childhood Special Education**

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. Advanced students must complete individually-tailored assignments.

**prereq:** By permission  
Hours 3 hrs  
Credits 3 cr.

**SPEDE 78000 - Language Teaching Approaches and Strategies for Young Children with Autism Spectrum Disorders**

Assessment and instructional approaches to teaching language to young children with autism, including picture communication systems. Verbal behavior and visual supports for early literacy: collaboration with speech language therapists and parents.

**prereq or coreq:** SPEDE 77100 or permission of the program coordinator  
Credits 1 cr

**SPEDE 78100 - Incidental Teaching and Other Naturalistic Behavioral Strategies**

Overview of naturalistic behavioral strategies used in the education of young children with autistic spectrum disorders including incidental teaching, pivotal response training, natural language paradigm, and establishing operations to teach in the natural environment; involving parents.

**prereq or coreq:** SPEDE 77100 or permission of the program coordinator  
Credits 1 cr

**SPEDE 78200 - Higher Functioning Children with Autism Spectrum Disorders**

Understanding the special needs of higher functioning children with autism spectrum disorders; assessment, instructional approaches, models, and methods for use in educational settings.

**prereq or coreq:** SPEDE 771 or permission of the program coordinator  
Credits 1 cr

**SPEDE 78300 - Inclusion of Children with Autism Spectrum Disorders**

Why, when and how to include children with autism spectrum disorders in the educational mainstream; strategies that work for different types of students, families, and school environments.

**prereq or coreq:** SPEDE 771 or permission of the program coordinator  
Credits 1 cr

**SPEDE 79900 - Field Experiences in Childhood Special Education**
This is a supervised practicum and seminar with practice in the implementation of skills developed through coursework and field experiences. This course will provide the teacher candidate with an expanded range of experiences in early childhood special education settings. In addition, the course will heighten the teacher candidate's focus on critical features of best practice as defined by the recommendations of the Council for Exceptional Children. This will help to strengthen the teacher candidate's skills in analyzing and utilizing a range of instructional strategies.

Hours 30
Credits 2
This is a year-long course

**Education: Ed Foundations**

**CEDF 713 - CEDF 71300 - Child and Adolescence Development**

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

*Hours 3 hrs
Credits 3 cr*

**CEDF 71300 - Child and Adolescent Development**

This course will provide a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and their potential impact on student behavior and learning in the classroom.

*Hours 3 hrs
Credits 3 cr*

**Education: Counseling**

**COCO 70000 - Life Stage Development**

Analysis of developmental stages throughout the lifespan.

*Hours 45 hrs
Credits 3*

**COCO 70100 - Counseling Skills and Interviewing Techniques**

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs
Credits 3*

**COCO 70200 - Theories of Counseling**
Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

Hours 45 hrs  
Credits 3

**COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education**

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

Hours 45 hrs  
Credits 3

**COCO 70500 - Vocational Assessment and Placement**

Application of principles of occupational development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of the disabled. Sources and uses of occupational information, labor market trends. Emphasis on vocational evaluation, job development, follow-up.

Hours 45 hrs  
Credits 3

**COCO 70600 - Group Counseling**

Theory and principles of group counseling. Developing group-counseling skills through practice.

**prereq: COCO 70100 and COCO 70200**  
Hours 45 hrs  
Credits 3

**COCO 70700 - Multicultural Aspects of Counseling**

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs  
Credits 3

**COCO 70800 - Measurement and Appraisal**

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

Hours 45 hrs  
Credits 3

**COCO 70900 - Research Methods in Counseling**
Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

Hours 45 hrs
Credits 3

COCO 71000 - Chemical Dependency: Issues in Counseling

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

Hours 45 hrs
Credits 3

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

Prereq: COCO 70600 and COCO 71800

Hours 45 hrs
Credits 3

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

Hours 60 hrs
Credits 4

COCO 71300 - Career Counseling and College Readiness

This course offers a comprehensive introduction to the career readiness and college access counseling role of the school counselor working within the K-12 school setting. By utilizing a multicultural and social justice framework the course will explore career readiness and college access from a holistic and lifespan developmental perspective. In view of the CACREP standards this course will explore and appropriately address the American School Counselor Association (ASCA) national domains in academic, career and the personal needs of K-12 students from Kindergarten through high school as it relates to their career exploration and college access.

Coreq: COCO 725/726

Hours 4.0
Credits 4.0

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.
COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

coreq: COCO 71900
prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600

COCO 71900 - Individual Supervision

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800
Hours 45
Credits 3

COCO 72300 - Transition from School to Adult Living for Youth with Disabilities

Services, programs, and processes for facilitating the transition of youth with disabilities and youth at risk from school to work, postsecondary education, independent living, and adult roles.

Hours 45 hrs,
Credits 3 cr

COCO 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and COCO 71900
prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100
Hours Each 300 hrs to be arranged in selected field settings
Credits 4 cr each semester

COCO 72600 - Internship in Counseling II

The second part of the internship: follows COCO 72500 Internship in Counseling I.

prereq: COCO 72500
Hours 45
Credits 4

COCO 72700 - Special Topics in Counseling
Study of significant issues, problems, and emerging trends in counseling.

Hours 45 hrs.
Credits 3 cr.

COCO 72800 - Special Topics in Counseling

Study of significant issues, problems, and emerging trends in counseling.

Hours 45 hrs,
Credits 3 cr

COCO 73500 - Seminar in Chemical Dependency

Counseling Skills and Techniques Introduces students to the various types of counseling involved in working with people who are chemically dependent. Students will have the opportunity to test skills and techniques necessary for counseling in a variety of settings that serve people with chemical dependencies.

Hours 45 hrs,
Credits 3 cr

COCO 74100 - Independent Study

Students will carry out independent project approved by faculty and supervised by a staff member.

Hours 15 hrs (supervised),
Credits 1 cr

COCO 74200 - Independent Study

Students will carry out independent project approved by faculty and supervised by a staff member.

Hours 30 hours (supervised),
Credits 2 cr

COCO 74300 - Independent Study

Students will carry out independent project approved by faculty and supervised by a staff member.

Hours 45 hrs hours (supervised),
Credits 3 cr

COUNM 71600 - Foundations of Mental Health Counseling

This course provides an overview of mental health counseling. The course will address the following: professional identity, functions and issues facing mental health practitioners; disparities in mental health services across culturally and linguistically diverse communities; principles, theories and practice of community interventions; public policy and governmental relations impacting mental health.

prereq or coreq: DSM-IV Workshop
Credits 3
COUNM 71700 - Psychopathology: Diagnosis and Treatment

This course provides a framework for understanding the range of personality and behavioral conditions that are presented in the Diagnosis and Statistical Manual of Mental Disorders of the American Psychiatric Association (DSM-IV). The class focuses on the description, etiology, assessment, diagnosis, treatment and prevention of these disorders within diverse urban settings.

Hours 45  
Credits 3

COUNM 72000 - Mental Health Counseling: Program Development and Evaluation

The course focuses on the development and evaluation of mental health programs in culturally/linguistically diverse urban settings from program inception onward including assessment to insure quality services. The course covers federal, state and local governmental inpatient and outpatient mental health treatment services, not-for-profit organizations and community-based mental health service programs.

prereq or coreq: COUNM 71600 and COUNM 71700
Hours 45  
Credits 3

COUNS 71700 - Foundations of School Counseling

History, philosophy, legal, and ethical considerations in school counseling. The school context and professional issues in school counseling will be emphasized, including the school counselor's role, developmental programming, counseling interventions, consultation and liaison, and advocacy.

Hours 45
Credits 3

COUNS 72100 - Counseling Interventions for Children and Adolescents

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

prereq: COCO 70800
Hours 45
Credits 3

COUNS 72200 - School Based Consultation

This upper level course provides counselors with the knowledge and skills necessary to engage in consultation, collaborative problem solving, and systems level intervention in educational settings. Theories, models, and processes of consultation of change will be examined.

prereq or coreq: COCO 72500
Hours 45
Credits 3
Education: Counseling/Rehabilitation

COUNR 71600 - Resources and Foundations of Rehabilitation

History, philosophy, and principles of the vocational rehabilitation process. Economic, legal, ethical, and social issues influencing rehabilitation services. Observation of services available in state, city, and private agencies.

_Hours 45 hrs
_Credits 3

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

_Hours 45 hrs
_Credits 3

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

_Hours 45 hrs
_Credits 3

Education: School Counseling

COUNS 72000 - Culminating Seminar in School Counseling

With the permission of the supervising faculty member, the culminating experience in counseling provides the student with an opportunity to (a) participate as an integral member of a team involved in a research project, or (b) design an original evaluation or research project, or (c) complete a creative scholarly paper such as an extensive literature review. (Taken last semester prior to graduation)

_prereq: COCO 70900
_prereq or coreq: COCO 72600
_Hours 45
_Credits 3

Education: Educational Psychology

EDPS 70000 - Educational Psychology Proseminar
This proseminar consists of workshops, discussions and presentations on topics orienting students to the field of educational psychology and introducing them to the research interests of faculty members.

Credits: none

**EDPS 70100 - Statistics and Statistical Computing in Education I**

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, t-tests, analysis of variance, correlation, regression, and the use of computer packages for these analyses.

*Hours 60*  
*Credits 4*

**EDPS 70200 - Educational Research Methods**

This course is to increase students' understanding of the nature, purposes, needs, and types of research conducted by educational researchers and psychologists. Students will learn a range of research designs and methods, and their applications to education-related settings and issues.

*Hours 60*  
*Credits 4*

**EDPS 70300 - Learning and Behavior Theories**

This course provides students with an overview of the study of human learning and behavior. A major goal of this course is to provide students with the knowledge and skills necessary to enable them to appropriately apply theories of learning in instructional settings.

*Hours 60*  
*Credits 4*

**EDPS 71100 - EDPS Metacognitive and Cognitive Processes in Education**

This course provides students with an overview of major research on metacognitive and cognitive processes in learning and instruction. Focuses will be on major theories and research as well as metacognitive and cognitive processes and strategy applications in the areas of mathematical learning, text comprehension, science, and writing.

*prereq: EDPS 70200*  
*coreq: EDPS 70300*  
*Hours 60*  
*Credits 4*

**EDPS 71200 - Multicultural Issues in Learning and Instruction**

This course will examine the current research in K-12 education to explore the role of multicultural issues in teaching and learning.
prereq or coreq: EDPS 70200
Hours 60
Credits 4

EDPS 71300 - Cognition and Educational Technology

This course covers research about the influence of educational technology on the development of thinking and learning.

prereq: EDPS 70300
Hours 60
Credits 4

EDPS 72100 - Statistics and Statistical Computing in Education II

This course builds on knowledge of basic statistics, focusing on multiple regression and factorial ANOVA for statistical analysis of continuous and categorical independent variables. Diagnosis and treatment of data analytic problems such as missing data are discussed.

prereq: EDPS 70100, EDPS 70200
Hours 60
Credits 4

EDPS 72200 - Tests and Measurement

This course covers the following topics: classical test theory, tests construction, reliability estimation and generalizability theory, validation, item analysis, test bias, and introduction to item response theory, and the use of high-stakes testing in educational policy.

prereq: EDPS 70100, EDPS 70200
Hours 60
Credits 4

EDPS 72300 - Educational Program Evaluation

This course is designed to provide students with an overview of key concepts, theories, and methodologies utilized in the field educational evaluation.

Hours 60
Credits 4

EDPS 74100 - Mediating Factors in Student Achievement

This course will examine the current research in K-12 education in an effort to explore several of the more widely identified mediating factors that directly impact upon student achievement.
EDPS 74200 - Special Topics in Educational Research Methods

This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300
Hours 60
Credits 4

EDPS 74300 - Special Topics in Educational Psychology

This course will examine current research regarding a selected topic within the field of educational psychology; topics and readings will vary by semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300
Hours 60
Credits 4

EDPS 74900 - Independent Study in Educational Psychology

Permission of faculty adviser and chairperson required. Independent study in the area of educational psychology. A maximum of 4 credits of independent study may be counted toward the degree.

Credits 1 - 4

EDPS 79000 - Educational Psychology Seminar

This course provides an opportunity for students to prepare an original scholarly review of research literature or theoretical paper of publishable quality on an educational psychological topic of interest. The general goal of the course is to enable students to apply their knowledge of educational psychological issues and research through the development of a scholarly research paper.

prereq: students must have completed a minimum of 24 credits
Hours 60
Credits 4

EDPS 79501 - Educational Psychology Thesis Research 1
This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

**EDPS 79502 - Educational Psychology Thesis Research 2**

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

**Education: Health Education**

**HED 71400 - Health Education for the Classroom Teacher**

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

**HED 71500 - Health Education for Special Educators**

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

**Education: Latin Education**

**LATED 71200 - Methods 1: Classroom Organization, Management, and Assessment of Instruction in Latin**
Familiarizes prospective teachers of grades 7–12 with classroom organization patterns, rules and routines appropriate to the teaching of Latin. Close work with the design and evaluation of classroom lessons and materials in the context of national and state standards will be emphasized.

**prereq:** completion of 18 credits of graduate Latin courses  
**prereq or coreq:** SEDF 70400  
**Hours** 45 hrs, including conferences,  
**Credits** 3

**LATED 71300 - Methods 2: Teaching for Diverse Learners in Latin**

Familiarizes prospective teachers of grades 7–12 with pedagogical approaches for teaching a diverse body of learners, in light of national and state standards, in part by utilizing aspects of diversity in the ancient world. Innovative uses of technology, development of instructional units, individualizing for students with special needs, exploring aspects for a student-centered classroom will be emphasized.

**prereq:** LATED 71200  
**prereq or coreq:** SEDF 70500  
**Hours** 2 hrs plus 36 hrs fieldwork,  
**Credits** 2

**LATED 73100 - Student Teaching in Latin, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students who receive a grade of B–, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program.

**prereq:** LATED 71300  
**Hours** 2 hrs, 60 days student teaching plus workshops and conferences,  
**Credits** 5 cr

**LATED 74110 - Practicum in Latin, Grades 7-9**

Supervised practicum in the teaching of Latin in grades 7–9. Students who receive a grade of B–, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take LATED 74110 must also take LATED 74120.

**prereq:** LATED 71300  
**Hours** 2 hrs plus conferences,  
**Credits** 2 cr
LATED 74120 - Practicum in Latin, Grades 10-12

Supervised practicum in the teaching of Latin in grades 10–12. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take LATED 74120 must also take LATED 74110.

prereq: LATED 71300
Hours 2 hrs plus conferences,
Credits 2 cr

Education: Literacy Education

EDLIT 73000 - Language, Literacy and Culture, Grades 1-12

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners' needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500
Hours includes 10 hrs in the field analyzing language use of ESL learners
Credits 3 cr

EDLIT 73100 - Literacy Assessment: Birth–Grade 6

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instructional planning and meeting NYS English Language Arts performance standards.

prereq or coreq: ECC 70400 and EDLIT 73500
Hours 45 hrs and 15 hrs in the field assessing diverse learners
Credits 3 cr

EDLIT 73200 - Children's Literature

Exposure to the breadth, depth, and utilization of children's literature and its role in children's development, appreciating diversity and fostering a lifelong interest in reading. Sensitive issues (health, abuses, addictions), technology and management issues are examined.

Hours Includes 5 hrs in a classroom-based dramatic demonstration
Credits 3 cr
EDLIT 73300 - Theories and Process of Teaching Writing: Pre-K–Grade 6

Development and assessment of writing skills including analysis of techniques and environments that foster writing development in all children (ESL, gifted, special needs). State writing standards and technology are integrated.

*Hours Includes 15 hours in the field observing and analyzing writing development*
*Credits 3 cr*

EDLIT 73400 - Literacies within the Disciplines: K–Grade 6

Exploration into the literacy demands inherent in the academic subjects of math, science, health education and social studies, as well as media, technology and the arts.

*prereq or coreq: ECC 70400 and EDLIT 73500*
*Hours Includes 10 hrs in a classroom focused on older learners (grades 3-6) and content area literacy*
*Credits 3 cr*

EDLIT 73500 - Survey of Instructional Approaches in Literacy Education: Grades K-12

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

*Hours Includes 5 hours fieldwork*
*Credits 3 cr*

EDLIT 73600 - Diagnosis of Reading Difficulties

A study of factors related to students who are experiencing difficulty acquiring literacy. Procedures for diagnosing reading achievement and related language skills.

*prereq: EDLIT 73100*
*Hours Includes 15 hours of diagnosis, under supervision, of students with reading difficulties*
*Credits 3 cr*

EDLIT 73700 - Practicum in Remedial Reading

Theoretical and practical consideration and procedures in the instruction of students with reading difficulties.

*prereq: EDLIT 73600*
*Hours Includes 20 hrs of supervised remedial sessions with individual students on-site at Hunter College*
*Credits 3 cr*

EDLIT 73900 - Literacy Instruction for Struggling Readers and Writers, PreK-6
Exploration of historical and theoretical perspectives, and research-based teaching practices/issues related to literacy and language instruction for struggling readers and writers, including children with special needs. Study of assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcomes of struggling readers/writers and special needs students in pre-kindergarten and elementary school settings.

prereq or coreq: None
Credits 3

EDLIT 73901 - Delays in Early Language and Literacy Development in Young Children with Special Needs

Historical, theoretical, and research-based teaching practice issues related to literacy and language instruction for children with special needs, ages birth through second grade.

coreq: ECC 70400
Hours Includes 5 hrs observation in an inclusive early childhood setting or a program with special needs focus, 15 hrs, Credits 1 cr

EDLIT 73902 - Special Needs Issues in Literacies within the Curriculum

Adaptation, modification and management of instruction, curriculum, the learning environment, materials and technology across the curriculum for children with special learning needs.

prereq: EDLIT 73901
Hours 15 hrs, Credits 1 cr

EDLIT 73903 - Adaptations and Modifications in Approaches to Literacy for Students with Special Needs

Adaptation and modification of instructional strategies, technology and curriculum in literacy for full inclusion of children with disabilities.

prereq: EDLIT 73902
Hours 15 hrs, Credits 1 cr

EDLIT 74000 - Leadership in Literacy

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master's in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

prereq: EDLIT 74500; minimum of 27 credits in the literacy program
Hours 45 hrs
Credits 3 cr
EDLIT 74100 - Selected Topics

In-depth study of emerging areas related to literacy education for children birth through grade 6.

prereq or coreq: approval of the instructor
Hours 45 hrs,
Credits 3 cr
This is an elective course.

EDLIT 74200 - Practicum in Literacy

This course requires that students be supervised in their teaching. Students will select one area for improvement and work on this area throughout the course with the instructor and the weekly seminar as their think tank and support group.

prereq: Pre-requisite EDLIT 73100
Hours 15 hr seminar plus 50 hrs in the field,
Credits 1 cr

EDLIT 74500 - Literacy Research for Change

This course aims at learning to understand and use research methodologies in literacy education--qualitative, quantitative and mixed methods. The culminating project is a comprehensive literature review in an area of literacy education, which will lead to a staff development project in the final course, EDLIT 74000, Leadership in Literacy. Course participants will not only become informed consumers of literacy research but also teacher researchers advocating for diverse, urban student populations.

prereq: EDLIT 73100 or EDLIT 75600
Hours 45
Credits 3

EDLIT 75200 - Practicum in Literacy

This course requires that students be supervised in their teaching. Students will select one area for improvement and work on this area throughout the course with the instructor and the weekly seminar as their think tank and support group.

prereq: Pre-requisite EDLIT 75600
Hours 15 hours in seminar and 50 hours of field experience
Credits 1

EDLIT 75300 - Methods of Teaching Writing: Grades 5-12

Development and assessment of writing skills and methods for teaching writing including analysis of techniques and environments that foster writing development, and writing across the disciplines, in all students at middle childhood and adolescent levels (ELL, gifted, special needs). State writing standards and technology are integrated.

Hours includes 15 hours fieldwork
Credits 3

EDLIT 75400 - Literacies within the Disciplines: Grades 5-12
Exploration into the literacy demands and challenges inherent in the academic subjects of math, science, history and social studies, as well as media, health, technology and the arts.

prereq: Pre-requisite EDLIT 73500 and EDLIT 75500
Hours 3.0
Credits 3.0
Includes 10 hours in classrooms focused on literacies within the disciplines.

EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12

Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing difficulties. Assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

Hours includes 15 hours fieldwork
Credits 3

EDLIT 75600 - Literacy Assessment: Grades 5-12

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instruction planning and meeting NYS English Language Arts performance standards.

prereq: 9 credits in the content core
Hours includes 15 hours in the field assessing diverse learners

EDLIT 75700 - Practicum in Literacy Assessment and Intervention: Grades 5-12

A study of factors related to middle and high school students who are experiencing difficulty acquiring literacy. Implement, design and use a variety of procedures for diagnosing reading achievement and related language skills. Use assessment data to plan and implement intervention activities for students with literacy difficulties.

prereq: EDLIT 75600
Hours includes 25 hours of supervised assessment and intervention sessions with individual middle school students on-site at Hunter College Literacy Space and 25 hours of supervised assessment/intervention sessions off site with high school students
Credits 3

Education: Music Education

MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12

Organization and administration of school instrumental programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques, including a review of principles of performance
MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12

Organization and administration of school vocal programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques; an overview of technology, content, and materials of the nonperforming general music curriculum; classroom management strategies; supervised fieldwork in applying these topics.

prereq: MUSED 67700
prereq or coreq: SEDF 70500
Hours 3 hrs plus 18 hrs fieldwork, 
Credits 2 cr

Education: Special Education

CEDC 75400 - Differentiating Curriculum for Gifted and Talented Learners

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the fulltime gifted school.

Cross-listed SPED 75400
Hours includes 10 hrs field experience
Credits 3

EDABA 75000 - Experimental Analysis of Behavior

The primary focus of this course is on behavior analytic theory in the context of basic research. Topics to be covered include operant and respondent conditioning, reinforcement, discriminated operants, reinforcement schedules, and social learning.

Hours 3
Credits 3

EDABA 75500 - Functional Behavior Assessment
This course examines various behavior analytic assessment methods that are designed to identify the function of challenging behavior. Both experimental and non-experimental assessment methodologies will be examined along with methods of data collection and analysis.

_prereq: EDABA 795 or EDABA 798
Hours 3
Credits 3

EDABA 77000 - Practicum in Applied Behavior Analysis I

This course is the first of a two-course sequence in conducting fieldwork in applied behavior analytic settings. A total of 180 hours of fieldwork which includes designing, conducting, and analyzing data from applied behavior analytic interventions is required.

_prereq: EDABA 795 and approval of graduate advisor
Hours 3 plus 12 hours of field experience
Credits 3

EDABA 77100 - Practicum in Applied Behavior Analysis II

This course is the second of a two-course sequence in conducting fieldwork in applied behavior analytic settings. A total of 180 hours of fieldwork which includes designing, conducting, and analyzing data from applied behavior analytic interventions is required.

_prereq: EDABA 770 and approval of graduate advisor
Hours 3 plus 12 hours of field experience
Credits 3

EDABA 78000 - Thesis I

This course is the first course in a two-course sequence in which students conduct an original applied behavior analytic research project. Under the supervision of a faculty advisor, students conduct a literature review, develop a research proposal, and apply for necessary research approvals.

_prereq: EDABA 790, EDABA 791 and approval of graduate advisor
Hours 3 plus conferences
Credits 3

EDABA 78100 - Thesis II

This course is the second course in a two-course sequence in which students conduct an original applied behavior analytic research project. Under the supervision of a faculty advisor, students conduct an original research project based on the proposal developed in EDABA 780.

_prereq: EDABA 780 and approval of graduate advisor
Hours 3 plus conferences
Credits 3

EDABA 79000 - Single-Subject Research Design
This course is an introduction to single-subject research methods used in applied behavior analysis. In addition, data collection, data analysis, and data presentation will be covered.

Hours 45  
Credits 3

**EDABA 79100 - Ethics and Professionalism for Applied Behavior Analysts**

This course provides an introduction to ethical and professional behavior for applied behavior analysts. Topics to be covered include a variety of ethical and professional issues for applied behavior analysts as they relate to research and practice.

Hours 45  
Credits 3

**EDABA 79300 - Applied Behavior Analytic Autism Intervention for Adults**

This course examines applied behavior analytic intervention for adults with autism spectrum disorder. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include promoting independence, social skills, healthcare, leisure skills, vocational skills, employment, and managing problem behavior. Other areas to be covered include motivational systems, behavior assessment and staff training.

Hours 3 hrs  
Credits 3

**EDABA 79500 - Applied Behavior Analysis I**

The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

prereq or coreq: SPEDE 77100  
Hours 45  
Credits 3

**EDABA 79600 - Applied Behavior Analysis II**

This course examines specific behavior analysis methods and applications including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.

prereq: EDABA 79500  
Hours 45  
Credits 3

**EDABA 79800 - Behavior Analytic Approaches to Learning**
This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

**Hours 45**
**Credits 3**

**EDABA 79900 - Applied Behavior Analytic Autism Intervention**

This course examines applied behavior analytic intervention for individuals with autism. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive environments.

**prereq: EDABA 79500 or EDABA 79800**
**Hours 45**
**Credits 3**

**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

**Hours 45 hours; includes 5 hours of field experience**
**Credits 3**

**SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education**

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

**Hours 3 hrs**
**Credits 3 cr**

**SPED 70100 - Assessment of Students with Disabilities**

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

**prereq or coreq: SPED 70000**
**Hours 45 hours; includes 10 hrs of field experience**
**Credits 3**

**SPED 70151 - Advanced Preparation in Educational Assessment**
Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45  
Credits 3

**SPED 70151 - Advanced Preparation in Educational Assessment**

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45  
Credits 3

**SPED 70200 - Classroom Management in Special Education and Inclusive Settings**

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

**prereq or coreq: SPED 70000**  
Hours 45 hours; includes 15 hrs of field experience  
Credits 3

**SPED 70250 - Classroom Management in Special Education and Inclusive Settings**

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

**prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100**  
Hours Includes 20 hrs of field experience, 45 hrs,  
Credits 3 cr

**SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders**

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes.
Open to both special education and general education graduate students.

*prereq: SPED 70000
*coreq: current employment as a teacher or enrollment in student teaching
*Hours Includes 10 hrs of field experience, 45 hrs,
*Credits 3 cr

**SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs**

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

*prereq or coreq: SPED 70000
*Hours 15 hrs,
*Credits 1 cr

**SPED 70450 - Teaching Culturally and Linguistically Diverse Students**

This course is a review of the historical, social, and legal foundations of education as it pertains to special education, education of students including those with limited proficiency in English, and multicultural backgrounds. It is an overview of issues and best practices for teaching students from culturally and linguistically diverse backgrounds who have historically been underserved in educational systems due to language, race, class, or social status within the context of special education.

*prereq: SPED 70000 or SPED 70050
*Hours 3 hrs
*Credits 3 cr

**SPED 70500 - Use of Instructional Technology in Special Education**

Computer lab course focused on both broadly based and specialized applications for supporting students with learning disabilities, mild, moderate mental retardation, and behavioral disorders. Focus on select number of tools and their multiple uses. Also, overview of specialized computer curriculum software, web resources, and assistive technology for students with severe disabilities.

*prereq or coreq: SPED 70000
*Hours 30 hrs lab,
*Credits 1 cr

**SPED 70550 - Use of Instructional Technology in the Special Education Classroom**

This course explores how technology can support students with learning disabilities and behavior disorders. More than simply a "how to" course, this class aims to give teachers the tools needed to best assist their students and evaluate the use of technology in their classrooms. This is a lab course where some of the learning occurs over blocks of time spent in direct experience. Class sessions are: demonstrations; hands-on exploration; feedback; coaching; and direct exploration of both hardware and software, applying them both as teacher tools and as instructional means for students
with disabilities.

*prereq: SPED 70000 or SPED 70050*

**SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

*prereq or coreq: SPED 70000 or SPEDE 76800*

**SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

*prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100*

**SPED 70700 - Research Seminar: Issues in Special Education**

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

**SPED 70751 - Advanced Seminar in Special Education Practice**

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.
Hours 45  
Credits 3

**SPED 70751 - Advanced Seminar in Special Education Practice (For those in Advanced Preparation in Special Education)**

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45  
Credits 3

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308  
prereq: 12 credits of coursework

Hours 45  
Credits 3

* A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

**SPED 71051 - Independent Study in Special Education**

Designed to allow advanced students to further their understanding and skill within special education.

Hours 15-45 hrs,  
Credits 1-3 cr

Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71052 - Independent Study in Special Education**

Designed to allow advanced students to further their understanding and skill within special education.

Hours 15-45 hrs,  
Credits 1-3 cr

Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71053 - Independent Study in Special Education**

Designed to allow advanced students to further their understanding and skill within special education.
Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71151 - Independent Study in Deaf and Hard-of-Hearing**

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

**Hours 15-45 hrs,  
Credits 1-3 cr**

Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71152 - Independent Study in Deaf and Hard-of-Hearing**

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

**Hours 15-45 hrs,  
Credits 1-3 cr**

Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71153 - Independent Study in Deaf and Hard-of-Hearing**

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

**Hours 15-45 hrs,  
Credits 1-3 cr**

Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71251 - Independent Study in Blindness and Visual Impairment**

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

**Hours 15-45 hrs,  
Credits 1-3 cr**

Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71252 - Independent Study in Blindness and Visual Impairment**

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

**Hours 15-45 hrs,  
Credits 1-3 cr**
Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71253 - Independent Study in Blindness and Visual Impairment**

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

*Hours 15-45 hrs,*  
*Credits 1-3 cr*  
Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71451 - Topics in Special Education: ITI Practicum in Visual Impairment**

*Credits 1 cr*

**SPED 72000 - American Sign Language I**

An intensive first course in American Sign Language (ASL), designed to establish a foundation of ASL communicative competence. Emphasizes ASL grammar, vocabulary, receptive and expressive skills, fingerspelling, numbers, and spatial and pronominal reference.

*prereq or coreq: SPED 70000*  
*Hours Includes 10 hrs of field experience, 90 hrs lab,*  
*Credits 3 cr*

**SPED 72100 - American Sign Language II**

This intensive course continues material covered in SPED 720. Emphasizes increased communicative competence in ASL, as well as grammar, vocabulary, and receptive and expressive skills.

*prereq: SPED 72000*  
*Hours Includes 10 hrs of field experience 90 hrs lab,*  
*Credits 3 cr*

**SPED 72200 - The Study of ASL Educational Linguistics**

Focus on the linguistic structure of ASL: phonology, morphology, syntax, pragmatics, and discourse rules. Traces acquisition of ASL during infancy, childhood and adolescent. Differences are highlighted between ASL and English linguistics, as well as the interaction between such structures and children's learning. ASL is the instructional language used to teach this course.

*prereq: SPED 72100*  
*Hours 60 hrs lab,*  
*Credits 2 cr*
SPED 72300 - Math for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations.

*prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

SPED 72350 - Math for Students with Disabilities (Non-LD Specialization)

Principles, methods, and specially designed mathematics instruction for students with disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations.

*prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

SPED 72400 - Writing for Students With Learning Disabilities, Methods 3

In this course, teacher candidates learn methods for teaching all aspects of writing to children with learning disabilities using various research-based approaches that include: letter formation, handwriting, spelling, sentence structures, paragraph building, essay writing, and the writing process.

*prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

SPED 72450 - Writing for Students with Disabilities (for those not in LD Specialization), Methods 3

In this course, teacher candidates learn methods for teaching all aspects of writing to children with learning disabilities using various research-based approaches that include: letter formation, handwriting, spelling, sentence structures, paragraph building, essay writing, and the writing process.

*prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

SPED 72500 - Student Teaching: Learning Disabilities Grades 1-6 (Part 1)

This student teaching seminar and supervision are intended to provide supported teaching experience through the exploration of methods for differentiation. Teacher candidates will learn how to address the needs of a diverse learning group, including but not limited to students with Learning Disabilities and English Language Learners.

*prereq: SPED 70000 or SPED 70050; SPED 78200; SPED 78400
Hours 3 hrs
Credits 3 cr
SPED 72550 - Supervised Practicum: Learning Disabilities Grades 1-6 (Part 1)

This student teaching seminar and supervision are intended to provide you with supported teaching experience, to expand your practical knowledge, develop your instructional skills, increase your repertoire of specialized practices, and deepen your responsiveness to students with special learning needs. Through the exploration of methods for differentiation you will learn how to address the needs of a diverse learning group, including but not limited to Learning Disabilities and English Language Learners.

prereq: SPED 78200; SPED 78400
Hours 3 hrs
Credit 3 cr

SPED 72600 - Student Teaching: Learning Disabilities Grades 1-6 (Part 2)

This student teaching seminar and supervision is the first of two semester long experiences intended to provide supported teaching, practical knowledge, and increased facility with specialized practices for working with students with special learning needs.

prereq: SPED 78200; SPED 78400; either SPED 72500 or SPED 72550
Hours 3 hrs
Credit 3 cr

SPED 72650 - Supervised Practicum: Learning Disabilities Grades 1-6 (Part 2)

This practicum seminar is intended to provide supported teaching experiences, practical knowledge, and increased facility with specialized practices when working with students with special learning needs.

prereq: SPED 78200; SPED 78400; either SPED 72500 or SPED 72550
Hours 3 hrs
Credit 3 cr

SPED 73000 - Education of Students Who Are Deaf and Hard-of-Hearing

History of theory, practice and conceptualizations in the education of students who are deaf and hard-of-hearing. The study of language acquisition (English and ASL), bilingualism, and learning English as a second language in hearing and deaf children. Linguistic understanding and analysis of the components of language proficiency. Educational settings, issues of inclusion, and use of technology.

Hours Includes 10 hours of field experience 45 hrs,
Credit 3 cr

SPED 73100 - Reading and Writing Development for Students Who Are Deaf and Hard-of-Hearing: Methods 1

Theoretical and practical aspects of deaf children's receptive and expressive language use. Instructional procedures used to facilitate language acquisition in deaf and hard-of-hearing children and their learning to read and write. Assessment, instructional procedures, specific remediation techniques, and technology supports.
prereq: SPED 70000 and SPED 73000
coreq: must take SPED 73300 in semester immediately following.

Hours 3 hrs
Credits 3 cr.
Fall only

SPED 73300 - Math and Across-the-Curriculum Adaptations for Students who are Deaf and Hard-of-Hearing: Methods 2

Methods for assessing and teaching deaf and hard-of-hearing students in mathematics, science, social studies, other content areas, and time/space organization. Focus on math concept development and compensations; reading/writing and the arts across the curriculum; and organizational strategies for school, home and life.

prereq: (immediate preceding semester) SPED 73100
prereq or coreq: SPED 70000
Hours Includes 15 hrs of field experience
Spring only

SPED 73500 - Speech Development and Remediation of Students who are Deaf and Hard-of-Hearing

Psycho-acoustic aspects of speech sounds and their relationship to speech acquisition in hearing and deaf children. Effects of various degrees of hearing loss on speech acquisition; sense modalities in speech production; typical voice and speech errors in deaf and hard-of-hearing children; methods, procedures, materials, and technology used for speech development and remediation; inclusion of deaf and hard-of-hearing students.

prereq or coreq: SPED 70000
Hours Includes 5 hrs of field experience
Credits 3

SPED 73600 - Aural Rehabilitation of Students who are Deaf and Hard-of-Hearing

Principles and methods of teaching speech and auditory training. Methods, procedures and materials used in development of oral communication, supports for inclusive settings and use of technology.

prereq or coreq: SPED 70000
Hours Includes 5 hrs of field experience

SPED 73700 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 12

Supervised student teaching placement providing direct, specially designed classroom instruction for deaf and hard-of-hearing students at two grade levels that do not overlap with either pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills prerequisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.
prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,
Credits 4 cr

SPED 73750 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733
Hours 30 hrs seminar, plus conferences, plus 40 days student teaching,
Credits 2 cr

SPED 73751 - Student Teaching: Deaf and Hard-of-Hearing, Grades 7–12

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

SPED 73752 - Practicum: Deaf and Hard-of-Hearing, Preschool–Grade 6

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 73753 - Practicum: Deaf and Hard-of-Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 73760 - Supervised Practicum: Deaf and Hard-of-Hearing, Preschool–2nd Grade
Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300  
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching  
Credits 2

SPED 73761 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 1-6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300  
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching  
Credits 2

SPED 73762 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 5-9

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300  
Hours 30 hrs seminar, plus conferences,  
Credits 2

SPED 73763 - Supervised Practicum: Deaf and Hard-of-Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 7300, SPED 73300  
Hours 30 hrs seminar, plus conferences,  
Credits 2

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments
Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

**prereq or coreq: SPED 70000**
*Hours includes 10 hrs of field experience*
*Credits 3 cr*

**SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments**

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

**prereq or coreq: SPED 74000**
*Hours Includes 10 hrs of field experience*
*Credits 3*

**SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments**

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

**prereq or coreq: SPED 74000, SPED 74100**
*Hours Includes 15 hrs of field experience*
*Credits 3*

**SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments**

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

**prereq or coreq: SPED 74000, SPED 74100**
*Hours Includes 10 hrs of field experience*
*Credits 3*

**SPED 74400 - Assistive Technology for Learners with Visual Impairments**

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators,
refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

**prereq: SPED 74300**
*Hours 45 hrs,
Credits 3 cr*

**SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments**

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

**prereq or coreq: SPED 74000, 74100, 74200, 74300**
*Hours 15 hrs,
Credits 1 cr*

**SPED 74600 - Educational Implications of Learners Who Are Deafblind**

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

**prereq: SPED 70000, SPED 79000 or SPED 74100**
*Hours Includes 10 hrs of field experience
Credits 3*

**SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments**

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

**prereq or coreq: SPED 74000, 74100**
*Hours includes 10 hrs of filed experience
Credits 3 cr*

**SPED 74800 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 12**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or
visually impaired at two grade levels that do not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, adapting sensory environments, selecting appropriate learning media, adapting curriculum through tactile graphics, developing IEPs, and forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,
Credits 4 cr

SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr
SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12

 Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 74854 - Student Teaching 2: Blindness and Visual Impairment, Preschool–Grade 6

 Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plan, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours structured conferences, plus 20 days student teaching,
Credits 1

SPED 74855 - Student Teaching 2: Blindness and Visual Impairment, Grade 7–12

 Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnership with families.

prereq or coreq: SPED 74000, SPED 74100
Hours Structured conferences, plus 20 days student teaching
Credits 1 cr

SPED 74856 - Supervised Practicum 2: Blind and Visual Impairment Preschool–Grade 6

 Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placement. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours Structured conferences
Credits 1 cr
SPED 74857 - Supervised Practicum 2: Blind and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placement. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP’s, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100

Hours Structured conferences
Credits 1 cr

SPED 74900 - Orientation and Mobility for Students with Visual Impairments and Additional Disabilities

An advanced orientation and mobility course on specialized instructional strategies that address the special travel difficulties of learners (infants to older adults) who are blind or visually impaired with additional disabilities. Topics include deafness, deafblindness, multiple impairments, motoric, cognitive and affective impairments. This course also addresses instructional strategies for persons in unique living situations or environments.

Hours includes 10 hrs field experience, 45 hrs,
Credits 3 cr

SPED 75000 - The Study of Behavior Disorders

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs.

prereq or coreq: SPED 70000

Hours Includes 20 hrs of field experience

SPED 75051 - The Study of Behavior Disorders

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 75100 - Methods and Materials for Teaching Students with Behavior Disorders
Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students.

prereq or coreq: SPED 75000  
*Hours* 20 hrs of field experience  
*Credits* 3

**SPED 75151 - Methods and Materials for Teaching Students with Behavior Disorders**

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students. Advanced students must complete individually-tailored assignments.

*Hours* 45  
*Credits* 3

**SPED 75200 - Student Teaching: Behavior Disorders, Grades 1–3 and 4–6**

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instructions at grade levels 1–3 and 4–6. Factors influencing teaching and management outcomes such as family influences.

prereq: SPED 75000  
prereq or coreq: SPED 75100 or SPED 78150  
*Hours* 30 hrs seminar, plus conferences, plus 40 hours student teaching at two age levels,  
*Credits* 4 cr

**SPED 75250 - Student Teaching: Behavior Disorders, Grades 1–3**

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes such as family influences.

prereq: SPED 75000  
prereq or coreq: SPED 75100 or SPED 78150  
*Hours* 30 hrs seminar, plus conferences, plus 20 days student teaching,  
*Credits* 2 cr

**SPED 75251 - Student Teaching: Behavior Disorders, Grades 4–6**

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with
behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

**SPED 75252 - Supervised Practicum: Behavior Disorders, Grades 1–3**

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

**SPED 75253 - Supervised Practicum: Behavior Disorders, Grades 4–6**

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

**SPED 75254 - Student Teaching: Behavior Disorders Grades 1-6 (Part 1)**

This student teaching seminar and supervision are intended to provide supported teaching experience through the exploration of methods for differentiation. Teacher candidates will learn how to address the needs of a diverse learning group, including but not limited to students with Behavior Disorders.

**SPED 75255 - Supervised Practicum: Behavior Disorders Grades 1-6 (Part 1)**

This student teaching seminar and supervision are intended to provide you with supported teaching experience, to expand your practical knowledge, develop your instructional skills, increase your repertoire of specialized practices, and deepen your responsiveness to students with special learning needs. Through the 83 exploration of methods for differentiation you will learn how to address the needs of a diverse learning group, including but not limited to Behavior Disorders.

**prereq:** SPED 75000

**prereq or coreq:** SPED 75100 or SPED 78150

**Hours** 30 hrs seminar, plus conferences, plus 20 days student teaching,

**Credits** 2 cr

**prereq:** SPED 75000

**prereq or coreq:** SPED 75100 or SPED 78150

**Hours** 30 hrs seminar plus conferences,

**Credits** 2 cr

**prereq:** 18 credits and 1 methods course

**Hours** 3 hrs

**Credits** 3 cr
Hours 3 hrs
Credits 3 cr

SPED 75256 - Student Teaching: Behavior Disorders Grades 1-6 (Part 2)

This student teaching seminar and supervision is the first of two semester-long experiences intended to provide supported teaching, practical knowledge, and increased facility with specialized practices for working with students with special learning needs.

prereq: 18 credits and 1 methods course
Hours 3 hrs
Credits 3 cr

SPED 75257 - Supervised Practicum: Behavior Disorders Grades 1-6 (Part 2)

This practicum seminar is intended to provide supported teaching experiences, practical knowledge, and increased facility with specialized practices when working with students with special learning needs.

prereq: 18 credits and 1 methods course
Hours 3 hrs
Credits 3 cr

SPED 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

Cross-listed (Cross-listed with CEDF 75300.)
Hours 45 hrs includes 10 hrs field experience
Credits 3 cr

SPED 75400 - Differentiating Curriculum for Gifted and Talented Learners

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the full time gifted school.

Cross-listed (Cross-listed with CEDF 75400.)
Hours Includes 10 hrs field experience
Credits 3

SPED 75500 - Assessment and Instruction for Diversely Gifted Learners

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.
SPED 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

SPED 76000 - Skills and Techniques for Rehabilitation Teaching I

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

SPED 76100 - Skills and Techniques for Rehabilitation Teaching II

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments

Job modification options. Transition planning from education to adult services.
SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100
Hours 230 hrs,
Credits 2 cr

SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100
Hours 230 hrs,
Credits 2 cr

SPED 76500 - Intermediate Orientation and Mobility

Theories related to perception, learning and development of individuals who are blind or visually impaired, and/or with multiple impairments across the age spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

prereq or coreq: SPED 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr.

SPED 76600 - Advanced Orientation and Mobility

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

prereq or coreq: SPED 76500, 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr

SPED 76700 - Orientation and Mobility: Internship/Seminar
Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

prereq or coreq: SPED 76500, 76600, 76800, 76900
Hours 30 hrs seminar, plus conferences plus 340 hours of internship,
Credits 2 cr

SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar

This course teaches assessment, evaluation and lesson plan/execution, the systems of mobility used by persons who are visually impaired, and indoor travel techniques used by persons with visual impairments navigating familiar and unfamiliar buildings. Fifteen day summer course.

prereq or coreq: permission of adviser
Hours 3 hrs
Credits 3 cr.
Two week summer course.

SPED 76900 - Advanced Orientation and Mobility Lab and Seminar

This course provides instruction in, lesson sequencing, pedagogical and andragogical methods for O&M instruction for persons who are blind or visually impaired. Through observation, and practice, this course develops competencies in teaching travel techniques used by persons with visual impairments.

prereq: SPED 76800
Hours 3 hrs
Credits 3 cr.
Two week summer course.

SPED 77100 - Methods of Teaching Reading for Adolescents with Learning Disabilities

This course addresses principles, methods, and specially designed instruction for adolescents with learning disabilities, mild/moderate cognitive impairment, and/or behavior disorders. The focus is on developing literacy through all aspects of reading, including: developing comprehension, expanding vocabulary, increasing fluency, utilizing phonics, and refining phonemic awareness. Students will learn strategies that support reading at all levels, including: sound, word, sentence, cross-sentence, text body, and text structure, genre, and across content areas.

coreq: SPED 77200
prereq or coreq: SPED 70000
Hours 45 plus 10 field hours
Credits 3 cr.

SPED 77200 - Supervised Clinical Teaching of Adolescents with Disabilities: Part I

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities, mild cognitive impairment, and/or behavior disorders from grades 7–12. Focus on specialized reading instruction, math
instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 77100
prereq or coreq: SPED 70000
Hours 30 hours of seminar plus 25 field hours
Credits 2 cr.

**SPED 77300 - Math Methods for Adolescents with Disabilities**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

**SPED 77400 - Supervised Clinical Teaching of Adolescents with Disabilities: Part II**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 70000
coreq: SPED 77300
Hours 2 hrs: 15 hours of seminar plus 22 lab/clinical hours
Credits 2 cr

**SPED 77500 - Supervised Student Teaching of Adolescents with Learning Disabilities**

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities or mild/moderate intellectual disabilities in grades 7-12. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000 or SPED 70050; SPED 77100; SPED 77200
Hours 3 hrs: 30 hrs of seminar plus conferences plus 60 days student teaching
Credits 3 cr

**SPED 77550 - Supervised Practicum: Grades 7-12**

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000 -or- 70050; SPED 77100; SPED 77200
Hours 3 hrs: 30 hours seminar, plus conferences plus 60 days student teaching
Credits 3 cr
SPED 77551 - Supervised Student Teaching: Learning Disabilities, Grades 7-12

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000 or SPED 70050; SPED 77100; SPED 77200
Hours 1.5 hrs: 30 hours seminar, plus conferences, plus 30 days student teaching
Credits 1.5 cr

SPED 77552 - Student Teaching: Learning Disabilities, Grades 7-12

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000 or SPED 70050; SPED 77100; SPED 77200
Hours 1.5 hrs: 30 hours seminar, plus conferences, plus 30 days student teaching
Credits 1.5 cr

SPED 77600 - Writing & Executive Function for Adolescents with Learning Disabilities

In this course students study the practice of teaching all aspects of writing to adolescents with learning disabilities by using various research-based approaches to address: handwriting, spelling, sentence structures, paragraph building, essay writing, and the writing process.

prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

SPED 77700 - Supervised Clinical Teaching of Students with Learning Disabilities

Year-long course. On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100
prereq or coreq: SPED 70000
Hours 15 hours seminar, plus 22 lab/clinical teaching hours
Credits 2
Year-long course

SPED 78000 - The Study of Learning Disabilities in Children and Adolescents

History of theory, practices and conceptualizations of learning disabilities and mild/moderate mental retardation. Current issues, controversies and research, offering frameworks for appropriate instruction. Includes student characteristics, LD as an approach to teaching, family and cultural needs, as well as services and settings from special schools to supported inclusion.
SPED 78100 - Reading for Students with Learning Disabilities Grades 1-6, Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000
Hours 45
Credits 3

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq: SPED 70000 or 70050
Hours 3 hrs: includes 10 hrs of field experience
Credits 3 cr

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word
recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45  
Credits 3 cr.

**SPED 78200 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1**

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100  
prereq or coreq: SPED 70000  
Hours 15 hrs seminar, plus 20 hrs lab,  
Credits 2 cr  
Fall only (note: must take concurrently with SPED 78100 and must take SPED 78300/78400 in semester immediately following)

**SPED 78251 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1**

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use. Advanced students must complete individually-tailored assignments.

Hours 15 hrs seminar, plus 20 hrs lab  
Credits 2

**SPED 78300 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 78100/78200  
coreq: SPED 78400  
Hours 45  
Credits 3  
Spring only (note: must take concurrently with SPED 78400 and have taken SPED 78100/78200 in preceding semester)
SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000

Hours 45 hrs,
Credits 3 cr

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 78400 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use

prereq: SPED 781/ 782
coreq: SPED 783

Hours 15 hrs seminar, plus 20 hrs lab,
SPED 78451 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use. Advanced students must complete individually-tailored assignments.

*Hours 15 hrs seminar, plus 20 hrs lab
Credits 2

SPED 78500 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate intellectual disabilities in either grades 1–3 or 4–6, whichever is not covered in SPED 78200/SPED 78400. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

*prereq: SPED 70000 or SPED 70050; SPED 78200
*Hours 3 hrs: 45 hrs seminar, plus conferences, plus a semester of student teaching
Credits 3 cr

SPED 78550 - Supervised Practicum: Learning Disabilities, Grades 1–3 or 4–6

Supervised practicum, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78200/SPED 78400. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Includes IEP, families and communities.

*prereq: SPED 70000 or SPED 70050; SPED 78200
*Hours 3 hrs: 45 hrs seminar, plus conferences, plus a semester of student teaching
Credits 3 cr

SPED 78551 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78552.

*prereq: SPED 70000 or SPED 70050; SPED 78200
*Hours 1.5 hrs: 30 hrs seminar, plus conferences, plus 30 days of student teaching
Credits 1.5 cr

SPED 78552 - Student Teaching/Supervised Practicum: Learning Disabilities, Grades 1–3 or 4–6
Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate intellectual disability in either grades 1–3 or 4–6, whichever is not covered in SPED 78551.

prereq: SPED 70000; SPED 78200
Hours 1.5 hrs: 30 hrs seminar, plus conferences, plus 30 days of student teaching
Credits 1.5 cr

SPED 78900 - Practicum in Adolescent Special Education

On-the-job supervised year-long classroom practicum on providing specially designed instruction in a special education teacher position/role for students in grades 7 - 12 with learning disabilities, behavior disorders and/or mild/moderate mental retardation. Entails supervisory observations by Hunter College faculty, with feedback conferences and individually tailored follow-up assignments for improving instructional planning, teaching, assessment, and student interactions. The 30-hour seminar focuses on effective instructional and behavioral strategies for the first year of teaching, including meeting the needs of students with severe/multiple disabilities (requires successful completion of online workshop related to students with severe/multiple disabilities).

prereq or coreq: SPED 70000
Hours 30 hours seminar, plus conferences
Credits 2 cr.
Year-long course

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr.

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000
Hours Includes 15 hrs of field experience
Credits 3

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness
Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

**prereq or coreq:** SPED 70000 or SPEDE 76800

*Hours includes 15 hrs of field experience*

*Credits 3 cr*

**SPED 79251 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness**

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication. Advanced students must complete individually-tailored assignments.

*Hours includes 15 hrs of field experience*

*Credits 3*

**SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities**

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

*prereq: SPED 70000*

*Hours includes 10 hrs of field experience, 30 hrs*

*Credits 2 cr*

**SPED 79400 - Functional Language and Culture of Learners with Low Incidence Disabilities**

This course emphasizes language strategies for English language learners (ELL), cultural/family values, home/school partnerships, teacher expectations and assumptions, classroom environments, learning materials. Students are expected to relate and adapt curriculum and ELL instructional strategies to learners with severe disabilities.

*prereq: SPED 70600*

*Hours includes 5 hrs of field experience,*

*Credits 1 cr*

**SPED 79500 - Student Teaching: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–6**

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness in grades 1–3 and 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.
prereq or coreq: SPED 79000, 79100

**SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3**

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

*prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,
Credits 2 cr*

**SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6**

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

*prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,
Credits 2 cr*

**SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3**

Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

*prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr*

**SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6**

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.
prereq or coreq: SPED 79000, 79100
Hours 30 hours seminar, plus conferences,
Credits 2 cr

**SPED 79700 - Topics in Special Education**

prereq or coreq: SPED 70000
Hours 15-45 hrs.
Credits 1-3

**SPED 79800 - Topics in Special Education**

In-depth study of one area relevant to teaching students with disabilities.

prereq or coreq: SPED 700
Hours 15-45 hrs,
Credits 1-3 cr

**SPED 79900 - Topics in Special Education**

In-depth study of one area relevant to teaching students with disabilities.

prereq or coreq: SPED 700
Hours 15-45 hrs,
Credits 1-3 cr

**SPEDE 70700 - Research Seminar: Issues in Early Intervention and Early Childhood Special Education**

Integration of theory, research and practice as related to the field of early childhood special education. Focus is on researching and applying evidence-based practices with fidelity across individuals and environments.

prereq or coreq: SPEDE 778.10 OR SPEDE 779.10
Hours 3 for 5 weeks
Credits 1 cr.

**SPEDE 77051 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula**

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods.

prereq: By permission
Hours 3 hrs
Credits 3 cr.
SPEDE 77151 - Autism Spectrum Disorder: Characteristics and Implications for Intervention

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

prereq: By permission
Hours 3 hrs
Credits 3 cr.

SPEDE 77251 - Positive Behavior Support (PBS) and Its Applications to Young Children with Special Needs

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

prereq: By permission
Hours 3 hrs
Credits 3 cr.

SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 36 days (30 hr seminar plus 36 days pre-K) plus conferences

SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours 36 days (30 hr Seminar plus 36 days Pre-K)
Credits 2 cr.
**SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

*prereq or coreq: SPED 79000, 79100*

*Hours 36 days (30 hr seminar plus 36 days student teaching K-2), plus conferences*

*Credits 2*

**SPEDE 79552 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

*Hours (30 hr seminar plus conferences) Pre-K*

*Credits 2*

**SPEDE 79552 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

Supervised practicum in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

*prereq or coreq: SPED 79000, 79100*

*Hours 36 days (30 hr seminar, pre-K), plus conferences*

*Credits 2 cr.*

**SPEDE 79553 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**
SPEDE 79553 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised practicum in a disability-specific or inclusive school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 36 days (30 hr seminar, K-2), plus conferences
Credits 2 cr.

Education: English as a Second Language

CEDCF 71000 - Social, Historical, & Philosophical Foundations of General and Bilingual Education: Theory and Practice

This course provides a foundation for TESOL and Bilingual Education students in the historical, social and philosophical foundations of general and bilingual education with an emphasis on the development and current educational policies and practices of educating English language learners. Required for TESOL Program 1.

Hours includes 10 hrs of fieldwork
Credits 4

EDESL 70100 - Selected Topics in TESOL

EDESL 701-704 Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser
Credits 1 cr

EDESL 70200 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based
in instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

**prereq:** permission of TESOL adviser  
**Credits 2 cr**

**EDESL 70300 - Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

**prereq:** permission of TESOL adviser  
**Credits 3 cr**

**EDESL 70400 - Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

**prereq:** permission of TESOL adviser  
**Credits 4 cr**

**EDESL 70500 - Structure of English: A Pedagogical View**

The total grammatical system of English seen functionally and pedagogically. Students examine research on various English language structures and develop optimum teaching approaches for presenting these structures.

**prereq:** LING 70100 or permission of TESOL adviser  
**Hours 45 hrs**  
**Credits 3**  
**Required of students in Programs One, Two, and the Adult Program.**

**EDESL 73200 - Second Language Literacy and Language**

This course offers an in-depth treatment of the literacy and language knowledge needed for the teaching of literacy skills through the various content areas (math, science, social studies, literature) to English language learners. Requires 10 hours of fieldwork.

**prereq or coreq:** EDESL 78300  
**Hours 3 hrs plus 10 hrs of fieldwork**  
**Credits 3 cr**

**EDESL 74100 - Teaching ESL Oral Skills**

This course will begin by addressing theory and practice of both the acquisition and teaching of oral and listening skills in adult ESL. It will then focus on how oral and listening skills can be taught to adults from diverse cultural and linguistic backgrounds, addressing cognitive, emotional, social, and personal differences among students.
prereq: EDESL 70200, EDESL 70300  
Hours 3 hrs  
Credits 3 cr

**EDESL 74200 - Teaching ESL Reading and Writing**

The course will cover theories of reading and writing, as well as focus on the teaching methods and practices that grow out of them. The primary focus of the course will be the process of learning about how L2 literacy skills are acquired.

prereq: EDESL 70200, EDESL 70300  
Hours 3 hrs  
Credits 3 cr

**EDESL 74300 - Language Assessment for Adult ESL Classrooms**

This course introduces students to relevant theory and current practice in the area of language assessment and integrates the two in order to provide students with both conceptual understanding and practical experience with language assessment. The course will examine key concepts and current debates, including validity, reliability and the ethics of high-stakes testing.

prereq: EDESL 702 and EDESL 703  
Hours 3 hrs  
Credits 3 cr

**EDESL 75200 - Supervised Teaching 1**

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 1 focuses on the development of core lesson planning, teaching, and assessment skills in ESL instruction. Required of all pre-K-12 program students.

prereq: Completion of 24 credits or permission of TESOL adviser  
Hours 3 hrs  
Credits 3 cr

**EDESL 75300 - Supervised Teaching 2**

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 2 focuses on the professional duties of the ESL educator beyond teaching and incorporates an advocacy-based classroom based inquiry project. Required of all MA K-12 program students.

prereq: EDESL 75200  
Hours 3 hrs  
Credits 3 cr

**EDESL 76000 - Master's Essay Seminar in Educational Research**

A written study, requiring a literature review and an in-depth research project that may take a variety of forms. Students meet in a seminar and individually with the adviser; instructor's approval of research project topic
required. Taken in lieu of the comprehensive examination. Course extends across two semesters (Y course) or until written study is submitted. Registration by adviser's approval only. Elective for all students.

prereq: completion of 24 credits or permission of TESOL adviser
Credits 4

EDESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in Program 1 and Program 2.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser
Credits 4
includes 10 hrs fieldwork

EDESL 77000 - Content and Curriculum & Materials in Adult TESOL

An overview of current theory and practice in the design of content, curriculum, and materials for the teaching of Adult ESL, focusing primarily on designing ESL instruction for academic and adult continuing ESL contexts. Includes adult content area learning and English for Specific purposes, and integrating the 4 language skills.

prereq or coreq: pre- or coreq: EDESL 79600 or permission of TESOL adviser
Hours includes 10 hrs of fieldwork in Adult ESL classrooms
Credits 4

EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: EDESL 79600/79610
Hours includes 20 hrs fieldwork in K-12 classrooms
Credits 4

EDESL 77200 - First and Second Language, and Technological Literacy in K-12 ESL

An in-depth treatment of theory and practice in the teaching of literacy skills, including technological, to English language learners in the public schools. Required of students in both Pre-K-12 Programs 1 and 2.

prereq: EDESL 79600/79610 and LING 70200 or permission of TESOL adviser
Hours includes 10 hrs fieldwork
Credits 4

EDESL 77500 - Socio-Cultural Aspects of Language
This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

**EDESL 77600 - Language Assessment in Adult TESOL**

An overview of the theories, concepts, methods, and materials for assessing the language and content knowledge of adult ESL students. For students in Program 3.

**prereq:** EDESL 79600, LING 70200, EDESL 77000; **coreqs:** EDESL 77800, 77900, or permission of TESOL adviser

*Hours includes 10 hrs of fieldwork in Adult ESL classrooms*

**Credits:** 4

**EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy**

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

**prereq or coreq:** LING 70200, EDESL 79600/79610

**Credits:** 4

**EDESL 77800 - Teaching Oral Language Skills in Adult TESOL**

An overview of current theory and practice in the teaching of oral skills (speaking, listening, and pronunciation) to adult ESL students, focusing primarily on designing ESL instruction to enhance students' skills in these areas. For students in Program 3.

**prereq:** EDESL 79600

**prereq or coreq:** pre- or coreq: EDESL 77000

**Credits:** 4

**EDESL 77900 - Teaching Reading and Writing Skills in Adult TESOL**

An overview of the theory and practice of teaching reading and writing to adults in ESL, with considerations for the wide range of adult ESL learning contexts, including adult continuing education, college English/ESL programs and English for academic purposes. For students in Program 3.

**prereq:** prereq: EDESL 79600

**prereq or coreq:** pre- or coreqs: EDESL 7700 or EDESL 78700 or EDESL 77500

**Credits:** 4

**EDESL 78000 - Seminar in Educational Research (Master's Essay)**

A written study, which may include a researched area, an analysis of a methodology, a review, evaluation, or critique of relevant literature, or a proposal for learning materials. Students in this course, who meet as a group and individually with the adviser, are exempt from taking the comprehensive examination.
This course satisfies the culminating requirement for the MA program and counts as an elective course in the Adult Track and K-12 programs. Year-long course.

prereq: completion of 24 credits and permission of TESOL adviser
Credits 3 cr (year-long)
Students who satisfactorily complete the first semester would earn a grade of Y, which would be changed to a letter grade upon satisfactory completion of all course requirements.

**EDESL 78100 - Curriculum and Materials in Adult TESOL**

Overview of the various curriculum and materials options for learning ESL/EFL (listening and an oral comprehension, speaking and conversation, reading and vocabulary building, writing and composing, textbook series for children and adults, dictionaries, computer-assisted learning materials, video programs and others). Attention is given to classroom management tasks, setting up and exploiting various learning environments, and general literacy concerns.

prereq or coreq: EDESL 78200
Hours 3 hrs
Credits 3 cr

**EDESL 78200 - TESOL Methods for Adult Education**

A treatment of effective TESOL practices, classroom management, and learning environments appropriate to the adult classroom. Twenty-five hours of field experience/observation is a part of this course.

Hours 45 hrs
Credits 3 cr
Required of students in the Adult Program and an elective for students in the Pre-K–12 Programs One and Two who have been waived from a required course.

**EDESL 78300 - Methodology of Teaching English to Speakers of Other Languages**

An overview of classroom options for teaching English to second language learners. The course covers options for classroom management and setting up learning environments. A 25-hour field experience is a part of this course.

Hours 45 hrs
Credits 3
Required for students in Program Two and Program Three (Adult Program).

**EDESL 78400 - Fieldwork in TESOL with Adults**

Teaching practicum in a field setting with adult learners of English in the Community Outreach Program in English (COPE) on Saturdays. (Sabbath observers meet during the week.) During a weekly seminar, emphasis is placed on peer dynamics, classroom management and setting and exploiting learning activities and environments.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs
Credits 3
Required of students in the Adult Program.

**EDESL 78410 - Practicum in TESOL for Adults**
A hands-on Practicum/teaching experience with adult ESL students in the Community Outreach Program in English (COPE) at Hunter College, that serves as one of two culminating teaching experiences in the Adult Track of the TESOL Program. Students also meet in a weekly seminar immediately after their COPE classes. Required of students in Program 3.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 30 hrs plus 60 hrs classroom teaching,
Credits 2 cr.

EDESL 78420 - Student Teaching in TESOL for Adults

A student teaching experience (with the guidance of a cooperating teacher) in an academic ESL context (either an Intensive ESL Program or a college ESL class), that serves as one of two culminating teaching experiences in the Adult Track of the TESOL Program. Students also meet in a weekly seminar to discuss their student teaching experiences. Required of students in Program 3.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 30 hrs plus 60 hrs classroom teaching,
Credits 2

EDESL 78500 - Supervised Student Teaching, Pre-K-6 and 7-12

Two-semester supervised student teaching experience in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs seminar plus student teaching and conference
Credits 2
this is a year-long course

EDESL 78510 - Supervised Student Teaching in the Elementary School: Pre-K–6

Supervised student teaching in Pre-K through grade 6 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. (1) Students without prior certification in another area must teach 30 days in Pre-K–6; (2) Students with prior certification in another area must teach 20 days in Pre-K–6.

prereq: completion of 30 credits or permission of TESOL adviser
Hours 15 hr seminar plus student teaching and conferences,
Credits 2 cr.
Required of students in Programs One and Two. note: students should not take 788.10 if they are in this course

EDESL 78520 - Supervised Student Teaching in the Secondary School: Grades 7–12

Supervised student teaching in grades 7–12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. (1) Students without prior certification in another area must teach 30 days in grades 7–12; (2) Students with prior certification in another area must teach 20 days in grades 7–12.
EDESL 78600 - Phonetics of American English

Phonological (phonetic and phonemic) analysis of contemporary American speech.

prereq or coreq: LING 70100 or permission of TESOL adviser
Hours 45 hrs,
Credits 3 cr
Required of students in the Adult Program and for students in Pre-K–12 Programs One and Two who have been waived from a required course.

EDESL 78700 - K-12 ESL Curriculum and Materials across the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: LING 70300, EDESL 78300 or permission of TESOL adviser
Hours 3 hrs
Credits 3 cr

EDESL 78800 - Supervised Practicum, Pre-K-6 and 7-12

Two-semester supervised practicum in grades Pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades Pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs seminar plus student teaching and conference
Credits 2
this is a year-long course

EDESL 78810 - Supervised Practicum in the Elementary School: Pre-K–6

Teaching practicum at the elementary level in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices

prereq: completion of 30 credits or permission of TESOL adviser
Hours 15 hr seminar plus supervised teaching and conferences,
Credits 1 cr
For students in Programs One and Two who teach ESL in an elementary school setting. note: students should not take 785.10 if they are in this course

EDESL 78820 - Supervised Practicum in the Secondary School: Grades 7–12
Teaching practicum at the secondary level in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices.

prereq: completion of 30 credits or permission of TESOL adviser
Hours 15 hr seminar plus supervised teaching and conferences,
Credits 1 cr
For students in Programs One and Two who teach ESL in a secondary school setting. note: students should not take 785.20 if they are in this course

EDESL 78900 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/ELF to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, materials development.

prereq: LING 701 or permission of TESOL adviser
Hours 45 hrs,
Credits 3 cr
Elective for students in the Adult Program and for students in the Pre-K–12 Programs One and Two who have been waived from a required course.

EDESL 79000 - Technology in TESOL: Adults

Through reading, class discussions, demonstrations, and hands-on applications, students are introduced to a range of technologies available to adult language learners in the computer laboratory, through distance learning, and on the Internet; students are also exposed to procedures in computer-assisted language learning (CALL) and computer-assisted instruction (CAI).

Hours 45 hrs,
Credits 3 cr
An elective for students in Program 3 and for students in Programs 1 and 2 who have been waived from a required course.

EDESL 79100 - Language Assessment in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing.

prereq: LING 70100 or BILED 77100
prereq or coreq: EDESL 70500 or permission of TESOL adviser
Hours 45 hrs,
Credits 3 cr
Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.

EDESL 79200 - Second Language Literacy and Technology

This course provides an in-depth treatment of theory and practice in the teaching of all of the literacy skills: reading and writing, along with the development of oral language and listening, to K-12 English language learners in the public schools. Interactions between first, second, and other language literacy, and technological literacy are explored and exploited toward successful language teaching and learning. Includes 15 hours of field experience.
prereq: LING 70300; LING 77300; EDESL 78300

Hours 3 hrs
Credits 3 cr
Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.

EDESL 79300 - Technology in TESOL: Pre-K–12

This mini-course covers basic technology and computer operations/concepts (second language learning software; accessing, generating, manipulating data, and publishing results); the use of technology in personal/professional growth; and the applications of technology for language instruction.

Hours 15 hrs,
Credits 1 cr
Required of students in both Programs One and Two and an elective in the Adult Program.

EDESL 79400 - Teaching ESL Students with Disabilities: Pre-K–12

Overview of issues and practices relevant to the teaching and learning of second language learners with special education needs.

Hours 15 hrs,
Credits 1 cr
Required of students in Programs One and Two.

EDESL 79500 - Health Education for Teachers of ESL: Pre-K–12

An overview of health promotion and wellness for teachers of ESL students from diverse ethnic/cultural backgrounds and different abilities in grades pre-K through grade 12. It includes child abuse and neglect, drug education, fire safety education, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr
Required of students in Programs One and Two.

EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in Program 1.

Credits 4 cr.
includes 30 hours fieldwork

EDESL 79620 - Methodology of Teaching English to Speakers of Other Languages

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

Hours includes 20 hours fieldwork
EDESL 79630 - Methodology of Teaching English to Speakers of Other Languages

Hours 25 hrs fieldwork
Credits 4 cr.

EDESL 79800 - Student Teaching in Academic ESL

Hours 60 hrs fieldwork
Credits 2 cr

EDESL 79900 - Adult Fieldwork / Practicum

Hours 60 hrs fieldwork
Credits 2 cr

ESESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in Programs 1 and 2.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser
Hours includes 10 hrs fieldwork
Credits 4

ESESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610
Credits 4

LING 70200 - Analysis and Structure of English from a Pedagogical Perspective

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

Hours includes 10 hrs fieldwork
Credits 4

LING 77300 - Instructed Second Language Acquisition
This course provides an overview of current theory, research, and practice in second language acquisition and learning. Pedagogical implications and applications for English language learning particularly through instruction are emphasized. Teachers are introduced to research methodologies and conduct classroom-based research.

**LING 77400 - Theory and Research in Second Language Acquisition and Learning**

A survey of current theory and research in second language acquisition with particular reference to the acquisition of English and applications of the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

*prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser*

**Credits 4**

5 hours of field work.

**English - Introductory Courses**

**ENGL 70100 - Introduction to Literary Studies**

Introduction to methods of literary criticism, textual scholarship, and major critical approaches of the last eighty years.

**ENGL 70200 - Introduction to Literary Theory and Criticism**

Foundation course on the history of literary interpretation and contemporary approaches to texts.

*Hours 3 hrs*  
*Credits 3 cr.*

**English - Creative Writing**

**ENGL 79000 - Topics in Fiction Writing: Workshop**

Studio-style workshop of students' fiction, with weekly submissions and critique.

*Hours 3 hrs*  
*Credits 3 cr.*

**ENGL 79100 - Topics in Poetry Writing: Workshop**
Studio-style workshop of students' poetry, with weekly submissions and critique.

*Hours 3 hrs
Credits 3 cr*

**ENGL 79200 - Topics in the Craft of Fiction**

Seminar in craft of fiction; topics and readings will vary by semester.

*Hours 3 hrs
Credits 3 cr*

**ENGL 79400 - Topics in the Craft of Poetry**

Seminar in craft of poetry; topics and readings will vary by semester.

*Hours 3 hrs
Credits 3 cr*

**ENGL 79500 - Topics in Memoir Writing: Workshop**

Graduate writing workshop in memory and autobiography. Students will present memoir and autobiographical writings to be critiqued by members of the workshop and the instructor.

*Hours 3 hrs
Credits 3 cr*

**ENGL 79600 - Topics in the Craft of Memoir:**

Participants will study the writer's craft in creative non-fiction in memoir, essay, and/or autobiography. Particular attention will be paid to narration, description, dialogue, characterization, and use of time, through both set examples and writing exercises suggested by the works read.

*Hours 3 hrs
Credits 3 cr*

**ENGL 79701 - Poetry Thesis One**

This course gives students the conceptual framework to organize a manuscript and to understand the ways in which representative volumes of poems make definitive statements and alter the poetic discourse of their time.

*prereq: ENGL 79101 and ENGL 79403
Hours 3
Credits 3
Second Year MFA students only*

**ENGL 79702 - Poetry Thesis Two**

This course is a continuation of Thesis One and gives students the conceptual framework with which to organize a manuscript and to understand the ways in which representative volumes of poems make definitive statements and alter
the poetic discourse of their time. To this end, this course begins with an exploration of the history of the Modern Poetic Sequence and the Long Poem.

**prereq:** Workshop 79101 and Craft 79403, Thesis One 79701
Second Year MFA students only

**ENGL 79800 - Writing in Conference**

Individual tutorial directed by a member of the writing faculty.

*Hours 3 hrs
Credits 3 cr
To be taken in sequence with ENGL 79900 (MFA Thesis).*

**ENGL 79900 - MFA Thesis**

Independent creative writing project, with regular advisory sessions with primary writing faculty adviser.

*Hours 3 hrs
Credits 3 cr
To be preceded in sequence by ENGL 79800 (Writing in Conference).*

**English - Medieval and Early Modern Literature**

**ENGL 70400 - Beowulf and Other Early Texts**

Detailed study of Beowulf and other selected texts written in Britain in the early Middle Ages, in their cultural, political and historical contexts.

**ENGL 70500 - Chaucer's Early Works**

A study of Chaucer's earlier works (exclusive of The Canterbury Tales) in their cultural, political and historical contexts.

*Hours 3
Credits 3*

**ENGL 70600 - Chaucer: Canterbury Tales and Later Works**

Detailed study of The Canterbury Tales and later works in their cultural, political and historical contexts.

*Hours 3 hrs
Credits 3 cr*

**ENGL 70700 - Studies in Medieval Literature**
Selected Medieval texts in poetry and prose, both British and continental European, in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

**ENGL 71200 - 16th-century Poetry and Prose**

Reading and analysis of texts of the sixteenth century in their cultural, political and historical contexts.

*Hours 3*
*Credits 3*

**ENGL 71300 - Shakespeare's Early Works**

Study of selected texts, with emphasis on works written before 1600, in their cultural, political and historical contexts.

*Hours 3 hrs*
*Credits 3 cr*

**ENGL 71400 - Shakespeare's Late Works**

Study of selected texts, with emphasis on works written after 1600, in their cultural, political and historical contexts.

*Hours 45 hrs*
*Credits 3 cr*

**ENGL 71500 - Studies in Shakespeare**

Selected works by Shakespeare in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

*Hours 3*
*Credits 3*

**ENGL 71600 - 16th- and 17th-century Drama excluding Shakespeare**

Exploration of British dramatic texts of the Early Modern period, in their cultural, political and historical contexts.

*Hours 3 hrs*
*Credits 3 cr*

**ENGL 71700 - 16th- and Early 17th-Century Poetry and Prose**

Study of major forms of Early Modern poetry and prose, in their cultural, political and historical contexts.

**ENGL 71800 - Studies in Early Modern Literature**

Selected studies in the literature of the sixteenth through early eighteenth centuries, in its cultural, political and historical contexts.

**ENGL 72200 - Milton: Early Works and Paradise Lost**
A critical study of Milton's early works and his major epic Paradise Lost, in their cultural, political and historical contexts.

Hours 3  
Credits 3

ENGL 72300 - Studies in Milton

Selected works by Milton in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

Hours 3  
Credits 3

ENGL 72500 - Studies in Restoration and 18th-century Literature

Literary works of the Restoration and eighteenth century in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

ENGL 73000 - 18th-century Poetry

Reading and analysis of eighteenth-century poems in their cultural, political and historical contexts.

ENGL 73100 - 18th-century Prose

An analysis of the rise of the British novel in the eighteenth century, and a consideration of other forms of prose in the period in their cultural, political and historical contexts.

Hours 3  
Credits 3

ENGL 73300 - Studies in 18th-century Literature

Selected study of eighteenth-century British and/or transatlantic poetry and prose in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

ENGL 73400 - Early American Literature

A study of literature in the Americas from the sixteenth through eighteenth centuries in its cultural, political and historical contexts.

Hours 3  
Credits 3

ENGL 74000 - Romantic Poetry
Selected British and Continental poetry from the Romantic period, the late-eighteenth and early-nineteenth centuries, in its cultural, political and historical context.

Hours 3  
Credits 3

**ENGL 74100 - Studies in Romanticism**

Selected study of British, Continental European, or transatlantic Romanticism in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

Hours 3  
Credits 3

**ENGL 74300 - Victorian Literature**

Study of nineteenth century British poetry and prose works in their cultural, political and historical contexts.

Hours 3  
Credits 3

**ENGL 74900 - 19th-century Prose of the United States**

A study of selected nineteenth century prose works of the United States, both fiction and nonfiction, in their cultural, political and historical contexts.

Hours 3  
Credits 3

**ENGL 75000 - 19th-century Poetry of the United States**

A study of selected nineteenth century poetic works of the United States, in their cultural, political and historical contexts.

Hours 45  
Credits 3

**ENGL 75100 - 19th-century African American Literature**

An examination of poetry and/or prose, written by African Americans during the nineteenth century, in their cultural, political and historical contexts.

Hours 3  
Credits 3

**ENGL 75200 - Studies in 19th-century Literature**

Selected study of British, American and/or other Anglophone nineteenth century literature in relation to a theme, technique, genre, theoretical issue, or cultural consideration.
ENGL 75300 - Studies in Late Victorian and Early Modernist Literature
A study of literature of the fin-de-siècle in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

ENGL 75400 - 20th-century British and Irish Prose
A study of prose works of the twentieth century, written in Britain or Ireland, or by British or Irish writers, in their cultural, political and historical contexts.

ENGL 75500 - 20th-century British and Irish Poetry
A study of poetic works of the twentieth century, written in Britain or Ireland, or by British or Irish writers, in their cultural, political and historical contexts.

ENGL 75600 - 20th-century Prose of the United States
Fiction and nonfiction prose in twentieth century U.S. literature, in its cultural, political and historical context.

ENGL 75700 - 20th-century Poetry of the United States
Study of poetry written in the U.S. and the various poetic movements of the century, in their cultural, political and historical contexts.

ENGL 75800 - 20th-century African American Literature
An examination of poetry and/or prose, written by African Americans during the twentieth century, in their cultural, political and historical contexts.
Hours 3
Credits 3

ENGL 75900 - Studies in Modernism

Study of literary works of the modernist movement of the earlier twentieth century in U.S. and/or British literature, in their cultural, political and historical contexts.

Hours 3
Credits 3

ENGL 76000 - Later 20th-/Early 21st-century literature

Selected works in British and/or United States literature from the 1950s to the present in their cultural, political and historical contexts.

Hours 3
Credits 3

ENGL 76100 - Studies in 20th- and 21st-century literature

Study of representative literary works from the later 20th and early 21st centuries in their cultural, political and historical contexts.

Hours 3
Credits 3

English - Topics In Literature, Language, Culture and Theory

ENGL 76500 - Studies in British and American Literature

Study of a topic, figure, critical issue or period in either British or American literature in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

ENGL 76600 - Studies in Ethnicity and Race in Literature

Exploration of a specific topic pertaining to ethnicity and racial formation as it relates to the study of literature.

ENGL 76700 - Studies in Postcolonial/Transnational Literature and Theory

Study of postcolonial and/or transnational literatures in their cultural, political and historical contexts.

ENGL 76800 - Studies in South Asian and Indian Diasporic Literature

Study of South Asian literatures from colonial and postcolonial eras, in their cultural, political and historical contexts.
ENGL 76900 - Studies in African and African Diasporic Literature Outside the U.S.
Study of African literatures from colonial and postcolonial eras, in their cultural, political and historical contexts.

ENGL 77000 - Studies in Caribbean Literature
Study of Caribbean literatures from colonial and postcolonial eras, in their cultural, political and historical contexts.

ENGL 77100 - Studies in African American Literature
Selected African American poetry and prose, in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

ENGL 77200 - Studies in Asian American and Asian Diasporic Literature
Study of Asian American literatures in their cultural, political and historical contexts.

ENGL 77300 - Studies in U.S. Latina/o Literature
Study of U.S. Latina/o literatures in their cultural, political and historical contexts.

ENGL 77400 - Studies in Native American Literature
Study of Native American literatures in English in their cultural, political and historical contexts.

ENGL 77500 - Studies in Irish Literature
Study of Irish literatures from precolonial, colonial and postcolonial eras, in their cultural, political and historical contexts.

ENGL 77600 - Studies in Digital Media
Study of British and American literary texts in relation to the digital arts, and exploration of theories of digital literary production.

ENGL 77800 - Studies in Comparative Literature
A study of two or more literary figures, genres, national or scholarly periods, or theoretical approaches, across or within national languages.

ENGL 78000 - Studies in Drama, Theatre and Performance
A literary studies approach to drama, theatre and performance.

ENGL 78100 - Studies in Gender and Sexuality in Literature and Theory
Exploration of the role of gender and sexuality in literature and literary theory.
ENGL 78200 - Studies in Literature by Women

An in-depth critical analysis of literature written by women, focusing on a specific period, topic and/or set of critical questions.

ENGL 78400 - Studies in the Work of a Single Writer

An in-depth study of a single writer, the critical conversations surrounding that writer, and that writer's legacy in her or his genre(s).

ENGL 78500 - Studies in Literature and Language

Study of the ways in which literary language reflects differing social and cultural contexts; exploration of phonology, semantics, and discourse theory.

ENGL 78600 - Studies in Rhetoric

Exploration of rhetoric in its cultural, political and historical contexts.

ENGL 78700 - Studies in Literary Theory and Criticism

An in-depth investigation of foundational and current trends in literary theory.

English - Teacher Education

ENGL 60700 - English Linguistics

Structure of Modern English, with emphasis on analytical method and pedagogical implications. Survey of phonology, morphology, syntax, and dialectal variation.

Hours 3
Credits 3

ENGL 61500 - Rhetoric and Composition

Rhetorical theory; analysis of selected masterpieces of prose; practice in writing a variety of prose forms.

Hours 3
Credits 3

ENGL 68100 - Reading Credit

Course of readings designed according to student's interests and needs. Work is directed by member of department.

Hours 1-3
Credits 1-3
LING 70300 - Analysis and Structure of English I

The first course in a two-course sequence offering an in-depth treatment of the various aspects English language knowledge needed for the teaching of English through the various content areas (math, science, social studies, literature) to English language learners. It lays the groundwork in English language knowledge and analysis for teachers of P-12 ESL.

**prereq or coreq:** EDESL 78300  
**Hours** 3 hrs  
**Credits** 3 cr

LING 70400 - Analysis and Structure of English 2

The second course in a two-course sequence offering an in-depth treatment of the various aspects English language knowledge needed for the teaching of English through the various content areas (math, science, social studies, literature) to English language learners. It lays the groundwork in English language knowledge and analysis for teachers of P-12 ESL.

**prereq:** EDESL 78300, LING 70300  
**Hours** 3 hrs  
**Credits** 3 cr

**English - Concluding Courses**

ENGL 78800 - Reading Credit

Course of readings designed according to student's interests and needs. Work is directed by a full-time faculty member of the department.

ENGL 78900 - Master's Thesis

Individual research and final thesis writing under faculty supervision. Required of all candidates for MA degree in British and American literature.

**Environmental and Occupational Health Sciences Required Courses**

EOHS 70200 - Introduction to Occupational Safety and Health

Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

**Credits 3**
EOHS 70500 - Environmental Chemistry

Survey of chemical and physical concepts essential for understanding environmental and occupational health sciences, including study of the atmosphere, air and water pollution, and energy resources. Physical principles of heat and energy, and radioactivity will be discussed.

Credits 3

EOHS 74100 - Environmental and Industrial Hygiene Laboratory

Physical, chemical, and instrumental methods for measuring environmental and occupational contaminants.

prereq or coreq: EOHS 70500

Hours 90 hrs lec and lab,
Credits 4 cr

EOHS 74700 - Hazard Evaluation and Instrumentation

An introduction to instrumental methods used to assess environmental and occupational health hazards. Principles and operation of commonly used direct reading instruments and demonstration of their application.

prereq: PH 75000 or 75100, EOHS 70200, EOHS 70500
Credits 3

EOHS 75400 - Environment and Occupational Toxicology

Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of toxicological testing and evaluation.

prereq: PH 75400 and EOHS 70500
Credits 3

EOHS 75500 - Industrial Ventilation and Indoor Air Quality

Advanced course. This course covers the fundamentals of design, operation and evaluation of air moving systems for local and dilution exhaust ventilation systems. Engineering controls are the preferred method for the control of airborne hazards in the workplace.

prereq: EOHS 70200 and PH 75400 or permission of the instructor
coreq: EOHS 70200 and PH 75400 with permission of the instructor
Hours 3 hrs
Credits 3 cr.

EOHS 75700 - Principles of Industrial Hygiene

Recognition, evaluation, and control of industrial hazards due to chemical and physical agents. Topics include occupational health standards, regulatory agency activities, effects of contaminants on human health, sampling and control of hazards, current issues.
prereq: EOHS 70200 and 70500

Credits 3

EOHS 76200 - Noise and Radiation Hazards and Controls

Introduction to basic concepts of sound, noise measurement, and noise control in community and occupational environments. Health and safety problems involved with the use of ionizing and non-ionizing radiation, with an emphasis on identification and control.

prereq or coreq: EOHS 70500

Credits 3

EOHS 76500 - Environmental Audits and Remediation

Introduction to environmental investigation and remediation technologies commonly used in professional practice. Presents proper practices for assessing and remediating asbestos, lead-based paint, indoor air quality, and underground storage tanks situations and Phase I site audits.

prereq: PH 75000 or 75100

Credits 3

Environmental and Occupational Health Sciences Elective Courses

EOHS 71000 - Industrial Safety and Safety Management

Fundamental concepts and principles of industrial accident prevention and loss control; safety program organization; hazard recognition and evaluation; accident investigation; machine guarding; tire protection; personal protective equipment.

Credits 3

EOHS 74300 - Air Resource Management

Air pollution sources, types of pollutants, transport phenomena, effects on health and on vegetation and materials; air quality monitoring, criteria, standards, and control methods.

Credits 3

EOHS 74500 - Hazardous Waste Management

A review of the sources, transportation and control of hazardous chemical wastes. Regulatory requirements, disposal methods and health effects will also be presented.

Credits 3

EOHS 74600 - Water Resources
Water and waste water technology related to public health. Sources of water supply, distribution, treatment, chemical, biological and physical water pollutants and their health consequences. Review of federal legislation. Field trip to waste water treatment plant.

**EOHS 75900 - Industrial Processes and Plant Visits**

A review of major industrial processes and health hazards associated with each. Includes site visits to metropolitan NY industrial facilities during working hours.

*prereq: EOHS 75700*

**EOHS 77000 - Topics in Environmental and Occupational Health Sciences**

Courses on current topics in environmental and occupational health sciences.

*Offered periodically.*

**EOHS 77025 - Topics: Biohazards and Emergency Response**

This cross-listed undergraduate/masters class covers the biology of microorganisms and toxins most frequently considered in perpetrated attacks. It also considers technology for detection and control for first responders, lab practitioners and other healthcare professionals, emergency communication, and prevention. In addition to classroom activities, students participate in group projects to simulate bioterrorism events and responses; government regulation, chain of evidence, and related topics are covered.

*Cross-listed MLS 40066*

**EOHS 77500 - Indoor Air Quality**

A review of sources indoor air pollution and its evaluation and control. Topics include assessment techniques, air sampling, HVAC assessment and remediation approaches.

**Epidemiology and Biostatistics Required Courses**

**BIOS 75000 - Applied Biostatistics I**

A follow up course to PH 7500/75100 and PH 75200/75300, covering intermediate-level statistical methods commonly used in public health research. Topics include: simple and multiple linear regression; logistic regression; residual analysis; variable selection. Focus on practical applications, utilizing statistical software.

*Cross-listed STAT 75000*

*prereq: PH 7500 or 75100 and PH 75200 or 75300*

**Credits 3**
**BIOS 75100 - Applied Biostatistics II**

A follow up course to BIOS 75000, covering intermediate and advanced statistical methods commonly used in public health research. Topics include: log linear and generalized linear models; random and mixed effects models; survival analysis. Focus on practical applications utilizing statistical software.

*Cross-listed STAT 75100*

*prereq: BIOS 75000*

*Hours 3 hrs*

*Credits 3 cr.*

**EPI 75000 - Epidemiologic Methods I: Study Research Design**

This course will provide an in depth understanding of the design and conduct of epidemiological studies, including causal inferences, measurement, major study designs, threats to validity, and urban public health applications. Examples will be based on the health of New York City residents. Prereq: ,

*Cross-listed GC PH 82000*

*prereq: PH 75100, PH 75300*

*Credits 3*

**EPI 75100 - Epidemiologic Methods II: Survey and Research Methods**

This course will provide students with an understanding of the methods used to test research hypotheses; tools for selecting statistical tests appropriate for the particular study design and research hypotheses; and an ability to recognize the importance and impact of threat to validity such as confounding and bias. This course will also cover survey methods used in epidemiologic research.

*Cross-listed GC PH 82100*

*prereq: EPI 75000*

*Credits 3*

**EPI 75200 - Applied Research: Data management and analysis**

This course provides students with the opportunity to apply epidemiological and statistical concepts using several datasets to answer a given research question and test the hypotheses associated with it

*prereq: BIOS 75100, EPI 75100 or instructor's permission*

*Credits 3*

**EPI 76400 - Epidemiology Methods III**

This course exposes students to intermediate methods in epidemiologic research and provides students with an opportunity to consider how these strategies complement and advance the more commonly used strategies. Doctoral and master's students will apply these concepts and theoretical knowledge to quantitative analyses using different types of epidemiologic data. Emphasis will be placed on developing practical skills relevant to contemporary epidemiologic research. Students will explore individual-level exposure-disease associations using classic study designs and techniques, as well as more recent methods that shift away from identifying individual risk factors for disease causation to the description and analysis of environmental systems that give rise to both exposures and health states. Students will also examine potential mediators of these relations.
prereq: EPI 75100 (Epidemiological Methods II) and BIOS 75100 (Applied Biostatistics II)
Open to MPH and EOHS-MS or departmental permission.
Hours 3 hrs
Credits 3 cr.

**Epidemiology and Biostatistics Elective Courses**

All EPI and BIOS Elective Courses are 3 Credits

**BIOS 75200 - Analysis of Categorical Data**

An introduction to statistical models for analyzing categorical data, with emphasis on examples from the health sciences. Topics include: contingency tables and corresponding tests such as chi-square, CMH and trend test, count data, logistic regression and log-linear models.

*Cross-listed STAT 75200*
*prereq: BIOS 75000*

**BIOS 75300 - Analysis of Longitudinal Data**

An introduction to statistical models and methods for analyzing longitudinal data in public health. Topics include: longitudinal designs and cohort sampling, general linear models for longitudinal data, marginal & random effects models, time-dependent covariates, missing values.

*Cross-listed STAT 75300*
*prereq: BIOS 75000*

**BIOS 75400 - Design and Analysis of Complex Surveys**

This course provides an introduction to statistical issues in the design and analysis of complex surveys, with a particular emphasis on public health research. Topics include: basic sampling techniques, stratified and cluster sampling, non-sampling errors, and case studies.

*Cross-listed STAT 75400*
*prereq: BIOS 75000*

**BIOS 75500 - Survival Analysis**

An introduction to regression modeling used in the analysis of time-to-event data in epidemiological, biostatistical, and other health-related research. Topics include: survival functions, proportional-hazards, parametric and competing-risks models, missing data, using case studies.

*Cross-listed STAT 75500*
*prereq: BIOS 75000*

**BIOS 75600 - Data Analysis**

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics include: data summaries; transformations; the jackknife and resampling schemes; robust estimation; and robust regression methods.
Cross-listed STAT 71600
prereq: BIOS 75000

BIOS 75800 - Analysis of Variance

Intermediate topics in analysis of variance (ANOVA), with an emphasis on exploratory aspects. Topics including: one, two and many way layouts; decomposition and partitioning of variance; fixed, random, and mixed effects models; repeated measures; contrasts; multiple comparisons; and robust analogs.

Cross-listed STAT 71800
prereq: BIOS 75000

BIOS 77000 - Topics in Biostatistics

Courses on current topics in biostatistics.

Offered periodically

BIOS 77001 - Applied Biostatistics III

An advanced biostatistics course that focuses on mixed models, GEE for analysis of correlated data, management of missing data and imputation, propensity scoring, and causal inference.

prereq: BIOS 75100 and EPI 75100
Credits 3

EPI 75300 - Clinical Trials and Experimental Design

This course provides students with the basic foundation of experimental design, with a focus on clinical trials (single and multi-center), intervention trials, and quasi experimental design, particularly in the field of public health. The strengths and limitations of these approaches in comparison with related observational epidemiologic studies will also be covered. Specific topics to be discussed include design options (sampling, treatment allocation, cluster randomization), sample size and power considerations, adverse event monitoring, and statistical analysis of trial data.

prereq: PH 75000/75100 and PH 75200/75300
Credits 3

EPI 75400 - Social Epidemiology

This course will introduce public health and other interested graduate students to the sub-discipline of social epidemiology, including theory and methods. Specifically, students will gain an understanding of how an individual's interactions with factors associated with the social fabric of the society affect and shape health outcomes. This class will also examine the etiology and prevention of disease within both ecological (multi-level) and multidisciplinary frameworks.

prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75500 - Epidemiology of Chronic Diseases
This course provides students with epidemiological background information for the most common chronic disease conditions. In addition, the course provides students with hands on experience to characterize the frequency and impact of chronic diseases and their risk factors in New York City (NYC) using public data available through the Department of Health and Mental Hygiene.

**EPI 75600 - Epidemiology of Infectious Diseases**

This course will examine the role of epidemiology in understanding transmission, surveillance and control of infectious diseases. Special focus will be on emerging infectious diseases in urban settings.

*prereq: PH 75000 or 75100, PH 75200 or 75300
Offered periodically.*

**EPI 75700 - Reproductive and Perinatal Epidemiology**

This course covers current research, controversial issues, and methodological problems in the epidemiology of male and female reproduction and perinatal health. Topics include: epidemiology of fertility and infertility, contraception and hormone usage, reproductive cancers and other diseases, pregnancy complications, maternal mortality, adverse pregnancy outcomes and birth defects.

*prereq: PH 75000 or 75100, PH 75200 or 75300*

**EPI 75800 - Nutritional Epidemiology**

This course teaches concepts and principles used in nutritional epidemiology. It provides skills required to critically evaluate dietary assessment methodology and reviews current topics in nutritional epidemiology. In addition, the role of nutrition in health and how this applies to public health is discussed.

*Cross-listed GC PH 81200
prereq: PH 75000 or 75100, PH 75200 or 75300*

**EPI 75900 - Environmental and Occupational Epidemiology**

Using a case study approach, this course will explore epidemiologic methods for studying environmentally and occupationally related diseases. Key methodologic issues, such as exposure and outcome assessment, cumulative and multiple exposures, exposure pathways, research ethics, and policy implications of epidemiological findings will also be discussed. The focus will be on the environmental and occupational health of urban populations.

*prereq: PH 75000 or PH 75100, PH 75200 or 75300, PH 75400*

**EPI 77000 - Topics in Epidemiology**

Courses on current topics in epidemiology.

*Offered periodically.*

**EPI 77005 - Epidemiological Methods IV**
This seminar is intended to help students integrate the concepts and methods of epidemiologic research with specific inquiry directed at understanding and improving the health of urban populations. This seminar requires students to develop proposals for epidemiologic research, identify strategies for data analysis that incorporate the lessons learned in Epidemiology Methods courses I, II, and III, and to examine the application of those strategies to existing research. This course helps to "bring together" the epidemiology theory and methods that have been discussed throughout the rest of curriculum with the particular exigencies of urban public health.

*prereq: EPI 75000/77000 or PUBH 82200 (CUNY Graduate Center)*
*Credits variable credits*

**Film and Media: IMA Required Courses**

**IMA 70000 - Visual Culture Seminar**

This course combines self-directed research in visual studies with an introduction to the comparative study of visual culture including approaches from art, media, philosophy and cultural studies contexts. This seminar is a workshop-format research-oriented, criticism-intensive exploration of visual culture methods across media, time periods and critical methods. Students will be asked to develop a Visual Culture Project on a research topic of their own choosing while sharing presentations of readings on topics related to theoretical approaches to visuality drawn from a variety of disciplinary frames designed to give students a broad overview of useful tools for thinking about the visual world.

*Hours 3*
*Credits 3*

**IMA 70100 - Social and Historical Roots of Art and Culture**

This seminar examines the social and historical context that has propelled and been influenced by art, media and culture from the 15th century to the present. Our core assumption is that that the production of all forms of culture – material and non-material – is a fundamental way that we struggle to make sense of a world in which social change constantly challenges taken-for-granted reality. Special emphasis is given to the unique role of the artist as producer of culture, and to the rich inter-disciplinary literature that has examined the creative process and the practical and theoretical challenges faced by artists in a complex society.

*prereq: IMA 70000*
*Hours 3*
*Credits 3*

**IMA 70200 - History and Theory of Emerging Media**

An exploration of the history of digital and Internet-based art, approached through a comparative framework drawn from the aesthetic history of post-war computing, experimental cinema, and contemporary art history.

*prereq: IMA 70000 or IMA 70100*
*Hours 3*
*Credits 3*
*Material Fee: $20*

*Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.*

**IMA 70900 - History and Theory of the Documentary**
This course examines canonical films from the first 100 years of documentary filmmaking in their historical and theoretical context, and analyzes the formal and technological innovations of documentary's pioneers. The course also explores the intersections of documentary art with other art forms and considers the opportunities and responsibilities of a documentary storyteller.

prereq: IMA 70000 or IMA 70100

Hours 4 hrs
Credits 3 cr.

IMA 71300 - Visible Evidence: Realist Strategies in Film, Video and TV

An examination of the representational strategies through which film, video and TV images achieve verisimilitude, the appearance of transparently and objectively displaying reality.

prereq: IMA 70100

Hours 3
Credits 3

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 75000 - Emerging Media 1

This hands-on production course introduces students to the practical fundamentals of visual studies, design, digital graphics and illustration. It is a foundations course in 2D design, illustration and digital imaging. Students are introduced to a range of media production equipment and techniques, including: The history of design, computer graphics, illustration and new media; Issues in visual studies; Image composition, framing, and layout; Typography and text/image relationships; and Basic imaging and vector based illustration software.

Hours 4 hrs
Credits 3 cr.

IMA 75100 - Documentary 1

This production workshop introduces students to the fundamental techniques, technology, aesthetics and creative approaches of nonfiction video production.

Hours 4 hrs
Credits 3 cr.

IMA 75200 - Emerging Media 2

This hands-on class teaches you the skills needed to build basic, well-designed websites. Learn how to layout pages, format text, and optimize images for professional-looking web pages. The course covers HTML, CSS, introductory JavaScript and JS Frameworks, corresponding software as well as combination of text and graphics, creating and optimizing GIFs and JPEGs, animated GIFs. Lectures and exercises focus on creating cohesive websites with effective information architecture, well-designed interfaces, interactivity and usability. Throughout the semester readings relating to net culture, tactical media and other creative forms for network spaces will be required.

prereq: IMA 75000

Hours 4 hrs
Credits 3 cr.
IMA 75300 - Documentary 2

This workshop guides students through the process of producing and filming a documentary video project. Course work includes researching an idea, writing a proposal and script, developing interview subjects and/or situations for filming, and budgeting, scheduling and shooting the documentary project.

prereq: IMA 75100
Hours 4 hrs
Credits 3 cr.

IMA 75400 - Advanced Studio: Emerging Media

Provides students the opportunity to work on an advanced emerging media project and participate in group and individual critiques with MFA faculty. Particular emphasis will be on helping students prepare for the MFA Thesis Project. Students may repeat this Advanced Studio once with a different project.

prereq: IMA 75200, 75300, 70200, and 70900 -or- approval of instructor
Hours 3 hrs
Credits 3 cr.

IMA 75500 - Advanced Studio: Documentary

Provides students the opportunity to work on an advanced documentary project and participate in group and individual critiques with MFA faculty. Particular emphasis will be on helping students prepare for the MFA Thesis Project. Students may repeat this Advanced Studio once with a different project.

prereq: IMA 75200, 75300, 70200, and 70900 -or- approval of instructor
Hours 3 hrs
Credits 3 cr.

Film and Media: IMA Production Electives

IMA 72400 - Developing and Producing Non-Fiction Media

This course covers developing and producing non-fiction media for the screen across multiple platforms. Development topics include research methods, grant proposal and treatment writing, and creative project presentation. Producing fundamentals such as budgeting, scheduling, crewing, field producing, post-production, and deliverables are also covered. Students study different genres, formats and approaches to non-fiction production and complete a written proposal for a personal non-fiction project that is at the pre-production stage of development.

prereq: IMA 75100
Hours 3 hrs
Credits 3 cr.

IMA 74200 - Web Documentary

This is a production course with a technical emphasis on popular code-based techniques for web development including HTML5, CSS, JavaScript, PHP and MySQL. Documentary-related media forms will be generated (including research, photography, audio and video content) to consider creative and documentary process for web dissemination. Throughout the semester, readings relating to net culture, tactical media and other creative forms for network spaces will be required.
IMA 74300 - Collective Documentary

This production workshop involves the student in all aspects of a collectively produced media project framed by a discussion of the theoretical issues of collaborative and collective media production, and an examination of the history of collective practices in the making of film and video from the 1930s to today.

IMA 74400 - Digital Design: Print and Interactive Media

In this studio workshop course, the communicative capacities of various digital design formats and techniques will be creatively applied to the creation of four functional design projects.

IMA 74700 - Documentary Editing

Creative, technical and project management aspects of digital non-linear editing. Students are expected to bring projects, filmed in previous classes, to a fine cut stage.

IMA 76400 - 3D Animation and Modeling

This hands-on production course will examine essential concepts and practices that form the basis of 3D animation. While this course primarily focuses on the use of 3D animation for linear video output, we will also explore the possibilities of this digital framework for other media and expressive forms, such as print, graphic novels, film making, and net-based art.

3D digital animation is often used to create imagery that simulates the visual and physical aspects of the "real world." This hands-on production course will examine essential concepts and practices that form the basis of 3D animation. Through readings, discussions, viewings, and critique, this class will address how realism is constructed and perceived through an underlying set of aesthetic conventions via computer graphics. While this course primarily focuses on the use of 3D animation for linear video output, we will also explore the possibilities of this digital framework for other media and expressive forms, such as print, graphic novels, film making, and net-based art.
IMA 76500 - Interactive Installation

This hands-on course will focus on the current state of interactive media in a collaborative environment. Students will create projects integrating video, sound, and text. The course will explore various technologies and equipment such as using sensors for real-time interactivity. Lectures and exercises focus on applying interactivity, interface, and usability design concepts to projects. Students will gain skills in coding concepts, hacking existing technology, and the process for interactive media projects. The course will cover the process from the project idea to research, designing, building, testing, planning, and use of space (real and virtual) for presentation. Visits to museums and galleries will help students look at interactive media with a critical eye. The course will culminate in a public show - an exhibition of installation work and an electronic portfolio on the web.

prereq: IMA 75000 and 75100
Hours 3 hrs
Credits 3 cr.

IMA 76600 - Three Dimensional Virtual Environments

An introduction to fundamental skills and creative approaches for the development of computer-generated 3D interactive virtual environments.

prereq: IMA 75000
Hours 3 hrs
Credits 3 cr.
Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 76800 - Nonlinear Storytelling

This class is a workshop that explores different forms of nonlinear narrative while providing a space for students to practice their own development of stories for nonlinear forms. Through readings, art and media examples, and class discussions, students will develop strategies and ideas culminating in an ambitious nonlinear storytelling media project. Students are encouraged to bring material (sketches, research, writing, footage) to the class that they may already be working with.

prereq: IMA 75000 and 75100
Hours 3 hrs
Credits 3 cr.

IMA 78001 - Media Activism

An exploration of the rich history and representational strategies of alternative media used by movements for social change from the 1930s until the present. This course introduces students to the techniques and approaches of social change and development media in a context of theoretical discussion.

prereq: IMA 70200
Hours 4
Credits 3
Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 78043 - Neighborhood News
Students write articles for a community newspaper, the Hunts Point Express, and accompanying website, (www.huntspointexpress.com). As reporters, students spend time in the South Bronx to research stories on topics that include environmental justice issues, education, housing, health, jobs, gentrification and crime. Work may include multimedia component.

**Hours 4**
**Credits 3**

**IMA 78048 - Culture Jamming**

Theory and technique of art and design strategies that subvert popular media frameworks. Students will learn non-traditional methods of circulating messages which circumvent or critique mass media communications.

*prereq: IMA 70200*

**Hours 3**
**Credits 3**

*Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.*

**IMA 78052 - Story Strategies**

This course examines a broad range of approaches to storytelling in the fictional narrative feature film. Students will closely examine tactical narrative elements including dramatic structure, character/voice, time, tone and genre in conventional and alternative work. Students will develop treatment and beginning of an original screenplay.

