1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in key program courses.
   o Students who receive a grade of F or WU in key program courses may not continue in the program.
   o Key Program Courses are identified by the label (KC) in the course title.

Course of Study

Academic Plans

- Program 1: CSED-MSED
- Program 2: CSEDD-MSED

Total Credits

- CSED-MSED: 40-52
- CSEDD-MSED: 36

Courses for Programs 1 and 2

SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for
race, culture, class, language, gender, and disability.

Hours 3 hrs  
Credits 3 cr

SPED 70250 - Classroom Management in Special Education and Inclusive Settings

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000, SPED 79000, SPED 79100, or SPED 74000, SPED 74100  
Hours Includes 20 hrs of field experience, 45 hrs,  
Credits 3 cr

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100  
Hours (includes 10 hours of field experience),  
Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education (KC)

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,  
Credits 3 cr

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.
**SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)**

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

Includes 10 hrs of field experience.

**prereq or coreq:** SPED 70000  
**Credits:** 3

**SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities (KC)**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

**prereq or coreq:** SPED 70000  
**Hours:** 45 hrs,  
**Credits:** 3 cr

*This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.*

**SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities (KC)**

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

**prereq or coreq:** SPED 70000  
**Hours:** 45 hrs,  
**Credits:** 3 cr.

*This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.*
SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities (KC)

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000
Hours Includes 15 hrs of field experience
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours Includes 15 hrs of field experience
Credits 3 cr

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000
Hours includes 10 hrs of field experience, 30 hrs
Credits 2 cr

Take two of the following (must include two different grade levels)

SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3 (KC)

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6 (KC)**

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus 20 days of student teaching,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3 (KC)**

Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6 (KC)**

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hours seminar, plus conferences,
Credits 2 cr
This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

Additional Courses for Program 1

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

*Hours includes 5 hrs of field work

Credits 3

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

*prereq or coreq: CEDF 70900

Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

*prereq or coreq: CEDF 70900

*Hours includes 10 hrs of fieldwork

Credits 3

CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

*prereq or coreq: CEDF 70900
CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2

CEDC 72900 - Fieldwork in Childhood Education for Special Educators (KC)

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactory on a two-part culminating activity (partial requirements of SPED 70700 , Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue
   - and either -
   an original written research proposal
- or -

a written proposal for competitive grant funding.

4. Complete the Dignity for All Students Act (DASA) workshop.

Computer Science Education - MSED/Advanced Certificate

The Master of Education in Computer Science Education will provide aspiring computer science teachers with the knowledge, pedagogical techniques, and experiences necessary to teach computer science at the middle and high school levels. The Master's program will include 40 graduate credits including 16 core graduate education credits, 9 graduate credits specific to computer science education, a 3 credit student teaching, and 12 additional computer science credits.

The Advanced Certificate in Computer Science Education will provide in-service teachers, certified in another subject area, with the knowledge, pedagogical techniques, and experiences necessary to teach computer science at the middle and high school levels. The certificate program will include 21 graduate credits including 9 credits in Computer Science Education, 12 additional credits in Computer Science.

Upon completing these programs, students will be recommended to NYSED for licensure in Computer Science Education.

Admission Requirements

Master's Program:

1. A bachelor's or master's degree from a regionally-accredited university with a minimum 3.0 GPA.
2. Resume and two professional references to be included with the application for matriculation. Interview with program faculty.
3. Test score on the GRE or similar equivalent exam.
4. Applicants must be admitted to both the Hunter School of Education and the Hunter School of Arts and Sciences

Advanced Certificate Program:

1. A bachelor's or master's degree from a regionally-accredited university with a minimum 3.0 GPA.
2. Proof of state certification as a middle or high school teacher.
3. Resume and two professional references to be included with the application for matriculation.
4. Interview with program faculty.
5. Test score on the GRE or similar equivalent exam.
6. Applicants must be admitted to both the Hunter School of Education and the Hunter School of Arts and Sciences

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.
4. **Key Course Performance Standards**
   - Students must receive a grade of at least a B in key program courses.
   - Students who receive a grade of F or WU in key program courses may not continue in the program.
   - Key Program Courses are identified by the label (KC) in the course title.

**Fieldwork Requirements**

All field experiences will take place in New York City.

**Course of Study**

**Academic Plans**

Master's: CSEDU-MSED

Credits: 40

Advanced Certificate: CSCIEDU-AC

Credits: 21

**Courses for the Master's**

**CSCI 70300 - Data Structures in a high level language**

This course will provide aspiring and practicing teachers with a deeper knowledge of computer science. Students will study data representation in computer systems and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, trees, recursion and analysis of algorithms and their applications relevant in a classroom setting.

*prereq: CSCI 70900*

*Hours 3*

*Credits 3*

**CSCI 70500 - Algorithms**

Complexity and applicability of file and data manipulation techniques including searching, sorting, supporting internal and external data structures, sequential and random access methods, basic big data techniques and other topics.

*prereq: departmental permission*

*Hours 3 hrs*

*Credits 3 cr.*

**CSCI 70700 - Modern Topics and Concepts in Computer Science**

This course will provide aspiring and practicing teachers with base knowledge in a number of the most important disciplines in computer science. Students will study and create working systems using a variety of tools, techniques, and technologies. Sample topics include functional programming, data mining, computer graphics, and artificial
CSCI 70900 - Programming in high level language

Programming in a high level language introduces students to computer programming and goes well beyond an introductory class. The course will provide an overview of a language such as Java language and dive into important programming concepts including object-oriented programming, inheritance, exception handling, debugging techniques and more.

Hours 3 hrs.
Credits 3 cr.

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs.
Credits 3 cr.

SEDC 71900 - Methods 1: Advanced Study of Secondary Learning Environments for Teaching Computer Science

Examines the interrelationship between the educational environment and the adolescent's learning of computer science. Teacher candidates study the basics of classroom management in the teaching of computer science as they explore the content and implementation of proposed national, New York State, and New York City standards for computer science. Fosters the use of technology as an educational tool to improve the technical literacy of the adolescent.

Hours 3.0
Credits 3.0

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs.
Credits 1 cr.

SEDC 72900 - Methods II: Intensive study of Teaching Diverse Learners in Computer Science Grades 7-12 (KC)

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population emerging state and professional standards-based curriculum in computer science. Innovative uses of technology, development of instructional units, individualizing for a diverse population of students, and strategies for managing problem behavior will be emphasized throughout the
SEDC 73600 - Curriculum Design for Computer Science (KC)

This course will prepare candidate teachers to design complete units of study ranging from standalone class units to complete courses to a sequence of courses. Candidates will learn to build developmentally appropriate materials by looking at curriculum from top down and bottom up perspectives as well as how computer science fits within an adolescent's full education. Candidates will also be required to complete fifty hours of fieldwork. Most of these hours would be at the candidates grade level (high school, primary school, etc.) but will include an experience in levels K-6 and 7-12 to align with state regulations. Fieldwork will be under the supervision of a Hunter College faculty member and a certified teacher in New York City schools selected by the college.

Hours 3
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDC 75900 - Student Teaching for Computer Science (KC)

Teacher candidates complete 60 days of student teaching at grades 7–12 under the supervision of a Hunter College faculty member and a certified teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 71900 and SEDC 72900
Hours 3.0
Credits 3.0

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.
**SEDF 70400 - Adolescent Development, Grades 7–12**

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*Hours 30 hrs, plus 36 hrs fieldwork,*
*Credits 2 cr*

**SEDF 70500 - Educational Psychology: Applications to Adolescent Education (KC)**

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

*prereq: SEDF 70400*

*Hours 30 hrs, plus 36 hrs fieldwork,*
*Credits 2 cr*

*This Key Course requires a grade of B or better to pass.*

*Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.*

*This course may be repeated only once.*

**SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education**

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 70500*

*coreq: One of the following must be a Co-req:*

SEDC 724; SEDC 754.01; SEDC 774.11; SEDC 774.21; SEDC 754.02; SEDC 774.12; SEDC 774.22; SEDC 754.04; SEDC 774.14; SEDC 774.24; SEDC 721; SEDC 751; SEDC 771.1; SEDC 771.2; SEDC 722; SEDC 752.01; SEDC 772.11; SEDC 772.21; SEDC 752.02; SEDC 772.12; SEDC 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDC 723; SEDC 753; SEDC 773.1; SEDC 773.2; MUSED 678; SEDC 756; SEDC 766.1; SEDC 776.2; SEDC 754.03; SEDC 774.13; SEDC 774.23; SEDC 725; SEDC 755; SEDC 775.1; SEDC 775.2; SEDC 752.03; SEDC 772.13; SEDC 772.23

*Hours 30 hrs, plus lab,*
*Credits 2 cr*

**SPED 70800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

*Cross-listed SPED 308*

*prereq: 12 credits of coursework*

*Hours 45*
A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

Courses for the Advanced Certificate

**CSCI 70300 - Data Structures in a high level language**

This course will provide aspiring and practicing teachers with a deeper knowledge of computer science. Students will study data representation in computer systems and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, trees, recursion and analysis of algorithms and their applications relevant in a classroom setting.

*prereq: CSCI 70900*
*Hours 3*
*Credits 3*

**CSCI 70500 - Algorithms**

Complexity and applicability of file and data manipulation techniques including searching, sorting, supporting internal and external data structures, sequential and random access methods, basic big data techniques and other topics.

*prereq: departmental permission*
*Hours 3 hrs*
*Credits 3 cr.*

**CSCI 70700 - Modern Topics and Concepts in Computer Science**

This course will provide aspiring and practicing teachers with base knowledge in a number of the most important disciplines in computer science. Students will study and create working systems using a variety of tools, techniques, and technologies. Sample topics include functional programming, data mining, computer graphics, and artificial intelligence.

*prereq: CSCI 70300*
*Hours 3*
*Credits 3*

**CSCI 70900 - Programming in high level language**

Programming in a high level language introduces students to computer programming and goes well beyond an introductory class. The course will provide an overview of a language such as Java language and dive into important programming concepts including object-oriented programming, inheritance, exception handling, debugging techniques and more.

*Hours 3 hrs.*
*Credits 3 cr.*

**SEDC 71900 - Methods 1: Advanced Study of Secondary Learning Environments for Teaching Computer Science**
Examines the interrelationship between the educational environment and the adolescent's learning of computer science. Teacher candidates study the basics of classroom management in the teaching of computer science as they explore the content and implementation of proposed national, New York State, and New York City standards for computer science. Fosters the use of technology as an educational tool to improve the technical literacy of the adolescent.

Hours 3.0
Credits 3.0

**SEDC 72900 - Methods II: Intensive study of Teaching Diverse Learners in Computer Science Grades 7-12 (KC)**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population emerging state and professional standards-based curriculum in computer science. Innovative uses of technology, development of instructional units, individualizing for a diverse population of students, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71900
*coreq: SEDC 74100

Hours 3.0
Credits 3.0

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SEDC 73600 - Curriculum Design for Computer Science (KC)**

This course will prepare candidate teachers to design complete units of study ranging from standalone class units to complete courses to a sequence of courses. Candidates will learn to build developmentally appropriate materials by looking at curriculum from top down and bottom up perspectives as well as how computer science fits within an adolescent's full education.
Candidates will also be required to complete fifty hours of fieldwork. Most of these hours would be at the candidates grade level (high school, primary school, etc.) but will include an experience in levels K-6 and 7-12 to align with state regulations. Fieldwork will be under the supervision of a Hunter College faculty member and a certified teacher in New York City schools selected by the college.

Hours 3
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**Exit Requirements**

1. An overall GPA of 3.0.
2. Master's degree students will develop a professional teaching portfolio, which is a cumulative effort, integrating course and fieldwork throughout the program.
3. Complete the Dignity for All Students Act (DASA) workshop.

**Deaf and Hard-of-Hearing - MSEd**
Program Coordinator

The School of Education offers graduate programs that prepare students to become teachers of the Deaf and Hard of Hearing. Graduates of the Deaf and Hard of Hearing program typically become itinerant or classroom teachers for students who are deaf and hard of hearing with a wide range of hearing levels and communication modality, both signed and oral.

The master's degree in Deaf and Hard of Hearing offers two programs. Program 1 (Academic Plan: DEAFN-MSED) is for those who do not hold NYS certification and leads to dual certification in childhood education and deaf and hard of hearing. Program 2 (Academic Plan: DEAFW-MSED) is for those who hold NYS certification and leads to single certification in deaf and hard of hearing.

Admission Requirements

Program 1

For applicants who do not hold NYS certification in Childhood Education

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5; plus
   A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
2. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Program 2

For applicants who hold Early Childhood, Childhood, PreK-Grade 6, Middle Childhood or Adolescent Education NYS certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5; plus
2. NYS initial, professional, or permanent certification in Early Childhood, Childhood, PreK-grade 6, Middle Childhood or Adolescent Education. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 715, a 1-credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in key program courses.
   o Students who receive a grade of F or WU in key program courses may not continue in the program.
   o Key Program Courses are identified by the label (KC) in the course title.

Course of Study

Academic Plans

- Program 1: DEAFN-MSED
- Program 2: DEAFW-MSED

Total Credits

- DEAFN-MSED: 43-55
- DEAFW-MSED: 33-39

Courses for Programs 1 and 2

SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

Hours 3 hrs
Credits 3 cr

SPED 70100 - Assessment of Students with Disabilities

The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000
Hours 45 hours; includes 10 hrs of field experience
Credits 3

SPED 70200 - Classroom Management in Special Education and Inclusive Settings
Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000
Hours 45 hours; includes 15 hrs of field experience
Credits 3

SPED 70700 - Research Seminar: Issues in Special Education (KC)

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,
Credits 3 cr

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPED 72000 - American Sign Language I

An intensive first course in American Sign Language (ASL), designed to establish a foundation of ASL communicative competence. Emphasizes ASL grammar, vocabulary, receptive and expressive skills, fingerspelling, numbers, and spatial and pronominal reference.

prereq or coreq: SPED 70000
Hours Includes 10 hrs of field experience, 90 hrs lab,
Credits 3 cr

SPED 72100 - American Sign Language II

This intensive course continues material covered in SPED 720. Emphasizes increased communicative competence in ASL, as well as grammar, vocabulary, and receptive and expressive skills.

prereq: SPED 72000
Hours Includes 10 hrs of field experience 90 hrs lab,
Credits 3 cr

SPED 72200 - The Study of ASL Educational Linguistics

Focus on the linguistic structure of ASL: phonology, morphology, syntax, pragmatics, and discourse rules. Traces acquisition of ASL during infancy, childhood and adolescent. Differences are highlighted between ASL and English linguistics, as well as the interaction between such structures and children's learning. ASL is the instructional language used to teach this course.
SPED 73000 - Education of Students Who Are Deaf and Hard-of-Hearing

History of theory, practice and conceptualizations in the education of students who are deaf and hard-of-hearing. The study of language acquisition (English and ASL), bilingualism, and learning English as a second language in hearing and deaf children. Linguistic understanding and analysis of the components of language proficiency. Educational settings, issues of inclusion, and use of technology.

Hours Includes 10 hours of field experience 45 hrs,
Credits 3 cr

SPED 73100 - Reading and Writing Development for Students Who Are Deaf and Hard-of-Hearing: Methods 1

Theoretical and practical aspects of deaf children's receptive and expressive language use. Instructional procedures used to facilitate language acquisition in deaf and hard-of-hearing children and their learning to read and write. Assessment, instructional procedures, specific remediation techniques, and technology supports.

prereq: SPED 70000 and SPED 73000
coreq: must take SPED 73300 in semester immediately following.
Hours 3 hrs
Credits 3 cr.
Fall only

SPED 73300 - Math and Across-the-Curriculum Adaptations for Students who are Deaf and Hard-of-Hearing: Methods 2

Methods for assessing and teaching deaf and hard-of-hearing students in mathematics, science, social studies, other content areas, and time/space organization. Focus on math concept development and compensations; reading/writing and the arts across the curriculum; and organizational strategies for school, home and life.

prereq: (immediate preceding semester) SPED 73100
prereq or coreq: SPED 70000
Hours Includes 15 hrs of field experience
Credits 3 credits
Spring only

SPED 73500 - Speech Development and Remediation of Students who are Deaf and Hard-of-Hearing

Psycho-acoustic aspects of speech sounds and their relationship to speech acquisition in hearing and deaf children. Effects of various degrees of hearing loss on speech acquisition; sense modalities in speech production; typical voice and speech errors in deaf and hard-of-hearing children; methods, procedures, materials, and technology used for speech development and remediation; inclusion of deaf and hard-of-hearing students.
SPED 73600 - Aural Rehabilitation of Students who are Deaf and Hard-of-Hearing

Principles and methods of teaching speech and auditory training. Methods, procedures and materials used in development of oral communication, supports for inclusive settings and use of technology.

- Take either -

SPED 73700 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 12 (KC)

Supervised student teaching placement providing direct, specially designed classroom instruction for deaf and hard-of-hearing students at two grade levels that do not overlap with either pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

- Or two of the following (must include two different grade levels) -

SPED 73750 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 6 (KC)

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.
This Key Course requires a grade of B or better to pass. 
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. 
This course may be repeated only once.

**SPED 73751 - Student Teaching: Deaf and Hard-of-Hearing, Grades 7–12 (KC)**

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

*prereq or coreq:* SPED 721, SPED 733
*Hours* 30 hrs seminar, plus conferences, plus 20 days student teaching,
*Credits* 2 cr

This Key Course requires a grade of B or better to pass. 
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. 
This course may be repeated only once.

**SPED 73760 - Supervised Practicum: Deaf and Hard-of-Hearing, Preschool–2nd Grade (KC)**

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

*prereq or coreq:* SPED 72100, SPED 73300
*Hours* 30 hrs seminar, plus conferences, plus 20 days student teaching,
*Credits* 2

This Key Course requires a grade of B or better to pass. 
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. 
This course may be repeated only once.

**SPED 73761 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 1-6 (KC)**

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

*prereq or coreq:* SPED 72100, SPED 73300
*Hours* 30 hrs seminar, plus conferences, plus 20 days student teaching
*Credits* 2

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SPED 73762 - Supervised Practicum: Deaf and Hard-of- Hearing, Grades 5-9 (KC)**

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

*prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences,
Credits 2*

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SPED 73763 - Supervised Practicum: Deaf and Hard-of- Hearing, Grade 7–12 (KC)**

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

*prereq or coreq: SPED 7300, SPED 73300
Hours 30 hrs seminar, plus conferences,
Credits 2*

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**Additional Courses for Program 1**

Students must take between 7-19 credits of childhood education credits in addition to the special education courses required for their degrees. Students can be exempted from up to 12 credits of the general education requirements listed below on the basis of equivalent courses taken at either the graduate or undergraduate level. However, students may not be exempted from CEDC 72900 (Fieldwork in Childhood Education for Special Educators).

**CEDF 70900 - Child Development Grades 1-6**

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

*Hours includes 5 hrs of field work
Credits 3*

**CEDC 70350 - Teaching Science in the Elementary School**
For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

*prereq or coreq: CEDF 70900*
*Credits 3*

**CEDC 70450 - Teaching Developmental Reading**

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

*prereq or coreq: CEDF 70900*
*Hours includes 10 hrs of fieldwork*
*Credits 3*

**CEDC 70550 - Mathematics Curriculum and Methods**

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

*prereq or coreq: CEDF 70900*
*Hours includes 10 hrs of fieldwork*
*Credits 3*

**CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology**

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

*prereq or coreq: CEDF 70900 and CEDC 70450*
*Hours 30 hrs,*
*Credits 2*

**CEDC 72900 - Fieldwork in Childhood Education for Special Educators (KC)**

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills,
acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

prereq: CEDF 70900, CEDC 70450 and 70550
Hours 15 hrs of seminar plus 50 hrs fieldwork
Credits 1
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education): a comprehensive research-based oral presentation on a current special education issue - and either -
   - an original written research proposal
   - or -
   - a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

Early Childhood Development and Learning: Diverse Children and Families - MSEd

Program Coordinator

Bonnie Keilty
(212) 772-4709
929 West Building
bkeilty@hunter.cuny.edu

These graduate programs prepare students to support infants, toddlers, preschoolers and early elementary children in inclusive, integrated, and self-contained classrooms, as well as homes and communities.

We offer two programs:

- Program 1 (Academic Plan: SENB2-MSED) leads to dual certification: early childhood and students with disabilities birth to grade 2, for those with no NYS certification or NYS certification in an area other than early childhood education.
Program 2 (Academic Plan: SEWB2-MSED) leads to single certification in students with disabilities birth to grade 2, for those with NYS Early Childhood Education certification.

Admission Requirements

**Program 1**

For applicants who do not hold NYS certification in Early Childhood Education.

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5.
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate degree.

OR

1. Any NYS teacher certificate other than Early Childhood Education.
2. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate degree.

**Program 2**

For applicants who hold NYS certification in Early Childhood Education, Birth to Grade 2

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5.
2. NYS certification in Early Childhood Education or PreK-Grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate degree.

**Progress Standards**

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in key program courses.
   o Students who receive a grade of F or WU in key program courses may not continue in the program.
   o Key Program Courses are identified by the label (KC) in the course title.

Course of Study

Academic Plans

• Program 1: SENB2-MSED
• Program 2: SEWB2-MSED

Total Credits

• SENB2-MSED: 42-54
• SEWB2-MSED: 36

Courses for Programs 1 and 2

SPEDE 76800 - Fostering Development in Young Children with Diverse Abilities: Historical, Political, and Inclusive Perspectives

This course explores the variability of development in infants and young children, and related developmental promotion approaches, through a lens of cultural, linguistic, and ability diversity. Functional developmental competencies and the range of developmental consequences within specific diagnoses will be examined, including the implications for supporting learning and development in classrooms, homes, and communities. The evolution of laws, regulations, and inclusive practices to current early intervention and early childhood special education recommended practices will be situated within this developmental framework.

prereq or coreq: ECF 700 (for Program 1 students only)
Hours Includes 5 hrs field experience,
Credits 3

SPEDE 76900 - Evaluation, Assessment, and Program Planning for Infants and Young Children with Special Needs (KC)

Developmentally appropriate and recommended practices for assessing the development and learning of young children from infancy through age 7 years (second grade) and identifying family strengths and supports. Application of tools, observations, and discussions with informed others to make decisions in screening, evaluation and program planning will be explored within a transdisciplinary team. Students must receive a grade of B or better.

prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only); and SPEDE 768
Hours Includes 15 hrs field experience,
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.
SPEDE 77000 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula (KC)

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods. Students must receive a grade of B or better.

prereq or coreq: SPEDE 768 and SPEDE 769; OR SPED 700 and SPED 790

Hours Includes 15 hrs field experience,

Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPEDE 77100 - Autism Spectrum Disorder: Characteristics and Implications for Intervention

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

prereq or coreq: SPEDE 770

Hours Includes 5 hrs of field experience

Credits 3 cr

SPEDE 77200 - Positive Behavior Support (PBS) and Its Application to Young Children with Special Needs

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

prereq: SPEDE 768 OR SPED 700

Hours Includes 5 hrs of field experience

Credits 3 cr

SPEDE 77300 - Families, Parenting, and Family-Professional Partnerships: Theories, Research, and Practices (KC)

This yearlong course focuses on the significant influence of the family in early childhood learning and development and evidence-based strategies for creating and sustaining effective family-professional partnerships to optimize family and child outcomes in classroom, home, and community settings. The developmental process of parenting, family capacity-building approaches, and convergence of family and professional expertise to promote child learning and development will be examined across diverse cultures, languages, abilities, settings, and urban contexts.

prereq or coreq: SPEDE 770
Hours 3.0 (YL)
Credits 3.0 (YL)
Includes 5 hrs field experience.

This is a yearlong course.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPEDE 77600 - Introductory Field Experience in Early Childhood Special Education (KC)

Preparatory experience in a program supporting young children with diverse abilities; emphasis on what it means to be an early intervention/early childhood special education professional; One field placement of 10 days in a Kindergarten or Grade 1 or 2 setting.

prereq: ECC 71200 (for Program 1 students only)
prereq or coreq: SPEDE 77000

Hours 2 hrs.
Credits 2 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPEDE 70700 - Research Seminar: Issues in Early Intervention and Early Childhood Special Education

Integration of theory, research and practice as related to the field of early childhood special education. Focus is on researching and applying evidence-based practices with fidelity across individuals and environments.

prereq or coreq: SPEDE 778.10 OR SPEDE 779.10

Hours 3 for 5 weeks
Credits 1 cr.
SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours Includes 10 hours of field experience, 45 hrs,
Credits 3 cr

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours Includes 15 hrs of field experience
Credits 3 cr

Take Either

SPED 77810 - Initial Student Teaching in Early Childhood Special Education (KC)

First, full semester, supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.10 must also take either SPEDE 77820 or SPEDE SPEDE 77920 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

prereq: SPEDE 77600
Hours 3 hrs. plus full semester of student teaching
Credits 3 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 77820 - Final Student Teaching in Early Childhood Special Education (KC)

Second, full-semester, intensive supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.20 must have already taken either SPEDE 77810 or
SPEDE 77910 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.

**prereq:** SPEDE 77400 and either SPEDE 77810 or SPEDE 77910  
**Hours** 3 hrs. plus full semester of student teaching  
**Credits** 3 cr.

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

Or

**SPEDE 77810: Initial Student Teaching in Early Childhood Special Education (3)**

**SPEDE 77920 - Final Practicum in Early Childhood Special Education (KC)**

Second intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.20 must have already taken SPEDE 77810 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

**prereq:** SPEDE 77400 and SPEDE 77810  
**Hours** 3 hrs. plus full semester of practicum experience in worksite  
**Credits** 3 cr.

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

Or

**SPEDE 77910 - Initial Practicum in Early Childhood Special Education (KC)**

First intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 779.10 must also take SPEDE 77820 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

**prereq:** SPEDE 77600  
**Hours** 3 hrs plus full semester of practicum experience in worksite  
**Credits** 3 cr.

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**SPEDE 77820: Final Student Teaching in Early Childhood Special Education**
Or

**SPEDE 77910: Initial Practicum in Early Childhood Special Education**

**SPEDE 77800 - Student Teaching in Early Childhood Special Education (KC)**

Supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and an abbreviated field experience. (Note that students who take SPEDE 77800 must also take SPEDE 77900 in addition to either SPEDE 77910 or SPEDE 77920 and the placement for SPEDE 77800 must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2 – than SPEDE 779. One semester of SPEDE 778 or SPEDE 779 must be in a PreK setting.)

prereq: SPEDE 77600, ECC 71200
prereq or coreq: SPEDE 77100

Hours 1.0
Credits 1.0

(Note that students who take SPEDE 77800 must also take SPEDE 77900 and the placements must be at different age/grade levels.)

30 hrs seminar plus 30 days student teaching

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPEDE 77900 - Practicum in Early Childhood Special Education (KC)**

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences.

prereq: SPEDE 77600, ECC 71200
prereq or coreq: SPEDE 77100

Hours 30 hrs seminar plus conferences,
Credits 2

(Note that students who take SPEDE 77900 must also take SPEDE 77800 and the two experiences must be at different age/grade levels. Pre-K [Birth–five], Kindergarten, grades 1–2. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

Or

**SPEDE 77800: Student Teaching in Early Childhood Special Education**
**SPEDE 77900: Practicum in Early Childhood Special Education**
**SPEDE 77920 Final Practicum in Early Childhood Special Education**

Additional Courses for Program 1
ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels
Credits 3

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400
prereq or coreq: 70500 or 70600
Hours 15 hrs
Credits 1

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood (KC)

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.
prereq: ECC 70300

Hours 15 hrs of seminar plus 50 hrs in the field
Credits 1

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs
Credits 3

ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels
Credits 3

HED 71500 - Health Education for Special Educators

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

Hours 15 hrs,
Credits 1 cr

Exit Requirements

1. An overall GPA of 3.0.
2. Program 2 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily in the development of a comprehensive teaching portfolio (partial requirements of SPEDE 77820 and SPEDE 77920). The portfolio must demonstrate competence in assessment, program planning, intervention, and progress monitoring, as well as reflective practices.
4. Complete the Dignity for All Students Act (DASA) workshop.

Early Childhood Development and Learning: Diverse Children and Families with Annotation in Severe/Multiple Disabilities
Graduates from the severe/multiple disabilities program (ECSB2-MSED) will be able to serve in such roles as specialized teachers of learners with severe disabilities, including deafblindness; inclusion support providers; and as collaborative team teachers with general education teachers in public and private schools, private agencies, hospitals and clinics. This program also leads to an extension annotation certificate in Severe/Multiple Disabilities.

This program offers three tracks (or subplans):

- **Track 1 (Subplan: ECSMDLNYSC)** is a dual certification track for those with no NYS certification.
- **Track 2 (Subplan: ECSMDANYSM)** is for those with any other NYS certification.
- **Track 3 (Subplan: ECSMDANYSC)** is for those with Early Childhood Education certification.

**Admission Requirements**

**Track 1**

For applicants who do not hold NYS certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5.
2. A liberal arts or science major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Track 2**

For applicants who hold NYS certification in an area other than Early Childhood

1. Any New York State teacher certificate other than Early Childhood Education.
2. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Track 3**

For applicants who hold NYS certification in Early Childhood Education
1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; or
   A master's degree from an accredited institution with a GPA of at least 3.5.
2. New York State initial/permanent teacher certification in Early Childhood or PreK-Grade 6. Those holding permanent certification must either show proof that they have satisfied the New York State requirements regarding wellness, child abuse, drug abuse, fire safety, and violence prevention or take HED 71500, a one credit course covering these topics.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in key program courses.
   o Students who receive a grade of F or WU in key program courses may not continue in the program.
   o Key Program Courses are identified by the label (KC) in the course title.

Course of Study

Academic Plan

ECSB2-MSED

Subplans

- TRACK 1: ECSMDLNYSC
- TRACK 2: ECSMDANYSM
- TRACK 3: ECSMDANYSC

Total Credits

- ECSMDLNYSC: 53-60
- ECSMDANYSM: 42-46
- ECSMDANYSC: 42

Courses for Tracks 1, 2 and 3

SPED 70000 - Issues and Practices in Educating Students with Disabilities

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.
Hours 45 hours; includes 5 hours of field experience
Credits 3

SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 and SPED 79000 or SPED 74100
Hours (includes 10 hours of field experience),
Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education (KC)

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,
Credits 3 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100
Hours Includes 10 hrs of field experience
Credits 3

SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities (KC)

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.
prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities (KC)

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum-based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000
Hours Includes 15 hrs of field experience
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours Includes 15 hrs of field experience
Credits 3 cr

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000
Hours includes 10 hrs of field experience, 30 hrs
Credits 2 cr

SPED 77000 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula (KC)
Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods. Students must receive a grade of B or better.

prereq or coreq: SPEDE 768 and SPEDE 769; OR SPED 700 and SPED 790

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPEDE 77100 - Autism Spectrum Disorder: Characteristics and Implications for Intervention**

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

prereq or coreq: SPEDE 770

This course may be repeated only once.

**SPEDE 77200 - Positive Behavior Support (PBS) and Its Application to Young Children with Special Needs**

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

prereq: SPEDE 768 OR SPED 700

This course may be repeated only once.

This yearlong course focuses on the significant influence of the family in early childhood learning and development and evidence-based strategies for creating and sustaining effective family-professional partnerships to optimize family and child outcomes in classroom, home, and community settings. The developmental process of parenting, family capacity-building approaches, and convergence of family and professional expertise to promote child learning and development will be examined across diverse cultures, languages, abilities, settings, and urban contexts.

prereq or coreq: SPEDE 770

This course may be repeated only once.
This is a yearlong course.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPEDE 77400 - Adaptations for Individual Learners Across the K-2 Curriculum (KC)**

Methods for supporting children with disabilities and special education needs, grades K–2 access the general education curriculum; Data-based decisions within a response to intervention framework and individualized modifications and adaptations, instructional approaches and specific methodologies effective with young children are emphasized.

*prereq: SPEDE 77000 and SPEDE 77200 (for all programs); and ECC 70400 or ECC 70900 (for Program 1 students only)*
*Hours 3 hrs: includes 5 hrs field experience*
*Credits 3 cr*

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

- And -

**SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities (KC)**

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

*prereq or coreq: SPED 79000, 79100*
*Hours 36 days (30 hr seminar plus 36 days pre-K) plus conferences*
*Credits 2*

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

- Or -

**SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities (KC)**

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

*prereq or coreq: SPED 79000, 79100*
Hours 36 days (30 hr seminar plus 36 days student teaching K-2), plus conferences
Credits 2

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

- plus -

**SPEDE 79552 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities (KC)**

Supervised practicum in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

**prereq or coreq:** SPED 79000, 79100
Hours 36 days (30 hr seminar, pre-K), plus conferences
Credits 2 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

- Or -

**SPEDE 79553 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities (KC)**

Supervised practicum in a disability-specific or inclusive school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

**prereq or coreq:** SPED 79000, 79100
Hours 36 days (30 hr seminar, K-2), plus conferences
Credits 2 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**Additional Courses for Track 1**

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.
ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000

ECC 70600 - Language and Literacy: K through Grade 2

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

prereq or coreq: ECC 70500 (early childhood students only)

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

coreq: ECC 70400
prereq or coreq: 70500 or 70600

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood (KC)

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students
will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field
Credits 1

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**ECC 71300 - The Expressive Arts in Early Childhood**

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

*Hours 45 hrs
Credits 3*

**HED 71500 - Health Education for Special Educators**

This course presents an overview of health promotion and wellness for childhood special educators. It includes child abuse and neglect, drug education, fire safety, nutrition and fitness, and violence prevention.

*Hours 15 hrs,
Credits 1 cr*

**Additional Courses for Track 2**

**ECC 70300 - Early Childhood Curriculum: Birth through Grade 2**

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels
Credits 3

**ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood (KC)**

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.
prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field
Credits 1

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

Exit Requirements

1. An overall GPA of 3.0.
2. Tracks 2 and 3 students must maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity (partial requirements of SPED 70700, Research Seminar: Issues in Special Education):
   - a comprehensive research-based oral presentation on a current special education issue
   - and either -
   - an original written research proposal
   - or -
   - a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

Early Childhood Education, Birth through Grade 2 - MSEd

This program (Academic Plan: ECEB2-MSED) leads to NYS certification in Early Childhood Education. It is recognized by the National Association for the Education of Young Children (NAEYC) and prepares candidates for teaching in a variety of educational settings within the birth to grade 2 levels. This program is not designed for those who already have NYS certification in Early Childhood Education.

ECEB2-MSED has two tracks (or subplans). Track 1 (Subplan: ECEB2LNYS) is for applicants with no prior NYS certificate. Track 2 (Subplan: ECEB2ANYSC) is for applicants who have prior NYS certificate.

Admission Requirements

Track 1

For applicants who do not hold New York State Certification

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. A liberal arts or sciences major or interdisciplinary concentration of at least 30 credits.
3. General education core in the liberal arts and sciences to include: artistic expression; communication; information retrieval; concepts in history and social sciences; humanities; a language other than English; scientific and mathematical processes; and written analysis and expression.
4. A personal statement.
5. Two letters of recommendation.  
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Track 2**

For applicants who hold NYS certification in Childhood Education, Common Branches PreK- Grade 6, Childhood or Early Childhood Special Education, or TESOL

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.  
2. NYS initial, professional, or permanent certification in Childhood Education, Pre-K-Grade 6, Students with Disabilities Birth to Grade 2 or Grades 1-6, or TESOL.  
3. A personal statement.  
4. Two letters of recommendation.  
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.

**Progress Standards**

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.  
2. No F in the first two semesters—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.  
3. Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.  
4. Key Course Performance Standards  
   o Students must receive a grade of at least a B in key program courses.  
   o Students who receive a grade of F or WU in key program courses may not continue in the program.  
   o Key Program Courses are identified by the label (KC) in the course title.

**Course of Study**

**Academic Plan**

**ECEB2-MSED**

**Subplans**

- Track 1: ECEB2LNYSC  
- Track 2: ECEB2ANYSC

**Total Credits**

- ECEB2LNYSC: 36-42  
- ECEB2ANYSC: 30-35

**Courses for Tracks 1 and 2**
ECF 70000 - Child Development: Birth to Age Eight

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.

*Hours* 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of 3 age levels  
*Credits* 3

ECF 70100 - Social and Historical Contexts of Early Childhood Education

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours* 45 hrs  
*Credits* 3

ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000*  
*Hours* 45 hrs  
*Credits* 3

ECC 70300 - Early Childhood Curriculum: Birth through Grade 2

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000*  
*Hours* 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels  
*Credits* 3

ECC 70700 - Language and Literacy: English Language Learners

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

*coreq: ECC 70400*  
*prereq or coreq: 70500 or 70600*  
*Hours* 15 hrs  
*Credits* 1
ECC 70800 - Children with Special Needs: Birth through Grade 2

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

prereq: ECC 70300
prereq or coreq: ECF 70200
Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels
Credits 3

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs
Credits 3

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 71500 - Educational Technology in Early Childhood

Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

Hours 15 hrs,
Credits 1 cr

ECC 72000 - Integrative Seminar in Early Childhood Education

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900
(program 2) or 71000 and 71100 (program 1), 71200 (program 1)

Credits 3

- Take Either -

**ECC 71600 - Student Teaching in Early Childhood Settings (KC)**

A full semester of student teaching in one of the required age/grade levels (Pre-K, K, grades 1-2) that supplement pre-student teaching field experience (Birth-3, preK-2).

**prereq:** ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only))

**Hours** 30 hrs of seminar plus 60 days of student teaching

Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

- Or -

**ECC 71700 - Supervised Practicum in Early Childhood (KC)**

This course has two key components: (1) A full semester of practicum in Pre- K, K, or grades 1-2 and (2) biweekly seminar (30 hours). It builds on prior coursework and field experiences by providing guidance and reflective discussion that allow teacher candidates to enhance their teaching skills in early childhood education settings. Specific information regarding professional issues, ethical behaviors, and child advocacy is provided and reviewed. In addition, this course will align the practicum experience with the expectations of the edTPA in order to support teacher candidates with the preparation and submission of their portfolios.

**prereq:** ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200

**Hours** Bi-weekly seminar (30 hrs)

Credits 2

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

- Plus -

**ECC 71800 - Early Childhood Student Teaching (KC)**

This is a college supervised experience and is offered during the regular academic year and in the summer to facilitate the opportunity for practice at a different age/grade level than ECC 71700 . This course has two key components: (1) a minimum of 30-days of student teaching in Pre-K, or grades 1-2 and; (2) biweekly seminar (15 hours).

**prereq:** ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200

**Hours** Bi-weekly seminar (15 hrs)
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

Additional Courses for Track 1

**ECC 70500 - Language and Literacy: Birth through Kindergarten**

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

*prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3*

**ECC 70600 - Language and Literacy: K through Grade 2**

Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

*prereq or coreq: ECC 70500 (early childhood students only)
Hours 45 hrs
Credits 3*

**ECC 71000 - Early Childhood Mathematics: Birth through Grade 2**

Theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

*prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3*

**ECC 71100 - Science in Early Childhood Education: Birth through Grade 2**

Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K–2 settings. (Required in Program 1.)

*prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3*
ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood (KC)

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field
Credits 1

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

Additional Courses for Track 2

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 70900 - Mathematical and Scientific Thinking in Early Childhood

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

Note(s)

Please note: Students who qualify for waivers may take ECC 719.51, .52, .53 (Special Topics in Early Childhood Education, 1, 2 and 3 credits), or a course in another program with permission of the Early Childhood Program coordinator. Students may be exempted from up to 6 credits (Track 1) or 5 credits (Track 2) based on prior equivalent course work.

Exit Requirements
1. An overall GPA of 3.0.
2. Track 2 students must maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.

**Educational Leadership: SBL/SDL - MSEd**

This master's degree program (Academic Plan: SDL-MSEd) is designed to prepare NYS certified teachers for roles in administration and supervision of preK-grade 12 educational settings. Graduates of this program are eligible for NYS certification in both School Building Leader and School District Leader.

**Admission Requirements**

1. A master's degree from an accredited institution with a GPA of at least 3.0.
2. Permanent or professional NYS certification as a teacher and/or pupil personnel service provider within grades PreK-12.
3. A minimum of three years of approved teaching and/or school service within grades PreK-12 under regular appointment (or its equivalent for counselors, social workers, and school psychologists) or two years approved teaching and/or school service and at least one year of relevant management/leadership experience.
4. Two letters of recommendation, including a letter of support from the candidate's immediate site supervisor.
5. An on-site interview process that includes both oral and written activities.
6. Submission of official score report on the Graduate Record Examination (GRE).

**Progress Standards**

1. Complete and pass comprehensive examination prior to enrollment into ADSUP 75100, the internship seminar.
2. Students must complete all Key Assessments built around accepted professional standards in the field of Education Leadership.

**Course of Study**

**Academic Plan**

**SDL-MSED**

**Total Credits**

32

**ADSUP 70400 - Leadership to Enhance Human Resources**

Interpersonal and group relationships applied to administrative and supervisory functions in schools and districts; intensive experience in group process and the development of a positive school climate and culture.
ADSUP 71500 - Supervision for the Improvement of Instruction

An examination of varied productive supervisory techniques which promote the improvement of instruction and enhance the supervisory process.

ADSUP 71600 - Leadership Strategies for School Reform

An introduction to leadership theory, school, district reform and the school principalship. Leadership theory is explored from a systems perspective with a focus on both the theoretical and practical tools for promoting school and district change that leads to high levels of student achievement.

ADSUP 71700 - Seminar in Evaluating and Applying Educational Research

This course provides students seeking to be educational leaders with the theoretical and the practical considerations for evaluating, conducting and using research in schools and school districts.

ADSUP 72100 - Legal Issues, Finance, Facilities and Operations

A study of school legal issues finance and budgeting. Processes and cases from New York State, New York City, local school district and building level management of operations and facilities.

ADSUP 73100 - Using Data, Technology and Assessment to Plan and Design Curriculum and Instruction
This course provides students seeking to be instructional leaders with both the theoretical and the practical considerations necessary for using technology, data, and assessment to plan and design curriculum for effective instruction.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work*

**Credits 4**

**ADSUP 74100 - School District Leadership: Problems and Issues**

System-wide administrators must combine the elements of vision, with instructional and administrative leadership in order to guide learning organizations. They must develop skills, strategies and knowledge of the leading educational issues they are facing to be able to create collaborative, safe, and successful educational environments capable of being successful.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work*

**Credits 4**

- **ADSUP 75110 - School and District-Based Experience Seminar in Administration Supervision I**
- **ADSUP 75120 - School and District-Based Experience Seminar in Administration Supervision II**

**ADSUP 75100 - District and School Based Field Experience Seminar in Administration and Supervision (KC)**

Intensive applications of program knowledge, skills and dispositions in school and district field settings available to the student, and a 40 hour seminar that includes a two-hour unit on each of both child abuse prevention and violence prevention.

*Hours 60 hrs plus 200 hrs of leadership experiences in field work stipulated in a contract*

**Credits 4**

This Key Course requires a grade of B or better to pass.

*Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.*

*This course may be repeated only once.*

**Exit Requirements**

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certificate.
3. Require a minimum of two academic years of full-time graduate level study.
4. The culminating experiences of the program consist of an oral exit interview and a program portfolio review of selected leadership experiences and reflections on the learning process.
5. Must pass the School of Education technology assessment, embedded in courses.
6. Pass both parts of the NYSTCE School District Leader (SDL) exam.
7. Pass the NYSTCE Educating All Students (EAS) exam.
8. Complete the Dignity for All Students Act (DASA) workshop.
Elementary Mathematics Specialist Professional Certificate - MSEd

This MSEd program (Academic Plan: EMTSP-MSED) will provide certified elementary school teachers a substantial background in mathematics, pedagogy and leadership giving them the knowledge and skills necessary to be an effective professional development facilitator, coach, cluster teacher, and mentor. For those with Initial NYS Certification, this program will fulfill the master's degree requirement for Professional Certification. The New York State Education Department (NYSED) requires all certified teachers to obtain a master's degree within their first five years of teaching.

Admissions Requirements

1. A bachelor's degree from an accredited institution with an overall GPA of at least 3.0. Students with a master's degree must have an overall GPA of at least 3.3 in their graduate coursework.
2. NYS certification in Childhood Education Grades 1-6.
3. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teachers or school administrators and hold a graduate degree.
4. Preference will be given to candidates with teaching experience in grades 1-6.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in key program courses.
   - Students who receive a grade of F or WU in key program courses may not continue in the program.
   - Key Program Courses are identified by the label (KC) in the course title.

Course of Study

Academic Plan

EMTSP-MSED

Total Credits

33

Entering students are expected to have college credit for at least two mathematics courses equivalent to Hunter's MATH 10400 and MATH 10500. If they do not have those courses, they will be conditioned in them and expected to complete the courses before taking other coursework in the program.
CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

Hours 45 hrs
Credits 3

CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

Hours 45 hrs
Credits 3

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.

prereq: all program courses except CEDC 74200 and CEDC 74300
Hours 45 hrs
Credits 3

CEDC 74700 - Number Theory and Algebra in Elementary Curriculum

A study of the underpinnings of Number Theory and Algebra and the role they play in curriculum, teaching and student learning. This course gives participants a deeper understanding of algebra and how students learn transition from arithmetic to algebraic reasoning.

prereq: The course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.
Hours 45 hrs
Credits 3

CEDC 74800 - Geometry and Measurement in the Elementary

A study of the underpinnings of Geometry and Measurement and the role they play in curriculum, teaching, and supporting student learning. Topics in Geometry and Measurement are important concepts at the elementary school level and this course gives participants a deeper background in these two areas. Additionally, pedagogical practices important in these areas will be examined as well as a deep study of how students develop these concepts through curriculum, representations, manipulatives, and pedagogical practices will be discussed.

prereq: This course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.
Hours 45
Credits 3
CEDC 74900 - Leadership in Elementary School Mathematics

A study of mathematics leadership and the development of mentors, coaches, and leaders of professional development.

prereq: This course is intended for students in the Elementary Mathematics Specialist program. Completion of at least 24 credits in the program.
Hours 45
Credits 3

MATH 61000 - Mathematics for the Elementary School from an Advanced Standpoint

Study, from an advanced standpoint, of the mathematics involved in the elementary school common core, with special focus on Numbers and Quantities; Algebra and Change. Open only to Teacher Education Program students.

prereq: MATH 10400 and MATH 10500 or their equivalent. Entry is by departmental permission.
Hours 3 hrs
Credits 3 cr.
The course is intended for students in the Elementary Mathematics Specialist Program.

STAT 61200 - Discrete Probability

Combinatorics, discrete probability, random variables, probability models and an introduction to game theory. A study of discrete probability with particular attention paid to the integration of these topics into the school curriculum. This course is for current and prospective teachers.

prereq: a statistics course on or above the level of STAT 11300
Hours 3
Credits 3

- Plus choose two (2) -
Substitutions in this category can be made with consent of the adviser

MATH 63300 - Axiomatic Geometry

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry. This is a theoretical mathematics course. The material is presented in its historical context.

prereq: departmental permission
Hours 3
Credits 3

MATH 63500 - Problem Solving Explorations in Mathematics

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics. This course is for current and prospective teachers.
MATH 65400 - Dynamical Systems and Chaos

Topics include: flows in one and two dimensions; phase portraits; limit cycles; bifurcations; iterated maps on the interval; introduction to chaos and fractals; the Mandelbrot set and its significance.

prereq: a course in multivariate calculus and a course in linear algebra
Hours 3 hrs.
Credits 3 cr.
Familiarity with MAPLE or MATHEMATICA encouraged

- And choose one (1) -

STAT 61300 - An Introduction to Statistics

An Introduction to statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Data analysis uses appropriate statistical software. This course is intended for teachers.

Hours 3 hrs.
Credits 3 cr.

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.
Hours 3 hrs.
Credits 3 cr.

Note:

If a student has already taken a course with content comparable to a course in the program, documented by college catalog description, and the student attained a grade of B or better in the course as documented by an official college transcript, then the student will be allowed to choose a course approved by the program adviser as a substitute for the existing program course.

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Complete the Dignity for All Students Act (DASA) workshop.
Literacy Education: Birth - Grade 6 - MSEd

This master's degree program (Academic Plan: LTYB6-MSED) is designed for teachers with NYS certification in Early Childhood or Childhood Education to become teachers of literacy and reading at the Early Childhood and elementary grade levels. This program leads to certification in Literacy Birth to Grade 6.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree with a GPA of at least 3.5.
2. NYS initial, professional, or permanent certification in Early Childhood Education, Childhood Education, Pre-K-Grade 6, TESOL or Special Education.
3. A letter of recommendation from a supervisor as one of the two letters of recommendation.
4. On-site writing sample after the application is reviewed.
5. On-site interview after the application is reviewed.
6. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in key program courses.
   - Students who receive a grade of F or WU in key program courses may not continue in the program.
   - Key Program Courses are identified by the label (KC) in the course title.

Course of Study

Academic Plan

LTYB6-MSED

Total Credits

ECC 70400 - Language and Literacy: Birth through Grade 2

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and
The study of communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600)

**EDLIT 73000 - Language, Literacy and Culture, Grades 1-12**

Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners' needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

**EDLIT 73100 - Literacy Assessment: Birth–Grade 6**

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instructional planning and meeting NYS English Language Arts performance standards.

**EDLIT 73200 - Children's Literature**

Exposure to the breadth, depth, and utilization of children's literature and its role in children's development, appreciating diversity and fostering a lifelong interest in reading. Sensitive issues (health, abuses, addictions), technology and management issues are examined.

**EDLIT 73300 - Theories and Process of Teaching Writing: Pre-K–Grade 6**

Development and assessment of writing skills including analysis of techniques and environments that foster writing development in all children (ESL, gifted, special needs). State writing standards and technology are integrated.
EDLIT 73400 - Literacies within the Disciplines: K–Grade 6

Exploration into the literacy demands inherent in the academic subjects of math, science, health education and social studies, as well as media, technology and the arts.

prereq or coreq: ECC 70400 and EDLIT 73500
Hours Includes 10 hrs in a classroom focused on older learners (grades 3-6) and content area literacy
Credits 3 cr

EDLIT 73500 - Survey of Instructional Approaches in Literacy Education: Grades K-12

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

Hours Includes 5 hours fieldwork
Credits 3 cr

EDLIT 73600 - Practicum in Literacy Assessment (KC)

A study of factors related to students who are experiencing difficulty acquiring literacy. Procedures for assessing literacy achievement and related language skills.

prereq: EDLIT 73100
Hours Includes 15 hours of diagnosis, under supervision, of students with reading difficulties
Credits 3 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

EDLIT 73700 - Practicum in Literacy Intervention (KC)

Theoretical and practical consideration and procedures in the instruction of students with literacy difficulties.

prereq: EDLIT 73600
Hours Includes 20 hrs of supervised remedial sessions with individual students on-site at Hunter College
Credits 3 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

EDLIT 73900 - Literacy Instruction for Struggling Readers and Writers, PreK-6
Exploration of historical and theoretical perspectives, and research-based teaching practices/issues related to literacy and language instruction for struggling readers and writers, including children with special needs. Study of assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcomes of struggling readers/writers and special needs students in pre-kindergarten and elementary school settings.

**prereq or coreq:** None  
**Credits** 3

**EDLIT 74000 - Leadership in Literacy (KC)**

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master's in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

**prereq:** EDLIT 74500; minimum of 27 credits in the literacy program  
**Hours** 45 hrs  
**Credits** 3 cr

*This Key Course requires a grade of B or better to pass.*  
*Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.*  
*This course may be repeated only once.*

**EDLIT 74200 - Practicum in Literacy (KC)**

This course requires that students be supervised in their teaching. Students will select one area for improvement and work on this area throughout the course with the instructor and the weekly seminar as their think tank and support group.

**prereq:** Pre-requisite EDLIT 73100  
**Hours** 15 hr seminar plus 50 hrs in the field,  
**Credits** 1 cr

*This Key Course requires a grade of B or better to pass.*  
*Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.*  
*This course may be repeated only once.*

**EDLIT 74500 - Literacy Research for Change**

This course aims at learning to understand and use research methodologies in literacy education—qualitative, quantitative, and mixed methods. The culminating project is a comprehensive literature review in an area of literacy education, which will lead to a staff development project in the final course, EDLIT 74000, Leadership in Literacy. Course participants will not only become informed consumers of literacy research but also teacher researchers advocating for diverse, urban student populations.

**prereq:** EDLIT 73100 or EDLIT 75600  
**Hours** 45  
**Credits** 3

*Note: Students may be exempted from up to 6 credits on the basis of prior or equivalent coursework.*

Exit Requirements
1. Overall GPA of 3.0 or better.
2. Maintain a valid and appropriate NYS certification.
3. An "achieved the standard" rating, or better, on the Professional Teaching Portfolio during final presentation to the Master's in Literacy Portfolio Review Committee.
4. A grade of B or better in literacy courses EDLIT 736, EDLIT 737, EDLIT 742, and EDLIT 740.
5. Complete the Dignity for All Students Act (DASA) workshop.

Literacy Education: Grades 5-12 - MSEd

This master's program (Academic Plan: AL512-MSED) is designed for teachers with NYS certification in Middle Childhood (grades 5-9) and adolescent (grades 7-12) content teachers to become teachers of literacy and reading at the middle and secondary school levels. This program leads to certification in Literacy Grades 5-12.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or master's degree with a GPA of at least 3.5.
2. NYS initial, professional, or permanent certification as a Middle Childhood (5-9) or Adolescent (7-12) content teacher.
3. On-site writing sample after the application is reviewed.
4. A letter of recommendation from a supervisor.
5. Submission of scores on the Graduate Record Examination, except applicants who are certified teacher or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in key program courses.
   - Students who receive a grade of F or WU in key program courses may not continue in the program.
   - Key Program Courses are identified by the label (KC) in the course title.

Course of Study

This course may be repeated only once.

EDLIT 74500 - Literacy Research for Change

This course aims at learning to understand and use research methodologies in literacy education—qualitative, quantitative and mixed methods. The culminating project is a comprehensive literature review in an area of literacy education, which will lead to a staff development project in the final course, EDLIT 74000, Leadership in Literacy. Course participants will not only become informed consumers of literacy research but also teacher researchers advocating for diverse, urban student populations.

prereq: EDLIT 73100 or EDLIT 75600
Hours 45
Credits 3
EDLIT 75200 - Practicum in Literacy (KC)

This course requires that students be supervised in their teaching. Students will select one area for improvement and work on this area throughout the course with the instructor and the weekly seminar as their think tank and support group.

prereq: Pre-requisite EDLIT 75600
Hours 15 hours in seminar and 50 hours of field experience
Credits 1

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

EDLIT 75300 - Methods of Teaching Writing: Grades 5-12

Development and assessment of writing skills and methods for teaching writing including analysis of techniques and environments that foster writing development, and writing across the disciplines, in all students at middle childhood and adolescent levels (ELL, gifted, special needs). State writing standards and technology are integrated.

Hours includes 15 hours fieldwork
Credits 3

EDLIT 75400 - Literacies within the Disciplines: Grades 5-12

Exploration into the literacy demands and challenges inherent in the academic subjects of math, science, history and social studies, as well as media, health, technology and the arts.

prereq: Pre-requisite EDLIT 73500 and EDLIT 75500
Hours 3.0
Credits 3.0
Includes 10 hours in classrooms focused on literacies within the disciplines.

EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12

Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing difficulties. Assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

Hours includes 15 hours fieldwork
Credits 3

EDLIT 75600 - Literacy Assessment: Grades 5-12

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instruction planning and meeting NYS English Language Arts performance standards.
prereq: 9 credits in the content core
Hours includes 15 hours in the field assessing diverse learners

EDLIT 75700 - Practicum in Literacy Assessment and Intervention: Grades 5-12 (KC)

A study of factors related to middle and high school students who are experiencing difficulty acquiring literacy. Implement, design and use a variety of procedures for diagnosing reading achievement and related language skills. Use assessment data to plan and implement intervention activities for students with literacy difficulties.

prereq: EDLIT 75600
Hours includes 25 hours of supervised assessment and intervention sessions with individual middle school students on-site at Hunter College Literacy Space and 25 hours of supervised assessment/intervention sessions off site with high school students
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

Exit Requirements

1. An overall GPA of 3.0.
2. A grade of B or better in EDLIT 740 and EDLIT 756.
3. An "achieved the standard" rating, or better, on the Professional Teaching Portfolio during final presentation to the Master's in Literacy Portfolio Review Committee.
4. Maintain a valid and appropriate NYS certification.
5. Complete the Dignity for All Students Act (DASA) workshop.

Mental Health Counseling - MSEd

The Mental Health Counseling Program (Academic Plan: MENHC-MSED) prepares graduates to work as mental health counselors in hospital, agency and community settings as well as in private practice. This program leads to professional licensure in New York State; professional licensure is required to practice mental health counseling.
Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas.
3. Evidence of oral and written expression consonant with graduate-level study.
4. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
5. Relevant work and/or volunteer experience is highly recommended.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in key program courses.
   - Students who receive a grade of F or WU in key program courses may not continue in the program.
   - Key Program Courses are identified by the label (KC) in the course title.

Course of Study

Academic Plan

MENHC-MSED

Total Credits

60

COCO 70000 - Life Stage Development

Analysis of developmental stages throughout the lifespan.

Hours 45 hrs
Credits 3

COCO 70100 - Counseling Skills and Interviewing Techniques (KC)

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs
This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

Hours 45 hrs
Credits 3

COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

Hours 45 hrs
Credits 3

COCO 70600 - Group Counseling (KC)

Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200
Hours 45 hrs
Credits 3

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs
Credits 3

COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

Hours 45 hrs
Credits 3

COCO 70900 - Research Methods in Counseling
Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

Hours 45 hrs
Credits 3

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

prereq: COCO 70600 and COCO 71800
Hours 45 hrs
Credits 3

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

Hours 60 hrs
Credits 4

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

Hours 45 hrs.
Credits 3 cr.

COUNM 71800 - Practicum in Mental Health Counseling (KC)

This course is designed for students to continue building the counseling skills and self-awareness developed in previous counseling program course work. This practicum provides students with a semester-long opportunity to begin gaining actual counseling experience at an agency/school while being supervised by an on-site supervisor. In conjunction with this course seminar and fieldwork hours, students also participate in individual, weekly supervision with a Hunter College instructor (COUNM 71900: Individual Supervision).

- This Key Course requires a grade of B or better to pass.
- Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
- This course may be repeated only once.

prereq: COCO 70100 and COCO 70200
coreq: COUNM 71900
prereq or coreq: COCO 70000, COCO 70600, and COUNM 71600
Hours 3 + fieldwork
Credits 3.0
COUNM 71900 - Individual Supervision (KC)

This course involves the clinical supervision of the integration and application of theory, knowledge and skills that accompanies clinical fieldwork practice. The aim is to develop and evaluate each counseling student's proficiency and competence in the training to be a mental health counselor.

- This Key Course requires a grade of B or better to pass.
- Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
- This course may be repeated only once.

prereq: COCO 70100 and COCO 70200
coreq: COUNM 71800
prereq or coreq: COCO 70000, COCO 70600, and COUNM 71600
Hours 3
Credits 3.0

COUNM 72500 - Internship in Mental Health Counseling I (KC)

This course and fieldwork is a continued experience in applying techniques of mental health counseling with selected populations in a variety of settings. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. This course is designed for students to gain additional counseling knowledge, skills, and self-awareness about how their client's and their own personal qualities, needs, motivations, and values can facilitate or interfere with their effectiveness as a counselor.

- This Key Course requires a grade of B or better to pass.
- Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
- This course may be repeated only once.

prereq: COUNM 71800 and COUNM 71900
prereq or coreq: COUNM 71700
Hours 3 + clinical fieldwork
Credits 4.0

COUNM 72600 - Internship in Mental Health Counseling II (KC)

The second part of the mental health counseling internship follows COUNM 72500 Internship in Mental Health Counseling I. This course is designed for students to continue to gain additional counseling knowledge, skills, and self-awareness about how their client's and their own personal qualities, needs, motivations, and values can facilitate or interfere with their effectiveness as a counselor.

- This Key Course requires a grade of B or better to pass.
- Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
- This course may be repeated only once.

prereq: COUNM 72500
COUNM 71600 - Foundations of Mental Health Counseling

This course provides an overview of mental health counseling. The course will address the following: professional identity, functions and issues facing mental health practitioners; disparities in mental health services across culturally and linguistically diverse communities; principles, theories and practice of community interventions; public policy and governmental relations impacting mental health.

prereq or coreq: DSM-IV Workshop
Credits 3

COUNM 71700 - Psychopathology: Diagnosis and Treatment

This course provides a framework for understanding the range of personality and behavioral conditions that are presented in the Diagnosis and Statistical Manual of Mental Disorders of the American Psychiatric Association (DSM-IV). The class focuses on the description, etiology, assessment, diagnosis, treatment and prevention of these disorders within diverse urban settings.

Hours 45
Credits 3

COUNM 72000 - Mental Health Counseling: Program Development and Evaluation

The course focuses on the development and evaluation of mental health programs in culturally/linguistically diverse urban settings from program inception onward including assessment to insure quality services. The course covers federal, state and local governmental inpatient and outpatient mental health treatment services, not-for-profit organizations and community-based mental health service programs.

prereq or coreq: COUNM 71600 and COUNM 71700
Hours 45
Credits 3

Electives (Select One Course)

COCO 71000 - Chemical Dependency: Issues in Counseling

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

Hours 45 hrs
Credits 3

COUNR 72000 - Medical Aspects of Disability

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.
COUNS 72100 - Counseling Interventions for Children and Adolescents

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

prereq: COCO 70800

Exit Requirements

1. An overall GPA of 3.0.
2. Must complete all required workshops.

Professional Certification in Special Education (Advanced Preparation) - MSEd

Program Coordinator

Kate Garnett (Track 1: Learning Disabilities)
(212) 772-4749
920 West
kgarnett@hunter.cuny.edu

Tom McIntyre (Track 2: Behavior Disorders)
914 West Building
(212) 772-4706
thomas.mcintyre@hunter.cuny.edu

Bonnie Keilty (Track 3: Early Childhood Special Education)
(212) 772-4709
929 West Building
bkeilty@hunter.cuny.edu

This master's degree program (Academic Plan: SEAPR-MSED) is designed to provide advanced training to certified special education teachers who need graduate work leading to a master's degree for professional certification in special education. It is also designed for those with special education certification who are seeking to further their knowledge/skills and gain an additional age-level certificate (birth to grade 2 or grades 1-6).

This program offers three tracks:

- Learning Disabilities (SEAPRLD): Those seeking professional certification in Students with Disabilities Grades 1-6 with a concentration in Learning Disabilities.
- Behavior Disorders (SEAPRBD): Those seeking professional certification in Students with Disabilities Grades 1-6 with a concentration in Behavior Disorders.
- Early Childhood Special Education (SEAPRECSE): Those seeking professional certification in Students with Disabilities Birth to Grade 2.
Admission Requirements

1. NYS initial or professional certification in students with disabilities grades 1-6 or birth to grade 2 or NYS permanent certification in special education, K-12.
2. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or a master's degree in special education (any age-level) with a GPA of at least 3.5.
3. Two professional references.
4. A personal statement.
5. Submission of official score report on the Graduate Record Examination (GRE), except applicants who are certified teacher or school administrators and hold a graduate degree.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in key program courses.
   - Students who receive a grade of F or WU in key program courses may not continue in the program.
   - Key Program Courses are identified by the label (KC) in the course title.

Track 1 - Learning Disabilities

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1 (KC)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word
fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

**Hours 45**
**Credits 3**

_This Key Course requires a grade of B or better to pass._

_Any student who receives a grade of F or WU in this class will not be permitted to continue in the program._

_This course may be repeated only once._

**SPED 78251 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1 (KC)**

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use. Advanced students must complete individually-tailored assignments.

**Hours 15 hrs seminar, plus 20 hrs lab**
**Credits 2**

_This Key Course requires a grade of B or better to pass._

_Any student who receives a grade of F or WU in this class will not be permitted to continue in the program._

_This course may be repeated only once._

**SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2 (KC)**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

**Hours 45**
**Credits 3**

_This Key Course requires a grade of B or better to pass._

_Any student who receives a grade of F or WU in this class will not be permitted to continue in the program._

_This course may be repeated only once._

**SPED 78451 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2 (KC)**

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use. Advanced students must complete individually-tailored assignments.
Hours 15 hrs seminar, plus 20 hrs lab
Credits 2

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPED 70151 - Advanced Preparation in Educational Assessment**

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45
Credits 3

**SPED 70751 - Advanced Seminar in Special Education Practice**

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45
Credits 3

Plus

14 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly in mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

**Track 2 - Behavior Disorders**

**SPED 75051 - The Study of Behavior Disorders (KC)**

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs. Advanced students must complete individually-tailored assignments.
SPED 75151 - Methods and Materials for Teaching Students with Behavior Disorders (KC)

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students. Advanced students must complete individually-tailored assignments.

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1 (KC)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2 (KC)

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SPED 70151 - Advanced Preparation in Educational Assessment**

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

*Hours 45
Credits 3*

**SPED 70751 - Advanced Seminar in Special Education Practice**

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

*Hours 45

**Plus**

12 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HI, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly with mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

**Track 3 - Early Childhood Special Education**

**SPEDE 77151 - Autism Spectrum Disorder: Characteristics and Implications for Intervention**

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

*prereq: By permission
Hours 3 hrs
Credits 3 cr.*
**SPEDE 77251 - Positive Behavior Support (PBS) and Its Applications to Young Children with Special Needs**

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

prereq: By permission

Hours 3 hrs
Credits 3 cr.

**SPED 70751 - Advanced Seminar in Special Education Practice**

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45
Credits 3

**SPEDE 77951 - Practicum in Early Childhood Special Education (KC)**

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. Advanced students must complete individually-tailored assignments.

prereq: By permission

Hours 3 hrs
Credits 3 cr.

This Key Course requires a grade of B or better to pass.

Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

- Plus -

**SPEDE 77051 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula (KC)**

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods.

prereq: By permission

Hours 3 hrs
Credits 3 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SPED 79251 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness**

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication. Advanced students must complete individually-tailored assignments.

*Hours includes 15 hrs of field experience*
*Credits 3*

- Or -

**SPED 72350 - Math for Students with Disabilities (Non-LD Specialization)**

Principles, methods, and specially designed mathematics instruction for students with disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations

*prereq: SPED 70000 or SPED 70050*
*Hours 2 hrs*
*Credits 2 cr*

**SPED 72450 - Writing for Students with Disabilities (for those not in LD Specialization), Methods 3**

In this course, teacher candidates learn methods for teaching all aspects of writing to children with learning disabilities using various research-based approaches that include: letter formation, handwriting, spelling, sentence structures, paragraph building, essay writing, and the writing process.

*prereq: SPED 70000 or SPED 70050*
*Hours 2 hrs*
*Credits 2 cr*

**SPED 78100 - Reading for Students with Learning Disabilities Grades 1-6, Methods 1 (KC)**

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

*prereq: SPED 70000 or 70050*
*Hours 3 hrs: includes 10 hrs of field experience*
*Credits 3 cr*
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

Plus

11-12 credits of electives from coursework related to—other special education topics, behavioral disorders, autism spectrum disorders, early childhood special education (could qualify for additional age level), blind/VI, deaf/HH, gifted and talented (could apply for a NYS extension), and severe/multiple disabilities (could apply for a NYS annotation)—to be determined jointly with mandatory consultation with a program adviser. (Note: written approval of a student's plan is required.)

Exit Requirements

1. An overall GPA of 3.0.
2. Maintain a valid and appropriate NYS certification.
3. Perform satisfactorily on a two-part culminating activity:
   a comprehensive research-based oral presentation on a current special education issue and either an original written research proposal or a written proposal for competitive grant funding.
4. Complete the Dignity for All Students Act (DASA) workshop.

Rehabilitation Counseling - MSEd

The Clinical Rehabilitation Counseling program (Academic Plan: REHCN-MSED) prepares students to assist people with disabilities to realize personal goals and maximize their physical, emotional, social, intellectual and vocational potential. Rehabilitation counselors work with youth and adults in a variety of community-based settings such as hospitals, rehabilitation centers, colleges, chemical dependency agencies and career/vocational counseling programs. Students in this program may take the national certification examination for the Certified Rehabilitation Counselor (CRC) status after completing 75% of their course work.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas.
3. Evidence of oral and written expression consonant with graduate-level study.
4. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
5. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant's grade point average, counselor potential, and applicability of work and life experience are carefully considered.
6. Relevant work and/or volunteer experience is highly recommended.

Progress Standards
1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.
4. Key Course Performance Standards
   o Students must receive a grade of at least a B in key program courses.
   o Students who receive a grade of F or WU in key program courses may not continue in the program.
   o Key Program Courses are identified by the label (KC) in the course title.

This course may be repeated only once.*

**COCO 70700 - Multicultural Aspects of Counseling**

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

*Hours 45 hrs
Credits 3*

**COCO 70800 - Measurement and Appraisal**

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

*Hours 45 hrs
Credits 3*

**COCO 70900 - Research Methods in Counseling**

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

*Hours 45 hrs
Credits 3*

**COCO 71100 - Supervision and Administration in Counseling**

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.
prereq: COCO 70600 and COCO 71800

Hours 45 hrs
Credits 3

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.

Hours 60 hrs
Credits 4

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

Hours 45 hrs.
Credits 3 cr.

COCO 71800 - Practicum in Counseling (KC)

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

coreq: COCO 71900
prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600

Hours 100
Credits 3 credits
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

COCO 71900 - Individual Supervision (KC)

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800

Hours 45
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

COCO 72504 - Internship in Counseling I (KC)
Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

**prereq:** COCO 71800 and COCO 71900  
**prereq or coreq:** COUNM 71700 or COUNR 72000 or COUNS 72100  
**Hours** Each 300 hrs to be arranged in selected field settings  
**Credits** 4 cr each semester  

*This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.*

**COCO 72604 - Internship in Counseling II (KC)**

The second part of the internship: follows COCO 72500 Internship in Counseling I.

**prereq:** COCO 72500  
**Hours** 45  
**Credits** 4  

*This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.*

**COUNR 71600 - Resources and Foundations of Rehabilitation**

History, philosophy, and principles of the vocational rehabilitation process. Economic, legal, ethical, and social issues influencing rehabilitation services. Observation of services available in state, city, and private agencies.

**Hours** 45 hrs  
**Credits** 3

**COUNR 72000 - Medical Aspects of Disability**

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

**Hours** 45 hrs  
**Credits** 3

- **ELECTIVES (SELECT TWO COURSES) -**

**COCO 71000 - Chemical Dependency: Issues in Counseling**

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

**Hours** 45 hrs  
**Credits** 3

**COCO 72300 - Transition from School to Adult Living for Youth with Disabilities**
Services, programs, and processes for facilitating the transition of youth with disabilities and youth at risk from school to work, postsecondary education, independent living, and adult roles.

*Hours 45 hrs.*
*Credits 3 cr*

**COCO 72700 - Special Topics in Counseling**

Study of significant issues, problems, and emerging trends in counseling.

*Hours 45 hrs.*
*Credits 3 cr.*

**Exit Requirements**

1. An overall GPA of 3.0.
2. Complete all required workshops.

**School Counseling - MSEd**

**Program Coordinator**

Tamara Buckley  
(212) 772-4758  
1116 West  
tamara.buckley@hunter.cuny.edu

The School Counseling Program (Academic Plan: GSC-MSED) prepares graduates for careers in a variety of school settings, including elementary schools, middle schools, high schools and colleges. School counselors can also be employed by organizations that are not primarily educational, such as correctional facilities, hospitals, and a wide variety of community-based organizations. Students in this program may apply individually for the NYS provisional certification in School Counseling at the completion of 30 credits and a school based practicum experience. Recommendation for permanent certification is made after graduation. School counseling students fluent in Spanish and English have the option of obtaining NYS certification in Bilingual Education Extension for Pupil Personnel Services in addition to the School Counselor certification.

**Admission Requirements**

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0; the Graduate Record Examination is not required.
2. 15-25 credits of approved courses from the following fields: anthropology, economics, education, guidance, health sciences, political science, psychology, sociology, and related areas
3. Evidence of oral and written expression consonant with graduate-level study.
4. Recommendations from appropriate professional or academic references to aid in determining potential for work as a professional counselor.
5. Meeting these minimum requirements does not guarantee acceptance to the program. Admission to the program is highly competitive, and each applicant's grade point average, counselor potential, and applicability of work and life experience are carefully considered.
6. Relevant work and/or volunteer experience is highly recommended.
Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. No F in the first two semesters—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.

3. Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.

4. Key Course Performance Standards
   - Students must receive a grade of at least a B in key program courses.
   - Students who receive a grade of F or WU in key program courses may not continue in the program.
   - Key Program Courses are identified by the label (KC) in the course title.

Course of Study

Academic Plan

GSC-MSED

Total Credits

60

COCO 70000 - Life Stage Development

Analysis of developmental stages throughout the lifespan.

Hours 45 hrs
Credits 3

COCO 70100 - Counseling Skills and Interviewing Techniques (KC)

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

Hours 45 hrs
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

COCO 70200 - Theories of Counseling

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

Hours 45 hrs
Credits 3
COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

Hours 45 hrs
Credits 3

COCO 70600 - Group Counseling (KC)

Theory and principles of group counseling. Developing group-counseling skills through practice.

prereq: COCO 70100 and COCO 70200
Hours 45 hrs
Credits 3

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs
Credits 3

COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

Hours 45 hrs
Credits 3

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

Hours 45 hrs
Credits 3

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.
COCO 71300 - Career Counseling and College Readiness

This course offers a comprehensive introduction to the career readiness and college access counseling role of the school counselor working within the K-12 school setting. By utilizing a multicultural and social justice framework the course will explore career readiness and college access from a holistic and lifespan developmental perspective. In view of the CACREP standards this course will explore and appropriately address the American School Counselor Association (ASCA) national domains in academic, career and the personal needs of K-12 students from Kindergarten through high school as it relates to their career exploration and college access.

coreq: COCO 725/726
Hours 4.0
Credits 4.0

COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

Hours 45 hrs.
Credits 3 cr.

COCO 71800 - Practicum in Counseling (KC)

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

coreq: COCO 71900
prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600
Hours 100
Credits 3 credits
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

COCO 71900 - Individual Supervision (KC)

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800
Hours 45
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**COCO 72504 - Internship in Counseling I (KC)**

Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

*prereq: COCO 71800 and COCO 71900  
*prereq or coreq: COUNM 71700 or COUNR 72000 or COUNS 72100  
*Hours Each 300 hrs to be arranged in selected field settings  
*Credits 4 cr each semester

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**COCO 72604 - Internship in Counseling II (KC)**

The second part of the internship: follows COCO 72500 Internship in Counseling I.

*prereq: COCO 72500  
*Hours 45  
*Credits 4

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**COUNS 71700 - Foundations of School Counseling**

History, philosophy, legal, and ethical considerations in school counseling. The school context and professional issues in school counseling will be emphasized, including the school counselor's role, developmental programming, counseling interventions, consultation and liaison, and advocacy.

*Hours 45  
*Credits 3

**COUNS 72000 - Culminating Seminar in School Counseling**

With the permission of the supervising faculty member, the culminating experience in counseling provides the student with an opportunity to (a) participate as an integral member of a team involved in a research project, or (b) design an original evaluation or research project, or (c) complete a creative scholarly paper such as an extensive literature review. (Taken last semester prior to graduation)

*prereq: COCO 70900  
*prereq or coreq: COCO 72600  
*Hours 45  
*Credits 3

**COUNS 72100 - Counseling Interventions for Children and Adolescents**
This course focuses on prevention and intervention of mental health disorders of children and adolescents.

**prereq:** COCO 70800  
**Hours** 45  
**Credits** 3

**COUNS 72200 - School Based Consultation**

This upper level course provides counselors with the knowledge and skills necessary to engage in consultation, collaborative problem solving, and systems level intervention in educational settings. Theories, models, and processes of consultation of change will be examined.

**prereq or coreq:** COCO 72500  
**Hours** 45  
**Credits** 3

**Optional: Bilingual (Spanish/English) Extension In Pupil Personnel Services**

6 additional credits

Students in the School Counselor Program at Hunter College may obtain a Bilingual (Spanish/English) Extension in Pupil Personnel Services. Students who elect to take this option will be evaluated for written and oral proficiency in both Spanish and English. Students who are determined to be bilingually proficient will take the following two courses in addition to the Counseling Programs Sequence of Courses:

**BILED 70100 - Foundations of Bilingual Education**

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

**Hours includes 5 hrs of fieldwork  
Credits 3 cr**

**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

**prereq or coreq:** BILED 70100  
**Hours includes 5 hrs of fieldwork  
Credits 3 cr**

**Exit Requirements**
1. An overall GPA of 3.0.
2. Complete the Dignity for All Students Act (DASA) workshop.

**Special Education - MSEd**

**Department Office:** 909 West Building; (212) 772-4700

**Secretary Jean Leung:** 909 West Building; (212) 772-4700; fax (212) 650-3542; jleung@hunter.cuny.edu

**Acting Chairperson Tim Lackaye:** 920 West Building; (212) 772-4777; tlackaye@hunter.cuny.edu

**Gifted Education**
- **Razel Solow:** 909 West Building; (212) 650-3599; rsolow@hunter.cuny.edu

Hunter's graduate programs in special education prepare teachers to provide specially designed instruction for students with disabilities and to work across a variety of educational settings, including: special school, special classes, resource rooms, pre-schools, early intervention programs, supported general education classrooms in public and private schools, hospitals, clinics, health agencies, home programs, and residential facilities. Special education programs at Hunter have been nationally recognized by the Council for Exceptional Children.

Completion of any one of Hunter's for the master's degree in special education leads to New York State teacher certification. Hunter's specializations are:

- childhood special education: learning disabilities
- childhood special education: behavior disorders
- childhood special education with an annotation in severe/multiple disabilities (including deafblindness)
- early childhood special education
- early childhood with an annotation in severe/multiple disabilities (including deafblindness)
- deaf and hard-of-hearing
- blind and visually impaired

Students who enter the programs with no previous certification and subsequently complete the master's degree will meet the education requirements for New York State initial and professional certification in either childhood special education or early childhood special education and either childhood general education or early childhood general education. Students without prior teacher certification enter the Program 1 track.

Students who enter the childhood special education program with initial certification in grades 1-6 and subsequently complete the master's degree, will meet the education requirements for New York State professional certification in childhood/elementary education as well as for professional certification in childhood special education grades 1-6. Students with prior childhood certification enter the program 2 track.

Similarly, students who enter the early childhood special education program with initial certification in early childhood Birth to Grade 2 and subsequently complete the master's degree, will meet the education requirements for New York State professional certification in early childhood education as well as for professional certification in early childhood special education Birth to Grade 2. Students who hold early childhood certification enter the Program 2 track in early childhood special education.

The early childhood master's programs are designed for students whose primary interest is in teaching children from infancy through kindergarten. While students in the early childhood special education programs will also be prepared to teach grades 1 and 2, applicants whose primary interest is in these grades should apply to the childhood special education program, which encompasses grades 1-6.

The programs (with the exception of early childhood special education) are organized into a set of cross-categorical core courses and disability-specific specializations. Core courses develop knowledge and skills across a range of education settings; specializations provide in-depth preparation for working with students within a particularly disability area. Both core and specialization courses provide historical, theoretical, and clinical perspectives, as well as current research and direct experiences with students of different ages and profiles. A hallmark of Hunter's programs is their linking of theory to effective instruction.

Visual Impairment: Rehabilitation Teaching and Orientation and Mobility - MSEd

Program Advisor

L. Beth Brady
(212) 772-4229
929 West
lbrady@hunter.cuny.edu

This master's degree program (Academic Plan: REHOM-MSED) prepares professionals in vision rehabilitation therapy (VRT) to work with individuals with visual impairments combined with the Orientation and Mobility sequence to prepare orientation and mobility specialists. This program prepares candidates for national certification from the Academy for Certification of Vision Rehabilitation and Education Professionals as vision rehabilitation therapists (VRTs) and certified orientation and mobility specialists (COMS). This program does not lead to NYS teacher certification.

Admission Requirements

1. A bachelor's degree from an accredited institution with a GPA of at least 3.0 or better.
- OR -

1. A master's degree with a GPA of at least 3.5 or better.
2. Evidence of acceptable written languages skills.
3. Three letters of recommendation.
4. Evidence of work, volunteer or personal experience with individuals with visual impairments.
5. An interview with a special education faculty member.

Progress Standards

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INCs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in key program courses.
   - Students who receive a grade of F or WU in key program courses may not continue in the program.
   - Key Program Courses are identified by the label (KC) in the course title.

Course of Study

Academic Plan

REHOM-MSED

Total Credits

54

SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

Hours 3 hrs
Credits 3 cr

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments (KC)

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations
of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000
Hours includes 10 hrs of field experience
Credits 3 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments (KC)

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000
Hours Includes 10 hrs of field experience
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments (KC)

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 10 hrs of field experience
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.
**SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments**

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

**SPED 76000 - Skills and Techniques for Rehabilitation Teaching I**

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

**SPED 76100 - Skills and Techniques for Rehabilitation Teaching II**

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

**SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments**

Job modification options. Transition planning from education to adult services.
SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments (KC)

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100

Hours 230 hrs,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments (KC)

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100

Hours 230 hrs,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPED 76500 - Intermediate Orientation and Mobility (KC)

Theories related to perception, learning and development of individuals who are blind or visually impaired, and/or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

prereq or coreq: SPED 76800

Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.
**SPED 76600 - Advanced Orientation and Mobility**

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

*prereq or coreq: SPED 76500, 76800
Hours includes 50 hrs of lab plus 15 hrs field experience
Credits 3 cr*

**SPED 76700 - Orientation and Mobility: Internship/Seminar (KC)**

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

*prereq or coreq: SPED 76500, 76600, 76800, 76900
Hours 30 hrs seminar, plus conferences plus 340 hours of internship.
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar**

This course teaches assessment, evaluation and lesson plan/execution, the systems of mobility used by persons who are visually impaired, and indoor travel techniques used by persons with visual impairments navigating familiar and unfamiliar buildings. Fifteen day summer course.

*prereq or coreq: permission of adviser
Hours 3 hrs
Credits 3 cr.
Two week summer course.

**SPED 76900 - Advanced Orientation and Mobility Lab and Seminar**

This course provides instruction in, lesson sequencing, pedagogical and andragogical methods for O&M instruction for persons who are blind or visually impaired. Through observation, and practice, this course develops competencies in teaching travel techniques used by persons with visual impairments.

*prereq: SPED 76800
Hours 3 hrs
Credits 3 cr.
Two week summer course.*

**COUNR 72000 - Medical Aspects of Disability**
Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

*Hours 45 hrs  
*Credits 3*

**COUNR 73000 - Counseling with the Aging**

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

*Hours 45 hrs  
*Credits 3*

**COCO 70100 - Counseling Skills and Interviewing Techniques (KC)**

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs  
*Credits 3*

*This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.*

**Exit Standards**

An overall GPA of 3.0.

**Visual Impairment: Rehabilitation Teaching Only - MSEd**

**Program Advisor**

L. Beth Brady  
(212) 772-4229  
929 West  
lbrady@hunter.cuny.edu

This master's degree program (Academic Plan: VIRT-MSED) prepares professionals in vision rehabilitation therapy (VRT) to work with individuals with visual impairments. We also offer a combined program in Rehabilitation Teaching with Orientation and Mobility sequence to prepare orientation and mobility specialists Visual Impairment: Rehabilitation Teaching and Orientation and Mobility - MSEd. Both programs prepare candidates for national certification from the Academy for Certification of Vision Rehabilitation and Education Professionals as vision rehabilitation therapists (VRTs).

**Admission Requirements**
A bachelor's degree from an accredited institution with a GPA of at least 3.0;

or

A master's degree from an accredited institution with a GPA of at least 3.5.

**Progress Standards**

1. **Minimum GPA for Retention** - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.

2. **No F in the first two semesters**—students who receive a grade of F or WU in any course in the first two semesters will not be allowed to continue in the program.

3. **Progress holds due to Incomplete Grades** - Students with two or more INCs will not be allowed to register for any courses.

4. **Key Course Performance Standards**
   - Students must receive a grade of at least a B in key program courses.
   - Students who receive a grade of F or WU in key program courses may not continue in the program.
   - Key Program Courses are identified by the label (KC) in the course title.

**Course of Study**

**Academic Plan**

**VIRT-MSED**

**Total Credits**

40

**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours 45 hours; includes 5 hours of field experience*  
*Credits 3*

**SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments (KC)**

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

*prereq or coreq: SPED 70000*  
*Hours includes 10 hrs of field experience*
Credits 3 cr

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments (KC)

Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

prereq or coreq: SPED 74000
Hours Includes 10 hrs of field experience
Credits 3

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments (KC)

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

prereq or coreq: SPED 74000, SPED 74100
Hours Includes 10 hrs of field experience
Credits 3

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPED 74400 - Assistive Technology for Learners with Visual Impairments

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

prereq: SPED 74300
Hours 45 hrs,
Credits 3 cr
SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000, 74100
Hours includes 10 hrs of filed experience
Credits 3 cr

SPED 76000 - Skills and Techniques for Rehabilitation Teaching I

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

prereq: SPED 74000, 74100
Hours includes 10 hrs field experience
Credits 3

SPED 76100 - Skills and Techniques for Rehabilitation Teaching II

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

prereq: SPED 76000
Hours includes 10 hrs field experience
Credits 3 cr

SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments

Job modification options. Transition planning from education to adult services.

prereq: SPED 74000, 74100
Hours 45 hrs,
Credits 3 cr

SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments (KC)
Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

**prereq:** SPED 76000, 76100  
**Hours** 230 hrs,  
**Credits** 2 cr  

*This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.*

**SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments (KC)**

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

**prereq:** SPED 76000, 76100  
**Hours** 230 hrs,  
**Credits** 2 cr  

*This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.*

**COUNR 72000 - Medical Aspects of Disability**

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

**Hours** 45 hrs  
**Credits** 3  

**COUNR 73000 - Counseling with the Aging**

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.

**Hours** 45 hrs  
**Credits** 3  

**COCO 70100 - Counseling Skills and Interviewing Techniques (KC)**

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.
Hours 45 hrs
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

Exit Requirements

An overall GPA of 3.0.

Master of Science - MS / Advanced Certificate

Applied Behavior Analysis - MS / Advanced Certificate

The Hunter College School of Education Master of Science in Applied Behavior Analysis (ABA) program (Academic Plan: APBEH-MS) will provide intensive training in behavior analytic intervention to professionals seeking to work or currently working with children, youth, and adults with autism spectrum disorder as well as to the supervisors and administrators of the programs in which they work. These professionals will then be well prepared to implement applied behavior analytic interventions with this population. Applied behavior analysts work with individuals ranging in age from infancy through adulthood and old age in settings that include schools, homes, day programs, communities, residential care settings, businesses and research laboratories. The program will prepare students to develop, deliver, and evaluate the effectiveness of applied behavior analytic intervention for learners with autism and increase the availability of professionals who have the appropriate training and experience to provide behavior analytic services to children, adolescents and adults with autism spectrum disorders. Students who complete the Master of Science will have the graduate training necessary to sit for the national Board Certified Behavior Analyst® (BCBA) exam. Upon passing the BCBA exam, graduates will be eligible for New York State's new license in behavior analysis.

The post-master's, advanced certificate program (Academic Plan: APBEH-AC) provides intensive training to professionals in applied behavior analysis and its applications to working with children, youth and adults with autism spectrum disorder as well as to supervisors and administrators of Applied Behavior Analysis programs. This program is designed to prepare professionals to implement ABA intervention and to sit for the international Board Certified Behavior Analyst® exam. This program does not lead to NYS certification.

Admission Requirements

Master's Degree

1. A bachelor's or master's degree from a regionally-accredited university and a minimum 3.0 GPA.
2. Resume and two professional references to be included with the application for matriculation.
3. GRE scores.
4. If admissions requirements are met, an interview with program faculty.

Advanced Certificate

1. A master's degree from an accredited institution in education, psychology, or behavior analysis, and a minimum 3.0 GPA.
2. Applicants who meet the eligibility criteria will be interviewed.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for these programs.*

**Progress Standards for Master of Science**

1. Students must maintain an overall GPA of 3.0 in order to continue in the program.
2. Students who receive a grade of F in any course in the first 12 credits will not be allowed to continue in the program.
3. Students with one grade of INC (incomplete) within the first 12 credits are restricted from registering for more than one additional course. Those with two or more Ins will not be allowed to register for any courses.
4. All field experiences will take place at a site affiliated with the ABA program at Hunter College.
5. Any student who receives a grade below a B in a field experience course must apply to the chairperson of the department to repeat that course, which may only be repeated once.
6. Any student who receives a grade of F, INC, or WU may not reregister and will not be allowed to continue in the program.

**Progress Standards for Advanced Certificate**

1. Minimum GPA for Retention - Graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester.
2. No F in the first two semesters—students who receive a grade of F(WU) in any course in the first two semesters will not be allowed to continue in the program.
3. Progress holds due to Incomplete Grades - Students with two or more INs will not be allowed to register for any courses.
4. Key Course Performance Standards
   - Students must receive a grade of at least a B in certain key program courses. (to be determined by programs, labeled in CUNY First, and noted in the catalog)
   - Students who receive a grade of F/WU in certain key program courses may not continue in the program (to be determined by programs, labeled in CUNY First, and noted in the catalog).

**Courses**

**Academic Plans**

- Master's Degree: APBEH-MS
- Advanced Certificate: APBEH-AC

**Total Credits**

- APBEH-MS: 44
- APBEH-AC: 18

**Course of Study Master of Science**

**CEDF 71500 - Diversity in the American School**

Advanced, graduate-level survey of current issues and theories of diversity and their impact upon the contemporary American school. Topics will be from an interdisciplinary perspective with attention to social policy implications.
EDABA 72000 - Managing Behavior Analytic Records

This course provides a comprehensive review of the legal and ethical management of behavior analytic records in the context of professional behavior analytic practice. Topics to be covered include the legal and regulatory requirements for behavior analytic record keeping along with use of behavior analytic data in professional practice.

EDABA 74000 - Philosophy of Behaviorism

This course examines radical behaviorism in a broad historical, theoretical, and philosophical context. Works by B. F. Skinner and analyses and extensions of these works will be discussed. Radical, contextual, methodological, and feminist behaviorism will be analyzed and their historical roots investigated. Readings will explore major conceptual issues such as determinism, mentalism, selection by consequences, freedom, control, and responsibility. Finally, the course will cover social issues and cultural design as applications of behavioral thinking.

prereq: EDABA 79100, EDABA 79500, EDABA 79800

EDABA 75000 - Experimental Analysis of Behavior

The primary focus of this course is on behavior analytic theory in the context of basic research. Topics to be covered include operant and respondent conditioning, reinforcement, discriminated operants, reinforcement schedules, and social learning.

EDABA 75500 - Functional Behavior Assessment

This course examines various behavior analytic assessment methods that are designed to identify the function of challenging behavior. Both experimental and non-experimental assessment methodologies will be examined along with methods of data collection and analysis.

prereq: EDABA 795 or EDABA 798

EDABA 77000 - Practicum in Applied Behavior Analysis I (KC)

This course is the first of a two-course sequence in conducting fieldwork in applied behavior analytic settings. A total of 180 hours of fieldwork which includes designing, conducting, and analyzing data from applied behavior analytic interventions is required.

prereq: EDABA 795 and approval of graduate advisor
EDABA 77100 - Practicum in Applied Behavior Analysis II (KC)

This course is the second of a two-course sequence in conducting fieldwork in applied behavior analytic settings. A total of 180 hours of fieldwork which includes designing, conducting, and analyzing data from applied behavior analytic interventions is required.

prereq: EDABA 770 and approval of graduate advisor
Hours 3
Credits 3

Includes 180 hours of field experience.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

EDABA 79000 - Single-Subject Research Design

This course is an introduction to single-subject research methods used in applied behavior analysis. In addition, data collection, data analysis, and data presentation will be covered.

Hours 45
Credits 3

EDABA 79100 - Ethics and Professionalism for Applied Behavior Analysts

This course provides an introduction to ethical and professional behavior for applied behavior analysts. Topics to be covered include a variety of ethical and professional issues for applied behavior analysts as they relate to research and practice.

Hours 45
Credits 3

EDABA 79500 - Applied Behavior Analysis I (KC)

The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

Hours 3
Credits 3
EDABA 79600 - Applied Behavior Analysis II (KC)

This course examines specific behavior analysis methods and applications including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.

prereq: EDABA 79500
Hours 45
Credits 3

EDABA 79800 - Behavior Analytic Approaches to Learning

This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

Hours 45
Credits 3

- Take Either -

EDABA 79900 - Applied Behavior Analytic Autism Intervention

This course examines applied behavior analytic intervention for individuals with autism. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive environments.

prereq: EDABA 79500 or EDABA 79800
Hours 45
Credits 3

- or -

EDABA 79300 - Applied Behavior Analytic Autism Intervention for Adults

This course examines applied behavior analytic intervention for adults with autism spectrum disorder. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include promoting independence, social skills, healthcare, leisure skills, vocational skills, employment, and managing
problem behavior. Other areas to be covered include motivational systems, behavior assessment and staff training.

*Hours 3 hrs  
Credits 3*

**SELECT EITHER THESIS OR CLINICAL CAPSTONE**

**THESIS TRACK**

**EDABA 78000 - Thesis I (KC)**

This course is the first course in a two-course sequence in which students conduct an original applied behavior analytic research project. Under the supervision of a faculty advisor, students conduct a literature review, develop a research proposal, and apply for necessary research approvals.

*prereq: EDABA 790, EDABA 791 and approval of graduate advisor  
*Hours 3 plus conferences  
*Credits 3*

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**EDABA 78100 - Thesis II (KC)**

This course is the second course in a two-course sequence in which students conduct an original research project based on the proposal developed in EDABA 780.

*prereq: EDABA 780 and approval of graduate advisor  
*Hours 3 plus conferences  
*Credits 3*

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**CLINICAL TRACK**

**EDABA 78500 - Clinical Capstone 1**

This course is the first course in a two-course sequence in which students conduct a literature review on a relevant applied topic and then write a clinical handbook or create a clinical training module based on this review. Under the supervision of a faculty advisor, students in EDABA 78500, identify a relevant area of behavior analytic application, conduct a comprehensive literature review on the topic, and defend the review to a committee of experts.

*prereq: EDABA 79000, EDABA 79100, EDABA 79600, EDABA 75500, and graduate academic advisor approval  
*Hours 3  
*Credits 3.0*
EDABA 78600 - Clinical Capstone 2

This course is the second course in a two-course sequence in which students write a clinical handbook or create a clinical training module based on recommendations from their literature review in EDABA 78500. This will occur under the supervision of a faculty advisor. The final product will be defended in front of a committee of experts.

*prereq: Approval of graduate academic advisor.*
Hours 3
Credits 3.0

Course of Study Advanced Certificate

EDABA 79100 - Ethics and Professionalism for Applied Behavior Analysts

This course provides an introduction to ethical and professional behavior for applied behavior analysts. Topics to be covered include a variety of ethical and professional issues for applied behavior analysts as they relate to research and practice.

Hours 45
Credits 3

EDABA 79500 - Applied Behavior Analysis I (KC)

The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

Hours 3
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

EDABA 79600 - Applied Behavior Analysis II (KC)

This course examines specific behavior analysis methods and applications including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.

*prereq: EDABA 79500*
Hours 45
Credits 3
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

EDABA 79800 - Behavior Analytic Approaches to Learning

This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

Hours 45
Credits 3

EDABA 79000 - Single-Subject Research Design

This course is an introduction to single-subject research methods used in applied behavior analysis. In addition, data collection, data analysis, and data presentation will be covered.

Hours 45
Credits 3

-Take Either-

EDABA 79900 - Applied Behavior Analytic Autism Intervention

This course examines applied behavior analytic intervention for individuals with autism. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive environments.

EDABA 79300 - Applied Behavior Analytic Autism Intervention for Adults

This course examines applied behavior analytic intervention for adults with autism spectrum disorder. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include promoting independence, social skills, healthcare, leisure skills, vocational skills, employment, and managing problem behavior. Other areas to be covered include motivational systems, behavior assessment and staff training.

Hours 3 hrs
Credits 3

Exit Requirements
Master's Degree

1. An overall GPA of 3.0.

Advanced Certificate

1. An overall GPA of 3.0.
2. No course grade below B

General Information: Scholarships and Grants

A number of student scholarships and fellowships are available from Hunter College and the Hunter College Foundation; these are in addition to the various federal and state grants and loans outlined in the Financial Aid section of this catalog.

Among the awards available to students are the Presidential Grants and Scholarships supported by the office of the Hunter College president. Guidelines for these awards are contained in "Hunter College Grant Competitions," a publication of the college Research Administration, 1424 East Building, 772-4020.

Information about grants, fellowships, and scholarships can be obtained from the Office of Student Services (11th floor, East Building, 772-4878).

Geography and Environmental Science Faculty

Return to Geography and Environment Science Department

Sean Ahearn, Professor and Director, Center for Advanced Research of Spatial Information (CARS); PhD, Wisconsin (Madison); GIS, remote sensing, digital image processing, natural resources, habitat studies

Jochen Albrecht, Professor; PhD, Vechta (Germany); Geographic information science, GIS applications, change modeling, simulation, quantitative methods, Europe

Frank Buonaiuto, Associate Professor; PhD, SUNY (Stony Brook); Oceanography, coastal processes, numerical modeling of waves, tides and sediment transport

Allan Frei, Professor and Deputy Director, CUNY Institute for Sustainable Cities; PhD, Rutgers; Climate change, snow and water resources, modeling

Hongmian Gong, Professor; PhD, Georgia; urban geography, GIS applications, and transportation

Mohamed Ibrahim, Associate Professor; PhD, Alberta; Environmental studies, resource management, sustainable development, Africa, rural water supply and sanitation, urbanization in the developing world

Peter Marcotullio, Professor and Director, CUNY Institute for Sustainable Cities; PhD, Columbia; Global Cities, Urban environmental transitions, globalization and urban development, ecosystem approaches to urban and regional environmental planning and management and impacts of urbanization on the environment

Ines Miyares, Professor; PhD, Arizona State; Geographies of immigration and ethnicity, spatial impacts of immigration and refugee law, Latin America and Hawai'i

Wenge Ni-Meister, Professor; PhD, Boston; Remote sensing, land-atmosphere interaction, meteorology, climatology, biogeography

Marianna Pavlovskaya, Professor; PhD, Clark; Urban and feminists geography, post-socialist Russia, gender and class, critical GIS, diverse economy and economic solidarity
Andrew Reinmann, Assistant Professor; PhD, Boston; Ecological response to climate change, urbanization and fragmentation, terrestrial carbon cycling, dendroecology

Randye Rutberg, Assistant Professor; PhD, Columbia; paleoclimatology, oceanography, geochemistry, environmental science, environmental public policy

Haydee Salmun, Associate Professor; PhD, Johns Hopkins; Oceanography, global climate, environmental fluid dynamics, land surface-atmosphere-ocean interface

William Solecki, Professor; PhD, Rutgers; Urban environmental change and management, land use and land cover studies, hazards, GIS applications

Shipeng Sun, Assistant Professor; PhD, Minnesota; geovisualization, GIS algorithms, socio-spatial network analysis, land use change, urban and human-environment system modeling

Geography Centers & Facilities

Return to Geography

Facilities

The Department of Geography has state of the art computer labs that are available to our students 24 hours per day / seven days per week. The labs' hardware, including computers and the high capacity network, is upgraded regularly to accommodate the most up-to-date versions of relevant software packages, including major GIS and remote sensing applications and open source tools.

CARS

The Center for Advanced Research of Spatial Information (CARS) is a state-of-the-art geographic information science research laboratory. The CARS Lab is involved in a number of city, state and federal research projects as well as international conservation projects. The Center specializes in spatial-temporal modeling and simulation, geospatial quality assurance, remote sensing image analysis with a focus on LiDAR, and machine learning approaches to geospatial analysis.

Grade Definitions and Grading Policy

Students are to be graded in courses according to the traditional system of letter grades (A, B, C and F).

Student Credit Points Earned

Students who receive credit for a class by the end of the semester (or term) will have a grade ranging from A to C on their transcript and these will be entered into the calculation of the grade point average. The grade of P is not counted in the GPA.

No Student Credit Points Earned

Students who will not receive credit points may have an F or an INC, or a grade beginning with "W". See explanation after chart. The F grade is counted in the GPA.

Retention Standards

CUNY mandates uniform student retention standards for all CUNY colleges. Decisions about whether or not students may continue in a CUNY college are made on the basis of a student's grade point average (GPA). To determine GPA, course grades are assigned quality points (which count toward the GPA), as shown in the following table:

Grades and Designations Assigned by College Administration

Effective fall 2007, grades in graduate courses are reported as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Definition</th>
<th>Quality Points (GPA Index)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>

</table>

P = Satisfactory completion. Used only for the thesis research or equivalent course where required in the particular graduate program.

INC = Incomplete

SP = Satisfactory progress – restricted to thesis and research courses requiring more than one semester for completion

W = Official withdrawal

WU = Unofficial withdrawal (counts as failure)

WA = Administrative withdrawal

Y = Year's course of study – must continue to completion

A placeholder grade submitted by the Office of Student Conduct when a student is alleged to have committed a violation of the Policy on Academic Integrity and the student denies the allegation. The PEN grade is a placeholder during the pending resolution of the allegation and will be changed by the instructor following such resolution.

In the School of Social Work the H/CR/NC grading system is mandatory. These grades, which carry no quality points, are assigned as follows:

H = Honor

CR = Credit

NC = No credit

The assignment of traditional letter grades in the School of Social Work may be arranged by consultation with the instructor at the beginning of each semester. A grade of CR is given for "acceptable graduate-level work," equivalent to a B or an A. The grade of H signifies "unusual or outstanding graduate-level work, well above the A level.

Students are not permitted to repeat courses in which they have previously received a grade of B or better unless otherwise specified by the department. Courses in which a grade of C is earned may be repeated only with departmental permission. Credit for the repeated course will be counted in the GPA, but not toward graduation.

NOTE: In the Spring semester of 2020, some of the above policies were temporarily suspended by CUNY due to the COVID-19 pandemic. Selection of the CR/NC grading option for courses in the Spring 2020 was allowed for graduate
courses even though the grading system currently in effect did not include those grades. Please see here for a complete list of the temporary policies that were in place at this time. [link]

Grades

The candidate must have achieved a cumulative grade point average of not less than 3.0 (B) in all graduate work taken at Hunter.

Graduate Admissions: Admission Status

Applicants are approved for admission by the graduate adviser or coordinator of the program and the appropriate dean under any one of the following categories:

1. **Matriculated** – For matriculation, students must fulfill all the requirements for admission.

2. **Matriculated with conditions** – Students whose undergraduate training is inadequate, but who are otherwise qualified, may be admitted with not more than 6 credits of course conditions to either the School of Arts and Sciences or to the Schools of the Health Professions, and with not more than 12 credits of course conditions to the School of Education. Such students are expected to satisfy their conditions by eliminating all deficiencies within one year of matriculation if admitted to a program in the School of Arts and Sciences and the Schools of the Health Professions, and within three semesters in the School of Education.

   *Note: Applicants admitted to matriculated status who wish to delay their admission to the following semester must reapply by filing a new application prior to the next semester's deadline. Credentials submitted in support of the original application need not be resubmitted.*

3. **Nonmatriculated** – A formal application must be filed in the Office of Admissions, Room 203 HN, 695 Park Avenue, New York, NY 10065, approximately two months before registration. The undergraduate degree must be equivalent to at least a U.S. bachelor's degree. If the application and supporting material are acceptable, registration material will be sent with further instructions. Applicants should present a student copy of their undergraduate transcripts as well as a copy of the undergraduate catalog(s) to the departmental adviser in order to obtain course approval. The nonmatriculation application fee of $125.00 will be charged when the student registers.

Acceptance to nonmatriculated status does not imply approval to take a specific course. This approval rests solely with the graduate program adviser involved. Students should consult the graduate program adviser in the appropriate department for specific information.

To be considered for possible matriculation, a nonmatriculated student must have earned grades of B or better for the course credits taken. For most programs in education, 9 credits must be presented with a minimum grade point average of 3.0. This requirement is in addition to the college and program admission requirements for matriculation.

A separate application for matriculated status must be completed and can be filed while the nonmatriculated courses are in progress. The application for matriculated status must be filed by the appropriate deadline for the individual program desired. Consult the Application for Graduate Degree Programs for specific dates.

A nonmatriculated student may be limited to 12 credits (check with departmental adviser). A minimum grade point average of 3.0 must be maintained.

Registration as a nonmatriculant does not entitle an international student to an I-20 AB (Certificate of Eligibility).

Approval of Credit from Nonmatriculant to Matriculant Status
Approval will automatically be granted for courses taken in support of the degree if the grades received are B or higher. Approval is not automatic for courses in which the grade received is less than B, nor for courses not required for the degree. To have such a course considered for approval, the student must submit a credit approval form, which may be obtained in the Office of Graduate Admissions. Note: Grades in courses taken as a nonmatriculant at Hunter will be calculated into the student's grade point average (GPA) whether approved toward the degree or not.

**Graduate Admissions: Application Procedure & Fee**

**Application Fee**

Applicants may apply to only one program for any given semester; please decide which of our programs is the most appropriate before filing the application. The deadline for applications varies by program. The earliest deadlines are January 15 for fall admission and September 1 for spring admission. Applicants are responsible for submitting their application and supporting application materials by the deadline for their desired graduate program. More information on the exact application deadlines can be found at: [http://www.hunter.cuny.edu/graduateadmissions/apply/graduate-admissions](http://www.hunter.cuny.edu/graduateadmissions/apply/graduate-admissions)

Applying for admission to a graduate program at Hunter College is a fully online process. Hunter College offers a web-based application for graduate degree admission which can be accessed at: [https://app.applyyourself.com/?id=Hunter-G](https://app.applyyourself.com/?id=Hunter-G). Applicants are required to complete the core application form, upload a statement of purpose, upload scanned/electronic transcripts from all undergraduate and graduate institutions previously attended, and complete any program-specific supplemental forms. Required letters of recommendation must be submitted online by the recommenders through the online application system. Specific information on the application requirements can be found at: [http://www.hunter.cuny.edu/graduateadmissions/apply/graduate-admissions/requirements/transcripts](http://www.hunter.cuny.edu/graduateadmissions/apply/graduate-admissions/requirements/transcripts)

Admitted students must submit official hard copies of all academic transcripts. Official transcripts will be compared to the unofficial copies submitted along with the application. In the event of discrepancies or false reporting of any information Hunter College reserves the right to change/withdraw its offer of admission.

**Applicants admitted to the School of Arts & Sciences, School of Education, School of Nursing, School of Health Professions and School of Urban Public Health must submit all official transcripts to:**

Graduate Admissions  
223 North  
695 Park Ave.  
New York, NY, 10065

**For Applicants admitted to the School of Social Work must mail their official transcripts to:**

Silberman School of Social Work  
Enrollment Management 7th Floor  
2180 Third Avenue  
New York, NY 10035

Specific information on submitting of academic transcripts can be found at: [http://www.hunter.cuny.edu/graduateadmissions/apply/graduate-admissions/requirements/transcripts](http://www.hunter.cuny.edu/graduateadmissions/apply/graduate-admissions/requirements/transcripts).

Applicants to some graduate programs may be asked for additional materials and may be interviewed by a member of the program to which the application is made.
Credentials submitted in support of an application become the property of Hunter College and will not be released to
the applicant or transmitted to a third party, except for those foreign certificates considered irreplaceable. Original
foreign documents will be returned to the applicant only if, at the time of filing, they are accompanied by photocopies.

Application Fee

A $125 application fee is required of all applicants. Applications submitted without the fee cannot be processed. You
can pay your application fee via credit card online when you are ready to submit your online application form or you
can mail a check or money order to the Graduate Admissions Office. Please make checks or money orders payable to
Hunter College. If a check is written for you by someone else, be sure your name appears on the face of the check.
Those currently attending Hunter as graduate non-degree students who are applying for degree status need not pay this
fee. As the application fee is devoted to the administrative cost of processing all applications, it is not refundable under
any circumstances, regardless of the outcome, the date of filing, the time of review, or, if for whatever reason, the
application is withdrawn.

Graduate Admissions: General

An applicant for admission to Hunter College as a matriculated student in any of the master’s programs must meet the
following minimum requirements in order to be considered: (For admission to the School of Social Work, see
Silberman School of Social Work section of this catalog.)

1. The student must hold a bachelor's degree from a regionally accredited institution, comparable in standard
   and content to a bachelor's degree from Hunter College.

   Degrees granted on the basis of work completed at institutions which are not fully accredited, or on the basis
   of nonacademic prior learning, test scores, and other than organized supervised course work in academic
   subjects may not be considered comparable.

2. The student must demonstrate ability to pursue graduate work successfully. In general, the minimum
   requirements for consideration are an undergraduate average of B in the area in which the student wishes to
   specialize and an average of B minus in the undergraduate record as a whole. Applicants are required to
   submit official transcripts from all undergraduate and graduate institutions attended other than Hunter
   College.

3. For admission in the School of Arts and Sciences, the student is usually required to present at least 18 credits
   of previous work in the area of specialization acceptable to the school or department concerned and two
   letters of reference. See specific program descriptions for additional requirements.

   For admission to the School of Education, the student is usually required to present at least 36 credits of
   previous liberal arts and science courses and a liberal arts or science major of at least 30 credits. See specific
   program descriptions for detailed requirements.

4. Competency Examinations

   The Graduate Record Examination: The general aptitude test of the Graduate Record Examination (GRE)
   is required of most applicants to the School of Arts and Sciences and to the School of Health Sciences. See
   specific program descriptions regarding this requirement. It is not required for the School of Education or the
   School of Nursing.

   Applicants should write directly to:
   Graduate Record Examination, Educational Testing Service
   Box 6000, Princeton, NJ 08541-6000
   (609) 771-7670
   http://www.gre.org
for full information and arrangements to take the test. The GRE should be taken no later than February for fall admission and September for spring admission. The Hunter College institution code is 2301.

The Test of English as a Foreign Language (TOEFL)* is required of all applicants whose native language is not English and/or who have taken all or part of their post-secondary education in a country where English is not the native language. Such applicants, regardless of country of citizenship or U.S. permanent resident status, must take this examination. Depending on the program selected, an applicant may also be required to take the TWE (Test of Written English) and the TSE (Test of Spoken English), also administered by the Educational Testing Service.

Applicants should plan to take these examination(s) at least nine months before their intended date of enrollment. Information about TOEFL, TWE, and TSE can be obtained by writing to TOEFL Bulletins, P.O. Box 6151, Princeton, NJ 08541-6151-(609) 771-7100-http://www.toefl.org. The Hunter College institution code is 2301.

Education Sequence Adviser for Romance Languages:
Graduate Assistantships

Graduate assistantships may be available in some departments and are awarded to master’s and doctoral students on the basis of academic qualifications. The duties of graduate assistants may include teaching, research, laboratory work, graduate program administration and similar assignments as specified by the academic department. Students should contact their graduate advisers about such opportunities.

Graduate Curriculum Social Research

Degree Requirements

Completion of the graduate program in social research requires a minimum of 45 credits, which include:

1. Core Courses
   - GSR 70800 Statistics I
   - GSR 70900 Statistics II
   - GSR 71000 Qualitative Research Methods
   - GSR 71100 Quantitative Research Methods
   - GSR 70200 Contemporary Sociological Theory
   - GSR 71600 Workshop in Using Information Technology for Research
   - GSR 71700 Seminar in Applied and Evaluation Research
   - GSR 71900 Applied Research Seminar

2. Electives

Fifteen credits are taken in courses according to the student's interests. Some may be taken in areas of specialization among GSR courses, some may be selected from courses in other Hunter departments or CUNY colleges. See advisers.

3. Internship Requirements

Degree candidates must work as research interns in public or private organizations for a minimum of three 12 weeks full-time or 24 weeks part-time.
   - GSR 71800 Research Internship

Additional Information
The program can be completed in two years on a full-time basis, or seven semesters on a part-time basis (two courses per semester minimum).

**Graduate Programs: Information**
School of Education programs at Hunter College prepare prospective teachers, counselors, and leaders to serve as highly effective professionals who work with children and adults of diverse backgrounds, abilities, and interests within an array of human development settings in New York State.

The School of Education has over sixty master's and advanced certificate programs that lead to initial, professional, or additional certification for new york teachers, school counselors, and building/district leaders; our counseling programs lead to state licensure; and our research programs in Instructional Leadership (Ed.D) and Educational Psychology (MA) expand student abilities in the production and expansion of new knowledge.

Our vast program offerings are designed for many different types of students — for recent graduates or career-changers who are new to the field of education, as well as current teachers seeking new areas of certification or professional advancement in the areas of:

- Adolescent Education
- Bilingual Education
- Childhood Education
- Creative Arts Education
- Counseling
- Early Childhood Education
- Educational Psychology
- Educational Leadership
- Instructional Leadership (Ed.D.)
- Literacy Education
- Special Education
- Teaching English to Speakers of Other Languages (TESOL)

The School of Education is committed to the development of teacher, counselor, and leadership candidates that will both make a positive contribution to their professions and be lifelong students. Our professional preparation programs focus on the unique challenges of working in NYC, and the core of our educational mission is to be a place for aspiring teachers, leaders, and counselors to learn their craft and contribute to the future in a variety of settings throughout the metropolitan area and beyond.

School of Education students are held to the highest professional and academic standards, and during their time here, will:

- Learn the theory and best practice for effective professional contributions.
- Understand the history, philosophy, psychology, and sociology that underpins their profession and that will inform their practice.
- Develop knowledge and skills to successfully work in their school, clinic, or other settings in the betterment of children and adults.
The School of Education also believes in preparing teacher, leader, and counseling candidates to work with the diverse population of today's modern society, and recognizes that learning takes place inside social and community networks that support student and individual growth. Becoming a Hunter College teacher, leader, or counselor candidate requires dedication to the continuous improvement of one's professional abilities. Our programs, therefore, focus on developing the capacity to reflect on an individual's practice in order to strengthen their work with students or clients and grow as professionals throughout their career.

**Graduate Students Association**

All registered graduate students except those who do not pay the student fee because they are maintaining matriculation are members of the Graduate Students Association (GSA) and may use the services provided by the association, which include use of the graduate lounge and attendance at departmental colloquia and special departmental projects and events.

Every spring each graduate department or program elects a representative to the GSA Senate. GSA members may serve on the Hunter College Senate and on many college committees. A GSA delegate also participates in the University Student Senate. Copies of the GSA constitution and additional information may be obtained from the GSA office. Graduate students are encouraged to participate actively in the affairs of the association. For information, call (212) 772-4309. The GSA office is located in Room 218 Thomas Hunter Hall.

**Graduate Study at Hunter**

Hunter College, the second oldest college in The City University of New York, offers master's degrees in more than 50 fields of study and doctoral programs – some at Hunter exclusively and some in cooperation with the CUNY Graduate Center. We have graduate programs in the arts, sciences, languages and literature – as well as in the professional fields of accounting, education, health, nursing, nutrition, social work and urban planning – and all are considered exceptional. Currently about 6,000 students enroll in these programs.

One of our most important areas – now, as throughout our more than 140-year history – is teacher education. The School of Education today offers a broad range of graduate programs designed to prepare teachers, counselors and administrators for practice, leadership and innovation in education. A doctorate in Education (EdD) prepares students for careers in instructional leadership.

The Hunter-Bellevue School of Nursing, the School of Health Professions, and the School of Urban Public Health are nationally recognized for new approaches to teaching, research and service in health care. The School of Nursing provides a wide array of accredited programs designed to prepare students for leadership positions in health care (including the new Doctor of Nursing Practice, DNP); the School of Health Professions offers an outstanding master's program in speech-language pathology and a doctorate in physical therapy. The School of Urban Public Health offers BS/MS and MS degrees in nutrition. Through the City University Graduate Center, doctoral degrees in audiology, nursing science social work and public health are available.

The Silberman School of Social Work, located in its new home in East Harlem, offers several flexible program options leading to the master of social work degree. It is one of the top graduate social work schools in the country. Its faculty is renowned both for training leaders and innovative thinkers in social work and for providing expert service to New York's multicultural community. Through leading-edge course work, opportunities for challenging field experience, method-based training and a practice-centered education, the Silberman School provides unequalled opportunities to learn and excel in our dynamic urban environment. (the School also offers a BSW, its first undergraduate degree).

