SSW 75100 - Social Work Research I

Principles of social research methods in the context of social work practice. Problem formulation, research design and role of research in social work, ethical issues, sampling, measurement and data collection.

Credits 3  
SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 75200 - Social Work Research II

Measurement strategies, qualitative data analysis, descriptive and inferential statistics, and methods of quantitative data analysis; data management. Data collected by students from their research projects is analyzed.

prereq: SSW 75100 or equivalent  
Credits 3  
SSW 75100 and 75200 (or SSW 75400) are required for all students. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Practice Methods Concentrations

Development of advanced competence in one of the following practice method concentrations: clinical practice with individuals and families; community organization, planning, and development; and organizational management and leadership is required. Every student majors in one of these concentrations and must take three sequential courses in that concentration or (with permission) two sequential courses in that concentration and an approved multi-method practice elective. Additional method and practice courses are offered; sequencing of requirements varies according to the various programs.

Clinical Practice with Individuals and Families

The clinical practice with individuals, families and small group concentration prepares students for agency-based clinical practice in the urban environment. Students in this concentration are prepared to counsel individuals, pairs and families in order to help with a variety of personal, interactional and social problems. Concepts of clinical assessment and intervention are taught from a biopsychosocial perspective. Students are exposed to a variety of theoretical modalities that are augmented by evidence-based-practice perspectives. Issues of diversity and oppression are integrated into the study of assessment, treatment planning and intervention as well as the professional relationship. Emphasis is placed on differential assessment and intervention with a variety of diverse client groups. Clinical services are offered in a wide range of practice settings, such as child and family agencies, unions, industries, hospitals, mental health and substance abuse clinics, courts and settlement houses. The setting of the service makes possible in-depth teaching about specific populations and problems, managing service needs and styles and such specific intervention models as crisis intervention, advocacy, and various brief and long-term treatment modalities.

SSW 72100 - Clinical Practice with Individuals Families, and Small Groups I
Development and use of clinical theory, practice and process. Integration and application of the values that underpin social work practice to engagement, biopsychosocial assessment and intervention.

prereq: SSW 71700
Credits 3
NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 72200 - Clinical Practice with Individuals Families, and Small Groups II

Application of clinical principles, including those of psychodynamic and family systems theories. Knowledge from human behavior and the social environment and social welfare policy and services areas and research findings is applied to the assessment of clients and their situations.

prereq: SSW 72100
Credits 3
NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 72300 - Clinical Practice with Individuals Families, and Small Groups III

Expands and deepens knowledge and skills from multiple theoretical perspectives for professional practice. Exploration of contemporary time-limited clinical practice models with a focus on the interface of these approaches with contextual factors such as agency setting; socio-cultural specificity and the client-worker relationship in assessment and intervention will be emphasized.

prereq: SSW 72100 and 72200
Credits 3
NOTE: SSW 72100, 72200 and 72300 are required for all Clinical Practice with Individuals and Families majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Community Organization, Planning and Development

This concentration develops students’ competence for community-based practice. It stresses the skills, techniques and strategies needed to mobilize people and resources to solve basic social problems at either the neighborhood or city-wide level. The social planning and social reform aspects of social work practice are underscored in seeking change to alleviate individual and family problems. Education and training are developed in collective action, advocacy, program evaluation, proposal writing, community outreach, legislative advocacy and other vital organizing roles. Field practicums occur in a number of settings in international organizations, city and state planning agencies, legislative offices, community engagement arms of human service organizations, and a wide variety of grassroots organizations. Students in these placements work on everything from local economic development issues, food and hunger projects, and tenant advocacy to LGBTQ issues and women’s rights.

SSW 74100 - Community Organizing, Planning and Development-I

Theory and practice of community organization and planning. Models and strategies for professional practice for community and client participation and empowerment. Community needs and resources; practice dynamics; dilemmas.

prereq: SSW 71700
Credits 3
SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.
SSW 74250 - Community Organizing, Planning and Development-II

Theoretical, strategic and technical aspects of planning with a focus on problem-solving analysis, design, implementation, and evaluation of community and service system interventions. Emphasizes impact of class, race, gender and sexual orientation on planning.

prereq: SSW 74100  
Credits 3  
SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.  
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 74350 - Community Organizing, Planning and Development-III

Uses Freirian methods to deepen students' strategic applications towards the creation of democratic experience, emphasizing leadership development, dynamics of power and privilege, and dilemmas/opportunities in working with not for the oppressed.

prereq: SSW 74100 and 74250  
Credits 3  
SSW 74100, 74200 and 74300 are required for all Community Organization, Planning and Development majors.  
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Organizational Management and Leadership

Students who elect to concentrate in Organizational Management and Leadership (OML) are prepared to assume varied management positions in social agencies, including the traditional supervisory, middle management, and executive positions as well as jobs as program planner and analyst, staff trainer, program director, or budget analyst. Those focusing on OML develop conscious and strategic use of self in managing the complex tasks of program managers. Students seeking to concentrate in OML should have some prior experience either in management and/or social work or human services line work. Field practicums are available in a wide range of public and private social agencies. Many students entering OML are in our One-Year Residency Program. A wide variety of placements are available for two-year OML students with the many graduates of SSSW in leadership roles around the city.

SSW 78100 - Organizational Management and Leadership I

Theoretical understanding of the operation of social agencies. Organizational structure, authority, goal setting and service implementation, interorganizational positioning, stability and survival, and staff and administrative functioning.

Credits 3  
SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 78200 - Organizational Management and Leadership II

Personnel management, staff training, volunteers and paraprofessionals, decision-making processes, budgeting, boards and committees, public relations and marketing, and methods of accountability.

prereq: SSW 78100 or dept perm  
Credits 3  
SSW 78100, 78200 and 78300 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.
SSW 78300 - Organizational Management and Leadership III

Program design in social agencies. Emphasis on assuring access, consistency, continuity and comprehensiveness of services, as well as client feedback mechanisms. Financial management, budgeting, strategic planning.

*prereq: SSW 78100 and 78200
Credits 3
SSW 781, 782 and 783 are required for all Organizational Management and Leadership majors. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Professional Seminar

The Professional Seminar is a capstone seminar that requires students to identify an emerging practice issue or concern, examine the known evidence, and design a study that better addresses the issue at hand. The course is designed as an integrating and synthesizing experience, wherein students consult with one another in addressing a specific concern. The course launches students into the profession with a keen sense that they can influence the context in which they will practice as social workers.

SSW 79000 - Professional Seminar

Utilization and integration of practice, research and policy to determine how an issue may be ameliorated or resolved. Taken in the final semester.

*Credits 3
This is a required course for all students.

Field Education

This two-to-four-term sequence of on-site work in social service agencies is an integral component of all pathways to the MSW degree. Students in field placement must be concurrently enrolled in a practice course: Social Work Practice Learning Lab, methods course or other practice course. Training is provided by a field instructor; it is monitored by the instructional faculty and the student’s adviser.

Two-Year and Advanced Standing Programs

SSW 76100 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

*prereq: Material Fee: $15
Credits 3
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information and full course descriptions.

SSW 76200 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.
prereq: SSW 76100  
Credits 3  
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 76300 - Field Instruction III

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76100 and 76200. Advanced standing program students enroll without prereq.  
Credits 3  
Material Fee: $15  
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 76400 - Field Instruction IV

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76200 and 76300  
Credits 3  
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

One-Year Residency and Dual Degree Programs

SSW 76700 - Field Instruction I

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: Material Fee: $15  
Credits 6  
OYR and Dual Degree students only. Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

SSW 76800 - Field Instruction II

Opportunities for students to perform social work tasks under the supervision of a field instructor. The integration and application of concepts and principles in a field setting.

prereq: SSW 76700  
Credits 6  
OYR and Dual Degree students only  
Please consult the School of Social Work website: http://www.hunter.cuny.edu/socwork/ for additional information.

Electives

Students may choose from a menu of courses within each curriculum area.
Fields of Practice Specializations

Students are expected to specialize in one of the following Fields of Practice. This includes an appropriate field practicum, enrollment in two pre-designated courses, and a specialization focus in research or professional seminar. Students should consult their faculty adviser for details.

Children Youth and Families
Gerontology
Health and Mental Health
World of Work
Immigrants and Global Social Work

Child Welfare: Children, Youth and Families

This field of practice is designed for students interested in working in public and/or private child welfare agencies, schools, or children, youth, and family organizations in direct service, supervisory, or administrative capacities. The developmental needs of children, youth and families; crises and disruptions in family life (broadly defined); conflicts and violence; child placement issues are a focus of attention. It prepares social workers to provide a broad range of services to individuals, groups and families in all phases of the family life cycle.

Aging

This specialization explores the aging process and the variety of issues affecting older adults and their family systems. It is guided by the principle that older adults are individuals and members of a family and community with rights and responsibilities—who must be afforded the necessary protection and assistance to participate fully in family, cultural and social life.

Health and Mental Health

This field of practice is designed for students interested in meeting the changing needs of people with medical and psychiatric problems; addressing patients’ rights, delivering services in hospitals, ambulatory care or primary care facilities, community-based clinics; chronic and long-term care settings.

Global Social Work Practice with Immigrants and Refugees

Indigenous perspectives from around the globe inform learning and practice in international contexts, and with immigrants and refugees in the urban environment. Special attention is paid to understanding the diverse meaning of adversity, strength and well-being towards developing sustainable, rights-driven and culturally relevant policy and practice.

Master of Urban Planning/Juris Doctorate - MUP/JD

Master of Urban Planning/Juris Doctor
Brooklyn Law School and Hunter Urban Policy & Planning jointly sponsor a program leading to the degrees of Juris Doctor (JD) and Master of Urban Planning (MUP).

Urban planners often turn to the legal profession for implementation of their work, and lawyers seek planners' advice in identifying present and future land use choices and regarding other development issues for public and private clients. Individuals with credentials in both areas are increasingly sought as advisors for urban policy makers and clients with urban land problems. This program is designed to provide students with the knowledge, skills and background necessary to practice both professions.

Students must be apply and be accepted to both programs separately. Hunter College admits students for either the fall or spring semester. Students typically spend their first year at BLS, followed by one year at Hunter College, and then the remaining time integrating studies by registering concurrently in both schools. Advisors at both institutions, however, will work directly with individual students to devise the most appropriate plan of study.

Students can pursue an MUP/JD on a full or part-time basis. In the MUP/JD joint program, a student may receive up to 10 of the 86 credits required for the JD degree by successfully completing approved course work in the MUP program. Similarly, a student may receive up to 15 of the 60 credits for the MUP degree by successfully completing approved law school courses. Students enrolled in the law school's full-time program may complete the requirements for both degrees in four to five years, depending on the number of summer courses. If pursued on a part-time basis, the program generally takes five to six years to complete depending on the number of summer courses. With approval, the MUP degree may be awarded in advance of the JD degree; otherwise, degrees are awarded concurrently upon completion of all degree requirements.

**Master of Urban Planning - MUP**

**Urban Planning - MUP**

The Master of Urban Planning program has four integrated components: a core curriculum, an area of concentration, an internship, and a studio. Its purpose is to train planners who, like their counterparts throughout the nation, have general expertise in planning theory and methods, an understanding of urban structure, specialized knowledge of a chosen planning concentration, and the skills and intellectual maturity to operate in the professional arena.

The 54-credit program is structured to provide students with the expertise essential to professional practice and to allow for flexibility to accommodate individual professional and academic aspirations. The core curriculum (21 credits) provides basic training in planning. It has a dual purpose: to place planning in its societal and theoretical context and to teach the skills of the profession. The area of concentration (12 credits) allows for in-depth training in a specific subfield of general planning practice. The studio (6 credits) provides experience in applied planning. Unrestricted electives (12 credits) allow for the exploration of a range of planning topics in elective courses and through independent research.

In organizing their programs, students work closely with faculty advisers.

Each student must also take one 3-credit internship. As interns, students may work for city and suburban planning agencies, neighborhood development groups, banks, municipal housing or budgeting units, planning journals, and other groups approved by the department. For many students, field experiences have led to full-time employment in their internship agencies after graduation.

In addition, the department has several internal work opportunities generated by the faculty and the Center for Community Planning and Development, which count towards the internship requirement. Faculty members routinely include in their research grant proposals funds to support graduate research assistants.
The Hunter College graduate program in urban planning is accredited by the Planning Accreditation Board (PAB), which is the national accrediting body of urban planning degree programs. The PAB is sponsored by the Association of Collegiate Schools of Planning (ACSP), the American Institute of Certified Planners (AICP), and the American Planning Association (APA). Students with multiple professional interests may wish to pursue joint degree programs with other New York universities. For example, a joint master of urban planning/juris doctor, available through a cooperative program with Brooklyn Law School, allows students to earn the two degrees in four years of full-time study.

Admission Requirements

Requirements for Admission to the Planning Program

Traditionally, most applicants come from the social sciences (economics, geography, sociology, political science, and urban and American studies), engineering, and architecture. English majors and students of religion, art history, and business have also enrolled. While many students enter Hunter directly from undergraduate study, a large percentage have spent time away from school and return to develop their knowledge and expertise or to prepare for a new career. Applicants must meet the general admission requirements for Hunter graduate programs, except for the Graduate Record Examination, which is not required. The program requires a minimum GPA of 3.0 (although the program may recommend admission to students with lower GPAs when their GRE scores, documentation of professional experience in the field, or graduate-level academic work documents adequate preparation to successfully pursue the degree). These requirements include the submission of transcripts and two letters of recommendation, along with a completed application form obtained from the Hunter College Graduate Admissions Office. Applicants are encouraged to visit the department during scheduled open house sessions and to contact the program director by e-mail with specific questions. Applicants are also encouraged to reach out to individual faculty members who may share their professional or research interests.

Degree Requirements

Requirements for the Master of Urban Planning

The degree requires 54 credits of graduate study. Of these, 42 must be selected within course offerings of the Hunter College graduate program in urban planning. With the approval of the department, 12 credits may be elected from other graduate programs.

Credits are distributed as follows:

- Core Curriculum ................................. 21 credits
- Area of Concentration ........................... 12 credits
- Planning Studio ................................. 6 credits
- Internship ................................. 3 credits
Core Curriculum

The core curriculum includes content and courses in four areas: theories and process of urban planning, urban structures, public policy and law, and planning methods and information management. Students must take required courses, except where choices are allowed. The core consists of:

**URBP 70000 - Introduction to Planning**

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy. Also, an introduction to the various planning sub-fields including urban design, land development, economic and community development, housing, environmental planning, transportation planning, and public finance.

*Hours 45  
Credits 3*

**URBP 70100 - History and Theory of Urban Planning**

The study of conscious efforts to guide city development from ancient civilizations to the present, and the evolution of planning theory to guide these actions. Emphasis on the relationship between public and private planning activities and the set of roles available to contemporary planners.

*Hours 45  
Credits 3*

**URBP 71900 - Land Use, People and the Environment**

A comprehensive overview to the theory and practice of land use planning and zoning that sees land as a set of social relations that define the way cities and urban regions develop. Land use planning is placed within larger economic, political, and legal contexts and issues of environmental conservation, environmental justice, air and water quality, public health, energy, infrastructure, and global sustainability.

*Hours 45  
Credits 3*

**URBG 70200 - Structure of the Urban Region**

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

*Hours 45 hrs,  
Credits 3 cr*
URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,
Credits 3 cr*

Plus, choice of two of the following methods courses:

**URBP 71200 - Methods of Planning Analysis**

Introduction to methods of demographic and economic analysis. Emphasis on applications to current urban planning practice.

*Hours 45
Credits 3*

**URBG 71300 - Introduction to Qualitative Research Methods**

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

*Credits 3*

**GTECH 70900 - Introduction to Geographic Information Systems**

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management.

*coreq: GTECH 71000
Hours 4 hrs.
Credits 3 cr.*

**Areas of Concentration**

**Areas of Concentration**

The graduate program offers the following areas of concentration: Community Planning and Advocacy (including Human Services), Sustainability and the Environment, Transportation and Infrastructure, Housing and the Built Environment (including Urban Design and Historic Preservation), Economic Development, and General Practice. Each concentration is designed to give students a working knowledge of specific foci within the field of planning. To fulfill the concentration requirement, students select four courses related to the concentration in consultation with their adviser, from the suggested list.

Students with special interests may create their own concentration. In developing their programs, students may combine Hunter courses with the resources of the larger City University community or other approved institutions. Some individually tailored specializations may include Education Planning and Policy, Immigration and Global Change, and Urban Information Systems.
Representative Courses in the Areas of Concentration

Community Planning and Advocacy (including Human Services)

URBP 73100 - Neighborhood Planning Workshop

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

_prereq: URBP 72700 or permission of the instructor

Hours 45 hrs,
Credits 3 cr

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

Hours 45 hrs,
Credits 3 cr

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

Hours 45 hrs,
Credits 3 cr

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

Hours 45 hrs,
Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

Hours 45 hrs,
Credits 3 cr

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.
URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

Hours 45  
Credits 3

URBG 76000 - Cities and Health

The course will examine health problems and policy solutions from the perspective of the city, integrating the theory and analytic approaches from the fields of public health and urban planning, through such topics as the historical relationship between public health and urban planning, environmental justice as it relates to urban health, and urban health care systems.

Hours 45  
Credits 3

URBP 71600 - Participatory Planning Using GIS and the Internet

Understanding complexities associated with using GIS and other digital technologies in community organizing and urban development; intensive lab-based course

prereq: GTECH 71000 or perm instr.

Credits 3

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,  
Credits 3 cr

Sustainability and the Environment

URBP 72000 - Law of Land Use Regulation I

Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for
controlling urban growth.

*Hours 45  
*Credits 3

**URBP 72200 - Land Use Planning Workshop**

Application of land use planning skills to specific problem in New York metropolitan region. Class operates as team to produce recommendations.

*prereq: URBP 71900 or permission of the instructor  
*Hours 45 hrs,  
*Credits 3 cr

**URBP 73400 - Environmental Planning**

Study of current and emerging issues in controlling and preventing environmental degradation. Emphasis on administrative and political considerations.

*Hours 45 hrs,  
*Credits 3 cr

**URBP 73500 - Law of Environmental Planning**

Examination of legal aspects of environmental protection and methods of public intervention. Study of role of law in formulation and implementation of environmental public policy.

*Hours 45 hrs,  
*Credits 3 cr

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

**URBG 78700 - Selected Topics in Urban Planning and Urban Affairs**

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,  
*Credits 3 cr

**Transportation and Infrastructure**

**URBG 72500 - Infrastructure and Site Planning**

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

*Hours 45 hrs,  
*Credits 3 cr
URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

*Hours 45 hrs,
Credits 3 cr*

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

*Hours 45 hrs,
Credits 3 cr*

URBP 73300 - Transportation Planning Methods and Models

Review of variety of transportation planning tools including highway capacity calculations, transportation impact studies, models of trip generation, trip distribution, modal split and network assignments. Presentation of related microcomputer software.

*prereq: permission of the instructor
Hours 45 hrs,
Credits 3 cr*

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,
Credits 3 cr*

Housing and the Built Environment (including Urban Design and Historic Preservation)

URBP 72300 - Introduction to Urban Design

Analysis of three-dimensional urban space by studying methods of visual perception and notation; criteria for determining desirable spatial relationships; and means of implementing policies to achieve urban design goals.

*Hours 45 hrs,
Credits 3 cr*

URBG 72500 - Infrastructure and Site Planning
Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

*Hours 45 hrs,
Credits 3 cr*

**URBP 72600 - Site Planning Workshop**

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

*Hours 45 hrs,
Credits 3 cr*

**URBG 72700 - Introduction to Housing**

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,
Credits 3 cr*

**URBG 72800 - Housing and Community Development Seminar**

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

*prereq: URGB 72700 or permission of the adviser
Hours 45 hrs,
Credits 3 cr*

**URBG 74200 - Economics of Real Estate Development**

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

*Hours 45 hrs,
Credits 3 cr*

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

**URBG 78700 - Selected Topics in Urban Planning and Urban Affairs**

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,
Credits 3 cr*

Economic Development
URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

Hours 45 hrs,
Credits 3 cr
Open only to graduate students matriculated in Department of Urban Affairs and Planning

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

Hours 45 hrs,
Credits 3 cr

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

Hours 45 hrs,
Credits 3 cr

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

Hours 45 hrs,
Credits 3 cr

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 45 hrs,
Credits 3 cr

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

Hours 45 hrs,
Credits 3 cr

URBG 75700 - Politics of Education
Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

*Hours 45  
*Credits 3

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

**URBG 78700 - Selected Topics in Urban Planning and Urban Affairs**

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,  
*Credits 3 cr

**General Practice**

**URBG 72500 - Infrastructure and Site Planning**

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

*Hours 45 hrs,  
*Credits 3 cr

**URBG 72700 - Introduction to Housing**

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,  
*Credits 3 cr

**URBP 73100 - Neighborhood Planning Workshop**

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

*prereq: URBG 72700 or permission of the instructor*

*Hours 45 hrs,  
*Credits 3 cr

**URBP 73200 - Introduction to Transportation Planning**

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.
URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

Planning Studio

To solidify knowledge and skills gained in the core curriculum and other courses, students are required to participate in a 6-credit planning studio. This requirement is satisfied by completion of URBP 73700 (6 credits) or URBP 73800 (Planning Studio I, 3 credits) and URBP 73900 (Planning Studio II, 3 credits), which are taken consecutively. Ordinarily students take the studio course in their second year of study or after completion of at least 30 credits of work.

Master of Science - MS / Advanced Certificate

Applied Behavior Analysis - MS / Advanced Certificate

Program Coordinator

April Kisamore
(212) 650-4700
910 West
AABinfo@hunter.cuny.edu

The Hunter College School of Education Master of Science in Applied Behavior Analysis (ABA) program (Academic Plan: APBEH-MS) will provide intensive training in behavior analytic intervention to professionals seeking to work or currently working with children, youth, and adults with autism spectrum disorder as well as to the supervisors and administrators of the programs in which they work. These professionals will then be well prepared to implement applied behavior analytic interventions with this population. Applied behavior analysts work with individuals ranging in age from infancy through adulthood and old age in settings that include schools, homes, day programs, communities, residential care settings, businesses and research laboratories. The program will prepare students to develop, deliver, and evaluate the effectiveness of applied behavior analytic intervention for learners with autism and increase the availability of professionals who have the appropriate training and experience to provide behavior analytic services to children, adolescents and adults with autism spectrum disorders. Students who complete the Master of Science will have the graduate training necessary to sit for the national Board Certified Behavior Analyst® (BCBA) exam. Upon passing the BCBA exam, graduates will be eligible for New York State's new license in behavior analysis.
The post-master's, advanced certificate program (Academic Plan: APBEH-AC) provides intensive training to professionals in applied behavior analysis and its applications to working with children, youth and adults with autism spectrum disorder as well as to supervisors and administrators of Applied Behavior Analysis programs. This program is designed to prepare professionals to implement ABA intervention and to sit for the international Board Certified Behavior Analyst® exam. This program does not lead to NYS certification.

Admission Requirements

Master's Degree

1. A bachelor's or master's degree from a regionally-accredited university in an approved human services field and a minimum 3.0 GPA.
2. Resume and two professional references to be included with the application for matriculation.
3. If requested, an on-site interview with program faculty.

Advanced Certificate

1. A master's degree from an accredited institution in education, psychology, or behavior analysis.
2. Completed a graduate level course in autism spectrum disorders. Applicants who have not completed such a course will be admitted with the condition of completing SPEDE 77100, Autism Spectrum Disorders, during their first semester in the program.
3. On-site interview will be required.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for these programs.*

Progress Standards for Master of Science

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
3. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more Ins will not be allowed to register for any courses.
4. All field experiences will take place in New York City.
5. Any student who receives a grade below a B in a field experience course must apply to the chairperson of the department to repeat that course, which may only be repeated once.
6. Any student who receives a grade of F, I, or WU may not reregister and will not be allowed to continue in the program.

Progress Standards for Advanced Certificate

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)

Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Courses

Academic Plans

- Master's Degree: APBEH-MS
- Advanced Certificate: APBEH-AC

Total Credits

- APBEH-MS: 36
- APBEH-AC: 18

Course of Study Master of Science

EDABA 75000 - Experimental Analysis of Behavior

The primary focus of this course is on behavior analytic theory in the context of basic research. Topics to be covered include operant and respondent conditioning, reinforcement, discriminated operants, reinforcement schedules, and social learning.

Hours 3
Credits 3

EDABA 75500 - Functional Behavior Assessment

This course examines various behavior analytic assessment methods that are designed to identify the function of challenging behavior. Both experimental and non-experimental assessment methodologies will be examined along with methods of data collection and analysis.

_prereq: EDABA 795 or EDABA 798
Hours 3
Credits 3

EDABA 77000 - Practicum in Applied Behavior Analysis I

This course is the first of a two-course sequence in conducting fieldwork in applied behavior analytic settings. A total of 180 hours of fieldwork which includes designing, conducting, and analyzing data from applied behavior analytic interventions is required.

_prereq: EDABA 795 and approval of graduate advisor
Hours 3 plus 12 hours of field experience
Credits 3

EDABA 77100 - Practicum in Applied Behavior Analysis II
This course is the second of a two-course sequence in conducting fieldwork in applied behavior analytic settings. A total of 180 hours of fieldwork which includes designing, conducting, and analyzing data from applied behavior analytic interventions is required.

prereq: EDABA 770 and approval of graduate advisor  
Hours 3 plus 12 hours of field experience  
Credits 3

EDABA 78000 - Thesis I

This course is the first course in a two-course sequence in which students conduct an original applied behavior analytic research project. Under the supervision of a faculty advisor, students conduct a literature review, develop a research proposal, and apply for necessary research approvals.

prereq: EDABA 790, EDABA 791 and approval of graduate advisor  
Hours 3 plus conferences  
Credits 3

EDABA 78100 - Thesis II

This course is the second course in a two-course sequence in which students conduct an original applied behavior analytic research project. Under the supervision of a faculty advisor, students conduct an original research project based on the proposal developed in EDABA 780.

prereq: EDABA 780 and approval of graduate advisor  
Hours 3 plus conferences  
Credits 3

EDABA 79000 - Single-Subject Research Design

This course is an introduction to single-subject research methods used in applied behavior analysis. In addition, data collection, data analysis, and data presentation will be covered.

Hours 45  
Credits 3

EDABA 79100 - Ethics and Professionalism for Applied Behavior Analysts

This course provides an introduction to ethical and professional behavior for applied behavior analysts. Topics to be covered include a variety of ethical and professional issues for applied behavior analysts as they relate to research and practice.

Hours 45  
Credits 3

EDABA 79300 - Applied Behavior Analytic Autism Intervention for Adults

This course examines applied behavior analytic intervention for adults with autism spectrum disorder. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include promoting independence, social skills, healthcare, leisure skills, vocational skills, employment, and managing problem behavior. Other areas to be covered include motivational systems, behavior assessment and staff training.
EDABA 79500 - Applied Behavior Analysis I

The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

prereq or coreq: SPEDE 77100

EDABA 79600 - Applied Behavior Analysis II

This course examines specific behavior analysis methods and applications including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.

prereq: EDABA 79500

EDABA 79800 - Behavior Analytic Approaches to Learning

This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

EDABA 79900 - Applied Behavior Analytic Autism Intervention

This course examines applied behavior analytic intervention for individuals with autism. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive environments.

prereq: EDABA 79500 or EDABA 79800

Course of Study Advanced Certificate
EDABA 79100 - Ethics and Professionalism for Applied Behavior Analysts

This course provides an introduction to ethical and professional behavior for applied behavior analysts. Topics to be covered include a variety of ethical and professional issues for applied behavior analysts as they relate to research and practice.

*Hours 45  
*Credits 3

EDABA 79500 - Applied Behavior Analysis I

The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

*prereq or coreq: SPEDE 77100  
*Hours 45  
*Credits 3

EDABA 79600 - Applied Behavior Analysis II

This course examines specific behavior analysis methods and applications including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.

*prereq: EDABA 79500  
*Hours 45  
*Credits 3

EDABA 79800 - Behavior Analytic Approaches to Learning

This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

*Hours 45  
*Credits 3

EDABA 79000 - Single-Subject Research Design

This course is an introduction to single-subject research methods used in applied behavior analysis. In addition, data collection, data analysis, and data presentation will be covered.
EDABA 79900 - Applied Behavior Analytic Autism Intervention

This course examines applied behavior analytic intervention for individuals with autism. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive environments.

prereq: EDABA 79500 or EDABA 79800

EDABA 79300 - Applied Behavior Analytic Autism Intervention for Adults

This course examines applied behavior analytic intervention for adults with autism spectrum disorder. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include promoting independence, social skills, healthcare, leisure skills, vocational skills, employment, and managing problem behavior. Other areas to be covered include motivational systems, behavior assessment and staff training.

Exit Requirements

Master's Degree

1. An overall GPA of 3.0.

Advanced Certificate

1. An overall GPA of 3.0.
2. No course grade below B

Master of Science/Master of Science (MS/MS)

Nursing Administration/Urban Policy and Leadership (MS/MS)

The specialization is a dual degree program (Master of Science in Nursing Administration and Master of Science in Urban Policy and Leadership) in collaboration with the Department of Urban Policy and Planning, School of Arts and Sciences. The MS/MSUPL program prepares nurses to assume positions of leadership in a variety of health care settings, systems and agencies. The program emphasizes multidisciplinary approaches to management, policy, and planning in nursing and health care, particularly within urban settings.
The program will provide the essential education, knowledge base, and abilities needed by graduates to function as effective nurse administrators across the continuum of care, from wellness to illness. Increased emphasis will be placed on the provision of leadership for the planning of community-based care, integrated systems, and community networks. Theoretical, practical, and technical considerations around urban problems and strategies for change will also be considered in order to address societal determinants affecting urban communities and constituencies.

The program's curriculum emphasizes the acquisition of interdisciplinary knowledge about health administration, urban policy, urban policy processes, and leadership in the public and non-profit sectors. It encourages creative critical thinking about health care and the influence of social, economic and political changes. The program's educational objectives seek to: achieve integrated understandings of urban healthcare problems; gain appreciation of the structure of the urban community and the people who live and work there; develop skill in managing and evaluating healthcare programs, and use the results of policy and program analysis in decision-making. Accordingly, the curriculum of the MS/MSUPL dual degree program will provide leadership capacity for the understanding of urban healthcare problems and related social, economic, and political opportunities for and in the urban community and the people who live and work there.

**Nursing Administration MS/Urban Policy and Leadership MS - 52 credits**

- **MS Nursing administration 25 credits**
- **MS Urban Policy and Leadership 27 credits**

**Admissions Requirements**

Candidates apply to both programs and are admitted separately.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

**MS in Nursing Administration**

- Graduation from an accredited baccalaureate program in nursing
- Licensure and current registration as an RN in New York State
- Cumulative undergraduate GPA of 3.0 overall and in nursing coursework
- Completion of a basic statistics course and an undergraduate research course
- Completion of an on-line application form including a personal statement and at least two relevant letters of recommendation from a supervisor or faculty member
- Statement of purpose delineating your rationale for interest in the program and your related goals moving forward

Please note that these are the minimum requirements; meeting them does not guarantee admission.

**MS in Urban Policy and Leadership**

Applicants must meet Hunter's general graduate admission requirements, except for the Graduate Record Examination, which is not required. Applicants must present at least 12 undergraduate credits in social science. Students with relevant undergraduate majors or nonacademic experience may, after consultation with the graduate adviser, request admission with special conditions.
MS Nursing Administration Core Courses (12 Credits)

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45  
Credits 3*

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course  
Hours 45  
Credits 3*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45  
Credits 3*

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

*Hours 45  
Credits 3*

Core Urban Policy and Leadership (21 credits)

Core Urban Policy and Leadership General (12 credits)

**URBG 70100 - Introduction to Organization and Management for the Public and Non-Profit Sectors**

An introduction to organizational structures and theories, with attention to the identification and analysis of management challenges that organizations face when seeking to carry out public purposes in urban settings. This is a core requirement for MS students in the non-profit track, and an elective for others.

*Hours 3 hrs  
Credits 3 cr.*
URBG 79000 - Urban Development Workshop I

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

*prereq: permission of the adviser
Credits 6 cr

URBG 79200 - Urban Affairs Capstone

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

*prereq: permission of the director/adviser
*Hours 45 hrs,
*Credits 3 cr

Core Methods Courses (6 credits)

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

*Hours 45 hrs,
*Credits 3 cr

& one choice of the following three (3 cr.)

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,
*Credits 3 cr

GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management.

*coreq: GTECH 71000
*Hours 4 hrs.
*Credits 3 cr.

URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.
Credits 3

Core Structure Course (3 credits.)

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

Hours 45 hrs,
Credits 3 cr

-or-

URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constrints, suburbanization, and secession and ask, "Is it getting better?"

MS Nursing Administration specialization courses, (10 credits)

NURS 74000 - Leadership and Management in Health Care II

Analysis of how nurse leaders and other professional in health care agencies interact at local, regional, and national levels, conduct policy assessment, identify health needs of culturally diverse aggregates, and develop culturally focused policies and programs to address the needs.

prereq: NURS 70400, NURS 73500, PAF 91200, PAF 91720
coreq: PAF 91400, PAF 91300
Hours 30 hours theory, 15 hours seminar, 167 hours practicum,
Credits 5 cr

NURS 74500 - Leadership and Management in Health Care III

An integrative experience in the field of public affairs as it relates to health care generally and nursing specifically. Students will prepare a professional work in policy analysis or an organizational assessment.

Cross-listed (Cross-listed with PAF 97930)
prereq: NURS 74000
Hours 37.5 hours theory, 15 hours seminar, 166 hours practicum,
Credits 5 cr

Core: Urban Policy and Leadership Specialization/Fieldwork Courses (included above)
**URBG 79000 - Urban Development Workshop I**

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

*prereq: permission of the adviser
Credits 6 cr*

**Nursing Administration elective (3 Credits)**

One (1) three-credit Nursing Administration elective, chosen in consultation with academic adviser.

**Urban Policy and Leadership electives - 6 credits**

Two 3-credit electives in Urban Policy and Leadership chosen in consultation with an academic adviser.

School of Arts and Sciences

Hunter College has a longstanding commitment to graduate education, having first offered graduate courses in 1921. With an outstanding faculty celebrated for its research, creative work, and service to the community, the School of Arts and Sciences offer a broad range of liberal arts and professional programs. Graduate courses of study lead to MA, MS, MUP and/or MFA degrees; in addition, some programs welcome non-degree students. Besides teaching in Hunter's graduate programs, many of the School's faculty members participate in the doctoral programs housed at the City University of New York's Graduate Center.

Master's degrees

To gain admission as a matriculated student, the applicant must satisfy the college's general graduate admission requirements unless otherwise specified by a department.

Prospective students apply to the program of their choice through the college's Office of Graduate Admissions 695 Park Avenue, Room 223 North, New York, NY 10065; (212) 396-6049. For further information on admission and degree requirements, consult the individual departmental listings in this catalog and on our website: www.hunter.cuny.edu.

Most graduate programs in the School of Arts and Sciences are housed at Hunter's main campus, located at Lexington Avenue and 68th Street. The MFA program in Studio Art is located downtown in a new facility at 205 Hudson Street.

Anthropology

OVERVIEW

Anthropology is the study of humanity in all its cultural and biological diversity. In the United States, the discipline traditionally includes four fields: archaeological, biological, cultural, and linguistic anthropology, although research increasingly examines questions at the borders of the fields or which span more than one field. The department maintains a commitment to a four-field approach to graduate training despite a national trend towards increasing specialization at earlier stages of graduate training. A student with a solid four-field background can readily opt to
specialize, while one-field specialists are hard to retrain as generalists. Anthropology provides essential foundations and perspectives for the study of the social and natural sciences and the humanities, as well as for applied professions such as education, public health, and social work. The Anthropology curriculum emphasizes original research, scholarly writing, informed critical thinking, and the understanding of and tolerance for diverse cultures and ways of life.

We consider hands-on training in qualitative and quantitative methods to be an integral part of graduate training. The faculty is actively involved in interdisciplinary teaching, interdepartmental collaborative efforts, and individual and team research projects, including many that involve new information technologies, cultural resource management, environmental impact assessment, ethnicity and gender, regional and area studies, and economic development, to name a few. The Department is also committed to involving graduate students in ongoing faculty-supported research, and in encouraging independent student-initiated research projects.

The Master's program is tied to the evening course schedule with the majority of courses commencing after 5:00 PM, thereby offering a unique educational resource in an urban area where the majority of potential graduate students are self-supporting and hold full-time jobs.

What can I do with my degree in Anthropology?

The program prepares you for further study in a Ph.D. program, as well as for careers in government, the private sector, non-governmental organizations, museums, and numerous other fields.

Admissions:

Please note that until further notice the Department of Anthropology is not accepting new students for the MA in Anthropology

Anthropology - MA

Please note that until further notice the Department of Anthropology is not accepting new students for the MA in Anthropology.

The Department of Anthropology at Hunter College offers the only master's program in general anthropology within the CUNY system. The program has a commitment to a four-field approach to graduate training, requiring coursework in cultural anthropology, physical anthropology, archaeology, and anthropological linguistics in order to prepare students for flexibility in future careers in research, teaching, and related fields.

The program is scheduled primarily in the evening to accommodate students who hold full-time jobs. Virtually all students who complete the MA program and apply to PhD programs at other institutions are admitted to a program. Some MA students are accepted to PhD programs before completing the requirements for the Hunter MA. Hunter MA students may take courses at the CUNY Graduate Center. CUNY Graduate Center offers a PhD in anthropology.

Requirements for Admission

In addition to meeting the general requirements for admission, students must have at least 9 credits in undergraduate anthropology or a related field, although in special cases this requirement may be waived.

Requirements for the Degree

1. 30 Credits

A minimum of 30 credits beyond the BA

2. Fields of the Discipline

The program of study must be chosen to fulfill a general knowledge in all four fields of the discipline. The four fields are: anthropological linguistics, anthropological archaeology, biological anthropology, and cultural anthropology (ethnology).

3. Required Courses:

ANTH 70100 - Ethnology (Core Course)

Surveys history, methods, theory, and basic findings of cultural and social anthropology.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.
ANTH 75000 - Archaeology (Core Course)

Introduces basic theory, method, and findings of prehistoric archaeology in an anthropological framework.

*Hours 3 hrs, including conferences.*
*Credits 3 cr.*
*All students must consult with the graduate adviser before registering for any course.*

ANTH 77000 - Linguistics (Core Course)

*Hours 3 hrs, including conferences,*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

ANTH 79000 - Biological Anthropology (Core Course)

An introduction to the biology and evolutionary history of humans, including evolutionary theory, genetics, morphology, primate behavior, sociobiology, and paleontology.

*Hours 3 hrs, including conferences,*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

Additional Information

The examinations in each of these courses represent the qualifying exam for each of the four fields. Students are required to pass those courses with a grade of B or better. Students are strongly advised to complete these courses early in their graduate training.

4. Foreign Language Requirement

A reading knowledge of at least one foreign language appropriate to the field of specialization, or a demonstrated competence in statistics is required. Consult the graduate adviser for more information.

5. A Master's Thesis

**Art and Art History**

**OVERVIEW**

The Hunter College Department of Art & Art History offers two distinguished master's programs, an MA in art history and an MFA in creative art. The department boasts world renowned faculty in art history and studio art.

Hunter is situated within walking distance of a range of resources unsurpassed anywhere for the study of art history: outstanding museums, galleries and specialized research libraries. The Art History - MA, granted by Hunter College since 1952, is a comprehensive program of study intended to give the student a broad background in the history of art.
as well as an in-depth concentration in a particular area. It leads to enrollment in PhD programs throughout the country and serves as a terminal degree for professional work in museums, galleries, arts organizations and art publishing.

In New York, as nowhere else, the Studio Art - MFA student has access to the changing ideas and forms of contemporary art. This is crucial to the achievement of the goal of the MFA program: to develop professional artists capable of continued growth once they leave the relatively structured university environment. The program is designed to offer broad training for the artist in the development of critical and analytical visual thinking as it relates to their work. Students are encouraged to develop their own art through constant peer contact in the studios, individual work with faculty tutors, critical seminars focusing on student work, and classes in the theory and history of art. Electives in a range of studio practices broaden student experience and are also required. In addition, many artists, curators, critics and historians are invited to meet with students.

**Art Facilities and Galleries**

**Facilities**

The department functions in two main Manhattan locations, the main campus at 68th Street and Lexington Avenue and the MFA Studio Building at 205 Hudson Street in Tribeca. The main campus at 68th Street houses the administration, the Leubsdorf Art Gallery, and the Zabar Art Library with extensive databases including Artstor, a digital source of over one million images in the arts and humanities. It also houses fully equipped workshops on the 11th floor in photography, graphics (printmaking), metal, wood and plaster, as well as a computer lab and painting and drawing studios. The basement of Thomas Hunter Hall, the adjacent building, houses the clay workshop.

The MFA Building is a large, unique facility that plays a significant role in the life of the college and, indeed, the city as a whole. It has studio space for up to 150 students and a 5,000 square foot gallery. The building houses a number of workshops and labs including photography, wood, metal, printmaking and ceramics studios, as well as digital audio and video production labs.

**Galleries**

The Bertha and Karl Leubsdorf Art Gallery, located at the main campus, houses professionally organized exhibits that support the educational programs of the Department of Art & Art History at Hunter College. The gallery at 205 Hudson Street is home to each semester's MFA theses exhibitions and other exhibitions supporting the department's educational mission. Students in both the MA and MFA programs have opportunities to make curatorial and research contributions to shows mounted at the Hunter College Galleries. The Department and its students are also involved with the Artist's Institute, located in a townhouse on East 65th Street, and with the Hunter East Harlem Gallery, on 119th Street and Third Avenue.

**Department Office:**
Curatorial Studies - Advanced Certificate

The certificate is intended to formalize and recognize the high level of curatorial training already being provided to graduate students (both MA and MFA) in the Department of Art & Art History, and to intensify and amplify that training through the rigor of an official curriculum. The proposed certificate program, open by subsequent application to Hunter College students accepted into either the MA or the MFA, and by application to students holding the MA in Art History from another accredited institution, consists of a sequence of four courses designed specifically to offer both a theoretical and historical grounding in curatorial practices and practical experience in exhibition organization and display and object / collection research and preservation. For students already enrolled in the Hunter MA or MFA programs, of the 12 credits required for the certificate, 6 would fulfill area requirements within the existing 30 credit MA degree in Art History or the existing 48 credit MFA, and 6 would be in addition to those credit limits in both programs. Students admitted directly to the certificate program would be required to complete 12 credits.

In the academic and practical curriculum laid out below, students will gain experience, contacts, and visibility in the city and in international art world. Relevant job opportunities for students who attain this certificate include Curator, Curatorial Assistant, Gallerist, Gallery Director, Art Fair manager, Public Art Consultant, Art Adviser, private collection curator, Registrar, and many other related positions in museums and also private or commercial interests.

Curriculum

12 credit certificate consisting of:

I. Methodology - 3 credits

II. Practicum - 3 or 6 credits

III. History and Curatorial - 3 or 6 credits

I. Methodology

3 Credits from this section

ARTH 60200 - Research Methods of Art History

Training in bibliographical materials and research methods through examination of special problems in art history and writing of research paper.

Hours 45 hrs,
II. Exhibition Practicum

3 or 6 credits from this section

**ARTH 76000 - Curatorial Practicum**

A subject specific Exhibition seminar/practicum: the course would focus on an exhibition project, led by a faculty member and researched by students, culminating in an exhibition. It will acquaint students with all aspects, from creative to practical, in mounting an exhibition.

*Hours 3 hrs.*
*Credits 3 cr.*

**ARTH 78000 - Special Topics in Art**

Graduate seminars on specific topics established by individual faculty. Topics in recent years have included Greek Vase Painting, The Islamic Object, Botticelli, Architecture of the Italian Renaissance, Origins of Abstraction, History of Photography, Art and Totalitarianism, Color Theory in Relation to Painting.

Special topics course 78008: Artist's Institute
-or- ARTH 780099 Guided Internship

III. History of Exhibitions, Collecting, and Curatorial Practices

3 or 6 credits from this section

**ARTH 76100 - Special Topics Seminar in Exhibitions and Collecting**

This course addresses the history of collecting as the foundation of institutions that foster the production, dissemination, and preservation of art. Dependent on the expertise of the instructor, this course varies among topics such as History of Museums, History of Biennials, History of Collecting, Taste, and Patronage, and Theoretical and Critical investigations of Collecting Practices.

*Hours 3 hrs.*
*Credits 3 cr.*

**Art History - MA**

The MA in art history, granted by Hunter College since 1952, is a comprehensive program of study intended to give the student a broad background in the history of art as well as an in-depth concentration in a particular area. It leads to enrollment in PhD programs throughout the country and serves as a terminal degree for professional work in museums, galleries, arts organizations and art publishing. CUNY Graduate Center offers a PhD in art history.
Admission Requirements

Applicants are admitted in both fall and spring semesters. The applicant must have completed 12 credits of undergraduate courses in art history. Reading knowledge of a foreign language (French, German, or Italian) is required. All supporting material requested by the college’s Graduate Admissions Office (GRE score, official transcript, two to three letters of recommendation) as well as the completed online application form must be supplied by the application deadlines. Application Deadlines: for fall admission, February 1; for spring admission, October 1.

Requirements for the MA in Art History (30 cr)

1. Course Requirements:

ARTH 60200 Research Methods of Art History (3cr), as early as possible in a student's course of study.

One course must be taken in art historical theory or historiography, such as ARTH 73400, or a special topics course directly related to one of these areas (3cr).

Three courses from three of the following four areas (9cr):

1. Ancient and Medieval Art
2. Renaissance, Baroque, and 18th-century Art
3. Modern (19th- or 20th-century) and American Art
4. Non-Western Art

Three electives in Art History or other courses approved by the department (9cr).

Masters Thesis (6cr):

- ARTH 79900 Thesis Research
- ARTH 80000 Thesis Writing

2. Permission of the graduate adviser:

With the permission of the graduate adviser, candidates for the MA in art history may take up to 6 credits in studio courses or in courses in related areas.

3. Transfer students:

Students may apply for transfer of up to, but no more than, 9 credits from another institution (including the Graduate Center of the City University of New York). Permission to transfer credits is not guaranteed and is considered on a case by case basis.

4. Examinations:
Students must take and pass two examinations before they are permitted to proceed beyond 15 credits. It is recommended that they take these examinations as early in their careers as possible. Both examinations are given once each semester.

Language Examination:

Students must demonstrate their ability to use at least one foreign language as a research tool by passing a written examination in French, German or Italian.

Comprehensive Examination:

Passing a written examination in the history of art is required of all candidates.

5. Mid-program evaluation:

The progress of each student will be reviewed upon the completion of 15 credits. Students will be permitted to proceed if they have demonstrated proficiency in writing and research skills and have passed the comprehensive and foreign language examinations.

6. Incomplete credit:

Students with 6 credits of IN (“Incomplete”) will not be permitted to register for courses.

Additional Information

For further information write the Graduate Adviser, Art History Program.

Facilities

The department functions in two main locations, the main campus at 68th Street and Lexington Avenue and the MFA Studio Building at 450 West 41st Street. The North Building at 68th Street houses the administration and the library and has fully equipped, newly renovated workshops on the 11th floor in photography, graphics, metal, wood, plaster, computer graphics and general painting studios. The basement of Thomas Hunter Hall, the adjacent building, houses the clay workshop. The MFA Building houses the graduate studios, the MFA Gallery, and the graduate photo, wood, metal and ceramics studios.

Galleries

The Bertha and Karl Leubsdorf Art Gallery, located at the main campus, houses professionally organized exhibits that support the educational programs of the Art Department of Hunter College.

The MFA Gallery at 450 West 41st Street is a 12,000-sq. ft. space renovated by graduate students and faculty.

The entire exhibition program maximizes student and faculty participation to expand the parameters of the graduate programs in both fine arts and art history.

Scholarships and Travel Grants
The Esther Fish Perry Award for outstanding students is given each year to an MFA student in the final year of study. Enrolled students are encouraged to apply for the William Graf Travel Grant: approximately two awards of up to $1,200 each are given every semester to an MA and MFA student. Tony Smith Awards are given to students at the discretion of faculty.

**Studio Art - MFA**

Hunter's ideal location in Manhattan offers students and faculty many intellectual, cultural and creative resources. In New York, as nowhere else, the student has access to the changing ideas and forms of contemporary art. This is crucial to the achievement of our educational goal: to develop professional artists capable of continued growth once they leave the relatively structured university environment. The program is designed to offer broad training for the artist in the development of critical and analytical visual thinking as it relates to their work. In this programmatic context students are encouraged to develop their own art through constant peer contact in the studios, individual work with faculty tutors, critical seminars focusing on student work, and classes in the theory, criticism and history of art. Electives in a range of studio practices are also required. In addition, many artists, curators, critics and historians are invited to meet with students.

**Admission Requirements**

Applications are reviewed once a year. The applicant must have completed at least 24 credits of undergraduate courses in studio art and 9 credits in art history, as well as an undergraduate degree from an accredited institution. Applicants who have a previously completed MFA in art cannot be considered for admission to the studio art program at Hunter College. Applicants must submit the on-line Hunter College Graduate Application for Admission. This application, with all supporting materials, must be submitted prior to the January 15 deadline. In addition, applicants must upload their portfolio and statement of purpose to slideroom.com. Further instructions can be found on the Art Department website at:

http://www.hunter.cuny.edu/art/MFA/mfa_application.htm

The Art Department Graduate Admissions Committee will select finalists for admission to the MFA program. All finalists will be scheduled for an interview. Final decisions will be determined by mid-April.

MFA Application Deadline: January 15 for admission in the following academic year.

**Requirements for the MFA in Creative Art (48 cr)**

Each candidate for the MFA must select one field of concentration in studio art: painting, sculpture, printmaking/drawing/works on paper, photography, clay & casting, or combined media, and present an MFA project in that area.

Candidates must complete 48 credits, distributed as follows:

- 9 credits of tutorial work;
- 9 credits of seminar work;
- 9 credits of studio electives (exclusive of the area of concentration);
- 9 credits of liberal arts electives in the history, theory, and criticism of art;
- 6 elective credits which may be used for additional art history or studio electives, or non-traditional courses or projects such as apprenticeships, teaching assistantships or participation in the foreign exchange program;
- Mid Program Review: Eligibility to continue to work toward the degree is evaluated by a committee of all MFA faculty in the semester of the second tutorial and seminar.
• 6 credit MFA Thesis Project (ARTCR 79100) completed under the guidance of a faculty Thesis Advisor. All students are provided individual work spaces in the MFA Studio Building and are required to work in them throughout their residency. There are four floors (approximately 10,000 sq. ft. each) for student studios, seminar rooms, and workshop and exhibition areas. The regular curriculum will be supplemented by a monthly lecture series, providing a forum for the presentation of aesthetic ideas by artists, critics, historians, and resident faculty.

Foreign Exchange Program

Several MFA students are selected each year to receive stipends for a period of one semester at the Glasgow School of Art, Scotland; the Ecole des Beaux-Arts, Paris; the Royal College of Art, London; the Hochschule der Künste, Berlin, Frank Mohr Institute, the Netherlands.

Scholarships and Travel Grants

Among other awards, the Esther Fish Perry Award for outstanding students is given each year to an MFA student in the final year of study. Also, grants from the Tony Smith fund are awarded to selected MFA students upon graduation. Enrolled students are encouraged to apply for the William Graf Travel Grant: approximately two awards of up to $1,200 each are given every semester to an MA and MFA student.

Biochemistry

About the Program

The interdisciplinary program in Biochemistry is jointly administered and staffed by members of the Biological Sciences and Chemistry departments. The master's degree is offered as a terminal degree. Both first-year courses and advanced courses are available at Hunter College and/or at the Graduate Center, 365 Fifth Avenue, New York, NY 10016.

What can I do with my degree in Biochemistry?

The MA in Biochemistry prepares graduates to compete for laboratory professions in academia or industry, further education in the health professions and continued studies in doctoral programs in biochemistry or other biomedical science.

Return to: Biochemistry
Requirements for Admission for Plan 1 and Plan 2

General admission requirements to Hunter's graduate programs are observed including GRE (verbal and quantitative reasoning); TOEFL (for foreign students whose native language is other than English). The GRE will be waived upon applicant's request, if documentation of professional experience in the field, or graduate-level academic work show adequate preparation to successfully pursue the degree.

In addition, the student must have completed the following courses: general chemistry (including qualitative analysis) (one year), quantitative analysis, organic chemistry (one year), physical chemistry (one semester lecture and laboratory), biology (one year), biochemistry lecture and laboratory (one semester). Deficiencies may be made up during the first three semesters of graduate study.

Students who have successfully completed two or more graduate-level courses with a GPA of 3.0 or better may request a waiver of the GRE score requirement. The request for GRE waiver must be submitted in writing at least one month before the deadline of applications (end of October for Fall admission, end of March for the spring admission).

Requirements for Admission for Plan 3

The general guidelines for admission to Hunter College will be followed. Students who have successfully completed two or more graduate-level courses with a GPA of 3.0 or better may request a waiver of the GRE score requirement. The request for GRE waiver must be submitted in writing at least one month before the deadline of applications (end of October for Fall admission, end of March for the spring admission). (Note, this new policy on GRE waiver will be applied to all three study plans). Students who have successfully completed two or more graduate-level courses with a GPA of 3.0 or better may request a waiver of the GRE score requirement. The request for GRE waiver must be submitted in writing at least one month before the deadline of applications (end of October for Fall admission, end of March for the spring admission). Students interested in Plan 3 should submit a written letter-of-intent to the advisor after being admitted to the M.A. Program in Biochemistry before the ending of the first semester of study. To qualify for this option, students must have completed 9-12 credits of graduate-level courses that can be transferred upon approval. Credits that counted toward graduation requirements for a baccalaureate degree cannot be transferred. In addition, the student should provide an evaluation letter from the thesis mentor indicating the student can complete the thesis within one year. In the event that the student fails to defend the thesis by the end of the first year of study, he/she could may request a one-year extension to graduate under the Accelerated Thesis Option. Alternatively, or in the event the request is denied, he/she has the option to chose to graduate under study Plan 2: The Thesis Option or Plan 1: the Comprehensive Exam Option, provided that he/she meets all requirements of the chosen Plan 2.

Requirements for the Degree

Comprehensive Examination or Thesis:

Students may complete the requirements for the MA through either of the following two plans:

- Plan (1): A minimum of 30 credits of course work plus a passing grade in a comprehensive examination.

- Plan (2): A minimum of 24 credits of course work, plus 6 credits from a thesis on an original research problem. The thesis must be approved by the student’s adviser, and it must be defended before a thesis committee.

Courses:
The student must complete the following courses from the list below. Note that no more than 10 credits of 600-level courses may be taken.

Plan (1):

**BIOCHEM U71010 - Advanced Biochemistry 1**

*prereq: a 1-semester course in biochemistry or equiv and physical chemistry*

*Hours 3 hrs,*
*Credits 3 cr*
*Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.*

**OR**

**CHEM 64000 - Biochemistry I**

Proteins, enzymes, bioenergetics, recombinant DNA.

*prereq: 1 yr of undergraduate organic chemistry*

*Hours 3 hrs,*
*Credits 3 cr,*
*Fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.*

**BIOCHEM U71020 - Advanced Biochemistry 2**

*prereq: BIOCHEM 71010 or equivalent*

*Hours 3 hrs,*
*Credits 3 cr*
*Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.*

**OR**

**CHEM 64100 - Biochemistry II**

Metabolism, gene expression, immunobiocchemistry, hormones, muscle biochemistry.

*prereq: CHEM 64000*

*Hours 3 hrs,*
*Credits 3 cr*
*Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020*

**BIOCHEM U75000 - Bioorganic Chemistry**

*Hours 3 hrs,*
*Credits 3 cr*
*Fall only, offered at the Graduate Center*

- **BICM 77000 Physical Biochemistry**

**CHEM 65000 - Biophysical Chemistry**
Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

**prereq:** 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent
**Hours** 4 hrs.
**Credits** 4 cr
**Fall**

Minimum of two courses from the following:

**BIOL 71013 - Molecular Biology Lecture**

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

**prereq:** 1 yr of organic chemistry
**Hours** 75 hrs,
**Credits** 5 cr
**Fall only**

**BIOL 71401 - Cell Biology**

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

**prereq:** undergraduate organic chemistry or biochemistry
**Hours** 60 hrs,
**Credits** 4 cr
**Spring only**

**BIOL 70005 - Genetics**

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

**prereq:** undergraduate genetics and molecular biology (or biochemistry)
**Hours** 60 lec,
**Credits** 4 cr
**Fall only**

**BIOL 75003 - Developmental Biology**

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

**prereq or coreq:** BIOL 71013 and BIOL 71401
**Hours** 60 lec,
**Credits** 4 cr
**Spring only**
BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

*prereq: BIOL 71000 or permission of instructor
Hours 30 hrs/wk for 4 wks,
Credits 4 cr

Additional Requirements:

- BIOCHEM 71551
- BIOCHEM 71552
- BIOCHEM 71553
- BIOCHEM 71554
- BIOCHEM 71100

Any remaining or additional credits may be taken by choosing courses in Biology or Chemistry as electives, or by taking additional research credits (BIOCHEM 71201, BIOCHEM 71202, BIOCHEM 71203, BIOCHEM 71204)

A passing grade of the Comprehensive Exam given at the end of the study.

Plan (2):

CHEM 64000 - Biochemistry I

Proteins, enzymes, bioenergetics, recombinant DNA.

*prereq: 1 yr of undergraduate organic chemistry
Hours 3 hrs.
Credits 3 cr.
fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

CHEM 64100 - Biochemistry II

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

*prereq: CHEM 64000
Hours 3 hrs.
Credits 3 cr
Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020
may be substituted, respectively by

BIOCHEM U71010 - Advanced Biochemistry 1

*prereq: a 1-semester course in biochemistry or equiv and physical chemistry
Hours 3 hrs.
Credits 3 cr
Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.
BIOCHEM U71020 - Advanced Biochemistry 2

prereq: BIOCHEM 71010 or equivalent
Hours 3 hrs,
Credits 3 cr
Spring only, offered at the Graduate Center
CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,
Credits 3 cr
Fall only, offered at the Graduate Center

BIOCHEM U77000 - Physical Biochemistry

prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry
Hours 3
Spring only, offered at the Graduate Center

Minimum of one course from:

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry
Hours 75 hrs,
Credits 5 cr
Fall only

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
Spring only

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)
Hours 60 lec,
BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401
Hours 60 lec,
Credits 4 cr
Spring only

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor
Hours 30 hrs/wk for 4 wks,
Credits 4 cr

Additional Requirements:

- BIOCHEM 71551
- BIOCHEM 71552
- BIOCHEM 71553
- BIOCHEM 71554
- BIOCHEM 71100
- BIOCHEM 79901
- BIOCHEM 79902
- BIOCHEM 79903

Any remaining credits may be taken as research credits (BIOCHEM 71201, BIOCHEM 71202, BIOCHEM 71203, BIOCHEM 71204)

Plan (3)

Minimum of 9 cr. Graduate-level courses that may come from any combination of three courses from the following three lists:

Hunter Chemistry:

- CHEM 63300 Computational Drug Discovery 3 cr.
- CHEM 66800 Structural Biology 3 cr.
- CHEM 67000 Introduction to Nanotechnology 3 cr.
- BIOCHEM U71010 Advanced Biochemistry 1 3 cr
• BIOCHEM U71020 Advanced Biochemistry 2 cr
• BIOCHEM U75000 Bioorganic Chemistry 3 cr

No more than two from the following Hunter Biology courses:

• BIOL 71013 Molecular Biology Lecture 5 cr
• BIOL 71401 Cell Biology 4 cr
• BIOL 70005 Genetics 4 cr
• BIOL 75003 Developmental Biology 4 cr

Graduate Center - Chemistry and Biochemistry:

• CHEM 81900 Topics in inorganic chemistry: Radiochemistry 3 cr.
• BICM 77000 Physical Biochemistry 3 cr.

Minimum of 21 cr. of research-related training:

• BIOCHEM 71551 Seminar in Biochemistry 1
• BIOCHEM 71553 Seminar in Biochemistry 1
• BIOCHEM 71554 Seminar in Biochemistry 1
• BIOCHEM 71100 Basic Laboratory Techniques for Research in Biochemistry 4
• BIOCHEM 71201 Advanced Laboratory Techniques for Research in Biochemistry 1 cr.
• BIOCHEM 71202 Advanced Laboratory Techniques for Research in Biochemistry 2 cr.
• BIOCHEM 71203 Advanced Laboratory Techniques for Research in Biochemistry 3 cr.
• BIOCHEM 71204 Advanced Laboratory Techniques for Research in Biochemistry 4 cr.
• CHEM 64900 Instrumental Analysis 5 cr. OR CHEM U79000 Basic Laboratory Techniques for Research in Biochemistry 4 cr
• BIOCHEM 79901 Thesis Research (Master's) 1
• BIOCHEM 79902 Thesis Research (Master's) 2
• BIOCHEM 79903 Thesis Research (Master's) 3

Biological Sciences

OVERVIEW

The Department of Biological Sciences has graduate and post-graduate research programs in molecular and cell biology, cancer biology, molecular and developmental genetics, and molecular neuroscience. Students may obtain the MA from Hunter College and/or the PhD jointly from Hunter College and the City University Graduate Center. The doctoral program is designed to prepare students to cope with the radical changes in direction and experimental approaches that will characterize future developments in biology, as well as to train highly qualified research scientists who are fully equipped to teach and to direct research in a wide variety of university and industry programs in the biological sciences.

Faculty of the department are pursuing projects in the forefront of modern research. In addition to the individual research laboratories, a number of shared facilities are housed in the department. They include transmission and scanning electron microscopes, a bioinformatics and sequencing facility equipped with an Illumina MiSeq and Oxford Nanopore Minion sequencers, an Agilent Electrophoresis Bioanalyzer and a Galaxy Web accessible Bioinformatics Platform all supported by a high performance computing cluster, a bioimaging facility, a fluorescence-activated cell sorter and a biopreparation facility. Several facilities are available through the chemistry department, including X-ray
diffraction, NMR, mass spectroscopy and biomolecular computation. Shared modern animal facilities are also available.

What can I do with my degree in Biological Sciences?

A degree in the Biological Sciences opens up many career pathways. Biology graduates go on to complete graduate (MS, PhD, or MD/PhD) and professional degrees (MD, DO, DDS, DVM, OD, PharmD, etc), work in the biotech industry, education, in wildlife management, as a government scientist, or in a variety of other rewarding careers. The biotechnology and pharmaceutical industries are among the largest in the U.S. and there is great demand for professionals with biotechnology expertise. Graduates are prepared for careers in research science positions, regulation of drug approval and other biotechnology applications, management positions in the biotechnology industry, and positions at law firms in the biotechnology area.

Biological Sciences - MA

The degree is offered either as a terminal degree or as the first year toward the PhD within CUNY. Both introductory and advanced graduate courses are available at Hunter College.
Requirements for Admission

In addition to the general Requirements for Admission, the following departmental requirements must be met:

1. One year of organic chemistry with laboratory
2. One year of college physics
3. One semester of calculus and a second semester of either calculus or statistics
4. An undergraduate major in biology, botany, physiology, zoology, chemistry, physics, or other appropriate discipline with a minimum overall GPA of 2.7. A minimum of 18 credits in appropriate undergraduate science and mathematics courses should be presented. Chemistry or physics majors must offer at least one year of appropriate life science for admission to any of the majors in the MA program in biological sciences including a semester of genetics, molecular biology or biochemistry.
5. TOEFL Test for international students with a non-English speaking background.

Students may submit scores on the General Test of the Graduate Record Examination (GRE) (verbal and quantitative) to improve the likelihood of admission.

Requirements for the Degree

The program of course work, planned with the graduate adviser, is concentrated in one of the following major areas: molecular and cell biology, cancer biology, molecular and developmental genetics, molecular neuroscience, and biotechnology.

Required Courses

**BIOL 70005 - Genetics**

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

_prereq: undergraduate genetics and molecular biology (or biochemistry)_

*Hours 60 lec,
*Credits 4 cr
*fall only*

**BIOL 71013 - Molecular Biology Lecture**

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

_prereq: 1 yr of organic chemistry_

*Hours 75 hrs,
*Credits 5 cr
*fall only*

**BIOL 71401 - Cell Biology**

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.
prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
spring only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401
Hours 60 lec,
Credits 4 cr
Spring only

Additional Information

Up to 4 credits of tutorial are accepted toward the degree. Only one 600-level course including courses outside Biological Sciences, such as Biochemistry may be credited toward the degree.

Matriculated Students May Fulfill Requirements for the MA

Matriculated Students may fulfill requirements for the MA through either of the following plans:

- **Plan A - Comprehensive Exam Only**: A minimum of 30 credits of course work plus a passing grade in a written Comprehensive Examination in the areas covered by the four required core courses. The Comprehensive Examination is given annually in June. Only fully matriculated students who have completed all four required courses may take the comprehensive examination.

- **Plan B - Comprehensive Exam and Thesis**: A minimum of 24 credits of course work plus a passing grade in a written Comprehensive Examination and a minimum of 6 credits of original research that is summarized in a written thesis. The completed thesis must be approved by the student’s faculty mentor, the MA adviser, and the Office of the Dean of Arts & Sciences at least one month before the expected date of graduation. An oral presentation of the MA thesis is required.

Courses for Non-matriculated Graduate Students

Students with a baccalaureate degree may register for some graduate courses without matriculation. After being admitted as a non-matriculating graduate student, students may take BIOL 70005 - Genetics (fall only) or BIOL 71401 - Cell Biology (spring only) without prior departmental permission. For all other courses, non-matriculating students must get permission directly from the course instructor. Specific graduate courses being offered each semester are listed at http://registrar.hunter.cuny.edu/subpages/searchclass.shtml

There is no dedicated adviser for non-matriculating students who want to take graduate Biology courses. Non-matriculating students should see any Biology faculty member during regular office hours for advising. Please contact the department secretary at 212-772-5293 to find out faculty office hours.

Return to: Biological Sciences
Biological Sciences with Specialization in Biotechnology - BA/MA

In this five-year program, qualified undergraduate Hunter College biology majors begin graduate work as seniors and receive the MA one year after completing BA requirements. Students are provided with theoretical knowledge and skills in molecular biology, and a foundation for application of these skills in careers in the biotechnology/pharmaceutical industry, academic research, or public health. Successful completion of the biotechnology workshop, an essential program component, entitles students to a summer internship in an industrial or private research laboratory.

Biology with Specialization in Biotechnology - MA

Return to: Biological Sciences

Admission Requirements

GPA 3.0

GRE (general part) to be taken before registering for 700-level courses

Baccalaureate degree in biology or related fields

Degree Requirements

30 credits plus a passing grade on a comprehensive examination or a thesis

BIOL 62000 - Internship

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

prereq: BIOL 61000
Credits 3 months, 4 cr

Core Courses for the MA (21-28 credits)

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
spring only

BIOL 71013 - Molecular Biology Lecture
Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry  
Hours 75 hrs,  
Credits 5 cr  
fall only

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)  
Hours 60 lec,  
Credits 4 cr  
fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401  
Hours 60 lec,  
Credits 4 cr  
Spring only

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor  
Hours 30 hrs/wk for 4 wks,  
Credits 4 cr

BIOL 62000 - Internship

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

prereq: BIOL 61000  
Credits 3 months, 4 cr

Electives (5-13 credits)

Additional Information
For additional elective courses, consult department adviser.

Return to: Biological Sciences

Doctoral Program in Biological Sciences

Doctor of Philosophy

Hunter College offers a PhD in biological sciences PhD in Biology and in biochemistry PhD in Biochemistry jointly with the CUNY Graduate Center.

Chemistry

OVERVIEW

The Department of Chemistry offers a range of graduate educational opportunities with strengths in both the fundamental areas of the discipline and in emerging fields and applications. Students may obtain the PhD degree from Hunter College jointly with the City University of New York (CUNY) Graduate Center with concentrations in: Analytical Chemistry, Inorganic Chemistry, Organic Chemistry, Physical Chemistry, Biophysical Chemistry, Biochemistry, Nano-technology and Materials Chemistry, and Environmental Chemistry. Additionally, students may also obtain the MA degree in Biochemistry jointly offered by the Department of Chemistry and the Department of Biology from Hunter College, or an MA in education jointly offered by the Department of Chemistry and the School of Education of Hunter College. Graduate level courses are offered at Hunter College and in the CUNY Graduate Center. Master's programs can be completed as a full- or part–time student, with or without a research thesis. Most graduate courses for Master programs are offered in the evening to facilitate enrollment of part–time students.

A major goal of our graduate programs is to train research scientists to create new knowledge that impacts both fundamental scientific principles and addresses societal needs. The continuing success and future development of most areas in academic, industrial, and government institutions will increasingly depend on a well-trained science workforce for innovation, planning, and policy. The vibrant and well-funded research labs of our faculty in the Department of Chemistry at Hunter College provide the essential part of research training of the graduate programs. Students in Ph.D. program are expected to start their independent research at the end of the first year of study, and to complete their thesis on an original research subject under the supervision of our faculty. Students can also opt to pursue an independent pedagogical research project as part of their thesis research. The research activities are further supported by an array of shared facilities and the state-of-art instruments including the NMR facility, the X-ray crystallography and electron microscope facility and the Mass-spectrometry facility. Other facilities and instruments are available in the Department of Biosciences and in the NIH funded Hunter Gene center.

What can I do with my degree in Chemistry?

The department provides training for students planning careers in the chemical sciences, biology, medicine, earth sciences, secondary education, business, and law across the chemical enterprise in academia, industry, government, and private practice.

Classical and Oriental Studies

Overview

The Department of Classical and Oriental Studies offers graduate programs in Latin and Chinese.

The Chinese Language and Literature program offers language courses in Modern Chinese (Mandarin) and Classical Chinese as well as courses taught in English on traditional and modern Chinese literature and culture.

The Latin program is offered with the Classical and Oriental Studies Department and is designed to serve individuals who do not have certification in the teaching of Latin. The applicant must be admitted by both the School of Education and the Classical and Oriental Studies Department.

What can I do with my degree in Classical and Oriental Studies?

The master's degree program (Academic Plan: CHINA-MA) prepares candidates to teach Chinese in grades 7-12 to students of diverse backgrounds, abilities and interests. This program is not designed for individuals who already have NYS certification in Chinese 7-12.

The Latin master's and advanced certificate programs prepare candidates to teach Latin in grades 7-12 to students of diverse backgrounds, abilities and interests. This program is not designed for individuals who already have NYS certification in Latin 7-12.

**Computer Science**

**OVERVIEW**

The Department of Computer Science offers an MA degree. A PhD program in computer science is offered at the CUNY Graduate Center.

**What can I do with my degree in Computer Science?**
There is demand in industry and in doctoral programs for master's-level computer science graduates who have both an understanding of the theoretical foundations of computing and expertise in its applications. The MA program in Computer Science at Hunter College bridges the gap between a traditional undergraduate degree and an advanced path for a student's future. Hunter College, recognizing the need for an affordable, conveniently located program in computer science, offers a master of arts in computer science.

**Program and Courses in Computer Science**

**Faculty**

Computer Science Faculty

**Computer Science MA**

**Master of Arts**

There is demand in industry and in doctoral programs for master's-level computer science graduates who have both an understanding of the theoretical foundations of computing and expertise in its applications. The MA program in Computer Science at Hunter College bridges the gap between a traditional undergraduate degree and an advanced path for a student's future. Hunter College, recognizing the need for an affordable, conveniently located program in computer science, offers a master of arts in computer science.

**Departmental Requirements for Admission**

To be considered for admission to the MA program in computer science, prospective students must meet the following criteria:

1. A BA or its equivalent, preferably in computer science, with a minimum GPA of 3.0 in the final 2 years of computer science and related course work.
2. Courses in: calculus I and II, linear algebra or matrix algebra, statistics, discrete structures, data structures, and computer systems.
3. Top 50th percentile on the Graduate Record Examination Quantitative Reasoning score

*Note:* Students whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL). The minimum TOEFL score that is required for graduate study in the School of Arts and Sciences at Hunter College must be achieved for admission into the Computer Science MA program. See: [http://www.hunter.cuny.edu/graduateadmissions/faq/toefl-tse-twe-scores](http://www.hunter.cuny.edu/graduateadmissions/faq/toefl-tse-twe-scores)

**Departmental Requirements for the Degree**

**Courses**

Upon admission, each student is assigned an advisory committee to provide counseling and to approve a plan of study; the committee may waive pre- or co-requisites, if appropriate. A minimum of 30 credits is required for the degree. After completing 12 credits of core courses (CSCI 70500, CSCI 72400, CSCI 73000 and CSCI 74000), a student's curriculum is made up of either:

(i) 4 elective courses and a 6-credit thesis (18 credits total), or

(ii) 6 elective courses (18 credits total), at least one of which must be CSCI 79500 - Advanced Topics in Computer Science which will require a large programming project and a report; a passing grade on an exit examination must also be achieved.

The choice should be made in consultation with the student's advisory committee shortly after completing the core courses. The program of study may include up to 6 credits from a department other than computer science, provided the student receives proper approval from his or her advisors.

**Areas of Concentration**

Students may concentrate in one of 2 tracks within the Department of Computer Science: Research or Applied. After completing the core courses, in consultation with their advisory committee, students will choose a significant number of courses in one of these 2 areas.

**Course Listings**

*Each course is 3 hrs, 3 cr unless otherwise noted.*

*Note: Your advisory committee may waive pre- or co- requisites if appropriate.*

**Core (12):**

**CSCI 70500 - Algorithms**

Complexity and applicability of file and data manipulation techniques including searching, sorting, supporting internal and external data structures, sequential and random access methods, basic big data techniques and other topics.
CSCI 72400 - Computational Theory

Turing machine model for computation: multiple tapes, multiple heads and nondeterminism, space-bounded and time-bounded TMs; completeness theorems.

CSCI 73000 - Computer Systems

Terminology, function units, buses, DMA, interrupts, priorities, memory systems, I/O systems, parallel processing and networking.

CSCI 74000 - Computer Modeling and Simulation

Examination of major models of data systems; Petri nets, data flow diagrams, queuing theory, other topics.

Applied Electives:

CSCI 70100 - Theory of Operating Systems

Resources, concurrent processes, processor scheduling, probability models of sequencing, memory management, performance analysis models.

CSCI 71000 - Contemporary Data Base Technology

Current techniques in technology; case studies of pioneering applications; next-generation breakthrough analysis; current research efforts.
CSCI 71100 - Cloud Database Security and Integrity

Privacy requirements, computer system security; policy formation, authorization, data integrity, audit control; other topics.

prereq: departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 76000 - Computational Linguistics

Formal grammars, transformational models, augmented transition networks, design of parsers, parsing techniques, Determinism Hypothesis, other topics.

prereq: Departmental Permission
Hours 3 hrs
Credits 3 cr.

CSCI 76100 - Artificial Intelligence

Levels and types of knowledge, uses and induction of knowledge, logic, machine learning, scope and specificity choice of primitives, other topics.

prereq: departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 77100 - Contemporary Application Development

Current techniques in technology, pioneering applications; analysis of next-generation breakthroughs and current research efforts.

prereq: Departmental permission.
Hours 3 hrs
Credits 3 cr.

CSCI 79500 - Advanced Topics in Computer Science

Topics will vary, dealing primarily with state-of-the-art material in computer science. May be repeated for a maximum of 6 cr.

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

Research Electives:
CSCI 72200 - Formal Methods in Programming Languages

Data and control abstractions; backtracking and nondeterminism; the effects of formal methods for program description; proving correctness.

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 75000 - Combinatorial Computing

Computer representation of combinatorial objects; back-tracking; generating and enumerating combinatorial objects; other topics

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 75100 - Cryptography

Problems and possibilities of encryption and decoding; traditional and contemporary methods of encryption and time/memory trade-off.

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 75200 - Graph Theory I

Permutations and combinations, generating functions, advanced counting numbers, cycles, parity, conjugacy classes, graphs, other topics.

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 75300 - Graph Theory II

Depth-first search, ordered trees, codes, optimization problem, sort-by-merge; applications of network flow techniques; other topics.

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.
CSCI 79500 - Advanced Topics in Computer Science

Topics will vary, dealing primarily with state-of-the-art material in computer science. May be repeated for a maximum of 6 cr.

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 79900 - Thesis Research in Computer Science

Thesis research. The course is open only to students selecting the thesis option. May be repeated for a maximum of 6 cr.

prereq: Permission of grad adviser
Hours 3 hrs
Credits 3 cr.

(Note that CSCI 79500 can count as an elective in either the Applied or Research track).

Total Credits required: 30

Dance

OVERVIEW

From a campus in the heart of New York City, the Hunter dance student has the unique opportunity of interfacing with many professional dance companies, choreographers and critics who live and work in New York. The department is proud to announce the launch, in fall 2018, of the MFA in Dance. The MFA is considered the terminal degree in the field; it is the baseline qualifying credential for the college/university teaching job market, a crucial laboratory for furthering deep personal artistic accomplishment, and an important venue for the development of contextual and aesthetic understanding.

The modern contemporary-based curriculum in dance education provides the student with opportunities to pursue careers in teaching, with a focus on performance, choreography and production. The curriculum is enriched by community outreach performances, repertory classes with New York-based choreographers, speciality workshops, dance clubs and organizations, international performances, internships and New York State teaching certification. In addition, the Hunter Dance Department hosts an annual spring performance in Hunter's Kaye Playhouse, as well as informal Salon Series, dance and dance education conferences, forums, and site-specific performances devoted to expanding the students' knowledge of and experience with diverse forms of dance in a variety of contexts.

What can I do with my degree in Dance?

The Hunter College Arnhold Graduate Dance Education Program (AGDEP) blends the academic and professional strengths of the School of Education and the Dance Department to train highly effective dance educators for New York City public schools and beyond. The goal of the Arnhold Graduate Dance Education Program is to take highly trained dancers and develop them as effective dance educators, adept in the unique context of dance education in primary and secondary schools.
The MFA program prepares dance artists/educators for many kinds of professional roles in the field of dance through a studio-based program of dance technique and choreography, complemented by appropriate coursework in theory, perspectives and contexts, history, and dance pedagogy.

Dance - MFA

The Hunter College MFA program in Dance prepares dance artists/educators for careers and professional roles in the field of dance through a wide-ranging program of dance technique and choreography, complemented by appropriate coursework in theory, perspectives and contexts, history, and dance pedagogy. The MFA in Dance is considered the terminal degree in the field; it is the baseline qualifying credential for the college/university teaching job market, a challenging laboratory for furthering deep personal artistic accomplishment, and an important venue for the development of contextual and aesthetic understanding. The program will open in the fall of 2018.

Admission Requirements

All applicants will be required to complete the online Hunter College graduate school application, submit an updated CV, and participate in an interview that will include a presentation on the candidate's professional performing and creative career. Details for the presentation will be available after the candidate's application has been submitted. Admission will occur only in the fall semester. Applicants are required to have a bachelor's degree in any subject, at least 5 years of professional dance experience, and a clearly demonstrated career plan for which academic study of the art form is appropriate.

The GRE exam is not required for application for the MFA/Dance Program. An undergraduate degree in Dance is desirable, but not required. Based on a proficiency exam and one-on-one assessment administered early in the course of study, undergraduate courses may be required to cover specific deficiencies in the student's preparation.

Curriculum

The degree plan comprises courses in dance pedagogy, theory, criticism, aesthetics, history, research methods, cultural studies, physical training, and extensive creative work in performance and choreography. The capstone of the curriculum is the MFA project, an intensive research process culminating in the presentation of significant creative work.

Requirements

The MFA program requires 60 credits and is a terminal degree. The program's standards are those articulated by the National Association of Schools of Dance. The credit requirements are as follows:

- Theory and Perspectives 12 credits
- Dance Technique 11 credits
- Creative Work 11 credits
Curriculum Details

Theory/Context/Perspectives

The 12-credit requirement in Theory/Context/Perspectives is met by the following courses:

DAN 74000 - Aesthetics

A seminar examining a variety of global artistic practices and value systems from both aesthetic and cultural perspectives. The course focuses on a broad range of dance and examines how choreographers, dancers, designers, critics, audience members, teachers, producers and scholars function and interrelate. Students examine a variety of analytical paradigms-- including structuralism, semiotics and literary theory -- through the study of the major writers and thinkers in the field. A culminating study is typically a close analysis of the student's personal creative work.

*prereq: Admission to one of the graduate dance programs*

*Hours 3*
*Credits 3*

DAN 74200 - Graduate Dance History

This course deepens the student's understanding of key points in concert and global vernacular dance in the 20th century. How those points have reflected social, cultural, and political forces, and impacted 21st century dance, is examined throughout the course. A major research paper is the culminating project. Both practice and theory are engaged through readings of historic texts and public reviews, film/video viewings, attendance at live performances, and group discussions.

*prereq: Admission to one of the graduate dance programs AND DAN 23200 or comparable undergraduate dance history course or equivalent experience.*

*Hours 3*
*Credits 3*

DAN 74600 - Special Topics in Dance

A seminar/laboratory course focusing on a varying series of topics, selected according to student interests, current faculty research, and available guest artists and master teachers. Topics can include a wide variety of historical, aesthetic, cultural, technological and political issues. The course encourages advanced study in specialized areas of particular student interest. Possible topics include: dance in the digital age, specific cultural forms, dance in community settings, motor learning from multiple perspectives, etc.

*prereq: Admission to one of the graduate dance programs*

*Hours 3*
Credits 3
Can be repeated for credit with different content areas

DAN 74400 - Modes of Inquiry

This course introduces various research approaches and methods. Research design - including statements of purpose, review of related literature, articulation of methods, and definition of terms – the place of action research in creative exploration (including teaching practice), arts-based research, and the role of theory in research are addressed through readings, discussion, practical experience, and written exercises and papers.

prereq: Admission to MFA Dance program
Hours 3
Credits 3

Dance Technique

The following courses meet the 11-credit requirement in Technique:

DAN 70100 - Physical Training

The ongoing, rigorous training in a dance/movement style pertinent to the individual student's artistic and pedagogical goals. Exploration of unfamiliar movement disciplines will be required. This course is designed to allow each student to articulate and execute a regular training regimen that will build and refine her/his skills as practitioner of an artistic movement discipline. A variety of individual training plans are overseen by faculty. Regular group meetings examine how underlying aesthetic and kinesiological assumptions embodied by the training inform students' approaches to teaching artistry, improvisation, and choreography.

prereq: Admission to a graduate dance program
Hours 3
Credits 2
Can be taken more than once for credit, required 3 times for MA, 2 times for BA/MA.

This course is required 4 times for the MFA (2 credits each time): This will be an individualized program of dance technique focusing on personal interests and needs.

DAN 70500 - Maintenance of the Dancer's Instrument

An in-depth survey of a wide variety of somatic approaches to and interventions in dance training including ideokinetic and bodywork techniques, postural and motional training methods, and alternative movement disciplines. The course includes analytical, observational and participatory experiences, and will build on individual needs and interests of the students. Application of somatic knowledge to teaching movement and dance is stressed.

prereq or coreq: DAN 35000 or equivalent course and/or related profesional background
Hours 3
Credits 3

Creative Work

The 11 required Creative Work credits are distributed as follows:

DAN 73000 - Studies of Forms
This course develops choreographic proficiency through practical experience with, and observation of, artistic form and content across a range of disciplines. Short- and long-term experiments are presented in class and in occasional showings open to the public. The role of self-review, as well as external feedback during creative processes, is considered by utilizing a variety of protocols for response.

 prerequisites: Undergraduate choreography training and/or equivalent professional experience, permission of department
 Hours 3
 Credits 3
 This course is repeatable once for credit.

 DAN 73300 - Process and Projects

 This course asks the Dance student to explore unfamiliar genres, styles and methodologies through a variety of choreographic project assignments. An inventory of each student's past experiences leads to a collaboratively designed and individualized series of assignments designed to stretch the student's experiences and capabilities.

 prerequisites: Undergraduate choreography training and/or equivalent professional experience, permission of department
 Hours 3
 Credits 3

 DAN 73500 - Performance and Presentation

 The development and public presentation of original choreography in performance at Hunter College or another suitable public venue. Regularly scheduled showings will offer opportunities to reflect on the work, receive feedback, and dialogue with faculty during the process of conception and execution.

 prerequisites: Acceptance into one of the graduate dance programs: BA/MA, MA
 Hours 3
 Credits 1
 This course is repeatable once for credit.

 Pedagogy

 The 6-credit Pedagogy requirement consists of the following courses:

 DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning

 An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct "action research" in order to identify conditions that support or hinder productive teaching and learning. This first phase of the "methods" course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).

 prerequisites or corequisites: 6 credits in education and 12 credits in dance
 Hours 3 hrs + 36 hrs of fieldwork
 Credits 3

 DAN 75000 - Topics in Teaching for College/University
Intensive examination of the relationship between pedagogy, teaching artistry, and curriculum design. Includes study of the history, philosophy, and cultures of dance in higher education. Topics include lesson, unit, course, and curriculum structuring, assessment strategies; application of choreographic principles to course design; the relationship between higher education and the changing dance environment, and understanding the administrative hierarchy in higher ed. Students are observed and mentored in their roles as teachers.

prereq: DANED 76000
Hours 3
Credits 3

MFA Project

The MFA Project (DAN 73700) consists of:

- Development of approximately one hour of new performance work
- Close interaction with faculty as aesthetic and compositional strategies are developed, clarified and implemented
- Preparation of work for public presentation, collaboration with producing partners, including development of PR materials
- Extensive (20-25 pages) written document designed to foster critical self-awareness, effective evaluation skills, and understanding of personal focus, context and functionality in the community of artists as well as the broader cultural landscape

Electives

The 12 credits of electives are chosen from across the college curriculum or approved outside projects according to particular student interests. Independent study with the Dance faculty in ground-breaking research is encouraged.

Economics/Accounting

OVERVIEW

The Department has two master's degree programs, one in Economics and the other in Accounting. Graduate Students are actively engaged in the research and teaching missions of the department. Both programs equip students with analytic tools that can be directly applied to business and public policy. The CUNY Graduate Center offers a PhD in economics.

Because our programs integrate theory, quantitative methods, and practical applications, Hunter MA and MS graduates regularly move into interesting, well-paid positions in business, government, and international organizations. They are also prepared to enter PhD programs at top-ranking universities. In addition, Accounting graduates are qualified to take the CPA examination in New York State.

Accountancy - MS

The MS in Accounting program at Hunter College is designed for students who have satisfied the academic requirements for an undergraduate degree in accounting. It will provide intensive training in accounting research, information systems, ethics, and advanced coverage of the core topics in accountancy. Students completing the program will be well equipped for a successful career in accounting. Hunter’s MS in Accounting has been approved by the New York State Department of Education as a CPA licensure-qualifying program for students who have earned a BS in Accounting at Hunter College or an equivalent undergraduate program.

New York State requires all CPA candidates to have completed 150-credit hours in order to sit for the Uniform CPA Examinations. The graduates of the MS program will be able to fulfill this requirement.

The MS program is a 30-credit program consisting of six required courses, two accounting electives, and two non-accounting electives. It can be pursued on a full-time or part-time basis. The program curriculum and admission requirements are outlined below. The accounting faculty within the Economics Department at Hunter College has established a record of teaching excellence, and has produced research of the highest quality within the field of accounting.
Requirements for Admission

A BS degree in Accounting from Hunter College or the equivalent from another regionally accredited college or university with:

- An overall GPA of 2.75 and a GPA of 3.0 in accounting courses
- Two letters of recommendation
- A GMAT score ((Hunter College undergraduates who apply during their senior year are exempt from this).
- A TOEFL score (if an applicant has received all or part of the undergraduate education in a country where English is not the native language).

Students applying with undergraduate degrees other than a BS in Accounting from Hunter may be accepted under the above standards but will need to meet the academic requirements of Hunter's BS in Accounting in addition to the requirements for the MS degree. (The undergraduate requirements include an accounting core comprised of ACC 27100 and 27200, Principles of Accounting I and II; ACC 37100 and 37200, Intermediate Accounting I and II; ACC 47100 and 47200, Advanced Accounting I and II; ACC 28000 and 38000, Business Law I and II; ACC 37400, Cost Accounting; ACC 37300 and 47300, Federal Income and Business Taxation; and ACC 47500, Auditing. For a complete description of the undergraduate requirements, see the Hunter College Undergraduate Catalog.).

Requirements for the Degree

The MS in Accounting program requires a student to earn 30 credits: 18 credits from a required core of six courses, 6 credits in accounting electives, and 6 credits in non-accounting electives, as outlined below. Additionally, a capstone research project will be undertaken as part of the required coursework.

Required courses

The following 3-credit courses are required of all students in the program:

**ACC 77000 - Research Techniques in Accounting**

The course will clarify the nature of accounting research for the student, and survey important research methods and techniques.

**ACC 77100 - Advanced Financial Accounting Theory**

Coverage will include contemporary financial reporting issues as they relate to FASB's conceptual framework, financial statement analysis, and specialized accounting areas such as cash flows, accounting for pensions, and employment benefits.

**ACC 77200 - Accounting Information Systems**

An introduction to information systems as they relate to organizational structure, managerial decision-making, and accounting. Topics include accounting systems and design theory, file structure, and the implementation and evaluation of systems.

**ACC 66000 - Managerial Economics for Accountants**
The decision making process within the firm through the prism of microeconomics. Topics include optimal pricing strategies, demand forecasting, hiring, and investment decisions. Specific analytical and quantitative tools will be developed.

prereq: ECO 32100* and either ECO 30000 or ECO 60000. The graduate adviser may waive the ECO 30000/60000 requirement in appropriate circumstances

Hours 3
Credits 3

* If these courses have not been taken at the time of admission, they may be taken while in the MS program but will not count towards the 30 credits needed to complete the degree.

ACC 78000 - Business Ethics, Communications, and Research Project

Ethical issues in accountancy will be covered, as well as ethical concerns in marketing, corporate social responsibility, and global operations. Business communication skills will be developed. A capstone research project will be completed.

prereq: ACC 77000

ACC 77500 - Advanced Auditing

Applies principles covered in undergraduate auditing. Topics include auditing of EDP systems; computer-assisted auditing techniques; and a review of special reports, reports on internal control, accounting and review services; and governmental auditing standards.

Note(s)

*The following may be substituted for ECO 66000 with permission of the program adviser.

ECO 70100 - Microeconomic Theory

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500

Electives

An additional twelve (12) credit hours, selected from among the following 3-credit courses, are also required. Students are required to take two courses from the accounting electives and two from liberal arts (non-accounting electives).

Accounting Electives

ACC 77300 - Advanced Federal Income Taxation

Coverage will include taxation of estates, gifts, and trusts; advanced topics in corporate and partnership taxation; international tax issues, and tax research techniques.
ACC 77400 - Advanced Managerial Accounting

Trains students to help managers obtain and analyze information for decision-making, planning, control and performance evaluation. Topics include new manufacturing environments, cost behavior, inventory costing, budgeting and variance analysis.

ACC 77600 - Governmental Accounting

Accounting, reporting, and auditing issues unique to governmental and nonprofit entities, as well as multinational business entities. Special issues related to audits under GAS and for US companies operating internationally will be covered.

ACC 77700 - State and Local Taxation

State and local business and personal tax policies of the tri-state region, with an emphasis on New York State and City taxation.

Other (Non-Accounting) Electives

Any other 600- or 700-level course offered by the Hunter College Economics Department may be taken as a non-accounting elective.

Graduate level courses within the Department of Urban Affairs and Planning and the graduate program in Social Research may also be taken as electives.

Economics - BA/MA

The Department of Economics makes it possible for students to earn both a BA and an MA degree in economics within the credits required for a BA at Hunter. BA/MA students must complete the requirements for both the BA and MA degree.

Students who wish to declare the BA/MA major must have a 3.0 average in Economics and in the cumulative index, with a minimum grade of B in ECO 300, and ECO 321, and a C in Math 150, or their equivalents. Continuing in the program is contingent upon maintaining a 3.0 GPA in Economics and the cumulative index and receiving a minimum grade of B in ECO 301 and an average grade of B in Math 150 and Math 160.

Economics - MA

Hunter’s master’s program in economics equips students with analytic tools that can be directly applied to business and public policy. The program integrates economic theory, quantitative methods and practical applications, and emphasizes elective courses in international trade and finance, economic development, financial economics, industrial organization, corporate governance, labor economics and public finance. Hunter MA students regularly move into interesting, well-paid positions in business, government, and international organizations. They are equally prepared to enter PhD programs at top-ranking universities.

Under the direction of professors who combine distinguished academic credentials with wide experience in economic research and applications, students studying for an MA at Hunter may participate in such major ongoing projects as: taxation, government spending, and economic growth; earnings of immigrants and minority groups; saving and investment in rural economies; taxation and the regional economy; social security and public welfare; tax competition;
health outcomes; corporate investment and financial decisions; regulatory policy; corporate control; location choices of immigrants.

The program is offered in the evening to accommodate students who hold full- and part-time jobs.

Requirements for Admission

Applicants to the MA program in economics must provide their scores on either the Graduate Record Examination (GRE) or the Graduate Management Admission Test (GMAT). Hunter College undergraduates with a GPA of 3.5 or higher are exempt from the GRE/GMAT requirement. In addition to the other Requirements for Admission to Hunter, the following departmental requirements must be met: at least 18 credits of undergraduate courses in economics, at least 9 credits of undergraduate courses in mathematics, and two letters of recommendation from college teachers, including one from a member of an economics department. The credits in economics must include at least six in principles of economics, and at least three in each of the following courses: economic statistics, introductory econometrics, intermediate microeconomics, and intermediate macroeconomics. The credits in mathematics must include two semesters of calculus and one of matrix algebra. Intermediate microeconomics, intermediate macroeconomics, introductory econometrics, calculus I and II, and matrix algebra are prerequisites for required courses in the MA program.

Students who have not completed these courses at the time of admission will be required to complete the needed course(s) during their first semester at Hunter. (Completion of such courses cannot be counted towards the MA.)

Requirements for the Degree

Of the 30 credits required for the degree, at least 24 must be devoted to courses in economics. The remaining 6 may be taken in related fields with permission of the department. All candidates are required to complete the following.

**ECO 70100 - Microeconomic Theory**

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

*prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500*

**ECO 70300 - Macroeconomic Theory**

Determinants of national income, output, employment and price levels, including microeconomic foundations of aggregate consumption, saving, and investment; theories of the business cycle and long-term growth; effects of public policies on employment, inflation and economic growth.

*prereq: ECO 30100 with a grade of B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500*

**ECO 72100 - Linear Econometric Analysis**

Econometric analysis of linear statistical models. Topics include: ordinary least squares-estimation, inference, testing and specification testing; instrumental variables and simultaneous equations models; panel data regression; time series and forecasting
prereq: ECO 32100 with a grade of B; MATH 15000 and MATH 16000 with an average grade of B
prereq or coreq: MATH 15500

ECO 72200 - Non-Linear Econometric Analysis

Econometric analysis of nonlinear statistical models. Maximum likelihood estimation; models for binary outcomes; models for ordered and unordered multinomial outcomes; models for self-selection; count data models.

prereq: ECO 72100
prereq or coreq: MATH 16000

The degree can be earned in two ways:

1. Completion of 27 credits of course work and 3 credits of Thesis Research. Students must submit a satisfactory master’s thesis written under the supervision of a member of the economics faculty.

2. Completion of 30 credits of course work. Students must prepare a supervised extended research paper in two of their courses and earn at least a B+ on each paper.

English

OVERVIEW

Students make the choice to pursue graduate study in English for a number of reasons, both professional and personal, and bring to this study a wide variety of experiences and strengths. MA programs in English at Hunter are designed with this intellectual and practical diversity in mind. Through study with the Department's research-inclined and pedagogically committed teaching faculty, our students are afforded myriad opportunities to develop and practice more sophisticated reading, writing and research skills than those required at the undergraduate level. In addition, those who enroll receive guidance in improving their own expertise as not just scholars but teachers of literature. Interested students may choose an English - MA in Literature, Language, and Theory, an MA in Adolescent English - MA / Advanced Certificate, or a Creative Writing - MFA.

Hunter's Creative Writing MFA is a highly selective program in which students work closely with distinguished writers to perfect their writing skills. The course comprises workshops, craft seminars, one-on-one supervisions with faculty, and literature classes. There are three concentrations, fiction, creative nonfiction and poetry, with 12 students in each. Each year, several students are named Hertog Fellows (fiction and nonfiction) and Friedman Scholars (poetry). These students receive a generous stipend and are paired with well-established writers, for whom they conduct research for one semester.

What can I do with my degree in English?

The MA program in Literature, Language, and Theory offers opportunities for both professional advancement and personal development. It may be taken as a terminal course of study or as preparation for doctoral work in English or other humanities fields.

English Program Advisers

Faculty

English Faculty

Creative Writing - MFA

Hunter's Creative Writing MFA is a highly selective program in which students work closely with distinguished writers to perfect their writing skills. The course comprises workshops, craft seminars, one-on-one supervisions with faculty, and literature classes. There are three concentrations, fiction, creative nonfiction and poetry, with 12 students in each. Each year, several students are named Hertog Fellows (fiction and nonfiction) and Friedman Scholars (poetry). These students receive a generous stipend and are paired with well-established writers, for whom they conduct research for one semester.

Departmental Requirements for Admission

Candidates must have completed a BA or equivalent at an accredited institution with no minimum GPA. In addition to the Hunter College application, the candidate must submit a creative writing manuscript (10-20 pages of poetry or 20-
30 pages of fiction or creative nonfiction) and a 500-word personal statement describing the candidate’s relationship to his/her creative work, literary influences, and why the MFA would be beneficial to the candidate’s writing career. In addition, creative nonfiction candidates must submit a 500-word memoir proposal. The GRE is not required.

Departmental Requirements for the Degree

Each candidate must complete an approved program of study of at least 36 credits, which must include:

1) Four writing workshops in chosen genre

2) Two courses in MA literature (not including ENGL 788)

3) Four MFA craft seminars in chosen genre

4) One course in Writing in Conference

ENGL 79800 - Writing in Conference

Individual tutorial directed by a member of the writing faculty.

*Hours 3 hrs
*Credits 3 cr
*To be taken in sequence with ENGL 79900 (MFA Thesis).

5) One course in MFA thesis

ENGL 79900 - MFA Thesis

Independent creative writing project, with regular advisory sessions with primary writing faculty adviser.

*Hours 3 hrs
*Credits 3 cr
*To be preceded in sequence by ENGL 79800 (Writing in Conference).

English - MA

The MA program in Literature, Language, and Theory offers opportunities for both professional advancement and personal development. It may be taken as a terminal course of study or as preparation for doctoral work in English or other humanities fields. In addition to the usual lecture, discussion, and seminar classes, the program offers reading tutorials and the opportunity for writing a research essay under the guidance of a senior faculty member.
Admission Requirements

In addition to the general requirements for admission, the following departmental requirements must be met: 18 credits of advanced undergraduate courses in British and American literature (exclusive of courses in journalism and writing), a writing sample of about 10 pages (preferably an undergraduate research paper) and the GRE General Test. Students who have done their major work in English in non-English-speaking countries are usually not eligible for admission to graduate courses in English without additional undergraduate preparation in an American college or university.

Degree Requirements

Each candidate must complete an approved program of study of at least 30 credits, which must include one course in British literature before 1800 and ENGL 78900 (Master's Thesis). We strongly recommend that students take ENGL 78700 (Studies in Literary Theory and Criticism) in their first or second semester. Courses other than those offered in the Department of English may be credited toward the 30 credits with the approval of the graduate adviser but they may in no case exceed 6 credits. Six credits of relevant graduate work done at another institution may be credited when approved by the graduate adviser.

Courses

ENGL 78700 - Studies in Literary Theory and Criticism

An in-depth investigation of foundational and current trends in literary theory.

ENGL 78900 - Master's Thesis

Individual research and final thesis writing under faculty supervision. Required of all candidates for MA degree in British and American literature.

Foreign Language

The candidate must demonstrate a reading knowledge of French, German, Latin or Spanish. Another language may be substituted with the approval of the graduate adviser.

Comprehensive Examination

The candidate must pass a written take-home examination/paper in literature, language, and theory.

Master of Arts Thesis

The candidate must submit a satisfactory master of arts thesis, incorporating original work and research, which will be approved by two appropriate members of the faculty and the graduate adviser. Two copies prepared for binding are required.

Nonmatriculants

After applicants have been accepted by Hunter College as nonmatriculant students, their records must be evaluated prior to registration by the graduate adviser before they can be admitted to English Department courses. Acceptance by
Hunter College does not guarantee acceptance by the Department of English. Not more than 9 credits may be transferred from nonmatriculated to matriculated status.

Film and Media Studies

Overview

With a world class faculty and up-to-date production facilities, Hunter College's Department of Film & Media Studies offers a graduate MFA degree in Integrated Media Arts. This degree focuses on politically and socially engaged creative work and the social role of media and technology. Our program educates multi-disciplinary media professionals, socially aware and competent in the diverse range media skills that are being brought together in a digital media environment.

The IMA Program offers a 48-credit course of study, combining analytical seminars, interdisciplinary research, and creative workshops in writing, visual communication, and media production, and culminating in an advanced thesis project and paper. Student work in the program has included single channel documentaries, interactive websites, handmade electro-mechanical devices, public exhibitions, interactive installations, transmedia narratives, live performances, and rich media for the expanding spectrum of screen based platforms. Building on a foundation of research and analysis, IMA students explore and create new ways to advance information and ideas, balancing critical thinking with aesthetics, contemporary issues with an historical perspective, theory with practice, and traditional methods with new technologies.

What can I do with my degree in Film and Media Studies/Integrated Media Arts?

Graduates work in media, communications, advertising, marketing and the entertainment industry. Advances in technology are opening up a host of other career options for individuals with degrees in multimedia. As multimedia continues to infiltrate our culture and work its way into our everyday lives, the future may hold even more unknown opportunities.

IMA Faculty

Integrated Media Arts - MFA

Since its inception in 2002, the IMA Program has offered talented students a media arts education based on a paradigm shift that brings together the traditional fields of documentary film production with emerging areas of new media arts. The IMA Program educates multi-disciplinary, socially engaged media makers in a diverse range of skills across the media landscape. Working with accomplished faculty from film, video and emerging media backgrounds, students learn to conceptualize, create and distribute innovative, politically and socially engaged expression using contemporary media technologies.

The IMA Program offers a 48-credit course of study, combining analytical seminars, interdisciplinary research, and creative workshops in writing, visual communication, and media production, and culminating in an advanced thesis project and paper. Student work in the program has included single channel documentaries, interactive websites, handmade electro-mechanical devices, public exhibitions, interactive installations, transmedia narratives, live performances, and rich media for the expanding spectrum of screen based platforms. Building on a foundation of research and analysis, IMA students explore and create new ways to advance information and ideas, balancing critical thinking with aesthetics, contemporary issues with an historical perspective, theory with practice, and traditional methods with new technologies.

Admissions Requirements

Students are admitted into the program for fall semester enrollment only. Applications are accepted and reviewed on a rolling basis from February 1st through May 1st. The IMA Program is highly selective, enrolling approximately 20 students each year. Applicants are expected to present the following:

- A bachelor's degree, with no minimum GPA.
- 3 letters of recommendation from people able to comment on an applicant's creative and academic talent and determination.
- A portfolio of media works, indicating talent and promise. Submitted works may include videos and films, interactive digital design, photography, sound, graphic design, journalistic writings, etc.
- A project summary describing a new, non-fiction media project that an applicant could envision making in the IMA MFA Program. Summary should explore creative tools, approach, and form for imagined work that could be developed in an IMA course.
- A personal statement describing the applicant's long-term objectives as a media maker and the social impact they hope their work will have. Statements should also explain why Hunter's MFA Program in Integrated Media Arts is particularly relevant to the applicant's creative goals.
An official transcript of undergraduate studies.
A completed graduate application form.
Applicants whose native language is not English must take the Test of Written English (TWE) component of the TOEFL examination. The program may recommend for admission applicants with lower than required TOEFL scores based on writing samples and interviews that show sufficient proficiency in English to succeed in the program.
Applications reviewed on a rolling basis - through April 1.

For more information see the IMA Program Admission Guidelines http://ima-mfa.hunter.cuny.edu/ima-admissions-guidelines/

Degree Requirements

The 48-credit degree consists of 27 required credits (9 courses), 21 elective credits (7 courses), and several non-credit requirements.

Students must take the following courses

IMA 70000 - Visual Culture Seminar

This course combines self-directed research in visual studies with an introduction to the comparative study of visual culture including approaches from art, media, philosophy and cultural studies contexts. This seminar is a workshop-format research-oriented, criticism-intensive exploration of visual culture methods across media, time periods and critical methods. Students will be asked to develop a Visual Culture Project on a research topic of their own choosing while sharing presentations of readings on topics related to theoretical approaches to visuality drawn from a variety of disciplinary frames designed to give students a broad overview of useful tools for thinking about the visual world.

*Hours 3
Credits 3*

IMA 70200 - History and Theory of Emerging Media

An exploration of the history of digital and Internet-based art, approached through a comparative framework drawn from the aesthetic history of post-war computing, experimental cinema, and contemporary art history.

*prereq: IMA 70000 or IMA 70100
Hours 3
Credits 3
Material Fee: $20*

*Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.*

IMA 70900 - History and Theory of the Documentary

This course examines canonical films from the first 100 years of documentary filmmaking in their historical and theoretical context, and analyzes the formal and technological innovations of documentary's pioneers. The course also explores the intersections of documentary art with other art forms and considers the opportunities and responsibilities of a documentary storyteller.

*prereq: IMA 70000 -or- IMA 70100*
IMA 75000 - Emerging Media 1

This hands-on production course introduces students to the practical fundamentals of visual studies, design, digital graphics and illustration. It is a foundations course in 2D design, illustration and digital imaging. Students are introduced to a range of media production equipment and techniques, including: The history of design, computer graphics, illustration and new media; Issues in visual studies; Image composition, framing, and layout; Typography and text/image relationships; and Basic imaging and vector based illustration software.

IMA 75100 - Documentary 1

This production workshop introduces students to the fundamental techniques, technology, aesthetics and creative approaches of nonfiction video production.

IMA 75200 - Emerging Media 2

This hands-on class teaches you the skills needed to build basic, well-designed websites. Learn how to layout pages, format text, and optimize images for professional-looking web pages. The course covers HTML, CSS, introductory JavaScript and JS Frameworks, corresponding software as well as combination of text and graphics, creating and optimizing GIFs and JPEGs, animated GIFs. Lectures and exercises focus on creating cohesive websites with effective information architecture, well-designed interfaces, interactivity and usability. Throughout the semester readings relating to net culture, tactical media and other creative forms for network spaces will be required.

prereq: IMA 75000

IMA 75300 - Documentary 2

This workshop guides students through the process of producing and filming a documentary video project. Course work includes researching an idea, writing a proposal and script, developing interview subjects and/or situations for filming, and budgeting, scheduling and shooting the documentary project.

prereq: IMA 75100

IMA 75400 - Advanced Studio: Emerging Media

Provides students the opportunity to work on an advanced emerging media project and participate in group and individual critiques with MFA faculty. Particular emphasis will be on helping students prepare for the MFA Thesis Project. Students may repeat this Advanced Studio once with a different project.
prereq: IMA 75200, 75300, 70200, and 70900 -or- approval of instructor
Hours 3 hrs
Credits 3 cr.

- or -

IMA 75500 - Advanced Studio: Documentary

Provides students the opportunity to work on an advanced documentary project and participate in group and individual critiques with MFA faculty. Particular emphasis will be on helping students prepare for the MFA Thesis Project. Students may repeat this Advanced Studio once with a different project.

prereq: IMA 75200, 75300, 70200, and 70900 -or- approval of instructor
Hours 3 hrs
Credits 3 cr.

IMA 78800 - Master of Fine Arts Thesis Project

This capstone project must be completed satisfactorily before graduation. It includes an advanced creative work, a written component, a thesis defense, and exhibition of work in the Thesis Show. Students meet individually with a Primary Thesis Adviser from the department's permanent faculty, along with periodic consultations with secondary and tertiary advisers. The Thesis Project must integrate elements from across the Program's production curriculum and incorporate a critical component.

prereq: Approval of graduate adviser required.
Hours 3 hrs
Credits 3 cr.
Non-matriculated students are never permitted to enroll.

Electives

21 elective credits (7 courses) drawn from advanced IMA course offerings with graduate adviser approval required.

Courses in Integrated Media Arts

Special Topics courses are listed on the IMA MFA Program website (http://ima-mfa.hunter.cuny.edu/current-courses/), including the following:

IMA 78020 Media and Policy in the Digital Age, 3 cr
IMA 78024 Psychogeography, 3 cr
IMA 78032 New Currents in Documentary, 3 cr
IMA 78034 Public Health and Documentary, 3 cr
IMA 780xx Rights and Revisions, 3 cr
IMA 780xx Sound Fields, 3 cr
IMA 78083 Anti-Documentary, 3 cr
IMA 78093 Hybrid Documentary, 3 cr
IMA 78094 Color Aesthetics, Theory, Practice, 3 cr

Additional Tools and Technology Workshops are listed on the IMA MFA Program website (http://ima-mfa.hunter.cuny.edu/current-courses/), including the following:
IMA 78304 Mutable Narrative. 1 cr
IMA 78305 Radicalizing the Local: A Workshop in Activist Public Art. 1 cr
IMA 78306 Taking a Documentary Detour, 1 cr

Students must complete the following non-credit requirements

- **Collaborative Residency**: Students are required to complete a Collaborative Residency, which can be an in-house project or external creative residency that must be defined in conjunction with the graduate adviser and must involve collaboration among different media makers. For more information see the IMA Program Guidelines.

- **Critique Sessions**: Students must pass two critique sessions in order to begin work on the Thesis Project. Students who do not pass either the First or Second Critique after three attempts must withdraw from the IMA Program. For more information see the IMA Program Guidelines.

- **Thesis Requirements**: To graduate, students have a maximum of two years to complete the creative component of the Thesis Project, present this project to a panel of three advisors in a Thesis Defense, submit a Thesis Paper that is approved by the Primary Thesis Advisor and conforms to the College's guidelines for Master's Theses in Arts & Sciences, and exhibit the Thesis Project in the IMA Program's Thesis Show. For more information see the IMA Program Guidelines.

Total for MFA in IMA 48 credits

Notes:

1. Students must fulfill all degree requirements within five years of matriculating.

2. Non-matriculated students require permission of the IMA Program Director and the instructor for enrollment in any IMA course.

**Geography**

**OVERVIEW**

The Hunter College Department of Geography is the largest and one of the most technologically advanced geography programs in the New York City metropolitan region. The department offers an MA in Geography, MS in GeoInformatics, and a graduate level post-baccalaureate Certificate Program in Geographic Information Science. In addition, the department contributes to three Masters level programs in conjunction with the Hunter College School of Education (helping train teachers of geography and earth science). The CUNY Graduate Center offers a PhD Program in Earth and Environmental Sciences.

Our oldest graduate program, the MA in Geography, provides state-of-the-art knowledge of contemporary urbanization, the global economy and migration, global climate change and sustainability together with advanced analytical skills, including quantitative, qualitative, and geospatial research methods for addressing the vital problems humanity is facing today. Our students conduct research in many parts of the world while also focusing on New York City and the challenges to its populations, environments, and neighborhoods. In partnership with the School of Education's BA/MA program in Environmental Studies and Adolescent Education the Geography MA also fulfills the need for educated geographers and geography/earth science teachers in New York City and New York State.

The GIS Certificate Program is practically oriented to provide students with the fundamental skills and concepts in Geographic Information Science. It is anticipated that they will apply these newly acquired techniques to their domain
of study. The GIS Certificate Program attracts professionals who seek expertise in geospatial analysis that will enhance their professional competence. In addition, MA students can earn Certificate in GIS concurrently.

The new MS in GeoInformatics program (MGEOi) takes a computational approach to the analysis, modeling and visualization of spatial-temporal data. It offers highly competitive advanced quantitative and technical skills in geospatial analysis, open source tools, and coding that are in high demand in both the public and private sectors. Students leave with a strong background in spatial-temporal data analytics.

In all our programs, faculty and students do research that seeks to improve the social, environmental, and economic well-being of New Yorkers. The Department of Geography takes pride in helping to advance the careers of underrepresented groups in geography and related fields.

**What can I do with my degree in Geography, GeoInformatics, or GIS?**

Our website features stories about our former students. In general, MA graduates often continue with their graduate work in PhD programs in geography and related fields. Most, however, become professionals whose expertise in the above areas is widely used by the governments and administrations of New York City and New York State, the US Bureau of the Census, and private industry; they also develop careers as geography/earth science teachers. GIS certificate students enhance their skillset by adding GIS expertise to their main field. Many GIS certificate students proceed to earn MA in Geography.

As of this writing Hunter's MGEOi (MS in GeoInformatics) program is one of only two in the country specializing in GeoInformatics. Our program is designed primarily as a professional degree, filling a market need in a well-paid discipline with an emphasis on technology implementation with an engineering/computer science approach rather than a purely applied use of GIS. Training includes computational aspects of spatial data science such as modeling and programming, remote sensing, visualization, databases, spatial ontologies, spatial statistics, big data, and complexity. Students will have opportunities to explore links with both Geography and Computer Science faculty at Hunter College and with employers and the tech community in the New York metropolitan area.

**Programs and Courses**

Programs and Courses in Geography

Programs Offered in the School of Education

**Doctor of Philosophy**

The Department of Geography participates in the PhD Program in Earth and Environmental Sciences based at the CUNY Graduate Center. Students in this program may select Hunter College as their "home" college and geography as their specialty. Since 2005 this program has a separate track in geography. For application forms and further information, write to: Executive Officer, PhD Program in Earth and Environmental Sciences, CUNY Graduate Center, 365 Fifth Avenue, New York, NY 10016 or go to

Geography Faculty

HEGIS Codes: 2206 (Geography); 2205 (Adolescent Education); 4999 (Environmental Studies)

BA/MA in Environmental Studies and Adolescent Education.
The Geography Department together with the School of Education also offers a 5-year combined BA/MA Program in Environmental Studies and Adolescent Education. This program is designed for highly qualified Environmental Studies majors who, during the course of their sophomore year, decide to pursue a career in secondary school teaching. For more information please contact the Department of Geography.

**Geographic Information Science Post-Baccalaureate Certificate**

Return to: Geography Department

The Post-Baccalaureate Certificate Program in Geographic Information Science was established in 2001 to meet the demand for people with expertise in GIS. The GIS Certificate program is a 15-credit post-baccalaureate professional program that offers advanced training in Geographic Information Science (GIS). Students are required to take five graduate-level GIS classes including GTECH 71000 - Concepts and Theories in GeoInformatics, GTECH 7300 - Advanced GeoInformatics, and three other GTECH or related courses. Students are strongly urged to include GTECH 70900 - Introduction to Geographic Information Systems in their list of courses. Those interested in GIS development are encouraged to take two programming-oriented classes (GTECH 73100 - GeoComputation I and GTECH 73300 - GeoComputation II). Students planning a career in GIS applications are encouraged to choose from the wide range of applications courses. Students interested in remote sensing may take the sequence of GTECH 71200 - Remote Sensing of Environment through GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing courses and those interested in cartography and geovisualization may take GTECH 72100 - Introduction to Cartographic Design and Geovisualization and GTECH 72200 - Advanced Topics in GeoVisualization.

Courses taken to fulfill the requirements of the GIS certificate program may also count towards fulfillment of the Geography MA degree. This happens automatically for GIS certificate students who concurrently enroll as MA students. For students who enroll in the GIS certificate program prior to enrolling in the MA program, the student must request the transfer of credits. The GIS Certificate program does not accept transfer credits to satisfy the minimum 15 credits required for the program.

As the GIS certificate program is a non-degree program, GIS certificate students are considered "non-matriculated." Enrollment in the GIS certificate program does not guarantee eligibility for financial aid or for a student visa. For more information contact the United States Citizenship and Immigration Services (http://www.uscis.gov/portal/site/uscis).

Return to the Geography Department

**Admission Requirements**

For applicants who are currently matriculated and in good standing in a graduate-degree program at Hunter College, there is one requirement to be considered for admission:

The student must have passed a college-level statistics course that covers hypothesis testing and simple statistical modeling techniques.

All other applicants must meet the following minimum requirements in order to be considered:

1. The student must hold a bachelor’s degree from a regionally accredited institution, comparable in standard and content to a bachelor’s degree from Hunter College.
2. The student must demonstrate the ability to pursue graduate work successfully. In general, the minimum requirements for consideration are a B-minus average in the undergraduate record as a whole and a B average in the major.

3. The student must have taken a college-level statistics course which covers basics such as hypothesis testing and simple statistical modeling techniques.

Requirements for the Certificate

Completion of the post-baccalaureate certificate program in GIS requires a minimum of 15 credits, which include:

Required courses (6 cr.)

**GTECH 71000 - Concepts and Theories in Geoinformatics**

Theoretical and conceptual foundations of Geoinformatics and Geographic Information Science.

*coreq: GTECH 70900*

*Hours 60 hrs including conference (2 lectures, 2 labs),*

*Credits 3*

*Fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.*

*Material Fee:S 15*

**GTECH 73200 - Advanced Geoinformatics**

Expansion of GTECH 70900 and GTECH 71000 concentrating on advanced concepts in Geoinformatics, including data models, algorithms, GIS analysis and scripting.

*prereq: GTECH 70900 and GTECH 71000*

*Hours 45 hrs including conference,*

*Credits 3 cr*

*Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.*

*Material Fee: $15*

Electives (9 or more cr)

**GTECH 70200 - Quantitative Methods in Geography**

Application of scientific methods to geographic research, including sampling, distribution measurement, characterizing relationships, multivariate analysis, and a strong focus on computational modeling statistical relationships using either R or Python.

*prereq: Permission by instructor*

*Hours 3 hrs*

*Credits 3 cr.*
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

**GTECH 70500 - Spatial Data Analysis**

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

**prereq:** one course in statistics and permission of the instructor

**Hours** 60 hrs including conference (2 lectures, 2 labs)

**Credits** 3 cr

**Material Fee:** $15

**GTECH 71200 - Remote Sensing of Environment**

Fundamental concepts of remote sensing of environment, satellite sensor systems and their applications, and basic concepts of image analysis.

**prereq:** GTECH 71100 or permission of the instructor

**Hours** 60 hours (2 lecture and 2 hour labs weekly)

**Credits** 3 cr

**Material Fee:** $15

**GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing**

Quantitative processing of digital imagery; enhancement, information extraction, classification; algorithms, registration, rectification; and Light Detection and Ranging (LiDAR) technology and principles and applications; lab exercises.

**prereq:** GTECH 71200 multivariate stat, elem linear algebra

**Hours** 6

**Credits** 3 cr

**GTECH 72100 - Introduction to Cartographic Design and Geovisualization**

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.
GTECH 72200 - Advanced Topics in GeoVisualization

This course immerses students in animated and interactive maps, web mapping, and new visualization techniques.

GTECH 73100 - GeoComputation I

A comprehensive course in programming that concentrates on object-oriented programming methods and algorithms specific to geographic and cartographic applications.

GTECH 73300 - GeoComputation II

Theory and applications of GeoComputing. Models and algorithms for advanced spatial and temporal modeling are examined and programed. Emphasis is on an object-based computational paradigm and spatial data structures.

Minimum GPA Requirement

3.0 average or better on all core and elective courses. Additional elective courses may be added to this list or may be used as substitutes with the approval of the GIS Certificate adviser.

Application Deadline
For fall semester: July 1 (April 1 for international students)
For spring semester: January 1 (November 1 for international students)

Return to: Geography Department

**Geography - MA**

Return to: Geography Department

The Department of Geography offers a Master of Arts in Geography with a range of courses in human geography, physical geography, regional geography, and geographic techniques and methods. There are four broad concentration areas: environmental studies, geographic information science, places and cultures, and urban geography studies. The program accommodates students with a variety of professional backgrounds, and with academic training in social sciences, computer science, environmental science / engineering as well as traditional geography.

The program emphasizes geographic and social theory and analytical methodologies in human, physical, and environmental geography, as well as geographic information science. A limited number of research, teaching, and college assistantships are available. The MA degree can be completed through either a thesis or exam. Full-time students may be able to complete the MA within three semesters, but the average time for degree completion is three years. Many courses are offered in the evening to accommodate part-time and working students.

An MA in Geography from Hunter can lead to employment with local and national governments, international agencies, non-government organizations, corporations, consultants and information technology companies. The New York area is home to diverse urban communities, dynamic economies and cultures, government structures of all levels (from local to international), and corporate headquarters. Located on Manhattan's Upper East Side, Hunter College is close to these activities and is highly accessible from all parts of New York City and surrounding areas. Students who wish to continue graduate work at the PhD level will find themselves well prepared and equipped with the research and technical skills necessary for advanced research.

**Admissions Requirements**

Admissions procedures are as established by the Hunter College Office of Graduate Admissions. See Graduate Admissions: General. Candidates must have a BA or BS or equivalent, an undergraduate GPA of at least a B minus, with a B average in the major, and (normally) the completion of at least 18 credit hours in geography. A lack of a background in geography will not impede admission, but the student is expected to gain basic knowledge of geography prior to graduation in consultation with the student's adviser. It is recommended that students enter the program with knowledge of basic statistics. Foreign students whose first language is not English must take the Test of English as a Foreign Language. Two letters of recommendation are required.

If you have any questions about the information in this catalog, please contact the Geography MA adviser (Prof. Hongmian Gong, gong@hunter.cuny.edu).

**Application Deadlines**

For fall semester: April 30 (February 1 for international students) For spring semester: November 30 (September 1 for international students)

We encourage graduate application submissions by early deadlines of September 1 and February 1. This will help with allocation of scholarships and funding if these are available.
Requirements for the Degree

The Master of Arts consists of 31 or 36 graduate credits, depending on the program option chosen, selected from three types of courses: GEOG, PGEOG and GTECH. GEOG classes cover human geography, nature/society, and regional geography, while PGEOG classes cover physical geography and environmental science. GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing, and cartography. Classes vary in their structure from laboratory classes to lecture/discussions and seminars. Graduate courses outside of the GEOG, GTECH and PGEOG prefixes may be applied to the degree within the parameters listed below.

Students must complete a minimum of credits in one of the following options:

A. Thesis Option:

A minimum of 31 credits consisting of:

1. A minimum of 30 credits of course work consisting of

(exclusive of GEOG 799)

GEOG 70100, 70200, 70154 (7 cr)

GEOG 70100 - Geographic Thought and Theory

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

Hours 45 hrs including conference,
Credits 3 cr
fall only This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70154 - Geographic Research Design

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

Hours 45 hrs including conference
Credits 3
spring only

GEOG 70200 - Research Topics in Geography
Introduction to central research themes in geography and the current research being undertaken by department faculty.

*Hours 15 hrs including conference,*

*Credits 1 cr*

fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

A minimum of 11 additional credits

A minimum of 11 additional credits selected from GEOG, GTECH and PGEOG courses numbered 70100 or higher. PGEOG 63000, PGEOG 66000, and GEOG 65000 are exclusively for MA-TEP and BA/MA-TEP students and cannot be counted toward the MA in Geography.

A maximum of 12 credits

A maximum of 12 credits selected from other than GEOG, GTECH or PGEOG courses as approved by the graduate adviser. **

2. One credit of the following leading to a thesis approved by the student's graduate advisers

**GEOG 79900 - Thesis Research in Geography**

Open to students electing the thesis option only.

*prereq: GEOG 701 and permission of the department*

1-6cr may be repeated for credit but only one credit may be applied to satisfy degree requirements. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

3. Formal approval of a study proposed for thesis research.***

5. A formal presentation of the student's thesis research.

B. Examination Option:

A minimum of 36 credits consisting of:

1. Geography (7 cr)

**GEOG 70100 - Geographic Thought and Theory**

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.
GEOG 70200 - Research Topics in Geography

Introduction to central research themes in geography and the current research being undertaken by department faculty.

Hours 15 hrs including conference,
Credits 1 cr
fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70154 - Geographic Research Design

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

Hours 45 hrs including conference
Credits 3 cr
spring only

A minimum of 17 additional credits

A minimum of 17 additional credits selected from GEOG, GTECH, and PGEOG courses numbered 70100 or higher. PGEOG 63000, PGEOG 66000, and GEOG 65000 are exclusively for MA-TEP and BA/MA-TEP students and cannot be counted toward the MA in Geography.

3. A maximum of 12 credits

A maximum of 12 credits selected from other than GEOG, GTECH, and PGEOG courses as approved by the graduate adviser.

4. A passing grade on the comprehensive examination

A passing grade on the comprehensive examination conducted by the student’s graduate committee.

5. A research paper of publishable quality

A research paper of publishable quality prepared in the format of *The Professional Geographer* or its equivalent.
6. A formal presentation of the student’s research paper.

Additional Information

Students who are accepted into the program, who have already earned credits with a grade of B or higher as nonmatriculated students, may transfer only two (2) courses or eight (8) credits, whichever is greater, from nonmatriculated status to matriculated status. In exceptional situations, up to 12 credits earned as a nonmatriculated student may be transferred to matriculated status.

Although both options may prepare students for additional graduate work, the thesis option is recommended for those who might wish to pursue the PhD in geography or an allied field. The examination option is recommended for students seeking a terminal MA.

Students who are accepted into the Geography MA program and register for courses may transfer up to a maximum of 9 credits of relevant graduate coursework from regionally accredited institutions, including courses taken at Hunter College while enrolled in another degree program, whether a master’s degree was awarded or not. Transfer of credits is subject to review and approval by the Graduate Adviser. Applicants to this program should be aware that there is no promise of automatic transfer of credit on the graduate level. With the approval of the Graduate Adviser, students may include up to 9 credits of graduate-level courses taken outside the Department of Geography at Hunter College toward completion of their degree, including transferred courses and courses taken in other CUNY graduate programs. (Exception: students who have received their B.A. in Geography or Environmental Studies from Hunter College may, with the approval of the Graduate Adviser, include up to twelve credits taken outside the department.)

Language Requirement

A foreign language is not required for the MA in geography. However, students interested in regional studies or further graduate work are strongly encouraged to master a foreign language. Students emphasizing technical skills are strongly encouraged to master one or more computer programming languages.

Completion Time

The School of Arts and Sciences allows four years to complete a MA degree. A petition to the Dean is required to exceed the limit. Most full-time students are able to complete the MA requirements in 4 semesters or fewer. To accommodate all students, many courses are offered during the evening.

Assistantships

A limited number of teaching and research assistantships are available from the department. Students seeking assistantships should state so in their statement of purpose included with the application. They should also indicate what skills and qualifications they have for research or teaching assistance.

Note(s)

* Graduate students entering the program without a geography background will be required to take 6 credits in geography outside their principal area of concentration (GEOG, PGEOG or GTECH).

** Graduate students entering the program without a geography background will be limited to 6 credits taken outside the program. Students who were undergraduate majors in geography can appeal to the Graduate Committee to take more than 12 credits outside the program.
*** Students must submit to their committee the proposal for thesis research no later than the end of the semester in which they finish their 20th credit in the program.