**Hours 4**
**Credits 3**

**IMA 78081 - Sound Environments**

An exploration of contemporary issues and techniques of sonic media. Course explores critical writings in music history, sound and media theory while students experiment with designing linear and non-linear sound installations.

*prereq: IMA 70200*

**Hours 4**
**Credits 3**

**Human Geography, Nature/Society and Regional Geography**

**GEOG 70100 - Geographic Thought and Theory**

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

**Hours 45 hrs including conference,**
**Credits 3 cr**

*fall only This course may be used as part of the MA Teacher Education Program in Social Studies.*
GEOG 70154 - Geographic Research Design

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

Hours 45 hrs including conference
Credits 3
spring only

GEOG 70200 - Research Topics in Geography

Introduction to central research themes in geography and the current research being undertaken by department faculty.

Hours 15 hrs including conference,
Credits 1 cr
fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70500 - Cultural and Social Geography

Review of recent work in cultural and social geography; emphasis on literature, critiques.

prereq: GEOG 34700 and 34100 or permission of instructor
Hours 45 hrs including conference,
Credits 3 cr
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70528 - Introduction to Environmental Ethics

Do animals have rights? Do ecosystems have interests? Are humans separate from the environment? How have the answers to these questions been shaped by scientific understanding and religious belief? How should they be? The development of environmental philosophies and ethics, and how they have interacted with controversial environmental issues, will be explored. Reading assignments include canonical and contemporary philosophers as well as environmentalists. In addition to theory, we will discuss the applications of these ideas in local to global environmental problems. The course will focus on ethical philosophies from the western world, but non-western philosophies might also be discussed.

prereq: none
Hours 45 hrs including conference,
Credits 3 cr
Course pending Senate approval. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.
GEOG 70562 - Post-Socialist Geographies

For graduate students in geography, anthropology, economics, sociology, environmental psychology and other related fields. This course examines major political, economic, and social theories that aim to explain the current transformations in post-socialist countries. The neo-liberal theories and policies of transition to capitalism and their consequences are critically examined. The devastating effects of capitalism uncontrolled by democratic governments and labor are discussed.

prereq: GEOG278 or permission of the instructor

Hours 45 hrs including conference,
Credits 3 cr

Course pending Senate approval. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70800 - The Geographies of Urban Space

Critical geographic perspectives on urban development and internal urban space. Latest literature in urban political economy, feminist, and post-structuralist geography with a focus on class, gender and ethnicity in urban space.

prereq: graduate standing and GEOG70100 or GEOG 74300 or equivalent or permission of the instructor

Hours 45 hrs including conference,
Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70957 - Geography of The New York Metropolitan Area

An historical and contemporary geography of the New York Metropolitan area structured around New York State Social Studies Core Curriculum and National Geography Standards. The course will address the relationship between the physical and social geographies of the five boroughs and the surrounding areas of the Hudson and Long Island; the impacts of significant historical and political events on the region's social and economic geography; and the impacts of changing transportation modes in the evolution of the region. Fieldwork is an integral part of this course. However, alternative field assignments are available for students who have accessibility challenges documented with the Office of Accessibility.

Hours 45 hrs,
Credits 3 cr

GEOG 71000 - Economic Geography

Interactions between people and the natural environment on economic, political and cultural endeavors. Formation of labor markets and their segmentation by class, gender, and ethnicity/race. Change in production systems and economic globalization. Interconnections between economic systems across local, regional, national, and international scales.

Hours 45 hrs including conference,
Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 71156 - Coastal Zone Management
The increasing pressure on the coast is demonstrated with competing demand that leads to conflicts with respect to the carrying capacity of our most precious resource area. The course addresses critical issues related to environmental constraints, the carrying capacity of coastal areas and the need for coastal zone management.

Hours 45 hrs including conference,  
Credits 3 cr  
Course pending Senate approval. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 71200 - Geography of Sustainable Development in Developing Countries

Analysis of factors that influence sustainable development, e.g., available resources, environment, population, food production, water supply in developing countries.

prereq: graduate standing and one course focusing on development of a developing region, or permission of instructor  
Hours 45 hrs including conference,  
Credits 3 cr  
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 71300 - Rural Water Supply in Developing Regions

Quality, problems, management, and sustainability of rural water supply and sanitation in developing countries.

prereq: graduate standing and one course focusing on development of a developing area, or permission of instructor  
Hours 45 hrs including conference,  
Credits 3 cr  
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 71500 - International Pollution Issues

Global environmental hazards are covered. Issues ranging from intergovernmental efforts to document pollution, to the policy needed to curtail pollution of the future will be addressed. A focus will be on transboundary air and water pollution.

Hours 45 hrs including conference,  
Credits 3 cr  
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 74100 - Population Geography

Theoretical and empirical analyses of spatial distribution of population. Particular emphasis is on processes and impacts of migration, residential mobility, and immigration.

Hours 45 hrs including conference,  
Credits 3 cr  
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.
GEOG 74300 - Urban Geographic Theory

Spatial analysis of contemporary and theoretical issues concerning the economic growth, transportation, land use, social segregation, and urban governance in metropolitan areas.

*Hours* 45 hrs including conference,
*Credits* 3 cr
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 79100 - Independent Research in Geography

Intensive individual research in geography under supervision of a member of the graduate faculty.

*prereq:* permission of the instructor or the graduate adviser
*Credits* 1, 2 or 3 cr
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. May be repeated for a maximum of 6 credits with permission of the graduate adviser.

GEOG 79200 - Independent Research in Geography

Intensive individual research in geography under supervision of a member of the graduate faculty.

*prereq:* permission of the instructor or the graduate adviser
*Credits* 1, 2 or 3 cr
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. May be repeated for a maximum of 6 credits with permission of the graduate adviser.

GEOG 79300 - Independent Research in Geography

Intensive individual research in geography under supervision of a member of the graduate faculty.

*prereq:* permission of the instructor or the graduate adviser
*Credits* 1, 2 or 3 cr
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. May be repeated for a maximum of 6 credits with permission of the graduate adviser.

GEOG 79900 - Thesis Research in Geography

Open to students electing the thesis option only.

*prereq:* GEOG 701 and permission of the department
1-6 cr may be repeated for credit but only one credit may be applied to satisfy degree requirements. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Geographic Methods and Techniques
GEOG 72100 - Transportation Geography

GTECH 785XX - GIS Applications

GIS Applications in various fields such as Social Geography, Urban Geography, and more.

prereq: GTECH 71000 or equivalent or permission of the department
Hours 3
Credits 3

GTECH 70200 - Quantitative Methods in Geography

Application of scientific methods to geographic research, including sampling, distribution measurement, characterizing relationships, multivariate analysis, and a strong focus on computational modeling statistical relationships using either R or Python.

prereq: Permission by instructor
Hours 3 hrs
Credits 3 cr.

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 70500 - Spatial Data Analysis

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

prereq: one course in statistics and permission of the instructor
Hours 60 hrs including conference (2 lectures, 2 labs),
Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 70800 - Seminar in GeoInformatics

This seminar is an introduction to the wider GeoInformatics field/industry. Students will be exposed to a number of professionals and researchers in the NYC area, and each student will be required to organize their own speaker from the community. The goals of this seminar course are twofold: to introduce students to the wider GeoInformatics community, and to promote networking and lasting interactions with local and regional GeoInformatics professionals. Students will identify, approach, and invite local and/or regional GeoInformatics professionals to give a talk in one of the weekly seminar sessions for this course. Each student will be responsible for bringing in a speaker, and at the end of the course, the student will be required to discuss the speaker's work, and the research, news, or information that the speaker presented.
GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management.

coreq: GTECH 71000

Hours 1 hr.
Credits 1 cr.

GTECH 71000 - Concepts and Theories in GeInformatics

Theoretical and conceptual foundations of GeInformatics and Geographic Information Science.

coreq: GTECH 70900

Hours 4 hrs.
Credits 3 cr.

GTECH 71200 - Remote Sensing of Environment

Fundamental concepts of remote sensing of environment, satellite sensor systems and their applications, and basic concepts of image analysis.

prereq: GTECH 71100 or permission of the instructor

Hours 60 hrs including conference (2 lectures, 2 labs),
Credits 3

Material Fee:$ 15

GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing

Quantitative processing of digital imagery; enhancement, information extraction, classification; algorithms, registration, rectification; and Light Detection and Ranging (LiDAR) technology and principles and applications; lab exercises.

prereq: GTECH 71200 multivariate stat, elem linear algebra

Hours 6
Credits 3

Material Fee:$ 15
GTECH 72200 - Advanced Topics in GeoVisualization

This course immerses students in animated and interactive maps, web mapping, and new visualization techniques.

prereq: GTECH 70900
Hours 4 hrs
Credits 3 cr.

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 73100 - GeoComputation I

A comprehensive course in programming that concentrates on object-oriented programming methods and algorithms specific to geographic and cartographic applications.

prereq: GTECH 71000 or equivalent
Hours 6
Credits 4

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 73200 - Advanced GeoInformatics

Expansion of GTECH 70900 and GTECH 71000 concentrating on advanced concepts in GeoInformatics, including data models, algorithms, GIS analysis and scripting.

prereq: GTECH 70900 and GTECH 71000
Hours 45 hrs including conference,
Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 73300 - GeoComputation II

Theory and applications of GeoComputing. Models and algorithms for advanced spatial and temporal modeling are examined and programmed. Emphasis is on an object-based computational paradigm and spatial data structures.

prereq: GTECH 73100 and GTECH 73200 and permission of the graduate adviser
Hours 3
Credits 3

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative
and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

**GTECH 73400 - GeoWeb Services**

This course will examine the principles of GeoWeb services in a hands-on fashion. Students will learn about the different standards that are being used in the context of the GeoWeb. They will be introduced to different commercial and open source software solutions and learn how to set up, manage, and use these services. Students will explore the different technologies introduced in class in the lab assignments. Each student will present a topic to the class based on readings provided by the instructor. In the second half of the semester, each student will work on a project that involves the setup and use of GeoWeb services. Basic programming skills in any language are a prerequisite for this course.

*prereq: GTECH 73100 GeoComputation I*

*Hours 3 hrs.*

*Credits 3 cr.*

**GTECH 73500 - Location Based Services**

This course will examine the principles of Location Based Services (LBS) in a hands-on fashion. Students will learn how to design, implement, and test an LBS application in a group project. Therefore, basic programming skills in any language are a prerequisite for this course. The course will be highly interactive in two ways: Each student will present a topic to the class based on readings provided by the instructor, and each student will participate in the group work to develop a working LBS by the end of the semester. For this purpose, mobile devices (iPhones, Android phones, Google Glass) will be provided.

*prereq: One of the following:

GTECH 70500 Spatial Data Analysis
GTECH 73100 GeoComputation I
CSCI 13500 Software Design and Analysis I*

*Hours 3 hrs.*

*Credits 3 cr.*

**GTECH 75100 - Field Techniques in Geography**

Observation and analysis of the physical geography, biogeography and geomorphology of selected areas. Field geographic techniques such as data collection and recording, ground-truthing of remotely sensed images, and the use of maps, compasses and GPS to navigate. Additional fee for transportation, room and food allowance required.

*prereq: GTECH 71000 or equivalent, any two additional GEOG, GEOL, PGEOG or GTECH courses, and permission of the instructor*

*Hours 45 hrs including conference,*

*Credits 3 cr*

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

**GTECH 78501 - Urban Applications of GIS**

Discussion of data, methodology, and examples of using GIS to solve urban problems in economic, social, planning, and political settings. Students are expected to conduct small research projects addressing real world issues.
prereq: GTECH 70900
Hours 45 hrs including conference,
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 78502 - GIS Applications in Social Geography

Data representation and analysis of socio-spatial processes and environmental problems. The course is oriented to problem solving and independent data analysis. Students will fulfill an independent GIS project from data collection and database design to analysis and interpretation of results.

prereq: GTECH 70900
Hours 45 hrs including conference,
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 78801, 78802, 78803 - GeoInformatics Internship

Internship with a non-CUNY institution that provides the student with real-world experience of the application of GeoInformatics. Requires an internship contract drawn up by the employer and a faculty adviser and signed by the student. May be repeated for a total of 3.0 credits.

prereq: Department Permission
Hours 1-3
Credits 1-3

GTECH 79100 - Independent Research in Geographic Information Science

Intensive individual research in GIScience under the supervision of a member of the graduate faculty.

prereq: permission of the instructor or the graduate adviser
Credits 1
A maximum of 6 credits in GTECH 79100, 79200 and 79300 may be taken with permission of the graduate adviser.

GTECH 79200 - Independent Research in Geographic Information Science

Intensive individual research in GIScience under the supervision of a member of the graduate faculty.
May be repeated for a maximum of 6 credits with permission of the graduate adviser.
prereq: permission of the instructor or the graduate adviser
Credits 2
A maximum of 6 credits in GTECH 79100, 79200 and 79300 maybe taken with permission of the graduate adviser.

GTECH 79300 - Independent Research in Geographic Information Science

Intensive individual research in GIScience under the supervision of a member of the graduate faculty.

prereq: permission of the instructor or the graduate adviser
Credits 3
A maximum of 6 credits in GTECH 79100, 79200 and 79300 maybe taken with permission of the graduate adviser.

Physical Geography

GEOG 65000 - World Geography for Educators

Overview of physical, cultural, and historical geographies of the world's major regions. Content linked to NYS Global History and Geography scope and sequence.

Hours 3 hrs
Credits 3 cr.
Open only to MA TEP students

PGEOG 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

Hours 45 hrs including conference,
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in the earth sciences. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA-TEP degree.

Hours 45 hrs, including conferences,
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the
prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 70152 - Hydrology

Provides students an understanding of the hydrologic cycle - the most fundamental principle of hydrology and emphasizes an understanding of the complete hydrological cycle processes at global, regional and watershed scales.

prereq: PGEOG 130 or permission from the instructor
Hours 45 hrs including conference,
Credits 3 cr
Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70160 - Biogeography

This course provides an understanding of the geographic distribution and temporal variability of species, communities, and other organizing units over the face of the Earth and the biotic and abiotic factors and processes underlying these patterns and dynamics.

prereq: PGEOG 13000 or GEOG 10100 or BIO 10000/10200 or permission from the instructor
Hours 45 hrs including conference,
Credits 3 cr
Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70179 - Geology of NYC and Vicinity

Focus on the complexity of the geology of the New York Metro area and its vicinity. Using urban public transportation, walking, and hiking, students will directly observe natural exposures of the large variety of rock outcroppings in the area. Course consists of lectures, laboratory exercise, and geologic field trips. Recommended for students in the Teachers of Earth Science (7-12) MA program.

prereq: GEOL 10100 or an equivalent course in introductory geology
Hours 45 hrs including conference,
Credits 3 cr
Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70180 - Geology of New York State

Links fundamental knowledge about the earth materials and earth processes to the complex geology of New York State. Covers the latest information about the geologic ages of rock formations in New York State, plate tectonics, bedrock geology, including metamorphic, igneous, and sedimentary rocks, fossils, and ancient environments. The course consists of lecture, laboratory exercises, and field trips to the Catskill Mountains, Hudson Highlands, the Manhattan Prong, and Montauk Point. Recommended for students enrolled in the Teachers of Earth Science (7-12) MA program. There will be an additional charge for transportation.

prereq: GEOL 10100 or an equivalent course in introductory geology.
Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70300 - Coastal Dynamics

Quantitative focus on the dynamic processes affecting the coast and the resulting varied geomorphology. In particular, this course will focus on waves, beaches, barrier island evolution, storm systems and coastal erosion, using the Atlantic coast of New York as a case study. Research and field work expected.

PGEOG 70400 - Urban and Metropolitan Coasts

Physical and quantitative rationale for planning coastal constructions with emphasis on urban coasts. Lectures will focus on natural and anthropogenic influences on coastal environments, and problems facing seaside communities.

PGEOG 70563 - Earth Science Today

A survey of the primary topics included in an earth science curriculum (grades 7-12). Laboratory methodology and demonstration techniques used to convey information about the earth's lithosphere, hydrosphere and atmosphere, as well as its place in the solar system, will be introduced.

PGEOG 70567 - Science of Rocks – Petrology

Composition, distribution, and origin of rocks, their scientific description and systematic classification with the focus on the rocks of the New York Metro area. Topics include rock microscopy; field observations of rocks and the relation to the principles of geology; interpretation of geologic maps; lithospheric rock cycle in the context of plate tectonics and earth evolution; and the geology of New York City and its relationship to urban issues. Recommended for earth science students and others interested in the study and uses of rock. There will be an additional charge for local transportation.

prereq: GEOL 10100 or an equivalent course in introductory geology.
Hours 45 hrs including conference, 
Credits 3 cr
Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 73200 - Global Climatic Change

Examination of the pre-Quaternary, Quaternary, post-glacial, historical and instrumentally recorded climates; greenhouse gases; aerosols; radiative forcing; processes and modeling; feedbacks; observed changes; detecting the greenhouse effect; sea level rise; effects on ecosystems.

prereq: a course in atmospheric, geological or environmental science.

Hours 45 hrs including conference, 
Credits 3 cr
Spring only Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 79100 - Independent Research in Physical Geography

Intensive, individual research in physical geography under the supervision of a member of the graduate faculty.

prereq or coreq: GEOG 70100 and 70200, and permission of the instructor or the graduate adviser
Credits 1, 2 or 3
May be repeated for a maximum of 6 credits with the permission of the graduate adviser.

PGEOG 79200 - Independent Research in Physical Geography

Intensive, individual research in physical geography under the supervision of a member of the graduate faculty.

prereq or coreq: GEOG 70100 and 70200 and permission of the instructor or graduate adviser
Credits 1, 2 or 3
May be repeated for a maximum of 6 credits with the permission of the graduate adviser.

PGEOG 79300 - Independent Research in Physical Geography

Intensive, individual research in physical geography under the supervision of a member of the graduate faculty.

prereq or coreq: GEOG 70100 and 70200 and permission of the instructor or the graduate adviser
Credits 1, 2 or 3
May be repeated for a maximum of 6 credits with permission of the graduate adviser.

Geography: Courses offered if demand is sufficient

GEOG 70400 - Topics in Human Geography

This course may be used as part of the MA Teacher Education Program in Social Studies.
GTECH 72100 - Introduction to Cartographic Design and Geovisualization

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

prereq: GTECH 70900
Hours 4 hrs
Credits 3 cr.
Material Fee: $15

PGEOG 705XX - Topics in Earth Science

Various special topics courses in physical geography.

PGEOG 70200 - Seminar in Physical Geography

American History

HIST 74151 - Era of American Revolution

The development of the English-American colonies from early settlement through 1763.

Hours 3 including conference,
Credits 3

HIST 74250 - Nineteenth-century United States: Early Republic

Economic, social, and political aspects of American history from 1789 to 1828.

Hours 45 hrs including conference,
Credits 3 cr

HIST 74400 - Twentieth-century United States

Hours 3 including conference,
Credits 3

HIST 74500 - Twentieth-century United States: United States as a World Power

This course considers America's impact on the world in the twentieth-century and, at the same time looks at the way the world influenced life in twentieth-century America.

Hours 3 including conference,
Credits 3
HIST 75000 - History of the American Labor Movement

The history of the American labor movement from the late-nineteenth through the late-twentieth centuries, with a focus on the various ways American laborers organized themselves and struggled for control over their work and their daily lives.

_Hours 3 including conference_,
_Credits 3_

HIST 75500 - Growth of the American City

Development of the city as physical environment, social experience, political entity, and cultural symbol from the colonial era to the present.

_Hours 45 hrs including conference_,
_Credits 3 cr_

HIST 75650 - U.S. Constitutional History

The development of American constitutionalism from its English origins to the implementation of the U.S. Constitution

_Hours 3_
_Credits 3_

HIST 77207 - Race and Racism in U.S. History

Examines the centrality of racial politics and racism in U.S. history. Considers the social experiences produced by racialization and various political movements for racial equality.

_Hours 3 including conference_
_Credits 3_

HIST 77409 - Gender and Sexuality in the U.S.

Examines recent work in the twentieth-century history of gender and sexuality in the United States.

_Hours 3_
_Credits 3_

HIST 77427 - United States Since 1865

Considers the history of the U.S. from 1865 to the Vietnam war. Focuses on political, social and international developments.

_Hours 3 including conference_
_Credits 3_

Asian History
HIST 76802 - East Asia: 1600 - Present

Coming of West to Asia and resulting processes of revolution and modernization after 1600 AD.

*Hours 3 including conference*
*Credits 3*

HIST 76804 - East Asia: Ancient Times to 1600

Survey of traditional cultures and sociopolitical structures of China, Japan, Korea and Vietnam to about 1600

*Hours 3 including conference*
*Credits 3*

HIST 76805 - China Since 1800

Internal and external challenges to China's traditional order; the collapse of the imperial system and the establishment of a republic; the warlord period; the war against Japan; the civil war between Communist and Nationalist forces; China since the rise of the Communist Party to state power in 1949.

*Hours 3*
*Credits 3*

HIST 77461 - Rise and Fall of Chinese Communism

Examines the intellectual, political and international context of the origin of the Chinese Communist Party, explores debates and factional struggles between party leaders and inquires into the challenges posed from without the party. Introduces contending explanations of the Communist Party's rise to state power and its shifting policies and ideological justifications since that time.

*Hours 3*
*Credits 3*

History Advanced Research

HIST 77800 - Individual Tutorial Research

*Hours 45 hrs including conference,*
*Credits 3 cr*

HIST 77900 - Thesis Seminar: Independent Research

Required of all candidates for MA in history.
**HIST 78000 - History Colloquium for First-Year MA Students**

This team-taught course, which MA students will be strongly encouraged to take, is designed to help incoming students gain greater understanding of different geographic and thematic fields of historical study.

*Hours 3*  
*Credits 3*  
*Fall semester discussion-based seminar; grading is Pass-Fail*

**HIST 79000 - Research Methods for First-Year MA Students**

This course, which MA students will be strongly encouraged to take, is designed to help first-year students develop their skill as researchers and writers, as they prepare to begin working on their theses in the second year of the program.

*Hours 3*  
*Credits 3*  
*Spring semester*

**History Internship**

**HIST 79800 - Internship**

Fieldwork in organizations engaged in historical research.

*prereq: perm grad adviser*  
*Hours 45 hrs including conference,*  
*Credits 3 cr*

**Jewish History**

**HIST 74000 - Modern Jewish Social and Intellectual History**

Jewish movements and thinkers since 18th century; changing aspects of Jewish identity, new philosophies, impact of anti-Semitism and Zionism.

*Hours 45 hrs including conference,*  
*Credits 3 cr*

**HIST 74800 - American Jewish History**

Jewish life, 17th century to present: immigration, distribution, community structure, leaders, cultural creativity, economic and social integration, minority/majority relations.
Latin American History

**HIST 76600 - Colloquium in Latin American History**

*Hours 3 hrs*
*Credits 3 cr.*

**HIST 77411 - Colonial Latin America**

Provides an overview of the early political, economic, cultural and social history of Latin America (1400s – 1820s) from the immediate pre-Hispanic era until the wars of independence in the 1820s.

*Hours 3*
*Credits 3*

Middle Eastern History

**HIST 76801 - Middle East, 1500 – Present**

Introduces Middle East history from the sixteenth century, during the period of the time of the great Ottoman and Persian empires, to the present.

*Hours 3*
*Credits 3*

**HIST 76804 - Middle East to 1800**

Introduces the origins and development of the history and civilization of the Middle East since the advent of Islam in the Arabian peninsula until 1800.

*Hours 3*
*Credits 3*

**HIST 77444 - Women and Gender in Islam**

Examines, through translated works, the various roles that Muslim women have assumed, and the wide variety of their experiences since the beginning of Islam in the sixth century to the modern period.

*Hours 3*
*Credits 3*
Global and Transnational History

HIST 77472 - Human Rights and the Non-Western World

Focuses on the idea of human rights as it has been understood and propagated in the non-Western world. The primary focus is on the twentieth century.

Hours 3
Credits 3

History: Courses offered only with sufficient student demand

HIST 71252 - Modern Intellectual History 18th – 20th Centuries

Hours 45 hrs including conference,
Credits 3 cr

HIST 72700 - History of African Americans in the United States

Hours 45 hrs including conference,
Credits 3 cr

HIST 74150 - Colonial America

HIST 74300 - History of Civil War and Reconstruction Era in United States

Hours 45 hrs including conference,
Credits 3 cr

HIST 75400 - Contemporary Europe

Hours 45 hrs including conference,
Credits 3 cr

HIST 76803 - Gandhi

Hours 3
Credits 3

HIST 77301 - The Long Nineteenth Century: Comparative History

Hours 3
Credits 3
HIST 77302 - Making the Nation in Nineteenth-Century Europe

Hours 3
Credits 3

HIST 77412 - Topics and Themes: Debating the Rise of the West

Hours 3
Credits 3

HIST 77414 - Women in Modern Europe

Hours 3
Credits 3

HIST 77434 - Reformation and Wars of Religion

Hours 3
Credits 3

HIST 77440 - Modern European History: Fact and Fiction

Hours 3
Credits 3

HIST 77450 - Hitler and National Socialism, 1919 - 1945

Hours 3
Credits 3

HIST 77453 - Biography and Autobiography in U.S. History

HIST 77457 - Immigration and Ethnicity in the United States

Hours 3
Credits 3

HIST 77462 - Women and Family in the United States
HIST 77497 - Major Works and Themes in US History

Latin

LAT 70100 - Literature of the Early Republic
Early history of the Latin language and the development of Latin literary forms and styles.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70200 - Literature of the Late Republic
Selections from authors of the late republic.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70300 - Literature of the Early Empire
Selections from authors of the early empire.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70400 - Literature of the Late Empire
Selections from authors of the late empire.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70500 - Caesar
Selections from the Commentaries on the Civil War and Commentaries on the Gallic War.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70600 - Cicero
Selections from the orations, philosophical treatises, and letters of Cicero.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

**LAT 70700 - Vergil**

Selections from the Aeneid, Eclogues, and Georgics.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

**LAT 70800 - Supervised Reading**

Independent reading in individual Roman authors or particular literary genres supervised by a faculty member.

*Prior approval of graduate director required. May be taken three times for credit. See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.*

**LAT 71000 - Topics in Latin literature.**

May be taken three times for credit.

**LAT 71100 - Literature of the Republic**

Selection from poetry and prose authors of the Latin language and the development of literary forms and styles.

**LAT 71200 - Literature of the Augustan Age**

Selections from poetry and prose authors of the Augustan period.

**LAT 71300 - Literature of the Empire**

Selections from poetry and prose authors of the Imperial period.

**LAT 72500 - Ovid**

Selections from the *Metamorphoses* and *Amores*.

**LAT 72600 - Horace and Catullus**

Selections.

**LAT 72700 - Speaking and Writing Latin**

Development of aural/oral and written skills, including traditional Latin Composition, history of the language, and analysis of Latin grammar and syntax.
Mathematics

MATH 60100 - Mathematical Methods for the Physical Sciences

Topics include: Fourier Series, Sturm-Liouville theory, Green functions, and eigenfunction expansions. These will be applied to the heat, wave, Laplace, and one-dimensional Schroedinger equations.

*prereq: a course in ordinary differential equations
Hours 3 hrs
Credits 3 cr

MATH 61000 - Mathematics for the Elementary School from an Advanced Standpoint

Study, from an advanced standpoint, of the mathematics involved in the elementary school common core, with special focus on Numbers and Quantities; Algebra and Change. Open only to Teacher Education Program students.

*prereq: MATH 10400 and MATH 10500 or their equivalent. Entry is by departmental permission.
Hours 3 hrs
Credits 3 cr.
The course is intended for students in the Elementary Mathematics Specialist Program.

MATH 61500 - Middle School Mathematics from an Advanced Perspective

Study of the fundamental concepts, procedures, and understanding of topics in middle school mathematics included in the Common Core State Standards: arithmetic, algebraic expressions and equations, geometry, statistics, probability, and functions, with an emphasis on current research recommendations.

Hours 3 hrs
Credits 3 cr.

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

*prereq: Calculus II and a course in linear or matrix algebra
Hours 3 hrs
Credits 3 cr
Open only to Teacher Education Program students.

MATH 62100 - Introduction to Abstract Algebra

Introduction to the theory of groups and rings.

*prereq: a course in linear algebra
Hours 3 hrs
Credits 3 cr
MATH 62200 - Further Topics in Advanced Abstract Algebra

Elements of Galois theory, construction with ruler and compass, advanced topics in ring theory and linear algebra.

prereq: a course in introductory abstract algebra
Hours 3 hrs
Credits 3 cr

MATH 62300 - Theory of Numbers

Congruences, quadratic residues, elementary diophantine analysis, continued fractions, sums of squares.

prereq: a course in linear algebra
Hours 3 hrs
Credits 3 cr

MATH 62800 - Number Systems

Postulational construction of the positive integers. Development of the rational integers, the rational numbers, the real numbers, the complex numbers, together with binary operations and order relations. Topics from hypercomplex number systems or the theory of transfinite numbers.

Hours 3 hrs.
Credits 3 cr.

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 3 hrs.
Credits 3 cr.
Open only to Teacher Education Program students.

MATH 63300 - Axiomatic Geometry

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry. This is a theoretical mathematics course. The material is presented in its historical context.

prereq: departmental permission
Hours 3
Credits 3

MATH 63400 - Geometries I

Topics in affine and projective geometry and/or topics in differential geometry.

prereq: a course in linear algebra
MATH 63500 - Problem Solving Explorations in Mathematics

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics. This course is for current and prospective teachers.

prereq: none
Hours 3
Credits 3

MATH 64000 - Topics in Calculus

Topics in single and multi-variable calculus examined from an advanced standpoint and incorporating use of graphing calculators and such computer packages as MAPLE and MATHEMATICA.

prereq: MATH 63000
Hours 3 hrs.
Credits 3 cr.
Open only to Teacher Education Program students

MATH 64100 - Mathematical Analysis I

Mature consideration of theory and processes of calculus, including the Heine-Borel and Bolzano-Weierstrass Theorems.

prereq: MATH 26000 and either MATH 25400 or 25500
Hours 3 hrs.
Credits 3 cr.

MATH 64200 - Introduction to Theory of Functions of a Complex Variable

Complex numbers, analytic functions, elementary functions, contour integrals, Cauchy integral theory, series.

prereq: a course in advanced calculus
Hours 3 hrs.
Credits 3 cr.

MATH 64500 - Mathematical Analysis II

Continuation of MATH 64100 with an emphasis on functions of several variables.

prereq: MATH 64100
Hours 3 hrs.
Credits 3 cr.

MATH 65400 - Dynamical Systems and Chaos

Topics include: flows in one and two dimensions; phase portraits; limit cycles; bifurcations; iterated maps on the interval; introduction to chaos and fractals; the Mandelbrot set and its significance.
prereq: a course in multivariate calculus and a course in linear algebra
Hours 3 hrs.
Credits 3 cr.
Familiarity with MAPLE or MATHEMATICA encouraged

MATH 65500 - Challenging Concepts in Mathematics: Using Research to Identify Common Misconceptions and Assess Student Learning

Students will explore the key concepts in mathematics that have been identified to cause particular difficulties for students in secondary schools (7-12), as well as in the introductory courses in college. The research literature will be surveyed with a particular emphasis on the methodologies used to uncover these key concepts and to identify student misconceptions. Teaching strategies to enhance student understanding of these key concepts will be explored. Students are expected to produce a research paper.

prereq: departmental permission
Hours 3 hrs.
Credits 3 cr.

MATH 66100 - History of Mathematics

Survey of the history of mathematics and statistics to the present including roots in non-Western culture and contributions of women and minorities.

Hours 3 hrs.
Credits 3 cr.

MATH 67100 - Fundamental Concepts of Modern Mathematics

An axiomatic approach to theory of sets; axiom of choice, Zorn's Lemma, transfinite arithmetic.

prereq: any 2 courses chosen from linear algebra, modern algebra, or advanced calculus I and II
Hours 3 hrs.
Credits 3 cr.

MATH 67200 - Mathematical Logic

A survey of the central results and techniques of metalogic, principally mathematical induction, the soundness and completeness of theorems for first-order logic, the Skolem Theorem; and Church's Theorem on undecidability.

prereq: a course in linear algebra or permission of instructor
Hours 3 hrs.
Credits 3 cr.

MATH 68500 - Numerical Methods

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations; curve fitting and function approximation; interpolation; differentiation and integration; differential equations.

prereq: a course in ordinary differential equations
MATH 69000 - Advanced Topics in Mathematics for Teachers

Topics to be studied in any given term will be announced prior to registration.

prereq: MATH 62000 or 63000; additional prereqs vary with specific topics and will be announced at time of course offering

MATH 72100 - Modern Algebra I

Group theory including symmetric groups, Sylow theorems, fundamental structure theorem for finite Abelian groups and the canonical forms for linear transformations.

prereq: MATH 31100 or equivalent and departmental permission

MATH 72200 - Modern Algebra II

Extension fields to the fundamental theorem of Galois Theory and solvability by radicals. Commutative rings to the Hilbert basis theorem and elements of algebraic varieties.

prereq: MATH 31100 or equivalent and departmental permission

MATH 72500 - Advanced Linear Algebra

Topics in advanced linear algebra and multilinear algebra.

prereq: MATH 31100 or equivalent and departmental permission

MATH 74200 - Analytic Functions

Theoretical treatment of the properties of a function of a complex variable including Cauchy's Theorem, the special functions, power series, and the Riemann Mapping theorem.
A stand-alone course in functions of a complex variable presented at a higher level than MATH 35300 or MATH 64200. The course is intended for both Pure and Applied Math students and optionally a required course for the MA in Pure Math. An undergraduate course in complex variables is preferred, but not required.

MATH 74600 - Theory of Functions of a Real Variable I

Real numbers, Lebesgue measure, metric and Lp spaces, general measure and integration theory.

prereq: 1 year of advanced calculus
Hours 3 hrs.
Credits 3 cr.

MATH 74700 - Theory of Functions of a Real Variable II

L-p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

prereq: MATH 35200 or equivalent and departmental permission
Hours 3
Credits 3

The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74600, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.

MATH 75000 - Calculus on Manifolds

The derivative as a linear map; the Riemann integral, including Fubini's Theorem and the Change of Variable formula; tensor and exterior algebras; differential forms and integrals thereof; Stokes' Theorem.

prereq: MATH 26000 and MATH 35200 or permission of the instructor.
Hours 3
Credits 3

MATH 75100 - General Topology

Topology of plane sets, continuous functions, separation axioms, compact and metric spaces.

prereq: advanced calculus or permission of Department
Hours 3 hrs.
Credits 3 cr.

MATH 75200 - Algebraic Topology

An introduction to algebraic topology including homotopy and the fundamental group of a space. Classification of spaces via their fundamental group. Applications to algebra and differential geometry.

prereq: MATH 35200 or equivalent and departmental permission
MATH 77200 - Seminar

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 3 hrs.
Credits 3 cr.

MATH 77300 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 3 hrs.
Credits 1 cr.

MATH 77400 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 3 hrs.
Credits 1 cr.

MATH 77500 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 3 hrs.
Credits 2 cr.

MATH 77600 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 3 hrs.
Credits 2 cr.

MATH 77700 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 3 hrs.
Credits 3 cr.
MATH 77800 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 3 hrs.
Credits 3 cr.

MATH 78000 - Advanced Discrete Structures

Advanced concepts in mathematics of discrete domains such as sets, functions/relations, logic, and graphs. These domains are critical to almost every advanced computer science application including programming languages, software engineering, security, compilers, and computational models.

prereq: departmental permission

Hours 3 hrs
Credits 3 cr.

MATH 78500 - Advanced Numerical Analysis, Finite Differences and Collocation

Advanced topics in numerical analysis, Finite difference method, von Neumann stability, Lax equivalence. Polynomial interpolation, numerical integration and collocation method.

prereq: MATH 38500 and departmental permission

Hours 3
Credits 3

One of a two-semester group of courses presenting numerical analysis at the graduate level. This course is primarily for students in the applied math MA program.

MATH 78700 - Advanced Numerical Analysis, Finite Elements

prereq: MATH 38500 or equivalent and departmental permission

Hours 3
Credits 3

One of a two-semester group of courses presenting numerical analysis at the graduate level. This course is primarily for students in the applied math MA program.

MATH 79500 - Advanced Topics in Mathematics

Topics to be studied in any given term will be announced prior to registration.

prereq: varies with specific topics and will be announced at the time of course offering

Hours 3 hrs.
Credits 3 cr.
May be repeated as topics vary, but not more than twice.

Statistics
STAT 61200 - Discrete Probability

Combinatorics, discrete probability, random variables, probability models and an introduction to game theory. A study of discrete probability with particular attention paid to the integration of these topics into the school curriculum. This course is for current and prospective teachers.

prereq: a statistics course on or above the level of STAT 11300
Hours 3
Credits 3

STAT 61300 - An Introduction to Statistics

An Introduction to statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Data analysis uses appropriate statistical software. This course is intended for teachers.

Hours 3 hrs.
Credits 3 cr.

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.
Hours 3 hrs.
Credits 3 cr.

STAT 70100 - Advanced Probability Theory I

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department
Hours 3 hrs.
Credits 3 cr.

STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 70300 - Mathematical Statistics

prereq: permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 70600 - General Linear Models I

prereq: STAT 70100 and 70300 or equivalent or permission of department
Hours 3 hrs.
Credits 3 cr.

STAT 70700 - General Linear Models II

prereq: STAT 70600 or equivalent
Hours 3 hrs.
Credits 3 cr.

STAT 71400 - Topics in Statistical Inference

Topics vary but may be selected from multivariate analysis, regression, experimental design, time series, biostatistics.

Hours 3 hrs.
Credits 3 cr.

STAT 71500 - Time Series Analysis

Introduction to univariate Box-Jenkins (difference equation) time-series modeling. Topics include ARIMA models; stationarity; forecasting; diagnostics; and seasonal modeling. Extensive use of process control and economic time series. Transfer function models.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.
Hours 3 hrs.
Credits 3 cr.

STAT 71600 - Data Analysis

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics selected from: data summaries; transformations; the jackknife and re sampling schemes; robust estimation; and robust regression methods.
prereq: C or better in STAT 61400, or an equivalent introductory statistics course.

Hours 3 hrs.
Credits 3 cr.

This course is cross-listed with BIOS 75600

STAT 71700 - Multivariate Analysis

An introduction to multivariate methods. Topics selected from: factor analysis; discriminant analysis; clustering; multidimensional scaling; MANOVA; canonical correlation; and projection-pursuit.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.
Hours 3 hrs.
Credits 3 cr.

STAT 71800 - Analysis of Variance

Intermediate topics in analysis of variance (ANOVA), with an emphasis on exploratory aspects. Topics include: one-, two- and many way layouts; decomposition and partitioning of variance; fixed-, random-, and mixed-effects models; repeated measures; contrasts; multiple comparisons; and robust analogs.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.
Hours 3 hrs.
Credits 3 cr.

This course is cross-listed with BIOS 75800

STAT 72200 - Theory of Games

Utility, zero-sum two-person games, minimax theorem or rectangular games. Relation to linear programming; applications to problems in economics and other fields.

prereq: a course in linear algebra and a course in probability

Hours 3 hrs.
Credits 3 cr.

STAT 72400 - Topics in Applied Mathematics I

Selected topics. Topics vary but may be selected from multivariate analysis, regression, experimental design, time series, biostatistics.

prereq: permission of the department

Hours 3 hrs.
Credits 3 cr.

STAT 72500 - Topics in Applied Mathematics II

Selected topics. Topics vary but may be selected from multivariate analysis, regression, experimental design, time series, biostatistics.

prereq: permission of the department
STAT 72600 - The Theory and Methods of Sampling

prereq: STAT 70100 or equivalent, or permission of the department

Hours 3 hrs.
Credits 3 cr.

STAT 73900 - Bayesian Statistics

prereq: C or better in STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed.

Hours 3
Credits 3

STAT 75000 - Applied Biostatistics I

A first course in biostatistics for public health research. Topics include: simple and multiple linear regression; one-way and two-way analysis of variance; nonparametric tests. Focus on practical applications, utilizing statistical software.

Cross-listed BIOS 75000

prereq: C or better in STAT 21300 or an equivalent introductory statistics course. Not open to students who have taken STAT 21400 or STAT 61400. The prerequisites are also satisfied with the combination of PH 70000 and PH 70300.

Hours 3
Credits 3

STAT 75100 - Applied Biostatistics II

A second course in statistics covering quantitative methods applicable in the life sciences. Topics include experimental design, life table analysis, ethical issues, survival analysis, logistic regression, and Cox regression.

Cross-listed BIOS 75100

prereq: STAT 75000 or BIOS 75000 or an equivalent biostatistics course.

Hours 3 hrs.
Credits 3 cr.

STAT 75200 - Analysis of Categorical Data

An introduction to statistical models for analyzing categorical data, with emphasis on examples from the health sciences. Topics include: contingency tables and corresponding tests such as chi-square, CMH and trend test, count
data, logistic regression, and log-linear models.

Cross-listed BIOS 75200  
prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.  
Hours 3  
Credits 3

STAT 75300 - Analysis of Longitudinal Data

An introduction to statistical models and methods for analyzing longitudinal data in public health. Topics include: longitudinal designs and cohort sampling, general linear models for longitudinal data, marginal and random effects models, time-dependent covariates, missing values.

Cross-listed BIOS 75300  
prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.  
Hours 3  
Credits 3

STAT 75400 - Design and Analysis of Complex Surveys

An introduction to statistical issues in the design and analysis of complex surveys, with a particular emphasis on public health research. Topics include: basic sampling techniques, stratified and cluster sampling, non-sampling errors, and case studies.

Cross-listed BIOS 75400  
prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.  
Hours 3  
Credits 3

STAT 75500 - Survival Analysis

An introduction to regression modeling used in the analysis of time-to-event data in epidemiological, biostatistical, and other health-related research. Topics include: survival functions, proportional-hazards, parametric and competing-risks models, missing data and case studies.

Cross-listed BIOS 75500  
prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.  
Hours 3  
Credits 3

STAT 76100 - Advanced Concepts in Financial Markets

Study of the essential techniques of pricing financial derivatives, including the Black-Scholes formula, binomial trees, and risk-neutral valuation methods. Discussion of trading strategies associated with the use of financial derivatives for different purposes such as hedging and speculation, and potential problems that can arise in the application of financial derivatives.

prereq: permission of the department
Hours 3
Credits 3

STAT 76200 - Stochastic Methods in Finance

Mathematical theory and probabilistic tools for modeling and analyzing security markets. Pricing options in complete and incomplete markets, equivalent martingale measures, utility maximization, interest rate models.

prereq: STAT 70100, STAT 70200, STAT 76100

Hours 3 hrs
Credits 3 cr.

STAT 78600 - Modeling and Visualization

The development of continuous mathematical models, the resolution of the resulting differential equations by numerical techniques and the visualization of the simulated data. Problems come from various areas of the social, biological and physical sciences.

prereq: Departmental permission

Hours 3
Credits 3

STAT 78700 - Statistical Models for Spatial Data

Spatial data and spatial models, intrinsic stationarity, large and small sample variation, the variogram, estimation of the variogram, prediction and kriging, spatial models on lattices, spatial point patterns.

prereq: STAT 70100 and STAT 70300 (theory); STAT 71600 or STAT 78600 (data analysis, programming); or permission of the instructor

Hours 3
Credits 3

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department

Hours 3
Credits 3

STAT 79100 - Independent Study

Independent study in which a student selects a topic of interest to him or herself. The study is carried out under the direction of a faculty member.

Credits 1

STAT 79200 - Independent Study
Independent study in which a student selects a topic of interest to him or herself. The study is carried out under the direction of a faculty member.

Credits 2

STAT 79300 - Independent Study

Independent study in which a student selects a topic of interest to him or herself. The study is carried out under the direction of a faculty member.

Credits 3

Mathematics and Statistics: Courses offered only if student demand is sufficient

MATH 74100 - Functional Analysis

Hours 3
Credits 3

STAT 63800 - Special Topics in Applied Statistics

Hours 3
Credits 3

Medical Laboratory Sciences

MLS 60000 - Fundamental Concepts and Techniques in the Medical Laboratory

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment. Mastery of additional content and an independent project are required of graduate students.
This course is cross-listed with MLS 30000.

prereq: BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv. and admission to the post-baccalaureate certificate program in Medical Laboratory Technology

Hours 3 (2 lecture, 1 lab)
Credits 3

MLS 61000 - Clinical Practicum in Medical Laboratory Technology I

This course (and MLS 62000) comprise the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology.
prereq: Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology
Credits 6

**MLS 62000 - Clinical Practicum in Medical Laboratory Technology II**

This course (with MLS 61000) provides training in the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology

prereq: Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology
Credits 6

**MLS 70000 - Concepts of Disease: Diagnostic Strategies**

This course will explore newly described and established disease syndromes from the perspective of strategizing for effective laboratory diagnosis and management. Broad strategies such as classical biochemistry and cultivation, immunochemical, molecular or histochemical techniques are compared using original literature. Upon completion, students will be able to design a rational and cost effective laboratory strategy based on fundamental science; skills will also have application to biomedical laboratory research, assisting in the development of protocols for fundable projects.

*Hours 3*
*Credits 3*

**MLS 70100 - Emerging Laboratory Technologies**

Developed as a complement to MLS 70000, this course explores new technologies in the biomedical laboratory. Such areas as genomics, proteomics, immunohistochemistry and cytogenetics have been developed recently and may not have been covered in the student's previous scientific education. Students completing this course will have the skills to perform and/or supervise a wide range of analyses, and as managers they will be able to evaluate complex technologies for adoption.

*Hours 3*
*Credits 3*

**MLS 71000 - Management Practicum**

Students will be employed in laboratory sites in hospital and proprietary clinical laboratories, research institutions, and academic laboratories to gain experience as management interns. Schedules will be arranged to meet the needs of students and sites, and a minimum of 150 hours will be required. A site-based mentor will support design and implementation of the project. Students will prepare an extensive project report in print and presentation format. Students completing this capstone course will be able to apply for positions in an area of biomedical laboratory management that reflects their unique combination of technical and management expertise.

*Hours 3*
*Credits 3*

**MLS 72000 - Risk Management for the Biomedical Laboratory**

The biomedical lab must manage risk from diverse origins, including lab/medical hazards, government oversight, and fiscal sources similar to any business entity. This case based course will explore each of these with model interventions.

prereq: Department Permission
**MLS 77000 - Graduate Independent Study**

Students with a background or strong interest in working in biomedical research labs will gain experience by participating in the ongoing projects of MLS faculty. A minimum 2-semester commitment, and significant weekly hours will be expected, with accountability to research mentor and academic director.

*prereq: Department Permission*

**MLS 77025 - Topics: Biohazards and Emergency Response**

The biology of microorganisms and toxins most frequently considered in perpetrated terrorist attacks. It also considers technology for detection and control for first responders, lab practitioners and other healthcare professionals, as well as emergency communication and prevention. In addition to regular classroom instruction, students participate in group projects to simulate bioterrorism events and responses. Government regulation, chain of evidence and related topics are covered in this course.

*prereq: Departmental permission*

**Music**

**MUS 68100 - Private Instruction in Instrument or Voice**

For students not concentrating in performance.

*Hours 1 hr  
Credits 1 cr*

**MUS 68200 - Private Instruction in Instrument or Voice**

For students not concentrating in performance.

*Hours 1 hr  
Credits 1 cr*

**MUS 68300 - Private Instruction in Instrument or Voice**

For students not concentrating in performance.

*Hours 1 hr  
Credits 1 cr*
MUS 68400 - Private Instruction in Instrument or Voice

For students not concentrating in performance.

*Hours 1 hr
*Credits 1 cr

MUS 70000 - Music Bibliography and Research Techniques

Study of sources and bibliographical methods as applied to musical material.

*Hours 3 hrs
*Credits 3 cr

MUS 71000 - Hunter Symphony

Rehearsal and performance of orchestral works.

*prereq: audition and perm instr.
*Hours 2 hrs
*Credits 1 cr
*May be taken four times for credit.

MUS 71100 - Hunter College Choir

Rehearsal and public performance of major choral Works.

*Hours 2 hrs
*Credits 1 cr
*May be taken four times for credit.

MUS 71300 - Chamber Music

Rehearsal and public performance of instrumental chamber works.

*Hours 2 hrs
*Credits 1 cr
*May be taken four times for credit.

MUS 71400 - Collegium Musicum

Study and public performance of chamber chorus works from the medieval, Renaissance, and Baroque periods.

*prereq: audition and perm instr.
*Hours 2 hrs
*Credits 1 cr
*May be taken four times for credit.

MUS 71500 - Jazz Ensemble
Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz and musical comedy. One public performance per semester.

Hours 2 hrs  
Credits 1 cr  
May be taken four times for credit.

**MUS 71600 - Jazz Vocal Workshop Ensemble**

Open to all vocalists and rhythm section instrumentalists by audition. Jazz performance and improvisation. One public performance per semester.

Hours 2 hrs  
Credits 1 cr  
May be taken four times for credit.

**MUS 71700 - Piano Performance Class**

Hours 2 hrs  
Credits 1 cr  
May be taken four times for credit.

**MUS 71800 - Vocal Performance Class**

Course in seminar/workshop format concentrating on the literature for solo voice, both classical and popular (musical theater, jazz, gospel); but also including ensemble repertory from opera and musical theater. Singers are coached in performance technique and interpretation, while working with an accompanist to prepare the semester's repertoire.

Hours 2 hrs  
Credits 1 cr  
May be taken four times for credit.

**MUS 71900 - Special Topics in Music Performance**

Number of works are studied, rehearsed, and performed. Topics to be announced.

Hours 2 hrs  
Credits 1 cr  
May be taken four times for credit.

**MUS 72000 - Opera Performance**

Preparation and performance of a fully staged opera.

prereq: prerequisite audition and graduate adviser's permission.  
Hours 3 hrs
Credits 3 cr
May be taken two times for credit.

**MUS 72100 - Jazz and Popular Music Combos**

Study and performance within a small ensemble context of the popular music genres, such as Pop, Rock, Hip-Hop, R & B, Country/Bluegrass, and Jazz. May be taken 6 times.

*prereq: Audition; dept. permission required
Hours 2 hrs
Credits 1 cr*

**MUS 72400 - Advanced Studies in Music Theory 1**

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

*prereq: 4 sem. of undergraduate music theory courses
Hours 3 hrs
Credits 3 cr*

**MUS 72500 - Advanced Studies in Music Theory 2**

Analysis and theory of compositional styles from 1900 to the present.

*prereq: 4 sem. of undergraduate music theory courses
Hours 3 hrs
Credits 3 cr*

**MUS 73100 - Composition 1**

Fundamental musical materials and compositional techniques of the 20th century. Students will complete weekly compositional exercises, each emphasizing a specific technique.

*Hours 3 hrs
Credits 3 cr*

**MUS 73200 - Composition 2**

A continuation of the study of compositional techniques of the 20th century through reading, analysis, and practice. Students will complete several small works intended for performance.

*Hours 3 hrs
Credits 3 cr*

**MUS 73500 - Orchestration**

Study of the capabilities of musical instruments; analysis of orchestration techniques; arranging compositions for various instrumental combinations.

*prereq: 2 semesters of undergraduate music theory and permission of the instructor*
**MUS 73600 - Computer Music**

Making music with computers using technologies such as MIDI sequencing, hardware synthesis, and digital audio. Promises and limitations of these tools.

*prereq: permission of the instructor*

**MUS 73800 - Jazz Harmony and Arranging**

Study of jazz harmony and rhythm, jazz composition, and jazz arranging and its application to commercial music.

*prereq: MUSTH 20100, 22100, 23100 or permission of department*

**MUS 73900 - Jazz Improvisation**

Study and performance of jazz improvisational techniques.

*prereq: MUS 73800 or permission of department.*

**MUS 74000 - Seminar in Music Theory and Analysis**

Speculative theory, aesthetics, and scientific dimensions of music; detailed analysis of works relevant to theoretical problems under investigation. Topics to be announced.

**MUS 74200 - Seminar in Style Criticism**

Intensive study of a small number of closely related works of music. Topics to be announced.

**MUS 75100 - Advanced Studies in Music History 1**

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.
MUS 75200 - Advanced Studies in Music History 2
Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

MUS 75300 - Transcription and Analysis in Ethnomusicology
Critical examination and application of contemporary techniques to selected examples from various cultures.

MUS 76000 - Seminar in Music History
Problems in research and analysis in selected areas of music history.

MUS 77500 - Seminar in Ethnomusicology 1
A history of the discipline; the development of theories and methods; selected problems.

MUS 77600 - Seminar in Ethnomusicology 2
Field research as a principal means of data collection and theory testing in ethnomusicology. Preparation of the research design, application of data-gathering techniques, adaptation to the field, and data analysis.

MUS 77700 - Seminar in Urban Ethnomusicology
Major concepts and areas of research in urban ethnomusicology. Application of ethnomusicological methods to individual field studies in New York City.
MUS 77800 - Special Topics in Ethnomusicology: Issues/Regions

Specialized study of the music of a specific region or a current issue in ethnomusicology. Topics to be announced. More than one topics course may be allowed for the degree.

Hours 3 hrs 
Credits 3 cr

MUS 78100 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3 cr

MUS 78200 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3 cr

MUS 78300 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3 cr

MUS 78400 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3 cr

MUS 78500 - Private Lessons in Composition

Advanced individualized training in original music composition.

prereq: MUS 73100, 73200, and permission of the instructor

MUS 78900 - Seminar in Music Performance

Preparation, rehearsal, and performance of small and large ensemble works. Emphasis on researching and analyzing the music being studied.

May be taken twice for credit.

MUS 79100 - Independent Study

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.
MUS 79200 - Independent Study

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

MUS 79300 - Independent Study

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

MUS 79400 - Independent Study

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

MUS 79900 - Thesis in Composition

Individual study of composition under supervision.

Music Courses for Music Education
MUS 64100 - Strings
Teaching fundamentals of string playing (violin, viola, cello, and double bass) in context of solo, orchestral and chamber music; thorough review of basic string technique.

Hours 1.5 hrs
Credits 1 cr

MUS 64300 - Woodwinds
Teaching fundamental techniques of playing a number of woodwind instruments: breathing, tone production and fingering; acoustical principles of woodwinds; thorough review of woodwind technique; basic pedagogical methods.

Hours 1.5 hrs
Credits 1 cr

MUS 64500 - Brass
Teaching fundamental techniques of playing a number of brass instruments: breathing, tone production, fingerings and slide positions; acoustical principles of brasses; thorough review of brass technique; basic pedagogical methods.

Hours 1.5 hrs
Credits 1 cr

MUS 64700 - Percussion Skills
The teaching of fundamental techniques of playing percussion instruments: rudiments, stick control, coordination of hands and feet, syncopation, ensemble playing; acoustical principles of percussion; thorough review of percussion technique; basic pedagogical methods.

Hours 1.5 hrs
Credits 1 cr

MUS 64900 - Piano Skills for Music Teachers
Introduction to piano skills including scales, chord progressions, keyboard harmony and sightreading. The activities and materials used will reflect the needs of music education students.

MUS 65100 - Conducting
The teaching of technique and proficiency in basic conducting skills including conducting patterns, baton technique, expressive gestures, score study, and philosophical and psychological approaches to ensemble management.

MUS 77900 - World Music Education
Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.
Nursing

NURS 66400 - Legal Issues in Nursing

The purpose of this course is to examine the multiple relationships between nursing and the law, with a particular focus on accountability for advanced and specialty practice. The course examines sources of law and the role of the courts in the continuing development and application of law to health care and the health professions. Specific legal issues, such as malpractice and informed consent, are analyzed. Distinctions between civil and criminal liability are explored, along with the roles of licensing boards and other government agencies. The course also examines relationships between law, ethics, policy and global health.

Hours 3 hrs
Credits 3 cr

NURS 69984 - Therapeutic Touch, Meditation and Imagery: Health Patterning Across the Life Span

Presents Therapeutic Touch, meditation, and imagery as modalities in health patterning for nursing using Rogers' Science of Unitary Human Beings as the theoretical framework.

Hours 45 hrs,
Credits 3 cr
Lecture plus practice.

NURS 69986 - Integrative Modalities in Health

Examines the science of wholeness emerging across disciplines as a basis for integrative approaches to health. Presents a survey of major modalities and health applications.

NURS 69995 - Transforming Death in Health Care

This course prepares graduate students to oversee and provide quality care to those who are dying and their loved ones. Concepts, theories and practices associated with death, dying and end-of-life care will be discussed along with exploration of the multiplicity of issues surrounding societal needs at the end-of-life will be discussed. At the completion of the course and with full attendance on the dates that ELNEC (end-of-life education consortium curriculum) modules are taught, students will be designated "ELNEC trained".

NURS 69998 - Diabetes Prevention: Interdisciplinary Perspectives
This course will review existing approaches to diabetes prevention. Also covers prevention strategies, the impact of food and culture on lifestyle behaviors, the social and behavioral causes of diabetes, and the development of public health diabetes prevention interventions.

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45*  
*Credits 3*

**NURS 70100 - Assessment, Measurement, and Evaluation in Nursing Education**

Various methods of assessment and evaluation of learning will be addressed within a nursing context.

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course*  
*Hours 45*  
*Credits 3*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45*  
*Credits 3*

**NURS 70700 - Nursing of Persons with HIV Infection**

Analysis and evaluation of nursing strategies at the level of secondary prevention with persons who are HIV-positive in order to assist them to maintain optimum levels of wellness.

**NURS 70800 - Nursing of Persons with AIDS**

Analysis and evaluation of nursing strategies at the level of tertiary prevention with persons with AIDS in order to assist them to maintain and restore health.

**NURS 71600 - Informatics for Evidence-based Practice**

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.
NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research
Hours 3 hrs.
Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800
coreq: NURS 75000

NURS 73000 - Instructional Design in Nursing Education

Examination of theoretical models and empirical factors that affect teaching-learning process in educational settings in nursing.

NURS 73100 - Practicum in Nursing Education

Teaching practicum in academic and institutional settings under the guidance of experienced educators. Emphasis is on the development, implementation, and evaluation of educational programs.

prereq: NURS 73000, NURS 75200, NURS 70100
Hours 30 hours lecture, 15 hrs seminar, 105 hrs clinical
Credits 4 cr

NURS 73400 - Writing, Communication, and Healing

This course provides learners with opportunities to improve their writing skills; to increase their confidence in their expressive ability; to produce a clear, publishable paper; to communicate more effectively; and to explore the use of reflective writing as a healing method.

Hours 45
Credits 3

NURS 73500 - Leadership and Management in Health Care I

Analyses of how nurse leaders and other health professionals in integrated managed care networks and community-based organizations understand and apply leadership and management theories and principles.
NURS 73600 - Trauma Nursing: The First 72 Hours

This course provides specialized content on the assessment, management, and prevention of complications in the multiple trauma patient in the first 72 hours.

Hours 45
Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 74000 - Leadership and Management in Health Care II

Analysis of how nurse leaders and other professional in health care agencies interact at local, regional, and national levels, conduct policy assessment, identify health needs of culturally diverse aggregates, and develop culturally focused policies and programs to address the needs.

prereq: NURS 70400, NURS 73500, PAF 91200, PAF 91720
coreq: PAF 91400, PAF 91300
Hours 30 hours theory, 15 hours seminar, 167 hours practicum,
Credits 5 cr

NURS 74200 - Advanced Practice Psychiatric-Mental Health Nursing I

Exploration of mental health problems, recovery-oriented services and promotion of mental health in individuals. Students learn to provide primary mental health care for individuals experiencing a range of complex problems.

prereq: NURS 70000
prereq or coreq: NURS 70200, NURS 71700, NURS 74900, NURS 75000, NURS 75100
Hours 30 hrs lecture, 15 hrs seminar, 166 hrs clinical,
Credits 5 cr

NURS 74300 - Advanced Practice Psychiatric-Mental Health Nursing II

Exploration of mental health of families. Students learn to provide primary mental healthcare for families experiencing a range of complex problems.

prereq: NURS 742
NURS 74400 - Advanced Practice Psychiatric-Mental Health Nursing III

An exploration of contemporary mental health issues from group and community perspectives. Students learn to develop advanced practice group and community interventions that reduce risk, promote resilience, and enhance mental health.

prereq: NURS 74300

NURS 74500 - Leadership and Management in Health Care III

An integrative experience in the field of public affairs as it relates to health care generally and nursing specifically. Students will prepare a professional work in policy analysis or an organizational assessment.

Cross-listed (Cross-listed with PAF 97930)

prereq: NURS 74000

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400
coreq: NURS 71700, NURS 71900

Hours 15 hrs.
Credits 1 cr.

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the
PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800
Hours 45
Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
Hours 3 hrs.
Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000
Hours 2 hours lecture, 2 hours lab
Credits 3 cr

NURS 75200 - Advanced Concepts in Nursing Education

Advanced concepts in nursing education that allow for the construction of nursing education programs will be explored. Issues critical to academic and institutional education will be examined.

prereq: NURS 73000

NURS 75400 - Psychosocial Behavioral Patterns of Older Adults

Integration of the theoretical foundations of biological, psychological, social, and cultural patterns of aging that form the assessment data base for the case management of older adults, families, and communities

prereq: NURS 70000

NURS 75500 - Primary Care Nursing I
This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100
Hours 3 hours/week lecture 1 hour/week seminar
Credits 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

NURS 75700 - Primary Care Nursing II

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500
Hours 3 hours /week lecture 1 hour /week seminar
Credits 6: 3 credits theory (45 hours /semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

NURS 76100 - Clinical Leadership in Nursing I

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

prereq: NURS 70000; NURS 70200, NURS 70400, NURS 74900
prereq or coreq: NURS 71700, NURS 75000, NURS 75100
Hours 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars,
Credits 5

NURS 76200 - Clinical Leadership in Nursing II

Synthesis of all aspects of leadership, care, and information management. Guided learning opportunities and clinical immersion in a unit or setting specific area; facilitates the integration of the multiple CNL functions into a professional model of CNL practice.

prereq: NURS 76100
Hours 60 hrs theory; 335 hrs clinical practicum (immersion), including 30 hrs clinical seminars
Credits 10

NURS 76600 - Adult- Gerontology Clinical Nurse Specialist I
This Adult-Gerontology Clinical Nurse Specialist (CNS) program will assist students to develop specialized knowledge in the management of complex adult patients with select acute and chronic diseases. Role expectations and implementation of the CNS competencies are explored. Students are expected to develop a broader understanding of professional CNS practice competencies and clinical practice issues from classroom sessions and during supervised clinical placements in diverse settings.

**prereq:** NURS 76100  
*Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum*  
*Credits 5*

**NURS 76700 - Adult-Gerontology Clinical Nurse Specialist II**

Using a nursing science framework, this course emphasizes intervention strategies and health care protocols for complex multisystem health problems and human responses of adults and older adults in a variety of health care settings. Supervised practicum continues to provide opportunities to integrate previous learning experiences. Strategies for evaluating the outcomes of care interventions from a leadership perspective are emphasized through the final capstone project. Students will demonstrate an in depth ability to utilize case studies integrating pathophysiology, advanced assessment, pharmacotherapeutics, and evidence-based standards of care to plan for and achieve positive patient outcomes for selected patients with an emphasis on the older adult. Strategies to interpret the adult-geriatric CNS role in health care to other health care providers and the public are discussed.

**prereq:** NURS 76600  
*Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum*  
*Credits 5*

**NURS 76800 - Primary Care Nursing III**

This is the last in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly, and function as a licensed independent practitioner. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide primary care in various settings. Experiences are intended to assist the student attain advanced level direct care competencies and function in the role of independent nurse practitioner.

**prereq:** NURS 75700  
*Hours 3 hours / week lecture; 1 hour/week seminar*  
*Credits 6: 3 credits theory (45 hours) 1 credit seminar (15 hours) 2 credits clinical (210 hours)*

**NURS 76900 - Gerontological Nurse Practitioner Practicum**

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

**prereq or coreq:** NURS 75500  
*Hours 15 hrs seminar, 105 hrs practicum,*  
*Credits 3*

**NURS 77100 - Community/Public Health Nursing I**
Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400
Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,
Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100
prereq or coreq: NURS 70400
Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,
Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772
Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,
Credits 5 cr

NURS 77600 - Interdisciplinary Approaches to Diabetes Management

This course will provide an overview of the field of diabetes and diabetes management. It will examine and analyze the interdisciplinary approaches in providing diabetes management in an effective and culturally competent manner.

Cross-listed PH 77013
Hours 45
Credits 3

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800
coreq: NURS 75100, NURS 71700
Hours 45 hrs.
Credits 3 cr.
NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

1) common mental disorders including etiology, theories, and epidemiology;

2) diagnostic evaluation of each disorder;

3) interventions for each disorder in order to provide age-appropriate care.

*prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600
*coreq: NURS 75100, 71700, 74800
*Hours 30 hrs.
*Credits 2 cr.

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

*prereq: NURS 70200, NURS 77700, NURS 77800
*Hours 30 hrs.
*Credits 2 cr.

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric–mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

*prereq: NURS 77700, NURS 77800, NURS 77900
*Hours 15 hrs.
*Credits 1 cr.

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I
This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100
Hours 22.5 hours - Seminar, 315 hours - Clinical
Credits 4.5 cr.

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200
Hours 22.5 hours - Seminar, 315 hours - Clinical
Credits 4.5 cr.

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 79100 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 15 hrs,
Credits 1 cr
A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 79200 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 30 hrs,
Credits 2 cr
A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 79300 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 45 hrs,
Credits 3 cr
A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400
Hours 45
Credits 3

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000
Hours 45
Credits 3

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200
coreq: NURS 71600
Hours 45
Credits 3

NURS 81000 - Clinical Genetics
Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3

**NURS 81100 - Advanced DNP Procedures**

Students will perform clinical procedures that assist in the diagnosis and treatment of acute and chronic conditions encountered in the primary care setting. Students are expected to draw on knowledge from pathophysiology and advanced assessment in order to demonstrate competence in performing advanced procedures.

*prereq or coreq: NURS 75100
Hours 3, 15 lab
Credits 3*

**NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years**

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

*prereq: NURS 71700, NURS 75000 and NURS 75100
Hours 15 lecture, 15 seminar and 125 clinical
Credits 3*

**NURS 82700 - Assessment and Primary Care of Children and Adolescents**

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

*prereq: NURS 71700, NURS 75000, NURS 75100
Hours 15 lecture, 15 seminar, 125 clinical
Credits 3*

**NURS 84200 - DNP PMHNP Practice I**

Clinical practicum in mental and behavioral health care delivery system and with current mental health policy makers, with seminar discussions of current mental health policy and politics in relation to the role of advanced practice nursing in the field of mental health systems.

*prereq: NURS 85100
coreq: NURS 74200
Hours 5 seminar, 50 clinical
Credits 1*

**NURS 84300 - DNP PMHNP Practice II**

Clinical practicum in advanced practice geriatric-mental health with seminar discussions of current gerontological and geriatric mental health theories, research and strategies for primary care nursing of older adults who need psychiatric or mental health services.

*prereq or coreq: NURS 74300*
NURS 84400 - DNP PMHNP III

Clinical practicum in addictions nursing practice with seminar discussions of current addictions theories, research and strategies for the clients with substance abuse and dependence diagnosis.

prereq or coreq: NURS 74400
Hours 5 seminar, 50 clinical
Credits 1

NURS 84500 - DNP PMHNP Practice IV

This course provides a framework for DNP psychiatric mental health nurse practitioner (PMHNP) students in how to synthesize theoretical, scientific, and clinical knowledge for the assessment and management of both mental health and illness states of child- and adolescent-specific populations.

prereq: NURS 74400
Hours 30 lecture, 15 seminar, 210 clinical
Credits 6

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3

NURS 85100 - Advanced Physical Assessment Practicum

Application of multidimensional assessment strategies for primary care nursing of persons aged 16 and above, as well as their families and communities. Evidence-based assessment strategies are to be practiced in a college lab and clinical setting. Electronic documentation will be used to record a comprehensive assessment and improve access to information.

prereq: NURS 74900
coreq: NURS 75100
Hours 5 seminar, 40 clinical
Credits 1

NURS 85500 - DNP Practice with Adults/Older Adults I

Application of advanced practice strategies for primary care nursing of adults and older adults and their families and the health care organizations that provide services for them. Evidence-based practice guidelines are reviewed and practiced in the college lab and clinical setting, with the use of information systems/technology and patient care technology to improve the quality of care for adult and older patients and their families and the health care systems that care for them.
prereq: NURS 75100
Hours 5 seminar, 40 clinical
Credits 1

NURS 85700 - Women's Health in Primary Care

Application of advanced practice strategies for primary care nursing of women and their families. Evidence-based practice guidelines are reviewed and applied in the simulation lab and clinical setting. Information systems/technology and patient care technology to improve the quality of care for women and their families will be utilized in the clinical setting.

prereq or coreq: NURS 75700
Hours 5 seminar, 40 clinical
Credits 1

NURS 86900 - DNP Practice with Older Adults

Application of advanced practice strategies for primary care nursing of older adults and their families and communities. Evidence-based practice guidelines are reviewed and practiced in the college lab and clinical setting, with the use of information systems/technology and patient care technology to improve the quality of care for older adult patients and their families and communities, as well as the health care systems that care for them.

prereq or coreq: NURS 76900
Hours 15 seminar, 105 clinical
Credits 3

NURS 87000 - Acute Care DNP Practice

This course provides students with specialized knowledge and clinical experience in applying evidence-based national standards and treatment guidelines in the care of adolescents, adults, and older adults with acute and complex health problems. Leadership role expectations of doctorate-prepared nurse practitioners are explored and synthesized throughout the course content.

prereq: NURS 75100
Hours 30 theory, 15 seminar, 250 clinical
Credits 6

NURS 87100 - Advanced Practice Public Health Nursing I

Analysis of the Advanced Practice Public Health Nurses (AAPHN) role in the use of technology to promote population health in order to achieve the DNP Competency Areas: Technology & Information Literacy Analysis and Quality of Practice.

prereq or coreq: NURS 77100, NURS 85000
Hours 15 seminar, 86 clinical
Credits 1

NURS 87200 - DNP in Public Health Nursing II

Analysis of the role of Advanced Practice Public Health Nurses (AAPHN) related to providing population health through partnerships and coalitions with the goal to achieve the DNP Competency Areas: Leadership in Practice,
Independent Practice, and Health Delivery System.

prereq or coreq: NURS 77200, NURS 87100
Hours 15 seminar, 87 clinical
Credits 1

NURS 87300 - DNP in Public Health Nursing III

Analysis of evidence-based practice in the role of Advanced Practice Public Health Nurses (AAPHN) through community-based participatory research (CBPR), in order to achieve the DNP Competency Areas: Scientific Foundation for Practice, Healthcare Policy, and Practice Inquiry in Area Associated with Population Health.

prereq or coreq: NURS 77300, NURS 87200
Hours 15 seminar, 87 clinical
Credits 1

NURS 87400 - DNP in Public Health Nursing IV

Advanced Practice Public Health Nurses (APPHN) translate research into practice in a culturally competent manner by piloting their intervention using community-based research principles.

prereq or coreq: NURS 77300, NURS 87300
Hours 30, 15 seminar, 200 clinical
Credits 6

NURS 89000 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 52.5 practicum hours; individual or group conferences with faculty
Credits 0.5 cr.

NURS 89100 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 105 practicum hours; individual or group conferences with faculty
Credits 1 cr.

NURS 89200 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences,
based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

**prereq:** NURS 85500, 84200 or 87100. Instructor permission required.

**Hours:** 210 practicum hours; individual or group conferences with faculty

**Credits:** 2 cr.

**NURS 89300 - DNP Practicum**

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

**prereq:** NURS 85500, 84200 or 87100. Instructor permission required.

**Hours:** 315 practicum hours; individual or group conferences with faculty

**Credits:** 3

**NURS 90000 - DNP Capstone I**

Students develop plans for capstone projects that demonstrate synthesis of their development in advanced practice nursing and lay the groundwork for future practice development.

**prereq:** NURS 80200

**Hours:** 45

**Credits:** 3

**NURS 90001 - DNP Capstone Internship**

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

**prereq:** NURS 80000, NURS 80100; Departmental permission required

**Hours:** 30 hours lecture; 105 practicum hours

**Credits:** 3 cr.

**NURS 90002 - DNP Capstone Proposal Development**

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

**prereq or coreq:** NURS 90001; Departmental permission required

**Hours:** 30 hours lecture; 105 practicum hours

**Credits:** 3 cr.

**NURS 90003 - DNP Capstone Implementation**
This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

**NURS 90100 - DNP Capstone II**

Students complete their capstone project and write final reports with continual mentorship by the faculty and community mentors.

prereq: NURS 90000
Hours 60
Credits 5

**Nutrition Required Courses**

All NUTR courses are three credits except NUTR 75700, which is one credit

**NUTR 70000 - Seminar in Dietetics Practice**

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

Open to dietetic internship (DI) students only.

**NUTR 70100 - Pre-Professional Practice in Dietetics: Clinical**

Supervised externship in clinical dietetics and classroom discussions of readings and field experiences.

Open to DI students only.

**NUTR 70200 - Pre-Professional Practice in Dietetics: Food Service**

Supervised externship in food service and personnel management, and classroom discussions of readings and field experiences.

Open to DI students only.

**NUTR 70300 - Pre-Professional Practice in Dietetics: Community**
Supervised externship in community nutrition and classroom discussions of readings and field experiences.

**Credits 3**

*Open to DI students only.*

**NUTR 70500 - Nutrition and Biochemistry**

The structure and metabolism of macro- and micronutrients, kinetics and regulation of enzymes; energetic of biochemical reactions.

**NUTR 71000 - Principles of Public Health Nutrition**

Fundamentals of nutrition in public health as they apply to health promotion and disease prevention for individuals and society, with emphasis on urban populations.

**NUTR 71500 - Food Service and Management**

An overview of good service operations and theories, functions and tasks of management

**NUTR 72000 - Community Nutrition Education**

Nutrition programs and materials for health promotion in the community.

**NUTR 72500 - Nutrition Research**

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

**NUTR 73100 - Human Nutrition and Metabolism**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

*prereq: NUTR 70500*

**NUTR 73200 - Advanced Nutrition II**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

*prereq: NUTR 73100*

**NUTR 73300 - Nutrition and Human Development**

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

**NUTR 73400 - Clinical Nutrition I**
Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73100

**NUTR 73500 - Clinical Nutrition II**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73400

**NUTR 74600 - Nutrition and Disease**

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

coreq: NUTR 74700

**NUTR 74700 - Advanced Nutrition and Assessment Laboratory**

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of various population groups.

coreq: NUTR 74600

**NUTR 75600 - Food Science and the Environment**

Scientific principles of food and food ingredients: composition, function, regulation, safety, quality, testing, processing, packaging, formulation, production and evaluation of foods.

coreq: NUTR 75700

**NUTR 75700 - Food Science and the Environment Laboratory**

Laboratory experience with the chemical and physical properties of food components.

coreq: NUTR 75600
Credits 1

**NUTR 76000 - Practicum**

Nutrition and food science-related fieldwork in hospitals, schools, laboratories, and community-based organizations designed to provide opportunities to apply knowledge and skills gained from the classroom education to professional practice.

prereq: completion of 27 credits in NUTR

**Nutrition Elective Courses**

All NUTR Elective Courses are 3 Credits
NUTR 73000 - Nutritional Assessment of Urban Communities and Populations at Risk

The collection and analysis of data for the purposes of identification of, and designing interventions for, individuals and urban populations at nutritional risk.

NUTR 74800 - Nutrition Assessment & Counseling

Nutrition assessment in humans, including anthropometric, biochemical, clinical, and dietary assessment; the application of principles of communication and counseling skills.

_prereq: NUTR MS matriculant
Hours 3 hrs
Credits 3 cr.

NUTR 77000 - Topics in Nutrition

Courses on current topics in nutrition.

_prereq: No prerequisite courses required.
Open to NUTR MS or with departmental permission
Hours 1-6
Credits Variable 1-6 credits, with a maximum of 6 credits.
Offered periodically. Variable credits.

NUTR 78000 - Capstone

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the Nutrition MS program. Students will complete either a project, research/review paper, or a manuscript.

_prereq: Completion of at least 18 credits of graduate coursework toward the MS Nutrition degree
Hours Variable 3-6 hrs
Credits Variable 3-6 cr. with a maximum of 6 cr.

Physical Therapy

PT 70100 - Clinical Anatomy

This course is an in depth study of the human body, with emphasis on the neuromuscular and musculoskeletal systems. Structural interrelationships shall be examined as the basis for normal functions and a means to understand structural and functional dysfunctional. Clinical correlates to physical therapy are examined.

_prereq: Acceptance into the Physical Therapy Program
Hours 6
Credits 4
**PT 70200 - Medical Terminology**

This programmed computerized self-study will provide students with the ability to analyze medical terms, define basic terms and abbreviations used in documenting health records and identify common terms related to diagnosis, therapies, and diagnostic tests. Explain the common rules for proper medical term formation, pronunciation and spelling medical terms.

*prereq: Acceptance into the Physical Therapy Program with completion of all admission requirements.*

*Hours Online*

*Credits 1*

**PT 70300 - Foundations of Patient Care**

Fundamental physical therapy handling skills are the focus of this course including functional training, monitoring vital signs, palpation, and massage. This course also serves as an introduction to the physical therapy profession and includes the history and scope of physical therapy practice. Documentation of physical therapy services is introduced. The course will be a combination of lecture, demonstration and lab practice.

*prereq: Acceptance into the Physical Therapy Program*

*Hours 4*

*Credits 2*

**PT 70400 - Ethical and Psychosocial Dimensions of Physical Therapy Practice**

This course examines the multifaceted role of the physical therapist in the health care delivery system, introducing students to PT practice, methodology and professionalism as well as to the psychosocial aspects which mediate physical therapy interactions.

*Hours 3*

*Credits 3*

**PT 70600 - Upper Extremity Kinesiology & Assessment**

The structure and function of joints and muscles will be reviewed for the upper extremities, head and neck. Clinical applications for functional movement and biomechanical principles are incorporated in the course. Students learn the skills of manual muscle testing (MMT) and goniometry for the upper extremities, head, and neck.

*prereq: Acceptance into the Physical Therapy Program*

*Hours 3*

*Credits 2*

**PT 70700 - Research Design and Methods**

*Hours 3 hrs.*

*Credits 3 cr.*

**PT 70800 - Human Physiology and Exercise Physiology**

This course provides an overview of cellular structures and functions which regulate body homeostasis from the point of cell division and genetic control of protein synthesis.
PT 70900 - Physical Modalities - Clinical Decision Making and Application

Principles and practical application of thermal, mechanical, electromagnetic and other energies in physical therapy is presented. This course is an introduction and comprehensive review of the physical modalities that are commonly employed in the physical therapy clinic for evaluation and treatment of various physical dysfunctions.

prereq: PT 70100

PT 74000 - PT Prevention and Intervention

Students learn and practice basic concepts of mobility, ROM, and stretching techniques. Application of therapeutic exercise to a broad population of clients from acute care to sports rehab are discussed and practiced, including prevention and restoration of function. Therapeutic application of basic neurophysiological principles associated with strengthening are also presented and practiced.

prereq: PT 70600, PT 70800

PT 75100 - Structure and Function of the Nervous System

This course provides an overview of microscopic, gross, and developmental anatomy of the human nervous system with emphasis on neurological process, structural and functional relationships. A local progression of information from molecular and cellular levels, to systems and regions provides a framework for students to understand neural organization.

prereq: PT 70100, PT 70800

PT 75200 - Lower Extremity Kinesiology and Assessment

The structure and function of joints and muscles will be reviewed for the lower extremities and trunk. Clinical applications for posture and gait evaluation are incorporated in the course. Students learn the skills of manual muscle testing (MMT) and goniometry for the lower extremities and trunk.

prereq: PT 70100, PT 70800

PT 75500 - Introduction to Clinical Education

This course is designed to introduce the student to the principles and theories of educational and clinical strategies.

prereq: PT 70100, PT 70300, PT 70400
PT 77000 - Directed Research I

Determine a focus for an evidence-based research project under direction of assigned clinical and academic advisers. Complete need for the study, problem statement, delimitations, and a draft of a literature review and methodology section. All first year students will enroll in this course, which will be held the **last six weeks** of the first fall semester, after completion of the Research Design course. Research planning activity will be at a variety of sites, under the guidance of a faculty mentor principal investigator (PI) and research site PI.

*prereq: PT 70100, PT 70800
*Hours 3 hrs.
*Credits 1 cr.*

PT 78000 - Clinical Medicine for PT

This course provides an overview of disease and injury with an emphasis on conditions encountered in physical therapy. Student understanding of altered structural and physiological processes and how they apply to physical therapy assessment and treatment are expectations of this course.

*prereq: PT 70100, PT 70800
*Hours 3 hrs.
*Credits 3 cr.*

PT 79000 - Pulmonary Physical Therapy

This course is designed to promote clinical reasoning skills in the examination, assessment, and intervention design for patients with pulmonary dysfunctions. A series of lectures, demonstrations, and laboratory experiences will explore the issues related to the management of the patient with a pulmonary disorder. Issues to be examined will include matters relating to professional behavior, scientific knowledge, clinical knowledge, critical analysis, and the competent performance of clinical interventions.

*prereq: PT 70100, PT 70800
*Hours 3
*Credits 2*

PT 79500 - Integumentary System: Assessment and Intervention

The course focuses on evaluation and management of individuals with integumentary dysfunction. Anatomy and physiology of the skin and the principles involved in normal wound healing are presented. Evaluation and management of individuals with burns and wounds based on clinical presentation will be covered in a lecture and practical format. Wound prevention and patient education will also be included as part of integumentary management.

*prereq: PT 70100, PT 70800
*Hours 2
*Credits 1*

PT 80300 - Differential Diagnosis and Intervention in Clinical Orthopedics I
This course is designed to promote clinical reasoning skills in the examination, assessment, and intervention in patients with orthopedic dysfunctions. Issues related to orthopedic dysfunction will be explored in a laboratory format.

**prereq:** PT 75100, PT 75200, PT 79000  
**Hours** 3  
**Credits** 2

**PT 80400 - Introduction to Neurological PT**

Foundations, examination, and interventions for the treatment of disorders of the Central Nervous System. Motor patterns of recovery and techniques as taught by Brunnstrom will be presented. Concepts of Motor Control and Motor Relearning Programs will enhance students' application of these techniques within the context of modern movement science.

**prereq:** PT 75100, PT 75200  
**Hours** 45  
**Credits** 2

**PT 80500 - Musculoskeletal Examination I**

Basic examination techniques utilizing selective tissue tension tests that will be applied to evaluate and diagnose lower extremity orthopedic conditions. Joint and soft tissue mobilization techniques and specific exercises will be applied as the Physical Therapy intervention for these diagnoses.

**prereq:** PT 74000, PT 75200, PT 78000  
**Hours** 6  
**Credits** 3

**PT 80600 - Clinical Experience I**

The first of four clinical internships in an acute care hospital setting or other setting appropriate for the objectives of this course. Under the supervision of a licensed physical therapist, the student will integrate and apply course work to provide quality care in the evaluation and treatment of patients with a variety of diagnoses.

**prereq:** PT 74000, PT 75200  
**Hours** 6 weeks full time  
**Credits** 3

**PT 80700 - Proprioceptive Neuromuscular Facilitation**

The historical and theoretical framework of Proprioceptive Neuromuscular Facilitation (PNF) that will serve as the foundation for learning these specialized hands-on exercise techniques. Students will apply the principles for training of the trunk and extremity musculature to potential patients with musculoskeletal, neuromuscular and cardiopulmonary dysfunction.

**prereq:** PT 80600  
**Hours** 3  
**Credits** 1

**PT 80800 - Differential Diagnosis in Neurological Evaluation**
A system of testing peripheral, central and autonomic nervous system function will be presented with an emphasis on specificity and sensitivity of the tests. Assessment of clusters of signs and symptoms that are used in clinical problem solving will be addressed.

**prereq:** PT7400, PT 75200
**Hours** 3
**Credits** 1

**PT 80900 - Directed Research II (continued from summer)**

Students will work on completion of a research proposal for faculty and clinical P.I. approval by the end of the semester. This will include preparation by each student of a draft IRB by March of first year for review prior to formal submission. Submit IRB application by May to achieve IRB approval by June.

**prereq:** PT 70700
**Hours Hrs arranged**
**Credits** 0
*(independent study)*

**PT 81000 - Neurological Interventions I**

The course includes a description of the principles of rehabilitation, etiology of spinal cord injury and traumatic brain injury, anatomical and physiological considerations, and understanding of special problems faced by adults with physical disabilities, evaluation and treatment techniques, an understanding of adapted equipment and wheelchairs, evaluation of the home environment and appropriate modifications.

**prereq:** PT 80800, PT 80900
**Hours** 5
**Credits** 3

**PT 81100 - Cardiac Rehabilitation**

This course is designed to promote clinical reasoning skills in the examination, assessment, and intervention design for patients with cardiopulmonary dysfunctions. A series of lectures, demonstrations, and laboratory experiences will explore the issues related to the management of the patient with a cardiopulmonary disorder. Issues to be examined will include matters relating to professional behavior, scientific knowledge, clinical knowledge, critical analysis, and the competent performance of clinical interventions.

**prereq:** PT 70100, PT 70800
**Hours 3 hrs.**
**Credits 2 cr.**

**PT 81500 - Physical Therapy in Acute Care**

This course is designed to introduce the student to the knowledge and skills necessary for a physical therapist to function in the acute care hospital setting. The student will be introduced to the various patient populations in the acute care hospital and the various roles and responsibilities of the physical therapist in this complex setting.

**prereq:** PT 74000, PT 75200, PT 78000
**Hours** 2
**Credits** 1
PT 82000 - Differential Diagnosis and Intervention in Clinical Orthopedics II/Radiology and Imaging

Etiology and therapeutic management of selected orthopedic conditions of the upper extremity. Introduction to radiology and many of the imaging techniques used in the diagnosis of soft tissue injuries and pathological conditions.

prereq: PT 80800, PT 80900
Hours 3
Credits 3

PT 83000 - Orthotics and Prosthetics

This course is designed to orient the student to the role and responsibilities of the physical therapist in the field of prosthetics and orthotics. This course emphasizes advanced evaluation of normal and abnormal gait with implications for treatment intervention in order to prepare the student for working with amputees and patients requiring orthotics in the clinical setting.

prereq: PT 75200, PT 80500, PT 80800
Hours 2
Credits 2

PT 84000 - Differential Diagnosis and Intervention in Clinical Neurology

This course describes specific neurological systems and presents the clinical implications of disease or injury on each of these systems. Differential diagnosis of various peripheral nervous system and central nervous system disorders will be emphasized. The therapeutic management and scientific basis of various neurological conditions are addressed.

prereq: PT 80400, PT 80800
Hours 3
Credits 3

PT 85000 - Musculoskeletal Examination and Interventions II

Basic examination techniques utilizing selective tissue tension tests will be applied to clarify common upper extremity orthopedic diagnoses. Joint and soft tissue mobilization techniques and specific exercises will be applied as the Physical Therapy intervention for these diagnoses. Splinting for hands will be introduced. Spinal pathophysiology, back, school, work hardening programs and ergonomics will be presented.

prereq: PT 75200, PT 80300, PT 80500
Hours 5
Credits 3

PT 87000 - Health Promotion Through the Lifespan

This course defines the role of physical therapy in health prevention, promotion, and wellness. Wellness throughout the life span is emphasized through incorporating the interrelationships between physical activity, stress and mind-body connections and nutritional health.

prereq: PT 80600, PT 80700, PT 80900
Hours 2
Credits 2
PT 87200 - Topics in Physical Therapy

A course designed to cover clinical topics through lectures and laboratory classes taught by clinical specialists in physical therapy.

*prereq or coreq: Acceptance into the Doctor of Physical Therapy Program*
*Hours Variable (minimum of 15)*
*Credits Variable (minimum of 1)*

PT 88000 - Neurological Interventions II

Foundations, assessment procedures, and application of classical therapeutic exercise with a neurophysiological basis for the treatment of adult and pediatric disorders of the Central Nervous System, with emphasis on the techniques taught by the Bobaths (Neurodevelopmental Treatment).

*prereq: PT 81000*
*Hours 4*
*Credits 2*

PT 88100 - Seminar in Departmental Organization and Management

This course is designed to provide information and develop skills to manage an organized physical therapy service. There is an emphasis on effective management principles including organizational structure, human resource management, fiscal planning, department design, continuous quality improvement and risk management. The course will also describe the external environment of health care delivery, such as, government regulation, professional ethics and medical-legal issues.

*prereq: PT 80600, PT 82000, PT 84000*
*Hours 3*
*Credits 3*

PT 88200 - Pediatric Development and Assessment

Through lecture, laboratory experiences, discussion, videos and assigned readings, the student will be able to examine and understand normal and abnormal human development; theory and practice of physical therapy intervention in developmental disabilities.

*prereq: PT 70600, PT 74000, PT 75200, PT 80300*
*Hours 2*
*Credits 2*

PT 88300 - Pharmacology for PT and Systems Review

This course provides an overview of previously covered physiology and pathophysiology of different body systems and provides rationale for use of drugs and other available treatments in different diseases. Indications, contraindications, side effects of commonly used medications receiving physical therapy services are presented.

*prereq: PT 81000, PT 85000*
*Hours 3*
*Credits 3*
PT 88400 - Musculoskeletal Examination and Intervention III

Advanced management of the spine including selective tissue testing techniques. Selection of appropriate physical therapy interventions for individuals with spinal dysfunction (excluding spinal cord injury); ergonomics, joint and soft tissue mobilization; back exercise; and neural tension testing.

prereq: PT 80500, PT 82000, PT 85000
Hours 5
Credits 3

PT 88500 - Electrodiagnosis and Motion Analysis

This course provides the student with the physiological basis and techniques of the electrodiagnostic evaluation of the neuromuscular system through the use of nerve conduction studies and needle electromyography. Students learn the application of these techniques to the upper and lower extremities, and the interpretation of results/reports through case studies. Surface and needle kinesiological electromyographic recordings for research application will be examined.

prereq: PT 81000, PT 84000
Hours 2
Credits 2

PT 88600 - Clinical Experience II

This is the second of four clinical externship placements throughout the curriculum. A ten-week full-time placement is required for this clinical education experience. The purpose of the placement is to provide a hands-on patient care environment under the supervision of a licensed physical therapist. Clinical faculty serve as the direct instructors providing students with regular feedback. Students and CIs are monitored by the Director of Clinical Education (DCE) during this second clinical education experience.

prereq: PT 80600, PT 84000, PT 88200
Hours 10 weeks full-time
Credits 5

PT 88700 - Clinical Decision Making

This seminar will bring students together to integrate clinical decision making through case studies, case scenarios, administrative issues and the resolution of conflict within the workplace. Working together with faculty advisement and mentorship, students will process information in a manner that effectively helps to resolve conflict. Strategies for making clinical diagnosis will be discussed.

prereq: PT 80600, PT 84000, PT 85000
Hours 1
Credits 1

PT 88800 - Directed Research III: Manuscript Preparation

Complete the research project, compile results and discussion. Present project to mentors, faculty and peers. draft a manuscript for submission to a professional journal.

prereq: PT 88600
PT 88900 - Clinical Affiliation III

This is the third of four clinical internship placements throughout the curriculum.

prereq: PT 88600, PT 88800
Hours 9 weeks (full-time)
Credits 4.5

PT 89000 - Clinical Affiliation IV

This is the fourth of four clinical internship placements throughout the curriculum.

prereq: PT 88950
Hours 9 weeks (full-time)
Credits 4.5

PT 89500 - Directed Research IV: Presentation Tactics

Complete preparation of a publishable manuscript or other approved format following protocol in Guide for authors or other guidelines as distributed by the faculty.

prereq: PT 88800
Hours 15
Credits 1

PT 89800 - Biofeedback Interventions in Physical Therapy

This course will provide students with the opportunity to practice biofeedback as a physical therapy evaluation and intervention tool.

prereq: PT 88800
Hours 22.5
Credits 1

Physics First-level

PHYS 60500 - Mathematical Physics

Introduction to basic mathematical techniques used in physics.

Hours 45
Credits 3

PHYS 61500 - Electromagnetic Theory
Electrostatics; electromagnetics; Maxwell's equations with application to waves; waves in guides; radiation.

**PHYS 62100 - Electronics**

Fundamental ideas of electronic circuits with special emphasis on solid state devices.

*Hours 45  
Credits 3*

**PHYS 62500 - Introduction to Quantum Mechanics**

Fundamental ideas in the study of atomic sized systems.

*Hours 45  
Credits 3*

**PHYS 63000 - Science and Society**

Study of the interactions between technological and societal changes, with an emphasis on directing productive critiques and debates over potentially controversial technological change within the classroom. Focusing on present-day issues, students will learn various models of analyzing the impact of scientific change on society and how social change directs science.

*prereq: one graduate-level physics course or permission of instructor  
Hours 45  
Credits 3*

**PHYS 64500 - Solid State Physics**

Introduction to basic theory and techniques in study of matter on solid state.

*Hours 45  
Credits 3*

**PHYS 66000 - Challenging Concepts in Physics: Using Research to Identify Student Misconceptions and Assess Student Learning**

Overview of research and theory related to misconceptions in physics. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the comprehensive examination for the science portion of the MA degree.

*prereq: PHYS 63000 and two elective courses in physics or permission of instructor  
Hours 60  
Credits 4*

**PHYS 68500 - Numerical Methods I**
Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations.

Cross-listed (Cross-listed with MATH 68500.)

PHYS 69500 - Numerical Methods II

Topics in numerical methods selected from solutions of linear equations, interpolating functions, root finding methods, nonlinear equations, Fourier series and the fast Fourier transform, partial differential equations. A major term project

Cross-listed (Cross-listed with MATH 69500.)

PHYS U70100 - Mathematical Physics

Study of the basic mathematical techniques used in physics.

PHYS U70200 - Mathematical Physics

Study of the basic mathematical techniques used in physics.

PHYS U71100 - Analytical Dynamics

Study of advanced classical mechanics.

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.
PHYS U71500 - Electromagnetic Theory

Advanced concepts of static and time-dependent electromagnetic fields.

prereq or coreq: PHYS U70100
Hours 60 hrs,
Credits 4 cr
The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U71600 - Electromagnetic Theory

Advanced concepts of static and time-dependent electromagnetic fields.

prereq or coreq: PHYS U70100
Hours 60 hrs,
Credits 4 cr
The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U72500 - Quantum Mechanics

Basic study of quantum theory of matter including introduction to relativistic theory.

prereq or coreq: PHYS U70100
Hours 60 hrs,
Credits 4 cr
The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U72600 - Quantum Mechanics

Basic study of quantum theory of matter including introduction to relativistic theory.

prereq or coreq: PHYS U701
Hours 60 hrs,
Credits 4 cr
The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U74100 - Kinetic Theory and Statistical Mechanics

Study of physical properties of systems consisting of very large numbers of particles.

Hours 60 hrs,
Credits 4 cr
The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U77100 - Research or Independent Study
Research or independent study done under supervision of faculty member.

Hours 30-120 hrs,
Credits 1-4 cr
The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**PHYS U77200 - Research or Independent Study**

Research or independent study done under supervision of faculty member.

Hours 30-120 hrs,
Credits 1-4 cr
The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**PHYS U77300 - Research or Independent Study**

Research or independent study done under supervision of faculty member.

Hours 30-120 hrs,
Credits 1-4 cr
The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**Physics - courses offered according to student demand**

**PHYS U73800 - Introduction to Non-equilibrium Statistical Mechanics**

Course offered if demand is sufficient

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**PHYS U74500 - Solid State Physics**

Course offered if demand is sufficient

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**PHYS U74600 - Solid State Physics**

Course offered if demand is sufficient

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**PHYS U75700 - Astrophysics**
Course offered if demand is sufficient

The prefix “U” indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**PHYS 61100 - Analytical Mechanics**

Course offered if demand is sufficient

**PHYS 62400 - Plasma Physics**

Course offered if demand is sufficient

**PHYS 67100 - Modern Physics Laboratory**

Course offered if demand is sufficient

**Psychology 600-level**

Note: Ordinarily, no more than four 600-level courses may be credited toward the MA.

**PSYCH 60500 - Abnormal Psychology: Advanced Course (A)**

Covers facts and theories about the etiology of mental disorders; consideration of deviations commonly found in the population, such as mental retardation.

*prereq: Psych 22000 or 22300*

**PSYCH 63000 - Theories and Methods of Psychotherapy (A)**

Evolution of theories and methods of individual psychotherapy with a focus on central issues in the field.

*Hours 3 hrs including conference,
Credits 3 cr*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

**PSYCH 64100 - Comparative Psychology (B)**

Development and evolution of the behavior of various species, major theoretical issues, classic experiments, and contemporary research and theory.

*Hours 3 hrs including conference,
Credits 3 cr*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

**PSYCH 64600 - Physiological Psychology (B)**
The basics of neuroscience as sampled from the behavioral aspects. Topics covered include: structure and function of cells in the nervous system; neural communication: physiology and pharmacology; structure of the nervous system and endocrine system; research methods of physiological psychology; sensory and motor systems; aggressive behavior; anatomy of learning.

*Hours 3 hrs including conference*
*Credits 3 cr.*

*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.*

**PSYCH 65100 - Psychology of Small Groups (A)**

Therapeutic groups have experienced massive development and rapid spread: over ten million adults currently participate in the US. The course consists of a didactic part (including such topics as leadership, group structure and power, norm formation, and conditioning) as well as a clinical part (in which students participate both as potential leaders and clients). The aim is to familiarize students with group processes and an understanding of group dynamics.

*Hours 1 hr lecture, 2 hrs lab, incl conf.*
*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. Instructor's permission*

**PSYCH 65151 - Family and Couples System (A)**

Family and couples communication as seen through the lens of systems theory. Topics include interpersonal meanings and patterns, conflict, and barriers to intimacy. Conceptual material is complemented by real case examples and TV and film illustrations.

*Hours 3 hrs including conference*
*Credits 3 cr.*

*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.*

**PSYCH 67600 - Psychology of Personality (A)**

Frameworks for the study of personality, including classical psychoanalysis, American psychiatry, behaviorism, and phenomenology. Theorists studied include Freud, Adler, Jung, Sullivan, Dollard and Miller, Rogers, and Binswanger and Boss.

*Hours 3 hrs including conference*
*Credits 3 cr.*

*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.*

**PSYCH 68000 - Special Topics in Psychology**

Readings and discussion on a selected problem or topic area — varies from semester to semester.

*Hours 3 hrs including conference*
*Credits 3 cr.*

*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.*
PSYCH 69000 - Independent Research in Psychology

Designed to meet the research needs and interests of individual students under the direction of a faculty sponsor. This may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research. Projects culminate in an APA-style research report or literature review.

Hours 3 hrs.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

PSYCH 69100 - Independent Research in Psychology

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000, such as a literature review, a pilot study, or acquisition of a new research technique or skill.

Hours 1 hr.
Credits 1 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

PSYCH 69200 - Independent Research in Psychology

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000 but more extensive than that required for PSYCH 69100. This may involve a literature review, a pilot study, or acquisition of a new research technique or skill.

Hours 2 hrs.
Credits 2 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

Psychology 700-level

PSYCH 70100 - Advanced Experimental Psychology I

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study; examples are drawn primarily from perception, learning, cognition and animal behavior.

prereq: a graduate course in statistics
Hours 2 hrs lecture, 2 hrs lab,
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.
PSYCH 70200 - Proseminar in Psychology

An introduction to theoretical concepts and methods of research across a variety of content areas within psychology. Areas include social, personality and health psychology; development and cognition; sensory and developmental neuroscience; animal behavior and learning; applied research, including clinical theory. The course is team-taught by three faculty members and features guest lectures by other Hunter College faculty and the occasional outside expert.

*Hours 3 hrs including conference
*Credits 3 cr
*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70500 - Statistical Methods in Psychology I

Covers descriptive statistics and inferential methods, including t-tests, analyses of variance, correlation, simple regression, and an introduction to multiple regression. Some assignments require the use of a statistical computer package.

*prereq: PSYCH 24800 or equivalent
*Hours 2 hrs lecture, 2 hrs conf or lab,
*Credits 3 cr.
*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70600 - Statistical Methods in Psychology II

Covers advanced topics in statistics, including multivariate analysis, multiple regression, analysis of variance for complex designs, and analysis of covariance.

*prereq: PSYCH 70500

PSYCH 70701 - Thesis Research

Individual research conducted under the supervision of a department faculty member, whose written permission must be obtained. Limited to students working on their MA thesis.

*prereq: PSYCH 70500 and 70100 or 74700 approved research topic and permission of a faculty sponsor
*Hours 3 hrs including conference
*Credits 3 cr.
*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70702 - Thesis Research

Additional semester of individual research under the supervision of a department faculty member. A formally approved Thesis Proposal and written approval from the faculty sponsor is required.

*prereq: PSYCH 70701
PSYCH 71000 - Advanced Physiological Psychology I (Neuroscience I) (B)

An introduction to fundamental methodology in neuroscience research and a focus on the functioning of individual neurons and communication between neurons. This team-taught course is part of a two-term sequence covering fundamental concepts in neuroscience.

Instructor's permission. Neuroscience I is not a prerequisite for Neuroscience II.

PSYCH 71100 - Advanced Physiological Psychology II (Neuroscience II) (B)

Topics in neuroscience, including development of neural patterns, cellular differentiation, pathways and synaptic connections, the genetics of neural development, neural sexual differentiation, neural plasticity and endocrine factors, somatosensation, motor systems, and vision.

Instructor's permission.

PSYCH 71600 - Animal Behavior I: Mechanisms of Behavior (B)

History of approaches to animal behavior; behavior development; proximate causation of behavior (motivation, neuroethology, and biorhythms); animal orientation and communication; cognitive ethology and culture.

Instructor's permission.

PSYCH 71700 - Animal Behavior and Conservation in Captivity and the Wild (B)

Introduces concepts and techniques of wildlife biology and comparative psychology, with contributions from researchers in social behavior, reproductive biology, wildlife conservation, captive breeding, and animal cognition and communication.

Instructor's permission.
PSYCH 71751 - Field Study in Animal Behavior and Conservation (B)

Observation and study of the behavior of animals in their natural environment and application of techniques of observation and data analysis.

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

instructor's permission

PSYCH 71800 - Ethology (Animal Behavior II – Behavioral Ecology) (B)

Examines behavioral genetics, which covers the importance of single-gene effects, polygenic behavioral traits, and the utility of the concept of heritability; behavioral evolution, which covers the methods of elucidating the phylogeny of behavior when fossil evidence is not available; behavioral ecology, which focuses on mating systems, territorial behavior, feeding strategies, antipredatory behavior, and sociobiology.

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

instructor's permission

PSYCH 72000 - Developmental Psychology I (S)

Topics in development, including pre- and perinatal influences on development, learning, cognition, and aggression. The course uses a variety of perspectives to examine issues in development.

Hours 3 hrs including conference
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 73000 - Psychology of Learning (B)

Contemporary phenomena and theories about learning and behavior, including both animal and human examples of learning phenomena with a focus on basic processes.

PSYCH 73700 - Cognitive Development (S)

The development of cognition, i.e., the development of higher mental processes. Areas covered include infancy, conceptual development, memory, social cognition, and language.

Hours 3 hrs including conference
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 73800 - Cognitive Psychology (S)
A theoretical and experimental overview of cognitive psychology. Topics include cognitive architecture, attention, pattern recognition, memory, language processing, and representation of knowledge.

*Hours 3 hrs including conference.*
*Credits 3 cr.*
*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.*

**PSYCH 73900 - Research Methods in Animal Behavior (A, B)**

Designed to develop skills required for the study of animal behavior, such as procedures for obtaining data in laboratories or in captive and natural environments; includes observational techniques, single-subject designs, issues of reliability and external validity, non-parametric statistics.

*Hours 2 hrs lecture, 2 hrs lab.*
*Credits 3 cr.*
*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.*

**PSYCH 74200 - Contemporary Psychoanalytic Theories (A)**

An exploration of the British object relations theorists and their influence on contemporary psychoanalytic approaches. Students should have some background in basic psychoanalytic theory.