The School of Arts and Sciences has an outstanding roster of graduate programs in the fine and performing arts, humanities, social sciences, and sciences and mathematics. In addition to many master's programs, we offer doctoral degrees in the sciences in cooperation with the CUNY Graduate School. Our faculty members push the frontiers of knowledge in their disciplines and are at the forefront of creative innovation. Graduates have gone on to elite doctoral
programs, achieved distinction in various creative fields, and enjoyed successful careers built on their Hunter training. Graduate study at Hunter is enhanced by our excellent performance facilities, research laboratories, and art studio space. Our MFA programs in Playwriting, Music, Dance, Integrated Media Arts and Creative writing are taught by renowned, award-winning artists. With Hunter's central location on Manhattan's East Side, the city's major museums, concert halls, and galleries are within easy walking distance, as are famed biomedical research facilities that offer extraordinary opportunities for collaborative study and research.

Hunter's faculty includes many distinguished scholars, educators, and creative artists, all of whom play major roles in New York's academic, cultural, civic and educational life. With over $50 million annually in research grants and awards, Hunter's faculty is internationally respected for its creativity, energy and scholarship.

**Hunter College of The City University of New York**

695 Park Avenue  
New York, NY 10065  
(212) 772-4000  
http://www.hunter.cuny.edu/

**Graduation**

All students must apply to graduate from their program in order to officially complete their program and have their degree conferred. Graduation applications are submitted and processed online through a student's myHunter page. The graduation application period begins a full year prior to the student's final semester. All graduation applications are reviewed by the Degree Audit Division within the Registrar's Office. Students must complete any admission conditions, program requirements and exit requirements prior to graduation date in order to be eligible for graduation.

Graduate students must be matriculated in their final semester at Hunter College by enrolling in a course at Hunter (or another CUNY college through e-permit) or Maintaining Matriculation.

**Health/Safety Policies & Procedures**

- CUNY Policy on Sexual Misconduct
- CUNY Campus and Workplace Violence Prevention Policy
- Fire Safety Plan
- Department of Public Safety and Security
- Notice of Access to Campus Crime Statistics, the Campus Security Report and Information on Registered Sex Offenders
- Drug-Free Schools and Campuses
- Persona Non Grata Guideline

History Faculty

Richard Belsky, Associate Professor; PhD, Harvard; East Asian history, social and political history of Modern China

Manu Bhagavan, Professor; PhD, Texas at Austin; modern South Asia, human rights, international history

Eduardo Contreras, Associate Professor; PhD, Chicago: Nineteenth and Twentieth-Century US, US Latinas/o/xs, migration, race and ethnicity; Central America

Donna T. Haverty-Stacke, Professor; PhD, Cornell; US labor history, urban history, cultural history, biography, legal history

D’Weston Haywood, Associate Professor; PhD Northwestern; African-American history; Black masculinities; cultural and political history; race and gender studies; Black civil rights; Hip-Hop; racial justice; Black protest movements.

Benjamin Hett, Professor; PhD, Harvard; modern European history

Daniel Hurewitz, Associate Professor; PhD, California at Los Angeles (UCLA); 20th century US History; LGBTQ History; Politics of Gender and Sexuality; Theater as History

Karen Kern, Associate Professor; PhD, Columbia; history of the Middle East, history of the late Ottoman Empire; comparative imperialism and nationalism; social and legal history

Elidor Mëhilli, Associate Professor; PhD, Princeton; modern Eastern and Central Europe, modern Italy, Russia and Soviet Union

Mary Roldán, Dorothy Epstein Professor of Latin American history; Department Chair; PhD, Harvard; Latin American history; violence, state formation, 20th century Colombia, Cold War radio, religion and rural development, media, politics and the public sphere

Jonathan Rosenberg, Professor; PhD, Harvard; Twentieth-century US and the world; Cold War; music, politics, and society in US history; US civil rights history; US political history

Jill Rosenthal, Assistant Professor; PhD, Emory; History of Africa (Great Lakes Region), History of Humanitarian and Development Aid, migration, refugees, and making of modern world

Laura Schor, Professor; PhD, Rochester; modern France, modern European Jewish History, European women's history, 20th century Jerusalem

Hunter Campus Centers

School of Urban Public Health faculty are affiliated with several City University of New York research centers and institutes. These provide opportunities for faculty and student research.
The New York City Food Policy Center develops intersectoral, innovative and evidence-based solutions to preventing diet-related diseases and promoting food security in New York and other cities. The Center works with policy makers, community organizations, advocates and the public to promote community and economic development. Through interdisciplinary research, policy analysis, evaluation and education, we leverage the expertise and passion of the students, faculty and staff of Hunter College and CUNY. The Center aims to make New York a model for smart, fair food policy.

Affiliated public health faculty: Leung, Navder, Platkin, Yeh
Website: http://www.nycfoodpolicy.org/

The Brookdale Center on Healthy Urban Aging and Longevity at Hunter College advances successful aging and longevity through research, education, and evaluation of evidence-based models of practice and policy. The Brookdale Center shares the East Harlem campus with both the Silberman School of Social Work and the School of Urban Public Health. Brookdale Center takes a leading role in the development of evidence-based "best practices" to advance the health and well-being of a new generation. Brookdale is breaking new ground in aging services by connecting and integrating the applied fields of gerontology with health policy. Brookdale Center serves as a critical bridge between gerontological education, research, policy, practice and advocacy, and is recognized nationally today as a major center of excellence.

Acting Director: Daniel Gardner
Website: http://www.brookdale.org/

Center for Basic and Translational Research
Center for Translational and Basic Research (CTBR) mission is to address health disparities and improve health outcomes. The CTBR is a consortium of researchers within Hunter College of the City University of New York—one of the largest public universities in the nation. It boasts unparalleled quality and diversity in its researchers on both the faculty and graduate student levels. At the heart of the CTBR's mission is an imperative to build unique collaborations among biologists, chemists and biopsychologists; to recruit and equip outstanding faculty; to develop and share core research facilities; to implement strategies for scientific networking; and to address health disparities in our population involving the Hunter Silberman School of Social Work, the Hunter-Bellevue School of Nursing and the Weill Cornell Medicine Clinical and Translational Science Center. The CTBR is funded by a major grant from the National Institute on Minority Health and Health Disparities, NIH.
Website: http://ctbr.hunter.cuny.edu

Center for HIV Educational Studies and Training at Hunter College (CHEST) conducts research on social and psychological factors that contribute to HIV transmission and/or the wellbeing of those living with HIV, and with a particular emphasis on the promotion of sexual health. CHEST's mission is to conduct research to identify and promote strategies that prevent the spread of HIV and improve the lives of people living with HIV. We have been advocating for and working with the LGBT community since 1996. CHEST is part of Hunter College of the City University of New York, where Dr. Jeffrey Parsons (Director) is a Distinguished Professor in the Psychology Department. Drs. Tyrel Starks and H. Jonathon Rendina, both from the Hunter Psychology Department, are faculty affiliates. CHEST has strong affiliations throughout the CUNY system with Faculty Affiliates including: Dr. David Bimbi (Laguardia Community College), Dr. Christian Grov (CUNY School of Public Health), Dr. Juline Koken (Laguardia Community College). In addition, CHEST has strong collaborative partnerships with investigators at Northwestern University, Wayne State University, University of Minnesota, and Mount Sinai School of Medicine. As an academic research center, CHEST supports post-doctoral fellows, doctoral candidates, master's students, and undergraduate interns. The majority of our doctoral students attend the CUNY Graduate Center's Health Psychology and Clinical Sciences doctoral programs.

CUNY Institute for Sustainable Cities (CISC) works to realize cities as part of the solution to global sustainability challenges. The CUNY Institute for Sustainable Cities (CISC) works to realize cities as part of the solution to global sustainability challenges. By merging the science of sustainability with innovative public programming, we examine opportunities available to cities—and their residents—for proactive responses to on-going environmental change. We harness the potential of formal and informal means to inspire a new generation of environmental thinkers. In doing so, we seek to understand and influence the evolution of the urban environment, while connecting the CUNY community,
decision-makers and the general public to these critical issues. CISC explores the nature and complexity of cities through the following themes and questions:

- **Consumption:** What are the elements, patterns, and impacts of urban consumption and how do they change over time?
- **Vulnerability and Resilience:** How are cities impacted by global environmental change and what are their response capacities?
- **Ecosystem Services:** What services to urban ecosystems provide to cities and how can their maintenance and restoration benefit urban areas?

Website: [http://www.cunysustainablecities.org](http://www.cunysustainablecities.org)

**Hunter College Libraries**

The Hunter College Libraries, with locations at all of our campuses, offer the Hunter College community access to a wide variety of services, collections, and spaces for research and teaching. At the 68th Street campus, the Leon & Toby Cooperman Library occupies nine floors in the East Building, with entrances to the library on the 3rd and 7th floors. The Cooperman Library is home to the Hunter College Archives & Special Collections (Floor 2), the Silverstein Student Success Center (Floor 7), and the Education Library (Floor 6). Also at the 68th Street campus, the Zabar Art Library is located on the 16th Floor of the North Building. The Brookdale campus (425 East 25th Street) is home to the Health Professions Library, and the Silberman Building (2180 Third Avenue) houses the Social Work and Urban Public Health Library.

Our spaces include collaborative work areas, reservable study rooms, and areas for quiet study. Additionally, we provide desktop, laptop, and tablet computers as well as printers, photocopiers, scanners, whiteboards, and lots of electrical outlets.

Librarians are available for one-on-one and group research consultations. Request an appointment with a librarian by completing the Research Consultation form here: ask-a-librarian.

For more information about our services, including specifics about each of the libraries, please visit the Hunter College Libraries' website.

Please note that the Cooperman Library is undergoing a phased renovation project which involves temporary floor closures due to construction. Take note of posted signage in the library and check our website for up-to-date information.

Hunter College Mission Statement

Hunter College is a comprehensive teaching, research and service institution, long committed to excellence and access in the education of undergraduate and graduate students in the liberal arts and sciences, as well as in several professional fields: education, health sciences, nursing and social work.

Founded in 1870, Hunter is one of the oldest public colleges in the country, dedicated from its earliest days to serving a student body which reflects the diversity of New York City. Hunter takes pride in the success it has had over the years in enabling the people of New York to combine the strengths of their varied experiences with the skills they need to participate effectively in the wider society. Committed to the achievement of a pluralistic community, Hunter College offers a curriculum designed to meet the highest academic standards while also fostering understanding among groups from different racial, cultural and ethnic backgrounds.

The goal of a Hunter College education is to encourage the fullest possible intellectual and personal growth in each student. While preparation for specific careers is an important objective of many programs, the fundamental aim of the college experience as a whole is to develop a student's rational, critical and creative powers. Such development
involves the abilities to conceptualize and analyze, to relate the concrete and particular to the abstract and general, and to think and write logically and coherently. It also includes a broadening and deepening of outlook: an awareness of one's own and other cultures as well as of the enduring questions and answers concerning being, purpose, and value that confront humanity. Finally, the educational experience at Hunter is intended to inspire a zest for learning as well as to bring the recognition that learning is pleasurable and knowledge is useful.

While teaching and research are its primary missions, community service is also an essential goal of the college. Hunter faculty seek to generate new knowledge and to design programs to address the myriad cultural, social and political needs of New York City and the world.

**Hunter College Ombudsman**

The Ombudsman is empowered by the Hunter College Governance Charter to investigate complaints and grievances by any member of the college community (student, faculty, staff, or administration) about a problem or condition in the college. When requested and where possible, the anonymity of a complainant will be protected and names will not be used in any reports the Ombudsman may make.

When someone feels unfairly treated or unjustly disadvantaged, the Ombudsman can advise the person of the available appeals procedures, recommend corrective action to be taken by the appropriate college officers or recommend changes in college procedures or regulations that would eliminate such injustices in the future.

The Office of the Ombudsman is in Room 1016 Hunter East; The ombudsman may be reached at ombuds@hunter.cuny.edu or at (212) 772-4203.

**Hunter College Policy on Academic Integrity**

Table of Contents

- I. Procedures for Reporting Academic Integrity Violations
- II. Procedure for Disciplinary Sanctions
- III. Faculty-Student Disciplinary Committee
- IV. Committee Structure
- V. Clarification of the Process
- VI. Academic Sanctions

### I. Procedures for Reporting Academic Integrity Violations

To initiate the procedure for addressing an allegation of academic dishonesty, faculty members must complete the online Academic Integrity Form indicating the recommended academic sanction, which involves a grade penalty (i.e., a reduced grade). Disciplinary sanctions may only be pursued by the Dean of Students if the case merits them.

I. Procedure for Academic Sanctions

A. When the faculty member suspects academic dishonesty and wants an academic sanction, the professor should first confer with the student. If the student admits to the violation, the instructor should inform the student of the grade penalty and report the action taken on the online Academic Integrity Form and upload all supporting documentation [pdf]. The faculty should submit the online reporting form within 30 days of discovery of the academic dishonesty. The Office of Student Conduct will contact the student once we receive a completed online form. Faculty members must submit the online form within 30 days of discovery of the academic dishonesty.
B. If the student admits to academic dishonesty but believes the grade penalty is too severe, the instructor should select the appropriate option on the online Academic Integrity Form, upload supporting documentation and submit it online. The Academic Integrity Official shall submit a placeholder grade of "PEN" if occurrence is during the middle of the semester. If the occurrence is at the end of the semester the instructor should submit the student's final grade at the end of the semester. At that point, the student may contest the grade sanction by appealing the course grade through the College's grade appeal procedure. Once the student has admitted the violation, s/he may contest only the severity of the grade sanction, not the dishonesty allegation itself. If the student appeals the grade, the departmental and Senate grade appeals committees should send copies of their findings to the Hunter College Academic Integrity Official.

C. If the student denies the allegation of academic dishonesty, the faculty member will report that this is the student's position on the online Academic Integrity Form. The matter will first be reviewed by the Academic Integrity Official who will conduct a fact finding investigation and attempt to resolve the matter. If the matter cannot be resolved then Mediation will be proposed between both parties with a third party member. If the case is not resolved through Mediation then it will be moved to an official hearing before the Faculty-Student Disciplinary Committee who will render judgment upon conclusion of the hearing. The student has the right to appeal the Committee's judgment by appealing with the President's Office.

D. Students who either admit to an act of academic dishonesty or are found to have committed one by the Academic Integrity Official will receive a letter from Hunter College's Academic Integrity Official notifying them that this matter has been reported to the Dean of Students Office. When an academic integrity accusation is resolved by the Faculty-Student Disciplinary Committee, the student and faculty member will be notified of the findings.

II. Procedure for Disciplinary Sanctions

A. The Dean of Students has the right to pursue disciplinary sanctions against any student should the case deem appropriate, which includes substantial violations, if the student has prior violations or when academic sanctions were not executed because the student withdrew from the course.

III. Faculty-Student Disciplinary Committee

The purpose of the Faculty-Student Disciplinary Committee is to review evidence when an academic sanction is being sought and when the allegations of academic dishonesty are still in dispute after meetings with the Academic Integrity Official and Mediator have occurred. The Committee will proceed in the following manner:

1. If the charge of academic dishonesty is denied by the student, the faculty member will advise the student that the matter has been referred to the Hunter College Academic Integrity Official, who will initiate the fact-finding process.
2. A panel of three Faculty-Student Disciplinary Committee members will be selected and convened by Hunter College Academic Integrity Official to review the evidence for each case.
3. The faculty member and student will be invited to present their case at a formal hearing, which will be conducted within 30 days of receipt of the online Academic Integrity Form.
4. The committee will deliberate in closed session (i.e., with neither student nor instructor present) and submit its findings, in writing, to the Hunter College Academic Integrity Official, who will then notify the faculty member and student. Although faculty members reserve the right to submit grades whenever they deem appropriate, they are encouraged not to submit grades for the disputed work or a final course grade until they have been notified of the committee's findings. Students may appeal the final course grade through the College's grade appeal process.

IV. Committee Structure
A. The president shall select in consultation with the head of the appropriate campus governance body or where the president is the head of the governance body, its executive committee, three (3) members of the instructional staff of that college to receive training and to serve in rotation as chair of the disciplinary committee. If none of the chairpersons appointed from the campus can serve, the president, at his/her discretion, may request that a chairperson be selected by lottery from the entire group of chairpersons appointed by other colleges. The chairperson shall preside at all meetings of the faculty-student disciplinary committee and decide and make all rulings for the committee. He/she shall not be a voting member of the committee but shall vote in the event of a tie.

B. The faculty members shall be selected by lot from a panel of six elected biennially by the appropriate faculty body from among the persons having faculty rank or faculty status. The student members shall be selected by lot from a panel of six elected annually in an election in which all students registered at the college shall be eligible to vote. In the event that the student or faculty panel or both are not elected, or if more panel members are needed, the president shall have the duty to select the panel or panels which have not been elected. No individuals on the panel shall serve on the panel for more than two consecutive years.

C. In the event that the chairperson cannot continue, the president shall appoint another chairperson. In the event that a student or faculty seat becomes vacant and it is necessary to fill the seat to continue the hearing, the seat shall be filled from the respective faculty or student panel by lottery.

D. Each faculty-student disciplinary committee shall consist of two faculty members and two student members and a chairperson, who shall be a faculty member. A quorum shall consist of the chair and any two members, one of whom must be a student. A panel of three, consisting of two faculty members and one student selected from the twelve committee members, will be convened by the Hunter College Academic Integrity Official for each hearing. Faculty members and graduate students affiliated with the department, and undergraduate students majoring in the department's programs, will not be selected to serve on that particular panel.

V. Clarification of the Process

All questions regarding these procedures or the College's disciplinary process should be referred to the Office of Student Conduct in the Vice President for Student Affairs and Dean of Students office (Room 1103 East, phone 212.772.4534/212.396.6484 or email at academic.integrity@hunter.cuny.edu).

VI. Academic Sanctions

Reduced or "F" grade on academic exercise
Reduced or "F" grade in course

CUNY Examples of substantial violations
These include but are not limited to:

Forging any type of document
Stealing an examination from faculty or a College Office
Taking an examination for someone or having someone take it on your behalf
Writing a paper for someone or having someone write your paper
Purposefully sabotaging another student's work that prevent his/her completion of an assignment
The student has previously violated the policy
Any violations made by a graduate and or professional student or a student who is pursuing professional licensure.

Hunter College Senate
The Hunter College Senate, chartered in 1970, is the principal governance body of the college and the only such body that holds a governance charter with the CUNY Board of Trustees. The Senate has authority to determine college policy in matters related to:

1. Curriculum
2. Academic requirements and standards
3. Instruction and the evaluation of teaching
4. College development, including master plan
5. Computing and technology

Representatives of the faculty, student body, and administration constitute the voting membership of the Senate and serve for a term of two years. The elected officers of the Senate include the chairperson, vice-chairperson, and secretary of the Senate, and the chairperson of the Senate's Evening Council, who constitute the Senate Administrative Committee.

Regular meetings of the Senate are planned for one-and-a-half hours and are held twice a month. Additional monthly meetings are called as needed. Election of faculty and student members to the Senate occurs during the spring semester.

Many standing committees and a varying number of special and ad hoc committees accomplish much of the work of the Senate. Membership on committees is representative and open to all faculty and students by election of the full Senate from a slate recommended by the Nominating Committee and by nominations from the Senate floor.

Faculty members and students are encouraged to become involved in the meetings of the Hunter College Senate and its committees.

Further information may be obtained by visiting the Senate Office, Room 1018 Hunter East Building, (212) 772-4200, or at http://www.hunter.cuny.edu/senate.

**Hunter College Smoking Policy**

Hunter College is a non-smoking environment (facility) pursuant to New York City Law.

**Hunter Galleries**

Main campus gallery: (212) 772-4991

The Hunter College Art Galleries, comprised of the Bertha and Karl Leubsdorf Gallery, The 205 Hudson Gallery, and The Artist's Institute are committed to a dynamic exhibition program that expands the classroom experience of undergraduate learning across the college. The Galleries are also integral to the graduate programs in Art and Art History, affording students the opportunity to work hands-on with faculty, guest curators, and gallery staff to develop exhibitions that encourage critical thinking, original research, and direct contact with both historical and contemporary art.

The **Bertha and Karl Leubsdorf Gallery** is located in the West Building of the main campus at 68th Street and Lexington Avenue and focuses on historical and scholarly exhibitions developed by faculty, students, and alumni.

The **205 Hudson Gallery** is a new street level exhibition space, housed in the Studio MFA program building in Tribeca. 205 Hudson is dedicated to engaging contemporary art through diverse exhibitions, performance events, and programming, including exhibitions of graduating MFA students.

The **Artist's Institute**, located at Casa Lally on East 65th Street, was founded in 2010 by Hunter College and curator Anthony Huberman. The Artist's Institute is an experimental platform for thinking about art in the present moment, with an annual program that is divided into two six-month seasons, each of which is dedicated to the work of a single
Located in the Silberman School of Social Work Building at 119th Street, The Hunter College East Harlem Art Gallery is a space for initiating partnerships between different departments and academic disciplines. The gallery presents exhibitions and public events that foster academic collaboration at Hunter College while addressing subjects relevant to the East Harlem community.

Incomplete Work in Course

Instructors may assign the grade IN, meaning that course work (examinations, assignments, classwork, lab work) was not completed. For an IN grade to be changed to a letter grade, all required coursework must be completed within one year after the IN grade is entered. If not changed to a letter grade within one year, the IN grade will become permanent. Penalties for lateness previously established for the course will remain in effect.

Students will have a maximum of one year to complete required course work, whether or not they are in attendance.

Institutional Policies

- Board of Trustees
- Bylaws of the Board of Trustees
- CUNY Policy on Academic Integrity
- CUNY Policy on Sexual Misconduct /Title IX
- Hunter College Policy on Academic Integrity
- Hunter College Smoking Policy
International Students

An international applicant for admission to Hunter College is expected to have a firm command of the English language before he/she applies. No provisional admission is offered whereby a student may come to the university and spend a semester or a year learning English at the college.

If the applicant plans to enter or remain in the U.S. on a student visa (F-1), it will be necessary to complete a Certification of Finances form and provide documented proof of financial support confirming that he or she has the funds necessary to cover all college tuition and personal expenses (approximately $43,563.70 per year). This form and documentation are required in order to obtain the I-20 Certificate of Eligibility. This procedure takes place after determination of academic eligibility and before registration for the first semester, and is carried out under the auspices of the International Students Office in the Office of Student Services.

Note: Overseas applicants who are interested in attending Hunter College are advised not to come to the U.S. on a B-2 visitor's visa. Unless prearranged through the American consul (and unless the visa is marked "prospective student"), the B-2 visitor's visa will not be changed to the F-1 student visa once the applicant enters the U.S. The I-20 form (required by the U.S. Immigration Office) is issued only to students who have been accepted as full-time matriculants.

Applicants are responsible for the payment of all tuition fees at the time of registration. International students must be in a position to finance the cost of their education and living expenses as college-based financial assistance is not available.

Hunter College does not make housing arrangements for students; it is essential that students be prepared to make their own housing arrangements before arrival.

Note: Academic credentials from non-U.S. institutions are evaluated by the Office of Graduate Admissions in order to establish U.S. baccalaureate degree equivalency. Applicants need not submit third party equivalencies; however, they must submit official English translations of academic records written in languages other than English. The evaluation is conducted in accordance with minimum criteria set by the Hunter College Senate, and it takes place before the completed application is referred to the departmental admissions committee.

*Minimum satisfactory score on the TOEFL is 550-575 on the paper based test or 213-233 on the computer administered test or 60-68 (less speaking component) on the TOEFL IBT, depending upon the curriculum.

International Students Office

Rooms 1109/1133 Hunter East Building
(212) 772-4864
E-mail: intlss@hunter.cuny.edu
Website: http://www.hunter.cuny.edu/studentservices/is

The International Students Office (ISO) provides vital immigration-related information to international students, including F-1 and J-1 Exchange Visitor status or visa holders, including Fulbright students sponsored by the Institute of International Education; other students with questions about their statuses to assist them in learning advocacy and status maintenance skills. The ISO also advises faculty/staff on matters of F-1/J-1 employment eligibility, etc. The ISO refers all undergraduate international students to Academic Advising Services and graduate international students to their respective departments for educational planning for timely graduation from Hunter College.
The ISO is an important source of information regarding immigration matters, such as the requirements for compliance with the Student Exchange and Visitors Information System (SEVIS) and the US Department of State. The ISO offers opportunities for off-campus cross-cultural engagement. The ISO issues SEVIS I-20/DS2019 forms to all newly admitted international students. It is also a strong liaison between the students and various offices within and off campus to help make the students’ transition to Hunter College easier. It also provides individualized advising and holds small group discussions throughout the academic year on topics of interest, such as employment options, immigration law, tax issues, and adaptation to both the United States (U.S.) educational systems and to the U.S.

For more information, visit the International Students Office’s online tutorial: http://packages.kognito.com/cuny/hunter/Builds/001/

**International Students: Criteria**

Admission of international students is based on two factors: meeting the academic criteria for admissions and English language proficiency. Although the guarantee of sufficient financial resources to meet the cost of attendance is essential to maintaining one’s respective status; it does not solely determine admissions into Hunter College. For purposes of admission, an international student is defined as an applicant who currently holds a student (F-1) or Exchange visitor (J-1) visa or seeks to change such an immigration status upon enrollment. The United States Citizenship and Immigration Services (USCIS) requires documentation of financial support before approving the issuance of a F-1 or J-1 Exchange Visitor status within the United States (if the admitted student is within the United States) and the State Department reviews financial status and substantial home ties of the applicant before issuing a visa, if the admitted student is overseas. Academic credentials from non-U.S. institutions are evaluated by the Office of Graduate Admissions in order to establish U.S. baccalaureate degree equivalency. Applicants need not submit third party equivalencies; however, they must submit official English translations of academic records written in languages other than English. The evaluation is conducted in accordance with minimum criteria set by the Hunter College Senate, and it takes place before the completed application is referred to the departmental admissions committee.

**Leaves of Absence**

Students who want a leave of absence for a specific period should apply for approval to their graduate adviser. Leaves are approved only for documented disabling illness, maternity, military service, or other unusual circumstances. Leaves may be approved up to a maximum of any two semesters (see “Readmission” in section on Admissions). Leave-of-absence forms may be obtained at http://registrar.hunter.cuny.edu ~ forms

**Limitations for Transferring Credits**

Transfer of credits is subject to the approval of the department or graduate adviser and to the regulations of the Hunter program in which the student is matriculated. The following additional limitations apply:

1. In order to be counted toward graduation, the course(s) for which transfer credit is requested must have been completed within five years prior to the awarding of the Hunter graduate degree. (A four-year restriction applies to the School of Arts and Sciences.)

2. Credits for courses in which the student earned a grade below B, or took a non-letter grade such as a pass/fail option, are not transferable.

3. A maximum of 12 credits may be transferred.

4. Courses used to satisfy entrance requirements, as well as courses used as part of a previously completed bachelor's program, may not be transferred.
Note: Grades in courses transferred from other institutions, or from a prior master’s degree program taken at Hunter College, will not be calculated into the student’s grade point average (GPA), nor will these grades be posted on the current Hunter College record.

**Lincoln Center Scholars Program**

The Lincoln Center Scholars Program for Creative Arts Education, a partnership between Lincoln Center Education and the Hunter College School of Education, provides carefully selected artists with graduate coursework, certification support, and assistance with finding jobs as certified arts teachers in New York City Schools.

**Literacy Programs**

- Literacy Education: Birth - Grade 6 - MSEd
- Literacy Education: Grades 5-12 - MSEd

**Literacy Space**

This reading lab of the Graduate Program in Literacy Education was created as a site for our practicum courses in literacy assessment and intervention. Literacy Space serves, free of charge, elementary and middle school struggling readers and writers, who are recommended to us by the local public and private schools. These children are paired with our graduate students, who are certified teachers, to begin a year-long or semester-long one-to-one intervention program. Professor Nadine Bryce serves as the coordinator of Literacy Space.

**Maintaining Matriculation**

A matriculated student who is not registered for any courses but is completing other degree requirements for graduation must complete the registration procedure by registering to maintain matriculation. A student must be registered for the semester of graduation but need not register for any semester during which no work is done toward graduation. The fee cannot be waived or refunded. Maintenance of matriculation is not proof of attendance.

**Math and Science Teacher Education Residency**

Math and Science Teacher Education Residency The Math and Science Teacher Education Residency (MASTER) program is a two-year teacher-preparation program for prospective math and science teachers that integrates graduate coursework with intensive, hands-on experiences in New York City schools. MASTER is a partnership between Hunter College, New Visions for Public Schools, the New York Hall of Science and the New York City Department of Education.

Dana Sylvan, Professor; PhD, EPFL, Switzerland; Non-stationary Processes, Quantile Inference

Robert D. Thompson, Professor; PhD, Washington; Algebraic Topology

William H. Williams, Professor; PhD, Iowa State; Sampling Theory, Time Series, Econometrics

Return to Mathematics and Statistics

Mathematics Department Description

Return to Mathematics and Statistics

The Department of Mathematics and Statistics offers a choice of master's programs. The MA in Pure Mathematics is a 30-credit degree program. The coursework largely mirrors the first two years of a doctoral program in Mathematics. Achievement of the degree includes a comprehensive examination. In addition students must show reading competency.
in a foreign language. The MA Program in Statistics and Applied Mathematics is intended for students interested in applications to business, science, engineering, industry, biology, and medicine, as well as teaching and research. This is a 30-credit degree program. There are three tracks: Statistics is Track I, Applied Mathematics is Track II, and Bioinformatics is Track III. Achievement of the degree requires a final project as well as working knowledge of two computer languages. The final projects provide the student with the opportunity to investigate a problem whose outcome is not previously known. Our faculty mentor the projects. The department also has combined BA/MA programs in Mathematics or Statistics and Applied Mathematics.

In addition, the department offers, jointly with the School of Education, an MA in Adolescent Mathematics Education Grades 7-12, and a combined BA/MA in Adolescent Mathematics Education. The MA in Mathematics Education is designed for individuals without initial certification in mathematics. Individuals who already have initial certification in mathematics should pursue either the MA in pure mathematics or the MA in statistics and applied mathematics or the new Professional Certification master's program.

Return to Mathematics and Statistics

Matriculated

For matriculation, students must fulfill all the requirements for admission.

Matriculated with conditions

Students whose undergraduate training is inadequate, but who are otherwise qualified, may be admitted with not more than 6 credits of course conditions to either the School of Arts and Sciences or to the Schools of the Health Professions, and with not more than 12 credits of course conditions to the School of Education. Such students are expected to satisfy their conditions by eliminating all deficiencies within one year of matriculation if admitted to a program in the School of Arts and Sciences and the Schools of the Health Professions, and within three semesters in the School of Education.

Note: Applicants admitted to matriculated status who wish to delay their admission to the following semester must reapply by filing a new application prior to the next semester's deadline.

Medical Laboratory Sciences Courses

Medical Laboratory Sciences

OVERVIEW

The Department of Medical Laboratory Sciences offers three graduate programs. The Advanced Certificate in Medical Technology provides an accelerated pathway for students with degrees in chemistry, biology or the physical sciences to meet NYS licensure requirements for clinical laboratory technologists. Clinical laboratory technologists perform analytical tests on patient samples and play an essential role in the diagnosis and treatment of disease. The Advanced Certificate in Cytotechnology prepares students for careers as cytotechnologists. It is offered by Hunter College in collaboration with Memorial Sloan Kettering Cancer Center. Cytotechnologists study cells from the human body to identify diseases, such as cancer, and monitor patient response to therapy. The MS in Biomedical Laboratory Management is intended to provide knowledge and skills needed by clinical laboratory technologists, research assistants and other types of laboratory professionals to transition into managerial positions. This program is offered as
a collaboration between the Hunter College Dept. of Medical Laboratory Sciences and the School of Professional Studies, CUNY.

**What can I do with my degree in Medical Laboratory Sciences?**

The Advanced Certificate in Medical Technology enables students to become NYS licensed clinical laboratory technologists. Clinical laboratory technologists are highly trained professionals that work in a wide range of health related laboratories including hospital and private diagnostic labs. A license is required to work as a clinical laboratory technologist in NYS.

The Advanced Certificate in Cytotechnology is a professionally accredited and NYS licensure qualifying program that prepares graduates for the professional practice of cytotechnology. Graduates work in hospital and private diagnostic laboratories.

The MS in Biomedical Laboratory Management is intended to provide working laboratory professionals with the knowledge and skills to enter positions of leadership in clinical/diagnostic, research, biotechnology, public health and pharmaceutical laboratories. This program is not NYS licensure qualifying for clinical laboratory technologists.

**Faculty**
Biomedical Laboratory Management-MS

The MS in Biomedical Laboratory Management (BLM) is a collaborative offering of the Medical Laboratory Sciences (MLS) Department of Hunter College and the School of Professional Studies, CUNY (SPS/CUNY). The purpose of this degree is to provide a career ladder for laboratory staff. Its focus is the knowledge and skills needed for clinical technologists, research assistants and other technical professionals in biomedical laboratories to move into positions of leadership. This degree does not provide NYS clinical licensure. Full details can be found at MS in Biomedical Laboratory Management (BLM).

Admission Requirements

See general graduate admission requirements for Hunter programs.

You must meet the following minimum requirements in order to be considered for admission. Meeting these minimum requirements does not guarantee acceptance to the program.

• A bachelor's degree in clinical lab science, biology, chemistry or a related discipline from a regionally accredited institution comparable in standard and content to a bachelor's degree from Hunter College.

• Minimum undergraduate grade point average of 3.0

• A course (or equivalent experience) in Molecular Biology (pre- or co-requisite)

• A minimum of one year of bench experience in a biomedical laboratory

• Two letters of recommendation from appropriate academic or professional references.

• A statement of purpose of approximately 500 words, including a bit about the path that brought you to this degree, and your motivation to pursue opportunities for a position in laboratory management.

• The GRE is not required for admission.

• Applicants whose native language is not English and who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit scores on the Test of English as a Foreign Language (TOEFL). The following minimum scores must be obtained:

  • Paper Based Test: 550

  • Computer Administered Test: 213

  • Internet Based Test: 60 (less speaking component)

Curriculum

The required 30 credits are divided between Hunter College, offering science and biomedicine classes, and the School of Professional Studies, CUNY, offering business and management classes. The MS degree will be granted by Hunter College following transfer of courses making up the Advanced Certificate in Management from SPS/CUNY.

Required courses from Hunter College are:
Cytotechnology: Advanced Certificate

Cytotechnology is an allied health profession that specializes in the study of cells from the human body. Working with a microscope and a variety of technologies, some of which are automation-assisted, cytotechnologists evaluate cell samples from gynecologic (e.g., Pap smears), nongynecologic and fine needle aspiration (FNA) specimens to detect cancer, precancerous lesions, benign tumors, and infectious processes. Cytotechnologists are trained laboratory professionals who help to save lives by identifying diseases early on and monitoring a patient's response to therapy.

The Hunter College Advanced Certificate (AC) in Cytotechnology prepares graduates for the professional practice of cytotechnology. It is an intense three-semester (Fall/Spring/Summer) training program that is administered in collaboration with Memorial Sloan Kettering Cancer Center (MSK). All training takes place in the laboratory facility of the MSK Cytology Service.

Program

The AC in Cytotechnology is a 26-credit graduate level post-baccalaureate certificate program within the Medical Laboratory Sciences (MLS) Department of Hunter College. It is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and is New York State (NYS) licensure qualifying. Upon successful completion of the AC, students will be eligible to sit for the national certification examination given by the American Society for Clinical Pathology Board of Certification. This examination is approved for NYS licensure purposes. Successful completion of the examination indicates attainment of entry level competency in the profession. Certified individuals are recognized with the designation CT(ASCP) – certified cytotechnologist.

Admission criteria
Admission criteria are designed to satisfy the requirements for cytotechnology curricula as described in Article 165, Section 52.39 of the Clinical Laboratory Technology Practice Act (http://www.op.nysed.gov/prof/clt/part52-39.htm). They consist of a baccalaureate or higher degree in the major of medical laboratory sciences, biology, chemistry or the physical sciences with the following pre-requisite courses or their equivalent as determined by the program: inorganic chemistry, organic chemistry, anatomy & physiology, cell biology, mathematics and statistics, human genetics, immunology and clinical microbiology. Minimum GPA of 3.0/4.0. The program does not grant credit for advanced placement courses or experiential learning. Visit Hunter College AC in Cytotechnology overview for additional important information prior to application.

NYS Licensure Curricular Requirements for Registered Cytotechnology Programs

The curriculum for the AC in cytotechnology was developed to meet the coursework and curricular content stipulated in NYS regulations, Section 52.39: Registration of Curricula for programs seeking registration as a cytotechnology licensure-qualifying program. It contains didactic and clinical training as well as supervised clinical experience within the MSKCC Cytology laboratory throughout the span of the three semester program.

Cytotech courses

**MLS 63000 - Introduction to Cytopathology**

Students will be introduced to the discipline of cytopathology including historical perspective, established terminology, basic cell structure and cell biology and concepts of cellular response to injury and neoplasia. The applicability of immunochemistry, cytogenetics and other molecular studies to cytology specimens will also be discussed.

*prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.*
*Hours 1 hr*
*Credits 1 cr.*
*fall only*

**MLS 63200 - Gynecologic Cytopathology**

Students will be introduced to the cytopathology of infectious, inflammatory, premalignant, and malignant pathologic processes of the female genital tract. They will learn how to identify benign and abnormal cytologic findings in gynecologic specimens and formulate preliminary and differential diagnoses.

*prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.*
*coreq: MLS 63000*
*Hours 4 hrs*
*Credits 4 cr.*
*fall only*

**MLS 63500 - Microscopic Evaluation 1**

This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance. (limited to gynecologic, respiratory and gastrointestinal
specimens)

coreq: MLS 63000, MLS 63200 and MLS 64000
Hours 2 hrs
Credits 2 cr.
fall only

**MLS 63600 - Microscopic Evaluation 2**

This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance.

*prereq: MLS 63500; enrollment in the AC Cytotechnology Program or departmental permission required.  
coreq: MLS 64100, MLS 65000 & MLS 65100*

**MLS 63700 - Microscopic Evaluation 3**

An extension of MLS 63500 and MLS 63600. Students continue to apply acquired didactic material in a supervised clinical practice setting acquiring speed and proficiency in cytologic screening. This course also allows students to gain experience in fine needle aspiration specimen adequacy assessment and specimen triage for ancillary studies. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance.

*prereq: MLS 63600; enrollment in the AC Cytotechnology Program or departmental permission required.  
Hours 4 hrs  
Credits 2 cr.  
spring only*

**MLS 64000 - Exfoliative Cytopathology 1**

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections, inflammation and benign and malignant neoplasms) of the respiratory and gastrointestinal tracts. Students will learn how to assess respiratory and gastrointestinal specimens for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

*prereq: enrollment in the AC Cytotechnology Program or departmental permission required.  
coreq: MLS 63000*

**MLS 64100 - Exfoliative Cytopathology 2**
Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections, inflammation and benign and malignant neoplasms) of the urinary tract, body cavities and central nervous system. Students will learn how to assess specimens from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

**prereq:** MLS 64000; enrollment in the AC Cytotechnology Program or departmental permission required.

**Hours** 2 hrs

**Credits** 2 cr.

**spring only**

**MLS 64400 - Research Methods 1**

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

**prereq:** enrollment in the AC Cytotechnology Program or departmental permission required.

**coreq:** MLS 63000, MLS 63200 and MLS 64000

**Hours** 1 hr

**Credits** 1 cr.

**fall only**

**MLS 64500 - Research Methods 2**

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

**prereq:** MLS 64400; enrollment in the AC Cytotechnology Program or departmental permission required.

**coreq:** MLS 64100, MLS 65000, MLS 65100

**Hours** 1

**Credits** 1 cr.

**spring only**

**MLS 64600 - Research Methods 3**

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

**prereq:** MLS 64500; enrollment in the AC Cytotechnology Program or departmental permission required.

**Hours** 2 hrs

**Credits** 1 cr.

**8-week summer session I**

**MLS 64700 - Cytopreparatory Techniques 1**

Provides instruction and hands-on experience in the basic principles of cytopreparation and applicable quality assurance and quality control activities. Students learn established cytopreparatory techniques, such as smear preparation cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.
prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 630
Hours 1 hr
Credits 1 cr.
fall only

**MLS 64800 - Cytopreparatory Techniques 2**

A continuation of MLS 64700; provides more in depth instruction in laboratory safety and additional hands-on experience in cytopreparation. Students learn established cytopreparatory techniques such as smear preparation, cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

prereq: MLS 64700; enrollment in the AC Cytotechnology Program or instructor permission required.
Hours 1 hr
Credits 1 cr.

**MLS 64900 - Cytopreparatory Techniques 3**

A continuation of MLS 64700 and MLS 64800; provides more hands-on experience in cytopreparation. Students apply principles of established cytopreparatory techniques and quality control under the supervision of licensed clinical personnel.

prereq: MLS 64800; enrollment in the AC Cytotechnology Program or instructor permission required.
Hours 2 hrs
Credits 1 cr.
8-week summer session I

**MLS 65000 - Fine Needle Aspiration Cytology 1**

Provides instruction in the principles of fine needle aspiration cytopathology of the lung, mediastinum, breast, thyroid, salivary gland and lymph nodes. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required
Hours 2 hrs
Credits 2 cr.
spring only

**MLS 65100 - Fine Needle Aspiration Cytology 2**

Provides instruction in the principles of fine needle aspiration cytopathology of the liver, pancreas, kidney, adrenal glands, retroperitoneum, bone and soft tissue. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.
Hours 2 hrs
Credits 2 cr.
spring only
MLS 65200 - Cytology Laboratory Management and Operations

Provides instruction in the management principles of a cytology laboratory including regulatory requirements, laboratory safety, quality management, quality assurance, quality control and equipment maintenance.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.

Hours 2 hrs
Credits 1 cr.
8-week summer session I

CAAHEP Accreditation Curriculum Requirements and Cytotechnologist Entry-Level Competencies

The AC in cytotechnology curriculum is also designed to meet CAAHEP accreditation standards which mandate that a program's curriculum in cytotechnology is robust enough to prepare students to meet defined entry-level competencies. These competencies are developed by the Cytotechnology Programs Review Committee (CPRC), the cytotechnology accreditation arm for CAAHEP, with input from communities of interest that have a stake in the cytotechnology profession. They represent minimum competencies that cytotechnology graduates must be able to demonstrate upon entering the profession. These entry-level competencies are reviewed on a periodic basis by the CPRC and with input from communities of interest to ensure that they reflect the current practice of cytotechnology. The AC in cytotechnology curriculum meets accreditation entry-level competencies and will be reviewed periodically to ensure that these accreditation standards are met when entry-level competency revisions are made by the CPRC/CAAHEP.

CAAHEP accreditation also requires that programs must ensure that students have a minimum of 28 credits of sciences including chemistry and the biological sciences and 3 credits of mathematics and/or statistics upon graduation from a cytotechnology program. These requirements will be satisfied either within the AC program or as prerequisite coursework prior to admission to the AC program.

Medical Laboratory Technology: Advanced Certificate

Program

The Post-baccalaureate Certificate in Medical Technology 15-credit course of study was developed within the Medical Laboratory Sciences (MLS) Department to help meet the increasing demand for qualified, licensed medical technologists. It provides an opportunity for students with degrees in chemistry, biology, or the physical sciences to meet licensing standards without having to acquire a second baccalaureate degree. An accelerated path, this program can be completed in 12-13 months, and, if followed by successful completion of the licensure examination, allows immediate entry to the profession. Visit the program website for crucial information prior to application.

Admission Requirements

- A baccalaureate degree in the biological, chemical, or physical sciences.
- Completion of certain pre-requisite courses: general biology (or anatomy and physiology), general chemistry
- Achievement of a minimum GPA of 3.0 in the degree and the pre-requisite courses
Requirements for the Certificate

Admission to and completion of the AC is a competitive and demanding process. Students enrolled in the certificate program take MLS 60000 in Summer Session I. Upon successful completion they are assigned to a clinical affiliate beginning on August 1st for 10 months of full time clinical training divided into 2-month rotations. The curriculum is as follows:

Required Courses

**MLS 60000 - Fundamental Concepts and Techniques in the Medical Laboratory**

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment. Mastery of additional content and an independent project are required of graduate students.  
*This course is cross-listed with MLS 30000.*

*prereq: BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv. and admission to the post-baccalaureate certificate program in Medical Laboratory Technology*

*Hours 3 (2 lecture, 1 lab)*

*Credits 3*

**MLS 61000 - Clinical Practicum in Medical Laboratory Technology I**

This course (and MLS 62000) comprise the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology.

*prereq: Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology*

*Credits 6*

**MLS 62000 - Clinical Practicum in Medical Laboratory Technology II**

This course (with MLS 61000) provides training in the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology.

*prereq: Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology*

*Credits 6*

   Medical Laboratory Sciences
Medical Laboratory Sciences

MLS 70000 - Concepts of Disease: Diagnostic Strategies

This course will explore newly described and established disease syndromes from the perspective of strategizing for effective laboratory diagnosis and management. Broad strategies such as classical biochemistry and cultivation, immunochemical, molecular or histochemical techniques are compared using original literature. Upon completion, students will be able to design a rational and cost effective laboratory strategy based on fundamental science; skills will also have application to biomedical laboratory research, assisting in the development of protocols for fundable projects.

Hours 3
Credits 3

MLS 70100 - Emerging Laboratory Technologies

Developed as a complement to MLS 70000, this course explores new technologies in the biomedical laboratory. Such areas as genomics, proteomics, immunohistochemistry and cytogenetics have been developed recently and may not have been covered in the student's previous scientific education. Students completing this course will have the skills to perform and/or supervise a wide range of analyses, and as managers they will be able to evaluate complex technologies for adoption.

Hours 3
Credits 3

MLS 71000 - Management Practicum

Students will be employed in laboratory sites in hospital and proprietary clinical laboratories, research institutions, and academic laboratories to gain experience as management interns. Schedules will be arranged to meet the needs of students and sites, and a minimum of 150 hours will be required. A site-based mentor will support design and implementation of the project. Students will prepare an extensive project report in print and presentation format. Students completing this capstone course will be able to apply for positions in an area of biomedical laboratory management that reflects their unique combination of technical and management expertise.

Hours 3
Credits 3

MLS 72000 - Risk Management for the Biomedical Laboratory

The biomedical lab must manage risk from diverse origins, including lab/medical hazards, government oversight, and fiscal sources similar to any business entity. This case based course will explore each of these with model interventions.

prereq: Department Permission
Hours 3
Credits 3

MLS 77000 - Graduate Independent Study
Students with a background or strong interest in working in biomedical research labs will gain experience by participating in the ongoing projects of MLS faculty. A minimum 2-semester commitment, and significant weekly hours will be expected, with accountability to research mentor and academic director.

**prereq:** Department Permission  
**Hours** 3  
**Credits** 3

**MLS 77025 - Topics: Biohazards and Emergency Response**

The biology of microorganisms and toxins most frequently considered in perpetrated terrorist attacks. It also considers technology for detection and control for first responders, lab practitioners and other healthcare professionals, as well as emergency communication and prevention. In addition to regular classroom instruction, students participate in group projects to simulate bioterrorism events and responses. Government regulation, chain of evidence and related topics are covered in this course.

**prereq:** Departmental permission  
**Hours** 3 hrs.  
**Credits** 3 cr.

**Cytotechnology**

**MLS 63000 - Introduction to Cytopathology**

Students will be introduced to the discipline of cytopathology including historical perspective, established terminology, basic cell structure and cell biology and concepts of cellular response to injury and neoplasia. The applicability of immunochemistry, cytogenetics and other molecular studies to cytology specimens will also be discussed.

**prereq:** Enrollment in the AC Cytotechnology Program or departmental permission required.  
**Hours** 1 hr  
**Credits** 1 cr.  
**fall only**

**MLS 63200 - Gynecologic Cytopathology**

Students will be introduced to the cytopathology of infectious, inflammatory, premalignant, and malignant pathologic processes of the female genital tract. They will learn how to identify benign and abnormal cytologic findings in gynecologic specimens and formulate preliminary and differential diagnoses.

**prereq:** Enrollment in the AC Cytotechnology Program or departmental permission required.  
**coreq:** MLS 63000  
**Hours** 4 hrs  
**Credits** 4 cr.  
**fall only**

**MLS 63500 - Microscopic Evaluation 1**

This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical
information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using
an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and
provide immediate feedback regarding performance. (limited to gynecologic, respiratory and gastrointestinal
specimens)

coreq: MLS 63000, MLS 63200 and MLS 64000
Hours 2 hrs
Credits 2 cr.
fall only

**MLS 63600 - Microscopic Evaluation 2**

This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are
assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings
most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical
information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using
an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and
provide immediate feedback regarding performance.

prereq: MLS 63500; enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 64100, MLS 65000 & MLS 65100
Hours 2 hrs
Credits 2 cr.
spring only

**MLS 63700 - Microscopic Evaluation 3**

An extension of MLS 63500 and MLS 63600. Students continue to apply acquired didactic material in a supervised
clinical practice setting acquiring speed and proficiency in cytologic screening. This course also allows students to gain
experience in fine needle aspiration specimen adequacy assessment and specimen triage for ancillary studies. Students
are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding
performance.

prereq: MLS 63600; enrollment in the AC Cytotechnology Program or departmental permission required.
Hours 4 hrs
Credits 2 cr.
8-week summer session I

**MLS 64000 - Exfoliative Cytopathology 1**

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy,
embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections,
inflammation and benign and malignant neoplasms) of the respiratory and gastrointestinal tracts. Students will learn
how to assess respiratory and gastrointestinal specimens for benign and abnormal cytologic findings and formulate
preliminary and differential diagnoses.

prereq: enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 63000
Hours 2
Credits 2 cr.
fall only
MLS 64100 - Exfoliative Cytopathology 2

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections, inflammation and benign and malignant neoplasms) of the urinary tract, body cavities and central nervous system. Students will learn how to assess specimens from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: MLS 64000; enrollment in the AC Cytotechnology Program or departmental permission required.  
Hours 2 hrs  
Credits 2 cr.  
spring only

MLS 64400 - Research Methods 1

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

prereq: enrollment in the AC Cytotechnology Program or departmental permission required.  
coreq: MLS 63000, MLS 63200 and MLS 64000  
Hours 1 hr  
Credits 1 cr.  
fall only

MLS 64500 - Research Methods 2

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

prereq: MLS 64400; enrollment in the AC Cytotechnology Program or departmental permission required.  
coreq: MLS 64100, MLS 65000, MLS 65100  
Hours 1  
Credits 1 cr.  
spring only

MLS 64600 - Research Methods 3

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

prereq: MLS 64500; enrollment in the AC Cytotechnology Program or departmental permission required.  
Hours 2 hrs  
Credits 1 cr.  
8-week summer session 1

MLS 64700 - Cytopreparatory Techniques 1
Provides instruction and hands-on experience in the basic principles of cytopreparation and applicable quality assurance and quality control activities. Students learn established cytopreparatory techniques, such as smear preparation cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

**prereq:** Enrollment in the AC Cytotechnology Program or departmental permission required.
**coreq:** MLS 630
**Hours** 1 hr
**Credits** 1 cr.
**fall only**

**MLS 64800 - Cytopreparatory Techniques 2**

A continuation of MLS 64700; provides more in depth instruction in laboratory safety and additional hands-on experience in cytopreparation. Students learn established cytopreparatory techniques such as smear preparation cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

**prereq:** MLS 64700; enrollment in the AC Cytotechnology Program or instructor permission required.
**Hours** 1 hr
**Credits** 1 cr.

**MLS 64900 - Cytopreparatory Techniques 3**

A continuation of MLS 64700 and MLS 64800; provides more hands-on experience in cytopreparation. Students apply principles of established cytopreparatory techniques and quality control under the supervision of licensed clinical personnel.

**prereq:** MLS 64800; enrollment in the AC Cytotechnology Program or instructor permission required.
**Hours** 2 hrs
**Credits** 1 cr.
**8-week summer session I**

**MLS 65000 - Fine Needle Aspiration Cytology 1**

Provides instruction in the principles of fine needle aspiration cytopathology of the lung, mediastinum, breast, thyroid, salivary gland and lymph nodes. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

**prereq:** Enrollment in the AC Cytotechnology Program or departmental permission required
**Hours** 2 hrs
**Credits** 2 cr.
**spring only**

**MLS 65100 - Fine Needle Aspiration Cytology 2**

Provides instruction in the principles of fine needle aspiration cytopathology of the liver, pancreas, kidney, adrenal glands, retroperitoneum, bone and soft tissue. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

**prereq:** Enrollment in the AC Cytotechnology Program or departmental permission required.
**Hours** 2 hrs
MLS 65200 - Cytology Laboratory Management and Operations

Provides instruction in the management principles of a cytology laboratory including regulatory requirements, laboratory safety, quality management, quality assurance, quality control and equipment maintenance.

Prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.

Hours 2 hrs
Credits 1 cr.
8-week summer session I

Medical Laboratory Sciences Faculty

Steven Einheber, Associate Professor and Chair, Medical Laboratory Sciences: BS George Washington; PhD Cornell

Chad Euler, Assistant Professor, Medical Laboratory Sciences: BS Vermont, PhD Rockefeller

Muktar Mahajan, Doctoral Lecturer, Medical Laboratory Sciences: MS University of Kashmir, India, PhD Indian Institute of Science

Shahana Mahajan, Associate Professor, Medical Laboratory Sciences: MS University of Hyderabad, India; PhD Indian Institute of Science

Robert Raffaniello, Associate Professor, Medical Laboratory Sciences; BS College of Staten Island; MS LIU; PhD NYU

Abigail Rodriguez Morales, Assistant Professor, Medical Laboratory Sciences; BA New York University; PhD Washington University in St. Louis

Minimum GPA for Graduation

Students will not qualify for a graduate degree, diploma or certificate unless, by the time of graduation, they achieve a cumulative GPA of 3.0 (B) in all graduate work taken at Hunter College.

Minimum GPA for Retention

Both degree and non-degree graduate students must maintain a minimum cumulative GPA of 3.0 to remain at Hunter College. Students whose grades fall below this standard are required to raise their GPAs to at least 3.0 within one semester. After the posting of grades, the Office of the Registrar will notify graduate advisors of students whose GPA has fallen below 3.0. Those students will receive warning indicating that they have one probationary semester in which to raise their GPAs. Students who fail to raise their GPAs sufficiently will be dropped from their programs. Probations and Dismissals are assessed at the end of each fall and spring semester.

Appeals Procedure for Students on Probation

1. Student appeals must be made in writing to the dean of the appropriate school. Appeals must be received no later than the first day of classes of the following semester.
2. Upon receipt of this written letter of appeal, the dean will convene a probation appeals committee composed of representatives from the graduate programs in the appropriate school, to include the graduate adviser from the appropriate program or a comparable program representative.
3. The probation appeals committee will meet to review each case and produce a written report stating the grounds for its final decision. Copies of this report shall be sent to the student, to the dean, and to the student's file. The decision of this committee is final. If the appeal is successful, the committee shall send official notification to the registrar that the student will be retained on probation and allowed to register. Student appeals received by the first day of classes are handled with dispatch so the student may register within the period of late registration without payment of the late registration fee.

## Music Faculty

Return to Music Department

**Victor Bobetsky**, Professor; DMA, University of Miami; Music Education

**Geoffrey Burleson**, Professor; DMA, Stony Brook; Performance

**L. Poundie Burstein**, Professor; PhD, CUNY; Music Theory

**Michele Cabrini**, Associate Professor; PhD Princeton; Music History

**Catherine Coppola**, Lecturer; PhD, CUNY; Music History

**Philip Ewell**, Associate Professor; PhD, Yale; Music Theory

**Suzanne Farrin**, Professor and Chair, Music; DMA Yale; Music Composition

**David Fulmer**, Assistant Professor, DMA Juilliard, Orchestral Studies

**Susan Gonzalez**, Professor; DMA, Eastman School of Music; Performance

**Barbara L. Hampton**, Professor; PhD, Columbia; Ethnomusicology

**Ashley Jackson**, Assistant Professor; DMA The Juilliard School, Music History

**Ryan Keberle**, Lecturer; Artist Diploma, Juilliard; Jazz Studies

**João Luiz**, Assistant Professor, DMA Manhattan School of Music, Performance

**Shafer Mahoney**, Associate Professor; PhD, Eastman School of Music; Composition

**Paul F. Mueller**, Professor; DMA, Indiana; Performance

**Mark Spicer**, Professor; PhD, Yale; Music Theory

**Jewel Thompson**, Professor; PhD, Eastman School of Music; Music Theory

## New Visions-Hunter College Charter Residency Program
The New Visions-Hunter College Charter residency is a 24-month teacher preparation residency program to prepare adolescent Special Education teachers to work in the New Visions Charter High Schools network.

New York City Teaching Fellows

The New York City Teaching Fellows (NYCTF) is a collaborative program among the NYC Department of Education, CUNY, SUNY, and certain private universities in New York City. Currently as a partner university, Hunter College hosts candidates in Special Education, TESOL, and Bilingual Education.

New York State Certification

The graduate education programs (unless otherwise indicated) have been approved by the New York State Education Department (NYSED) to lead to initial and professional certification for teaching in New York State. To be recommended for certification the student must complete the approved program of study and apply on-line for certification. Instructions for applying for certification are available on the School of Education website under Certification.

Students must pass the required New York State Teacher Certification Examinations (NYSTCE) in order to be granted certification by the state. The New York State Education Department (NYSED) requires applicants to pass the following examinations: The Teacher Performance Assessment (edTPA); the Educating All Students Test (EAS) and the appropriate Content Specialty Test (CST) for their certificate. Consult the School of Education website as well as the www.nystce.nesinc.com website for information about these tests and when they are offered.

Students must officially graduate from one of our approved preparation programs in order to receive institutional recommendation for NYS Teacher Certification.

New York State certification is reciprocally accepted by many other states upon application, although other states do not accept the NYSTCE. Students with questions about certification should contact the Certification Office at tcert@hunter.cuny.edu.

Nonmatriculated

A formal application must be filed in the Office of Admissions, Room 203 HN, 695 Park Avenue, New York, NY 10065, approximately two months before registration. The undergraduate degree must be equivalent to at least a U.S. bachelor's degree. If the application and supporting material are acceptable, registration material will be sent with further instructions. Applicants should present a student copy of their undergraduate transcripts as well as a copy of the undergraduate catalog(s) to the departmental adviser in order to obtain course approval. The nonmatriculation application fee of $75.00 will be charged when the student registers. Acceptance to nonmatriculated status does not imply approval to take a specific course. This approval rests solely with the graduate program adviser involved. Students should consult the graduate program adviser in the appropriate department for specific information. To be considered for possible matriculation, a nonmatriculated student must have earned grades of B or better for the course credits taken. For most programs in education, 9 credits must be presented with a minimum grade point average of 3.0. This requirement is in addition to the college and program admission requirements for matriculation. A separate application for matriculated status must be completed and can be filed while the nonmatriculated courses are in progress. The application for matriculated status must be filed by the appropriate deadline for the individual program desired. Consult the Application for Graduate Degree Programs for specific dates. A nonmatriculated student may be limited to 12 credits (check with departmental adviser). A minimum grade point average of 3.0 must be maintained. Registration as a nonmatriculant does not entitle an international student to an I-20 AB (Certificate of Eligibility).
Notice of Access to Campus Crime Statistics, the Campus Security Report and Information on Registered Sex Offenders

The college Advisory Committee on Campus Safety will provide upon request all campus crime statistics as reported to the U.S. Department of Education, as well as the annual campus security report. The campus security report includes:

1. the campus crime statistics for the most recent calendar year and the two preceding calendar years;
2. campus policies regarding procedures and facilities to report criminal actions or other emergencies on campus;
3. policies concerning the security of and access to campus facilities;
4. policies on campus law enforcement;
5. a description of campus programs to inform students and employees about campus security procedures and practices and to encourage students and employees to be responsible for their own security and the security of others;
6. campus crime prevention programs;
7. policy concerning the monitoring through the police of criminal activity at off campus locations of students organizations officially recognized by the college;
8. policies on illegal drugs, alcohol and underage drinking;
9. where information provided by the State on registered sex offenders may be obtained (also see below); and
10. policies on campus sexual assault programs aimed at the prevention of sex offenses and procedures to be followed when a sex offense occurs. This information is maintained pursuant to the federal Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.

The campus crime statistics and the annual campus security report are available at the Public Safety Office - West Building, B122 and the college Web site at http://publicsafety.hunter.cuny.edu/subpages/annualcrimereport.shtml. If you wish pick up copies of the campus crime statistics and the annual campus security report, you should contact Joseph D. Foelsch, Jr., Director of Public Safety and Security at (212) 772-4521. Copies are available at the Main Campus, West Building, B-122. The U.S. Department of Education's Web site address for campus crime statistics is http://ope.ed.gov/campussafety/#institution/search CUNY Hunter College, New York City, New York, the "Continue".

In accordance with the federal Campus Sex Crimes Prevention Act, registered sex offenders now are required to register the name and address of any college at which he or she is a student or employee. The New York State Division of Criminal Justice maintains a registry of convicted sex offenders and informs the college's chief security (public safety) officer of the presence on campus of a registered sex offender as a student or employee. You may contact the college's chief security officer, Joseph D. Foelsch, Jr., Director of Public Safety and Security, B122 West, (212) 772-4521 to obtain information about Level 2 or Level 3 registered sex offenders on campus. To obtain information about Level 3 offenders, you may contact the Division's registry Web site at http://criminaljustice.ny.gov/nsor/ and then click on "Search for Level 3 Sex Offenders" or access the directory at the college's public safety department or police precinct. To obtain information about Level 2 offenders, you need to contact the public safety department, local police precinct in which the offender resides or attends college, or the Division's sex offender registry at 800-262-3257.
Notice of Non-Discrimination

It is the policy of The City University of New York—applicable to all colleges and units—to recruit, employ, retain, promote, and provide benefits to employees and to admit and provide services for students without discriminating on the basis of actual or perceived race, color, creed, national origin, ethnicity, ancestry, religion, age, sex, sexual orientation, gender, gender identity, marital status, partnership status, disability, genetic information, alienage, citizenship, military or veteran status, pregnancy, status as a victim of domestic violence/stalking/sex offenses, unemployment status, caregiver or familial status, prior record of arrest or conviction, or any other legally prohibited basis in accordance with federal, state and city laws. This policy is set forth in CUNY's Policy on Equal Opportunity and Non-Discrimination.

CUNY's Policy on Sexual Misconduct prohibits all forms of sexual misconduct, including sexual harassment, gender harassment and sexual violence. Inquiries concerning sexual misconduct or sex discrimination may be made to the individuals specified in that Policy or may be referred to the U.S. Department of Education, Office for Civil Rights.

It is also the University's policy to provide reasonable accommodations and academic adjustments, when appropriate, to individuals with disabilities, individuals observing religious practices, individuals who have pregnancy or childbirth-related medical conditions and victims of domestic violence/stalking/sex offenses. The process for addressing these issues is set forth in CUNY's Procedures for Implementing Reasonable Accommodations and Academic Adjustments.

Retaliation for reporting or opposing discrimination, cooperating with an investigation of a discrimination complaint, or requesting an accommodation or academic adjustment is also prohibited.

To access CUNY's Policy and Procedures on Equal Opportunity and Non-Discrimination, Policy on Sexual Misconduct, and Procedures for Implementing Reasonable Accommodations and Academic Adjustments, please visit these links:

http://www2.cuny.edu/about/administration/offices/legal-affairs/policies-procedures/reasonable-accommodations-and-academic-adjustments/

The following persons have been designated at Hunter College to handle inquiries and complaints relating to CUNY's Policy on Equal Opportunity and Non-Discrimination and Policy on Sexual Misconduct and to ensure compliance with CUNY's Procedures for Implementing Reasonable Accommodations and Academic Adjustments:

John T. Rose
Dean for Diversity and Compliance, Title IX Coordinator
E1706
(212) 772-4242
John.Rose@hunter.cuny.edu

Colleen Barry
Associate Director of Student Conduct, Deputy Title IX Coordinator
E1103
(212) 772-4534
Colleen.Barry@hunter.cuny.edu

Michelle Blackman
The following federal, state, and local agencies enforce laws against discrimination:

New York City Commission on Human Rights
http://www1.nyc.gov/site/cchr/index.page

New York State Division on Human Rights
http://www.dhr.ny.gov

U.S. Equal Employment Opportunity Commission
http://www.eeoc.gov

United States Department of Justice
http://www.justice.gov/

United States Department of Education, Office for Civil Rights
http://www2.ed.gov/ocr

Notification

This catalog is published every three years, and some of the material may become outdated. For updated information, please contact the Office of the Registrar or the specific school or department of interest.

NYC Teaching Collaborative

The New York City Teaching Collaborative is an alternative certification program leading to New York State teacher certification. The Teaching Collaborative is offered in partnership with the New York City Department of Education. Participants, or Partner Teachers, spend a full spring semester as an apprentice in a high-need NYC public school before becoming a full-time teacher. During this apprentice semester, Partner Teachers are supervised, mentored, and coached by Collaborative Coaches, who are experienced classroom teachers. Partner Teacher enroll in a master's program and receive continuous supervision and professional development through Hunter and the Teaching Collaborative program. Tuition costs are subsidized at approximately 50% by the NYCDOE and students are not responsible for any tuition payments until they begin teaching full-time and earning a full-time teacher's salary. Upon successful completion of the program, students earn a master's degree and are eligible for New York State initial teacher certification.

Office of AccessABILITY (for students with disabilities)
In compliance with the Americans with Disabilities Act of 1990 (ADA) and Section 504 of the Rehabilitation Act of 1975, the Office of AccessABILITY ensures the availability of a variety of accommodations and services for students with documented disabilities or medical conditions who are currently registered at Hunter College. Disabilities include (but may not be limited to):

- Medical and psychological conditions, learning disabilities, deafness and hard of hearing, visual impairment, mobility impairment and other conditions that cause you to have mobility difficulties or result in your using a cane or wheelchair.
- Assistance to students with temporary disabilities due to an accident or short-term health conditions is also available. To be eligible for reasonable accommodations, it is necessary for students to provide a written statement with supporting documentation of a disability from a "qualified professional" (physician, psychiatrist, psychologist, or clinical social worker).

Under the auspices of the Office of AccessABILITY, the Access and Technology Center, Room 205 Thomas Hunter Hall, is a resource facility for students with disabilities. The center houses equipment with adaptive software and hardware technologies.

For more information, please call (212) 772-4857/VP (646) 755-3129 or go to our Web site.

The Section 504 Coordinator at Hunter College, Professor Jennifer Samson, is responsible for enforcement of the provisions of Section 504. She may be contacted in 915 Hunter West, (212) 772-4663. There is a 504 Grievance Procedure for students with disabilities at Hunter College. Students may obtain the necessary form, which contains instructions for filing, from the Office of Student Services in Room 1119 Hunter East. Students with disabilities at the School of Social Work may contact the director of admissions at (212) 396-7574 for assistance.

**Office of Financial Aid**

The Office of Financial Aid helps graduate students with securing funds to meet their educational expenses through a variety of programs, including student loans, Federal Work Study, and grants. The college participates in both Title IV federal financial aid and New York State financial aid programs. Federal Student Aid (FSA) programs include the Federal Direct Loan program, the Federal Perkins Loan program and Federal Work-Study program. The New York State aid programs include New York State Scholarships. For information on other scholarships and grants, students may log on to the financial aid website for outside scholarship information. For information on graduate assistantships and fellowships students may contact their departmental adviser. The Office of Financial Aid is located in 241 North Building.

Students are encouraged to refer frequently to the Hunter College Office of Financial Aid website at www.hunter.cuny.edu/onestop/finances/financial-aid as an information resource.

**Office of the Provost**

**About the Office of the Provost**

Dr. Lon S. Kaufman is the Acting Provost and Vice President for Academic Affairs at Hunter College.

As the Chief Academic Officer, the Provost works with the President and Deans to oversee academic policies and activities. The Associate Provosts, together with the Provost's administrative and operations staff, support the Provost in carrying out these responsibilities. The Office of the Provost oversees each of the college's academic units, together with major areas of institutional, academic and sponsored programs planning, assessment and support. Areas under the Provost's leadership can be seen on the Hunter College website:

http://www.hunter.cuny.edu/provost
One Stop

The One Stop for Students Office, located in room 217HN, is dedicated to providing centralized and efficient customer service through prompt, practical and reliable information. Committed to the success of our students, One Stop strives to provide individualized service that meets the needs of all Hunter College students. To that end, the One Stop offers assistance with transcripts, enrollment verifications, major/minor declarations, registration assistance, graduation inquiries, diploma pick up, FERPA application processing, establishing residency, and other enrollment-related questions. Please visit the One Stop website for up-to-date hours of operation www.hunter.cuny.edu/onestop.

Packaging

Rather than using only one source to finance education, students may use a combination of monies from all of the programs for which they are eligible. This system for allocating aid is called packaging. Funds will be allocated first to meet the basic costs of attendance (tuition, books, transportation). If funding permits, other living expenses will then be addressed.

Applications for financial aid must be filed each year. FAFSA on the Web for the coming academic year is available starting on October 1.

Permit Credit

Graduate courses taken at other colleges or universities after matriculation are considered "Permit" credit. Students planning to take courses "on permit" at other colleges or universities during the period of matriculation must request and receive permission prior to taking the course. Instructions on applying for permit credit may be found on the "One Stop for Students" page on the Hunter College website.

Persona Non Grata Guideline

The College may restrict access to the campus by any visitor (i.e., a person who is neither a student nor an employee of Hunter College), including but not limited to guests, event attendees, and/or alumni whose conduct, after review by a panel of the Campus Safety Advisory Committee, is determined to be in violation of any rules and/or policies of Hunter College or the City University of New York or applicable New York State Law. This restriction may include revocation of alumni identification cards and/or other restrictions on access to Hunter College.

Physics Advisers

Return to Physics and Astronomy

Graduate Adviser for MA and PhD in Physics:

Neepa Maitra
1214 North
(212) 650-3518
Neepa.maitra@hunter.cuny.edu

Adolescent or Teacher Education Program Adviser:
Physics and Astronomy Department Description

The Department of Physics and Astronomy has graduate and post-graduate research programs in theoretical and experimental physics. Students may obtain the MA in Physics or MA in Adolescent Education from Hunter College, and/or the joint PhD degree in Physics from Hunter College and the City University Graduate Center. The doctoral program is designed to train highly qualified research scientists who are fully equipped to teach and to direct research in a wide variety of university and industry programs in physical sciences. The Department offers all levels of graduate courses jointly with the Graduate Center. Faculty of the department are pursuing projects in the forefront of modern research. The focuses include experimental research in astronomy, optics and spectroscopy, biophysics and biomedical optics, nuclear magnetic resonance and renewal energy materials, and theoretical research in nanophysics, quantum information and quantum optics, chemical physics, and time-frequency analysis. The research programs are well funded by nine different government agencies. Many of our faculty members are leaders of their fields, won prestigious awards, and earned international recognition.

Physics and Astronomy Faculty

Janos A. Bergou, Professor; PhD, Lorand Eotvos; Intense Field Electrodynamics, Multiphoton Processes, Nonlinear and Quantum Optics, Quantum Information

Ying-Chih Chen, Professor and Department Chair; PhD, Columbia; Laser Physics, Laser Devices, Biomedical Imaging, Photoacoustics

Leon Cohen, Professor; PhD, Yale; Quantum Mechanics, N-Body Self Gravitation Problem, Wave Propagation in Random Media

Kelle Cruz, Associate Professor, PhD, Pennsylvania; Astronomy, Astrophysics

Steven G. Greenbaum, Distinguished Professor; PhD, Brown; Magnetic Resonance, Solid State Physics, Renewable Energy Materials

Godfrey Gumbs, Maria A. Chianta and Alice M. Stoll Distinguished Professor; PhD, Toronto; Theoretical Condensed Matter Physics, Optical and Transport Properties of Semiconductor Nanostructures
Mark Hillery, Professor; PhD, California (Berkeley); Quantum Optics, Non-linear Optics, Quantum Information

Hyungsik Lim, Associate Professor; PhD, Cornell; Nonlinear Optics, Biomedical Optics, and Biophysics

Yuhang Ren, Professor; PhD, College of William & Mary, Zhejiang University (China), Nonlinear Ultra-fast Laser Spectroscopy, Condensed Matter Physics

Yonatan Abranyos, Doctoral Lecturer; PhD, CUNY Hunter College

Phillip Stallworth, Research Associate; PhD, Brown

Physics Option 1 (53-72 credits)

For students in the BA/MA program, students intending to teach grades 7-12, and students intending to enter the medical profession.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core Requirement [CCCR], Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 11100 (STEM)</td>
<td>Life and Physical Sciences (LPS) and Scientific World (SW)</td>
</tr>
<tr>
<td>PHYS 12100 (STEM)</td>
<td>Life and Physical Sciences (LPS) and Scientific World (SW)</td>
</tr>
</tbody>
</table>

Please note that no more than two courses from any one department will count for the CUNY Common Core Requirement.

Courses Required for the Major

Based on placement exams or transferred courses, students may place into some more advanced Mathematics and Statistics courses without taking Hunter College prerequisites. See the Mathematics and Statistics department for details.

A. Introductory Math Sequence (0-17 credits)

- MATH 10100 - Algebra for College Students *
- or-
- MATH 101EN - Algebra for College Students - Enhanced *
- MATH 10150 - Mastery of Symbolic Computation *
- MATH 12400 (STEM) - College Algebra and Trigonometry *
- or-
- MATH 12500 (STEM) - Precalculus *
- or-
- MATH 12550 (STEM) - Precalculus with Workshop *
- AND
- MATH 14000 - Mathematical Reasoning Workshop * unless students earn a grade of B- or above in MATH 12550.
- MATH 15000 (STEM) - Calculus I *
- MATH 15500 (STEM) - Calculus II *

B. Introductory Physics: Two Semesters

- PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound
- PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

C. 22- to 24-credit concentration in physics courses at the 200 level and higher:

- PHYS 22100 - Electronics
- PHYS 33000 - Atomic and Nuclear Physics
- PHYS 33400 - Intermediate Electricity and Magnetism
- PHYS 33500 - Intermediate Mechanics
- Any Three of the following 5 courses:
  - PHYS 22200 - Electronics Laboratory
  - PHYS 23000 - Classical Physics Laboratory
  - PHYS 23500 - Modern Physics Laboratory
  - PHYS 38500 - Numerical Methods I
  - PHYS 48500 - Numerical Methods II

D. Required Math & Chemistry courses (20 credits)

- MATH 15600 - Introduction to Mathematical Proof Workshop *
- MATH 25000 - Calculus III *
- MATH 25400 - Ordinary Differential Equations *
- CHEM 10200 (STEM) - General Chemistry I *
- CHEM 10400 (STEM) - General Chemistry II *
- CHEM 10600 (STEM) - General Chemistry Laboratory *

* These courses may be counted for credit in more than one program.
NOTE: The chemistry courses may be substituted by one year of high-school-level chemistry. Together, the introductory physics (11 credits) and the Option 1 22-24 credit concentration in physics satisfy the major requirement for initial certification as a teacher of physics in grades 7-12. Option 1, together with the MA (see the Physics - BA/MA ), is recommended for students planning to pursue a PhD in physics.

**Policy for Undergraduates taking Graduate Courses**

Upon the recommendation of the student's undergraduate major or program adviser, and with the approval of the adviser of the graduate program offering the course, highly qualified undergraduate degree students may take graduate courses for credit toward the bachelor's degree. If it is determined that the courses were not used for the bachelor's degree or TAP certification and the graduate transfer is acceptable, then the student will be charged the difference between the undergraduate and graduate tuition rates at the time the student took the course. No course may be applied to both the undergraduate degree and the graduate degree.

**PreK through Grade 12**

- Dance Education - MA
- Music Education PreK-12 - MA
- TESOL PreK-12 - MA
- TESOL Pre-K-12: NYS Certification - Advanced Certificate
- TESOL Adult Track - MA
- Theatre Education PreK-12 - MA

**Procedures for Handling Student Complaints**

1. **Introduction**
2. Determination of Appropriate Procedure
3. Informal Resolution
4. Formal Complaint
5. Appeals Procedure
6. Subsequent Action
7. Campus Implementation

1. **Introduction**

The university and its colleges have a variety of procedures for dealing with student-related issues, including grade appeals, academic integrity violations, student discipline, disclosure of student records, student elections, sexual harassment complaints, disability accommodations, and discrimination. One area not generally covered by other procedures concerns student complaints about faculty conduct in the classroom or other formal academic settings. The university respects the academic freedom of the faculty and will not interfere with it as it relates to the content or style
of teaching activities. Indeed, academic freedom is and should be of paramount importance. At the same time the university recognizes its responsibility to provide students with a procedure for addressing complaints about faculty treatment of students that are not protected by academic freedom and are not covered by other procedures. Examples might include incompetent or inefficient service, neglect of duty, physical or mental incapacity and conduct unbecoming a member of the staff.

2. Determination of Appropriate Procedure

If students have any question about the applicable procedure to follow for a particular complaint, they should consult with the chief student affairs officer. In particular, the chief student affairs officer should advise a student if some other procedure is applicable to the type of complaint the student has.

3. Informal Resolution

Students are encouraged to attempt to resolve complaints informally with the faculty member or to seek the assistance of the department chairperson or campus ombudsman to facilitate informal resolution.

4. Formal Complaint

If the student does not pursue informal resolution, or if informal resolution is unsuccessful, the student may file a written complaint with the department chairperson or, if the chairperson is the subject of the complaint, with the academic dean or a senior faculty member designated by the college president. (This person will be referred to below as the "Fact Finder.") Only students in a faculty member's class or present in another academic setting where the alleged conduct occurred may file complaints against that faculty member.

a. The complaint shall be filed within 30 calendar days of the alleged conduct unless there is good cause shown for delay, including but not limited to delay caused by an attempt at informal resolution. The complaint shall be as specific as possible in describing the conduct complained of.

b. The Fact Finder shall promptly send a copy to the faculty member about whom the complaint is made, along with a letter stating that the filing of the complaint does not imply that any wrongdoing has occurred and that a faculty member must not retaliate in any way against a student for having made a complaint. If either the student or the faculty member has reason to believe that the department chairperson may be biased or otherwise unable to deal with the complaint in a fair and objective manner, he or she may submit to the academic dean or the senior faculty member designated by the college president a written request stating the reasons for that belief; if the request appears to have merit, that person may, in his or her sole discretion, replace the department chairperson as the Fact Finder.

The chairperson may also submit a written request for recusal for good cause to the academic dean or senior faculty member designated by the college president to review such requests. If a recusal request is granted, a different department chairperson shall conduct the investigation, or, if no other chairperson is available, an administrator designated by the college president shall serve in the chairperson's stead. Further, the college president may re-assign investigations as necessary, including but not limited to situations in which a Fact Finder has not completed an investigation in a timely manner. In addition, during any time that no department chairperson is available to investigate a complaint, the college president may assign an administrator to investigate.

c. The Fact Finder shall meet with the complaining student and faculty member, either separately or together, to discuss the complaint and to try to resolve it. The Fact Finder may seek the assistance of the campus ombudsman or other appropriate person to facilitate informal resolution.

d. If resolution is not possible, and the Fact Finder concludes that the facts alleged by the student, taken as true and viewed in the light most favorable to the student, establish that the conduct complained of is clearly protected by academic freedom, he or she shall issue a written report dismissing the complaint and setting forth the reasons for dismissal and send a copy to the complaining student, the faculty member, the chief academic officer and the chief student affairs officer. Otherwise, the Fact Finder shall conduct an investigation. The Fact Finder shall separately interview the complaining student, the faculty member and other persons with relevant knowledge and information and
shall also consult with the chief student affairs officer and, if appropriate, the college ombudsman. The Fact Finder shall not reveal the identity of the complaining student and the faculty member to others except to the extent necessary to conduct the investigation. If the Fact Finder believes it would be helpful, he or she may meet again with the student and faculty member after completing the investigation in an effort to resolve the matter. The complaining student and the faculty member shall have the right to have a representative (including a union representative, student government representative or attorney) present during the initial meeting, the interview and any post-investigation meeting.

e. In cases where there is strong preliminary evidence that a student's complaint is meritorious and that the student may suffer immediate and irreparable harm, the Fact Finder may provide appropriate interim relief to the complaining student pending the completion of the investigation. The affected faculty member may appeal such interim relief to the chief academic officer.

f. At the end of the investigation, the Fact Finder shall issue a written report setting forth his or her findings and recommendations, with particular focus on whether the conduct in question is protected by academic freedom, and send a copy to the complaining student, the faculty member, the chief academic officer and the chief student affairs officer. In ordinary cases, it is expected that the investigation and written report should be completed within 30 calendar days of the date the complaint was filed.

5. Appeals Procedure

If either the student or the faculty member is not satisfied with the report of the Fact Finder, the student or faculty member may file a written appeal to the chief academic officer within 10 calendar days of receiving the report. The chief academic officer shall convene and serve as the chairperson of an Appeals Committee, which shall also include the chief student affairs officer, two faculty members elected annually by the faculty council or senate and one student elected annually by the student senate. The Appeals Committee shall review the findings and recommendations of the report, with particular focus on whether the conduct in question is protected by academic freedom. The Appeals Committee shall not conduct a new factual investigation or overturn any factual findings contained in the report unless they are clearly erroneous. If the Appeals Committee decides to reverse the Fact Finder in a case where there has not been an investigation because the Fact Finder erroneously found that the alleged conduct was protected by academic freedom, it may remand to the Fact Finder for further proceedings. The committee shall issue a written decision within 20 calendar days of receiving the appeal. A copy of the decision shall be sent to the student, the faculty member, the department chairperson and the president.

6. Subsequent Action

Following the completion of these procedures, the appropriate college official shall decide the appropriate action, if any, to take. For example, the department chairperson may decide to place a report in the faculty member's personnel file or the president may bring disciplinary charges against the faculty member. Disciplinary charges may also be brought in extremely serious cases even though the college has not completed the entire investigative process described above; in that case, the bringing of disciplinary charges shall automatically suspend that process. Any action taken by a college must comply with the bylaws of the university and the collective bargaining agreement between the university and the Professional Staff Congress.

7. Campus Implementation

Each campus shall implement these procedures and shall distribute them widely to administrators, faculty members and students and post them on the college Web site.

Program and Courses in Computer Science

Computer Science

OVERVIEW
The Department of Computer Science offers an MA degree. A PhD program in computer science is offered at the CUNY Graduate Center.

**What can I do with my degree in Computer Science?**

There is demand in industry and in doctoral programs for master's-level computer science graduates who have both an understanding of the theoretical foundations of computing and expertise in its applications. The MA program in Computer Science at Hunter College bridges the gap between a traditional undergraduate degree and an advanced path for a student's future. Hunter College, recognizing the need for an affordable, conveniently located program in computer science, offers a master of arts in computer science.

**Program and Courses in Computer Science**

**Computer Science MA**

**Master of Arts**

There is demand in industry and in doctoral programs for master's-level computer science graduates who have both an understanding of the theoretical foundations of computing and expertise in its applications. The MA program in Computer Science at Hunter College bridges the gap between a traditional undergraduate degree and an advanced path for a student's future. Hunter College, recognizing the need for an affordable, conveniently located program in computer science, offers a master of arts in computer science.

**Departmental Requirements for Admission**
To be considered for admission to the MA program in computer science, prospective students must meet the following criteria:

1. A BA or its equivalent, preferably in computer science, with a minimum GPA of 3.0 in the final 2 years of computer science and related course work.
2. Courses in: calculus I and II, linear algebra or matrix algebra, statistics, discrete structures, data structures, and computer systems.
3. Top 50th percentile on the Graduate Record Examination Quantitative Reasoning score

Note: Students whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL). The minimum TOEFL score that is required for graduate study in the School of Arts and Sciences at Hunter College must be achieved for admission into the Computer Science MA program. See: http://www.hunter.cuny.edu/graduateadmissions/faq/toefl-tse-twe-scores

Departmental Requirements for the Degree

Courses

Upon admission, each student is assigned an advisory committee to provide counseling and to approve a plan of study; the committee may waive pre- or co-requisites, if appropriate. A minimum of 30 credits is required for the degree. After completing 12 credits of core courses (CSCI 70500, CSCI 72400, CSCI 73000 and CSCI 74000), a student's curriculum is made up of either:

(i) 4 elective courses and a 6-credit thesis (18 credits total), or

(ii) 6 elective courses (18 credits total), at least one of which must be CSCI 79500 - Advanced Topics in Computer Science which will require a large programming project and a report; a passing grade on an exit examination must also be achieved.

The choice should be made in consultation with the student's advisory committee shortly after completing the core courses. The program of study may include up to 6 credits from a department other than computer science, provided the student receives proper approval from his or her advisors.

Areas of Concentration

Students may concentrate in one of 2 tracks within the Department of Computer Science: Research or Applied. After completing the core courses, in consultation with their advisory committee, students will choose a significant number of courses in one of these 2 areas.

Course Listings

Each course is 3 hrs, 3 cr unless otherwise noted.

Note: Your advisory committee may waive pre- or co-requisites if appropriate.

Core (12):

CSCI 70500 - Algorithms
Complexity and applicability of file and data manipulation techniques including searching, sorting, supporting internal and external data structures, sequential and random access methods, basic big data techniques and other topics.

*prereq: departmental permission
Hours 3 hrs
Credits 3 cr.*

**CSCI 72400 - Computational Theory**

Turing machine model for computation: multiple tapes, multiple heads and nondeterminism, space-limited and time-limited TMs; completeness theorems.

*prereq: departmental permission
Hours 3 hrs
Credits 3 cr.*

**CSCI 73000 - Computer Systems**

Terminology, function units, buses, DMA, interrupts, priorities, memory systems, I/O systems, parallel processing and networking.

*prereq: departmental permission
Hours 3 hrs
Credits 3 cr.*

**CSCI 74000 - Computer Modeling and Simulation**

Examination of major models of data systems; Petri nets, data flow diagrams, queuing theory, other topics.

*prereq: departmental permission
Hours 3 hrs
Credits 3 cr.*

**Applied Electives:**

**CSCI 70100 - Theory of Operating Systems**

Resources, concurrent processes, processor scheduling, probability models of sequencing, memory management, performance analysis models.

*prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.*

**CSCI 71000 - Contemporary Data Base Technology**

Current techniques in technology; case studies of pioneering applications; next-generation breakthrough analysis; current research efforts.
prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 71100 - Cloud Database Security and Integrity

Privacy requirements, computer system security; policy formation, authorization, data integrity, audit control; other topics.

prereq: departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 76000 - Computational Linguistics

Formal grammars, transformational models, augmented transition networks, design of parsers, parsing techniques, Determinism Hypothesis, other topics.

prereq: Departmental Permission
Hours 3 hrs
Credits 3 cr.

CSCI 76100 - Artificial Intelligence

Levels and types of knowledge, uses and induction of knowledge, logic, machine learning, scope and specificity choice of primitives, other topics.

prereq: departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 77100 - Software Engineering

Current techniques in technology, pioneering applications; analysis of next-generation breakthroughs and current research efforts.

prereq: Departmental permission.
Hours 3 hrs
Credits 3 cr.

CSCI 79500 - Advanced Topics in Computer Science

Topics will vary, dealing primarily with state-of-the-art material in computer science. May be repeated for a maximum of 6 cr.

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.
Research Electives:

**CSCI 72200 - Formal Methods in Programming Languages**

Data and control abstractions; backtracking and nondeterminism; the effects of formal methods for program description; proving correctness.

*prereq: Departmental permission*

*Hours 3 hrs*

*Credits 3 cr.*

**CSCI 75000 - Combinatorial Computing**

Computer representation of combinatorial objects; back-tracking; generating and enumerating combinatorial objects; other topics

*prereq: Departmental permission*

*Hours 3 hrs*

*Credits 3 cr.*

**CSCI 75100 - Cryptography**

Problems and possibilities of encryption and decoding; traditional and contemporary methods of encryption and time/memory trade-off.

*prereq: Departmental permission*

*Hours 3 hrs*

*Credits 3 cr.*

**CSCI 75200 - Graph Theory I**

Permutations and combinations, generating functions, advanced counting numbers, cycles, parity, conjugacy classes, graphs, other topics.

*prereq: Departmental permission*

*Hours 3 hrs*

*Credits 3 cr.*

**CSCI 75300 - Graph Theory II**

Depth-first search, ordered trees, codes, optimization problem, sort-by-merge; applications of network flow techniques; other topics.

*prereq: Departmental permission*
**CSCI 79500 - Advanced Topics in Computer Science**

Topics will vary, dealing primarily with state-of-the-art material in computer science. May be repeated for a maximum of 6 cr.

*prereq: Departmental permission*

**CSCI 79900 - Thesis Research in Computer Science**

Thesis research. The course is open only to students selecting the thesis option. May be repeated for a maximum of 6 cr.

*prereq: Permission of grad adviser*

(Note that CSCI 79500 can count as an elective in either the Applied or Research track).

**Total Credits required: 30**

**CSCI 70100 - Theory of Operating Systems**

Resources, concurrent processes, processor scheduling, probability models of sequencing, memory management, performance analysis models.

*prereq: Departmental permission*

**CSCI 70300 - Data Structures in a high level language**

This course will provide aspiring and practicing teachers with a deeper knowledge of computer science. Students will study data representation in computer systems and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, trees, recursion and analysis of algorithms and their applications relevant in a classroom setting.

*prereq: CSCI 70900*

**CSCI 70500 - Algorithms**
Complexity and applicability of file and data manipulation techniques including searching, sorting, supporting internal and external data structures, sequential and random access methods, basic big data techniques and other topics.

*prereq: departmental permission
*Hours 3 hrs
*Credits 3 cr.*

**CSCI 70700 - Modern Topics and Concepts in Computer Science**

This course will provide aspiring and practicing teachers with base knowledge in a number of the most important disciplines in computer science. Students will study and create working systems using a variety of tools, techniques, and technologies. Sample topics include functional programming, data mining, computer graphics, and artificial intelligence.

*prereq: CSCI 70300
*Hours 3
*Credits 3

**CSCI 70900 - Programming in high level language**

Programming in a high level language introduces students to computer programming and goes well beyond an introductory class. The course will provide an overview of a language such as Java language and dive into important programming concepts including object-oriented programming, inheritance, exception handling, debugging techniques and more.

*Hours 3 hrs.
*Credits 3 cr.*

**CSCI 71000 - Contemporary Data Base Technology**

Current techniques in technology; case studies of pioneering applications; next-generation breakthrough analysis; current research efforts.

*prereq: Departmental permission
*Hours 3 hrs
*Credits 3 cr.*

**CSCI 71100 - Cloud Database Security and Integrity**

Privacy requirements, computer system security; policy formation, authorization, data integrity, audit control; other topics.

*prereq: departmental permission
*Hours 3 hrs
*Credits 3 cr.*

**CSCI 72200 - Formal Methods in Programming Languages**

Data and control abstractions; backtracking and nondeterminism; the effects of formal methods for program description; proving correctness.
**CSCI 72400 - Computational Theory**

Turing machine model for computation: multiple tapes, multiple heads and nondeterminism, space-bounded and time-bounded TMs; completeness theorems.

**CSCI 73000 - Computer Systems**

Terminology, function units, buses, DMA, interrupts, priorities, memory systems, I/O systems, parallel processing and networking.

**CSCI 74000 - Computer Modeling and Simulation**

Examination of major models of data systems; Petri nets, data flow diagrams, queuing theory, other topics.

**CSCI 75000 - Combinatorial Computing**

Computer representation of combinatorial objects; back-tracking; generating and enumerating combinatorial objects; other topics

**CSCI 75100 - Cryptography**

Problems and possibilities of encryption and decoding; traditional and contemporary methods of encryption and time/memory trade-off.
CSCI 72500 - Graph Theory I

Permutations and combinations, generating functions, advanced counting numbers, cycles, parity, conjugacy classes, graphs, other topics.

prereq: Departmental permission

CSCI 73500 - Graph Theory II

Depth-first search, ordered trees, codes, optimization problem, sort-by-merge; applications of network flow techniques; other topics.

prereq: Departmental permission

CSCI 74000 - Computational Linguistics

Formal grammars, transformational models, augmented transition networks, design of parsers, parsing techniques, Determinism Hypothesis, other topics.

prereq: Departmental Permission

CSCI 75000 - Artificial Intelligence

Levels and types of knowledge, uses and induction of knowledge, logic, machine learning, scope and specificity choice of primitives, other topics.

prereq: departmental permission

CSCI 76100 - Software Engineering

Current techniques in technology, pioneering applications; analysis of next-generation breakthroughs and current research efforts.

prereq: Departmental permission.
CSCI 77300 - Data Communication and Networks

Analysis of breakthroughs in the areas of telecommunications and networking; current research; case studies of pioneering applications.

prereq: CSCI 70100
Hours 3 hrs
Credits 3 cr.

CSCI 77800 - Ethics and Computer Science

Ethical concerns are frequently ignored in technical fields but as a society we are discovering their immense importance. Algorithms can have unintended affects due to hidden bias, security and privacy can be affected negatively when decisions are made for technical merit or user convenience, and social networks have resulted in issues ranging from fake news to echo chambers and more. In this course, we will explore ethical issues in computer science through a combination of programming assignments, case studies and discussions of current events.

prereq or coreq: CSCI 70300
Hours 3 hrs
Credits 3 cr.

CSCI 79300 - Independent Study in Computer Science

Independent Study under the direction of a faculty member. The course may be taken only once.

prereq: Permission of faculty sponsor and graduate adviser
Hours 3 hrs
Credits 3 cr.

CSCI 79500 - Advanced Topics in Computer Science

Topics will vary, dealing primarily with state-of-the-art material in computer science. May be repeated for a maximum of 6 cr.

prereq: Departmental permission
Hours 3 hrs
Credits 3 cr.

CSCI 79900 - Thesis Research in Computer Science

Thesis research. The course is open only to students selecting the thesis option. May be repeated for a maximum of 6 cr.

prereq: Permission of grad adviser
Hours 3 hrs
Credits 3 cr.

Program and Courses in Dance
Dance

OVERVIEW

From a campus in the heart of New York City, the Hunter dance student has the unique opportunity of interfacing with many professional dance companies, choreographers and critics who live and work in New York. The department is proud to announce the launch, in fall 2018, of the MFA in Dance. The MFA is considered the terminal degree in the field; it is the baseline qualifying credential for the college/university teaching job market, a crucial laboratory for furthering deep personal artistic accomplishment, and an important venue for the development of contextual and aesthetic understanding.

The modern contemporary-based curriculum in dance education provides the student with opportunities to pursue careers in teaching, with a focus on performance, choreography and production. The curriculum is enriched by community outreach performances, repertory classes with New York-based choreographers, speciality workshops, dance clubs and organizations, international performances, internships and New York State teaching certification. In addition, the Hunter Dance Department hosts an annual spring performance in Hunter's Kaye Playhouse, as well as informal Salon Series, dance and dance education conferences, forums, and site-specific performances devoted to expanding the students' knowledge of and experience with diverse forms of dance in a variety of contexts.

What can I do with my degree in Dance?

The Hunter College Arnhold Graduate Dance Education Program (AGDEP) blends the academic and professional strengths of the School of Education and the Dance Department to train highly effective dance educators for New York City public schools and beyond. The goal of the Arnhold Graduate Dance Education Program is to take highly trained dancers and develop them as effective dance educators, adept in the unique context of dance education in primary and secondary schools.

The MFA program prepares dance artists/educators for many kinds of professional roles in the field of dance through a studio-based program of dance technique and choreography, complemented by appropriate coursework in theory, perspectives and contexts, history, and dance pedagogy.

Faculty

David Capps, Associate Professor; MFA, NYU; Dance performance, Choreography, Somatics, Choreographic Analysis

Maura Nguyen Donohue, Associate Professor; MFA Smith; Choreographer, Advocate, and Writer in the NYC and global community

Kathleen Isaac, Assistant Professor; Director of the Arnhold Graduate Dance Education program, BA, BA/MA and MA Dance Adviser; BA SUNY Brockport, MA NYU; Dance Pedagogy, Mentorship, Integration of Dance and Technology, Interdisciplinary Curriculum Design

Carol K. Walker, Professor and Department Chair (acting), BFA Barat; Dance Education, Dance Program Evaluation, Choreography, Dance History

Dance - MFA

The Hunter College MFA program in Dance prepares dance artists/educators for careers and professional roles in the field of dance through a wide-ranging program of dance technique and choreography, complemented by appropriate coursework in theory, perspectives and contexts, history, and dance pedagogy. The MFA in Dance is considered the terminal degree in the field; it is the baseline qualifying credential for the college/university teaching job market, a challenging laboratory for furthering deep personal artistic accomplishment, and an important venue for the development of contextual and aesthetic understanding. The program will open in the fall of 2018.

Admission Requirements
All applicants will be required to complete the online Hunter College graduate school application, submit an updated CV, and participate in an interview that will include a presentation on the candidate's professional performing and creative career. Details for the presentation will be available after the candidate's application has been submitted. Admission will occur only in the fall semester. Applicants are required to have a bachelor's degree in any subject, at least 5 years of professional dance experience, and a clearly demonstrated career plan for which academic study of the art form is appropriate.

The GRE exam is not required for application for the MFA/Dance Program. An undergraduate degree in Dance is desirable, but not required. Based on a proficiency exam and one-on-one assessment administered early in the course of study, undergraduate courses may be required to cover specific deficiencies in the student's preparation.

**Curriculum**

The degree plan comprises courses in dance pedagogy, theory, criticism, aesthetics, history, research methods, cultural studies, physical training, and extensive creative work in performance and choreography. The capstone of the curriculum is the MFA project, an intensive research process culminating in the presentation of significant creative work.

**Requirements**

The MFA program requires 60 credits and is a terminal degree. The program's standards are those articulated by the National Association of Schools of Dance. The credit requirements are as follows:

- Theory and Perspectives 12 credits
- Dance Technique 11 credits
- Creative Work 11 credits
- Pedagogy 6 credits
- Major MFA project 8 credits
- Electives 12 credits

The 12 elective credits will make it possible for the student to investigate particular areas of interest, and possibly develop a secondary area of interest and expertise.

**Curriculum Details**

**Theory/Context/Perspectives**

The 12-credit requirement in Theory/Context/Perspectives is met by the following courses:

**DAN 74000 - Aesthetics**

A seminar examining a variety of global artistic practices and value systems from both aesthetic and cultural perspectives. The course focuses on a broad range of dance and examines how choreographers, dancers, designers, critics, audience members, teachers, producers and scholars function and interrelate. Students examine a variety of analytical paradigms-- including structuralism, semiotics and literary theory -- through the study of the major writers and thinkers in the field. A culminating study is typically a close analysis of the student's personal creative work.

*prereq: Admission to one of the graduate dance programs*

*Hours 3*
*Credits 3*
DAN 74200 - Graduate Dance History

This course deepens the student's understanding of key points in concert and global vernacular dance in the 20th century. How those points have reflected social, cultural, and political forces, and impacted 21st century dance, is examined throughout the course. A major research paper is the culminating project. Both practice and theory are engaged through readings of historic texts and public reviews, film/video viewings, attendance at live performances, and group discussions.

prereq: Admission to one of the graduate dance programs AND DAN 23200 or comparable undergraduate dance history course or equivalent experience.

Hours 3
Credits 3

DAN 74400 - Modes of Inquiry

This course introduces various research approaches and methods. Research design - including statements of purpose, review of related literature, articulation of methods, and definition of terms – the place of action research in creative exploration (including teaching practice), arts-based research, and the role of theory in research are addressed through readings, discussion, practical experience, and written exercises and papers.

prereq: Admission to MFA Dance program

Hours 3
Credits 3

DAN 74600 - Special Topics in Dance

A seminar/laboratory course focusing on a varying series of topics, selected according to student interests, current faculty research, and available guest artists and master teachers. Topics can include a wide variety of historical, aesthetic, cultural, technological and political issues. The course encourages advanced study in specialized areas of particular student interest. Possible topics include: dance in the digital age, specific cultural forms, dance in community settings, motor learning from multiple perspectives, etc.

prereq: Admission to one of the graduate dance programs

Hours 3
Credits 3
Can be repeated for credit with different content areas

Dance Technique

The following courses meet the 11-credit requirement in Technique:

DAN 70500 - Maintenance of the Dancer's Instrument

An in-depth survey of a wide variety of somatic approaches to and interventions in dance training including ideokinetic and bodywork techniques, postural and motional training methods, and alternative movement disciplines. The course includes analytical, observational and participatory experiences, and will build on individual needs and interests of the students. Application of somatic knowledge to teaching movement and dance is stressed.

prereq or coreq: DAN 35000 or equivalent course and/or related professional background
Creative Work

The 11 required Creative Work credits are distributed as follows:

**DAN 73000 - Studies of Forms**

This course develops choreographic proficiency through practical experience with, and observation of, artistic form and content across a range of disciplines. Short- and long-term experiments are presented in class and in occasional showings open to the public. The role of self-review, as well as external feedback during creative processes, is considered by utilizing a variety of protocols for response.

*prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department*

**DAN 73300 - Process and Projects**

This course asks the Dance student to explore unfamiliar genres, styles and methodologies through a variety of choreographic project assignments. An inventory of each student's past experiences leads to a collaboratively designed and individualized series of assignments designed to stretch the student's experiences and capabilities.

*prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department*

**DAN 73500 - Performance and Presentation**

The development and public presentation of original choreography in performance at Hunter College or another suitable public venue. Regularly scheduled showings will offer opportunities to reflect on the work, receive feedback, and dialogue with faculty during the process of conception and execution.

*prereq: Acceptance into one of the graduate dance programs: BA/MA*

**Pedagogy**

The 6-credit Pedagogy requirement consists of the following courses:

**DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning**

An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct "action research" in order to identify conditions that support or
hinder productive teaching and learning. This first phase of the "methods" course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).

**prereq or coreq: 6 credits in education and 12 credits in dance**

**Hours 3 hrs + 36 hrs of fieldwork**

**Credits 3**

**DAN 75000 - Topics in Teaching for College/University**

Intensive examination of the relationship between pedagogy, teaching artistry, and curriculum design. Includes study of the history, philosophy, and cultures of dance in higher education. Topics include lesson, unit, course, and curriculum structuring, assessment strategies; application of choreographic principles to course design; the relationship between higher education and the changing dance environment, and understanding the administrative hierarchy in higher ed. Students are observed and mentored in their roles as teachers.

**prereq: DANED 76000**

**Hours 3**

**Credits 3**

**MFA Project**

The MFA Project (DAN 73700) consists of:

- Development of approximately one hour of new performance work
- Close interaction with faculty as aesthetic and compositional strategies are developed, clarified and implemented
- Preparation of work for public presentation, collaboration with producing partners, including development of PR materials
- Extensive (20-25 pages) written document designed to foster critical self-awareness, effective evaluation skills, and understanding of personal focus, context and functionality in the community of artists as well as the broader cultural landscape

**Electives**

The 12 credits of electives are chosen from across the college curriculum or approved outside projects according to particular student interests. Independent study with the Dance faculty in ground-breaking research is encouraged.

**DAN 70100 - Graduate Dance Technique**

The ongoing, rigorous training in a dance/movement style pertinent to the individual student's artistic and pedagogical goals. Exploration of unfamiliar movement disciplines will be required. This course is designed to allow each student to articulate and execute a regular training regimen that will build and refine her/his skills as practitioner of an artistic movement discipline. A variety of individual training plans are overseen by faculty. Regular group meetings examine how underlying aesthetic and kinesiological assumptions embodied by the training inform students' approaches to teaching artistry, improvisation, and choreography. May be taken more than once for credit; required 3 times for MA, 2 times for BA/MA, 4 times for the MFA.

**prereq: Admission to graduate dance program**
DAN 70500 - Maintenance of the Dancer's Instrument

An in-depth survey of a wide variety of somatic approaches to and interventions in dance training including ideokinetic and bodywork techniques, postural and motional training methods, and alternative movement disciplines. The course includes analytical, observational and participatory experiences, and will build on individual needs and interests of the students. Application of somatic knowledge to teaching movement and dance is stressed.

prereq or coreq: DAN 35000 or equivalent course and/or related professional background

Hours 3
Credits 2

DAN 73000 - Studies of Forms

This course develops choreographic proficiency through practical experience with, and observation of, artistic form and content across a range of disciplines. Short- and long-term experiments are presented in class and in occasional showings open to the public. The role of self-review, as well as external feedback during creative processes, is considered by utilizing a variety of protocols for response.

prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department

Hours 3
Credits 3
This course is repeatable once for credit.

DAN 73300 - Process and Projects

This course asks the Dance student to explore unfamiliar genres, styles and methodologies through a variety of choreographic project assignments. An inventory of each student's past experiences leads to a collaboratively designed and individualized series of assignments designed to stretch the student's experiences and capabilities.

prereq: Undergraduate choreography training and/or equivalent professional experience, permission of department

Hours 3
Credits 3

DAN 73500 - Performance and Presentation

The development and public presentation of original choreography in performance at Hunter College or another suitable public venue. Regularly scheduled showings will offer opportunities to reflect on the work, receive feedback, and dialogue with faculty during the process of conception and execution.

prereq: Acceptance into one of the graduate dance programs: BA/MA, MA

Hours 3
Credits 1
This course is repeatable once for credit.

DAN 73700 - MFA Thesis Project

The development, supported by regular faculty mentorship, of at least 30 minutes of original choreography. The work will be presented in a formal venue at Hunter College or another suitable performance space. A reflective paper
synthesizing process, product and context will culminate the project. Must be taken twice.

prereq: DAN 73000, DAN 73300, DAN 73500, DAN 74400, DAN 74000, DAN 74200, DAN 70100
Hours 3 hrs.
Credits 4 cr.

DAN 74000 - Aesthetics

A seminar examining a variety of global artistic practices and value systems from both aesthetic and cultural perspectives. The course focuses on a broad range of dance and examines how choreographers, dancers, designers, critics, audience members, teachers, producers and scholars function and interrelate. Students examine a variety of analytical paradigms -- including structuralism, semiotics and literary theory -- through the study of the major writers and thinkers in the field. A culminating study is typically a close analysis of the student's personal creative work.

prereq: Admission to one of the graduate dance programs

Hours 3
Credits 3

DAN 74200 - Graduate Dance History

This course deepens the student's understanding of key points in concert and global vernacular dance in the 20th century. How those points have reflected social, cultural, and political forces, and impacted 21st century dance, is examined throughout the course. A major research paper is the culminating project. Both practice and theory are engaged through readings of historic texts and public reviews, film/video viewings, attendance at live performances, and group discussions.

prereq: Admission to one of the graduate dance programs AND DAN 23200 or comparable undergraduate dance history course or equivalent experience.

Hours 3
Credits 3

DAN 74400 - Modes of Inquiry

This course introduces various research approaches and methods. Research design - including statements of purpose, review of related literature, articulation of methods, and definition of terms – the place of action research in creative exploration (including teaching practice), arts-based research, and the role of theory in research are addressed through readings, discussion, practical experience, and written exercises and papers.

prereq: Admission to MFA Dance program

Hours 3
Credits 3

DAN 74600 - Special Topics in Dance

A seminar/laboratory course focusing on a varying series of topics, selected according to student interests, current faculty research, and available guest artists and master teachers. Topics can include a wide variety of historical, aesthetic, cultural, technological and political issues. The course encourages advanced study in specialized areas of particular student interest. Possible topics include: dance in the digital age, specific cultural forms, dance in community settings, motor learning from multiple perspectives, etc.
prereq: Admission to one of the graduate dance programs
Hours 3
Credits 3
Can be repeated for credit with different content areas

DAN 75000 - Topics in Teaching for College/University

Intensive examination of the relationship between pedagogy, teaching artistry, and curriculum design. Includes study of the history, philosophy, and cultures of dance in higher education. Topics include lesson, unit, course, and curriculum structuring, assessment strategies; application of choreographic principles to course design; the relationship between higher education and the changing dance environment, and understanding the administrative hierarchy in higher ed. Students are observed and mentored in their roles as teachers.

prereq: DANED 76000
Hours 3
Credits 3

DAN 76000 (01, 02, 03) - Independent Study in Dance

In-depth study in an area of special interest for qualified graduate students under the direction of a faculty advisor. Prior to registering for the course, the student must have secured an advisor in the Dance department, submitted a proposal for the independent study, and obtained approval from the chair of the Dance department. May be taken with permission of the department up to five times for a total of up to 15 credits.

prereq: Department permission required
Hours 1-3
Credits 1-3

Programs and Courses in Anthropology

Anthropology

OVERVIEW

Anthropology is the study of humanity in all its cultural and biological diversity. In the United States, the discipline traditionally includes four fields: archaeological, biological, cultural, and linguistic anthropology, although research increasingly examines questions at the borders of the fields or which span more than one field. Anthropology provides essential foundations and perspectives for the study of the social and natural sciences and the humanities, as well as for applied professions such as education, public health, and social work. The Anthropology curriculum emphasizes original research, scholarly writing, informed critical thinking, and the understanding of and tolerance for diverse cultures and ways of life.

We consider hands-on training in qualitative and quantitative methods to be an integral part of graduate training. The faculty is actively involved in interdisciplinary teaching, interdepartmental collaborative efforts, and individual and team research projects, including many that involve new information technologies, cultural resource management, environmental impact assessment, ethnicity and gender, regional and area studies, and economic development, to name a few. The Department is also committed to involving graduate students in ongoing faculty-supported research, and in encouraging independent student-initiated research projects.
The Master's program is tied to the evening course schedule with the majority of courses commencing after 5:00 PM, thereby offering a unique educational resource in an urban area where the majority of potential graduate students are self-supporting and hold full-time jobs.

What can I do with my degree in Anthropology?

The program prepares you for further study in a Ph.D. program, as well as for careers in government, the private sector, non-governmental organizations, museums, and numerous other fields.

Master's Programs

Anthropology - MA

Program
The Department of Anthropology at Hunter College offers the only master's program in anthropology within the CUNY system. The program offers courses in cultural anthropology, biological anthropology, archaeology, and anthropological linguistics, in order to prepare students for careers in research, teaching and applied fields.

The program offers many courses in the evening to accommodate students who hold full-time jobs. Virtually all students who complete the MA program and apply to PhD programs at other institutions are admitted to a program. Some MA students are accepted to PhD programs before completing the requirements for the Hunter MA. Hunter MA students may take courses at the CUNY Graduate Center. Most of the Hunter anthropology faculty are also members of the faculty of the Graduate Center's doctoral program in anthropology. Students are encouraged to participate in faculty research, much of which is externally funded, providing limited opportunities for part-time employment. Scholarships and grants are also available for students in the program to participate in field schools and to conduct field research. Please see our website and contact the graduate adviser for more information.

Requirements for Admission

In addition to meeting the general requirements for admission, students must have at least 9 credits in undergraduate anthropology or a related field, although in special cases this requirement may be waived.

Requirements for the Degree

Requirements for the MA in Anthropology

A minimum of 30 credits beyond the BA.

1. Required Courses (9 credits)

ANTH 70100 - Foundations of Anthropology

Surveys history and methods of anthropology, and provides an introduction to the social theories employed in anthropological research.

*Hours 3 hrs, including conferences.*

*Credits 3 cr*

All students must consult with the graduate adviser before registering for any course.

ANTH 70400 - Field Research

*Hours 3 hrs, including conferences,*

*Credits 3 cr*

All students must consult with the graduate adviser before registering for any course.

ANTH 72200 - Research Design in Anthropology

Introduction to core principles of research design employed in anthropology, including training in the central methods used in each subfield.

*Hours 3 hrs*

*Credits 3 cr.*
Additional Information

Students are required to pass these courses with a grade of B- or better. Students are strongly advised to complete these courses early in their graduate training.

2. Electives (21 credits)

The program of study should be chosen to achieve a specialized knowledge in one of the four fields of the discipline: anthropological linguistics, anthropological archaeology, biological anthropology, and cultural anthropology. Alternatively, students, in consultation with the graduate advisor, can create a course of study that combines courses in different fields. Students may also use courses from other departments to fulfill their program requirements with the approval of the graduate advisor.

4. Foreign Language Requirement

A reading knowledge of at least one foreign language appropriate to the field of specialization, or a demonstrated competence in statistics is required. Consult the graduate adviser for more information.

5. A Master's Thesis or Comprehensive Exam

Anthropology Independent Study or Research

ANTH 72200 - Research Design in Anthropology

Introduction to core principles of research design employed in anthropology, including training in the central methods used in each subfield.

Hours 3 hrs  
Credits 3 cr.

ANTH 78500 - Independent Study

Directed research in any of the 4 subdisciplines on topic chosen by student. permission of instructor and grad adviser required prior to registration.

Hours 3 hrs, including conferences.  
Credits 3 cr.  
All students must consult with the graduate adviser before registering for any course.

ANTH 78600 - Research in Anthropology

Directed research in any of the 4 subdisciplines on topic chosen by student. permission of instructor and grad adviser required prior to registration.

Hours 3 hrs, including conferences,  
Credits 3 cr.  
All students must consult with the graduate adviser before registering for any course. Courses offered upon sufficient student demand.
Anthropology Thesis

ANTH 70600 - Master's Thesis Seminar

Individual research under supervision of student's thesis adviser, limited to students matriculated in the MA program. Credit awarded upon approval of master's thesis.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

Archaeology

ANTH 75000 - Archaeology (Core Course)

Introduces basic theory, method, and findings of prehistoric archaeology in an anthropological framework.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 75100 - Seminar in Archaeology

Each of the following advanced seminars deals with a set of theoretical and methodological topics related to current developments in archaeology: Regional Analysis – a survey and discussion of approaches to the analysis of ancient settlement patterns. Faunal Analysis – an introduction to methods and theoretical problems involved in the use of animal bone evidence for prehistoric economies. Analytical Methods – an introduction to a range of methods of data management and analysis in archaeology; includes training in the use of computer software. Field Methods – an introduction to the problems of practical field research design in archaeology and basic field techniques. Use of basic surveying equipment is covered, with extensive hands-on experience provided.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 75600 - Prehistoric Human Ecology

Problems in analysis of interaction of human economies and changing natural environments. Archaeological view of human role in various ancient ecosystems.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 75800 - Rise of Civilization

Theoretical and empirical investigation of evolution of urbanism and state in both hemispheres.

Hours 3 hrs, including conferences,
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 75900 - Archaeology of Europe

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 76000 - Archaeology of Africa

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 76100 - Archaeology of Near East

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 76200 - Archaeology of New World

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 76300 - Archaeology of Mesoamerica

The following course presents a survey of the archaeology of a particular world region and treats some major questions which arise in that context.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

Biological Anthropology
ANTH 79000 - Biological Anthropology (Core Course)

An introduction to the biology and evolutionary history of humans, including evolutionary theory, genetics, morphology, primate behavior, sociobiology, and paleontology.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 79100 - Seminar in Biological Anthropology

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 79200 - Human Ecology and Population Dynamics

From viewpoint of biological anthropology, course examines environmental factors that affect distribution, growth, and senescence of human populations.

Hours 3 hrs, including conferences
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 79300 - Human Evolutionary Genetics

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 79900 - Human Fossil Record

Fossil evidence on human evolution from Pliocene Australopithecus to modern Homo sapiens. Considers paleoecology, morphology, chronology, and phylogeny.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

Ethnology

ANTH 70100 - Foundations of Anthropology

Surveys history and methods of anthropology, and provides an introduction to the social theories employed in anthropological research.

Hours 3 hrs, including conferences.
All students must consult with the graduate adviser before registering for any course.

**ANTH 70200 - Seminar in Ethnology**

*Hours 3 hrs, including conferences,*
Credits 3 cr

**ANTH 70300 - History of Anthropological Theory**

Treatment of major currents and schools in anthropological thought from 19th century to present.

*Hours 3 hrs, including conferences,*
Credits 3 cr

**ANTH 70700 - Kinship and Social Structure**

Comparative analysis of kinship systems including kinship terminology, descent groups, family and household forms, and various models of explanation.

*Hours 3 hrs, including conferences,*
Credits 3 cr

**ANTH 70800 - Religion and Ideology**

Comparative analysis of religious beliefs and practices, cosmology, and other aspects of ideology, especially in non-Western societies.

*Hours 3 hrs, including conferences,*
Credits 3 cr

**ANTH 71200 - Hunters and Gatherers**

Analyzes both modern and prehistoric foraging societies with particular emphasis on ecological approach.