Return to: Geography Department

Geoinformatics - MS

The MS in GeoInformatics program is an interdisciplinary degree that features courses in GeoInformatics, GIScience, and some GIS application areas. It provides an opportunity to train students in aspects of GeoInformatics not covered by our department's GIS Certificate Program. The MGEOi is a science-based MS program designed to prepare students for management- and advanced research-level employment positions.

As of this writing Hunter's program is one of only two in the country specializing in GeoInformatics. Our program is designed primarily as a professional degree, filling a market need in a well-paid discipline with an emphasis on technology implementation with an engineering/computer science approach rather than a purely applied use of GIS. Training will include computational aspects of spatial data science such as modeling and programming, remote sensing, visualization, databases, spatial ontologies, spatial statistics, big data, and complexity. Students will have opportunities to explore links with both Geography and Computer Science faculty at Hunter College and with employers and the tech community in the New York metropolitan area.

Students receiving a Master of Science in GeoInformatics must choose one of two program options: the Thesis Option or Exam Option. The Thesis Option is recommended for students who will subsequently pursue a PhD. For other students, either option is acceptable. The program curriculum and other requirements are outlined in subsequent sections. The MS in GeoInformatics requires completing 33 (the Thesis Option) or 37 (the Exam Option) graduate credits within three semesters of full-time study (part-time study is also permitted). Classes vary in their structure from lecture to computer laboratory classes to seminars. Most classes provide hands-on computer experience.

Students are required to form a committee (discussed below) to review and approve their degree, and must choose courses from three groups:

(1) GeoInformatics and GIS core courses (19 credits);

(2) Elective courses in GeoInformatics and GIS or allied fields (e.g., Geography, Computer Science, Urban Planning, Geology, Economics, etc… 12 credits);

(3a) Thesis Option: Students complete an MS Thesis for which they receive a total of two credits

-or-

(3b) Exam Option: Students must pass an exam issued and graded by their committee, submit a research paper that is approved by their committee, and receive 6 credits in course work approved by their committee.

In addition to traditional courses, students will have the opportunity to participate in an active technology and research seminar series, field trips to local private and public sector GIS groups and research sites, as well as contribute to real-world GIS projects through internal and external mentorship programs. In particular, we are working on an internship model with Manhattan Borough President's Office of New York City.

Admission Requirements

GPA of at least 3.0

GRE exam scores
BA or BS degree

Two letters of recommendation

Personal statement

Students are required to have taken*

An introductory statistics course

Introductory computer science/programming course

Notes:

* Students will have the opportunity to challenge these requirements if they are able to prove proficiency in statistics and/or computer programming.

Foreign students whose first language is not English must also take the Test of English as a Foreign Language (TOEFL) and meet the requirements set by Hunter College. see Graduate Admissions: General

Progress Requirements

Students are expected to maintain a cumulative GPA of at least 3.0 in order to continue in the program.

Curriculum

Core component - 19 credits

GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management.

coreq: GTECH 71000

Hours 4 hrs.
Credits 3 cr.

GTECH 71000 - Concepts and Theories in GeoInformatics

Theoretical and conceptual foundations of GeoInformatics and Geographic Information Science.

coreq: GTECH 70900

Hours 60 hrs including conference (2 lectures, 2 labs),
Credits 3

fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.
GTECH 73200 - Advanced GeoInformatics

Expansion of GTECH 70900 and GTECH 71000 concentrating on advanced concepts in GeoInformatics, including data models, algorithms, GIS analysis and scripting.

prereq: GTECH 70900 and GTECH 71000
Hours 45 hrs including conference,
Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 70200 - Quantitative Methods in Geography

Application of scientific methods to geographic research, including sampling, distribution measurement, characterizing relationships, multivariate analysis, and a strong focus on computational modeling statistical relationships using either R or Python.

prereq: Permission by instructor
Hours 3 hrs
Credits 3 cr.

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 71200 - Remote Sensing of Environment

Fundamental concepts of remote sensing of environment, satellite sensor systems and their applications, and basic concepts of image analysis.

prereq: GTECH 71100 or permission of the instructor
Hours 60 hours (2 lecture and 2 hour labs weekly),
Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 73100 - GeoComputation I

A comprehensive course in programming that concentrates on object-oriented programming methods and algorithms specific to geographic and cartographic applications.
prereq: GTECH 71000 or equivalent

Hours 6
Credits 4

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

Elective component (Topic tracks) - 12 credits

The curriculum for the elective component is relatively open although the program suggests several specialized tracks for developing expertise in specific areas of GeoInformatics. These tracks are informal designations and students may switch tracks or combine multiple tracks at any time in consultation with the program adviser and relevant faculty. We suggest four topic tracks that would help students focus the program according to their needs: 1) Spatial Data Analytics and GeoVisualization, 2) GeoComputational Modeling and Remote Sensing, 3) Distributed and Web-based GeoComputation, 4) Applied GIS and Management. A track sequence would typically involve taking three to four required courses and complementing them with several electives courses. Exam option students in each track must take two additional 3 credit elective courses from GTECH and GEOG including GIS applications courses (GTECH 785xx).

1. Spatial Data Analytics and GeoVisualization

The Spatial Data Analytics and GeoVisualization track is designed for students who are interested in the analysis and exploration of geospatial information. This track focuses on core computational statistical methods as well as tools and techniques for effectively conveying research findings, in both static and interactive formats. The track includes the six required courses as well as

GTECH 72100 - Introduction to Cartographic Design and Geovisualization

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

prereq: GTECH 70900
Hours 4 hrs
Credits 3 cr.
Material Fee: $15

GTECH 72200 - Advanced Topics in GeoVisualization

This course immerses students in animated and interactive maps, web mapping, and new visualization techniques.

prereq: GTECH 70900
Hours 4 hrs
Credits 3 cr.

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15
GTECH 70500 - Spatial Data Analysis

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

*prereq: one course in statistics and permission of the instructor*

*Hours 60 hrs including conference (2 lectures, 2 labs),
Credits 3 cr*

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

*Material Fee: $15*

GTECH 73300 - GeoComputation II

Theory and applications of GeoComputing. Models and algorithms for advanced spatial and temporal modeling are examined and programmed. Emphasis is on an object-based computational paradigm and spatial data structures.

*prereq: GTECH 73100 and GTECH 73200 and permission of the graduate adviser*

*Hours 3
Credits 3*

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

2. GeoComputational Modeling and Remote Sensing

The GeoComputational Modeling track is designed for students interested in spatial-temporal modeling and algorithm development. Students will acquire expertise in the development of conceptual models, turning them into computational models (i.e., data structures and algorithms), and validating the results of those models. A range of spatial-temporal models will be examined, programmed and applied to real-world problems that often require "big data" solutions.

GTECH 73300 - GeoComputation II

Theory and applications of GeoComputing. Models and algorithms for advanced spatial and temporal modeling are examined and programmed. Emphasis is on an object-based computational paradigm and spatial data structures.

*prereq: GTECH 73100 and GTECH 73200 and permission of the graduate adviser*

*Hours 3
Credits 3*

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing

Quantitative processing of digital imagery; enhancement, information extraction, classification; algorithms, registration, rectification; and Light Detection and Ranging (LiDAR) technology and principles and applications; lab exercises.
GTECH 72100 - Introduction to Cartographic Design and Geovisualization

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

prereq: GTECH 70900
Hours 4 hrs
Credits 3 cr.
Material Fee: $15

GTECH 785XX - GIS Applications

GIS Applications in various fields such as Social Geography, Urban Geography, and more.

prereq: GTECH 71000 or equivalent or permission of the department
Hours 3
Credits 3

GTECH 70500 - Spatial Data Analysis

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

prereq: one course in statistics and permission of the instructor
Hours 60 hrs including conference (2 lectures, 2 labs),
Credits 3 cr
Material Fee: $15

3. Distributed and Web-based GeoComputation

The Distributed and Web-based GeoComputation track is designed for students interested in GeoWeb services, spatial data infrastructures, cloud computing, location-based services, and Big Geospatial Data. The track focuses on the use and development of these technologies, including OGC[1] web services, map service setups for raster and vector tiles, as well as distributed computing solutions such as MapReduce and Hadoop.

GTECH 73300 - GeoComputation II
Theory and applications of GeoComputing. Models and algorithms for advanced spatial and temporal modeling are examined and programmed. Emphasis is on an object-based computational paradigm and spatial data structures.

prereq: GTECH 73100 and GTECH 73200 and permission of the graduate adviser  
Hours 3  
Credits 3

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 73400 - GeoWeb Services

This course will examine the principles of GeoWeb services in a hands-on fashion. Students will learn about the different standards that are being used in the context of the GeoWeb. They will be introduced to different commercial and open source software solutions and learn how to set up, manage, and use these services. Students will explore the different technologies introduced in class in the lab assignments. Each student will present a topic to the class based on readings provided by the instructor. In the second half of the semester, each student will work on a project that involves the setup and use of GeoWeb services. Basic programming skills in any language are a prerequisite for this course.

prereq: GTECH 73100 GeoComputation I  
Hours 3 hrs.  
Credits 3 cr.

GTECH 73500 - Location Based Services

This course will examine the principles of Location Based Services (LBS) in a hands-on fashion. Students will learn how to design, implement, and test an LBS application in a group project. Therefore, basic programming skills in any language are a prerequisite for this course. The course will be highly interactive in two ways: Each student will present a topic to the class based on readings provided by the instructor, and each student will participate in the group work to develop a working LBS by the end of the semester. For this purpose, mobile devices (iPhones, Android phones, Google Glass) will be provided.

prereq: One of the following:

GTECH 70500 Spatial Data Analysis  
GTECH 73100 GeoComputation I  
CSCI 13500 Software Design and Analysis I  
Hours 3 hrs.  
Credits 3 cr.

4. Applied GIS and Management

The Applied GIS and Management track provides students with knowledge and skills necessary for taking the GISP (Geographic Information Systems Professional) exam administered by the GIS Certification Institute. The goal of this concentration is to help students fast track into positions in GIS management. As part of their education, they work with and learn from current GIS managers to look beyond the technical realm and understand GIS in a larger institutional context.

GTECH 70800 - Seminar in GeoInformatics

This seminar is an introduction to the wider GeoInformatics field/industry. Students will be exposed to a number of professionals and researchers in the NYC area, and each student will be required to organize their own speaker from the
community. The goals of this seminar course are twofold: to introduce students to the wider GeoInformatics community, and to promote networking and lasting interactions with local and regional GeoInformatics professionals. Students will identify, approach, and invite local and/or regional GeoInformatics professionals to give a talk in one of the weekly seminar sessions for this course. Each student will be responsible for bringing in a speaker, and at the end of the course, the student will be required to discuss the speaker's work, and the research, news, or information that the speaker presented.

*Hours 1 hr.*
*Credits 1 cr.*

**GTECH 73400 - GeoWeb Services**

This course will examine the principles of GeoWeb services in a hands-on fashion. Students will learn about the different standards that are being used in the context of the GeoWeb. They will be introduced to different commercial and open source software solutions and learn how to set up, manage, and use these services. Students will explore the different technologies introduced in class in the lab assignments. Each student will present a topic to the class based on readings provided by the instructor. In the second half of the semester, each student will work on a project that involves the setup and use of GeoWeb services. Basic programming skills in any language are a prerequisite for this course.

*prereq: GTECH 73100 GeoComputation I*
*Hours 3 hrs.*
*Credits 3 cr.*

**GTECH 73500 - Location Based Services**

This course will examine the principles of Location Based Services (LBS) in a hands-on fashion. Students will learn how to design, implement, and test an LBS application in a group project. Therefore, basic programming skills in any language are a prerequisite for this course. The course will be highly interactive in two ways: Each student will present a topic to the class based on readings provided by the instructor, and each student will participate in the group work to develop a working LBS by the end of the semester. For this purpose, mobile devices (iPhones, Android phones, Google Glass) will be provided.

*prereq: One of the following:

- GTECH 70500 Spatial Data Analysis
- GTECH 73100 GeoComputation I
- CSCI 13500 Software Design and Analysis I*
*Hours 3 hrs.*
*Credits 3 cr.*

GTECH 79900 Thesis credit (1cr.)

Additional requirements

**Thesis option (2 credits and a thesis)**

Two required courses and completion of a thesis

**GTECH 70800 - Seminar in GeoInformatics**

This seminar is an introduction to the wider GeoInformatics field/industry. Students will be exposed to a number of professionals and researchers in the NYC area, and each student will be required to organize their own speaker from the
community. The goals of this seminar course are twofold: to introduce students to the wider GeoInformatics community, and to promote networking and lasting interactions with local and regional GeoInformatics professionals. Students will identify, approach, and invite local and/or regional GeoInformatics professionals to give a talk in one of the weekly seminar sessions for this course. Each student will be responsible for bringing in a speaker, and at the end of the course, the student will be required to discuss the speaker's work, and the research, news, or information that the speaker presented.

*Hours 1 hr.*
*Credits 1 cr.*

GTECH 79900 - Thesis Credit (1 credit/1 hour)

**Thesis approval and expectation**

- Formal approval of a proposal for thesis research is also required. The student's committee determines whether the proposal is of a breadth, depth, and quality consistent with the expectations for a master's degree thesis.
- A thesis of a breadth, depth, and quality consistent with the expectations for a master's degree thesis prepared in a format conforming with Hunter College guidelines. The student's committee determines whether the thesis is acceptable.

**Exam option (6 credits, exam, and research paper)**

- An additional six credits of GTECH or outside courses.
- A passing grade on the comprehensive examination conducted by the student's graduate committee.
- A research paper of a breadth, depth, and quality consistent with expectations for a master's degree student prepared in the format of Transactions in GIS or its equivalent.

History

Overview

The department offers two graduate level programs in history. The first is a master's degree in adolescent social studies education, offered as part of a joint program with the School of Education. The second leads to an MA in History.

What can I do with my degree in History?

The Adolescent Social Studies - MA / Advanced Certificate degree prepares students for New York State certification, which will enable them to teach social studies at the adolescent level (grades 7 – 12). The MA in History prepares students for a variety of careers in education, the private sector, government, and the non-profit sector.

Programs and Courses

History Faculty

History - MA

The MA is offered as a terminal degree (30 credits).

Requirements for Admission

General admission requirements to the graduate programs in the arts and sciences are observed. Eighteen undergraduate credits in History, a 3.0 average, and satisfactory GRE scores are required, as well as two letters of recommendation.

Requirements for the Degree

Each candidate must complete an approved program of study of at least 30 credits, including the thesis seminar, with a B average. Students will be strongly encouraged to take the following two courses: HIST 78000 - History Colloquium for First-Year MA Students and HIST 79000 - Research Methods for First-Year MA Students, a colloquium and a research methods course. Courses other than those in the Department of History at Hunter College may be credited toward the 30 credits with the approval of the graduate adviser, but they may in no case exceed 9 credits.

A reading knowledge of one foreign language is required, to determined by a written examination offered twice per year. The choice of language must have the approval of the graduate adviser.

After completion of all other requirements, the candidate for the degree must present a satisfactory master's thesis prepared in conjunction with the thesis seminar (HIST 77900), approved by two faculty scholars in the appropriate field of history and the graduate adviser. Guidelines for the writing of the master's thesis are available from the graduate adviser online and in the History Department office.

Mathematics and Statistics
OVERVIEW

The Department of Mathematics and Statistics offers a choice of master's programs. The MA in Pure Mathematics is a 30-credit degree program. The coursework largely mirrors the first two years of a doctoral program in Mathematics. Achievement of the degree includes a comprehensive examination. In addition students must show reading competency in a foreign language. The MA Program in Statistics and Applied Mathematics is intended for students interested in applications to business, science, engineering, industry, biology, and medicine, as well as teaching and research. This is a 30-credit degree program. There are four tracks: Statistics is Track I, Applied Mathematics is Track II, Bioinformatics is Track III, and Mathematical Finance is Track IV. Achievement of the degree requires a final project as well as working knowledge of two computer languages. The final projects provide the student with the opportunity to investigate a problem whose outcome is not previously known. Our faculty mentor the projects. The department also has combined BA/MA programs in: (1) Mathematics and (2) Statistics and Applied Mathematics.

In addition, the department offers, jointly with the School of Education, an MA in Adolescent Mathematics Education Grades 7-12, and a combined BA/MA in Adolescent Mathematics Education. The MA in Mathematics Education is designed for individuals without initial certification in mathematics. Individuals who already have initial certification in mathematics should pursue either the MA in pure mathematics or the MA in statistics and applied mathematics or the new Professional Certification master's program.

What can I do with my degree in Mathematics and Statistics?

Students use the MA in Pure Mathematics for various purposes. Many use their added mathematics background as part of a competitive application to a doctoral program. In-service teachers gain permanent certification via their MA. Others use their degree to seek employment or advancement to positions that require an advanced degree. Several seek positions as instructors at local area colleges. Others are in areas unrelated to education.

HEGIS Codes: 1701 (BA; BA/MA in Mathematics, Adolescent Education/Mathematics); 1701/1703 (BA/MA in Mathematics/Statistics and Applied Mathematics); 1702 (BA in Statistics); 1702/1703 (BA/MA in Statistics/Statistics and Applied Mathematics)

Mathematics Grades 7-12 Adolescent Education - BA/MA

Students interested in secondary school teaching may pursue a combined BA/MA program in teaching. This program requires a minimum of 141 credits.

Admission Requirements for the BA/MA in Teaching

1. Completion of at least 45 credits with a GPA of 3.0.

2. Completion of at least 10 credits in mathematics, including a year of calculus (MATH 15000 and 15500 or the equivalent), with an average of 2.7 in these major courses.

3. Admission to the School of Education

Degree Requirements for the BA/MA in Teaching

BA in Mathematics or Statistics

The 33 credits required for the BA in Mathematics OR the 32 credits required for the BA in Statistics, as described in the Undergraduate Catalog

Graduate Courses in Mathematics and Statistics

The following 15 graduate credits:
MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

*prereq: Calculus II and a course in linear or matrix algebra*

*Hours 3 hrs*

*Credits 3 cr*

*Open only to Teacher Education Program students.*

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

*Hours 3 hrs.*

*Credits 3 cr.*

*Open only to Teacher Education Program students.*

MATH 63300 - Axiomatic Geometry

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry. This is a theoretical mathematics course. The material is presented in its historical context.

*prereq: departmental permission*

*Hours 3*

*Credits 3*

MATH 63500 - Problem Solving Explorations in Mathematics

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics. This course is for current and prospective teachers.

*prereq: none*

*Hours 3*

*Credits 3*

STAT 61200 - Discrete Probability

Combinatorics, discrete probability, random variables, probability models and an introduction to game theory. A study of discrete probability with particular attention paid to the integration of these topics into the school curriculum. This course is for current and prospective teachers.

*prereq: a statistics course on or above the level of STAT 11300*

*Hours 3*

*Credits 3*

-or-

STAT 61400 - Data Analysis Using Statistical Software
A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.

Hours 3 hrs.
Credits 3 cr.

Comprehensive Examination in Mathematics

Also required is a comprehensive examination in mathematics consisting of three parts covering the material in MATH 62000, 63000 and 63300. Students may sit for the comprehensive examination only after having taken all three courses. Students who fail any part of the examination need only retake that part of the examination. A student can take the comprehensive exam in mathematics twice; after that, a committee formed by the Mathematics/Statistics Chairperson and consisting of members from the Department of Mathematics and Statistics and the School of Education will decide if the student can take the exam a third and final time.

School of Education Courses

The student should consult the School of Education section of the graduate college catalog for the sequence of teacher education courses

Mathematics or Statistics and Applied Mathematics - BA/MA

The BA/MA program offers promising students the opportunity to complete both the bachelor's and master's degree requirements with a minimum of 120 credits. Requirements are the same as those for a major in the department, plus 30 credits at the graduate level. Interested students should contact the departmental graduate adviser for further information regarding eligibility and curriculum requirements.

Option 1: BA/MA Program in Mathematics

Students complete the BA in pure mathematics with 30 additional credits at the graduate level in pure mathematics approved by the departmental graduate adviser.

Option 2: BA/MA Program in Statistics and Applied Mathematics

Students complete the BA in statistics or mathematics with 30 additional credits at the graduate level in applied mathematics, statistics and computer science approved by the departmental graduate adviser.

Mathematics: Pure Mathematics - MA

Students in the MA program in Pure Mathematics want to investigate mathematics beyond the undergraduate level. Most have a bachelor's degree in mathematics. But there are always several students with an undergraduate degree in a related topic and a few whose undergraduate background is completely unrelated. In both of these cases, the students filled out their mathematics background prior to applying for admissions.
Students use this program for various purposes. Many use their added mathematics background as part of a competitive application to a doctoral program. In-service teachers gain permanent certification via their MA. Others use their degree to seek employment or advancement to positions that require an advanced degree. Several seek positions as instructors at local area colleges. Others are in areas unrelated to education.

Admission Requirements for the MA in Pure Mathematics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. The Department’s requirements are flexible. They are intended to encourage students without a prior specialization in mathematics to pursue a degree in mathematics.

Degree Requirements for the MA in Pure Mathematics

Thirty credits (10 courses) from courses chosen as follows:

1. Algebra Requirement

**MATH 72100 - Modern Algebra I**

Group theory including symmetric groups, Sylow theorems, fundamental structure theorem for finite Abelian groups and the canonical forms for linear transformations.

*prereq: MATH 31100 or equivalent and departmental permission*

- Hours 3
- Credits 3

The group theory portion of a three-semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course is required for the MA in Pure Mathematics.

and at least one of

**MATH 72200 - Modern Algebra II**

Extension fields to the fundamental theorem of Galois Theory and solvability by radicals. Commutative rings to the Hilbert basis theorem and elements of algebraic varieties.

*prereq: MATH 31100 or equivalent and departmental permission*

- Hours 3
- Credits 3

The ring and field theory portion of a three semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics.

or

**MATH 72500 - Advanced Linear Algebra**

Topics in advanced linear algebra and multilinear algebra.

*prereq: MATH 31100 or equivalent and departmental permission*

- Hours 3
- Credits 3

The linear algebra portion of a three-semester group of abstract algebra courses including MATH 72100, 72200, and
72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. It is intended for both Pure and Applied MA students. An undergraduate course in abstract algebra is preferred, but not required.

2. Analysis Requirement

**MATH 74600 - Theory of Functions of a Real Variable I**

Real numbers, Lebesgue measure, metric and Lp spaces, general measure and integration theory.

*prereq: 1 year of advanced calculus
Hours 3 hrs.
Credits 3 cr.*

and at least one of

**MATH 74200 - Analytic Functions**

Theoretical treatment of the properties of a function of a complex variable including Cauchy's Theorem, the special functions, power series, and the Riemann Mapping theorem.

*prereq: MATH 35300 or equivalent and departmental permission
Hours 3
Credits 3*

A stand-alone course in functions of a complex variable presented at a higher level than MATH 35300 or MATH 64200. The course is intended for both Pure and Applied Math students and optionally a required course for the MA in Pure Math. An undergraduate course in complex variables is preferred, but not required.

or

**MATH 74700 - Theory of Functions of a Real Variable II**

L-p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

*prereq: MATH 35200 or equivalent and departmental permission
Hours 3
Credits 3*

The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74600, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.

3. Geometry and Topology Requirement

at least one of

**MATH 75100 - General Topology**

Topology of plane sets, continuous functions, separation axioms, compact and metric spaces.

*prereq: advanced calculus or permission of Department
Hours 3 hrs.
Credits 3 cr.*

or
MATH 75000 - Calculus on Manifolds

The derivative as a linear map; the Riemann integral, including Fubini's Theorem and the Change of Variable formula; tensor and exterior algebras; differential forms and integrals thereof; Stokes' Theorem.

prereq: MATH 26000 and MATH 35200 or permission of the instructor.

Hours 3
Credits 3

4. Elective Course Requirement (15 credits)

Fifteen credits (5 courses) from MATH 70000 and/or STAT 70000-level courses approved by the graduate mathematics adviser are required. The department’s course rotation schedule may make it necessary to substitute a limited number of courses at the MATH 60000 level with permission of the adviser.

5. Written comprehensive examination

Written comprehensive examinations are required in algebra and analysis (see 1 and 2 above) and in two additional areas to be chosen by the student with the adviser's approval. The comprehensive examinations must be completed in the student's final semester. Students who fail an examination may repeat the examination. If a student fails an examination twice, the department chair will appoint a committee to review the student's case. The student may be allowed to repeat the examination for a final time or may be required to leave the program.

6. Reading knowledge

Students must exhibit a reading knowledge of French, German, Russian or another language with a sufficiently rich mathematical literature.

Note

For further information on the MA in Pure Mathematics, please contact Professor John Loustau: jloustau@msn.com.

Statistics and Applied Mathematics - MA

- Statistics and Applied Mathematics - Track I: Statistics
- Statistics and Applied Mathematics - Track II: Applied Mathematics
- Statistics and Applied Mathematics Track III: Bioinformatics
- Statistics and Applied Mathematics, Track IV: Financial Mathematics

Statistics and Applied Mathematics - Track I: Statistics

Return to: Programs and Courses in Mathematics and Statistics
Admission Requirements for Track I: Statistics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (MATH 26000) and one semester of Multivariate Calculus (MATH 25000). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

Degree Requirements for the MA Track in Statistics

Thirty credits (10 courses)* from courses chosen as follows:

Core Curriculum** (15 credits, 5 courses)

STAT 70100 - Advanced Probability Theory I

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

Hours 3 hrs.

Credits 3 cr.

STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department

Hours 3 hrs.

Credits 3 cr.

STAT 70300 - Mathematical Statistics

prereq: permission of the department

Hours 3 hrs.

Credits 3 cr.

STAT 70600 - General Linear Models I

prereq: STAT 70100 and 70300 or equivalent or permission of department
STAT 70700 - General Linear Models II

prereq: STAT 70600 or equivalent

Electives (12 credits, 4 courses)

Twelve credits in statistics, computer science, mathematics, or relevant areas of application, selected to constitute a cohesive program. Typically, these courses are at the MATH 70000 and/or STAT 70000 level. Electives must be approved by the Graduate Statistics and Applied Math Adviser.

Project (3 credits, 1 course)

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department

The student, guided by a member of the faculty, prepares a project in statistics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement.

Note(s)

For further information on the MA in Statistics, please contact the statistics adviser.

*The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.

**Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30-credit (10-course) total.
Statistics and Applied Mathematics - Track II: Applied Mathematics

Most students in Track II do their project in differential equations. The context may be engineering or finance. The techniques may be from numerical analysis or statistics or a combination of these.

Admission Requirements - Track II: Applied Mathematics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (MATH 26000) and one semester of Multivariate Calculus (MATH 25000). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

Degree Requirements for the MA Track in Applied Mathematics

Thirty credits (10 courses) from courses chosen as follows:

Core Curriculum** (15 credits, 5 courses)

**MATH 60100 - Mathematical Methods for the Physical Sciences**

Topics include: Fourier Series, Sturm-Liouville theory, Green functions, and eigenfunction expansions. These will be applied to the heat, wave, Laplace, and one-dimensional Schroedinger equations.

*prereq: a course in ordinary differential equations
*Hours 3 hrs
*Credits 3 cr

**MATH 74600 - Theory of Functions of a Real Variable I**

Real numbers, Lebesgue measure, metric and Lp spaces, general measure and integration theory.

*prereq: 1 year of advanced calculus
*Hours 3 hrs.
*Credits 3 cr.

**STAT 70100 - Advanced Probability Theory I**

*prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department
*Hours 3 hrs.
*Credits 3 cr.
STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 70600 - General Linear Models I

prereq: STAT 70100 and 70300 or equivalent or permission of department
Hours 3 hrs.
Credits 3 cr.

Electives (12 credits, 4 courses)

Twelve credits in statistics, computer science, mathematics, or relevant areas of application, selected to constitute a cohesive program. Typically, these courses are at the MATH 70000 and/or STAT 70000 level. Electives must be approved by the Graduate Statistics and Applied Math Adviser.

Suggested electives are:

MATH 64200 - Introduction to Theory of Functions of a Complex Variable

Complex numbers, analytic functions, elementary functions, contour integrals, Cauchy integral theory, series.

prereq: a course in advanced calculus
Hours 3 hrs.
Credits 3 cr.

MATH 68500 - Numerical Methods

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations; curve fitting and function approximation; interpolation; differentiation and integration; differential equations.

prereq: a course in ordinary differential equations
Hours 3 hrs.
Credits 3 cr.

MATH 78500 - Advanced Numerical Analysis, Finite Differences and Collocation

Advanced topics in numerical analysis, Finite difference method, von Neumann stability, Lax equivalence. Polynomial interpolation, numerical integration and collocation method.

prereq: MATH 38500 and departmental permission
One of a two-semester group of courses presenting numerical analysis at the graduate level. This course is primarily for students in the applied math MA program.

**MATH 65400 - Dynamical Systems and Chaos**

Topics include: flows in one and two dimensions; phase portraits; limit cycles; bifurcations; iterated maps on the interval; introduction to chaos and fractals; the Mandelbrot set and its significance.

*prereq: a course in multivariate calculus and a course in linear algebra*

**MATH 74700 - Theory of Functions of a Real Variable II**

L-p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

*prereq: MATH 35200 or equivalent and departmental permission*

**STAT 70300 - Mathematical Statistics**

*prereq: permission of the department*

**STAT 70700 - General Linear Models II**

*prereq: STAT 70600 or equivalent*

**STAT 71500 - Time Series Analysis**

Introduction to univariate Box-Jenkins (difference equation) time-series modeling. Topics include ARIMA models; stationarity; forecasting; diagnostics; and seasonal modeling. Extensive use of process control and economic time
series. Transfer function models.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.
Hours 3 hrs.
Credits 3 cr.

STAT 72200 - Theory of Games

Utility, zero-sum two-person games, minimax theorem or rectangular games. Relation to linear programming; applications to problems in economics and other fields.

prereq: a course in linear algebra and a course in probability
Hours 3 hrs.
Credits 3 cr.

STAT 72600 - The Theory and Methods of Sampling

prereq: STAT 70100 or equivalent, or permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 73900 - Bayesian Statistics

prereq: prerequisite of STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed.
Hours 3
Credits 3

STAT 78600 - Modeling and Visualization

The development of continuous mathematical models, the resolution of the resulting differential equations by numerical techniques and the visualization of the simulated data. Problems come from various areas of the social, biological and physical sciences.

prereq: Departmental permission
Hours 3
Credits 3

STAT 78700 - Statistical Models for Spatial Data

Spatial data and spatial models, intrinsic stationarity, large and small sample variation, the variogram, estimation of the variogram, prediction and kriging, spatial models on lattices, spatial point patterns.
prereq: STAT 70100 and STAT 70300 (theory); STAT 71600 or STAT 78600 (data analysis, programming); or permission of the instructor

Hours 3
Credits 3

Project

The student, guided by a member of the faculty, prepares a project in applied mathematics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement.

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department

Hours 3
Credits 3

MATH 77700 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department

Hours 3 hrs.
Credits 3 cr.

Note(s)

*The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.

**Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30-credit (10-course) total.

Return to: Programs and Courses in Mathematics and Statistics

Statistics and Applied Mathematics Track III: Bioinformatics

Return to: Programs and Courses in Mathematics and Statistics
Admission Requirements for Track III: Bioinformatics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (MATH 26000) and one semester of Multivariate Calculus (MATH 25000). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

The Bioinformatics track allows students with career plans in the biomedical sciences and without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics. In addition to the above departmental requirements for admission to the MA program in Statistics and Applied Mathematics, it is required that the student have an adequate undergraduate training in biological sciences, chemistry, or related fields, as well as strong computer programming skills. The following track requirements, or their equivalents, are the minimal requirements that the student must meet in order to enter the Bioinformatics track:

1. One semester of introductory biology (BIOL 10000 or equivalent)
2. One year of general chemistry (CHEM 10200-10500 or equivalent)
3. One semester of organic chemistry (CHEM 22200 or equivalent)
4. One semester of biological chemistry (BIOL 30000 or equivalent)
5. Familiarity with UNIX and database programming (CSCI 13200-23200 or equivalent)

Degree Requirements for Track III: Bioinformatics

*Thirty credits (10 courses) chosen as follows:

Core Curriculum** (15 credits, 5 courses)

**STAT 70100 - Advanced Probability Theory I**

*prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department
*Hours 3 hrs.
*Credits 3 cr.

**STAT 70300 - Mathematical Statistics**

*prereq: permission of the department
*Hours 3 hrs.
*Credits 3 cr.
STAT 70600 - General Linear Models I

prereq: STAT 70100 and 70300 or equivalent or permission of department
Hours 3 hrs.
Credits 3 cr.

STAT 71600 - Data Analysis

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics selected from: data summaries; transformations; the jackknife and re-sampling schemes; robust estimation; and robust regression methods.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.
Hours 3 hrs.
Credits 3 cr.
This course is cross-listed with BIOS 75600

STAT 71700 - Multivariate Analysis

An introduction to multivariate methods. Topics selected from: factor analysis; discriminant analysis; clustering; multidimensional scaling; MANOVA; canonical correlation; and projection-pursuit.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.
Hours 3 hrs.
Credits 3 cr.

STAT 73900 - Bayesian Statistics

prereq: prereq: C or better in STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed.
Hours 3
Credits 3

Electives (12 credits, 4 courses)

Four graduate courses in biology, chemistry, or related fields. These must constitute a cohesive curriculum in bioinformatics, and must be approved by the Graduate Bioinformatics Adviser.

Suggested electives in the natural sciences are:

ANTH 79000 - Biological Anthropology (Core Course)
An introduction to the biology and evolutionary history of humans, including evolutionary theory, genetics, morphology, primate behavior, sociobiology, and paleontology.

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**ANTH 79300 - Human Evolutionary Genetics**

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

**BIOL 70005 - Genetics**

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,
Credits 4 cr
fall only

**BIOL 71013 - Molecular Biology Lecture**

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,
Credits 5 cr
fall only

**BIOL 75003 - Developmental Biology**

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,
Credits 4 cr
Spring only

**BIOL 79049 - Computational Molecular Biology**
An introduction to bioinformatics *theories* and *practices*. Topics include database searching, sequence alignment, molecular phylogenetics, structure prediction, and microarray analysis. The course is held in a UNIX-based instructional lab specifically configured for bioinformatics applications. Each session consists of instruction on bioinformatics theories and hands-on exercises.

This course is designed for upper-level undergraduates and graduate students. Prior experiences in the UNIX Operating System and at least one programming language are required.

*prereq: CSCL132 (Practical Unix and Perl Programming) and BIOL 300 (Biochemistry), or permission by the instructor.*

*spring only*

**CHEM 69803 - Chemical Genomics**

The advent of high-throughput technologies and powerful computational tools is transforming the manner new drugs are developed. This course (bioinformatics) is designed to introduce students to two emerging areas of drug development, namely (1) computer-assisted drug design and (2) personalized medicine. Computer-assisted drug design is an approach to design drugs based on three-dimensional structures of macromolecules. Personalized medicine, on the other hand, aims at tailoring patient treatments based on individual genetic information (biomarkers). In this course, students will be first equipped with fundamental theoretical and experimental concepts related to these topics. Then, they will learn how to acquire new knowledge in these exciting fields of drug development through critical analysis of literature.

*Hours 3*

*Credits 3*

**Project (3 credits, 1 course)**

The student, guided by a member of the faculty, prepares a project in bioinformatics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement.

**STAT 79000 - Case Seminar**

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

*prereq: permission of the department*

*Hours 3*

*Credits 3*

**Notes**
For further information on the MA in Bioinformatics, please contact the statistics adviser.

*The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.
**Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30-credit (10-course) total.

Statistics and Applied Mathematics, Track IV: Financial Mathematics

Return to: Programs and Courses in Mathematics and Statistics

This concentration is designed to teach students the mathematical methods involved in the solution of problems in finance. Several financial institutions—such as investment banks and commercial banks, hedge funds, credit rating and/or regulatory agencies—apply these methods to such problems as derivative securities valuation and hedging, trading, portfolio optimization, and risk management.

The concentration provides students the rigorous theoretical background to obtain jobs as quantitative analysts working as support to traders in front office jobs, or middle office risk management teams, as asset management specialist for hedge funds, as model analysts in credit rating companies and other such related jobs as quantitative strategists in trading firms. While a career in the financial industry is possible, our program is also meant to expose the student to the theoretical foundations required to successfully pursue a PhD in the disciplines associated with mathematical finance.

The concentration builds upon existing strengths in the department both in applied mathematics (numerical methods) and statistics (probability theory, statistical inference/machine learning, applied statistical analysis), while bringing in the tools of finance and financial economics to create a unique combination of courses that will provide rigorous training and a general exposure to the principles of mathematical finance.

Admissions Requirements

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Linear Algebra (MATH 26000) and one semester of Multivariate Calculus (MATH 25000) (see Hunter College Undergraduate Catalog). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

Degree Requirements

Required core (24 credits, 8 courses)

STAT 70100 - Advanced Probability Theory I

*prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department
*Hours 3 hrs.
*Credits 3 cr.
STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 70300 - Mathematical Statistics

prereq: permission of the department
Hours 3 hrs.
Credits 3 cr.

MATH 68500 - Numerical Methods

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations; curve fitting and function approximation; interpolation; differentiation and integration; differential equations.

prereq: a course in ordinary differential equations
Hours 3 hrs.
Credits 3 cr.

STAT 76100 - Advanced Concepts in Financial Markets

Study of the essential techniques of pricing financial derivatives, including the Black-Scholes formula, binomial trees, and risk-neutral valuation methods. Discussion of trading strategies associated with the use of financial derivatives for different purposes such as hedging and speculation, and potential problems that can arise in the application of financial derivatives.

prereq: permission of the department
Hours 3
Credits 3

STAT 76200 - Stochastic Methods in Finance

Mathematical theory and probabilistic tools for modeling and analyzing security markets. Pricing options in complete and incomplete markets, equivalent martingale measures, utility maximization, interest rate models.

prereq: STAT 70100, STAT 70200, STAT 76100
Hours 3 hrs
Credits 3 cr.

ECO 70100 - Microeconomic Theory
Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500

ECO 76000 - Financial Economics

Examination of the models of finance: optimization over time, asset valuation and risk management. Applications to models of asset pricing, including stocks, bonds and options; portfolio selection; and problems in corporate finance including investment analysis and capital structure.

prereq or coreq: ECO 70100 and ECO 72100

Elective (3 credits, 1 course)

ECO 71100 - Banking and Financial Markets

Factors determining banking and financial structure in US. Issues involving financial crises and bank failure, allocation of financial resources, regulation and competition.

prereq: ECO 21000
prereq or coreq: ECO 70300 and ECO 72100

ECO 72100 - Linear Econometric Analysis

Econometric analysis of linear statistical models. Topics include: ordinary least squares-estimation, inference, testing and specification testing; instrumental variables and simultaneous equations models; panel data regression; time series and forecasting

prereq: ECO 32100 with a grade of B; MATH 15000 and MATH 16000 with an average grade of B
prereq or coreq: MATH 15500

STAT 71500 - Time Series Analysis

Introduction to univariate Box-Jenkins (difference equation) time-series modeling. Topics include ARIMA models; stationarity; forecasting; diagnostics; and seasonal modeling. Extensive use of process control and economic time series. Transfer function models.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.
Hours 3 hrs.
Credits 3 cr.

STAT 72200 - Theory of Games

Utility, zero-sum two-person games, minimax theorem or rectangular games. Relation to linear programming; applications to problems in economics and other fields.

prereq: a course in linear algebra and a course in probability
Hours 3 hrs.
Credits 3 cr.
ECO 76500 - Games and Information

Game theory offers a framework for analyzing social interactions and emergent behavior in a very wide variety of human contexts. The purpose of this course is to offer a critical introduction to game theory and its applications. Economic applications include the analysis of conflict and the emergence of trust and cooperation out of anarchy, the analysis of firms' strategic behavior in concentrated markets, or of herd behavior and panics in financial markets. Asymmetric information economics and mechanism-design extend game theory by exploring how the design of the rules of a game, or the initial distribution of information might affect equilibrium behavior outcomes, and therefore how one might choose to set up the rules of the game to govern their interactions.

prereq or coreq: ECO 70100

Project (3 credits, 1 course)

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department

Hours 3
Credits 3

The student, guided by a member of the faculty, prepares a project in mathematical finance. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement. Typically, this is satisfied by learning and using R, MATHEMATICA, SPSS and/or SAS. They use Mathematica in MATH 68500, and R in STAT 71500 STAT 71600 STAT 71700, STAT 70600, and STAT 70700

Total Credits: 30

Medical Laboratory Sciences

OVERVIEW

The Department of Medical Laboratory Sciences offers three graduate programs. The Advanced Certificate in Medical Technology provides an accelerated pathway for students with degrees in chemistry, biology or the physical sciences to meet NYS licensure requirements for clinical laboratory technologists. Clinical laboratory technologists perform analytical tests on patient samples and play an essential role in the diagnosis and treatment of disease. The Advanced Certificate in Cytotechnology prepares students for careers as cytotechnologists. It is offered by Hunter College in collaboration with Memorial Sloan Kettering Cancer Center. Cytotechnologists study cells from the human body to identify diseases, such as cancer, and monitor patient response to therapy. The MS in Biomedical Laboratory Management is intended to provide knowledge and skills needed by clinical laboratory technologists, research assistants and other types of laboratory professionals to transition into managerial positions. This program is offered as a collaboration between the Hunter College Dept. of Medical Laboratory Sciences and the School of Professional Studies, CUNY.
What can I do with my degree in Medical Laboratory Sciences?

The Advanced Certificate in Medical Technology enables students to become NYS licensed clinical laboratory technologists. Clinical laboratory technologists are highly trained professionals that work in a wide range of health related laboratories including hospital and private diagnostic labs. A license is required to work as a clinical laboratory technologist in NYS.

The Advanced Certificate in Cytotechnology is a professionally accredited and NYS licensure qualifying program that prepares graduates for the professional practice of cytotechnology. Graduates work in hospital and private diagnostic laboratories.

The MS in Biomedical Laboratory Management is intended to provide working laboratory professionals with the knowledge and skills to enter positions of leadership in clinical/diagnostic, research, biotechnology, public health and pharmaceutical laboratories. This program is not NYS licensure qualifying for clinical laboratory technologists.

Medical Laboratory Sciences Faculty
Biomedical Laboratory Management-MS

The MS in Biomedical Laboratory Management (BLM) is a collaborative offering of the Medical Laboratory Sciences (MLS) Department of Hunter College and the School of Professional Studies, CUNY (SPS/CUNY). The purpose of this degree is to provide a career ladder for laboratory staff. Its focus is the knowledge and skills needed for clinical technologists, research assistants and other technical professionals in biomedical laboratories to move into positions of leadership. This degree does not provide NYS clinical licensure. Full details can be found at MS in Biomedical Laboratory Management (BLM).

Admission Requirements

See general graduate admission requirements for Hunter programs.

You must meet the following minimum requirements in order to be considered for admission. Meeting these minimum requirements does not guarantee acceptance to the program.

• A bachelor's degree in clinical lab science, biology, chemistry or a related discipline from a regionally accredited institution comparable in standard and content to a bachelor's degree from Hunter College.

• Minimum undergraduate grade point average of 3.0

• A course (or equivalent experience) in Molecular Biology (pre- or co-requisite)

• A minimum of one year of bench experience in a biomedical laboratory

• Two letters of recommendation from appropriate academic or professional references.

• A statement of purpose of approximately 500 words, including a bit about the path that brought you to this degree, and your motivation to pursue opportunities for a position in laboratory management.

• The GRE is not required for admission.

• Applicants whose native language is not English and who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit scores on the Test of English as a Foreign Language (TOEFL). The following minimum scores must be obtained:

  • Paper Based Test: 550
  • Computer Administered Test: 213
  • Internet Based Test: 60 (less speaking component)

Curriculum

The required 30 credits are divided between Hunter College, offering science and biomedicine classes, and the School of Professional Studies, CUNY, offering business and management classes. The MS degree will be granted by Hunter College following transfer of courses making up the Advanced Certificate in Management from SPS/CUNY.

Required courses from Hunter College are:

• Concepts of Disease: Diagnostic Strategies (MLS 70000)
• Emerging Laboratory Technologies (MLS 70100)
• Topics: Biohazards and Emergency Response (MLS 40066/MLS 77025)
• Management Practicum (MLS 71000)
• Risk Management for the Biomedical Laboratory (MLS 72000)

Courses from Hunter that may be used to fulfill the 6 credit elective requirement are:

• Graduate Independent study (MLS 77000)
• Principles of Epidemiology (PH 75300)
• Introduction to Biostatistics PH 75000

The SPS certificate requires 9 credits (the required courses are shown below).

• Financial Management (MGMT 681)
• Organizational Behavior (ORG 680)
• Human Resource Management (MGMT 680)

In addition, the following courses from SPS may be used to fulfill the 6 credit elective requirement:

• Health Care Administration (HCA 600)
• Evaluation of Healthcare Policy (HCA 603)
• Labor-Management Relations (LABR 603)

Cytotechnology: Advanced Certificate

Cytotechnology is an allied health profession that specializes in the study of cells from the human body. Working with a microscope and a variety of technologies, some of which are automation-assisted, cytotechnologists evaluate cell samples from gynecologic (e.g., Pap smears), nongynecologic and fine needle aspiration (FNA) specimens to detect cancer, precancerous lesions, benign tumors, and infectious processes. Cytotechnologists are trained laboratory professionals who help to save lives by identifying diseases early on and monitoring a patient's response to therapy.

The Hunter College Advanced Certificate (AC) in Cytotechnology prepares graduates for the professional practice of cytotechnology. It is an intense three-semester (Fall/Spring/Summer) training program that is administered in collaboration with Memorial Sloan Kettering Cancer Center (MSK). All training takes place in the laboratory facility of the MSK Cytology Service.

Program

The AC in Cytotechnology is a 26-credit graduate level post-baccalaureate certificate program within the Medical Laboratory Sciences (MLS) Department of Hunter College. It is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and is New York State (NYS) licensure qualifying. Upon successful completion of the AC, students will be eligible to sit for the national certification examination given by the American Society for Clinical Pathology Board of Certification. This examination is approved for NYS licensure purposes. Successful completion of the examination indicates attainment of entry level competency in the profession. Certified individuals are recognized with the designation CT(ASCP) – certified cytotechnologist.

Admission criteria

Admission criteria are designed to satisfy the requirements for cytotechnology curricula as described in Article 165, Section 52.39 of the Clinical Laboratory Technology Practice Act (http://www.op.nysed.gov/prof/clt/part52-39.htm). They consist of a baccalaureate or higher degree in the major of medical laboratory sciences, biology, chemistry or the
physical sciences with the following pre-requisite courses or their equivalent as determined by the program: inorganic chemistry, organic chemistry, anatomy & physiology, cell biology, mathematics and statistics, human genetics, immunology and clinical microbiology. Minimum GPA of 3.0/4.0. The program does not grant credit for advanced placement courses or experiential learning. Visit Hunter College AC in Cytotechnology overview for additional important information prior to application.

NYS Licensure Curricular Requirements for Registered Cytotechnology Programs

The curriculum for the AC in cytotechnology was developed to meet the coursework and curricular content stipulated in NYS regulations, Section 52.39: Registration of Curricula for programs seeking registration as a cytotechnology licensure-qualifying program. It contains didactic and clinical training as well as supervised clinical experience within the MSKCC Cytology laboratory throughout the span of the three semester program.

Cytotech courses

**MLS 63000 - Introduction to Cytopathology**

Students will be introduced to the discipline of cytopathology including historical perspective, established terminology, basic cell structure and cell biology and concepts of cellular response to injury and neoplasia. The applicability of immunochemistry, cytogenetics and other molecular studies to cytology specimens will also be discussed.

*prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.*
*Hours 1 hr*
*Credits 1 cr.*
*fall only*

**MLS 63200 - Gynecologic Cytopathology**

Students will be introduced to the cytopathology of infectious, inflammatory, premalignant, and malignant pathologic processes of the female genital tract. They will learn how to identify benign and abnormal cytologic findings in gynecologic specimens and formulate preliminary and differential diagnoses.

*prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.*
*coreq: MLS 63000*
*Hours 4 hrs*
*Credits 4 cr.*
*fall only*

**MLS 63500 - Microscopic Evaluation 1**

This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance. (limited to gynecologic, respiratory and gastrointestinal specimens)

*coreq: MLS 63000, MLS 63200 and MLS 64000*
MLS 63600 - Microscopic Evaluation 2

This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance.

prereq: MLS 63500; enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 64100, MLS 65000 & MLS 65100

MLS 63700 - Microscopic Evaluation 3

An extension of MLS 63500 and MLS 63600. Students continue to apply acquired didactic material in a supervised clinical practice setting acquiring speed and proficiency in cytologic screening. This course also allows students to gain experience in fine needle aspiration specimen adequacy assessment and specimen triage for ancillary studies. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance.

prereq: MLS 63600; enrollment in the AC Cytotechnology Program or departmental permission required.

MLS 64000 - Exfoliative Cytopathology 1

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections, inflammation and benign and malignant neoplasms) of the respiratory and gastrointestinal tracts. Students will learn how to assess respiratory and gastrointestinal specimens for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 63000

MLS 64100 - Exfoliative Cytopathology 2

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections, inflammation and benign and malignant neoplasms) of the urinary tract, body cavities and central nervous system. Students will learn how to assess specimens from these sites for benign and abnormal cytologic findings and formulate
preliminary and differential diagnoses.

prereq: MLS 64000; enrollment in the AC Cytotechnology Program or departmental permission required.

**Hours** 2 hrs  
**Credits** 2 cr.  
**spring only**

**MLS 64400 - Research Methods 1**

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

prereq: enrollment in the AC Cytotechnology Program or departmental permission required.  
coreq: MLS 63000, MLS 63200 and MLS 64000  
**Hours** 1 hr  
**Credits** 1 cr.  
**fall only**

**MLS 64500 - Research Methods 2**

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

prereq: MLS 64400; enrollment in the AC Cytotechnology Program or departmental permission required.  
coreq: MLS 64100, MLS 65000, MLS 65100  
**Hours** 1  
**Credits** 1 cr.  
**spring only**

**MLS 64600 - Research Methods 3**

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

prereq: MLS 64500; enrollment in the AC Cytotechnology Program or departmental permission required.  
**Hours** 2 hrs  
**Credits** 1 cr.  
**8-week summer session I**

**MLS 64700 - Cytopreparatory Techniques 1**

Provides instruction and hands-on experience in the basic principles of cytopreparation and applicable quality assurance and quality control activities. Students learn established cytopreparatory techniques, such as smear preparation cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.  
coreq: MLS 630  
**Hours** 1 hr
Credits 1 cr.
fall only

**MLS 64800 - Cytopreparatory Techniques 2**

A continuation of MLS 64700; provides more in depth instruction in laboratory safety and additional hands-on experience in cytopreparation. Students learn established cytopreparatory techniques such as smear preparation cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

*prereq: MLS 64700; enrollment in the AC Cytotechnology Program or instructor permission required.  
Hours 1 hr  
Credits 1 cr.*

**MLS 64900 - Cytopreparatory Techniques 3**

A continuation of MLS 64700 and MLS 64800; provides more hands-on experience in cytopreparation. Students apply principles of established cytopreparatory techniques and quality control under the supervision of licensed clinical personnel.

*prereq: MLS 64800; enrollment in the AC Cytotechnology Program or instructor permission required.  
Hours 2 hrs  
Credits 1 cr.  
8-week summer session I*

**MLS 65000 - Fine Needle Aspiration Cytology 1**

Provides instruction in the principles of fine needle aspiration cytopathology of the lung, mediastinum, breast, thyroid, salivary gland and lymph nodes. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

*prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.  
Hours 2 hrs  
Credits 2 cr.  
spring only*

**MLS 65100 - Fine Needle Aspiration Cytology 2**

Provides instruction in the principles of fine needle aspiration cytopathology of the liver, pancreas, kidney, adrenal glands, retroperitoneum, bone and soft tissue. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

*prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.  
Hours 2 hrs  
Credits 2 cr.  
spring only*

**MLS 65200 - Cytology Laboratory Management and Operations**

Provides instruction in the management principles of a cytology laboratory including regulatory requirements, laboratory safety, quality management, quality assurance, quality control and equipment maintenance.
prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.

Hours 2 hrs
Credits 1 cr.
8-week summer session 1

CAAHEP Accreditation Curriculum Requirements and Cytotechnologist Entry-Level Competencies

The AC in cytotechnology curriculum is also designed to meet CAAHEP accreditation standards which mandate that a program's curriculum in cytotechnology is robust enough to prepare students to meet defined entry-level competencies. These competencies are developed by the Cytotechnology Programs Review Committee (CPRC), the cytotechnology accreditation arm for CAAHEP, with input from communities of interest that have a stake in the cytotechnology profession. They represent minimum competencies that cytotechnology graduates must be able to demonstrate upon entering the profession. These entry-level competencies are reviewed on a periodic basis by the CPRC and with input from communities of interest to ensure that they reflect the current practice of cytotechnology. The AC in cytotechnology curriculum meets accreditation entry-level competencies and will be reviewed periodically to ensure that these accreditation standards are met when entry-level competency revisions are made by the CPRC/CAAHEP.

CAAHEP accreditation also requires that programs must ensure that students have a minimum of 28 credits of sciences including chemistry and the biological sciences and 3 credits of mathematics and/or statistics upon graduation from a cytotechnology program. These requirements will be satisfied either within the AC program or as pre-requisite coursework prior to admission to the AC program.

Medical Laboratory Technology: Advanced Certificate

The Post-baccalaureate Certificate in Medical Technology 15-credit course of study was developed within the Medical Laboratory Sciences (MLS) Department to help meet the increasing demand for qualified, licensed medical technologists. It provides an opportunity for students with degrees in chemistry, biology, or the physical sciences to meet licensing standards without having to acquire a second baccalaureate degree. An accelerated path, this certificate can be completed in 12-13 months, and, if followed by successful completion of the licensure examination, allows immediate entry to the profession. Visit http://www.hunter.cuny.edu/mls/graduate/advanced-certificate-in-medical-technology for crucial information prior to application.

Admission Requirements

- A baccalaureate degree in the biological, chemical, or physical sciences.
- Completion of certain pre-requisite courses: general biology (or anatomy and physiology), general chemistry
- Achievement of a minimum GPA of 3.0 in the degree and the pre-requisite courses

Requirements for the Certificate

Overview. Admission to and completion of the AC is a competitive and demanding process. Students enrolled in the certificate program take MLS 60000 in Summer Session I. Upon successful completion they are assigned to a clinical
affiliate beginning on August 1st for 10 months of full time clinical training divided into 2-month rotations. The curriculum is as follows:

Required Courses

**MLS 60000 - Fundamental Concepts and Techniques in the Medical Laboratory**

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment. Mastery of additional content and an independent project are required of graduate students.

*This course is cross-listed with MLS 30000.*

**prereq:** BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv. and admission to the post-baccalaureate certificate program in Medical Laboratory Technology

**Hours** 3 (2 lecture, 1 lab)

**Credits** 3

**MLS 61000 - Clinical Practicum in Medical Laboratory Technology I**

This course (and MLS 62000) comprise the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology.

**prereq:** Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology

**Credits** 6

**MLS 62000 - Clinical Practicum in Medical Laboratory Technology II**

This course (with MLS 61000) provides training in the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology.

**prereq:** Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology

**Credits** 6

Music

OVERVIEW

The Department of Music at Hunter College offers a variety of courses and degree programs catering to the needs of a diverse student body. Graduate degree programs include Master of Arts with a variety of concentrations and Master of Arts in Teacher Education. Courses include topics in performance, composition, music theory, music history, ethnomusicology, and music education. Private lessons are available on all instruments and voice, either with Hunter faculty members or with expert teachers outside the College. There are approximately 75 graduate students in the department. In addition to academic courses and private lessons, the Music Department sponsors activities such as concerts, lectures, master classes, and social events.

The MA program in music offers students an opportunity to grow as musicians by refining their skills as scholars, teachers and performers. The department encourages its graduate students to take courses both of a broad scope and of a detailed nature. Performance students are permitted to take private lessons for up to 12 credits with a Hunter College faculty member or one of the instructors who serve as performance associates on the faculty (see http://www.hunter.cuny.edu/music/grad-students/courseinfo/lessons for details). Students may also study with an outside teacher of their choice, pending approval by the department. The Cutler Scholarships in Orchestral Performance offers new opportunities for MA students who qualify to be leaders in the orchestral and chamber music programs.

The Department of Music offers courses of study leading to the MA degree, with concentrations in composition, ethnomusicology, musicology, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

Programs and Courses

- Music - MA
- Music Teacher Education - BA/MA

Admission requirements and other information about the Music Education (Pre-K-12) MA program is available through the School of Education.

The MA program in music offers students an opportunity to grow as musicians by refining their skills as scholars, teachers and performers. The department encourages its' graduate students to take courses both of a broad scope and of a detailed nature. Performance students are permitted to take private lessons for up to 12 credits with a Hunter College faculty member or one of the instructors who serve as performance associates on the faculty (see http://www.hunter.cuny.edu/music/grad-students/courseinfo/lessons for details). Students may also study with an outside teacher of their choice, pending approval by the department. The Cutler Scholarships in Orchestral Performance offers new opportunities for MA students who qualify to be leaders in the orchestral and chamber music programs.

The Department of Music offers courses of study leading to the MA degree, with concentrations in composition, ethnomusicology, musicology, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

For admissions requirements, see http://www.hunter.cuny.edu/music/gradstudents/admissions/ma-music.

Requirements for the Degree

The following programs are required for students concentrating in composition, ethnomusicology, music history, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

Core courses required of all students:

**MUS 70000 - Music Bibliography and Research Techniques**

Study of sources and bibliographical methods as applied to musical material.

*Hours 3 hrs
Credits 3 cr*

**MUS 72400 - Advanced Studies in Music Theory 1**

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.
prereq: 4 sem. of undergraduate music theory courses
Hours 3 hrs
Credits 3 cr

MUS 72500 - Advanced Studies in Music Theory 2

Analysis and theory of compositional styles from 1900 to the present.

prereq: 4 sem. of undergraduate music theory courses
Hours 3 hrs
Credits 3 cr

-OR-

MUS 75300 - Transcription and Analysis in Ethnomusicology

Critical examination and application of contemporary techniques to selected examples from various cultures.

Hours 3 hrs
Credits 3 cr

MUS 75100 - Advanced Studies in Music History 1

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 3 hrs
Credits 3 cr

MUS 75200 - Advanced Studies in Music History 2

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 3 hrs
Credits 3 cr

MUS 77500 - Seminar in Ethnomusicology 1

A history of the discipline; the development of theories and methods; selected problems.

Hours 3 hrs
Credits 3 cr

-OR-

MUS 77600 - Seminar in Ethnomusicology 2

Field research as a principal means of data collection and theory testing in ethnomusicology. Preparation of the research design, application of data-gathering techniques, adaptation to the field, and data analysis.

Hours 3 hrs
Credits 3 cr
MUS 77900 - World Music Education

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

Hours 3 hrs
Credits 3 cr

Required courses for each concentration (may be modified with permission of the graduate adviser):

Composition: 9 cr

MUS 73100 - Composition 1

Fundamental musical materials and compositional techniques of the 20th century. Students will complete weekly compositional exercises, each emphasizing a specific technique.

Hours 3 hrs
Credits 3 cr

MUS 73200 - Composition 2

A continuation of the study of compositional techniques of the 20th century through reading, analysis, and practice. Students will complete several small works intended for performance.

Hours 3 hrs
Credits 3 cr

MUS 79900 - Thesis in Composition

Individual study of composition under supervision.

Credits 3 cr

Ethnomusicology: 9 cr

MUS 77600 - Seminar in Ethnomusicology 2

Field research as a principal means of data collection and theory testing in ethnomusicology. Preparation of the research design, application of data-gathering techniques, adaptation to the field, and data analysis.

Hours 3 hrs
Credits 3 cr

ANTH 70100 - Ethnology (Core Course)
Surveys history, methods, theory, and basic findings of cultural and social anthropology.

*Hours 3 hrs, including conferences.*
*Credits 3 cr*
*All students must consult with the graduate adviser before registering for any course.*

**MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)**

Individual research under supervision.

*Credits 3 cr*

**Note(s)**

*MUS 75300 and MUS 77500 must be included in core.*

**History: 9 cr**

**MUS 76000 - Seminar in Music History**

Problems in research and analysis in selected areas of music history.

*Hours 3 hrs*
*Credits 3 cr*
*May be taken twice for credit.*

*Must be taken twice*

**MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)**

Individual research under supervision.

*Credits 3 cr*

**Theory: 9 cr**

**MUS 74000 - Seminar in Music Theory and Analysis**

Speculative theory, aesthetics, and scientific dimensions of music; detailed analysis of works relevant to theoretical problems under investigation. Topics to be announced.

*Hours 3 hrs*
*Credits 3 cr*
*May be taken 3 times for credit.*

*Must be taken twice*

**MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)**
Individual research under supervision.

Credits 3 cr

Note

*MUS 72500 must be included in core.*

Performance: 9 cr

**MUS 78100 - Private Study in Instrument or Voice**

For performance concentrators.

Credits 3 cr

**MUS 78200 - Private Study in Instrument or Voice**

For performance concentrators.

Credits 3 cr

**MUS 78300 - Private Study in Instrument or Voice**

For performance concentrators.

Credits 3 cr

Electives in all concentrations: 3 cr

Foreign Language

The candidate must demonstrate a reading knowledge of a foreign language, preferably French, German, or Italian. The foreign-language examination must be passed before a student may proceed beyond 18 credits.

Proficiency Examination

Students admitted to the program must take a proficiency examination during the first two semesters of matriculation in order to remain in the program. This examination will test competence in music theory, music history and literature, and applied skills. Deficiencies revealed by the proficiency examination must be made up by studying the relevant subject matter and passing a reexamination. The proficiency examination requirement must be fulfilled before a student may proceed beyond 18 credits.

Thesis or Final Project

A final project consisting of a thesis, a public recital, or another approved piece of work (such as a research project in music education, a lecture-recital, or an internship plus a written report) is required of each student. This project may receive 0-3 credits, depending on the nature and scope of the work involved. A written proposal must be approved by
the music department before a student may begin work on the project. Approval of the completed project requires the agreement of two faculty members.

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

*Credits 3 cr*

MUS 79900 - Thesis in Composition

Individual study of composition under supervision.

*Credits 3 cr*

Music Teacher Education - BA/MA

Return to: Music Department

Exceptionally qualified undergraduate students may obtain a master’s degree in teacher education in 5-6 years with a minimum of 140 credits. Requirements are the same as those for the 42-credit BA plus those for the MA in teacher education (45 credits at the graduate level). Matriculation is open to undergraduates with at least 60 credits who have a cumulative grade point average of 3.0 or better and a major subject index of at least 3.0. Students must have completed at least 24 credits of course work in music, including at least two semesters of music history, four semesters of music theory, and four semesters of musicianship (sight singing, ear training, and keyboard studies). At least 12 credits, including at least 6 credits in music major courses, must have been taken at Hunter College. Students must have passed the music department’s piano proficiency examination, and they must demonstrate reasonable mastery on an instrument (which may be a keyboard instrument) or voice. They must be admitted to the program by both the music department and the School of Education. They must maintain the grade point averages required for admission at all times in order to remain in the program; see

http://www.hunter.cuny.edu/music/grad-students/admissions/ba-ma/?searchterm=ba/ma for details.

Physics and Astronomy

OVERVIEW

The Department of Physics and Astronomy has graduate and post-graduate research programs in theoretical and experimental physics. Students may obtain the MA in Physics or MA in Adolescent Education from Hunter College, and/or the joint PhD degree in Physics from Hunter College and the City University Graduate Center. The Department offers all levels of graduate courses jointly with the Graduate Center. Faculty of the department are pursuing projects in the forefront of modern research. The focuses include experimental research in astronomy, optics and spectroscopy, biophysics and biomedical optics, nuclear magnetic resonance and renewal energy materials, and theoretical research in nanophysics, quantum information and quantum optics, chemical physics, and time-frequency analysis. The research programs are well funded by nine different government agencies. Many of our faculty members are leaders of their fields, won prestigious awards, and earned international recognition.

What can I do with my degree in Physics?

The doctoral program is designed to train highly qualified research scientists who are fully equipped to teach and direct research in a wide variety of university and industry programs in physical sciences.

See Doctoral Program in Physics

Physics and Astronomy Faculty

Doctor of Philosophy in Physics

Return to Physics and Astronomy

Doctor of Philosophy

Hunter College offers Doctor of Philosophy in Physics jointly with the Graduate Center. For further information go to PhD in Physics.

Course of Study

The student's course of study must have the approval of an adviser. Of the 60 credits of graduate work required for the degree, no more than 9 credits may be in first-level courses; with special permission, up to 18 credits may be taken in subjects other than physics. After students pass the First Examination, they are encouraged to choose a thesis field and adviser; these decisions should normally be made within the first year of study. Doctoral students are expected to attend the regularly held colloquia.

First Examination

The student must pass the First Examination, which includes quantum mechanics, analytic dynamics, electromagnetic theory, and general physics, which covers topics selected from the fields of atomic and nuclear physics, solid state, thermodynamics and statistical mechanics and optics. For students specializing in fluid-geophysics, an examination in that area may be substituted for the quantum mechanics part of the First Examination.

Second Examination

The Second Examination tests the student's knowledge of the general areas of physics bearing on his or her field of research as well as the student's readiness to undertake a specific piece of research. Detailed information concerning the examination is available from the Executive Officer.

Dissertation
The student is required to prepare the dissertation under the guidance of a thesis adviser. Upon completion, the dissertation will be submitted to the guidance committee appointed for the student. The degree is recommended upon approval of the dissertation by the committee and upon successful completion of an oral defense of the dissertation before the committee. The dissertation must be of such a caliber as to be acceptable for publication in a standard journal when suitably condensed.

College Teaching

Each student is required to participate in some teaching of undergraduate physics courses. Specific requirements are determined for each student in consultation with the Executive Officer and the Department Chairman. In special cases research may be substituted for this requirement.

FINANCIAL AID

Every student admitted for doctoral study in Physics will have financial support for five full years of study, as long as they remain in good academic standing and progress on schedule in their doctoral research. The five-year CUNY Science Scholarship includes a full tuition waiver, annual health insurance coverage and $24,000/year financial support.

Physics - Accelerated BA/MA

This special program for a limited number of well-qualified undergraduate students leads to a bachelor of arts and a master of arts degree. Students are offered the opportunity quickly to reach a level where they can stand in competition for admission into any doctoral program in physics. The program requires 124-126 credits (including the 30 credits required for a physics major BA degree and 30 credits from the graduate curriculum). Because this program requires a large number of physics courses, many of which have other physics courses as prerequisites, students in this program should begin taking physics courses in their first or second undergraduate semester. Students should consult the department chair, undergraduate adviser, or graduate adviser for details as early as possible.

Physics - MA

The MA in physics is offered as a terminal degree, either separately or as part of the BA/MA program. The MA in physics may also, with the approval of the CUNY Graduate Center, form part of the degree work required for the CUNY PhD degree. Thesis research toward the CUNY PhD may also be carried out at Hunter College.

Admission Requirements

Applicants must meet Hunter’s general admission requirements; however, the physics department no longer requires the Graduate Record Examination. In addition, the following departmental requirements must be met:

1. A minimum of 36 credits total in undergraduate physics and mathematics courses. These should include intermediate mechanics, electricity, modern physics, and differential equations. A B average is required for these courses.

2. Approval by the department’s Graduate Physics Committee. If deficiencies are noted in certain undergraduate courses, the applicant may be required to take these courses without graduate credit.

Degree Requirements
1. Program of courses

A program of courses designed in consultation with the graduate adviser and approved by the department’s Graduate Physics Committee.

2. Completion of 30 credits of graduate work including:

a. Not more than 6 credits earned at a graduate institution other than CUNY.

b. At least 15 credits earned at Hunter College.

c. The following courses or their equivalents:

**PHYS U70100 - Mathematical Physics**

Study of the basic mathematical techniques used in physics.

*Hours 60 hrs, Credits 4 cr*

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**PHYS U71100 - Analytical Dynamics**

Study of advanced classical mechanics.

*prereq or coreq: PHYS U70100*

*Hours 60 hrs, Credits 4 cr*

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**PHYS U71500 - Electromagnetic Theory**

Advanced concepts of static and time-dependent electromagnetic fields.

*prereq or coreq: PHYS U70100*

*Hours 60 hrs, Credits 4 cr*

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**PHYS U72500 - Quantum Mechanics**

Basic study of quantum theory of matter including introduction to relativistic theory.

*prereq or coreq: PHYS U70100*

*Hours 60 hrs, Credits 4 cr*
The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

d. No more than 6 credits in 600-level courses.

Note(s)

The courses listed in sections 2(c) and 2(d) are generally offered during the daytime hours.

A maximum of 9 credits may be accepted in physics department approved graduate courses in mathematics, astronomy, engineering, and physical chemistry.

4. Comprehensive examination

The candidate will be required to pass a comprehensive examination based on the required courses listed in section 2(c) above or complete a thesis, under a faculty member’s supervision, that is approved by the department’s Graduate Physics Committee. The first PhD exam may be substituted for the comprehensive examination.

5. Residence of two semesters

A minimum residence of two semesters at Hunter College. Courses taken as a nonmatriculant may be counted toward the degree upon matriculation with the approval of the department’s Graduate Physics Committee.

6. There are no foreign language requirements.

Financial Aid

Financial aid is not generally available from the department for MA students.

Political Science

About the Department

Many members of the department participate in a PhD program based at the CUNY Graduate Center. Information can be obtained from the:

Department of Political Science
CUNY Graduate Center
365 Fifth Avenue,
New York, NY 10016

-or-

PhD Program in Political Science
Psychology

Overview

The Psychology Department offers two MA degrees in Psychology: one in General Psychology and one in Animal Behavior and Conservation (ABC) as well as a Post-Baccalaureate Certificate program in ABC. These programs reflect the diversity of psychology as a science and profession. Course offerings range from clinical, social, and developmental psychology to animal behavior, biopsychology, and behavioral neuroscience. The General Psychology Program focuses on exposing students to the broad spectrum of approaches and areas in psychology: from behavioral, developmental, cognitive, and social approaches to applied, evaluative, and biological approaches. The Animal Behavior and Conservation Program is designed to provide students with the skills needed for successful careers in animal behavior, conservation and welfare. The department's faculty members are actively involved in research both with human participants and a variety of animal species. A broad range of applied and research opportunities are available to our students within and beyond the department in the areas of developmental psychology, social psychology, animal behavior, physiological psychology, biopsychology and cognitive psychology. The program's departmental affiliations with community organizations and wildlife facilities make it possible for students to integrate their academic studies with supervised research experience by means of observational field placements and opportunities for research. The MA programs prepare our graduates for careers in psychology, education, social and welfare services, health services, conservation and animal welfare including work with animals in natural and custodial environments. For many of our students, the MA programs are a first step towards further study at the PhD level.

What can I do with my degree in Psychology?

The growing scientific and public sentiment, awareness, and interest in conservation and animal welfare science and the importance of enrichment for zoo, laboratory, and farm animals, recently reflected in new legislation and in zoo policy, has created a growing need for highly trained scientists and professionals. The Master's and Certificate programs in Animal Behavior and Conservation prepare students interested in animal behavior and conservation to develop and enhance their research skills and understanding of the behavior of animals and to acquire credentials for employment in fields related to this field.

The General MA program provides an in-depth background in psychology combined with special training in specific sub-disciplines within psychology to prepare students for careers and specialized training in human resources, medicine, law, nursing, speech pathology, social work, special education, counseling and music, art and dance therapy.

Animal Behavior & Conservation Certificate

The Department of Psychology offers a Certificate Program in the Advanced Psychology of Animal Behavior & Conservation (ABC) registered with the New York State Education Department. The ABC certificate provides formal recognition of the training in ABC for students who already possess a baccalaureate or graduate degree in another area and, by virtue of prior educational or practical experience in animal behavior and conservation, are qualified for the additional training described in this program.

Courses are scheduled so that the certificate requirements can be completed within two years. All required, and most other courses, are offered after 5:30 PM enabling students to complete the requirements for the certificate while working.
Requirements

Students are required to complete at least 15 credits in the ABC area required for the MA in Animal Behavior & Conservation. Although a thesis is not required for non-degree students, the ability to conduct research in the ABC area must be demonstrated either through prior experience or completion of a research project while in the Certificate Program. Students who do not have an adequate background in statistics and/or research methodology will be required to take such courses in addition to those required for the Certificate.

PSYCH 71700 - Animal Behavior and Conservation in Captivity and the Wild (B)

Introduces concepts and techniques of wildlife biology and comparative psychology, with contributions from researchers in social behavior, reproductive biology, wildlife conservation, captive breeding, and animal cognition and communication.

Hours 3 hrs including conference
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75103 - Basic Psychological Processes 1: Perception, Learning and Comparative Cognition (S, B)

Covers the basic concepts in perception, learning and comparative psychology. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

Plus three additional ABC-related courses (9 credits)—see listing of courses for the MA in Animal Behavior & Conservation.

Animal Behavior & Conservation-MA

The growing scientific and public sentiment, awareness, and interest in conservation and animal welfare science and the importance of enrichment for zoo, laboratory, and farm animals, recently reflected in new legislation and in zoo policy has created a growing need for highly trained scientists and professionals. This 36-credit Master's Program within the Psychology Department prepares students interested in animal behavior and conservation (ABC) to develop and enhance their research skills and understanding of the behavior of animals and to acquire credentials for employment in fields related to ABC.

Admission Requirements

Students must hold a bachelor's degree comparable to that from Hunter College. Twelve undergraduate credits in psychology, including courses in statistics and experimental psychology, are generally required; however, students lacking this but with high undergraduate GPA and general GRE scores may be admitted without a strong background in psychology. Applicants are ranked according to their undergraduate grade point average, GRE exam scores, letters of recommendation, and personal statement, as well as prior course work and experience relevant to animal behavior and
conservation. General GRE scores are optional for those students who hold the Advanced Certificate in Animal Behavior and Conservation from Hunter College.

Note: There is no foreign-language requirement for the MA in psychology

Curriculum

The MA consists of 36 credits in graduate-level course, and all courses listed carry three credits.

Most courses are offered after 5:30 p.m. so that students can work while in the program. The sequence of course offerings enables students taking 3 courses (9 credits) per semester to graduate in 2 years.

Required Courses 18 credits

**PSYCH 69000 - Independent Research in Psychology**

Designed to meet the research needs and interests of individual students under the direction of a faculty sponsor. This may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research. Projects culminate in an APA-style research report or literature review.

*Hours 3 hrs.*
*Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. A faculty sponsor's permission is required.

**PSYCH 73900 - Research Methods in Animal Behavior (A, B)**

Designed to develop skills required for the study of animal behavior, such as procedures for obtaining data in laboratories or in captive and natural environments; includes observational techniques, single-subject designs, issues of reliability and external validity, non-parametric statistics.

*Hours 2 hrs lecture, 2 hrs lab.*
*Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

- or -

**PSYCH 70100 - Advanced Experimental Psychology I**

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study; examples are drawn primarily from perception, learning, cognition and animal behavior.

*prereq: a graduate course in statistics*
*Hours 2 hrs lecture, 2 hrs lab.*
*Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.
PSYCH 74700 - Experimental Social Psychology

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study. Examples are drawn primarily from social and cognitive psychology. Topics include reading and writing journal quality research reports; ethics; single and multi factor designs; small-n designs; quasi-experimental designs; survey research; laboratory and field research; observational techniques; correlational research.

prereq: a graduate course in statistics  
Hours 2 hrs lecture, 2 hrs lab.  
Credits 3 cr.  
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70500 - Statistical Methods in Psychology I

Covers descriptive statistics and inferential methods, including t-tests, analyses of variance, correlation, simple regression, and an introduction to multiple regression. Some assignments require the use of a statistical computer package.

prereq: PSYCH 24800 or equivalent  
Hours 2 hrs lecture, 2 hrs conf or lab,  
Credits 3 cr.  
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70701 - Thesis Research

Individual research conducted under the supervision of a department faculty member, whose written permission must be obtained. Limited to students working on their MA thesis.

prereq: PSYCH 70500 and 70100 or 74700 approved research topic and permission of a faculty sponsor  
Hours 3 hrs including conference  
Credits 3 cr.  
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 71700 - Animal Behavior and Conservation in Captivity and the Wild (B)

Introduces concepts and techniques of wildlife biology and comparative psychology, with contributions from researchers in social behavior, reproductive biology, wildlife conservation, captive breeding, and animal cognition and communication.

Hours 3 hrs including conference  
Credits 3 cr.  
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75103 - Basic Psychological Processes 1: Perception, Learning and Comparative Cognition (S, B)
Covers the basic concepts in perception, learning and comparative psychology. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

*Hours 3 hrs including conference.*
*Credits 3 cr.*
*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.*

**Elective Courses (minimum of 9 credits from the following)**

**PSYCH 64100 - Comparative Psychology (B)**

Development and evolution of the behavior of various species, major theoretical issues, classic experiments, and contemporary research and theory.

*Hours 3 hrs including conference.*
*Credits 3 cr.*
*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.*

**PSYCH 69000 - Independent Research in Psychology**

Designed to meet the research needs and interests of individual students under the direction of a faculty sponsor. This may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research. Projects culminate in an APA-style research report or literature review.

*Hours 3 hrs.*
*Credits 3 cr.*
*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.*

**PSYCH 69100 - Independent Research in Psychology**

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000, such as a literature review, a pilot study, or acquisition of a new research technique or skill.

*Hours 1 hr.*
*Credits 1 cr.*
*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.*

**PSYCH 69200 - Independent Research in Psychology**

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000 but more extensive than that required for PSYCH 69100. This may involve a literature review, a pilot study, or acquisition of a new research technique or skill.

*Hours 2 hrs.*
*Credits 2 cr.*
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission.

**PSYCH 71600 - Animal Behavior I: Mechanisms of Behavior (B)**

History of approaches to animal behavior; behavior development; proximate causation of behavior (motivation, neuroethology, and biorhythms); animal orientation and communication; cognitive ethology and culture.

*Hours 3 hrs including conference,*
*Credits 3 cr*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**instructor's permission**

**PSYCH 71751 - Field Study in Animal Behavior and Conservation (B)**

Observation and study of the behavior of animals in their natural environment and application of techniques of observation and data analysis.

*Hours 3 hrs including conference.*
*Credits 3 cr.

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**instructor's permission**

**PSYCH 71800 - Ethology (Animal Behavior II – Behavioral Ecology) (B)**

Examines behavioral genetics, which covers the importance of single-gene effects, polygenic behavioral traits, and the utility of the concept of heritability; behavioral evolution, which covers the methods of elucidating the phylogeny of behavior when fossil evidence is not available; behavioral ecology, which focuses on mating systems, territorial behavior, feeding strategies, antipredatory behavior, and sociobiology.

*Hours 3 hrs including conference,*
*Credits 3 cr*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**instructor's permission**

**PSYCH 73000 - Psychology of Learning (B)**

Contemporary phenomena and theories about learning and behavior, including both animal and human examples of learning phenomena with a focus on basic processes.

**PSYCH 75400 - Applied Animal Welfare & Behavior (B)**

Fundamental principles of animal behavior discussed in context of their applications to captive animal management (in laboratories, farms, zoos, aquariums, and shelters), animal welfare, and conservation. Programmatic approaches to animal care (e.g. enrichment and training) and animal welfare assessment tools will be described and evaluated.
PSYCH 75700 - Animal Thinking and Communication (S, B)

This course focuses on animal cognition and communication from the perspectives of communication theory, animal behavior, cognitive ethology and comparative cognition. Research on chimpanzees, dolphins, elephants, parrots and other animals will be covered.

prereq: PSYCH 71700 or permission of instructor or of Animal Behavior and Conservation Coordinator

Hours 3 hrs.
Credits 3 cr.

PSYCH 75800 - Conservation Biology/Psychology

An understanding of biodiversity, human impacts on biodiversity, the theory and practice of maintaining biodiversity in a developing world, and the social psychology of motivating action to protect nature. Special emphasis will be placed on how human and animal behavior threatens biodiversity. This course serves a basis for more specialized courses and provides the framework within which behavioral studies are implemented to inform conservation action with special consideration of factors that influence desire and willingness to take such actions.

prereq: Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

Hours 3 hrs. including conferences
Credits 3 cr.

PSYCH 75000 - Special Topics in Psychology

Readings and discussion on a selected problem or topic area – varies from semester to semester.

Hours 3 hrs including conference.
Credits 3 cr

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

*NOTE: Special Topics courses and Independent Research projects related to ABC will depend upon student and faculty interests. Recent topics included Companion Animals in Society and Conservation Biology/Psychology. ABC students may also meet the elective course requirements by taking courses in any department such as Anthropology and Geography with permission of the Director of the ABC program.

Breadth Requirement

ABC students satisfy a breadth requirement by taking a 3-credit course in the applied psychology area and a 3-credit course in the social/cognitive/developmental area of psychology.

Thesis Requirement

The MA thesis is a report of individual research supervised by a faculty member in the Hunter College Department of Psychology. The thesis must be approved by the student’s thesis committee, consisting of the supervisor plus at least another reader, and by the ABC Director. An oral presentation and comprehensive examination in the area of the MA thesis, conducted by the thesis committee, is required.

Psychology - MA
The MA degree is in general psychology, but students may focus their course work, independent study, and thesis research in one of three content areas: (1) applied and evaluative psychology; (2) social, cognitive, and developmental psychology; (3) biopsychology and comparative psychology. Students interested in animal behavior and conservation may choose the MA in Animal Behavior & Conservation offered by the Psychology Department.

1. Applied and evaluative psychology. Faculty research interests include topics in personality, psychopathology, theories of therapeutic methods, group dynamics, health and gender, stress and stress management, substance use, tests and measurements. Although the department offers theoretical courses on clinical topics, it does not offer supervision in counseling or therapy.

2. Social, cognitive, and developmental psychology. Faculty research interests include multicultural issues, cognitive and linguistic development, discursive social psychology, gender and cognition, attitudes, political psychology, psycholinguistics, decisionmaking, memory function in different populations.

3. Biopsychology and comparative psychology. Faculty research interests include hormonal influences on and neural control of behavior, mechanisms of drug abuse, developmental neuroscience, vision, animal learning and comparative cognition, evolution of behavior, animal orientation and communication, cerebral specialization of function.

Research Opportunities and Facilities

Students are encouraged to engage in research under faculty supervision. Laboratories at Hunter College provide specialized equipment for studies on human and animal physiology, acoustic analysis, human and animal learning, language and cognitive development, social development, and social psychology. Research is also possible at facilities of other universities and organizations where individual faculty members engage in collaborative research.

Requirements for Admission

Applicants are evaluated on the basis of their undergraduate grade point average, general GRE scores, background in psychology, two letters of recommendation (preferably from college instructors), and a statement of intellectual and research interests. Generally a minimum of 12 undergraduate credits in psychology, including one course in statistics and one laboratory course in experimental psychology are required; however, students who have a high undergraduate grade point average and high general GRE scores but lack a full psychology background may apply for admission. Such students may be required to take preparatory statistics and experimental courses. Note: There is no foreign-language requirement for the MA in psychology. The GRE advanced test in psychology is not required for admission.

Requirements for the MA Degree

Each candidate is required to complete an approved program of study including a thesis. A minimum of 30 credits is required for the general Psychology MA.

Required courses for all MA students (12 credits):

**PSYCH 70200 - Proseminar in Psychology**

An introduction to theoretical concepts and methods of research across a variety of content areas within psychology. Areas include social, personality and health psychology; development and cognition; sensory and developmental neuroscience; animal behavior and learning; applied research, including clinical theory. The course is team-taught by three faculty members and features guest lectures by other Hunter College faculty and the occasional outside expert.
**PSYCH 70500 - Statistical Methods in Psychology I**

Covers descriptive statistics and inferential methods, including t-tests, analyses of variance, correlation, simple regression, and an introduction to multiple regression. Some assignments require the use of a statistical computer package.

*prereq: PSYCH 24800 or equivalent

**Hours** 2 hrs lecture, 2 hrs conf or lab,
**Credits** 3 cr.

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 70100 - Advanced Experimental Psychology I**

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study; examples are drawn primarily from perception, learning, cognition and animal behavior.

*prereq: a graduate course in statistics

**Hours** 2 hrs lecture, 2 hrs lab,
**Credits** 3 cr.

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 73900 - Research Methods in Animal Behavior (A, B)**

Designed to develop skills required for the study of animal behavior, such as procedures for obtaining data in laboratories or in captive and natural environments; includes observational techniques, single-subject designs, issues of reliability and external validity, non-parametric statistics.

**Hours** 2 hrs lecture, 2 hrs lab,
**Credits** 3 cr.

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 74700 - Experimental Social Psychology**

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study. Examples are drawn primarily from social and cognitive psychology. Topics include reading and writing journal quality research reports; ethics; single and multi factor designs; small-n designs; quasi-experimental designs; survey research; laboratory and field research; observational techniques; correlational research.

*prereq: a graduate course in statistics

**Hours** 2 hrs lecture, 2 hrs lab.
**Credits** 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 70701 - Thesis Research**

Individual research conducted under the supervision of a department faculty member, whose written permission must be obtained. Limited to students working on their MA thesis.

*prereq: PSYCH 70500 and 70100 or 74700 approved research topic and permission of a faculty sponsor*

*Hours 3 hrs including conference*

*Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**Breadth Requirement**

One course selected from each of the following three categories. See the course listing for category or categories into which each course falls.

1. **A** (applied and evaluative psychology)
2. **S** (social, cognitive, and developmental psychology)
3. **B** (biopsychology and comparative psychology)

**Thesis Requirement**

The MA thesis is a report of individual research supervised by a faculty member in the Hunter College Department of Psychology. The thesis must be approved by the student’s thesis committee, consisting of the supervisor plus at least another reader, and by the graduate adviser. An oral presentation and comprehensive examination in the area of the MA thesis, conducted by the thesis committee, is required.

**Financial Assistance**

The college offers some financial aid programs through the Financial Aid Office. Students should consult that office for information. In addition, some faculty have research grants on which students can work as research assistants. Small grants and awards for funding MA research are sometimes available.

**Romance Languages**

**OVERVIEW**

The Department of Romance Languages’ Graduate Division offers MA degrees in French, Italian, and Spanish as a terminal degree or as a preparation for a doctoral program in the respective areas. The Department also offers an MA/TEP (Teacher Education Program) in each language in conjunction with the School of Education. This MA/TEP Program is designed to prepare candidates to teach in elementary and secondary schools. The department enjoys the teaching and scholarship of professors who have acquired high reputation in their respective fields.

*What can I do with my degree in Romance Languages?*
The MA programs in languages prepare students for both teaching and research in language and literature. The MA/TEP Program is designed to prepare candidates to teach in elementary and secondary schools.

**Programs and Courses**

- Romance Languages (French, Italian, Spanish) - MA
- Adolescent French - MA / Advanced Certificate
- Adolescent Italian - MA / Advanced Certificate
- Adolescent Spanish - MA / Advanced Certificate

**Doctor of Philosophy**

CUNY Graduate Center offers a PhD in French and in Iberian and Latin American Studies.

Graduate Advisers

**Faculty**

Romance Languages Faculty

**Romance Languages (French, Italian, Spanish) - MA**

The master’s degree in French, Italian, or Spanish provides opportunities for professional advancement in teaching and professional fields that require a good knowledge of other languages and cultures. It is also a means of intellectual development for those who want to expand their knowledge in the humanities.

The MA may be taken either as a final degree or as preparation for doctoral work. It is accepted in lieu of the first year of study in the PhD program at the City University. See the Bulletin of the Graduate Center for a description of the PhD programs.
Requirements for Admission

Admission to graduate study is contingent upon admission requirements of Hunter College and upon approval by a departmental committee. Where general scholarship is superior, but the applicant did not major in the field, or preparation in that field is deemed to be insufficient, an examination and/or enrollment in specified undergraduate courses will be required. Before matriculation, applicants must demonstrate proficiency in the language of specialization.

Requirements for MA

1. Courses.

A total of 30 credits from the Literature of Specialization including a Thesis Seminar (3cr) for those students electing to write a master's essay.

2. Languages.

In addition to a high degree of competence in the language of specialization, candidates must demonstrate a reading knowledge of a second Romance language, German, or Latin.

3. Comprehensive Examination.

Candidates must pass a written examination on the field of study, in the language of specialization.

4. Master’s essay.

The master’s essay is optional. Topic is determined in consultation with the principal adviser. Thesis Seminar, to be taken concurrently with preparation of the essay, is completed when the essay is approved by the principal adviser and another faculty member.

Sociology/Social Research

OVERVIEW

The core agenda of the Hunter College Sociology Department is to instruct students in a major that develops critical skills and social awareness and is also part of a broad and rich liberal arts curriculum. The Sociology Department at Hunter College has been built with the comprehensive aim of including most of the various facets of the sociological enterprise, including: theoretical/philosophical sociologists, field and quantitative researchers, criminologists, critical and feminist theorists, specialists in media studies and consumer behavior, micro-sociologists, students of global and international studies, urban studies, and specialists in computer-based research programs.

At Hunter College, our Sociology Department faculty members fulfill a triple mission as teachers, researchers/scholars and as active members of the larger Hunter community. First, as teachers, we take seriously the rich diversity of Hunter's student body by offering courses that emphasize both local and global perspectives. We use New York City as a "laboratory" in many of our courses at both the undergraduate and master's levels including "Intro," urban sociology, quantitative methods and statistics, race/ethnicity, immigration, consumer behavior, criminology and gender studies. We also offer courses on international development and globalization. Our strength in the fields of race/ethnicity and
immigration, as well as in a range of other established subfields, allows us to incorporate sociological perspectives with an appreciation of Hunter students' wonderfully diverse backgrounds and experience. Nearly all the courses that are given in these various specializations are offered on a more or less regular basis and are nearly always fully subscribed since students who are not majors also take our courses in large numbers. Both in our undergraduate and graduate programs, we encourage faculty to develop new electives on a regular basis so as to keep our curriculum up to date and interesting for students.

What can I do with my degree in Sociology?

At the graduate level, our Master of Science in Social Research program is successful at preparing students for careers in applied sociology, and at making it possible for students to secure jobs in the non-profit, governmental and corporate world that may have traditionally been closed to them. The Master's program ("GSR") is nationally recognized as a model for integrating the applied with the theoretical in training students for the professional world. Our combined BA/MS Program also gives students who already attend Hunter an opportunity to remain engaged with their studies while becoming integrated into a community of sociologists.

Faculty
Social Research - BA/MS

For a limited number of qualified undergraduate students, the sociology department offers an accelerated five-year program leading to a BA in sociology and an MS in social research. The program requires a total of 145 credits of college work (100 undergraduate, 45 graduate). To get the maximum financial benefit from BA/MS program, students should apply before the number of cumulative credits taken (including those being taken currently) exceeds 100 credits. All credits above 120 will be charged at the graduate tuition rates. The BA/MS program is a full-time program requiring 12 graduate credits per term.

In order to be admitted to the program students must complete their basic requirements, including their major, pass an honors course or its equivalent (cross listed graduate course, honors independent study), have an overall GPA of at least 3.5 and meet other requirements of the MS program as listed below (with the exception of the GRE exam). BA/MS applicants should have no more than 100 credits completed before entering the program and can apply for fall or spring admission. Applications on forms provided by the undergraduate advising office are filed with the undergraduate advisor, and include a copy of the current transcript and two letters of recommendation.

Students are admitted to the BA/MS program at the end of their junior year but must consult with the undergraduate advisor before they file the application.

Social Research - MS

The Department of Sociology offers an intensive program in social research leading to the master of science degree. The program is designed for individuals who wish to pursue a career in applied social research and related areas, as well as for those who wish to upgrade their research skills. All courses are scheduled in the evening.

Graduates are prepared for professional research positions in business corporations, organizations involved with international development, government agencies and non-profit organizations.

The program offers four broad areas of research application: market research and consumer behavior; media research and analysis; research in international development; and research and policy analysis in the public and nonprofit sector. Students may focus on one of the program's areas of specialization or, with faculty guidance, develop a customized course of study if a student is interested in an area of research other than those given above.

Students train for careers in research through a combination of course work, research in their areas of specialization, and a supervised internship in a professional research setting. By carrying out a research project during the internship outside the university setting, students gain firsthand experience in the conduct of applied research and familiarity with practical problems in their field of interest. Frequently, agencies and companies providing internships appoint former interns to full-time positions after graduation. Internship sites have included such companies and organizations as Community Service Society; CBS; Children's Television Workshop; numerous state and city agencies; Warnako Corp.; Time-Warner, Inc.; Lou Harris Interactive; Nielsen Corp. and the United Nations. Students who are already working in research positions may use on-the-job projects as the basis of an internship, with permission of the program director.

Students wishing to learn more about the program are encouraged to talk with the Program Director, Professor Howard Lune, who can be reached in the program office in 1601 Hunter West or by email at hlune@hunter.cuny.edu.

Admission Requirements
All applicants must have successfully completed at least 3 credits in statistics at either the undergraduate or the graduate level. Three credits in research methods and a background in sociology or other social science are desirable but not required. General admission requirements for arts and sciences graduate programs apply, including a minimum grade point average of 3.0 and the Graduate Record Exam (GRE) or the Graduate Management Admission Test (GMAT). Applicants who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit minimum scores on the Test of English as a Foreign Language (TOEFL) of 550 on the paper based test or 213 on the computer administered test or 60 (less speaking component) on the TOEFL IBT.

Applicants who do not meet these requirements in full may apply and request special permission to enter after a mandatory personal interview.

**Degree Requirements**

Completion of the graduate program in social research requires a minimum of 45 credits, which include:

1. **Core Courses**

   **GSR 70800 - Statistics I**

   Inferential statistics and introduction to multivariate techniques. Includes use of computer for problem sets.

   *prereq: SOC 24100 or equiv*
   *Hours 45*
   *Credits 3*
   *fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.*

   **GSR 70900 - Statistics II**

   Topics covered include analysis of variance, multiple regression and other multivariate techniques.

   *prereq: GSR 70800 with grade of B or better*
   *Hours 45*
   *Credits 3*
   *spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.*

   **GSR 71000 - Research Methods I**

   Application of research techniques in qualitative research, field research, participant observation, library research, analysis of textual data.

   *prereq: SOC 24100 or equiv or perm instr*
   *Hours 45 hrs,
   *Credits 3 or*
   *fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.*
GSR 71100 - Research Methods II

Basic concepts and methods used in survey research, research design, measurement, questionnaire construction, sampling, data analysis.

prereq: GSR 71000 or permission of instructor
Hours 45 hrs,
Credits 3 cr
spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 70200 - Contemporary Sociological Theory

Methodological philosophies and findings of major sociological theorists.

Hours 45
Credits 3
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71600 - Workshop in Using Information Technology for Research

Use of the Internet and web for both qualitative and quantitative research; includes search and evaluation strategies, access to full text data bases, and interactive statistical and spatial analysis. Presentation of findings in formats suitable for delivery via the web.

Hours 45 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71700 - Seminar in Applied and Evaluation Research

Theoretical and methodological issues in applied evaluation research; achieving agreement on program goals and qualifying goals.

prereq: GSR 70900, GSR 71000 and GSR 71100
Hours 45 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71900 - Applied Research Seminar

Capstone seminar for the GSR program: students perform data analysis and write a professional research report.

Hours 45
Credits 3
Spring only. Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

2. Electives

Fifteen credits are taken in courses according to the student’s interests. Some may be taken in areas of specialization among GSR courses, some may be selected from courses in other Hunter departments or CUNY colleges. See advisers.

3. Internship Requirements

Degree candidates must work as research interns in public or private organizations for a minimum of three (full-time) or six (part-time) months. A 9-credit sequence based on the internship includes 6 credits for completion of the internship.

GSR 71800 - Research Internship

Completion by matriculated student of a research internship under faculty supervision in an approved private- or public-sector research agency. Internship lasts a minimum of three months (full-time) or six months (part-time). Execution of a research project applying advanced research methods.

Credits 6 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Additional Information

The program can be completed in two years on a full-time basis, or seven semesters on a part-time basis (two courses per semester minimum).

Research Facilities and Affiliations

Graduate social research students have access to college-wide research and computing facilities and libraries of Hunter College, as well as to GSR program facilities, including a social sciences computer lab and a focus group facility.

Course Sequence

The following links provide a recommended model for timely completion of the program. Actual student schedules will depend on student interest and advisement.

- Social Research Recommended Path for Full-Time Study, 2 years
- Social Research, Recommended Paths for Part-Time Study, 3 - 3 1/2 Years

Note(s)
All courses offered by the program are open to students from other graduate programs provided the appropriate prerequisites are met.

**Social Research Recommended Path for Full-Time Study, 2 years**

Return to Social Research - MS

**First Year**

**Fall Semester**

**GSR 70200 - Contemporary Sociological Theory**

Methodological philosophies and findings of major sociological theorists.

*Hours 45*
*Credits 3*

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

**GSR 70800 - Statistics I**

Inferential statistics and introduction to multivariate techniques. Includes use of computer for problem sets.

*prereq: SOC 24100 or equiv*
*Hours 45*
*Credits 3*

Fall only

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

**GSR 71000 - Research Methods I**

Application of research techniques in qualitative research, field research, participant observation, library research, analysis of textual data.

*prereq: SOC 24100 or equiv or perm instr*
*Hours 45 hrs,*
*Credits 3 cr*

Fall only

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

- GSR Elective

**Spring Semester**
GSR 70900 - Statistics II

Topics covered include analysis of variance, multiple regression and other multivariate techniques.

prereq: GSR 70800 with grade of B or better
Hours 45
Credits 3
spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 71100 - Research Methods II

Basic concepts and methods used in survey research, research design, measurement, questionnaire construction, sampling, data analysis.

Theatre
OVERVIEW

The Hunter College Theatre Department offers students the opportunity to study theatre while exploring New York's vibrant theatre scene. We offer both an MA in Theatre and an MFA in Playwriting. The CUNY Graduate Center offers a PhD in Theatre. We believe that critical thinking and practical skills nourish each other, and students in both programs can take elective classes in acting, directing and design, in addition to theatre history, literature, and theory. Our accomplished faculty members bring their professional experience as practitioners and scholars outside the college to the classroom. The Department produces one mainstage and several smaller productions each semester, with students taking part in all areas of performance and production.

What can I do with my degree in Theatre?

The MA in Theatre prepares students to teach at all levels, work as a teaching artist or work in a nonprofit in the theatre industry. The MFA in Playwriting prepares a select group of students for professional careers as dramatic writers in theater, film and television.

Faculty

Theatre Faculty

Playwriting MFA

The Rita and Burton Goldberg MFA in Playwriting is an affordable, selective two-year program that fuses rigorous academic theatre classes with intensive, hands-on writing workshops. Our distinguished playwriting faculty -- Master-Artists-in-Residence ANNIE BAKER and BRANDEN JACOBS-JENKINS, plus Distinguished Lecturer Brighde
Mullins -- work with a small cohort of students who develop their voice, vision, and craft under the personal mentorship of these accomplished writers.

We supplement this program with a wide range of cultural offerings and professional development made possible by our New York City location.

Admissions

Applicants to the Rita and Burton MFA in playwriting are required to have a bachelor's degree; they must submit two letters of recommendation and a full length play or a one act play of at least 40 pages, both as hard copy and as a PDF attachment. An interview is strongly recommended. (Only matriculated students will be eligible to take MFA courses.) Admission will be decided by the Artistic Director and the MFA faculty. The deadline for application is March 15.

Degree Requirements

This two year program encourages playwrights to discover and celebrate their unique voice. Towards that end they’ll be given a thorough grounding in theatre history, dramatic literature, play analysis, and the craft of playwriting as well have the opportunity to take electives in other departments. Well known theatre artists will also be invited in to share their experience and expertise. In conjunction with this academic grounding and focus on individual needs, there will be hands-on workshops in which students learn how to collaborate with actors, directors and designers, culminating in staged readings and full productions of their plays.

Required Courses (27 credits)

THC 73100 - MFA Playwriting I: The One-Act Play

This course is designed for experienced playwrights. Students will complete a ten minute play including three rewrites and a new one act play with three rewrites, with attention to the fundamentals of playwriting: Character, Action, Story, Tone. Readings during the semester

Writing Requirements: A ten-minute play and a one-act play in several drafts, a journal, and other writing exercises.

prereq or coreq: Pre- and/or Corequisites (and/or other special conditions): Students admitted to the MFA program in Playwriting or by special permission of the Instructor
Hours 3
Credits 3

THC 73200 - MFA Playwriting II: The Full-Length Play

This course is designed for the experienced playwright. Students will complete a new full-length play including one rewrite with attention to the fundamentals of structure as well as giving freedom to their individual voices and the process of rewriting. Forms of Drama will be discussed. Staged readings at completion of the projects.

Writing Requirements: Students will complete a full-length play in several drafts.

prereq: (and/or other special conditions):
THC 73100 or permission of instructor.
**THC 73300 - MFA Playwriting III: Adaptation**

Students will write a full length play adapted from fact or fiction, including two rewrites. Students will fulfill readings in plays which have been adapted from other mediums. Students will be required to complete oral presentations of one adapted project in dramatic literature. Production at completion of the semester. Students will be required to present a thesis play proposal.

*prereq: THC 73200 or permission of the instructor*

**THC 73400 - MFA Playwriting IV: Final Script for Production**

Students will complete a Thesis Masterpiece play including rewrites and culminating in a Final Production.

*prereq: THC 72100 Playwriting III*

*coreq: THC 72400 Production Workshop II*

**THC 73500 - MFA Production Workshop I**

Development of new scripts through table work, scene work, culminating in staged readings. Working with a community of artists--directors, actors, and dramaturges--through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, and dramaturges.

The class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting and directing.

*prereq: Playwriting II*

*coreq: Playwriting III*

**THC 73600 - MFA Production Workshop II**

Development of new scripts through table work, scene work, and readings, culminating in works-in-progress performances. Working with a community of artists--directors, actors, designers, and dramaturges--through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, designers, and dramaturges.

This class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting, directing, and design.
prereq: THC 72300 Production Workshop I and THC 721 Playwriting III  
coreq: THC 72200 Playwriting IV

THC 75100 - History of Theatre I

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 30 hrs, including conferences,*  
*Credits 3 cr*

THC 75200 - History of Theatre II

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 30 hrs, including conferences,*  
*Credits 3 cr*

THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

*Hours 30 hrs, including conferences,*  
*Credits 3 cr*

Electives (9 credits)

Nine credits are to be chosen from Courses in Theatre

coreq: THC 72200 Playwriting IV

THC elective or Internship: select from the following courses:Courses in Theatre

Theatre - MA
The MA program in theatre is designed to offer concentrated study in the areas of theatre history, theory, and criticism; dramaturgy; production and performance studies; and playwriting. The curriculum integrates theory with practice and accommodates the various backgrounds and career goals of theatre professionals, dramaturgs, and educators. Most students continue professional work or go on to PhD programs. In addition to the permanent faculty, well-known theatre artists, critics, and scholars teach on a part-time basis. Individual counseling is an integral part of the program. Through meetings with the graduate adviser, a program of study that meets each student’s needs is developed.

MA students may take MFA Playwriting classes with permission. A one-act play must be submitted for consideration.

Requirements for Admission

General admission requirements to the graduate program in the arts and sciences are observed. Applicants with a GPA of 3.4 or higher in theatre history, theory and literary criticism courses, or 6 credits of graduate work with a grade or grades of 3.0 or better need not submit scores on the Graduate Record Examination. An undergraduate theatre major is not needed for admission to the MA program in theatre. Students enter with a wide variety of academic backgrounds.

Requirements for the Degree

Courses

Each candidate must complete an approved program of study of at least 30 credits, including following. Courses other than those in the Department of Theatre may be applied toward the 30 credits with the approval of the graduate adviser, but may not exceed 9 credits. Not more than 9 credits may be transferred from nonmatriculated to matriculated status.

**THC 70200 - History of Theatrical Theory**

Historical survey of major theatre theories and theorists from Aristotle to poststructuralism.

*Hours 30 hours, including conferences,*
*Credits 3*

**THC 75100 - History of Theatre I**

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 30 hrs, including conferences,*
*Credits 3 cr*

**THC 75200 - History of Theatre II**

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 30 hrs, including conferences,*
*Credits 3 cr*

**THC 79000 - Play Analysis**

Study of structural elements of play essential to playwright and director.
Hours 30 hrs, including conferences,  
Credits 3 cr

Examination

The student is required to pass a three-hour comprehensive examination covering general knowledge in theatre history, criticism, and production. The comprehensive exam may be repeated if failed, but may be taken no more than three times. The department no longer requires a proficiency examination in one foreign language.

MA with Honors

Master's Essay: Upon completion of the comprehensive examination, the graduate committee will determine which students shall be invited to submit a proposal for a Master's Essay. This decision will be based on academic performance: papers, class participation, and the quality of the comprehensive examination. Honors students must register for THC 79900 - Master's Essay to complete the 30 required credits when the proposal is approved.

THC 79900 - Master's Essay

Individually supervised research and writing of a thesis, leading to graduation with honors.

Credits 3

Recent Electives

Our course offerings also include a continually changing roster of electives

Performing Arts of Kerala, India
Goethe's Faust: Text, Background, Tradition

Urban Policy and Planning

OVERVIEW

The Department of Urban Policy and Planning offers two graduate degrees, an accredited Master of Urban Planning degree, and a Master of Science in Urban Affairs degree. Both programs combine theory and practice in order to provide students with an in-depth understanding and appreciation of urban planning and policy.

Since its creation by advocacy planner Paul Davidoff, in 1965, the department has consistently upheld a vision of urban policy and planning as multi-disciplinary fields. In keeping with this vision, the department's faculty members represent
a wide range of disciplines including architecture, economics, history, political science, public health, public policy, social work, sociology and urban planning. They collectively bring a wealth of academic and professional expertise to their teaching. The program also benefits greatly from a distinguished part-time faculty who bring practical experience and knowledge in both public and non-profit sectors into the classroom. The program offers specialized courses in advocacy, comparative politics, economic development, education, governance, health, housing, immigration, infrastructure, policy analysis, public and nonprofit management, sustainability and the environment, and transportation.

What can I do with my degree in Urban Policy and Planning?

Graduates pursue careers in the following areas: urban and regional planning, community planning and advocacy, economic development, environmental planning, transportation and infrastructure development, housing, public policy, and nonprofit management.

john.chin@hunter.cuny.edu
Brooklyn Law School and Hunter Urban Policy & Planning jointly sponsor a program leading to the degrees of Juris Doctor (JD) and Master of Urban Planning (MUP).

Urban planners often turn to the legal profession for implementation of their work, and lawyers seek planners' advice in identifying present and future land use choices and regarding other development issues for public and private clients. Individuals with credentials in both areas are increasingly sought as advisors for urban policy makers and clients with urban land problems. This program is designed to provide students with the knowledge, skills and background necessary to practice both professions.

Students must apply and be accepted to both programs separately. Hunter College admits students for either the fall or spring semester. Students typically spend their first year at BLS, followed by one year at Hunter College, and then the remaining time integrating studies by registering concurrently in both schools. Advisors at both institutions, however, will work directly with individual students to devise the most appropriate plan of study.

Students can pursue an MUP/JD on a full or part-time basis. In the MUP/JD joint program, a student may receive up to 10 of the 86 credits required for the JD degree by successfully completing approved course work in the MUP program. Similarly, a student may receive up to 15 of the 60 credits for the MUP degree by successfully completing approved law school courses. Students enrolled in the law school's full-time program may complete the requirements for both degrees in four to five years, depending on the number of summer courses. If pursued on a part-time basis, the program generally takes five to six years to complete depending on the number of summer courses. With approval, the MUP degree may be awarded in advance of the JD degree; otherwise, degrees are awarded concurrently upon completion of all degree requirements.

Urban Planning - MUP

The Master of Urban Planning program has four integrated components: a core curriculum, an area of concentration, an internship, and a studio. Its purpose is to train planners who, like their counterparts throughout the nation, have general expertise in planning theory and methods, an understanding of urban structure, specialized knowledge of a chosen planning concentration, and the skills and intellectual maturity to operate in the professional arena.

The 54-credit program is structured to provide students with the expertise essential to professional practice and to allow for flexibility to accommodate individual professional and academic aspirations. The core curriculum (21 credits) provides basic training in planning. It has a dual purpose: to place planning in its societal and theoretical context and to teach the skills of the profession. The area of concentration (12 credits) allows for in-depth training in a specific subfield of general planning practice. The studio (6 credits) provides experience in applied planning. Unrestricted electives (12 credits) allow for the exploration of a range of planning topics in elective courses and through independent research.
In organizing their programs, students work closely with faculty advisers.

Each student must also take one 3-credit internship. As interns, students may work for city and suburban planning agencies, neighborhood development groups, banks, municipal housing or budgeting units, planning journals, and other groups approved by the department. For many students, field experiences have led to full-time employment in their internship agencies after graduation.

In addition, the department has several internal work opportunities generated by the faculty and the Center for Community Planning and Development, which count towards the internship requirement. Faculty members routinely include in their research grant proposals funds to support graduate research assistants.

The Hunter College graduate program in urban planning is accredited by the Planning Accreditation Board (PAB), which is the national accrediting body of urban planning degree programs. The PAB is sponsored by the Association of Collegiate Schools of Planning (ACSP), the American Institute of Certified Planners (AICP), and the American Planning Association (APA). Students with multiple professional interests may wish to pursue joint degree programs with other New York universities. For example, a joint master of urban planning/juris doctor, available through a cooperative program with Brooklyn Law School, allows students to earn the two degrees in four years of full-time study.

Admission Requirements

Requirements for Admission to the Planning Program

Traditionally, most applicants come from the social sciences (economics, geography, sociology, political science, and urban and American studies), engineering, and architecture. English majors and students of religion, art history, and business have also enrolled. While many students enter Hunter directly from undergraduate study, a large percentage have spent time away from school and return to develop their knowledge and expertise or to prepare for a new career. Applicants must meet the general admission requirements for Hunter graduate programs, except for the Graduate Record Examination, which is not required. The program requires a minimum GPA of 3.0 (although the program may recommend admission to students with lower GPAs when their GRE scores, documentation of professional experience in the field, or graduate-level academic work documents adequate preparation to successfully pursue the degree). These requirements include the submission of transcripts and two letters of recommendation, along with a completed application form obtained from the Hunter College Graduate Admissions Office. Applicants are encouraged to visit the department during scheduled open house sessions and to contact the program director by e-mail with specific questions. Applicants are also encouraged to reach out to individual faculty members who may share their professional or research interests.

Degree Requirements

Requirements for the Master of Urban Planning

The degree requires 54 credits of graduate study. Of these, 42 must be selected within course offerings of the Hunter College graduate program in urban planning. With the approval of the department, 12 credits may be elected from other graduate programs.

Credits are distributed as follows:

| Core Curriculum | 21 credits |
Area of Concentration ........................................ 12 credits

Planning Studio ........................................ 6 credits

Internship ........................................ 3 credits

Unrestricted Electives ........................................ 12 credits

Core Curriculum

The core curriculum includes content and courses in four areas: theories and process of urban planning, urban structures, public policy and law, and planning methods and information management. Students must take required courses, except where choices are allowed. The core consists of:

**URBP 70000 - Introduction to Planning**

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy. Also, an introduction to the various planning sub-fields including urban design, land development, economic and community development, housing, environmental planning, transportation planning, and public finance.

*Hours 45  
Credits 3*

**URBP 70100 - History and Theory of Urban Planning**

The study of conscious efforts to guide city development from ancient civilizations to the present, and the evolution of planning theory to guide these actions. Emphasis on the relationship between public and private planning activities and the set of roles available to contemporary planners.

*Hours 45  
Credits 3*

**URBP 71900 - Land Use, People and the Environment**

A comprehensive overview to the theory and practice of land use planning and zoning that sees land as a set of social relations that define the way cities and urban regions develop. Land use planning is placed within larger economic, political, and legal contexts and issues of environmental conservation, environmental justice, air and water quality, public health, energy, infrastructure, and global sustainability.
URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

Hours 45 hrs,  
Credits 3 cr

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

Hours 45 hrs,  
Credits 3 cr

Plus, choice of two of the following methods courses:

URBP 71200 - Methods of Planning Analysis

Introduction to methods of demographic and economic analysis. Emphasis on applications to current urban planning practice.

Hours 45  
Credits 3

URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

Credits 3

GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management.

coreq: GTECH 71000  
Hours 4 hrs.  
Credits 3 cr.

Areas of Concentration
The graduate program offers the following areas of concentration: Community Planning and Advocacy (including Human Services), Sustainability and the Environment, Transportation and Infrastructure, Housing and the Built Environment (including Urban Design and Historic Preservation), Economic Development, and General Practice. Each concentration is designed to give students a working knowledge of specific foci within the field of planning. To fulfill the concentration requirement, students select four courses related to the concentration in consultation with their adviser, from the suggested list.

Students with special interests may create their own concentration. In developing their programs, students may combine Hunter courses with the resources of the larger City University community or other approved institutions. Some individually tailored specializations may include Education Planning and Policy, Immigration and Global Change, and Urban Information Systems.

Representative Courses in the Areas of Concentration

Community Planning and Advocacy (including Human Services)

URBP 73100 - Neighborhood Planning Workshop

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

 prerequisites: URGB 72700 or permission of the instructor

 Hours 45 hrs,
 Credits 3 cr

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

 Hours 45 hrs,
 Credits 3 cr

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

 Hours 45 hrs,
 Credits 3 cr

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

 Hours 45 hrs,
 Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation
Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,
Credits 3 cr*

**URBG 75600 - Citizen Participation in Planning and Development**

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,
Credits 3 cr*

**URBG 75700 - Politics of Education**

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

*Hours 45
Credits 3*

**URBG 76000 - Cities and Health**

The course will examine health problems and policy solutions from the perspective of the city, integrating the theory and analytic approaches from the fields of public health and urban planning, through such topics as the historical relationship between public health and urban planning, environmental justice as it relates to urban health, and urban health care systems.

*Hours 45
Credits 3*

**URBP 71600 - Participatory Planning Using GIS and the Internet**

Understanding complexities associated with using GIS and other digital technologies in community organizing and urban development; intensive lab-based course

*prereq: GTECH 71000 or perm instr.*

Credits 3

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

**URBG 78700 - Selected Topics in Urban Planning and Urban Affairs**

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and
advocacy

Hours 45 hrs,  
Credits 3 cr

Sustainability and the Environment

**URBP 72000 - Law of Land Use Regulation I**

Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for controlling urban growth.

*Hours 45*  
*Credits 3*

**URBP 72200 - Land Use Planning Workshop**

Application of land use planning skills to specific problem in New York metropolitan region. Class operates as team to produce recommendations.

*prereq: URBP 71900 or permission of the instructor*  
*Hours 45 hrs,*  
*Credits 3 cr*

**URBP 73400 - Environmental Planning**

Study of current and emerging issues in controlling and preventing environmental degradation. Emphasis on administrative and political considerations.

*Hours 45 hrs,*  
*Credits 3 cr*

**URBP 73500 - Law of Environmental Planning**

Examination of legal aspects of environmental protection and methods of public intervention. Study of role of law in formulation and implementation of environmental public policy.

*Hours 45 hrs,*  
*Credits 3 cr*

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

**URBG 78700 - Selected Topics in Urban Planning and Urban Affairs**

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,*  
*Credits 3 cr*
Transportation and Infrastructure

**URBG 72500 - Infrastructure and Site Planning**

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

*Hours 45 hrs,*  
*Credits 3 cr*

**URBP 72600 - Site Planning Workshop**

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

*Hours 45 hrs,*  
*Credits 3 cr*

**URBP 73200 - Introduction to Transportation Planning**

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

*Hours 45 hrs,*  
*Credits 3 cr*

**URBP 73300 - Transportation Planning Methods and Models**

Review of variety of transportation planning tools including highway capacity calculations, transportation impact studies, models of trip generation, trip distribution, modal split and network assignments. Presentation of related microcomputer software.

*prereq: permission of the instructor*  
*Hours 45 hrs,*  
*Credits 3 cr*

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

**URBG 78700 - Selected Topics in Urban Planning and Urban Affairs**

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,*  
*Credits 3 cr*

**Housing and the Built Environment (including Urban Design and Historic Preservation)**
URBP 72300 - Introduction to Urban Design

Analysis of three-dimensional urban space by studying methods of visual perception and notation; criteria for determining desirable spatial relationships; and means of implementing policies to achieve urban design goals.

Hours 45 hrs,
Credits 3 cr

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

Hours 45 hrs,
Credits 3 cr

URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

Hours 45 hrs,
Credits 3 cr

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

Hours 45 hrs,
Credits 3 cr

URBG 72800 - Housing and Community Development Seminar

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

prereq: URBG 72700 or permission of the adviser
Hours 45 hrs,
Credits 3 cr

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

Hours 45 hrs,
Credits 3 cr

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration
URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,
Credits 3 cr

Economic Development

URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

Hours 45 hrs,
Credits 3 cr
Open only to graduate students matriculated in Department of Urban Affairs and Planning

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

Hours 45 hrs,
Credits 3 cr

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

Hours 45 hrs,
Credits 3 cr

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

Hours 45 hrs,
Credits 3 cr

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 45 hrs,
Credits 3 cr
URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

*Hours 45 hrs,  
*Credits 3 cr

URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

*Hours 45  
*Credits 3

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy.

*Hours 45 hrs,  
*Credits 3 cr

General Practice

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

*Hours 45 hrs,  
*Credits 3 cr

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,  
*Credits 3 cr

URBP 73100 - Neighborhood Planning Workshop
Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

**URBP 73200 - Introduction to Transportation Planning**

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

*Hours 45 hrs,
Credits 3 cr*

**URBG 75500 - Planning for Community Development and Implementation**

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,
Credits 3 cr*

**URBG 75600 - Citizen Participation in Planning and Development**

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,
Credits 3 cr*

**Planning Studio**

To solidify knowledge and skills gained in the core curriculum and other courses, students are required to participate in a 6-credit planning studio. This requirement is satisfied by completion of URBP 73700 (6 credits) or URBP 73800 (Planning Studio I, 3 credits) and URBP 73900 (Planning Studio II, 3 credits), which are taken consecutively. Ordinarily students take the studio course in their second year of study or after completion of at least 30 credits of work.

**Urban Policy and Leadership - MS**

The 36-credit MS in Urban Policy and Leadership contains a flexible curriculum that launches students into the study of cities and the urban environment. The interdisciplinary nature of the program allows students to tailor their education to career aspirations and/or interests of their own choosing. The program is designed to accommodate both full and part time attendees. It can be completed in either two full semesters and a summer session or over a longer period of time. In combining both theory and practice, the program seeks to foster an understanding of urbanism while teaching practical skills to prepare students for the changing urban environment.

Our faculty specializes in a diverse range of urban disciplines with expertise and specializations that include: urban planning and history, governance, education, health, housing, immigration, comparative government, economic
development, community advocacy, transportation, environment, law, and integrated technologies. The program boasts a distinguished part-time faculty, bringing years of practical experience and knowledge in both public and non-profit sectors. It is not uncommon to take courses from high level New York City professionals and practitioners.

In order to accommodate the needs and interests of an increasingly diverse student body, the faculty has recently redefined course requirements so that students have more choices in constructing their program. These changes are reflected in the distribution of the requirements listed below.

Our students are drawn from a diverse population locally, nationally and internationally. While most have been out of college for some time and many are already in the midst of their careers, an increasing number are arriving one or two years out of college. Most plan or are pursuing careers in the public and non-profit sectors. Students may substitute courses from other departments and/or CUNY schools that more appropriately address their substantive interest for the course listed in each of the Required Disciplines.

Requirements for Admission to the Master of Science in Urban Policy and Leadership

Applicants must meet Hunter's general graduate admission requirements, except for the Graduate Record Examination, which is not required. Applicants must present at least 12 undergraduate credits in social science with a minimum GPA of 3.0 (although the program may recommend admission to students with lower GPAs when their GRE scores, documentation of professional experience in the field, or graduate-level academic work documents adequate preparation to successfully pursue the degree). Students with relevant undergraduate majors or nonacademic experience may, after consultation with the graduate adviser, request admission with special conditions.

Requirements for the Master of Science in Urban Policy and Leadership

Core Requirements (12 credits)

**URBG 79000 - Urban Development Workshop I**

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

*prereq: permission of the adviser
Credits 6 cr*

**URBG 79200 - Urban Affairs Capstone**

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

*prereq: permission of the director/adviser
Hours 45 hrs,
Credits 3 cr
and either*

**URBG 70000 - Introduction to Urban Policy Processes**
An introduction to policy processes in an urban context with attention to issues of formulation, functionality, evaluation and implementation. This is a core requirement for MS students in the public policy track, and an elective for others.

*Hours 3 hrs
Credits 3 cr.*

-or-

**URBG 70100 - Introduction to Organization and Management for the Public and Non-Profit Sectors**

An introduction to organizational structures and theories, with attention to the identification and analysis of management challenges that organizations face when seeking to carry out public purposes in urban settings. This is a core requirement for MS students in the non-profit track, and an elective for others.

*Hours 3 hrs
Credits 3 cr.*

**Required Disciplines (9 credits)**

One of Political Structure course and two Methods/Skills courses are required:

**Political Structure Requirement (3 credits)**

**URBG 70200 - Structure of the Urban Region**

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

*Hours 45 hrs,
Credits 3 cr*

**URBG 75800 - Governing the City**

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constrints, suburbanization, and secession and ask, "Is it getting better?"

**URBG 78718 - Political Economy of the City**

The course will explore the framework in which urban policy and development occurs in US urban areas. We will explore the 'anatomy' of the city, that is, to what extent is the physical shape of the city influenced by the interaction between the public and private sectors. Cities, of course, are embedded in larger economic and political settings. Indeed, some would argue that the forces generated in this larger context tend to overwhelm the local political/economic theatre. To this end, the course will examine the extent to which greater national and international political and economic forces impact the shape of cities.

**Methods/Skills Requirement (6 credits)**
URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,*
*Credits 3 cr*

GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management.

*coreq: GTECH 71000*
*Hours 4 hrs.*
*Credits 3 cr.*

URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

*Credits 3*

Specializations (9 credits)

Students choose one area of specialization from among the three designated areas of specialization that include: urban policy, non-profits, neighborhood development from which nine credits of coursework must be taken. Students with approval of the program adviser may also develop their own specializations.

Urban Policy

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

*Hours 45 hrs,*
*Credits 3 cr*

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,*
*Credits 3 cr*
URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

*Hours 45 hrs,*  
*Credits 3 cr*

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

*Hours 45 hrs,*  
*Credits 3 cr*

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

*Hours 45 hrs,*  
*Credits 3 cr*

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

*Hours 45 hrs,*  
*Credits 3 cr*

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

*Hours 45 hrs,*  
*Credits 3 cr*

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

*Hours 45 hrs,*  
*Credits 3 cr*

URBG/URBP 78700 special topics course can be taken to fill the concentration

Neighborhood Development

URBG 70700 - Graphical Communication for Urban Planners
Introduction to graphical techniques commonly used to facilitate communication of ideas and information among planners and planning-related professionals.

*Hours 45 hrs,
Credits 3 cr*

**URBG 72700 - Introduction to Housing**

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,
Credits 3 cr*

**URBG 72800 - Housing and Community Development Seminar**

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

*prereq: URBG 72700 or permission of the adviser
Hours 45 hrs,
Credits 3 cr*

**URBG 74000 - Planning for Economic Development**

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

*Hours 45 hrs,
Credits 3 cr
Open only to graduate students matriculated in Department of Urban Affairs and Planning*

**URBG 74800 - Management Control of Nonprofit Organizations**

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

*Hours 45 hrs,
Credits 3 cr*

**URBG 74900 - Strategic Planning for Nonprofit Organizations**

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

*Hours 45 hrs,
Credits 3 cr*

**URBG 75000 - Social Planning and Policy**
Examination of major social problems facing urban planners. Review of social planning theories and methods.

*Hours 45 hrs,
Credits 3 cr*

**URBG 75500 - Planning for Community Development and Implementation**

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,
Credits 3 cr*

**URBG 75600 - Citizen Participation in Planning and Development**

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,
Credits 3 cr*

URBG/URBP 78700 special topics course can be taken to fill the concentration

**Non-Profit Sector**

**URBG 70600 - Introduction to Policy Analysis**

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

*Hours 45 hrs,
Credits 3 cr*

**URBP 74700 - Planning in the Budget Process**

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

*Hours 45 hrs,
Credits 3 cr*

**URBG 74800 - Management Control of Nonprofit Organizations**

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

*Hours 45 hrs,
Credits 3 cr*

**URBG 74900 - Strategic Planning for Nonprofit Organizations**
Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

Hours 45 hrs,
Credits 3 cr

**URBG 75500 - Planning for Community Development and Implementation**

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

Hours 45 hrs,
Credits 3 cr

**URBG 75600 - Citizen Participation in Planning and Development**

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

Hours 45 hrs,
Credits 3 cr

URBG/URBP 787 Special topics course can be taken to fill the concentration

**Unrestricted Electives (6 credits)**

In addition, students must complete an additional 6 credits in unrestricted electives.

Total credits required: 36

**Additional Courses**

A wide variety of courses are offered each semester in the department, including special topics courses to meet the requirements. Students are encouraged to consult course listings in other departments within Hunter in which to take classes that are in line with their course of study. Up to 9 credits can be taken outside the Department of Urban Affairs and Planning in other departments at Hunter or within the CUNY system.

School of Health Professions

About the School of Health Professions

Hunter's Institute of Health Sciences, dedicated to the educational preparation of a range of health care professions, opened its doors on East 106th Street in 1968. Six years later, the Institute became the School of Health Sciences and moved downtown to the Brookdale Campus. Today Hunter College's School of Health Professions' mission is the education of the next generation of health care professionals in the areas of Speech-Language Pathology and Audiology and Physical Therapy. These professionals will work in health care centers, schools, organizations and private practice to improve the lives of those they assist through direct service delivery, research and education.

Facilities
The Hunter-Bellevue School of Nursing is located at Hunter College's Brookdale Health Science Center at 425 East 25th Street in Manhattan, near Bellevue Hospital. The School's programs combine liberal and professional education with a humanistic and comprehensive approach to health care. The School's mission is to provide quality nursing education to promote health and provide care to culturally diverse, urban, and global communities through research, scholarship, and service. The School's programs combine liberal and professional education with a humanistic and comprehensive approach to health care.

The School offers accredited programs leading to the Master of Science (MS) and the Doctor of Nursing Practice (DNP) degrees. The School also offers a post-Master's advanced certificate program. Graduates meet the educational requirements for national board certification in their specialties. In addition, a PhD program in Nursing is offered by the City University of New York Graduate Center in conjunction with Hunter College, Lehman College, and The College of Staten Island. For information, please go to www.gc.cuny.edu/Page-Elements/Academics-Research-Centers-Initiatives/Doctoral-Programs/Nursing.