*prereq: PSYCH 22000 or 67600, and PSYCH 22300 or permission of the instructor*
*Hours 3 hrs including conference.*
*Credits 3 cr.*
*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.*

**PSYCH 74400 - Stress, Trauma, and Resilience**

This course covers the interrelated topics of stress, trauma, and resilience. It uses a clinical science perspective to emphasize both normative (healthy) and problematic physiological and psychological responses to stress and trauma, as well as factors that influence resilience. Students are expected to have a working knowledge of abnormal psychology and research methods. Students will be expected to have completed Research Methods and Abnormal Psychology.

*prereq: Permission of the Graduate Advisor*
*Hours 3 hrs*
*Credits 3 cr.*

**PSYCH 74600 - Social Psychology (S)**

An advanced overview of the field, includes a focus on: the development of social psychological theory; beliefs, attitudes, and social behavior; stereotyping and prejudice; influencing attitudes and changing behavior; interpersonal perception; the self and social identity; social interaction and interpersonal relationships; group dynamics; and implications of social psychology for understanding society.

*Hours 3 hrs including conference.*
*Credits 3 cr.*
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 74700 - Experimental Social Psychology**

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study. Examples are drawn primarily from social and cognitive psychology. Topics include reading and writing journal quality research reports; ethics; single and multi factor designs; small-n designs; quasi-experimental designs; survey research; laboratory and field research; observational techniques; correlational research.

*prereq: a graduate course in statistics  
Hours 2 hrs lecture, 2 hrs lab.  
Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 74800 - Psychological Theories of Ethnic and Cultural Identity (S)**

Current research and theory on ethnic and racial identity development, including components of ethnic/racial/cultural identity; historical and conceptual issues; the state of theory and research on ethnic identity as it pertains to particular ethnic groups; racial and ethnic socialization; language and ethnic identity; applications of the ethnic identity construct.

*Hours 3 hrs including conference.  
Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 75000 - Special Topics in Psychology**

Readings and discussion on a selected problem or topic area – varies from semester to semester.

*Hours 3 hrs including conference.  
Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 75103 - Basic Psychological Processes 1: Perception, Learning and Comparative Cognition (S, B)**

Covers the basic concepts in perception, learning and comparative psychology. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

*Hours 3 hrs including conference.  
Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 75104 - Basic Psychological Processes 2: Development, Cognition and Language (S)**
Covers the basic concepts in memory, language and cognitive development. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75300 - Attitudes and Attitude Change (S)

Covers traditional and current theory and research on attitudes and persuasion in social psychology, including attitude formation, structure, and measurement; the link between attitudes and behavior; prejudice and discrimination; and persuasion theories including cognitive dissonance, message learning, fear appeals, and elaboration likelihood.

Hours 3 hrs including conference,
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75400 - Applied Animal Welfare & Behavior (B)

Fundamental principles of animal behavior discussed in context of their applications to captive animal management (in laboratories, farms, zoos, aquariums, and shelters), animal welfare, and conservation. Programmatic approaches to animal care (e.g. enrichment and training) and animal welfare assessment tools will be described and evaluated.

PSYCH 75500 - Psychopathology I (A)

Familiarizes students with thinking and research about diagnosis, etiology, course and treatment of abnormal behavior. Topics covered include diagnosis and the principles and techniques of assessment; research methodology (experimental and correlational); the schizophrenias, mood disorders, neuroses, personality disorders, and stress reactions.

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75700 - Animal Thinking and Communication (S, B)

This course focuses on animal cognition and communication from the perspectives of communication theory, animal behavior, cognitive ethology and comparative cognition. Research on chimpanzees, dolphins, elephants, parrots and other animals will be covered.

prereq: PSYCH 71700 or permission of instructor or of Animal Behavior and Conservation Coordinator

Hours 3 hrs.
Credits 3 cr.

PSYCH 75800 - Conservation Biology/Psychology

An understanding of biodiversity, human impacts on biodiversity, the theory and practice of maintaining biodiversity in a developing world, and the social psychology of motivating action to protect nature. Special emphasis will be placed
on how human and animal behavior threatens biodiversity. This course serves a basis for more specialized courses and provides the framework within which behavioral studies are implemented to inform conservation action with special consideration of factors that influence desire and willingness to take such actions.

prereq: Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

Hours 3 hrs. including conferences
Credits 3 cr.

PSYCH 78400 - Colloquium in Animal Behavior and Biopsychology

The fall colloquium is organized by doctoral students in the Biopsychology, Behavioral Neuroscience program and includes presentations on a variety of topics by students, faculty and outside speakers. The spring colloquium is a themed set of symposia in which distinguished visiting scientists discuss their work in relation to current issues in the field.

Hours 1 hr.
Credits 1 cr.

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

instructor's permission

Psychology: Courses not offered on a regular basis

PSYCH 70000 - History of Psychology
PSYCH 70400 - Instrumentation in Experimental Psychology
PSYCH 72100 - Developmental Psychology II
PSYCH 73500 - Psychology of Perception
PSYCH 73600 - Sensory Perception
PSYCH 74000 - Personality
PSYCH 74100 - Evolution of Psychoanalytic Theory
PSYCH 75003 - Comparative Cognition and Learning
PSYCH 75200 - Language and Thought
PSYCH 75600 - Psychopathology II
PSYCH 76000 - Psychometric Methods
PSYCH 76100 - Measurement of Abilities
PSYCH 76300 - Psychophysical Methods
PSYCH 76400 - Personality Measurement I
PSYCH 76500 - Personality Measurement II: Projective Techniques
PSYCH 78000 - Quantitative Methods in Psychology
PSYCH 78300 - Mathematical Models in Psychology
PSYCH 79000 - Experimental Psychopharmacology

Public Affairs: Baruch College Courses

PAF 91000 - Introduction to Public Affairs

Systematic study of the institutions Americans have developed to pursue the public interest; government, markets, nonprofit organizations, the family. Overview of political economy, institutions, and culture; the policy process; role of values and ethics.

PAF 91030 - Communication in Public Settings

Introduces students to communication in public settings and provides extensive opportunities for practice with basic written and oral forms. Interrelationships among communicative activities and organizational goals. Internal and external messages are given equal weight. Argumentative structures necessary for constructing sound policy and persuasive techniques relevant to funding, regulation, client, and public constituencies. Topics will vary somewhat from semester to semester depending on the instructor's and students' interests. The course follows a workshop/laboratory format with intensive attention to student work as a fulcrum for the application of theory and refinement of skills.

PAF 91200 - Managing Organizations in the Public and Not-for-Profit Sectors

Fundamental concepts and techniques for managing government and not-for-profit agencies, including schools. This course focuses on structural models, individual behavior, including group dynamics and leadership, and political and cultural frameworks. Questions of effectiveness, responsibility, and professional relations are considered.

PAF 91230 - Program Evaluation

Examination of the process and techniques of program evaluation and the assessment of effectiveness of public sector policies. Various performance assessment criteria, problems of evaluation research, and the politics of program evaluation are reviewed.
PAF 91300 - Economic Analysis and Public Policy

Introduction to concepts and analytic tools necessary to economic examination of individual and firm behavior; analysis of causes and consequences of public sector intervention in the economy.

PAF 91400 - Budgeting, Accounting and Financial Analysis

Introduction to budgeting, accounting and financial analysis. Overview of the context of budgeting in the government decision process and analysis of the fiscal cycle through budget development, implementation, and review. Incorporates basic accounting concepts and information presentation and retrieval skills.

PAF 91700 - Research and Analysis I

The first course in a two-course sequence (the second course is PAF 91720) that provides an introduction to research and analytical methods as applied to public policy and management. Students will develop expertise as consumers of research findings and learn methods for designing and conducting research. This first course provides an introduction to data analysis and statistical inference, with an emphasis on policy and management applications. Topics include graphing and numerical summaries, normal distributions, descriptive correlation and regression, basic probability and sampling distributions, confidence intervals, significance tests, chi-square tests, and inference for regression. Students learn these techniques through hands-on work with real data and statistical software.

PAF 91720 - Research and Analysis II

This course is the second in a two-course sequence that provides an introduction to research and analytical methods as applied to public policy and management. Students will develop expertise as consumers of research findings and learn methods for designing and conducting research.

PAF 91800 - Policy Analysis

Overview of the use of analytic techniques in solving public sector problems and designing government programs. Topics include agenda setting, approaches to problem solving, the role of values in policy making and policy analysis, policy-relevant data collection and analysis, principles of benefit-cost analysis, techniques of policy analysis (e.g., queuing, simulations, formal modeling), strategies for policy adoption and implementation, and the politics of policy analysis.

PAF 97350 - Health Politics and Policymaking

This course examines the evolution of the major governmental programs involved with health insurance and health care in the United States. The goal is an understanding of the political dynamics that lead to successes and failures in health policymaking, and the development of strategies that can be used by governmental and non-governmental actors to accomplish policy change.
Public Health Required Courses

EPI 76000 - Modeling and Making the Most of your Data with R

This course will provide students with a toolkit for making the most of their data using R when appropriate. This course will consolidate many of the skills previously taught in data analysis and modeling. It will focus on the practical application of these skills throughout the lifecycle of a research project, and provide illustrations and applications of relevant techniques in R. It will provide grounding in the use of R.

prereq: EPI75100 (Epidemiological Methods II) and BIOS75100 (Applied Biostatistics II)
Open to MPH and EOHS-MS or departmental permission.
Hours 3 hrs
Credits 3 cr.

EPI 76100 - Psychiatric and Mental Health Epidemiology

An introduction to the epidemiology of mental health and mental illness. This course takes an explicit epidemiologic perspective, focusing on the study of the burden and determinants of mental illness. It reviews the extant literature on the epidemiology of specific disorders and evaluates studies that investigate risk factors for mental illness. We will consider methodologic challenges involved in the study of mental health and illness such as limitations to diagnostic techniques and screening instruments and issues surrounding co-morbidity. The course will also address the social consequences of mental illness, and consider how we may apply epidemiologic methods to promoting psychological wellbeing in the general population.

prereq: EPI 75000 (Epidemiological Methods I) or equivalent
Open to MPH and EOHS-MS or departmental permission.
recommended prereq or coreq: experience with statistical software (e.g., SPSS, SAS or STATA) preferred but not required
Hours 3 hrs
Credits 3 cr.

EPI 76200 - Life Course Epidemiology

Provides a theoretical framework as to how life-course exposures affect vulnerability to disease, knowledge about life course influences on selected diseases and the implications for prevention and control. This course will also consider how intra- and inter-generational influences may be relevant to disparities in health. Readings will address empirical patterns, prevailing theories and controversies regarding life course influences, as well as addressing interventions or policies that may be applied to improve population health.

prereq: EPI 75000 (Epidemiological Methods I)
Open to MPH and EOHS-MS or departmental permission.
Hours 3 hrs
Credits 3 cr.

EPI 76300 - Public Health Surveillance
Public health surveillance is the fundamental mechanism that public health agencies use to monitor the health of the communities they serve. It is a core function of public health practice, and its purpose is to provide a factual basis from which agencies can appropriately set priorities, plan programs, and take actions to identify and reduce disparities, promote, and protect the public's health. This course will cover the principles of public health surveillance, including historical context, vital registration, disease reporting regulations and notifiable diseases, surveillance registries, surveillance for behaviors and risk factors, administrative data sources in surveillance, epidemiologic uses of surveillance data, legal and ethical issues, and dissemination of surveillance information.

prereq: PH 75300 (Principles of Epidemiology), PH 75200 (Introduction to Epidemiology), PH 75100 (Principles of Biostatistics), PH 75000 (Introduction to Biostatistics)
Open to MPH and EOHS-MS or departmental permission.
Hours 3 hrs
Credits 3 cr.

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.
Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.
Hours 3
Credits 3

PH 75300 - Principles of Epidemiology

A first-level requirement for student specializing in EPI-BIOS, who will take subsequent intermediate and advanced level epidemiology courses. It will introduce students to epidemiologic theory, principles, methods and measures commonly used in public health.

prereq or coreq: PH 75100
Hours 3
Credits 3

PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.
**Hours 3**  
**Credits 3**

**PH 75600 - Fundamentals of Health Policy and Management**

Examination of the organization, delivery and financing of health care in the United States as it pertains to the health policy-making process, including the organization of the agencies and personnel constituting the health care system, and analysis of government structure, laws, and regulations. Theoretical concepts, practice, and implementation of health programs in organized settings, including the planning, administration, management, evaluation, and policy analysis of public health agencies and private sector managed care.

*prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.*

**Public Health Elective and Concentration Courses**

All courses are 3 credits unless otherwise noted.

**EPI 77200 - Topics Emerging in Epidemiology**

This short course brings leading experts into classrooms to teach emerging methods in epidemiology, study controversial topics, or provide a rapid immersion into a specialized topic. Each course combines didactic teaching with applied hands-on training.

*prereq: PH75000 (Introduction to Biostatistics)/PH75100 (Principles of Biostatistics) and PH75200 (Introduction to Epidemiology)/PH75300 (Principles of Epidemiology)  
Open to MPH and EOHS-MS or departmental permission.*

**Public Health Policy and Management Required Courses**

**HPM 75000 - Public Health Management**

Focuses on management issues in a variety of organizational settings and the larger public health environment; describes managerial functions and problem solving strategies, financial management principles, and management models for change; develops specific skills in program management, budgeting, workforce development, and managing intersectoral programs.

*prereq: PH 75500, PH 75600*

**HPM 75100 - Public Health and Health Care Law**

Reviews key areas of the legal process relevant to health care delivery and public health; analyzes major court decisions that have affected the field and selected federal, state and local statutes that affect public health and health care practice; acquaints students with the basics of legal research and legal reasoning as applied to public health and
health care.

prereq or coreq: PH 75500, PH 75600 or with instructor's permission for those with at least one year of health care experience

HPM 75200 - Comparative Analyses of Urban Health Care Systems

Examines unique challenges and opportunities for delivering health care in developed and developing world cities; analyses impact of national and local policies and social and political factors on health care access, quality and outcomes; introduces empirical methods for making comparative studies across municipalities and nations.

prereq: PH 75500, PH 75600
Students can take this course or HPM 75400

HPM 75300 - Public Health Policy Analysis

Examines common approaches and concepts of policy analysis for public health, including market efficiency and failures, cost-benefit analysis, problem and decision making analysis; describes critiques of such models with public health examples; focuses on the Health Impact Assessment as a method for analyzing costs and benefits of health and non-health policies.

prereq: PH 75500, PH 75600

HPM 75400 - Public Health Advocacy

Prepares students to advocate for policies that promote public health, develops skills in planning and implementing advocacy campaigns; assess theories on role of coalitions and advocacy in changing health policy.

prereq: PH 75500, PH 75600
Students can take this course or HPM 75200

HPM 75500 - Health Economics

This course in health economics introduces students to essential microeconomic concepts as they apply to health systems, individual and public health.

prereq: Recommended pre-req: PH 75500, PH 75600

Public Health Policy and Management Elective Courses

HPM 77000 - Topics in Public Health Policy and Management

Courses on current topics in public health policy and management.

Offered periodically

Romance Languages
RLNG 70100 - Introduction to Romance Linguistics I

Comparative study of evolution of French, Italian, and Spanish.

Hours 30 hrs plus conferences,
Credits 3 cr
(Required for MA in Arts and Sciences, if RLNG 70200 is not taken.)

RLNG 70200 - Introduction to Romance Linguistics II

Development of phonology and morphology. Schools and theories of Romance linguistics.

Hours 30 hrs plus conferences,
Credits 3 cr
May be taken independently of RLNG 70100.

French

FREN 70100 - History of the French Language

Hours 30 hrs plus conferences,
Credits 3 cr

FREN 72100 - French Poetry of 16th Century Classical and Italian Influences

The Lyons poets, the Pléiade, Protestant poets.

Hours 30 hrs plus conferences,
Credits 3 cr

FREN 72500 - Main Currents of French Renaissance

Study of different aspects of French Renaissance in the works of major authors.

Hours 30 hrs plus conferences,
Credits 3 cr

FREN 73200 - French Tragedy of 17th Century

Study of characteristics of French tragic theatre from Baroque to Classicism. Emphasis on plays and prefaces of Corneille and Racine.

Hours 30 hrs plus conferences,
Credits 3 cr
FREN 73300 - Theatre of Molière

Analysis of major plays. Discussion of theatrical life of the period.

Hours 30 hrs plus conferences,  
Credits 3 cr

FREN 73400 - French Moralists of Classical Period

Works by such authors as La Rochefoucauld, Bossuet, La Fontaine, Madame de Sévigné, Fénélon, La Bruyère, Saint-Simon.

Hours 30 hrs plus conferences,  
Credits 3 cr

FREN 74100 - Diderot

Study of novels and aesthetic and philosophical theories. Diderot's influence through the Encyclopédie.

Hours 30 hrs plus conferences,  
Credits 3 cr

FREN 75300 - Balzac and Stendhal

Major novels of Balzac and Stendhal. Comparative analysis of their themes, and narrative techniques. Study of intellectual, social and political trends of the period.

Hours 30 hrs plus conferences,  
Credits 3 cr

FREN 75400 - Flaubert, Zola, and Maupassant

Analysis of selected works. Study of Realism and Naturalism and their impact on French fiction.

Hours 30 hrs plus conferences,  
Credits 3 cr

FREN 75500 - French Fiction from Romanticism to the Decadence

Hours 30 hrs plus conferences,  
Credits 3 cr

FREN 75600 - 19th-Century French Theatre

Main trends from Melodrama to Théâtre Libre. Readings from Pixérécourt, Hugo, Vigny, Musset, Scribe, Labiche, Dumas fils, Sardou, Becque, Feydeau, Maeterlinck, Courteline. Study of dramatic theory and styles of theatrical production.
**FREN 76000 - Aspects of 20th-Century French Fiction**

Analysis and discussion of novels by Mauriac, Duhamel, Alain-Fournier, Rolland, Colette, Saint-Exupéry, Malraux, Sartre, Camus and le Nouveau roman.

*Hours 30 hrs plus conferences,  
Credits 3 cr  
(For Gide and Proust, see FREN 76100.)*

**FREN 76100 - Gide and Proust**

Analysis of authors' major fiction. Study of their style and creative process.

*Hours 30 hrs plus conferences,  
Credits 3 cr*

**FREN 76500 - Aspects of Modern French Theatre**

Analysis and discussion of plays by such authors as Claudel, Giraudoux, Romain, Montherlant, Anouilh, Sartre, Camus, Beckett, Ionesco, Duras.

*Hours 30 hrs plus conferences,  
Credits 3 cr*

**FREN 79100 - Special Topics in French Literature**

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,  
Credits 3 cr*

**FREN 79200 - Special Topics in French Literature**

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,  
Credits 3 cr*

**FREN 79300 - Special Topics in French Literature**

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,  
Credits 3 cr*

**FREN 794000 - Special Topics in French Literature**
Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,*
*Credits 3 cr*

**FREN 79500 - Special Topics in French Literature**

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,*
*Credits 3 cr*

**FREN 79600 - Special Topics in French Literature**

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,*
*Credits 3 cr*

**FREN 79700 - Special Topics in French Literature**

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,*
*Credits 3 cr*

**FREN 79800 - Special Topics in French Literature**

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,*
*Credits 3 cr*

**FREN 79900 - Special Topics in French Literature**

Study of particular writer, trend, or perspective in French literature. Topics to be announced in advance.

*Hours 30 hrs plus conferences,*
*Credits 3 cr*

**FREN 79903 - Independent Study in French Literature**

**French: Courses offered only if student demand is sufficient**

**FREN 60000 - Basic Course in French for Graduate Students**

**FREN 61100 - Explication de Texte**
FREN 62100 - Genre Studies I: French Poetry
FREN 62200 - Genre Studies II: The Theatre in France
FREN 62300 - Genre Studies III: The French Novel
FREN 62400 - Literature of Ideas
FREN 70200 - Studies in French Criticism
FREN 70800 - Methods of Research
FREN 71100 - Medieval French Literature
FREN 71200 - Medieval French Literature II
FREN 72200 - Rabelais and Montaigne
FREN 73100 - Descartes and Pascal
FREN 74200 - Voltaire and Rousseau
FREN 75000 - Era of Chateaubriand
FREN 75100 - Romanticism and the Parnasse
FREN 75200 - French Poetry from Baudelaire to Symbolism
FREN 76300 - Major Currents of Modern French Poetry

Italian

ITAL 70100 - History of the Italian Language

Hours 30 hrs plus conferences,
Credits 3 cr

ITAL 70200 - Italian Stylistics and Rhetoric

History of Italian rhetoric art and stylistics applied to literary text.

Hours 30 hrs plus conferences,
Credits 3 cr
ITAL 7100 - Italian Literature from its Origins to 13th Century

*Hours 30 hrs plus conferences,*
*Credits 3 cr*

ITAL 71200 - Dante's Vita nuova and Inferno

Dante's works in the political and intellectual context of Medieval Europe.

*Hours 30 hrs plus conferences,*
*Credits 3 cr*

ITAL 71300 - Dante's Purgatorio

Intensive study of the cantica's background, symbolism, poetical significance and content.

*Hours 30 hrs plus conferences,*
*Credits 3 cr*

ITAL 71400 - Dante's Paradiso

A study of the Paradiso's poetics, its theo-philosophical and cosmological content.

*Hours 30 hrs plus conferences,*
*Credits 3 cr*

ITAL 71500 - Poetry and Humanism of Petrarch

*Hours 30 hrs plus conferences,*
*Credits 3 cr*

ITAL 71600 - Boccaccio's Decameron and Other Works

*Hours 30 hrs plus conferences,*
*Credits 3 cr*

ITAL 72000 - Dante's Prose Works

Literary, historical and philosophical analysis of Vita nuova, Convivio, De vulgari eloquentia and Monarchia.

*Hours 30 hrs plus conferences,*
*Credits 3 cr*

ITAL 72100 - Ariosto

Analysis of Orlando furioso, Satire and theatre.

*Hours 30 hrs plus conferences,*
*Credits 3 cr*
ITAL 72200 - Machiavelli: Political Theorist and Moralist

Study of Istorie fiorentine, Lettere, Mandragola, Principe and Discorsi.

Hours 30 hrs plus conferences,
Credits 3 cr

ITAL 72500 - Tasso's Gerusalemme liberata

Study of Tasso's epic poem and related linguistic, historical and philosophical issues.

Hours 30 hrs plus conferences,
Credits 3 cr

ITAL 72600 - Italian Theatre I – From Machiavelli to Alfieri

Study of Renaissance comedy, Commedia dell'arte, Goldoni, Alfieri.

Hours 30 hrs plus conferences,
Credits 3 cr

ITAL 72700 - Italian Theatre II – From Manzoni to Contemporaries

Study of theatre from Risorgimento to D'Annunzio, Pirandello and contemporary playwrights.

Hours 30 hrs plus conferences,
Credits 3 cr

ITAL 75200 - Art and Humanism of Manzoni

Study of the Promessi sposi and poetic, dramatic, and critical works.

Hours 30 hrs plus conferences,
Credits 3 cr

ITAL 75400 - Carducci, D'Annunzio, Pascoli

Representative poetic, dramatic and narrative works.

Hours 30 hrs plus conferences,
Credits 3 cr

ITAL 75500 - Leopardi

Study of poetry and prose. Art of Leopardi in Italian and European context.

Hours 30 hrs plus conferences,
Credits 3 cr

ITAL 76000 - Independent Research in Italian Literature
ITAL 76300 - Modern Italian Novel From Verga's I Malavoglia to Novels of Moravia

Novel and modern Italian society; novel as art form in the 20th century.

ITAL 76400 - Modern Italian Poetry

From Pascoli to the present. Particular attention to Ungaretti, Montale, Quasimodo, and Spaziani.

ITAL 76500 - Croce and His Contemporaries

Study of impact of Croce and his contemporaries on Italian literature, philosophy, and theory of history.

ITAL 79300 - Special Topics in Italian Literature

ITAL 79900 - Thesis Seminar

Individual research under guidance of faculty member. To be taken concurrently with preparation of master's essay.

Italian: Courses offered only if student demand is sufficient

ITAL 71000 - Dante's Inferno

ITAL 72300 - Poets, Philosophers, Historians and Scientists of the Baroque

ITAL 72400 - Lorenzo de' Medici and His Circle

ITAL 75100 - Pre-Risorgimento Period

ITAL 75300 - Foscolo and Leopardi
ITAL 75600 - Neoclassical Tradition from Parini to D'Annunzio

ITAL 76200 - Italian Novel and Theatre Since 1900

ITAL 79100 - Studies in History of Italian Theatre

Spanish

SPAN 60100 - Advanced to Superior Spanish Grammar & Writing

SPAN 601 is designed to foster the transition from Advanced to Superior level writing ability as defined by the American Council on the Teaching of Foreign Language (i.e., descriptions, narrations, and expositions to essays consisting of analyses and argumentation) in Spanish. Multiple readings on topics of current and general interest (education, immigration/multiculturalism, gender/the family, power/politics, communication, nature/technology and science) are analyzed to serve as models for assignments consisting of brief but formal academic papers. SPAN 601 also emphasizes Superior level grammar, linguistic functions, and stylistic and rhetorical conventions.

Hours 3 hrs
Credits 3 cr.

SPAN 70100 - History of the Spanish Language

Hours 30 hrs plus conferences,
Credits 3 cr

SPAN 70400 - Spanish Theatre from the 19th Century to the Present

Hours 30 hrs plus conferences,
Credits 3 cr

SPAN 70500 - Lyric Poetry from Garcilaso to Gongora

Main currents in Spanish poetry during Renaissance, Counter-Reformation, and Baroque periods.

Hours 30 hrs plus conferences,
Credits 3 cr

SPAN 71100 - Spanish Poetry of Middle Ages

Origins and development of Castilian epic and of lyric poetry, with special emphasis on Poema del Cid and Libro de buen amor.

Hours 30 hrs plus conferences,
Credits 3 cr

SPAN 72000 - Spanish Novel of 16th and 17th Centuries
Genesis and main forms of novel in Renaissance and Baroque periods with special emphasis on picaresque novel.

Hours 30 hrs plus conferences,
Credits 3 cr

**SPAN 72200 - Cervantes' Don Quixote**

Analysis and interpretation of content and structure of Don Quixote, Cervantes' significance as creator of modern novel.

Hours 30 hrs plus conferences,
Credits 3 cr

**SPAN 72500 - Spanish Comedia**

Dramatic art of Golden Age from Lope de Vega to Calderón de la Barca. Patterns, style, and influence in world literature.

Hours 30 hrs plus conferences,
Credits 3 cr

**SPAN 73000 - Spanish Neoclassic Poetry and Essay**

New currents in Spanish thought and poetry through 18th century.

Hours 30 hrs plus conferences,
Credits 3 cr

**SPAN 74200 - Realism and Naturalism in the Spanish Novel of 19th Century**

Development of modern fiction from Costumbrismo to second generation of Naturalistic novelists. Special emphasis on work and significance of Pérez Galdós.

Hours 30 hrs plus conferences,
Credits 3 cr

**SPAN 75000 - Contemporary Spanish Poetry**

Trends in Spanish poetry from Generation of 1898 to Existentialism.

Hours 30 hrs plus conferences,
Credits 3 cr

**SPAN 75100 - Romantic Poetry from Rivas to Bécquer**

Distinctive features of Romantic movement in Spain as manifested in work of main Romantic and post-Romantic poets.

Hours 30 hrs plus conferences,
Credits 3 cr
SPAN 75600 - The Contemporary Spanish Novel

Main currents, types, and representative authors of modern Spanish fiction from Naturalism to present.

*Hours 30 hrs plus conferences,*  
*Credits 3 cr*

SPAN 76000 - Spanish-American Literature: The Colonial Period

From early chroniclers of Indies to Neoclassicism.

*Hours 30 hrs plus conferences,*  
*Credits 3 cr*

SPAN 76300 - Spanish-American Fiction I: From Origins through Modernista Novel

Lizardi's El Periquillo sarniento, Romanticism, Realism, Naturalism, and Modernismo.

*Hours 30 hrs plus conferences,*  
*Credits 3 cr*

SPAN 76400 - Spanish-American Fiction II: From "The Novel of the Mexican Revolution" to the Present

Development of Spanish-American novel and short story since Modernismo.

*Hours 30 hrs plus conferences,*  
*Credits 3 cr*

Spanish-American poetry from La Independencia to World War I. Attention paid to development of prosa artística during Modernista period.

*Hours 30 hrs plus conferences,*  
*Credits 3 cr*

SPAN 76600 - Spanish-American Poetry II: From Post-Modernismo to the Present

Post-Modernismo, Vanguardism, most recent trends.

*Hours 30 hrs plus conferences,*  
*Credits 3 cr*

SPAN 76800 - The Literature of Memory in Latin America

The course studies literary and filmic texts shaped by the upheavals of the period of military dictatorships in Latin America, from the late 1970s through the 1990s. Some of the questions raised by this rich corpus are the following: How can political violence be represented artistically? What are the limits, ethical and otherwise, of such
representations? How does memory shape and define our understanding of traumatic historical events? After devastation, how can literary and filmic texts contribute to mourning and community building?

prereq: Open only to students in the Master's Degree in Spanish and Teacher Education Program (TEP) in Spanish
Hours 3 hrs
Credits 3 cr.

SPAN 76900 - Spanish-American Theatre I

Spanish-American theatre from pre-Columbian times through the mid-19th century. Development of colonial theatre. Main theatrical productions which led to the Spanish-American theatre of the Enlightenment, the Independence movements, and the Romantics.

Hours 30 hrs plus conferences,
Credits 3 cr

SPAN 77000 - Spanish-American Theatre II

Continuation of SPAN 769. Study of main theatrical currents in Spanish America from the second part of the 19th century to the present.

Hours 30 hrs plus conferences,
Credits 3 cr

SPAN 77700 - Spanish-American Thought I

The development of the key ideas which led to Spanish-American independence, the formation of its nations, and the principles which characterized their evolution and their identity up to the late 19th century.

Hours 30 hrs plus conferences,
Credits 3 cr

SPAN 77800 - Spanish-American Thought II

Continuation of SPAN 777. Study of the main currents of thought that led to the present characteristics of Spanish America from the end of the 19th century to the present.

Hours 30 hrs plus conferences,
Credits 3 cr

SPAN 79100 - Special Studies in Spanish Literature

Advanced seminar for intensive study of particular writer, trend, specialized problem of language or literature under guidance of specialist. Research and critical analysis as well as appraisal of secondary and primary sources.

Hours 30 hrs plus conferences,
Credits 3 cr

SPAN 79600 - Special Studies in Spanish-American Literature
Advanced seminar for intensive study of particular writer, trend, specialized problem of language or literature under guidance of specialist. Research and critical analysis as well as appraisal of secondary and primary sources.

Hours 30 hrs plus conferences,  
Credits 3 cr

Spanish: Courses offered only if student demand is sufficient

SPAN 61100 - Literature of the Spanish Renaissance and the Counter-Reformation  
SPAN 61200 - Major Authors of Spanish Baroque  
SPAN 61400 - Spanish Literature of 19th Century  
SPAN 61500 - Contemporary Spanish Literature  
SPAN 61600 - Spanish-American Literature from Its Origin Through Romanticism and Realism  
SPAN 61700 - Spanish-American Literature: Modernismo and Contemporary Trends  
SPAN 62100 - Main Trends in Spanish Thought and Art  
SPAN 62200 - Main Trends in Latin-American Thought and Art  
SPAN 72300 - Theatre Before Lope de Vega  
SPAN 72600 - Nonfictional Prose of Golden Age  
SPAN 75400 - The Modern Essay in Spain

Sociology/Social Research Core

GSR 70200 - Contemporary Sociological Theory

Methodological philosophies and findings of major sociological theorists.

Hours 45  
Credits 3  
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.
GSR 70800 - Statistics I

Inferential statistics and introduction to multivariate techniques. Includes use of computer for problem sets.

prereq: SOC 24100 or equiv
Hours 45
Credits 3
fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 70900 - Statistics II

Topics covered include analysis of variance, multiple regression and other multivariate techniques.

prereq: GSR 70800 with grade of B or better
Hours 45
Credits 3
spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71000 - Research Methods I

Application of research techniques in qualitative research, field research, participant observation, library research, analysis of textual data.

prereq: SOC 24100 or equiv or perm instr
Hours 45 hrs,
Credits 3 cr
fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71100 - Research Methods II

Basic concepts and methods used in survey research, research design, measurement, questionnaire construction, sampling, data analysis.

prereq: GSR 71000 or permission of instructor
Hours 45 hrs,
Credits 3 cr
spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71600 - Workshop in Using Information Technology for Research

Use of the Internet and web for both qualitative and quantitative research; includes search and evaluation strategies, access to full text data bases, and interactive statistical and spatial analysis. Presentation of findings in formats suitable for delivery via the web.
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71700 - Seminar in Applied and Evaluation Research

Theoretical and methodological issues in applied evaluation research; achieving agreement on program goals and qualifying goals.

prereq: GSR 70900, GSR 71000 and GSR 71100

GSR 71800 - Research Internship

Completion by matriculated student of a research internship under faculty supervision in an approved private- or public-sector research agency. Internship lasts a minimum of three months (full-time) or six months (part-time). Execution of a research project applying advanced research methods.

GSR 71900 - Applied Research Seminar

Capstone seminar for the GSR program: students perform data analysis and write a professional research report.

GSR 72500 - Research Design

This class is intended for graduate students in the social sciences. The goal is to learn how to design large and effective research projects, whether for a thesis or dissertation, grant or fellowship applications, work project, or course project. We will look in detail at the logic of design, anticipating needs and problems, planning for analysis, overcoming obstacles, proposing research, and presenting one's design.
Sociology/Social Research Special Topics Seminars and Independent Research

GSR 79000 - Special Topics Seminar

The program offers experimental special-topics seminars. Check with program office for more information.

*Hours 45 hrs,*

*Credits 3 cr*

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Marketing Research and Consumer Behavior

GSR 72200 - Consumer Behavior

Cultural, social, and psychological influences on consumer decision-making and consumer satisfaction; Consumerism.

*Hours 45 hrs,*

*Credits 3 cr*

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 72300 - Nonprofit and Social Marketing

Application of marketing and marketing research to non-business organizations.

*Hours 45 hrs,*

*Credits 3 cr*

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Media Research and Analysis

GSR 73100 - Television Programming and Audiences

Socioeconomic analysis of television programming and the various audiences served, including the cable universe; review of relevant theoretical approaches, research methods and audience data, patterns of television consumption.

*Hours 45 hrs,*
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 73200 - Motion Pictures

Analysis of contemporary American motion picture industry with special emphasis on independent production; social structure of production, product analysis, audience appeal and marketing; review of relevant theoretical approaches and current research.

Hours 45 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 73300 - The New Electronic Media and Information Markets

Investigation of new media and information technologies and the markets they create (digital television, Internet, etc.); relation between these media and markets and the class structure; analysis of the consumptive and pragmatic use of information.

Hours 45 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Research and Evaluation

GSR 75200 - Focus Group Research

Theory and application of focus group research. Methodological procedures, conceptualization of research problem, organization of group, listening and probing techniques, analysis of verbal and nonverbal data, report writing.

Hours 45 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 76700 - Interpersonal Process in Organizations

Analysis of social relations in organizations; interpersonal processes in management, conflict negotiations, and interdepartmental relations.

Hours 45 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Research and Policy Analysis/Nonprofit Sector

GSR 74100 - Social Policy
Planning procedures and program evaluation in public, corporate, and other private-sector settings; sources of error in forecasting.

Hours 45 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 74200 - Public Policy Analysis
Theories, concepts, and methods in public-policy analysis applied to select policy areas such as social service, criminal justice, and education.

Hours 45 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 74600 - Organizational Dynamics
Organizational design, processes and analysis in the business, public, and nonprofit sectors.

Hours 45 hrs,
Credits 3 cr
With appropriate approval, students may take graduate courses offered by the Department of Urban Affairs such as URBG 74800 (Management Control of Nonprofit Organizations) and URBG 76200 (Health Regulation). Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Research and Training in International Development
GSR 73400 - Electronic Media in Developing Countries

Electronic media use in developing countries with emphasis on television and developmental applications; policy and research issues; role of social marketing (the TELEVISA model); the international digital divide, and related issues.

Hours 45 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 76100 - Development Theories and Practices

History of the evolution of theories of development and analysis of their application to post colonial societies from 1945 to 1989; assessment of development practices and their implications for poverty alleviation and social change; analysis of the conditions under which development aid is provided and its impact on a sample of countries from Africa, the Middle East and Asia.

Hours 45 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 76200 - Rethinking Development in the Global Era

Critical analysis of the shift from the old development discourse to a new one centered on "post development" or the "global" economy; identification of the ways in which developing societies attempt to integrate themselves into the global economy; assessment of the cultural, social and political impacts of the switch from socialist or mixed economies to market economies; analysis of the role of IMF, the World Bank, and world trade agreements in reshaping developing societies. Methodologies of social development, conflict resolution, legal reform and poverty alleviation used in aid organizations.

Hours 45 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 76300 - International Development Practicum

Structures and functions of international aid organizations. Training in program/project analysis; training in gender and development; advocacy for a number of development issues as well as governance.

Hours 45 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Social Work: Clinical Practice With Individuals and Families
NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice With Individuals and Families concentration majors

SSW 72100 - Clinical Practice with Individuals Families, and Small Groups I

Development and use of clinical theory, practice and process. Integration and application of the values that underpin social work practice to engagement, biopsychosocial assessment and intervention.

prereq: SSW 71700
Credits 3
NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 72200 - Clinical Practice with Individuals Families, and Small Groups II

Application of clinical principles, including those of psychodynamic and family systems theories. Knowledge from human behavior and the social environment and social welfare policy and services areas and research findings is applied to the assessment of clients and their situations.

prereq: SSW 72100
Credits 3
NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 72300 - Clinical Practice with Individuals Families, and Small Groups III

Expands and deepens knowledge and skills from multiple theoretical perspectives for professional practice. Exploration of contemporary time-limited clinical practice models with a focus on the interface of these approaches with contextual factors such as agency setting; socio-cultural specificity and the client-worker relationship in assessment and intervention will be emphasized.

prereq: SSW 72100 and 72200
Credits 3
NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 72400 - Clinical Practice with Individuals Families, and Small Groups IV

Brief Therapies, Child Therapy, Cognitive/Behavioral, Family Therapy, Trauma Therapy, and Treatment of Pairs, Relational Therapy. Students identify professional issues and dilemmas in both knowledge and practice. Special emphasis is on assuring competence.

prereq: SSW 72100
Hours 45
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 79200 - Social Work Practice with Children and Adolescents

Effective practice with children and adolescents, adoptees, and those in foster and residential care. Social work skills needed when working with urban young people under the age of 19; strengths perspective; biopsychosocial model.
SSW 79400 - Social Work Practice: Family Treatment

An assessment of the family from a systems approach. Family developmental life cycle, family structure evaluation; tracking interactional patterns.

Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Social Work: Community Organization, Planning and Development

NOTE: SSW 74100, 74200 and 74300 are required for all Community Organization concentration majors.

SSW 74100 - Community Organizing, Planning and Development-I

Theory and practice of community organization and planning. Models and strategies for professional practice for community and client participation and empowerment. Community needs and resources; practice dynamics; dilemmas.

prereq: SSW 71700
Credits 3
SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 74250 - Community Organizing, Planning and Development II

Theoretical, strategic and technical aspects of planning with a focus on problem-solving analysis, design, implementation, and evaluation of community and service system interventions. Emphasizes impact of class, race, gender and sexual orientation on planning.

prereq: SSW 74100
Hours 3 hrs
Credits 3 cr.

SSW 74250 - Community Organizing, Planning and Development-II

Theoretical, strategic and technical aspects of planning with a focus on problem-solving analysis, design, implementation, and evaluation of community and service system interventions. Emphasizes impact of class, race, gender and sexual orientation on planning.

prereq: SSW 74100
Credits 3
SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 74350 - Community Organizing, Planning and Development-III
Uses Freirian methods to deepen students' strategic applications towards the creation of democratic experience, emphasizing leadership development, dynamics of power and privilege, and dilemmas/opportunities in working with not for the oppressed.

prereq: SSW 74100 and 74250
Credits 3
SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 74700 - Community Organizing, Planning and Development for Non-Majors

The community as a dimension of professional practice. Models and strategies for community intervention on behalf of those seeking improved access to resources and services; knowledge and skills needed to build supports and programs.

Hours 45
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 74800 - Grantsmanship and Proposal Writing

Techniques of fundraising, proposal preparation, and grantsmanship. Proposal writing and negotiation with funding sources.

prereq: one methods course
Hours 45
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Social Work: Field Education

SSW 76100 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: Material Fee: $15
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information and full course descriptions.

SSW 76200 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76100
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.
SSW 76300 - Field Instruction III

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

*prereq: SSW 76100 and 76200. Advanced standing program students enroll without prereq.
Credits 3
Material Fee: $15

Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 76400 - Field Instruction IV

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

*prereq: SSW 76200 and 76300
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 76700 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

*prereq: Material Fee: $15
Credits 6
OYR and Dual Degree students only. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 76800 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

*prereq: SSW 76700
Credits 6
OYR and Dual Degree students only
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Social Work: Human Behavior and the Social Environment

*NOTE: SSW 711, 712 and 713 are required. All other HBSE courses are electives.*

SSW 71100 - Human Behavior and the Social Environment I

Identification and integration of pertinent concepts relevant to each phase of the life cycle; biological, psychological, and social systems theories within the conceptual framework of human behavior and its interaction with the social environment.
SSW 71200 - Human Behavior and the Social Environment II

Required sequel to SSW 711. Exploration of normative life span progress from adolescence through older adulthood using theories of multicausality, gender, social class, and cultural pluralism and diversity.

prereq: SSW 711
Credits 3

SSW 71300 - Human Behavior and the Social Environment III

Understanding dysfunction. Concepts of mental health and illness, deviance and conformity; classification systems; influences on the diagnosis and treatment processes. Theories of etiology and treatment in relation to the needs of families, groups and communities. Attendance at an additional 2-hour lecture on psychopharmacology is required.

prereq: SSW 711 and 712
Credits 3

SSW 79158 - Human Sexuality

Human sexuality within the context of human behavior and the social environment; understanding unique client groups.

prereq: SSW 71100
Credits 3

Social Work: Organizational Management and Leadership

NOTE: SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership concentration majors.

SSW 78000 - Organizational Management and Leadership

For non-majors. Principles and processes of administration of administration in social work. Organization and administration; planning, personnel management, budget and financing, and relationships among boards, committees, executives, professional staff, and volunteers.

prereq: SSW 78100 or permission of the department
Credits 3

SSW 78100 - Organizational Management and Leadership I
Theoretical understanding of the operation of social agencies. Organizational structure, authority, goal setting and service implementation, interorganizational positioning, stability and survival, and staff and administrative functioning.

Credits 3
SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 78200 - Organizational Management and Leadership II

Personnel management, staff training, volunteers and paraprofessionals, decision-making processes, budgeting, boards and committees, public relations and marketing, and methods of accountability.

prereq: SSW 78100 or dept perm
Credits 3
SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 78300 - Organizational Management and Leadership III

Program design in social agencies. Emphasis on assuring access, consistency, continuity and comprehensiveness of services, as well as client feedback mechanisms. Financial management, budgeting, strategic planning.

prereq: SSW 78100 and 78200
Credits 3
SSW 781, 782 and 783 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 78600 - Advanced Administration for Non-Majors

Techniques of budgeting, public relations, staff training, working with paraprofessionals, hiring/firing, committee processes, working with boards, and developing personnel policies in social agencies.

prereq: SSW 78000 or 78700
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 78700 - Supervision in Social Agencies

Basic techniques of supervising professional social workers.

Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Social Work: Professional Seminar

SSW 79000 - Professional Seminar
Utilization and integration of practice, research and policy to determine how an issue may be ameliorated or resolved. Taken in the final semester.

Credits 3
This is a required course for all students.

Social Welfare Policy and Services

NOTE: SSW 701 and one SSW 702 course are required.

NOTE: Students may choose one of the following SSW 702 courses to fulfill the advanced social policy requirement.

SSW 70150 - Social Welfare Policy and Services I: Introduction to Social Welfare Policy and Services

Circumstances that give rise to social problems and their policy solutions; frameworks for analyzing these developments; values and skills needed to understand social policy and engage in advocacy and social change are stressed.

Credits 3
SSW 70100 and one SSW 702xx course are required. SSW 70100 is a prerequisite for all SSW 702xx courses.

Students may choose the following SSW 702 course to fulfill the advanced social policy requirement. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 70210 - The Organization and Delivery of Social Services to Workers and Their Families

Human and fiscal resources and opportunities for innovative policy and program development in the world of work. Issues of economic, social and political organization in the workplace; union and industry programs as models for creative occupational social work policy and practice.

prereq: SSW 70100
Credits 3
This course fulfills the advanced social policy requirement

SSW 70211 - Political Economy of Social Welfare

U.S. social welfare policy and the social work profession in the context of contradictions in political economy. History of economic development; analysis of current economic and political conflicts in the global economy; strategies for change.

prereq: SSW 70100
Credits 3
This course fulfills the advanced social policy requirement

SSW 70213 - Women and Social Welfare

U.S. social welfare policy through the lens of gender: women's rights, feminist perspective and the impact of gender stereotypes.
prereq: SSW 70100
Credits 3
This course fulfills the advanced social policy requirement

SSW 70214 - Health and Mental Health Systems

U.S. health and mental health systems; effect of major policy shifts in service delivery on both health care services and populations at risk.

prereq: SSW 70100
Credits 3
This course fulfills the advanced social policy requirement

SSW 70215 - Policy and Practice in Child Welfare

Interplay of child welfare policy, service and practice issues from historical, political, socioeconomic and legal perspectives. Organization; assessment; children's vs. parents' rights; and other issues.

prereq: SSW 70100
Credits 3
This course fulfills the advanced social policy requirement

SSW 70216 - Social Welfare Policy with the Homeless

Ways in which social welfare policies and social services have affected homelessness; the role of social work in this policy arena.

prereq: SSW 70100
Credits 3
This course fulfills the advanced social policy requirement

SSW 70217 - Social Welfare Policy in the Field of Aging

Aging policy and legislation; health care, retirement, work, and family issues. Organization, utilization and impact of services on the aging; attention given to special populations.

prereq: SSW 70100
Credits 3
This course fulfills the advanced social policy requirement

SSW 70218 - Seminar in Social Welfare

Social welfare policy and social change issues are studied. Topics vary each semester.

prereq: SSW 70100
Credits 3
This course fulfills the advanced social policy requirement

SSW 70219 - Immigrants and Refugees: Policies and Issues
History and development of immigration and social policies that affect immigrants and refugees in America. Policy theories, dynamics and patterns related to immigration policy; delivery of service; social welfare policy advocacy.

prereq: SSW 70100  
Credits 3  
This course fulfills the advanced social policy requirement

**SSW 70220 - Clients' Rights, the Legal System and Social Policy**

The role of legal rights in the welfare state with reference to special populations. Origins, history and the current status of the legal rights of clients; use of laws to promote social justice and social change; advocacy by social workers for clients' rights.

prereq: SSW 70100  
Credits 3  
This course fulfills the advanced social policy requirement

**SSW 70221 - Social Welfare and Disabilities**

Implications of the Americans with Disabilities Act (ADA) and other legislation on social work practice with people who have disabilities. Creation of effective service delivery systems.

prereq: SSW 70100  
Credits 3  
This course fulfills the advanced social policy requirement

**SSW 70222 - International Social Welfare Policy and Services**

International social welfare policy and services in social work. Review of past, present and future challenges produced by history, economic change, and globalization and their implication.

prereq: SSW 70100  
Credits 3  
This course fulfills the advanced social policy requirement

**Social Work Practice Learning Lab**

NOTE: SSW 71700 & 71800 are required for all students

**SSW 71700 - Social Work Practice Learning Lab 1**

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.

Credits 3  
SSW 71700 and 71800 are required. Please consult the School of Social Work website:  
http://www.hunter.cuny.edu/socwork/ for additional information.
SSW 71800 - Social Work Practice Learning Lab 2

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.

prereq: SSW 71700
Credits 3
SSW 71700 and 71800 are required. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Social Work Research

NOTE: SSW 75100 and 75200 are required for all students.

SSW 75100 - Social Work Research I

Principles of social research methods in the context of social work practice. Problem formulation, research design and role of research in social work, ethical issues, sampling, measurement and data collection.

Credits 3
SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 75200 - Social Work Research II

Measurement strategies, qualitative data analysis, descriptive and inferential statistics, and methods of quantitative data analysis; data management. Data collected by students from their research projects is analyzed.

prereq: SSW 75100 or equivalent
Credits 3
SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Social Work: Electives

All other courses listed under this heading are electives.

SSW 71500 - Seminar in Psychodynamics

Dimensions of psychodynamic theory: modern drive theory, ego psychology and object relations theory. Relationship to clinical practice.

prereq: SSW 71100 and 71200
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 71900 - Foundations of Social Work Practice
An orientation to the profession of social work, the use of research in practice, the multicultural context of practice, the common base of practice and some of the unique aspects of clinical work with individuals and families, group work, community organization and administration.

Credits 3

SSW 72700 - Social Work with Clients in Authoritarian Settings: Working with Mandated and Involuntary Clients

Services to individuals and groups involved with parole, probation, court clinics, institutions for offenders, and child and adult protection agencies.

Credits 3

SSW 77000 - Alcoholism and Substance Abuse

prereq: SSW 71100
Credits 3

Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 77300 - Social Work Ethics and Values

Moral and philosophical analysis of ethical problems and value issues as presented in social work practice. Application of philosophical theories to the analysis of practice dilemmas; principles for decision-making.

Credits 3

SSW 79157 - Social Work with Victims of Violence against Women

Domestic violence and the complex interactions between affected individuals and their environments (children, families, communities). Interventions.

prereq: SSW 71100
Credits 3

Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 79171 - Social Work Practice with Immigrants and Refugees

Services for immigrants and refugees; assimilation, acculturation, bi-culturalism and ethnic identity; feelings for the homeland; resettlement and family reunification; problems of terrorism, immigration and anti-immigration.

prereq: One method course: SSW 72100, 74100, or 78100
Hours 45
Credits 3

SSW 79175 - Social Work and AIDS
The needs of people with AIDS and their families; confidentiality, mortality and human sexuality from a holistic clinical perspective.

prereq: SSW 71100
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 79176 - Social Services to the Gay and Lesbian Community

Developmental models for positive lesbian, gay, bisexual or transgendered identity; social work skills for assessment and intervention.

prereq: SSW 71100
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 79186 - Social Work and the Arts

Art forms are explored to provide services to populations at risk, including the elderly and the physically and mentally impaired.

Credits 3

SSW 79188 - Spirituality and Healing

Spiritual domain of human functioning. Viewing human need, strengths and experience with a spiritual lens. Spirituality and human striving for a sense of meaning and fulfillment; understanding and responsiveness to spiritual perspectives.

prereq: SSW 71100
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 79189 - Perspectives on the Aging Process: Implications for Social Work Practice

Biopsychosocial relationship between health and aging with emphasis on family, culture, individual coping, and environmental stress and support.

prereq: SSW 71100
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 79652 - Social Work with Workers and Their Families

Significance of work, unemployment and the changing workplace in the lives of clients and communities. Opportunities for practice with labor and management in occupational social work settings.

prereq: SSW 71700 and one method course
Credits 3
SSW 79653 - Clinical Practice in Child Welfare

Issues in child abuse and neglect. Clinical work with families involved with the child welfare system. Treatment; transference and countertransference; development of empathy. Interventions.

prereq: SSW 71700 and one method course
Credits 3

SSW 79658 - Contemporary Psychosocial Approaches in the Treatment of Chronic Mental Illness

Evidence-based practices, within a recovery-oriented paradigm, as a general approach to practice. Specific evidence-based interventions to use for individuals with a diagnosis of serious mental illness.

prereq: SSW 71700 and one method course
Credits 3

SSW 79660 - The Aging Process: Clinical Issues in Social Work Practice with the Aged

Theoretical frameworks of human aging, including the myths and realities of major biopsychosocial problems facing older adults and their families. Practice implications.

prereq: SSW 71700 and one method course
Credits 3

SSW 79661 - Social Work Practice in School Settings

Roles and functions of social workers within a complex ecological system of home/school/community are explored with an emphasis on skill development for practice with urban children and their families.

prereq: SSW 71700 and one method course
Credits 3

SSW 79662 - Social Work Practice with AIDS and Chronic Illness

Unique approach in social work to HIV/AIDS. Illness trajectory of HIV with other epidemics and chronic illnesses. Practice techniques. Impact on women, people of color, and LGBT individuals.

prereq: SSW 71700 and one method course
Credits 3

SSW 79665 - Electoral Activism and Social Work Practice

Involvement in the electoral arena that advances social work values and empowers social workers, clients and communities to become active participants in civic life.

prereq: SSW 71700 and SSW 74100
Credits 3
**SSW 79701 - Clinical Social Work Practice in Health Settings**

Spectrum of reactions to illness; change and adaptation; loss, grief and bereavement; uncertainty; value dilemmas and ethical issues related to illness, health care and social work intervention.

*prereq: One method course: SSW 72100, 74100, or 78100*

**Hours 45**

**Credits 3**

**SSW 79801 - Multicultural Social Work Practice**

Trends, issues and concerns in social work practice with racially and ethnically diverse individuals, families and groups in the urban environment.

*prereq: SSW 71700 and one method course*

**Credits 3**

**Social Work: Tutorials**

**SSW 75800 - Tutorial**

A reading and independent study course for students under faculty guidance.

*prereq: completion of the first semester of graduate social work study and dept perm*

**Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.**

**SSW 75801 - Tutorial**

**Credits 1**

**Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.**

**SSW 75802 - Tutorial**

**Credits 2**

**Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.**

**SSW 75803 - Tutorial**

**Credits 3**

**Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.**

**Theatre History, Theory, and Criticism**

**THC 70200 - History of Theatrical Theory**
Historical survey of major theatre theories and theorists from Aristotle to poststructuralism.

*Hours 30 hours, including conferences,*
*Credits 3*

**THC 70500 - Theatre in Society**

Study of influence of social, philosophical, and religious concepts on content and form of modern theatre.

*Hours 30 hrs, including conferences,*
*Credits 3 cr*

**THC 71000 - Studies in Dramatic Genre**

Theories and changing forms of traditional theatrical genres: tragedy, comedy, tragi-comedy, farce, melodrama.

*Hours 30 hrs, including conferences,*
*Credits 3 cr*

*May be repeated for credit.*

**THC 71100 - Theatre Criticism**

Analysis of practical modern criticism.

*Hours 30 hrs, including conferences,*
*Credits 3 cr*

**THC 75100 - History of Theatre I**

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 30 hrs, including conferences,*
*Credits 3 cr*

**THC 75200 - History of Theatre II**

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 30 hrs, including conferences,*
*Credits 3 cr*

**THC 75300 - History of American Theatre**

Theatre in United States from Colonial times to present, with emphasis on its importance as a social and cultural force.

*Hours 30 hrs, including conferences,*
*Credits 3 cr*

**THC 75800 - Asian Performance**
Study of traditional performance genres in India, China, Japan and Southeast Asia.

*Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 76000 - Studies in Theatre History and Production**

Intensive study of history and theory of one of the component arts of theatre. Subjects announced in advance.

*Hours 30 hrs, including conferences,
Credits 3 cr
May be repeated for credit.*

**Theatre: Dramaturgy**

**THC 76100 - Dramaturgy Research and Case Studies**

Consideration of general problems of production research, including its application in rehearsal; specific examples will be analyzed.

*Hours 45 hrs, plus hrs to be arranged,
Credits 3 cr*

**THC 76200 - History of Directing**

Seminar on the history of the directing profession, with emphasis on innovative 19th- and 20th-century artists.

*Hours 45 hrs,
Credits 3 cr*

**THC 76300 - Dramaturgy Workshop**

Workshop in the theory and practice of production dramaturgy emphasizing performance projects conceptualized by students working in director-dramaturgy pairs.

*prereq: THC 75100, 75200, 79100, or perm instr
Hours 45 hrs,
Credits 3 cr*

**THC 76400 - Translation Workshop**

Workshop in the theory and practice of translating plays. Each student will translate a play or other theatre-related text during the semester.

*prereq: perm instr
Hours 45 hrs,
Credits 3 cr*
THC 76500 - Dramaturgy Practicum

Independent study as a dramaturgy-assistant at a local professional theatre, supervised by a faculty member.

prereq: THC 761, 762, 763, or perm instr
Hours Hrs to be arranged.
Credits 3 cr
May be repeated twice for credit.

Theatre: Playwriting

THC 73100 - MFA Playwriting I: The One-Act Play

This course is designed for experienced playwrights. Students will complete a ten minute play including three rewrites and a new one act play with three rewrites, with attention to the fundamentals of playwriting: Character, Action, Story, Tone. Readings during the semester

Writing Requirements: A ten-minute play and a one-act play in several drafts, a journal, and other writing exercises.

prereq or coreq: Pre- and/or Corequisites (and/or other special conditions): Students admitted to the MFA program in Playwriting or by special permission of the Instructor
Hours 3
Credits 3

THC 73200 - MFA Playwriting II: The Full-Length Play

This course is designed for the experienced playwright. Students will complete a new full-length play including one rewrite with attention to the fundamentals of structure as well as giving freedom to their individual voices and the process of rewriting. Forms of Drama will be discussed. Staged readings at completion of the projects.

Writing Requirements: Students will complete a full-length play in several drafts.

prereq: (and/or other special conditions):
THC 73100 or permission of instructor.

Hours 3
Credits 3

THC 73300 - MFA Playwriting III: Adaptation

Students will write a full length play adapted from fact or fiction, including two rewrites Students will fulfill readings in plays which have been adapted from other mediums. Students will be required to complete oral presentations of one adapted project in dramatic literature. Production at completion of the semester. Students will be required to present a thesis play proposal.
THC 73400 - MFA Playwriting IV: Final Script for Production

Students will complete a Thesis Masterpiece play including rewrites and culminating in a Final Production.

THC 73500 - MFA Production Workshop I

Development of new scripts through table work, scene work, culminating in staged readings. Working with a community of artists – directors, actors, and dramaturges – through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, and dramaturges.

The class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting and directing.

THC 73600 - MFA Production Workshop II

Development of new scripts through table work, scene work, and readings, culminating in works-in-progress performances. Working with a community of artists–directors, actors, designers, and dramaturges--through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, designers, and dramaturges.

This class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting, directing, and design.

THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

THC 79300 - Playwriting I
Study of techniques of playwriting based on student's own work with special emphasis on scenes and one-act form.

*Hours 45 hrs,
Credits 3 cr*

**THC 79400 - Playwriting II**

Writing and criticism of original material with emphasis on full-length form.

*prereq: THC 79300
Hours 45 hrs,
Credits 3 cr*

**THC 79500 - Seminar in Playwriting and Directing**

Designed for playwrights at work on new scripts and for directors desirous of staging original material.

*prereq: THC 79400 or 79200
Hours 45 hrs,
Credits 3 cr
May be repeated for credit.*

**THC 79600 - Film Writing**

Study of problems of writing for film. Students are required to prepare original scripts for class critique.

*Hours 45 hrs,
Credits 3 cr*

**Theatre: Studies in Production and Performance**

**THC 73000 - Harold Clurman Seminar in Theatre**

A seminar named in honor of Harold Clurman that features guest artists from the professional theatre discussing various aspects of theatre.

*Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 75400 - Contemporary Styles of Production**

Theories in style and method of dramatic production.

*Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 75500 - Visual Elements of Theatre I**
Study and practice of director's and playwright's conceptual approach to visual requirements of plays.

*Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 75600 - Visual Elements of Theatre II**

Study and practice of scene and lighting design with special emphasis on their value to the director as important tools of interpretation.

*prereq: THC 755
Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 78500 - Theories and Styles of Acting**

Intensive study in theories and techniques of acting, with emphasis on historical and modern styles.

*Hours 45 hrs,
Credits 3 cr*

**THC 79100 - Advanced Directing and Rehearsal**

Study of problems in play direction, with practice in presentation of scenes and plays.

*Hours 45 hrs,
Credits 3 cr*

**THC 79200 - Special Problems in Directing**

Interrelation of director and playwright through project work on original scripts.

*prereq: THC 79100
Hours 45 hrs,
Credits 3 cr*

**Theatre Independent Research and Special Topics**

**THC 72000 - Independent Research**

Directed program of reading, research, or creative presentation under supervision of graduate faculty member.

*prereq: perm instr
Hours Hrs to be arranged.
Credits 3 cr*

**THC 72500 - Special Topics**
Studies in specialized areas of theatre.

*Hours 30 hrs, including conferences,*
*Credits 3 cr*
*May be repeated for credit.*

**Theatre Thesis**

**THC 79900 - Master's Essay**

Individually supervised research and writing of a thesis, leading to graduation with honors.

*Credits 3*

**Urban Affairs**

**URBG 70000 - Introduction to Urban Policy Processes**

An introduction to policy processes in an urban context with attention to issues of formulation, functionality, evaluation and implementation. This is a core requirement for MS students in the public policy track, and an elective for others.

*Hours 3 hrs*
*Credits 3 cr.*

**URBG 70100 - Introduction to Organization and Management for the Public and Non-Profit Sectors**

An introduction to organizational structures and theories, with attention to the identification and analysis of management challenges that organizations face when seeking to carry out public purposes in urban settings. This is a core requirement for MS students in the non-profit track, and an elective for others.

*Hours 3 hrs*
*Credits 3 cr.*

**URBG 70200 - Structure of the Urban Region**

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

*Hours 45 hrs*
*Credits 3 cr*

**URBG 70300 - Demographic Issues in Planning and Development**
Survey of current demographic trends including national population growth, age distribution patterns and changes in household composition. Discussion of how patterns relate to planning practice.

*Hours 45 hrs,
*Credits 3 cr*

**URBG 70400 - Comparative International Planning**

Comparison of approaches to urban planning in developing nations with emphasis on large-scale project planning and management. Focus on development plan as tool for resource allocation and decision-making.

*Hours 45 hrs,
*Credits 3 cr*

**URBG 70600 - Introduction to Policy Analysis**

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

*Hours 45 hrs,
*Credits 3 cr*

**URBG 70700 - Graphical Communication for Urban Planners**

Introduction to graphical techniques commonly used to facilitate communication of ideas and information among planners and planning-related professionals.

*Hours 45 hrs,
*Credits 3 cr*

**URBG 71000 - Urban Data Analysis**

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,
*Credits 3 cr*

**URBG 71300 - Introduction to Qualitative Research Methods**

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

*Credits 3*

**URBG 71400 - Computer Applications in Planning and Urban Affairs**
Review of computers and their roles in urban professions. Survey of spreadsheets, data bases and word-processing programs as well as simple programming, computer mapping and mainframe computers.

*Hours 45 hrs,  
Credits 3 cr*

**URBG 72500 - Infrastructure and Site Planning**

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

*Hours 45 hrs,  
Credits 3 cr*

**URBG 72700 - Introduction to Housing**

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,  
Credits 3 cr*

**URBG 72800 - Housing and Community Development Seminar**

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

*prereq: URBG 72700 or permission of the adviser  
Hours 45 hrs,  
Credits 3 cr*

**URBG 72900 - International Human Settlements**

Review of habitats in urbanized world. Highlight of experience from Third World including squatting, slum upgrading, service delivery, new towns and settlement policies.

*Hours 45 hrs,  
Credits 3 cr*

**URBG 73000 - Law of Housing and Urban Development**

Focus on legal aspects of key housing and community development policy. Examination of federal and state housing programs, landlord-tenant laws and rent controls.

*Hours 45 hrs,  
Credits 3 cr*

**URBG 73700 - Planning Studio**

Students synthesize physical, social and economic elements of selected town or city to prepare multi functional plan to guide development.
URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

Hours 45 hrs,
Credits 3 cr
Open only to graduate students matriculated in Department of Urban Affairs and Planning

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

Hours 45 hrs,
Credits 3 cr

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

Hours 45 hrs,
Credits 3 cr

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

Hours 45 hrs,
Credits 3 cr

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

Hours 45 hrs,
Credits 3 cr

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

Hours 45 hrs,
Credits 3 cr
URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

*Hours 45 hrs,*
*Credits 3 cr*

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

*Hours 45 hrs,*
*Credits 3 cr*

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,*
*Credits 3 cr*

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,*
*Credits 3 cr*

URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constrints, suburbanization, and secession and ask, "Is it getting better?"

URBG 77500 - Urban Affairs Internship Seminar

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

*prereq: permission of the adviser*
*Hours 45 hrs,*
*Credits 3 cr*

URBG 77600 - Internship
Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: URBG 77500 permission of the adviser

Hours 45 hrs,
Credits 3 cr

URBG 77700 - Internship

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: URBG 77500 permission of the adviser

Hours 45 hrs,
Credits 3 cr

URBG 77800 - Internship

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: URBG 77500 permission of the adviser

Hours 45 hrs,
Credits 3 cr

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,
Credits 3 cr

URBG 78718 - Political Economy of the City

The course will explore the framework in which urban policy and development occurs in US urban areas. We will explore the 'anatomy' of the city, that is, to what extent is the physical shape of the city influenced by the interaction between the public and private sectors. Cities, of course, are embedded in larger economic and political settings. Indeed, some would argue that the forces generated in this larger context tend to overwhelm the local political/economic theatre. To this end, the course will examine the extent to which greater national and international political and economic forces impact the shape of cities.

URBG 79000 - Urban Development Workshop I

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.
prereq: permission of the adviser
Credits 6 cr

URBG 79100 - Grantwriting and Fundraising Practicum

Focus on problem-solving skills used to resolve crucial issues in urban community; program development procedures including program planning, strategizing, implementation, administration and funding. Students work with selected organizational and community concerns as consultants-in-training.

prereq: permission of the adviser
Hours 45 hrs,
Credits 3 cr

URBG 79200 - Urban Affairs Capstone

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

prereq: permission of the director/ adviser
Hours 45 hrs,
Credits 3 cr

Urban Planning

URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

Hours 45
Credits 3

URBG 76000 - Cities and Health

The course will examine health problems and policy solutions from the perspective of the city, integrating the theory and analytic approaches from the fields of public health and urban planning, through such topics as the historical relationship between public health and urban planning, environmental justice as it relates to urban health, and urban health care systems.

Hours 45
Credits 3

URBP 70000 - Introduction to Planning

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy. Also, an introduction to the various planning sub-fields
including urban design, land development, economic and community development, housing, environmental planning, transportation planning, and public finance.

*Hours 45  
Credits 3*

**URBP 70100 - History and Theory of Urban Planning**

The study of conscious efforts to guide city development from ancient civilizations to the present, and the evolution of planning theory to guide these actions. Emphasis on the relationship between public and private planning activities and the set of roles available to contemporary planners.

*Hours 45  
Credits 3*

**URBP 70500 - Introduction to the Planning Process**

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy.

*Hours 45  
Credits 3*

**URBP 71100 - Planning Information**

Survey of public and private data bases available to planners focusing on traditional and nontraditional sources. Exploration of utilization and implications of data.

*Hours 45  
Credits 3*

**URBP 71200 - Methods of Planning Analysis**

Introduction to methods of demographic and economic analysis. Emphasis on applications to current urban planning practice.

*Hours 45  
Credits 3*

**URBP 71300 - Planning Methods for Optimization and Decision-making**

Introduction to quantitative techniques for optimization and decision-making. Applications of techniques in planning contexts.

*Hours 45  
Credits 3*

**URBP 71600 - Participatory Planning Using GIS and the Internet**

Understanding complexities associated with using GIS and other digital technologies in community organizing and urban development; intensive lab-based course
**URBP 71900 - Land Use, People and the Environment**

A comprehensive overview to the theory and practice of land use planning and zoning that sees land as a set of social relations that define the way cities and urban regions develop. Land use planning is placed within larger economic, political, and legal contexts and issues of environmental conservation, environmental justice, air and water quality, public health, energy, infrastructure, and global sustainability.

*Hours 45  
Credits 3*

**URBP 72000 - Law of Land Use Regulation I**

Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for controlling urban growth.

*Hours 45  
Credits 3*

**URBP 72100 - Law of Land Use Regulation II**

Focus on inclusionary and exclusionary zoning; growth management; aesthetics and historic preservation; transfer of development rights; regional and state planning and development control; and tax policies and land use control.

*prereq: URBP 72000  
Hours 45 hrs,  
Credits 3 cr*

**URBP 72200 - Land Use Planning Workshop**

Application of land use planning skills to specific problem in New York metropolitan region. Class operates as team to produce recommendations.

*prereq: URBP 71900 or permission of the instructor  
Hours 45 hrs,  
Credits 3 cr*

**URBP 72300 - Introduction to Urban Design**

Analysis of three-dimensional urban space by studying methods of visual perception and notation; criteria for determining desirable spatial relationships; and means of implementing policies to achieve urban design goals.
URBP 72400 - Urban Design Workshop

Application of urban design concepts in studio setting to develop design solutions for typical physical planning problems.

prereq: URBP 72300 or permission of the instructor

Hours 45 hrs,
Credits 3 cr

URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

Hours 45 hrs,
Credits 3 cr

URBP 73100 - Neighborhood Planning Workshop

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

prereq: URBG 72700 or permission of the instructor

Hours 45 hrs,
Credits 3 cr

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

Hours 45 hrs,
Credits 3 cr

URBP 73300 - Transportation Planning Methods and Models

Review of variety of transportation planning tools including highway capacity calculations, transportation impact studies, models of trip generation, trip distribution, modal split and network assignments. Presentation of related microcomputer software.

prereq: permission of the instructor

Hours 45 hrs,
Credits 3 cr

URBP 73400 - Environmental Planning

Study of current and emerging issues in controlling and preventing environmental degradation. Emphasis on administrative and political considerations.
URBP 73500 - Law of Environmental Planning

Examination of legal aspects of environmental protection and methods of public intervention. Study of role of law in formulation and implementation of environmental public policy.

Hours 45 hrs,  
Credits 3 cr

URBP 73600 - Energy Planning and Policy Seminar

Introduction to conceptual and operational aspects of plans and policies promoting the efficient use of energy in urban communities. Review of national and global energy markets and appropriate responses in transportation, housing, land use and related areas.

Hours 45 hrs,  
Credits 3 cr

URBP 73700 - Planning Studio

Students synthesize physical, social and economic elements of selected town or city to prepare multifunctional plan to guide development.

Hours 90 including conferences  
Credits 6

URBP 73800 - Planning Studio I

Students work with a client organization to synthesize physical, social and economic elements of a selected neighborhood, town or city. This information is utilized in URBP 73900 to prepare a multifunctional plan to guide development and the fulfillment of needs.

Credits 3

URBP 73900 - Planning Studio II

Students work with a client organization to synthesize physical, social and economic elements of a selected neighborhood, town or city. This information is utilized in URBP 73800 to prepare a multifunctional plan to guide development and the fulfillment of needs.

Credits 3

URBP 74700 - Planning in the Budget Process
Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

*Hours 45 hrs,*  
*Credits 3 cr*

**URBP 78000 - Independent Research**

Supervised study of topics of special interest to advanced students.

*Hours 45 hrs,*  
*Credits 3 cr*  
*Students may not take more than 3 credits of Independent Research per semester.*

**URBP 78100 - Independent Research**

Supervised study of topics of special interest to advanced students.

*Hours 45 hrs,*  
*Credits 3 cr*  
*Students may not take more than 3 credits of Independent Research per semester.*

**URBP 78200 - Independent Research**

Supervised study of topics of special interest to advanced students.

*Hours 45 hrs,*  
*Credits 3 cr*  
*Students may not take more than 3 credits of Independent Research per semester.*

**URBP 78300 - Independent Research**

Supervised study of topics of special interest to advanced students.

*Hours 45 hrs,*  
*Credits 3 cr*  
*Students may not take more than 3 credits of Independent Research per semester.*

**URBP 78400 - Independent Study**

Supervised study of topics of special interest to advanced students.

*Credits 1 cr*  
*Students may not take more than 3 credits of Independent Research per semester.*

**URBP 78500 - Independent Study**

Supervised study of topics of special interest to advanced students. Students may not take more than 3 credits of Independent Study per semester.
Credits 2 cr
Students may not take more than 3 credits of Independent Research per semester.

URBP 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Cross-listed URBG 78700

Film and Media: Other IMA Courses

IMA 70600 - Documentary Production

This workshop guides students through the process of producing and filming a documentary video project. Course work includes researching an idea, writing a proposal and script, developing interview subjects and/or situations for filming, and budgeting, scheduling and shooting the documentary project.

prereq: IMA 70300

Hours 4
Credits 3
Material Fee: $20

IMA 74400 - Microcultural Incidents: Ethnography & Experimental Media

This combined screening and production course unpacks and investigates several thematic and conceptual concerns found within a broad range of recent experimental films and videos, including: the desire for cultural definition; the forces at play in the constitution of self; the relationship between self and other; the pleasures and problematics of intercultural encounters; and the secret histories of various subcultures. These concerns are evidence of what could be called an ethnographic impulse in experimental media. This course explores the wide variety of ways in which that impulse is manifested.

prereq: IMA 75100

Hours 3
Credits 3

IMA 76700 - Physical Computing

This hands-on class is an introduction to electronics, circuit building and the programming of microcontrollers for the production of interactive creative works that may include installation and art objects.
Through a series of exercises, demonstrations and tutorials, students will gain a basic understanding of electronic hardware components, circuit design, input-output board construction and basic microcontroller programming. Students will also learn about the history of non-screen-based interactivity in Media Arts.

prereq: IMA 75000 and 75100

Hours 3 hrs
Credits 3 cr.

IMA 77100 - Media, Community Advocacy & the Urban Environment
This class is a collaborative workshop that brings together Integrated Media Arts students with graduate students from Urban Affairs & Planning. The goal is to create media for community organizing and development aimed at improving the quality of local environments. Students will work in small groups to create short documentaries (or other types of media) dealing with a particular New York City neighborhood and a critical social issue residents or business owners are facing in that community.

prereq: IMA 75100  
Hours 3 hrs  
Credits 3 cr.

Cytotechnology

MLS 63000 - Introduction to Cytopathology

Students will be introduced to the discipline of cytopathology including historical perspective, established terminology, basic cell structure and cell biology and concepts of cellular response to injury and neoplasia. The applicability of immunochemistry, cytogenetics and other molecular studies to cytology specimens will also be discussed.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.  
Hours 1 hr  
Credits 1 cr.  
fall only

MLS 63200 - Gynecologic Cytopathology

Students will be introduced to the cytopathology of infectious, inflammatory, premalignant, and malignant pathologic processes of the female genital tract. They will learn how to identify benign and abnormal cytologic findings in gynecologic specimens and formulate preliminary and differential diagnoses.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.  
coreq: MLS 63000  
Hours 4 hrs  
Credits 4 cr.  
fall only

MLS 63500 - Microscopic Evaluation 1

This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance. (limited to gynecologic, respiratory and gastrointestinal specimens)

coreq: MLS 63000, MLS 63200 and MLS 64000  
Hours 2 hrs  
Credits 2 cr.  
fall only

MLS 63600 - Microscopic Evaluation 2
This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance.

prereq: MLS 63500; enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 64100, MLS 65000 & MLS 65100
Hours 2 hrs
Credits 2 cr.
spring only

MLS 63700 - Microscopic Evaluation 3

An extension of MLS 63500 and MLS 63600. Students continue to apply acquired didactic material in a supervised clinical practice setting acquiring speed and proficiency in cytologic screening. This course also allows students to gain experience in fine needle aspiration specimen adequacy assessment and specimen triage for ancillary studies. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance.

prereq: MLS 63600; enrollment in the AC Cytotechnology Program or departmental permission required.
Hours 4 hrs
Credits 2 cr.
8-week summer session I

MLS 64000 - Exfoliative Cytopathology 1

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections, inflammation and benign and malignant neoplasms) of the respiratory and gastrointestinal tracts. Students will learn how to assess respiratory and gastrointestinal specimens for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 63000
Hours 2
Credits 2 cr.
fall only

MLS 64100 - Exfoliative Cytopathology 2

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections, inflammation and benign and malignant neoplasms) of the urinary tract, body cavities and central nervous system. Students will learn how to assess specimens from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: MLS 64000; enrollment in the AC Cytotechnology Program or departmental permission required.
Hours 2 hrs
Credits 2 cr.
spring only
MLS 64400 - Research Methods 1

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

prereq: enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 63000, MLS 63200 and MLS 64000
Hours 1 hr
Credits 1 cr.
fall only

MLS 64500 - Research Methods 2

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

prereq: MLS 64400; enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 64100, MLS 65000, MLS 65100
Hours 1
Credits 1 cr.
spring only

MLS 64600 - Research Methods 3

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

prereq: MLS 64500; enrollment in the AC Cytotechnology Program or departmental permission required.
Hours 2 hrs
Credits 1 cr.
8-week summer session I

MLS 64700 - Cytopreparatory Techniques 1

Provides instruction and hands-on experience in the basic principles of cytopreparation and applicable quality assurance and quality control activities. Students learn established cytopreparatory techniques, such as smear preparation cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 630
Hours 1 hr
Credits 1 cr.
fall only

MLS 64800 - Cytopreparatory Techniques 2
A continuation of MLS 64700; provides more in depth instruction in laboratory safety and additional hands-on experience in cytopreparation. Students learn established cytopreparatory techniques such as smear preparation, cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

**prereq:** MLS 64700; enrollment in the AC Cytotechnology Program or instructor permission required.  
**Hours** 1 hr  
**Credits** 1 cr.

**MLS 64900 - Cytopreparatory Techniques 3**

A continuation of MLS 64700 and MLS 64800; provides more hands-on experience in cytopreparation. Students apply principles of established cytopreparatory techniques and quality control under the supervision of licensed clinical personnel.

**prereq:** MLS 64800; enrollment in the AC Cytotechnology Program or instructor permission required.  
**Hours** 2 hrs  
**Credits** 1 cr.  
8-week summer session I

**MLS 65000 - Fine Needle Aspiration Cytology 1**

Provides instruction in the principles of fine needle aspiration cytopathology of the lung, mediastinum, breast, thyroid, salivary gland and lymph nodes. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

**prereq:** Enrollment in the AC Cytotechnology Program or departmental permission required  
**Hours** 2 hrs  
**Credits** 2 cr.  
spring only

**MLS 65100 - Fine Needle Aspiration Cytology 2**

Provides instruction in the principles of fine needle aspiration cytopathology of the liver, pancreas, kidney, adrenal glands, retroperitoneum, bone and soft tissue. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

**prereq:** Enrollment in the AC Cytotechnology Program or departmental permission required.  
**Hours** 2 hrs  
**Credits** 2 cr.  
spring only

**MLS 65200 - Cytology Laboratory Management and Operations**

Provides instruction in the management principles of a cytology laboratory including regulatory requirements, laboratory safety, quality management, quality assurance, quality control and equipment maintenance.

**prereq:** Enrollment in the AC Cytotechnology Program or departmental permission required.  
**Hours** 2 hrs  
**Credits** 1 cr.  
8-week summer session I
Film and Media: IMA Capstone Courses and Additional Offerings

IMA 78000 - Special Topics in Integrated Media Arts

A three hour, three credit rubric for analytical and production courses that explore special topics in Integrated Media Arts.
Courses offered under this rubric will provide expanded course descriptions that will be distributed to IMA students prior to registration.

prereq: IMA 70000, 75000, and 75100
Hours 3
Credits 3

IMA 78200 - Special Topics in Integrated Media Arts

A four hour, three credit rubric for analytical and production courses that explore special topics in Integrated Media Arts.
Courses offered under this rubric will provide expanded course descriptions that will be distributed to IMA students prior to registration.

prereq: IMA 70000, 75000, and 75100
Hours 4
Credits 3

IMA 78300 - Intensive Tools and Technology Workshop

An intensive hands on workshop training students in the tools and technology of integrated media arts.
Courses offered under this rubric will provide expanded course descriptions that will be distributed to IMA students prior to registration.

prereq: Varies according to the specific workshop parameters.
Hours 1 hr
Credits 1 cr.

IMA 78301 - Intensive Tools and Technology Workshop: Sound

In this class students will learn and apply sound production theories and techniques. They will become familiar with the language of audio professionals and the equipment they use, as well as current industry practices used by sound recordists, sound mixers, and boom operators.
Students will also learn and practice technical skills useful toward becoming professional audio production recordists, sound mixers, and boom-operators. Fundamental best practices are emphasized.
In addition to learning the technical skills students will also become familiar with sound's role in media production, and better understand how both audio production and post-production sound design contribute to the documentary production process.

prereq: Permission of graduate adviser
Hours 1 hr.
Credits 1 cr.
IMA 78302 - Intensive Tools and Technology Workshop: Lighting

This class will approach the subject from both a technical and aesthetic perspective. Students will learn how to light from a variety of situations including the basic single interview, group interviews/settings, action and verite. Students will also learn aesthetic and stylistic approaches that communicate particular meaning through certain achieved 'looks'. They will also become familiar with the wide variety of equipment and instruments (such as chimera soft box, scrims, gels, cutters, flags, etc.) that are industry standard, as well as learn of less expensive "guerilla" style alternatives. Students practice working with light measurement, exposure latitudes, lighting ratios and color temperature control.

 prerequisites: Permission of graduate adviser
Hours 1 hr
Credits 1 cr.

IMA 78303 - Intensive Tools and Technology Workshop: HD Cinematography

This class will approach the subject from a technical and aesthetic perspective. Students will learn camera fundamentals including how to set up a camera to ensure the highest quality image. They will learn the basics of digital cinematography principles for both video and DSLR cameras. In addition to learning how to employ technical skills, students will learn the technical background behind the functionality to gain a better understanding of the electronic inner workings of a camera. Students will also learn the basic aesthetic components to shooting including composition, framing, movement, perspective and angle, with an eye to developing an individual aesthetic and artistic point of view as expressed through the lens.

 prerequisites: Permission of graduate adviser
Hours 1 hr
Credits 1 cr.

IMA 78800 - Master of Fine Arts Thesis Project

This capstone project must be completed satisfactorily before graduation. It includes an advanced creative work, a written component, a thesis defense, and exhibition of work in the Thesis Show. Students meet individually with a Primary Thesis Adviser from the department's permanent faculty, along with periodic consultations with secondary and tertiary advisers. The Thesis Project must integrate elements from across the Program's production curriculum and incorporate a critical component.

 prerequisites: Approval of graduate adviser required.
Hours 3 hrs
Credits 3 cr.
Non-matriculated students are never permitted to enroll.

IMA 78900 - Independent Study

A 3 credit rubric for student's independent study.

 prerequisites: IMA 75200 and 75300
Hours To be arranged
Credits 3 cr.

IMA 79000 - Independent Study
Rubric for student's independent study.

prereq: IMA 75200 and 75300
Hours to be arranged.
Credits 1 cr
Non-matriculated students are never permitted to enroll.

IMA 79100 - Independent Study

Rubric for student's independent study.

prereq: IMA 75200 and 75300
Hours to be arranged.
Credits 2
Non-matriculated students are never permitted to enroll.

IMA 79200 - Interdisciplinary Research

Rubric for student's interdisciplinary research elective.

prereq: IMA 7500 and 75300
Hours to be arranged.
Credits 3 cr.
Non-matriculated students are never permitted to enroll.

Other Courses

ECO 75100 - Economic Development of Latin America

This course may be offered depending on student and faculty interest.

EDUC 71700 - Supervised Clinical Experience 1

This course is an opportunity for teacher candidate to engage in one semester of supervised clinical experience in a classroom that corresponds with the grade levels and content area in which the teacher candidate is seeking certification. Emphasis is placed on teacher candidates developing a reflective stance on their supervised clinical experience. Teacher candidates in this course will be coached by a Hunter College School of Education field supervisor. This course is intended to supplement other clinical experiences previously completed by teacher candidates and requires a minimum of 10 hours per week in a clinical placement.

prereq: Departmental permission required.
Credits 1.0
Contact hours include five 3-hour seminars (total 15 contact hours); minimum of 10 hours of clinical experience per week.

Students must complete this course with a grade of B or better, or they must request permission to repeat the course.

EDUC 71800 - Supervised Clinical Experience 2
This course is an opportunity for teacher candidate to engage in one semester of supervised clinical experience in a classroom that corresponds with the grade levels and content area in which the teacher candidate is seeking certification. Emphasis is placed on teacher candidates developing a reflective stance on their supervised clinical experience. Teacher candidates in this course will be coached by a Hunter College School of Education field supervisor. This course is intended to supplement other clinical experiences previously completed by teacher candidates and requires a minimum of 20 hours per week in a clinical placement.

prereq: Departmental permission required.
Credits 2.0
Contact hours include ten 3-hour seminars (total of 30 contact hours); minimum of 20 hours of clinical experience per week.

Students must complete this course with a grade of B or better, or they must request permission to repeat the course.

IMA 70300 - Documentary Expressions

This production workshop introduces students to the fundamental techniques, technology, aesthetics and creative approaches of nonfiction video production.

prereq: none
Hours 4
Credits 3
Material Fee: $20

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Programs of Study

Advanced Certificate

Curatorial Studies - Advanced Certificate

The certificate is intended to formalize and recognize the high level of curatorial training already being provided to graduate students (both MA and MFA) in the Department of Art & Art History, and to intensify and amplify that training through the rigor of an official curriculum. The proposed certificate program, open by subsequent application to Hunter College students accepted into either the MA or the MFA, and by application to students holding the MA in Art History from another accredited institution, consists of a sequence of four courses designed specifically to offer both a theoretical and historical grounding in curatorial practices and practical experience in exhibition organization and display and object / collection research and preservation. For students already enrolled in the Hunter MA or MFA programs, of the 12 credits required for the certificate, 6 would fulfill area requirements within the existing 30 credit MA degree in Art History or the existing 48 credit MFA, and 6 would be in addition to those credit limits in both programs. Students admitted directly to the certificate program would be required to complete 12 credits.

In the academic and practical curriculum laid out below, students will gain experience, contacts, and visibility in the city and in international art world. Relevant job opportunities for students who attain this certificate include Curator, Curatorial Assistant, Gallerist, Gallery Director, Art Fair manager, Public Art Consultant, Art Adviser, private collection curator, Registrar, and many other related positions in museums and also private or commercial interests.

Curriculum
12 credit certificate consisting of:

I. Methodology - 3 credits

II. Practicum - 3 or 6 credits

III. History and Curatorial - 3 or 6 credits

I. Methodology

3 Credits from this section

**ARTH 60200 - Research Methods of Art History**

Training in bibliographical materials and research methods through examination of special problems in art history and writing of research paper.

*Hours 45 hrs,*
*Credits 3 cr*
*offered every semester*

II. Exhibition Practicum

3 or 6 credits from this section

**ARTH 76000 - Curatorial Practicum**

A subject specific Exhibition seminar/practicum: the course would focus on an exhibition project, led by a faculty member and researched by students, culminating in an exhibition. It will acquaint students with all aspects, from creative to practical, in mounting an exhibition.

*Hours 3 hrs.*
*Credits 3 cr.*

**ARTH 78000 - Special Topics in Art**

Graduate seminars on specific topics established by individual faculty. Topics in recent years have included Greek Vase Painting, The Islamic Object, Botticelli, Architecture of the Italian Renaissance, Origins of Abstraction, History of Photography, Art and Totalitarianism, Color Theory in Relation to Painting.

Special topics course 78008: Artist's Institute
-or- ARTH 7800099 Guided Internship

III. History of Exhibitions, Collecting, and Curatorial Practices

3 or 6 credits from this section

Special Topics course 78014 Curatorial Methods
-or-
ARTH 76100 - Special Topics Seminar in Exhibitions and Collecting

This course addresses the history of collecting as the foundation of institutions that foster the production, dissemination, and preservation of art. Dependent on the expertise of the instructor, this course varies among topics such as History of Museums, History of Biennials, History of Collecting, Taste, and Patronage, and Theoretical and Critical investigations of Collecting Practices.

Hours 3 hrs.
Credits 3 cr.

Adolescent Special Education Grades 7-12: Additional NYS Certification - Advanced Certificate

Program Coordinator

Gina Riley
(212) 396-6921
1104 West
griley@hunter.cuny.edu

This program (Academic Plan: ASE712-AC) leads to a post-master's Advanced Certificate in Adolescent Special Education Generalist, Grades 7-12. The program is designed for students with existing New York State certification in either Students with Disabilities Grades 1-6, or another certification content area at the adolescent level—such as Mathematics, Science, English Language Arts, or Social Studies.

Admission Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.5.
2. New York State initial, professional or permanent certification in:
   - Childhood Special Education, Grades 1-6
   - Adolescent Education, Grades 7-12
3. A personal statement.
4. A recommendation from a supervisor or academic professor.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study
Academic Plan

ASE712-AC

Total Credits

17

**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours 45 hours; includes 5 hours of field experience*

*Credits 3 - Or-*

**SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders**

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

*prereq: SPED 70000*

*coreq: current employment as a teacher or enrollment in student teaching*

*Hours Includes 10 hrs of field experience, 45 hrs, Credits 3 cr*

- And -

**SPED 70100 - Assessment of Students with Disabilities**

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

*prereq or coreq: SPED 70000*

*Hours 45 hours; includes 10 hrs of field experience*

*Credits 3 - Or-*

**SPED 70200 - Classroom Management in Special Education and Inclusive Settings**

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.
prereq or coreq: SPED 70000
Hours 45 hours; includes 15 hrs of field experience
Credits 3

- Plus the following -

**SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs**

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000
Hours 15 hrs,
Credits 1 cr

**SPED 77100 - Methods of Teaching Reading for Adolescents with Learning Disabilities**

This course addresses principles, methods, and specially designed instruction for adolescents with learning disabilities, mild/moderate cognitive impairment, and/or behavior disorders. The focus is on developing literacy through all aspects of reading, including: developing comprehension, expanding vocabulary, increasing fluency, utilizing phonics, and refining phonemic awareness. Students will learn strategies that support reading at all levels, including: sound, word, sentence, cross-sentence, text body, and text structure, genre, and across content areas.

coreq: SPED 77200
prereq or coreq: SPED 70000
Hours 45 plus 10 field hours
Credits 3 cr.

**SPED 77200 - Supervised Clinical Teaching of Adolescents with Disabilities: Part I**

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities, mild cognitive impairment, and/or behavior disorders from grades 7–12. Focus on specialized reading instruction, math instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 77100
prereq or coreq: SPED 70000
Hours 30 hours of seminar plus 25 field hours
Credits 2 cr.

**SPED 77300 - Math Methods for Adolescents with Disabilities**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social- interaction, and the arts across
the curriculum.

prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

SPED 77400 - Supervised Clinical Teaching of Adolescents with Disabilities: Part II

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 70000
coreq: SPED 77300
Hours 2 hrs: 15 hours of seminar plus 22 lab/clinical hours
Credits 2 cr

* These choices are based upon previous courses taken. Note that all applicants will already have taken one required special education course as part of general education certification programs. Therefore a choice allows each candidate to customize a plan of study with new material and avoid taking a course that would be redundant.

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in classes based upon fieldwork/clinical teaching (SPED 77200 and SPED 77400).
3. Completion of the Dignity for All Students Act (DASA) workshop.
4. Maintain valid and appropriate NYS certification.

Bilingual Education Extension: NYS Teachers - Advanced Certificate

Program Coordinator

Carla Espana
(212) 772-4712
1103 West
biled@hunter.cuny.edu

Maite Sanchez
(212) 772-4670
924 West
biled@hunter.cuny.edu

The School of Education offers a post-baccalaureate program that lead to Bilingual Education Extension for classroom teachers with NYS certification (Academic Plan: BIEXT-AC). This program trains teachers to become effective
bilingual practitioners with high levels of competence using two languages of instruction. The programs are offered in three language sets: Spanish/English, French/English and Chinese/English.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0
   OR
   A master's degree with a GPA of at least 3.5
   AND
   NYS teacher certification in:
   • Early Childhood Education (Birth-Grade 2)
   • Childhood Education (Grades 1-6)
   • Common Branches PreK-Grade 6
   • Middle Childhood Education (Grades 5-9)
   • Adolescent Education (Grades 7-12)
   • Special Subjects
   • Literacy Education
   • Students with Disabilities in Early Childhood, Childhood, Middle Childhood, or Adolescent Education or Special Education K-12
   • Teachers of Students who are Blind or Visually Impaired, Deaf or Hard of Hearing, or Speech and Language Impaired
2. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted in English and in Spanish, French or Chinese.
3. Two letters of recommendation, including one from a supervisor.
4. Submission of scores on the Graduate Record Examination, except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

BIEXT-AC

Total Credits
BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*
*Credits 3 cr*

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*coreq: BILED 77100*
*Hours 75 hrs, Credits 1 cr*

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

*prereq or coreq: BILED 70100*
*Hours 30 hrs plus 5 hrs of fieldwork and lab, Credits 2 cr*

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

*prereq or coreq: BILED 70100*
*Hours includes 5 hrs of fieldwork*
*Credits 3 cr*

- Plus one of the following -

BILED 71100 - Bilingual Literacy-Spanish
This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

**coreq**: BILED 71150  
**prereq or coreq**: BILED 77100  
**Hours**: 30  
**Credits**: 2

**BILED 71200 - Bilingual Literacy-French**

Bilingual literacy - French: conducted in French and English and will present how to differentiate instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners. The course aims to develop teachers' ability to plan for language, content and literacy skills by designing a thematic integrated literacy unit. The course will assist teachers in understanding how to develop students' oral language, spelling, grammar, and vocabulary.

**prereq or coreq**: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education  
**Hours**: 30  
**Credits**: 2

**BILED 71300 - Bilingual Literacy-Chinese**

Bilingual Literacy – Chinese focuses on the development of literacy skills in both English and Chinese for students in bilingual programs. The emphasis is on L1 and L2 literacy using narrative and expository text, technology, and the arts as mediums for developing skills. This course will be conducted in Chinese and English.

**prereq or coreq**: BILED 77100, BILED 77150  
**Hours**: 30  
**Credits**: 2  
For the Advanced Certificate Leading to an Extension in Bilingual program: the prereq or coreq is BILED 77150 - Plus one of the following -

**BILED 76800 - Instruction through the Native Language-French**

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

**prereq or coreq**: BILED 70100 and CEDF 70900 for the MSEd/Childhood Education Grades 1-6 with bilingual extension; for the MSEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100  
**Hours**: 45  
**Credits**: 3

**BILED 76900 - Instruction through the Native Language-Chinese**

To enhance Chinese language skills of teacher candidates for the purpose of teaching content areas in and through Chinese. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop,
adapt and revise curriculum materials in Chinese for the bilingual classroom.

Hours 45 hours plus 10 hours of fieldwork
Credits 3
Prereq or Coreq: For the Childhood education Grades 1-6 with a Bilingual Extension program: BILED 70100, CEDF 70900; For the MSEd in Early Childhood Education Birth through Grade 1 with a Bilingual Extension: Program 1, BILED 70100, ECF 70000; Program 2, none; Program 3, BILED 70100; For the Advanced Certificate Leading to and Extension in Bilingual program: none.

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100
Hours 45 hrs plus 10 hrs of fieldwork,
Credits 3

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in the field experience course BILED 71150.
3. Maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

Bilingual Education Extension: Pupil Personnel Services - Advanced Certificate

Program Coordinator

Carla Espana

The School of Education offers a post-baccalaureate, advanced certificate program that lead to Bilingual Education Extension for those with NYS certification in Pupil Personnel Services (Academic Plan: BEPPS-AC). This program trains teachers to become effective bilingual practitioners with high levels of competence using two languages of instruction. The programs are offered in three language sets: Spanish/English, French/English and Chinese/English. Candidates must be employed and working in their area of certification in a bilingual setting at the time of application and during practicum semester.
Admission Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.5

   AND

   Permanent or professional certification in:
   • School Administrator
   • School Building Leader
   • School Counselor
   • School Social Worker
   • School Psychologist

   OR

2. A bachelor's degree from an accredited institution with a GPA of at least 3.0 and provisional certification in one of the certification areas listed above.

3. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted in English and Spanish, French or Chinese.

4. A recommendation from a supervisor.

5. Submission of scores on the Graduate Record Examination, except applicants who are certified teacher or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

BEPPS-AC

Total Credits

15

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.
BILED 71700 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

prereq: BILED 77100, CEDCF 70050
Hours 45 hrs,
Credits 3 cr

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100
Hours includes 5 hrs of fieldwork
Credits 3 cr

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs
Credits 3

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specializations. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

coreq: COCO 71900
prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600
Hours 100

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

**Blind and Visually Impaired: NYS Teacher Certification - Advanced Certificate**

**Program Coordinator**

L. Beth Brady  
(212) 772-4229  
929 West  
lbrady@hunter.cuny.edu

This post-master's, advanced certificate program (Academic Plan: TBVI-AC) is designed to prepare NYS certified teachers to serve as teachers of the blind and visually impaired, including those with multiple disabilities, in educational programs from birth to grade 12. Graduates of this program will be eligible for NYS professional certification in Blind and Visually Impaired.

**Admission Requirements**

1. New York State teaching certification in any area.
2. Master's degree in education or a related services field (speech and language pathology, physical therapy, nursing) with a GPA of at least 3.5.
3. Completion of SPED 70000 (Issues and Practices in Educating Students with Disabilities) or the equivalent with a grade of B or better for all applicants without a master's degree in special education.
4. Evidence of acceptable writing skills.
5. Three letters of recommendation.
6. Evidence of work, volunteer, or personal experience with individuals with visual impairments.
7. An interview with a special education faculty member.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

**Progress Standards**

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

**Course of Study**

**Academic Plan**

TBVI-AC
SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000
Hours includes 10 hrs of field experience
Credits 3 cr

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000
Hours Includes 10 hrs of field experience
Credits 3

SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 15 hrs of field experience
Credits 3

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 10 hrs of field experience
Credits 3
SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq: SPED 74300
Hours 45 hrs,
Credits 3 cr

SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

prereq or coreq: SPED 74000, 74100, 74200, 74300
Hours 15 hrs,
Credits 1 cr

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000, 74100
Hours includes 10 hrs of filed experience
Credits 3 cr

SPED 71451 - Topics in Special Education: ITI Practicum in Visual Impairment

Credits 1 cr

- And one of the following -

SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field
placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

*prereq or coreq:* SPED 74000, SPED 74100  
*Hours* 30 hrs seminar, plus conferences, plus 20 days student teaching,  
*Credits* 2 cr

**SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

*prereq or coreq:* SPED 74000, SPED 74100  
*Hours* 30 hrs seminar, plus conferences, plus 20 days student teaching,  
*Credits* 2 cr

**SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

*prereq or coreq:* SPED 74000, SPED 74100  
*Hours* 30 hrs seminar, plus conferences,  
*Credits* 2 cr

**SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

*prereq or coreq:* SPED 74000, SPED 74100  
*Hours* 30 hrs seminar, plus conferences,  
*Credits* 2 cr

**Exit Requirements**
1. An overall GPA of 3.0.
2. Students must receive a grade of B or better in student teaching or practicum courses.
3. Must maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Student Act (DASA) workshop.

This post-master's, advanced certificate program (Academic Plan: ORMOB-AC) is designed to prepare rehabilitation teachers who have academy certification and/or NYS certification in Blind and Visually Impaired. Graduates of this program will be eligible to obtain national certification from the Academy for Certification of Vision Rehabilitation and Education Professionals (ACVREP) as orientation and mobility specialists. This program does not lead to NYS certification.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0, plus teacher of the blind and visually impaired teaching certificate.

   OR

   A master's degree from an accredited institution with a GPA of at least 3.5 in rehabilitation teaching or teacher of the blind and visually impaired with a GPA of at least 3.5.

2. Evidence of acceptable written languages skills.
3. Three letters of recommendation.
4. Evidence of work, volunteer or personal experience with individuals with visual impairments.
5. An interview with a special education faculty member.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

20

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

Hours 45 hrs
Credits 3

SPED 74900 - Orientation and Mobility for Students with Visual Impairments and Additional Disabilities

An advanced orientation and mobility course on specialized instructional strategies that address the special travel difficulties of learners (infants to older adults) who are blind or visually impaired with additional disabilities. Topics include deafness, deafblindness, multiple impairments, motoric, cognitive and affective impairments. This course also addresses instructional strategies for persons in unique living situations or environments.

Hours includes 10 hrs field experience, 45 hrs,
Credits 3 cr

SPED 76500 - Intermediate Orientation and Mobility

Theories related to perception, learning and development of individuals who are blind or visually impaired, and /or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

prereq or coreq: SPED 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr.
SPED 76600 - Advanced Orientation and Mobility

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

prereq or coreq: SPED 76500, 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr

SPED 76700 - Orientation and Mobility: Internship/Seminar

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

prereq or coreq: SPED 76500, 76600, 76800, 76900
Hours 30 hrs seminar, plus conferences plus 340 hours of internship.
Credits 2 cr

SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar

This course teaches assessment, evaluation and lesson plan/execution, the systems of mobility used by persons who are visually impaired, and indoor travel techniques used by persons with visual impairments navigating familiar and unfamiliar buildings. Fifteen day summer course.

prereq or coreq: permission of adviser
Hours 3 hrs
Credits 3 cr.
Two week summer course.

SPED 76900 - Advanced Orientation and Mobility Lab and Seminar

This course provides instruction in, lesson sequencing, pedagogical and andragogical methods for O&M instruction for persons who are blind or visually impaired. Through observation, and practice, this course develops competencies in teaching travel techniques used by persons with visual impairments.

prereq: SPED 76800
Hours 3 hrs
Credits 3 cr.
Two week summer course.

Total Credits

17

- Take either -
SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience
Credits 3

- Or* -

SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000
coreq: current employment as a teacher or enrollment in student teaching
Hours Includes 10 hrs of field experience, 45 hrs,
Credits 3 cr

- And -

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000
Hours 45 hours; includes 10 hrs of field experience
Credits 3

- Or* -

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000
Hours 45 hours; includes 15 hrs of field experience
Credits 3

- Plus the following courses -
SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000
Hours 15 hrs, Credits 1 cr

SPED 78100 - Reading for Students with Learning Disabilities Grades 1-6, Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq: SPED 70000 or 70050
Hours 3 hrs: includes 10 hrs of field experience
Credits 3 cr

SPED 78200 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100
prereq or coreq: SPED 70000
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Fall only (note: must take concurrently with SPED 78100 and must take SPED 78300/78400 in semester immediately following)

SPED 78300 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 78100/78200
SPED 78400 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use

prereq: SPED 781/782
coreq: SPED 783
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Spring only

*These choices are based upon previous courses taken. Note that all applicants will already have taken one required special education course as part of general education certification programs. Therefore a choice allows each candidate to customize a plan of study with new material and avoid taking a course that would be redundant.

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in classes based upon fieldwork/clinical teaching (SPED 78200 and SPED 78400).
3. Complete the Dignity for All Students Act (DASA) workshop.

Cytotechnology: Advanced Certificate

Cytotechnology is an allied health profession that specializes in the study of cells from the human body. Working with a microscope and a variety of technologies, some of which are automation-assisted, cytotechnologists evaluate cell samples from gynecologic (e.g., Pap smears), nongynecologic and fine needle aspiration (FNA) specimens to detect cancer, precancerous lesions, benign tumors, and infectious processes. Cytotechnologists are trained laboratory professionals who help to save lives by identifying diseases early on and monitoring a patient's response to therapy.

The Hunter College Advanced Certificate (AC) in Cytotechnology prepares graduates for the professional practice of cytotechnology. It is an intense three-semester (Fall/Spring/Summer) training program that is administered in collaboration with Memorial Sloan Kettering Cancer Center (MSK). All training takes place in the laboratory facility of the MSK Cytology Service.

Program

The AC in Cytotechnology is a 26-credit graduate level post-baccalaureate certificate program within the Medical Laboratory Sciences (MLS) Department of Hunter College. It is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and is New York State (NYS) licensure qualifying. Upon successful completion of the AC, students will be eligible to sit for the national certification examination given by the American Society for Clinical Pathology Board of Certification. This examination is approved for NYS licensure purposes.
Successful completion of the examination indicates attainment of entry level competency in the profession. Certified individuals are recognized with the designation CT(ASCP) – certified cytotechnologist.