*Hours 3 hrs, including conferences,*
Credits 3 cr

**ANTH 71500 - Cultural Ecology**

Evolutionary view of interactions of human populations and their environment with emphasis on processes of cultural adaptation.

*Hours 3 hrs, including conferences,*
Credits 3 cr
ANTH 71600 - Medical Anthropology

Health and disease viewed comparatively in terms of how societies perceive, explain, prevent, and treat illness.

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 71800 - Applied Anthropology

Cross-cultural aspects of development work in U.S. and abroad. Theoretical foundations and practical aspects with emphasis on necessary ancillary skills.

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 72000 - Political Anthropology

Examination of different systems of political organization with emphasis on tribal and peasant societies.

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 72100 - Anthropology of Art

Comparative study of expressive culture in Western and non-Western societies with special emphasis on plastic arts.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 72500 - Sex and Gender in Anthropological Perspective

Reading and research on human sexual dimorphism, reproductive behavior, and cultural conditioning of gender roles.

Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 72600 - Ethnology of Africa

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.
ANTH 72700 - Ethnology of Europe

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 72800 - Ethnology of Near East

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 72900 - Ethnology of Southeast Asia

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 73000 - Ethnology of China and East Asia

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 73100 - Ethnology of Caribbean

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 73400 - Ethnology of South America
The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

*Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 73500 - Ethnology of North American Indians**

The following course presents an ethnographic survey of cultural variation in a specific world region and treats in depth-through readings, guided research, and discussion-some of the major ethnological problems arising in that region.

*Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**Linguistics**

**ANTH 77000 - Linguistics (Core Course)**

*Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 77100 - Seminar in Linguistics**

*Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 77700 - Language and Culture**

Role of language, dialect, and bilingualism in social life, including language of politics, language in education, language variation as related to context, sex, status, topic, etc.

*Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.*

**ANTH 77800 - Seminar in Sociolinguistics**

Selected topics in language and society, such as language and ethnicity, bilingualism, language contact, creole languages, etc.

*Hours 3 hrs, including conferences,*
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

Anthropology: Courses offered upon sufficient student demand

ANTH 70400 - Field Research
Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 70500 - Quantitative Measures
Hours 3 hrs, including conferences,
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 70900 - Folklore and Mythology
Hours 3 hrs, including conferences
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 71000 - Psychological Anthropology
Hours 3 hrs including conferences
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 71100 - Economic Anthropology
Hours 3 hrs, including conferences
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 77200 - Phonological Analysis and Theory
Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 77300 - Grammatical Analysis and Theory
Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 77500 - Linguistic Field Techniques and Methods
Hours 3 hrs, including conferences.
Credits 3 cr.
All students must consult with the graduate adviser before registering for any course.

ANTH 77600 - Cognitive Anthropology

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 79400 - Primate Ecology and Behavior

Hours 3 hrs, including conferences
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

ANTH 79500 - Primate Paleontology

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

Other Courses

ANTH 74500 - Anthropology of Science

This course examines how scientific knowledge is made in laboratories and other venues of scientific practice, while helping students develop critical evaluations of the power and authority of science and understand its role in current social problems. Students will examine scientific practices and notions of objectivity; make comparisons with indigenous, non-Western, and lay knowledge systems; and explore ethical and legal aspects of scientific innovation.

prereq: department permission
Hours 3 hrs
Credits 3 cr.

Programs and Courses in Art

Art and Art History

OVERVIEW

The Hunter College Department of Art & Art History offers two distinguished master's programs, an MA in art history and an MFA in creative art. The department boasts world renowned faculty in art history and studio art.

Hunter is situated within walking distance of a range of resources unsurpassed anywhere for the study of art history: outstanding museums, galleries and specialized research libraries. The Art History - MA, granted by Hunter College since 1952, is a comprehensive program of study intended to give the student a broad background in the history of art as well as an in-depth concentration in a particular area. It leads to enrollment in PhD programs throughout the country and serves as a terminal degree for professional work in museums, galleries, arts organizations and art publishing.
In New York, as nowhere else, the Studio Art - MFA student has access to the changing ideas and forms of contemporary art. This is crucial to the achievement of the goal of the MFA program: to develop professional artists capable of continued growth once they leave the relatively structured university environment. The program is designed to offer broad training for the artist in the development of critical and analytical visual thinking as it relates to their work. Students are encouraged to develop their own art through constant peer contact in the studios, individual work with faculty tutors, critical seminars focusing on student work, and classes in the theory and history of art. Electives in a range of studio practices broaden student experience and are also required. In addition, many artists, curators, critics and historians are invited to meet with students.

Art Facilities and Galleries

Facilities

The department functions in two main Manhattan locations, the main campus at 68th Street and Lexington Avenue and the MFA Studio Building at 205 Hudson Street in Tribeca. The main campus at 68th Street houses the administration, the Leubsdorf Art Gallery, and the Zabar Art Library with extensive databases including Artstor, a digital source of over one million images in the arts and humanities. It also houses fully equipped workshops on the 11th floor in photography, graphics (printmaking), metal, wood and plaster, as well as a computer lab and painting and drawing studios. The basement of Thomas Hunter Hall, the adjacent building, houses the clay workshop.

The MFA Building is a large, unique facility that plays a significant role in the life of the college and, indeed, the city as a whole. It has studio space for up to 150 students and a 5,000 square foot gallery. The building houses a number of workshops and labs including photography, wood, metal, printmaking and ceramics studios, as well as digital audio and video production labs.

Galleries

The Bertha and Karl Leubsdorf Art Gallery, located at the main campus, houses professionally organized exhibits that support the educational programs of the Department of Art & Art History at Hunter College. The gallery at 205 Hudson Street is home to each semester's MFA theses exhibitions and other exhibitions supporting the department's educational mission. Students in both the MA and MFA programs have opportunities to make curatorial and research contributions to shows mounted at the Hunter College Galleries. The Department and its students are also involved with the Artist's Institute, located in a townhouse on East 65th Street, and with the Hunter East Harlem Gallery, on 119th Street and Third Avenue.

Curatorial Studies - Advanced Certificate

Program

The certificate is intended to formalize and recognize the high level of curatorial training already being provided to graduate students (both MA and MFA) in the Department of Art & Art History, and to intensify and amplify that training through the rigor of an official curriculum. In the academic and practical curriculum laid out below, students will gain experience, contacts, and visibility in the city and in international art world. Relevant job opportunities for students who attain this certificate include Curator, Curatorial Assistant, Gallerist, Gallery Director, Art Fair manager, Public Art Consultant, Art Adviser, private collection curator, Registrar, and many other related positions in museums and also private or commercial interests.

Admission Requirements

The certificate program, which is open by subsequent application to Hunter College students accepted into either the MA or the MFA, and by application to students holding the MA in Art History (or related degree) from another accredited institution, consists of a sequence of four courses designed specifically to offer both a theoretical and historical grounding in curatorial practices and practical experience in exhibition organization and display and object/collection research and preservation. For students already enrolled in the Hunter MA or MFA programs, of the 12 credits required for the certificate, 6 would fulfill requirements within the existing 30 credit MA degree in Art History or the existing 48 credit MFA, and 6 would be in addition to those credit limits in both programs. Students admitted directly to the certificate program would be required to complete 12 credits.

Program Requirements

Curriculum

I. Methodology- 3 cr.

ARTH 60200 - Research Methods of Art History

Training in bibliographical materials and research methods through examination of special problems in art history and writing of research paper.
II. Exhibition Practicum - 3 or 6 cr.

**ARTH 76000 - Curatorial Practicum**

A subject specific Exhibition seminar/practicum: the course would focus on an exhibition project, led by a faculty member and researched by students, culminating in an exhibition. It will acquaint students with all aspects, from creative to practical, in mounting an exhibition.

*Hours 3 hrs.  
Credits 3 cr.*

**ARTH 78000 - Special Topics in Art**

Graduate seminars on specific topics established by individual faculty. Topics in recent years have included Greek Vase Painting, Medieval Art and Thing Theory, Love and Death in Italian Renaissance Art, Mapping Mexico City, Networks of Power in the Ottoman Empire, International Rococo, Manet, Contemporary African Art.

- Special topics course 78008: Artist's Institute -or- ARTH 780099 Guided Internship

III. History of Exhibitions, Collecting, and Curatorial Practices - 3 or 6 cr.

**ARTH 76100 - Special Topics Seminar in Exhibitions and Collecting**

This course addresses the history of collecting as the foundation of institutions that foster the production, dissemination, and preservation of art. Dependent on the expertise of the instructor, this course varies among topics such as History of Museums, History of Biennials, History of Collecting, Taste, and Patronage, and Theoretical and Critical investigations of Collecting Practices.

*Hours 3 hrs.  
Credits 3 cr.*

It leads to enrollment in PhD programs throughout the country and serves as a terminal degree for professional work in museums, galleries, arts organizations and art publishing.

Admission Requirements

Applicants are admitted in both fall and spring semesters. The applicant must have completed 12 credits of undergraduate courses in art history. Reading knowledge of a foreign language (French, German, or Italian) is required. All supporting material requested by the college's Graduate Admissions Office (GRE score, official transcript, two to three letters of recommendation, and a writing sample) as well as the completed on-line application form must be supplied by the application deadlines. Application Deadlines: for fall admission, February 1; for spring admission, October 1.

Program Requirements

Curriculum

1. Course Requirements

1. ARTH 60200 Research Methods of Art History (3cr), as early as possible in a student's course of study.
2. One course must be taken in art historical theory or historiography, such as ARTH 73400, or a special topics course directly related to one of these areas (3cr).
3. Three courses from three of the following four areas (9cr):
   - Ancient and Medieval Art
   - Renaissance, Baroque, and 18th-century Art
   - Modern (19th- or 20th-century) and American Art
   - Non-Western Art
4. Three electives in Art History or other courses approved by the department (9cr).
5. Masters Thesis (6cr):
   - ARTH 79900 Thesis Research
   - ARTH 80000 Thesis Writing

2. Permission of the graduate adviser:

With the permission of the graduate adviser, candidates for the MA in art history may take up to 6 credits in studio courses or in courses in related areas.

Additional Information

Transfer students

Students may apply for transfer of up to, but no more than, 9 credits from another institution (including the Graduate Center of the City University of New York). Permission to transfer credits is not guaranteed and is considered on a case by case basis.
Examinations

Students must take and pass two examinations before they are permitted to proceed beyond 15 credits. It is recommended that they take these examinations as early in their careers as possible. Both examinations are given once each semester.

Language Examination:

Students must demonstrate their ability to use at least one foreign language as a research tool by passing a written examination in French, German, Italian, or Spanish.

Comprehensive Examination:

Passing a written examination in the history of art is required of all candidates.

Mid-program evaluation:

The progress of each student will be reviewed upon the completion of 15 credits. Students will be permitted to proceed if they have demonstrated proficiency in writing and research skills and have passed the comprehensive and foreign language examinations.

Incomplete credit:

Students with 6 credits of IN ("Incomplete") will not be permitted to register for courses.

Facilities

The department functions in two main locations, the main campus at 68th Street and Lexington Avenue and the MFA Studio Building at 450 West 41st Street. The North Building at 68th Street houses the administration and the library and has fully equipped, newly renovated workshops on the 11th floor in photography, graphics, metal, wood, plaster, computer graphics and general painting studios. The basement of Thomas Hunter Hall, the adjacent building, houses the clay workshop. The MFA Building houses the graduate studios, the MFA Gallery, and the graduate photo, wood, metal and ceramics studios.

Galleries

The Bertha and Karl Leubsdorf Art Gallery, located at the main campus, houses professionally organized exhibits that support the educational programs of the Department of Art and Art History at Hunter College.

The 205 Hudson Gallery is located in the MFA facility at 205 Hudson Street in Tribeca. The 3500-sq. ft. space houses MFA thesis exhibitions each semester as well as exhibitions curated by Hunter graduate students and faculty.

Hunter East Harlem Gallery is located in the Silberman School of Social Work on Third Avenue at 119th Street. It is devoted to exhibiting artists engaged in social practice, community projects, and other alternative forms of public art.

The Artist's Institute, located in Casa Lally on East 65th Street between Lexington and Third Avenues, is a research and exhibition space for contemporary artists and writers.

Scholarships and Travel Grants
Among the programs targeted scholarships are the Estrellita Brodsky scholarships which supports strong MA students working in Latin American and African American art history, and the Virginia Adams Award, which supports students working on pre-twentieth-century topics. Edna Wells Luetz/Joseph P. Riedel Scholarship provides support for Hunter College undergraduates pursuing graduate studies in the Department of Art and Art History. The Queen Sofia Spanish Institute Fellowship supports research travel for students researching topics in the Hispanophone world. The Joan Lazarus fellowships support both MA and MFA students working on exhibitions in the Hunter College Art Galleries. We have established ongoing paid internship relationships with the Dia Art Foundation and the Maria, Hans, and Renate Hofmann Trust, and working relationships with the Rauschenberg Foundation and, beginning in the 2018-19 academic year, Hunter MA students were able to participate in the Metropolitan Museum of Art's yearlong Curatorial Practice Seminar.

Program Adviser

Maria Antonella Pelizzari, Professor, Art History

Studio Art - MFA

Program

The MFA Program in Studio Art is a three-year program that offers advanced studies in Visual Art. Working with faculty from ceramics, drawing, sculpture, new genres, painting, printmaking, and photography, students learn to develop innovative, politically and socially engaged expression using diverse media. The MFA in Studio Art offers a 48-credit course of study, combining interdisciplinary seminars, one-on-one tutorials, classes on special topics, and art history courses spanning diverse histories. The MFA in Studio Art gives access to visiting curators, visiting artist workshops, curatorial studies, lectures, and an interdisciplinary program of graduate-initiated activities and access to courses in any other CUNY school. MFA students explore new ways to advance the field of visual arts and ideas, balancing critical thinking with aesthetics, contemporary issues within an historical perspective, theory with practice, and traditional methods with new technologies.

Admission Requirements

Applications are reviewed once a year. The applicant must have completed an undergraduate degree from an accredited institution. Applicants who have a previously completed an MFA in art cannot be considered for admission to the studio art program at Hunter College. Applicants must submit the on-line Hunter College Graduate Application for Admission. This application, with all supporting materials, must be submitted prior to the January 15 deadline. For application guidelines visit the Art Department website.

The Art Department Graduate Admissions Committee will select finalists for admission to the MFA program. All finalists will be scheduled for an interview.

Program Requirements

Curriculum

Candidates must complete 48 credits, distributed as follows:

- 9 credits of tutorial work
  ARTCR 61400 Studio Tutorial I
ARTCR 61500 Studio Tutorial II
ARTCR 61600 Studio Tutorial III
• 9 credits of seminar work
ARTCR 66200 Seminar I
ARTCR 66300 Seminar II
ARTCR 66400 Seminar III
• 9 credits of special topics
ARTCR 75100 Special Topics in Studio Art
• 6 credits of thesis
ARTCR 79100 Thesis Exhibition
ARTCR 79200 Thesis Writing
• 9 credits of liberal arts electives in the history, theory, and criticism of art;
• 6 elective credits which may be used for additional art history or studio electives, graduate level courses in other departments or colleges, or non-traditional courses or projects such as apprenticeships, teaching assistantships or participation in the foreign exchange program.

Mid Program Review: Eligibility to continue to work toward the degree is evaluated by a committee of MFA faculty in the third semester.

Residency Requirement: Each student is provided a studio and participates in the program through its use, where they are expected to hold tutorial meetings.

Additional Information

Foreign Exchange Program

We have exchanges with different schools and programs around the world. Consult the website for current information.

Art History

ARTH 60200 - Research Methods of Art History

Training in bibliographical materials and research methods through examination of special problems in art history and writing of research paper.

Hours 45 hrs,
Credits 3 cr
offered every semester

ARTH 61900 - Greek Art

Greek sculpture and painting from Geometric to Hellenistic period. Emphasis on masterpieces of Archaic, Classical, and Hellenistic eras.

Hours 45 hrs,
Credits 3 cr

ARTH 62000 - Roman Art
Roman art from Republican period to Age of Constantine. Emphasis on imperial reliefs, portraits, sarcophagi, and wall painting.

*Hours 45
*Credits 3

**ARTH 62100 - Modern Art I**

Origins and history of modern art in 19th century.

*Hours 45
*Credits 3

**ARTH 62200 - Modern Art II**

Modern art in 20th century.

*spring only*

**ARTH 62300 - Renaissance Art I**

Studies in art of 14th and 15th centuries.

*Hours 45
*Credits 3

**ARTH 62400 - Renaissance Art II**

Studies in art of 16th century.

**ARTH 62500 - Baroque Art**

Studies in art of 17th century.

**ARTH 63600 - Chinese and Japanese Art**

Studies in Chinese and Japanese painting.

**ARTH 63700 - Medieval Art I**

Studies in art of early Middle Ages.

**ARTH 63800 - Medieval Art II**

Studies in art of later Middle Ages.

*spring only*

**ARTH 64100 - Islamic Art**
Art and architecture of Islamic world from Spain to India.

**ARTH 73400 - Theory and Criticism of Art**

Readings in the history of art history and/or critical theory as a background and methodology for current problems in the discipline and in contemporary art criticism.

**ARTH 74000 - Photography in the 19th Century**

Studies in 19th Century photography.

*Hours 45  
Credits 3*

**ARTH 75000 - Photography in the Twentieth Century**

An historical and critical survey of the art of photography in Europe and in the United States from the avant-gardes in the early twentieth century to conceptual art and postmodernism in the 1970s.

**ARTH 76000 - Curatorial Practicum**

A subject specific Exhibition seminar/practicum: the course would focus on an exhibition project, led by a faculty member and researched by students, culminating in an exhibition. It will acquaint students with all aspects, from creative to practical, in mounting an exhibition.

*Hours 3 hrs.  
Credits 3 cr.*

**ARTH 76100 - Special Topics Seminar in Exhibitions and Collecting**

This course addresses the history of collecting as the foundation of institutions that foster the production, dissemination, and preservation of art. Dependent on the expertise of the instructor, this course varies among topics such as History of Museums, History of Biennials, History of Collecting, Taste, and Patronage, and Theoretical and Critical investigations of Collecting Practices.

*Hours 3 hrs.  
Credits 3 cr.*

**ARTH 78000 - Special Topics in Art**

Graduate seminars on specific topics established by individual faculty. Topics in recent years have included Greek Vase Painting, Medieval Art and Thing Theory, Love and Death in Italian Renaissance Art, Mapping Mexico City, Networks of Power in the Ottoman Empire, International Rococo, Manet, Contemporary African Art.

**ARTH 78007 - Modern Art III**

Studies in contemporary art.
Art History Independent Research

ARTH 75500 - Independent Study

Independent studies in history or theory of art under direction of faculty member.

Credits 3

ARTH 79900 - Thesis Research

Independent research toward MA thesis under direction of faculty member. This course aims to introduce Art History MA students to the steps needed to plan and begin writing their thesis. Each student works with his/her primary advisor towards the development of a manageable and original thesis topic, which involves primary research and the preparation of an annotated bibliography pertaining to the subject, the development of an argument, and the writing of a 6-page prospectus and one chapter (20-pages-long), both doublespaced, 12-size font, with footnotes included. Limited to matriculated MA students in art who have completed 20 grad cr. Independent research toward MA thesis under direction of faculty member.

prereq: Department Permission Required

Hours 3 hrs
Credits 3 cr.

ARTH 80000 - Thesis Writing

Over the course of this class, each student works individually with his/her primary adviser towards the completion of polished, submission-ready thesis chapters, which involves the deployment of primary and secondary research, the analysis of objects of visual and material culture, the crafting and polishing of convincing argumentation, and the editing and polishing of language at the sentence, paragraph, and thesis-level. The student will write during this course, breaking down the process into drafting, rewriting and restricting, and editing. Open to students who have completed ARTH 79900.

prereq: Department permission and completion of ARTH 79900 required

Hours 3 hrs
Credits 3 cr.

Studio Art - Tutorials

ARTCR 61400 - Studio Tutorial I

Studio Tutorials are one-on-one meetings with a faculty member that are used to define methods for the development of the individual student's art practice. Students are expected to expand their field of knowledge, and demonstrate self-awareness by creating and articulating a clear methodology for their area of study.

Hours 3 hrs
Credits 3 cr.

ARTCR 61500 - Studio Tutorial II
Studio Tutorials are one-on-one meetings with a faculty member that are used to define methods for the development of the individual student's art practice. Students are expected to expand their field of knowledge, and demonstrate self-awareness by creating and articulating a clear methodology for their area of study.

Hours 3 hrs  
Credits 3 cr.

**ARTCR 61600 - Studio Tutorial III**

Studio Tutorials are one-on-one meetings with a faculty member that are used to define methods for the development of the individual student's art practice. Students are expected to expand their field of knowledge, and demonstrate self-awareness by creating and articulating a clear methodology for their area of study.

Hours 3 hrs  
Credits 3 cr.

**ARTCR 62200 - Advanced Sculpture II**

Individual tutorial with full-time faculty member. Development of creative expression in sculpture, including research projects in various media.

Hours 45 hrs,  
Credits 3 cr

**ARTCR 62300 - Advanced Sculpture III**

Individual tutorial with full-time faculty member. Development of creative expression in sculpture, including research projects in various media.

Hours 45 hrs,  
Credits 3 cr

**ARTCR 62500 - Advanced Graphic Arts I**

Individual tutorial with full-time faculty member. Woodcut (black and white and color) printing. Soft ground and hard ground etching. Aquatint. Line engraving on metal. Dry point. Color printing with metal; surface printing offset, and intaglio color from traditional to latest experimental methods.

Hours 45 hrs,  
Credits 3 cr

MFA majors in graphics only

**ARTCR 62600 - Advanced Graphic Arts II**

Hours 45 hrs,  
Credits 3 cr

**ARTCR 62700 - Advanced Graphic Arts III**
ARTCR 62900 - Combined Media

Individual tutorial with full-time faculty member. Tutorial in various experimental media such as environmental, conceptual, film, video, etc.

ARTCR 63100 - Advanced Photography I

Individual tutorial with full-time faculty member. Advanced projects in photography ranging from photojournalism through formal and experimental multimedia imagery.

ARTCR 63200 - Advanced Photography II

Individual tutorial with full-time faculty member. Advanced projects in photography ranging from photojournalism through formal and experimental multimedia imagery.

ARTCR 63300 - Advanced Photography III

Individual tutorial with full-time faculty member. Advanced projects in photography ranging from photojournalism through formal and experimental multimedia imagery.

ARTCR 63500 - Advanced Ceramics I

Individual tutorial with full-time faculty member.

ARTCR 63700 - Advanced Ceramics III
Individual tutorial with full-time faculty member.

Hours 45 hrs
Credits 3 cr
MFA majors in clay and casting only

**Studio Art - Seminars**

**ARTCR 66200 - Seminar I**

A graduate course requirement for the MFA. This class is open to any student who has been accepted into the MFA Studio Art. Students will be expected to present their work for the purpose of discussion and critique. The class will be taught by professors who will instruct students in the theory, criticism and practice of contemporary art. This is an advanced course, and will facilitate learning as student growth in areas of study including Painting, Sculpture, New Genres, Ceramics, Drawing or Printmaking. Museum/gallery visits, readings and written analysis of exhibitions may be assigned to help build an understanding of how skill and technique are implemented in the conceptual creation of their art.

Hours 3.5 hrs
Credits 3 cr.

**ARTCR 66300 - Seminar II**

A graduate course requirement for the MFA. This class is open to any student who has been accepted into the MFA Studio Art. Students will be expected to present their work for the purpose of discussion and critique. The class will be taught by professors who will instruct students in the theory, criticism and practice of contemporary art. This is an advanced course, and will facilitate learning as student growth in areas of study including Painting, Sculpture, New Genres, Ceramics, Drawing or Printmaking. Museum/gallery visits, readings and written analysis of exhibitions may be assigned to help build an understanding of how skill and technique are implemented in the conceptual creation of their art.

Hours 3.5 hrs
Credits 3 cr.

**ARTCR 66400 - Seminar III**

A graduate course requirement for the MFA. This class is open to any student who has been accepted into the MFA Studio Art. Students will be expected to present their work for the purpose of discussion and critique. The class will be taught by professors who will instruct students in the theory, criticism and practice of contemporary art. This is an advanced course, and will facilitate learning as student growth in areas of study including Painting, Sculpture, New Genres, Ceramics, Drawing or Printmaking. Museum/gallery visits, readings and written analysis of exhibitions may be assigned to help build an understanding of how skill and technique are implemented in the conceptual creation of their art.

Hours 3.5 hrs
Credits 3 cr.

**Studio Electives**

**ARTCR 64200 - Advanced Drawing III**
A studio elective for MFA students.

*Hours 4*

*Credits 3*

**ARTCR 75000 - Independent Study in Studio Art 1, 2**

*Hours 45 hrs.*

*Credits 3 cr.*

*These credits are used when a student travels to one of our exchange programs.*

**ARTCR 75100 - Special Topics in Studio Art**

Special projects in art according to the specialty or area of research of the professor, and in timely response to current trends.

*Hours 3.5 hrs*

*Credits 3 cr.*

**ARTCR 75156 - Apprenticeship**

Teaching Assistantship with a Full-time Faculty Member

*prereq: must have passed Mid-Program Review, permission of the instructor*

**Studio Art MFA Thesis Project**

**ARTCR 79100 - Thesis Exhibition**

This class centers on the development and completion of artwork for the student's MFA thesis exhibition. Student works closely with their faculty thesis adviser, meeting regularly as research and work for the exhibition evolves. The faculty adviser helps the student envision and plan the logistics of where and how their work will be installed and displayed in the gallery. The thesis work also serves as a launch into the professional art world and establishes the conceptual and art historical parameters necessary for an ongoing studio practice. Participation in the exhibition represents the successful culmination of the student's MFA studies.

*prereq: Completion of 39 credits in the MFA Program*

*coreq: ARTCR 79200*

*Hours 3 hrs*

*Credits 3 cr.*

**ARTCR 79200 - Thesis Writing**

ARTCR79200 provides instruction to assist in the writing component of the MFA student's thesis presentation. It may be taken in advance of or simultaneously with the penultimate semester, the thesis exhibition semester. Students must have completed 24 credits (one half of the program) prior to taking ARTCR79200. The class will focus on student writing skills in general with the specific goal of instructing them in the skills and knowledge required to write a successful thesis statement. The thesis statement is an essential requirement in that professional work as an artist requires regular writing to explain work to the public, apply for professional opportunities, etc. The class will be taught
by one instructor who may tap other faculty or outside experts to aid in instruction in specific topics. Instruction will relate self-defined student artwork with assigned writing projects.

prereq or coreq: Completion of 24 credits in the MFA Program
Hours 3 hrs
Credits 3 cr.

**Studio Art - Courses less frequently offered**

**ARTCR 61100 - Advanced Painting I**

Individual tutorial with full-time faculty member.

*Hours 45 hrs,
Credits 3 cr*
*MFA majors in painting only*

**ARTCR 61200 - Advanced Painting II**

Individual tutorial with full-time faculty member.

*Hours 45 hrs,
Credits 3 cr*
*MFA majors in painting only*

**ARTCR 61300 - Advanced Painting III**

Individual tutorial with full-time faculty member.

*Hours 45 hrs,
Credits 3 cr*
*MFA majors in painting only*

**ARTCR 62100 - Advanced Sculpture I**

Individual tutorial with full-time faculty member. Development of creative expression in sculpture, including research projects in various media.

*Hours 45 hrs,
Credits 3 cr*

**ARTCR 63600 - Advanced Ceramics II**

Individual tutorial with full-time faculty member.

*Hours 45 hrs,
Credits 3 cr*
*MFA majors in clay and casting only*

**ARTCR 64000 - Advanced Drawing I**
A studio elective for MFA students.

Hours 4
Credits 3

Programs and Courses in Biochemistry

Biochemistry

About the Program

The interdisciplinary program in Biochemistry is jointly administered and staffed by members of the Biological Sciences and Chemistry departments. The master's degree is offered as a terminal degree. Both first-year courses and advanced courses are available at Hunter College and/or at the Graduate Center, 365 Fifth Avenue, New York, NY 10016.

What can I do with my degree in Biochemistry?

The MA in Biochemistry prepares graduates to compete for laboratory professions in academia or industry, further education in the health professions and continued studies in doctoral programs in biochemistry or other biomedical science.

Requirements for Admission for Plan 1 and Plan 2

General admission requirements to Hunter's graduate programs are observed including GRE (verbal and quantitative reasoning); TOEFL (for foreign students whose native language is other than English). The GRE will be waived upon applicant's request, if documentation of professional experience in the field, or graduate-level academic work show adequate preparation to successfully pursue the degree.

In addition, the student must have completed the following courses: general chemistry (including qualitative analysis) (one year), quantitative analysis, organic chemistry (one year), physical chemistry (one semester lecture and laboratory), biology (one year), biochemistry lecture and laboratory (one semester). Deficiencies may be made up during the first three semesters of graduate study.
Students who have successfully completed two or more graduate-level courses with a GPA of 3.0 or better may request a waiver of the GRE score requirement. The request for GRE waiver must be submitted in writing at least one month before the deadline of applications (end of October for Fall admission, end of March for the spring admission).

Requirements for Admission for Plan 3

The general guidelines for admission to Hunter College will be followed. Students who have successfully completed two or more graduate-level courses with a GPA of 3.0 or better may request a waiver of the GRE score requirement. The request for GRE waiver must be submitted in writing at least one month before the deadline of applications (end of October for Fall admission, end of March for the spring admission). (Note, this new policy on GRE waiver will be applied to all three study plans). Students who have successfully completed two or more graduate-level courses with a GPA of 3.0 or better may request a waiver of the GRE score requirement. The request for GRE waiver must be submitted in writing at least one month before the deadline of applications (end of October for Fall admission, end of March for the spring admission). Students interested in Plan 3 should submit a written letter-of-intent to the advisor after being admitted to the M.A. Program in Biochemistry before the ending of the first semester of study. To qualify for this option, students must have completed 9-12 credits of graduate-level courses that can be transferred upon approval. Credits that counted toward graduation requirements for a baccalaureate degree cannot be transferred. In addition, the student should provide an evaluation letter from the thesis mentor indicating the student can complete the thesis within one year. In the event that the student fails to defend the thesis by the end of the first year of study, he/she could may request a one-year extension to graduate under the Accelerated Thesis Option. Alternatively, or in the event the request is denied, he/she has the option to chose to graduate under study Plan 2: The Thesis Option or Plan 1: the Comprehensive Exam Option, provided that he/she meets all requirements of the chosen Plan 2.

Requirements for the Degree

Comprehensive Examination or Thesis:

Students may complete the requirements for the MA through either of the following two plans:

- Plan (1): A minimum of 30 credits of course work plus a passing grade in a comprehensive examination.

- Plan (2): A minimum of 24 credits of course work, plus 6 credits from a thesis on an original research problem. The thesis must be approved by the student’s adviser, and it must be defended before a thesis committee.

Courses:

The student must complete the following courses from the list below. Note that no more than 10 credits of 600-level courses may be taken.

Plan (1):

**BIOCHEM U71010 - Advanced Biochemistry 1**

*prereq: a 1-semester course in biochemistry or equiv and physical chemistry*

*Hours 3 hrs, Credits 3 cr*
Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

OR

**CHEM 64000 - Biochemistry I**

Proteins, enzymes, bioenergetics, recombinant DNA.

*prereq: 1 yr of undergraduate organic chemistry*

*Hours 3 hrs.*

*Credits 3 cr.*

Fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

**BIOCHEM U71020 - Advanced Biochemistry 2**

*prereq: BIOCHEM 71010 or equivalent*

*Hours 3 hrs.*

*Credits 3 cr.*

Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

OR

**CHEM 64100 - Biochemistry II**

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

*prereq: CHEM 64000*

*Hours 3 hrs.*

*Credits 3 cr.*

Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

**BIOCHEM U75000 - Bioorganic Chemistry**

*Hours 3 hrs.*

*Credits 3 cr.*

Fall only, offered at the Graduate Center

- BICM 77000 Physical Biochemistry

**CHEM 65000 - Biophysical Chemistry**

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

*prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent*

*Hours 4 hrs.*

*Credits 4 cr.*

Fall

Minimum of two courses from the following:
BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry
Hours 75 hrs,
Credits 5 cr
fall only

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
spring only

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)
Hours 60 lec,
Credits 4 cr
fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401
Hours 60 lec,
Credits 4 cr
Spring only

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor
Hours 30 hrs/wk for 4 wks,
Credits 4 cr
Additional Requirements:

- BIOCHEM 71551
- BIOCHEM 71552
- BIOCHEM 71553
- BIOCHEM 71554
- BIOCHEM 71100

Any remaining or additional credits may be taken by choosing courses in Biology or Chemistry as electives, or by taking additional research credits (BIOCHEM 71201, BIOCHEM 71202, BIOCHEM 71203, BIOCHEM 71204).

A passing grade of the Comprehensive Exam given at the end of the study.

Plan (2):

**CHEM 64000 - Biochemistry I**

Proteins, enzymes, bioenergetics, recombinant DNA.

*prereq: 1 yr of undergraduate organic chemistry

Hours 3 hrs.

Credits 3 cr.

Fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

**CHEM 64100 - Biochemistry II**

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

*prereq: CHEM 64000

Hours 3 hrs.

Credits 3 cr.

Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

**BIOCHEM U71010 - Advanced Biochemistry 1**

*prereq: a 1-semester course in biochemistry or equiv and physical chemistry

Hours 3 hrs.

Credits 3 cr.

Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

**BIOCHEM U71020 - Advanced Biochemistry 2**

*prereq: BIOCHEM 71010 or equivalent

Hours 3 hrs.

Credits 3 cr.

Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

**BIOCHEM U75000 - Bioorganic Chemistry**
BIOCHEM U77000 - Physical Biochemistry

prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry
Hours 3
Spring only, offered at the Graduate Center

Minimum of one course from:

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry
Hours 75 hrs,
Credits 5 cr
fall only

BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

prereq: undergraduate organic chemistry or biochemistry
Hours 60 hrs,
Credits 4 cr
spring only

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)
Hours 60 lec,
Credits 4 cr
fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401
Hours 60 lec,
Credits 4 cr
Spring only

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor

Hours 30 hrs/wk for 4 wks,
Credits 4 cr

Additional Requirements:

- BIOCHEM 71551
- BIOCHEM 71552
- BIOCHEM 71553
- BIOCHEM 71554
- BIOCHEM 71100
- BIOCHEM 79901
- BIOCHEM 79902
- BIOCHEM 79903

Any remaining credits may be taken as research credits (BIOCHEM 71201, BIOCHEM 71202, BIOCHEM 71203, BIOCHEM 71204)

Plan (3)

Minimum of 9 cr. Graduate-level courses that may come from any combination of three courses from the following three lists:

Hunter Chemistry:

- CHEM 63300 Computational Drug Discovery 3 cr.
- CHEM 66800 Structural Biology 3 cr.
- CHEM 67000 Introduction to Nanotechnology 3 cr.
- BIOCHEM U71010 Advanced Biochemistry 1 3 cr
- BIOCHEM U71020 Advanced Biochemistry 2 3 cr
- BIOCHEM U75000 Bioorganic Chemistry 3 cr

No more than two from the following Hunter Biology courses:

- BIOL 71013 Molecular Biology Lecture 5 cr
- BIOL 71401 Cell Biology 4 cr
- BIOL 70005 Genetics 4 cr
- BIOL 75003 Developmental Biology 4 cr

Graduate Center - Chemistry and Biochemistry:
- CHEM 81900 Topics in inorganic chemistry: Radiochemistry 3 cr.
- BICM 77000 Physical Biochemistry 3cr.

Minimum of 21 cr. of research-related training:

- BIOCHEM 71551 Seminar in Biochemistry 1
- BIOCHEM 71553 Seminar in Biochemistry 1
- BIOCHEM 71554 Seminar in Biochemistry 1
- BIOCHEM 71100 Basic Laboratory Techniques for Research in Biochemistry 4
- BIOCHEM 71201 Advanced Laboratory Techniques for Research in Biochemistry 1 cr.
- BIOCHEM 71202 Advanced Laboratory Techniques for Research in Biochemistry 2 cr.
- BIOCHEM 71203 Advanced Laboratory Techniques for Research in Biochemistry 3 cr.
- BIOCHEM 71204 Advanced Laboratory Techniques for Research in Biochemistry 4 cr.
- CHEM 64900 Instrumental Analysis 5 cr. OR CHEM U79000 Basic Laboratory Techniques for Research in Biochemistry 4 cr.
- BIOCHEM 79901 Thesis Research (Master's) 1
- BIOCHEM 79902 Thesis Research (Master's) 2
- BIOCHEM 79903 Thesis Research (Master's) 3

Biochemistry

BIOCHEM U71010 - Advanced Biochemistry 1

*prereq: a 1-semester course in biochemistry or equiv and physical chemistry*

Hours 3 hrs,
Credits 3 cr
Fall only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U71020 - Advanced Biochemistry 2

*prereq: BIOCHEM 71010 or equivalent*

Hours 3 hrs,
Credits 3 cr
Spring only, offered at the Graduate Center CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.

BIOCHEM U75000 - Bioorganic Chemistry

Hours 3 hrs,
Credits 3 cr
Fall only, offered at the Graduate Center

BIOCHEM U77000 - Physical Biochemistry

*prereq: Calculus, Physical Chemistry and 1 semester of Biochemistry*

Hours 3
Spring only, offered at the Graduate Center
BIOCHEM 71100 - Basic Laboratory Techniques for Research in Biochemistry

Individual projects, arranged with at least two faculty members. Lab and conferences.

Hours 8
Credits 4

BIOCHEM 71201 - Advanced Laboratory Techniques for Research in Biochemistry

Individual research project arranged with a faculty member of Department of Chemistry or Department of Biology. Students may register for 1 to 4 credits.

prereq: Department Permission Required
Hours 1 hr
Credits 1 cr.

BIOCHEM 71202 - Advanced Laboratory Techniques for Research in Biochemistry

Individual research project arranged with a faculty member of Department of Chemistry or Department of Biology. Students may register for 1 to 4 credits.

prereq: Department Permission Required
Hours 2 hrs
Credits 2 cr.

BIOCHEM 71203 - Advanced Laboratory Techniques for Research in Biochemistry

Individual research project arranged with a faculty member of Department of Chemistry or Department of Biology. Students may register for 1 to 4 credits.

prereq: Department Permission Required
Hours 3 hrs
Credits 3 cr.

BIOCHEM 71204 - Advanced Laboratory Techniques for Research in Biochemistry

Individual research project arranged with a faculty member of Department of Chemistry or Department of Biology. Students may register for 1 to 4 credits.

prereq: Department Permission Required
Hours 4 hrs
Credits 4 cr.

BIOCHEM 71551 - Seminar in Biochemistry
BIOCHEM 71552 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 71553 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 71554 - Seminar in Biochemistry

Hours 1
Credits 1
offered Fall and Spring

BIOCHEM 79901 - Thesis Research

Credits (Master's) 1

BIOCHEM 79902 - Thesis Research

Credits (Master's) 2

BIOCHEM 79903 - Thesis Research

Credits (Master's) 3
offered Fall, Spring, and Summer Open only to students writing a thesis as part of the requirements

CHEM 64900 - Instrumental Analysis

A laboratory-based introduction to electronic instrumentation-based analytical techniques for chemistry and biochemistry, which focuses on theoretical foundations and practical applications. The course discusses instrumental analysis applications in pharmaceutical research and production, materials, food science, forensics, energy, and medical laboratories, as well as basic research in chemistry, physics and biology. The course will be taught in a mixed format including lectures and laboratory projects, student-led discussions, and a final writing/oral presentation project, with a primary emphasis on laboratory experience.

prereq: departmental permission
Hours 8 hrs (2 hour lecture, 6 hour lab)
Credits 5 cr.

CHEM 66800 - Structural Biology
This course introduces to students the applications of molecular spectroscopy and other emerging techniques used to study the structure, the molecular interactions of, and the self-assembly of biomolecules. The course will be taught in a mixed format including lectures, computer laboratory projects, student-led discussions on journal papers, and a final writing/oral presentation project. Not open to students who have taken CHEM 369800

prereq: instructor permission
Hours 3 hrs
Credits 3 cr.

CHEM 67000 - Introduction to Nanotechnology

This course introduces students to the underlying principles and applications of the emerging fields of nanotechnology and nanoscience. Intended for a multidisciplinary audience with a variety of backgrounds, the course introduces tools and principles relevant at the nano scale. The course discusses current and future nanotechnology applications in engineering, materials, physics, chemistry, biology, electronics, and energy. Not open to students who have taken CHEM 36000

prereq: instructor permission
Hours 3 hrs
Credits 3 cr.

Programs and Courses in Biology

Biological Sciences

OVERVIEW

The Department of Biological Sciences has graduate and post-graduate research programs in molecular and cell biology, cancer biology, molecular and developmental genetics, and molecular neuroscience. Students may obtain the MA from Hunter College and/or the PhD jointly from Hunter College and the City University Graduate Center. The doctoral program is designed to prepare students to cope with the radical changes in direction and experimental approaches that will characterize future developments in biology, as well as to train highly qualified research scientists who are fully equipped to teach and to direct research in a wide variety of university and industry programs in the biological sciences.

Faculty of the department are pursuing projects in the forefront of modern research. In addition to the individual research laboratories, a number of shared facilities are housed in the department. They include transmission and scanning electron microscopes, a bioinformatics and sequencing facility equipped with an Illumina MiSeq and Oxford Nanopore Minion sequencers, an Agilent Electrophoresis Bioanalyzer and a Galaxy Web accessible Bioinformatics Platform all supported by a high performance computing cluster, a bioimaging facility, a fluorescence-activated cell sorter and a biopreparation facility. Several facilities are available through the chemistry department, including X-ray diffraction, NMR, mass spectroscopy and biomolecular computation. Shared modern animal facilities are also available.

What can I do with my degree in Biological Sciences?
A degree in the Biological Sciences opens up many career pathways. Biology graduates go on to complete graduate (MS, PhD, or MD/PhD) and professional degrees (MD, DO, DDS, DVM, OD, PharmD, etc), work in the biotech industry, education, in wildlife management, as a government scientist, or in a variety of other rewarding careers. The biotechnology and pharmaceutical industries are among the largest in the U.S. and there is great demand for professionals with biotechnology expertise. Graduates are prepared for careers in research science positions, regulation of drug approval and other biotechnology applications, management positions in the biotechnology industry, and positions at law firms in the biotechnology area.

**Programs and Courses**

Programs and Courses in Biology

Biochemistry - MA

Adolescent Biology - MA / Advanced Certificate

**Administration and Faculty**

Chair:

Derrick Brazill  
803 North  
(212) 772-3144  
brazill@genectr.hunter.cuny.edu

Department Office:

927 North  
(212) 772-5293  
Fax: (212) 772.5227  
Website: http://biology.hunter.cuny.edu

Hours of Operation: Monday – Friday 9:00 AM – 5:00 PM

**Faculty**

Biological Sciences Faculty

HEGIS Codes: 0401 (BA) (MA); 0499 (BA/MA in Biotechnology); 1223.01/0401 (BS/MA in Biotechnology)

**Graduate Doctorate**

**Doctoral Program in Biological Sciences**

**Doctor of Philosophy**
Students are encouraged to apply directly to the Doctoral Program in Biological Sciences, which is offered jointly by Hunter College and the CUNY Graduate School and University Center. Doctoral dissertation research is carried out in the Hunter College Department of Biological Sciences. A PhD in Biochemistry is also offered jointly with the CUNY Graduate School and University Center. For further information contact Professor Patricia Rockwell, 932 North Building, (212) 396-6202 or visit the Graduate Center website at http://www.gc.cuny.edu.

Hunter MA students who have been accepted to the joint Hunter College/CUNY Doctoral Program in Biological Sciences will have their required MA Comprehensive Exam as equivalent to a Doctoral First-Level Exam. If a Hunter College applicant is accepted into the Doctoral Program, a passing grade at the doctoral level on the exam will allow acceptance into the Doctoral Program as a Second-Level doctoral student.

**Master's Programs**

**Biological Sciences - MA**

**Program**

The degree is offered either as a terminal degree or as the first year toward the PhD within CUNY. Both introductory and advanced graduate courses are available at Hunter College.

**Requirements for Admission**

In addition to the general Requirements for Admission, the following departmental requirements must be met:

1. One year of organic chemistry with laboratory
2. One year of college physics
3. One semester of calculus and a second semester of either calculus or statistics
4. An undergraduate major in biology, botany, physiology, zoology, chemistry, physics, or other appropriate discipline with a minimum overall GPA of 2.7. A minimum of 18 credits in appropriate undergraduate science and mathematics courses should be presented. Chemistry or physics majors must offer at least one year of appropriate life science for admission to any of the majors in the MA program in biological sciences including a semester of genetics, molecular biology or biochemistry.
5. TOEFL Test for international students with a non-English speaking background.

Note: Students may submit scores on the General Test of the Graduate Record Examination (GRE) (verbal and quantitative) to improve the likelihood of admission.

**Requirements for the Degree**

The program of course work, planned with the graduate adviser, is concentrated in one of the following major areas: molecular and cell biology, cancer biology, molecular and developmental genetics, molecular neuroscience, and biotechnology.

**Required Courses**

**BIOL 70005 - Genetics**
Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

**prereq:** undergraduate genetics and molecular biology (or biochemistry)

**Hours** 60 lec,

**Credits** 4 cr

**fall only**

**BIOL 71013 - Molecular Biology Lecture**

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

**prereq:** 1 yr of organic chemistry

**Hours** 75 hrs,

**Credits** 5 cr

**fall only**

**BIOL 71401 - Cell Biology**

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

**prereq:** undergraduate organic chemistry or biochemistry

**Hours** 60 hrs,

**Credits** 4 cr

**spring only**

**BIOL 75003 - Developmental Biology**

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

**prereq or coreq:** BIOL 71013 and BIOL 71401

**Hours** 60 lec,

**Credits** 4 cr

**Spring only**

**Additional Information**

Up to 4 credits of tutorial are accepted toward the degree. Only one 600-level course including courses outside Biological Sciences, such as Biochemistry may be credited toward the degree.

**Matriculated Students May Fulfill Requirements for the MA**

Matriculated Students may fulfill requirements for the MA through either of the following plans:

- **Plan A - Comprehensive Exam Only:** A minimum of 30 credits of course work plus a passing grade in a written Comprehensive Examination in the areas covered by the four required core courses. The
Comprehensive Examination is given annually in June. Only fully matriculated students who have completed all four required courses may take the comprehensive examination.

- **Plan B - Comprehensive Exam and Thesis:** A minimum of 24 credits of course work plus a passing grade in a written Comprehensive Examination and a minimum of 6 credits of original research that is summarized in a written thesis. The completed thesis must be approved by the student’s faculty mentor, the MA adviser, and the Office of the Dean of Arts & Sciences at least one month before the expected date of graduation. An oral presentation of the MA thesis is required."

Courses for Non-matriculated Graduate Students

Students with a baccalaureate degree may register for some graduate courses without matriculation. After being admitted as a non-matriculating graduate student, students may take BIOL 70005 - Genetics (fall only) or BIOL 71401 - Cell Biology (spring only) without prior departmental permission. For all other courses, non-matriculating students must get permission directly from the course instructor. Specific graduate courses being offered each semester are listed at http://registrar.hunter.cuny.edu/subpages/searchclass.shtml. There is no dedicated adviser for non-matriculating students who want to take graduate Biology courses. Non-matriculating students should see any Biology faculty member during regular office hours for advising. Please contact the department secretary at 212-772-5293 to find out faculty office hours.

Biological Sciences MA with Specialization in Biotechnology

Admission Requirements

1. GPA 3.0
2. GRE (general part) to be taken before registering for 700-level courses
3. Baccalaureate degree in biology or related fields

Degree Requirements

30 credits plus a passing grade on a comprehensive examination or a thesis

- BIOL 62000 Internship

Core Courses for the MA (21-28 credits)

**BIOL 61000 - Workshop in Biotechnology**

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

*prereq: BIOL 71000 or permission of instructor
Hours 30 hrs/wk for 4 wks,
Credits 4 cr*

**BIOL 62000 - Internship**
Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

**prereq:** BIOL 61000  
**Credits** 3 months, 4 cr

### BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

**prereq:** undergraduate genetics and molecular biology (or biochemistry)  
**Hours** 60 lec,  
**Credits** 4 cr  
**Fall only**

### BIOL 71014 - Molecular Biology Laboratory

Isolation of RNA and DNA, construction and screening of DNA libraries, Southern and Northern blot analysis, cloning, DNA sequencing.

**coreq:** BIOL 71013 or comparable course in biochemistry  
**Hours** 105 hrs lab and conf,  
**Credits** 4 cr  
**Fall only**

### BIOL 71401 - Cell Biology

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

**prereq:** undergraduate organic chemistry or biochemistry  
**Hours** 60 hrs,  
**Credits** 4 cr  
**Spring only**

### BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

**prereq or coreq:** BIOL 71013 and BIOL 71401  
**Hours** 60 lec,  
**Credits** 4 cr  
**Spring only**

**Electives (5 -13 credits)**

**Additional Information**
For additional elective courses, consult department adviser.

**Undergraduate Major/Graduate Masters**

**Biological Sciences with Specialization in Biotechnology - BA/MA**

In this five-year program, qualified undergraduate Hunter College biology majors begin graduate work as seniors and receive the MA one year after completing BA requirements. Students are provided with theoretical knowledge and skills in molecular biology, and a foundation for application of these skills in careers in the biotechnology/pharmaceutical industry, academic research, or public health. Successful completion of the biotechnology workshop, an essential program component, entitles students to a summer internship in an industrial or private research laboratory.

**Biological Sciences: Basic concentration - BA**

**Biology with Specialization in Biotechnology - MA**

**Molecular and Cell Biology**

**BIOL 71013 - Molecular Biology Lecture**

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

*prereq: 1 yr of organic chemistry
Hours 75 hrs,
Credits 5 cr
fall only*

**BIOL 71014 - Molecular Biology Laboratory**

Isolation of RNA and DNA, construction and screening of DNA libraries, Southern and Northern blot analysis, cloning, DNA sequencing.

*coreq: BIOL 71013 or comparable course in biochemistry
Hours 105 hrs lab and conf,
Credits 4 cr
Fall only*

**BIOL 71401 - Cell Biology**

In-depth examination of cellular and subcellular organization and activity. Topics include membrane structure, biogenesis, transport; cell surface interactions, cells in culture, the cell cycle; organelle structure, function and assembly; modern experimental tools and techniques.

*prereq: undergraduate organic chemistry or biochemistry*
BIOL 77008 - Laboratory in Cell Structure -- Biological Electron Microscopy

The students will learn basic concepts of transmission electron microscope, principles of biological sample preparation for transmission electron microscopy, various electron microscopy applications, to be familiar with the morphology of different organelles inside the mammalian cell, and understand the functions of each organelle.

prereq: Permission of instructor
Hours 7 hrs (1 lecture + 6 lab)
Credits 4 cr.

BIOL 79049 - Computational Molecular Biology

An introduction to bioinformatics theories and practices. Topics include database searching, sequence alignment, molecular phylogenetics, structure predication, and microarray analysis. The course is held in a UNIX-based instructional lab specifically configured for bioinformatics applications. Each session consists of instruction on bioinformatics theories and hands-on exercises.

This course is designed for upper-level undergraduates and graduate students. Prior experiences in the UNIX Operating System and at least one programming language are required.

prereq: CSCL132 (Practical Unix and Perl Programming) and BIOL 300 (Biochemistry), or permission by the instructor.
spring only

Genetics and Developmental Biology

BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)
Hours 60 lec,
Credits 4 cr
fall only

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.
prereq or coreq: BIOL 71013 and BIOL 71401

Hours 60 lec,
Credits 4 cr
Spring only

BIOL 79070 - Neuroscience II

Given at CUNY Graduate Center. Introduction to sensory and motor systems and to neural behavioral development.

spring only

Physiology and Neuroscience

BIOL 79051 - Neuroscience I

Given at CUNY Graduate Center. Comprehensive introduction to neuroscience with regard to structure and function at the cellular level.

fall only Students must register for Neuroscience I at City College of CUNY.

Biotechnology

BIOL 61000 - Workshop in Biotechnology

Laboratory-intensive experimental projects which introduce current research techniques and include individual participation in planning and preparation for experiments. The focus is on a broad biotechnology topic such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics.

prereq: BIOL 71000 or permission of instructor

Hours 30 hrs/wk for 4 wks,
Credits 4 cr

BIOL 62000 - Internship

Students who successfully complete BIOL 61000 are eligible for a 3-month internship as an opportunity to acquire research experience and additional skills in industrial/private laboratory settings. A paper on the internship is required.

prereq: BIOL 61000

Credits 3 months, 4 cr

BIOL 79073 - Seminar Topics in Biotechnology

Seminar course entitled "From the Bench to the Clinic," which includes the molecular basis for diseases such as specific cancers and neurodegenerative disorders and current trends in their treatment.

Hours 45
Credits 3
Biological Sciences Seminars

BIOL 79051 - Seminar

Seminars may be offered in any of the following areas: cell biology, genetics, biochemistry, molecular genetics, physiology, developmental biology, neuroscience, biotechnology, and other special topics.

prereq: BIOL 70005 and BIOL 71013
Fall and Spring

BIOL 79099 - Seminar

Seminars may be offered in any of the following areas: cell biology, genetics, biochemistry, molecular genetics, physiology, developmental biology, neuroscience, biotechnology, and other special topics.

prereq: BIOL 70005 and BIOL 71014

Biological Sciences Tutorials

BIOL 79202 - Tutorial

prereq: permission of graduate adviser
Hours 30 or 60 hrs,
Credits 2 or 4 cr

BIOL 79204 - Tutorial

prereq: permission of graduate adviser
Hours 30 or 60 hrs,
Credits 2 or 4 cr

Biological Sciences Thesis Research - MA

BIOL 77100 - Special Topics in Experimental Biology

This course was designed to further the understanding of a broad range of topics in biology. This is an interactive lecture course where students are initially taught the tools of experimental biology. Students are then taught how to use those tools to study any subject matter (e.g., cancer, neurobiology, molecular biology). Students are then taught how to use those tools. Students are required to design experiments during discussion periods and critically assess the negative and positive outcomes of an experimental design. Master's-degree students seeking to pursue further graduate studies will greatly benefit and are highly encouraged to enroll. This course will also be complementary to pre-candidacy doctoral students that wish to design experiments towards their doctoral theses. In this regard, our course will help students pass of the level I exam given to students at the end of a BA/MA or MA degree.

prereq: Department permission
Hours 3 hrs
Credits 3 cr.
Accepted for credit towards a Master's in Biology.
BIOL 79910 - Thesis Research-MA

prereq: permission of graduate adviser
Hours 15, 30, or 45 hrs,
Credits 1, 2, or 3 cr, respectively

BIOL 79920 - Thesis Research-MA

prereq: perm grad adviser
Hours 15, 30, or 45 hrs,
Credits 1, 2, or 3 cr, respectively

BIOL 79930 - Thesis Research-MA

prereq: permission of graduate adviser
Hours 15, 30, or 45 hrs,
Credits 1, 2, or 3 cr, respectively

Biological Sciences Independent Doctoral Research

BIOL U89910 - Independent Doctoral Research

prereq: permission from graduate adviser

Hours each 15 to 150 hrs,
Credits 1 to 10 cr
(Course listed in the schedule of classes at the CUNY Graduate Center)

Biological Sciences: Special Topics

BIOL 790xx - Special Topics Courses

Seminar in Immunology, Cancer Research, Signal Transduction, Bioinformatics, Neurobiology, etc.

Credits 3

Biological Sciences Program for Teachers of Adolescent Education

BIOL 60000 - Molecular Biology for Science Teachers

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes, and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism.
prereq: An undergraduate degree in Biology and a course in Organic Chemistry and permission of instructor.

Fall only

**BIOL 60210 - Molecular Genetics for Science Teachers**

A comparison of viral, procaryotic, and eucaryotic systems; review of classical Mendelian principles and mechanisms; bacterial DNA replication, transcription, and their control; mechanisms of gene mutation, repair, recombination, and transposition; applications of recombinant DNA technology; organization of nucleic acid into chromosomes; control of gene expression in procaryotes, in the eucaryotic cell cycle, and in cell development.

prereq: BIOL 60000 or equivalent and permission of instructor

Spring only

**BIOL 60400 - Biology Education 1**

This course is designed to provide instructors of high school biology with graduate-level biological content knowledge and a sound pedagogical approach to teaching. The goal of this course is to train secondary science educators to understand basic principles in the life sciences and prepare them to teach the Living Environment for middle-school and high-school students. This course curriculum focuses on basic cellular and molecular concepts in biology.

prereq or coreq: BA degree in Biology/Biology Education, or permission of instructor

Hours 3 hrs
Credits 3 cr.

**BIOL 60500 - Biology Education 2**

This course is designed to dive deep into selected topics in ecology and evolution in a pedagogical content knowledge framework. Using a blend of online and in-person activities, the course guides participants through a series of content area exercises that can be translated to the middle-school or high-school classroom. The vision for the class is to provide in-depth instruction on ecology and evolution while developing best practices for instruction.

prereq or coreq: BA degree in Biology/Biology Education, or permission of instructor

Hours 3 hrs
Credits 3 cr.

**BIOL 61055 - Laboratory Workshop in Biology Education**

A series of laboratory-intensive experimental projects, each lasting one week or more, which introduce current research techniques and include individual participation in planning, preparation, and analysis of experiments. The focus is on broad biotechnology topics such as the isolation, cloning, and expression of a gene, utilizing the techniques of molecular genetics, and how these topics may be applied to the high school science classroom.

prereq: a graduate course in biology or permission of instructor

Hours 120 hrs,
Credits 3 cr

**BIOL 63000 - Science and Society**
A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

*prereq: BIOL 61055 or permission of instructor*

**BIOL 64000 - Biodiversity and Evolution**

This course is designed to prepare secondary science educators to examine essential questions in the life sciences and prepare them to teach the Living Environment regents course for ninth grade high school students and eighth grade middle school students, through the use of resources at the American Museum of Natural History.

*prereq: BA degree in Biology/Biology Education, or permission of instructor*

*Hours 2 hrs  
Credits 2 cr.  
Offered summer at the American Museum of Natural History*

**BIOL 66000 - Challenging Concepts in the Biological Sciences**

Overview of research and theory related to misconceptions in biology. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

*prereq: BIOL 61055, BIOL 63000, and one elective course or permission of instructor*

*Hours 4 hrs,  
Credits 4 cr*

**Biological Sciences: Courses offered only upon sufficient student demand**

**BIOL 65000 - Cell and Tissue Culture**

**BIOL 72202 - Endocrinology**

**BIOL 77006 - Laboratory in Cell Structure**

Applications of light and confocal microscopy, using fluorescence and multidimensional imaging to study cell structures. Lab projects involve immunofluorescence: fixation methods and immunocytochemistry. Illumination methods including multi-channel 3D rendering, image processing and visualization software.

*Hours 7 (2 lecture, 5 lab)  
Credits 4.5*

**BIOL 77101 - Analysis of Mammalian Cells in Tissue Culture**

**Programs and Courses in Chemistry**
Chemistry

OVERVIEW

The Department of Chemistry offers a range of graduate educational opportunities with strengths in both the fundamental areas of the discipline and in emerging fields and applications. Students may obtain the PhD degree from Hunter College jointly with the City University of New York (CUNY) Graduate Center with concentrations in: Analytical Chemistry, Inorganic Chemistry, Organic Chemistry, Physical Chemistry, Biophysical Chemistry, Biochemistry, Nano-technology and Materials Chemistry, and Environmental Chemistry. Additionally, students may also obtain the MA degree in Biochemistry jointly offered by the Department of Chemistry and the Department of Biology from Hunter College, or an MA in education jointly offered by the Department of Chemistry and the School of Education of Hunter College. Graduate level courses are offered at Hunter College and in the CUNY Graduate Center. Master's programs can be completed as a full- or part-time student, with or without a research thesis. Most graduate courses for Master programs are offered in the evening to facilitate enrollment of part-time students.

A major goal of our graduate programs is to train research scientists to create new knowledge that impacts both fundamental scientific principles and addresses societal needs. The continuing success and future development of most areas in academic, industrial, and government institutions will increasingly depend on a well-trained science workforce for innovation, planning, and policy. The vibrant and well-funded research labs of our faculty in the Department of Chemistry at Hunter College provide the essential part of research training of the graduate programs. Students in Ph.D. program are expected to start their independent research at the end of the first year of study, and to complete their thesis on an original research subject under the supervision of our faculty. Students can also opt to pursue an independent pedagogical research project as part of their thesis research. The research activities are further supported by an array of shared facilities and the state-of-art instruments including the NMR facility, the X-ray crystallography and electron microscope facility and the Mass-spectrometry facility. Other facilities and instruments are available in the Department of Biosciences and in the NIH funded Hunter Gene center.

What can I do with my degree in Chemistry?

The department provides training for students planning careers in the chemical sciences, biology, medicine, earth sciences, secondary education, business, and law across the chemical enterprise in academia, industry, government, and private practice.

HEGIS code 1905

Biochemistry

CHEM 64000 - Biochemistry I

Proteins, enzymes, bioenergetics, recombinant DNA.

prereq: 1 yr of undergraduate organic chemistry
Hours 3 hrs.
Credits 3 cr.
fall CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020.
CHEM 64100 - Biochemistry II

Metabolism, gene expression, immunobiochemistry, hormones, muscle biochemistry.

prereq: CHEM 64000
Hours 3 hrs,
Credits 3 cr
Spring CHEM 64000 and CHEM 64100 may be substituted by BIOCHEM U71010 and BIOCHEM U71020

Chemistry

CHEM U79000 - Basic Laboratory Techniques for Research in Biochemistry

Lecture and laboratory work dealing with the theories and applications of modern approaches to the solution of chemical problems.

Credits 4 cr

CHEM U79500 - First Level Doctoral Laboratory Research

Hours to be arranged, credits variable.

CHEM U81010 - Research for the Doctoral Dissertation

Credits credits variable, one or more credits per semester
Offered at The Graduate Center

CHEM U81040 - Research for the Doctoral Dissertation

Credits credits variable, one or more credits per semester
Offered at The Graduate Center

CHEM 64000 - Biochemistry 1

Credits lec., 3 cr

CHEM 64100 - Biochemistry 2

Metabolism, biomedical genetics, immuno-biochemistry, hormones, muscle biochemistry.

prereq: CHEM 64000
Credits lec., 3 cr

CHEM 64300A - Seminar
A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

Credits 1 cr

**CHEM 64300B - Seminar**

A discussion of current chemical research problems based either upon a unifying theme or, at the option of the instructor, upon selected topics of interest to the students.

Credits 1 cr

**CHEM 64900 - Instrumental Analysis**

CHEM 64900 is a laboratory-based introduction to electronic instrumentation-based analytical techniques for chemistry and biochemistry, which focuses on theoretical foundations and practical applications. The course discusses instrumental analysis applications in pharmaceutical research and production, materials, food science, forensics, energy, and medical laboratories, as well as basic research in chemistry, physics and biology. The course will be taught in a mixed format including lectures and laboratory projects, student-led discussions, and a final writing/oral presentation project, with a primary emphasis on laboratory experience.

*prereq: Department Permission*
*Hours 8 hrs (2 hour lecture, 6 hour lab)*
*Credits 5 cr.*

**CHEM 65000 - Biophysical Chemistry**

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, equilibria.

*prereq: 1 year organic chemistry, 1 year biology, MATH 15000 or equivalent*
*Hours 4 hrs.*
*Credits 4 cr*
*Fall*

**CHEM 65500 - Demonstrations, Models, and Technology**

Demonstrations, models, and technology.

Credits 3 cr

**CHEM 66000 - Challenging Concepts in Chemistry**

Overview of research and theory related to misconceptions in chemistry. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA.

*Hours 4 hrs.*
*Credits 4 cr*
CHEM 66800 - Structural Biology

This course introduces to students the applications of molecular spectroscopy and other emerging techniques used to study the structure, the molecular interactions of, and the self-assembly of biomolecules. The course will be taught in a mixed format including lectures, computer laboratory projects, student-led discussions on journal papers, and a final writing/oral presentation project. Not open to students who have taken CHEM 369800

prereq: Instructor Permission  
Hours 3 hrs  
Credits 3 cr.

CHEM 67000 - Introduction to Nanotechnology

This course introduces students to the underlying principles and applications of the emerging fields of nanotechnology and nanoscience. Intended for a multidisciplinary audience with a variety of backgrounds, the course introduces tools and principles relevant at the nano scale. The course discusses current and future nanotechnology applications in engineering, materials, physics, chemistry, biology, electronics, and energy. Not open to students who have taken CHEM 36000

prereq: Instructor Permission  
Hours 3 hrs  
Credits 3 cr.

CHEM 69200 - Introduction to Radiochemistry

Introduction to Radiochemistry is a lecture course with a laboratory component. The course will provide an introduction to the fundamental principles of radiochemistry, radioactive counting instrumentation, radioisotope production and applications of radiochemistry.

prereq: Departmental permission  
Hours 5 hrs (2 lecture, 3 lab)  
Credits 3 cr.

CHEM 69803 - Chemical Genomics

The advent of high-throughput technologies and powerful computational tools is transforming the manner new drugs are developed. This course (bioinformatics) is designed to introduce students to two emerging areas of drug development, namely (1) computer-assisted drug design and (2) personalized medicine. Computer-assisted drug design is an approach to design drugs based on three dimensional structures of macromolecules. Personalized medicine, on the other hand, aims at tailoring patient treatments based on individual genetic information (biomarkers). In this course, students will be first equipped with fundamental theoretical and experimental concepts related to these topics. Then, they will learn how to acquire new knowledge in these exciting fields of drug development through critical analysis of literature.

Hours 3  
Credits 3

CHEM 71000 - Advanced Inorganic Chemistry
The theoretical and experimental fundamentals of atomic and molecular structure. Emphasis is on physical interpretation.

*prereq: an advanced undergraduate inorganic chemistry course or CHEM 76000*

*Hours 3 hrs.*  
*Credits 3 cr.*

**CHEM 75000 - Advanced Organic Chemistry I**

Fundamentals of organic chemical principles, reactions and structures.

*Hours 45 hrs,*  
*Credits 3 cr*

**CHEM 75100 - Advanced Organic Chemistry II**

A continuation of CHEM 75000

*Hours 45 hrs,*  
*Credits 3 cr*

**CHEM 75200 - Quantum Organic Chemistry**

The application of modern theoretical techniques to organic chemical problems

*prereq: CHEM 75000 and CHEM 76000*

*Hours 45 hrs,*  
*Credits 3 cr*

**CHEM 76000 - Introductory Quantum Chemistry**

Systematic development of the theories of chemistry including mathematical development and structural effects and the application of these theories to chemical systems.

*Hours 45 hrs,*  
*Credits 3 cr*

**CHEM 76100 - Spectroscopy**

A continuation of CHEM 76000

*Hours 45 hrs,*  
*Credits 3 cr*

**CHEM 77000 - Chemical Thermodynamics**

The development of the thermodynamic foundations of chemical processes: both the classical and statistical-mechanical approaches will be used.

*Hours 45 hrs,*  
*Credits 3 cr*
CHEM 79900 - Thesis Research

Individual research under supervision. Limited to students matriculated for the MA in chemistry.

Credits 3 cr
permission of department required

Programs and Courses in Economics and Accounting

Economics/Accounting

OVERVIEW

The Department has two master's degree programs, one in Economics and the other in Accounting. Graduate Students are actively engaged in the research and teaching missions of the department. Both programs equip students with analytic tools that can be directly applied to business and public policy. The PhD program in economics is based at the City University Graduate Center. Under special circumstances, advanced students in the MA program may take up to 12 credits and transfer them to Hunter towards their MA.

Because our programs integrate theory, quantitative methods, and practical applications, Hunter MA and MS graduates regularly move into interesting, well-paid positions in business, government, and international organizations. They are also prepared to enter PhD programs at top-ranking universities. In addition, Accounting graduates are qualified to take the CPA examination in New York State.

HEGIS Codes: 2204 (Economics), 0502 (Accounting)

Bachelor of Arts/Master of Arts - BA/MA

Economics - BA/MA

The Department of Economics makes it possible for students to earn both a BA and an MA degree in economics within the credits required for a BA at Hunter. BA/MA students must complete the requirements for both the BA and MA degree. Students who wish to declare the BA/MA major must have a 3.0 average in Economics and in the cumulative index, with a minimum grade of B in ECO 300, and ECO 321, and a C in Math 150, or their equivalents. Continuing in the program is contingent upon maintaining a 3.0 GPA in Economics and the cumulative index and receiving a minimum grade of B in ECO 301 and an average grade of B in Math 150 and Math 160.

- Economics - BA
- Economics - MA

Master of Arts - MA

Economics - MA

Hunter’s master’s program in economics equips students with analytic tools that can be directly applied to business and public policy. The program integrates economic theory, quantitative methods and practical applications, and emphasizes elective courses in international trade and finance, economic development, financial economics, industrial organization, corporate governance, labor economics and public finance. Hunter MAs regularly move into interesting, well-paid positions in business, government, and international organizations. They are equally prepared to enter PhD programs at top-ranking universities.

Under the direction of professors who combine distinguished academic credentials with wide experience in economic research and applications, students studying for an MA at Hunter may participate in such major ongoing projects as: taxation, government spending, and economic growth; earnings of immigrants and minority groups; saving and investment in rural economies; taxation and the regional economy; social security and public welfare; tax competition; health out-comes; corporate investment and financial decisions; regulatory policy; corporate control; location choices of immigrants.

The program is offered in the evening to accommodate students who hold full- and part-time jobs.
Requirements for Admission

Applicants to the MA program in economics must provide their scores on either the Graduate Record Examination (GRE) or the Graduate Management Admission Test (GMAT). Hunter College undergraduates with a GPA of 3.5 or higher are exempt from the GRE/GMAT requirement. In addition to the other Requirements for Admission to Hunter, the following departmental requirements must be met: at least 18 credits of undergraduate courses in economics, at least 9 credits of undergraduate courses in mathematics, and two letters of recommendation from college teachers, including one from a member of an economics department. The credits in economics must include at least six in principles of economics, and at least three in each of the following courses: economic statistics, introductory econometrics, intermediate microeconomics, and intermediate macroeconomics. The credits in mathematics must include two semesters of calculus and one of matrix algebra. Intermediate microeconomics, intermediate macroeconomics, introductory econometrics, calculus I and II, and matrix algebra are prerequisites for required courses in the MA program.

Students who have not completed these courses at the time of admission will be required to complete the needed course(s) during their first semester at Hunter. (Completion of such courses cannot be counted towards the MA.)

Requirements for the Degree

Of the 30 credits required for the degree, at least 24 must be devoted to courses in economics. The remaining 6 may be taken in related fields with permission of the department. All candidates are required to complete the following.

**ECO 70100 - Microeconomic Theory**

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

*prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500*

**ECO 70300 - Macroeconomic Theory**

Determinants of national income, output, employment and price levels, including microeconomic foundations of aggregate consumption, saving, and investment; theories of the business cycle and long-term growth; effects of public policies on employment, inflation and economic growth.

*prereq: ECO 30100 with a grade of B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500*

**ECO 72100 - Linear Econometric Analysis**

Econometric analysis of linear statistical models. Topics include: ordinary least squares-estimation, inference, testing and specification testing; instrumental variables and simultaneous equations models; panel data regression; time series and forecasting

*prereq: ECO 32100 with a grade of B; MATH 15000 and MATH 16000 with an average grade of B
prereq or coreq: MATH 15500*

**ECO 72200 - Non-Linear Econometric Analysis**
Econometric analysis of nonlinear statistical models. Maximum likelihood estimation; models for binary outcomes; models for ordered and unordered multinomial outcomes; models for self-selection; count data models.

prereq: ECO 72100
prereq or coreq: MATH 16000

The degree can be earned in two ways:

1. Completion of 27 credits of course work and 3 credits of Thesis Research. Students must submit a satisfactory master’s thesis written under the supervision of a member of the economics faculty.

2. Completion of 30 credits of course work. Students must prepare a supervised extended research paper in two of their courses and earn at least a B+ on each paper.

Master of Science - MS

Accounting - MS

Program

The MS in Accounting program at Hunter College is designed for students who have satisfied the academic requirements for an undergraduate degree in accounting. It will provide intensive training in accounting research, information systems, ethics, and advanced coverage of the core topics in accounting. Students completing the program will be well equipped for a successful career in accounting. Hunter's MS in Accounting has been approved by the New York State Department of Education as a CPA licensure-qualifying program for students who have earned a BS in Accounting at Hunter College or an equivalent undergraduate program. New York State requires all CPA candidates to have completed 150-credit hours in order to sit for the Uniform CPA Examinations. The graduates of the MS program will be able to fulfill this requirement. The MS program is a 30-credit program consisting of six required courses, two accounting electives, and two non-accounting electives. It can be pursued on a full-time or part-time basis. The program curriculum and admission requirements are outlined below. The accounting faculty within the Economics Department at Hunter College has established a record of teaching excellence, and has produced research of the highest quality within the field of accounting.

Requirements for Admission

A BS degree in Accounting from Hunter College or the equivalent from another regionally accredited college or university with:

- An overall GPA of 2.75 and a GPA of 3.0 in accounting courses
- Two letters of recommendation
- A GMAT score (Hunter College undergraduates who apply during their senior year are exempt from this).
- A TOEFL score (if an applicant has received all or part of the undergraduate education in a country where English is not the native language).

Students applying with undergraduate degrees other than a BS in Accounting from Hunter may be accepted under the above standards but will need to meet the academic requirements of Hunter's BS in Accounting in addition to the requirements for the MS degree. (The undergraduate requirements include an accounting core comprised of ACC 27100 and 27200, Principles of Accounting I and II; ACC 37100 and 37200, Intermediate Accounting I and II; ACC 47100 and 47200, Advanced Accounting I and II; ACC 28000 and 38000, Business Law I and II; ACC 37400, Cost
Accounting; **ACC 37300** and **47300**, Federal Income and Business Taxation; and **ACC 47500**, Auditing. For a complete description of the undergraduate requirements, see the Hunter College Undergraduate Catalog.

### Requirements for the Degree

The MS in Accounting program requires a student to earn 30 credits: 18 credits from a required core of six courses, 6 credits in accounting electives, and 6 credits in non-accounting electives, as outlined below. Additionally, a capstone research project will be undertaken as part of the required coursework.

### Required courses

The following 3-credit courses are required of all students in the program:

**ACC 77000 - Business Ethics, Communications, and Professional Accounting Research**

Methods and techniques of professional accounting research, ethical issues in accountancy and business, and business communications.

*Hours 3  
Credits 3*

**ACC 77100 - Advanced Financial Accounting Theory**

Coverage will include contemporary financial reporting issues as they relate to FASB's conceptual framework, financial statement analysis, and specialized accounting areas such as cash flows, accounting for pensions, and employment benefits.

**ACC 77200 - Accounting Information Systems**

An introduction to information systems as they relate to organizational structure, managerial decision-making, and accounting. Topics include accounting systems and design theory, file structure, and the implementation and evaluation of systems.

**ACC 66000 - Managerial Economics for Accountants**

The decision making process within the firm through the prism of microeconomics. Topics include optimal pricing strategies, demand forecasting, hiring, and investment decisions. Specific analytical and quantitative tools will be developed.

*prereq: ECO 32100* and either ECO 30000 or ECO 60000. The graduate adviser may waive the ECO 30000/60000 requirement in appropriate circumstances

*Hours 3  
Credits 3*

*If these courses have not been taken at the time of admission, they may be taken while in the MS program but will not count towards the 30 credits needed to complete the degree.*

**ACC 78000 - Academic Accounting Research Methodology and Project**
Methods and techniques for academic accounting research. A capstone research project will be completed.

*Hours 3
Credits 3*

**ACC 77500 - Advanced Auditing**

Applies principles covered in undergraduate auditing. Topics include auditing of EDP systems; computer-assisted auditing techniques; and a review of special reports, reports on internal control, accounting and review services; and governmental auditing standards.

**Note(s)**

*The following may be substituted for ECO 66000 with permission of the program adviser.*

**ECO 70100 - Microeconomic Theory**

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

*prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500*

**Electives**

An additional twelve (12) credit hours, selected from among the following 3-credit courses, are also required. Students are required to take two courses from the accounting electives and two from liberal arts (non-accounting electives).

**Accounting Electives**

**ACC 77300 - Advanced Federal Income Taxation**

Coverage will include taxation of estates, gifts, and trusts; advanced topics in corporate and partnership taxation; international tax issues, and tax research techniques.

**ACC 77400 - Advanced Managerial Accounting**

Trains students to help managers obtain and analyze information for decision-making, planning, control and performance evaluation. Topics include new manufacturing environments, cost behavior, inventory costing, budgeting and variance analysis.

**ACC 77600 - Governmental Accounting**

Accounting, reporting, and auditing issues unique to governmental and nonprofit entities, as well as multinational business entities. Special issues related to audits under GAS and for US companies operating internationally will be covered.

**ACC 77700 - State and Local Taxation**
State and local business and personal tax policies of the tri-state region, with an emphasis on New York State and City taxation.

Other (Non-Accounting) Electives

Any other 600- or 700-level course offered by the Hunter College Economics Department may be taken as a non-accounting elective. Graduate level courses within the Department of Urban Affairs and Planning and the graduate program in Social Research may also be taken as electives.

Accounting

ACC 66000 - Managerial Economics for Accountants

The decision making process within the firm through the prism of microeconomics. Topics include optimal pricing strategies, demand forecasting, hiring, and investment decisions. Specific analytical and quantitative tools will be developed.

prereq: ECO 32100* and either ECO 30000 or ECO 60000. The graduate adviser may waive the ECO 30000/60000 requirement in appropriate circumstances

Hours 3
Credits 3

* If these courses have not been taken at the time of admission, they may be taken while in the MS program but will not count towards the 30 credits needed to complete the degree.

ACC 77000 - Business Ethics, Communications, and Professional Accounting Research

Methods and techniques of professional accounting research, ethical issues in accountancy and business, and business communications.

Hours 3
Credits 3

ACC 77100 - Advanced Financial Accounting Theory

Coverage will include contemporary financial reporting issues as they relate to FASB's conceptual framework, financial statement analysis, and specialized accounting areas such as cash flows, accounting for pensions, and employment benefits.

ACC 77200 - Accounting Information Systems

An introduction to information systems as they relate to organizational structure, managerial decision-making, and accounting. Topics include accounting systems and design theory, file structure, and the implementation and evaluation of systems.

ACC 77300 - Advanced Federal Income Taxation

Coverage will include taxation of estates, gifts, and trusts; advanced topics in corporate and partnership taxation; international tax issues, and tax research techniques.
ACC 77400 - Advanced Managerial Accounting

Trains students to help managers obtain and analyze information for decision-making, planning, control and performance evaluation. Topics include new manufacturing environments, cost behavior, inventory costing, budgeting and variance analysis.

ACC 77500 - Advanced Auditing

Applies principles covered in undergraduate auditing. Topics include auditing of EDP systems; computer-assisted auditing techniques; and a review of special reports, reports on internal control, accounting and review services; and governmental auditing standards.

ACC 77600 - Governmental Accounting

Accounting, reporting, and auditing issues unique to governmental and nonprofit entities, as well as multinational business entities. Special issues related to audits under GAS and for US companies operating internationally will be covered.

ACC 77700 - State and Local Taxation

State and local business and personal tax policies of the tri-state region, with an emphasis on New York State and City taxation.

ACC 78000 - Academic Accounting Research Methodology and Project

Methods and techniques for academic accounting research. A capstone research project will be completed.

Hours 3
Credits 3

Economics

ECO 727 - Data Analytics and Research Methods

A course in data analytics and empirical research methods including the writing of empirical research in economics. It is designed to teach modern computer-based data analytics skills and to develop skills in communicating economic research in writing. The course is project-based, with grades based on written submissions supporting a larger project.

prereq: ECO 70000, ECO 70100 and ECO 72100
Hours 3 hrs
Credits 3 cr.

ECO 70100 - Microeconomic Theory

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

prereq: ECO 30000 WITH A GRADE OF B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500
ECO 70300 - Macroeconomic Theory

Determinants of national income, output, employment and price levels, including microeconomic foundations of aggregate consumption, saving, and investment; theories of the business cycle and long-term growth; effects of public policies on employment, inflation and economic growth.

prereq: ECO 30100 with a grade of B; MATH 15000 and MATH 16000 with average grade of B
prereq or coreq: MATH 15500

ECO 71000 - Monetary Theory and Policy

Factors determining demand for and supply of money; theories of rate of interest; issues of monetary policy.

prereq: ECO 21000
prereq or coreq: ECO 70300 and ECO 72100

ECO 71100 - Banking and Financial Markets

Factors determining banking and financial structure in US. Issues involving financial crises and bank failure, allocation of financial resources, regulation and competition.

prereq: ECO 21000
prereq or coreq: ECO 70300 and ECO 72100

ECO 71500 - Public Finance

Principles of taxation and government spending; efficiency and equity trade offs; decentralized public finance and fiscal federalism.

prereq or coreq: ECO 70100 and ECO 72100

ECO 72100 - Linear Econometric Analysis

Econometric analysis of linear statistical models. Topics include: ordinary least squares-estimation, inference, testing and specification testing; instrumental variables and simultaneous equations models; panel data regression; time series and forecasting

prereq: ECO 32100 with a grade of B; MATH 15000 and MATH 16000 with an average grade of B
prereq or coreq: MATH 15500

ECO 72200 - Non-Linear Econometric Analysis

Econometric analysis of nonlinear statistical models. Maximum likelihood estimation; models for binary outcomes; models for ordered and unordered multinomial outcomes; models for self-selection; count data models.

prereq: ECO 72100
prereq or coreq: MATH 16000

ECO 72300 - Time Series and Forecasting
Econometrics of time-series data; application of autoregressive and moving average (ARIMA) models to economic data.

prereq: ECO 72200

ECO 72400 - Microeconometrics

Introduction to advanced econometric techniques commonly used in applied microeconomic research. The topics covered will be panel data, instrumental variables estimation, limited dependent variables, truncated, censored and selected samples, and duration models.

prereq: ECO 72200

ECO 72600 - Policy and Program Evaluation

Econometric techniques for evaluating programs. Topics include randomized experiments, propensity score matching, instrumental variables, difference-in-difference estimates, regression discontinuity models and the ethics of human subject research. Most of the assignments will be problems sets involving analysis of data using a statistical package and written up in the form of research reports. Estimates 5 reports of 5 pages each. One term paper of 15 pages.

prereq: ECO 72200 or STAT 70700

Hours 3  
Credits 3

ECO 72700 - Data Analytics and Research Methods

Data Analytics and Research Methods is a course in data analytics and empirical research methods including the writing of empirical research in economics. It is designed to teach modern computer-based data analytics skills and to develop skills in communicating economic research in writing. The course is project-based, with grades based on written submissions supporting a larger project.

prereq: ECO 70000, ECO 70100, and ECO 72100

Hours 3 hrs.  
Credits 3 cr.

ECO 72900 - Behavioral Economics

This is a Masters level course in behavioral economics (also known as: economics and psychology). You will be introduced to several topics in this new and exciting field. The main objective of behavioral economics is to modify existing models of economic decision-making using results from experiments in economics and psychology. We will continue to use the methodology of economics, but we will 'tweak' the models to make them more realistic. We will then use these models to try and predict behavior in various settings, from standard economic ones (like consumption-saving decisions) to non-economic ones (like deciding when to go to the gym). Some examples of topics to be studied: procrastination, altruism, gambling, and self-control.

prereq: ECO 70100 (MA Microeconomic Theory) or equivalent

Hours 3 hrs.  
Credits 3 cr.
ECO 73000 - Economic Development
Theories of economic development and economic issues of developing countries. Possible topics include the analysis of poverty, inequality, rural financial markets, labor and land markets, trade and environmental policies.

prereq or coreq: ECO 70100 or ECO 70300, and ECO 72100

ECO 73200 - Economic Growth
Investigation of the issue of why some countries become rich while other do not. Study of the factors that contribute to and retard economic growth.

prereq or coreq: ECO 70100 and ECO 70300

ECO 73500 - Urban Economics
Economic analysis of form and functioning of big cities. Analyses of location of economic activity within metropolitan areas and market for land; analyses of major urban policy issues, including housing, transportation, urban poverty, urban public finance.

prereq or coreq: ECO 70100 and ECO 72100

ECO 74000 - International Trade: Theory and Policy
International trade theory and analysis of current economic problems; terms of trade; balance of payments; trade regulations and policies, international financial institutions, foreign aid, regional integration.

prereq or coreq: ECO 70100 and ECO 72100 recommended prereq or coreq: ECO 70300

ECO 74100 - International Finance
Examination of the international financial system, models of exchange rate determination, open economy macroeconomics, and international financial markets.

prereq or coreq: ECO 70100 and ECO 72100

ECO 74500 - Labor Economics
Economic theory and research on differences in employment and compensation; effects of demographic characteristics, human capital, labor unions, and income maintenance policies.

prereq or coreq: ECO 70100 and ECO 72100

ECO 74800 - Health Economics
Economic analysis of the health care industry to explain the demand for and supply of medical care. Includes analysis of behavior of consumers, producers, and insurers; and public policies to regulate the industry and to provide services for the poor and elderly.

prereq or coreq: ECO 70100 and ECO 72100
ECO 75500 - Industrial Organization

Product market decisions by firms in monopoly and oligopoly; the boundaries of the firm and vertical integration; applications to antitrust and regulatory policy.

prereq or coreq: ECO 70100 and ECO 72100

ECO 75600 - Law and Economics

A study of economic foundations of law. Topics include the role of property rights and liability rules in the control of externalities, controlling the cost of accidents, the control of criminal behavior, product failure and damage, medical malpractice. Consideration of the economic logic underlying the law.

prereq or coreq: ECO 70100 and ECO 72100

ECO 76000 - Financial Economics

Examination of the models of finance: optimization over time, asset valuation and risk management. Applications to models of asset pricing, including stocks, bonds and options; portfolio selection; and problems in corporate finance including investment analysis and capital structure.

prereq or coreq: ECO 70100 and ECO 72100

ECO 76100 - Advanced Concepts in Financial Markets

Study of the essential techniques of pricing financial derivatives, including the Black-Scholes formula, binomial trees, and risk-neutral valuation methods. Discussion of trading strategies associated with the use of financial derivatives for different purposes, and potential problems that can arise in the application of financial derivatives.

prereq: ECO 76000

ECO 76200 - Corporate Governance

Economic analysis of how institutional arrangements distribute power, authority, and control across different stakeholders of the firm; contractual agreements as a means to render such institutional arrangements unnecessary.

prereq or coreq: ECO 70100 and ECO 72100

ECO 76500 - Games and Information

Game theory offers a framework for analyzing social interactions and emergent behavior in a very wide variety of human contexts. The purpose of this course is to offer a critical introduction to game theory and its applications. Economic applications include the analysis of conflict and the emergence of trust and cooperation out of anarchy, the analysis of firms' strategic behavior in concentrated markets, or of herd behavior and panics in financial markets. Asymmetric information economics and mechanism-design extend game theory by exploring how the design of the rules of a game, or the initial distribution of information might affect equilibrium behavior outcomes, and therefore how one might choose to set up the rules of the game to govern their interactions.

prereq or coreq: ECO 70100
ECO 78500 - Internship

Internships with organizations engaged in economic research. Students write a research paper under direction of said organization and concomitant supervision of instructor. Open to MA students who have completed at least 15 cr of graduate work; may be taken only once.

Open to MA students who have completed at least 15 cr of graduate work; may be taken only once.

ECO 79000 - Independent Study

Intensive study of special field of economics under supervision of member of graduate faculty.

prereq: permission of instructor and graduate adviser

ECO 79100 - Independent Study

Intensive study of special field of economics under supervision of member of graduate faculty.

prereq: perm instr and graduate adviser
Credits 1 cr
May be taken only once.

ECO 79500 - Economics Seminar

Special topic and research in economics.

May be repeated for credit by perm chair or graduate adviser

ECO 79700 - Practicum in Empirical Analysis

Practicum in Empirical Analysis is a course in conducting and writing empirical research in economics, culminating in the production of a research project satisfying the graduation requirements for the MA in Economics. The course is designed to build on skills acquired in the prerequisite graduate courses in the program, with students independently preparing a research paper from a set of pre-selected topics and data.

prereq: ECO 70000, ECO 70100, ECO 70300, ECO 72100, ECO 72200, and ECO 72700
Hours 3 hrs.
Credits 3 cr.

ECO 79800 - Thesis Research

Preparation of acceptable MA thesis under faculty supervision.

credit not granted until thesis is accepted

Other Courses

ECO 75100 - Economic Development of Latin America
This course may be offered depending on student and faculty interest

Education: School Administration and Supervision

ADSUP 70400 - Leadership to Enhance Human Resources

Interpersonal and group relationships applied to administrative and supervisory functions in schools and districts; intensive experience in group process and the development of a positive school climate and culture.
Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work  
Credits 4

**ADSUP 70600 - School-Based Field Experience Seminar in Administration and Supervision**

An intensive school-based leadership experience in which students apply knowledge and skills developed in prior coursework. A weekly seminar includes required workshops on child abuse and violence prevention.

*Hours 200 hrs of leadership experiences in field work*

**ADSUP 70700 - District/Region Field Experience Seminar in Administration and Supervision**

An intensive district/region-based leadership experience in which students apply knowledge and skills developed in prior coursework. A weekly seminar includes required workshops on child abuse and violence prevention.

*Hours 200 hrs of leadership experiences in field work*

**ADSUP 71500 - Supervision for the Improvement of Instruction**

An examination of varied productive supervisory techniques which promote the improvement of instruction and enhance the supervisory process.

*Hours 60 hours plus 25 to 35 hrs of leadership experiences in field-work*  
*Credits 4*

**ADSUP 71600 - Leadership Strategies for School Reform**

An introduction to leadership theory, school, district reform and the school principalship. Leadership theory is explored from a systems perspective with a focus on both the theoretical and practical tools for promoting school and district change that leads to high levels of student achievement.

*Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work*  
*Credits 4*

**ADSUP 71700 - Seminar in Evaluating and Applying Educational Research**

This course provides students seeking to be educational leaders with the theoretical and the practical considerations for evaluating, conducting and using research in schools and school districts.
**Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work**  
**Credits 4**

**ADSUP 72100 - Legal Issues, Finance, Facilities and Operations**

A study of school legal issues finance and budgeting. Processes and cases from New York State, New York City, local school district and building level management of operations and facilities.

**Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work**  
**Credits 4**

**ADSUP 73100 - Using Data, Technology and Assessment to Plan and Design Curriculum and Instruction**

This course provides students seeking to be instructional leaders with both the theoretical and the practical considerations necessary for using technology, data, and assessment to plan and design curriculum for effective instruction.

**Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field-work**  
**Credits 4**

**ADSUP 74100 - School District Leadership: Problems and Issues**

System-wide administrators must combine the elements of vision, with instructional and administrative leadership in order to guide learning organizations. They must develop skills, strategies and knowledge of the leading educational issues they are facing to be able to create collaborative, safe, and successful educational environments capable of being successful.

**Hours 60 hrs plus 25 to 35 hrs of leadership experiences in field work**  
**Credits 4**

**ADSUP 75100 - District and School Based Field Experience Seminar in Administration and Supervision (KC)**

Intensive applications of program knowledge, skills and dispositions in school and district field settings available to the student, and a 40 hour seminar that includes a two-hour unit on each of both child abuse prevention and violence prevention.

**Hours 60 hrs plus 200 hrs of leadership experiences in field work stipulated in a contract**  
**Credits 4**
This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**ADSUP 75600 - Professional Discourse and Leadership in Gifted Education**

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

*Cross-listed SPED 75600, CEDC 75600, CEDF 75600*

*prereq or coreq: SPED 75300 and SPED 75400*

*Hours includes 10 hrs field experience*

*Credits 3*

**Education: Adolescent Education**

**ARTED 71000 - Methods for Childhood Art Education - Grades PreK-6 (KC)**

This course focuses on visual arts education methods, philosophies and theories of learning and development in the visual arts for children from Pre-K grade 6. It emphasizes children's aesthetic development, safe and appropriate uses of materials and resources, and appropriate methods and pedagogy for teaching the visual arts in grades PreK-6.

Includes 36 hours of fieldwork in a school.

*prereq or coreq: SEDF 70300 and SEDF 70400*

*Hours 3 hrs*

*Credits 3 cr.*

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**ARTED 71100 - Methods of Teaching the Visual Arts Grades 7-12 (KC)**

This course focuses on visual arts education methods, philosophies and theories of learning and development in the visual arts for the adolescent. Focus: It emphasizes adolescent aesthetic development, safe and appropriate uses of materials and resources, and appropriate methods and pedagogy for teaching the visual arts in grades 7-12.

Course includes 48 hours of fieldwork in a school. Students are observed and evaluated in the field at least once.

*prereq: ARTED 71000 and SEDF 70500*

*Hours 3 hrs*

*Credits 3 cr.*

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.
**ARTED 71200 - Student Teaching in the Visual Arts Grades Pre-K-12 (KC)**

Teacher candidates complete a total of 70 days of student teaching Monday through Friday (35 days of student teaching at grades pre-K-6 and 35 days at grades 7-12) under the supervision of a Hunter College faculty member and a certified Art Educator in a New York City school selected by the college.

Students receiving a grade below B in fieldwork must apply to the chairperson for permission to re-register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than B on their second attempt may not repeat the course and may not continue in the program.

**prereq:** ARTED 71000 and ARTED 71100 plus 6 credits in ARTH and ARTCR

**Hours** 2 hours (includes 70 days in the field)

**Credits** 5 credits

*This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.*

**CHND 71200 - Methods 1: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Chinese, Grades 7-12**

The course covers options for classroom management, learning environment appropriate to 7-12 classrooms, and assessment. Attention is given to classroom management task, setting up and exploiting various learning environments, and methods for assessment. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes homework assignment and projects.

**prereq or coreq:** SEDF 70400 or permission of the adviser

**Credits** 3

**CHND 71300 - Methods 2: Intensive Study of Teaching Diverse Learners in Chinese, Grades 7-12**

This course aims to familiarize prospective school teachers, grades 7-12 with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curricula in Chinese. Innovative uses of technology, development of instructional units, individualization for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course. Thirty-six hours of field experience/observation is a part of this course. New York state and city teaching standards will be applied throughout the course. Writing Requirement includes development of lesson plans, homework assignment, and projects for classroom use.

**prereq or coreq:** CHND 71200 and SEDF 70500 or permission of the adviser

**Hours** 30 hrs plus 36 hrs fieldwork

**Credits** 2

**CHND 73100 - Student Teaching in Chinese, Grades 7-12**

Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticism. These presentations will be videotaped for further self-analysis at home.

**prereq or coreq:** CHND 71300 or permission of the adviser.
Hours 60 days, 30 hrs seminar plus workshops and conferences, 
Credits 5

CHND 74110 - Practicum in Chinese, Grades 7-9

Supervised practicum for teachers of Chinese in grades 7-9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74110 must also take CHND 74120.

prereq or coreq: CHND 71200 or permission of the adviser.
Hours 30 hrs plus conferences
Credits 2

CHND 74120 - Practicum in Chinese, Grades 10-12

Supervised practicum for teachers of Chinese in grades 10-12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices. Students who take CHND 74120 must also take CHND 74110

prereq or coreq: CHND 71200 or permission of the adviser.
Hours 30 hrs plus conferences,
Credits 2

SEDC 71000 - Building the Foundations of Literacy in Adolescent Education

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

Hours 45 hrs,
Credits 3 cr

SEDC 71100 - Advanced Study of Young Adult Literature in Our Diverse Society

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English Language Arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr
SEDC 71200 - Methods I: Intensive Study of Classroom Organization, Management, and Assessment of Instruction in Languages Other Than English, Grades 7–12

Candidates will identify the impact of various classroom organization patterns, rules and routines, and methods of assessment. Candidates will be able to design, implement, and evaluate lessons in the context of state and city standards for learning in grades 7–12.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 71300 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science

Examines the interrelationship between the educational environment and the adolescent's learning of mathematics and science. Teacher candidates study the basic classroom management in the teaching of science and mathematics as they explore the content and implementation of national, New York State and New York City standards for mathematics and science. Fosters the use of technology as an educational tool to improve the mathematics and science literacy of the adolescent.

prereq or coreq: SEDF 70400
Hours 45 hrs,
Credits 3 cr

SEDC 71500 - Advanced Curriculum Development in U.S. History and Civics for Urban Contexts, Grades 7–12

Rationales and methodologies for teaching social studies based on current theories of the nature of students, the social sciences and secondary schooling.

prereq or coreq: SEDF 70400 or SEDF 70500
Hours 3
Credits 3

SEDC 71600 - Math: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the contents of mathematics programs and curricula in grades 7–12 and will formulate teaching methodology for the meaningful learning of mathematics. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45 hrs
Credits 3

SEDC 71700 - Social Studies: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of social studies programs and curricula in grades 7–12 and will formulate teaching methodology for the meaningful learning of social studies. Strong emphasis will be placed on teaching students with
special needs and English language learners.

Hours 45
Credits 3

SEDC 71800 - Science: Curriculum and Methods - Grades 7-12

For students pursuing certification in adolescent special education (generalist). Teacher candidates will develop an understanding of the content of science programs and curricula in grades 7–12 and formulate teaching methodology for the meaningful learning of science. Strong emphasis will be placed on teaching students with special needs and English language learners.

Hours 45 hrs
Credits 3

SEDC 72000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

Hours 15 hrs,
Credits 1 cr

SEDC 72100 - Advanced Study of Teaching English Methods to a Diverse Population in Grades 7–12 (KC)

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. These presentations will be videotaped for further self-analysis at home. New York State and city teaching standards will be applied throughout the course.

prereq: SEDC 71100
prereq or coreq: SEDF 70500
Hours 30 hrs fieldwork
Credits 2

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDC 72200 - Methods II: Intensive Study of Teaching Diverse Learners in Languages Other Than English, Grades 7–12 (KC)

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in Languages Other Than English. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.
SEDC 72300 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7–12 (KC)

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in mathematics. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

SEDC 72400 - Methods II: Intensive Study of Teaching Diverse Learners in Science, Grades 7–12 (KC)

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

SEDC 72500 - Advanced Curriculum Development in World History and Global Education for Urban Contexts, Grades 7-12 (KC)

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum
in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDF 704 or SEDF 70500
Hours 2 (30 hrs fieldwork)
Credits 2

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDC 73000 - Development of Mathematical Thinking: Implications For Teaching and Learning Mathematics in Grades 7 to 12

A course exploring the role of the teacher in developing mathematical reasoning ability in students. What are the possibilities and limitations? A research-based approach to the problem of providing a solid mathematics education for all students.

SEDC 73100 - Seminar in Mathematics Curriculum, Grades 7-12

A study of the current Standards-Based Mathematics Curriculum from an historical perspective.

SEDC 73200 - Research Seminar in Mathematics Education, Grades 7-12

A course in which students will study the research relative to the mathematics curriculum and complete a research project in a field of mathematics education of their choice.

SEDC 75100 - Student Teaching in English, Grades 7–12 (KC)

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72100
prereq or coreq: SEDF 70600
Hours 45; 60 days student teaching plus workshops and conferences, Credits 5

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDC 75201 - Student Teaching in French, Grades 7–12 (KC)

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.
prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45: 60 days student teaching plus workshops and conferences,
Credits 5

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SEDC 75202 - Student Teaching in Italian, Grades 7–12 (KC)**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45: 60 days student teaching plus workshops and conferences,
Credits 5

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SEDC 75203 - Student Teaching in Spanish, Grades 7–12 (KC)**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45: 60 days student teaching plus workshops and conferences,
Credits 5

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SEDC 75300 - Student Teaching in Mathematics, Grades 7–12 (KC)**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300
prereq or coreq: SEDF 70600
Hours 45: 60 days student teaching plus workshops and conferences,
This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SEDC 75401 - Student Teaching in Biology, Grades 7–12 (KC)**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*
*prereq or coreq: SEDF 70600*
*Hours 45; 60 days student teaching plus workshops and conferences, Credits 5*

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SEDC 75402 - Student Teaching in Chemistry, Grades 7–12 (KC)**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member and a certified chemistry teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*
*prereq or coreq: SEDF 70600*
*Hours 45; 60 days student teaching plus workshops and conferences, Credits 5*

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SEDC 75403 - Student Teaching in Physics, Grades 7–12 (KC)**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*
*prereq or coreq: SEDF 70600*
*Hours 45; 60 days student teaching plus workshops and conferences, Credits 5*

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SEDC 75404 - Student Teaching in Earth Science, Grades 7–12 (KC)**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72400*
*prereq or coreq: SEDF 70600*
*Hours 45; 60 days student teaching plus workshops and conferences, Credits 5*

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SEDC 75500 - Student Teaching in Social Studies, Grades 7–12 (KC)**

Teacher candidates complete 30 days of student teaching at grades 7–9 and 30 days at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 72500*
*prereq or coreq: SEDF 70600*
*Hours 45; 60 days student teaching plus workshops and conferences, Credits 5*

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SEDC 75600 - Student Teaching in Music, Pre-K–12 (KC)**

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 and 30 days at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: MUSED 67800*
*Hours 30 hrs, 60 days student teaching plus workshops and conferences, Credits 5 cr*

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SEDC 76110 - Student Teaching in English, Grades 7–9 (KC)**
Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

\textit{prereq}: SEDC 72100  
\textit{prereq or coreq}: SEDF 70600  
\textit{Hours}: 45 hours, 30 days student teaching plus conferences,  
\textit{Credits}: 3 cr  
\textit{Students who enroll in SEDC 76110 must also complete SEDC 76120 or SEDC 77120.}

\textit{This Key Course requires a grade of B or better to pass.}  
\textit{Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.}  
\textit{This course may be repeated only once.}

\textbf{SEDC 76120 - Student Teaching in English, Grades 10–12}

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

\textit{prereq}: SEDC 72100  
\textit{prereq or coreq}: SEDF 70600  
\textit{Hours}: 30 hours, 30 days student teaching plus conferences,  
\textit{Credits}: 3 cr  
\textit{Students who enroll in SEDC 76120 must also complete SEDC 76110 or SEDC 77110.}

\textbf{SEDC 76211 - Student Teaching in French, Grades 7–9}

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

\textit{prereq}: SEDC 72200  
\textit{prereq or coreq}: SEDF 70600  
\textit{Hours}: 45 hrs plus, 30 days and conferences,  
\textit{Credits}: 3 cr  
\textit{Students who enroll in SEDC 76211 must also complete SEDC 76221 or SEDC 77221.}

\textbf{SEDC 76212 - Student Teaching in Italian, Grades 7–9}

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

\textit{prereq}: SEDC 72200  
\textit{prereq or coreq}: SEDF 70600  
\textit{Hours}: 45 hrs plus 30 days and conferences,  
\textit{Credits}: 3 cr  
\textit{Students who enroll in SEDC 76212 must also complete SEDC 76222 or SEDC 77222.}

\textbf{SEDC 76213 - Student Teaching in Spanish, Grades 7–9}
Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200  
prereq or coreq: SEDF 70600  
Hours 45 hrs plus 30 days and conferences,  
Credits 3 cr  
Students who enroll in SEDC 76213 must also complete SEDC 76223 or SEDC 77223.

SEDC 76221 - Student Teaching in French, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200  
prereq or coreq: SEDF 70600  
Hours 30 hrs plus 30 days and conferences,  
Credits 3 cr  
Students who enroll in SEDC 76221 must also complete SEDC 76211 or SEDC 77211.

SEDC 76222 - Student Teaching in Italian, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200  
prereq or coreq: SEDF 70600  
Hours 30 hrs plus 30 days and conferences,  
Credits 3 cr  
Students who enroll in SEDC 76222 must also complete SEDC 76212 or SEDC 77212.

SEDC 76223 - Student Teaching in Spanish, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72200  
prereq or coreq: SEDF 70600  
Hours 30 hrs plus 30 days and conferences,  
Credits 3 cr  
Students who enroll in SEDC 76223 must also complete SEDC 76213 or SEDC 77213.

SEDC 76310 - Student Teaching in Mathematics, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified mathematics teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.
prereq: SEDC 72300
prereq or coreq: SEDF 70600
Hours 45 hrs, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76310 must also complete SEDC 76320 or SEDC 77320.

SEDC 76320 - Student Teaching in Mathematics, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72300
prereq or coreq: SEDF 70600
Hours 30 hrs, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76320 must also complete SEDC 76310 or SEDC 77310.

SEDC 76411 - Student Teaching in Biology in Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76411 must also complete SEDC 76421 or SEDC 77421.

SEDC 76412 - Student Teaching in Chemistry, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76412 must also complete SEDC 76422 or SEDC 77422.

SEDC 76413 - Student Teaching in Physics, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76413 must also complete SEDC 76423 or SEDC 77423.

SEDC 76414 - Student Teaching in Earth Science, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. They will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76414 must also complete SEDC 76424 or SEDC 77424.

SEDC 76421 - Student Teaching in Biology, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76421 must also complete SEDC 76411 or SEDC 77411.

SEDC 76422 - Student Teaching in Chemistry, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76422 must also complete SEDC 76412 or SEDC 77412.

SEDC 76423 - Student Teaching in Physics, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76423 must also complete SEDC 76413 or SEDC 77413.
SEDC 76424 - Student Teaching in Earth Science, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. They will assume significant responsibility for classroom instruction and management.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 30 hrs plus 30 days and conferences,
Credits 3 cr
Students who enroll in SEDC 76424 must also complete SEDC 76414 or SEDC 77414.

SEDC 76510 - Student Teaching in Social Studies, Grades 7–9

Teacher candidates complete 30 days of student teaching at grades 7–9 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDF 72500
prereq or coreq: SEDF 70600
Hours 45 hrs, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76510 must also complete SEDC 76520 or SEDC 77520.

SEDC 76520 - Student Teaching in Social Studies, Grades 10–12

Teacher candidates complete 30 days of student teaching at grades 10–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDF 72500
prereq or coreq: SEDF 70600
Hours 30 hrs, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76520 must also complete SEDC 76510 or SEDC 77510.

SEDC 76610 - Student Teaching in Music, Grades Pre-K–6

Teacher candidates complete 30 days of student teaching at grades Pre-K–6 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: MUSED 67800
prereq or coreq: SEDF 70600
Hours 30 hrs, 30 days student teaching plus conferences,
Credits 3 cr
Students who enroll in SEDC 76610 must also complete SEDC 76520 or SEDC 77520.

SEDC 76620 - Student Teaching in Music, Grades 7–12
Teacher candidates complete 30 days of student teaching at grades 7–12 under the supervision of a Hunter College faculty member in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** MUSED 67800  
**prereq or coreq:** SEDF 70600  
**Hours** 30 hrs, 30 days student teaching plus conferences,  
**Credits** 3 cr  
Students who enroll in SEDC 76620 must also complete SEDC 76510 or SEDC 77510.

**SEDC 77110 - Practicum in English, Grades 7–9 (KC)**

Supervised practicum for teachers of English in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77110 must also take SEDC 77120.

**prereq:** SEDC 72100  
**prereq or coreq:** SEDF 70600  
**Hours** 45 hours plus conferences,  
**Credits** 3  
This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**SEDC 77120 - Practicum in English, Grades 10–12 (KC)**

Supervised practicum for teachers of English in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77120 must also take SEDC 77110.

**prereq:** SEDC 72100  
**Hours** 30 hrs plus conferences,  
**Credits** 2 cr  
This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**SEDC 77211 - Practicum in French, Grades 7–9 (KC)**

Supervised practicum for teachers of French in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77211 must also take SEDC 77221.

**prereq:** SEDC 72200  
**prereq or coreq:** SEDF 70600  
**Hours** 45 hours plus conferences,
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDC 77212 - Practicum in Italian, Grades 7–9 (KC)

Supervised practicum for teachers of Italian in grades 7–9 in a New York City school. Students will continue to
develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student
learning. Students who take SEDC 77212 must also take SEDC 77222.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDC 77213 - Practicum in Spanish, Grades 7–9 (KC)

Supervised practicum for teachers of Spanish in grades 7–9 in a New York City school. Students will continue to
develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student
learning. Students who take SEDC 77213 must also take SEDC 77223.

prereq: SEDC 72200
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDC 77221 - Practicum in French, Grades 10–12 (KC)

Supervised practicum for teachers of French in grades 10–12 in a New York City school. Students will continue to
develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student
learning. Students who take SEDC 77221 must also take SEDC 77211.

prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.
**SEDC 77222 - Practicum in Italian, Grades 10–12 (KC)**

Supervised practicum for teachers of Italian in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77222 must also take SEDC 77212.

*prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr

*This Key Course requires a grade of B or better to pass.*
*Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.*
*This course may be repeated only once.*

**SEDC 77223 - Practicum in Spanish, Grades 10-12 (KC)**

Supervised practicum for teachers of Spanish in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77223 must also take SEDC 77213.

*prereq: SEDC 72200
Hours 30 hrs plus conferences,
Credits 2 cr

*This Key Course requires a grade of B or better to pass.*
*Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.*
*This course may be repeated only once.*

**SEDC 77310 - Practicum in Mathematics, Grades 7–9 (KC)**

Supervised practicum for teachers of mathematics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77310 must also take SEDC 77320.

*prereq: SEDC 72300
prereq or coreq: SEDF 70600
Hours 45 hrs plus conferences
Credits 3

*This Key Course requires a grade of B or better to pass.*
*Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.*
*This course may be repeated only once.*

**SEDC 77320 - Practicum in Mathematics, Grades 10-12 (KC)**

Supervised practicum for teachers of mathematics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 773.20 must also take SEDC 77310.
prereq: SEDC 723
Hours 30 hrs plus conferences,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDC 77411 - Practicum in Biology, Grades 7–9 (KC)

Hunter College-supervised practicum for teachers of biology in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77411 must also take SEDC 77421.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDC 77412 - Practicum in Chemistry, Grades 7–9 (KC)

Supervised practicum for teachers of chemistry in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77412 must also take SEDC 77422.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDC 77413 - Practicum in Physics, Grades 7–9 (KC)

Hunter College-supervised practicum for teachers of physics in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77413 must also take SEDC 77423.

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences,
Credits 3
This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SEDC 77414 - Practicum in Earth Science, Grades 7–9 (KC)**

Hunter College-supervised practicum for teachers of earth science in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77414 must also take SEDC 77424.

*Lectures*

prereq: SEDC 72400
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences
Credits 3

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SEDC 77421 - Practicum in Biology, Grades 10–12 (KC)**

Hunter College-supervised practicum for teachers of biology in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

*Lectures*

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr
Students who take SEDC 77421 must also take SEDC 77411.

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SEDC 77422 - Practicum in Chemistry, Grades 10–12 (KC)**

Supervised practicum for teachers of chemistry in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning.

*Lectures*

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr
Students who take SEDC 77422 must also take SEDC 77412.

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SEDC 77423 - Practicum in Physics, Grades 10–12 (KC)**
Hunter College-supervised practicum for teachers of physics in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77423 must also take SEDC 77413.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDC 77424 - Practicum in Earth Science, Grades 10–12 (KC)

Hunter College-supervised practicum for teachers of earth science in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77424 must also take SEDC 77414.

prereq: SEDC 72400
Hours 30 hrs plus conferences,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDC 77510 - Practicum in Social Studies, Grades 7–9 (KC)

Supervised practicum for teachers of social studies in grades 7–9 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77520.

prereq: SEDC 72500
prereq or coreq: SEDF 70600
Hours 45 hours plus conferences
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDC 77520 - Practicum in Social Studies, Grades 10–12 (KC)

Supervised practicum for teachers of social studies in grades 10–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77510.

prereq: SEDC 72500
SEDC 77610 - Practicum in Music, Grades Pre-K–6 (KC)

Supervised practicum for teachers of music in grades Pre-K–6 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77510 must also take SEDC 77620.

prereq: MUSED 67800

SEDC 77620 - Practicum in Music, Grades 7–12 (KC)

Supervised practicum for teachers of music in grades 7–12 in a New York City school. Students will continue to develop and refine classroom expertise in curriculum development, delivery of instruction, and assessment of student learning. Students who take SEDC 77520 must also take SEDC 77610.

prereq: MUSED 67800

SEDF 70300 - Social Foundations of Adolescent Education

Students explore in depth different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Particular emphasis will be placed on issues such as tracking, parent-school-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

SEDF 70400 - Adolescent Development, Grades 7–12

The process of cognitive, social/emotional, personality, and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.
SEDJ 70500 - Educational Psychology: Applications to Adolescent Education (KC)

Prepares teacher candidates to think about how adolescents develop and learn. Emphasis will be placed on identifying effective teaching strategies, adapting instruction for diverse student populations (including gifted students and students with special needs), designing and managing classroom instruction, creating culturally compatible classrooms, motivating students, and assessing their learning.

prereq: SEDJ 70400

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SEDJ 70600 - Assessment of Teaching and Learning in Adolescent Education

Basic principles and practices for the assessment of learning and teaching in the secondary classroom. Includes instructional objectives, test construction, descriptive statistics, interpretations of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDJ 70500
coreq: One of the following must be a Co-req:

SEDJ 724; SEDJ 754.01; SEDJ 774.11; SEDJ 774.21; SEDJ 754.02; SEDJ 774.12; SEDJ 774.22; SEDJ 754.04; SEDJ 774.14; SEDJ 774.24; SEDJ 721; SEDJ 751; SEDJ 771.1; SEDJ 771.2; SEDJ 722; SEDJ 752.01; SEDJ 772.11; SEDJ 772.21; SEDJ 752.02; SEDJ 772.12; SEDJ 772.22; LATED 713; LATED 731; LATED 741.1; LATED 741.2; SEDJ 723; SEDJ 753; SEDJ 773.1; SEDJ 773.2; MUSED 678; SEDJ 756; SEDJ 766.1; SEDJ 776.2; SEDJ 754.03; SEDJ 774.13; SEDJ 774.23; SEDJ 725; SEDJ 755; SEDJ 775.1; SEDJ 775.2; SEDJ 752.03; SEDJ 772.13; SEDJ 772.23

SEDJ 71400 - Adolescent Development and Learning: Grades 7-12

This course prepares teacher candidates to think about how adolescents develop and learn by examining the process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and levels of ability. Emphasis will be placed on creating culturally compatible classrooms, motivating students, and assessing their learning.

Hours 45
Credits 3

Education: Bilingual Education

BILED 70100 - Foundations of Bilingual Education
Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork  
Credits 3 cr

**BILED 71100 - Bilingual Literacy-Spanish (KC)**

This course will focus on the development of literacy skills among students for whom English is a second language based on the New York State English Language Arts Standards. The emphasis will be on L1 and L2 literacy using both narrative and expository text as well as the arts.

*coreq: BILED 71150*  
*prereq or coreq: BILED 77100*  
*Hours 30  
Credits 2*

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**BILED 71150 - Fieldwork in Bilingual Literacy (KC)**

This fieldwork will help students develop observation skills and acquire practical knowledge of the design and management of bilingual literacy instruction and the classroom environment. Teacher candidates will apply theory to practice in their work with individuals and small groups. Six hrs per week of fieldwork in a bilingual elementary school or program. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

*coreq: BILED 77100*  
*Hours 75 hrs,  
Credits 1 cr*

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**BILED 71200 - Bilingual Literacy-French (KC)**

Bilingual literacy - French: conducted in French and English and will present how to differentiate instruction in a bilingual balanced literacy program to meet the needs of both French dominant students and French language learners. The course aims to develop teachers' ability to plan for language, content and literacy skills by designing a thematic integrated literacy unit. The course will assist teachers in understanding how to develop students' oral language, spelling, grammar, and vocabulary.