What can I do with my degree in Nursing?
The MS program educates nurses for roles as gerontological/adult nurse practitioners (NPs), psychiatric/mental health NPs, adult-gerontological acute care clinical nurse specialists, community/public health practitioners and nurse administrators. The post-master's certificate program prepares psychiatric/mental health NPs. The DNP program offers concentrations for Adult/Gerontological NPs, Family NPs and Psychiatric/Mental Health NPs.

Programs and Courses in Nursing

Accreditation

The baccalaureate degree in nursing programs, the master's degree in nursing programs, and the Doctor of Nursing Practice program at Hunter College, CUNY, are accredited by the Commission on Collegiate Nursing Education, 655 K Street NW, Suite 750, Washington DC 20001, 202-887-6791.

Licensing

Graduates of the advanced practice nursing programs are eligible to take the certification examinations for nurse practitioners and clinical nurse specialist.

Centers

The Health Professions Education Center (HPEC)

The Health Professions Education Center (HPEC) is an academic learning center serving all students and faculty at the Hunter College Nursing and School of Health Professions. A variety of comprehensive support services and programs are offered at the HPEC to enhance student academic success, retention, and completion rates by applying best practices and addressing student learning needs from multiple pedagogical perspectives. Our services are designed to develop critical thinking, reinforce practice of clinical skills, and foster a supportive, professional environment for student collaboration and scholarship.

The HPEC combines traditional approaches to teaching with new instructional technologies that reflect the dynamic nature of all health professions. Services at the center include:

- Access to the largest collection of health-related videos and instructional media within CUNY.
- Computer-aided educational software and virtual training technologies.
- Access to state board testing preparation programs.
- Technology support at the Hunter College Brookdale Campus.
- Beta testing and evaluation of new instructional media.
- Faculty consultation for research and classroom media integration.
- Development and administration of e-learning initiatives, online testing, and digital content.
- Individual and group study support.
- Simulation laboratory support through the New York Simulation (NYSIM) Center.

Faculty and students from all Hunter College schools and departments are always welcome to view the many resources available at the HPEC.

Director: Martin Dornbaum; Mezzanine floor, Brookdale West Building; (212) 481-5129, mdornbau@hunter.cuny.edu; Evening Supervisor: Peter Marquez; edcenter@hunter.cuny.edu
The center maintains regular office hours throughout the academic year, Monday-Thursday 9AM-9PM and Fridays 9AM-5PM.

**Administration and Faculty**

**About the School**

The Hunter College School of Social Work, founded in 1956, is the largest and oldest public graduate school of social work in New York City. The School's mission is to promote excellence in social work practice by preparing knowledgeable, ethical, and highly competent social work leaders for a variety of professional roles and settings. Our
pedagogy, scholarship, and service reflect social work's historic commitment to human rights, cultural complexity, and social and economic justice. Commensurate with the missions of our host institutions, the School promotes community-engaged and practice-based scholarship that pursues policy and practice solutions to real world problems, thereby reinforcing the strengths of people and the communities in which they live, in New York and other major urban areas.

The School of Social Work is fully accredited by the Council on Social Work Education.

The Building and Its Uses

The School is located in a new state-of-the-art building designed specifically to meet its needs in the community of East Harlem. The School was renamed the Lois V. and Samuel J. Silberman School of Social Work in honor of its benefactors, Lois and Samuel Silberman. The new building includes a well resourced and beautiful library, community meeting spaces, four computer labs with extensive software, state-of-the art classrooms and an art gallery. In addition, the building has both an interior courtyard garden and a large terrace. A café will be located in the building as well. The CUNY School of Public Health, Centro, and Brookdale Center on Healthy Aging and Longevity are co-located in the building. In addition to resources in the School of Social Work building, there are extensive resources at the main campus of Hunter College (East 68th St. and Lexington Ave.), the Graduate Center and the other units of the City University of New York (CUNY).

School of Urban Public Health

School of Urban Public Health

About the School

Hunter College's School of Urban Public Health educates students to contribute to improving urban health by addressing problems such as HIV, substance abuse, asthma, obesity, under-nutrition, violence, heart disease and cancer. The School offers undergraduate programs in Community Health and in Nutrition. Hunter's School of Urban Public Health shares an eight-story, 147,000-square-foot green building on Third Avenue between East 118th and 119th
Streets with the Silberman School of Social Work at Hunter College. Faculty, staff and students from both schools work closely with community organizations and health and social service agencies in East Harlem to strengthen existing and create new approaches to improving the well-being of East Harlem and other low-income communities.

The MS degree in Nutrition is designed for individuals seeking to attain the RD credential. The MS in Nutrition is an accredited didactic program in dietetics (DPD), completion of which certifies eligibility to apply for a dietetic internship.

The Accelerated BS/MS is for third year NFS majors who are interested in completing their degree and then continuing at Hunter to obtain a master's degree and verification statement (students will be provisionally accepted into the program in their junior year but must maintain grade requirements to matriculate into the MS-DPD program). This accelerated pathway provides the opportunity for undergraduate students to remain at Hunter for their graduate coursework providing students the opportunity for academic acceleration to a graduate degree.

**What can I do with my degree in Nutrition and Food Science?**

Graduates of the NUTR-MS program may work as nutritionists in a wide variety of health care facilities including hospitals and public health agencies. Since the MS-Nutrition curriculum meets the didactic program in dietetics (DPD) requirements established by the Commission on Accreditation for Dietetics Education (CADE), the credentialing arm of the American Dietetic Association (ADA), the program will qualify students from the BS/MS accelerated track to apply for Dietetic Internships and continue their professional preparation for the Registered Dietitian (RD) credential.

**Accreditation**

The NUTR-MS is a didactic program in dietetics (DPD), accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), formerly known as the Commission on Accreditation of Dietetics Education (CADE), the accrediting agency of the Academy of Nutrition and Dietetics. The Dietetic Internship is also accredited by ACEND. Both the DPD and DI programs are designed for individuals seeking to become eligible to sit for the national registration examination in dietetics to become credentialed as a Registered Dietitian (RD).

2018-2019 Cost of Attendance

Expenses Living with Parents/Living away from Parent

Tuition and Fees Please refer to the Office of the Bursar for individual program Tuition and Fees: http://www.hunter.cuny.edu/bursar/

The Housing component of the Living Away From Parent budget is derived using average housing charges for a rental apartment in metropolitan New York, and using the assumption that the student is sharing the cost of housing with a roommate. The Personal Expenses component includes an allowance for medical expenses and/or health insurance.

Below are the estimated nine month budget for variable costs (in addition to tuition and fees) for students living at home and students living away from home.

Accreditation

Accreditation

Hunter College is fully accredited by the Middle States Commission on Higher Education (MSCHE), 3624 Market Street, Philadelphia, PA 19104-2680; phone: 267-284-5000.

Hunter is approved as a degree-granting institution by the Trustees of the City University of New York and the Regents of New York State.

Academic programs with national accreditation or certification include the following:

School of Arts and Sciences programs in Biochemistry and Urban Planning are accredited by the American Society for Biochemistry and Molecular Biology and the Planning Accreditation Board, respectively.

School of Education programs are accredited by the National Council for Accreditation of Teacher Education (NCATE), the Counsel on Rehabilitation Education (CORE), and the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

The baccalaureate degree in nursing programs, the master's degree in nursing programs, and the Doctor of Nursing Practice program at Hunter College, CUNY, are accredited by the Commission on Collegiate Nursing Education, 655 K Street NW, Suite 750, Washington DC 20001, 202-887-6791.

Health Professions programs are accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association; the American Physical Therapy Association.
School of Urban Public Health programs in nutrition are accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND).

• Special Education: Severe and Multiple Disabilities Annotation Extension - Advanced Certificate
Anthropology Department

Anthropology Department Description

Anthropology is the study of humanity in all its cultural and biological diversity. In the United States, the discipline traditionally includes four fields: archaeological, biological, cultural, and linguistic anthropology, although research increasingly examines questions at the borders of the fields or which span more than one field. The department maintains a commitment to a four-field approach to graduate training despite a national trend towards increasing specialization at earlier stages of graduate training. A student with a solid four-field background can readily opt to specialize, while one-field specialists are hard to retrain as generalists. Anthropology provides essential foundations and perspectives for the study of the social and natural sciences and the humanities, as well as for applied professions such as education, public health, and social work. The Anthropology curriculum emphasizes original research, scholarly writing, informed critical thinking, and the understanding of and tolerance for diverse cultures and ways of life.

We consider hands-on training in qualitative and quantitative methods to be an integral part of graduate training. The faculty is actively involved in interdisciplinary teaching, interdepartmental collaborative efforts, and individual and team research projects, including many that involve new information technologies, cultural resource management, environmental impact assessment, ethnicity and gender, regional and area studies, and economic development, to name a few. The Department is also committed to involving graduate students in ongoing faculty-supported research, and in encouraging independent student-initiated research projects.

The Master's program is tied to the evening course schedule with the majority of courses commencing after 5:00 PM, thereby offering a unique educational resource in an urban area where the majority of potential graduate students are self-supporting and hold full-time jobs.

Return to Faculty of the School of Arts and Sciences

Appeals Procedure for Students on Probation

1. Student appeals shall be made in writing to the dean of the appropriate school, who will forward copies to the appropriate graduate adviser. Appeals must be received no later than the first day of classes of the following semester.

2. Upon receipt of this written letter of appeal, the dean shall convene a probation appeals committee composed of representatives from the graduate programs in the appropriate school, to include the graduate adviser from the appropriate program or a comparable program representative.

3. The specifically constituted probation appeals committee shall meet to review each case and shall produce a written report stating the grounds for its decision. Copies of this report shall be sent to the student, to the dean, and to the student's file. The decision of this committee is final. If the appeal is successful, the committee shall send official notification to the registrar that the student will be retained on probation and
allowed to register.

4. Student appeals which are received by the first day of classes shall be handled with dispatch in order that the student may register within the period of late registration without payment of late registration fee.

**Appeals-Grades**

When a student considers a final course grade unsatisfactory, the student should first confer with the instructor regarding the accuracy of the grade received. This conference should be held within the first three weeks of the semester following receipt of the grade. At this time, errors may be corrected. If the grade is not an error, the student and instructor must together review all course material pertinent to the grade. If the student is not satisfied, or the instructor does not confer with the student within the first three weeks of the semester, the student should promptly contact the department chair by submitting a written appeal, consisting of a statement giving the factual reasons and basis for the complaint. The student has the right to request in writing that the chair appoint a student as a member to the department/school Grade Appeals Committee. This appeal at the department/school level must be submitted within the first five weeks of the semester following receipt of the grade, in accordance with the "College-wide Grade Appeals Procedures" adopted by the Senate in fall 1985. Copies of this procedure may be obtained in the Senate Office, the Office of Student Services, or departmental offices.

Students appealing a grade to the School of Nursing or the School of Health Sciences should direct the appeal to the director of the school. Students appealing a grade to the School of Social Work should direct the appeal to the dean of the school, who shall carry out the responsibilities of the department chair.

1. **Introduction**

The university and its colleges have a variety of procedures for dealing with student-related issues, including grade appeals, academic integrity violations, student discipline, disclosure of student records, student elections, sexual harassment complaints, disability accommodations, and discrimination. One area not generally covered by other procedures concerns student complaints about faculty conduct in the classroom or other formal academic settings. The university respects the academic freedom of the faculty and will not interfere with it as it relates to the content or style of teaching activities. Indeed, academic freedom is and should be of paramount importance. At the same time the university recognizes its responsibility to provide students with a procedure for addressing complaints about faculty treatment of students that are not protected by academic freedom and are not covered by other procedures. Examples might include incompetent or inefficient service, neglect of duty, physical or mental incapacity and conduct unbecoming a member of the staff.

2. **Determination of Appropriate Procedure**

If students have any question about the applicable procedure to follow for a particular complaint, they should consult with the chief student affairs officer. In particular, the chief student affairs officer should advise a student if some other procedure is applicable to the type of complaint the student has.

3. **Informal Resolution**

Students are encouraged to attempt to resolve complaints informally with the faculty member or to seek the assistance of the department chairperson or campus ombudsman to facilitate informal resolution.

4. **Formal Complaint**

If the student does not pursue informal resolution, or if informal resolution is unsuccessful, the student may file a written complaint with the department chairperson or, if the chairperson is the subject of the complaint, with the academic dean or a senior faculty member designated by the college president. (This person will be referred to below as the "Fact Finder.") Only students in a faculty member's class or present in another academic setting where the alleged conduct occurred may file complaints against that faculty member.
• The complaint shall be filed within 30 calendar days of the alleged conduct unless there is good cause shown for delay, including but not limited to delay caused by an attempt at informal resolution. The complaint shall be as specific as possible in describing the conduct complained of.

• The Fact Finder shall promptly send a copy of the complaint to the faculty member about whom the complaint is made, along with a letter stating that the filing of the complaint does not imply that any wrongdoing has occurred and that a faculty member must not retaliate in any way against a student for having made a complaint. If either the student or the faculty member has reason to believe that the department chairperson may be biased or otherwise unable to deal with the complaint in a fair and objective manner, he or she may submit to the academic dean or the senior faculty member designated by the college president a written request stating the reasons for that belief; if the request appears to have merit, that person may, in his or her sole discretion, replace the department chairperson as the Fact Finder.

• The chairperson may also submit a written request for recusal for good cause to the academic dean or senior faculty member designated by the college president to review such requests. If a recusal request is granted, a different department chairperson shall conduct the investigation, or, if no other chairperson is available, an administrator designated by the college president shall serve in the chairperson's stead. Further, the college president may re-assign investigations as necessary, including but not limited to situations in which a Fact Finder has not completed an investigation in a timely manner. In addition, during any time that no department chairperson is available to investigate a complaint, the college president may assign an administrator to investigate.

• The Fact Finder shall meet with the complaining student and faculty member, either separately or together, to discuss the complaint and to try to resolve it. The Fact Finder may seek the assistance of the campus ombudsman or other appropriate person to facilitate informal resolution.

• If resolution is not possible, and the Fact Finder concludes that the facts alleged by the student, taken as true and viewed in the light most favorable to the student, establish that the conduct complained of is clearly protected by academic freedom, he or she shall issue a written report dismissing the complaint and setting forth the reasons for dismissal and send a copy to the complaining student, the faculty member, the chief academic officer and the chief student affairs officer. Otherwise, the Fact Finder shall conduct an investigation. The Fact Finder shall separately interview the complaining student, the faculty member and other persons with relevant knowledge and information and shall also consult with the chief student affairs officer and, if appropriate, the college ombudsman. The Fact Finder shall not reveal the identity of the complaining student and the faculty member to others except to the extent necessary to conduct the investigation. If the Fact Finder believes it would be helpful, he or she may meet again with the student and faculty member after completing the investigation in an effort to resolve the matter. The complaining student and the faculty member shall have the right to have a representative (including a union representative, student government representative or attorney) present during the initial meeting, the interview and any post-investigation meeting.

• In cases where there is strong preliminary evidence that a student's complaint is meritorious and that the student may suffer immediate and irreparable harm, the Fact Finder may provide appropriate interim relief to the complaining student pending the completion of the investigation. The affected faculty member may appeal such interim relief to the chief academic officer.

• At the end of the investigation, the Fact Finder shall issue a written report setting forth his or her findings and recommendations, with particular focus on whether the conduct in question is protected by academic freedom, and send a copy to the complaining student, the faculty member, the chief academic officer and the chief student affairs officer. In ordinary cases, it is expected that the investigation and written report should be completed within 30 calendar days of the date the complaint was filed.

5. Appeals Procedure

If either the student or the faculty member is not satisfied with the report of the Fact Finder, the student or faculty member may file a written appeal to the chief academic officer within 10 calendar days of receiving the report. The chief academic officer shall convene and serve as the chairperson of an Appeals Committee, which shall also include the chief student affairs officer, two faculty members elected annually by the faculty council or senate and one student elected annually by the student senate. The Appeals Committee shall review the findings and recommendations of the report, with particular focus on whether the conduct in question is protected by academic freedom. The Appeals
Committee shall not conduct a new factual investigation or overturn any factual findings contained in the report unless they are clearly erroneous. If the Appeals Committee decides to reverse the Fact Finder in a case where there has not been an investigation because the Fact Finder erroneously found that the alleged conduct was protected by academic freedom, it may remand to the Fact Finder for further proceedings. The committee shall issue a written decision within 20 calendar days of receiving the appeal. A copy of the decision shall be sent to the student, the faculty member, the department chairperson and the president.

6. Subsequent Action

Following the completion of these procedures, the appropriate college official shall decide the appropriate action, if any, to take. For example, the department chairperson may decide to place a report in the faculty member's personnel file or the president may bring disciplinary charges against the faculty member. Disciplinary charges may also be brought in extremely serious cases even though the college has not completed the entire investigative process described above; in that case, the bringing of disciplinary charges shall automatically suspend that process. Any action taken by a college must comply with the bylaws of the university and the collective bargaining agreement between the university and the Professional Staff Congress.

7. Campus Implementation

Each campus shall implement these procedures and shall distribute them widely to administrators, faculty members and students and post them on the college Web site.

Application Fee

A $125 application fee is required of all applicants. Applications submitted without the fee cannot be processed. You can pay your application fee via credit card online when you are ready to submit your online application form or you can mail a check or money order to the Graduate Admissions Office. Please make checks or money orders payable to Hunter College. If a check is written for you by someone else, be sure your name appears on the face of the check. Those currently attending Hunter as graduate non-degree students who are applying for degree status need not pay this fee. As the application fee is devoted to the administrative cost of processing all applications, it is not refundable under any circumstances, regardless of the outcome, the date of filing, the time of review and final decision, or, if for whatever reason, the application is withdrawn.

Applying

Applicants may apply to only one program for any given semester; please decide which of our programs is the most appropriate before filing the application. The deadline for applications varies by program. The earliest deadlines are January 15 for fall admission and September 1 for spring admission. Applicants are responsible for submitting their application and supporting application materials by the deadline for their desired graduate program.

Applying for admission to a graduate program at Hunter College is a fully online process. Hunter College offers a web-based application for graduate degree admission which can be accessed at: http://app.applyyourself.com/?id=Hunter-G. Applicants are required to complete the core application form, upload a statement of purpose, upload scanned/electronic transcripts from all undergraduate and graduate institutions previously attended, and complete any program-specific supplemental forms. Required letters of recommendation must be submitted online by the recommenders through the online application system. Specific information on the application requirements can be found at Application Requirements.

Applying to the CUNY School of Public Health
Applicants to the graduate programs at the CUNY School of Public Health do not use the Hunter College online applications system. These applicants need to apply through the SOPHAS (School of Public Health Application Service) system and submit all required documents directly to SOPHAS.

**Applying: Additional Materials**

Applicants to some graduate programs may be asked for additional materials and may be interviewed by a member of the program to which the application is made.

**Approval of Credit from Nonmatriculant to Matriculant Status**

Approval will automatically be granted for courses taken in support of the degree if the grades received are B or higher. Approval is not automatic for courses in which the grade received is less than B, nor for courses not required for the degree. To have such a course considered for approval, the student must submit a credit approval form, which may be obtained in the Office of Graduate Admissions. Note: Grades in courses taken as a nonmatriculant at Hunter will be calculated into the student's grade point average (GPA) whether approved toward the degree or not.

**Art and Art History Department Description**

The Hunter College Department of Art & Art History offers two distinguished master's programs, an MA in art history and an MFA in creative art. The department boasts world renowned faculty in art history and studio art.

Hunter is situated within walking distance of a range of resources unsurpassed anywhere for the study of art history: outstanding museums, galleries and specialized research libraries. The Art History - MA, granted by Hunter College since 1952, is a comprehensive program of study intended to give the student a broad background in the history of art as well as an in-depth concentration in a particular area. It leads to enrollment in PhD programs throughout the country and serves as a terminal degree for professional work in museums, galleries, arts organizations and art publishing.

In New York, as nowhere else, the Studio Art - MFA student has access to the changing ideas and forms of contemporary art. This is crucial to the achievement of the goal of the MFA program: to develop professional artists capable of continued growth once they leave the relatively structured university environment. The program is designed to offer broad training for the artist in the development of critical and analytical visual thinking as it relates to their work. Students are encouraged to develop their own art through constant peer contact in the studios, individual work with faculty tutors, critical seminars focusing on student work, and classes in the theory and history of art. Electives in a range of studio practices broaden student experience and are also required. In addition, many artists, curators, critics and historians are invited to meet with students.

**Art and Art History Faculty**

**Studio**
Drew Beattie, Distinguished Lecturer; MFA Boston Museum School of Fine Arts

Andrea Blum, Professor and Associate Chair for Studio Art; MFA, Art Institute of Chicago

Daniel Bozhkov, Associate Professor; MFA Hunter

Joel Carreiro, Professor; MFA, Hunter

Susan Crile, Professor; BA, Bennington

Lisa Corinne Davis, Professor; MFA, Hunter

Constance De Jong, Distinguished Lecturer; MA Hunter

Valerie Jaudon, Professor; St. Martins School of Art, London

Reiner Leist, Professor; MFA School of Visual Arts

Jeffrey Mongrain, Distinguished Professor; MFA Southern Illinois

Carrie Moyer, Professor and MFA Program Director; MFA Bard

Paul Ramirez Jonas, Associate Professor; MFA, Rhode Island School of Design

Juan Sánchez, Professor; MFA, Rutgers

Nari Ward, Distinguished Professor; MFA, Brooklyn

Thomas Weaver, Professor; MFA, Hunter

Brian Wood, Professor; MA, Hunter

History and Criticism

Nebahat Avcıoğlu, Associate Professor; PhD Cambridge, Art and Architecture of the Islamic World

Emily Braun, Distinguished Professor; PhD, NYU; 20th-century Art

Wen-Shing Chou, Assistant Professor; PhD UC Berkeley, Asian Art

Susanna Cole, Distinguished Lecturer; PhD Columbia, 19th Century European Art

Thierry de Duve, Kossak Professor and Distinguished Lecturer; PhD Ecole des Hautes Etudes en Sciences Sociales, Paris, 19th and 20th Century Art and Theory

Hendrik W. Dey, Professor and Associate Chair for Art History; PhD, Michigan, Ancient Art, Architecture, and Archaeology

Cynthia Hahn, Professor; PhD, Johns Hopkins, Medieval Art

Lynda Klich, Assistant Professor; PhD Institute of Fine Arts, NYU, Latin American Art

Michael Lobel, Professor; PhD Yale, American Art

Maria Loh, Professor; PhD Toronto, Renaissance Art and Theory

Harper Montgomery, Assistant Professor; PhD University of Chicago, Latin American Art
Facilities

The department functions in two main Manhattan locations, the main campus at 68th Street and Lexington Avenue and the MFA Studio Building at 205 Hudson Street in Tribeca. The main campus at 68th Street houses the administration, the Leubsdorf Art Gallery, and the Zahar Art Library with extensive databases including Artstor, a digital source of over one million images in the arts and humanities. It also houses fully equipped workshops on the 11th floor in photography, graphics (printmaking), metal, wood and plaster, as well as a computer lab and painting and drawing studios. The basement of Thomas Hunter Hall, the adjacent building, houses the clay workshop. The MFA Building is a large, unique facility that plays a significant role in the life of the college and, indeed, the city as a whole. It has studio space for up to 150 students and a 5,000 square foot gallery. The building houses a number of workshops and labs including photography, wood, metal, printmaking and ceramics studios, as well as digital audio and video production labs.

Galleries

The Bertha and Karl Leubsdorf Art Gallery, located at the main campus, houses professionally organized exhibits that support the educational programs of the Department of Art & Art History at Hunter College. The gallery at 205 Hudson Street is home to each semester's MFA theses exhibitions and other exhibitions supporting the department's educational mission. Students in both the MA and MFA programs have opportunities to make curatorial and research contributions to shows mounted at the Hunter College Galleries. The Department and its students are also involved with the Artist's Institute, located in a townhouse on East 65th Street, and with the Hunter East Harlem Gallery, on 119th Street and Third Avenue.

Assembly Hall

Hunter North Lobby

The Assembly Hall is Hunter's largest performance venue. With a seating capacity of 2,079, the hall hosts performances by the Hunter College Symphony, concerts, meetings, forums and a variety of other events. Anyone
interested in reserving the Assembly Hall for an event should contact the Office of Central Reservations at (212) 396-6902.

**Auditoriums**

The auditorium at the **Brookdale Center** seats 848. It is used for meetings, lectures, concerts, and dramatic performances. Call Central Reservations for further information (212) 396-6902.

The **Hunter College Assembly Hall** seats 2,171 and is suitable for concerts, lectures, films, commencements, and a variety of programming. For information call (212) 396-6902.

The **Kaye Playhouse** seats 624 and has full stage facilities and an orchestra pit for theatrical and operatic productions, recitals, lectures, chamber music and dance performances. For information, call (212) 772-4471 or visit the website at http://kayeplayhouse.hunter.cuny.edu

The **Ida K. Lang Recital Hall** has 149 seats and is used for a variety of musical performances by Hunter students, faculty, and other artists. The hall is equipped with a multimedia projection system and surround sound. For further information, call (212) 772-4227.

The **Frederick Loewe Theatre**, a variable space which seats up to 100 people, is the production center for the Department of Theatre and for the Hunter Playwrights Project. For further information, contact the theatre department at (212) 772-5149.

The **Harold Lewis Auditorium** at the School of Social Work seats 157. It is suitable for lectures, meetings and a variety of events. For further information, call Central Reservations at (212) 396-6902.

**Autism Research Policy and Practice (HARPP) Center**

The HARPP Center works to support the needs of children in public and private New York City schools, as well as adults who have autism spectrum disorder, by training intervention professionals, conducting and disseminating research, and creating outreach programs that serve a cross section of individuals affected by autism spectrum disorder. The HARPP Center aims to formulate a comprehensive and dedicated effort to support this special and deserving population of NYC children, adults, and their families.

Yujia Xu, Associate Professor, Chemistry, PhD Connecticut, Biophysical Chemistry, Biomaterials

Brian M. Zeglis, Assistant Professor, Chemistry, PhD California Institute of Technology; Radiopharmaceuticals

Biological Sciences Department Description

The Department of Biological Sciences has graduate and post-graduate research programs in molecular and cell biology, cancer biology, molecular and developmental genetics, and molecular neuroscience. Students may obtain the MA from Hunter College and/or the PhD jointly from Hunter College and the City University Graduate Center. The doctoral program is designed to prepare students to cope with the radical changes in direction and experimental approaches that will characterize future developments in biology, as well as to train highly qualified research scientists who are fully equipped to teach and to direct research in a wide variety of university and industry programs in the biological sciences.

Faculty of the department are pursuing projects in the forefront of modern research. In addition to the individual research laboratories, a number of shared facilities are housed in the department. They include transmission and scanning electron microscopes, a sequencing and synthesis facility equipped with a DNA synthesizer, a peptide synthesizer, a gasphase sequencer, DNA sequencer and advanced HPLC and data processing equipment, a bioimaging facility, a fluorescence-activated cell sorter and a biopreparation facility. Several facilities are available through the chemistry department, including X-ray diffraction, NMR, mass spectroscopy and biomolecular computation. Shared modern animal facilities are also available.

The tradition of the University as a sanctuary of academic freedom and center of informed discussion is an honored one, to be guarded vigilantly. The basic significance of that sanctuary lies in the protection of intellectual freedom: the rights of professors to teach, of scholars to engage in the advancement of knowledge, of students to learn and to express their views, free from external pressures or interference. These freedoms can flourish only in an atmosphere of mutual respect, civility, and trust among teachers and students, only when members of the University community are willing to accept self-restraint and reciprocity as the condition upon which they share in its intellectual autonomy.

Academic freedom and the sanctuary of the University campus extend to all who share these aims and responsibilities. They cannot be invoked by those who would subordinate intellectual freedom to political ends, or who violate the norms of conduct established to protect that freedom. Against such offenders the University has the right, and indeed the obligation, to defend itself. We accordingly announce the following rules and regulations to be in effect at each of our colleges which are to be administered in accordance with the requirements of due process as provided in the Bylaws of the Board of Trustees.

With respect to enforcement of these rules and regulations we note that the Bylaws of the Board provide that:

"THE PRESIDENT. The president, with respect to his education unit, shall:

1. Have the affirmative responsibility of conserving and enhancing the educational standards of the college and schools under his jurisdiction;
2. Be the advisor and executive agent of the Board and of his respective College Committee and as such shall have the immediate supervision with full discretionary power in carrying into effect the Bylaws, resolutions, and policies of the Board, the lawful resolutions of any of its committees and the policies, programs, and lawful resolutions of the several faculties;
3. Exercise general superintendence over the concerns, officers, employees, and students of his educational unit."

I. Rules

1. A member of the academic community shall not intentionally obstruct and/or forcibly prevent others from the exercise of their rights. Nor shall he interfere with the institution's educational processes or facilities, or the

rights of those who wish to avail themselves of any of the institution's instructional, personal, administrative, recreational, and community services.

2. Individuals are liable for failure to comply with lawful directions issued by representatives of the University/college when they are acting in their official capacities. Members of the academic community are required to show their identification cards when requested to do so by an official of the college.

3. Unauthorized occupancy of University/college facilities or blocking access to or from such areas is prohibited. Permission from appropriate college authorities must be obtained for removal, relocation, and use of University/college equipment and/or supplies.

4. Theft from, or damage to, University/college premises of property, or theft of or damage to property of any person on University/college premises is prohibited.

5. Each member of the academic community or an invited guest has the right to advocate his position without having to fear abuse, physical, verbal, or otherwise, from others supporting conflicting points of view. Members of the academic community and other persons on the college grounds shall not use language or take actions reasonably likely to provoke or encourage physical violence by demonstrators, those demonstrated against, or spectators.

6. Action may be taken against any and all persons who have no legitimate reason for their presence on any campus within the University/college, or whose presence on any such campus obstructs and/or forcibly prevents others from the exercise of their rights or interferes with the institution's educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution's instructional, personal, administrative, recreational, and community services.

7. Disorderly or indecent conduct on University/college-owned or controlled property is prohibited.

8. No individual shall have in his possession a rifle, shotgun, or firearm or knowingly have in his possession any other dangerous instruments or material that can be used to inflict bodily harm on an individual or damage upon a building or the grounds of the University/college without the written authorization of such educational institution. Nor shall any individual have in his possession any other instrument or material which can be used and is intended to inflict bodily harm on any individual or damage upon a building or the grounds of the University/college.

9. Any action or situation which recklessly or intentionally endangers mental or physical health or involves the forced consumption of liquor or drugs for the purpose of initiation into or affiliation with any organization is prohibited.

10. The unlawful manufacture, distribution, dispensation, possession, or use of illegal drugs or other controlled substances by University students or employees on University/college premises, or as part of any University/college activities is prohibited. Employees of the University must also notify the College Personnel Director of any criminal drug statute conviction for a violation occurring in the workplace not later than five (5) days after such conviction.

11. The unlawful possession, use, or distribution of alcohol by students or employees on University/college premises or as part of any University/college activities is prohibited.

II. Penalties

1. Any student engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to the following range of sanctions as hereafter defined in the attached Appendix: admonition, warning, censure,
disciplinary probation, restitution, suspension, expulsions, ejection, and/or arrest by the civil authorities.

2. Any tenured or non-tenured faculty member, or other member of the instructional staff, or member of the classified staff engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to the following range of penalties: warning, censure, restitution, fine not exceeding those permitted by law or by the Bylaws of The City University of New York or suspension with/without pay pending a hearing before an appropriate college authority, dismissal after a hearing, ejection, and/or arrest by the civil authorities, and, for engaging in any manner in conduct prohibited under substantive Rule 10, may, in the alternative, be required to participate satisfactorily in an appropriately licensed drug treatment or rehabilitation program. A tenured or non-tenured faculty member, or other member of the instructional staff, or member of the classified staff charged with engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be entitled to be treated in accordance with applicable provisions of the Education Law, or the Civil Service Law, or the applicable collective bargaining agreement, or the Bylaws or written policies of The City University of New York.

3. Any visitor, licensee, or invitee engaging in any manner in conduct prohibited under substantive Rules 1-11 shall be subject to ejection and/or arrest by the civil authorities.

4. Any organization which authorized the conduct prohibited under substantive Rules 1-11 shall have its permission to operate on campus rescinded.

Penalties 1-4 shall be in addition to any other penalty provided by law or The City University Trustees.

Appendix

Sanctions Defined:

1. ADMONITION. An oral statement to the offender that he has violated university rules.

2. WARNING. Notice to the offender, orally or in writing, that continuation or repetition of the wrongful conduct, within a period of time stated in the warning, may cause far more severe disciplinary action.

3. CENSURE. Written reprimand for violation of specified regulation, including the possibility of more severe disciplinary sanction in the event of conviction for the violation of any University regulation within a period stated in the letter of reprimand.

4. DISCIPLINARY PROBATION. Exclusion from participation in privileges or extracurricular University activities as set forth in the notice of disciplinary probation for a specified period of time.

5. RESTITUTION. Reimbursement for damage to or misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damages.

6. SUSPENSION. Exclusion from classes and other privileges or activities as set forth in the notice of suspension for a definite period of time.

7. EXPULSION. Termination of student status for an indefinite period. The conditions for readmission, if any is permitted, shall be stated in the order of expulsion.

8. COMPLAINT TO CIVIL AUTHORITIES.

9. EJECTION.
Bookstore

Hunter College is pleased to announce our innovative online and in-store bookstore program with the new Hunter College Online Bookstore, and Shakespeare & Co., the official brick and mortar bookstore for Hunter College through a partnership with Akademos.

Hunter is proud of the important flexibility it provides our students as they determine the best venues from which to attain their textbooks and other academic materials for the lowest cost. Students can purchase or rent books and course materials online from the Hunter College Online Bookstore or in-store from Shakespeare & Co., located at 939 Lexington Avenue across from the Hunter campus.

Brookdale Center for Healthy Aging at Hunter College

2180 3rd Ave @ 119th Street, 8th Floor
New York, NY 10035
(212) 396-7835
http://www.brookdale.org/
Director: Jean Callahan, JD, MSW
jean.callahan@hunter.cuny.edu

Website: http://www.brookdale.org

The Brookdale Center for Healthy Aging improves the lives of older adults through research, policy and professional development.

Founded in 1974, by Dr. Rose Dobroff, the Center quickly took root and flourished. As one of the country’s first academic gerontology centers, Brookdale fostered a generation of professionals and paraprofessionals who serve older adults. With the addition of the Sadin Institute on Law and Public Policy, named for its founder Sam Sadin, Brookdale pioneered the field of elder law, nurturing many of the field’s top legal experts. For over four decades, Brookdale has remained a leader and innovator in an area of human services and public policy that has become increasingly relevant over the years.

Human services professionals, lawyers and other advocates continue to come to Brookdale to expand their knowledge and sharpen their skills. Brookdale trains the majority of public employees in New York State who provide protective services to vulnerable adults; operates an institute specifically for managers and aspiring supervisors; trains lawyers and others in the guardianship process; and runs a rigorous certificate program in geriatric care management – to name just a few examples.

From the Center's location in East Harlem, staff are engaged in developing, implementing and evaluating cutting-edge programs and practices and disseminating those that work – such as daily money management services that protect elderly and disabled adults from financial exploitation and may enable them to remain at home instead of being placed in residential care facilities, and programs that neighborhood senior centers can offer to help people manage chronic health problems and improve their quality of life.
Bursar's Office

The bursar's office collects all tuition and fees in accordance with CUNY policies and procedures set forth by the Federal, State and City Governments.

Method of Payment for Tuition and Fees

Students may pay for tuition and fees by cash, check, or money order in person at the cashier windows; through the mail using a money order or check. All checks and money orders must be made payable to Hunter College in U.S. currency only and mailed to the Bursar's Office, 238N. The college will only accept payments of cash, checks and money orders at the Bursar Office cashier windows. Students can make payments online using an electronic funds transfer from their bank checking/savings account. Effective as of March 13, 2016, all Credit and Debit Card transactions are processed via the University's Payment Plan. The Payment Plan provides students and their families the option of paying their tuition and fees over a period of up to six months. This flexibility enables everyone to reduce the burden of paying all tuition and fees prior to the start of the academic term. This deferred payment plan continues to be an interest free benefit for students and their families.

Effective with the Summer 2016 semester, the Enrollment Fee for the payment plan will be $95 per term. For students and their families who opt for direct withdrawals from their bank accounts, a discount will be provided which will lower the Enrollment Fee to $40 per term.

Additional details concerning payment options are available online at http://www.hunter.cuny.edu/bursar.

Financial Obligations

Students are expected to settle their bill by the college designated due dates. Pursuant to CUNY policy, students who have unsettled bills by the term start date may be subject to cancellation for non-payment. Student accounts that remain unpaid for one semester or more are turned over to the university's collection agency. Students who have a negative service indicator (stop) for unpaid balances will not be permitted to register for classes or obtain a transcript.

ARTICLE XV: STUDENTS

SECTION 15.0 PREAMBLE

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society. Student participation, responsibility, academic freedom, and due process are essential to the operation of the academic enterprise. As members of the academic community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth.

Freedom to learn and to explore major social, political, and economic issues are necessary adjuncts to student academic freedom, as is freedom from discrimination, as set forth in the university's non-discrimination policy.

Freedom to learn and freedom to teach are inseparable facets of academic freedom. The concomitant of this freedom is responsibility. If members of the academic community are to develop positively in their freedom; if these rights are to be secure, then students should exercise their freedom with responsibility.

SECTION 15.1. CONDUCT STANDARD DEFINED

Each student enrolled or in attendance in any college, school or unit under the control of the board and every student organization, association, publication, club or chapter shall obey (1) the laws of the city, state and nation; (2) the bylaws and resolutions of the board, including the rules and regulations for the maintenance of public order pursuant to article 129-a of the education law ("Henderson rules"); and (3) the governance plan, policies, regulations, and orders of the college.

Such laws, bylaws, resolutions, policies, rules, regulations and orders shall, of course, be limited by the right of students to the freedoms of speech, press, assembly and petition as construed by the courts.

SECTION 15.2. STUDENT ORGANIZATIONS

a. Any group of students may form an organization, association, club or chapter by filing with the duly elected student government organization of the college or school at which they are enrolled or in attendance and with an officer to be designated by the chief student affairs officer of the college or school at which they are enrolled or in attendance (1) the name and purposes of the organization, association, club or chapter, (2) the names and addresses of its president and secretary or other officers corresponding in function to president and secretary.

The board recognizes that students have rights to free expression and association. At the same time, the board strongly believes that respect for all members of the university's diverse community is an essential attribute of a great university.

b. Extra-curricular activities at each college or school shall be regulated by the duly elected student government organization to insure the effective conduct of such college or school as an institution of higher learning and for the prevention of activities which are hereafter proscribed or which violate the standards of conduct of the character set forth in bylaw 15.1. Such powers shall include:
1. The power to charter or otherwise authorize teams (excluding intercollegiate athletics), publications, organizations, associations, clubs or chapters, and, when appropriate in the exercise of such regulatory power, the power to refuse, suspend or revoke any charter or other authorization for cause after hearing on notice.

2. The power to delegate responsibility for the effective implementation of its regulatory functions hereunder to any officer or committee which it may appoint.

c. 1. Any person or organization affiliated with the college may file a complaint with the chief student affairs officer if there is reason to believe that a student organization has violated any of the standards of conduct set forth in section 15.1 above. The chief student affairs officer shall promptly notify the affected organization, investigate any complaint and report the results of that investigation along with a recommendation for appropriate action to the complainant and the student government which shall take action as it deems appropriate, except that in the case of a complaint against the student government itself, the chief student affairs officer shall report the results of the investigation and the recommendation for appropriate action directly to the president.

2. The complainant or any student organization adversely affected by the action of the student government pursuant to subparagraph c (1) above may appeal to the president. The president may take such action as he or she deems appropriate and such action shall be final.

d. Each college shall establish a student elections review committee in consultation with the various student governments. The student elections review committee shall approve the election procedures and certify the results of elections for student governments, and student body referenda. Decisions of the student elections review committee may be appealed to the college president, whose decision shall be final. An appeal from the decision of the student elections review committee must be made in writing to the President within ten (10) calendar days of the decision. The President shall consult with the student elections review committee and render a decision as expeditiously as possible which may affirm, reverse, or modify the decision of the student elections review committee.

e. Student government elections shall be scheduled and conducted, and newly elected student governments shall take office, in accordance with policies of the board, and implementing regulations.

SECTION 15.3. THE UNIVERSITY STUDENT SENATE

There shall be a university student senate responsible, subject to the board of trustees, for the formulation of university-wide student policy relating to the academic status, role, rights and freedoms of the student. The authority and duties of the university student senate shall not extend to areas of interest which fall exclusively within the domain of the student governments of the constituent units of the university. Consistent with the authority of the board of trustees in accordance with the education law and the bylaws of the board of trustees, the university student senate shall make its own bylaws providing for the election of its own officers, the establishment of its own rules and procedures, for its internal administration and for such other matters as is necessary for its existence. The university student senate shall have the full rights and responsibilities accorded student organizations as provided in these bylaws. The delegates and alternate delegates to the university student senate shall be elected by their respective constituencies, or by their student governments from the elected members of the respective student governments.

SECTION 15.4. STUDENT DISCIPLINARY PROCEDURES

Complaint Procedures:

a. A University student, employee, visitor, organization or department who/which believes she/he/it is the victim of a student's misconduct (hereinafter "complainant") may make a charge, accusation, or allegation against a student (hereinafter "respondent") which if proved, may subject the respondent to disciplinary action. Such charge, accusation, or allegation must be communicated to the chief student affairs officer of the college the respondent attends.

b. The chief student affairs officer of the college or her or his designee shall conduct a preliminary investigation in order to determine whether disciplinary charges should be preferred. The chief student affairs officer or her or his designee shall advise the respondent of the allegation against her or him, explain to the respondent and the complainant their rights, consult with other parties who may be involved or who have information regarding the incident, and review
other relevant evidence. The preliminary investigation shall be concluded within thirty (30) calendar days of the filing of the complaint, unless: (i) said complaint involves two or more complainants or respondents; or (ii) said complaint involves a matter that is also under investigation by law enforcement authorities. In those cases, the preliminary investigation shall be completed within sixty (60) calendar days. Further, if the matter has been previously investigated pursuant to the Board of Trustees Policy on Sexual Misconduct, the chief student affairs officer shall dispense with a preliminary investigation and rely on the report completed by the Title IX Coordinator. Following the completion of the preliminary investigation, the chief student affairs officer or designee shall take one of the following actions:

(i) Dismiss the matter if there is no basis for the allegation(s) or the allegation(s) does not warrant disciplinary action. The individuals involved shall be notified that the complaint has been dismissed;

(ii) Refer the matter to mediation (except in cases involving allegations of sexual assault, stalking or other forms of sexual violence); or

(iii) Prefer formal disciplinary charges.

c. In the event that a respondent withdraws from the college after a charge, accusation or allegation against a respondent has been made, and the college prefers formal disciplinary charges, the respondent is required to participate in the disciplinary hearing or otherwise to resolve the pending charges and shall be barred from attending any other unit of the university until a decision on the charges is made or the charges are otherwise resolved. If the respondent fails to appear the college may proceed with the disciplinary hearing in absentia, and any decision and sanction shall be binding.

Mediation Conference:

d. The college may offer the respondent and the complainant the opportunity to participate in a mediation conference prior to the time the disciplinary hearing takes place in an effort to resolve the matter by mutual agreement (except in cases involving sexual assault, stalking and other forms of sexual violence). The conference shall be conducted by a qualified staff or faculty member designated by the chief student affairs officer. The following procedures shall be in effect at this conference:

1. An effort shall be made to resolve the matter by mutual agreement.

2. If an agreement is reached, the faculty or staff member conducting the conference shall report her/his recommendation to the chief student affairs officer for approval and, if approved, the complainant and the respondent shall be notified, and a written memorandum shall be created memorializing the resolution and any consequences for non-compliance.

3. If no agreement is reached within a reasonable time, or if the respondent fails to appear, the faculty or staff member conducting the conference shall refer the matter back to the chief student affairs officer who may prefer disciplinary charges.

4. The faculty or staff member conducting the mediation conference is precluded from testifying at a college hearing regarding information received during the mediation conference, or presenting the case on behalf of the college.

Notice of Hearing and Charges, and Pre-Hearing Document Inspection:

e. Notice of the charge(s) and of the time and place of the hearing shall be personally delivered to the respondent, or sent by certified or overnight mail and email to the respondent's CUNY-assigned email address. Notice shall also be sent in a similar manner to the complainant to the extent the charges relate to her/him/it. The chief student affairs officer is also encouraged to send the notice of charges to any other e-mail address that he or she may have for the respondent and the complainant. The hearing shall be scheduled within a reasonable time following the filing of the charges or the mediation conference. Notice of at least seven (7) calendar days shall be given to the respondent in advance of the hearing unless the respondent consents to an earlier hearing. The respondent is permitted one (1) adjournment as of right. Additional requests for an adjournment must be made at least five (5) calendar days prior to the hearing date, and shall be granted or denied at the discretion of the chairperson of the faculty-student disciplinary
committee. If the respondent fails to respond to the notice, appear on the adjourned date, or request an extension, the college may proceed in absentia, and any decision and sanction shall be binding.

f. The notice shall contain the following:

1. A complete and itemized statement of the charge(s) being brought against the respondent including the rule, bylaw or regulation she/he is charged with violating, and the possible penalties for such violation.

2. A statement that the respondent and the complainant have the right to attend and participate fully in the hearing including the right:
   - to present their side of the story;
   - to present witnesses and evidence on their behalf;
   - to cross-examine witnesses presenting evidence;
   - to remain silent without assumption of guilt; and
   - to be represented by an advisor or legal counsel at their expense; if the respondent or the complainant request it, the college shall assist in finding a legal counsel or advisor.

3. A warning that anything the respondent says may be used against her/him at a non-college hearing.

4. At least five (5) calendar days prior to the commencement of a student disciplinary hearing, the college shall provide the respondent and the complainant and/or their designated representative, with similar and timely access to review any documents or other tangible evidence that the college intends to use at the disciplinary hearing, consistent with the restrictions imposed by Family Education Rights and Privacy Act ("FERPA"). Should the college seek to introduce additional documents or other tangible evidence during, or some time prior to, the disciplinary hearing, the respondent and the complainant shall be afforded the opportunity to review the additional documents or tangible evidence. If during the hearing the respondent submits documentary evidence, the chairperson may, at the request of either the college or the complainant, direct the respondent to produce such other documents as may be necessary in the interest of fairness.

Emergency Suspension:

g. The president or her/his designee may in emergency or extraordinary circumstances, temporarily suspend a student pending an early hearing as provided in this bylaw section 15.4. to take place within not more than twelve (12) calendar days, unless the student requests an adjournment. Such suspension shall be for conduct which impedes, obstructs, impairs or interferes with the orderly and continuous administration and operation of any college, school, or unit of the university in the use of its facilities or in the achievement of its purposes as an educational institution. Prior to the commencement of a temporary suspension of a student, the college shall give the student oral notice (which shall be confirmed via email to the address appearing on the records of the college) or written notice of the charges against her/him and, if she/he denies them, the college shall forthwith give the student an informal oral explanation of the evidence supporting the charges and the student may present informally her/his explanation or theory of the matter. When a student's presence poses a continuing danger to person or property or an ongoing threat of disrupting the academic process, notice and opportunity for denial and explanation may follow suspension, but shall be given as soon as feasible thereafter. The complainant shall be notified in the event that an emergency suspension is imposed against a student, and/or when the suspension is subsequently lifted to the extent that the suspension involves the complainant in the same manner notice is given to the student.

Faculty-Student Disciplinary Committee Structure:

h. Each faculty-student disciplinary committee shall consist of two (2) faculty members or one (1) faculty member and one (1) member of the Higher Education Officer series (HEO), and two (2) student members and a chairperson, who shall be a faculty member. A quorum shall consist of the chairperson and any two (2) members, one of whom must be a student. Hearings shall be scheduled promptly (including during the summers) at a convenient time and efforts shall be made to insure full student and faculty representation.
i. The president shall select in consultation with the head of the appropriate campus governance body or where the president is the head of the governance body, its executive committee, three (3) members of the faculty of that college to receive training and to serve in rotation as chairperson of the disciplinary committee. The following schools shall be required to select two (2) chairpersons: CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism. If none of the chairpersons appointed from the campus can serve, the president, at her/his discretion, may request that a chairperson be selected by lottery from the entire group of chairpersons appointed by other colleges. The chairperson shall preside at all meetings of the faculty-student disciplinary committee and decide and make all rulings for the committee. She/he shall not be a voting member of the committee but shall vote in the event of a tie.

j. The faculty members shall be selected by lot from a panel of six (6) elected biennially by the appropriate faculty body from among the persons having faculty rank or faculty status. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) faculty members. The HEO members shall be selected by lot from a panel of six (6) HEO appointed biennially by the president. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) HEO's. The student members shall be selected by lot from a panel of six (6) elected annually in an election in which all students registered at the college shall be eligible to vote. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) students. In the event that the student or faculty panel or both are not elected, or if more panel members are needed, the president shall have the duty to select the panel or panels which have not been elected. No individuals on the panel shall serve on the panel for more than four (4) consecutive years. Notwithstanding the above, in cases of sexual assault, stalking and other forms of sexual violence, the president shall designate one (1) chairperson, two (2) faculty/HEO members, and two (2) students, who shall be specially trained, and who shall constitute the faculty-student disciplinary committee in all such cases.

k. In the event that the chairperson cannot continue, the president shall appoint another chairperson. In the event that a seat becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the respective faculty, HEO, or student panel by lottery.

l. Each academic year, the chief student affairs officer, and her or his designee, shall appoint/identify one or more college employees to serve as presenters for the hearings. This list shall be forwarded to the Office of the Vice Chancellor for Student Affairs, and the Office of the General Counsel and Sr. Vice Chancellor for Legal Affairs prior to the first day of the academic year.

m. Persons who are to be participants in the hearings as witnesses or have been involved in preferring the charges or who may participate in the appeals procedures or any other person having a direct interest in the outcome of the hearing shall be disqualified from serving on the committee.

Faculty-Student Disciplinary Committee Procedures:

n. The following procedures shall apply at the hearing before the faculty-student disciplinary committee:

1. The chairperson shall preside at the hearing. The chairperson shall inform the respondent of the charges, the hearing procedures and her or his rights.

2. All faculty student disciplinary committee hearings are closed hearings, but the respondent has the right to request an open public hearing. However, the chairperson has the right to deny the request and hold a closed hearing when an open public hearing would adversely affect and be disruptive to the committee's normal operations, or when the complainant in a case involving allegations of sexual assault, stalking, or other forms of sexual violence requests a closed hearing. In the event of an open hearing, the respondent must sign a written waiver acknowledging that those present will hear the evidence introduced at the hearing.

3. After informing the respondent of the charges, the hearing procedures, and her or his rights, the chairperson shall ask the respondent to respond. If the respondent admits the conduct charged, the respondent shall be given an opportunity to explain her/his actions before the committee and the college shall be given an opportunity to respond and present evidence regarding the appropriate penalty. If the respondent denies the conduct charged, the college shall present its
case. At the conclusion of the college's case, the respondent may move to dismiss the charges. If the motion is denied by the committee, the respondent shall be given an opportunity to present her or his defense.

4. Prior to accepting testimony at the hearing, the chairperson shall rule on any motions questioning the impartiality of any committee member or the adequacy of the notice of the charge(s). Subsequent thereto, the chairperson may rule on the admissibility of the evidence and may exclude irrelevant, unreliable or unduly repetitive evidence. In addition, if either party wishes to question the impartiality of a committee member on the basis of evidence which was not previously available at the inception of the hearing, the chairperson may rule on such a motion. The chairperson shall exclude from the hearing room all persons who are to appear as witnesses, except the respondent and the complainant.

5. The college shall make a record of each fact-finding hearing by some means such as a stenographic transcript, an audio recording or the equivalent. The college must assign a staff member for each hearing, with the sole responsibility of ensuring that the hearing is recorded in its entirety. No other recording of the proceedings may be permitted. A respondent who has been found to have committed the conduct charged after a hearing is entitled upon request to a copy of such a record without cost upon the condition that it is not to be disseminated except to the respondent's representative or attorney. In the event of an appeal, both the respondent and the complainant are entitled upon request to a copy of such a record without cost, upon the condition that it is not to be disseminated except to their representatives or attorneys.

6. The college bears the burden of proving the charge(s) by a preponderance of the evidence.

7. The role of the faculty-student disciplinary committee is to listen to the testimony, ask questions of the witnesses, review the testimony and evidence presented at the hearing and the papers filed by the parties and render a determination. In the event the respondent is found to have committed the conduct charged, the committee shall then determine the penalty to be imposed.

8. The college, the respondent and the complainant are permitted to have lawyers or other representatives act on their behalf during the pendency of a disciplinary action, which shall include the calling and examining of witnesses, and presenting other evidence. Any party intending to appear with an attorney shall give the other party 5 (five) calendar days' notice of such representation.

9. The chairperson of the faculty-student disciplinary committee retains discretion to limit the number of witnesses and the time of testimony for the presentations by any party and/or their representative.

10. In the event that the respondent is charged with a sexual assault, stalking or other forms of sexual violence, neither the respondent nor the complainant shall be permitted to cross-examine the other directly. Rather, if they wish to, the respondent and the complainant may cross-examine each other only through a representative. If either or both of them do not have a representative, the college shall work with them to find a representative to conduct such cross-examination. In the alternative, either party may provide written questions to the chairperson to be posed to the witness.

11. At the end of the presentations, the respondent and the complainant may introduce individual character references. The college may introduce a copy of the respondent's previous disciplinary record, including records from any CUNY institution the respondent has attended, where applicable, provided the respondent was shown a copy of the record prior to the commencement of the hearing. The previous disciplinary record shall be submitted to the committee in a sealed envelope, bearing the respondent's signature across the seal, and shall only be opened if the respondent has been found to have committed the conduct charged. The previous disciplinary records, as well as documents and character evidence introduced by the respondent, the complainant, and the college shall be opened and used by the committee for dispositional purposes, i.e., to determine an appropriate penalty if the charges are sustained.

12. The committee shall deliberate in closed session. The committee shall issue a written decision, which shall be based solely on the testimony and evidence presented at the hearing and the papers filed by the parties.

13. The respondent shall be sent a copy of the faculty-student disciplinary committee's decision within seven (7) calendar days of the conclusion of the hearing, by regular mail and e-mail to the address appearing on the records of the college. In cases involving two or more complainants or respondents, the respondent shall be sent a copy of faculty-student disciplinary committee's decision within fourteen (14) calendar days of the conclusion of the hearing. The chief
student affairs officer is also encouraged to send the decision to any other e-mail address that he or she may have for the respondent. The decision shall be final subject to any appeal. In cases involving a crime of violence or a non-
forcible sex offense, as set forth in FERPA, the complainant shall simultaneously receive notice of the outcome of the faculty-student disciplinary committee's decision as it relates to the offense(s) committed against the complainant, in the same manner as notice is given to the respondent.

14. When a disciplinary hearing results in a penalty of dismissal or suspension for one term or more, the decision is a university-wide penalty and the respondent shall be barred from admission to, or attendance at, any other unit of the university while the penalty is being served.

15. Disciplinary penalties shall be placed on a respondent's transcript unless a mediation agreement, the committee's decision, or the decision on any appeal under section 15.4(o) below, expressly indicate otherwise. For all undergraduate students, a penalty other than suspension or expulsion shall be removed from the respondent's transcript upon the request of the respondent after at least four (4) years have elapsed since the penalty was completed, unless the respondent has been found to have committed a subsequent violation pursuant to this Article. The chief student affairs officer shall be responsible for having any penalty removed from a student's transcript as provided above.

Appeals:

o. A respondent or a complainant may appeal a decision of the faculty-student disciplinary committee to the president on the following grounds: (i) procedural error, (ii) newly discovered evidence that was not reasonably available at the time of the hearing, or (iii) the disproportionate nature of the penalty. The president may remand for a new hearing or may modify the penalty either by decreasing it (on an appeal by the respondent) or increasing it (on an appeal by the complainant). If the president is a party to the dispute, her/his functions with respect to an appeal shall be discharged by an official of the university to be appointed by the chancellor or her or his designee. If the penalty after appeal to the president is one of dismissal or suspension for one term or more, a respondent or a complainant may appeal to the board committee on student affairs and special programs. The board may dispose of the appeal in the same manner as the president.

p. An appeal under this section shall be made in writing within fifteen (15) calendar days after the delivery of the decision appealed from. This requirement may be waived in a particular case for good cause by the president or the board committee as the case may be. Within three (3) calendar days of the receipt of any appeal, either to the president or the board committee on student affairs and special programs, the appealing party shall be sent a written notice of the other party's appeal. In addition, the respondent and/or the complainant shall have the opportunity to submit a written opposition to the other party's appeal within fifteen (15) calendar days of the delivery of the notice of receipt of such appeal.

q. The president shall decide and issue a decision within fifteen (15) calendar days of receiving the appeal or within fifteen (15) calendar days of receiving papers in opposition to the appeal, whichever is longer. The board committee shall decide and issue a decision within five (5) calendar days of the meeting at which it hears the appeal. SECTION 15.5. ACTION BY THE BOARD OF TRUSTEES

Notwithstanding the foregoing provisions of this article, the board of trustees reserves full power to suspend or take other appropriate action against a student or a student organization for conduct which impedes, obstructs, or interferes with the orderly and continuous administration and operation of any college, school, or units of the university in the use of its facilities or in the achievement of its purposes as an educational institution in accordance with procedures established by the board of trustees.

SECTION 15.6. COLLEGE GOVERNANCE PLANS

The provisions in a duly adopted college governance plan shall not be inconsistent with the provisions contained in this article.

Adopted by the CUNY Board of Trustees

November 28, 2011
Section 16.1 Student Activity Fee

The student activity fee is the total of the fees for student government and other student activities. Student activity fees, including student government fees collected by a college of the university shall be deposited in a college central depository and, except where earmarked by the board, allocated by a college association budget committee subject to review by the college association as required in these bylaws.

Section 16.2 Use of Student Activity Fees — Expenditure Categories

Student activity fee funds shall be allocated and expended only for the following purposes:

1. Extracurricular educational programs
2. Cultural and social activities
3. Recreational and athletic programs
4. Student government
5. Publications and other media
6. Assistance to registered student organizations
7. Community service programs
8. Enhancement of the college and university environment
9. Transportation, administration and insurance related to the implementation of these activities
10. Student services to supplement or add to those provided by the university
11. Stipends to student leaders.

Section 16.3 Student Government Fee

The student government fee is that portion of the student activity fee levied by resolution of the board which has been established for the support of student government activities. The existing student government fees now in effect shall continue until changed. Student government fees shall be allocated by the duly elected student government, or each student government where more than one duly elected student government exists, for its own use and for the use of student organizations, as specified in section 15.2. of these bylaws, provided, however, that the allocation is based on a budget approved by the duly elected student government after notice and hearing, subject to the review of the college association.

Where more than one duly elected student government exists, the college association shall apportion the student government fees to each student government in direct proportion to the amount collected from members of each student government.[JA3]

Section 16.4 Student Government Activity Denied

A student government activity is any activity operated by and for the students enrolled at any unit of the university provided, (1) such activity is for the direct benefit of students enrolled at the college, (2) that participation in the activity and the benefit thereof is available to all students enrolled in the unit or student government thereof, and (3) that the activity does not contravene the laws of the city, state or nation, or the published rules, regulations, and orders of the university or the duly established college authorities.

Section 16.5. College Association

1. The college association shall have responsibility for the supervision and review over college student activity fee supported budgets. All budgets of college student activity fees, except where earmarked by the board to be allocated by another body, should be developed by a college association budget committee and recommended to the college association for review by the college association prior to expenditure. The college association shall review all college student activity fee, including student government fee allocations and expenditures for conformance with the expenditure categories defined in Section 16.2. of this article and the college association shall disapprove any allocation or expenditure it finds does not so conform, or is inappropriate, improper, or inequitable.
2. A college association shall be considered approved for purposes of this article if it consists of thirteen (13) members, its governing documents are approved by the college president and the following requirements are met:

- The governing board of the college association is composed of:
  - The college president or his/her designee as chair.
  - Three administrative members appointed by the college president.
  - Three faculty members appointed by the college president from a panel whose size is twice the number of seats to be filled and the panel is elected by the appropriate college faculty governance body.
  - Six student members comprised of the student government president(s) and other elected students with the student seats allocated on a basis which will provide representation to each government, where more than one exists, as nearly as practicable in proportion to the student activity fees provided by the students from the respective constituencies.

- The college association structure provides a budget committee composed of members of the governing board, at least a majority of whom are students selected in accordance with section 16.5.(b) (1)(iv) of these bylaws. The budget committee shall be empowered to receive and review student activity fee budget requests and to develop a budget subject to the review of the college association. The college association may choose to not approve the budget or portions of the budget if in their opinion such items are inappropriate, improper, or inequitable. The budget shall be returned to the budget committee with the specific concerns of the college association noted for further deliberation by the budget committee and subsequent resubmittal to the college association. If the budget is not approved within thirty (30) days those portions of the budget voted upon and approved by the college association board will be allocated. The remainder shall be held until the college association and the budget committee agree.

- The governing documents of the college association have been reviewed by the board's general counsel and approved by the board.

**Section 16.6 Management and Disbursement of Funds**

The college and all student activity fee allocating bodies shall employ generally accepted accounting and investment procedures in the management of all funds. All funds for the support of student activities are to be disbursed only in accordance with approved budgets and be based on written documentation. A requisition for disbursement of funds must contain two signatures; one, the signature of a person with responsibility for the program; the other, the signature of an approved representative of the allocating body.

**Section 16.7 Revenues**

All revenues generated by student activities funded through student activity fees shall be placed in a college central depository subject to the control of the allocating body. The application of such revenues to the account of the income generating organization shall require the specific authorization of the allocating body.

**Section 16.8 Fiscal Accountability Handbook**

The chancellor or his/her designee shall promulgate regulations in a fiscal accountability handbook, to regulate all aspects of the collection, deposit, financial disclosure, accounting procedures, financial payments, documentation, contracts, travel vouchers, investments and surpluses of student activity fees and all other procedural and documentary aspects necessary, as determined by the chancellor or his/her designee to protect the integrity and accountability of all student activity fee funds.

**Section 16.9 College Purposes Fund**

A college purposes fund may be established at each college and shall be allocated by the college president. This fund may have up to twenty-five (25) percent of the unearmarked portion of the student activity fee earmarked to it by resolution of the board, upon the presentation to the board of a list of activities that may be properly funded by student activity fees that are deemed essential by the college president.
Expenditures from the college purposes fund shall be subject to full disclosure under section 16.13. of these bylaws.

Referenda of the student body with respect to the use and amount of the college purposes fund shall be permitted under the procedures and requirements of section 16.12. of these bylaws.

Section 16.10 Auxiliary Enterprise Board

1. The auxiliary enterprise board shall have responsibility for the oversight, supervision and review over college auxiliary enterprises. All budgets of auxiliary enterprise funds and all contracts for auxiliary enterprises shall be developed by the auxiliary enterprise budget and contract committee and reviewed by the auxiliary enterprise board prior to expenditure or execution.

2. The auxiliary enterprise board shall be considered approved for the purposes of this article if it consists of at least eleven (11) members, its governing documents are approved by the college president and the following requirements are met:
   - The governing board is composed of the college president or his/her designee as chair, plus an equal number of students and the combined total of faculty and administrative members.
   - The administrative members are appointed by the college president.
   - The faculty members are appointed by the college president from a panel whose size is twice the number of seats to be filled and the panel is elected by the appropriate college faculty governance body.
   - The student members are the student government president(s) and other elected students and the student seats are allocated on a basis which will provide representation to each government, where more than one exists, as nearly as practicable, in proportion to the student enrollment by headcount from the respective constituencies.
   - The auxiliary enterprise board structure provides for a budget and contract committee composed of a combined total of faculty and administrative members that is one more than the number of student members. The budget and contract committee shall be empowered to develop all contract and budget allocation proposals subject to the review and approval of the auxiliary enterprise board.
   - The governing documents of the auxiliary enterprise board have been reviewed by the board's general counsel and approved by the board.

Section 16.11 The Review Authority of College Presidents Overt Student Activity Fee Allocating Bodies and Auxiliary Enterprise Boards

1. The president of the college shall have the authority to disapprove any student activity fee, including student government fee, or auxiliary enterprise allocation or expenditure, which in his or her opinion contravenes the laws of the city, state, or nation or any bylaw or policy of the university or any policy, regulation, or order of the college. If the college president chooses to disapprove an allocation or expenditure, he or she shall consult with the general counsel and vice chancellor for legal affairs and thereafter communicate his/her decision to the allocating body or auxiliary enterprise board.

2. The president of the college shall have the authority to suspend and send back for further review any student activity fee, including student government fee, allocation or expenditure which in his or her opinion is not within the expenditure categories defined in section 16.2. of this article. The college association shall, within ten (10) days of receiving a proposed allocation or expenditure for further review, study it and make a recommendation to the president with respect to it. The college president shall thereafter consider the recommendation, shall consult with the general counsel and vice chancellor for legal affairs, and thereafter communicate his/her final decision to the allocating body as to whether the allocation or expenditure is disapproved.

3. The chancellor or his/her designee shall have the same review authority with respect to university student activity fees that the college president has with respect to college student activity fees.

4. All disapprovals exercised under this section shall be filed with the general counsel and vice chancellor for legal affairs.

5. Recipients of extramural student activity fees shall present an annual report to the chancellor for the appropriate board committee detailing the activities, benefits and finances of the extramural body as they pertain to the colleges where students are paying an extramural fee.

Section 16.12 Referenda
A referendum proposing changes in the student activity fee shall be initiated by a petition of at least ten (10) percent of the appropriate student body and voted upon in conjunction with student government elections.

1. Where a referendum seeks to earmark student activity fees for a specific purpose or organization without changing the total student activity fee, the results of the referendum shall be sent to the college association for implementation.

2. Where a referendum seeks to earmark student activity fees for a specific purpose or organization by changing the total student activity fee, the results of such referendum shall be sent to the board by the president of the college together with his/her recommendation.

3. At the initiation of a petition of at least ten (10) percent of the appropriate student body, the college president may schedule a student referendum at a convenient time other than in conjunction with student government elections.

4. Where the referendum seeks to affect the use or amount of student activity fees in the college purposes fund, the results of the referendum shall be sent to the board by the college president together with his/her recommendation.

Section 16.13 Disclosure

1. The college president shall be responsible for the full disclosure to each of the student governments of the college of all financial information with respect to student activity fees.

2. The student governments shall be responsible for the full disclosure to their constituents of all financial information with respect to student government fees.

3. The student activity fee allocating bodies shall be responsible for the full disclosure of all financial information to its membership, to the college and to the student governments with respect to all of its activities.

4. The auxiliary enterprise board shall be responsible for the full disclosure of all financial information to its membership, to the college and to the student governments with respect to auxiliary enterprises.

5. For purposes of the foregoing paragraphs, full disclosure shall mean the presentation each semester of written financial statements which shall include, but need not be limited to, the source of all fee income by constituency, income from other sources creditable to student activity fee accounts, disbursements, transfers, past reserves, surplus accounts, contingency and stabilization funds. Certified independent audits performed by a public auditing firm shall be conducted at least once each year.

Section 16.14 Stipends

The payment of stipends to student leaders is permitted only within those time limits and amounts authorized by the board.

Career Development Services

Career Development Services located in 805 East Building, offers Hunter College students and alumni a wide variety of resources and services. Career Counselors are available by appointment to assist with choosing or changing a career, resume and cover letter writing, job search strategies, and interviewing skills. The office develops and maintains relationships with employers in a wide variety of fields and career fairs are held twice a year. Many resources such as the resume builder, OptimalResume, the online job data base, ORION, and the schedule of workshops and career fairs can be accessed through the website http://www.hunter.cuny.edu/studentservices/cds. For more information contact the office at 212 772 4850 or career@hunter.cuny.edu.

CCPD Description

Return to Urban Affairs and Planning
The Center for Community Planning & Development (CCPD) promotes knowledge, applied research, and innovative practice in community planning and development throughout the New York metropolitan region. It provides technical assistance and training through partnerships with community-based organizations, non-profit corporations, and local agencies. The CCPD is committed to democratic, inclusive, and participatory approaches to planning and development that foster sustainability and economic and social justice. The Center is a venue for community/university partnerships where community members, students, and academics learn and benefit from each other. Center projects have addressed affordable housing, community economic development, healthy communities, workforce development, immigration, environmental justice, and other issues of concern to communities in the New York region.

Center for Basic and Translational Research

Program Office: Room 315 Hunter North
http://genecenter.hunter.cuny.edu

The Center for Basic and Translational Research was established in 1985 (Gene Center). The Center is a consortium of 53 researchers from the fields of biology, biological anthropology, chemistry, nanotechnology urban public health, social work, biophysics and psychology who investigate a broad spectrum of exciting areas in biomedical research. The Gene Center is primarily supported by a major grant award from the Research Centers in Minority Institutions (RCMI) Program of the National Center for Research Resources (NCRR), an agency of the National Institutes of Health (NIH). It is an active partner in the RCMI Translational Research Network (RTRN). Additional support is provided by the Center's strategic partnership in the Clinical Translational Science Center (CTSC) of the Weill Cornell Medical College. The City University of New York and Hunter College provide institutional support.

Areas of investigation at the Center include:

- Addiction research
- Behavioral psychology
- Bioinformatics
- Biophysics
- Biological anthropology
- Biomolecular theory
- Biopsychology
- Drug design and synthesis
- Drug protein interaction with nucleic acids
- Gene expression and signal transduction
- Genomics
- Immunology
- Molecular immunology
- Post-traumatic Stress Disorder
- Structural biology
- Neurobiology and biopsychology
- Nanotechnology for medical therapeutics

The Center supports state-of-the-art core research facilities, in the following areas:

- Animal Care (AAALAC accredited)
- Digital Bioimaging with Confocal Microscopy
- Fluorescence Activated Cell Sorting (FACS)
- Internet2 and Video collaboration with Remote Instrumentation
- Network
- Nuclear Magnetic Resonance (NMR)
• X-ray Diffraction

Gene Center researchers have produced several significant findings in areas including cancer biology, neurobiology, nanotechnology, structural biology, biopsychology, drug addiction and AIDS. Its scientists have won national recognition, such as the Ameritech Prize for Paralysis Research the Presidential Award for Research and the Presidential Award for Mentoring for their outstanding contributions. The Gene Center commits to recruiting outstanding faculty, postdoctoral research associates and graduate students. It sponsors special national efforts to identify and promote the development of minorities underrepresented as scientists through participation of faculty in many nationally funded science research programs and through the JustGarciaHill science web site for the professional development of minorities in science. It also nurtures future biomedical researchers through its Summer Program for Undergraduate Research and through complementary activates such as its widely viewed web site on study skills for budding scientists.

The Gene Center supports a vibrant research environment by organizing and funding professional development initiatives, technology workshops, special seminars, colloquia, and a well-recognized annual international symposium, which has enjoyed 24 years of success.

The Gene Center is a key partner in the CTSC, an enterprise the Weill Cornell Medical College leads. Other partners include, Memorial Sloan Kettering Cancer Center, the Hospital for Special Surgery, the Hunter College School of Nursing and the Cornell University Cooperative Extension in New York City. The CTSC, established in 2007, focuses on accelerating advanced research from the laboratory into state of the art patient care (“bench to bedside”) and on improving health outcomes in the community. The Gene Center stimulates collaborations among its members and with scientists at these and other internationally recognized institutions. In conjunction with the CTSC it offers qualified predoctoral fellows the opportunity to pursue a certificate in Clinical Translational Research from Weill Cornell Medical College culminating in a doctorate from Hunter/CUNY with a certificate or Masters in Clinical Investigation from Weill Cornell Medical College.

Center for Communication Disorders

The Hunter College Center for Communication Disorders (Speech-Language-Hearing Clinic) is located at the Brookdale Health Sciences Campus, 425 East 25 St., Room 133 North. The Center is an integral part of the Communication Sciences Program. The Center provides diagnostic and therapeutic services for a wide variety of language, speech, voice, fluency, swallowing, hearing, communication modality, and social communication disorders. Audiological services include complete audiological evaluations, auditory processing disorder testing, and auditory brainstem response assessment with state of the art instrumentation. Services are available to the Hunter College community as well as the general public. Appointments can be made by calling (212) 481-4464.

Center for Gifted Studies and Education

The mission of the Hunter College Center for Gifted Studies and Education is to support and empower gifted students, their teachers, and their families by playing a leading role in research, teacher training, and the development of new curricula, programs, and policies.

Change of Degree Program

A matriculated student who wishes to change from one graduate curriculum to another is required to file formal application for admission and submit an application fee of $125.00 to the Office of Admissions. The application must be filed by the appropriate deadline for the individual program. Please consult the application for specific deadlines.
Change of Degree Program and Courses Outside Degree Program

Change of Degree Program

A matriculated student who wishes to change from one graduate curriculum to another is required to file formal application for admission and submit an application fee of $125.00 to the Office of Graduate Admissions. The application must be filed by the appropriate deadline for the individual program. Please consult the application for specific deadlines.

Courses Outside the Degree Program

It is the responsibility of the graduate adviser to see that matriculated students do not register for any graduate courses outside their program without written permission of the graduate adviser or coordinator of the program in which they are matriculated.

Change of Name or Address

If you are changing your name, address, or ID number, you must submit a "change of name, address or ID" form. Forms are available on the One Stop web page at www.hunter.cuny.edu/onestop. See Forms. Forms are submitted at the One Stop, Room 217 North Building during posted office hours. Students may change their own address online at their CUNYfirst account at www.cuny.edu. In the case of a change of address, the post office should be notified to forward the mail to their new address.

Changing Programs

Matriculated students in a graduate degree program in the School of Education must formally apply through the Office of Admissions if they wish to change programs. Students wishing to change from one track (subplan) in their program to another must complete a change of major form, available in 1000 West Building and on our website: http://www.hunter.cuny.edu/education.

Chemistry Department Description

The Department of Chemistry offers a range of graduate educational opportunities with strengths in both the fundamental areas of the discipline and in emerging fields and applications. Students may obtain the PhD degree from Hunter College jointly with the City University of New York (CUNY) Graduate Center with concentrations in: Analytical Chemistry, Inorganic Chemistry, Organic Chemistry, Physical Chemistry, Biophysical Chemistry, Biochemistry, Nano-technology and Materials Chemistry and Environmental Chemistry. In any subdiscipline, PhD students can opt for an interdisciplinary radiochemistry component that is funded by a National Science Foundation Integrative Graduate Education and Research Training (NSF-IGERT) program. Additionally, students may also obtain the MA degree in Biochemistry jointly offered by the Department of Chemistry and the Department of Biology from Hunter College, or an MA in education jointly offered by the Department of Chemistry and the School of Education of Hunter College. Graduate level courses are offered at Hunter College and in the CUNY Graduate Center. Master's programs can be completed as a full or part–time student, with or without a research thesis. Most graduate courses are offered in the evening to facilitate enrollment of part–time students.

A major goal of our graduate programs is to train research scientists to create new knowledge that impacts both fundamental scientific principles and addresses societal needs. The continuing success and future development of most areas in academic, industrial, and government institutions will increasingly depend on a well-trained science workforce for innovation, planning, and policy. The vibrant and well-funded research labs of our faculty in the Department of Chemistry at Hunter College provide the essential part of research training of the graduate programs. Students in Ph.D. program are expected to start their independent research at the end of the first year of study, and to complete their thesis on an original research subject under the supervision of our faculty. Students can also opt to pursue an independent pedagogical research project as part of their thesis research. The research activities are further supported by an array of shared facilities and the state-of-art instruments including the NMR facility, the X-ray crystallography and electron microscope facility and the Mass-spectrometry facility. Other facilities and instruments are available in the Department of Biosciences and in the NIH funded Hunter Gene center.

**Spiro D. Alexandratos**, Professor, Chemistry, PhD California at Berkeley; Polymer Chemistry, Member of Doctoral Faculty Chemistry

**Adam Braunschweig**, Associate Professor, Chemistry, PhD California at Los Angeles; Organic Chemistry, Nanoscience, Materials Chemistry, Member of Doctoral Faculty Chemistry and Biochemistry

**Charles M. Drain**, Professor and Chair, Chemistry; PhD Tufts; Supramolecular Photonics, Nanomaterials, Phototherapeutics, Member of Doctoral Faculty Chemistry and Biochemistry

**Lynn Francesconi**, Professor, Chemistry, PhD Illinois at Urbana-Champaign; Inorganic Chemistry, Radiochemistry, Member of Doctoral Faculty Chemistry

**Dixie J. Goss**, Gertrude B. Elion Professor, Chemistry, PhD Nebraska, Biophysical Chemistry, Member of Doctoral Faculty Chemistry, Biochemistry and Biology

**Nancy L. Greenbaum**, Professor, Chemistry, PhD Pennsylvania; Biochemistry, Member of Doctoral Faculty Chemistry and Biochemistry

**Wayne W. Harding**, Associate Professor, Chemistry, PhD University of the West Indies, Mona; Medicinal Chemistry, Organic Chemistry, Member of Doctoral Faculty Chemistry

**Mandë Holford**, Associate Professor, Chemistry, PhD Rockefeller; Chemical Biology, Member of Doctoral Faculty Chemistry, Biochemistry and Biology

**Akira Kawamura**, Associate Professor, Chemistry, PhD Columbia; Bioorganic Chemistry, Genomics, Natural Products, Member of Doctoral Faculty Chemistry and Biochemistry

**Frida Kleiman**, Professor, Chemistry, PhD National University of Córdoba, (Argentina); Biochemistry, Cancer Research, Member of Doctoral Faculty Chemistry, Biochemistry and Biology

**Mateusz Marianski**, Assistant Professor, Chemistry, PhD CUNY; Computational & Theoretical Chemistry, Member of Doctoral Faculty Chemistry

**Louis J. Massa**, Professor, Chemistry; PhD Georgetown; Computational & Theoretical Chemistry, Member of Doctoral Faculty Chemistry

**Hiroshi Matsui**, Professor, Chemistry; PhD Purdue; Bionanotechnology, Nanotechnology, Biomaterials, Member of Doctoral Faculty Chemistry and Biochemistry

**David R. Mootoo**, Professor, Chemistry; PhD Maryland; Organic Chemistry, Member of Doctoral Faculty Chemistry

**Jennifer Shusterman**, Assistant Professor, Chemistry, Ph.D. California at Berkeley; Radiochemistry, Member of Doctoral Faculty Chemistry

**Rein Ulijn**, Professor, Chemistry, PhD University of Strathclyde (UK); Molecular Systems, Bionanotechnology, Biocatalysis, Adaptive Materials, Member of Doctoral Faculty Chemistry and Biochemistry

**Yujia Xu**, Associate Professor, Chemistry, PhD Connecticut; Biophysical Chemistry, Biomaterials, Member of Doctoral Faculty Chemistry and Biochemistry

**Brian M. Zeglis**, Assistant Professor, Chemistry, PhD California Institute of Technology; Radiopharmaceuticals, Member of Doctoral Faculty Chemistry
Chemistry Major II

Liberal Arts and Sciences Major Requirements

24 -27 credits of chemistry plus 27 credits of biology, math and physics.

Chemistry Major II

Foundational Courses

Foundational Courses include courses in chemistry and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

In the case of the Chemistry Major II, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Courses</th>
<th>CUNY Common Core</th>
<th>Foundational or Major</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 12500</td>
<td>Math &amp; Quantitive Reasoning</td>

General Chemistry Core:

One year of General Chemistry Lecture and Laboratory

- CHEM 10200 (STEM) - General Chemistry I
- CHEM 10400 (STEM) - General Chemistry II
- CHEM 10600 (STEM) - General Chemistry Laboratory or its equivalent
  -or-
  - CHEM 11100 (STEM) - Chemical Principles
Option 1:

For students interested in a career in the chemical industry. It consists of a minimum of 28 credits in chemistry above the introductory level and an 11-credit general chemistry core for a minimum total of 39 credits of chemistry. One year of physics and three semesters of calculus are also required.

Required chemistry courses:

- CHEM 22200 - Organic Chemistry Lecture I
- CHEM 22300 - Organic Chemistry Laboratory I
- CHEM 22400 - Organic Chemistry Lecture II
- CHEM 22500 - Organic Chemistry Laboratory II
- CHEM 24900 - Quantitative Analysis
- CHEM 35200 - Physical Chemistry I
- CHEM 35400 - Physical Chemistry II - F -or- CHEM 35600 - Physical Chemistry II - S
- CHEM 35500 - Physical Chemistry Laboratory I
- CHEM 35700 - Physical Chemistry Laboratory II

Required elective course:

- Any chemistry course at the 300 level or above excluding CHEM 49101

Required allied courses:

- MATH 15000 (STEM) - Calculus with Analytic Geometry I
- MATH 15500 (STEM) - Calculus with Analytic Geometry II
- MATH 25000 - Calculus with Analytic Geometry III
- PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound
- PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Childhood, Early Childhood and Bilingual Education Programs

- Bilingual Education Extension: Pupil Personnel Services - Advanced Certificate
- Bilingual Education Extension: NYS Teachers - Advanced Certificate
- Childhood Education Grades 1-6 - MEd
- Childhood Education with a Specialization in Science, Technology, Engineering and Mathematics (STEM) Professional Certificate- MEd
- Bilingual Childhood Education, Grades 1-6 - MEd
- Early Childhood Education: Additional NYS Certification - Advanced Certificate
- Bilingual Early Childhood Education, Birth-Grade 2 - MEd
- Early Childhood Education, Birth through Grade 2 - MEd
- Elementary Mathematics Specialist Professional Certificate - MEd

Classical and Oriental Languages

Classical and Oriental Studies

Overview

The Department of Classical and Oriental Studies offers graduate programs in Latin and Chinese.

The Chinese Language and Literature program offers language courses in Modern Chinese (Mandarin) and Classical Chinese as well as courses taught in English on traditional and modern Chinese literature and culture.
The Latin program is offered with the Classical and Oriental Studies Department and is designed to serve individuals who do not have certification in the teaching of Latin. The applicant must be admitted by both the School of Education and the Classical and Oriental Studies Department.

**What can I do with my degree in Classical and Oriental Studies?**

The master's degree program (Academic Plan: CHINA-E-MA) prepares candidates to teach Chinese in grades 7-12 to students of diverse backgrounds, abilities and interests. This program is not designed for individuals who already have NYS certification in Chinese 7-12.

The Latin master's and advanced certificate programs prepare candidates to teach Latin in grades 7-12 to students of diverse backgrounds, abilities and interests. This program is not designed for individuals who already have NYS certification in Latin 7-12.

HEGIS Codes: Chinese Language and Literature: 1107 Classics: 1109 (Latin)

Chinese

**CHIN 70100 - Chinese Phonology and Romanization**

This course will introduce Chinese phonetics, phonology, and the major sound transcription systems commonly used in teaching Chinese as a foreign language and found in Chinese dictionaries. Emphasis will be on acquiring accurate tones and standard pronunciation for English-speaking learners as well as learners who speak a Chinese dialect at home.

*Hours 3*  
*Credits 3*

**CHIN 70200 - Modern Chinese Pedagogical Grammar**

This course will introduce the grammatical system of modern Mandarin Chinese, including the characteristics of grammatical morphemes, word order, and sentence and discourse structures. The content will highlight difficulties for native speakers of English and helping them to overcome these difficulties effectively. The course will discuss pedagogical issues concerning grammar instruction such as how it differs from syntax; what grammar points need to be taught at each level; and the methods of teaching grammar.

*Hours 3*  
*Credits 3*
CHIN 70300 - Chinese Orthography and Lexicology

This course will give an overview of the development of Chinese orthography and Chinese lexicology. Differences between the spoken and written styles will be discussed. The relationship of formation methods of the Chinese lexicon to syntactic functions and the process of character-based meaning derivation will be emphasized.

Hours 3  
Credits 3

CHIN 70500 - Topics in Advanced Conversation

This course will give students advanced language training in speaking in a wide range of topics as well as specialized vocabulary needed to discuss Chinese instruction in Chinese. Students will further practice speaking skills to achieve advanced-mid or advanced-high oral proficiency according to the ACTFL (American Council for Teachers of Foreign Languages) scale. Authentic materials will be used throughout the course.

Hours 3  
Credits 3

CHIN 70600 - Topics in Advanced Writing

This course will give students advanced language training in writing Chinese in everyday life situations as well as a Chinese language teaching professional with writing samples. Students will further practice writing skills to achieve advanced-low proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3  
Credits 3

CHIN 70700 - Topics in Advanced Reading

This course will give students advanced language training in reading Chinese. Students will further practice reading skills to achieve advanced-mid or advanced-high proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3  
Credits 3

CHIN 70800 - Topics in Chinese Culture and Society

This course will give students advanced language training in topics related to Chinese culture and society. Students will learn topics concerning Chinese culture and society in traditional and contemporary China. Authentic writing tasks and materials will be used throughout the course.

Hours 3  
Credits 3
CHIN 70900 - Independent Study

Students will carry out an independent project approved by their faculty advisor and chairperson and supervised by a staff member.

Credits 1-3

Classics

CLA 70100 - The Legacy of Ancient Greece

A survey of Greek culture and civilization from the second millennium BCE to the rise of Alexander.

Hours 45 hrs, including conferences,
Credits 3 cr
See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70200 - The Legacy of Ancient Rome

A survey of the culture and civilization of Rome from the founding of the city to the reign of Marcus Aurelius.

Hours 45 hrs, including conferences,
Credits 3 cr
See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70600 - Supervised Reading

Independent reading on a particular aspect of ancient Greek or Roman culture, supervised by a faculty member.

Prior approval of graduate adviser required. May be taken twice for credit.

CLA 70700 - A Survey of Classical Literature in Translation

Education: Latin Education

LATED 71200 - Methods 1: Classroom Organization, Management, and Assessment of Instruction in Latin

Familiarizes prospective teachers of grades 7–12 with classroom organization patterns, rules and routines appropriate to the teaching of Latin. Close work with the design and evaluation of classroom lessons and materials in the context of national and state standards will be emphasized.

prereq: completion of 18 credits of graduate Latin courses
prereq or coreq: SEDF 70400
**LATED 71300 - Methods 2: Teaching for Diverse Learners in Latin**

Familiarizes prospective teachers of grades 7–12 with pedagogical approaches for teaching a diverse body of learners, in light of national and state standards, in part by utilizing aspects of diversity in the ancient world. Innovative uses of technology, development of instructional units, individualizing for students with special needs, exploring aspects for a student-centered classroom will be emphasized.

*prereq: LATED 71200*
*prereq or coreq: SEDF 70500*
*Hours 2 hrs plus 36 hrs fieldwork, Credits 2*

**LATED 73100 - Student Teaching in Latin, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program.

*prereq: LATED 71300*
*Hours 2 hrs, 60 days student teaching plus workshops and conferences, Credits 5 cr*

**LATED 74110 - Practicum in Latin, Grades 7-9**

Supervised practicum in the teaching of Latin in grades 7–9. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take LATED 74110 must also take LATED 74120.

*prereq: LATED 71300*
*Hours 2 hrs plus conferences, Credits 2 cr*

**LATED 74120 - Practicum in Latin, Grades 10-12**

Supervised practicum in the teaching of Latin in grades 10–12. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to reregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat this course and may not continue in the program. Students who take LATED 74120 must also take LATED 74110.
prereq: LATED 71300
Hours 2 hrs plus conferences,
Credits 2 cr

Latin

LAT 70100 - Literature of the Early Republic

Early history of the Latin language and the development of Latin literary forms and styles.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70200 - Literature of the Late Republic

Selections from authors of the late republic.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70300 - Literature of the Early Empire

Selections from authors of the early empire.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70400 - Literature of the Late Empire

Selections from authors of the late empire.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70500 - Caesar

Selections from the Commentaries on the Civil War and Commentaries on the Gallic War.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70600 - Cicero

Selections from the orations, philosophical treatises, and letters of Cicero.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70700 - Vergil
Selections from the Aeneid, Eclogues, and Georgics.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

**LAT 70800 - Supervised Reading**

Independent reading in individual Roman authors or particular literary genres supervised by a faculty member.

Prior approval of graduate director required. May be taken three times for credit. See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

**LAT 71000 - Topics in Latin literature.**

May be taken three times for credit.

**LAT 71100 - Literature of the Republic**

Selection from poetry and prose authors of the Latin language and the development of literary forms and styles.

**LAT 71200 - Literature of the Augustan Age**

Selections from poetry and prose authors of the Augustan period.

**LAT 71300 - Literature of the Empire**

Selections from poetry and prose authors of the Imperial period.

**LAT 72500 - Ovid**

Selections from the *Metamorphoses* and *Amores*.

**LAT 72600 - Horace and Catullus**

Selections.

**LAT 72700 - Speaking and Writing Latin**

Development of aural/oral and written skills, including traditional Latin Composition, history of the language, and analysis of Latin grammar and syntax.

Collaborative Leadership Advancing School Success

The Collaborative Leadership Advancing School Success (CLASS) program, offered in partnership with New Visions for Public Schools, is a unique school leadership certification program grounded in clinical experiences designed to illuminate the relationship between student learning and systems within a school.

College Governance

Hunter College has several governing assemblies, most of which provide for student participation.
The Hunter College Senate

Room 1018 Hunter East

The Hunter College Senate, chartered in 1970, is the principal governance body of the college and the only such body that holds a Governance Charter with the CUNY Board of Trustees. The Senate has authority to determine college policy in matters related to:

1. Curriculum
2. Academic requirements and standards
3. Instruction and the evaluation of teaching
4. College development, including master plan
5. Computing and technology

Representatives of the faculty, student body and administration constitute the voting membership of the Senate and serve for a term of two years. The elected officers of the Senate include the chairperson, vice-chairperson, secretary and the chairperson of the Evening Council, who constitute the Senate Administrative Committee. There are 18 standing committees and a varying number of special and ad-hoc committees. These committees accomplish much of the work of the Senate. Reports and Resolutions from these committees are discussed and voted on at Senate meetings. Membership on committees is representative and open to all faculty and students by election of the full Senate from a slate recommended by the Nominating Committee and by member nominations from the Senate floor.

Regular meetings of the Senate are planned for two hours and are held twice a month. Additional monthly meetings may be called as needed.

Election of faculty and student membership to the Senate occurs during the spring semester.

Faculty members and students are encouraged to become involved in the meetings of the Hunter College Senate and its committees.

Further information may be obtained by visiting the Senate Office.

The Faculty Delegate Assembly

Room 1414 Hunter East

All Hunter faculty, full and part-time, are members of the Faculty Delegate Assembly, which serves to address faculty concerns regarding teaching, research, and the quality of professional life at Hunter and CUNY. We provide a forum for free and open consideration of significant issues at monthly general meetings. Each academic department in the college elects two members to attend these events, which are also open to all other members and usually include invited speakers from both inside and outside of the college. The FDA also hosts a coffee service in the faculty lounge at the 68th Street campus on most afternoons, organizes social events each semester, publishes a newsletter, The Faculty Voice, and is responsible for periodic updates of the Faculty Handbook.

The Student Governments

Undergraduate Room 121 Hunter North

Graduate Room 218 Thomas Hunter

These elected student groups have an essential role in the life of the college by allocating the Student Activity Fee, as well as facilitating the chartering of student organizations. All of the elected officers serve as student representatives on
campus-wide committees concerning matters of college policy. A few are Senators in the Hunter College Senate, while others are elected to serve as delegates and alternates at the University Student Senate (USS) meetings.

The objective of these student officers is to lead by example in fostering diversity and supporting the exchange of peaceful dialogue among the varied constituents on Hunter's many campuses.

**Hunter College Ombudsman**

Room 1016 Hunter East

The ombudsman is empowered by the Hunter College Governance Charter to investigate complaints and grievances by any member of the college community (student, faculty, staff, or administration) about a problem or condition in the college. When requested and where possible, the anonymity of a complainant will be protected and names will not be used in any reports the ombudsman may make.

When someone feels unfairly treated or unjustly disadvantaged, the ombudsman can advise the person of the available appeals procedures, recommend corrective action to be taken by the appropriate college officers, or recommend changes in college procedures or regulations that would eliminate such injustices in the future.

The ombudsman may be reached at (212) 772-4203.

**Faculty Personnel and Budget Committee (FP&B)**

Composed of the president, the provost and the chairs of departments, FP&B is concerned with appointment, reappointment, promotion and other faculty personnel matters.

**Departmental Committees**

Each department has bylaws approved by the Senate. These bylaws provide for a number of committees, most of which are open to student members. Further information is available in the appropriate departmental office.

**College Name**

The official name of the college, which must be used in correspondence and on application forms for employment, admission to graduate school and transfer to other institutions, is "Hunter College of The City University of New York." Merely referring to "The City University of New York" or "CUNY" will result in the correspondence or application being sent to the Board of Trustees, thereby causing delay in processing.

**Competency Examinations**

**The Graduate Record Examination:** The general aptitude test of the Graduate Record Examination (GRE) is required of most applicants to the School of Arts and Sciences, the School of Education and the School of Health Professions. See specific program descriptions regarding this requirement. It is not required for the School of Nursing.

Applicants should write directly to:
Graduate Record Examination, Educational Testing Service
Box 6000, Princeton, NJ 08541-6000
(609) 771-7670
http://www.gre.org
for full information and arrangements to take the test. The GRE should be taken no later than February for fall admission and September for spring admission. The Hunter College institution code is 2301.

The Test of English as a Foreign Language (TOEFL)* is required of all applicants whose native language is not English and/or who have taken all or part of their post-secondary education in a country where English is not the native language. Such applicants, regardless of country of citizenship or U.S. permanent resident status, must take this examination. Depending on the program selected, an applicant may also be required to take the TWE (Test of Written English) and the TSE (Test of Spoken English), also administered by the Educational Testing Service.

Applicants should plan to take these examination(s) at least nine months before their intended date of enrollment. Information about TOEFL, TWE, and TSE can be obtained by writing to TOEFL Bulletins, P.O. Box 6151, Princeton, NJ 08541-6151-(609) 771-7100-http://www.toefl.org. The Hunter College institution code is 2301.

Computer Science Faculty

Return to Computer Science

Debroy, Saptarshi, Assistant Professor; PhD, Central Florida; Cyber-security, big data networking, distributed and cloud computing, wireless networking.

Epstein, Susan L., Professor; PhD, Rutgers; Problem solving, machine learning, cognitive modeling, knowledge representation, constraint satisfaction programming, bioinformatics.

Khatchadourian, Raffi, Assistant Professor; PhD, Ohio State; Software engineering and software security, formal methods, automated software evolution, static and dynamic program analysis.

Mmeimneh, Saad, Assistant Professor; PhD, Massachusetts Institute of Technology; Fast network switches, optical routing, graph problems, and computational biology.

Sakas, William G., Associate Professor and Chair; PhD, CUNY Graduate Center; Cognitive science, computational models of language acquisition, computational linguistics.

Schaffer, Cullen, Associate Professor; PhD, Rutgers; Computation-intensive approaches to data analysis.

Schweitzer, Eric, Lecturer; MA, SUNY at Stonybrook; Theory of computation, logics of knowledge and probabilistic reasoning.

Shankar, Subash, Associate Professor; PhD, Minnesota; Software engineering, formal methods, automated reasoning, system modeling, analysis and verification.

Stamos, Ioannis, Associate Professor; PhD, Columbia; Computer vision and computer graphics, range sensing, 3-D modeling; range segmentation, sensor fusion, range-range and range-image registration.

Weiss, Stewart N., Associate Professor; PhD, NYU; Software testing, analysis verification, reliability theory, parallel architecture and computing.

Vazquez-Abad, Felisa, Professor; PhD, Brown; Stochastic optimization, modeling and simulation of random processes, statistical estimation of sensitivity for discrete event systems, applied probability, applications of decision making.

Xie, Lei, Associate Professor; PhD, Rutgers; Computational techniques to study the structure, function, dynamic, and evolution of molecular interactions. Bridging the basic sciences with clinical research.
Xu, Jia, Assistant Professor; PhD, Technical University of Aachen (Germany); Computational linguistics, natural language processing, artificial intelligence, machine translation, machine learning.

Zamfirescu, Christina, Professor; PhD, Technical University of Aachen (Germany); Graph theory, algorithms on graphs, transformation networks, discrete mathematics, intersection digraphs, evaluating complexity in chemical topology using graph theory.

Concentration in English: Preparation for Secondary School Teaching (39 cr)

Liberal Arts and Sciences Major Requirements

Completion of the BA degree: Concentration in English: Preparation for Secondary School Teaching (39 cr)

The concentration in English: Preparation for Secondary School Teaching is designed to prepare students to teach English in grades 7-12 by providing a foundation in British, American, and Multi-Ethnic literatures, as well as writing and language studies. Students choosing this concentration take ENGL 252 Introduction to Literary Studies, 18 credits of required literature courses, 6 credits of required writing courses, a 3-credit language course, and three electives chosen from among 300- and 400-level courses offered by the Department, with the option to choose one of their three electives from a menu of courses in other departments and programs. When taken together with the requirements for the Secondary Education minor of the School of Education, this program meets initial certification requirements for New York State and New York City public schools. Students interested in the Education minor must apply to the School of Education for admission. Students who do not wish to pursue certification need not take the Secondary Education minor. Eligible English: Preparation for Secondary School Teaching majors may pursue English Departmental Honors by taking ENGL 49400 Honors Seminar.

Note: The English Department strongly recommends that students take at least one modern or contemporary literature course.

Foundational Courses

Foundational Courses include courses in English and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

B.A. in English: Concentration in English: Preparation for Secondary School Teaching

A. Introduction to Literary Studies (3 cr)
ENGL 25200 - Introduction to Literary Studies

B. Six Required Literature Courses (18 cr)
1. Three Required Courses (9 cr)
ENGL 30300 - Western Literary Backgrounds of British and American Literature
ENGL 30600 - Literary Theory (W)
ENGL 33800 - Survey of British Literature I: Early Texts To the Eighteenth Century
2. One course chosen from the following (3 cr):
ENGL 35200 - Shakespeare Survey
   -or-
ENGL 35300 - Shakespeare I
   -or-
ENGL 35400 - Shakespeare II
3. One course chosen from the following (3 cr):
ENGL 39500 - Survey of American Literature: Origins to the Civil War (W)
   -or-
ENGL 39600 - American Prose from Reconstruction to World War I
   -or-
ENGL 39700 - Pre-20th Century American Poetry
4. One course chosen from the following (3 cr.)
ENGL 32000 - Multi-Ethnic American Literature (W)
   -or-
ENGL 32500 - Post-Colonial Literature in English (W)

C. Required Writing Courses (6 cr)
1. Theory and Practice of Expository Writing (3 cr)
ENGL 30100 - Theory and Practice of Expository Writing

2. One course chosen from the following (3 cr.)
ENGL 30000 - Introduction to Creative Writing
-or-
ENGL 34100 - Rhetorical Principles of Expository Writing

D. Required Language Course (3 cr)
ENGL 33100 - The Structure of Modern English

E. Three Electives (9 cr)

Students may choose from among 300- or 400-level English courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). It is strongly recommended that students consider choosing either a Modern/Contemporary Literature, Linguistics, Rhetoric, or Writing course to fulfill one of the Elective requirements.

All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 342.51 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.

Note: To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English advisor and must meet all the prerequisites for the course.

**Counseling & Wellness Services**

1123 East (212) 772-4931
hunter.cuny.edu/studentservices/pcs

Counseling Services offers free and confidential assessment and short-term counseling to enrolled Hunter College students. Professional counselors assist students with personal and emotional difficulties that may interfere with academic progress and success. Additional services include crisis intervention and referrals to community agencies and resources. Counselors are also available to provide consultation services to the entire Hunter College community.

Wellness Services maintains two divisions: Health Services and Health Promotion & Education.

- Health Services is responsible for processing student immunization records, and also offers a variety of preventative health screens and access to health-related resources. In addition, Health Services distributes physical activity cards (PAC) required for use in all recreation programs and facilities. **307 Hunter North (212)-772-4800.**
- Health Promotion & Education aims to enhance and advance the health and wellness of students in support of personal and academic success. Health Educators conduct outreach to educate students about health-related topics and the relationship between mental health and wellbeing and academic functioning and success, equip students with knowledge and skills to make informed and proactive decisions regarding their health, and assist in developing healthy lifestyle habits. **307 Hunter North (212)-772-4909**
Counseling Programs

- School Counseling - MSEd
- Mental Health Counseling - MSEd
- Rehabilitation Counseling - MSEd

Course Equivalency

Students who have taken or plan to take graduate-level courses at another college may, with written approval, apply those courses to their program in two ways: Transfer of Credit or Permit Credit.

Courses

The candidate must have registered for and attended courses totaling the number of credits specified for the individual program. Courses other than those in the department of specialization may be credited toward the degree only with the approval of the graduate adviser. Waiver of course(s) does not release the student from the total number of credits required for the degree. Full-time graduate students may enroll for no more than 18 credits in any one semester.

Courses in Biological Sciences

Biological Sciences

OVERVIEW

The Department of Biological Sciences has graduate and post-graduate research programs in molecular and cell biology, cancer biology, molecular and developmental genetics, and molecular neuroscience. Students may obtain the MA from Hunter College and/or the PhD jointly from Hunter College and the City University Graduate Center. The doctoral program is designed to prepare students to cope with the radical changes in direction and experimental approaches that will characterize future developments in biology, as well as to train highly qualified research scientists who are fully equipped to teach and to direct research in a wide variety of university and industry programs in the biological sciences.

Faculty of the department are pursuing projects in the forefront of modern research. In addition to the individual research laboratories, a number of shared facilities are housed in the department. They include transmission and scanning electron microscopes, a bioinformatics and sequencing facility equipped with an Illumina MiSeq and Oxford Nanopore Minion sequencers, an Agilent Electrophoresis Bioanalyzer and a Galaxy Web accessible Bioinformatics Platform all supported by a high performance computing cluster, a bioimaging facility, a fluorescence-activated cell sorter and a biopreparation facility. Several facilities are available through the chemistry department, including X-ray diffraction, NMR, mass spectroscopy and biomolecular computation. Shared modern animal facilities are also available.

What can I do with my degree in Biological Sciences?

A degree in the Biological Sciences opens up many career pathways. Biology graduates go on to complete graduate (MS, PhD, or MD/PhD) and professional degrees (MD, DO, DDS, DVM, OD, PharmD, etc), work in the biotech industry, education, in wildlife management, as a government scientist, or in a variety of other rewarding careers. The biotechnology and pharmaceutical industries are among the largest in the U.S. and there is great demand for
professionals with biotechnology expertise. Graduates are prepared for careers in research science positions, regulation of drug approval and other biotechnology applications, management positions in the biotechnology industry, and positions at law firms in the biotechnology area.

Biological Sciences Faculty

HEGIS Codes: 0401 (BA) (MA); 0499 (BA/MA in Biotechnology); 1223.01/0401 (BS/MA in Biotechnology)

**BIOL U89910 - Independent Doctoral Research**

*prereq: permission from graduate adviser*

**BIOL U89910 - Independent Doctoral Research**

*prereq: permission from graduate adviser*  
*Hours each 15 to 150 hrs,*  
*Credits 1 to 10 cr*  
*(Course listed in the schedule of classes at the CUNY Graduate Center)*

**BIOL 790xx - Special Topics Courses**
Seminar in Immunology, Cancer Research, Signal Transduction, Bioinformatics, Neurobiology, etc.

Credits 3

**BIOL 60000 - Molecular Biology for Science Teachers**

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes, and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism.

*prereq: An undergraduate degree in Biology and a course in Organic Chemistry and permission of instructor.
Fall only*

**BIOL 60210 - Molecular Genetics for Science Teachers**

A comparison of viral, procaryotic, and eucaryotic systems; review of classical Mendelian principles and mechanisms; bacterial DNA replication, transcription, and their control; mechanisms of gene mutation, repair, recombination, and transposition; applications of recombinant DNA technology; organization of nucleic acid into chromosomes; control of gene expression in procaryotes, in the eucaryotic cell cycle, and in cell development.

*prereq: BIOL 60000 or equivalent and permission of instructor
Spring only*

**BIOL 60400 - Biology Education 1**

This course is designed to provide instructors of high school biology with graduate-level biological content knowledge and a sound pedagogical approach to teaching. The goal of this course is to train secondary science educators to understand basic principles in the life sciences and prepare them to teach the Living Environment for middle-school and high-school students. This course curriculum focuses on basic cellular and molecular concepts in biology.

*prereq or coreq: BA degree in Biology/Biology Education, or permission of instructor
Hours 3 hrs
Credits 3 cr.*

**BIOL 60500 - Biology Education 2**

This course is designed to dive deep into selected topics in ecology and evolution in a pedagogical content knowledge framework. Using a blend of online and in-person activities, the course guides participants through a series of content area exercises that can be translated to the middle-school or high-school classroom. The vision for the class is to provide in-depth instruction on ecology and evolution while developing best practices for instruction.

*prereq or coreq: BA degree in Biology/Biology Education, or permission of instructor
Hours 3 hrs
Credits 3 cr.*

**BIOL 61000 - Workshop in Biotechnology**

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the
isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

**prereq: BIOL 71000 or permission of instructor**

**Hours** 30 hrs/wk for 4 wks,

**Credits** 4 cr

**BIOL 61055 - Laboratory Workshop in Biology Education**

A series of laboratory-intensive experimental projects, each lasting one week or more, which introduce current research techniques and include individual participation in planning, preparation, and analysis of experiments. The focus is on broad biotechnology topics such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics, and how these topics may be applied to the high school science classroom.

**prereq: a graduate course in biology or permission of instructor**

**Hours** 120 hrs,

**Credits** 3 cr

**BIOL 62000 - Internship**

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

**prereq: BIOL 61000**

**Credits** 3 months, 4 cr

**BIOL 63000 - Science and Society**

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

**prereq: BIOL 61055 or permission of instructor**

**BIOL 64000 - Biodiversity and Evolution**

This course is designed to prepare secondary science educators to examine essential questions in the life sciences and prepare them to teach the Living Environment regents course for ninth grade high school students and eighth grade middle school students, through the use of resources at the American Museum of Natural History.

**prereq: BA degree in Biology/Biology Education, or permission of instructor**

**Hours** 2 hrs

**Credits** 2 cr.

**Offered summer at the American Museum of Natural History**

**BIOL 65000 - Cell and Tissue Culture**

**BIOL 66000 - Challenging Concepts in the Biological Sciences**

Overview of research and theory related to misconceptions in biology. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The
article will serve as the culminating project for the science portion of the MA.

*prereq: BIOL 61055, BIOL 63000, and one elective course or permission of instructor
Hours 4 hrs,
Credits 4 cr

**BIOL 70005 - Genetics**

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

*prereq: undergraduate genetics and molecular biology (or biochemistry)
Hours 60 lec,
Credits 4 cr
fall only

**BIOL 71013 - Molecular Biology Lecture**

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

*prereq: 1 yr of organic chemistry
Hours 75 hrs,
Credits 5 cr
fall only

**BIOL 71014 - Molecular Biology Laboratory**

Isolation of RNA and DNA, construction and screening of DNA libraries, Southern and Northern blot analysis, cloning, DNA sequencing.

*coreq: BIOL 71013 or comparable course in biochemistry
Hours 105 hrs lab and conf,
Credits 4 cr
Fall only

**BIOL 71401 - Cell Biology**

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

*prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
spring only

**BIOL 72202 - Endocrinology**

**BIOL 75003 - Developmental Biology**
Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401  
Hours 60 lec,  
Credits 4 cr  
Spring only

**BIOL 77006 - Laboratory in Cell Structure**

Applications of light and confocal microscopy, using fluorescence and multidimensional imaging to study cell structures. Lab projects involve immunofluorescence: fixation methods and immunocytochemistry. Illumination methods including multi-channel 3D rendering, image processing and visualization software.

*Hours 7 (2 lecture, 5 lab)*  
*Credits 4.5*

**BIOL 77008 - Laboratory in Cell Structure -- Biological Electron Microscopy**

The students will learn basic concepts of transmission electron microscope, principles of biological sample preparation for transmission electron microscopy, various electron microscopy applications, to be familiar with the morphology of different organelles inside the mammalian cell, and understand the functions of each organelle.

*prereq: Permission of instructor*  
*Hours 7 hrs (1 lecture + 6 lab)*  
*Credits 4 cr.*

**BIOL 77100 - Special Topics in Experimental Biology**

This course was designed to further the understanding of a broad range of topics in biology. This is an interactive lecture course where students are initially taught the tools of experimental biology. Students are then taught how to use those tools to study any subject matter (e.g., cancer, neurobiology, molecular biology). Students are then taught how to use those tools. Students are required to design experiments during discussion periods and critically assess the negative and positive outcomes of an experimental design. Master's-degree students seeking to pursue further graduate studies will greatly benefit and are highly encouraged to enroll. This course will also be complementary to pre-candidacy doctoral students that wish to design experiments towards their doctoral theses. In this regard, our course will help students pass the level I exam given to students at the end of a BA/MA or MA degree.

*prereq: Department permission*  
*Hours 3 hrs*  
*Credits 3 cr.*  
*Accepted for credit towards a Master's in Biology.*

**BIOL 77101 - Analysis of Mammalian Cells in Tissue Culture**

**BIOL 79049 - Computational Molecular Biology**

An introduction to bioinformatics theories and practices. Topics include database searching, sequence alignment, molecular phylogenetics, structure predication, and microarray analysis. The course is held in a UNIX-based
instructional lab specifically configured for bioinformatics applications. Each session consists of instruction on bioinformatics theories and hands-on exercises.

This course is designed for upper-level undergraduates and graduate students. Prior experiences in the UNIX Operating System and at least one programming language are required.

**prereq:** CSCL132 (Practical Unix and Perl Programming) and BIOL 300 (Biochemistry), or permission by the instructor.

**spring only**

**BIOL 79051 - Neuroscience I**

Given at CUNY Graduate Center. Comprehensive introduction to neuroscience with regard to structure and function at the cellular level.

*fall only Students must register for Neuroscience I at City College of CUNY.*

**BIOL 79051 - Seminar**

Seminars may be offered in any of the following areas: cell biology, genetics, biochemistry, molecular genetics, physiology, developmental biology, neuroscience, biotechnology, and other special topics.

**prereq:** BIOL 70005 and BIOL 71013

*Fall and Spring*

**BIOL 79070 - Neuroscience II**

Given at CUNY Graduate Center. Introduction to sensory and motor systems and to neural behavioral development.

*spring only*

**BIOL 79073 - Seminar Topics in Biotechnology**

Seminar course entitled "From the Bench to the Clinic," which includes the molecular basis for diseases such as specific cancers and neurodegenerative disorders and current trends in their treatment.

*Hours 45  Credits 3*

**BIOL 79099 - Seminar**

Seminars may be offered in any of the following areas: cell biology, genetics, biochemistry, molecular genetics, physiology, developmental biology, neuroscience, biotechnology, and other special topics.

**prereq:** BIOL 70005 and BIOL 71014
BIOL 79202 - Tutorial

prereq: permission of graduate adviser
Hours 30 or 60 hrs,
Credits 2 or 4 cr

BIOL 79204 - Tutorial

prereq: permission of graduate adviser
Hours 30 or 60 hrs,
Credits 2 or 4 cr

BIOL 79910 - Thesis Research-MA

prereq: permission of graduate adviser
Hours 15, 30, or 45 hrs,
Credits 1, 2, or 3 cr, respectively

BIOL 79920 - Thesis Research-MA

prereq: perm grad adviser
Hours 15, 30, or 45 hrs,
Credits 1, 2, or 3 cr, respectively

BIOL 79930 - Thesis Research-MA

prereq: permission of graduate adviser
Hours 15, 30, or 45 hrs,
Credits 1, 2, or 3 cr, respectively

Courses in Chemistry

Chemistry

OVERVIEW

The Department of Chemistry offers a range of graduate educational opportunities with strengths in both the fundamental areas of the discipline and in emerging fields and applications. Students may obtain the PhD degree from Hunter College jointly with the City University of New York (CUNY) Graduate Center with concentrations in: Analytical Chemistry, Inorganic Chemistry, Organic Chemistry, Physical Chemistry, Biophysical Chemistry, Biochemistry, Nano-technology and Materials Chemistry, and Environmental Chemistry. Additionally, students may also obtain the MA degree in Biochemistry jointly offered by the Department of Chemistry and the Department of Biology from Hunter College, or an MA in education jointly offered by the Department of Chemistry and the School of Education of Hunter College. Graduate level courses are offered at Hunter College and in the CUNY Graduate Center. Master's programs can be completed as a full- or part-time student, with or without a research thesis. Most graduate courses for Master programs are offered in the evening to facilitate enrollment of part-time students.
A major goal of our graduate programs is to train research scientists to create new knowledge that impacts both fundamental scientific principles and addresses societal needs. The continuing success and future development of most areas in academic, industrial, and government institutions will increasingly depend on a well-trained science workforce for innovation, planning, and policy. The vibrant and well-funded research labs of our faculty in the Department of Chemistry at Hunter College provide the essential part of research training of the graduate programs. Students in Ph.D. program are expected to start their independent research at the end of the first year of study, and to complete their thesis on an original research subject under the supervision of our faculty. Students can also opt to pursue an independent pedagogical research project as part of their thesis research. The research activities are further supported by an array of shared facilities and the state-of-art instruments including the NMR facility, the X-ray crystallography and electron microscope facility and the Mass-spectrometry facility. Other facilities and instruments are available in the Department of Biosciences and in the NIH funded Hunter Gene center.

What can I do with my degree in Chemistry?

The department provides training for students planning careers in the chemical sciences, biology, medicine, earth sciences, secondary education, business, and law across the chemical enterprise in academia, industry, government, and private practice.

*Credits lec., 3 cr*

**CHEM 64000 - Biochemistry I**
Proteins, enzymes, bioenergetics, recombinant DNA.

**prereq:** 1 yr of undergraduate organic chemistry

*Hours 3 hrs.*

*Credits 3 cr.*

*fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.*

**CHEM 64100 - Biochemistry 2**

Metabolism, biomedical genetics, immuno-biochemistry, hormones, muscle biochemistry.

**prereq:** CHEM 64000

*Credits lec., 3 cr*

**CHEM 64100 - Biochemistry II**

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

**prereq:** CHEM 64000

*Hours 3 hrs.*

*Credits 3 cr*

*Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020*

**CHEM 64300A - Seminar**

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

*Credits 1 cr*

**CHEM 64300B - Seminar**

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

*Credits 1 cr*

**CHEM 64900 - Instrumental Analysis**

CHEM 64900 is a laboratory-based introduction to electronic instrumentation-based analytical techniques for chemistry and biochemistry, which focuses on theoretical foundations and practical applications. The course discusses instrumental analysis applications in pharmaceutical research and production, materials, food science, forensics, energy, and medical laboratories, as well as basic research in chemistry, physics and biology. The course will be taught in a mixed format including lectures and laboratory projects, student-led discussions, and a final writing/oral presentation project, with a primary emphasis on laboratory experience.

**prereq:** Department Permission

*Hours 8 hrs (2 hour lecture, 6 hour lab)*

*Credits 5 cr.*
CHEM 65000 - Biophysical Chemistry

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent
Hours 4 hrs.
Credits 4 cr
Fall

CHEM 65500 - Demonstrations, Models, and Technology

Demonstrations, models, and technology.

Credits 3 cr

CHEM 66000 - Challenging Concepts in Chemistry

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

Hours 4 hrs.
Credits 4 cr

CHEM 66800 - Structural Biology

This course introduces to students the applications of molecular spectroscopy and other emerging techniques used to study the structure, the molecular interactions of, and the self-assembly of biomolecules. The course will be taught in a mixed format including lectures, computer laboratory projects, student-led discussions on journal papers, and a final writing/oral presentation project. Not open to students who have taken CHEM 369800

prereq: Instructor Permission
Hours 3 hrs
Credits 3 cr.

CHEM 67000 - Introduction to Nanotechnology

This course introduces students to the underlying principles and applications of the emerging fields of nanotechnology and nanoscience. Intended for a multidisciplinary audience with a variety of backgrounds, the course introduces tools and principles relevant at the nano scale. The course discusses current and future nanotechnology applications in engineering, materials, physics, chemistry, biology, electronics, and energy. Not open to students who have taken CHEM 36000

prereq: Instructor Permission
Hours 3 hrs
Credits 3 cr.

CHEM 69803 - Chemical Genomics
The advent of high-throughput technologies and powerful computational tools is transforming the manner new drugs are developed. This course (bioinformatics) is designed to introduce students to two emerging areas of drug development, namely (1) computer-assisted drug design and (2) personalized medicine. Computer-assisted drug design is an approach to design drugs based on three-dimensional structures of macromolecules. Personalized medicine, on the other hand, aims at tailoring patient treatments based on individual genetic information (biomarkers). In this course, students will be first equipped with fundamental theoretical and experimental concepts related to these topics. Then, they will learn how to acquire new knowledge in these exciting fields of drug development through critical analysis of literature.

Hours 3
Credits 3

**CHEM 71000 - Advanced Inorganic Chemistry**

The theoretical and experimental fundamentals of atomic and molecular structure. Emphasis is on physical interpretation.

*prereq: an advanced undergraduate inorganic chemistry course or CHEM 76000*

Hours 3 hrs.
Credits 3 cr.

**CHEM 75000 - Advanced Organic Chemistry I**

Fundamentals of organic chemical principles, reactions and structures.

Hours 45 hrs,
Credits 3 cr

**CHEM 75100 - Advanced Organic Chemistry II**

A continuation of CHEM 75000

Hours 45 hrs,
Credits 3 cr

**CHEM 75200 - Quantum Organic Chemistry**

The application of modern theoretical techniques to organic chemical problems

*prereq: CHEM 75000 and CHEM 76000*

Hours 45 hrs,
Credits 3 cr

**CHEM 76000 - Introductory Quantum Chemistry**

Systematic development of the theories of chemistry including mathematical development and structural effects and the application of these theories to chemical systems.

Hours 45 hrs,
Credits 3 cr
CHEM 76100 - Spectroscopy

A continuation of CHEM 76000

Hours 45 hrs,
Credits 3 cr

CHEM 77000 - Chemical Thermodynamics

The development of the thermodynamic foundations of chemical processes: both the classical and statistical-mechanical approaches will be used.

Hours 45 hrs,
Credits 3 cr

CHEM 79900 - Thesis Research

Individual research under supervision. Limited to students matriculated for the MA in chemistry.

Credits 3 cr
permission of department required

Courses in Integrated Media Arts

Film and Media Studies

Overview

With a world class faculty and up-to-date production facilities, Hunter College's Department of Film & Media Studies offers a graduate MFA degree in Integrated Media Arts. This degree focuses on politically and socially engaged creative work and the social role of media and technology. Our program educates multi-disciplinary media professionals, socially aware and competent in the diverse range media skills that are being brought together in a digital media environment.

The IMA Program offers a 48-credit course of study, combining analytical seminars, interdisciplinary research, and creative workshops in writing, visual communication, and media production, and culminating in an advanced thesis project and paper. Student work in the program has included single channel documentaries, interactive websites, handmade electro-mechanical devices, public exhibitions, interactive installations, transmedia narratives, live performances, and rich media for the expanding spectrum of screen based platforms. Building on a foundation of research and analysis, IMA students explore and create new ways to advance information and ideas, balancing critical thinking with aesthetics, contemporary issues with an historical perspective, theory with practice, and traditional methods with new technologies.

What can I do with my degree in Film and Media Studies/Integrated Media Arts?
Graduates work in media, communications, advertising, marketing and the entertainment industry. Advances in technology are opening up a host of other career options for individuals with degrees in multimedia. As multimedia continues to infiltrate our culture and work its way into our everyday lives, the future may hold even more unknown opportunities.

Film and Media: IMA Required Courses

IMA 70000 - Visual Culture Seminar

This course combines self-directed research in visual studies with an introduction to the comparative study of visual culture including approaches from art, media, philosophy and cultural studies contexts. This seminar is a workshop-format research-oriented, criticism-intensive exploration of visual culture methods across media, time periods and critical methods. Students will be asked to develop a Visual Culture Project on a research topic of their own choosing while sharing presentations of readings on topics related to theoretical approaches to visuality drawn from a variety of disciplinary frames designed to give students a broad overview of useful tools for thinking about the visual world.
IMA 70100 - Social and Historical Roots of Art and Culture

This seminar examines the social and historical context that has propelled and been influenced by art, media and culture from the 15th century to the present. Our core assumption is that the production of all forms of culture – material and non-material – is a fundamental way that we struggle to make sense of a world in which social change constantly challenges taken-for-granted reality. Special emphasis is given to the unique role of the artist as producer of culture, and to the rich inter-disciplinary literature that has examined the creative process and the practical and theoretical challenges faced by artists in a complex society.

prereq: IMA 70000
Hours 3
Credits 3

IMA 70200 - History and Theory of Emerging Media

An exploration of the history of digital and Internet-based art, approached through a comparative framework drawn from the aesthetic history of post-war computing, experimental cinema, and contemporary art history.

prereq: IMA 70000 or IMA 70100
Hours 3
Credits 3
Material Fee: $20

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 70900 - History and Theory of the Documentary

This course examines canonical films from the first 100 years of documentary filmmaking in their historical and theoretical context, and analyzes the formal and technological innovations of documentary's pioneers. The course also explores the intersections of documentary art with other art forms and considers the opportunities and responsibilities of a documentary storyteller.

prereq: IMA 70000 -or- IMA 70100
Hours 4 hrs
Credits 3 cr.

IMA 71300 - Visible Evidence: Realist Strategies in Film, Video and TV

An examination of the representational strategies through which film, video and TV images achieve verisimilitude, the appearance of transparently and objectively displaying reality.

prereq: IMA 70100
Hours 3
Credits 3
Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

IMA 75000 - Emerging Media 1
This hands-on production course introduces students to the practical fundamentals of visual studies, design, digital graphics and illustration. It is a foundations course in 2D design, illustration and digital imaging. Students are introduced to a range of media production equipment and techniques, including: The history of design, computer graphics, illustration and new media; Issues in visual studies; Image composition, framing, and layout; Typography and text/image relationships; and Basic imaging and vector based illustration software.

Hours 4 hrs
Credits 3 cr.

IMA 75100 - Documentary 1

This production workshop introduces students to the fundamental techniques, technology, aesthetics and creative approaches of nonfiction video production.

Hours 4 hrs
Credits 3 cr.

IMA 75200 - Emerging Media 2

This hands-on class teaches you the skills needed to build basic, well-designed websites. Learn how to layout pages, format text, and optimize images for professional-looking web pages. The course covers HTML, CSS, introductory JavaScript and JS Frameworks, corresponding software as well as combination of text and graphics, creating and optimizing GIFs and JPEGs, animated GIFs. Lectures and exercises focus on creating cohesive websites with effective information architecture, well-designed interfaces, interactivity and usability. Throughout the semester readings relating to net culture, tactical media and other creative forms for network spaces will be required.

prereq: IMA 75000
Hours 4 hrs
Credits 3 cr.

IMA 75300 - Documentary 2

This workshop guides students through the process of producing and filming a documentary video project. Course work includes researching an idea, writing a proposal and script, developing interview subjects and/or situations for filming, and budgeting, scheduling and shooting the documentary project.

prereq: IMA 75100
Hours 4 hrs
Credits 3 cr.

IMA 75400 - Advanced Studio: Emerging Media

Provides students the opportunity to work on an advanced emerging media project and participate in group and individual critiques with MFA faculty. Particular emphasis will be on helping students prepare for the MFA Thesis Project. Students may repeat this Advanced Studio once with a different project.

prereq: IMA 75200, 75300, 70200, and 70900 -or- approval of instructor
Hours 3 hrs
Credits 3 cr.

IMA 75500 - Advanced Studio: Documentary
Provides students the opportunity to work on an advanced documentary project and participate in group and individual critiques with MFA faculty. Particular emphasis will be on helping students prepare for the MFA Thesis Project. Students may repeat this Advanced Studio once with a different project.

prereq: IMA 75200, 75300, 70200, and 70900 -or- approval of instructor

Hours 3 hrs
Credits 3 cr.

**Film and Media: IMA Production Electives**

**IMA 72400 - Developing and Producing Non-Fiction Media**

This course covers developing and producing non-fiction media for the screen across multiple platforms. Development topics include research methods, grant proposal and treatment writing, and creative project presentation. Producing fundamentals such as budgeting, scheduling, crewing, field producing, post-production, and deliverables are also covered. Students study different genres, formats and approaches to non-fiction production and complete a written proposal for a personal non-fiction project that is at the pre-production stage of development.

prereq: IMA 75100

Hours 3 hrs
Credits 3 cr.

**IMA 74200 - Web Documentary**

This is a production course with a technical emphasis on popular code-based techniques for web development including HTML5, CSS, JavaScript, PHP and MySQL. Documentary-related media forms will be generated (including research, photography, audio and video content) to consider creative and documentary process for web dissemination. Throughout the semester, readings relating to net culture, tactical media and other creative forms for network spaces will be required.

prereq: IMA 75200, 75300

Hours 4 hrs
Credits 3 cr.

**IMA 74300 - Collective Documentary**

This production workshop involves the student in all aspects of a collectively produced media project framed by a discussion of the theoretical issues of collaborative and collective media production, and an examination of the history of collective practices in the making of film and video from the 1930s to today.

prereq: IMA 75300

Hours 4 hrs
Credits 3 cr.

**IMA 74400 - Digital Design: Print and Interactive Media**

In this studio workshop course, the communicative capacities of various digital design formats and techniques will be creatively applied to the creation of four functional design projects.

prereq: IMA 70200
Hours 4  
Credits 3  
Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

**IMA 74700 - Documentary Editing**

Creative, technical and project management aspects of digital non-linear editing. Students are expected to bring projects, filmed in previous classes, to a fine cut stage.

*prereq: IMA 75300*  
*Hours 3 hrs*  
*Credits 3 cr.*

**IMA 76400 - 3D Animation and Modeling**

This hands-on production course will examine essential concepts and practices that form the basis of 3D animation. While this course primarily focuses on the use of 3D animation for linear video output, we will also explore the possibilities of this digital framework for other media and expressive forms, such as print, graphic novels, film making, and net-based art.

3D digital animation is often used to create imagery that simulates the visual and physical aspects of the "real world." This hands-on production course will examine essential concepts and practices that form the basis of 3D animation. Through readings, discussions, viewings, and critique, this class will address how realism is constructed and perceived through an underlying set of aesthetic conventions via computer graphics. While this course primarily focuses on the use of 3D animation for linear video output, we will also explore the possibilities of this digital framework for other media and expressive forms, such as print, graphic novels, film making, and net-based art.

*prereq: IMA 75000 and 75100*  
*Hours 3 hrs*  
*Credits 3 cr.*

**IMA 76500 - Interactive Installation**

This hands-on course will focus on the current state of interactive media in a collaborative environment. Students will create projects integrating video, sound, and text. The course will explore various technologies and equipment such as using sensors for real-time interactivity. Lectures and exercises focus on applying interactivity, interface, and usability design concepts to projects. Students will gain skills in coding concepts, hacking existing technology, and the process for interactive media projects.