Admission criteria

Admission criteria are designed to satisfy the requirements for cytotechnology curricula as described in Article 165, Section 52.39 of the Clinical Laboratory Technology Practice Act (http://www.op.nysed.gov/prof/clt/part52-39.htm). They consist of a baccalaureate or higher degree in the major of medical laboratory sciences, biology, chemistry or the physical sciences with the following pre-requisite courses or their equivalent as determined by the program: inorganic chemistry, organic chemistry, anatomy & physiology, cell biology, mathematics and statistics, human genetics, immunology and clinical microbiology. Minimum GPA of 3.0/4.0. The program does not grant credit for advanced placement courses or experiential learning. Visit Hunter College AC in Cytotechnology overview for additional important information prior to application.

NYS Licensure Curricular Requirements for Registered Cytotechnology Programs

The curriculum for the AC in cytotechnology was developed to meet the coursework and curricular content stipulated in NYS regulations, Section 52.39: Registration of Curricula for programs seeking registration as a cytotechnology licensure-qualifying program. It contains didactic and clinical training as well as supervised clinical experience within the MSKCC Cytology laboratory throughout the span of the three semester program.

Cytotech courses

**MLS 63000 - Introduction to Cytopathology**

Students will be introduced to the discipline of cytopathology including historical perspective, established terminology, basic cell structure and cell biology and concepts of cellular response to injury and neoplasia. The applicability of immunochemistry, cytogenetics and other molecular studies to cytology specimens will also be discussed.

*prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.*  
*Hours 1 hr*  
*Credits 1 cr.*  
*fall only*

**MLS 63200 - Gynecologic Cytopathology**

Students will be introduced to the cytopathology of infectious, inflammatory, premalignant, and malignant pathologic processes of the female genital tract. They will learn how to identify benign and abnormal cytologic findings in gynecologic specimens and formulate preliminary and differential diagnoses.

*prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.*  
*coreq: MLS 63000*  
*Hours 4 hrs*  
*Credits 4 cr.*  
*fall only*

**MLS 63500 - Microscopic Evaluation 1**
This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance. (limited to gynecologic, respiratory and gastrointestinal specimens)

coreq: MLS 63000, MLS 63200 and MLS 64000
Hours 2 hrs
Credits 2 cr.
fall only

**MLS 63600 - Microscopic Evaluation 2**

This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance.

prereq: MLS 63500; enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 64100, MLS 65000 & MLS 65100
Hours 2 hrs
Credits 2 cr.
spring only

**MLS 63700 - Microscopic Evaluation 3**

An extension of MLS 63500 and MLS 63600. Students continue to apply acquired didactic material in a supervised clinical practice setting acquiring speed and proficiency in cytologic screening. This course also allows students to gain experience in fine needle aspiration specimen adequacy assessment and specimen triage for ancillary studies. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance.

prereq: MLS 63600; enrollment in the AC Cytotechnology Program or departmental permission required.
Hours 4 hrs
Credits 2 cr.
8-week summer session 1

**MLS 64000 - Exfoliative Cytopathology 1**

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections, inflammation and benign and malignant neoplasms) of the respiratory and gastrointestinal tracts. Students will learn how to assess respiratory and gastrointestinal specimens for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 63000
Hours 2
**Credits 2 cr.**

**fall only**

**MLS 64100 - Exfoliative Cytopathology 2**

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections, inflammation and benign and malignant neoplasms) of the urinary tract, body cavities and central nervous system. Students will learn how to assess specimens from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

*prereq: MLS 64000; enrollment in the AC Cytotechnology Program or departmental permission required.*

*Hours 2 hrs*

*Credits 2 cr.*

**spring only**

**MLS 64400 - Research Methods 1**

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

*prereq: enrollment in the AC Cytotechnology Program or departmental permission required.*

*coreq: MLS 63000, MLS 63200 and MLS 64000*

*Hours 1 hr*

*Credits 1 cr.*

**fall only**

**MLS 64500 - Research Methods 2**

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

*prereq: MLS 64400; enrollment in the AC Cytotechnology Program or departmental permission required.*

*coreq: MLS 64100, MLS 65000, MLS 65100*

*Hours 1*

*Credits 1 cr.*

**spring only**

**MLS 64600 - Research Methods 3**

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

*prereq: MLS 64500; enrollment in the AC Cytotechnology Program or departmental permission required.*

*Hours 2 hrs*

*Credits 1 cr.*

*8-week summer session I*
MLS 64700 - Cytopreparatory Techniques 1

Provides instruction and hands-on experience in the basic principles of cytopreparation and applicable quality assurance and quality control activities. Students learn established cytopreparatory techniques, such as smear preparation cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 630
Hours 1 hr
Credits 1 cr.
fall only

MLS 64800 - Cytopreparatory Techniques 2

A continuation of MLS 64700; provides more in depth instruction in laboratory safety and additional hands-on experience in cytopreparation. Students learn established cytopreparatory techniques such as smear preparation cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

prereq: MLS 64700; enrollment in the AC Cytotechnology Program or instructor permission required.
Hours 1 hr
Credits 1 cr.

MLS 64900 - Cytopreparatory Techniques 3

A continuation of MLS 64700 and MLS 64800; provides more hands-on experience in cytopreparation. Students apply principles of established cytopreparatory techniques and quality control under the supervision of licensed clinical personnel.

prereq: MLS 64800; enrollment in the AC Cytotechnology Program or instructor permission required.
Hours 2 hrs
Credits 1 cr.
8-week summer session I

MLS 65000 - Fine Needle Aspiration Cytology 1

Provides instruction in the principles of fine needle aspiration cytopathology of the lung, mediastinum, breast, thyroid, salivary gland and lymph nodes. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required
Hours 2 hrs
Credits 2 cr.
spring only

MLS 65100 - Fine Needle Aspiration Cytology 2

Provides instruction in the principles of fine needle aspiration cytopathology of the liver, pancreas, kidney, adrenal glands, retroperitoneum, bone and soft tissue. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.
**MLS 65200 - Cytology Laboratory Management and Operations**

Provides instruction in the management principles of a cytology laboratory including regulatory requirements, laboratory safety, quality management, quality assurance, quality control and equipment maintenance.

**CAAHEP Accreditation Curriculum Requirements and Cytotechnologist Entry-Level Competencies**

The AC in cytotechnology curriculum is also designed to meet CAAHEP accreditation standards which mandate that a program's curriculum in cytotechnology is robust enough to prepare students to meet defined entry-level competencies. These competencies are developed by the Cytotechnology Programs Review Committee (CPRC), the cytotechnology accreditation arm for CAAHEP, with input from communities of interest that have a stake in the cytotechnology profession. They represent minimum competencies that cytotechnology graduates must be able to demonstrate upon entering the profession. These entry-level competencies are reviewed on a periodic basis by the CPRC and with input from communities of interest to ensure that they reflect the current practice of cytotechnology. The AC in cytotechnology curriculum meets accreditation entry-level competencies and will be reviewed periodically to ensure that these accreditation standards are met when entry-level competency revisions are made by the CPRC/CAAHEP.

CAAHEP accreditation also requires that programs must ensure that students have a minimum of 28 credits of sciences including chemistry and the biological sciences and 3 credits of mathematics and/or statistics upon graduation from a cytotechnology program. These requirements will be satisfied either within the AC program or as pre-requisite coursework prior to admission to the AC program.

**Early Childhood Development and Learning: Diverse Children and Families: Additional NYS Certification - Advanced Certificate**

**Program Coordinator**

Bonnie Keilty  
(212) 772-4709  
929 West Building  
bkeilty@hunter.cuny.edu

This program (Academic Plan: ECSEB2-AC) leads to a post-master's Advanced Certificate in Special Education: Early Childhood, Birth – Grade 2 consistent with regulations of the New York State Education Department. The program is
designed for students with existing New York State certification in early childhood general education; it leads to an additional teaching certificate in students with disabilities birth to grade 2.

Admission Requirements

1. A master's degree in Early Childhood Education, Birth - Grade 2 from an accredited institution with a GPA of at least 3.5.
2. New York State initial, professional or permanent certification in Early Childhood Education, Birth – Grade 2.
3. A personal statement.
4. A recommendation from a supervisor or academic professor.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

ECSB2-AC

Total Credits

20

SPEDE 76800 - Fostering Development in Young Children with Diverse Abilities: Historical, Political, and Inclusive Perspectives

This course explores the variability of development in infants and young children, and related developmental promotion approaches, through a lens of cultural, linguistic, and ability diversity. Functional developmental competencies and the range of developmental consequences within specific diagnoses will be examined, including the implications for supporting learning and development in classrooms, homes, and communities. The evolution of laws, regulations, and inclusive practices to current early intervention and early childhood special education recommended practices will be situated within this developmental framework.

prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only)
Hours Includes 5 hrs field experience,
Credits 3
SPEDE 76900 - Evaluation, Assessment, and Program Planning for Infants and Young Children with Special Needs

Developmentally appropriate and recommended practices for assessing the development and learning of young children from infancy through age 7 years (second grade) and identifying family strengths and supports. Application of tools, observations, and discussions with informed others to make decisions in screening, evaluation and program planning will be explored within a transdisciplinary team. Students must receive a grade of B or better.

prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only); and SPEDE 768
Hours Includes 15 hrs field experience,
Credits 3

SPEDE 77000 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods. Students must receive a grade of B or better.

prereq or coreq: SPEDE 768 and SPEDE 769; OR SPED 700 and SPED 790
Hours Includes 15 hrs field experience,
Credits 3

SPEDE 77200 - Positive Behavior Support (PBS) and Its Application to Young Children with Special Needs

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

prereq: SPEDE 768 OR SPED 700
Hours Includes 5 hrs of field experience
Credits 3 cr

SPEDE 77400 - Adaptations for Individual Learners Across the K-2 Curriculum

Methods for supporting children with disabilities and special education needs, grades K–2 access the general education curriculum; Data-based decisions within a response to intervention framework and individualized modifications and adaptations, instructional approaches and specific methodologies effective with young children are emphasized.

prereq: SPEDE 77000 and SPEDE 77200 (for all programs); and ECC 70400 or ECC 70900 (for Program 1 students only)
Hours 3 hrs: includes 5 hrs field experience
Credits 3 cr

SPEDE 77600 - Introductory Field Experience in Early Childhood Special Education
Preparatory experience in a program supporting young children with diverse abilities; emphasis on what it means to be an early intervention/early childhood special education professional; One field placement of 10 days in a Kindergarten or Grade 1 or 2 setting.

**prereq:** ECC 71200 (for Program 1 students only)
**prereq or coreq:** SPEDE 77000
**Hours** 2 hrs.
**Credits** 2 cr.

- Take either -

**SPEDE 77820 - Final Student Teaching in Early Childhood Special Education**

Second, full-semester, intensive supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.20 must have already taken either SPEDE 77810 or SPEDE 77910 and the placements must be at different age/grade levels – Pre-K [Birth-five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

**prereq:** SPEDE 77400 and either SPEDE 77810 or SPEDE 77910
**Hours** 3 hrs. plus full semester of student teaching
**Credits** 3 cr.

- Or -

**SPEDE 77920 - Final Practicum in Early Childhood Special Education**

Second intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.20 must have already taken SPEDE 77810 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

**prereq:** SPEDE 77400 and SPEDE 77810
**Hours** 3 hrs. plus full semester of practicum experience in worksite
**Credits** 3 cr.

**Exit Requirements**

1. An overall GPA of 3.0.
2. A grade of at least B in classes based upon field work (SPEDE 77600) and clinical teaching (SPEDE 77820 or SPEDE 77920).
3. Completion of the Dignity for All Students Act (DASA) workshop.

**Early Childhood Education: Additional NYS Certification - Advanced Certificate**

**Program Coordinator**
This post-master's, advanced certificate program (ECEB2-AC) provides teachers who already possess New York State teaching certification in Childhood Education Grades 1-6 the additional coursework required for an additional teaching certificate in Early Childhood Education Birth to Grade 2.

Admissions Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.5.
2. NYS certification in Childhood Education Grades 1-6 or Pre-K-6 education.
3. A personal statement.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

ECEB2-AC

Total Credits

17

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels
Credits 3

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2
Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

**ECC 70300 - Early Childhood Curriculum: Birth through Grade 2**

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

**ECC 70500 - Language and Literacy: Birth through Kindergarten**

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

**ECC 70700 - Language and Literacy: English Language Learners**

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

**ECC 70800 - Children with Special Needs: Birth through Grade 2**

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.
ECC 71800 - Early Childhood Student Teaching

This is a college supervised experience and is offered during the regular academic year and in the summer to facilitate the opportunity for practice at a different age/grade level than ECC 71700. This course has two key components: (1) a minimum of 30-days of student teaching in Pre-K, or grades 1-2 and; (2) biweekly seminar (15 hours).

prereq: ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200
Hours Bi-weekly seminar (15 hrs)
Credits 1

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in classes with clinical fieldwork hours (ECF 70000 and ECC 71800).
3. Must maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

Educational Leadership: School District Leader - Advanced Certificate

Program Coordinator

Benjamin Shuldiner
1129 West Building
(212) 772-4627
adsup@hunter.cuny.edu

This post-master's, advanced certificate program (Academic Plan: SDL-AC) is designed to prepare NYS certified administrators with SBL or SAS certification for roles in administration and supervision at the school district level. Graduates of this program are eligible for NYS certification in School District Leader.

Admissions Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.0.
2. A minimum of 48 graduate credits completed prior to enrollment.
3. Proof of NYS certification in School Building Leader or School Administrator/Supervisor.
4. Two professional references.
5. A personal statement.
6. An on-site interview and writing sample may be requested by the program.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

SDL-AC

Total Credits

12

**ADSUP 72100 - Legal Issues, Finance, Facilities and Operations**

A study of school legal issues finance and budgeting. Processes and cases from New York State, New York City, local school district and building level management of operations and facilities.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work
Credits 4

Fieldwork hours: minimum 25 hours

**ADSUP 74100 - School District Leadership: Problems and Issues**

System-wide administrators must combine the elements of vision, with instructional and administrative leadership in order to guide learning organizations. They must develop skills, strategies and knowledge of the leading educational issues they are facing to be able to create collaborative, safe, and successful educational environments capable of being successful.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work
Credits 4

Fieldwork hours: minimum 25 hours

**ADSUP 75100 - District and School Based Field Experience Seminar in Administration and Supervision**
Intensive applications of program knowledge, skills and dispositions in school and district field settings available to the student, and a 40 hour seminar that includes a two-hour unit on each of both child abuse prevention and violence prevention.

*Hours 60 hrs plus 200 hrs of leadership experiences in field work stipulated in a contract
Credits 4

Fieldwork hours: minimum 200 hrs.

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in each of the three courses.
3. A valid and appropriate NYS certification.
4. Passing result on the New York State School District Leader assessment as required by NYSED.
5. Complete the Dignity for All Students Act (DASA) workshop.

Gifted Education Extension - Advanced Certificate

Program Coordinator

Elissa Brown
(212) 772-4618
919 West
eb177@hunter.cuny.edu

This advanced certificate program (Academic Plan: GIFTD-AC) is designed to provide educators with a solid background of expertise in gifted education, enabling them to work effectively with exceptionally capable learners, and to take leadership roles in the field. In addition to satisfying NYS certification requirements for 12 credits of coursework and field hours for the Gifted Extension certificate*, successful completion of this program will result in an advanced certificate degree in Gifted Education and an institutional recommendation for the Gifted Extension certificate.

*NYS certification in Gifted Extension requires a valid base NYS teacher certification and a passing score on the Gifted Content Specialty Test (CST).

Admission Requirements

1. NYS teacher certification and a minimum of 15 credits of graduate study (master's degree preferred) in education for a specific school population, with at least one course in human development (including child or adolescent development).
2. A GPA of at least 3.5 in graduate courses.
3. Two letters of recommendation from appropriate professional or academic sources.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

**SPED 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity**

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

*Cross-listed (Cross-listed with CEDF 75300.)*

*Hours 45 hrs includes 10 hrs field experience*

*Credits 3 cr*

**SPED 75400 - Differentiating Curriculum for Gifted and Talented Learners**

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the full time gifted school.

*Cross-listed (Cross-listed with CEDF 75400.)*

*Hours Includes 10 hrs field experience*

*Credits 3*

**SPED 75500 - Assessment and Instruction for Diversely Gifted Learners**

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

*Cross-listed (Cross-listed with CEDC 755.)*
**SPED 75600 - Professional Discourse and Leadership in Gifted Education**

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

*Cross-listed ADSUP 75600, CEDC 75600, CEDF 75600*

**Exit Requirements**

1. An overall GPA of 3.0.
2. No course grade below B.
3. Maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

**Medical Laboratory Technology: Advanced Certificate**

The Post-baccalaureate Certificate in Medical Technology 15-credit course of study was developed within the Medical Laboratory Sciences (MLS) Department to help meet the increasing demand for qualified, licensed medical technologists. It provides an opportunity for students with degrees in chemistry, biology, or the physical sciences to meet licensing standards without having to acquire a second baccalaureate degree. An accelerated path, this certificate can be completed in 12-13 months, and, if followed by successful completion of the licensure examination, allows immediate entry to the profession. Visit [http://www.hunter.cuny.edu/mls/graduate/advanced-certificate-in-medical-technology](http://www.hunter.cuny.edu/mls/graduate/advanced-certificate-in-medical-technology) for crucial information prior to application.

**Admission Requirements**

- A baccalaureate degree in the biological, chemical, or physical sciences.
- Completion of certain pre-requisite courses: general biology (or anatomy and physiology), general chemistry
- Achievement of a minimum GPA of 3.0 in the degree and the pre-requisite courses

**Requirements for the Certificate**

*Overview.* Admission to and completion of the AC is a competitive and demanding process. Students enrolled in the certificate program take MLS 60000 in Summer Session I. Upon successful completion they are assigned to a clinical affiliate beginning on August 1st for 10 months of full time clinical training divided into 2-month rotations. The curriculum is as follows:

**Required Courses**
**MLS 60000 - Fundamental Concepts and Techniques in the Medical Laboratory**

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment. Mastery of additional content and an independent project are required of graduate students. 

*This course is cross-listed with MLS 30000.*

*prereq: BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv. and admission to the post-baccalaureate certificate program in Medical Laboratory Technology*

*Hours 3 (2 lecture, 1 lab)*

*Credits 3*

**MLS 61000 - Clinical Practicum in Medical Laboratory Technology I**

This course (and MLS 62000) comprise the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology.

*prereq: Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology*

*Credits 6*

**MLS 62000 - Clinical Practicum in Medical Laboratory Technology II**

This course (with MLS 61000) provides training in the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology.

*prereq: Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology*

*Credits 6*

**Nursing: Psychiatric Nurse Practitioner Advanced Certificate**
The Hunter-Bellevue School of Nursing offers a post-master's advanced certificate program in psychiatric nursing. It is open to currently licensed New York State registered nurses who hold a master's degree in nursing from an accredited program.

This specialization prepares nurses for roles as advanced practice registered nurses delivering psychiatric and mental health services. Psychiatric/mental health practitioners provide mental health treatment, preventive services, consultation and leadership in hospitals, clinics, community settings and private practice. Through classwork and 600 hours of supervised clinical experience, students learn to provide these services autonomously and in collaboration with other mental health professionals. Graduates of this program meet the educational requirements for national board certification by the American Nurses Credentialing Center. They are also eligible for New York State NP certification.

International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.

Program Outline (27-36 cr.):

**NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice**

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

*coreq: NURS 70000*
*Hours 15 hours*
*Credits 1 cr.*

**NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner**

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

*coreq: NURS 70000*
*Hours 15 hours*
*Credits 1 cr.*

**NURS 74600 - Epidemiology of behavioral health and community mental health**

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.
NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Nurs 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400
coreq: NURS 71700, NURS 71900

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900,
NURS 74600, NURS 74800
coreq: NURS 75100, NURS 71700

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention
This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

1) common mental disorders including etiology, theories, and epidemiology;

2) diagnostic evaluation of each disorder;

3) interventions for each disorder in order to provide age-appropriate care.

*prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600
*coreq: NURS 75100, 71700, 74800
*Hours 30 hrs.
*Credits 2 cr.

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

*prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
*Hours 3 hrs.
*Credits 3 cr.

**NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice**

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

*prereq: NURS 70200, NURS 77700, NURS 77800
*Hours 45
*Credits 3

**NURS 77900 - Family & Group Theories & Therapeutic Modalities**

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

*prereq: NURS 70200, NURS 77700, NURS 77800
*Hours 30 hrs.
*Credits 2 cr.

**NURS 71900 - Psychopharmacology**
This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

**prereq:** NURS 70200, NURS 77700, NURS 77800
**coreq:** NURS 75000

**NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I**

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

**prereq:** NURS 78100
**Hours** 22.5 hours - Seminar, 315 hours – Clinical
**Credits** 4.5 cr.

**NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II**

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

**prereq:** NURS 78200
**Hours** 22.5 hours – Seminar, 315 hours – Clinical
**Credits** 4.5 cr.

Note: (*) NURS 71700, NURS 75000, NURS 75100 may be waived based on equivalent prior coursework.

**Post-Graduate Certificate Programs in Social Work**

The Silberman School of Social Work at Hunter College offers post-graduate certificate programs designed for MSW's seeking to further their education in an area of interest to them, who wish to remain current in the field or who want to become certified within a specific area of study. Generally these programs are not part of any academic degree-granting program and do not carry academic credit. For detailed information see the program descriptions at www.hunter.cuny.edu/socwork/programs/post-masters-programs.html. Each program has separate criteria for admission.

In addition to these programs the School has launched **Center for Advanced Clinical Education.** This program is home base for a variety of classes, conferences, and other special events that address specific issues of current focus in clinical social work. The specific offerings change regularly and are responsive to both individual practitioners and agency training needs. Teleconferencing is available for distance as well as classroom learning. Upcoming offerings will be posted on the Silberman School of Social Work at Hunter College website.
Some classes within this Center satisfy the additional clinical education credit needs of those LMSW social workers who are seeking eligibility for the LCSW. These classes will be identified as such on the website, along with specific contact information.

Advanced Clinical Social Work: Individual and Family Treatment

This certificate program is designed to meet the needs of LMSWs and LCSWs who want to deepen their clinical practice knowledge for work in a variety of social work settings. The Post Master's Certificate Program in Advanced Clinical Practice is a one year program intended to provide continuing education to clinical practitioners working in multi-cultural urban settings. Collaboratively designed by social work educator-clinicians based in the university and the community, it reflects a commitment to the shared responsibility of the academic and practice sectors of the social work profession for continuing education.

It is designed to deepen skills for clinical social work practice with individuals and families through focusing on the integration of theory and practice. Course content includes assessment and diagnosis, treatment approaches, and trauma interventions through a developmental lens with an emphasis on the role of social-cultural factors. An integrative case seminar takes place during both semesters and includes group discussion, role play, observation and application of treatment strategies.

All courses are taught by instructors experienced in agency-based social work. This course takes place on Thursday evenings from 6 to 9 pm. For further information or application, please call 212-396-7610.

Social Work Administration

The Post Master's Certificate Program in Social Work Administration is given in conjunction with the Harold Weissman Center for the Study of Social Administration. This program was developed in response to a growing interest in raising the standards of administrative practice in the social welfare field and reflects a belief that management is rooted in the values and principles of social work practice. The program includes course work on supervision, strategic planning, non-profit financial management, program evaluation, policy analysis, fundraising and grant writing. All courses involve a practice component, and all faculty members are practicing managers.

For further information or application, please call 212-396-7588.

Special Education: Severe and Multiple Disabilities Annotation Extension - Advanced Certificate

Program Coordinator

L. Beth Brady
929 West Building
(212) 772-4229
lbrady@hunter.cuny.edu

This post-master's, advanced certificate program (Academic Plan: SPEDSMD-AC) is designed to prepare NYS certified teachers to serve as teachers of students with severe and multiple disabilities, including those with deafblindness, in educational programs from birth to grade 12. Graduates of this program will be eligible for NYS annotation extension certification in Severe and Multiple Disabilities.

Admission Requirements
1. A master's degree in Special Education with a GPA of at least 3.5 in the degree that led to certification.
2. Initial, professional or permanent New York State certification in:
   - Early Childhood Special Education, Birth – Grade 2;
   - Students with Disabilities, Grades 1 – 6;
   - Students with Disabilities, Grades 7 - 12;
   - Blind and Visually Impaired;
   - Deaf and Hard of Hearing; or
   - Teacher of Students with Speech and Language Disabilities PreK-12.
3. A personal statement that will be reviewed by a member of the department.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

SPEDSMD-AC

Total Credits

19

**SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities**

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

*prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr.*

**SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities**
The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000
Hours Includes 15 hrs of field experience
Credits 3

- Or -

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours Includes 15 hrs of field experience
Credits 3 cr

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000
Hours includes 10 hrs of field experience, 30 hrs
Credits 2 cr

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities
Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100

Hours (includes 10 hours of field experience),
Credits 3 cr

- Or -

SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000

Hours 45 hrs,
Credits 3 cr

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100

Hours Includes 10 hrs of field experience
Credits 3

- Or -

Elective in Special Education approved by Advisor

SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.
prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,
Credits 2 cr

- Plus one of the courses below-

**SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6**

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus 20 days of student teaching,
Credits 2 cr

**SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3**

Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

**SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6**

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hours seminar, plus conferences,
Credits 2 cr

**Exit Requirements**

1. An overall GPA of 3.0.
2. A grade of at least B in classes based upon fieldwork/clinical teaching.
3. Completion of the Dignity for All Students Act (DASA) workshop.
4. A valid and appropriate NYS certification.

TESOL Pre-K-12: NYS Certification - Advanced Certificate

Program Coordinator

Tim Farnsworth
1013 West Building
(212) 650-3376
tfarnsw@hunter.cuny.edu

The TESOL post-masters, advanced certificate programs are designed to educate people who wish to teach students for whom English is a second or foreign language – either children or adolescents. The skill of teaching English to speakers of other languages is acquired through studying specialized methods and techniques that differ from those used by teachers of English to native speakers. This preparation is the focus of the programs in TESOL which also lead to certification in ESOL PreK-12.

Program 1 (Academic Plan: TESOL-AC) is for those with a master's or doctoral degree in TESOL, Linguistics or Applied Linguistics with no prior NYS certification.

Program 2 (Academic Plan: TESFESL-AC) is for those with a master's degree and prior NYS certification.

Admission Requirements

Program 1

For applicants who do not hold NYS certification

1. A master's degree or doctoral degree from an accredited institution in TESOL, Linguistics, or Applied Linguistics, including specific coursework (of at least 3 credits each) in TESOL Methodology, Introduction to Linguistics, Analysis and Structure of English, Theories of Second Language Acquisition, and Sociolinguistics or Pragmatics. Any applicant lacking up to 8 credits of these pre-requisite content courses or fieldwork hours may be accepted into the program on the condition that they complete these credits before they begin their Student Teaching or Practicum requirement in the program.

2. Undergraduate GPA of at least 3.0 from an accredited bachelor's degree program; or a graduate GPA of at least 3.5 from an accredited master's or doctoral degree program in TESOL, Applied Linguistics, or Linguistics.

3. A liberal arts or sciences major of at least 30 credits.

4. A general education core in liberal arts and sciences to include: 12 credits of foreign language documented on a transcript or equivalent credits as demonstrated through a standardized proficiency test like the College Level Examination Program (CLEP); 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography); 3 credits in the arts; and 12 credits in math, science and technology (a college course in calculus satisfies 6 credits of this requirement).

5. An on-site oral interview and an on-site writing sample may be required.

6. Two professional references.

7. A personal statement, explaining why the applicant is interested in obtaining PreK-12 certification in TESOL.

8. Submission of scores on the Graduate Record Examination, except applicants who are certified teacher or school administrators and hold a graduate degree.

Program 2

For students with prior NYS certification
1. A master's degree from an accredited institution with a GPA of at least 3.0.
2. College coursework in Linguistics and English Grammar.
3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 12 credits in a language other than English at the college level, 6 credits in social studies (with at least one course in U.S. history or U.S. geography), and 12 credits in ath/science/technology (a college course in calculus meets 6 credits of this requirement).
4. Two professional references.
5. A personal statement.
6. An on-site oral interview and an on-site writing sample may be required.
7. NYS initial certification in one of the following areas: early childhood, childhood, middle childhood, or adolescent education; special subjects; students with disabilities; or literacy.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Prerequisite Courses

For Program 1 students only

**LING 70200 - Analysis and Structure of English from a Pedagogical Perspective**

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

*Hours includes 10 hrs fieldwork*

*Credits 4*

**EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy**

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

*prereq or coreq: LING 70200, EDESL 79600/79610*

*Credits 4*

*10 hours of field experience.*
LING 77400 - Theory and Research in Second Language Acquisition and Learning

A survey of current theory and research in second language acquisition with particular reference to the acquisition of English and applications of the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser

Credits 4
5 hours of field work.

Course of Study

Total Credits

TESOL-AC: 15 - 27
TESFESL-AC: 18

Program 1

Program 1 (Academic Plan: TESOL-AC)

For students who do not hold NYS certification

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

CEDF 71300 - Child and Adolescent Development

This course will provide a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and their potential impact on student behavior and learning in the classroom.

Hours 3 hrs
Credits 3 cr

EDESL 78300 - Methodology of Teaching English to Speakers of Other Languages
An overview of classroom options for teaching English to second language learners. The course covers options for classroom management and setting up learning environments. A 25-hour field experience is a part of this course.

Hours 45 hrs  
Credits 3  
Required for students in Program Two and Program Three (Adult Program).

**EDESL 78700 - K-12 ESL Curriculum and Materials across the Content Areas**

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

*prereq: LING 70300, EDESL 78300 or permission of TESOL adviser  
Hours 3 hrs  
Credits 3 cr*

**EDESL 79200 - Second Language Literacy and Technology**

This course provides an in-depth treatment of theory and practice in the teaching of all of the literacy skills: reading and writing, along with the development of oral language and listening, to K-12 English language learners in the public schools. Interactions between first, second, and other language literary, and technological literary are explored and exploited toward successful language teaching and learning. Includes 15 hours of field experience.

*prereq: LING 70300; LING 77300; EDESL 78300  
Hours 3 hrs  
Credits 3 cr  
Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.*

**EDESL 79100 - Language Assessment in TESOL**

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing.

*prereq: LING 70100 or BILED 77100  
prereq or coreq: EDESL 70500 or permission of TESOL adviser  
Hours 45 hrs,  
Credits 3 cr  
Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.*

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308  
prereq: 12 credits of coursework  
Hours 45  
Credits 3  
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit*
course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

EDESL 75200 - Supervised Teaching 1

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 1 focuses on the development of core lesson planning, teaching, and assessment skills in ESL instruction. Required of all pre-K-12 program students.

prereq: Completion of 24 credits or permission of TESOL adviser
Hours 3 hrs
Credits 3 cr

EDESL 75300 - Supervised Teaching 2

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 2 focuses on the professional duties of the ESL educator beyond teaching and incorporates an advocacy-based classroom based inquiry project. Required of all MA K-12 program students.

prereq: EDESL 75200
Hours 3 hrs
Credits 3 cr

Program 2

Program 2 (Academic Plan: TESFESL-AC)

For students with who hold NYS certification

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

EDESL 78300 - Methodology of Teaching English to Speakers of Other Languages

An overview of classroom options for teaching English to second language learners. The course covers options for classroom management and setting up learning environments. A 25-hour field experience is a part of this course.

Hours 45 hrs
Credits 3
Required for students in Program Two and Program Three (Adult Program).

EDESL 78700 - K-12 ESL Curriculum and Materials across the Content Areas
This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

**prereq:** LING 70300, EDESL 78300 or permission of TESOL adviser  
**Hours** 3 hrs  
**Credits** 3 cr

**EDESL 79100 - Language Assessment in TESOL**

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing.

**prereq:** LING 70100 or BILED 77100  
**prereq or coreq:** EDESL 70500 or permission of TESOL adviser  
**Hours** 45 hrs,  
**Credits** 3 cr  
*Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.*

**EDESL 79200 - Second Language Literacy and Technology**

This course provides an in-depth treatment of theory and practice in the teaching of all of the literacy skills: reading and writing, along with the development of oral language and listening, to K-12 English language learners in the public schools. Interactions between first, second, and other language literacy, and technological literacy are explored and exploited toward successful language teaching and learning. Includes 15 hours of field experience.

**prereq:** LING 70300; LING 77300; EDESL 78300  
**Hours** 3 hrs  
**Credits** 3 cr  
*Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.*

**EDESL 75300 - Supervised Teaching 2**

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 2 focuses on the professional duties of the ESL educator beyond teaching and incorporates an advocacy-based classroom based inquiry project. Required of all MA K-12 program students.

**prereq:** EDESL 75200  
**Hours** 3 hrs  
**Credits** 3 cr

**Exit Requirements**

1. An overall GPA of 3.0.  
2. Program 2 students must maintain a valid and appropriate NYS certification.  
3. A passing score on the comprehensive examination or e-portfolio requirement.  
4. A grade of at least a B in fieldwork/clinical teaching classes.  
5. Complete the Dignity for All Students Act (DASA) workshop.
Master of Arts - MA / Advanced Certificate

Adolescent Biology - MA / Advanced Certificate

Education Adviser

Jeanne Weiler
(212) 650-3459
1115 West
jweiler@hunter.cuny.edu

Biology Department Adviser (master's degree only)

Patricia Rockwell
(212) 650-3234
821 North
rockwell@genectr.hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach Biology in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Biology 7-12.

The master's program (Academic Plan: BIOAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: BIOAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A minimum of 21 credits in biology to include a year of introductory biology with laboratory and a semester of organic chemistry (lecture only).
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Two professional references.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Advanced Certificate

1. An undergraduate major of at least 30 credits in biology and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution. Coursework at either the undergraduate or graduate level must include a course in introductory biology with laboratory and a semester of organic chemistry.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. *Note: It is recommended that students with two or more INs take an official leave of absence*

5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.

2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plans

- Master's Degree: BIOAE-MA
- Advanced Certificate: BIOAE-AC

Total Credits

- BIOAE-MA: 41-44
- BIOAE-AC: 26-27
Education Courses

For Advanced Certificate and Master's Degree Programs

26-27 credits

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs, 
Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork, 
Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400 
Hours 30 hrs, plus 36 hrs fieldwork, 
Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500 
coreq: One of the following must be a Co-req:

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23
**SED C 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

**Hours 30 hrs, plus lab,**  
**Credits 2 cr**

**SED C 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

*prereq or coreq: SEDF 70400*  
**Hours 45 hrs,**  
**Credits 3 cr**

**SED C 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

**Hours 15 hrs,**  
**Credits 1 cr**

**SED C 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71300*  
*prereq or coreq: SEDF 70500*  
**Hours 30 hrs fieldwork**  
**Credits 2 cr**

**SED C 74100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field.
experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500
Hours 15 hours of seminar; 48 hours of fieldwork
Credits 1

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Take Either -

SEDC 75401 - Student Teaching in Biology, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5

- Or -

SEDC 77411 - Practicum in Biology, Grades 7–9

Hunter College-supervised practicum for teachers of biology in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77411 must also take SEDC 77421.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

- Plus -

SEDC 77421 - Practicum in Biology, Grades 10-12
Hunter College-supervised practicum for teachers of biology in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr
Students who take SEDC 77421 must also take SEDC 77411.

Biology Courses

For Master's Degree Program Only

15-17 credits

BIOL 61055 - Laboratory Workshop in Biology Education

A series of laboratory-intensive experimental projects, each lasting one week or more, which introduce current research techniques and include individual participation in planning, preparation, and analysis of experiments. The focus is on broad biotechnology topics such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics, and how these topics may be applied to the high school science classroom.

prereq: a graduate course in biology or permission of instructor
Hours 120 hrs,
Credits 3 cr

BIOL 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

prereq: BIOL 61055 or permission of instructor

• American Museum of Natural History CUNY credit course: Genetics, Genomics or Evolution

Category A:

For students who have completed molecular biology and molecular genetics at the undergraduate level. Choose one:

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)
Hours 60 lec,
Credits 4 cr
fall only

BIOL 71013 - Molecular Biology Lecture
Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

**prereq:** 1 yr of organic chemistry  
**Hours** 75 hrs,  
**Credits** 5 cr  
**Fall only**

**BIOL 71401 - Cell Biology**

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

**prereq:** undergraduate organic chemistry or biochemistry  
**Hours** 60 hrs,  
**Credits** 4 cr  
**Spring only**

**BIOL 75003 - Developmental Biology**

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

**prereq or coreq:** BIOL 71013 and BIOL 71401  
**Hours** 60 lec,  
**Credits** 4 cr  
**Spring only**

**Category B:**

For students who have not taken either molecular biology or molecular genetics at the undergraduate level. Students must take both courses below:

**BIOL 60000 - Molecular Biology for Science Teachers**

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes, and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism.

**prereq:** An undergraduate degree in Biology and a course in Organic Chemistry and permission of instructor.  
**Fall only**

**BIOL 60210 - Molecular Genetics for Science Teachers**

A comparison of viral, procaryotic, and eucaryotic systems; review of classical Mendelian principles and mechanisms; bacterial DNA replication, transcription, and their control; mechanisms of gene mutation, repair, recombination, and transposition; applications of recombinant DNA technology; organization of nucleic acid into chromosomes; control of gene expression in procaryotes, in the eucaryotic cell cycle, and in cell development.
prereq: BIOL 60000 or equivalent and permission of instructor  
Spring only

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

Hours 30 hrs, plus lab.

Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500
Hours 15 hours of seminar; 48 hours of fieldwork
Credits 1

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Take either -

SEDC 75402 - Student Teaching in Chemistry, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5

- Or -

SEDC 77412 - Practicum in Chemistry, Grades 7–9

Supervised practicum for teachers of chemistry in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77412 must also take SEDC 77422.
prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

- Plus -

SEDC 77422 - Practicum in Chemistry, Grades 10–12

Supervised practicum for teachers of chemistry in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr
Students who take SEDC 77422 must also take SEDC 77412.

Chemistry Courses

For Master's Degree Program Only

Minimum of 15 credits

CHEM 65500 - Demonstrations, Models, and Technology

Demonstrations, models, and technology.

Credits 3 cr

CHEM 66000 - Challenging Concepts in Chemistry

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

Hours 4 hrs,
Credits 4 cr

• Two electives chosen from 600- or 700-level courses in chemistry or biochemistry at least 5 cr.

For students who have not taken physical chemistry, one of the electives must be:

CHEM 65000 - Biophysical Chemistry

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent
Hours 4 hrs.
Credits 4 cr
Fall
Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Earth Science - MA / Advanced Certificate

Education Adviser

Jeanne Weiler
(212) 650-3459
1115 West
jweiler@hunter.cuny.edu

Geography Department General Advising

Ines Miyares
(212) 772-5443
1005 North
geog@geo.hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach Earth Science in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Earth Science 7-12.

The master's program (Academic Plan: ESCAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: ESCAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A major of at least 30 credits in the liberal arts or sciences.
3. At least 21 credits in geology, physical geography, earth science, or environmental science, including geographic techniques.
4. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
5. Two professional references.
6. A personal statement.
7. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Advanced Certificate
1. An undergraduate major of at least 30 credits in earth science and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution. Coursework at either the undergraduate or graduate level must include a course in introductory earth science with laboratory, one of introductory physics with laboratory, and one semester of calculus.

2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.

3. Two professional references.

4. A personal statement.

5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. 
   Note: It is recommended that students with two or more INs take an official leave of absence

5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.

2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plans

- Master's Degree: ESCAE-MA
• Advanced Certificate: ESCAE-AC

Total Credits

• ESCAE-MA: 42-44
• ESCAE-AC: 26-27

Education Courses

For Advanced Certificate and Master's Degree Programs

26-27 credits

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,  
Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,  
Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400  
Hours 30 hrs, plus 36 hrs fieldwork,  
Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500  
coreq: One of the following must be a Co-req:
**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,*
*Credits 3 cr*

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

*prereq or coreq: SEDF 70400*

*Hours 45 hrs,*
*Credits 3 cr*

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,*
*Credits 1 cr*

**SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71300*

*prereq or coreq: SEDF 70500*

*Hours 30 hrs fieldwork*
*Credits 2*
**SEDC 74100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

*Cross-listed SEDC 34100*  
*coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500*  
*Hours 15 hours of seminar; 48 hours of fieldwork*  
*Credits 1*

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308*  
*prereq: 12 credits of coursework*  
*Hours 45*  
*Credits 3*

This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.*

- Take either -

**SEDC 75404 - Student Teaching in Earth Science, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*  
*prereq or coreq: SEDF 70600*  
*Hours 45; 60 days student teaching plus workshops and conferences,*  
*Credits 5*  
- Or -

**SEDC 77414 - Practicum in Earth Science, Grades 7–9**

Hunter College-supervised practicum for teachers of earth science in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77414 must also take SEDC 77424.

*prereq: SEDC 72400*  
*prereq or coreq: SEDF 70600*
**SEDLC 77424 - Practicum in Earth Science, Grades 10–12**

Hunter College-supervised practicum for teachers of earth science in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77424 must also take SEDC 77414.

**prereq:** SEDC 72400

**Hours 45 hours plus conferences, Credits 3**

**Earth Science Courses**

**For Master's Degree Program Only**

Minimum of 16 credits

**PGEOG 70563 - Earth Science Today**

A survey of the primary topics included in an earth science curriculum (grades 7-12). Laboratory methodology and demonstration techniques used to convey information about the earth's lithosphere, hydrosphere and atmosphere, as well as its place in the solar system, will be introduced.

**Hours 45 hrs including conference, Credits 3 cr**

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

**GTECH 71000 - Concepts and Theories in GeoInformatics**

Theoretical and conceptual foundations of GeoInformatics and Geographic Information Science.

**coreq:** GTECH 70900

**Hours 60 hrs including conference (2 lectures, 2 labs), Credits 3**

Fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

**Material Fee:** $15

**PGEOG 63000 - Science and Society**

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change.
Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

Hours 45 hrs including conference,
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in the earth sciences. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA-TEP degree.

Hours 45 hrs, including conferences,
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

- One elective chosen from 600- or 700-level courses with a PEGOG or GTECH prefix, 3 or 4 crs.

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent English - MA / Advanced Certificate

Education Adviser

Jason Wirtz
(212) 772-4728
927 West

jneary@hunter.cuny.edu
The master's and advanced certificate programs prepare candidates to teach English in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in English Language Arts 7-12.

The master's program (Academic Plan: ENGAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: ENGAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A minimum of 21 credits of advanced courses in British, American or World Literature written in English (no more than 3 credits of the latter).
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Students must submit a writing sample of about 10 pages (preferably an undergraduate research paper of literary criticism).
5. Two references (preferably including at least one academic reference).
6. A personal statement.
7. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Advanced Certificate

1. An undergraduate major of at least 30 credits in English, and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence

5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq: One of the following must be a Co-req:

- SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23

*Hours 30 hrs, plus lab,
Credits 2 cr*

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
Credits 3 cr*

**SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society**

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.
SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,  
Credits 1 cr

SEDC 72100 - Advanced Study of Teaching English Methods to a Diverse Population in Grades 7–12

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. These presentations will be videotaped for further self-analysis at home. New York State and city teaching standards will be applied throughout the course.

prereq: SEDC 71100  
prereq or coreq: SEDF 70500  
Hours 30 hrs fieldwork  
Credits 2

SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100  
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500  
Hours 15 hours of seminar; 48 hours of fieldwork  
Credits 1

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308  
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Take Either -

**SEDC 75100 - Student Teaching in English, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72100
prereq or coreq: SEDF 70600

Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5

- Or -

**SEDC 77110 - Practicum in English, Grades 7–9**

Supervised practicum for teachers of English in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77110 must also take SEDC 77120.

*prereq: SEDC 72100

Hours 45 hours plus conferences,
Credits 3

- Plus -

**SEDC 77120 - Practicum in English, Grades 10–12**

Supervised practicum for teachers of English in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77120 must also take SEDC 77110.

*prereq: SEDC 72100

Hours 30 hrs plus conferences,
Credits 2 cr

**English Courses**

*For Master's Degree Program Only*

Minimum of 24 credits

- **Literature** Eighteen credits in literature courses given by the English department, including 3 credits in Shakespeare, 3 credits in literature with a multicultural/minority emphasis, 3 credits in American literature.
ENGL 60700 - English Linguistics

Structure of Modern English, with emphasis on analytical method and pedagogical implications. Survey of phonology, morphology, syntax, and dialectal variation.

*Hours 3*
*Credits 3*

ENGL 61500 - Rhetoric and Composition

Rhetorical theory; analysis of selected masterpieces of prose; practice in writing a variety of prose forms.

*Hours 3*
*Credits 3*

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a comprehensive examination in their subject area administered by the department within the Arts and Sciences.
4. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent French - MA / Advanced Certificate

Education Adviser

jmcastil@hunter.cuny.edu

Romance Languages Department Adviser (Master's Degree only)

Marlene Barsoum
(212) 772-3511
1320 West
mbarsoum@hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach French in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in French 7-12.

The master's program (Academic Plan: FRENFAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: FRENFAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements
Master's Degree

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8 and a major in French with a grade point average of 3.0, with a minimum of 18 credits in French and Francophone literature above the intermediate level.
   -or-
2. Applicants who do not have a French major but have a liberal arts and science major (or interdisciplinary liberal arts or science concentration) of at least 30 credits may take a French literature exam designed and administered by the Department of Romance Languages. Candidates must achieve a passing score on the department's test of French literature, which will be graded by the department.

-PLUS (for all applicants)-

3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Two professional references to be included with the application for matriculation.
5. An essay to be completed as part of the application for matriculation.
7. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Advanced Certificate

1. An undergraduate major of at least 30 credits in French, and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. *Note: It is recommended that students with two or more INs take an official leave of absence*

5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.

2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plans

- Master's Degree: FRENAE-MA
- Advanced Certificate: FREAE-AC

Total Credits:

- FRENAE-MA: 40-41
- FREAE-AC: 26-27

Education Courses

For Advanced Certificate and Master's Degree Programs

26-27 credits

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,*

*Credits 3 cr*
SEDFA 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDFA 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDFA 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDFA 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDFA 70500
coreq: One of the following must be a Co-req:

SEDFA 724; SEDFA 754.01; SEDFA 774.11; SEDFA 774.21; SEDFA 754.02; SEDFA 774.12; SEDFA 774.22; SEDFA 754.04; SEDFA 774.14; SEDFA 774.24; SEDFA 721; SEDFA 751; SEDFA 771.1; SEDFA 771.2; SEDFA 722; SEDFA 752.01; SEDFA 772.11; SEDFA 772.21; SEDFA 752.02; SEDFA 772.12; SEDFA 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDFA 723; SEDFA 753; SEDFA 773.1; SEDFA 773.2; MUSED 678; SEDFA 756; SEDFA 766.1; SEDFA 776.2; SEDFA 754.03; SEDFA 774.13; SEDFA 774.23; SEDFA 725; SEDFA 755; SEDFA 775.1; SEDFA 775.2; SEDFA 752.03; SEDFA 772.13; SEDFA 772.23
Hours 30 hrs, plus lab,
Credits 2 cr*

SEDFA 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
Credits 3 cr*

SEDFA 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards
for learning in grades 7–12.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71200
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500
Hours 15 hours of seminar; 48 hours of fieldwork
Credits 1

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Take Either -

**SEDC 75201 - Student Teaching in French, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45: 60 days student teaching plus workshops and conferences,
Credits 5*

- Or -

**SEDC 77211 - Practicum in French, Grades 7–9**

Supervised practicum for teachers of French in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

Students who take SEDC 77211 must also take SEDC 77221.

*prereq: SEDC 72200
Hours 45 hours plus conferences,
Credits 3*

- Plus -

**SEDC 77221 - Practicum in French, Grades 10–12**

Supervised practicum for teachers of French in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77221 must also take SEDC 77211.

*prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr*

**French Courses**

For Master's Degree Program Only

Six 700-level courses in French and Francophone Literature (18 Credits)
Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a comprehensive examination in French administered by the Romance Languages department.
4. Master's degree students must pass a second language exam administered by the Romance Languages department.
5. Complete the Dignity for All Students Act (DASA) workshop.

The master's and advanced certificate programs prepare candidates to teach Italian in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Italian 7-12.

The master's program (Academic Plan: ITALAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: ITAAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 and a major in Italian of at least 30 credits in Italian with a grade point average of 3.0 with a minimum of 18 credits in upper-level Italian literature (not to include courses in civilization/culture, linguistics or advanced language).
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.
Advanced Certificate

1. An undergraduate major of at least 30 credits in Italian, and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. 
   	Note: It is recommended that students with two or more INs take an official leave of absence
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

dp713@hunter.cuny.edu
This program is offered with the Classical and Oriental Studies Department and is designed to serve individuals who do not have certification in the teaching of Latin. The applicant must be admitted by both the School of Education and the Classical and Oriental Studies Department.

The master's and advanced certificate programs prepare candidates to teach Latin in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Latin 7-12.

The master's program (Academic Plan: LATINAЕ-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: LATAЕ-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. An index of at least 3.0 in an undergraduate major or the equivalent in Latin or classics. Students must have 30 credits of coursework in Latin.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Two professional references.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Advanced Certificate

1. Minimum of 30 credits in Latin at the undergraduate and/or graduate level, and a master's degree in Classics, Latin, or Ancient Greek with a GPA of at least 3.3 from an accredited institution.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. *Note: It is recommended that students with two or more INs take an official leave of absence*.

5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

**B. Fieldwork Benchmarks**

1. All field experiences and student teaching will take place in New York City public schools.

2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

**Course of Study**

**Academic Plans**

- Master's Degree: LATINAE-MA
- Advanced Certificate: LATAE-AC

**Total Credits**

- LATINAE-MA: 49-50
- LATAE-AC: 26-27

**Education Courses**

**For Advanced Certificate and Master's Degree Programs**

25-26 credits

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,*

*Credits 3 cr*
**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq: One of the following must be a Co-req:*

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23

*Hours 30 hrs, plus lab,
Credits 2 cr*

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3*

*A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**
Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
*Credits 3 cr

**LATED 71200 - Methods 1: Classroom Organization, Management, and Assessment of Instruction in Latin**

Familiarizes prospective teachers of grades 7–12 with classroom organization patterns, rules and routines appropriate to the teaching of Latin. Close work with the design and evaluation of classroom lessons and materials in the context of national and state standards will be emphasized.

*prereq: completion of 18 credits of graduate Latin courses
*prereq or coreq: SEDF 70400
*Hours 45 hrs, including conferences,
*Credits 3

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,
*Credits 1 cr

**LATED 71300 - Methods 2: Teaching for Diverse Learners in Latin**

Familiarizes prospective teachers of grades 7–12 with pedagogical approaches for teaching a diverse body of learners, in light of national and state standards, in part by utilizing aspects of diversity in the ancient world. Innovative uses of technology, development of instructional units, individualizing for students with special needs, exploring aspects for a student-centered classroom will be emphasized.

*prereq: LATED 71200
*prereq or coreq: SEDF 70500
*Hours 2 hrs plus 36 hrs fieldwork,
*Credits 2

- Take either -

**LATED 73100 - Student Teaching in Latin, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students who receive a grade of B−, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program.
**prereq: LATED 71300**  
*Hours: 2 hrs, 60 days student teaching plus workshops and conferences*  
*Credits: 5 cr*

- Or -

**LATED 74110 - Practicum in Latin, Grades 7-9**

Supervised practicum in the teaching of Latin in grades 7–9. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take **LATED 74110** must also take **LATED 74120**.

**prereq: LATED 71300**  
*Hours: 2 hrs plus conferences*  
*Credits: 2 cr*

- Plus -

**LATED 74120 - Practicum in Latin, Grades 10-12**

Supervised practicum in the teaching of Latin in grades 10–12. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take **LATED 74120** must also take **LATED 74110**.

**prereq: LATED 71300**  
*Hours: 2 hrs plus conferences*  
*Credits: 2 cr*

**Latin Courses**

**For Master's Degree Program Only**

24 credits

- Latin 18 credits -

**LAT 72700 - Speaking and Writing Latin**

Development of aural/oral and written skills, including traditional Latin Composition, history of the language, and analysis of Latin grammar and syntax.

**LAT 71000 - Topics in Latin literature.**

May be taken three times for credit.
- A. At least 3 credits from the following courses -

**LAT 71100 - Literature of the Republic**

Selection from poetry and prose authors of the Latin language and the development of literary forms and styles.

**LAT 71200 - Literature of the Augustan Age**

Selections from poetry and prose authors of the Augustan period.

**LAT 71300 - Literature of the Empire**

Selections from poetry and prose authors of the Imperial period.

- B. At least 3 credits from the following courses -

**LAT 70500 - Caesar**

Selections from the Commentaries on the Civil War and Commentaries on the Gallic War.

*See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.*

**LAT 70600 - Cicero**

Selections from the orations, philosophical treatises, and letters of Cicero.

*See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.*

**LAT 70700 - Vergil**

Selections from the Aeneid, Eclogues, and Georgics.

*See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.*

**LAT 72500 - Ovid**

Selections from the *Metamorphoses* and *Amores*.

**LAT 72600 - Horace and Catullus**

Selections.

- 6 additional credits from the courses in section A and/or B or LAT 708 or LAT 710 (LAT 708 and LAT 710 may each be taken up to 3 times total).

- Classical Culture 6 credits -
CLA 70100 - The Legacy of Ancient Greece

A survey of Greek culture and civilization from the second millennium BCE to the rise of Alexander.

Hours 45 hrs, including conferences,
Credits 3 cr
See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70200 - The Legacy of Ancient Rome

A survey of the culture and civilization of Rome from the founding of the city to the reign of Marcus Aurelius.

Hours 45 hrs, including conferences,
Credits 3 cr
See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70700 - A Survey of Classical Literature in Translation

CLA 70600 - Supervised Reading

Independent reading on a particular aspect of ancient Greek or Roman culture, supervised by a faculty member.

Prior approval of graduate adviser required. May be taken twice for credit.

Culminating Experiences

Comprehensive examination in Latin and Classical Culture: Classics Division
Professional teaching portfolio: School of Education

See Exit Criteria

Note (s)

Students who enter with initial or provisional certification in adolescent education in a language other than English will be required to take LATED 712, LATED 713, and either LATED 731 or two of the other student teaching/practicum courses that cover grades 7–9 and 10–12 (9–11 credits). Based on a transcript review by the School of Education, such students may be required to complete additional courses in the pedagogical sequence as well. The minimum number of credits for the degree for students who enter with certification in adolescent education is 39 credits. Students may be exempted from up to 6 credits based on prior equivalent course work.

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a comprehensive examination in their subject area administered by the department within the Arts and Sciences.
4. Complete the Dignity for All Students Act (DASA) workshop.

**Adolescent Mathematics - MA / Advanced Certificate**

Program Coordinator

Patrick Burke  
927 East  
(212) 396-6043  
pburke@hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach Mathematics in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Mathematics 7-12.

The master's program (Academic Plan: MATAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: MATAE-AC) is a post-master's program for applicants with no prior NYS certificate.

**Admission Requirements**

**Master's Degree**

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. 24 or more credits in mathematics approved by the graduate mathematics adviser, including a course in elementary statistics, a year of calculus and a course in matrix algebra or linear algebra. Applicants may be admitted on the condition that they complete up to 12 credits of additional course work in mathematics. A transcript review will determine which additional credits, if any, are needed.
3. A grade point average of at least 2.7 in mathematics courses.
4. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Advanced Certificate**

1. An undergraduate major of at least 30 credits in mathematics and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution. Coursework at either the undergraduate or graduate level must include a course in elementary statistics, a year of calculus and a course in matrix algebra or linear algebra.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. 
   *Note: It is recommended that students with two or more INs take an official leave of absence*

5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.

2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Credits 2 cr*
SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72300 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.
SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500
Hours 15 hours of seminar; 48 hours of fieldwork
Credits 1

- Take Either -

SEDC 75300 - Student Teaching in Mathematics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5

- Or -

SEDC 77310 - Practicum in Mathematics, Grades 7–9

Supervised practicum for teachers of mathematics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77310 must also take SEDC 77320.

prereq: SEDC 72300
prereq or coreq: SEDF 70600
Hours 45 hrs plus conferences
Credits 3

- Plus -

SEDC 77320 - Practicum in Mathematics, Grades 10-12
Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 773.20 must also take SEDC 77310.

prereq: SEDC 723  
Hours 30 hrs plus conferences,  
Credits 2 cr

Mathematics and Statistics Courses

Master's Degree Program Only

15-17 credits

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra  
Hours 3 hrs  
Credits 3 cr  
Open only to Teacher Education Program students.

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 3 hrs.  
Credits 3 cr.  
Open only to Teacher Education Program students.

MATH 63300 - Axiomatic Geometry

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry. This is a theoretical mathematics course. The material is presented in its historical context.

prereq: departmental permission  
Hours 3  
Credits 3

MATH 63500 - Problem Solving Explorations in Mathematics

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics. This course is for current and prospective teachers.

prereq: none
STAT 61200 - Discrete Probability

Combinatorics, discrete probability, random variables, probability models and an introduction to game theory. A study of discrete probability with particular attention paid to the integration of these topics into the school curriculum. This course is for current and prospective teachers.

*prereq: a statistics course on or above the level of STAT 11300*

- Or -

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

*prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.*

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a comprehensive examination in their subject area administered by the department within the Arts and Sciences.
4. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Physics - MA / Advanced Certificate

Education Adviser

Jeanne Weiler
(212) 650-3459
1115 West
jweiler@hunter.cuny.edu

Physics and Astronomy Department Adviser (Master's Degree Only)
The master's and advanced certificate programs prepare candidates to teach Physics in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Physics 7-12.

The master's program (Academic Plan: PHYAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: PHYAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A major in physics.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Two professional references.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Advanced Certificate

1. An undergraduate major of at least 30 credits in physics and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. 
   *Note: It is recommended that students with two or more INs take an official leave of absence*

5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

**B. Fieldwork Benchmarks**

1. All field experiences and student teaching will take place in New York City public schools.

2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

*Credits 3 cr*
SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq: One of the following must be a Co-req:

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23
*Hours 30 hrs, plus lab,
Credits 2 cr*

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.*

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education
Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,*  
*Credits 3 cr*

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

*prereq or coreq: SEDF 70400*  
*Hours 45 hrs,*  
*Credits 3 cr*

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,*  
*Credits 1 cr*

**SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71300*  
*prereq or coreq: SEDF 70500*  
*Hours 30 hrs fieldwork*  
*Credits 2*

**SEDC 74100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.
Cross-listed SEDC 34100
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500
Hours 15 hours of seminar; 48 hours of fieldwork
Credits 1

- Take either -

**SEDC 75403 - Student Teaching in Physics, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400
*prereq or coreq: SEDF 70600
*Hours 45; 60 days student teaching plus workshops and conferences,
*Credits 5

- Or -

**SEDC 77413 - Practicum in Physics, Grades 7–9**

Hunter College-supervised practicum for teachers of physics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77413 must also take SEDC 77423.

*prereq: SEDC 72400
*prereq or coreq: SEDF 70600
*Hours 45 hours plus conferences,
*Credits 3

- Plus -

**SEDC 77423 - Practicum in Physics, Grades 10–12**

Hunter College-supervised practicum for teachers of physics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77423 must also take SEDC 77413.

*prereq: SEDC 72400
*Hours 30 hrs plus conferences,
*Credits 2 cr

**Physics Courses**

*For Master's Degree Program Only*

16 Credits
PHYS 63000 - Science and Society

Study of the interactions between technological and societal changes, with an emphasis on directing productive critiques and debates over potentially controversial technological change within the classroom. Focusing on present-day issues, students will learn various models of analyzing the impact of scientific change on society and how social change directs science.

*prereq: one graduate-level physics course or permission of instructor *

Hours 45
Credits 3

PHYS 66000 - Challenging Concepts in Physics: Using Research to Identify Student Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in physics. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the comprehensive examination for the science portion of the MA degree.

*prereq: PHYS 63000 and two elective courses in physics or permission of instructor *

Hours 60
Credits 4

- Plus three electives 9 credits from below -

PHYS 60500 - Mathematical Physics

Introduction to basic mathematical techniques used in physics.

Hours 45
Credits 3

PHYS 61500 - Electromagnetic Theory

Electrostatics; electromagnetics; Maxwell's equations with application to waves; waves in guides; radiation.

Hours 45
Credits 3

PHYS 62500 - Introduction to Quantum Mechanics

Fundamental ideas in the study of atomic sized systems.

Hours 45
Credits 3

PHYS 64500 - Solid State Physics

Introduction to basic theory and techniques in study of matter on solid state.

Hours 45
Credits 3
PHYS 68500 - Numerical Methods I

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations.

Cross-listed (Cross-listed with MATH 68500.)
prereq: MATH 15500
Hours 45
Credits 3

Note: 700-level physics courses offered at the Graduate Center can be substituted for 600-level courses with permission of the graduate adviser.

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Social Studies - MA / Advanced Certificate

Education Adviser

Debbie Sonu
(212) 772-5445
1112 West
dsonu@hunter.cuny.edu

History Department Adviser (Master's Degree only)

Jonathan Rosenberg
(212) 772-5546
1519 West
jonathan.rosenberg@aol.com

The master's and advanced certificate programs prepare candidates to teach Social Studies in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Social Studies 7-12.

The master's program (Academic Plan: SOCSTAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: SSTAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A major of at least 30 credits in one of the areas of social studies (history, political science, geography, or economics) with a GPA of 3.0, including at least 12 credits in history, 3 credits in geography, 3 credits in political science, and 3 credits in economics. The course work in history must include at least one course in each of the following areas: U.S. history, European history, and world or non-Western history.

3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.

4. Two professional references.

5. A personal statement.

6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Advanced Certificate**

1. An undergraduate major of at least 30 credits in one of the areas of social studies, and a master's degree in the discipline (history, political science, geography, or economics) with a GPA of at least 3.3 from an accredited institution. Coursework at either the undergraduate or graduate level must include 21 credits of history, 3 credits in geography, 3 credits in political science and 3 credits in economics. The coursework in history must include at least one course in each of the following areas: U.S. history, European history, and world or non-Western history.

2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.

3. Two professional references.

4. A personal statement.

5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Progress Standards**

A. **12-Credit Progress Standards for Matriculated Students**

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. *Note: It is recommended that students with two or more INs take an official leave of absence*

5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. **Fieldwork Benchmarks**

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

- SSTAE-AC: 26-27

Education Courses

For Advanced Certificate and Master's Degree Programs

26-27 credits

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,*  
*Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,*  
*Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students
with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq: One of the following must be a Co-req:

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 774.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23

Credits 5

- Or -

SEDC 77510 - Practicum in Social Studies, Grades 7–9

Supervised practicum for teachers of social studies in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77520.

prereq: SEDC 72500
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences
Credits 3

- Plus -

SEDC 77520 - Practicum in Social Studies, Grades 10–12

Supervised practicum for teachers of social studies in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77510.

prereq: SEDC 72500
Hours 30 hrs plus conferences,
Credits 2 cr

History And Geography Courses

15 credits in history including 3 credits in each of the following areas: U.S. history, European history, world or non-Western history. Students who have completed 6 credits in any one of these areas at the undergraduate level will have fulfilled this requirement for that particular area, but will still have to complete at least 15 credits in graduate history courses. Within the 15 credits required in history, at least 3 credits should focus on gender in history and 3 credits should focus on an analysis of diversity in the U.S.

Plus one course (3 credits) as approved by advisor from the Department of Geography.

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a comprehensive examination in their subject area administered by the department within the Arts and Sciences.
4. Complete the Dignity for All Students Act (DASA) workshop.
Adolescent Spanish - MA / Advanced Certificate

The master's and advanced certificate programs prepare candidates to teach Spanish in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Spanish 7-12.

The master's program (Academic Plan: SPANAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: SPAAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8 or better, and a major in Spanish with a grade point average of 3.0, with a minimum of 18 credits in Spanish literature above the intermediate level; and oral proficiency at the advanced low level of the American Council on the Teaching of Foreign Language (ACTFL) Oral Proficiency Interview (OPI).

   Or

Applicants who do not have a Spanish major but have a liberal arts and science major (or interdisciplinary liberal arts or science concentration) of at least 30 credits can take two exams to meet the Spanish coursework requirement and writing component: the Oral Proficiency Interview (OPI) administered by the American Council on the Teaching of Foreign Language (ACTFL), and a rigorous Spanish literature written exam administered by the Department of Romance Languages. Candidates must achieve a minimum score of advanced low on the ACTFL OPI exam to meet the admission requirement, and must achieve a passing score in the Department's written test of Spanish literature.

Plus (for all applicants)
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression. Two professional references.

3. A personal statement.

4. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Advanced Certificate**

1. An undergraduate major of at least 30 credits in Spanish, and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution.

2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.

3. Two professional references.

4. A personal statement.

6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Progress Standards**

**A. 12-Credit Progress Standards for Matriculated Students**

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   *Note: It is recommended that students with two or more INs take an official leave of absence*

5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

prereq: SEDF 70500
coreq: One of the following must be a Co-req:

SED C 724; SED C 754.01; SED C 774.11; SED C 774.21; SED C 774.02; SED C 774.12; SED C 774.22; SED C 754.04; SED C 774.14; SED C 774.24; SED C 721; SED C 751; SED C 771.1; SED C 771.2; SED C 722; SED C 752.01; SED C 772.11; SED C 772.21; SED C 752.02; SED C 772.12; SED C 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SED C 723; SED C 753; SED C 773.1; SED C 773.2; MUSED 678; SED C 756; SED C 766.1; SED C 776.2; SED C 754.03; SED C 774.13; SED C 774.23; SED C 725; SED C 755; SED C 775.1; SED C 775.2; SED C 752.03; SED C 772.13; SED C 772.23

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SED 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SED 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

prereq or coreq: SEDF 70400
SED C 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 45 hrs,
Credits 3 cr

SED C 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71200
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SED C 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500
Hours 15 hours of seminar; 48 hours of fieldwork
Credits 1

- Take Either -

SED C 75203 - Student Teaching in Spanish, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,  
Credits 5  
- Or -  

**SEDC 77213 - Practicum in Spanish, Grades 7–9**  
Supervised practicum for teachers of Spanish in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77213 must also take SEDC 77223.  

*prereq: SEDC 72200  
prereq or coreq: SEDF 70600  
Hours 45 hours plus conferences,  
Credits 3*  

- Plus -  

**SEDC 77223 - Practicum in Spanish, Grades 10-12**  
Supervised practicum for teachers of Spanish in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77223 must also take SEDC 77213.  

*prereq: SEDC 72200  
Hours 30 hrs plus conferences,  
Credits 2 cr*  

**Spanish Courses**  

For Master's Degree Program Only  
18 Credits  
- 3 credits in Structures of Modern Spanish (SPAN 60100).  
- 6 credits in Spanish Peninsular Literature.  
- 6 credits in Latin American Literature.  
- 3 credits in either Spanish or Latin American Literature.  

**Exit Requirements**  
1. An overall GPA of 3.0.  
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.  
3. Master's degree students must pass a final examination based on a short reading list (40 titles; 20 in Spanish literature, 20 in Latin American literature). This exam will be different from the one offered to MA students in Spanish, although it may be administered on the same day: Romance Languages department.  
4. Complete the Dignity for All Students Act (DASA) workshop.
Post-Baccalaureate Certificate

Animal Behavior & Conservation Certificate

The Department of Psychology offers a Certificate Program in the Advanced Psychology of Animal Behavior & Conservation (ABC) registered with the New York State Education Department. The ABC certificate provides formal recognition of the training in ABC for students who already possess a baccalaureate or graduate degree in another area and, by virtue of prior educational or practical experience in animal behavior and conservation, are qualified for the additional training described in this program.

Courses are scheduled so that the certificate requirements can be completed within two years. All required, and most other courses, are offered after 5:30 PM enabling students to complete the requirements for the certificate while working.

Requirements

Students are required to complete at least 15 credits in the ABC area required for the MA in Animal Behavior & Conservation. Although a thesis is not required for non-degree students, the ability to conduct research in the ABC area must be demonstrated either through prior experience or completion of a research project while in the Certificate Program. Students who do not have an adequate background in statistics and/or research methodology will be required to take such courses in addition to those required for the Certificate.

PSYCH 71700 - Animal Behavior and Conservation in Captivity and the Wild (B)

Introduces concepts and techniques of wildlife biology and comparative psychology, with contributions from researchers in social behavior, reproductive biology, wildlife conservation, captive breeding, and animal cognition and communication.

Hours 3 hrs including conference
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75103 - Basic Psychological Processes 1: Perception, Learning and Comparative Cognition (S, B)

Covers the basic concepts in perception, learning and comparative psychology. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

Plus three additional ABC-related courses (9 credits)—see listing of courses for the MA in Animal Behavior & Conservation.

Geographic Information Science Post-Baccalaureate Certificate
The Post-Baccalaureate Certificate Program in Geographic Information Science was established in 2001 to meet the demand for people with expertise in GIS. The GIS Certificate program is a 15-credit post-baccalaureate professional program that offers advanced training in Geographic Information Science (GIS). Students are required to take five graduate-level GIS classes including GTECH 71000 - Concepts and Theories in GeoInformatics, GTECH 73200 - Advanced GeoInformatics, and three other GTECH or related courses. Students are strongly urged to include GTECH 70900 - Introduction to Geographic Information Systems in their list of courses. Those interested in GIS development are encouraged to take two programming-oriented classes (GTECH 73100 - GeoComputation I and GTECH 73300 - GeoComputation II). Students planning a career in GIS applications are encouraged to choose from the wide range of applications courses. Students interested in remote sensing may take the sequence of GTECH 71200 - Remote Sensing of Environment through GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing courses and those interested in cartography and geovisualization may take GTECH 72100 - Introduction to Cartographic Design and Geovisualization and GTECH 72200 - Advanced Topics in GeoVisualization.

Courses taken to fulfill the requirements of the GIS certificate program may also count towards fulfillment of the Geography MA degree. This happens automatically for GIS certificate students who concurrently enroll as MA students. For students who enroll in the GIS certificate program prior to enrolling in the MA program, the student must request the transfer of credits. The GIS Certificate program does not accept transfer credits to satisfy the minimum 15 credits required for the program.

As the GIS certificate program is a non-degree program, GIS certificate students are considered "non-matriculated." Enrollment in the GIS certificate program does not guarantee eligibility for financial aid or for a student visa. For more information contact the United States Citizenship and Immigration Services (http://www.uscis.gov/portal/site/uscis).

Admission Requirements

For applicants who are currently matriculated and in good standing in a graduate-degree program at Hunter College, there is one requirement to be considered for admission:

The student must have passed a college-level statistics course that covers hypothesis testing and simple statistical modeling techniques.

All other applicants must meet the following minimum requirements in order to be considered:

1. The student must hold a bachelor’s degree from a regionally accredited institution, comparable in standard and content to a bachelor’s degree from Hunter College.
2. The student must demonstrate the ability to pursue graduate work successfully. In general, the minimum requirements for consideration are a B-minus average in the undergraduate record as a whole and a B average in the major.
3. The student must have taken a college-level statistics course which covers basics such as hypothesis testing and simple statistical modeling techniques.

Requirements for the Certificate

Completion of the post-baccalaureate certificate program in GIS requires a minimum of 15 credits, which include:

Required courses (6 cr.)

GTECH 71000 - Concepts and Theories in GeoInformatics
Theoretical and conceptual foundations of GeoInformatics and Geographic Information Science.

coreq: GTECH 70900
Hours 60 hrs including conference (2 lectures, 2 labs),
Credits 3

courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 73200 - Advanced GeoInformatics

Expansion of GTECH 70900 and GTECH 71000 concentrating on advanced concepts in GeoInformatics, including data models, algorithms, GIS analysis and scripting.

prereq: GTECH 70900 and GTECH 71000
Hours 45 hrs including conference,
Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

Electives (9 or more cr)

GTECH 70200 - Quantitative Methods in Geography

Application of scientific methods to geographic research, including sampling, distribution measurement, characterizing relationships, multivariate analysis, and a strong focus on computational modeling statistical relationships using either R or Python.

prereq: Permission by instructor
Hours 3 hrs
Credits 3 cr.

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 70500 - Spatial Data Analysis

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

prereq: one course in statistics and permission of the instructor
Hours 60 hrs including conference (2 lectures, 2 labs),
Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the
middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 71200 - Remote Sensing of Environment

Fundamental concepts of remote sensing of environment, satellite sensor systems and their applications, and basic concepts of image analysis.

prereq: GTECH 71100 or permission of the instructor
Hours 60 hours (2 lecture and 2 hour labs weekly),
Credits 3 cr
GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing

Quantitative processing of digital imagery; enhancement, information extraction, classification; algorithms, registration, rectification; and Light Detection and Ranging (LiDAR) technology and principles and applications; lab exercises.

prereq: GTECH 71200 multivariate stat, elem linear algebra
Hours 6
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 72100 - Introduction to Cartographic Design and Geovisualization

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

prereq: GTECH 70900
Hours 4 hrs
Credits 3 cr.
Material Fee: $15

GTECH 72200 - Advanced Topics in GeoVisualization

This course immerses students in animated and interactive maps, web mapping, and new visualization techniques.

prereq: GTECH 70900
Hours 4 hrs
Credits 3 cr.
GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the
middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 73100 - GeoComputation I

A comprehensive course in programming that concentrates on object-oriented programming methods and algorithms specific to geographic and cartographic applications.

_prereq: GTECH 71000 or equivalent

Hours 6
Credits 4

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 73300 - GeoComputation II

Theory and applications of GeoComputing. Models and algorithms for advanced spatial and temporal modeling are examined and programmed. Emphasis is on an object-based computational paradigm and spatial data structures.

_prereq: GTECH 73100 and GTECH 73200 and permission of the graduate adviser

Hours 3
Credits 3

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Minimum GPA Requirement

3.0 average or better on all core and elective courses. Additional elective courses may be added to this list or may be used as substitutes with the approval of the GIS Certificate adviser.

Application Deadline

For fall semester: July 1 (April 1 for international students)
For spring semester: January 1 (November 1 for international students)

Return to: Geography Department

Accelerated Bachelor of Arts/Master of Arts - BA/MA

Physics - Accelerated BA/MA

This special program for a limited number of well-qualified undergraduate students leads to a bachelor of arts and a master of arts degree. Students are offered the opportunity quickly to reach a level where they can stand in competition for admission into any doctoral program in physics. The program requires 124-126 credits (including the 30 credits
required for a physics major BA degree and 30 credits from the graduate curriculum). Because this program requires a large number of physics courses, many of which have other physics courses as prerequisites, students in this program should begin taking physics courses in their first or second undergraduate semester. Students should consult the department chair, undergraduate adviser, or graduate adviser for details as early as possible.

**Bachelor of Arts/Master of Arts - BA/MA**

**BA/MA in Environmental Studies and Adolescent Education.**

The Geography Department together with the School of Education also offers a 5-year combined BA/MA Program in Environmental Studies and Adolescent Education. This program is designed for highly qualified Environmental Studies majors who, during the course of their sophomore year, decide to pursue a career in secondary school teaching. For more information please contact the Department of Geography.

**Biological Sciences with Specialization in Biotechnology - BA/MA**

In this five-year program, qualified undergraduate Hunter College biology majors begin graduate work as seniors and receive the MA one year after completing BA requirements. Students are provided with theoretical knowledge and skills in molecular biology, and a foundation for application of these skills in careers in the biotechnology/pharmaceutical industry, academic research, or public health. Successful completion of the biotechnology workshop, an essential program component, entitles students to a summer internship in an industrial or private research laboratory.

**Dance Pre-K - 12 - BA/MA**

The BA and BA/MA programs in Dance lead to initial certification as a teacher. Graduates from the BA/MA program in Dance are eligible for professional certification after three years of teaching experience. These programs include fieldwork in New York City public schools. Students must take a specified sequence of education courses in addition to fulfilling the General Education Requirement (GER) and the requirements of their major. BA/MA students also take additional graduate credits in Dance.

The Education minor is composed of 11 credits in undergraduate courses in the School of Education and 31 graduate credits in the dance program in addition to the 34-credit undergraduate dance major.

**Admission Requirements**

**Admission Information**

Admission to the School of Education is not automatic with admission to Hunter College. There is a separate admission process that involves a paper application, a writing sample and an interview.

Students must apply by November 1 for the spring term and by April 1 for the fall term. Applications are available in the School of Education, Room 1000 West.

**Admission Requirements**
1. Minimum of at least 65 credits with at least 6 credits in dance for BA/MA applicants but no more than 90 credits.
2. A Hunter College GPA of 2.8 or better.
3. A grade of B or better in ENGL 120 (or a 200-3000 level writing course).
4. No more than 6 credits of CR/NC grades.
5. Formal declaration of a major in dance.
6. Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.
7. All applicants must interview with the dance faculty at the time of declaration concurrent with application to the School of Education.

**BA/MA applicants must also complete at least 6 credits in Dance, with an average of 3.0 GPA in these major courses. Students must be admitted to the School of Education with a formal declaration of Dance as a major with a statement of intention to apply for the BA/MA.**

**Required Liberal Arts & Sciences General Core**

The courses listed below are required for BA in Dance Education students. Some of these courses may be used towards the GER:

- ENGL 120 and 220;
- Two courses selected from: HIST 151/HIST 152/GEOG 101;
- STAT 113;
- 9 credits in Math, Science or Technology with at least one science course with a lab component;
- One course that focuses on communication (see Program Advisor for acceptable courses); and
- 12 credits of study in a language other than English (or exemption on basis of equivalency).

**Other State Certification Requirements**

- Students must pass the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Exam prior to student teaching.
- Students should plan to take the ATS-W Secondary and CST Dance prior to graduation.
- Fingerprints must be cleared prior to student teaching.

**Liberal Arts and Science Major Requirements**

BA in Dance Education: 34-credit major in dance.

**Dance Course of Study**

**BA in Dance Education Course of Study**

See Undergraduate Catalog

**BA/MA in Dance Education**

1. 34-credit undergraduate dance major
2. BA in Dance Education Course of Study Courses

Plus

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**
Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500*

*coreq: One of the following must be a Co-req:*

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 774.02; SEDC 774.22; SEDC 774.42; SEDC 774.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23

*Hours 30 hrs, plus lab,  Credit 2 cr*

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308*

*prereq: 12 credits of coursework*

*Hours 45*

*Credits 3*

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

**DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning**

An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct "action research" in order to identify conditions that support or hinder productive teaching and learning. This first phase of the "methods" course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).

*prereq or coreq: 6 credits in education and 12 credits in dance*

*Hours 3 hrs + 36 hrs of fieldwork*

*Credits 3*

**DANED 76200 - Dance Methods II: Advanced Curriculum Design and Pedagogy for Productive Teaching and Learning**

Advanced investigation of contexts for productive teaching and learning. Students will engage in intensive examinations of pedagogical theories and practices, conduct "action research" in order to identify conditions that support or hinder productive teaching and learning, develop unit plans, and participate in peer-to-peer inquiry groups to develop their own artistry in teaching.
prereq: DANED 76000
Credits 3

DANED 76605 - Student Teaching

Teacher candidates complete a total of 60 days of student teaching (30 days of student teaching at grades pre-K-5 and 30 days at grades 6-12) under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty 4 times during their student teaching experience. All student teachers are required to participate in a seminar class meeting 1 hour per week for 15 weeks. A culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000, DANED 76000, 76200
Hours 60 days plus 15 hrs seminar
Credits 5

DAN 74000 - Aesthetics

A seminar examining a variety of global artistic practices and value systems from both aesthetic and cultural perspectives. The course focuses on a broad range of dance and examines how choreographers, dancers, designers, critics, audience members, teachers, producers and scholars function and interrelate. Students examine a variety of analytical paradigms-- including structuralism, semiotics and literary theory -- through the study of the major writers and thinkers in the field. A culminating study is typically a close analysis of the student's personal creative work.

prereq: Admission to one of the graduate dance programs
Hours 3
Credits 3

DAN 74200 - Graduate Dance History

This course deepens the student's understanding of key points in concert and global vernacular dance in the 20th century. How those points have reflected social, cultural, and political forces, and impacted 21st century dance, is examined throughout the course. A major research paper is the culminating project. Both practice and theory are engaged through readings of historic texts and public reviews, film/video viewings, attendance at live performances, and group discussions.

prereq: Admission to one of the graduate dance programs AND DAN 23200 or comparable undergraduate dance history course or equivalent experience.
Hours 3
Credits 3

DAN 74600 - Special Topics in Dance

A seminar/laboratory course focusing on a varying series of topics, selected according to student interests, current faculty research, and available guest artists and master teachers. Topics can include a wide variety of historical, aesthetic, cultural, technological and political issues. The course encourages advanced study in specialized areas of particular student interest. Possible topics include: dance in the digital age, specific cultural forms, dance in community settings, motor learning from multiple perspectives, etc.
prereq: Admission to one of the graduate dance programs  
Hours 3  
Credits 3  
Can be repeated for credit with different content areas

**DAN 70100 - Physical Training**

The ongoing, rigorous training in a dance/movement style pertinent to the individual student's artistic and pedagogical goals. Exploration of unfamiliar movement disciplines will be required. This course is designed to allow each student to articulate and execute a regular training regimen that will build and refine her/his skills as practitioner of an artistic movement discipline. A variety of individual training plans are overseen by faculty. Regular group meetings examine how underlying aesthetic and kinesiological assumptions embodied by the training inform students' approaches to teaching artistry, improvisation, and choreography.

prereq: Admission to a graduate dance program  
Hours 3  
Credits 2  
Can be taken more than once for credit, required 3 times for MA, 2 times for BA/MA.

**DAN 70500 - Maintenance of the Dancer's Instrument**

An in-depth survey of a wide variety of somatic approaches to and interventions in dance training including ideokinetic and bodywork techniques, postural and motional training methods, and alternative movement disciplines. The course includes analytical, observational and participatory experiences, and will build on individual needs and interests of the students. Application of somatic knowledge to teaching movement and dance is stressed.

prereq or coreq: DAN 35000 or equivalent course and/or related professional background  
Hours 3  
Credits 3

**DAN 73000 - Studies of Forms**

This course develops choreographic proficiency through practical experience with, and observation of, artistic form and content across a range of disciplines. Short- and long-term experiments are presented in class and in occasional showings open to the public. The role of self-review, as well as external feedback during creative processes, is considered by utilizing a variety of protocols for response.

prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department  
Hours 3  
Credits 3  
This course is repeatable once for credit.

**DAN 73500 - Performance and Presentation**

The development and public presentation of original choreography in performance at Hunter College or another suitable public venue. Regularly scheduled showings will offer opportunities to reflect on the work, receive feedback, and dialogue with faculty during the process of conception and execution.

prereq: Acceptance into one of the graduate dance programs: BA/MA, MA  
Hours 3  
Credits 1  
This course is repeatable once for credit.
Economics - BA/MA

The Department of Economics makes it possible for students to earn both a BA and an MA degree in economics within the credits required for a BA at Hunter. BA/MA students must complete the requirements for both the BA and MA degree.

Students who wish to declare the BA/MA major must have a 3.0 average in Economics and in the cumulative index, with a minimum grade of B in ECO 300, and ECO 321, and a C in Math 150, or their equivalents. Continuing in the program is contingent upon maintaining a 3.0 GPA in Economics and the cumulative index and receiving a minimum grade of B in ECO 301 and an average grade of B in Math 150 and Math 160.

Mathematics Grades 7-12 Adolescent Education - BA/MA

Students interested in secondary school teaching may pursue a combined BA/MA program in teaching. This program requires a minimum of 141 credits.

Admission Requirements for the BA/MA in Teaching

1. Completion of at least 45 credits with a GPA of 3.0.

2. Completion of at least 10 credits in mathematics, including a year of calculus (MATH 15000 and 15500 or the equivalent), with an average of 2.7 in these major courses.

3. Admission to the School of Education

Degree Requirements for the BA/MA in Teaching

BA in Mathematics or Statistics

The 33 credits required for the BA in Mathematics OR the 32 credits required for the BA in Statistics, as described in the Undergraduate Catalog

Graduate Courses in Mathematics and Statistics

The following 15 graduate credits:

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra

Hours 3 hrs
Credits 3 cr
Open only to Teacher Education Program students.

**MATH 63000 - Secondary School Mathematics from an Advanced Perspective II**

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

*Hours 3 hrs.*  
*Credits 3 cr.*  
*Open only to Teacher Education Program students.*

**MATH 63300 - Axiomatic Geometry**

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry. This is a theoretical mathematics course. The material is presented in its historical context.

*prereq: departmental permission*  
*Hours 3*  
*Credits 3*

**MATH 63500 - Problem Solving Explorations in Mathematics**

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics. This course is for current and prospective teachers.

*prereq: none*  
*Hours 3*  
*Credits 3*

**STAT 61200 - Discrete Probability**

Combinatorics, discrete probability, random variables, probability models and an introduction to game theory. A study of discrete probability with particular attention paid to the integration of these topics into the school curriculum. This course is for current and prospective teachers.

*prereq: a statistics course on or above the level of STAT 11300*  
*Hours 3*  
*Credits 3*  
-or-

**STAT 61400 - Data Analysis Using Statistical Software**

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

*prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.*
Comprehensive Examination in Mathematics

Also required is a comprehensive examination in mathematics consisting of three parts covering the material in MATH 62000, 63000 and 63300. Students may sit for the comprehensive examination only after having taken all three courses. Students who fail any part of the examination need only retake that part of the examination. A student can take the comprehensive exam in mathematics twice; after that, a committee formed by the Mathematics/Statistics Chairperson and consisting of members from the Department of Mathematics and Statistics and the School of Education will decide if the student can take the exam a third and final time.

School of Education Courses

The student should consult the School of Education section of the graduate college catalog for the sequence of teacher education courses

Mathematics or Statistics and Applied Mathematics - BA/MA

The BA/MA program offers promising students the opportunity to complete both the bachelor's and master's degree requirements with a minimum of 120 credits. Requirements are the same as those for a major in the department, plus 30 credits at the graduate level. Interested students should contact the departmental graduate adviser for further information regarding eligibility and curriculum requirements.

Option 1: BA/MA Program in Mathematics

Students complete the BA in pure mathematics with 30 additional credits at the graduate level in pure mathematics approved by the departmental graduate adviser.

Option 2: BA/MA Program in Statistics and Applied Mathematics

Students complete the BA in statistics or mathematics with 30 additional credits at the graduate level in applied mathematics, statistics and computer science approved by the departmental graduate adviser.

Music Teacher Education - BA/MA

Return to: Music Department

Exceptionally qualified undergraduate students may obtain a master’s degree in teacher education in 5-6 years with a minimum of 140 credits. Requirements are the same as those for the 42-credit BA plus those for the MA in teacher education (45 credits at the graduate level). Matriculation is open to undergraduates with at least 60 credits who have a cumulative grade point average of 3.0 or better and a major subject index of at least 3.0. Students must have completed at least 24 credits of course work in music, including at least two semesters of music history, four semesters of music theory, and four semesters of musicianship (sight singing, ear training, and keyboard studies). At least 12 credits, including at least 6 credits in music major courses, must have been taken at Hunter College. Students must have passed the music department’s piano proficiency examination, and they must demonstrate reasonable mastery on an instrument.
(which may be a keyboard instrument) or voice. They must be admitted to the program by both the music department and the School of Education. They must maintain the grade point averages required for admission at all times in order to remain in the program; see

http://www.hunter.cuny.edu/music/grad-students/admissions/ba-ma/?searchterm=ba/ma for details.

**Bachelor of Arts/Master of Science - BA/MS**

**Social Research - BA/MS**

For a limited number of qualified undergraduate students, the sociology department offers an accelerated five-year program leading to a BA in sociology and an MS in social research. The program requires a total of 145 credits of college work (100 undergraduate, 45 graduate). To get the maximum financial benefit from BA/MS program, students should apply before the number of cumulative credits taken (including those being taken currently) exceeds 100 credits. All credits above 120 will be charged at the graduate tuition rates. The BA/MS program is a full-time program requiring 12 graduate credits per term.

In order to be admitted to the program students must complete their basic requirements, including their major, pass an honors course or its equivalent (cross listed graduate course, honors independent study), have an overall GPA of at least 3.5 and meet other requirements of the MS program as listed below (with the exception of the GRE exam). BA/MS applicants should have no more than 100 credits completed before entering the program and can apply for fall or spring admission. Applications on forms provided by the undergraduate advising office are filed with the undergraduate advisor, and include a copy of the current transcript and two letters of recommendation.

Students are admitted to the BA/MS program at the end of their junior year but must consult with the undergraduate advisor before they file the application.

**Bachelor of Science/Master of Science - BS/MS**

**Accelerated BS/MS in Nutrition (DPD)**

Return to the School of Urban Public Health.

This pathway is for third year NFS majors who are interested in completing their degree and then continuing at Hunter to obtain a master's degree and verification statement (students will be provisionally accepted into the program in their junior year but must maintain grade requirements to matriculate into the MS-DPD program).

This accelerated pathway provides the opportunity for undergraduate students to remain at Hunter for their graduate coursework providing students the opportunity for academic acceleration to a graduate degree.

Since the MS-Nutrition curriculum meets the didactic program in dietetics (DPD) requirements established by the Commission on Accreditation for Dietetics Education (CADE), the credentialing arm of the American Dietetic Association (ADA), it will qualify students from this BS/MS accelerated track to apply for Dietetic Internships and continue their professional preparation for the Registered Dietitian (RD) credential.

For further information consult the undergraduate catalog and the Nutrition - MS program in this catalog.

**Doctor of Education - Ed.D.**
Instructional Leadership - EdD

Program Coordinators/Advisors

Marshall George  
(212) 772-4659  
1023 West Building  
mg2003@hunter.cuny.edu

The Doctor of Education (Ed.D.) degree in Instructional Leadership prepares experienced educators to become effective practitioner leaders able to translate current research into policy and practice. The program prepares teacher leaders, department chairs, administrators and other education professionals to transform K-12 education, driving better educational experiences and outcomes across larger systems. The program provides clinically-focused doctoral training and a deep grounding in the research on educational practice, particularly as it applies to urban settings and suburban settings with increasingly diverse student populations. Students develop the ability to synthesize and apply new research to improve educational experiences and outcomes for students, and the skills to communicate their insights effectively as leaders in schools and communities.

Program Highlights

- Designed to meet the needs of working educators with a part-time cohort model and practice-focused curriculum over five years
- Focused on interpreting and translating current research into clinical practice.
- Leverages the strength and expertise of faculty with a wide range of research and practitioner areas who are engaged with current scholarship and practice.
- Provides opportunities to expand both the breadth of knowledge across the field and depth of knowledge in a particular area of interest.
- Institutionally committed to serving the needs of public education with an urban focus.

Program web site

Admission Requirements

1. A master's degree from an accredited institution in the field of education or related to your work in education with a GPA of at least 3.5.
2. A minimum of two letters of recommendation is required.
3. A personal statement.
4. Graduate Record Examination (GRE).
5. Prospective students whose native language is not English and who have completed all or part of their post-secondary education in a country where English is not the native language need to take the TOEFL.
6. A resume.
7. An on-site interview and writing activity may be required as part of the interview process.

Progress Standards

1. Students must maintain a minimum 3.5 GPA throughout the program. At the end of each semester, when grades have posted, the program director will meet with the Assistant Director of Graduate Student Affairs in the Office of Academic and Student Affairs to review the GPA of all students in the program and to identify any who have fallen below a 3.5. These students will be placed on academic probation. Once they are notified of probation, they will be required to meet with their advisor to develop an academic plan for improving their GPA. At the end of the semester that they are on probation and grades have posted, the program director will review the student's GPA. If the GPA is above a 3.5, the student will be taken off of
academic probation. If it is still below a 3.5, the program coordinator and advisor will determine if the student has made adequate progress towards improving their GPA. If it is determined that the GPA is improving, the student will be placed on academic probation again and allowed to continue in the program. If adequate progress has not been made, the student will be dismissed from the program. Students cannot remain on academic probation for more than three consecutive semesters without being dismissed from the program.

2. At the completion of all coursework except for dissertation seminar, students must pass a comprehensive examination. (The comp exam may be completed concurrently with final 3 credits of coursework.) The Comprehensive Examination serves two overarching purposes: (a) to assess doctoral students' content knowledge in the various areas of program coursework and (b) their readiness to move into the dissertation phase of the doctoral program. The comprehensive examination will consist of three tasks. While the extent of the relationship among these three tasks will be up to individual committees, the tasks must be used to assess the following:
   - Student's understanding of a major issue/problem of practice or curriculum in education (this links to the REPAC courses).
   - Student's understanding of research and research methodologies (this links to the research toolkit courses).
   - Student's understanding of a specific area of study (this may link to special topics course and/or to an intended dissertation topic).

3. Students will have to successfully present and defend a dissertation proposal to their dissertation mentor and readers (minimum of two) before collecting and analyzing data.

### Course of Study

**Academic Plan:**

**INSTLD-EDD**

**Total Credits**

60

**SPED 80000 - Introduction to Doctoral Studies: Theory and Research in Curriculum and Teaching**

This course provides a brief overview of theory and research in curriculum and teaching. Students will consider how their own positionality influences ways in which they read and interpret educational research. Conversely, students will also understand how a researcher's positionality influences all aspects of their research, including: questions asked; theoretical framework adopted; methodologies chosen; data collection; analysis and interpretation of data; results or findings; and implications. Students will also engage in studying selected influences of curriculum history, particularly post 1945-present. These influences include: The Cold War, Civil Rights Movement, The War on Poverty, No Child Left Behind, and the Standards Movement. This course will serve as a beginning to cultivating student interests in developing their own research studies by weaving together theory, research, practice, and policy within education.

*Hours 3 hrs  
Credits 3 cr*

**EDF 80400 - Analysis of Major Issues in Contemporary Education Reform**

After a brief review of the history of education reform efforts, we will study the major debates and policy initiatives that have shaped the contemporary structures of American public education. We will seek to understand what is at
stake in these initiatives, the evidence behind their adoption and resistance to them.

*Hours 3 hrs  
Credits 3 cr*

**EDF 80000 - Statistics for Applied Educational Research I**

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, statistical assumptions, t-tests, analysis of variance, correlation, and chi-squared.

*prereq: SPED 80000  
Hours 3 hrs  
Credits 3 cr*

**EDF 80100 - Qualitative Methods in Educational Research**

This graduate course introduces students to qualitative research within the field of education. The course provides an overview of the different approaches to qualitative research and specific strategies of data collection and analysis, their underlying assumptions and appropriateness for particular research questions, and authentic experience with qualitative research.

*prereq: SPED 80000  
Hours 3 hrs  
Credits 3 cr*

**EDF 80200 - Quantitative Methods and Measurement**

The purpose of this course is to increase students' understanding of quantitative research methods and design issues relevant to the pursuit of research in education, with a focus on correlational, experimental and quasi-experimental design.

*prereq: EDF 80000  
Credits 3 cr*

**EDUC 80100 - Research on Curriculum and Teaching of English Language Learners**

The focus of this course is on effective curriculum and instruction supporting the academic, social, and emotional development of ELLs. Topics and assignments provide a direct connection of research to programming, and policy for ELLs in P-12 school contexts. Analysis of research on ELL education, including review of quantitative and qualitative studies of instruction and curriculum for ELLs will provide the foundation for the course content. This course will prepare doctoral students to critically evaluate educational research on ELLs, deeply understand the core components of quality instruction for ELLs in P-12 classrooms, and be able to clearly identify appropriate methods for addressing and improving instruction and curriculum for ELLs. Topics and assignments are designed to provide theory that directly connects to the design of instructional models of and curricula for ELL instruction.

*Hours 3 hrs  
Credits 3 cr*

**EDUC 80600 - Effective Professional Development of Teachers**
In-depth study of research and practice in professional development for educators. Students will explore the literature about effective methods, contexts, and delivery of coaching, mentoring, and professional learning for teachers and other educators. Focus on understanding the strengths and weaknesses of different approaches to professional development, and on learning how to assess the appropriateness of a professional development strategy with respect to content and the teacher population to be served.

Hours 3 hrs
Credits 3 cr

**SPED 80100 - Research on Effective Practice and Curriculum for Students with Disabilities**

This course provides the opportunity to consider disability in the context of schools and society—with view to engaging with, and critiquing, existing research in the fields of special education and disability studies in education (DSE). We will be mindful of how the disposition and paradigm of researchers influences all aspects of their work including: problems identified; questions asked; methods used; analysis employed; findings or results; interpretations, and: implications. This course focuses on the nature of evidence-based practice involving students with disabilities within specific contexts. The course is designed to provide a foundation for the course work, independent scholarship, and educational research that students will undertake in the process of completing the doctoral degree.

Hours 3 hrs.
Credits 3 cr.

**SPED 80200 - Enhancing Achievement through Family & Community Relationships**

This course examines the role of school, family and community in educational policy and practice. Students will read and critique a variety of theoretical frameworks about the intersection of home, school, and community; analyze current research on the impact of family and community engagement on student learning and school improvement; explore policies at local, state, and federal level.

Hours 3.0
Credits 3.0

**EDUC 80700 - Professional Communications for Educational Settings**

This course explores a range of educational and school-based writing genres and writing for a variety of audiences. Resources and practices related to developing and writing within a variety of genres from traditional print publications to new media outlets will be introduced, explored and, most importantly, enacted.

Hours 3 hrs
Credits 3 cr

**EDUC 80500 - Research on Effective Practice and Curriculum (REPAC) in Literacy**

This course examines current research in literacy curriculum and its implementation. A host of theoretical approaches to the teaching of literacy and language development will be addressed and critiqued. Particular attention will be paid to research on literacy instruction and interventions that serve the needs of diverse students in urban schools.

prereq: SPED 80000 Intro to Doc Seminar
EDUC 80300 - Research on Effective Practice and Curriculum in Math

The course will examine the current research on effective mathematical teaching, assessment practices, student learning, and curriculum design. Students will synthesize research and engage in research explorations focused on problems of practice.

EDF 83000 - Dissertation Proposal Seminar

This course is a seminar designed to provide students with a general overview of the structure and components of a dissertation proposal. It serves as common ground for all cohort members to prepare for highly individualized work with a dissertation advisor in subsequent semesters. Throughout this course, students will focus upon the following components: (1) the background of the problem to be investigated; (2) formulating a research question(s); (3) developing a theoretical framework; (4) conducting a literature review; (5) choosing research methods to collect data; (6) analyzing findings; and (7) generating implications. These elements will be taught in relation to a "traditional" five-chapter dissertation, along with variations and expansions of this structure. In addition, students will review and become certified in appropriate IRB requirements. A major goal of this seminar is to individualize support with view to preparing each student to develop a topic for approval that will continue to be worked upon with a dissertation advisor during the following semester.

EDF 83100 - Dissertation Advisement I

Dissertation Advisement I is a customized course of study taken immediately after Dissertation Seminar. The purpose of this course is to provide individualized support to doctoral students as they continue to engage with components of their dissertation to develop a robust proposal. The dissertation proposal must minimally consist of the first three chapters that include the following components:

- the background of the problem to be investigated;
- research question(s);
- a theoretical framework, where appropriate;
- a literature review;
- selected research methods to collect data;
- tentative description of intended analysis. In addition, it should be sufficient to be the basis of creating an IRB research proposal.

Note: This course is cross listed with SPED 83100

prereq: Dissertation Proposal Seminar (Pre-Requisite)

Choose at least one or more of the following:
EDF 80300 - Statistics for Applied Educational Research II

This course builds on knowledge of basic statistics, focusing on multiple regression and analysis of covariance for statistical analysis of continuous and categorical independent variables. Data exploration and assumptions are discussed in detail. Computer software for analysis of quantitative data is introduced.

Hours 3.0
Credits 3.0

EDUC 80800 - Action Research

The purpose of this course is to explore various aspects of a movement in education and educational research in which educators (e.g., P-12 teachers, school administrators, etc.) actively participate in making change in their practice through conducting systematic inquiry and research. The course will provide a broad overview of the epistemological, political, and methodological issues associated with the idea of practitioner research.

prereq or coreq: EDS 80300 Qualitative Research Methods
Hours 3 hrs
Credits 3 cr

EDUC 80900 - Case Studies in Education: Institutions, Schools, Programs, Classrooms, and Individuals.

This course examines case study as a research design in educational contexts. The unit of study can include institutions, schools, programs, and individuals. A variety of topics will be explored, including becoming familiar with types of case studies, conceptualizing case study research, creating research questions, generating data, use of analytic methods, and application of case study findings to leadership and practice. In addition, the course will feature related, sometimes overlapping, methodological approaches such as portraiture and narratives. The course engages students in substantial study and critique of current and "classic" cases in educational research based on candidates' fields of interest. Particular attention will be paid to ethical considerations in conducting case study research in urban schools and communities.

Hours 3 hrs
Credits 3 cr

EDPS 74200 - Special Topics in Educational Research Methods

This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300
Hours 60
Credits 4

And Any of the following:

ECC 80100 - Research and Practice in Early Childhood Education
Overview of the historical and social influences on early childhood research and practice. Candidates will gain a comprehensive understanding of the significant policy, programmatic and pedagogical factors affecting the formal, symbolic and societal curricula, within and across early childhood education and care settings.

*Hours 3 hrs  
*Credits 3 cr

**EDF 81000 - Mind, Brain, and Education**

This course provides students with knowledge from the neuro and cognitive sciences that can be applied in practice. This course begins with an introduction to mapping the physical features of the brain before leading into contemporary research on "brain-based" research and educational curricula and programs. Students will engage in examining research and separate "nureomyth" from "neuroscience" in order to be informed by new knowledge from the science of learning.

*Hours 3 hrs  
*Credits 3 cr

**EDUC 80400 - Research on Effective Practice and Curriculum in Arts and Humanities**

This course examines current research in Arts and Humanities curriculum and its implementation. It addresses a host of theoretical and policy-oriented approaches to the teaching and learning of the arts and humanities. Particular attention will be paid to research on arts and humanities instruction and interventions that serve the needs of diverse students in urban schools.

*Hours 3 hrs  
*Credits 3 cr

**Exit Standards**

1. An overall GPA of at least 3.5.
2. Completion of Dissertation approved by the Dissertation Committee and an oral defense is the final requirement before the degree is conferred.

**Doctor of Nursing Practice - (DNP)**

**Community/Public Health Nursing DNP Sample Full-Time Program Plan**

Return to: Community/Public Health Nursing DNP Track

Year 1

Fall

**NURS 70000 - Theoretical Foundations of Nursing Science**
Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45
Credits 3

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

Hours 45
Credits 3

Spring

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.
Credits 3 cr.

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab
Credits 3 cr
PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Year 2

Fall

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
Hours 3 hrs.
Credits 3 cr.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.
Hours 3
Credits 3

Spring

PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.
Hours 3
Credits 3

PH 75600 - Fundamentals of Health Policy and Management
Examination of the organization, delivery and financing of health care in the United States as it pertains to the health policy-making process, including the organization of the agencies and personnel constituting the health care system, and analysis of government structure, laws, and regulations. Theoretical concepts, practice, and implementation of health programs in organized settings, including the planning, administration, management, evaluation, and policy analysis of public health agencies and private sector managed care.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Hours 3
Credits 3

Year 3

Fall

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,
Credits 5 cr

Spring

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100
prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,
Credits 5 cr

Summer

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,
Credits 5 cr
Year 4

Fall

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45
Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3

Spring

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400
Hours 45
Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing
practice.

*prereq: NURS 80200
*coreq: NURS 71600
*Hours 45
*Credits 3

Year 5

Fall

**NURS 80100 - Leadership for Quality Improvement**

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

*prereq or coreq: NURS 80000
*Hours 45
*Credits 3

**NURS 85000 - Health Policy and Population-Focused DNP Practice**

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

*prereq or coreq: NURS 704, NURS 749, PH75000
*Hours 45
*Credits 3

**NURS 90001 - DNP Capstone Internship**

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

*prereq: NURS 80000, NURS 80100; Departmental permission required
*Hours 30 hours lecture; 105 practicum hours
*Credits 3 cr.