*prereq or coreq: BILED 77100 and BILED 71150 for the Childhood Education and Early Childhood Education master's degrees and BILED 71150 for the Advanced Certificate Leading to an Extension in Bilingual Education*  
*Hours 30*
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

BILED 71300 - Bilingual Literacy-Chinese (KC)

Bilingual Literacy – Chinese focuses on the development of literacy skills in both English and Chinese for students in bilingual programs. The emphasis is on L1 and L2 literacy using narrative and expository text, technology, and the arts as mediums for developing skills. This course will be conducted in Chinese and English.

prereq or coreq: BILED 77100, BILED 77150
Hours 30
Credits 2
For the Advanced Certificate Leading to an Extension in Bilingual program: the prereq or coreq is BILED 77150

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

BILED 71700 - Language Assessment for English Language Learners

An in-depth treatment of key concepts, issues, and classroom procedures for assessing English language learners, integrating key notions of assessment and measurement with second language acquisition theory and current practices in the assessment of linguistically, culturally, and ethnically diverse students.

prereq: BILED 77100, CEDCF 70050
Hours 45 hrs,
Credits 3 cr

BILED 76800 - Instruction through the Native Language-French

This course will be conducted in French. Students will learn to master academic french as it relates to bilingual education and the content areas. They will also learn to integrate french language development into content area instruction.

prereq or coreq: BILED 70100 and CEDF 70900 for the MSEd/Childhood Education Grades 1-6 with bilingual extension; for the MSEd in Early Childhood Education with bilingual extension, Program 1, BILED 70100 and ECF 70000, Program 3 BILED 70100
Hours 45
Credits 3

BILED 76900 - Instruction through the Native Language-Chinese

To enhance Chinese language skills of teacher candidates for the purpose of teaching content areas in and through Chinese. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Chinese for the bilingual classroom.

Hours 45 hours plus 10 hours of fieldwork
Credits 3
Prereq or Coreq: For the Childhood education Grades 1-6 with a Bilingual Extension program: BILED 70100, CEDF 70900; For the MSEd in Early Childhood Education Birth through Grade 1 with a Bilingual Extension: Program 1, BILED 70100, ECF 70000; Program 2, none; Program 3, BILED 70100; For the Advanced Certificate Leading to and Extension in Bilingual program: none.

**BILED 77100 - Psychology of Language Learning and Teaching**

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

*prereq or coreq: BILED 70100
Hours 30 hrs plus 5 hrs of fieldwork and lab,
Credits 2 cr*

**BILED 77800 - Instruction Through the Native Language-Spanish**

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

*prereq or coreq: BILED 70100
Hours 45 hrs plus 10 hrs of fieldwork,
Credits 3*

**BILED 77900 - Multicultural Education**

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

*prereq or coreq: BILED 70100
Hours includes 5 hrs of fieldwork
Credits 3 cr*

**BILED 78000 - Bilingual Research Seminar**

The bilingual research seminar, which serves as the culminating experience, focuses on the relationship between educational research and the classroom teacher. Students will review significant bilingual research to consider the implications of findings for bilingual instruction, and they will initiate their own classroom/community studies to reflect upon their own practice and to become critical consumers of research.

*prereq or coreq: 39 credits or permission of program coordinator
Hours 30 hrs plus lab,
Credits 2 cr*

**BILED 78200 - Supervised Student Teaching Grades 1–3 and 4–6 (KC)**
Supervised student teaching at two grade levels in an elementary bilingual setting selected by Hunter College; four full days a week plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program.

**prereq or coreq:** completion of 39 cr of course work or permission of the program coordinator

**Hours** 60 days (30 in grades 1-3, 30 in grades 4-6) plus 15 hrs of seminar

**Credits** 4

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**BILED 78300 - Practicum in Grades 1–3 (KC)**

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78400 or BILED 78600.

**prereq:** completion of 39 cr of course work or permission of the program coordinator

**Hours** 15 hrs of seminar plus conferences

**Credits** 2 cr

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**BILED 78400 - Practicum in Grades 4–6 (KC)**

Supervised classroom teaching experience in an elementary bilingual setting. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

**prereq:** completion of 39 cr of course work or permission of the program coordinator

**Hours** 15 hrs of seminar plus conferences

**Credits** 2 cr

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**BILED 78600 - Student Teaching in Grades 4–6 (KC)**

Twenty days of supervised student teaching at grade level 4–6 in an elementary bilingual setting selected by Hunter College; four full days plus conferences and professional development workshops. Students who receive a grade of B-, C+ or C must apply to the department chairperson for permission to preregister for this course, which may be repeated.
only once. Students who receive a grade of F may not repeat the course and may not continue in the program. Students who take this course must also take BILED 78300 or BILED 78500.

prereq: completion of 39 credits of course work or permission of the program coordinator
Hours 30 days student teaching, 15 hrs of seminar plus conferences,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

Education: Childhood Education

CEDC 715FW - Fieldwork: Reading and Social Studies (KC)

Supervised experiences in pedagogical applications of literacy and social studies methods courses. Students will complete six hours of fieldwork per week for a minimum of 75 contact hours per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individual and small groups of children. Students will be placed in Hunter College-selected elementary schools and other educational programs.

prereq: CEDF 70900
coreq: CEDC 73000 and 72200
Hours 75 hrs of fieldwork,
Credits 1

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

CEDC 70000 - The Art of Effective Teaching

This course is designed to introduce pre-service childhood educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

prereq or coreq: CEDF 70900
Hours 2
Credits 2

CEDC 70100 - Beginning Elementary Literacy Methods

Beginning Elementary Literacy Methods is the first of a two-part sequence designed for pre-service graduate teacher candidates as an introduction to the content and procedures used to teach English language arts to elementary students. Students will learn how children develop reading and writing concepts and abilities, become familiar with children's literature, both nonfiction and fiction, and understand current practices of literacy instruction and assessment.

coreq: This course should be taken with CEDF 70900, CEDC 70500, EDSEL 79600, CEDC 77200 Fieldwork &
Teaching Seminar 1.
Hours 45
Credits 3

CEDC 70300 - Teaching Science in the Elementary School

A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900 and CEDC 70000
Credits 3

CEDC 70350 - Teaching Science in the Elementary School

For students pursuing dual certification in childhood special education and childhood education. A study of the philosophies and instructional strategies which will enable future educators to teach science to diverse populations in elementary schools.

prereq or coreq: CEDF 70900
Credits 3

CEDC 70400 - Teaching Developmental Reading

The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70450 - Teaching Developmental Reading

For students pursuing dual certification in childhood special education and childhood education. The theoretical and practical aspects of literacy will be presented with particular emphasis on teaching literacy to diverse populations. In addition, the role of family involvement and community involvement and the use of technology for literacy development will be stressed. Instructional approaches and materials for teaching literacy will be explored.

prereq or coreq: CEDF 70900
Hours includes 10 hrs of fieldwork
Credits 3

CEDC 70500 - Mathematics Curriculum and Methods

An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.
CEDC 70550 - Mathematics Curriculum and Methods

For students pursuing dual certification in childhood special education and childhood education. An exploration of current thinking about mathematics teaching and learning in the elementary school. Teachers will develop an understanding of the content of school mathematics programs and exemplary curricula and formulate a teaching methodology for the meaningful learning of mathematics.

CEDC 70600 - Reflective Practice in Elementary School Social Studies Curriculum Development

The course addresses the knowledge, skills, and attitudes for teaching the Social Studies curriculum to elementary grade students. This course is designed to introduce the content of the New York State Social Studies curriculum and the national standards for teaching Social Studies (http://www.socialstudies.org/standards/strands/) and focus on multiple instructional strategies to deliver this curriculum. There is an emphasis on integrating children's literature, the arts, and technology into the Social Studies curriculum and on experiencing the kinds of instructional methods and strategies recommended as current best practices for teaching the Social Studies curriculum.

CEDC 70700 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of the arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1–6.

CEDC 71200 - Advanced Methods of Teaching Math in Elementary Schools

Ways to set up and monitor mathematical investigations designed to promote flexible problem solving, active learning, finding patterns, reasoning logically, formulating and verifying hypotheses. Error analysis and remediation.
CEDC 71300 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

*prereq or coreq: CEDF 70900
Hours 45 hrs,
Credits 3*

CEDC 71400 - Advanced Educational Technology for Elementary School Teachers

Students will link prior knowledge of instructional technology with curriculum development strategies to design integrated learning events.

*prereq: CEDF 70900, and a course on computers or demonstrated literacy in basic computer skills and tool applications (word processing, spreadsheets, database, and presentation as well as the Internet)
Hours 45 hrs,
Credits 3*

CEDC 71600 - Educational Technology in Mathematics and Science Teaching/Learning

An advanced educational technology course for students concentrating in mathematics and science at the elementary school level. Students will link prior knowledge of instructional technology to curriculum development creating the strategies to design integrated learning materials in mathematics and science.

*Hours 45 hrs.
Credits 3*

CEDC 71700 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

*Credits 1*

CEDC 71800 - Independent Study in Curriculum and Teaching

Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

*Credits 2*

CEDC 71900 - Independent Study in Curriculum and Teaching
Permission of faculty adviser and chairperson required. Independent study in the areas of curriculum or teaching methodology. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3

**CEDC 72200 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology**

Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

*prereq: CEDF 70900
coreq: CEDC 71500 and CEDC 73000
Hours 30 hrs,
Credits 2*

**CEDC 72250 - Social Studies Curriculum and Instruction: Integrating Literature, the Arts, and Technology**

For students pursuing dual certification in childhood special education and childhood education and those in the bilingual extension program. Within the framework of New York State Standards, this course reflects concern for quality social studies teaching for all learners. Major attention is given to our common heritage of democracy and human rights; an appreciation of the diverse tapestry that characterizes us as a nation; the study of history within the social studies; the use of literature and the arts to illuminate and enrich understandings; the application of critical and analytical skills to interpret primary documents and data; the integration of technology to acquire, process, and organize knowledge.

*prereq or coreq: CEDF 70900 and CEDC 70450
Hours 30 hrs,
Credits 2*

**CEDC 72400 - Student Teaching in Grades 1–3 and 4–6 (KC)**

Supervised student teaching at two grade levels, 1–3 and 4–6, in an elementary school selected by Hunter College; five full days a week plus conferences and professional development workshops.

Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March.

*prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus a minimum of 60 days of student teaching*
Credits 5
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

CEDC 72500 - Student Teaching in Grades 1–3 (KC)

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 728: Practicum in grades 4–6. Note: Applications for spring semester student teaching are due in October; applications for fall semester student teaching are due in March. Not for students who have completed EDC 72400 or 72700.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus 30 days of student teaching
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

CEDC 72600 - Student Teaching in Grades 4–6 (KC)

Teacher candidates who take this course must also take CEDC 72500 or CEDC 72700. Supervised student teaching in an elementary school selected by Hunter College plus conferences and professional development workshops. This course is limited to students who are employed as teachers and have completed, or will complete, CEDC 72700 Practicum in grades 1–3. Not for students who have completed CEDC 72400 or 72800.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus 30 days of student teaching
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

CEDC 72700 - Practicum in Grades 1–3 (KC)

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72800.
Note: Applications for spring semester student teaching are due in October; applications for fall semester practicum are due in March. Not for students who have completed CEDC 72400 or 72500.

prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
Hours 30 hrs of seminar plus supervision and conferences
Credits 2
This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**CEDC 72800 - Practicum in Grades 4–6 (KC)**

Teacher candidates who take this course must also take CEDC 72600 or CEDC 72700. Note: Applications for spring semester practicum are due in October; applications for fall semester student teaching are due in March. Not for students who have completed CEDC 72400 or 72600.

*prereq: completion of 31 credits of course work including CEDC 73000 or permission of the childhood education adviser
*Hours 30 hrs of seminar plus supervision and conferences
*Credits 2

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**CEDC 72900 - Fieldwork in Childhood Education for Special Educators (KC)**

Observing and assisting teaching in an elementary school setting. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

*prereq: CEDF 70900, CEDC 70450 and 70550
*Hours 15 hrs of seminar plus 50 hrs fieldwork
*Credits 1

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**CEDC 72950 - Fieldwork in Childhood Education for Bilingual Educators (KC)**

Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups.

*prereq: CEDF 70900; BILED 70100. Observing and assisting teaching in an elementary school setting
*Hours 15 hrs of seminar plus 50 hrs fieldwork
*Credits 1

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**CEDC 73000 - Perspectives on Literacy Across the Content Areas**

Literacy across the curriculum. Skills, strategies and techniques to teach reading and writing in the content areas will be developed. Expository as well as narrative texts will be utilized.
prereq: CEDF 70900; CEDC 70400
coreq: CEDC 71500 and 72200
Hours 30 hrs,
Credits 2

CEDC 73800 - The English Language: Theories and Pedagogical Implications

An overview of the acquisition, structure and use of English. Its goal is to provide Pre-K thru 6 teachers who already have prior certification in childhood education with the awareness and understanding of the aspects of the English language they will need in order to teach a variety of content area in grades Pre-K thru 6.

Hours 45 hrs,
Credits 3

CEDC 74000 - Contemporary Mathematics in the Elementary School

A study of selected advanced mathematical topics that underlie modern elementary school curricula. The structure and use of mathematical systems and their historical development; geometrical constructions.

Hours 45 hrs.
Credits 3

CEDC 74200 - Workshop Seminar in Elementary School Mathematics/Science

The major course goals are to continue to develop a foundation for the growth of the professional mathematics/science educator and to increase the effectiveness as a curriculum decision-maker. Through selective experiences, the course will focus on instructional styles and strategies.

prereq: all program courses except CEDC 74300
Hours 45 hrs
Credits 3

CEDC 74300 - Research Seminar in Mathematics/Science Education

An examination of the current research in mathematics and science education. Includes the evaluation of selected mathematics and science education research studies. Students will prepare a comparative, evaluative paper of research related to a specific curriculum topic or problem in the learning/teaching of mathematics and/or science.

Hours 45 hrs
Credits 3

CEDC 74400 - Development of Mathematical/Scientific Concepts in Children

Exposure to the development theories and school-based practices which allow children to develop the concepts in mathematical and science which underpin the learning in these areas. Appropriate learning activities for particular developmental levels will be addressed. Individual projects with children will be carried out.

prereq: all program courses except CEDC 74200 and CEDC 74300
Hours 45 hrs
Credits 3
**(CEDC 74600 - Geographic Perspectives in Elementary Education)**

Geographic principles and practices; development of pedagogic skills to teach geography at the elementary school level; development of skills in teaching geography of New York City and New York State; development of understanding of global issues and of geographic factors affecting historical events.

*Hours 45  
Credits 3*

**(CEDC 74700 - Number Theory and Algebra in Elementary Curriculum)**

A study of the underpinnings of Number Theory and Algebra and the role they play in curriculum, teaching and student learning. This course gives participants a deeper understanding of algebra and how students learn transition from arithmetic to algebraic reasoning.

*prereq: The course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.*

*Hours 45 hrs  
Credits 3*

**(CEDC 74800 - Geometry and Measurement in the Elementary)**

A study of the underpinnings of Geometry and Measurement and the role they play in curriculum, teaching, and supporting student learning. Topics in Geometry and Measurement are important concepts at the elementary school level and this course gives participants a deeper background in these two areas. Additionally, pedagogical practices important in these areas will be examined as well as a deep study of how students develop these concepts through curriculum, representations, manipulatives, and pedagogical practices will be discussed.

*prereq: This course is intended for students in the Elementary Mathematics Specialist program or licensed elementary school teachers.*

*Hours 45  
Credits 3*

**(CEDC 74900 - Leadership in Elementary School Mathematics)**

A study of mathematics leadership and the development of mentors, coaches, and leaders of professional development.

*prereq: This course is intended for students in the Elementary Mathematics Specialist program. Completion of at least 24 credits in the program.*

*Hours 45  
Credits 3*

**(CEDC 75500 - Assessment and Instruction for Diversely Gifted Learners)**

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

*Cross-listed SPED 75500  
prereq or coreq: SPED 75300 and SPED 75400*
CEDC 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed SPED 75600, ADSUP 76500, CEDF 75600
prereq or coreq: SPED 75300 and SPED 75400

CEDC 76000 - Special Topics in the Arts

The theory and application of children's artistic development. Course includes visual arts contents, instructional techniques, technology, materials and their use across the elementary school curriculum. Through hands-on workshops the teacher candidate will understand how to plan and utilize a visual arts curriculum to enhance student's cognitive, perceptual, expressive and imaginative abilities.

prereq: CEDC 70700

CEDC 77200 - Fieldwork & Teaching Seminar 1 (KC)

Fieldwork & Teaching Seminar 1 is the initial experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

coreq: This course should be taken with CEDF 70900, CEDC 70500, CEDC 70100, EDESL 77100.

CEDC 77300 - Fieldwork & Teaching Seminar 2 (KC)

Fieldwork & Teaching Seminar 2 is the second experience in an elementary partner school for the clinically rich track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDF 71000, CEDC 70300, CEDC 70600, CEDC 70200.
This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

CEDC 77400 - Fieldwork & Teaching Seminar 3 (KC)

Fieldwork & Teaching Seminar 3 is the third experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDF 71600, CEDC 73900, CEDC 70700, CEDC 71300.
Hours 30
Credits 2
45 days (field) & 15 hrs (course)

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

CEDC 77500 - Fieldwork & Teaching Seminar 4 (KC)

Fieldwork & Teaching Seminar 4 is the fourth and final experience in an elementary partner school for the 'clinically rich' track of the graduate childhood program.

prereq or coreq: This course should be taken with CEDC 71000.
Hours 45
Credits 3
75 days (field) & 15 hrs (course)

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

CEDC 77600 - Planet Earth: Earth and Space Sciences for Elementary School Teachers

Methods and content of teaching Earth and Space sciences topics to children. The course integrates issues of pedagogy and science content through interactive class meetings. Students will experience hands-on and mind-on science activities appropriate for the grade school level. Courses materials are aligned with K-12 Next Generation Science Standards (2013). All students are expected to learn science content, student's alternative ideas, lesson design and methods of teaching life science.

Hours 3 hrs
Credits 3

CEDC 77700 - Physical Science Background for Elementary Teachers

Concepts in the physical sciences, chemistry and physics necessary for teaching science in the elementary school will be explored. Appropriate laboratory experiences will be provided.
CEDC 77800 - Life Sciences

The methods and content of teaching life science topics to children. The course integrates issues of pedagogy and science content through interactive class meetings. Students will experience hands-on and mind-on science activities appropriate for the grade school level. Courses materials are aligned with K-12 Next Generation Science Standards (2013). All students are expected to learn science content, student's alternative ideas, lesson design and methods of teaching life science.

Hours 3
Credits 3

CEDC 77900 - Robotics and Engineering

New methods of teaching innovative school curricula in robotics and engineering. Students will design and program their own robotic vehicles and learn elementary school materials by a hands-on process and project work. The curriculum is modeled on the First LEGO League competitions popular at the grade school-level. Engineering is Elementary, a school curriculum to improve children's understanding of engineering principles, is also explored from a student-centered perspective. These new STEM curriculum for elementary schools are supported by K-12 Next Generation Science Standards (2013). All students who enroll in the course will emerge with training to teach these curricula in elementary schools, in informal settings and after school programs.

Hours 3
Credits 3

CEDCF 70050 - The Art and Science of Effective Teaching

This course is designed to introduce pre-service bilingual and TESOL educators to the world of urban education and their roles as quality educators. The course will acquaint students with the basic theoretical pedagogical practices of teaching. Content will include: the connection between theory and practice as it relates to the role of teachers; instructional methods for teaching diverse student populations; effective classroom practices; organizational strategies; motivation techniques and methods of assessment are also explored.

Hours includes 5 hrs of fieldwork
Credits 3

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Hours 45 hrs
Credits 3

CEDF 70650 - Social, Historical, Philosophical Foundations of Education: The American School
For students pursuing dual certification in childhood special education and childhood education. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900
Hours 45 hrs
Credits 3

CEDF 70800 - Social, Historical, Philosophical Foundations of Education: The American School

For students pursuing certification in childhood education with a bilingual extension or in TESOL. Advanced review of issues and themes in the social foundations of education viewed from an interdisciplinary perspective.

prereq or coreq: CEDF 70900
Hours 45 hrs
Credits 3

CEDF 70900 - Child Development Grades 1-6

Theories and research applied to children's development. Understanding and working with children from diverse backgrounds to foster optimal growth.

Hours includes 5 hrs of field work
Credits 3

CEDF 71000 - Educational Psychology

Advanced educational psychology. Theories and research applied to learning, motivation, cognition, pupil and teacher relationships, and classroom management with a focus on students from diverse backgrounds.

prereq: CEDF 70900
Hours includes 5 hrs of field work
Credits 3

CEDF 71200 - Child and Adolescent Development

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

Hours includes 5 hrs of field work
Credits 4

CEDF 71500 - Diversity in the American School

Advanced, graduate-level survey of current issues and theories of diversity and their impact upon the contemporary American school. Topics will be from an interdisciplinary perspective with attention to social policy implications.
CEDF 71600 - Assessment of Teaching and Learning

Basic principles and practices for the assessment of learning in the elementary school classroom. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, and alternative forms of assessment.

Credits 3

CEDF 71700 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 1
permission of faculty adviser and chairperson required

CEDF 71800 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 2
permission of faculty adviser and chairperson required

CEDF 71900 - Independent Study in Educational Foundations

Independent study in the areas of psychological or social foundations of education. A maximum of 6 credits of independent study may be counted toward the degree.

Credits 3
permission of faculty adviser and chairperson required

CEDF 75000 - Special Topics in Diversity

An examination of the history and adaptation of diverse groups in the U.S. and their experience in the American educational system. Emphasis is on the role of culture, structure and policy in facilitating and/or hindering opportunities for these groups to achieve educational equity.

prereq: CEDF 70900
prereq or coreq: CEDF 70600
Hours 45 hrs
Credits 3

CEDF 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity
An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.

Cross-listed SPED 75300  
*Hours includes 10 hrs field experience*  
*Credits 3*

**CEDF 75600 - Professional Discourse and Leadership in Gifted Education**

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed SPED 75600, ADSUP 75600, CEDC 75600  
*prereq or coreq: SPED 75300 and SPED 75400*  
*Hours includes 10 hrs field experience*  
*Credits 3*

**CEDF 79200 - Integrative Seminar: Research in Childhood Education**

Students prepare research proposals on topics which summarize and apply previous learnings. Written and oral presentations.

*prereq: completion of 31 cr. of course work including CEDC 73000 and CEDF 71600 or permission of the childhood education adviser*  
*Hours 45 hrs*  
*Credits 3*

**Education: Dance Education**

**DANED 76000 - Dance Methods I: Curriculum Design and Pedagogy for Productive Teaching and Learning**

An introduction to pedagogical practices that support productive teaching and learning in dance. Students will examine pedagogical theories and practices and will conduct "action research" in order to identify conditions that support or hinder productive teaching and learning. This first phase of the "methods" course will lay the groundwork for deeper investigation, integration, and application of materials in the Methods II course. 36 hours of fieldwork is required. (track 2 MA students are exempt from the fieldwork requirement).

*prereq or coreq: 6 credits in education and 12 credits in dance*  
*Hours 3 hrs + 36 hrs of fieldwork*  
*Credits 3*
DANED 76200 - Dance Methods II: Advanced Curriculum Design and Pedagogy for Productive Teaching and Learning

Advanced investigation of contexts for productive teaching and learning. Students will engage in intensive examinations of pedagogical theories and practices, conduct "action research" in order to identify conditions that support or hinder productive teaching and learning, develop unit plans, and participate in peer-to-peer inquiry groups to develop their own artistry in teaching.

prereq: DANED 76000  
Credits 3

DANED 76400 - Practicum

Students with initial state certification in dance complete a semester of Practicum in their current full-time dance teaching situation or in assigned schools under the supervision of a Hunter College faculty member. Practicum teachers will assume all responsibility for classroom instruction and management and will be observed by Hunter faculty 4 times during the course of the semester. All Practicum students are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

prereq: DANED 76000, DANED 76200  
Hours 2 hrs plus 15 hrs seminar required  
Credits 2

DANED 76602 - Student Teaching

Teacher candidates complete a total of 20 days of student teaching under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty twice during the course of their student teaching experience. All student teachers are required to participate in a seminar class meeting for a total of 15 hours. A culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000; DANED 76000, DANED 76200  
Hours 20 days plus 15 hrs seminar  
Credits 2

DANED 76605 - Student Teaching

Teacher candidates complete a total of 60 days of student teaching (30 days of student teaching at grades pre-K-5 and 30 days at grades 6-12) under the supervision of a Hunter College faculty member and a certified Dance teacher in a New York City school selected by the college. Student teachers will assume significant responsibility for classroom instruction and management and will be observed by Hunter dance faculty 4 times during their student teaching experience. All student teachers are required to participate in a seminar class meeting 1 hour per week for 15 weeks. A culminating professional project is required before graduation.

prereq: SEDF 70300, 70400, 70500, 70600; SEDC 71000, DANED 76000, 76200  
Hours 60 days plus 15 hrs seminar  
Credits 5

Education: Doctoral
EDDIL 80000 - Foundations of Research, Leadership, and Equity in Education

In this course, students explore the foundations of the three pillars of the EdD program: Research, Leadership, and Equity in Education. Students will be immersed in a variety of research studies drawing on the professional literature in education and associated fields to develop an understanding of diverse research traditions. The course explores research designs and processes in published studies for question posing and data collection, analysis, and interpretation from quantitative and qualitative perspectives. Research related to instructional leadership will be examined in an effort to develop an understanding of this field of study. The course introduces students to the key concepts necessary for engaging in research and leadership around diversity, equity, and social justice.

Hours 3
Credits 3.0

EDDIL 80100 - Leadership for Change

In this course, students are introduced to the idea of non-positional leadership - that everyone has the responsibility and ability to lead change, regardless of one's formal position within the education landscape. They are then introduced to various theories/theoretical frameworks on the problems of change at the individual, group and system level, as well as to the notion of a theory-of-change, including how it differs from theory and its import in shaping and helping to ensure effectiveness of an educational change effort. Special attention is paid to the import of precise problem identification; the need for feedback loops to allow for ongoing adjustment of change designs in response to the unexpected; and to implementation challenges. Students apply their learning by analyzing existing educational change efforts and by designing and defending a theory-of-change that they could potentially implement to improve an identified problem of practice.

Hours 3
Credits 3.0

EDDIL 80200 - Leading for Justice, Equity, Diversity, and Inclusion

An important aspect of leadership in schools is being mindful of the identities, backgrounds, communities, and histories of the populations they serve. Even more important is an understanding of how the sociocultural contexts in which we all live result in systemic unequal distribution of power, privilege, and resources. This course will review key theoretical frameworks that attempt to describe the nature of schools, teaching and learning, and unequal student outcomes. The course will give participants the opportunity to consider the history and structure of schools from multiple perspectives by taking an intersectional approach. Participants will be expected to apply the NYSED Culturally Responsive and Sustaining Frameworks in their individual settings and propose research, policy or practice they are focused on Justice, Equity, Diversity and/or Inclusion.

Hours 3
Credits 3.0

EDDIL 81000 - Leader Scholar Community Research Seminar

This is a seminar in which students, under the supervision of a faculty member, develop research expertise that is expected to lead to a specific project such as a dissertation, report, or publication. Assignments might include development of problem statement, literature review, or statement of implications for practice based on review of comparable work. This course may be taken up to six times for credit and may be taken more than one time in any given term.

Hours 1
EDDIL 82000 - Doctoral Directed Readings

Directed Readings involve an in-depth study of some area of research, theory, or research methodology that is of special interest to a student (or small group of students) in the EdD program but for which there is no formal course within the program. The directed reading is done under the supervision of a full-time faculty member. When requesting a directed reading, students should collaborate with the intended instructor to create and agree upon a written proposal for the course (including a list of readings and at least one written assignment) Once the proposal is agreed upon by student and instructor, the Program Director of the EdD program must provide approval as well.

prereq: Permission EdD program director required.
Hours 1 - 3
Credits 1.0 - 3.0

Directed Readings may be taken for variable credits (1-3 at a time) and may be taken for up to a total of 6 credits.

EDF 80000 - Statistics for Applied Educational Research I

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, statistical assumptions, t-tests, analysis of variance, correlation, and chi-squared.

prereq: SPED 80000
Hours 3 hrs
Credits 3 cr

EDF 80100 - Qualitative Methods in Educational Research

This graduate course introduces students to qualitative research within the field of education. The course provides an overview of the different approaches to qualitative research and specific strategies of data collection and analysis, their underlying assumptions and appropriateness for particular research questions, and authentic experience with qualitative research.

prereq: SPED 80000
Hours 3 hrs
Credits 3 cr

EDF 80200 - Quantitative Methods and Measurement

The purpose of this course is to increase students' understanding of quantitative research methods and design issues relevant to the pursuit of research in education, with a focus on correlational, experimental and quasi-experimental design.

prereq: EDF 80000
Credits 3 cr

EDF 80400 - Analysis of Major Issues in Contemporary Education Reform
After a brief review of the history of education reform efforts, we will study the major debates and policy initiatives that have shaped the contemporary structures of American public education. We will seek to understand what is at stake in these initiatives, the evidence behind their adoption and resistance to them.

Hours 3 hrs  
Credits 3 cr

**EDF 81000 - Mind, Brain, and Education**

This course provides students with knowledge from the neuro and cognitive sciences that can be applied in practice. This course begins with an introduction to mapping the physical features of the brain before leading into contemporary research on "brain-based" research and educational curricula and programs. Students will engage in examining research and separate "nureomyth" from "neuroscience" in order to be informed by new knowledge from the science of learning.

Hours 3 hrs  
Credits 3 cr

**EDF 83000 - Dissertation Proposal Seminar**

This course is a seminar designed to provide students with a general overview of the structure and components of a dissertation proposal. It serves as common ground for all cohort members to prepare for highly individualized work with a dissertation advisor in subsequent semesters. Throughout this course, students will focus upon the following components: (1) the background of the problem to be investigated; (2) formulating a research question(s); (3) developing a theoretical framework; (4) conducting a literature review; (5) choosing research methods to collect data; (6) analyzing findings; and (7) generating implications. These elements will be taught in relation to a "traditional" five-chapter dissertation, along with variations and expansions of this structure. In addition, students will review and become certified in appropriate IRB requirements. A major goal of this seminar is to individualize support with view to preparing each student to develop a topic for approval that will continue to be worked upon with a dissertation advisor during the following semester.

Hours 3 hrs  
Credits 3 cr

**EDF 83100 - Dissertation Advisement**

Dissertation Advisement is a customized course of study taken immediately after Dissertation Proposal Seminar. The purpose of this course is to provide individualized support to doctoral students as they design and carry out a dissertation that addresses an identified problem of practice. This course must be taken for at least two semesters and must be taken every semester until the dissertation has been successfully defended for a minimum of six credits.

Any student who receives a grade of F must obtain permission from the program leader to repeat the course. This course may only be repeated once and only one failing grade is allowed in the course.

prereq: EDF 83000  
Hours 2 or 3  
Credits 2.0 or 3.0

**EDUC 80100 - Research on Effective Practice and Curriculum for Multilingual Learners**
The focus of this course is on effective instruction and curriculum supporting the academic, social, and emotional development of multilingual learners (MLLs). Topics and assignments provide a direct connection of research on the development of languages and literacies, as well as a programming, and policy for MLLs in P-12 school contexts. Analysis of research on English as a New Language (ENL) education and bilingual education, including review of quantitative and qualitative studies of instruction and curriculum for MLLs will provide the foundation for the course content. This course will prepare doctoral students to critically evaluate educational research on ELLs, deeply understand the core components of quality instruction for ELLs in P-12 classrooms, and be able to clearly identify appropriate methods for addressing and improving instruction and curriculum for ELLs. Topics and assignments are designed to provide theory that directly connects to the design of instructional models of and curricula for ELL instruction. The course will also analyze the role of language and race-related ideologies on how bi-/multilingualism is framed and the consequences for how programs and policies are conceptualized and implemented. This course will prepare doctoral students to critically evaluate educational research on MLLs, deeply understand the core components of quality programming and instruction for MLLs in P-12 classrooms, and to clearly identify appropriate methods for addressing and improving instruction and curriculum for MLLs.

**EDUC 80300 - Research on Effective Practice and Curriculum in Math**

The course will examine the current research on effective mathematical teaching, assessment practices, student learning, and curriculum design. Students will synthesize research and engage in research explorations focused on problems of practice.

**EDUC 80400 - Research on Effective Practice and Curriculum in Arts and Humanities**

This course examines current research in Arts and Humanities curriculum and its implementation. It addresses a host of theoretical and policy-oriented approaches to the teaching and learning of the arts and humanities. Particular attention will be paid to research on arts and humanities instruction and interventions that serve the needs of diverse students in urban schools.

**EDUC 80600 - Effective Professional Development of Teachers**

In-depth study of research and practice in professional development for educators. Students will explore the literature about effective methods, contexts, and delivery of coaching, mentoring, and professional learning for teachers and other educators. Focus on understanding the strengths and weaknesses of different approaches to professional development, and on learning how to assess the appropriateness of a professional development strategy with respect to content and the teacher population to be served.

**EDUC 80700 - Professional Communications for Educational Settings**
This course explores a range of educational and school-based writing genres and writing for a variety of audiences. Resources and practices related to developing and writing within a variety of genres from traditional print publications to new media outlets will be introduced, explored and, most importantly, enacted.

Hours 3 hrs  
Credits 3 cr

**EDUC 80800 - Action Research**

The purpose of this course is to explore various aspects of a movement in education and educational research in which educators (e.g., P-12 teachers, school administrators, etc.) actively participate in making change in their practice through conducting systematic inquiry and research. The course will provide a broad overview of the epistemological, political, and methodological issues associated with the idea of practitioner research.

*prereq or coreq: EDS 80300 Qualitative Research Methods*  
Hours 3 hrs  
Credits 3 cr

**EDUC 80900 - Case Studies in Education: Institutions, Schools, Programs, Classrooms, and Individuals.**

This course examines case study as a research design in educational contexts. The unit of study can include institutions, schools, programs, and individuals. A variety of topics will be explored, including becoming familiar with types of case studies, conceptualizing case study research, creating research questions, generating data, use of analytic methods, and application of case study findings to leadership and practice. In addition, the course will feature related, sometimes overlapping, methodological approaches such as portraiture and narratives. The course engages students in substantial study and critique of current and "classic" cases in educational research based on candidates' fields of interest. Particular attention will be paid to ethical considerations in conducting case study research in urban schools and communities.

Hours 3 hrs  
Credits 3 cr

**SPED 80000 - Introduction to Doctoral Studies: Theory and Research in Curriculum and Teaching**

This course provides a brief overview of theory and research in curriculum and teaching. Students will consider how their own positionality influences ways in which they read and interpret educational research. Conversely, students will also understand how a researcher's positionality influences all aspects of their research, including: questions asked; theoretical framework adopted; methodologies chosen; data collection; analysis and interpretation of data; results or findings; and implications. Students will also engage in studying selected influences of curriculum history, particularly post 1945-present. These influences include: The Cold War, Civil Rights Movement, The War on Poverty, No Child Left Behind, and the Standards Movement. This course will serve as a beginning to cultivating student interests in developing their own research studies by weaving together theory, research, practice, and policy within education.

Hours 3 hrs  
Credits 3 cr
This course provides the opportunity to consider disability in the context of schools and society—with view to engaging with, and critiquing, existing research in the fields of special education and disability studies in education (DSE). We will be mindful of how the disposition and paradigm of researchers influences all aspects of their work including: problems identified; questions asked; methods used; analysis employed; findings or results; interpretations, and; implications. This course focuses on the nature of evidence-based practice involving students with disabilities within specific contexts. The course is designed to provide a foundation for the course work, independent scholarship, and educational research that students will undertake in the process of completing the doctoral degree.

Hours 3 hrs.
Credits 3 cr.

**ECC 70300 - Early Childhood Curriculum: Birth through Grade 2**

Models of developmentally appropriate curricula are examined in light of theory and practice, and the needs of diverse learners. Strategies for guiding young children's behavior, for assessing environments and curricula, and using computer technology in early childhood.

*prereq or coreq: ECF 70000
Hours 45 hrs plus 20 hrs of fieldwork, 10 hrs at each of two age levels
Credits 3*

**ECC 70400 - Language and Literacy: Birth through Grade 2**

Various perspectives in emergent literacy are examined to learn how young children acquire language and become readers and writers in their different cultural and linguistic communities. The roles of families, centers, schools and communities in urban environments, and assessment of early literacy development are studied. (Not for Program 1 students in early childhood; see ECC 70500 and ECC 70600.)

*prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3*

**ECC 70500 - Language and Literacy: Birth through Kindergarten**

Research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of early literacy development between birth and kindergarten and the role of families, programs and schools in early literacy development. (Not for Program 2 students.)

*prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3*

**ECC 70600 - Language and Literacy: K through Grade 2**
Examination of research and practice on emergent literacy and the development of literacy learning among diverse learners between kindergarten and second grade. The role of families and schools in children's literacy development in urban environments is explored. (Not for Program 2 students.)

**prereq or coreq:** ECC 70500 (early childhood students only)

Hours 45 hrs
Credits 3

**ECC 70700 - Language and Literacy: English Language Learners**

Second language acquisition and the development of literacy. Special emphasis on language and culture, dialect variation and development of social and academic language.

**coreq:** ECC 70400

**prereq or coreq:** 70500 or 70600

Hours 15 hrs
Credits 1

**ECC 70800 - Children with Special Needs: Birth through Grade 2**

The special learning needs of young children with developmental delays and disabilities along with intervention guidelines.

**prereq:** ECC 70300

**prereq or coreq:** ECF 70200

Hours 45 hrs plus 15 hrs of fieldwork, 5 hrs at each of three age levels
Credits 3

**ECC 70900 - Mathematical and Scientific Thinking in Early Childhood**

Research and practice that focus on children's acquisition of mathematical and scientific thinking and appropriate activities to enable them to acquire these skills. The role of parents, providers, and teachers in meeting the needs of diverse learners is examined. (not for Program 1 students)

**prereq or coreq:** ECC 70300

Hours 45 hrs
Credits 3

**ECC 71000 - Early Childhood Mathematics: Birth through Grade 2**

Theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth to second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings. (Required in Program 1.)

**prereq or coreq:** ECC 70300

Hours 45 hrs
Credits 3
ECC 71100 - Science in Early Childhood Education: Birth through Grade 2

Theories and research of scientific thinking in young children; the inquiry process in developing concepts and understandings of the natural and people-made world in young children. Ways of assessing science learning in infant, toddler, preschool, and grade K–2 settings. (Required in Program 1.)

prereq or coreq: ECC 70300
Hours 45 hrs
Credits 3

ECC 71200 - Pre-Student Teaching Field Placements in Early Childhood (KC)

This course consists of a 15-hour seminar plus a total of 50 hours of field experience in early childhood programs, with 25 hours at each of two of the three following age/grade levels: prekindergarten, kindergarten, grades 1 or 2. Students will observe various aspects of an early childhood program and study firsthand how programs for children of different age levels diverge.

prereq: ECC 70300
Hours 15 hrs of seminar plus 50 hrs in the field
Credits 1

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

ECC 71300 - The Expressive Arts in Early Childhood

Research and practice on the importance of creative expression in young children's development. Inquiry into children's artistic and intellectual inventiveness through art, music, movement, theatre and dance activities that reflect the needs of diverse learners in a multicultural environment. Offered in collaboration with Lincoln Center Institute.

Hours 45 hrs
Credits 3

ECC 71400 - Health, Safety and Nutrition in Early Childhood

This course prepares teachers of children, birth through second grade, with knowledge and skills of developmentally appropriate practices in health promotion and wellness among children of diverse backgrounds and abilities within the context of the family, school and community. Child abuse, drug abuse prevention, prevention of school violence, and fire safety are included.

prereq or coreq: ECF 70000
Hours 45 hrs
Credits 3

ECC 71500 - Educational Technology in Early Childhood
Educational technology course for students in the graduate early-childhood education programs. Students will enhance their basic computer skills and learn how to assess and use various applications in their early childhood classrooms.

*Hours* 15 hrs,  
*Credits* 1 cr

**ECC 71600 - Student Teaching in Early Childhood Settings (KC)**

A full semester of student teaching in one of the required age/grade levels (Pre-K, K, grades 1-2) that supplement pre-student teaching field experience (Birth-3, preK-2).

*prereq:* ECC 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70700; ECC 70800; ECC 70900 (program 2) or 71000 and 71100 (program 1); ECC 71200 (program 1 only)  
*Hours* 30 hrs of seminar plus 60 days of student teaching  
*Credits* 3

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**ECC 71650 - Student Teaching in Early Childhood Bilingual Settings (KC)**

Two student teaching placements of 30 days each at different age/grade levels (Pre-K–K and 1–2).

*prereq:* ECC 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)  
*Hours* 30 hrs of seminar plus 60 days of student teaching  
*Credits* 3

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**ECC 71700 - Supervised Practicum in Early Childhood (KC)**

This course has two key components: (1) A full semester of practicum in Pre- K, K, or grades 1-2 and (2) biweekly seminar (30 hours). It builds on prior coursework and field experiences by providing guidance and reflective discussion that allow teacher candidates to enhance their teaching skills in early childhood education settings. Specific information regarding professional issues, ethical behaviors, and child advocacy is provided and reviewed. In addition, this course will align the practicum experience with the expectations of the edTPA in order to support teacher candidates with the preparation and submission of their portfolios.

*prereq:* ECC 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200  
*Hours* Bi-weekly seminar (30 hrs)  
*Credits* 2

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**ECC 71750 - Supervised Practicum in Early Childhood Bilingual Setting (KC)**

Teaching practicum for students in early childhood bilingual education. Students who take ECC 71750 must also complete ECC 71850. (Not for students who have completed ECC 71650.)

*Hours* 15 hrs of seminar plus conferences,
*Credits* 1

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**ECC 71800 - Early Childhood Student Teaching (KC)**

This is a college supervised experience and is offered during the regular academic year and in the summer to facilitate the opportunity for practice at a different age/grade level than ECC 71700. This course has two key components: (1) a minimum of 30-days of student teaching in Pre-K, or grades 1-2 and; (2) biweekly seminar (15 hours).

*prereq:* ECF 70200; ECC 70300, 70500, 70600, 70700, 70800, 71000, 71100, and 71200

*Hours* Bi-weekly seminar (15 hrs)
*Credits* 1

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**ECC 71850 - Early Childhood Bilingual Student Teaching (KC)**

Student teaching for 30 days at one age/grade level: Pre-K–K or Grades 1–2. Students who take ECC 71850 must also complete ECC 71750. (Not for students who have completed ECC 71650.)

*prereq:* ECF 70200; ECC 70300; ECC 70400 (program 2) or 70500 and 70600 (program 1); ECC 70800; ECC 70900; ECC 71200 and BILED 71100, 71150, 77800 (program 1 only)

*Hours* 15 hrs of seminar plus 30 days of student teaching
*Credits* 2

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**ECC 71951 - Special Topics in Early Childhood Education**

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

*prereq:* special permission of an early childhood education adviser
**ECC 71952 - Special Topics in Early Childhood Education**

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

*prereq: special permission of an early childhood education adviser*

**ECC 71953 - Special Topics in Early Childhood Education**

Important special issues as they arise through changes in federal or state law or new developments in early childhood education.

*prereq: special permission of an early childhood education adviser*

**ECC 72000 - Integrative Seminar in Early Childhood Education**

Students learn how to use research methods to ask and answer questions related to effective practice in early childhood education. Teacher candidates select an area of study related to their practice and complete a research proposal using established research procedures.

*prereq: ECF 70100, 70200; ECC 70300, 70400 (program 2) or 70500 and 70600 (program 1), 70700, 70800, 70900 (program 2) or 71000 and 71100 (program 1), 71200 (program 1)*

**ECC 80100 - Research and Practice in Early Childhood Education**

Overview of the historical and social influences on early childhood research and practice. Candidates will gain a comprehensive understanding of the significant policy, programmatic and pedagogical factors affecting the formal, symbolic and societal curricula, within and across early childhood education and care settings.

**ECF 70000 - Child Development: Birth to Age Eight**

Overview of the physical, social, emotional, and cognitive development of young children, birth to age eight. Theoretical perspectives of typical and atypical development of childhood are discussed with implications for appropriate practice in diverse early childhood settings.
**ECF 70100 - Social and Historical Contexts of Early Childhood Education**

Examination and analysis of the social and historical contexts of early childhood education. Applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*Hours 45 hrs*  
*Credits 3*

**ECF 70200 - Assessment in Early Childhood Education: Birth through Grade 2**

Basic concepts, principles and fundamentals of measurement and assessment, both formal and informal, are examined along with their relevance in early childhood education.

*prereq: ECF 70000*  
*Hours 45 hrs*  
*Credits 3*

**Early Childhood Special Education**

**SPEDE 76500 - Special Topics in Early Childhood Special Education**

One-credit special topics courses focus on narrowly defined topics of high current relevance in the field of early childhood special education.

*prereq: SPEDE 76800 and 76900 or permission of the coordinator of the early childhood special education program*  
*Hours 15 hrs,*  
*Credits 1 cr*

**SPEDE 76700 - Field Experiences in Early Childhood Special Education with an Annotation in Severe Disabilities**

*prereq: SPEDE 77000, SPED 79000, and SPED 79100*  
*prereq or coreq: SPEDE 77100*  
*Hours 15 hour seminar plus 30 hrs of fieldwork in one of the following age/grade levels: 0-3; 3-5; or Kindergarten, grades 1 and 2 in a program for children with severe disabilities,*  
*Credits 1 cr*

**SPEDE 76800 - Fostering Development in Young Children with Diverse Abilities: Historical, Political, and Inclusive Perspectives**

This course explores the variability of development in infants and young children, and related developmental promotion approaches, through a lens of cultural, linguistic, and ability diversity. Functional developmental competencies and the range of developmental consequences within specific diagnoses will be examined, including the implications for supporting learning and development in classrooms, homes, and communities. The evolution of laws, regulations, and inclusive practices to current early intervention and early childhood special education recommended practices will be situated within this developmental framework.
prereq or coreq: ECF 700 (for Program 1 students only)
Hours Includes 5 hrs field experience,
Credits 3

SPEDE 76900 - Evaluation, Assessment, and Program Planning for Infants and Young Children with Special Needs (KC)

Developmentally appropriate and recommended practices for assessing the development and learning of young children from infancy through age 7 years (second grade) and identifying family strengths and supports. Application of tools, observations, and discussions with informed others to make decisions in screening, evaluation and program planning will be explored within a transdisciplinary team. Students must receive a grade of B or better.

prereq or coreq: ECF 700 and ECC 703 (for Program 1 students only); and SPEDE 768
Hours Includes 15 hrs field experience,
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPEDE 77000 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula (KC)

Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods. Students must receive a grade of B or better.

prereq or coreq: SPEDE 768 and SPEDE 769; OR SPED 700 and SPED 790
Hours Includes 15 hrs field experience,
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPEDE 77100 - Autism Spectrum Disorder: Characteristics and Implications for Intervention

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

prereq or coreq: SPEDE 770
Hours Includes 5 hrs of field experience
Credits 3 cr

SPEDE 77200 - Positive Behavior Support (PBS) and Its Application to Young Children with Special Needs
The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

**prereq:** SPEDE 768 OR SPED 700

**Hours** Includes 5 hrs of field experience

**Credits** 3 cr

This yearlong course focuses on the significant influence of the family in early childhood learning and development and evidence-based strategies for creating and sustaining effective family-professional partnerships to optimize family and child outcomes in classroom, home, and community settings. The developmental process of parenting, family capacity-building approaches, and convergence of family and professional expertise to promote child learning and development will be examined across diverse cultures, languages, abilities, settings, and urban contexts.

**prereq or coreq:** SPEDE 770

**Hours** 3.0 (YL)

**Credits** 3.0 (YL)

Includes 5 hrs field experience.

This is a yearlong course.

*This Key Course requires a grade of B or better to pass. An student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.*

**SPEDE 77400 - Adaptations for Individual Learners Across the K-2 Curriculum (KC)**

Methods for supporting children with disabilities and special education needs, grades K–2 access the general education curriculum; Data-based decisions within a response to intervention framework and individualized modifications and adaptations, instructional approaches and specific methodologies effective with young children are emphasized.

**prereq:** SPEDE 77000 and SPEDE 77200 (for all programs); and ECC 70400 or ECC 70900 (for Program 1 students only)

**Hours** 3 hrs: includes 5 hrs field experience

**Credits** 3 cr

*This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.*

**SPEDE 77500 - Mathematics for Students with Special Education Needs, Grades K–2**

Principles, methods, and specially-designed mathematics instruction for students with disabilities and special education needs, grades K–2; focus on concept development, concrete materials, the counting substrate and strategies, and verbal memory supports, as well as on differentiating kinds and degrees of math learning and disability.
SPEDE 77600 - Introductory Field Experience in Early Childhood Special Education (KC)

Preparatory experience in a program supporting young children with diverse abilities; emphasis on what it means to be an early intervention/early childhood special education professional; One field placement of 10 days in a Kindergarten or Grade 1 or 2 setting.

prereq: ECC 71200 (for Program 1 students only)
prereq or coreq: SPEDE 77000

SPEDE 77651 - Field Experiences in Early Childhood and/or Childhood Special Education with an Annotation in Severe Disabilities: Autism

Two field placements of 30 hours each, with the placements at different age/grade levels: Pre-K (Birth–5), Kindergarten, grades 1 and 2, grades 306; both of these experiences must be with children who have autism spectrum disorders.

prereq or coreq: SPEDE 77100 or permission of the program coordinator

SPEDE 77750 - Student Teaching: Early Childhood Special Education with Annotation in Severe Disabilities

Supervised student teaching in two settings with 20 days in each placement; placements must be at different age/grade levels; Pre-K (Birth–5); Kindergarten; grades 1–2; practice in the implementation of skills developed through coursework and field experiences.

prereq: SPEDE 76700

SPEDE 77800 - Student Teaching in Early Childhood Special Education (KC)

Supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and an abbreviated field experience. (Note that students who take SPEDE 77800 must also take SPEDE 77900 in addition to either SPEDE 77910 or SPEDE 77920 and the placement for SPEDE 77800 must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2 – than SPEDE 779. One semester of SPEDE 778 or SPEDE 779 must be in a PreK setting.)
prereq: SPEDE 77600, ECC 71200  
prereq or coreq: SPEDE 77100  
Hours 1.0  
Credits 1.0  
(Note that students who take SPEDE 77800 must also take SPEDE 77900 and the placements must be at different age/grade levels.)

30 hrs seminar plus 30 days student teaching  

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**SPEDE 77820 - Final Student Teaching in Early Childhood Special Education (KC)**

Second, full-semester, intensive supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE 778.20 must have already taken either SPEDE 77810 or SPEDE 77910 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

prereq: SPEDE 77400 and either SPEDE 77810 or SPEDE 77910  
Hours 3 hrs. plus full semester of student teaching  
Credits 3 cr.

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**SPEDE 77850 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities**

Supervised student teaching for 20 days at one of the following age/grade levels: Pre-K (Birth–5), Kindergarten, grades 1–2; practice in implementation of skills developed through coursework and field experiences.

prereq: SPEDE 76700  
Hours 30 hrs seminar plus 20 days,  
Credits 2 cr  
(Note that students who take SPEDE 77850 must also take SPEDE 77950 and the placements must be at different age/grade levels. Students must be in an early childhood program with learners with severe disabilities for the entire semester.)

**SPEDE 77900 - Practicum in Early Childhood Special Education (KC)**

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and field experiences.

prereq: SPEDE 77600, ECC 71200  
prereq or coreq: SPEDE 77100  
Hours 30 hrs seminar plus conferences,
Credits 2
(Note that students who take SPEDE 77900 must also take SPEDE 77800 and the two experiences must be at different
age/grade levels. Pre-K [Birth–five], Kindergarten, grades 1–2. Teacher Candidates must be in an early childhood
program that includes children with disabilities for the entire semester.)

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPEDE 77910 - Initial Practicum in Early Childhood Special Education (KC)

First intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in
the implementation of skills developed through coursework and field experiences. (Note that students who take SPEDE
779.10 must also take SPEDE 77820 and the two experiences must be at different age/grade levels – Pre-K [Birth–
five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.
Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire
semester.)

prereq: SPEDE 77600
Hours 3 hrs plus full semester of practicum experience in worksite
Credits 3 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPEDE 77950 - Practicum in Early Childhood Special Education with an
Annotation in Severe Disabilities

Supervised practicum in an age/grade level other them that used in SPEDE 77850 practice in the implementation of
skills developed through coursework and field experiences. Students must be in an early childhood program with
learners with severe disabilities for the entire semester.

prereq: SPEDE 76700
Hours 30 hrs seminar plus conferences,
Credits 2 cr

SPEDE 77951 - Practicum in Early Childhood Special Education (KC)

Supervised practicum and weekly seminar; practice in the implementation of skills developed through coursework and
field experiences. Advanced students must complete individually-tailored assignments.

prereq: By permission
Hours 3 hrs
Credits 3 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPEDE 78000 - Language Teaching Approaches and Strategies for Young
Children with Autism Spectrum Disorders
Assessment and instructional approaches to teaching language to young children with autism, including picture communication systems. Verbal behavior and visual supports for early literacy: collaboration with speech language therapists and parents.

*prereq or coreq: SPEDE 77100 or permission of the program coordinator
Credits 1 cr*

**SPEDE 78100 - Incidental Teaching and Other Naturalistic Behavioral Strategies**

Overview of naturalistic behavioral strategies used in the education of young children with autistic spectrum disorders including incidental teaching, pivotal response training, natural language paradigm, and establishing operations to teach in the natural environment; involving parents.

*prereq or coreq: SPEDE 77100 or permission of the program coordinator
Credits 1 cr*

**SPEDE 78200 - Higher Functioning Children with Autism Spectrum Disorders**

Understanding the special needs of higher functioning children with autism spectrum disorders; assessment, instructional approaches, models, and methods for use in educational settings.

*prereq or coreq: SPEDE 771 or permission of the program coordinator
Credits 1 cr*

**SPEDE 78300 - Inclusion of Children with Autism Spectrum Disorders**

Why, when and how to include children with autism spectrum disorders in the educational mainstream; strategies that work for different types of students, families, and school environments.

*prereq or coreq: SPEDE 771 or permission of the program coordinator
Credits 1 cr*

**SPEDE 79900 - Field Experiences in Childhood Special Education (KC)**

This is a supervised practicum and seminar with practice in the implementation of skills developed through coursework and field experiences, this course will provide the teacher candidate with an expanded range of experiences in early childhood special education settings. In addition, the course will heighten the teacher candidate's focus on critical features of best practice as defined by the recommendations of the Council for Exceptional Children. This will help to strengthen the teacher candidate's skills in analyzing and utilizing a range of instructional strategies.

*Hours 30
Credits 2
This is a year-long course*

*This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.*

**Education: Counseling**

**COCO 70000 - Life Stage Development**
Analysis of developmental stages throughout the lifespan.

*Hours 45 hrs*
*Credits 3*

**COCO 70100 - Counseling Skills and Interviewing Techniques (KC)**

Effective communication and interviewing techniques with emphasis on listening and responding. Basic principles of ethical practice and client assessment.

*Hours 45 hrs*
*Credits 3*

*This Key Course requires a grade of B or better to pass.*
*Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.*
*This course may be repeated only once.*

**COCO 70200 - Theories of Counseling**

Study of major counseling theories to provide foundation for basic concepts and techniques of counseling.

*Hours 45 hrs*
*Credits 3*

**COCO 70300 - Psychosocial, Cultural, and Political Aspects of Disability: Rehabilitation and Special Education**

Psychological, developmental, social, economic, and political concomitants with emphasis on attitudes, self-concept, and adjustment in a handicapping world.

*Hours 45 hrs*
*Credits 3*

**COCO 70500 - Vocational Assessment and Placement**

Application of principles of occupational development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of the disabled. Sources and uses of occupational information, labor market trends. Emphasis on vocational evaluation, job development, follow-up.

*Hours 45 hrs*
*Credits 3*

**COCO 70600 - Group Counseling (KC)**

Theory and principles of group counseling. Developing group-counseling skills through practice.

*prereq: COCO 70100 and COCO 70200*

*Hours 45 hrs*
*Credits 3*

*This Key Course requires a grade of B or better to pass.*
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

COCO 70700 - Multicultural Aspects of Counseling

Course foci include developing self-awareness of cultural values and biases, awareness of differing world views, and knowledge of appropriate intervention strategies.

Hours 45 hrs
Credits 3

COCO 70800 - Measurement and Appraisal

Basic theory of measurement and appraisal. Practice in administration, scoring, and interpretation of major tests used in counseling settings with a focus on ethnic diversity and disability.

Hours 45 hrs
Credits 3

COCO 70900 - Research Methods in Counseling

Principles and analysis of research methods. Use of assessment and evaluation measures. Review of the literature on research problems in the counseling field.

Hours 45 hrs
Credits 3

COCO 71000 - Chemical Dependency: Issues in Counseling

This course is designed to introduce students to the various aspects of alcoholism and substance abuse in order to increase their understanding and awareness of the multifaceted problems involved and the implications for counseling.

Hours 45 hrs
Credits 3

COCO 71100 - Supervision and Administration in Counseling

Knowledge and skills in the basic process of supervision of beginning counselors and others in human service professions as well as organization and administration of human service programs. Assignments based on student needs.

prereq: COCO 70600 and COCO 71800
Hours 45 hrs
Credits 3

COCO 71200 - Career Counseling, Assessment and Placement

Application of principles of career development, vocational choice, work adjustment, job seeking skills, work site analysis, and worker traits including special problems of people with disabilities. Sources and uses of occupational information and labor market trends. Emphasis on vocational evaluation, job development and follow-up.
COCO 71500 - Family Systems and Counseling Issues

Family systems, dynamics, transitions, and crises are the foci of this course designed to help counselors become more effective in understanding and working with individuals in the context of and in interaction with the family unit.

Hours 45 hrs.
Credits 3 cr.

COCO 71800 - Practicum in Counseling (KC)

To be arranged in selected field settings. Experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. Students seeking the bilingual extension will do this practicum in a setting in which they can work with Spanish-speaking clients.

coreq: COCO 71900
prereq or coreq: COCO 70000 and COCO 706 plus one of the following COUNS 71700 or COUNM 71600 or COUNR 71600
Hours 100
Credits 3 credits
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

COCO 71900 - Individual Supervision (KC)

Application of theoretical knowledge and integration of skills under individual supervision during clinical practice to develop and evaluate student's proficiency and competence as a professional counselor.

coreq: COCO 71800
Hours 45
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

COCO 72300 - Transition from School to Adult Living for Youth with Disabilities

Services, programs, and processes for facilitating the transition of youth with disabilities and youth at risk from school to work, postsecondary education, independent living, and adult roles.

Hours 45 hrs,
Credits 3 cr

COCO 72504 - Internship in Counseling I (KC)
Continued experience in applying techniques of counseling with selected populations in a variety of settings depending upon specialization. Weekly seminars to discuss clients, roles, and responsibilities of the counselor.

**prereq:** COCO 71800 and COCO 71900
**prereq or coreq:** COUNM 71700 or COUNR 72000 or COUNS 72100
**Hours** Each 300 hrs to be arranged in selected field settings
**Credits** 4 cr each semester

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**COCO 72604 - Internship in Counseling II (KC)**

The second part of the internship: follows COCO 72500 Internship in Counseling I.

**prereq:** COCO 72500
**Hours** 45
**Credits** 4

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**COCO 72700 - Special Topics in Counseling**

Study of significant issues, problems, and emerging trends in counseling.

**Hours** 45 hrs.
**Credits** 3 cr.

**COCO 72800 - Special Topics in Counseling**

Study of significant issues, problems, and emerging trends in counseling.

**Hours** 45 hrs,
**Credits** 3 cr

**COCO 73500 - Seminar in Chemical Dependency**

Counseling Skills and Techniques Introduces students to the various types of counseling involved in working with people who are chemically dependent. Students will have the opportunity to test skills and techniques necessary for counseling in a variety of settings that serve people with chemical dependencies.

**Hours** 45 hrs,
**Credits** 3 cr

**COCO 74100 - Independent Study**

Students will carry out independent project approved by faculty and supervised by a staff member.
**COCO 74200 - Independent Study**

Students will carry out independent project approved by faculty and supervised by a staff member.

*Hours 15 hrs (supervised),
Credits 1 cr*

**COCO 74300 - Independent Study**

Students will carry out independent project approved by faculty and supervised by a staff member.

*Hours 30 hours (supervised),
Credits 2 cr*

**COUNM 71600 - Foundations of Mental Health Counseling**

This course provides an overview of mental health counseling. The course will address the following: professional identity, functions and issues facing mental health practitioners; disparities in mental health services across culturally and linguistically diverse communities; principles, theories and practice of community interventions; public policy and governmental relations impacting mental health.

*prereq or coreq: DSM-IV Workshop
Credits 3*

**COUNM 71700 - Psychopathology: Diagnosis and Treatment**

This course provides a framework for understanding the range of personality and behavioral conditions that are presented in the Diagnosis and Statistical Manual of Mental Disorders of the American Psychiatric Association (DSM-IV). The class focuses on the description, etiology, assessment, diagnosis, treatment and prevention of these disorders within diverse urban settings.

*Hours 45
Credits 3*

**COUNM 72000 - Mental Health Counseling: Program Development and Evaluation**

The course focuses on the development and evaluation of mental health programs in culturally/linguistically diverse urban settings from program inception onward including assessment to insure quality services. The course covers federal, state and local governmental inpatient and outpatient mental health treatment services, not-for-profit organizations and community-based mental health service programs.

*prereq or coreq: COUNM 71600 and COUNM 71700
Hours 45
Credits 3*

**COUNS 71700 - Foundations of School Counseling**
History, philosophy, legal, and ethical considerations in school counseling. The school context and professional issues in school counseling will be emphasized, including the school counselor's role, developmental programming, counseling interventions, consultation and liaison, and advocacy.

*Hours 45  
Credits 3*

**COUNS 72100 - Counseling Interventions for Children and Adolescents**

This course focuses on prevention and intervention of mental health disorders of children and adolescents.

*prereq: COCO 70800  
Hours 45  
Credits 3*

**COUNS 72200 - School Based Consultation**

This upper level course provides counselors with the knowledge and skills necessary to engage in consultation, collaborative problem solving, and systems level intervention in educational settings. Theories, models, and processes of consultation of change will be examined.

*prereq or coreq: COCO 72500  
Hours 45  
Credits 3*

**Education: Counseling/Rehabilitation**

**COUNR 71600 - Resources and Foundations of Rehabilitation**

History, philosophy, and principles of the vocational rehabilitation process. Economic, legal, ethical, and social issues influencing rehabilitation services. Observation of services available in state, city, and private agencies.

*Hours 45 hrs  
Credits 3*

**COUNR 72000 - Medical Aspects of Disability**

Study of etiology, symptoms, treatment and prognosis of physical disabilities. Understanding of medical reports and basic medical terminology.

*Hours 45 hrs  
Credits 3*

**COUNR 73000 - Counseling with the Aging**

Implications for personal adjustment of the aging. Complex issues inherent in the aging process. Areas of counseling skills and techniques suitable to the older person.
**Education: School Counseling**

**COUNS 72000 - Culminating Seminar in School Counseling**

With the permission of the supervising faculty member, the culminating experience in counseling provides the student with an opportunity to (a) participate as an integral member of a team involved in a research project, or (b) design an original evaluation or research project, or (c) complete a creative scholarly paper such as an extensive literature review. (Taken last semester prior to graduation)

*prereq: COCO 70900*

*prereq or coreq: COCO 72600*

*Hours 45*

*Credits 3*

**Education: Educational Psychology**

**EDPS 70000 - Educational Psychology Proseminar**

This proseminar consists of workshops, discussions and presentations on topics orienting students to the field of educational psychology and introducing them to the research interests of faculty members.

*Credits: none*

**EDPS 70100 - Statistics and Statistical Computing in Education I**

This course provides students with an introduction to statistical analyses used in educational research, including descriptive statistics, hypothesis testing, t-tests, analysis of variance, correlation, regression, and the use of computer packages for these analyses.

*Hours 60*

*Credits 4*

**EDPS 70200 - Educational Research Methods**

This course is to increase students' understanding of the nature, purposes, needs, and types of research conducted by educational researchers and psychologists. Students will learn a range of research designs and methods, and their applications to education-related settings and issues.

*Hours 60*

*Credits 4*

**EDPS 70300 - Learning and Behavior Theories**
This course provides students with an overview of the study of human learning and behavior. A major goal of this course is to provide students with the knowledge and skills necessary to enable them to appropriately apply theories of learning in instructional settings.

Hours 60
Credits 4

EDPS 71100 - EDPS Metacognitive and Cognitive Processes in Education

This course provides students with an overview of major research on metacognitive and cognitive processes in learning and instruction. Focuses will be on major theories and research as well as metacognitive and cognitive processes and strategy applications in the areas of mathematical learning, text comprehension, science, and writing.

prereq: EDPS 70200
coreq: EDPS 70300
Hours 60
Credits 4

EDPS 71200 - Multicultural Issues in Learning and Instruction

This course will examine the current research in K-12 education to explore the role of multicultural issues in teaching and learning.

prereq or coreq: EDPS 70200
Hours 3
Credits 3

EDPS 71300 - Cognition and Educational Technology

This course covers research about the influence of educational technology on the development of thinking and learning.

Hours 3
Credits 3

EDPS 71400 - Course Title Applied Motivation Theory in Education

The goal of this graduate course is to review the major questions, methods, and theories of motivation in educational psychology—both past and present. A historical perspective is provided as a foundation for understanding the evolution and development of various theories of motivation in educational and psychology, which shape current thinking and research in the field. Furthermore, contemporary methods, research, and theory will be provided. Implications for practice will be discussed.

Hours 3
Credits 3

EDPS 72100 - Statistics and Statistical Computing in Education II
This course builds on knowledge of basic statistics, focusing on multiple regression and factorial ANOVA for statistical analysis of continuous and categorical independent variables. Diagnosis and treatment of data analytic problems such as missing data are discussed.

prereq: EDPS 70100, EDPS 70200  
Hours 60  
Credits 4

EDPS 72200 - Tests and Measurement

This course covers the following topics: classical test theory, tests construction, reliability estimation and generalizability theory, validation, item analysis, test bias, and introduction to item response theory, and the use of high-stakes testing in educational policy.

prereq: EDPS 70100  
coreq: EDPS 70200  
Hours 3  
Credits 3

EDPS 72300 - Educational Program Evaluation

This course is designed to provide students with an overview of key concepts, theories, and methodologies utilized in the field educational evaluation.

Hours 3  
Credits 3

EDPS 72500 - Assessment in Schools

The goal of this graduate course is to introduce students to the field of educational assessment taken broadly, with a focus on how academic assessments are used in prek-16 education within the US and internationally in the 21st century. Students will become familiar with theory, research, and practice in the areas of classroom assessment, assessment of teacher quality, and assessment of large educational systems. Students will acquire the knowledge and skills to critique assessment policies in terms of implementation, ethics, and impacts.

Hours 3  
Credits 3

EDPS 74100 - Mediating Factors in Student Achievement

This course will examine the current research in K-12 education in an effort to explore several of the more widely identified mediating factors that directly impact upon student achievement.

prereq: EDPS 70300  
Hours 60  
Credits 4
EDPS 74200 - Qualitative Research Methods in Education

This course will examine in-depth a selected method of research and statistical procedure in an educational psychology-related field. Topics and corresponding readings will vary each semester.

*Hours 3
*Credits 3

EDPS 74300 - Special Topics in Educational Psychology

This course will examine current research regarding a selected topic within the field of educational psychology; topics and readings will vary by semester.

*prereq: EDPS 70100, EDPS 70200, EDPS 70300
*Hours 60
*Credits 4

EDPS 74900 - Independent Study in Educational Psychology

Permission of faculty adviser and chairperson required. Independent study in the area of educational psychology. A maximum of 4 credits of independent study may be counted toward the degree.

*Credits 1 - 4

EDPS 79000 - Educational Psychology Seminar

This is semester 1 of the seminar course which provides an opportunity for students to prepare an original scholarly review of research literature or theoretical paper of publishable quality on an educational psychological topic of interest. The general goal of the course is to enable students to apply their knowledge of educational psychological issues and research through the development of a scholarly research paper.

*prereq: EDPS 70000, EDPS 70100, EDPS 70200, EDPS 70300, and either EDPS 72100 or EDPS 71100
*Hours 2
*Credits 2

EDPS 79100 - Educational Psychology Seminar 2

This is semester 2 of the seminar course which provides an opportunity for students to prepare an original scholarly review of research literature or theoretical paper of publishable quality on an educational psychological topic of interest. The general goal of the course is to enable students to apply their knowledge of educational psychological issues and research through the development of a scholarly research paper.

*prereq: EDPS 70000, EDPS 70100, EDPS 70200, EDPS 70300, EDPS 79000, and either EDPS 72100 or EDPS 71100
EDPS 79500 - Educational Psychology Thesis Research 1

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: EDPS 70000, EDPS 70100, EDPS 70200, EDPS 70300, and either EDPS 72100 or EDPS 71100

EDPS 79600 - Educational Psychology Thesis Research 2

This course provides an opportunity for students to conduct original research in the field of educational psychology under the supervision of a faculty member.

prereq: EDPS 70000, EDPS 70100, EDPS 70200, EDPS 70300, EDPS 79500, and either EDPS 72100 or EDPS 71100

Education: Health Education

HED 71400 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1 through 6 in making decisions for optimum health and wellness. Content areas: nutrition education and fitness; mental/emotional health, conflict resolution and stress management; drug education and stress management; safety education including fire safety; family living/sex education including HIV/AIDS education. Includes required workshops on child abuse and neglect and on school violence prevention.

prereq or coreq: CEDF 70900

Education: Literacy Education

EDLIT 73000 - Language, Literacy and Culture, Grades 1-12
Study linguistic knowledge base, as well as the interrelationship between language, literacy and learning in a pluralistic society. Topics include the structure of English language and its role in reading and writing; the nature of language acquisition; English language proficiency for academic purposes; strategies for meeting English language learners' needs and for promoting language and literacy development in ways that are responsive to diversity (linguistic, cultural, special needs and giftedness) in schools.

**prereq or coreq:** ECC 70400 (for Birth-Grade 6 students only) and EDLIT 73500

*Hours includes 10 hrs in the field analyzing language use of ESL learners*

*Credits 3 cr*

**EDLIT 73100 - Literacy Assessment: Birth–Grade 6**

Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instructional planning and meeting NYS English Language Arts performance standards.

**prereq or coreq:** ECC 70400 and EDLIT 73500

*Hours 45 hrs and 15 hrs in the field assessing diverse learners*

*Credits 3 cr*

**EDLIT 73200 - Children’s Literature**

Exposure to the breadth, depth, and utilization of children's literature and its role in children's development, appreciating diversity and fostering a lifelong interest in reading. Sensitive issues (health, abuses, addictions), technology and management issues are examined.

*Hours Includes 5 hrs in a classroom-based dramatic demonstration*

*Credits 3 cr*

**EDLIT 73300 - Theories and Process of Teaching Writing: Pre-K–Grade 6**

Development and assessment of writing skills including analysis of techniques and environments that foster writing development in all children (ESL, gifted, special needs). State writing standards and technology are integrated.

*Hours Includes 15 hours in the field observing and analyzing writing development*

*Credits 3 cr*

**EDLIT 73400 - Literacies within the Disciplines: K–Grade 6**

Exploration into the literacy demands inherent in the academic subjects of math, science, health education and social studies, as well as media, technology and the arts.

**prereq or coreq:** ECC 70400 and EDLIT 73500

*Hours Includes 10 hrs in a classroom focused on older learners (grades 3-6) and content area literacy*

*Credits 3 cr*
EDLIT 73500 - Survey of Instructional Approaches in Literacy Education: Grades K-12

Critically examine instructional approaches appropriate for language and literacy development in literacy education informed by current research. Course participants examine, select, design and organize linguistically and culturally relevant instructional practices, strategies, and materials for literacy development of elementary, middle and high school students with varying developmental abilities.

*Hours Includes 5 hours fieldwork*

**EDLIT 73600 - Practicum in Literacy Assessment (KC)**

A study of factors related to students who are experiencing difficulty acquiring literacy. Procedures for assessing literacy achievement and related language skills.

*prereq: EDLIT 73100*

*Hours Includes 15 hours of diagnosis, under supervision, of students with reading difficulties*

**EDLIT 73700 - Practicum in Literacy Intervention (KC)**

Theoretical and practical consideration and procedures in the instruction of students with literacy difficulties.

*prereq: EDLIT 73600*

*Hours Includes 20 hrs of supervised remedial sessions with individual students on-site at Hunter College*

**EDLIT 73900 - Literacy Instruction for Struggling Readers and Writers, PreK-6**

Exploration of historical and theoretical perspectives, and research-based teaching practices/issues related to literacy and language instruction for struggling readers and writers, including children with special needs. Study of assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcomes of struggling readers/writers and special needs students in pre-kindergarten and elementary school settings.

*prereq or coreq: None*

**EDLIT 73901 - Delays in Early Language and Literacy Development in Young Children with Special Needs**
Historical, theoretical, and research-based teaching practice issues related to literacy and language instruction for children with special needs, ages birth through second grade.

**coreq: ECC 70400**
*Hours Includes 5 hrs observation in an inclusive early childhood setting or a program with special needs focus, 15 hrs, Credits 1 cr*

**EDLIT 73902 - Special Needs Issues in Literacies within the Curriculum**

Adaptation, modification and management of instruction, curriculum, the learning environment, materials and technology across the curriculum for children with special learning needs.

**prereq: EDLIT 73901**
*Hours 15 hrs, Credits 1 cr*

**EDLIT 73903 - Adaptations and Modifications in Approaches to Literacy for Students with Special Needs**

Adaptation and modification of instructional strategies, technology and curriculum in literacy for full inclusion of children with disabilities.

**prereq: EDLIT 73902**
*Hours 15 hrs, Credits 1 cr*

**EDLIT 74000 - Leadership in Literacy (KC)**

Culminating experience in planning, assessing, and developing literacy and staff development programs that utilizes understandings gained throughout the master’s in literacy program. Fundamentals of leadership are explored in the context of communication, supervision, and support of literacy programs.

**prereq: EDLIT 74500; minimum of 27 credits in the literacy program**
*Hours 45 hrs, Credits 3 cr*

*This Key Course requires a grade of B or better to pass.*
*Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.*
*This course may be repeated only once.*

**EDLIT 74100 - Selected Topics**

In-depth study of emerging areas related to literacy education for children birth through grade 6.

**prereq or coreq: approval of the instructor**
*Hours 45 hrs, Credits 3 cr*
*This is an elective course.*
EDLIT 74200 - Practicum in Literacy (KC)

This course requires that students be supervised in their teaching. Students will select one area for improvement and work on this area throughout the course with the instructor and the weekly seminar as their think tank and support group.

prereq: Pre-requisite EDLIT 73100
Hours 15 hr seminar plus 50 hrs in the field,
Credits 1 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

EDLIT 75200 - Practicum in Literacy (KC)

This course requires that students be supervised in their teaching. Students will select one area for improvement and work on this area throughout the course with the instructor and the weekly seminar as their think tank and support group.

prereq: Pre-requisite EDLIT 75600
Hours 15 hours in seminar and 50 hours of field experience
Credits 1

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

EDLIT 75300 - Methods of Teaching Writing: Grades 5-12

Development and assessment of writing skills and methods for teaching writing including analysis of techniques and environments that foster writing development, and writing across the disciplines, in all students at middle childhood and adolescent levels (ELL, gifted, special needs). State writing standards and technology are integrated.

Hours includes 15 hours fieldwork
Credits 3

EDLIT 75400 - Literacies within the Disciplines: Grades 5-12

Exploration into the literacy demands and challenges inherent in the academic subjects of math, science, history and social studies, as well as media, health, technology and the arts.

prereq: Pre-requisite EDLIT 73500 and EDLIT 75500
Hours 3.0
Credits 3.0
Includes 10 hours in classrooms focused on literacies within the disciplines.

EDLIT 75600 - Literacy Assessment: Grades 5-12
Formal and informal approaches to literacy assessment (including oral language, listening, writing, and reading) grounded in theory of first and second language acquisition, literacy development, and learning. Selecting, adapting, and interpreting assessments for instruction planning and meeting NYS English Language Arts performance standards.

**EDLIT 75700 - Practicum in Literacy Assessment and Intervention: Grades 5-12 (KC)**

A study of factors related to middle and high school students who are experiencing difficulty acquiring literacy. Implement, design and use a variety of procedures for diagnosing reading achievement and related language skills. Use assessment data to plan and implement intervention activities for students with literacy difficulties.

**Education: Special Education**

**CEDC 75400 - Differentiating Curriculum for Gifted and Talented Learners**

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the fulltime gifted school.

**EDABA 72000 - Managing Behavior Analytic Records**

This course provides a comprehensive review of the legal and ethical management of behavior analytic records in the context of professional behavior analytic practice. Topics to be covered include the legal and regulatory requirements for behavior analytic record keeping along with use of behavior analytic data in professional practice.

**EDABA 75000 - Experimental Analysis of Behavior**

The primary focus of this course is on behavior analytic theory in the context of basic research. Topics to be covered include operant and respondent conditioning, reinforcement, discriminated operants, reinforcement schedules, and
social learning.

Hours 3
Credits 3

EDABA 75500 - Functional Behavior Assessment

This course examines various behavior analytic assessment methods that are designed to identify the function of challenging behavior. Both experimental and non-experimental assessment methodologies will be examined along with methods of data collection and analysis.

prereq: EDABA 795 or EDABA 798
Hours 3
Credits 3

EDABA 77000 - Practicum in Applied Behavior Analysis I (KC)

This course is the first of a two-course sequence in conducting fieldwork in applied behavior analytic settings. A total of 180 hours of fieldwork which includes designing, conducting, and analyzing data from applied behavior analytic interventions is required.

prereq: EDABA 795 and approval of graduate advisor
Hours 3
Credits 3

Includes 180 hours of field experience.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

EDABA 77100 - Practicum in Applied Behavior Analysis II (KC)

This course is the second of a two-course sequence in conducting fieldwork in applied behavior analytic settings. A total of 180 hours of fieldwork which includes designing, conducting, and analyzing data from applied behavior analytic interventions is required.

prereq: EDABA 770 and approval of graduate advisor
Hours 3
Credits 3

Includes 180 hours of field experience.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

EDABA 78000 - Thesis I (KC)

This course is the first course in a two-course sequence in which students conduct an original applied behavior analytic research project. Under the supervision of a faculty advisor, students conduct a literature review, develop a research proposal, and apply for necessary research approvals.
prereq: EDABA 790, EDABA 791 and approval of graduate advisor
Hours 3 plus conferences
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

EDABA 78100 - Thesis II (KC)

This course is the second course in a two-course sequence in which students conduct an original applied behavior analytic research project. Under the supervision of a faculty advisor, students conduct an original research project based on the proposal developed in EDABA 780.

prereq: EDABA 780 and approval of graduate advisor
Hours 3 plus conferences
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

EDABA 79000 - Single-Subject Research Design

This course is an introduction to single-subject research methods used in applied behavior analysis. In addition, data collection, data analysis, and data presentation will be covered.

Hours 45
Credits 3

EDABA 79100 - Ethics and Professionalism for Applied Behavior Analysts

This course provides an introduction to ethical and professional behavior for applied behavior analysts. Topics to be covered include a variety of ethical and professional issues for applied behavior analysts as they relate to research and practice.

Hours 45
Credits 3

EDABA 79500 - Applied Behavior Analysis I (KC)

The primary focus of this course is on foundational principles and methods in applied behavior analysis, and their basic and general applications in educational and similar settings. Topics to be covered include defining and measuring behavior, displaying and analyzing data, experimental analysis of behavior change procedures, positive and negative reinforcement, positive and negative punishment, and schedules of reinforcement.

Hours 3
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**EDABA 79600 - Applied Behavior Analysis II (KC)**

This course examines specific behavior analysis methods and applications including behavior change procedures such as prompting, imitation, incidental teaching, shaping, and chaining. Procedures to address generalization, motivation, stimulus control, and self-management will be evaluated. In addition, both observational and experimental functional behavior assessment procedures are discussed.

*prereq: EDABA 79500
Hours 45
Credits 3*

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**EDABA 79800 - Behavior Analytic Approaches to Learning**

This course provides a survey of behavior analytic approaches to learning. Major areas covered include respondent conditioning, operant conditioning, stimulus control, stimulus classes, taxonomies of verbal behavior, and motivation.

*Hours 45
Credits 3*

**EDABA 79900 - Applied Behavior Analytic Autism Intervention**

This course examines applied behavior analytic intervention for individuals with autism. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include interventions for basic discrimination skills, generalized imitation, independence, language skills, play skills, social skills, self-help skills, feeding, leisure skills, vocational skills, managing problem behavior, and transition to less restrictive environments.

*prereq: EDABA 79500 or EDABA 79800
Hours 45
Credits 3*

**SPED 70000 - Issues and Practices in Educating Students with Disabilities**

Current and historical views of individuals with disabilities; legal and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development.

*Hours 45 hours; includes 5 hours of field experience
Credits 3*

**SPED 70100 - Assessment of Students with Disabilities**
The study of processes and procedures used in the psycho-educational assessment of children with disabilities. Uses and limitations of assessment measures and procedures. Practice in use of selected tests for students, both those suspected of having disabilities and those with identified disabilities.

prereq or coreq: SPED 70000
Hours 45 hours; includes 10 hrs of field experience
Credits 3

SPED 70151 - Advanced Preparation in Educational Assessment

Understanding and skill critical to assessing students with learning disabilities and behavior disorders in order to determine instructional starting points, guide intervention, and track progress. Includes multiple administrations of measures assessing pre-reading (including phonological awareness), word recognition, reading comprehension, writing, vocabulary, and mathematics, as well as progress monitoring probes. Also, informal assessment of general knowledge, curriculum-specific vocabulary, and self-monitoring. In-class assessment practice, as well as assessment of students (videotaped for review and analysis).

Hours 45
Credits 3

SPED 70200 - Classroom Management in Special Education and Inclusive Settings

Develops skill in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies, and psycho-educational approaches.

prereq or coreq: SPED 70000
Hours 45 hours; includes 15 hrs of field experience
Credits 3

SPED 70250 - Classroom Management in Special Education and Inclusive Settings

Develops skills in using a variety of approaches to ameliorate classroom management problems of students with disabilities affecting learning and behavior. Includes behavior modification methods, communication strategies and psycho-educational approaches. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.
SPED 70300 - Inclusive Instruction in General Education Classrooms for Students with Learning and Behavior Disorders

Explores curriculum adaptations and intensified instruction for learners with diverse special education needs. Emphasizes practical application of instructional strategies, classroom change, and collaborative processes. Open to both special education and general education graduate students.

prereq: SPED 70000
coreq: current employment as a teacher or enrollment in student teaching
Hours Includes 20 hrs of field experience, 45 hrs,
Credits 3 cr

SPED 70400 - Issues in Teaching English Second Language Learners with Special Education Needs

Overview of issues and best practices for teaching English as a second language to learners with disabilities and special education needs. Techniques for distinguishing language-related issues from disability-related learning and behavioral characteristics. Methods for developing and adapting teaching and materials specifically for second language learners who have disabilities.

prereq or coreq: SPED 70000
Hours 15 hrs,
Credits 1 cr

SPED 70500 - Use of Instructional Technology in Special Education

Computer lab course focused on both broadly based and specialized applications for supporting students with learning disabilities, mild, moderate mental retardation, and behavioral disorders. Focus on select number of tools and their multiple uses. Also, overview of specialized computer curriculum software, web resources, and assistive technology for students with severe disabilities.

prereq or coreq: SPED 70000
Hours 30 hrs lab,
Credits 1 cr

SPED 70600 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support.
SPED 70650 - Strategies and Curriculum Adaptations for Learners with Severe/Multiple Disabilities

Emphasis is on collaborative teaming and alternative instructional arrangements in diverse general education classrooms, preschools, and early intervention programs; disability-specific skills that foster independence and social inclusion including self-care, community and domestic skills; facilitating friendships; development of curriculum adaptations, innovative scheduling, and access to technological support. This course is for students in the Severe/Multiple Disabilities Including Deafblindness Program and Blind and Visually Impaired Program.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours Includes 10 hours of field experience, 45 hrs,
Credits 3 cr

SPED 70700 - Research Seminar: Issues in Special Education (KC)

Integration of theory and practice as related to concerns across the entire field of special education. Two major projects, one oral and one written, constitute the special education program's culminating activity.

Hours 45 hrs,
Credits 3 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPED 70751 - Advanced Seminar in Special Education Practice

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45
Credits 3

SPED 70751 - Advanced Seminar in Special Education Practice (For those in Advanced Preparation in Special Education)

Culminating experience focused on integrating, strengthening, and extending understanding of learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning disabilities/behavior disorders, evidence-based interventions, and instructional skill. Entails creating individual video demonstrations and group projects focused on critical areas of specially-designed instruction for students with learning
disabilities, creating presentations to student, teacher, and/or parent groups. Also includes creation of a professional portfolio.

Hours 45  
Credits 3

**SPED 71051 - Independent Study in Special Education**

Designed to allow advanced students to further their understanding and skill within special education.

*Hours 15-45 hrs,*  
*Credits 1-3 cr*

*Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.*

**SPED 71052 - Independent Study in Special Education**

Designed to allow advanced students to further their understanding and skill within special education.

*Hours 15-45 hrs,*  
*Credits 1-3 cr*

*Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.*

**SPED 71053 - Independent Study in Special Education**

Designed to allow advanced students to further their understanding and skill within special education.

*Hours 15-45 hrs,*  
*Credits 1-3 cr*

*Students must obtain the approval and participation of a special education adviser to take SPED 710.51 (1 cr), while both SPED 710.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.*

**SPED 71151 - Independent Study in Deaf and Hard-of-Hearing**

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

*Hours 15-45 hrs,*  
*Credits 1-3 cr*

*Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.*

**SPED 71152 - Independent Study in Deaf and Hard-of-Hearing**

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

*Hours 15-45 hrs,*  
*Credits 1-3 cr*
Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71153 - Independent Study in Deaf and Hard-of-Hearing**

Designed to allow advanced students to further their understanding and skill within deaf and hard-of-hearing special education.

*Hours 15-45 hrs,*  
*Credits 1-3 cr*

Students must obtain the approval and participation of their adviser to take SPED 711.51 (1 cr), while both SPED 711.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71251 - Independent Study in Blindness and Visual Impairment**

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

*Hours 15-45 hrs,*  
*Credits 1-3 cr*

Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71252 - Independent Study in Blindness and Visual Impairment**

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

*Hours 15-45 hrs,*  
*Credits 1-3 cr*

Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71253 - Independent Study in Blindness and Visual Impairment**

Designed to allow advanced students to further their understanding and skill within blind and visually impaired special education.

*Hours 15-45 hrs,*  
*Credits 1-3 cr*

Students must obtain the approval and participation of their adviser to take SPED 712.51 (1 cr), while both SPED 712.52 (2 cr) and .53 (3 cr) require the additional approval of the department chairperson.

**SPED 71451 - Topics in Special Education: ITI Practicum in Visual Impairment (KC)**

*Credits 1 cr*

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.
SPED 72000 - American Sign Language I

An intensive first course in American Sign Language (ASL), designed to establish a foundation of ASL communicative competence. Emphasizes ASL grammar, vocabulary, receptive and expressive skills, fingerspelling, numbers, and spatial and pronominal reference.

prereq or coreq: SPED 70000

Hours Includes 10 hrs of field experience, 90 hrs lab,
Credits 3 cr

SPED 72100 - American Sign Language II

This intensive course continues material covered in SPED 720. Emphasizes increased communicative competence in ASL, as well as grammar, vocabulary, and receptive and expressive skills.

prereq: SPED 72000

Hours Includes 10 hrs of field experience 90 hrs lab,
Credits 3 cr

SPED 72200 - The Study of ASL Educational Linguistics

Focus on the linguistic structure of ASL: phonology, morphology, syntax, pragmatics, and discourse rules. Traces acquisition of ASL during infancy, childhood and adolescent. Differences are highlighted between ASL and English linguistics, as well as the interaction between such structures and children's learning. ASL is the instructional language used to teach this course.

prereq: SPED 72100

Hours 60 hrs lab,
Credits 2 cr

SPED 73000 - Education of Students Who Are Deaf and Hard-of-Hearing

History of theory, practice and conceptualizations in the education of students who are deaf and hard-of-hearing. The study of language acquisition (English and ASL), bilingualism, and learning English as a second language in hearing and deaf children. Linguistic understanding and analysis of the components of language proficiency. Educational settings, issues of inclusion, and use of technology.

Hours Includes 10 hours of field experience 45 hrs,
Credits 3 cr

SPED 73100 - Reading and Writing Development for Students Who Are Deaf and Hard-of Hearing: Methods 1

Theoretical and practical aspects of deaf children's receptive and expressive language use. Instructional procedures
used to facilitate language acquisition in deaf and hard-of-hearing children and their learning to read and write. Assessment, instructional procedures, specific remediation techniques, and technology supports.

*prereq: SPED 70000 and SPED 73000
coreq: must take SPED 73300 in semester immediately following.
Hours 3 hrs
Credits 3 cr.
Fall only

**SPED 73300 - Math and Across-the Curriculum Adaptations for Students who are Deaf and Hard-of Hearing: Methods 2**

Methods for assessing and teaching deaf and hard-of-hearing students in mathematics, science, social studies, other content areas, and time/space organization. Focus on math concept development and compensations; reading/writing and the arts across the curriculum; and organizational strategies for school, home and life.

*prereq: (immediate preceding semester) SPED 73100
prereq or coreq: SPED 70000
Hours Includes 15 hrs of field experience
Credits 3 credits
Spring only

**SPED 73500 - Speech Development and Remediation of Students who are Deaf and Hard-of-Hearing**

Psycho-acoustic aspects of speech sounds and their relationship to speech acquisition in hearing and deaf children. Effects of various degrees of hearing loss on speech acquisition; sense modalities in speech production; typical voice and speech errors in deaf and hard-of-hearing children; methods, procedures, materials, and technology used for speech development and remediation; inclusion of deaf and hard-of-hearing students.

*prereq or coreq: SPED 70000
Hours Includes 5 hrs of field experience
Credits 3

**SPED 73600 - Aural Rehabilitation of Students who are Deaf and Hard-of-Hearing**

Principles and methods of teaching speech and auditory training. Methods, procedures and materials used in development of oral communication, supports for inclusive settings and use of technology.

*prereq or coreq: SPED 70000
Hours Includes 5 hrs of field experience
Credits 3 credits

**SPED 73700 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 12 (KC)**
Supervised student teaching placement providing direct, specially designed classroom instruction for deaf and hard-of-hearing students at two grade levels that do not overlap with either pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills prerequisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300

Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,
Credits 4 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 73750 - Student Teaching: Deaf and Hard-of-Hearing, Preschool–Grade 6 (KC)

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 73751 - Student Teaching: Deaf and Hard-of-Hearing, Grades 7–12 (KC)

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733

Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 73752 - Practicum: Deaf and Hard-of-Hearing, Preschool–Grade 6

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.
prereq or coreq: SPED 721, SPED 733
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 73753 - Practicum: Deaf and Hard-of-Hearing, Grade 7–12

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 721, SPED 733
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

SPED 73760 - Supervised Practicum: Deaf and Hard-of-Hearing, Preschool–2nd Grade (KC)

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 73761 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 1-6 (KC)

Supervised student teaching placement providing direct, specially designed classroom instruction at a grade level that does not overlap pre-student teaching field experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Addresses factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching
Credits 2

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 73762 - Supervised Practicum: Deaf and Hard-of-Hearing, Grades 5-9 (KC)
Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 72100, SPED 73300
Hours 30 hrs seminar, plus conferences,
Credits 2

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 73763 - Supervised Practicum: Deaf and Hard-of-Hearing, Grade 7–12 (KC)

Supervised practicum providing direct, specially designed classroom instruction at a grade level that does not overlap with pre-student-teaching field experience as well as supervised clinical teaching experience. Weekly seminar and conferencing to integrate knowledge and skills requisite to the teaching of children who are deaf and hard-of-hearing. Factors influencing teaching and management outcomes such as inclusion, technology, and family influences.

prereq or coreq: SPED 7300, SPED 73300
Hours 30 hrs seminar, plus conferences,
Credits 2

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 74000 - Medical Aspects and Educational Implications of Visual Impairments (KC)

Characteristics, etiologies, and effects of blindness and visual impairments on educational functioning; interpretations of clinical examination reports; pre-clinical functional vision assessment; identification, classification, and utilization of optical devices in school and community environments.

prereq or coreq: SPED 70000
Hours includes 10 hrs of field experience
Credits 3 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 74100 - Education and Rehabilitation of Individuals with Visual Impairments (KC)
Focus on service delivery systems, psycho-social aspects of blindness and visual impairment, attitudes, legislation, advocacy, resources and unique curriculum areas that relate to learners with visual impairments. Effects of blindness and low vision on motor, cognitive, social and language development.

**prereq or coreq:** SPED 74000  
**Hours** Includes 10 hrs of field experience  
**Credits** 3  

*This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.*

**SPED 74200 - Curriculum and Instructional Strategies for Learners with Visual Impairments**

Principles, teaching strategies, and curriculum adaptations relevant to academic, social, vocational and life-skill needs of learners with blindness and low vision, including those with additional impairments.

**prereq or coreq:** SPED 74000, SPED 74100  
**Hours** Includes 15 hrs of field experience  
**Credits** 3  

**SPED 74300 - Braille Literacy and Communication Skills for Learners with Visual Impairments (KC)**

History of tactile reading systems used by individuals who are blind. Students must demonstrate proficiency in reading and writing Grade 2 literary Braille and using the Braillewriter and slate and stylus. Other skills include modifying print materials for use by Braille readers. Current research and issues related to Braille literacy are reviewed.

**prereq or coreq:** SPED 74000, SPED 74100  
**Hours** Includes 10 hrs of field experience  
**Credits** 3  

*This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.*

**SPED 74400 - Assistive Technology for Learners with Visual Impairments**

Course provides students with hands-on experiences with access technology options for individuals who are blind or visually impaired. These include screen review software, speech synthesizers, scanning devices, Braille translators, refreshable Braille displays, and portable speech and Braille note takers. Emphasis will be on learning to assess the strengths of current and future access technology in relation to individual learners in school and community settings.

**prereq:** SPED 74300
SPED 74500 - Mathematical Literacy and Nemeth Code for Learners with Visual Impairments

Knowledge and skills to transcribe mathematical and scientific print material into Braille by use of the Nemeth Code at both the elementary and secondary school levels; content related to methods for teaching math literacy to students who are blind; and current literature and research.

prereq or coreq: SPED 74000, 74100, 74200, 74300

SPED 74600 - Educational Implications of Learners Who Are Deafblind

Characteristics and etiologies of dual sensory impairments and how causative factors and age of onset impact on learning and intervention strategies. Emphasis will be on service delivery systems, adapting sensory environments in the school, developing communication modes, using assistive technology devices, and accessing resources in deafblindness.

prereq: SPED 70000, SPED 79000 or SPED 74100

SPED 74700 - Principles and Practices in Orientation and Mobility for Teachers of Learners with Visual Impairments

The history of orientation and mobility (O&M), systems of O&M, techniques of utilizing sensory information for children who are visually impaired, and concepts (e.g., spatial, positional, environmental, and time) taught by teachers of students with visual impairments. Lab experiences to teach pre-cane skills with the use of blindfolds and low-vision simulators in both indoor and outdoor environments.

prereq or coreq: SPED 74000, 74100

SPED 74800 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 12 (KC)

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired at two grade levels that do not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, adapting sensory environments, selecting appropriate learning media, adapting curriculum through tactile graphics, developing IEPs, and forming partnerships with families.
prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 40 days student teaching at two grade levels,
Credits 4 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPED 74850 - Student Teaching: Blindness and Visual Impairment, Preschool–Grade 6 (KC)**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPED 74851 - Student Teaching: Blindness and Visual Impairment, Grades 7–12 (KC)**

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in either middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPED 74852 - Supervised Practicum: Blindness and Visual Impairment, Preschool–Grade 6 (KC)**

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.
prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 74853 - Supervised Practicum: Blindness and Visual Impairment, Grades 7–12 (KC)

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEPs, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 74854 - Student Teaching 2: Blindness and Visual Impairment, Preschool–Grade 6 (KC)

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plan, writing functional vision assessment reports, selecting appropriate learning media, developing IEP’s, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours structured conferences, plus 20 days student teaching,
Credits 1

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 74855 - Student Teaching 2: Blindness and Visual Impairment, Grade 7–12 (KC)

Supervised student teaching in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placements. Conferences and weekly seminar. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnership with families.
prereq or coreq: SPED 74000, SPED 74100
Hours Structured conferences, plus 20 days student teaching
Credits 1 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 74856 - Supervised Practicum 2: Blind and Visual Impairment Preschool–Grade 6 (KC)

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in preschool or childhood settings, whichever does not overlap with the pre-student teaching field placement. Focus on writing lesson plans, writing functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours Structured conferences
Credits 1 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 74857 - Supervised Practicum 2: Blind and Visual Impairment, Grades 7–12 (KC)

Supervised practicum in specialized resource room, or itinerant teaching programs with learners who are blind or visually impaired in middle adolescent or adolescent, whichever does not overlap with pre-student teaching field placement. Focus on writing lesson plans, functional vision assessment reports, selecting appropriate learning media, developing IEP's, forming partnerships with families.

prereq or coreq: SPED 74000, SPED 74100
Hours Structured conferences
Credits 1 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 74900 - Orientation and Mobility for Students with Visual Impairments and Additional Disabilities

An advanced orientation and mobility course on specialized instructional strategies that address the special travel difficulties of learners (infants to older adults) who are blind or visually impaired with additional disabilities. Topics include deafness, deafblindness, multiple impairments, motoric, cognitive and affective impairments. This course also addresses instructional strategies for persons in unique living situations or environments.
Hours includes 10 hrs field experience, 45 hrs,
Credits 3 cr

SPED 75000 - The Study of Behavior Disorders

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs.

prereq or coreq: SPED 70000
Hours Includes 20 hrs of field experience

SPED 75051 - The Study of Behavior Disorders (KC)

Etiology and characteristics of children with behavioral disorders. Theories underlying the development of behavior disorders, including an understanding of constitutional, environmental and family influences. Use of contemporary diagnostic criteria and their implications for placement. Sensitivity to cultural factors and individual's behavior and customs. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 75100 - Methods and Materials for Teaching Students with Behavior Disorders (KC)

Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students.

prereq or coreq: SPED 75000
Hours Includes 20 hrs of field experience
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 75151 - Methods and Materials for Teaching Students with Behavior Disorders (KC)
Educational assessment for effective instruction of students with behavior disorders in both academic and behavioral areas. Individualized remedial procedures, with attention to cultural considerations in understanding and responding to students. Advanced students must complete individually-tailored assignments.

*Hours 45  
Credits 3*

*This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.*

**SPED 75200 - Student Teaching: Behavior Disorders, Grades 1–3 and 4–6 (KC)**

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instructions at grade levels 1–3 and 4–6. Factors influencing teaching and management outcomes such as family influences.

*prereq: SPED 75000  
prereq or coreq: SPED 75100 or SPED 78150  
Hours 30 hrs seminar, plus conferences, plus 40 hours student teaching at two age levels,  
Credits 4 cr*

*This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.*

**SPED 75250 - Student Teaching: Behavior Disorders, Grades 1–3 (KC)**

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes such as family influences.

*prereq: SPED 75000  
prereq or coreq: SPED 75100 or SPED 78150  
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,  
Credits 2 cr*

*This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.*

**SPED 75251 - Student Teaching: Behavior Disorders, Grades 4–6 (KC)**

Supervised student teaching and weekly seminar to integrate knowledge and skills requisite to teaching children with
behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000
prereq or coreq: SPED 75100 or SPED 78150
Hours 30 hrs seminar, plus conferences, plus 20 days student teaching,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 75252 - Supervised Practicum: Behavior Disorders, Grades 1–3 (KC)

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000
prereq or coreq: SPED 75100 or SPED 78150
Hours 30 hrs seminar, plus conferences,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 75253 - Supervised Practicum: Behavior Disorders, Grades 4–6 (KC)

Supervised practicum and weekly seminar to integrate knowledge and skills requisite to teaching children with behavior disorders. This includes teaching strategies and understanding influences in planning IEPs and implementing appropriate instruction. Factors influencing teaching and management outcomes, including family influences.

prereq: SPED 75000
prereq or coreq: SPED 75100 or SPED 78150
Hours 30 hrs seminar plus conferences,
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 75300 - Understanding and Identifying Gifted Learners: Individual and Developmental Diversity

An overview of major questions and issues in the field, including What is intelligence? What is creativity? What is giftedness? How do we measure these qualities? Focus on the urban context, incorporating rich cultural, social, political, educational, and scientific resources possibilities, and developing expertise in educating gifted and talented students from a broad range of backgrounds.
Cross-listed (Cross-listed with CEDF 75300.)
Hours 45 hrs includes 10 hrs field experience
Credits 3 cr

SPED 75400 - Differentiating Curriculum for Gifted and Talented Learners

Consideration of a wide range of curriculum options appropriate for meeting diverse kinds of gifted learning needs from early childhood through Grade 12, as well as a variety of placement options, from the regular classroom to the full time gifted school.

Cross-listed (Cross-listed with CEDF 75400.)
Hours Includes 10 hrs field experience
Credits 3

SPED 75500 - Assessment and Instruction for Diversely Gifted Learners

Supervised learning lab experience involving scaffolded assessment, diagnosis, and associated curriculum differentiation for diversely gifted learners, including those with learning and emotional problems, physical disabilities, and special abilities. Includes writing and implementing individual education plans.

Cross-listed (Cross-listed with CEDC 755.)
prereq or coreq: SPED 75300 and SPED 75400
Hours Includes 20 hrs field experience

SPED 75600 - Professional Discourse and Leadership in Gifted Education

Collaborative models of professional development and program evaluation in gifted education. Major issues and leadership concerns in the field, e.g., including underrepresented populations and integrating gifted practices schoolwide and systemwide. Investigation of networking and dissemination.

Cross-listed ADSUP 75600, CEDC 75600, CEDF 75600
prereq or coreq: SPED 75300 and SPED 75400
Hours Includes 10 hrs field experience

SPED 76000 - Skills and Techniques for Rehabilitation Teaching I

Methods and alternative techniques in the areas of daily living skills, sensory development, communication skills and personal management for individuals who are visually impaired. Students receive instruction in assessment and evaluation, assessment-based goal planning, and lesson preparation for instructing consumers with visual impairments.

prereq: SPED 74000, 74100
Hours Includes 10 hrs field experience
Credits 3
SPED 76100 - Skills and Techniques for Rehabilitation Teaching II

Methods and alternative instructional techniques in the areas of home management, food preparation, home mechanics, leisure activities and craftmaking for the purpose of instructing persons who are visually impaired. Students learn the evaluation of persons with visual impairments. This course also teaches evaluation and instruction of age-appropriate activities for youth of transition age.

prereq: SPED 76000
Hours includes 10 hrs field experience
Credits 3 cr

SPED 76200 - Principles of Vocational Rehabilitation and Independent Living Rehabilitation for Adults with Visual Impairments

Job modification options. Transition planning from education to adult services.

prereq: SPED 74000, 74100
Hours 45 hrs,
Credits 3 cr

SPED 76300 - Internship I: Rehabilitation Teaching for Individuals with Visual Impairments (KC)

Provides supervised placement in itinerant or center-based programs for children or adults who are blind and/or visually impaired. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100
Hours 230 hrs,
Credits 2 cr

This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPED 76400 - Internship II: Rehabilitation Teaching for Individuals with Visual Impairments (KC)

Provides supervised advanced-level field placement in a variety of settings for teaching persons with visual impairments including youth of transition age and individuals with multiple impairments. All students are required to attend individual conferences and a weekly seminar.

prereq: SPED 76000, 76100
Hours 230 hrs,
Credits 2 cr
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPED 76500 - Intermediate Orientation and Mobility (KC)**

Theories related to perception, learning and development of individuals who are blind or visually impaired, and/or with multiple impairments across the age-spectrum as it is related to O&M. Through lecture, observation and practice, the student develops competencies in teaching indoor travel techniques used by persons with visual impairments. Requirements include 50 hours of blindfold simulation.

Prerequisite or Corequisite:
SPED 76800

Hours includes 50 hrs of lab plus 15 hrs field experience

Credits: 3 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPED 76600 - Advanced Orientation and Mobility**

Assessment, lesson sequencing, methods for Orientation and Mobility (O&M) of those who are visually impaired across the age-spectrum. Through lecture, observation and practice, the student develops competencies in teaching outdoor travel techniques used by persons with visual impairments.

Prerequisite or Corequisite:
SPED 76500, 76800

Hours includes 50 hrs of lab plus 15 hrs field experience

Credits: 3 cr.

**SPED 76700 - Orientation and Mobility: Internship/Seminar (KC)**

Knowledge and skills in advocacy for persons with visual impairments, the Code of Ethics for O&M specialists, organizing an O&M program, record keeping systems and program evaluation procedures, educating the public about O&M, issues and public policy related to O&M, and principles of employer/employee relations. 340 hours of internship required.

Prerequisite or Corequisite:
SPED 76500, 76600, 76800, 76900

Hours: 30 hrs seminar, plus conferences plus 340 hours of internship

Credits: 2 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPED 76800 - Intermediate Orientation and Mobility: Lab and Seminar**

This course teaches assessment, evaluation and lesson plan/execution, the systems of mobility used by persons who are visually impaired, and indoor travel techniques used by persons with visual impairments navigating familiar and
unfamiliar buildings. Fifteen day summer course.

prereq or coreq: permission of adviser
Hours 3 hrs
Credits 3 cr.
Two week summer course.

SPED 76900 - Advanced Orientation and Mobility Lab and Seminar

This course provides instruction in, lesson sequencing, pedagogical and andragogical methods for O&M instruction for persons who are blind or visually impaired. Through observation, and practice, this course develops competencies in teaching travel techniques used by persons with visual impairments.

prereq: SPED 76800
Hours 3 hrs
Credits 3 cr.
Two week summer course.

SPED 77100 - Methods of Teaching Reading for Adolescents with Learning Disabilities (KC)

This course addresses principles, methods, and specially designed instruction for adolescents with learning disabilities, mild/moderate cognitive impairment, and/or behavior disorders. The focus is on developing literacy through all aspects of reading, including: developing comprehension, expanding vocabulary, increasing fluency, utilizing phonics, and refining phonemic awareness. Students will learn strategies that support reading at all levels, including: sound, word, sentence, cross-sentence, text body, and text structure, genre, and across content areas.

coreq: SPED 77200
prereq or coreq: SPED 70000
Hours 45 plus 10 field hours
Credits 3 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 77200 - Supervised Clinical Teaching of Adolescents with Disabilities: Part I (KC)

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities, mild cognitive impairment, and/or behavior disorders from grades 7–12. Focus on specialized reading instruction, math instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 77100
prereq or coreq: SPED 70000
Hours 30 hours of seminar plus 25 field hours
Credits 2 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SPED 77300 - Math Methods for Adolescents with Disabilities (KC)**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social- interaction, and the arts across the curriculum.

**prereq:** SPED 70000 or SPED 70050  
**Hours** 2 hrs  
**Credits** 2 cr

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SPED 77400 - Supervised Clinical Teaching of Adolescents with Disabilities: Part II (KC)**

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

**prereq:** SPED 70000  
**coreq:** SPED 77300  
**Hours** 2 hrs: 15 hours of seminar plus 22 lab/clinical hours  
**Credits** 2 cr

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SPED 77500 - Supervised Student Teaching of Adolescents with Learning Disabilities (KC)**

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities or mild/ moderate intellectual disabilities in grades 7-12. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

**prereq:** SPED 70000 or SPED 70050; SPED 77100; SPED 77200  
**Hours** 3 hrs: 30 hrs of seminar plus conferences plus 60 days student teaching  
**Credits** 3 cr

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SPED 77550 - Supervised Practicum: Grades 7-12 (KC)**
Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000 -or- 70050; SPED 77100; SPED 77200

Hours 3 hrs: 30 hours seminar, plus conferences plus 60 days student teaching

Credits 3 cr

This Key Course requires a grade of B or better to pass.

Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.

This course may be repeated only once.

**SPED 77551 - Supervised Student Teaching: Learning Disabilities, Grades 7-12**

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000 or SPED 70050; SPED 77100; SPED 77200

Hours 1.5 hrs: 30 hours seminar, plus conferences, plus 30 days student teaching

Credits 1.5 cr

**SPED 77552 - Student Teaching: Learning Disabilities, Grades 7-12**

Supervised student teaching, providing direct, specially designed instruction for adolescents with learning disabilities, or mild/moderate intellectual disabilities, and/or behavior disorders. Weekly seminar and conferencing. Focus on selecting, applying and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000 or SPED 70050; SPED 77100; SPED 77200

Hours 1.5 hrs: 30 hours seminar, plus conferences, plus 30 days student teaching

Credits 1.5 cr

**SPED 77700 - Supervised Clinical Teaching of Students with Learning Disabilities (KC)**

Year-long course. On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100

prereq or coreq: SPED 70000

Hours 15 hours seminar, plus 22 lab/clinical teaching hours

Credits 3 (this course was listed in error as 2 credits in previous catalogs)

Year-long course

This Key Course requires a grade of B or better to pass.

Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.

This course may be repeated only once.
SPED 78000 - The Study of Learning Disabilities in Children and Adolescents

History of theory, practices and conceptualizations of learning disabilities and mild/moderate mental retardation. Current issues, controversies and research, offering frameworks for appropriate instruction. Includes student characteristics, LD as an approach to teaching, family and cultural needs, as well as services and settings from special schools to supported inclusion.

prereq or coreq: SPED 70000
Hours 45
Credits 3

SPED 78100 - Reading for Students with Learning Disabilities Grades 1-6, Methods 1 (KC)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels.

prereq: SPED 70000 or 70050
Hours 3 hrs: includes 10 hrs of field experience
Credits 3 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 78150 - Reading and Writing for Students with Learning Disabilities: Methods I (for those not in LD Specialization)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Includes 10 hrs of field experience.

prereq or coreq: SPED 70000
Credits 3

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1 (KC)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.
Hours 45
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 78151 - Reading and Writing for Students with Learning Disabilities: Methods 1 (KC)

Principles, methods, and specially designed instruction for students with learning disabilities or mild/moderate mental retardation. Focus on developing literacy, including early reading (conventions of print, phonemic awareness, word recognition) fluency, vocabulary development, graphic organizing, and comprehension at the sentence, cross-sentence and text-structure levels. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 78200 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1 (KC)

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities or mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use.

coreq: SPED 78100
prereq or coreq: SPED 70000
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Fall only (note: must take concurrently with SPED 78100 and must take SPED 78300/78400 in semester immediately following)

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 78251 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 1 (KC)

On-site supervised practicum, providing intensive specially designed instruction for students with learning disabilities mild mental retardation from grades 1–6. Focus on specialized reading instruction, active engagement, structuring, sequencing, on-going assessment, family, culture, and school relations. Videotape and computer use. Advanced students must complete individually-tailored assignments.
Hours 15 hrs seminar, plus 20 hrs lab
Credits 2

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 78300 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2 (KC)

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social-interaction, and the arts across the curriculum.

prereq: SPED 78100/78200
coreq: SPED 78400
Hours 45
Credits 3
Spring only (note: must take concurrently with SPED 78400 and have taken SPED 78100/78200 in preceding semester)

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 78350 - Math, Organizational and Social Strategies for Students with Learning Disabilities (KC)

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum.

prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2 (KC)

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning,
memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 78351 - Math, Organizational and Social Strategies for Students with Learning Disabilities: Methods 2 (KC)

Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate mental retardation. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations; time/space/task organization and body movement, social interaction, and the arts across the curriculum. Advanced students must complete individually-tailored assignments.

Hours 45
Credits 3

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 78400 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2 (KC)

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use

prereq: SPED 781/ 782
coreq: SPED 783
Hours 15 hrs seminar, plus 20 hrs lab,
Credits 2 cr
Spring only
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 78451 - Supervised Clinical Teaching of Students with Learning Disabilities: Part 2 (KC)

Continuation of on-site supervised practicum, providing intensive, specially designed instruction for students with learning disabilities or mild/moderate mental retardation from grades 1–6. Focus on written expression: writing process, handwriting, spelling, sentence and text structure. Ongoing focus on family, community and school. Videotape and computer use. Advanced students must complete individually-tailored assignments.
SPED 78500 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6 (KC)

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate intellectual disabilities in either grades 1–3 or 4–6, whichever is not covered in SPED 78200/SPED 78400. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Also includes IEP, families and communities.

prereq: SPED 70000 or SPED 70050; SPED 78200
Hours 3 hrs: 45 hrs seminar, plus conferences, plus a semester of student teaching
Credits 3 cr

SPED 78550 - Supervised Practicum: Learning Disabilities, Grades 1–3 or 4–6 (KC)

Supervised practicum, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78200/SPED 78400. Weekly seminar and conferencing. Focus on selecting, applying, and monitoring instructional and behavioral strategies. Includes IEP, families and communities.

prereq: SPED 70000 or SPED 70050; SPED 78200
Hours 3 hrs: 45 hrs seminar, plus conferences, plus a semester of student teaching
Credits 3 cr

SPED 78551 - Student Teaching: Learning Disabilities, Grades 1–3 or 4–6

Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate mental retardation in either grades 1–3 or 4–6, whichever is not covered in SPED 78552.

prereq: SPED 70000 or SPED 70050; SPED 78200
Hours 1.5 hrs: 30 hrs seminar, plus conferences, plus 30 days of student teaching
Credits 1.5 cr

SPED 78552 - Student Teaching/Supervised Practicum: Learning Disabilities, Grades 1–3 or 4–6
Supervised student teaching, providing direct, specially designed instruction for students with learning disabilities or mild/moderate intellectual disability in either grades 1–3 or 4–6, whichever is not covered in SPED 78551.

prereq: SPED 70000; SPED 78200
Hours 1.5 hrs: 30 hrs seminar, plus conferences, plus 30 days of student teaching
Credits 1.5 cr

**SPED 78900 - Practicum in Adolescent Special Education (KC)**

On-the-job supervised year-long classroom practicum on providing specially designed instruction in a special education teacher position/role for students in grades 7 - 12 with learning disabilities, behavior disorders and/or mild/moderate mental retardation. Entails supervisory observations by Hunter College faculty, with feedback conferences and individually tailored follow-up assignments for improving instructional planning, teaching, assessment, and student interactions. The 30-hour seminar focuses on effective instructional and behavioral strategies for the first year of teaching, including meeting the needs of students with severe/multiple disabilities (requires successful completion of online workshop related to students with severe/multiple disabilities).

prereq or coreq: SPED 70000
Hours 30 hours seminar, plus conferences
Credits 2 cr.
Year-long course

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPED 79000 - Foundations and Educational Implications of Severe/Multiple Disabilities (KC)**

Medical foundations of low incidence disabilities. Focus is on characteristics, etiologies, and effects of multiple impairments in learners in school environments and impact upon motor, cognitive, social, and adaptive skills.

prereq or coreq: SPED 70000
Hours 45 hrs,
Credits 3 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

**SPED 79100 - Alternative Assessment for Learners with Low Incidence Disabilities: Visual Impairment, Deafblindness, and Severe Disabilities (KC)**

The study of alternative procedures used in assessing learners with low-incidence disabilities. Emphasis is on behavior observation techniques, ecological inventories, performance and curriculum- based assessment and routine task analysis assessment. Practice in use of selected instruments and participation in parent/teacher conferences.

prereq or coreq: SPED 70000, SPED 79000
Hours Includes 15 hrs of field experience
This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPED 79200 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication.

prereq or coreq: SPED 70000 or SPEDE 76800
Hours includes 15 hrs of field experience
Credits 3 cr

SPED 79251 - Language Development and Alternative Communication Systems for Learners with Low Incidence Disabilities: Severe Disabilities including Deafblindness

Focus of course is on nonlinguistic and linguistic forms of communication used by learners with severe disabilities including deafblindness. Emphasis is on instruction in aided and unaided augmentative, alternative, and assistive technological devices that enhance communication. Advanced students must complete individually-tailored assignments.