The course will cover the process from the project idea to research, designing, building, testing, planning, and use of space (real and virtual) for presentation. Visits to museums and galleries will help students look at interactive media with a critical eye. The course will culminate in a public show - an exhibition of installation work and an electronic portfolio on the web.

*prereq: IMA 75000 and 75100*  
*Hours 3 hrs*  
*Credits 3 cr.*

**IMA 76600 - Three Dimensional Virtual Environments**

An introduction to fundamental skills and creative approaches for the development of computer-generated 3D interactive virtual environments.

*prereq: IMA 75000*
IMA 76800 - Nonlinear Storytelling

This class is a workshop that explores different forms of nonlinear narrative while providing a space for students to practice their own development of stories for nonlinear forms. Through readings, art and media examples, and class discussions, students will develop strategies and ideas culminating in an ambitious nonlinear storytelling media project. Students are encouraged to bring material (sketches, research, writing, footage) to the class that they may already be working with.

prereq: IMA 75000 and 75100

IMA 78001 - Media Activism

An exploration of the rich history and representational strategies of alternative media used by movements for social change from the 1930s until the present. This course introduces students to the techniques and approaches of social change and development media in a context of theoretical discussion.

prereq: IMA 70200

IMA 78043 - Neighborhood News

Students write articles for a community newspaper, the Hunts Point Express, and accompanying website, (www.huntspointexpress.com). As reporters, students spend time in the South Bronx to research stories on topics that include environmental justice issues, education, housing, health, jobs, gentrification and crime. Work may include multimedia component.

IMA 78048 - Culture Jamming

Theory and technique of art and design strategies that subvert popular media frameworks. Students will learn non-traditional methods of circulating messages which circumvent or critique mass media communications.

prereq: IMA 70200

IMA 78052 - Story Strategies
This course examines a broad range of approaches to storytelling in the fictional narrative feature film. Students will closely examine tactical narrative elements including dramatic structure, character/voice, time, tone and genre in conventional and alternative work. Students will develop treatment and beginning of an original screenplay.

**IMA 78081 - Sound Environments**

An exploration of contemporary issues and techniques of sonic media. Course explores critical writings in music history, sound and media theory while students experiment with designing linear and non-linear sound installations.

*prereq: IMA 70200*
Hours 4  
Credits 3

**Film and Media: Other IMA Courses**

**IMA 70600 - Documentary Production**

This workshop guides students through the process of producing and filming a documentary video project. Course work includes researching an idea, writing a proposal and script, developing interview subjects and/or situations for filming, and budgeting, scheduling and shooting the documentary project.

*prereq: IMA 70300*
Hours 4  
Credits 3  
Material Fee: $20

**IMA 74400 - Microcultural Incidents: Ethnography & Experimental Media**

This combined screening and production course unpacks and investigates several thematic and conceptual concerns found within a broad range of recent experimental films and videos, including: the desire for cultural definition; the forces at play in the constitution of self; the relationship between self and other; the pleasures and problematics of intercultural encounters; and the secret histories of various subcultures. These concerns are evidence of what could be called an ethnographic impulse in experimental media. This course explores the wide variety of ways in which that impulse is manifested.

*prereq: IMA 75100*
Hours 3  
Credits 3

**IMA 76700 - Physical Computing**

This hands-on class is an introduction to electronics, circuit building and the programming of microcontrollers for the production of interactive creative works that may include installation and art objects. Through a series of exercises, demonstrations and tutorials, students will gain a basic understanding of electronic hardware components, circuit design, input-output board construction and basic microcontroller programming. Students will also learn about the history of non-screen-based interactivity in Media Arts.

*prereq: IMA 75000 and 75100*
IMA 77100 - Media, Community Advocacy & the Urban Environment

This class is a collaborative workshop that brings together Integrated Media Arts students with graduate students from Urban Affairs & Planning. The goal is to create media for community organizing and development aimed at improving the quality of local environments. Students will work in small groups to create short documentaries (or other types of media) dealing with a particular New York City neighborhood and a critical social issue residents or business owners are facing in that community.

prereq: IMA 75100

IMA 78000 - Special Topics in Integrated Media Arts

A three hour, three credit rubric for analytical and production courses that explore special topics in Integrated Media Arts. Courses offered under this rubric will provide expanded course descriptions that will be distributed to IMA students prior to registration.

prereq: IMA 70000, 75000, and 75100

IMA 78200 - Special Topics in Integrated Media Arts

A four hour, three credit rubric for analytical and production courses that explore special topics in Integrated Media Arts. Courses offered under this rubric will provide expanded course descriptions that will be distributed to IMA students prior to registration.

prereq: IMA 70000, 75000, and 75100

IMA 78300 - Intensive Tools and Technology Workshop

An intensive hands-on workshop training students in the tools and technology of integrated media arts. Courses offered under this rubric will provide expanded course descriptions that will be distributed to IMA students prior to registration.

prereq: Varies according to the specific workshop parameters.

IMA 78700 - Media, Community Advocacy & the Urban Environment

This class is a collaborative workshop that brings together Integrated Media Arts students with graduate students from Urban Affairs & Planning. The goal is to create media for community organizing and development aimed at improving the quality of local environments. Students will work in small groups to create short documentaries (or other types of media) dealing with a particular New York City neighborhood and a critical social issue residents or business owners are facing in that community.

prereq: IMA 75100

IMA 78000 - Special Topics in Integrated Media Arts

A three hour, three credit rubric for analytical and production courses that explore special topics in Integrated Media Arts. Courses offered under this rubric will provide expanded course descriptions that will be distributed to IMA students prior to registration.

prereq: IMA 70000, 75000, and 75100

IMA 78200 - Special Topics in Integrated Media Arts

A four hour, three credit rubric for analytical and production courses that explore special topics in Integrated Media Arts. Courses offered under this rubric will provide expanded course descriptions that will be distributed to IMA students prior to registration.

prereq: IMA 70000, 75000, and 75100

IMA 78300 - Intensive Tools and Technology Workshop

An intensive hands-on workshop training students in the tools and technology of integrated media arts. Courses offered under this rubric will provide expanded course descriptions that will be distributed to IMA students prior to registration.

prereq: Varies according to the specific workshop parameters.
IMA 78301 - Intensive Tools and Technology Workshop: Sound

In this class students will learn and apply sound production theories and techniques. They will become familiar with the language of audio professionals and the equipment they use, as well as current industry practices used by sound recordists, sound mixers, and boom operators.

Students will also learn and practice technical skills useful toward becoming professional audio production recordists, sound mixers, and boom-operators. Fundamental best practices are emphasized.

In addition to learning the technical skills students will also become familiar with sound's role in media production, and better understand how both audio production and post-production sound design contribute to the documentary production process.

\textit{prereq: Permission of graduate adviser}

\textit{Hours 1 hr.}

\textit{Credits 1 cr.}

IMA 78302 - Intensive Tools and Technology Workshop: Lighting

This class will approach the subject from both a technical and aesthetic perspective. Students will learn how to light from a variety of situations including the basic single interview, group interviews/settings, action and verite. Students will also learn aesthetic and stylistic approaches that communicate particular meaning through certain achieved 'looks'. They will also become familiar with the wide variety of equipment and instruments (such as chimera soft box, scrims, gels, cutters, flags, etc.) that are industry standard, as well as learn of less expensive "guerilla" style alternatives. Students practice working with light measurement, exposure latitudes, lighting ratios and color temperature control.

\textit{prereq: Permission of graduate adviser}

\textit{Hours 1 hr}

\textit{Credits 1 cr.}

IMA 78303 - Intensive Tools and Technology Workshop: HD Cinematography

This class will approach the subject from a technical and aesthetic perspective. Students will learn camera fundamentals including how to set up a camera to ensure the highest quality image. They will learn the basics of digital cinematography principles for both video and DSLR cameras.

In addition to learning how to employ technical skills, students will learn the technical background behind the functionality to gain a better understanding of the electronic inner workings of a camera. Students will also learn the basic aesthetic components to shooting including composition, framing, movement, perspective and angle, with an eye to developing an individual aesthetic and artistic point of view as expressed through the lens.

\textit{prereq: Permission of graduate adviser}

\textit{Hours 1 hr}

\textit{Credits 1 cr.}

IMA 78800 - Master of Fine Arts Thesis Project

This capstone project must be completed satisfactorily before graduation. It includes an advanced creative work, a written component, a thesis defense, and exhibition of work in the Thesis Show. Students meet individually with a Primary Thesis Adviser from the department's permanent faculty, along with periodic consultations with secondary and tertiary advisers. The Thesis Project must integrate elements from across the Program's production curriculum and incorporate a critical component.
prereq: Approval of graduate adviser required.
Hours 3 hrs
Credits 3 cr.
Non-matriculated students are never permitted to enroll.

IMA 78900 - Independent Study

A 3 credit rubric for student's independent study.

prereq: IMA 75200 and 75300
Hours To be arranged
Credits 3 cr.

IMA 79000 - Independent Study

Rubric for student's independent study.

prereq: IMA 75200 and 75300
Hours to be arranged.
Credits 1 cr
Non-matriculated students are never permitted to enroll.

IMA 79100 - Independent Study

Rubric for student's independent study.

prereq: IMA 75200 and 75300
Hours to be arranged.
Credits 2
Non-matriculated students are never permitted to enroll.

IMA 79200 - Interdisciplinary Research

Rubric for student's interdisciplinary research elective.

prereq: IMA 7500 and 75300
Hours to be arranged.
Credits 3 cr.
Non-matriculated students are never permitted to enroll.

Other Courses

IMA 70300 - Documentary Expressions

This production workshop introduces students to the fundamental techniques, technology, aesthetics and creative approaches of nonfiction video production.

prereq: none
Hours 4
Credits 3
Material Fee: $20

Non-matriculated students require permission of instructor for enrollment in any MFA/IMA course.

Courses in Nursing

School of Nursing

OVERVIEW

The Hunter-Bellevue School of Nursing is located at Hunter College's Brookdale Health Science Center at 425 East 25th Street in Manhattan, near Bellevue Hospital. The School's programs combine liberal and professional education with a humanistic and comprehensive approach to health care. The School's mission is to provide quality nursing education to promote health and provide care to culturally diverse, urban, and global communities through research, scholarship, and service. The School's programs combine liberal and professional education with a humanistic and comprehensive approach to health care.

The School offers accredited programs leading to the Master of Science (MS) and the Doctor of Nursing Practice (DNP) degrees. The School also offers a post-Master's advanced certificate program. Graduates meet the educational requirements for national board certification in their specialties. In addition, a PhD program in Nursing is offered by the City University of New York Graduate Center in conjunction with Hunter College, Lehman College, and The College of Staten Island. For information, please go to www.gc.cuny.edu/Page-Elements/Academics-Research-Centers-Initiatives/Doctoral-Programs/Nursing.

What can I do with my degree in Nursing?

The MS program educates nurses for roles as gerontological/adult nurse practitioners (NPs), psychiatric/mental health NPs, adult-gerontological acute care clinical nurse specialists, community/public health practitioners and nurse administrators. The post-master's certificate program prepares psychiatric/mental health NPs. The DNP program offers concentrations for Adult/Gerontological NPs, Family NPs and Psychiatric/Mental Health NPs.

Programs and Courses in Nursing

Programs and Courses in Nursing

Accreditation

The baccalaureate degree in nursing programs, the master's degree in nursing programs, and the Doctor of Nursing Practice program at Hunter College, CUNY, are accredited by the Commission on Collegiate Nursing Education, 655 K Street NW, Suite 750, Washington DC 20001, 202-887-6791.

Licensing

Graduates of the advanced practice nursing programs are eligible to take the certification examinations for nurse practitioners and clinical nurse specialist.
Centers

The Health Professions Education Center (HPEC)

The Health Professions Education Center (HPEC) is an academic learning center serving all students and faculty at the Hunter College Nursing and School of Health Professions. A variety of comprehensive support services and programs are offered at the HPEC to enhance student academic success, retention, and completion rates by applying best practices and addressing student learning needs from multiple pedagogical perspectives. Our services are designed to develop critical thinking, reinforce practice of clinical skills, and foster a supportive, professional environment for student collaboration and scholarship.

The HPEC combines traditional approaches to teaching with new instructional technologies that reflect the dynamic nature of all health professions. Services at the center include:

· Access to the largest collection of health-related videos and instructional media within CUNY.
· Computer-aided educational software and virtual training technologies.
· Access to state board testing preparation programs.
· Technology support at the Hunter College Brookdale Campus.
· Beta testing and evaluation of new instructional media.
· Faculty consultation for research and classroom media integration.
· Development and administration of e-learning initiatives, online testing, and digital content.
· Individual and group study support.
· Simulation laboratory support through the New York Simulation (NYSIM) Center.

Faculty and students from all Hunter College schools and departments are always welcome to view the many resources available at the HPEC.

Director: Martin Dornbaum; Mezzanine floor, Brookdale West Building; (212) 481-5129, mdornbau@hunter.cuny.edu;
Evening Supervisor: Peter Marquez; edcenter@hunter.cuny.edu

Website: http://www.hunter.cuny.edu/shp/centers/hpec/

The center maintains regular office hours throughout the academic year, Monday-Thursday 9AM-9PM and Fridays 9AM-5PM.

NURS 66400 - Legal Issues in Nursing

The purpose of this course is to examine the multiple relationships between nursing and the law, with a particular focus on accountability for advanced and specialty practice. The course examines sources of law and the role of the courts in the continuing development and application of law to health care and the health professions. Specific legal issues, such as malpractice and informed consent, are analyzed. Distinctions between civil and criminal liability are explored, along with the roles of licensing boards and other government agencies. The course also examines relationships between law, ethics, policy and global health.

Hours 3 hrs
Credits 3 cr.

NURS 69984 - Therapeutic Touch, Meditation and Imagery: Health Patterning Across the Life Span

Presents Therapeutic Touch, meditation, and imagery as modalities in health patterning for nursing using Rogers' Science of Unitary Human Beings as the theoretical framework.

Hours 45 hrs,
Credits 3 cr
Lecture plus practice.

NURS 69986 - Integrative Modalities in Health

Examines the science of wholeness emerging across disciplines as a basis for integrative approaches to health. Presents a survey of major modalities and health applications.

NURS 69995 - Transforming Death in Health Care

This course prepares graduate students to oversee and provide quality care to those who are dying and their loved ones. Concepts, theories and practices associated with death, dying and end-of-life care will be discussed along with exploration of the multiplicity of issues surrounding societal needs at the end-of-life will be discussed. At the completion of the course and with full attendance on the dates that ELNEC (end-of-life education consortium curriculum) modules are taught, students will be designated "ELNEC trained".
NURS 69998 - Diabetes Prevention: Interdisciplinary Perspectives

This course will review existing approaches to diabetes prevention. Also covers prevention strategies, the impact of food and culture on lifestyle behaviors, the social and behavioral causes of diabetes, and the development of public health diabetes prevention interventions.

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 70100 - Assessment, Measurement, and Evaluation in Nursing Education

Various methods of assessment and evaluation of learning will be addressed within a nursing context.

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 70700 - Nursing of Persons with HIV Infection

Analysis and evaluation of nursing strategies at the level of secondary prevention with persons who are HIV-positive in order to assist them to maintain optimum levels of wellness.

NURS 70800 - Nursing of Persons with AIDS

Analysis and evaluation of nursing strategies at the level of tertiary prevention with persons with AIDS in order to assist them to maintain and restore health.

NURS 71600 - Informatics for Evidence-based Practice
This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

*Hours 45
Credits 3*

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

*prereq: NURS 70200, Advanced Nursing Research
Hours 3 hrs.
Credits 3 cr.*

**NURS 71900 - Psychopharmacology**

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

*prereq: NURS 70200, NURS 77700, NURS 77800
coreq: NURS 75000*

**NURS 73000 - Instructional Design in Nursing Education**

Examination of theoretical models and empirical factors that affect teaching-learning process in educational settings in nursing.

**NURS 73100 - Practicum in Nursing Education**

Teaching practicum in academic and institutional settings under the guidance of experienced educators. Emphasis is on the development, implementation, and evaluation of educational programs.

*prereq: NURS 73000, NURS 75200, NURS 70100
Hours 30 hours lecture, 15 hrs seminar, 105 hrs clinical
Credits 4 cr*

**NURS 73400 - Writing, Communication, and Healing**

This course provides learners with opportunities to improve their writing skills; to increase their confidence in their expressive ability; to produce a clear, publishable paper; to communicate more effectively; and to explore the use of reflective writing as a healing method.

*Hours 45
Credits 3*

**NURS 73500 - Leadership and Management in Health Care I**
Analyses of how nurse leaders and other health professionals in integrated managed care networks and community-based organizations understand and apply leadership and management theories and principles.

**NURS 73600 - Trauma Nursing: The First 72 Hours**

This course provides specialized content on the assessment, management, and prevention of complications in the multiple trauma patient in the first 72 hours.

*Hours 45
Credits 3*

**NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner**

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

*coreq: NURS 70000
Hours 15 hours
Credits 1 cr.*

**NURS 74000 - Leadership and Management in Health Care II**

Analysis of how nurse leaders and other professional in health care agencies interact at local, regional, and national levels, conduct policy assessment, identify health needs of culturally diverse aggregates, and develop culturally focused policies and programs to address the needs.

*prereq: NURS 70400, NURS 73500, PAF 91200, PAF 91720
coreq: PAF 91400, PAF 91300
Hours 30 hours theory, 15 hours seminar, 167 hours practicum,
Credits 5 cr*

**NURS 74200 - Advanced Practice Psychiatric-Mental Health Nursing I**

Exploration of mental health problems, recovery-oriented services and promotion of mental health in individuals. Students learn to provide primary mental health care for individuals experiencing a range of complex problems.

*prereq: NURS 70000
prereq or coreq: NURS 70200, NURS 71700, NURS 74900, NURS 75000, NURS 75100
Hours 30 hrs lecture, 15 hrs seminar; 166 hrs clinical,
Credits 5 cr*

**NURS 74300 - Advanced Practice Psychiatric-Mental Health Nursing II**
Exploration of mental health of families. Students learn to provide primary mental healthcare for families experiencing a range of complex problems.

*prereq: NURS 742
*prereq or coreq: NURS 704
*Hours 30 lecture hours, 15 hrs seminar, 167 hrs clinical,
*Credits 5 cr

**NURS 74400 - Advanced Practice Psychiatric-Mental Health Nursing III**

An exploration of contemporary mental health issues from group and community perspectives. Students learn to develop advanced practice group and community interventions that reduce risk, promote resilience, and enhance mental health.

*prereq: NURS 74300
*Hours 30 hrs lecture, 15 hrs seminar, 167 hrs of clinical practicum,
*Credits 5 cr

**NURS 74500 - Leadership and Management in Health Care III**

An integrative experience in the field of public affairs as it relates to health care generally and nursing specifically. Students will prepare a professional work in policy analysis or an organizational assessment.

*Cross-listed (Cross-listed with PAF 97930)
*prereq: NURS 74000
*Hours 37.5 hours theory, 15 hours seminar, 166 hours practicum,
*Credits 5 cr

**NURS 74600 - Epidemiology of behavioral health and community mental health**

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

*Hours 15 hrs.
*Credits 1 cr.

**NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness**

This course explores the human brain and its anatomical infrastructure, genetic and physiological links to emotion, cognition and behaviors. The course will also present altered brain anatomy, physiology, and genetics, and their relation to the identified symptoms of psychiatric disorders.

*prereq: NURS 70000, NURS 78400
*coreq: NURS 71700, NURS 71900
*Hours 15 hrs.
*Credits 1 cr.

**NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice**
This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, NURS 77700, NURS 77800
Hours 45
Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

Hours 45
Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 71700, Advanced Pathophysiology for Nursing Practice
Hours 3 hrs.
Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 75000
Hours 2 hours lecture, 2 hours lab
Credits 3 cr

NURS 75200 - Advanced Concepts in Nursing Education

Advanced concepts in nursing education that allow for the construction of nursing education programs will be explored. Issues critical to academic and institutional education will be examined.

prereq: NURS 73000

NURS 75400 - Psychosocial Behavioral Patterns of Older Adults

Integration of the theoretical foundations of biological, psychological, social, and cultural patterns of aging that form the assessment data base for the case management of older adults, families, and communities

prereq: NURS 70000
NURS 75500 - Primary Care Nursing I

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100

Hours 3 hours/week lecture 1 hour/week seminar

Credits: 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

NURS 75700 - Primary Care Nursing II

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500

Hours 3 hours/week lecture 1 hour/week seminar

Credits: 6: 3 credits theory (45 hours/semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

NURS 76100 - Clinical Leadership in Nursing I

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

prereq: NURS 70000; NURS 70200, NURS 70400, NURS 74900

prereq or coreq: NURS 71700, NURS 75000, NURS 75100

Hours 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars

Credits: 5

NURS 76200 - Clinical Leadership in Nursing II

Synthesis of all aspects of leadership, care, and information management. Guided learning opportunities and clinical immersion in a unit or setting specific area; facilitates the integration of the multiple CNL functions into a professional model of CNL practice.

prereq: NURS 76100

Hours 60 hrs theory; 335 hrs clinical practicum (immersion), including 30 hrs clinical seminars

Credits: 10
NURS 76600 - Adult-Gerontology Clinical Nurse Specialist I

This Adult-Gerontology Clinical Nurse Specialist (CNS) program will assist students to develop specialized knowledge in the management of complex adult patients with select acute and chronic diseases. Role expectations and implementation of the CNS competencies are explored. Students are expected to develop a broader understanding of professional CNS practice competencies and clinical practice issues from classroom sessions and during supervised clinical placements in diverse settings.

prereq: NURS 76100  
Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum  
Credits 5

NURS 76700 - Adult-Gerontology Clinical Nurse Specialist II

Using a nursing science framework, this course emphasizes intervention strategies and health care protocols for complex multisystem health problems and human responses of adults and older adults in a variety of health care settings. Supervised practicum continues to provide opportunities to integrate previous learning experiences. Strategies for evaluating the outcomes of care interventions from a leadership perspective are emphasized through the final capstone project. Students will demonstrate an in-depth ability to utilize case studies integrating pathophysiology, advanced assessment, pharmacotherapeutics, and evidence-based standards of care to plan for and achieve positive patient outcomes for selected patients with an emphasis on the older adult. Strategies to interpret the adult-geriatric CNS role in health care to other health care providers and the public are discussed.

prereq: NURS 76600  
Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum  
Credits 5

NURS 76800 - Primary Care Nursing III

This is the last in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly, and function as a licensed independent practitioner. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide primary care in various settings. Experiences are intended to assist the student attain advanced level direct care competencies and function in the role of independent nurse practitioner.

prereq: NURS 75700  
Hours 3 hours / week lecture; 1 hour/week seminar  
Credits 6: 3 credits theory (45 hours) 1 credit seminar (15 hours) 2 credits clinical (210 hours)

NURS 76900 - Gerontological Nurse Practitioner Practicum

Preceptored practicum in gerontological nurse practitioner practice with seminar discussion of current theories, research and strategies for primary care of older adults with complex multisystem health problems are analyzed and applied.

prereq or coreq: NURS 75500  
Hours 15 hrs seminar, 105 hrs practicum  
Credits 3
NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400
Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,
Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100
prereq or coreq: NURS 70400
Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,
Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772
Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,
Credits 5 cr

NURS 77600 - Interdisciplinary Approaches to Diabetes Management

This course will provide an overview of the field of diabetes and diabetes management. It will examine and analyze the interdisciplinary approaches in providing diabetes management in an effective and culturally competent manner.

Cross-listed PH 77013
Hours 45
Credits 3

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 78400, NURS 70400, NURS 73700, NURS 74900, NURS 74600, NURS 74800
coreq: NURS 75100, NURS 71700
Hours 45 hrs.
Credits 3 cr.
**NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention**

This course explores child/adolescent mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex disorders of child/adolescent mental health. This course reviews information and knowledge about:

1) common mental disorders including etiology, theories, and epidemiology;

2) diagnostic evaluation of each disorder;

3) interventions for each disorder in order to provide age-appropriate care.

*prereq: NURS 70000, 78400, 70400, 73700, 74900, 74600*

*coreq: NURS 75100, 71700, 74800*

*Hours 30 hrs.*

*Credits 2 cr.*

**NURS 77900 - Family & Group Theories & Therapeutic Modalities**

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

*prereq: NURS 70200, NURS 77700, NURS 77800*

*Hours 30 hrs. *

*Credits 2 cr.*

**NURS 78000 - Health Care Ethics in the Life Span**

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

**NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)**

This course advances the clinical competency of psychiatric–mental health nurse practitioner students (PMHNPs) in assessment and intervention of common psychiatric disorders prior to their clinical practicum entry. It reviews the process of history taking, physical exam, mental status exam, differential diagnosis, and the appropriate use of diagnostic and laboratory testing in providing and delivering competent advanced psychiatric mental health nursing care for patients and families experiencing psychiatric disorders.

*prereq: NURS 77700, NURS 77800, NURS 77900*

*Hours 15 hrs. *

*Credits 1 cr.*

**NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I**
This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 78100  
Hours 22.5 hours - Seminar, 315 hours – Clinical  
Credits 4.5 cr.

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200  
Hours 22.5 hours – Seminar, 315 hours – Clinical  
Credits 4.5 cr.

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000  
Hours 15 hours  
Credits 1 cr.

NURS 79100 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 15 hrs,  
Credits 1 cr  
A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 79200 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 30 hrs,
Credits 2 cr
A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 79300 - Independent Study in Nursing
Supervised study of an area of interest for matriculated students.
Hours 45 hrs,
Credits 3 cr
A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 80000 - Leading Systems and Organizations
This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.
coreq: NURS 70400
Hours 45
Credits 3

NURS 80100 - Leadership for Quality Improvement
This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.
prereq or coreq: NURS 80000
Hours 45
Credits 3

NURS 80200 - Analytic Methods for Evidence-Based Practice
This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.
prereq: NURS 70200
Hours 45
Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing
This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.
prereq: NURS 80200
coreq: NURS 71600
Hours 45
Credits 3

NURS 81000 - Clinical Genetics
Application of human genetics and genomics as they apply to health care professionals.

Hours 45  
Credits 3

**NURS 81100 - Advanced DNP Procedures**

Students will perform clinical procedures that assist in the diagnosis and treatment of acute and chronic conditions encountered in the primary care setting. Students are expected to draw on knowledge from pathophysiology and advanced assessment in order to demonstrate competence in performing advanced procedures.

*prereq or coreq: NURS 75100*  
Hours 3, 15 lab  
Credits 3

**NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years**

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

*prereq: NURS 71700, NURS 75000 and NURS 75100*  
Hours 15 lecture, 15 seminar and 125 clinical  
Credits 3

**NURS 82700 - Assessment and Primary Care of Children and Adolescents**

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

*prereq: NURS 71700, NURS 75000, NURS 75100*  
Hours 15 lecture, 15 seminar, 125 clinical  
Credits 3

**NURS 84200 - DNP PMHNP Practice I**

Clinical practicum in mental and behavioral health care delivery system and with current mental health policy makers, with seminar discussions of current mental health policy and politics in relation to the role of advanced practice nursing in the field of mental health systems.

*prereq: NURS 85100*  
*coreq: NURS 74200*  
Hours 5 seminar, 50 clinical  
Credits 1

**NURS 84300 - DNP PMHNP Practice II**

Clinical practicum in advanced practice geriatric-mental health with seminar discussions of current gerontological and geriatric mental health theories, research and strategies for primary care nursing of older adults who need psychiatric or mental health services.

*prereq or coreq: NURS 74300*
NURS 84400 - DNP PMHNP III

Clinical practicum in addictions nursing practice with seminar discussions of current addictions theories, research and strategies for the clients with substance abuse and dependence diagnosis.

prereq or coreq: NURS 74400

NURS 84500 - DNP PMHNP Practice IV

This course provides a framework for DNP psychiatric mental health nurse practitioner (PMHNP) students in how to synthesize theoretical, scientific, and clinical knowledge for the assessment and management of both mental health and illness states of child- and adolescent-specific populations.

prereq: NURS 74400

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

NURS 85100 - Advanced Physical Assessment Practicum

Application of multidimensional assessment strategies for primary care nursing of persons aged 16 and above, as well as their families and communities. Evidence-based assessment strategies are to be practiced in a college lab and clinical setting. Electronic documentation will be used to record a comprehensive assessment and improve access to information.

prereq: NURS 74900
coreq: NURS 75100

NURS 85500 - DNP Practice with Adults/Older Adults I

Application of advanced practice strategies for primary care nursing of adults and older adults and their families and the health care organizations that provide services for them. Evidence-based practice guidelines are reviewed and practiced in the college lab and clinical setting, with the use of information systems/technology and patient care technology to improve the quality of care for adult and older patients and their families and the health care systems that care for them.
NURS 85700 - Women's Health in Primary Care

Application of advanced practice strategies for primary care nursing of women and their families. Evidence-based practice guidelines are reviewed and applied in the simulation lab and clinical setting. Information systems/technology and patient care technology to improve the quality of care for women and their families will be utilized in the clinical setting.

prereq or coreq: NURS 75100

Hours 5 seminar, 40 clinical
Credits 1

NURS 86900 - DNP Practice with Older Adults

Application of advanced practice strategies for primary care nursing of older adults and their families and communities. Evidence-based practice guidelines are reviewed and practiced in the college lab and clinical setting, with the use of information systems/technology and patient care technology to improve the quality of care to older adult patients and their families and communities, as well as the health care systems that care for them.

prereq or coreq: NURS 76900

Hours 15 seminar, 105 clinical
Credits 3

NURS 87000 - Acute Care DNP Practice

This course provides students with specialized knowledge and clinical experience in applying evidence-based national standards and treatment guidelines in the care of adolescents, adults, and older adults with acute and complex health problems. Leadership role expectations of doctorate-prepared nurse practitioners are explored and synthesized throughout the course content.

prereq: NURS 75100

Hours 30 theory, 15 seminar, 250 clinical
Credits 6

NURS 87100 - Advanced Practice Public Health Nursing I

Analysis of the Advanced Practice Public Health Nurses (AAPHN) role in the use of technology to promote population health in order to achieve the DNP Competency Areas: Technology & Information Literacy Analysis and Quality of Practice.

prereq or coreq: NURS 77100, NURS 85000

Hours 15 seminar, 86 clinical
Credits 1

NURS 87200 - DNP in Public Health Nursing II

Analysis of the role of Advanced Practice Public Health Nurses (AAPHN) related to providing population health through partnerships and coalitions with the goal to achieve the DNP Competency Areas: Leadership in Practice,
Independent Practice, and Health Delivery System.

**prereq or coreq:** NURS 77200, NURS 87100  
**Hours:** 15 seminar, 87 clinical  
**Credits:** 1

**NURS 87300 - DNP in Public Health Nursing III**

Analysis of evidence-based practice in the role of Advanced Practice Public Health Nurses (AAPHN) through community-based participatory research (CBPR), in order to achieve the DNP Competency Areas: Scientific Foundation for Practice, Healthcare Policy, and Practice Inquiry in Area Associated with Population Health.

**prereq or coreq:** NURS 77300, NURS 87200  
**Hours:** 15 seminar, 87 clinical  
**Credits:** 1

**NURS 87400 - DNP in Public Health Nursing IV**

Advanced Practice Public Health Nurses (APPHN) translate research into practice in a culturally competent manner by piloting their intervention using community-based research principles.

**prereq or coreq:** NURS 77300, NURS 87300  
**Hours:** 30, 15 seminar, 200 clinical  
**Credits:** 6

**NURS 89000 - DNP Practicum**

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

**prereq:** NURS 85500, 84200 or 87100. Instructor permission required.  
**Hours:** 52.5 practicum hours; individual or group conferences with faculty  
**Credits:** 0.5 cr.

**NURS 89100 - DNP Practicum**

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

**prereq:** NURS 85500, 84200 or 87100. Instructor permission required.  
**Hours:** 105 practicum hours; individual or group conferences with faculty  
**Credits:** 1 cr.

**NURS 89200 - DNP Practicum**

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences,
based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

*prereq: NURS 85500, 84200 or 87100. Instructor permission required. Hours 210 practicum hours; individual or group conferences with faculty Credits 2 cr.*

**NURS 89300 - DNP Practicum**

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

*prereq: NURS 85500, 84200 or 87100. Instructor permission required. Hours 315 practicum hours; individual or group conferences with faculty Credits 3*

**NURS 90000 - DNP Capstone I**

Students develop plans for capstone projects that demonstrate synthesis of their development in advanced practice nursing and lay the groundwork for future practice development.

*prereq: NURS 80200 Hours 45 Credits 3*

**NURS 90001 - DNP Capstone Internship**

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

*prereq: NURS 80000, NURS 80100; Departmental permission required Hours 30 hours lecture; 105 practicum hours Credits 3 cr.*

**NURS 90002 - DNP Capstone Proposal Development**

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

*prereq or coreq: NURS 90001; Departmental permission required Hours 30 hours lecture; 105 practicum hours Credits 3 cr.*

**NURS 90003 - DNP Capstone Implementation**
This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

**prereq:** NURS 90002; Departmental permission required  
**Hours** 15 hours lecture; 210 practicum hours  
**Credits** 3 cr.

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

**prereq:** NURS 90003; Departmental permission required  
**Hours** 33.75 hours lecture; 80 practicum hours  
**Credits** 3 cr.

**NURS 90100 - DNP Capstone II**

Students complete their capstone project and write final reports with continual mentorship by the faculty and community mentors.

**prereq:** NURS 90000  
**Hours** 60  
**Credits** 5

Education: School Administration and Supervision

ADSUP 70400 - Leadership to Enhance Human Resources

Interpersonal and group relationships applied to administrative and supervisory functions in schools and districts; intensive experience in group process and the development of a positive school climate and culture.

*Hours* 60 hours plus 25 to 35 hrs of leadership experiences in field-work  
*Credits* 4

ADSUP 70600 - School-Based Field Experience Seminar in Administration and Supervision

An intensive school-based leadership experience in which students apply knowledge and skills developed in prior coursework. A weekly seminar includes required workshops on child abuse and violence prevention.

*Hours* 200 hrs of leadership experiences in field work

ADSUP 70700 - District/Region Field Experience Seminar in Administration and Supervision

An intensive district/region-based leadership experience in which students apply knowledge and skills developed in prior coursework. A weekly seminar includes required workshops on child abuse and violence prevention.
**ADSUP 71500 - Supervision for the Improvement of Instruction**

An examination of varied productive supervisory techniques which promote the improvement of instruction and enhance the supervisory process.

*Hours 60 hours plus 25 to 35 hrs of leadership experiences in field work*
*Credits 4*

**ADSUP 71600 - Leadership Strategies for School Reform**

An introduction to leadership theory, school, district reform and the school principalship. Leadership theory is explored from a systems perspective with a focus on both the theoretical and practical tools for promoting school and district change that leads to high levels of student achievement.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work*
*Credits 4*

**ADSUP 71700 - Seminar in Evaluating and Applying Educational Research**

This course provides students seeking to be educational leaders with the theoretical and the practical considerations for evaluating, conducting and using research in schools and school districts.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work*
*Credits 4*

**ADSUP 72100 - Legal Issues, Finance, Facilities and Operations**

A study of school legal issues finance and budgeting. Processes and cases from New York State, New York City, local school district and building level management of operations and facilities.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work*
*Credits 4*

**ADSUP 73100 - Using Data, Technology and Assessment to Plan and Design Curriculum and Instruction**

This course provides students seeking to be instructional leaders with both the theoretical and the practical considerations necessary for using technology, data, and assessment to plan and design curriculum for effective instruction.
Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work
Credits 4

**ADSUP 74100 - School District Leadership: Problems and Issues**

System-wide administrators must combine the elements of vision, with instructional and administrative leadership in order to guide learning organizations. They must develop skills, strategies and knowledge of the leading educational issues they are facing to be able to create collaborative, safe, and successful educational environments capable of being successful.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work
Credits 4

**ADSUP 75100 - District and School Based Field Experience Seminar in Administration and Supervision**

Intensive applications of program knowledge, skills and dispositions in school and district field settings available to the student, and a 40 hour seminar that includes a two-hour unit on each of both child abuse prevention and violence prevention.

Hours 60 hrs plus 200 hrs of leadership experiences in field work stipulated in a contract
Credits 4

**ADSUP 75600 - Professional Discourse and Leadership in Gifted Education**

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

*Cross-listed SPED 75600, CEDC 75600, CEDF 75600
prereq or coreq: SPED 75300 and SPED 75400
Hours includes 10 hrs field experience
Credits 3*

**Education: Adolescent Education**

**ARTED 71000 - Methods for Childhood Art Education - Grades PreK-6**
This course focuses on visual arts education methods, philosophies and theories of learning and development in the visual arts for children from Pre-K to grade 6. It emphasizes children's aesthetic development, safe and appropriate uses of materials and resources, and appropriate methods and pedagogy for teaching the visual arts in grades PreK-6.

Includes 36 hours of fieldwork in a school.

prereq or coreq: SEDF 70300 and SEDF 70400
Hours 3 hrs
Credits 3 cr.

ARTED 71100 - Methods of Teaching the Visual Arts Grades 7-12

This course focuses on visual arts education methods, philosophies and theories of learning and development in the visual arts for the adolescent. Focus: It emphasizes adolescent aesthetic development, safe and appropriate uses of materials and resources, and appropriate methods and pedagogy for teaching the visual arts in grades 7-12.

Course includes 48 hours of fieldwork in a school. Students are observed and evaluated in the field at least once.

prereq: ARTED 71000 and SEDF 70500
Hours 3 hrs
Credits 3 cr.

ARTED 71200 - Student Teaching in the Visual Arts Grades Pre-K-12

Teacher candidates complete a total of 60 days of student teaching Monday through Friday (30 days of student teaching at grades Pre-K-6 and 30 days at grades 7-12) under the supervision of a Hunter College faculty member and a certified Art Educator in a New York City school selected by the college.

prereq: ARTED 71000 and ARTED 71100 plus 6 credits in ARTH and ARTCR
Hours 5 hrs
Credits 2 cr.

CHND 71200 - Methods 1: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Chinese, Grades 7-12

The course covers options for classroom management, learning environment appropriate to 7-12 classrooms, and assessment. Attention is given to classroom management task, setting up and exploiting various learning environments, and methods for assessment. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes homework assignment and projects.

prereq or coreq: SEDF 70400 or permission of the adviser
Credits 3

CHND 71300 - Methods 2: Intensive Study of Teaching Diverse Learners in Chinese, Grades 7-12

This course aims to familiarize prospective school teachers, grades 7-12 with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curricula in Chinese. Innovative uses of technology, development of instructional units, individualization for students with
special needs, and strategies for managing problem behavior will be emphasized throughout the course. Thirty-six hours of field experience/observation is a part of this course. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes development of lesson plans, homework assignment, and projects for classroom use.

**prereq or coreq:** CHND 71200 and SEDF 70500 or permission of the adviser  
**Hours** 30 hrs plus 36 hrs fieldwork  
**Credits** 2

**CHND 73100 - Student Teaching in Chinese, Grades 7-12**

Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticism. These presentations will be videotaped for further self-analysis at home.

**prereq or coreq:** CHND 71300 or permission of the adviser  
**Hours** 60 days, 30 hrs seminar plus workshops and conferences,  
**Credits** 5

**CHND 74110 - Practicum in Chinese, Grades 7-9**

Supervised practicum for teachers of Chinese in grades 7-9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74110 must also take CHND 74120.

**prereq or coreq:** CHND 71200 or permission of the adviser.  
**Hours** 30 hrs plus conferences  
**Credits** 2

**CHND 74120 - Practicum in Chinese, Grades 10-12**

Supervised practicum for teachers of Chinese in grades 10-12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74120 must also take CHND 74110.

**prereq or coreq:** CHND 71200 or permission of the adviser.  
**Hours** 30 hrs plus conferences,  
**Credits** 2

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.
**SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society**

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

*prereq or coreq: SEDF 70400*

**SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12**

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

*prereq or coreq: SEDF 70400*

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent’s learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

*prereq or coreq: SEDF 70400*

**SEDC 71500 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Social Studies, Grades 7–12**

Rationales and methodologies for teaching social studies based on current theories of the nature of students, the social sciences and secondary schooling.

*prereq or coreq: SEDF 70400*

**SEDC 71600 - Math: Curriculum and Methods - Grades 7-12**
For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the contents of mathematics programs and curricula in grades 7–12 and will formulate teaching methodology for the meaningful learning of mathematics. Strong emphasis will be placed on teaching students with special needs and English language learners.

*Hours 45 hrs  
Credits 3*

**SEDC 71700 - Social Studies: Curriculum and Methods - Grades 7-12**

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of social studies programs and curricula in grades 7–12 and will formulate teaching methodology for the meaningful learning of social studies. Strong emphasis will be placed on teaching students with special needs and English language learners.

*Hours 45  
Credits 3*

**SEDC 71800 - Science: Curriculum and Methods - Grades 7-12**

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of science programs and curricula in grades 7–12 and formulate teaching methodology for the meaningful learning of science. Strong emphasis will be placed on teaching students with special needs and English language learners.

*Hours 45 hrs  
Credits 3*

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,  
Credits 1 cr*

**SEDC 72100 - Advanced Study of Teaching English Methods to a Diverse Population in Grades 7–12**

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. These presentations will be videotaped for further self-analysis at home. New York State and city teaching standards will be applied throughout the course.

*prereq: SEDC 71100  
prereq or coreq: SEDF 70500  
Hours 30 hrs fieldwork  
Credits 2*
SEDCC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71200  
*prereq or coreq: SEDF 70500  
*Hours 30 hrs fieldwork  
*Credits 2

SEDCC 72300 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71300  
*prereq or coreq: SEDF 70500  
*Hours 30 hrs fieldwork,  
*Credits 2

SEDCC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71300  
*prereq or coreq: SEDF 70500  
*Hours 30 hrs fieldwork  
*Credits 2

SEDCC 72500 - Methods II: Intensive Study of Teaching Diverse Learners in Social Studies, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.
SEDC 73000 - Development of Mathematical Thinking: Implications For Teaching and Learning Mathematics in Grades 7 to 12

A course exploring the role of the teacher in developing mathematical reasoning ability in students. What are the possibilities and limitations? A research-based approach to the problem of providing a solid mathematics education for all students.

SEDC 73100 - Seminar in Mathematics Curriculum, Grades 7-12

A study of the current Standards-Based Mathematics Curriculum from an historical perspective.

SEDC 73200 - Research Seminar in Mathematics Education, Grades 7-12

A course in which students will study the research relative to the mathematics curriculum and complete a research project in a field of mathematics education of their choice.

SEDC 75100 - Student Teaching in English, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

SEDC 75201 - Student Teaching in French, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

SEDC 75202 - Student Teaching in Italian, Grades 7–12
Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5

**SEDC 75203 - Student Teaching in Spanish, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5

**SEDC 75300 - Student Teaching in Mathematics, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5

**SEDC 75401 - Student Teaching in Biology, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5

**SEDC 75402 - Student Teaching in Chemistry, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.
**SEDC 75403 - Student Teaching in Physics, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**SEDC 75404 - Student Teaching in Earth Science, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**SEDC 75500 - Student Teaching in Social Studies, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**SEDC 75600 - Student Teaching in Music, Pre-K–12**

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 and 30 days at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.
**SED C 76110 - Student Teaching in English, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72100*
*prereq or coreq: SEDF 70600*
*Hours 45 hours, 30 days student teaching plus conferences,*
*Credits 3 cr*

Students who enroll in SEDC 76110 must also complete SEDC 76120 or SEDC 77120.

**SED C 76120 - Student Teaching in English, Grades 10–12**

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72100*
*prereq or coreq: SEDF 70600*
*Hours 30 hours, 30 days student teaching plus conferences, *
*Credits 3 cr*

Students who enroll in SEDC 76120 must also complete SEDC 76110 or SEDC 77110.

**SED C 76211 - Student Teaching in French, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72200*
*prereq or coreq: SEDF 70600*
*Hours 45 hrs plus, 30 days and conferences,*
*Credits 3 cr*

Students who enroll in SEDC 76211 must also complete SEDC 76221 or SEDC 77221.

**SED C 76212 - Student Teaching in Italian, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72200*
*prereq or coreq: SEDF 70600*
*Hours 45 hrs plus 30 days and conferences, *
*Credits 3 cr*

Students who enroll in SEDC 76212 must also complete SEDC 76222 or SEDC 77222.

**SED C 76213 - Student Teaching in Spanish, Grades 7–9**
Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** SEDC 72200  
**prereq or coreq:** SEDF 70600  
**Hours** 45 hrs plus 30 days and conferences,  
**Credits** 3 cr  
*Students who enroll in SEDC 76213 must also complete SEDC 76223 or SEDC 77223.*

**SEDC 76221 - Student Teaching in French, Grades 10–12**

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** SEDC 72200  
**prereq or coreq:** SEDF 70600  
**Hours** 30 hrs plus 30 days and conferences,  
**Credits** 3 cr  
*Students who enroll in SEDC 76221 must also complete SEDC 76211 or SEDC 77211.*

**SEDC 76222 - Student Teaching in Italian, Grades 10–12**

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** SEDC 72200  
**prereq or coreq:** SEDF 70600  
**Hours** 30 hrs plus 30 days and conferences,  
**Credits** 3 cr  
*Students who enroll in SEDC 76222 must also complete SEDC 76212 or SEDC 77212.*

**SEDC 76223 - Student Teaching in Spanish, Grades 10–12**

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** SEDC 72200  
**prereq or coreq:** SEDF 70600  
**Hours** 30 hrs plus 30 days and conferences,  
**Credits** 3 cr  
*Students who enroll in SEDC 76223 must also complete SEDC 76213 or SEDC 77213.*

**SEDC 76310 - Student Teaching in Mathematics, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified mathematics teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.
SEDC 76320 - Student Teaching in Mathematics, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300
prereq or coreq: SEDF 70600
Hours 45 hrs, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76310 must also complete SEDC 76320 or SEDC 77320.

SEDC 76411 - Student Teaching in Biology in Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76411 must also complete SEDC 76421 or SEDC 77421.

SEDC 76412 - Student Teaching in Chemistry, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76412 must also complete SEDC 76422 or SEDC 77422.

SEDC 76413 - Student Teaching in Physics, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76413 must also complete SEDC 76423 or SEDC 77423.

SEDC 76414 - Student Teaching in Earth Science, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. They will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76414 must also complete SEDC 76424 or SEDC 77424.

SEDC 76421 - Student Teaching in Biology, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76421 must also complete SEDC 76411 or SEDC 77411.

SEDC 76422 - Student Teaching in Chemistry, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76422 must also complete SEDC 76412 or SEDC 77412.

SEDC 76423 - Student Teaching in Physics, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76423 must also complete SEDC 76413 or SEDC 77413.
**SEDC 76424 - Student Teaching in Earth Science, Grades 10–12**

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. They will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*

*prereq or coreq: SEDF 70600*

*Hours 30 hrs plus 30 days and conferences,*

*Credits 3 cr*

*Students who enroll in SEDC 76424 must also complete SEDC 76414 or SEDC 77414.*

**SEDC 76510 - Student Teaching in Social Studies, Grades 7–9**

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDF 72500*

*prereq or coreq: SEDF 70600*

*Hours 45 hrs, 30 days student teaching plus conferences,*

*Credits 3 cr*

*Students who enroll in SEDC 76510 must also complete SEDC 76520 or SEDC 77520.*

**SEDC 76520 - Student Teaching in Social Studies, Grades 10–12**

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDF 72500*

*prereq or coreq: SEDF 70600*

*Hours 30 hrs, 30 days student teaching plus conferences,*

*Credits 3 cr*

*Students who enroll in SEDC 76520 must also complete SEDC 76510 or SEDC 77510.*

**SEDC 76610 - Student Teaching in Music, Grades Pre-K–6**

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: MUSED 67800*

*prereq or coreq: SEDF 70600*

*Hours 30 hrs, 30 days student teaching plus conferences,*

*Credits 3 cr*

*Students who enroll in SEDC 76610 must also complete SEDC 76520 or SEDC 77520.*

**SEDC 76620 - Student Teaching in Music, Grades 7–12**
Teacher candidates complete 30 days of student teaching at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: MUSED 67800
prereq or coreq: SEDF 70600
Hours 30 hrs, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76620 must also complete SEDC 76510 or SEDC 77510.

SEDC 77110 - Practicum in English, Grades 7–9

Supervised practicum for teachers of English in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77110 must also take SEDC 77120.

prereq: SEDC 72100
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

SEDC 77120 - Practicum in English, Grades 10–12

Supervised practicum for teachers of English in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77120 must also take SEDC 77110.

prereq: SEDC 72100
Hours 30 hrs plus conferences,
Credits 2 cr

SEDC 77211 - Practicum in French, Grades 7–9

Supervised practicum for teachers of French in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77211 must also take SEDC 77221.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

SEDC 77212 - Practicum in Italian, Grades 7–9

Supervised practicum for teachers of Italian in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77212 must also take SEDC 77222.
SEDC 77213 - Practicum in Spanish, Grades 7–9

Supervised practicum for teachers of Spanish in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77213 must also take SEDC 77223.

SEDC 77221 - Practicum in French, Grades 10–12

Supervised practicum for teachers of French in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77221 must also take SEDC 77211.

SEDC 77222 - Practicum in Italian, Grades 10–12

Supervised practicum for teachers of Italian in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77222 must also take SEDC 77212.

SEDC 77223 - Practicum in Spanish, Grades 10-12

Supervised practicum for teachers of Spanish in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77223 must also take SEDC 77213.
SEDC 77310 - Practicum in Mathematics, Grades 7–9

Supervised practicum for teachers of mathematics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77310 must also take SEDC 77320.

prereq: SEDC 72300
prereq or coreq: SEDF 70600
Hours 45 hrs plus conferences
Credits 3

SEDC 77320 - Practicum in Mathematics, Grades 10-12

Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 773.20 must also take SEDC 77310.

prereq: SEDC 723
Hours 30 hrs plus conferences,
Credits 2 cr

SEDC 77411 - Practicum in Biology, Grades 7–9

Hunter College-supervised practicum for teachers of biology in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77411 must also take SEDC 77421.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

SEDC 77412 - Practicum in Chemistry, Grades 7–9

Supervised practicum for teachers of chemistry in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77412 must also take SEDC 77422.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

SEDC 77413 - Practicum in Physics, Grades 7–9

Hunter College-supervised practicum for teachers of physics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77413 must also take SEDC 77423.
SEDC 77414 - Practicum in Earth Science, Grades 7–9

Hunter College-supervised practicum for teachers of earth science in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77414 must also take SEDC 77424.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

SEDC 77421 - Practicum in Biology, Grades 10-12

Hunter College-supervised practicum for teachers of biology in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400
Hours 45 hours plus conferences
Credits 3

Students who take SEDC 77421 must also take SEDC 77411.

SEDC 77422 - Practicum in Chemistry, Grades 10–12

Supervised practicum for teachers of chemistry in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr

Students who take SEDC 77422 must also take SEDC 77412.

SEDC 77423 - Practicum in Physics, Grades 10–12

Hunter College-supervised practicum for teachers of physics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77423 must also take SEDC 77413.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr
**SEDC 77424 - Practicum in Earth Science, Grades 10–12**

Hunter College-supervised practicum for teachers of earth science in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take *SEDC 77424* must also take *SEDC 77414*.

*prereq: SEDC 72400*

*Hours 30 hrs plus conferences,*

*Credits 2 cr*

**SEDC 77510 - Practicum in Social Studies, Grades 7–9**

Supervised practicum for teachers of social studies in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take *SEDC 77510* must also take *SEDC 77520*.

*prereq: SEDC 72500*

*prereq or coreq: SEDF 70600*

*Hours 45 hours plus conferences*

*Credits 3*

**SEDC 77520 - Practicum in Social Studies, Grades 10–12**

Supervised practicum for teachers of social studies in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take *SEDC 77520* must also take *SEDC 77510*.

*prereq: SEDC 72500*

*Hours 30 hrs plus conferences,*

*Credits 2 cr*

**SEDC 77610 - Practicum in Music, Grades Pre-K–6**

Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take *SEDC 77510* must also take *SEDC 77620*.

*prereq: MUSED 67800*

*Hours 30 hrs plus conferences,*

*Credits 2 cr*

**SEDC 77620 - Practicum in Music, Grades 7–12**

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take *SEDC 77520* must also take *SEDC 77610*.
prereq: MUSE 67800  
Hours 30 hrs plus conferences,  
Credits 2 cr

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,  
Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,  
Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400  
Hours 30 hrs, plus 36 hrs fieldwork,  
Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500  
coreq: One of the following must be a Co-req:

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 731; SEDC 711.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; SEDC 773.3; MUSE 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23
Hours 30 hrs, plus lab,  
Credits 2 cr  

**SEDF 71400 - Adolescent Development and Learning: Grades 7-12**

This course prepares teacher candidates to think about how adolescents develop and learn by examining the process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and levels of ability. Emphasis will be placed on creating culturally compatible classrooms, motivating students, and assessing their learning.

Hours 45  
Credits 3

**Education: Bilingual Education**

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*  
Credits 3 cr

**BILED 71100 - Bilingual Literacy-Spanish**

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

*coreq: BILED 71150*  
*prereq or coreq: BILED 77100*  
*Hours 30*  
*Credits 2*

**BILED 71150 - Fieldwork in Bilingual Literacy**

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*coreq: BILED 77100*  
*Hours 75 hrs,*  
*Credits 1 cr*
BILED 71200 - Bilingual Literacy-French

Bilingual literacy - French: conducted in French and English and will present how to differentiate instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners. The course aims to develop teachers' ability to plan for language, content and literacy skills by designing a thematic integrated literacy unit. The course will assist teachers in understanding how to develop students' oral language, spelling, grammar, and vocabulary.

prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education

Hours 30
Credits 2

BILED 71300 - Bilingual Literacy-Chinese

Bilingual Literacy – Chinese focuses on the development of literacy skills in both English and Chinese for students in bilingual programs. The emphasis is on L1 and L2 literacy using narrative and expository text, technology, and the arts as mediums for developing skills. This course will be conducted in Chinese and English.

prereq or coreq: BILED 77100, BILED 77150

Hours 30
Credits 2

For the Advanced Certificate Leading to an Extension in Bilingual program: the prereq or coreq is BILED 77150

BILED 71700 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

prereq: BILED 77100, CEDCF 70050

Hours 45 hrs,
Credits 3 cr

BILED 76800 - Instruction through the Native Language-French

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

prereq or coreq: BILED 70100 and CEDF 70900 for the MSEd/Childhood Education Grades 1-6 with bilingual extension; for the MSEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100

Hours 45
Credits 3

BILED 76900 - Instruction through the Native Language-Chinese

To enhance Chinese language skills of teacher candidates for the purpose of teaching content areas in and through Chinese. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop,
adapt and revise curriculum materials in Chinese for the bilingual classroom.

**Hours** 45 hours plus 10 hours of fieldwork

**Credits** 3

**Prereq or Coreq:** For the Childhood education Grades 1-6 with a Bilingual Extension program: BILED 70100, CEDF 70900; For the MSEd in Early Childhood Education Birth through Grade 1 with a Bilingual Extension: Program 1, BILED 70100, ECF 70000; Program 2, none; Program 3, BILED 70100; For the Advanced Certificate Leading to and Extension in Bilingual program: none.

**BILED 77100 - Psychology of Language Learning and Teaching**

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

**Prereq or coreq:** BILED 70100

**Hours** 30 hrs plus 5 hrs of fieldwork and lab,

**Credits** 2 cr

**BILED 77800 - Instruction Through the Native Language-Spanish**

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

**Prereq or coreq:** BILED 70100

**Hours** 45 hrs plus 10 hrs of fieldwork,

**Credits** 3

**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

**Prereq or coreq:** BILED 70100

**Hours** includes 5 hrs of fieldwork

**Credits** 3 cr

**BILED 78000 - Bilingual Research Seminar**

The bilingual research seminar, which serves as the culminating experience, focuses on the relationship between educational research and the classroom teacher. Students will review significant bilingual research to consider the implications of findings for bilingual instruction, and they will initiate their own classroom/community studies to reflect upon their own practice and to become critical consumers of research.

**Prereq or coreq:** 39 credits or permission of program coordinator

**Hours** 30 hrs plus lab,

**Credits** 2 cr
BILED 78200 - Supervised Student Teaching Grades 1–3 and 4–6

Supervised student teaching at two grade levels in an elementary bilingual setting selected by Hunter College; four full days a week plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

prereq or coreq: completion of 39 cr of course work or permission of the program coordinator
Hours 60 days (30 in grades 1-3, 30 in grades 4-6) plus 15 hrs of seminar
Credits 4

BILED 78300 - Practicum in Grades 1–3

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

prereq: completion of 39 cr of course work or permission of the program coordinator
Hours 15 hrs of seminar plus conferences
Credits 2 cr

BILED 78400 - Practicum in Grades 4–6

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500

prereq: completion of 39 cr of course work or permission of the program coordinator
Hours 15 hrs of seminar plus conferences,
Credits 2 cr

BILED 78600 - Student Teaching in Grades 4–6

Twenty days of supervised student teaching at grade level 4–6 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

prereq: completion of 39 credits of course work or permission of the program coordinator
Hours 30 days student teaching, 15 hrs of seminar plus conferences,
Credits 2 cr
Education: Childhood Education

CEDC 70000 - The Art of Effective Teaching

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

prereq or coreq: CEDF 70900
Hours includes 5 hrs of fieldwork
Credits 3

CEDC 70100 - Beginning Elementary Literacy Methods

Beginning Elementary Literacy Methods is the first of a two-part sequence designed for pre-service graduate teacher candidates as an introduction to the content and procedures used to teach English language arts to elementary students. Students will learn how children develop reading and writing concepts and abilities, become familiar with children's literature, both nonfiction and fiction, and understand current practices of literacy instruction and assessment.

coreq: This course should be taken with CEDF 70900, CEDC 70500, EDSEL 79600, CEDC 77200 Fieldwork & Teaching Seminar 1.
Hours 45
Credits 3

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000
Credits 3

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900
Credits 3

CEDC 70400 - Teaching Developmental Reading
The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

**CEDC 70450 - Teaching Developmental Reading**

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

**CEDC 70500 - Mathematics Curriculum and Methods**

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

**CEDC 70550 - Mathematics Curriculum and Methods**

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

**CEDC 70600 - Reflective Practice in Elementary School Social Studies Curriculum Development**

The course addresses the knowledge, skills, and attitudes for teaching the Social Studies curriculum to elementary grade students. This course is designed to introduce the content of the New York State Social Studies curriculum and the national standards for teaching Social Studies (http://www.socialstudies.org/standards/strands/) and focus on multiple instructional strategies to deliver this curriculum. There is an emphasis on integrating children's literature, the arts, and technology into the Social Studies curriculum and on experiencing the kinds of instructional methods and
strategies recommended as current best practices for teaching the Social Studies curriculum.

prereq or coreq: To be taken with CEDF 71000, CEDC 70300, CEDC 72200, CEDC 70200, CEDC 77300.
Hours 45
Credits 3

CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3

CEDC 71200 - Advanced Methods of Teaching Math in Elementary Schools

Ways to set up and monitor mathematical investigations designed to promote flexible problem solving, active learning, finding patterns, reasoning logically, formulating and verifying hypotheses. Error analysis and remediation.

prereq: CEDC 70500
Hours 45 hrs,
Credits 3

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3

CEDC 71400 - Advanced Educational Technology for Elementary School Teachers

Students will link prior knowledge of instructional technology with curriculum development strategies to design integrated learning events.

prereq: CEDF 70900, and a course on computers or demonstrated literacy in basic computer skills and tool applications (word processing, spreadsheets, database, and presentation as well as the Internet)
Hours 45 hrs,
Credits 3
CEDC 71500 - Fieldwork: Reading and Social Studies

Supervised experiences in pedagogical applications of literacy and social studies methods courses. Students will complete six hours of fieldwork per week for a minimum of 75 contact hours per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individual and small groups of children. Students will be placed in Hunter College-selected elementary schools and other educational programs.

*prereq: CEDF 70900
*coreq: CEDC 73000 and 72200
*Hours 75 hrs of fieldwork,
*Credits 1

CEDC 71600 - Educational Technology in Mathematics and Science Teaching/Learning

An advanced educational technology course for students concentrating in mathematics and science at the elementary school level. Students will link prior knowledge of instructional technology to curriculum development creating the strategies to design integrated learning materials in mathematics and science.

*Hours 45 hrs.
*Credits 3

CEDC 71700 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

*Credits 1

CEDC 71800 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

*Credits 2

CEDC 71900 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

*Credits 3

CEDC 72200 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology
Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

**CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology**

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

**CEDC 72400 - Student Teaching in Grades 1–3 and 4–6**

Supervised student teaching at two grade levels, 1–3 and 4–6, in an elementary school selected by Hunter College; four full days a week plus conferences and professional development workshops.

*Note:* Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March.

**CEDC 72500 - Student Teaching in Grades 1–3**

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 728: Practicum in grades 4–6. *Note:* Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Not for students who have completed EDC 72400 or 72700.
prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus 30 days of student teaching
Credits 3

CEDC 72600 - Student Teaching in Grades 4–6

Teacher candidates who take this course must also take CEDC 72500 or CEDC 72700. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 72700 Practicum in grades 1–3. Not for students who have completed CEDC 72400 or 72800.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus 30 days of student teaching
Credits 3

CEDC 72700 - Practicum in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800. Note: Applications for spring semester student teaching are due in October; applications for fall semester practicum are due in March. Not for students who have completed CEDC 72400 or 72500.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus supervision and conferences
Credits 2

CEDC 72800 - Practicum in Grades 4–6

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72700. Note: Applications for spring semester practicum are due in October; applications for fall semester student teaching are due in March. Not for students who have completed CEDC 72400 or 72600.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus supervision and conferences
Credits 2

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1
CEDC 72950 - Fieldwork in Childhood Education for Bilingual Educators

Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

_prereq:_ CEDF 70900; BILED 70100. Observing and assisting teaching in an elementary school setting
_Hours_ 15 hrs of seminar plus 50 hrs fieldwork
_Credits_ 1

CEDC 73000 - Perspectives on Literacy Across the Content Areas

Literacy across the curriculum. Skills, strategies and techniques to teach reading and writing in the content areas will be developed. Expository as well as narrative texts will be utilized.

_prereq:_ CEDF 70900; CEDC 70400
_coreq:_ CEDC 71500 and 72200
_Hours_ 30 hrs,
_Credits_ 2

CEDC 73800 - The English Language: Theories and Pedagogical Implications

An overview of the acquisition, structure and use of English. Its goal is to provide Pre-K thru 6 teachers who already have prior certification in childhood education with the awareness and understanding of the aspects of the English language they will need in order to teach a variety of content area in grades Pre-K thru 6.

_Hours_ 45 hrs,
_Credits_ 3

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

_Hours_ 45 hrs,
_Credits_ 3

CEDC 74200 - Workshop Seminar in Elementary School Mathematics/Science

The major course goals are to continue to develop a foundation for the growth of the professional mathematics/science educator and to increase the effectiveness as a curriculum decision-maker. Through selective experiences, the course will focus on instructional styles and strategies.

_prereq:_ all program courses except CEDC 74300
_Hours_ 45 hrs
_Credits_ 3

CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research
related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

*Hours 45 hrs*
*Credits 3*

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.

*prereq: all program courses except CEDC 74200 and CEDC 74300*
*Hours 45 hrs*
*Credits 3*

CEDC 74600 - Geographic Perspectives in Elementary Education

Geographic principles and practices; development of pedagogic skills to teach geography at the elementary school level; development of skills in teaching geography of New York City and New York State; development of understanding of global issues and of geographic factors affecting historical events.

*Hours 45*
*Credits 3*

CEDC 74700 - Number Theory and Algebra in Elementary Curriculum

A study of the underpinnings of Number Theory and Algebra and the role they play in curriculum, teaching and student learning. This course gives participants a deeper understanding of algebra and how students learn transition from arithmetic to algebraic reasoning.

*prereq: The course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.*
*Hours 45 hrs*
*Credits 3*

CEDC 74800 - Geometry and Measurement in the Elementary

A study of the underpinnings of Geometry and Measurement and the role they play in curriculum, teaching, and supporting student learning. Topics in Geometry and Measurement are important concepts at the elementary school level and this course gives participants a deeper background in these two areas. Additionally, pedagogical practices important in these areas will be examined as well as a deep study of how students develop these concepts through curriculum, representations, manipulatives, and pedagogical practices will be discussed.

*prereq: This course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.*
*Hours 45*
*Credits 3*

CEDC 74900 - Leadership in Elementary School Mathematics
A study of mathematics leadership and the development of mentors, coaches, and leaders of professional development.

prereq: This course is intended for students in the Elementary Mathematics Specialist program. Completion of at least 24 credits in the program.
Hours 45
Credits 3

CEDC 75500 - Assessment and Instruction for Diversely Gifted Learners

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

Cross-listed SPED 75500
prereq or coreq: SPED 75300 and SPED 75400
Hours 45, includes 20 hrs field experience
Credits 3

CEDC 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed SPED 75600, ADSUP 76500, CEDF 75600
prereq or coreq: SPED 75300 and SPED 75400
Hours includes 10 hrs field experience
Credits 3

CEDC 76000 - Special Topics in the Arts

The theory and application of children's artistic development. Course includes visual arts contents, instructional techniques, technology, materials and their use across the elementary school curriculum. Through hands-on workshops the teacher candidate will understand how to plan and utilize a visual arts curriculum to enhance student's cognitive, perceptual, expressive and imaginative abilities.

prereq: CEDC 70700
Hours 45 hrs
Credits 3

CEDC 77200 - Fieldwork & Teaching Seminar 1

Fieldwork & Teaching Seminar 1 is the initial experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

coreq: This course should be taken with CEDF 70900, CEDC 70500, CEDC 70100, EDESL 77100.
Hours 30
Credits 2
30 days (field) & 15 hrs (course)
CEDC 77300 - Fieldwork & Teaching Seminar 2

Fieldwork & Teaching Seminar 2 is the second experience in an elementary partner school for the clinically rich track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDF 71000, CEDC 70300, CEDC 70600, CEDC 70200.
Hours 30
Credits 2
30 days (field) & 15 hrs (course)

CEDC 77400 - Fieldwork & Teaching Seminar 3

Fieldwork & Teaching Seminar 3 is the third experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDF 71600, CEDC 73900, CEDC 70700, CEDC 71300.
Hours 30
Credits 2
45 days (field) & 15 hrs (course)

CEDC 77500 - Fieldwork & Teaching Seminar 4

Fieldwork & Teaching Seminar 4 is the fourth and final experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDC 71000.
Hours 45
Credits 3
75 days (field) & 15 hrs (course)

CEDC 77600 - Planet Earth: Earth and Space Sciences for Elementary School Teachers

Methods and content of teaching Earth and Space sciences topics to children. The course integrates issues of pedagogy and science content through interactive class meetings. Students will experience hands-on and mind-on science activities appropriate for the grade school level. Courses materials are aligned with K-12 Next Generation Science Standards (2013). All students are expected to learn science content, student's alternative ideas, lesson design and methods of teaching life science.

Hours 3 hrs
Credits 3

CEDC 77700 - Physical Science Background for Elementary Teachers

Concepts in the physical sciences, chemistry and physics necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

Hours 45 hrs
Credits 3
CEDC 77800 - Life Sciences

The methods and content of teaching life science topics to children. The course integrates issues of pedagogy and science content through interactive class meetings. Students will experience hands-on and mind-on science activities appropriate for the grade school level. Courses materials are aligned with K-12 Next Generation Science Standards (2013). All students are expected to learn science content, student's alternative ideas, lesson design and methods of teaching life science.

Hours 3  
Credits 3

CEDC 77900 - Robotics and Engineering

New methods of teaching innovative school curricula in robotics and engineering. Students will design and program their own robotic vehicles and learn elementary school materials by a hands-on process and project work. The curriculum is modeled on the First LEGO League competitions popular at the grade school-level. Engineering is Elementary, a school curriculum to improve children's understanding of engineering principles, is also explored from a student-centered perspective. These new STEM curriculum for elementary schools are supported by K-12 Next Generation Science Standards (2013). All students who enroll in the course will emerge with training to teach these curricula in elementary schools, in informal settings and after school programs.

Hours 3  
Credits 3

CEDCF 70050 - The Art and Science of Effective Teaching

This course is designed to introduce pre-service bilingual and TESOL educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

Hours includes 5 hrs of fieldwork  
Credits 3

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Hours 45 hrs  
Credits 3

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.
CEDF 70800 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing certification in childhood education with a bilingual extension or in TESOL. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

CEDF 71500 - Diversity in the American School

Advanced, graduate-level survey of current issues and theories of diversity and their impact upon the contemporary American school. Topics will be from an interdisciplinary perspective with attention to social policy implications.
CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

Credits 3

CEDF 71700 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1

permission of faculty adviser and chairperson required

CEDF 71800 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2

permission of faculty adviser and chairperson required

CEDF 71900 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3

permission of faculty adviser and chairperson required

CEDF 75000 - Special Topics in Diversity

An examination of the history and adaptation of diverse groups in the U.S. and their experience in the American educational system. Emphasis is on the role of culture, structure and policy in facilitating and/or hindering opportunities for these groups to achieve educational equity.

prereq: CEDF 70900
prereq or coreq: CEDF 70600
Hours 45 hrs
Credits 3

CEDF 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity
An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

Cross-listed SPED 75300  
Hours includes 10 hrs field experience  
Credits 3

**CEDF 75600 - Professional Discourse and Leadership in Gifted Education**

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed SPED 75600, ADSUP 75600, CEDC 75600  
 prereq or coreq: SPED 75300 and SPED 75400  
Hours includes 10 hrs field experience  
Credits 3

**CEDF 79200 - Integrative Seminar: Research in Childhood Education**

Students prepare research proposals on topics which summarize and apply previous learnings. Written and oral presentations.

 prereq: completion of 31 cr. of course work including CEDC 73000 and CEDF 71600 or permission of the childhood education adviser  
Hours 45 hrs  
Credits 3

**Education: Dance Education**

**DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning**

An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct "action research" in order to identify conditions that support or hinder productive teaching and learning. This first phase of the "methods" course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).

 prereq or coreq: 6 credits in education and 12 credits in dance
DANED 76200 - Dance Methods II: Advanced Curriculum Design and Pedagogy for Productive Teaching and Learning

Advanced investigation of contexts for productive teaching and learning. Students will engage in intensive examinations of pedagogical theories and practices, conduct "action research" in order to identify conditions that support or hinder productive teaching and learning, develop unit plans, and participate in peer-to-peer inquiry groups to develop their own artistry in teaching.

Prereq: DANED 76000
Credits 3

DANED 76400 - Practicum

Students with initial state certification in dance complete a semester of Practicum in their current full-time dance teaching situation or in assigned schools under the supervision of a Hunter College faculty member. Practicum teachers will assume all responsibility for classroom instruction and management and will be observed by Hunter faculty 4 times during the course of the semester. All Practicum students are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

Prereq: DANED 76000, DANED 76200
Hours 2 hrs plus 15 hrs seminar required
Credits 3

DANED 76602 - Student Teaching

Teacher candidates complete a total of 20 days of student teaching under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty twice during the course of their student teaching experience. All student teachers are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

Prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000; DANED 76000, DANED 76200
Hours 20 days plus 15 hrs seminar
Credits 2

DANED 76605 - Student Teaching

Teacher candidates complete a total of 60 days of student teaching (30 days of student teaching at grades pre-K-5 and 30 days at grades 6-12) under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty 4 times during their student teaching experience. All student teachers are required to participate in a seminar class meeting 1 hour per week for 15 weeks. A culminating professional project is required before graduation.

Prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000, DANED 76000, 76200
Hours 60 days plus 15 hrs seminar
Credits 5
Education: Doctoral

**EDF 80000 - Statistics for Applied Educational Research I**

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, statistical assumptions, t-tests, analysis of variance, correlation, and chi-squared.

*prereq: SPED 80000  
*Hours 3 hrs  
*Credits 3 cr

**EDF 80100 - Qualitative Methods in Educational Research**

This graduate course introduces students to qualitative research within the field of education. The course provides an overview of the different approaches to qualitative research and specific strategies of data collection and analysis, their underlying assumptions and appropriateness for particular research questions, and authentic experience with qualitative research.

*prereq: SPED 80000  
*Hours 3 hrs  
*Credits 3 cr

**EDF 80200 - Quantitative Methods and Measurement**

The purpose of this course is to increase students' understanding of quantitative research methods and design issues relevant to the pursuit of research in education, with a focus on correlational, experimental and quasi-experimental design.

*prereq: EDF 80000  
*Credits 3 cr

**EDF 80400 - Analysis of Major Issues in Contemporary Education Reform**

After a brief review of the history of education reform efforts, we will study the major debates and policy initiatives that have shaped the contemporary structures of American public education. We will seek to understand what is at stake in these initiatives, the evidence behind their adoption and resistance to them.

*Hours 3 hrs  
*Credits 3 cr

**EDF 81000 - Mind, Brain, and Education**

This course provides students with knowledge from the neuro and cognitive sciences that can be applied in practice. This course begins with an introduction to mapping the physical features of the brain before leading into contemporary research on "brain-based" research and educational curricula and programs. Students will engage in examining research and separate "nureomyth" from "neuroscience" in order to be informed by new knowledge from the science of learning.

*Hours 3 hrs  
*Credits 3 cr
EDF 83000 - Dissertation Proposal Seminar

This course is a seminar designed to provide students with a general overview of the structure and components of a dissertation proposal. It serves as common ground for all cohort members to prepare for highly individualized work with a dissertation advisor in subsequent semesters. Throughout this course, students will focus upon the following components: (1) the background of the problem to be investigated; (2) formulating a research question(s); (3) developing a theoretical framework; (4) conducting a literature review; (5) choosing research methods to collect data; (6) analyzing findings; and (7) generating implications. These elements will be taught in relation to a "traditional" five-chapter dissertation, along with variations and expansions of this structure. In addition, students will review and become certified in appropriate IRB requirements. A major goal of this seminar is to individualize support with view to preparing each student to develop a topic for approval that will continue to be worked upon with a dissertation advisor during the following semester.

*Hours 3 hrs
*Credits 3 cr

EDF 83100 - Dissertation Advisement I

Dissertation Advisement I is a customized course of study taken immediately after Dissertation Seminar. The purpose of this course is to provide individualized support to doctoral students as they continue to engage with components of their dissertation to develop a robust proposal. The dissertation proposal must minimally consist of the first three chapters that include the following components:

- the background of the problem to be investigated;
- research question(s);
- a theoretical framework, where appropriate;
- a literature review;
- selected research methods to collect data;
- tentative description of intended analysis. In addition, it should be sufficient to be the basis of creating an IRB research proposal.

Note: This course is cross listed with SPED 83100

*prereq: Dissertation Proposal Seminar (Pre-Requisite)*

*Hours 2 hrs
*Credits 2 cr

EDUC 80100 - Research on Curriculum and Teaching of English Language Learners

The focus of this course is on effective curriculum and instruction supporting the academic, social, and emotional development of ELLs. Topics and assignments provide a direct connection of research to programming, and policy for ELLs in P-12 school contexts. Analysis of research on ELL education, including review of quantitative and qualitative studies of instruction and curriculum for ELLs will provide the foundation for the course content. This course will prepare doctoral students to critically evaluate educational research on ELLs, deeply understand the core components of quality instruction for ELLs in P-12 classrooms, and be able to clearly identify appropriate methods for addressing and improving instruction and curriculum for ELLs. Topics and assignments are designed to provide theory that directly connects to the design of instructional models of and curricula for ELL instruction.

*Hours 3 hrs
*Credits 3 cr
EDUC 80300 - Research on Effective Practice and Curriculum in Math

The course will examine the current research on effective mathematical teaching, assessment practices, student learning, and curriculum design. Students will synthesize research and engage in research explorations focused on problems of practice.

Hours 3 hrs  
Credits 3 cr

EDUC 80400 - Research on Effective Practice and Curriculum in Arts and Humanities

This course examines current research in Arts and Humanities curriculum and its implementation. It addresses a host of theoretical and policy-oriented approaches to the teaching and learning of the arts and humanities. Particular attention will be paid to research on arts and humanities instruction and interventions that serve the needs of diverse students in urban schools.

Hours 3 hrs  
Credits 3 cr

EDUC 80600 - Effective Professional Development of Teachers

In-depth study of research and practice in professional development for educators. Students will explore the literature about effective methods, contexts, and delivery of coaching, mentoring, and professional learning for teachers and other educators. Focus on understanding the strengths and weaknesses of different approaches to professional development, and on learning how to assess the appropriateness of a professional development strategy with respect to content and the teacher population to be served.

Hours 3 hrs  
Credits 3 cr

EDUC 80700 - Professional Communications for Educational Settings

This course explores a range of educational and school-based writing genres and writing for a variety of audiences. Resources and practices related to developing and writing within a variety of genres from traditional print publications to new media outlets will be introduced, explored and, most importantly, enacted.

Hours 3 hrs  
Credits 3 cr

EDUC 80800 - Action Research

The purpose of this course is to explore various aspects of a movement in education and educational research in which educators (e.g., P-12 teachers, school administrators, etc.) actively participate in making change in their practice through conducting systematic inquiry and research. The course will provide a broad overview of the epistemological, political, and methodological issues associated with the idea of practitioner research.

prereq or coreq: EDS 80300 Qualitative Research Methods  
Hours 3 hrs  
Credits 3 cr
EDUC 80900 - Case Studies in Education: Institutions, Schools, Programs, Classrooms, and Individuals.

This course examines case study as a research design in educational contexts. The unit of study can include institutions, schools, programs, and individuals. A variety of topics will be explored, including becoming familiar with types of case studies, conceptualizing case study research, creating research questions, generating data, use of analytic methods, and application of case study findings to leadership and practice. In addition, the course will feature related, sometimes overlapping, methodological approaches such as portraiture and narratives. The course engages students in substantial study and critique of current and "classic" cases in educational research based on candidates' fields of interest. Particular attention will be paid to ethical considerations in conducting case study research in urban schools and communities.

Hours 3 hrs
Credits 3 cr

SPED 80000 - Introduction to Doctoral Studies: Theory and Research in Curriculum and Teaching

This course provides a brief overview of theory and research in curriculum and teaching. Students will consider how their own positionality influences ways in which they read and interpret educational research. Conversely, students will also understand how a researcher's positionality influences all aspects of their research, including: questions asked; theoretical framework adopted; methodologies chosen; data collection; analysis and interpretation of data; results or findings; and implications. Students will also engage in studying selected influences of curriculum history, particularly post 1945-present. These influences include: The Cold War, Civil Rights Movement, The War on Poverty, No Child Left Behind, and the Standards Movement. This course will serve as a beginning to cultivating student interests in developing their own research studies by weaving together theory, research, practice, and policy within education.

Hours 3 hrs
Credits 3 cr

SPED 80100 - Research on Effective Practice and Curriculum for Students with Disabilities

This course provides the opportunity to consider disability in the context of schools and society—with view to engaging with, and critiquing, existing research in the fields of special education and disability studies in education (DSE). We will be mindful of how the disposition and paradigm of researchers influences all aspects of their work including: problems identified; questions asked; methods used; analysis employed; findings or results; interpretations, and: implications. This course focuses on the nature of evidence-based practice involving students with disabilities within specific contexts. The course is designed to provide a foundation for the course work, independent scholarship, and educational research that students will undertake in the process of completing the doctoral degree.

Hours 3 hrs.
Credits 3 cr.

Education: Early Childhood

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2
Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000*
*Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*
*Credits 3*

**ECC 70400 - Language and Literacy: Birth through Grade 2**

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

*prereq or coreq: ECF 70000*
*Hours 45 hrs*
*Credits 3*

**ECC 70500 - Language and Literacy: Birth through Kindergarten**

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

*prereq or coreq: ECF 70000*
*Hours 45 hrs*
*Credits 3*

**ECC 70600 - Language and Literacy: K through Grade 2**

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

*prereq or coreq: ECC 70500 (early childhood students only)*
*Hours 45 hrs*
*Credits 3*

**ECC 70700 - Language and Literacy: English Language Learners**

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

*coreq: ECC 70400*
*prereq or coreq: 70500 or 70600*
*Hours 15 hrs*
*Credits 1*
ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300
prereq or coreq: ECF 70200
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels
Credits 3

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

ECC 71000 - Early Childhood Mathematics: Birth through Grade 2

Theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

ECC 71100 - Science in Early Childhood Education: Birth through Grade 2

Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K–2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.
ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs
Credits 3

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,
Credits 1 cr

ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 30 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience.(Birth– 3, preK–2)

prereq: prereqs: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only))
Hours 30 hrs of seminar plus 60 days of student teaching
Credits 3

ECC 71650 - Student Teaching in Early Childhood Bilingual Settings

Two student teaching placements of 30 days each at different age/grade levels (Pre-K–K and 1–2).
prereq: ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200
Hours Bi-weekly seminar (30 hrs)
Credits 2

ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)

Hours 15 hrs of seminar plus conferences,
Credits 1

ECC 71800 - Early Childhood Student Teaching

This is a college supervised experience and is offered during the regular academic year and in the summer to facilitate the opportunity for practice at a different age/grade level than ECC 71700. This course has two key components: (1) a minimum of 30-days of student teaching in Pre-K, or grades 1-2 and; (2) biweekly seminar (15 hours).

prereq: ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200
Hours Bi-weekly seminar (15 hrs)
Credits 1

ECC 71850 - Early Childhood Bilingual Student Teaching

Student teaching for 30 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750. (Not for students who have completed ECC 71650.)

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)
Hours 15 hrs of seminar plus 30 days of student teaching
Credits 2

ECC 71951 - Special Topics in Early Childhood Education
Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

**ECC 71952 - Special Topics in Early Childhood Education**

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

*prereq: special permission of an early childhood education adviser  
Hours 15, 30, and 45 hrs  
Credits 1, 2, and 3*

**ECC 71953 - Special Topics in Early Childhood Education**

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

*prereq: special permission of an early childhood education adviser  
Hours 15, 30, and 45 hrs  
Credits 1, 2, and 3*

**ECC 72000 - Integrative Seminar in Early Childhood Education**

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

*prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)  
Credits 3*

**ECC 80100 - Research and Practice in Early Childhood Education**

Overview of the historical and social influences on early childhood research and practice. Candidates will gain a comprehensive understanding of the significant policy, programmatic and pedagogical factors affecting the formal, symbolic and societal curricula, within and across early childhood education and care settings.

*Hours 3 hrs  
Credits 3 cr*

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.
ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

prereq: ECF 70000

Early Childhood Special Education

SPEDE 76500 - Special Topics in Early Childhood Special Education

One-credit special topics courses focus on narrowly defined topics of high current relevance in the field of early childhood special education.

prereq: SPEDE 76800 and 76900 or permission of the coordinator of the early childhood special education program

SPEDE 76700 - Field Experiences in Early Childhood Special Education with an Annotation in Severe Disabilities

prereq: SPEDE 77000, SPED 79000, and SPED 79100
prereq or coreq: SPEDE 77100

SPEDE 76800 - Fostering Development in Young Children with Diverse Abilities: Historical, Political, and Inclusive Perspectives
This course explores the variability of development in infants and young children, and related developmental promotion approaches, through a lens of cultural, linguistic, and ability diversity. Functional developmental competencies and the range of developmental consequences within specific diagnoses will be examined, including the implications for supporting learning and development in classrooms, homes, and communities. The evolution of laws, regulations, and inclusive practices to current early intervention and early childhood special education recommended practices will be situated within this developmental framework.

**SPEDE 76900 - Evaluation, Assessment, and Program Planning for Infants and Young Children with Special Needs**

Developmentally appropriate and recommended practices for assessing the development and learning of young children from infancy through age 7 years (second grade) and identifying family strengths and supports. Application of tools, observations, and discussions with informed others to make decisions in screening, evaluation and program planning will be explored within a transdisciplinary team. Students must receive a grade of B or better.

**SPEDE 77000 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula**

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods. Students must receive a grade of B or better.

**SPEDE 77100 - Autism Spectrum Disorder: Characteristics and Implications for Intervention**

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

**SPEDE 77200 - Positive Behavior Support (PBS) and Its Application to Young Children with Special Needs**
The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

prereq: SPEDE 768 OR SPED 700
Hours Includes 5 hrs of field experience
Credits 3 cr

SPEDE 77000 - Families, Parenting, and Family-Professional Partnerships: Theories, Research, and Practices

This yearlong course focuses on the significant influence of the family in early childhood learning and development and evidence-based strategies for creating and sustaining effective family-professional partnerships to optimize family and child outcomes in classroom, home, and community settings. The developmental process of parenting, family capacity-building approaches, and convergence of family and professional expertise to promote child learning and development will be examined across diverse cultures, languages, abilities, settings, and urban contexts.

prereq or coreq: SPEDE 770
Hours 3.0 (YL)
Credits 3.0 (YL)
Includes 5 hrs field experience.

This is a yearlong course.

SPEDE 77400 - Adaptations for Individual Learners Across the K-2 Curriculum

Methods for supporting children with disabilities and special education needs, grades K–2 access the general education curriculum; Data-based decisions within a response to intervention framework and individualized modifications and adaptations, instructional approaches and specific methodologies effective with young children are emphasized.

prereq: SPEDE 77000 and SPEDE 77200 (for all programs);
and ECC 70400 or ECC 70900 (for Program 1 students only)
Hours 3 hrs: includes 5 hrs field experience
Credits 3 cr

SPEDE 77500 - Mathematics for Students with Special Education Needs, Grades K–2

Principles, methods, and specially-designed mathematics instruction for students with disabilities and special education needs, grades K–2; focus on concept development, concrete materials, the counting substrate and strategies, and verbal memory supports, as well as on differentiating kinds and degrees of math learning and disability.

prereq or coreq: SPEDE 76900
Hours 15 hrs,
Credits 1 cr

SPEDE 77600 - Introductory Field Experience in Early Childhood Special Education
Preparatory experience in a program supporting young children with diverse abilities; emphasis on what it means to be an early intervention/early childhood special education professional; One field placement of 10 days in a Kindergarten or Grade 1 or 2 setting.

prereq: ECC 71200 (for Program 1 students only)
prereq or coreq: SPEDE 77000
Hours 2 hrs.
Credits 2 cr.

**SPEDE 77651 - Field Experiences in Early Childhood and/or Childhood Special Education with an Annotation in Severe Disabilities: Autism**

Two field placements of 30 hours each, with the placements at different age/grade levels: Pre-K (Birth–5), Kindergarten, grades 1 and 2, grades 306; both of these experiences must be with children who have autism spectrum disorders.

prereq or coreq: SPEDE 77100 or permission of the program coordinator
Hours 30 hours seminar plus 60 hours of field experience,
Credits 2 cr

**SPEDE 77750 - Student Teaching: Early Childhood Special Education with Annotation in Severe Disabilities**

Supervised student teaching in two settings with 20 days in each placement; placements must be at different age/grade levels; Pre-K (Birth–5); Kindergarten; grades 1–2; practice in the implementation of skills developed through coursework and field experiences.

prereq: SPEDE 76700
Hours 30 hrs seminar plus 40 days,
Credits 4 cr

**SPEDE 77800 - Student Teaching in Early Childhood Special Education**

Supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and an abbreviated field experience. (Note that students who take SPEDE 77800 must also take SPEDE 77900 in addition to either SPEDE 77910 or SPEDE 77920 and the placement for SPEDE 77800 must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2 – than SPEDE 779. One semester of SPEDE 778 or SPEDE 779 must be in a PreK setting.)

prereq: SPEDE 77600, ECC 71200
prereq or coreq: SPEDE 77100
Hours 1.0
Credits 1.0
(Note that students who take SPEDE 77800 must also take SPEDE 77900 and the placements must be at different age/grade levels.)

30 hrs seminar plus 30 days student teaching

**SPEDE 77820 - Final Student Teaching in Early Childhood Special Education**
Second, full-semester, intensive supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.20 must have already taken either SPEDE 77810 or SPEDE 77910 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

**prereq:** SPEDE 77400 and either SPEDE 77810 or SPEDE 77910

*Hours 3 hrs. plus full semester of student teaching*

*Credits 3 cr.*

**SPEDE 77850 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

Supervised student teaching for 20 days at one of the following age/grade levels: Pre-K (Birth–5), Kindergarten, grades 1–2; practice in implementation of skills developed through coursework and field experiences.

**prereq:** SPEDE 76700

*Hours 30 hrs seminar plus 20 days,*

*Credits 2 cr*

(Note that students who take SPEDE 77850 must also take SPEDE 77950 and the placements must be at different age/grade levels. Students must be in an early childhood program with learners with severe disabilities for the entire semester.)

**SPEDE 77900 - Practicum in Early Childhood Special Education**

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences.

**prereq:** SPEDE 77600, ECC 71200

**prereq or coreq:** SPEDE 77100

*Hours 30 hrs seminar plus conferences,*

*Credits 2*

(Note that students who take SPEDE 77900 must also take SPEDE 77800 and the two experiences must be at different age/grade levels. Pre-K [Birth–five], Kindergarten, grades 1–2. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

**SPEDE 77910 - Initial Practicum in Early Childhood Special Education**

First intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.10 must also take SPEDE 77820 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

**prereq:** SPEDE 77600

*Hours 3 hrs plus full semester of practicum experience in worksite*

*Credits 3 cr.*

**SPEDE 77950 - Practicum in Early Childhood Special Education with an Annotation in Severe Disabilities**
Supervised practicum in an age/grade level other than that used in SPEDE 77850 practice in the implementation of skills developed through coursework and field experiences. Students must be in an early childhood program with learners with severe disabilities for the entire semester.

prereq: SPEDE 76700  
Hours 30 hrs seminar plus conferences,  
Credits 2 cr

**SPEDE 77951 - Practicum in Early Childhood Special Education**

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. Advanced students must complete individually-tailored assignments.

prereq: By permission  
Hours 3 hrs  
Credits 3 cr.

**SPEDE 78000 - Language Teaching Approaches and Strategies for Young Children with Autism Spectrum Disorders**

Assessment and instructional approaches to teaching language to young children with autism, including picture communication systems. Verbal behavior and visual supports for early literacy: collaboration with speech language therapists and parents.

prereq or coreq: SPEDE 77100 or permission of the program coordinator  
Credits 1 cr

**SPEDE 78100 - Incidental Teaching and Other Naturalistic Behavioral Strategies**

Overview of naturalistic behavioral strategies used in the education of young children with autistic spectrum disorders including incidental teaching, pivotal response training, natural language paradigm, and establishing operations to teach in the natural environment; involving parents.

prereq or coreq: SPEDE 77100 or permission of the program coordinator  
Credits 1 cr

**SPEDE 78200 - Higher Functioning Children with Autism Spectrum Disorders**

Understanding the special needs of higher functioning children with autism spectrum disorders; assessment, instructional approaches, models, and methods for use in educational settings.

prereq or coreq: SPEDE 771 or permission of the program coordinator  
Credits 1 cr

**SPEDE 78300 - Inclusion of Children with Autism Spectrum Disorders**

Why, when and how to include children with autism spectrum disorders in the educational mainstream; strategies that work for different types of students, families, and school environments.

prereq or coreq: SPEDE 771 or permission of the program coordinator  
Credits 1 cr
SPEDE 79900 - Field Experiences in Childhood Special Education

This is a supervised practicum and seminar with practice in the implementation of skills developed through coursework and field experiences. This course will provide the teacher candidate with an expanded range of experiences in early childhood special education settings. In addition, the course will heighten the teacher candidate's focus on critical features of best practice as defined by the recommendations of the Council for Exceptional Children. This will help to strengthen the teacher candidate's skills in analyzing and utilizing a range of instructional strategies.

Hours 30  
Credits 2  
This is a year-long course

Education: Counseling

COCO 70000 - Life Stage Development

Analysis of developmental stages throughout the lifespan.

Hours 45 hrs  
Credits 3

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs  
Credits 3

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

Hours 45 hrs  
Credits 3

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

Hours 45 hrs  
Credits 3

COCO 70500 - Vocational Assessment and Placement
Application of principles of occupational development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of the disabled. Sources and uses of occupational information, labor market trends. Emphasis on vocational evaluation, job development, follow-up.

Hours 45 hrs  
Credits 3

**COCO 70600 - Group Counseling**

Theory and principles of group counseling. Developing group-counseling skills through practice.

*prereq: COCO 70100 and COCO 70200*  
Hours 45 hrs  
Credits 3

**COCO 70700 - Multicultural Aspects of Counseling**

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs  
Credits 3

**COCO 70800 - Measurement and Appraisal**

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

Hours 45 hrs  
Credits 3

**COCO 70900 - Research Methods in Counseling**

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

Hours 45 hrs  
Credits 3

**COCO 71000 - Chemical Dependency: Issues in Counseling**

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

Hours 45 hrs  
Credits 3

**COCO 71100 - Supervision and Administration in Counseling**

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student
needs.

prereq: COCO 70600 and COCO 71800
Hours 45 hrs
Credits 3

**COCO 71200 - Career Counseling, Assessment and Placement**

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

Hours 60 hrs
Credits 4

**COCO 71500 - Family Systems and Counseling Issues**

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

Hours 45 hrs.
Credits 3 cr.

**COCO 71800 - Practicum in Counseling**

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

coreq: COCO 71900
prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600
Hours 100

**COCO 71900 - Individual Supervision**

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800
Hours 45
Credits 3

**COCO 72300 - Transition from School to Adult Living for Youth with Disabilities**

Services, programs, and processes for facilitating the transition of youth with disabilities and youth at risk from school to work, postsecondary education, independent living, and adult roles.

Hours 45 hrs,
Credits 3 cr
COCO 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

*prereq: COCO 71800 and COCO 71900
*prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100
*Hours Each 300 hrs to be arranged in selected field settings
*Credits 4 cr each semester

COCO 72600 - Internship in Counseling II

The second part of the internship follows COCO 72500 Internship in Counseling I.

*prereq: COCO 72500
*Hours 45
*Credits 4

COCO 72700 - Special Topics in Counseling

Study of significant issues, problems, and emerging trends in counseling.

*Hours 45 hrs.
*Credits 3 cr.

COCO 72800 - Special Topics in Counseling

Study of significant issues, problems, and emerging trends in counseling.

*Hours 45 hrs,
*Credits 3 cr

COCO 73500 - Seminar in Chemical Dependency

Counseling Skills and Techniques Introduces students to the various types of counseling involved in working with people who are chemically dependent. Students will have the opportunity to test skills and techniques necessary for counseling in a variety of settings that serve people with chemical dependencies.

*Hours 45 hrs,
*Credits 3 cr

COCO 74100 - Independent Study

Students will carry out independent project approved by faculty and supervised by a staff member.

*Hours 15 hrs (supervised),
*Credits 1 cr

COCO 74200 - Independent Study
Students will carry out independent project approved by faculty and supervised by a staff member.

Hours 30 hours (supervised),
Credits 2 cr

**COCO 74300 - Independent Study**

Students will carry out independent project approved by faculty and supervised by a staff member.

Hours 45 hrs hours (supervised),
Credits 3 cr

**COUNM 71600 - Foundations of Mental Health Counseling**

This course provides an overview of mental health counseling. The course will address the following: professional identity, functions and issues facing mental health practitioners; disparities in mental health services across culturally and linguistically diverse communities; principles, theories and practice of community interventions; public policy and governmental relations impacting mental health.

**prereq or coreq: DSM-IV Workshop**
Credits 3

**COUNM 71700 - Psychopathology: Diagnosis and Treatment**

This course provides a framework for understanding the range of personality and behavioral conditions that are presented in the Diagnosis and Statistical Manual of Mental Disorders of the American Psychiatric Association (DSM-IV). The class focuses on the description, etiology, assessment, diagnosis, treatment and prevention of these disorders within diverse urban settings.

Hours 45
Credits 3

**COUNM 72000 - Mental Health Counseling: Program Development and Evaluation**

The course focuses on the development and evaluation of mental health programs in culturally/linguistically diverse urban settings from program inception onward including assessment to insure quality services. The course covers federal, state and local governmental inpatient and outpatient mental health treatment services, not-for-profit organizations and community-based mental health service programs.

**prereq or coreq: COUNM 71600 and COUNM 71700**
Hours 45
Credits 3

**COUNS 71700 - Foundations of School Counseling**

History, philosophy, legal, and ethical considerations in school counseling. The school context and professional issues in school counseling will be emphasized, including the school counselor's role, developmental programming, counseling interventions, consultation and liaison, and advocacy.
**COUNS 72100 - Counseling Interventions for Children and Adolescents**

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

*prereq: COCO 70800*

**Hours 45**

**Credits 3**

**COUNS 72200 - School Based Consultation**

This upper level course provides counselors with the knowledge and skills necessary to engage in consultation, collaborative problem solving, and systems level intervention in educational settings. Theories, models, and processes of consultation of change will be examined.

*prereq or coreq: COCO 72500*

**Hours 45**

**Credits 3**

**Education: Counseling/Rehabilitation**

**COUNR 71600 - Resources and Foundations of Rehabilitation**

History, philosophy, and principles of the vocational rehabilitation process. Economic, legal, ethical, and social issues influencing rehabilitation services. Observation of services available in state, city, and private agencies.

**Hours 45 hrs**

**Credits 3**

**COUNR 72000 - Medical Aspects of Disability**

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

**Hours 45 hrs**

**Credits 3**

**COUNR 73000 - Counseling with the Aging**

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.
Education: School Counseling

COUNS 72000 - Culminating Seminar in School Counseling

With the permission of the supervising faculty member, the culminating experience in counseling provides the student with an opportunity to (a) participate as an integral member of a team involved in a research project, or (b) design an original evaluation or research project, or (c) complete a creative scholarly paper such as an extensive literature review. (Taken last semester prior to graduation)

prereq: COCO 70900
prereq or coreq: COCO 72600
Hours 45
Credits 3

Education: Educational Psychology

EDPS 70000 - Educational Psychology Proseminar

This proseminar consists of workshops, discussions and presentations on topics orienting students to the field of educational psychology and introducing them to the research interests of faculty members.

Credits: none

EDPS 70100 - Statistics and Statistical Computing in Education I

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, t-tests, analysis of variance, correlation, regression, and the use of computer packages for these analyses.

Hours 60
Credits 4

EDPS 70200 - Educational Research Methods

This course is to increase students' understanding of the nature, purposes, needs, and types of research conducted by educational researchers and psychologists. Students will learn a range of research designs and methods, and their applications to education-related settings and issues.

Hours 60
Credits 4

EDPS 70300 - Learning and Behavior Theories
This course provides students with an overview of the study of human learning and behavior. A major goal of this course is to provide students with the knowledge and skills necessary to enable them to appropriately apply theories of learning in instructional settings.

Hours 60  
Credits 4  

**EDPS 71100 - EDPS Metacognitive and Cognitive Processes in Education**

This course provides students with an overview of major research on metacognitive and cognitive processes in learning and instruction. Focuses will be on major theories and research as well as metacognitive and cognitive processes and strategy applications in the areas of mathematical learning, text comprehension, science, and writing.

prereq: EDPS 70200  
coreq: EDPS 70300  
Hours 60  
Credits 4  

**EDPS 71200 - Multicultural Issues in Learning and Instruction**

This course will examine the current research in K-12 education to explore the role of multicultural issues in teaching and learning.

prereq or coreq: EDPS 70200  
Hours 60  
Credits 4  

**EDPS 71300 - Cognition and Educational Technology**

This course covers research about the influence of educational technology on the development of thinking and learning.

prereq: EDPS 70300  
Hours 60  
Credits 4  

**EDPS 72100 - Statistics and Statistical Computing in Education II**

This course builds on knowledge of basic statistics, focusing on multiple regression and factorial ANOVA for statistical analysis of continuous and categorical independent variables. Diagnosis and treatment of data analytic problems such as missing data are discussed.

prereq: EDPS 70100, EDPS 70200  
Hours 60  
Credits 4  

**EDPS 72200 - Tests and Measurement**
This course covers the following topics: classical test theory, tests construction, reliability estimation and generalizability theory, validation, item analysis, test bias, and introduction to item response theory, and the use of high-stakes testing in educational policy.

prereq: EDPS 70100, EDPS 70200
Hours 60
Credits 4

EDPS 72300 - Educational Program Evaluation

This course is designed to provide students with an overview of key concepts, theories, and methodologies utilized in the field educational evaluation.

Hours 60
Credits 4

EDPS 74100 - Mediating Factors in Student Achievement

This course will examine the current research in K-12 education in an effort to explore several of the more widely identified mediating factors that directly impact upon student achievement.

prereq: EDPS 70300
Hours 60
Credits 4

EDPS 74200 - Special Topics in Educational Research Methods

This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300
Hours 60
Credits 4

EDPS 74300 - Special Topics in Educational Psychology

This course will examine current research regarding a selected topic within the field of educational psychology; topics and readings will vary by semester.

prereq: EDPS 70100, EDPS 70200, EDPS 70300
Hours 60
Credits 4

EDPS 74900 - Independent Study in Educational Psychology
Permission of faculty adviser and chairperson required. Independent study in the area of educational psychology. A maximum of 4 credits of independent study may be counted toward the degree.

Credits 1 - 4

EDPS 79000 - Educational Psychology Seminar

This course provides an opportunity for students to prepare an original scholarly review of research literature or theoretical paper of publishable quality on an educational psychological topic of interest. The general goal of the course is to enable students to apply their knowledge of educational psychological issues and research through the development of a scholarly research paper.

prereq: students must have completed a minimum of 24 credits
Hours 60
Credits 4

EDPS 79501 - Educational Psychology Thesis Research 1

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: students must have completed a minimum of 24 credits
Hours 30
Credits 2

EDPS 79502 - Educational Psychology Thesis Research 2

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: students must have completed a minimum of 24 credits
Hours 30
Credits 2

Education: Health Education

HED 71400 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.
**CEDF 70900**  
*Hours 45 hrs,  
Credits 3 cr*

**HED 71500 - Health Education for Special Educators**

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

*Hours 15 hrs,  
Credits 1 cr*

**Education: Literacy Education**

**EDLIT 73000 - Language, Literacy and Culture, Grades 1-12**

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners' needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

*prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500  
Hours includes 10 hrs in the field analyzing language use of ESL learners  
Credits 3 cr*

**EDLIT 73100 - Literacy Assessment: Birth–Grade 6**

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instructional planning and meeting NYS English Language Arts performance standards.

*prereq or coreq: ECC 70400 and EDLIT 73500  
Hours 45 hrs and 15 hrs in the field assessing diverse learners  
Credits 3 cr*

**EDLIT 73200 - Children's Literature**

Exposure to the breadth, depth, and utilization of children's literature and its role in children's development, appreciating diversity and fostering a lifelong interest in reading. Sensitive issues (health, abuses, addictions), technology and management issues are examined.
EDLIT 73300 - Theories and Process of Teaching Writing: Pre-K–Grade 6

Development and assessment of writing skills including analysis of techniques and environments that foster writing development in all children (ESL, gifted, special needs). State writing standards and technology are integrated.

EDLIT 73400 - Literacies within the Disciplines: K–Grade 6

Exploration into the literacy demands inherent in the academic subjects of math, science, health education and social studies, as well as media, technology and the arts.

EDLIT 73500 - Survey of Instructional Approaches in Literacy Education: Grades K-12

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

EDLIT 73600 - Diagnosis of Reading Difficulties

A study of factors related to students who are experiencing difficulty acquiring literacy. Procedures for diagnosing reading achievement and related language skills.

EDLIT 73700 - Practicum in Remedial Reading

Theoretical and practical consideration and procedures in the instruction of students with reading difficulties.
EDLIT 73900 - Literacy Instruction for Struggling Readers and Writers, PreK-6

Exploration of historical and theoretical perspectives, and research-based teaching practices/issues related to literacy and language instruction for struggling readers and writers, including children with special needs. Study of assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcomes of struggling readers/writers and special needs students in pre-kindergarten and elementary school settings.

prereq or coreq: None
Credits 3

EDLIT 73901 - Delays in Early Language and Literacy Development in Young Children with Special Needs

Historical, theoretical, and research-based teaching practice issues related to literacy and language instruction for children with special needs, ages birth through second grade.

coreq: ECC 70400
Hours Includes 5 hrs observation in an inclusive early childhood setting or a program with special needs focus, 15 hrs
Credits 1 cr

EDLIT 73902 - Special Needs Issues in Literacies within the Curriculum

Adaptation, modification and management of instruction, curriculum, the learning environment, materials and technology across the curriculum for children with special learning needs.

prereq: EDLIT 73901
Hours 15 hrs,
Credits 1 cr

EDLIT 73903 - Adaptations and Modifications in Approaches to Literacy for Students with Special Needs

Adaptation and modification of instructional strategies, technology and curriculum in literacy for full inclusion of children with disabilities.

prereq: EDLIT 73902
Hours 15 hrs,
Credits 1 cr

EDLIT 74000 - Leadership in Literacy

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master's in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

prereq: EDLIT 74500; minimum of 27 credits in the literacy program
EDLIT 74100 - Selected Topics

In-depth study of emerging areas related to literacy education for children birth through grade 6.

prereq or coreq: approval of the instructor
Hours 45 hrs
Credits 3 cr
This is an elective course.

EDLIT 74200 - Practicum in Literacy

This course requires that students be supervised in their teaching. Students will select one area for improvement and work on this area throughout the course with the instructor and the weekly seminar as their think tank and support group.

prereq: Pre-requisite EDLIT 73100
Hours 15 hr seminar plus 50 hrs in the field
Credits 1 cr

EDLIT 75200 - Practicum in Literacy

This course requires that students be supervised in their teaching. Students will select one area for improvement and work on this area throughout the course with the instructor and the weekly seminar as their think tank and support group.

prereq: Pre-requisite EDLIT 75600
Hours 15 hours in seminar and 50 hours of field experience
Credits 1

EDLIT 75300 - Methods of Teaching Writing: Grades 5-12

Development and assessment of writing skills and methods for teaching writing including analysis of techniques and environments that foster writing development, and writing across the disciplines, in all students at middle childhood and adolescent levels (ELL, gifted, special needs). State writing standards and technology are integrated.

Hours includes 15 hours fieldwork
Credits 3

EDLIT 75400 - Literacies within the Disciplines: Grades 5-12

Exploration into the literacy demands and challenges inherent in the academic subjects of math, science, history and social studies, as well as media, health, technology and the arts.

prereq: Pre-requisite EDLIT 73500 and EDLIT 75500
Hours 3.0
Credits 3.0
Includes 10 hours in classrooms focused on literacies within the disciplines.
EDLIT 75600 - Literacy Assessment: Grades 5-12

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instruction planning and meeting NYS English Language Arts performance standards.

prereq: 9 credits in the content core
Hours includes 15 hours in the field assessing diverse learners

EDLIT 75700 - Practicum in Literacy Assessment and Intervention: Grades 5-12

A study of factors related to middle and high school students who are experiencing difficulty acquiring literacy. Implement, design and use a variety of procedures for diagnosing reading achievement and related language skills. Use assessment data to plan and implement intervention activities for students with literacy difficulties.

prereq: EDLIT 75600
Hours includes 25 hours of supervised assessment and intervention sessions with individual middle school students on-site at Hunter College Literacy Space and 25 hours of supervised assessment/intervention sessions off site with high school students
Credits 3

Education: Special Education

CEDC 75400 - Differentiating Curriculum for Gifted and Talented Learners

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the fulltime gifted school.

Cross-listed SPED 75400
Hours includes 10 hrs field experience
Credits 3

EDABA 75000 - Experimental Analysis of Behavior

The primary focus of this course is on behavior analytic theory in the context of basic research. Topics to be covered include operant and respondent conditioning, reinforcement, discriminated operants, reinforcement schedules, and social learning.

Hours 3
Credits 3

EDABA 75500 - Functional Behavior Assessment

This course examines various behavior analytic assessment methods that are designed to identify the function of challenging behavior. Both experimental and non-experimental assessment methodologies will be examined along with
methods of data collection and analysis.

prereq: EDABA 795 or EDABA 798
Hours 3
Credits 3

EDABA 77000 - Practicum in Applied Behavior Analysis I

This course is the first of a two-course sequence in conducting fieldwork in applied behavior analytic settings. A total of 180 hours of fieldwork which includes designing, conducting, and analyzing data from applied behavior analytic interventions is required.

prereq: EDABA 795 and approval of graduate advisor
Hours 3 plus 12 hours of field experience
Credits 3

EDABA 77100 - Practicum in Applied Behavior Analysis II

This course is the second of a two-course sequence in conducting fieldwork in applied behavior analytic settings. A total of 180 hours of fieldwork which includes designing, conducting, and analyzing data from applied behavior analytic interventions is required.

prereq: EDABA 770 and approval of graduate advisor
Hours 3 plus 12 hours of field experience
Credits 3

EDABA 78000 - Thesis I

This course is the first course in a two-course sequence in which students conduct an original applied behavior analytic research project. Under the supervision of a faculty advisor, students conduct a literature review, develop a research proposal, and apply for necessary research approvals.

prereq: EDABA 790, EDABA 791 and approval of graduate advisor
Hours 3 plus conferences
Credits 3

EDABA 78100 - Thesis II

This course is the second course in a two-course sequence in which students conduct an original applied behavior analytic research project. Under the supervision of a faculty advisor, students conduct an original research project based on the proposal developed in EDABA 780.

prereq: EDABA 780 and approval of graduate advisor
Hours 3 plus conferences
Credits 3

EDABA 79000 - Single-Subject Research Design

This course is an introduction to single-subject research methods used in applied behavior analysis. In addition, data collection, data analysis, and data presentation will be covered.
EDABA 79100 - Ethics and Professionalism for Applied Behavior Analysts

This course provides an introduction to ethical and professional behavior for applied behavior analysts. Topics to be covered include a variety of ethical and professional issues for applied behavior analysts as they relate to research and practice.

EDABA 79500 - Applied Behavior Analysis I

The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

prereq or coreq: SPEDE 77100

EDABA 79600 - Applied Behavior Analysis II

This course examines specific behavior analysis methods and applications including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.

prereq: EDABA 79500

EDABA 79800 - Behavior Analytic Approaches to Learning

This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

EDABA 79900 - Applied Behavior Analytic Autism Intervention

This course examines applied behavior analytic intervention for individuals with autism. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive environments.
**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours 45 hours; includes 5 hours of field experience*

*Credits 3*

**SPED 70100 - Assessment of Students with Disabilities**

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

*prereq or coreq: SPED 70000*

*Hours 45 hours; includes 10 hrs of field experience*

*Credits 3*

**SPED 70151 - Advanced Preparation in Educational Assessment**

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

*Hours 45*

*Credits 3*

**SPED 70200 - Classroom Management in Special Education and Inclusive Settings**
Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000
Hours 45 hours; includes 15 hrs of field experience
Credits 3

**SPED 70250 - Classroom Management in Special Education and Inclusive Settings**

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100
Hours Includes 20 hrs of field experience, 45 hrs,
Credits 3 cr

**SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders**

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000
coreq: current employment as a teacher or enrollment in student teaching
Hours Includes 10 hrs of field experience, 45 hrs,
Credits 3 cr

**SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs**

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000
Hours 15 hrs,
Credits 1 cr

**SPED 70500 - Use of Instructional Technology in Special Education**

Computer lab course focused on both broadly based and specialized applications for supporting students with learning disabilities, mild, moderate mental retardation, and behavioral disorders. Focus on select number of tools and their
multiple uses. Also, overview of specialized computer curriculum software, web resources, and assistive technology for students with severe disabilities.

**prereq or coreq: SPED 70000**  
**Hours** 30 hrs lab,  
**Credits** 1 cr

**SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

**prereq or coreq: SPED 70000 or SPEDE 76800**  
**Hours** Includes 10 hours of field experience, 45 hrs,  
**Credits** 3 cr

**SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

**prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100**  
**Hours** (includes 10 hours of field experience),  
**Credits** 3 cr

**SPED 70700 - Research Seminar: Issues in Special Education**

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

**Hours** 45 hrs,  
**Credits** 3 cr

**SPED 70751 - Advanced Seminar in Special Education Practice**

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.
**SPED 70751 - Advanced Seminar in Special Education Practice (For those in Advanced Preparation in Special Education)**

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

**Hours 45**
**Credits 3**

**SPED 71051 - Independent Study in Special Education**

Designed to allow advanced students to further their understanding and skill within special education.

**Hours 15-45 hrs,**
**Credits 1-3 cr**
Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71052 - Independent Study in Special Education**

Designed to allow advanced students to further their understanding and skill within special education.

**Hours 15-45 hrs,**
**Credits 1-3 cr**
Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71053 - Independent Study in Special Education**

Designed to allow advanced students to further their understanding and skill within special education.

**Hours 15-45 hrs,**
**Credits 1-3 cr**
Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71151 - Independent Study in Deaf and Hard-of-Hearing**

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

**Hours 15-45 hrs,**
Credits 1-3 cr
Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71152 - Independent Study in Deaf and Hard-of-Hearing**

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

*Hours 15-45 hrs,
Credits 1-3 cr
Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.*

**SPED 71153 - Independent Study in Deaf and Hard-of-Hearing**

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

*Hours 15-45 hrs,
Credits 1-3 cr
Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.*

**SPED 71251 - Independent Study in Blindness and Visual Impairment**

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

*Hours 15-45 hrs,
Credits 1-3 cr
Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.*

**SPED 71252 - Independent Study in Blindness and Visual Impairment**

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

*Hours 15-45 hrs,
Credits 1-3 cr
Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.*

**SPED 71253 - Independent Study in Blindness and Visual Impairment**

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

*Hours 15-45 hrs,
Credits 1-3 cr*
Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71451 - Topics in Special Education: ITI Practicum in Visual Impairment**

*Credits 1 cr*

**SPED 72000 - American Sign Language I**

An intensive first course in American Sign Language (ASL), designed to establish a foundation of ASL communicative competence. Emphasizes ASL grammar, vocabulary, receptive and expressive skills, fingerspelling, numbers, and spatial and pronominal reference.

*prereq or coreq: SPED 70000*
*Hours Includes 10 hrs of field experience, 90 hrs lab,*
*Credits 3 cr*

**SPED 72100 - American Sign Language II**

This intensive course continues material covered in SPED 720. Emphasizes increased communicative competence in ASL, as well as grammar, vocabulary, and receptive and expressive skills.

*prereq: SPED 72000*
*Hours Includes 10 hrs of field experience 90 hrs lab,*
*Credits 3 cr*

**SPED 72200 - The Study of ASL Educational Linguistics**

Focus on the linguistic structure of ASL: phonology, morphology, syntax, pragmatics, and discourse rules. Traces acquisition of ASL during infancy, childhood and adolescent. Differences are highlighted between ASL and English linguistics, as well as the interaction between such structures and children's learning. ASL is the instructional language used to teach this course.

*prereq: SPED 72100*
*Hours 60 hrs lab,*
*Credits 2 cr*

**SPED 73000 - Education of Students Who Are Deaf and Hard-of-Hearing**

History of theory, practice and conceptualizations in the education of students who are deaf and hard-of-hearing. The study of language acquisition (English and ASL), bilingualism, and learning English as a second language in hearing and deaf children. Linguistic understanding and analysis of the components of language proficiency. Educational settings, issues of inclusion, and use of technology.

*Hours Includes 10 hours of field experience 45 hrs,*
*Credits 3 cr*
SPED 73100 - Reading and Writing Development for Students Who Are Deaf and Hard-of-Hearing: Methods 1

Theoretical and practical aspects of deaf children's receptive and expressive language use. Instructional procedures used to facilitate language acquisition in deaf and hard-of-hearing children and their learning to read and write. Assessment, instructional procedures, specific remediation techniques, and technology supports.

prereq: SPED 70000 and SPED 73000
coreq: must take SPED 73300 in semester immediately following.
Hours 3 hrs
Credits 3 cr.
Fall only

SPED 73300 - Math and Across-the Curriculum Adaptations for Students who are Deaf and Hard-of-Hearing: Methods 2

Methods for assessing and teaching deaf and hard-of-hearing students in mathematics, science, social studies, other content areas, and time/space organization. Focus on math concept development and compensations; reading/writing and the arts across the curriculum; and organizational strategies for school, home and life.

prereq: (immediate preceding semester) SPED 73100
prereq or coreq: SPED 70000
Hours Includes 15 hrs of field experience
Spring only

SPED 73500 - Speech Development and Remediation of Students who are Deaf and Hard-of-Hearing

Psycho-acoustic aspects of speech sounds and their relationship to speech acquisition in hearing and deaf children. Effects of various degrees of hearing loss on speech acquisition; sense modalities in speech production; typical voice and speech errors in deaf and hard-of-hearing children; methods, procedures, materials, and technology used for speech development and remediation; inclusion of deaf and hard-of-hearing students.

prereq or coreq: SPED 70000
Hours Includes 5 hrs of field experience
Credits 3

SPED 73600 - Aural Rehabilitation of Students who are Deaf and Hard-of-Hearing

Principles and methods of teaching speech and auditory training. Methods, procedures and materials used in development of oral communication, supports for inclusive settings and use of technology.

prereq or coreq: SPED 70000
Hours Includes 5 hrs of field experience
SPED 73700 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 12

Supervised student teaching placement providing direct, specially designed classroom instruction for deaf and hard-of-hearing students at two grade levels that do not overlap with either pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills prerequisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

*prereq or coreq: SPED 72100, SPED 73300
*Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,
*Credits 4 cr

SPED 73750 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 6

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

*prereq or coreq: SPED 721, SPED 733
*Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
*Credits 2 cr

SPED 73751 - Student Teaching: Deaf and Hard-of-Hearing, Grades 7–12

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

*prereq or coreq: SPED 721, SPED 733
*Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
*Credits 2 cr

SPED 73752 - Practicum: Deaf and Hard-of-Hearing, Preschool–Grade 6

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

*prereq or coreq: SPED 721, SPED 733
*Hours 30 hrs seminar, plus conferences,
*Credits 2 cr

SPED 73753 - Practicum: Deaf and Hard-of-Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing.
Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

Prereq or coreq: SPED 721, SPED 733
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

**SPED 73760 - Supervised Practicum: Deaf and Hard-of-Hearing, Preschool–2nd Grade**

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

Prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2

**SPED 73761 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 1-6**

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

Prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching
Credits 2

**SPED 73762 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 5-9**

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

Prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences,
Credits 2

**SPED 73763 - Supervised Practicum: Deaf and Hard-of-Hearing, Grade 7–12**

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.
prereq or coreq: SPED 7300, SPED 73300
Hours 30 hrs seminar, plus conferences,
Credits 2

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000
Hours includes 10 hrs of field experience
Credits 3 cr

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000
Hours Includes 10 hrs of field experience
Credits 3

SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 15 hrs of field experience
Credits 3

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000, SPED 74100
SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

**prereq:** SPED 74300

**Hours** 45 hrs,

**Credits** 3 cr

SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

**prereq or coreq:** SPED 74000, 74100, 74200, 74300

**Hours** 15 hrs,

**Credits** 1 cr

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

**prereq:** SPED 70000, SPED 79000 or SPED 74100

**Hours** Includes 10 hrs of field experience

**Credits** 3

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

**prereq or coreq:** SPED 74000, 74100
SPED 74800 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired at two grade levels that do not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, adapting sensory environments, selecting appropriate learning media, adapting curriculum through tactile graphics, developing IEPs, and forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,
Credits 4 cr

SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field
placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

**SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

**prereq or coreq**: SPED 74000, SPED 74100  
**Hours**: 30 hrs seminar, plus conferences,  
**Credits**: 2 cr

**SPED 74854 - Student Teaching 2: Blindness and Visual Impairment, Preschool–Grade 6**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plan, writing functional vision assessment reports, selecting appropriate learning media, developing IEP’s, forming partnerships with families.

**prereq or coreq**: SPED 74000, SPED 74100  
**Hours**: structured conferences, plus 20 days student teaching,  
**Credits**: 1 cr

**SPED 74855 - Student Teaching 2: Blindness and Visual Impairment, Grade 7–12**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP’s, forming partnership with families.

**prereq or coreq**: SPED 74000, SPED 74100  
**Hours**: Structured conferences, plus 20 days student teaching  
**Credits**: 1 cr

**SPED 74856 - Supervised Practicum 2: Blind and Visual Impairment Preschool–Grade 6**
Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placement. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

**prereq or coreq:** SPED 74000, SPED 74100  
**Hours** Structured conferences  
**Credits** 1 cr

**SPED 74857 - Supervised Practicum 2: Blind and Visual Impairment, Grades 7–12**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placement. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

**prereq or coreq:** SPED 74000, SPED 74100  
**Hours** Structured conferences  
**Credits** 1 cr

**SPED 74900 - Orientation and Mobility for Students with Visual Impairments and Additional Disabilities**

An advanced orientation and mobility course on specialized instructional strategies that address the special travel difficulties of learners (infants to older adults) who are blind or visually impaired with additional disabilities. Topics include deafness, deafblindness, multiple impairments, motoric, cognitive and affective impairments. This course also addresses instructional strategies for persons in unique living situations or environments.

**Hours includes** 10 hrs field experience, 45 hrs  
**Credits** 3 cr

**SPED 75000 - The Study of Behavior Disorders**

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs.

**prereq or coreq:** SPED 70000  
**Hours Includes** 20 hrs of field experience

**SPED 75051 - The Study of Behavior Disorders**

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs. Advanced students must complete individually-tailored assignments.
SPED 75100 - Methods and Materials for Teaching Students with Behavior Disorders

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students.

prereq or coreq: SPED 75000
Hours Includes 20 hrs of field experience
Credits 3

SPED 75151 - Methods and Materials for Teaching Students with Behavior Disorders

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 75200 - Student Teaching: Behavior Disorders, Grades 1–3 and 4–6

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instructions at grade levels 1–3 and 4–6. Factors influencing teaching and management outcomes such as family influences.

prereq: SPED 75000
prereq or coreq: SPED 75100 or SPED 78150
Hours 30 hrs seminar, plus conferences, plus 40 hours student teaching at two age levels,
Credits 4 cr

SPED 75250 - Student Teaching: Behavior Disorders, Grades 1–3

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes such as family influences.
prereq: SPED 75000
prereq or coreq: SPED 75100 or SPED 78150
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching.
Credits 2 cr

SPED 75251 - Student Teaching: Behavior Disorders, Grades 4–6

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000
prereq or coreq: SPED 75100 or SPED 78150
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching.
Credits 2 cr

SPED 75252 - Supervised Practicum: Behavior Disorders, Grades 1–3

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000
prereq or coreq: SPED 75100 or SPED 78150
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 75253 - Supervised Practicum: Behavior Disorders, Grades 4–6

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000
prereq or coreq: SPED 75100 or SPED 78150
Hours 30 hrs seminar plus conferences,
Credits 2 cr

SPED 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

Cross-listed (Cross-listed with CEDF 75300.)
Hours 45 hrs includes 10 hrs field experience  
Credits 3 cr

**SPED 75400 - Differentiating Curriculum for Gifted and Talented Learners**

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the full time gifted school.

*Cross-listed (Cross-listed with CEDF 75400.)*  
*Hours Includes 10 hrs field experience*  
*Credits 3*

**SPED 75500 - Assessment and Instruction for Diversely Gifted Learners**

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

*Cross-listed (Cross-listed with CEDC 755.)*  
*prereq or coreq: SPED 75300 and SPED 75400*  
*Hours Includes 20 hrs field experience*

**SPED 75600 - Professional Discourse and Leadership in Gifted Education**

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

*Cross-listed ADSUP 75600, CEDC 75600, CEDF 75600*  
*prereq or coreq: SPED 75300 and SPED 75400*  
*Hours Includes 10 hrs field experience*

**SPED 76000 - Skills and Techniques for Rehabilitation Teaching I**

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

*prereq: SPED 74000, 74100*  
*Hours Includes 10 hrs field experience*  
*Credits 3*

**SPED 76100 - Skills and Techniques for Rehabilitation Teaching II**
Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

prereq: SPED 76000  
*Hours includes 10 hrs field experience*  
*Credits 3 cr*

**SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments**

Job modification options. Transition planning from education to adult services.

prereq: SPED 74000, 74100  
*Hours 45 hrs,*  
*Credits 3 cr*

**SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments**

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100  
*Hours 230 hrs,*  
*Credits 2 cr*

**SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments**

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100  
*Hours 230 hrs,*  
*Credits 2 cr*

**SPED 76500 - Intermediate Orientation and Mobility**

Theories related to perception, learning and development of individuals who are blind or visually impaired, and /or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice,
the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

**prereq or coreq: SPED 76800**

*Hours includes 50 hrs of lab plus 15 hrs field experience*  
*Credits 3 cr.*

**SPED 76600 - Advanced Orientation and Mobility**

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

**prereq or coreq: SPED 76500, 76800**

*Hours includes 50 hrs of lab plus 15 hrs field experience*  
*Credits 3 cr.*

**SPED 76700 - Orientation and Mobility: Internship/Seminar**

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

**prereq or coreq: SPED 76500, 76600, 76800, 76900**

*Hours 30 hrs seminar, plus conferences plus 340 hours of internship.*  
*Credits 2 cr.*

**SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar**

This course teaches assessment, evaluation and lesson plan/execution, the systems of mobility used by persons who are visually impaired, and indoor travel techniques used by persons with visual impairments navigating familiar and unfamiliar buildings. Fifteen day summer course.

**prereq or coreq: permission of adviser**

*Hours 3 hrs*  
*Credits 3 cr.*  
*Two week summer course.*

**SPED 76900 - Advanced Orientation and Mobility Lab and Seminar**

This course provides instruction in, lesson sequencing, pedagogical and andragogical methods for O&M instruction for persons who are blind or visually impaired. Through observation, and practice, this course develops competencies in teaching travel techniques used by persons with visual impairments.

**prereq: SPED 76800**

*Hours 3 hrs*
SPED 77100 - Methods of Teaching Reading for Adolescents with Learning Disabilities

This course addresses principles, methods, and specially designed instruction for adolescents with learning disabilities, mild/moderate cognitive impairment, and/or behavior disorders. The focus is on developing literacy through all aspects of reading, including: developing comprehension, expanding vocabulary, increasing fluency, utilizing phonics, and refining phonemic awareness. Students will learn strategies that support reading at all levels, including: sound, word, sentence, cross-sentence, text body, and text structure, genre, and across content areas.

coreq: SPED 77200
prereq or coreq: SPED 70000
Hours 45 plus 10 field hours
Credits 3 cr.

SPED 77200 - Supervised Clinical Teaching of Adolescents with Disabilities: Part I

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities, mild cognitive impairment, and/or behavior disorders from grades 7–12. Focus on specialized reading instruction, math instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 77100
prereq or coreq: SPED 70000
Hours 30 hours of seminar plus 25 field hours
Credits 2 cr.

SPED 77300 - Math Methods for Adolescents with Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social- interaction, and the arts across the curriculum.

prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr.

SPED 77400 - Supervised Clinical Teaching of Adolescents with Disabilities: Part II

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 70000
coreq: SPED 77300
Hours 2 hrs: 15 hours of seminar plus 22 lab/clinical hours
Credits 2 cr.
**SPED 77500 - Supervised Student Teaching of Adolescents with Learning Disabilities**

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities or mild/moderate intellectual disabilities in grades 7-12. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

*prereq: SPED 70000 or SPED 70050; SPED 77100; SPED 77200

*Hours: 3 hrs: 30 hrs of seminar plus conferences plus 60 days student teaching

*Credits: 3 cr.