Spring

**NURS 90002 - DNP Capstone Proposal Development**

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

*prereq or coreq: NURS 90001; Departmental permission required
Year 6

Fall

**NURS 90003 - DNP Capstone Implementation**

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

*prereq: NURS 90002; Departmental permission required*

**Hours** 15 hours lecture; 210 practicum hours

**Credits** 3 cr.

Spring

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

*prereq: NURS 90003; Departmental permission required*

**Hours** 33.75 hours lecture; 80 practicum hours

**Credits** 3 cr.

**Community/Public Health Nursing DNP Sample Part-Time Program Plan**

Return to: Community/Public Health Nursing DNP Track

Year 1

Fall

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45*

**Credits** 3
NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

Summer

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Year 2

Fall

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research
NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Spring

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.

Summer

PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

PH 75600 - Fundamentals of Health Policy and Management
Examination of the organization, delivery and financing of health care in the United States as it pertains to the health policy-making process, including the organization of the agencies and personnel constituting the health care system, and analysis of government structure, laws, and regulations. Theoretical concepts, practice, and implementation of health programs in organized settings, including the planning, administration, management, evaluation, and policy analysis of public health agencies and private sector managed care.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

**Year 3**

**Fall**

**NURS 77100 - Community/Public Health Nursing I**

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

**prereq:** NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

**Hours** 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,

**Credits** 5 cr

- Elective 3 cr.

**Spring**

**NURS 77200 - Community/Public Health Nursing II**

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

**prereq:** PH 75200, NURS 77100

**prereq or coreq:** NURS 70400

**Hours** 30 hrs theory, 15 hrs seminar, 167 hrs clinical,

**Credits** 5 cr

- Elective 3 cr.

**Summer**

**NURS 77300 - Community/Public Health Nursing III**

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

**prereq:** NURS 772

**Hours** 30 hrs theory, 15 hrs seminar, 167 hrs practicum,

**Credits** 5 cr
Year 4

Fall

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

Spring

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45
Credits 3

Year 5

Fall

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400
Hours 45
Credits 3
NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

*prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

Spring

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

*prereq or coreq: NURS 80000
Hours 45
Credits 3

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

*prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

Year 6

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

*prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

NURS 85000 - Health Policy and Population-Focused DNP Practice
An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

**prereq or coreq:** NURS 704, NURS 749, PH75000

**Spring**

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

**prereq:** NURS 90003; Departmental permission required

**Hours** 33.75 hours lecture; 80 practicum hours

**Credits** 3 cr.

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

**prereq:** NURS 80200

**coreq:** NURS 71600

**Hours** 45

**Credits** 3

**Family Nurse Practioner DNP Sample Full-Time Program Plan**

Return to: Family Nurse Practitioner DNP Track

**Year 1**

**Fall**

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

**Hours** 45

**Credits** 3

**NURS 70200 - Advanced Nursing Research**
Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice
Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research
Hours 3 hrs.
Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

Spring

NURS 70400 - Healthcare Systems and Policy
This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 75000 - Advanced Pharmacotherapeutics
Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
Hours 3 hrs.
Credits 3 cr.

NURS 75100 - Advanced Health Assessment
Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000
Year 2

Fall

**NURS 75500 - Primary Care Nursing I**

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

*prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100*

**NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years**

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

*prereq: NURS 71700, NURS 75000 and NURS 75100*

**Spring**

**NURS 75700 - Primary Care Nursing II**

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

*prereq: NURS 75500*

**NURS 76900 - Gerontological Nurse Practitioner Practicum**

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.
Summer

**NURS 82700 - Assessment and Primary Care of Children and Adolescents**

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

*prereq: NURS 71700, NURS 75000, NURS 75100*

**Hours**: 15 lecture, 15 seminar, 125 clinical

**Credits**: 3

Year 3

Fall

**NURS 71600 - Informatics for Evidence-based Practice**

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

*Hours*: 45

*Credits*: 3

**NURS 78000 - Health Care Ethics in the Life Span**

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

**NURS 80200 - Analytic Methods for Evidence-Based Practice**

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

*prereq: NURS 70200*

*Hours*: 45

*Credits*: 3

**NURS 81000 - Clinical Genetics**

Application of human genetics and genomics as they apply to health care professionals.

*Hours*: 45

*Credits*: 3
Spring

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

*coreq: NURS 70400
Hours 45
Credits 3*

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNP's. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

*prereq: NURS 80200
coreq: NURS 71600
Hours 45
Credits 3*

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.
  • Elective 2 cr.*

Summer

**PH 75200 - Fundamentals of Epidemiology**

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

*prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.
Hours 3
Credits 3

Year 4

Fall
NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000  
Hours 45  
Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000  
Hours 45  
Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required  
Hours 30 hours lecture; 105 practicum hours  
Credits 3 cr.

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required  
Hours 30 hours lecture; 105 practicum hours  
Credits 3 cr.  
• Elective 3 cr.

Year 5

Fall

NURS 90003 - DNP Capstone Implementation
This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

Spring

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

**NURS 76900 - Gerontological Nurse Practitioner Practicum**

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

**PH 75200 - Fundamentals of Epidemiology**

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.
NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400
Hours 45
Credits 3

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000
Hours 45
Credits 3

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200
coreq: NURS 71600
Hours 45
Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3
NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100
Hours 15 lecture, 15 seminar and 125 clinical
Credits 3

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100
Hours 15 lecture, 15 seminar, 125 clinical
Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

NURS 90003 - DNP Capstone Implementation
This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

**prereq: NURS 90002; Departmental permission required**

**Hours** 15 hours lecture; 210 practicum hours

**Credits** 3 cr.

### NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

**prereq: NURS 90003; Departmental permission required**

**Hours** 33.75 hours lecture; 80 practicum hours

**Credits** 3 cr.

---

**Gerontology/Adult Nurse Practitioner DNP Sample Full Time Program**

Return to: Gerontology/Adult Primary Care Nurse Practitioner DNP Track

**Year 1**

**Fall**

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

**Hours** 45

**Credits** 3

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

**prereq: NURS 70000, undergraduate statistics, undergraduate research course**

**Hours** 45

**Credits** 3

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.
prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.
Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

Spring

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice

Hours 3 hrs.
Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000

Hours 2 hours lecture, 2 hours lab
Credits 3 cr

Year 2

Fall

NURS 75500 - Primary Care Nursing I

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older
adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100

Hours 3 hours/week lecture 1 hour/week seminar
Credits 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)
  • Elective 3 cr.

Spring

NURS 75700 - Primary Care Nursing II

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500

Hours 3 hours /week lecture 1 hour /week seminar
Credits 6: 3 credits theory (45 hours /semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

prereq or coreq: NURS 75500

Hours 15 hrs seminar, 105 hrs practicum,
Credits 3

Summer

NURS 76800 - Primary Care Nursing III

This is the last in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly, and function as a licensed independent practitioner. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide primary care in various settings. Experiences are intended to assist the student attain advanced level direct care competencies and function in the role of independent nurse practitioner.

prereq: NURS 75700
Year 3

Fall

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45
Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3

Spring

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400
Hours 45
Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing
This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

*prereq: NURS 80200  
coreq: NURS 71600  
Hours 45  
Credits 3*

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq: No prerequisites required.  
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.  
• Elective 3 cr.*

**Summer**

**PH 75200 - Fundamentals of Epidemiology**

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

*prereq: No prerequisites required.  
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.  
Hours 3  
Credits 3*

**Year 4**

**Fall**

**NURS 80100 - Leadership for Quality Improvement**

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

*prereq or coreq: NURS 80000  
Hours 45  
Credits 3*

**NURS 90001 - DNP Capstone Internship**

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.
NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required

Year 5

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

**prereq:** NURS 75000  
*Hours 2 hours lecture, 2 hours lab*  
*Credits 3 cr*

**NURS 75500 - Primary Care Nursing I**

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

**prereq:** NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100  
*Hours 3 hours/week lecture 1 hour/week seminar*  
*Credits 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)*

**NURS 75700 - Primary Care Nursing II**

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing
complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500  
Hours 3 hours /week lecture 1 hour /week seminar  
Credits 6: 3 credits theory (45 hours/semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

NURS 76800 - Primary Care Nursing III

This is the last in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly, and function as a licensed independent practitioner. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide primary care in various settings. Experiences are intended to assist the student attain advanced level direct care competencies and function in the role of independent nurse practitioner.

prereq: NURS 75700  
Hours 3 hours / week lecture; 1 hour/week seminar  
Credits 6: 3 credits theory (45 hours) 1 credit seminar (15 hours) 2 credits clinical (210 hours)

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.  
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.  
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.  
Hours 3  
Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80000 - Leading Systems and Organizations
This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400  
Hours 45  
Credits 3

**NURS 80100 - Leadership for Quality Improvement**

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000  
Hours 45  
Credits 3

**NURS 80200 - Analytic Methods for Evidence-Based Practice**

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200  
Hours 45  
Credits 3

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNP's. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200  
coreq: NURS 71600  
Hours 45  
Credits 3

**NURS 81000 - Clinical Genetics**

Application of human genetics and genomics as they apply to health care professionals.

Hours 45  
Credits 3

**NURS 85000 - Health Policy and Population-Focused DNP Practice**

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000
Nursing: Doctor of Nursing Practice (DNP)

**NURS 90001 - DNP Capstone Internship**

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

*prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.*

**NURS 90002 - DNP Capstone Proposal Development**

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

*prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.*

**NURS 90003 - DNP Capstone Implementation**

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

*prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.*

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

*prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.*

**Faculty Coordinator:** Caroline Hewitt, ch516@hunter.cuny.edu

**Website:** http://www.hunter.cuny.edu/nursing/

The Doctor of Nursing Practice (DNP) program at Hunter College prepares nurse practitioners who can meet the increasingly complex health needs of diverse urban populations by providing evidence-based, advanced nursing
services in a wide variety of settings. The program includes three tracks: Family Nurse Practitioner (FNP) DNP, Gerontological/Adult Nurse Practitioner (GNP/ANP) DNP, and Psychiatric-Mental Health Nurse Practitioner (PMHNP) DNP. Note: a fourth track, Community/Public Health Nursing (C/PHN) DNP is not accepting students at this time.

The DNP program is open to registered nurses with a Bachelor's or Master's degree in nursing. The program requires completion of 48-90 credits and a total of 1000 supervised clinical hours. Students without a prior Master's degree in nursing from an accredited program complete 90 credits and 1000 supervised clinical hours. Students with a prior Master's degree in nursing from an accredited program may be admitted with advanced standing. Based on an individual assessment of the prior graduate record, (1) required coursework may be reduced by up to 42 credits for the same or equivalent coursework completed for the Master's degree with a grade of B or better; and (2) relevant supervised clinical hours completed for the Master's degree may be counted toward the 1000 supervised clinical hours required for the DNP degree.

Graduates of the DNP program meet the requirements for national certification in their specialty area. Graduates of the GNP/ANP, FNP, and PMHNP tracks qualify for New York State certification as a nurse practitioner.

Admission Requirements

Individuals who meet the following criteria may apply for admission to the DNP program:

1. For students without a Master's degree in nursing from an accredited program:
   - New York State RN licensure and current registration
   - A bachelor's degree in nursing from an accredited program
   - A Grade Point Average (GPA) of 3.5 or above in both the major and overall undergraduate record
   - Completion of an undergraduate statistics course
   - Completion of a discrete undergraduate nursing research course
   - Satisfactory written descriptions of career goals and capstone project interest
   - Satisfactory interview

2. For students who hold a Master's degree in nursing from an accredited program:
   - New York State RN licensure and current registration
   - A graduate GPA of 3.5 or higher
   - Satisfactory written descriptions of career goals and capstone project interests
   - National certification in a nursing specialty at an advanced level (i.e., requiring a graduate degree)
   - Satisfactory interview

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

Programs

- Gerontology/Adult Primary Care Nurse Practitioner DNP Track
- Family Nurse Practitioner DNP Track
- Psychiatric/Mental Health Nurse Practitioner Track DNP

Study Plans: Full-and Part-Time

Sample Full-Time Programs

- Gerontology/Adult Nurse Practitioner DNP Sample Full Time Program
Sample Part-Time Programs

- Gerontology/Adult Nurse Practitioner DNP Sample Part Time Program
- Family Nurse Practitioner DNP Sample Part-Time Program Plan
- Psychiatric Mental Health Nurse Practitioner DNP Sample Part-time Program Plan

Psychiatric Mental Health Nurse Practitioner DNP Sample Full-time Program Plan

Return to: Psychiatric/Mental Health Nurse Practitioner Track DNP

Year 1

Fall

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45*

*Credits 3*

**NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice**

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

*coreq: NURS 70000*

*Hours 15 hours*

*Credits 1 cr.*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.
NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research
Hours 3 hrs.
Credits 3 cr.
NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400
coreq: NURS 71700, NURS 71900
Hours 15 hrs.
Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000
Hours 2 hours lecture, 2 hours lab
Credits 3 cr

Year 2

Fall

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800
Hours 45
Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
Hours 3 hrs.
Credits 3 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General
This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

**prereq:** NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800

**coreq:** NURS 75100, NURS 71700

**Hours** 45 hrs.

**Credits** 3 cr.

**NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention**

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

1) common mental disorders including etiology, theories, and epidemiology;

2) diagnostic evaluation of each disorder;

3) interventions for each disorder in order to provide age-appropriate care.

**prereq:** NURS 70000, 78400, 70400, 73700, 74900, 74600

**coreq:** NURS 75100, 71700, 74800

**Hours** 30 hrs.

**Credits** 2 cr.

**Spring**

**NURS 71900 - Psychopharmacology**

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

**prereq:** NURS 70200, NURS 77700, NURS 77800

**coreq:** NURS 75000

**NURS 77900 - Family & Group Theories & Therapeutic Modalities**

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

**prereq:** NURS 70200, NURS 77700, NURS 77800
NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric–mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900

Hours 30 hrs.
Credits 2 cr.

Year 3

Fall

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100

Hours 22.5 hrs. - Seminar, 315 hrs – Clinical
Credits 4.5 cr.

Spring

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hrs – Seminar, 315 hrs - Clinical
Credits 4.5 cr.
Year 4

Fall

**NURS 71600 - Informatics for Evidence-based Practice**

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

*Hours 45*  
*Credits 3*

**NURS 78000 - Health Care Ethics in the Life Span**

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

**NURS 80200 - Analytic Methods for Evidence-Based Practice**

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

*prereq: NURS 70200*  
*Hours 45*  
*Credits 3*

**NURS 81000 - Clinical Genetics**

Application of human genetics and genomics as they apply to health care professionals.

*Hours 45*  
*Credits 3*

Spring

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

*coreq: NURS 70400*  
*Hours 45*  
*Credits 3*

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing
practice.

prereq: NURS 80200
coreq: NURS 71600
Hours 45
Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Summer

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.
Hours 3
Credits 3

Year 5

Fall

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000
Hours 45
Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3
NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

Year 6

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.
Psychiatric Mental Health Nurse Practitioner DNP Sample Part-time Program Plan

Return to: Psychiatric/Mental Health Nurse Practitioner Track DNP

Year 1

Fall

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45  
Credits 3*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45  
Credits 3*

**NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner**

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

*coreq: NURS 70000  
Hours 15 hours  
Credits 1 cr.*

**NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice**

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

*coreq: NURS 70000*
**Spring**

**Hours 45**

**Credits 3**

**Year 2**

**Fall**

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

*prereq: NURS 70200, Advanced Nursing Research*

**Hours 3 hrs.**

**Credits 3 cr.**

**NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General**

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This
course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800
coreq: NURS 75100, NURS 71700
Hours 45 hrs.
Credits 3 cr.

Spring

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:
1) common mental disorders including etiology, theories, and epidemiology;
2) diagnostic evaluation of each disorder;
3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600
coreq: NURS 75100, 71700, 74800
Hours 30 hrs.
Credits 2 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

prereq: NURS 70000, NURS 78400
coreq: NURS 71700, NURS 71900
Hours 15 hrs.
Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000
Hours 2 hours lecture, 2 hours lab
Credits 3 cr

Year 3
Fall

**NURS 75000 - Advanced Pharmacotherapeutics**

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45
Credits 3
Year 7

Fall

**NURS 85000 - Health Policy and Population-Focused DNP Practice**

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

*prereq or coreq: NURS 704, NURS 749, PH75000*

*Hours 45*

*Credits 3*

**NURS 90003 - DNP Capstone Implementation**

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

*prereq: NURS 90002; Departmental permission required*

*Hours 15 hours lecture; 210 practicum hours*

*Credits 3 cr.*

Spring

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

*prereq: NURS 80200*

*coreq: NURS 71600*

*Hours 45*

*Credits 3*

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

*prereq: NURS 90003; Departmental permission required*

*Hours 33.75 hours lecture; 80 practicum hours*

*Credits 3 cr.*

Psychiatric/Mental Health Nurse Practitioner Track DNP

Curriculum
**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45  
Credits 3*

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course  
Hours 45  
Credits 3*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45  
Credits 3*

**NURS 71600 - Informatics for Evidence-based Practice**

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

*Hours 45  
Credits 3*

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

*prereq: NURS 70200, Advanced Nursing Research  
Hours 3 hrs.  
Credits 3 cr.*

**NURS 71900 - Psychopharmacology**

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.
NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800
Hours 45
Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
Hours 3 hrs.
Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000
Hours 2 hours lecture, 2 hours lab
Credits 3 cr

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.
NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric–mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900
Hours 15 hrs.
Credits 1 cr.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400
Hours 45
Credits 3

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000
Hours 45
Credits 3

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNP's. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200
coreq: NURS 71600
NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

Prereq or coreq: NURS 704, NURS 749, PH75000

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

Prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

Prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

Coreq: NURS 70000

NURS 74600 - Epidemiology of behavioral health and community mental health
This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

**NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness**

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

*prereq: NURS 70000, NURS 78400
coreq: NURS 71700, NURS 71900
Hours 15 hrs.
Credits 1 cr.*

**NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General**

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

*prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800
coreq: NURS 75100, NURS 71700
Hours 45 hrs.
Credits 3 cr.*

**NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention**

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology;

2) diagnostic evaluation of each disorder;

3) interventions for each disorder in order to provide age-appropriate care.

*prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600
coreq: NURS 75100, 71700, 74800
Hours 30 hrs.
Credits 2 cr.*

**NURS 77900 - Family & Group Theories & Therapeutic Modalities**
This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

**NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I**

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

**NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II**

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

**NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice**

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

**NURS 90001 - DNP Capstone Internship**
This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

**NURS 90002 - DNP Capstone Proposal Development**

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

**NURS 90003 - DNP Capstone Implementation**

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

**Doctor of Philosophy - PhD**

**Doctor of Philosophy in Physics**

Return to Physics and Astronomy

**Doctor of Philosophy**

Hunter College offers Doctor of Philosophy in Physics jointly with the Graduate Center. For further information go to PhD in Physics.
Course of Study

The student's course of study must have the approval of an adviser. Of the 60 credits of graduate work required for the degree, no more than 9 credits may be in first-level courses; with special permission, up to 18 credits may be taken in subjects other than physics. After students pass the First Examination, they are encouraged to choose a thesis field and adviser; these decisions should normally be made within the first year of study. Doctoral students are expected to attend the regularly held colloquia.

First Examination

The student must pass the First Examination, which includes quantum mechanics, analytic dynamics, electromagnetic theory, and general physics, which covers topics selected from the fields of atomic and nuclear physics, solid state, thermodynamics and statistical mechanics and optics. For students specializing in fluid-geophysics, an examination in that area may be substituted for the quantum mechanics part of the First Examination.

Second Examination

The Second Examination tests the student's knowledge of the general areas of physics bearing on his or her field of research as well as the student's readiness to undertake a specific piece of research. Detailed information concerning the examination is available from the Executive Officer.

Dissertation

The student is required to prepare the dissertation under the guidance of a thesis adviser. Upon completion, the dissertation will be submitted to the guidance committee appointed for the student. The degree is recommended upon approval of the dissertation by the committee and upon successful completion of an oral defense of the dissertation before the committee. The dissertation must be of such a caliber as to be acceptable for publication in a standard journal when suitably condensed.

College Teaching

Each student is required to participate in some teaching of undergraduate physics courses. Specific requirements are determined for each student in consultation with the Executive Officer and the Department Chairman. In special cases research may be substituted for this requirement.

FINANCIAL AID

Every student admitted for doctoral study in Physics will have financial support for five full years of study, as long as they remain in good academic standing and progress on schedule in their doctoral research. The five-year CUNY Science Scholarship includes a full tuition waiver, annual health insurance coverage and $24,000/year financial support.

Doctoral Program in Biological Sciences

Doctor of Philosophy
Hunter College offers a PhD in biological sciences PhD in Biology and in biochemistry PhD in Biochemistry jointly with the CUNY Graduate Center.

**Doctor of Physical Therapy - DPT**

**Physical Therapy - DPT**

**Physical Therapy, Department Chair, Gary Krasilovsky;** Room E 007, Brookdale Campus, Hunter College; (212) 396-7103; gradpt@hunter.cuny.edu

**Professor:** Rosen

**Associate Professors:** Babyar, Krasilovsky, Lipovac

**Assistant Professors:** Holland, Karpatkin, Silberman

**Director of Clinical Education:** Dr. Silberman

**Website:** www.hunter.cuny.edu/pt

The Physical Therapy program is a full time three-year post-baccalaureate Doctor of Physical Therapy degree curriculum. Upon completion of the program, students will receive a doctor of physical therapy (DPT) degree. Please go to the Physical Therapy Program website for updated information on the present curriculum, the admissions requirements and process, open-house dates, and to download clinical experience and other forms.

Physical therapists, as essential members of the health care team, address health maintenance and the prevention of disabilities, the identification and assessment of impaired motor function, and rehabilitation toward optimal health and function. The physical therapist provides therapeutic services to individuals of all ages with musculoskeletal, neurological, sensorimotor, cardiovascular, and other physiological dysfunctions. Physical therapists may be employed in hospitals and extended-care facilities, ambulatory clinics, school systems and sports medicine centers. They may also be self-employed professionals in private practice.

The present graduate program is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE) of the American Physical Therapy Association. Graduates are prepared for the National Licensing Examination in Physical Therapy.

**Admission Requirements**

Admission requirements for entry into the DPT degree program are described below.

The bachelor's degree requirement for entry is based upon the CAPTE criterion that mandates that physical therapy programs are "built on a balance of course work in social sciences, humanities, and natural sciences, which is appropriate in depth and breadth, to develop the ability in students to think independently, to weigh values, to understand fundamental theory, and to develop skill for clinical practice, including critical thinking and communication."

To be considered for acceptance, the following prerequisite course work and admission requirements must be met. Admission is once/year to begin the program in the Summer and is limited to 32 students.
1. A bachelor's degree from an accredited four-year institution by the end of the spring semester prior to entry into the DPT program
2. Two semesters of anatomy and physiology for science majors with lab (minimum 8 cr.)
3. Two semesters of physics for science majors with lab (minimum 8 cr.)
4. Two semesters of chemistry for science majors with lab (minimum 8 cr.)
5. Two semesters of psychology (we recommend but do not require one semester of developmental or child psychology).
6. One semester of college level math.
7. One semester of statistics
8. One semester of English composition (expository writing)
9. The Graduate Record Examination must be completed and scores sent to the Graduate Admissions office at Hunter College (ID # 2301)
10. Cardiopulmonary Resuscitation Certification by the American Heart Association or the Red Cross
11. An undergraduate grade point average (GPA), calculated from all college courses, of 3.0 or above
12. Documented clinical experience of at least 100 hours in the United States under the supervision of a licensed physical therapist, with a minimum of 50 hours in a hospital-based or rehabilitation setting.

Applicants may inquire at any hospital or other facility about volunteering in its physical therapy department as a means of gaining access to clinical experience. A Clinical Experience Form is available from our website. The completed documentation should be provided by the supervising physical therapist by the deadline of November 1 prior to the summer semester for which admission is sought.

13. Filing of an online application through the Graduate Admissions office at Hunter College by the November 1st deadline
14. Applicants invited for an interview with the faculty of the Hunter College Physical Therapy Department will be provided a topic to write an essay as determined by the department.
15. For applicants who have not studied in English-speaking countries, a score of at least 550 on the TOEFL examination
16. Students who have not completed up to 6 credits of prerequisites may be conditionally accepted for the incoming class, but all requirements must be met before the starting date of the program in the fall semester.

The application process is self-managed. Applicants must file online via a link from the Graduate Admissions Office of Hunter College. You do not need to submit official transcripts until we request them. However, you should submit electronically either a student copy of all college transcript(s) (or scan an official copy) and submit it electronically to the Hunter College Graduate Admissions Office.

Either you or the person supervising your clinical experience must submit your completed Clinical Experience Forms to the Doctor of Physical Therapy Program at Hunter College, 425 East 25th Street, New York, NY 10010.

Prepare a draft of your prerequisite checklist for input into the Graduate Application at the time you apply. Letters of reference (including letters [not clinical experience forms] from supervising physical therapists) will be uploaded by the person submitting the letter through the online application process.

Documents submitted by eligible applicants will be reviewed for calculating cumulative and/or prerequisite GPA, clinical experience and other relevant experience in health care to identify those eligible for interviews. Subsequent to the interviews, a standardized scoring form will be used to evaluate each applicant, based on GPA, GRE and TOEFL scores, clinical experience, essay quality, and interview scores.

Meeting these minimum requirements does not guarantee acceptance to the program, which is based, by necessity, on the limitations of space and resources. The Hunter College Physical Therapy Program is dedicated to equal opportunity for all applicants who meet admission requirements.

Requirements for Graduation

The curriculum outlined below is effective with the class entering in 2015.

Specialization (Courses designated PT) 105 credits

First Year

(Summer semester)

PT 70100 - Clinical Anatomy

This course is an in depth study of the human body, with emphasis on the neuromuscular and musculoskeletal systems. Structural interrelationships shall be examined as the basis for normal functions and a means to understand structural and functional dysfunctions. Clinical correlates to physical therapy are examined.

prereq: Acceptance into the Physical Therapy Program
Hours 6
Credits 4

PT 70200 - Medical Terminology

This programmed computerized self-study will provide students with the ability to analyze medical terms, define basic terms and abbreviations used in documenting health records and identify common terms related to diagnosis, therapies, and diagnostic tests. Explain the common rules for proper medical term formation, pronouncement and spelling medical terms.

prereq: Acceptance into the Physical Therapy Program with completion of all admission requirements.
Hours Online
Credits 1

(Fall semester)

PT 70300 - Foundations of Patient Care

Fundamental physical therapy handling skills are the focus of this course including functional training, monitoring vital signs, palpation, and massage. This course also serves as an introduction to the physical therapy profession and includes the history and scope of physical therapy practice. Documentation of physical therapy services is introduced. The course will be a combination of lecture, demonstration and lab practice.

prereq: Acceptance into the Physical Therapy Program
Hours 4
Credits 2

PT 70400 - Ethical and Psychosocial Dimensions of Physical Therapy Practice
This course examines the multifaceted role of the physical therapist in the health care delivery system, introducing students to PT practice, methodology and professionalism as well as to the psychosocial aspects which mediate physical therapy interactions.

Hours 3  
Credits 3

PT 70600 - Upper Extremity Kinesiology & Assessment

The structure and function of joints and muscles will be reviewed for the upper extremities, head and neck. Clinical applications for functional movement and biomechanical principles are incorporated in the course. Students learn the skills of manual muscle testing (MMT) and goniometry for the upper extremities, head, and neck.

prereq: Acceptance into the physical Therapy Program
Hours 3  
Credits 2

PT 70700 - Research Design and Methods

Hours 3 hrs.  
Credits 3 cr.

PT 70800 - Human Physiology and Exercise Physiology

This course provides an overview of cellular structures and functions which regulate body homeostasis from the point of cell division and genetic control of protein synthesis.

Hours 5  
Credits 5

PT 70900 - Physical Modalities - Clinical Decision Making and Application

Principles and practical application of thermal, mechanical, electromagnetic and other energies in physical therapy is presented. This course is an introduction and comprehensive review of the physical modalities that are commonly employed in the physical therapy clinic for evaluation and treatment of various physical dysfunctions.

prereq: PT 70100
Hours 4  
Credits 3

(Spring semester)

PT 74000 - PT Prevention and Intervention

Students learn and practice basic concepts of mobility, ROM, and stretching techniques. Application of therapeutic exercise to a broad population of clients from acute care to sports rehab are discussed and practiced, including prevention and restoration of function. Therapeutic application of basic neurophysiological principles associated with strengthening are also presented and practiced.

prereq: PT 70600, PT 70800
PT 75100 - Structure and Function of the Nervous System

This course provides an overview of microscopic, gross, and developmental anatomy of the human nervous system with emphasis on neurological process, structural and functional relationships. A local progression of information from molecular and cellular levels, to systems and regions provides a framework for students to understand neural organization.

prereq: PT 70100, PT 70800
Hours 3
Credits 3

PT 75200 - Lower Extremity Kinesiology and Assessment

The structure and function of joints and muscles will be reviewed for the lower extremities and trunk. Clinical applications for posture and gait evaluation are incorporated in the course. Students learn the skills of manual muscle testing (MMT) and goniometry for the lower extremities and trunk.

prereq: PT 70100, PT 70800
Hours 4 hrs.
Credits 2 cr.

PT 77000 - Directed Research I

Determine a focus for an evidence-based research project under direction of assigned clinical and academic advisers. Complete need for the study, problem statement, delimitations, and a draft of a literature review and methodology section. All first year students will enroll in this course, which will be held the last six weeks of the first fall semester, after completion of the Research Design course. Research planning activity will be at a variety of sites, under the guidance of a faculty mentor principal investigator (PI) and research site PI.

prereq: PT 70100, PT 70800
Hours 3 hrs.
Credits 1 cr.

PT 78000 - Clinical Medicine for PT

This course provides an overview of disease and injury with an emphasis on conditions encountered in physical therapy. Student understanding of altered structural and physiological processes and how they apply to physical therapy assessment and treatment are expectations of this course.

prereq: PT 70100, PT 70800
Hours 3 hrs.
Credits 3 cr.

PT 79500 - Integumentary System: Assessment and Intervention

The course focuses on evaluation and management of individuals with integumentary dysfunction. Anatomy and physiology of the skin and the principles involved in normal wound healing are presented. Evaluation and management of individuals with burns and wounds based on clinical presentation will be covered in a lecture and practical format.
Wound prevention and patient education will also be included as part of integumentary management.

Prereq: PT 70100, PT 70800
Hours 2
Credits 1

**PT 79000 - Pulmonary Physical Therapy**

This course is designed to promote clinical reasoning skills in the examination, assessment, and intervention design for patients with pulmonary dysfunctions. A series of lectures, demonstrations, and laboratory experiences will explore the issues related to the management of the patient with a pulmonary disorder. Issues to be examined will include matters relating to professional behavior, scientific knowledge, clinical knowledge, critical analysis, and the competent performance of clinical interventions.

Prereq: PT 70100, PT 70800
Hours 3
Credits 2

**Second Year**

*(Summer semester)*

**PT 80900 - Directed Research II (continued from summer)**

Students will work on completion of a research proposal for faculty and clinical P.I. approval by the end of the semester. This will include preparation by each student of a draft IRB by March of first year for review prior to formal submission. Submit IRB application by May to achieve IRB approval by June.

Prereq: PT 70700
Hours Hrs arranged
Credits 0
(independent study)

*(Fall semester)*

**PT 80300 - Differential Diagnosis and Intervention in Clinical Orthopedics I**

This course is designed to promote clinical reasoning skills in the examination, assessment, and intervention in patients with orthopedic dysfunctions. Issues related to orthopedic dysfunction will be explored in a laboratory format.

Prereq: PT 75100, PT 75200, PT 79000
Hours 3
Credits 2

**PT 80400 - Introduction to Neurological PT**

Foundations, examination, and interventions for the treatment of disorders of the Central Nervous System. Motor patterns of recovery and techniques as taught by Brunnstrom will be presented. Concepts of Motor Control and Motor Relearning Programs will enhance students' application of these techniques within the context of modern movement science.
prereq: PT 75100, PT 75200
Hours 45
Credits 2

PT 80500 - Musculoskeletal Examination I

Basic examination techniques utilizing selective tissue tension tests that will be applied to evaluate and diagnose lower extremity orthopedic conditions. Joint and soft tissue mobilization techniques and specific exercises will be applied as the Physical Therapy intervention for these diagnoses.

prereq: PT 74000, PT 75200, PT 78000
Hours 6
Credits 3

PT 80600 - Clinical Experience I

The first of four clinical internships in an acute care hospital setting or other setting appropriate for the objectives of this course. Under the supervision of a licensed physical therapist, the student will integrate and apply course work to provide quality care in the evaluation and treatment of patients with a variety of diagnoses.

prereq: PT 74000, PT 75200
Hours 6 weeks full time
Credits 3

This course is a full-time clinical externship scheduled for the last six weeks of the fall semester.

PT 80800 - Differential Diagnosis in Neurological Evaluation

A system of testing peripheral, central and autonomic nervous system function will be presented with an emphasis on specificity and sensitivity of the tests. Assessment of clusters of signs and symptoms that are used in clinical problem solving will be addressed.

prereq: PT 7400, PT 75200
Hours 3
Credits 1

PT 80900 - Directed Research II (continued from summer)

Students will work on completion of a research proposal for faculty and clinical P.I. approval by the end of the semester. This will include preparation by each student of a draft IRB by March of first year for review prior to formal submission. Submit IRB application by May to achieve IRB approval by June.

prereq: PT 70700
Hours Hrs arranged
Credits 0
(independent study)

PT 81100 - Cardiac Rehabilitation

This course is designed to promote clinical reasoning skills in the examination, assessment, and intervention design for patients with cardiopulmonary dysfunctions. A series of lectures, demonstrations, and laboratory experiences will
explore the issues related to the management of the patient with a cardiopulmonary disorder. Issues to be examined will include matters relating to professional behavior, scientific knowledge, clinical knowledge, critical analysis, and the competent performance of clinical interventions.

prereq: PT 70100, PT 70800  
*Hours 3 hrs.*  
*Credits 2 cr.*

**PT 81500 - Physical Therapy in Acute Care**

This course is designed to introduce the student to the knowledge and skills necessary for a physical therapist to function in the acute care hospital setting. The student will be introduced to the various patient populations in the acute care hospital and the various roles and responsibilities of the physical therapist in this complex setting.

prereq: PT 74000, PT 75200, PT 78000  
*Hours 2*  
*Credits 1*

The courses listed above take place during the first nine weeks of the semester.

(Spring semester)

**PT 80700 - Proprioceptive Neuromuscular Facilitation**

The historical and theoretical framework of Proprioceptive Neuromuscular Facilitation (PNF) that will serve as the foundation for learning these specialized hands-on exercise techniques. Students will apply the principles for training of the trunk and extremity musculature to potential patients with musculoskeletal, neuromuscular and cardiopulmonary dysfunction.

prereq: PT 80600  
*Hours 3*  
*Credits 1*

**PT 81000 - Neurological Interventions I**

The course includes a description of the principles of rehabilitation, etiology of spinal cord injury and traumatic brain injury, anatomical and physiological considerations, and understanding of special problems faced by adults with physical disabilities, evaluation and treatment techniques, an understanding of adapted equipment and wheelchairs, evaluation of the home environment and appropriate modifications.

prereq: PT 80800, PT 80900  
*Hours 5*  
*Credits 3*

**PT 82000 - Differential Diagnosis and Intervention in Clinical Orthopedics II/Radiology and Imaging**

Etiology and therapeutic management of selected orthopedic conditions of the upper extremity. Introduction to radiology and many of the imaging techniques used in the diagnosis of soft tissue injuries and pathological conditions.

prereq: PT 80800, PT 80900
**PT 83000 - Orthotics and Prosthetics**

This course is designed to orient the student to the role and responsibilities of the physical therapist in the field of prosthetics and orthotics. This course emphasizes advanced evaluation of normal and abnormal gait with implications for treatment intervention in order to prepare the student for working with amputees and patients requiring orthotics in the clinical setting.

**prereq:** PT 75200, PT 80500, PT 80800

**Hours 3**

**Credits 3**

**PT 84000 - Differential Diagnosis and Intervention in Clinical Neurology**

This course describes specific neurological systems and presents the clinical implications of disease or injury on each of these systems. Differential diagnosis of various peripheral nervous system and central nervous system disorders will be emphasized. The therapeutic management and scientific basis of various neurological conditions are addressed.

**prereq:** PT 80400, PT 80800

**Hours 3**

**Credits 3**

**PT 85000 - Musculoskeletal Examination and Interventions II**

Basic examination techniques utilizing selective tissue tension tests will be applied to clarify common upper extremity orthopedic diagnoses. Joint and soft tissue mobilization techniques and specific exercises will be applied as the Physical Therapy intervention for these diagnoses. Splinting for hands will be introduced. Spinal pathophysiology, back, school, work hardening programs and ergonomics will be presented.

**prereq:** PT 75200, PT 80300, PT 80500

**Hours 5**

**Credits 3**

**PT 88200 - Pediatric Development and Assessment**

Through lecture, laboratory experiences, discussion, videos and assigned readings, the student will be able to examine and understand normal and abnormal human development; theory and practice of physical therapy intervention in developmental disabilities.

**prereq:** PT 70600, PT 74000, PT 75200, PT 80300

**Hours 2**

**Credits 2**

**PT 88800 - Directed Research III: Manuscript Preparation**

Complete the research project, compile results and discussion. Present project to mentors, faculty and peers. draft a manuscript for submission to a professional journal.

**prereq:** PT 88600
Third Year

(Summer semester)

**PT 88600 - Clinical Experience II**

This is the second of four clinical externship placements throughout the curriculum. A ten-week full-time placement is required for this clinical education experience. The purpose of the placement is to provide a hands-on patient care environment under the supervision of a licensed physical therapist. Clinical faculty serve as the direct instructors providing students with regular feedback. Students and CIs are monitored by the Director of Clinical Education (DCE) during this second clinical education experience.

*prereq: PT 80600, PT 84000, PT 88200*

**PT 88700 - Clinical Decision Making**

This seminar will bring students together to integrate clinical decision making through case studies, case scenarios, administrative issues and the resolution of conflict within the workplace. Working together with faculty advisement and mentorship, students will process information in a manner that effectively helps to resolve conflict. Strategies for making clinical diagnosis will be discussed.

*prereq: PT 80600, PT 84000, PT 85000*

(Fall semester)

**PT 88000 - Neurological Interventions II**

Foundations, assessment procedures, and application of classical therapeutic exercise with a neurophysiological basis for the treatment of adult and pediatric disorders of the Central Nervous System, with emphasis on the techniques taught by the Bobaths (Neurodevelopmental Treatment).

*prereq: PT 81000*

**PT 88100 - Seminar in Departmental Organization and Management**

This course is designed to provide information and develop skills to manage an organized physical therapy service. There is an emphasis on effective management principles including organizational structure, human resource management, fiscal planning, department design, continuous quality improvement and risk management. The course will also describe the external environment of health care delivery, such as, government regulation, professional ethics and medical-legal issues.
PT 88300 - Pharmacology for PT and Systems Review

This course provides an overview of previously covered physiology and pathophysiology of different body systems and provides rationale for use of drugs and other available treatments in different diseases. Indications, contraindications, side effects of commonly used medications receiving physical therapy services are presented.

prereq: PT 81000, PT 85000
Hours 3
Credits 3

PT 88400 - Musculoskeletal Examination and Intervention III

Advanced management of the spine including selective tissue testing techniques. Selection of appropriate physical therapy interventions for individuals with spinal dysfunction (excluding spinal cord injury); ergonomics, joint and soft tissue mobilization; back exercise; and neural tension testing.

prereq: PT 80500, PT 82000, PT 85000
Hours 5
Credits 3

PT 88500 - Electrodagnosis and Motion Analysis

This course provides the student with the physiological basis and techniques of the electrodiagnostic evaluation of the neuromuscular system through the use of nerve conduction studies and needle electromyography. Students learn the application of these techniques to the upper and lower extremities, and the interpretation of results/reports through case studies. Surface and needle kinesiological electromyographic recordings for research application will be examined.

prereq: PT 81000, PT 84000
Hours 2
Credits 2

PT 87000 - Health Promotion Through the Lifespan

This course defines the role of physical therapy in health prevention, promotion, and wellness. Wellness throughout the life span is emphasized through incorporating the interrelationships between physical activity, stress and mind-body connections and nutritional health.

prereq: PT 80600, PT 80700, PT 80900
Hours 2
Credits 2

PT 87200 - Topics in Physical Therapy

A course designed to cover clinical topics through lectures and laboratory classes taught by clinical specialists in physical therapy.

prereq or coreq: Acceptance into the Doctor of Physical Therapy Program
PT 89500 - Directed Research IV: Presentation Tactics

Complete preparation of a publishable manuscript or other approved format following protocol in Guide for authors or other guidelines as distributed by the faculty.

prereq: PT 88800
Hours 15
Credits 1

(Spring semester)

PT 88900 - Clinical Affiliation III

This is the third of four clinical internship placements throughout the curriculum.

prereq: PT 88600, PT 88800
Hours 9 weeks (full-time)
Credits 4.5

PT 89000 - Clinical Affiliation IV

This is the fourth of four clinical internship placements throughout the curriculum.

prereq: PT 88950
Hours 9 weeks (full-time)
Credits 4.5

Grading Policy

Academic and Clinical Education Grading Policy Summary

Students are required to maintain a cumulative GPA of 3.0 or above to remain in good academic standing (refer to section on Academic Policies & Regulations in this catalog). Students earning a grade below C in any required academic course in the physical therapy program will not be permitted to continue the sequence of physical therapy courses. A meeting with the faculty will be scheduled to discuss whether the student should take a leave of absence in order to retake the course and reapply for admission at least two months before the beginning of the semester in which the student plans to resume studies. The total time permitted for completion of the physical therapy program curriculum is five years (see section on Degree Requirements in this catalog). This will not prevent the student from continuing at Hunter College in another major area.

If a student repeats a failed course, it is required that a grade of C be earned in the repeated course and that the student’s GPA remain above 3.0. If the student earns below a C grade in the repeated course, the student will be offered counseling toward another major area. Students are permitted to repeat only one course while enrolled in the Physical Therapy Program, and they are permitted to repeat that course only once. This policy also applies to clinical affiliation grades, which are credit/no credit (CR/NC). A student is limited to repeating one clinical affiliation throughout the entire curriculum sequence. If a clinical affiliation is graded no credit (NC), the student is placed in one make-up clinical affiliation. This make-up clinical affiliation, and any and all remaining clinical affiliations, must be graded as credit (CR) for successful continuation and graduation from the program. The grade of credit (CR) or no credit (NC)
does not influence the student’s GPA. If a student withdraws from any course, the Academic Policies & Regulations as stated in the Hunter College Graduate Catalog will be followed.

The grading policy in courses which include a practical (laboratory) examination or checkout as part of the grade is determined by the faculty member teaching the course. Students must pass all practical examinations. The policy for the passing criteria is included in the course syllabus.

Summary of DPT Graduation Requirements

• Complete all required coursework as outlined in curriculum table with cumulative GPA at or above 3.0

• Two Professional Development Experiences (no credit) are required. This requirement can be fulfilled through participation in continuing education courses, attending American Physical Therapy Association state and national conferences, presentation of research at state and national conferences, completion of faculty-approved independent study, etc. Courses in different concentrations of PT are recommended.

• Present final research project to the program faculty and students either orally or as a poster.

Master of Arts - MA

Adolescent Chinese - MA

Education Adviser

Jeanne Weiler  
(212) 650-3459  
1115 West  
jweiler@hunter.cuny.edu

Chinese Program Adviser

Bo Hao  
(212) 396-6724  
1429 West  
bhao@hunter.cuny.edu

The master's degree program (Academic Plan: CHINAEM-A) prepares candidates to teach Chinese in grades 7-12 to students of diverse backgrounds, abilities and interests. This program is not designed for individuals who already have NYS certification in Chinese 7-12.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 and a major in Chinese with a GPA of at least 3.0, including a minimum of 18 credits in Chinese literature above the intermediate level and oral proficiency at the advanced low level of the American Council on the Teaching of Foreign Language (ACTFL) Oral Proficiency Interview (OPI);

OR
Applicants who do not have a Chinese major but have a liberal arts and science major (or interdisciplinary liberal arts or science concentration) of at least 30 credits can take two exams to meet the Chinese coursework requirement: the Oral Proficiency Interview (OPI) and the Written Proficiency Test (WPT) administered by American Council on the Teaching of Foreign Language (ACTFL). Candidates must achieve a minimum score of advanced-low on each to meet the admission requirement and must achieve a passing score on the on-site written test in Chinese/English about Chinese literature.

PLUS (for ALL applicants)

2. A general education core in the liberal arts and science to include the following: 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
3. Two professional references.
4. A personal statement.
5. An interview conducted in Chinese/English with program adviser.
6. An on-site English writing sample.
7. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. 
   Note: It is recommended that students with two or more INs take an official leave of absence
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plan

CHINAEMA

Total Credits

37-38

Education Courses

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,*

*Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,*

*Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400*

*Hours 30 hrs, plus 36 hrs fieldwork,*

*Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.
prereq: SEDF 70500

coreq: One of the following must be a Co-req:

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 722.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23

Hours 30 hrs, plus lab,

Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,

Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,

Credits 1 cr

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308

prereq: 12 credits of coursework

Hours 45

Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

CHND 71200 - Methods 1: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Chinese, Grades 7-12

The course covers options for classroom management, learning environment appropriate to 7-12 classrooms, and assessment. Attention is given to classroom management task, setting up and exploiting various learning environments, and methods for assessment. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes homework assignment and projects.

prereq or coreq: SEDF 70400 or permission of the adviser

Credits 3
CHND 71300 - Methods 2: Intensive Study of Teaching Diverse Learners in Chinese, Grades 7-12

This course aims to familiarize prospective school teachers, grades 7-12 with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curricula in Chinese. Innovative uses of technology, development of instructional units, individualization for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course. Thirty-six hours of field experience/observation is a part of this course. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes development of lesson plans, homework assignment, and projects for classroom use.

prereq or coreq: CHND 71200 and SEDF 70500 or permission of the adviser
Hours 30 hrs plus 36 hrs fieldwork
Credits 2

- Take either -

CHND 73100 - Student Teaching in Chinese, Grades 7-12

Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticism. These presentations will be videotaped for further self-analysis at home.

prereq or coreq: CHND 71300 or permission of the adviser
Hours 60 days, 30 hrs seminar plus workshops and conferences,
Credits 5

- Or -

CHND 74110 - Practicum in Chinese, Grades 7-9

Supervised practicum for teachers of Chinese in grades 7-9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74110 must also take CHND 74120.

prereq or coreq: CHND 71200 or permission of the adviser
Hours 30 hrs plus conferences
Credits 2

- Plus -

CHND 74120 - Practicum in Chinese, Grades 10-12

Supervised practicum for teachers of Chinese in grades 10-12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74120 must also take CHND 74110.
prereq or coreq: CHND 71200 or permission of the adviser.

Hours 30 hrs plus conferences,
Credits 2

Chinese Courses

CHIN 70100 - Chinese Phonology and Romanization

This course will introduce Chinese phonetics, phonology, and the major sound transcription systems commonly used in teaching Chinese as a foreign language and found in Chinese dictionaries. Emphasis will be on acquiring accurate tones and standard pronunciation for English-speaking learners as well as learners who speak a Chinese dialect at home.

Hours 3
Credits 3

CHIN 70300 - Chinese Orthography and Lexicology

This course will give an overview of the development of Chinese orthography and Chinese lexicology. Differences between the spoken and written styles will be discussed. The relationship of formation methods of the Chinese lexicon to syntactic functions and the process of character-based meaning derivation will be emphasized.

Hours 3
Credits 3

CHIN 70200 - Modern Chinese Pedagogical Grammar

This course will introduce the grammatical system of modern Mandarin Chinese, including the characteristics of grammatical morphemes, word order, and sentence and discourse structures. The content will highlight difficulties for native speakers of English and helping them to overcome these difficulties effectively. The course will discuss pedagogical issues concerning grammar instruction such as how it differs from syntax; what grammar points need to be taught at each level; and the methods of teaching grammar.

Hours 3
Credits 3

- Advanced Language and Culture Training (may choose 1 or more) -

CHIN 70500 - Topics in Advanced Conversation

This course will give students advanced language training in speaking in a wide range of topics as well as specialized vocabulary needed to discuss Chinese instruction in Chinese. Students will further practice speaking skills to achieve advanced-mid or advanced-high oral proficiency according to the ACTFL (American Council for Teachers of Foreign Languages) scale. Authentic materials will be used throughout the course.
CHIN 70600 - Topics in Advanced Writing

This course will give students advanced language training in writing Chinese in everyday life situations as well as a Chinese language teaching professional with writing samples. Students will further practice writing skills to achieve advanced-low proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3
Credits 3

CHIN 70700 - Topics in Advanced Reading

This course will give students advanced language training in reading Chinese. Students will further practice reading skills to achieve advanced-mid or advanced-high proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3
Credits 3

CHIN 70800 - Topics in Chinese Culture and Society

This course will give students advanced language training in topics related to Chinese culture and society. Students will learn topics concerning Chinese culture and society in traditional and contemporary China. Authentic writing tasks and materials will be used throughout the course.

Hours 3
Credits 3

CHIN 70900 - Independent Study

Students will carry out an independent project approved by their faculty advisor and chairperson and supervised by a staff member.

Credits 1-3

Notes:
1. Students who enter with initial or professional certification in adolescent education in another area will not be required to take any SEDC or SEDF courses. They will be required to take all CHIN and CHND courses in the program.
2. The minimum number of credits for the degree for students who enter with certification in adolescent education is 24 credits. Please see your administrative advisor to clarify the degree requirements for the adolescent Chinese education program.
3. Students without certification may be exempted from up to 6 credits based on prior equivalent course work.
Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Mathematics Professional Certificate- MA

Program Coordinator

Patrick Burke
(212) 772-4728
1138 West
patrick.burke@hunter.cuny.edu

This master's degree program provides advanced coursework in methods of teaching mathematics to those who already have NYS initial certification in Mathematics 7-12, or teachers who hold professional or permanent certification seeking to further their knowledge/skills, and gain additional graduate credits.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0
2. New York State Certification in Mathematics Grades 7-12.
3. Students must have at least 24 undergraduate credits in mathematics with a B average, including courses in Calculus and Linear Algebra.
4. Students with a master's degree in mathematics or mathematics education must have a GPA of at least 3.0 in their graduate courses, with a B average in mathematics courses.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Course of Study

Total Credits
30

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

Hours 45 hrs.
Credits 3

SEDC 73000 - Development of Mathematical Thinking: Implications For Teaching and Learning Mathematics in Grades 7 to 12
A course exploring the role of the teacher in developing mathematical reasoning ability in students. What are the possibilities and limitations? A research-based approach to the problem of providing a solid mathematics education for all students.

**SEDC 73100 - Seminar in Mathematics Curriculum, Grades 7-12**

A study of the current Standards-Based Mathematics Curriculum from an historical perspective.

**SEDC 73200 - Research Seminar in Mathematics Education, Grades 7-12**

A course in which students will study the research relative to the mathematics curriculum and complete a research project in a field of mathematics education of their choice.

**MATH 62000 - Secondary School Mathematics from an Advanced Perspective I**

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

*prereq: Calculus II and a course in linear or matrix algebra*

*Hours 3 hrs*

*Credits 3 cr*

*Open only to Teacher Education Program students.*

**MATH 62300 - Theory of Numbers**

Congruences, quadratic residues, elementary diophantine analysis, continued fractions, sums of squares.

*prereq: a course in linear algebra*

*Hours 3 hrs*

*Credits 3 cr*

**MATH 63000 - Secondary School Mathematics from an Advanced Perspective II**

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

*Hours 3 hrs.*

*Credits 3 cr.*

*Open only to Teacher Education Program students.*

**STAT 61400 - Data Analysis Using Statistical Software**

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

*prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.*

*Hours 3 hrs.*

*Credits 3 cr.*
• Electives (Choose 2): Any MATH or STAT 600 or 700 Level Course (6 cr)

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

Animal Behavior & Conservation-MA

The growing scientific and public sentiment, awareness, and interest in conservation and animal welfare science and the importance of enrichment for zoo, laboratory, and farm animals, recently reflected in new legislation and in zoo policy has created a growing need for highly trained scientists and professionals. This 36-credit Master's Program within the Psychology Department prepares students interested in animal behavior and conservation (ABC) to develop and enhance their research skills and understanding of the behavior of animals and to acquire credentials for employment in fields related to ABC.

Admission Requirements

Students must hold a bachelor's degree comparable to that from Hunter College. Twelve undergraduate credits in psychology, including courses in statistics and experimental psychology, are generally required; however, students lacking this but with high undergraduate GPA and general GRE scores may be admitted without a strong background in psychology. Applicants are ranked according to their undergraduate grade point average, GRE exam scores, letters of recommendation, and personal statement, as well as prior course work and experience relevant to animal behavior and conservation. General GRE scores are optional for those students who hold the Advanced Certificate in Animal Behavior and Conservation from Hunter College.

Note: There is no foreign-language requirement for the MA in psychology

Curriculum

The MA consists of 36 credits in graduate-level course, and all courses listed carry three credits.

Most courses are offered after 5:30 p.m. so that students can work while in the program. The sequence of course offerings enables students taking 3 courses (9 credits) per semester to graduate in 2 years.

Required Courses 18 credits

PSYCH 69000 - Independent Research in Psychology

Designed to meet the research needs and interests of individual students under the direction of a faculty sponsor. This may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research. Projects culminate in an APA-style research report or literature review.

Hours 3 hrs.
Credits 3 cr.

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the
Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor’s permission.

**PSYCH 73900 - Research Methods in Animal Behavior (A, B)**

Designed to develop skills required for the study of animal behavior, such as procedures for obtaining data in laboratories or in captive and natural environments; includes observational techniques, single-subject designs, issues of reliability and external validity, non-parametric statistics.

*Hours* 2 hrs lecture, 2 hrs lab,
*Credits* 3 cr.
*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.*

-or-

**PSYCH 70100 - Advanced Experimental Psychology I**

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study; examples are drawn primarily from perception, learning, cognition and animal behavior.

*prereq: a graduate course in statistics*
*Hours* 2 hrs lecture, 2 hrs lab,
*Credits* 3 cr.
*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.*

-or-

**PSYCH 74700 - Experimental Social Psychology**

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study. Examples are drawn primarily from social and cognitive psychology. Topics include reading and writing journal quality research reports; ethics; single and multi factor designs; small-n designs; quasi-experimental designs; survey research; laboratory and field research; observational techniques; correlational research.

*prereq: a graduate course in statistics*
*Hours* 2 hrs lecture, 2 hrs lab.
*Credits* 3 cr.
*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.*

**PSYCH 70500 - Statistical Methods in Psychology I**

Covers descriptive statistics and inferential methods, including t-tests, analyses of variance, correlation, simple regression, and an introduction to multiple regression. Some assignments require the use of a statistical computer package.

*prereq: PSYCH 24800 or equivalent*
*Hours* 2 hrs lecture, 2 hrs conf or lab,
*Credits* 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 70701 - Thesis Research**

Individual research conducted under the supervision of a department faculty member, whose written permission must be obtained. Limited to students working on their MA thesis.

*prereq: PSYCH 70500 and 70100 or 74700 approved research topic and permission of a faculty sponsor*

*Hours 3 hrs including conference*

*Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 71700 - Animal Behavior and Conservation in Captivity and the Wild (B)**

Introduces concepts and techniques of wildlife biology and comparative psychology, with contributions from researchers in social behavior, reproductive biology, wildlife conservation, captive breeding, and animal cognition and communication.

*Hours 3 hrs including conference*

*Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 75103 - Basic Psychological Processes 1: Perception, Learning and Comparative Cognition (S, B)**

Covers the basic concepts in perception, learning and comparative psychology. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

*Hours 3 hrs including conference*

*Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**Elective Courses (minimum of 9 credits from the following)**

**PSYCH 64100 - Comparative Psychology (B)**

Development and evolution of the behavior of various species, major theoretical issues, classic experiments, and contemporary research and theory.

*Hours 3 hrs including conference*

*Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

**PSYCH 69000 - Independent Research in Psychology**
Designed to meet the research needs and interests of individual students under the direction of a faculty sponsor. This may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research. Projects culminate in an APA-style research report or literature review.

**Hours 3 hrs.**  
**Credits 3 cr.**  
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

**PSYCH 69100 - Independent Research in Psychology**

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000, such as a literature review, a pilot study, or acquisition of a new research technique or skill.

**Hours 1 hr.**  
**Credits 1 cr.**  
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

**PSYCH 69200 - Independent Research in Psychology**

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000 but more extensive than that required for PSYCH 69100. This may involve a literature review, a pilot study, or acquisition of a new research technique or skill.

**Hours 2 hrs.**  
**Credits 2 cr.**  
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

**PSYCH 71600 - Animal Behavior I: Mechanisms of Behavior (B)**

History of approaches to animal behavior; behavior development; proximate causation of behavior (motivation, neuroethology, and biorhythms); animal orientation and communication; cognitive ethology and culture.

**Hours 3 hrs including conference.**  
**Credits 3 cr.**  
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. instructor's permission

**PSYCH 71751 - Field Study in Animal Behavior and Conservation (B)**

Observation and study of the behavior of animals in their natural environment and application of techniques of observation and data analysis.

**Hours 3 hrs including conference.**  
**Credits 3 cr.**  
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the
Instructor's permission

PSYCH 71800 - Ethology (Animal Behavior II – Behavioral Ecology) (B)

Examines behavioral genetics, which covers the importance of single-gene effects, polygenic behavioral traits, and the utility of the concept of heritability; behavioral evolution, which covers the methods of elucidating the phylogeny of behavior when fossil evidence is not available; behavioral ecology, which focuses on mating systems, territorial behavior, feeding strategies, antipredatory behavior, and sociobiology.

Hours 3 hrs including conference, Credit 3 cr.

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

Permission

PSYCH 73000 - Psychology of Learning (B)

Contemporary phenomena and theories about learning and behavior, including both animal and human examples of learning phenomena with a focus on basic processes.

PSYCH 75400 - Applied Animal Welfare & Behavior (B)

Fundamental principles of animal behavior discussed in context of their applications to captive animal management (in laboratories, farms, zoos, aquariums, and shelters), animal welfare, and conservation. Programmatic approaches to animal care (e.g. enrichment and training) and animal welfare assessment tools will be described and evaluated.

PSYCH 75700 - Animal Thinking and Communication (S, B)

This course focuses on animal cognition and communication from the perspectives of communication theory, animal behavior, cognitive ethology and comparative cognition. Research on chimpanzees, dolphins, elephants, parrots and other animals will be covered.

Prerequisite: PSYCH 71700 or permission of instructor or of Animal Behavior and Conservation Coordinator

Hours 3 hrs.
Credit 3 cr.

PSYCH 75800 - Conservation Biology/Psychology

An understanding of biodiversity, human impacts on biodiversity, the theory and practice of maintaining biodiversity in a developing world, and the social psychology of motivating action to protect nature. Special emphasis will be placed on how human and animal behavior threatens biodiversity. This course serves a basis for more specialized courses and provides the framework within which behavioral studies are implemented to inform conservation action with special consideration of factors that influence desire and willingness to take such actions.

Prerequisite: Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

Hours 3 hrs. including conferences
Credit 3 cr.
PSYCH 75000 - Special Topics in Psychology

Readings and discussion on a selected problem or topic area – varies from semester to semester.

*NOTE: Special Topics courses and Independent Research projects related to ABC will depend upon student and faculty interests. Recent topics included Companion Animals in Society and Conservation Biology/Psychology. ABC students may also meet the elective course requirements by taking courses in any department such as Anthropology and Geography with permission of the Director of the ABC program.

Breadth Requirement

ABC students satisfy a breadth requirement by taking a 3-credit course in the applied psychology area and a 3-credit course in the social/cognitive/developmental area of psychology.

Thesis Requirement

The MA thesis is a report of individual research supervised by a faculty member in the Hunter College Department of Psychology. The thesis must be approved by the student’s thesis committee, consisting of the supervisor plus at least another reader, and by the ABC Director. An oral presentation and comprehensive examination in the area of the MA thesis, conducted by the thesis committee, is required.

Anthropology - MA

Please note that until further notice the Department of Anthropology is not accepting new students for the MA in Anthropology.

The Department of Anthropology at Hunter College offers the only master's program in general anthropology within the CUNY system. The program has a commitment to a four-field approach to graduate training, requiring coursework in cultural anthropology, physical anthropology, archaeology, and anthropological linguistics in order to prepare students for flexibility in future careers in research, teaching, and related fields.

The program is scheduled primarily in the evening to accommodate students who hold full-time jobs. Virtually all students who complete the MA program and apply to PhD programs at other institutions are admitted to a program. Some MA students are accepted to PhD programs before completing the requirements for the Hunter MA. Hunter MA students may take courses at the CUNY Graduate Center. CUNY Graduate Center offers a PhD in anthropology.

Requirements for Admission

In addition to meeting the general requirements for admission, students must have at least 9 credits in undergraduate anthropology or a related field, although in special cases this requirement may be waived.

Requirements for the Degree
1. 30 Credits

A minimum of 30 credits beyond the BA

2. Fields of the Discipline

The program of study must be chosen to fulfill a general knowledge in all four fields of the discipline. The four fields are: anthropological linguistics, anthropological archaeology, biological anthropology, and cultural anthropology (ethnology).

3. Required Courses:

**ANTH 70100 - Ethnology (Core Course)**

Surveys history, methods, theory, and basic findings of cultural and social anthropology.

*Hours 3 hrs, including conferences.*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 75000 - Archaeology (Core Course)**

Introduces basic theory, method, and findings of prehistoric archaeology in an anthropological framework.

*Hours 3 hrs, including conferences.*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 77000 - Linguistics (Core Course)**

*Hours 3 hrs, including conferences,*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

**ANTH 79000 - Biological Anthropology (Core Course)**

An introduction to the biology and evolutionary history of humans, including evolutionary theory, genetics, morphology, primate behavior, sociobiology, and paleontology.

*Hours 3 hrs, including conferences,*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

Additional Information
The examinations in each of these courses represent the qualifying exam for each of the four fields. Students are required to pass those courses with a grade of B or better. Students are strongly advised to complete these courses early in their graduate training.

4. Foreign Language Requirement

A reading knowledge of at least one foreign language appropriate to the field of specialization, or a demonstrated competence in statistics is required. Consult the graduate adviser for more information.

5. A Master's Thesis

Art History - MA

The MA in art history, granted by Hunter College since 1952, is a comprehensive program of study intended to give the student a broad background in the history of art as well as an in-depth concentration in a particular area. It leads to enrollment in PhD programs throughout the country and serves as a terminal degree for professional work in museums, galleries, arts organizations and art publishing. CUNY Graduate Center offers a PhD in art history.

Admission Requirements

Applicants are admitted in both fall and spring semesters. The applicant must have completed 12 credits of undergraduate courses in art history. Reading knowledge of a foreign language (French, German, or Italian) is required. All supporting material requested by the college’s Graduate Admissions Office (GRE score, official transcript, two to three letters of recommendation) as well as the completed on-line application form must be supplied by the application deadlines. **Application Deadlines: for fall admission, February 1; for spring admission, October 1.**

Requirements for the MA in Art History (30 cr)

1. Course Requirements:

ARTh 60200 Research Methods of Art History (3cr), as early as possible in a student's course of study.

One course must be taken in art historical theory or historiography, such as ARTh 73400, or a special topics course directly related to one of these areas (3cr).

Three courses from three of the following four areas (9cr):

1. Ancient and Medieval Art
2. Renaissance, Baroque, and 18th-century Art
3. Modern (19th- or 20th-century) and American Art
4. Non-Western Art

Three electives in Art History or other courses approved by the department (9cr).

Masters Thesis (6cr):
2. Permission of the graduate adviser:

With the permission of the graduate adviser, candidates for the MA in art history may take up to 6 credits in studio courses or in courses in related areas.

3. Transfer students:

Students may apply for transfer of up to, but no more than, 9 credits from another institution (including the Graduate Center of the City University of New York). Permission to transfer credits is not guaranteed and is considered on a case by case basis.

4. Examinations:

Students must take and pass two examinations before they are permitted to proceed beyond 15 credits. It is recommended that they take these examinations as early in their careers as possible. Both examinations are given once each semester.

Language Examination:

Students must demonstrate their ability to use at least one foreign language as a research tool by passing a written examination in French, German or Italian.

Comprehensive Examination:

Passing a written examination in the history of art is required of all candidates.

5. Mid-program evaluation:

The progress of each student will be reviewed upon the completion of 15 credits. Students will be permitted to proceed if they have demonstrated proficiency in writing and research skills and have passed the comprehensive and foreign language examinations.

6. Incomplete credit:

Students with 6 credits of IN (“Incomplete”) will not be permitted to register for courses.

Additional Information

For further information write the Graduate Adviser, Art History Program.

Facilities

The department functions in two main locations, the main campus at 68th Street and Lexington Avenue and the MFA Studio Building at 450 West 41st Street. The North Building at 68th Street houses the administration and the library
and has fully equipped, newly renovated workshops on the 11th floor in photography, graphics, metal, wood, plaster, computer graphics and general painting studios. The basement of Thomas Hunter Hall, the adjacent building, houses the clay workshop. The MFA Building houses the graduate studios, the MFA Gallery, and the graduate photo, wood, metal and ceramics studios.

Galleries

The Bertha and Karl Leubsdorf Art Gallery, located at the main campus, houses professionally organized exhibits that support the educational programs of the Art Department of Hunter College.

The MFA Gallery at 450 West 41st Street is a 12,000-sq. ft. space renovated by graduate students and faculty.

The entire exhibition program maximizes student and faculty participation to expand the parameters of the graduate programs in both fine arts and art history.

Scholarships and Travel Grants

The Esther Fish Perry Award for outstanding students is given each year to an MFA student in the final year of study. Enrolled students are encouraged to apply for the William Graf Travel Grant: approximately two awards of up to $1,200 each are given every semester to an MA and MFA student. Tony Smith Awards are given to students at the discretion of faculty.

Biochemistry - MA

Return to: Biochemistry

Requirements for Admission for Plan 1 and Plan 2

General admission requirements to Hunter's graduate programs are observed including GRE (verbal and quantitative reasoning); TOEFL (for foreign students whose native language is other than English). The GRE will be waived upon applicant's request, if documentation of professional experience in the field, or graduate-level academic work show adequate preparation to successfully pursue the degree.

In addition, the student must have completed the following courses: general chemistry (including qualitative analysis) (one year), quantitative analysis, organic chemistry (one year), physical chemistry (one semester lecture and laboratory), biology (one year), biochemistry lecture and laboratory (one semester). Deficiencies may be made up during the first three semesters of graduate study.

Students who have successfully completed two or more graduate-level courses with a GPA of 3.0 or better may request a waiver of the GRE score requirement. The request for GRE waiver must be submitted in writing at least one month before the deadline of applications (end of October for Fall admission, end of March for the spring admission).

Requirements for Admission for Plan 3

The general guidelines for admission to Hunter College will be followed. Students who have successfully completed two or more graduate-level courses with a GPA of 3.0 or better may request a waiver of the GRE score requirement. The request for GRE waiver must be submitted in writing at least one month before the deadline of applications (end of October for Fall admission, end of March for the spring admission). (Note, this new policy on GRE waiver will be applied to all three study plans). Students who have successfully completed two or more graduate-level courses with
a GPA of 3.0 or better may request a waiver of the GRE score requirement. The request for GRE waiver must be submitted in writing at least one month before the deadline of applications (end of October for Fall admission, end of March for the spring admission). Students interested in Plan 3 should submit a written letter-of-intent to the advisor after being admitted to the M.A. Program in Biochemistry before the ending of the first semester of study. To qualify for this option, students must have completed 9-12 credits of graduate-level courses that can be transferred upon approval. Credits that counted toward graduation requirements for a baccalaureate degree cannot be transferred. In addition, the student should provide an evaluation letter from the thesis mentor indicating the student can complete the thesis within one year. In the event that the student fails to defend the thesis by the end of the first year of study, he/she could request a one-year extension to graduate under the Accelerated Thesis Option. Alternatively, or in the event the request is denied, he/she has the option to choose to graduate under study Plan 2: The Thesis Option or Plan 1: the Comprehensive Exam Option, provided that he/she meets all requirements of the chosen Plan 2.

Requirements for the Degree

Comprehensive Examination or Thesis:

Students may complete the requirements for the MA through either of the following two plans:

- Plan (1): A minimum of 30 credits of course work plus a passing grade in a comprehensive examination.

- Plan (2): A minimum of 24 credits of course work, plus 6 credits from a thesis on an original research problem. The thesis must be approved by the student’s adviser, and it must be defended before a thesis committee.

Courses:

The student must complete the following courses from the list below. Note that no more than 10 credits of 600-level courses may be taken.

Plan (1):

**BIOCHEM U71010 - Advanced Biochemistry 1**

*prereq: a 1-semester course in biochemistry or equiv and physical chemistry*

*Hours 3 hrs.*

*Credits 3 cr.*

*Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.***

**OR**

**CHEM 64000 - Biochemistry I**

Proteins, enzymes, bioenergetics, recombinant DNA.

*prereq: 1 yr of undergraduate organic chemistry*

*Hours 3 hrs.*

*Credits 3 cr.*

*Fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.*
BIOCHEM U71020 - Advanced Biochemistry 2

prereq: BIOCHEM 71010 or equivalent
Hours 3 hrs,
Credits 3 cr
Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

OR

CHEM 64100 - Biochemistry II

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

prereq: CHEM 64000
Hours 3 hrs,
Credits 3 cr
Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,
Credits 3 cr
Fall only, offered at the Graduate Center

- BICM 77000 Physical Biochemistry

CHEM 65000 - Biophysical Chemistry

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent
Hours 4 hrs.
Credits 4 cr
Fall

Minimum of two courses from the following:

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry
Hours 75 hrs,
Credits 5 cr
Fall only

BIOL 71401 - Cell Biology
In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
spring only

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)
Hours 60 lec,
Credits 4 cr
fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401
Hours 60 lec,
Credits 4 cr
Spring only

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor
Hours 30 hrs/wk for 4 wks,
Credits 4 cr

Additional Requirements:

- BIOCHEM 71551
- BIOCHEM 71552
- BIOCHEM 71553
- BIOCHEM 71554
- BIOCHEM 71100

Any remaining or additional credits may be taken by choosing courses in Biology or Chemistry as electives, or by taking additional research credits (BIOCHEM 71201, BIOCHEM 71202, BIOCHEM 71203, BIOCHEM 71204)

A passing grade of the Comprehensive Exam given at the end of the study.
Plan (2):

**CHEM 64000 - Biochemistry I**

Proteins, enzymes, bioenergetics, recombinant DNA.

*prereq: 1 yr of undergraduate organic chemistry*

*Hours 3 hrs.*

*Credits 3 cr.*

Fall \( \text{CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.} \)

**CHEM 64100 - Biochemistry II**

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

*prereq: CHEM 64000*

*Hours 3 hrs.*

*Credits 3 cr.*

Spring \( \text{CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020 may be substituted, respectively by} \)

**BIOCHEM U71010 - Advanced Biochemistry 1**

*prereq: a 1-semester course in biochemistry or equiv and physical chemistry*

*Hours 3 hrs.*

*Credits 3 cr.*

Fall only, offered at the Graduate Center \( \text{CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.} \)

**BIOCHEM U71020 - Advanced Biochemistry 2**

*prereq: BIOCHEM 71010 or equivalent*

*Hours 3 hrs.*

*Credits 3 cr.*

Spring only, offered at the Graduate Center \( \text{CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.} \)

**BIOCHEM U75000 - Bioorganic Chemistry**

*Hours 3 hrs.*

*Credits 3 cr.*

Fall only, offered at the Graduate Center

**BIOCHEM U77000 - Physical Biochemistry**

*prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry*

*Hours 3*

Spring only, offered at the Graduate Center

Minimum of one course from:
BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry
Hours 75 hrs,
Credits 5 cr
fall only

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
spring only

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)
Hours 60 lec,
Credits 4 cr
fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401
Hours 60 lec,
Credits 4 cr
Spring only

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor
Hours 30 hrs/wk for 4 wks,
Credits 4 cr
Additional Requirements:

- BIOCHEM 71551
- BIOCHEM 71552
- BIOCHEM 71553
- BIOCHEM 71554
- BIOCHEM 71100
- BIOCHEM 79901
- BIOCHEM 79902
- BIOCHEM 79903

Any remaining credits may be taken as research credits (BIOCHEM 71201, BIOCHEM 71202, BIOCHEM 71203, BIOCHEM 71204)

Plan (3)

Minimum of 9 cr. Graduate-level courses that may come from any combination of three courses from the following three lists:

*Hunter Chemistry:*

- CHEM 63300 Computational Drug Discovery 3 cr.
- CHEM 66800 Structural Biology 3 cr.
- CHEM 67000 Introduction to Nanotechnology 3 cr.
- BIOCHEM U71010 Advanced Biochemistry 1 3 cr
- BIOCHEM U71020 Advanced Biochemistry 2 3 cr
- BIOCHEM U75000 Bioorganic Chemistry 3 cr

No more than two from the following *Hunter Biology courses:*

- BIOL 71013 Molecular Biology Lecture 5 cr
- BIOL 71401 Cell Biology 4 cr
- BIOL 70005 Genetics 4 cr
- BIOL 75003 Developmental Biology 4 cr

*Graduate Center - Chemistry and Biochemistry:*

- CHEM 81900 Topics in inorganic chemistry: Radiochemistry 3 cr.
- BICM 77000 Physical Biochemistry 3 cr.

Minimum of 21 cr. of research-related training:

- BIOCHEM 71551 Seminar in Biochemistry 1
- BIOCHEM 71553 Seminar in Biochemistry 1
- BIOCHEM 71554 Seminar in Biochemistry 1
- BIOCHEM 71100 Basic Laboratory Techniques for Research in Biochemistry 4
- BIOCHEM 71201 Advanced Laboratory Techniques for Research in Biochemistry 1 cr.
- BIOCHEM 71202 Advanced Laboratory Techniques for Research in Biochemistry 2 cr.
- BIOCHEM 71203 Advanced Laboratory Techniques for Research in Biochemistry 3 cr.
• BIOCHEM 71204 Advanced Laboratory Techniques for Research in Biochemistry 4 cr.
• CHEM 64900 Instrumental Analysis 5 cr. OR CHEM U79000 Basic Laboratory Techniques for Research in Biochemistry 4 cr
• BIOCHEM 79901 Thesis Research (Master's) 1
• BIOCHEM 79902 Thesis Research (Master's) 2
• BIOCHEM 79903 Thesis Research (Master's) 3

**Biological Sciences - MA**

The degree is offered either as a terminal degree or as the first year toward the PhD within CUNY. Both introductory and advanced graduate courses are available at Hunter College.

**Requirements for Admission**

In addition to the general Requirements for Admission, the following departmental requirements must be met:

1. One year of organic chemistry with laboratory
2. One year of college physics
3. One semester of calculus and a second semester of either calculus or statistics
4. An undergraduate major in biology, botany, physiology, zoology, chemistry, physics, or other appropriate discipline with a minimum overall GPA of 2.7. A minimum of 18 credits in appropriate undergraduate science and mathematics courses should be presented. Chemistry or physics majors must offer at least one year of appropriate life science for admission to any of the majors in the MA program in biological sciences including a semester of genetics, molecular biology or biochemistry.
5. TOEFL Test for international students with a non-English speaking background.

Students may submit scores on the General Test of the Graduate Record Examination (GRE) (verbal and quantitative) to improve the likelihood of admission.

**Requirements for the Degree**

The program of course work, planned with the graduate adviser, is concentrated in one of the following major areas: molecular and cell biology, cancer biology, molecular and developmental genetics, molecular neuroscience, and biotechnology.

**Required Courses**

**BIOL 70005 - Genetics**

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

*prereq: undergraduate genetics and molecular biology (or biochemistry)*
*Hours 60 lec,*
*Credits 4 cr*
*fall only*

**BIOL 71013 - Molecular Biology Lecture**
Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

**prereq:** 1 yr of organic chemistry  
**Hours** 75 hrs,  
**Credits** 5 cr  
**fall only**

**BIOL 71401 - Cell Biology**

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

**prereq:** undergraduate organic chemistry or biochemistry  
**Hours** 60 hrs,  
**Credits** 4 cr  
**spring only**

**BIOL 75003 - Developmental Biology**

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

**prereq or coreq:** BIOL 71013 and BIOL 71401  
**Hours** 60 lec,  
**Credits** 4 cr  
**Spring only**

Additional Information

Up to 4 credits of tutorial are accepted toward the degree. Only one 600-level course including courses outside Biological Sciences, such as Biochemistry may be credited toward the degree.

Matriculated Students May Fulfill Requirements for the MA

Matriculated Students may fulfill requirements for the MA through either of the following plans:

- **Plan A - Comprehensive Exam Only:** A minimum of 30 credits of course work plus a passing grade in a written Comprehensive Examination in the areas covered by the four required core courses. The Comprehensive Examination is given annually in June. Only fully matriculated students who have completed all four required courses may take the comprehensive examination.

- **Plan B - Comprehensive Exam and Thesis:** A minimum of 24 credits of course work plus a passing grade in a written Comprehensive Examination and a minimum of 6 credits of original research that is summarized in a written thesis. The completed thesis must be approved by the student’s faculty mentor, the MA adviser, and the Office of the Dean of Arts & Sciences at least one month before the expected date of graduation. An oral presentation of the MA thesis is required.

Courses for Non-matriculated Graduate Students
Students with a baccalaureate degree may register for some graduate courses without matriculation. After being admitted as a non-matriculating graduate student, students may take BIOL 70005 - Genetics (fall only) or BIOL 71401 - Cell Biology (spring only) without prior departmental permission. For all other courses, non-matriculating students must get permission directly from the course instructor. Specific graduate courses being offered each semester are listed at http://registrar.hunter.cuny.edu/subpages/searchclass.shtml

There is no dedicated adviser for non-matriculating students who want to take graduate Biology courses. Non-matriculating students should see any Biology faculty member during regular office hours for advising. Please contact the department secretary at 212-772-5293 to find out faculty office hours.

Return to: Biological Sciences

**Biology with Specialization in Biotechnology - MA**

Return to: Biological Sciences

**Admission Requirements**

GPA 3.0

GRE (general part) to be taken before registering for 700-level courses

Baccalaureate degree in biology or related fields

**Degree Requirements**

30 credits plus a passing grade on a comprehensive examination or a thesis

**BIOL 62000 - Internship**

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

_prereq: BIOL 61000
_Credits 3 months, 4 cr_

**Core Courses for the MA (21-28 credits)**

**BIOL 71401 - Cell Biology**

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

_prereq: undergraduate organic chemistry or biochemistry
_Hours 60 hrs,
_Credits 4 cr
_spring only_

**BIOL 71013 - Molecular Biology Lecture**
Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry  
Hours 75 hrs,  
Credits 5 cr  
fall only

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)  
Hours 60 lec,  
Credits 4 cr  
fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401  
Hours 60 lec,  
Credits 4 cr  
Spring only

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor  
Hours 30 hrs/wk for 4 wks,  
Credits 4 cr

BIOL 62000 - Internship

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

prereq: BIOL 61000  
Credits 3 months, 4 cr

Electives (5-13 credits)

Additional Information
For additional elective courses, consult department adviser.

Return to: Biological Sciences

**Computer Science MA**

**Master of Arts**

There is demand in industry and in doctoral programs for master's-level computer science graduates who have both an understanding of the theoretical foundations of computing and expertise in its applications. The MA program in Computer Science at Hunter College bridges the gap between a traditional undergraduate degree and an advanced path for a student's future. Hunter College, recognizing the need for an affordable, conveniently located program in computer science, offers a master of arts in computer science.

**Departmental Requirements for Admission**

To be considered for admission to the MA program in computer science, prospective students must meet the following criteria:

1. A BA or its equivalent, preferably in computer science, with a minimum GPA of 3.0 in the final 2 years of computer science and related course work.
2. Courses in: calculus I and II, linear algebra or matrix algebra, statistics, discrete structures, data structures, and computer systems.
3. Top 50th percentile on the Graduate Record Examination Quantitative Reasoning score

*Note:* Students whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL). The minimum TOEFL score that is required for graduate study in the School of Arts and Sciences at Hunter College must be achieved for admission into the Computer Science MA program. See: [http://www.hunter.cuny.edu/graduateadmissions/faq/toefl-tse-twe-scores](http://www.hunter.cuny.edu/graduateadmissions/faq/toefl-tse-twe-scores)

**Departmental Requirements for the Degree**

**Courses**

Upon admission, each student is assigned an advisory committee to provide counseling and to approve a plan of study; the committee may waive pre- or co-requisites, if appropriate. A minimum of 30 credits is required for the degree. After completing 12 credits of core courses (CSCI 70500, CSCI 72400, CSCI 73000 and CSCI 74000), a student's curriculum is made up of either:

(i) 4 elective courses and a 6-credit thesis (18 credits total), or

(ii) 6 elective courses (18 credits total), at least one of which must be CSCI 79500 - Advanced Topics in Computer Science which will require a large programming project and a report; a passing grade on an exit examination must also be achieved.

The choice should be made in consultation with the student's advisory committee shortly after completing the core courses. The program of study may include up to 6 credits from a department other than computer science, provided the
student receives proper approval from his or her advisors.

Areas of Concentration

Students may concentrate in one of 2 tracks within the Department of Computer Science: Research or Applied. After completing the core courses, in consultation with their advisory committee, students will choose a significant number of courses in one of these 2 areas.

Course Listings

*Each course is 3 hrs, 3 cr unless otherwise noted.*

*Note: Your advisory committee may waive pre- or co- requisites if appropriate.*

Core (12):

**CSCI 70500 - Algorithms**

Complexity and applicability of file and data manipulation techniques including searching, sorting, supporting internal and external data structures, sequential and random access methods, basic big data techniques and other topics.

*prereq: departmental permission
Hours 3 hrs
Credits 3 cr.*

**CSCI 72400 - Computational Theory**

Turing machine model for computation: multiple tapes, multiple heads and nondeterminism, space-bounded and time-bounded TMs; completeness theorems.

*prereq: departmental permission
Hours 3 hrs
Credits 3 cr.*

**CSCI 73000 - Computer Systems**

Terminology, function units, buses, DMA, interrupts, priorities, memory systems, I/O systems, parallel processing and networking.

*prereq: departmental permission
Hours 3 hrs
Credits 3 cr.*

**CSCI 74000 - Computer Modeling and Simulation**

Examination of major models of data systems; Petri nets, data flow diagrams, queuing theory, other topics.

*prereq: departmental permission*
Applied Electives:

**CSCI 70100 - Theory of Operating Systems**

Resources, concurrent processes, processor scheduling, probability models of sequencing, memory management, performance analysis models.

*prereq: Departmental permission*

**CSCI 71000 - Contemporary Data Base Technology**

Current techniques in technology; case studies of pioneering applications; next-generation breakthrough analysis; current research efforts.

*prereq: Departmental permission*

**CSCI 71100 - Cloud Database Security and Integrity**

Privacy requirements, computer system security; policy formation, authorization, data integrity, audit control; other topics.

*prereq: departmental permission*

**CSCI 76000 - Computational Linguistics**

Formal grammars, transformational models, augmented transition networks, design of parsers, parsing techniques, Determinism Hypothesis, other topics.

*prereq: Departmental Permission*

**CSCI 76100 - Artificial Intelligence**

Levels and types of knowledge, uses and induction of knowledge, logic, machine learning, scope and specificity choice of primitives, other topics.

*prereq: departmental permission*
CSCI 77100 - Contemporary Application Development

Current techniques in technology, pioneering applications; analysis of next-generation breakthroughs and current research efforts.

*prereq: Departmental permission.*

CSCI 79500 - Advanced Topics in Computer Science

Topics will vary, dealing primarily with state-of-the-art material in computer science. May be repeated for a maximum of 6 cr.

*prereq: Departmental permission*

Research Electives:

CSCI 72200 - Formal Methods in Programming Languages

Data and control abstractions; backtracking and nondeterminism; the effects of formal methods for program description; proving correctness.

*prereq: Departmental permission*

CSCI 75000 - Combinatorial Computing

Computer representation of combinatorial objects; back-tracking; generating and enumerating combinatorial objects; other topics

*prereq: Departmental permission*

CSCI 75100 - Cryptography

Problems and possibilities of encryption and decoding; traditional and contemporary methods of encryption and time/memory trade-off.
prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 75200 - Graph Theory I

Permutations and combinations, generating functions, advanced counting numbers, cycles, parity, conjugacy classes, graphs, other topics.

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 75300 - Graph Theory II

Depth-first search, ordered trees, codes, optimization problem, sort-by-merge; applications of network flow techniques; other topics.

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 79500 - Advanced Topics in Computer Science

Topics will vary, dealing primarily with state-of-the-art material in computer science. May be repeated for a maximum of 6 cr.

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 79900 - Thesis Research in Computer Science

Thesis research. The course is open only to students selecting the thesis option. May be repeated for a maximum of 6 cr.

prereq: Permission of grad adviser
Hours 3 hrs
Credits 3 cr.

(Note that CSCI 79500 can count as an elective in either the Applied or Research track).

Total Credits required: 30

Dance Pre-K - 12 - MA
This graduate program (Academic Plan: DANCED-MA) prepares candidates to teach Dance PreK - Grade 12 to students of diverse backgrounds, abilities and interests. The curriculum is enriched by repertory classes with New York City-based choreographers, international performance opportunities and internships at various venues.

This program offers three tracks (or subplans):

- **TRACK 1 (Subplan: DANEDLNYSC)** is for those with at least 34 credits in Dance but who do not have NYS certification in Dance.
- **TRACK 2 (Subplan: DANEDANYSM)** is for those with initial NYS certification in Dance.
- **TRACK 3 (Subplan: DANEDANYSC)** is for those with at least 34 credits in Dance and have initial NYS certification in a subject area other than Dance.

**Admission Requirements**

Applicants must be admitted by both the School of Education and the Dance Department.

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A minimum of 34 credits in dance with a GPA of at least 3.0 in dance.
3. **Track 1 Only:** General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
   **Track 2 Only:** NYS certification in Dance Education.
   **Track 3 Only:** NYS certification in a subject area other than Dance Education.
4. Applicants also need to submit a DVD or link to up to three clips of their creative work - between 5 and 15 minutes in total and a curriculum vitae.
5. A 3 credit course in special education that focuses on supporting students with disabilities in the general education classroom. Students without this course may be admitted conditionally and must take SPED 70800 in addition to other degree requirements.
6. Two professional references.
7. A personal statement.
8. An audition and interview.
9. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Progress Standards**

**A. 12-Credit Progress Standards for Matriculated Students**

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.
Note: It is recommended that students with two or more INs take an official leave of absence.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Courses for All Tracks

**DAN 70100 - Physical Training**

The ongoing, rigorous training in a dance/movement style pertinent to the individual student's artistic and pedagogical goals. Exploration of unfamiliar movement disciplines will be required. This course is designed to allow each student to articulate and execute a regular training regimen that will build and refine her/his skills as practitioner of an artistic movement discipline. A variety of individual training plans are overseen by faculty. Regular group meetings examine how underlying aesthetic and kinesiological assumptions embodied by the training inform students' approaches to teaching artistry, improvisation, and choreography.

*prereq: Admission to a graduate dance program*

*Hours 3*  
*Credits 2*  
*Can be taken more than once for credit, required 3 times for MA, 2 times for BA/MA.*

**DAN 70500 - Maintenance of the Dancer's Instrument**

An in-depth survey of a wide variety of somatic approaches to and interventions in dance training including ideokinetic and bodywork techniques, postural and motional training methods, and alternative movement disciplines. The course includes analytical, observational and participatory experiences, and will build on individual needs and interests of the students. Application of somatic knowledge to teaching movement and dance is stressed.

*prereq or coreq: DAN 35000 or equivalent course and/or related professional background*
DAN 73000 - Studies of Forms

This course develops choreographic proficiency through practical experience with, and observation of, artistic form and content across a range of disciplines. Short- and long-term experiments are presented in class and in occasional showings open to the public. The role of self-review, as well as external feedback during creative processes, is considered by utilizing a variety of protocols for response.

prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department

Hours 3
Credits 3
This course is repeatable once for credit.

DAN 73500 - Performance and Presentation

The development and public presentation of original choreography in performance at Hunter College or another suitable public venue. Regularly scheduled showings will offer opportunities to reflect on the work, receive feedback, and dialogue with faculty during the process of conception and execution.

prereq: Acceptance into one of the graduate dance programs: BA/MA, MA

Hours 3
Credits 1
This course is repeatable once for credit.

DAN 74000 - Aesthetics

A seminar examining a variety of global artistic practices and value systems from both aesthetic and cultural perspectives. The course focuses on a broad range of dance and examines how choreographers, dancers, designers, critics, audience members, teachers, producers and scholars function and interrelate. Students examine a variety of analytical paradigms-- including structuralism, semiotics and literary theory -- through the study of the major writers and thinkers in the field. A culminating study is typically a close analysis of the student's personal creative work.

prereq: Admission to one of the graduate dance programs

Hours 3
Credits 3

DAN 74200 - Graduate Dance History

This course deepens the student's understanding of key points in concert and global vernacular dance in the 20th century. How those points have reflected social, cultural, and political forces, and impacted 21st century dance, is examined throughout the course. A major research paper is the culminating project. Both practice and theory are engaged through readings of historic texts and public reviews, film/video viewings, attendance at live performances, and group discussions.

prereq: Admission to one of the graduate dance programs AND DAN 23200 or comparable undergraduate dance history course or equivalent experience.
DAN 74600 - Special Topics in Dance

A seminar/laboratory course focusing on a varying series of topics, selected according to student interests, current faculty research, and available guest artists and master teachers. Topics can include a wide variety of historical, aesthetic, cultural, technological and political issues. The course encourages advanced study in specialized areas of particular student interest. Possible topics include: dance in the digital age, specific cultural forms, dance in community settings, motor learning from multiple perspectives, etc.

prereq: Admission to one of the graduate dance programs

DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning

An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct "action research" in order to identify conditions that support or hinder productive teaching and learning. This first phase of the "methods" course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).

prereq or coreq: 6 credits in education and 12 credits in dance

DANED 76200 - Dance Methods II: Advanced Curriculum Design and Pedagogy for Productive Teaching and Learning

Advanced investigation of contexts for productive teaching and learning. Students will engage in intensive examinations of pedagogical theories and practices, conduct "action research" in order to identify conditions that support or hinder productive teaching and learning, develop unit plans, and participate in peer-to-peer inquiry groups to develop their own artistry in teaching.

prereq: DANED 76000

Additional Courses for Track 1

DANED 76605 - Student Teaching

Teacher candidates complete a total of 60 days of student teaching (30 days of student teaching at grades pre-K-5 and 30 days at grades 6-12) under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty 4 times during their student teaching experience. All student teachers are required to participate in a seminar class meeting 1 hour per week for 15 weeks. A
culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000, DANED 76000, 76200
Hours 60 days plus 15 hrs seminar
Credits 5

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,
Credits 3 cr

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400
**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

**prereq:** SEDF 70500
**coreq:** One of the following must be a Co-req:

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 772.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

**Cross-listed SPED 308**
**prereq:** 12 credits of coursework
**Hours 45**
**Credits 3**

*A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.*

**Additional Course for Track 2**

**DANED 76400 - Practicum**

Students with initial state certification in dance complete a semester of Practicum in their current full-time dance teaching situation or in assigned schools under the supervision of a Hunter College faculty member. Practicum teachers will assume all responsibility for classroom instruction and management and will be observed by Hunter faculty 4 times during the course of the semester. All Practicum students are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

**prereq:** DANED 76000, DANED 76200
**Hours 2 hrs plus 15 hrs seminar required**
**Credits 2**

**Additional Course for Track 3**

**DANED 76602 - Student Teaching**
Teacher candidates complete a total of 20 days of student teaching under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty twice during the course of their student teaching experience. All student teachers are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000; DANED 76000, DANED 76200
Hours 20 days plus 15 hrs seminar
Credits 2

Exit Requirements

1. An overall GPA of 3.0.
2. Successful completion of an online Dance Education Professional Teaching Portfolio (PTP).
3. Participation in a final performance event as a performer, choreographer, or technical production crew member.
4. Completion of the DASA workshop.
5. Tracks 2 and 3 must have valid and appropriate NYS certification.

Economics - MA

Hunter’ s master’ s program in economics equips students with analytic tools that can be directly applied to business and public policy. The program integrates economic theory, quantitative methods and practical applications, and emphasizes elective courses in international trade and finance, economic development, financial economics, industrial organization, corporate governance, labor economics and public finance. Hunter MAs regularly move into interesting, well-paid positions in business, government, and international organizations. They are equally prepared to enter PhD programs at top-ranking universities.

Under the direction of professors who combine distinguished academic credentials with wide experience in economic research and applications, students studying for an MA at Hunter may participate in such major ongoing projects as: taxation, government spending, and economic growth; earnings of immigrants and minority groups; saving and investment in rural economies; taxation and the regional economy; social security and public welfare; tax competition; health out-comes; corporate investment and financial decisions; regulatory policy; corporate control; location choices of immigrants.

The program is offered in the evening to accommodate students who hold full- and part-time jobs.

Requirements for Admission

Applicants to the MA program in economics must provide their scores on either the Graduate Record Examination (GRE) or the Graduate Management Admission Test (GMAT). Hunter College undergraduates with a GPA of 3.5 or higher are exempt from the GRE/GMAT requirement. In addition to the other Requirements for Admission to Hunter, the following departmental requirements must be met: at least 18 credits of undergraduate courses in economics, at least 9 credits of undergraduate courses in mathematics, and two letters of recommendation from college teachers, including one from a member of an economics department. The credits in economics must include at least six in principles of economics, and at least three in each of the following courses: economic statistics, introductory econometrics, intermediate microeconomics, and intermediate macroeconomics. The credits in mathematics must include two semesters of calculus and one of matrix algebra. Intermediate microeconomics, intermediate macroeconomics, introductory econometrics, calculus I and II, and matrix algebra are prerequisites for required courses in the MA program.
Students who have not completed these courses at the time of admission will be required to complete the needed course(s) during their first semester at Hunter. (Completion of such courses cannot be counted towards the MA.)

Requirements for the Degree

Of the 30 credits required for the degree, at least 24 must be devoted to courses in economics. The remaining 6 may be taken in related fields with permission of the department. All candidates are required to complete the following.

ECO 70100 - Microeconomic Theory

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500

ECO 70300 - Macroeconomic Theory

Determinants of national income, output, employment and price levels, including microeconomic foundations of aggregate consumption, saving, and investment; theories of the business cycle and long-term growth; effects of public policies on employment, inflation and economic growth.

prereq: ECO 30100 with a grade of B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500

ECO 72100 - Linear Econometric Analysis

Econometric analysis of linear statistical models. Topics include: ordinary least squares-estimation, inference, testing and specification testing; instrumental variables and simultaneous equations models; panel data regression; time series and forecasting.

prereq: ECO 32100 with a grade of B; MATH 15000 and MATH 16000 with an average grade of B
prereq or coreq: MATH 15500

ECO 72200 - Non-Linear Econometric Analysis

Econometric analysis of nonlinear statistical models. Maximum likelihood estimation; models for binary outcomes; models for ordered and unordered multinomial outcomes; models for self-selection; count data models.

prereq: ECO 72100
prereq or coreq: MATH 16000

The degree can be earned in two ways:

1. Completion of 27 credits of course work and 3 credits of Thesis Research. Students must submit a satisfactory master’s thesis written under the supervision of a member of the economics faculty.

2. Completion of 30 credits of course work. Students must prepare a supervised extended research paper in two of their courses and earn at least a B+ on each paper.

ppchen@hunter.cuny.edu

This program (Academic Plan: EDPSYCH-MA) provides a foundation of research, measurement, assessment, program evaluation and applied statistics for educational settings and related fields through two concentrations of study:

1. General Educational Psychology; and
2. Assessment, Research and Evaluation.

It is designed for students with no prior experience in education as well as those who have a background in education and want to expand their skills and knowledge. Students in this program may use the degree as a bridge to a doctoral program in Educational Psychology or a related discipline; or to prepare professional careers in program evaluation; institutional research; assessment-measurement and testing; and instruction an curriculum development in public and private institutions.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 2.8. Students who do not meet the minimum GPA requirement may submit scores on the general aptitude test of the Graduate Record Examination (GRE) to serve as evidence of their ability to complete graduate-level work.
2. On-site interview.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

EDPSYCH-MA

Total Credits
Core Courses
- All students are required to take 3 core courses and a proseminar -

EDPS 70000 - Educational Psychology Proseminar

This proseminar consists of workshops, discussions and presentations on topics orienting students to the field of educational psychology and introducing them to the research interests of faculty members.

Credits: none

EDPS 70100 - Statistics and Statistical Computing in Education I

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, t-tests, analysis of variance, correlation, regression, and the use of computer packages for these analyses.

Hours: 60
Credits: 4

EDPS 70200 - Educational Research Methods

This course is to increase students' understanding of the nature, purposes, needs, and types of research conducted by educational researchers and psychologists. Students will learn a range of research designs and methods, and their applications to education-related settings and issues.

Hours: 60
Credits: 4

EDPS 70300 - Learning and Behavior Theories

This course provides students with an overview of the study of human learning and behavior. A major goal of this course is to provide students with the knowledge and skills necessary to enable them to appropriately apply theories of learning in instructional settings.

Hours: 60
Credits: 4

Concentration Area Courses
- Select 8 credits in their concentration area -

Concentration I: General Educational Psychology

EDPS 71100 - EDPS Metacognitive and Cognitive Processes in Education
This course provides students with an overview of major research on metacognitive and cognitive processes in learning and instruction. Focuses will be on major theories and research as well as metacognitive and cognitive processes and strategy applications in the areas of mathematical learning, text comprehension, science, and writing.

prereq: EDPS 70200
coreq: EDPS 70300
Hours 60
Credits 4

EDPS 71200 - Multicultural Issues in Learning and Instruction

This course will examine the current research in K-12 education to explore the role of multicultural issues in teaching and learning.

prereq or coreq: EDPS 70200
Hours 60
Credits 4

EDPS 71300 - Cognition and Educational Technology

This course covers research about the influence of educational technology on the development of thinking and learning.

prereq: EDPS 70300
Hours 60
Credits 4

- Or -

Concentration II: Assessment, Research, and Evaluation

EDPS 72100 - Statistics and Statistical Computing in Education II

This course builds on knowledge of basic statistics, focusing on multiple regression and factorial ANOVA for statistical analysis of continuous and categorical independent variables. Diagnosis and treatment of data analytic problems such as missing data are discussed.

prereq: EDPS 70100, EDPS 70200
Hours 60
Credits 4

EDPS 72200 - Tests and Measurement

This course covers the following topics: classical test theory, tests construction, reliability estimation and generalizability theory, validation, item analysis, test bias, and introduction to item response theory, and the use of high-stakes testing in educational policy.
**EDPS 72300 - Educational Program Evaluation**

This course is designed to provide students with an overview of key concepts, theories, and methodologies utilized in the field educational evaluation.

**Hours** 60  
**Credits** 4

**Elective Courses in Educational Psychology**  
- Select 8 additional credits either from a concentration area or from the following electives -

**CEDF 71200 - Child and Adolescent Development**

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

**Hours** includes 5 hrs of field work  
**Credits** 4

**CEDF 71700 - Independent Study in Educational Foundations**

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

**Credits** 1  
*permission of faculty adviser and chairperson required*

**CEDF 71800 - Independent Study in Educational Foundations**

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

**Credits** 2  
*permission of faculty adviser and chairperson required*

**CEDF 71900 - Independent Study in Educational Foundations**

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.
EDPS 74100 - Mediating Factors in Student Achievement

This course will examine the current research in K-12 education in an effort to explore several of the more widely identified mediating factors that directly impact upon student achievement.

prereq: EDPS 70300
Hours 60
Credits 4

EDPS 74200 - Special Topics in Educational Research Methods

This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300
Hours 60
Credits 4

EDPS 74300 - Special Topics in Educational Psychology

This course will examine current research regarding a selected topic within the field of educational psychology; topics and readings will vary by semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300
Hours 60
Credits 4

- EDPS 711, EDPS 712, EDPS 713, EDPS 721, EDPS 722 and EDPS 723 may count towards electives if not used to fulfill the concentration area requirement.

Culminating Courses
- Select either a thesis or a non-thesis option -

EDPS 79000 - Educational Psychology Seminar

This course provides an opportunity for students to prepare an original scholarly review of research literature or theoretical paper of publishable quality on an educational psychological topic of interest. The general goal of the course is to enable students to apply their knowledge of educational psychological issues and research through the development of a scholarly research paper.

prereq: students must have completed a minimum of 24 credits
**EDPS 79501 - Educational Psychology Thesis Research 1**

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

*prereq: students must have completed a minimum of 24 credits*

**Hours 30**

**Credits 2**

- And -

**EDPS 79502 - Educational Psychology Thesis Research 2**

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

*prereq: students must have completed a minimum of 24 credits*

**Hours 30**

**Credits 2**

Students electing Thesis Research (EDPS 79501) and (EDPS 79502) will prepare a report of a research investigation in which they design and execute an empirical study under the supervision of a faculty advisor. Students electing the non-thesis option will enroll in a seminar course (EDPS 79000) in which they prepare a scholarly publishable-quality review of the research literature on a topic approved by the faculty.

**Exit Requirements**

1. An overall GPA of 3.0.
2. Complete Culminating Experience.

**English - MA**

The MA program in Literature, Language, and Theory offers opportunities for both professional advancement and personal development. It may be taken as a terminal course of study or as preparation for doctoral work in English or other humanities fields. In addition to the usual lecture, discussion, and seminar classes, the program offers reading tutorials and the opportunity for writing a research essay under the guidance of a senior faculty member.

**Admission Requirements**

In addition to the general requirements for admission, the following departmental requirements must be met: 18 credits of advanced undergraduate courses in British and American literature (exclusive of courses in journalism and writing), a writing sample of about 10 pages (preferably an undergraduate research paper) and the GRE General Test. Students
who have done their major work in English in non-English-speaking countries are usually not eligible for admission to graduate courses in English without additional undergraduate preparation in an American college or university.

Degree Requirements

Each candidate must complete an approved program of study of at least 30 credits, which must include one course in British literature before 1800 and ENGL 78900 (Master's Thesis). We strongly recommend that students take ENGL 78700 (Studies in Literary Theory and Criticism) in their first or second semester. Courses other than those offered in the Department of English may be credited toward the 30 credits with the approval of the graduate adviser but they may in no case exceed 6 credits. Six credits of relevant graduate work done at another institution may be credited when approved by the graduate adviser.

Courses

ENGL 78700 - Studies in Literary Theory and Criticism

An in-depth investigation of foundational and current trends in literary theory.

ENGL 78900 - Master's Thesis

Individual research and final thesis writing under faculty supervision. Required of all candidates for MA degree in British and American literature.

Foreign Language

The candidate must demonstrate a reading knowledge of French, German, Latin or Spanish. Another language may be substituted with the approval of the graduate adviser.

Comprehensive Examination

The candidate must pass a written take-home examination/paper in literature, language, and theory.

Master of Arts Thesis

The candidate must submit a satisfactory master of arts thesis, incorporating original work and research, which will be approved by two appropriate members of the faculty and the graduate adviser. Two copies prepared for binding are required.

Nonmatriculants

After applicants have been accepted by Hunter College as nonmatriculant students, their records must be evaluated prior to registration by the graduate adviser before they can be admitted to English Department courses. Acceptance by Hunter College does not guarantee acceptance by the Department of English. Not more than 9 credits may be transferred from nonmatriculated to matriculated status.

Geography - MA
The Department of Geography offers a Master of Arts in Geography with a range of courses in human geography, physical geography, regional geography, and geographic techniques and methods. There are four broad concentration areas: environmental studies, geographic information science, places and cultures, and urban geography studies. The program accommodates students with a variety of professional backgrounds, and with academic training in social sciences, computer science, environmental science/engineering as well as traditional geography.