Hours includes 15 hrs of field experience
Credits 3

SPED 79300 - Total Communication for Learners with Severe/Multiple Disabilities

Knowledge of the manual alphabet and basic sign vocabulary appropriate for instruction with learners with severe disabilities. Also focuses on differences among sign language systems and introduction to deaf culture.

prereq: SPED 70000
Hours includes 10 hrs of field experience, 30 hrs
Credits 2 cr

SPED 79400 - Functional Language and Culture of Learners with Low Incidence Disabilities

This course emphasizes language strategies for English language learners (ELL), cultural/family values, home/school partnerships, teacher expectations and assumptions, classroom environments, learning materials. Students are expected to relate and adapt curriculum and ELL instructional strategies to learners with severe disabilities.

prereq: SPED 70600
SPED 79500 - Student Teaching: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–6

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness in grades 1–3 and 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus 40 days of student teaching at two grade levels
Credits 4 cr

SPED 79550 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 1–3 (KC)

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 1–3. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus conferences, plus 20 days of student teaching
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPED 79551 - Student Teaching: Severe/Multiple Disabilities Including Deafblindness, Grades 4–6 (KC)

Supervised student teaching in a disability-specific school setting with learners with severe disabilities including deafblindness, grades 4–6. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 30 hrs seminar, plus 20 days of student teaching
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPED 79552 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 1–3 (KC)
Supervised practicum in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 1–3. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100  
Hours 30 hrs seminar, plus conferences,  
Credits 2 cr

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**SPED 79553 - Supervised Practicum: Severe/Multiple Disabilities, Including Deafblindness, Grades 4–6 (KC)**

Supervised practicum placement in an inclusive school setting with learners who have mild/moderate and severe disabilities, grades 4–6. Conferences and weekly seminar. Focus on writing lesson plans for cooperative groups, curriculum strategies and adaptations, peer-tutoring programs, barrier-free classroom design, and behavioral support plans, forming partnerships with families.

prereq or coreq: SPED 79000, 79100  
Hours 30 hours seminar, plus conferences,  
Credits 2 cr

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

**SPED 79800 - Topics in Special Education**

In-depth study of one area relevant to teaching students with disabilities.

prereq or coreq: SPED 700  
Hours 15-45 hrs,  
Credits 1-3 cr

**SPED 79900 - Topics in Special Education**

In-depth study of one area relevant to teaching students with disabilities.

prereq or coreq: SPED 700  
Hours 15-45 hrs,  
Credits 1-3 cr

**SPED 77051 - Individualized Planning, Implementation and Progress Monitoring in Early Childhood (Birth through PreK) Environments and Curricula (KC)**
Approaches for individualizing early childhood curriculum in classrooms, homes, and community settings will be explored. The process of using assessment data to create IFSP and IEP goals and objectives and match them to tiered supports of adaptations and embedded learning strategies will be emphasized, including data collection methods.

prereq: By permission
Hours 3 hrs
Credits 3 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPEDE 77151 - Autism Spectrum Disorder: Characteristics and Implications for Intervention

This course will provide an overview of the special learning and behavioral issues involved in educating infants, toddlers, preschoolers, and elementary school aged children with autism spectrum disorder (ASD). Teacher candidates will be introduced to the major approaches to intervention, and will be exposed to various instructional strategies of particular value to those working with individuals diagnosed with autism spectrum disorder. Five hours of field experience are required.

prereq: By permission
Hours 3 hrs
Credits 3 cr.

SPEDE 77251 - Positive Behavior Support (PBS) and Its Applications to Young Children with Special Needs

The major tenets of positive behavioral support; approaches to positive behavior support; how to do and use functional behavioral analysis with young children who have special needs. A minimum of 5 hours of field observation is required for this course.

prereq: By permission
Hours 3 hrs
Credits 3 cr.

SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities (KC)

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 36 days (30 hr seminar plus 36 days pre-K) plus conferences
Credits 2
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SPEDE 79550 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities (KC)**

Credits 2 credits

36 days (30 hr Seminar plus 36 days) Pre-K

This Key Course requires a grade of B or better to pass.

Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities (KC)**

Supervised student teaching in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100

Hours 36 days (30 hr seminar plus 36 days student teaching K-2) , plus conferences

Credits 2

This Key Course requires a grade of B or better to pass.

Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**SPEDE 79551 - Student Teaching in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities (KC)**

Hours 36 days (30 hr Seminar plus 36 days) K-2

Credits 2

This Key Course requires a grade of B or better to pass.

Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.
SPEDE 79552 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities (KC)

Hours (30 hr seminar plus conferences) Pre-K
Credits 2

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPEDE 79552 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities (KC)

Supervised practicum in a disability-specific or inclusive pre-school setting with learners with severe disabilities including deafblindness, grades pre-K. Focus on writing lesson plans, developing IFSPs/IEPs, behavioral observation, creating portfolios, forming partnerships with families.

prereq or coreq: SPED 79000, 79100
Hours 36 days (30 hr seminar, pre-K), plus conferences
Credits 2 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPEDE 79553 - Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities (KC)

Hours (30 hr seminar plus conferences) K-2
Credits 2 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPEDE 79553 - Supervised Practicum in Early Childhood Special Education with an Annotation in Severe Multiple Disabilities (KC)
Supervised practicum in a disability-specific or inclusive school setting with learners with severe disabilities including deafblindness, grades K-2. Focus on writing lesson plans, developing IEPs, behavioral observation, creating portfolios, forming partnerships with families.

**prereq or coreq:** SPED 79000, 79100

**Hours** 36 days (30 hr seminar, K-2), plus conferences

**Credits** 2 cr.

This Key Course requires a grade of B or better to pass. 
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.

This course may be repeated only once.

## Education: English as a Second Language

### CEDCF 71000 - Social, Historical, & Philosophical Foundations of General and Bilingual Education: Theory and Practice

This course provides a foundation for TESOL and Bilingual Education students in the historical, social and philosophical foundations of general and bilingual education with an emphasis on the development and current educational policies and practices of educating English language learners. Required for TESOL Program 1.

**Hours** includes 10 hrs of fieldwork

**Credits** 4

### EDESL 70100 - Selected Topics in TESOL

**EDESL 701-704 Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

**prereq:** permission of TESOL adviser

**Credits** 1 cr

### EDESL 70200 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

**prereq:** permission of TESOL adviser

**Credits** 2 cr

### EDESL 70300 - Selected Topics in TESOL
An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

**prereq:** permission of TESOL adviser  
**Credits** 3 cr

### EDESL 70400 - Selected Topics in TESOL

An in-depth treatment of new and critical issues in the teaching of ESL/EFL to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, and materials development. Elective for students in the Adult Program and for students in the Pre-K-12 Programs 1 and 2 who have been waived from a required course.

**prereq:** permission of TESOL adviser  
**Credits** 4 cr

### EDESL 70500 - Structure of English: A Pedagogical View

The total grammatical system of English seen functionally and pedagogically. Students examine research on various English language structures and develop optimum teaching approaches for presenting these structures.

**prereq:** LING 70100 or permission of TESOL adviser  
**Hours** 45 hrs  
**Credits** 3  
**Required of students in Programs One, Two, and the Adult Program.**

### EDESL 75300 - Supervised Teaching 2 (KC)

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 2 focuses on the professional duties of the ESL educator beyond teaching and incorporates an advocacy-based classroom based inquiry project. Required of all MA K-12 program students.

**prereq:** EDESL 75200  
**Hours** 3 hrs  
**Credits** 3 cr

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

### EDESL 76000 - Master's Essay Seminar in Educational Research

A written study, requiring a literature review and an in-depth research project that may take a variety of forms. Students meet in a seminar and individually with the adviser; instructor's approval of research project topic required. Taken in lieu of the comprehensive examination. Course extends across two semesters (Y course) or until written study is submitted. Registration by adviser's approval only. Elective for all students.

**prereq:** completion of 24 credits or permission of TESOL adviser  
**Credits** 4
EDESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in Program 1 and Program 2.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser
Credits 4
includes 10 hrs fieldwork

EDESL 77000 - Content and Curriculum & Materials in Adult TESOL

An overview of current theory and practice in the design of content, curriculum, and materials for the teaching of Adult ESL, focusing primarily on designing ESL instruction for academic and adult continuing ESL contexts. Includes adult content area learning and English for Specific purposes, and integrating the 4 language skills.

prereq or coreq: pre- or coreq: EDESL 79600 or permission of TESOL adviser
Hours includes 10 hrs of fieldwork in Adult ESL classrooms
Credits 4

EDESL 77100 - K-12 ESL Curriculum and Materials through the Content Areas

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.

prereq: EDESL 79600/79610
Hours includes 20 hrs fieldwork in K-12 classrooms
Credits 4

EDESL 77200 - First and Second Language, and Technological Literacy in K-12 ESL

An in-depth treatment of theory and practice in the teaching of literacy skills, including technological, to English language learners in the public schools. Required of students in both Pre-K-12 Programs 1 and 2.

prereq: EDESL 79600/79610 and LING 70200 or permission of TESOL adviser
Hours includes 10 hrs fieldwork
Credits 4

EDESL 77500 - Socio-Cultural Aspects of Language

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

Hours 3 hrs
Credits 3 cr
EDESL 77600 - Language Assessment in Adult TESOL

An overview of the theories, concepts, methods, and materials for assessing the language and content knowledge of adult ESL students. For students in Program 3.

prereq: EDESL 79600, LING 70200, EDESL 77000; coreqs: EDESL 77800, 77900, or permission of TESOL adviser
Hours includes 10 hrs of fieldwork in Adult ESL classrooms
Credits 4

EDESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610
Credits 4
10 hours of field experience.

EDESL 77800 - Teaching Oral Language Skills in Adult TESOL

An overview of current theory and practice in the teaching of oral skills (speaking, listening, and pronunciation) to adult ESL students, focusing primarily on designing ESL instruction to enhance students' skills in these areas. For students in Program 3.

prereq: EDESL 79600
prereq or coreq: pre- or coreq: EDESL 77000
Credits 4

EDESL 77900 - Teaching Reading and Writing Skills in Adult TESOL

An overview of the theory and practice of teaching reading and writing to adults in ESL, with considerations for the wide range of adult ESL learning contexts, including adult continuing education, college English/ESL programs and English for academic purposes. For students in Program 3.

prereq: prerequisite: EDESL 79600
prereq or coreq: pre- or coreqs: EDESL 7700 or EDESL 78700 or EDESL 77500
Credits 4

EDESL 78000 - Seminar in Educational Research (Master's Essay)

A written study, which may include a researched area, an analysis of a methodology, a review, evaluation, or critique of relevant literature, or a proposal for learning materials. Students in this course, who meet as a group and individually with the adviser, are exempt from taking the comprehensive examination.
This course satisfies the culminating requirement for the MA program and counts as an elective course in the Adult Track and K-12 programs.Year-long course.

prereq: completion of 24 credits and permission of TESOL adviser
Credits 3 cr (year-long)
Students who satisfactorily complete the first semester would earn a grade of Y, which would be changed to a letter grade upon satisfactory completion of all course requirements.
EDESL 78300 - Methods in Teaching English as Second Language- PK-12 (KC)

PK-12 Methods in TESOL is a course designed to provide an introduction to the teaching of English to speakers of other languages (TESOL) through a program of lectures, readings, discussions, demonstrations, practical teaching exercises, and fieldwork. The course provides an historical and current overview of PK-12 students, the types of programs they attend, the educational contexts in which PK-12 ESL is taught and learned, and the methods and materials that teachers employ. This course requires 45 hours of field experience.

Hours 3
Credits 3
Required for students in Program Two and Program Three (Adult Program).

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

EDESL 78400 - Fieldwork in TESOL with Adults

Teaching practicum in a field setting with adult learners of English in the Community Outreach Program in English (COPE) on Saturdays. (Sabbath observers meet during the week.) During a weekly seminar, emphasis is placed on peer dynamics, classroom management and setting and exploiting learning activities and environments.

prereq: completion of 24 credits or permission of TESOL adviser

Hours 60 hrs
Credits 3
Required of students in the Adult Program.

EDESL 78410 - Practicum in TESOL for Adults

A hands-on Practicum/teaching experience with adult ESL students in the Community Outreach Program in English (COPE) at Hunter College, that serves as one of two culminating teaching experiences in the Adult Track of the TESOL Program. Students also meet in a weekly seminar immediately after their COPE classes. Required of students in Program 3.

prereq: completion of 24 credits or permission of TESOL adviser

Hours 30 hrs plus 60 hrs classroom teaching,
Credits 2 cr.

EDESL 78420 - Student Teaching in TESOL for Adults

A student teaching experience (with the guidance of a cooperating teacher) in an academic ESL context (either an Intensive ESL Program or a college ESL class), that serves as one of two culminating teaching experiences in the Adult Track of the TESOL Program. Students also meet in a weekly seminar to discuss their student teaching experiences. Required of students in Program 3.

prereq: completion of 24 credits or permission of TESOL adviser

Hours 30 hrs plus 60 hrs classroom teaching,
Credits 2

EDESL 78500 - Supervised Student Teaching, Pre-K-6 and 7-12
Two-semester supervised student teaching experience in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

prereq: completion of 24 credits or permission of TESOL adviser
Hours 60 hrs seminar plus student teaching and conference
Credits 2
this is a year-long course

**EDESL 78510 - Supervised Student Teaching in the Elementary School: Pre-K–6**

Supervised student teaching in Pre-K through grade 6 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. (1) Students without prior certification in another area must teach 30 days in Pre-K–6; (2) Students with prior certification in another area must teach 20 days in Pre-K–6.

prereq: completion of 30 credits or permission of TESOL adviser
Hours 15 hr seminar plus student teaching and conferences,
Credits 2 cr.
Required of students in Programs One and Two. note: students should not take 788.10 if they are in this course

**EDESL 78520 - Supervised Student Teaching in the Secondary School: Grades 7–12**

Supervised student teaching in grades 7–12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. (1) Students without prior certification in another area must teach 30 days in grades 7–12; (2) Students with prior certification in another area must teach 20 days in grades 7–12.

prereq: completion of 30 credits or permission of TESOL adviser
Hours 5 hrs seminar plus student teaching and conference,
Credits 2 cr
Required of students in Programs One and Two. note: students should not take 788.20 if they are in this course

**EDESL 78600 - Phonetics of American English**

Phonological (phonetic and phonemic) analysis of contemporary American speech.

prereq or coreq: LING 70100 or permission of TESOL adviser
Hours 45 hrs,
Credits 3 cr
Required of students in the Adult Program and for students in Pre-K–12 Programs One and Two who have been waived from a required course.

**EDESL 78700 - K-12 ESL Curriculum and Materials across the Content Areas (KC)**

This course provides an overview of current theory and practice in the design of content, curriculum, and materials for the teaching of K-12 ESL, focusing primarily on designing ESL instruction through the various content areas, and integrating the 4 language skills.
This course requires 30 hours of field experiences.
**EDESL 78800 - Supervised Practicum, Pre-K-6 and 7-12 (KC)**

Two-semester supervised practicum in grades pre-K-12 in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structures of public school policies and practices. Students teach one semester in grades pre-K-6 and one semester in grades 7-12. Required of students in Programs 1 and 2.

**EDESL 78810 - Supervised Practicum in the Elementary School: Pre-K–6**

Teaching practicum at the elementary level in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices.

**EDESL 78820 - Supervised Practicum in the Secondary School: Grades 7–12**

Teaching practicum at the secondary level in the public schools. Emphasis is placed on classroom management, learning environments, and working within the structure in public school policies and practices.

**EDESL 78900 - Selected Topics in TESOL**

An in-depth treatment of new and critical issues in the teaching of ESL/ELF to adults, with topics being offered on a rotating basis, including such areas as vocational ESL, advanced grammar, adult literacy, testing, content-based instruction, materials development.
EDESL 79000 - Technology in TESOL: Adults

Through reading, class discussions, demonstrations, and hands-on applications, students are introduced to a range of technologies available to adult language learners in the computer laboratory, through distance learning, and on the Internet; students are also exposed to procedures in computer-assisted language learning (CALL) and computer-assisted instruction (CAI).

Hours 45 hrs,
Credits 3 cr
An elective for students in Program 3 and for students in Programs 1 and 2 who have been waived from a required course.

EDESL 79100 - Language Assessment in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing.

prereq: LING 70300, EDESL 78300
prereq or coreq: LING 77300, EDESL 70400
Hours 45 hrs,
Credits 3 cr

EDESL 79200 - Second Language Literacy and Technology

This course provides an in-depth treatment of theory and practice in the teaching of all of the literacy skills: reading and writing, along with the development of oral language and listening, to K-12 English language learners in the public schools. Interactions between first, second, and other language literacy, and technological literacy are explored and exploited toward successful language teaching and learning. Includes 15 hours of field experience.

prereq: LING 70300; LING 77300; EDESL 78300
Hours 3 hrs,
Credits 3 cr
Required of students in both Pre-K–12 Programs One and Two; elective for students in the Adult Program.

EDESL 79300 - Technology in TESOL: Pre-K–12

This mini-course covers basic technology and computer operations/concepts (second language learning software; accessing, generating, manipulating data, and publishing results); the use of technology in personal/professional growth; and the applications of technology for language instruction.

Hours 15 hrs,
Credits 1 cr
Required of students in both Programs One and Two and an elective in the Adult Program.

EDESL 79400 - Teaching ESL Students with Disabilities: Pre-K–12
Overview of issues and practices relevant to the teaching and learning of second language learners with special education needs.

**EDESL 79500 - Health Education for Teachers of ESL: Pre-K–12**

An overview of health promotion and wellness for teachers of ESL students from diverse ethnic/cultural backgrounds and different abilities in grades pre-K through grade 12. It includes child abuse and neglect, drug education, fire safety education, nutrition and fitness, and violence prevention.

**EDESL 79510 - Methodology of Teaching English to Speakers of Other Languages**

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in Program 1.

**EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages**

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

**EDESL 79620 - Methodology of Teaching English to Speakers of Other Languages**

Hours includes 20 hours fieldwork
Credits 4

**EDESL 79630 - Methodology of Teaching English to Speakers of Other Languages**

Hours 25 hrs fieldwork
Credits 4 cr.

**EDESL 79800 - Student Teaching in Academic ESL**

Hours 60 hrs fieldwork
Credits 2 cr

**EDESL 79900 - Adult Fieldwork / Practicum (KC)**

Hours 60 hrs fieldwork
Credits 2 cr
This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

ESESL 76100 - Language Assessment and Diagnosis of Special Needs in TESOL

An in-depth treatment of a wide range of classroom language assessment procedures (both formal and informal) for learners of English as a second or foreign language, including diagnostic, proficiency, placement, and achievement testing. Includes identification and diagnosis of ESL students with special needs. Required of students in Programs 1 and 2.

prereq: EDESL 79600/79610, EDESL 77100, and LING 70200 or permission of TESOL adviser
Hours includes 10 hrs fieldwork
Credits 4

ESESL 77700 - Socio-Cultural Aspects of Language and Pedagogy

This course addresses the various social and cultural aspects of language as relevant to the teaching and learning of English by speakers of other languages. It addresses English sociolinguistics and pragmatics, as well as cross-cultural awareness needed for effective language pedagogy.

prereq or coreq: LING 70200, EDESL 79600/79610
Credits 4

LING 77300 - Instructed Second Language Acquisition (KC)

This course provides an overview of current theory, research, and practice in second language acquisition and learning. Pedagogical implications and applications for English language learning particularly through instruction are emphasized. Teachers are introduced to research methodologies and conduct classroom-based research.

This course requires 15 hours of field experience.

prereq or coreq: EDESL 78300; LING 70300
Hours 3 hrs
Credits 3 cr
This Key Course requires a grade of B or better to pass. Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

Department of Curriculum and Teaching

About the Department

Welcome to the Department of Curriculum and Teaching at Hunter College, the home of a wide variety of graduate and undergraduate programs that will prepare you for one of the highest callings in society: education. Along with the other departments in the School of Education, we carry on the original mission of Hunter College: the preparation of educators.
As part of the largest department in the Hunter College School of Education, Curriculum & Teaching programs prepare teachers and other school personnel in the areas of Childhood Education (elementary), Adolescent Education (secondary), Early Childhood Education, Literacy, Bilingual Education, Teaching English to Speakers of Other Languages (TESOL–K-12 and Adult), and Administration & Supervision. Our primary mission is to prepare teachers for any classroom environment, although we are particularly committed to preparing teachers for the challenges of public education in an urban setting.

The Department of Curriculum and Teaching houses the majority of the programs and courses in the Hunter College School of Education, working closely with departments in the School of Arts & Sciences to train teachers in content area knowledge, and in the methods of teaching such subject areas as English/Language Arts, Social Studies, Foreign Languages, Music, ESL, Bilingual Education, Math, and Science. Its programs ask future teachers and administrators to be thoughtful and knowledgeable educators, advocates for children and other learners, active promoters of social justice, knowledgeable resources, and effective future leaders in education.

**Education: Adolescent Education**

**SEDC 71900 - Methods 1: Advanced Study of Secondary Learning Environments for Teaching Computer Science**

Examines the interrelationship between the educational environment and the adolescent's learning of computer science. Teacher candidates study the basics of classroom management in the teaching of computer science as they explore the content and implementation of proposed national, New York State, and New York City standards for computer science. Fosters the use of technology as an educational tool to improve the technical literacy of the adolescent.

*Hours 3.0  
Credits 3.0*

**SEDC 72900 - Methods II: Intensive study of Teaching Diverse Learners in Computer Science Grades 7-12 (KC)**

Familiarizes prospective middle and high school teachers, grades 7–12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population emerging state and professional standards-based curriculum in computer science. Innovative uses of technology, development of instructional units, individualizing for a diverse population of students, and strategies for managing problem behavior will be emphasized throughout the course.

*prereq: SEDC 71900  
coreq: SEDC 74100  
Hours 3.0  
Credits 3.0*

*This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.*

**SEDC 73600 - Curriculum Design for Computer Science (KC)**

This course will prepare candidate teachers to design complete units of study ranging from standalone class units to complete courses to a sequence of courses. Candidates will learn to build developmentally appropriate materials by looking at curriculum from top down and bottom up perspectives as well as how computer science fits within an adolescent's full education.
Candidates will also be required to complete fifty hours of fieldwork. Most of these hours would be at the candidates grade level (high school, primary school, etc.) but will include an experience in levels K-6 and 7-12 to align with state regulations. Fieldwork will be under the supervision of a Hunter College faculty member and a certified teacher in New York City schools selected by the college.

*Hours 3*
*Credits 3*

*This Key Course requires a grade of B or better to pass.*
*Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.*
*This course may be repeated only once.*

**SEDC 74100 - Adolescent Fieldwork (KC)**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

*Cross-listed SEDC 34100*  
*coreq: SEDC 71200 or SEDC 72100 or SEDC 72200 or SEDC 72300 or SEDC 72400 or SEDC 72500*  
*Hours 15 hours of seminar; 48 hours of fieldwork*  
*Credits 1*

*This Key Course requires a grade of B or better to pass.*
*Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.*
*This course may be repeated only once.*

**SEDC 75900 - Student Teaching for Computer Science (KC)**

Teacher candidates complete 60 days of student teaching at grades 7–12 under the supervision of a Hunter College faculty member and a certified teacher in a New York City school selected by the college. They further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

*prereq: SEDC 71900 and SEDC 72900*  
*Hours 3.0*  
*Credits 3.0*

*This Key Course requires a grade of B or better to pass.*
*Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.*
*This course may be repeated only once.*

**Education: Childhood Education**

**CEDC 70200 - Advanced Elementary Literacy Methods**

Advanced Elementary Literacy Methods is the second course of a two-part sequence designed for graduate, pre-service teacher candidates to expand and apply their understanding of the pedagogical strategies and content necessary to teach
English language arts to elementary students. In this course, teacher candidates will demonstrate effective literacy instruction through assessing, planning, and teaching elementary students' learning in all facets of literacy and throughout the content areas.

coreq: This course should be taken with CEDF 71000, CEDC 70300, CEDC 70600 Reflective Practice in Elementary School Social Studies Curriculum Development, SPED 70800, CEDC 77300 Fieldwork & Teaching Seminar 2.

**CEDC 73900 - Advanced Methods in Elementary School: Mathematics, Science, and Social Studies**

This graduate advanced methods builds on and extends the initial methods courses in the areas of mathematics, science, and social studies and also explicitly connects theory from mathematics, social studies, and science methods courses to practice by supporting teacher candidates to design and enact lessons in the context of the elementary school classroom. Students will grapple with the complexities of how students learn content and design/conduct assessments, develop lesson plans and unit plans, and critically reflect on their teaching practice. Students will face the realities of teaching content in schools given the school resources in terms of curriculum and technology and within the curriculum guidelines of the state and district.

prereq or coreq: CEDC 70300, CEDC 70600, CEDC 70500

**Education: Literacy Education**

**EDLIT 75500 - Literacy Instruction for Struggling Readers and Writers: Grades 5-12**

Exploration of historical, theoretical and research-based teaching practice issues related to overcoming reading/writing difficulties. Assessment and intervention strategies, adaptation and modification of instructional strategies, technology and curriculum to improve foundational skills and learning outcome of middle and high school struggling readers and writers.

Hours includes 15 hours fieldwork
Credits 3

**Education: English as a Second Language**

**EDESL 73200 - Second Language Literacy and Language**

This course offers an in-depth treatment of the literacy and language knowledge needed for the teaching of literacy skills through the various content areas (math, science, social studies, literature) to English language learners. Requires 10 hours of fieldwork.

prereq or coreq: EDESL 78300
Hours 3 hrs plus 10 hrs of fieldwork
Credits 3 cr
EDESLL 74100 - Teaching ESL Oral Skills

This course will begin by addressing theory and practice of both the acquisition and teaching of oral and listening skills in adult ESL. It will then focus on how oral and listening skills can be taught to adults from diverse cultural and linguistic backgrounds, addressing cognitive, emotional, social, and personal differences among students.

prereq: EDESLL 70200, EDESLL 70300
Hours 3 hrs
Credits 3 cr

EDESLL 74200 - Teaching ESL Reading and Writing

The course will cover theories of reading and writing, as well as focus on the teaching methods and practices that grow out of them. The primary focus of the course will be the process of learning about how L2 literacy skills are acquired.

prereq: EDESLL 70200, EDESLL 70300
Hours 3 hrs
Credits 3 cr

EDESLL 74300 - Language Assessment for Adult ESL Classrooms

This course introduces students to relevant theory and current practice in the area of language assessment and integrates the two in order to provide students with both conceptual understanding and practical experience with language assessment. The course will examine key concepts and current debates, including validity, reliability and the ethics of high-stakes testing.

prereq: EDESLL 702 and EDESLL 703
Hours 3 hrs
Credits 3 cr

EDESLL 75200 - Supervised Teaching 1 (KC)

One semester supervised ESL teaching experience in grades pre-K-12. Emphasis is placed on integrating language development within the content areas, co-teaching, and research-based reflective practice. Supervised Teaching 1 focuses on the development of core lesson planning, teaching, and assessment skills in ESL instruction. Required of all pre-K-12 program students.

prereq: Completion of 24 credits or permission of TESOL adviser
Hours 3 hrs
Credits 3 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

EDESLL 78100 - Curriculum and Materials in Adult TESOL (KC)

Overview of the various curriculum and materials options for learning ESL/EFL (listening and oral comprehension, speaking and conversation, reading and vocabulary building, writing and composing, textbook series for children and adults, dictionaries, computer-assisted learning materials, video programs and others). Attention is given to classroom management tasks, setting up and exploiting various learning environments, and general literacy concerns.
prereq or coreq: EDESL 78200
Hours 3 hrs
Credits 3 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

EDESL 78200 - TESOL Methods for Adult Education (KC)

A treatment of effective TESOL practices, classroom management, and learning environments appropriate to the adult classroom. Twenty-five hours of field experience/observation is a part of this course.

Hours 45 hrs
Credits 3 cr

Required of students in the Adult Program and an elective for students in the Pre-K–12 Programs One and Two who have been waived from a required course.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

LING 70300 - Analysis and Structure of English I

The first course in a two-course sequence offering an in-depth treatment of the various aspects English language knowledge needed for the teaching of English through the various content areas (math, science, social studies, literature) to English language learners. It lays the groundwork in English language knowledge and analysis for teachers of P-12 ESL.
Requires 15 hours of field experience.

prereq or coreq: EDESL 78300
Hours 3 hrs
Credits 3 cr

LING 70400 - Analysis and Structure of English 2

The second course in a two-course sequence offering an in-depth treatment of the various aspects English language knowledge needed for the teaching of English through the various content areas (math, science, social studies, literature) to English language learners. It lays the groundwork in English language knowledge and analysis for teachers of P-12 ESL.
Requires 10 hours of field experience.

prereq: EDESL 78300, LING 70300
Hours 3 hrs
Credits 3 cr

Other Courses

EDUC 71700 - Supervised Clinical Experience 1
This course is an opportunity for teacher candidate to engage in one semester of supervised clinical experience in a classroom that corresponds with the grade levels and content area in which the teacher candidate is seeking certification. Emphasis is placed on teacher candidates developing a reflective stance on their supervised clinical experience. Teacher candidates in this course will be coached by a Hunter College School of Education field supervisor. This course is intended to supplement other clinical experiences previously completed by teacher candidates and requires a minimum of 10 hours per week in a clinical placement.

prereq: Departmental permission required.

Credits 1.0

Contact hours include five 3-hour seminars (total 15 contact hours); minimum of 10 hours of clinical experience per week.

Students must complete this course with a grade of B or better, or they must request permission to repeat the course.

EDUC 71800 - Supervised Clinical Experience 2

This course is an opportunity for teacher candidate to engage in one semester of supervised clinical experience in a classroom that corresponds with the grade levels and content area in which the teacher candidate is seeking certification. Emphasis is placed on teacher candidates developing a reflective stance on their supervised clinical experience. Teacher candidates in this course will be coached by a Hunter College School of Education field supervisor. This course is intended to supplement other clinical experiences previously completed by teacher candidates and requires a minimum of 20 hours per week in a clinical placement.

prereq: Departmental permission required.

Credits 2.0

Contact hours include ten 3-hour seminars (total of 30 contact hours); minimum of 20 hours of clinical experience per week.

Students must complete this course with a grade of B or better, or they must request permission to repeat the course.

Department of Educational Foundations

About the Department

The Department of Educational Foundations & Counseling Programs prepares students to enter the teaching and counseling professions, eventually to obtain the appropriate certification(s), which will help them establish, improve and maintain themselves within these professions.

Departmental courses are the basis of training in education and human services. The Department of Educational Foundations includes the disciplines of psychology, sociology, anthropology, history and philosophy. Research in these areas, when applied to education and counseling, provides the foundation for understanding individuals in the learning and counseling process and the social psychological context in which personal development and learning occur. In addition, the study of the history and the philosophic foundations of American education and counseling is essential for enabling future teachers and counselors to meet the ever-changing intellectual and social needs of a diverse body of individuals in a pluralistic, democratic society.

Departmental course offerings are offered in three distinct areas: psychological foundations; social foundations and counseling. All courses are anchored in theory and research-based knowledge from which we emphasize applications to the urban environment, the applied use of theory to influence policy and practice, and solutions to concrete and practical problems that school and counseling professionals experience in daily practice.
The department's preparation of teachers and counselors goes beyond the acquisition of specific skills and methods. The focus of the department is on the professional identity and development of students so that they understand and seek to influence the social, political and economic context in which they function.

**Education: Doctoral**

**EDF 80300 - Statistics for Applied Educational Research II**

This course builds on knowledge of basic statistics, focusing on multiple regression and analysis of covariance for statistical analysis of continuous and categorical independent variables. Data exploration and assumptions are discussed in detail. Computer software for analysis of quantitative data is introduced.

Hours 3.0
Credits 3.0*

**Education: Ed Foundations**

**CEDF 713 - CEDF 71300 - Child and Adolescence Development**

This course provides a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and explore their potential impact on student behavior and learning in the classroom.

*Hours 3 hrs
Credits 3 cr*

**CEDF 71300 - Child and Adolescent Development**

This course will provide a theoretical foundation from which students can understand child and adolescent development. Students will learn a variety of theories and their potential impact on student behavior and learning in the classroom.

*Hours 3 hrs
Credits 3 cr*

**Education: Counseling**

**COCO 71300 - Career Counseling and College Readiness**

This course offers a comprehensive introduction to the career readiness and college access counseling role of the school counselor working within the K-12 school setting. By utilizing a multicultural and social justice framework the course will explore career readiness and college access from a holistic and lifespan developmental perspective. In view of the CACREP standards this course will explore and appropriately address the American School Counselor Association (ASCA) national domains in academic, career and the personal needs of K-12 students from Kindergarten through high school as it relates to their career exploration and college access.

*coreq: COCO 725/726
Hours 4.0
Credits 4.0*
COUNM 71800 - Practicum in Mental Health Counseling (KC)

This course is designed for students to continue building the counseling skills and self-awareness developed in previous counseling program course work. This practicum provides students with a semester-long opportunity to begin gaining actual counseling experience at an agency/school while being supervised by an on-site supervisor. In conjunction with this course seminar and fieldwork hours, students also participate in individual, weekly supervision with a Hunter College instructor (COUNM 71900: Individual Supervision).

- This Key Course requires a grade of B or better to pass.
- Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
- This course may be repeated only once.

prereq: COCO 70100 and COCO 70200
coreq: COUNM 71900
prereq or coreq: COCO 70000, COCO 70600, and COUNM 71600
Hours 3 + fieldwork
Credits 3.0

COUNM 71900 - Individual Supervision (KC)

This course involves the clinical supervision of the integration and application of theory, knowledge and skills that accompanies clinical fieldwork practice. The aim is to develop and evaluate each counseling student's proficiency and competence in the training to be a mental health counselor.

- This Key Course requires a grade of B or better to pass.
- Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
- This course may be repeated only once.

prereq: COCO 70100 and COCO 70200
coreq: COUNM 71800
prereq or coreq: COCO 70000, COCO 70600, and COUNM 71600
Hours 3
Credits 3.0

COUNM 72500 - Internship in Mental Health Counseling I (KC)

This course and fieldwork is a continued experience in applying techniques of mental health counseling with selected populations in a variety of settings. Weekly seminars to discuss clients, roles, and responsibilities of the counselor. This course is designed for students to gain additional counseling knowledge, skills, and self-awareness about how their client's and their own personal qualities, needs, motivations, and values can facilitate or interfere with their effectiveness as a counselor.

- This Key Course requires a grade of B or better to pass.
- Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
- This course may be repeated only once.
COUNM 72600 - Internship in Mental Health Counseling II (KC)

The second part of the mental health counseling internship follows COUNM 72500 Internship in Mental Health Counseling I. This course is designed for students to continue to gain additional counseling knowledge, skills, and self-awareness about how their client's and their own personal qualities, needs, motivations, and values can facilitate or interfere with their effectiveness as a counselor.

- This Key Course requires a grade of B or better to pass.
- Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
- This course may be repeated only once.

Department of Special Education

About the Department

Hunter's graduate programs in special education prepare teachers to provide specially designed instruction for students with disabilities and to work across a variety of educational settings, including: special schools, special classes/inclusive classrooms, resource rooms, pre-self-contained classrooms, special schools, early intervention programs, supported general education classrooms in public and private schools, hospitals, clinics, health agencies, home programs, and residential facilities. Special education programs at Hunter College have been nationally recognized by the Council for Exceptional Children.

The School of Education offers master's degree and advanced certificate programs in special education that lead to New York State teacher certification. Specializations in special education include: early childhood special education; early childhood special education with an annotation in severe/multiple disabilities (including deafblindness); childhood special education, learning disabilities; childhood special education, behavior disorders; childhood special education with an annotation in severe/multiple disabilities (including deafblindness); deaf and hard-of-hearing; blind and visually impaired; and adolescent special education generalist.

The programs (with the exception of early childhood special education) are organized into a set of cross-categorical core courses and disability-specific specializations. Core courses develop knowledge and skills across a variety of disabilities to be applied across a range of education settings. Specializations provide in-depth preparation for working with students within a particular disability area. Both core and specialization courses provide historical, theoretical, and clinical perspectives, as well as current research and direct experiences with students of different ages and profiles. A hallmark of Hunter's programs is their linking of theory to effective instruction.

Education: Doctoral

EDUC 80500 - Research on Effective Practice and Curriculum (REPAC) in Literacy
This course examines current research in literacy curriculum and its implementation. A host of theoretical approaches to the teaching of literacy and language development will be addressed and critiqued. Particular attention will be paid to research on literacy instruction and interventions that serve the needs of diverse students in urban schools.

prereq: SPED 8000 Intro to Doc Seminar
Hours 3.0
Credits 3.0

SPED 80200 - Enhancing Achievement through Family & Community Relationships

This course examines the role of school, family and community in educational policy and practice. Students will read and critique a variety of theoretical frameworks about the intersection of home, school, and community; analyze current research on the impact of family and community engagement on student learning and school improvement; explore policies at local, state, and federal level.

Hours 3.0
Credits 3.0

Early Childhood Special Education

SPED 77810 - Initial Student Teaching in Early Childhood Special Education (KC)

First, full semester, supervised experience as a student teacher at either a Pre-K (Birth to 5 years) or primary (Kindergarten or Grades 1-2) setting; practice in implementation of skills developed through coursework and field experiences. (Note that students who take SPED 778.10 must also take either SPED 77820 or SPEDE SPEDE 77920 and the placements must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting.)

prereq: SPED 77600
Hours 3 hrs. plus full semester of student teaching
Credits 3 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 77920 - Final Practicum in Early Childhood Special Education (KC)

Second intensive supervised experience designed as a practicum at the candidate's job site and weekly seminar; practice in the implementation of skills developed through coursework and field experiences. (Note that students who take SPED 779.20 must have already taken SPED 77810 and the two experiences must be at different age/grade levels – Pre-K [Birth–five years], Kindergarten, grades 1–2. One semester of SPEDE 77800 or SPEDE 77900 must be in a PreK setting. Teacher Candidates must be in an early childhood program that includes children with disabilities for the entire semester.)

prereq: SPDE 77400 and SPEDE 77810
Hours 3 hrs. plus full semester of practicum experience in worksite
Credits 3 cr.

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

**Education: Special Education**

**EDABA 74000 - Philosophy of Behaviorism**

This course examines radical behaviorism in a broad historical, theoretical, and philosophical context. Works by B. F. Skinner and analyses and extensions of these works will be discussed. Radical, contextual, methodological, and feminist behaviorism will be analyzed and their historical roots investigated. Readings will explore major conceptual issues such as determinism, mentalism, selection by consequences, freedom, control, and responsibility. Finally, the course will cover social issues and cultural design as applications of behavioral thinking.

*prereq: EDABA 79100, EDABA 79500, EDABA 79800*

*Hours* 3

*Credits* 3.0

**EDABA 78500 - Clinical Capstone 1**

This course is the first course in a two-course sequence in which students conduct a literature review on a relevant applied topic and then write a clinical handbook or create a clinical training module based on this review. Under the supervision of a faculty advisor, students in EDABA 78500, identify a relevant area of behavior analytic application, conduct a comprehensive literature review on the topic, and defend the review to a committee of experts.

*prereq: EDABA 79000, EDABA 79100, EDABA 79600, EDABA 75500, and graduate academic advisor approval*

*Hours* 3

*Credits* 3.0

**EDABA 78600 - Clinical Capstone 2**

This course is the second course in a two-course sequence in which students write a clinical handbook or create a clinical training module based on recommendations from their literature review in EDABA 78500. This will occur under the supervision of a faculty advisor. The final product will be defended in front of a committee of experts.

*prereq: Approval of graduate academic advisor.*

*Hours* 3

*Credits* 3.0

**EDABA 79300 - Applied Behavior Analytic Autism Intervention for Adults**

This course examines applied behavior analytic intervention for adults with autism spectrum disorder. Research based intervention technologies in a wide range of skill areas will be examined. Specific skill areas to be discussed include promoting independence, social skills, healthcare, leisure skills, vocational skills, employment, and managing problem behavior. Other areas to be covered include motivational systems, behavior assessment and staff training.

*Hours* 3 hrs

*Credits* 3
SPED 70050 - Social, Historical, and Philosophical Foundations of General and Special Education

Current and historical views of individuals with disabilities; legal, social, and educational perspectives; definition of populations; effects of disabilities on social, emotional and psychological development. Review of issues and themes in the social foundations of general and special education viewed from an interdisciplinary perspective that accounts for race, culture, class, language, gender, and disability.

Hours 3 hrs
Credits 3 cr

SPED 70450 - Teaching Culturally and Linguistically Diverse Students

This course is a review of the historical, social, and legal foundations of education as it pertains to special education, education of students including those with limited proficiency in English, and multicultural backgrounds. It is an overview of issues and best practices for teaching students from culturally and linguistically diverse backgrounds who have historically been underserved in educational systems due to language, race, class, or social status within the context of special education.

prereq: SPED 70000 or SPED 70050
Hours 3 hrs
Credits 3 cr

SPED 70550 - Use of Instructional Technology in the Special Education Classroom

This course explores how technology can support students with learning disabilities and behavior disorders. More than simply a "how to" course, this class aims to give teachers the tools needed to best assist their students and evaluate the use of technology in their classrooms. This is a lab course where some of the learning occurs over blocks of time spent in direct experience. Class sessions are: demonstrations; hands-on exploration; feedback; coaching; and direct exploration of both hardware and software, applying them both as teacher tools and as instructional means for students with disabilities.

prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

SPED 70800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

Cross-listed SPED 308
prereq: 12 credits of coursework
Hours 45
Credits 3

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

SPED 72300 - Math for Students with Learning Disabilities (KC)
Principles, methods, and specially designed mathematics instruction for students with learning disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations.

/prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPED 72350 - Math for Students with Disabilities (Non-LD Specialization)

Principles, methods, and specially designed mathematics instruction for students with disabilities or mild/moderate intellectual disabilities. Focus on concept development, concrete materials, procedural learning, memory strategies and compensations.

/prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

SPED 72400 - Writing for Students With Learning Disabilities, Methods 3 (KC)

In this course, teacher candidates learn methods for teaching all aspects of writing to children with learning disabilities using various research-based approaches that include: letter formation, handwriting, spelling, sentence structures, paragraph building, essay writing, and the writing process.

/prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program. This course may be repeated only once.

SPED 72450 - Writing for Students with Disabilities (for those not in LD Specialization), Methods 3

In this course, teacher candidates learn methods for teaching all aspects of writing to children with learning disabilities using various research-based approaches that include: letter formation, handwriting, spelling, sentence structures, paragraph building, essay writing, and the writing process.

/prereq: SPED 70000 or SPED 70050
Hours 2 hrs
Credits 2 cr

SPED 72500 - Student Teaching: Learning Disabilities Grades 1-6 (KC)

This student teaching seminar and supervision are intended to provide supported teaching experience through the exploration of methods for differentiation. Teacher candidates will learn how to address the needs of a diverse learning group, including but not limited to students with Learning Disabilities and English Language Learners.
prereq: SPED 70000 or SPED 70050; SPED 78200; SPED 78400
Hours 3 hrs
Credits 3 cr
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 72550 - Supervised Practicum: Learning Disabilities Grades 1-6 (KC)

This student teaching seminar and supervision are intended to provide you with supported teaching experience, to expand your practical knowledge, develop your instructional skills, increase your repertoire of specialized practices, and deepen your responsiveness to students with special learning needs. Through the exploration of methods for differentiation you will learn how to address the needs of a diverse learning group, including but not limited to Learning Disabilities and English Language Learners.

prereq: SPED 78200; SPED 78400
Hours 3 hrs
Credits 3 cr
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 75254 - Student Teaching: Behavior Disorders Grades 1-6 (Part 1) (KC)

This student teaching seminar and supervision are intended to provide supported teaching experience through the exploration of methods for differentiation. Teacher candidates will learn how to address the needs of a diverse learning group, including but not limited to students with Behavior Disorders.

prereq: 18 credits and 1 methods course
Hours 3 hrs
Credits 3 cr
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.

SPED 75255 - Supervised Practicum: Behavior Disorders Grades 1-6 (Part 1) (KC)

This student teaching seminar and supervision are intended to provide you with supported teaching experience, to expand your practical knowledge, develop your instructional skills, increase your repertoire of specialized practices, and deepen your responsiveness to students with special learning needs. Through the exploration of methods for differentiation you will learn how to address the needs of a diverse learning group, including but not limited to Behavior Disorders.

prereq: 18 credits and 1 methods course
Hours 3 hrs
Credits 3 cr
This Key Course requires a grade of B or better to pass.
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.
This course may be repeated only once.
SPED 75256 - Student Teaching: Behavior Disorders Grades 1-6 (Part 2) (KC)

This student teaching seminar and supervision is the first of two semester-long experiences intended to provide supported teaching, practical knowledge, and increased facility with specialized practices for working with students with special learning needs.

prereq: 18 credits and 1 methods course  
Hours 3 hrs  
Credits 3 cr  

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

SPED 75257 - Supervised Practicum: Behavior Disorders Grades 1-6 (Part 2) (KC)

This practicum seminar is intended to provide supported teaching experiences, practical knowledge, and increased facility with specialized practices when working with students with special learning needs.

prereq: 18 credits and 1 methods course  
Hours 3 hrs  
Credits 3 cr  

This Key Course requires a grade of B or better to pass.  
Any student who receives a grade of F or WU in this class will not be permitted to continue in the program.  
This course may be repeated only once.

SPED 77600 - Writing & Executive Function for Adolescents with Learning Disabilities

In this course students study the practice of teaching all aspects of writing to adolescents with learning disabilities by using various research-based approaches to address: handwriting, spelling, sentence structures, paragraph building, essay writing, and the writing process.

prereq: SPED 70000 or SPED 70050  
Hours 2 hrs  
Credits 2 cr

SPED 79700 - Topics in Special Education

prereq or coreq: SPED 70000  
Hours 15-45 hrs.  
Credits 1-3

SPED 70700 - Research Seminar: Issues in Early Intervention and Early Childhood Special Education

Integration of theory, research and practice as related to the field of early childhood special education. Focus is on researching and applying evidence-based practices with fidelity across individuals and environments.
Prereq or coreq: SPEDE 778.10 OR SPEDE 779.10
Hours 3 for 5 weeks
Credits 1 cr.

Programs and Courses in English

English

OVERVIEW

Students make the choice to pursue graduate study in English for a number of reasons, both professional and personal, and bring to this study a wide variety of experiences and strengths. MA programs in English at Hunter are designed with this intellectual and practical diversity in mind. Through study with the Department's research-inclined and pedagogically committed teaching faculty, our students are afforded myriad opportunities to develop and practice more sophisticated reading, writing and research skills than those required at the undergraduate level. In addition, those who enroll receive guidance in improving their own expertise as not just scholars but teachers of literature. Interested students may choose an English - MA in Literature, Language, and Theory, an MA in Adolescent English - MA / Advanced Certificate, or a Creative Writing - MFA.

Hunter's Creative Writing MFA is a highly selective program in which students work closely with distinguished writers to perfect their writing skills. The course comprises workshops, craft seminars, one-on-one supervisions with faculty, and literature classes. There are three concentrations, fiction, creative nonfiction and poetry, with 12 students in each. Each year, several students are named Hertog Fellows (fiction and nonfiction) and Friedman Scholars (poetry). These students receive a generous stipend and are paired with well-established writers, for whom they conduct research for one semester.

What can I do with my degree in English?

The MA program in Literature, Language, and Theory offers opportunities for both professional advancement and personal development. It may be taken as a terminal course of study or as preparation for doctoral work in English or other humanities fields.

Programs and Courses in English

Programs and Courses for MA and Creative Writing MFA

Adolescent English - MA / Advanced Certificate (Program for Teachers of Adolescent Education (Grades 7-12))

Note: See the School of Education section of this catalog for additional information on admission and program requirements. The School of Education also offers an Advanced Certificate in Adolescent Education for holders of an English MA.

Doctor of Philosophy

The CUNY Graduate Center offers a PhD in English.

Master's Programs

Creative Writing - MFA

Hunter's Creative Writing MFA is a highly selective program in which students work closely with distinguished writers to perfect their writing skills. The course comprises workshops, craft seminars, one-on-one supervisions with faculty, and literature classes. There are three concentrations, fiction, creative nonfiction and poetry, with 12 students in each. Each year, several students are named Hertog Fellows (fiction and nonfiction) and Friedman Scholars (poetry). These students receive a generous stipend and are paired with well-established writers, for whom they conduct research for one semester.

Departmental Requirements for Admission

Candidates must have completed a BA or equivalent at an accredited institution with no minimum GPA. In addition to the Hunter College application, the candidate must submit a creative writing manuscript (10-20 pages of poetry or 20-30 pages of fiction or creative nonfiction) and a 500-word personal statement describing the candidate's relationship to his/her creative work, literary influences, and why the MFA would be beneficial to the candidate's writing career. In addition, creative nonfiction candidates must submit a 500-word creative nonfiction proposal. The GRE is not required.

Departmental Requirements for the Degree

Each candidate must complete an approved program of study of at least 36 credits, which must include:

1) Four writing workshops in chosen genre
2) Two courses in MA literature (not including ENGL 788)

3) Four MFA craft seminars in chosen genre

4) One course in Writing in Conference

**ENGL 79800 - Writing in Conference**

Individual tutorial directed by a member of the writing faculty.

*Hours 3 hrs*  
*Credits 3 cr*  
*To be taken in sequence with ENGL 79900 (MFA Thesis).*

5) One course in MFA thesis

**ENGL 79900 - MFA Thesis**

Independent creative writing project, with regular advisory sessions with primary writing faculty adviser.

*Hours 3 hrs*  
*Credits 3 cr*  
*To be preceded in sequence by ENGL 79800 (Writing in Conference).*

**English - MA**

The MA program in Literature, Language, and Theory offers opportunities for both professional advancement and personal development. It may be taken as a terminal course of study or as preparation for doctoral work in English or other humanities fields. In addition to the usual lecture, discussion, and seminar classes, the program offers reading tutorials and the opportunity for writing a research essay under the guidance of a senior faculty member.

**Admission Requirements**

In addition to the general requirements for admission, the following departmental requirements must be met: 18 credits of advanced undergraduate courses in British and American literature (exclusive of courses in journalism and writing), a writing sample of about 10 pages (preferably an undergraduate research paper) and the GRE General Test. Students who have done their major work in English in non-English-speaking countries are usually not eligible for admission to graduate courses in English without additional undergraduate preparation in an American college or university.

**Degree Requirements**

Each candidate must complete an approved program of study of at least 30 credits, which must include one course in British literature before 1800, ENGL 77900 Thesis Research and Writing Methods, and ENGL 78900 Master's Thesis.
We strongly recommend that students take ENGL 78700 Studies in Literary Theory and Criticism in their first or second semester. Courses other than those offered in the Department of English may be credited toward the 30 credits with the approval of the graduate adviser but they may in no case exceed 6 credits. Six credits of relevant graduate work done at another institution may be credited when approved by the graduate adviser.

Courses

**ENGL 78700 - Studies in Literary Theory and Criticism**

An in-depth investigation of foundational and current trends in literary theory.

**ENGL 77900 - Thesis Research and Writing Methods**

Thesis Research in Literature, Language, and Theory introduces students to the scholarly thesis as a form and develops students' research writing skills, culminating in a formal thesis proposal. The course also addresses pragmatic elements of thesis composition including presenting different strategies for time management and introducing students to the administrative processes related to thesis writing and approval within the Department. Several models of successful thesis proposals and theses will be presented for discussion and analysis.

*prereq: Students must have taken at least 15 English credits at the graduate level to enroll.*

*Hours 3 hrs  
Credits 3 cr.*

**ENGL 78900 - Master's Thesis**

Individual research and final thesis writing under faculty supervision. Required of all candidates for MA degree in British and American literature.

Foreign Language

The candidate must demonstrate a reading knowledge of French, German, Latin or Spanish. Another language may be substituted with the approval of the graduate adviser.

Comprehensive Examination

The candidate must pass a written take-home examination/paper in literature, language, and theory.

Master of Arts Thesis

The candidate must submit a satisfactory master of arts thesis, incorporating original work and research, which will be approved by two appropriate members of the faculty and the graduate adviser.

Nonmatriculants

After applicants have been accepted by Hunter College as nonmatriculant students, their records must be evaluated prior to registration by the graduate adviser before they can be admitted to English Department courses. Acceptance by Hunter College does not guarantee acceptance by the Department of English. Not more than 9 credits may be transferred from nonmatriculated to matriculated status.
**English - Introductory Courses**

**ENGL 70100 - Introduction to Literary Studies**

Introduction to methods of literary criticism, textual scholarship, and major critical approaches of the last eighty years.

**ENGL 70200 - Introduction to Literary Theory and Criticism**

Foundation course on the history of literary interpretation and contemporary approaches to texts.

*Hours 3 hrs
Credits 3 cr.*

**English - Creative Writing**

**ENGL 79000 - Topics in Fiction Writing: Workshop**

Studio-style workshop of students' fiction, with weekly submissions and critique.

*Hours 3 hrs
Credits 3 cr.*

**ENGL 79100 - Topics in Poetry Writing: Workshop**

Studio-style workshop of students' poetry, with weekly submissions and critique.

*Hours 3 hrs
Credits 3 cr.*

**ENGL 79200 - Topics in the Craft of Fiction**

Seminar in craft of fiction; topics and readings will vary by semester.

*Hours 3 hrs
Credits 3 cr.*

**ENGL 79400 - Topics in the Craft of Poetry**

Seminar in craft of poetry; topics and readings will vary by semester.

*Hours 3 hrs
Credits 3 cr.*

**ENGL 79500 - Topics in Creative Nonfiction Writing: Workshop**

Graduate writing workshop in creative nonfiction. Students will present creative nonfiction writings to be critiqued by members of the workshop and the instructor.
ENGL 79600 - Topics in the Craft of Creative Nonfiction

Participants will study the writer's craft in creative nonfiction. Particular attention will be paid to strategies such as historical summary, clear concise presentation of facts, appropriate use of dialogue, as well as the employment of narrative techniques -- narration, description, dialogue, characterization, and use of time, through both set examples and writing exercises suggested by the works read.

ENGL 79701 - Poetry Thesis One

This course gives students the conceptual framework to organize a manuscript and to understand the ways in which representative volumes of poems make definitive statements and alter the poetic discourse of their time.

prereq: ENGL 79101 and ENGL 79403

ENGL 79702 - Poetry Thesis Two

This course is a continuation of Thesis One and gives students the conceptual framework with which to organize a manuscript and to understand the ways in which representative volumes of poems make definitive statements and alter the poetic discourse of their time. To this end, this course begins with an exploration of the history of the Modern Poetic Sequence and the Long Poem.

prereq: Workshop 79101 and Craft 79403 , Thesis One 79701

ENGL 79800 - Writing in Conference

Individual tutorial directed by a member of the writing faculty.

ENGL 79900 - MFA Thesis

Independent creative writing project, with regular advisory sessions with primary writing faculty adviser.
English - Medieval and Early Modern Literature

ENGL 70400 - Beowulf and Other Early Texts
Detailed study of Beowulf and other selected texts written in Britain in the early Middle Ages, in their cultural, political and historical contexts.

ENGL 70500 - Chaucer's Early Works
A study of Chaucer's earlier works (exclusive of The Canterbury Tales) in their cultural, political and historical contexts.

Hours 3
Credits 3

ENGL 70600 - Chaucer: Canterbury Tales and Later Works
Detailed study of The Canterbury Tales and later works in their cultural, political and historical contexts.

Hours 3 hrs
Credits 3 cr

ENGL 70700 - Studies in Medieval Literature
Selected Medieval texts in poetry and prose, both British and continental European, in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

ENGL 71200 - 16th-century Poetry and Prose
Reading and analysis of texts of the sixteenth century in their cultural, political and historical contexts.

Hours 3
Credits 3

ENGL 71300 - Shakespeare's Early Works
Study of selected texts, with emphasis on works written before 1600, in their cultural, political and historical contexts.

Hours 3 hrs
Credits 3 cr

ENGL 71400 - Shakespeare's Late Works
Study of selected texts, with emphasis on works written after 1600, in their cultural, political and historical contexts.

Hours 45 hrs,
Credits 3 cr

ENGL 71500 - Studies in Shakespeare
Selected works by Shakespeare in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

*Hours 3*  
*Credits 3*

**ENGL 71600 - 16th- and 17th-century Drama excluding Shakespeare**

Exploration of British dramatic texts of the Early Modern period, in their cultural, political and historical contexts.

*Hours 3 hrs*  
*Credits 3 cr*

**ENGL 71700 - 16th- and Early 17th-Century Poetry and Prose**

Study of major forms of Early Modern poetry and prose, in their cultural, political and historical contexts.

**ENGL 71800 - Studies in Early Modern Literature**

Selected studies in the literature of the sixteenth through early eighteenth centuries, in its cultural, political and historical contexts.

**ENGL 72200 - Milton: Early Works and Paradise Lost**

A critical study of Milton's early works and his major epic Paradise Lost, in their cultural, political and historical contexts.

*Hours 3*  
*Credits 3*

**ENGL 72300 - Studies in Milton**

Selected works by Milton in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

*Hours 3*  
*Credits 3*

**ENGL 72500 - Studies in Restoration and 18th-century Literature**

Literary works of the Restoration and eighteenth century in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

**English - Eighteenth and Nineteenth Century Literature**

**ENGL 73000 - 18th-century Poetry**

Reading and analysis of eighteenth-century poems in their cultural, political and historical contexts.

**ENGL 73100 - 18th-century Prose**
An analysis of the rise of the British novel in the eighteenth century, and a consideration of other forms of prose in the period in their cultural, political and historical contexts.

*Hours 3  
Credits 3*

**ENGL 73300 - Studies in 18th-century Literature**

Selected study of eighteenth-century British and/or transatlantic poetry and prose in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

*Hours 3  
Credits 3*

**ENGL 73400 - Early American Literature**

A study of literature in the Americas from the sixteenth through eighteenth centuries in its cultural, political and historical contexts.

*Hours 3  
Credits 3*

**ENGL 74000 - Romantic Poetry**

Selected British and Continental poetry from the Romantic period, the late-eighteenth and early-nineteenth centuries, in its cultural, political and historical context.

*Hours 3  
Credits 3*

**ENGL 74100 - Studies in Romanticism**

Selected study of British, Continental European, or transatlantic Romanticism in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

*Hours 3  
Credits 3*

**ENGL 74300 - Victorian Literature**

Study of nineteenth century British poetry and prose works in their cultural, political and historical contexts.

*Hours 3  
Credits 3*

**ENGL 74900 - 19th-century Prose of the United States**

A study of selected nineteenth century prose works of the United States, both fiction and nonfiction, in their cultural, political and historical contexts.

*Hours 3  
Credits 3*
ENGL 75000 - 19th-century Poetry of the United States

A study of selected nineteenth century poetic works of the United States, in their cultural, political and historical contexts.

Hours 45
Credits 3

ENGL 75100 - 19th-century African American Literature

An examination of poetry and/or prose, written by African Americans during the nineteenth century, in their cultural, political and historical contexts.

Hours 3
Credits 3

ENGL 75200 - Studies in 19th-century Literature

Selected study of British, American and/or other Anglophone nineteenth century literature in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

Hours 3
Credits 3

ENGL 75300 - Studies in Late Victorian and Early Modernist Literature

A study of literature of the fin-de-siècle in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

Hours 3
Credits 3

English - Twentieth and Twenty-First Century Literature

ENGL 75400 - 20th-century British and Irish Prose

A study of prose works of the twentieth century, written in Britain or Ireland, or by British or Irish writers, in their cultural, political and historical contexts.

Hours 3
Credits 3

ENGL 75500 - 20th-century British and Irish Poetry

A study of poetic works of the twentieth century, written in Britain or Ireland, or by British or Irish writers, in their cultural, political and historical contexts.

Hours 3
Credits 3
ENGL 75600 - 20th-century Prose of the United States

Fiction and nonfiction prose in twentieth century U.S. literature, in its cultural, political and historical context.

Hours 3
Credits 3

ENGL 75700 - 20th-century Poetry of the United States

Study of poetry written in the U.S. and the various poetic movements of the century, in their cultural, political and historical contexts.

Hours 3
Credits 3

ENGL 75800 - 20th-century African American Literature

An examination of poetry and/or prose, written by African Americans during the twentieth century, in their cultural, political and historical contexts.

Hours 3
Credits 3

ENGL 75900 - Studies in Modernism

Study of literary works of the modernist movement of the earlier twentieth century in U.S. and/or British literature, in their cultural, political and historical contexts.

Hours 3
Credits 3

ENGL 76000 - Later 20th-/Early 21st-century literature

Selected works in British and/or United States literature from the 1950s to the present in their cultural, political and historical contexts.

Hours 3
Credits 3

ENGL 76100 - Studies in 20th- and 21st-century literature

Study of representative literary works from the later 20th and early 21st centuries in their cultural, political and historical contexts.

Hours 3
Credits 3

English - Topics In Literature, Language, Culture and Theory

ENGL 76500 - Studies in British and American Literature
Study of a topic, figure, critical issue or period in either British or American literature in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

**ENGL 76600 - Studies in Ethnicity and Race in Literature**

Exploration of a specific topic pertaining to ethnicity and racial formation as it relates to the study of literature.

**ENGL 76700 - Studies in Postcolonial/Transnational Literature and Theory**

Study of postcolonial and/or transnational literatures in their cultural, political and historical contexts.

**ENGL 76800 - Studies in South Asian and Indian Diasporic Literature**

Study of South Asian literatures from colonial and postcolonial eras, in their cultural, political and historical contexts.

**ENGL 76900 - Studies in African and African Diasporic Literature Outside the U.S.**

Study of African literatures from colonial and postcolonial eras, in their cultural, political and historical contexts.

**ENGL 77000 - Studies in Caribbean Literature**

Study of Caribbean literatures from colonial and postcolonial eras, in their cultural, political and historical contexts.

**ENGL 77100 - Studies in African American Literature**

Selected African American poetry and prose, in relation to a theme, technique, genre, theoretical issue, or cultural consideration.

**ENGL 77200 - Studies in Asian American and Asian Diasporic Literature**

Study of Asian American literatures in their cultural, political and historical contexts.

**ENGL 77300 - Studies in U.S. Latina/o Literature**

Study of U.S. Latina/o literatures in their cultural, political and historical contexts

**ENGL 77400 - Studies in Native American Literature**

Study of Native American literatures in English in their cultural, political and historical contexts.

**ENGL 77500 - Studies in Irish Literature**

Study of Irish literatures from precolonial, colonial and postcolonial eras, in their cultural, political and historical contexts.

**ENGL 77600 - Studies in Digital Media**
Study of British and American literary texts in relation to the digital arts, and exploration of theories of digital literary production.

**ENGL 77800 - Studies in Comparative Literature**

A study of two or more literary figures, genres, national or scholarly periods, or theoretical approaches, across or within national languages.

**ENGL 78000 - Studies in Drama, Theatre and Performance**

A literary studies approach to drama, theatre and performance.

**ENGL 78100 - Studies in Gender and Sexuality in Literature and Theory**

Exploration of the role of gender and sexuality in literature and literary theory.

**ENGL 78200 - Studies in Literature by Women**

An in-depth critical analysis of literature written by women, focusing on a specific period, topic and/or set of critical questions.

**ENGL 78400 - Studies in the Work of a Single Writer**

An in-depth study of a single writer, the critical conversations surrounding that writer, and that writer's legacy in her or his genre(s).

**ENGL 78500 - Studies in Literature and Language**

Study of the ways in which literary language reflects differing social and cultural contexts; exploration of phonology, semantics, and discourse theory.

**ENGL 78600 - Studies in Rhetoric**

Exploration of rhetoric in its cultural, political and historical contexts.

**ENGL 78700 - Studies in Literary Theory and Criticism**

An in-depth investigation of foundational and current trends in literary theory.

**English - Teacher Education**

**ENGL 60700 - English Linguistics**

Structure of Modern English, with emphasis on analytical method and pedagogical implications. Survey of phonology, morphology, syntax, and dialectal variation.

*Hours 3
Credits 3*
ENGL 61500 - Rhetoric and Composition

Rhetorical theory; analysis of selected masterpieces of prose; practice in writing a variety of prose forms.

Hours 3
Credits 3

ENGL 68100 - Reading Credit

Course of readings designed according to student's interests and needs. Work is directed by member of department.

Hours 1-3
Credits 1-3

English - Concluding Courses

ENGL 78800 - Reading Credit

Course of readings designed according to student's interests and needs. Work is directed by a full-time faculty member of the department.

ENGL 78900 - Master's Thesis

Individual research and final thesis writing under faculty supervision. Required of all candidates for MA degree in British and American literature.

Other Courses

ENGL 77900 - Thesis Research and Writing Methods

Thesis Research in Literature, Language, and Theory introduces students to the scholarly thesis as a form and develops students' research writing skills, culminating in a formal thesis proposal. The course also addresses pragmatic elements of thesis composition including presenting different strategies for time management and introducing students to the administrative processes related to thesis writing and approval within the Department. Several models of successful thesis proposals and theses will be presented for discussion and analysis.

prereq: Students must have taken at least 15 English credits at the graduate level to enroll.
Hours 3 hrs
Credits 3 cr.

Programs and Courses in Geography and Environmental Science

Geography and Environmental Science
Overview

The Hunter College Department of Geography and Environmental Science is the largest and one of the most technologically advanced geography programs in the New York City metropolitan region. The department offers an MA in Geography, MS in GeoInformatics, and a graduate level post-baccalaureate Certificate Program in Geographic Information Science. In addition, the department contributes to three Masters level programs in conjunction with the Hunter College School of Education (helping train teachers of geography and earth science), and to the PhD Program in Earth and Environmental Sciences at the City University of New York (CUNY) Graduate School.

Our oldest graduate program, the MA in Geography, provides state-of-the-art knowledge of contemporary urbanization, the global economy and migration, global climate change and sustainability together with advanced analytical skills, including quantitative, qualitative, and geospatial research methods for addressing the vital problems humanity is facing today. Our students conduct research in many parts of the world while also focusing on New York City and the challenges to its populations, environments, and neighborhoods. In partnership with the School of Education's BA/MA program in Environmental Studies and Adolescent Education the Geography MA also fulfills the need for educated geographers and geography/earth science teachers in New York City and New York State.

The GIS Certificate Program is practically oriented to provide students with the fundamental skills and concepts in Geographic Information Science. It is anticipated that they will apply these newly acquired techniques to their domain of study. The GIS Certificate Program attracts professionals who seek expertise in geospatial analysis that will enhance their professional competence. In addition, MA students can earn Certificate in GIS concurrently.

The new MS in GeoInformatics program (MGEOi) takes a computational approach to the analysis, modeling and visualization of spatial-temporal data. It offers highly competitive advanced quantitative and technical skills in geospatial analysis, open source tools, and coding that are in high demand in both the public and private sectors. Students leave with a strong background in spatial-temporal data analytics.

In all our programs, faculty and students do research that seeks to improve the social, environmental, and economic well-being of New Yorkers. The Department of Geography takes pride in helping to advance the careers of underrepresented groups in geography and related fields.

What can I do with my degree in Geography, GeoInformatics, or GIS?

Our website features stories about our former students. In general, MA graduates often continue with their graduate work in PhD programs in geography and related fields. Most, however, become professionals whose expertise in the above areas is widely used by the governments and administrations of New York City and New York State, the US Bureau of the Census, and private industry; they also develop careers as geography/earth science teachers. GIS certificate students enhance their skillset by adding GIS expertise to their main field. Many GIS certificate students proceed to earn MA in Geography.

As of this writing Hunter's MGEOi (MS in GeoInformatics) program is one of only two in the country specializing in GeoInformatics. Our program is designed primarily as a professional degree, filling a market need in a well-paid discipline with an emphasis on technology implementation with an engineering/computer science approach rather than a purely applied use of GIS. Training includes computational aspects of spatial data science such as modeling and programming, remote sensing, visualization, databases, spatial ontologies, spatial statistics, big data, and complexity. Students will have opportunities to explore links with both Geography and Computer Science faculty at Hunter College and with employers and the tech community in the New York metropolitan area.

Centers & Facilities
Programs and Courses

- Programs and Courses in Geography and Environmental Science
- Programs Offered in the School of Education

Doctor of Philosophy

The Department of Geography participates in the PhD Program in Earth and Environmental Sciences based at the CUNY Graduate Center. Students in this program may select Hunter College as their "home" college and geography as their specialty. Since 2005 this program has a separate track in geography. For application forms and further information, write to: Executive Officer, PhD Program in Earth and Environmental Sciences, CUNY Graduate Center, 365 Fifth Avenue, New York, NY 10016 or go to

Graduate Certificate

Geographic Information Systems Certificate

The Post-Baccalaureate Certificate Program in Geographic Information Systems was established in 2001 to meet the demand for people with expertise in GIS. The GIS Certificate program is a 15-credit post-baccalaureate professional program that offers advanced training in Geographic Information Science (GIS). Students are required to take five graduate-level GIS classes including GTECH 71000 - Concepts and Theories in GeoInformatics, GTECH 73200 - Advanced GeoInformatics, and three other GTECH or related courses. Students are strongly urged to include GTECH 70900 - Introduction to Geographic Information Systems in their list of courses. Those interested in GIS development are encouraged to take two programming-oriented classes (GTECH 73100 - GeoComputation I and GTECH 73300 - GeoComputation II). Students planning a career in GIS applications are encouraged to choose from the wide range of applications courses. Students interested in remote sensing may take the sequence of GTECH 71200 - Remote Sensing of Environment through GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing courses and those interested in cartography and geovisualization may take GTECH 72100 - Introduction to Cartographic Design and Geovisualization and GTECH 72200 - Advanced Topics in GeoVisualization. Courses taken to fulfill the requirements of the GIS certificate program may also count towards fulfillment of the Geography MA degree. This happens automatically for GIS certificate students who concurrently enroll as MA students. For students who enroll in the GIS certificate program prior to enrolling in the MA program, the student must request the transfer of credits. The GIS Certificate program does not accept transfer credits to satisfy the minimum 15 credits required for the program. As the GIS certificate program is a non-degree program, GIS certificate students are considered "non-matriculated." Enrollment in the GIS certificate program does not guarantee eligibility for financial aid or for a student visa. For more information contact the United States Citizenship and Immigration Services (http://www.uscis.gov/portal/site/uscis).

Admission Requirements

For applicants who are currently matriculated and in good standing in a graduate-degree program at Hunter College, there is one requirement to be considered for admission: The student must have passed a college-level statistics course that covers hypothesis testing and simple statistical modeling techniques. All other applicants must meet the following minimum requirements in order to be considered:

1. The student must hold a bachelor's degree from a regionally accredited institution, comparable in standard and content to a bachelor's degree from Hunter College.
2. The student must demonstrate the ability to pursue graduate work successfully. In general, the minimum requirements for consideration are a B-minus average in the undergraduate record as a whole and a B average in the major.
3. The student must have taken a college-level statistics course which covers basics such as hypothesis testing and simple statistical modeling techniques.
Requirements for the Certificate

Completion of the post-baccalaureate certificate program in GIS requires a minimum of 15 credits, which include:

Required Courses (6 cr.)

**GTECH 70900 - Introduction to Geographic Information Systems**

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management. MS GeoInformatics students are recommended to take GTECH 71000 at the same time as this course.

*Hours 4*
*Credits 3*
*Material Fee: $15.00*

**GTECH 73200 - Advanced GeoInformatics**

Expansion of GTECH 70900 and GTECH 71000 concentrating on advanced concepts in GeoInformatics, including data models, algorithms, GIS analysis and scripting.

*prereq: GTECH 70900 and GTECH 71000*
*Hours 45 hrs including conference,*
*Credits 3 cr.*

*Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.*

*Material Fee: $15*

Elective Courses (9 cr.)

**GTECH 70200 - Quantitative Methods in Geography**

Application of scientific methods to geographic research, including sampling, distribution measurement, characterizing relationships, multivariate analysis, and a strong focus on computational modeling statistical relationships using either R or Python.

*prereq: Permission by instructor*
*Hours 3 hrs*
*Credits 3 cr.*

*Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.*

**GTECH 70500 - Spatial Data Analysis**
Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

prereq: one course in statistics and permission of the instructor
Hours 60 hrs including conference (2 lectures, 2 labs).
Credits 3 cr
GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 71000 - Concepts and Theories in GeoInformatics

Theoretical and conceptual foundations of GeoInformatics and Geographic Information Science. For MS GeoInformatics (MGEOi) students, GTECH 70900 is recommended to be taken at the same time as this course.

coreq: Departmental permission required
Hours 3
Credits 3
fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 71200 - Remote Sensing of Environment

Fundamental concepts of remote sensing of environment, satellite sensor systems and their applications, and basic concepts of image analysis.

prereq: GTECH 71100 or permission of the instructor
Hours 60 hours (2 lecture and 2 hour labs weekly).
Credits 3 cr
GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing

Quantitative processing of digital imagery; enhancement, information extraction, classification; algorithms, registration, rectification; and Light Detection and Ranging (LiDAR) technology and principles and applications; lab exercises.

prereq: GTECH 71200 multivariate stat, elem linear algebra
Hours 6
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the
GTECH 72100 - Introduction to Cartographic Design and Geovisualization

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

prereq: GTECH 70900
Hours 4 hrs
Credits 3 cr.
Material Fee: $15

GTECH 72200 - Advanced Topics in GeoVisualization

This course immerses students in animated and interactive maps, web mapping, and new visualization techniques.

prereq: GTECH 70900
Hours 4 hrs
Credits 3 cr.

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 73100 - GeoComputation I

A comprehensive course in programming that concentrates on object-oriented programming methods and algorithms specific to geographic and cartographic applications.

prereq: GTECH 71000 or equivalent
Hours 6
Credits 4

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 73300 - GeoComputation II

Theory and applications of GeoComputing. Models and algorithms for advanced spatial and temporal modeling are examined and programmed. Emphasis is on an object-based computational paradigm and spatial data structures.

prereq: GTECH 73100 and GTECH 73200 and permission of the graduate adviser
Hours 3
Credits 3

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative
and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 785XX - Special Topics in GIS

GIS Applications in various fields such as Social Geography, Urban Geography, and more.

prereq: GTECH 71000 or equivalent or permission of the department

Hours 3
Credits 3

Requirements for the Degree Program:

1. Five graduate-level GIS classes as listed above.
2. 6 crs. for the two required courses.
3. 9 crs. for three electives.

Minimum GPA Requirement

3.0 average or better on all core and elective courses. Additional elective courses may be added to this list or may be used as substitutes with the approval of the GIS Certificate adviser.

Application Deadline

- For fall semester: July 1 (April 1 for international students)
- For spring semester: January 1 (November 1 for international students)

Program

Master's Programs

Geography - MA

Return to Geography and Environmental Science Department

The Department of Geography and Environmental Science offers a Master of Arts in Geography with a range of courses in human geography, physical geography, regional geography, and geographic techniques and methods. There are four broad concentration areas: environmental studies, geographic information science, places and cultures, and urban geography studies. The program accommodates students with a variety of professional backgrounds, and with academic training in social sciences, computer science, environmental science / engineering as well as traditional geography. The program emphasizes geographic and social theory and analytical methodologies in human, physical, and environmental geography, as well as geographic information science. A limited number of research, teaching, and college assistantships are available. The MA degree can be completed through either a thesis or exam. Full-time students may be able to complete the MA within three semesters, but the average time for degree completion is three years. Many courses are offered in the evening to accommodate part-time and working students.
An MA in Geography from Hunter can lead to employment with local and national governments, international agencies, non-government organizations, corporations, consultants and information technology companies. The New York area is home to diverse urban communities, dynamic economies and cultures, government structures of all levels (from local to international), and corporate headquarters. Located on Manhattan's Upper East Side, Hunter College is close to these activities and is highly accessible from all parts of New York City and surrounding areas. Students who wish to continue graduate work at the PhD level will find themselves well prepared and equipped with the research and technical skills necessary for advanced research.

Admissions Requirements

Admissions procedures are as established by the Hunter College Office of Graduate Admissions. See Graduate Admissions: General. Candidates must have a BA or BS or equivalent, an undergraduate GPA of at least a B minus, with a B average in the major, and (normally) the completion of at least 18 credit hours in geography. A lack of a background in geography will not impede admission, but the student is expected to gain basic knowledge of geography prior to graduation in consultation with the student's adviser. It is recommended that students enter the program with knowledge of basic statistics. Foreign students whose first language is not English must take the Test of English as a Foreign Language. Two letters of recommendation are required.

If you have any questions about the information in this catalog, please contact the Geography MA adviser (Prof. Hongmian Gong, gong@hunter.cuny.edu).

Application Deadlines

For fall semester: April 30 (February 1 for international students) For spring semester: November 30 (September 1 for international students)

We encourage graduate application submissions by early deadlines of September 1 and February 1. This will help with allocation of scholarships and funding if these are available.

Requirements for the Degree

The Master of Arts consists of 31 or 36 graduate credits, depending on the program option chosen, selected from three types of courses: GEOG, PGEOG and GTECH. GEOG classes cover human geography, nature/society, and regional geography, while PGEOG classes cover physical geography and environmental science. GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing, and cartography. Classes vary in their structure from laboratory classes to lecture/discussions and seminars. Graduate courses outside of the GEOG, GTECH and PGEOG prefixes may be applied to the degree within the parameters listed below.

Students must complete a minimum of credits in one of the following options:

A. Thesis Option:

A minimum of 31 credits consisting of:

1. A minimum of 30 credits of course work consisting of

(exclusive of GEOG 799)

GEOG 70100, 70200, 70154 (7 cr)
GEOG 70100 - Geographic Thought and Theory

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

*Hours 45 hrs including conference,
Credits 3 cr
fall only This course may be used as part of the MA Teacher Education Program in Social Studies.*

GEOG 70154 - Geographic Research Design

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

*Hours 45 hrs including conference
Credits 3
spring only*

GEOG 70200 - Research Topics in Geography

Introduction to central research themes in geography and the current research being undertaken by department faculty.

*Hours 15 hrs including conference,
Credits 1 cr
fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.*

A minimum of 11 additional credits

A minimum of 11 additional credits selected from GEOG, GTECH and PGEOG courses numbered 70100 or higher. PGEOG 63000, PGEOG 66000, and GEOG 65000 are exclusively for MA-TEP and BA/MA-TEP students and cannot be counted toward the MA in Geography.

A maximum of 12 credits

A maximum of 12 credits selected from other than GEOG, GTECH or PGEOG courses as approved by the graduate adviser. **

2. One credit of the following leading to a thesis approved by the student’s graduate advisers

GEOG 79900 - Thesis Research in Geography
Open to students electing the thesis option only.

**prereq:** GEOG 701 and permission of the department

1-6 cr may be repeated for credit but only one credit may be applied to satisfy degree requirements. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

3. Formal approval of a study proposed for thesis research.***

5. A formal presentation of the student’s thesis research.

B. Examination Option:

A minimum of 36 credits consisting of:

1. Geography (7 cr)

**GEOG 70100 - Geographic Thought and Theory**

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

*Hours 45 hrs including conference,
Credits 3 cr
fall only This course may be used as part of the MA Teacher Education Program in Social Studies.*

**GEOG 70200 - Research Topics in Geography**

Introduction to central research themes in geography and the current research being undertaken by department faculty.

*Hours 15 hrs including conference,
Credits 1 cr
fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.*

**GEOG 70154 - Geographic Research Design**

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.
Hours 45 hrs including conference
Credits 3
spring only

A minimum of 17 additional credits

A minimum of 17 additional credits selected from GEOG, GTECH, and PGEOG courses numbered 70100 or higher. PGEOG 63000, PGEOG 66000, and GEOG 65000 are exclusively for MA-TEP and BA/MA-TEP students and cannot be counted toward the MA in Geography.

3. A maximum of 12 credits

A maximum of 12 credits selected from other than GEOG, GTECH, and PGEOG courses as approved by the graduate adviser.**

4. A passing grade on the comprehensive examination

A passing grade on the comprehensive examination conducted by the student’s graduate committee.

5. A research paper of publishable quality

A research paper of publishable quality prepared in the format of *The Professional Geographer* or its equivalent.

6. A formal presentation of the student’s research paper.

Additional Information

Students who are accepted into the program, who have already earned credits with a grade of B or higher as nonmatriculated students, may transfer only two (2) courses or eight (8) credits, whichever is greater, from nonmatriculated status to matriculated status. In exceptional situations, up to 12 credits earned as a nonmatriculated student may be transferred to matriculated status.

Although both options may prepare students for additional graduate work, the thesis option is recommended for those who might wish to pursue the PhD in geography or an allied field. The examination option is recommended for students seeking a terminal MA.

Students who are accepted into the Geography MA program and register for courses may transfer up to a maximum of 9 credits of relevant graduate coursework from regionally accredited institutions, including courses taken at Hunter College while enrolled in another degree program, whether a master’s degree was awarded or not. Transfer of credits is subject to review and approval by the Graduate Adviser. Applicants to this program should be aware that there is no promise of automatic transfer of credit on the graduate level. With the approval of the Graduate Adviser, students may include up to 9 credits of graduate-level courses taken outside the Department of Geography at Hunter College toward completion of their degree, including transferred courses and courses taken in other CUNY graduate programs. (Exception: students who have received their B.A. in Geography or Environmental Studies from Hunter College may, with the approval of the Graduate Adviser, include up to twelve credits taken outside the department.)

Language Requirement
A foreign language is not required for the MA in geography. However, students interested in regional studies or further graduate work are strongly encouraged to master a foreign language. Students emphasizing technical skills are strongly encouraged to master one or more computer programming languages.

Completion Time

The School of Arts and Sciences allows four years to complete a MA degree. A petition to the Dean is required to exceed the limit. Most full-time students are able to complete the MA requirements in 4 semesters or fewer. To accommodate all students, many courses are offered during the evening.

Assistantships

A limited number of teaching and research assistantships are available from the department. Students seeking assistantships should state so in their statement of purpose included with the application. They should also indicate what skills and qualifications they have for research or teaching assistance.

Note(s)

* Graduate students entering the program without a geography background will be required to take 6 credits in geography outside their principal area of concentration (GEOG, PGEOG or GTECH).

** Graduate students entering the program without a geography background will be limited to 6 credits taken outside the program. Students who were undergraduate majors in geography can appeal to the Graduate Committee to take more than 12 credits outside the program.

*** Students must submit to their committee the proposal for thesis research no later than the end of the semester in which they finish their 20th credit in the program.

Return to: Geography Department

Geoinformatics - MS

The MS in GeoInformatics program is an interdisciplinary degree that features courses in GeoInformatics, GIScience, and some GIS application areas. It provides an opportunity to train students in aspects of GeoInformatics not covered by our department's GIS Certificate Program. The MGEOi is a science-based MS program designed to prepare students for management- and advanced research-level employment positions.

As of this writing Hunter's program is one of only two in the country specializing in GeoInformatics. Our program is designed primarily as a professional degree, filling a market need in a well-paid discipline with an emphasis on technology implementation with an engineering/computer science approach rather than a purely applied use of GIS. Training will include computational aspects of spatial data science such as modeling and programming, remote sensing, visualization, databases, spatial ontologies, spatial statistics, big data, and complexity. Students will have opportunities to explore links with both Geography and Computer Science faculty at Hunter College and with employers and the tech community in the New York metropolitan area.

Students receiving a Master of Science in GeoInformatics must choose one of two program options: the Thesis Option or Exam Option. The Thesis Option is recommended for students who will subsequently pursue a PhD. For other students, either option is acceptable. The program curriculum and other requirements are outlined in subsequent sections.

In addition to traditional courses, students will have the opportunity to participate in an active technology and research seminar series, field trips to local private and public sector GIS groups and research sites, as well as contribute to real-
world GIS projects through internal and external mentorship programs. In particular, we are working on an internship model with Manhattan Borough President's Office of New York City.

Admission Requirements

1. GPA of at least 3.0
2. GRE exam scores
3. BA or BS degree
4. Two letters of recommendation
5. Personal statement
6. Students are required to have taken*
   ○ An introductory statistics course
   ○ Introductory computer science/programming course

Notes:

* Students will have the opportunity to challenge these requirements if they are able to prove proficiency in statistics and/or computer programming.

Foreign students whose first language is not English must also take the Test of English as a Foreign Language (TOEFL) and meet the requirements set by Hunter College. See Graduate Admissions

Progress Requirements

Students are expected to maintain a cumulative GPA of at least 3.0 in order to continue in the program.

Requirements for the Degree Program:

Choose one option

Thesis Option (35 credits)

Core Courses (20 credits required)

GTECH 70200 - Quantitative Methods in Geography

Application of scientific methods to geographic research, including sampling, distribution measurement, characterizing relationships, multivariate analysis, and a strong focus on computational modeling statistical relationships using either R or Python.

prereq: Permission by instructor

Hours 3 hrs
Credits 3 cr.

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.
GTECH 70800 - Seminar in GeoInformatics

This seminar is an introduction to the wider GeoInformatics field/industry. Students will be exposed to a number of professionals and researchers in the NYC area, and each student will be required to organize their own speaker from the community. The goals of this seminar course are twofold: to introduce students to the wider GeoInformatics community, and to promote networking and lasting interactions with local and regional GeoInformatics professionals. Students will identify, approach, and invite local and/or regional GeoInformatics professionals to give a talk in one of the weekly seminar sessions for this course. Each student will be responsible for bringing in a speaker, and at the end of the course, the student will be required to discuss the speaker's work, and the research, news, or information that the speaker presented.

Hours 1 hr.
Credits 1 cr.

GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management. MS GeoInformatics students are recommended to take GTECH 71000 at the same time as this course.

Hours 4
Credits 3
Material Fee: $15.00

GTECH 71000 - Concepts and Theories in GeoInformatics

Theoretical and conceptual foundations of GeoInformatics and Geographic Information Science. For MS GeoInformatics (MGEOi) students, GTECH 70900 is recommended to be taken at the same time as this course.

coreq: Departmental permission required
Hours 3
Credits 3

GTECH 71200 - Remote Sensing of Environment

Fundamental concepts of remote sensing of environment, satellite sensor systems and their applications, and basic concepts of image analysis.

prereq: GTECH 71100 or permission of the instructor
Hours 60 hours (2 lecture and 2 hour labs weekly).
Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $ 15
GTECH 73100 - GeoComputation I

A comprehensive course in programming that concentrates on object-oriented programming methods and algorithms specific to geographic and cartographic applications.

prereq: GTECH 71000 or equivalent
Hours 6
Credits 4

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 73200 - Advanced GeoInformatics

Expansion of GTECH 70900 and GTECH 71000 concentrating on advanced concepts in GeoInformatics, including data models, algorithms, GIS analysis and scripting.

prereq: GTECH 70900 and GTECH 71000
Hours 45 hrs including conference,
Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

Elective Courses (12 credits required)

GTECH 70500 - Spatial Data Analysis

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

prereq: one course in statistics and permission of the instructor
Hours 60 hrs including conference (2 lectures, 2 labs),
Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing

Quantitative processing of digital imagery; enhancement, information extraction, classification; algorithms, registration, rectification; and Light Detection and Ranging (LiDAR) technology and principles and applications; lab exercises.
prereq: GTECH 71200 multivariate stat, elem linear algebra
Hours 6
Credits 3
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.
Material fee: $15.00

GTECH 72100 - Introduction to Cartographic Design and Geovisualization

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

prereq: GTECH 70900
Hours 4 hrs
Credits 3 cr.
Material Fee: $15

GTECH 72200 - Advanced Topics in GeoVisualization

This course immerses students in animated and interactive maps, web mapping, and new visualization techniques.

prereq: GTECH 70900
Hours 4 hrs
Credits 3 cr.

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.
Material Fee: $15

GTECH 73300 - GeoComputation II

Theory and applications of GeoComputing. Models and algorithms for advanced spatial and temporal modeling are examined and programed. Emphasis is on an object-based computational paradigm and spatial data structures.

prereq: GTECH 73100 and GTECH 73200 and permission of the graduate adviser
Hours 3
Credits 3

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 73400 - GeoWeb Services

This course will examine the principles of GeoWeb services in a hands-on fashion. Students will learn about the different standards that are being used in the context of the GeoWeb. They will be introduced to different commercial and open source software solutions and learn how to set up, manage, and use these services. Students will explore the different technologies introduced in class in the lab assignments. Each student will present a topic to the class based on readings provided by the instructor. In the second half of the semester, each student will work on a project that involves
the setup and use of GeoWeb services. Basic programming skills in any language are a prerequisite for this course.

prereq: GTECH 73100 GeoComputation I
Hours 3 hrs.
Credits 3 cr.

GTECH 73500 - Location Based Services

This course will examine the principles of Location Based Services (LBS) in a hands-on fashion. Students will learn how to design, implement, and test an LBS application in a group project. Therefore, basic programming skills in any language are a prerequisite for this course. The course will be highly interactive in two ways: Each student will present a topic to the class based on readings provided by the instructor, and each student will participate in the group work to develop a working LBS by the end of the semester. For this purpose, mobile devices (iPhones, Android phones, Google Glass) will be provided.

prereq: One of the following:
GTECH 70500 Spatial Data Analysis
GTECH 73100 GeoComputation I
CSCI 13500 Software Design and Analysis I
Hours 3 hrs.
Credits 3 cr.

GTECH 785XX - Special Topics in GIS

GIS Applications in various fields such as Social Geography, Urban Geography, and more.

prereq: GTECH 71000 or equivalent or permission of the department
Hours 3
Credits 3

GTECH 78800 - Geoinformatics Internships

Internship with a non-CUNY institution that provides the student with real-world experience of the application of Geoinformatics. Requires an internship contract drawn up by the employer and a faculty adviser and signed by the student. May be repeated for a total of 3.0 credits.

prereq: Department Permission
Hours 1-3
Credits 1-3

Thesis Research Course (3 credits required)

GTECH 79900 - Thesis Research in Geoinformatics

Supervised development of a master's thesis in Geoinformatics.

prereq or coreq: Department Permission Required
Credits 3 cr.
may be taken twice for total of 6 credits
Internship Option (35 credits)

Core Courses (20 credits required)

GTECH 70200 - Quantitative Methods in Geography

Application of scientific methods to geographic research, including sampling, distribution measurement, characterizing relationships, multivariate analysis, and a strong focus on computational modeling statistical relationships using either R or Python.

*prereq: Permission by instructor
Hours 3 hrs
Credits 3 cr.

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 70800 - Seminar in GeoInformatics

This seminar is an introduction to the wider GeoInformatics field/industry. Students will be exposed to a number of professionals and researchers in the NYC area, and each student will be required to organize their own speaker from the community. The goals of this seminar course are twofold: to introduce students to the wider GeoInformatics community, and to promote networking and lasting interactions with local and regional GeoInformatics professionals. Students will identify, approach, and invite local and/or regional GeoInformatics professionals to give a talk in one of the weekly seminar sessions for this course. Each student will be responsible for bringing in a speaker, and at the end of the course, the student will be required to discuss the speaker's work, and the research, news, or information that the speaker presented.

Hours 1 hr.
Credits 1 cr.

GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management. MS GeoInformatics students are recommended to take GTECH 71000 at the same time as this course.

Hours 4
Credits 3
Material Fee: $15.00

GTECH 71000 - Concepts and Theories in GeoInformatics

Theoretical and conceptual foundations of GeoInformatics and Geographic Information Science. For MS GeoInformatics (MGEOi) students, GTECH 70900 is recommended to be taken at the same time as this course.

coreq: Departmental permission required
Hours 3
Credits 3
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 71200 - Remote Sensing of Environment

Fundamental concepts of remote sensing of environment, satellite sensor systems and their applications, and basic concepts of image analysis.

prereq: GTECH 71100 or permission of the instructor

Hours 60 hours (2 lecture and 2 hour labs weekly),
Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 73100 - GeoComputation I

A comprehensive course in programming that concentrates on object-oriented programming methods and algorithms specific to geographic and cartographic applications.

prereq: GTECH 71000 or equivalent

Hours 6
Credits 4

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 73200 - Advanced GeoInformatics

Expansion of GTECH 70900 and GTECH 71000 concentrating on advanced concepts in GeoInformatics, including data models, algorithms, GIS analysis and scripting.

prereq: GTECH 70900 and GTECH 71000

Hours 45 hrs including conference,
Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

Elective Courses (12 credits required)
GTECH 70500 - Spatial Data Analysis

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

prereq: one course in statistics and permission of the instructor

Hours 60 hrs including conference (2 lectures, 2 labs),
Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing

Quantitative processing of digital imagery; enhancement, information extraction, classification; algorithms, registration, rectification; and Light Detection and Ranging (LiDAR) technology and principles and applications; lab exercises.

prereq: GTECH 71200 multivariate stat, elem linear algebra

Hours 6
Credits 3 cr

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material fee: $15.00

GTECH 72100 - Introduction to Cartographic Design and Geovisualization

This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

prereq: GTECH 70900

Hours 4 hrs
Credits 3 cr.
Material Fee: $15

GTECH 72200 - Advanced Topics in GeoVisualization

This course immerses students in animated and interactive maps, web mapping, and new visualization techniques.

prereq: GTECH 70900

GTECH 73400 - GeoWeb Services

This course will examine the principles of GeoWeb services in a hands-on fashion. Students will learn about the different standards that are being used in the context of the GeoWeb. They will be introduced to different commercial and open source software solutions and learn how to set up, manage, and use these services. Students will explore the different technologies introduced in class in the lab assignments. Each student will present a topic to the class based on readings provided by the instructor. In the second half of the semester, each student will work on a project that involves the setup and use of GeoWeb services. Basic programming skills in any language are a prerequisite for this course.

prereq: GTECH 73100 GeoComputation I
Hours 3 hrs.
Credits 3 cr.

GTECH 73500 - Location Based Services

This course will examine the principles of Location Based Services (LBS) in a hands-on fashion. Students will learn how to design, implement, and test an LBS application in a group project. Therefore, basic programming skills in any language are a prerequisite for this course. The course will be highly interactive in two ways: Each student will present a topic to the class based on readings provided by the instructor, and each student will participate in the group work to develop a working LBS by the end of the semester. For this purpose, mobile devices (iPhones, Android phones, Google Glass) will be provided.

prereq: One of the following:
GTECH 70500 Spatial Data Analysis
GTECH 73100 GeoComputation I
CSCI 13500 Software Design and Analysis I
Hours 3 hrs.
Credits 3 cr.

GTECH 785XX - Special Topics in GIS

GIS Applications in various fields such as Social Geography, Urban Geography, and more.

prereq: GTECH 71000 or equivalent or permission of the department
Hours 3
Credits 3

Internship Courses (3 credits required)
GTECH 78800 - Geoinformatics Internships

Internship with a non-CUNY institution that provides the student with real-world experience of the application of Geoinformatics. Requires an internship contract drawn up by the employer and a faculty adviser and signed by the student. May be repeated for a total of 3.0 credits.

prereq: Department Permission
Hours 1-3
Credits 1-3

Undergraduate Major/Graduate Masters

Environmental Studies and Adolescent Education-BA/MA

The Geography Department together with the School of Education also offers a 5-year combined BA/MA Program in Environmental Studies and Adolescent Education. This program is designed for highly qualified Environmental Studies majors who, during the course of their sophomore year, decide to pursue a career in secondary school teaching. For more information please contact the Department of Geography.

Human Geography, Nature/Society and Regional Geography

GEOG 70100 - Geographic Thought and Theory

Principal people and themes in American geography and its historical antecedents. Emphasis on change in geographical technology, philosophy, methods, and the nature of the discipline to the present day.

Hours 45 hrs including conference,
Credits 3 cr
fall only This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70154 - Geographic Research Design

Topics include conceptualization and operationalization of a research design with specific focus on data specification and data gathering techniques. Quantitative and qualitative methods are reviewed. A key product is the development of a detailed research proposal.

Hours 45 hrs including conference
Credits 3
spring only

GEOG 70200 - Research Topics in Geography

Introduction to central research themes in geography and the current research being undertaken by department faculty.

Hours 15 hrs including conference,
Credits 1 cr
fall only GEOG classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70500 - Cultural and Social Geography

Review of recent work in cultural and social geography; emphasis on literature, critiques.

prereq: GEOG 34700 and 34100 or permission of instructor
Hours 45 hrs including conference,
Credits 3 cr
Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course may be used as part of the MA Teacher Education Program in Social Studies.

GEOG 70528 - Introduction to Environmental Ethics

Do animals have rights? Do ecosystems have interests? Are humans separate from the environment? How have the answers to these questions been shaped by scientific understanding and religious belief? How should they be? The development of environmental philosophies and ethics, and how they have interacted with controversial environmental issues, will be explored. Reading assignments include canonical and contemporary philosophers as well as environmentalists. In addition to theory, we will discuss the applications of these ideas in local to global environmental problems. The course will focus on ethical philosophies from the western world, but non-western philosophies might also be discussed.

prereq: none
Hours 45 hrs including conference,
Credits 3 cr
Course pending Senate approval. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70562 - Post-Socialist Geographies

For graduate students in geography, anthropology, economics, sociology, environmental psychology and other related fields. This course examines major political, economic, and social theories that aim to explain the current transformations in post-socialist countries. The neo-liberal theories and policies of transition to capitalism and their consequences are critically examined. The devastating effects of capitalism uncontrolled by democratic governments and labor are discussed.

prereq: GEOG278 or permission of the instructor
Hours 45 hrs including conference,
Credits 3 cr
Course pending Senate approval. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.
GEOG 70800 - The Geographies of Urban Space

Critical geographic perspectives on urban development and internal urban space. Latest literature in urban political economy, feminist, and post-structuralist geography with a focus on class, gender and ethnicity in urban space.

prereq: graduate standing and GEOG70100 or GEOG 74300 or equivalent or permission of the instructor

Hours 45 hrs including conference,
Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 70957 - Geography of The New York Metropolitan Area

An historical and contemporary geography of the New York Metropolitan area structured around New York State Social Studies Core Curriculum and National Geography Standards. The course will address the relationship between the physical and social geographies of the five boroughs and the surrounding areas of the Hudson and Long Island; the impacts of significant historical and political events on the region's social and economic geography; and the impacts of changing transportation modes in the evolution of the region. Fieldwork is an integral part of this course. However, alternative field assignments are available for students who have accessibility challenges documented with the Office of Accessibility.

Hours 45 hrs,
Credits 3 cr

GEOG 71000 - Economic Geography

Interactions between people and the natural environment on economic, political and cultural endeavors. Formation of labor markets and their segmentation by class, gender, and ethnicity/race. Change in production systems and economic globalization. Interconnections between economic systems across local, regional, national, and international scales.

Hours 45 hrs including conference,
Credits 3 cr

Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 71156 - Coastal Zone Management

The increasing pressure on the coast is demonstrated with competing demand that leads to conflicts with respect to the carrying capacity of our most precious resource area. The course addresses critical issues related to environmental constraints, the carrying capacity of coastal areas and the need for coastal zone management.

Hours 45 hrs including conference,
Credits 3 cr

Course pending Senate approval. Classes cover human geography, nature/society, and regional geography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GEOG 71200 - Geography of Sustainable Development in Developing Countries

Analysis of factors that influence sustainable development, e.g., available resources, environment, population, food production, water supply in developing countries.
GEOG 71300 - Rural Water Supply in Developing Regions

Quality, problems, management, and sustainability of rural water supply and sanitation in developing countries.

GEOG 71500 - International Pollution Issues

Global environmental hazards are covered. Issues ranging from intergovernmental efforts to document pollution, to the policy needed to curtail pollution of the future will be addressed. A focus will be on transboundary air and water pollution.

GEOG 74100 - Population Geography

Theoretical and empirical analyses of spatial distribution of population. Particular emphasis is on processes and impacts of migration, residential mobility, and immigration.

GEOG 74300 - Urban Geographic Theory

Spatial analysis of contemporary and theoretical issues concerning the economic growth, transportation, land use, social segregation, and urban governance in metropolitan areas.

GEOG 79100 - Independent Research in Geography
Intensive individual research in geography under supervision of a member of the graduate faculty.

**GEOG 79200 - Independent Research in Geography**

Intensive individual research in geography under supervision of a member of the graduate faculty.

**GEOG 79300 - Independent Research in Geography**

Intensive individual research in geography under supervision of a member of the graduate faculty.

**GEOG 79900 - Thesis Research in Geography**

Open to students electing the thesis option only.

**Geographic Methods and Techniques**

**GEOG 72100 - Transportation Geography**

**GTECH 785XX - Special Topics in GIS**

GIS Applications in various fields such as Social Geography, Urban Geography, and more.
GTECH 70200 - Quantitative Methods in Geography

Application of scientific methods to geographic research, including sampling, distribution measurement, characterizing relationships, multivariate analysis, and a strong focus on computational modeling statistical relationships using either R or Python.

prereq: Permission by instructor
Hours 3 hrs
Credits 3 cr.

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

GTECH 70500 - Spatial Data Analysis

Methods for analyzing environmental and social spatial data sets. Topics include point pattern analysis, spatial clustering methods, spatial autocorrelation, and kriging.

prereq: one course in statistics and permission of the instructor
Hours 60 hrs including conference (2 lectures, 2 labs),
Credits 3 cr

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 70800 - Seminar in Geoinformatics

This seminar is an introduction to the wider Geoinformatics field/industry. Students will be exposed to a number of professionals and researchers in the NYC area, and each student will be required to organize their own speaker from the community. The goals of this seminar course are twofold: to introduce students to the wider Geoinformatics community, and to promote networking and lasting interactions with local and regional Geoinformatics professionals. Students will identify, approach, and invite local and/or regional Geoinformatics professionals to give a talk in one of the weekly seminar sessions for this course. Each student will be responsible for bringing in a speaker, and at the end of the course, the student will be required to discuss the speaker's work, and the research, news, or information that the speaker presented.

Hours 1 hr.
Credits 1 cr.

GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management. MS Geoinformatics students are recommended to take GTECH 71000 at the same time as this course.

Hours 4
Credits 3
Material Fee: $15.00
GTECH 71000 - Concepts and Theories in Geoinformatics

Theoretical and conceptual foundations of Geoinformatics and Geographic Information Science. For MS Geoinformatics (MGEOI) students, GTECH 70900 is recommended to be taken at the same time as this course.

coreq: Departmental permission required  
Hours 3  
Credits 3  
Fall and spring Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 71200 - Remote Sensing of Environment

Fundamental concepts of remote sensing of environment, satellite sensor systems and their applications, and basic concepts of image analysis.

prereq: GTECH 71100 or permission of the instructor  
Hours 60 hours (2 lecture and 2 hour labs weekly)  
Credits 3 cr  
GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

GTECH 71300 - Digital Image Processing and LiDAR Remote Sensing

Quantitative processing of digital imagery; enhancement, information extraction, classification; algorithms, registration, rectification; and Light Detection and Ranging (LiDAR) technology and principles and applications; lab exercises.

prereq: GTECH 71200 multivariate stat, elem linear algebra  
Hours 6  
Credits 3 cr  
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material fee: $15.00

GTECH 72200 - Advanced Topics in GeoVisualization

This course immerses students in animated and interactive maps, web mapping, and new visualization techniques.

prereq: GTECH 70900  
Hours 4 hrs  
Credits 3 cr.

GTECH courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the
middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

**GTECH 73100 - GeoComputation I**

A comprehensive course in programming that concentrates on object-oriented programming methods and algorithms specific to geographic and cartographic applications.

*prereq: GTECH 71000 or equivalent*

*Hours 6*

*Credits 4*

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

**GTECH 73200 - Advanced GeoInformatics**

Expansion of GTECH 70900 and GTECH 71000 concentrating on advanced concepts in GeoInformatics, including data models, algorithms, GIS analysis and scripting.

*prereq: GTECH 70900 and GTECH 71000*

*Hours 45 hrs including conference,*

*Credits 3 cr*

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

Material Fee: $15

**GTECH 73300 - GeoComputation II**

Theory and applications of GeoComputing. Models and algorithms for advanced spatial and temporal modeling are examined and programmed. Emphasis is on an object-based computational paradigm and spatial data structures.

*prereq: GTECH 73100 and GTECH 73200 and permission of the graduate adviser*

*Hours 3*

*Credits 3*

Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

**GTECH 73400 - GeoWeb Services**

This course will examine the principles of GeoWeb services in a hands-on fashion. Students will learn about the different standards that are being used in the context of the GeoWeb. They will be introduced to different commercial and open source software solutions and learn how to set up, manage, and use these services. Students will explore the different technologies introduced in class in the lab assignments. Each student will present a topic to the class based on readings provided by the instructor. In the second half of the semester, each student will work on a project that involves
the setup and use of GeoWeb services. Basic programming skills in any language are a prerequisite for this course.

**prereq:** GTECH 73100 GeoComputation I  
**Hours** 3 hrs.  
**Credits** 3 cr.

**GTECH 73500 - Location Based Services**

This course will examine the principles of Location Based Services (LBS) in a hands-on fashion. Students will learn how to design, implement, and test an LBS application in a group project. Therefore, basic programming skills in any language are a prerequisite for this course. The course will be highly interactive in two ways: Each student will present a topic to the class based on readings provided by the instructor, and each student will participate in the group work to develop a working LBS by the end of the semester. For this purpose, mobile devices (iPhones, Android phones, Google Glass) will be provided.

**prereq:** One of the following:

GTECH 70500 Spatial Data Analysis  
GTECH 73100 GeoComputation I  
CSCI 13500 Software Design and Analysis I  
**Hours** 3 hrs.  
**Credits** 3 cr.

**GTECH 75100 - Field Techniques in Geography**

Observation and analysis of the physical geography, biogeography and geomorphology of selected areas. Field geographic techniques such as data collection and recording, ground-truthing of remotely sensed images, and the use of maps, compasses and GPS to navigate. Additional fee for transportation, room and food allowance required.

**prereq:** GTECH 71000 or equivalent, any two additional GEOG, GEOL, PGEOG or GTECH courses, and permission of the instructor  
**Hours** 45 hrs including conference,  
**Credits** 3 cr  
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

**GTECH 78501 - Urban Applications of GIS**

Discussion of data, methodology, and examples of using GIS to solve urban problems in economic, social, planning, and political settings. Students are expected to conduct small research projects addressing real world issues.

**prereq:** GTECH 70900  
**Hours** 45 hrs including conference,  
**Credits** 3 cr  
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

**GTECH 78502 - GIS Applications in Social Geography**
Data representation and analysis of socio-spatial processes and environmental problems. The course is oriented to problem solving and independent data analysis. Students will fulfill an independent GIS project from data collection and database design to analysis and interpretation of results.

**prereq:** GTECH 70900  
**Hours:** 45 hrs including conference,  
**Credits:** 3 cr  
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

**Material Fee:** $15

### GTECH 78800 - GeoInformatics Internships

Internship with a non-CUNY institution that provides the student with real-world experience of the application of GeoInformatics. Requires an internship contract drawn up by the employer and a faculty adviser and signed by the student. May be repeated for a total of 3.0 credits.

**prereq:** Department Permission  
**Hours:** 1-3  
**Credits:** 1-3

### GTECH 79100 - Independent Research in Geographic Information Science

Intensive individual research in GIScience under the supervision of a member of the graduate faculty.

**prereq:** permission of the instructor or the graduate adviser  
**Credits:** 1  
A maximum of 6 credits in GTECH 79100, 79200 and 79300 maybe taken with permission of the graduate adviser.

### GTECH 79200 - Independent Research in Geographic Information Science

Intensive individual research in GIScience under the supervision of a member of the graduate faculty. May be repeated for a maximum of 6 credits with permission of the graduate adviser.

**prereq:** permission of the instructor or the graduate adviser  
**Credits:** 2  
A maximum of 6 credits in GTECH 79100, 79200 and 79300 maybe taken with permission of the graduate adviser.

### GTECH 79300 - Independent Research in Geographic Information Science

Intensive individual research in GIScience under the supervision of a member of the graduate faculty.

**prereq:** permission of the instructor or the graduate adviser
Credits 3
A maximum of 6 credits in GTECH 79100, 79200 and 79300 may be taken with permission of the graduate adviser.

GTECH 79900 - Thesis Research in GeoInformatics

Supervised development of a master's thesis in GeoInformatics.

prereq or coreq: Department Permission Required
Credits 3 cr.
may be taken twice for total of 6 credits

Physical Geography

GEOG 65000 - World Geography for Educators

Overview of physical, cultural, and historical geographies of the world's major regions. Content linked to NYS Global History and Geography scope and sequence.

Hours 3 hrs
Credits 3 cr.
Open only to MA TEP students

PGEOG 63000 - Science and Society

A study of the interactions between technological and societal changes, with an emphasis on eliciting within the classroom productive oral and written critiques and debates concerning potentially controversial technological change. Focusing on present-day issues, students will learn various models for analyzing the impact scientific change has on society and how social change directs science.

Hours 45 hrs including conference,
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 66000 - Challenging Concepts in Earth Science: Using Research to Identify Common Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in the earth sciences. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the culminating project for the science portion of the MA-TEP degree.

Hours 45 hrs, including conferences,
Credits 3 cr
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.
PGEOG 70152 - Hydrology

Provides students an understanding of the hydrologic cycle - the most fundamental principle of hydrology and emphasizes an understanding of the complete hydrological cycle processes at global, regional and watershed scales.

prereq: PGEOG 130 or permission from the instructor
Hours 45 hrs including conference,
Credits 3 cr
Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70160 - Biogeography

This course provides an understanding of the geographic distribution and temporal variability of species, communities, and other organizing units over the face of the Earth and the biotic and abiotic factors and processes underlying these patterns and dynamics.

prereq: PGEOG 13000 or GEOG 10100 or BIO 10000/10200 or permission from the instructor
Hours 45 hrs including conference,
Credits 3 cr
Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70179 - Geology of NYC and Vicinity

Focus on the complexity of the geology of the New York Metro area and its vicinity. Using urban public transportation, walking, and hiking, students will directly observe natural exposures of the large variety of rock outcroppings in the area. Course consists of lectures, laboratory exercise, and geologic field trips. Recommended for students in the Teachers of Earth Science (7-12) MA program.

prereq: GEOL 10100 or an equivalent course in introductory geology
Hours 45 hrs including conference,
Credits 3 cr
Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70180 - Geology of New York State

Links fundamental knowledge about the earth materials and earth processes to the complex geology of New York State. Covers the latest information about the geologic ages of rock formations in New York State, plate tectonics, bedrock geology, including metamorphic, igneous, and sedimentary rocks, fossils, and ancient environments. The course consists of lecture, laboratory exercises, and field trips to the Catskill Mountains, Hudson Highlands, the Manhattan Prong, and Montauk Point. Recommended for students enrolled in the Teachers of Earth Science (7-12) MA program. There will be an additional charge for transportation.

prereq: GEOL 10100 or an equivalent course in introductory geology.
Hours 45 hrs including conference,
Credits 3 cr
Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic
information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

PGEOG 70300 - Coastal Dynamics

Quantitative focus on the dynamic processes affecting the coast and the resulting varied geomorphology. In particular, this course will focus on waves, beaches, barrier island evolution, storm systems and coastal erosion, using the Atlantic coast of New York as a case study. Research and field work expected.

Hours 45 hrs including conference,
Credits 3 cr

PGEOG 70400 - Urban and Metropolitan Coasts

Physical and quantitative rationale for planning coastal constructions with emphasis on urban coasts. Lectures will focus on natural and anthropogenic influences on coastal environments, and problems facing seaside communities.

Hours 45 hrs including conference,
Credits 3 cr
Spring only

PGEOG 70563 - Earth Science Today

A survey of the primary topics included in an earth science curriculum (grades 7-12). Laboratory methodology and demonstration techniques used to convey information about the earth's lithosphere, hydrosphere and atmosphere, as well as its place in the solar system, will be introduced.

Hours 45 hrs including conference,
Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics. This course is part of the MA Teacher Education Program in Earth Sciences.

PGEOG 70567 - Science of Rocks – Petrology

Composition, distribution, and origin of rocks, their scientific description and systematic classification with the focus on the rocks of the New York Metro area. Topics include rock microscopy; field observations of rocks and the relation to the principles of geology; interpretation of geologic maps; lithospheric rock cycle in the context of plate tectonics and earth evolution; and the geology of New York City and its relationship to urban issues. Recommended for earth science students and others interested in the study and uses of rock. There will be an additional charge for local transportation.

prereq: GEOL 10100 or an equivalent course in introductory geology.
Hours 45 hrs including conference,
Credits 3 cr

Course pending Senate approval. Courses cover geographic methods and techniques, and are divided into geographic
Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

**PGEOG 73200 - Global Climatic Change**

Examination of the pre-Quaternary, Quaternary, post-glacial, historical and instrumentally recorded climates; greenhouse gases; aerosols; radiative forcing; processes and modeling; feedbacks; observed changes; detecting the greenhouse effect; sea level rise; effects on ecosystems.

**prereq:** a course in atmospheric, geological or environmental science.

**Hours** 45 hrs including conference,

**Credits** 3 cr

spring only Courses cover geographic methods and techniques, and are divided into geographic information science, quantitative and qualitative research methods, remote sensing and cartography. Check with the department during the middle of the prior term for tentative course schedule including list of special topics.

**PGEOG 79100 - Independent Research in Physical Geography**

Intensive, individual research in physical geography under the supervision of a member of the graduate faculty.

**prereq or coreq:** GEOG 70100 and 70200, and permission of the instructor or the graduate adviser

**Credits** 1, 2 or 3

May be repeated for a maximum of 6 credits with the permission of the graduate adviser

**PGEOG 79200 - Independent Research in Physical Geography**

Intensive, individual research in physical geography under the supervision of a member of the graduate faculty.

**prereq or coreq:** GEOG 70100 and 70200 and permission of the instructor or graduate adviser

**Credits** 1, 2 or 3

May be repeated for a maximum of 6 credits with the permission of the graduate adviser

**PGEOG 79300 - Independent Research in Physical Geography**

Intensive, individual research in physical geography under the supervision of a member of the graduate faculty.

**prereq or coreq:** GEOG 70100 and 70200 and permission of the instructor or the graduate adviser

**Credits** 1, 2 or 3

May be repeated for a maximum of 6 credits with permission of the graduate adviser.

**Geography: Courses offered if demand is sufficient**

**GEOG 70400 - Topics in Human Geography**

This course may be used as part of the MA Teacher Education Program in Social Studies.

**GTECH 72100 - Introduction to Cartographic Design and Geovisualization**
This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

**prereq:** GTECH 70900  
**Hours** 4 hrs  
**Credits** 3 cr.  
**Material Fee:** $15

**PGEOG 705XX - Topics in Earth Science**

Various special topics courses in physical geography.

**PGEOG 70200 - Seminar in Physical Geography**

**Programs and Courses in History**

**History**

**About the Department**

The department offers two graduate level programs in history. The first is a master's degree through a joint program with the School of Education. This degree prepares students for New York State certification, which will enable them to teach social studies at the adolescent level (grades 7 – 12). The second leads to an MA in History with a concentration selected by the student in consultation with the faculty. This degree serves as either a terminal degree or as preparation for historical study on the doctoral level, which students can undertake at other institutions.

**Programs and Courses**

Programs and Courses in History

**Program for Teachers of Adolescent Education (Grades 7-12) — Social Studies Master of Arts**

See the School of Education section of this catalog for additional information on admission and program requirements.

- Adolescent Social Studies - MA / Advanced Certificate

**Administration and Faculty**

Department Office:

1512 West Building  
(212) 772-5480
Master's Programs

History - MA

The MA is offered either as a terminal degree or as the first year (30 credits) of work toward fulfilling the requirements of the PhD within the City University. The university’s doctoral program in history is described in the Bulletin of the Graduate Center. http://web.gc.cuny.edu/History/

Advanced doctoral seminars and university colloquia are offered at the CUNY Graduate Center, 365 Fifth Avenue, New York, NY 10016.

Requirements for Admission

General Admission requirements to the graduate programs in the arts and sciences are observed. Eighteen undergraduate credits in History, a 3.0 average, and satisfactory GRE scores are required, as well as two letters of recommendation.

Requirements for the Degree
Each candidate must complete an approved program of study of at least 30 credits, including the thesis seminar, with a B average. Courses other than those in the Department of History at Hunter College may be credited toward the 30 credits with the approval of the graduate adviser, but they may in no case exceed 9 credits.

A reading knowledge of one foreign language is required, to be determined by a written examination offered twice per year. The choice of language must have the approval of the graduate adviser.

After completion of all other requirements, the candidate for the degree must present a satisfactory master's thesis prepared in conjunction with the thesis seminar (HIST 77900), approved by two faculty scholars in the appropriate field of history and the graduate adviser. Guidelines for the writing of the master's thesis are available from the graduate adviser online and in the History Department office.

**American History**

**HIST 74151 - Era of American Revolution**

The development of the English-American colonies from early settlement through 1763.

*Hours 3 including conference,*
*Credits 3*

**HIST 74250 - Nineteenth-century United States: Early Republic**

Economic, social, and political aspects of American history from 1789 to 1828.

*Hours 3 hrs including conference,*
*Credits 3*

**HIST 74400 - Twentieth-century United States**

*Hours 3 including conference,*
*Credits 3*

**HIST 74500 - Twentieth-century United States: United States as a World Power**

This course considers America's impact on the world in the twentieth-century and, at the same time looks at the way the world influenced life in twentieth-century America.