**SPED 77550 - Supervised Practicum: Grades 7-12**

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

*prereq: SPED 70000 or SPED 70050; SPED 77100; SPED 77200

*Hours: 3 hrs: 30 hours seminar, plus conferences plus 60 days student teaching

*Credits: 3 cr.

**SPED 77551 - Supervised Student Teaching: Learning Disabilities, Grades 7-12**

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

*prereq: SPED 70000 or SPED 70050; SPED 77100; SPED 77200

*Hours: 1.5 hrs: 30 hours seminar, plus conferences, plus 30 days student teaching

*Credits: 1.5 cr.

**SPED 77552 - Student Teaching: Learning Disabilities, Grades 7-12**

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

*prereq: SPED 70000 or SPED 70050; SPED 77100; SPED 77200

*Hours: 1.5 hrs: 30 hours seminar, plus conferences, plus 30 days student teaching

*Credits: 1.5 cr.

**SPED 77700 - Supervised Clinical Teaching of Students with Learning Disabilities**

Year-long course. On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

*coreq: SPED 78100
prereq or coreq: SPED 70000
Hours 15 hours seminar, plus 22 lab/clinical teaching hours
Credits 2
Year-long course

SPED 78000 - The Study of Learning Disabilities in Children and Adolescents

History of theory, practices and conceptualizations of learning disabilities and mild/moderate mental retardation. Current issues, controversies and research, offering frameworks for appropriate instruction. Includes student characteristics, LD as an approach to teaching, family and cultural needs, as well as services and settings from special schools to supported inclusion.

prereq or coreq: SPED 70000
Hours 45
Credits 3

SPED 78100 - Reading for Students with Learning Disabilities Grades 1-6, Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq: SPED 70000 or 70050
Hours 3 hrs: includes 10 hrs of field experience
Credits 3 cr

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.
SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3 cr.

SPED 78200 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100
prereq or coreq: SPED 70000
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Fall only (note: must take concurrently with SPED 78100 and must take SPED 78300/78400 in semester immediately following)

SPED 78251 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use. Advanced students must complete individually-tailored assignments.

Hours 15 hrs seminar, plus 20 hrs lab
Credits 2

SPED 78300 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory
strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 78100/78200
coreq: SPED 78400
Hours 45
Credits 3
Spring only (note: must take concurrently with SPED 78400 and have taken SPED 78100/78200 in preceding semester)

**SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr

**SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

**SPED 78400 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3
Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use.

**prereq:** SPED 781/782  
**coreq:** SPED 783  
**Hours 15 hrs seminar, plus 20 hrs lab,**  
**Credits 2 cr**  
**Spring only**

**SPED 78451 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2**

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use. Advanced students must complete individually-tailored assignments.

**prereq:** SPED 781/782  
**coreq:** SPED 783  
**Hours 15 hrs seminar, plus 20 hrs lab,**  
**Credits 2 cr**  

**SPED 78500 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6**

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate intellectual disabilities in either grades 1–3 or 4–6, whichever is not covered in SPED 78200/SPED 78400. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

**prereq:** SPED 70000 or SPED 70050; SPED 78200  
**Hours 3 hrs: 45 hrs seminar, plus conferences, plus a semester of student teaching**  
**Credits 3 cr**

**SPED 78550 - Supervised Practicum: Learning Disabilities, Grades 1–3 or 4–6**

Supervised practicum, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78200/SPED 78400. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Includes IEP, families and communities.

**prereq:** SPED 70000 or SPED 70050; SPED 78200  
**Hours 3 hrs: 45 hrs seminar, plus conferences, plus a semester of student teaching**  
**Credits 3 cr**

**SPED 78551 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6**

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78552.
prereq: SPED 70000 or SPED 70050; SPED 78200
Hours 1.5 hrs: 30 hrs seminar, plus conferences, plus 30 days of student teaching
Credits 1.5 cr

SPED 78552 - Student Teaching/Supervised Practicum: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate intellectual disability in either grades 1–3 or 4–6, whichever is not covered in SPED 78551.

prereq: SPED 70000; SPED 78200
Hours 1.5 hrs: 30 hrs seminar, plus conferences, plus 30 days of student teaching
Credits 1.5 cr

SPED 78900 - Practicum in Adolescent Special Education

On-the-job supervised year-long classroom practicum on providing specially designed instruction in a special education teacher position/role for students in grades 7 - 12 with learning disabilities, behavior disorders and/or mild/moderate mental retardation. Entails supervisory observations by Hunter College faculty, with feedback conferences and individually tailored follow-up assignments for improving instructional planning, teaching, assessment, and student interactions. The 30-hour seminar focuses on effective instructional and behavioral strategies for the first year of teaching, including meeting the needs of students with severe/multiple disabilities (requires successful completion of online workshop related to students with severe/multiple disabilities).

prereq or coreq: SPED 70000
Hours 30 hours seminar, plus conferences
Credits 2 cr.
Year-long course

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr.

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.
prereq or coreq: SPED 70000, SPED 79000
Hours Includes 15 hrs of field experience
Credits 3

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours Includes 15 hrs of field experience
Credits 3 cr

SPED 79251 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication. Advanced students must complete individually-tailored assignments.

Hours includes 15 hrs of field experience
Credits 3

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000
Hours includes 10 hrs of field experience, 30 hrs
Credits 2 cr

SPED 79400 - Functional Language and Culture of Learners with Low Incidence Disabilities

This course emphasizes language strategies for English language learners (ELL), cultural/family values, home/school partnerships, teacher expectations and assumptions, classroom environments, learning materials. Students are expected to relate and adapt curriculum and ELL instructional strategies to learners with severe disabilities.

prereq: SPED 70600
Hours Includes 5 hrs of field experience,
Credits 1 cr
SPED 79500 - Student Teaching: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness in grades 1–3 and 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus 40 days of student teaching at two grade levels,
Credits 4 cr

SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,
Credits 2 cr

SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus 20 days of student teaching,
Credits 2 cr

SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3

Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr
SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hours seminar, plas conferences,
Credits 2 cr

SPED 79800 - Topics in Special Education

In-depth study of one area relevant to teaching students with disabilities.

prereq or coreq: SPED 700
Hours 15-45 hrs,
Credits 1-3 cr

SPED 79900 - Topics in Special Education

In-depth study of one area relevant to teaching students with disabilities.

prereq or coreq: SPED 700
Hours 15-45 hrs,
Credits 1-3 cr

SPEDE 77051 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods.

prereq: By permission
Hours 3 hrs
Credits 3 cr.

SPEDE 77151 - Autism Spectrum Disorder: Characteristics and Implications for Intervention

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.
SPEDE 77251 - Positive Behavior Support (PBS) and Its Applications to Young Children with Special Needs

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.
SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours 36 days (30 hr Seminar plus 36 days) K-2
Credits 2

SPEDE 79552 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours (30 hr seminar plus conferences) Pre-K
Credits 2

SPEDE 79552 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised practicum in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 36 days (30 hr seminar, pre-K), plus conferences
Credits 2 cr.

SPEDE 79553 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours (30 hr seminar plus conferences) K-2
Credits 2 cr.

SPEDE 79553 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Supervised practicum in a disability-specific or inclusive school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.
prereq or coreq: SPED 79000, 79100

Hours 36 days (30 hr seminar, K-2), plus conferences
Credits 2 cr.

Education: English as a Second Language

CEDCF 71000 - Social, Historical, & Philosophical Foundations of General and Bilingual Education: Theory and Practice

This course provides a foundation for TESOL and Bilingual Education students in the historical, social and philosophical foundations of general and bilingual education with an emphasis on the development and current educational policies and practices of educating English language learners. Required for TESOL Program 1.

Hours includes 10 hrs of fieldwork
Credits 4

EDESL 70100 - Selected Topics in TESOL

EDESL 701-704 Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser
Credits 1 cr

EDESL 70200 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser
Credits 2 cr

EDESL 70300 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.
EDESL 70400 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

EDESL 70500 - Structure of English: A Pedagogical View

The total grammatical system of English seen functionally and pedagogically. Students examine research on various English language structures and develop optimum teaching approaches for presenting these structures.

EDESL 75300 - Supervised Teaching 2

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 2 focuses on the professional duties of the ESL educator beyond teaching and incorporates an advocacy-based classroom based inquiry project. Required of all MA K-12 program students.

EDESL 76000 - Master's Essay Seminar in Educational Research

A written study, requiring a literature review and an in-depth research project that may take a variety of forms. Students meet in a seminar and individually with the adviser; instructor's approval of research project topic required. Taken in lieu of the comprehensive examination. Course extends across two semesters (Y course) or until written study is submitted. Registration by adviser's approval only. Elective for all students.

EDESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in Program 1 and Program 2.
EDESL 77000 - Content and Curriculum & Materials in Adult TESOL

An overview of current theory and practice in the design of content, curriculum, and materials for the teaching of Adult ESL, focusing primarily on designing ESL instruction for academic and adult continuing ESL contexts. Includes adult content area learning and English for Specific purposes, and integrating the 4 language skills.

prereq or coreq: pre- or coreq: EDESL 79600 or permission of TESOL adviser
Hours includes 10 hrs of fieldwork in Adult ESL classrooms
Credits 4

EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: EDESL 79600/79610
Hours includes 20 hrs fieldwork in K-12 classrooms
Credits 4

EDESL 77200 - First and Second Language, and Technological Literacy in K-12 ESL

An in-depth treatment of theory and practice in the teaching of literacy skills, including technological, to English language learners in the public schools. Required of students in both Pre-K-12 Programs 1 and 2.

prereq: EDESL 79600/79610 and LING 70200 or permission of TESOL adviser
Hours includes 10 hrs fieldwork
Credits 4

EDESL 77500 - Socio-Cultural Aspects of Language

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

Hours 3 hrs
Credits 3 cr

EDESL 77600 - Language Assessment in Adult TESOL

An overview of the theories, concepts, methods, and materials for assessing the language and content knowledge of adult ESL students. For students in Program 3.

prereq: EDESL 79600, LING 70200, EDESL 77000; coreqs: EDESL 77800, 77900, or permission of TESOL adviser
Hours includes 10 hrs of fieldwork in Adult ESL classrooms
Credits 4

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610
Credits 4
10 hours of field experience.

EDESL 77800 - Teaching Oral Language Skills in Adult TESOL

An overview of current theory and practice in the teaching of oral skills (speaking, listening, and pronunciation) to adult ESL students, focusing primarily on designing ESL instruction to enhance students' skills in these areas. For students in Program 3.

prereq: EDESL 79600
prereq or coreq: pre- or coreq: EDESL 77000
Credits 4

EDESL 77900 - Teaching Reading and Writing Skills in Adult TESOL

An overview of the theory and practice of teaching reading and writing to adults in ESL, with considerations for the wide range of adult ESL learning contexts, including adult continuing education, college English/ESL programs and English for academic purposes. For students in Program 3.

prereq: prereq: EDESL 79600
prereq or coreq: pre- or coreqs: EDESL 7700 or EDESL 78700 or EDESL 77500
Credits 4

EDESL 78000 - Seminar in Educational Research (Master's Essay)

A written study, which may include a researched area, an analysis of a methodology, a review, evaluation, or critique of relevant literature, or a proposal for learning materials. Students in this course, who meet as a group and individually with the adviser, are exempt from taking the comprehensive examination. This course satisfies the culminating requirement for the MA program and counts as an elective course in the Adult Track and K-12 programs. Year-long course.

prereq: completion of 24 credits and permission of TESOL adviser
Credits 3 cr (year-long)
Students who satisfactorily complete the first semester would earn a grade of Y, which would be changed to a letter grade upon satisfactory completion of all course requirements.

EDESL 78300 - Methodology of Teaching English to Speakers of Other Languages

An overview of classroom options for teaching English to second language learners. The course covers options for classroom management and setting up learning environments. A 25-hour field experience is a part of this course.
**EDESL 78400 - Fieldwork in TESOL with Adults**

Teaching practicum in a field setting with adult learners of English in the Community Outreach Program in English (COPE) on Saturdays. (Sabbath observers meet during the week.) During a weekly seminar, emphasis is placed on peer dynamics, classroom management and setting and exploiting learning activities and environments.

*prereq:* completion of 24 credits or permission of TESOL adviser

**EDESL 78410 - Practicum in TESOL for Adults**

A hands-on Practicum/teaching experience with adult ESL students in the Community Outreach Program in English (COPE) at Hunter College, that serves as one of two culminating teaching experiences in the Adult Track of the TESOL Program. Students also meet in a weekly seminar immediately after their COPE classes. Required of students in Program 3.

*prereq:* completion of 24 credits or permission of TESOL adviser

**EDESL 78420 - Student Teaching in TESOL for Adults**

A student teaching experience (with the guidance of a cooperating teacher) in an academic ESL context (either an Intensive ESL Program or a college ESL class), that serves as one of two culminating teaching experiences in the Adult Track of the TESOL Program. Students also meet in a weekly seminar to discuss their student teaching experiences. Required of students in Program 3.

*prereq:* completion of 24 credits or permission of TESOL adviser

**EDESL 78500 - Supervised Student Teaching, Pre-K-6 and 7-12**

Two-semester supervised student teaching experience in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

*prereq:* completion of 24 credits or permission of TESOL adviser

**EDESL 78510 - Supervised Student Teaching in the Elementary School: Pre-K–6**
Supervised student teaching in Pre-K through grade 6 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. (1) Students without prior certification in another area must teach 30 days in Pre-K–6; (2) Students with prior certification in another area must teach 20 days in Pre-K–6.

prereq: completion of 30 credits or permission of TESOL adviser

Hours: 15 hr seminar plus student teaching and conferences,
Credits: 2 cr.

Required of students in Programs One and Two. note: students should not take 788.10 if they are in this course

EDESL 78520 - Supervised Student Teaching in the Secondary School: Grades 7–12

Supervised student teaching in grades 7–12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. (1) Students without prior certification in another area must teach 30 days in grades 7–12; (2) Students with prior certification in another area must teach 20 days in grades 7–12.

prereq: completion of 30 credits or permission of TESOL adviser

Hours: 5 hrs seminar plus student teaching and conference,
Credits: 2 cr

Required of students in Programs One and Two. note: students should not take 788.20 if they are in this course

EDESL 78600 - Phonetics of American English

Phonological (phonetic and phonemic) analysis of contemporary American speech.

prereq or coreq: LING 70100 or permission of TESOL adviser

Hours: 45 hrs,
Credits: 3 cr

Required of students in the Adult Program and for students in Pre-K–12 Programs One and Two who have been waived from a required course.

EDESL 78700 - K-12 ESL Curriculum and Materials across the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: LING 70300, EDESL 78300 or permission of TESOL adviser

Hours: 3 hrs
Credits: 3 cr

EDESL 78800 - Supervised Practicum, Pre-K-6 and 7-12

Two-semester supervised practicum in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser

Hours: 60 hrs seminar plus student teaching and conference
EDESL 78810 - Supervised Practicum in the Elementary School: Pre-K–6

Teaching practicum at the elementary level in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices.

prereq: completion of 30 credits or permission of TESOL adviser
Hours 15 hr seminar plus supervised teaching and conferences,
Credits 1 cr
For students in Programs One and Two who teach ESL in an elementary school setting. note: students should not take 785.10 if they are in this course

EDESL 78820 - Supervised Practicum in the Secondary School: Grades 7–12

Teaching practicum at the secondary level in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices.

prereq: completion of 30 credits or permission of TESOL adviser
Hours 15 hr seminar plus supervised teaching and conferences,
Credits 1 cr
For students in Programs One and Two who teach ESL in a secondary school setting. note: students should not take 785.20 if they are in this course

EDESL 78900 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/ELF to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, materials development.

prereq: LING 701 or permission of TESOL adviser
Hours 45 hrs,
Credits 3 cr
Elective for students in the Adult Program and for students in the Pre-K–12 Programs One and Two who have been waived from a required course.

EDESL 79000 - Technology in TESOL: Adults

Through reading, class discussions, demonstrations, and hands-on applications, students are introduced to a range of technologies available to adult language learners in the computer laboratory, through distance learning, and on the Internet; students are also exposed to procedures in computer-assisted language learning (CALL) and computer-assisted instruction (CAI).

Hours 45 hrs,
Credits 3 cr
An elective for students in Program 3 and for students in Programs 1 and 2 who have been waived from a required course.

EDESL 79100 - Language Assessment in TESOL
An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing.

**Prerequisite:**
- LING 70100 or BILED 77100
- Prerequisite or corequisite: EDESL 70500 or permission of TESOL adviser

**Hours:** 45 hrs
**Credits:** 3 cr
**Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.**

**EDESL 79200 - Second Language Literacy and Technology**

This course provides an in-depth treatment of theory and practice in the teaching of all of the literacy skills: reading and writing, along with the development of oral language and listening, to K-12 English language learners in the public schools. Interactions between first, second, and other language literacy, and technological literacy are explored and exploited toward successful language teaching and learning. Includes 15 hours of field experience.

**Prerequisite:**
- LING 70300; LING 77300; EDESL 78300

**Hours:** 3 hrs
**Credits:** 3 cr
**Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.**

**EDESL 79300 - Technology in TESOL: Pre-K–12**

This mini-course covers basic technology and computer operations/concepts (second language learning software; accessing, generating, manipulating data, and publishing results); the use of technology in personal/professional growth; and the applications of technology for language instruction.

**Hours:** 15 hrs
**Credits:** 1 cr
**Required of students in both Programs One and Two and an elective in the Adult Program.**

**EDESL 79400 - Teaching ESL Students with Disabilities: Pre-K–12**

Overview of issues and practices relevant to the teaching and learning of second language learners with special education needs.

**Hours:** 15 hrs
**Credits:** 1 cr
**Required of students in Programs One and Two.**

**EDESL 79500 - Health Education for Teachers of ESL: Pre-K–12**

An overview of health promotion and wellness for teachers of ESL students from diverse ethnic/cultural backgrounds and different abilities in grades pre-K through grade 12. It includes child abuse and neglect, drug education, fire safety education, nutrition and fitness, and violence prevention.

**Hours:** 15 hrs
**Credits:** 1 cr
**Required of students in Programs One and Two.**
EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in Program 1.

Credits 4 cr.
includes 30 hours fieldwork

EDESL 79620 - Methodology of Teaching English to Speakers of Other Languages

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

Hours includes 20 hours fieldwork
Credits 4
20 hours fieldwork

EDESL 79630 - Methodology of Teaching English to Speakers of Other Languages

Hours 25 hrs fieldwork
Credits 4 cr.

EDESL 79800 - Student Teaching in Academic ESL

Hours 60 hrs fieldwork
Credits 2 cr

EDESL 79900 - Adult Fieldwork / Practicum

Hours 60 hrs fieldwork
Credits 2 cr

ESESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in Programs 1 and 2.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser
Hours includes 10 hrs fieldwork
Credits 4

ESESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural
awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610
Credits 4

LING 77300 - Instructed Second Language Acquisition

This course provides an overview of current theory, research, and practice in second language acquisition and learning. Pedagogical implications and applications for English language learning particularly through instruction are emphasized. Teachers are introduced to research methodologies and conduct classroom-based research.

prereq or coreq: EDESL 78300; LING 70300
Hours 3 hrs
Credits 3 cr

Courses in the School of Urban Public Health

School of Urban Public Health

About the School

Hunter College's School of Urban Public Health educates students to contribute to improving urban health by addressing problems such as HIV, substance abuse, asthma, obesity, under-nutrition, violence, heart disease and cancer. The School offers undergraduate programs in Community Health and in Nutrition. Hunter's School of Urban Public Health shares an eight-story, 147,000-square-foot green building on Third Avenue between East 118th and 119th Streets with the Silberman School of Social Work at Hunter College. Faculty, staff and students from both schools work closely with community organizations and health and social service agencies in East Harlem to strengthen existing and create new approaches to improving the well-being of East Harlem and other low-income communities.

The MS degree in Nutrition is designed for individuals seeking to attain the RD credential. The MS in Nutrition is an accredited didactic program in dietetics (DPD), completion of which certifies eligibility to apply for a dietetic internship.

The Accelerated BS/MS is for third year NFS majors who are interested in completing their degree and then continuing at Hunter to obtain a master's degree and verification statement (students will be provisionally accepted into the program in their junior year but must maintain grade requirements to matriculate into the MS-DPD program). This accelerated pathway provides the opportunity for undergraduate students to remain at Hunter for their graduate coursework providing students the opportunity for academic acceleration to a graduate degree.

What can I do with my degree in Nutrition and Food Science?

Graduates of the NUTR-MS program may work as nutritionists in a wide variety of health care facilities including hospitals and public health agencies. Since the MS-Nutrition curriculum meets the didactic program in dietetics (DPD) requirements established by the Commission on Accreditation for Dietetics Education (CADE), the credentialing arm of the American Dietetic Association (ADA), the program will qualify students from the BS/MS accelerated track to apply for Dietetic Internships and continue their professional preparation for the Registered Dietitian (RD) credential.

Accreditation
The NUTR-MS is a didactic program in dietetics (DPD), accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), formerly known as the Commission on Accreditation of Dietetics Education (CADE), the accrediting agency of the Academy of Nutrition and Dietetics. The Dietetic Internship is also accredited by ACEND. Both the DPD and DI programs are designed for individuals seeking to become eligible to sit for the national registration examination in dietetics to become credentialed as a Registered Dietitian (RD).

Faculty

Faculty of School of Urban Public Health

BIOS 75000 - Applied Biostatistics I

A follow up course to PH 7500/75100 and PH 75200/75300, covering intermediate-level statistical methods commonly used in public health research. Topics include: simple and multiple linear regression; logistic regression; residual analysis; variable selection. Focus on practical applications, utilizing statistical software.

Cross-listed STAT 75000
prereq: PH 7500 or 75100 and PH 75200 or 75300
Credits 3

BIOS 75100 - Applied Biostatistics II

A follow up course to BIOS 75000, covering intermediate and advanced statistical methods commonly used in public health research. Topics include: log linear and generalized linear models; random and mixed effects models; survival analysis. Focus on practical applications utilizing statistical software.
BIOS 75100 - Analysis of Categorical Data

An introduction to statistical models for analyzing categorical data, with emphasis on examples from the health sciences. Topics include: contingency tables and corresponding tests such as chi-square, CMH and trend test, count data, logistic regression and log-linear models.

BIOS 75200 - Analysis of Longitudinal Data

An introduction to statistical models and methods for analyzing longitudinal data in public health. Topics include: longitudinal designs and cohort sampling, general linear models for longitudinal data, marginal & random effects models, time-dependent covariates, missing values.

BIOS 75300 - Design and Analysis of Complex Surveys

This course provides an introduction to statistical issues in the design and analysis of complex surveys, with a particular emphasis on public health research. Topics include: basic sampling techniques, stratified and cluster sampling, non-sampling errors, and case studies.

BIOS 75400 - Survival Analysis

An introduction to regression modeling used in the analysis of time-to-event data in epidemiological, biostatistical, and other health-related research. Topics include: survival functions, proportional-hazards, parametric and competing-risks models, missing data, using case studies.

BIOS 75500 - Data Analysis

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics include: data summaries; transformations; the jackknife and resampling schemes; robust estimation; and robust regression methods.

BIOS 75600 - Analysis of Variance
Intermediate topics in analysis of variance (ANOVA), with an emphasis on exploratory aspects. Topics including: one, two and many way layouts; decomposition and partitioning of variance; fixed, random, and mixed effects models; repeated measures; contrasts; multiple comparisons; and robust analogs.

Cross-listed STAT 71800
prereq: BIOS 75000

**BIOS 77000 - Topics in Biostatistics**

Courses on current topics in biostatistics.

Offered periodically

**BIOS 77001 - Applied Biostatistics III**

An advanced biostatistics course that focuses on mixed models, GEE for analysis of correlated data, management of missing data and imputation, propensity scoring, and causal inference.

prereq: BIOS 75100 and EPI 75100
Credits 3

**COMHE 75000 - Community Health Assessment**

This course prepares students to collect and analyze data on community health from a variety of sources, to identify problems and assets, and to develop objectives for community health interventions.

prereq: PH 75500
Hours 45
Credits 3

**COMHE 75100 - Community Health Interventions**

An introduction to community-level interventions as explained by theories of individual, organizational and community change from the disciplines of psychology, sociology and health education.

prereq: PH 75500, COMHE 75000
Credits 3

**COMHE 75200 - Community Organizing and Development for Health**

 Prepares students to work in communities by presenting the theory and practice of organizing for social justice, skills for promoting leadership development within communities, and the tools to create and sustain healthy organizations.

prereq: PH 75500, COMHE 75000, COMHE 75100
Credits 3

**COMHE 75300 - Health Program Planning and Funding**

This course will engage students in identifying or designing a health program, finding funding sources, and developing a proposal covering program need, program objectives, a management and quality assurance plan, preliminary work, evaluation, budget, and a plan for funding support.
COMHE 75400 - Research and Evaluation for Community Health

Basic concepts, methods and approaches for evaluation research applied to community health education and health-related programs through a critical review of literature and a program evaluation design.

prereq: completion of 15 cr incl PH 75000 or 75100, PH 75500 and either COMHE 75000, COMHE 75100, COMHE 75200 or COMHE 75000 and NUTR 71000 or NURS 77100, COMHE 75100 and COMHE 75200

Credits 3 cr

COMHE 77000 - Topics in Community Health Education

Courses on current topics in community health education.

offered periodically

COMHE 77025 - Maternal and Child Health

This course explores maternal and child health issues both domestically and internationally.

Credits 3

EOHS 70200 - Introduction to Occupational Safety and Health

Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

Credits 3

EOHS 70500 - Environmental Chemistry

Survey of chemical and physical concepts essential for understanding environmental and occupational health sciences, including study of the atmosphere, air and water pollution, and energy resources. Physical principles of heat and energy, and radioactivity will be discussed.

Credits 3

EOHS 71000 - Industrial Safety and Safety Management

Fundamental concepts and principles of industrial accident prevention and loss control; safety program organization; hazard recognition and evaluation; accident investigation; machine guarding; tire protection; personal protective equipment.

Credits 3

EOHS 74100 - Environmental and Industrial Hygiene Laboratory
Physical, chemical, and instrumental methods for measuring environmental and occupational contaminants.

**prereq** or **coreq**: EOHS 70500
*Hours* 90 hrs lec and lab,
*Credits* 4 cr

**EOHS 74300 - Air Resource Management**

Air pollution sources, types of pollutants, transport phenomena, effects on health and on vegetation and materials; air quality monitoring, criteria, standards, and control methods.

*Credits* 3

**EOHS 74500 - Hazardous Waste Management**

A review of the sources, transportation and control of hazardous chemical wastes. Regulatory requirements, disposal methods and health effects will also be presented.

*Credits* 3

**EOHS 74600 - Water Resources**

Water and waste water technology related to public health. Sources of water supply, distribution, treatment, chemical, biological and physical water pollutants and their health consequences. Review of federal legislation. Field trip to waste water treatment plant.

**EOHS 74700 - Hazard Evaluation and Instrumentation**

An introduction to instrumental methods used to assess environmental and occupational health hazards. Principles and operation of commonly used direct reading instruments and demonstration of their application.

**prereq**: PH 75000 or 75100, EOHS 70200, EOHS 70500
*Credits* 3

**EOHS 75400 - Environment and Occupational Toxicology**

Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of toxicological testing and evaluation.

**prereq**: PH 75400 and EOHS 70500
*Credits* 3

**EOHS 75500 - Industrial Ventilation and Indoor Air Quality**

Advanced course. This course covers the fundamentals of design, operation and evaluation of air moving systems for local and dilution exhaust ventilation systems. Engineering controls are the preferred method for the control of airborne hazards in the workplace.

**prereq**: EOHS 70200 and PH 75400 or permission of the instructor
**coreq**: EOHS 70200 and PH 75400 with permission of the instructor
EOHS 75700 - Principles of Industrial Hygiene

Recognition, evaluation, and control of industrial hazards due to chemical and physical agents. Topics include occupational health standards, regulatory agency activities, effects of contaminants on human health, sampling and control of hazards, current issues.

prereq: EOHS 70200 and 70500
Credits 3

EOHS 75900 - Industrial Processes and Plant Visits

A review of major industrial processes and health hazards associated with each. Includes site visits to metropolitan NY industrial facilities during working hours.

prereq: EOHS 75700
Credits 3

EOHS 76200 - Noise and Radiation Hazards and Controls

Introduction to basic concepts of sound, noise measurement, and noise control in community and occupational environments. Health and safety problems involved with the use of ionizing and non-ionizing radiation, with an emphasis on identification and control.

prereq or coreq: EOHS 70500
Credits 3

EOHS 76500 - Environmental Audits and Remediation

Introduction to environmental investigation and remediation technologies commonly used in professional practice. Presents proper practices for assessing and remediating asbestos, lead-based paint, indoor air quality, and underground storage tanks situations and Phase I site audits.

prereq: PH 75000 or 75100
Credits 3

EOHS 77000 - Topics in Environmental and Occupational Health Sciences

Courses on current topics in environmental and occupational health sciences.

Offered periodically.

EOHS 77025 - Topics: Biohazards and Emergency Response

This cross-listed undergraduate/masters class covers the biology of microorganisms and toxins most frequently considered in perpetrated attacks. It also considers technology for detection and control for first responders, lab practitioners and other healthcare professionals, emergency communication, and prevention. In addition to classroom activities, students participate in group projects to simulate bioterrorism events and responses: government regulation, chain of evidence, and related topics are covered.
Cross-listed MLS 40066
Hours 3
Credits 3

EOHS 77500 - Indoor Air Quality

A review of sources indoor air pollution and its evaluation and control. Topics include assessment techniques, air sampling, HVAC assessment and remediation approaches.

Credits 3

EPI 75000 - Epidemiologic Methods I: Study Research Design

This course will provide an in depth understanding of the design and conduct of epidemiological studies, including causal inferences, measurement, major study designs, threats to validity, and urban public health applications. Examples will be based on the health of New York City residents. Prereq:

Cross-listed GC PH 82000
prereq: PH 75100, PH 75300
Credits 3

EPI 75100 - Epidemiologic Methods II: Survey and Research Methods

This course will provide students with an understanding of the methods used to test research hypotheses; tools for selecting statistical tests appropriate for the particular study design and research hypotheses; and an ability to recognize the importance and impact of threat to validity such as confounding and bias. This course will also cover survey methods used in epidemiologic research.

Cross-listed GC PH 82100
prereq: EPI 75000
Credits 3

EPI 75200 - Applied Research: Data management and analysis

This course provides students with the opportunity to apply epidemiological and statistical concepts using several datasets to answer a given research question and test the hypotheses associated with it

prereq: BIOS 75100, EPI 75100 or instructor's permission
Credits 3

EPI 75300 - Clinical Trials and Experimental Design

This course provides students with the basic foundation of experimental design, with a focus on clinical trials (single and multi-center), intervention trials, and quasi experimental design, particularly in the field of public health. The strengths and limitations of these approaches in comparison with related observational epidemiologic studies will also be covered. Specific topics to be discussed include design options (sampling, treatment allocation, cluster randomization), sample size and power considerations, adverse event monitoring, and statistical analysis of trial data.

prereq: PH 75000/75100 and PH 75200/75300
Credits 3
EPI 75400 - Social Epidemiology

This course will introduce public health and other interested graduate students to the sub-discipline of social epidemiology, including theory and methods. Specifically, students will gain an understanding of how an individual's interactions with factors associated with the social fabric of the society affect and shape health outcomes. This class will also examine the etiology and prevention of disease within both ecological (multi-level) and multidisciplinary frameworks.

prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75500 - Epidemiology of Chronic Diseases

This course provides students with epidemiological background information for the most common chronic disease conditions. In addition, the course provides students with hands on experience to characterize the frequency and impact of chronic diseases and their risk factors in New York City (NYC) using public data available through the Department of Health and Mental Hygiene.

prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75600 - Epidemiology of Infectious Diseases

This course will examine the role of epidemiology in understanding transmission, surveillance and control of infectious diseases. Special focus will be on emerging infectious diseases in urban settings.

prereq: PH 75000 or 75100, PH 75200 or 75300
Offered periodically.

EPI 75700 - Reproductive and Perinatal Epidemiology

This course covers current research, controversial issues, and methodological problems in the epidemiology of male and female reproduction and perinatal health. Topics include: epidemiology of fertility and infertility, contraception and hormone usage, reproductive cancers and other diseases, pregnancy complications, maternal mortality, adverse pregnancy outcomes and birth defects.

prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75800 - Nutritional Epidemiology

This course teaches concepts and principles used in nutritional epidemiology. It provides skills required to critically evaluate dietary assessment methodology and reviews current topics in nutritional epidemiology. In addition, the role of nutrition in health and how this applies to public health is discussed.

Cross-listed GC PH 81200
prereq: PH 75000 or 75100, PH 75200 or 75300

EPI 75900 - Environmental and Occupational Epidemiology

Using a case study approach, this course will explore epidemiologic methods for studying environmentally and occupationally related diseases. Key methodologic issues, such as exposure and outcome assessment, cumulative and multiple exposures, exposure pathways, research ethics, and policy implications of epidemiological findings will also be discussed. The focus will be on the environmental and occupational health of urban populations.
prereq: PH 75000 or PH 75100, PH 75200 or 75300, PH 75400

EPI 76000 - Modeling and Making the Most of your Data with R

This course will provide students with a toolkit for making the most of their data using R when appropriate. This course will consolidate many of the skills previously taught in data analysis and modeling. It will focus on the practical application of these skills throughout the lifecycle of a research project, and provide illustrations and applications of relevant techniques in R. It will provide grounding in the use of R.

prereq: EPI75100 (Epidemiological Methods II) and BIOS75100 (Applied Biostatistics II)
Open to MPH and EOHS-MS or departmental permission.
Hours 3 hrs
Credits 3 cr.

EPI 76100 - Psychiatric and Mental Health Epidemiology

An introduction to the epidemiology of mental health and mental illness. This course takes an explicit epidemiologic perspective, focusing on the study of the burden and determinants of mental illness. It reviews the extant literature on the epidemiology of specific disorders and evaluates studies that investigate risk factors for mental illness. We will consider methodologic challenges involved in the study of mental health and illness such as limitations to diagnostic techniques and screening instruments and issues surrounding co-morbidity. The course will also address the social consequences of mental illness, and consider how we may apply epidemiologic methods to promoting psychological wellbeing in the general population.

prereq: EPI 75000 (Epidemiological Methods I) or equivalent
Open to MPH and EOHS-MS or departmental permission.
recommended prereq or coreq: experience with statistical software (e.g., SPSS, SAS or STATA) preferred but not required
Hours 3 hrs
Credits 3 cr.

EPI 76200 - Life Course Epidemiology

Provides a theoretical framework as to how life-course exposures affect vulnerability to disease, knowledge about life course influences on selected diseases and the implications for prevention and control. This course will also consider how intra- and inter-generational influences may be relevant to disparities in health. Readings will address empirical patterns, prevailing theories and controversies regarding life course influences, as well as addressing interventions or policies that may be applied to improve population health.

prereq: EPI 75000 (Epidemiological Methods I)
Open to MPH and EOHS-MS or departmental permission.
Hours 3 hrs
Credits 3 cr.

EPI 76300 - Public Health Surveillance

Public health surveillance is the fundamental mechanism that public health agencies use to monitor the health of the communities they serve. It is a core function of public health practice, and its purpose is to provide a factual basis from which agencies can appropriately set priorities, plan programs, and take actions to identify and reduce disparities, promote, and protect the public's health. This course will cover the principles of public health surveillance, including historical context, vital registration, disease reporting regulations and notifiable diseases, surveillance registries,
surveillance for behaviors and risk factors, administrative data sources in surveillance, epidemiologic uses of
surveillance data, legal and ethical issues, and dissemination of surveillance information.

prereq: PH 75300 (Principles of Epidemiology), PH 75200 (Introduction to Epidemiology), PH 75100 (Principles of
Biostatistics), PH 75000 (Introduction to Biostatistics)
Open to MPH and EOHS-MS or departmental permission.
Hours 3 hrs
Credits 3 cr.

EPI 76400 - Epidemiology Methods III

This course exposes students to intermediate methods in epidemiologic research and provides students with an
opportunity to consider how these strategies complement and advance the more commonly used strategies. Doctoral
and master's students will apply these concepts and theoretical knowledge to quantitative analyses using different types
of epidemiologic data. Emphasis will be placed on developing practical skills relevant to contemporary epidemiologic
research. Students will explore individual-level exposure-disease associations using classic study designs and
techniques, as well as more recent methods that shift away from identifying individual risk factors for disease causation
to the description and analysis of environmental systems that give rise to both exposures and health states. Students will
also examine potential mediators of these relations.

prereq: EPI 75100 (Epidemiological Methods II) and BIOS 75100 (Applied Biostatistics II)
Open to MPH and EOHS-MS or departmental permission.
Hours 3 hrs
Credits 3 cr.

EPI 77000 - Topics in Epidemiology

Courses on current topics in epidemiology.

Offered periodically.

EPI 77005 - Epidemiological Methods IV

This seminar is intended to help students integrate the concepts and methods of epidemiologic research with specific
inquiry directed at understanding and improving the health of urban populations. This seminar requires students to
develop proposals for epidemiologic research, identify strategies for data analysis that incorporate the lessons learned
in Epidemiology Methods courses I, II, and III, and to examine the application of those strategies to existing research.
This course helps to "bring together" the epidemiology theory and methods that have been discussed throughout the rest
of curriculum with the particular exigencies of urban public health.

prereq: EPI 75000/77000 or PUBH 82200 (CUNY Graduate Center)
Credits variable credits

EPI 77200 - Topics Emerging in Epidemiology

This short course brings leading experts into classrooms to teach emerging methods in epidemiology, study
controversial topics, or provide a rapid immersion into a specialized topic. Each course combines didactic teaching with
applied hands-on training.

prereq: PH75000 (Introduction to Biostatistics)/PH75100 (Principles of Biostatistics) and PH75200 (Introduction to
Epidemiology)/PH75300 (Principles of Epidemiology)
Open to MPH and EOHS-MS or departmental permission.
Hours 22.5 total; hours vary
Credits 1.5

**HPM 75000 - Public Health Management**

Focuses on management issues in a variety of organizational settings and the larger public health environment; describes managerial functions and problem solving strategies, financial management principles, and management models for change; develops specific skills in program management, budgeting, workforce development, and managing intersectoral programs.

*prereq: PH 75500, PH 75600*

**HPM 75100 - Public Health and Health Care Law**

Reviews key areas of the legal process relevant to health care delivery and public health; analyzes major court decisions that have affected the field and selected federal, state and local statutes that affect public health and health care practice; acquaints students with the basics of legal research and legal reasoning as applied to public health and health care.

*prereq or coreq: PH 75500, PH 75600 or with instructor's permission for those with at least one year of health care experience*

**HPM 75200 - Comparative Analyses of Urban Health Care Systems**

Examines unique challenges and opportunities for delivering health care in developed and developing world cities; analyses impact of national and local policies and social and political factors on health care access, quality and outcomes; introduces empirical methods for making comparative studies across municipalities and nations.

*prereq: PH 75500, PH 75600
Students can take this course or HPM 75400*

**HPM 75300 - Public Health Policy Analysis**

Examines common approaches and concepts of policy analysis for public health, including market efficiency and failures, cost-benefit analysis, problem and decision making analysis; describes critiques of such models with public health examples; focuses on the Health Impact Assessment as a method for analyzing costs and benefits of health and non-health policies.

*prereq: PH 75500, PH 75600*

**HPM 75400 - Public Health Advocacy**

Prepares students to advocate for policies that promote public health, develops skills in planning and implementing advocacy campaigns; assess theories on role of coalitions and advocacy in changing health policy.

*prereq: PH 75500, PH 75600
Students can take this course or HPM 75200*

**HPM 75500 - Health Economics**
This course in health economics introduces students to essential microeconomic concepts as they apply to health systems, individual and public health.

**prereq: Recommended pre-req: PH 75500, PH 75600**

**HPM 77000 - Topics in Public Health Policy and Management**

Courses on current topics in public health policy and management.

*Offered periodically*

**NUTR 70000 - Seminar in Dietetics Practice**

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

*Open to dietetic internship (DI) students only.*

**NUTR 70100 - Pre-Professional Practice in Dietetics: Clinical**

Supervised externship in clinical dietetics and classroom discussions of readings and field experiences.

*Open to DI students only.*

**NUTR 70200 - Pre-Professional Practice in Dietetics: Food Service**

Supervised externship in food service and personnel management, and classroom discussions of readings and field experiences.

*Open to DI students only.*

**NUTR 70300 - Pre-Professional Practice in Dietetics: Community**

Supervised externship in community nutrition and classroom discussions of readings and field experiences.

*Credits 3*

*Open to DI students only.*

**NUTR 70500 - Nutrition and Biochemistry**

The structure and metabolism of macro- and micronutrients, kinetics and regulation of enzymes; energetic of biochemical reactions.

**NUTR 71000 - Principles of Public Health Nutrition**

Fundamentals of nutrition in public health as they apply to health promotion and disease prevention for individuals and society, with emphasis on urban populations.

**NUTR 71500 - Food Service and Management**
An overview of good service operations and theories, functions and tasks of management

**NUTR 72000 - Community Nutrition Education**

Nutrition programs and materials for health promotion in the community.

**NUTR 72500 - Nutrition Research**

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

**NUTR 73000 - Nutritional Assessment of Urban Communities and Populations at Risk**

The collection and analysis of data for the purposes of identification of, and designing interventions for, individuals and urban populations at nutritional risk.

**NUTR 73100 - Human Nutrition and Metabolism**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

*prereq: NUTR 70500*

**NUTR 73200 - Advanced Nutrition II**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

*prereq: NUTR 73100*

**NUTR 73300 - Nutrition and Human Development**

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

**NUTR 73400 - Clinical Nutrition I**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73100*

**NUTR 73500 - Clinical Nutrition II**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73400*

**NUTR 74600 - Nutrition and Disease**
Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

coreq: NUTR 74700

**NUTR 74700 - Advanced Nutrition and Assessment Laboratory**

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of various population groups.

coreq: NUTR 74600

**NUTR 74800 - Nutrition Assessment & Counseling**

Nutrition assessment in humans, including anthropometric, biochemical, clinical, and dietary assessment; the application of principles of communication and counseling skills.

prereq: NUTR MS matriculant

Hours 3 hrs
Credits 3 cr.

**NUTR 75600 - Food Science and the Environment**

Scientific principles of food and food ingredients: composition, function, regulation, safety, quality, testing, processing, packaging, formulation, production and evaluation of foods.

coreq: NUTR 75700

**NUTR 75700 - Food Science and the Environment Laboratory**

Laboratory experience with the chemical and physical properties of food components.

coreq: NUTR 75600
Credits 1

**NUTR 76000 - Practicum**

Nutrition and food science-related fieldwork in hospitals, schools, laboratories, and community-based organizations designed to provide opportunities to apply knowledge and skills gained from the classroom education to professional practice.

prereq: completion of 27 credits in NUTR

**NUTR 77000 - Topics in Nutrition**

Courses on current topics in nutrition.

prereq: No prerequisite courses required.
Open to NUTR MS or with departmental permission

Hours 1-6
Credits Variable 1-6 credits, with a maximum of 6 credits. Offered periodically. Variable credits.

**NUTR 78000 - Capstone**

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the Nutrition MS program. Students will complete either a project, research/review paper, or a manuscript.

*prereq: Completion of at least 18 credits of graduate coursework toward the MS Nutrition degree
Hours Variable 3-6 hrs
Credits Variable 3-6 cr. with a maximum of 6 cr.*

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.*

**PH 75200 - Fundamentals of Epidemiology**

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

*prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.
Hours 3
Credits 3*

**PH 75300 - Principles of Epidemiology**

A first-level requirement for student specializing in EPI-BIOS, who will take subsequent intermediate and advanced level epidemiology courses. It will introduce students to epidemiologic theory, principles, methods and measures commonly used in public health.

*prereq or coreq: PH 75100
Hours 3
Credits 3*

**PH 75400 - Fundamentals of Environmental Health**

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

*prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health,
PH 75600 - Fundamentals of Health Policy and Management

Examination of the organization, delivery and financing of health care in the United States as it pertains to the health policy-making process, including the organization of the agencies and personnel constituting the health care system, and analysis of government structure, laws, and regulations. Theoretical concepts, practice, and implementation of health programs in organized settings, including the planning, administration, management, evaluation, and policy analysis of public health agencies and private sector managed care.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Courses in Theatre

Theatre

OVERVIEW

The Hunter College Theatre Department offers students the opportunity to study theatre while exploring New York's vibrant theatre scene. We offer both an MA in Theatre and an MFA in Playwriting. The CUNY Graduate Center offers a PhD in Theatre. We believe that critical thinking and practical skills nourish each other, and students in both programs can take elective classes in acting, directing and design, in addition to theatre history, literature, and theory. Our accomplished faculty members bring their professional experience as practitioners and scholars outside the college to the classroom. The Department produces one mainstage and several smaller productions each semester, with students taking part in all areas of performance and production.

What can I do with my degree in Theatre?

The MA in Theatre prepares students to teach at all levels, work as a teaching artist or work in a nonprofit in the theatre industry. The MFA in Playwriting prepares a select group of students for professional careers as dramatic writers in theater, film and television.

Programs and Courses

Programs and Courses in Theatre

Administration and Faculty

Chair:
Faculty

Theatre Faculty

**Theatre History, Theory, and Criticism**

**THC 70200 - History of Theatrical Theory**

Historical survey of major theatre theories and theorists from Aristotle to poststructuralism.

*Hours 30 hours, including conferences,
Credits 3*

**THC 70500 - Theatre in Society**

Study of influence of social, philosophical, and religious concepts on content and form of modern theatre.

*Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 71000 - Studies in Dramatic Genre**

Theories and changing forms of traditional theatrical genres: tragedy, comedy, tragicomedy, farce, melodrama.

*Hours 30 hrs, including conferences,
Credits 3 cr
May be repeated for credit.*

**THC 71100 - Theatre Criticism**

Analysis of practical modern criticism.

*Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 75100 - History of Theatre I**
Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 30 hrs, including conferences,*  
*Credits 3 cr*

**THC 75200 - History of Theatre II**

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 30 hrs, including conferences,*  
*Credits 3 cr*

**THC 75300 - History of American Theatre**

Theatre in United States from Colonial times to present, with emphasis on its importance as a social and cultural force.

*Hours 30 hrs, including conferences,*  
*Credits 3 cr*

**THC 75800 - Asian Performance**

Study of traditional performance genres in India, China, Japan and Southeast Asia.

*Hours 30 hrs, including conferences,*  
*Credits 3 cr*

**THC 76000 - Studies in Theatre History and Production**

Intensive study of history and theory of one of the component arts of theatre. Subjects announced in advance.

*Hours 30 hrs, including conferences,*  
*Credits 3 cr*  
*May be repeated for credit.*

**Theatre: Dramaturgy**

**THC 76100 - Dramaturgy Research and Case Studies**

Consideration of general problems of production research, including its application in rehearsal; specific examples will be analyzed.

*Hours 45 hrs, plus hrs to be arranged,*  
*Credits 3 cr*

**THC 76200 - History of Directing**

Seminar on the history of the directing profession, with emphasis on innovative 19th- and 20th-century artists.

*Hours 45 hrs,*  
*Credits 3 cr*
THC 76300 - Dramaturgy Workshop

Workshop in the theory and practice of production dramaturgy emphasizing performance projects conceptualized by students working in director-dramaturgy pairs.

prereq: THC 75100, 75200, 79100, or perm instr
Hours 45 hrs,
Credits 3 cr

THC 76400 - Translation Workshop

Workshop in the theory and practice of translating plays. Each student will translate a play or other theatre-related text during the semester.

prereq: perm instr
Hours 45 hrs,
Credits 3 cr

THC 76500 - Dramaturgy Practicum

Independent study as a dramaturgy-assistant at a local professional theatre, supervised by a faculty member.

prereq: THC 761, 762, 763, or perm instr
Hours Hrs to be arranged.
Credits 3 cr
May be repeated twice for credit.

Theatre: Playwriting

THC 73100 - MFA Playwriting I: The One-Act Play

This course is designed for experienced playwrights. Students will complete a ten minute play including three rewrites and a new one act play with three rewrites, with attention to the fundamentals of playwriting: Character, Action, Story, Tone. Readings during the semester

Writing Requirements: A ten-minute play and a one-act play in several drafts, a journal, and other writing exercises.

prereq or coreq: Pre- and/or Corequisites (and/or other special conditions): Students admitted to the MFA program in Playwriting or by special permission of the Instructor
Hours 3
Credits 3

THC 73200 - MFA Playwriting II: The Full-Length Play

This course is designed for the experienced playwright. Students will complete a new full-length play including one rewrite with attention to the fundamentals of structure as well as giving freedom to their individual voices and the process of rewriting. Forms of Drama will be discussed. Staged readings at completion of the projects.
Writing Requirements: Students will complete a full-length play in several drafts.

*prereq: (and/or other special conditions):*

THC 73100 or permission of instructor.

*Hours 3
Credits 3*

**THC 73300 - MFA Playwriting III: Adaptation**

Students will write a full length play adapted from fact or fiction, including two rewrites. Students will fulfill readings in plays which have been adapted from other mediums. Students will be required to complete oral presentations of one adapted project in dramatic literature. Production at completion of the semester. Students will be required to present a thesis play proposal.

*prereq: THC 73200 or permission of the instructor
Hours 3
Credits 3*

**THC 73400 - MFA Playwriting IV: Final Script for Production**

Students will complete a Thesis Masterpiece play including rewrites and culminating in a Final Production.

*prereq: THC 72100 Playwriting III
coreq: THC 72400 Production Workshop II*

**THC 73500 - MFA Production Workshop I**

Development of new scripts through table work, scene work, culminating in staged readings. Working with a community of artists – directors, actors, and dramaturges – through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, and dramaturges.

The class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting and directing.

*prereq: Playwriting II
coreq: Playwriting III*

**THC 73600 - MFA Production Workshop II**

Development of new scripts through table work, scene work, and readings, culminating in works-in-progress performances. Working with a community of artists—directors, actors, designers, and dramaturges—through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, designers, and dramaturges.
This class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting, directing, and design.

prereq: THC 72300 Production Workshop I and THC 721 Playwriting III  
coreq: THC 72200 Playwriting IV

THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

*Hours 30 hrs, including conferences,*  
*Credits 3 cr*

THC 79300 - Playwriting I

Study of techniques of playwriting based on student's own work with special emphasis on scenes and one-act form.

*Hours 45 hrs,*  
*Credits 3 cr*

THC 79400 - Playwriting II

Writing and criticism of original material with emphasis on full-length form.

prereq: THC 79300  
*Hours 45 hrs,*  
*Credits 3 cr*

THC 79500 - Seminar in Playwriting and Directing

Designed for playwrights at work on new scripts and for directors desirous of staging original material.

prereq: THC 79400 or 79200  
*Hours 45 hrs,*  
*Credits 3 cr*  
*May be repeated for credit.*

THC 79600 - Film Writing

Study of problems of writing for film. Students are required to prepare original scripts for class critique.

*Hours 45 hrs,*  
*Credits 3 cr*

Theatre: Studies in Production and Performance

THC 73000 - Harold Clurman Seminar in Theatre
A seminar named in honor of Harold Clurman that features guest artists from the professional theatre discussing various aspects of theatre.

*Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 75400 - Contemporary Styles of Production**

Theories in style and method of dramatic production.

*Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 75500 - Visual Elements of Theatre I**

Study and practice of director's and playwright's conceptual approach to visual requirements of plays.

*Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 75600 - Visual Elements of Theatre II**

Study and practice of scene and lighting design with special emphasis on their value to the director as important tools of interpretation.

*prereq: THC 755
Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 78500 - Theories and Styles of Acting**

Intensive study in theories and techniques of acting, with emphasis on historical and modern styles.

*Hours 45 hrs,
Credits 3 cr*

**THC 79100 - Advanced Directing and Rehearsal**

Study of problems in play direction, with practice in presentation of scenes and plays.

*Hours 45 hrs,
Credits 3 cr*

**THC 79200 - Special Problems in Directing**

Interrelation of director and playwright through project work on original scripts.

*prereq: THC 79100
Hours 45 hrs,
Credits 3 cr*
Theatre Independent Research and Special Topics

THC 72000 - Independent Research

Directed program of reading, research, or creative presentation under supervision of graduate faculty member.

prereq: perm instr
Hours Hrs to be arranged.
Credits 3 cr

THC 72500 - Special Topics

Studies in specialized areas of theatre.

Hours 30 hrs, including conferences,
Credits 3 cr
May be repeated for credit.

Theatre Thesis

THC 79900 - Master's Essay

Individually supervised research and writing of a thesis, leading to graduation with honors.

Credits 3

Courses Outside the Degree Program

It is the responsibility of the graduate adviser to see that matriculated students do not register for any graduate courses outside their program without written permission of the graduate adviser or coordinator of the program in which they are matriculated.

Creative Arts Education Programs

- Dance Pre-K - 12 - MA
- Music Education Pre K-12 - MA
- Theatre Education PreK-12 - MA
- Visual Arts Education - MA

Credentials Submitted for Application to Hunter College

Credentials submitted in support of an application become the property of Hunter College and will not be released to the applicant or transmitted to a third party, except for those foreign certificates considered irreplaceable. Original foreign documents will be returned to the applicant only if, at the time of filing, they are accompanied by photocopies.
Credit

In general one credit represents 15 semester hours of classroom work or 30 semester hours of laboratory work, or the equivalent. Students are automatically classified as full-time during any given semester if they are taking 12 credits. They may be certified as full-time if they are taking fewer than 12 credits but are pursuing additional academic work that is required for the degree and that amounts to full-time study, such as preparing for comprehensive examinations, writing a thesis, teaching on a fellowship, student teaching or undertaking an internship or fieldwork under faculty supervision. Students who believe they qualify for certified full-time status and wish to protect their status as full-time students because of eligibility requirements for financial aid must ask their graduate advisers to verify the full-time nature of their academic work and make a recommendation on this matter to the registrar prior to the beginning of classes of each semester.

CUNY Campus and Workplace Violence Prevention Policy

Return to: Health/Safety Policies & Procedures

Policy Statement

The City University of New York (the "University" or "CUNY") is committed to the prevention of Workplace Violence and will respond promptly to any threats and/or acts of violence. For purposes of this Policy, Workplace Violence is defined as any physical assault or acts of aggressive behavior occurring where an employee performs any work-related duty in the course of his or her employment, including but not limited to:

- An attempt or threat, whether verbal or physical, to inflict physical injury upon an employee;
- Any intentional display of force that would give an employee reason to fear or expect bodily harm;
- Intentional and wrongful physical contact with an employee without his or her consent that entails some injury;
- Stalking an employee in a manner that may cause the employee to fear for his or her physical safety and health when such stalking has arisen through and in the course of employment.

Workplace Violence presents a serious occupational safety hazard to CUNY and its employees. The University will respond promptly to threats and/or acts of violence. All employees are responsible for helping to create an environment of mutual respect and for assisting in maintaining a safe and secure work environment and will participate in the annual Workplace Violence Prevention Training Program. Individuals who violate the Policy may be removed from University property and are subject to disciplinary and/or personnel action up to and including termination consistent...
with University policies, rules and collective bargaining agreements, and/or referral to law enforcement authorities for criminal prosecution.

Incidents involving Workplace Violence will be given the serious attention they deserve. Employees are responsible for reporting any incidents of Workplace Violence of which they become aware. The procedure for reporting incidents of suspected or alleged Workplace Violence can be found in the campus-specific Workplace Violence Prevention Programs at Paragraph 7. The procedure for reporting complaints of a potential violation of the CUNY Workplace Prevention Policy and Programs can be found in the campus-specific Workplace Violence Prevention Programs at Paragraph 9.

The University, at the request of an employee, or student, or at its own discretion, may prohibit members of the public, including family members, from seeing an employee or student on University property unless necessary to transact University-related business. This policy particularly applies when an employee or students anticipates that an act of violence may result from and encounter with said individual(s).

Employee participation in the implementation of this Policy will be provided through their authorized employee representatives, who will be invited to participate in:

1. scheduled physical risk assessment site evaluation(s) to determine the presence of risk factors which may place employees at risk of workplace violence;
2. the development and annual review of a Workplace Violence Prevention Program promulgated by each College for the implementation of the Policy;
3. the annual review of the Campus Workplace Incidents Report prepared annually by each College; and
4. as appropriate, following a serious incident of Workplace Violence.

CUNY Medical Withdrawal & Re-Entry Policy

The City University of New York ("CUNY") is committed to the academic success and personal growth of its students. As part of that commitment, the university and its constituent campuses are responsible for providing a safe learning and working environment for students, faculty, staff and other members of the university community. Some students may, because of a medical condition, engage in behavior that presents a direct threat of harm to themselves or to others, or substantially disrupts the learning or working environment of others. In such situations, the safety and security of the campus community, including the individual student, is paramount. This policy does not replace or supersede reasonable and appropriate security and health and safety measures, such as calling 911 or taking other immediate action in case of imminent threat to life or limb. In addition to taking action to protect the security and safety of the campus community, a college may address the student's conduct to determine if action under this policy or under the student disciplinary process is appropriate. When a student's conduct that directly threatens or substantially disrupts the learning or working environment of others appears to relate to a medical condition, the campus may, at its option, address the student's conduct either in accordance with this policy, or through the student disciplinary process. If the student's conduct constitutes a threat solely to him or herself, it should be addressed under this policy rather than the disciplinary process.

1. Primary Principles
As an alternative to disciplinary action that may be taken under Article XV of CUNY's Bylaws, a college of CUNY may bring a proceeding to require a student to withdraw from the university, or, under some circumstances, the student's home college and/or from residence in a college residence hall under this withdrawal policy and procedures when the student's behavior evidences a direct threat of harm to others, or when the student's behavior substantially disrupts the learning or working environment of others. A direct threat means a significant risk of harm to health or safety. (BTM,2007,06-25,007,_C)

A student who threatens to commit or attempts to commit suicide, and who does not otherwise threaten direct harm to others or substantially disrupts the learning or working environment of others, shall not be subject to disciplinary action for that threat or attempt under Article XV of the CUNY's Bylaws. If a college determines that withdrawal of the student or retention of the student subject to specified conditions is appropriate because the student's behavior threatens direct harm to him or herself, the procedures outlined below shall apply instead of disciplinary procedures. (BTM,2007,06-25,007,_C)

A student who withdraws or is withdrawn from the university, a college or college residence hall pursuant to this policy may apply for re-entry to the University, a college and/or to a college residence hall. The application for re-entry shall be made to the student's home college's Chief Student Affairs Officer, who shall determine whether the student still presents a direct threat of harm to him or herself or others or still presents a significant risk to substantially disrupt the learning or working environment of others. If the Chief Student Affairs Officer or designee determines, based on the assessment of a qualified, licensed mental health professional, that there is not a significant risk that the behavior that required withdrawal will be repeated, he or she shall approve the student's application for re-entry. (BTM,2007,06-25,007,_C)

2. Process

2.1 Emergency Interim Removal

If a student's behavior presents an immediate, severe and direct threat to him or herself or others (by evidencing a likelihood of harm to him or herself or others), or is substantially disrupting the learning or working environment of others, the Chief Student Affairs Officer or designee (if such Officer is not immediately available) may direct an emergency interim removal of the student that restricts the student's access to the College's campus or residence hall, as appropriate, for an interim period before a final determination of the matter. The Chief Student Affairs Officer or designee shall consult with the university's Office of the General Counsel prior to making any such direction. (BTM,2007,06-25,007,_C)

The fact that a student has threatened to commit suicide or attempted suicide, by itself, does not allow the Chief Student Affairs Officer or designee to direct an emergency interim removal. In all cases involving such students, the Chief Student Affairs Officer or designee must attempt to have the student individually assessed by a mental health professional as outlined below before deciding whether to direct an emergency interim removal. (BTM,2007,06-25,007,_C)

Except as permitted above, before determining whether to require an emergency interim removal, the Chief Student Affairs Officer or designee shall take the following steps (BTM,2007,06-25,007,_C):

Exercise all reasonable efforts to meet with the student (BTM,2007,06-25,007,_C)

In that meeting, offer the student the opportunity to be evaluated at the college's expense by a qualified, licensed mental health professional, who may be an employee of a college of the university (CUNY) or of the university or on retainer to a college of the university (CUNY). Whenever possible, that professional shall have had no prior contact with the student. The professional shall assess whether the student's behavior presents an immediate, severe and direct threat to him or herself or others or presents a significant risk to repeat behavior that substantially disrupts the learning or working environment of others, and, if so, whether the student's behavior may be the result of a medical issue. That professional shall present his or her findings to the Chief Student Affairs Officer or designee, who shall determine
based on those findings and other evidence available whether emergency interim removal under these procedures is appropriate (BTM,2007,06-25,007,.C)

If the student refuses to meet, and/or refuses to undergo such assessment or to keep a scheduled appointment, the Chief Student Affairs Officer or designee may require emergency interim removal without a meeting and/or mental health assessment if he or she reasonably concludes on the basis of the available evidence that the student's behavior evidences an immediate, severe and direct threat of harm to the student or others or is substantially disrupting the working or learning environment of others and presents a significant risk to continue that substantial disruption. The Chief Student Affairs Officer or designee shall consult with the University's Office of the General Counsel before making such a determination. (BTM,2007,06-25,007,.C)

The emergency interim removal from the college and/or residence hall shall remain in effect until a final decision has been made pursuant to the procedures below, unless, before a final decision is made, the Chief Student Affairs Officer or designee determines that the reasons for imposing the interim removal no longer exist. (BTM,2007,06-25,007,.C)

2.2. Withdrawal after Emergency Interim Removal

If a student has been subjected to an emergency interim removal from the college and/or residence hall, the college shall request retention with conditions or voluntary withdrawal within 7 calendar days of such removal. Should the request for retention with conditions or voluntary withdrawal request be refused, the college shall determine within 7 calendar days of such refusal whether to take further action against the student, including whether to initiate involuntary withdrawal proceedings or, disciplinary proceedings under Article XV of the University Bylaws, as applicable above, and shall send notice of either such proceeding in accordance with the notice requirements of the applicable procedure within that seven day period. For students who have been subjected to an emergency interim removal without having undergone the assessment procedures outlined above, the college shall follow the assessment procedures outlined below prior to determining its course of action. (BTM,2007,06-25,007,.C)

In cases where the student has been subjected to an emergency interim removal without assessment, the procedure for determining whether withdrawal is appropriate is as follows (BTM,2007,06-25,007,.C):

The Chief Student Affairs Officer or designee shall exercise best efforts to meet with the student to discuss the student's behavior and to hear the student's explanation of the alleged behavior. If, after hearing the explanation, the Officer or designee still wishes to consider the possibility of the student's withdrawal, he or she shall offer the student an opportunity to be evaluated, at the college's expense, by a qualified, licensed mental health professional, who may be an employee of a college of the university (CUNY) or the university, or on retainer to a college of the university or the university. Whenever possible, that professional shall have had no prior contact with the student. The professional shall make findings concerning whether the student's behavior presents a direct threat of harm to him or herself or others or presents a significant risk to repeat behavior that substantially disrupts the learning or working environment of others and if so, whether the student's behavior may be the result of a medical issue. The professional shall report such findings to the Chief Student Affairs Officer, who shall, based on those findings, and after consultation with the University's Office of the General Counsel, determine the appropriate action, including whether to request that the student withdraw from the university, the college and/or the college residence hall or whether to request that the student agree to specified conditions in lieu of withdrawal. (BTM,2007,06-25,007,.C)

If the student refuses to undergo the requested assessment, or fails to keep the scheduled appointment, and the Chief Student Affairs Officer reasonably concludes on the basis of the available evidence that the student's behavior presents a direct threat of harm to him or herself or others or substantially disrupts the learning or working environment of others and presents a significant risk to repeat behavior that substantially disrupts the learning or working environment of others, the Chief Student Affairs Officer may request that the student voluntarily withdraw from the university, the college and/or the college residence hall. The Chief Student Affairs Officer shall consult with the University's Office of the General Counsel before making any such request. (BTM,2007,06-25,007,.C)
If the student agrees to the request for voluntary withdrawal or to the specified conditions, the Chief Student Affairs officer or designee shall (BTM,2007,06-25,007,_.C):

(a) Discuss with the student the procedures for and consequences of voluntary withdrawal or the specified conditions, as applicable

(b) Discuss the circumstances with the student's parents or legal guardians as permissible by law and as appropriate

(c) Consult with the student's academic adviser or department, as appropriate

(d) Consult with the residence hall director, as appropriate

(e) Refer the student to appropriate resources for treatment

(f) Advise the student concerning the process for applying for re-entry, as well as on conditions for re-entry, if applicable and appropriate.

If the student does not agree to the request for voluntary withdrawal or to the specified conditions, the Chief Student Affairs Officer shall determine, in consultation with the University's Office of the General Counsel, whether to take further action against the student, including whether to initiate involuntary withdrawal proceedings, or, in the case of students referenced above, whether to initiate disciplinary proceedings under Article XV of the University Bylaws.

2.3. Withdrawal without Emergency Interim Removal, of Students who Present a Direct Threat of Harm to Others or Substantially Disrupt the Learning or Working Environment of Others

In situations where a student's behavior evidences a direct threat of harm to himself or others or substantially disrupts the learning or working environment of others and presents a significant risk to repeat behavior that substantially disrupts the learning or working environment of others and the Chief Student Affairs Officer reasonably believes that the student's behavior may be connected to a medical issue, the Chief Student Affairs Officer or designee may request that the student voluntarily withdraw or agree to retention under conditions. (BTM,2007,06-25,007,_.C)

If the student agrees to the request for voluntary withdrawal or to the specified conditions, the Chief Student Affairs officer or designee shall (BTM,2007,06-25,007,_.C):

(a) Discuss with the student the procedures for and consequences of voluntary withdrawal or the specified conditions, as applicable

(b) Discuss the circumstances with the student's parents or legal guardians as permissible by law and as appropriate

(c) Consult with the student's academic adviser or department, as appropriate

(d) Consult with the residence hall director, as appropriate

(e) Refer the student to appropriate resources for treatment

(f) Advise the student concerning the process for applying for re-entry, as well as on conditions for re-entry, if applicable and appropriate.

If the student does not agree to the request for voluntary withdrawal or to the specified conditions, the Chief Student Affairs Officer shall determine, in consultation with the University's Office of the General Counsel, whether to take
further action against the student, including whether to initiate involuntary withdrawal proceedings or disciplinary proceedings under Article XV of the University Bylaws. (BTM,2007,06-25,007,_.C)

Before initiating involuntary withdrawal proceedings under this procedure, the Chief Student Affairs Officer shall follow the assessment procedures outlined above. (BTM,2007,06-25,007,_.C)

2.4 Withdrawal without Emergency Interim Removal of Students who Present a Direct Threat of Harm Solely to Themselves

The college shall follow the assessment and other procedures outlined above in order to determine the appropriate course of action. (BTM,2007,06-25,007,_.C)

3. Involuntary Withdrawal

The following shall be the procedures for involuntary withdrawal:

Notice of the involuntary withdrawal hearing and the time and place of the hearing shall be personally delivered or sent by the Chief Student Affairs Officer or designee of the student's home college to the student at the address appearing on the records of the college, by overnight or certified mail, by regular mail, and, for students who have a college e-mail address, to that e-mail address. Notice of at least five business days shall be given to the student in advance of the hearing unless the student consents to an earlier hearing. (BTM,2007,06-25,007,_.C)

The notice shall contain (BTM,2007,06-25,007,_.C)

(a) A statement of the reasons involuntary withdrawal is sought

(b) The type of withdrawal sought (from the university, the college and/or from the college residence hall); and

(c) A statement that the student has a right to present his or her side of the story, to present witnesses and evidence on his or her behalf, to cross-examine witnesses presenting evidence against the student, to remain silent without assumption of guilt, and to be represented by legal counsel or an adviser at the student's expense.

The university shall constitute a Health Review Panel, comprised of qualified, licensed mental health professionals employed by a college of the university (CUNY) or by the university, or on retainer to a college of the university or the university. The university's Vice Chancellor for Student Development shall appoint the members of the Health Review Panel. Members of the Health Review Panel, in committees constituted separately for each hearing ("Health Review Committee"), shall be responsible for adjudicating all involuntary withdrawal hearings held according to these procedures. For each involuntary withdrawal hearing, the Vice Chancellor for Student Development or his designee shall constitute a three-person Health Review Committee from the Health Review Panel to adjudicate at that hearing. No member of the Health Review Committee shall have had prior contact with the student. All decisions of the Health Review Committee shall be made by majority vote. (BTM,2007,06-25,007,_.C)

The hearing shall be closed, unless the student requests an open hearing. However, the Health Review Committee may overrule a request for an open hearing if it determines that an open hearing would be inappropriate or disruptive in light of the nature of the evidence to be presented. (BTM,2007,06-25,007,_.C)

After the evidence is presented at the hearing, the Health Review Committee shall determine whether the college has proved, by a preponderance of the evidence, that the student's behavior presents a direct threat of harm to him or herself or others, or has substantially disrupted the learning or working environment of others and presents a significant risk of
threatening further substantial disruption of the learning or working environment of others, and if so, what the appropriate remedy should be. The Health Review Committee may also set reasonable and appropriate conditions on re-entry. The decision of the Health Review Committee shall be made within five business days from the close of the hearing. (BTM,2007,06-25,007, C)

4. Appeals

An appeal from the decision of the Health Review Committee may be made to the President of the student's home college or the President's designee within thirty calendar days after the delivery of the decision appealed from. The President or designee shall make his or her determination on the appeal within fifteen business days from receipt of the appeal. The President's decision may be appealed to the Chancellor of the University or his or her designee within thirty calendar days after the delivery of the President's decision on appeal. The Chancellor or designee's decision shall be made within fifteen business days from receipt of the appeal. The Chancellor (or designee's) decision shall be final. The bases overturning a decision of the Health Review Committee at both levels of review are limited to the following. (BTM,2007,06-25,007, C)

(a) Clearly erroneous factual findings;
(b) Procedural irregularities;
(c) Newly available evidence that would have affected the outcome;
(d) The remedy and/or conditions on re-entry were unreasonable or inappropriate.

5. Re-entry

A student who is withdrawn from the university, a student's home college and/or a college residence hall under this policy may be considered for re-entry.

A student wishing to be considered for re-entry should contact his or her home college's Chief Student Affairs Officer and provide appropriate documentation of behavioral change and resolution of the initial behavioral problem, including compliance with any conditions that may have been set for re-entry.

A student may apply for re-entry to the university, a college and/or a college residence hall no more than one time per term. (BTM,2007,06-25,007, C)

In assessing an application for re-entry, the Chief Student Affairs Officer or designee shall (BTM,2007,06-25,007, C):
(a) In cases in which he or she determines that an additional mental health assessment is necessary, refer the student for assessment to a qualified, licensed mental health professional, at the college's expense;
(b) Receive, investigate, and examine appropriate relevant documentation, including assessments made by college-referred mental health professionals, and, if applicable, licensed treating mental health professionals;
(c) Consult with the Health Review Committee, in cases in which the student's withdrawal was adjudicated by such a Committee;
(d) Contact the student's parents or legal guardians as permissible by law, if appropriate
(e) Provide an opportunity for the student to meet with the Chief Student Affairs Officer or designee to discuss re-entry.

If the Chief Student Affairs Officer or designee determines, based on the evidence presented, that there is not a significant risk that the behavior that required withdrawal will be repeated, he or she shall approve the student's application for re-entry. In such cases, the Chief Student Affairs Officer or designee shall initiate the re-entry process,
provide the student with written conditions for continued attendance, and inform any relevant administrators of the
student's re-entry.

If the Chief Student Affairs Officer or designee determines that the application for re-entry should be denied, he or she
shall provide the student with a written explanation of the reasons for the denial and specify when the next request for
re-entry may be considered. (BTM,2007,06-25,007,"C)

A student may appeal the Chief Student Affairs Officer or designee's denial of re-entry to the college President or
designee within thirty calendar days after the delivery of the decision denying re-entry. The President or designee shall
make his or her determination on the appeal within thirty calendar days from receipt of the appeal. The President's
decision may be appealed to the Chancellor of the University or his or her designee within thirty calendar days after the
delivery of the President's decision on appeal. The Chancellor or designee's decision shall be made within thirty
calendar days from receipt of the appeal. The Chancellor (or designee's) decision shall be final. The basis for
overturning a decision on appeal at either level shall be limited to a determination that the decision on re-entry was
clearly erroneous. (BTM,2007,06-25,007,"C)

6. Effect on Academic Status

In the event of a withdrawal pursuant to this policy, a notation of withdrawal shall appear on the student's transcript for
all classes taken during that semester. The Chief Student Affairs Officer at a student's home college may grant a student
request that, in lieu of withdrawal, a notation of incomplete shall appear on his or her transcript for classes taken during
that semester if and only if there is a reasonable prospect that the student will eventually complete such classes, subject
to faculty approval for each such class. Regardless of the notation that appears on a student's transcript, the Chief
Student Affairs Officer of the student's home college shall inform the Vice Chancellor for Student Development of the
student's withdrawal in order to effectuate a hold by the University Application Processing Center on the student's
ability to transfer or otherwise seek admission to another college of the university. (BTM,2007,06-25,007,"C)

7. Effect on Housing Status

If the student has been living in a college residence hall and will not be permitted to continue to do so, the student's
contract will be canceled and fees refunded on a prorated basis. (BTM,2007,06-25,007,"C)

8. Confidentiality

The results of examinations by mental health professionals to whom students are referred for assessment at any stage in
the withdrawal or readmission process shall be confidential student records, except that if the results indicate that the
student presents an imminent, severe, and direct threat of harm to him or herself or others, those results may be shared
with the appropriate individuals in order to attempt to prevent the occurrence of such harm. The results of these
examinations shall be admissible in involuntary withdrawal hearings but shall not be admissible in disciplinary
hearings, unless the student places his or her health, including mental health, at issue in a disciplinary
hearing. (BTM,2007,06-25,007,"C)

9. Board Review
During the fall 2009 semester, the Chancellery shall conduct a review of the experience of the colleges with these procedures and shall report the results of that review to the Board of Trustees, along with any recommended changes. (BTM, 2007, 06-25, 007, C)

CUNY Policy on Academic Integrity

Table of Contents

I. Definitions and Examples of Academic Dishonesty

- Cheating
- Plagiarism
- Internet Plagiarism
- Obtaining Unfair Advantage
- Falsification of Records and Officials Documents

Academic dishonesty is prohibited in The City University of New York and is punishable by penalties, including failing grades, suspension, and expulsion, as provided herein.

A. Definitions and Examples of Academic Dishonesty

Cheating is the unauthorized use or attempted use of material, information, notes, study aids devices or communication during an academic exercise.

The following are some examples of cheating, but by no means is it an exhaustive list:

- Copying from another student during an examination or allowing another to copy your work.
- Unauthorized collaboration on a take home assignment or examination.
- Using notes during a closed book examination.
- Taking an examination for another student, or asking or allowing another student to take an examination for you.
- Changing a graded exam and returning it for more credit.
- Submitting substantial portions of the same paper to more than one course without consulting with each instructor.
- Preparing answers or writing notes in a blue book (exam booklet) before an examination.
- Allowing others to research and write assigned papers or do assigned projects, including use of commercial term paper services.
- Giving assistance to acts of academic misconduct/ dishonesty.
- Fabricating data (all or in part).
- Submitting someone else's work as your own.
- Unauthorized use during an examination of any electronic devices such as cell phones, palm pilots, computers or other technologies to retrieve or send information.

Plagiarism is the act of presenting another person's ideas, research or writings as your own.

The following are some examples of plagiarism, but by no means is it an exhaustive list:

- Copying another person's actual words without the use of quotation marks and footnotes attributing the words to their source.
- Presenting another person's ideas or theories in your own words without acknowledging the source.
- Using information that is not common knowledge without acknowledging the source.
Failing to acknowledge collaborators on homework and laboratory assignments. Internet Plagiarism includes submitting downloaded term papers or parts of term papers, paraphrasing or copying information from the internet without citing the source, and "cutting & pasting" from various sources without proper attribution.

is any activity that intentionally or unintentionally gives a student an unfair advantage in his/her academic work over another student.

The following are some examples of obtaining an unfair advantage, but by no means it is an exhaustive list:

- Stealing, reproducing, circulating or otherwise gaining advance access to examination materials.
- Depriving other students of access to library materials by stealing, destroying, defacing, or concealing them.
- Retaining, using or circulating examination materials which clearly indicate that they should be returned at the end of the exam.
- Intentionally obstructing or interfering with another student’s work.

Falsification of Records and Officials Documents

The following are some examples of falsification, but by no means is it an exhaustive list:

- Forging signatures of authorization.
- Falsifying information on an official academic record.
- Falsifying information on an official document such as a grade report, letter of permission, drop/add form, ID card or other college document.

CUNY Sexual Misconduct Policy

I. Policy Statement
II. Scope of this Policy
III. Definitions
IV. Prohibited Conduct
V. Title IX Coordinator
VI. Assistance in Cases of Sexual Violence
VII. Important Information about Confidentiality, Privacy and Required Referrals
VIII. Reporting Sexual Misconduct to the College
IX. Reporting/Confidentiality Obligations of College and University Employees
X. No Contact Orders and Other Interim and Supportive Measures
XI. Investigating Complaints of Sexual Misconduct
XII. Disciplinary Process and Procedures
I. Policy Statement

Every member of The City University of New York ("CUNY") community, including students, employees and visitors, deserves the opportunity to live, learn and work free from Sexual Misconduct (sexual harassment, gender-based harassment and sexual violence). Accordingly, CUNY is committed to:

1) Defining conduct that constitutes prohibited Sexual Misconduct;

2) Providing clear guidelines for students, employees and visitors on how to report incidents of Sexual Misconduct and a commitment that any complaints will be handled respectfully;

3) Promptly responding to and investigating allegations of Sexual Misconduct, pursuing disciplinary action when appropriate, referring the incident to local law enforcement when appropriate, and taking action to investigate and address any allegations of retaliation;

4) Providing ongoing assistance and support to students and employees who make allegations of Sexual Misconduct;

5) Providing awareness and prevention information on Sexual Misconduct, including widely disseminating this policy, as well as a "students' bill of rights" and implementing training and educational programs on Sexual Misconduct to college constituencies; and

6) Gathering and analyzing information and data that will be reviewed in order to improve safety, reporting, responsiveness and the resolution of incidents.

This is the sole policy at CUNY addressing Sexual Misconduct and is applicable at all college and units at the University. It will be interpreted in accordance with the principles of academic freedom adopted by CUNY's Board of Trustees.

The CUNY community should also be aware of the following CUNY policies:

• The CUNY Policy on Equal Opportunity and Nondiscrimination prohibits discrimination on the basis of numerous protected characteristics in accordance with federal, state and local law. That policy addresses sex discrimination other than Sexual Misconduct covered by this policy.

• The CUNY Campus and Workplace Violence Prevention Policy addresses workplace violence.

• The CUNY Domestic Violence and the Workplace Policy addresses domestic violence in or affecting employees in the workplace.

• The CUNY Procedures for Implementing Reasonable Accommodations and Academic Adjustments addresses the procedures CUNY will follow when there is a request for a reasonable accommodation and or academic adjustment.

In addition, campus crime statistics, including statistics relating to sexual violence, which CUNY is required to report under the Jeanne Clery Act, are available from the Office of Public Safety at each college and/or on its Public Safety website.

II. Scope of this Policy

This policy governs the conduct of (i) all the members of CUNY's community, including employees and students, and (ii) non-members of CUNY's community who interact with members of the CUNY community (hereinafter "visitors").
Visitors are both protected by and subject to this policy. A non-member may make a complaint of or report a violation of this policy committed by a member of CUNY's community. A non-member may also be subject to restrictions for failing to comply with this policy. This policy applies to conduct that occurs on and off CUNY property.

III. Definitions

1. **Affirmative Consent** is a knowing, voluntary and mutual decision among all participants to engage in sexual activity. Consent can be given by words or actions, as long as those words or actions create clear permission regarding willingness to engage in the sexual activity. Silence or lack of resistance, in and of itself, does not demonstrate consent. The definition of consent does not vary based upon a participant's sex, sexual orientation, gender identity or gender expression.

   Consent to any sexual act or prior consensual sexual activity between or with any party does not necessarily constitute consent to any other sexual act.

   In order to give consent, one must be of legal age (17 years or older).

   Consent is required regardless of whether the person initiating the act is under the influence of drugs and/or alcohol.

   Consent cannot be given when a person is incapacitated, which occurs when an individual lacks the ability to knowingly choose to participate in sexual activity. Incapacitation may be caused by lack of consciousness or being asleep, being involuntarily restrained, or if the individual otherwise cannot consent. Depending on the degree of intoxication, someone who is under the influence of alcohol, drugs, or other intoxicants may be incapacitated and therefore unable to consent.

   Consent cannot be given when it is the result of any coercion, intimidation, force, or threat of harm.

   Consent may be initially given but withdrawn at any time. When consent is withdrawn or can no longer be given, sexual activity must stop.

2. **Complainant** refers to the individual who alleges that she/he has been the subject of Sexual Misconduct, and can be a CUNY student, employee (including all full-time and part-time faculty and staff), or visitor. Under this policy, the alleged incident(s) may have been brought to the college's attention by someone other than the complainant.

3. **Complaint** is an allegation of Sexual Misconduct made under this policy.

4. **Confidentiality** is the commitment not to share any identifying information with others, except as required by law in emergency circumstances (such as risk of death or serious bodily harm). Confidentiality may only be offered by individuals who are not legally required to report known incidents of Sexual Misconduct to college officials. Licensed mental health counselors, medical providers & pastoral counselors may offer confidentiality.

5. **Dating Violence** is violence or sexual assault committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. The existence of such a relationship is determined based on the reporting party's statement and with consideration of the length of the relationship and the frequency of the interaction between the persons involved in the relationship. Dating violence can be a single act or a pattern of behavior, based on the frequency, nature, and severity of the conduct. A relationship may be romantic or intimate regardless of whether the relationship was sexual in nature. Dating violence includes the threat of sexual or physical abuse.
6. **Domestic Violence** is any violence or sexual assault committed by (i) a current or former spouse or intimate partner of the victim; (ii) a person with whom the victim shares a child; (iii) a person who cohabits or cohabited with the victim as a spouse or intimate partner; or (iv) anyone else covered by applicable domestic violence laws. Domestic violence can be a single act or a pattern of behavior, based on the frequency, nature, and severity of the conduct.

7. **Forcible Touching/Fondling** is intentionally touching the sexual or other intimate parts of another person without the latter's consent for the purpose of degrading or abusing such person, or for the purpose of gratifying the actor's sexual desire.

8. **Gender-Based Harassment** is unwelcome conduct of a nonsexual nature based on an individual's actual or perceived sex, including conduct based on gender identity, gender expression, and nonconformity with gender stereotypes that is sufficiently serious to adversely affect an individual's participation in employment, education or other CUNY activities. The effect will be evaluated based on the perspective of a reasonable person in the position of the complainant. An example of gender-based harassment would be persistent mocking or disparagement of a person based on a perceived lack of stereotypical masculinity or femininity.

9. **Intimate Partner Violence ("IPV")** includes both Domestic Violence and Dating Violence.

10. **Managers** are employees who have authority to make tangible employment decisions with regard to other employees, including the authority to hire, fire, promote, compensate or assign significantly different responsibilities.

11. **Pastoral counselor.** A person who is associated with a religious order or denomination, recognized by that order or denomination as someone who provides confidential counseling, and functioning within the scope of that recognition.

12. **Privacy** is the assurance that the college will only reveal information about a report of Sexual Misconduct to those who need to know the information in order to carry out their duties or responsibilities or as otherwise required by law. Individuals who are unable to offer the higher standard of confidentiality under law, but who are still committed to not disclose information more than necessary, may offer privacy.

13. **Rape and Attempted Rape** is the penetration or attempted penetration, no matter how slight, of any body part by a sex organ of another person, without the consent of that person.

14. **Respondent** refers to the individual who is alleged to have committed Sexual Misconduct against a CUNY student, employee, or visitor.

15. **Retaliation** is adverse treatment of an individual as a result of that individual's reporting Sexual Misconduct, assisting someone with a report of Sexual Misconduct, opposing in a reasonable manner an act or policy believed to constitute Sexual Misconduct, or participating in any manner in an investigation or resolution of a Sexual Misconduct report. Adverse treatment includes threats, intimidation and reprisals by either a complainant or respondent or by others such as friends or relatives of either a complainant or respondent.

16. **Sexual Activity** is

- contact between the penis and the vulva or the penis and the anus;
- contact between the mouth and the penis, the mouth and the vulva, or the mouth and the anus;
- penetration, however slight, of the of the anal or genital opening of another by a hand or finger or by any object, with an intent to abuse, humiliate, harass, degrade, or arouse or gratify the sexual desire of any person; or intentional touching, either directly or through the clothing, of the genitalia, anus, groin, breast, inner thigh, or buttocks of any person with an intent to abuse, humiliate, harass, degrade, or arouse or gratify the sexual desire of any person.
17. **Sexual Assault** is any form of sexual activity that occurs without consent.

18. **Sex Discrimination** is treating an individual differently or less favorably because of sex, including sexual orientation, gender or gender identity (including transgender status), as well as pregnancy, childbirth and related medical conditions. Examples of sex discrimination include giving a student a lower grade, or failing to hire or promote an employee, based on their sex.

19. **Sexual Harassment** is unwelcome conduct of a sexual nature, including but not limited to unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, graphic and electronic communications or physical conduct of a sexual nature when:

   i. submission to or rejection of such conduct is made either explicitly or implicitly a condition of an individual's employment or academic standing or is used as the basis for employment decisions or for academic evaluation, grades, or advancement (quid pro quo); or

   ii. such conduct is sufficiently serious that it alters the conditions of, or has the effect of substantially interfering with, an individual's educational or work experience by creating an intimidating, hostile, or offensive environment (hostile environment). The effect will be evaluated based on the perspective of a reasonable person in the position of a complainant.

   Conduct is considered "unwelcome" if the individual did not request or invite it and considered the conduct to be undesirable or offensive. While it is not possible to list all circumstances that might constitute sexual harassment, the following are some examples of conduct that might constitute sexual harassment depending on the totality of the circumstances:

   i. Inappropriate or unwelcome physical contact or suggestive body language, such as touching, groping, patting, pinching, hugging, kissing, or brushing against an individual's body;

   ii. Verbal abuse or offensive comments of a sexual nature, including sexual slurs, persistent or pervasive sexually explicit statements, questions, jokes or anecdotes, degrading words regarding sexuality or gender, suggestive or obscene letters, notes, or invitations;

   iii. Visual displays or distribution of sexually explicit drawings, pictures, or written materials; or

   iv. Undue and unwanted attention, such as repeated inappropriate flirting, staring, or making sexually suggestive gestures.

20. **Sexual Misconduct** is sexual harassment, gender-based harassment or sexual violence, as defined in this policy.

21. **Sexual Violence** includes: (1) sexual activity without affirmative consent, such as sexual assault rape/attempted rape, and forcible touching/fondling; (2) dating, domestic and intimate partner violence; (3) stalking as defined below; and (4) voyeurism, as defined below.

22. **Stalking** is intentionally engaging in a course of conduct directed at a specific person that:

   1. is likely to cause reasonable fear of material harm to the physical health, safety or property of such person, a member of such person's immediate family or a third party with whom such person is acquainted; or causes material harm to the mental or emotional health of such person, where such conduct consists of following, telephoning or initiating communication or contact with such person, a member of such person's immediate family or a third party with whom such person is acquainted; or

   2. is likely to cause such person to reasonably fear that her/his employment, business or career is threatened, where such conduct consists of appearing, telephoning or initiating communication or contact at such
person's place of employment or business, and the actor was previously clearly informed to cease that conduct.

Where stalking is directed at an individual with whom the perpetrator has, had, or sought some form of sexual or romantic relationship, it will be addressed under this Policy. Stalking that lacks a sexual or gender-based nexus may be addressed under the Code of Conduct.

23. **Supervisors** are employees who are not managers, but have a sufficient degree of control over the working conditions of one or more employees, which might include evaluating their performance and making recommendations for changes in employment status that are given particular weight.

24. **Visitor** is an individual who is present at a CUNY campus or unit but is not a student or an employee.

25. **Voyeurism** is unlawful surveillance and includes acts that violate an individual's right to privacy in connection with her/his body and/or sexual activity such as:

   i. Viewing another person's sexual activity, intimate body parts, or nakedness in a place where that person would have a reasonable expectation of privacy, without that person's consent.

   ii. Recording images (e.g. video, photograph) or audio of another person's sexual activity, intimate body parts, or nakedness without that person's consent;

   iii. Disseminating images (e.g. video, photograph) or audio of another person's sexual activity, intimate body parts, or nakedness, if the individual distributing the images or audio knows or should have known that the person depicted in the images or audio did not consent to such disclosure;

   iv. Using or installing, or permitting the use or installation of a device for the purpose of recording another person's sexual activity, intimate body parts or nakedness in a place where the person would have a reasonable expectation of privacy without that person's consent.

26. **Writing.** Whenever this policy requires in "writing," electronic mail satisfies the writing requirement.

### IV. Prohibited Conduct

1. **Sexual Harassment, Gender-Based Harassment and Sexual Violence**

   This policy prohibits sexual harassment, gender-based harassment and sexual violence (together "Sexual Misconduct") against any CUNY student, employee or visitor.

   Sexual harassment includes unwelcome conduct of a sexual nature, such as unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, graphic and electronic communications or physical conduct that is sufficiently serious to adversely affect an individual's participation in employment, education or other CUNY activities.

   Sexual harassment is considered a form of employee misconduct and an employee who engages in such conduct, or, managerial and supervisory personnel who knowingly allow such behavior to continue, shall be subject to discipline in accordance with applicable rules, policies and collective bargaining agreements.

   Gender-based harassment is unwelcome conduct of a nonsexual nature based on an individual's actual or perceived sex, including conduct based on gender identity, gender expression, and nonconformity with gender stereotypes that is sufficiently serious to adversely affect an individual's participation in employment,
education or other CUNY activities.

Sexual violence is an umbrella term that includes: (1) sexual activity without affirmative consent, sexual assault, rape/attempted rape, and forcible touching/fondling; (2) dating, domestic and intimate partner violence; (3) stalking/cyberstalking ("stalking"), and (4) voyeurism.

The complete definitions of these terms, as well as other key terms used in this policy, are in Section III above.

2. Retaliation

This policy prohibits retaliation against any person who reports Sexual Misconduct, assists someone making such a report, participates in any manner in an investigation or resolution of a Sexual Misconduct complaint, including testifying or assisting in a legal proceeding, or opposes in a reasonable manner an act or policy believed to constitute Sexual Misconduct. Federal, state, and local laws also prohibit retaliation.

3. Certain Intimate Relationships

This policy also prohibits certain intimate relationships when they occur between a facutymember or employee and any student for whom he or she has a professional responsibility as set forth in Section XII below.

V. Title IX Coordinator

Each college or unit of CUNY has an employee who has been designated as the Title IX Coordinator. This employee is responsible for compliance with Title IX of the Education Amendments of 1972, which prohibits sex discrimination, including Sexual Misconduct, in education programs, and with New York State Law Article 129B, commonly referred to as the Enough is Enough, Combating Sexual Assault and Domestic Violence on College Campuses (hereafter "Enough is Enough"). The Title IX Coordinator has overall responsibility for implementing this policy, including overseeing the investigation of complaints at her/his college or unit and carrying out the other functions of that position set forth in this policy. All Title IX Coordinators shall receive annual training on Sexual Misconduct as required by Title IX, the Clery 10 Act, Enough is Enough, and other civil rights law. The name and contact information for all Title IX Coordinators at CUNY can be found on the university's dedicated Title IX website.

VI. Assistance in Cases of Sexual Violence

1. Reporting to Law Enforcement

Students, employees and other community members who experience any form of sexual violence on or off-campus (including CUNY-sponsored trips and events) and visitors who experience sexual violence on a CUNY campus may, but are not required to, report to local law enforcement, and/or state police. CUNY does not require a complainant to report sexual misconduct to law enforcement; however, if a student, employee, or other community member does wish to report to law enforcement, CUNY will provide assistance. Each college public safety office shall have an appropriately trained employee available at all times to provide the complainant with information regarding options to proceed, including information regarding the criminal justice process and the preservation of evidence. Campus public safety officers can also assist the complainant with filing a complaint both on and off-campus, and in obtaining immediate medical attention and other services.

Additional information is available on the university's Title IX website.
2. Relationship of CUNY’s Investigation to the Action of Outside Law Enforcement

In cases where the complainant files a complaint with outside law enforcement authorities as well as with the college, the college shall determine what actions to take based on its own investigation. The college may coordinate with outside law enforcement authorities in order to avoid interfering with their activities and, where possible, to obtain information regarding their investigation. Neither a law enforcement determination whether to prosecute a respondent, nor the outcome of any criminal prosecution, is dispositive of whether the respondent has committed a violation of this policy.

Students, employees and other community members should be aware that CUNY procedures and standards differ from those of criminal procedures. When CUNY investigates allegations of sexual misconduct or brings disciplinary proceedings for violations of this policy, the issue is whether the respondent violated CUNY policy. The standard applied in making this determination is whether the preponderance of the evidence substantiates the complaint, or, stated another way, whether it is more likely than not that the alleged conduct occurred. An individual found to have violated this policy may be sanctioned by the college and CUNY. In the criminal justice system, on the other hand, the issue is whether the accused violated state criminal law. The standard applied is proof beyond a reasonable doubt and an individual found guilty of a crime is subject to criminal penalties, such as incarceration, probation and fines. More information about relevant criminal laws is available in ‘A Plain Language Explanation of Distinction Between the New York Penal Law and the College Disciplinary Processes’.

3. Obtaining Immediate Medical Attention and Emotional Support

CUNY encourages anyone who has experienced sexual assault or domestic, dating or intimate partner violence to seek medical attention as soon as possible. Medical resources can provide 11 treatment for injuries, preventative treatment for sexually transmitted diseases, emergency contraception, and other health services. They can also assist in preserving evidence or documenting any injuries. Taking these steps promptly after an incident can be very helpful if an individual later decides to seek criminal proceedings or a protective order.

Individuals who have experienced or witnessed sexual violence are also encouraged to seek emotional support, either on or off-campus.

4. On-campus resources

On campus resources include nurses and/or nurse practitioners at campus health offices and counselors at campus counseling centers. Counselors are trained to provide crisis intervention and provide referrals for longer-term care as necessary.

CUNY also maintains a list of off-campus emergency contacts and resources, including rape crisis centers, available throughout New York City on its dedicated web page. This includes a list of local hospitals designated as SAFE (Sexual Assault Forensic Examiner) hospitals, which are specially equipped to handle sexual assaults and trained to gather evidence from such assaults.

VII. Important Information about Confidentiality, Privacy and Required Referrals

CUNY values the privacy of its students, employees, and visitors. They should be able to seek the assistance they need without fear that the information they provide will be shared more broadly. Some individuals who serve as resources on campus are confidential resources and will not share any identifying information with others, except as required by law in emergency circumstances. Other individuals are not permitted to maintain confidentiality but will protect privacy to the greatest extent possible and share information with other staff only on a need-to-know basis.
Confidential resources. Individuals considered confidential resources include counselors and health care providers at the college counseling centers and health offices, pastoral counselors, and designated staff members at women's or men's centers, if they exist on campus. Students may use these resources even if they decide not to make a report or participate in University disciplinary proceedings or the criminal justice process.

Private but non-confidential resources. Many college employees are required by federal and state law to provide information about possible sexual misconduct to the Title IX Coordinator. Individuals designated as non-confidential but private resources will protect privacy to the greatest extent possible, but must share relevant information about sexual misconduct with the Title IX Coordinator.

More information about confidential and private but non-confidential resources is provided in Section IX, below.

Under the Clery Act, the College is required to maintain records, advise the government about reports of certain crimes, and issue timely warnings when there is a serious, continuing threat to the community. Such reports and warnings do not disclose the names of reporting individuals.

VIII. Reporting Sexual Misconduct to the College

In order for the University to address allegations of sexual misconduct, it has to learn about them. Accordingly, CUNY strongly encourages individuals who have experienced sexual misconduct to file a complaint with a designated campus official, as outlined below. The designated officials are trained to accept complaints, to ensure they are investigated in accordance with this policy, and to help complainants get necessary assistance.

Students, faculty, staff and visitors are encouraged to report incidents of sexual misconduct to campus officials, even if they have reported the incident to outside law enforcement authorities, and regardless of whether the incident took place on or off-campus (including "study abroad" programs.) Such reporting will enable complainants to get the support they need and provide the college with the information it needs to take appropriate action.

1. Complainant's Rights

Individuals who have experienced sexual misconduct have the right to file a complaint with the college or to decide not to do so. (The decision on whether to bring disciplinary charges, however, rests with the campus.)

Students who report sexual misconduct have all of the rights contained in the Students Bill of Rights (copy attached).

Complainants also have these rights:

• To notify campus public safety, local law enforcement, and/or the state police; or to choose not to report.
• To have emergency access to a college official trained to interview victims of sexual assault and able to provide certain information, including reporting options and information about confidentiality and privacy. The official will, where appropriate, advise the reporting individual about the importance of preserving evidence and obtaining a sexual assault forensic examination ("SAFE") as soon as possible. The official will also explain that the criminal process uses different standards of proof, evidence, and that any questions about whether an incident violated criminal law should be addressed to a law enforcement official or a district attorney's office.
• To disclose the incident to a college representative who can offer confidentiality or privacy and assist in obtaining services for reporting individuals. See Section IX, below.
• To describe the incident only to those campus officials who need the information in order to properly respond and to repeat the description as few times as practicable.
• To have complaints investigated in accordance with CUNY policy.
• To have privacy preserved to the extent possible.
• To receive assistance and resources on campus, including confidential and free on-campus counseling, and to be notified of other services available on- and off-campus, including the New York State Office of Victim

Services.

• To disclose the incident to the college's Human Resources Director or designee (if the accused is a college employee) or request that a confidential or private resource assist in doing so.
• To disclose the incident confidentially and obtain services from state and local governments.
• To receive assistance from the campus or others in filing a criminal complaint, initiating legal proceedings in family court or civil court, and/or seeking an Order of Protection or the equivalent. In New York City, this assistance is provided by Family Justice Centers located in each borough, www1.nyc.gov/site/ocdv/programs/family-justice-centers.page.
• To receive assistance with effecting an arrest when an individual violates an Order of Protection, which may be provided by assisting local law enforcement in effecting such an arrest.
• To withdraw a complaint or involvement from the process at any time.

Students can speak with confidential resources on a strictly confidential basis before determining whether to make a report to college authorities. See Section IX, below. Students also have the right to consult confidentially with state, local and private resources who can provide other assistance.

2. Where to File a Complaint on Campus

Students, employees and visitors who experience sexual misconduct should bring their complaints to one of these campus officials/offices:

• Title IX Coordinator;
• Office of Public Safety;
• Office of Vice President for Student Affairs or Dean of Students (students only)
• Residence Life staff in CUNY owned or operated housing (students and residence visitors only)
• Human Resources Director (employees only)

Contact information for these officials can be found at http://www1.cuny.edu/sites/titleix/campus-websites

There is no prescribed method for filing a complaint of sexual misconduct and the college will respond to complaints whether they are oral or written. Complainants may, but are not required to, fill out the CUNY Sexual Misconduct Complaint form (see page 38). After the form is filled out, it should be brought to one of the offices listed above.

Once any of the officials or offices above is notified of an incident of sexual misconduct, she/he will provide a copy of this Policy to the Complainant and coordinate with appropriate college offices to address the matter in accordance with this policy, including taking appropriate interim and supportive measures. These officials and offices will maintain a complainant's privacy to the greatest extent possible, and all information in connection with the complaint, including the identities of the complainant and the respondent, will be shared only with those who have a legitimate need for the information.

Visitors: CUNY strongly encourages visitors to report all incidents of sexual misconduct that they observe or experience while on a CUNY campus or at a CUNY sponsored event to the Office of Public Safety, Residence Life staff, or other appropriate college officials listed above. In certain instances, CUNY may be able to offer those visitors who have experienced sexual misconduct with resources and assistance. For more information on such assistance, please visit http://www1.cuny.edu/sites/title-ix/

3. Request that the College Maintain a Complainant's Confidentiality or Not Conduct an Investigation

After a report of an alleged incident of sexual misconduct is made to the Title IX Coordinator, a complainant may request (a) that the matter be investigated only to the extent possible without further revealing her/his identity or any details regarding the incident being divulged further (b) that no investigation into a particular incident be conducted, or (c) that an incident not be reported to outside law enforcement.

In all such cases, the Title IX Coordinator will weigh the complainant's request against the college's
obligation to provide a safe, non-discriminatory environment for all students, employees and visitors, including the complainant. Factors used to determine whether to honor such a request include, but are not limited to: (a) whether the respondent has a history of violent behavior or is a repeat offender; (b) whether the incident represents escalation of unlawful conduct by the accused from previously noted behavior; (c) any increased risk that the accused will commit additional acts of violence, (d) whether the accused used a weapon or force; (e) whether the complainant is a minor; (f) whether the college possesses other means to obtain evidence such as security footage; and (g) whether available information reveals pattern of misconduct at a given location or by particular group.

A decision to maintain confidentiality does not mean that confidentiality can be absolutely guaranteed in all circumstances, but that reasonable efforts will be made to keep information confidential consistent with law. Notwithstanding the decision of the Title IX Coordinator regarding the scope of any investigation, the college will provide the complainant with ongoing assistance and support, including, where appropriate, the interim and supportive measures set forth in Section VII of this policy.

If the Title IX Coordinator determines that the college may maintain confidentiality as requested by the complainant, the college will, if possible, take reasonable steps to investigate the incident consistent with the request for confidentiality. However, a college's ability to meaningfully investigate the incident and pursue disciplinary action may be limited by such a request for confidentiality.

4. Filing External Complaints

Complainants who feel that they have been subjected to unlawful sexual harassment and/or violence have the right to avail themselves of any and all of their rights under law, including but not limited to filing complaints with one or more of the outside agencies listed below.

- U.S. Department of Education, Office for Civil Rights  
  http://www2.ed.gov/about/offices/list/ocr/complaintprocess.html

- U.S. Equal Employment Opportunity Commission  
  https://www.eeoc.gov/federal/fed_employees/filing_complaint.cfm

- New York State Division of Human Rights 15  
  http://www.dhr.ny.gov/how-file-complaint

- New York City Commission on Human Rights  
  http://www1.nyc.gov/site/cchr/about/resources.page

5. Action by Bystanders and Other Community Members

While only employees designated as "responsible" employees are required reporters as set forth in Section IX below, CUNY encourages all other community members, including faculty, students and visitors, to take reasonable and prudent actions to prevent or stop an act of sexual misconduct that they may witness. Although these actions will depend on the circumstances, they may include direct intervention, calling law enforcement, or seeking assistance from a person in authority.

In addition, CUNY encourages all community members to report any incident of sexual misconduct that they observe or become aware of to the Title IX Coordinator, or the offices of Public Safety, Vice President of Students Affairs (students), Dean of Students (students) or Human Resources (employees) at their college. Community members who take action in accordance with this paragraph will be supported by the college, and anyone who retaliates against them will be subject to disciplinary charges.

6. Amnesty for Drug and Alcohol Use
The health and safety of every student at CUNY is of the utmost importance. CUNY recognizes that students who have been drinking and/or using drugs (whether such use is voluntary or involuntary) at a time that violence (including but not limited to sexual violence) occurs may be hesitant to report such incidents due to fear of potential consequences for their own conduct. CUNY strongly encourages students to report sexual violence to college officials. A bystander or complainant acting in good faith who discloses any incident of sexual violence to college officials or law enforcement will not be subject to discipline under CUNY's Policy Against Drugs and Alcohol for violations of alcohol and/or drug use policies occurring at or near the time of the commission of the sexual violence.

This policy does not provide amnesty for drug dealers or those who use drugs or alcohol as a weapon or to facilitate assault. Under CUNY's Amnesty for Drug and Alcohol Policy, personal drug use and possession, whether it is intentional or accidental, will not form the basis of faculty student disciplinary charges.

7. Reporting Suspected Child Abuse

Certain members of the CUNY community who interact with, supervise, chaperone, or otherwise oversee minors in programs or activities at CUNY or sponsored by CUNY are required to report immediately to the New York State Maltreatment Hotline if they have reasonable cause to suspect abuse or maltreatment of individuals under the age of 18. Information regarding mandated child abuse reporting is available on the Office of the General Counsel web page. If anyone other than New York State mandated reporters has reasonable cause to believe that a minor is being or has been abused or maltreated on campus, she/he should notify either the Title IX Coordinator or the Director of Public Safety. If any CUNY community member witnesses child abuse while it is happening, she/he should immediately call 911.

8. Reporting Retaliation An individual may file a complaint with the Title IX Coordinator if the individual has been retaliated against for reporting sexual misconduct, opposing in a reasonable manner an act or policy believed to constitute sexual misconduct, assisting someone making such a report, or participating in any manner in an investigation or resolution of a sexual misconduct complaint. All retaliation complaints will be investigated in accordance with the investigation procedures set forth in Section XI of this policy, and individuals who are found to have engaged in retaliation will be subject to disciplinary action.

IX. Reporting/Confidentiality Obligations of College and University Employees

An individual who speaks to a college or CUNY employee about sexual misconduct should be aware that employees fall into three categories:

- "confidential" employees, who have an obligation to maintain a complainant's confidentiality regarding the incident(s);
- "responsible" employees, who are required to report the incident(s) to the Title IX Coordinator;
- all other employees, who are strongly encouraged but not required to report the incident(s).

A. Confidential Employees

1. For Students. Students at CUNY who wish to speak to someone who will keep all of the communications confidential should speak to one of the following:

   - Counselor or other staff member at their college counseling center;
   - Nurse, nurse practitioner or other college health office staff member;
   - Pastoral counselor, if available at the college; or
   - Designated staff member in a women's or men's center, if one exists at their college.

These individuals will not report information about an incident to the college's Title IX Coordinator or other college employees without the student's permission. The only exception is in the case where there is an
imminent threat of serious harm to the complainant or any other person

If a student speaks solely to a "confidential" employee, the college will rarely be able to conduct an investigation into the particular incident or pursue disciplinary action against the alleged perpetrator. Confidential employees will assist students in obtaining other necessary support. A student who first requests confidentiality may later decide to file a complaint with the college or with local law enforcement.

2. **For Employees.** Although CUNY does not directly employ individuals to whom CUNY employees can speak on a confidential basis regarding sexual misconduct, free confidential support services are available through CUNY’s Work/Life Program, which is administered by an outside company. Confidential community counseling resources are also available throughout New York City.

B. "Responsible" Employees – Private, but not confidential.

"Responsible" employees have a duty to report incidents of sexual misconduct, including all relevant details, to the Title IX Coordinator. Such employees are not permitted to maintain a complainant's confidentiality, except that the Title IX Coordinator may honor a request for confidentiality under the circumstances described in Section VII above. However, these employees will maintain a complainant's privacy to the greatest extent possible, and information reported to them will be shared only with the Title IX Coordinator and other people responsible for handling the college's response to the report.

To the extent possible, before a complainant reveals any information to a responsible employee, the employee shall advise the complainant of the employee's reporting obligations—and if the complainant wants to maintain confidentiality, direct the complainant to confidential resources identified above.

CUNY has designated the following individuals as "responsible" employees. Complainants who wish to report sexual violence are encouraged to speak with one of the responsible employees marked *

i. Title IX Coordinator and her/his staff

ii. * Office of Public Safety employees (all)

iii. * Vice President for Student Affairs or Dean of Students and all staff housed in those offices

iv. * Residence Life staff in CUNY owned or operated housing, including Resident Assistants (all) (for students and housing visitors)

v. * Human Resources staff (all) (for employees)

vi. College President, Vice Presidents and Deans vii. Athletics Staff (all)

viii. Faculty Athletics Representatives

ix. Department Chairpersons/Executive Officers

x. University Office of the General Counsel employees (all)

xi. College/unit attorney and her/his staff

xii. College/unit labor designee and her/his staff

xiii. International Education Liaisons/Study Abroad Campus Directors and Field Directors
xiv. Faculty and staff members at times when they are leading or supervising student on off-campus trips

xv. Faculty or staff advisors to student groups

xvi. Employees who are Managers or Supervisors (all)

xvii. SEEK/College Discovery staff (all)

xviii. College Childcare Center staff (all)

xix. Directors of "Educational Opportunity Centers" affiliated with CUNY colleges

xx. Faculty or staff academic advisors

C. All Other Employees

Employees other than those identified in subsections "A" and "B" above are strongly encouraged but not required to report any possible sexual misconduct to the Title IX Coordinator. They are also strongly encouraged to maintain individual privacy to the greatest extent possible by sharing information, including the identities of the complainant and the respondent, only with the Title IX coordinator.

It is important to emphasize that faculty members other than those specifically identified in subSection "B" above have not been designated as "responsible" employees and do not have an obligation to report the matter to the Title IX Coordinator, although they are strongly encouraged to do so. An individual who wishes to ensure that the Title IX Coordinator is notified of an incident is strongly encouraged to speak with the Title IX Coordinator or one of the other individuals identified in Section IX, above.

D. Special Rules Concerning Public Awareness and Advocacy Events

CUNY supports public awareness events that help provide its community with information about sexual misconduct and how it can be addressed and prevented. In order to preserve the ability to participate freely in public awareness and advocacy events, if an individual discloses information about sexual misconduct at such event (for example, Take Back the Night gatherings, candlelight vigils, or protests) the college will not treat the disclosure as triggering an obligation to commence an investigation based on that information. Such individuals are encouraged to report sexual misconduct to college officials so that the college can provide resources and assistance.

X. No Contact Orders and Other Interim and Supportive Measures

When a college becomes aware of an allegation of sexual misconduct and the complainant or other affected parties request interim or supportive measures, the college will take appropriate interim and supportive measures to protect the complainant and other affected parties, to assist the parties, and to protect against retaliation. Appropriate interim and supportive measures may also be available to respondents. The college may also take interim measures to protect the college community at large.

The college's Title IX Coordinator is responsible for coordinating interim and supportive measures, which are available even if the complainant chooses not to file or continue to pursue a complaint. Requests for interim and supportive measures should be made to the Title IX Coordinator.

The Title IX Coordinator will work with the Chief Student Affairs Officer to identify a trained staff member to assist students to obtain interim and supporting measures. The Title IX Coordinator will work with the Human Resources Director to assist employee complaintants to obtain interim and supporting measures.

1. No Contact Orders
When respondent is a student, the complainant has the right to a college-issued "no contact order" under which continued intentional contact with the complainant would violate this policy. No contact orders may be issued for both the complainant and the respondent, as well as other individuals as appropriate.

2. Types of Interim and Supportive Measures

Possible interim and supportive measures include:

i. Making appropriate changes to academic programs, including changes in class schedule, accommodations to permit the complainant to take an incomplete or drop a course or courses without penalty, permitting complainant or respondent to attend a class via skype or other alternative means, providing an academic tutor, or extending deadlines for assignments;

ii. Making appropriate changes to residential housing situations or providing assistance in finding alternate housing;

iii. Changing an employee's work assignment or schedule;

iv. Providing the complainant with an escort to and from class or campus work location;

v. Arranging appropriate transportation services to ensure safety;

vi. Offering counseling services through the college Counseling Center or other appropriate office, or referral to an off-campus agency;

vii. Assisting the complainant in obtaining medical and other services, including access to rape crisis centers;

viii. Assisting the complainant with filing a criminal complaint and/or seeking an order of protection;

ix. Enforcing an order of protection;

x. Obtaining a copy and/or explaining the terms of an order of protection and the consequences of violating it;

xi. Addressing situations in which it appears that a complainant's academic progress is affected by the alleged incident;

xii. In exceptional circumstances, where a respondent is determined to present a continuing threat to the health and safety of the community, the college may seek an emergency interim suspension of a student or take similar emergency measures against an employee, consistent with applicable CUNY Bylaws, rules, policies and collective bargaining agreements. The Office of Public Safety will, in cooperation with the Title IX Coordinator and appropriate other campus officials, determine whether a respondent presents a continuing threat to the health and safety of the campus, including (a) whether the respondent has a history of violent behavior or is a repeat offender; (b) whether the incident represents escalation in unlawful conduct by the accused; and (c) any increased risk that the accused will commit additional acts of violence.

3. Interim Emergency Student Suspensions

The president or her/his designee may in emergency or extraordinary circumstances, temporarily suspend a student pending an early hearing for not more than twelve (12) calendar days, unless the student requests an adjournment. See Section B above.

Prior to the commencement of a temporary suspension of a student, the college shall give the student respondent oral notice (which shall be confirmed via email to the address appearing on the records of the
college) or written notice of the charges. If the respondent denies them, the college shall forthwith give the respondent an informal oral explanation of the evidence supporting the charges and the student may present informally her/his explanation or theory of the matter.

Both complainant and the respondent will be notified of the suspension and if or when it the suspension is lifted at the same time and in the same manner.

4. **Process for Review of Interim Measures, including "No Contact" Orders and Interim Suspensions.**

Upon request, the complainant and the respondent shall each be afforded a prompt review of the need for and terms of restrictive interim measures, including "no contact" orders and interim suspensions. Issues that may be raised include possible modification or discontinuance of a "no contact" order. Complainants and respondents shall be allowed to submit evidence to support their request. The request shall be made to the college's Chief Student Affairs Officer, if either the complainant or the respondent is a student, or to the college's Human Resources Director, if neither the complainant nor the respondent are students. If a request is made in a case involving both a student and an employee, the Chief Student Affairs Officer shall consult with the Human Resources Director. The Chief Student Affairs Officer or Human Resources Director may consult with the Title IX Coordinator and other relevant officials regarding the request. If appropriate and possible, the college may establish an appropriate schedule for the complainant and the respondent to access college facilities when they are not being used by the other party to enable both parties to use college facilities to the maximum extent feasible, without violation of the "no contact" order.

Requests for accommodations that were made under CUNY's Procedures for Implementing Reasonable Accommodations and Academic Adjustments and do not directly affect the other party are governed by the appeals provisions set forth in those Procedures.

**XI. Investigating Complaints of Sexual Misconduct**

The college will conduct an investigation when it becomes aware, from any source (including third-parties not connected to the college or university), that sexual misconduct may have been committed against a student, employee or visitor, unless the information provided is insufficient to permit an investigation or the complainant has requested that the college refrain from such an investigation and the college has determined that refraining from an investigation will not result in a continuing threat to the college community. See Section VIII, above.

1. **Rights of the Complainant and Respondent.**

   Whenever an investigation takes place, the complainant and respondent shall have these rights:

   • to an investigation and process that is fair, impartial, timely and thorough and provides a meaningful opportunity to be heard;

   • to have the complaint investigated and/or adjudicated by individuals who receive annual training in conducting investigations of sexual violence, the effects of trauma, impartiality, and the rights of the respondent, including the right to a presumption that the respondent is "not responsible" until any finding of responsibility;

   • to have the college's judicial or conduct process run concurrently with any criminal justice investigation and proceeding, except for temporary delays requested by external municipal entities while law enforcement gathers evidence;

   • to receive reasonable advance written or electronic notice of any meeting they are required to or eligible to attend, of the specific rule or law alleged to have been violated and in what manner;
• to exclude their own prior sexual history with persons other than the other party in the conduct process or their own mental health diagnosis and/or treatment from admittance in the stage that determines responsibility. (Past findings of sexual misconduct may be admissible in the stage that determines sanction.)

• to offer evidence during the investigation;

• to review documents and tangible evidence, consistent with FERPA and other law;

• to be accompanied by an attorney or other advisor of their choice, who may assist and advise the complainant or respondent throughout the process including during all related meetings and hearings. Such attorneys or advisors must comply with the CUNY policies and procedures; and

• to simultaneous notice of the outcome of proceedings.

2. The Investigation

The college Title IX Coordinator is responsible for conducting any investigation in a prompt, thorough, and impartial manner and may designate another appropriately trained administrator to conduct all or part of the investigation. Whenever an investigation is conducted, the Title IX Coordinator shall

• coordinate investigative efforts with other appropriate offices;

• inform the complainant that an investigation is being commenced and that the respondent will receive a written summary of the allegations;

• inform the respondent that an investigation is being commenced and provide the respondent with a written summary of the allegations of the complaint. A respondent employee who is covered by a collective bargaining agreement may consult with and have a union representative present at any interview of that employee conducted as part of such investigation;

• interview witnesses who might reasonably be expected to provide information relevant to the allegations, and review relevant documents and evidence. Both the complainant and respondent shall be informed that they have the right to provide relevant documents and to propose for interview witnesses whom they reasonably believe can provide relevant information.

Neither the complainant nor the respondent is restricted from discussing and sharing information related to the complaint with others who may support or assist them. This does not, however, permit unreasonable sharing of private information in a manner intended to harm or embarrass another, or in a manner that would recklessly do so regardless of intention. Such unreasonable sharing may constitute retaliation under this Policy.

The college Title IX Coordinator shall maintain all documents of the investigation in accordance with the CUNY Records Retention and Disposition Policy.

The college shall make reasonable efforts to ensure that the investigation and resolution of a complaint are carried out as timely and efficiently as possible. However, the college may need to temporarily delay the fact-finding portion of its investigation during the evidence-gathering phase of a law enforcement investigation. Temporary delays will generally not last more than ten days except when law enforcement specifically requests and justifies a longer delay. While some complaints may require more extensive investigation, when possible, the investigation of complaints should be completed within sixty (60) calendar days of the receipt of the complaint. If there is a delay in completing the investigation, the Title IX Coordinator shall notify the complainant and the respondent in writing.

i. Role of the Advisor
In cases involving this Policy, both the complainant and respondent may be accompanied by an advisor of their choice (including an attorney) who may advise throughout the entire process, including all meetings and hearings. While advisors may represent a party and fully participate at a hearing, they may not speak during the meetings that proceed the hearing nor give testimony as a witness at the hearing.

3. **Conflicts**

If a complainant or respondent believes that any individual involved in the investigatory or adjudication process has a conflict of interest, he or she may make a request to the Chief Student Affairs Officer (or, if no students are involved, to the Legal or Labor Designee) to have that conflicted individual removed from the process. The request for removal must be in writing within five days of the complaint or respondent's notification that the individual is to be involved and include a detailed description of the conflict. If the Chief Student Affairs Officer (or Legal or Labor Designee) determines that a conflict does exist, he or she will take immediate steps to address the conflict in order to ensure an impartial and fair process.

If any administrator designated by this policy to participate in the investigation or resolution of a complaint (including but not limited to the Title IX Coordinator) is the respondent, the College President will appoint another college administrator to perform such person's duties under this policy. If the President is the respondent, the investigation will be handled by the University Title IX Coordinator or her/his designee.

4. **Informal Resolution**

Except in instances involving sexual assault, the Title IX Coordinator, in their discretion, may offer the respondent and the complainant the opportunity to participate in the informal resolution process. Informal resolution may take place after the Title IX Coordinator has completed the investigation, but before the Title IX report has been completed, in an effort to resolve the matter by mutual agreement. The informal resolution process shall be conducted by the Title IX Coordinator, or by a qualified staff or faculty member designated by Title IX Coordinator, in coordination with the Chief Student Affairs Officer.

Both the complainant and the respondent have the right to end the informal resolution process at any time. Any informal resolution must be acceptable to the complainant, the respondent, and the Title IX Coordinator. Even if both the respondent and complainant agree to a resolution, the Title IX Coordinator must also agree with the resolution for it to be final.

If a resolution is reached, the complainant and the respondent shall be notified in writing, and the Title IX Coordinator will confer with the Chief Student Affairs Officer when creating a written memorandum memorializing the agreed upon resolution and consequences for non-compliance. This memorandum will be included in the respondent's student record.

If no agreement is reached within a reasonable time, the Title IX Coordinator shall complete the Title IX report and take action in accordance with subsection E below. Information learned during and directly from the informal resolution process will not be documented in the Title IX report.

5. **Action Following the Investigation or Closure of a Complaint.**

i. Within 30 days following the completion of an investigation, the Title IX Coordinator shall report her/his findings to the College President in writing ("Report of Findings"). In the event the complainant or the respondent is a student, the report shall also be sent to the Chief Student Affairs Officer. A copy of the report shall be maintained in the files of the Title IX Coordinator.

ii. In making findings regarding the allegations, the Title IX Coordinator shall use the "preponderance of the evidence" standard.
iii. Following receipt of the Report of Findings, the College President shall, when warranted by the facts, authorize such action as she/he deems necessary to address the issues raised in the Report of Findings, including action to correct the effects of the conduct investigated or prevent further harm to an affected party or others similarly situated. This may include a recommendation that disciplinary action be commenced against a respondent, as set forth in Section XII below.

iv. Within 30 calendar days following the termination of an investigation that has not been completed (for example, because it was resolved by mediation or the complainant withdrew cooperation) the Title IX Coordinator will summarize for the file the actions taken in response to the complaint and the basis on which the investigation was closed.

6. Malicious Allegations

Members of the CUNY community who make false and malicious complaints of violations of this policy of as opposed to complaints which, even if erroneous, are made in good faith, may be subject to disciplinary action.

XII. Disciplinary Process and Procedures

A. Disciplinary Action

If the College President recommends that disciplinary action be commenced against a respondent student or employee for violations of this Policy, the following procedures shall apply:

Discipline Against Students:

1. In cases where a College President recommends discipline against a student for violations of this Policy, the matter shall be referred to the college's Office of Student Affairs and action shall be taken in accordance with Section 11.A-C of this Policy, below. This Section provides for, among other things, a University-Wide Faculty-Student Disciplinary Committee consisting of faculty members, students and in some cases staff members to hear and decide charges of violation of this Policy.

2. As described in Sections XI above, complainants have the same rights as respondents:
   • to receive notice of the charges, including the date, time, location and factual allegations, concerning alleged violation of this Policy;
   • to receive notice of the specific provisions alleged to have been violated and possible sanctions;
   • to present evidence and testimony at any hearing, where appropriate;
   • to be represented by an attorney or advisor of their choice;
   • to receive access to a full and fair record of any hearing;
   • to receive written notice of the decision of the faculty-student disciplinary committee, specifically whether the allegations were substantiated and what, if any, penalty was imposed;
   • to make an impact statement at the point when the decision maker is deliberating on appropriate sanctions;
   • To written notice of findings of fact, decisions and sanctions if any, as well as the rationale for the decision and any sanction;
   • to choose whether to or discuss the outcome of a conduct or judicial process;
• to appeal to a decision maker that is fair and impartial and does not include individuals with conflicts of interest;

• to have all information obtained during the conduct process protected from public release until a decision maker on appeal makes a final determination, unless otherwise required by law.

3. Penalties for students instituted after a hearing before the faculty-student disciplinary committee range from a warning to suspension or expulsion from the University. Students accused of crimes of violence are also subject to the university's policy on transcript notations which is discussed in this Section below.

Discipline Against Employees

In cases where the college President recommends discipline against an employee, the matter shall be referred for disciplinary action in accordance with the applicable CUNY policies, rules and collective bargaining agreements. Penalties for employees include, depending on the employee's title, reprimand, suspension, demotion, fine, or termination of employment following applicable disciplinary procedures. For many respondent employees, these procedures may include a hearing before a non-CUNY fact-finder, as required by the particular collective bargaining agreement.

For additional information on the disciplinary process in specific cases, complainants should consult their campus Title IX Coordinator, who will work with campus Human Resources Director to provide information. Respondents should consult their union representative, if any, or campus Human Resources Director.

Action Against Visitors

In cases where the person accused of sexual misconduct is not a CUNY student or employee, the college's ability to take action against the accused is usually extremely limited. However, the college shall take all appropriate actions within its control, such as restricting the visitor's access to campus. In addition, subject to Section VI, above, the matter may be referred to local law enforcement for legal action, including seeking Orders of Protection and/or reporting to local law enforcement, where appropriate. College Public Safety will assist both students and employees in enforcing Orders of Protection on the campus.

No Disciplinary Action

In cases where a determination is made not to bring disciplinary action, the Title IX Coordinator shall inform the complainant and respondent of that decision at the same time, in writing, and shall offer any appropriate support services, including counseling to both.

B. Student Disciplinary Procedures

Referral of Violation for Disciplinary Action

If the President decides that discipline is warranted, the President will refer the matter to the Chief Student Affairs Officer for further action. The chief student affairs officer may rely on the investigation and determination of the Title IX Coordinator and prefer disciplinary charges.

In instances where a respondent is alleged to have violated this Policy as well as other CUNY policies, rules or bylaws, the entire matter will be heard before the University-Wide Faculty Student Disciplinary Committee and will follow the rules and procedures outlined in Section XI of this Policy.

Respondent Withdrawal Before Completion of the Process

In the event that a respondent withdraws from the college before a decision is rendered on the charges, the respondent
is required to participate in the disciplinary hearing or otherwise to resolve the pending charges and shall be barred from attending any other unit of the university until a decision on the charges is made, or the charges are otherwise resolved.

Immediately following such withdrawal, the college shall place a notation on the respondent's transcript that the respondent "withdrew with conduct charges pending." If the respondent fails to appear, the college may proceed with the disciplinary hearing in absentia, and any decision and sanction shall be binding, and the transcript notation, if any, resulting from that decision and penalty shall replace the notation.

**Issuance of Charges & Notice of Hearing**

Notice of the charge(s) and of the time and place of the hearing shall be sent to the respondent by both first-class mail and email to the address appearing on the records of the college. Notice shall also be sent in a similar manner to the complainant to the extent that charges relate to the complainant. The Chief Student Affairs Officer is also encouraged to send the notice of charges to any other e-mail address that he or she may have for the respondent and the complainant.

The hearing shall be scheduled within a reasonable time following the filing of the charges or the mediation conference. Notice of at least seven (7) calendar days shall be given to the respondent in advance of the hearing unless the respondent consents to an earlier hearing. The respondent is permitted one (1) adjournment, for a reasonable amount of time under the circumstances, without specifying a reason. Additional requests for an adjournment must be made at least five (5) calendar days prior to the hearing date, and shall be granted or denied at the discretion of the chairperson of the Faculty Student Disciplinary Committee. If the respondent fails to respond to the notice, appear on the adjourned date, or request an extension, the college may proceed without the respondent present, and any decision and sanction shall be binding.

**Content of Notice of Charges and Hearing**

The notice shall contain the following:

1. A complete and itemized statement of the charge(s) being brought against the respondent including the policy, rule and/or bylaw the respondent is charged with violating, and the possible penalties for such violation.

2. A statement that the respondent and the complainant have the right to attend and participate fully in the hearing including the right:
   i. to present their side of the story;
   ii. to present witnesses and evidence on their behalf;
   iii. to cross-examine witnesses presenting evidence, the exception being that the complainant and respondent may not cross-examine each other as discussed below;
   iv. for the respondent to remain silent without assumption of guilt; and
   v. to be represented by an advisor or legal counsel at their expense; if the respondent or the complainant requests it, the college shall assist in finding a legal counsel or advisor.
   vi. A warning that anything the respondent says may be used against the respondent at a non-college hearing.