The program emphasizes geographic and social theory and analytical methodologies in human, physical, and environmental geography, as well as geographic information science. A limited number of research, teaching, and college assistantships are available. The MA degree can be completed through either a thesis or exam. Full-time students may be able to complete the MA within three semesters, but the average time for degree completion is three years. Many courses are offered in the evening to accommodate part-time and working students.

An MA in Geography from Hunter can lead to employment with local and national governments, international agencies, non-government organizations, corporations, consultants and information technology companies. The New York area is home to diverse urban communities, dynamic economies and cultures, government structures of all levels (from local to international), and corporate headquarters. Located on Manhattan's Upper East Side, Hunter College is close to these activities and is highly accessible from all parts of New York City and surrounding areas. Students who wish to continue graduate work at the PhD level will find themselves well prepared and equipped with the research and technical skills necessary for advanced research.

Admissions Requirements

Admissions procedures are as established by the Hunter College Office of Graduate Admissions. See Graduate Admissions: General. Candidates must have a BA or BS or equivalent, an undergraduate GPA of at least a B minus, with a B average in the major, and (normally) the completion of at least 18 credit hours in geography. A lack of a background in geography will not impede admission, but the student is expected to gain basic knowledge of geography prior to graduation in consultation with the student's adviser. It is recommended that students enter the program with knowledge of basic statistics. Foreign students whose first language is not English must take the Test of English as a Foreign Language. Two letters of recommendation are required.

If you have any questions about the information in this catalog, please contact the Geography MA adviser (Prof. Hongmian Gong, gong@hunter.cuny.edu).

Application Deadlines

For fall semester: April 30 (February 1 for international students) For spring semester: November 30 (September 1 for international students)

We encourage graduate application submissions by early deadlines of September 1 and February 1. This will help with allocation of scholarships and funding if these are available.

Requirements for the Degree

The Master of Arts consists of 31 or 36 graduate credits, depending on the program option chosen, selected from three types of courses: GEOG, PGEOG and GTECH. GEOG classes cover human geography, nature/society, and regional geography, while PGEOG classes cover physical geography and environmental science. GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing, and cartography. Classes vary in their structure from laboratory classes to
lecture/discussions and seminars. Graduate courses outside of the GEOG, GTECH and PGEOG prefixes may be applied to the degree within the parameters listed below.

Students must complete a minimum of credits in one of the following options:

**A. Thesis Option:**

A minimum of 31 credits consisting of:

1. A minimum of 30 credits of course work consisting of

(exclusive of GEOG 799)

GEOG 70100, 70200, 70154 (7 cr)

**GEOG 70100 - Geographic Thought and Theory**

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

*Hours 45 hrs including conference,
Credits 3 cr
fall only This course may be used as part of the MA Teacher Education Program in Social Studies.*

**GEOG 70154 - Geographic Research Design**

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

*Hours 45 hrs including conference
Credits 3 cr
spring only*

**GEOG 70200 - Research Topics in Geography**

Introduction to central research themes in geography and the current research being undertaken by department faculty.

*Hours 15 hrs including conference,
Credits 1 cr
fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.*

A minimum of 11 additional credits
A minimum of 11 additional credits selected from GEOG, GTECH and PGEOG courses numbered 70100 or higher. PGEOG 63000, PGEOG 66000, and GEOG 65000 are exclusively for MA-TEP and BA/MA-TEP students and cannot be counted toward the MA in Geography.

A maximum of 12 credits

A maximum of 12 credits selected from other than GEOG, GTECH or PGEOG courses as approved by the graduate adviser. **

2. One credit of the following leading to a thesis approved by the student’s graduate advisers

**GEOG 79900 - Thesis Research in Geography**

Open to students electing the thesis option only.

_prereq: GEOG 701 and permission of the department

1-6cr may be repeated for credit but only one credit may be applied to satisfy degree requirements. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

3. Formal approval of a study proposed for thesis research.***

5. A formal presentation of the student’s thesis research.

B. Examination Option:

A minimum of 36 credits consisting of:

1. Geography (7 cr)

**GEOG 70100 - Geographic Thought and Theory**

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

_Hours 45 hrs including conference,

_Credits 3 cr

Fall only This course may be used as part of the MA Teacher Education Program in Social Studies.

**GEOG 70200 - Research Topics in Geography**

Introduction to central research themes in geography and the current research being undertaken by department faculty.
Hours 15 hrs including conference,  
Credits 1 cr  
fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70154 - Geographic Research Design

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

Hours 45 hrs including conference  
Credits 3  
spring only

A minimum of 17 additional credits

A minimum of 17 additional credits selected from GEOG, GTECH, and PGEOG courses numbered 70100 or higher. PGEOG 63000, PGEOG 66000, and GEOG 65000 are exclusively for MA-TEP and BA/MA-TEP students and cannot be counted toward the MA in Geography.

3. A maximum of 12 credits

A maximum of 12 credits selected from other than GEOG, GTECH, and PGEOG courses as approved by the graduate adviser.**

4. A passing grade on the comprehensive examination

A passing grade on the comprehensive examination conducted by the student’s graduate committee.

5. A research paper of publishable quality

A research paper of publishable quality prepared in the format of The Professional Geographer or its equivalent.

6. A formal presentation of the student’s research paper.

Additional Information

Students who are accepted into the program, who have already earned credits with a grade of B or higher as nonmatriculated students, may transfer only two (2) courses or eight (8) credits, whichever is greater, from nonmatriculated status to matriculated status. In exceptional situations, up to 12 credits earned as a nonmatriculated student may be transferred to matriculated status.
Although both options may prepare students for additional graduate work, the thesis option is recommended for those who might wish to pursue the PhD in geography or an allied field. The examination option is recommended for students seeking a terminal MA.

Students who are accepted into the Geography MA program and register for courses may transfer up to a maximum of 9 credits of relevant graduate coursework from regionally accredited institutions, including courses taken at Hunter College while enrolled in another degree program, whether a master’s degree was awarded or not. Transfer of credits is subject to review and approval by the Graduate Adviser. Applicants to this program should be aware that there is no promise of automatic transfer of credit on the graduate level. With the approval of the Graduate Adviser, students may include up to 9 credits of graduate-level courses taken outside the Department of Geography at Hunter College toward completion of their degree, including transferred courses and courses taken in other CUNY graduate programs. (Exception: students who have received their B.A. in Geography or Environmental Studies from Hunter College may, with the approval of the Graduate Adviser, include up to twelve credits taken outside the department.)

Language Requirement

A foreign language is not required for the MA in geography. However, students interested in regional studies or further graduate work are strongly encouraged to master a foreign language. Students emphasizing technical skills are strongly encouraged to master one or more computer programming languages.

Completion Time

The School of Arts and Sciences allows four years to complete a MA degree. A petition to the Dean is required to exceed the limit. Most full-time students are able to complete the MA requirements in 4 semesters or fewer. To accommodate all students, many courses are offered during the evening.

Assistantships

A limited number of teaching and research assistantships are available from the department. Students seeking assistantships should state so in their statement of purpose included with the application. They should also indicate what skills and qualifications they have for research or teaching assistance.

Note(s)

* Graduate students entering the program without a geography background will be required to take 6 credits in geography outside their principal area of concentration (GEOG, PGEOG or GTECH).

** Graduate students entering the program without a geography background will be limited to 6 credits taken outside the program. Students who were undergraduate majors in geography can appeal to the Graduate Committee to take more than 12 credits outside the program.

*** Students must submit to their committee the proposal for thesis research no later than the end of the semester in which they finish their 20th credit in the program.

Return to: Geography Department

History - MA

The MA is offered as a terminal degree (30 credits).
Requirements for Admission

General admission requirements to the graduate programs in the arts and sciences are observed. Eighteen undergraduate credits in History, a 3.0 average, and satisfactory GRE scores are required, as well as two letters of recommendation.

Requirements for the Degree

Each candidate must complete an approved program of study of at least 30 credits, including the thesis seminar, with a B average. Students will be strongly encouraged to take the following two courses: HIST 78000 - History Colloquium for First-Year MA Students and HIST 79000 - Research Methods for First-Year MA Students, a colloquium and a research methods course. Courses other than those in the Department of History at Hunter College may be credited toward the 30 credits with the approval of the graduate adviser, but they may in no case exceed 9 credits.

A reading knowledge of one foreign language is required, determined by a written examination offered twice per year. The choice of language must have the approval of the graduate adviser.

After completion of all other requirements, the candidate for the degree must present a satisfactory master's thesis prepared in conjunction with the thesis seminar (HIST 77900), approved by two faculty scholars in the appropriate field of history and the graduate adviser. Guidelines for the writing of the master's thesis are available from the graduate adviser online and in the History Department office.

Mathematics: Pure Mathematics - MA

Students in the MA program in Pure Mathematics want to investigate mathematics beyond the undergraduate level. Most have a bachelor's degree in mathematics. But there are always several students with an undergraduate degree in a related topic and a few whose undergraduate background is completely unrelated. In both of these cases, the students filled out their mathematics background prior to applying for admissions.

Students use this program for various purposes. Many use their added mathematics background as part of a competitive application to a doctoral program. In-service teachers gain permanent certification via their MA. Others use their degree to seek employment or advancement to positions that require an advanced degree. Several seek positions as instructors at local area colleges. Others are in areas unrelated to education.

Admission Requirements for the MA in Pure Mathematics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. The Department’s requirements are flexible. They are intended to encourage students without a prior specialization in mathematics to pursue a degree in mathematics.

Degree Requirements for the MA in Pure Mathematics

Thirty credits (10 courses) from courses chosen as follows:

1. Algebra Requirement

   MATH 72100 - Modern Algebra I
Group theory including symmetric groups, Sylow theorems, fundamental structure theorem for finite Abelian groups and the canonical forms for linear transformations.

 prerequisites: MATH 31100 or equivalent and departmental permission
 Hours 3
 Credits 3
 The group theory portion of a three-semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course is required for the MA in Pure Mathematics.

 and at least one of

 MATH 72200 - Modern Algebra II

 Extension fields to the fundamental theorem of Galois Theory and solvability by radicals. Commutative rings to the Hilbert basis theorem and elements of algebraic varieties.

 prerequisites: MATH 31100 or equivalent and departmental permission
 Hours 3
 Credits 3
 The ring and field theory portion of a three semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics.

 or

 MATH 72500 - Advanced Linear Algebra

 Topics in advanced linear algebra and multilinear algebra.

 prerequisites: MATH 31100 or equivalent and departmental permission
 Hours 3
 Credits 3
 The linear algebra portion of a three-semester group of abstract algebra courses including MATH 72100, 72200, and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. It is intended for both Pure and Applied MA students. An undergraduate course in abstract algebra is preferred, but not required.

 2. Analysis Requirement

 MATH 74600 - Theory of Functions of a Real Variable I

 Real numbers, Lebesgue measure, metric and Lp spaces, general measure and integration theory.

 prerequisites: 1 year of advanced calculus
 Hours 3 hrs.
 Credits 3 cr.
 and at least one of

 MATH 74200 - Analytic Functions

 Theoretical treatment of the properties of a function of a complex variable including Cauchy's Theorem, the special functions, power series, and the Riemann Mapping theorem.

 prerequisites: MATH 35300 or equivalent and departmental permission
**MATH 74700 - Theory of Functions of a Real Variable II**

L-p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

**prereq:** MATH 35200 or equivalent and departmental permission

**Hours 3**

**Credits 3**

The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74600, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.

### 3. Geometry and Topology Requirement

at least one of

**MATH 75100 - General Topology**

Topology of plane sets, continuous functions, separation axioms, compact and metric spaces.

**prereq:** advanced calculus or permission of Department

**Hours 3 hrs.**

**Credits 3 cr.**

**or**

**MATH 75000 - Calculus on Manifolds**

The derivative as a linear map; the Riemann integral, including Fubini's Theorem and the Change of Variable formula; tensor and exterior algebras; differential forms and integrals thereof; Stokes' Theorem.

**prereq:** MATH 26000 and MATH 35200 or permission of the instructor.

**Hours 3**

**Credits 3**

### 4. Elective Course Requirement (15 credits)

Fifteen credits (5 courses) from MATH 70000 and/or STAT 70000-level courses approved by the graduate mathematics adviser are required. The department’s course rotation schedule may make it necessary to substitute a limited number of courses at the MATH 60000 level with permission of the adviser.

### 5. Written comprehensive examination
Written comprehensive examinations are required in algebra and analysis (see 1 and 2 above) and in two additional areas to be chosen by the student with the adviser's approval. The comprehensive examinations must be completed in the student's final semester. Students who fail an examination may repeat the examination. If a student fails an examination twice, the department chair will appoint a committee to review the student's case. The student may be allowed to repeat the examination for a final time or may be required to leave the program.

6. Reading knowledge

Students must exhibit a reading knowledge of French, German, Russian or another language with a sufficiently rich mathematical literature.

Note

For further information on the MA in Pure Mathematics, please contact Professor John Loustau: jloustau@msn.com.

Music - MA

Return to: Music Department

The MA program in music offers students an opportunity to grow as musicians by refining their skills as scholars, teachers and performers. The department encourages its' graduate students to take courses both of a broad scope and of a detailed nature. Performance students are permitted to take private lessons for up to 12 credits with a Hunter College faculty member or one of the instructors who serve as performance associates on the faculty (see http://www.hunter.cuny.edu/music/grad-students/courseinfo/lessons for details). Students may also study with an outside teacher of their choice, pending approval by the department. The Cutler Scholarships in Orchestral Performance offers new opportunities for MA students who qualify to be leaders in the orchestral and chamber music programs.

The Department of Music offers courses of study leading to the MA degree, with concentrations in composition, ethnomusicology, musicology, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

For admissions requirements, see http://www.hunter.cuny.edu/music/gradstudents/admissions/ma-music.

Requirements for the Degree

The following programs are required for students concentrating in composition, ethnomusicology, music history, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

Core courses required of all students:

**MUS 70000 - Music Bibliography and Research Techniques**

Study of sources and bibliographical methods as applied to musical material.

*Hours 3 hrs
*Credits 3 cr

**MUS 72400 - Advanced Studies in Music Theory 1**
Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

**prereq:** 4 sem. of undergraduate music theory courses

**Hours** 3 hrs

**Credits** 3 cr

**MUS 72500 - Advanced Studies in Music Theory 2**

Analysis and theory of compositional styles from 1900 to the present.

**prereq:** 4 sem. of undergraduate music theory courses

**Hours** 3 hrs

**Credits** 3 cr

-OR-

**MUS 75300 - Transcription and Analysis in Ethnomusicology**

Critical examination and application of contemporary techniques to selected examples from various cultures.

**Hours** 3 hrs

**Credits** 3 cr

**MUS 75100 - Advanced Studies in Music History 1**

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

**Hours** 3 hrs

**Credits** 3 cr

**MUS 75200 - Advanced Studies in Music History 2**

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

**Hours** 3 hrs

**Credits** 3 cr

**MUS 77500 - Seminar in Ethnomusicology 1**

A history of the discipline; the development of theories and methods; selected problems.

**Hours** 3 hrs

**Credits** 3 cr

-OR-

**MUS 77600 - Seminar in Ethnomusicology 2**

Field research as a principal means of data collection and theory testing in ethnomusicology. Preparation of the research design, application of data-gathering techniques, adaptation to the field, and data analysis.
MUS 77900 - World Music Education

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

Required courses for each concentration (may be modified with permission of the graduate adviser):

Composition: 9 cr

MUS 73100 - Composition 1

Fundamental musical materials and compositional techniques of the 20th century. Students will complete weekly compositional exercises, each emphasizing a specific technique.

MUS 73200 - Composition 2

A continuation of the study of compositional techniques of the 20th century through reading, analysis, and practice. Students will complete several small works intended for performance.

MUS 79900 - Thesis in Composition

Individual study of composition under supervision.

Ethnomusicology: 9 cr

MUS 77600 - Seminar in Ethnomusicology 2

Field research as a principal means of data collection and theory testing in ethnomusicology. Preparation of the research design, application of data-gathering techniques, adaptation to the field, and data analysis.
ANTH 70100 - Ethnology (Core Course)

Surveys history, methods, theory, and basic findings of cultural and social anthropology.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

Credits 3 cr

Note(s)

MUS 75300 and MUS 77500 must be included in core.

History: 9 cr

MUS 76000 - Seminar in Music History

Problems in research and analysis in selected areas of music history.

Hours 3 hrs
Credits 3 cr
May be taken twice for credit.

Must be taken twice

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

Credits 3 cr

Theory: 9 cr

MUS 74000 - Seminar in Music Theory and Analysis

Speculative theory, aesthetics, and scientific dimensions of music; detailed analysis of works relevant to theoretical problems under investigation. Topics to be announced.

Hours 3 hrs
Credits 3 cr
May be taken 3 times for credit.

Must be taken twice

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)
Individual research under supervision.

Credits 3 cr

Note

*MUS 72500 must be included in core.*

Performance: 9 cr

**MUS 78100 - Private Study in Instrument or Voice**

For performance concentrators.

Credits 3 cr

**MUS 78200 - Private Study in Instrument or Voice**

For performance concentrators.

Credits 3 cr

**MUS 78300 - Private Study in Instrument or Voice**

For performance concentrators.

Credits 3 cr

Electives in all concentrations: 3 cr

Foreign Language

The candidate must demonstrate a reading knowledge of a foreign language, preferably French, German, or Italian. The foreign-language examination must be passed before a student may proceed beyond 18 credits.

Proficiency Examination

Students admitted to the program must take a proficiency examination during the first two semesters of matriculation in order to remain in the program. This examination will test competence in music theory, music history and literature, and applied skills. Deficiencies revealed by the proficiency examination must be made up by studying the relevant subject matter and passing a reexamination. The proficiency examination requirement must be fulfilled before a student may proceed beyond 18 credits.

Thesis or Final Project

A final project consisting of a thesis, a public recital, or another approved piece of work (such as a research project in music education, a lecture-recital, or an internship plus a written report) is required of each student. This project may receive 0-3 credits, depending on the nature and scope of the work involved. A written proposal must be approved by
the music department before a student may begin work on the project. Approval of the completed project requires the agreement of two faculty members.

**MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)**

Individual research under supervision.

*Credits 3 cr*

**MUS 79900 - Thesis in Composition**

Individual study of composition under supervision.

*Credits 3 cr*

**Music Education Pre K-12 - MA**

**Education Advisor**

Victor Bobetsky  
(212) 650-3574  
400C North  
victor.bobetsky@hunter.cuny.edu

**Music Department Advisor**

Philip Ewell  
(212) 396-6253  
527 North  
pewell@hunter.cuny.edu

The School of Education offers a program (Academic Plan: MUSPK12-MA) to prepare candidates to teach Music PreK - Grade 12 to students of diverse backgrounds, abilities and interests. The Music Education programs are run jointly by the Music Department and by the School of Education.

Track 1: Those who do not have NYS certification in Music.  
Track 2: Those who have initial NYS certification in Music.

**Admission Requirements**

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.  
2. A major in music or music education (with a minimum of 24 credits in music) or the equivalent. See [http://www.hunter.cuny.edu/music/grad-students/admissions/music-ed](http://www.hunter.cuny.edu/music/grad-students/admissions/music-ed) for specifics.  
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.  
4. A 3 credit course in special education that focuses on supporting students with disabilities in the general education classroom. Students without this course may be admitted conditionally and must take SPED 70800 in addition to other degree requirements.  
5. Two professional references.
6. A personal statement.
7. An audition and interview.
8. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.
9. **Program 2 only:** NYS certification in Music PreK-12

See [http://www.hunter.cuny.edu/music/grad-students/admissions/music-ed](http://www.hunter.cuny.edu/music/grad-students/admissions/music-ed) for more details on admissions and registering for an audition.

### Progress Standards

**A. 12-credit Progress Standards**

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. *Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs*

**B. Fieldwork Benchmarks**

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for registration.

### Course of Study

**Academic Plan**

**MU6PK12-MA**

**Total Credits**

track 1: 39-46
track 2: 30

**Program 1**
For students with no NYS certification

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs, Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork, Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400*

*Hours 30 hrs, plus 36 hrs fieldwork, Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500*

*coreq: One of the following must be a Co-req:*

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23

*Hours 30 hrs, plus lab, Credits 2 cr*

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**
Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308  
prereq: 12 credits of coursework  
Hours 45  
Credits 3  
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education  
Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.  

Hours 45 hrs,  
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety  
Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,  
Credits 1 cr

MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12  
Organization and administration of school instrumental programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques, including a review of principles of performance for strings, woodwinds, brass, and percussion; classroom management strategies; supervised fieldwork in applying these topics.

prereq or coreq: SEDF 70400  
Hours 3 hrs plus 18 hrs of fieldwork  
Credits 2 cr

MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12  
Organization and administration of school vocal programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques; an overview of technology, content, and materials of the nonperforming general music curriculum; classroom management strategies; supervised fieldwork in applying these topics.

prereq: MUSED 67700
prereq or coreq: SEDF 70500
Hours 3 hrs plus 18 hrs fieldwork,
Credits 2 cr

- Take either -

SEDC 75600 - Student Teaching in Music, Pre-K–12

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 and 30 days at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: MUSED 67800
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

- Or -

SEDC 77610 - Practicum in Music, Grades Pre-K–6

Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77620.

prereq: MUSED 67800
Hours 30 hrs plus conferences,
Credits 2 cr

- Plus -

SEDC 77620 - Practicum in Music, Grades 7–12

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77610.

prereq: MUSED 67800
Hours 30 hrs plus conferences,
Credits 2 cr

Music Courses

MUS 64100 - Strings

Teaching fundamentals of string playing (violin, viola, cello, and double bass) in context of solo, orchestral and chamber music; thorough review of basic string technique.
MUS 64300 - Woodwinds

Teaching fundamental techniques of playing a number of woodwind instruments: breathing, tone production and fingering; acoustical principles of woodwinds; thorough review of woodwind technique; basic pedagogical methods.

MUS 64500 - Brass

Teaching fundamental techniques of playing a number of brass instruments: breathing, tone production, fingerings and slide positions; acoustical principles of brasses; thorough review of brass technique; basic pedagogical methods.

MUS 64700 - Percussion Skills

The teaching of fundamental techniques of playing percussion instruments: rudiments, stick control, coordination of hands and feet, syncopation, ensemble playing; acoustical principles of percussion; thorough review of percussion technique; basic pedagogical methods.

MUS 64900 - Piano Skills for Music Teachers

Introduction to piano skills including scales, chord progressions, keyboard harmony and sightreading. The activities and materials used will reflect the needs of music education students.

MUS 65100 - Conducting

The teaching of technique and proficiency in basic conducting skills including conducting patterns, baton technique, expressive gestures, score study, and philosophical and psychological approaches to ensemble management.

MUS 72400 - Advanced Studies in Music Theory 1

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

prereq: 4 sem. of undergraduate music theory courses
Hours 3 hrs
Credits 3 cr

MUS 75100 - Advanced Studies in Music History 1
Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 3 hrs  
Credits 3 cr

MUS 75200 - Advanced Studies in Music History 2

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 3 hrs  
Credits 3 cr

MUS 77900 - World Music Education

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

Hours 3 hrs  
Credits 3 cr

- Music electives: Courses chosen in consultation with graduate adviser (3 cr)

* Students who have studied these subjects at the undergraduate level may be exempted from these requirements.

** Please note that students admitted to the program must take a proficiency examination during the first two semesters of matriculation in order to remain in the program. This examination will test competence in music theory, music history and literature, and applied skills. Deficiencies revealed by the proficiency examination must be made up by studying the relevant subject matter and passing a reexamination. The proficiency examination requirement must be fulfilled before a student may proceed beyond 18 credits.

Program 2

For students who have NYS certification in Music PreK-12

MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12

Organization and administration of school instrumental programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques, including a review of principles of performance for strings, woodwinds, brass, and percussion; classroom management strategies; supervised fieldwork in applying these topics.

prereq or coreq: SEDF 70400  
Hours 3 hrs plus 18 hrs of fieldwork  
Credits 2 cr

MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12
Organization and administration of school vocal programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques; an overview of technology, content, and materials of the nonperforming general music curriculum; classroom management strategies; supervised fieldwork in applying these topics.

**prereq:** MUSED 67700  
**prereq or coreq:** SEDF 70500  
**Hours** 3 hrs plus 18 hrs fieldwork,  
**Credits** 2 cr

- Take either -

**SEDC 77610 - Practicum in Music, Grades Pre-K–6**

Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77620.

**prereq:** MUSED 67800  
**Hours** 30 hrs plus conferences,  
**Credits** 2 cr

- Or -

**SEDC 77620 - Practicum in Music, Grades 7–12**

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77610.

**prereq:** MUSED 67800  
**Hours** 30 hrs plus conferences,  
**Credits** 2 cr

**Music Courses**

**MUS 72400 - Advanced Studies in Music Theory 1**

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

**prereq:** 4 sem. of undergraduate music theory courses  
**Hours** 3 hrs  
**Credits** 3 cr

**MUS 72500 - Advanced Studies in Music Theory 2**
Analysis and theory of compositional styles from 1900 to the present.

prereq: 4 sem. of undergraduate music theory courses
Hours 3 hrs
Credits 3 cr

**MUS 75100 - Advanced Studies in Music History 1**

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 3 hrs
Credits 3 cr

**MUS 75200 - Advanced Studies in Music History 2**

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 3 hrs
Credits 3 cr

**MUS 77900 - World Music Education**

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

Hours 3 hrs
Credits 3 cr

**MUS 79200 - Independent Study**

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.
Hours 2 hrs
Credits 2 cr
May be taken 4 times for credit. 8 cr maximum

Take 4 credits from the following, in consultation with the Director of Music Education
- 3 Music Elective Credits

**MUS 64100 - Strings**

Teaching fundamentals of string playing (violin, viola, cello, and double bass) in context of solo, orchestral and chamber music; thorough review of basic string technique.

Hours 1.5 hrs
Credits 1 cr
MUS 64300 - Woodwinds

Teaching fundamental techniques of playing a number of woodwind instruments: breathing, tone production and fingering; acoustical principles of woodwinds; thorough review of woodwind technique; basic pedagogical methods.

Hours 1.5 hrs  
Credits 1 cr

MUS 64500 - Brass

Teaching fundamental techniques of playing a number of brass instruments: breathing, tone production, fingerings and slide positions; acoustical principles of brasses; thorough review of brass technique; basic pedagogical methods.

Hours 1.5 hrs  
Credits 1 cr

MUS 64700 - Percussion Skills

The teaching of fundamental techniques of playing percussion instruments: rudiments, stick control, coordination of hands and feet, syncopation, ensemble playing; acoustical principles of percussion; thorough review of percussion technique; basic pedagogical methods.

Hours 1.5 hrs  
Credits 1 cr

MUS 64900 - Piano Skills for Music Teachers

Introduction to piano skills including scales, chord progressions, keyboard harmony and sightreading. The activities and materials used will reflect the needs of music education students.

MUS 65100 - Conducting

The teaching of technique and proficiency in basic conducting skills including conducting patterns, baton technique, expressive gestures, score study, and philosophical and psychological approaches to ensemble management.

MUS 68100 - Private Instruction in Instrument or Voice

For students not concentrating in performance.

Hours 1 hr  
Credits 1 cr

MUS 68200 - Private Instruction in Instrument or Voice

For students not concentrating in performance.
MUS 68300 - Private Instruction in Instrument or Voice
For students not concentrating in performance.

MUS 68400 - Private Instruction in Instrument or Voice
For students not concentrating in performance.

MUS 71000 - Hunter Symphony
Rehearsal and performance of orchestral works.

MUS 71100 - Hunter College Choir
Rehearsal and public performance of major choral Works.

MUS 71300 - Chamber Music
Rehearsal and public performance of instrumental chamber works.

MUS 71400 - Collegium Musicum
Study and public performance of chamber chorus works from the medieval, Renaissance, and Baroque periods.
MUS 71500 - Jazz Ensemble

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz and musical comedy. One public performance per semester.

Hours 2 hrs
Credits 1 cr
May be taken four times for credit.

MUS 71600 - Jazz Vocal Workshop Ensemble

Open to all vocalists and rhythm section instrumentalists by audition. Jazz performance and improvisation. One public performance per semester.

Hours 2 hrs
Credits 1 cr
May be taken four times for credit.

Exit Requirements

1. An overall GPA of 3.0
2. Students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. A project involving research is required of each student in the teacher education program. On completion of the courses of study and after approval of the project by the Graduate Faculty Committee, a candidate will be examined orally on the topic of the project and related issues. Students may register for independent study (MUS 79100 or MUS 79200) if they wish to receive credit toward the MA degree for work done in fulfilling the TEP Project.
4. Complete the Dignity for All Students Act (DASA) workshop.

Physics - MA

The MA in physics is offered as a terminal degree, either separately or as part of the BA/MA program. The MA in physics may also, with the approval of the CUNY Graduate Center, form part of the degree work required for the CUNY PhD degree. Thesis research toward the CUNY PhD may also be carried out at Hunter College.

Admission Requirements

Applicants must meet Hunter’s general admission requirements; however, the physics department no longer requires the Graduate Record Examination. In addition, the following departmental requirements must be met:

1. A minimum of 36 credits total in undergraduate physics and mathematics courses. These should include intermediate mechanics, electricity, modern physics, and differential equations. A B average is required for these courses.

2. Approval by the department’s Graduate Physics Committee. If deficiencies are noted in certain undergraduate courses, the applicant may be required to take these courses without graduate credit.

Degree Requirements
1. Program of courses

A program of courses designed in consultation with the graduate adviser and approved by the department’s Graduate Physics Committee.

2. Completion of 30 credits of graduate work including:

a. Not more than 6 credits earned at a graduate institution other than CUNY.

b. At least 15 credits earned at Hunter College.

c. The following courses or their equivalents:

**PHYS U70100 - Mathematical Physics**

Study of the basic mathematical techniques used in physics.

*Hours 60 hrs,*
*Credits 4 cr*
*The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.*

**PHYS U71100 - Analytical Dynamics**

Study of advanced classical mechanics.

*prereq or coreq: PHYS U70100*
*Hours 60 hrs,*
*Credits 4 cr*
*The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.*

**PHYS U71500 - Electromagnetic Theory**

Advanced concepts of static and time-dependent electromagnetic fields.

*prereq or coreq: PHYS U70100*
*Hours 60 hrs,*
*Credits 4 cr*
*The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.*

**PHYS U72500 - Quantum Mechanics**

Basic study of quantum theory of matter including introduction to relativistic theory.

*prereq or coreq: PHYS U70100*
*Hours 60 hrs,*
*Credits 4 cr*
The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

d. No more than 6 credits in 600-level courses.

Note(s)

The courses listed in sections 2(c) and 2(d) are generally offered during the daytime hours.

A maximum of 9 credits may be accepted in physics department approved graduate courses in mathematics, astronomy, engineering, and physical chemistry.

4. Comprehensive examination

The candidate will be required to pass a comprehensive examination based on the required courses listed in section 2(c) above or complete a thesis, under a faculty member’s supervision, that is approved by the department’s Graduate Physics Committee. The first PhD exam may be substituted for the comprehensive examination.

5. Residence of two semesters

A minimum residence of two semesters at Hunter College. Courses taken as a nonmatriculant may be counted toward the degree upon matriculation with the approval of the department’s Graduate Physics Committee.

6. There are no foreign language requirements.

Financial Aid

Financial aid is not generally available from the department for MA students.

Psychology - MA

The MA degree is in general psychology, but students may focus their course work, independent study, and thesis research in one of three content areas: (1) applied and evaluative psychology; (2) social, cognitive, and developmental psychology; (3) biopsychology and comparative psychology. Students interested in animal behavior and conservation may choose the MA in Animal Behavior & Conservation offered by the Psychology Department.

1. Applied and evaluative psychology. Faculty research interests include topics in personality, psychopathology, theories of therapeutic methods, group dynamics, health and gender, stress and stress management, substance use, tests and measurements. Although the department offers theoretical courses on clinical topics, it does not offer supervision in counseling or therapy.

2. Social, cognitive, and developmental psychology. Faculty research interests include multicultural issues, cognitive and linguistic development, discursive social psychology, gender and cognition, attitudes, political psychology, psycholinguistics, decisionmaking, memory function in different populations.
3. Biopsychology and comparative psychology. Faculty research interests include hormonal influences on and neural control of behavior, mechanisms of drug abuse, developmental neuroscience, vision, animal learning and comparative cognition, evolution of behavior, animal orientation and communication, cerebral specialization of function.

Research Opportunities and Facilities

Students are encouraged to engage in research under faculty supervision. Laboratories at Hunter College provide specialized equipment for studies on human and animal physiology, acoustic analysis, human and animal learning, language and cognitive development, social development, and social psychology. Research is also possible at facilities of other universities and organizations where individual faculty members engage in collaborative research.

Requirements for Admission

Applicants are evaluated on the basis of their undergraduate grade point average, general GRE scores, background in psychology, two letters of recommendation (preferably from college instructors), and a statement of intellectual and research interests. Generally a minimum of 12 undergraduate credits in psychology, including one course in statistics and one laboratory course in experimental psychology are required; however, students who have a high undergraduate grade point average and high general GRE scores but lack a full psychology background may apply for admission. Such students may be required to take preparatory statistics and experimental courses. Note: There is no foreign-language requirement for the MA in psychology. The GRE advanced test in psychology is not required for admission.

Requirements for the MA Degree

Each candidate is required to complete an approved program of study including a thesis. A minimum of 30 credits is required for the general Psychology MA.

Required courses for all MA students (12 credits):

PSYCH 70200 - Proseminar in Psychology

An introduction to theoretical concepts and methods of research across a variety of content areas within psychology. Areas include social, personality and health psychology; development and cognition; sensory and developmental neuroscience; animal behavior and learning; applied research, including clinical theory. The course is team-taught by three faculty members and features guest lectures by other Hunter College faculty and the occasional outside expert.

Hours 3 hrs including conference
Credits 3 cr
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70500 - Statistical Methods in Psychology I

Covers descriptive statistics and inferential methods, including t-tests, analyses of variance, correlation, simple regression, and an introduction to multiple regression. Some assignments require the use of a statistical computer package.

prereq: PSYCH 24800 or equivalent
Hours 2 hrs lecture, 2 hrs conf or lab,
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 70100 - Advanced Experimental Psychology I**

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study; examples are drawn primarily from perception, learning, cognition and animal behavior.

*prereq: a graduate course in statistics*

*Hours 2 hrs lecture, 2 hrs lab,*

*Credits 3 cr*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 73900 - Research Methods in Animal Behavior (A, B)**

Designed to develop skills required for the study of animal behavior, such as procedures for obtaining data in laboratories or in captive and natural environments; includes observational techniques, single-subject designs, issues of reliability and external validity, non-parametric statistics.

*Hours 2 hrs lecture, 2 hrs lab,*

*Credits 3 cr*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 74700 - Experimental Social Psychology**

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study. Examples are drawn primarily from social and cognitive psychology. Topics include reading and writing journal quality research reports; ethics; single and multi factor designs; small-n designs; quasi-experimental designs; survey research; laboratory and field research; observational techniques; correlational research.

*prereq: a graduate course in statistics*

*Hours 2 hrs lecture, 2 hrs lab,*

*Credits 3 cr*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 70701 - Thesis Research**

Individual research conducted under the supervision of a department faculty member, whose written permission must be obtained. Limited to students working on their MA thesis.

*prereq: PSYCH 70500 and 70100 or 74700 approved research topic and permission of a faculty sponsor*

*Hours 3 hrs including conference*

*Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.
Breadth Requirement

One course selected from each of the following three categories. See the course listing for category or categories into which each course falls.

1. A (applied and evaluative psychology)
2. S (social, cognitive, and developmental psychology)
3. B (biopsychology and comparative psychology)

Thesis Requirement

The MA thesis is a report of individual research supervised by a faculty member in the Hunter College Department of Psychology. The thesis must be approved by the student’s thesis committee, consisting of the supervisor plus at least another reader, and by the graduate adviser. An oral presentation and comprehensive examination in the area of the MA thesis, conducted by the thesis committee, is required.

Financial Assistance

The college offers some financial aid programs through the Financial Aid Office. Students should consult that office for information. In addition, some faculty have research grants on which students can work as research assistants. Small grants and awards for funding MA research are sometimes available.

Romance Languages (French, Italian, Spanish) - MA

The master’s degree in French, Italian, or Spanish provides opportunities for professional advancement in teaching and professional fields that require a good knowledge of other languages and cultures. It is also a means of intellectual development for those who want to expand their knowledge in the humanities.

The MA may be taken either as a final degree or as preparation for doctoral work. It is accepted in lieu of the first year of study in the PhD program at the City University. See the Bulletin of the Graduate Center for a description of the PhD programs.

Requirements for Admission

Admission to graduate study is contingent upon admission requirements of Hunter College and upon approval by a departmental committee. Where general scholarship is superior, but the applicant did not major in the field, or preparation in that field is deemed to be insufficient, an examination and/or enrollment in specified undergraduate courses will be required. Before matriculation, applicants must demonstrate proficiency in the language of specialization.

Requirements for MA

1. Courses.

A total of 30 credits from the Literature of Specialization including a Thesis Seminar (3cr) for those students electing to write a master's essay.
2. Languages.
In addition to a high degree of competence in the language of specialization, candidates must demonstrate a reading knowledge of a second Romance language, German, or Latin.

3. Comprehensive Examination.
Candidates must pass a written examination on the field of study, in the language of specialization.

4. Master’s essay.
The master’s essay is optional. Topic is determined in consultation with the principal adviser. Thesis Seminar, to be taken concurrently with preparation of the essay, is completed when the essay is approved be the principal adviser and another faculty member.

Statistics and Applied Mathematics - MA

- Statistics and Applied Mathematics - Track I: Statistics
- Statistics and Applied Mathematics - Track II: Applied Mathematics
- Statistics and Applied Mathematics Track III: Bioinformatics
- Statistics and Applied Mathematics, Track IV: Financial Mathematics

Statistics and Applied Mathematics - Track I: Statistics

Return to: Programs and Courses in Mathematics and Statistics

Admission Requirements for Track I: Statistics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (MATH 26000) and one semester of Multivariate Calculus (MATH 25000). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

Degree Requirements for the MA Track in Statistics

Thirty credits (10 courses)* from courses chosen as follows:

Core Curriculum** (15 credits, 5 courses)

STAT 70100 - Advanced Probability Theory I

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department
Hours 3 hrs.
Credits 3 cr.

STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 70300 - Mathematical Statistics

prereq: permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 70600 - General Linear Models I

prereq: STAT 70100 and 70300 or equivalent or permission of department
Hours 3 hrs.
Credits 3 cr.

STAT 70700 - General Linear Models II

prereq: STAT 70600 or equivalent
Hours 3 hrs.
Credits 3 cr.

Electives (12 credits, 4 courses)

Twelve credits in statistics, computer science, mathematics, or relevant areas of application, selected to constitute a cohesive program. Typically, these courses are at the MATH 70000 and/or STAT 70000 level. Electives must be approved by the Graduate Statistics and Applied Math Adviser.
Project (3 credits, 1 course)

**STAT 79000 - Case Seminar**

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

*prereq: permission of the department*

**Hours 3**

**Credits 3**

The student, guided by a member of the faculty, prepares a project in statistics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement.

**Note(s)**

*For further information on the MA in Statistics, please contact the statistics adviser.*

*The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.*

**Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30-credit (10-course) total.**

Return to: Programs and Courses in Mathematics and Statistics

**Statistics and Applied Mathematics - Track II: Applied Mathematics**

Return to: Programs and Courses in Mathematics and Statistics

Most students in Track II do their project in differential equations. The context may be engineering or finance. The techniques may be from numerical analysis or statistics or a combination of these.

**Admission Requirements - Track II: Applied Mathematics**

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (MATH 26000) and one semester of Multivariate Calculus (MATH 25000). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

**Degree Requirements for the MA Track in Applied Mathematics**
Thirty credits (10 courses)* from courses chosen as follows:

Core Curriculum** (15 credits, 5 courses)

**MATH 60100 - Mathematical Methods for the Physical Sciences**

Topics include: Fourier Series, Sturm-Liouville theory, Green functions, and eigenfunction expansions. These will be applied to the heat, wave, Laplace, and one-dimensional Schroedinger equations.

*prereq: a course in ordinary differential equations
*Hours 3 hrs.
*Credits 3 cr.

**MATH 74600 - Theory of Functions of a Real Variable I**

Real numbers, Lebesgue measure, metric and Lp spaces, general measure and integration theory.

*prereq: 1 year of advanced calculus
*Hours 3 hrs.
*Credits 3 cr.

**STAT 70100 - Advanced Probability Theory I**

*prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department
*Hours 3 hrs.
*Credits 3 cr.

**STAT 70200 - Advanced Probability Theory II**

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

*prereq: STAT 70100 or permission of the department
*Hours 3 hrs.
*Credits 3 cr.

**STAT 70600 - General Linear Models I**

*prereq: STAT 70100 and 70300 or equivalent or permission of department
*Hours 3 hrs.
*Credits 3 cr.

Electives (12 credits, 4 courses)
Twelve credits in statistics, computer science, mathematics, or relevant areas of application, selected to constitute a cohesive program. Typically, these courses are at the MATH 70000 and/or STAT 70000 level. Electives must be approved by the Graduate Statistics and Applied Math Adviser.

Suggested electives are:

**MATH 64200 - Introduction to Theory of Functions of a Complex Variable**

Complex numbers, analytic functions, elementary functions, contour integrals, Cauchy integral theory, series.

*prereq: a course in advanced calculus*

*Hours 3 hrs.*

*Credits 3 cr.*

**MATH 68500 - Numerical Methods**

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations; curve fitting and function approximation; interpolation; differentiation and integration; differential equations.

*prereq: a course in ordinary differential equations*

*Hours 3 hrs.*

*Credits 3 cr.*

**MATH 78500 - Advanced Numerical Analysis, Finite Differences and Collocation**

Advanced topics in numerical analysis, Finite difference method, von Neumann stability, Lax equivalence. Polynomial interpolation, numerical integration and collocation method.

*prereq: MATH 38500 and departmental permission*

*Hours 3*

*Credits 3*

One of a two-semester group of courses presenting numerical analysis at the graduate level. This course is primarily for students in the applied math MA program.

**MATH 65400 - Dynamical Systems and Chaos**

Topics include: flows in one and two dimensions; phase portraits; limit cycles; bifurcations; iterated maps on the interval; introduction to chaos and fractals; the Mandelbrot set and its significance.

*prereq: a course in multivariate calculus and a course in linear algebra*

*Hours 3 hrs.*

*Credits 3 cr.*

Familiarity with MAPLE or MATHEMATICA encouraged

**MATH 74700 - Theory of Functions of a Real Variable II**

L-p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

*prereq: MATH 35200 or equivalent and departmental permission*

*Hours 3*
Credits 3
The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74600, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.

STAT 70300 - Mathematical Statistics

prereq: permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 70700 - General Linear Models II

prereq: STAT 70600 or equivalent
Hours 3 hrs.
Credits 3 cr.

STAT 71500 - Time Series Analysis

Introduction to univariate Box-Jenkins (difference equation) time-series modeling. Topics include ARIMA models; stationarity; forecasting; diagnostics; and seasonal modeling. Extensive use of process control and economic time series. Transfer function models.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.
Hours 3 hrs.
Credits 3 cr.

STAT 72200 - Theory of Games

Utility, zero-sum two-person games, minimax theorem or rectangular games. Relation to linear programming; applications to problems in economics and other fields.

prereq: a course in linear algebra and a course in probability
Hours 3 hrs.
Credits 3 cr.

STAT 72600 - The Theory and Methods of Sampling

prereq: STAT 70100 or equivalent, or permission of the department  
Hours 3 hrs.  
Credits 3 cr.

STAT 73900 - Bayesian Statistics

prereq: C or better in STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed. 
Hours 3  
Credits 3

STAT 78600 - Modeling and Visualization

The development of continuous mathematical models, the resolution of the resulting differential equations by numerical techniques and the visualization of the simulated data. Problems come from various areas of the social, biological and physical sciences.

prereq: Departmental permission  
Hours 3  
Credits 3

STAT 78700 - Statistical Models for Spatial Data

Spatial data and spatial models, intrinsic stationarity, large and small sample variation, the variogram, estimation of the variogram, prediction and kriging, spatial models on lattices, spatial point patterns.

prereq: STAT 70100 and STAT 70300 (theory); STAT 71600 or STAT 78600 (data analysis, programming); or permission of the instructor  
Hours 3  
Credits 3

Project

The student, guided by a member of the faculty, prepares a project in applied mathematics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement.

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.
prereq: permission of the department
Hours 3
Credits 3

MATH 77700 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department
Hours 3 hrs.
Credits 3 cr.

Note(s)

*The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.

**Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30-credit (10-course) total.

Return to: Programs and Courses in Mathematics and Statistics

Statistics and Applied Mathematics Track III: Bioinformatics

Return to: Programs and Courses in Mathematics and Statistics

Admission Requirements for Track III: Bioinformatics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (MATH 26000) and one semester of Multivariate Calculus (MATH 25000). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

The Bioinformatics track allows students with career plans in the biomedical sciences and without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics. In addition to the above departmental requirements for admission to the MA program in Statistics and Applied Mathematics, it is required that the student have an adequate undergraduate training in biological sciences, chemistry, or related fields, as well as strong computer programming skills. The following track requirements, or their equivalents, are the minimal requirements that the student must meet in order to enter the Bioinformatics track:

1. One semester of introductory biology (BIOL 10000 or equivalent)
2. One year of general chemistry (CHEM 10200-10500 or equivalent)
3. One semester of organic chemistry (CHEM 22200 or equivalent)
4. One semester of biological chemistry (BIOL 30000 or equivalent)
5. Familiarity with UNIX and database programming (CSCI 13200-23200 or equivalent)

Degree Requirements for Track III: Bioinformatics

*Thirty credits (10 courses) chosen as follows:

Core Curriculum** (15 credits, 5 courses)

**STAT 70100 - Advanced Probability Theory I

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

Hours 3 hrs.
Credits 3 cr.

**STAT 70300 - Mathematical Statistics

prereq: permission of the department

Hours 3 hrs.
Credits 3 cr.

**STAT 70600 - General Linear Models I

prereq: STAT 70100 and 70300 or equivalent or permission of department

Hours 3 hrs.
Credits 3 cr.

**STAT 71600 - Data Analysis

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics selected from: data summaries; transformations; the jackknife and re sampling schemes; robust estimation; and robust regression methods.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.

Hours 3 hrs.
Credits 3 cr.
This course is cross-listed with BIOS 75600 -or-
STAT 71700 - Multivariate Analysis

An introduction to multivariate methods. Topics selected from: factor analysis; discriminant analysis; clustering; multidimensional scaling; MANOVA; canonical correlation; and projection-pursuit.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.
Hours 3 hrs.
Credits 3 cr.

STAT 73900 - Bayesian Statistics

prereq: C or better in STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed.
Hours 3
Credits 3

Electives (12 credits, 4 courses)

Four graduate courses in biology, chemistry, or related fields. These must constitute a cohesive curriculum in bioinformatics, and must be approved by the Graduate Bioinformatics Adviser.

Suggested electives in the natural sciences are:

ANTH 79000 - Biological Anthropology (Core Course)

An introduction to the biology and evolutionary history of humans, including evolutionary theory, genetics, morphology, primate behavior, sociobiology, and paleontology.

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 79300 - Human Evolutionary Genetics

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.
prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,
Credits 4 cr
fall only

**BIOL 71013 - Molecular Biology Lecture**

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,
Credits 5 cr
fall only

**BIOL 75003 - Developmental Biology**

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,
Credits 4 cr
Spring only

**BIOL 79049 - Computational Molecular Biology**

An introduction to bioinformatics theories and practices. Topics include database searching, sequence alignment, molecular phylogenetics, structure predication, and microarray analysis. The course is held in a UNIX-based instructional lab specifically configured for bioinformatics applications. Each session consists of instruction on bioinformatics theories and hands-on exercises.

This course is designed for upper-level undergraduates and graduate students. Prior experiences in the UNIX Operating System and at least one programming language are required.

prereq: CSCL132 (Practical Unix and Perl Programming) and BIOL 300 (Biochemistry), or permission by the instructor.

spring only

**CHEM 69803 - Chemical Genomics**

The advent of high-throughput technologies and powerful computational tools is transforming the manner new drugs are developed. This course (bioinformatics) is designed to introduce students to two emerging areas of drug development, namely (1) computer-assisted drug design and (2) personalized medicine. Computer-assisted drug design is an approach to design drugs based on three dimensional structures of macromolecules. Personalized medicine, on the
other hand, aims at tailoring patient treatments based on individual genetic information (biomarkers). In this course, students will be first equipped with fundamental theoretical and experimental concepts related to these topics. Then, they will learn how to acquire new knowledge in these exciting fields of drug development through critical analysis of literature.

*Hours 3  
*Credits 3

**Project (3 credits, 1 course)**

The student, guided by a member of the faculty, prepares a project in bioinformatics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement.

**STAT 79000 - Case Seminar**

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

*prereq: permission of the department  
*Hours 3  
*Credits 3

**Notes**

For further information on the MA in Bioinformatics, please contact the statistics adviser.

*The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.  
**Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30-credit (10-course) total.

**Statistics and Applied Mathematics, Track IV: Financial Mathematics**

Return to: Programs and Courses in Mathematics and Statistics

This concentration is designed to teach students the mathematical methods involved in the solution of problems in finance. Several financial institutions—such as investment banks and commercial banks, hedge funds, credit rating and/or regulatory agencies—apply these methods to such problems as derivative securities valuation and hedging, trading, portfolio optimization, and risk management.

The concentration provides students the rigorous theoretical background to obtain jobs as quantitative analysts working as support to traders in front office jobs, or middle office risk management teams, as asset management specialist for hedge funds, as model analysts in credit rating companies and other such related jobs as quantitative strategists in
trading firms. While a career in the financial industry is possible, our program is also meant to expose the student to the theoretical foundations required to successfully pursue a PhD in the disciplines associated with mathematical finance.

The concentration builds upon existing strengths in the department both in applied mathematics (numerical methods) and statistics (probability theory, statistical inference/machine learning, applied statistical analysis), while bringing in the tools of finance and financial economics to create a unique combination of courses that will provide rigorous training and a general exposure to the principles of mathematical finance.

Admissions Requirements

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (MATH 26000) and one semester of Multivariate Calculus (MATH 25000) (see Hunter College Undergraduate Catalog). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

Degree Requirements

Required core (24 credits, 8 courses)

STAT 70100 - Advanced Probability Theory I

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

Hours 3 hrs.
Credits 3 cr.

STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department

Hours 3 hrs.
Credits 3 cr.

STAT 70300 - Mathematical Statistics

prereq: permission of the department

Hours 3 hrs.
Credits 3 cr.

MATH 68500 - Numerical Methods
Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations; curve fitting and function approximation; interpolation; differentiation and integration; differential equations.

prereq: a course in ordinary differential equations
Hours 3 hrs.
Credits 3 cr.

STAT 76100 - Advanced Concepts in Financial Markets

Study of the essential techniques of pricing financial derivatives, including the Black-Scholes formula, binomial trees, and risk-neutral valuation methods. Discussion of trading strategies associated with the use of financial derivatives for different purposes such as hedging and speculation, and potential problems that can arise in the application of financial derivatives.

prereq: permission of the department
Hours 3
Credits 3

STAT 76200 - Stochastic Methods in Finance

Mathematical theory and probabilistic tools for modeling and analyzing security markets. Pricing options in complete and incomplete markets, equivalent martingale measures, utility maximization, interest rate models.

prereq: STAT 70100, STAT 70200, STAT 76100
Hours 3 hrs
Credits 3 cr.

ECO 70100 - Microeconomic Theory

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500

ECO 76000 - Financial Economics

Examination of the models of finance: optimization over time, asset valuation and risk management. Applications to models of asset pricing, including stocks, bonds and options; portfolio selection; and problems in corporate finance including investment analysis and capital structure.

prereq or coreq: ECO 70100 and ECO 72100

Elective (3 credits, 1 course)

ECO 71100 - Banking and Financial Markets

Factors determining banking and financial structure in US. Issues involving financial crises and bank failure, allocation of financial resources, regulation and competition.
prereq: ECO 21000
prereq or coreq: ECO 70300 and ECO 72100

ECO 72100 - Linear Econometric Analysis

Econometric analysis of linear statistical models. Topics include: ordinary least squares-estimation, inference, testing and specification testing; instrumental variables and simultaneous equations models; panel data regression; time series and forecasting

prereq: ECO 32100 with a grade of B; MATH 15000 and MATH 16000 with an average grade of B
prereq or coreq: MATH 15500

STAT 71500 - Time Series Analysis

Introduction to univariate Box-Jenkins (difference equation) time-series modeling. Topics include ARIMA models; stationarity; forecasting; diagnostics; and seasonal modeling. Extensive use of process control and economic time series. Transfer function models.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.
Hours 3 hrs.
Credits 3 cr.

STAT 72200 - Theory of Games

Utility, zero-sum two-person games, minimax theorem or rectangular games. Relation to linear programming; applications to problems in economics and other fields.

prereq: a course in linear algebra and a course in probability
Hours 3 hrs.
Credits 3 cr.

ECO 76500 - Games and Information

Game theory offers a framework for analyzing social interactions and emergent behavior in a very wide variety of human contexts. The purpose of this course is to offer a critical introduction to game theory and its applications. Economic applications include the analysis of conflict and the emergence of trust and cooperation out of anarchy, the analysis of firms' strategic behavior in concentrated markets, or of herd behavior and panics in financial markets. Asymmetric information economics and mechanism design extend game theory by exploring how the design of the rules of a game, or the initial distribution of information might affect equilibrium behavior outcomes, and therefore how one might choose to set up the rules of the game to govern their interactions.

prereq or coreq: ECO 70100

Project (3 credits, 1 course)

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.
prereq: permission of the department

Hours 3
Credits 3

The student, guided by a member of the faculty, prepares a project in mathematical finance. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement. Typically, this is satisfied by learning and using R, MATHEMATICA, SPSS and/or SAS. They use Mathematica in MATH 68500, and R in STAT 71500 STAT 71600 STAT 71700, STAT 70600, and STAT 70700

Total Credits: 30

TESOL Adult Track - MA

Program Coordinator

Tim Farnsworth
1013 West Building
(212) 650-3376
tfarnswo@hunter.cuny.edu

The TESOL Adult Track (Academic Plan: TESOL-MA | Subplan TESOLADUNC) prepares students to teach adults in college, continuing education, literacy, business, private, and other community, academic and professional programs in the United States or abroad. It does not prepare teachers for New York State certification to teach in the public schools.

Links to the ESL classroom are emphasized and students are exposed to extensive field experiences and practice. Students should be prepared to spend considerable amounts of time observing and participating in educational settings in addition to attending classes at Hunter.

Admission Requirements

1. Bachelor's degree with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. 12 credits in foreign language documented on a transcript or equivalent credits on a standardized proficiency test such as the College Level Examination Program (CLEP) or the NYU Proficiency Test in Foreign Language.
3. Two letters of recommendation.
4. A personal statement.
5. Satisfactory communication skills. (An oral interview and on-site writing sample may be required to provide additional evidence of communication skills, depending on the applicant's academic record and language proficiency as reflected in the application).
6. Submission of scores on the Graduate Record Examination, except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards
1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Total Credits

27-37

EDESL 78200 - TESOL Methods for Adult Education

A treatment of effective TESOL practices, classroom management, and learning environments appropriate to the adult classroom. Twenty-five hours of field experience/observation is a part of this course.

* Hours 45 hrs
* Credits 3 cr

Required of students in the Adult Program and an elective for students in the Pre- K–12 Programs One and Two who have been waived from a required course.

LING 70300 - Analysis and Structure of English I

The first course in a two-course sequence offering an in-depth treatment of the various aspects English language knowledge needed for the teaching of English through the various content areas (math, science, social studies, literature) to English language learners. It lays the groundwork in English language knowledge and analysis for teachers of P-12 ESL.

* prereq or coreq: EDESL 78300
* Hours 3 hrs
* Credits 3 cr

LING 70400 - Analysis and Structure of English 2
The second course in a two-course sequence offering an in-depth treatment of the various aspects English language knowledge needed for the teaching of English through the various content areas (math, science, social studies, literature) to English language learners. It lays the groundwork in English language knowledge and analysis for teachers of P-12 ESL.

prereq: EDESL 78300, LING 70300
Hours 3 hrs
Credits 3 cr

EDESL 78100 - Curriculum and Materials in Adult TESOL

Overview of the various curriculum and materials options for learning ESL/EFL (listening and an oral comprehension, speaking and conversation, reading and vocabulary building, writing and composing, textbook series for children and adults, dictionaries, computer-assisted learning materials, video programs and others). Attention is given to classroom management tasks, setting up and exploiting various learning environments, and general literacy concerns.

prereq or coreq: EDESL 78200
Hours 3 hrs
Credits 3 cr

EDESL 77500 - Socio-Cultural Aspects of Language

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

Hours 3 hrs
Credits 3 cr

LING 77300 - Instructed Second Language Acquisition

This course provides an overview of current theory, research, and practice in second language acquisition and learning. Pedagogical implications and applications for English language learning particularly through instruction are emphasized. Teachers are introduced to research methodologies and conduct classroom-based research.

prereq or coreq: EDESL 78300; LING 70300
Hours 3 hrs
Credits 3 cr

EDESL 74100 - Teaching ESL Oral Skills

This course will begin by addressing theory and practice of both the acquisition and teaching of oral and listening skills in adult ESL. It will then focus on how oral and listening skills can be taught to adults from diverse cultural and linguistic backgrounds, addressing cognitive, emotional, social, and personal differences among students.

prereq: EDESL 70200, EDESL 70300
Hours 3 hrs
Credits 3 cr

EDESL 74200 - Teaching ESL Reading and Writing
The course will cover theories of reading and writing, as well as focus on the teaching methods and practices that grow out of them. The primary focus of the course will be the process of learning about how L2 literacy skills are acquired.

**EDESL 74300 - Language Assessment for Adult ESL Classrooms**

This course introduces students to relevant theory and current practice in the area of language assessment and integrates the two in order to provide students with both conceptual understanding and practical experience with language assessment. The course will examine key concepts and current debates, including validity, reliability and the ethics of high-stakes testing.

**EDESL 79800 - Student Teaching in Academic ESL**

Hours 60 hrs fieldwork
Credits 2 cr

**EDESL 79900 - Adult Fieldwork / Practicum**

Hours 60 hrs fieldwork
Credits 2 cr

**EDESL 78000 - Seminar in Educational Research (Master's Essay)**

A written study, which may include a researched area, an analysis of a methodology, a review, evaluation, or critique of relevant literature, or a proposal for learning materials. Students in this course, who meet as a group and individually with the adviser, are exempt from taking the comprehensive examination. This course satisfies the culminating requirement for the MA program and counts as an elective course in the Adult Track and K-12 programs. Year-long course.

**EDESL 70100 - Selected Topics in TESOL**

Three credits of electives from the list below:

**EDESL 701-704 Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12
Programs 1 and 2 who have been waived from a required course.

**prereq:** permission of TESOL adviser  
**Credits 1 cr**

**EDESL 70200 - Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

**prereq:** permission of TESOL adviser  
**Credits 2 cr**

**EDESL 70300 - Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

**prereq:** permission of TESOL adviser  
**Credits 3 cr**

**EDESL 70400 - Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

**prereq:** permission of TESOL adviser  
**Credits 4 cr**

**Exit Requirements**

1. An overall GPA of 3.0.
2. Electronic Portfolio Evaluation or a master's essay (EDESL 76000); the master's essay course may be used to fulfill the program elective requirement.

**TESOL PreK-12 - MA**

**Program Coordinator**

**Tim Farnsworth**  
1013 West Building  
(212) 650-3376  
tfarnswor@hunter.cuny.edu
The TESOL PreK-12 program (Academic Plan: TESOL-MA) is designed to educate people who wish to teach students for whom English is a second or foreign language in a school setting. The skill of teaching English to speakers of other languages is acquired through studying specialized methods and techniques that differ from those used by teachers of English to native speakers. This preparation is the focus of the programs in TESOL.

In these programs, links to the ESL classroom are emphasized and students are exposed to extensive field experiences and practice. Students should be prepared to spend considerable amounts of time observing and participating in educational settings in addition to attending classes at Hunter. All fieldwork experience must be done in New York City public schools.

TESOL-MA has two tracks (or subplans). Track 1 (Subplan: TESOLLNYSC) is for applicants with no prior NYS certificate. Track 2 (Subplan: TESOLANYSC) is for applicants who have prior NYS certificate.

Admission Requirements

Track 1

Applicants who do not hold NYS Certification

1. Bachelor's degree with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. A liberal arts of sciences major or interdisciplinary concentration of at least 30 credits.
3. A general education core in liberal arts and sciences to include: 12 credits in foreign language documented on a transcript or equivalent credits on a standardized proficiency test such as the College Level Examination Program (CLEP) or the NYU Proficiency Test in Foreign Language; 9 credits in communication and English with at least one course in written analysis and expression and once course in English literature; 9 credits in science and mathematics, with at least one course in math one course in science (a college course in calculus satisfies 6 credits of this requirement); 6 credits in social studies (to include at least one course in history or geography); 3 credits in the arts; 3 credits in information retrieval (library studies, research, computer literacy or educational technology).
4. Satisfactory communication skills. (An oral interview and on-site writing sample may be required to provide additional evidence of communication skills, depending on the applicant's academic record and language proficiency as reflected in the application).
5. Two letters of recommendation.
6. A personal statement.

Track 2

Applicants who hold NYS Certification

1. Bachelor's degree with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. 12 credits in foreign language documented on a transcript or equivalent credits on a standardized proficiency test such as the College Level Examination Program (CLEP) or the NYU Proficiency Test in Foreign Language.
3. NYS teacher certification in subject areas other than TESOL (specifically early childhood, childhood, middle childhood, or adolescent education; special subjects; students with disabilities; or literacy).
4. Satisfactory communication skills. (An oral interview and on-site writing sample may be required to provide additional evidence of communication skills, depending on the applicant's academic record and language proficiency as reflected in the application).
5. Two letters of recommendation.

Progress Standards
1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

TESOL-MA

Subplans

- Track 1: TESOLLNYSC
- Track 2: TESOLANYSC

Total Credits

- TESOLLNYSC: 30-42 (Note: Students may be exempted for up to nine credits (12 credits for those completing EDES L780))
- TESOLANYSC: 30-36 (Note: Students may be exempted up to three credits (6 credits for those completing EDES L780))

Courses for Track 1

Track 1 (Subplan: TESOLLNYSC)

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork
Credits 3 cr

CEDF 713 - CEDF 71300 - Child and Adolescence Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

*Hours 3 hrs
Credits 3 cr
EDESL 77500 - Socio-Cultural Aspects of Language

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

Hours 3 hrs
Credits 3 cr

EDESL 78300 - Methodology of Teaching English to Speakers of Other Languages

An overview of classroom options for teaching English to second language learners. The course covers options for classroom management and setting up learning environments. A 25-hour field experience is a part of this course.

Hours 45 hrs
Credits 3
Required for students in Program Two and Program Three (Adult Program).

EDESL 78700 - K-12 ESL Curriculum and Materials across the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: LING 70300, EDESL 78300 or permission of TESOL adviser
Hours 3 hrs
Credits 3 cr

EDESL 79100 - Language Assessment in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing.

prereq: LING 70100 or BILED 77100
prereq or coreq: EDESL 70500 or permission of TESOL adviser
Hours 45 hrs,
Credits 3 cr
Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.

EDESL 79200 - Second Language Literacy and Technology

This course provides an in-depth treatment of theory and practice in the teaching of all of the literacy skills: reading and writing, along with the development of oral language and listening, to K-12 English language learners in the public schools. Interactions between first, second, and other language literacy, and technological literacy are explored and exploited toward successful language teaching and learning. Includes 15 hours of field experience.

prereq: LING 70300; LING 77300; EDESL 78300
Hours 3 hrs
Credits 3 cr
Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.
LING 70300 - Analysis and Structure of English I

The first course in a two-course sequence offering an in-depth treatment of the various aspects English language knowledge needed for the teaching of English through the various content areas (math, science, social studies, literature) to English language learners. It lays the groundwork in English language knowledge and analysis for teachers of P-12 ESL.

prereq or coreq: EDESL 78300
Hours 3 hrs
Credits 3 cr

LING 70400 - Analysis and Structure of English 2

The second course in a two-course sequence offering an in-depth treatment of the various aspects English language knowledge needed for the teaching of English through the various content areas (math, science, social studies, literature) to English language learners. It lays the groundwork in English language knowledge and analysis for teachers of P-12 ESL.

prereq: EDESL 78300, LING 70300
Hours 3 hrs
Credits 3 cr

LING 77300 - Instructed Second Language Acquisition

This course provides an overview of current theory, research, and practice in second language acquisition and learning. Pedagogical implications and applications for English language learning particularly through instruction are emphasized. Teachers are introduced to research methodologies and conduct classroom-based research.

prereq or coreq: EDESL 78300; LING 70300
Hours 3 hrs
Credits 3 cr

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Plus -

EDESL 75200 - Supervised Teaching 1
One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 1 focuses on the development of core lesson planning, teaching, and assessment skills in ESL instruction. Required of all pre-K-12 program students.

prereq: Completion of 24 credits or permission of TESOL adviser

Hours 3 hrs
Credits 3 cr

- Or -

EDESL 75300 - Supervised Teaching 2

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 2 focuses on the professional duties of the ESL educator beyond teaching and incorporates an advocacy-based classroom based inquiry project. Required of all MA K-12 program students.

prereq: EDESL 75200

Hours 3 hrs
Credits 3 cr

- And one of the following -

EDESL 78000 - Seminar in Educational Research (Master's Essay)

A written study, which may include a researched area, an analysis of a methodology, a review, evaluation, or critique of relevant literature, or a proposal for learning materials. Students in this course, who meet as a group and individually with the adviser, are exempt from taking the comprehensive examination. This course satisfies the culminating requirement for the MA program and counts as an elective course in the Adult Track and K-12 programs. Year-long course.

prereq: completion of 24 credits and permission of TESOL adviser

Credits 3 cr (year-long)

Students who satisfactorily complete the first semester would earn a grade of Y, which would be changed to a letter grade upon satisfactory completion of all course requirements.

or Electronic Portfolio Evaluation

Courses for Track 2

Track 2 (Subplan: TESOLANYSC)

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr
EDESL 77500 - Socio-Cultural Aspects of Language

Hours 3 hrs
Credits 3 cr

- Plus -

EDESL 75200 - Supervised Teaching 1

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 1 focuses on the development of core lesson planning, teaching, and assessment skills in ESL instruction. Required of all pre-K-12 program students.

prereq: Completion of 24 credits or permission of TESOL adviser
Hours 3 hrs
Credits 3 cr

- Or -

EDESL 75300 - Supervised Teaching 2
One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 2 focuses on the professional duties of the ESL educator beyond teaching and incorporates an advocacy-based classroom based inquiry project. Required of all MA K-12 program students.

**prereq:** EDESL 75200  
**Hours:** 3 hrs  
**Credits:** 3 cr

- And one of the following -

**EDESL 78000 - Seminar in Educational Research (Master's Essay)**

A written study, which may include a researched area, an analysis of a methodology, a review, evaluation, or critique of relevant literature, or a proposal for learning materials. Students in this course, who meet as a group and individually with the adviser, are exempt from taking the comprehensive examination. This course satisfies the culminating requirement for the MA program and counts as an elective course in the Adult Track and K-12 programs. Year-long course.

**prereq:** completion of 24 credits and permission of TESOL adviser  
**Credits:** 3 cr (year-long)  
Students who satisfactorily complete the first semester would earn a grade of Y, which would be changed to a letter grade upon satisfactory completion of all course requirements.

* or **Electronic Portfolio Evaluation**

**Note(s)**

Students may be exempted from up to six credits if they have taken equivalent course work elsewhere. Taking EDESL 780 MA Essay adds 3 credits to total credits in degree.

*Student Teaching is a year-long course. Students must complete 60 days during one semester at the K-6 level, and 60 days during the other semester at the 7-12 level. Student teachers may start their student teaching in either the fall or spring semester.*

**Practicum Teaching is a year-long course. Students are expected to be in the classroom during the entire year of teaching. Practicum students may start their practicum in either the fall or spring semester.**

**Exit Requirements**

1. An overall GPA of 3.0.
2. Track 2 students only: Must maintain a valid and appropriate NYS certification.
3. Demonstrate graduate-level academic oral and written communication skills in their coursework, and the ability to serve as appropriate models of the English language for their future students.
4. Electronic Portfolio Evaluation or successful completion of a master's essay (EDESL 78000).
5. Complete the Dignity for All Students Act (DASA) workshop.

**Theatre - MA**
The MA program in theatre is designed to offer concentrated study in the areas of theatre history, theory, and criticism; dramaturgy; production and performance studies; and playwriting. The curriculum integrates theory with practice and accommodates the various backgrounds and career goals of theatre professionals, dramaturgs, and educators. Most students continue professional work or go on to PhD programs. In addition to the permanent faculty, well-known theatre artists, critics, and scholars teach on a part-time basis. Individual counseling is an integral part of the program. Through meetings with the graduate adviser, a program of study that meets each student’s needs is developed.

MA students may take MFA Playwriting classes with permission. A one-act play must be submitted for consideration.

Requirements for Admission

General admission requirements to the graduate program in the arts and sciences are observed. Applicants with a GPA of 3.4 or higher in theatre history, theory and literary criticism courses, or 6 credits of graduate work with a grade or grades of 3.0 or better need not submit scores on the Graduate Record Examination. An undergraduate theatre major is not needed for admission to the MA program in theatre. Students enter with a wide variety of academic backgrounds.

Requirements for the Degree

Courses

Each candidate must complete an approved program of study of at least 30 credits, including following. Courses other than those in the Department of Theatre may be applied toward the 30 credits with the approval of the graduate adviser, but may not exceed 9 credits. Not more than 9 credits may be transferred from nonmatriculated to matriculated status.

**THC 70200 - History of Theatrical Theory**

Historical survey of major theatre theories and theorists from Aristotle to poststructuralism.

*Hours 30 hours, including conferences,*

*Credits 3*

**THC 75100 - History of Theatre I**

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 30 hrs, including conferences,*

*Credits 3 cr*

**THC 75200 - History of Theatre II**

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 30 hrs, including conferences,*

*Credits 3 cr*

**THC 79000 - Play Analysis**

Study of structural elements of play essential to playwright and director.
**Hours** 30 hrs, including conferences,  
**Credits** 3 cr

**Examination**

The student is required to pass a three-hour comprehensive examination covering general knowledge in theatre history, criticism, and production. The comprehensive exam may be repeated if failed, but may be taken no more than three times. The department no longer requires a proficiency examination in one foreign language.

**MA with Honors**

**Master's Essay**: Upon completion of the comprehensive examination, the graduate committee will determine which students shall be invited to submit a proposal for a Master's Essay. This decision will be based on academic performance: papers, class participation, and the quality of the comprehensive examination. Honors students must register for THC 79900 - Master's Essay to complete the 30 required credits when the proposal is approved.

**THC 79900 - Master's Essay**

Individually supervised research and writing of a thesis, leading to graduation with honors.  

**Credits** 3

**Recent Electives**

Our course offerings also include a continually changing roster of electives

**Recent Electives:**  
Advanced Directing  
Theatre and the Middle East  
Law and American Drama  
Intercultural Theatre  
Greek Drama  
History of Opera  
Puppetry and Performing Objects On-stage  
Performing Arts of Kerala, India  
Goethe’s Faust: Text, Background, Tradition

**Theatre Education PreK-12 - MA**

**Education Adviser**

Jeanne Weiler  
(212) 650-3459  
1115 West  
jweiler@hunter.cuny.edu

**Theatre Advisor**
The School of Education offers two master's degree programs for NYS certification for theatre teachers. These programs focus on practical approaches to the teaching of theatre education, while also providing graduate coursework in the foundations of education and in general education curriculum and content in grades PreK-12. Both programs lead to NYS certification in Theatre PreK-12.

Program 1 (Academic Plan: THEAED-MA) is for those with no prior NYS certification.

Program 2 (Academic Plan: THEDPC-MA) is for those with prior NYS certification.

**Admission Requirements**

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A major in theatre and 6 credits of English literature.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Two professional references.
5. A personal statement describing the applicant's past experiences in theatre and why the applicant is interested in pursuing an MA in Theatre Education.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.
7. **Program 2 Applicants Only**: NYS teaching certificate.

**Progress Standards**

**A. 12-credit Progress Standards**

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. 
   
   **Note:** It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs

**B. Fieldwork Benchmarks**

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for registration.

Course of Study

- THEDPC-MA: 32

Courses for Programs 1 and 2

**THC 70200 - History of Theatrical Theory**

Historical survey of major theatre theories and theorists from Aristotle to poststructuralism.

*Hours 30 hours, including conferences,*

*Credits 3*

**THC 72500 - Special Topics**

Studies in specialized areas of theatre.

*Hours 30 hrs, including conferences,*

*Credits 3 cr*

*May be repeated for credit.*

**THC 75100 - History of Theatre I**

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 30 hrs, including conferences,*

*Credits 3 cr*

**THC 75200 - History of Theatre II**

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 30 hrs, including conferences,*

*Credits 3 cr*

**THC 75500 - Visual Elements of Theatre I**
Study and practice of director's and playwright's conceptual approach to visual requirements of plays.

*Hours 30 hrs, including conferences,*
*Credits 3 cr*

### THC 76000 - Studies in Theatre History and Production

Intensive study of history and theory of one of the component arts of theatre. Subjects announced in advance.

*Hours 30 hrs, including conferences,*
*Credits 3 cr*
*May be repeated for credit.*

### THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

*Hours 30 hrs, including conferences,*
*Credits 3 cr*

### THC 79100 - Advanced Directing and Rehearsal

Study of problems in play direction, with practice in presentation of scenes and plays.

*Hours 45 hrs,*
*Credits 3 cr*

### THC 79300 - Playwriting I

Study of techniques of playwriting based on student's own work with special emphasis on scenes and one-act form.

*Hours 45 hrs,*
*Credits 3 cr*

- Plus (new courses) -
  - THC 77600 - Creative Dramatics, Methods I (3 credits)
  - THC 77700 - Theatre for Youth, Methods II (3 credits)
  - THCED 78000 - Student Teaching (5 credits)
    - Or -
  - THCED 78100 - Practicum in Theatre (2 credits) taken twice

### Additional Courses for Program 1

### CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.
SED 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
*Credits 3 cr

SED 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,
*Credits 1 cr

SED 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
*Credits 3 cr

SED 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
*Hours 30 hrs, plus 36 hrs fieldwork,
*Credits 2 cr

SED 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
*coreq: One of the following must be a Co-req:
SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

Exit Requirements

1. An overall GPA of 3.0
2. Pass a comprehensive examination administered by the Theatre department.
3. Complete the Dignity for All Students Act (DASA) workshop.
4. Program 2 students must maintain valid and appropriate NYS certification.

Visual Arts Education - MA

Coordinator

Lori Kent
(212) 650-3751
Art and Art History Advisement Office, North Building 11th floor
lken@hunter.cuny.edu

The School of Education offers two master's degree programs for NYS certification for visual arts teachers. These programs focus on practical approaches to the teaching of visual arts education, while also providing graduate coursework in the foundations of education and in general education curriculum and content in grades PreK-12. Both programs leads to NYS certification in Visual Arts PreK-12.

Program 1 (Academic Plan: VSARTED-MA) is for those with no prior NYS certification.

Program 2 (Academic Plan: VAEDPC-MA) is for those with prior NYS certification.
Admissions Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.5 and a major in visual arts. For applicants with an MFA or other graduate degree, a GPA of at least 3.5.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. 9 credits of art history
4. 24 credits in studio art
5. Two professional references.
6. A personal statement.
7. A digital portfolio of 20 examples of artistic works is submitted as part of the application
8. An interview by faculty for qualified applicants.
9. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.
10. **Program 2 Applicants Only:** NYS teaching certificate.

Progress Standards

A. 12-credit Progress Standards

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. *Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs*

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for registration.

Course of Study

Academic Plans
• Program 1: VSARTED-MA
• Program 2: VAEDPC-MA

Total Credits

VSARTED-MA: 44
VAEDPC-MA: 30-31

Program 1

Program 1 (Academic Plan: VSARTED-MA)
For students with no prior NYS certification

ARTH 62100 - Modern Art I
Origins and history of modern art in 19th century.

Hours 45
Credits 3

ARTH 73400 - Theory and Criticism of Art
Readings in the history of art history and/or critical theory as a background and methodology for current problems in the discipline and in contemporary art criticism.

ARTH 78000 - Special Topics in Art
Graduate seminars on specific topics established by individual faculty. Topics in recent years have included Greek Vase Painting, The Islamic Object, Botticelli, Architecture of the Italian Renaissance, Origins of Abstraction, History of Photography, Art and Totalitarianism, Color Theory in Relation to Painting.

ARTCR 75100 - Special Topics in Studio Art
Special projects in photography, ceramics, color theory, three-dimensional form theory, collage, time-based media and related topics. Topics offered vary from semester to semester.

Hours 4
Credits 3

CEDF 71200 - Child and Adolescent Development
This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

Hours includes 5 hrs of field work
Credits 4
SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,*
*Credits 3 cr*

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,*
*Credits 1 cr*

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,*
*Credits 3 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400*
*Hours 30 hrs, plus 36 hrs fieldwork,*
*Credits 2 cr*

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500*
*coreq: One of the following must be a Co-req:*

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED
SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

Program 2

Program 2 (Academic Plan: VAEDPC-MA)

For students with prior NYS certification

ARTH 62100 - Modern Art I

Origins and history of modern art in 19th century.

Hours 45
Credits 3

ARTH 73400 - Theory and Criticism of Art

Readings in the history of art history and/or critical theory as a background and methodology for current problems in the discipline and in contemporary art criticism.

ARTH 78000 - Special Topics in Art

Graduate seminars on specific topics established by individual faculty. Topics in recent years have included Greek Vase Painting, The Islamic Object, Botticelli, Architecture of the Italian Renaissance, Origins of Abstraction, History of Photography, Art and Totalitarianism, Color Theory in Relation to Painting.

ARTCR 75100 - Special Topics in Studio Art

Special projects in photography, ceramics, color theory, three-dimensional form theory, collage, time-based media and related topics. Topics offered vary from semester to semester.

Hours 4
Credits 3
ARTED 71000 - Methods for Childhood Art Education - Grades PreK-6

This course focuses on visual arts education methods, philosophies and theories of learning and development in the visual arts for children from Pre-K- grade 6. It emphasizes children's aesthetic development, safe and appropriate uses of materials and resources, and appropriate methods and pedagogy for teaching the visual arts in grades PreK-6.

Includes 36 hours of fieldwork in a school.

prereq or coreq: SEDF 70300 and SEDF 70400
Hours 3 hrs
Credits 3 cr.

ARTED 71100 - Methods of Teaching the Visual Arts Grades 7-12

This course focuses on visual arts education methods, philosophies and theories of learning and development in the visual arts for the adolescent. Focus: It emphasizes adolescent aesthetic development, safe and appropriate uses of materials and resources, and appropriate methods and pedagogy for teaching the visual arts in grades 7-12.

Course includes 48 hours of fieldwork in a school. Students are observed and evaluated in the field at least once.

prereq: ARTED 71000 and SEDF 70500
Hours 3 hrs
Credits 3 cr.

ARTED 71200 - Student Teaching in the Visual Arts Grades Pre-K-12

Teacher candidates complete a total of 60 days of student teaching Monday through Friday (30 days of student teaching at grades pre-K-6 and 30 days at grades 7-12) under the supervision of a Hunter College faculty member and a certified Art Educator in a New York City school selected by the college.

prereq: ARTED 71000 and ARTED 71100 plus 6 credits in ARTH and ARTCR
Hours 5 hrs
Credits 2 cr.

- Or -

• ARTED 713.10 Practicum in the Visual Arts PreK-6 (2 credits)
  - And -

• ARTED 713.20 Practicum in the Visual Arts Grades 7-12 (2 credits)

Exit Requirements

1. An overall GPA of 3.0
2. Students must complete the Dignity for All Students Act (anti-bullying) workshop.
3. Students will develop a professional teaching portfolio that is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to integrate their artistic development with their growth and development as arts educators. Teacher candidates will be expected to connect these elements through critical reflection. Students will work with their instructors throughout their course of study on the portfolio. Students will arrange for a presentation and final review of their work during the last semester of the program.
4. Program 2 students must maintain valid and appropriate NYS certification.

**Master of Fine Arts - MFA**

**Creative Writing - MFA**

Hunter's Creative Writing MFA is a highly selective program in which students work closely with distinguished writers to perfect their writing skills. The course comprises workshops, craft seminars, one-on-one supervisions with faculty, and literature classes. There are three concentrations, fiction, creative nonfiction and poetry, with 12 students in each. Each year, several students are named Hertog Fellows (fiction and nonfiction) and Friedman Scholars (poetry). These students receive a generous stipend and are paired with well-established writers, for whom they conduct research for one semester.

**Departmental Requirements for Admission**

Candidates must have completed a BA or equivalent at an accredited institution with no minimum GPA. In addition to the Hunter College application, the candidate must submit a creative writing manuscript (10-20 pages of poetry or 20-30 pages of fiction or creative nonfiction) and a 500-word personal statement describing the candidate's relationship to his/her creative work, literary influences, and why the MFA would be beneficial to the candidate's writing career. In addition, creative nonfiction candidates must submit a 500-word memoir proposal. **The GRE is not required.**

**Departmental Requirements for the Degree**

Each candidate must complete an approved program of study of at least 36 credits, which must include:

1) Four writing workshops in chosen genre

2) Two courses in MA literature (not including ENGL 788)

3) Four MFA craft seminars in chosen genre

4) One course in Writing in Conference

**ENGL 79800 - Writing in Conference**
Individual tutorial directed by a member of the writing faculty.

*Hours 3 hrs*
*Credits 3 cr*
*To be taken in sequence with ENGL 79900 (MFA Thesis).*

5) One course in MFA thesis

**ENGL 79900 - MFA Thesis**

Independent creative writing project, with regular advisory sessions with primary writing faculty adviser.

*Hours 3 hrs*
*Credits 3 cr*
*To be preceded in sequence by ENGL 79800 (Writing in Conference).*

**Dance - MFA**

The Hunter College MFA program in Dance prepares dance artists/educators for careers and professional roles in the field of dance through a wide-ranging program of dance technique and choreography, complemented by appropriate coursework in theory, perspectives and contexts, history, and dance pedagogy. The MFA in Dance is considered the terminal degree in the field; it is the baseline qualifying credential for the college/university teaching job market, a challenging laboratory for furthering deep personal artistic accomplishment, and an important venue for the development of contextual and aesthetic understanding. The program will open in the fall of 2018.

**Admission Requirements**

All applicants will be required to complete the online Hunter College graduate school application, submit an updated CV, and participate in an interview that will include a presentation on the candidate's professional performing and creative career. Details for the presentation will be available after the candidate's application has been submitted. Admission will occur only in the fall semester. Applicants are required to have a bachelor's degree in any subject, at least 5 years of professional dance experience, and a clearly demonstrated career plan for which academic study of the art form is appropriate.

The GRE exam is not required for application for the MFA/Dance Program. An undergraduate degree in Dance is desirable, but not required. Based on a proficiency exam and one-on-one assessment administered early in the course of study, undergraduate courses may be required to cover specific deficiencies in the student's preparation.

**Curriculum**

The degree plan comprises courses in dance pedagogy, theory, criticism, aesthetics, history, research methods, cultural studies, physical training, and extensive creative work in performance and choreography. The capstone of the curriculum is the MFA project, an intensive research process culminating in the presentation of significant creative work.

**Requirements**
The MFA program requires 60 credits and is a terminal degree. The program's standards are those articulated by the National Association of Schools of Dance. The credit requirements are as follows:

- Theory and Perspectives 12 credits
- Dance Technique 11 credits
- Creative Work 11 credits
- Pedagogy 6 credits
- Major MFA project 8 credits
- Electives 12 credits

The 12 elective credits will make it possible for the student to investigate particular areas of interest, and possibly develop a secondary area of interest and expertise.

**Curriculum Details**

**Theory/Context/Perspectives**

The 12-credit requirement in Theory/Context/Perspectives is met by the following courses:

**DAN 74000 - Aesthetics**

A seminar examining a variety of global artistic practices and value systems from both aesthetic and cultural perspectives. The course focuses on a broad range of dance and examines how choreographers, dancers, designers, critics, audience members, teachers, producers and scholars function and interrelate. Students examine a variety of analytical paradigms -- including structuralism, semiotics and literary theory -- through the study of the major writers and thinkers in the field. A culminating study is typically a close analysis of the student's personal creative work.

*prereq: Admission to one of the graduate dance programs*

*Hours 3*  
*Credits 3*

**DAN 74200 - Graduate Dance History**

This course deepens the student's understanding of key points in concert and global vernacular dance in the 20th century. How those points have reflected social, cultural, and political forces, and impacted 21st century dance, is examined throughout the course. A major research paper is the culminating project. Both practice and theory are engaged through readings of historic texts and public reviews, film/video viewings, attendance at live performances, and group discussions.

*prereq: Admission to one of the graduate dance programs AND DAN 23200 or comparable undergraduate dance history course or equivalent experience.*

*Hours 3*  
*Credits 3*

**DAN 74600 - Special Topics in Dance**

A seminar/laboratory course focusing on a varying series of topics, selected according to student interests, current faculty research, and available guest artists and master teachers. Topics can include a wide variety of historical,
The course encourages advanced study in specialized areas of particular student interest. Possible topics include: dance in the digital age, specific cultural forms, dance in community settings, motor learning from multiple perspectives, etc.

**prereq:** Admission to one of the graduate dance programs  
**Hours** 3  
**Credits** 3  
*Can be repeated for credit with different content areas*

### DAN 74400 - Modes of Inquiry

This course introduces various research approaches and methods. Research design - including statements of purpose, review of related literature, articulation of methods, and definition of terms – the place of action research in creative exploration (including teaching practice), arts-based research, and the role of theory in research are addressed through readings, discussion, practical experience, and written exercises and papers.

**prereq:** Admission to MFA Dance program  
**Hours** 3  
**Credits** 3

### Dance Technique

The following courses meet the 11-credit requirement in Technique:

#### DAN 70100 - Physical Training

The ongoing, rigorous training in a dance/movement style pertinent to the individual student's artistic and pedagogical goals. Exploration of unfamiliar movement disciplines will be required. This course is designed to allow each student to articulate and execute a regular training regimen that will build and refine her/his skills as practitioner of an artistic movement discipline. A variety of individual training plans are overseen by faculty. Regular group meetings examine how underlying aesthetic and kinesiological assumptions embodied by the training inform students' approaches to teaching artistry, improvisation, and choreography.

**prereq:** Admission to a graduate dance program  
**Hours** 3  
**Credits** 2  
*Can be taken more than once for credit, required 3 times for MA, 2 times for BA/MA.*

This course is required 4 times for the MFA (2 credits each time): This will be an individualized program of dance technique focusing on personal interests and needs.

#### DAN 70500 - Maintenance of the Dancer's Instrument

An in-depth survey of a wide variety of somatic approaches to and interventions in dance training including ideokinetic and bodywork techniques, postural and motional training methods, and alternative movement disciplines. The course includes analytical, observational and participatory experiences, and will build on individual needs and interests of the students. Application of somatic knowledge to teaching movement and dance is stressed.

**prereq or coreq:** DAN 35000 or equivalent course and/or related profesional background  
**Hours** 3  
**Credits** 3
Creative Work

The 11 required Creative Work credits are distributed as follows:

**DAN 73000 - Studies of Forms**

This course develops choreographic proficiency through practical experience with, and observation of, artistic form and content across a range of disciplines. Short- and long-term experiments are presented in class and in occasional showings open to the public. The role of self-review, as well as external feedback during creative processes, is considered by utilizing a variety of protocols for response.

*prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department
Hours 3
Credits 3
This course is repeatable once for credit.*

**DAN 73300 - Process and Projects**

This course asks the Dance student to explore unfamiliar genres, styles and methodologies through a variety of choreographic project assignments. An inventory of each student's past experiences leads to a collaboratively designed and individualized series of assignments designed to stretch the student's experiences and capabilities.

*prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department
Hours 3
Credits 3*

**DAN 73500 - Performance and Presentation**

The development and public presentation of original choreography in performance at Hunter College or another suitable public venue. Regularly scheduled showings will offer opportunities to reflect on the work, receive feedback, and dialogue with faculty during the process of conception and execution.

*prereq: Acceptance into one of the graduate dance programs: BA/MA, MA
Hours 3
Credits 1
This course is repeatable once for credit.*

Pedagogy

The 6-credit Pedagogy requirement consists of the following courses:

**DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning**

An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct "action research" in order to identify conditions that support or hinder productive teaching and learning. This first phase of the "methods" course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).
prereq or coreq: 6 credits in education and 12 credits in dance

Hours 3 hrs + 36 hrs of fieldwork

Credits 3

DAN 75000 - Topics in Teaching for College/University

Intensive examination of the relationship between pedagogy, teaching artistry, and curriculum design. Includes study of the history, philosophy, and cultures of dance in higher education. Topics include lesson, unit, course, and curriculum structuring, assessment strategies; application of choreographic principles to course design; the relationship between higher education and the changing dance environment, and understanding the administrative hierarchy in higher ed. Students are observed and mentored in their roles as teachers.

prereq: DANED 76000

Hours 3

Credits 3

MFA Project

The MFA Project (DAN 73700) consists of:

- Development of approximately one hour of new performance work
- Close interaction with faculty as aesthetic and compositional strategies are developed, clarified and implemented
- Preparation of work for public presentation, collaboration with producing partners, including development of PR materials
- Extensive (20-25 pages) written document designed to foster critical self-awareness, effective evaluation skills, and understanding of personal focus, context and functionality in the community of artists as well as the broader cultural landscape

Electives

The 12 credits of electives are chosen from across the college curriculum or approved outside projects according to particular student interests. Independent study with the Dance faculty in ground-breaking research is encouraged.

Integrated Media Arts - MFA

Since its inception in 2002, the IMA Program has offered talented students a media arts education based on a paradigm shift that brings together the traditional fields of documentary film production with emerging areas of new media arts. The IMA Program educates multi-disciplinary, socially engaged media makers in a diverse range of skills across the media landscape. Working with accomplished faculty from film, video and emerging media backgrounds, students learn to conceptualize, create and distribute innovative, politically and socially engaged expression using contemporary media technologies.

The IMA Program offers a 48-credit course of study, combining analytical seminars, interdisciplinary research, and creative workshops in writing, visual communication, and media production, and culminating in an advanced thesis project and paper. Student work in the program has included single channel documentaries, interactive websites, handmade electro-mechanical devices, public exhibitions, interactive installations, transmedia narratives, live performances, and rich media for the expanding spectrum of screen based platforms. Building on a foundation of research and analysis, IMA students explore and create new ways to advance information and ideas, balancing critical
thinking with aesthetics, contemporary issues with an historical perspective, theory with practice, and traditional methods with new technologies.

Admissions Requirements

Students are admitted into the program for fall semester enrollment only. Applications are accepted and reviewed on a rolling basis from February 1st through May 1st. The IMA Program is highly selective, enrolling approximately 20 students each year. Applicants are expected to present the following:

- A bachelor's degree, with no minimum GPA.
- 3 letters of recommendation from people able to comment on an applicant's creative and academic talent and determination.
- A portfolio of media works, indicating talent and promise. Submitted works may include videos and films, interactive digital design, photography, sound, graphic design, journalistic writings, etc.
- A project summary describing a new, non-fiction media project that an applicant could envision making in the IMA MFA Program. Summary should explore creative tools, approach, and form for imagined work that could be developed in an IMA course.
- A personal statement describing the applicant's long-term objectives as a media maker and the social impact they hope their work will have. Statements should also explain why Hunter's MFA Program in Integrated Media Arts is particularly relevant to the applicant's creative goals.
- An official transcript of undergraduate studies.
- A completed graduate application form.
- Applicants whose native language is not English must take the Test of Written English (TWE) component of the TOEFL examination. The program may recommend for admission applicants with lower than required TOEFL scores based on writing samples and interviews that show sufficient proficiency in English to succeed in the program.

Applications reviewed on a rolling basis - through April 1.

For more information see the IMA Program Admission Guidelines http://ima-mfa.hunter.cuny.edu/ima-admissions-guidelines/

Degree Requirements

The 48-credit degree consists of 27 required credits (9 courses), 21 elective credits (7 courses), and several non-credit requirements.

Students must take the following courses

IMA 70000 - Visual Culture Seminar

This course combines self-directed research in visual studies with an introduction to the comparative study of visual culture including approaches from art, media, philosophy and cultural studies contexts. This seminar is a workshop-format research-oriented, criticism-intensive exploration of visual culture methods across media, time periods and critical methods. Students will be asked to develop a Visual Culture Project on a research topic of their own choosing while sharing presentations of readings on topics related to theoretical approaches to visuality drawn from a variety of disciplinary frames designed to give students a broad overview of useful tools for thinking about the visual world.

*Hours 3
*Credits 3

IMA 70200 - History and Theory of Emerging Media
An exploration of the history of digital and Internet-based art, approached through a comparative framework drawn from the aesthetic history of post-war computing, experimental cinema, and contemporary art history.

prereq: IMA 70000 or IMA 70100  
Hours 3  
Credits 3  
Material Fee: $20

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70900 - History and Theory of the Documentary

This course examines canonical films from the first 100 years of documentary filmmaking in their historical and theoretical context, and analyzes the formal and technological innovations of documentary's pioneers. The course also explores the intersections of documentary art with other art forms and considers the opportunities and responsibilities of a documentary storyteller.

prereq: IMA 70000 -or- IMA 70100  
Hours 4 hrs  
Credits 3 cr.

IMA 75000 - Emerging Media 1

This hands-on production course introduces students to the practical fundamentals of visual studies, design, digital graphics and illustration. It is a foundations course in 2D design, illustration and digital imaging. Students are introduced to a range of media production equipment and techniques, including: The history of design, computer graphics, illustration and new media; Issues in visual studies; Image composition, framing, and layout; Typography and text/image relationships; and Basic imaging and vector based illustration software.

Hours 4 hrs  
Credits 3 cr.

IMA 75100 - Documentary 1

This production workshop introduces students to the fundamental techniques, technology, aesthetics and creative approaches of nonfiction video production.

Hours 4 hrs  
Credits 3 cr.

IMA 75200 - Emerging Media 2

This hands-on class teaches you the skills needed to build basic, well-designed websites. Learn how to layout pages, format text, and optimize images for professional-looking web pages. The course covers HTML, CSS, introductory JavaScript and JS Frameworks, corresponding software as well as combination of text and graphics, creating and optimizing GIFs and JPEGs, animated GIFs. Lectures and exercises focus on creating cohesive websites with effective information architecture, well-designed interfaces, interactivity and usability. Throughout the semester readings relating to net culture, tactical media and other creative forms for network spaces will be required.

prereq: IMA 75000  
Hours 4 hrs  
Credits 3 cr.
IMA 75300 - Documentary 2

This workshop guides students through the process of producing and filming a documentary video project. Course work includes researching an idea, writing a proposal and script, developing interview subjects and/or situations for filming, and budgeting, scheduling and shooting the documentary project.

prereq: IMA 75100
Hours 4 hrs
Credits 3 cr.

IMA 75400 - Advanced Studio: Emerging Media

Provides students the opportunity to work on an advanced emerging media project and participate in group and individual critiques with MFA faculty. Particular emphasis will be on helping students prepare for the MFA Thesis Project. Students may repeat this Advanced Studio once with a different project.

prereq: IMA 75200, 75300, 70200, and 70900 -or- approval of instructor
Hours 3 hrs
Credits 3 cr.
-or-

IMA 75500 - Advanced Studio: Documentary

Provides students the opportunity to work on an advanced documentary project and participate in group and individual critiques with MFA faculty. Particular emphasis will be on helping students prepare for the MFA Thesis Project. Students may repeat this Advanced Studio once with a different project.

prereq: IMA 75200, 75300, 70200, and 70900 -or- approval of instructor
Hours 3 hrs
Credits 3 cr.

IMA 78800 - Master of Fine Arts Thesis Project

This capstone project must be completed satisfactorily before graduation. It includes an advanced creative work, a written component, a thesis defense, and exhibition of work in the Thesis Show. Students meet individually with a Primary Thesis Adviser from the department's permanent faculty, along with periodic consultations with secondary and tertiary advisers. The Thesis Project must integrate elements from across the Program's production curriculum and incorporate a critical component.

prereq: Approval of graduate adviser required.
Hours 3 hrs
Credits 3 cr.
Non-matriculated students are never permitted to enroll.

Electives

21 elective credits (7 courses) drawn from advanced IMA course offerings with graduate adviser approval required.

Courses in Integrated Media Arts
Special Topics courses are listed on the IMA MFA Program website (http://ima-mfa.hunter.cuny.edu/current-courses/), including the following:

IMA 78020 Media and Policy in the Digital Age, 3 cr
IMA 78024 Psychogeography, 3 cr
IMA 78032 New Currents in Documentary, 3 cr
IMA 78034 Public Health and Documentary, 3 cr
IMA 780xx Rights and Revisions, 3 cr
IMA 780xx Sound Fields, 3 cr
IMA 78083 Anti-Documentary, 3 cr
IMA 78093 Hybrid Documentary, 3 cr
IMA 78094 Color Aesthetics, Theory, Practice, 3 cr

Additional Tools and Technology Workshops are listed on the IMA MFA Program website (http://ima-mfa.hunter.cuny.edu/current-courses/), including the following:

IMA 78304 Mutable Narrative. 1 cr
IMA 78305 Radicalizing the Local: A Workshop in Activist Public Art. 1 cr
IMA 78306 Taking a Documentary Detour, 1 cr

Students must complete the following non-credit requirements

• **Collaborative Residency**: Students are required to complete a Collaborative Residency, which can be an in-house project or external creative residency that must be defined in conjunction with the graduate adviser and must involve collaboration among different media makers. For more information see the *IMA Program Guidelines*.

• **Critique Sessions**: Students must pass two critique sessions in order to begin work on the Thesis Project. Students who do not pass either the First or Second Critique after three attempts must withdraw from the IMA Program. For more information see the *IMA Program Guidelines*.

• **Thesis Requirements**: To graduate, students have a maximum of two years to complete the creative component of the Thesis Project, present this project to a panel of three advisors in a Thesis Defense, submit a Thesis Paper that is approved by the Primary Thesis Advisor and conforms to the College's guidelines for Master's Theses in Arts & Sciences, and exhibit the Thesis Project in the IMA Program's Thesis Show. For more information see the *IMA Program Guidelines*.

Total for MFA in IMA 48 credits

Notes:

1. Students must fulfill all degree requirements within five years of matriculating.

2. Non-matriculated students require permission of the IMA Program Director and the instructor for enrollment in any IMA course.

**Playwriting MFA**

The Rita and Burton Goldberg MFA in Playwriting is an affordable, selective two-year program that fuses rigorous academic theatre classes with intensive, hands-on writing workshops. Our distinguished playwriting faculty -- Master-Artists-in-Residence ANNIE BAKER and BRANDEN JACOBS-JENKINS, plus Distinguished Lecturer Brighde
Mullins -- work with a small cohort of students who develop their voice, vision, and craft under the personal mentorship of these accomplished writers.

We supplement this program with a wide range of cultural offerings and professional development made possible by our New York City location.

Admissions

Applicants to the Rita and Burton MFA in playwriting are required to have a bachelor's degree; they must submit two letters of recommendation and a full length play or a one act play of at least 40 pages, both as hard copy and as a PDF attachment. An interview is strongly recommended. (Only matriculated students will be eligible to take MFA courses.) Admission will be decided by the Artistic Director and the MFA faculty. The deadline for application is March 15.

Degree Requirements

This two year program encourages playwrights to discover and celebrate their unique voice. Towards that end they’ll be given a thorough grounding in theatre history, dramatic literature, play analysis, and the craft of playwriting as well have the opportunity to take electives in other departments. Well known theatre artists will also be invited in to share their experience and expertise. In conjunction with this academic grounding and focus on individual needs, there will be hands-on workshops in which students learn how to collaborate with actors, directors and designers, culminating in staged readings and full productions of their plays.

Required Courses (27 credits)

**THC 73100 - MFA Playwriting I: The One-Act Play**

This course is designed for experienced playwrights. Students will complete a ten minute play including three rewrites and a new one act play with three rewrites, with attention to the fundamentals of playwriting: Character, Action, Story, Tone. Readings during the semester

Writing Requirements: A ten-minute play and a one-act play in several drafts, a journal, and other writing exercises.

*prereq or coreq: Pre- and/or Corequisites (and/or other special conditions): Students admitted to the MFA program in Playwriting or by special permission of the Instructor

*Hours 3

*Credits 3

**THC 73200 - MFA Playwriting II: The Full-Length Play**

This course is designed for the experienced playwright. Students will complete a new full-length play including one rewrite with attention to the fundamentals of structure as well as giving freedom to their individual voices and the process of rewriting. Forms of Drama will be discussed. Staged readings at completion of the projects.

Writing Requirements: Students will complete a full-length play in several drafts.

*prereq: (and/or other special conditions):

THC 73100 or permission of instructor.
THC 73300 - MFA Playwriting III: Adaptation

Students will write a full length play adapted from fact or fiction, including two rewrites. Students will fulfill readings in plays which have been adapted from other mediums. Students will be required to complete oral presentations of one adapted project in dramatic literature. Production at completion of the semester. Students will be required to present a thesis play proposal.

*prereq: THC 73200 or permission of the instructor*

Hours 3
Credits 3

THC 73400 - MFA Playwriting IV: Final Script for Production

Students will complete a Thesis Masterpiece play including rewrites and culminating in a Final Production.

*prereq: THC 72100 Playwriting III*

*coreq: THC 72400 Production Workshop II*

THC 73500 - MFA Production Workshop I

Development of new scripts through table work, scene work, culminating in staged readings. Working with a community of artists—directors, actors, and dramaturges—through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, and dramaturges.

The class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting and directing.

*prereq: Playwriting II*

*coreq: Playwriting III*

THC 73600 - MFA Production Workshop II

Development of new scripts through table work, scene work, and readings, culminating in works-in-progress performances. Working with a community of artists—directors, actors, designers, and dramaturges—through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, designers, and dramaturges.

This class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting, directing, and design.
prereq: THC 72300 Production Workshop I and THC 721 Playwriting III
coreq: THC 72200 Playwriting IV

THC 75100 - History of Theatre I

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 30 hrs, including conferences,
Credits 3 cr

THC 75200 - History of Theatre II

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 30 hrs, including conferences,
Credits 3 cr

THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

*Hours 30 hrs, including conferences,
Credits 3 cr

Electives (9 credits)

Nine credits are to be chosen from Courses in Theatre

Sample Program of Study

First Semester

THC 75100 - History of Theatre I

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 30 hrs, including conferences,
Credits 3 cr

THC 73100 - MFA Playwriting I: The One-Act Play

This course is designed for experienced playwrights. Students will complete a ten minute play including three rewrites and a new one act play with three rewrites, with attention to the fundamentals of playwriting: Character, Action, Story, Tone. Readings during the semester

Writing Requirements: A ten-minute play and a one-act play in several drafts, a journal, and other writing exercises.

*prereq or coreq: Pre- and/or Corequisites (and/or other special conditions): Students admitted to the MFA program in
Playwriting or by special permission of the Instructor
Hours 3
Credits 3

THC elective: select from the following courses Courses in Theatre

Second Semester

**THC 75200 - History of Theatre II**

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 73200 - MFA Playwriting II: The Full-Length Play**

This course is designed for the experienced playwright. Students will complete a new full-length play including one rewrite with attention to the fundamentals of structure as well as giving freedom to their individual voices and the process of rewriting. Forms of Drama will be discussed. Staged readings at completion of the projects.

Writing Requirements: Students will complete a full-length play in several drafts.

*prereq: (and/or other special conditions): THC 73100 or permission of instructor.*

*Hours 3
Credits 3*

**THC 79000 - Play Analysis**

Study of structural elements of play essential to playwright and director.