*Hours 3 including conference,*
*Credits 3*

**HIST 75000 - History of the American Labor Movement**

The history of the American labor movement from the late-nineteenth through the late-twentieth centuries, with a focus on the various ways American laborers organized themselves and struggled for control over their work and their daily lives.
HIST 75500 - Growth of the American City

Development of the city as physical environment, social experience, political entity, and cultural symbol from the colonial era to the present.

Hours 3 including conference
Credits 3

HIST 75650 - U.S. Constitutional History

The development of American constitutionalism from its English origins to the implementation of the U.S. Constitution

Hours 3
Credits 3

HIST 77207 - Race and Racism in U.S. History

Examines the centrality, racial politics and racism in U.S. history. Considers the social experiences produced by racialization and various political movements for racial equality.

Hours 3 including conference
Credits 3

HIST 77409 - Gender and Sexuality in the U.S.

Examines recent work in the twentieth-century history of gender and sexuality in the United States.

Hours 3
Credits 3

HIST 77427 - United States Since 1865

Considers the history of the U.S. from 1865 to the Vietnam war. Focuses on political, social and international developments.

Hours 3 including conference
Credits 3

Asian History

HIST 76802 - East Asia: 1600 - Present

Coming of West to Asia and resulting processes of revolution and modernization after 1600 AD.
HIST 76804 - East Asia: Ancient Times to 1600
Survey of traditional cultures and sociopolitical structures of China, Japan, Korea and Vietnam to about 1600

HIST 76805 - China Since 1800
Internal and external challenges to China's traditional order; the collapse of the imperial system and the establishment of a republic; the warlord period; the war against Japan; the civil war between Communist and Nationalist forces; China since the rise of the Communist Party to state power in 1949.

HIST 77461 - Rise and Fall of Chinese Communism
Examines the intellectual, political and international context of the origin of the Chinese Communist Party, explores debates and factional struggles between party leaders and inquires into the challenges posed from without the party. Introduces contending explanations of the Communist Party's rise to state power and its shifting policies and ideological justifications since that time.

HIST 77800 - Individual Tutorial Research

HIST 77900 - Thesis Seminar: Independent Research
Required of all candidates for MA in history.

HIST 78000 - History Colloquium for First-Year MA Students
This team-taught course, which MA students will be strongly encouraged to take, is designed to help incoming students gain greater understanding of different geographic and thematic fields of historical study.
HIST 79000 - Research Methods for First-Year MA Students

This course, which MA students will be strongly encouraged to take, is designed to help first-year students develop their skill as researchers and writers, as they prepare to begin working on their theses in the second year of the program.

Hours 3
Credits 3

Spring semester

History Internship

HIST 79800 - Internship

Fieldwork in organizations engaged in historical research.

prereq: perm grad adviser

Hours 3 hrs including conference,
Credits 3

Jewish History

HIST 74000 - Modern Jewish Social and Intellectual History

Jewish movements and thinkers since 18th century; changing aspects of Jewish identity, new philosophies, impact of anti-Semitism and Zionism.

Hours 3 hrs including conference,
Credits 3

HIST 74800 - American Jewish History

Jewish life, 17th century to present: immigration, distribution, community structure, leaders, cultural creativity, economic and social integration, minority/majority relations.

Hours 3 including conference,
Credits 3

Latin American History

HIST 76600 - Colloquium in Latin American History

Hours 3 hrs
Credits 3

HIST 77411 - Colonial Latin America
Provides an overview of the early political, economic, cultural and social history of Latin America (1400s – 1820s) from the immediate pre-Hispanic era until the wars of independence in the 1820s.

Hours 3  
Credits 3

**Middle Eastern History**

**HIST 76801 - Middle East, 1500 – Present**

Introduces Middle East history from the sixteenth century, during the period of the time of the great Ottoman and Persian empires, to the present.

Hours 3  
Credits 3

**HIST 76804 - Middle East to 1800**

Introduces the origins and development of the history and civilization of the Middle East since the advent of Islam in the Arabian peninsula until 1800.

Hours 3  
Credits 3

**HIST 77444 - Women and Gender in Islam**

Examines, through translated works, the various roles that Muslim women have assumed, and the wide variety of their experiences since the beginning of Islam in the sixth century to the modern period.

Hours 3  
Credits 3

**Russian, Soviet and Eastern European History**

**HIST 72900 - Soviet Foreign Relations in a Changing World**

Objectives and strategies which the Soviet leadership adopted and mapped out at each stage in the period 1917 to 1945.

Hours 3 including conference,  
Credits 3

**Global and Transnational History**

**HIST 77472 - Human Rights and the Non-Western World**

Focuses on the idea of human rights as it has been understood and propagated in the non-Western world. The primary focus is on the twentieth century.
History: Courses offered only with sufficient student demand

HIST 71252 - Modern Intellectual History 18th – 20th Centuries
Hours 3 hrs including conference,
Credits 3

HIST 72700 - History of African Americans in the United States
Hours 3 hrs including conference,
Credits 3

HIST 74150 - Colonial America

HIST 74300 - History of Civil War and Reconstruction Era in United States
Hours 45 hrs including conference,
Credits 3 cr

HIST 74700 - Nineteenth-century American Reform Movements
Hours 45 hrs including conference,
Credits 3 cr

HIST 75400 - Contemporary Europe
Hours 45 hrs including conference,
Credits 3 cr

HIST 76803 - Gandhi
Hours 3
Credits 3

HIST 77301 - The Long Nineteenth Century: Comparative History
Hours 3
Credits 3

HIST 77302 - Making the Nation in Nineteenth-Century Europe
Hours 3
Credits 3

HIST 77303 - Britain’s Long Century: 1688 – 1830
Hours 3  
Credits 3

HIST 77412 - Topics and Themes: Debating the Rise of the West

Hours 3  
Credits 3

HIST 77414 - Revolutionary England 1603-1714

Hours 3  
Credits 3

HIST 77414 - Women in Modern Europe

Hours 3  
Credits 3

HIST 77429 - Concepts in Jewish History

Hours 3  
Credits 3

HIST 77434 - Reformation and Wars of Religion

Hours 3  
Credits 3

HIST 77440 - Modern European History: Fact and Fiction

Hours 3  
Credits 3

HIST 77450 - Hitler and National Socialism, 1919 - 1945

Hours 3  
Credits 3

HIST 77453 - Biography and Autobiography in U.S. History

HIST 77457 - Immigration and Ethnicity in the United States
**Programs and Courses in Integrated Media Arts**

**Film and Media Studies**

**Overview**

With a world class faculty and up-to-date production facilities, Hunter College's Department of Film & Media Studies offers a graduate MFA degree in Integrated Media Arts. This degree focuses on politically and socially engaged creative work and the social role of media and technology. Our program educates multi-disciplinary media professionals, socially aware and competent in the diverse range media skills that are being brought together in a digital media environment.

The IMA Program offers a 48-credit course of study, combining analytical seminars, interdisciplinary research, and creative workshops in writing, visual communication, and media production, and culminating in an advanced thesis project and paper. Student work in the program has included single channel documentaries, interactive websites, handmade electro-mechanical devices, public exhibitions, interactive installations, transmedia narratives, live performances, and rich media for the expanding spectrum of screen based platforms. Building on a foundation of research and analysis, IMA students explore and create new ways to advance information and ideas, balancing critical thinking with aesthetics, contemporary issues with an historical perspective, theory with practice, and traditional methods with new technologies.

**What can I do with my degree in Film and Media Studies/Integrated Media Arts?**
Graduates work in media, communications, advertising, marketing and the entertainment industry. Advances in technology are opening up a host of other career options for individuals with degrees in multimedia. As multimedia continues to infiltrate our culture and work its way into our everyday lives, the future may hold even more unknown opportunities.

Programs and Courses in Mathematics and Statistics

Mathematics and Statistics

OVERVIEW
The Department of Mathematics and Statistics offers a choice of master's programs. The MA in Pure Mathematics is a 30-credit degree program. The coursework largely mirrors the first two years of a doctoral program in Mathematics. Achievement of the degree includes a comprehensive examination. In addition students must show reading competency in a foreign language. The MA Program in Statistics and Applied Mathematics is intended for students interested in applications to business, science, engineering, industry, biology, and medicine, as well as teaching and research. This is a 30-credit degree program. There are four tracks: Statistics is Track I, Applied Mathematics is Track II, Bioinformatics is Track III, and Mathematical Finance is Track IV. Achievement of the degree requires a final project as well as working knowledge of two computer languages. The final projects provide the student with the opportunity to investigate a problem whose outcome is not previously known. Our faculty mentor the projects. The department also has combined BA/MA programs in: (1) Mathematics and (2) Statistics and Applied Mathematics.

In addition, the department offers, jointly with the School of Education, an MA in Adolescent Mathematics Education Grades 7-12, and a combined BA/MA in Adolescent Mathematics Education. The MA in Mathematics Education is designed for individuals without initial certification in mathematics. Individuals who already have initial certification in mathematics should pursue either the MA in pure mathematics or the MA in statistics and applied mathematics or the new Professional Certification master's program.

What can I do with my degree in Mathematics and Statistics?

Students use the MA in Pure Mathematics for various purposes. Many use their added mathematics background as part of a competitive application to a doctoral program. In-service teachers gain permanent certification via their MA. Others use their degree to seek employment or advancement to positions that require an advanced degree. Several seek positions as instructors at local area colleges. Others are in areas unrelated to education.

Programs and Courses in Mathematics and Statistics

Program for Teachers of Adolescent Education (Grades 7-12) – Mathematics MA

See the School of Education section of this catalog for additional information on admission and program requirements.

Hours of Operation: Monday – Friday 9:00 AM – 5:00 PM
919 East
HEGIS Codes: 1701 (BA; BA/MA in Mathematics, Adolescent Education/Mathematics); 1701/1703 (BA/MA in Mathematics/Statistics and Applied Mathematics); 1702 (BA in Statistics); 1702/1703 (BA/MA in Statistics/Statistics and Applied Mathematics)

Bachelor of Arts/Master of Arts - BA/MA

Mathematics Grades 7-12 Adolescent Education - BA/MA

Students interested in secondary school teaching may pursue a combined BA/MA program in teaching. This program requires a minimum of 141 credits.

Admission Requirements for the BA/MA in Teaching

1. Completion of at least 45 credits with a GPA of 3.0.
2. Completion of at least 10 credits in mathematics, including a year of calculus (MATH 15000 and 15500 or the equivalent), with an average of 2.7 in these major courses.
3. Admission to the School of Education

Degree Requirements for the BA/MA in Teaching

BA in Mathematics or Statistics

The 33 credits required for the BA in Mathematics OR the 32 credits required for the BA in Statistics, as described in the Undergraduate Catalog

Graduate Courses in Mathematics and Statistics
The following 15 graduate credits:

**MATH 62000 - Secondary School Mathematics from an Advanced Perspective I**

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

*prereq: Calculus II and a course in linear or matrix algebra*
*Hours 3 hrs*
*Credits 3 cr*
*Open only to Teacher Education Program students.*

**MATH 63000 - Secondary School Mathematics from an Advanced Perspective II**

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

*Hours 3 hrs.*
*Credits 3 cr.*
*Open only to Teacher Education Program students.*

**MATH 63300 - Axiomatic Geometry**

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry. This is a theoretical mathematics course. The material is presented in its historical context.

*prereq: departmental permission*
*Hours 3*
*Credits 3*

**MATH 63500 - Problem Solving Explorations in Mathematics**

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics. This course is for current and prospective teachers.

*prereq: none*
*Hours 3*
*Credits 3*

**STAT 61200 - Discrete Probability**

Combinatorics, discrete probability, random variables, probability models and an introduction to game theory. A study of discrete probability with particular attention paid to the integration of these topics into the school curriculum. This course is for current and prospective teachers.

*prereq: a statistics course on or above the level of STAT 11300*
*Hours 3*
*Credits 3*
STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.

Hours 3 hrs.

Credits 3 cr.

Comprehensive Examination in Mathematics

Also required is a comprehensive examination in mathematics consisting of three parts covering the material in MATH 62000, 63000 and 63300. Students may sit for the comprehensive examination only after having taken all three courses. Students who fail any part of the examination need only retake that part of the examination. A student can take the comprehensive exam in mathematics twice; after that, a committee formed by the Mathematics/Statistics Chairperson and consisting of members from the Department of Mathematics and Statistics and the School of Education will decide if the student can take the exam a third and final time.

School of Education Courses

The student should consult the School of Education section of the graduate college catalog for the sequence of teacher education courses.

Mathematics or Statistics and Applied Mathematics - BA/MA

The BA/MA program offers promising students the opportunity to complete both the bachelor's and master's requirements without a separate application for admissions or GRE requirement. Requirements are the same as those for a major in the department, plus 30 credits at the graduate level. Interested students should contact the graduate adviser for further information regarding eligibility and curriculum requirements.

Option 1: Mathematics and Pure Mathematics (63-83 credits)

Students complete the BA in pure mathematics with 30 additional credits at the graduate level in pure mathematics approved by the departmental graduate adviser.

- Mathematics - BA
- Mathematics: Pure Mathematics - MA

Option 2: Mathematics and Statistics and Applied Mathematics (63-83 credits)

Students complete the BA in mathematics with 30 additional credits at the graduate level in applied mathematics, statistics and computer science approved by the departmental graduate adviser.

- Mathematics - BA
- Statistics and Applied Mathematics - MA

Option 3: Statistics and Statistics and Applied Mathematics (63-83 credits)

Students complete the BA in statistics with 30 additional credits at the graduate level in applied mathematics, statistics and computer science approved by the departmental graduate adviser.

- Statistics - BA
• Statistics and Applied Mathematics - MA

Please note: Modifications in these programs are awaiting approval by NY State. Please consult department for details.

Master of Arts - MA

Pure Mathematics - MA

Students in the MA program in Pure Mathematics want to investigate mathematics beyond the undergraduate level. Most have a bachelor's degree in mathematics. But there are always several students with an undergraduate degree in a related topic and a few whose undergraduate background is completely unrelated. In both of these cases, the students filled out their mathematics background prior to applying for admissions. Students use this program for various purposes. Many use their added mathematics background as part of a competitive application to a doctoral program. In-service teachers gain permanent certification via their MA. Others use their degree to seek employment or advancement to positions that require an advanced degree. Several seek positions as instructors at local area colleges. Others are in areas unrelated to education.

Admission Requirements for the MA

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. The Department's requirements are flexible. They are intended to encourage students without a prior specialization in mathematics to pursue a degree in mathematics.

Degree Requirements for the MA

Thirty credits (10 courses) from courses chosen as follows:

1. Algebra Requirement

MATH 72100 - Modern Algebra I

Group theory including symmetric groups, Sylow theorems, fundamental structure theorem for finite Abelian groups and the canonical forms for linear transformations.

prereq: MATH 31100 or equivalent and departmental permission
Hours 3
Credits 3
The group theory portion of a three-semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course is required for the MA in Pure Mathematics.

and at least one of

MATH 72200 - Modern Algebra II

Extension fields to the fundamental theorem of Galois Theory and solvability by radicals. Commutative rings to the Hilbert basis theorem and elements of algebraic varieties.

prereq: MATH 31100 or equivalent and departmental permission
Hours 3
Credits 3
The ring and field theory portion of a three semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics.

or

MATH 72500 - Advanced Linear Algebra

Topics in advanced linear algebra and multilinear algebra.

prereq: MATH 31100 or equivalent and departmental permission

Hours 3
Credits 3

The linear algebra portion of a three-semester group of abstract algebra courses including MATH 72100, 72200, and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. It is intended for both Pure and Applied MA students. An undergraduate course in abstract algebra is preferred, but not required.

2. Analysis Requirement

MATH 74600 - Theory of Functions of a Real Variable I

Real numbers, Lebesgue measure, metric and Lp spaces, general measure and integration theory.

prereq: 1 year of advanced calculus

Hours 3 hrs.
Credits 3 cr.

and at least one of

MATH 74200 - Analytic Functions

Theoretical treatment of the properties of a function of a complex variable including Cauchy's Theorem, the special functions, power series, and the Riemann Mapping theorem.

prereq: MATH 35300 or equivalent and departmental permission

Hours 3
Credits 3

A stand-alone course in functions of a complex variable presented at a higher level than MATH 35300 or MATH 64200. The course is intended for both Pure and Applied Math students and optionally a required course for the MA in Pure Math. An undergraduate course in complex variables is preferred, but not required.

or

MATH 74700 - Theory of Functions of a Real Variable II

L-p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

prereq: MATH 35200 or equivalent and departmental permission

Hours 3
Credits 3

The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74600, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.
3. Geometry and Topology Requirement

at least one of

**MATH 75100 - General Topology**

Topology of plane sets, continuous functions, separation axioms, compact and metric spaces.

*prereq: advanced calculus or permission of Department*

*Hours 3 hrs.*

*Credits 3 cr.*

or

**MATH 75000 - Calculus on Manifolds**

The derivative as a linear map; the Riemann integral, including Fubini's Theorem and the Change of Variable formula; tensor and exterior algebras; differential forms and integrals thereof; Stokes' Theorem.

*prereq: MATH 26000 and MATH 35200 or permission of the instructor.*

*Hours 3*

*Credits 3*

4. Elective Course Requirement (15 credits)

Fifteen credits (5 courses) from MATH 70000 and/or STAT 70000-level courses approved by the graduate mathematics adviser are required. The department’s course rotation schedule may make it necessary to substitute a limited number of courses at the MATH 60000 level with permission of the adviser.

5. Written comprehensive examination

Written comprehensive examinations are required in algebra and analysis (see 1 and 2 above) and in two additional areas to be chosen by the student with the adviser's approval. The comprehensive examinations must be completed in the student's final semester. Students who fail an examination may repeat the examination. If a student fails an examination twice, the department chair will appoint a committee to review the student's case. The student may be allowed to repeat the examination for a final time or may be required to leave the program.

6. Reading knowledge

Students must exhibit a reading knowledge of French, German, Russian or another language with a sufficiently rich mathematical literature.

Note

*For further information on the MA in Pure Mathematics, please contact Professor John Lousta: jloustau@msn.com.*

**Statistics and Applied Mathematics - MA**

- Statistics and Applied Mathematics - Track I: Statistics
- Statistics and Applied Mathematics - Track II: Applied Mathematics
- Statistics and Applied Mathematics - Track III: Biostatistics
- Statistics and Applied Mathematics - Track IV: Financial Mathematics

Statistics and Applied Mathematics - Track I: Statistics

Return to: Programs and Courses in Mathematics and Statistics

Admission Requirements for Track I: Statistics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Multivariate Calculus (MATH 25000) and one semester of calculus-based Linear Algebra (MATH 26000). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

Degree Requirements:

Required core (15 credits, 5 courses)

**STAT 70100 - Advanced Probability Theory I**

*prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department*

*Hours 3 hrs.*

*Credits 3 cr.*

**STAT 70200 - Advanced Probability Theory II**

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

*prereq: STAT 70100 or permission of the department*

*Hours 3 hrs.*

*Credits 3 cr.*

**STAT 70300 - Mathematical Statistics**

STAT 70600 - General Linear Models I

prereq: permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 70700 - General Linear Models II

prereq: STAT 70600 or equivalent
Hours 3 hrs.
Credits 3 cr.

Electives (12 credits, 4 courses)

Twelve credits in statistics, computer science, mathematics, or relevant areas of application, selected to constitute a cohesive program. Typically, these courses are at the MATH 70000 and/or STAT 70000 level. Electives must be approved by the Graduate Statistics and Applied Math Adviser.

Project (3 credits, 1 course)

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department
Hours 3
Credits 3

The student, guided by a member of the faculty, prepares a project in statistics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

Note(s)

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement. Typically, this is satisfied by learning and using R, MATHEMATICA,
SPSS and/or SAS. They use Mathematica in MATH 68500, and R in STAT 71500, STAT 71600, STAT 71700, STAT 70600, and STAT 70700.

For further information on the MA in Statistics, please contact the statistics adviser.

*The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.

**Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30-credit (10-course) total.

Return to: Programs and Courses in Mathematics and Statistics

** Statistics and Applied Mathematics - Track II: Applied Mathematics

Return to: Programs and Courses in Mathematics and Statistics

Most students in Track II do their project in differential equations. The context may be engineering or finance. The techniques may be from numerical analysis or statistics or a combination of these.

** Admission Requirements - Track II: Applied Mathematics

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Multivariate Calculus (MATH 25000) and one semester of calculus-based Linear Algebra (MATH 26000). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

** Degree Requirements:

** Required core (15 credits, 5 courses)

** STAT 70100 - Advanced Probability Theory I

*prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

*Hours 3 hrs.

*Credits 3 cr.

** MATH 68500 - Numerical Methods

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations; curve fitting and function approximation; interpolation; differentiation and integration; differential equations.

*prereq: a course in ordinary differential equations

*Hours 3 hrs.

*Credits 3 cr.
STAT 78600 - Modeling and Visualization

The development of continuous mathematical models, the resolution of the resulting differential equations by numerical techniques and the visualization of the simulated data. Problems come from various areas of the social, biological and physical sciences.

prereq: Departmental permission
Hours 3
Credits 3

One of:

MATH 74600 - Theory of Functions of a Real Variable I

Real numbers, Lebesgue measure, metric and Lp spaces, general measure and integration theory.

prereq: 1 year of advanced calculus
Hours 3 hrs.
Credits 3 cr.

MATH 74700 - Theory of Functions of a Real Variable II

Lp spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

prereq: MATH 35200 or equivalent and departmental permission
Hours 3
Credits 3
The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74600, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.

One of

MATH 72100 - Modern Algebra I

Group theory including symmetric groups, Sylow theorems, fundamental structure theorem for finite Abelian groups and the canonical forms for linear transformations.

prereq: MATH 31100 or equivalent and departmental permission
Hours 3
Credits 3
The group theory portion of a three-semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course is required for the MA in Pure Mathematics.

MATH 72500 - Advanced Linear Algebra

Topics in advanced linear algebra and multilinear algebra.

prereq: MATH 31100 or equivalent and departmental permission
Hours 3
Credits 3
The linear algebra portion of a three-semester group of abstract algebra courses including MATH 72100, 72200, and
72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. It is intended for both Pure and Applied MA students. An undergraduate course in abstract algebra is preferred, but not required.

**MATH 78500 - Advanced Numerical Analysis, Finite Differences and Collocation**

Advanced topics in numerical analysis, Finite difference method, von Neumann stability, Lax equivalence. Polynomial interpolation, numerical integration and collocation method.

*prereq: MATH 38500 and departmental permission
Hours 3
Credits 3

One of a two-semester group of courses presenting numerical analysis at the graduate level. This course is primarily for students in the applied math MA program.

- MATH 79562: Stochastic Optimization: Computation and Simulation

**Electives (12 credits, 4 courses)**

Twelve credits in statistics, computer science, mathematics, or relevant areas of application, selected to constitute a cohesive program. Typically, these courses are at the MATH 70000 and/or STAT 70000 level. Electives must be approved by the Graduate Applied Math Advisor. Alternatives to required courses that were not selected may be used as electives.

**Suggested electives are:**

**MATH 64200 - Introduction to Theory of Functions of a Complex Variable**

Complex numbers, analytic functions, elementary functions, contour integrals, Cauchy integral theory, series.

*prereq: a course in advanced calculus
Hours 3 hrs.
Credits 3 cr.

**MATH 68500 - Numerical Methods**

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations; curve fitting and function approximation; interpolation; differentiation and integration; differential equations.

*prereq: a course in ordinary differential equations
Hours 3 hrs.
Credits 3 cr.

**MATH 78500 - Advanced Numerical Analysis, Finite Differences and Collocation**

Advanced topics in numerical analysis, Finite difference method, von Neumann stability, Lax equivalence. Polynomial interpolation, numerical integration and collocation method.

*prereq: MATH 38500 and departmental permission
Hours 3
Credits 3
One of a two-semester group of courses presenting numerical analysis at the graduate level. This course is primarily for students in the applied math MA program.

**MATH 65400 - Dynamical Systems and Chaos**

Topics include: flows in one and two dimensions; phase portraits; limit cycles; bifurcations; iterated maps on the interval; introduction to chaos and fractals; the Mandelbrot set and its significance.

*prereq: a course in multivariate calculus and a course in linear algebra*

*Hours 3 hrs.*

*Credits 3 cr.*

Familiarity with MAPLE or MATHEMATICA encouraged

**MATH 74600 - Theory of Functions of a Real Variable I**

Real numbers, Lebesgue measure, metric and Lp spaces, general measure and integration theory.

*prereq: 1 year of advanced calculus*

*Hours 3 hrs.*

*Credits 3 cr.*

**MATH 74700 - Theory of Functions of a Real Variable II**

L-p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

*prereq: MATH 35200 or equivalent and departmental permission*

*Hours 3*

*Credits 3*

The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74600, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.

**MATH 72100 - Modern Algebra I**

Group theory including symmetric groups, Sylow theorems, fundamental structure theorem for finite Abelian groups and the canonical forms for linear transformations.

*prereq: MATH 31100 or equivalent and departmental permission*

*Hours 3*

*Credits 3*

The group theory portion of a three-semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course is required for the MA in Pure Mathematics.

**MATH 72500 - Advanced Linear Algebra**

Topics in advanced linear algebra and multilinear algebra.

*prereq: MATH 31100 or equivalent and departmental permission*

*Hours 3*

*Credits 3*

The linear algebra portion of a three-semester group of abstract algebra courses including MATH 72100, 72200, and
This course may be used to satisfy the course requirement for the MA in Pure Mathematics. It is intended for both Pure and Applied MA students. An undergraduate course in abstract algebra is preferred, but not required.

STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 70300 - Mathematical Statistics

prereq: permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 70600 - General Linear Models I

prereq: STAT 70100 and 70300 or equivalent or permission of department
Hours 3 hrs.
Credits 3 cr.

STAT 70700 - General Linear Models II

prereq: STAT 70600 or equivalent
Hours 3 hrs.
Credits 3 cr.

STAT 71500 - Time Series Analysis

Introduction to univariate Box-Jenkins (difference equation) time-series modeling. Topics include ARIMA models; stationarity; forecasting; diagnostics; and seasonal modeling. Extensive use of process control and economic time series. Transfer function models.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.
Hours 3 hrs.
Credits 3 cr.
STAT 72200 - Theory of Games

Utility, zero-sum two-person games, minimax theorem or rectangular games. Relation to linear programming; applications to problems in economics and other fields.

prereq: a course in linear algebra and a course in probability
Hours 3 hrs.
Credits 3 cr.

STAT 72600 - The Theory and Methods of Sampling

prereq: STAT 70100 or equivalent, or permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 73900 - Bayesian Statistics

prereq: prerequisite: C or better in STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed.
Hours 3
Credits 3

STAT 76100 - Advanced Concepts in Financial Markets

Study of the essential techniques of pricing financial derivatives, including the Black-Scholes formula, binomial trees, and risk-neutral valuation methods. Discussion of trading strategies associated with the use of financial derivatives for different purposes such as hedging and speculation, and potential problems that can arise in the application of financial derivatives.

prereq: permission of the department
Hours 3
Credits 3

STAT 78700 - Statistical Models for Spatial Data

Spatial data and spatial models, intrinsic stationarity, large and small sample variation, the variogram, estimation of the variogram, prediction and kriging, spatial models on lattices, spatial point patterns.

prereq: STAT 70100 and STAT 70300 (theory); STAT 71600 or STAT 78600 (data analysis, programming); or permission of the instructor
Hours 3
Credits 3
Project (3 credits, 1 course)

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department

Hours 3
Credits 3

The student, guided by a member of the faculty, prepares a project in statistics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

Note(s)

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement. Typically, this is satisfied by learning and using R, MATHEMATICA, SPSS and/or SAS. They use Mathematica in MATH 68500, and R in STAT 71500, STAT 71600, STAT 71700, STAT 70600, and STAT 70700.

*The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.

**Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30-credit (10-course) total.

Return to: Programs and Courses in Mathematics and Statistics

Statistics and Applied Mathematics - Track III: Biostatistics

Return to: Programs and Courses in Mathematics and Statistics

Degree Requirements:

Required core (15 credits, 5 courses)

STAT 70100 - Advanced Probability Theory I

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department

Hours 3 hrs.
Credits 3 cr.
STAT 70300 - Mathematical Statistics

prereq: permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 70600 - General Linear Models I

prereq: STAT 70100 and 70300 or equivalent or permission of department
Hours 3 hrs.
Credits 3 cr.

STAT 73900 - Bayesian Statistics

prereq: prerequisite: C or better in STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed.
Hours 3
Credits 3

and one of

STAT 71600 - Data Analysis

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics selected from: data summaries; transformations; the jackknife and re-sampling schemes; robust estimation; and robust regression methods.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.
Hours 3 hrs.
Credits 3 cr.
This course is cross-listed with BIOS 75600

STAT 71700 - Multivariate Analysis

An introduction to multivariate methods. Topics selected from: factor analysis; discriminant analysis; clustering; multidimensional scaling; MANOVA; canonical correlation; and projection-pursuit.

prereq: C or better in STAT 61400, or an equivalent introductory statistics course.
**Electives (9-12 credits, 3-4 courses)**

Nine to twelve credits in statistics, biology, or relevant areas of application, selected to constitute a cohesive program. Typically, these courses are at the 700 level. Electives must be approved by the Graduate Biostatistics Advisor.

Alternatives to required courses that were not selected may be used as electives.

**STAT 71400 - Topics in Statistical Inference**

Topics vary but may be selected from multivariate analysis, regression, experimental design, time series, biostatistics.

*Hours 3 hrs.*
*Credits 3 cr.*

**STAT 71500 - Time Series Analysis**

Introduction to univariate Box-Jenkins (difference equation) time-series modeling. Topics include ARIMA models; stationarity; forecasting; diagnostics; and seasonal modeling. Extensive use of process control and economic time series. Transfer function models.

*prereq: C or better in STAT 61400, or an equivalent introductory statistics course.*
*Hours 3 hrs.*
*Credits 3 cr.*

**STAT 71600 - Data Analysis**

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics selected from: data summaries; transformations; the jackknife and re sampling schemes; robust estimation; and robust regression methods.

*prereq: C or better in STAT 61400, or an equivalent introductory statistics course.*
*Hours 3 hrs.*
*Credits 3 cr.*

This course is cross-listed with BIOS 75600

**STAT 71700 - Multivariate Analysis**

An introduction to multivariate methods. Topics selected from: factor analysis; discriminant analysis; clustering; multidimensional scaling; MANOVA; canonical correlation; and projection- pursuit.

*prereq: C or better in STAT 61400, or an equivalent introductory statistics course.*
*Hours 3 hrs.*
*Credits 3 cr.*

**STAT 71800 - Analysis of Variance**
Intermediate topics in analysis of variance (ANOVA), with an emphasis on exploratory aspects. Topics include: one-, two- and many way layouts; decomposition and partitioning of variance; fixed-, random-, and mixed-affects models; repeated measures; contrasts; multiple comparisons; and robust analogs.

**prereq:** C or better in STAT 61400, or an equivalent introductory statistics course.

**Hours** 3 hrs.

**Credits** 3 cr.

This course is cross-listed with BIOS 75800

### STAT 72600 - The Theory and Methods of Sampling

**prereq:** STAT 70100 or equivalent, or permission of the department.

**Hours** 3 hrs.

**Credits** 3 cr.

### STAT 73900 - Bayesian Statistics

**prereq:** prerequisite: C or better in STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed.

**Hours** 3

**Credits** 3

### STAT 75200 - Analysis of Categorical Data

An introduction to statistical models for analyzing categorical data, with emphasis on examples from the health sciences. Topics include: contingency tables and corresponding tests such as chi-square, CMH and trend test, count data, logistic regression, and log-linear models.

**Cross-listed BIOS 75200**

**prereq:** C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.

**Hours** 3

**Credits** 3

### STAT 75300 - Analysis of Longitudinal Data

An introduction to statistical models and methods for analyzing longitudinal data in public health. Topics include: longitudinal designs and cohort sampling, general linear models for longitudinal data, marginal and random effects models, time-dependent covariates, missing values.

**Cross-listed BIOS 75300**
prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.

**STAT 75400 - Design and Analysis of Complex Surveys**

An introduction to statistical issues in the design and analysis of complex surveys, with a particular emphasis on public health research. Topics include: basic sampling techniques, stratified and cluster sampling, non-sampling errors, and case studies.

*Cross-listed BIOS 75400
prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.

**STAT 75500 - Survival Analysis**

An introduction to regression modeling used in the analysis of time-to-event data in epidemiological, biostatistical, and other health-related research. Topics include: survival functions, proportional-hazards, parametric and competing-risks models, missing data and case studies.

*Cross-listed BIOS 75500
prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.

**STAT 78700 - Statistical Models for Spatial Data**

Spatial data and spatial models, intrinsic stationarity, large and small sample variation, the variogram, estimation of the variogram, prediction and kriging, spatial models on lattices, spatial point patterns.

*prereq: STAT 70100 and STAT 70300 (theory); STAT 71600 or STAT 78600 (data analysis, programming); or permission of the instructor

**ANTH 79000 - Biological Anthropology (Core Course)**

An introduction to the biology and evolutionary history of humans, including evolutionary theory, genetics, morphology, primate behavior, sociobiology, and paleontology.

*Hours 3 hrs, including conferences,
Credits 3 or
All students must consult with the graduate adviser before registering for any course.

**ANTH 79300 - Human Evolutionary Genetics**

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.
BIOL 70005 - Genetics

Prokaryotic and eukaryotic genetics; organization of DNA, replication repair, mutagenesis, recombination, control of gene expression, genetic engineering and molecular techniques.

prereq: undergraduate genetics and molecular biology (or biochemistry)

BIOL 71013 - Molecular Biology Lecture

Structure and function of biomolecules; enzyme mechanisms; replication, transcription, translation; regulation of macromolecular biosynthesis; energy transformations.

prereq: 1 yr of organic chemistry

BIOL 75003 - Developmental Biology

Analysis of morphological and molecular aspects of development and differentiation. Topics include gametogenesis, fertilization, early development, differentiative processes, organogenesis, neoplasia and aging with emphasis on genetic regulation in development.

prereq or coreq: BIOL 71013 and BIOL 71401

BIOL 79049 - Computational Molecular Biology

An introduction to bioinformatics theories and practices. Topics include database searching, sequence alignment, molecular phylogenetics, structure predication, and microarray analysis. The course is held in a UNIX-based instructional lab specifically configured for bioinformatics applications. Each session consists of instruction on bioinformatics theories and hands-on exercises.

This course is designed for upper-level undergraduates and graduate students. Prior experiences in the UNIX Operating System and at least one programming language are required.

prereq: CSCL132 (Practical Unix and Perl Programming) and BIOL 300 (Biochemistry), or permission by the
CHEM 69803 - Chemical Genomics

The advent of high-throughput technologies and powerful computational tools is transforming the manner new drugs are developed. This course (bioinformatics) is designed to introduce students to two emerging areas of drug development, namely (1) computer-assisted drug design and (2) personalized medicine. Computer-assisted drug design is an approach to design drugs based on three dimensional structures of macromolecules. Personalized medicine, on the other hand, aims at tailoring patient treatments based on individual genetic information (biomarkers). In this course, students will be first equipped with fundamental theoretical and experimental concepts related to these topics. Then, they will learn how to acquire new knowledge in these exciting fields of drug development through critical analysis of literature.

Hours 3
Credits 3

Project (3 credits, 1 course)

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department
Hours 3
Credits 3

The student, guided by a member of the faculty, prepares a project in statistics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

Notes

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement. Typically, this is satisfied by learning and using R, MATHEMATICA, SPSS and/or SAS. They use Mathematica in MATH 68500, and R in STAT 71500, STAT 71600, STAT 71700, STAT 70600, and STAT 70700.

For further information on the MA in Bioinformatics, please contact the statistics adviser.

*The 30 credits (10 courses) must be approved by an adviser and constitute a concentration.
**Courses already taken as an undergraduate will satisfy specific course requirements but are not included in the 30-credit (10-course) total.

Statistics and Applied Mathematics - Track IV: Financial Mathematics
This concentration is designed to teach students the mathematical methods involved in the solution of problems in finance. Several financial institutions—such as investment banks and commercial banks, hedge funds, credit rating and/or regulatory agencies—apply these methods to such problems as derivative securities valuation and hedging, trading, portfolio optimization, and risk management.

The concentration provides students the rigorous theoretical background to obtain jobs as quantitative analysts working as support to traders in front office jobs, or middle office risk management teams, as asset management specialist for hedge funds, as model analysts in credit rating companies and other such related jobs as quantitative strategists in trading firms. While a career in the financial industry is possible, our program is also meant to expose the student to the theoretical foundations required to successfully pursue a PhD in the disciplines associated with mathematical finance.

The concentration builds upon existing strengths in the department both in applied mathematics (numerical methods) and statistics (probability theory, statistical inference/machine learning, applied statistical analysis), while bringing in the tools of finance and financial economics to create a unique combination of courses that will provide rigorous training and a general exposure to the principles of mathematical finance.

**Admission Requirements - Track IV: Financial Mathematics**

The general college admission requirements must be satisfied. These include the Graduate Record Examination and two letters of recommendation. In addition, the department requires one semester of Multivariate Calculus (MATH 25000) and one semester of calculus-based Linear Algebra (MATH 26000). The department's requirements are minimal. They are intended to encourage students without a previous specialization in mathematics to pursue a degree in statistics and applied mathematics.

**Degree Requirements**

**Required core (24 credits, 8 courses)**

**STAT 70100 - Advanced Probability Theory I**

*prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department*

*Hours 3 hrs.*

*Credits 3 cr.*

**STAT 70200 - Advanced Probability Theory II**

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

*prereq: STAT 70100 or permission of the department*

*Hours 3 hrs.*

*Credits 3 cr.*

**STAT 70300 - Mathematical Statistics**

hypotheses, the Neyman-Pearson lemma, likelihood ratio tests. An introduction to linear models and the design of laboratory experiments. The analysis of variance.

**Math 68500 - Numerical Methods**

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations; curve fitting and function approximation; interpolation; differentiation and integration; differential equations.

**STAT 76100 - Advanced Concepts in Financial Markets**

Study of the essential techniques of pricing financial derivatives, including the Black-Scholes formula, binomial trees, and risk-neutral valuation methods. Discussion of trading strategies associated with the use of financial derivatives for different purposes such as hedging and speculation, and potential problems that can arise in the application of financial derivatives.

**STAT 76200 - Stochastic Methods in Finance**

Mathematical theory and probabilistic tools for modeling and analyzing security markets. Pricing options in complete and incomplete markets, equivalent martingale measures, utility maximization, interest rate models.

**ECO 70100 - Microeconomic Theory**

Advanced analysis of consumer choice, including duality theory, borrowing and lending, and insurance; producer choice; game theory; externalities.

**ECO 76000 - Financial Economics**

Examination of the models of finance: optimization over time, asset valuation and risk management. Applications to models of asset pricing, including stocks, bonds and options; portfolio selection; and problems in corporate finance including investment analysis and capital structure.
Elective (3 credits, 1 course)

**ECO 71100 - Banking and Financial Markets**

Factors determining banking and financial structure in US. Issues involving financial crises and bank failure, allocation of financial resources, regulation and competition.

*prereq: ECO 21000
prereq or coreq: ECO 70300 and ECO 72100*

**ECO 72100 - Linear Econometric Analysis**

Econometric analysis of linear statistical models. Topics include: ordinary least squares-estimation, inference, testing and specification testing; instrumental variables and simultaneous equations models; panel data regression; time series and forecasting.

*prereq: ECO 32100 with a grade of B; MATH 15000 and MATH 16000 with an average grade of B
prereq or coreq: MATH 15500*

**STAT 71500 - Time Series Analysis**

Introduction to univariate Box-Jenkins (difference equation) time-series modeling. Topics include ARIMA models; stationarity; forecasting; diagnostics; and seasonal modeling. Extensive use of process control and economic time series. Transfer function models.

*prereq: C or better in STAT 61400, or an equivalent introductory statistics course.
Hours 3 hrs.
Credits 3 cr.*

**STAT 72200 - Theory of Games**

Utility, zero-sum two-person games, minimax theorem or rectangular games. Relation to linear programming; applications to problems in economics and other fields.

*prereq: a course in linear algebra and a course in probability
Hours 3 hrs.
Credits 3 cr.*

**ECO 76500 - Games and Information**

Game theory offers a framework for analyzing social interactions and emergent behavior in a very wide variety of human contexts. The purpose of this course is to offer a critical introduction to game theory and its applications. Economic applications include the analysis of conflict and the emergence of trust and cooperation out of anarchy, the analysis of firms' strategic behavior in concentrated markets, or of herd behavior and panics in financial markets. Asymmetric information economics and mechanism-design extend game theory by exploring how the design of the rules of a game, or the initial distribution of information might affect equilibrium behavior outcomes, and therefore how one might choose to set up the rules of the game to govern their interactions.
prereq or coreq: ECO 70100

Project (3 credits, 1 course)

STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department

Hours 3
Credits 3

The student, guided by a member of the faculty, prepares a project in statistics. The student presents the results to faculty and students in a seminar during the student's final semester. This replaces the comprehensive examination requirement.

Notes

The student must exhibit a working knowledge of two useful computer languages or data analysis packages. This replaces the foreign language requirement. Typically, this is satisfied by learning and using R, MATHEMATICA, SPSS and/or SAS. They use Mathematica in MATH 68500, and R in STAT 71500, STAT 71600, STAT 71700, STAT 70600, and STAT 70700.

Mathematics

MATH 60100 - Mathematical Methods for the Physical Sciences

Topics include: Fourier Series, Sturm-Liouville theory, Green functions, and eigenfunction expansions. These will be applied to the heat, wave, Laplace, and one-dimensional Schroedinger equations.

prereq: a course in ordinary differential equations

Hours 3 hrs
Credits 3 cr

MATH 61000 - Mathematics for the Elementary School from an Advanced Standpoint

Study, from an advanced standpoint, of the mathematics involved in the elementary school common core, with special focus on Numbers and Quantities; Algebra and Change. Open only to Teacher Education Program students.

prereq: MATH 10400 and MATH 10500 or their equivalent. Entry is by departmental permission.

Hours 3 hrs
Credits 3 cr.

The course is intended for students in the Elementary Mathematics Specialist Program.

MATH 61500 - Middle School Mathematics from an Advanced Perspective
Study of the fundamental concepts, procedures, and understanding of topics in middle school mathematics included in the Common Core State Standards: arithmetic, algebraic expressions and equations, geometry, statistics, probability, and functions, with an emphasis on current research recommendations.

Hours 3 hrs  
Credits 3 cr.

**MATH 62000 - Secondary School Mathematics from an Advanced Perspective I**

Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with special focus on algebra, geometry, and statistics.

*prereq: Calculus II and a course in linear or matrix algebra*  
Hours 3 hrs  
Credits 3 cr  
Open only to Teacher Education Program students.

**MATH 62100 - Introduction to Abstract Algebra**

Introduction to the theory of groups and rings.

*prereq: a course in linear algebra*  
Hours 3 hrs  
Credits 3 cr

**MATH 62200 - Further Topics in Advanced Abstract Algebra**

Elements of Galois theory, construction with ruler and compass, advanced topics in ring theory and linear algebra.

*prereq: a course in introductory abstract algebra*  
Hours 3 hrs  
Credits 3 cr

**MATH 62300 - Theory of Numbers**

Congruences, quadratic residues, elementary diophantine analysis, continued fractions, sums of squares.

*prereq: a course in linear algebra*  
Hours 3 hrs  
Credits 3 cr

**MATH 62800 - Number Systems**

Postulational construction of the positive integers. Development of the rational integers, the rational numbers, the real numbers, the complex numbers, together with binary operations and order relations. Topics from hypercomplex number systems or the theory of transfinite numbers.

Hours 3 hrs  
Credits 3 cr

**MATH 63000 - Secondary School Mathematics from an Advanced Perspective II**
Study, from an advanced standpoint, of the mathematics involved in the new sequential mathematics high school curriculum, with specific focus on geometry, and both algebraic and transcendental functions.

Hours 3 hrs.
Credits 3 cr.
Open only to Teacher Education Program students.

MATH 63300 - Axiomatic Geometry

The development of geometry from the point of view of axiom systems. The course includes axiomatic systems for Euclidean geometry from the classical period to the Hilbert axioms of the early 20th century, and the development of non-Euclidean hyperbolic geometry. This is a theoretical mathematics course. The material is presented in its historical context.

prereq: departmental permission
Hours 3
Credits 3

MATH 63400 - Geometries I

Topics in affine and projective geometry and/or topics in differential geometry.

prereq: a course in linear algebra
Hours 3 hrs
Credits 3 cr.

MATH 63500 - Problem Solving Explorations in Mathematics

A study of the heuristics of problem solving through intensive work with non-routine problems chosen from many areas of mathematics. This course is for current and prospective teachers.

prereq: none
Hours 3
Credits 3

MATH 64000 - Topics in Calculus

Topics in single and multi-variable calculus examined from an advanced standpoint and incorporating use of graphing calculators and such computer packages as MAPLE and MATHEMATICA.

prereq: MATH 63000
Hours 3 hrs.
Credits 3 cr.
Open only to Teacher Education Program students

MATH 64100 - Mathematical Analysis I

Mature consideration of theory and processes of calculus, including the Heine-Borel and Bolzano-Weierstrass Theorems.

prereq: MATH 26000 and either MATH 25400 or 25500
MATH 64200 - Introduction to Theory of Functions of a Complex Variable

Complex numbers, analytic functions, elementary functions, contour integrals, Cauchy integral theory, series.

prereq: a course in advanced calculus
Hours 3 hrs.
Credits 3 cr.

MATH 64500 - Mathematical Analysis II

Continuation of MATH 64100 with an emphasis on functions of several variables.

prereq: MATH 64100
Hours 3 hrs.
Credits 3 cr.

MATH 65400 - Dynamical Systems and Chaos

Topics include: flows in one and two dimensions; phase portraits; limit cycles; bifurcations; iterated maps on the interval; introduction to chaos and fractals; the Mandelbrot set and its significance.

prereq: a course in multivariate calculus and a course in linear algebra
Hours 3 hrs.
Credits 3 cr.
Familiarity with MAPLE or MATHEMATICA encouraged

MATH 65500 - Challenging Concepts in Mathematics: Using Research to Identify Common Misconceptions and Assess Student Learning

Students will explore the key concepts in mathematics that have been identified to cause particular difficulties for students in secondary schools (7-12), as well as in the introductory courses in college. The research literature will be surveyed with a particular emphasis on the methodologies used to uncover these key concepts and to identify student misconceptions. Teaching strategies to enhance student understanding of these key concepts will be explored. Students are expected to produce a research paper.

prereq: departmental permission
Hours 3 hrs.
Credits 3 cr.

MATH 66100 - History of Mathematics

Survey of the history of mathematics and statistics to the present including roots in non-Western culture and contributions of women and minorities.

Hours 3 hrs.
Credits 3 cr.

MATH 67100 - Fundamental Concepts of Modern Mathematics
An axiomatic approach to theory of sets; axiom of choice, Zorn's Lemma, transfinite arithmetic.

prereq: any 2 courses chosen from linear algebra, modern algebra, or advanced calculus I and II
Hours 3 hrs
Credits 3 cr.

MATH 67200 - Mathematical Logic

A survey of the central results and techniques of metalogic, principally mathematical induction, the soundness and completeness of theorems for first-order logic, the Skolem Theorem; and Church's Theorem on undecidability.

prereq: a course in linear algebra or permission of instructor
Hours 3 hrs.
Credits 3 cr.

MATH 68500 - Numerical Methods

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations; curve fitting and function approximation; interpolation; differentiation and integration; differential equations.

prereq: a course in ordinary differential equations
Hours 3 hrs.
Credits 3 cr.

MATH 69000 - Advanced Topics in Mathematics for Teachers

Topics to be studied in any given term will be announced prior to registration.

prereq: MATH 62000 or 63000; additional prereqs vary with specific topics and will be announced at time of course offering
Hours 3 hrs.
Credits 3 cr.
May be repeated as topics vary, but not more than twice.

MATH 72100 - Modern Algebra I

Group theory including symmetric groups, Sylow theorems, fundamental structure theorem for finite Abelian groups and the canonical forms for linear transformations.

prereq: MATH 31100 or equivalent and departmental permission
Hours 3
Credits 3
The group theory portion of a three-semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course is required for the MA in Pure Mathematics.

MATH 72200 - Modern Algebra II

Extension fields to the fundamental theorem of Galois Theory and solvability by radicals. Commutative rings to the Hilbert basis theorem and elements of algebraic varieties.
prereq: MATH 31100 or equivalent and departmental permission
Hours 3
Credits 3
The ring and field theory portion of a three semester group of abstract algebra courses including MATH 72100, 72200 and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics.

MATH 72500 - Advanced Linear Algebra

Topics in advanced linear algebra and multilinear algebra.

prereq: MATH 31100 or equivalent and departmental permission
Hours 3
Credits 3
The linear algebra portion of a three-semester group of abstract algebra courses including MATH 72100, 72200, and 72500. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. It is intended for both Pure and Applied MA students. An undergraduate course in abstract algebra is preferred, but not required.

MATH 74200 - Analytic Functions

Theoretical treatment of the properties of a function of a complex variable including Cauchy's Theorem, the special functions, power series, and the Riemann Mapping theorem.

prereq: MATH 35300 or equivalent and departmental permission
Hours 3
Credits 3
A stand-alone course in functions of a complex variable presented at a higher level than MATH 35300 or MATH 64200. The course is intended for both Pure and Applied Math students and optionally a required course for the MA in Pure Math. An undergraduate course in complex variables is preferred, but not required.

MATH 74600 - Theory of Functions of a Real Variable I

Real numbers, Lebesgue measure, metric and Lp spaces, general measure and integration theory.

prereq: 1 year of advanced calculus
Hours 3 hrs.
Credits 3 cr.

MATH 74700 - Theory of Functions of a Real Variable II

L-p spaces, Hilbert spaces, Banach spaces, the Hahn-Banach Theorem, the Riesz presentation theorem.

prereq: MATH 35200 or equivalent and departmental permission
Hours 3
Credits 3
The functional analysis portion of a three-semester group of analysis courses including MATH 74200, 74600, and 74700. This course may be used to satisfy the course requirement for the MA in Pure Mathematics. This course is recommended to applied math students interest in theoretical foundation for numerical analysis.

MATH 75000 - Calculus on Manifolds
The derivative as a linear map; the Riemann integral, including Fubini's Theorem and the Change of Variable formula; tensor and exterior algebras; differential forms and integrals thereof; Stokes' Theorem.

prereq: MATH 26000 and MATH 35200 or permission of the instructor.
Hours 3
Credits 3

MATH 75100 - General Topology

Topology of plane sets, continuous functions, separation axioms, compact and metric spaces.

prereq: advanced calculus or permission of Department
Hours 3 hrs.
Credits 3 cr.

MATH 75200 - Algebraic Topology

An introduction to algebraic topology including homotopy and the fundamental group of a space. Classification of spaces via their fundamental group. Applications to algebra and differential geometry.

prereq: MATH 35200 or equivalent and departmental permission
Hours 3 hrs.
Credits 3 cr.

MATH 77200 - Seminar

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department
Hours 3 hrs.
Credits 3 cr.

MATH 77300 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department
Hours 3 hrs.
Credits 1 cr.

MATH 77400 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department
Hours 3 hrs.
Credits 1 cr.

MATH 77500 - Independent Study
Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department
Hours 3 hrs
Credits 2 cr.

MATH 77600 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department
Hours 3 hrs.
Credits 2 cr.

MATH 77700 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department
Hours 3 hrs.
Credits 3 cr.

MATH 77800 - Independent Study

Introduction to methods and literature of mathematical research at master's level.

prereq: permission of the department
Hours 3 hrs.
Credits 3 cr.

MATH 78000 - Advanced Discrete Structures

Advanced concepts in mathematics of discrete domains such as sets, functions/relations, logic, and graphs. These domains are critical to almost every advanced computer science application including programming languages, software engineering, security, compilers, and computational models.

prereq: departmental permission
Hours 3 hrs.
Credits 3 cr.

MATH 78500 - Advanced Numerical Analysis, Finite Differences and Collocation

Advanced topics in numerical analysis, Finite difference method, von Neumann stability, Lax equivalence. Polynomial interpolation, numerical integration and collocation method.

prereq: MATH 38500 and departmental permission
Hours 3
Credits 3
One of a two-semester group of courses presenting numerical analysis at the graduate level. This course is primarily for students in the applied math MA program.
MATH 78700 - Advanced Numerical Analysis, Finite Elements

prereq: MATH 38500 or equivalent and departmental permission
Hours 3
Credits 3
One of a two-semester group of courses presenting numerical analysis at the graduate level. This course is primarily for students in the applied math MA program.

MATH 79500 - Advanced Topics in Mathematics

Topics to be studied in any given term will be announced prior to registration.

prereq: varies with specific topics and will be announced at the time of course offering
Hours 3 hrs.
Credits 3 cr.
May be repeated as topics vary, but not more than twice.

Statistics

STAT 61200 - Discrete Probability

Combinatorics, discrete probability, random variables, probability models and an introduction to game theory. A study of discrete probability with particular attention paid to the integration of these topics into the school curriculum. This course is for current and prospective teachers.

prereq: a statistics course on or above the level of STAT 11300
Hours 3
Credits 3

STAT 61300 - An Introduction to Statistics

An Introduction to statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Data analysis uses appropriate statistical software. This course is intended for teachers.

Hours 3 hrs.
Credits 3 cr.

STAT 61400 - Data Analysis Using Statistical Software

A second course in statistics using statistical software to analyze real data and teach new methodology. Methods covered include exploratory data analysis, analysis of variance, simple and multiple regression, nonparametric statistics, and model building.

prereq: STAT 21300 or both MATH 12500 and STAT 11300 with C or better in each course.
Hours 3 hrs.
Credits 3 cr.
STAT 70100 - Advanced Probability Theory I

prereq: a course in multivariate calculus (MATH 25000 or equivalent) or permission of department
Hours 3 hrs.
Credits 3 cr.

STAT 70200 - Advanced Probability Theory II

Continuation of STAT 70100. Recurrent events, Markov chains, diffusion. Introduction to stochastic processes.

prereq: STAT 70100 or permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 70300 - Mathematical Statistics

prereq: permission of the department
Hours 3 hrs.
Credits 3 cr.

STAT 70600 - General Linear Models I

prereq: STAT 70100 and 70300 or equivalent or permission of department
Hours 3 hrs.
Credits 3 cr.

STAT 70700 - General Linear Models II

prereq: STAT 70600 or equivalent
Hours 3 hrs.
Credits 3 cr.

STAT 71400 - Topics in Statistical Inference
Topics vary but may be selected from multivariate analysis, regression, experimental design, time series, biostatistics.

*Hours 3 hrs.*  
*Credits 3 cr.*

**STAT 71500 - Time Series Analysis**

Introduction to univariate Box-Jenkins (difference equation) time-series modeling. Topics include ARIMA models; stationarity; forecasting; diagnostics; and seasonal modeling. Extensive use of process control and economic time series. Transfer function models.

*prereq: C or better in STAT 61400, or an equivalent introductory statistics course.*  
*Hours 3 hrs.*  
*Credits 3 cr.*

**STAT 71600 - Data Analysis**

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics selected from: data summaries; transformations; the jackknife and re sampling schemes; robust estimation; and robust regression methods.

*prereq: C or better in STAT 61400, or an equivalent introductory statistics course.*  
*Hours 3 hrs.*  
*Credits 3 cr.*  
*This course is cross-listed with BIOS 75600*

**STAT 71700 - Multivariate Analysis**

An introduction to multivariate methods. Topics selected from: factor analysis; discriminant analysis; clustering; multidimensional scaling; MANOVA; canonical correlation; and projection-pursuit.

*prereq: C or better in STAT 61400, or an equivalent introductory statistics course.*  
*Hours 3 hrs.*  
*Credits 3 cr.*

**STAT 71800 - Analysis of Variance**

Intermediate topics in analysis of variance (ANOVA), with an emphasis on exploratory aspects. Topics include: one-, two- and many way layouts; decomposition and partitioning of variance; fixed-, random-, and mixed-affects models; repeated measures; contrasts; multiple comparisons; and robust analogs.

*prereq: C or better in STAT 61400, or an equivalent introductory statistics course.*  
*Hours 3 hrs.*  
*Credits 3 cr.*  
*This course is cross-listed with BIOS 75800*

**STAT 72200 - Theory of Games**

Utility, zero-sum two-person games, minimax theorem or rectangular games. Relation to linear programming; applications to problems in economics and other fields.
prereq: a course in linear algebra and a course in probability
Hours 3 hrs.
Credits 3 cr.

**STAT 72400 - Topics in Applied Mathematics I**

Selected topics. Topics vary but may be selected from multivariate analysis, regression, experimental design, time series, biostatistics.

*prereq: permission of the department
Hours 3 hrs.
Credits 3 cr.*

**STAT 72500 - Topics in Applied Mathematics II**

Selected topics. Topics vary but may be selected from multivariate analysis, regression, experimental design, time series, biostatistics.

*prereq: permission of the department
Hours 3 hrs.
Credits 3 cr.*

**STAT 72600 - The Theory and Methods of Sampling**

*prereq: STAT 70100 or equivalent, or permission of the department
Hours 3 hrs.
Credits 3 cr.*

**STAT 73900 - Bayesian Statistics**

*prereq: prereq: C or better in STAT 61400, or permission of instructor. Adequate preparation in calculus and matrix algebra is assumed.
Hours 3
Credits 3*

**STAT 75000 - Applied Biostatistics I**

A first course in biostatistics for public health research. Topics include: simple and multiple linear regression; one-way and two-way analysis of variance; nonparametric tests. Focus on practical applications, utilizing statistical software.

*Cross-listed BIOS 75000*
prereq: C or better in STAT 21300 or an equivalent introductory statistics course. Not open to students who have taken STAT 21400 or STAT 61400. The prerequisites are also satisfied with the combination of PH 70000 and PH 70300.
Hours 3
Credits 3

STAT 75100 - Applied Biostatistics II

A second course in statistics covering quantitative methods applicable in the life sciences. Topics include experimental design, life table analysis, ethical issues, survival analysis, logistic regression, and Cox regression.

Cross-listed BIOS 75100
prereq: STAT 75000 or BIOS 75000 or an equivalent biostatistics course.
Hours 3 hrs.
Credits 3 cr.

STAT 75200 - Analysis of Categorical Data

An introduction to statistical models for analyzing categorical data, with emphasis on examples from the health sciences. Topics include: contingency tables and corresponding tests such as chi-square, CMH and trend test, count data, logistic regression, and log-linear models.

Cross-listed BIOS 75200
prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.
Hours 3
Credits 3

STAT 75300 - Analysis of Longitudinal Data

An introduction to statistical models and methods for analyzing longitudinal data in public health. Topics include: longitudinal designs and cohort sampling, general linear models for longitudinal data, marginal and random effects models, time-dependent covariates, missing values.

Cross-listed BIOS 75300
prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.
Hours 3
Credits 3

STAT 75400 - Design and Analysis of Complex Surveys

An introduction to statistical issues in the design and analysis of complex surveys, with a particular emphasis on public health research. Topics include: basic sampling techniques, stratified and cluster sampling, non-sampling errors, and case studies.

Cross-listed BIOS 75400
prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.
Hours 3
Credits 3
STAT 75500 - Survival Analysis

An introduction to regression modeling used in the analysis of time-to-event data in epidemiological, biostatistical, and other health-related research. Topics include: survival functions, proportional-hazards, parametric and competing-risks models, missing data and case studies.

Cross-listed BIOS 75500
prereq: C or better in STAT 61400 or STAT 75000 or BIOS 75000, or an equivalent statistics course.
Hours 3
Credits 3

STAT 76100 - Advanced Concepts in Financial Markets

Study of the essential techniques of pricing financial derivatives, including the Black-Scholes formula, binomial trees, and risk-neutral valuation methods. Discussion of trading strategies associated with the use of financial derivatives for different purposes such as hedging and speculation, and potential problems that can arise in the application of financial derivatives.

prereq: permission of the department
Hours 3
Credits 3

STAT 76200 - Stochastic Methods in Finance

Mathematical theory and probabilistic tools for modeling and analyzing security markets. Pricing options in complete and incomplete markets, equivalent martingale measures, utility maximization, interest rate models.

prereq: STAT 70100, STAT 70200, STAT 76100
Hours 3 hrs
Credits 3 cr.

STAT 78600 - Modeling and Visualization

The development of continuous mathematical models, the resolution of the resulting differential equations by numerical techniques and the visualization of the simulated data. Problems come from various areas of the social, biological and physical sciences.

prereq: Departmental permission
Hours 3
Credits 3

STAT 78700 - Statistical Models for Spatial Data

Spatial data and spatial models, intrinsic stationarity, large and small sample variation, the variogram, estimation of the variogram, prediction and kriging, spatial models on lattices, spatial point patterns.

prereq: STAT 70100 and STAT 70300 (theory); STAT 71600 or STAT 78600 (data analysis, programming); or permission of the instructor
Hours 3
Credits 3
STAT 79000 - Case Seminar

Students register for this course in the semester of their project presentation, but may attend throughout their tenure as graduate students. Designed to develop the student's ability to apply methods from statistics, probability or operations research to complex real problems.

prereq: permission of the department
Hours 3
Credits 3

STAT 79100 - Independent Study

Independent study in which a student selects a topic of interest to him or herself. The study is carried out under the direction of a faculty member.

Credits 1

STAT 79200 - Independent Study

Independent study in which a student selects a topic of interest to him or herself. The study is carried out under the direction of a faculty member.

Credits 2

STAT 79300 - Independent Study

Independent study in which a student selects a topic of interest to him or herself. The study is carried out under the direction of a faculty member.

Credits 3

Mathematics and Statistics: Courses offered only if student demand is sufficient

MATH 74100 - Functional Analysis

Hours 3
Credits 3

STAT 63800 - Special Topics in Applied Statistics

Hours 3
Credits 3

Programs and Courses in Medical Laboratory Sciences
Medical Laboratory Sciences

OVERVIEW

The Department of Medical Laboratory Sciences offers three graduate programs. The Advanced Certificate in Medical Technology provides an accelerated pathway for students with degrees in chemistry, biology or the physical sciences to meet NYS licensure requirements for clinical laboratory technologists. Clinical laboratory technologists perform analytical tests on patient samples and play an essential role in the diagnosis and treatment of disease. The Advanced Certificate in Cytotechnology prepares students for careers as cytotecnologists. It is offered by Hunter College in collaboration with Memorial Sloan Kettering Cancer Center. Cytotechnologists study cells from the human body to identify diseases, such as cancer, and monitor patient response to therapy. The MS in Biomedical Laboratory Management is intended to provide knowledge and skills needed by clinical laboratory technologists, research assistants and other types of laboratory professionals to transition into managerial positions. This program is offered as a collaboration between the Hunter College Dept. of Medical Laboratory Sciences and the School of Professional Studies, CUNY.

What can I do with my degree in Medical Laboratory Sciences?

The Advanced Certificate in Medical Technology enables students to become NYS licensed clinical laboratory technologists. Clinical laboratory technologists are highly trained professionals that work in a wide range of health related laboratories including hospital and private diagnostic labs. A license is required to work as a clinical laboratory technologist in NYS.

The Advanced Certificate in Cytotechnology is a professionally accredited and NYS licensure qualifying program that prepares graduates for the professional practice of cytotecology. Graduates work in hospital and private diagnostic laboratories.

The MS in Biomedical Laboratory Management is intended to provide working laboratory professionals with the knowledge and skills to enter positions of leadership in clinical/diagnostic, research, biotechnology, public health and pharmaceutical laboratories. This program is not NYS licensure qualifying for clinical laboratory technologists.

Graduate Program Director
Biomedical Laboratory Management-MS

The MS in Biomedical Laboratory Management (BLM) is a collaborative offering of the Medical Laboratory Sciences (MLS) Department of Hunter College and the School of Professional Studies, CUNY (SPS/CUNY). The purpose of this degree is to provide a career ladder for laboratory staff. Its focus is the knowledge and skills needed for clinical technologists, research assistants and other technical professionals in biomedical laboratories to move into positions of leadership. This degree does not provide NYS clinical licensure. Full details can be found at MS in Biomedical Laboratory Management (BLM).

Admission Requirements

See general graduate admission requirements for Hunter programs.

You must meet the following minimum requirements in order to be considered for admission. Meeting these minimum requirements does not guarantee acceptance to the program.

• A bachelor's degree in clinical lab science, biology, chemistry or a related discipline from a regionally accredited institution comparable in standard and content to a bachelor's degree from Hunter College.

• Minimum undergraduate grade point average of 3.0

• A course (or equivalent experience) in Molecular Biology (pre- or co-requisite)

• A minimum of one year of bench experience in a biomedical laboratory

• Two letters of recommendation from appropriate academic or professional references.

• A statement of purpose of approximately 500 words, including a bit about the path that brought you to this degree, and your motivation to pursue opportunities for a position in laboratory management.

• The GRE is not required for admission.

• Applicants whose native language is not English and who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit scores on the Test of English as a Foreign Language (TOEFL). The following minimum scores must be obtained:
Curriculum

The required 30 credits are divided between Hunter College, offering science and biomedicine classes, and the School of Professional Studies, CUNY, offering business and management classes. The MS degree will be granted by Hunter College following transfer of courses making up the Advanced Certificate in Management from SPS/CUNY.

Required courses from Hunter College are:

- Concepts of Disease: Diagnostic Strategies (MLS 70000)
- Emerging Laboratory Technologies (MLS 70100)
- Topics: Biohazards and Emergency Response (MLS 40066/MLS 77025)
- Management Practicum (MLS 71000)
- Risk Management for the Biomedical Laboratory (MLS 72000)

Courses from Hunter that may be used to fulfill the 6 credit elective requirement are:

- Graduate Independent Study (MLS 77000)
- Principles of Epidemiology (PH 75300)
- Introduction to Biostatistics PH 75000

The SPS certificate requires 9 credits (the required courses are shown below).

- Financial Management (MGMT 681)
- Organizational Behavior (ORG 680)
- Human Resource Management (MGMT 680)

In addition, the following courses may be used to fulfill the 6 credit elective requirement:

- Health Care Administration (HCA 600)
- Evaluation of Healthcare Policy (HCA 603)
- Labor-Management Relations (LABR 603)

Cytotechnology: Advanced Certificate

Cytotechnology is an allied health profession that specializes in the study of cells from the human body. Working with a microscope and a variety of technologies, some of which are automation-assisted, cytotechnologists evaluate cell samples from gynecologic (e.g., Pap smears), nongynecologic and fine needle aspiration (FNA) specimens to detect cancer, precancerous lesions, benign tumors, and infectious processes. Cytotechnologists are trained laboratory professionals who help to save lives by identifying diseases early on and monitoring a patient’s response to therapy.

The Hunter College Advanced Certificate (AC) in Cytotechnology prepares graduates for the professional practice of cytotechnology. It is an intense three-semester (Fall/Spring/Summer) training program that is administered in collaboration with Memorial Sloan Kettering Cancer Center (MSK). All training takes place in the laboratory facility of the MSK Cytology Service.
Program

The AC in Cytotechnology is a 26-credit graduate level post-baccalaureate certificate program within the Medical Laboratory Sciences (MLS) Department of Hunter College. It is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and is New York State (NYS) licensure qualifying. Upon successful completion of the AC, students will be eligible to sit for the national certification examination given by the American Society for Clinical Pathology Board of Certification. This examination is approved for NYS licensure purposes. Successful completion of the examination indicates attainment of entry level competency in the profession. Certified individuals are recognized with the designation CT(ASCP) – certified cytotechnologist.

Admission criteria

Admission criteria are designed to satisfy the requirements for cytotechnology curricula as described in Article 165, Section 52.39 of the Clinical Laboratory Technology Practice Act (http://www.op.nysed.gov/prof/clt/part52-39.htm). They consist of a baccalaureate or higher degree in the major of medical laboratory sciences, biology, chemistry or the physical sciences with the following pre-requisite courses or their equivalent as determined by the program: inorganic chemistry, organic chemistry, anatomy & physiology, cell biology, mathematics and statistics, human genetics, immunology and clinical microbiology. Minimum GPA of 3.0/4.0. The program does not grant credit for advanced placement courses or experiential learning. Visit Hunter College AC in Cytotechnology overview for additional important information prior to application.

NYS Licensure Curricular Requirements for Registered Cytotechnology Programs

The curriculum for the AC in cytotechnology was developed to meet the coursework and curricular content stipulated in NYS regulations, Section 52.39: Registration of Curricula for programs seeking registration as a cytotechnology licensure-qualifying program. It contains didactic and clinical training as well as supervised clinical experience within the MSKCC Cytology laboratory throughout the span of the three semester program.

Cytotech courses

**MLS 63000 - Introduction to Cytopathology**

Students will be introduced to the discipline of cytopathology including historical perspective, established terminology, basic cell structure and cell biology and concepts of cellular response to injury and neoplasia. The applicability of immunochemistry, cytogenetics and other molecular studies to cytology specimens will also be discussed.

*prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.*
*Hours 1 hr*
*Credits 1 cr.*
*fall only*

**MLS 63200 - Gynecologic Cytopathology**

Students will be introduced to the cytopathology of infectious, inflammatory, premalignant, and malignant pathologic processes of the female genital tract. They will learn how to identify benign and abnormal cytologic findings in gynecologic specimens and formulate preliminary and differential diagnoses.

*prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.*
**MLS 63500 - Microscopic Evaluation 1**

This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance. (limited to gynecologic, respiratory and gastrointestinal specimens)

**coreq:** MLS 63000, MLS 63200 and MLS 64000

**Hours** 4 hrs

**Credits** 4 cr.

fall only

**MLS 63600 - Microscopic Evaluation 2**

This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance.

**prereq:** MLS 63500; enrollment in the AC Cytotechnology Program or departmental permission required.

**coreq:** MLS 64100, MLS 65000 & MLS 65100

**Hours** 2 hrs

**Credits** 2 cr.

fall only

**MLS 63700 - Microscopic Evaluation 3**

An extension of MLS 63500 and MLS 63600. Students continue to apply acquired didactic material in a supervised clinical practice setting acquiring speed and proficiency in cytologic screening. This course also allows students to gain experience in fine needle aspiration specimen adequacy assessment and specimen triage for ancillary studies. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance.

**prereq:** MLS 63600; enrollment in the AC Cytotechnology Program or departmental permission required.

**Hours** 4 hrs

**Credits** 2 cr.

**8-week summer session I**

**MLS 64000 - Exfoliative Cytopathology 1**

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections,
inflammation and benign and malignant neoplasms) of the respiratory and gastrointestinal tracts. Students will learn how to assess respiratory and gastrointestinal specimens for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

**prereq:** enrollment in the AC Cytotechnology Program or departmental permission required.  
**coreq:** MLS 63000  
**Hours** 2  
**Credits** 2 cr.  
**fall only**

**MLS 64100 - Exfoliative Cytopathology 2**

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections, inflammation and benign and malignant neoplasms) of the urinary tract, body cavities and central nervous system. Students will learn how to assess specimens from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

**prereq:** MLS 64000; enrollment in the AC Cytotechnology Program or departmental permission required.  
**Hours** 2 hrs  
**Credits** 2 cr.  
**spring only**

**MLS 64400 - Research Methods 1**

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

**prereq:** enrollment in the AC Cytotechnology Program or departmental permission required.  
**coreq:** MLS 63000, MLS 63200 and MLS 64000  
**Hours** 1 hr  
**Credits** 1 cr.  
**fall only**

**MLS 64500 - Research Methods 2**

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

**prereq:** MLS 64400; enrollment in the AC Cytotechnology Program or departmental permission required.  
**coreq:** MLS 64100, MLS 65000, MLS 65100  
**Hours** 1  
**Credits** 1 cr.  
**spring only**

**MLS 64600 - Research Methods 3**

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.
prereq: MLS 64500; enrollment in the AC Cytotechnology Program or departmental permission required.
Hours 2 hrs
Credits 1 cr.
8-week summer session I

**MLS 64700 - Cytopreparatory Techniques 1**

Provides instruction and hands-on experience in the basic principles of cytopreparation and applicable quality assurance and quality control activities. Students learn established cytopreparatory techniques, such as smear preparation cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 630
Hours 1 hr
Credits 1 cr.
fall only

**MLS 64800 - Cytopreparatory Techniques 2**

A continuation of MLS 64700; provides more in-depth instruction in laboratory safety and additional hands-on experience in cytopreparation. Students learn established cytopreparatory techniques such as smear preparation cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

prereq: MLS 64700; enrollment in the AC Cytotechnology Program or instructor permission required.
Hours 1 hr
Credits 1 cr.

**MLS 64900 - Cytopreparatory Techniques 3**

A continuation of MLS 64700 and MLS 64800; provides more hands-on experience in cytopreparation. Students apply principles of established cytopreparatory techniques and quality control under the supervision of licensed clinical personnel.

prereq: MLS 64800; enrollment in the AC Cytotechnology Program or instructor permission required.
Hours 2 hrs
Credits 1 cr.
8-week summer session I

**MLS 65000 - Fine Needle Aspiration Cytology 1**

Provides instruction in the principles of fine needle aspiration cytopathology of the lung, mediastinum, breast, thyroid, salivary gland and lymph nodes. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required
Hours 2 hrs
Credits 2 cr.
spring only
MLS 65100 - Fine Needle Aspiration Cytology 2

Provides instruction in the principles of fine needle aspiration cytopathology of the liver, pancreas, kidney, adrenal glands, retroperitoneum, bone and soft tissue. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.
Hours 2 hrs
Credits 2 cr.
spring only

MLS 65200 - Cytology Laboratory Management and Operations

Provides instruction in the management principles of a cytology laboratory including regulatory requirements, laboratory safety, quality management, quality assurance, quality control and equipment maintenance.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.
Hours 2 hrs
Credits 1 cr.
8-week summer session 1

CAAHEP Accreditation Curriculum Requirements and Cytotechnologist Entry-Level Competencies

The AC in cytotechnology curriculum is also designed to meet CAAHEP accreditation standards which mandate that a program's curriculum in cytotechnology is robust enough to prepare students to meet defined entry-level competencies. These competencies are developed by the Cytotechnology Programs Review Committee (CPRC), the cytotechnology accreditation arm for CAAHEP, with input from communities of interest that have a stake in the cytotechnology profession. They represent minimum competencies that cytotechnology graduates must be able to demonstrate upon entering the profession. These entry-level competencies are reviewed on a periodic basis by the CPRC and with input from communities of interest to ensure that they reflect the current practice of cytotechnology. The AC in cytotechnology curriculum meets accreditation entry-level competencies and will be reviewed periodically to ensure that these accreditation standards are met when entry-level competency revisions are made by the CPRC/CAAHEP.

CAAHEP accreditation also requires that programs must ensure that students have a minimum of 28 credits of sciences including chemistry and the biological sciences and 3 credits of mathematics and/or statistics upon graduation from a cytotechnology program. These requirements will be satisfied either within the AC program or as prerequisite coursework prior to admission to the AC program.

Medical Laboratory Technology: Advanced Certificate

Program

The Post-baccalaureate Certificate in Medical Technology 15-credit course of study was developed within the Medical Laboratory Sciences (MLS) Department to help meet the increasing demand for qualified, licensed medical technologists. It provides an opportunity for students with degrees in chemistry, biology, or the physical sciences to
meet licensing standards without having to acquire a second baccalaureate degree. An accelerated path, this program can be completed in 12-13 months, and, if followed by successful completion of the licensure examination, allows immediate entry to the profession. Visit the program website for crucial information prior to application.

Admission Requirements

- A baccalaureate degree in the biological, chemical, or physical sciences.
- Completion of certain pre-requisite courses: general biology (or anatomy and physiology), general chemistry
- Achievement of a minimum GPA of 3.0 in the degree and the pre-requisite courses

Requirements for the Certificate

Admission to and completion of the AC is a competitive and demanding process. Students enrolled in the certificate program take MLS 60000 in Summer Session I. Upon successful completion they are assigned to a clinical affiliate beginning on August 1st for 10 months of full time clinical training divided into 2-month rotations. The curriculum is as follows:

Required Courses

**MLS 60000 - Fundamental Concepts and Techniques in the Medical Laboratory**

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment. Mastery of additional content and an independent project are required of graduate students.

*This course is cross-listed with MLS 30000.*

*prereq: BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv. and admission to the post-baccalaureate certificate program in Medical Laboratory Technology*

*Hours 3 (2 lecture, 1 lab)*

*Credits 3*

**MLS 61000 - Clinical Practicum in Medical Laboratory Technology I**

This course (and MLS 62000) comprise the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology.

*prereq: Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology*

*Credits 6*

**MLS 62000 - Clinical Practicum in Medical Laboratory Technology II**

This course (with MLS 61000) provides training in the 6 clinical practice areas (3 per course) needed to complete the post-baccalaureate certificate in Medical Laboratory Technology.

*prereq: Admission to the Post-baccalaureate Certificate Program in Medical Laboratory Technology*

*Credits 6*

Medical Laboratory Sciences

MLS 70000 - Concepts of Disease: Diagnostic Strategies

This course will explore newly described and established disease syndromes from the perspective of strategizing for effective laboratory diagnosis and management. Broad strategies such as classical biochemistry and cultivation, immunochemical, molecular or histochemical techniques are compared using original literature. Upon completion, students will be able to design a rational and cost effective laboratory strategy based on fundamental science; skills will also have application to biomedical laboratory research, assisting in the development of protocols for fundable projects.

Hours 3
Credits 3

MLS 70100 - Emerging Laboratory Technologies

Developed as a complement to MLS 70000, this course explores new technologies in the biomedical laboratory. Such areas as genomics, proteomics, immunohistochemistry and cytogenetics have been developed recently and may not have been covered in the student's previous scientific education. Students completing this course will have the skills to perform and/or supervise a wide range of analyses, and as managers they will be able to evaluate complex technologies for adoption.

Hours 3
Credits 3

MLS 71000 - Management Practicum

Students will be employed in laboratory sites in hospital and proprietary clinical laboratories, research institutions, and academic laboratories to gain experience as management interns. Schedules will be arranged to meet the needs of students and sites, and a minimum of 150 hours will be required. A site-based mentor will support design and implementation of the project. Students will prepare an extensive project report in print and presentation format. Students completing this capstone course will be able to apply for positions in an area of biomedical laboratory management that reflects their unique combination of technical and management expertise.

Hours 3
Credits 3

MLS 72000 - Risk Management for the Biomedical Laboratory
The biomedical lab must manage risk from diverse origins, including lab/medical hazards, government oversight, and fiscal sources similar to any business entity. This case based course will explore each of these with model interventions.

**prereq:** Department Permission

**Hours** 3

**Credits** 3

**MLS 77000 - Graduate Independent Study**

Students with a background or strong interest in working in biomedical research labs will gain experience by participating in the ongoing projects of MLS faculty. A minimum 2-semester commitment, and significant weekly hours will be expected, with accountability to research mentor and academic director.

**prereq:** Department Permission

**Hours** 3

**Credits** 3

**MLS 77025 - Topics: Biohazards and Emergency Response**

The biology of microorganisms and toxins most frequently considered in perpetrated terrorist attacks. It also considers technology for detection and control for first responders, lab practitioners and other healthcare professionals, as well as emergency communication and prevention. In addition to regular classroom instruction, students participate in group projects to simulate bioterrorism events and responses. Government regulation, chain of evidence and related topics are covered in this course.

**prereq:** Departmental permission

**Hours** 3 hrs.

**Credits** 3 cr.

**Cytotechnology**

**MLS 63000 - Introduction to Cytopathology**

Students will be introduced to the discipline of cytopathology including historical perspective, established terminology, basic cell structure and cell biology and concepts of cellular response to injury and neoplasia. The applicability of immunochemistry, cytogenetics and other molecular studies to cytology specimens will also be discussed.

**prereq:** Enrollment in the AC Cytotechnology Program or departmental permission required.

**Hours** 1 hr

**Credits** 1 cr.

**fall only**

**MLS 63200 - Gynecologic Cytopathology**

Students will be introduced to the cytopathology of infectious, inflammatory, premalignant, and malignant pathologic processes of the female genital tract. They will learn how to identify benign and abnormal cytologic findings in gynecologic specimens and formulate preliminary and differential diagnoses.

**prereq:** Enrollment in the AC Cytotechnology Program or departmental permission required.

**coreq:** MLS 63000
MLS 63500 - Microscopic Evaluation 1

This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance. (limited to gynecologic, respiratory and gastrointestinal specimens)

coreq: MLS 63000, MLS 63200 and MLS 64000

MLS 63600 - Microscopic Evaluation 2

This course allows students to apply acquired didactic material in a supervised clinical practice setting. Students are assigned microscopic screening assignments and expected to detect, select and appropriately mark cellular findings most representative of a pathologic process, if present. Students will correlate microscopic findings with clinical information, past history and concurrent histologic specimens and compose a preliminary cytologic interpretation using an established system of terminology. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance.

prereq: MLS 63500; enrollment in the AC Cytotechnology Program or departmental permission required.

coreq: MLS 64100, MLS 65000 & MLS 65100

MLS 63700 - Microscopic Evaluation 3

An extension of MLS 63500 and MLS 63600. Students continue to apply acquired didactic material in a supervised clinical practice setting acquiring speed and proficiency in cytologic screening. This course also allows students to gain experience in fine needle aspiration specimen adequacy assessment and specimen triage for ancillary studies. Students are assigned to licensed cytotechnologists who re-screen their slides and provide immediate feedback regarding performance.

prereq: MLS 63600; enrollment in the AC Cytotechnology Program or departmental permission required.

MLS 64000 - Exfoliative Cytopathology 1

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections, inflammation and benign and malignant neoplasms) of the respiratory and gastrointestinal tracts. Students will learn
how to assess respiratory and gastrointestinal specimens for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 63000
Hours 2
Credits 2 cr.
fall only

MLS 64100 - Exfoliative Cytopathology 2

Provides instruction in the principles of non-gynecologic exfoliative cytopathology including basic anatomy, embryology, histology, physiology, pathology, endocrinology, and diagnostic cytopathology (e.g., infections, inflammation and benign and malignant neoplasms) of the urinary tract, body cavities and central nervous system. Students will learn how to assess specimens from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: MLS 64000; enrollment in the AC Cytotechnology Program or departmental permission required.
Hours 2 hrs
Credits 2 cr.
spring only

MLS 64400 - Research Methods 1

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

prereq: enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 63000, MLS 63200 and MLS 64000
Hours 1 hr
Credits 1 cr.
fall only

MLS 64500 - Research Methods 2

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.

prereq: MLS 64400; enrollment in the AC Cytotechnology Program or departmental permission required.
coreq: MLS 64100, MLS 65000, MLS 65100
Hours 1
Credits 1 cr.
spring only

MLS 64600 - Research Methods 3

Students will explore cytopathology research in the scientific literature. They will learn basic principles of experimental design, laboratory techniques and data collection and interpretation. They will gain experience in the evaluation and communication of the scientific literature through oral presentations and written exercises.
prereq: MLS 64500; enrollment in the AC Cytotechnology Program or departmental permission required.  
Hours 2 hrs  
Credits 1 cr.  
8-week summer session I

**MLS 64700 - Cytopreparatory Techniques 1**

Provides instruction and hands-on experience in the basic principles of cytopreparation and applicable quality assurance and quality control activities. Students learn established cytopreparatory techniques, such as smear preparation cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

*prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.  
coreq: MLS 630  
Hours 1 hr  
Credits 1 cr.  
fall only*

**MLS 64800 - Cytopreparatory Techniques 2**

A continuation of MLS 64700; provides more in depth instruction in laboratory safety and additional hands-on experience in cytopreparation. Students learn established cytopreparatory techniques such as smear preparation cytocentrifugation, pipetting, liquid-based processing, staining and coverslipping and how to identify and troubleshoot issues that may occur during specimen handling and processing.

*prereq: MLS 64700; enrollment in the AC Cytotechnology Program or instructor permission required.  
Hours 1 hr  
Credits 1 cr.  

**MLS 64900 - Cytopreparatory Techniques 3**

A continuation of MLS 64700 and MLS 64800; provides more hands-on experience in cytopreparation. Students apply principles of established cytopreparatory techniques and quality control under the supervision of licensed clinical personnel.

*prereq: MLS 64800; enrollment in the AC Cytotechnology Program or instructor permission required.  
Hours 2 hrs  
Credits 1 cr.  
8-week summer session I  

**MLS 65000 - Fine Needle Aspiration Cytology 1**

Provides instruction in the principles of fine needle aspiration cytopathology of the lung, mediastinum, breast, thyroid, salivary gland and lymph nodes. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

*prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.  
Hours 2 hrs  
Credits 2 cr.  
spring only*
MLS 65100 - Fine Needle Aspiration Cytology 2

Provides instruction in the principles of fine needle aspiration cytopathology of the liver, pancreas, kidney, adrenal glands, retroperitoneum, bone and soft tissue. Students will learn how to assess cytologic specimens procured from these sites for benign and abnormal cytologic findings and formulate preliminary and differential diagnoses.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.
Hours 2 hrs
Credits 2 cr.
spring only

MLS 65200 - Cytology Laboratory Management and Operations

Provides instruction in the management principles of a cytology laboratory including regulatory requirements, laboratory safety, quality management, quality assurance, quality control and equipment maintenance.

prereq: Enrollment in the AC Cytotechnology Program or departmental permission required.
Hours 2 hrs
Credits 1 cr.
8-week summer session I

Programs and Courses in Music

Music

OVERVIEW

The Department of Music at Hunter College offers a variety of courses and degree programs catering to the needs of a diverse student body. Graduate degree programs include Master of Arts with a variety of concentrations and Master of Arts in Teacher Education. Courses include topics in performance, composition, music theory, music history, ethnomusicology, and music education. Private lessons are available on all instruments and voice, either with Hunter faculty members or with expert teachers outside the College. There are approximately 75 graduate students in the department. In addition to academic courses and private lessons, the Music Department sponsors activities such as concerts, lectures, master classes, and social events.

The MA program in music offers students an opportunity to grow as musicians by refining their skills as scholars, teachers and performers. The department encourages its graduate students to take courses both of a broad scope and of a detailed nature. Performance students are permitted to take private lessons for up to 12 credits with a Hunter College faculty member or one of the instructors who serve as performance associates on the faculty (see http://www.hunter.cuny.edu/music/grad-students/courseinfo/lessons for details). Students may also study with an outside teacher of their choice, pending approval by the department. The Cutler Scholarships in Orchestral Performance offers new opportunities for MA students who qualify to be leaders in the orchestral and chamber music programs.

The Department of Music offers courses of study leading to the MA degree, with concentrations in composition, ethnomusicology, musicology, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

Programs and Courses
•  Music - MA
•  Music Teacher Education - BA/MA
Admission requirements and other information about the Music Education (Pre-K-12) MA program is available through the School of Education.

•  Music Education PreK-12 - MA

Master's Programs

Music - Composition

The MA program in music offers students an opportunity to grow as musicians by refining their skills as scholars, teachers and performers. The department encourages its' graduate students to take courses both of a broad scope and of a detailed nature. Performance students are permitted to take private lessons for up to 12 credits with a Hunter College faculty member or one of the instructors who serve as performance associates on the faculty (see http://www.hunter.cuny.edu/music/grad-students/courseinfo/lessons for details). Students may also study with an outside teacher of their choice, pending approval by the department. The Cutler Scholarships in Orchestral Performance offers new opportunities for MA students who qualify to be leaders in the orchestral and chamber music programs.

The Department of Music offers courses of study leading to the MA degree, with concentrations in composition, ethnomusicology, musicology, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

For admissions requirements, see http://www.hunter.cuny.edu/music/gradstudents/admissions/ma-music.
Requirements for the degree program:

Core Courses:

**MUS 70000 - Music Bibliography and Research Techniques**

Study of sources and bibliographical methods as applied to musical material.

*Hours 3 hrs  
Credits 3 cr*  

6 credits from:

**MUS 72400 - Advanced Studies in Music Theory 1**

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

*prereq: 4 sem. of undergraduate music theory courses  
Hours 3 hrs  
Credits 3 cr*  

**MUS 72500 - Advanced Studies in Music Theory 2**

Analysis and theory of compositional styles from 1900 to the present.

*prereq: 4 sem. of undergraduate music theory courses  
Hours 3 hrs  
Credits 3 cr*  

**MUS 74000 - Seminar in Music Theory and Analysis**

Speculative theory, aesthetics, and scientific dimensions of music; detailed analysis of works relevant to theoretical problems under investigation. Topics to be announced.

*Hours 3 hrs  
Credits 3 cr  
May be taken 3 times for credit.*

3 credits from:

**MUS 75100 - Advanced Studies in Musicology 1**

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

*Hours 3 hrs  
Credits 3 cr.*

**MUS 75200 - Advanced Studies in Musicology 2**
Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

*Hours 3 hrs*
*Credits 3 cr*

**MUS 76000 - Seminar in Musicology**

Problems in research and analysis in selected areas of musicology.

*Hours 3 hrs*
*Credits 3 cr*
*May be taken twice for credit.*

3 credits from:

**MUS 77500 - Seminar in Ethnomusicology 1**

A history of the discipline; the development of theories and methods; selected problems.

*Hours 3 hrs*
*Credits 3 cr*

**MUS 77600 - Seminar in Ethnomusicology 2**

Field research as a principal means of data collection and theory testing in ethnomusicology. Preparation of the research design, application of data-gathering techniques, adaptation to the field, and data analysis.

*Hours 3 hrs*
*Credits 3 cr*

**MUS 75300 - Transcription and Analysis in Ethnomusicology**

Critical examination and application of contemporary techniques to selected examples from various cultures.

*Hours 3 hrs*
*Credits 3 cr*

**Required Courses for Composition Concentration:**

**MUS 73500 - Orchestration**

Study of the capabilities of musical instruments; analysis of orchestration techniques; arranging compositions for various instrumental combinations.

*prereq: 2 semesters of undergraduate music theory and permission of the instructor*
*Hours 3 hrs*
*Credits 3 cr*
MUS 78500 - Private Lessons in Composition 1

Advanced individualized training in original music composition.

*prereq: departmental consent
Hours 1
Credits 3

MUS 78600 - Private Lessons in Composition 2

Advanced individualized training in original music composition.

*prereq: MUS 78500
Hours 3 hrs
Credits 3 cr.

MUS 78700 - Private Lessons in Composition 3

Advanced individualized training in original music composition.

*prereq: MUS 78600
Hours 3 hrs
Credits 3 cr.

MUS 79900 - Thesis in Composition

Individual study of composition under supervision.

Credits 3 cr

Music - Ethnomusicology

The MA program in music offers students an opportunity to grow as musicians by refining their skills as scholars, teachers and performers. The department encourages its' graduate students to take courses both of a broad scope and of a detailed nature. Performance students are permitted to take private lessons for up to 12 credits with a Hunter College faculty member or one of the instructors who serve as performance associates on the faculty (see http://www.hunter.cuny.edu/music/grad-students/courseinfo/lessons for details). Students may also study with an outside teacher of their choice, pending approval by the department. The Cutler Scholarships in Orchestral Performance offers new opportunities for MA students who qualify to be leaders in the orchestral and chamber music programs.

The Department of Music offers courses of study leading to the MA degree, with concentrations in composition, ethnomusicology, musicology, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

For admissions requirements, see http://www.hunter.cuny.edu/music/gradstudents/admissions/ma-music.

Requirements for the degree program:

Core Courses:
MUS 70000 - Music Bibliography and Research Techniques

Study of sources and bibliographical methods as applied to musical material.

Hours 3 hrs
Credits 3 cr

6 credits from:

MUS 72400 - Advanced Studies in Music Theory 1

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

prereq: 4 sem. of undergraduate music theory courses
Hours 3 hrs
Credits 3 cr

MUS 72500 - Advanced Studies in Music Theory 2

Analysis and theory of compositional styles from 1900 to the present.

prereq: 4 sem. of undergraduate music theory courses
Hours 3 hrs
Credits 3 cr

MUS 74000 - Seminar in Music Theory and Analysis

Speculative theory, aesthetics, and scientific dimensions of music; detailed analysis of works relevant to theoretical problems under investigation. Topics to be announced.

Hours 3 hrs
Credits 3 cr
May be taken 3 times for credit.

6 credits from:

MUS 75100 - Advanced Studies in Musicology 1

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

Hours 3 hrs
Credits 3 cr

MUS 75200 - Advanced Studies in Musicology 2

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.
MUS 76000 - Seminar in Musicology

Problems in research and analysis in selected areas of musicology.

Hours 3 hrs
Credits 3 cr
May be taken twice for credit.

3 credits of electives from:
MUS 71000–71900 or MUS 72100 (1 cr. each)

Required Courses for Ethnomusicology Concentration:

ANTH 70100 - Foundations of Anthropology

Surveys history and methods of anthropology, and provides an introduction to the social theories employed in anthropological research.

Hours 3 hrs, including conferences.
Credits 3 cr
All students must consult with the graduate adviser before registering for any course.

MUS 75300 - Transcription and Analysis in Ethnomusicology

Critical examination and application of contemporary techniques to selected examples from various cultures.

Hours 3 hrs
Credits 3 cr

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

Credits 3 cr

MUS 77500 - Seminar in Ethnomusicology 1

A history of the discipline; the development of theories and methods; selected problems.

Hours 3 hrs
Credits 3 cr

Music - Jazz Performance
The MA program in music offers students an opportunity to grow as musicians by refining their skills as scholars, teachers and performers. The department encourages its' graduate students to take courses both of a broad scope and of a detailed nature. Performance students are permitted to take private lessons for up to 12 credits with a Hunter College faculty member or one of the instructors who serve as performance associates on the faculty (see http://www.hunter.cuny.edu/music/grad-students/courseinfo/lessons for details). Students may also study with an outside teacher of their choice, pending approval by the department. The Cutler Scholarships in Orchestral Performance offers new opportunities for MA students who qualify to be leaders in the orchestral and chamber music programs.

The Department of Music offers courses of study leading to the MA degree, with concentrations in composition, ethnomusicology, musicology, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

For admissions requirements, see http://www.hunter.cuny.edu/music/gradstudents/admissions/ma-music.

Requirements for the degree program:

Core Courses:

**MUS 73800 - Jazz Harmony and Arranging**

Study of jazz harmony and rhythm, jazz composition, and jazz arranging and its application to commercial music.

*prereq: MUSTH 20100, 22100, 23100 -or-permission of department
Hours 3 hrs
Credits 3 cr*

**MUS 73900 - Jazz Improvisation**

Study and performance of jazz improvisational techniques.

*prereq: MUS 73800 or permission of department.
Hours 3 hrs
Credits 3 cr*

**MUS 74100 - Introduction to Songwriting**

This course will provide an opportunity for students to learn to compose original music with and without lyrics in the context of 20th and 21st century popular music song forms. The principles of composing melodies, creating chord progressions, writing lyrics, and structuring song form will be addressed throughout the semester. An analysis of the music and lyrics of significant songwriters will serve as musical examples. Additional time will be spent on improvisation, arranging techniques, music theory, computer notation and sequencing software, and the business of music.

*prereq or coreq: permission of the instructor
Hours 3 hrs
Credits 3 cr.*

**MUS 75300 - Transcription and Analysis in Ethnomusicology**

Critical examination and application of contemporary techniques to selected examples from various cultures.
3 credits from:

**MUS 72400 - Advanced Studies in Music Theory 1**

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

**prereq:** 4 sem. of undergraduate music theory courses

**Hours 3 hrs**

**Credits 3 cr**

**MUS 72500 - Advanced Studies in Music Theory 2**

Analysis and theory of compositional styles from 1900 to the present.

**prereq:** 4 sem. of undergraduate music theory courses

**Hours 3 hrs**

**Credits 3 cr**

**MUS 74000 - Seminar in Music Theory and Analysis**

Speculative theory, aesthetics, and scientific dimensions of music; detailed analysis of works relevant to theoretical problems under investigation. Topics to be announced.

**Hours 3 hrs**

**Credits 3 cr**

May be taken 3 times for credit.

**MUS 75100 - Advanced Studies in Musicology 1**

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

**Hours 3 hrs**

**Credits 3 cr.**

**MUS 75200 - Advanced Studies in Musicology 2**

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

**Hours 3 hrs**

**Credits 3 cr**

**MUS 76000 - Seminar in Musicology**

Problems in research and analysis in selected areas of musicology.
Hours 3 hrs  
Credits 3 cr  
May be taken twice for credit.

MUS 77500 - Seminar in Ethnomusicology 1

A history of the discipline; the development of theories and methods; selected problems.

Hours 3 hrs  
Credits 3 cr

3 credits of elective from:
MUS 71000–71900 or MUS 72100 (1 cr. each)

Required Courses for Jazz Performance Concentration:

MUS 78100 - Private Study in Instrument or Voice 1

For performance concentrators.

prereq: departmental consent  
Hours 1 hr  
Credits 3 cr

MUS 78200 - Private Study in Instrument or Voice 2

For performance concentrators.

prereq: MUS 78100  
Hours 1 hr  
Credits 3 cr

MUS 78300 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3 cr

MUS 78400 - Private Study in Instrument or Voice

For performance concentrators.

Credits 3 cr

Music - MA

Return to: Music Department
The MA program in music offers students an opportunity to grow as musicians by refining their skills as scholars, teachers and performers. The department encourages its' graduate students to take courses both of a broad scope and of a detailed nature. Performance students are permitted to take private lessons for up to 12 credits with a Hunter College faculty member or one of the instructors who serve as performance associates on the faculty (see http://www.hunter.cuny.edu/music/grad-students/courseinfo/lessons for details). Students may also study with an outside teacher of their choice, pending approval by the department. The Cutler Scholarships in Orchestral Performance offers new opportunities for MA students who qualify to be leaders in the orchestral and chamber music programs.

The Department of Music offers courses of study leading to the MA degree, with concentrations in composition, ethnomusicology, musicology, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

For admissions requirements, see http://www.hunter.cuny.edu/music/gradstudents/admissions/ma-music.

- Music - Composition
- Music - Ethnomusicology
- Music - Jazz Performance
- Music - Music Theory
- Music - Musicology
- Music - Performance

Requirements for the Degree

The following programs are required for students concentrating in composition, ethnomusicology, music history, music theory, and performance. Modifications to these programs may be made in consultation with the graduate adviser.

Foreign Language

The candidate must demonstrate a reading knowledge of a foreign language, preferably French, German, or Italian. The foreign-language examination must be passed before a student may proceed beyond 18 credits.

Proficiency Examination

Students admitted to the program must take a proficiency examination during the first two semesters of matriculation in order to remain in the program. This examination will test competence in music theory, music history and literature, and applied skills. Deficiencies revealed by the proficiency examination must be made up by studying the relevant subject matter and passing a reexamination. The proficiency examination requirement must be fulfilled before a student may proceed beyond 18 credits.

Thesis or Final Project

A final project consisting of a thesis, a public recital, or another approved piece of work (such as a research project in music education, a lecture-recital, or an internship plus a written report) is required of each student. This project may receive 0-3 credits, depending on the nature and scope of the work involved. A written proposal must be approved by the music department before a student may begin work on the project. Approval of the completed project requires the agreement of two faculty members.

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)
Individual research under supervision.

Credits 3 cr

**MUS 79900 - Thesis in Composition**

Individual study of composition under supervision.

Credits 3 cr

**Music - Music Theory**

The MA program in music offers students an opportunity to grow as musicians by refining their skills as scholars, teachers and performers. The department encourages its' graduate students to take courses both of a broad scope and of a detailed nature. Performance students are permitted to take private lessons for up to 12 credits with a Hunter College faculty member or one of the instructors who serve as performance associates on the faculty (see [http://www.hunter.cuny.edu/music/grad-students/courseinfo/lessons](http://www.hunter.cuny.edu/music/grad-students/courseinfo/lessons) for details). **Requirements for the degree program:**

**Core Courses:**

**MUS 70000 - Music Bibliography and Research Techniques**

Study of sources and bibliographical methods as applied to musical material.

*Hours 3 hrs*

*Credits 3 cr*

9 credits from:

**MUS 72400 - Advanced Studies in Music Theory 1**

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

*prereq: 4 sem. of undergraduate music theory courses*

*Hours 3 hrs*

*Credits 3 cr*

**MUS 72500 - Advanced Studies in Music Theory 2**
Analysis and theory of compositional styles from 1900 to the present.

**prereq:** 4 sem. of undergraduate music theory courses

*Hours 3 hrs
Credits 3 cr*

**MUS 74000 - Seminar in Music Theory and Analysis**

Speculative theory, aesthetics, and scientific dimensions of music; detailed analysis of works relevant to theoretical problems under investigation. Topics to be announced.

*Hours 3 hrs
Credits 3 cr
May be taken 3 times for credit.*

6 credits from:

**MUS 75100 - Advanced Studies in Musicology 1**

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

*Hours 3 hrs
Credits 3 cr*

**MUS 75200 - Advanced Studies in Musicology 2**

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

*Hours 3 hrs
Credits 3 cr*

**MUS 76000 - Seminar in Musicology**

Problems in research and analysis in selected areas of musicology.

*Hours 3 hrs
Credits 3 cr
May be taken twice for credit.*

6 credits from:

**MUS 77500 - Seminar in Ethnomusicology 1**

A history of the discipline; the development of theories and methods; selected problems.

*Hours 3 hrs
Credits 3 cr*
MUS 77600 - Seminar in Ethnomusicology 2

Field research as a principal means of data collection and theory testing in ethnomusicology. Preparation of the research design, application of data-gathering techniques, adaptation to the field, and data analysis.

*Hours 3 hrs*
*Credits 3 cr*

MUS 75300 - Transcription and Analysis in Ethnomusicology

Critical examination and application of contemporary techniques to selected examples from various cultures.

*Hours 3 hrs*
*Credits 3 cr*

3 credits of elective from:
MUS 71000–71900 or MUS 72100 (1 cr. each)

Required Courses for Music Theory Concentration:

MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)

Individual research under supervision.

*Credits 3 cr*

**Undergraduate Major/Graduate Masters**

**Music Teacher Education - BA/MA**

Return to: Music Department

Exceptionally qualified undergraduate students may obtain a master’s degree in teacher education in 5-6 years with a minimum of 140 credits. Requirements are the same as those for the 42-credit BA plus those for the MA in teacher education (45 credits at the graduate level). Matriculation is open to undergraduates with at least 60 credits who have a cumulative grade point average of 3.0 or better and a major subject index of at least 3.0. Students must have completed at least 24 credits of course work in music, including at least two semesters of music history, four semesters of music theory, and four semesters of musicianship (sight singing, ear training, and keyboard studies). At least 12 credits, including at least 6 credits in music major courses, must have been taken at Hunter College. Students must have passed the music department’s piano proficiency examination, and they must demonstrate reasonable mastery on an instrument (which may be a keyboard instrument) or voice. They must be admitted to the program by both the music department
and the School of Education. They must maintain the grade point averages required for admission at all times in order to remain in the program; see

http://www.hunter.cuny.edu/music/grad-students/admissions/ba-ma/?searchterm=ba/ma for details.

Education: Music Education

MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12

Organization and administration of school instrumental programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques, including a review of principles of performance for strings, woodwinds, brass, and percussion; classroom management strategies; supervised fieldwork in applying these topics.

prereq or coreq: SEDF 70400
Hours 3 hrs plus 18 hrs of fieldwork
Credits 2 cr

MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12

Organization and administration of school vocal programs serving diverse student populations; New York State standards in the arts; rehearsal, teaching, and conducting techniques; an overview of technology, content, and materials of the nonperforming general music curriculum; classroom management strategies; supervised fieldwork in applying these topics.

prereq: MUSED 67700
prereq or coreq: SEDF 70500
Hours 3 hrs plus 18 hrs fieldwork,
Credits 2 cr

Music

For students not concentrating in performance.

*Hours 1 hr
*Credits 1 cr

MUS 70000 - Music Bibliography and Research Techniques

Study of sources and bibliographical methods as applied to musical material.

*Hours 3 hrs
*Credits 3 cr

MUS 71000 - Hunter Symphony

Rehearsal and performance of orchestral works.

*prereq: audition and perm instr.
*Hours 2 hrs
*Credits 1 cr
*May be taken four times for credit.

MUS 71100 - Hunter College Choir

Rehearsal and public performance of major choral Works.

*Hours 2 hrs
*Credits 1 cr
*May be taken four times for credit.

MUS 71300 - Chamber Music

Rehearsal and public performance of instrumental chamber works.

*Hours 2 hrs
*Credits 1 cr
*May be taken four times for credit.

MUS 71400 - Collegium Musicum

Study and public performance of chamber chorus works from the medieval, Renaissance, and Baroque periods.
prereq: audition and perm instr.
Hours 2 hrs
Credits 1 cr
May be taken four times for credit.

MUS 71500 - Jazz Ensemble

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz and musical comedy. One public performance per semester.

Hours 2 hrs
Credits 1 cr
May be taken four times for credit.

MUS 71600 - Jazz Vocal Workshop Ensemble

Open to all vocalists and rhythm section instrumentalists by audition. Jazz performance and improvisation. One public performance per semester.

Hours 2 hrs
Credits 1 cr
May be taken four times for credit.

MUS 71700 - Piano Performance Class

Hours 2 hrs
Credits 1 cr
May be taken four times for credit.

MUS 71800 - Vocal Performance Class

Course in seminar/workshop format concentrating on the literature for solo voice, both classical and popular (musical theater, jazz, gospel); but also including ensemble repertory from opera and musical theater. Singers are coached in performance technique and interpretation, while working with an accompanist to prepare the semester's repertoire.

Hours 2 hrs
Credits 1 cr
May be taken four times for credit.

MUS 71900 - Special Topics in Music Performance

Number of works are studied, rehearsed, and performed. Topics to be announced.

Hours 2 hrs
Credits 1 cr
May be taken four times for credit.

MUS 72000 - Opera Performance
Preparation and performance of a fully staged opera.

prereq: audition and graduate adviser's permission.
Hours 3 hrs
Credits 3 cr
May be taken two times for credit.

MUS 72100 - Jazz and Popular Music Combos

Study and performance within a small ensemble context of the popular music genres, such as Pop, Rock, Hip-Hop, R & B, Country/Bluegrass, and Jazz. May be taken 6 times.

prereq: Audition; dept. permission required
Hours 2 hrs
Credits 1 cr

MUS 72400 - Advanced Studies in Music Theory 1

Advanced contrapuntal techniques. Nineteenth century chromatic harmony. Compositional styles from 1500 to 1900.

prereq: 4 sem. of undergraduate music theory courses
Hours 3 hrs
Credits 3 cr

MUS 72500 - Advanced Studies in Music Theory 2

Analysis and theory of compositional styles from 1900 to the present.

prereq: 4 sem. of undergraduate music theory courses
Hours 3 hrs
Credits 3 cr

MUS 73100 - Composition 1

Fundamental musical materials and compositional techniques of the 20th century. Students will complete weekly compositional exercises, each emphasizing a specific technique.

Hours 3 hrs
Credits 3 cr

MUS 73200 - Composition 2

A continuation of the study of compositional techniques of the 20th century through reading, analysis, and practice. Students will complete several small works intended for performance.

Hours 3 hrs
Credits 3 cr

MUS 73500 - Orchestration
Study of the capabilities of musical instruments; analysis of orchestration techniques; arranging compositions for various instrumental combinations.

prereq: 2 semesters of undergraduate music theory and permission of the instructor

Hours 3 hrs
Credits 3 cr

MUS 73600 - Computer Music

Making music with computers using technologies such as MIDI sequencing, hardware synthesis, and digital audio. Promises and limitations of these tools.

prereq: permission of the instructor

Hours 3 hrs
Credits 3 cr

MUS 73800 - Jazz Harmony and Arranging

Study of jazz harmony and rhythm, jazz composition, and jazz arranging and its application to commercial music.

prereq: MUSTH 20100, 22100, 23100 -or-permission of department

Hours 3 hrs
Credits 3 cr

MUS 73900 - Jazz Improvisation

Study and performance of jazz improvisational techniques.

prereq: MUS 73800 or permission of department.

Hours 3 hrs
Credits 3 cr

MUS 74000 - Seminar in Music Theory and Analysis

Speculative theory, aesthetics, and scientific dimensions of music; detailed analysis of works relevant to theoretical problems under investigation. Topics to be announced.

Hours 3 hrs
Credits 3 cr
May be taken 3 times for credit.

MUS 74100 - Introduction to Songwriting

This course will provide an opportunity for students to learn to compose original music with and without lyrics in the context of 20th and 21st century popular music song forms. The principles of composing melodies, creating chord progressions, writing lyrics, and structuring song form will be addressed throughout the semester. An analysis of the music and lyrics of significant songwriters will serve as musical examples. Additional time will be spent on improvisation, arranging techniques, music theory, computer notation and sequencing software, and the business of music.

prereq or coreq: permission of the instructor
MUS 74200 - Seminar in Style Criticism

Intensive study of a small number of closely related works of music. Topics to be announced.

MUS 75100 - Advanced Studies in Musicology 1

Advanced topics in the history of music in the European tradition before 1750. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

MUS 75200 - Advanced Studies in Musicology 2

Advanced topics in the history of music in the European tradition from 1750 to the present. Includes analysis of music in different styles, studies of the role of music in cultural history, and instruction in research and writing about music.

MUS 75300 - Transcription and Analysis in Ethnomusicology

Critical examination and application of contemporary techniques to selected examples from various cultures.

MUS 76000 - Seminar in Musicology

Problems in research and analysis in selected areas of musicology.

MUS 77500 - Seminar in Ethnomusicology 1

A history of the discipline; the development of theories and methods; selected problems.
MUS 77600 - Seminar in Ethnomusicology 2

Field research as a principal means of data collection and theory testing in ethnomusicology. Preparation of the research design, application of data-gathering techniques, adaptation to the field, and data analysis.

Hours 3 hrs
Credits 3 cr

MUS 77700 - Seminar in Urban Ethnomusicology

Major concepts and areas of research in urban ethnomusicology. Application of ethnomusicological methods to individual field studies in New York City.

Hours 3 hrs
Credits 3 cr

MUS 77800 - Special Topics in Ethnomusicology: Issues/Regions

Specialized study of the music of a specific region or a current issue in ethnomusicology. Topics to be announced. More than one topics course may be allowed for the degree.

Hours 3 hrs
Credits 3 cr

MUS 78100 - Private Study in Instrument or Voice 1

For performance concentrators.

prereq: departmental consent
Hours 1 hr
Credits 3 cr

MUS 78200 - Private Study in Instrument or Voice 2

For performance concentrators.

prereq: MUS 78100
Hours 1 hr
Credits 3 cr

For performance concentrators.

Credits 3 cr

MUS 78400 - Private Study in Instrument or Voice
For performance concentrators.

Credits 3 cr

**MUS 78500 - Private Lessons in Composition 1**
Advanced individualized training in original music composition.

*prereq: departmental consent*

Hours 1
Credits 3

**MUS 78600 - Private Lessons in Composition 2**
Advanced individualized training in original music composition.

*prereq: MUS 78500*

Hours 3 hrs
Credits 3 cr.

**MUS 78700 - Private Lessons in Composition 3**
Advanced individualized training in original music composition.

*prereq: MUS 78600*

Hours 3 hrs
Credits 3 cr.

**MUS 78900 - Seminar in Music Performance**
Preparation, rehearsal, and performance of small and large ensemble works. Emphasis on researching and analyzing the music being studied.

*May be taken twice for credit.*

**MUS 79100 - Independent Study**
Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

*prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.*

Hours 1 hr
Credits 1 cr
*May be taken 4 times for credit. 8 cr maximum*

**MUS 79200 - Independent Study**
Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

*prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.*
Hours 2 hrs  
Credits 2 cr  
May be taken 4 times for credit. 8 cr maximum

**MUS 79300 - Independent Study**

*prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.*  
Hours 3 hrs  
Credits 3 cr  
May be taken 4 times for credit. 8 cr maximum

**MUS 79400 - Independent Study**

Special projects in performance, music history, ethnomusicology, music theory, or composition under approved professional guidance.

*prereq: perm Graduate Faculty Committee, obtained by announced deadline during previous semester.*  
Hours 4 hrs  
Credits 4 cr  
May be taken 4 times for credit. 8 cr maximum

**MUS 79800 - MA Thesis in Music (History, Theory or Ethnomusicology)**

Individual research under supervision.  
Credits 3 cr

**MUS 79900 - Thesis in Composition**

Individual study of composition under supervision.  
Credits 3 cr

**Music Courses for Music Education**

**MUS 64100 - Strings**

Teaching fundamentals of string playing (violin, viola, cello, and double bass) in context of solo, orchestral and chamber music; thorough review of basic string technique.  
Hours 1.5 hrs  
Credits 1 cr

**MUS 64300 - Woodwinds**

Teaching fundamental techniques of playing a number of woodwind instruments: breathing, tone production and fingering; acoustical principles of woodwinds; thorough review of woodwind technique; basic pedagogical methods.
MUS 64500 - Brass

Teaching fundamental techniques of playing a number of brass instruments: breathing, tone production, fingerings and slide positions; acoustical principles of brasses; thorough review of brass technique; basic pedagogical methods.

MUS 64700 - Percussion Skills

The teaching of fundamental techniques of playing percussion instruments: rudiments, stick control, coordination of hands and feet, syncopation, ensemble playing; acoustical principles of percussion; thorough review of percussion technique; basic pedagogical methods.

MUS 64900 - Piano Skills for Music Teachers

Introduction to piano skills including scales, chord progressions, keyboard harmony and sightreading. The activities and materials used will reflect the needs of music education students.

MUS 65100 - Conducting

The teaching of technique and proficiency in basic conducting skills including conducting patterns, baton technique, expressive gestures, score study, and philosophical and psychological approaches to ensemble management.

MUS 77900 - World Music Education

Survey of world music traditions. Appropriate pedagogical techniques for transmitting multicultural musical knowledge and for presenting world music concerts to pre-K-12 students.

Programs and Courses in Nursing

School of Nursing

Overview
The Hunter-Bellevue School of Nursing is located at Hunter College's Brookdale Health Science Center at 425 East 25th Street in Manhattan, near Bellevue Hospital. The School's programs combine liberal and professional education with a humanistic and comprehensive approach to health care. The School's mission is to provide quality nursing education to promote health and provide care to culturally diverse, urban, and global communities through research, scholarship, and service. The School's programs combine liberal and professional education with a humanistic and comprehensive approach to health care.

The School offers accredited programs leading to the Master of Science (MS) and the Doctor of Nursing Practice (DNP) degrees. The School also offers a post-graduate advanced certificate program. Graduates meet the educational requirements for national board certification in their specialties. In addition, a PhD program in Nursing is offered by the City University of New York Graduate Center in conjunction with Hunter College, Lehman College, and The College of Staten Island. For information, please go to www.gc.cuny.edu/Page-Elements/Academics-Research-Centers-Initiatives/Doctoral-Programs/Nursing.

What can I do with my degree in Nursing?

The MS program educates nurses for roles as gerontological/adult nurse practitioners (NPs), psychiatric/mental health NPs, adult-gerontological acute care clinical nurse specialists, community/public health practitioners and nurse administrators. The post-graduate certificate program prepares psychiatric/mental health NPs. The DNP program offers concentrations for Adult/Gerontological NPs, Family NPs and Psychiatric/Mental Health NPs.

Programs and Courses in Nursing

Accreditation

The baccalaureate degree in nursing programs, the master's degree in nursing programs, and the Doctor of Nursing Practice program at Hunter College, CUNY, are accredited by the Commission on Collegiate Nursing Education, 655 K Street NW, Suite 750, Washington DC 20001, 202-887-6791.

Licensing

Graduates of the advanced practice nursing programs are eligible to take the certification examinations for nurse practitioners and clinical nurse specialist.

Centers

The Health Professions Education Center (HPEC) is an academic learning center serving all students and faculty at the Hunter College Nursing and School of Health Professions. A variety of comprehensive support services and programs are offered at the HPEC to enhance student academic success, retention, and completion rates by applying best practices and addressing student learning needs from multiple pedagogical perspectives. Our services are designed to develop critical thinking, reinforce practice of clinical skills, and foster a supportive, professional environment for student collaboration and scholarship.

The HPEC combines traditional approaches to teaching with new instructional technologies that reflect the dynamic nature of all health professions. Services at the center include:
· Access to the largest collection of health-related videos and instructional media within CUNY.
· Computer-aided educational software and virtual training technologies.
· Access to state board testing preparation programs.
· Technology support at the Hunter College Brookdale Campus.
· Beta testing and evaluation of new instructional media.
· Faculty consultation for research and classroom media integration.
· Development and administration of e-learning initiatives, online testing, and digital content.
· Individual and group study support.
· Simulation laboratory support through the New York Simulation (NYSIM) Center.