**Review of Evidence before Hearing:**

At least five (5) calendar days prior to the commencement of a student disciplinary hearing, the college shall provide the respondent and the complainant and/or their designated representative, with similar and timely access to review documents or other tangible evidence that the college intends to use at the disciplinary hearing, consistent with the restrictions imposed by the Family Educational Rights and Privacy Act ("FERPA"). Should the college seek to introduce additional documents or other tangible evidence during the disciplinary hearing, the respondent and the complainant shall be afforded the opportunity to review the
additional documents or tangible evidence. If during the hearing the complainant or the respondent submits documentary evidence, the chairperson may, at the request of any other party grant, adjournment of the hearing as necessary in the interest of fairness, to permit the requesting party time to review the newly produced evidence.

**Admission & Acceptance of Penalty**

After the charges have been preferred by the chief student affairs officer, but prior to the commencement of a disciplinary hearing, the respondent may admit to the charges and accept the penalty that the chief student affairs officer or designee determines to be appropriate to address the misconduct. If required by this Policy, the agreed-upon penalty shall be placed on the respondent's transcript consistent with CUNY's policy on Transcript Notations (see below). Before resolving a complaint in this manner, the chief student affairs officer or designee shall first consult with the complainant and provide the complainant with an opportunity to object to the proposed resolution, orally and/or in writing. If a resolution is reached over the complainant's objection, the chief student affairs officer or designee shall provide the complainant with a statement of the reasons supporting such resolution, and the complainant may appeal the resolution to the college President.

3. **Faculty Student Disciplinary Committee Structure:**

Each faculty-student disciplinary committee shall consist of two (2) faculty members or one (1) faculty member and one (1) member of the Higher Education Officer series (HEO), and two (2) student members and a chairperson, who shall be a faculty member. A quorum shall consist of the chairperson and any two (2) members, one of whom must be a student. Hearings shall be scheduled promptly (including during the summers) at a convenient time and efforts shall be made to insure full student and faculty representation.

The president shall select in consultation with the head of the appropriate campus governance body or where the president is the head of the governance body, its executive committee, three (3) members of the faculty of that college to receive training training upon appointment and to serve in rotation as chairperson of the disciplinary committee. The following schools shall be required to select two (2) chairpersons:, CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism. If none of the chairpersons appointed from the campus can serve, the president, at her/his discretion, may request that a chairperson be selected by lottery from the entire group of chairpersons appointed by other colleges. The chairperson shall preside at all meetings of the faculty-student disciplinary committee and decide and make all rulings for the committee. She/he shall not be a voting member of the committee but shall vote in the event of a tie.

The faculty members shall be selected by lot from a panel of six (6) elected biennially by the appropriate faculty body from among the persons having faculty rank or faculty status. Members of the panel shall be trained on an annual basis in compliance with the law and this Policy. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) faculty members. The HEO members shall be selected by lot from a panel of six (6) HEO appointed biennially by the president. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) HEO's. The student members shall be selected by lot from a panel of six (6) elected annually in an election in which all students registered at the college shall be eligible to vote. CUNY School of Law, Guttman Community College, CUNY School of Professional Studies, and the CUNY School of Journalism shall be required to select four (4) students. In the event that the student or faculty panel or both are not elected, or if more panel members are needed, the president shall have the duty to select the panel or panels which have not been elected.

In the event that the chairperson cannot continue, the president shall appoint another chairperson. In the event that a seat becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the respective faculty, HEO, or student panel by lottery.
Each academic year, the chief student affairs officer, and her or his designee, shall appoint/identify one or more college employees to serve as presenters for the hearings. This list shall be forwarded to the Office of the Vice Chancellor for Student Affairs, and the Office of the General Counsel and Sr. Vice Chancellor for Legal Affairs prior to the first day of the academic year.

Persons who are to be participants in the hearings as witnesses or have been involved in preferring the charges or who may participate in the appeals procedures or any other person having a direct interest in the outcome of the hearing shall be disqualified from serving on the committee.

Roles and Responsibilities of Individuals during the Hearing

a. Role and Responsibilities of Panel Chairperson:

The chairperson shall preside at the hearing. The parties to the hearing are the college, the respondent, and if the complainant chooses to participate, the complainant. At the commencement of the hearing, the chairperson shall inform the respondent of the charges, the hearing procedures, and her or his rights. After informing the respondent of the charges, the hearing procedures, and respondent's rights, the chairperson shall ask the respondent to state whether he or she is responsible or not responsible for the conduct. Prior to accepting testimony at the hearing, the chairperson shall rule on any motions questioning the impartiality of any committee member or the adequacy of the notice of the charge(s). Subsequent thereto, the chairperson shall rule on any motions regarding the admissibility of evidence and may exclude irrelevant, unreliable or unduly repetitive evidence. The chairperson shall exclude from the hearing room all persons who are to appear as witnesses, except the respondent and the complainant.

The chairperson shall preside at all hearing sessions and meetings and make all rulings for the panel. The chairperson has discretion to limit the number of witnesses and the length of testimony for the presentations by any party and/or their representative. All hearings pursuant to this Policy shall be closed hearings. The chairperson shall not be a voting member of the panel but shall vote in the event of a tie. In the event that the chairperson cannot continue, the Vice Chancellor for Student Affairs, or his or his designee, shall appoint another chairperson from the University-wide committee. In the event that a seat on the panel becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the respective faculty, HEO, or student committee members by lot.

b. Presenters:

Each academic year, the chief student affairs officer at each College or designee shall identify one or more college employees to serve as presenters for the hearings. This list will be forwarded to the Offices of the Vice Chancellor for Student Affairs and General Counsel and Vice Chancellor for Legal Affairs prior to the first day of the academic year. The employee who serves as presenter during the hearing shall be from the same institution as the respondent.

c. Recording of Proceeding

The college shall make a recording of each fact-finding hearing by some means such as a stenographic transcript, an audio recording or the equivalent. No other recording of the proceedings shall be permitted. A respondent who has been found to have committed the conduct charged after a hearing is entitled upon request to a copy of such a record without cost upon the condition that it is not to be disseminated except to the respondent's advisor. In the event of an appeal, both the respondent and the complainant are entitled upon request to a copy of such a record without cost, upon the condition that it is not to be disseminated except to their advisors.

Basic Hearing Rules:

If, at the commencement of the hearing, the respondent admits the conduct charged, the respondent shall be
given an opportunity to explain her/his actions before the hearing panel and the college shall be given an opportunity to respond and present evidence regarding the appropriate penalty. If the respondent denies the conduct charged, the college shall present its evidence. At the conclusion of the college's presentation, the respondent may move to dismiss the charges. If the motion is denied by the committee, the complainant, if the complainant chooses to participate, shall be given an opportunity to make a presentation. After the college's, and, if complainant chooses to participate, complainant's presentation, the Respondent shall be given an opportunity to make a presentation.

The college bears the burden of proving the charge(s) by a preponderance of the evidence. The role of the hearing panel is to listen to the testimony, ask questions of the witnesses, review the testimony and evidence presented at the hearing and the papers filed by the parties and make a decision as to responsibility. In the event the respondent is found responsible for the conduct, the committee shall then determine the penalty to be imposed.

The college, the respondent and the complainant are permitted to have advisors act on their behalf during the pendency of a hearing, which shall include the calling and examining of witnesses, and presenting evidence. Any party intending to appear with an attorney shall give the other party five (5) calendar days' notice of such representation.

Neither the respondent nor the complainant shall be permitted to cross-examine the other directly. Rather, if they choose to, the respondent and the complainant shall cross-examine each other only through an advisor. If either or both of them do not have an advisor, the college shall assist them to find an advisor to conduct such cross-examination. In the alternative, the complainant and respondent may provide written questions to the chairperson to be posed to the witness, in the chairperson's discretion.

Responsibility Phase

The following rules apply to the introduction of evidence at the hearing: Evidence of the mental health diagnosis and/or treatment of a complainant, respondent, or witness may not be introduced; and b) Evidence of either party's prior sexual history may not be introduced except that (i) evidence of prior sexual history between complainant and respondent is admissible at any stage of the hearing, and (ii) past findings of domestic violence, dating violence, stalking, or sexual assault may be admissible in the stage of that hearing related to penalty.

Penalty Phase

If the panel has found the Respondent responsible for the conduct, then the complainant, respondent, and college, will have the opportunity to introduce evidence and make arguments related what the appropriate penalty should be. The complainant, respondent and college will also have the opportunity to introduce evidence of and comment on the respondent's character, including any past findings of a respondent's responsibility for domestic violence, stalking, or sexual assault or any other sexual misconduct, and submit a statement regarding the impact of the conduct.

The College may also introduce a copy of the respondent's previous disciplinary records, if any, from any CUNY institution the respondent has attended, provided the respondent was shown a copy of the records prior to the commencement of the hearing. The previous disciplinary record shall be submitted to the panel in a sealed envelope, bearing the respondent's signature across the seal, and shall only be opened if the respondent has been found responsible for the conduct charged. The hearing panel, to determine an appropriate penalty, shall use the disciplinary records, as well as any documents or character evidence introduced by the respondent, the complainant, or the college.

If either the complainant or the respondent chose not to participate in the hearing, they still have the opportunity to introduce evidence and make arguments related what the appropriate penalty should be and to provide or make an impact statement.
ii. Decision

The panel shall issue a written decision, which shall be based solely on the testimony and evidence presented at the hearing, including the penalty phase. The college shall send to the respondent a copy of the panel's decision within seven (7) calendar days of the conclusion of the hearing, by regular mail and e-mail to the address appearing on the records of the college. In cases involving two or more complainants or respondents, the college has fourteen (14) calendar days of the conclusion of the hearing to send the panel's decision. The college is also encouraged to send the decision to any other e-mail address that it may have for the respondent. The decision shall be final subject to any appeal.

In cases involving a crime of violence or a non-forcible sex offense, the complainant shall simultaneously receive notice of the outcome of the faculty-student disciplinary committee's decision as it relates to the offense(s) committed against the complainant, in the same manner as notice is given to the respondent.

When a disciplinary hearing results in a penalty of dismissal or suspension for one term or more, the decision is a university-wide penalty and the respondent shall be barred from admission to, or attendance at, any other unit of the university while the penalty is being served.

iii. Appeals/Review

A respondent or a complainant may appeal a decision of the faculty-student disciplinary committee to the president on the following grounds: (i) procedural error, (ii) newly discovered evidence that was not reasonably available at the time of the hearing, or (iii) the disproportionate nature of the penalty. The president may remand for a new hearing or may modify the penalty either by decreasing it (on an appeal by the respondent) or increasing it (on an appeal by the complainant). If the president is a party to the dispute, her/his functions with respect to an appeal shall be discharged by an official of the university to be appointed by the chancellor or her or his designee.

If the penalty after appeal to the president is one of dismissal or suspension for one term or more, a respondent or a complainant may appeal to the board committee on student affairs and special programs. The board may dispose of the appeal in the same manner as the president.

An appeal under this section shall be made in writing within fifteen (15) calendar days after the delivery of the decision appealed from. This requirement may be waived in a particular case for good cause by the president or the board committee as the case may be. Within three (3) calendar days of the receipt of any appeal, either to the president or the board committee on student affairs and special programs, the non-appealing party shall be sent a written notice of the other party's appeal. In addition, the respondent and/or the complainant shall have the opportunity to submit a written opposition to the other party's appeal within fifteen (15) calendar days of the delivery of the notice of receipt of such appeal.

The president shall decide and issue a decision within fifteen (15) calendar days of receiving the appeal or within fifteen (15) calendar days of receiving papers in opposition to the appeal, whichever is longer. The board committee shall decide and issue a decision within five (5) calendar days of the meeting at which it hears the appeal.

iv. Transcript Notation(s)

In cases in which the panel finds the respondent responsible and the penalty is either suspension or expulsion, the college shall place a notation on the respondent's transcript stating that respondent was suspended or expelled after a finding of responsibility for a code of conduct violation. In cases where a student has been expelled as a result of a Clery Act crime of violence, the notation will not be removed.

For all other cases, after four years from the date of the conclusion of the disciplinary proceeding, or one year
after the conclusion of any suspension, whichever is later, the Respondent has the right to request that a transcript notation from a finding of responsibility be removed. If a finding of responsibility for any violation is vacated for any reason, the notation shall be removed.

XIII. College Obligations Under this Policy

In addition to addressing possible violations of this policy, colleges/units of CUNY have the following obligations:

1. **Dissemination of Policies, Procedures and Notices**

   The college Title IX Coordinator, in coordination with the Office of Student Affairs, Office of Public Safety, Human Resources Department and other appropriate offices, is responsible for the wide dissemination of the following on her/his campus: (i) this Policy; (ii) CUNY's Notice of NonDiscrimination; (iii) the Title IX Coordinator's name, phone number, office location, and email address; and (iv) contact information for the campus Public Safety Office. Such dissemination shall include posting the documents and information on the college website, and including it in residence life materials and training and educational materials. In addition, the Students' Bill of Rights, which is appended to and made a part of this policy, must be distributed to any individual reporting an incident of sexual misconduct at the time the report is made. It must also be distributed annually to all students, made available on the college's website and posted in college campus centers and in CUNY owned and operated housing.

2. **Training and Educational Programming**

   CUNY is responsible for providing training to college Title IX Coordinators and others who may serve as investigators. The college Title IX Coordinator, in coordination with other applicable offices, including Public Safety, Human Resources and Student Affairs, is responsible for ensuring that the college provides training to college employees on their obligations under this policy; provides education on this policy and on sexual misconduct (including domestic violence, dating violence, stalking and sexual assault) to new and continuing students; and promotes awareness and prevention of sexual misconduct among all students and employees. Specific required trainings include the following:

   i. Training For Responsible and Confidential Employees

      The college shall provide training to all employees who are required to report incidents of sexual misconduct under this policy, as well as those employees who have been designated as confidential employees.

   ii. Training For Title IX Coordinator and other investigators

      CUNY shall provide at least annual training to Title IX Coordinators and other investigators in conducting investigations of sexual misconduct, including

      • the effects of trauma;

      • impartiality;

      • the rights of the respondent, include the right to a presumption that the respondent is "not responsible" until any finding of responsibility is made;

      • relevant CUNY policies and procedures; and

      • other issues including what constitutes crimes of sexual misconduct.

   iii. Student Onboarding and Ongoing Education
Each college shall adopt a comprehensive student onboarding and ongoing education campaign to educate students about sexual misconduct, including domestic violence, dating violence, stalking, and sexual assault. During the student onboarding process, all new first-year and transfer students shall receive training on this policy and on a variety of topics relating to sexual misconduct. In addition, each college shall offer and administer appropriate educational programming to residence hall students, athletes, and student leaders. Each college shall also provide such educational programming to any other student groups which the college determines could benefit from education in the area of sexual misconduct. The college shall also share information on domestic violence, dating violence, stalking and sexual assault prevention with parents of enrolling students. This may be done by linking to http://www1.cuny.edu/sites/title-ix/information-for-parents-andfamilies/campus/university/

c. Campus Climate Assessments

Each college of the University shall conduct, no less than every other year, a climate assessment using an assessment instrument provided by the University central office, to ascertain its students' general awareness and knowledge of the University's policy and procedures regarding sexual misconduct, including but not limited to student experiences with and knowledge of reporting, investigation and disciplinary processes. The assessment instrument shall include all topics required to be included under applicable law, including Section 129-B of the New York State Education Law. The University shall publish the results of the surveys on its Title IX web page. The published results shall not contain any information which would enable a reader to identify any individual who responded to the climate assessment.

XIV. Rules Regarding Intimate Relationships

d. Relationships between Faculty or Employees and Students

Amorous, dating or sexual activity or relationships ("intimate relationships"), even when apparently consensual, are inappropriate when they occur between a faculty member or employee and any student for whom he or she has a professional responsibility. Those relationships are inappropriate because of the unequal power dynamic between students and faculty members and between students and employees who advise or evaluate them, such as athletic coaches or workplace supervisors. Such relationships necessarily involve issues of student vulnerability and have the potential for coercion. In addition, conflicts of interest or perceived conflicts of interest may arise when a faculty member or employee is required to evaluate the work or make personnel or academic decisions with respect to a student with whom he or she is having an intimate relationship. Finally, if the relationship ends in a way that is not amicable, the relationship may lead to charges of and possible liability for sexual misconduct.

Therefore, faculty members and other employees are prohibited from engaging in intimate relationships with students for whom they have a professional responsibility, including undergraduates, graduate and professional students and postdoctoral fellows.

For purposes of this Section, professional responsibility for a student means responsibility over any academic matters, including teaching, counseling, grading, advising for a formal project such as a thesis or research, evaluating, hiring, supervising, coaching, making decisions or recommendations that confer benefits such as admissions, registration, financial aid, other awards, remuneration, or fellowships, or performing any other function that might affect teaching, research, or other academic opportunities.

e. Relationships between Supervisors and Employees

Many of the concerns about intimate relationships between faculty members or employees and students also apply to relationships between supervisors and employees they supervise. Those relationships therefore are strongly discouraged. Supervisors shall disclose any such relationships to their supervisors in order to avoid or mitigate conflicts of interest in connection with the supervision and evaluation of the employees with whom they have an intimate relationship. Mitigation may involve the transfer of either the supervisor or employee, reassigning the responsibility to evaluate the employee to a different supervisor, or other appropriate action.
For purposes of this Section, supervising an employee means supervising in an employment setting, including hiring, evaluating, assigning work, or making decisions or recommendations that confer benefits such as promotions, raises or other remuneration, or performing any other function that might affect employment opportunities.

The City University of New York
Students' Bill of Rights

For CUNY students who experience Sexual Violence, including sexual assault; domestic, dating or, intimate partner violence, stalking or voyeurism

All students have the right to

1. Make a report to local law enforcement and/or state police;

2. Have disclosures of domestic violence, dating violence, stalking, and sexual assault treated seriously;

3. Make a decision about whether or not to disclose a crime or violation and participate in the judicial or conduct process and/or criminal justice process free from pressure by the institution;

4. Participate in a process that is fair, impartial, and provides adequate notice and a meaningful opportunity to be heard;

5. Be treated with dignity and to receive from the institution courteous, fair, and respectful health care and counseling services, where available;

6. Be free from any suggestion that the reporting individual is at fault when these crimes and violations are committed, or should have acted in a different manner to avoid such crimes or violations;

7. Describe the incident to as few institutional representatives as practicable and not be required to unnecessarily repeat a description of the incident;

8. Be protected from retaliation by the institution, any student, the accused and/or the respondent, and/or their friends, family and acquaintances within the jurisdiction of the institution;

9. Have access to at least one level of appeal of a determination;

10. Be accompanied by an advisor of choice who may assist and advise a reporting individual, accused, or respondent throughout the judicial or conduct process including during all meetings and hearings related to such process; and

11. Exercise civil rights and practice of religion without interference by the investigative, criminal justice, or judicial or conduct process of the institution.

This Student Bill of Rights was established by the "Enough is Enough" Law, New York State Education Law Article 129-B, effective October 7, 2015.

For more information about preventing and addressing Sexual Violence at CUNY see http://www1.cuny.edu/sites/title-ix/campus-websites.

Information about filing a report, seeking a response, and options for confidential disclosure is available also available CUNY's Title IX web page.
Questions about CUNY's Sexual Misconduct policy and procedures may be directed to your campus Title IX Coordinator.

Policy adopted by the Board of Trustees on 12/1/2014 Cal. 4.C., with effective date of 1/1/2015. Amended by the Board of Trustees on 10/1/2015. Cal. 6.B. Adopted as revised by BOT on 6/25/2018. Cal.9.A.

CUNY Sexual Misconduct Policy/Title IX

return to: Institutional Policies

CUNY Sexual Misconduct Policy/Title IX

Hunter College is committed to maintaining a fair and equal environment for both its employees and student body, consistent with the requirements of Title IX of the Education Amendments Act of 1972 which state that:

No person in the United States shall, on the basis of sex, be excluded from participation in, denied the benefits of, or be subjected to, discrimination under any education program or activity receiving Federal financial assistance.

The CUNY Policy on Sexual Misconduct prohibits all forms of sexual misconduct, including but not limited to sexual harassment, gender-based harassment and sexual violence.

This Policy also prohibits retaliation for reporting or opposing discrimination, or cooperating with an investigation of a discrimination complaint.

Any individual who believes he or she has been discriminated against on the basis of gender in any area outside the purview of the Sexual Misconduct Policy may direct all inquiries, concerns and complaints to Dean John T. Rose, Hunter's Title IX Coordinator. Any individual who believes that he or she has experienced any form of discrimination under Title IX of the Education Amendments of 1972 may also contact the US Department of Education, Office of Civil Rights. In addition, Professor Jennifer Samson of the Department of Special Education is the college's 504/ADA Coordinator. The Vice Presidents, Deans, Directors, Managers and Supervisors share responsibility for ensuring our compliance with these policies and laws.

These criteria are based on guidelines issued by the Office of Civil Rights, Department of Education.

Click here for the full CUNY Sexual Misconduct Policy

CUNY Tobacco-Free Policy

Return to: Health/Safety Policies & Procedures

Hunter College Tobacco-Free Policy

In accordance with CUNY policy, effective September 2012, smoking and tobacco use will be prohibited in all areas that comprise Hunter College. This includes indoor locations as well as outdoor locations such as entrances and exits to buildings, outdoor terraces and parking lots. Furthermore, vehicles that are owned, leased or operated by Hunter College are also included in this policy. There is no sale of cigarettes, electronic cigarettes, cigars, chewing or pipe tobacco at any facility, location or vending machine owned, leased, operated or maintained by Hunter College or its contractors.
Hunter College respects an individual's choice to use tobacco; however, in accordance with CUNY policy we must restrict and discourage tobacco use on college property. We are looking forward to working with our neighbors and internal constituents to create a tobacco-free campus out of respect for others and the environment.

The Board of Trustees of The City University of New York approved The CUNY Revised Tobacco Policy on January 24, 2011. This revised tobacco policy updates, expands and supersedes the policy previously enacted effective January 1, 1995, which prohibited smoking inside all facilities, including vehicles operated by the University. The new CUNY policy on tobacco use reads:

Effective no later than September 4, 2012, the following shall be prohibited at The City University of New York:

- the use of tobacco on all grounds and facilities under CUNY jurisdiction, including indoor locations and outdoor locations such as playing fields, entrances and exits to buildings, and parking lots;
- tobacco industry promotions, advertising, marketing and distribution of marketing materials on campus properties; and
- tobacco industry sponsorship of athletic events and athletes.

Dance Courses

Dance

OVERVIEW

From a campus in the heart of New York City, the Hunter dance student has the unique opportunity of interfacing with many professional dance companies, choreographers and critics who live and work in New York. The department is proud to announce the launch, in fall 2018, of the MFA in Dance. The MFA is considered the terminal degree in the field; it is the baseline qualifying credential for the college/university teaching job market, a crucial laboratory for furthering deep personal artistic accomplishment, and an important venue for the development of contextual and aesthetic understanding.

The modern contemporary-based curriculum in dance education provides the student with opportunities to pursue careers in teaching, with a focus on performance, choreography and production. The curriculum is enriched by community outreach performances, repertory classes with New York-based choreographers, speciality workshops, dance clubs and organizations, international performances, internships and New York State teaching certification. In addition, the Hunter Dance Department hosts an annual spring performance in Hunter's Kaye Playhouse, as well as informal Salon Series, dance and dance education conferences, forums, and site-specific performances devoted to expanding the students' knowledge of and experience with diverse forms of dance in a variety of contexts.

What can I do with my degree in Dance?

The Hunter College Arnhold Graduate Dance Education Program (AGDEP) blends the academic and professional strengths of the School of Education and the Dance Department to train highly effective dance educators for New York City public schools and beyond. The goal of the Arnhold Graduate Dance Education Program is to take highly trained dancers and develop them as effective dance educators, adept in the unique context of dance education in primary and secondary schools.
The MFA program prepares dance artists/educators for many kinds of professional roles in the field of dance through a studio-based program of dance technique and choreography, complemented by appropriate coursework in theory, perspectives and contexts, history, and dance pedagogy.

DAN 70100 - Physical Training

The ongoing, rigorous training in a dance/movement style pertinent to the individual student's artistic and pedagogical goals. Exploration of unfamiliar movement disciplines will be required. This course is designed to allow each student to articulate and execute a regular training regimen that will build and refine her/his skills as practitioner of an artistic movement discipline. A variety of individual training plans are overseen by faculty. Regular group meetings examine how underlying aesthetic and kinesiological assumptions embodied by the training inform students' approaches to teaching artistry, improvisation, and choreography.

prereq: Admission to a graduate dance program

Hours 3
Credits 2
Can be taken more than once for credit, required 3 times for MA, 2 times for BA/MA.

DAN 70500 - Maintenance of the Dancer’s Instrument

An in-depth survey of a wide variety of somatic approaches to and interventions in dance training including ideokinetic and bodywork techniques, postural and motional training methods, and alternative movement disciplines. The course includes analytical, observational and participatory experiences, and will build on individual needs and interests of the students. Application of somatic knowledge to teaching movement and dance is stressed.

prereq or coreq: DAN 35000 or equivalent course and/or related professional background

Hours 3
Credits 3

DAN 73000 - Studies of Forms

This course develops choreographic proficiency through practical experience with, and observation of, artistic form and content across a range of disciplines. Short- and long-term experiments are presented in class and in occasional showings open to the public. The role of self-review, as well as external feedback during creative processes, is considered by utilizing a variety of protocols for response.

prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department

Hours 3
Credits 3
This course is repeatable once for credit.

DAN 73300 - Process and Projects
This course asks the Dance student to explore unfamiliar genres, styles and methodologies through a variety of choreographic project assignments. An inventory of each student's past experiences leads to a collaboratively designed and individualized series of assignments designed to stretch the student's experiences and capabilities.

prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department

Hours 3
Credits 3

DAN 73500 - Performance and Presentation

The development and public presentation of original choreography in performance at Hunter College or another suitable public venue. Regularly scheduled showings will offer opportunities to reflect on the work, receive feedback, and dialogue with faculty during the process of conception and execution.

prereq: Acceptance into one of the graduate dance programs: BA/MA

Hours 3
Credits 1
This course is repeatable once for credit.

DAN 73700 - MFA Project

The development, supported by regular faculty mentorship, of at least 30 minutes of original choreography. The work will be presented in a formal venue at Hunter College or another suitable performance space. A reflective paper synthesizing process, product and context will culminate the project.

prereq: Studies and Forms (2x) DAN 730, Process and Projects DAN 733, Performance Presentation (2x) DAN 735, Modes of Inquiry DAN 744, Aesthetics DAN 740, Graduate Dance History DAN 742, Physical Training DAN 701

Hours 3 hrs
Credits 8 cr.

DAN 74000 - Aesthetics

A seminar examining a variety of global artistic practices and value systems from both aesthetic and cultural perspectives. The course focuses on a broad range of dance and examines how choreographers, dancers, designers, critics, audience members, teachers, producers and scholars function and interrelate. Students examine a variety of analytical paradigms-- including structuralism, semiotics and literary theory -- through the study of the major writers and thinkers in the field. A culminating study is typically a close analysis of the student's personal creative work.

prereq: Admission to one of the graduate dance programs

Hours 3
Credits 3

DAN 74200 - Graduate Dance History

This course deepens the student's understanding of key points in concert and global vernacular dance in the 20th century. How those points have reflected social, cultural, and political forces, and impacted 21st century dance, is examined throughout the course. A major research paper is the culminating project. Both practice and theory are engaged through readings of historic texts and public reviews, film/video viewings, attendance at live performances, and group discussions.

prereq: Admission to one of the graduate dance programs AND DAN 23200 or comparable undergraduate dance
DAN 74400 - Modes of Inquiry

This course introduces various research approaches and methods. Research design - including statements of purpose, review of related literature, articulation of methods, and definition of terms – the place of action research in creative exploration (including teaching practice), arts-based research, and the role of theory in research are addressed through readings, discussion, practical experience, and written exercises and papers.

 prerequisites: Admission to MFA Dance program

 Hours 3  
 Credits 3

DAN 74600 - Special Topics in Dance

A seminar/laboratory course focusing on a varying series of topics, selected according to student interests, current faculty research, and available guest artists and master teachers. Topics can include a wide variety of historical, aesthetic, cultural, technological and political issues. The course encourages advanced study in specialized areas of particular student interest. Possible topics include: dance in the digital age, specific cultural forms, dance in community settings, motor learning from multiple perspectives, etc.

 prerequisites: Admission to one of the graduate dance programs

 Hours 3  
 Credits 3  
 can be repeated for credit with different content areas

DAN 75000 - Topics in Teaching for College/University

Intensive examination of the relationship between pedagogy, teaching artistry, and curriculum design. Includes study of the history, philosophy, and cultures of dance in higher education. Topics include lesson, unit, course, and curriculum structuring, assessment strategies; application of choreographic principles to course design; the relationship between higher education and the changing dance environment, and understanding the administrative hierarchy in higher ed. Students are observed and mentored in their roles as teachers.

 prerequisites: DANED 76000

 Hours 3  
 Credits 3

Dance Education Programs and Courses

Dance Pre-K - 12 - BA/MA

Dance Pre-K - 12 - MA

Dance Faculty

**Degree Requirements**

A matriculated graduate student enrolled in the graduate program and accepted as a candidate for a master's degree, doctoral degree, or advanced certificate will be recommended for the degree or certificate after the following requirements have been satisfied:

**Courses**

The candidate must have registered for and attended courses totaling the number of credits specified for the individual program. Courses other than those in the department of specialization may be credited toward the degree only with the approval of the graduate adviser. Waiver of course(s) does not release the student from the total number of credits required for the degree. Full-time graduate students may enroll for no more than 17.5 credits in any one semester.

**Grades**

The candidate must have achieved a cumulative grade point average of not less than 3.0 (B) in all graduate work taken at Hunter or on permit to a CUNY school.

**Master's Thesis**

A master's thesis is usually required. After it is approved, the original and one copy of the thesis is deposited with the appropriate school. It must be accompanied by a receipt from the Bursar's Office for the payment of the fee for binding one copy of the thesis.

A thesis approval form and style sheet, the requirements of which must be met strictly, are available from the graduate advisers' and the school deans' offices.

When the thesis approval form has been signed by the department graduate adviser and school dean, the original must be sent to the Degree Audit Unit of the Registrar's Office.

Where a thesis does not appear to be an appropriate measure of achievement, the Graduate Course of Study Committee of the Hunter College Senate has approved an acceptable substitution or equivalent.

**Foreign Language**
A reading knowledge of a foreign language is usually required. In programs where this knowledge does not appear to be necessary or appropriate, the Graduate Course of Study Committee has granted an exception.

**Time Limit**

The total time for completing all degree requirements from the beginning of matriculation is four years. (For programs in education, nursing, health sciences, and social work it is five years.) Courses exceeding the limit at graduation will not be included in degree credits unless approved by the department and the appropriate dean.

**Enrollment**

A student must be registered for the semester of graduation, either by maintaining matriculation (see "Maintaining Matriculation" in section on Registration) or by registering for a course.

**Graduation**

An application for graduation must be submitted online via MyHunter prior to graduation. (Check the One Stop website for deadline dates.) All course work, including thesis/major project and exams, must be completed by the date of commencement. The student record is sealed at graduation. No changes to the record can be made after the degree has been awarded.

**Degree Requirements**

Master's program requirements vary according to students' qualifications and the requirements of specific programs. Students must achieve a GPA of at least 3.0 in graduate courses.

Candidates should consult their program coordinator or adviser about their program's exit requirements at least one year in advance of the expected date of graduation.

695 Park Avenue, West B-122
New York, New York, 10065
Director of Public Safety: Joseph D. Foelsch, Jr.
Telephone: (212) 772-4521
Hunter College is centrally located on 68th Street and Lexington Avenue, in the heart of one of the most exciting neighborhoods in the city. The shops, restaurants, and close proximately to Central Park, makes the area attractive to all New Yorkers. The subway system makes the daily commute convenient and refreshing with the Number 6 line stopping right at the Main Campus. Hunter College offers graduate and undergraduate courses of study in liberal arts and sciences, as well as several professional fields; education, health and sciences, nursing and social work. With a student body of nearly 23,000 male and female students in day and evening classes, the college employs 1,200 full time faculty and staff personnel. Hunter College's uniqueness does not stop there. Our residential dormitory, known as the Brookdale Campus, is located at 25th Street and 1st Avenue. Brookdale is the home to nearly 600 male and female students and resident nurses. The Silberman School of Social Work is located on 3rd Avenue at East 119th Street in Manhattan. The campuses are closely monitored by public safety personnel 24 hours a day.

About Public Safety

Established in 1991, the CUNY Public Safety Department was created to further ensure that those who attend any of the CUNY institutions do so in a safe and comfortable environment. CUNY Public Safety Officers are sworn Peace Officers and have arrest authority granted them by the City of New York. They are designated as New York City Special Patrolmen/Peace Officers in accordance with Section 2.10, subsection 27 of the New York State Criminal Procedure Law. Campus Peace Officers (CPO) undergo sixteen weeks of training at York College, where they receive training pertaining to servicing the college community and how to effectively handle situations which may occur on a college campus and in the surrounding community. Campus Security Assistants (CSA) are employed as security guards in accordance with Article 7A of the General Business Law. CSA's do not have arrest authority above that of a private citizen.

All Hunter College Department of Public Safety personnel wear distinctive uniforms and carry two-way radios. Additionally, the college has seven New York State Certified Emergency Medical EMTs to respond to medical emergencies at the Main and Brookdale campuses. These personnel are trained in first aid, cardiopulmonary resuscitation and other emergency response procedures.

Campus Peace Officers (CPO's) are charged with the responsibility of making sure federal, state and local laws, as well as University policies and procedures are obeyed. Although officers are not city police officers, they are granted "Peace Officer" status through the City of New York and have arrest powers on all Hunter campuses. This allows officers to make an arrest and to search and seize evidence in connection with an arrest as long at the crime was committed in their presence or for a felony, not committed in their presence or view, but reasonable grounds exist that the offense was committed by the person the officer is arresting on the campus. The Hunter College Public Safety Department also maintains a strong working relationship with the City of New York Police Department (NYPD) as well as county, state and federal authorities and the City of New York Fire Department.

NOTE: The Hunter College Department of Public Safety does not provide security at any off-campus events; or for any off-campus organizations and/or residences not owned by Hunter College.

Students, staff and faculty are encouraged to report all public safety concerns to this department. A mechanism has has been added to the Hunter Public Safety web page which allows the college community to report crimes anonymously, known as "Silent Witness". At the present time pastoral and professional counselors do not have to inform the persons that they are counseling to report crimes on a voluntary, confidential basis.

The Director of the Public Safety Department is Joseph D. Foelsch, Jr., who has an extensive law enforcement background. Mr. Foelsch is assisted in the daily operations of the Department by a Deputy Director, Mr. Richard Meier. The Public Safety staff includes two Lieutenants, thirteen Sergeants, seven Corporals, four Specialists, 68 Campus Peace Officers, and 52 Campus Security Assistants. The staff maintains several "fixed" posts, a communications center as well as roving patrols.

Campus Access
The campus is monitored 24 hours a day by members of the Public Safety staff. After the campus is closed all persons entering the institution must sign in. The lobby of the West Building is available to all current Hunter College students. Only those students with written permission from a department head, or faculty member, are permitted to go to areas other than the West Lobby at times when the campus is closed. A student that wants to remain on campus after hours must request permission to do so, in writing, through their Department head, or designee sponsoring the after hour visit. The permission and a supporting letter must be provided to Public Safety. Students are not permitted to sign in non-students through the Visitors Center.

Identification Cards

Every member of the college community is required to carry a validated identification card while on campus. Upon request of a Public Safety Officer or college official, the ID card must be presented. Refusal to present the ID card will result in denial of access to the campus. ID cards are NON-TRANSFERABLE and may not be used by any other person, for any reason. The college will prosecute any unauthorized person who trespasses or loiters on college property. Students, faculty, and staff will need an ID card in order to gain access to buildings, or to gain access to offices when keys are forgotten. Student ID cards shall be validated each semester.

Complaints and Information

Complaints and requests for information concerning Public Safety services should be made to Mr. Joseph D. Foelsch, Jr. the Director of Public Safety at (212) 772-4521. After hours, all calls for Public Safety service should be made to (212) 772-4447.

Reporting a Crime

All crimes against person and property should be reported as soon as possible to the Office of Public Safety. This helps us apprehend criminals and make strategic decisions about the deployment of security resources. Incidents can be reported in person in the Public Safety office (B-122 in the West Building); by phone X 1-4444 if the crime is in process, (X 1-4447 after the fact) or to any uniformed officer on campus. The Office of Public Safety will assist you in reporting a crime to the NYPD as necessary.

Even if you do not want to pursue action with the college or the criminal justice system, please make a confidential report which does not reveal your identity to the Public Safety Office. This helps us keep an accurate record of the number and nature of incidents, determine whether there is a pattern of crime and we need to redeploy our security officers, and alert the campus community to a potential danger. Reports filed in this manner are counted and disclosed in the crime statistics of the college.

Security Policies

The policy of the City University and of Hunter College is that:

Students and employees will report safety hazards; crimes; loss of property; illness or injury. Proper reporting assists in the apprehension of criminals and ensures the safety of the college community. Incidents can be reported to any Public Safety officer or by calling the Office of Public Safety.

Investigation of Violent Felony Offenses

Hunter College has adopted and implemented a plan providing for the investigation of any violent felony offenses occurring on Campus, and providing for the investigation of resident Missing Persons. Such plans provide for the coordination of the investigation of such crimes and reports with the New York City Police Department (NYPD). Such plans shall include, but not be limited to, written agreements with the NYPD providing for the prompt investigation of such crimes and reports.
Violent Felony Offenses

Defined in Section 70.02 sub. 1 of the New York State Penal Law and include Class A, B, C, D and E. violent felony offenses. These crimes will be immediately reported to the New York City Police Department by the Hunter College Department of Public Safety Office. A joint initial investigation will be conducted and then a follow up investigation will be conducted by the appropriate unit of the New York City Police Department. The college administration and college community will be kept informed and will be updated on developments.

Alcohol and Drugs:

http://www.hunter.cuny.edu/publicsafety/policies-and-procedures/alcohol-drug-policies/alcohol-drug-policy

Any action or situation which recklessly or intentionally endangers mental or physical health, or involves forced consumption of liquor or drugs for the purpose of initiation or affiliation with any organization is prohibited. The unlawful manufacture, distribution, dispensation, possession, or use of illegal drugs or controlled substance by University students or employees on University/College property, or as part of any University/College activities is prohibited. Employees of the University must also notify the College Personnel Director of any criminal conviction for a violation occurring in the workplace no later than (5) days after such conviction.

The unlawful possession, use, or distribution of alcohol by students or employees on University/College property, or as part of any University/College activities is prohibited.

The legal age for possession and consumption of alcohol in New York State is 21. It is against the law to sell or give away alcohol to anyone under the age of 21.

The possession or use of illegal drugs is a crime in the State of New York. Anyone found in possession of or using such drugs on college property will be severely dealt with and will face criminal charges.

Hunter College is in compliance with the Drug-Free Schools and Communities Act Amendments of 1989 (Public Law 101-226). The New York State minimum drinking age (21 years) is observed at all campus functions. Proof of age is required to consume alcoholic beverages and no individual appearing to be under the influence of alcohol will be served.

The unlawful possession, use or distribution of drugs is prohibited on the campus. Violators will be subject to penalties ranging from reprimand and warning for a first infraction, to separation from the college for a subsequent offense.

Legal sanctions against students alleged to be in violation of Public Law 101-226 will be determined according to Article 15 Section 3 of the CUNY Board of Trustees Bylaws. Sanctions for members of the instructional staff and non-instructional staff will be governed by Article VII of the CUNY Board of Trustees Bylaws and Article XIV, respectively.

Weapons

No individual within the university community, except Peace Officers, pursuant to authorization of the college presidents, shall have in their possession a rifle, shotgun, firearm or any other dangerous instrument or material that can be used to inflict bodily harm on an individual, or damage to a building or the grounds of the campus.

Public Safety Emergencies

Throughout the Hunter College Main Campus and Brookdale Campus are stainless steel colored "Talk-A- Lert" boxes. The Talk-Alert boxes are mounted on walls near elevators, stairways and female bathrooms. Talk-Alerts are to be used for any and all emergencies on campus. Just push the black button, wait for the box to connect with Public Safety communications and a verbal response to your emergency. You may always reach Public Safety by dialing 1-4444 from any internal telephone, or 911 from a cellular phone will connect you with NYPD. To dial 911 from an interior campus telephone you must dial a 9 first (9-911).
Evacuation Procedures

Usually evacuation procedures concern a working fire; however there may be other reasons that a building may have to be evacuated. Examples of this may be a bomb threat; a chemical spill in a lab; a police action; a power failure; or other situation where it would be in the best interest of the occupants to evacuate. (PROCEDURES ARE LISTED UNDER Fire Safety Plan SECTION)

Timely Emergency Warnings

If a situation arises either on or off campus that, in the judgment of the Director of Public Safety, constitutes an ongoing threat, a campus wide "timely warning" will be issued through the college e-mail system to all students, faculty and staff.

Depending on the particular circumstances of the crime, especially in all situations that could pose an immediate threat to the community and individuals, the Department of Public Safety may also send out a notice using the CUNY ALERT system.

ALL students; faculty and staff are requested to sign up for CUNY Alert at the following web site:
http://www2.cuny.edu/news/cuny-alert/

Sexual Misconduct

Daily Crime and Fire Log

The Department of Public Safety maintains a "daily crime log" and a "daily fire log" in two ways. One is placed in electronic form and may be viewed on our web site at http://www.hunter.cuny.edu/publicsafety/reports/daily-log . This forum lists all crimes that are reported at all Hunter campuses. The second manner is a "daily crime log" that is maintained at each Hunter campus of crimes reported to the particular campus. That log will show reported crimes for the past 60 days and is available for viewing by students, faculty and staff during normal business hours.

ASR availability:

The Annual Security Report, commonly known as the ASR, provides information about Hunter Colleges Public Safety Department; policies and procedures; types of crimes and definitions; college resources for students and victims of a crime and crime statistics for the college.

The Annual Security Report (ASR) is mandated by the Clery Act to be available to all students, faculty and potential students: ASR's can be obtained on-line http://www.hunter.cuny.edu/publicsafety/repository/files/CLERY%202017%20ASR%20Hunter%20College%20for%20Revised%20and%20Updated.docx at any public safety desk at any one of Hunters campuses or at Public Safety's Administrative Office located in the West Building in room B-122A.

Lost and Found

All items found on campus that are lost should be turned in to any public safety officer; public safety desk; or a drop box or safe located at some campuses. Found or recovered items will be recorded and stored in the campuses "Lost & Found" locker. Persons who have lost property should complete and Lost & Found slip and turn it in to Public Safety.

Or, go to the following link to report a lost item on line:
http://www.hunter.cuny.edu/publicsafety/repository/files/Lost%20and%20Found%20Form%202012.pdf

Public Safety does not permit the random rummaging through the lost and found area for lost items. If an item is "reported" lost and it is located by public safety, you will be contacted by telephone and arrangements will be made to return the property. Found property will be stored for sixty (60) days only.
FIRE SAFETY

Each campus has a fire alarm system that meets the fire code of New York City. In most campuses a Fire Warden is assigned to each floor and is responsible for implementing the fire safety policy and evacuation during a fire emergency.

Things to Remember:

• If you notice a fire - pull the fire alarm pull station - do not waste time calling public safety. (Once activated, the alarm goes directly to a central station and NYFD is automatically notified and dispatched.
• If a "pull station" is not close to you then,
  o Activate one of the silver wall mounted "Talk-Alert" boxes
  o Dial 1-4444 on a main campus telephone
  o Dial 911 on your cell phone.
• Fire extinguishers are located on all floors of all campuses.
• A Fire Warden is assigned to each floor and is responsible for implementing the fire safety policy and evacuation during a fire emergency.
• It is important to follow their instructions, they are there for your safety
• Stairway "A" is the primary staircase to be used for evacuation, unless told otherwise.
• Disabled individuals should enter the stairway and stay on the landing of their floor. NYFD will come and get you!
• A delay in public address announcements after a fire alarm sounds is usually because public safety is investigating the source of the alarm to determine what needs to be done.
  o Always listen for public address announcements.
• If there is a fire or smoke condition in, or near an elevator shaft, the fire alarms will sound on all floors.
  o Elevators will get automatically re-called to the lowest floor/lobby.
• Some elevators may be re-called to the main floor due to a fire.
• After a fire alarm is activated, the alarm and the elevators cannot be reset until the NY Fire Department authorizes it and gives the "all clear".
• Evacuations may only occur on the "fire floor" and one floor above, and one floor below and not the entire building.
• Organized "Fire Brigades" will respond to the floor below the fire floor.
• Each semester Public Safety performs fire drills at each campus.

Evacuation Procedures

Usually evacuation procedures concern a working fire; however there may be other reasons that a building may have to be evacuated. Examples of this may be a bomb threat; a chemical spill in a lab; a police action; a power failure; or other situation where it would be in the best interest of the occupants to evacuate.

• Do Not Use Elevators Remain calm.
• Everyone will listen for a public address announcement to evacuate the building when the fire alarm is sounded.
• Normally, evacuation is ordered by building and by floor to prevent overcrowding in the stairwells.
• Upon activation of the fire alarm, and the announcement to evacuate, all occupants will immediately exit the building using the nearest exit stairwell and proceed across the street from the building.
• Excessive smoke, smell of gas is reason to immediately evacuate even if no announcement was heard.
• Evacuation floor plans are posted on each floor by the elevators throughout each campus.
• Close windows and doors. Leave lights on and doors unlocked.
• When you evacuate, do not stop for personal belongings or records.
• If there is excessive smoke, crawl to an exit. If you are unable to exit, stay low and plug all openings around doors, windows and vents.
• If you find yourself trapped dial 911 and give them your location, room number and floor.
• Before entering another room or stairwell, check for heat by placing your hand near the door.
• Fire Wardens that are familiar with the evacuation procedures will alert on their assigned floor to follow their emergency procedures.
• Disabled persons will enter the closest stairwell and await NYFD to assist them in exiting the building.
• A "runner" should be dispatched to tell the responding officer (fire or police) the location of the handicapped individual(s), so that a rescue can be initiated.
• Building occupants must immediately advise the responding Public Safety Officers of the possibility and location of any persons who have not yet evacuated the buildings due to injury or incapacitation.
• No one is permitted to re-enter an evacuated building until the building is determined to be safe by the emergency service personnel and NYFD advises that re-entry into the building is permitted.

Departmental Award

Scholarships and other awards are available through individual academic departments. Interested students can obtain information directly from their department.

Disclaimers and Statement of Rights

Notice of Possible Changes

The Board of Trustees of The City University of New York reserves the right to make changes of any nature in the academic programs and requirements of The City University of New York and its constituent colleges. All programs, requirements, and courses are subject to termination or change without advance notice. Tuition and fees set forth in this publication are similarly subject to change by the Board of Trustees of The City University of New York.

The course descriptions in this catalog summarize the full, official descriptions authorized by the Hunter College Senate. Full descriptions are available in the appropriate school and department offices. Hunter College reserves the right to change rules, policies, fees, and curricula without advance notice.

Policy on Equal Opportunity and Non-Discrimination

Hunter is committed to a policy of equal employment and equal access in its educational programs and activities. Diversity, inclusion, and an environment free from discrimination are central to the mission of the City University of New York.

It is the policy of Hunter to recruit, employ, retain, promote, and provide benefits to employees (including paid and unpaid interns) and to admit and provide services for students without regard to race, color, creed, national origin, ethnicity, ancestry, religion, age, sex (including pregnancy, childbirth and related conditions), sexual orientation, gender, gender identity, marital status, partnership status, disability, genetic information, alienage, citizenship, military or veteran status, status as a victim of domestic violence/stalking/sex offenses, unemployment status, or any other legally prohibited basis in accordance with federal, state and city laws.

It is also the Hunter's policy to provide reasonable accommodations when appropriate to individuals with disabilities, individuals observing religious practices, employees who have pregnancy or childbirth-related medical conditions, or employees who are victims of domestic violence/stalking/sex offenses.

This Policy also prohibits retaliation for reporting or opposing discrimination, or cooperating with an investigation of a discrimination complaint.
Dean John T. Rose is the college officer responsible for affirmative action matters. He is also the coordinator for Title IX, which prohibits sex discrimination in federally assisted education programs. His office is located in the Office of the President, 1706 Hunter East, (212) 772-4242.

Professor Jennifer Samson is the college Section 504 Coordinator for the Handicapped. Her office is located in 915 Hunter West, (212) 772-4663.

Freedom of Information Law

Request to inspect public records at the college should be made to the Records Access Officer, Gail Aidinoff Scovell, Special Counsel to the President, who is located at the Hunter College Legal Office, 695 Park Avenue, 1705 Hunter East, (212) 772-4220. Public records are available for inspection and copying by appointment only at a location to be designated. You have a right to appeal a denial of a request for access to records to the CUNY Senior Vice Chancellor for Legal Affairs and General Counsel. Copies of the CUNY Procedures for Public Access to Public Records Pursuant to Article 6 of the Public Officers Law and the appeal form are available at the reference desk of the library and on the college website.

Doctoral Programs

The university-wide doctoral program, centrally supervised by the City University Graduate Center, offers a PhD in the following academic disciplines: anthropology, art history, audiology (AudD), biochemistry, biology, biomedical sciences, business, chemistry, classics, comparative literature, computer science, criminal justice, earth and environmental sciences, economics, education (educational psychology and urban education), engineering, English, French, Germanic languages and literature, Hispanic and Luso-Brazilian literatures, history, linguistics, mathematics, music (PhD, DMA), musical arts, nursing (DNS), philosophy, physics, political science, psychology, public health (DPH), social welfare, sociology, speech and hearing sciences, and theatre. The doctoral faculty is composed of faculty members from the senior colleges who hold CUNY Graduate Center appointments. Doctoral courses are taught at the Graduate Center and on the senior college campuses. The Graduate Center is located at 365 Fifth Avenue, New York NY 10016.

Drug-Free Schools and Campuses

Public Law 101-226

Hunter College is in compliance with the Drug-Free Schools and Communities Act Amendments of 1989 (Public Law 101-226).

The New York State minimum drinking age (21 years) is observed at all campus functions. Proof of age is required to consume alcoholic beverages and no individual appearing to be under the influence of alcohol will be served.

All Hunter College organizations sponsoring events must, in advance of the event, agree to the following conditions:

1. No person shall sell or provide an alcoholic beverage to a person under the age of 21. Where documentation of age is unavailable or not reasonably certain, the law requires denial of an alcoholic beverage to that person.
2. No person shall sell or provide an alcoholic beverage to a person actually or apparently under the influence of alcohol.
3. No person shall sell or provide an alcoholic beverage to a person known to be a habitual excessive drinker.
4. All advertising, promotion, publicity, invitations, etc. stating the availability of alcoholic beverages at an event, must include the following statement:

   The unlawful possession, use or distribution of drugs is prohibited on the campus. Violators will be subject to penalties ranging from reprimand and warning for a first infraction, to separation from the college for a subsequent offense.

Legal sanctions against students alleged to be in violation of Public Law 101-226 will be determined according to Article 15 Section 3 of the CUNY Board of Trustees Bylaws. Sanctions for members of the instructional staff and non-instructional staff will be governed by Article VII of the CUNY Board of Trustees Bylaws and Article XIV, respectively.

Assistance is available by calling:

- For Emergencies contact Public Safety – (212) 772-4444
- Hunter College Medical Services – (212) 772-4801
- Employee Assistance Program – (212) 772-4051
- Student Services – (212) 772-4882

The Hunter College Smoking Policy
Hunter College is a non-smoking environment (facility) pursuant to New York City Law.

**East Harlem Teaching Residency**

The East Harlem Teaching Residency, a partnership between the East Harlem Tutorial Program (EHTP) and Hunter College School of Education, is a highly selective teacher-training program that develops, supports and certifies aspiring educators to become elementary teachers in New York.

**Economics Department Description**

Return to Economics/Accounting

The Department has two Master's degree programs, one in Economics and the other in Accounting. Graduate Students are actively engaged in the research and teaching missions of the department. Both programs equip students with analytic tools that can be directly applied to business and public policy. Because both programs integrate theory, quantitative methods, and practical applications, Hunter MA and MS graduates regularly move into interesting, well-paid positions in business, government, and international organizations. They are also prepared to enter Ph.D programs at top-ranking universities. In addition, Accounting graduates are qualified to take the CPA examination in New York State.

**Economics Faculty**

Return to Economics/Accounting

**Economics**

Temisan Agbeyegbe, Professor; PhD, Essex; Econometrics, Economic Development, Environment and Resource Economics, Time Series

Mathew Baker, Associate Professor; PhD Connecticut; Law and Economics, Economics of Organization

Karna Basu, Associate Professor; PhD, MIT; Development Economics, Behavioral Economics, Applied Microeconomic Theory

Jonathan Conning, Associate Professor; PhD, Yale; Development Economics, Financial Markets, Political Economy

Partha Deb, Professor; PhD, Rutgers; Econometrics, Health Economics

Monica Deza, Assistant Professor; PhD, Berkeley; Labor Economics, Economics of Crime, Economics of Risky Health Behaviors, Economic Demography

Randall K. Filer, Professor; PhD, Princeton; Applied Microeconomics, Economics of Transition in Eastern Europe, Labor Economics, Public Policy

Lisa M. George, Associate Professor; PhD, Pennsylvania; Industrial Organization, Political Economy
The PhD program in economics is based at the City University Graduate Center. Under special circumstances, advanced students in the MA program may take up to 12 credits and transfer them to Hunter towards their MA. In addition, students in the PhD program who wish to transfer to the Hunter MA program may transfer up to 12 credits towards the Hunter MA. PhD students at the City University Graduate Center who wish to earn an en passant master's degree after completing 45 credits at the Graduate Center – in cooperation with Hunter College – should consult the executive officer of the PhD program.
English Department Faculty

Tanya Agathocleous, Associate Professor; PhD, Rutgers; 19th and 20th century British literature and Culture, Global Anglophone literature

Meena Alexander, Distinguished Professor; PhD, Nottingham; Creative Writing, Romantic Poetry, Post-colonial Literature

Enrollment

A student must be registered for the semester of graduation, either by maintaining matriculation (see "Maintaining Matriculation" in section on Registration) or by registering for a course.

External Scholarships

Other fellowship awards may be available through government and private organizations. For study in the fields of the art, humanities and social sciences, students may apply for the Jacob K. Javits Fellowship, www.ed.gov/programs/jacobjavits.html. For study in the fields of the social sciences and physical and natural sciences, students may apply for the National Science Foundation Graduate Research Fellowship, www.nsfgradfellows.org. Information on other scholarships from outside organizations are listed in the Grants Guide, available in the Office of Student Services, Room 1119 East or online at: http://studentservices.hunter.cuny.edu/grant.htm

Federal Aid Eligibility

The Federal Satisfactory Academic Progress standard applies to students seeking assistance from all federal student financial aid programs available at Hunter College.

Graduate Students

In order to be making satisfactory academic progress toward a degree, for purposes of receipt of Title IV Federal Student Assistance, a graduate student must meet the minimum standards specified below.

A. Minimum GPA – maintain a minimum GPA of 3.0 or better, or have an academic standing consistent with the requirements for graduation.

B. Maximum Time-frame – may not attempt more than 150% of the credits normally required for completion of the degree.

C. Pace of Progression – must accumulate credits toward the degree greater than or equal to two-thirds the cumulative credits attempted at the institution. All graduate students will be measured against each of the three SAP components at the end of the spring term to determine

Federal Financial Aid Programs

Campus-Based Programs

The Federal Work-Study (FWS) Program is considered a campus-based program because it is administered directly by the college. How much aid a student receives depends on the student's financial need, the amount of other aid the student will receive, and the availability of funds. Funds are limited. Therefore, students must apply early in order to be considered for these funds. The priority deadline is January 15th.

Federal Work-Study

The Federal Work-Study (FWS) Program provides jobs for graduate students with financial need, allowing them to earn money to help pay education expenses. The program encourages community service work and work related to the student's course of study. The FWS salary will be at least the current federal minimum wage, but it may be higher,
depending on the type of work the student does and the skills required. The total FWS award depends on the availability of funds and the student's level of need at the time of application.

**Federal Perkins Loans**

A Federal Perkins Loan is a low-interest (5 percent) loan for students with exceptional financial need. Federal Perkins Loans are made through Hunter College as the lender, although the loan is made with government funds. Students must repay this loan to Hunter College. The borrowing limit established by the U. S. Dept. of Education for eligible graduate students is $5,000 per year for each year of graduate/professional study.

The total amount graduate students can borrow is $30,000. (This amount includes any Federal Perkins Loans borrowed as an undergraduate). The actual amount of the loan is dependent on financial need and the availability of funds.

**Federal Direct Unsubsidized Loans**

The Federal Direct Loan Program, established by the Student Loan Reform Act of 1993, provides low-interest loans for students. Under the Direct Loan Program, the federal government makes loans directly to students through the college.

An unsubsidized loan is not awarded on the basis of need. If a student qualifies for an unsubsidized loan, interest will be charged from the time the loan is disbursed until it is paid in full. Students can choose to pay the interest or allow it to accumulate. If students allow the interest to accumulate, it will be capitalized – that is, the interest will be added to the principal amount of the loan and will increase the amount that has to be repaid. If the interest is paid as it accumulates, the student will have less to repay in the long run.

The U. S. Dept. of Education has established a borrowing limit of $20,500 each academic year for the Federal Direct Loan program. A student may receive less than the yearly maximum amount if other financial aid is received. Total aid including loans may not exceed the cost of attendance.

The total outstanding debt from all Federal Direct and Federal Stafford Loans combined that a graduate or professional student may have is $138,500; no more than $65,500 of this amount may be in subsidized loans. The graduate debt limit includes any Federal Direct Loans and Federal Stafford Loans received for undergraduate study. Federal Direct Loans are not made to students enrolled in programs that are less than one third of an academic year in duration. For students whose Federal Direct Loans were first disbursed on or after July 1, 1994, the interest rate is variable, but it will never exceed 8.25 percent. The interest rate is adjusted each year on July 1. Students will be notified of interest rate changes throughout the life of their loan.

Once a Federal Direct Loan is made, it is managed and collected by the U.S. Department of Education's Direct Loan Servicing Center. The toll-free telephone number is (800) 848-0979.

**Field Experiences, Student Teaching and Practica: Policy and Progress**

All teacher preparation, counseling, and school leadership programs require field experiences and student teaching or practica. Students must apply for student teaching in the fall semester if they have completed prerequisite courses and expect to student teach in the spring, and in the spring semester if they wish to student teach in the fall. In some programs student teaching is offered only once a year. Consult with a program adviser to develop a program plan. All field experiences, student teaching and practica take place in New York City schools. Applicants for admission and teacher candidates should be aware of this policy when planning for their programs.
Students in programs that lead to NYS certification and who do not have prior NYS certification are required to submit their scores on the Educating All Students (EAS) test and Content Specialty Test (CST) prior to student teaching. In order to enroll in student teaching or practicum, students must submit their passing scores on the EAS or be enrolled in appropriate follow-up coursework.

For teacher candidates in initial certification programs, the edTPA is completed during student teaching or practicum courses. Please check with the Office of Educational Services for up-to-date policy.

Students must receive a grade of B or better in a supervised field experience, student teaching, or practicum courses.

**Financial Aid: Application Procedure**

The fastest and easiest way to apply for financial aid is by completing the Free Application for Federal Student Aid (FAFSA) online. FAFSA on the Web is available at www.fafsa.ed.gov. Before beginning the application we encourage you to first fill out the FAFSA Worksheet.

The worksheet does NOT need to be submitted. When the student completes the FAFSA, Hunter College should be included among the colleges to which the application information is reported (HUNTER COLLEGE FEDERAL SCHOOL CODE: 002689). When the FAFSA is processed, CUNY will receive an electronic record of the student's application information. The Federal Government may require that the student provides additional documentation to the Office of Financial Aid to verify the application information or to clarify any discrepancies found in the application. Students who are New York State residents can apply for both federal and New York State aid using a single online session. After completing FAFSA on the Web, New York residents are able to link to the TAP on the Web Form, which is pre-filled with their FAFSA data.

In order to request a Federal Direct Loan at Hunter College, the student must first complete the FAFSA.

**Financial Need**

All funds from federal financial aid programs administered by the Office of Financial Aid are awarded on the basis of financial need with the exception of the Federal Direct Unsubsidized Loan.

When the student applies for federal student aid, the information that is reported on the FAFSA is used in a formula, established by the U.S. Dept. of Education and approved by the U.S. Congress. The Expected Family Contribution (EFC) which is the amount that the student and the family are expected to contribute toward the student's education is then calculated.

There is not a maximum EFC that defines eligibility for financial aid programs. Instead, the EFC is used in an equation to determine financial need:

\[
\text{Cost of Attendance} - \text{Expected Family Contribution (EFC)} = \text{Financial Need}
\]

The Office of Financial Aid takes the Cost of Attendance and subtracts the Expected Family Contribution (EFC). The amount left over is considered the student's financial need. In determining the student's need for aid from the federal financial aid programs, the Office of Financial Aid must first consider all other aid that the student is expected to receive.
Fire Safety Plan

1. Use of Elevators during a Fire

2. If elevators can be used during a fire alarm

3. When there is a report of a fire alarm in the building

4. Instructions for fire reporting and Evacuation Procedure

5. Fire safety plan for the Disabled

6. Special Instructions for the handling of Disabled persons

Use of Elevators during a Fire

No person should ever use an elevator in a fire unless directed by Fire Department personnel. Using an elevator in a fire is extremely dangerous. The college has been informed by the Fire Department that the use of elevators in a fire has, in many cases, resulted in many unfortunate and unnecessary deaths.

The New York City Fire Department has informed Hunter College that the Fire Department has the primary responsibility to determine if elevators can be used to transport disabled persons during fire emergencies. Fire Department officials also state that they are responsible for relocating disabled persons to a safe location if such relocation is necessary. Disabled persons should wait at the designated stairwell on the floor that they are on at the time of an emergency.

The New York City Fire Department considers transporting disabled persons in an emergency a highly risky procedure. The relocation process may subject disabled persons and other persons to accidents and injuries. However, if it is necessary to relocate disabled persons during an emergency, the Fire Department will handle the relocation of disabled persons, using safe procedures and experienced Fire Department personnel.

If elevators can be used during a fire alarm

The Fire Department considers use of the elevators to be the best method of relocation because it is practical, safe and efficient. This explains the Fire Department's position of advocating emergency assembly areas for disabled persons. (The Fire Department often refers to this type of assembly area as a refuge area.)

When there is a report of a fire alarm in the building

(Note: The alarm may be a false alarm or the fire may be in a small section of the building) if disabled persons are not in any danger from the fire or its smoke, the Fire Department does not automatically recommend the relocation of disabled persons. In most cases, the Fire Department would not recommend that such persons be removed from the building. Instead, the Fire Department would recommend that such persons be moved to a safe location within the building.

Note: It is extremely important that the Hunter College community understand the procedure of the New York City Fire Department for evacuating a building that is experiencing a fire. Everyone in the building should not automatically be evacuated to the street. Nor should everyone be relocated within the building. This is the policy for ambulatory persons as well as non-ambulatory persons.

If you have any questions regarding the standards used to determine the need for evacuating the buildings, call the Director of Public Safety and Security at (212) 772-4521.
For Your Safety

The Hunter West, East, North and Thomas Hunter Buildings are equipped with Fire Emergency notification devices. It is the responsibility of everyone to become familiar with their location and their use. These Fire Emergency notification devices consist of the following:

Fire Alarm

The Fire Alarm Pull Stations are small, red boxes. They are wall mounted and located next to a fire exit. Printed on these pull stations is PULL HERE IN CASE OF FIRE.

To activate the Fire Alarm Pull Station, follow these steps:

1. Lift cover and pull down the RED lever on the Fire Alarm Pull Station box. This will cause the fire alarm to sound on the fire door and on the floor above. In addition, it will send a signal to the Fire Command Station. The Fire Safety Director at the Fire Command Station will carry out the fire emergency procedures. Make yourself familiar with them now, so that in an emergency you will know what to do.
2. During a fire alarm, Fire Wardens, Fire Searchers and Public Safety Officers have been directed to communicate the number, the location and the status of all disabled persons via Fire Warden phones to the Fire Command Station. The Fire Safety Director will notify members of the New York City Fire Department regarding the status of all disabled persons in the building as soon as the Fire Department arrives on campus.

Note: It is extremely important that the college community understand the protocol of the New York City Fire Department for evacuation of a building that is experiencing a fire. Everyone in the building should not automatically be evacuated to the outside, or, for that matter, be relocated within the building. This is the policy for ambulatory persons as well as non-ambulatory persons.

Instructions for Fire Reporting and Evacuation Procedure

A. If you see a fire, do the following:

1. Call the Fire Department (911), or
2. Call the Public Safety Emergency Number (Security) (212) 772-4444, or
3. Pull the fire alarm.
4. Then, follow the procedures below:

B. Procedures

1. Evacuate your area.
2. Close, but do not lock, doors.
3. Follow instructions transmitted over the public address system.
4. Proceed to evacuate the building through designated exits.
5. Evacuate to street if not directed otherwise over the public address system.
6. Before entering any stairwell, touch the door with the back of your hand. If it is warm or hot, do not enter the stairwell. Proceed to the next stairwell.
7. When leaving the building keep your head turned to the center of the stairway.
9. It is dangerous to use elevators during an evacuation. Only use elevators when authorized to do so by fire emergency personnel.
10. When using the down escalators, make long and wide turns going from one escalator to the next escalator in order to prevent congestion.
11. When you are outside the building, move away from the entrance approximately 200 feet.
12. Wait for the all-clear signal before re-entering the building.
Fire Safety Plan for the Disabled

When there is a fire alarm in one of the college's buildings disabled persons who are unable to walk down steps should assemble at one of the designated stairwells as per the fire safety director's instructions.

During a fire alarm, fire wardens, fire searchers and security personnel have been directed to communicate the number, the location and the status of all disabled persons via Fire Warden Phones or through security personnel to Hunter College's Fire Command Station. The Public Safety person at the Fire Command Station will notify members of the New York City Fire Department of the status of all disabled persons in the building as soon as the firefighters arrive on the campus.

When Public Safety Offices Will Relocate Disabled Persons if, for any reason, a disabled person is in imminent danger due to fire, smoke or similar circumstances on campus and members of the Fire Department are not present to relocate the disabled person, Public Safety Officers and other members of the College Fire Brigade will assume the responsibility of relocating that person to a safe location.

Public Safety Officers and members of the Fire Brigade operating under the direction of the Fire Safety Director will take command and make immediate arrangements to have the appropriate disabled person(s) moved to a safe location if necessary.

Note: The Public Safety Officer in charge of the evacuation process will determine the number of carriers needed to relocate a disabled person. Factors to be considered when making these assignments will be the weight of the disabled person, the weight of the wheelchair, the width of the staircase and any other factors that are deemed necessary to successfully carry out these functions without accidents.

This Fire Safety Plan for the Disabled is established to provide for the safety of the disabled members of the Hunter College community and disabled visitors to the college in the event of a fire or other life-threatening emergency. The plan will be implemented in any situation in which there may be a need to relocate disabled persons to a safe location.

The Fire Safety Plan for the Disabled identifies the New York City Fire Department as the agency having the primary responsibility for relocating any disabled person from an endangered floor to a safe location. However, if the Fire Department or other New York City emergency agency response is not exercised in a timely fashion and the situation requires immediate removal of disabled persons, Public Safety and Security Personnel will transport such individual or individuals to a safe location.

The Fire Safety Plan for the Disabled is a part of the Hunter College Fire Safety Plan. All faculty, staff and students are advised to read and be fully familiar with the entire Fire Safety Plan.

Orientation

1. Orientation to the Fire Safety Plan, including the relocation procedures, will be provided for disabled faculty, students and staff yearly under the auspices of the 504 Committee.
2. Orientation for new disabled students will be included in the orientation program for entering freshmen.
3. Instructions regarding the Fire Safety Plan and Relocation Procedures will be included in the regularly conducted fire drills.

Disabled Person Precautions

1. Remain calm. Your safety and the security of others depend on the absence of panic.
2. Before entering any stairwell, using the back of your hand, touch the door leading into the stairwell. If the door is warm or hot, do not open or enter the stairwell. Proceed to the next stairwell.
3. If you cannot reach a stairwell near an elevator and you are in an office or classroom and have access to a phone, call Security at 212-772-4444. Disabled persons and persons who are trapped are the only persons who should call Public Safety during a fire emergency.
4. If you are in an area with a door and cannot reach an exit near the elevators, seal the crack around the door with rags or clothing.
5. All rooms including restrooms will be searched by Public Safety and the fire brigade

What Emergency Personnel Will Do

1. The person who searches the floor will report your location to the fire command station. The fire command station will inform the Fire Department of your location.
2. If you are in need of relocation and the Fire Department is not available to relocate you, a member of the Public Safety and Security Department will relocate you to a safe location.
3. If necessary, you will be relocated to a safe floor or taken out of the building.

Locating Disabled Persons

1. The Office of AccessAbility maintains class schedules for disabled students and work schedules for disabled faculty and staff. These schedules will be used to assist emergency personnel to locate disabled persons in an emergency.
2. Students are responsible for reporting their class schedules, their work schedules and schedule changes to the Coordinator for Disabled Student Services (Room 1214B Hunter East).
3. Disabled faculty and staff are responsible for reporting their work schedules and schedule changes to the director of personnel (Room 1502A Hunter East).

Special Instructions for the Handling of Disabled Persons

Person Who Is Visually Impaired

A disabled person who is visually impaired and has to be relocated, but is able to walk downstairs, will be personally escorted to a safe location by a Public Safety Officer, a Fire Warden, a Fire Searcher, or a member of the college Fire Brigade.

Person Who Has a Hearing Impairment

A person who has a hearing impairment will be alerted to a fire alarm by a Public Safety Officer, a Fire Warden, a Fire Searcher, or a member of the College Fire Brigade. Those disabled persons will be escorted to a safe location if necessary.

Special Caution on Lifting and Carrying Disabled Persons

Before lifting any disabled person, carriers will, if possible, ask the disabled person how they should be lifted. Disabled persons know better than anyone else how they should be lifted or carried in order to avoid any unnecessary injuries to the disabled person.

Responsibility for Implementation

The fire safety director of the Department of Public Safety is responsible for the implementation of the Fire Safety Plan.

Distribution

The Fire Safety Plan for Disabled Persons will be distributed to all faculty, students and staff who have identified themselves as disabled. The Fire Safety Plan for the Disabled will be distributed with the Hunter College Fire Safety Plan.

If you have any questions regarding the various parameters used to evaluate the necessity of evacuation, please consult with the fire safety director at ext. 6640.

Food Services
Main Campus

The cafeteria (The Hungry Hawk) on the 3rd floor of Hunter West is open to all Hunter students, faculty, staff and visitors. There are two eating areas adjacent to the food service area. The south side seats around 200 people. The north side seats about 75. A full menu of hot and cold foods and beverages is offered.

- **Hours:** Monday through Thursday, 8:30 am to 7:30 pm; Friday, 8:30 am to 5:00 pm

The Campus Café is located in the lobby of Hunter West, serving a variety of breakfast and lunch items including sandwiches, soups and more as well as snacks, coffee and beverages.

- **Hours:** Monday through Friday, 7:00 am to 7:30 pm

The World Cup Café is located on the third floor of Hunter East and serves breakfast and lunch items including specialty empanadas, soups, smoothies, pastries and beverages.

- **Hours:** Monday through Friday, 7:00 am to 8:00 pm; Saturday's 9:30 am to 4 pm

Brookdale

Coming soon: The World Cup Café will be located on the main floor of Brookdale and will serve breakfast and lunch items including sandwiches, soups, pastries and beverages.

- **Hours:** To be Determined

School of Social Work, 119th Street & 3rd Avenue

Food service options are available at the first floor café, and are currently provided through a local vendor, in keeping with Hunter's commitment to support the East Harlem community.

Vending There are vending machines throughout all of Hunter College's campus locations.

Foreign Language

A reading knowledge of a foreign language is usually required. In programs where this knowledge does not appear to be necessary or appropriate, the Graduate Course of Study Committee has granted an exception.

Frankfort Center for Learning and Scholarly Technologies

The Frankfort Video Analysis project of pre-certification teachers and counselors was initiated in 2007 and has since become a requirement for every degree and certificate candidate at the Hunter College School of Education. This innovative database has been improving professional development and teacher preparation via embedded rubrics and observation tools. The corresponding library of best practices and teachable moments is one of the nation's first archive of indexed student-teaching videos. The VAT/VAC was lauded by the NCTQ in their 2014 rankings of educational programs as a resource that comprises, "promising or exemplary materials from teacher preparation programs."

Advanced Certificate

Adolescent Special Education Grades 7-12: Additional NYS Certification - Advanced Certificate

Program Coordinator

Gina Riley
(212) 396-6921
1104 West
griley@hunter.cuny.edu
This program (Academic Plan: ASE712-AC) leads to a post-master's Advanced Certificate in Adolescent Special Education Generalist, Grades 7-12. The program is designed for students with existing New York State certification in either Students with Disabilities Grades 1-6, or another certification content area at the adolescent level—such as Mathematics, Science, English Language Arts, or Social Studies.

Admission Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.5.
2. New York State initial, professional or permanent certification in:
   - Childhood Special Education, Grades 1-6
   - Adolescent Education, Grades 7-12
3. A personal statement.
4. A recommendation from a supervisor or academic professor.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

**Academic Plan**

**ASE712-AC**

**Total Credits**

17

**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours 45 hours; includes 5 hours of field experience*

**Credits 3**

-Or-*

**SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders**
Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

**prereq:** SPED 70000  
**coreq:** current employment as a teacher or enrollment in student teaching  
*Hours* Includes 10 hrs of field experience; 45 hrs,  
*Credits* 3 cr

---

**SPED 70100 - Assessment of Students with Disabilities**

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

**prereq or coreq:** SPED 70000  
*Hours* 45 hours; includes 10 hrs of field experience  
*Credits* 3

-Or-*

**SPED 70200 - Classroom Management in Special Education and Inclusive Settings**

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

**prereq or coreq:** SPED 70000  
*Hours* 45 hours; includes 15 hrs of field experience  
*Credits* 3

- Plus the following -

**SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs**

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

**prereq or coreq:** SPED 70000  
*Hours* 15 hrs,  
*Credits* 1 cr
SPED 77100 - Methods of Teaching Reading for Adolescents with Learning Disabilities

This course addresses principles, methods, and specially designed instruction for adolescents with learning disabilities, mild/moderate cognitive impairment, and/or behavior disorders. The focus is on developing literacy through all aspects of reading, including: developing comprehension, expanding vocabulary, increasing fluency, utilizing phonics, and refining phonemic awareness. Students will learn strategies that support reading at all levels, including: sound, word, sentence, cross-sentence, text body, and text structure, genre, and across content areas.

coreq: SPED 77200
prereq or coreq: SPED 70000
Hours 45 plus 10 field hours
Credits 3 cr.

SPED 77200 - Supervised Clinical Teaching of Adolescents with Disabilities: Part I

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities, mild cognitive impairment, and/or behavior disorders from grades 7–12. Focus on specialized reading instruction, math instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 77100
prereq or coreq: SPED 70000
Hours 30 hours of seminar plus 25 field hours
Credits 2 cr.

SPED 77300 - Math Methods for Adolescents with Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

SPED 77400 - Supervised Clinical Teaching of Adolescents with Disabilities: Part II

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 70000
coreq: SPED 77300
Hours 2 hrs: 15 hours of seminar plus 22 lab/clinical hours
Credits 2 cr

* These choices are based upon previous courses taken. Note that all applicants will already have taken one required special education course as part of general education certification programs. Therefore a choice
allows each candidate to customize a plan of study with new material and avoid taking a course that would be redundant.

**Exit Requirements**

1. An overall GPA of 3.0.
2. A grade of at least B in classes based upon fieldwork/clinical teaching (SPED 77200 and SPED 77400).
3. Completion of the Dignity for All Students Act (DASA) workshop.
4. Maintain valid and appropriate NYS certification.

**Bilingual Education Extension: NYS Teachers - Advanced Certificate**

**Program Coordinator**

**Carla Espana**
(212) 772-4712  
1103 West  
biled@hunter.cuny.edu

**Maite Sanchez**
(212) 772-4670  
924 West  
biled@hunter.cuny.edu

The School of Education offers a post-baccalaureate program that lead to Bilingual Education Extension for classroom teachers with NYS certification (Academic Plan: BIEXT-AC). This program trains teachers to become effective bilingual practitioners with high levels of competence using two languages of instruction. The programs are offered in three language sets: Spanish/English, French/English and Chinese/English.

**Admission Requirements**

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0  
OR  
A master's degree with a GPA of at least 3.5

AND  
NYS teacher certification in:  
- Early Childhood Education (Birth-Grade 2)  
- Childhood Education (Grades 1-6)  
- Common Branches PreK-Grade 6  
- Middle Childhood Education (Grades 5-9)  
- Adolescent Education (Grades 7-12)  
- Special Subjects  
- Literacy Education
• Students with Disabilities in Early Childhood, Childhood, Middle Childhood, or Adolescent Education or Special Education K-12
• Teachers of Students who are Blind or Visually Impaired, Deaf or Hard of Hearing, or Speech and Language Impaired
2. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted in English and in Spanish, French or Chinese.
3. Two letters of recommendation, including one from a supervisor.
4. Submission of scores on the Graduate Record Examination, except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan
BIEXT-AC
Total Credits
13-14

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to
preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100  
*Hours* 75 hrs,  
*Credits* 1 cr

**BILED 77100 - Psychology of Language Learning and Teaching**

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

*prereq or coreq:* BILED 70100  
*Hours* 30 hrs plus 5 hrs of fieldwork and lab,  
*Credits* 2 cr

**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

*prereq or coreq:* BILED 70100  
*Hours* includes 5 hrs of fieldwork  
*Credits* 3 cr

- Plus one of the following -

**BILED 71100 - Bilingual Literacy-Spanish**

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

*coreq:* BILED 71150  
*prereq or coreq:* BILED 77100  
*Hours* 30  
*Credits* 2

**BILED 71200 - Bilingual Literacy-French**

Bilingual literacy - French: conducted in French and English and will present how to differentiate instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners. The course aims to develop teachers' ability to plan for language, content and literacy skills by designing a thematic integrated literacy unit. The course will assist teachers in understanding how to develop students' oral language, spelling, grammar, and vocabulary.
BILED 71300 - Bilingual Literacy-Chinese

Bilingual Literacy – Chinese focuses on the development of literacy skills in both English and Chinese for students in bilingual programs. The emphasis is on L1 and L2 literacy using narrative and expository text, technology, and the arts as mediums for developing skills. This course will be conducted in Chinese and English.

Prereq or coreq: BILED 77100, BILED 77150
Hours 30
Credits 2

For the Advanced Certificate Leading to an Extension in Bilingual program: the prereq or coreq is BILED 77150

- Plus one of the following -

BILED 76800 - Instruction through the Native Language-French

This course will be conducted in French. Students will learn to master academic French as it relates to bilingual education and the content areas. They will also learn to integrate French language development into content area instruction.

Prereq or coreq: BILED 70100 and CEDF 70900 for the MSEd/Childhood Education Grades 1-6 with bilingual extension; for the MSEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100
Hours 45
Credits 3

BILED 76900 - Instruction through the Native Language-Chinese

To enhance Chinese language skills of teacher candidates for the purpose of teaching content areas in and through Chinese. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Chinese for the bilingual classroom.

Hours 45 hours plus 10 hours of fieldwork
Credits 3

Prereq or Coreq: For the Childhood education Grades 1-6 with a Bilingual Extension program: BILED 70100, CEDF 70900; For the MSEd in Early Childhood Education Birth through Grade 1 with a Bilingual Extension: Program 1, BILED 70100, ECF 70000; Program 2, none; Program 3, BILED 70100; For the Advanced Certificate Leading to and Extension in Bilingual program: none.

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

Prereq or coreq: BILED 70100
Hours 45 hrs plus 10 hrs of fieldwork,
Credits 3
Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in the field experience course BILED 71150.
3. Maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

Bilingual Education Extension: Pupil Personnel Services - Advanced Certificate

Program Coordinator

Carla Espana  
(212) 772-4712  
1103 West  
biled@hunter.cuny.edu

Maite Sanchez  
(212) 772-4670  
924 West  
biled@hunter.cuny.edu

The School of Education offers a post-baccalaureate, advanced certificate program that lead to Bilingual Education Extension for those with NYS certification in Pupil Personnel Services (Academic Plan: BEPPS-AC). This program trains teachers to become effective bilingual practitioners with high levels of competence using two languages of instruction. The programs are offered in three language sets: Spanish/English, French/English and Chinese/English. Candidates must be employed and working in their area of certification in a bilingual setting at the time of application and during practicum semester.

Admission Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.5
   
   AND
   
   Permanent or professional certification in:
   
   • School Administrator
   • School Building Leader
   • School Counselor
   • School Social Worker
   • School Psychologist
   
   OR

2. A bachelor's degree from an accredited institution with a GPA of at least 3.0 and provisional certification in one of the certification areas listed above.
3. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted in English and Spanish, French or Chinese.
4. A recommendation from a supervisor.
5. Submission of scores on the Graduate Record Examination, except applicants who are certified teacher or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*

Credits 3 cr

BILED 71700 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

*prereq: BILED 77100, CEDCF 70050*

*Hours 45 hrs, Credits 3 cr*

BILED 77900 - Multicultural Education
Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

**prereq or coreq:** BILED 70100  
*Hours includes 5 hrs of fieldwork*  
*Credits 3 cr*

**COCO 70700 - Multicultural Aspects of Counseling**

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

*Hours 45 hrs*  
*Credits 3*

**COCO 71800 - Practicum in Counseling**

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

*coreq: COCO 71900*  
*prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600*  
*Hours 100*

**Exit Requirements**

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

**Blind and Visually Impaired: NYS Teacher Certification - Advanced Certificate**

**Program Coordinator**

L. Beth Brady  
(212) 772-4229  
929 West  
lbrady@hunter.cuny.edu

This post-master's, advanced certificate program (Academic Plan: TBVI-AC) is designed to prepare NYS certified teachers to serve as teachers of the blind and visually impaired, including those with multiple disabilities, in educational programs from birth to grade 12. Graduates of this program will be eligible for NYS professional certification in Blind and Visually Impaired.
Admission Requirements

1. New York State teaching certification in any area.
2. Master's degree in education or a related services field (speech and language pathology, physical therapy, nursing) with a GPA of at least 3.5.
3. Completion of SPED 70000 (Issues and Practices in Educating Students with Disabilities) or the equivalent with a grade of B or better for all applicants without a master's degree in special education.
4. Evidence of acceptable writing skills.
5. Three letters of recommendation.
6. Evidence of work, volunteer, or personal experience with individuals with visual impairments.
7. An interview with a special education faculty member.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

TBVI-AC

Total Credits

22

**SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments**

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

*prereq or coreq: SPED 70000
Hours includes 10 hrs of field experience
Credits 3 cr*
SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000
Hours Includes 10 hrs of field experience
Credits 3

SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 15 hrs of field experience
Credits 3

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 10 hrs of field experience
Credits 3

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq: SPED 74300
Hours 45 hrs,
Credits 3 cr

SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments
Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

prereq or coreq: SPED 74000, 74100, 74200, 74300
Hours 15 hrs,
Credits 1 cr

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000, 74100
Hours includes 10 hrs of filed experience
Credits 3 cr

SPED 71451 - Topics in Special Education: ITI Practicum in Visual Impairment

Credits 1 cr

- And one of the following -

SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.
prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching.
Credits 2 cr

SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Students must receive a grade of B or better in student teaching or practicum courses.
3. Must maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Student Act (DASA) workshop.

Blind and Visually Impaired: Orientation and Mobility - Advanced Certificate

Program Coordinator

L. Beth Brady
(212) 772-4229
929 West
Program Advisor

Grace Ambrose
(212) 772-4741
1140 West
gambrose@hunter.cuny.edu

This post-master's, advanced certificate program (Academic Plan: ORMOB-AC) is designed to prepare rehabilitation teachers who have academy certification and/or NYS certification in Blind and Visually Impaired. Graduates of this program will be eligible to obtain national certification from the Academy for Certification of Vision Rehabilitation and Education Professionals (ACVREP) as orientation and mobility specialists. This program does not lead to NYS certification.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0, plus teacher of the blind and visually impaired teaching certificate.

   **OR**

   A master's degree from an accredited institution with a GPA of at least 3.5 in rehabilitation teaching or teacher of the blind and visually impaired with a GPA of at least 3.5.

2. Evidence of acceptable written languages skills.

3. Three letters of recommendation.

4. Evidence of work, volunteer or personal experience with individuals with visual impairments.

5. An interview with a special education faculty member.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

ORMOB-AC
Total Credits
20

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

*Hours 45 hrs
Credits 3

SPED 74900 - Orientation and Mobility for Students with Visual Impairments and Additional Disabilities

An advanced orientation and mobility course on specialized instructional strategies that address the special travel difficulties of learners (infants to older adults) who are blind or visually impaired with additional disabilities. Topics include deafness, deafblindness, multiple impairments, motoric, cognitive and affective impairments. This course also addresses instructional strategies for persons in unique living situations or environments.

*Hours includes 10 hrs field experience, 45 hrs,
Credits 3 cr

SPED 76500 - Intermediate Orientation and Mobility

Theories related to perception, learning and development of individuals who are blind or visually impaired, and /or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

*prereq or coreq: SPED 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr.

SPED 76600 - Advanced Orientation and Mobility

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

*prereq or coreq: SPED 76500, 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr

SPED 76700 - Orientation and Mobility: Internship/Seminar
Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

**SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar**

This course teaches assessment, evaluation and lesson plan/execution, the systems of mobility used by persons who are visually impaired, and indoor travel techniques used by persons with visual impairments navigating familiar and unfamiliar buildings. Fifteen day summer course.

**prereq or coreq: permission of adviser**

*Hours 3 hrs*

*Credits 3 cr.*

*Two week summer course.*

**SPED 76900 - Advanced Orientation and Mobility Lab and Seminar**

This course provides instruction in, lesson sequencing, pedagogical and andragogical methods for O&M instruction for persons who are blind or visually impaired. Through observation, and practice, this course develops competencies in teaching travel techniques used by persons with visual impairments.

**prereq: SPED 76800**

*Hours 3 hrs*

*Credits 3 cr.*

*Two week summer course.*

**Exit Requirements**

An overall GPA of 3.0

**Childhood Special Education: Additional NYS Certification - Advanced Certificate**

**CSPE-AC**

**Total Credits**

17

- Take either -

**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

Hours 45 hours; includes 5 hours of field experience

**Credits 3**

- Or* -
SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000
coreq: current employment as a teacher or enrollment in student teaching

Hours Includes 10 hrs of field experience, 45 hrs,
Credits 3 cr

And

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000

Hours 45 hours; includes 10 hrs of field experience
Credits 3

Or-

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000

Hours 45 hours; includes 15 hrs of field experience
Credits 3

Plus the following courses -

SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000
SPED 78100 - Reading for Students with Learning Disabilities Grades 1-6, Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq: SPED 70000 or 70050
Hours 3 hrs: includes 10 hrs of field experience
Credits 3 cr

SPED 78200 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100
prereq or coreq: SPED 70000
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Fall only (note: must take concurrently with SPED 78100 and must take SPED 78300/78400 in semester immediately following)

SPED 78300 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 78100/78200
coreq: SPED 78400
Hours 45
Credits 3
Spring only (note: must take concurrently with SPED 78400 and have taken SPED 78100/78200 in preceding semester)

SPED 78400 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing
process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use

prereq: SPED 781/ 782
coreq: SPED 783
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Spring only

*These choices are based upon previous courses taken. Note that all applicants will already have taken one required special education course as part of general education certification programs. Therefore a choice allows each candidate to customize a plan of study with new material and avoid taking a course that would be redundant.

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in classes based upon fieldwork/clinical teaching (SPED 78200 and SPED 78400).
3. Complete the Dignity for All Students Act (DASA) workshop.

SPEDE 76800 - Fostering Development in Young Children with Diverse Abilities: Historical, Political, and Inclusive Perspectives

This course explores the variability of development in infants and young children, and related developmental promotion approaches, through a lens of cultural, linguistic, and ability diversity. Functional developmental competencies and the range of developmental consequences within specific diagnoses will be examined, including the implications for supporting learning and development in classrooms, homes, and communities. The evolution of laws, regulations, and inclusive practices to current early intervention and early childhood special education recommended practices will be situated within this developmental framework.

prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only)
Hours Includes 5 hrs field experience,
Credits 3

SPEDE 76900 - Evaluation, Assessment, and Program Planning for Infants and Young Children with Special Needs

Developmentally appropriate and recommended practices for assessing the development and learning of young children from infancy through age 7 years (second grade) and identifying family strengths and supports. Application of tools, observations, and discussions with informed others to make decisions in screening, evaluation and program planning will be explored within a transdisciplinary team. Students must receive a grade of B or better.

prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only); and SPEDE 768
Hours Includes 15 hrs field experience,
Credits 3

SPEDE 77000 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula
Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods. Students must receive a grade of B or better.

prereq or coreq: SPEDE 768 and SPEDE 769; OR SPED 700 and SPED 790
Hours Includes 15 hrs field experience,
Credits 3

**SPEDE 77200 - Positive Behavior Support (PBS) and Its Application to Young Children with Special Needs**

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

prereq: SPEDE 768 OR SPED 700
Hours Includes 5 hrs of field experience
Credits 3 cr

**SPEDE 77400 - Adaptations for Individual Learners Across the K-2 Curriculum**

Methods for supporting children with disabilities and special education needs, grades K–2 access the general education curriculum; Data-based decisions within a response to intervention framework and individualized modifications and adaptations, instructional approaches and specific methodologies effective with young children are emphasized.

prereq: SPEDE 77000 and SPEDE 77200 (for all programs); and ECC 70400 or ECC 70900 (for Program 1 students only)
Hours 3 hrs: includes 5 hrs field experience
Credits 3 cr

**SPEDE 77600 - Introductory Field Experience in Early Childhood Special Education**

Preparatory experience in a program supporting young children with diverse abilities; emphasis on what it means to be an early intervention/early childhood special education professional; One field placement of 10 days in a Kindergarten or Grade 1 or 2 setting.

prereq: ECC 71200 (for Program 1 students only)
prereq or coreq: SPEDE 77000
Hours 2 hrs.
Credits 2 cr.

- Take either -

**SPEDE 77820 - Final Student Teaching in Early Childhood Special Education**

Second, full-semester, intensive supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.20 must have already taken either SPEDE 77810 or
SPEDE 77910 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

prereq: SPEDE 77400 and either SPEDE 77810 or SPEDE 77910
Hours 3 hrs. plus full semester of student teaching
Credits 3 cr.

- Or -

SPEDE 77920 - Final Practicum in Early Childhood Special Education

Second intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.20 must have already taken SPEDE 77810 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

prereq: SPEDE 77400 and SPEDE 77810
Hours 3 hrs. plus full semester of practicum experience in worksite
Credits 3 cr.

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in classes based upon field work (SPEDE 77600) and clinical teaching (SPEDE 77820 or SPEDE 77920).
3. Completion of the Dignity for All Students Act (DASA) workshop.

Early Childhood Education: Additional NYS Certification - Advanced Certificate

Program Coordinator

Christina Taharally
(212) 772-4679
1106 West
cboraharal@hunter.cuny.edu

This post-master's, advanced certificate program (ECB2-AC) provides teachers who already possess New York State teaching certification in Childhood Education Grades 1-6 the additional coursework required for an additional teaching certificate in Early Childhood Education Birth to Grade 2.

Admissions Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.5.
2. NYS certification in Childhood Education Grades 1-6 or Pre-K-6 education.
3. A personal statement.

Progress Standards
1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

17

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels
Credits 3

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

prereq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels  
Credits 3

**ECC 70500 - Language and Literacy: Birth through Kindergarten**

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

prereq or coreq: ECF 70000  
Hours 45 hrs  
Credits 3

**ECC 70700 - Language and Literacy: English Language Learners**

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400  
prereq or coreq: 70500 or 70600  
Hours 15 hrs  
Credits 1

**ECC 70800 - Children with Special Needs: Birth through Grade 2**

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300  
prereq or coreq: ECF 70200  
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels  
Credits 3

**ECC 71800 - Early Childhood Student Teaching**

This is a college supervised experience and is offered during the regular academic year and in the summer to facilitate the opportunity for practice at a different age/grade level than ECC 71700. This course has two key components: (1) a minimum of 30-days of student teaching in Pre-K, or grades 1-2 and; (2) biweekly seminar (15 hours).

prereq: ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200  
Hours Bi-weekly seminar (15 hrs)  
Credits 1

**Exit Requirements**

1. An overall GPA of 3.0.  
2. A grade of at least B in classes with clinical fieldwork hours (ECF 70000 and ECC 71800).  
3. Must maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

**Educational Leadership: School District Leader - Advanced Certificate**

**Program Coordinator**

Benjamin Shuldiner  
1129 West Building  
(212) 772-4627  
adsup@hunter.cuny.edu

This post-master’s, advanced certificate program (Academic Plan: SDL-AC) is designed to prepare NYS certified administrators with SBL or SAS certification for roles in administration and supervision at the school district level. Graduates of this program are eligible for NYS certification in School District Leader.

**Admissions Requirements**

1. A master's degree from an accredited institution with a GPA of at least 3.0.  
2. A minimum of 48 graduate credits completed prior to enrollment.  
3. Proof of NYS certification in School Building Leader or School Administrator/Supervisor.  
4. Two professional references.  
5. A personal statement.  
6. An on-site interview and writing sample may be requested by the program.

**Progress Standards**

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

ADSUP 72100 - Legal Issues, Finance, Facilities and Operations

A study of school legal issues finance and budgeting. Processes and cases from New York State, New York City, local school district and building level management of operations and facilities.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work
Credits 4

Fieldwork hours: minimum 25 hours

ADSUP 74100 - School District Leadership: Problems and Issues

System-wide administrators must combine the elements of vision, with instructional and administrative leadership in order to guide learning organizations. They must develop skills, strategies and knowledge of the leading educational issues they are facing to be able to create collaborative, safe, and successful educational environments capable of being successful.

Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work
Credits 4

Fieldwork hours: minimum 25 hours

ADSUP 75100 - District and School Based Field Experience Seminar in Administration and Supervision

Intensive applications of program knowledge, skills and dispositions in school and district field settings available to the student, and a 40 hour seminar that includes a two-hour unit on each of both child abuse prevention and violence prevention.

Hours 60 hrs plus 200 hrs of leadership experiences in field work stipulated in a contract
Credits 4

Fieldwork hours: minimum 200 hrs.

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in each of the three courses.
3. A valid and appropriate NYS certification.
4. Passing result on the New York State School District Leader assessment as required by NYSED.
5. Complete the Dignity for All Students Act (DASA) workshop.
Gifted Education Extension - Advanced Certificate

Program Coordinator

Elissa Brown
(212) 772-4618
919 West
eb177@hunter.cuny.edu

This advanced certificate program (Academic Plan: GIFTD-AC) is designed to provide educators with a solid background of expertise in gifted education, enabling them to work effectively with exceptionally capable learners, and to take leadership roles in the field. In addition to satisfying NYS certification requirements for 12 credits of coursework and field hours for the Gifted Extension certificate*, successful completion of this program will result in an advanced certificate degree in Gifted Education and an institutional recommendation for the Gifted Extension certificate.

*NYS certification in Gifted Extension requires a valid base NYS teacher certification and a passing score on the Gifted Content Specialty Test (CST).

Admission Requirements

1. NYS teacher certification and a minimum of 15 credits of graduate study (master's degree preferred) in education for a specific school population, with at least one course in human development (including child or adolescent development).
2. A GPA of at least 3.5 in graduate courses.
3. Two letters of recommendation from appropriate professional or academic sources.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

**SPED 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity**

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

*Cross-listed (Cross-listed with CEDF 75300.)*

*Hours 45 hrs includes 10 hrs field experience*

*Credits 3 cr*

**SPED 75400 - Differentiating Curriculum for Gifted and Talented Learners**

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the full time gifted school.

*Cross-listed (Cross-listed with CEDF 75400.)*

*Hours Includes 10 hrs field experience*

*Credits 3*

**SPED 75500 - Assessment and Instruction for Diversely Gifted Learners**

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

*Cross-listed (Cross-listed with CEDC 755.)*

*prereq or coreq: SPED 75300 and SPED 75400*

*Hours Includes 20 hrs field experience*

**SPED 75600 - Professional Discourse and Leadership in Gifted Education**

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

*Cross-listed ADSUP 75600, CEDC 75600, CEDF 75600*

*prereq or coreq: SPED 75300 and SPED 75400*

*Hours Includes 10 hrs field experience*

**Exit Requirements**

1. An overall GPA of 3.0.
2. No course grade below B.
3. Maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

Special Education: Severe and Multiple Disabilities Annotation Extension - Advanced Certificate

Program Coordinator
L. Beth Brady
929 West Building
(212) 772-4229
lbrady@hunter.cuny.edu

This post-master's, advanced certificate program (Academic Plan: SPEDSMD-AC) is designed to prepare NYS certified teachers to serve as teachers of students with severe and multiple disabilities, including those with deafblindness, in educational programs from birth to grade 12. Graduates of this program will be eligible for NYS annotation extension certification in Severe and Multiple Disabilities.

Admission Requirements

1. A master's degree in Special Education with a GPA of at least 3.5 in the degree that led to certification.
2. Initial, professional or permanent New York State certification in:
   - Early Childhood Special Education, Birth – Grade 2;
   - Students with Disabilities, Grades 1 – 6;
   - Students with Disabilities, Grades 7 - 12;
   - Blind and Visually Impaired;
   - Deaf and Hard of Hearing; or
   - Teacher of Students with Speech and Language Disabilities PreK-12.
3. A personal statement that will be reviewed by a member of the department.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan
SPEDSMD-AC

Total Credits
19

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr.

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000
Hours Includes 15 hrs of field experience
Credits 3

- Or -

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness
Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

**prereq or coreq:** SPED 70000 or SPEDE 76800  
**Hours** Includes 15 hrs of field experience  
**Credits** 3 cr

**SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities**

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

**prereq:** SPED 70000  
**Hours** includes 10 hrs of field experience, 30 hrs  
**Credits** 2 cr

**SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

**prereq or coreq:** SPED 70000 and SPED 79000 or SPED 74100  
**Hours (includes 10 hours of field experience),**  
**Credits** 3 cr

**- Or -

**SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

**prereq or coreq:** SPED 70000  
**Hours** 45 hrs,  
**Credits** 3 cr

**SPED 74600 - Educational Implications of Learners Who Are Deafblind**
Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100
Hours Includes 10 hrs of field experience
Credits 3

- Or -
Elective in Special Education approved by Advisor

SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,
Credits 2 cr

- Plus one of the courses below-

SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus 20 days of student teaching,
Credits 2 cr

SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3

Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.
prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hours seminar, plus conferences,
Credits 2 cr

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of at least B in classes based upon fieldwork/clinical teaching.
3. Completion of the Dignity for All Students Act (DASA) workshop.
4. A valid and appropriate NYS certification.

TESOL Pre-K-12: NYS Certification - Advanced Certificate

Program Coordinator

Tim Farnsworth
1013 West Building
(212) 650-3376
tfarnsw@hunter.cuny.edu

The TESOL post-masters, advanced certificate programs are designed to educate people who wish to teach students for whom English is a second or foreign language – either children or adolescents. The skill of teaching English to speakers of other languages is acquired through studying specialized methods and techniques that differ from those used by teachers of English to native speakers. This preparation is the focus of the programs in TESOL which also lead to certification in ESOL PreK-12.

Program 1 (Academic Plan: TESOL-AC) is for those with a master's or doctoral degree in TESOL, Linguistics or Applied Linguistics with no prior NYS certification.

Program 2 (Academic Plan: TESFESL-AC) is for those with a master's degree and prior NYS certification.

Admission Requirements

Program 1

For applicants who do not hold NYS certification
1. A master's degree or doctoral degree from an accredited institution in TESOL, Linguistics, or Applied Linguistics, including specific coursework (of at least 3 credits each) in TESOL Methodology, Introduction to Linguistics, Analysis and Structure of English, Theories of Second Language Acquisition, and Sociolinguistics or Pragmatics. Any applicant lacking up to 8 credits of these pre-requisite content courses or fieldwork hours may be accepted into the program on the condition that they complete these credits before they begin their Student Teaching or Practicum requirement in the program.

2. Undergraduate GPA of at least 3.0 from an accredited bachelor's degree program; or a graduate GPA of at least 3.5 from an accredited master's or doctoral degree program in TESOL, Applied Linguistics, or Linguistics.

3. A liberal arts or sciences major of at least 30 credits.

4. A general education core in liberal arts and sciences to include: 12 credits of foreign language documented on a transcript or equivalent credits as demonstrated through a standardized proficiency test like the College Level Examination Program (CLEP); 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography); 3 credits in the arts; and 12 credits in math, science and technology (a college course in calculus satisfies 6 credits of this requirement).

5. An on-site oral interview and an on-site writing sample may be required.

6. Two professional references.

7. A personal statement, explaining why the applicant is interested in obtaining PreK-12 certification in TESOL.

8. Submission of scores on the Graduate Record Examination, except applicants who are certified teacher or school administrators and hold a graduate degree.

Program 2

For students with prior NYS certification

1. A master's degree from an accredited institution with a GPA of at least 3.0.

2. College coursework in Linguistics and English Grammar.

3. A general education core in the liberal arts and sciences to include the following: 6 credits in English, 12 credits in a language other than English at the college level, 6 credits in social studies (with at least one course in U.S. history or U.S. geography), and 12 credits in ath/science/technology (a college course in calculus meets 6 credits of this requirement).

4. Two professional references.

5. A personal statement.

6. An on-site oral interview and an on-site writing sample may be required.

7. NYS initial certification in one of the following areas: early childhood, childhood, middle childhood, or adolescent education; special subjects; students with disabilities; or literacy.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Prerequisite Courses
For Program 1 students only

**LING 70200 - Analysis and Structure of English from a Pedagogical Perspective**

A comprehensive overview of the English Language for teachers of ESL, covering the sound system, systems of meaning making, orthographic and other representations, and the structures of English, with a specific focus on and application to teaching ESL. Required for students in Programs 1, 2, and 3.

*Hours includes 10 hrs fieldwork
Credits 4*

**EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy**

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

*prereq or coreq: LING 70200, EDESL 79600/79610
Credits 4
10 hours of field experience.*

**LING 77400 - Theory and Research in Second Language Acquisition and Learning**

A survey of current theory and research in second language acquisition with particular reference to the acquisition of English and applications of the classroom. Includes introduction to research methodology. Required of students in Program 1, 2, and 3.

*prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser
Credits 4
5 hours of field work.*

## Course of Study

### Academic Plans

- Program 1: TESOL-AC
- Program 2: TESFESL-AC

### Total Credits

**TESOL-AC: 15 - 27**
**TESFESL-AC: 18**

## Program 1

Program 1 (Academic Plan: TESOL-AC)

For students who do not hold NYS certification
BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

CEDF 71300 - Child and Adolescent Development

This course will provide a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and their potential impact on student behavior and learning in the classroom.

Hours 3 hrs
Credits 3 cr

EDESL 78300 - Methodology of Teaching English to Speakers of Other Languages

An overview of classroom options for teaching English to second language learners. The course covers options for classroom management and setting up learning environments. A 25-hour field experience is a part of this course.

Hours 45 hrs
Credits 3
Required for students in Program Two and Program Three (Adult Program).

EDESL 78700 - K-12 ESL Curriculum and Materials across the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: LING 70300, EDESL 78300 or permission of TESOL adviser
Hours 3 hrs
Credits 3 cr

EDESL 79200 - Second Language Literacy and Technology

This course provides an in-depth treatment of theory and practice in the teaching of all of the literacy skills: reading and writing, along with the development of oral language and listening, to K-12 English language learners in the public schools. Interactions between first, second, and other language literacy, and technological literacy are explored and exploited toward successful language teaching and learning. Includes 15 hours of field experience.

prereq: LING 70300; LING 77300; EDESL 78300
Hours 3 hrs
Credits 3 cr
Required of students in both Pre- K–12 Programs One and Two; elective for students in the Adult Program.

EDESL 79100 - Language Assessment in TESOL
An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing.

prereq: LING 70100 or BILED 77100
prereq or coreq: EDESL 70500 or permission of TESOL adviser

Hours 45 hrs,
Credits 3 cr

Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308*
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

**EDESL 75200 - Supervised Teaching 1**

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 1 focuses on the development of core lesson planning, teaching, and assessment skills in ESL instruction. Required of all pre-K-12 program students.

prereq: Completion of 24 credits or permission of TESOL adviser

Hours 3 hrs
Credits 3 cr

**EDESL 75300 - Supervised Teaching 2**

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 2 focuses on the professional duties of the ESL educator beyond teaching and incorporates an advocacy-based classroom based inquiry project. Required of all MA K-12 program students.

prereq: EDESL 75200

Hours 3 hrs
Credits 3 cr

**Program 2**

Program 2 (Academic Plan: TESFESL-AC)

For students with who hold NYS certification
BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*
*Credits 3 cr*

**EDESL 78300 - Methodology of Teaching English to Speakers of Other Languages**

An overview of classroom options for teaching English to second language learners. The course covers options for classroom management and setting up learning environments. A 25-hour field experience is a part of this course.

*Hours 45 hrs*
*Credits 3*
*Required for students in Program Two and Program Three (Adult Program).*

**EDESL 78700 - K-12 ESL Curriculum and Materials across the Content Areas**

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

*prereq: LING 70300, EDESL 78300 or permission of TESOL adviser*
*Hours 3 hrs*
*Credits 3 cr*

**EDESL 79100 - Language Assessment in TESOL**

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing.

*prereq: LING 70100 or BILED 77100*
*prereq or coreq: EDESL 70500 or permission of TESOL adviser*
*Hours 45 hrs,*
*Credits 3 cr*
*Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.*

**EDESL 79200 - Second Language Literacy and Technology**

This course provides an in-depth treatment of theory and practice in the teaching of all of the literacy skills: reading and writing, along with the development of oral language and listening, to K-12 English language learners in the public schools. Interactions between first, second, and other language literacy, and technological literacy are explored and exploited toward successful language teaching and learning. Includes 15 hours of field experience.

*prereq: LING 70300; LING 77300; EDESL 78300*
*Hours 3 hrs*
*Credits 3 cr*
*Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.*
EDESL 75300 - Supervised Teaching 2

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 2 focuses on the professional duties of the ESL educator beyond teaching and incorporates an advocacy-based classroom based inquiry project. Required of all MA K-12 program students.

prereq: EDESL 75200
Hours 3 hrs
Credits 3 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. A passing score on the comprehensive examination or e-portfolio requirement.
4. A grade of at least a B in fieldwork/clinical teaching classes.
5. Complete the Dignity for All Students Act (DASA) workshop.

Master of Arts - MA / Advanced Certificate

Adolescent Biology - MA / Advanced Certificate

Education Adviser

Jeanne Weiler  
(212) 650-3459  
1115 West  
jweiler@hunter.cuny.edu

Biology Department Adviser (master's degree only)

Patricia Rockwell  
(212) 650-3234  
821 North  
rockwell@genectr.hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach Biology in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Biology 7-12.

The master's program (Academic Plan: BIOAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: BIOAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree
1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A minimum of 21 credits in biology to include a year of introductory biology with laboratory and a semester of organic chemistry (lecture only).
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Two professional references.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Advanced Certificate

1. An undergraduate major of at least 30 credits in biology and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution. Coursework at either the undergraduate or graduate level must include a course in introductory biology with laboratory and a semester of organic chemistry.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. 
   Note: It is recommended that students with two or more INs take an official leave of absence
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which
may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plans

- Master's Degree: BIOAE-MA
- Advanced Certificate: BIOAE-AC

Total Credits

- BIOAE-MA: 41-44
- BIOAE-AC: 26-27

Education Courses

For Advanced Certificate and Master's Degree Programs

26-27 credits

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,*

*Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,*

*Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.
prereq: SEDF 70400  
Hours 30 hrs, plus 36 hrs fieldwork,  
Credits 2 cr

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500  
coreq: One of the following must be a Co-req:

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04;  
SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC  
772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED  
741.2; SEDC 723; SEDC 772; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC  
754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC  
772.13; SEDC 772.23  
Hours 30 hrs, plus lab,  
Credits 2 cr

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,  
Credits 3 cr

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400  
Hours 45 hrs,  
Credits 3 cr

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,  
Credits 1 cr
**SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71300*
*prereq or coreq: SEDF 70500*
*Hours 30 hrs fieldwork*
*Credits 2*

**SEDC 74100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

*Cross-listed SEDC 34100*
*coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500*
*Hours 15 hours of seminar; 48 hours of fieldwork*
*Credits 1*

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308*
*prereq: 12 credits of coursework*
*Hours 45*
*Credits 3*

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Take Either -

**SEDC 75401 - Student Teaching in Biology, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*
*prereq or coreq: SEDF 70600*
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5
- Or -

SEDC 77411 - Practicum in Biology, Grades 7–9

Hunter College-supervised practicum for teachers of biology in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77411 must also take SEDC 77421.

**prereq:** SEDC 72400
**prereq or coreq:** SEDF 70600
**Hours 45 hours plus conferences,**
**Credits 3**
- Plus -

SEDC 77421 - Practicum in Biology, Grades 10-12

Hunter College-supervised practicum for teachers of biology in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

**prereq:** SEDC 72400
**Hours 30 hrs plus conferences,**
**Credits 2 cr**
Students who take SEDC 77421 must also take SEDC 77411.

Biology Courses

For Master's Degree Program Only

15-17 credits

**BIOL 61055 - Laboratory Workshop in Biology Education**

A series of laboratory-intensive experimental projects, each lasting one week or more, which introduce current research techniques and include individual participation in planning, preparation, and analysis of experiments. The focus is on broad biotechnology topics such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics, and how these topics may be applied to the high school science classroom.

**prereq:** a graduate course in biology or permission of instructor
**Hours 120 hrs,**
**Credits 3 cr**

**BIOL 63000 - Science and Society**

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.
prereq: BIOL 61055 or permission of instructor

- American Museum of Natural History CUNY credit course: Genetics, Genomics or Evolution

Category A:

For students who have completed molecular biology and molecular genetics at the undergraduate level. Choose one:

**BIOL 70005 - Genetics**

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

Hours 60 lec,

Credits 4 cr

fall only

**BIOL 71013 - Molecular Biology Lecture**

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

Hours 75 hrs,

Credits 5 cr

fall only

**BIOL 71401 - Cell Biology**

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry

Hours 60 hrs,

Credits 4 cr

spring only

**BIOL 75003 - Developmental Biology**

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,

Credits 4 cr

Spring only
Category B:

For students who have not taken either molecular biology or molecular genetics at the undergraduate level. Students must take both courses below:

**BIOL 60000 - Molecular Biology for Science Teachers**

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes, and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism.

*prereq: An undergraduate degree in Biology and a course in Organic Chemistry and permission of instructor. Fall only*

**BIOL 60210 - Molecular Genetics for Science Teachers**

A comparison of viral, procaryotic, and eucaryotic systems; review of classical Mendelian principles and mechanisms; bacterial DNA replication, transcription, and their control; mechanisms of gene mutation, repair, recombination, and transposition; applications of recombinant DNA technology; organization of nucleic acid into chromosomes; control of gene expression in procaryotes, in the eucaryotic cell cycle, and in cell development.

*prereq: BIOL 60000 or equivalent and permission of instructor Spring only*

**Exit Requirements**

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

**Adolescent Chemistry - MA / Advanced Certificate**

**Education Adviser**

Jeanne Weiler  
(212) 650-3459  
1115 West  
jweiler@hunter.cuny.edu

**Chemistry Department Adviser (Master's Degree only)**

Gabriela Smeureanu  
(212) 650-3913  
1320 North  
gsmeurea@hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach Chemistry in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Chemistry 7-12.
The master’s program (Academic Plan: CHEAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: CHEAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A minimum of 29 credits in science and mathematics to include two years of chemistry (one year general chemistry with laboratory and one year organic chemistry with laboratory), one year of introductory physics with laboratory, and one semester of calculus.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Two professional references.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Advanced Certificate

1. An undergraduate major of at least 30 credits in chemistry and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution. Coursework at either the undergraduate or graduate level must include a course in introductory chemistry with laboratory, one year of introductory physics with laboratory, and one semester of calculus.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.  
   Note: It is recommended that students with two or more INs take an official leave of absence
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.

2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plans

- Master's Degree: CHEAE-MA
- Advanced Certificate: CHEAE-AC

Total Credits

- CHEAE-MA: 41-44
- CHEAE-AC: 26-27

Education Courses

For Advanced Certificate and Master's Degree Programs

26-27 credits

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,
Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12
The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,*
*Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400*
*Hours 30 hrs, plus 36 hrs fieldwork,*
*Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500*
*coreq: One of the following must be a Co-req:*

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23
*Hours 30 hrs, plus lab,*
*Credits 2 cr*

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,*
*Credits 3 cr*

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.
prereq or coreq: SEDF 70400

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 45 hrs, Credits 3 cr*

**SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2*

**SEDC 74100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

*Cross-listed SEDC 34100
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500
Hours 15 hours of seminar; 48 hours of fieldwork
Credits 1*

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit
course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Take either -

**SEDC 75402 - Student Teaching in Chemistry, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5*

- Or -

**SEDC 77412 - Practicum in Chemistry, Grades 7–9**

Supervised practicum for teachers of chemistry in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77412 must also take SEDC 77422.

*prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3*

- Plus -

**SEDC 77422 - Practicum in Chemistry, Grades 10–12**

Supervised practicum for teachers of chemistry in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

*prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr
Students who take SEDC 77422 must also take SEDC 77412.*

**Chemistry Courses**

*For Master's Degree Program Only*

Minimum of 15 credits

**CHEM 65500 - Demonstrations, Models, and Technology**
Demonstrations, models, and technology.

Credits 3 cr

CHEM 66000 - Challenging Concepts in Chemistry

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

Hours 4 hrs,
Credits 4 cr

- Two electives chosen from 600- or 700-level courses in chemistry or biochemistry at least 5 cr.

For students who have not taken physical chemistry, one of the electives must be:

CHEM 65000 - Biophysical Chemistry

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent
Hours 4 hrs.
Credits 4 cr
Fall

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Earth Science - MA / Advanced Certificate

Education Adviser

Jeanne Weiler
(212) 650-3459
1115 West
jweiler@hunter.cuny.edu

Geography Department General Advising

Ines Miyares
(212) 772-5443
1005 North
geog@geo.hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach Earth Science in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Earth Science 7-12.
The master's program (Academic Plan: ESCAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: ESCAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A major of at least 30 credits in the liberal arts or sciences.
3. At least 21 credits in geology, physical geography, earth science, or environmental science, including geographic techniques.
4. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
5. Two professional references.
6. A personal statement.
7. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Advanced Certificate

1. An undergraduate major of at least 30 credits in earth science and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution. Coursework at either the undergraduate or graduate level must include a course in introductory earth science with laboratory, one of introductory physics with laboratory, and one semester of calculus.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.

2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Hours 15 hours of seminar; 48 hours of fieldwork
Credits 1

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit
course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Take either -

**SEDC 75404 - Student Teaching in Earth Science, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*

*prereq or coreq: SEDF 70600*

*Hours 45; 60 days student teaching plus workshops and conferences, Credits 5*

- Or -

**SEDC 77414 - Practicum in Earth Science, Grades 7–9**

Hunter College-supervised practicum for teachers of earth science in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77414 must also take SEDC 77424.

*prereq: SEDC 72400*

*Hours 45 hours plus conferences, Credits 3*

- Plus -

**SEDC 77424 - Practicum in Earth Science, Grades 10–12**

Hunter College-supervised practicum for teachers of earth science in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77424 must also take SEDC 77414.

*prereq: SEDC 72400*

*Hours 30 hrs plus conferences, Credits 2 cr*

**Earth Science Courses**

**For Master's Degree Program Only**

Minimum of 16 credits

**PGEOG 70563 - Earth Science Today**

A survey of the primary topics included in an earth science curriculum (grades 7-12). Laboratory methodology and demonstration techniques used to convey information about the earth's lithosphere, hydrosphere and atmosphere, as
well as its place in the solar system, will be introduced.

Hours 45 hrs including conference,
Credits 3 cr
Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

GTECH 71000 - Concepts and Theories in Geoinformatics

Theoretical and conceptual foundations of Geoinformatics and Geographic Information Science.

coreq: GTECH 70900
Hours 60 hrs including conference (2 lectures, 2 labs),
Credits 3
fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

PGEOG 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

Hours 45 hrs including conference,
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in the earth sciences. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA-TEP degree.

Hours 45 hrs, including conferences,
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

- One elective chosen from 600- or 700-level courses with a PGEOG or GTECH prefix, 3 or 4 crs.
Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent English - MA / Advanced Certificate

Education Adviser

Jason Wirtz
(212) 772-4728
927 West
jwirtz@hunter.cuny.edu

English Department Adviser (Master's Degree only)

Janet Neary
1204 HW
(212) 772-4039
jneary@hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach English in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in English Language Arts 7-12.

The master's program (Academic Plan: ENGAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: ENGAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A minimum of 21 credits of advanced courses in British, American or World Literature written in English (no more than 3 credits of the latter).
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Students must submit a writing sample of about 10 pages (preferably an undergraduate research paper of literary criticism).
5. Two references (preferably including at least one academic reference).
6. A personal statement.
7. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.
Advanced Certificate

1. An undergraduate major of at least 30 credits in English, and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. 
   Note: It is recommended that students with two or more INs take an official leave of absence
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plans
• Master's Degree: ENGA-MA
• Advanced Certificate: ENGA-AC

**Total Credits**

• ENGA-MA: 50-51
• ENGA-AC: 26-27

**Education Courses**

For Advanced Certificate and Master's Degree Programs

26-27 credits

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,*  
*Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,*  
*Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400*  
*Hours 30 hrs, plus 36 hrs fieldwork,*  
*Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500*  
*coreq: One of the following must be a Co-req:*
SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72100 - Advanced Study of Teaching English Methods to a Diverse Population in Grades 7–12

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. These presentations will be videotaped for further self-analysis at home. New York State and city teaching standards will be applied throughout the course.

prereq: SEDC 71100
prereq or coreq: SEDF 70500
**SEDC 74100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework

**SEDC 75100 - Student Teaching in English, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72100
prereq or coreq: SEDF 70600

**SEDC 77110 - Practicum in English, Grades 7–9**

Supervised practicum for teachers of English in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77110 must also take SEDC 77120.
prereq: SEDC 72100
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

**SEDC 77120 - Practicum in English, Grades 10–12**

Supervised practicum for teachers of English in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take **SEDC 77120** must also take SEDC 77110.

prereq: SEDC 72100
Hours 30 hrs plus conferences,
Credits 2 cr

**English Courses**

For Master's Degree Program Only

Minimum of 24 credits

- **Literature** Eighteen credits in literature courses given by the English department, including 3 credits in Shakespeare, 3 credits in literature with a multicultural/minority emphasis, 3 credits in American literature.

**ENGL 60700 - English Linguistics**

Structure of Modern English, with emphasis on analytical method and pedagogical implications. Survey of phonology, morphology, syntax, and dialectal variation.

*Hours 3
Credits 3*

**ENGL 61500 - Rhetoric and Composition**

Rhetorical theory; analysis of selected masterpieces of prose; practice in writing a variety of prose forms.

*Hours 3
Credits 3*

**Exit Requirements**

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a comprehensive examination in their subject area administered by the department within the Arts and Sciences.
4. Complete the Dignity for All Students Act (DASA) workshop.
Adolescent French - MA / Advanced Certificate

Romance Languages Department Adviser (Master's Degree only)

Marlene Barsoum
(212) 772-3511
1320 West
mbarsoum@hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach French in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in French 7-12.

The master's program (Academic Plan: FRENÆ-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: FREAÆ-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8 and a major in French with a grade point average of 3.0, with a minimum of 18 credits in French and Francophone literature above the intermediate level.

-or-

2. Applicants who do not have a French major but have a liberal arts and science major (or interdisciplinary liberal arts or science concentration) of at least 30 credits may take a French literature exam designed and administered by the Department of Romance Languages. Candidates must achieve a passing score on the department's test of French literature, which will be graded by the department.

-PLUS (for all applicants)-

3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.

4. Two professional references to be included with the application for matriculation.

5. An essay to be completed as part of the application for matriculation.

7. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Advanced Certificate
1. An undergraduate major of at least 30 credits in French, and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.

   *Note: It is recommended that students with two or more INs take an official leave of absence*

5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.

2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plans

- Master's Degree: ITALAE-MA
- Advanced Certificate: ITAAE-AC

Total Credits

- ITALAE-MA: 47-48
- ITAAE-AC: 26-27

Education Courses

For Advanced Certificate and Master's Degree Programs

26-27 credits

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs, Credits 3 cr*
SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,*

*Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400*

*Hours 30 hrs, plus 36 hrs fieldwork,*

*Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500*

*coreq: One of the following must be a Co-req:*

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23

*Hours 30 hrs, plus lab,*

*Credits 2 cr*

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,*

*Credits 3 cr*

**SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12**

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards.
for learning in grades 7–12.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

**SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71200
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

**SEDC 74100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500
Hours 15 hours of seminar; 48 hours of fieldwork
Credits 1

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Take either -

**SEDC 75202 - Student Teaching in Italian, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5*

- Or -

**SEDC 77212 - Practicum in Italian, Grades 7–9**

Supervised practicum for teachers of Italian in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77212 must also take SEDC 77222.

*prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences
Credits 3*

- Plus -

**SEDC 77222 - Practicum in Italian, Grades 10–12**

Supervised practicum for teachers of Italian in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77222 must also take SEDC 77212.

*prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr*

**Italian Courses**

*For Master's Degree Program Only*

21 Credits
Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a comprehensive examination in their subject area administered by the department within the Arts and Sciences.
4. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Latin - MA / Advanced Certificate

Education Adviser

Jeanne Weiler  
(212) 650-3459  
1115 West  
jweiler@hunter.cuny.edu

Classical and Oriental Studies Department Adviser

David Petrain  
(212) 772-4958  
1435 West  
dp713@hunter.cuny.edu

This program is offered with the Classical and Oriental Studies Department and is designed to serve individuals who do not have certification in the teaching of Latin. The applicant must be admitted by both the School of Education and the Classical and Oriental Studies Department.

The master's and advanced certificate programs prepare candidates to teach Latin in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Latin 7-12.

The master's program (Academic Plan: LATINAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: LATAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. An index of at least 3.0 in an undergraduate major or the equivalent in Latin or classics. Students must have 30 credits of coursework in Latin.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Two professional references.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Advanced Certificate**

1. Minimum of 30 credits in Latin at the undergraduate and/or graduate level, and a master's degree in Classics, Latin, or Ancient Greek with a GPA of at least 3.3 from an accredited institution.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Progress Standards**

**A. 12-Credit Progress Standards for Matriculated Students**

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. *Note: It is recommended that students with two or more INs take an official leave of absence*
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

**B. Fieldwork Benchmarks**

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Hours 2 hrs plus conferences,
Credits 2 cr

Latin Courses

For Master's Degree Program Only

24 credits

- Latin 18 credits -

LAT 72700 - Speaking and Writing Latin

Development of aural/oral and written skills, including traditional Latin Composition, history of the language, and analysis of Latin grammar and syntax.

LAT 71000 - Topics in Latin literature.

May be taken three times for credit.

- A. At least 3 credits from the following courses -

LAT 71100 - Literature of the Republic

Selection from poetry and prose authors of the Latin language and the development of literary forms and styles.

LAT 71200 - Literature of the Augustan Age

Selections from poetry and prose authors of the Augustan period.

LAT 71300 - Literature of the Empire

Selections from poetry and prose authors of the Imperial period.

- B. At least 3 credits from the following courses -

LAT 70500 - Caesar

Selections from the Commentaries on the Civil War and Commentaries on the Gallic War.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.
LAT 70600 - Cicero

Selections from the orations, philosophical treatises, and letters of Cicero.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 70700 - Vergil

Selections from the Aeneid, Eclogues, and Georgics.

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

LAT 72500 - Ovid

Selections from the *Metamorphoses* and *Amores*.

LAT 72600 - Horace and Catullus

Selections.

- 6 additional credits from the courses in section A and/or B or LAT 708 or LAT 710 (LAT 708 and LAT 710 may each be taken up to 3 times total).

CLA 70100 - The Legacy of Ancient Greece

A survey of Greek culture and civilization from the second millennium BCE to the rise of Alexander.

*Hours 45 hrs, including conferences, Credits 3 cr*

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70200 - The Legacy of Ancient Rome

A survey of the culture and civilization of Rome from the founding of the city to the reign of Marcus Aurelius.

*Hours 45 hrs, including conferences, Credits 3 cr*

See the School of Education section of this catalog for information about required grades in student teaching and practicum courses.

CLA 70700 - A Survey of Classical Literature in Translation

CLA 70600 - Supervised Reading
Independent reading on a particular aspect of ancient Greek or Roman culture, supervised by a faculty member.

Prior approval of graduate adviser required. May be taken twice for credit.

Culminating Experiences

Comprehensive examination in Latin and Classical Culture: Classics Division

Professional teaching portfolio: School of Education

See Exit Criteria

Note(s)

Students who enter with initial or provisional certification in adolescent education in a language other than English will be required to take LATED 712, LATED 713, and either LATED 731 or two of the other student teaching/practicum courses that cover grades 7–9 and 10–12 (9–11 credits). Based on a transcript review by the School of Education, such students may be required to complete additional courses in the pedagogical sequence as well. The minimum number of credits for the degree for students who enter with certification in adolescent education is 39 credits. Students may be exempted from up to 6 credits based on prior equivalent course work.

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a comprehensive examination in their subject area administered by the department within the Arts and Sciences.
4. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Mathematics - MA / Advanced Certificate

Program Coordinator

Patrick Burke
927 East
(212) 396-6043
pburke@hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach Mathematics in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Mathematics 7-12.

The master's program (Academic Plan: MATAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: MATAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements
Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. 24 or more credits in mathematics approved by the graduate mathematics adviser, including a course in elementary statistics, a year of calculus and a course in matrix algebra or linear algebra. Applicants may be admitted on the condition that they complete up to 12 credits of additional course work in mathematics. A transcript review will determine which additional credits, if any, are needed.
3. A grade point average of at least 2.7 in mathematics courses.
4. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Advanced Certificate

1. An undergraduate major of at least 30 credits in mathematics and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution. Coursework at either the undergraduate or graduate level must include a course in elementary statistics, a year of calculus and a course in matrix algebra or linear algebra.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. 
   Note: It is recommended that students with two or more INs take an official leave of absence.
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.
B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.