*Hours 30 hrs, including conferences,
Credits 3 cr*

Third Semester

**THC 73300 - MFA Playwriting III: Adaptation**

Students will write a full length play adapted from fact or fiction, including two rewrites. Students will fulfill readings in plays which have been adapted from other mediums. Students will be required to complete oral presentations of one adapted project in dramatic literature. Production at completion of the semester. Students will be required to present a thesis play proposal.

*prereq: THC 73200 or permission of the instructor*
THC 73500 - MFA Production Workshop I

Development of new scripts through table work, scene work, culminating in staged readings. Working with a community of artists – directors, actors, and dramaturges – through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, and dramaturges.

The class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting and directing.

_prereq: Playwriting II
_coreq: Playwriting III

- THC elective or Internship: select from the following courses: Courses in Theatre

Fourth Semester

THC 73400 - MFA Playwriting IV: Final Script for Production

Students will complete a Thesis Masterpiece play including rewrites and culminating in a Final Production.

_prereq: THC 72100 Playwriting III
_coreq: THC 72400 Production Workshop II

THC 73600 - MFA Production Workshop II

Development of new scripts through table work, scene work, and readings, culminating in works-in-progress performances. Working with a community of artists--directors, actors, designers, and dramaturges--through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, designers, and dramaturges.

This class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting, directing, and design.

_prereq: THC 72300 Production Workshop I and THC 721 Playwriting III
_coreq: THC 72200 Playwriting IV

- THC elective or Internship: select from the following courses: Courses in Theatre

Studio Art - MFA
Hunter's ideal location in Manhattan offers students and faculty many intellectual, cultural and creative resources. In New York, as nowhere else, the student has access to the changing ideas and forms of contemporary art. This is crucial to the achievement of our educational goal: to develop professional artists capable of continued growth once they leave the relatively structured university environment. The program is designed to offer broad training for the artist in the development of critical and analytical visual thinking as it relates to their work. In this programmatic context students are encouraged to develop their own art through constant peer contact in the studios, individual work with faculty tutors, critical seminars focusing on student work, and classes in the theory, criticism and history of art. Electives in a range of studio practices are also required. In addition, many artists, curators, critics and historians are invited to meet with students.

Admission Requirements

Applications are reviewed once a year. The applicant must have completed at least 24 credits of undergraduate courses in studio art and 9 credits in art history, as well as an undergraduate degree from an accredited institution. Applicants who have a previously completed MFA in art cannot be considered for admission to the studio art program at Hunter College. Applicants must submit the on-line Hunter College Graduate Application for Admission. This application, with all supporting materials, must be submitted prior to the January 15 deadline. In addition, applicants must upload their portfolio and statement of purpose to slideroom.com. Further instructions can be found on the Art Department website at:

http://www.hunter.cuny.edu/art/MFA/mfa_application.htm

The Art Department Graduate Admissions Committee will select finalists for admission to the MFA program. All finalists will be scheduled for an interview. Final decisions will be determined by mid-April.

MFA Application Deadline: January 15 for admission in the following academic year.

Requirements for the MFA in Creative Art (48 cr)

Each candidate for the MFA must select one field of concentration in studio art: painting, sculpture, printmaking/drawing/works on paper, photography, clay & casting, or combined media, and present an MFA project in that area.

Candidates must complete 48 credits, distributed as follows:

- 9 credits of tutorial work;
- 9 credits of seminar work;
- 9 credits of studio electives (exclusive of the area of concentration);
- 9 credits of liberal arts electives in the history, theory, and criticism of art;
- 6 elective credits which may be used for additional art history or studio electives, or non-traditional courses or projects such as apprenticeships, teaching assistantships or participation in the foreign exchange program;
- Mid Program Review: Eligibility to continue to work toward the degree is evaluated by a committee of all MFA faculty in the semester of the second tutorial and seminar.
- 6 credit MFA Thesis Project (ARTCR 79100) completed under the guidance of a faculty Thesis Advisor.

All students are provided individual work spaces in the MFA Studio Building and are required to work in them throughout their residency. There are four floors (approximately 10,000 sq. ft. each) for student studios, seminar rooms, and workshop and exhibition areas. The regular curriculum will be supplemented by a monthly lecture series, providing a forum for the presentation of aesthetic ideas by artists, critics, historians, and resident faculty.

Foreign Exchange Program
Several MFA students are selected each year to receive stipends for a period of one semester at the Glasgow School of Art, Scotland; the Ecole des Beaux-Arts, Paris; the Royal College of Art, London; the Hochschule der Künste, Berlin, Frank Mohr Institute, the Netherlands.

Scholarships and Travel Grants

Among other awards, the Esther Fish Perry Award for outstanding students is given each year to an MFA student in the final year of study. Also, grants from the Tony Smith fund are awarded to selected MFA students upon graduation. Enrolled students are encouraged to apply for the William Graf Travel Grant: approximately two awards of up to $1,200 each are given every semester to an MA and MFA student.

Master of Science - MS

Accountancy - MS

The MS in Accounting program at Hunter College is designed for students who have satisfied the academic requirements for an undergraduate degree in accounting. It will provide intensive training in accounting research, information systems, ethics, and advanced coverage of the core topics in accountancy. Students completing the program will be well equipped for a successful career in accounting. Hunter’s MS in Accounting has been approved by the New York State Department of Education as a CPA licensure-qualifying program for students who have earned a BS in Accounting at Hunter College or an equivalent undergraduate program.

New York State requires all CPA candidates to have completed 150-credit hours in order to sit for the Uniform CPA Examinations. The graduates of the MS program will be able to fulfill this requirement.

The MS program is a 30-credit program consisting of six required courses, two accounting electives, and two non-accounting electives. It can be pursued on a full-time or part-time basis. The program curriculum and admission requirements are outlined below. The accounting faculty within the Economics Department at Hunter College has established a record of teaching excellence, and has produced research of the highest quality within the field of accounting.

Requirements for Admission

A BS degree in Accounting from Hunter College or the equivalent from another regionally accredited college or university with:

- An overall GPA of 2.75 and a GPA of 3.0 in accounting courses

- Two letters of recommendation

- A GMAT score ((Hunter College undergraduates who apply during their senior year are exempt from this).

- A TOEFL score (if an applicant has received all or part of the undergraduate education in a country where English is not the native language).

Students applying with undergraduate degrees other than a BS in Accounting from Hunter may be accepted under the above standards but will need to meet the academic requirements of Hunter's BS in Accounting in addition to the requirements for the MS degree. (The undergraduate requirements include an accounting core comprised of ACC 27100 and 27200, Principles of Accounting I and II; ACC 37100 and 37200, Intermediate Accounting I and II; ACC 47100 and 47200, Advanced Accounting I and II; ACC 28000 and 38000, Business Law I and II; ACC 37400, Cost
Requirements for the Degree

The MS in Accounting program requires a student to earn 30 credits: 18 credits from a required core of six courses, 6 credits in accounting electives, and 6 credits in non-accounting electives, as outlined below. Additionally, a capstone research project will be undertaken as part of the required coursework.

Required courses

The following 3-credit courses are required of all students in the program:

**ACC 77000 - Research Techniques in Accounting**

The course will clarify the nature of accounting research for the student, and survey important research methods and techniques.

**ACC 77100 - Advanced Financial Accounting Theory**

Coverage will include contemporary financial reporting issues as they relate to FASB's conceptual framework, financial statement analysis, and specialized accounting areas such as cash flows, accounting for pensions, and employment benefits.

**ACC 77200 - Accounting Information Systems**

An introduction to information systems as they relate to organizational structure, managerial decision-making, and accounting. Topics include accounting systems and design theory, file structure, and the implementation and evaluation of systems.

**ACC 66000 - Managerial Economics for Accountants**

The decision making process within the firm through the prism of microeconomics. Topics include optimal pricing strategies, demand forecasting, hiring, and investment decisions. Specific analytical and quantitative tools will be developed.

_prereq: ECO 32100* and either ECO 30000 or ECO 60000. The graduate adviser may waive the ECO 30000/60000 requirement in appropriate circumstances_

_Hours 3_

_Credits 3_

* If these courses have not been taken at the time of admission, they may be taken while in the MS program but will not count towards the 30 credits needed to complete the degree.

**ACC 78000 - Business Ethics, Communications, and Research Project**

Ethical issues in accountancy will be covered, as well as ethical concerns in marketing, corporate social responsibility, and global operations. Business communication skills will be developed. A capstone research project will be completed.
**ACC 77500 - Advanced Auditing**

Applies principles covered in undergraduate auditing. Topics include auditing of EDP systems; computer-assisted auditing techniques; and a review of special reports, reports on internal control, accounting and review services; and governmental auditing standards.

**Note(s)**

*The following may be substituted for ECO 66000 with permission of the program adviser.*

**ECO 70100 - Microeconomic Theory**

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

*prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B*  
*prereq or coreq: MATH 15500*

**Electives**

An additional twelve (12) credit hours, selected from among the following 3-credit courses, are also required. Students are required to take two courses from the accounting electives and two from liberal arts (non-accounting electives).

**Accounting Electives**

**ACC 77300 - Advanced Federal Income Taxation**

Coverage will include taxation of estates, gifts, and trusts; advanced topics in corporate and partnership taxation; international tax issues, and tax research techniques.

**ACC 77400 - Advanced Managerial Accounting**

Trains students to help managers obtain and analyze information for decision-making, planning, control and performance evaluation. Topics include new manufacturing environments, cost behavior, inventory costing, budgeting and variance analysis.

**ACC 77600 - Governmental Accounting**

Accounting, reporting, and auditing issues unique to governmental and nonprofit entities, as well as multinational business entities. Special issues related to audits under GAS and for US companies operating internationally will be covered.

**ACC 77700 - State and Local Taxation**

State and local business and personal tax policies of the tri-state region, with an emphasis on New York State and City taxation.
Other (Non-Accounting) Electives

Any other 600- or 700-level course offered by the Hunter College Economics Department may be taken as a non-accounting elective.

Graduate level courses within the Department of Urban Affairs and Planning and the graduate program in Social Research may also be taken as electives.

Biomedical Laboratory Management-MS

The MS in Biomedical Laboratory Management (BLM) is a collaborative offering of the Medical Laboratory Sciences (MLS) Department of Hunter College and the School of Professional Studies, CUNY (SPS/CUNY). The purpose of this degree is to provide a career ladder for laboratory staff. Its focus is the knowledge and skills needed for clinical technologists, research assistants and other technical professionals in biomedical laboratories to move into positions of leadership. This degree does not provide NYS clinical licensure. Full details can be found at MS in Biomedical Laboratory Management (BLM).

Admission Requirements

See general graduate admission requirements for Hunter programs.

You must meet the following minimum requirements in order to be considered for admission. Meeting these minimum requirements does not guarantee acceptance to the program.

• A bachelor's degree in clinical lab science, biology, chemistry or a related discipline from a regionally accredited institution comparable in standard and content to a bachelor's degree from Hunter College.

• Minimum undergraduate grade point average of 3.0

• A course (or equivalent experience) in Molecular Biology (pre- or co-requisite)

• A minimum of one year of bench experience in a biomedical laboratory

• Two letters of recommendation from appropriate academic or professional references.

• A statement of purpose of approximately 500 words, including a bit about the path that brought you to this degree, and your motivation to pursue opportunities for a position in laboratory management.

• The GRE is not required for admission.

• Applicants whose native language is not English and who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit scores on the Test of English as a Foreign Language (TOEFL). The following minimum scores must be obtained:

  • Paper Based Test: 550

  • Computer Administered Test: 213

  • Internet Based Test: 60 (less speaking component)

Curriculum
The required 30 credits are divided between Hunter College, offering science and biomedicine classes, and the School of Professional Studies, CUNY, offering business and management classes. The MS degree will be granted by Hunter College following transfer of courses making up the Advanced Certificate in Management from SPS/CUNY.

Required courses from Hunter College are:

- Concepts of Disease: Diagnostic Strategies (MLS 70000)
- Emerging Laboratory Technologies (MLS 70100)
- Topics: Biohazards and Emergency Response (MLS 40066/MLS 77025)
- Management Practicum (MLS 71000)
- Risk Management for the Biomedical Laboratory (MLS 72000)

Courses from Hunter that may be used to fulfill the 6 credit elective requirement are:

- Graduate Independent study (MLS 77000)
- Principles of Epidemiology (PH 75300)
- Introduction to Biostatistics (PH 75000)

The SPS certificate requires 9 credits (the required courses are shown below).

- Financial Management (MGMT 681)
- Organizational Behavior (ORG 680)
- Human Resource Management (MGMT 680)

In addition, the following courses from SPS may be used to fulfill the 6 credit elective requirement:

- Health Care Administration (HCA 600)
- Evaluation of Healthcare Policy (HCA 603)
- Labor-Management Relations (LABR 603)

Communication Sciences: Speech-Language Pathology - MS

The 68-credit Speech-Language Pathology (SLP) curriculum leading to an MS degree prepares individuals to become speech-language pathologists working in hospitals, rehabilitive centers, college or university clinics, health-care agencies, specialized clinical settings, or private practice and prepares students for professional practices in preschools, elementary and secondary schools, and early-intervention developmental centers. Successful completion of the SLP curriculum prepares students to meet the academic and clinical requirements for ASHA certification, New York State licensure, and recommendation for NY State certification as a teacher of students with speech and language disabilities (TSSLD). Additional requirements for certification following graduation include the completion of a clinical fellowship year and passage of PRAXIS examination in Speech Language Pathology. Students seeking TSSLD additionally must take the New York State Teacher Certification Examinations: Academic Literacy Skills Test (ALST) and Educating All Students Test (EAS) in addition to completion of the Dignity For All Students Act (DASA) workshop.

The program is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association.

Admission Requirements

Hunter College maintains only electronic processes for Graduate Admissions. Applicants are responsible for creating an admissions account and correctly submitting the following:
• Official transcripts from undergraduate and graduate schools verifying completion of degrees, GPAs and coursework
• GRE scores
• Two letters of recommendation
• Narrative statement

Visit Hunter College's Graduate Admissions page for more information regarding the application process.

Individuals wishing to matriculate into the COMSC program must demonstrate completion of 45 credits of prerequisite coursework in Communications Sciences and Disorders as well as Liberal Arts and Sciences.

The breakdown of the prerequisite coursework is outlined below.

Fifteen credits of foundations courses in Communication Sciences and Disorders are required. Each of the following must be at least 3 credits.

• Introduction to Language
• Anatomy and Physiology of Speech Mechanisms
• Phonetics of American English
• Introduction to Speech Pathology
• Introduction to Audiology
• Language Acquisition

Thirty credits in Liberal Arts and Sciences courses are required of each applicant. Applicants should review catalog descriptions of courses they have taken to ensure correct matching of the following requirements:

• Biological science (3 credits)—examples are botany, biology, ecology, genetics, marine biology, nutrition, physiology, zoology
• Physical science (3 credits)—examples are chemistry, physics, earth science, oceanography, geology, astronomy, weather
• Mathematics or Statistics (3 credits)—examples are algebra, calculus, trigonometry, statistics (remedial, historical, or methods courses do not fulfill this requirement)
• Behavioral and/or social science (6 credits)—(study that pertains to understanding normal/abnormal human behavior, development across the life span, social interaction, and issues of culturally diverse populations)—examples include anthropology, criminology, sociology, psychology, human behavior, cultural diversity, gender issues
• English (6 credits)—at least 3 credits of intensive writing
• U.S. history or political science (3 credits)
• Art (3 credits)—examples include pottery, painting, drawing, theater performance, dance, musical instrument performance, art or music appreciation
• Language other than English (3 credits)—American Sign Language, Spanish, French, German, Hebrew, Arabic, Greek, etc.

When applying to become a matriculated student applicants should understand:

• Courses must be taken at an accredited college or university
• At least a B grade is necessary for all prerequisite coursework
• Advanced Placement (AP) credit will be accepted; however, AP must be recorded on the student's official undergraduate transcript(s)
• Pass/fail grades will not be considered as having fulfilled the Communication Sciences or Liberal Arts and Sciences prerequisite requirements
• Being a native speaker of a language will not fulfill the language requirement; the language requirement must be documented on an official transcript
• College-Level Examination Program (CLEP) scores will not be considered as having fulfilled admissions requirements
If unsure that a class meets a prerequisite course requirement, students applying to the SLPA Program may wish to include with their application a catalog description and/or syllabus for that course.

Suggested Curriculum

Fall 1 (15 credits)

**COMSC 70000 - Introduction to Research Methods**

Introduction to basic research design and techniques used to study basic and applied communication science. Included is an overview of basic concepts and terminology, with emphasis on developing the ability to form a reasonable critical assessment of published literature. The course will focus on the development of technical writing skills, conducting thorough and efficient library and Internet research, the interpretation of graphical information, and a working understanding of common statistical models.

*prereq: none
*Hours 45  
*Credits 3

**COMSC 70500 - Acoustics, Physiologic and Auditory Phonetics**

A comprehensive overview of basic phonetic science, as well as a foundation for its application to clinically relevant issues; basic concepts and terminology associated with the scientific study of the production, structure, transmission, and perception of the speech signal; acquisition, measurement and interpretation of physical data; speech and voice acoustics, aerodynamics, glottography, and kinematics.

*prereq: COMSC 70800
*Hours 45  
*Credits 3

**COMSC 71100 - Models of Language**

Designed to further the understanding of the nature of language acquisition process as it pertains to the field of speech/language pathology. By surveying the various scientific proposals with respect to language learning, the student will gain a richer understanding of how language learning might be interrupted. The student will gain exposure to an interdisciplinary approach to the notion of language learning.

*prereq: none
*Hours 45  
*Credits 3

**COMSC 71200 - Neural Processes of Communication**

Neuroanatomy of normal processes and disorders of speech, swallowing, language, vision, hearing, emotion, cognition and communication; development of the human nervous system; neurological disorders and their effects on communication processes.

*prereq: none
COMSC 72000 - Clinical Methods in Speech-Language Pathology

This course is an introduction to the scope and essentials of clinical practicum across the life span as reflected in the management of speech and language disorders in pediatric and adult populations. Basic clinical methods and procedures will be emphasized, including the development of the skills to select therapy targets, develop session plans, generate behavioral objectives and write SOAP notes. 25 hours of clinical observation (external to the course hours) are included. Completion of workshops in reporting child abuse and violence protection in the classroom will be required.

coreq: COMSC 70000, 70800, 71100, 71200

Spring 1 (15 credits)

COMSC 71600 - Phonological Development and Disorders

Anatomical/physiological, cultural and psychological aspects of articulatory and phonological development and disorders; methods of prevention, assessment and intervention across the range of severity and etiology; impact of phonological disorders on acquisition of literacy; collaboration with teachers in management.

prereq: COMSC 72000

COMSC 71700 - Language Disorders in Children

Language and communication disorders and differences in children from infancy through adolescence, including specific language impairment, pervasive developmental delay, autism and mental retardation, cognitive and social aspects of communication, variation in severity and type of disorders; management of children requiring special education as mandated by Federal Law; implications of early language disorders on literacy acquisition, assessment and intervention; cultural diversity issues; interdisciplinary strategies for intervention for children with communication challenges within the home, preschool, school, and community settings.

prereq: COMSC 71100

COMSC 72600 - Adult Neurogenic Communication Disorders

Neurological, linguistic, cognitive and psychological aspects of acquired communication disorders across the life span, including aphasia, traumatic brain injury, and dementia; prevention, assessment and intervention across a range of severity and etiology; interdisciplinary collaboration in acute care, home, educational and vocational settings.

prereq: COMSC 71200

COMSC 72800 - Clinical Practicum in Speech-Language Pathology
First-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 728.04, for students in the bilingual extension, designates a special section of COMSC 728 for practicum with Spanish-speaking children eligible for bilingual services.

**prereq:** COMSC 72000, 73300  
**Credits 1 cr**

**COMSC 73300 - Clinical Methods in Speech-Language Pathology: Diagnosis and Assessment**

This course is a continuation of the discussion of the scope and essentials of clinical practicum, as reflected in the identification and assessment of speech and language disorders across the life span. Basic clinical methods and procedures will be emphasized, including the development of the skills related to generating and interpreting diagnostic reports. Students will learn about processes related to the selection, interpretation, and administration of appropriate, client-specific formal and informal assessment tools.

**prereq:** COMSC 72000  
**Hours 30**  
**Credits 2**

**COMSC 75200 - Audiology for Speech-Language Pathologists**

This course provides an overview of topics in audiology that are highly relevant to the professional in speech-language pathology. Specifically, identification, assessment and management of individuals across the life span (newborns through older adults) who have hearing loss and auditory processing disorders and disabilities are topics covered. Particular emphasis will be on the role of speech-language pathologists in aural rehabilitive processes including cochlear implant use and other assistive technologies. Roles and responsibilities of the speech-language pathologist working with professionals in other disciplines as delineated in the Scope of Practice for the profession and the Code of Ethics of the American Speech-Language-Hearing Association are similarly reviewed.

**prereq:** none  
**Hours 45**  
**Credits 3**

**Summer 1 (6)**

**COMSC 73500 - Clinical Methods in Speech-Language Pathology: Reading and Dyslexia**

This clinical seminar addresses typical processes of reading across the life span including pre-literacy skills. Reading disorders in children and adults are discussed; differential diagnosis; therapeutic intervention; the role of the speech-language pathologist in the educational setting; collaboration among reading professionals, school-based curriculum and neuro-rehabilitation.

**Hours 3 hrs**  
**Credits 3 cr.**

**COMSC 77100 - Summer Clinical Practicum in Speech-Language Pathology 1**
First-year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervisor of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practicum and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood and adolescence, as well as with adults.

prereq: COMSC 73300  
Credits 1 cr

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Hours 45 hrs  
Credits 3

Fall 2 (16 credits)

COMSC 70600 - Summative Project I

The intention of this project is for students to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter College will be considered.

prereq or coreq: none  
Hours 30  
Credits 2

COMSC 71900 - Assessment and Management of Dysphagia across the Lifespan

Normal and abnormal swallowing function across the lifespan, clinically known as dysphagia; evaluation, management, and treatment of dysphagia across various neurological, mechanical, and esophageal conditions in infants, children and adults will be emphasized. Interpretation of modified barium swallow (MBS) and fiberoptic endoscopic evaluation of swallow (FEES) studies as well as non-oral options for nutrition/hydration will be addressed.

Hours 60  
Credits 4

COMSC 72400 - Developmental and Acquired Motor Speech and Swallowing Disorders

Disorders of speech resulting from neurologic impairment affecting the motor programming (apraxia) or neuromuscular execution (dysarthria) of speech in infants, children, and adults; assessment and therapeutic management strategies in social, educational and vocational settings.

prereq: none
COMSC 72700 - Voice Disorders

The identification, assessment, diagnosis, and management of dysphonia and related laryngeal disorders; an overview of the functional, congenital, psychogenic, trauma-related, organic and neurogenic disorders that can affect vocal function, respiration, and resonance. The role of stroboscopy, glottography, aerodynamic and acoustic measures in the assessment of phonatory disorder is discussed and a survey of treatment techniques and strategies for voice patients is discussed. An off-campus trip to an ENT/voice lab in the metropolitan area will be scheduled for later in the semester.

prereq: COMSC 70800, 71200

COMSC 72900 - Clinical Practicum in Speech-Language Pathology 1

Second-year fall semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica or off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 72904 for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish speaking children eligible for bilingual services.

prereq: COMSC 73300
coreq: COMSC 73600
Credits 1 cr

COMSC 73800 - Communication and Developmental Disabilities

This course surveys the communication status of individuals with developmental disabilities (i.e., intellectual disability, autism spectrum disorder, and cerebral palsy) with a focus on evidence-based assessment and intervention practices across the life span.

prereq: none
Credits 3

Spring 2 (16 credits)

COMSC 70300 - Professional Practice in Educational Settings

The multifaceted role of the speech language pathologist in school settings; models of service delivery; collaborative assessment and teaching; computerized teaching programs; national and state legislation and regulations; rights and responsibilities of teachers and other staff; individualized educational planning; language-based learning disabilities; cultural diversity issues including bilingual and multicultural issues; roles of language in academic development and instruction; drug abuse education and fire safety. For successful completion of the course, students must also attend (a) a 2-hour workshop on identifying and reporting suspected child abuse or maltreatment; (b) a 2-hour workshop on school violence prevention and intervention.

prereq: COMSC 72000
COMSC 70700 - Summative Project II

COMSC 70600 and 70700 are designed to facilitate the completion of a summative project. Students are intended to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter college will be considered.

prereq or coreq: none

Hours 30
Credits 2

COMSC 71500 - Communication Processes Related to Aging

Current understanding of adult development and aging as related to communication processes and disorders. Speech, language and hearing changes, as well as social, behavioral, physical and cognitive changes associated with normal and pathological aging processes. Intervention strategies, diagnostic and treatment materials, and audiological equipment for the communicatively impaired elderly population.

prereq: COMSC 70800, 75300

Hours 45
Credits 3

COMSC 72200 - Fluency Disorders

Anatomical/physiological, neurological, psychological, developmental, linguistic and cultural bases of fluency disorders; methods of prevention, assessment and intervention across the life span and range of severity and etiology; management in social, educational and vocational settings.

prereq: COMSC 70800, 71200

Hours 30
Credits 2

COMSC 72300 - Studies in Bilingualism

A survey of classical and contemporary psycholinguistics literature as it pertains to bilingual speakers (both children and adults). The ways in which languages can be acquired and be represented will be reviewed in preparation for understanding how language and communication disorders might manifest in bilingual speakers. Several critical articles on the study of bilingualism will be discussed, under the following headings: (1) psycholinguistics from a cross language perspective, (2) early bilingual development, (3) the bilingual brain, (4) learning to read in more than one script, and (5) the cognitive impact of bilingualism. In addition, students will be engaged in discussions regarding the nature of bilingual language skills, the role of language in second language learning and how these factors impact assessment and treatment of language and communication disorders.

Hours 45
Credits 3
COMSC 73700 - Clinical Methods in Speech Language Pathology: Developmental Disabilities and AAC

This seminar focuses on knowledge and skills in speech-language pathology related to clinical competence and professionalism, clinical interventions, and clinical research with a focus on Developmental Disabilities (DD) (intellectual disability, autism spectrum disorders, cerebral palsy, and others) & Alternative and Augmentative Communication (AAC). Topics discussed include fundamental principles of assessment, diagnostic intervention planning & implementation, data- collection & interpretation, and follow-up assessment for monitoring progress across the lifespan in individuals with developmental disabilities. Presentation of no-tech (unaided communication), low-tech, mid-tech and high-tech AAC supports will be made available.

Hours 4 hrs
Credits 4 cr.

COMSC 73900 - Clinical Practicum in Speech-Language Pathology 2

Second-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence, or adulthood.

prereq: COMSC 72900
coreq: COMSC 73700
Credits 1 cr

Total Credits: 68

TSSLD with Bilingual Extension (Spanish-English)

The Teachers of Students with Speech and Language Disabilities with Bilingual Extension (Spanish-English) option is available to students in the SLP curriculum who meet the admission requirements regarding demonstration of bilingual proficiency. A written and oral Spanish/English proficiency exam is administered to candidates by the Communication Sciences program. The bilingual requirements include an additional 12 credits of coursework:

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.
BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

COMSC 72904 - Clinical Practicum in Speech-Language Pathology 1

for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish-speaking children eligible for bilingual services.

EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in Program 1.

Additional Bilingual Examinations

Students seeking TSSLD with Bilingual Extension are required to take the Bilingual Content Specialty Test (CST). In addition to the requirements for TSSLD, candidates for a bilingual extension must also take two language examinations — one in the target language (Spanish) and the other in English.

Geoinformatics - MS

The MS in Geoinformatics program is an interdisciplinary degree that features courses in Geoinformatics, GIScience, and some GIS application areas. It provides an opportunity to train students in aspects of Geoinformatics not covered by our department's GIS Certificate Program. The MGEOi is a science-based MS program designed to prepare students for management- and advanced research-level employment positions.

As of this writing Hunter's program is one of only two in the country specializing in Geoinformatics. Our program is designed primarily as a professional degree, filling a market need in a well-paid discipline with an emphasis on
technology implementation with an engineering/computer science approach rather than a purely applied use of GIS. Training will include computational aspects of spatial data science such as modeling and programming, remote sensing, visualization, databases, spatial ontologies, spatial statistics, big data, and complexity. Students will have opportunities to explore links with both Geography and Computer Science faculty at Hunter College and with employers and the tech community in the New York metropolitan area.

Students receiving a Master of Science in GeoInformatics must choose one of two program options: the Thesis Option or Exam Option. The Thesis Option is recommended for students who will subsequently pursue a PhD. For other students, either option is acceptable. The program curriculum and other requirements are outlined in subsequent sections. The MS in GeoInformatics requires completing 33 (the Thesis Option) or 37 (the Exam Option) graduate credits within three semesters of full-time study (part-time study is also permitted). Classes vary in their structure from lecture to computer laboratory classes to seminars. Most classes provide hands-on computer experience.

Students are required to form a committee (discussed below) to review and approve their degree, and must choose courses from three groups:

(1) GeoInformatics and GIS core courses (19 credits);

(2) Elective courses in GeoInformatics and GIS or allied fields (e.g., Geography, Computer Science, Urban Planning, Geology, Economics, etc… 12 credits);

(3a) Thesis Option: Students complete an MS Thesis for which they receive a total of two credits

-or-

(3b) Exam Option: Students must pass an exam issued and graded by their committee, submit a research paper that is approved by their committee, and receive 6 credits in coursework approved by their committee.

In addition to traditional courses, students will have the opportunity to participate in an active technology and research seminar series, field trips to local private and public sector GIS groups and research sites, as well as contribute to real-world GIS projects through internal and external mentorship programs. In particular, we are working on an internship model with Manhattan Borough President's Office of New York City.

Admission Requirements

GPA of at least 3.0

GRE exam scores

BA or BS degree

Two letters of recommendation

Personal statement

Students are required to have taken*

An introductory statistics course

Introductory computer science/programming course
Notes:

* Students will have the opportunity to challenge these requirements if they are able to prove proficiency in statistics and/or computer programming.

Foreign students whose first language is not English must also take the Test of English as a Foreign Language (TOEFL) and meet the requirements set by Hunter College. See Graduate Admissions: General

Progress Requirements

Students are expected to maintain a cumulative GPA of at least 3.0 in order to continue in the program.

Curriculum

Core component - 19 credits

**GTECH 70900 - Introduction to Geographic Information Systems**

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management.

*coreq: GTECH 71000*

*Hours 4 hrs.*

*Credits 3 cr.*

**GTECH 71000 - Concepts and Theories in Geoinformatics**

Theoretical and conceptual foundations of Geoinformatics and Geographic Information Science.

*coreq: GTECH 70900*

*Hours 60 hrs including conference (2 lectures, 2 labs), Credit 3*

*Fall and Spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.*

*Material Fee: $15*

**GTECH 73200 - Advanced Geoinformatics**

Expansion of GTECH 70900 and GTECH 71000 concentrating on advanced concepts in Geoinformatics, including data models, algorithms, GIS analysis and scripting.

*prereq: GTECH 70900 and GTECH 71000*

*Hours 45 hrs including conference, Credits 3 cr*

*Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.*
Material Fee: $15

GTECH 70200 - Quantitative Methods in Geography

Application of scientific methods to geographic research, including sampling, distribution measurement, characterizing relationships, multivariate analysis, and a strong focus on computational modeling statistical relationships using either R or Python.

_prereq: Permission by instructor
Hours 3 hrs
Credits 3 cr.

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 71200 - Remote Sensing of Environment

Fundamental concepts of remote sensing of environment, satellite sensor systems and their applications, and basic concepts of image analysis.

_prereq: GTECH 71100 or permission of the instructor
Hours 60 hours (2 lecture and 2 hour labs weekly),
Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 73100 - GeoComputation I

A comprehensive course in programming that concentrates on object-oriented programming methods and algorithms specific to geographic and cartographic applications.

_prereq: GTECH 71000 or equivalent
Hours 6
Credits 4

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

Elective component (Topic tracks) - 12 credits

The curriculum for the elective component is relatively open although the program suggests several specialized tracks for developing expertise in specific areas of GeoInformatics. These tracks are informal designations and students may switch tracks or combine multiple tracks at any time in consultation with the program adviser and relevant faculty. We suggest four topic tracks that would help students focus the program according to their needs: 1) Spatial Data Analytics
Spatial Data Analytics and GeoVisualization track is designed for students who are interested in the analysis and exploration of geospatial information. This track focuses on core computational statistical methods as well as tools and techniques for effectively conveying research findings, in both static and interactive formats. The track includes the six required courses as well as

**GTECH 72100 - Introduction to Cartographic Design and Geovisualization**

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

*prereq: GTECH 70900*

*Hours 4 hrs*

*Credits 3 cr.*

*Material Fee: $15*

**GTECH 72200 - Advanced Topics in GeoVisualization**

This course immerses students in animated and interactive maps, web mapping, and new visualization techniques.

*prereq: GTECH 70900*

*Hours 4 hrs*

*Credits 3 cr.*

**GTECH 70500 - Spatial Data Analysis**

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

*prereq: one course in statistics and permission of the instructor*

*Hours 60 hrs including conference (2 lectures, 2 labs),*

*Credits 3 cr*

*GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.*

*Material Fee: $15*
GTECH 73300 - GeoComputation II

Theory and applications of GeoComputing. Models and algorithms for advanced spatial and temporal modeling are examined and programmed. Emphasis is on an object-based computational paradigm and spatial data structures.

prereq: GTECH 73100 and GTECH 73200 and permission of the graduate adviser
Hours 3
Credits 3
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

2. GeoComputational Modeling and Remote Sensing

The GeoComputational Modeling track is designed for students interested in spatial-temporal modeling and algorithm development. Students will acquire expertise in the development of conceptual models, turning them into computational models (i.e., data structures and algorithms), and validating the results of those models. A range of spatial-temporal models will be examined, programmed and applied to real-world problems that often require "big data" solutions.

GTECH 73300 - GeoComputation II

Theory and applications of GeoComputing. Models and algorithms for advanced spatial and temporal modeling are examined and programmed. Emphasis is on an object-based computational paradigm and spatial data structures.

prereq: GTECH 73100 and GTECH 73200 and permission of the graduate adviser
Hours 3
Credits 3
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing

Quantitative processing of digital imagery; enhancement, information extraction, classification; algorithms, registration, rectification; and Light Detection and Ranging (LiDAR) technology and principles and applications; lab exercises.

prereq: GTECH 71200 multivariate stat, elem linear algebra
Hours 6
Credits 3
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 72100 - Introduction to Cartographic Design and Geovisualization

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.
GTECH 70900
Hours 4 hrs
Credits 3 cr.
Material Fee: $15

GTECH 785XX - GIS Applications

GIS Applications in various fields such as Social Geography, Urban Geography, and more.

prereq: GTECH 71000 or equivalent or permission of the department
Hours 3
Credits 3

GTECH 70500 - Spatial Data Analysis

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

prereq: one course in statistics and permission of the instructor
Hours 60 hrs including conference (2 lectures, 2 labs),
Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

3. Distributed and Web-based GeoComputation

The Distributed and Web-based GeoComputation track is designed for students interested in GeoWeb services, spatial data infrastructures, cloud computing, location-based services, and Big Geospatial Data. The track focuses on the use and development of these technologies, including OGC[1] web services, map service setups for raster and vector tiles, as well as distributed computing solutions such as MapReduce and Hadoop.

GTECH 73300 - GeoComputation II

Theory and applications of GeoComputing. Models and algorithms for advanced spatial and temporal modeling are examined and programmed. Emphasis is on an object-based computational paradigm and spatial data structures.

prereq: GTECH 73100 and GTECH 73200 and permission of the graduate adviser
Hours 3
Credits 3

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 73400 - GeoWeb Services

This course will examine the principles of GeoWeb services in a hands-on fashion. Students will learn about the different standards that are being used in the context of the GeoWeb. They will be introduced to different commercial and open source software solutions and learn how to set up, manage, and use these services. Students will explore the
different technologies introduced in class in the lab assignments. Each student will present a topic to the class based on
readings provided by the instructor. In the second half of the semester, each student will work on a project that involves
the setup and use of GeoWeb services. Basic programming skills in any language are a prerequisite for this course.

**prereq:** GTECH 73100 GeoComputation I
**Hours** 3 hrs.
**Credits** 3 cr.

**GTECH 73500 - Location Based Services**

This course will examine the principles of Location Based Services (LBS) in a hands-on fashion. Students will learn
how to design, implement, and test an LBS application in a group project. Therefore, basic programming skills in any
language are a prerequisite for this course. The course will be highly interactive in two ways: Each student will present
a topic to the class based on readings provided by the instructor, and each student will participate in the group work to
develop a working LBS by the end of the semester. For this purpose, mobile devices (iPhones, Android phones, Google
Glass) will be provided.

**prereq:** One of the following:
- GTECH 70500 Spatial Data Analysis
- GTECH 73100 GeoComputation I
- CSCI 13500 Software Design and Analysis I
**Hours** 3 hrs.
**Credits** 3 cr.

**4. Applied GIS and Management**

The Applied GIS and Management track provides students with knowledge and skills necessary for taking the GISP
(Geographic Information Systems Professional) exam administered by the GIS Certification Institute. The goal of this
concentration is to help students fast track into positions in GIS management. As part of their education, they work
with and learn from current GIS managers to look beyond the technical realm and understand GIS in a larger
institutional context.

**GTECH 70800 - Seminar in GeoInformatics**

This seminar is an introduction to the wider GeoInformatics field/industry. Students will be exposed to a number of
professionals and researchers in the NYC area, and each student will be required to organize their own speaker from the
community. The goals of this seminar course are twofold: to introduce students to the wider GeoInformatics
community, and to promote networking and lasting interactions with local and regional GeoInformatics professionals.
Students will identify, approach, and invite local and/or regional GeoInformatics professionals to give a talk in one of
the weekly seminar sessions for this course. Each student will be responsible for bringing in a speaker, and at the end of
the course, the student will be required to discuss the speaker's work, and the research, news, or information that the
speaker presented.

**Hours** 1 hr.
**Credits** 1 cr.

**GTECH 73400 - GeoWeb Services**

This course will examine the principles of GeoWeb services in a hands-on fashion. Students will learn about the
different standards that are being used in the context of the GeoWeb. They will be introduced to different commercial
and open source software solutions and learn how to set up, manage, and use these services. Students will explore the
different technologies introduced in class in the lab assignments. Each student will present a topic to the class based on readings provided by the instructor. In the second half of the semester, each student will work on a project that involves the setup and use of GeoWeb services. Basic programming skills in any language are a prerequisite for this course.

prereq: GTECH 73100 GeoComputation I
Hours 3 hrs.
Credits 3 cr.

GTECH 73500 - Location Based Services

This course will examine the principles of Location Based Services (LBS) in a hands-on fashion. Students will learn how to design, implement, and test an LBS application in a group project. Therefore, basic programming skills in any language are a prerequisite for this course. The course will be highly interactive in two ways: Each student will present a topic to the class based on readings provided by the instructor, and each student will participate in the group work to develop a working LBS by the end of the semester. For this purpose, mobile devices (iPhones, Android phones, Google Glass) will be provided.

prereq: One of the following:

GTECH 70500 Spatial Data Analysis
GTECH 73100 GeoComputation I
CSCI 13500 Software Design and Analysis I
Hours 3 hrs.
Credits 3 cr.

GTECH 79900 Thesis credit (1cr.)

Additional requirements

Thesis option (2 credits and a thesis)

Two required courses and completion of a thesis

GTECH 70800 - Seminar in GeoInformatics

This seminar is an introduction to the wider GeoInformatics field/industry. Students will be exposed to a number of professionals and researchers in the NYC area, and each student will be required to organize their own speaker from the community. The goals of this seminar course are twofold: to introduce students to the wider GeoInformatics community, and to promote networking and lasting interactions with local and regional GeoInformatics professionals. Students will identify, approach, and invite local and/or regional GeoInformatics professionals to give a talk in one of the weekly seminar sessions for this course. Each student will be responsible for bringing in a speaker, and at the end of the course, the student will be required to discuss the speaker's work, and the research, news, or information that the speaker presented.

Hours 1 hr.
Credits 1 cr.

GTECH 79900 - Thesis Credit (1 credit/1 hour)

Thesis approval and expectation
• Formal approval of a proposal for thesis research is also required. The student's committee determines whether the proposal is of a breadth, depth, and quality consistent with the expectations for a master's degree thesis.
• A thesis of a breadth, depth, and quality consistent with the expectations for a master's degree thesis prepared in a format conforming with Hunter College guidelines. The student's committee determines whether the thesis is acceptable.

Exam option (6 credits, exam, and research paper)

• An additional six credits of GTECH or outside courses.
• A passing grade on the comprehensive examination conducted by the student's graduate committee.
• A research paper of a breadth, depth, and quality consistent with expectations for a master's degree student prepared in the format of Transactions in GIS or its equivalent.

MS Nutrition: Integrated Program in Nutrition & Dietetics (IPND)

Nursing: Adult-Gerontology Clinical Nurse Specialist (42 cr.) - MS

Faculty Coordinator: Christine Cutugno, ccutugno@hunter.cuny.edu
The program prepares nurses to assume an advanced practice nursing role as an Adult-Gerontology Clinical Nurse Specialist in a variety of health care settings, from acute care to home care. Nurses who earn this degree are preparing themselves for advanced practice positions in medical-surgical specialties within acute or skilled nursing facilities or in community-based nursing services.

Through course work, supervised practicum hours (500 hours) and carefully selected electives, students develop broad clinical knowledge in the assessment and clinical management of patients across the adult life span in acute and chronic care settings. Practicum placements are offered in a wide variety of medical-surgical specialty settings. There is also a strong focus on the consultative component of the CNS role, incorporating education and patient care improvement content throughout the curriculum. Students also have an opportunity to participate in programs aimed at serving the target adult population and promoting policy changes in the health care delivery system. Graduates of the program meet educational requirements for specialty certification by the American Nurses Credentialing Center (ANCC).

International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.

Nursing Core Courses: 12 credits

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45*  
*Credits 3*

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course*  
*Hours 45*  
*Credits 3*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45*  
*Credits 3*

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**
Advanced Practice Core: 9 credits

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

*prereq: NURS 70200, Advanced Nursing Research*

**Hours 3 hrs.**

**Credits 3 cr.**

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

*prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice*

**Hours 3 hrs.**

**Credits 3 cr.**

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

*prereq: NURS 75000*

**Hours 2 hours lecture, 2 hours lab**

**Credits 3 cr.**

Specialization Courses: 15 credits

**NURS 76100 - Clinical Leadership in Nursing I**

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

*prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900*

*prereq or coreq: NURS 71700, NURS 75000, NURS 75100*

**Hours 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars,**

**Credits 5**

**NURS 76600 - Adult- Gerontology Clinical Nurse Specialist I**
This Adult-Gerontology Clinical Nurse Specialist (CNS) program will assist students to develop specialized knowledge in the management of complex adult patients with select acute and chronic diseases. Role expectations and implementation of the CNS competencies are explored. Students are expected to develop a broader understanding of professional CNS practice competencies and clinical practice issues from classroom sessions and during supervised clinical placements in diverse settings.

**NURS 76100**

**Hours** 30 hours theory, 15 hours seminar, 167 hours clinical practicum

**Credits** 5

**NURS 76700 - Adult-Gerontology Clinical Nurse Specialist II**

Using a nursing science framework, this course emphasizes intervention strategies and health care protocols for complex multisystem health problems and human responses of adults and older adults in a variety of health care settings. Supervised practicum continues to provide opportunities to integrate previous learning experiences. Strategies for evaluating the outcomes of care interventions from a leadership perspective are emphasized through the final capstone project. Students will demonstrate an in depth ability to utilize case studies integrating pathophysiology, advanced assessment, pharmacotherapeutics, and evidence-based standards of care to plan for and achieve positive patient outcomes for selected patients with an emphasis on the older adult. Strategies to interpret the adult-geriatric CNS role in health care to other health care providers and the public are discussed.

**prereq: NURS 76600**

**Hours** 30 hours theory, 15 hours seminar, 167 hours clinical practicum

**Credits** 5

**Electives: 6 credits**

**Nursing: Community/Public Health Nurse-MS**

(42 credits)

**Specialization Coordinator: Judith Aponte, jap@hunter.cuny.edu**

The program prepares advanced public health nurses who can assume leadership roles in community and population health in a variety of settings, including community-based programs, clinics and public health agencies. Students learn to apply advanced knowledge and research findings to practice through coursework and 500 hours of supervised clinical experience. Graduates of the program meet the educational requirements for board certification as Advanced Public Health Nurses by the American Nurses Credentialing Center.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

**Nursing Core Courses: 12 credits**
NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45
*Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course
*Hours 45
*Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45
*Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

*Hours 45
*Credits 3

Public Health Core Courses: 9 credits

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq: No prerequisites required.
*Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.
prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.

PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Specialization Courses: 15 credits

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

Electives: 6 credits
Nursing: Gerontological/Adult Nurse Practitioner - 42 cr. MS

Coordinator: Mary Hickey

This specialization prepares nurses to provide primary care for adults and older adults in the community and in a variety of health care settings. Students learn to apply expert knowledge and research findings through coursework and 735 hours of supervised clinical experience. Graduates of the program meet the educational requirements for national board certification as adult nurse practitioners and gerontological nurse practitioners by the American Nurses Credentialing Center and the American Academy of Nurse Practitioners Certification Program. They are also eligible for New York State NP certification.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

Nursing Core Courses: 12 credits

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45*
*Credits 3*

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course*

*Hours 45*
*Credits 3*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45*
*Credits 3*

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

*Hours 45*
*Credits 3*
Advanced Practice Core: 9 credits

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

*prereq: NURS 70200, Advanced Nursing Research*
*Hours 3 hrs.*
*Credits 3 cr.*

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

*prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice*
*Hours 3 hrs.*
*Credits 3 cr.*

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

*prereq: NURS 75000*
*Hours 2 hours lecture, 2 hours lab*
*Credits 3 cr*

Specialization Courses: 18 credits

**NURS 75500 - Primary Care Nursing I**

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

*prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100*
*Hours 3 hours/week lecture 1 hour/week seminar*
*Credits 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)*

**NURS 75700 - Primary Care Nursing II**

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and
provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

*prereq: NURS 75500*

*Hours* 3 hours /week lecture 1 hour /week seminar

*Credits* 6: 3 credits theory (45 hours /semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

**NURS 76800 - Primary Care Nursing III**

This is the last in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly, and function as a licensed independent practitioner. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide primary care in various settings. Experiences are intended to assist the student attain advanced level direct care competencies and function in the role of independent nurse practitioner.

*prereq: NURS 75700*

*Hours* 3 hours /week lecture; 1 hour/week seminar

*Credits* 6: 3 credits theory (45 hours) 1 credit seminar (15 hours) 2 credits clinical (210 hours)

**Electives: 3 credits**

**Nursing: Master of Sciences**

**The Master of Science program at the Hunter-Bellevue School of Nursing offers the following specializations:**

Nursing: Gerontological/Adult Nurse Practitioner - 42 cr. MS  
Nursing: Clinical Nurse Leader-MS  
Nursing: Community/Public Health Nurse-MS  
Nursing: Advanced Public Health Nurse/Urban Public Health-MS/MPH (Dual Degree Program with School of Urban Public Health)  
Nursing: Adult-Gerontology Clinical Nurse Specialist (42 cr.) - MS  
Nursing: Psychiatric Nurse Practitioner (48 cr.)-MS

**Admission Requirements**

In addition to meeting the general requirements for graduate admission to Hunter College, applicants to the School of Nursing master's degree programs must meet the following requirements. (Please note that these are the minimum requirements to be considered for admission; meeting them does not guarantee admission).

1. Completion of an accredited baccalaureate program in nursing.
2. A cumulative undergraduate GPA of 3.0. (An applicant with an undergraduate GPA below 3.0 may be considered for admission as a nonmatriculated student. Nonmatriculated students may be considered for admission to matriculated status after completion of 9-12 graduate nursing credits with a cumulative GPA of at least 3.0).

3. New York State registered nurse licensure and current registration.

4. Completion of a basic statistics course. (An applicant who does not meet this requirement may be admitted conditional on completing a statistics course by the end of the first semester).

5. Professional résumé listing education and relevant work experiences.

6. Statement of purpose clearly identifying why the applicant seeks admission to the particular specialization to which she or he is applying.

7. Applicants for the dual-degree MS / MPH program also meet requirements for admission to the MPH program.

8. Applicants for the dual-degree MS / MPA program must also meet requirements for admission to the Baruch MPA program, including GRE scores. (Applicants may request a waiver of the GRE requirement based on an undergraduate GPA of at least 3.0).

International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.

**Nursing: Psychiatric Nurse Practitioner (48 cr.)-MS**

**Faculty Coordinator:** Cheryl Zauderer, PhD cz449@hunter.cuny.edu.

This program prepares nurses for roles as advanced practice registered nurses delivering psychiatric and mental health services. Psychiatric/mental health practitioners provide mental health treatment, preventive services, consultation and leadership in hospitals, clinics, community settings and private practice. Through coursework and 600 hours of supervised clinical experience, students learn to provide these services autonomously and in collaboration with other mental health professionals. Graduates of this program meet the educational requirements for board certification by the American Nurses Credentialing Center. They are also eligible for New York State NP certification.

International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.

**Foundations of Nursing Practice: 12 credits**

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45\nCredits 3*

**NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice**
This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

**NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner**

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

Hours 45
Credits 3

**NURS 74600 - Epidemiology of behavioral health and community mental health**

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

Advanced Practice Core: 21 credits

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**
Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

*prereq: NURS 70200, Advanced Nursing Research
*Hours 3 hrs.
*Credits 3 cr.

**NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness**

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

*prereq: NURS 70000, NURS 78400
*coreq: NURS 71700, NURS 71900
*Hours 15 hrs.
*Credits 1 cr.

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course
*Hours 45
*Credits 3

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

*prereq: NURS 75000
*Hours 2 hours lecture, 2 hours lab
*Credits 3 cr

**NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General**

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

*prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800
coreq: NURS 75100, NURS 71700
*Hours 45 hrs.
*Credits 3 cr.
NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
Hours 3 hrs.
Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 77700, NURS 77800
coreq: NURS 75000

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:
1) common mental disorders including etiology, theories, and epidemiology;
2) diagnostic evaluation of each disorder;
3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600
coreq: NURS 75100, 71700, 74800
Hours 30 hrs.
Credits 2 cr.

Specialization Courses: 15 credits

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the clinical competency of psychiatric–mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900
**NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice**

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

*prereq: NURS 70200, NURS 77700, NURS 77800*

**Hours** 45

**Credits** 3

---

**NURS 77900 - Family & Group Theories & Therapeutic Modalities**

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

*prereq: NURS 70200, NURS 77700, NURS 77800*

**Hours** 30 hrs.

**Credits** 2 cr.

---

**NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I**

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

*prereq: NURS 78100*

**Hours** 22.5 hours - Seminar, 315 hours – Clinical

**Credits** 4.5 cr.

---

**NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II**

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

*prereq: NURS 78200*
Total: 48 Credits

MS Psychiatric Mental Health Nurse Practitioner Program Outline:

Full time study Proposal

Year 1:

Semester 1

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45
Credits 3*

**NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice**

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

*coreq: NURS 70000
Hours 15 hours
Credits 1 cr.*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45
Credits 3*

**NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner**
This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

*coreq: NURS 70000
Hours 15 hours
Credits 1 cr.*

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

*Hours 45
Credits 3*

**NURS 74600 - Epidemiology of behavioral health and community mental health**

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

*Hours 15 hrs.
Credits 1 cr.*

**Semester 2**

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3*

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

*prereq: NURS 70200, Advanced Nursing Research
Hours 3 hrs.
Credits 3 cr.*

**NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness**

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.
NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000
Hours 2 hours lecture, 2 hours lab
Credits 3 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800
coreq: NURS 75100, NURS 71700
Hours 45 hrs.
Credits 3 cr.

Year 2:

Semester 1

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology;

2) diagnostic evaluation of each disorder;

3) interventions for each disorder in order to provide age-appropriate care.

prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600
coreq: NURS 75100, 71700, 74800
Hours 30 hrs.
Credits 2 cr.

NURS 75000 - Advanced Pharmacotherapeutics
Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

**prereq:** NURS 71700, Advanced Pathophysiology for Nursing Practice

_Hours 3 hrs._

_Credits 3 cr._

**NURS 71900 - Psychopharmacology**

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

**prereq:** NURS 70200, NURS 77700, NURS 77800

**coreq:** NURS 75000

**NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice**

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

**prereq:** NURS 70200, NURS 77700, NURS 77800

_Hours 45_

_Credits 3_

**NURS 77900 - Family & Group Theories & Therapeutic Modalities**

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

**prereq:** NURS 70200, NURS 77700, NURS 77800

_Hours 30 hrs._

_Credits 2 cr._

**NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)**

This course advances the clinical competency of psychiatric–mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the
process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

prereq: NURS 77700, NURS 77800, NURS 77900
Hours 15 hrs.
Credits 1 cr.

Semester 2

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100
Hours 22.5 hours - Seminar, 315 hours – Clinical
Credits 4.5 cr.

Year 3:

Semester 1

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200
Hours 22.5 hours –Seminar, 315 hours - Clinical
Credits 4.5 cr.

Part time Study Proposal

Year 1:

Semester 1

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing
NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

Semester 2

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

NURS 74600 - Epidemiology of behavioral health and community mental health
This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45
Credits 3

Year 2:

Semester 1

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70200, Advanced Nursing Research

Hours 3 hrs.
Credits 3 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800

coreq: NURS 75100, NURS 71700

Hours 45 hrs.
Credits 3 cr.

Semester 2

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention
This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

1) common mental disorders including etiology, theories, and epidemiology;

2) diagnostic evaluation of each disorder;

3) interventions for each disorder in order to provide age-appropriate care.

**prereq:** NURS 70000, 78400, 70400, 73700, 74900, 74600

**coreq:** NURS 75100, 71700, 74800

**Hours** 30 hrs.

**Credits** 2 cr.

---

**NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness**

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

**prereq:** NURS 70000, NURS 78400

**coreq:** NURS 71700, NURS 71900

**Hours** 15 hrs.

**Credits** 1 cr.

---

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

**prereq:** NURS 75000

**Hours** 2 hours lecture, 2 hours lab

**Credits** 3 cr.

---

**Year 3:**

**Semester 1**

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

**prereq:** NURS 71700, Advanced Pathophysiology for Nursing Practice

**Hours** 3 hrs.

**Credits** 3 cr.

**NURS 71900 - Psychopharmacology**
This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

**prereq:** NURS 70200, NURS 77700, NURS 77800

**coreq:** NURS 75000

**Semester 2**

**NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice**

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

**prereq:** NURS 70200, NURS 77700, NURS 77800

**Hours** 45

**Credits** 3

**NURS 77900 - Family & Group Theories & Therapeutic Modalities**

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

**prereq:** NURS 70200, NURS 77700, NURS 77800

**Hours** 30 hrs.

**Credits** 2 cr.

**NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)**

This course advances the clinical competency of psychiatric–mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

**prereq:** NURS 77700, NURS 77800, NURS 77900

**Hours** 15 hrs.

**Credits** 1 cr.
Year 4:

Semester 1

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100
Hours 22.5 hours - Seminar, 315 hours – Clinical
Credits 4.5 cr.

Semester 2

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200
Hours 22.5 hours - Seminar, 315 hours - Clinical
Credits 4.5 cr.

Nutrition - MS

The MS in Nutrition offers a choice of four tracks.

Nutrition Track I-MS IPND Track is designed for individuals seeking to attain the RD credential. The MS DPD in Nutrition is an accredited didactic program in dietetics (DPD), completion of which certifies eligibility to apply for a dietetic internship. Graduates of the NUTR-MS program may work as nutritionists in a wide variety of health care facilities including hospitals and public health agencies.

Nutrition Track II MS Academic DI (36 credits) for students who have completed a Dietetic Internship in an academic/collegiate setting

Nutrition Track III MS External/Non-Academic DI (30 credits) for students who have completed a Dietetic Internship in a non-college/external setting such as a hospital or other health care facility.

Nutrition Track IV MS Focused Study (36 credits) encompasses core and major elective classes and a culminating experience. The anticipated student audience includes nutrition professionals (RDNs) with a BS degree, and current or graduated students with undergraduate degrees in nutrition, biology, allied health, etc. The curriculum allows elective course multi-disciplinary flexibility for integrative, focused study to this broad student audience. The Nutrition
Program will foster partnerships with other majors at Hunter and other universities to enrich academic opportunities for students in this track.

Admission Requirements

1. Undergraduate degree in any field from an accredited university with a GPA of at least 3.0 preferred.

2. The Graduate Record Examination General Test (quantitative, verbal, written) or a prior master's degree from an accredited U.S. university.

3. At least 30 credits in the following undergraduate or graduate-level basic science and math courses: one semester each of undergraduate courses in introductory foods science, introductory nutrition, general chemistry (with lab), organic chemistry (with lab), microbiology (with lab), and statistics or calculus, and two semesters of anatomy and physiology (with lab).

Academic Requirements and Course Distribution

41 credits as follows:

**NUTR 70500 - Nutrition and Biochemistry**

The structure and metabolism of macro- and micronutrients, kinetics and regulation of enzymes; energetic of biochemical reactions.

**NUTR 71500 - Food Service and Management**

An overview of good service operations and theories, functions and tasks of management

**NUTR 72000 - Community Nutrition Education**

Nutrition programs and materials for health promotion in the community.

**NUTR 72500 - Nutrition Research**

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

**NUTR 73100 - Human Nutrition and Metabolism**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

Prereq: NUTR 70500

**NUTR 73200 - Advanced Nutrition II**
Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

**prereq:** NUTR 73100

**NUTR 73300 - Nutrition and Human Development**

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

**NUTR 73400 - Clinical Nutrition I**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

**prereq:** NUTR 73100

**NUTR 73500 - Clinical Nutrition II**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

**prereq:** NUTR 73400

**NUTR 74600 - Nutrition and Disease**

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

**coreq:** NUTR 74700

**NUTR 74700 - Advanced Nutrition and Assessment Laboratory**

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of various population groups.

**coreq:** NUTR 74600

**NUTR 75600 - Food Science and the Environment**

Scientific principles of food and food ingredients: composition, function, regulation, safety, quality, testing, processing, packaging, formulation, production and evaluation of foods.

**coreq:** NUTR 75700

**NUTR 75700 - Food Science and the Environment Laboratory**

Laboratory experience with the chemical and physical properties of food components.

**coreq:** NUTR 75600

**Credits 1**

**NUTR 76000 - Practicum**
Nutrition and food science-related fieldwork in hospitals, schools, laboratories, and community-based organizations designed to provide opportunities to apply knowledge and skills gained from the classroom education to professional practice.

prereq: completion of 27 credits in NUTR

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.

*Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.*

**Comprehensive Exam**

All graduate students in the MS-Nutrition Program will be required to take a comprehensive exam to demonstrate understanding of the DPD course content. This exam will be given in the last semester of the program and will serve as the final exam in the Practicum course. The exam will be a multiple-choice exam that is similar in style to the ADA national registration exam for dietitians. In order to obtain the Verification Statement, a student must score at least 75% on the comprehensive exam and maintain good standing in the department. If a student scores < 75% on the exam, then the student will be allowed to retake the exam.

**Nutrition Track I-MS IPND Track**

This MS curriculum meets the requirements of a Didactic Program in Dietetics (DPD) and is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND). Upon completion of a DPD (Didactic Program in Dietetics), students must complete a Dietetic Internship (DI) and only then can they sit for the national Registered Dietitian Nutritionist (RDN) Exam.

**Prerequisite Requirements**

- General Chemistry w/lab, 4 credits
- Organic Chemistry w/lab, 4 credits
- Anatomy and Physiology I w/lab, 4 credits
- Anatomy and Physiology II w/lab, 4 credits
- Microbiology, 3 credits
- Biochemistry (3 credits)
- Intro to Nutrition*, 3 credits
- Intro to Food Science* I, 3 credits
- Intro Statistics or higher, 3 credits
- Any Economics, Psychology, Anthro, or Sociology class, 3 credits

TOTAL 34 prerequisite credits (students can take courses with a higher credit value)

*Can be taken as self-study for no credit with a challenge exam given by Hunter Nutrition 3x per year. Science prerequisites require a minimum grade of C. Nutrition/Food Science prerequisites require a minimum grade of B or 80% for the challenge exam.*
NUTR MS DPD/Nutrition Courses

(41 credits; 3 credits; each unless otherwise noted)

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq: No prerequisites required.*

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

**NUTR 71500 - Food Service and Management**

An overview of good service operations and theories, functions and tasks of management.

**NUTR 72000 - Community Nutrition Education**

Nutrition programs and materials for health promotion in the community.

**NUTR 72500 - Nutrition Research**

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

**NUTR 73300 - Nutrition and Human Development**

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

**NUTR 73100 - Human Nutrition and Metabolism**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

*prereq: NUTR 70500*

**NUTR 73200 - Advanced Nutrition II**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

*prereq: NUTR 73100*

**NUTR 73400 - Clinical Nutrition I**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73100*
NUTR 73500 - Clinical Nutrition II

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73400

NUTR 74600 - Nutrition and Disease

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

coreq: NUTR 74700

NUTR 74700 - Advanced Nutrition and Assessment Laboratory

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of various population groups.

coreq: NUTR 74600

NUTR 74800 - Nutrition Assessment & Counseling

Nutrition assessment in humans, including anthropometric, biochemical, clinical, and dietary assessment; the application of principles of communication and counseling skills.

prereq: NUTR MS matriculant
Hours 3 hrs
Credits 3 cr.

NUTR 75600 - Food Science and the Environment

Scientific principles of food and food ingredients: composition, function, regulation, safety, quality, testing, processing, packaging, formulation, production and evaluation of foods.

coreq: NUTR 75700

NUTR 75700 - Food Science and the Environment Laboratory

Laboratory experience with the chemical and physical properties of food components.

coreq: NUTR 75600
Credits 1

NUTR 78000 - Capstone

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the Nutrition MS program. Students will complete either a project, research/review paper, or a manuscript.
prereq: Completion of at least 18 credits of graduate coursework toward the MS Nutrition degree

Hours Variable 3-6 hrs
Credits Variable 3-6 cr. with a maximum of 6 cr.

Dietetics Courses

(12 credits; 3 credits each)

**NUTR 70000 - Seminar in Dietetics Practice**

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

Open to dietetic internship (DI) students only.

**NUTR 70100 - Pre-Professional Practice in Dietetics: Clinical**

Supervised externship in clinical dietetics and classroom discussions of readings and field experiences.

Open to DI students only.

**NUTR 70200 - Pre-Professional Practice in Dietetics: Food Service**

Supervised externship in food service and personnel management, and classroom discussions of readings and field experiences.

Open to DI students only.

**NUTR 70300 - Pre-Professional Practice in Dietetics: Community**

Supervised externship in community nutrition and classroom discussions of readings and field experiences.

Credits 3
Open to DI students only.

Comprehensive Exam (no credit)

Total credits required for degree: 53 credits

**Nutrition Track II MS Academic DI**

This track is for students who have completed a Dietetic Internship in an academic/collegiate setting (36 credits) where 12 graduate DI credits can be transferred toward the MS.

(courses 3 credits each unless otherwise noted)

**NUTR Core Courses (6 credits)**

**PH 75000 - Fundamentals of Biostatistics**
Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.  
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

**NUTR 72500 - Nutrition Research**

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

**NUTR Experiential Practice Courses (12 credits)**

**NUTR 70000 - Seminar in Dietetics Practice**

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

*Open to dietetic internship (DI) students only.*

**NUTR 70100 - Pre-Professional Practice in Dietetics: Clinical**

Supervised externship in clinical dietetics and classroom discussions of readings and field experiences.

*Open to DI students only.*

**NUTR 70200 - Pre-Professional Practice in Dietetics: Food Service**

Supervised externship in food service and personnel management, and classroom discussions of readings and field experiences.

*Open to DI students only.*

**NUTR 70300 - Pre-Professional Practice in Dietetics: Community**

Supervised externship in community nutrition and classroom discussions of readings and field experiences.

*Credits 3*

*Open to DI students only.*

**NUTR Specialization/Major Electives (15 credits)**

**NUTR 72000 - Community Nutrition Education**

Nutrition programs and materials for health promotion in the community.

**NUTR 73100 - Human Nutrition and Metabolism**
Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

*prereq: NUTR 70500*

**NUTR 73200 - Advanced Nutrition II**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

*prereq: NUTR 73100*

**NUTR 73300 - Nutrition and Human Development**

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

**NUTR 73400 - Clinical Nutrition I**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73100*

**NUTR 73500 - Clinical Nutrition II**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73400*  
- NUTR 73600 Nutrition Assessment & Counseling

**NUTR 74600 - Nutrition and Disease**

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

*coreq: NUTR 74700*

**NUTR 77000 - Topics in Nutrition**

Courses on current topics in nutrition.

*prereq: No prerequisite courses required.*  
*Open to NUTR MS or with departmental permission*  
*Hours 1-6*  
*Credits Variable 1-6 credits, with a maximum of 6 credits.*  
*Offered periodically. Variable credits.*  
- NUTR 78301, 02, 03 Independent Study (1,2 or 3 credits)  
  Other NUTR or other electives approved by advisor

**NUTR Culminating Experience (3 credits)**
NUTR 78000 - Capstone

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the Nutrition MS program. Students will complete either a project, research/review paper, or a manuscript.

*prereq: Completion of at least 18 credits of graduate coursework toward the MS Nutrition degree

*Hours Variable 3-6 hrs

*Credits Variable 3-6 cr. with a maximum of 6 cr.

Total credits required for degree: 36

or

Academic DI Non-Degree

NUTR Experiential Practice Courses (12 credits)

NUTR 70000 - Seminar in Dietetics Practice

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

*Open to dietetic internship (DI) students only.

NUTR 70100 - Pre-Professional Practice in Dietetics: Clinical

Supervised externship in clinical dietetics and classroom discussions of readings and field experiences.

*Open to DI students only.

NUTR 70200 - Pre-Professional Practice in Dietetics: Food Service

Supervised externship in food service and personnel management, and classroom discussions of readings and field experiences.

*Open to DI students only.

NUTR 70300 - Pre-Professional Practice in Dietetics: Community

Supervised externship in community nutrition and classroom discussions of readings and field experiences.

*Credits 3

*Open to DI students only.

Nutrition Track III MS External/Non-Academic DI
This track is for students who have completed a Dietetic Internship in a non-college/external setting such as a hospital or other health care facility. The 30 credit track encompasses core and elective classes and a culminating experience.

NUTR Core Courses (6 credits)

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq: No prerequisites required.*

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

NUTR 72500 - Nutrition Research

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

NUTR Specialization/Major Electives (21 credits)

NUTR 72000 - Community Nutrition Education

Nutrition programs and materials for health promotion in the community.

NUTR 73100 - Human Nutrition and Metabolism

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

*prereq: NUTR 70500*

NUTR 73200 - Advanced Nutrition II

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

*prereq: NUTR 73100*

NUTR 73300 - Nutrition and Human Development

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

NUTR 73400 - Clinical Nutrition I

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73100*
NUTR 73500 - Clinical Nutrition II

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73400

NUTR 74600 - Nutrition and Disease

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

coreq: NUTR 74700

NUTR 74800 - Nutrition Assessment & Counseling

Nutrition assessment in humans, including anthropometric, biochemical, clinical, and dietary assessment; the application of principles of communication and counseling skills.

prereq: NUTR MS matriculant
Hours 3 hrs
Credits 3 cr.

NUTR 77000 - Topics in Nutrition

Courses on current topics in nutrition.

prereq: No prerequisite courses required.
Open to NUTR MS or with departmental permission
Hours 1-6
Credits Variable 1-6 credits, with a maximum of 6 credits.
Offered periodically. Variable credits.

NUTR Culminating Experience (3 credits)

NUTR 78000 - Capstone

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the Nutrition MS program. Students will complete either a project, research/review paper, or a manuscript.

prereq: Completion of at least 18 credits of graduate coursework toward the MS Nutrition degree
Hours Variable 3-6 hrs
Credits Variable 3-6 cr. with a maximum of 6 cr.

Total credits required for degree: 30

Nutrition Track IV MS Focused Study
NUTR Core Courses (6 credits)

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq:* No prerequisites required.

Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

**NUTR 72500 - Nutrition Research**

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

NUTR Specialization/Major Electives (select 27 credits)

**NUTR 72000 - Community Nutrition Education**

Nutrition programs and materials for health promotion in the community.

**NUTR 73100 - Human Nutrition and Metabolism**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

*prereq:* NUTR 70500

**NUTR 73200 - Advanced Nutrition II**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

*prereq:* NUTR 73100

**NUTR 73300 - Nutrition and Human Development**

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

**NUTR 73400 - Clinical Nutrition I**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq:* NUTR 73100

**NUTR 73500 - Clinical Nutrition II**
Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73400*

**NUTR 74600 - Nutrition and Disease**

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

*coreq: NUTR 74700*

**NUTR 74800 - Nutrition Assessment & Counseling**

Nutrition assessment in humans, including anthropometric, biochemical, clinical, and dietary assessment; the application of principles of communication and counseling skills.

*prereq: NUTR MS matriculant*

*Hours 3 hrs*

*Credits 3 cr.*

**NUTR 77000 - Topics in Nutrition**

Courses on current topics in nutrition.

*prereq: No prerequisite courses required.*

*Open to NUTR MS or with departmental permission*

*Hours 1-6*

*Credits Variable 1-6 credits, with a maximum of 6 credits.*

*Offered periodically. Variable credits.*

Other NUTR or Biology or other electives approved by adviser

**NUTR Culminating Experience (3 credits)**

**Total credits required for degree: 36**

**Social Research - MS**

The Department of Sociology offers an intensive program in social research leading to the master of science degree. The program is designed for individuals who wish to pursue a career in applied social research and related areas, as well as for those who wish to upgrade their research skills. All courses are scheduled in the evening.

Graduates are prepared for professional research positions in business corporations, organizations involved with international development, government agencies and non-profit organizations.

The program offers four broad areas of research application: market research and consumer behavior; media research and analysis; research in international development; and research and policy analysis in the public and nonprofit sector.
Students may focus on one of the program's areas of specialization or, with faculty guidance, develop a customized course of study if a student is interested in an area of research other than those given above.

Students train for careers in research through a combination of course work, research in their areas of specialization, and a supervised internship in a professional research setting. By carrying out a research project during the internship outside the university setting, students gain firsthand experience in the conduct of applied research and familiarity with practical problems in their field of interest. Frequently, agencies and companies providing internships appoint former interns to full-time positions after graduation. Internship sites have included such companies and organizations as Community Service Society; CBS; Children's Television Workshop; numerous state and city agencies; Warnako Corp.; Time-Warner, Inc.; Lou Harris Interactive; Nielsen Corp. and the United Nations. Students who are already working in research positions may use on-the-job projects as the basis of an internship, with permission of the program director.

Students wishing to learn more about the program are encouraged to talk with the Program Director, Professor Howard Lune, who can be reached in the program office in 1601 Hunter West or by email at hlune@hunter.cuny.edu.

Admission Requirements

All applicants must have successfully completed at least 3 credits in statistics at either the undergraduate or the graduate level. Three credits in research methods and a background in sociology or other social science are desirable but not required. General admission requirements for arts and sciences graduate programs apply, including a minimum grade point average of 3.0 and the Graduate Record Exam (GRE) or the Graduate Management Admission Test (GMAT). Applicants who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit minimum scores on the Test of English as a Foreign Language (TOEFL) of 550 on the paper based test or 213 on the computer administered test or 60 (less speaking component) on the TOEFL IBT.

Applicants who do not meet these requirements in full may apply and request special permission to enter after a mandatory personal interview.

Degree Requirements

Completion of the graduate program in social research requires a minimum of 45 credits, which include:

1. Core Courses

**GSR 70800 - Statistics I**

Inferential statistics and introduction to multivariate techniques. Includes use of computer for problem sets.

*prereq: SOC 24100 or equiv
Hours 45
Credits 3

Fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

**GSR 70900 - Statistics II**

Topics covered include analysis of variance, multiple regression and other multivariate techniques.

*prereq: GSR 70800 with grade of B or better
Hours 45*
Credits 3
Spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71000 - Research Methods I

Application of research techniques in qualitative research, field research, participant observation, library research, analysis of textual data.

Prereq: SOC 24100 or equiv or perm instr
Hours 45 hrs,
Credits 3 cr

Fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71100 - Research Methods II

Basic concepts and methods used in survey research, research design, measurement, questionnaire construction, sampling, data analysis.

Prereq: GSR 71000 or permission of instructor
Hours 45 hrs,
Credits 3 cr

Spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 70200 - Contemporary Sociological Theory

Methodological philosophies and findings of major sociological theorists.

Hours 45
Credits 3

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71600 - Workshop in Using Information Technology for Research

Use of the Internet and web for both qualitative and quantitative research; includes search and evaluation strategies, access to full text data bases, and interactive statistical and spatial analysis. Presentation of findings in formats suitable for delivery via the web.

Hours 45 hrs,
Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.
GSR 71700 - Seminar in Applied and Evaluation Research

Theoretical and methodological issues in applied evaluation research; achieving agreement on program goals and qualifying goals.

prereq: GSR 70900, GSR 71000 and GSR 71100

Hours 45 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71900 - Applied Research Seminar

Capstone seminar for the GSR program: students perform data analysis and write a professional research report.

Hours 45
Credits 3
Spring only. Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

2. Electives

Fifteen credits are taken in courses according to the student’s interests. Some may be taken in areas of specialization among GSR courses, some may be selected from courses in other Hunter departments or CUNY colleges. See advisers.

3. Internship Requirements

Degree candidates must work as research interns in public or private organizations for a minimum of three (full-time) or six (part-time) months. A 9-credit sequence based on the internship includes 6 credits for completion of the internship.

GSR 71800 - Research Internship

Completion by matriculated student of a research internship under faculty supervision in an approved private- or public-sector research agency. Internship lasts a minimum of three months (full-time) or six months (part-time). Execution of a research project applying advanced research methods.

Credits 6 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Additional Information

The program can be completed in two years on a full-time basis, or seven semesters on a part-time basis (two courses per semester minimum).
Research Facilities and Affiliations

Graduate social research students have access to college-wide research and computing facilities and libraries of Hunter College, as well as to GSR program facilities, including a social sciences computer lab and a focus group facility.

Course Sequence

The following links provide a recommended model for timely completion of the program. Actual student schedules will depend on student interest and advisement.

- Social Research Recommended Path for Full-Time Study, 2 years
- Social Research, Recommended Paths for Part-Time Study, 3 - 3 1/2 Years

Note(s)

All courses offered by the program are open to students from other graduate programs provided the appropriate prerequisites are met.

Teachers of Students with Speech-Language Disabilities – Bilingual (English-Spanish Extension) MS

Requirements for Admission

In addition to all of the requirements for admission to the TSSLD curriculum, students applying for the bilingual (Spanish and English) extension must pass a Communication Sciences Program-administered evaluation of written and oral proficiency in Spanish and English.

Requirements for the Degree

In addition to all of the TSSLD requirements identified above, students must complete the following Extension requirements:

A. 12 additional credits of coursework:

**EDESL 79620 - Methodology of Teaching English to Speakers of Other Languages**

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

*Hours includes 20 hours fieldwork*

**Credits 4**

**20 hours fieldwork**

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*

**Credits 3 cr**

**BILED 77100 - Psychology of Language Learning and Teaching**
Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: BILED 70100  
Hours 30 hrs plus 5 hrs of fieldwork and lab,  
Credits 2 cr

**BILED 77800 - Instruction Through the Native Language-Spanish**

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100  
Hours 45 hrs plus 10 hrs of fieldwork,  
Credits 3

**B. School-based Language Practicum**

A school-based language practicum (COMSC 72900 for 1 credit) must involve work with Spanish-speaking children eligible for bilingual education services.

**C. NYSTCE Tests for English Language Proficiency**

NYSTCE tests for English Language Proficiency Assessment (LPA) and the Target Language Proficiency Assessment (TLPA).

**Urban Policy and Leadership - MS**

The 36-credit MS in Urban Policy and Leadership contains a flexible curriculum that launches students into the study of cities and the urban environment. The interdisciplinary nature of the program allows students to tailor their education to career aspirations and/or interests of their own choosing. The program is designed to accommodate both full and part time attendees. It can be completed in either two full semesters and a summer session or over a longer period of time. In combining both theory and practice, the program seeks to foster an understanding of urbanism while teaching practical skills to prepare students for the changing urban environment.

Our faculty specializes in a diverse range of urban disciplines with expertise and specializations that include: urban planning and history, governance, education, health, housing, immigration, comparative government, economic development, community advocacy, transportation, environment, law, and integrated technologies. The program boasts a distinguished part-time faculty, bringing years of practical experience and knowledge in both public and non-profit sectors. It is not uncommon to take courses from high level New York City professionals and practitioners.

In order to accommodate the needs and interests of an increasingly diverse student body, the faculty has recently redefined course requirements so that students have more choices in constructing their program. These changes are reflected in the distribution of the requirements listed below.

Our students are drawn from a diverse population locally, nationally and internationally. While most have been out of college for some time and many are already in the midst of their careers, an increasing number are arriving one or two years out of college. Most plan or are pursuing careers in the public and non-profit sectors. Students may substitute...
courses from other departments and/or CUNY schools that more appropriately address their substantive interest for the course listed in each of the Required Disciplines.

Requirements for Admission to the Master of Science in Urban Policy and Leadership

Applicants must meet Hunter’s general graduate admission requirements, except for the Graduate Record Examination, which is not required. Applicants must present at least 12 undergraduate credits in social science with a minimum GPA of 3.0 (although the program may recommend admission to students with lower GPAs when their GRE scores, documentation of professional experience in the field, or graduate-level academic work documents adequate preparation to successfully pursue the degree). Students with relevant undergraduate majors or nonacademic experience may, after consultation with the graduate adviser, request admission with special conditions.

Requirements for the Master of Science in Urban Policy and Leadership

Core Requirements (12 credits)

URBG 79000 - Urban Development Workshop I

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

prereq: permission of the adviser
Credits 6 cr

URBG 79200 - Urban Affairs Capstone

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

prereq: permission of the director/adviser
Hours 45 hrs,
Credits 3 cr

and either

URBG 70000 - Introduction to Urban Policy Processes

An introduction to policy processes in an urban context with attention to issues of formulation, functionality, evaluation and implementation. This is a core requirement for MS students in the public policy track, and an elective for others.

Hours 3 hrs
Credits 3 cr.

-or-

URBG 70100 - Introduction to Organization and Management for the Public and Non-Profit Sectors
An introduction to organizational structures and theories, with attention to the identification and analysis of management challenges that organizations face when seeking to carry out public purposes in urban settings. This is a core requirement for MS students in the non-profit track, and an elective for others.

*Hours 3 hrs
Credits 3 cr.

Required Disciplines (9 credits)

One of Political Structure course and two Methods/Skills courses are required:

**Political Structure Requirement (3 credits)**

**URBG 70200 - Structure of the Urban Region**

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

*Hours 45 hrs,
Credits 3 cr*

**URBG 75800 - Governing the City**

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constrints, suburbanization, and secession and ask, "Is it getting better?"

**URBG 78718 - Political Economy of the City**

The course will explore the framework in which urban policy and development occurs in US urban areas. We will explore the 'anatomy' of the city, that is, to what extent is the physical shape of the city influenced by the interaction between the public and private sectors. Cities, of course, are embedded in larger economic and political settings. Indeed, some would argue that the forces generated in this larger context tend to overwhelm the local political/economic theatre. To this end, the course will examine the extent to which greater national and international political and economic forces impact the shape of cities.

**Methods/Skills Requirement (6 credits)**

**URBG 71000 - Urban Data Analysis**

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,
Credits 3 cr*

**GTECH 70900 - Introduction to Geographic Information Systems**
Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management.

**coreq:** GTECH 71000

*Hours 4 hrs.*

*Credits 3 cr.*

**URBG 71300 - Introduction to Qualitative Research Methods**

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

*Credits 3*

**Specializations (9 credits)**

Students choose one area of specialization from among the three designated areas of specialization that include: urban policy, non-profits, neighborhood development from which nine credits of coursework must be taken. Students with approval of the program adviser may also develop their own specializations.

**Urban Policy**

**URBG 70600 - Introduction to Policy Analysis**

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

*Hours 45 hrs.*

*Credits 3 cr*

**URBG 71000 - Urban Data Analysis**

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs.*

*Credits 3 cr*

**URBG 74100 - Employment Planning and Policies**

Examination of structural changes in American economy and the implications for public policy and planning.

*Hours 45 hrs.*

*Credits 3 cr*

**URBG 74300 - Economic Planning and Policy**
Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

Hours 45 hrs,
Credits 3 cr

**URBP 74700 - Planning in the Budget Process**

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 45 hrs,
Credits 3 cr

**URBG 74800 - Management Control of Nonprofit Organizations**

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

Hours 45 hrs,
Credits 3 cr

**URBG 75000 - Social Planning and Policy**

Examination of major social problems facing urban planners. Review of social planning theories and methods.

Hours 45 hrs,
Credits 3 cr

**URBG 75100 - Educational Planning and Policies**

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

Hours 45 hrs,
Credits 3 cr

URBG/URBP 78700 special topics course can be taken to fill the concentration

**Neighborhood Development**

**URBG 70700 - Graphical Communication for Urban Planners**

Introduction to graphical techniques commonly used to facilitate communication of ideas and information among planners and planning-related professionals.

Hours 45 hrs,
Credits 3 cr

**URBG 72700 - Introduction to Housing**
Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

Hours 45 hrs,
Credits 3 cr

URBG 72800 - Housing and Community Development Seminar

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

prereq: URBG 72700 or permission of the adviser

Hours 45 hrs,
Credits 3 cr

URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

Hours 45 hrs,
Credits 3 cr
Open only to graduate students matriculated in Department of Urban Affairs and Planning

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

Hours 45 hrs,
Credits 3 cr

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

Hours 45 hrs,
Credits 3 cr

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

Hours 45 hrs,
Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.
URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

Hours 45 hrs,  
Credits 3 cr

URBG/URBP 78700 special topics course can be taken to fill the concentration

Non-Profit Sector

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

Hours 45 hrs,  
Credits 3 cr

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 45 hrs,  
Credits 3 cr

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

Hours 45 hrs,  
Credits 3 cr

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

Hours 45 hrs,  
Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation
Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,
Credits 3 cr*

**URBG 75600 - Citizen Participation in Planning and Development**

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,
Credits 3 cr*

URBG/URBP 787 Special topics course can be taken to fill the concentration

**Unrestricted Electives (6 credits)**

In addition, students must complete an additional 6 credits in unrestricted electives.

**Total credits required: 36**

**Additional Courses**

A wide variety of courses are offered each semester in the department, including special topics courses to meet the requirements. Students are encouraged to consult course listings in other departments within Hunter in which to take classes that are in line with their course of study. Up to 9 credits can be taken outside the Department of Urban Affairs and Planning in other departments at Hunter or within the CUNY system.

**Master of Science in Education - MSEd**

**Adolescent Special Education, Grades 7-12 (Generalist) - MSEd**

**Program Coordinator**

Gina Riley  
(212) 396-6921  
1104 West  
griley@hunter.cuny.edu

This master's degree program (Academic Plan: AG712-MSED) is designed to prepare individuals to become special education generalist teachers at the adolescent level. Graduates are eligible for NYS certification in Students with Disabilities Grades 7-12, Generalist, rather than certification in a specific subject area.

**Admission Requirements**
1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. A liberal arts and sciences distributed to include: a minimum of 6 credits in English; 6 credits in political science, history, economics, or geography (with at least one course in history or geography); 6 credits in math (a college course in calculus meets this requirement); 6 credits in science; 3 credits in the arts; 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement); and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. A personal statement.
5. Two letters of recommendation.
6. Submission of scores on the Graduate Record Examination, except applicants who are certified teacher or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

AG712-MSED

Total Credits

36-48

Special Education Courses

SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

Hours 3 hrs
Credits 3 cr
SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000
Hours 45 hours; includes 10 hrs of field experience
Credits 3

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000
Hours 45 hours; includes 15 hrs of field experience
Credits 3

SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000
coreq: current employment as a teacher or enrollment in student teaching
Hours Includes 10 hrs of field experience, 45 hrs,
Credits 3 cr

SPED 70450 - Teaching Culturally and Linguistically Diverse Students

This course is a review of the historical, social, and legal foundations of education as it pertains to special education, education of students including those with limited proficiency in English, and multicultural backgrounds. It is an overview of issues and best practices for teaching students from culturally and linguistically diverse backgrounds who have historically been underserved in educational systems due to language, race, class, or social status within the context of special education.

prereq: SPED 70000 or SPED 70050
Hours 3 hrs
Credits 3 cr

SPED 77100 - Methods of Teaching Reading for Adolescents with Learning Disabilities

This course addresses principles, methods, and specially designed instruction for adolescents with learning disabilities, mild/moderate cognitive impairment, and/or behavior disorders. The focus is on developing literacy through all aspects
of reading, including: developing comprehension, expanding vocabulary, increasing fluency, utilizing phonics, and refining phonemic awareness. Students will learn strategies that support reading at all levels, including: sound, word, sentence, cross-sentence, text body, and text structure, genre, and across content areas.

coreq: SPED 77200
prereq or coreq: SPED 70000
Hours 45 plus 10 field hours
Credits 3 cr.

**SPED 77200 - Supervised Clinical Teaching of Adolescents with Disabilities: Part I**

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities, mild cognitive impairment, and/or behavior disorders from grades 7–12. Focus on specialized reading instruction, math instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 77100
prereq or coreq: SPED 70000
Hours 30 hours of seminar plus 25 field hours
Credits 2 cr.

**SPED 77300 - Math Methods for Adolescents with Disabilities**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

**SPED 77400 - Supervised Clinical Teaching of Adolescents with Disabilities: Part II**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 70000
coreq: SPED 77300
Hours 2 hrs: 15 hours of seminar plus 22 lab/clinical hours
Credits 2 cr

**SPED 77600 - Writing & Executive Function for Adolescents with Learning Disabilities**

In this course students study the practice of teaching all aspects of writing to adolescents with learning disabilities by using various research-based approaches to address: handwriting, spelling, sentence structures, paragraph building, essay writing, and the writing process.

prereq: SPED 70000 or SPED 70050
SPED 78000 - The Study of Learning Disabilities in Children and Adolescents

History of theory, practices and conceptualizations of learning disabilities and mild/moderate mental retardation. Current issues, controversies and research, offering frameworks for appropriate instruction. Includes student characteristics, LD as an approach to teaching, family and cultural needs, as well as services and settings from special schools to supported inclusion.

prereq or coreq: SPED 70000

Hours 45
Credits 3

- Plus -

SPED 77500 - Supervised Student Teaching of Adolescents with Learning Disabilities

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities or mild/moderate intellectual disabilities in grades 7-12. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000 or SPED 70050; SPED 77100; SPED 77200

Hours 3 hrs: 30 hrs of seminar plus conferences plus 60 days student teaching
Credits 3 cr.

- Or -

SPED 77550 - Supervised Practicum: Grades 7-12

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000 -or- 70050; SPED 77100; SPED 77200

Hours 3 hrs: 30 hours seminar, plus conferences plus 60 days student teaching
Credits 3 cr

- Or both of the following -

SPED 77551 - Supervised Student Teaching: Learning Disabilities, Grades 7-12

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000 or SPED 70050; SPED 77100; SPED 77200

Hours 1.5 hrs: 30 hours seminar, plus conferences, plus 30 days student teaching
Credits 1.5 cr
SPED 77552 - Student Teaching: Learning Disabilities, Grades 7-12

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000 or SPED 70050; SPED 77100; SPED 77200
Hours 1.5 hrs: 30 hours seminar, plus conferences, plus 30 days student teaching
Credits 1.5 cr

General Education Courses

EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12

Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing difficulties. Assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

Hours includes 15 hours fieldwork
Credits 3

SEDF 71400 - Adolescent Development and Learning: Grades 7-12

This course prepares teacher candidates to think about how adolescents develop and learn by examining the process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and levels of ability. Emphasis will be placed on creating culturally compatible classrooms, motivating students, and assessing their learning.

Hours 45
Credits 3

SEDC 71600 - Math: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the contents of mathematics programs and curricula in grades 7–12 and will formulate teaching methodology for the meaningful learning of mathematics. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45 hrs
Credits 3

SEDC 71700 - Social Studies: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of social studies programs and curricula in grades 7–12 and will formulate teaching methodology for the meaningful learning of social studies. Strong emphasis will be placed on teaching students with special needs and English language learners.
**Hours 45**  
**Credits 3**

**SEDC 71800 - Science: Curriculum and Methods - Grades 7-12**

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of science programs and curricula in grades 7–12 and formulate teaching methodology for the meaningful learning of science. Strong emphasis will be placed on teaching students with special needs and English language learners.

**Hours 45 hrs**  
**Credits 3**

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

**Hours 15 hrs,**  
**Credits 1 cr**

**Exit Requirements**

1. An overall GPA of 3.0.  
2. Complete the Dignity for All Students Act (DASA) workshop.

**Bilingual Childhood Education, Grades 1-6 - MSEd**

**Program Coordinators**

**Carla Espana**  
(212) 772-4712  
1103 West  
biled@hunter.cuny.edu

**Maite Sanchez**  
(212) 772-4670  
924 West  
biled@hunter.cuny.edu

This graduate program in Bilingual Childhood Education (Academic Plan: CEBIL-MSED) is designed to prepare individuals to become effective teachers with high levels of teaching competencies using two languages of instruction at the childhood grade range. The programs are offered in three languages: Spanish/English, French/English and Chinese/English. The Bilingual Childhood Education program leads to NYS certification in Childhood Education with Bilingual Education Extension.
Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Completion of a satisfactory writing sample in English and in Spanish as part of the application process.
5. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted in English and in Spanish, French or Chinese.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

CEBIL-MSED

Total Credits

37-49

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to
practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100
Hours 75 hrs,
Credits 1 cr

BILED 71700 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

prereq: BILED 77100, CEDCF 70050
Hours 45 hrs,
Credits 3 cr

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: BILED 70100
Hours 30 hrs plus 5 hrs of fieldwork and lab,
Credits 2 cr

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100
Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 78000 - Bilingual Research Seminar

The bilingual research seminar, which serves as the culminating experience, focuses on the relationship between educational research and the classroom teacher. Students will review significant bilingual research to consider the implications of findings for bilingual instruction, and they will initiate their own classroom/community studies to reflect upon their own practice and to become critical consumers of research.

prereq or coreq: 39 credits or permission of program coordinator
CEDC 70000 - The Art of Effective Teaching

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

prereq or coreq: CEDF 70900
Hours includes 5 hrs of fieldwork
Credits 3

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000
Credits 3

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict
resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

_prereq or coreq: CEDF 70900
_Hours 45 hrs,
_Credits 3

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

_prereq or coreq: CEDF 70900 and CEDC 70450
_Hours 30 hrs,
_Credits 2

CEDC 72950 - Fieldwork in Childhood Education for Bilingual Educators

Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

_prereq: CEDF 70900; BILED 70100. Observing and assisting teaching in an elementary school setting
_Hours 15 hrs of seminar plus 50 hrs fieldwork
_Credits 1

CEDF 70800 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing certification in childhood education with a bilingual extension or in TESOL. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

_prereq or coreq: CEDF 70900
_Hours 45 hrs
_Credits 3

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.
SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- And -

Spanish language

BILED 71100 - Bilingual Literacy-Spanish

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

coreq: BILED 71150
prereq or coreq: BILED 77100
Hours 30
Credits 2

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100
Hours 45 hrs plus 10 hrs of fieldwork,
Credits 3

- Or -

French language

BILED 71200 - Bilingual Literacy-French

Bilingual literacy - French: conducted in French and English and will present how to differentiate instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners. The course aims to develop teachers' ability to plan for language, content and literacy skills by designing a thematic integrated literacy unit. The course will assist teachers in understanding how to develop students' oral language, spelling, grammar, and vocabulary.
prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education

Hours 30
Credits 2

**BILED 76800 - Instruction through the Native Language-French**

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

prereq or coreq: BILED 70100 and CEDF 70900 for the MSEd/Childhood Education Grades 1-6 with bilingual extension; for the MSEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100

Hours 45
Credits 3

- Or -

Chinese language

**BILED 71300 - Bilingual Literacy-Chinese**

Bilingual Literacy – Chinese focuses on the development of literacy skills in both English and Chinese for students in bilingual programs. The emphasis is on L1 and L2 literacy using narrative and expository text, technology, and the arts as mediums for developing skills. This course will be conducted in Chinese and English.

prereq or coreq: BILED 77100, BILED 77150

Hours 30
Credits 2

For the Advanced Certificate Leading to an Extension in Bilingual program: the prereq or coreq is BILED 77150

**BILED 76900 - Instruction through the Native Language-Chinese**

To enhance Chinese language skills of teacher candidates for the purpose of teaching content areas in and through Chinese. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Chinese for the bilingual classroom.

Hours 45 hours plus 10 hours of fieldwork
Credits 3
Prereq or Coreq: For the Childhood education Grades 1-6 with a Bilingual Extension program: BILED 70100, CEDF 70900; For the MSEd in Early Childhood Education Birth through Grade 1 with a Bilingual Extension: Program 1, BILED 70100, ECF 70000; Program 2, none; Program 3, BILED 70100; For the Advanced Certificate Leading to and Extension in Bilingual program: none.

-Plus-

**BILED 78200 - Supervised Student Teaching Grades 1–3 and 4–6**

Supervised student teaching at two grade levels in an elementary bilingual setting selected by Hunter College; four full days a week plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C
must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

**prereq or coreq: completion of 39 cr of course work or permission of the program coordinator**

**Hours** 60 days (30 in grades 1-3, 30 in grades 4-6) plus 15 hrs of seminar

**Credits** 4

- Or one of the following -

**BILED 78500 - Student Teaching in Grades 1–3**

Twenty days of supervised student teaching at grade level 1–3 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

**prereq: completion of 39 cr of course work or permission of the program coordinator**

**Hours** 30 days student teaching, 15 hrs of seminar plus conferences,

**Credits** 2 cr

**BILED 78300 - Practicum in Grades 1–3**

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

**prereq: completion of 39 cr of course work or permission of the program coordinator**

**Hours** 15 hrs of seminar plus conferences

**Credits** 2 cr

- And one of the following -

**BILED 78600 - Student Teaching in Grades 4–6**

Twenty days of supervised student teaching at grade level 4–6 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

**prereq: completion of 39 credits of course work or permission of the program coordinator**

**Hours** 30 days student teaching, 15 hrs of seminar plus conferences,

**Credits** 2 cr
BILED 78400 - Practicum in Grades 4–6

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500

prereq: completion of 39 cr of course work or permission of the program coordinator

Hours 15 hrs of seminar plus conferences,

Credits 2 cr

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of B or better in BILED 780 (Bilingual Research Seminar).
3. Complete the Dignity for All Students Act (DASA) workshop.

Bilingual Early Childhood Education, Birth-Grade 2 - MSEd

This graduate program in Bilingual Early Childhood Education (Academic Plan: ECBB2-MSED) is designed to prepare individuals to become effective teachers with high levels of teaching competencies using two languages of instruction at the early childhood grade range. The program is offered in three languages: Spanish/English, French/English and Chinese/English. This program leads to NYS certification in Early Childhood Education with Bilingual Education Extension.

This program offers three tracks (or subplans):

TRACK 1 (Subplans: ECBB2LSPAN, ECBB2LFREN, ECBB2LCHIN) is for those without NYS certification.
TRACK 2 (Subplan: ECBB2OSPAN, ECBB2OFREN, ECBB2OCHIN) is for those with initial certification in Childhood Education, Special Education or TESOL.
TRACK 3 (Subplan: ECBB2ASPAN, ECBB2AFREN, ECBB2ACHIN) is for those with initial certification in Early Childhood Education.

Admission Requirements
Track 1

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. An on-site writing sample in English and in Spanish, French or Chinese.
5. Demonstration of satisfactory oral English and Spanish, French or Chinese through an interview conducted with at least two professors.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Track 2

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or master's degree with GPA of at least 3.5.
2. NYS initial, professional, or permanent certification in Childhood Education, Common Branches Pre-K-6, Special Education, or TESOL.
3. Completion of a satisfactory writing sample in English and in Spanish, French or Chinese.
4. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted with at least two professors.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Track 3

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or master's degree with GPA of at least 3.5.
2. NYS initial certification in Early Childhood Education.
3. Completion of a satisfactory writing sample in English and in Spanish, French or Chinese.
4. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted with at least two professors.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study
Academic Plan

ECBB2-MSED

Subplans

- TRACK 1:
  - SPANISH - ECBB2LSPAN
  - FRENCH - ECBB2LFREN
  - CHINESE - ECBB2LCHIN

- TRACK 2:
  - SPANISH - ECBB2OSPAN
  - FRENCH - ECBB2OFREN
  - CHINESE - ECBB2OCHIN

- TRACK 3:
  - SPANISH - ECBB2ASPAN
  - FRENCH - ECBB2AFREN
  - CHINESE - ECBB2ACHIN

Total Credits

- TRACK 1 - ECBB2LSPAN, ECBB2LFREN, ECBB2LCHIN: 40-52
- TRACK 2 - ECBB2OSPAN, ECBB2OFREN, ECBB2OCHIN: 33-45
- TRACK 3 - ECBB2ASPAN, ECBB2AFREN, ECBB2ACHIN: 30-36

Master's candidates who have completed some pedagogical courses may be exempted from up to 12 credits (Track 2) or 6 credits (Track 3) of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained.

Courses for All Tracks

**ECC 70300 - Early Childhood Curriculum: Birth through Grade 2**

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000*

*Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*

*Credits 3*

**ECC 72000 - Integrative Seminar in Early Childhood Education**

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

*prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)*

*Credits 3*

**BILED 70100 - Foundations of Bilingual Education**
Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

**BILED 71150 - Fieldwork in Bilingual Literacy**

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100
Hours 75 hrs,
Credits 1 cr

**BILED 77100 - Psychology of Language Learning and Teaching**

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: BILED 70100
Hours 30 hrs plus 5 hrs of fieldwork and lab,
Credits 2 cr

**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100
Hours includes 5 hrs of fieldwork
Credits 3 cr

- Plus -

  Spanish language

**BILED 71100 - Bilingual Literacy-Spanish**

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.
coreq: BILED 71150
prereq or coreq: BILED 77100
Hours 30
Credits 2

**BILED 77800 - Instruction Through the Native Language-Spanish**

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100
Hours 45 hrs plus 10 hrs of fieldwork,
Credits 3

- Or -

**French language**

**BILED 71200 - Bilingual Literacy-French**

Bilingual literacy - French: conducted in French and English and will present how to differentiate instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners. The course aims to develop teachers' ability to plan for language, content and literacy skills by designing a thematic integrated literacy unit. The course will assist teachers in understanding how to develop students' oral language, spelling, grammar, and vocabulary.

prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education

Hours 30
Credits 2

**BILED 76800 - Instruction through the Native Language-French**

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

prereq or coreq: BILED 70100 and CEDF 70900 for the MSEd/Childhood Education Grades 1-6 with bilingual extension; for the MSEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100

Hours 45
Credits 3

- Or -

**Chinese language**

**BILED 71300 - Bilingual Literacy-Chinese**

Bilingual Literacy – Chinese focuses on the development of literacy skills in both English and Chinese for students in bilingual programs. The emphasis is on L1 and L2 literacy using narrative and expository text, technology, and the arts
as mediums for developing skills. This course will be conducted in Chinese and English.

prereq or coreq: BILED 77100, BILED 77150
Hours 30
Credits 2
For the Advanced Certificate Leading to an Extension in Bilingual program: the prereq or coreq is BILED 77150

**BILED 76900 - Instruction through the Native Language-Chinese**

To enhance Chinese language skills of teacher candidates for the purpose of teaching content areas in and through Chinese. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Chinese for the bilingual classroom.

Hours 45 hours plus 10 hours of fieldwork
Credits 3
Prereq or Coreq: For the Childhood education Grades 1-6 with a Bilingual Extension program: BILED 70100, CEDF 70900; For the MSEd in Early Childhood Education Birth through Grade 1 with a Bilingual Extension: Program 1, BILED 70100, ECF 70000; Program 2, none; Program 3, BILED 70100; For the Advanced Certificate Leading to and Extension in Bilingual program: none.

- And take either -

**ECC 71650 - Student Teaching in Early Childhood Bilingual Settings**

Two student teaching placements of 30 days each at different age/grade levels (Pre-K–K and 1–2).

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)
Hours 30 hrs of seminar plus 60 days of student teaching
Credits 3

- Or -

**ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting**

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)

Hours 15 hrs of seminar plus conferences,
Credits 1

- And -

**ECC 71850 - Early Childhood Bilingual Student Teaching**

Student teaching for 30 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750. (Not for students who have completed ECC 71650.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)
Additional Courses for Track 1

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels*
*Credits 3*

**ECF 70100 - Social and Historical Contexts of Early Childhood Education**

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs*
*Credits 3*

**ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2**

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000*
*Hours 45 hrs*
*Credits 3*

**ECC 70500 - Language and Literacy: Birth through Kindergarten**

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

*prereq or coreq: ECF 70000*
*Hours 45 hrs*
*Credits 3*

**ECC 70600 - Language and Literacy: K through Grade 2**

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)
ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300
prereq or coreq: ECF 70200
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels
Credits 3

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field
Credits 1

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs
Credits 3

ECC 71400 - Health, Safety and Nutrition in Early Childhood
This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

**prereq or coreq:** ECF 70000  
**Hours 45 hrs**  
**Credits 3**

**ECC 71500 - Educational Technology in Early Childhood**

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

**Hours 15 hrs,**  
**Credits 1 cr**

**Additional Courses for Track 2**

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

**Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels**  
**Credits 3**

**ECF 70100 - Social and Historical Contexts of Early Childhood Education**

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

**Hours 45 hrs**  
**Credits 3**

**ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2**

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

**prereq:** ECF 70000  
**Hours 45 hrs**  
**Credits 3**
ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300
prereq or coreq: ECF 70200
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels
Credits 3

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs
Credits 3

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.
Additional Courses for Track 3

7-13 credits from the courses below based on a transcript review of prior coursework in early childhood education.

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

prereq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300
prereq or coreq: ECF 70200
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels
Credits 3

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3
ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

*Hours 45 hrs
Credits 3

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

*Hours 15 hrs,
Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0
2. Completion of ECC 72000 (Integrative Seminar in Early Childhood Education) with a grade of B or better.
3. Track 2 and 3 students must maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

Blind and Visually Impaired - MSEd

Program Coordinator

L. Beth Brady
(212) 772-4229
929 West
lbrady@hunter.cuny.edu

The School of Education offers graduate programs that prepare students to become teachers of the Blind and Visually Impaired. Graduates of the Blind and Visually Impaired program will be prepared to teach learners who are blind or visually impaired in diverse PreK-12 settings including residential schools for the blind, classroom programs and itinerant teaching settings in public and private schools.

The master's degree in Blind and Visually Impaired offers two programs. Program 1 (Academic Plan: BVI-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and blind and visually impaired. Program 2 (Academic Plan: TCHBL-MSED) is for those who hold NYS certification and leads to single certification in blind and visually impaired.

Admission Requirements

Program 1

For applicants who do not hold NYS certification in Childhood Education
1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5; plus
   A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Program 2

For applicants who hold Early Childhood, Childhood, PreK-Grade 6, Middle Childhood or Adolescent Education NYS certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5; plus
2. NYS initial, professional, or permanent certification in Early Childhood, Childhood, PreK-grade 6, Middle Childhood or Adolescent Education. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 715, a 1-credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate degree.