Faculty and students from all Hunter College schools and departments are always welcome to view the many resources available at the HPEC.

Director: Martin Dornbaum; Mezzanine floor, Brookdale West Building; (212) 481-5129, mdornbau@hunter.cuny.edu; Evening Supervisor: Peter Marquez; edcenter@hunter.cuny.edu

Website: http://www.hunter.cuny.edu/shp/centers/hpec/

The center maintains regular office hours throughout the academic year, Monday-Thursday 9AM-9PM and Fridays 9AM-5PM.

Community/Public Health Nursing DNP Sample Full-Time Program Plan

Return to: Community/Public Health Nursing DNP Track

Year 1

Fall

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45*  
*Credits 3*

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course*  
*Hours 45*  
*Credits 3*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45*  
*Credits 3*

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

*Hours 3 hrs.*  
*Credits 3 cr.*

Spring

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**
Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

*prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
coreq: NURS 75000
Hours 3 hrs.
Credits 3 cr.*

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

*prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs
Credits 3 cr*

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.*

**Year 2**

**Fall**

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

*prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.*

**PH 75200 - Fundamentals of Epidemiology**

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

*prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.*
Spring

PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

PH 75600 - Fundamentals of Health Policy and Management

Examination of the organization, delivery and financing of health care in the United States as it pertains to the health policy-making process, including the organization of the agencies and personnel constituting the health care system, and analysis of government structure, laws, and regulations. Theoretical concepts, practice, and implementation of health programs in organized settings, including the planning, administration, management, evaluation, and policy analysis of public health agencies and private sector managed care.

prereq: Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Year 3

Fall

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

Spring

NURS 77200 - Community/Public Health Nursing II
Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100
prereq or coreq: NURS 70400
Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,
Credits 5 cr

Summer

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772
Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,
Credits 5 cr

Year 4

Fall

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45
Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3

NURS 81000 - Clinical Genetics
Application of human genetics and genomics as they apply to health care professionals.

*Hours 45*
*Credits 3*

**Spring**

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

*coreq: NURS 70400*
*Hours 45*
*Credits 3*

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

*prereq: NURS 80200*
*coreq: NURS 71600*
*Hours 45*
*Credits 3*

**Year 5**

**Fall**

**NURS 80100 - Leadership for Quality Improvement**

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

*prereq or coreq: NURS 80000*
*Hours 45*
*Credits 3*

**NURS 85000 - Health Policy and Population-Focused DNP Practice**

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

*prereq or coreq: NURS 704, NURS 749, PH75000*
*Hours 45*
*Credits 3*
NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.
• Elective 3 cr.

Year 6

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.
Community/Public Health Nursing DNP Sample Part-Time Program Plan

**Hours 3 hrs.**
**Credits 3 cr.**

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

**prereq:** NURS 70000, 70200, 70400, 74900, 71700, 75000

**Hours 3 hrs**
**Credits 3 cr**

**Year 2**

**Fall**

**NURS 75500 - Primary Care Nursing I**

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

**prereq:** NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100

**Hours 3 hours/week lecture 1 hour/week seminar**

**Credits 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)**

**NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years**

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

**prereq:** NURS 71700, NURS 75000 and NURS 75100

**Hours 15 lecture, 15 seminar and 125 clinical**

**Credits 3**
Spring

NURS 75700 - Primary Care Nursing II

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500

Hours 3 hours /week lecture 1 hour /week seminar
Credits 6: 3 credits theory (45 hours /semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

Summer

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100

Hours 15 lecture, 15 seminar, 125 clinical
Credits 3

Year 3

Fall

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45
Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically
evaluate the evidence to inform best practices in advanced practice nursing care.

*prereq: NURS 70200
Hours 45
Credits 3*

**NURS 81000 - Clinical Genetics**

Application of human genetics and genomics as they apply to health care professionals.

*Hours 45
Credits 3*

**Spring**

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

*coreq: NURS 70400
Hours 45
Credits 3*

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNP's. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

*prereq: NURS 80200
coreq: NURS 71600
Hours 45
Credits 3*

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.
  • Elective 2 cr.*

**Summer**

**PH 75200 - Fundamentals of Epidemiology**
Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

**prereq:** No prerequisites required.
*Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.*

**Hours** 3  
**Credits** 3

### Year 4

#### Fall

**NURS 80100 - Leadership for Quality Improvement**

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

**prereq or coreq:** NURS 80000  
**Hours** 45  
**Credits** 3

**NURS 85000 - Health Policy and Population-Focused DNP Practice**

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

**prereq or coreq:** NURS 704, NURS 749, PH75000  
**Hours** 45  
**Credits** 3

**NURS 90001 - DNP Capstone Internship**

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

**prereq:** NURS 80000, NURS 80100; Departmental permission required  
**Hours** 30 hours lecture; 105 practicum hours  
**Credits** 3 cr.

### Spring

**NURS 90002 - DNP Capstone Proposal Development**

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.
prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

- Elective 3 cr.

Year 5

Fall

**NURS 90003 - DNP Capstone Implementation**

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

Spring

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

**Family Nurse Practitioner DNP Sample Part-Time Program Plan**

Return to: Family Nurse Practitioner DNP Track

Year 1

Fall

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45
Credits 3*
NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

*Hours 3 hrs.*
*Credits 3 cr.*

**Spring**

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course*

*Hours 45*
*Credits 3*

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

*prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900*
*coreq: NURS 75000*

*Hours 3 hrs.*
*Credits 3 cr.*

**Year 2**

**Fall**

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45*
*Credits 3*

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

*prereq: NURS 70000, 70200, 70400, 74900*
*coreq: NURS 71700*
Spring

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

*prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs
Credits 3 cr
• Elective 3 cr.*

Year 3

Fall

**NURS 75500 - Primary Care Nursing I**

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

*prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100
Hours 3 hours/week lecture 1 hour/week seminar
Credits 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)*

**NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years**

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

*prereq: NURS 71700, NURS 75000 and NURS 75100
Hours 15 lecture, 15 seminar and 125 clinical
Credits 3*

Spring

**NURS 75700 - Primary Care Nursing II**

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level
direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500  
Hours 3 hours/week lecture 1 hour/week seminar  
Credits 6: 3 credits theory (45 hours/semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

Summer

**NURS 82700 - Assessment and Primary Care of Children and Adolescents**

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100  
Hours 15 lecture, 15 seminar, 125 clinical  
Credits 3

Year 4

Fall

**NURS 78000 - Health Care Ethics in the Life Span**

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

**NURS 80200 - Analytic Methods for Evidence-Based Practice**

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200  
Hours 45  
Credits 3

Winter

- Elective 3 cr.

Spring

**NURS 81000 - Clinical Genetics**

Application of human genetics and genomics as they apply to health care professionals.
**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq: No prerequisites required.*

*Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.*

**Summer**

**PH 75200 - Fundamentals of Epidemiology**

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

*prereq: No prerequisites required.*

*Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.*

**Year 5**

**Fall**

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

*coreq: NURS 70400*

**NURS 90001 - DNP Capstone Internship**

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

*prereq: NURS 80000, NURS 80100; Departmental permission required*

*Hours 30 hours lecture; 105 practicum hours*

*Credits 3 cr.*

- Elective 3 cr.
**Spring**

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

*coreq: NURS 70400
Hours 45
Credits 3*

**NURS 90002 - DNP Capstone Proposal Development**

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

*prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.*

**Summer**

**NURS 71600 - Informatics for Evidence-based Practice**

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

*Hours 45
Credits 3*

**Year 6**

**Fall**

**NURS 90003 - DNP Capstone Implementation**

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

*prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.*

**NURS 85000 - Health Policy and Population-Focused DNP Practice**
An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNP's. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200
coreq: NURS 71600
Hours 45
Credits 3

Family Nurse Practitioner DNP Track

Curriculum

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
coreq: NURS 75000
Hours 3 hrs.
Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Hours 3 hrs.
Credits 3 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.

NURS 75100 - Advanced Health Assessment
Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000  
Hours 3 hrs  
Credits 3 cr

**NURS 75500 - Primary Care Nursing I**

Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100  
Hours 3 hours/week lecture 1 hour/week seminar  
Credits 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

**NURS 75700 - Primary Care Nursing II**

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500  
Hours 3 hours /week lecture 1 hour /week seminar  
Credits 6: 3 credits theory (45 hours /semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.  
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

**PH 75200 - Fundamentals of Epidemiology**

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.  
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.
**NURS 78000 - Health Care Ethics in the Life Span**

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

*coreq: NURS 70400*

**NURS 80100 - Leadership for Quality Improvement**

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

*prereq or coreq: NURS 80000*

**NURS 80200 - Analytic Methods for Evidence-Based Practice**

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

*prereq: NURS 70200*

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNP's. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

*prereq: NURS 80200*

**NURS 81000 - Clinical Genetics**

Application of human genetics and genomics as they apply to health care professionals.
**NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years**

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

*prereq: NURS 71700, NURS 75000 and NURS 75100
Hours 15 lecture, 15 seminar and 125 clinical
Credits 3*

**NURS 82700 - Assessment and Primary Care of Children and Adolescents**

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

*prereq: NURS 71700, NURS 75000, NURS 75100
Hours 15 lecture, 15 seminar, 125 clinical
Credits 3*

**NURS 85000 - Health Policy and Population-Focused DNP Practice**

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

*prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3*

**NURS 90001 - DNP Capstone Internship**

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

*prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.*

**NURS 90002 - DNP Capstone Proposal Development**

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

*prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.*
NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

Gerontology/Adult Nurse Practioner DNP Sample Full Time Program

Return to: Gerontology/Adult Primary Care Nurse Practitioner DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice
Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

*Hours 3 hrs.*
*Credits 3 cr.*

**Spring**

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45
Credits 3*

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

*prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.*

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

*prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs
Credits 3 cr.*

**Year 2**

**Fall**
NURS 75500 - Primary Care Nursing I

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100

Hours 3 hours/week lecture 1 hour/week seminar

Credits 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

- Elective 3 cr.

Spring

NURS 75700 - Primary Care Nursing II

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500

Hours 3 hours /week lecture 1 hour /week seminar

Credits 6: 3 credits theory (45 hours/semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

Summer

NURS 76800 - Primary Care Nursing III

This is the last in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly, and function as a licensed independent practitioner. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide primary care in various settings. Experiences are intended to assist the student attain advanced level direct care competencies and function in the role of independent nurse practitioner.

prereq: NURS 75700

Hours 3 hours / week lecture; 1 hour/week seminar

Credits 6: 3 credits theory (45 hours) 1 credit seminar (15 hours) 2 credits clinical (210 hours)

Year 3

Fall
NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45
Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3

Spring

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400
Hours 45
Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200
coreq: NURS 71600
PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

- Elective 3 cr.

Summer

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3
Credits 3

Year 4

Fall

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000
Hours 45
Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.
NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.
  • Elective

Year 5

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.
Gerontology/Adult Nurse Practitioner DNP Sample Part Time Program

Return to: Gerontology/Adult Primary Care Nurse Practitioner DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Hours 3 hrs.
Credits 3 cr.

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
coreq: NURS 75000

Hours 3 hrs.
Credits 3 cr.
Year 2

Fall

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45  
Credits 3*

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

*prereq: NURS 70000, 70200, 70400, 74900  
coreq: NURS 71700  
Hours 3 hrs.  
Credits 3 cr.*

Spring

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

*prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000  
Hours 3 hrs  
Credits 3 cr  
• Elective 3 cr.*

Year 3

Fall

**NURS 75500 - Primary Care Nursing I**

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

*prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100*
Hours 3 hours/week lecture 1 hour/week seminar  
Credits 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

Spring

**NURS 75700 - Primary Care Nursing II**

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

*prereq: NURS 75500*  
Hours 3 hours/week lecture 1 hour/week seminar  
Credits 6: 3 credits theory (45 hours/semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

Summer

**NURS 76800 - Primary Care Nursing III**

This is the last in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly, and function as a licensed independent practitioner. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide primary care in various settings. Experiences are intended to assist the student attain advanced level direct care competencies and function in the role of independent nurse practitioner.

*prereq: NURS 75700*  
Hours 3 hours/week lecture; 1 hour/week seminar  
Credits 6: 3 credits theory (45 hours) 1 credit seminar (15 hours) 2 credits clinical (210 hours)

Year 4

Fall

**NURS 80200 - Analytic Methods for Evidence-Based Practice**

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

*prereq: NURS 70200*  
Hours 45  
Credits 3
NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

Winter

- Elective 3 cr.

Spring

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

*Hours 45
*Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq: No prerequisites required.
*Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Summer

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

*prereq: No prerequisites required.
*Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

*Hours 3
*Credits 3

Year 5

Fall

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.
coreq: NURS 70400  
Hours 45  
Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required  
Hours 30 hours lecture; 105 practicum hours  
Credits 3 cr.  
  • Elective 3 cr.

Spring

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000  
Hours 45  
Credits 3

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required  
Hours 30 hours lecture; 105 practicum hours  
Credits 3 cr.

Summer

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45  
Credits 3

Year 6
Fall

**NURS 85000 - Health Policy and Population-Focused DNP Practice**

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

*prereq or coreq: NURS 704, NURS 749, PH75000*

*Hours 45*

*Credits 3*

**NURS 90003 - DNP Capstone Implementation**

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

*prereq: NURS 90002; Departmental permission required*

*Hours 15 hours lecture; 210 practicum hours*

*Credits 3 cr.*

Spring

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

*prereq: NURS 80200*

*coreq: NURS 71600*

*Hours 45*

*Credits 3*

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

*prereq: NURS 90003; Departmental permission required*

*Hours 33.75 hours lecture; 80 practicum hours*

*Credits 3 cr.*

**Gerontology/Adult Primary Care Nurse Practitioner DNP Track**

**Curriculum**
NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45  
Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course  
Hours 45  
Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45  
Credits 3

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45  
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900  
coreq: NURS 75000  
Hours 3 hrs.  
Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Hours 3 hrs.  
Credits 3 cr.
NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs
Credits 3 cr

NURS 75500 - Primary Care Nursing I

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100
Hours 3 hours/week lecture 1 hour/week seminar
Credits 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

NURS 75700 - Primary Care Nursing II

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500
Hours 3 hours/week lecture 1 hour/week seminar
Credits 6: 3 credits theory (45 hours/semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

NURS 76800 - Primary Care Nursing III

This is the last in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older
adults, including the frail elderly, and function as a licensed independent practitioner. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide primary care in various settings. Experiences are intended to assist the student attain advanced level direct care competencies and function in the role of independent nurse practitioner.

prereq: NURS 75700
Hours 3 hours / week lecture; 1 hour/week seminar
Credits 6: 3 credits theory (45 hours) 1 credit seminar (15 hours) 2 credits clinical (210 hours)

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400
Hours 45
Credits 3

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000
NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

Hours 45
Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200
coreq: NURS 71600

Hours 45
Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45
Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development
This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

*prereq or coreq: NURS 90001; Departmental permission required*
*Hours 30 hours lecture; 105 practicum hours*
*Credits 3 cr.*

**NURS 90003 - DNP Capstone Implementation**

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

*prereq: NURS 90002; Departmental permission required*
*Hours 15 hours lecture; 210 practicum hours*
*Credits 3 cr.*

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

*prereq: NURS 90003; Departmental permission required*
*Hours 33.75 hours lecture; 80 practicum hours*
*Credits 3 cr.*

**Nursing Administration/Urban Policy and Leadership - MS/MS**

There is a dual degree program (Master of Science in Nursing Administration and Master of Science in Urban Policy and Leadership) in collaboration with the Department of Urban Policy and Planning, School of Arts and Sciences. The MSNA/MSUPL program prepares nurses to assume positions of leadership in a variety of health care settings, systems and agencies. The program emphasizes multidisciplinary approaches to management, policy, and planning in nursing and health care, particularly within urban settings.

The program will provide graduates with the essential knowledge and abilities needed to function as effective nurse administrators across the continuum of care, from wellness to illness. Emphasis will be placed on the provision of leadership for the planning of community-based care, integrated systems, and community networks. Theoretical, practical, and technical considerations around urban problems, public policy, and strategies for change will also be emphasized.

The program's curriculum emphasizes the acquisition of interdisciplinary skills and knowledge about health administration, urban policy, urban policy processes, and leadership in the public and non-profit sectors. It encourages creative critical thinking about health care and the influence of social, economic and political changes. The program's educational objectives seek to: achieve integrated understandings of urban healthcare problems; gain appreciation of the structure of the urban community and the people who live and work there; develop skill in managing and evaluating healthcare programs, and use the results of policy and program analysis in decision-making and problem-solving.
Nursing Administration MS/Urban Policy and Leadership MS - 52 credits

MS Nursing administration 25 credits
MS Urban Policy and Leadership 27 credits

Admissions Requirements

Candidates apply to both programs and are admitted separately.

MS in Nursing Administration

- Graduation from an accredited baccalaureate program in nursing
- Licensure and current registration as an RN in New York State
- Cumulative undergraduate GPA of 3.0 overall and in nursing coursework
- Completion of a basic statistics course and an undergraduate research course
- Completion of an on-line application form including a personal statement and at least two relevant letters of recommendation from a supervisor or faculty member
- Statement of purpose delineating your rationale for interest in the program and your related goals moving forward

Please note that these are the minimum requirements; meeting them does not guarantee admission.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

MS in Urban Policy and Leadership

Applicants must meet Hunter's general graduate admission requirements, except for the Graduate Record Examination, which is not required. Applicants must present at least 12 undergraduate credits in social science. Students with relevant undergraduate majors or nonacademic experience may, after consultation with the graduate adviser, request admission with special conditions.

Nursing Administration Core (12 Credits)

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45
Credits 3*

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course*
NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Urban Policy and Leadership Core (21 credits)

Core Urban Policy and Leadership General (12 credits)

URBG 70100 - Introduction to Organization and Management for the Public and Non-Profit Sectors

An introduction to organizational structures and theories, with attention to the identification and analysis of management challenges that organizations face when seeking to carry out public purposes in urban settings. This is a core requirement for MS students in the non-profit track, and an elective for others.

URBG 79000 - Urban Development Workshop I

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

prereq: permission of the adviser

Credits 6 cr

URBG 79200 - Urban Affairs Capstone

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

prereq: permission of the director/adviser

Credits 3 cr
Core Methods Courses (6 credits)

**URBG 70600 - Introduction to Policy Analysis**

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

*Hours 45 hrs,
Credits 3 cr
& one of the following three*

**URBG 71000 - Urban Data Analysis**

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,
Credits 3 cr*

**GTECH 70900 - Introduction to Geographic Information Systems**

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management. MS Geoinformatics students are recommended to take GTECH 71000 at the same time as this course.

*Hours 4
Credits 3
Material Fee: $15.00*

**URBG 71300 - Introduction to Qualitative Research Methods**

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

*Credits 3*

Core Structure Course (3 credits.)

**URBG 70200 - Structure of the Urban Region**

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

*Hours 45 hrs,
Credits 3 cr*
URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constraints, suburbanization, and secession and ask, "Is it getting better?"

MS Nursing Administration specialization courses, (10 credits)

NURS 74000 - Leadership and Management in Health Care II

Analysis of how nurse leaders and other professional in health care agencies interact at local, regional, and national levels, conduct policy assessment, identify health needs of culturally diverse aggregates, and develop culturally focused policies and programs to address the needs.

_prereq: NURS 70400, NURS 73500
_Hours The credits/hours are 37.5 hrs lecture, 15 hrs seminar, 166 hrs practicum
_Credits 5 cr.

NURS 74500 - Leadership and Management in Health Care III

An integrative experience in the field of public affairs as it relates to health care generally and nursing specifically. Students will prepare a professional work in policy analysis or an organizational assessment.

_prereq: NURS 74000
_Hours 37.5 hours theory, 15 hours seminar, 166 hours practicum,
_Credits 5 cr

Nursing Administration elective (3 Credits)

One (1) three-credit Nursing Administration elective, chosen in consultation with academic adviser.

Urban Policy and Leadership electives - 6 credits

Two 3-credit electives in Urban Policy and Leadership chosen in consultation with an academic adviser.

**Nursing: Adult-Gerontology Clinical Nurse Specialist - MS**

**Faculty Coordinator:** Christine Cutugno, ccutugno@hunter.cuny.edu

The program prepares nurses to assume an advanced practice nursing role as an Adult-Gerontology Clinical Nurse Specialist in a variety of health care settings, from acute care to home care. Nurses who earn this degree are preparing themselves for advanced practice positions in medical-surgical specialties within acute or skilled nursing facilities or in community-based nursing services.

Through course work, supervised practicum hours (500 hours) and carefully selected electives, students develop broad clinical knowledge in the assessment and clinical management of patients across the adult life span in acute and chronic care settings. Practicum placements are offered in a wide variety of medical-surgical specialty settings. There is also a strong focus on the consultative component of the CNS role, incorporating education and patient care improvement content throughout the curriculum. Students also have an opportunity to participate in programs aimed at serving the target adult population and promoting policy changes in the health care delivery system. Graduates of the program meet educational requirements for specialty certification by the American Nurses Credentialing Center (ANCC).

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

**Nursing Core Courses: 12 credits**

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45  
Credits 3*

**NURS 70200 - Advanced Nursing Research**
Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

**prereq:** NURS 70000, undergraduate statistics, undergraduate research course  
**Hours** 45  
**Credits** 3

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

**Hours** 45  
**Credits** 3

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

**Hours** 3 hrs.  
**Credits** 3 cr.

**Advanced Practice Core: 9 credits**

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

**prereq:** NURS 70000, NURS 70200, NURS 70400, NURS 74900  
**coreq:** NURS 75000  
**Hours** 3 hrs.  
**Credits** 3 cr.

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

**prereq:** NURS 70000, 70200, 70400, 74900  
**coreq:** NURS 71700  
**Hours** 3 hrs.  
**Credits** 3 cr.

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.
Specialization Courses: 15 credits

**NURS 76100 - Clinical Leadership in Nursing I**

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

*prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000*

*Hours 3 hrs*

*Credits 3 cr*

**NURS 76600 - Adult-Gerontology Clinical Nurse Specialist I**

This Adult-Gerontology Clinical Nurse Specialist (CNS) program will assist students to develop specialized knowledge in the management of complex adult patients with select acute and chronic diseases. Role expectations and implementation of the CNS competencies are explored. Students are expected to develop a broader understanding of professional CNS practice competencies and clinical practice issues from classroom sessions and during supervised clinical placements in diverse settings.

*prereq: NURS 76100*

*Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum*

*Credits 5*

**NURS 76700 - Adult-Gerontology Clinical Nurse Specialist II**

Using a nursing science framework, this course emphasizes intervention strategies and health care protocols for complex multisystem health problems and human responses of adults and older adults in a variety of health care settings. Supervised practicum continues to provide opportunities to integrate previous learning experiences. Strategies for evaluating the outcomes of care interventions from a leadership perspective are emphasized through the final capstone project. Students will demonstrate an in depth ability to utilize case studies integrating pathophysiology, advanced assessment, pharmacotherapeutics, and evidence-based standards of care to plan for and achieve positive patient outcomes for selected patients with an emphasis on the older adult. Strategies to interpret the adult-geriatric CNS role in health care to other health care providers and the public are discussed.

*prereq: NURS 76600*

*Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum*

*Credits 5*

**Electives: 6 credits**
Nursing: Community/Public Health Nurse-MS

(42 credits)

Specialization Coordinator: Judith Aponte, jap@hunter.cuny.edu

The program prepares advanced public health nurses who can assume leadership roles in community and population health in a variety of settings, including community-based programs, clinics and public health agencies. Students learn to apply advanced knowledge and research findings to practice through coursework and 500 hours of supervised clinical experience. Graduates of the program meet the educational requirements for board certification as Advanced Public Health Nurses by the American Nurses Credentialing Center.

International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.

Nursing Core Courses: 12 credits

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45
Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.
Public Health Core Courses: 9 credits

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq:* No prerequisites required.
*Open to:* MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

**PH 75200 - Fundamentals of Epidemiology**

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

*prereq:* No prerequisites required.
*Open to:* MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.

**PH 75400 - Fundamentals of Environmental Health**

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

*prereq:* Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

**Specialization Courses: 15 credits**

**NURS 77100 - Community/Public Health Nursing I**

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

*prereq:* NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400
*Hours* 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,
*Credits* 5 cr

**NURS 77200 - Community/Public Health Nursing II**
Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

 prerequisites: PH 75200, NURS 77100
 prerequisites or corequisites: NURS 70400
 30 hrs theory, 15 hrs seminar, 167 hrs clinical,
 5 cr

**NURS 77300 - Community/Public Health Nursing III**

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

 prerequisites: NURS 772
 30 hrs theory, 15 hrs seminar, 167 hrs practicum,
 5 cr

Electives: 6 credits

**Nursing: Doctor of Nursing Practice - DNP**

**Faculty Coordinator:** Caroline Hewitt, ch516@hunter.cuny.edu

**Website:** http://www.hunter.cuny.edu/nursing/

The Doctor of Nursing Practice (DNP) program at Hunter College prepares nurse practitioners who can meet the increasingly complex health needs of diverse urban populations by providing evidence-based, advanced nursing services in a wide variety of settings. The program includes three tracks: Family Nurse Practitioner (FNP) DNP, Gerontological/ Adult Nurse Practitioner (GNP/ANP) DNP, and Psychiatric-Mental Health Nurse Practitioner (PMHNP) DNP. Note: a fourth track, Community/Public Health Nursing (C/PHN) DNP is not accepting students at this time.

The DNP program is open to registered nurses with a Bachelor's or Master's degree in nursing. The program requires completion of 48-90 credits and a total of 1000 supervised clinical hours. Students without a prior Master's degree in nursing from an accredited program may be admitted with advanced standing. Based on an individual assessment of the prior graduate record, (1) required coursework may be reduced by up to 42 credits for the same or equivalent coursework completed for the Master's degree with a grade of B or better; and (2) relevant supervised clinical hours completed for the Master's degree may be counted toward the 1000 supervised clinical hours required for the DNP degree.

Graduates of the DNP program meet the requirements for national certification in their specialty area. Graduates of the GNP/ANP, FNP, and PMHNP tracks qualify for New York State certification as a nurse practitioner.

**Admission Requirements**

Individuals who meet the following criteria may apply for admission to the DNP program:

1. For students without a Master's degree in nursing from an accredited program:

   - New York State RN licensure and current registration
• A bachelor's degree in nursing from an accredited program
• A Grade Point Average (GPA) of 3.5 or above in both the major and overall undergraduate record
• Completion of an undergraduate statistics course
• Completion of a discrete undergraduate nursing research course
• Satisfactory written descriptions of career goals and capstone project interest
• Satisfactory interview

2. For students who hold a Master's degree in nursing from an accredited program:

• New York State RN licensure and current registration
• A graduate GPA of 3.5 or higher
• Satisfactory written descriptions of career goals and capstone project interests
• National certification in a nursing specialty at an advanced level (i.e., requiring a graduate degree)
• Satisfactory interview

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

**Programs**

- Gerontology/Adult Primary Care Nurse Practitioner DNP Track
- Family Nurse Practitioner DNP Track
- Psychiatric/Mental Health Nurse Practitioner Track DNP

**Study Plans: Full-and Part-Time**

**Sample Full-Time Programs**

- Gerontology/Adult Nurse Practitioner DNP Sample Full Time Program
- Family Nurse Practitioner DNP Sample Full-Time Program Plan
- Psychiatric Mental Health Nurse Practitioner DNP Sample Full-time Program Plan

**Sample Part-Time Programs**

- Gerontology/Adult Nurse Practitioner DNP Sample Part Time Program
- Family Nurse Practitioner DNP Sample Part-Time Program Plan
- Psychiatric Mental Health Nurse Practitioner DNP Sample Part-time Program Plan

**Nursing: Gerontological/Adult Nurse Practitioner - MS**

**Coordinator: Mary Hickey**

This specialization prepares nurses to provide primary care for adults and older adults in the community and in a variety of health care settings. Students learn to apply expert knowledge and research findings through coursework and 735 hours of supervised clinical experience. Graduates of the program meet the educational requirements for national board certification as adult nurse practitioners and gerontological nurse practitioners by the American Nurses Credentialing Center and the American Academy of Nurse Practitioners Certification Program. They are also eligible for New York State NP certification.
International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.

Nursing Core Courses: 12 credits

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45  
Credits 3*

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course  
Hours 45  
Credits 3*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45  
Credits 3*

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

*Hours 3 hrs.  
Credits 3 cr.*

Advanced Practice Core: 9 credits

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

*prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900  
coreq: NURS 75000*
NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900  
coreq: NURS 71700  
Hours 3 hrs.  
Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000  
Hours 3 hrs.  
Credits 3 cr.

Specialization Courses: 18 credits

NURS 75500 - Primary Care Nursing I

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100  
Hours 3 hours/week lecture 1 hour/week seminar  
Credits 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

NURS 75700 - Primary Care Nursing II

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500  
Hours 3 hours /week lecture 1 hour /week seminar  
Credits 6: 3 credits theory (45 hours /semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)
NURS 76800 - Primary Care Nursing III

This is the last in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly, and function as a licensed independent practitioner. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide primary care in various settings. Experiences are intended to assist the student attain advanced level direct care competencies and function in the role of independent nurse practitioner.

prereq: NURS 75700
Hours 3 hours / week lecture; 1 hour/week seminar
Credits 6: 3 credits theory (45 hours) 1 credit seminar (15 hours) 2 credits clinical (210 hours)

Electives: 3 credits

Nursing: Master of Sciences

The Master of Science program at the Hunter-Bellevue School of Nursing offers the following specializations:

Nursing: Gerontological/Adult Nurse Practitioner - MS
Nursing: Clinical Nurse Leader-MS
Nursing: Community/Public Health Nurse-MS
Nursing: Advanced Public Health Nurse/Urban Public Health-MS/MPH (Dual Degree Program with School of Urban Public Health)
Nursing: Adult-Gerontology Clinical Nurse Specialist - MS
Nursing: Psychiatric Mental Health Nurse Practitioner - MS

Admission Requirements

In addition to meeting the general requirements for graduate admission to Hunter College, applicants to the School of Nursing master's degree programs must meet the following requirements. (Please note that these are the minimum requirements to be considered for admission; meeting them does not guarantee admission).

1. Completion of an accredited baccalaureate program in nursing.

2. A cumulative undergraduate GPA of 3.0. (An applicant with an undergraduate GPA below 3.0 may be considered for admission as a nonmatriculated student. Nonmatriculated students may be considered for admission to matriculated status after completion of 9-12 graduate nursing credits with a cumulative GPA of at least 3.0).

3. New York State registered nurse licensure and current registration.

4. Completion of a basic statistics course. (An applicant who does not meet this requirement may be admitted conditional on completing a statistics course by the end of the first semester).

5. Professional résumé listing education and relevant work experiences.
6. Statement of purpose clearly identifying why the applicant seeks admission to the particular specialization to which she or he is applying.

7. Applicants for the dual-degree MS / MPH program also meet requirements for admission to the MPH program.

8. Applicants for the dual-degree MS / MPA program must also meet requirements for admission to the Baruch MPA program, including GRE scores. (Applicants may request a waiver of the GRE requirement based on an undergraduate GPA of at least 3.0).

International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.

**Nursing: Psychiatric Mental Health Nurse Practitioner - MS**

**Faculty Coordinator: Cheryl Zauderer cz449@hunter.cuny.edu**

This program prepares nurses for roles as advanced practice registered nurses delivering psychiatric and mental health services. Psychiatric/mental health practitioners provide mental health treatment, preventive services, consultation and leadership in hospitals, clinics, community settings and private practice. Through coursework and 600 hours of supervised clinical experience, students learn to provide these services autonomously and in collaboration with other mental health professionals. Graduates of this program meet the educational requirements for board certification by the American Nurses Credentialing Center. They are also eligible for New York State NP certification.

International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.

**Foundations of Nursing Practice: 12 credits**

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45  
Credits 3*

**NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice**

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

*coreq: NURS 70000  
Hours 15 hours  
Credits 1 cr.*
NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Hours 3 hrs.
Credits 3 cr.

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

Advanced Practice Core: 21 credits

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
coreq: NURS 75000
Hours 3 hrs.
Credits 3 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness
This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

prereq: NURS 70000, NURS 78400
Hours 1 hr
Credits 1 cr.

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs
Credits 3 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 70400, NURS 73700, NURS 74900, NURS 78400
Hours 3 hrs.
Credits 3 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.

NURS 71900 - Psychopharmacology
This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700,
coreq: NURS 74800, NURS 75100, NURS 77800, NURS 77900

**NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention**

This course provides advanced knowledge of child/adolescent mental health disorders including mental health assessment and treatment guidelines to diagnose, manage, and treat individuals experiencing a range of complex mental health problems.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 71700, NURS 73700, NURS 74600, NURS 74900, NURS 77700, NURS 78400

coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77900

**Specialization Courses: 15 credits**

**NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)**

This course advances the psychiatric–mental health nurse practitioner (PMHNP) student's competency in assessing, diagnosing, and treating common psychiatric disorders prior to entry to psychiatric mental health clinical practicum.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900

coreq: NURS 78200

**NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice**

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, 71700, 74700, 75000, 77700,
coreq: NURS 71900, 75100, 77800, 77900

Hours 3 hrs.

Credits 3 cr.
NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800

Hours 2 hrs.
Credits 2 cr.

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78100

Hours 4.5 hrs.
Credits 4.5 cr.

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical
Credits 4.5 cr.

Total: 48 Credits

MS Psychiatric Mental Health Nurse Practitioner Program Outline:

Full time study Proposal

Year 1:

Semester 1
NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Hours 3 hrs.
Credits 3 cr.

NURS 74600 - Epidemiology of behavioral health and community mental health
This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

Semester 2

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
coreq: NURS 75000

Hours 3 hrs.
Credits 3 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

prereq: NURS 70000, NURS 78400

Hours 1 hr
Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000

Hours 3 hrs
Credits 3 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General
This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 70400, NURS 73700, NURS 74900, NURS 78400

Hours 3 hrs.
Credits 3 cr.

Year 2:

Semester 1

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course provides advanced knowledge of child/adolescent mental health disorders including mental health assessment and treatment guidelines to diagnose manage and treat individuals experiencing a range of complex mental health problems.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 71700, NURS 73700, NURS 74600, NURS 74900, NURS 77700, NURS 78400
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77900

Hours 2 hrs.
Credits 2 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700

Hours 3 hrs.
Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700,
coreq: NURS 74800, NURS 75100, NURS 77800, NURS 77900

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice
This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, 71700, 74700, 75000, 77700,
coreq: NURS 71900, 75100, 77800, 77900
Hours 3 hrs.
Credits 3 cr.

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800
Hours 2 hrs.
Credits 2 cr.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the psychiatric-mental health nurse practitioner (PMHP) student's competency in assessing, diagnosing, and treating common psychiatric disorders prior to entry to psychiatric mental health clinical practicum.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78200
Hours 1 hr.
Credits 1 cr.

Semester 2

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78100
Hours 4.5 hrs.
Credits 4.5 cr.
Year 3:

Semester 1

**NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II**

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

*prereq: NURS 78200*

*Hours 22.5 hours – Seminar, 315 hours - Clinical*

*Credits 4.5 cr.*

Part time Study Proposal

Year 1:

Semester 1

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45*

*Credits 3*

**NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice**

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

*coreq: NURS 70000*

*Hours 15 hours*

*Credits 1 cr.*

**NURS 70400 - Healthcare Systems and Policy**
This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

**NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner**

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

*coreq: NURS 70000

Hours 15 hours
Credits 1 cr.

Semester 2

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Hours 3 hrs.
Credits 3 cr.

**NURS 74600 - Epidemiology of behavioral health and community mental health**

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45
Credits 3

Year 2:

Semester 1

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**
Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
coreq: NURS 75000
Hours 3 hrs.
Credits 3 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 70400, NURS 73700, NURS 74900, NURS 78400
Hours 3 hrs.
Credits 3 cr.

Semester 2

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course provides advanced knowledge of child/adolescent mental health disorders including mental health assessment and treatment guidelines to diagnose manage and treat individuals experiencing a range of complex mental health problems.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 71700, NURS 73700, NURS 74600, NURS 74900, NURS 77700, NURS 78400
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77900
Hours 2 hrs.
Credits 2 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

prereq: NURS 70000, NURS 78400
Hours 1 hr
Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.
NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700, NURS 77800, NURS 77900

Semester 2

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, 71700, 74700, 75000, 77700, NURS 71900, 75100, 77800, 77900

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-
help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800
Hours 2 hrs.
Credits 2 cr.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the psychiatric–mental health nurse practitioner (PMHNP) student's competency in assessing, diagnosing, and treating common psychiatric disorders prior to entry to psychiatric mental health clinical practicum.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78200
Hours 1 hr.
Credits 1 cr.

Year 4:

Semester 1

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78100
Hours 4.5 hrs.
Credits 4.5 cr.

Semester 2

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.
Nursing: Psychiatric Mental Health Nurse Practitioner
Advanced Certificate

Program Outline - 27-36 cr.

**NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice**

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

**coreq**: NURS 70000
**Hours**: 15 hours
**Credits**: 1 cr.

**NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner**

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

**coreq**: NURS 70000
**Hours**: 15 hours
**Credits**: 1 cr.

**NURS 74600 - Epidemiology of behavioral health and community mental health**

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

**Hours**: 15 hrs.
**Credits**: 1 cr.

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

**prereq**: NURS 70000, NURS 70200, NURS 70400, NURS 74900
NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs.
Credits 3 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

prereq: NURS 70000, NURS 78400
Hours 1 hr.
Credits 1 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 70400, NURS 73700, NURS 74900, NURS 78400
Hours 3 hrs.
Credits 3 cr.

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course provides advanced knowledge of child/adolescent mental health disorders including mental health assessment and treatment guidelines to diagnose, manage, and treat individuals experiencing a range of complex mental health problems.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 71700, NURS 73700, NURS 74600, NURS 74900, NURS 77700, NURS 78400
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77900
Hours 2 hrs.
Credits 2 cr.

NURS 75000 - Advanced Pharmacotherapeutics
Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.

**NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice**

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, 71700, 74700, 75000, 77700,
coreq: NURS 71900, 75100, 77800, 77900
Hours 3 hrs.
Credits 3 cr.

**NURS 77900 - Family & Group Theories & Therapeutic Modalities**

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700,
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800
Hours 2 hrs.
Credits 2 cr.

**NURS 71900 - Psychopharmacology**

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700,
coreq: NURS 74800, NURS 75100, NURS 77800, NURS 77900

**NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I**

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of
direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

**prereq:** NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
**coreq:** NURS 78100
**Hours** 4.5 hrs.
**Credits** 4.5 cr.

**NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II**

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

**prereq:** NURS 78200
**Hours** 22.5 hours –Seminar, 315 hours - Clinical
**Credits** 4.5 cr.

Note: (*) NURS 71700, NURS 75000, NURS 75100 may be waived based on equivalent prior coursework.

**Program**

The Hunter-Bellevue School of Nursing offers a post graduate advanced certificate program in psychiatric nursing. It is open to currently licensed New York State registered nurses who hold a master's degree in nursing from an accredited program. This specialization prepares nurses for roles as advanced practice registered nurses delivering psychiatric and mental health services. Psychiatric/mental health practitioners provide mental health treatment, preventive services, consultation and leadership in hospitals, clinics, community settings and private practice. Through classwork and 600 hours of supervised clinical experience, students learn to provide these services autonomously and in collaboration with other mental health professionals. Graduates of this program meet the educational requirements for national board certification by the American Nurses Credentialing Center. They are also eligible for New York State NP certification. International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.

**Program Adviser**

**Psychiatric Mental Health Nurse Practitioner DNP Sample Full-time Program Plan**

Return to: Psychiatric/Mental Health Nurse Practitioner Track DNP

**Year 1**
Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45  
Credits 3

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000  
Hours 15 hours  
Credits 1 cr.

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45  
Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000  
Hours 15 hours  
Credits 1 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.
NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
coreq: NURS 75000

Hours 3 hrs.
Credits 3 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

prereq: NURS 70000, NURS 78400

Hours 1 hr
Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Year 2

Fall

**NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice**

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

*prereq: NURS 70200, 71700, 74700, 75000, 77700,
coreq: NURS 71900, 75100, 77800, 77900

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

*prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700

**NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General**

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

Spring

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700, NURS 78400
coreq: NURS 74800, NURS 75100, NURS 77800, NURS 77900

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800
Hours 2 hrs.
Credits 2 cr.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the psychiatric–mental health nurse practitioner (PMHNP) student's competency in assessing, diagnosing, and treating common psychiatric disorders prior to entry to psychiatric mental health clinical practicum.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78200
Hours 1 hr.
Credits 1 cr.

Year 3

Fall
NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

**prereq:** NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
**coreq:** NURS 78100

**Hours** 4.5 hrs.

**Credits** 4.5 cr.

Spring

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

**prereq:** NURS 78200

**Hours** 22.5 hours – Seminar, 315 hours - Clinical

**Credits** 4.5 cr.

Year 4

Fall

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

**Hours** 45

**Credits** 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice
This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

**prereq:** NURS 70200  
**Hours** 45  
**Credits** 3

**NURS 81000 - Clinical Genetics**

Application of human genetics and genomics as they apply to health care professionals.

**Hours** 45  
**Credits** 3

**Spring**

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

**coreq:** NURS 70400  
**Hours** 45  
**Credits** 3

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

**prereq:** NURS 80200  
**coreq:** NURS 71600  
**Hours** 45  
**Credits** 3

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

**prereq:** No prerequisites required.  
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/ Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

**Summer**

**PH 75200 - Fundamentals of Epidemiology**
Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

**prereq:** No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.

**Hours** 3  
**Credits** 3

### Year 5

#### Fall

**NURS 80100 - Leadership for Quality Improvement**

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

**prereq or coreq:** NURS 80000  
**Hours** 45  
**Credits** 3

**NURS 85000 - Health Policy and Population-Focused DNP Practice**

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

**prereq or coreq:** NURS 704, NURS 749, PH75000  
**Hours** 45  
**Credits** 3

**NURS 90001 - DNP Capstone Internship**

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

**prereq:** NURS 80000, NURS 80100; Departmental permission required  
**Hours** 30 hours lecture; 105 practicum hours  
**Credits** 3 cr.

#### Spring

**NURS 90002 - DNP Capstone Proposal Development**

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.
prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

Year 6

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

Psychiatric Mental Health Nurse Practioner DNP Sample Part-time Program Plan

Return to: Psychiatric/Mental Health Nurse Practitioner Track DNP

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3
NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45  
Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000  
Hours 15 hours  
Credits 1 cr.

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000  
Hours 15 hours  
Credits 1 cr.

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course  
Hours 45  
Credits 3

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.
NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
coreq: NURS 75000
Hours 3 hrs.
Credits 3 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 70400, NURS 73700, NURS 74900, NURS 78400
Hours 3 hrs.
Credits 3 cr.

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course provides advanced knowledge of child/adolescent mental health disorders including mental health assessment and treatment guidelines to diagnose manage and treat individuals experiencing a range of complex mental health problems.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 71700, NURS 73700, NURS 74600, NURS 74900, NURS 77700, NURS 78400
NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

prereq: NURS 70000, NURS 78400
Hours 1 hr
Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs
Credits 3 cr.

Year 3

Fall

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700,
coreq: NURS 74800, NURS 75100, NURS 77800, NURS 77900

Spring
NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, 71700, 74700, 75000, 77700
coreq: NURS 71900, 75100, 77800, 77900
Hours 3 hrs.
Credits 3 cr.

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800
Hours 2 hrs.
Credits 2 cr.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the psychiatric-mental health nurse practitioner (PMHNP) student's competency in assessing, diagnosing, and treating common psychiatric disorders prior to entry to psychiatric mental health clinical practicum.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78200
Hours 1 hr.
Credits 1 cr.

Year 4

Fall

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to
conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

**prereq:** NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900  
**coreq:** NURS 78100  
**Hours:** 4.5 hrs.  
**Credits:** 4.5 cr.

### Spring

**NURS 78300 - Psychiatric Mental Health Nurse Practioner/Clinical Practicum II**

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

**prereq:** NURS 78200  
**Hours:** 22.5 hours – Seminar, 315 hours - Clinical  
**Credits:** 4.5 cr.

### Summer

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

**prereq:** No prerequisites required.  
**Open to:** MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

### Year 5

### Fall

**NURS 78000 - Health Care Ethics in the Life Span**

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

**NURS 80200 - Analytic Methods for Evidence-Based Practice**

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.
prereq: NURS 70200
Hours 45
Credits 3

Spring

NURS 81000 - Clinical Genetics
Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3

PH 75200 - Fundamentals of Epidemiology
Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.
Hours 3
Credits 3

Year 6

Fall

NURS 80000 - Leading Systems and Organizations
This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400
Hours 45
Credits 3

NURS 90001 - DNP Capstone Internship
This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

Spring
NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000  
Hours 45  
Credits 3

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required  
Hours 30 hours lecture; 105 practicum hours  
Credits 3 cr.

Summer

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45  
Credits 3

Year 7

Fall

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000  
Hours 45  
Credits 3

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.
prereq: NURS 90002; Departmental permission required  
*Hours 15 hours lecture; 210 practicum hours*  
*Credits 3 cr.*

**Spring**

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNP's. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

*prereq: NURS 80200*  
coreq: NURS 71600  
*Hours 45*  
*Credits 3*

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

*prereq: NURS 90003; Departmental permission required*  
*Hours 33.75 hours lecture; 80 practicum hours*  
*Credits 3 cr.*

**Psychiatric/Mental Health Nurse Practitioner Track DNP**

**Curriculum**

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45*  
*Credits 3*

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course*  
*Hours 45*  
*Credits 3*

**NURS 70400 - Healthcare Systems and Policy**
This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45  
Credits 3

**NURS 71600 - Informatics for Evidence-based Practice**

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45  
Credits 3

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900  
coreq: NURS 75000  
Hours 3 hrs.  
Credits 3 cr.

**NURS 71900 - Psychopharmacology**

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700, NURS 77900  
coreq: NURS 74800, NURS 75100, NURS 77800, NURS 77900

**NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice**

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, 71700, 74700, 75000, 77700,  
coreq: NURS 71900, 75100, 77800, 77900  
Hours 3 hrs.  
Credits 3 cr.

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**
This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Hours 3 hrs.  
Credits 3 cr.

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900  
coreq: NURS 71700  
Hours 3 hrs.  
Credits 3 cr.

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000  
Hours 3 hrs.  
Credits 3 cr.

**NURS 78000 - Health Care Ethics in the Life Span**

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

**NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)**

This course advances the psychiatric–mental health nurse practitioner (PMHNP) student's competency in assessing, diagnosing, and treating common psychiatric disorders prior to entry to psychiatric mental health clinical practicum.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900  
coreq: NURS 78200  
Hours 1 hr.  
Credits 1 cr.

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400  
Hours 45  
Credits 3
NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000
Hours 45
Credits 3

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNP's. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200
coreq: NURS 71600
Hours 45
Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.
prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

**PH 75200 - Fundamentals of Epidemiology**

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3
Credits 3

**NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner**

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours
Credits 1 cr.

**NURS 74600 - Epidemiology of behavioral health and community mental health**

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

**NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness**

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

prereq: NURS 70000, NURS 78400

Hours 1 hr
Credits 1 cr.

**NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General**

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and
epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 70400, NURS 73700, NURS 74900, NURS 78400

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course provides advanced knowledge of child/adolescent mental health disorders including mental health assessment and treatment guidelines to diagnose manage and treat individuals experiencing a range of complex mental health problems.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 71700, NURS 73700, NURS 74600, NURS 74900, NURS 77700, NURS 78400
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77900

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78100

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop
different diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200
Hours 22.5 hours – Seminar, 315 hours - Clinical
Credits 4.5 cr.

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required

Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

NURS 66400 - Legal Issues in Nursing

The purpose of this course is to examine the multiple relationships between nursing and the law, with a particular focus on accountability for advanced and specialty practice. The course examines sources of law and the role of the courts in the continuing development and application of law to health care and the health professions. Specific legal issues, such as malpractice and informed consent, are analyzed. Distinctions between civil and criminal liability are explored, along with the roles of licensing boards and other government agencies. The course also examines relationships between law, ethics, policy and global health.

Hours 45 hrs.
Credits 3 cr.

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 70100 - Assessment, Measurement, and Evaluation in Nursing Education

Various methods of assessment and evaluation of learning will be addressed within a nursing context.

Hours 45 hrs.
Credits 3 cr.

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 70400 - Healthcare Systems and Policy
This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45*
*Credits 3*

**NURS 70700 - Nursing of Persons with HIV Infection**

Analysis and evaluation of nursing strategies at the level of secondary prevention with persons who are HIV-positive in order to assist them to maintain optimum levels of wellness.

*Hours 45 hrs.*
*Credits 3 cr.*

**NURS 70800 - Nursing of Persons with AIDS**

Analysis and evaluation of nursing strategies at the level of tertiary prevention with persons with AIDS in order to assist them to maintain and restore health.

*Hours 45 hrs.*
*Credits 3 cr.*

**NURS 71600 - Informatics for Evidence-based Practice**

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

*Hours 45*
*Credits 3*

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

*prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900*
*coreq: NURS 75000*
*Hours 3 hrs.*
*Credits 3 cr.*

**NURS 71900 - Psychopharmacology**

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

*prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700, NURS 77900*
*coreq: NURS 74800, NURS 75100, NURS 77800, NURS 77900*
NURS 73000 - Instructional Design in Nursing Education

Examination of theoretical models and empirical factors that affect teaching-learning process in educational settings in nursing.

Hours 45 hrs.
Credits 3 cr.

NURS 73100 - Practicum in Nursing Education

Teaching practicum in academic and institutional settings under the guidance of experienced educators. Emphasis is on the development, implementation, and evaluation of educational programs.

prereq: NURS 73000, NURS 75200, NURS 70100
Hours 30 hours lecture, 15 hrs seminar, 105 hrs clinical
Credits 4 cr

NURS 73400 - Writing, Communication, and Healing

This course provides learners with opportunities to improve their writing skills; to increase their confidence in their expressive ability; to produce a clear, publishable paper; to communicate more effectively; and to explore the use of reflective writing as a healing method.

Hours 45
Credits 3

NURS 73500 - Leadership and Management in Health Care I

Analyses of how nurse leaders and other health professionals in integrated managed care networks and community-based organizations understand and apply leadership and management theories and principles.

prereq: NURS 70000, NURS 70200, NURS 74900
coreq: PAF 91000, PAF 91030
Hours 30 hours theory, 15 hours seminar, 166 hours practicum,
Credits 5 cr

NURS 73600 - Trauma Nursing: The First 72 Hours

This course provides specialized content on the assessment, management, and prevention of complications in the multiple trauma patient in the first 72 hours.

Hours 45
Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.
NURS 74000 - Leadership and Management in Health Care II

Analysis of how nurse leaders and other professional in health care agencies interact at local, regional, and national levels, conduct policy assessment, identify health needs of culturally diverse aggregates, and develop culturally focused policies and programs to address the needs.

prereq: NURS 70400, NURS 73500
Hours The credits/hours are 37.5 hrs lecture, 15 hrs seminar, 166 hrs practicum
Credits 5 cr.

NURS 74200 - Advanced Practice Psychiatric-Mental Health Nursing I

Exploration of mental health problems, recovery-oriented services and promotion of mental health in individuals. Students learn to provide primary mental health care for individuals experiencing a range of complex problems.

prereq: NURS 70000
prereq or coreq: NURS 70200, NURS 71700, NURS 74900, NURS 75000, NURS 75100
Hours 30 hrs lecture, 15 hrs seminar, 166 hrs clinical,
Credits 5 cr

NURS 74300 - Advanced Practice Psychiatric-Mental Health Nursing II

Exploration of mental health of families. Students learn to provide primary mental healthcare for families experiencing a range of complex problems.

prereq: NURS 742
prereq or coreq: NURS 704
Hours 30 lecture hours, 15 hrs seminar, 167 hrs clinical,
Credits 5 cr

NURS 74400 - Advanced Practice Psychiatric-Mental Health Nursing III

An exploration of contemporary mental health issues from group and community perspectives. Students learn to develop advanced practice group and community interventions that reduce risk, promote resilience, and enhance mental health.

prereq: NURS 74300
Hours 30 hrs lecture, 15 hrs seminar, 167 hrs of clinical practicum,
Credits 5 cr

NURS 74500 - Leadership and Management in Health Care III

An integrative experience in the field of public affairs as it relates to health care generally and nursing specifically. Students will prepare a professional work in policy analysis or an organizational assessment.

prereq: NURS 74000
NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

prereq: NURS 70000, NURS 78400

Hours 1 hr
Credits 1 cr.

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, 71700, 74700, 75000, 77700,
coreq: NURS 71900, 75100, 77800, 77900

Hours 3 hrs.
Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Hours 3 hrs.
Credits 3 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs
Credits 3 cr

NURS 75200 - Advanced Concepts in Nursing Education

Advanced concepts in nursing education that allow for the construction of nursing education programs will be explored. Issues critical to academic and institutional education will be examined.

prereq: NURS 73000
Hours 45 hrs.
Credits 3 cr

NURS 75400 - Psychosocial Behavioral Patterns of Older Adults

Integration of the theoretical foundations of biological, psychological, social, and cultural patterns of aging that form the assessment data base for the case management of older adults, families, and communities.

prereq: NURS 70000
Hours 45 hrs.
Credits 3 cr

NURS 75500 - Primary Care Nursing I

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100
Hours 3 hours/week lecture 1 hour/week seminar
Credits 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

NURS 75700 - Primary Care Nursing II

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.
prereq: NURS 75500
Hours 3 hours /week lecture 1 hour /week seminar
Credits 6: 3 credits theory (45 hours /semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

NURS 76100 - Clinical Leadership in Nursing I

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

prereq: NURS 70000; NURS 70200, NURS 70400, NURS 74900
prereq or coreq: NURS 71700, NURS 75000, NURS 75100
Hours 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars,
Credits 5

NURS 76200 - Clinical Leadership in Nursing II

Synthesis of all aspects of leadership, care, and information management. Guided learning opportunities and clinical immersion in a unit or setting specific area; facilitates the integration of the multiple CNL functions into a professional model of CNL practice.

prereq: NURS 76100
Hours 60 hrs theory; 335 hrs clinical practicum (immersion), including 30 hrs clinical seminars,
Credits 10

NURS 76600 - Adult- Gerontology Clinical Nurse Specialist I

This Adult-Gerontology Clinical Nurse Specialist (CNS) program will assist students to develop specialized knowledge in the management of complex adult patients with select acute and chronic diseases. Role expectations and implementation of the CNS competencies are explored. Students are expected to develop a broader understanding of professional CNS practice competencies and clinical practice issues from classroom sessions and during supervised clinical placements in diverse settings.

prereq: NURS 76100
Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum
Credits 5

NURS 76700 - Adult-Gerontology Clinical Nurse Specialist II

Using a nursing science framework, this course emphasizes intervention strategies and health care protocols for complex multisystem health problems and human responses of adults and older adults in a variety of health care settings. Supervised practicum continues to provide opportunities to integrate previous learning experiences. Strategies for evaluating the outcomes of care interventions from a leadership perspective are emphasized through the final capstone project. Students will demonstrate an in depth ability to utilize case studies integrating pathophysiology, advanced assessment, pharmacotherapeutics, and evidence-based standards of care to plan for and achieve positive
patient outcomes for selected patients with an emphasis on the older adult. Strategies to interpret the adult-geriatric CNS role in health care to other health care providers and the public are discussed.

prereq: NURS 76600
Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum
Credits 5

NURS 76800 - Primary Care Nursing III

This is the last in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly, and function as a licensed independent practitioner. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide primary care in various settings. Experiences are intended to assist the student attain advanced level direct care competencies and function in the role of independent nurse practitioner.

prereq: NURS 75700
Hours 3 hours / week lecture; 1 hour/week seminar
Credits 6: 3 credits theory (45 hours) 1 credit seminar (15 hours) 2 credits clinical (210 hours)

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400
Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,
Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100
prereq or coreq: NURS 70400
Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,
Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772
Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,
Credits 5 cr
NURS 77600 - Interdisciplinary Approaches to Diabetes Management

This course will provide an overview of the field of diabetes and diabetes management. It will examine and analyze the interdisciplinary approaches in providing diabetes management in an effective and culturally competent manner.

Cross-listed PH 77013
Hours 45
Credits 3

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 70400, NURS 73700, NURS 74900, NURS 78400
Hours 3 hrs.
Credits 3 cr.

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course provides advanced knowledge of child/adolescent mental health disorders including mental health assessment and treatment guidelines to diagnose manage and treat individuals experiencing a range of complex mental health problems.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 71700, NURS 73700, NURS 74600, NURS 74900, NURS 77700, NURS 78400
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77900
Hours 2 hrs.
Credits 2 cr.

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800
Hours 2 hrs.
Credits 2 cr.

NURS 78000 - Health Care Ethics in the Life Span
Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

**NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)**

This course advances the psychiatric–mental health nurse practitioner (PMHNP) student's competency in assessing, diagnosing, and treating common psychiatric disorders prior to entry to psychiatric mental health clinical practicum.

**prereq:** NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900  
**coreq:** NURS 78200  
**Hours** 1 hr.  
**Credits** 1 cr.

**NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I**

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

**prereq:** NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900  
**coreq:** NURS 78100  
**Hours** 4.5 hrs.  
**Credits** 4.5 cr.

**NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II**

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

**prereq:** NURS 78200  
**Hours** 22.5 hours – Seminar, 315 hours - Clinical  
**Credits** 4.5 cr.

**NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice**

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.
NURS 78500 - Hospice and Palliative Symptom Management

Management of hospice and palliative care treatment modalities for use with diverse populations in multiple settings.

prereq: NURS 71700, NURS 75000, NURS 75100
Hours 45 hrs.
Credits 3 cr.

NURS 78600 - Interdisciplinary Palliative and Hospice Care

Foundational aspects of interdisciplinary palliative and end of life care, and service coordination.

prereq: None
coreq: NURS 78600
Hours 45 hrs.
Credits 3

NURS 78700 - Advanced Palliative Care Practice I

Theories, research and strategies for palliative and end-of-life nursing care of patients from birth to death are analyzed in seminar and applied in clinical settings.

prereq: NURS 78500
prereq or coreq: NURS 78600
Hours 1 hour per week for Seminar + 17.5 hours per week for Clinical Practicum (15 hours Seminar per semester + 262 hours Clinical Practicum per semester)
Credits 3.5 (1 credit Seminar + 2.5 credits Clinical Practicum)

NURS 78800 - Advanced Palliative Care Practice II

Advanced palliation and hospice practicum for students in select clinical settings.

prereq: NURS 78700
Hours 1 hour per week for Seminar + 17.5 hours per week for Clinical Practicum (15 hours Seminar per semester + 262 hours Clinical Practicum per semester)
Credits 3.5 (1 credit Seminar + 2.5 credits Clinical Practicum)

This is the second of a two-part clinical practicum preparing advanced practice nurses to work with palliative or hospice patients and their families. Seminars will incorporate the core curriculum of the End of Life Nursing Consortium (ELNEC), providing each successful candidate with an ELNEC trained certificate. It is the final course required for advanced practice nurses who may choose to take the Hospice and Palliation Nurses Association Certification Examination.
NURS 79100 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

*Hours 15 hrs,
Credits 1 cr
A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.*

NURS 79200 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

*Hours 30 hrs,
Credits 2 cr
A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.*

NURS 79300 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

*Hours 45 hrs,
Credits 3 cr
A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.*

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

*coreq: NURS 70400
Hours 45
Credits 3*

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

*prereq or coreq: NURS 80000
Hours 45
Credits 3*

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

*prereq: NURS 70200
Hours 45
Credits 3*
NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200  
coreq: NURS 71600  
Hours 45  
Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45  
Credits 3

NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100  
Hours 15 lecture, 15 seminar and 125 clinical  
Credits 3

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100  
Hours 15 lecture, 15 seminar, 125 clinical  
Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000  
Hours 45  
Credits 3

NURS 87100 - Advanced Practice Public Health Nursing I

Analysis of the Advanced Practice Public Health Nurses (AAPHN) role in the use of technology to promote population health in order to achieve the DNP Competency Areas: Technology & Information Literacy Analysis and Quality of Practice.
prereq or coreq: NURS 77100, NURS 85000
Hours 15 seminar, 86 clinical
Credits 1

NURS 89000 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 52.5 practicum hours; individual or group conferences with faculty
Credits 0.5 cr.

NURS 89100 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 105 practicum hours; individual or group conferences with faculty
Credits 1 cr.

NURS 89200 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 210 practicum hours; individual or group conferences with faculty
Credits 2 cr.

NURS 89300 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 315 practicum hours; individual or group conferences with faculty
Credits 3

NURS 90001 - DNP Capstone Internship
This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

**NURS 90002 - DNP Capstone Proposal Development**

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

**NURS 90003 - DNP Capstone Implementation**

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

**Programs and Courses in Nursing**

**School of Nursing**

**Overview**

The Hunter-Bellevue School of Nursing is located at Hunter College's Brookdale Health Science Center at 425 East 25th Street in Manhattan, near Bellevue Hospital. The School's programs combine liberal and professional education with a humanistic and comprehensive approach to health care. The School's mission is to provide quality nursing education to promote health and provide care to culturally diverse, urban, and global communities through research,
scholarship, and service. The School's programs combine liberal and professional education with a humanistic and comprehensive approach to health care.

The School offers accredited programs leading to the Master of Science (MS) and the Doctor of Nursing Practice (DNP) degrees. The School also offers a post-graduate advanced certificate program. Graduates meet the educational requirements for national board certification in their specialties. In addition, a PhD program in Nursing is offered by the City University of New York Graduate Center in conjunction with Hunter College, Lehman College, and The College of Staten Island. For information, please go to www.gc.cuny.edu/Page-Elements/Academics-Research-Centers-Initiatives/Doctoral-Programs/Nursing.

What can I do with my degree in Nursing?

The MS program educates nurses for roles as gerontological/adult nurse practitioners (NPs), psychiatric/mental health NPs, adult-gerontological acute care clinical nurse specialists, community/public health practitioners and nurse administrators. The post-graduate certificate program prepares psychiatric/mental health NPs. The DNP program offers concentrations for Adult/Gerontological NPs, Family NPs and Psychiatric/Mental Health NPs.

Programs and Courses in Nursing

Accreditation

The baccalaureate degree in nursing programs, the master's degree in nursing programs, and the Doctor of Nursing Practice program at Hunter College, CUNY, are accredited by the Commission on Collegiate Nursing Education, 655 K Street NW, Suite 750, Washington DC 20001, 202-887-6791.

Licensing

Graduates of the advanced practice nursing programs are eligible to take the certification examinations for nurse practitioners and clinical nurse specialist.

Centers

The Health Professions Education Center (HPEC) is an academic learning center serving all students and faculty at the Hunter College Nursing and School of Health Professions. A variety of comprehensive support services and programs are offered at the HPEC to enhance student academic success, retention, and completion rates by applying best practices and addressing student learning needs from multiple pedagogical perspectives. Our services are designed to develop critical thinking, reinforce practice of clinical skills, and foster a supportive, professional environment for student collaboration and scholarship.

The HPEC combines traditional approaches to teaching with new instructional technologies that reflect the dynamic nature of all health professions. Services at the center include:

- Access to the largest collection of health-related videos and instructional media within CUNY.
- Computer-aided educational software and virtual training technologies.
- Access to state board testing preparation programs.
- Technology support at the Hunter College Brookdale Campus.
· Beta testing and evaluation of new instructional media.
· Faculty consultation for research and classroom media integration.
· Development and administration of e-learning initiatives, online testing, and digital content.
· Individual and group study support.
· Simulation laboratory support through the New York Simulation (NYSIM) Center.

Faculty and students from all Hunter College schools and departments are always welcome to view the many resources available at the HPEC.

Director: Martin Dornbaum; Mezzanine floor, Brookdale West Building; (212) 481-5129, mdornbau@hunter.cuny.edu;
Evening Supervisor: Peter Marquez; edcenter@hunter.cuny.edu

Website: http://www.hunter.cuny.edu/shp/centers/hpec/

The center maintains regular office hours throughout the academic year, Monday-Thursday 9AM-9PM and Fridays 9AM-5PM.

**Graduate Doctorate**
Community/Public Health Nursing DNP Sample Full-Time Program Plan

Return to: Community/Public Health Nursing DNP Track

Year 1

Fall

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45  
Credits 3*

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course  
Hours 45  
Credits 3*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45  
Credits 3*

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

*Hours 3 hrs.  
Credits 3 cr.*

Spring

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**
Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
coreq: NURS 75000
Hours 3 hrs.
Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs
Credits 3 cr

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Year 2

Fall

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.
Spring

PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

PH 75600 - Fundamentals of Health Policy and Management

Examination of the organization, delivery and financing of health care in the United States as it pertains to the health policy-making process, including the organization of the agencies and personnel constituting the health care system, and analysis of government structure, laws, and regulations. Theoretical concepts, practice, and implementation of health programs in organized settings, including the planning, administration, management, evaluation, and policy analysis of public health agencies and private sector managed care.

prereq: Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Year 3

Fall

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,
Credits 5 cr

Spring

NURS 77200 - Community/Public Health Nursing II
Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

**prereq:** PH 75200, NURS 77100  
**prereq or coreq:** NURS 70400  
**Hours**  
30 hrs theory, 15 hrs seminar, 167 hrs clinical  
**Credits**  
5 cr

**Summer**

**NURS 77300 - Community/Public Health Nursing III**

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

**prereq:** NURS 772  
**Hours**  
30 hrs theory, 15 hrs seminar, 167 hrs practicum  
**Credits**  
5 cr

**Year 4**

**Fall**

**NURS 71600 - Informatics for Evidence-based Practice**

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

**Hours**  
45  
**Credits**  
3

**NURS 78000 - Health Care Ethics in the Life Span**

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

**NURS 80200 - Analytic Methods for Evidence-Based Practice**

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

**prereq:** NURS 70200  
**Hours**  
45  
**Credits**  
3

**NURS 81000 - Clinical Genetics**
Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3

Spring

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

*coreq: NURS 70400*

Hours 45
Credits 3

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

*prereq: NURS 80200*

*coreq: NURS 71600*

Hours 45
Credits 3

Year 5

Fall

**NURS 80100 - Leadership for Quality Improvement**

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

*prereq or coreq: NURS 80000*

Hours 45
Credits 3

**NURS 85000 - Health Policy and Population-Focused DNP Practice**

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

*prereq or coreq: NURS 704, NURS 749, PH75000*

Hours 45
Credits 3
NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.
  • Elective 3 cr.

Year 6

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

*prereq:* NURS 70000, 70200, 70400, 74900  
*coreq:* NURS 71700  
**Hours** 3 hrs.  
**Credits** 3 cr.

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

*prereq:* NURS 70000, 70200, 70400, 74900, 71700, 75000  
**Hours** 3 hrs  
**Credits** 3 cr

**Year 2**

**Fall**

**NURS 75500 - Primary Care Nursing I**

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

*prereq:* NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100  
**Hours** 3 hours/week lecture 1 hour/week seminar  
**Credits** 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

**NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years**

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

*prereq:* NURS 71700, NURS 75000 and NURS 75100  
**Hours** 15 lecture, 15 seminar and 125 clinical  
**Credits** 3
Spring

**NURS 75700 - Primary Care Nursing II**

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

*prereq: NURS 75500
Hours 3 hours /week lecture 1 hour /week seminar
Credits 6: 3 credits theory (45 hours /semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)*

Summer

**NURS 82700 - Assessment and Primary Care of Children and Adolescents**

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

*prereq: NURS 71700, NURS 75000, NURS 75100
Hours 15 lecture, 15 seminar, 125 clinical
Credits 3*

Year 3

Fall

**NURS 71600 - Informatics for Evidence-based Practice**

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

*Hours 45
Credits 3*

**NURS 78000 - Health Care Ethics in the Life Span**

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

**NURS 80200 - Analytic Methods for Evidence-Based Practice**

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically
evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3

**NURS 81000 - Clinical Genetics**

Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3

**Spring**

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400
Hours 45
Credits 3

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200
coreq: NURS 71600
Hours 45
Credits 3

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

- Elective 2 cr.

**Summer**

**PH 75200 - Fundamentals of Epidemiology**
Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.
Hours 3
Credits 3

Year 4

Fall

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000
Hours 45
Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.
Year 5

Fall

**NURS 90003 - DNP Capstone Implementation**

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

*prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.*

Spring

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

*prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.*

**Family Nurse Practitioner DNP Sample Part-Time Program Plan**

Return to: Family Nurse Practitioner DNP Track

Year 1

Fall

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45
Credits 3*
NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Hours 3 hrs.
Credits 3 cr.

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
coreq: NURS 75000
Hours 3 hrs.
Credits 3 cr.

Year 2

Fall

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700
Spring

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000

Year 3

Fall

NURS 75500 - Primary Care Nursing I

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100

NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100

Spring

NURS 75700 - Primary Care Nursing II

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level
direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500  
Hours 3 hours/week lecture 1 hour/week seminar  
Credits 6: 3 credits theory (45 hours/semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

Summer

**NURS 82700 - Assessment and Primary Care of Children and Adolescents**

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100  
Hours 15 lecture, 15 seminar, 125 clinical  
Credits 3

Year 4

Fall

**NURS 78000 - Health Care Ethics in the Life Span**

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

**NURS 80200 - Analytic Methods for Evidence-Based Practice**

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200  
Hours 45  
Credits 3

Winter

- Elective 3 cr.

Spring

**NURS 81000 - Clinical Genetics**

Application of human genetics and genomics as they apply to health care professionals.
Hours 45
Credits 3

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

_prereq:_ No prerequisites required.
_Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Summer

**PH 75200 - Fundamentals of Epidemiology**

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

_prereq:_ No prerequisites required.
_Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3
Credits 3

Year 5

Fall

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

_coreq:_ NURS 70400
_Hours 45
_Credits 3

**NURS 90001 - DNP Capstone Internship**

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500
Hours 3 hours /week lecture 1 hour /week seminar
Credits 6: 3 credits theory (45 hours /semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.
NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400
Hours 45
Credits 3

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000
Hours 45
Credits 3

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNP's. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200
coreq: NURS 71600
Hours 45
Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.
NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100
Hours 15 lecture, 15 seminar and 125 clinical
Credits 3

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100
Hours 15 lecture, 15 seminar, 125 clinical
Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.
NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

Gerontology/Adult Nurse Practioner DNP Sample Full Time Program

Return to: Gerontology/Adult Primary Care Nurse Practitioner DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice
Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

_prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
_coreq: NURS 75000
_Hours 3 hrs.
_Credits 3 cr.

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

_Hours 3 hrs.
_Credits 3 cr.

**Spring**

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

_Hours 45
_Credits 3

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

_prereq: NURS 70000, 70200, 70400, 74900
_coreq: NURS 71700
_Hours 3 hrs.
_Credits 3 cr.

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

_prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
_Hours 3 hrs
_Credits 3 cr

**Year 2**

**Fall**
NURS 75500 - Primary Care Nursing I

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100
Hours 3 hours/week lecture 1 hour/week seminar
Credits 6: 3 credits theory 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

Spring

NURS 75700 - Primary Care Nursing II

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500
Hours 3 hours /week lecture 1 hour /week seminar
Credits 6: 3 credits theory (45 hours /semester) 1 credit seminar (15 hours /semester) 2 credits clinical (210 hours/semester)

Summer

NURS 76800 - Primary Care Nursing III

This is the last in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly, and function as a licensed independent practitioner. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide primary care in various settings. Experiences are intended to assist the student attain advanced level direct care competencies and function in the role of independent nurse practitioner.

prereq: NURS 75700
Hours 3 hours / week lecture; 1 hour /week seminar
Credits 6: 3 credits theory (45 hours) 1 credit seminar (15 hours) 2 credits clinical (210 hours)

Year 3

Fall
**NURS 71600 - Informatics for Evidence-based Practice**

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

- Hours 45
- Credits 3

**NURS 78000 - Health Care Ethics in the Life Span**

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

**NURS 80200 - Analytic Methods for Evidence-Based Practice**

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

- prereq: NURS 70200
- Hours 45
- Credits 3

**NURS 81000 - Clinical Genetics**

Application of human genetics and genomics as they apply to health care professionals.

- Hours 45
- Credits 3

**Spring**

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

- coreq: NURS 70400
- Hours 45
- Credits 3

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

- prereq: NURS 80200
- coreq: NURS 71600
Hours 45
Credits 3

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq: No prerequisites required. Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

- Elective 3 cr.

**Summer**

**PH 75200 - Fundamentals of Epidemiology**

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

*prereq: No prerequisites required. Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.*

Hours 3
Credits 3

**Year 4**

**Fall**

**NURS 80100 - Leadership for Quality Improvement**

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

*prereq or coreq: NURS 80000
Hours 45
Credits 3*

**NURS 90001 - DNP Capstone Internship**

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

*prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.*
NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3

Spring

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.
• Elective

Year 5

Fall

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

Spring

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.
Gerontology/Adult Nurse Practitioner DNP Sample Part Time Program

Return to: Gerontology/Adult Primary Care Nurse Practitioner DNP Track

Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Hours 3 hrs.
Credits 3 cr.

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
coreq: NURS 75000
Hours 3 hrs.
Credits 3 cr.
Year 2

Fall

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.

Spring

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs
Credits 3 cr
  • Elective 3 cr.

Year 3

Fall

NURS 75500 - Primary Care Nursing I

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100
Spring

NURS 75700 - Primary Care Nursing II

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500
Hours 3 hours/week lecture 1 hour/week seminar
Credits 6: 3 credits theory (45 hours/semester) 1 credit seminar (15 hours/semester) 2 credits clinical (210 hours/semester)

Summer

NURS 76800 - Primary Care Nursing III

This is the last in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly, and function as a licensed independent practitioner. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide primary care in various settings. Experiences are intended to assist the student attain advanced level direct care competencies and function in the role of independent nurse practitioner.

prereq: NURS 75700
Hours 3 hours/week lecture; 1 hour/week seminar
Credits 6: 3 credits theory (45 hours) 1 credit seminar (15 hours) 2 credits clinical (210 hours)

Year 4

Fall

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3
NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

Winter

- Elective 3 cr.

Spring

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Summer

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3
Credits 3

Year 5

Fall

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.
NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 3 hours / week lecture; 1 hour/week seminar
Credits 6: 3 credits theory (45 hours) 1 credit seminar (15 hours) 2 credits clinical (210 hours)

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

**PH 75200 - Fundamentals of Epidemiology**

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3
Credits 3

**NURS 78000 - Health Care Ethics in the Life Span**

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400
Hours 45
Credits 3

**NURS 80100 - Leadership for Quality Improvement**

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000
NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200
coreq: NURS 71600

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development
This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

**prereq or coreq:** NURS 90001; Departmental permission required  
**Hours** 30 hours lecture; 105 practicum hours  
**Credits** 3 cr.

**NURS 90003 - DNP Capstone Implementation**

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

**prereq:** NURS 90002; Departmental permission required  
**Hours** 15 hours lecture; 210 practicum hours  
**Credits** 3 cr.

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

**prereq:** NURS 90003; Departmental permission required  
**Hours** 33.75 hours lecture; 80 practicum hours  
**Credits** 3 cr.

**Nursing: Doctor of Nursing Practice - DNP**

**Faculty Coordinator:** Caroline Hewitt, ch516@hunter.cuny.edu  
**Website:** http://www.hunter.cuny.edu/nursing/

The Doctor of Nursing Practice (DNP) program at Hunter College prepares nurse practitioners who can meet the increasingly complex health needs of diverse urban populations by providing evidence-based, advanced nursing services in a wide variety of settings. The program includes three tracks: Family Nurse Practitioner (FNP) DNP, Gerontological/Adult Nurse Practitioner (GNP/ANP) DNP, and Psychiatric-Mental Health Nurse Practitioner (PMHNP) DNP. Note: a fourth track, Community/Public Health Nursing (C/PHN) DNP is not accepting students at this time.

The DNP program is open to registered nurses with a Bachelor's or Master's degree in nursing. The program requires completion of 48-90 credits and a total of 1000 supervised clinical hours. Students without a prior Master's degree in nursing from an accredited program may be admitted with advanced standing. Based on an individual assessment of the prior graduate record, (1) required coursework may be reduced by up to 42 credits for the same or equivalent coursework completed for the Master's degree with a grade of B or better; and (2) relevant supervised clinical hours completed for the Master's degree may be counted toward the 1000 supervised clinical hours required for the DNP degree.

Graduates of the DNP program meet the requirements for national certification in their specialty area. Graduates of the GNP/ANP, FNP, and PMHNP tracks qualify for New York State certification as a nurse practitioner.
Admission Requirements

Individuals who meet the following criteria may apply for admission to the DNP program:

1. For students without a Master's degree in nursing from an accredited program:
   - New York State RN licensure and current registration
   - A bachelor's degree in nursing from an accredited program
   - A Grade Point Average (GPA) of 3.5 or above in both the major and overall undergraduate record
   - Completion of an undergraduate statistics course
   - Completion of a discrete undergraduate nursing research course
   - Satisfactory written descriptions of career goals and capstone project interest
   - Satisfactory interview

2. For students who hold a Master's degree in nursing from an accredited program:
   - New York State RN licensure and current registration
   - A graduate GPA of 3.5 or higher
   - Satisfactory written descriptions of career goals and capstone project interests
   - National certification in a nursing specialty at an advanced level (i.e., requiring a graduate degree)
   - Satisfactory interview

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

Psychiatric Mental Health Nurse Practitioner DNP Sample Full-time Program Plan
Year 1

Fall

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations
This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

*Hours 3 hrs.*
*Credits 3 cr.*

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

*Hours 15 hrs.*
*Credits 1 cr.*

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course*

*Hours 45*
*Credits 3*

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

*prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900*
*coreq: NURS 75000*

*Hours 3 hrs.*
*Credits 3 cr.*

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

*prereq: NURS 70000, NURS 78400*

*Hours 1 hr*
*Credits 1 cr.*

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.
NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention
This course provides advanced knowledge of child/adolescent mental health disorders including mental health assessment and treatment guidelines to diagnose manage and treat individuals experiencing a range of complex mental health problems.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 71700, NURS 73700, NURS 74600, NURS 74900, NURS 77700, NURS 78400  
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77900  
Hours 2 hrs.  
Credits 2 cr.

Spring

**NURS 71900 - Psychopharmacology**

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700,  
coreq: NURS 74800, NURS 75100, NURS 77800, NURS 77900

**NURS 77900 - Family & Group Theories & Therapeutic Modalities**

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700  
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800

Hours 2 hrs.  
Credits 2 cr.

**NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)**

This course advances the psychiatric–mental health nurse practitioner (PMHNP) student's competency in assessing, diagnosing, and treating common psychiatric disorders prior to entry to psychiatric mental health clinical practicum.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900  
coreq: NURS 78200

Hours 1 hr.  
Credits 1 cr.

**Year 3**
Fall

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900  
coreq: NURS 78100  
Hours 4.5 hrs.  
Credits 4.5 cr.

Spring

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200  
Hours 22.5 hours –Seminar, 315 hours - Clinical  
Credits 4.5 cr.

Year 4

Fall

NURS 71600 - Informatics for Evidence-based Practice

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45  
Credits 3

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice
This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

**prereq:** NURS 70200  
**Hours** 45  
**Credits** 3

**NURS 81000 - Clinical Genetics**

Application of human genetics and genomics as they apply to health care professionals.

**Hours** 45  
**Credits** 3

**Spring**

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

**coreq:** NURS 70400  
**Hours** 45  
**Credits** 3

**NURS 80400 - Finance and Management of Advanced Practice Nursing**

This course applies concepts of finance and economics to the clinical practice of DNPs. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

**prereq:** NURS 80200  
**coreq:** NURS 71600  
**Hours** 45  
**Credits** 3

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

**prereq:** No prerequisites required.  
**Open to:** MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

**Summer**

**PH 75200 - Fundamentals of Epidemiology**
Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/ Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3
Credits 3

Year 5

Fall

**NURS 80100 - Leadership for Quality Improvement**

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45
Credits 3

**NURS 85000 - Health Policy and Population-Focused DNP Practice**

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000

Hours 45
Credits 3

**NURS 90001 - DNP Capstone Internship**

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required

Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

Spring

**NURS 90002 - DNP Capstone Proposal Development**

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.
Year 6

Fall

**NURS 90003 - DNP Capstone Implementation**

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

**prereq:** NURS 90002; Departmental permission required
*Hours* 15 hours lecture; 210 practicum hours
*Credits* 3 cr.

Spring

**NURS 90004 - DNP Capstone Evaluation & Dissemination**

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

**prereq:** NURS 90003; Departmental permission required
*Hours* 33.75 hours lecture; 80 practicum hours
*Credits* 3 cr.

**Psychiatric Mental Health Nurse Practitioner DNP Sample Part-time Program Plan**

Return to: Psychiatric/Mental Health Nurse Practitioner Track DNP

Year 1

Fall

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours* 45
*Credits* 3
NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45  
Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000  
Hours 15 hours  
Credits 1 cr.

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000  
Hours 15 hours  
Credits 1 cr.

Spring

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course  
Hours 45  
Credits 3

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.
**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

*Hours 3 hrs.*

*Credits 3 cr.*

**Year 2**

**Fall**

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

*prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900*

*coreq: NURS 75000*

*Hours 3 hrs.*

*Credits 3 cr.*

**NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General**

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

*prereq: NURS 70000, NURS 70400, NURS 73700, NURS 74900, NURS 78400*

*Hours 3 hrs.*

*Credits 3 cr.*

**Spring**

**NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention**

This course provides advanced knowledge of child/adolescent mental health disorders including mental health assessment and treatment guidelines to diagnose manage and treat individuals experiencing a range of complex mental health problems.

*prereq: NURS 70000, NURS 70200, NURS 70400, NURS 71700, NURS 73700, NURS 74600, NURS 74900, NURS 77700, NURS 78400*
NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

prereq: NURS 70000, NURS 78400

Hours 1 hr
Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000

Hours 3 hrs
Credits 3 cr.

Year 3

Fall

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900

coreq: NURS 71700

Hours 3 hrs.
Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700

coreq: NURS 74800, NURS 75100, NURS 77800, NURS 77900

Spring
NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, 71700, 74700, 75000, 77700,
coreq: NURS 71900, 75100, 77800, 77900
Hours 3 hrs.
Credits 3 cr.

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800
Hours 2 hrs.
Credits 2 cr.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the psychiatric–mental health nurse practitioner (PMHNP) student's competency in assessing, diagnosing, and treating common psychiatric disorders prior to entry to psychiatric mental health clinical practicum.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78200
Hours 1 hr.
Credits 1 cr.

Year 4

Fall

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to
conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78100
Hours 4.5 hrs.
Credits 4.5 cr.

Spring

NURS 78300 - Psychiatric Mental Health Nurse Practioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200
Hours 22.5 hours –Seminar, 315 hours - Clinical
Credits 4.5 cr.

Summer

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

Year 5

Fall

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.
prereq: NURS 70200

coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.*

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

*prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs.
Credits 3 cr.*

**NURS 78000 - Health Care Ethics in the Life Span**

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

**NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)**

This course advances the psychiatric–mental health nurse practitioner (PMHNP) student's competency in assessing, diagnosing, and treating common psychiatric disorders prior to entry to psychiatric mental health clinical practicum.

*prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78200
Hours 1 hr.
Credits 1 cr.*

**NURS 80000 - Leading Systems and Organizations**

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

*coreq: NURS 70400
Hours 45
Credits 3*
NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000
Hours 45
Credits 3

NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNP's. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200
coreq: NURS 71600
Hours 45
Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.

prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.
PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000

Hours 15 hours
Credits 1 cr.

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

prereq: NURS 70000, NURS 78400

Hours 1 hr
Credits 1 cr.

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and
epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 70400, NURS 73700, NURS 74900, NURS 78400

Hours 3 hrs.
Credits 3 cr.

**NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention**

This course provides advanced knowledge of child/adolescent mental health disorders including mental health assessment and treatment guidelines to diagnose manage and treat individuals experiencing a range of complex mental health problems.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 71700, NURS 73700, NURS 74600, NURS 74900, NURS 77700, NURS 78400

coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77900

Hours 2 hrs.
Credits 2 cr.

**NURS 77900 - Family & Group Theories & Therapeutic Modalities**

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700

coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800

Hours 2 hrs.
Credits 2 cr.

**NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I**

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900

coreq: NURS 78100

Hours 4.5 hrs.
Credits 4.5 cr.

**NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II**

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop
differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200
Hours 22.5 hours – Seminar, 315 hours - Clinical
Credits 4.5 cr.

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

Prereq: NURS 90003; Departmental permission required

Hours 3.75 hours lecture; 80 practicum hours
Credits 3 cr.

Graduate Certificate

Nursing: Psychiatric Mental Health Nurse Practitioner

Advanced Certificate

Program Outline - 27-36 cr.

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

Coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

Coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and
promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

*prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900*

*coreq: NURS 75000*

Hours 3 hrs.
Credits 3 cr.

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

*prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000*

Hours 3 hrs.
Credits 3 cr.

**NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness**

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

*prereq: NURS 70000, NURS 78400*

Hours 1 hr.
Credits 1 cr.

**NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General**

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

*prereq: NURS 70000, NURS 70400, NURS 73700, NURS 74900, NURS 78400*

Hours 3 hrs.
Credits 3 cr.

**NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention**
This course provides advanced knowledge of child/adolescent mental health disorders including mental health assessment and treatment guidelines to diagnose manage and treat individuals experiencing a range of complex mental health problems.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 71700, NURS 73700, NURS 74600, NURS 74900, NURS 77700, NURS 78400
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77900
Hours 2 hrs.
Credits 2 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, 71700, 74700, 75000, 77700,
coreq: NURS 71900, 75100, 77800, 77900
Hours 3 hrs.
Credits 3 cr.

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800
Hours 2 hrs.
Credits 2 cr.

NURS 71900 - Psychopharmacology
This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

**prereq:** NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700, 
**coreq:** NURS 74800, NURS 75100, NURS 77800, NURS 77900

**NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I**

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

**prereq:** NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900  
**coreq:** NURS 78100  
**Hours 4.5 hrs.**  
**Credits 4.5 cr.**

**NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II**

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

**prereq:** NURS 78200  
**Hours 22.5 hours –Seminar, 315 hours - Clinical**  
**Credits 4.5 cr.**

Note: (*) NURS 71700, NURS 75000, NURS 75100 may be waived based on equivalent prior coursework.

**Program**

The Hunter-Bellevue School of Nursing offers a post graduate advanced certificate program in psychiatric nursing. It is open to currently licensed New York State registered nurses who hold a master's degree in nursing from an accredited program. This specialization prepares nurses for roles as advanced practice registered nurses delivering psychiatric and mental health services. Psychiatric/mental health practitioners provide mental health treatment, preventive services, consultation and leadership in hospitals, clinics, community settings and private practice. Through classwork and 600 hours of supervised clinical experience, students learn to provide these services autonomously and in collaboration with other mental health professionals. Graduates of this program meet the educational requirements for national board certification by the American Nurses Credentialing Center. They are also eligible for New York State NP certification. International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.

**Program Adviser**
Master's Programs

Nursing Administration/Urban Policy and Leadership - MS/MS

The MS in Nursing Administration and MS in Urban Policy and Leadership is a dual degree program (Master of Science in Nursing Administration and Master of Science in Urban Policy and Leadership) in collaboration with the Department of Urban Policy and Planning, School of Arts and Sciences. The MSNA/MSUPL program prepares nurses to assume positions of leadership in a variety of health care settings, systems and agencies. The program emphasizes multidisciplinary approaches to management, policy, and planning in nursing and health care, particularly within urban settings.

The program will provide graduates with the essential knowledge and abilities needed to function as effective nurse administrators across the continuum of care, from wellness to illness. Emphasis will be placed on the provision of leadership for the planning of community-based care, integrated systems, and community networks. Theoretical, practical, and technical considerations around urban problems, public policy, and strategies for change will also be emphasized.

The program's curriculum emphasizes the acquisition of interdisciplinary skills and knowledge about health administration, urban policy, urban policy processes, and leadership in the public and non-profit sectors. It encourages creative critical thinking about health care and the influence of social, economic and political changes. The program's educational objectives seek to: achieve integrated understandings of urban healthcare problems; gain appreciation of the structure of the urban community and the people who live and work there; develop skill in managing and evaluating healthcare programs, and use the results of policy and program analysis in decision-making and problem-solving.

Nursing Administration MS/Urban Policy and Leadership MS - 52 credits

- MS Nursing administration 25 credits
- MS Urban Policy and Leadership 27 credits

Admissions Requirements

Candidates apply to both programs and are admitted separately.

MS in Nursing Administration

- Graduation from an accredited baccalaureate program in nursing
- Licensure and current registration as an RN in New York State
- Cumulative undergraduate GPA of 3.0 overall and in nursing coursework
- Completion of a basic statistics course and an undergraduate research course
- Completion of an on-line application form including a personal statement and at least two relevant letters of recommendation from a supervisor or faculty member
- Statement of purpose delineating your rationale for interest in the program and your related goals moving forward
Please note that these are the minimum requirements; meeting them does not guarantee admission.

International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.

**MS in Urban Policy and Leadership**

Applicants must meet Hunter's general graduate admission requirements, except for the Graduate Record Examination, which is not required. Applicants must present at least 12 undergraduate credits in social science. Students with relevant undergraduate majors or nonacademic experience may, after consultation with the graduate adviser, request admission with special conditions.

**Nursing Administration Core (12 Credits)**

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45
Credits 3*

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45
Credits 3*

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

*Hours 3 hrs.
Credits 3 cr.*

**Urban Policy and Leadership Core (21 credits)**

Core Urban Policy and Leadership General (12 credits)
URBG 70100 - Introduction to Organization and Management for the Public and Non-Profit Sectors

An introduction to organizational structures and theories, with attention to the identification and analysis of management challenges that organizations face when seeking to carry out public purposes in urban settings. This is a core requirement for MS students in the non-profit track, and an elective for others.

*Hours 3 hrs*
*Credits 3 cr.*

URBG 79000 - Urban Development Workshop I

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

*prereq: permission of the adviser*
*Credits 6 cr*

URBG 79200 - Urban Affairs Capstone

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

*prereq: permission of the director/adviser*
*Hours 45 hrs,*
*Credits 3 cr*

Core Methods Courses (6 credits)

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

*Hours 45 hrs,*
*Credits 3 cr*

& one of the following three

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,*
*Credits 3 cr*

GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management. MS GeoInformatics students are recommended to take
URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

Credits 3

Core Structure Course (3 credits.)

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

Hours 45 hrs,
Credits 3 cr

- or -

URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constraints, suburbanization, and secession and ask, "Is it getting better?"

MS Nursing Administration specialization courses, (10 credits)

NURS 74000 - Leadership and Management in Health Care II

Analysis of how nurse leaders and other professional in health care agencies interact at local, regional, and national levels, conduct policy assessment, identify health needs of culturally diverse aggregates, and develop culturally focused policies and programs to address the needs.

prereq: NURS 70400, NURS 73500
Hours The credits/hours are 37.5 hrs lecture, 15 hrs seminar, 166 hrs practicum
Credits 5 cr.

NURS 74500 - Leadership and Management in Health Care III

An integrative experience in the field of public affairs as it relates to health care generally and nursing specifically. Students will prepare a professional work in policy analysis or an organizational assessment.
prereq: NURS 74000
Hours 37.5 hours theory, 15 hours seminar, 166 hours practicum,
Credits 5 cr

Nursing Administration elective (3 Credits)

One (1) three-credit Nursing Administration elective, chosen in consultation with academic adviser.

Urban Policy and Leadership electives - 6 credits

Two 3-credit electives in Urban Policy and Leadership chosen in consultation with an academic adviser.

Nursing: Adult-Gerontology Clinical Nurse Specialist - MS

Faculty Coordinator: Christine Cutugno, ccutugno@hunter.cuny.edu

The program prepares nurses to assume an advanced practice nursing role as an Adult-Gerontology Clinical Nurse Specialist in a variety of health care settings, from acute care to home care. Nurses who earn this degree are preparing themselves for advanced practice positions in medical-surgical specialties within acute or skilled nursing facilities or in
community-based nursing services.

Through course work, supervised practicum hours (500 hours) and carefully selected electives, students develop broad clinical knowledge in the assessment and clinical management of patients across the adult life span in acute and chronic care settings. Practicum placements are offered in a wide variety of medical-surgical specialty settings. There is also a strong focus on the consultative component of the CNS role, incorporating education and patient care improvement content throughout the curriculum. Students also have an opportunity to participate in programs aimed at serving the target adult population and promoting policy changes in the health care delivery system. Graduates of the program meet educational requirements for specialty certification by the American Nurses Credentialing Center (ANCC).

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

**Nursing Core Courses: 12 credits**

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45*

*Credits 3*

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course*

*Hours 45*

*Credits 3*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45*

*Credits 3*

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

*Hours 3 hrs.*

*Credits 3 cr.*

**Advanced Practice Core: 9 credits**
NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
coreq: NURS 75000
Hours 3 hrs.
Credits 3 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs
Credits 3 cr

Specialization Courses: 15 credits

NURS 76100 - Clinical Leadership in Nursing I

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

prereq: NURS 70000; NURS 70200, NURS 70400, NURS 74900
prereq or coreq: NURS 71700, NURS 75000, NURS 75100
Hours 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars;
Credits 5

NURS 76600 - Adult- Gerontology Clinical Nurse Specialist I

This Adult-Gerontology Clinical Nurse Specialist (CNS) program will assist students to develop specialized knowledge in the management of complex adult patients with select acute and chronic diseases. Role expectations and implementation of the CNS competencies are explored. Students are expected to develop a broader understanding of professional CNS practice competencies and clinical practice issues from classroom sessions and during supervised clinical placements in diverse settings.
prereq: NURS 76100

Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum
Credits 5

**NURS 76700 - Adult-Gerontology Clinical Nurse Specialist II**

Using a nursing science framework, this course emphasizes intervention strategies and health care protocols for complex multisystem health problems and human responses of adults and older adults in a variety of health care settings. Supervised practicum continues to provide opportunities to integrate previous learning experiences. Strategies for evaluating the outcomes of care interventions from a leadership perspective are emphasized through the final capstone project. Students will demonstrate an in depth ability to utilize case studies integrating pathophysiology, advanced assessment, pharmacotherapeutics, and evidence-based standards of care to plan for and achieve positive patient outcomes for selected patients with an emphasis on the older adult. Strategies to interpret the adult-geriatric CNS role in health care to other health care providers and the public are discussed.

prereq: NURS 76600

Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum
Credits 5

**Electives: 6 credits**

---

**Nursing: Community/Public Health Nurse-MS**

*(42 credits)*

**Specialization Coordinator: Judith Aponte, jap@hunter.cuny.edu**

The program prepares advanced public health nurses who can assume leadership roles in community and population health in a variety of settings, including community-based programs, clinics and public health agencies. Students learn to apply advanced knowledge and research findings to practice through coursework and 500 hours of supervised clinical experience. Graduates of the program meet the educational requirements for board certification as Advanced Public Health Nurses by the American Nurses Credentialing Center.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

**Nursing Core Courses: 12 credits**

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.
NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45
Credits 3

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Hours 3 hrs.
Credits 3 cr.

Public Health Core Courses: 9 credits

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

prereq: No prerequisites required.
Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.

Hours 3
Credits 3
PH 75400 - Fundamentals of Environmental Health

Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

prereq: Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission.

Hours 3
Credits 3

Specialization Courses: 15 credits

NURS 77100 - Community/Public Health Nursing I

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400

Hours 30 hrs theory, 167 hrs clinical practicum, 15 hrs seminar,
Credits 5 cr

NURS 77200 - Community/Public Health Nursing II

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

prereq: PH 75200, NURS 77100
prereq or coreq: NURS 70400

Hours 30 hrs theory, 15 hrs seminar, 167 hrs clinical,
Credits 5 cr

NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

prereq: NURS 772

Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,
Credits 5 cr

Electives: 6 credits

Nursing: Gerontological/Adult Nurse Practitioner - MS

Coordinator: Mary Hickey

This specialization prepares nurses to provide primary care for adults and older adults in the community and in a variety of health care settings. Students learn to apply expert knowledge and research findings through coursework and
735 hours of supervised clinical experience. Graduates of the program meet the educational requirements for national board certification as adult nurse practitioners and gerontological nurse practitioners by the American Nurses Credentialing Center and the American Academy of Nurse Practitioners Certification Program. They are also eligible for New York State NP certification.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

**Nursing Core Courses: 12 credits**

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45  
Credits 3*

**NURS 70200 - Advanced Nursing Research**

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*prereq: NURS 70000, undergraduate statistics, undergraduate research course  
Hours 45  
Credits 3*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45  
Credits 3*

**NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations**

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

*Hours 3 hrs.  
Credits 3 cr.*

**Advanced Practice Core: 9 credits**

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**
Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

**Specialization Courses: 18 credits**

**NURS 75500 - Primary Care Nursing I**

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

**NURS 75700 - Primary Care Nursing II**

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.
NURS 76800 - Primary Care Nursing III

This is the last in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly, and function as a licensed independent practitioner. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide primary care in various settings. Experiences are intended to assist the student attain advanced level direct care competencies and function in the role of independent nurse practitioner.

Electives: 3 credits

Nursing: Master of Sciences

The Master of Science program at the Hunter-Bellevue School of Nursing offers the following specializations:

Nursing: Gerontological/Adult Nurse Practitioner - MS
Nursing: Clinical Nurse Leader-MS
Nursing: Community/Public Health Nurse-MS
Nursing: Advanced Public Health Nurse/Urban Public Health-MS/MPH (Dual Degree Program with School of Urban Public Health)
Nursing: Adult-Gerontology Clinical Nurse Specialist - MS
Nursing: Psychiatric Mental Health Nurse Practitioner - MS

Admission Requirements

In addition to meeting the general requirements for graduate admission to Hunter College, applicants to the School of Nursing master's degree programs must meet the following requirements. (Please note that these are the minimum requirements to be considered for admission; meeting them does not guarantee admission).

1. Completion of an accredited baccalaureate program in nursing.

2. A cumulative undergraduate GPA of 3.0. (An applicant with an undergraduate GPA below 3.0 may be considered for admission as a nonmatriculated student. Nonmatriculated students may be considered for admission to matriculated status after completion of 9-12 graduate nursing credits with a cumulative GPA of at least 3.0).
3. New York State registered nurse licensure and current registration.

4. Completion of a basic statistics course. (An applicant who does not meet this requirement may be admitted conditional on completing a statistics course by the end of the first semester).

5. Professional résumé listing education and relevant work experiences.

6. Statement of purpose clearly identifying why the applicant seeks admission to the particular specialization to which she or he is applying.

7. Applicants for the dual-degree MS /MPH program also meet requirements for admission to the MPH program.

8. Applicants for the dual-degree MS/ MPA program must also meet requirements for admission to the Baruch MPA program, including GRE scores. (Applicants may request a waiver of the GRE requirement based on an undergraduate GPA of at least 3.0).

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

**Nursing: Psychiatric Mental Health Nurse Practitioner - MS**

**Faculty Coordinator: Cheryl Zauderer cz449@hunter.cuny.edu**

This program prepares nurses for roles as advanced practice registered nurses delivering psychiatric and mental health services. Psychiatric/mental health practitioners provide mental health treatment, preventive services, consultation and leadership in hospitals, clinics, community settings and private practice. Through coursework and 600 hours of supervised clinical experience, students learn to provide these services autonomously and in collaboration with other mental health professionals. Graduates of this program meet the educational requirements for board certification by the American Nurses Credentialing Center. They are also eligible for New York State NP certification.

*International applicants who need an F-1 or J-1 Visa are not currently eligible for this program.*

**Foundations of Nursing Practice: 12 credits**

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45*
*Credits 3*

**NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice**

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical
model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Hours 3 hrs.
Credits 3 cr.

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

Advanced Practice Core: 21 credits

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.
NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

prereq: NURS 70000, NURS 78400

Hours 1 hr
Credits 1 cr.

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course

Hours 45
Credits 3

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000

Hours 3 hrs
Credits 3 cr

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

prereq: NURS 70000, NURS 70400, NURS 73700, NURS 74900, NURS 78400

Hours 3 hrs.
Credits 3 cr.

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.
NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course provides advanced knowledge of child/adolescent mental health disorders including mental health assessment and treatment guidelines to diagnose manage and treat individuals experiencing a range of complex mental health problems.

Specialization Courses: 15 credits

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the psychiatric–mental health nurse practitioner (PMHNP) student's competency in assessing, diagnosing, and treating common psychiatric disorders prior to entry to psychiatric mental health clinical practicum.

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the
PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

preq: NURS 70200, 71700, 74700, 75000, 77700.
coreq: NURS 71900, 75100, 77800, 77900
Hours 3 hrs.
Credits 3 cr.

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

preq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800
Hours 2 hrs.
Credits 2 cr.

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

preq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78100
Hours 4.5 hrs.
Credits 4.5 cr.

NURS 78300 - Psychiatric Mental Health Nurse Practioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

preq: NURS 78200
Hours 22.5 hours –Seminar, 315 hours - Clinical
Credits 4.5 cr.

Total: 48 Credits
MS Psychiatric Mental Health Nurse Practitioner Program Outline:

Full time study Proposal

Year 1:

Semester 1

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45*
*Credits 3*

**NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice**

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

*coreq: NURS 70000*
*Hours 15 hours*
*Credits 1 cr.*

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

*Hours 45*
*Credits 3*

**NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner**

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

*coreq: NURS 70000*
*Hours 15 hours*
*Credits 1 cr.*
NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Hours 3 hrs.
Credits 3 cr.

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

Semester 2

NURS 70200 - Advanced Nursing Research

Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

NURS 71700 - Advanced Pathophysiology for Nursing Practice

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
coreq: NURS 75000
Hours 3 hrs.
Credits 3 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

prereq: NURS 70000, NURS 78400
Hours 1 hr
Credits 1 cr.

NURS 75100 - Advanced Health Assessment
Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs
Credits 3 cr

**NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General**

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

Year 1:

Semester 1

NURS 70000 - Theoretical Foundations of Nursing Science

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

Hours 45
Credits 3

NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice
This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 70400 - Healthcare Systems and Policy

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

Semester 2

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.

Hours 3 hrs.
Credits 3 cr.

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

NURS 70200 - Advanced Nursing Research
Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

*Credits 3 cr.*

**NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General**

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

**prereq:** NURS 70000, NURS 70400, NURS 73700, NURS 74900, NURS 78400

*Hours 3 hrs.*

*Credits 3 cr.*

**Semester 2**

**NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention**

This course provides advanced knowledge of child/adolescent mental health disorders including mental health assessment and treatment guidelines to diagnose manage and treat individuals experiencing a range of complex mental health problems.

**prereq:** NURS 70000, NURS 70200, NURS 70400, NURS 71700, NURS 73700, NURS 74600, NURS 74900, NURS 77700, NURS 78400

**coreq:** NURS 71900, NURS 74800, NURS 75100, NURS 77900

*Hours 2 hrs.*

*Credits 2 cr.*
NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

_prereq: NURS 70000, NURS 78400
Hours 1 hr
Credits 1 cr.

NURS 75100 - Advanced Health Assessment

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

_prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs
Credits 3 cr

Year 3:

Semester 1

NURS 75000 - Advanced Pharmacotherapeutics

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

_prereq: NURS 70000, 70200, 70400, 74900
_coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.

NURS 71900 - Psychopharmacology

This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

_prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700,
_coreq: NURS 74800, NURS 75100, NURS 77800, NURS 77900

Semester 2

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice
This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, 71700, 74700, 75000, 77700,
coreq: NURS 71900, 75100, 77800, 77900
Hours 3 hrs.
Credits 3 cr.

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects of family and group work will be covered.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800
Hours 2 hrs.
Credits 2 cr.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the psychiatric–mental health nurse practitioner (PMHNP) student's competency in assessing, diagnosing, and treating common psychiatric disorders prior to entry to psychiatric mental health clinical practicum.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78200
Hours 1 hr.
Credits 1 cr.

Year 4:

Semester 1

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78100
Semester 2

**NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II**

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

*prereq: NURS 78200
Hours 22.5 hours – Seminar, 315 hours - Clinical
Credits 4.5 cr.*

**Nursing**

**NURS 66400 - Legal Issues in Nursing**

The purpose of this course is to examine the multiple relationships between nursing and the law, with a particular focus on accountability for advanced and specialty practice. The course examines sources of law and the role of the courts in the continuing development and application of law to health care and the health professions. Specific legal issues, such as malpractice and informed consent, are analyzed. Distinctions between civil and criminal liability are explored, along with the roles of licensing boards and other government agencies. The course also examines relationships between law, ethics, policy and global health.

*Hours 45 hrs.
Credits 3 cr.*

**NURS 70000 - Theoretical Foundations of Nursing Science**

Discussion of nursing science, metaparadigm concepts, and worldviews through the perspective of selected nursing theories. Exploration of the interrelationships of nursing theory, research, and practice. Discussion of advanced nursing roles.

*Hours 45
Credits 3*

**NURS 70100 - Assessment, Measurement, and Evaluation in Nursing Education**

Various methods of assessment and evaluation of learning will be addressed within a nursing context.

*Hours 45 hrs.
Credits 3 cr.*

**NURS 70200 - Advanced Nursing Research**
Analysis of research and research utilization processes that have relevance for evidence-based advanced practice nursing in various roles.

prereq: NURS 70000, undergraduate statistics, undergraduate research course
Hours 45
Credits 3

**NURS 70400 - Healthcare Systems and Policy**

This course explores healthcare systems and policy, including their impact on professional practice and quality/safety outcomes. It emphasizes health policy development and the role of advocacy in health system change.

Hours 45
Credits 3

**NURS 70700 - Nursing of Persons with HIV Infection**

Analysis and evaluation of nursing strategies at the level of secondary prevention with persons who are HIV-positive in order to assist them to maintain optimum levels of wellness.

Hours 45 hrs.
Credits 3 cr.

**NURS 70800 - Nursing of Persons with AIDS**

Analysis and evaluation of nursing strategies at the level of tertiary prevention with persons with AIDS in order to assist them to maintain and restore health.

Hours 45 hrs.
Credits 3 cr.

**NURS 71600 - Informatics for Evidence-based Practice**

This course provides students with the knowledge of how information systems and technology can support scholarly modes of advanced practice to improve and transform health care.

Hours 45
Credits 3

**NURS 71700 - Advanced Pathophysiology for Nursing Practice**

Pathophysiology of acute and chronic diseases or conditions commonly seen in clients aged adolescence through older adult are analyzed; integrates knowledge from physiology.

prereq: NURS 70000, NURS 70200, NURS 70400, NURS 74900
coreq: NURS 75000
Hours 3 hrs.
Credits 3 cr.

**NURS 71900 - Psychopharmacology**
This course prepares a psychiatric mental health nurse practitioner (PMHNP) to provide pharmacological management of individuals suffering from mental and behavioral disorders. This course provides: 1) current pharmacological concepts; 2) standards of practice; 3) clinical guidelines to select an appropriate medication plan; 4) evidenced-based practice; and 5) safety and continuous quality improvement guidelines by evaluating and documenting patient response, and modifying the plan as necessary, as well as documenting the same.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700, coreq: NURS 74800, NURS 75100, NURS 77800, NURS 77900

NURS 73000 - Instructional Design in Nursing Education

Examination of theoretical models and empirical factors that affect teaching-learning process in educational settings in nursing.

Hours 45 hrs.
Credits 3 cr.

NURS 73100 - Practicum in Nursing Education

Teaching practicum in academic and institutional settings under the guidance of experienced educators. Emphasis is on the development, implementation, and evaluation of educational programs.

prereq: NURS 73000, NURS 75200, NURS 70100
Hours 30 hours lecture, 15 hrs seminar, 105 hrs clinical
Credits 4 cr

NURS 73400 - Writing, Communication, and Healing

This course provides learners with opportunities to improve their writing skills; to increase their confidence in their expressive ability; to produce a clear, publishable paper; to communicate more effectively; and to explore the use of reflective writing as a healing method.

Hours 45
Credits 3

NURS 73500 - Leadership and Management in Health Care I

Analyses of how nurse leaders and other health professionals in integrated managed care networks and community-based organizations understand and apply leadership and management theories and principles.

prereq: NURS 70000, NURS 70200, NURS 74900
coreq: PAF 91000, PAF 91030
Hours 30 hours theory, 15 hours seminar, 166 hours practicum,
Credits 5 cr

NURS 73600 - Trauma Nursing: The First 72 Hours

This course provides specialized content on the assessment, management, and prevention of complications in the multiple trauma patient in the first 72 hours.
Hours 45
Credits 3

NURS 73700 - Mental Health Policy and Advocacy: The Role of Psychiatric Mental Health Nurse Practitioner

This course reviews ethical, legal, and social factors influencing mental health policy including policies that promote access, equity, and quality, and the role of the PMHNP as advocate and contributor to mental health policy development.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 74000 - Leadership and Management in Health Care II

Analysis of how nurse leaders and other professional in health care agencies interact at local, regional, and national levels, conduct policy assessment, identify health needs of culturally diverse aggregates, and develop culturally focused policies and programs to address the needs.

prereq: NURS 70400, NURS 73500
Hours The credits/hours are 37.5 hrs lecture, 15 hrs seminar, 166 hrs practicum
Credits 5 cr.

NURS 74200 - Advanced Practice Psychiatric-Mental Health Nursing I

Exploration of mental health problems, recovery-oriented services and promotion of mental health in individuals. Students learn to provide primary mental health care for individuals experiencing a range of complex problems.

prereq: NURS 70000
prereq or coreq: NURS 70200, NURS 71700, NURS 74900, NURS 75000, NURS 75100
Hours 30 hrs lecture, 15 hrs seminar, 166 hrs clinical,
Credits 5 cr

NURS 74300 - Advanced Practice Psychiatric-Mental Health Nursing II

Exploration of mental health of families. Students learn to provide primary mental healthcare for families experiencing a range of complex problems.

prereq: NURS 742
prereq or coreq: NURS 704
Hours 30 lecture hours, 15 hrs seminar, 167 hrs clinical,
Credits 5 cr

NURS 74400 - Advanced Practice Psychiatric-Mental Health Nursing III

An exploration of contemporary mental health issues from group and community perspectives. Students learn to develop advanced practice group and community interventions that reduce risk, promote resilience, and enhance mental health.

prereq: NURS 74300
NURS 74500 - Leadership and Management in Health Care III

An integrative experience in the field of public affairs as it relates to health care generally and nursing specifically. Students will prepare a professional work in policy analysis or an organizational assessment.

prereq: NURS 74000

Hours 37.5 hours theory, 15 hours seminar, 166 hours practicum,
Credits 5 cr

NURS 74600 - Epidemiology of behavioral health and community mental health

This course explores behavioral health issues on state, national, and global levels for students to learn how to conduct mental health risk and need assessments, and provide early prevention and intervention to reduce health disparities and promote clinical outcomes for populations with mental health problems and psychiatric disorders.

Hours 15 hrs.
Credits 1 cr.

NURS 74700 - Advanced Neuroanatomy and Neurophysiology of Brain and Psychiatric Mental Health and Illness

This course provides a basis for advanced knowledge of neuroanatomy and neurophysiology of the human brain and its complex functioning in relation to human behavior. Psychiatric and mental health disorders will be included.

prereq: NURS 70000, NURS 78400

Hours 1 hr
Credits 1 cr.

NURS 74800 - Therapeutic Counseling Modalities: Advanced Nursing Perspectives and Practice

This course provides various theoretical frameworks of current therapeutic modalities in counseling and its clinical application for psychiatric mental health nurse practitioners (PMHNPs) to function in non-pharmacological management of individuals suffering with mental and behavioral disorders. This course provides the foundation for the PMHNP to apply theories to clinical practice with commonly used and evidenced-based practice psychotherapeutic modalities.

prereq: NURS 70200, 71700, 74700, 75000, 77700,
coreq: NURS 71900, 75100, 77800, 77900

Hours 3 hrs.
Credits 3 cr.

NURS 74900 - Health Promotion and Disease Prevention in Diverse Populations

This course focuses on models and strategies for promoting health and preventing disease, with particular emphasis on culturally relevant, population based approaches to address social determinants of health and reduce health disparities.
**NURS 75000 - Advanced Pharmacotherapeutics**

Theories and pharmacotherapeutics of medications including over-the-counter, complementary, folk remedies, and herbal products are analyzed; integrates knowledge from nursing science. Meets NYS prescription writing requirements.

*prereq: NURS 70000, 70200, 70400, 74900
coreq: NURS 71700
Hours 3 hrs.
Credits 3 cr.*

**NURS 75100 - Advanced Health Assessment**

Application of evidence-based clinical practice guidelines to direct screening activities and multidimensional assessment strategies throughout the lifespan.

*prereq: NURS 70000, 70200, 70400, 74900, 71700, 75000
Hours 3 hrs.
Credits 3 cr.*

**NURS 75200 - Advanced Concepts in Nursing Education**

Advanced concepts in nursing education that allow for the construction of nursing education programs will be explored. Issues critical to academic and institutional education will be examined.

*prereq: NURS 73000
Hours 45 hrs.
Credits 3 cr.*

**NURS 75400 - Psychosocial Behavioral Patterns of Older Adults**

Integration of the theoretical foundations of biological, psychological, social, and cultural patterns of aging that form the assessment data base for the case management of older adults, families, and communities.

*prereq: NURS 70000
Hours 45 hrs.
Credits 3 cr.*

**NURS 75500 - Primary Care Nursing I**

This is the first in a series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice in various primary care settings.

*prereq: NURS 70000, NURS 70400, NURS 71700, NURS 74900, NURS 75000, NURS 75100*
NURS 75700 - Primary Care Nursing II

This is the second in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide care in various primary care settings. Experiences are intended to assist the student to attain advanced level direct care competencies and develop in the role of the primary care nurse practitioner.

prereq: NURS 75500

NURS 76100 - Clinical Leadership in Nursing I

Principles of leadership, teaching and learning, health communication, clinical outcomes, resource and information management, and evidence-based nursing practice are applied to promote health, decrease risk, and eliminate health disparities in specific clinical settings.

prereq: NURS 70000; NURS 70200, NURS 70400, NURS 74900
prereq or coreq: NURS 71700, NURS 75000, NURS 75100

Hours 30 hrs theory; 165 hrs clinical practicum, including 15 hrs clinical seminars
Credits 5

NURS 76200 - Clinical Leadership in Nursing II

Synthesis of all aspects of leadership, care, and information management. Guided learning opportunities and clinical immersion in a unit or setting specific area; facilitates the integration of the multiple CNL functions into a professional model of CNL practice.

prereq: NURS 76100

Hours 60 hrs theory; 335 hrs clinical practicum (immersion), including 30 hrs clinical seminars
Credits 10

NURS 76600 - Adult- Gerontology Clinical Nurse Specialist I

This Adult-Gerontology Clinical Nurse Specialist (CNS) program will assist students to develop specialized knowledge in the management of complex adult patients with select acute and chronic diseases. Role expectations and implementation of the CNS competencies are explored. Students are expected to develop a broader understanding of professional CNS practice competencies and clinical practice issues from classroom sessions and during supervised clinical placements in diverse settings.

prereq: NURS 76100
**NURS 76700 - Adult-Gerontology Clinical Nurse Specialist II**

Using a nursing science framework, this course emphasizes intervention strategies and health care protocols for complex multisystem health problems and human responses of adults and older adults in a variety of health care settings. Supervised practicum continues to provide opportunities to integrate previous learning experiences. Strategies for evaluating the outcomes of care interventions from a leadership perspective are emphasized through the final capstone project. Students will demonstrate an in depth ability to utilize case studies integrating pathophysiology, advanced assessment, pharmacotherapeutics, and evidence-based standards of care to plan for and achieve positive patient outcomes for selected patients with an emphasis on the older adult. Strategies to interpret the adult-geriatric CNS role in health care to other health care providers and the public are discussed.

*prereq: NURS 76600*

**NURS 76800 - Primary Care Nursing III**

This is the last in the series of three sequential courses designed to provide the Adult-Gerontology Primary Care Nurse Practitioner (AG PCNP) student with strategies to provide evidence-based care to older adolescents, adults, and older adults, including the frail elderly, and function as a licensed independent practitioner. Common acute and chronic health problems in primary care, with increasing complexity, are discussed and analyzed. The clinical practicum provides an opportunity to put theory into practice and provide primary care in various settings. Experiences are intended to assist the student attain advanced level direct care competencies and function in the role of independent nurse practitioner.