2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Credits 2 cr

SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500
coreq: One of the following must be a Co-req:
SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23
Hours 30 hrs, plus lab,
Credits 2 cr

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

**SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science**

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

*prereq or coreq: SEDF 70400*

*Hours 45 hrs,  
Credits 3 cr*

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,  
Credits 1 cr*

**SEDC 72300 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7–12**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71300  
prereq or coreq: SEDF 70500  
Hours 30 hrs fieldwork,  
Credits 2*

**SEDC 74100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

*Cross-listed SEDC 34100  
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500  
Hours 15 hours of seminar; 48 hours of fieldwork  
Credits 1*
- Take Either -

**SEDC 75300 - Student Teaching in Mathematics, Grades 7–12**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72300*

*prereq or coreq: SEDF 70600*

*Hours 45; 60 days student teaching plus workshops and conferences, Credits 5*

- Or -

**SEDC 77310 - Practicum in Mathematics, Grades 7–9**

Supervised practicum for teachers of mathematics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77310 must also take SEDC 77320.

*prereq: SEDC 72300*

*prereq or coreq: SEDF 70600*

*Hours 45 hrs plus conferences, Credits 3*

- Plus -

**SEDC 77320 - Practicum in Mathematics, Grades 10-12**

Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 773.20 must also take SEDC 77310.

*prereq: SEDC 723*

*Hours 30 hrs plus conferences, Credits 2 cr*

**Mathematics and Statistics Courses**

**Master’s Degree Program Only**

15-17 credits

**MATH 62000 - Secondary School Mathematics from an Advanced Perspective I**

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.
prereq: Calculus II and a course in linear or matrix algebra
Hours 3 hrs
Credits 3 cr
Open only to Teacher Education Program students.

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 3 hrs.
Credits 3 cr.
Open only to Teacher Education Program students.

MATH 63300 - Axiomatic Geometry

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry. This is a theoretical mathematics course. The material is presented in its historical context.

prereq: departmental permission
Hours 3
Credits 3

MATH 63500 - Problem Solving Explorations in Mathematics

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics. This course is for current and prospective teachers.

prereq: none
Hours 3
Credits 3

- Plus -

STAT 61200 - Discrete Probability

Combinatorics, discrete probability, random variables, probability models and an introduction to game theory. A study of discrete probability with particular attention paid to the integration of these topics into the school curriculum. This course is for current and prospective teachers.

prereq: a statistics course on or above the level of STAT 11300
Hours 3
Credits 3

- Or -

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric
statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.
Hours 3 hrs.
Credits 3 cr.

Note:
1. Students who present certain courses and prior experience may be able to substitute another course or seminar(s) with approval of graduate mathematics adviser.
2. Although students are required to take EITHER STAT 612 or STAT 714, students are encouraged to take both courses.

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a comprehensive examination in their subject area administered by the department within the Arts and Sciences.
4. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Physics - MA / Advanced Certificate

Education Adviser

Jeanne Weiler
(212) 650-3459
1115 West
jweiler@hunter.cuny.edu

Physics and Astronomy Department Adviser (Master's Degree Only)

Hyungsik Lim
(212) 650-3518
1214 North
hl10036@hunter.cuny.edu

The master's and advanced certificate programs prepare candidates to teach Physics in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Physics 7-12.

The master's program (Academic Plan: PHYAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: PHYAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A major in physics.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Two professional references.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Advanced Certificate**

1. An undergraduate major of at least 30 credits in physics and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Progress Standards**

**A. 12-Credit Progress Standards for Matriculated Students**

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. *Note: It is recommended that students with two or more INs take an official leave of absence*
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

**B. Fieldwork Benchmarks**

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plans

- Master's Degree: PHYAE-MA
- Advanced Certificate: PHYAE-AC

Total Credits

- PHYAE-MA: 42-43
- PHYAE-AC: 26-27

Education Courses

For Advanced Certificate and Master's Degree Programs

26-27 credits

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*
SED 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 70500
coreq: One of the following must be a Co-req:

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23
Hours 30 hrs, plus lab,
Credits 2 cr

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr
SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71300
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500
Hours 15 hours of seminar; 48 hours of fieldwork
Credits 1

- Take either -

SEDC 75403 - Student Teaching in Physics, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5

- Or -
SEDC 77413 - Practicum in Physics, Grades 7–9

Hunter College-supervised practicum for teachers of physics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77413 must also take SEDC 77423.

*prereq: SEDC 72400
*prereq or coreq: SEDF 70600
*Hours 45 hours plus conferences,
*Credits 3

- Plus -

SEDC 77423 - Practicum in Physics, Grades 10–12

Hunter College-supervised practicum for teachers of physics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77423 must also take SEDC 77413.

*prereq: SEDC 72400
*Hours 30 hrs plus conferences,
*Credits 2 cr

Physics Courses

For Master's Degree Program Only

16 Credits

PHYS 63000 - Science and Society

Study of the interactions between technological and societal changes, with an emphasis on directing productive critiques and debates over potentially controversial technological change within the classroom. Focusing on present-day issues, students will learn various models of analyzing the impact of scientific change on society and how social change directs science.

*prereq: one graduate-level physics course or permission of instructor
*Hours 45
*Credits 3

PHYS 66000 - Challenging Concepts in Physics: Using Research to Identify Student Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in physics. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the comprehensive examination for the science portion of the MA degree.

*prereq: PHYS 63000 and two elective courses in physics or permission of instructor
Hours 60  
Credits 4  

- Plus three electives 9 credits from below -  

**PHYS 60500 - Mathematical Physics**  
Introduction to basic mathematical techniques used in physics.  

*Hours 45*  
*Credits 3*  

**PHYS 61500 - Electromagnetic Theory**  
Electrostatics; electromagnetics; Maxwell's equations with application to waves; waves in guides; radiation.  

*Hours 45*  
*Credits 3*  

**PHYS 62500 - Introduction to Quantum Mechanics**  
Fundamental ideas in the study of atomic sized systems.  

*Hours 45*  
*Credits 3*  

**PHYS 64500 - Solid State Physics**  
Introduction to basic theory and techniques in study of matter on solid state.  

*Hours 45*  
*Credits 3*  

**PHYS 68500 - Numerical Methods I**  
Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations.  

*Cross-listed (Cross-listed with MATH 68500.)*  
*prereq: MATH 15500*  
*Hours 45*  
*Credits 3*  

*Note: 700-level physics courses offered at the Graduate Center can be substituted for 600-level courses with permission of the graduate adviser.*  

**Exit Requirements**  

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Social Studies - MA / Advanced Certificate

The master's and advanced certificate programs prepare candidates to teach Social Studies in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Social Studies 7-12.

The master's program (Academic Plan: SOCSTAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: SSTAE-AC) is a post-master's program for applicants with no prior NYS certificate.

Admission Requirements

Master's Degree

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A major of at least 30 credits in one of the areas of social studies (history, political science, geography, or economics) with a GPA of 3.0, including at least 12 credits in history, 3 credits in geography, 3 credits in political science, and 3 credits in economics. The course work in history must include at least one course in each of the following areas: U.S. history, European history, and world or non-Western history.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Two professional references.
5. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Advanced Certificate

1. An undergraduate major of at least 30 credits in one of the areas of social studies, and a master's degree in the discipline (history, political science, geography, or economics) with a GPA of at least 3.3 from an accredited institution. Coursework at either the undergraduate or graduate level must include 21 credits of history, 3
credits in geography, 3 credits in political science and 3 credits in economics. The coursework in history must include at least one course in each of the following areas: U.S. history, European history, and world or non-Western history.

2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.

3. Two professional references.

4. A personal statement.

5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.

2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.

3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. 
   
   *Note: It is recommended that students with two or more INs take an official leave of absence*

5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.

2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Credits 3
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 71500 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Social Studies, Grades 7–12

Rationales and methodologies for teaching social studies based on current theories of the nature of students, the social sciences and secondary schooling.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72500 - Methods II: Intensive Study of Teaching Diverse Learners in Social Studies, Grades 7–12
Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71500
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500
Hours 15 hours of seminar; 48 hours of fieldwork
Credits 1

- Take either -

SEDC 75500 - Student Teaching in Social Studies, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72500
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences
Credits 5

- Or -

SEDC 77510 - Practicum in Social Studies, Grades 7–9

Supervised practicum for teachers of social studies in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77520.

prereq: SEDC 72500
prereq or coreq: SEDF 70600
- Plus -

**SEDC 77520 - Practicum in Social Studies, Grades 10–12**

Supervised practicum for teachers of social studies in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77510.

*prereq: SEDC 72500*

**History And Geography Courses**

15 credits in history including 3 credits in each of the following areas: U.S. history, European history, world or non-Western history. Students who have completed 6 credits in any one of these areas at the undergraduate level will have fulfilled this requirement for that particular area, but will still have to complete at least 15 credits in graduate history courses. Within the 15 credits required in history, at least 3 credits should focus on gender in history and 3 credits should focus on an analysis of diversity in the U.S.

Plus one course (3 credits) as approved by advisor from the Department of Geography.

**Exit Requirements**

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a comprehensive examination in their subject area administered by the department within the Arts and Sciences.
4. Complete the Dignity for All Students Act (DASA) workshop.

**Adolescent Spanish - MA / Advanced Certificate**

**Education Adviser**

**Jenny Castillo**

(212) 772-4614

905 West

jmcastil@hunter.cuny.edu

**Romance Languages Department Advisers, Spanish (Master's Degree only)**

**Maria Hernandez-Ojeda**

(212) 772-4696
The master's and advanced certificate programs prepare candidates to teach Spanish in grades 7-12 to students of diverse backgrounds, abilities and interests. These programs are not designed for individuals who already have NYS certification in Spanish 7-12.

The master's program (Academic Plan: SPANAE-MA) is for applicants with no prior NYS certificate. The advanced certificate program (Academic Plan: SPAAE-AC) is a post-master's program for applicants with no prior NYS certificate.

**Admission Requirements**

**Master's Degree**

1. A bachelor's degree from an accredited institution acceptable to Hunter College with an overall cumulative grade point average (GPA) of 2.8 or better, and a major in Spanish with a grade point average of 3.0, with a minimum of 18 credits in Spanish literature above the intermediate level; and oral proficiency at the advanced low level of the American Council on the Teaching of Foreign Language (ACTFL) Oral Proficiency Interview (OPI).

Or

Applicants who do not have a Spanish major but have a liberal arts and science major (or interdisciplinary liberal arts or science concentration) of at least 30 credits can take two exams to meet the Spanish coursework requirement and writing component: the Oral Proficiency Interview (OPI) administered by the American Council on the Teaching of Foreign Language (ACTFL), and a rigorous Spanish literature written exam administered by the Department of Romance Languages. Candidates must achieve a minimum score of advanced low on the ACTFL OPI exam to meet the admission requirement, and must achieve a passing score in the Department's written test of Spanish literature.

*Plus (for all applicants)*

2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression. Two professional references.

3. A personal statement.

4. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Advanced Certificate**

1. An undergraduate major of at least 30 credits in Spanish, and a master's degree in the content area with a GPA of at least 3.3 from an accredited institution.

2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Two professional references.
4. A personal statement.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. Note: It is recommended that students with two or more INs take an official leave of absence.
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plans

- Master's Degree: SPANAE-MA
- Advanced Certificate: SPAAE-AC

Total Credits

- SPANAE-MA: 44-45
- SPAAE-AC: 26-27
Education Courses

For Advanced Certificate and Master's Degree Programs

26-27 credits

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq: One of the following must be a Co-req:

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23
SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing
for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 71200
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

SEDC 74100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

Cross-listed SEDC 34100
coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500
Hours 15 hours of seminar; 48 hours of fieldwork
Credits 1

- Take Either -

SEDC 75203 - Student Teaching in Spanish, Grades 7–12

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences,
Credits 5

- Or -

SEDC 77213 - Practicum in Spanish, Grades 7–9

Supervised practicum for teachers of Spanish in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77213 must also take SEDC 77223.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

- Plus -
SEDC 77223 - Practicum in Spanish, Grades 10-12

Supervised practicum for teachers of Spanish in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77223 must also take SEDC 77213.

prereq: SEDC 72200

Hours 30 hrs plus conferences,
Credits 2 cr

Spanish Courses

For Master's Degree Program Only

18 Credits

- 3 credits in Structures of Modern Spanish (SPAN 60100).
- 6 credits in Spanish Peninsular Literature.
- 6 credits in Latin American Literature.
- 3 credits in either Spanish or Latin American Literature.

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Master's degree students must pass a final examination based on a short reading list (40 titles: 20 in Spanish literature, 20 in Latin American literature). This exam will be different from the one offered to MA students in Spanish, although it may be administered on the same day: Romance Languages department.
4. Complete the Dignity for All Students Act (DASA) workshop.

Doctor of Education - Ed.D.

Instructional Leadership - EdD

Program Coordinators/Advisors

Marshall George
(212) 772-4659
1023 West Building
mg2003@hunter.cuny.edu

The Doctor of Education (Ed.D.) degree in Instructional Leadership prepares experienced educators to become effective practitioner leaders able to translate current research into policy and practice. The program prepares teacher leaders, department chairs, administrators and other education professionals to transform K-12 education, driving better educational experiences and outcomes across larger systems. The program provides clinically-focused doctoral training and a deep grounding in the research on educational practice, particularly as it applies to urban settings and suburban settings with increasingly diverse student populations. Students develop the ability to synthesize and apply
new research to improve educational experiences and outcomes for students, and the skills to communicate their insights effectively as leaders in schools and communities.

**Program Highlights**

- Designed to meet the needs of working educators with a part-time cohort model and practice-focused curriculum over five years.
- Focused on interpreting and translating current research into clinical practice.
- Leverages the strength and expertise of faculty with a wide range of research and practitioner areas who are engaged with current scholarship and practice.
- Provides opportunities to expand both the breadth of knowledge across the field and depth of knowledge in a particular area of interest.
- Institutionally committed to serving the needs of public education with an urban focus.

Program web site

**Admission Requirements**

1. A master's degree from an accredited institution in the field of education or related to your work in education with a GPA of at least 3.5.
2. A minimum of two letters of recommendation is required.
3. A personal statement.
4. Graduate Record Examination (GRE). 
5. Prospective students whose native language is not English and who have completed all or part of their post-secondary education in a country where English is not the native language need to take the TOEFL.
6. A resume.
7. An on-site interview and writing activity may be required as part of the interview process.

**Progress Standards**

1. Students must maintain a minimum 3.5 GPA throughout the program. At the end of each semester, when grades have posted, the program director will meet with the Assistant Director of Graduate Student Affairs in the Office of Academic and Student Affairs to review the GPA of all students in the program and to identify any who have fallen below a 3.5. These students will be placed on academic probation. Once they are notified of probation, they will be required to meet with their advisor to develop an academic plan for improving their GPA. At the end of the semester that they are on probation and grades have posted, the program director will review the student's GPA. If the GPA is above a 3.5, the student will be taken off of academic probation. If it is still below a 3.5, the program coordinator and advisor will determine if the student has made adequate progress towards improving their GPA. If it is determined that the GPA is improving, the student will be placed on academic probation again and allowed to continue in the program. If adequate progress has not been made, the student will be dismissed from the program. Students cannot remain on academic probation for more than three consecutive semesters without being dismissed from the program.
2. At the completion of all coursework except for dissertation seminar, students must pass a comprehensive examination. (The comp exam may be completed concurrently with final 3 credits of coursework.) The Comprehensive Examination serves two overarching purposes: (a) to assess doctoral students' content knowledge in the various areas of program coursework and (b) their readiness to move into the dissertation phase of the doctoral program. The comprehensive examination will consist of three tasks. While the extent of the relationship among these three tasks will be up to individual committees, the tasks must be used to assess the following:
   - Student's understanding of a major issue/problem of practice or curriculum in education (this links to the REPAC courses).
- Student's understanding of research and research methodologies (this links to the research toolkit courses).
- Student's understanding of a specific area of study (this may link to special topics course and/or to an intended dissertation topic)

3. Students will have to successfully present and defend a dissertation proposal to their dissertation mentor and readers (minimum of two) before collecting and analyzing data.

Course of Study

Academic Plan:

INSTLD-EDD

Total Credits

60

SPED 80000 - Introduction to Doctoral Studies: Theory and Research in Curriculum and Teaching

This course provides a brief overview of theory and research in curriculum and teaching. Students will consider how their own positionality influences ways in which they read and interpret educational research. Conversely, students will also understand how a researcher's positionality influences all aspects of their research, including: questions asked; theoretical framework adopted; methodologies chosen; data collection; analysis and interpretation of data; results or findings; and implications. Students will also engage in studying selected influences of curriculum history, particularly post 1945-present. These influences include: The Cold War, Civil Rights Movement, The War on Poverty, No Child Left Behind, and the Standards Movement. This course will serve as a beginning to cultivating student interests in developing their own research studies by weaving together theory, research, practice, and policy within education.

Hours 3 hrs
Credits 3 cr

EDF 80400 - Analysis of Major Issues in Contemporary Education Reform

After a brief review of the history of education reform efforts, we will study the major debates and policy initiatives that have shaped the contemporary structures of American public education. We will seek to understand what is at stake in these initiatives, the evidence behind their adoption and resistance to them.

Hours 3 hrs
Credits 3 cr

EDF 80000 - Statistics for Applied Educational Research I

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, statistical assumptions, t-tests, analysis of variance, correlation, and chi-squared.

prereq: SPED 80000
Hours 3 hrs
Credits 3 cr
EDF 80100 - Qualitative Methods in Educational Research

This graduate course introduces students to qualitative research within the field of education. The course provides an overview of the different approaches to qualitative research and specific strategies of data collection and analysis, their underlying assumptions and appropriateness for particular research questions, and authentic experience with qualitative research.

prereq: SPED 80000
Hours 3 hrs
Credits 3 cr

EDF 80200 - Quantitative Methods and Measurement

The purpose of this course is to increase students' understanding of quantitative research methods and design issues relevant to the pursuit of research in education, with a focus on correlational, experimental and quasi-experimental design.

prereq: EDF 80000
Credits 3 cr

EDUC 80100 - Research on Curriculum and Teaching of English Language Learners

The focus of this course is on effective curriculum and instruction supporting the academic, social, and emotional development of ELLs. Topics and assignments provide a direct connection of research to programming, and policy for ELLs in P-12 school contexts. Analysis of research on ELL education, including review of quantitative and qualitative studies of instruction and curriculum for ELLs will provide the foundation for the course content. This course will prepare doctoral students to critically evaluate educational research on ELLs, deeply understand the core components of quality instruction for ELLs in P-12 classrooms, and be able to clearly identify appropriate methods for addressing and improving instruction and curriculum for ELLs. Topics and assignments are designed to provide theory that directly connects to the design of instructional models of and curricula for ELL instruction.

Hours 3 hrs
Credits 3 cr

EDUC 80600 - Effective Professional Development of Teachers

In-depth study of research and practice in professional development for educators. Students will explore the literature about effective methods, contexts, and delivery of coaching, mentoring, and professional learning for teachers and other educators. Focus on understanding the strengths and weaknesses of different approaches to professional development, and on learning how to assess the appropriateness of a professional development strategy with respect to content and the teacher population to be served.

Hours 3 hrs
Credits 3 cr

SPED 80100 - Research on Effective Practice and Curriculum for Students with Disabilities

This course provides the opportunity to consider disability in the context of schools and society—with view to engaging with, and critiquing, existing research in the fields of special education and disability studies in education
(DSE). We will be mindful of how the disposition and paradigm of researchers influences all aspects of their work including: problems identified; questions asked; methods used; analysis employed; findings or results; interpretations, and: implications. This course focuses on the nature of evidence-based practice involving students with disabilities within specific contexts. The course is designed to provide a foundation for the course work, independent scholarship, and educational research that students will undertake in the process of completing the doctoral degree.

Hours 3 hrs.
Credits 3 cr.

**SPED 80200 - Enhancing Achievement through Family & Community Relationships**

This course examines the role of school, family and community in educational policy and practice. Students will read and critique a variety of theoretical frameworks about the intersection of home, school, and community; analyze current research on the impact of family and community engagement on student learning and school improvement; explore policies at local, state, and federal level.

Hours 3.0
Credits 3.0

**EDUC 80700 - Professional Communications for Educational Settings**

This course explores a range of educational and school-based writing genres and writing for a variety of audiences. Resources and practices related to developing and writing within a variety of genres from traditional print publications to new media outlets will be introduced, explored and, most importantly, enacted.

Hours 3 hrs
Credits 3 cr

**EDUC 80500 - Research on Effective Practice and Curriculum (REPAC) in Literacy**

This course examines current research in literacy curriculum and its implementation. A host of theoretical approaches to the teaching of literacy and language development will be addressed and critiqued. Particular attention will be paid to research on literacy instruction and interventions that serve the needs of diverse students in urban schools.

prereq: SPED 80000 Intro to Doc Seminar
Hours 3.0
Credits 3.0

**EDUC 80300 - Research on Effective Practice and Curriculum in Math**

The course will examine the current research on effective mathematical teaching, assessment practices, student learning, and curriculum design. Students will synthesize research and engage in research explorations focused on problems of practice.

Hours 3 hrs
Credits 3 cr

**EDF 83000 - Dissertation Proposal Seminar**
This course is a seminar designed to provide students with a general overview of the structure and components of a dissertation proposal. It serves as common ground for all cohort members to prepare for highly individualized work with a dissertation advisor in subsequent semesters. Throughout this course, students will focus upon the following components: (1) the background of the problem to be investigated; (2) formulating a research question(s); (3) developing a theoretical framework; (4) conducting a literature review; (5) choosing research methods to collect data; (6) analyzing findings; and (7) generating implications. These elements will be taught in relation to a "traditional" five-chapter dissertation, along with variations and expansions of this structure. In addition, students will review and become certified in appropriate IRB requirements. A major goal of this seminar is to individualize support with view to preparing each student to develop a topic for approval that will continue to be worked upon with a dissertation advisor during the following semester.

**EDF 83100 - Dissertation Advisement I**

Dissertation Advisement I is a customized course of study taken immediately after Dissertation Seminar. The purpose of this course is to provide individualized support to doctoral students as they continue to engage with components of their dissertation to develop a robust proposal. The dissertation proposal must minimally consist of the first three chapters that include the following components:

- the background of the problem to be investigated;
- research question(s);
- a theoretical framework, where appropriate;
- a literature review;
- selected research methods to collect data;
- tentative description of intended analysis. In addition, it should be sufficient to be the basis of creating an IRB research proposal.

Note: This course is cross listed with SPED 83100

**EDUC 80800 - Action Research**
The purpose of this course is to explore various aspects of a movement in education and educational research in which educators (e.g., P-12 teachers, school administrators, etc.) actively participate in making change in their practice through conducting systematic inquiry and research. The course will provide a broad overview of the epistemological, political, and methodological issues associated with the idea of practitioner research.

*prereq or coreq: EDS 80300 Qualitative Research Methods
Hours 3 hrs
Credits 3 cr

**EDUC 80900 - Case Studies in Education: Institutions, Schools, Programs, Classrooms, and Individuals.**

This course examines case study as a research design in educational contexts. The unit of study can include institutions, schools, programs, and individuals. A variety of topics will be explored, including becoming familiar with types of case studies, conceptuizing case study research, creating research questions, generating data, use of analytic methods, and application of case study findings to leadership and practice. In addition, the course will feature related, sometimes overlapping, methodological approaches such as portraiture and narratives. The course engages students in substantial study and critique of current and "classic" cases in educational research based on candidates' fields of interest. Particular attention will be paid to ethical considerations in conducting case study research in urban schools and communities.

*Hours 3 hrs
Credits 3 cr

**EDPS 74200 - Special Topics in Educational Research Methods**

This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

*prereq: EDPS 70100, EDPS 70200, EDPS 70300
Hours 60
Credits 4

And Any of the following:

**ECC 80100 - Research and Practice in Early Childhood Education**

Overview of the historical and social influences on early childhood research and practice. Candidates will gain a comprehensive understanding of the significant policy, programmatic and pedagogical factors affecting the formal, symbolic and societal curricula, within and across early childhood education and care settings.

*Hours 3 hrs
Credits 3 cr

**EDF 81000 - Mind, Brain, and Education**

This course provides students with knowledge from the neuro and cognitive sciences that can be applied in practice. This course begins with an introduction to mapping the physical features of the brain before leading into contemporary
research on "brain-based" research and educational curricula and programs. Students will engage in examining research and separate "nureomyth" from "neuroscience" in order to be informed by new knowledge from the science of learning.

Hours 3 hrs  
Credits 3 cr

EDUC 80400 - Research on Effective Practice and Curriculum in Arts and Humanities

This course examines current research in Arts and Humanities curriculum and its implementation. It addresses a host of theoretical and policy-oriented approaches to the teaching and learning of the arts and humanities. Particular attention will be paid to research on arts and humanities instruction and interventions that serve the needs of diverse students in urban schools.

Hours 3 hrs  
Credits 3 cr

Exit Standards

1. An overall GPA of at least 3.5.
2. Completion of Dissertation approved by the Dissertation Committee and an oral defense is the final requirement before the degree is conferred.

Master of Arts - MA

Adolescent Chinese - MA

Education Adviser

Jeanne Weiler  
(212) 650-3459  
1115 West  
jweiler@hunter.cuny.edu

Chinese Program Adviser

Bo Hao  
(212) 396-6724  
1429 West  
bhao@hunter.cuny.edu

The master's degree program (Academic Plan: CHINA-M) prepares candidates to teach Chinese in grades 7-12 to students of diverse backgrounds, abilities and interests. This program is not designed for individuals who already have NYS certification in Chinese 7-12.

Admission Requirements
1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 and a major in Chinese with a GPA of at least 3.0, including a minimum of 18 credits in Chinese literature above the intermediate level and oral proficiency at the advanced low level of the American Council on the Teaching of Foreign Language (ACTFL) Oral Proficiency Interview (OPI);

OR

Applicants who do not have a Chinese major but have a liberal arts and science major (or interdisciplinary liberal arts or science concentration) of at least 30 credits can take two exams to meet the Chinese coursework requirement: the Oral Proficiency Interview (OPI) and the Written Proficiency Test (WPT) administered by American Council on the Teaching of Foreign Language (ACTFL). Candidates must achieve a minimum score of advanced-low on each to meet the admission requirement and must achieve a passing score on the on-site written test in Chinese/English about Chinese literature.

PLUS (for ALL applicants)

2. A general education core in the liberal arts and science to include the following: 6 credits in English, 6 credits in social studies (to include at least one course in U.S. history or U.S. geography), 3 credits in the arts, and 12 credits in math/science/technology (a college course in calculus meets 6 credits of this requirement).
3. Two professional references.
4. A personal statement.
5. An interview conducted in Chinese/English with program adviser.
6. An on-site English writing sample.
7. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. 
   "Note: It is recommended that students with two or more INs take an official leave of absence"
5. Advanced certificate students only: are required to take the Content Specialty Test (CST) of the New York State Teacher Certification Examinations and submit their scores to the School of Education before completing 12 credits of course work. Students who do not receive a passing score on the CST may be required to enroll in additional subject specific courses.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which
may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for student teaching or practicum course.

Course of Study

Academic Plan

CHINAE-MA

Total Credits

37-38

Education Courses

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,
Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

SEDF 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr
SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

**prereq:** SEDF 70500
**coreq:** One of the following must be a Co-req:

- SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23

Hours 30 hrs, plus lab,
Credits 2 cr

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

**Cross-listed SPED 308**
**prereq:** 12 credits of coursework

Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

CHND 71200 - Methods 1: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Chinese, Grades 7-12
The course covers options for classroom management, learning environment appropriate to 7-12 classrooms, and assessment. Attention is given to classroom management task, setting up and exploiting various learning environments, and methods for assessment. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes homework assignment and projects.

Prereq or coreq: SEDF 70400 or permission of the adviser
Credits 3

CHND 71300 - Methods 2: Intensive Study of Teaching Diverse Learners in Chinese, Grades 7-12

This course aims to familiarize prospective school teachers, grades 7-12 with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curricula in Chinese. Innovative uses of technology, development of instructional units, individualization for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course. Thirty-six hours of field experience/observation is a part of this course. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes development of lesson plans, homework assignment, and projects for classroom use.

Prereq or coreq: CHND 71200 and SEDF 70500 or permission of the adviser
Hours 30 hrs plus 36 hrs fieldwork
Credits 2

- Take either -

CHND 73100 - Student Teaching in Chinese, Grades 7-12

Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticism. These presentations will be videotaped for further self-analysis at home.

Prereq or coreq: CHND 71300 or permission of the adviser.
Hours 60 days, 30 hrs seminar plus workshops and conferences,
Credits 5

- Or -

CHND 74110 - Practicum in Chinese, Grades 7-9

Supervised practicum for teachers of Chinese in grades 7-9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74110 must also take CHND 74120.

Prereq or coreq: CHND 71200 or permission of the adviser.
Hours 30 hrs plus conferences
Credits 2

- Plus -
CHND 74120 - Practicum in Chinese, Grades 10-12

Supervised practicum for teachers of Chinese in grades 10-12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74120 must also take CHND 74110.

prereq or coreq: CHND 71200 or permission of the adviser.
Hours 30 hrs plus conferences,
Credits 2

Chinese Courses

CHIN 70100 - Chinese Phonology and Romanization

This course will introduce Chinese phonetics, phonology, and the major sound transcription systems commonly used in teaching Chinese as a foreign language and found in Chinese dictionaries. Emphasis will be on acquiring accurate tones and standard pronunciation for English-speaking learners as well as learners who speak a Chinese dialect at home.

Hours 3
Credits 3

CHIN 70300 - Chinese Orthography and Lexicology

This course will give an overview of the development of Chinese orthography and Chinese lexicology. Differences between the spoken and written styles will be discussed. The relationship of formation methods of the Chinese lexicon to syntactic functions and the process of character-based meaning derivation will be emphasized.

Hours 3
Credits 3

CHIN 70200 - Modern Chinese Pedagogical Grammar

This course will introduce the grammatical system of modern Mandarin Chinese, including the characteristics of grammatical morphemes, word order, and sentence and discourse structures. The content will highlight difficulties for native speakers of English and helping them to overcome these difficulties effectively. The course will discuss pedagogical issues concerning grammar instruction such as how it differs from syntax; what grammar points need to be taught at each level; and the methods of teaching grammar.

Hours 3
Credits 3

- Advanced Language and Culture Training (may choose 1 or more) -

CHIN 70500 - Topics in Advanced Conversation
This course will give students advanced language training in speaking in a wide range of topics as well as specialized vocabulary needed to discuss Chinese instruction in Chinese. Students will further practice speaking skills to achieve advanced-mid or advanced-high oral proficiency according to the ACTFL (American Council for Teachers of Foreign Languages) scale. Authentic materials will be used throughout the course.

Hours 3  
Credits 3

**CHIN 70600 - Topics in Advanced Writing**

This course will give students advanced language training in writing Chinese in everyday life situations as well as a Chinese language teaching professional with writing samples. Students will further practice writing skills to achieve advanced-low proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3  
Credits 3

**CHIN 70700 - Topics in Advanced Reading**

This course will give students advanced language training in reading Chinese. Students will further practice reading skills to achieve advanced-mid or advanced-high proficiency according to the ACTFL scale. Authentic writing tasks and materials will be used throughout the course.

Hours 3  
Credits 3

**CHIN 70800 - Topics in Chinese Culture and Society**

This course will give students advanced language training in topics related to Chinese culture and society. Students will learn topics concerning Chinese culture and society in traditional and contemporary China. Authentic writing tasks and materials will be used throughout the course.

Hours 3  
Credits 3

**CHIN 70900 - Independent Study**

Students will carry out an independent project approved by their faculty advisor and chairperson and supervised by a staff member.

Credits 1-3

**Notes:**
1. Students who enter with initial or professional certification in adolescent education in another area will not be required to take any SEDC or SEDF courses. They will be required to take all CHIN and CHND courses in the program.
2. The minimum number of credits for the degree for students who enter with certification in adolescent education is 24 credits. Please see your administrative advisor to clarify the degree requirements for the adolescent Chinese education program.
3. Students without certification may be exempted from up to 6 credits based on prior equivalent coursework.

Exit Requirements

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

Adolescent Mathematics Professional Certificate- MA

Program Coordinator

Patrick Burke
(212) 772-4728
1138 West
patrick.burke@hunter.cuny.edu

This master's degree program provides advanced coursework in methods of teaching mathematics to those who already have NYS initial certification in Mathematics 7-12, or teachers who hold professional or permanent certification seeking to further their knowledge/skills, and gain additional graduate credits.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0
2. New York State Certification in Mathematics Grades 7-12.
3. Students must have at least 24 undergraduate credits in mathematics with a B average, including courses in Calculus and Linear Algebra.
4. Students with a master's degree in mathematics or mathematics education must have a GPA of at least 3.0 in their graduate courses, with a B average in mathematics courses.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Course of Study

Total Credits
30

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

Hours 45 hrs.
Credits 3
SEDC 73000 - Development of Mathematical Thinking: Implications For Teaching and Learning Mathematics in Grades 7 to 12

A course exploring the role of the teacher in developing mathematical reasoning ability in students. What are the possibilities and limitations? A research-based approach to the problem of providing a solid mathematics education for all students.

SEDC 73100 - Seminar in Mathematics Curriculum, Grades 7-12

A study of the current Standards-Based Mathematics Curriculum from an historical perspective.

SEDC 73200 - Research Seminar in Mathematics Education, Grades 7-12

A course in which students will study the research relevant to the mathematics curriculum and complete a research project in a field of mathematics education of their choice.

MATH 62000 - Secondary School Mathematics from an Advanced Perspective I

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

prereq: Calculus II and a course in linear or matrix algebra
Hours 3 hrs
Credits 3 cr
Open only to Teacher Education Program students.

MATH 62300 - Theory of Numbers

Congruences, quadratic residues, elementary diophantine analysis, continued fractions, sums of squares.

prereq: a course in linear algebra
Hours 3 hrs
Credits 3 cr

MATH 63000 - Secondary School Mathematics from an Advanced Perspective II

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 3 hrs.
Credits 3 cr.
Open only to Teacher Education Program students.

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.
prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.

Hours 3 hrs.
Credits 3 cr.

- Electives (Choose 2): Any MATH or STAT 600 or 700 Level Course (6 cr)

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

Dance Pre-K - 12 - MA

Program Coordinator

Kathleen Isaac
(212) 396-6635
TH 614
kathleen.isaac@hunter.cuny.edu

This graduate program (Academic Plan: DANCED-MA) prepares candidates to teach Dance PreK - Grade 12 to students of diverse backgrounds, abilities and interests. The curriculum is enriched by repertory classes with New York City-based choreographers, international performance opportunities and internships at various venues.

This program offers three tracks (or subplans):

- TRACK 1 (Subplan: DANEDLNYS) is for those with at least 34 credits in Dance but who do not have NYS certification in Dance.
- TRACK 2 (Subplan: DANEDANYSM) is for those with initial NYS certification in Dance.
- TRACK 3 (Subplan: DANEDANYSC) is for those with at least 34 credits in Dance and have initial NYS certification in a subject area other than Dance.

Admission Requirements

Applicants must be admitted by both the School of Education and the Dance Department.

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A minimum of 34 credits in dance with a GPA of at least 3.0 in dance.
3. Track 1 Only: General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
   Track 2 Only: NYS certification in Dance Education.
   Track 3 Only: NYS certification in a subject area other than Dance Education.
4. Applicants also need to submit a DVD or link to up to three clips of their creative work - between 5 and 15 minutes in total and a curriculum vitae.
5. A 3 credit course in special education that focuses on supporting students with disabilities in the general education classroom. Students without this course may be admitted conditionally and must take SPED 70800 in addition to other degree requirements.
6. Two professional references.
7. A personal statement.
8. An audition and interview.
9. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

A. 12-Credit Progress Standards for Matriculated Students

1. Students must maintain an overall GPA of 3.0.
2. Students with more than one course grade below B in the first 12 credits of SEDC or SEDF course work will not be allowed to continue in the program.
3. Students who receive a grade of F in any course, including arts and sciences courses, in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

Note: It is recommended that students with two or more INs take an official leave of absence.

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

Course of Study

Academic Plan

DANCED-MA

Subplans

- Track 1: DANEDLNYSC
- Track 2: DANEDANYSM
- Track 3: DANEDANYSC

Total Credits

Track 1: 49
Track 2: 30
Track 3: 30

Courses for All Tracks

DAN 70100 - Physical Training

The ongoing, rigorous training in a dance/movement style pertinent to the individual student's artistic and pedagogical goals. Exploration of unfamiliar movement disciplines will be required. This course is designed to allow each student to articulate and execute a regular training regimen that will build and refine her/his skills as practitioner of an artistic movement discipline. A variety of individual training plans are overseen by faculty. Regular group meetings examine how underlying aesthetic and kinesiological assumptions embodied by the training inform students' approaches to
teaching artistry, improvisation, and choreography.

prereq: Admission to a graduate dance program
Hours 3
Credits 2
Can be taken more than once for credit, required 3 times for MA, 2 times for BA/MA.

DAN 70500 - Maintenance of the Dancer's Instrument

An in-depth survey of a wide variety of somatic approaches to and interventions in dance training including ideokinetic and bodywork techniques, postural and motional training methods, and alternative movement disciplines. The course includes analytical, observational and participatory experiences, and will build on individual needs and interests of the students. Application of somatic knowledge to teaching movement and dance is stressed.

prereq or coreq: DAN 35000 or equivalent course and/or related professional background
Hours 3
Credits 3

DAN 73000 - Studies of Forms

This course develops choreographic proficiency through practical experience with, and observation of, artistic form and content across a range of disciplines. Short- and long-term experiments are presented in class and in occasional showings open to the public. The role of self-review, as well as external feedback during creative processes, is considered by utilizing a variety of protocols for response.

prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department
Hours 3
Credits 3
This course is repeatable once for credit.

DAN 73500 - Performance and Presentation

The development and public presentation of original choreography in performance at Hunter College or another suitable public venue. Regularly scheduled showings will offer opportunities to reflect on the work, receive feedback, and dialogue with faculty during the process of conception and execution.

prereq: Acceptance into one of the graduate dance programs: BA/MA, MA
Hours 3
Credits 1
This course is repeatable once for credit.

DAN 74000 - Aesthetics

A seminar examining a variety of global artistic practices and value systems from both aesthetic and cultural perspectives. The course focuses on a broad range of dance and examines how choreographers, dancers, designers, critics, audience members, teachers, producers and scholars function and interrelate. Students examine a variety of analytical paradigms--including structuralism, semiotics and literary theory--through the study of the major writers and thinkers in the field. A culminating study is typically a close analysis of the student's personal creative work.

prereq: Admission to one of the graduate dance programs
DAN 74200 - Graduate Dance History

This course deepens the student's understanding of key points in concert and global vernacular dance in the 20th century. How those points have reflected social, cultural, and political forces, and impacted 21st century dance, is examined throughout the course. A major research paper is the culminating project. Both practice and theory are engaged through readings of historic texts and public reviews, film/video viewings, attendance at live performances, and group discussions.

prereq: Admission to one of the graduate dance programs AND DAN 23200 or comparable undergraduate dance history course or equivalent experience.

DAN 74600 - Special Topics in Dance

A seminar/laboratory course focusing on a varying series of topics, selected according to student interests, current faculty research, and available guest artists and master teachers. Topics can include a wide variety of historical, aesthetic, cultural, technological and political issues. The course encourages advanced study in specialized areas of particular student interest. Possible topics include: dance in the digital age, specific cultural forms, dance in community settings, motor learning from multiple perspectives, etc.

prereq: Admission to one of the graduate dance programs

DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning

An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct "action research" in order to identify conditions that support or hinder productive teaching and learning. This first phase of the "methods" course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).

prereq or coreq: 6 credits in education and 12 credits in dance

DANED 76200 - Dance Methods II: Advanced Curriculum Design and Pedagogy for Productive Teaching and Learning

Advanced investigation of contexts for productive teaching and learning. Students will engage in intensive examinations of pedagogical theories and practices, conduct "action research" in order to identify conditions that
support or hinder productive teaching and learning, develop unit plans, and participate in peer-to-peer inquiry groups to develop their own artistry in teaching.

prereq: DANED 76000  
Credits 3

Additional Courses for Track 1

DANED 76605 - Student Teaching

Teacher candidates complete a total of 60 days of student teaching (30 days of student teaching at grades pre-K-5 and 30 days at grades 6-12) under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty 4 times during their student teaching experience. All student teachers are required to participate in a seminar class meeting 1 hour per week for 15 weeks. A culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000, DANED 76000, 76200  
Hours 60 days plus 15 hrs seminar  
Credits 5

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,  
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,  
Credits 1 cr

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

Hours 45 hrs,  
Credits 3 cr

SEDF 70400 - Adolescent Development, Grades 7–12
The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

 prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
Credits 2 cr

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

 prereq: SEDF 70500
coreq: One of the following must be a Co-req:

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23
Hours 30 hrs, plus lab,
Credits 2 cr

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
 prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

**Additional Course for Track 2**

**DANED 76400 - Practicum**
Students with initial state certification in dance complete a semester of Practicum in their current full-time dance teaching situation or in assigned schools under the supervision of a Hunter College faculty member. Practicum teachers will assume all responsibility for classroom instruction and management and will be observed by Hunter faculty 4 times during the course of the semester. All Practicum students are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

prereq: DANED 76000, DANED 76200
Hours 2 hrs plus 15 hrs seminar required
Credits 2

Additional Course for Track 3

DANED 76602 - Student Teaching

Teacher candidates complete a total of 20 days of student teaching under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty twice during the course of their student teaching experience. All student teachers are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000; DANED 76000, DANED 76200
Hours 20 days plus 15 hrs seminar
Credits 2

Exit Requirements

1. An overall GPA of 3.0.
2. Successful completion of an online Dance Education Professional Teaching Portfolio (PTP).
3. Participation in a final performance event as a performer, choreographer, or technical production crew member.
4. Completion of the DASA workshop.
5. Tracks 2 and 3 must have valid and appropriate NYS certification.

Educational Psychology - MA

Program Coordinator

Peggy Pei-I Chen
(212) 772-4754
1123 West
ppchen@hunter.cuny.edu

This program (Academic Plan: EDPSYCH-MA) provides a foundation of research, measurement, assessment, program evaluation and applied statistics for educational settings and related fields through two concentrations of study:

1. General Educational Psychology; and
2. Assessment, Research and Evaluation.

It is designed for students with no prior experience in education as well as those who have a background in education and want to expand their skills and knowledge. Students in this program may use the degree as a bridge to a doctoral
program in Educational Psychology or a related discipline; or to prepare professional careers in program evaluation; institutional research; assessment-measurement and testing; and instruction an curriculum development in public and private institutions.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 2.8. Students who do not meet the minimum GPA requirement may submit scores on the general aptitude test of the Graduate Record Examination (GRE) to serve as evidence of their ability to complete graduate-level work.
2. On-site interview.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

EDPSYCH-MA

Total Credits

32

Core Courses
   - All students are required to take 3 core courses and a proseminar -

EDPS 70000 - Educational Psychology Proseminar

This proseminar consists of workshops, discussions and presentations on topics orienting students to the field of educational psychology and introducing them to the research interests of faculty members.

Credits : none

EDPS 70100 - Statistics and Statistical Computing in Education I

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, t-tests, analysis of variance, correlation, regression, and the use of computer packages for these analyses.

Hours 60
Credits 4

EDPS 70200 - Educational Research Methods

This course is to increase students' understanding of the nature, purposes, needs, and types of research conducted by educational researchers and psychologists. Students will learn a range of research designs and methods, and their applications to education-related settings and issues.

Hours 60
Credits 4

EDPS 70300 - Learning and Behavior Theories

This course provides students with an overview of the study of human learning and behavior. A major goal of this course is to provide students with the knowledge and skills necessary to enable them to appropriately apply theories of learning in instructional settings.

Hours 60
Credits 4

Concentration Area Courses
- Select 8 credits in their concentration area -

Concentration I: General Educational Psychology

EDPS 71100 - EDPS Metacognitive and Cognitive Processes in Education

This course provides students with an overview of major research on metacognitive and cognitive processes in learning and instruction. Focuses will be on major theories and research as well as metacognitive and cognitive processes and strategy applications in the areas of mathematical learning, text comprehension, science, and writing.

prereq: EDPS 70200
coreq: EDPS 70300
Hours 60
Credits 4

EDPS 71200 - Multicultural Issues in Learning and Instruction

This course will examine the current research in K-12 education to explore the role of multicultural issues in teaching and learning.

prereq or coreq: EDPS 70200
EDPS 71300 - Cognition and Educational Technology

This course covers research about the influence of educational technology on the development of thinking and learning.

prereq: EDPS 70300

EDPS 72100 - Statistics and Statistical Computing in Education II

This course builds on knowledge of basic statistics, focusing on multiple regression and factorial ANOVA for statistical analysis of continuous and categorical independent variables. Diagnosis and treatment of data analytic problems such as missing data are discussed.

prereq: EDPS 70100, EDPS 70200

EDPS 72200 - Tests and Measurement

This course covers the following topics: classical test theory, tests construction, reliability estimation and generalizability theory, validation, item analysis, test bias, and introduction to item response theory, and the use of high-stakes testing in educational policy.

prereq: EDPS 70100, EDPS 70200

EDPS 72300 - Educational Program Evaluation

This course is designed to provide students with an overview of key concepts, theories, and methodologies utilized in the field educational evaluation.
Elective Courses in Educational Psychology
- Select 8 additional credits either from a concentration area or from the following electives -

**CEDF 71200 - Child and Adolescent Development**

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

*Hours includes 5 hrs of field work
Credits 4*

**CEDF 71700 - Independent Study in Educational Foundations**

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

*Credits 1
permission of faculty adviser and chairperson required*

**CEDF 71800 - Independent Study in Educational Foundations**

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

*Credits 2
permission of faculty adviser and chairperson required*

**CEDF 71900 - Independent Study in Educational Foundations**

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

*Credits 3
permission of faculty adviser and chairperson required*

**EDPS 74100 - Mediating Factors in Student Achievement**

This course will examine the current research in K-12 education in an effort to explore several of the more widely identified mediating factors that directly impact upon student achievement.

*prereq: EDPS 70300
Hours 60
Credits 4*

**EDPS 74200 - Special Topics in Educational Research Methods**
This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

*prereq: EDPS 70100, EDPS 70200, EDPS 70300
Hours 60
Credits 4

EDPS 74300 - Special Topics in Educational Psychology

This course will examine current research regarding a selected topic within the field of educational psychology; topics and readings will vary by semester.

*prereq: EDPS 70100, EDPS 70200, EDPS 70300
Hours 60
Credits 4

- EDPS 711, EDPS 712, EDPS 713, EDPS 721, EDPS 722 and EDPS 723 may count towards electives if not used to fulfill the concentration area requirement.

Culminating Courses
- Select either a thesis or a non-thesis option -

EDPS 79000 - Educational Psychology Seminar

This course provides an opportunity for students to prepare an original scholarly review of research literature or theoretical paper of publishable quality on an educational psychological topic of interest. The general goal of the course is to enable students to apply their knowledge of educational psychological issues and research through the development of a scholarly research paper.

*prereq: students must have completed a minimum of 24 credits
Hours 60
Credits 4

- Or -

EDPS 79501 - Educational Psychology Thesis Research 1

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

*prereq: students must have completed a minimum of 24 credits
Hours 30
Credits 2

- And -
EDPS 79502 - Educational Psychology Thesis Research 2

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

_prereq: students must have completed a minimum of 24 credits
_Hours 30
_Credits 2

Students electing Thesis Research (EDPS 79501) and (EDPS 79502) will prepare a report of a research investigation in which they design and execute an empirical study under the supervision of a faculty advisor. Students electing the non-thesis option will enroll in a seminar course (EDPS 79000) in which they prepare a scholarly publishable-quality review of the research literature on a topic approved by the faculty.

Exit Requirements

1. An overall GPA of 3.0.
2. Complete Culminating Experience.

Music Education Pre K-12 - MA

Education Advisor

Victor Bobetsky
(212) 650-3574
400C North
victor.bobetsky@hunter.cuny.edu

Music Department Advisor

Philip Ewell
(212) 396-6253
527 North
pewell@hunter.cuny.edu

The School of Education offers a program (Academic Plan: MUSPK12-MA) to prepare candidates to teach Music PreK - Grade 12 to students of diverse backgrounds, abilities and interests. The Music Education programs are run jointly by the Music Department and by the School of Education.

Track 1: Those who do not have NYS certification in Music.
Track 2: Those who have initial NYS certification in Music.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A major in music or music education (with a minimum of 24 credits in music) or the equivalent. See http://www.hunter.cuny.edu/music/grad-students/admissions/music-ed for specifics.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.

4. A 3 credit course in special education that focuses on supporting students with disabilities in the general education classroom. Students without this course may be admitted conditionally and must take SPED 70800 in addition to other degree requirements.

5. Two professional references.

6. A personal statement.

7. An audition and interview.

8. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

9. **Program 2 only:** NYS certification in Music PreK-12

See [http://www.hunter.cuny.edu/music/grad-students/admissions/music-ed](http://www.hunter.cuny.edu/music/grad-students/admissions/music-ed) for more details on admissions and registering for an audition.

## Progress Standards

### A. 12-credit Progress Standards

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. 
   
   *Note:* It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs.

### B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.

2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for registration.

## Course of Study

### Academic Plan

**MUSPK12-MA**
Program 1

For students with no NYS certification

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,  
Credits 3 cr*

**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,  
Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400  
Hours 30 hrs, plus 36 hrs fieldwork,  
Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500  
coreq: One of the following must be a Co-req:

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 774.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED
SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12

Organization and administration of school instrumental programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques, including a review of principles of performance for strings, woodwinds, brass, and percussion; classroom management strategies; supervised fieldwork in applying these topics.

prereq or coreq: SEDF 70400
Hours 3 hrs plus 18 hrs of fieldwork
Credits 2 cr

MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12
Organization and administration of school vocal programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques; an overview of technology, content, and materials of the nonperforming general music curriculum; classroom management strategies; supervised fieldwork in applying these topics.

prereq: MUSED 67700
prereq or coreq: SEDF 70500
Hours 3 hrs plus 18 hrs fieldwork,
Credits 2 cr

- Take either -

**SEDC 75600 - Student Teaching in Music, Pre-K–12**

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 and 30 days at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: MUSED 67800
Hours 30 hrs, 60 days student teaching plus workshops and conferences,
Credits 5 cr

- Or -

**SEDC 77610 - Practicum in Music, Grades Pre-K–6**

Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77620.

prereq: MUSED 67800
Hours 30 hrs plus conferences,
Credits 2 cr

- Plus -

**SEDC 77620 - Practicum in Music, Grades 7–12**

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77610.

prereq: MUSED 67800
Hours 30 hrs plus conferences,  
Credits 2 cr

Music Courses

**MUS 64100 - Strings**

Teaching fundamentals of string playing (violin, viola, cello, and double bass) in context of solo, orchestral and chamber music; thorough review of basic string technique.

*Hours 1.5 hrs*  
*Credits 1 cr*

**MUS 64300 - Woodwinds**

Teaching fundamental techniques of playing a number of woodwind instruments: breathing, tone production and fingering; acoustical principles of woodwinds; thorough review of woodwind technique; basic pedagogical methods.

*Hours 1.5 hrs*  
*Credits 1 cr*

**MUS 64500 - Brass**

Teaching fundamental techniques of playing a number of brass instruments: breathing, tone production, fingerings and slide positions; acoustical principles of brasses; thorough review of brass technique; basic pedagogical methods.

*Hours 1.5 hrs*  
*Credits 1 cr*

**MUS 64700 - Percussion Skills**

The teaching of fundamental techniques of playing percussion instruments: rudiments, stick control, coordination of hands and feet, syncopation, ensemble playing; acoustical principles of percussion; thorough review of percussion technique; basic pedagogical methods.

*Hours 1.5 hrs*  
*Credits 1 cr*

**MUS 64900 - Piano Skills for Music Teachers**

Introduction to piano skills including scales, chord progressions, keyboard harmony and sightreading. The activities and materials used will reflect the needs of music education students.

**MUS 65100 - Conducting**

The teaching of technique and proficiency in basic conducting skills including conducting patterns, baton technique, expressive gestures, score study, and philosophical and psychological approaches to ensemble management.
MUS 72400 - Advanced Studies in Music Theory 1

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

prereq: 4 sem. of undergraduate music theory courses

Hours 3 hrs
Credits 3 cr

MUS 75100 - Advanced Studies in Music History 1

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 3 hrs
Credits 3 cr

MUS 75200 - Advanced Studies in Music History 2

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 3 hrs
Credits 3 cr

MUS 77900 - World Music Education

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

Hours 3 hrs
Credits 3 cr

• Music electives: Courses chosen in consultation with graduate adviser (3 cr)

* Students who have studied these subjects at the undergraduate level may be exempted from these requirements.

** Please note that students admitted to the program must take a proficiency examination during the first two semesters of matriculation in order to remain in the program. This examination will test competence in music theory, music history and literature, and applied skills. Deficiencies revealed by the proficiency examination must be made up by studying the relevant subject matter and passing a reexamination. The proficiency examination requirement must be fulfilled before a student may proceed beyond 18 credits.

Program 2

For students who have NYS certification in Music PreK-12

MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12
Organization and administration of school instrumental programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques, including a review of principles of performance for strings, woodwinds, brass, and percussion; classroom management strategies; supervised fieldwork in applying these topics.

prereq or coreq: SEDF 70400
Hours 3 hrs plus 18 hrs of fieldwork
Credits 2 cr

MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12

Organization and administration of school vocal programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques; an overview of technology, content, and materials of the nonperforming general music curriculum; classroom management strategies; supervised fieldwork in applying these topics.

prereq: MUSED 67700
prereq or coreq: SEDF 70500
Hours 3 hrs plus 18 hrs fieldwork,
Credits 2 cr

- Take either -

SEDC 77610 - Practicum in Music, Grades Pre-K–6

Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77620.

prereq: MUSED 67800
Hours 30 hrs plus conferences,
Credits 2 cr

- Or -

SEDC 77620 - Practicum in Music, Grades 7–12

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77610.

prereq: MUSED 67800
Hours 30 hrs plus conferences,
Credits 2 cr
Music Courses

**MUS 72400 - Advanced Studies in Music Theory 1**

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

*prereq: 4 sem. of undergraduate music theory courses
Hours 3 hrs
Credits 3 cr

**MUS 72500 - Advanced Studies in Music Theory 2**

Analysis and theory of compositional styles from 1900 to the present.

*prereq: 4 sem. of undergraduate music theory courses
Hours 3 hrs
Credits 3 cr

**MUS 75100 - Advanced Studies in Music History 1**

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

*Hours 3 hrs
Credits 3 cr

**MUS 75200 - Advanced Studies in Music History 2**

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

*Hours 3 hrs
Credits 3 cr

**MUS 77900 - World Music Education**

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

*Hours 3 hrs
Credits 3 cr

**MUS 79200 - Independent Study**

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

*prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.
Hours 2 hrs
Credits 2 cr
May be taken 4 times for credit. 8 cr maximum

Take 4 credits from the following, in consultation with the Director of Music Education

- 3 Music Elective Credits

MUS 64100 - Strings

Teaching fundamentals of string playing (violin, viola, cello, and double bass) in context of solo, orchestral and chamber music; thorough review of basic string technique.

Hours 1.5 hrs
Credits 1 cr

MUS 64300 - Woodwinds

Teaching fundamental techniques of playing a number of woodwind instruments: breathing, tone production and fingering; acoustical principles of woodwinds; thorough review of woodwind technique; basic pedagogical methods.

Hours 1.5 hrs
Credits 1 cr

MUS 64500 - Brass

Teaching fundamental techniques of playing a number of brass instruments: breathing, tone production, fingerings and slide positions; acoustical principles of brasses; thorough review of brass technique; basic pedagogical methods.

Hours 1.5 hrs
Credits 1 cr

MUS 64700 - Percussion Skills

The teaching of fundamental techniques of playing percussion instruments: rudiments, stick control, coordination of hands and feet, syncopation, ensemble playing; acoustical principles of percussion; thorough review of percussion technique; basic pedagogical methods.

Hours 1.5 hrs
Credits 1 cr.

MUS 64900 - Piano Skills for Music Teachers

Introduction to piano skills including scales, chord progressions, keyboard harmony and sightreading. The activities and materials used will reflect the needs of music education students.

MUS 65100 - Conducting

The teaching of technique and proficiency in basic conducting skills including conducting patterns, baton technique, expressive gestures, score study, and philosophical and psychological approaches to ensemble management.
MUS 68100 - Private Instruction in Instrument or Voice
For students not concentrating in performance.

Hours 1 hr
Credits 1 cr

MUS 68200 - Private Instruction in Instrument or Voice
For students not concentrating in performance.

Hours 1 hr
Credits 1 cr

MUS 68300 - Private Instruction in Instrument or Voice
For students not concentrating in performance.

Hours 1 hr
Credits 1 cr

MUS 68400 - Private Instruction in Instrument or Voice
For students not concentrating in performance.

Hours 1 hr
Credits 1 cr

MUS 71000 - Hunter Symphony
Rehearsal and performance of orchestral works.

prereq: audition and perm instr.
Hours 2 hrs
Credits 1 cr
May be taken four times for credit.

MUS 71100 - Hunter College Choir
Rehearsal and public performance of major choral Works.

Hours 2 hrs
Credits 1 cr
May be taken four times for credit.

MUS 71300 - Chamber Music
Rehearsal and public performance of instrumental chamber works.

*Hours 2 hrs  
*Credits 1 cr  
*May be taken four times for credit.

**MUS 71400 - Collegium Musicum**

Study and public performance of chamber chorus works from the medieval, Renaissance, and Baroque periods.

*prereq: audition and perm instr.  
*Hours 2 hrs  
*Credits 1 cr  
*May be taken four times for credit.

**MUS 71500 - Jazz Ensemble**

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz and musical comedy. One public performance per semester.

*Hours 2 hrs  
*Credits 1 cr  
*May be taken four times for credit.

**MUS 71600 - Jazz Vocal Workshop Ensemble**

Open to all vocalists and rhythm section instrumentalists by audition. Jazz performance and improvisation. One public performance per semester.

*Hours 2 hrs  
*Credits 1 cr  
*May be taken four times for credit.

**Exit Requirements**

1. An overall GPA of 3.0
2. Students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. A project involving research is required of each student in the teacher education program. On completion of the courses of study and after approval of the project by the Graduate Faculty Committee, a candidate will be examined orally on the topic of the project and related issues. Students may register for independent study (MUS 79100 or MUS 79200) if they wish to receive credit toward the MA degree for work done in fulfilling the TEP Project.
4. Complete the Dignity for All Students Act (DASA) workshop.

**TESOL Adult Track - MA**

*Program Coordinator*
The TESOL Adult Track (Academic Plan: TESOL-MA | Subplan TESOLADUNC) prepares students to teach adults in college, continuing education, literacy, business, private, and other community, academic and professional programs in the United States or abroad. It does not prepare teachers for New York State certification to teach in the public schools.

Links to the ESL classroom are emphasized and students are exposed to extensive field experiences and practice. Students should be prepared to spend considerable amounts of time observing and participating in educational settings in addition to attending classes at Hunter.

Admission Requirements

1. Bachelor's degree with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. 12 credits in foreign language documented on a transcript or equivalent credits on a standardized proficiency test such as the College Level Examination Program (CLEP) or the NYU Proficiency Test in Foreign Language.
3. Two letters of recommendation.
4. A personal statement.
5. Satisfactory communication skills. (An oral interview and on-site writing sample may be required to provide additional evidence of communication skills, depending on the applicant's academic record and language proficiency as reflected in the application).
6. Submission of scores on the Graduate Record Examination, except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

TESOL-MA

Subplan

TESOLADUNC
Total Credits

27-37

**EDESL 78200 - TESOL Methods for Adult Education**

A treatment of effective TESOL practices, classroom management, and learning environments appropriate to the adult classroom. Twenty-five hours of field experience/observation is a part of this course.

*Hours 45 hrs
Credits 3 cr

Required of students in the Adult Program and an elective for students in the Pre-K–12 Programs One and Two who have been waived from a required course.

**LING 70300 - Analysis and Structure of English I**

The first course in a two-course sequence offering an in-depth treatment of the various aspects English language knowledge needed for the teaching of English through the various content areas (math, science, social studies, literature) to English language learners. It lays the groundwork in English language knowledge and analysis for teachers of P-12 ESL.

*prereq or coreq: EDESL 78300
Hours 3 hrs
Credits 3 cr*

**LING 70400 - Analysis and Structure of English 2**

The second course in a two-course sequence offering an in-depth treatment of the various aspects English language knowledge needed for the teaching of English through the various content areas (math, science, social studies, literature) to English language learners. It lays the groundwork in English language knowledge and analysis for teachers of P-12 ESL.

*prereq: EDESL 78300, LING 70300
Hours 3 hrs
Credits 3 cr*

**EDESL 78100 - Curriculum and Materials in Adult TESOL**

Overview of the various curriculum and materials options for learning ESL/EFL (listening and an oral comprehension, speaking and conversation, reading and vocabulary building, writing and composing, textbook series for children and adults, dictionaries, computer-assisted learning materials, video programs and others). Attention is given to classroom management tasks, setting up and exploiting various learning environments, and general literacy concerns.

*prereq or coreq: EDESL 78200
Hours 3 hrs
Credits 3 cr*

**EDESL 77500 - Socio-Cultural Aspects of Language**
This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

*Hours 3 hrs  
Credits 3 cr*

**LING 77300 - Instructed Second Language Acquisition**

This course provides an overview of current theory, research, and practice in second language acquisition and learning. Pedagogical implications and applications for English language learning particularly through instruction are emphasized. Teachers are introduced to research methodologies and conduct classroom-based research.

*prereq or coreq: EDESL 78300; LING 70300  
Hours 3 hrs  
Credits 3 cr*

**EDESL 74100 - Teaching ESL Oral Skills**

This course will begin by addressing theory and practice of both the acquisition and teaching of oral and listening skills in adult ESL. It will then focus on how oral and listening skills can be taught to adults from diverse cultural and linguistic backgrounds, addressing cognitive, emotional, social, and personal differences among students.

*prereq: EDESL 70200, EDESL 70300  
Hours 3 hrs  
Credits 3 cr*

**EDESL 74200 - Teaching ESL Reading and Writing**

The course will cover theories of reading and writing, as well as focus on the teaching methods and practices that grow out of them. The primary focus of the course will be the process of learning about how L2 literacy skills are acquired.

*prereq: EDESL 70200, EDESL 70300  
Hours 3 hrs  
Credits 3 cr*

**EDESL 74300 - Language Assessment for Adult ESL Classrooms**

This course introduces students to relevant theory and current practice in the area of language assessment and integrates the two in order to provide students with both conceptual understanding and practical experience with language assessment. The course will examine key concepts and current debates, including validity, reliability and the ethics of high-stakes testing.

*prereq: EDESL 702 and EDESL 703  
Hours 3 hrs  
Credits 3 cr*

**EDESL 79800 - Student Teaching in Academic ESL**

*Hours 60 hrs fieldwork  
Credits 2 cr*
EDESL 79900 - Adult Fieldwork / Practicum

*Hours 60 hrs fieldwork
Credits 2 cr*

EDESL 78000 - Seminar in Educational Research (Master's Essay)

A written study, which may include a researched area, an analysis of a methodology, a review, evaluation, or critique of relevant literature, or a proposal for learning materials. Students in this course, who meet as a group and individually with the adviser, are exempt from taking the comprehensive examination. This course satisfies the culminating requirement for the MA program and counts as an elective course in the Adult Track and K-12 programs. Year-long course.

**prereq: completion of 24 credits and permission of TESOL adviser**

**Credits 3 cr (year-long)**

Students who satisfactorily complete the first semester would earn a grade of Y, which would be changed to a letter grade upon satisfactory completion of all course requirements.

Three credits of electives from the list below:

EDESL 70100 - Selected Topics in TESOL

**EDESL 701-704 Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

**prereq: permission of TESOL adviser**

**Credits 1 cr**

EDESL 70200 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

**prereq: permission of TESOL adviser**

**Credits 2 cr**

EDESL 70300 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.
prereq: permission of TESOL adviser
Credits 3 cr

EDESL 70400 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

prereq: permission of TESOL adviser
Credits 4 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Electronic Portfolio Evaluation or a master’s essay (EDESL 76000); the master's essay course may be used to fulfill the program elective requirement.

TESOL PreK-12 - MA

Program Coordinator

Tim Farnsworth
1013 West Building
(212) 650-3376
tfarnsw@hunter.cuny.edu

The TESOL PreK-12 program (Academic Plan: TESOL-MA) is designed to educate people who wish to teach students for whom English is a second or foreign language in a school setting. The skill of teaching English to speakers of other languages is acquired through studying specialized methods and techniques that differ from those used by teachers of English to native speakers. This preparation is the focus of the programs in TESOL.

In these programs, links to the ESL classroom are emphasized and students are exposed to extensive field experiences and practice. Students should be prepared to spend considerable amounts of time observing and participating in educational settings in addition to attending classes at Hunter. All fieldwork experience must be done in New York City public schools.

TESOL-MA has two tracks (or subplans). Track 1 (Subplan: TESOLLNYSC) is for applicants with no prior NYS certificate. Track 2 (Subplan: TESOLANYSC) is for applicants who have prior NYS certificate.

Admission Requirements

Track 1

Applicants who do not hold NYS Certification

1. Bachelor's degree with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. A liberal arts of sciences major or interdisciplinary concentration of at least 30 credits.
3. A general education core in liberal arts and sciences to include: 12 credits in foreign language documented on a transcript or equivalent credits on a standardized proficiency test such as the College Level Examination Program (CLEP) or the NYU Proficiency Test in Foreign Language; 9 credits in communication and English with at least one course in written analysis and expression and one course in English literature; 9 credits in science and mathematics, with at least one course in math one course in science (a college course in calculus satisfies 6 credits of this requirement); 6 credits in social studies (to include at least one course in history or geography); 3 credits in the arts; 3 credits in information retrieval (library studies, research, computer literacy or educational technology).

4. Satisfactory communication skills. (An oral interview and on-site writing sample may be required to provide additional evidence of communication skills, depending on the applicant's academic record and language proficiency as reflected in the application).

5. Two letters of recommendation.

6. A personal statement.

Track 2

Applicants who hold NYS Certification

1. Bachelor's degree with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.

2. 12 credits in foreign language documented on a transcript or equivalent credits on a standardized proficiency test such as the College Level Examination Program (CLEP) or the NYU Proficiency Test in Foreign Language.

3. NYS teacher certification in subject areas other than TESOL (specifically early childhood, childhood, middle childhood, or adolescent education; special subjects; students with disabilities; or literacy).

4. Satisfactory communication skills. (An oral interview and on-site writing sample may be required to provide additional evidence of communication skills, depending on the applicant's academic record and language proficiency as reflected in the application).

5. Two letters of recommendation.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

TESOL-MA

Subplans
- Track 1: TESOLLNYSC
- Track 2: TESOLANYSC

Total Credits

- TESOLLNYSC: 30-42 (Note: Students may be exempted for up to nine credits (12 credits for those completing EDESL 780))
- TESOLANYSC: 30-36 (Note: Students may be exempted up to three credits (6 credits for those completing EDESL 780))

Courses for Track 1

Track 1 (Subplan: TESOLLNYSC)

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*

*Credits 3 cr*

**CEDF 713 - CEDF 71300 - Child and Adolescence Development**

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

*Hours 3 hrs*

*Credits 3 cr*

**EDESL 77500 - Socio-Cultural Aspects of Language**

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

*Hours 3 hrs*

*Credits 3 cr*

**EDESL 78300 - Methodology of Teaching English to Speakers of Other Languages**

An overview of classroom options for teaching English to second language learners. The course covers options for classroom management and setting up learning environments. A 25-hour field experience is a part of this course.

*Hours 45 hrs*

*Credits 3*

Required for students in Program Two and Program Three (Adult Program).

**EDESL 78700 - K-12 ESL Curriculum and Materials across the Content Areas**
This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: LING 70300, EDESL 78300 or permission of TESOL adviser
Hours 3 hrs
Credits 3 cr

EDESL 79100 - Language Assessment in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing.

prereq: LING 70100 or BILED 77100
prereq or coreq: EDESL 70500 or permission of TESOL adviser
Hours 45 hrs,
Credits 3 cr
Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.

EDESL 79200 - Second Language Literacy and Technology

This course provides an in-depth treatment of theory and practice in the teaching of all of the literacy skills: reading and writing, along with the development of oral language and listening, to K-12 English language learners in the public schools. Interactions between first, second, and other language literacy, and technological literacy are explored and exploited toward successful language teaching and learning. Includes 15 hours of field experience.

prereq: LING 70300; LING 77300; EDESL 78300
Hours 3 hrs
Credits 3 cr
Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.

LING 70300 - Analysis and Structure of English I

The first course in a two-course sequence offering an in-depth treatment of the various aspects English language knowledge needed for the teaching of English through the various content areas (math, science, social studies, literature) to English language learners. It lays the groundwork in English language knowledge and analysis for teachers of P-12 ESL.

prereq or coreq: EDESL 78300
Hours 3 hrs
Credits 3 cr

LING 70400 - Analysis and Structure of English 2

The second course in a two-course sequence offering an in-depth treatment of the various aspects English language knowledge needed for the teaching of English through the various content areas (math, science, social studies, literature) to English language learners. It lays the groundwork in English language knowledge and analysis for teachers of P-12 ESL.
**LING 77300 - Instructed Second Language Acquisition**

This course provides an overview of current theory, research, and practice in second language acquisition and learning. Pedagogical implications and applications for English language learning particularly through instruction are emphasized. Teachers are introduced to research methodologies and conduct classroom-based research.

*prereq or coreq: EDESL 78300; LING 70300*
*Hours 3 hrs*
*Credits 3 cr*

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308*
*prereq: 12 credits of coursework*
*Hours 45*
*Credits 3*

*A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.*

- **EDESL 75200 - Supervised Teaching 1**

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 1 focuses on the development of core lesson planning, teaching, and assessment skills in ESL instruction. Required of all pre-K-12 program students.

*prereq: Completion of 24 credits or permission of TESOL adviser*
*Hours 3 hrs*
*Credits 3 cr*

- **EDESL 75300 - Supervised Teaching 2**

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 2 focuses on the professional duties of the ESL educator beyond teaching and incorporates an advocacy-based classroom based inquiry project. Required of all MA K-12 program students.

*prereq: EDESL 75200*
*Hours 3 hrs*
*Credits 3 cr*
EDESL 78000 - Seminar in Educational Research (Master's Essay)

A written study, which may include a researched area, an analysis of a methodology, a review, evaluation, or critique of relevant literature, or a proposal for learning materials. Students in this course, who meet as a group and individually with the adviser, are exempt from taking the comprehensive examination. This course satisfies the culminating requirement for the MA program and counts as an elective course in the Adult Track and K-12 programs. Year-long course.

_prereq:_ completion of 24 credits and permission of TESOL adviser
_Credits 3 cr (year-long)_

_Students who satisfactorily complete the first semester would earn a grade of Y, which would be changed to a letter grade upon satisfactory completion of all course requirements._

or Electronic Portfolio Evaluation

Credits 3 cr

- And one of the following -

EDESL 78000 - Seminar in Educational Research (Master's Essay)

A written study, which may include a researched area, an analysis of a methodology, a review, evaluation, or critique of relevant literature, or a proposal for learning materials. Students in this course, who meet as a group and individually with the adviser, are exempt from taking the comprehensive examination. This course satisfies the culminating requirement for the MA program and counts as an elective course in the Adult Track and K-12 programs. Year-long course.

prereq: completion of 24 credits and permission of TESOL adviser
Credits 3 cr (year-long)
Students who satisfactorily complete the first semester would earn a grade of Y, which would be changed to a letter grade upon satisfactory completion of all course requirements.

or Electronic Portfolio Evaluation

Note(s)

Students may be exempted from up to six credits if they have taken equivalent coursework elsewhere. Taking EDESL 780 MA Essay adds 3 credits to total credits in degree.

*Student Teaching is a year-long course. Students must complete 60 days during one semester at the K-6 level, and 60 days during the other semester at the 7-12 level. Student teachers may start their student teaching in either the fall or spring semester.

**Practice Teaching is a year-long course. Students are expected to be in the classroom during the entire year of teaching. Practicum students may start their practicum in either the fall or spring semester.

Exit Requirements

1. An overall GPA of 3.0.
2. Track 2 students only: Must maintain a valid and appropriate NYS certification.
3. Demonstrate graduate-level academic oral and written communication skills in their coursework, and the ability to serve as appropriate models of the English language for their future students.
4. Electronic Portfolio Evaluation or successful completion of a master's essay (EDESL 78000).
5. Complete the Dignity for All Students Act (DASA) workshop.

Theatre Education PreK-12 - MA

Education Adviser

Jeanne Weiler  
(212) 650-3459  
1115 West  
jweiler@hunter.cuny.edu

Theatre Advisor

Mira Felner  
(212) 650-3338  
520B North  
mfelner@hunter.cuny.edu

The School of Education offers two master's degree programs for NYS certification for theatre teachers. These programs focus on practical approaches to the teaching of theatre education, while also providing graduate coursework in the foundations of education and in general education curriculum and content in grades PreK-12. Both programs lead to NYS certification in Theatre PreK-12.

Program 1 (Academic Plan: THEAED-MA) is for those with no prior NYS certification.

Program 2 (Academic Plan: THEDPC-MA) is for those with prior NYS certification.
Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A major in theatre and 6 credits of English literature.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Two professional references.
5. A personal statement describing the applicant's past experiences in theatre and why the applicant is interested in pursuing an MA in Theatre Education.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.
7. **Program 2 Applicants Only**: NYS teaching certificate.

Progress Standards

A. 12-credit Progress Standards

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.
3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses. *Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs*

B. Fieldwork Benchmarks

1. All field experiences and student teaching will take place in New York City public schools.
2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.
3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.
4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for registration.

Course of Study

Academic Plans

- **Program 1**: THEAED-MA
- **Program 2**: THEDPC-MA
Total Credits

- THEAED-MA: 49-50
- THEDPC-MA: 32

Courses for Programs 1 and 2

**THC 70200 - History of Theatrical Theory**

Historical survey of major theatre theories and theorists from Aristotle to poststructuralism.

*Hours 30 hours, including conferences,
Credits 3*

**THC 72500 - Special Topics**

Studies in specialized areas of theatre.

*Hours 30 hrs, including conferences,
Credits 3 cr
May be repeated for credit.*

**THC 75100 - History of Theatre I**

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 75200 - History of Theatre II**

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 75500 - Visual Elements of Theatre I**

Study and practice of director's and playwright's conceptual approach to visual requirements of plays.

*Hours 30 hrs, including conferences,
Credits 3 cr*

**THC 76000 - Studies in Theatre History and Production**

Intensive study of history and theory of one of the component arts of theatre. Subjects announced in advance.

*Hours 30 hrs, including conferences,
Credits 3 cr
May be repeated for credit.*
THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

Hours 30 hrs, including conferences,
Credits 3 cr

THC 79100 - Advanced Directing and Rehearsal

Study of problems in play direction, with practice in presentation of scenes and plays.

Hours 45 hrs,
Credits 3 cr

THC 79300 - Playwriting I

Study of techniques of playwriting based on student's own work with special emphasis on scenes and one-act form.

Hours 45 hrs,
Credits 3 cr

- Plus (new courses) -
  - THC 77600 - Creative Dramatics, Methods I (3 credits)
  - THC 77700 - Theatre for Youth, Methods II (3 credits)
  - THCED 78000 - Student Teaching (5 credits)
    - Or -
  - THCED 78100 - Practicum in Theatre (2 credits) taken twice

Additional Courses for Program 1

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

Hours includes 5 hrs of field work
Credits 4

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 72000 - Adolescent Health and Safety
Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,
 *Credits 1 cr*

**SEDF 70300 - Social Foundations of Adolescent Education**

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
 *Credits 3 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400
Hours 30 hrs, plus 36 hrs fieldwork,
 *Credits 2 cr*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500
coreq: One of the following must be a Co-req:

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23

*Hours 30 hrs, plus lab,
 *Credits 2 cr*

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.
Cros-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

Exit Requirements

1. An overall GPA of 3.0
2. Pass a comprehensive examination administered by the Theatre department.
3. Complete the Dignity for All Students Act (DASA) workshop.
4. Program 2 students must maintain valid and appropriate NYS certification.

Visual Arts Education - MA

Coordinator

Lori Kent
(212) 650-3751
Art and Art History Advisement Office, North Building 11th floor
lken@hunter.cuny.edu

The School of Education offers two master's degree programs for NYS certification for visual arts teachers. These programs focus on practical approaches to the teaching of visual arts education, while also providing graduate coursework in the foundations of education and in general education curriculum and content in grades PreK-12. Both programs leads to NYS certification in Visual Arts PreK-12.

Program 1 (Academic Plan: VSARTED-MA) is for those with no prior NYS certification.

Program 2 (Academic Plan: VAEDPC-MA) is for those with prior NYS certification.

Admissions Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.5 and a major in visual arts. For applicants with an MFA or other graduate degree, a GPA of at least 3.5.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. 9 credits of art history
4. 24 credits in studio art
5. Two professional references.
6. A personal statement.
7. A digital portfolio of 20 examples of artistic works is submitted as part of the application
8. An interview by faculty for qualified applicants.
9. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.
10. **Program 2 Applicants Only**: NYS teaching certificate.

**Progress Standards**

**A. 12-credit Progress Standards**

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.

2. Students with more than one course grade below B in the first 12 credits will not be allowed to continue in the program.

3. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.

4. Students with one grade of IN (Incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more INs will not be allowed to register for any courses.

   *Note: It is recommended that when not enrolled in any course students take an official leave of absence to complete their INs*

**B. Fieldwork Benchmarks**

1. All field experiences and student teaching will take place in New York City public schools.

2. Any student who receives a grade of B-, C+ or C in a supervised field experience or student teaching or practicum course must apply to the chairperson of the department for permission to repeat that course, which may be repeated only once. Any student who receives a grade of F or WU may not reregister and will not be allowed to continue in the program.

3. Student teaching and practicum courses listed as "by permission only" will require that students have passed the EAS and the relevant CST certification exams.

4. Students must have no outstanding IN grades or admissions conditions in order to be given permission for registration.

**Total Credits**

- **VSARTED-MA**: 44
- **VAEDPC-MA**: 30-31

**Program 1**

Program 1 (Academic Plan: VSARTED-MA)

For students with no prior NYS certification

**ARTH 62100 - Modern Art I**
Origins and history of modern art in 19th century.

*Hours 45
*Credits 3

**ARTH 73400 - Theory and Criticism of Art**

Readings in the history of art history and/or critical theory as a background and methodology for current problems in the discipline and in contemporary art criticism.

**ARTH 78000 - Special Topics in Art**

Graduate seminars on specific topics established by individual faculty. Topics in recent years have included Greek Vase Painting, The Islamic Object, Botticelli, Architecture of the Italian Renaissance, Origins of Abstraction, History of Photography, Art and Totalitarianism, Color Theory in Relation to Painting.

**ARTCR 75100 - Special Topics in Studio Art**

Special projects in photography, ceramics, color theory, three-dimensional form theory, collage, time-based media and related topics. Topics offered vary from semester to semester.

*Hours 4
*Credits 3

**CEDF 71200 - Child and Adolescent Development**

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

*Hours includes 5 hrs of field work
*Credits 4

**SEDC 71000 - Building the Foundations of Literacy in Adolescent Education**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

*Hours 45 hrs,
*Credits 3 cr

**SEDC 72000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*Hours 15 hrs,
*Credits 1 cr
SEDFT 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*Hours 45 hrs,
*Credits 3 cr*

SEDFT 70500 - Educational Psychology: Applications to Adolescent Education

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDFT 70400
*Hours 30 hrs, plus 36 hrs fieldwork,
*Credits 2 cr*

*Hours 4*

*Credits 3*

- Plus -

- Electives in ARTH or ARTCR

**ARTED 71000 - Methods for Childhood Art Education - Grades PreK-6**

This course focuses on visual arts education methods, philosophies and theories of learning and development in the visual arts for children from Pre-K- grade 6. It emphasizes children's aesthetic development, safe and appropriate uses of materials and resources, and appropriate methods and pedagogy for teaching the visual arts in grades PreK-6.

Includes 36 hours of fieldwork in a school.

*prereq or coreq: SEDF 70300 and SEDF 70400*

*Hours 3 hrs*

*Credits 3 cr.*
ARTED 71100 - Methods of Teaching the Visual Arts Grades 7-12

This course focuses on visual arts education methods, philosophies and theories of learning and development in the visual arts for the adolescent. Focus: It emphasizes adolescent aesthetic development, safe and appropriate uses of materials and resources, and appropriate methods and pedagogy for teaching the visual arts in grades 7-12.

Course includes 48 hours of fieldwork in a school. Students are observed and evaluated in the field at least once.

prereq: ARTED 71000 and SEDF 70500
Hours 3 hrs
Credits 3 cr.

- Plus -

ARTED 71200 - Student Teaching in the Visual Arts Grades Pre-K-12

Teacher candidates complete a total of 60 days of student teaching Monday through Friday (30 days of student teaching at grades pre-K-6 and 30 days at grades 7-12) under the supervision of a Hunter College faculty member and a certified Art Educator in a New York City school selected by the college.

prereq: ARTED 71000 and ARTED 71100 plus 6 credits in ARTH and ARTCR
Hours 5 hrs
Credits 2 cr.

- Or -

  • ARTED 713.10 Practicum in the Visual Arts PreK-6 (2 credits)
    - And -
  • ARTED 713.20 Practicum in the Visual Arts Grades 7-12 (2 credits)

Exit Requirements

1. An overall GPA of 3.0
2. Students must complete the Dignity for All Students Act (anti-bullying) workshop.
3. Students will develop a professional teaching portfolio that is a cumulative effort, integrating course and fieldwork throughout the program. In particular, students will be expected to integrate their artistic development with their growth and development as arts educators. Teacher candidates will be expected to connect these elements through critical reflection. Students will work with their instructors throughout their course of study on the portfolio. Students will arrange for a presentation and final review of their work during the last semester of the program.
4. Program 2 students must maintain valid and appropriate NYS certification.

Master of Science in Education - MSEd

Adolescent Special Education, Grades 7-12 (Generalist) - MSEd

Program Coordinator
This master's degree program (Academic Plan: AG712-MSED) is designed to prepare individuals to become special education generalist teachers at the adolescent level. Graduates are eligible for NYS certification in Students with Disabilities Grades 7-12, Generalist, rather than certification in a specific subject area.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. A liberal arts and sciences distributed to include: a minimum of 6 credits in English; 6 credits in political science, history, economics, or geography (with at least one course in history or geography); 6 credits in math (a college course in calculus meets this requirement); 6 credits in science; 3 credits in the arts; 6 credits in a language other than English (3 years of high school study in the same foreign language with grades of C or better documented by high school transcript will meet this requirement); and 3 credits in information retrieval (library studies, research, computer literacy, or educational technology).
4. A personal statement.
5. Two letters of recommendation.
6. Submission of scores on the Graduate Record Examination, except applicants who are certified teacher or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

AG712-MSED

Total Credits

36-48
Special Education Courses

**SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education**

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

*Hours 3 hrs*
*Credits 3 cr*

**SPED 70100 - Assessment of Students with Disabilities**

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

*prereq or coreq: SPED 70000*
*Hours 45 hours; includes 10 hrs of field experience*
*Credits 3*

**SPED 70200 - Classroom Management in Special Education and Inclusive Settings**

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

*prereq or coreq: SPED 70000*
*Hours 45 hours; includes 15 hrs of field experience*
*Credits 3*

**SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders**

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

*prereq: SPED 70000*
*coreq: current employment as a teacher or enrollment in student teaching*
*Hours Includes 10 hrs of field experience, 45 hrs,*
*Credits 3 cr*

**SPED 70450 - Teaching Culturally and Linguistically Diverse Students**
This course is a review of the historical, social, and legal foundations of education as it pertains to special education, education of students including those with limited proficiency in English, and multicultural backgrounds. It is an overview of issues and best practices for teaching students from culturally and linguistically diverse backgrounds who have historically been underserved in educational systems due to language, race, class, or social status within the context of special education.

prereq: SPED 70000 or SPED 70050
Hours 3 hrs
Credits 3 cr

SPED 77100 - Methods of Teaching Reading for Adolescents with Learning Disabilities

This course addresses principles, methods, and specially designed instruction for adolescents with learning disabilities, mild/moderate cognitive impairment, and/or behavior disorders. The focus is on developing literacy through all aspects of reading, including: developing comprehension, expanding vocabulary, increasing fluency, utilizing phonics, and refining phonemic awareness. Students will learn strategies that support reading at all levels, including: sound, word, sentence, cross-sentence, text body, and text structure, genre, and across content areas.

coreq: SPED 77200
prereq or coreq: SPED 70000
Hours 45 plus 10 field hours
Credits 3 cr.

SPED 77200 - Supervised Clinical Teaching of Adolescents with Disabilities: Part I

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities, mild cognitive impairment, and/or behavior disorders from grades 7–12. Focus on specialized reading instruction, math instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 77100
prereq or coreq: SPED 70000
Hours 30 hours of seminar plus 25 field hours
Credits 2 cr.

SPED 77300 - Math Methods for Adolescents with Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

SPED 77400 - Supervised Clinical Teaching of Adolescents with Disabilities: Part II

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across
SPED 77600 - Writing & Executive Function for Adolescents with Learning Disabilities

In this course students study the practice of teaching all aspects of writing to adolescents with learning disabilities by using various research-based approaches to address: handwriting, spelling, sentence structures, paragraph building, essay writing, and the writing process.

prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

SPED 78000 - The Study of Learning Disabilities in Children and Adolescents

History of theory, practices and conceptualizations of learning disabilities and mild/moderate mental retardation. Current issues, controversies and research, offering frameworks for appropriate instruction. Includes student characteristics, LD as an approach to teaching, family and cultural needs, as well as services and settings from special schools to supported inclusion.

prereq or coreq: SPED 70000
Hours 45
Credits 3

SPED 77500 - Supervised Student Teaching of Adolescents with Learning Disabilities

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities or mild/moderate intellectual disabilities in grades 7-12. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000 or SPED 70050; SPED 77100; SPED 77200
Hours 3 hrs: 30 hrs of seminar plus conferences plus 60 days student teaching
Credits 3 cr.

SPED 77550 - Supervised Practicum: Grades 7-12

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.
**prereq:** SPED 70000 -or- 70050; SPED 77100; SPED 77200  
*Hours 3 hrs: 30 hours seminar, plus conferences plus 60 days student teaching  
Credits 3 cr*

- Or both of the following -

**SPED 77551 - Supervised Student Teaching: Learning Disabilities, Grades 7-12**

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

**prereq:** SPED 70000 or SPED 70050; SPED 77100; SPED 77200
*Hours 1.5 hrs: 30 hours seminar, plus conferences, plus 30 days student teaching  
Credits 1.5 cr*

**SPED 77552 - Student Teaching: Learning Disabilities, Grades 7-12**

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

**prereq:** SPED 70000 or SPED 70050; SPED 77100; SPED 77200
*Hours 1.5 hrs: 30 hours seminar, plus conferences, plus 30 days student teaching  
Credits 1.5 cr*

**General Education Courses**

**EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12**

Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing difficulties. Assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

*Hours includes 15 hours fieldwork  
Credits 3*

**SEDF 71400 - Adolescent Development and Learning: Grades 7-12**

This course prepares teacher candidates to think about how adolescents develop and learn by examining the process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and levels of ability. Emphasis will be placed on creating culturally compatible classrooms, motivating students, and assessing their learning.

*Hours 45  
Credits 3*
SEDC 71600 - Math: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the contents of mathematics programs and curricula in grades 7–12 and will formulate teaching methodology for the meaningful learning of mathematics. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45 hrs
Credits 3

SEDC 71700 - Social Studies: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of social studies programs and curricula in grades 7–12 and will formulate teaching methodology for the meaningful learning of social studies. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45
Credits 3

SEDC 71800 - Science: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of science programs and curricula in grades 7–12 and formulate teaching methodology for the meaningful learning of science. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45 hrs
Credits 3

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Complete the Dignity for All Students Act (DASA) workshop.

Bilingual Childhood Education, Grades 1-6 - MEd

Program Coordinators
This graduate program in Bilingual Childhood Education (Academic Plan: CEBIL-MSED) is designed to prepare individuals to become effective teachers with high levels of teaching competencies using two languages of instruction at the childhood grade range. The programs are offered in three languages: Spanish/English, French/English and Chinese/English. The Bilingual Childhood Education program leads to NYS certification in Childhood Education with Bilingual Education Extension.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Completion of a satisfactory writing sample in English and in Spanish as part of the application process.
5. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted in English and in Spanish, French or Chinese.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

CEBIL-MSED
Total Credits
37-49

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

*Hours includes 5 hrs of fieldwork*
*Credits 3 cr*

**BILED 71150 - Fieldwork in Bilingual Literacy**

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*coreq: BILED 77100*
*Hours 75 hrs,*
*Credits 1 cr*

**BILED 71700 - Language Assessment for English Language Learners**

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

*prereq: BILED 77100, CEDCF 70050*
*Hours 45 hrs,*
*Credits 3 cr*

**BILED 77100 - Psychology of Language Learning and Teaching**

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

*prereq or coreq: BILED 70100*
*Hours 30 hrs plus 5 hrs of fieldwork and lab,*
*Credits 2 cr*

**BILED 77900 - Multicultural Education**
Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100  
Hours includes 5 hrs of fieldwork  
Credits 3 cr

BILED 78000 - Bilingual Research Seminar

The bilingual research seminar, which serves as the culminating experience, focuses on the relationship between educational research and the classroom teacher. Students will review significant bilingual research to consider the implications of findings for bilingual instruction, and they will initiate their own classroom/community studies to reflect upon their own practice and to become critical consumers of research.

prereq or coreq: 39 credits or permission of program coordinator  
Hours 30 hrs plus lab,  
Credits 2 cr

CEDC 70000 - The Art of Effective Teaching

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

prereq or coreq: CEDF 70900  
Hours includes 5 hrs of fieldwork  
Credits 3

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000  
Credits 3

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

_prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

_prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

_prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2

CEDC 72950 - Fieldwork in Childhood Education for Bilingual Educators

Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

_prereq: CEDF 70900; BILED 70100. Observing and assisting teaching in an elementary school setting
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1
CEDF 70800 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing certification in childhood education with a bilingual extension or in TESOL. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

_prereq or coreq: CEDF 70900
Hours 45 hrs
Credits 3

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

_Hours includes 5 hrs of field work
Credits 3

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

_Cross-listed SPED 308
_prereq: 12 credits of coursework
_Hours 45
_Credits 3
_A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- And -

Spanish language

BILED 71100 - Bilingual Literacy-Spanish

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

_coreq: BILED 71150
_prereq or coreq: BILED 77100
_Hours 30
_Credits 2

BILED 77800 - Instruction Through the Native Language-Spanish
To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100  
Hours 45 hrs plus 10 hrs of fieldwork,  
Credits 3

- Or -

French language

**BILED 71200 - Bilingual Literacy-French**

Bilingual literacy - French: conducted in French and English and will present how to differentiate instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners. The course aims to develop teachers' ability to plan for language, content and literacy skills by designing a thematic integrated literacy unit. The course will assist teachers in understanding how to develop students' oral language, spelling, grammar, and vocabulary.

prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education  
Hours 30  
Credits 2

**BILED 76800 - Instruction through the Native Language-French**

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

prereq or coreq: BILED 70100 and CEDF 70900 for the MSEd/Childhood Education Grades 1-6 with bilingual extension; for the MSEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100  
Hours 45  
Credits 3

- Or -

Chinese language

**BILED 71300 - Bilingual Literacy-Chinese**

Bilingual Literacy – Chinese focuses on the development of literacy skills in both English and Chinese for students in bilingual programs. The emphasis is on L1 and L2 literacy using narrative and expository text, technology, and the arts as mediums for developing skills. This course will be conducted in Chinese and English.

prereq or coreq: BILED 77100, BILED 77150  
Hours 30  
Credits 2

For the Advanced Certificate Leading to an Extension in Bilingual program: the prereq or coreq is BILED 77150

**BILED 76900 - Instruction through the Native Language-Chinese**
To enhance Chinese language skills of teacher candidates for the purpose of teaching content areas in and through Chinese. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Chinese for the bilingual classroom.

*Hours* 45 hours plus 10 hours of fieldwork

*Credits* 3

**Prereq or Coreq:** For the Childhood education Grades 1-6 with a Bilingual Extension program: BILED 70100, CEDF 70900; For the MSEd in Early Childhood Education Birth through Grade 1 with a Bilingual Extension: Program 1, BILED 70100, ECF 70000; Program 2, none; Program 3, BILED 70100; For the Advanced Certificate Leading to and Extension in Bilingual program: none.

---

**BILED 78200 - Supervised Student Teaching Grades 1–3 and 4–6**

Supervised student teaching at two grade levels in an elementary bilingual setting selected by Hunter College; four full days a week plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*Prereq or coreq:* completion of 39 cr of course work or permission of the program coordinator

*Hours* 60 days (30 in grades 1-3, 30 in grades 4-6) plus 15 hrs of seminar

*Credits* 4

---

- Or one of the following -

**BILED 78500 - Student Teaching in Grades 1–3**

Twenty days of supervised student teaching at grade level 1–3 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

*Prereq:* completion of 39 cr of course work or permission of the program coordinator

*Hours* 30 days student teaching, 15 hrs of seminar plus conferences,

*Credits* 2 cr

**BILED 78300 - Practicum in Grades 1–3**

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

*Prereq:* completion of 39 cr of course work or permission of the program coordinator
**Hours** 15 hrs of seminar plus conferences  
**Credits** 2 cr

- And one of the following -

**BILED 78600 - Student Teaching in Grades 4–6**

Twenty days of supervised student teaching at grade level 4–6 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

*prereq: completion of 39 credits of course work or permission of the program coordinator*  
**Hours** 30 days student teaching, 15 hrs of seminar plus conferences,  
**Credits** 2 cr

**BILED 78400 - Practicum in Grades 4–6**

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

*prereq: completion of 39 cr of course work or permission of the program coordinator*  
**Hours** 15 hrs of seminar plus conferences,  
**Credits** 2 cr

**Exit Requirements**

1. An overall GPA of 3.0.  
2. A grade of B or better in BILED 780 (Bilingual Research Seminar).  
3. Complete the Dignity for All Students Act (DASA) workshop.

This graduate program in Bilingual Early Childhood Education (Academic Plan: ECBB2-MSED) is designed to prepare individuals to become effective teachers with high levels of teaching competencies using two languages of instruction at the early childhood grade range. The program is offered in three languages: Spanish/English, French/English and Chinese/English. This program leads to NYS certification in Early Childhood Education with Bilingual Education Extension.

This program offers three tracks (or subplans):

TRACK 1 (Subplans: ECBB2LSPAN, ECBB2LFREN, ECBB2LCHIN) is for those without NYS certification.

TRACK 2 (Subplan: ECBB2OSPAN, ECBB2OFREN, ECBB2OCHIN) is for those with initial certification in Childhood Education, Special Education or TESOL.

TRACK 3 (Subplan: ECBB2ASPAN, ECBB2AFREN, ECBB2ACHIN) is for those with initial certification in Early Childhood Education.

**Admission Requirements**

**Track 1**

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. An on-site writing sample in English and in Spanish, French or Chinese.
5. Demonstration of satisfactory oral English and Spanish, French or Chinese through an interview conducted with at least two professors.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Track 2**

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or master's degree with GPA of at least 3.5.
2. NYS initial, professional, or permanent certification in Childhood Education, Common Branches Pre-K-6, Special Education, or TESOL.
3. Completion of a satisfactory writing sample in English and in Spanish, French or Chinese.
4. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted with at least two professors.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Track 3**

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or master's degree with GPA of at least 3.5.
2. NYS initial certification in Early Childhood Education.
3. Completion of a satisfactory writing sample in English and in Spanish, French or Chinese.
4. An on-site writing sample in English and in Spanish, French or Chinese and an interview conducted with at least two professors.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.
Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

ECBB2-MSED

Subplans

- TRACK 1:
  - SPANISH - ECBB2LSPAN
  - FRENCH - ECBB2LFREN
  - CHINESE - ECBB2LCHIN

- TRACK 2:
  - SPANISH - ECBB2OSPAN
  - FRENCH - ECBB2OFREN
  - CHINESE - ECBB2OCHIN

- TRACK 3:
  - SPANISH - ECBB2ASPAN
  - FRENCH - ECBB2AFREN
  - CHINESE - ECBB2ACHIN

Total Credits

- TRACK 1 - ECBB2LSPAN, ECBB2LFREN, ECBB2LCHIN: 40-52
- TRACK 2 - ECBB2OSPAN, ECBB2OFREN, ECBB2OCHIN: 33-45
- TRACK 3 - ECBB2ASPAN, ECBB2AFREN, ECBB2ACHIN: 30-36

Master's candidates who have completed some pedagogical courses may be exempted from up to 12 credits (Track 2) or 6 credits (Track 3) of coursework by providing transcripts and course syllabi as evidence that the content is equivalent to courses in the sequence and a grade of at least B has been attained.

Courses for All Tracks

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.
prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels
Credits 3

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)
Credits 3

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 71150 - Fieldwork in Bilingual Literacy

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

coreq: BILED 77100
Hours 75 hrs,
Credits 1 cr

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: BILED 70100
Hours 30 hrs plus 5 hrs of fieldwork and lab,
Credits 2 cr
BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

For the Advanced Certificate Leading to an Extension in Bilingual program: the prereq or coreq is BILED 77150

BILED 76900 - Instruction through the Native Language-Chinese

To enhance Chinese language skills of teacher candidates for the purpose of teaching content areas in and through Chinese. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Chinese for the bilingual classroom.

Hours 45 hours plus 10 hours of fieldwork
Credits 3
Prereq or Coreq: For the Childhood education Grades 1-6 with a Bilingual Extension program: BILED 70100, CEDF 70900; For the MSEd in Early Childhood Education Birth through Grade 1 with a Bilingual Extension: Program 1, BILED 70100, ECF 70000; Program 2, none; Program 3, BILED 70100; For the Advanced Certificate Leading to and Extension in Bilingual program: none.

- And take either -

ECC 71650 - Student Teaching in Early Childhood Bilingual Settings

Two student teaching placements of 30 days each at different age/grade levels (Pre-K–K and 1–2).

prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)
Hours 30 hrs of seminar plus 60 days of student teaching
Credits 3
- Or -

**ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting**

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)

*Hours 15 hrs of seminar plus conferences,*

*Credits 1 *

- And -

**ECC 71850 - Early Childhood Bilingual Student Teaching**

Student teaching for 30 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750. (Not for students who have completed ECC 71650.)

*prereq: ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)*

*Hours 15 hrs of seminar plus 30 days of student teaching*

*Credits 2*

**Additional Courses for Track 1**

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels*

*Credits 3*

**ECF 70100 - Social and Historical Contexts of Early Childhood Education**

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs*

*Credits 3*

**ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2**

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000*
ECC 70500 - Language and Literacy: Birth through Kindergarten

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)
Hours 45 hrs
Credits 3

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300
prereq or coreq: ECF 70200
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels
Credits 3

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students
will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300  
Hours 15 hrs of seminar plus 50 hrs in the field  
Credits 1

**ECC 71300 - The Expressive Arts in Early Childhood**

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs  
Credits 3

**ECC 71400 - Health, Safety and Nutrition in Early Childhood**

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000  
Hours 45 hrs  
Credits 3

**ECC 71500 - Educational Technology in Early Childhood**

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,  
Credits 1 cr

**Additional Courses for Track 2**

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels  
Credits 3
ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

Hours 45 hrs
Credits 3

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

prereq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300
prereq or coreq: ECF 70200
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels
Credits 3

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300
ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Additional Courses for Track 3

7-13 credits from the courses below based on a transcript review of prior coursework in early childhood education.

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

prereq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70800 - Children with Special Needs: Birth through Grade 2
The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Exit Requirements

1. An overall GPA of 3.0
2. Completion of ECC 72000 (Integrative Seminar in Early Childhood Education) with a grade of B or better.
3. Track 2 and 3 students must maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

Blind and Visually Impaired - MSEd

Program Coordinator
The School of Education offers graduate programs that prepare students to become teachers of the Blind and Visually Impaired. Graduates of the Blind and Visually Impaired program will be prepared to teach learners who are blind or visually impaired in diverse PreK-12 settings including residential schools for the blind, classroom programs and itinerant teaching settings in public and private schools.

The master's degree in Blind and Visually Impaired offers two programs. Program 1 (Academic Plan: BVI-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and blind and visually impaired. Program 2 (Academic Plan: TCHBL-MSED) is for those who hold NYS certification and leads to single certification in blind and visually impaired.

**Admission Requirements**

**Program 1**

For applicants who do not hold NYS certification in Childhood Education

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;  
   or  
   A master's degree from an accredited institution with a GPA of at least 3.5;  
   plus  
   A liberal arts or science major or interdisciplinary concentration of at least 30 credits.

2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.

3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Program 2**

For applicants who hold Early Childhood, Childhood, PreK-Grade 6, Middle Childhood or Adolescent Education NYS certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;  
   or  
   A master's degree from an accredited institution with a GPA of at least 3.5;  
   plus

2. NYS initial, professional, or permanent certification in Early Childhood, Childhood, PreK-grade 6, Middle Childhood or Adolescent Education. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 715, a 1-credit course covering these topics.

3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate degree.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for these programs.*

**Progress Standards**
1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plans

- Program 1: BVI-MSED
- Program 2: TCHBL-MSED

Total Credits

- BVI-MSED: 47-60
- TCHBL-MSED: 40-41

Courses for Programs 1 and 2

SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

Hours 3 hrs
Credits 3 cr

SPED 70250 - Classroom Management in Special Education and Inclusive Settings

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100
Hours Includes 20 hrs of field experience, 45 hrs,
Credits 3 cr
SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100
Hours (includes 10 hours of field experience),
Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,
Credits 3 cr

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000
Hours includes 10 hrs of field experience
Credits 3 cr

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000
Hours includes 10 hrs of field experience
Credits 3 cr

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities
The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

*prereq or coreq:* SPED 70000, SPED 79000  
*Hours* Includes 15 hrs of field experience  
*Credits* 3

**SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments**

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

*prereq or coreq:* SPED 74000, SPED 74100  
*Hours* Includes 15 hrs of field experience  
*Credits* 3

**SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments**

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

*prereq or coreq:* SPED 74000, SPED 74100  
*Hours* Includes 10 hrs of field experience  
*Credits* 3

**SPED 74400 - Assistive Technology for Learners with Visual Impairments**

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

*prereq:* SPED 74300  
*Hours* 45 hrs,  
*Credits* 3 cr

**SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments**
Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

*prereq or coreq: SPED 74000, 74100, 74200, 74300*
*Hours 15 hrs, Credits 1 cr*

**SPED 74600 - Educational Implications of Learners Who Are Deafblind**

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

*prereq: SPED 70000, SPED 79000 or SPED 74100*
*Hours Includes 10 hrs of field experience*
*Credits 3*

**SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments**

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

*prereq or coreq: SPED 74000, 74100*
*Hours includes 10 hrs of filed experience*
*Credits 3 cr*

- Take either -

**SPED 74800 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 12**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired at two grade levels that do not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, adapting sensory environments, selecting appropriate learning media, adapting curriculum through tactile graphics, developing IEPs, and forming partnerships with families.

*prereq or coreq: SPED 74000, SPED 74100*
*Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels, Credits 4 cr*
- Or one of the following -

**SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

*prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr*

**SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

*prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr*

**SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

*prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr*

**SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field
placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

- Plus one of the following -

**SPED 74854 - Student Teaching 2: Blindness and Visual Impairment, Preschool–Grade 6**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plan, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours structured conferences, plus 20 days student teaching.
Credits 1

**SPED 74855 - Student Teaching 2: Blindness and Visual Impairment, Grade 7–12**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnership with families.

prereq or coreq: SPED 74000, SPED 74100
Hours Structured conferences, plus 20 days student teaching
Credits 1 cr

**SPED 74856 - Supervised Practicum 2: Blind and Visual Impairment Preschool–Grade 6**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placement. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours Structured conferences
Credits 1 cr

**SPED 74857 - Supervised Practicum 2: Blind and Visual Impairment, Grades 7–12**
Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placement. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100  
Hours Structured conferences  
Credits 1 cr

Additional Courses for Program 1

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work  
Credits 3

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900  
Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900  
Hours includes 10 hrs of fieldwork  
Credits 3

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an
understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue
- and either -
an original written research proposal
- or -
a written proposal for competitive grant funding.

4. Complete the Dignity for All Students Act (DASA) workshop.

**Childhood Education Grades 1-6 - MSEd**

**Program Director**

Karen Koellner  
(212) 772-4675  
913 West  
kkoeellne@hunter.cuny.edu

This program (Academic Plan: CHED-MSED) leads to NYS certification in Childhood Education. It is nationally recognized by the Association for Childhood Education International (ACEI) and prepares teachers for work in NYC public schools. This program is not designed for those with prior NYS certification in Childhood Education; Those who already hold Childhood Education certification should consider our programs in Literacy, Special Education, Early Childhood Education, TESOL, Elementary Math Specialist or Childhood Education STEM Specialization.

The Childhood Education program offers two tracks (or subplans).

- Track 1 (Subplan: CHEDTKONE) is an evening program designed with career changers in mind that allows students to adapt the pace of the program to their needs.
- Track 2 (Subplan: CHEDTKTWO) is a two-year, full-time, daytime, clinically-rich program.

**Admission Requirements**

1. A bachelor's degree from an accredited institution with a grade point average of at least 3.0.
2. A liberal arts or sciences major (or interdisciplinary concentration) of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Progress Standards**

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards  
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

- CHEDTKONE: 36-49
- CHEDTKTWO: 53

Track 1

Subplan: CHEDTKONE

CEDC 70000 - The Art of Effective Teaching

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

_prereq or coreq: CEDF 70900
Hours includes 5 hrs of fieldwork
Credits 3

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

_prereq or coreq: CEDF 70900 and CEDC 70000
Credits 3

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.
CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

CEDC 71500 - Fieldwork: Reading and Social Studies

Supervised experiences in pedagogical applications of literacy and social studies methods courses. Students will complete six hours of fieldwork per week for a minimum of 75 contact hours per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individual and small groups of children. Students will be placed in Hunter College-selected elementary schools and other educational programs.
CEDC 72200 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq: CEDF 70900
coreq: CEDC 71500 and CEDC 73000

CEDC 73000 - Perspectives on Literacy Across the Content Areas

Literacy across the curriculum. Skills, strategies and techniques to teach reading and writing in the content areas will be developed. Expository as well as narrative texts will be utilized.

prereq: CEDF 70900; CEDC 70400
coreq: CEDC 71500 and 72200

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Hours 45 hrs
Credits 3

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work
Credits 3
CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

prereq: CEDF 70900
Hours includes 5 hrs of field work
Credits 3

CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

Credits 3

CEDF 79200 - Integrative Seminar: Research in Childhood Education

Students prepare research proposals on topics which summarize and apply previous learnings. Written and oral presentations.

prereq: completion of 31 cr. of course work including CEDC 73000 and CEDF 71600 or permission of the childhood education adviser
Hours 45 hrs
Credits 3

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

- Take either -

CEDC 72400 - Student Teaching in Grades 1–3 and 4–6

Supervised student teaching at two grade levels, 1–3 and 4–6, in an elementary school selected by Hunter College; four full days a week plus conferences and professional development workshops.
Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus a minimum of 60 days of student teaching
Credits 5

- Or one of the following -

CEDC 72500 - Student Teaching in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 728: Practicum in grades 4–6. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Not for students who have completed EDC 72400 or 72700.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus 30 days of student teaching
Credits 3

CEDC 72700 - Practicum in Grades 1–3

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800. Note: Applications for spring semester student teaching are due in October; applications for fall semester practicum are due in March. Not for students who have completed CEDC 72400 or 72500.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus supervision and conferences
Credits 2

- Plus one of the following -

CEDC 72600 - Student Teaching in Grades 4–6

Teacher candidates who take this course must also take CEDC 72500 or CEDC 72700. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 72700 Practicum in grades 1–3. Not for students who have completed CEDC 72400 or 72800.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser

Hours 30 hrs of seminar plus 30 days of student teaching
Credits 3
CEDC 72800 - Practicum in Grades 4–6

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72700. Note: Applications for spring semester practicum are due in October; applications for fall semester student teaching are due in March. Not for students who have completed CEDC 72400 or 72600.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus supervision and conferences
Credits 2

Track 2 - Clinically Rich

Subplan: CHEDTKTWO

CEDC 70100 - Beginning Elementary Literacy Methods

Beginning Elementary Literacy Methods is the first of a two-part sequence designed for pre-service graduate teacher candidates as an introduction to the content and procedures used to teach English language arts to elementary students. Students will learn how children develop reading and writing concepts and abilities, become familiar with children's literature, both nonfiction and fiction, and understand current practices of literacy instruction and assessment.

coreq: This course should be taken with CEDF 70900, CEDC 70500, EDSEL 79600, CEDC 77200 Fieldwork & Teaching Seminar 1.
Hours 45
Credits 3

CEDC 70200 - Advanced Elementary Literacy Methods

Advanced Elementary Literacy Methods is the second course of a two-part sequence designed for graduate, pre-service teacher candidates to expand and apply their understanding of the pedagogical strategies and content necessary to teach English language arts to elementary students. In this course, teacher candidates will demonstrate effective literacy instruction through assessing, planning, and teaching elementary students' learning in all facets of literacy and throughout the content areas.

coreq: This course should be taken with CEDF 71000, CEDC 70300, CEDC 70600 Reflective Practice in Elementary Social Studies Curriculum Development, SPED 70800, CEDC 77300 Fieldwork & Teaching Seminar 2.
Hours 45
Credits 3

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000
Credits 3

CEDC 70500 - Mathematics Curriculum and Methods
An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70600 - Reflective Practice in Elementary School Social Studies Curriculum Development

The course addresses the knowledge, skills, and attitudes for teaching the Social Studies curriculum to elementary grade students. This course is designed to introduce the content of the New York State Social Studies curriculum and the national standards for teaching Social Studies (http://www.socialstudies.org/standards/strands/) and focus on multiple instructional strategies to deliver this curriculum. There is an emphasis on integrating children's literature, the arts, and technology into the Social Studies curriculum and on experiencing the kinds of instructional methods and strategies recommended as current best practices for teaching the Social Studies curriculum.

prereq or coreq: To be taken with CEDF 71000, CEDC 70300, CEDC 72200, CEDC 70200, CEDC 77300.
Hours 45
Credits 3

CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3

CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3

CEDC 73900 - Advanced Methods in Elementary School: Mathematics, Science, and Social Studies
This graduate advanced methods builds on and extends the initial methods courses in the areas of mathematics, science, and social studies and also explicitly connects theory from mathematics, social studies, and science methods courses to practice by supporting teacher candidates to design and enact lessons in the context of the elementary school classroom. Students will grapple with the complexities of how students learn content and design/conduct assessments, develop lesson plans and unit plans, and critically reflect on their teaching practice. Students will face the realities of teaching content in schools given the school resources in terms of curriculum and technology and within the curriculum guidelines of the state and district.

**prereq or coreq:** CEDC 70300, CEDC 70600, CEDC 70500  
**Credits 3**

*In order to take this course students have to be accepted into the 'clinically rich’ track of the Masters in Childhood Education program that leads to certification.*

**CEDC 77200 - Fieldwork & Teaching Seminar 1**

Fieldwork & Teaching Seminar 1 is the initial experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

**coreq:** This course should be taken with CEDF 70900, CEDC 70500, CEDC 70100, EDESL 77100.  
**Hours 30**  
**Credits 2**  
30 days (field) & 15 hrs (course)

**CEDC 77300 - Fieldwork & Teaching Seminar 2**

Fieldwork & Teaching Seminar 2 is the second experience in an elementary partner school for the clinically rich track of the graduate childhood program.

**prereq or coreq:** This course should be taken with CEDF 71000, CEDC 70300, CEDC 70600, CEDC 70200.  
**Hours 30**  
**Credits 2**  
30 days (field) & 15 hrs (course)

**CEDC 77400 - Fieldwork & Teaching Seminar 3**

Fieldwork & Teaching Seminar 3 is the third experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

**prereq or coreq:** This course should be taken with CEDF 71600, CEDC 73900, CEDC 70700, CEDC 71300.  
**Hours 30**  
**Credits 2**  
45 days (field) & 15 hrs (course)

**CEDC 77500 - Fieldwork & Teaching Seminar 4**

Fieldwork & Teaching Seminar 4 is the fourth and final experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

**prereq or coreq:** This course should be taken with CEDC 71000.  
**Hours 45**  
**Credits 3**  
75 days (field) & 15 hrs (course)
CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Hours 45 hrs
Credits 3

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work
Credits 3

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

prereq: CEDF 70900
Hours includes 5 hrs of field work
Credits 3

CEDF 71500 - Diversity in the American School

Advanced, graduate-level survey of current issues and theories of diversity and their impact upon the contemporary American school. Topics will be from an interdisciplinary perspective with attention to social policy implications.

Hours 45 hrs
Credits 3

CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

Credits 3

EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: EDESL 79600/79610
SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework

Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

Exit Requirements

1. An overall GPA of at least 3.0.
2. Track 1 students only: a grade of B or better in CEDF 792.
3. Complete the Dignity for All Students Act (DASA) workshop.

Childhood Education with a Specialization in Science, Technology, Engineering and Mathematics (STEM)
Professional Certificate- MSEd

Program Coordinator

Dennis Robbins
(212) 772-4287
907 West
drobb@hunter.cuny.edu

This program (Academic Plan: CEMSC-MSED) prepares Childhood Education teachers to become better qualified in teaching STEM subjects in the elementary grades. It requires initial NYS certification in Childhood Education and leads to professional certification in that area.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0.
2. NYS initial, professional or permanent certification in Childhood Education.
3. A personal statement.
4. Two letters of recommendation including one from a supervisor.
5. Successful completion with a grade of C or better of college level mathematics course and a lab science course. Those who do not meet the mathematics requirement must successfully complete MATH 104 and MATH 105 in the School of Arts and Sciences. Those who do not meet the science requirement must take a one semester course in a lab science (biology, chemistry, physics or geology).
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress hold due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

CEMSC-MSED

Total Credits

33

**CEDC 71600 - Educational Technology in Mathematics and Science Teaching/Learning**

An advanced educational technology course for students concentrating in mathematics and science at the elementary school level. Students will link prior knowledge of instructional technology to curriculum development creating the strategies to design integrated learning materials in mathematics and science.

*Hours 45 hrs.*
*Credits 3*

**CEDC 74000 - Contemporary Mathematics in the Elementary School**

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

*Hours 45 hrs.*
*Credits 3*

**CEDC 74200 - Workshop Seminar in Elementary School Mathematics/Science**

The major course goals are to continue to develop a foundation for the growth of the professional mathematics/science educator and to increase the effectiveness as a curriculum decision-maker. Through selective experiences, the course will focus on instructional styles and strategies.
CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.

CEDC 74700 - Number Theory and Algebra in Elementary Curriculum

A study of the underpinnings of Number Theory and Algebra and the role they play in curriculum, teaching and student learning. This course gives participants a deeper understanding of algebra and how students learn transition from arithmetic to algebraic reasoning.

CEDC 74800 - Geometry and Measurement in the Elementary

A study of the underpinnings of Geometry and Measurement and the role they play in curriculum, teaching, and supporting student learning. Topics in Geometry and Measurement are important concepts at the elementary school level and this course gives participants a deeper background in these two areas. Additionally, pedagogical practices important in these areas will be examined as well as a deep study of how students develop these concepts through curriculum, representations, manipulatives, and pedagogical practices will be discussed.

CEDC 77600 - Planet Earth: Earth and Space Sciences for Elementary School Teachers
Methods and content of teaching Earth and Space sciences topics to children. The course integrates issues of pedagogy and science content through interactive class meetings. Students will experience hands-on and mind-on science activities appropriate for the grade school level. Courses materials are aligned with K-12 Next Generation Science Standards (2013). All students are expected to learn science content, student's alternative ideas, lesson design and methods of teaching life science.

Hours 3 hrs
Credits 3

CEDC 77700 - Physical Science Background for Elementary Teachers

Concepts in the physical sciences, chemistry and physics necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.

Hours 45 hrs
Credits 3

CEDC 77800 - Life Sciences

The methods and content of teaching life science topics to children. The course integrates issues of pedagogy and science content through interactive class meetings. Students will experience hands-on and mind-on science activities appropriate for the grade school level. Courses materials are aligned with K-12 Next Generation Science Standards (2013). All students are expected to learn science content, student's alternative ideas, lesson design and methods of teaching life science.

Hours 3
Credits 3

CEDC 77900 - Robotics and Engineering

New methods of teaching innovative school curricula in robotics and engineering. Students will design and program their own robotic vehicles and learn elementary school materials by a hands-on process and project work. The curriculum is modeled on the First LEGO League competitions popular at the grade school-level. Engineering is Elementary, a school curriculum to improve children's understanding of engineering principles, is also explored from a student-centered perspective. These new STEM curriculum for elementary schools are supported by K-12 Next Generation Science Standards (2013). All students who enroll in the course will emerge with training to teach these curricula in elementary schools, in informal settings and after school programs.

Hours 3
Credits 3

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

Childhood Special Education: Behavior Disorders - MSEd
This graduate program (Academic Plan: CSPE-MSED and CSPED-MSED) prepares teacher candidates for effective teaching of students with behavior/mental challenges autism, and learning disabilities. Graduates from the behavior disorders track of the Childhood Special Education program are well prepared to teach in all educational settings, serving in hospitals, clinics, and public, charter, private, and parochial schools. They do so in roles such as collaborative teach teachers (CTT), inclusion support providers (“push in” teachers), head teachers in self-contained classrooms, behavior support personnel, and general education teachers.

The master's degree in Childhood Special Education: Behavior Disorders offers two programs. Program 1 (Academic Plan: CSPE-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and students with disabilities grades 1-6. Program 2 (Academic Plan: CSPED-MSED) is for those who hold NYS certification and leads to single certification in students with disabilities grades 1-6.

Admission Requirements

Program 1

For applicants who do not hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Program 2

For applicants who hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
2. NYS initial or professional certification in Childhood Education Grades 1-6 or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.
Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plans

- Program 1: CSPE-MSED
- Program 2: CSPED-MSED

Total Credits

- CSPE-MSED: 43-55
- CSPED-MSED: 39

Courses for Programs 1 and 2

**SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education**

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

*Hours 3 hrs
Credits 3 cr*

**SPED 70100 - Assessment of Students with Disabilities**

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

*prereq or coreq: SPED 70000
Hours 45 hours; includes 10 hrs of field experience
Credits 3*
SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000
Hours 45 hours; includes 15 hrs of field experience
Credits 3

SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000
coreq: current employment as a teacher or enrollment in student teaching
Hours Includes 10 hrs of field experience, 45 hrs,
Credits 3 cr

SPED 70450 - Teaching Culturally and Linguistically Diverse Students

This course is a review of the historical, social, and legal foundations of education as it pertains to special education, education of students including those with limited proficiency in English, and multicultural backgrounds. It is an overview of issues and best practices for teaching students from culturally and linguistically diverse backgrounds who have historically been underserved in educational systems due to language, race, class, or social status within the context of special education.

prereq: SPED 70000 or SPED 70050
Hours 3 hrs
Credits 3 cr

SPED 70550 - Use of Instructional Technology in the Special Education Classroom

This course explores how technology can support students with learning disabilities and behavior disorders. More than simply a "how to" course, this class aims to give teachers the tools needed to best assist their students and evaluate the use of technology in their classrooms. This is a lab course where some of the learning occurs over blocks of time spent in direct experience. Class sessions are: demonstrations; hands-on exploration; feedback; coaching; and direct exploration of both hardware and software, applying them both as teacher tools and as instructional means for students with disabilities.

prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities
Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

prereq or coreq: SPED 70000 or SPEDE 76800

**SPED 75000 - The Study of Behavior Disorders**

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs.

prereq or coreq: SPED 70000

**SPED 75100 - Methods and Materials for Teaching Students with Behavior Disorders**

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students.

prereq or coreq: SPED 75000

**SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)**

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000

**SPED 72350 - Math for Students with Disabilities (Non-LD Specialization)**

Principles, methods, and specially designed mathematics instruction for students with disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and
compensations

_prereq: SPED 70000 or SPED 70050_

Hours 2 hrs
Credits 2 cr

**SPED 72450 - Writing for Students with Disabilities (for those not in LD Specialization), Methods 3**

In this course, teacher candidates learn methods for teaching all aspects of writing to children with learning disabilities using various research-based approaches that include: letter formation, handwriting, spelling, sentence structures, paragraph building, essay writing, and the writing process.

_prereq: SPED 70000 or SPED 70050_

Hours 2 hrs
Credits 2 cr

- PLUS -

ONE OF THE FOLLOWING

**SPED 75254 - Student Teaching: Behavior Disorders Grades 1-6 (Part 1)**

This student teaching seminar and supervision are intended to provide supported teaching experience through the exploration of methods for differentiation. Teacher candidates will learn how to address the needs of a diverse learning group, including but not limited to students with Behavior Disorders.

_prereq: 18 credits and 1 methods course_

Hours 3 hrs
Credits 3 cr

**SPED 75255 - Supervised Practicum: Behavior Disorders Grades 1-6 (Part 1)**

This student teaching seminar and supervision are intended to provide you with supported teaching experience, to expand your practical knowledge, develop your instructional skills, increase your repertoire of specialized practices, and deepen your responsiveness to students with special learning needs. Through the 83 exploration of methods for differentiation you will learn how to address the needs of a diverse learning group, including but not limited to Behavior Disorders.

_prereq: 18 credits and 1 methods course_

Hours 3 hrs
Credits 3 cr

- AND -

ONE OF THE FOLLOWING

**SPED 75256 - Student Teaching: Behavior Disorders Grades 1-6 (Part 2)**

This student teaching seminar and supervision is the first of two semester-long experiences intended to provide supported teaching, practical knowledge, and increased facility with specialized practices for working with students with special learning needs.

_prereq: 18 credits and 1 methods course_
SPED 75257 - Supervised Practicum: Behavior Disorders Grades 1-6 (Part 2)

This practicum seminar is intended to provide supported teaching experiences, practical knowledge, and increased facility with specialized practices when working with students with special learning needs.

prereq: 18 credits and 1 methods course

Additional Courses for Program 1

Students may be exempted from up to 12 credits of the general and special education requirements on the basis of equivalent courses taken at either the graduate or undergraduate level. Students, however, may not be exempted from CEDC 729.

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

CEDC 70550 - Mathematics Curriculum and Methods
For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

**prereq or coreq:** CEDF 70900

*Hours includes 10 hrs of fieldwork*

*Credits 3*

**CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology**

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

**prereq or coreq:** CEDF 70900 and CEDC 70450

*Hours 30 hrs, Credits 2*

**CEDC 72900 - Fieldwork in Childhood Education for Special Educators**

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

**prereq:** CEDF 70900, CEDC 70450 and 70550

*Hours 15 hrs of seminar plus 50 hrs fieldwork, Credits 1*

**HED 71500 - Health Education for Special Educators**

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

*Hours 15 hrs, Credits 1 cr*

**Exit Requirements**

1. An overall GPA of 3.0.
2. Program 2 must maintain a valid and appropriate NYS certification in general education.
3. Complete the Dignity for All Students Act (DASA) workshop.
4. EdTPA or "Action Research Project" in second semester of Student Teaching/Practicum.

**Childhood Special Education: Learning Disabilities - MSEd**

**Program Advisors**

William Longsworth  
943 West Building  
(212) 772-4635  
wlongswo@hunter.cuny.edu

This graduate program prepares students to teach in Childhood Special Education environments, including self-contained and inclusion settings. Graduates from the learning disabilities program will be able to serve in such roles as inclusion support providers; and as collaborative team teachers with general education teachers in public and private schools, private agencies, hospitals and clinics.

The master's degree in Childhood Special Education: Learning Disabilities offers two programs. Program 1 (Academic Plan: CSPE-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and students with disabilities grades 1-6. Program 2 (Academic Plan: CSPED-MSED) is for those who hold NYS certification and leads to single certification in students with disabilities grades 1-6.

**Admission Requirements**

**Program 1**

For applicants who do not hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
2. A master's degree from an accredited institution with a GPA of at least 3.5.
3. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
4. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate.

**Program 2**

For applicants who hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or  
   A master's degree from an accredited institution with a GPA of at least 3.5;
2. NYS initial or professional certification in Childhood Education Grades 1-6 or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate.
Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plans

- Program 1: CSPE-MSED
- Program 2: CSPED-MSED

Total Credits

- CSPE-MSED: 44-56
- CSPED-MSED: 40

Courses for Programs 1 and 2

SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

Hours 3 hrs
Credits 3 cr

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000
Hours 45 hours; includes 10 hrs of field experience
Credits 3
**SPED 70200 - Classroom Management in Special Education and Inclusive Settings**

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

*prereq or coreq: SPED 70000  
Hours 45 hours; includes 15 hrs of field experience  
Credits 3*

**SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders**

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

*prereq: SPED 70000  
coreq: current employment as a teacher or enrollment in student teaching  
Hours Includes 10 hrs of field experience, 45 hrs,  
Credits 3 cr*

**SPED 70450 - Teaching Culturally and Linguistically Diverse Students**

This course is a review of the historical, social, and legal foundations of education as it pertains to special education, education of students including those with limited proficiency in English, and multicultural backgrounds. It is an overview of issues and best practices for teaching students from culturally and linguistically diverse backgrounds who have historically been underserved in educational systems due to language, race, class, or social status within the context of special education.

*prereq: SPED 70000 or SPED 70050  
Hours 3 hrs  
Credits 3 cr*

**SPED 70550 - Use of Instructional Technology in the Special Education Classroom**

This course explores how technology can support students with learning disabilities and behavior disorders. More than simply a "how to" course, this class aims to give teachers the tools needed to best assist their students and evaluate the use of technology in their classrooms. This is a lab course where some of the learning occurs over blocks of time spent in direct experience. Class sessions are: demonstrations; hands-on exploration; feedback; coaching; and direct exploration of both hardware and software, applying them both as teacher tools and as instructional means for students with disabilities.

*prereq: SPED 70000 or SPED 70050  
Hours 2 hrs  
Credits 2 cr*

**SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**
Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

**SPED 78000 - The Study of Learning Disabilities in Children and Adolescents**

History of theory, practices and conceptualizations of learning disabilities and mild/moderate mental retardation. Current issues, controversies and research, offering frameworks for appropriate instruction. Includes student characteristics, LD as an approach to teaching, family and cultural needs, as well as services and settings from special schools to supported inclusion.