International applicants who need an F-1 or J-1 Visa are not currently eligible for these programs.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plans

- Program 1: BVI-MSED
- Program 2: TCHBL-MSED

Total Credits
Courses for Programs 1 and 2

SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

Hours 3 hrs
Credits 3 cr

SPED 70250 - Classroom Management in Special Education and Inclusive Settings

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100
Hours Includes 20 hrs of field experience, 45 hrs,
Credits 3 cr

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100
Hours (includes 10 hours of field experience),
Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,
Credits 3 cr
**SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments**

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000  
Hours includes 10 hrs of field experience  
Credits 3 cr

**SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments**

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000  
Hours Includes 10 hrs of field experience  
Credits 3

**SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities**

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000  
Hours Includes 15 hrs of field experience  
Credits 3

**SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments**

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

prereq or coreq: SPED 74000, SPED 74100  
Hours Includes 15 hrs of field experience  
Credits 3

**SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments**
History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

**prereq or coreq:** SPED 74000, SPED 74100

*Hours* Includes 10 hrs of field experience
*Credits* 3

**SPED 74400 - Assistive Technology for Learners with Visual Impairments**

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

**prereq:** SPED 74300

*Hours* 45 hrs,
*Credits* 3 cr

**SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments**

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

**prereq or coreq:** SPED 74000, 74100, 74200, 74300

*Hours* 15 hrs,
*Credits* 1 cr

**SPED 74600 - Educational Implications of Learners Who Are Deafblind**

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

**prereq:** SPED 70000, SPED 79000 or SPED 74100

*Hours* Includes 10 hrs of field experience
*Credits* 3

**SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments**
The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000, 74100  
Hours includes 10 hrs of filed experience  
Credits 3 cr

- Take either -

**SPED 74800 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 12**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired at two grade levels that do not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, adapting sensory environments, selecting appropriate learning media, adapting curriculum through tactile graphics, developing IEPs, and forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100  
Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,  
Credits 4 cr

- Or one of the following -

**SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100  
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,  
Credits 2 cr

**SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.
SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

SPED 74854 - Student Teaching 2: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plan, writing functional vision assessment reports, selecting appropriate learning media, developing IEP’s, forming partnerships with families.

SPED 74855 - Student Teaching 2: Blindness and Visual Impairment, Grade 7–12
Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnership with families.

**prereq or coreq:** SPED 74000, SPED 74100  
**Hours** Structured conferences, plus 20 days student teaching  
**Credits** 1 cr

**SPED 74856 - Supervised Practicum 2: Blind and Visual Impairment Preschool–Grade 6**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placement. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

**prereq or coreq:** SPED 74000, SPED 74100  
**Hours** Structured conferences  
**Credits** 1 cr

**SPED 74857 - Supervised Practicum 2: Blind and Visual Impairment, Grades 7–12**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placement. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

**prereq or coreq:** SPED 74000, SPED 74100  
**Hours** Structured conferences  
**Credits** 1 cr

**Additional Courses for Program 1**

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

**CEDF 70900 - Child Development Grades 1-6**

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

**Hours** includes 5 hrs of field work  
**Credits** 3

**CEDC 70350 - Teaching Science in the Elementary School**
For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

**CEDC 70450 - Teaching Developmental Reading**

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

**CEDC 70550 - Mathematics Curriculum and Methods**

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

**CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology**

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

**CEDC 72900 - Fieldwork in Childhood Education for Special Educators**

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills,
acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue - and either - an original written research proposal - or - a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

Childhood Education Grades 1-6 - MSED

Program Director
Karen Koellner
(212) 772-4675
913 West
kkoellne@hunter.cuny.edu

This program (Academic Plan: CHED-MSED) leads to NYS certification in Childhood Education. It is nationally recognized by the Association for Childhood Education International (ACEI) and prepares teachers for work in NYC public schools. This program is not designed for those with prior NYS certification in Childhood Education; Those who already hold Childhood Education certification should consider our programs in Literacy, Special Education, Early Childhood Education, TESOL, Elementary Math Specialist or Childhood Education STEM Specialization.

The Childhood Education program offers two tracks (or subplans).

- Track 1 (Subplan: CHEDTKONE) is an evening program designed with career changers in mind that allows students to adapt the pace of the program to their needs.
- Track 2 (Subplan: CHEDTKTWO) is a two-year, full-time, daytime, clinically-rich program.

Admission Requirements
1. A bachelor's degree from an accredited institution with a grade point average of at least 3.0.
2. A liberal arts or sciences major (or interdisciplinary concentration) of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

CHED-MSED

Subplans

- Track 1: CHEDTKONE
- Track 2: CHEDTKTWO

Total Credits

- CHEDTKONE: 36-49
- CHEDTKTWO: 53

Track 1

Subplan: CHEDTKONE

CEDC 70000 - The Art of Effective Teaching

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.
CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

CEDC 71300 - Health Education for the Classroom Teacher
The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

**prereq or coreq:** CEDF 70900  
**Hours** 45 hrs,  
**Credits** 3

**CEDC 71500 - Fieldwork: Reading and Social Studies**

Supervised experiences in pedagogical applications of literacy and social studies methods courses. Students will complete six hours of fieldwork per week for a minimum of 75 contact hours per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individual and small groups of children. Students will be placed in Hunter College-selected elementary schools and other educational programs.

**prereq:** CEDF 70900  
**coreq:** CEDC 73000 and 72200  
**Hours** 75 hrs of fieldwork,  
**Credits** 1

**CEDC 72200 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology**

Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

**prereq:** CEDF 70900  
**coreq:** CEDC 71500 and CEDC 73000  
**Hours** 30 hrs,  
**Credits** 2

**CEDC 73000 - Perspectives on Literacy Across the Content Areas**

Literacy across the curriculum. Skills, strategies and techniques to teach reading and writing in the content areas will be developed. Expository as well as narrative texts will be utilized.
CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Credits 3

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Credits 3

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

Credits 3

CEDF 71500 - Diversity in the American School

was intentionally deleted from this edition of the catalog, and is required by track one of academic plan CHED-MSED.

CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

Credits 3

CEDF 79200 - Integrative Seminar: Research in Childhood Education

Students prepare research proposals on topics which summarize and apply previous learnings. Written and oral presentations.

Credits 3
SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Take either -

CEDC 72400 - Student Teaching in Grades 1–3 and 4–6

Supervised student teaching at two grade levels, 1–3 and 4–6, in an elementary school selected by Hunter College; four full days a week plus conferences and professional development workshops.
Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March.

prereq: completion of 31 credits of coursework including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus a minimum of 60 days of student teaching
Credits 5

- Or one of the following -

CEDC 72500 - Student Teaching in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 728: Practicum in grades 4–6. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Not for students who have completed EDC 72400 or 72700.

prereq: completion of 31 credits of coursework including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus 30 days of student teaching
Credits 3

CEDC 72700 - Practicum in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800.
Note: Applications for spring semester student teaching are due in October; applications for fall semester practicum are due in March. Not for students who have completed CEDC 72400 or 72500.

**CEDC 72600 - Student Teaching in Grades 4–6**

Teacher candidates who take this course must also take CEDC 72500 or CEDC 72700. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 72700 Practicum in grades 1–3. Not for students who have completed CEDC 72400 or 72800.

**CEDC 72800 - Practicum in Grades 4–6**

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72700. Note: Applications for spring semester practicum are due in October; applications for fall semester student teaching are due in March. Not for students who have completed CEDC 72400 or 72600.

**Track 2 - Clinically Rich**

Subplan: CHEDTKTWO

**CEDC 70100 - Beginning Elementary Literacy Methods**

Beginning Elementary Literacy Methods is the first of a two-part sequence designed for pre-service graduate teacher candidates as an introduction to the content and procedures used to teach English language arts to elementary students. Students will learn how children develop reading and writing concepts and abilities, become familiar with children's literature, both nonfiction and fiction, and understand current practices of literacy instruction and assessment.

*coreq: This course should be taken with CEDF 70900, CEDC 70500, EDSEL 79600, CEDC 77200 Fieldwork & Teaching Seminar 1.*

*Hours 45*

*Credits 3*
CEDC 70200 - Advanced Elementary Literacy Methods

Advanced Elementary Literacy Methods is the second course of a two-part sequence designed for graduate, pre-service teacher candidates to expand and apply their understanding of the pedagogical strategies and content necessary to teach English language arts to elementary students. In this course, teacher candidates will demonstrate effective literacy instruction through assessing, planning, and teaching elementary students' learning in all facets of literacy and throughout the content areas.

coreq: This course should be taken with CEDF 71000, CEDC 70300, CEDC 70600 Reflective Practice in Elementary School Social Studies Curriculum Development, SPED 70800, CEDC 77300 Fieldwork & Teaching Seminar 2.

Hours 45
Credits 3

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000
Credits 3

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70600 - Reflective Practice in Elementary School Social Studies Curriculum Development

The course addresses the knowledge, skills, and attitudes for teaching the Social Studies curriculum to elementary grade students. This course is designed to introduce the content of the New York State Social Studies curriculum and the national standards for teaching Social Studies (http://www.socialstudies.org/standards/strands/) and focus on multiple instructional strategies to deliver this curriculum. There is an emphasis on integrating children's literature, the arts, and technology into the Social Studies curriculum and on experiencing the kinds of instructional methods and strategies recommended as current best practices for teaching the Social Studies curriculum.

prereq or coreq: To be taken with CEDF 71000, CEDC 70300, CEDC 72200, CEDC 70200, CEDC 77300.
Hours 45
Credits 3

CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on
study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3

CEDC 73900 - Advanced Methods in Elementary School: Mathematics, Science, and Social Studies

This graduate advanced methods builds on and extends the initial methods courses in the areas of mathematics, science, and social studies and also explicitly connects theory from mathematics, social studies, and science methods courses to practice by supporting teacher candidates to design and enact lessons in the context of the elementary school classroom. Students will grapple with the complexities of how students learn content and design/conduct assessments, develop lesson plans and unit plans, and critically reflect on their teaching practice. Students will face the realities of teaching content in schools given the school resources in terms of curriculum and technology and within the curriculum guidelines of the state and district.

prereq or coreq: CEDC 70300, CEDC 70600, CEDC 70500
Credits 3
In order to take this course students have to be accepted into the 'clinically rich' track of the Masters in Childhood Education program that leads to certification.

CEDC 77200 - Fieldwork & Teaching Seminar 1

Fieldwork & Teaching Seminar 1 is the initial experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

coreq: This course should be taken with CEDF 70900, CEDC 70500, CEDC 70100, EDESL 77100.
Hours 30
Credits 2
30 days (field) & 15 hrs (course)

CEDC 77300 - Fieldwork & Teaching Seminar 2

Fieldwork & Teaching Seminar 2 is the second experience in an elementary partner school for the clinically rich track of the graduate childhood program.
prereq or coreq: This course should be taken with CEDF 71000, CEDC 70300, CEDC 70600, CEDC 70200.
Hours 30
Credits 2
30 days (field) & 15 hrs (course)

**CEDC 77400 - Fieldwork & Teaching Seminar 3**

Fieldwork & Teaching Seminar 3 is the third experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDF 71600, CEDC 73900, CEDC 70700, CEDC 71300.
Hours 30
Credits 2
45 days (field) & 15 hrs (course)

**CEDC 77500 - Fieldwork & Teaching Seminar 4**

Fieldwork & Teaching Seminar 4 is the fourth and final experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDC 71000.
Hours 45
Credits 3
75 days (field) & 15 hrs (course)

**CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School**

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Hours 45 hrs
Credits 3

**CEDF 70900 - Child Development Grades 1-6**

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work
Credits 3

**CEDF 71000 - Educational Psychology**

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

prereq: CEDF 70900
CEDF 71500 - Diversity in the American School

Advanced, graduate-level survey of current issues and theories of diversity and their impact upon the contemporary American school. Topics will be from an interdisciplinary perspective with attention to social policy implications.

Hours 45 hrs
Credits 3

CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

Credits 3

EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: EDESL 79600/79610
Hours includes 20 hrs fieldwork in K-12 classrooms
Credits 4

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

Exit Requirements

1. An overall GPA of at least 3.0.
2. Track 1 students only: a grade of B or better in CEDF 792.
3. Complete the Dignity for All Students Act (DASA) workshop.
Childhood Education with a Specialization in Science, Technology, Engineering and Mathematics (STEM) Professional Certificate- MSEd

Program Coordinator

Dennis Robbins
(212) 772-4287
907 West
drobb@hunter.cuny.edu

This program (Academic Plan: CEMSC-MSED) prepares Childhood Education teachers to become better qualified in teaching STEM subjects in the elementary grades. It requires initial NYS certification in Childhood Education and leads to professional certification in that area.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. NYS initial, professional or permanent certification in Childhood Education.
3. A personal statement.
4. Two letters of recommendation including one from a supervisor.
5. Successful completion with a grade of C or better of college level mathematics course and a lab science course. Those who do not meet the mathematics requirement must successfully complete MATH 104 and MATH 105 in the School of Arts and Sciences. Those who do not meet the science requirement must take a one semester course in a lab science (biology, chemistry, physics or geology).
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

CEMSC-MSED
CEDC 71600 - Educational Technology in Mathematics and Science Teaching/Learning

An advanced educational technology course for students concentrating in mathematics and science at the elementary school level. Students will link prior knowledge of instructional technology to curriculum development creating the strategies to design integrated learning materials in mathematics and science.

*Hours 45 hrs.*
*Credits 3*

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

*Hours 45 hrs.*
*Credits 3*

CEDC 74200 - Workshop Seminar in Elementary School Mathematics/Science

The major course goals are to continue to develop a foundation for the growth of the professional mathematics/science educator and to increase the effectiveness as a curriculum decision-maker. Through selective experiences, the course will focus on instructional styles and strategies.

*prereq: all program courses except CEDC 74300*
*Hours 45 hrs*
*Credits 3*

CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

*Hours 45 hrs*
*Credits 3*

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.

*prereq: all program courses except CEDC 74200 and CEDC 74300*
*Hours 45 hrs*
*Credits 3*
**CEDC 74700 - Number Theory and Algebra in Elementary Curriculum**

A study of the underpinnings of Number Theory and Algebra and the role they play in curriculum, teaching and student learning. This course gives participants a deeper understanding of algebra and how students learn transition from arithmetic to algebraic reasoning.

*prereq: The course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.*

*Hours 45 hrs*

*Credits 3*

**CEDC 74800 - Geometry and Measurement in the Elementary**

A study of the underpinnings of Geometry and Measurement and the role they play in curriculum, teaching, and supporting student learning. Topics in Geometry and Measurement are important concepts at the elementary school level and this course gives participants a deeper background in these two areas. Additionally, pedagogical practices important in these areas will be examined as well as a deep study of how students develop these concepts through curriculum, representations, manipulatives, and pedagogical practices will be discussed.

*prereq: This course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.*

*Hours 45*

*Credits 3*

**CEDC 77600 - Planet Earth: Earth and Space Sciences for Elementary School Teachers**

Methods and content of teaching Earth and Space sciences topics to children. The course integrates issues of pedagogy and science content through interactive class meetings. Students will experience hands-on and mind-on science activities appropriate for the grade school level. Courses materials are aligned with K-12 Next Generation Science Standards (2013). All students are expected to learn science content, student's alternative ideas, lesson design and methods of teaching life science.

*Hours 3 hrs*

*Credits 3*

**CEDC 77700 - Physical Science Background for Elementary Teachers**

Concepts in the physical sciences, chemistry and physics necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

*Hours 45 hrs*

*Credits 3*

**CEDC 77800 - Life Sciences**

The methods and content of teaching life science topics to children. The course integrates issues of pedagogy and science content through interactive class meetings. Students will experience hands-on and mind-on science activities appropriate for the grade school level. Courses materials are aligned with K-12 Next Generation Science Standards (2013). All students are expected to learn science content, student's alternative ideas, lesson design and methods of
teaching life science.

**Hours 3**
**Credits 3**

**CEDC 77900 - Robotics and Engineering**

New methods of teaching innovative school curricula in robotics and engineering. Students will design and program their own robotic vehicles and learn elementary school materials by a hands-on process and project work. The curriculum is modeled on the First LEGO League competitions popular at the grade school-level. Engineering is Elementary, a school curriculum to improve children's understanding of engineering principles, is also explored from a student-centered perspective. These new STEM curriculum for elementary schools are supported by K-12 Next Generation Science Standards (2013). All students who enroll in the course will emerge with training to teach these curricula in elementary schools, in informal settings and after school programs.

**Hours 3**
**Credits 3**

**Exit Requirements**

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

**Childhood Special Education: Behavior Disorders - MSEd**

**Program Coordinator**

**Tom McIntyre**  
914 West Building  
(212) 772-4706  
thomas.mcintyre@hunter.cuny.edu

This graduate program (Academic Plan: CSPE-MSED and CSPED-MSED) prepares teacher candidates for effective teaching of students with behavior/mental challenges autism, and learning disabilities. Graduates from the behavior disorders track of the Childhood Special Education program are well prepared to teach in all educational settings, serving in hospitals, clinics, and public, charter, private, and parochial schools. They do so in roles such as collaborative teach teachers (CTT), inclusion support providers ("push in" teachers), head teachers in self-contained classrooms, behavior support personnel, and general education teachers.

The master's degree in Childhood Special Education: Behavior Disorders offers two programs. Program 1 (Academic Plan: CSPE-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and students with disabilities grades 1-6. Program 2 (Academic Plan: CSPED-MSED) is for those who hold NYS certification and leads to single certification in students with disabilities grades 1-6.

**Admission Requirements**

**Program 1**
For applicants who do not hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;  
   or  
   A master's degree from an accredited institution with a GPA of at least 3.5.  
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.  
3. General education core in the liberal arts and sciences to include: artistic expression; communication;  
   information retrieval; concepts in history and social sciences; humanities; a language other than English;  
   scientific and mathematical processes; and written analysis and expression.  
4. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are  
   certified teachers or school administrators and hold a graduate degree.

Program 2

For applicants who hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;  
   or  
   A master's degree from an accredited institution with a GPA of at least 3.5;  
2. NYS initial or professional certification in Childhood Education Grades 1-6 or PreK-grade 6. Those holding  
   permanent certification must either show proof that they have satisfied the New York State requirements  
   regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take  
   HED 71500, a one credit course covering these topics.  
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are  
   certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to  
   remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to  
   at least 3.0 within one semester.  
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two  
   semesters will not be allowed to continue in the program.  
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for  
   any courses.  
4. Key Course Performance Standards  
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by  
     programs, labeled in CUNY First, and noted in the catalog)  
   o Students who receive a grade of F/WU in certain key program courses may not continue in the  
     program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plans

- Program 1: CSPE-MSED  
- Program 2: CSPED-MSED

Total Credits

- CSPE-MSED: 43-55
Courses for Programs 1 and 2

SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

Hours 3 hrs
Credits 3 cr

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000
Hours 45 hours; includes 10 hrs of field experience
Credits 3

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000
Hours 45 hours; includes 15 hrs of field experience
Credits 3

SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000
coreq: current employment as a teacher or enrollment in student teaching
Hours Includes 10 hrs of field experience, 45 hrs,
Credits 3 cr

SPED 70450 - Teaching Culturally and Linguistically Diverse Students
This course is a review of the historical, social, and legal foundations of education as it pertains to special education, education of students including those with limited proficiency in English, and multicultural backgrounds. It is an overview of issues and best practices for teaching students from culturally and linguistically diverse backgrounds who have historically been underserved in educational systems due to language, race, class, or social status within the context of special education.

prereq: SPED 70000 or SPED 70050

Hours 3 hrs
Credits 3 cr

SPED 70550 - Use of Instructional Technology in the Special Education Classroom

This course explores how technology can support students with learning disabilities and behavior disorders. More than simply a "how to" course, this class aims to give teachers the tools needed to best assist their students and evaluate the use of technology in their classrooms. This is a lab course where some of the learning occurs over blocks of time spent in direct experience. Class sessions are: demonstrations; hands-on exploration; feedback; coaching; and direct exploration of both hardware and software, applying them both as teacher tools and as instructional means for students with disabilities.

prereq: SPED 70000 or SPED 70050

Hours 2 hrs
Credits 2 cr

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

prereq or coreq: SPED 70000 or SPEDE 76800

Hours Includes 10 hours of field experience, 45 hrs,
Credits 3 cr

SPED 75000 - The Study of Behavior Disorders

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs.

prereq or coreq: SPED 70000

Hours Includes 20 hrs of field experience

SPED 75100 - Methods and Materials for Teaching Students with Behavior Disorders
Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students.

prereq or coreq: SPED 75000
Hours Includes 20 hrs of field experience
Credits 3

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience

SPED 72350 - Math for Students with Disabilities (Non-LD Specialization)

Principles, methods, and specially designed mathematics instruction for students with disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations

prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

SPED 72450 - Writing for Students with Disabilities (for those not in LD Specialization), Methods 3

In this course, teacher candidates learn methods for teaching all aspects of writing to children with learning disabilities using various research-based approaches that include: letter formation, handwriting, spelling, sentence structures, paragraph building, essay writing, and the writing process.

prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

- PLUS -
ONE OF THE FOLLOWING

SPED 75254 - Student Teaching: Behavior Disorders Grades 1-6 (Part 1)

This student teaching seminar and supervision are intended to provide supported teaching experience through the exploration of methods for differentiation. Teacher candidates will learn how to address the needs of a diverse learning
group, including but not limited to students with Behavior Disorders.

prereq: 18 credits and 1 methods course
Hours 3 hrs
Credits 3 cr

SPED 75255 - Supervised Practicum: Behavior Disorders Grades 1-6 (Part 1)

This student teaching seminar and supervision are intended to provide you with supported teaching experience, to expand your practical knowledge, develop your instructional skills, increase your repertoire of specialized practices, and deepen your responsiveness to students with special learning needs. Through the 83 exploration of methods for differentiation you will learn how to address the needs of a diverse learning group, including but not limited to Behavior Disorders.

prereq: 18 credits and 1 methods course
Hours 3 hrs
Credits 3 cr

- AND -

ONE OF THE FOLLOWING

SPED 75256 - Student Teaching: Behavior Disorders Grades 1-6 (Part 2)

This student teaching seminar and supervision is the first of two semester-long experiences intended to provide supported teaching, practical knowledge, and increased facility with specialized practices for working with students with special learning needs.

prereq: 18 credits and 1 methods course
Hours 3 hrs
Credits 3 cr

SPED 75257 - Supervised Practicum: Behavior Disorders Grades 1-6 (Part 2)

This practicum seminar is intended to provide supported teaching experiences, practical knowledge, and increased facility with specialized practices when working with students with special learning needs.

prereq: 18 credits and 1 methods course
Hours 3 hrs
Credits 3 cr

Additional Courses for Program 1

Students may be exempted from up to 12 credits of the general and special education requirements on the basis of equivalent courses taken at either the graduate or undergraduate level. Students, however, may not be exempted from CEDC 729.

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.
CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900
Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2
CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

*prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

*Hours 15 hrs,
Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 must maintain a valid and appropriate NYS certification in general education.
3. Complete the Dignity for All Students Act (DASA) workshop.
4. EdTPA or "Action Research Project" in second semester of Student Teaching/Practicum.

Childhood Special Education: Learning Disabilities - MSEd

Program Advisors

William Longsworth
943 West Building
(212) 772-4635
wlongswo@hunter.cuny.edu

This graduate program prepares students to teach in Childhood Special Education environments, including self-contained and inclusion settings. Graduates from the learning disabilities program will be able to serve in such roles as inclusion support providers; and as collaborative team teachers with general education teachers in public and private schools, private agencies, hospitals and clinics.

The master's degree in Childhood Special Education: Learning Disabilities offers two programs. Program 1 (Academic Plan: CSPE-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and students with disabilities grades 1-6. Program 2 (Academic Plan: CSPED-MSED) is for those who hold NYS certification and leads to single certification in students with disabilities grades 1-6.

Admission Requirements
Program 1

For applicants who do not hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
2. A master's degree from an accredited institution with a GPA of at least 3.5.
3. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
4. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate.

Program 2

For applicants who hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5;
2. NYS initial or professional certification in Childhood Education Grades 1-6 or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

**Hours** 3 hrs  
**Credits** 3 cr

**SPED 70550 - Use of Instructional Technology in the Special Education Classroom**

This course explores how technology can support students with learning disabilities and behavior disorders. More than simply a "how to" course, this class aims to give teachers the tools needed to best assist their students and evaluate the use of technology in their classrooms. This is a lab course where some of the learning occurs over blocks of time spent in direct experience. Class sessions are: demonstrations; hands-on exploration; feedback; coaching; and direct exploration of both hardware and software, applying them both as teacher tools and as instructional means for students with disabilities.

**prereq:** SPED 70000 or SPED 70050  
**Hours** 2 hrs  
**Credits** 2 cr

**SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

**prereq or coreq:** SPED 70000 or SPEDE 76800  
**Hours** Includes 10 hours of field experience, 45 hrs  
**Credits** 3 cr

**SPED 78000 - The Study of Learning Disabilities in Children and Adolescents**

History of theory, practices and conceptualizations of learning disabilities and mild/moderate mental retardation. Current issues, controversies and research, offering frameworks for appropriate instruction. Includes student characteristics, LD as an approach to teaching, family and cultural needs, as well as services and settings from special schools to supported inclusion.

**prereq or coreq:** SPED 70000  
**Hours** 45  
**Credits** 3

**SPED 78100 - Reading for Students with Learning Disabilities Grades 1-6, Methods**
Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

*prereq: SPED 70000 or 70050  
*Hours 3 hrs: includes 10 hrs of field experience  
*Credits 3 cr

**SPED 72300 - Math for Students with Learning Disabilities**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations.

*prereq: SPED 70000 or SPED 70050  
*Hours 2 hrs  
*Credits 2 cr

**SPED 72400 - Writing for Students With Learning Disabilities, Methods 3**

In this course, teacher candidates learn methods for teaching all aspects of writing to children with learning disabilities using various research-based approaches that include: letter formation, handwriting, spelling, sentence structures, paragraph building, essay writing, and the writing process.

*prereq: SPED 70000 or SPED 70050  
*Hours 2 hrs  
*Credits 2 cr

**SPED 78200 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1**

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

*coreq: SPED 78100  
*prereq or coreq: SPED 70000  
*Hours 15 hrs seminar, plus 20 hrs lab,  
*Credits 2 cr  
*Fall only (note: must take concurrently with SPED 78100 and must take SPED 78300/78400 in semester immediately following)

**SPED 78400 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2**

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape
and computer use

*prereq:* SPED 781/782  
*coreq:* SPED 783  
*Hours* 15 hrs seminar, plus 20 hrs lab,  
*Credits* 2 cr  
*Spring only*

- And -

BOTH OF THE FOLLOWING

**SPED 72500 - Student Teaching: Learning Disabilities Grades 1-6 (Part 1)**

This student teaching seminar and supervision are intended to provide supported teaching experience through the exploration of methods for differentiation. Teacher candidates will learn how to address the needs of a diverse learning group, including but not limited to students with Learning Disabilities and English Language Learners.

*prereq:* SPED 70000 or SPED 70050; SPED 78200; SPED 78400  
*Hours* 3 hrs  
*Credits* 3 cr

**SPED 72600 - Student Teaching: Learning Disabilities Grades 1-6 (Part 2)**

This student teaching seminar and supervision is the first of two semester long experiences intended to provide supported teaching, practical knowledge, and increased facility with specialized practices for working with students with special learning needs.

*prereq:* SPED 78200; SPED 78400; either SPED 72500 or SPED 72550  
*Hours* 3 hrs  
*Credits* 3 cr

- Or -

BOTH OF THE FOLLOWING

**SPED 72550 - Supervised Practicum: Learning Disabilities Grades 1-6 (Part 1)**

This student teaching seminar and supervision are intended to provide you with supported teaching experience, to expand your practical knowledge, develop your instructional skills, increase your repertoire of specialized practices, and deepen your responsiveness to students with special learning needs. Through the exploration of methods for differentiation you will learn how to address the needs of a diverse learning group, including but not limited to Learning Disabilities and English Language Learners.

*prereq:* SPED 78200; SPED 78400  
*Hours* 3 hrs  
*Credits* 3 cr

**SPED 72650 - Supervised Practicum: Learning Disabilities Grades 1-6 (Part 2)**

This practicum seminar is intended to provide supported teaching experiences, practical knowledge, and increased facility with specialized practices when working with students with special learning needs.
prereq: SPED 78200; SPED 78400; either SPED 72500 or SPED 72550
Hours 3 hrs
Credits 3 cr

- Or -

BOTH OF THE FOLLOWING

- SPED 72500 - Student Teaching: Learning Disabilities Grades 1-6 (Part 1)
- SPED 72650 - Supervised Practicum: Learning Disabilities Grades 1-6 (Part 2)

Additional Courses for Program 1

Students may be exempted from up to 12 credits of the general and special education requirements on the basis of equivalent courses taken at either the graduate or undergraduate level. Students, however, may not be exempted from CEDC 729.

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work
Credits 3

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900
Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.
CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 must maintain a valid and appropriate NYS certification in general education.
3. Complete the Dignity for All Students Act (DASA) workshop.
4. EdTPA or "Action Research Project" in second semester of Student Teaching/Practicum.
Childhood Special Education: Severe/Multiple Disabilities (including Deafblindness) - MSEd

Program Coordinator

L. Beth Brady
929 West Building
(212) 772-4229
lbrady@hunter.cuny.edu

This graduate program prepares students to teach in Childhood Special Education environments, including self-contained and inclusion settings. Graduates from the severe/multiple disabilities program will be able to serve in such roles as specialized teachers of learners with severe disabilities, including deafblindness; inclusion support providers; and as collaborative team teachers with general education teachers in public and private schools, private agencies, hospitals and clinics. This program leads to certification in Students with Disabilities Grades 1-6 and an extension annotation in Severe and Multiple Disabilities.

The master's degree in Childhood Special Education: Severe/Multiple Disabilities offers two programs. Program 1 (Academic Plan: CSED-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and students with disabilities grades 1-6. Program 2 (Academic Plan: CSEDD-MSED) is for those who hold NYS certification and leads to single certification in students with disabilities grades 1-6.

Admission Requirements

Program 1

For applicants who do not hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
   or
   A master's degree from an accredited institution with a GPA of at least 3.5.
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Program 2

For applicants who hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
   or
   A master's degree from an accredited institution with a GPA of at least 3.5;
2. NYS initial or professional certification in Childhood Education Grades 1-6 or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plans

- Program 1: CSED-MSED
- Program 2: CSEDD-MSED

Total Credits

- CSED-MSED: 44-56
- CSEDD-MSED: 37

Courses for Programs 1 and 2

SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

Hours 3 hrs
Credits 3 cr

SPED 70250 - Classroom Management in Special Education and Inclusive Settings

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.
prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100
Hours Includes 20 hrs of field experience, 45 hrs,
Credits 3 cr

**SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100
Hours (includes 10 hours of field experience),
Credits 3 cr

**SPED 70700 - Research Seminar: Issues in Special Education**

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,
Credits 3 cr

**SPED 74600 - Educational Implications of Learners Who Are Deafblind**

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100
Hours Includes 10 hrs of field experience
Credits 3

**SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)**

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.
SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.
SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000
Hours includes 10 hrs of field experience, 30 hrs
Credits 2 cr

Take two of the following (must include two different grade levels)

SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching.
Credits 2 cr

SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus 20 days of student teaching.
Credits 2 cr

SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3

Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences.
Credits 2 cr
SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hours seminar, plus conferences,
Credits 2 cr

Additional Courses for Program 1

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work
Credits 3

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900
Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3
CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.

3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue
   - and either -
   an original written research proposal
   - or -
   a written proposal for competitive grant funding.

4. Complete the Dignity for All Students Act (DASA) workshop.

**Deaf and Hard-of-Hearing - MSEd**

**Program Coordinator**

**Elaine Gale**
(866) 922-9043 (videophone)
918 West
eagle@hunter.cuny.edu

The School of Education offers graduate programs that prepare students to become teachers of the Deaf and Hard of Hearing. Graduates of the Deaf and Hard of Hearing program typically become itinerant or classroom teachers for students who are deaf and hard of hearing with a wide range of hearing levels and communication modality, both signed and oral.

The master's degree in Deaf and Hard of Hearing offers two programs. Program 1 (Academic Plan: DEAFN-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and deaf and hard of hearing. Program 2 (Academic Plan: DEAFW-MSED) is for those who hold NYS certification and leads to single certification in deaf and hard of hearing.

**Admission Requirements**

**Program 1**

For applicants who do not hold NYS certification in Childhood Education

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
   or
   A master's degree from an accredited institution with a GPA of at least 3.5;
   plus
   A liberal arts or science major or interdisciplinary concentration of at least 30 credits.

2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.

3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Program 2**

For applicants who hold Early Childhood, Childhood, PreK-Grade 6, Middle Childhood or Adolescent Education NYS certification
1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5; plus
2. NYS initial, professional, or permanent certification in Early Childhood, Childhood, PreK-grade 6, Middle Childhood or Adolescent Education. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 715, a 1-credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plans

- Program 1: DEAFN-MSED
- Program 2: DEAFW-MSED

Total Credits

- DEAFN-MSED: 40-58
- DEAFW-MSED: 33-39

Courses for Programs 1 and 2

SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

Hours 3 hrs
Credits 3 cr
SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000  
Hours 45 hours; includes 10 hrs of field experience  
Credits 3

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000  
Hours 45 hours; includes 15 hrs of field experience  
Credits 3

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,  
Credits 3 cr

SPED 72000 - American Sign Language I

An intensive first course in American Sign Language (ASL), designed to establish a foundation of ASL communicative competence. Emphasizes ASL grammar, vocabulary, receptive and expressive skills, fingerspelling, numbers, and spatial and pronominal reference.

prereq or coreq: SPED 70000  
Hours Includes 10 hrs of field experience, 90 hrs lab,  
Credits 3 cr

SPED 72100 - American Sign Language II

This intensive course continues material covered in SPED 720. Emphasizes increased communicative competence in ASL, as well as grammar, vocabulary, and receptive and expressive skills.

prereq: SPED 72000
**SPED 72200 - The Study of ASL Educational Linguistics**

Focus on the linguistic structure of ASL: phonology, morphology, syntax, pragmatics, and discourse rules. Traces acquisition of ASL during infancy, childhood and adolescent. Differences are highlighted between ASL and English linguistics, as well as the interaction between such structures and children's learning. ASL is the instructional language used to teach this course.

*prereq: SPED 72100*

**SPED 73000 - Education of Students Who Are Deaf and Hard-of-Hearing**

History of theory, practice and conceptualizations in the education of students who are deaf and hard-of-hearing. The study of language acquisition (English and ASL), bilingualism, and learning English as a second language in hearing and deaf children. Linguistic understanding and analysis of the components of language proficiency. Educational settings, issues of inclusion, and use of technology.

*Hours Includes 10 hours of field experience 45 hrs,*

**SPED 73100 - Reading and Writing Development for Students Who Are Deaf and Hard-of-Hearing: Methods 1**

Theoretical and practical aspects of deaf children's receptive and expressive language use. Instructional procedures used to facilitate language acquisition in deaf and hard-of-hearing children and their learning to read and write. Assessment, instructional procedures, specific remediation techniques, and technology supports.

*prereq: SPED 70000 and SPED 73000*

*coreq: must take SPED 73300 in semester immediately following.*

**SPED 73300 - Math and Across-the-Curriculum Adaptations for Students who are Deaf and Hard-of-Hearing: Methods 2**

Methods for assessing and teaching deaf and hard-of-hearing students in mathematics, science, social studies, other content areas, and time/space organization. Focus on math concept development and compensations; reading/writing and the arts across the curriculum; and organizational strategies for school, home and life.

*prereq: (immediate preceding semester) SPED 73100*

*prereq or coreq: SPED 70000*
SPED 73500 - Speech Development and Remediation of Students who are Deaf and Hard-of-Hearing

Psycho-acoustic aspects of speech sounds and their relationship to speech acquisition in hearing and deaf children. Effects of various degrees of hearing loss on speech acquisition; sense modalities in speech production; typical voice and speech errors in deaf and hard-of-hearing children; methods, procedures, materials, and technology used for speech development and remediation; inclusion of deaf and hard-of-hearing students.

prereq or coreq: SPED 70000
Hours Includes 5 hrs of field experience
Credits 3

SPED 73600 - Aural Rehabilitation of Students who are Deaf and Hard-of-Hearing

Principles and methods of teaching speech and auditory training. Methods, procedures and materials used in development of oral communication, supports for inclusive settings and use of technology.

prereq or coreq: SPED 70000
Hours Includes 5 hrs of field experience

- Take either -

SPED 73700 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 12

Supervised student teaching placement providing direct, specially designed classroom instruction for deaf and hard-of-hearing students at two grade levels that do not overlap with either pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills prerequisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,
Credits 4 cr

- Or two of the following (must include two different grade levels) -

SPED 73750 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.
prereq or coreq: SPED 721, SPED 733
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

SPED 73751 - Student Teaching: Deaf and Hard-of-Hearing, Grades 7–12

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

SPED 73760 - Supervised Practicum: Deaf and Hard-of-Hearing, Preschool–2nd Grade

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2

SPED 73761 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 1-6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching
Credits 2

SPED 73762 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 5-9

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
SPED 73763 - Supervised Practicum: Deaf and Hard-of-Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

Prereq or coreq: SPED 7300, SPED 73300

Additional Courses for Program 1

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work
Credits 3

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

Prereq or coreq: CEDF 70900
Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

Prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3
CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Notes(s)
Students entering program with ASL proficiency may be exempted from either or both of the ASL courses, without being required to replace those credits with other course work. Such students would, thus, complete the specialization sequence with either 24 or 21 credits.

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue
   - and either -
   an original written research proposal
   - or -
   a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

Early Childhood Development and Learning: Diverse Children and Families - MSEd

Program Coordinator

Bonnie Keilty
(212) 772-4709
929 West Building
bkeilty@hunter.cuny.edu

These graduate programs prepare students to support infants, toddlers, preschoolers and early elementary children in inclusive, integrated, and self-contained classrooms, as well as homes and communities.

We offer two programs:

- Program 1 (Academic Plan: SENB2-MSED) leads to dual certification: early childhood and students with disabilities birth to grade 2, for those with no NYS certification or NYS certification in an area other than early childhood education.
- Program 2 (Academic Plan: SEWB2-MSED) leads to single certification in students with disabilities birth to grade 2, for those with NYS Early Childhood Education certification.

Admission Requirements

Program 1

For applicants who do not hold NYS certification in Early Childhood Education.

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
   or
   A master's degree from an accredited institution with a GPA of at least 3.5.
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.

4. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate degree.

OR

1. Any NYS teacher certificate other than Early Childhood Education.
2. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate degree.

Program 2

For applicants who hold NYS certification in Early Childhood Education, Birth to Grade 2

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5.
2. NYS certification in Early Childhood Education or PreK-Grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plans

- Program 1: SENB2-MSED
- Program 2: SEWB2-MSED

Total Credits
Courses for Programs 1 and 2

**SPEDE 76800 - Fostering Development in Young Children with Diverse Abilities: Historical, Political, and Inclusive Perspectives**

This course explores the variability of development in infants and young children, and related developmental promotion approaches, through a lens of cultural, linguistic, and ability diversity. Functional developmental competencies and the range of developmental consequences within specific diagnoses will be examined, including the implications for supporting learning and development in classrooms, homes, and communities. The evolution of laws, regulations, and inclusive practices to current early intervention and early childhood special education recommended practices will be situated within this developmental framework.

*prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only)*
*Hours Includes 5 hrs field experience,*
*Credits 3*

**SPEDE 76900 - Evaluation, Assessment, and Program Planning for Infants and Young Children with Special Needs**

Developmentally appropriate and recommended practices for assessing the development and learning of young children from infancy through age 7 years (second grade) and identifying family strengths and supports. Application of tools, observations, and discussions with informed others to make decisions in screening, evaluation and program planning will be explored within a transdisciplinary team. Students must receive a grade of B or better.

*prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only); and SPEDE 768*
*Hours Includes 15 hrs field experience,*
*Credits 3*

**SPEDE 77000 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula**

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods. Students must receive a grade of B or better.

*prereq or coreq: SPEDE 768 and SPEDE 769; OR SPED 700 and SPED 790*
*Hours Includes 15 hrs field experience,*
*Credits 3*

**SPEDE 77100 - Autism Spectrum Disorder: Characteristics and Implications for Intervention**

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field
experience are required.

prereq or coreq: SPEDE 770  
Hours Includes 5 hrs of field experience  
Credits 3 cr

SPEDE 77200 - Positive Behavior Support (PBS) and Its Application to Young Children with Special Needs

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

prereq: SPEDE 768 OR SPED 700  
Hours Includes 5 hrs of field experience  
Credits 3 cr

SPEDE 77300 - Families, Parenting, and Family-Professional Partnerships: Theories, Research, and Practices

This yearlong course focuses on the significant influence of the family in early childhood learning and development and evidence-based strategies for creating and sustaining effective family-professional partnerships to optimize family and child outcomes in classroom, home, and community settings. The developmental process of parenting, family capacity-building approaches, and convergence of family and professional expertise to promote child learning and development will be examined across diverse cultures, languages, abilities, settings, and urban contexts.

prereq or coreq: SPEDE 770  
Hours 3.0 (YL)  
Credits 3.0 (YL)  
Includes 5 hrs field experience.

This is a yearlong course.

SPEDE 77400 - Adaptations for Individual Learners Across the K-2 Curriculum

Methods for supporting children with disabilities and special education needs, grades K–2 access the general education curriculum; Data-based decisions within a response to intervention framework and individualized modifications and adaptations, instructional approaches and specific methodologies effective with young children are emphasized.

prereq: SPEDE 77000 and SPEDE 77200 (for all programs);  
and ECC 70400 or ECC 70900 (for Program 1 students only)  
Hours 3 hrs: includes 5 hrs field experience  
Credits 3 cr

SPEDE 77600 - Introductory Field Experience in Early Childhood Special Education

Preparatory experience in a program supporting young children with diverse abilities; emphasis on what it means to be an early intervention/early childhood special education professional; One field placement of 10 days in a Kindergarten
or Grade 1 or 2 setting.

prereq: ECC 71200 (for Program 1 students only)
prereq or coreq: SPEDE 77000
Hours 2 hrs.
Credits 2 cr.

SPEDE 70700 - Research Seminar: Issues in Early Intervention and Early Childhood Special Education

Integration of theory, research and practice as related to the field of early childhood special education. Focus is on researching and applying evidence-based practices with fidelity across individuals and environments.

prereq or coreq: SPEDE 778.10 OR SPEDE 779.10
Hours 3 for 5 weeks
Credits 1 cr.

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours Includes 10 hours of field experience, 45 hrs,
Credits 3 cr

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours Includes 15 hrs of field experience
Credits 3 cr

Take Either

SPEDE 77810 - Initial Student Teaching in Early Childhood Special Education
First, full semester, supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.10 must also take either SPEDE 77820 or SPEDE SPEDE 77920 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

**prereq:** SPEDE 77600  
*Hours 3 hrs. plus full semester of student teaching*  
*Credits 3 cr.*

**SPEDE 77820 - Final Student Teaching in Early Childhood Special Education**

Second, full semester, intensive supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.20 must have already taken either SPEDE 77810 or SPEDE 77910 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

**prereq:** SPEDE 77400 and either SPEDE 77810 or SPEDE 77910  
*Hours 3 hrs. plus full semester of student teaching*  
*Credits 3 cr.*

Or

**SPEDE 77810: Initial Student Teaching in Early Childhood Special Education (3)**

**SPEDE 77920 - Final Practicum in Early Childhood Special Education**

Second intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.20 must have already taken SPEDE 77810 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

**prereq:** SPEDE 77400 and SPEDE 77810  
*Hours 3 hrs. plus full semester of practicum experience in worksite*  
*Credits 3 cr.*

Or

**SPEDE 77910 - Initial Practicum in Early Childhood Special Education**

First intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.10 must also take SPEDE 77820 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

**prereq:** SPEDE 77600
Hours 3 hrs plus full semester of practicum experience in worksite  
Credits 3 cr. 

SPEDE 77800: Final Student Teaching in Early Childhood Special Education

Or

SPEDE 77920: Final Practicum in Early Childhood Special Education

SPEDE 77800 - Student Teaching in Early Childhood Special Education

Supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1–2) setting; practice in implementation of skills developed through coursework and an abbreviated field experience. (Note that students who take SPEDE 77800 must also take SPEDE 77900 in addition to either SPEDE 77910 or SPEDE 77920 and the placement for SPEDE 77800 must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2 than SPEDE 779. One semester of SPEDE 778 or SPEDE 779 must be in a PreK setting.)

prereq: SPEDE 77600, ECC 71200
prereq or coreq: SPEDE 77100
Hours 1.0
Credits 1.0
(Note that students who take SPEDE 77800 must also take SPEDE 77900 and the placements must be at different age/grade levels.)

30 hrs seminar plus 30 days student teaching

SPEDE 77900 - Practicum in Early Childhood Special Education

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences.

prereq: SPEDE 77600, ECC 71200
prereq or coreq: SPEDE 77100
Hours 30 hrs seminar plus conferences,
Credits 2
(Note that students who take SPEDE 77900 must also take SPEDE 77800 and the two experiences must be at different age/grade levels. Pre-K [Birth–five], Kindergarten, grades 1–2. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

Or

SPEDE 77800: Student Teaching in Early Childhood Special Education
SPEDE 77900: Practicum in Early Childhood Special Education
SPEDE 77920 Final Practicum in Early Childhood Special Education

Additional Courses for Program 1

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2
Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels
Credits 3

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400
prereq or coreq: 70500 or 70600
Hours 15 hrs
Credits 1

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300
**ECC 71300 - The Expressive Arts in Early Childhood**

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

**HED 71500 - Health Education for Special Educators**

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

**Exit Requirements**

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily in the development of a comprehensive teaching portfolio (partial requirements of SPEDE 77820 and SPEDE 77920). The portfolio must demonstrate competence in assessment, program planning, intervention, and progress monitoring, as well as reflective practices.
4. Complete the Dignity for All Students Act (DASA) workshop.

**Early Childhood Development and Learning: Diverse Children and Families with Annotation in Severe/Multiple Disabilities**

**Program Coordinator**

L. Beth Brady  
929 West Building  
(212) 772-4229  
lbrady@hunter.cuny.edu
Graduates from the severe/multiple disabilities program (ECSB2-MSED) will be able to serve in such roles as specialized teachers of learners with severe disabilities, including deafblindness; inclusion support providers; and as collaborative team teachers with general education teachers in public and private schools, private agencies, hospitals and clinics. This program also leads to an extension annotation certificate in Severe/Multiple Disabilities.

This program offers three tracks (or subplans):

- Track 1 (Subplan: ECSMDLNYSC) is a dual certification track for those with no NYS certification.
- Track 2 (Subplan: ECSMDANYSM) is for those with any other NYS certification.
- Track 3 (Subplan: ECSMDANYSC) is for those with Early Childhood Education certification.

### Admission Requirements

#### Track 1

For applicants who do not hold NYS certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
   or
   A master's degree from an accredited institution with a GPA of at least 3.5.
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

#### Track 2

For applicants who hold NYS certification in an area other than Early Childhood

1. Any New York State teacher certificate other than Early Childhood Education.
2. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
   or
   A master's degree from an accredited institution with a GPA of at least 3.5.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

#### Track 3

For applicants who hold NYS certification in Early Childhood Education

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
   or
   A master's degree from an accredited institution with a GPA of at least 3.5.
2. New York State initial/permanent teacher certification in Early Childhood or PreK-Grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements
regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.

3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

ECSB2-MSED

Subplans

- TRACK 1: ECSMDLNYSC
- TRACK 2: ECSMDANYSM
- TRACK 3: ECSMDANYSC

Total Credits

- ECSMDLNYSC: 53-60
- ECSMDANYSM: 42-46
- ECSMDANYSC: 42

Courses for Tracks 1, 2 and 3

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours 45 hours; includes 5 hours of field experience
*Credits 3

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities
Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100
Hours (includes 10 hours of field experience),
Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education
Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,
Credits 3 cr

SPED 74600 - Educational Implications of Learners Who Are Deafblind
Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100
Hours Includes 10 hrs of field experience
Credits 3

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities
Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr.

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities
The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.
SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

SPEDE 77000 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods. Students must receive a grade of B or better.

SPEDE 77100 - Autism Spectrum Disorder: Characteristics and Implications for Intervention

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.
SPEDE 77200 - Positive Behavior Support (PBS) and Its Application to Young Children with Special Needs

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

 prerequisites: SPEDE 768 OR SPED 700

SPEDE 77300 - Families, Parenting, and Family-Professional Partnerships: Theories, Research, and Practices

This yearlong course focuses on the significant influence of the family in early childhood learning and development and evidence-based strategies for creating and sustaining effective family-professional partnerships to optimize family and child outcomes in classroom, home, and community settings. The developmental process of parenting, family capacity-building approaches, and convergence of family and professional expertise to promote child learning and development will be examined across diverse cultures, languages, abilities, settings, and urban contexts.

 prerequisites or corequisites: SPEDE 770

SPEDE 77400 - Adaptations for Individual Learners Across the K-2 Curriculum

Methods for supporting children with disabilities and special education needs, grades K–2 access the general education curriculum; Data-based decisions within a response to intervention framework and individualized modifications and adaptations, instructional approaches and specific methodologies effective with young children are emphasized.

 prerequisites: SPEDE 77000 and SPEDE 77200 (for all programs); and ECC 70400 or ECC 70900 (for Program 1 students only)

SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities
Hours 36 days (30 hr Seminar plus 36 days) Pre-K
Credits 2 cr.

- Or -

SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours 36 days (30 hr Seminar plus 36 days) K-2
Credits 2

- Plus -

SPEDE 79552 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours (30 hr seminar plus conferences) Pre-K
Credits 2 cr.

- Or -

SPEDE 79553 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours (30 hr seminar plus conferences) K-2
Credits 2 cr.

Additional Courses for Track 1

ECF 70000 - Child Development: Birth to Age Eight
Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels*
*Credits 3*

**ECC 70300 - Early Childhood Curriculum: Birth through Grade 2**

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000*
*Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*
*Credits 3*

**ECC 70600 - Language and Literacy: K through Grade 2**

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

*prereq or coreq: ECC 70500 (early childhood students only)*
*Hours 45 hrs*
*Credits 3*

**ECC 70700 - Language and Literacy: English Language Learners**

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

*coreq: ECC 70400*
*prereq or coreq: 70500 or 70600*
*Hours 15 hrs*
*Credits 1*

**ECC 70900 - Mathematical and Scientific Thinking in Early Childhood**

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

*prereq or coreq: ECC 70300*
*Hours 45 hrs*
*Credits 3*
ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field
Credits 1

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs
Credits 3

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Additional Courses for Track 2

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels
Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.
Exit Requirements

1. An overall GPA of 3.0.
2. Tracks 2 and 3 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education):
   - A comprehensive research-based oral presentation on a current special education issue
   - And either -
     - An original written research proposal
     - Or -
     - A written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

Early Childhood Education, Birth through Grade 2 - MSEd

Program Coordinator

Christina Taharally
(212) 772-4679
1103 West
cnaharal@hunter.cuny.edu

This program (Academic Plan: ECEB2-MSED) leads to NYS certification in Early Childhood Education. It is recognized by the National Association for the Education of Young Children (NAEYC) and prepares candidates for teaching in a variety of educational settings within the birth to grade 2 levels. This program is not designed for those who already have NYS certification in Early Childhood Education.

ECEB2-MSED has two tracks (or subplans). Track 1 (Subplan: ECEB2NYSC) is for applicants with no prior NYS certificate. Track 2 (Subplan: ECEB2ANYSC) is for applicants who have prior NYS certificate.

Admission Requirements

Track 1

For applicants who do not hold New York State Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.

4. A personal statement.

5. Two letters of recommendation.

6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Track 2**

For applicants who hold NYS certification in Childhood Education, Common Branches PreK- Grade 6, Childhood or Early Childhood Special Education, or TESOL

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.

2. NYS initial, professional, or permanent certification in Childhood Education, Pre-K-Grade 6, Students with Disabilities Birth to Grade 2 or Grades 1-6, or TESOL.

3. A personal statement.

4. Two letters of recommendation.

5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Progress Standards**

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

**Course of Study**

**Academic Plan**

**ECEB2-MSED**

**Subplans**

- **Track 1: ECEB2LNYS**
- **Track 2: ECEB2ANYSC**

**Total Credits**

- **ECEB2LNYS:** 36-42
- **ECEB2ANYSC:** 30-35
Courses for Tracks 1 and 2

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels
Credits 3*

**ECF 70100 - Social and Historical Contexts of Early Childhood Education**

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs
Credits 3*

**ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2**

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000
Hours 45 hrs
Credits 3*

**ECC 70300 - Early Childhood Curriculum: Birth through Grade 2**

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels
Credits 3*

**ECC 70700 - Language and Literacy: English Language Learners**

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

*coreq: ECC 70400
prereq or coreq: 70500 or 70600*
ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300
prereq or coreq: ECF 70200

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels
Credits 3

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs
Credits 3

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000

Hours 45 hrs
Credits 3

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,
Credits 1 cr

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.
prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)
Credits 3

- Take Either -

**ECC 71600 - Student Teaching in Early Childhood Settings**

Two student-teaching placements of 30 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience.(Birth– 3, preK–2)

prereq: prereqs: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only))
Hours 30 hrs of seminar plus 60 days of student teaching
Credits 3

- Or -

**ECC 71700 - Supervised Practicum in Early Childhood**

This course has two key components: (1) A full semester of practicum in Pre- K, K, or grades 1-2 and (2) biweekly seminar (30 hours). It builds on prior coursework and field experiences by providing guidance and reflective discussion that allow teacher candidates to enhance their teaching skills in early childhood education settings. Specific information regarding professional issues, ethical behaviors, and child advocacy is provided and reviewed. In addition, this course will align the practicum experience with the expectations of the edTPA in order to support teacher candidates with the preparation and submission of their portfolios.

prereq: ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200
Hours Bi-weekly seminar (30 hrs)
Credits 2

- Plus -

**ECC 71800 - Early Childhood Student Teaching**

This is a college supervised experience and is offered during the regular academic year and in the summer to facilitate the opportunity for practice at a different age/grade level than ECC 71700. This course has two key components: (1) a minimum of 30-days of student teaching in Pre-K, or grades 1-2 and; (2) biweekly seminar (15 hours).

prereq: ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200
Hours Bi-weekly seminar (15 hrs)
Credits 1
Additional Courses for Track 1

ECC 70500 - Language and Literacy: Birth through Kindergarten

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)
Hours 45 hrs
Credits 3

ECC 71000 - Early Childhood Mathematics: Birth through Grade 2

Theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

ECC 71100 - Science in Early Childhood Education: Birth through Grade 2

Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.
Additional Courses for Track 2

**ECC 70400 - Language and Literacy: Birth through Grade 2**

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

**ECC 70900 - Mathematical and Scientific Thinking in Early Childhood**

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

**Note(s)**

Please note: Students who qualify for waivers may take ECC 719.51, .52, .53 (Special Topics in Early Childhood Education, 1, 2 and 3 credits), or a course in another program with permission of the Early Childhood Program coordinator. Students may be exempted from up to 6 credits (Track 1) or 5 credits (Track 2) based on prior equivalent course work.

**Exit Requirements**

1. An overall GPA of 3.0.
2. Track 2 students must maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

**Educational Leadership: SBL/SDL - MSEd**

Program Coordinator:
This master's degree program (Academic Plan: SDL-MSED) is designed to prepare NYS certified teachers for roles in administration and supervision of preK-grade 12 educational settings. Graduates of this program are eligible for NYS certification in both School Building Leader and School District Leader.

Admission Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.0.
2. Permanent or professional NYS certification as a teacher and/or pupil personnel service provider within grades PreK-12.
3. A minimum of three years of approved teaching and/or school service within grades PreK-12 under regular appointment (or its equivalent for counselors, social workers, and school psychologists) or two years approved teaching and/or school service and at least one year of relevant management/leadership experience.
4. Two letters of recommendation, including a letter of support from the candidate's immediate site supervisor.
5. An on-site interview process that includes both oral and written activities.
6. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

1. Complete and pass comprehensive examination prior to enrollment into ADSUP 75100, the internship seminar.
2. Students must complete all Key Assessments built around accepted professional standards in the field of Education Leadership.

Course of Study

Academic Plan

SDL-MSED

Total Credits

32

ADSUP 70400 - Leadership to Enhance Human Resources

Interpersonal and group relationships applied to administrative and supervisory functions in schools and districts; intensive experience in group process and the development of a positive school climate and culture.

Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work
Credits 4
**ADSUP 71500 - Supervision for the Improvement of Instruction**

An examination of varied productive supervisory techniques which promote the improvement of instruction and enhance the supervisory process.

*Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work*
*Credits 4*

**ADSUP 71600 - Leadership Strategies for School Reform**

An introduction to leadership theory, school, district reform and the school principalship. Leadership theory is explored from a systems perspective with a focus on both the theoretical and practical tools for promoting school and district change that leads to high levels of student achievement.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work*
*Credits 4*

**ADSUP 71700 - Seminar in Evaluating and Applying Educational Research**

This course provides students seeking to be educational leaders with the theoretical and the practical considerations for evaluating, conducting and using research in schools and school districts.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work*
*Credits 4*

**ADSUP 72100 - Legal Issues, Finance, Facilities and Operations**

A study of school legal issues finance and budgeting. Processes and cases from New York State, New York City, local school district and building level management of operations and facilities.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work*
*Credits 4*

**ADSUP 73100 - Using Data, Technology and Assessment to Plan and Design Curriculum and Instruction**

This course provides students seeking to be instructional leaders with both the theoretical and the practical considerations necessary for using technology, data, and assessment to plan and design curriculum for effective instruction.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work*
*Credits 4*
ADSUP 74100 - School District Leadership: Problems and Issues

System-wide administrators must combine the elements of vision, with instructional and administrative leadership in order to guide learning organizations. They must develop skills, strategies and knowledge of the leading educational issues they are facing to be able to create collaborative, safe, and successful educational environments capable of being successful.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work
Credits 4

- ADSUP 75110 - School and District-Based Experience Seminar in Administration Supervision I
- ADSUP 75120 - School and District-Based Experience Seminar in Administration Supervision II

ADSUP 75100 - District and School Based Field Experience Seminar in Administration and Supervision

Intensive applications of program knowledge, skills and dispositions in school and district field settings available to the student, and a 40 hour seminar that includes a two-hour unit on each of both child abuse prevention and violence prevention.

Hours 60 hrs plus 200 hrs of leadership experiences in field work stipulated in a contract
Credits 4

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certificate.
3. Require a minimum of two academic years of full-time graduate level study.
4. The culminating experiences of the program consist of an oral exit interview and a program portfolio review of selected leadership experiences and reflections on the learning process.
5. Must pass the School of Education technology assessment, embedded in courses.
6. Pass both parts of the NYSTCE School District Leader (SDL) exam.
7. Pass the NYSTCE Educating All Students (EAS) exam.
8. Complete the Dignity for All Students Act (DASA) workshop.

Elementary Mathematics Specialist Professional Certificate - MSEd

Program Coordinator

Frank Gardella
(212) 772-4676
This MSEd program (Academic Plan: EMTSP-MSED) will provide certified elementary school teachers a substantial background in mathematics, pedagogy and leadership giving them the knowledge and skills necessary to be an effective professional development facilitator, coach, cluster teacher, and mentor. For those with Initial NYS Certification, this program will fulfill the master's degree requirement for Professional Certification. The New York State Education Department (NYSED) requires all certified teachers to obtain a master's degree within their first five years of teaching.

Admissions Requirements

1. A bachelor's degree from an accredited institution with an overall GPA of at least 3.0. Students with a master's degree must have an overall GPA of at least 3.3 in their graduate coursework.
2. NYS certification in Childhood Education Grades 1-6.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.
4. Preference will be given to candidates with teaching experience in grades 1-6.

Course of Study

Academic Plan

EMTSP-MSED

Total Credits

33

Entering students are expected to have college credit for at least two mathematics courses equivalent to Hunter's MATH 10400 and MATH 10500. If they do not have those courses, they will be conditioned in them and expected to complete the courses before taking other coursework in the program.

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

Hours 45 hrs.
Credits 3

CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

Hours 45 hrs
Credits 3

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children
Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.

**prereq:** all program courses except CEDC 74200 and CEDC 74300

**Hours** 45 hrs

**Credits** 3

**CEDC 74700 - Number Theory and Algebra in Elementary Curriculum**

A study of the underpinnings of Number Theory and Algebra and the role they play in curriculum, teaching and student learning. This course gives participants a deeper understanding of algebra and how students learn transition from arithmetic to algebraic reasoning.

**prereq:** The course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.

**Hours** 45 hrs

**Credits** 3

**CEDC 74800 - Geometry and Measurement in the Elementary**

A study of the underpinnings of Geometry and Measurement and the role they play in curriculum, teaching, and supporting student learning. Topics in Geometry and Measurement are important concepts at the elementary school level and this course gives participants a deeper background in these two areas. Additionally, pedagogical practices important in these areas will be examined as well as a deep study of how students develop these concepts through curriculum, representations, manipulatives, and pedagogical practices will be discussed.

**prereq:** This course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.

**Hours** 45

**Credits** 3

**CEDC 74900 - Leadership in Elementary School Mathematics**

A study of mathematics leadership and the development of mentors, coaches, and leaders of professional development.

**prereq:** This course is intended for students in the Elementary Mathematics Specialist program. Completion of at least 24 credits in the program.

**Hours** 45

**Credits** 3

**MATH 61000 - Mathematics for the Elementary School from an Advanced Standpoint**

Study, from an advanced standpoint, of the mathematics involved in the elementary school common core, with special focus on Numbers and Quantities; Algebra and Change. Open only to Teacher Education Program students.

**prereq:** MATH 10400 and MATH 10500 or their equivalent. Entry is by departmental permission.

**Hours** 3 hrs

**Credits** 3 cr.

*The course is intended for students in the Elementary Mathematics Specialist Program.*
STAT 61200 - Discrete Probability

Combinatorics, discrete probability, random variables, probability models and an introduction to game theory. A study of discrete probability with particular attention paid to the integration of these topics into the school curriculum. This course is for current and prospective teachers.

 prerequisites: a statistics course on or above the level of STAT 11300
Hours 3
Credits 3

- Plus choose two (2) -
Substitutions in this category can be made with consent of the adviser

MATH 63300 - Axiomatic Geometry

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry. This is a theoretical mathematics course. The material is presented in its historical context.

 prerequisites: departmental permission
Hours 3
Credits 3

MATH 63500 - Problem Solving Explorations in Mathematics

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics. This course is for current and prospective teachers.

 prerequisites: none
Hours 3
Credits 3

MATH 65400 - Dynamical Systems and Chaos

Topics include: flows in one and two dimensions; phase portraits; limit cycles; bifurcations; iterated maps on the interval; introduction to chaos and fractals; the Mandelbrot set and its significance.

 prerequisites: a course in multivariate calculus and a course in linear algebra
Hours 3 hrs.
Credits 3 cr.
Familiarity with MAPLE or MATHEMATICA encouraged

- And choose one (1) -

STAT 61300 - An Introduction to Statistics

testing. Linear regression. Students are expected to analyze real data sets and write reports. Data analysis uses appropriate statistical software. This course is intended for teachers.

*Hours 3 hrs.  
Credits 3 cr.*

**STAT 61400 - Data Analysis Using Statistical Software**

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

*prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.*  
*Hours 3 hrs.  
Credits 3 cr.*

**Note:**

If a student has already taken a course with content comparable to a course in the program, documented by college catalog description, and the student attained a grade of B or better in the course as documented by an official college transcript, then the student will be allowed to choose a course approved by the program adviser as a substitute for the existing program course.

**Exit Requirements**

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

**Literacy Education: Birth - Grade 6 - MSED**

**Program Coordinator**

**Jody Polleck**  
906 West  
(212) 772-4639  
literacy@hunter.cuny.edu

This master's degree program (Academic Plan: LTYB6-MSED) is designed for teachers with NYS certification in Early Childhood or Childhood Education to become teachers of literacy and reading at the Early Childhood and elementary grade levels. This program leads to certification in Literacy Birth to Grade 6.

**Admission Requirements**

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. NYS initial, professional, or permanent certification in Early Childhood Education, Childhood Education, Pre-K-Grade 6, TESOL or Special Education.
3. A letter of recommendation from a supervisor as one of the two letters of recommendation.
4. On-site writing sample after the application is reviewed.
5. On-site interview after the application is reviewed.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

LTYB6-MSED

Total Credits

31-37

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

EDLIT 73000 - Language, Literacy and Culture, Grades 1-12

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners’ needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500
Hours includes 10 hrs in the field analyzing language use of ESL learners
Credits 3 cr

EDLIT 73100 - Literacy Assessment: Birth–Grade 6

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instructional planning and meeting NYS English Language Arts performance standards.

prereq or coreq: ECC 70400 and EDLIT 73500
Hours 45 hrs and 15 hrs in the field assessing diverse learners
Credits 3 cr

EDLIT 73200 - Children's Literature

Exposure to the breadth, depth, and utilization of children's literature and its role in children's development, appreciating diversity and fostering a lifelong interest in reading. Sensitive issues (health, abuses, addictions), technology and management issues are examined.

Hours Includes 5 hrs in a classroom-based dramatic demonstration
Credits 3 cr

EDLIT 73300 - Theories and Process of Teaching Writing: Pre-K–Grade 6

Development and assessment of writing skills including analysis of techniques and environments that foster writing development in all children (ESL, gifted, special needs). State writing standards and technology are integrated.

Hours Includes 15 hours in the field observing and analyzing writing development
Credits 3 cr

EDLIT 73400 - Literacies within the Disciplines: K–Grade 6

Exploration into the literacy demands inherent in the academic subjects of math, science, health education and social studies, as well as media, technology and the arts.

prereq or coreq: ECC 70400 and EDLIT 73500
Hours Includes 10 hrs in a classroom focused on older learners (grades 3-6) and content area literacy
Credits 3 cr

EDLIT 73500 - Survey of Instructional Approaches in Literacy Education: Grades K-12

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.
**EDLIT 73600 - Diagnosis of Reading Difficulties**

A study of factors related to students who are experiencing difficulty acquiring literacy. Procedures for diagnosing reading achievement and related language skills.

*prereq: EDLIT 73100*

**EDLIT 73700 - Practicum in Remedial Reading**

Theoretical and practical consideration and procedures in the instruction of students with reading difficulties.

*prereq: EDLIT 73600*

**EDLIT 73900 - Literacy Instruction for Struggling Readers and Writers, PreK-6**

Exploration of historical and theoretical perspectives, and research-based teaching practices/issues related to literacy and language instruction for struggling readers and writers, including children with special needs. Study of assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcomes of struggling readers/writers and special needs students in pre-kindergarten and elementary school settings.

*prereq or coreq: None*

**EDLIT 74000 - Leadership in Literacy**

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master's in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

*prereq: EDLIT 74500; minimum of 27 credits in the literacy program*

**EDLIT 74200 - Practicum in Literacy**

This course requires that students be supervised in their teaching. Students will select one area for improvement and work on this area throughout the course with the instructor and the weekly seminar as their think tank and support group.
prereq: Pre-requisite EDLIT 73100
Hours 15 hr seminar plus 50 hrs in the field,
Credits 1 cr

EDLIT 74500 - Literacy Research for Change

This course aims at learning to understand and use research methodologies in literacy education—qualitative, quantitative and mixed methods. The culminating project is a comprehensive literature review in an area of literacy education, which will lead to a staff development project in the final course, EDLIT 74000, Leadership in Literacy. Course participants will not only become informed consumers of literacy research but also teacher researchers advocating for diverse, urban student populations.

prereq: EDLIT 73100 or EDLIT 75600
Hours 45
Credits 3

Note: Students may be exempted from up to 6 credits on the basis of prior or equivalent coursework.

Exit Requirements

1. Overall GPA of 3.0 or better.
2. Maintain a valid and appropriate NYS certification.
3. A grade of B or better in literacy courses EDLIT 736, EDLIT 737, EDLIT 742, and EDLIT 740.
4. Complete the Dignity for All Students Act (DASA) workshop.

Literacy Education: Grades 5-12 - MSEd

Program Coordinator

Jody Polleck
906 West
(212) 772-4639
literacy@hunter.cuny.edu

This master's program (Academic Plan: AL512-MSED) is designed for teachers with NYS certification in Middle Childhood (grades 5-9) and adolescent (grades 7-12) content teachers to become teachers of literacy and reading at the middle and secondary school levels. This program leads to certification in Literacy Grades 5-12.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or master's degree with a GPA of at least 3.5.
2. NYS initial, professional, or permanent certification as a Middle Childhood (5-9) or Adolescent (7-12) content teacher.
3. On-site writing sample after the application is reviewed.
4. A letter of recommendation from a supervisor.
5. Submission of scores on the Graduate Record Examination, except applicants who are certified teacher or school administrators and hold a graduate degree.

Progress Standards
1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

prereq: EDLIT 73100 or EDLIT 75600
Hours 45
Credits 3

EDLIT 75200 - Practicum in Literacy

This course requires that students be supervised in their teaching. Students will select one area for improvement and work on this area throughout the course with the instructor and the weekly seminar as their think tank and support group.

prereq: Pre-requisite EDLIT 75600
Hours 15 hours in seminar and 50 hours of field experience
Credits 1

EDLIT 75300 - Methods of Teaching Writing: Grades 5-12

Development and assessment of writing skills and methods for teaching writing including analysis of techniques and environments that foster writing development, and writing across the disciplines, in all students at middle childhood and adolescent levels (ELL, gifted, special needs). State writing standards and technology are integrated.

Hours includes 15 hours fieldwork
Credits 3

EDLIT 75400 - Literacies within the Disciplines: Grades 5-12

Exploration into the literacy demands and challenges inherent in the academic subjects of math, science, history and social studies, as well as media, health, technology and the arts.

prereq: Pre-requisite EDLIT 73500 and EDLIT 75500
Hours 3.0
Credits 3.0
Includes 10 hours in classrooms focused on literacies within the disciplines.

EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12
Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing difficulties. Assessment and intervention strategies, adapatation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

Hours includes 15 hours fieldwork
Credits 3

EDLIT 75600 - Literacy Assessment: Grades 5-12

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instruction planning and meeting NYS English Language Arts performance standards.

prereq: 9 credits in the content core
Hours includes 15 hours in the field assessing diverse learners

EDLIT 75700 - Practicum in Literacy Assessment and Intervention: Grades 5-12

A study of factors related to middle and high school students who are experiencing difficulty acquiring literacy. Implement, design and use a variety of procedures for diagnosing reading achievement and related language skills. Use assessment data to plan and implement intervention activities for students with literacy difficulties.

prereq: EDLIT 75600
Hours includes 25 hours of supervised assessment and intervention sessions with individual middle school students on-site at Hunter College Literacy Space and 25 hours of supervised assessment/intervention sessions off site with high school students
Credits 3

SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of B or better in EDLIT 740 and EDLIT 756.
3. Maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

Mental Health Counseling - MSEd
The Mental Health Counseling Program (Academic Plan: MENHC-MSED) prepares graduates to work as mental health counselors in hospital, agency and community settings as well as in private practice. This program leads to professional licensure in New York State; professional licensure is required to practice mental health counseling.

**Admission Requirements**

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas.
3. Evidence of oral and written expression consonant with graduate-level study.
4. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
5. Relevant work and/or volunteer experience is highly recommended.

**Progress Standards**

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

**Course of Study**

**Academic Plan**

MENHC-MSED

**Total Credits**

60

**COCO 70000 - Life Stage Development**

Analysis of developmental stages throughout the lifespan.
COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

COCO 70600 - Group Counseling

Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.
COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

*Hours* 45 hrs  
*Credits* 3

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

*prereq:* COCO 70600 and COCO 71800  
*Hours* 45 hrs  
*Credits* 3

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

*Hours* 60 hrs  
*Credits* 4

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

*Hours* 45 hrs  
*Credits* 3 cr.

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

*coreq:* COCO 71900  
*prereq or coreq:* COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600  
*Hours* 100

COCO 71900 - Individual Supervision

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.
COCO 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and COCO 71900
prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100
Hours Each 300 hrs to be arranged in selected field settings
Credits 4 cr each semester

COCO 72600 - Internship in Counseling II

The second part of the internship: follows COCO 72500 Internship in Counseling I.

prereq: COCO 72500
Hours 45
Credits 4

COUNM 71600 - Foundations of Mental Health Counseling

This course provides an overview of mental health counseling. The course will address the following: professional identity, functions and issues facing mental health practitioners; disparities in mental health services across culturally and linguistically diverse communities; principles, theories and practice of community interventions; public policy and governmental relations impacting mental health.

prereq or coreq: DSM-IV Workshop
Credits 3

COUNM 71700 - Psychopathology: Diagnosis and Treatment

This course provides a framework for understanding the range of personality and behavioral conditions that are presented in the Diagnosis and Statistical Manual of Mental Disorders of the American Psychiatric Association (DSM-IV). The class focuses on the description, etiology, assessment, diagnosis, treatment and prevention of these disorders within diverse urban settings.

Hours 45
Credits 3

COUNM 72000 - Mental Health Counseling: Program Development and Evaluation

The course focuses on the development and evaluation of mental health programs in culturally/linguistically diverse urban settings from program inception onward including assessment to insure quality services. The course covers federal, state and local governmental inpatient and outpatient mental health treatment services, not-for-profit organizations and community-based mental health service programs.
prereq or coreq: COUNM 71600 and COUNM 71700
Hours 45
Credits 3

Electives (Select One Course)

COCO 71000 - Chemical Dependency: Issues in Counseling

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

Hours 45 hrs
Credits 3

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

Hours 45 hrs
Credits 3

COUNS 72100 - Counseling Interventions for Children and Adolescents

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

prereq: COCO 70800
Hours 45
Credits 3

Exit Requirements

1. An overall GPA of 3.0.
2. Must complete all required workshops.

Professional Certification in Special Education (Advanced Preparation) - MSEd

Program Coordinator

Kate Garnett (Track 1: Learning Disabilities)
(212) 772-4749
920 West
kgarnett@hunter.cuny.edu
This master's degree program (Academic Plan: SEAPR-MSED) is designed to provide advanced training to certified special education teachers who need graduate work leading to a master's degree for professional certification in special education. It is also designed for those with special education certification who are seeking to further their knowledge/skills and gain an additional age-level certificate (birth to grade 2 or grades 1-6).

This program offers three tracks:

- **Learning Disabilities (SEAPRLD):** Those seeking professional certification in Students with Disabilities Grades 1-6 with a concentration in Learning Disabilities.
- **Behavior Disorders (SEAPRBD):** Those seeking professional certification in Students with Disabilities Grades 1-6 with a concentration in Behavior Disorders.
- **Early Childhood Special Education (SEAPRECSE):** Those seeking professional certification in Students with Disabilities Birth to Grade 2.

**Admission Requirements**

1. NYS initial or professional certification in students with disabilities grades 1-6 or birth to grade 2 or NYS permanent certification in special education, K-12.
2. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree in special education (any age-level) with a GPA of at least 3.5.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate degree.

**Progress Standards**

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Academic Plan

SEAPR-MSED

Subplans

- LD Track: SEAPRLD
- BD Track: SEAPRBD
- ECSE Track: SEAPRECSE

Total Credits: 30

Track 1 - Learning Disabilities

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

*Hours 45*

*Credits 3*

SPED 78251 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use. Advanced students must complete individually-tailored assignments.

*Hours 15 hrs seminar, plus 20 hrs lab*

*Credits 2*

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time-space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

*Hours 45*

*Credits 3*
SPED 78451 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use. Advanced students must complete individually-tailored assignments.

*Hours 15 hrs seminar, plus 20 hrs lab*
*Credits 2*

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

*Hours 45*
*Credits 3*

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

*Hours 45*
*Credits 3*

Plus

14 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly in mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Track 2 - Behavior Disorders

SPED 75051 - The Study of Behavior Disorders
Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 75151 - Methods and Materials for Teaching Students with Behavior Disorders

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge,
curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

*Hours 45  
*Credits 3

**SPED 70751 - Advanced Seminar in Special Education Practice**

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

*Hours 45  
*Credits 3

**Plus**

12 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly with mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

**Track 3 - Early Childhood Special Education**

**SPEDE 77151 - Autism Spectrum Disorder: Characteristics and Implications for Intervention**

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

*prereq: By permission  
*Hours 3 hrs  
*Credits 3 cr.*

**SPEDE 77251 - Positive Behavior Support (PBS) and Its Applications to Young Children with Special Needs**

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.
SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45
Credits 3

SPEDE 77951 - Practicum in Early Childhood Special Education

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. Advanced students must complete individually-tailored assignments.

prereq: By permission
Hours 3 hrs
Credits 3 cr.

- Plus -

SPEDE 77051 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods.

prereq: By permission
Hours 3 hrs
Credits 3 cr.

SPED 79251 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication. Advanced students must complete individually-tailored assignments.

Hours includes 15 hrs of field experience
Credits 3
SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

*Hours 45  
Credits 3*

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

*Hours 45  
Credits 3*

Plus

12 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly with mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity:  
   A comprehensive research-based oral presentation on a current special education issue  
   and either an original written research proposal  
   or a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

Rehabilitation Counseling - MSEd

Program Coordinator
The Rehabilitation Counseling program (Academic Plan: REHCN-MSED) prepares students to assist people with disabilities to realize personal goals and maximize their physical, emotional, social, intellectual and vocational potential. Rehabilitation counselors work with youth and adults in a variety of community-based settings such as hospitals, rehabilitation centers, colleges, chemical dependency agencies and career/vocational counseling programs. Students in this program may take the national certification examination for the Certified Rehabilitation Counselor (CRC) status after completing 75% of their course work.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas.
3. Evidence of oral and written expression consonant with graduate-level study.
4. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
5. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant's grade point average, counselor potential, and applicability of work and life experience are carefully considered.
6. Relevant work and/or volunteer experience is highly recommended.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

REHCN-MSED

Total Credits

60

COCO 70000 - Life Stage Development
Analysis of developmental stages throughout the lifespan.

Hours 45 hrs
Credits 3

**COCO 70100 - Counseling Skills and Interviewing Techniques**

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs
Credits 3

**COCO 70200 - Theories of Counseling**

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

Hours 45 hrs
Credits 3

**COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education**

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

Hours 45 hrs
Credits 3

**COCO 70600 - Group Counseling**

Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200
Hours 45 hrs
Credits 3

**COCO 70700 - Multicultural Aspects of Counseling**

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs
Credits 3

**COCO 70800 - Measurement and Appraisal**

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.
COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

prereq: COCO 70600 and COCO 71800

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

coreq: COCO 71900

prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600

COCO 71900 - Individual Supervision
Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to
develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800  
Hours 45  
Credits 3

**COCO 72500 - Internship in Counseling I**

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending
upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and COCO 71900  
prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100  
Hours Each 300 hrs to be arranged in selected field settings  
Credits 4 cr each semester

**COCO 72600 - Internship in Counseling II**

The second part of the internship: follows COCO 72500 Internship in Counseling I.

prereq: COCO 72500  
Hours 45  
Credits 4

**COUNR 71600 - Resources and Foundations of Rehabilitation**

History, philosophy, and principles of the vocational rehabilitation process. Economic, legal, ethical, and social issues
influencing rehabilitation services. Observation of services available in state, city, and private agencies.

Hours 45 hrs  
Credits 3

**COUNR 72000 - Medical Aspects of Disability**

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and
basic medical terminology.

Hours 45 hrs  
Credits 3

- ELECTIVES (SELECT TWO COURSES) -

**COCO 71000 - Chemical Dependency: Issues in Counseling**

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to
increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

Hours 45 hrs  
Credits 3
COCO 72300 - Transition from School to Adult Living for Youth with Disabilities

Services, programs, and processes for facilitating the transition of youth with disabilities and youth at risk from school to work, postsecondary education, independent living, and adult roles.

*Hours 45 hrs.  
Credits 3 cr.

COCO 72700 - Special Topics in Counseling

Study of significant issues, problems, and emerging trends in counseling.

*Hours 45 hrs.  
Credits 3 cr.

Exit Requirements

1. An overall GPA of 3.0.
2. Complete all required workshops.

School Counseling - MSEd

Program Coordinator

Markus Bidell  
(212) 772-4714  
1114 West  
mbidell@hunter.cuny.edu

The School Counseling Program (Academic Plan: GSC-MSED) prepares graduates for careers in a variety of school settings, including elementary schools, middle schools, high schools and colleges. School counselors can also be employed by organizations that are not primarily educational, such as correctional facilities, hospitals, and a wide variety of community-based organizations. Students in this program may apply individually for the NYS provisional certification in School Counseling at the completion of 30 credits and a school based practicum experience. Recommendation for permanent certification is made after graduation. School counseling students fluent in Spanish and English have the option of obtaining NYS certification in Bilingual Education Extension for Pupil Personnel Services in addition to the School Counselor certification.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

prereq: COCO 70800
Hours 45
Credits 3

COUNS 72200 - School Based Consultation

This upper level course provides counselors with the knowledge and skills necessary to engage in consultation, collaborative problem solving, and systems level intervention in educational settings. Theories, models, and processes of consultation of change will be examined.

prereq or coreq: COCO 72500
Hours 45
Credits 3
Optional: Bilingual (Spanish/English) Extension In Pupil Personnel Services

6 additional credits

Students in the School Counselor Program at Hunter College may obtain a Bilingual (Spanish/English) Extension in Pupil Personnel Services. Students who elect to take this option will be evaluated for written and oral proficiency in both Spanish and English. Students who are determined to be bilingually proficient will take the following two courses in addition to the Counseling Programs Sequence of Courses:

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*
*Credits 3 cr*

**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

*prereq or coreq: BILED 70100*
*Hours includes 5 hrs of fieldwork*
*Credits 3 cr*

Exit Requirements

1. An overall GPA of 3.0.
2. Complete the Dignity for All Students Act (DASA) workshop.

Special Education - MSEd

**Department Office:** 909 West Building; (212) 772-4700

**Secretary Jean Leung:** 909 West Building; (212) 772-4700; fax (212) 650-3542; jleung@hunter.cuny.edu

**Acting Chairperson Tim Lackaye:** 920 West Building; (212) 772-4777; tlackaye@hunter.cuny.edu

**Advisers:**

**Learning Disabilities**

- **Kate Garnett:** 910 West Building (212) 772-4700; kgarnett@hunter.cuny.edu
- **David Connor:** 917 West Building (212) 772-4746; dconnor@hunter.cuny.edu
Hunter's graduate programs in special education prepare teachers to provide specially designed instruction for students with disabilities and to work across a variety of educational settings, including: special school, special classes, resource rooms, pre-schools, early intervention programs, supported general education classrooms in public and private schools, hospitals, clinics, health agencies, home programs, and residential facilities. Special education programs at Hunter have been nationally recognized by the Council for Exceptional Children.

Completion of any one of Hunter's programs for the master's degree in special education leads to New York State teacher certification. Hunter's specializations are:

- childhood special education: learning disabilities
- childhood special education: behavior disorders
- childhood special education with an annotation in severe/multiple disabilities (including deafblindness)
- early childhood special education
- early childhood with an annotation in severe/multiple disabilities (including deafblindness)
- deaf and hard-of-hearing
- blind and visually impaired

Students who enter the programs with no previous certification and subsequently complete the master's degree will meet the education requirements for New York State initial and professional certification in either childhood special education or early childhood special education and either childhood general education or early childhood general education. Students without prior teacher certification enter the Program 1 track.

Students who enter the childhood special education program with initial certification in grades 1-6 and subsequently complete the master's degree, will meet the education requirements for New York State professional certification in childhood/elementary education as well as for professional certification in childhood special education grades 1-6. Students with prior childhood certification enter the program 2 track.

Similarly, students who enter the early childhood special education program with initial certification in early childhood Birth to Grade 2 and subsequently complete the master's degree, will meet the education requirements for New York State professional certification in early childhood education as well as for professional certification in early childhood
special education Birth to Grade 2. Students who hold early childhood certification enter the Program 2 track in early childhood special education.

The early childhood master's programs are designed for students whose primary interest is in teaching children from infancy through kindergarten. While students in the early childhood special education programs will also be prepared to teach grades 1 and 2, applicants whose primary interest is in these grades should apply to the childhood special education program, which encompasses grades 1-6.

The programs (with the exception of early childhood special education) are organized into a set of cross-categorical core courses and disability-specific specializations. Core courses develop knowledge and skills across a range of education settings; specializations provide in-depth preparation for working with students within a particularly disability area. Both core and specialization courses provide historical, theoretical, and clinical perspectives, as well as current research and direct experiences with students of different ages and profiles. A hallmark of Hunter's programs is their linking of theory to effective instruction.

**Visual Impairment: Rehabilitation Teaching and Orientation and Mobility - MSEd**

**Program Advisor**

L. Beth Brady  
(212) 772-4229  
929 West  
lbrady@hunter.cuny.edu

This master's degree program (Academic Plan: REHOM-MSED) prepares professionals in vision rehabilitation therapy (VRT) to work with individuals with visual impairments combined with the Orientation and Mobility sequence to prepare orientation and mobility specialists. This program prepares candidates for national certification from the Academy for Certification of Vision Rehabilitation and Education Professionals as vision rehabilitation therapists (VRTs) and certified orientation and mobility specialists (COMS). This program does not lead to NYS teacher certification.

**Admission Requirements**

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0, plus teacher of the blind and visually impaired teaching certificate.  
   OR  
   A master's degree with a GPA of at least 3.5.
2. Evidence of acceptable written languages skills.
3. Three letters of recommendation.
4. Evidence of work, volunteer or personal experience with individuals with visual impairments.
5. An interview with a special education faculty member.

**Progress Standards**

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

Hours 3 hrs
Credits 3 cr

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

Prereq or coreq: SPED 70050

Hours includes 10 hrs of field experience
Credits 3 cr

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

Prereq or coreq: SPED 74000
SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braille writer and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

**prereq or coreq:** SPED 74000, SPED 74100

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

**prereq:** SPED 74300

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

**prereq or coreq:** SPED 74000, 74100

SPED 76000 - Skills and Techniques for Rehabilitation Teaching I

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

**prereq:** SPED 74000, 74100
SPED 76100 - Skills and Techniques for Rehabilitation Teaching II

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

prereq: SPED 76000
Hours includes 10 hrs field experience
Credits 3 cr

SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments

Job modification options. Transition planning from education to adult services.

prereq: SPED 74000, 74100
Hours 45 hrs,
Credits 3 cr

SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100
Hours 230 hrs,
Credits 2 cr

SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100
Hours 230 hrs,
Credits 2 cr
SPED 76500 - Intermediate Orientation and Mobility

Theories related to perception, learning and development of individuals who are blind or visually impaired, and/or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

*prereq or coreq: SPED 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr.

SPED 76600 - Advanced Orientation and Mobility

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

*prereq or coreq: SPED 76500, 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits

SPED 76700 - Orientation and Mobility: Internship/Seminar

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

*prereq or coreq: SPED 76500, 76600, 76800, 76900
Hours 30 hrs seminar, plus conferences plus 340 hours of internship.
Credits 2 cr

SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar

This course teaches assessment, evaluation and lesson plan/execution, the systems of mobility used by persons who are visually impaired, and indoor travel techniques used by persons with visual impairments navigating familiar and unfamiliar buildings. Fifteen day summer course.

*prereq or coreq: permission of adviser
Hours 3 hrs
Credits 3 cr.
Two week summer course.

SPED 76900 - Advanced Orientation and Mobility Lab and Seminar

This course provides instruction in, lesson sequencing, pedagogical and andragogical methods for O&M instruction for persons who are blind or visually impaired. Through observation, and practice, this course develops competencies
in teaching travel techniques used by persons with visual impairments.

prereq: SPED 76800
Hours 3 hrs
Credits 3 cr.
Two week summer course.

**COUNR 72000 - Medical Aspects of Disability**

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

*Hours 45 hrs*
*Credits 3*

**COUNR 73000 - Counseling with the Aging**

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

*Hours 45 hrs*
*Credits 3*

**COCO 70100 - Counseling Skills and Interviewing Techniques**

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs*
*Credits 3*

**Exit Standards**

An overall GPA of 3.0.

**Visual Impairment: Rehabilitation Teaching Only - MSEd**

**Program Advisor**

L. Beth Brady
(212) 772-4229
929 West
lbrady@hunter.cuny.edu

This master's degree program (Academic Plan: VIRT-MSED) prepares professionals in vision rehabilitation therapy (VRT) to work with individuals with visual impairments. We also offer a combined program in Rehabilitation Teaching with Orientation and Mobility sequence to prepare orientation and mobility specialists Visual Impairment: Rehabilitation Teaching and Orientation and Mobility - MSEd. Both programs prepare candidates for national
certification from the Academy for Certification of Vision Rehabilitation and Education Professionals as vision rehabilitation therapists (VRTs).

Admission Requirements

A bachelor's degree from an accredited institution with a GPA of at least 3.0;

or

A master's degree from an accredited institution with a GPA of at least 3.5.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

VIRT-MSED

Total Credits

40

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience
Credits 3

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.
**SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments**

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

**SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments**

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Brailewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

**SPED 74400 - Assistive Technology for Learners with Visual Impairments**

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

**SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments**

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.
**SPED 76000 - Skills and Techniques for Rehabilitation Teaching I**

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

**SPED 76100 - Skills and Techniques for Rehabilitation Teaching II**

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

**SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments**

Job modification options. Transition planning from education to adult services.

**SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments**

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.
SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100
Hours 230 hrs
Credits 2 cr

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

Hours 45 hrs
Credits 3

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

Hours 45 hrs
Credits 3

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs
Credits 3

Exit Requirements

An overall GPA of 3.0.

Master of Social Work - MSW

Social Work - MSW

The MSW curriculum reflects a commitment to social justice, diversity and practice in the urban environment. The school offers several program tracks leading to the master of social work (MSW) degree. These include the full-time
Two-Year, the One-Year Residency (work study), the Accelerated Program, the Advanced Standing Program for those possessing a BSW, and the Dual Degree programs with the Bank Street College of Education.

The social work curriculum is designed to assure that graduates master the core competencies and practice behaviors identified as essential for all social workers by the Council on Social Work Education, our accrediting body. The curriculum assures that students also acquire advanced practice behaviors in their practice concentration and a field of practice. Please see http://www.hunter.cuny.edu/socwork/download/Competencies_and_Practice_Behaviors.pdf for a listing of these competencies and advanced practice behaviors.

The curriculum includes courses in human behavior and the social environment, social welfare policy and services, social work research, social work practice, including four practice concentrations: clinical practice with individuals and families; group work; community organizing, planning and development; organizational management and leadership. In addition to course work, all students are expected to complete at least one field practicum that is an internship in an approved field agency. All two year program students and accelerated full time students are expected to have two fieldwork placements of two semesters each, which involve three days per week in a field agency. Students accepted into the work-study program (OYR) complete only one year of fieldwork with four day per week assignments. All students enroll in a year long Social Work Practice Learning Lab. All students are required to take three courses in one of four practice concentrations. The field practicum must be taken concurrently with a practice course. In addition, students must select advanced courses which focus on a field of practice: a specific social problem, population or institutional auspice. The fields of practice offered are: children, youth and families; gerontology; world of work; health and mental health; global social work and practice with immigrants and refugees. Elective courses in these areas and in specialized skills and problem areas such as family treatment, treatment of trauma, and substance abuse are also offered.

Note: The CUNY Graduate Center offers a PhD program in Social Welfare

**Admission Requirements**

Successful performance in graduate social work education requires emotional maturity and stability, interest in working with people and readiness to assume professional responsibilities. The applicant's knowledge of professional social work and/or experience in social work settings is an important consideration for admission. The criteria for admission are as follows:

- Applicants must hold a bachelor's degree from an accredited college or university. Undergraduate preparation should demonstrate a liberal arts background and intellectual capacity for graduate study.

- Records of international students require special evaluation and should be submitted as early as possible. All applicants whose prior language of instruction was not English are required to take the TOEFL and achieve a minimum score of 213; 80 IBT (internet-based test).

- Good undergraduate preparation along with tested understanding of the profession gained through voluntary, internship and/or paid experience are the keys to a successful application for admission.

- Advanced Standing applicants, in addition, must have an overall GPA of 3.0 and GPA of 3.2 in the social work major and must have received the BSW degree within the last 5 years. Advanced Standing students must submit Core Competency forms from their faculty advisor and senior placement field instructor which rate the applicant on the core (foundational) practice behaviors identified by SSSW.

- One Year Residency (OYR) applicants, in addition, must have a minimum of two years full time work experience as a social service worker or supervisor of social service workers. OYR applicants must provide a letter from their agency executive documenting full time employment, and the Agency Executive Agreement Form which commits the agency to provide schedule flexibility for the student for classes and to collaborate with the school to develop meaningful learning assignments as part of the student's work assignment. The agency also commits to provide the student with a new field instructor during Time Frame II, the residency
All applicants must submit an application, transcripts from all previous academic study, three professional letters of reference, and application fees. Completed applications for admission should be submitted by the deadline date established by the School each year. All admissions are subject to limitations of available seats in the school and placement in a field practicum. Applications for admission into the MSW program must be submitted online. Applicants may be required to participate in a group discussion as part of the admissions process.

For further information on admissions, e-mail admissions: grad.socworkadvisor@hunter.cuny.edu or swapp@hunter.cuny.edu or see the School's website at sssw.hunter.cuny.edu.

Transfer

Up to 12 non-matriculated credits of graduate social work courses, with a grade of B or better, completed within five years of MSW degree completion may be transferred from a social work program accredited by the Council on Social Work Education.

Students must complete a **Transfer of Credit Form** and supply a course description and syllabus for each course for which they are requesting transfer credit. Once all the documentation has been collected, the packet should be sent to the Admissions Office (for new students) or to the Student Affairs Office (for continuing students). The associate dean for academic and faculty affairs reviews all requests for transfer of credit. The maximum number of transfer credits is waived in the cases of applicants who apply and enter the program as transfer students. Once an applicant is accepted into the program and their documentation packet is collected, their transfer credits will be assessed, a course of study outlined, and the credits added to your Hunter College transcript as appropriate. Unfortunately, no academic credit can be given for life experience or previous work experience.

**Professional Liability Insurance**

As a condition of registration for fieldwork, students must have professional liability insurance. Professional liability insurance is provided through a school group policy, and payment for this policy is made at the time of registration. Cost of liability insurance does not exceed $20 per year. Fieldwork agencies may also require that students undergo a background check and pay for fingerprinting. The cost of fingerprinting varies.

**MSW Degree Program**

**Degree Requirements**

All students in the MSW Program must complete 60 credits composed of 16 three-credit courses and a requirement for a field practicum designed to ensure that students master the core (foundation) and advanced practice behaviors. The curriculum is organized into content areas; each area includes one to three courses required for degree completion. These areas are:

- Human Behavior and the Social Environment
- Social Welfare Policy and Services
- Social Work Practice Learning Lab
- Research
Practice Methods

Professional Seminar

Field Education

All work must be completed within a five-year period with grades of "Credit" or "Honors".

Degree Program Tracks

Two-Year Full-time Program

One-Year Residence (OYR) Work-Study Program

Accelerated OYR

Accelerated Full-time and Accelerated OYR Programs

Advanced Standing Program

Dual Degree Program: Silberman School of Social Work at Hunter College and the Bank Street College of Education

Infant and Parent Development Program

Program for Non-matriculated Students

Two-Year Full-time Program

The two-year full-time program is for qualified students who can devote themselves to full-time academic and field study. Full-time students are expected to attend classes two days a week, and to be in a field placement three days a week, for two academic years.

One-Year Residence (OYR) Work-Study Program

The one-year residence (OYR) program is a work-study program designed to provide graduate social work education for experienced students whose personal responsibilities make the two year full-time program impractical. In this work-study model of social work education, the student's field work requirements are met at the agency of employment. As a result, the student is able to remain employed while earning MSW degree credits through all phases of the program until completion of the degree.

At the time of application OYR applicants must have completed at least two years of full-time employment in a recognized social welfare organization or agency and their current social welfare employer must agree to sponsor them. Sponsorship requires the agency to agree to provide the student with an educationally sound field work assignment. The field placement could expand on the student's current work assignment, incorporating new opportunities for learning in a social work capacity: for example, the addition of new cases, groups or projects. The agency must also provide a field instructor who is a licensed social worker as well as flexible scheduling for the student to attend classes during the residency year.

The program is organized around three "time frames," which include both part-time and full-time study. In total, in the standard OYR program students enroll in course work for five semesters and two summers. Students are permitted to take up to 30 hours of course work on a part-time basis while remaining in full-time employment. The program offers opportunity for acceleration for students who are in good academic standing.

Time Frame I is completed in evening or day classes over two semesters and one summer. Most students complete the first time frame in one year, earning 21 credits.

Time Frame II, also known as the "residency" year, occurs during the second year of matriculation. Students enroll in three courses while completing their single 900 hour field work requirement in their chosen method of practice. The requirement for a single practicum is based on the student's prior knowledge of social service organizations and the delivery of social services on a pre-professional level. The practicum requirement can be completed in four days a week (28 hours per week) during the fall and spring including January when classes may not be in session or three
days a week in fall, spring, and summer. Students can take classes all on one day during the day, late afternoon and evening and/or Saturday.

**Time Frame III** represents the culmination of course work requirements. Classes are held in the evening.

The **Accelerated OYR** program takes 24 months to complete. Students enter in the spring and complete Time Frame I with intensive study in the evenings during spring and summer. Time Frame II is essentially the same as in the standard OYR program (see above) with additional study required in the winter session. Students complete their remaining requirements in their second summer and the following fall. Because of its acceleration, this program is intense and requires a significant commitment of time and energy.

**Accelerated Full-Time and Accelerated OYR Programs**

The Accelerated Programs are designed for outstanding students prepared to participate in an intensive, year-round learning experience beginning in January. The Accelerated Program option is available only to those students wishing to specialize in Clinical Practice with Individuals and Families. Full-time students complete the program in three semesters plus two summers of study. Availability for class in the afternoon and evening during the first semester and summer of enrollment is essential. These students are assigned field placements and complete their first year requirements by the end of the summer in their first 8 months of enrollment. They start their third semester in the fall and graduate in the following August.

Students who are already working in the human service field and meet the entry criteria for the One-Year Residency Program described above, complete the program in four semesters and two summers of study. They enter the Accelerated OYR program beginning with evening study in January through the summer and complete their Time Frame II studies in the following fall and spring. They are eligible to graduate in their second summer or the following December. Winter session study is also required.

**Advanced Standing Program**

The advanced standing program is an intensive program for outstanding students who have graduated from a baccalaureate social work program accredited by the Council on Social Work Education. A limited number of qualified applicants are accepted. Applicants must have received their undergraduate degree within the last five years.

Applicants to the advanced standing program must have an overall grade point average (GPA) of 3.0 and a GPA of 3.2 in the social work major. Applicants must meet all other admission criteria for acceptance into the graduate social work program at Hunter. Some courses required in the first year of the MSW program will be waived for applicants accepted in the advanced standing program. Hunter's advanced standing students either begin in the summer and continue through the following academic year of full-time study or start in the fall and complete their work the following summer.

**Dual Degree Program: Silberman School of Social Work at Hunter College and the Bank Street College of Education Infant and Parent Development Program**

This dual degree program is designed to prepare social workers to understand and work with the special needs and vulnerabilities of children from birth to age three and their families. The program prepares social workers for professional roles that combine both educational and clinical skills. The curriculum design incorporates theoretical and practice aspects of each degree into a cohesive educational and professional program. Applicants apply to each institution separately. The program requirements satisfy the accreditation standards for each degree.
In the first two years, students attend the two institutions sequentially, pursuing an intensive program at each of them. In the third year, students move between institutions to complete course work. Both institutions require a supervised field practicum. Applicants must meet all admission standards of the MSW program and are required to have experience in working with children.

Program for Non-matriculated Students

The School has learning opportunities for both pre- and post-masters students. Taking courses as a non-matriculated student can be a stimulating introduction to the MSW program and often motivates participants to apply for admission to a degree program. A maximum of nine credits is allowed and may be credited toward the degree upon matriculation. Only one course may be taken per semester.

Inquiries for pre-masters non-matriculation should be directed to the Admissions Office at the main campus (68th Street) of Hunter College. See http://www.hunter.cuny.edu/graduateadmissions.

Field Practicum

The Silberman School of Social Work has strong ties to many social agencies, which provide students with field placements in a variety of practice areas. Qualified agency staff members serve as student field instructors. The field practicum is an integral part of the social work curriculum. Agencies used as field practicum sites by the school are selected and approved by the school’s Office of Field Education. Approval criteria include field learning opportunities and availability of qualified agency-based field instructors. Students are expected to follow agency policies, including conducting home visits.

MSW Curriculum

The School of Social Work holds that social work education must integrate core social work values and knowledge with practical application in the field. Professional, academic and field learning experiences must satisfy the highest standards of excellence. The curriculum is designed to instill a sense of respect for human integrity, a concern for social conditions and a commitment to service within the value system of the profession.

The curriculum is developed according to the standards of the Commission on Accreditation of the Council on Social Work Education. Copies of these standards and the Educational Policy Statement are available in the reserve section of the Social Work Library, and in the office of the dean. These are also available online at http://www.cswe.org/File.aspx?id=13780. Consistent with CSWE standards our curriculum is designed to assure that graduates master the core competencies and practice behaviors identified as essential for all social workers. The curriculum assures that students also acquire advanced practice behaviors in their practice concentration and a field of practice. Please see http://www.hunter.cuny.edu/socwork/download/Competencies_and_Practice_Behaviors.pdf for a listing of these competencies and advanced practice behaviors.

The orienting knowledge courses at the core of the curriculum are related to human needs, particularly to the problems of the more vulnerable and disadvantaged populations of New York City. The required courses, electives and majors are all constructed to teach the social work approach to meeting the needs of society.

In addition to courses offered for credit, the school provides workshops on topics such as child abuse and neglect, cultural diversity, ethics, and government benefits, as required by the New York State Department of Education, Division of Professional Licensing. Course work is augmented and reinforced by the all-important field practicum. Agencies and service organizations in the various areas of social work practice, with their qualified agency supervisors and field instructors, provide the vital training and experience for students. The curriculum is organized into five professional curriculum areas and five fields of practice that reflect human needs and values and their associated social institutions and services. The curriculum includes foundation and advanced courses in:
Human Behavior and the Social Environment

This three-course sequence SSW 71100 SSW 71200 SSW 71300 and its related electives address the person-in-situation matrix with a specific focus of attention on issues of diversity (culture, class, ethnicity, race, age, sexual orientation, spirituality, ability, and gender). Stages of development across the life span define one axis, while critical contexts (individual, family, function and role-based groups, communities, organizations, and society) define the other axis of environmental forces that may impinge on social functioning.

Social Welfare Policy and Services

This two-course sequence SSW 70150 and one course in the 70200 series explores the history, planning, intent and operations of the US social welfare system. The courses identify key ideological frameworks that shape the current public debates over social welfare policy, analyze the structure of the social welfare system, and explore issues of poverty in the context of oppression, diversity and social justice. The 70200 courses each focus on a selected social welfare issue or special population.

Social Work Practice Learning Lab

The development of foundation competence is required in cross methods practice. This is achieved through enrollment in the Social Work Practice Learning Lab 1 & 2 and related field practicum skill workshops.

In the first year all students take SSW 71700 and SSW 71800 Social Work Practice Learning Lab. This course explores the institutional and social context of social work practice, the problem areas and populations served by social workers, and the differential use of practice methods and builds foundation competencies in professional social work. After successful completion of SSW 71700 students commence courses in their concentration.

SSW 71700 - Social Work Practice Learning Lab 1

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.

Credits 3
SSW 71700 and 71800 are required. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 71800 - Social Work Practice Learning Lab 2

This course sequence introduces core frameworks and approaches to practice as well as skills for practice. Assures that students develop foundation competencies in social work practice including key knowledge and skills from all methods: clinical practice with individuals and families, group work, community organization and administration.
prereq: SSW 71700  
Credits 3  
SSW 71700 and 71800 are required. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Social Work Research