**SPED 78100 - Reading for Students with Learning Disabilities Grades 1-6, Methods 1**

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

**SPED 72300 - Math for Students with Learning Disabilities**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations.

**SPED 72400 - Writing for Students With Learning Disabilities, Methods 3**

In this course, teacher candidates learn methods for teaching all aspects of writing to children with learning disabilities using various research-based approaches that include: letter formation, handwriting, spelling, sentence structures, paragraph building, essay writing, and the writing process.
Hours 2 hrs
Credits 2 cr

**SPED 78200 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1**

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100
prereq or coreq: SPED 70000
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Fall only (note: must take concurrently with SPED 78100 and must take SPED 78300/78400 in semester immediately following)

**SPED 78400 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2**

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use

prereq: SPED 781/782
coreq: SPED 783
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Spring only

- And -

**SPED 72500 - Student Teaching: Learning Disabilities Grades 1-6 (Part 1)**

This student teaching seminar and supervision are intended to provide supported teaching experience through the exploration of methods for differentiation. Teacher candidates will learn how to address the needs of a diverse learning group, including but not limited to students with Learning Disabilities and English Language Learners.

prereq: SPED 70000 or SPED 70050; SPED 78200; SPED 78400
Hours 3 hrs
Credits 3 cr

**SPED 72600 - Student Teaching: Learning Disabilities Grades 1-6 (Part 2)**

This student teaching seminar and supervision is the first of two semester long experiences intended to provide supported teaching, practical knowledge, and increased facility with specialized practices for working with students with special learning needs.
prereq: SPED 78200; SPED 78400; either SPED 72500 or SPED 72550

Hours 3 hrs
Credits 3 cr

- Or -

BOTH OF THE FOLLOWING

**SPED 72550 - Supervised Practicum: Learning Disabilities Grades 1-6 (Part 1)**

This student teaching seminar and supervision are intended to provide you with supported teaching experience, to expand your practical knowledge, develop your instructional skills, increase your repertoire of specialized practices, and deepen your responsiveness to students with special learning needs. Through the exploration of methods for differentiation you will learn how to address the needs of a diverse learning group, including but not limited to Learning Disabilities and English Language Learners.

prereq: SPED 78200; SPED 78400

Hours 3 hrs
Credits 3 cr

**SPED 72650 - Supervised Practicum: Learning Disabilities Grades 1-6 (Part 2)**

This practicum seminar is intended to provide supported teaching experiences, practical knowledge, and increased facility with specialized practices when working with students with special learning needs.

prereq: SPED 78200; SPED 78400; either SPED 72500 or SPED 72550

Hours 3 hrs
Credits 3 cr

- Or -

BOTH OF THE FOLLOWING

- SPED 72500 - Student Teaching: Learning Disabilities Grades 1-6 (Part 1)
- SPED 72650 - Supervised Practicum: Learning Disabilities Grades 1-6 (Part 2)

**Additional Courses for Program 1**

Students may be exempted from up to 12 credits of the general and special education requirements on the basis of equivalent courses taken at either the graduate or undergraduate level. Students, however, may not be exempted from CEDC 729.

**CEDF 70900 - Child Development Grades 1-6**

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work
Credits 3

**CEDC 70350 - Teaching Science in the Elementary School**
For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

*prereq or coreq: CEDF 70900*

**Credits 3**

**CEDC 70450 - Teaching Developmental Reading**

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

*prereq or coreq: CEDF 70900*

*Hours includes 10 hrs of fieldwork*

**Credits 3**

**CEDC 70550 - Mathematics Curriculum and Methods**

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

*prereq or coreq: CEDF 70900*

*Hours includes 10 hrs of fieldwork*

**Credits 3**

**CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology**

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

*prereq or coreq: CEDF 70900 and CEDC 70450*

*Hours 30 hrs,*

**Credits 2**

**CEDC 72900 - Fieldwork in Childhood Education for Special Educators**

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills,
acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

**prereq:** CEDF 70900, CEDC 70450 and 70550

**Hours** 15 hrs of seminar plus 50 hrs fieldwork

**Credits** 1

**HED 71500 - Health Education for Special Educators**

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

**Hours 15 hrs,**

**Credits 1 cr**

**Exit Requirements**

1. An overall GPA of 3.0.
2. Program 2 must maintain a valid and appropriate NYS certification in general education.
3. Complete the Dignity for All Students Act (DASA) workshop.
4. EdTPA or "Action Research Project" in second semester of Student Teaching/Practicum.

**Childhood Special Education: Severe/Multiple Disabilities (including Deafblindness) - MSEd**

**Program Coordinator**

L. Beth Brady
929 West Building
(212) 772-4229
lbrady@hunter.cuny.edu

This graduate program prepares students to teach in Childhood Special Education environments, including self-contained and inclusion settings. Graduates from the severe/multiple disabilities program will be able to serve in such roles as specialized teachers of learners with severe disabilities, including deafblindness; inclusion support providers; and as collaborative team teachers with general education teachers in public and private schools, private agencies, hospitals and clinics. This program leads to certification in Students with Disabilities Grades 1-6 and an extension annotation in Severe and Multiple Disabilities.

The master's degree in Childhood Special Education: Severe/Multiple Disabilities offers two programs. Program 1 (Academic Plan: CSED-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and students with disabilities grades 1-6. Program 2 (Academic Plan: CSEDD-MSED) is for those who hold NYS certification and leads to single certification in students with disabilities grades 1-6.

**Admission Requirements**

**Program 1**
For applicants who do not hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
   or
   A master's degree from an accredited institution with a GPA of at least 3.5.
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Program 2

For applicants who hold NYS Childhood or PreK-6 Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;
   or
   A master's degree from an accredited institution with a GPA of at least 3.5;
2. NYS initial or professional certification in Childhood Education Grades 1-6 or PreK-grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plans

- Program 1: CSED-MSED
- Program 2: CSEDD-MSED

Total Credits

- CSED-MSED: 44-56
- CSEDD-MSED: 37
Courses for Programs 1 and 2

**SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education**

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

*Hours 3 hrs*
*Credits 3 cr*

**SPED 70250 - Classroom Management in Special Education and Inclusive Settings**

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

*prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100*
*Hours Includes 20 hrs of field experience, 45 hrs,*
*Credits 3 cr*

**SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

*prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100*
*Hours (includes 10 hours of field experience),*
*Credits 3 cr*

**SPED 70700 - Research Seminar: Issues in Special Education**

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

*Hours 45 hrs,*
*Credits 3 cr*

**SPED 74600 - Educational Implications of Learners Who Are Deafblind**
Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100
Hours Includes 10 hrs of field experience
Credits 3

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience

SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr.

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities
The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000
Hours Includes 15 hrs of field experience
Credits 3

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours Includes 15 hrs of field experience
Credits 3 cr

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000
Hours includes 10 hrs of field experience, 30 hrs
Credits 2 cr

Take two of the following (must include two different grade levels)

SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching.
Credits 2 cr

SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6
Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus 20 days of student teaching,
Credits 2 cr

SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3

Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hours seminar, plus conferences,
Credits 2 cr

Additional Courses for Program 1

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work
Credits 3

CEDC 70350 - Teaching Science in the Elementary School
For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

_prereq or coreq: CEDF 70900
Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

_prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

_prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

_prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2

CEDC 72900 - Fieldwork in Childhood Education for Special Educators

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills,
acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue - and either - an original written research proposal - or - a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

Deaf and Hard-of-Hearing - MEd

Program Coordinator

Elaine Gale
(866) 922-9043 (videophone)
918 West
egale@hunter.cuny.edu

The School of Education offers graduate programs that prepare students to become teachers of the Deaf and Hard of Hearing. Graduates of the Deaf and Hard of Hearing program typically become itinerant or classroom teachers for students who are deaf and hard of hearing with a wide range of hearing levels and communication modality, both signed and oral.

The master's degree in Deaf and Hard of Hearing offers two programs. Program 1 (Academic Plan: DEAFN-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and deaf and hard of hearing. Program 2 (Academic Plan: DEAFW-MSED) is for those who hold NYS certification and leads to single certification in deaf and hard of hearing.

Admission Requirements

Program 1
For applicants who do not hold NYS certification in Childhood Education

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5; plus
   A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Program 2

For applicants who hold Early Childhood, Childhood, PreK-Grade 6, Middle Childhood or Adolescent Education NYS certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5; plus
2. NYS initial, professional, or permanent certification in Early Childhood, Childhood, PreK-grade 6, Middle Childhood or Adolescent Education. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 715, a 1-credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plans

- Program 1: DEAFN-MSED
- Program 2: DEAFW-MSED

Total Credits
Courses for Programs 1 and 2

SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

*Hours 3 hrs
*Credits 3 cr

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

*prereq or coreq: SPED 70000
*Hours 45 hours; includes 10 hrs of field experience
*Credits 3

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

*prereq or coreq: SPED 70000
*Hours 45 hours; includes 15 hrs of field experience
*Credits 3

SPED 70700 - Research Seminar: Issues in Special Education

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

*Hours 45 hrs,
*Credits 3 cr

SPED 72000 - American Sign Language I
An intensive first course in American Sign Language (ASL), designed to establish a foundation of ASL communicative competence. Emphasizes ASL grammar, vocabulary, receptive and expressive skills, fingerspelling, numbers, and spatial and pronominal reference.

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience, 90 hrs lab,
Credits 3 cr

SPED 72100 - American Sign Language II

This intensive course continues material covered in SPED 720. Emphasizes increased communicative competence in ASL, as well as grammar, vocabulary, and receptive and expressive skills.

prereq: SPED 72000

Hours Includes 10 hrs of field experience 90 hrs lab,
Credits 3 cr

SPED 72200 - The Study of ASL Educational Linguistics

Focus on the linguistic structure of ASL: phonology, morphology, syntax, pragmatics, and discourse rules. Traces acquisition of ASL during infancy, childhood and adolescent. Differences are highlighted between ASL and English linguistics, as well as the interaction between such structures and children's learning. ASL is the instructional language used to teach this course.

prereq: SPED 72100

Hours 60 hrs lab,
Credits 2 cr

SPED 73000 - Education of Students Who Are Deaf and Hard-of-Hearing

History of theory, practice and conceptualizations in the education of students who are deaf and hard-of-hearing. The study of language acquisition (English and ASL), bilingualism, and learning English as a second language in hearing and deaf children. Linguistic understanding and analysis of the components of language proficiency. Educational settings, issues of inclusion, and use of technology.

Hours Includes 10 hours of field experience 45 hrs,
Credits 3 cr

SPED 73100 - Reading and Writing Development for Students Who Are Deaf and Hard-of Hearing: Methods 1

Theoretical and practical aspects of deaf children's receptive and expressive language use. Instructional procedures used to facilitate language acquisition in deaf and hard-of-hearing children and their learning to read and write. Assessment, instructional procedures, specific remediation techniques, and technology supports.
prereq: SPED 70000 and SPED 73000
coreq: must take SPED 73300 in semester immediately following.
Hours 3 hrs
Credits 3 cr.
Fall only

**SPED 73300 - Math and Across-the-Curriculum Adaptations for Students who are Deaf and Hard-of-Hearing: Methods 2**

Methods for assessing and teaching deaf and hard-of-hearing students in mathematics, science, social studies, other content areas, and time/space organization. Focus on math concept development and compensations; reading/writing and the arts across the curriculum; and organizational strategies for school, home and life.

prereq: (immediate preceding semester) SPED 73100
prereq or coreq: SPED 70000
Hours Includes 15 hrs of field experience
Spring only

**SPED 73500 - Speech Development and Remediation of Students who are Deaf and Hard-of-Hearing**

Psycho-acoustic aspects of speech sounds and their relationship to speech acquisition in hearing and deaf children. Effects of various degrees of hearing loss on speech acquisition; sense modalities in speech production; typical voice and speech errors in deaf and hard-of-hearing children; methods, procedures, materials, and technology used for speech development and remediation; inclusion of deaf and hard-of-hearing students.

prereq or coreq: SPED 70000
Hours Includes 5 hrs of field experience
Credits 3

**SPED 73600 - Aural Rehabilitation of Students who are Deaf and Hard-of-Hearing**

Principles and methods of teaching speech and auditory training. Methods, procedures and materials used in development of oral communication, supports for inclusive settings and use of technology.

prereq or coreq: SPED 70000
Hours Includes 5 hrs of field experience

- Take either -

**SPED 73700 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 12**

Supervised student teaching placement providing direct, specially designed classroom instruction for deaf and hard-of-hearing students at two grade levels that do not overlap with either pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills prerequisite to the teaching of children who are deaf and
hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,
Credits 4 cr

- Or two of the following (must include two different grade levels) -

**SPED 73750 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 6**

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

**SPED 73751 - Student Teaching: Deaf and Hard-of-Hearing, Grades 7–12**

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

**SPED 73760 - Supervised Practicum: Deaf and Hard-of-Hearing, Preschool–2nd Grade**

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2

**SPED 73761 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 1-6**

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and
skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

**prereq or coreq:** SPED 72100, SPED 73300  
**Hours** 30 hrs seminar, plus conferences, plus 20 days student teaching  
**Credits** 2

**SPED 73762 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 5-9**

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

**prereq or coreq:** SPED 72100, SPED 73300  
**Hours** 30 hrs seminar, plus conferences,  
**Credits** 2

**SPED 73763 - Supervised Practicum: Deaf and Hard-of-Hearing, Grade 7–12**

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

**prereq or coreq:** SPED 7300, SPED 73300  
**Hours** 30 hrs seminar, plus conferences,  
**Credits** 2

**Additional Courses for Program 1**

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

**CEDF 70900 - Child Development Grades 1-6**

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

**Hours includes 5 hrs of field work**  
**Credits** 3

**CEDC 70350 - Teaching Science in the Elementary School**
For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

*prereq or coreq: CEDF 70900
Credits 3*

**CEDC 70450 - Teaching Developmental Reading**

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

*prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3*

**CEDC 70550 - Mathematics Curriculum and Methods**

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

*prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3*

**CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology**

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

*prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2*

**CEDC 72900 - Fieldwork in Childhood Education for Special Educators**

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills,
acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1

**HED 71500 - Health Education for Special Educators**

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

**Notes(s)**

Students entering program with ASL proficiency may be exempted from either or both of the ASL courses, without being required to replace those credits with other course work. Such students would, thus, complete the specialization sequence with either 24 or 21 credits.

**Exit Requirements**

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue
   - and either -
   - an original written research proposal
   - or -
   - a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

**Early Childhood Development and Learning: Diverse Children and Families - MSEd**

**Program Coordinator**

**Bonnie Kelty**
(212) 772-4709
929 West Building
bkeilty@hunter.cuny.edu

These graduate programs prepare students to support infants, toddlers, preschoolers and early elementary children in inclusive, integrated, and self-contained classrooms, as well as homes and communities.

We offer two programs:
- Program 1 (Academic Plan: SENB2-MSED) leads to dual certification: early childhood and students with disabilities birth to grade 2, for those with no NYS certification or NYS certification in an area other than early childhood education.
- Program 2 (Academic Plan: SEWB2-MSED) leads to single certification in students with disabilities birth to grade 2, for those with NYS Early Childhood Education certification.

Admission Requirements

Program 1

For applicants who do not hold NYS certification in Early Childhood Education.

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;  
or  
   A master's degree from an accredited institution with a GPA of at least 3.5.
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication;  
   information retrieval; concepts in history and social sciences; humanities; a language other than English;  
   scientific and mathematical processes; and written analysis and expression.
4. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are  
   certified teacher or school administrators and hold a graduate degree.

OR

1. Any NYS teacher certificate other than Early Childhood Education.
2. A bachelor's degree from an accredited institution with a GPA of at least 3.0;  
or  
   A master's degree from an accredited institution with a GPA of at least 3.5.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are  
   certified teacher or school administrators and hold a graduate degree.

Program 2

For applicants who hold NYS certification in Early Childhood Education, Birth to Grade 2

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;  
or  
   A master's degree from an accredited institution with a GPA of at least 3.5.
2. NYS certification in Early Childhood Education or PreK-Grade 6. Those holding permanent certification  
   must either show proof that they have satisfied the New York State requirements regarding wellness, child  
   abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these  
   topics.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are  
   certified teacher or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to  
   remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to  
   at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plans

- Program 1: SENB2-MSED
- Program 2: SEWB2-MSED

Total Credits

- SENB2-MSED: 42-54
- SEWB2-MSED: 36

Courses for Programs 1 and 2

**SPEDE 76800 - Fostering Development in Young Children with Diverse Abilities: Historical, Political, and Inclusive Perspectives**

This course explores the variability of development in infants and young children, and related developmental promotion approaches, through a lens of cultural, linguistic, and ability diversity. Functional developmental competencies and the range of developmental consequences within specific diagnoses will be examined, including the implications for supporting learning and development in classrooms, homes, and communities. The evolution of laws, regulations, and inclusive practices to current early intervention and early childhood special education recommended practices will be situated within this developmental framework.

*prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only)*

*Hours* Includes 5 hrs field experience,

*Credits 3*

**SPEDE 76900 - Evaluation, Assessment, and Program Planning for Infants and Young Children with Special Needs**

Developmentally appropriate and recommended practices for assessing the development and learning of young children from infancy through age 7 years (second grade) and identifying family strengths and supports. Application of tools, observations, and discussions with informed others to make decisions in screening, evaluation and program planning will be explored within a transdisciplinary team. Students must receive a grade of B or better.

*prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only); and SPEDE 768*

*Hours* Includes 15 hrs field experience,

*Credits 3*
**SPEDE 77000 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula**

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods. Students must receive a grade of B or better.

*prereq or coreq: SPEDE 768 and SPEDE 769; OR SPED 700 and SPED 790*

*Hours* Includes 15 hrs field experience,

*Credits* 3

---

**SPEDE 77100 - Autism Spectrum Disorder: Characteristics and Implications for Intervention**

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

*prereq or coreq: SPEDE 770*

*Hours* Includes 5 hrs of field experience

*Credits* 3 cr

---

**SPEDE 77200 - Positive Behavior Support (PBS) and Its Application to Young Children with Special Needs**

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

*prereq: SPEDE 768 OR SPED 700*

*Hours* Includes 5 hrs of field experience

*Credits* 3 cr

---

**SPEDE 77300 - Families, Parenting, and Family-Professional Partnerships: Theories, Research, and Practices**

This yearlong course focuses on the significant influence of the family in early childhood learning and development and evidence-based strategies for creating and sustaining effective family-professional partnerships to optimize family and child outcomes in classroom, home, and community settings. The developmental process of parenting, family capacity-building approaches, and convergence of family and professional expertise to promote child learning and development will be examined across diverse cultures, languages, abilities, settings, and urban contexts.

*prereq or coreq: SPEDE 770*

*Hours* 3.0 (YL)

*Credits* 3.0 (YL)

*Includes 5 hrs field experience.*
This is a yearlong course.

**SPEDE 77400 - Adaptations for Individual Learners Across the K-2 Curriculum**

Methods for supporting children with disabilities and special education needs, grades K–2 access the general education curriculum; Data-based decisions within a response to intervention framework and individualized modifications and adaptations, instructional approaches and specific methodologies effective with young children are emphasized.

*prereq: SPED 77000 and SPED 77200 (for all programs); and ECC 70400 or ECC 70900 (for Program 1 students only)*  
*Hours 3 hrs: includes 5 hrs field experience*  
*Credits 3 cr*

**SPEDE 77600 - Introductory Field Experience in Early Childhood Special Education**

Preparatory experience in a program supporting young children with diverse abilities; emphasis on what it means to be an early intervention/early childhood special education professional; One field placement of 10 days in a Kindergarten or Grade 1 or 2 setting.

*prereq: ECC 71200 (for Program 1 students only)*  
*prereq or coreq: SPED 77000*  
*Hours 2 hrs.*  
*Credits 2 cr.*

**SPEDE 70700 - Research Seminar: Issues in Early Intervention and Early Childhood Special Education**

Integration of theory, research and practice as related to the field of early childhood special education. Focus is on researching and applying evidence-based practices with fidelity across individuals and environments.

*prereq or coreq: SPED 778.10 OR SPED 779.10*  
*Hours 3 for 5 weeks*  
*Credits 1 cr.*

**SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

*prereq or coreq: SPED 70000 or SPED 76800*  
*Hours Includes 10 hours of field experience, 45 hrs*  
*Credits 3 cr*
SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours Includes 15 hrs of field experience
Credits 3 cr

Take Either

SPEDE 77810 - Initial Student Teaching in Early Childhood Special Education

First, full semester, supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.10 must also take either SPEDE 77820 or SPEDE SPEDE 77920 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

prereq: SPEDE 77600
Hours 3 hrs. plus full semester of student teaching
Credits 3 cr.

SPEDE 77820 - Final Student Teaching in Early Childhood Special Education

Second, full-semester, intensive supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.20 must have already taken either SPEDE 77810 or SPEDE 77910 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

prereq: SPEDE 77400 and either SPEDE 77810 or SPEDE 77910
Hours 3 hrs. plus full semester of student teaching
Credits 3 cr.

Or

SPEDE 77810: Initial Student Teaching in Early Childhood Special Education (3)

SPEDE 77920 - Final Practicum in Early Childhood Special Education

Second intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.20 must have already taken SPEDE 77810 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for
SPEDE 77910 - Initial Practicum in Early Childhood Special Education

First intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.10 must also take SPEDE 77820 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

prereq: SPEDE 77600
Hours 3 hrs plus full semester of practicum experience in worksite
Credits 3 cr.

SPEDE 77820: Final Student Teaching in Early Childhood Special Education

Or

SPEDE 77910: Initial Practicum in Early Childhood Special Education

SPEDE 77800 - Student Teaching in Early Childhood Special Education

Supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and an abbreviated field experience. (Note that students who take SPEDE 77800 must also take SPEDE 77900 in addition to either SPEDE 77910 or SPEDE 77920 and the placement for SPEDE 77800 must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2 – than SPEDE 779. One semester of SPEDE 778 or SPEDE 779 must be in a PreK setting.)

prereq: SPEDE 77600, ECC 71200
prereq or coreq: SPEDE 77100
Hours 1.0
Credits 1.0
(Note that students who take SPEDE 77800 must also take SPEDE 77900 and the placements must be at different age/grade levels.)

30 hrs seminar plus 30 days student teaching

SPEDE 77900 - Practicum in Early Childhood Special Education

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences.

prereq: SPEDE 77600, ECC 71200
prereq or coreq: SPEDE 77100
Hours 30 hrs seminar plus conferences, 
Credits 2
(Note that students who take SPEDE 77900 must also take SPEDE 77800 and the two experiences must be at different age/grade levels. Pre-K [Birth–five], Kindergarten, grades 1–2. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

Or

SPEDE 77800: Student Teaching in Early Childhood Special Education
SPEDE 77900: Practicum in Early Childhood Special Education
SPEDE 77920 Final Practicum in Early Childhood Special Education

Additional Courses for Program 1

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels
Credits 3

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400
prereq or coreq: 70500 or 70600
Hours 15 hrs
Credits 1

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood
Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

**ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood**

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field
Credits 1

**ECC 71300 - The Expressive Arts in Early Childhood**

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs
Credits 3

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels
Credits 3

**HED 71500 - Health Education for Special Educators**

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Requirements
1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily in the development of a comprehensive teaching portfolio (partial requirements of SPEDE 77820 and SPEDE 77920). The portfolio must demonstrate competence in assessment, program planning, intervention, and progress monitoring, as well as reflective practices.
4. Complete the Dignity for All Students Act (DASA) workshop.

**Early Childhood Development and Learning: Diverse Children and Families with Annotation in Severe/Multiple Disabilities**

*Program Coordinator*

L. Beth Brady  
929 West Building  
(212) 772-4229  
lbrady@hunter.cuny.edu

Graduates from the severe/multiple disabilities program (ECSB2-MSED) will be able to serve in such roles as specialized teachers of learners with severe disabilities, including deafblindness; inclusion support providers; and as collaborative team teachers with general education teachers in public and private schools, private agencies, hospitals and clinics. This program also leads to an extension annotation certificate in Severe/Multiple Disabilities.

This program offers three tracks (or subplans):

- Track 1 (Subplan: ECSMDLNYSC) is a dual certification track for those with no NYS certification.
- Track 2 (Subplan: ECSMDANYSM) is for those with any other NYS certification.
- Track 3 (Subplan: ECSMDANYSC) is for those with Early Childhood Education certification.

**Admission Requirements**

**Track 1**

For applicants who do not hold NYS certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0;  
or  
   A master's degree from an accredited institution with a GPA of at least 3.5.
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Track 2**

For applicants who hold NYS certification in an area other than Early Childhood
1. Any New York State teacher certificate other than Early Childhood Education.
2. A bachelor's degree from an accredited institution with a GPA of at least 3.0; 
or 
   A master's degree from an accredited institution with a GPA of at least 3.5.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are 
certified teachers or school administrators and hold a graduate degree.

**Track 3**

For applicants who hold NYS certification in Early Childhood Education

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; 
or 
   A master's degree from an accredited institution with a GPA of at least 3.5.
2. New York State initial/permanent teacher certification in Early Childhood or PreK-Grade 6. Those holding 
   permanent certification must either show proof that they have satisfied the New York State requirements 
   regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one 
   credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are 
certified teachers or school administrators and hold a graduate degree.

**Progress Standards**

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to 
   remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to 
   at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two 
   semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for 
   any courses.
4. Key Course Performance Standards 
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by 
     programs, labeled in CUNY First, and noted in the catalog) 
   o Students who receive a grade of F/WU in certain key program courses may not continue in the 
     program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

**Course of Study**

**Academic Plan**

**ECSB2-MSED**

**Subplans**

- TRACK 1: ECSMDLNYS C
- TRACK 2: ECSMDANYS M
- TRACK 3: ECSMDANYS C

**Total Credits**

- ECSMDLNYS C: 53-60
- ECSMDANYS M: 42-46
Courses for Tracks 1, 2 and 3

**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours 45 hours; includes 5 hours of field experience*

*Credits 3*

**SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities**

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

*prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100*

*Hours (includes 10 hours of field experience),*  
*Credits 3 cr*

**SPED 70700 - Research Seminar: Issues in Special Education**

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

*Hours 45 hrs,*  
*Credits 3 cr*

**SPED 74600 - Educational Implications of Learners Who Are Deafblind**

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

*prereq: SPED 70000, SPED 79000 or SPED 74100*

*Hours Includes 10 hrs of field experience*  
*Credits 3*
SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

prereq or coreq: SPED 70000

Hours 45 hrs,
Credits 3 cr.

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000

Hours Includes 15 hrs of field experience
Credits 3

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800

Hours Includes 15 hrs of field experience
Credits 3 cr

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000

Hours includes 10 hrs of field experience, 30 hrs
Credits 2 cr

SPEDE 77000 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula
Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods. Students must receive a grade of B or better.

**SPEDE 77100 - Autism Spectrum Disorder: Characteristics and Implications for Intervention**

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

**SPEDE 77200 - Positive Behavior Support (PBS) and Its Application to Young Children with Special Needs**

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

**SPEDE 77300 - Families, Parenting, and Family-Professional Partnerships: Theories, Research, and Practices**

This yearlong course focuses on the significant influence of the family in early childhood learning and development and evidence-based strategies for creating and sustaining effective family-professional partnerships to optimize family and child outcomes in classroom, home, and community settings. The developmental process of parenting, family capacity-building approaches, and convergence of family and professional expertise to promote child learning and development will be examined across diverse cultures, languages, abilities, settings, and urban contexts.

**SPEDE 77400 - Adaptations for Individual Learners Across the K-2 Curriculum**
Methods for supporting children with disabilities and special education needs, grades K–2 access the general education curriculum; Data-based decisions within a response to intervention framework and individualized modifications and adaptations, instructional approaches and specific methodologies effective with young children are emphasized.

Prereq: SPEDE 77000 and SPEDE 77200 (for all programs); and ECC 70400 or ECC 70900 (for Program 1 students only)

Hours 3 hrs: includes 5 hrs field experience

Credits 3 cr

- And -

**SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

Hours 36 days (30 hr Seminar plus 36 days) Pre-K

Credits 2 cr.

- Or -

**SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

Hours 36 days (30 hr Seminar plus 36 days) K-2

Credits 2

- Plus -

**SPEDE 79552 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

Hours (30 hr seminar plus conferences) Pre-K

Credits 2

- Or -
SPEDE 79553 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities

Hours (30 hr seminar plus conferences) K-2
Credits 2 cr.

Additional Courses for Track 1

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels
Credits 3

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels
Credits 3

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)
Hours 45 hrs
Credits 3

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.
ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Additional Courses for Track 2

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2
Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000*

*Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*

*Credits 3*

**ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood**

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

*prereq: ECC 70300*

*Hours 15 hrs of seminar plus 50 hrs in the field*

*Credits 1*

**Exit Requirements**

1. An overall GPA of 3.0.
2. Tracks 2 and 3 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education):
   - a comprehensive research-based oral presentation on a current special education issue
   - and either -
   - an original written research proposal
   - or -
   - a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

**Program Coordinator**

Christina Taharally  
(212) 772-4679  
1103 West  
taharal@hunter.cuny.edu

This program (Academic Plan: ECEB2-MSED) leads to NYS certification in Early Childhood Education. It is recognized by the National Association for the Education of Young Children (NAEYC) and prepares candidates for teaching in a variety of educational settings within the birth to grade 2 levels. This program is not designed for those who already have NYS certification in Early Childhood Education.
ECEB2-MSED has two tracks (or subplans). Track 1 (Subplan: ECEB2LNYSC) is for applicants with no prior NYS certificate. Track 2 (Subplan: ECEB2ANYSC) is for applicants who have prior NYS certificate.

**Admission Requirements**

**Track 1**

For applicants who do not hold New York State Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. A personal statement.
5. Two letters of recommendation.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Track 2**

For applicants who hold NYS certification in Childhood Education, Common Branches PreK- Grade 6, Childhood or Early Childhood Special Education, or TESOL

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. NYS initial, professional, or permanent certification in Childhood Education, Pre-K-Grade 6, Students with Disabilities Birth to Grade 2 or Grades 1-6, or TESOL.
3. A personal statement.
4. Two letters of recommendation.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Progress Standards**

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

Courses for Tracks 1 and 2

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours* 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels

*Credits* 3

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours* 45 hrs

*Credits* 3

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq:* ECF 70000

*Hours* 45 hrs

*Credits* 3

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2
Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

**prereq or coreq: ECF 70000**

*Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels*

**Credits 3**

**ECC 70700 - Language and Literacy: English Language Learners**

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

**coreq: ECC 70400**

**prereq or coreq: 70500 or 70600**

*Hours 15 hrs*

**Credits 1**

**ECC 70800 - Children with Special Needs: Birth through Grade 2**

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

**prereq: ECC 70300**

**prereq or coreq: ECF 70200**

*Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels*

**Credits 3**

**ECC 71300 - The Expressive Arts in Early Childhood**

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

*Hours 45 hrs*

**Credits 3**

**ECC 71400 - Health, Safety and Nutrition in Early Childhood**

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

**prereq or coreq: ECF 70000**

*Hours 45 hrs*

**Credits 3**
ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

*Hours 15 hrs, 
Credits 1 cr*

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

*prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)

- Take Either -

ECC 71600 - Student Teaching in Early Childhood Settings

Two student-teaching placements of 30 days each at different age/grade levels (Pre-K, K, grades 1–2) that supplement pre-student teaching field experience. (Birth–3, preK–2)

*prereq: prereqs: ECF 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only)) 
Hours 30 hrs of seminar plus 60 days of student teaching 
Credits 3*

- Or -

ECC 71700 - Supervised Practicum in Early Childhood

This course has two key components: (1) A full semester of practicum in Pre-K, K, or grades 1-2 and (2) biweekly seminar (30 hours). It builds on prior coursework and field experiences by providing guidance and reflective discussion that allow teacher candidates to enhance their teaching skills in early childhood education settings. Specific information regarding professional issues, ethical behaviors, and child advocacy is provided and reviewed. In addition, this course will align the practicum experience with the expectations of the edTPA in order to support teacher candidates with the preparation and submission of their portfolios.

*prereq: ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200 
Hours Bi-weekly seminar (30 hrs) 
Credits 2*
ECC 71800 - Early Childhood Student Teaching

This is a college supervised experience and is offered during the regular academic year and in the summer to facilitate the opportunity for practice at a different age/grade level than ECC 71700. This course has two key components: (1) a minimum of 30-days of student teaching in Pre-K, or grades 1-2 and; (2) biweekly seminar (15 hours).

prereq: ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200
Hours Bi-weekly seminar (15 hrs)
Credits 1

Additional Courses for Track 1

ECC 70500 - Language and Literacy: Birth through Kindergarten

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)
Hours 45 hrs
Credits 3

ECC 71000 - Early Childhood Mathematics: Birth through Grade 2

Theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

ECC 71100 - Science in Early Childhood Education: Birth through Grade 2
Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K–2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300  
Hours 45 hrs  
Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300  
Hours 15 hrs of seminar plus 50 hrs in the field  
Credits 1

Additional Courses for Track 2

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

prereq or coreq: ECF 70000  
Hours 45 hrs  
Credits 3

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300  
Hours 45 hrs  
Credits 3

Note(s)

Please note: Students who qualify for waivers may take ECC 719.51, .52, .53 (Special Topics in Early Childhood Education, 1, 2 and 3 credits), or a course in another program with permission of the Early Childhood Program
coordinator. Students may be exempted from up to 6 credits (Track 1) or 5 credits (Track 2) based on prior equivalent course work.

Exit Requirements

1. An overall GPA of 3.0.
2. Track 2 students must maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

Educational Leadership: SBL/SDL - MSEd

Program Coordinator:

Benjamin Shuldiner
1129 West Building
(212) 772-4627
adsup@hunter.cuny.edu

This master's degree program (Academic Plan: SDL-MSED) is designed to prepare NYS certified teachers for roles in administration and supervision of preK-grade 12 educational settings. Graduates of this program are eligible for NYS certification in both School Building Leader and School District Leader.

Admission Requirements

1. A master's degree from an accredited institution with a GPA of at least 3.0.
2. Permanent or professional NYS certification as a teacher and/or pupil personnel service provider within grades PreK-12.
3. A minimum of three years of approved teaching and/or school service within grades PreK-12 under regular appointment (or its equivalent for counselors, social workers, and school psychologists) or two years approved teaching and/or school service and at least one year of relevant management/leadership experience.
4. Two letters of recommendation, including a letter of support from the candidate's immediate site supervisor.
5. An on-site interview process that includes both oral and written activities.
6. Submission of official score report on the Graduate Record Examination (GRE).

Progress Standards

1. Complete and pass comprehensive examination prior to enrollment into ADSUP 75100, the internship seminar.
2. Students must complete all Key Assessments built around accepted professional standards in the field of Education Leadership.

Course of Study

Academic Plan

SDL-MSED

Total Credits
**ADSUP 70400 - Leadership to Enhance Human Resources**

Interpersonal and group relationships applied to administrative and supervisory functions in schools and districts; intensive experience in group process and the development of a positive school climate and culture.

*Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work
Credits 4*

**ADSUP 71500 - Supervision for the Improvement of Instruction**

An examination of varied productive supervisory techniques which promote the improvement of instruction and enhance the supervisory process.

*Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work
Credits 4*

**ADSUP 71600 - Leadership Strategies for School Reform**

An introduction to leadership theory, school, district reform and the school principalship. Leadership theory is explored from a systems perspective with a focus on both the theoretical and practical tools for promoting school and district change that leads to high levels of student achievement.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work
Credits 4*

**ADSUP 71700 - Seminar in Evaluating and Applying Educational Research**

This course provides students seeking to be educational leaders with the theoretical and the practical considerations for evaluating, conducting and using research in schools and school districts.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work
Credits 4*

**ADSUP 72100 - Legal Issues, Finance, Facilities and Operations**

A study of school legal issues finance and budgeting. Processes and cases from New York State, New York City, local school district and building level management of operations and facilities.
**ADSUP 73100 - Using Data, Technology and Assessment to Plan and Design Curriculum and Instruction**

This course provides students seeking to be instructional leaders with both the theoretical and the practical considerations necessary for using technology, data, and assessment to plan and design curriculum for effective instruction.

**ADSUP 74100 - School District Leadership: Problems and Issues**

System-wide administrators must combine the elements of vision, with instructional and administrative leadership in order to guide learning organizations. They must develop skills, strategies and knowledge of the leading educational issues they are facing to be able to create collaborative, safe, and successful educational environments capable of being successful.

**ADSUP 75110 - School and District-Based Experience Seminar in Administration Supervision I**

**ADSUP 75120 - School and District-Based Experience Seminar in Administration Supervision II**

**ADSUP 75100 - District and School Based Field Experience Seminar in Administration and Supervision**

Intensive applications of program knowledge, skills and dispositions in school and district field settings available to the student, and a 40 hour seminar that includes a two-hour unit on each of both child abuse prevention and violence prevention.

**Exit Requirements**

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certificate.
3. Require a minimum of two academic years of full-time graduate level study.
4. The culminating experiences of the program consist of an oral exit interview and a program portfolio review of selected leadership experiences and reflections on the learning process.

5. Must pass the School of Education technology assessment, embedded in courses.

6. Pass both parts of the NYSTCE School District Leader (SDL) exam.

7. Pass the NYSTCE Educating All Students (EAS) exam.

8. Complete the Dignity for All Students Act (DASA) workshop.

**Elementary Mathematics Specialist Professional Certificate - MSEd**

**Program Coordinator**

**Frank Gardella**
(212) 772-4676
1101 West
fgardell@hunter.cuny.edu

This MSEd program (Academic Plan: EMTSP-MSED) will provide certified elementary school teachers a substantial background in mathematics, pedagogy and leadership giving them the knowledge and skills necessary to be an effective professional development facilitator, coach, cluster teacher, and mentor. For those with Initial NYS Certification, this program will fulfill the master's degree requirement for Professional Certification. The New York State Education Department (NYSED) requires all certified teachers to obtain a master's degree within their first five years of teaching.

**Admissions Requirements**

1. A bachelor's degree from an accredited institution with an overall GPA of at least 3.0. Students with a master's degree must have an overall GPA of at least 3.3 in their graduate coursework.

2. NYS certification in Childhood Education Grades 1-6.

3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

4. Preference will be given to candidates with teaching experience in grades 1-6.

**Course of Study**

**Academic Plan**

**EMTSP-MSED**

**Total Credits**

33

Entering students are expected to have college credit for at least two mathematics courses equivalent to Hunter's MATH 10400 and MATH 10500. If they do not have those courses, they will be conditioned in them and expected to complete the courses before taking other coursework in the program.

**CEDC 74000 - Contemporary Mathematics in the Elementary School**

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.
CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

Hours 45 hrs  
Credits 3

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.

prereq: all program courses except CEDC 74200 and CEDC 74300

Hours 45 hrs  
Credits 3

CEDC 74700 - Number Theory and Algebra in Elementary Curriculum

A study of the underpinnings of Number Theory and Algebra and the role they play in curriculum, teaching and student learning. This course gives participants a deeper understanding of algebra and how students learn transition from arithmetic to algebraic reasoning.

prereq: The course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.

Hours 45 hrs  
Credits 3

CEDC 74800 - Geometry and Measurement in the Elementary

A study of the underpinnings of Geometry and Measurement and the role they play in curriculum, teaching, and supporting student learning. Topics in Geometry and Measurement are important concepts at the elementary school level and this course gives participants a deeper background in these two areas. Additionally, pedagogical practices important in these areas will be examined as well as a deep study of how students develop these concepts through curriculum, representations, manipulatives, and pedagogical practices will be discussed.

prereq: This course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.

Hours 45  
Credits 3

CEDC 74900 - Leadership in Elementary School Mathematics

A study of mathematics leadership and the development of mentors, coaches, and leaders of professional development.
prereq: This course is intended for students in the Elementary Mathematics Specialist program. Completion of at least 24 credits in the program.
Hours 45
Credits 3

MATH 61000 - Mathematics for the Elementary School from an Advanced Standpoint

Study, from an advanced standpoint, of the mathematics involved in the elementary school common core, with special focus on Numbers and Quantities; Algebra and Change. Open only to Teacher Education Program students.

prereq: MATH 10400 and MATH 10500 or their equivalent. Entry is by departmental permission.
Hours 3 hrs
Credits 3 cr.
The course is intended for students in the Elementary Mathematics Specialist Program.

STAT 61200 - Discrete Probability

Combinatorics, discrete probability, random variables, probability models and an introduction to game theory. A study of discrete probability with particular attention paid to the integration of these topics into the school curriculum. This course is for current and prospective teachers.

prereq: a statistics course on or above the level of STAT 11300
Hours 3
Credits 3

- Plus choose two (2) -
Substitutions in this category can be made with consent of the adviser

MATH 63300 - Axiomatic Geometry

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry. This is a theoretical mathematics course. The material is presented in its historical context.

prereq: departmental permission
Hours 3
Credits 3

MATH 63500 - Problem Solving Explorations in Mathematics

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics. This course is for current and prospective teachers.

prereq: none
Hours 3
Credits 3
MATH 65400 - Dynamical Systems and Chaos

Topics include: flows in one and two dimensions; phase portraits; limit cycles; bifurcations; iterated maps on the interval; introduction to chaos and fractals; the Mandelbrot set and its significance.

prereq: a course in multivariate calculus and a course in linear algebra
Hours 3 hrs.
Credits 3 cr.
Familiarity with MAPLE or MATHEMATICA encouraged

- And choose one (1) -

STAT 61300 - An Introduction to Statistics

An Introduction to statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Data analysis uses appropriate statistical software. This course is intended for teachers.

Hours 3 hrs.
Credits 3 cr.

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.
Hours 3 hrs.
Credits 3 cr.

Note:

If a student has already taken a course with content comparable to a course in the program, documented by college catalog description, and the student attained a grade of B or better in the course as documented by an official college transcript, then the student will be allowed to choose a course approved by the program adviser as a substitute for the existing program course.

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

Literacy Education: Birth - Grade 6 - MSEd

Program Coordinator
This master's degree program (Academic Plan: LTYB6-MSED) is designed for teachers with NYS certification in Early Childhood or Childhood Education to become teachers of literacy and reading at the Early Childhood and elementary grade levels. This program leads to certification in Literacy Birth to Grade 6.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. NYS initial, professional, or permanent certification in Early Childhood Education, Childhood Education, Pre K-Grade 6, TESOL or Special Education.
3. A letter of recommendation from a supervisor as one of the two letters of recommendation.
4. On-site writing sample after the application is reviewed.
5. On-site interview after the application is reviewed.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

LTYB6-MSED

Total Credits

31-37

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and
EDLIT 73000 - Language, Literacy and Culture, Grades 1-12

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners' needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500

EDLIT 73100 - Literacy Assessment: Birth–Grade 6

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instructional planning and meeting NYS English Language Arts performance standards.

prereq or coreq: ECC 70400 and EDLIT 73500

EDLIT 73200 - Children's Literature

Exposure to the breadth, depth, and utilization of children's literature and its role in children's development, appreciating diversity and fostering a lifelong interest in reading. Sensitive issues (health, abuses, addictions), technology and management issues are examined.

EDLIT 73300 - Theories and Process of Teaching Writing: Pre-K–Grade 6

Development and assessment of writing skills including analysis of techniques and environments that foster writing development in all children (ESL, gifted, special needs). State writing standards and technology are integrated.
EDLIT 73400 - Literacies within the Disciplines: K–Grade 6

Exploration into the literacy demands inherent in the academic subjects of math, science, health education and social studies, as well as media, technology and the arts.

prereq or coreq: ECC 70400 and EDLIT 73500
Hours Includes 10 hrs in a classroom focused on older learners (grades 3-6) and content area literacy
Credits 3 cr

EDLIT 73500 - Survey of Instructional Approaches in Literacy Education: Grades K-12

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

Hours Includes 5 hours fieldwork
Credits 3 cr

EDLIT 73600 - Diagnosis of Reading Difficulties

A study of factors related to students who are experiencing difficulty acquiring literacy. Procedures for diagnosing reading achievement and related language skills.

prereq: EDLIT 73100
Hours Includes 15 hours of diagnosis, under supervision, of students with reading difficulties
Credits 3 cr

EDLIT 73700 - Practicum in Remedial Reading

Theoretical and practical consideration and procedures in the instruction of students with reading difficulties.

prereq: EDLIT 73600
Hours Includes 20 hrs of supervised remedial sessions with individual students on-site at Hunter College
Credits 3 cr

EDLIT 73900 - Literacy Instruction for Struggling Readers and Writers, PreK-6

Exploration of historical and theoretical perspectives, and research-based teaching practices/issues related to literacy and language instruction for struggling readers and writers, including children with special needs. Study of assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcomes of struggling readers/writers and special needs students in pre-kindergarten and elementary school settings.

prereq or coreq: None
Credits 3
EDLIT 74000 - Leadership in Literacy

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master's in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

prereq: EDLIT 74500; minimum of 27 credits in the literacy program
Hours 45 hrs
Credits 3 cr

EDLIT 74200 - Practicum in Literacy

This course requires that students be supervised in their teaching. Students will select one area for improvement and work on this area throughout the course with the instructor and the weekly seminar as their think tank and support group.

prereq: Pre-requisite EDLIT 73100
Hours 15 hr seminar plus 50 hrs in the field,
Credits 1 cr

EDLIT 74500 - Literacy Research for Change

This course aims at learning to understand and use research methodologies in literacy education—qualitative, quantitative and mixed methods. The culminating project is a comprehensive literature review in an area of literacy education, which will lead to a staff development project in the final course, EDLIT 74000, Leadership in Literacy. Course participants will not only become informed consumers of literacy research but also teacher researchers advocating for diverse, urban student populations.

prereq: EDLIT 73100 or EDLIT 75600
Hours 45
Credits 3

Note: Students may be exempted from up to 6 credits on the basis of prior or equivalent coursework.

Exit Requirements

1. Overall GPA of 3.0 or better.
2. Maintain a valid and appropriate NYS certification.
3. A grade of B or better in literacy courses EDLIT 736, EDLIT 737, EDLIT 742, and EDLIT 740.
4. Complete the Dignity for All Students Act (DASA) workshop.

Literacy Education: Grades 5-12 - MSEd

Program Coordinator

Jody Polleck
906 West
(212) 772-4639
literacy@hunter.cuny.edu
This master's program (Academic Plan: AL512-MSED) is designed for teachers with NYS certification in Middle Childhood (grades 5-9) and adolescent (grades 7-12) content teachers to become teachers of literacy and reading at the middle and secondary school levels. This program leads to certification in Literacy Grades 5-12.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or master's degree with a GPA of at least 3.5.
2. NYS initial, professional, or permanent certification as a Middle Childhood (5-9) or Adolescent (7-12) content teacher.
3. On-site writing sample after the application is reviewed.
4. A letter of recommendation from a supervisor.
5. Submission of scores on the Graduate Record Examination, except applicants who are certified teacher or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

**Academic Plan**

**AL512-MSED**

**Total Credits**

**28-31**

**EDLIT 73000 - Language, Literacy and Culture, Grades 1-12**

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners' needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

*prereq or coreq: ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500*
EDLIT 73500 - Survey of Instructional Approaches in Literacy Education: Grades K-12

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

EDLIT 74000 - Leadership in Literacy

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master's in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

prereq: EDLIT 74500; minimum of 27 credits in the literacy program

EDLIT 74500 - Literacy Research for Change

This course aims at learning to understand and use research methodologies in literacy education—qualitative, quantitative and mixed methods. The culminating project is a comprehensive literature review in an area of literacy education, which will lead to a staff development project in the final course, EDLIT 74000, Leadership in Literacy. Course participants will not only become informed consumers of literacy research but also teacher researchers advocating for diverse, urban student populations.

prereq: EDLIT 73100 or EDLIT 75600

EDLIT 75200 - Practicum in Literacy

This course requires that students be supervised in their teaching. Students will select one area for improvement and work on this area throughout the course with the instructor and the weekly seminar as their think tank and support group.

prereq: Pre-requisite EDLIT 75600

EDLIT 75300 - Methods of Teaching Writing: Grades 5-12

Development and assessment of writing skills and methods for teaching writing including analysis of techniques and environments that foster writing development, and writing across the disciplines, in all students at middle childhood
and adolescent levels (ELL, gifted, special needs). State writing standards and technology are integrated.

*Hours includes 15 hours fieldwork*

**Credits 3**

**EDLIT 75400 - Literacies within the Disciplines: Grades 5-12**

Exploration into the literacy demands and challenges inherent in the academic subjects of math, science, history and social studies, as well as media, health, technology and the arts.

*prereq: Pre-requisite EDLIT 73500 and EDLIT 75500*

*Hours 3.0*

*Credits 3.0*

*Includes 10 hours in classrooms focused on literacies within the disciplines.*

**EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12**

Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing difficulties. Assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

*Hours includes 15 hours fieldwork*

**Credits 3**

**EDLIT 75600 - Literacy Assessment: Grades 5-12**

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instruction planning and meeting NYS English Language Arts performance standards.

*prereq: 9 credits in the content core*

*Hours includes 15 hours in the field assessing diverse learners*

**EDLIT 75700 - Practicum in Literacy Assessment and Intervention: Grades 5-12**

A study of factors related to middle and high school students who are experiencing difficulty acquiring literacy. Implement, design and use a variety of procedures for diagnosing reading achievement and related language skills. Use assessment data to plan and implement intervention activities for students with literacy difficulties.

*prereq: EDLIT 75600*

*Hours includes 25 hours of supervised assessment and intervention sessions with individual middle school students on-site at Hunter College Literacy Space and 25 hours of supervised assessment/intervention sessions off site with high school students*

**Credits 3**

**SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society**
Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

*prereq or coreq: SEDF 70400
*Hours 45 hrs,
*Credits 3 cr

**Exit Requirements**

1. An overall GPA of 3.0.
2. A grade of B or better in EDLIT 740 and EDLIT 756.
3. Maintain a valid and appropriate NYS certification.
4. Complete the Dignity for All Students Act (DASA) workshop.

**Mental Health Counseling - MSEd**

**Program Coordinator**

Elizabeth Cardoso  
(212) 772-4736  
1120 West  
e cardoso@hunter.cuny.edu

The Mental Health Counseling Program (Academic Plan: MENHC-MSED) prepares graduates to work as mental health counselors in hospital, agency and community settings as well as in private practice. This program leads to professional licensure in New York State; professional licensure is required to practice mental health counseling.

**Admission Requirements**

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas.
3. Evidence of oral and written expression consonant with graduate-level study.
4. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
5. Relevant work and/or volunteer experience is highly recommended.

**Progress Standards**

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)

Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

MENHC-MSED

Total Credits

60

COCO 70000 - Life Stage Development

Analysis of developmental stages throughout the lifespan.

Hours 45 hrs
Credits 3

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs
Credits 3

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

Hours 45 hrs
Credits 3

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

Hours 45 hrs
Credits 3

COCO 70600 - Group Counseling

Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200
COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

prereq: COCO 70600 and COCO 71800

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.
Hours 45 hrs.
Credits 3 cr.

COCO 71800 - Practicum in Counseling

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

coreq: COCO 71900
prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600
Hours 100

COCO 71900 - Individual Supervision

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800
Hours 45
Credits 3

COCO 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and COCO 71900
prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100
Hours Each 300 hrs to be arranged in selected field settings
Credits 4 cr each semester

COCO 72600 - Internship in Counseling II

The second part of the internship: follows COCO 72500 Internship in Counseling I.

prereq: COCO 72500
Hours 45
Credits 4

COUNM 71600 - Foundations of Mental Health Counseling

This course provides an overview of mental health counseling. The course will address the following: professional identity, functions and issues facing mental health practitioners; disparities in mental health services across culturally and linguistically diverse communities; principles, theories and practice of community interventions; public policy and governmental relations impacting mental health.

prereq or coreq: DSM-IV Workshop
Credits 3
**COUNM 71700 - Psychopathology: Diagnosis and Treatment**

This course provides a framework for understanding the range of personality and behavioral conditions that are presented in the Diagnosis and Statistical Manual of Mental Disorders of the American Psychiatric Association (DSM-IV). The class focuses on the description, etiology, assessment, diagnosis, treatment and prevention of these disorders within diverse urban settings.

*Hours 45*  
*Credits 3*

**COUNM 72000 - Mental Health Counseling: Program Development and Evaluation**

The course focuses on the development and evaluation of mental health programs in culturally/linguistically diverse urban settings from program inception onward including assessment to insure quality services. The course covers federal, state and local governmental inpatient and outpatient mental health treatment services, not-for-profit organizations and community-based mental health service programs.

*prereq or coreq: COUNM 71600 and COUNM 71700*  
*Hours 45*  
*Credits 3*

**Electives (Select One Course)**

**COCO 71000 - Chemical Dependency: Issues in Counseling**

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

*Hours 45 hrs*  
*Credits 3*

**COUNR 72000 - Medical Aspects of Disability**

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

*Hours 45 hrs*  
*Credits 3*

**COUNS 72100 - Counseling Interventions for Children and Adolescents**

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

*prereq: COCO 70800*  
*Hours 45*  
*Credits 3*
Exit Requirements

1. An overall GPA of 3.0.
2. Must complete all required workshops.

Professional Certification in Special Education (Advanced Preparation) - MSEd

Program Coordinator

Kate Garnett (Track 1: Learning Disabilities)
(212) 772-4749
920 West
kgarnett@hunter.cuny.edu

Tom McIntyre (Track 2: Behavior Disorders)
914 West Building
(212) 772-4706
thomas.mcintyre@hunter.cuny.edu

Bonnie Keilty (Track 3: Early Childhood Special Education)
(212) 772-4709
929 West Building
bkeilty@hunter.cuny.edu

This master's degree program (Academic Plan: SEAPR-MSED) is designed to provide advanced training to certified special education teachers who need graduate work leading to a master's degree for professional certification in special education. It is also designed for those with special education certification who are seeking to further their knowledge/skills and gain an additional age-level certificate (birth to grade 2 or grades 1-6).

This program offers three tracks:

- Learning Disabilities (SEAPRLD): Those seeking professional certification in Students with Disabilities Grades 1-6 with a concentration in Learning Disabilities.
- Behavior Disorders (SEAPRBD): Those seeking professional certification in Students with Disabilities Grades 1-6 with a concentration in Behavior Disorders.
- Early Childhood Special Education (SEAPRECSE): Those seeking professional certification in Students with Disabilities Birth to Grade 2.

Admission Requirements

1. NYS initial or professional certification in students with disabilities grades 1-6 or birth to grade 2 or NYS permanent certification in special education, K-12.
2. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree in special education (any age-level) with a GPA of at least 3.5.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate degree.
Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

SEAPR-MSED

Subplans

- LD Track: SEAPRLD
- BD Track: SEAPRBD
- ECSE Track: SEAPRECSE

Total Credits

30

Track 1 - Learning Disabilities

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 78251 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring,
sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use. Advanced students must complete individually-tailored assignments.

*Hours 15 hrs seminar, plus 20 hrs lab*
*Credits 2*

**SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

*Hours 45*
*Credits 3*

**SPED 78451 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2**

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use. Advanced students must complete individually-tailored assignments.

*Hours 15 hrs seminar, plus 20 hrs lab*
*Credits 2*

**SPED 70151 - Advanced Preparation in Educational Assessment**

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

*Hours 45*
*Credits 3*

**SPED 70751 - Advanced Seminar in Special Education Practice**

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.
Plus

14 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly in mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Track 2 - Behavior Disorders

SPED 75051 - The Study of Behavior Disorders

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 75151 - Methods and Materials for Teaching Students with Behavior Disorders

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3
SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45  
Credits 3

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45  
Credits 3

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45  
Credits 3

Plus

12 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly with mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Track 3 - Early Childhood Special Education

SPED 77151 - Autism Spectrum Disorder: Characteristics and Implications for Intervention
This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

prereq: By permission

Hours 3 hrs
Credits 3 cr.

SPEDE 77251 - Positive Behavior Support (PBS) and Its Applications to Young Children with Special Needs

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

prereq: By permission

Hours 3 hrs
Credits 3 cr.

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45
Credits 3

SPEDE 77951 - Practicum in Early Childhood Special Education

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. Advanced students must complete individually-tailored assignments.

prereq: By permission

Hours 3 hrs
Credits 3 cr.

- Plus -

SPEDE 77051 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods.
prereq: By permission

**SPED 79251 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness**

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication. Advanced students must complete individually-tailored assignments.

*Hours includes 15 hrs of field experience
Credits 3*

- Or -

**SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1**

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

*Hours 45
Credits 3*

**SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

*Hours 45
Credits 3*

**Plus**

12 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—
to be determined jointly with mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity:
   A comprehensive research-based oral presentation on a current special education issue and either an original written research proposal or a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

Rehabilitation Counseling - MSEd

Program Coordinator

Elizabeth Cardoso
(212) 772-4736
1114 West
ecardoso@hunter.cuny.edu

The Rehabilitation Counseling program (Academic Plan: REHCN-MSED) prepares students to assist people with disabilities to realize personal goals and maximize their physical, emotional, social, intellectual and vocational potential. Rehabilitation counselors work with youth and adults in a variety of community-based settings such as hospitals, rehabilitation centers, colleges, chemical dependency agencies and career/vocational counseling programs. Students in this program may take the national certification examination for the Certified Rehabilitation Counselor (CRC) status after completing 75% of their course work.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas.
3. Evidence of oral and written expression consonant with graduate-level study.
4. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
5. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant's grade point average, counselor potential, and applicability of work and life experience are carefully considered.
6. Relevant work and/or volunteer experience is highly recommended.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

REHCN-MSED

Total Credits

60

**COCO 70000 - Life Stage Development**

Analysis of developmental stages throughout the lifespan.

*Hours 45 hrs
Credits 3*

**COCO 70100 - Counseling Skills and Interviewing Techniques**

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs
Credits 3*

**COCO 70200 - Theories of Counseling**

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

*Hours 45 hrs
Credits 3*

**COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education**

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

*Hours 45 hrs
Credits 3*

**COCO 70600 - Group Counseling**
Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200  
*Hours 45 hrs*  
*Credits 3*

**COCO 70700 - Multicultural Aspects of Counseling**

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

*Hours 45 hrs*  
*Credits 3*

**COCO 70800 - Measurement and Appraisal**

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

*Hours 45 hrs*  
*Credits 3*

**COCO 70900 - Research Methods in Counseling**

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

*Hours 45 hrs*  
*Credits 3*

**COCO 71100 - Supervision and Administration in Counseling**

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

prereq: COCO 70600 and COCO 71800  
*Hours 45 hrs*  
*Credits 3*

**COCO 71200 - Career Counseling, Assessment and Placement**

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

*Hours 60 hrs*  
*Credits 4*

**COCO 71500 - Family Systems and Counseling Issues**
Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

*Hours 45 hrs.*

*Credits 3 cr.*

**COCO 71800 - Practicum in Counseling**

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

*coreq: COCO 71900*

*prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600*

*Hours 100*

**COCO 71900 - Individual Supervision**

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

*coreq: COCO 71800*

*Hours 45*

*Credits 3*

**COCO 72500 - Internship in Counseling I**

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

*prereq: COCO 71800 and COCO 71900*

*prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100*

*Hours Each 300 hrs to be arranged in selected field settings*

*Credits 4 cr each semester*

**COCO 72600 - Internship in Counseling II**

The second part of the internship: follows COCO 72500 Internship in Counseling I.

*prereq: COCO 72500*

*Hours 45*

*Credits 4*

**COUNR 71600 - Resources and Foundations of Rehabilitation**

History, philosophy, and principles of the vocational rehabilitation process. Economic, legal, ethical, and social issues influencing rehabilitation services. Observation of services available in state, city, and private agencies.
COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

- ELECTIVES (SELECT TWO COURSES) -

COCO 71000 - Chemical Dependency: Issues in Counseling

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

COCO 72300 - Transition from School to Adult Living for Youth with Disabilities

Services, programs, and processes for facilitating the transition of youth with disabilities and youth at risk from school to work, postsecondary education, independent living, and adult roles.

COCO 72700 - Special Topics in Counseling

Study of significant issues, problems, and emerging trends in counseling.

Exit Requirements

1. An overall GPA of 3.0.
2. Complete all required workshops.

School Counseling - MSEd

Program Coordinator

Markus Bidell
(212) 772-4714
1114 West
mbidell@hunter.cuny.edu
The School Counseling Program (Academic Plan: GSC-MSED) prepares graduates for careers in a variety of school settings, including elementary schools, middle schools, high schools and colleges. School counselors can also be employed by organizations that are not primarily educational, such as correctional facilities, hospitals, and a wide variety of community-based organizations. Students in this program may apply individually for the NYS provisional certification in School Counseling at the completion of 30 credits and a school based practicum experience. Recommendation for permanent certification is made after graduation. School counseling students fluent in Spanish and English have the option of obtaining NYS certification in Bilingual Education Extension for Pupil Personnel Services in addition to the School Counselor certification.

### Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas
3. Evidence of oral and written expression consonant with graduate-level study.
4. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
5. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant's grade point average, counselor potential, and applicability of work and life experience are carefully considered.
6. Relevant work and/or volunteer experience is highly recommended.

### Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

### Course of Study

#### Academic Plan

**GSC-MSED**

**Total Credits**

60

**COCO 70000 - Life Stage Development**
Analysis of developmental stages throughout the lifespan.

**COCO 70100 - Counseling Skills and Interviewing Techniques**

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

**COCO 70200 - Theories of Counseling**

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

**COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education**

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

**COCO 70600 - Group Counseling**

Theory and principles of group counseling. Developing group-counseling skills through practice.

*prereq: COCO 70100 and COCO 70200*

**COCO 70700 - Multicultural Aspects of Counseling**

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

**COCO 70800 - Measurement and Appraisal**

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.
**COCO 70900 - Research Methods in Counseling**

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

*Hours 45 hrs  
Credits 3*

**COCO 71100 - Supervision and Administration in Counseling**

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

*prereq: COCO 70600 and COCO 71800  
Hours 45 hrs  
Credits 3*

**COCO 71300 - Career Counseling and College Readiness**

This course offers a comprehensive introduction to the career readiness and college access counseling role of the school counselor working within the K-12 school setting. By utilizing a multicultural and social justice framework the course will explore career readiness and college access from a holistic and lifespan developmental perspective. In view of the CACREP standards this course will explore and appropriately address the American School Counselor Association (ASCA) national domains in academic, career and the personal needs of K-12 students from Kindergarten through high school as it relates to their career exploration and college access.

*coreq: COCO 725/726  
Hours 4.0  
Credits 4.0*

**COCO 71500 - Family Systems and Counseling Issues**

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

*Hours 45 hrs.  
Credits 3 cr.*

**COCO 71800 - Practicum in Counseling**

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

*coreq: COCO 71900  
prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR*
COC 71900 - Individual Supervision

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800
Hours 45
Credits 3

COC 72500 - Internship in Counseling I

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

prereq: COCO 71800 and COCO 71900
prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100
Hours Each 300 hrs to be arranged in selected field settings
Credits 4 cr each semester

COC 72600 - Internship in Counseling II

The second part of the internship: follows COCO 72500 Internship in Counseling I.

prereq: COCO 72500
Hours 45
Credits 4

COUNS 71700 - Foundations of School Counseling

History, philosophy, legal, and ethical considerations in school counseling. The school context and professional issues in school counseling will be emphasized, including the school counselor's role, developmental programming, counseling interventions, consultation and liaison, and advocacy.

Hours 45
Credits 3

COUNS 72000 - Culminating Seminar in School Counseling

With the permission of the supervising faculty member, the culminating experience in counseling provides the student with an opportunity to (a) participate as an integral member of a team involved in a research project, or (b) design an original evaluation or research project, or (c) complete a creative scholarly paper such as an extensive literature review. (Taken last semester prior to graduation)

prereq: COCO 70900
prereq or coreq: COCO 72600
Hours 45
Credits 3
COUNS 72100 - Counseling Interventions for Children and Adolescents

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

prereq: COCO 70800
Hours 45
Credits 3

COUNS 72200 - School Based Consultation

This upper level course provides counselors with the knowledge and skills necessary to engage in consultation, collaborative problem solving, and systems level intervention in educational settings. Theories, models, and processes of consultation of change will be examined.

prereq or coreq: COCO 72500
Hours 45
Credits 3

Optional: Bilingual (Spanish/English) Extension In Pupil Personnel Services

6 additional credits

Students in the School Counselor Program at Hunter College may obtain a Bilingual (Spanish/English) Extension in Pupil Personnel Services. Students who elect to take this option will be evaluated for written and oral proficiency in both Spanish and English. Students who are determined to be bilingually proficient will take the following two courses in addition to the Counseling Programs Sequence of Courses:

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100
Hours includes 5 hrs of fieldwork
Credits 3 cr
Exit Requirements

1. An overall GPA of 3.0.
2. Complete the Dignity for All Students Act (DASA) workshop.

Special Education - MSEd

Hunter's graduate programs in special education prepare teachers to provide specially designed instruction for students with disabilities and to work across a variety of educational settings, including: special school, special classes, resource rooms, pre-schools, early intervention programs, supported general education classrooms in public and private schools, hospitals, clinics, health agencies, home programs, and residential facilities. Special education programs at Hunter have been nationally recognized by the Council for Exceptional Children.

Completion of any one of Hunter's for the master's degree in special education leads to New York State teacher certification. Hunter's specializations are:
Students who enter the programs with no previous certification and subsequently complete the master’s degree will meet the education requirements for New York State initial and professional certification in either childhood special education or early childhood special education and either childhood general education or early childhood general education. Students without prior teacher certification enter the Program 1 track.

Students who enter the childhood special education program with initial certification in grades 1-6 and subsequently complete the master’s degree, will meet the education requirements for New York State professional certification in childhood/elementary education as well as for professional certification in childhood special education grades 1-6. Students with prior childhood certification enter the program 2 track.

Similarly, students who enter the early childhood special education program with initial certification in early childhood Birth to Grade 2 and subsequently complete the master’s degree, will meet the education requirements for New York State professional certification in early childhood special education Birth to Grade 2. Students who hold early childhood certification enter the Program 2 track in early childhood special education.

The early childhood master’s programs are designed for students whose primary interest is in teaching children from infancy through kindergarten. While students in the early childhood special education programs will also be prepared to teach grades 1 and 2, applicants whose primary interest is in these grades should apply to the childhood special education program, which encompasses grades 1-6.

The programs (with the exception of early childhood special education) are organized into a set of cross-categorical core courses and disability-specific specializations. Core courses develop knowledge and skills across a range of education settings; specializations provide in-depth preparation for working with students within a particularly disability area. Both core and specialization courses provide historical, theoretical, and clinical perspectives, as well as current research and direct experiences with students of different ages and profiles. A hallmark of Hunter’s programs is their linking of theory to effective instruction.

**Visual Impairment: Rehabilitation Teaching and Orientation and Mobility - MSEd**

**Program Advisor**

L. Beth Brady  
(212) 772-4229  
929 West  
lbrady@hunter.cuny.edu

This master's degree program (Academic Plan: REHOM-MSED) prepares professionals in vision rehabilitation therapy (VRT) to work with individuals with visual impairments combined with the Orientation and Mobility sequence to prepare orientation and mobility specialists. This program prepares candidates for national certification from the Academy for Certification of Vision Rehabilitation and Education Professionals as vision rehabilitation therapists (VRTs) and certified orientation and mobility specialists (COMS). This program does not lead to NYS teacher certification.
Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0, plus teacher of the blind and visually impaired teaching certificate.
   OR
   A master's degree with a GPA of at least 3.5.
2. Evidence of acceptable written languages skills.
3. Three letters of recommendation.
4. Evidence of work, volunteer or personal experience with individuals with visual impairments.
5. An interview with a special education faculty member.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   o Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

Course of Study

Academic Plan

REHOM-MSED

Total Credits

54

SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

*Hours 3 hrs
Credits 3 cr*

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments
Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000  
Hours includes 10 hrs of field experience  
Credits 3 cr

**SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments**

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000  
Hours Includes 10 hrs of field experience  
Credits 3

**SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments**

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000, SPED 74100  
Hours Includes 10 hrs of field experience  
Credits 3

**SPED 74400 - Assistive Technology for Learners with Visual Impairments**

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq: SPED 74300  
Hours 45 hrs,  
Credits 3 cr

**SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments**

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers
of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

**SPED 76000 - Skills and Techniques for Rehabilitation Teaching I**

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

**SPED 76100 - Skills and Techniques for Rehabilitation Teaching II**

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

**SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments**

Job modification options. Transition planning from education to adult services.

**SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments**

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.
SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

SPED 76500 - Intermediate Orientation and Mobility

Theories related to perception, learning and development of individuals who are blind or visually impaired, and/or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

SPED 76600 - Advanced Orientation and Mobility

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

SPED 76700 - Orientation and Mobility: Internship/Seminar

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.
SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar

This course teaches assessment, evaluation and lesson plan/execution, the systems of mobility used by persons who are visually impaired, and indoor travel techniques used by persons with visual impairments navigating familiar and unfamiliar buildings. Fifteen day summer course.

prereq or coreq: permission of adviser
Hours 3 hrs
Credits 3 cr.
Two week summer course.

SPED 76900 - Advanced Orientation and Mobility Lab and Seminar

This course provides instruction in, lesson sequencing, pedagogical and andragogical methods for O&M instruction for persons who are blind or visually impaired. Through observation, and practice, this course develops competencies in teaching travel techniques used by persons with visual impairments.

prereq: SPED 76800
Hours 3 hrs
Credits 3 cr.
Two week summer course.

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

Hours 45 hrs
Credits 3

COUNR 73000 - Counseling with the Aging

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

Hours 45 hrs
Credits 3

COCO 70100 - Counseling Skills and Interviewing Techniques

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs
Credits 3

Exit Standards
An overall GPA of 3.0.

Visual Impairment: Rehabilitation Teaching Only - MSEd

Program Advisor

L. Beth Brady
(212) 772-4229
929 West
lbrady@hunter.cuny.edu

This master's degree program (Academic Plan: VIRT-MSED) prepares professionals in vision rehabilitation therapy (VRT) to work with individuals with visual impairments. We also offer a combined program in Rehabilitation Teaching with Orientation and Mobility sequence to prepare orientation and mobility specialists Visual Impairment: Rehabilitation Teaching and Orientation and Mobility - MSEd. Both programs prepare candidates for national certification from the Academy for Certification of Vision Rehabilitation and Education Professionals as vision rehabilitation therapists (VRTs).

Admission Requirements

A bachelor's degree from an accredited institution with a GPA of at least 3.0;

or

A master's degree from an accredited institution with a GPA of at least 3.5.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards

An overall GPA of 3.0.

Master of Science - MS / Advanced Certificate

Applied Behavior Analysis - MS / Advanced Certificate

Program Coordinator

April Kisamore
(212) 650-4700
910 West
ABAinfo@hunter.cuny.edu

The Hunter College School of Education Master of Science in Applied Behavior Analysis (ABA) program (Academic Plan: APBEH-MS) will provide intensive training in behavior analytic intervention to professionals seeking to work or currently working with children, youth, and adults with autism spectrum disorder as well as to the supervisors and administrators of the programs in which they work. These professionals will then be well prepared to implement applied behavior analytic interventions with this population. Applied behavior analysts work with individuals ranging in age from infancy through adulthood and old age in settings that include schools, homes, day programs, communities, residential care settings, businesses and research laboratories. The program will prepare students to develop, deliver, and evaluate the effectiveness of applied behavior analytic intervention for learners with autism and increase the availability of professionals who have the appropriate training and experience to provide behavior analytic services to children, adolescents and adults with autism spectrum disorders. Students who complete the Master of Science will have the graduate training necessary to sit for the national Board Certified Behavior Analyst® (BCBA) exam. Upon passing the BCBA exam, graduates will be eligible for New York State's new license in behavior analysis.

The post-master's, advanced certificate program (Academic Plan: APBEH-AC) provides intensive training to professionals in applied behavior analysis and its applications to working with children, youth and adults with autism spectrum disorder as well as to supervisors and administrators of Applied Behavior Analysis programs. This program is designed to prepare professionals to implement ABA intervention and to sit for the international Board Certified Behavior Analyst® exam. This program does not lead to NYS certification.

Admission Requirements

Master's Degree

1. A bachelor's or master's degree from a regionally-accredited university in an approved human services field and a minimum 3.0 GPA.
2. Resume and two professional references to be included with the application for matriculation.
3. If requested, an on-site interview with program faculty.

Advanced Certificate

1. A master's degree from an accredited institution in education, psychology, or behavior analysis.
2. Completed a graduate level course in autism spectrum disorders. Applicants who have not completed such a course will be admitted with the condition of completing SPEDE 77100, Autism Spectrum Disorders, during their first semester in the program.

3. On-site interview will be required.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for these programs.*

**Progress Standards for Master of Science**

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
3. Students with one grade of IN (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more Ins will not be allowed to register for any courses.
4. All field experiences will take place in New York City.
5. Any student who receives a grade below a B in a field experience course must apply to the chairperson of the department to repeat that course, which may only be repeated once.
6. Any student who receives a grade of F, I, or WU may not reregister and will not be allowed to continue in the program.

**Progress Standards for Advanced Certificate**

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

**Courses**

**Academic Plans**

- **Master's Degree: APBEH-MS**
- **Advanced Certificate: APBEH-AC**

**Total Credits**

- **APBEH-MS: 36**
- **APBEH-AC: 18**

**Course of Study Master of Science**

EDABA 75000 - Experimental Analysis of Behavior
The primary focus of this course is on behavior analytic theory in the context of basic research. Topics to be covered include operant and respondent conditioning, reinforcement, discriminated operants, reinforcement schedules, and social learning.

Hours 3  
Credits 3

**EDABA 75500 - Functional Behavior Assessment**

This course examines various behavior analytic assessment methods that are designed to identify the function of challenging behavior. Both experimental and non-experimental assessment methodologies will be examined along with methods of data collection and analysis.

*prereq: EDABA 795 or EDABA 798*  
Hours 3  
Credits 3

**EDABA 77000 - Practicum in Applied Behavior Analysis I**

This course is the first of a two-course sequence in conducting fieldwork in applied behavior analytic settings. A total of 180 hours of fieldwork which includes designing, conducting, and analyzing data from applied behavior analytic interventions is required.

*prereq: EDABA 795 and approval of graduate advisor*  
Hours 3 plus 12 hours of field experience  
Credits 3

**EDABA 77100 - Practicum in Applied Behavior Analysis II**

This course is the second of a two-course sequence in conducting fieldwork in applied behavior analytic settings. A total of 180 hours of fieldwork which includes designing, conducting, and analyzing data from applied behavior analytic interventions is required.

*prereq: EDABA 770 and approval of graduate advisor*  
Hours 3 plus 12 hours of field experience  
Credits 3

**EDABA 78000 - Thesis I**

This course is the first course in a two-course sequence in which students conduct an original applied behavior analytic research project. Under the supervision of a faculty advisor, students conduct a literature review, develop a research proposal, and apply for necessary research approvals.

*prereq: EDABA 790, EDABA 791 and approval of graduate advisor*  
Hours 3 plus conferences  
Credits 3

**EDABA 78100 - Thesis II**

This course is the second course in a two-course sequence in which students conduct an original applied behavior analytic research project. Under the supervision of a faculty advisor, students conduct an original research project based
on the proposal developed in EDABA 780.

prereq: EDABA 780 and approval of graduate advisor
Hours 3 plus conferences
Credits 3

EDABA 79000 - Single-Subject Research Design

This course is an introduction to single-subject research methods used in applied behavior analysis. In addition, data collection, data analysis, and data presentation will be covered.

Hours 45
Credits 3

EDABA 79100 - Ethics and Professionalism for Applied Behavior Analysts

This course provides an introduction to ethical and professional behavior for applied behavior analysts. Topics to be covered include a variety of ethical and professional issues for applied behavior analysts as they relate to research and practice.

Hours 45
Credits 3

EDABA 79300 - Applied Behavior Analytic Autism Intervention for Adults

This course examines applied behavior analytic intervention for adults with autism spectrum disorder. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include promoting independence, social skills, healthcare, leisure skills, vocational skills, employment, and managing problem behavior. Other areas to be covered include motivational systems, behavior assessment and staff training.

Hours 3 hrs
Credits 3

EDABA 79500 - Applied Behavior Analysis I

The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

prereq or coreq: SPEDE 77100
Hours 45
Credits 3

EDABA 79600 - Applied Behavior Analysis II

This course examines specific behavior analysis methods and applications including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.
EDABA 79800 - Behavior Analytic Approaches to Learning

This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

Hours 45
Credits 3

EDABA 79900 - Applied Behavior Analytic Autism Intervention

This course examines applied behavior analytic intervention for individuals with autism. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive environments.

prereq: EDABA 79500 or EDABA 79800
Hours 45
Credits 3

Course of Study Advanced Certificate

EDABA 79100 - Ethics and Professionalism for Applied Behavior Analysts

This course provides an introduction to ethical and professional behavior for applied behavior analysts. Topics to be covered include a variety of ethical and professional issues for applied behavior analysts as they relate to research and practice.

Hours 45
Credits 3

**Hours** 3 hrs  
**Credits** 3

**Exit Requirements**

**Master’s Degree**

1. An overall GPA of 3.0.

**Advanced Certificate**

1. An overall GPA of 3.0.  
2. No course grade below B

**General Information: Scholarships and Grants**

A number of student scholarships and fellowships are available from Hunter College and the Hunter College Foundation; these are in addition to the various federal and state grants and loans outlined in the Financial Aid section of this catalog.

Among the awards available to students are the Presidential Grants and Scholarships supported by the office of the Hunter College president. Guidelines for these awards are contained in "Hunter College Grant Competitions," a publication of the college Research Administration, 1424 East Building, 772-4020.

Information about grants, fellowships, and scholarships can be obtained from the Office of Student Services (11th floor, East Building, 772-4878).

**Geography Centers & Facilities**

**Facilities**

The Department of Geography has state of the art computer labs that are available to our students 24 hours per day / seven days per week. The labs’ hardware, including computers and the high capacity network, is upgraded regularly to accommodate the most up-to-date versions of relevant software packages, including major GIS and remote sensing applications and open source tools.

**CARSI**

The Center for Advanced Research of Spatial Information (CARSI) is a state-of-the-art geographic information science research laboratory. The CARSI Lab is involved in a number of city, state and federal research projects as well as international conservation projects. The Center specializes in spatial-temporal modeling and simulation, geospatial quality assurance, remote sensing image analysis with a focus on LiDAR, and machine learning approaches to geospatial analysis.
Geography Faculty

Return to Geography Department

Sean Ahearn, Professor and Director, Center for Advanced Research of Spatial Information (CARSII); PhD, Wisconsin (Madison); GIS, remote sensing, digital image processing, natural resources, habitat studies

Jochen Albrecht, Professor; PhD, Vechta (Germany); Geographic information science, GIS applications, change modeling, simulation, quantitative methods, Europe

Frank Buonaiuto, Associate Professor; PhD, SUNY (Stony Brook); Oceanography, coastal processes, numerical modeling of waves, tides and sediment transport

Allan Frei, Professor and Deputy Director, CUNY Institute for Sustainable Cities; PhD, Rutgers; Climate change, snow and water resources, modeling

Hongmian Gong, Professor; PhD, Georgia; urban geography, GIS applications, and transportation

Mohamed Ibrahim, Associate Professor; PhD, Alberta; Environmental studies, resource management, sustainable development, Africa, rural water supply and sanitation, urbanization in the developing world

Peter Marcotullio, Professor and Director, CUNY Institute for Sustainable Cities; PhD, Columbia; Global Cities, Urban environmental transitions, globalization and urban development, ecosystem approaches to urban and regional environmental planning and management and impacts of urbanization on the environment

Ines Miyares, Professor; PhD, Arizona State; Geographies of immigration and ethnicity, spatial impacts of immigration and refugee law, Latin America and Hawai'i

Wenge Ni-Meister, Professor; PhD, Boston; Remote sensing, land-atmosphere interaction, meteorology, climatology, biogeography

Marianna Pavlovskaya, Professor and Chair; PhD, Clark; Urban and feminists geography, post-socialist Russia, gender and class, critical GIS, diverse economy and economic solidarity

Andrew Reinmann, Assistant Professor; PhD, Boston; Ecological response to climate change, urbanization and fragmentation, terrestrial carbon cycling, dendroecology

Randye Rutberg, Assistant Professor; PhD, Columbia; paleoclimatology, oceanography, geochemistry, environmental science, environmental public policy

Haydee Salmun, Associate Professor; PhD, Johns Hopkins; Oceanography, global climate, environmental fluid dynamics, land surface-atmosphere-ocean interface

William Solecki, Professor; PhD, Rutgers; Urban environmental change and management, land use and land cover studies, hazards, GIS applications

Shipeng Sun, Assistant Professor; PhD, Minnesota; geovisualization, GIS algorithms, socio-spatial network analysis, land use change, urban and human-environment system modeling

</tbody>
</table>

- **P**: Satisfactory completion. Used only for the thesis research or equivalent course where required in the particular graduate program.
- **INC**: Incomplete
- **SP**: Satisfactory progress – restricted to thesis and research courses requiring more than one semester for completion
- **W**: Official withdrawal
- **WU**: Unofficial withdrawal (counts as failure)
- **WA**: Administrative withdrawal
- **Y**: Y = Year's course of study – must continue to completion
- **PEN**: A placeholder grade submitted by the Office of Student Conduct when a student is alleged to have committed a violation of the Policy on Academic Integrity and the student denies the allegation. The PEN grade is a placeholder during the pending resolution of the allegation and will be changed by the instructor following such resolution.

In the School of Social Work the H/CR/NC grading system is mandatory. These grades, which carry no quality points, are assigned as follows:

- **H**: Honor
- **CR**: Credit
- **NC**: No credit

The assignment of traditional letter grades in the School of Social Work may be arranged by consultation with the instructor at the beginning of each semester. A grade of CR is given for "acceptable graduate-level work," equivalent to a B or an A. The grade of H signifies "unusual or outstanding graduate-level work, well above the A level.

Students are not permitted to repeat courses in which they have previously received a grade of B or better. Courses in which a grade of C is earned may be repeated only with departmental permission. Credit for the repeated course will be counted in the GPA, but not toward graduation.

**Grades**

The candidate must have achieved a cumulative grade point average of not less than 3.0 (B) in all graduate work taken at Hunter.
Graduate Admissions: Admission Status

Applicants are approved for admission by the graduate adviser or coordinator of the program and the appropriate dean under any one of the following categories:

1. **Matriculated** – For matriculation, students must fulfill all the requirements for admission.
2. **Matriculated with conditions** – Students whose undergraduate training is inadequate, but who are otherwise qualified, may be admitted with not more than 6 credits of course conditions to either the School of Arts and Sciences or to the Schools of the Health Professions, and with not more than 12 credits of course conditions to the School of Education. Such students are expected to satisfy their conditions by eliminating all deficiencies within one year of matriculation if admitted to a program in the School of Arts and Sciences and the Schools of the Health Professions, and within three semesters in the School of Education.

   Note: Applicants admitted to matriculated status who wish to delay their admission to the following semester must reapply by filing a new application prior to the next semester's deadline. Credentials submitted in support of the original application need not be resubmitted.

3. **Nonmatriculated** – A formal application must be filed in the Office of Admissions, Room 203 HN, 695 Park Avenue, New York, NY 10065, approximately two months before registration. The undergraduate degree must be equivalent to at least a U.S. bachelor's degree. If the application and supporting material are acceptable, registration material will be sent with further instructions. Applicants should present a student copy of their undergraduate transcripts as well as a copy of the undergraduate catalog(s) to the departmental adviser in order to obtain course approval. The nonmatriculation application fee of $125.00 will be charged when the student registers.

Acceptance to nonmatriculated status does not imply approval to take a specific course. This approval rests solely with the graduate program adviser involved. Students should consult the graduate program adviser in the appropriate department for specific information.

To be considered for possible matriculation, a nonmatriculated student must have earned grades of B or better for the course credits taken. For most programs in education, 9 credits must be presented with a minimum grade point average of 3.0. This requirement is in addition to the college and program admission requirements for matriculation.

A separate application for matriculated status must be completed and can be filed while the nonmatriculated courses are in progress. The application for matriculated status must be filed by the appropriate deadline for the individual program desired. Consult the Application for Graduate Degree Programs for specific dates.

A nonmatriculated student may be limited to 12 credits (check with departmental adviser). A minimum grade point average of 3.0 must be maintained.

Registration as a nonmatriculant does not entitle an international student to an I-20 AB (Certificate of Eligibility).

**Approval of Credit from Nonmatriculant to Matriculant Status**

Approval will automatically be granted for courses taken in support of the degree if the grades received are B or higher. Approval is not automatic for courses in which the grade received is less than B, nor for courses not required for the degree. To have such a course considered for approval, the student must submit a credit approval form, which may be obtained in the Office of Graduate Admissions. Note: Grades in courses taken as a nonmatriculant at Hunter will be calculated into the student's grade point average (GPA) whether approved toward the degree or not.

Graduate Admissions: Application Procedure & Fee
Application Fee

Applicants may apply to only one program for any given semester; please decide which of our programs is the most appropriate before filing the application. The deadline for applications varies by program. The earliest deadlines are January 15 for fall admission and September 1 for spring admission. Applicants are responsible for submitting their application and supporting application materials by the deadline for their desired graduate program. More information on the exact application deadlines can be found at: Degree Application.

Applying for admission to a graduate program at Hunter College is a fully online process. Hunter College offers a web-based application for graduate degree admission which can be accessed at: Apply Yourself. Applicants are required to complete the core application form, upload a statement of purpose, upload scanned/electronic transcripts from all undergraduate and graduate institutions previously attended, and complete any program-specific supplemental forms. Required letters of recommendation must be submitted online by the recommenders through the online application system. Specific information on the application requirements can be found at: Application Requirements.

Admitted students must submit official hard copies of all academic transcripts. Official transcripts will be compared to the unofficial copies submitted along with the application. In the event of discrepancies or false reporting of any information Hunter College reserves the right to change/withdraw its offer of admission.

Applicants admitted to the School of Arts & Sciences, School of Education, School of Nursing, School of Health Professions and School of Urban Public Health must submit all official transcripts to:

Graduate Admissions
223 North
695 Park Ave.
New York, NY, 10065

For Applicants admitted to the School of Social Work must mail their official transcripts to:

Silberman School of Social Work
Enrollment Management 7th Floor
2180 Third Avenue
New York, NY 10035

Specific information on submitting of academic transcripts can be found at: College and University Transcripts

Applicants to some graduate programs may be asked for additional materials and may be interviewed by a member of the program to which the application is made.

Credentials submitted in support of an application become the property of Hunter College and will not be released to the applicant or transmitted to a third party, except for those foreign certificates considered irreplaceable. Original foreign documents will be returned to the applicant only if, at the time of filing, they are accompanied by photocopies.

Application Fee

A $125 application fee is required of all applicants. Applications submitted without the fee cannot be processed. You can pay your application fee via credit card online when you are ready to submit your online application form or you can mail a check or money order to the Graduate Admissions Office. Please make checks or money orders payable to Hunter College. If a check is written for you by someone else, be sure your name appears on the face of the check. Those currently attending Hunter as graduate non-degree students who are applying for degree status need not pay this fee. As the application fee is devoted to the administrative cost of processing all applications, it is not refundable under any circumstances, regardless of the outcome, the date of filing, the time of review, or, if for whatever reason, the application is withdrawn.
Graduate Admissions: General

An applicant for admission to Hunter College as a matriculated student in any of the master’s programs must meet the following minimum requirements in order to be considered: (For admission to the School of Social Work, see Silberman School of Social Work section of this catalog.)

1. The student must hold a bachelor's degree from a regionally accredited institution, comparable in standard and content to a bachelor's degree from Hunter College.

   Degrees granted on the basis of work completed at institutions which are not fully accredited, or on the basis of nonacademic prior learning, test scores, and other than organized supervised course work in academic subjects may not be considered comparable.

2. The student must demonstrate ability to pursue graduate work successfully. In general, the minimum requirements for consideration are an undergraduate average of B in the area in which the student wishes to specialize and an average of B minus in the undergraduate record as a whole. Applicants are required to submit official transcripts from all undergraduate and graduate institutions attended other than Hunter College.

3. For admission in the School of Arts and Sciences, the student is usually required to present at least 18 credits of previous work in the area of specialization acceptable to the school or department concerned and two letters of reference. See specific program descriptions for additional requirements.

   For admission to the School of Education, the student is usually required to present at least 36 credits of previous liberal arts and science courses and a liberal arts or science major of at least 30 credits. See specific program descriptions for detailed requirements.

4. **Competency Examinations**

   **The Graduate Record Examination:** The general aptitude test of the Graduate Record Examination (GRE) is required of most applicants to the School of Arts and Sciences and to the School of Health Sciences. See specific program descriptions regarding this requirement. It is not required for the School of Education or the School of Nursing.

   Applicants should write directly to:
   Graduate Record Examination, Educational Testing Service
   Box 6000, Princeton, NJ 08541-6000
   (609) 771-7670
   http://www.gre.org
   for full information and arrangements to take the test. The GRE should be taken no later than February for fall admission and September for spring admission. The Hunter College institution code is 2301.

   **The Test of English as a Foreign Language (TOEFL)**

   is required of all applicants whose native language is not English and/or who have taken all or part of their post-secondary education in a country where English is not the native language. Such applicants, regardless of country of citizenship or U.S. permanent resident status, must take this examination. Depending on the program selected, an applicant may also be required to take the TWE (Test of Written English) and the TSE (Test of Spoken English), also administered by the Educational Testing Service.

   Applicants should plan to take these examination(s) at least nine months before their intended date of enrollment. Information about TOEFL, TWE, and TSE can be obtained by writing to TOEFL Bulletins, P.O. Box 6151, Princeton, NJ 08541-6151-(609) 771-7100-http://www.toefl.org. The Hunter College institution code is 2301.

Graduate Assistantships

Graduate assistantships may be available in some departments and are awarded to master’s and doctoral students on the basis of academic qualifications. The duties of graduate assistants may include teaching, research, laboratory work, graduate program administration and similar assignments as specified by the academic department. Students should contact their graduate advisers about such opportunities.

Graduate Programs: Information

School of Education programs at Hunter College prepare prospective teachers, counselors, and leaders to serve as highly effective professionals who work with children and adults of diverse backgrounds, abilities, and interests within an array of human development settings in New York State.

The School of Education has over sixty master's and advanced certificate programs that lead to initial, professional, or additional certification for New York teachers, school counselors, and building/district leaders; our counseling programs lead to state licensure; and our research programs in Instructional Leadership (Ed.D.) and Educational Psychology (MA) expand student abilities in the production and expansion of new knowledge.

Our vast program offerings are designed for many different types of students — for recent graduates or career-changers who are new to the field of education, as well as current teachers seeking new areas of certification or professional advancement in the areas of:

- Adolescent Education
- Bilingual Education
- Childhood Education
- Creative Arts Education
- Counseling
- Early Childhood Education
- Educational Psychology
- Educational Leadership
- Instructional Leadership (Ed.D.)
- Literacy Education
- Special Education
- Teaching English to Speakers of Other Languages (TESOL)

The School of Education is committed to the development of teacher, counselor, and leadership candidates that will both make a positive contribution to their professions and be lifelong students. Our professional preparation programs focus on the unique challenges of working in NYC, and the core of our educational mission is to be a place for aspiring teachers, leaders, and counselors to learn their craft and contribute to the future in a variety of settings throughout the metropolitan area and beyond.

School of Education students are held to the highest professional and academic standards, and during their time here, will:

- Learn the theory and best practice for effective professional contributions.
• Understand the history, philosophy, psychology, and sociology that underpins their profession and that will inform their practice.

• Develop knowledge and skills to successfully work in their school, clinic, or other settings in the betterment of children and adults.

The School of Education also believes in preparing teacher, leader, and counseling candidates to work with the diverse population of today's modern society, and recognizes that learning takes place inside social and community networks that support student and individual growth. Becoming a Hunter College teacher, leader, or counselor candidate requires dedication to the continuous improvement of one's professional abilities. Our programs, therefore, focus on developing the capacity to reflect on an individual's practice in order to strengthen their work with students or clients and grow as professionals throughout their career.

Graduate Students Association

All registered graduate students except those who do not pay the student fee because they are maintaining matriculation are members of the Graduate Students Association (GSA) and may use the services provided by the association, which include use of the graduate lounge and attendance at departmental colloquia and special departmental projects and events.

Every spring each graduate department or program elects a representative to the GSA Senate. GSA members may serve on the Hunter College Senate and on many college committees. A GSA delegate also participates in the University Student Senate. Copies of the GSA constitution and additional information may be obtained from the GSA office. Graduate students are encouraged to participate actively in the affairs of the association. For information, call (212) 772-4309. The GSA office is located in Room 218 Thomas Hunter Hall.

Graduate Study at Hunter

Hunter College, the second oldest college in The City University of New York, offers master's degrees in more than 50 fields of study and doctoral programs – some at Hunter exclusively and some in cooperation with the CUNY Graduate Center. We have graduate programs in the arts, sciences, languages and literature – as well as in the professional fields of accounting, education, health, nursing, nutrition, social work and urban planning – and all are considered exceptional. Currently about 6,200 students enroll in these programs.

One of our most important areas – now, as throughout our more than 140-year history – is teacher education. The School of Education today offers a broad range of graduate programs designed to prepare teachers, counselors and administrators for practice, leadership and innovation in education. A new doctorate in Education (EdD) prepares students for careers in instructional leadership.

The Hunter-Bellevue School of Nursing, the School of Health Professions, and the School of Urban Public Health are nationally recognized for new approaches to teaching, research and service in health care. The School of Nursing provides a wide array of accredited programs designed to prepare students for leadership positions in health care (including the new Doctor of Nursing Practice, DNP); the School of Health Professions offers an outstanding master's program in speech-language pathology and a doctorate in physical therapy. The School of Urban Public Health offers BS/MS and MS degrees in nutrition. Through the City University Graduate Center, doctoral degrees in audiology, nursing science and public health are available.

The Silberman School of Social Work, located in its new home in East Harlem, offers several flexible program options leading to the master of social work degree. It is one of the top graduate social work schools in the country. Its faculty is renowned both for training leaders and innovative thinkers in social work and for providing expert service to New York's multicultural community. Through leading-edge course work, opportunities for challenging field experience,
method-based training and a practice-centered education, the Silberman School provides unequaled opportunities to learn and excel in our dynamic urban environment. (the School now offers a BSW, its first undergraduate degree).

The School of Arts and Sciences has an outstanding roster of graduate programs in the fine arts, humanities, social sciences, and sciences and mathematics. In addition to many master's programs, we offer doctoral degrees in the sciences in cooperation with the CUNY Graduate School. Our faculty members push the frontiers of knowledge in their disciplines and are at the forefront of creative innovation. Graduates have gone on to elite doctoral programs, achieved distinction in various creative fields, and enjoyed successful careers built on their Hunter training. Graduate study at Hunter is enhanced by our excellent performance facilities, research laboratories, and art studio space. With Hunter's central location on Manhattan's East Side, the city's major museums, concert halls, and galleries are within easy walking distance, as are famed biomedical research facilities that offer extraordinary opportunities for collaborative study and research.

Hunter's faculty includes many distinguished scholars, educators, and creative artists, all of whom play major roles in New York's academic, cultural, civic and educational life. With over $50 million annually in research grants and awards, Hunter's faculty is internationally respected for its creativity, energy and scholarship.

Hunter College of The City University of New York

695 Park Avenue
New York, NY 10065

(212) 772-4000
http://www.hunter.cuny.edu/

Graduation

All potential graduates must apply for graduation within the first three weeks of the semester in which they plan to graduate. A graduation application form (degree audit application form) may be printed from our website: hunter.cuny.edu/education under Graduation. Completed graduation audits must be returned to Room 1000 West Building. Graduation deadline dates are updated on the School of Education website.

Graduation

All students must apply to graduate from their program in order to officially complete their program and have their degree conferred. Graduation applications are submitted and processed online through a student's myHunter page. The graduation application period begins a full year prior to the student's final semester. All graduation applications are reviewed by the Degree Audit Division within the Registrar's Office. Students must complete any admission conditions, program requirements and exit requirements prior to graduation date in order to be eligible for graduation.

Graduate students must be matriculated in their final semester at Hunter College by enrolling in a course at Hunter (or another CUNY college through e-permit) or Maintaining Matriculation.

Health/Safety Policies & Procedures

- CUNY Sexual Misconduct Policy
- CUNY Campus and Workplace Violence Prevention Policy
- Fire Safety Plan
- Department of Public Safety and Security
- Notice of Access to Campus Crime Statistics, the Campus Security Report and Information on Registered Sex Offenders
- Drug-Free Schools and Campuses

History Faculty

Return to History Department

Richard Belsky, Associate Professor; PhD, Harvard; East Asian history, social and political history of Modern China

Manu Bhagavan, Professor; PhD, Texas at Austin; modern India, (post-)colonialism, human rights, (inter-)nationalism

Eduardo Contreras, Associate Professor; PhD, Chicago: Nineteenth and Twentieth-century US, US Latinos, labor, race and ethnicity

Donna T. Haverty-Stacke, Professor; PhD, Cornell; US labor and working class history, urban history, cultural History

D’Weston Haywood, Associate Professor; PhD, Northwestern; 20th Century Black protest and protest thought, Black masculinity, Black Power, and intersections of Black culture, Black politics, and Black public spheres

Benjamin Hett, Professor; PhD, Harvard; 20th Century Europe, Nazi Germany, the World Wars, espionage

Daniel Hurewitz, Associate Professor; PhD, UCLA; Twentieth century US History; Queer History; politics of sexuality

Karen Kern, Associate Professor; PhD, Columbia; history of the Middle East, comparative imperialism and nationalism

Elidor Mëhilli, Assistant Professor; PhD, Princeton; modern Eastern and Central Europe, modern Italy, Russia and Soviet Union

Mary Roldán, Dorothy Epstein Professor of Latin American History and Chair; PhD, Harvard; Colombia, violence, state formation, radio, transnational development/modernization, urban history

Jonathan Rosenberg, Associate Professor; PhD, Harvard; Twentieth-century US international history, music and world affairs, war and society, cultural diplomacy, civil rights history

Jill Rosenthal, Assistant Professor; PhD, Emory; History of Africa, History of the Great Lakes region of Africa, humanitarian and development aid, refugees, and migration

Laura Schor, Professor; PhD, Rochester; modern France, writing women's biography, twentieth century Jerusalem

Iryna Vushko, Assistant Professor; PhD, Yale; Eastern and Central Europe, Russia
Hunter Campus Centers

School of Urban Public Health faculty are affiliated with several City University of New York research centers and institutes. These provide opportunities for faculty and student research.

The New York City Food Policy Center develops intersectoral, innovative and evidence-based solutions to preventing diet-related diseases and promoting food security in New York and other cities. The Center works with policy makers, community organizations, advocates and the public to promote community and economic development. Through interdisciplinary research, policy analysis, evaluation and education, we leverage the expertise and passion of the students, faculty and staff of Hunter College and CUNY. The Center aims to make New York a model for smart, fair food policy.

Affiliated public health faculty: Leung, Navder, Platkin, Yeh
Website: http://www.nycfoodpolicy.org/

The Brookdale Center on Healthy Urban Aging and Longevity at Hunter College advances successful aging and longevity through research, education, and evaluation of evidence-based models of practice and policy. The Brookdale Center shares the East Harlem campus with both the Silberman School of Social Work and the School of Urban Public Health. Brookdale Center takes a leading role in the development of evidence-based "best practices" to advance the health and well-being of a new generation. Brookdale is breaking new ground in aging services by connecting and integrating the applied fields of gerontology with health policy. Brookdale Center serves as a critical bridge between gerontological education, research, policy, practice and advocacy, and is recognized nationally today as a major center of excellence.

Acting Director: Daniel Gardner
Website: http://www.brookdale.org/

Center for Basic and Translational Research

Center for Translational and Basic Research (CTBR) mission is to address health disparities and improve health outcomes. The CTBR is a consortium of researchers within Hunter College of the City University of New York—one of the largest public universities in the nation. It boasts unparalleled quality and diversity in its researchers on both the faculty and graduate student levels. At the heart of the CTBR's mission is an imperative to build unique collaborations among biologists, chemists and biopsychologists; to recruit and equip outstanding faculty; to develop and share core research facilities; to implement strategies for scientific networking; and to address health disparities in our population involving the Hunter Silberman School of Social Work, the Hunter-Bellevue School of Nursing and the Weill Cornell Medicine Clinical and Translational Science Center. The CTBR is funded by a major grant from the National Institute on Minority Health and Health Disparities, NIH.
Website: http://ctbr.hunter.cuny.edu

Center for HIV Educational Studies and Training at Hunter College (CHEST) conducts research on social and psychological factors that contribute to HIV transmission and/or the wellbeing of those living with HIV, and with a particular emphasis on the promotion of sexual health. CHEST's mission is to conduct research to identify and promote strategies that prevent the spread of HIV and improve the lives of people living with HIV. We have been advocating for and working with the LGBT community since 1996. CHEST is part of Hunter College of the City University of New York, where Dr. Jeffrey Parsons (Director) is a Distinguished Professor in the Psychology Department. Drs. Tyrel Starks and H. Jonathon Rendina, both from the Hunter Psychology Department, are faculty affiliates. CHEST has strong affiliations throughout the CUNY system with Faculty Affiliates including: Dr. David Bimbi (Laguardia Community College), Dr. Christian Grov (CUNY School of Public Health), Dr. Juline Koken (Laguardia Community College). In addition, CHEST has strong collaborative partnerships with investigators at Northwestern University, Wayne State University, University of Minnesota, and Mount Sinai School of Medicine. As an academic research center, CHEST supports post-doctoral fellows, doctoral candidates, master's students, and undergraduate interns. The majority of our doctoral students attend the CUNY Graduate Center's Health Psychology and Clinical Sciences doctoral
programs.

Website: http://www.chestnyc.org

CUNY Institute for Sustainable Cities (CISC) works to realize cities as part of the solution to global sustainability challenges. The CUNY Institute for Sustainable Cities (CISC) works to realize cities as part of the solution to global sustainability challenges. By merging the science of sustainability with innovative public programming, we examine opportunities available to cities—and their residents—for proactive responses to on-going environmental change. We harness the potential of formal and informal means to inspire a new generation of environmental thinkers. In doing so, we seek to understand and influence the evolution of the urban environment, while connecting the CUNY community, decision-makers and the general public to these critical issues. CISC explores the nature and complexity of cities through the following themes and questions:

- **Consumption:** What are the elements, patterns, and impacts of urban consumption and how do they change over time?
- **Vulnerability and Resilience:** How are cities impacted by global environmental change and what are their response capacities?
- **Ecosystem Services:** What services to urban ecosystems provide to cities and how can their maintenance and restoration benefit urban areas?

Website: http://www.cunysustainablecities.org

### Hunter College Libraries

http://library.hunter.cuny.edu

The Hunter College Libraries, with locations at all of our campuses, offer the Hunter College community access to a wide variety of services, collections, and spaces. At the 68th Street campus, the Leon & Toby Cooperman Library occupies nine floors in the East Building, with entrances to the library on the 3rd and 7th floors. The Cooperman Library is home to the Hunter College Archives & Special Collections (Floor 2), the Silverstein Student Success Center (Floor 7), and the Education Library (Floor 6). Also at the 68th Street campus, the Zabar Art Library is located on the 16th Floor of the North Building. The Brookdale campus (425 East 25th Street) is home to the Health Professions Library, and the Silberman Building (2180 Third Avenue) houses the Social Work and Urban Public Health Library.

Our team of faculty, staff, and student workers is dedicated to helping our users. Faculty librarians assist people with research questions from the simple to the complex both in-person and online via our Ask-a-librarian service, as well as partnering with classroom faculty to teach information literacy instruction to various classes. Library staff and students provide excellent service to users at a variety of service points throughout all our libraries.

The Libraries' print and electronic collections include hundreds of thousands of books, ebooks, and periodicals, as well as unique archival content in our Archives & Special Collections. Through our robust collection of online resources, in addition to periodicals and ebooks, the Hunter community can access primary sources, historical documents, science and social science datasets, streaming media, digital images, and much more.

Our spaces include collaborative work areas, reservable study rooms, and areas for quiet study. Additionally, we provide desktop, laptop, and tablet computers as well as printers, photocopiers, scanners, whiteboards, and lots of electrical outlets.

### Hunter College Mission Statement
Hunter College is a comprehensive teaching, research and service institution, long committed to excellence and access in the education of undergraduate and graduate students in the liberal arts and sciences, as well as in several professional fields: education, health sciences, nursing and social work.

Founded in 1870, Hunter is one of the oldest public colleges in the country, dedicated from its earliest days to serving a student body which reflects the diversity of New York City. Hunter takes pride in the success it has had over the years in enabling the people of New York to combine the strengths of their varied experiences with the skills they need to participate effectively in the wider society. Committed to the achievement of a pluralistic community, Hunter College offers a curriculum designed to meet the highest academic standards while also fostering understanding among groups from different racial, cultural and ethnic backgrounds.

The goal of a Hunter College education is to encourage the fullest possible intellectual and personal growth in each student. While preparation for specific careers is an important objective of many programs, the fundamental aim of the college experience as a whole is to develop a student's rational, critical and creative powers. Such development involves the abilities to conceptualize and analyze, to relate the concrete and particular to the abstract and general, and to think and write logically and coherently. It also includes a broadening and deepening of outlook: an awareness of one's own and other cultures as well as of the enduring questions and answers concerning being, purpose, and value that confront humanity. Finally, the educational experience at Hunter is intended to inspire a zest for learning as well as to bring the recognition that learning is pleasurable and knowledge is useful.

While teaching and research are its primary missions, community service is also an essential goal of the college. Hunter faculty seek to generate new knowledge and to design programs to address the myriad cultural, social and political needs of New York City and the world.

**Hunter College Ombudsman**

The Ombudsman is empowered by the Hunter College Governance Charter to investigate complaints and grievances by any member of the college community (student, faculty, staff, or administration) about a problem or condition in the college. When requested and where possible, the anonymity of a complainant will be protected and names will not be used in any reports the Ombudsman may make.

When someone feels unfairly treated or unjustly disadvantaged, the Ombudsman can advise the person of the available appeals procedures, recommend corrective action to be taken by the appropriate college officers or recommend changes in college procedures or regulations that would eliminate such injustices in the future.

The Office of the Ombudsman is in Room 1016 Hunter East; The ombudsman may be reached at ombuds@hunter.cuny.edu or at (212) 772-4203.

**Hunter College Policy on Academic Integrity**

Table of Contents

- I. Procedures for Reporting Academic Integrity Violations
- II. Procedure for Disciplinary Sanctions
- III. Faculty-Student Disciplinary Committee
- IV. Committee Structure
- V. Clarification of the Process
- VI. Academic Sanctions
I. Procedures for Reporting Academic Integrity Violations

To initiate the procedure for addressing an allegation of academic dishonesty, faculty members must complete the online Academic Integrity Form indicating the recommended academic sanction, which involves a grade penalty (i.e., a reduced grade). Disciplinary sanctions may only be pursued by the Dean of Students if the case merits them.

I. Procedure for Academic Sanctions

A. When the faculty member suspects academic dishonesty and wants an academic sanction, the professor should first confer with the student. If the student admits to the violation, the instructor should inform the student of the grade penalty and report the action taken on the online Academic Integrity Form and upload all supporting documentation [pdf]. The faculty should submit the online reporting form within 30 days of discovery of the academic dishonesty. The Office of Student Conduct will contact the student once we receive a completed online form. Faculty members must submit the online form within 30 days of discovery of the academic dishonesty.

B. If the student admits to academic dishonesty but believes the grade penalty is too severe, the instructor should select the appropriate option on the online Academic Integrity Form, upload supporting documentation and submit it online. The Academic Integrity Official shall submit a placeholder grade of "PEN" if occurrence is during the middle of the semester. If the occurrence is at the end of the semester the instructor should submit the student's final grade at the end of the semester. At that point, the student may contest the grade sanction by appealing the course grade through the College's grade appeal procedure. Once the student has admitted the violation, s/he may contest only the severity of the grade sanction, not the dishonesty allegation itself. If the student appeals the grade, the departmental and Senate grade appeals committees should send copies of their findings to the Hunter College Academic Integrity Official.

C. If the student denies the allegation of academic dishonesty, the faculty member will report that this is the student's position on the online Academic Integrity Form. The matter will first be reviewed by the Academic Integrity Official who will conduct a fact finding investigation and attempt to resolve the matter. If the matter cannot be resolved then Mediation will be proposed between both parties with a third party member. If the case is not resolved through Mediation then it will be moved to an official hearing before the Faculty-Student Disciplinary Committee who will render judgment upon conclusion of the hearing. The student has the right to appeal the Committee's judgment by appealing with the President's Office.

D. Students who either admit to an act of academic dishonesty or are found to have committed one by the Academic Integrity Official will receive a letter from Hunter College's Academic Integrity Official notifying them that this matter has been reported to the Dean of Students Office. When an academic integrity accusation is resolved by the Faculty-Student Disciplinary Committee, the student and faculty member will be notified of the findings.

II. Procedure for Disciplinary Sanctions

A. The Dean of Students has the right to pursue disciplinary sanctions against any student should the case deem appropriate, which includes substantial violations, if the student has prior violations or when academic sanctions were not executed because the student withdrew from the course.

III. Faculty-Student Disciplinary Committee

The purpose of the Faculty-Student Disciplinary Committee is to review evidence when an academic sanction is being sought and when the allegations of academic dishonesty are still in dispute after meetings with the Academic Integrity Official and Mediator have occurred. The Committee will proceed in the following manner:

1. If the charge of academic dishonesty is denied by the student, the faculty member will advise the student that the matter has been referred to the Hunter College Academic Integrity Official, who will initiate the fact-finding process.
2. A panel of three Faculty-Student Disciplinary Committee members will be selected and convened by Hunter College Academic Integrity Official to review the evidence for each case.
3. The faculty member and student will be invited to present their case at a formal hearing, which will be conducted within 30 days of receipt of the online Academic Integrity Form.
4. The committee will deliberate in closed session (i.e., with neither student nor instructor present) and submit its findings, in writing, to the Hunter College Academic Integrity Official, who will then notify the faculty member and student. Although faculty members reserve the right to submit grades whenever they deem appropriate, they are encouraged not to submit grades for the disputed work or a final course grade until they have been notified of the committee's findings. Students may appeal the final course grade through the College's grade appeal process.

IV. Committee Structure

A. The president shall select in consultation with the head of the appropriate campus governance body or where the president is the head of the governance body, its executive committee, three (3) members of the instructional staff of that college to receive training and to serve in rotation as chair of the disciplinary committee. If none of the chairpersons appointed from the campus can serve, the president, at his/her discretion, may request that a chairperson be selected by lottery from the entire group of chairpersons appointed by other colleges. The chairperson shall preside at all meetings of the faculty-student disciplinary committee and decide and make all rulings for the committee. He/she shall not be a voting member of the committee but shall vote in the event of a tie.

B. The faculty members shall be selected by lot from a panel of six elected biennially by the appropriate faculty body from among the persons having faculty rank or faculty status. The student members shall be selected by lot from a panel of six elected annually in an election in which all students registered at the college shall be eligible to vote. In the event that the student or faculty panel or both are not elected, or if more panel members are needed, the president shall have the duty to select the panel or panels which have not been elected. No individuals on the panel shall serve on the panel for more than two consecutive years.

C. In the event that the chairperson cannot continue, the president shall appoint another chairperson. In the event that a student or faculty seat becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the respective faculty or student panel by lottery.

D. Each faculty-student disciplinary committee shall consist of two faculty members and two student members and a chairperson, who shall be a faculty member. A quorum shall consist of the chair and any two members, one of whom must be a student. A panel of three, consisting of two faculty members and one student selected from the twelve committee members, will be convened by the Hunter College Academic Integrity Official for each hearing. Faculty members and graduate students affiliated with the department, and undergraduate students majoring in the department's programs, will not be selected to serve on that particular panel.

V. Clarification of the Process

All questions regarding these procedures or the College's disciplinary process should be referred to the Office of Student Conduct in the Vice President for Student Affairs and Dean of Students office (Room 1103 East, phone 212.772.4534/212.396.6484 or email at academic.integrity@hunter.cuny.edu).

VI. Academic Sanctions

Reduced or "F" grade on academic exercise
Reduced or "F" grade in course
CUNY Examples of substantial violations
These include but are not limited to:

Forging any type of document
Stealing an examination from faculty or a College Office
Taking an examination for someone or having someone take it on your behalf
Writing a paper for someone or having someone write your paper
Purposely sabotaging another student's work that prevent his/her completion of an assignment
The student has previously violated the policy
Any violations made by a graduate and or professional student or a student who is pursuing professional licensure.

Hunter College Senate

The Hunter College Senate, chartered in 1970, is the principal governance body of the college and the only such body that holds a governance charter with the CUNY Board of Trustees. The Senate has authority to determine college policy in matters related to:

1. Curriculum
2. Academic requirements and standards
3. Instruction and the evaluation of teaching
4. College development, including master plan
5. Computing and technology

Representatives of the faculty, student body, and administration constitute the voting membership of the Senate and serve for a term of two years. The elected officers of the Senate include the chairperson, vice-chairperson, and secretary of the Senate, and the chairperson of the Senate's Evening Council, who constitute the Senate Administrative Committee.

Regular meetings of the Senate are planned for one-and-a-half hours and are held twice a month. Additional monthly meetings are called as needed. Election of faculty and student members to the Senate occurs during the spring semester.

Many standing committees and a varying number of special and ad hoc committees accomplish much of the work of the Senate. Membership on committees is representative and open to all faculty and students by election of the full Senate from a slate recommended by the Nominating Committee and by nominations from the Senate floor.

Faculty members and students are encouraged to become involved in the meetings of the Hunter College Senate and its committees.

Further information may be obtained by visiting the Senate Office, Room 1018 Hunter East Building, (212) 772-4200, or at http://www.hunter.cuny.edu/senate.

Hunter College Smoking Policy

Hunter College is a non-smoking environment (facility) pursuant to New York City Law.

Hunter Galleries

Main campus gallery: (212) 772-4991

The Hunter College Art Galleries, comprised of the Bertha and Karl Leubsdorf Gallery, The 205 Hudson Gallery, and The Artist's Institute are committed to a dynamic exhibition program that expands the classroom experience of
undergraduate learning across the college. The Galleries are also integral to the graduate programs in Art and Art History, affording students the opportunity to work hands-on with faculty, guest curators, and gallery staff to develop exhibitions that encourage critical thinking, original research, and direct contact with both historical and contemporary art.

The Bertha and Karl Leubsdorf Gallery is located in the West Building of the main campus at 68th Street and Lexington Avenue and focuses on historical and scholarly exhibitions developed by faculty, students, and alumni.

The 205 Hudson Gallery is a new street level exhibition space, housed in the Studio MFA program building in Tribeca. 205 Hudson is dedicated to engaging contemporary art through diverse exhibitions, performance events, and programming, including exhibitions of graduating MFA students.

The Artist's Institute, located at Casa Lally on East 65th Street, was founded in 2010 by Hunter College and curator Anthony Huberman. The Artist's Institute is an experimental platform for thinking about art in the present moment, with an annual program that is divided into two six-month seasons, each of which is dedicated to the work of a single artist.

Located in the Silberman School of Social Work Building at 119th Street, The Hunter College East Harlem Art Gallery is a space for initiating partnerships between different departments and academic disciplines. The gallery presents exhibitions and public events that foster academic collaboration at Hunter College while addressing subjects relevant to the East Harlem community.

Ida K. Lang Recital Hall

4th Floor Hunter North
Box office: (212) 772-4448
Administrative office: (212) 772-4227

The Ida K. Lang Recital Hall, a 149-seat auditorium designed by the firm of Abramowitz Kingsland Schiff, opened in Spring 1995. This state-of-the-art facility hosts jazz concerts, chamber music ensembles and film festivals and houses most of the Department of Music graduation and faculty recitals. Artists from throughout the world have performed at the Lang.

IMA Faculty

Kelly Anderson, Professor and Department Chair; BA, Brown; Documentary Production and Editing

Andrew Demirjian, Assistant Professor, Film and Media Studies; BA Clark, MFA Hunter (CUNY)

Stuart Ewen, Distinguished Professor; PhD, SUNY; Social and Cultural History, Visual Culture, Graphics

Michael Gitlin, Associate Professor; BA Indiana, MFA Bard, Film and Video Production

Tami Gold, Professor; BA, Friends World College; Documentary and Dramatic Video Production, Video Art

Steve Gorelick, Distinguished Lecturer: PhD, CUNY; Media Studies, media and violence

Mick Hurbis-Cherrier, Professor; MFA, Northwestern; Film and Video Production, Screenwriting

Martin Lucas, Associate Professor; BFA, NYU, MFA Vermont College; Film & Video Production, New Media, Digital Culture

Andrew Lund, Associate Professor; MFA, JD Columbia; Directing, Screenwriting, Film and Video Production, Entertainment Law
Incomplete Work in Course

Instructors may assign the grade IN, meaning that course work (examinations, assignments, classwork, lab work) was not completed. For an IN grade to be changed to a letter grade, all required coursework must be completed within one year after the IN grade is entered. If not changed to a letter grade within one year, the IN grade will become permanent. Penalties for lateness previously established for the course will remain in effect.

Students will have a maximum of one year to complete required course work, whether or not they are in attendance.

Institutional Policies

- Board of Trustees
- Bylaws of the Board of Trustees
- CUNY Policy on Academic Integrity
- CUNY Sexual Misconduct Policy/Title IX

Instructional Computing and Information Technology Resources

The Instructional Computing and Information Technology Department (ICIT) provides technology resources and services for students, staff and faculty. These include 1000 computers in open labs and through the Laptop Loan Program, Public Access computers, a 20-seat training facility, 250 technology equipped classrooms, and a center for online learning, to support faculty in creating and teaching hybrid and online courses. Other services accessible to staff, faculty and students include: e-mail, course management, computer training, consultation, audiovisual services, teleconferencing/videoconferencing services, telephone/voice mail services, computer networking services (on campus and off campus), software and student information services. Guidelines for access to and use of these services and facilities are posted at each facility and are subject to the rules and regulations of the college.

Hours, locations and a general description of the facilities available in each area are posted on the ICIT Web site: http://www.hunter.cuny.edu/icit
International Students

An international applicant for admission to Hunter College is expected to have a firm command of the English language before he/she applies. No provisional admission is offered whereby a student may come to the university and spend a semester or a year learning English at the college.

If the applicant plans to enter or remain in the U.S. on a student visa (F-1), it will be necessary to complete a Certification of Finances form and provide documented proof of financial support confirming that he or she has the funds necessary to cover all college tuition and personal expenses (approximately $43,563.70 per year). This form and documentation are required in order to obtain the I-20 Certificate of Eligibility. This procedure takes place after determination of academic eligibility and before registration for the first semester, and is carried out under the auspices of the International Students Office in the Office of Student Services.

Note: Overseas applicants who are interested in attending Hunter College are advised not to come to the U.S. on a B-2 visitor’s visa. Unless prearranged through the American consul (and unless the visa is marked "prospective student"), the B-2 visitor’s visa will not be changed to the F-1 student visa once the applicant enters the U.S. The I-20 form (required by the U.S. Immigration Office) is issued only to students who have been accepted as full-time matriculants.

Applicants are responsible for the payment of all tuition fees at the time of registration. International students must be in a position to finance the cost of their education and living expenses as college-based financial assistance is not available.

Hunter College does not make housing arrangements for students; it is essential that students be prepared to make their own housing arrangements before arrival.

Note: Academic credentials from non-U.S. institutions are evaluated by the Office of Graduate Admissions in order to establish U.S. baccalaureate degree equivalency. Applicants need not submit third party equivalencies; however, they must submit official English translations of academic records written in languages other than English. The evaluation is conducted in accordance with minimum criteria set by the Hunter College Senate, and it takes place before the completed application is referred to the departmental admissions committee.

*Minimum satisfactory score on the TOEFL is 550-575 on the paper based test or 213-233 on the computer administered test or 60-68 (less speaking component) on the TOEFL IBT, depending upon the curriculum.

International Students: Housing Arrangements

Hunter College does not make housing arrangements for students; it is essential that students be prepared to make their own housing arrangements before arrival.

International Students: Requirements for Admission

1. An international applicant for admission to Hunter College is expected to have a firm command of the English language before he/she applies. No provisional admission is offered whereby a student may come to the university and spend a semester or a year learning English at the college.
2. If the applicant plans to enter or remain in the U.S. on a student visa (F-1), it will be necessary to complete a Certification of Finances form and provide documented proof of financial support confirming that he or she has the funds necessary to cover all college tuition and personal expenses (approximately $43,563.70 per year). This form and documentation are required in order to obtain the I-20 Certificate of Eligibility. This
procedure takes place after determination of academic eligibility and before registration for the first semester, and is carried out under the auspices of the International Students Office in the Office of Student Services.

3. Overseas applicants who are interested in attending Hunter College are advised not to come to the U.S. on a B-2 visitor’s visa. Unless prearranged through the American consul (and unless the visa is marked "prospective student"), the B-2 visitor’s visa will not be changed to the F-1 student visa once the applicant enters the U.S. The I-20 form (required by the U.S. Immigration Office) is issued only to students who have been accepted as full-time matriculants.

4. Applicants are responsible for the payment of all tuition fees at the time of registration. International students must be in a position to finance the cost of their education and living expenses as college-based financial assistance is not available.

Note: Academic credentials from non-U.S. institutions are evaluated by the Office of Graduate Admissions in order to establish U.S. baccalaureate degree equivalency. Applicants need not submit third party equivalencies; however, they must submit official English translations of academic records written in languages other than English. The evaluation is conducted in accordance with minimum criteria set by the Hunter College Senate, and it takes place before the completed application is referred to the departmental admissions committee.

Leaves of Absence

Students who want a leave of absence for a specific period should apply for approval to their graduate adviser. Leaves are approved only for documented disabling illness, maternity, military service, or other unusual circumstances. Leaves may be approved up to a maximum of any two semesters (see "Readmission" in section on Admissions). Leave-of-absence forms may be obtained at http://registrar.hunter.cuny.edu ~ forms

Limitations for Transferring Credits

Transfer of credits is subject to the approval of the department or graduate adviser and to the regulations of the Hunter program in which the student is matriculated. The following additional limitations apply:

1. In order to be counted toward graduation, the course(s) for which transfer credit is requested must have been completed within five years prior to the awarding of the Hunter graduate degree. (A four-year restriction applies to the School of Arts and Sciences.)

2. Credits for courses in which the student earned a grade below B, or took a non-letter grade such as a pass/fail option, are not transferable.

3. A maximum of 12 credits may be transferred.

4. Courses used to satisfy entrance requirements, as well as courses used as part of a previously completed bachelor's program, may not be transferred.

Note: Grades in courses transferred from other institutions, or from a prior master's degree program taken at Hunter College, will not be calculated into the student’s grade point average (GPA), nor will these grades be posted on the current Hunter College record.

Lincoln Center Scholars Program

The Lincoln Center Scholars Program for Creative Arts Education, a partnership between Lincoln Center Education and the Hunter College School of Education, provides carefully selected artists with graduate coursework, certification support, and assistance with finding jobs as certified arts teachers in New York City Schools.
Literacy Programs

- Literacy Education: Birth - Grade 6 - MSEd
- Literacy Education: Grades 5-12 - MSEd

Literacy Space

This reading lab of the Graduate Program in Literacy Education was created as a site for our practicum courses in literacy assessment and intervention. Literacy Space serves, free of charge, elementary and middle school struggling readers and writers, who are recommended to us by the local public and private schools. These children are paired with our graduate students, who are certified teachers, to begin a year-long or semester-long one-to-one intervention program. Professor Nadine Bryce serves as the coordinator of Literacy Space.

Maintaining Matriculation

A matriculated student who is not registered for any courses but is completing other degree requirements for graduation must complete the registration procedure by registering to maintain matriculation. A student must be registered for the semester of graduation but need not register for any semester during which no work is done toward graduation. The fee cannot be waived or refunded. Maintenance of matriculation is not proof of attendance.

Math and Science Teacher Education Residency

Math and Science Teacher Education Residency The Math and Science Teacher Education Residency (MASTER) program is a two-year teacher-preparation program for prospective math and science teachers that integrates graduate coursework with intensive, hands-on experiences in New York City schools. MASTER is a partnership between Hunter College, New Visions for Public Schools, the New York Hall of Science and the New York City Department of Education.

Mathematics and Statistics Faculty

Return to Mathematics and Statistics

Ara Basmajian, Professor; PhD, SUNY Stony Brook; Hyperbolic Geometry, Discrete Groups

Martin Bendersky, Professor; PhD, California (Berkeley); Algebraic Topology

Patrick Burke, Doctoral Lecturer; PhD, Columbia; Mathematics Education

Barry M. Cherkas, Professor and Chair; PhD, Georgetown; Partial Differential Equations, Collegiate Mathematics Education

Daniel S. Chess, Associate Professor; PhD, Princeton; Structure Theorems for Diffeomorphisms

Richard C. Churchill, Professor; PhD, Wisconsin; Differential Algebra, Dynamical Systems

Sandra P. Clarkson, Professor; EdD, Georgia; Mathematics and Statistics Education
The Department of Mathematics and Statistics offers a choice of master's programs. The MA in Pure Mathematics is a 30-credit degree program. The coursework largely mirrors the first two years of a doctoral program in Mathematics. Achievement of the degree includes a comprehensive examination. In addition students must show reading competency in a foreign language. The MA Program in Statistics and Applied Mathematics is intended for students interested in applications to business, science, engineering, industry, biology, and medicine, as well as teaching and research. This is a 30-credit degree program. There are three tracks: Statistics is Track I, Applied Mathematics is Track II, and Bioinformatics is Track III. Achievement of the degree requires a final project as well as working knowledge of two computer languages. The final projects provide the student with the opportunity to investigate a problem whose outcome is not previously known. Our faculty mentor the projects. The department also has combined BA/MA programs in Mathematics or Statistics and Applied Mathematics.
In addition, the department offers, jointly with the School of Education, an MA in Adolescent Mathematics Education Grades 7-12, and a combined BA/MA in Adolescent Mathematics Education. The MA in Mathematics Education is designed for individuals without initial certification in mathematics. Individuals who already have initial certification in mathematics should pursue either the MA in pure mathematics or the MA in statistics and applied mathematics or the new Professional Certification master's program.

Return to Mathematics and Statistics

**Matriculated**

For matriculation, students must fulfill all the requirements for admission.

**Matriculated with conditions**

Students whose undergraduate training is inadequate, but who are otherwise qualified, may be admitted with not more than 6 credits of course conditions to either the School of Arts and Sciences or to the Schools of the Health Professions, and with not more than 12 credits of course conditions to the School of Education. Such students are expected to satisfy their conditions by eliminating all deficiencies within one year of matriculation if admitted to a program in the School of Arts and Sciences and the Schools of the Health Professions, and within three semesters in the School of Education.