*prereq: NURS 75700*

**NURS 77100 - Community/Public Health Nursing I**

Identification of skills for Advanced Public Health Nurses to conduct a health-related community needs assessment, participate on interdisciplinary teams in partnership with diverse population and apply principles of Quality Improvement (QI).

*prereq: NUS 70000, NURS 70200, NURS 749, NURS 704, PH 75000, PH 75200, PH 75400*

**NURS 77200 - Community/Public Health Nursing II**

Analysis of how clinical specialists in community/public health nursing conduct a needs assessment, identify health needs of culturally diverse aggregates, and develop culturally competent programs to address the needs.

*prereq: PH 75200, NURS 77100*

*prereq or coreq: NURS 70400*

---

*Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum*

*Credits 5*

---

*Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum*

*Credits 5*

---

*Hours 30 hours theory, 15 hours seminar, 167 hours clinical practicum*

*Credits 5*
NURS 77300 - Community/Public Health Nursing III

Analysis of how clinical specialists in community/public health nursing secure external funding for programs and use culturally competent evaluation strategies to ensure that culturally diverse population needs are addressed.

*prereq: NURS 772  
*Hours 30 hrs theory, 15 hrs seminar, 167 hrs practicum,  
*Credits 5 cr

NURS 77600 - Interdisciplinary Approaches to Diabetes Management

This course will provide an overview of the field of diabetes and diabetes management. It will examine and analyze the interdisciplinary approaches in providing diabetes management in an effective and culturally competent manner.

*Cross-listed PH 77013  
*Hours 45  
*Credits 3

NURS 77700 - Advanced Psychiatric Mental Health Assessment and Intervention: General

This course explores mental health problems for students to learn how to make a differential diagnosis and apply standards of care to foster health promotion as well as to deal with simple to complex mental health and illness. This course reviews information and knowledge about: 1) common mental disorders including etiology, theories, and epidemiology; 2) diagnostic evaluation of each disorder; 3) interventions for each disorder.

*prereq: NURS 70000, NURS 70400, NURS 73700, NURS 74900, NURS 78400  
*Hours 3 hrs.  
*Credits 3 cr

NURS 77800 - Advanced Child/Adolescent Psychiatric Mental Health Assessment and Intervention

This course provides advanced knowledge of child/adolescent mental health disorders including mental health assessment and treatment guidelines to diagnose, manage and treat individuals experiencing a range of complex mental health problems.

*prereq: NURS 70000, NURS 70200, NURS 70400, NURS 71700, NURS 73700, NURS 74600, NURS 74900, NURS 77700, NURS 78400  
*coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77900  
*Hours 2 hrs.  
*Credits 2 cr

NURS 77900 - Family & Group Theories & Therapeutic Modalities

This course provides a theoretical foundation for effective work with families and groups for diverse families and populations for psychiatric-mental health NPs. Discussed is family nursing, family theory and therapy, as well as self-help, professional lead group therapy, and group work in organizations. The course provides the learners with advanced family and group assessment skills and familiarity with a range of theory-based and evidenced-based family and group therapeutic modalities. Cultural competent group and families therapies as well as the ethical, legal and political aspects
of family and group work will be covered.

prereq: NURS 70200, NURS 71700, NURS 74700, NURS 75000, NURS 77700
coreq: NURS 71900, NURS 74800, NURS 75100, NURS 77800

Hours 2 hrs.
Credits 2 cr.

NURS 78000 - Health Care Ethics in the Life Span

Ethical and legal issues related to health care and nursing practices and policy viewed from the perspective of human development.

NURS 78100 - Comprehensive Psychiatric Mental Health Assessment and Intervention of Acute and Chronic Disease States (Pre-clinical competency evaluation)

This course advances the psychiatric–mental health nurse practitioner (PMHNP) student's competency in assessing, diagnosing, and treating common psychiatric disorders prior to entry to psychiatric mental health clinical practicum.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78200

Hours 1 hr.
Credits 1 cr.

NURS 78200 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum I

This course provides individualized experiential learning for students in psychiatric mental health care settings, with direct and indirect supervision by faculty and clinical preceptors. Students will learn and experience the entry level of direct care of the biological, social, cultural and spiritual dimensions of individuals suffering from mental and behavioral disorders. Experiential learning in variety of settings provides an opportunity for a student to learn how to conduct a comprehensive psychiatric evaluation, make a differential diagnosis, plan treatment and intervention.

prereq: NURS 71900, NURS 74800, NURS 75100, NURS 77800, NURS 77900
coreq: NURS 78100

Hours 4.5 hrs.
Credits 4.5 cr.

NURS 78300 - Psychiatric Mental Health Nurse Practitioner/Clinical Practicum II

This course provides an advanced level of independent and autonomous experiential learning for students in behavioral health care settings with direct and indirect supervision by faculty and clinical preceptors. Experiential learning provides an opportunity for students to learn how to conduct advanced levels of psychiatric evaluation; to develop differential diagnoses, plans of treatment and appropriate interventions. This course provides opportunities for students to demonstrate the ability to be independent in direct and indirect care of individuals suffering from mental and behavioral disorders throughout life span, and apply standards of care to foster health promotion and disease prevention.

prereq: NURS 78200

Hours 22.5 hours –Seminar, 315 hours - Clinical
Credits 4.5 cr.
NURS 78400 - Theoretical Foundations of Advanced Psychiatric Mental Health Nursing Care and Practice

This course analyzes concepts and theories from the humanities, sciences, and nursing science that underpin the Psychiatric Mental Health Nurse Practitioner (PMHNP) role. The advanced nursing practice of the PMHNP draws heavily on knowledge from philosophy, psychology, sociology, psychiatry, and nursing. Theories such as human development, psychodynamic theory, cognitive, interpersonal, human needs, and health belief, the trans-theoretical model, and self-efficacy theory will be explored. Core concepts such as therapeutic relationship, transference and countertransference, and Peplau's therapeutic nurse-client relationship will be introduced and applied to case studies.

coreq: NURS 70000
Hours 15 hours
Credits 1 cr.

NURS 78500 - Hospice and Palliative Symptom Management

Management of hospice and palliative care treatment modalities for use with diverse populations in multiple settings.

prereq: NURS 71700, NURS 75000, NURS 75100
Hours 45 hrs.
Credits 3 cr.

NURS 78600 - Interdisciplinary Palliative and Hospice Care

Foundational aspects of interdisciplinary palliative and end of life care, and service coordination.

prereq: None
coreq: NURS 78600
Hours 45 hrs.
Credits 3

NURS 78700 - Advanced Palliative Care Practice I

Theories, research and strategies for palliative and end-of-life nursing care of patients from birth to death are analyzed in seminar and applied in clinical settings.

prereq: NURS 78500
prereq or coreq: NURS 78600
Hours 1 hour per week for Seminar + 17.5 hours per week for Clinical Practicum (15 hours Seminar per semester + 262 hours Clinical Practicum per semester)
Credits 3.5 (1 credit Seminar + 2.5 credits Clinical Practicum)

NURS 78800 - Advanced Palliative Care Practice II

Advanced palliation and hospice practicum for students in select clinical settings.

prereq: NURS 78700
Hours hour per week for Seminar + 17.5 hours per week for Clinical Practicum (15 hours Seminar per semester + 262
hours Clinical Practicum per semester)
Credits 3.5 (1 credit Seminar + 2.5 credits Clinical Practicum)

This is the second of a two-part clinical practicum preparing advanced practice nurses to work with palliative or hospice patients and their families. Seminars will incorporate the core curriculum of the End of Life Nursing Consortium (ELNEC), providing each successful candidate with an ELNEC trained certificate. It is the final course required for advanced practice nurses who may choose to take the Hospice and Palliation Nurses Association Certification Examination.

NURS 79100 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 15 hrs,
Credits 1 cr
A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 79200 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 30 hrs,
Credits 2 cr
A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 79300 - Independent Study in Nursing

Supervised study of an area of interest for matriculated students.

Hours 45 hrs,
Credits 3 cr
A total of 6 credits of independent study may be applied toward the degree. Permission of specialization coordinator.

NURS 80000 - Leading Systems and Organizations

This course provides students with understanding of systems theory as a framework for understanding how systems and organizations are structured to enhance clinical practice.

coreq: NURS 70400

Hours 45
Credits 3

NURS 80100 - Leadership for Quality Improvement

This course provides students with understanding of a broad foundation of theories and frameworks from management, social science, and nursing administration to promote effective management of health care organizations.

prereq or coreq: NURS 80000

Hours 45
Credits 3
NURS 80200 - Analytic Methods for Evidence-Based Practice

This course discusses the importance of evidence-based and cost-effective practice in nursing and provides the skills to assess the evidence that relates to nursing practice. At the completion of this course, students will be able to critically evaluate the evidence to inform best practices in advanced practice nursing care.

prereq: NURS 70200
Hours 45
Credits 3

NURS 80400 - Finance and Management of Advanced Practice Nursing

This course applies concepts of finance and economics to the clinical practice of DNP. A particular focus of this course is on providing students with the skills to describe and demonstrate the economic value of professional nursing practice.

prereq: NURS 80200
coreq: NURS 71600
Hours 45
Credits 3

NURS 81000 - Clinical Genetics

Application of human genetics and genomics as they apply to health care professionals.

Hours 45
Credits 3

NURS 82600 - Assessment and Primary Care of Newborns to Age 5 Years

This course examines primary health care as a DNP practice role with infants and young children with emphasis on decision-making and clinical management to promote health, prevent illness/injury, and restore health.

prereq: NURS 71700, NURS 75000 and NURS 75100
Hours 15 lecture, 15 seminar and 125 clinical
Credits 3

NURS 82700 - Assessment and Primary Care of Children and Adolescents

Application of DNP practice strategies for primary care nursing of children and adolescents, with emphasis on decision-making and clinical management to promote health, prevent illness/injury and restore health.

prereq: NURS 71700, NURS 75000, NURS 75100
Hours 15 lecture, 15 seminar, 125 clinical
Credits 3

NURS 85000 - Health Policy and Population-Focused DNP Practice

An in-depth analysis of health policy and population health issues and how advanced nursing practice impacts on promoting the health of aggregates and minimizes the effects of illness and disability.
prereq or coreq: NURS 704, NURS 749, PH75000
Hours 45
Credits 3

NURS 87100 - Advanced Practice Public Health Nursing I

Analysis of the Advanced Practice Public Health Nurses (AAPHN) role in the use of technology to promote population health in order to achieve the DNP Competency Areas: Technology & Information Literacy Analysis and Quality of Practice.

prereq or coreq: NURS 77100, NURS 85000
Hours 15 seminar, 86 clinical
Credits 1

NURS 89000 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 52.5 practicum hours; individual or group conferences with faculty
Credits 0.5 cr.

NURS 89100 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 105 practicum hours; individual or group conferences with faculty
Credits 1 cr.

NURS 89200 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences, based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 210 practicum hours; individual or group conferences with faculty
Credits 2 cr.

NURS 89300 - DNP Practicum

This course provides DNP students with the opportunity to complete practice hours in addition to those required for other courses. These hours may include direct patient care, simulation, practice-related projects or other experiences,
based on an individual assessment of the student's needs. May be taken concurrently with another clinical course. Requires faculty permission. May be repeated for credit.

prereq: NURS 85500, 84200 or 87100. Instructor permission required.
Hours 315 practicum hours; individual or group conferences with faculty
Credits 3

NURS 90001 - DNP Capstone Internship

This is the first of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. A community agency assessment results in mutually (community agency and faculty) agreed upon Capstone project goals.

prereq: NURS 80000, NURS 80100; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

NURS 90002 - DNP Capstone Proposal Development

This is the second of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students finalize plans for Capstone projects that demonstrate synthesis of their development in advanced practice nursing and guide the design and development of a project directed at practice change, system changes, or aggregate health improvements.

prereq or coreq: NURS 90001; Departmental permission required
Hours 30 hours lecture; 105 practicum hours
Credits 3 cr.

NURS 90003 - DNP Capstone Implementation

This is the third of four sequential courses focusing on the development, implementation and analysis of a scholarly Capstone project. Students implement Capstone projects that demonstrate synthesis of their development in advanced practice nursing leadership.

prereq: NURS 90002; Departmental permission required
Hours 15 hours lecture; 210 practicum hours
Credits 3 cr.

NURS 90004 - DNP Capstone Evaluation & Dissemination

This is the last of four sequential courses focusing on the analysis of a scholarly Capstone project. Students evaluate the Capstone project specific to a population of interest and prepare a journal manuscript summarizing their findings.

prereq: NURS 90003; Departmental permission required
Hours 33.75 hours lecture; 80 practicum hours
Credits 3 cr.

Programs and Courses in Nutrition
School of Urban Public Health

About the School

Hunter College's School of Urban Public Health educates students to contribute to improving urban health by addressing problems such as HIV, substance abuse, asthma, obesity, under-nutrition, violence, heart disease and cancer. The School offers undergraduate programs in Community Health and in Nutrition. Hunter's School of Urban Public Health shares an eight-story, 147,000-square-foot green building on Third Avenue between East 118th and 119th Streets with the Silberman School of Social Work at Hunter College. Faculty, staff and students from both schools work closely with community organizations and health and social service agencies in East Harlem to strengthen existing and create new approaches to improving the well-being of East Harlem and other low-income communities.

The MS degree in Nutrition is designed for individuals seeking to attain the RD credential. The MS in Nutrition is an accredited didactic program in dietetics (DPD), completion of which certifies eligibility to apply for a dietetic internship.

The Accelerated BS/MS is for third year NFS majors who are interested in completing their degree and then continuing at Hunter to obtain a master's degree and verification statement (students will be provisionally accepted into the program in their junior year but must maintain grade requirements to matriculate into the MS-DPD program). This accelerated pathway provides the opportunity for undergraduate students to remain at Hunter for their graduate coursework providing students the opportunity for academic acceleration to a graduate degree.

What can I do with my degree in Nutrition and Food Science?

Graduates of the NUTR-MS program may work as nutritionists in a wide variety of health care facilities including hospitals and public health agencies. Since the MS-Nutrition curriculum meets the didactic program in dietetics (DPD) requirements established by the Commission on Accreditation for Dietetics Education (CADE), the credentialing arm of the American Dietetic Association (ADA), the program will qualify students from the BS/MS accelerated track to apply for Dietetic Internships and continue their professional preparation for the Registered Dietitian (RD) credential.

Accreditation

The NUTR-MS is a didactic program in dietetics (DPD), accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), formerly known as the Commission on Accreditation of Dietetics Education (CADE), the accrediting agency of the Academy of Nutrition and Dietetics. The Dietetic Internship is also accredited by ACEND. Both the DPD and DI programs are designed for individuals seeking to become eligible to sit for the national registration examination in dietetics to become credentialed as a Registered Dietitian (RD).

Nutrition BS/MS (DPD)

This pathway is for third year NFS majors who are interested in completing their degree and then continuing at Hunter to obtain a master's degree and verification statement (students will be provisionally accepted into the program in their junior year but must maintain grade requirements to matriculate into the MS-DPD program).

This accelerated pathway provides the opportunity for undergraduate students to remain at Hunter for their graduate coursework providing students the opportunity for academic acceleration to a graduate degree.

Since the MS-Nutrition curriculum meets the didactic program in dietetics (DPD) requirements established by the Commission on Accreditation for Dietetics Education (CADE), the credentialing arm of the American Dietetic Association (ADA), it will qualify students from this BS/MS accelerated track to apply for Dietetic Internships and continue their professional preparation for the Registered Dietitian (RD) credential.

For further information consult the undergraduate catalog and the Nutrition - MS program in this catalog.

Nutrition Track I-MS IPND Track

This MS curriculum meets the requirements of a Didactic Program in Dietetics (DPD) and is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND). Upon completion of a DPD (Didactic Program in Dietetics), students must complete a Dietetic Internship (DI) and only then can they sit for the national Registered Dietitian Nutritionist (RDN) Exam.

Admission/Course Requirements

- A bachelor's degree from an accredited institution
- A statement of interest
- Two References
- Resume
- General Chemistry w/lab, 4 credits
- Organic Chemistry w/lab, 4 credits
Anatomy and Physiology I w/lab, 4 credits
Anatomy and Physiology II w/lab, 4 credits
Microbiology, 3 credits
Biochemistry (3 credits)
Intro to Nutrition*, 3 credits
Intro to Food Science* I, 3 credits
Intro Statistics or higher, 3 credits
Any Economics, Psychology, Anthro, or Sociology class, 3 credits
TOTAL 34 prerequisite credits (students can take courses with a higher credit value)

*Can be taken as self-study for no credit with a challenge exam given by Hunter Nutrition 3x per year. Science prerequisites require a minimum grade of C. Nutrition/Food Science prerequisites require a minimum grade of B or 80% for the challenge exam.

NUTR MS DPD/Nutrition Courses

(41 credits; 3 credits; each unless otherwise noted)

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

NUTR 71500 - Food Service and Management

An overview of good service operations and theories, functions and tasks of management

NUTR 72000 - Community Nutrition Education

Nutrition programs and materials for health promotion in the community.

NUTR 72500 - Nutrition Research

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

NUTR 73300 - Nutrition and Human Development

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

NUTR 73100 - Human Nutrition and Metabolism

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.
prereq: NUTR 70500

NUTR 73200 - Advanced Nutrition II

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

prereq: NUTR 73100

NUTR 73400 - Clinical Nutrition I

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73100

NUTR 73500 - Clinical Nutrition II

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73400

NUTR 74600 - Nutrition and Disease

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

coreq: NUTR 74700

NUTR 74700 - Advanced Nutrition and Assessment Laboratory

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of various population groups.

coreq: NUTR 74600

NUTR 74800 - Nutrition Assessment & Counseling

Nutrition assessment in humans, including anthropometric, biochemical, clinical, and dietary assessment; the application of principles of communication and counseling skills.

prereq: NUTR MS matriculant
Hours 3 hrs
Credits 3 cr.

NUTR 75600 - Food Science and the Environment

Scientific principles of food and food ingredients: composition, function, regulation, safety, quality, testing, processing, packaging, formulation, production and evaluation of foods.
coreq: NUTR 75700

NUTR 75700 - Food Science and the Environment Laboratory

Laboratory experience with the chemical and physical properties of food components.

coreq: NUTR 75600
Credits 1

NUTR 78000 - Capstone

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the Nutrition MS program. Students will complete either a project, research/review paper, or a manuscript.

prereq: Completion of at least 18 credits of graduate coursework toward the MS Nutrition degree
Hours Variable 3-6 hrs
Credits Variable 3-6 cr. with a maximum of 6 cr.

Dietetics Courses

(12 credits; 3 credits each)

NUTR 70000 - Seminar in Dietetics Practice

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

Open to dietetic internship (DI) students only.

NUTR 70100 - Pre-Professional Practice in Dietetics: Clinical

Supervised externship in clinical dietetics and classroom discussions of readings and field experiences.

Open to DI students only.

NUTR 70200 - Pre-Professional Practice in Dietetics: Food Service

Supervised externship in food service and personnel management, and classroom discussions of readings and field experiences.

Open to DI students only.

NUTR 70300 - Pre-Professional Practice in Dietetics: Community

Supervised externship in community nutrition and classroom discussions of readings and field experiences.

Credits 3
Open to DI students only.
Comprehensive Exam (no credit)

Total credits required for degree: 53 credits

**Nutrition Track II MS Academic DI**

This track is for students who have completed a Dietetic Internship in an academic/collegiate setting (36 credits) where 12 graduate DI credits can be transferred toward the MS.

(courses 3 credits each unless otherwise noted)

**Admissions Requirement**

1. Completion of an undergraduate accredited DPD program
2. A statement of interest
3. Two references
4. Resume

**NUTR Core Courses (6 credits)**

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq: No prerequisites required.*

*Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.*

**NUTR 72500 - Nutrition Research**

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

**NUTR Experiential Practice Courses (12 credits)**

**NUTR 70000 - Seminar in Dietetics Practice**

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

*Open to dietetic internship (DI) students only.*

**NUTR 70100 - Pre-Professional Practice in Dietetics: Clinical**

Supervised externship in clinical dietetics and classroom discussions of readings and field experiences.

*Open to DI students only.*
NUTR 70200 - Pre-Professional Practice in Dietetics: Food Service

Supervised externship in food service and personnel management, and classroom discussions of readings and field experiences.

Open to DI students only.

NUTR 70300 - Pre-Professional Practice in Dietetics: Community

Supervised externship in community nutrition and classroom discussions of readings and field experiences.

Credits 3
Open to DI students only.

NUTR Specialization/Major Electives (15 credits)

NUTR 72000 - Community Nutrition Education

Nutrition programs and materials for health promotion in the community.

NUTR 73100 - Human Nutrition and Metabolism

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

prereq: NUTR 70500

NUTR 73200 - Advanced Nutrition II

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

prereq: NUTR 73100

NUTR 73300 - Nutrition and Human Development

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

NUTR 73400 - Clinical Nutrition I

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73100

NUTR 73500 - Clinical Nutrition II

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73400
- NUTR 73600 Nutrition Assessment & Counseling

**NUTR 74600 - Nutrition and Disease**

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

*coreq: NUTR 74700*

**NUTR 77000 - Topics in Nutrition**

Courses on current topics in nutrition.

*prereq: No prerequisite courses required. Open to NUTR MS or with departmental permission
Hours 1-6
Credits Variable 1-6 credits, with a maximum of 6 credits. Offered periodically. Variable credits.*

- NUTR 78301, 02, 03 Independent Study (1,2 or 3 credits)
- Other NUTR or other electives approved by advisor

**NUTR Culminating Experience (3 credits)**

**NUTR 78000 - Capstone**

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the Nutrition MS program. Students will complete either a project, research/review paper, or a manuscript.

*prereq: Completion of at least 18 credits of graduate coursework toward the MS Nutrition degree
Hours Variable 3-6 hrs
Credits Variable 3-6 cr. with a maximum of 6 cr.*

Total credits required for degree: 36

or

**Academic DI Non-Degree**

**NUTR Experiential Practice Courses (12 credits)**

**NUTR 70000 - Seminar in Dietetics Practice**

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

*Open to dietetic internship (DI) students only.*
NUTR 70100 - Pre-Professional Practice in Dietetics: Clinical

Supervised externship in clinical dietetics and classroom discussions of readings and field experiences.

Open to DI students only.

NUTR 70200 - Pre-Professional Practice in Dietetics: Food Service

Supervised externship in food service and personnel management, and classroom discussions of readings and field experiences.

Open to DI students only.

NUTR 70300 - Pre-Professional Practice in Dietetics: Community

Supervised externship in community nutrition and classroom discussions of readings and field experiences.

Credits 3
Open to DI students only.

Nutrition Track III MS External/Non-Academic DI

This track is for students who have completed a Dietetic Internship in a non-college/external setting such as a hospital or other health care facility. The 30 credit track encompasses core and elective classes and a culminating experience.

NUTR Core Courses (6 credits)

PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

NUTR 72500 - Nutrition Research

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

NUTR Specialization/Major Electives (21 credits)

NUTR 72000 - Community Nutrition Education

Nutrition programs and materials for health promotion in the community.

NUTR 73100 - Human Nutrition and Metabolism
Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

prereq: NUTR 70500

**NUTR 73200 - Advanced Nutrition II**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

prereq: NUTR 73100

**NUTR 73300 - Nutrition and Human Development**

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

**NUTR 73400 - Clinical Nutrition I**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73100

**NUTR 73500 - Clinical Nutrition II**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

prereq: NUTR 73400

**NUTR 74600 - Nutrition and Disease**

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

coreq: NUTR 74700

**NUTR 74800 - Nutrition Assessment & Counseling**

Nutrition assessment in humans, including anthropometric, biochemical, clinical, and dietary assessment; the application of principles of communication and counseling skills.

prereq: NUTR MS matriculant
Hours 3 hrs
Credits 3 cr.

**NUTR 77000 - Topics in Nutrition**

Courses on current topics in nutrition.

prereq: No prerequisite courses required.
Open to NUTR MS or with departmental permission

Hours 1-6
Credits Variable 1-6 credits, with a maximum of 6 credits.
Offered periodically. Variable credits.

NUTR Culminating Experience (3 credits)

**NUTR 78000 - Capstone**

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the Nutrition MS program. Students will complete either a project, research/review paper, or a manuscript.

*prereq: Completion of at least 18 credits of graduate coursework toward the MS Nutrition degree
Hours Variable 3-6 hrs
Credits Variable 3-6 cr. with a maximum of 6 cr.*

Total credits required for degree: 30

**Nutrition Track IV MS Focused Study**

Admission Requirements

- A bachelor's degree from an accredited institution
- A statement of interest
- Two references
- Resume
- General Chemistry w/lab, 4 credits
- Organic Chemistry w/lab, 4 credits
- Anatomy and Physiology I w/lab, 4 credits
- Anatomy and Physiology II w/lab, 4 credits
- Microbiology, 3 credits
- Intro to Nutrition*, 3 credits
- Intro to Food Science* I, 3 credits
- Intro Statistics or higher, 3 credits
- Any Economics, Psychology, Anthro, or Sociology class, 3 Credits

**NUTR Core Courses (6 credits)**

**PH 75000 - Fundamentals of Biostatistics**

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

*prereq: No prerequisites required.
Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.*
**NUTR 72500 - Nutrition Research**

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

**NUTR Specialization/Major Electives (select 27 credits)**

**NUTR 72000 - Community Nutrition Education**

Nutrition programs and materials for health promotion in the community.

**NUTR 73100 - Human Nutrition and Metabolism**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

*prereq: NUTR 70500*

**NUTR 73200 - Advanced Nutrition II**

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

*prereq: NUTR 73100*

**NUTR 73300 - Nutrition and Human Development**

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

**NUTR 73400 - Clinical Nutrition I**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73100*

**NUTR 73500 - Clinical Nutrition II**

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73400*

**NUTR 74600 - Nutrition and Disease**

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

*coreq: NUTR 74700*

**NUTR 74800 - Nutrition Assessment & Counseling**
Nutrition assessment in humans, including anthropometric, biochemical, clinical, and dietary assessment; the application of principles of communication and counseling skills.

prereq: NUTR MS matriculant  
Hours 3 hrs  
Credits 3 cr.

NUTR 77000 - Topics in Nutrition

Courses on current topics in nutrition.

prereq: No prerequisite courses required.  
Open to NUTR MS or with departmental permission  
Hours 1-6  
Credits Variable 1-6 credits, with a maximum of 6 credits.  
Offered periodically. Variable credits.  
Other NUTR or Biology or other electives approved by adviser

NUTR Culminating Experience (3 credits)

Total credits required for degree: 36

Nutrition: Dietetic Internship (DI) Advanced Certificate

Prerequisite Requirements

Completion of an ACEND accredited undergraduate or graduate Didactic Program.

Nutrition Experiential Practice Courses (12 credits)

NUTR 70000 - Seminar in Dietetics Practice

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

Open to dietetic internship (DI) students only.

NUTR 70100 - Pre-Professional Practice in Dietetics: Clinical

Supervised externship in clinical dietetics and classroom discussions of readings and field experiences.

Open to DI students only.

NUTR 70200 - Pre-Professional Practice in Dietetics: Food Service

Supervised externship in food service and personnel management, and classroom discussions of readings and field experiences.
Open to DI students only.

**NUTR 70300 - Pre-Professional Practice in Dietetics: Community**

Supervised externship in community nutrition and classroom discussions of readings and field experiences.

*Credits 3*

Open to DI students only.

**BIOS 75000 - Applied Biostatistics I**

A follow up course to PH 7500/75100 and PH 75200/75300, covering intermediate-level statistical methods commonly used in public health research. Topics include: simple and multiple linear regression; logistic regression; residual analysis; variable selection. Focus on practical applications, utilizing statistical software.

*Cross-listed STAT 75000*

*prereq: PH 7500 or 75100 and PH 75200 or 75300*

*Credits 3*

**BIOS 75100 - Applied Biostatistics II**

A follow up course to BIOS 75000, covering intermediate and advanced statistical methods commonly used in public health research. Topics include: log linear and generalized linear models; random and mixed effects models; survival analysis. Focus on practical applications utilizing statistical software.

*Cross-listed STAT 75100*

*prereq: BIOS 75000*

*Hours 3 hrs*

*Credits 3 cr.*

**BIOS 75200 - Analysis of Categorical Data**

An introduction to statistical models for analyzing categorical data, with emphasis on examples from the health sciences. Topics include: contingency tables and corresponding tests such as chi-square, CMH and trend test, count data, logistic regression and log-linear models.

*Cross-listed STAT 75200*

*prereq: BIOS 75000*

**BIOS 75300 - Analysis of Longitudinal Data**

An introduction to statistical models and methods for analyzing longitudinal data in public health. Topics include: longitudinal designs and cohort sampling, general linear models for longitudinal data, marginal & random effects models, time-dependent covariates, missing values.

*Cross-listed STAT 75300*

*prereq: BIOS 75000*

**BIOS 75400 - Design and Analysis of Complex Surveys**
This course provides an introduction to statistical issues in the design and analysis of complex surveys, with a particular emphasis on public health research. Topics include: basic sampling techniques, stratified and cluster sampling, non-sampling errors, and case studies.

Cross-listed STAT 75400
prereq: BIOS 75000

BIOS 75500 - Survival Analysis

An introduction to regression modeling used in the analysis of time-to-event data in epidemiological, biostatistical, and other health-related research. Topics include: survival functions, proportional-hazards, parametric and competing-risks models, missing data, using case studies.

Cross-listed STAT 75500
prereq: BIOS 75000

BIOS 75600 - Data Analysis

Probability-free alternatives to classical statistics, concentrating on graphical and robust methods. Topics include: data summaries; transformations; the jackknife and resampling schemes; robust estimation; and robust regression methods.

Cross-listed STAT 71600
prereq: BIOS 75000

BIOS 75800 - Analysis of Variance

Intermediate topics in analysis of variance (ANOVA), with an emphasis on exploratory aspects. Topics including: one, two and many way layouts; decomposition and partitioning of variance; fixed, random, and mixed effects models; repeated measures; contrasts; multiple comparisons; and robust analogs.

Cross-listed STAT 71800
prereq: BIOS 75000

BIOS 77000 - Topics in Biostatistics

Courses on current topics in biostatistics.

Offered periodically

BIOS 77001 - Applied Biostatistics III

An advanced biostatistics course that focuses on mixed models, GEE for analysis of correlated data, management of missing data and imputation, propensity scoring, and causal inference.

prereq: BIOS 75100 and EPI 75100
Credits 3

COMHE 75000 - Community Health Assessment

This course prepares students to collect and analyze data on community health from a variety of sources, to identify problems and assets, and to develop objectives for community health interventions.
COMHE 75100 - Community Health Interventions

An introduction to community-level interventions as explained by theories of individual, organizational and community change from the disciplines of psychology, sociology and health education.

prereq: PH 75500, COMHE 75000
Credits 3

COMHE 75200 - Community Organizing and Development for Health

Prepares students to work in communities by presenting the theory and practice of organizing for social justice, skills for promoting leadership development within communities, and the tools to create and sustain healthy organizations.

prereq: PH 75500, COMHE 75000, COMHE 75100
Credits 3

COMHE 75300 - Health Program Planning and Funding

This course will engage students in identifying or designing a health program, finding funding sources, and developing a proposal covering program need, program objectives, a management and quality assurance plan, preliminary work, evaluation, budget, and a plan for funding support.

prereq: completion of 15 cr incl PH 75000 or 75100, PH 75500 and either COMHE 75000, COMHE 75100, COMHE 75200 or COMHE 75000 and NUTR 71000 or NURS 77100, COMHE 75100 and COMHE 75200.
Credits 3 cr

COMHE 75400 - Research and Evaluation for Community Health

Basic concepts, methods and approaches for evaluation research applied to community health education and health-related programs through a critical review of literature and a program evaluation design.

prereq: 15 cr in program incl PH 75000 or PH 75100, PH 75500, COMHE 75000, COMHE 75100, COMHE 75200
Credits 3 cr

COMHE 77000 - Topics in Community Health Education

Courses on current topics in community health education.

offered periodically

COMHE 77025 - Maternal and Child Health

This course explores maternal and child health issues both domestically and internationally.

Credits 3
**EOHS 70200 - Introduction to Occupational Safety and Health**

Introduction to basic concepts and issues of occupational safety and health, including recognition and control of chemical and physical hazards, and the regulations governing these hazards.

*Credits 3*

**EOHS 70500 - Environmental Chemistry**

Survey of chemical and physical concepts essential for understanding environmental and occupational health sciences, including study of the atmosphere, air and water pollution, and energy resources. Physical principles of heat and energy, and radioactivity will be discussed.

*Credits 3*

**EOHS 71000 - Industrial Safety and Safety Management**

Fundamental concepts and principles of industrial accident prevention and loss control; safety program organization; hazard recognition and evaluation; accident investigation; machine guarding; tire protection; personal protective equipment.

*Credits 3*

**EOHS 74100 - Environmental and Industrial Hygiene Laboratory**

Physical, chemical, and instrumental methods for measuring environmental and occupational contaminants.

*prereq or coreq: EOHS 70500*

*Hours 90 hrs lec and lab, Credits 4 cr*

**EOHS 74300 - Air Resource Management**

Air pollution sources, types of pollutants, transport phenomena, effects on health and on vegetation and materials; air quality monitoring, criteria, standards, and control methods.

*Credits 3*

**EOHS 74500 - Hazardous Waste Management**

A review of the sources, transportation and control of hazardous chemical wastes. Regulatory requirements, disposal methods and health effects will also be presented.

*Credits 3*

**EOHS 74600 - Water Resources**

Water and waste water technology related to public health. Sources of water supply, distribution, treatment, chemical, biological and physical water pollutants and their health consequences. Review of federal legislation. Field trip to waste water treatment plant.
EOHS 74700 - Hazard Evaluation and Instrumentation

An introduction to instrumental methods used to assess environmental and occupational health hazards. Principles and operation of commonly used direct reading instruments and demonstration of their application.

prereq: PH 75000 or 75100, EOHS 70200, EOHS 70500
Credits 3

EOHS 75400 - Environment and Occupational Toxicology

Introduction to principles of toxicology with emphasis on environment and occupational aspects. Systematic review of the toxicology of major organ systems; health effects of categories of toxins, such as solvents and metals; and review of toxicological testing and evaluation.

prereq: PH 75400 and EOHS 70500
Credits 3

EOHS 75500 - Industrial Ventilation and Indoor Air Quality

Advanced course. This course covers the fundamentals of design, operation and evaluation of air moving systems for local and dilution exhaust ventilation systems. Engineering controls are the preferred method for the control of airborne hazards in the workplace.

prereq: EOHS 70200 and PH 75400 or permission of the instructor
coreq: EOHS 70200 and PH 75400 with permission of the instructor
Hours 3 hrs
Credits 3 cr.

EOHS 75700 - Principles of Industrial Hygiene

Recognition, evaluation, and control of industrial hazards due to chemical and physical agents. Topics include occupational health standards, regulatory agency activities, effects of contaminants on human health, sampling and control of hazards, current issues.

prereq: EOHS 70200 and 70500
Credits 3

EOHS 75900 - Industrial Processes and Plant Visits

A review of major industrial processes and health hazards associated with each. Includes site visits to metropolitan NY industrial facilities during working hours.

prereq: EOHS 75700
Credits 3

EOHS 76200 - Noise and Radiation Hazards and Controls

Introduction to basic concepts of sound, noise measurement, and noise control in community and occupational environments. Health and safety problems involved with the use of ionizing and non-ionizing radiation, with an emphasis on identification and control.
EOHS 76500 - Environmental Audits and Remediation

Introduction to environmental investigation and remediation technologies commonly used in professional practice. Presents proper practices for assessing and remediating asbestos, lead-based paint, indoor air quality, and underground storage tanks situations and Phase I site audits.

Credits 3

EOHS 77000 - Topics in Environmental and Occupational Health Sciences

Courses on current topics in environmental and occupational health sciences.

Offered periodically.

EOHS 77025 - Topics: Biohazards and Emergency Response

This cross-listed undergraduate/masters class covers the biology of microorganisms and toxins most frequently considered in perpetrated attacks. It also considers technology for detection and control for first responders, lab practitioners and other healthcare professionals, emergency communication, and prevention. In addition to classroom activities, students participate in group projects to simulate bioterrorism events and responses; government regulation, chain of evidence, and related topics are covered.

Cross-listed MLS 40066
Hours 3
Credits 3

EOHS 77500 - Indoor Air Quality

A review of sources indoor air pollution and its evaluation and control. Topics include assessment techniques, air sampling, HVAC assessment and remediation approaches.

Credits 3

EPI 75000 - Epidemiologic Methods I: Study Research Design

This course will provide an in depth understanding of the design and conduct of epidemiological studies, including causal inferences, measurement, major study designs, threats to validity, and urban public health applications. Examples will be based on the health of New York City residents. Prereq:

Cross-listed GC PH 82000
prereq: PH 75100, PH 75300
Credits 3

EPI 75100 - Epidemiologic Methods II: Survey and Research Methods

This course will provide students with an understanding of the methods used to test research hypotheses; tools for selecting statistical tests appropriate for the particular study design and research hypotheses; and an ability to recognize
the importance and impact of threat to validity such as confounding and bias. This course will also cover survey methods used in epidemiologic research.

*Cross-listed GC PHI 82100*  
prereq: EPI 75000  
*Credits 3*

**EPI 75200 - Applied Research: Data management and analysis**

This course provides students with the opportunity to apply epidemiological and statistical concepts using several datasets to answer a given research question and test the hypotheses associated with it.

prereq: BIOS 75100, EPI 75100 or instructor's permission  
*Credits 3*

**EPI 75300 - Clinical Trials and Experimental Design**

This course provides students with the basic foundation of experimental design, with a focus on clinical trials (single and multi-center), intervention trials, and quasi experimental design, particularly in the field of public health. The strengths and limitations of these approaches in comparison with related observational epidemiologic studies will also be covered. Specific topics to be discussed include design options (sampling, treatment allocation, cluster randomization), sample size and power considerations, adverse event monitoring, and statistical analysis of trial data.

prereq: PH 75000/75100 and PH 75200/75300  
*Credits 3*

**EPI 75400 - Social Epidemiology**

This course will introduce public health and other interested graduate students to the sub-discipline of social epidemiology, including theory and methods. Specifically, students will gain an understanding of how an individual's interactions with factors associated with the social fabric of the society affect and shape health outcomes. This class will also examine the etiology and prevention of disease within both ecological (multi-level) and multidisciplinary frameworks.

prereq: PH 75000 or 75100, PH 75200 or 75300

**EPI 75500 - Epidemiology of Chronic Diseases**

This course provides students with epidemiological background information for the most common chronic disease conditions. In addition, the course provides students with hands on experience to characterize the frequency and impact of chronic diseases and their risk factors in New York City (NYC) using public data available through the Department of Health and Mental Hygiene.

prereq: PH 75000 or 75100, PH 75200 or 75300

**EPI 75600 - Epidemiology of Infectious Diseases**

This course will examine the role of epidemiology in understanding transmission, surveillance and control of infectious diseases. Special focus will be on emerging infectious diseases in urban settings.
EPI 75700 - Reproductive and Perinatal Epidemiology

This course covers current research, controversial issues, and methodological problems in the epidemiology of male and female reproduction and perinatal health. Topics include: epidemiology of fertility and infertility, contraception and hormone usage, reproductive cancers and other diseases, pregnancy complications, maternal mortality, adverse pregnancy outcomes and birth defects.

EPI 75800 - Nutritional Epidemiology

This course teaches concepts and principles used in nutritional epidemiology. It provides skills required to critically evaluate dietary assessment methodology and reviews current topics in nutritional epidemiology. In addition, the role of nutrition in health and how this applies to public health is discussed.

Cross-listed GC PH 81200

EPI 75900 - Environmental and Occupational Epidemiology

Using a case study approach, this course will explore epidemiologic methods for studying environmentally and occupationally related diseases. Key methodologic issues, such as exposure and outcome assessment, cumulative and multiple exposures, exposure pathways, research ethics, and policy implications of epidemiological findings will also be discussed. The focus will be on the environmental and occupational health of urban populations.

EPI 76000 - Modeling and Making the Most of your Data with R

This course will provide students with a toolkit for making the most of their data using R when appropriate. This course will consolidate many of the skills previously taught in data analysis and modeling. It will focus on the practical application of these skills throughout the lifecycle of a research project, and provide illustrations and applications of relevant techniques in R. It will provide grounding in the use of R.

EPI 76100 - Psychiatric and Mental Health Epidemiology

An introduction to the epidemiology of mental health and mental illness. This course takes an explicit epidemiologic perspective, focusing on the study of the burden and determinants of mental illness. It reviews the extant literature on the epidemiology of specific disorders and evaluates studies that investigate risk factors for mental illness. We will consider methodologic challenges involved in the study of mental health and illness such as limitations to diagnostic techniques and screening instruments and issues surrounding co-morbidity. The course will also address the social consequences of mental illness, and consider how we may apply epidemiologic methods to promoting psychological wellbeing in the general population.
prereq: EPI 75000 (Epidemiological Methods I) or equivalent
Open to MPH and EOHS-MS or departmental permission.
recommended prereq or coreq: experience with statistical software (e.g., SPSS, SAS or STATA) preferred but not required
Hours 3 hrs
Credits 3 cr.

EPI 76200 - Life Course Epidemiology

Provides a theoretical framework as to how life-course exposures affect vulnerability to disease, knowledge about life course influences on selected diseases and the implications for prevention and control. This course will also consider how intra- and inter-generational influences may be relevant to disparities in health. Readings will address empirical patterns, prevailing theories and controversies regarding life course influences, as well as addressing interventions or policies that may be applied to improve population health.

prereq: EPI 75000 (Epidemiological Methods I)
Open to MPH and EOHS-MS or departmental permission.
Hours 3 hrs
Credits 3 cr.

EPI 76300 - Public Health Surveillance

Public health surveillance is the fundamental mechanism that public health agencies use to monitor the health of the communities they serve. It is a core function of public health practice, and its purpose is to provide a factual basis from which agencies can appropriately set priorities, plan programs, and take actions to identify and reduce disparities, promote, and protect the public's health. This course will cover the principles of public health surveillance, including historical context, vital registration, disease reporting regulations and notifiable diseases, surveillance registries, surveillance for behaviors and risk factors, administrative data sources in surveillance, epidemiologic uses of surveillance data, legal and ethical issues, and dissemination of surveillance information.

prereq: PH 75300 (Principles of Epidemiology), PH 75200 (Introduction to Epidemiology), PH 75100 (Principles of Biostatistics), PH 75000 (Introduction to Biostatistics)
Open to MPH and EOHS-MS or departmental permission.
Hours 3 hrs
Credits 3 cr.

EPI 76400 - Epidemiology Methods III

This course exposes students to intermediate methods in epidemiologic research and provides students with an opportunity to consider how these strategies complement and advance the more commonly used strategies. Doctoral and master's students will apply these concepts and theoretical knowledge to quantitative analyses using different types of epidemiologic data. Emphasis will be placed on developing practical skills relevant to contemporary epidemiologic research. Students will explore individual-level exposure-disease associations using classic study designs and techniques, as well as more recent methods that shift away from identifying individual risk factors for disease causation to the description and analysis of environmental systems that give rise to both exposures and health states. Students will also examine potential mediators of these relations.

prereq: EPI 75100 (Epidemiological Methods II) and BIOS 75100 (Applied Biostatistics II)
Open to MPH and EOHS-MS or departmental permission.
**EPI 77000 - Topics in Epidemiology**

Courses on current topics in epidemiology.

*Offered periodically.*

**EPI 77005 - Epidemiological Methods IV**

This seminar is intended to help students integrate the concepts and methods of epidemiologic research with specific inquiry directed at understanding and improving the health of urban populations. This seminar requires students to develop proposals for epidemiologic research, identify strategies for data analysis that incorporate the lessons learned in Epidemiology Methods courses I, II, and III, and to examine the application of those strategies to existing research. This course helps to "bring together" the epidemiology theory and methods that have been discussed throughout the rest of curriculum with the particular exigencies of urban public health.

*prereq: EPI 75000/77000 or PUBH 82200 (CUNY Graduate Center)*

*Credits variable credits*

**EPI 77200 - Topics Emerging in Epidemiology**

This short course brings leading experts into classrooms to teach emerging methods in epidemiology, study controversial topics, or provide a rapid immersion into a specialized topic. Each course combines didactic teaching with applied hands-on training.

*prereq: PH75000 (Introduction to Biostatistics)/PH75100 (Principles of Biostatistics) and PH75200 (Introduction to Epidemiology)/PH75300 (Principles of Epidemiology)*

*Open to MPH and EOHS-MS or departmental permission.*

*Hours 22.5 total; hours vary*

*Credits 1.5*

**HPM 75000 - Public Health Management**

Focuses on management issues in a variety of organizational settings and the larger public health environment; describes managerial functions and problem solving strategies, financial management principles, and management models for change; develops specific skills in program management, budgeting, workforce development, and managing intersectoral programs.

*prereq: PH 75500, PH 75600*

**HPM 75100 - Public Health and Health Care Law**

Reviews key areas of the legal process relevant to health care delivery and public health; analyzes major court decisions that have affected the field and selected federal, state and local statutes that affect public health and health care practice; acquaints students with the basics of legal research and legal reasoning as applied to public health and health care.

*prereq or coreq: PH 75500, PH 75600 or with instructor's permission for those with at least one year of health care experience*
HPM 75200 - Comparative Analyses of Urban Health Care Systems

Examines unique challenges and opportunities for delivering health care in developed and developing world cities; analyses impact of national and local policies and social and political factors on health care access, quality and outcomes; introduces empirical methods for making comparative studies across municipalities and nations.

prereq: PH 75500, PH 75600
Students can take this course or HPM 75400

HPM 75300 - Public Health Policy Analysis

Examines common approaches and concepts of policy analysis for public health, including market efficiency and failures, cost-benefit analysis, problem and decision making analysis; describes critiques of such models with public health examples; focuses on the Health Impact Assessment as a method for analyzing costs and benefits of health and non-health policies.

prereq: PH 75500, PH 75600

HPM 75400 - Public Health Advocacy

Prepares students to advocate for policies that promote public health, develops skills in planning and implementing advocacy campaigns; assess theories on role of coalitions and advocacy in changing health policy.

prereq: PH 75500, PH 75600
Students can take this course or HPM 75200

HPM 75500 - Health Economics

This course in health economics introduces students to essential microeconomic concepts as they apply to health systems, individual and public health.

prereq: Recommended pre-req: PH 75500, PH 75600

HPM 77000 - Topics in Public Health Policy and Management

Courses on current topics in public health policy and management.

Offered periodically

NUTR 70000 - Seminar in Dietetics Practice

Discussions and student presentations of topics of current interest in the practice of dietetics and public health nutrition.

Open to dietetic internship (DI) students only.

NUTR 70100 - Pre-Professional Practice in Dietetics: Clinical

Supervised externship in clinical dietetics and classroom discussions of readings and field experiences.

Open to DI students only.
NUTR 70200 - Pre-Professional Practice in Dietetics: Food Service

Supervised externship in food service and personnel management, and classroom discussions of readings and field experiences.

Open to DI students only.

NUTR 70300 - Pre-Professional Practice in Dietetics: Community

Supervised externship in community nutrition and classroom discussions of readings and field experiences.

Credits 3
Open to DI students only.

NUTR 70500 - Nutrition and Biochemistry

The structure and metabolism of macro- and micronutrients, kinetics and regulation of enzymes; energetic of biochemical reactions.

NUTR 71000 - Principles of Public Health Nutrition

Fundamentals of nutrition in public health as they apply to health promotion and disease prevention for individuals and society, with emphasis on urban populations.

NUTR 71500 - Food Service and Management

An overview of good service operations and theories, functions and tasks of management

NUTR 72000 - Community Nutrition Education

Nutrition programs and materials for health promotion in the community.

NUTR 72500 - Nutrition Research

Understanding, evaluation and application of various research methodologies, research protocols, data analyses, and data presentations. Critical review of nutrition and public health literature.

NUTR 73000 - Nutritional Assessment of Urban Communities and Populations at Risk

The collection and analysis of data for the purposes of identification of, and designing interventions for, individuals and urban populations at nutritional risk.

NUTR 73100 - Human Nutrition and Metabolism

Comprehensive study and evaluation of current research on biochemical and metabolic significance of carbohydrates, lipids and proteins to human nutrition.

prereq: NUTR 70500
NUTR 73200 - Advanced Nutrition II

Comprehensive study and evaluation of current research on biochemical and metabolic significance of vitamins, minerals, and water to human nutrition.

*prereq: NUTR 73100*

NUTR 73300 - Nutrition and Human Development

Relation of nutrition to growth and development. Nutrition requirements throughout the lifecycle.

NUTR 73400 - Clinical Nutrition I

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73100*

NUTR 73500 - Clinical Nutrition II

Modifications of the normal diet in the treatment of disease, food and drug interactions.

*prereq: NUTR 73400*

NUTR 74600 - Nutrition and Disease

Examine and relate nutrient function to the pathologic processes of disease and derive implications for medical nutrition therapy.

*coreq: NUTR 74700*

NUTR 74700 - Advanced Nutrition and Assessment Laboratory

Study and evaluation of anthropometric, biochemical, and other measurement methodologies as they relate to nutritional status of various population groups.

*coreq: NUTR 74600*

NUTR 74800 - Nutrition Assessment & Counseling

Nutrition assessment in humans, including anthropometric, biochemical, clinical, and dietary assessment; the application of principles of communication and counseling skills.

*prereq: NUTR MS matriculant*

*Hours 3 hrs*

*Credits 3 cr.*

NUTR 75600 - Food Science and the Environment
Scientific principles of food and food ingredients: composition, function, regulation, safety, quality, testing, processing, packaging, formulation, production and evaluation of foods.

coreq: NUTR 75700

**NUTR 75700 - Food Science and the Environment Laboratory**

Laboratory experience with the chemical and physical properties of food components.

coreq: NUTR 75600

Credits 1

**NUTR 76000 - Practicum**

Nutrition and food science-related fieldwork in hospitals, schools, laboratories, and community-based organizations designed to provide opportunities to apply knowledge and skills gained from the classroom education to professional practice.

prereq: completion of 27 credits in NUTR

**NUTR 77000 - Topics in Nutrition**

Courses on current topics in nutrition.

prereq: No prerequisite courses required.
Open to NUTR MS or with departmental permission
Hours 1-6
Credits Variable 1-6 credits, with a maximum of 6 credits.
Offered periodically. Variable credits.

**NUTR 77100 - Topics in Nutrition II**

Varied by topic. See department for description per course offering.

prereq or coreq: All NUTR-MS Plan matriculants & IPND, DI certificate, BSMS matriculants or department permission

Hours Variable 1-3

Credits Variable 1-3
repeatable course multiple times

**NUTR 77200 - Topics in Nutrition II**

Varied by topic. See department for description per course offering.

prereq or coreq: All NUTR-MS Plan matriculants & IPND, DI certificate, BSMS matriculants or department permission

Hours Variable 1-3

Credits Variable 1-3
repeatable course multiple times

**NUTR 77300 - Topics in Nutrition II**
Varied by topic. See department for description per course offering.

**prereq or coreq:** All NUTR-MS Plan matriculants & IPND, DI certificate, BSMS matriculants or department permission

**Hours** Variable 1-3

**Credits** Variable 1-3

*repeatable course multiple times*

### NUTR 78000 - Capstone

This course consists of a structured seminar aimed at allowing students to synthesize and reflect upon experiences gained during the Nutrition MS program. Students will complete either a project, research/review paper, or a manuscript.

**prereq:** Completion of at least 18 credits of graduate coursework toward the MS Nutrition degree

**Hours** Variable 3-6 hrs

**Credits** Variable 3-6 cr. with a maximum of 6 cr.

### PH 75000 - Fundamentals of Biostatistics

Application and interpretation of basic descriptive and inferential statistical methods for the analysis of public health and other health-related data.

**prereq:** No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, NUTR-MS, Nutrition BS/MS, and EOHS-MS or departmental permission.

### PH 75200 - Fundamentals of Epidemiology

Apply principles and methods of epidemiological analysis. Identify and interpret epidemiological data. Illustrate and investigate incidence, distribution, determinants, and control of disease.

**prereq:** No prerequisites required.

Open to MPH, MSW/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, MS in Community/Public Health Nursing, and EOHS-MS or departmental permission.

**Hours** 3

**Credits** 3

### PH 75300 - Principles of Epidemiology

A first-level requirement for student specializing in EPI-BIOS, who will take subsequent intermediate and advanced level epidemiology courses. It will introduce students to epidemiologic theory, principles, methods and measures commonly used in public health.

**prereq or coreq:** PH 75100

**Hours** 3

**Credits** 3

### PH 75400 - Fundamentals of Environmental Health
Survey of chemical, physical and biological factors influencing quality of ambient, workplace and home environments. Topics include: air and water pollution; radiation; hazardous substances; solid wastes; food protection; and natural and human-made disasters.

_prereq: Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission._

**Hours 3**

**Credits 3**

**PH 75600 - Fundamentals of Health Policy and Management**

Examination of the organization, delivery and financing of health care in the United States as it pertains to the health policy-making process, including the organization of the agencies and personnel constituting the health care system, and analysis of government structure, laws, and regulations. Theoretical concepts, practice, and implementation of health programs in organized settings, including the planning, administration, management, evaluation, and policy analysis of public health agencies and private sector managed care.

_prereq: Open to MPH, MS/MPH dual degree, MS/MPH in Community/Public Health Nursing/Urban Public Health, and EOHS-MS or departmental permission._

**Hours 3**

**Credits 3**

**Programs and Courses in Physics and Astronomy**

**Physics and Astronomy**

**OVERVIEW**

The Department of Physics and Astronomy has graduate and post-graduate research programs in theoretical and experimental physics. Students may obtain the MA in Physics or MA in Adolescent Education from Hunter College, and/or the joint PhD degree in Physics from Hunter College and the City University Graduate Center. The Department offers all levels of graduate courses jointly with the Graduate Center. Faculty of the department are pursuing projects in the forefront of modern research. The focuses include experimental research in astronomy, optics and spectroscopy, biophysics and biomedical optics, nuclear magnetic resonance and renewal energy materials, and theoretical research in nanophysics, quantum information and quantum optics, chemical physics, and time-frequency analysis. The research programs are well funded by nine different government agencies. Many of our faculty members are leaders of their fields, won prestigious awards, and earned international recognition.

**What can I do with my degree in Physics?**

The doctoral program is designed to train highly qualified research scientists who are fully equipped to teach and OKto direct research in a wide variety of university and industry programs in physical sciences.

**Programs and Courses**

Programs and Courses in Physics and Astronomy
Program for Teachers of Adolescent Education (Grades 7-12) – Physics MA

Adolescent Physics - MA / Advanced Certificate

Doctor of Philosophy

Doctor of Philosophy in Physics

Administration and Faculty

Chair:

Ying-Chih Chen
1238 North
(212) 772-4526
y.c.chen@hunter.cuny.edu

Department Office:

Hours of Operation: Monday – Friday 9:00 AM – 5:00 PM

Faculty

Many members of the department participate in a PhD program based at the CUNY Graduate Center.

See Doctoral Program in Physics

Physics and Astronomy Faculty

Graduate Doctorate

Doctor of Philosophy in Physics

Return to Physics and Astronomy
Doctor of Philosophy

Hunter College offers Doctor of Philosophy in Physics jointly with the Graduate Center. Students may be accepted into this Program with the approval of the Admissions Committee of the Doctoral Program in Physics at the Graduate Center.

Students enrolled in the Hunter College MA program who achieve satisfactory records and pass CUNY's first PhD examination may be admitted to the PhD program subject to the approval of the Admissions Committee of the Graduate Center. Courses taken in the Hunter MA program may be counted as part of the course work required for the PhD. Thesis research toward the doctorate may also be carried out at Hunter College.

Courses of Study

The student's course of study must have the approval of an adviser. Of the 60 credits of graduate work required for the degree, no more than 9 credits may be in first-level courses; with special permission, up to 18 credits may be taken in subjects other than physics. After students pass the First Examination, they are encouraged to choose a thesis field and adviser; these decisions should normally be made within the first year of study. Doctoral students are expected to attend the regularly held colloquia.

First Examination

The student must pass the First Examination, which includes quantum mechanics, analytic dynamics, electromagnetic theory, and general physics, which covers topics selected from the fields of atomic and nuclear physics, solid state, thermodynamics and statistical mechanics and optics. For students specializing in fluid-geophysics, an examination in that area may be substituted for the quantum mechanics part of the First Examination.

Second Examination

The Second Examination tests the student's knowledge of the general areas of physics bearing on his or her field of research as well as the student's readiness to undertake a specific piece of research. Detailed information concerning the examination is available from the Executive Officer.

Dissertation

The student is required to prepare the dissertation under the guidance of a thesis adviser. Upon completion, the dissertation will be submitted to the guidance committee appointed for the student. The degree is recommended upon approval of the dissertation by the committee and upon successful completion of an oral defense of the dissertation before the committee. The dissertation must be of such a caliber as to be acceptable for publication in a standard journal when suitably condensed.

College Teaching

Each student is required to participate in some teaching of undergraduate physics courses. Specific requirements are determined for each student in consultation with the Executive Officer and the Department Chairman. In special cases research may be substituted for this requirement.

FINANCIAL AID
Every student admitted for doctoral study in Physics will have financial support for five full years of study, as long as they remain in good academic standing and progress on schedule in their doctoral research. The five-year CUNY Science Scholarship includes a full tuition waiver, annual health insurance coverage and $24,000/year financial support.

**Master's Programs**

**Physics - MA**

The MA in physics is offered as a terminal degree, either separately or as part of the BA/MA program. The MA in physics may also, with the approval of the CUNY Graduate Center, form part of the degree work required for the CUNY PhD degree. Thesis research toward the CUNY PhD may also be carried out at Hunter College.

**Admission Requirements**

Applicants must meet Hunter’s general admission requirements; however, the physics department no longer requires the Graduate Record Examination. In addition, the following departmental requirements must be met:

1. A minimum of 36 credits total in undergraduate physics and mathematics courses. These should include intermediate mechanics, electricity, modern physics, and differential equations. A B average is required for these courses.

2. Approval by the department’s Graduate Physics Committee. If deficiencies are noted in certain undergraduate courses, the applicant may be required to take these courses without graduate credit.

**Degree Requirements**

1. **Program of courses**

   A program of courses designed in consultation with the graduate adviser and approved by the department’s Graduate Physics Committee.

2. **Completion of 30 credits of graduate work including:**

   a. Not more than 6 credits earned at a graduate institution other than CUNY.

   b. At least 15 credits earned at Hunter College.

   c. The following courses or their equivalents:

   **PHYS U70100 - Mathematical Physics**

   Study of the basic mathematical techniques used in physics.

   *Hours 60 hrs,* 
   *Credits 4 cr*
PHYS U71100 - Analytical Dynamics

Study of advanced classical mechanics.

prereq or coreq: PHYS U70100

Hours 60 hrs,
Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U71500 - Electromagnetic Theory

Advanced concepts of static and time-dependent electromagnetic fields.

prereq or coreq: PHYS U70100

Hours 60 hrs,
Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U72500 - Quantum Mechanics

Basic study of quantum theory of matter including introduction to relativistic theory.

prereq or coreq: PHYS U70100

Hours 60 hrs,
Credits 4 cr

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

d. No more than 6 credits in 600-level courses.

Note(s)

The courses listed in sections 2(c) and 2(d) are generally offered during the daytime hours.

A maximum of 9 credits may be accepted in physics department approved graduate courses in mathematics, astronomy, engineering, and physical chemistry.

4. Comprehensive examination

The candidate will be required to pass a comprehensive examination based on the required courses listed in section 2(c) above or complete a thesis, under a faculty member’s supervision, that is approved by the department’s Graduate Physics Committee. The first PhD exam may be substituted for the comprehensive examination.
5. Residence of two semesters

A minimum residence of two semesters at Hunter College. Courses taken as a nonmatriculant may be counted toward the degree upon matriculation with the approval of the department’s Graduate Physics Committee.

6. There are no foreign language requirements.

Financial Aid

Financial aid is not generally available from the department for MA students.

Undergraduate Major/Graduate Masters

Physics - BA/MA

This special program for a limited number of well-qualified undergraduate students leads to a bachelor of arts and a master of arts degree. Students are offered the opportunity quickly to reach a level where they can stand in competition for admission into any doctoral program in physics. The program requires 124-126 credits (including the 30 credits required for a physics major BA degree and 30 credits from the graduate curriculum). Because this program requires a large number of physics courses, many of which have other physics courses as prerequisites, students in this program should begin taking physics courses in their first or second undergraduate semester. Students should consult the department chair, undergraduate adviser, or graduate adviser for details as early as possible.

- Physics Option 1
- Physics - MA

Physics First-level

PHYS 60500 - Mathematical Physics

Introduction to basic mathematical techniques used in physics.

Hours 45
Credits 3

PHYS 61500 - Electromagnetic Theory

Electrostatics; electromagnetics; Maxwell's equations with application to waves; waves in guides; radiation.

Hours 45
Credits 3
PHYS 62100 - Electronics

Fundamental ideas of electronic circuits with special emphasis on solid state devices.

Hours 45  
Credits 3

PHYS 62500 - Introduction to Quantum Mechanics

Fundamental ideas in the study of atomic sized systems.

Hours 45  
Credits 3

PHYS 63000 - Science and Society

Study of the interactions between technological and societal changes, with an emphasis on directing productive critiques and debates over potentially controversial technological change within the classroom. Focusing on present-day issues, students will learn various models of analyzing the impact of scientific change on society and how social change directs science.

Prereq: one graduate-level physics course or permission of instructor

Hours 45  
Credits 3

PHYS 64500 - Solid State Physics

Introduction to basic theory and techniques in study of matter on solid state.

Hours 45  
Credits 3

PHYS 66000 - Challenging Concepts in Physics: Using Research to Identify Student Misconceptions and Assess Student Learning

Overview of research and theory related to misconceptions in physics. Students will be expected to develop a research proposal or to conduct the research in their own classrooms, and write a paper in the form of a journal article. The article will serve as the comprehensive examination for the science portion of the MA degree.

Prereq: PHYS 63000 and two elective courses in physics or permission of instructor

Hours 60  
Credits 4

PHYS 68500 - Numerical Methods I

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations.

Cross-listed (Cross-listed with MATH 68500.)

Prereq: MATH 15500
PHYS 69500 - Numerical Methods II

Topics in numerical methods selected from solutions of linear equations, interpolating functions, root finding methods, nonlinear equations, Fourier series and the fast Fourier transform, partial differential equations. A major term project

Cross-listed (Cross-listed with MATH 69500.)
prereq: PHYS 68500
Hours 45
Credits 3

Physics Second-level

PHYS U70100 - Mathematical Physics

Study of the basic mathematical techniques used in physics.

Hours 60 hrs,
Credits 4 cr
The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U70200 - Mathematical Physics

Study of the basic mathematical techniques used in physics.

Hours 60 hrs,
Credits 4 cr
The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U71100 - Analytical Dynamics

Study of advanced classical mechanics.

prereq or coreq: PHYS U70100
Hours 60 hrs,
Credits 4 cr
The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

PHYS U71500 - Electromagnetic Theory

Advanced concepts of static and time-dependent electromagnetic fields.

prereq or coreq: PHYS U70100
PHYS U71600 - Electromagnetic Theory

Advanced concepts of static and time-dependent electromagnetic fields.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

PHYS U72500 - Quantum Mechanics

Basic study of quantum theory of matter including introduction to relativistic theory.

prereq or coreq: PHYS U70100

Hours 60 hrs,

Credits 4 cr

PHYS U72600 - Quantum Mechanics

Basic study of quantum theory of matter including introduction to relativistic theory.

prereq or coreq: PHYS U701

Hours 60 hrs,

Credits 4 cr

PHYS U74100 - Kinetic Theory and Statistical Mechanics

Study of physical properties of systems consisting of very large numbers of particles.

Hours 60 hrs,

Credits 4 cr

PHYS U77100 - Research or Independent Study

Research or independent study done under supervision of faculty member.

Hours 30-120 hrs,

Credits 1-4 cr
The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**PHYS U77200 - Research or Independent Study**

Research or independent study done under supervision of faculty member.

*Hours 30-120 hrs,*
*Credits 1-4 cr*

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**PHYS U77300 - Research or Independent Study**

Research or independent study done under supervision of faculty member.

*Hours 30-120 hrs,*
*Credits 1-4 cr*

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**Physics - courses offered according to student demand**

**PHYS U73800 - Introduction to Non-equilibrium Statistical Mechanics**

Course offered if demand is sufficient

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**PHYS U74500 - Solid State Physics**

Course offered if demand is sufficient

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**PHYS U74600 - Solid State Physics**

Course offered if demand is sufficient

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.

**PHYS U75700 - Astrophysics**

Course offered if demand is sufficient

The prefix "U" indicates that the course is listed in the Schedule of Courses at the CUNY Graduate Center and may be taken by students enrolled in Graduate Center programs.
PHYS 61100 - Analytical Mechanics

Course offered if demand is sufficient

PHYS 62400 - Plasma Physics

Course offered if demand is sufficient

PHYS 67100 - Modern Physics Laboratory

Course offered if demand is sufficient

Programs and Courses in Psychology

Psychology

Overview

The Psychology Department offers two MA degrees in Psychology: one in General Psychology and one in Animal Behavior and Conservation (ABC) as well as a Post-Baccalaureate Certificate program in ABC. These programs reflect the diversity of psychology as a science and profession. Course offerings range from clinical, social, and developmental psychology to animal behavior, biopsychology, and behavioral neuroscience. The General Psychology Program focuses on exposing students to the broad spectrum of approaches and areas in psychology: from behavioral, developmental, cognitive, and social approaches to applied, evaluative, and biological approaches. The Animal Behavior and Conservation Program is designed to provide students with the skills needed for successful careers in animal behavior, conservation and welfare. The department's faculty members are actively involved in research both with human participants and a variety of animal species. A broad range of applied and research opportunities are available to our students within and beyond the department in the areas of developmental psychology, social psychology, animal behavior, physiological psychology, biopsychology and cognitive psychology. The program's departmental affiliations with community organizations and wildlife facilities make it possible for students to integrate their academic studies with supervised research experience by means of observational field placements and opportunities for research. The MA programs prepare our graduates for careers in psychology, education, social and welfare services, health services, conservation and animal welfare including work with animals in natural and custodial environments. For many of our students, the MA programs are a first step towards further study at the PhD level.

What can I do with my degree in Psychology?

The growing scientific and public sentiment, awareness, and interest in conservation and animal welfare science and the importance of enrichment for zoo, laboratory, and farm animals, recently reflected in new legislation and in zoo policy, has created a growing need for highly trained scientists and professionals. The Master's and Certificate programs in Animal Behavior and Conservation prepare students interested in animal behavior and conservation to develop and enhance their research skills and understanding of the behavior of animals and to acquire credentials for employment in fields related to this field.

The General MA program provides an in-depth background in psychology combined with special training in specific sub-disciplines within psychology to prepare students for careers and specialized training in human resources, medicine, law, nursing, speech pathology, social work, special education, counseling and music, art and dance therapy.

Animal Behavior & Conservation-MA

Program

The growing scientific and public sentiment, awareness, and interest in conservation and animal welfare science and the importance of enrichment for zoo, laboratory, and farm animals, recently reflected in new legislation and in zoo
policy has created a growing need for highly trained scientists and professionals. This 36-credit Master's Program within the Psychology Department prepares students interested in animal behavior and conservation (ABC) to develop and enhance their research skills and understanding of the behavior of animals and to acquire credentials for employment in fields related to ABC.

Admission Requirements

Students must hold a bachelor's degree comparable to that from Hunter College. Twelve undergraduate credits in psychology, including courses in statistics and experimental psychology, are generally required; however, students lacking this but with high undergraduate GPA and general GRE scores may be admitted without a strong background in psychology. Applicants are ranked according to their undergraduate grade point average, GRE exam scores, letters of recommendation, and personal statement, as well as prior course work and experience relevant to animal behavior and conservation. General GRE scores are optional for those students who hold the Advanced Certificate in Animal Behavior and Conservation from Hunter College.

Note: There is no foreign-language requirement for the MA in psychology

Curriculum

The MA consists of 36 credits in graduate-level course, and all courses listed carry three credits. Most courses are offered after 5:30 p.m. so that students can work while in the program. The sequence of course offerings enables students taking 3 courses (9 credits) per semester to graduate in 2 years.

Required Courses 18 credits

PSYCH 69000 - Independent Research in Psychology

Designed to meet the research needs and interests of individual students under the direction of a faculty sponsor. This may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research. Projects culminate in an APA-style research report or literature review. May be taken multiple times with permission of the department. May be taken in conjunction with other Independent Study courses (PSYCH 69100 PSYCH 69200) for a total of 9 credits as long as each time the course is taken, the course content differs in topic or scope.

Hours 3 hrs.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

PSYCH 73900 - Research Methods in Animal Behavior (A, B)

Designed to develop skills required for the study of animal behavior, such as procedures for obtaining data in laboratories or in captive and natural environments; includes observational techniques, single-subject designs, issues of reliability and external validity, non-parametric statistics.

Hours 2 hrs lecture, 2 hrs lab, 
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

-or-
PSYCH 70100 - Advanced Experimental Psychology I

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study; examples are drawn primarily from perception, learning, cognition and animal behavior.

prereq: a graduate course in statistics
Hours 2 hrs lecture, 2 hrs lab.
Credits 3 cr
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

- or -

PSYCH 74700 - Experimental Social Psychology

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study. Examples are drawn primarily from social and cognitive psychology. Topics include reading and writing journal quality research reports; ethics; single and multi factor designs; small-n designs; quasi-experimental designs; survey research; laboratory and field research; observational techniques; correlational research.

prereq: a graduate course in statistics
Hours 2 hrs lecture, 2 hrs lab.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70500 - Statistical Methods in Psychology I

Covers descriptive statistics and inferential methods, including t-tests, analyses of variance, correlation, simple regression, and an introduction to multiple regression. Some assignments require the use of a statistical computer package.

prereq: PSYCH 24800 or equivalent
Hours 2 hrs lecture, 2 hrs conf or lab,
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70701 - Thesis Research

Individual research conducted under the supervision of a department faculty member, whose written permission must be obtained. Limited to students working on their MA thesis.

prereq: PSYCH 70500 and 70100 or 74700 approved research topic and permission of a faculty sponsor
Hours 3 hrs including conference
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 71700 - Animal Behavior and Conservation in Captivity and the Wild (B)
Introduces concepts and techniques of wildlife biology and comparative psychology, with contributions from researchers in social behavior, reproductive biology, wildlife conservation, captive breeding, and animal cognition and communication.

Hours 3 hrs including conference
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

PSYCH 75103 - Basic Psychological Processes 1: Perception, Learning and Comparative Cognition (S, B)

Covers the basic concepts in perception, learning and comparative psychology. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

Elective Courses (minimum of 9 credits from the following)

PSYCH 64100 - Comparative Psychology (B)

Development and evolution of the behavior of various species, major theoretical issues, classic experiments, and contemporary research and theory.

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 69000 - Independent Research in Psychology

Designed to meet the research needs and interests of individual students under the direction of a faculty sponsor. This may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research. Projects culminate in an APA-style research report or literature review.
May be taken multiple times with permission of the department. May be taken in conjunction with other Independent Study courses (PSYCH 69100 PSYCH 69200) for a total of 9 credits as long as each time the course is taken, the course content differs in topic or scope.

Hours 3 hrs.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

PSYCH 69100 - Independent Research in Psychology

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000, such as a literature review, a pilot study, or acquisition of a new research technique or skill.
Hours 1 hr.
Credits 1 cr
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor’s permission

**PSYCH 69200 - Independent Research in Psychology**

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000 but more extensive than that required for PSYCH 69100. This may involve a literature review, a pilot study, or acquisition of a new research technique or skill.

Hours 2 hrs.
Credits 2 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor’s permission

**PSYCH 71600 - Animal Behavior I: Mechanisms of Behavior (B)**

History of approaches to animal behavior; behavior development; proximate causation of behavior (motivation, neuroethology, and biorhythms); animal orientation and communication; cognitive ethology and culture.

Hours 3 hrs including conference,
Credits 3 cr
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 71751 - Field Study in Animal Behavior and Conservation (B)**

Observation and study of the behavior of animals in their natural environment and application of techniques of observation and data analysis.

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 71800 - Ethology (Animal Behavior II – Behavioral Ecology) (B)**

Examines behavioral genetics, which covers the importance of single-gene effects, polygenic behavioral traits, and the utility of the concept of heritability; behavioral evolution, which covers the methods of elucidating the phylogeny of behavior when fossil evidence is not available; behavioral ecology, which focuses on mating systems, territorial behavior, feeding strategies, antipredatory behavior, and sociobiology.

Hours 3 hrs including conference.
Credits 3 cr
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the
instructor as well. This course require a stronger background than that required for most 600 level courses.

instructor's permission

**PSYCH 73000 - Psychology of Learning (B)**

Contemporary phenomena and theories about learning and behavior, including both animal and human examples of learning phenomena with a focus on basic processes.

**PSYCH 75400 - Applied Animal Welfare & Behavior (B)**

Fundamental principles of animal behavior discussed in context of their applications to captive animal management (in laboratories, farms, zoos, aquariums, and shelters), animal welfare, and conservation. Programmatic approaches to animal care (e.g. enrichment and training) and animal welfare assessment tools will be described and evaluated.

**PSYCH 75700 - Animal Thinking and Communication (S, B)**

This course focuses on animal cognition and communication from the perspectives of communication theory, animal behavior, cognitive ethology and comparative cognition. Research on chimpanzees, dolphins, elephants, parrots and other animals will be covered.

*prereq: PSYCH 71700 or permission of instructor or of Animal Behavior and Conservation Coordinator*

*Hours 3 hrs.*

*Credits 3 cr.*

**PSYCH 75800 - Conservation Biology/Psychology**

An understanding of biodiversity, human impacts on biodiversity, the theory and practice of maintaining biodiversity in a developing world, and the social psychology of motivating action to protect nature. Special emphasis will be placed on how human and animal behavior threatens biodiversity. This course serves a basis for more specialized courses and provides the framework within which behavioral studies are implemented to inform conservation action with special consideration of factors that influence desire and willingness to take such actions.

*prereq: Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.*

*Hours 3 hrs. including conferences*  

*Credits 3 cr.*

**PSYCH 75000 - Special Topics in Psychology**

Readings and discussion on a selected problem or topic area – varies from semester to semester.

*Hours 3 hrs including conference.*

*Credits 3 cr.*

*Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.*

*NOTE: Special Topics courses and Independent Research projects related to ABC will depend upon student and faculty interests. Recent topics included Companion Animals in Society and Conservation Biology/Psychology. ABC students may also meet the elective course requirements by taking courses in any department such as Anthropology and Geography with permission of the Director of the ABC program.*
Breadth Requirement

ABC students satisfy a breadth requirement by taking a 3-credit course in the applied psychology area and a 3-credit course in the social/cognitive/developmental area of psychology.

Thesis Requirement

The MA thesis is a report of individual research supervised by a faculty member in the Hunter College Department of Psychology. The thesis must be approved by the student’s thesis committee, consisting of the supervisor plus at least another reader, and by the ABC Director. An oral presentation and comprehensive examination in the area of the MA thesis, conducted by the thesis committee, is required.

Psychology - MA

The MA degree is in general psychology, but students may focus their course work, independent study, and thesis research in one of three content areas: (1) applied and evaluative psychology; (2) social, cognitive, and developmental psychology; (3) biopsychology and comparative psychology. Students interested in animal behavior and conservation may choose the MA in Animal Behavior & Conservation offered by the Psychology Department.

1. Applied and evaluative psychology. Faculty research interests include topics in personality, psychopathology, theories of therapeutic methods, group dynamics, health and gender, stress and stress management, substance use, tests and measurements. Although the department offers theoretical courses on clinical topics, it does not offer supervision in counseling or therapy.

2. Social, cognitive, and developmental psychology. Faculty research interests include multicultural issues, cognitive and linguistic development, discursive social psychology, gender and cognition, attitudes, political psychology, psycholinguistics, decisionmaking, memory function in different populations.

3. Biopsychology and comparative psychology. Faculty research interests include hormonal influences on and neural control of behavior, mechanisms of drug abuse, developmental neuroscience, vision, animal learning and comparative cognition, evolution of behavior, animal orientation and communication, cerebral specialization of function.

Research Opportunities and Facilities

Students are encouraged to engage in research under faculty supervision. Laboratories at Hunter College provide specialized equipment for studies on human and animal physiology, acoustic analysis, human and animal learning, language and cognitive development, social development, and social psychology. Research is also possible at facilities of other universities and organizations where individual faculty members engage in collaborative research.

Requirements for Admission

Applicants are evaluated on the basis of their undergraduate grade point average, general GRE scores, background in psychology, two letters of recommendation (preferably from college instructors), and a statement of intellectual and research interests. Generally a minimum of 12 undergraduate credits in psychology, including one course in statistics and one laboratory course in experimental psychology are required; however, students who have a high undergraduate grade point average and high general GRE scores but lack a full psychology background may apply for admission. Such students may be required to take preparatory statistics and experimental courses. Note: There is no foreign-language requirement for the MA in psychology. The GRE advanced test in psychology is not required for admission.

Requirements for the MA Degree
Each candidate is required to complete an approved program of study including a thesis. A minimum of 30 credits is required for the general Psychology MA.

**Required courses for all MA students (12 credits):**

**PSYCH 70200 - Proseminar in Psychology**

An introduction to theoretical concepts and methods of research across a variety of content areas within psychology. Areas include social, personality and health psychology; development and cognition; sensory and developmental neuroscience; animal behavior and learning; applied research, including clinical theory. The course is team-taught by three faculty members and features guest lectures by other Hunter College faculty and the occasional outside expert.

*Hours 3 hrs including conference*
*Credits 3 cr*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

**PSYCH 70500 - Statistical Methods in Psychology I**

Covers descriptive statistics and inferential methods, including t-tests, analyses of variance, correlation, simple regression, and an introduction to multiple regression. Some assignments require the use of a statistical computer package.

*prereq: PSYCH 24800 or equivalent*
*Hours 2 hrs lecture, 2 hrs conf or lab, 3 cr*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

**PSYCH 70100 - Advanced Experimental Psychology I**

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study; examples are drawn primarily from perception, learning, cognition and animal behavior.

*prereq: a graduate course in statistics*
*Hours 2 hrs lecture, 2 hrs lab, 3 cr*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

**PSYCH 73900 - Research Methods in Animal Behavior (A, B)**

Designed to develop skills required for the study of animal behavior, such as procedures for obtaining data in laboratories or in captive and natural environments; includes observational techniques, single-subject designs, issues of reliability and external validity, non-parametric statistics.

*Hours 2 hrs lecture, 2 hrs lab, 3 cr.*
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 74700 - Experimental Social Psychology**

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study. Examples are drawn primarily from social and cognitive psychology. Topics include reading and writing journal quality research reports; ethics; single and multifactor designs; small-n designs; quasi-experimental designs; survey research; laboratory and field research; observational techniques; correlational research.

*prereq: a graduate course in statistics*

*Hours* 2 hrs lecture, 2 hrs lab.

*Credits* 3 cr.

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**Breadth Requirement**

One course selected from each of the following three categories. See the course listing for category or categories into which each course falls.

1. A (applied and evaluative psychology)
2. S (social, cognitive, and developmental psychology)
3. B (biopsychology and comparative psychology)

**Thesis Requirement**

The MA thesis is a report of individual research supervised by a faculty member in the Hunter College Department of Psychology. The thesis must be approved by the student’s thesis committee, consisting of the supervisor plus at least another reader, and by the graduate adviser. An oral presentation and comprehensive examination in the area of the MA thesis, conducted by the thesis committee, is required.

**Financial Assistance**

The college offers some financial aid programs through the Financial Aid Office. Students should consult that office for information. In addition, some faculty have research grants on which students can work as research assistants. Small grants and awards for funding MA research are sometimes available.
Psychology of Animal Behavior & Conservation Certificate

The Department of Psychology offers a Certificate Program in the Advanced Psychology of Animal Behavior & Conservation (ABC) registered with the New York State Education Department. The ABC certificate provides formal recognition of the training in ABC for students who already possess a baccalaureate or graduate degree in another area and, by virtue of prior educational or practical experience in animal behavior and conservation, are qualified for the additional training described in this program.

Courses are scheduled so that the certificate requirements can be completed within two years. All required, and most other courses, are offered after 5:30 PM enabling students to complete the requirements for the certificate while working.

Requirements

Students are required to complete at least 15 credits in the ABC area required for the MA in Animal Behavior & Conservation. Although a thesis is not required for non-degree students, the ability to conduct research in the ABC area must be demonstrated either through prior experience or completion of a research project while in the Certificate Program. Students who do not have an adequate background in statistics and/or research methodology will be required to take such courses in addition to those required for the Certificate.

PSYCH 71700 - Animal Behavior and Conservation in Captivity and the Wild (B)

Introduces concepts and techniques of wildlife biology and comparative psychology, with contributions from researchers in social behavior, reproductive biology, wildlife conservation, captive breeding, and animal cognition and communication.

Hours 3 hrs including conference
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75103 - Basic Psychological Processes 1: Perception, Learning and Comparative Cognition (S, B)

Covers the basic concepts in perception, learning and comparative psychology. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

Plus three additional ABC-related courses (9 credits)—see listing of courses for the MA in Animal Behavior & Conservation.

PSYCH 60500 - Abnormal Psychology: Advanced Course (A)

Covers facts and theories about the etiology of mental disorders; consideration of deviations commonly found in the population, such as mental retardation.
prereq: Psych 22000 or 22300

PSYCH 63000 - Theories and Methods of Psychotherapy (A)

Evolution of theories and methods of individual psychotherapy with a focus on central issues in the field.

Hours 3 hrs including conference,  
Credits 3 cr  
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 64100 - Comparative Psychology (B)

Development and evolution of the behavior of various species, major theoretical issues, classic experiments, and contemporary research and theory.

Hours 3 hrs including conference,  
Credits 3 cr  
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 64600 - Physiological Psychology (B)

The basics of neuroscience as sampled from the behavioral aspects. Topics covered include: structure and function of cells in the nervous system; neural communication: physiology and pharmacology; structure of the nervous system and endocrine system; research methods of physiological psychology; sensory and motor systems; aggressive behavior; anatomy of learning.

Hours 3 hrs including conference,  
Credits 3 cr  
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

PSYCH 65100 - Psychology of Small Groups (A)

Therapeutic groups have experienced massive development and rapid spread: over ten million adults currently participate in the US. The course consists of a didactic part (including such topics as leadership, group structure and power, norm formation, and conditioning) as well as a clinical part (in which students participate both as potential leaders and clients). The aim is to familiarize students with group processes and an understanding of group dynamics.

Hours 1 hr lecture, 2 hrs lab, incl conf,  
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. Instructor's permission

PSYCH 65151 - Family and Couples System (A)

Family and couples communication as seen through the lens of systems theory. Topics include interpersonal meanings and patterns, conflict, and barriers to intimacy. Conceptual material is complemented by real case examples and TV
and film illustrations.

Hours 3 hrs including conference
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

**PSYCH 67600 - Psychology of Personality (A)**

Frameworks for the study of personality, including classical psychoanalysis, American psychiatry, behaviorism, and phenomenology. Theorists studied include Freud, Adler, Jung, Sullivan, Dollard and Miller, Rogers, and Binswanger and Boss.

Hours 3 hrs including conference
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

**PSYCH 68000 - Special Topics in Psychology**

Readings and discussion on a selected problem or topic area — varies from semester to semester.

Hours 3 hrs including conference
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA.

**PSYCH 69000 - Independent Research in Psychology**

Designed to meet the research needs and interests of individual students under the direction of a faculty sponsor. This may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research. Projects culminate in an APA-style research report or literature review. May be taken multiple times with permission of the department. May be taken in conjunction with other Independent Study courses (PSYCH 69100 PSYCH 69200) for a total of 9 credits as long as each time the course is taken, the course content differs in topic or scope.

Hours 3 hrs.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission

**PSYCH 69100 - Independent Research in Psychology**

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000, such as a literature review, a pilot study, or acquisition of a new research technique or skill.

Hours 1 hr.
Credits 1 cr
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission
PSYCH 69200 - Independent Research in Psychology

An opportunity for students to complete a research project that is less extensive than that required for PSYCH 69000 but more extensive than that required for PSYCH 69100. This may involve a literature review, a pilot study, or acquisition of a new research technique or skill.

Hours 2 hrs.
Credits 2 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. Ordinarily, no more than four 600-level courses may be credited toward the MA. faculty sponsor's permission.

PSYCH 70000 - History of Psychology

PSYCH 70100 - Advanced Experimental Psychology I

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study; examples are drawn primarily from perception, learning, cognition and animal behavior.

prereq: a graduate course in statistics
Hours 2 hrs lecture, 2 hrs lab,
Credits 3 cr
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70200 - Proseminar in Psychology

An introduction to theoretical concepts and methods of research across a variety of content areas within psychology. Areas include social, personality and health psychology; development and cognition; sensory and developmental neuroscience; animal behavior and learning; applied research, including clinical theory. The course is team-taught by three faculty members and features guest lectures by other Hunter College faculty and the occasional outside expert.

Hours 3 hrs including conference
Credits 3 cr
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 70400 - Instrumentation in Experimental Psychology

PSYCH 70500 - Statistical Methods in Psychology I

Covers descriptive statistics and inferential methods, including t-tests, analyses of variance, correlation, simple regression, and an introduction to multiple regression. Some assignments require the use of a statistical computer package.

prereq: PSYCH 24800 or equivalent
Hours 2 hrs lecture, 2 hrs conf or lab,
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 70600 - Statistical Methods in Psychology II**

Covers advanced topics in statistics, including multivariate analysis, multiple regression, analysis of variance for complex designs, and analysis of covariance.

*prereq: PSYCH 70500*

**PSYCH 70701 - Thesis Research**

Individual research conducted under the supervision of a department faculty member, whose written permission must be obtained. Limited to students working on their MA thesis.

*prereq: PSYCH 70500 and 70100 or 74700 approved research topic and permission of a faculty sponsor
Hours 3 hrs including conference
Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 70702 - Thesis Research**

Additional semester of individual research under the supervision of a department faculty member. A formally approved Thesis Proposal and written approval from the faculty sponsor is required.

*prereq: PSYCH 70701
Hours 3 hrs including conference
Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. Limited to students working on their MA thesis.

**PSYCH 71000 - Advanced Physiological Psychology I (Neuroscience I) (B)**

An introduction to fundamental methodology in neuroscience research and a focus on the functioning of individual neurons and communication between neurons. This team-taught course is part of a two-term sequence covering fundamental concepts in neuroscience.

*Hours 3 hrs including conference
Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses. Instructor's permission. Neuroscience I is not a prerequisite for Neuroscience II.

**PSYCH 71100 - Advanced Physiological Psychology II (Neuroscience II) (B)**
Topics in neuroscience, including development of neural patterns, cellular differentiation, pathways and synaptic connections, the genetics of neural development, neural sexual differentiation, neural plasticity and endocrine factors, somatosensation, motor systems, and vision.

**PSYCH 71600 - Animal Behavior I: Mechanisms of Behavior (B)**

History of approaches to animal behavior; behavior development; proximate causation of behavior (motivation, neuroethology, and biorhythms); animal orientation and communication; cognitive ethology and culture.

**PSYCH 71700 - Animal Behavior and Conservation in Captivity and the Wild (B)**

Introduces concepts and techniques of wildlife biology and comparative psychology, with contributions from researchers in social behavior, reproductive biology, wildlife conservation, captive breeding, and animal cognition and communication.

**PSYCH 71751 - Field Study in Animal Behavior and Conservation (B)**

Observation and study of the behavior of animals in their natural environment and application of techniques of observation and data analysis.

**PSYCH 71800 - Ethology (Animal Behavior II – Behavioral Ecology) (B)**

Examines behavioral genetics, which covers the importance of single-gene effects, polygenic behavioral traits, and the utility of the concept of heritability; behavioral evolution, which covers the methods of elucidating the phylogeny of behavior when fossil evidence is not available; behavioral ecology, which focuses on mating systems, territorial behavior, feeding strategies, antipredatory behavior, and sociobiology.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

PSYCH 72000 - Developmental Psychology I (S)

Topics in development, including pre- and perinatal influences on development, learning, cognition, and aggression. The course uses a variety of perspectives to examine issues in development.

Hours 3 hrs including conference
Credits 3 cr.

PSYCH 72100 - Developmental Psychology II

PSYCH 73000 - Psychology of Learning (B)

Contemporary phenomena and theories about learning and behavior, including both animal and human examples of learning phenomena with a focus on basic processes.

PSYCH 73500 - Psychology of Perception

PSYCH 73600 - Sensory Perception

PSYCH 73700 - Cognitive Development (S)

The development of cognition, i.e., the development of higher mental processes. Areas covered include infancy, conceptual development, memory, social cognition, and language.

Hours 3 hrs including conference
Credits 3 cr.

PSYCH 73800 - Cognitive Psychology (S)

A theoretical and experimental overview of cognitive psychology. Topics include cognitive architecture, attention, pattern recognition, memory, language processing, and representation of knowledge.

Hours 3 hrs including conference.
Credits 3 cr.

PSYCH 73900 - Research Methods in Animal Behavior (A, B)

Designed to develop skills required for the study of animal behavior, such as procedures for obtaining data in laboratories or in captive and natural environments; includes observational techniques, single-subject designs, issues of
reliability and external validity, non-parametric statistics.

Hours 2 hrs lecture, 2 hrs lab.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 74000 - Personality**

**PSYCH 74100 - Evolution of Psychoanalytic Theory**

**PSYCH 74200 - Contemporary Psychoanalytic Theories (A)**

An exploration of the British object relations theorists and their influence on contemporary psychoanalytic approaches. Students should have some background in basic psychoanalytic theory.

**prereq:** PSYCH 22000 or 67600, and PSYCH 22300 or permission of the instructor

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 74400 - Stress, Trauma, and Resilience**

This course covers the interrelated topics of stress, trauma, and resilience. It uses a clinical science perspective to emphasize both normative (healthy) and problematic physiological and psychological responses to stress and trauma, as well as factors that influence resilience. Students are expected to have a working knowledge of abnormal psychology and research methods. Students will be expected to have completed Research Methods and Abnormal Psychology.

**prereq:** Permission of the Graduate Advisor

Hours 3 hrs
Credits 3 cr.

**PSYCH 74600 - Social Psychology (S)**

An advanced overview of the field, includes a focus on: the development of social psychological theory; beliefs, attitudes, and social behavior; stereotyping and prejudice; influencing attitudes and changing behavior; interpersonal perception; the self and social identity; social interaction and interpersonal relationships; group dynamics; and implications of social psychology for understanding society.

**Hours 3 hrs including conference.**
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

**PSYCH 74700 - Experimental Social Psychology**

Designed to develop an understanding of the research process from formulating a testable hypothesis, to designing the study, to collecting and analyzing data, to publishing the results of the study. Examples are drawn primarily from social and cognitive psychology. Topics include reading and writing journal quality research reports; ethics; single and multi
factor designs; small-n designs; quasi-experimental designs; survey research; laboratory and field research; observational techniques; correlational research.

prereq: a graduate course in statistics
Hours 2 hrs lecture, 2 hrs lab.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 74800 - Psychological Theories of Ethnic and Cultural Identity (S)

Current research and theory on ethnic and racial identity development, including components of ethnic/racial/cultural identity; historical and conceptual issues; the state of theory and research on ethnic identity as it pertains to particular ethnic groups; racial and ethnic socialization; language and ethnic identity; applications of the ethnic identity construct.

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75000 - Special Topics in Psychology

Readings and discussion on a selected problem or topic area – varies from semester to semester.

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75003 - Comparative Cognition and Learning

PSYCH 75103 - Basic Psychological Processes 1: Perception, Learning and Comparative Cognition (S, B)

Covers the basic concepts in perception, learning and comparative psychology. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 75104 - Basic Psychological Processes 2: Development, Cognition and Language (S)

Covers the basic concepts in memory, language and cognitive development. Each topic is taught by a faculty member whose expertise and research is in the area to be covered.

Hours 3 hrs including conference.
Credits 3 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

**PSYCH 75200 - Language and Thought**

**PSYCH 75300 - Attitudes and Attitude Change (S)**

Covers traditional and current theory and research on attitudes and persuasion in social psychology, including attitude formation, structure, and measurement; the link between attitudes and behavior; prejudice and discrimination; and persuasion theories including cognitive dissonance, message learning, fear appeals, and elaboration likelihood.

*Hours 3 hrs including conference,  
Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

**PSYCH 75400 - Applied Animal Welfare & Behavior (B)**

Fundamental principles of animal behavior discussed in context of their applications to captive animal management (in laboratories, farms, zoos, aquariums, and shelters), animal welfare, and conservation. Programmatic approaches to animal care (e.g. enrichment and training) and animal welfare assessment tools will be described and evaluated.

**PSYCH 75500 - Psychopathology I (A)**

Familiarizes students with thinking and research about diagnosis, etiology, course and treatment of abnormal behavior. Topics covered include diagnosis and the principles and techniques of assessment; research methodology (experimental and correlational); the schizophrenias, mood disorders, neuroses, personality disorders, and stress reactions.

*Hours 3 hrs including conference,  
Credits 3 cr.*

Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

**PSYCH 75600 - Psychopathology II**

**PSYCH 75700 - Animal Thinking and Communication (S, B)**

This course focuses on animal cognition and communication from the perspectives of communication theory, animal behavior, cognitive ethology and comparative cognition. Research on chimpanzees, dolphins, elephants, parrots and other animals will be covered.

*prereq: PSYCH 71700 or permission of instructor or of Animal Behavior and Conservation Coordinator  
Hours 3 hrs.  
Credits 3 cr.*

**PSYCH 75800 - Conservation Biology/Psychology**

An understanding of biodiversity, human impacts on biodiversity, the theory and practice of maintaining biodiversity in a developing world, and the social psychology of motivating action to protect nature. Special emphasis will be placed
on how human and animal behavior threatens biodiversity. This course serves a basis for more specialized courses and provides the framework within which behavioral studies are implemented to inform conservation action with special consideration of factors that influence desire and willingness to take such actions.

prereq: Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course requires a stronger background than that required for most 600 level courses.

Hours 3 hrs. including conferences
Credits 3 cr.

PSYCH 76000 - Psychometric Methods
PSYCH 76100 - Measurement of Abilities
PSYCH 76300 - Psychophysical Methods
PSYCH 76400 - Personality Measurement I
PSYCH 76500 - Personality Measurement II: Projective Techniques
PSYCH 78000 - Quantitative Methods in Psychology
PSYCH 78300 - Mathematical Models in Psychology
PSYCH 78400 - Colloquium in Animal Behavior and Biopsychology

The fall colloquium is organized by doctoral students in the Biopsychology, Behavioral Neuroscience program and includes presentations on a variety of topics by students, faculty and outside speakers. The spring colloquium is a themed set of symposia in which distinguished visiting scientists discuss their work in relation to current issues in the field.

Hours 1 hr.
Credits 1 cr.
Permission for all courses must be obtained from the graduate adviser. Some courses require the permission of the instructor as well. This course require a stronger background than that required for most 600 level courses.

PSYCH 79000 - Experimental Psychopharmacology

Programs and Courses in Sociology/Social Research

Sociology/Social Research

OVERVIEW
The core agenda of the Hunter College Sociology Department is to instruct students in a major that develops critical skills and social awareness and is also part of a broad and rich liberal arts curriculum. The Sociology Department at Hunter College has been built with the comprehensive aim of including most of the various facets of the sociological enterprise, including: theoretical/philosophical sociologists, field and quantitative researchers, criminologists, critical and feminist theorists, specialists in media studies and consumer behavior, micro-sociologists, students of global and international studies, urban studies, and specialists in computer-based research programs.

At Hunter College, our Sociology Department faculty members fulfill a triple mission as teachers, researchers/scholars and as active members of the larger Hunter community. First, as teachers, we take seriously the rich diversity of Hunter's student body by offering courses that emphasize both local and global perspectives. We use New York City as a "laboratory" in many of our courses at both the undergraduate and master's levels including "Intro," urban sociology, quantitative methods and statistics, race/ethnicity, immigration, consumer behavior, criminology and gender studies. We also offer courses on international development and globalization. Our strength in the fields of race/ethnicity and immigration, as well as in a range of other established subfields, allows us to incorporate sociological perspectives with an appreciation of Hunter students' wonderfully diverse backgrounds and experience. Nearly all the courses that are given in these various specializations are offered on a more or less regular basis and are nearly always fully subscribed since students who are not majors also take our courses in large numbers. Both in our undergraduate and graduate programs, we encourage faculty to develop new electives on a regular basis so as to keep our curriculum up to date and interesting for students.

What can I do with my degree in Sociology?

At the graduate level, our Master of Science in Social Research program is successful at preparing students for careers in applied sociology, and at making it possible for students to secure jobs in the non-profit, governmental and corporate world that may have traditionally been closed to them. The Master's program ("GSR") is nationally recognized as a model for integrating the applied with the theoretical in training students for the professional world. Our combined BA/MS Program also gives students who already attend Hunter an opportunity to remain engaged with their studies while becoming integrated into a community of sociologists.

Hours of Operation: Monday – Friday 9:00 AM – 5:00 PM
Master's Programs

Social Research - MS

The Department of Sociology offers an intensive program in social research leading to the master of science degree. The program is designed for individuals who wish to pursue a career in applied social research and related areas, as well as for those who wish to upgrade their research skills. All courses are scheduled in the evening.

Graduates are prepared for professional research positions in business corporations, organizations involved with international development, government agencies and non-profit organizations.

The program offers four broad areas of research application: market research and consumer behavior; media research and analysis; research in international development; and research and policy analysis in the public and nonprofit sector. Students may focus on one of the program's areas of specialization or, with faculty guidance, develop a customized course of study if a student is interested in an area of research other than those given above.

Students train for careers in research through a combination of course work, research in their areas of specialization, and a supervised internship in a professional research setting. By carrying out a research project during the internship outside the university setting, students gain firsthand experience in the conduct of applied research and familiarity with practical problems in their field of interest. Frequently, agencies and companies providing internships appoint former interns to full-time positions after graduation. Internship sites have included such companies and organizations as Community Service Society; CBS; Children's Television Workshop; numerous state and city agencies; Warnako Corp.; Time-Warner, Inc.; Lou Harris Interactive; Nielsen Corp. and the United Nations. Students who are already working in research positions may use on-the-job projects as the basis of an internship, with permission of the program director.

Students wishing to learn more about the program are encouraged to talk with the Program Director, Professor Jessie Daniels, who can be reached in the program office in 1646 Hunter West or by email at jdaniels@hunter.cuny.edu.

Admission Requirements

All applicants must have successfully completed at least 3 credits in statistics at either the undergraduate or the graduate level. Three credits in research methods and a background in sociology or other social science are desirable but not required. General admission requirements for arts and sciences graduate programs apply, including a minimum grade point average of 3.0 and the Graduate Record Exam (GRE) or the Graduate Management Admission Test (GMAT). Applicants who have taken all or part of their undergraduate education in a country where English is not the native language are required to submit minimum scores on the Test of English as a Foreign Language (TOEFL) of 550 on the paper based test or 213 on the computer administered test or 60 (less speaking component) on the TOEFL IBT.

Applicants who do not meet these requirements in full may apply and request special permission to enter after a mandatory personal interview.

Degree Requirements
Completion of the graduate program in social research requires a minimum of 45 credits, which include:

1. Core Courses

**GSR 70800 - Statistics I**

Inferential statistics and introduction to multivariate techniques. Includes use of computer for problem sets.

*prereq: SOC 24100 or equiv

*Hours 3*

*Credits 3*

*fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.*

**GSR 70900 - Statistics II**

Topics covered include analysis of variance, multiple regression and other multivariate techniques.

*prereq: GSR 70800 with grade of B or better

*Hours 3*

*Credits 3*

*spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.*

**GSR 71000 - Qualitative Research Methods**

Application of research techniques in qualitative research, field research, participant observation, library research, analysis of textual data.

*prereq: SOC 24100 or equiv or perm instr

*Hours 3 hrs,*

*Credits 3 cr*

*fall only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.*

**GSR 71100 - Quantitative Research Methods**

Basic concepts and methods used in survey research, research design, measurement, questionnaire construction, sampling, data analysis.

*prereq: GSR 71000 or permission of instructor

*Hours 3 hrs,*

*Credits 3 cr*

*spring only Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.*

**GSR 70200 - Contemporary Sociological Theory**
Methodological philosophies and findings of major sociological theorists.

**Hours 3**  
**Credits 3**  
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

### GSR 71600 - Workshop in Using Information Technology for Research

Use of the Internet and web for both qualitative and quantitative research; includes search and evaluation strategies, access to full text data bases, and interactive statistical and spatial analysis. Presentation of findings in formats suitable for delivery via the web.

**Hours 3 hrs.**  
**Credits 3 cr.**  
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

### GSR 71700 - Seminar in Applied and Evaluation Research

Theoretical and methodological issues in applied evaluation research; achieving agreement on program goals and qualifying goals.

**prereq:** GSR 70900, GSR 71000 and GSR 71100  
**Hours 3 hrs.**  
**Credits 3 cr.**  
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

### GSR 71900 - Applied Research Seminar

Capstone seminar for the GSR program: students perform data analysis and write a professional research report.

**Hours 3 hrs.**  
**Credits 3 cr.**  
**Spring only.** Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

2. **Electives (15 credits)**

Fifteen credits are taken in courses according to the student's interests. Some may be taken in areas of specialization among GSR courses, some may be selected from courses in other Hunter departments or CUNY colleges. See advisers.

3. **Internship Requirements (6 credits)**

Degree candidates must work as research interns in public or private organizations for a minimum of 12 weeks full-time or 24 weeks part-time.
GSR 71800 - Research Internship

Completion by matriculated student of a research internship under faculty supervision in an approved private- or public-sector research agency. Internship lasts a minimum of three months (full-time) or six months (part-time). Execution of a research project applying advanced research methods.

Credits 6 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Additional Information

The program can be completed in two years on a full-time basis, or seven semesters on a part-time basis (two courses per semester minimum).

Research Facilities and Affiliations

Graduate social research students have access to college-wide research and computing facilities and libraries of Hunter College, as well as to GSR program facilities, including a social sciences computer lab and a focus group facility.

Course Sequence

The following links provide a recommended model for timely completion of the program. Actual student schedules will depend on student interest and advisement.

- Social Research Recommended Path for Full-Time Study, 2 years
- Social Research, Recommended Paths for Part-Time Study, 3 - 3 1/2 Years

Note(s)

All courses offered by the program are open to students from other graduate programs provided the appropriate prerequisites are met.

Social Research Recommended Path for Full-Time Study, 2 years

First Year

Fall Semester

GSR 70200 - Contemporary Sociological Theory
Methodological philosophies and findings of major sociological theorists.

Hours 3  
Credits 3

**GSR 71900 - Applied Research Seminar**

Capstone seminar for the GSR program: students perform data analysis and write a professional research report.

*Hours* 3 hrs.

*Credits* 3 cr.

*Spring only.* Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

2. Electives (15 credits)

Fifteen credits are taken in courses according to the student's interests. Some may be taken in areas of specialization among GSR courses, some may be selected from courses in other Hunter departments or CUNY colleges. See advisers.

3. Internship Requirements (6 credits)

Degree candidates must work as research interns in public or private organizations for a minimum of 12 weeks full-time or 24 weeks part-time.

**GSR 71800 - Research Internship**

Completion by matriculated student of a research internship under faculty supervision in an approved private- or public-sector research agency. Internship lasts a minimum of three months (full-time) or six months (part-time). Execution of a research project applying advanced research methods.

*Credits* 6 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Additional Information
The program can be completed in two years on a full-time basis, or seven semesters on a part-time basis (two courses per semester minimum).

**Sociology and Social Research - BA/MS**

For a limited number of qualified undergraduate students, the Sociology department offers an accelerated five-year program leading to a BA in sociology and an MS in social research. The program requires a total of 145 credits of college work (100 undergraduate, 45 graduate). To get the maximum financial benefit from the BA/MS program, students should apply before the number of cumulative credits taken (including those being taken currently) exceeds 100 credits. All credits above 120 will be charged at the graduate tuition rates. The BA/MS program is a full-time program requiring 12 graduate credits per term. In order to be admitted to the program, students must complete their basic requirements, including their major, pass an honors course or its equivalent (cross-listed graduate course, honors independent study), have an overall GPA of 3.25 and meet other requirements of the MS program as outlined in the graduate catalog except for the GRE examination. BA/MS applicants should have no more than 100 credits completed before entering the program and can apply for fall or spring admission. After consulting with the undergraduate adviser to establish eligibility, students may apply to the Graduate Director. Applications require a cover letter/personal statement and include a copy of one's current transcript and two letters of recommendation. Students are admitted to the BA/MS program at the end of their junior year but must consult with the undergraduate advisor before they file the application.

Credits 3 cr.

Spring only. Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

**GSR 72500 - Research Design**

This class is intended for graduate students in the social sciences. The goal is to learn how to design large and effective research projects, whether for a thesis or dissertation, grant or fellowship applications, work project, or course project. We will look in detail at the logic of design, anticipating needs and problems, planning for analysis, overcoming obstacles, proposing research, and presenting one's design.

**Hours 3 hrs.**

Credits 3 cr.

**Sociology/Social Research Special Topics Seminars and Independent Research**

**GSR 79000 - Special Topics Seminar**

The program offers experimental special-topics seminars. Check with program office for more information.

**Hours 3 hrs.**

Credits 3 cr.

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.
Areas of Specialization: Marketing Research and Consumer Behavior

GSR 72200 - Consumer Behavior

Cultural, social, and psychological influences on consumer decision-making and consumer satisfaction; Consumerism.

Hours 3 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 72300 - Nonprofit and Social Marketing

Application of marketing and marketing research to non-business organizations.

Hours 3 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

Areas of Specialization: Media Research and Analysis

GSR 73100 - Television Programming and Audiences

Socioeconomic analysis of television programming and the various audiences served, including the cable universe; review of relevant theoretical approaches, research methods and audience data, patterns of television consumption.

Hours 3 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 73200 - Motion Pictures

Analysis of contemporary American motion picture industry with special emphasis on independent production; social structure of production, product analysis, audience appeal and marketing; review of relevant theoretical approaches and current research.

Hours 3 hrs,
Credits 3 cr
Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

GSR 73300 - The New Electronic Media and Information Markets
Investigation of new media and information technologies and the markets they create (digital television, Internet, etc.); relation between these media and markets and the class structure; analysis of the consumptive and pragmatic use of information.

Hours 3 hrs,  
Credits 3 cr

Students can take graduate courses in the Department of Film and Media Studies provided they are directly related to media analysis and research. Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

**Areas of Specialization: Research and Evaluation**

**GSR 75200 - Focus Group Research**

Theory and application of focus group research. Methodological procedures, conceptualization of research problem, organization of group, listening and probing techniques, analysis of verbal and nonverbal data, report writing.

Hours 3 hrs,  
Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

**GSR 76700 - Interpersonal Process in Organizations**

Analysis of social relations in organizations; interpersonal processes in management, conflict negotiations, and interdepartmental relations.

Hours 3 hrs,  
Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

**Areas of Specialization: Research and Policy Analysis/Nonprofit Sector**

**GSR 74100 - Social Policy**

Planning procedures and program evaluation in public, corporate, and other private-sector settings; sources of error in forecasting.

Hours 3 hrs,  
Credits 3 cr

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

**GSR 74200 - Public Policy Analysis**
Theories, concepts, and methods in public policy analysis applied to select policy areas such as social service, criminal justice, and education.

**Hours 3 hrs, Credits 3 cr**

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

**GSR 74600 - Organizational Dynamics**

Organizational design, processes and analysis in the business, public, and nonprofit sectors.

**Hours 3 hrs, Credits 3 cr**

With appropriate approval, students may take graduate courses offered by the Department of Urban Affairs such as URBG 74800 (Management Control of Nonprofit Organizations) and URBG 76200 (Health Regulation). Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

**Areas of Specialization: Research and Training in International Development**

**GSR 73400 - Electronic Media in Developing Countries**

Electronic media use in developing countries with emphasis on television and developmental applications; policy and research issues; role of social marketing (the TELEVISA model); the international digital divide, and related issues.

**Hours 3 hrs, Credits 3 cr**

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

**GSR 76100 - Development Theories and Practices**

History of the evolution of theories of development and analysis of their application to post colonial societies from 1945 to 1989; assessment of development practices and their implications for poverty alleviation and social change; analysis of the conditions under which development aid is provided and its impact on a sample of countries from Africa, the Middle East and Asia.

**Hours 3 hrs, Credits 3 cr**

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

**GSR 76200 - Rethinking Development in the Global Era**
Critical analysis of the shift from the old development discourse to a new one centered on "post development" or the "global" economy; identification of the ways in which developing societies attempt to integrate themselves into the global economy; assessment of the cultural, social and political impacts of the switch from socialist or mixed economies to market economies; analysis of the role of IMF, the World Bank, and world trade agreements in reshaping developing societies. Methodologies of social development, conflict resolution, legal reform and poverty alleviation used in aid organizations.

**Hours 3 hrs,  
Credits 3 cr**

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

**GSR 76300 - International Development Practicum**

Structures and functions of international aid organizations. Training in program/project analysis; training in gender and development; advocacy for a number of development issues as well as governance.

**Hours 3 hrs,  
Credits 3 cr**

Students must consult the program advisers before registering for courses. Some graduate courses are open to advanced undergraduates with permission of the instructor. Elective courses in areas of specialization are given on a rotating basis.

PROGRAM OBJECTIVES

The primary objective of the Communication Sciences Program is to provide a broad theoretical background in human communication and its disorders that fulfill the academic and clinical requirements for the American Speech-Language-Hearing Association (ASHA) professional certification (Certificate of Clinical Competence) and New York State licensure. The COMSC Master of Science (MS) degree program in Speech-Language Pathology (SLP) is accredited by the Council on Academic Accreditation (CAA) of the American Speech-Language-Hearing Association. The course of study generally requires two years of full-time participation including summers.

Definition of a Speech-Language Pathologist

Speech-language pathologists (SLPs) are autonomous professionals who identify, assess, prevent, and manage communicative disorders as well as swallowing or other upper aerodigestive disorders. Speech-language pathologists seek to optimize the communicative abilities of individuals, across the lifespan. Speech-language pathologists provide services to individuals in nine clinical areas: articulation and phonology, fluency and stuttering, voice and resonance, receptive and expressive language, swallowing, cognitive aspects of communication (e.g., executive functioning), hearing, social aspects of communication (e.g., communication opportunities, social skills), and communication modalities (i.e., oral, manual, augmentative and alternative communication; assistive technologies).

Center for Communication Disorders

The Hunter College Center for Communication Disorders (Speech-Language-Hearing Clinic) is located at the Brookdale Health Sciences campus, 425 East 25 St., Room 133 North. The Center is an integral part of the Communication Sciences Program. The Center provides diagnostic and therapeutic services for a wide variety of language, speech, voice, fluency, swallowing, hearing, communication modality, and social communication disorders. Audiological services include complete audiological evaluations, auditory processing disorder testing, and auditory brainstem response assessment with state of the art instrumentation. Services are available to the Hunter College community as well as the general public. Appointments can be made by calling (212) 481-4464.

Graduate Faculty

MS Program in Speech-Language Pathology

    Nancy Eng, PhD
Clinical Doctoral Program in Audiology - AuD

The City University, through a joint program offered by Hunter College, Brooklyn College and the Graduate Center, offers a clinical doctoral program in audiology. For a description of the program, see the Bulletin of the Graduate Center or go to Audiology-(Au-D)

Speech-Language Pathology - MS

The 68-credit Speech-Language Pathology (SLP) curriculum leading to an MS degree prepares individuals to become speech-language pathologists working in hospitals, rehabilitive centers, college or university clinics, health-care agencies, specialized clinical settings, or private practice and prepares students for professional practices in preschools, elementary and secondary schools, and early-intervention developmental centers. Successful completion of the SLP curriculum prepares students to meet the academic and clinical requirements for ASHA certification, New York State licensure, and recommendation for NY State certification as a teacher of students with speech and language disabilities (TSSLD). Additional requirements for certification following graduation include the completion of a clinical fellowship year and passage of PRAXIS examination in Speech Language Pathology. Students seeking TSSLD additionally must take the New York State Teacher Certification Examinations: Academic Literacy Skills Test (ALST) and Educating All Students Test (EAS) in addition to completion of the Dignity For All Students Act (DASA) workshop. The program is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association.
Admission Requirements

Hunter College maintains only electronic processes for Graduate Admissions. Applicants are responsible for creating an admissions account and correctly submitting the following:

- Official transcripts from undergraduate and graduate schools verifying completion of degrees, GPAs and coursework
- GRE scores
- Two letters of recommendation
- Narrative statement

Visit Hunter College's Graduate Admissions page for more information regarding the application process.

Individuals wishing to matriculate into the SLP program must demonstrate completion of 45 credits of prerequisite coursework in Communications Sciences and Disorders as well as Liberal Arts and Sciences. The breakdown of the prerequisite coursework is outlined below.

Fifteen credits of foundations courses in Communication Sciences and Disorders are required. Each of the following must be at least 3 credits.

- Introduction to Language
- Anatomy and Physiology of Speech Mechanisms
- Phonetics of American English
- Introduction to Speech Pathology
- Introduction to Audiology
- Language Acquisition

Thirty credits in Liberal Arts and Sciences courses are required of each applicant. Applicants should review catalog descriptions of courses they have taken to ensure correct matching of the following requirements:

- Biological science (3 credits)—examples are botany, biology, ecology, genetics, marine biology, nutrition, physiology, zoology
- Physical science (3 credits)—must be either chemistry, or physics
- Statistics (3 credits)
- English (6 credits)—at least 3 credits of intensive writing
- U.S. history or political science (3 credits)
- Art (3 credits)—examples include pottery, painting, drawing, theater performance, dance, musical instrument performance, art or music appreciation
- Language other than English (3 credits)—American Sign Language, Spanish, French, German, Hebrew, Arabic, Greek, etc.

When applying to become a matriculated student applicants should understand:

- Courses must be taken at an accredited college or university
- At least a B grade is necessary for all prerequisite coursework
- Advanced Placement (AP) credit will be accepted; however, AP must be recorded on the student's official undergraduate transcript(s)
- Pass/fail grades will not be considered as having fulfilled the Communication Sciences or Liberal Arts and Sciences prerequisite requirements
- Being a native speaker of a language will not fulfill the language requirement; the language requirement must be documented on an official transcript
- College-Level Examination Program (CLEP) scores will not be considered as having fulfilled admissions requirements
If unsure that a class meets a prerequisite course requirement, students applying to the SLPA Program may wish to include with their application a catalog description and/or syllabus for that course.

Suggested Curriculum

Pre-Fall

CEDF 70600 - Social, Historical, Philosophical Foundations of Education: The American School

An in-depth study of the social, historical, and philosophical foundations of education and their impact on the American school.

Hours 45 hrs
Credits 3

Fall 1

COMSC 70000 - Introduction to Research Methods

Introduction to basic research design and techniques used to study basic and applied communication science. Included is an overview of basic concepts and terminology, with emphasis on developing the ability to form a reasonable critical assessment of published literature. The course will focus on the development of technical writing skills, conducting thorough and efficient library and Internet research, the interpretation of graphical information, and a working understanding of common statistical models.

prereq: none
Hours 45
Credits 3

COMSC 70500 - Acoustics, Physiologic and Auditory Phonetics

A comprehensive overview of basic phonetic science, as well as a foundation for its application to clinically relevant issues; basic concepts and terminology associated with the scientific study of the production, structure, transmission, and perception of the speech signal; acquisition, measurement and interpretation of physical data; speech and voice acoustics, aerodynamics, glottography, and kinematics.

prereq: COMSC 70800
Hours 45
Credits 3

COMSC 71100 - Models of Language

Designed to further the understanding of the nature of language acquisition process as it pertains to the field of speech/language pathology. By surveying the various scientific proposals with respect to language learning, the student will gain a richer understanding of how language learning might be interrupted. The student will gain exposure to an interdisciplinary approach to the notion of language learning.

prereq: none
COMSC 71200 - Neural Processes of Communication

Neuroanatomy of normal processes and disorders of speech, swallowing, language, vision, hearing, emotion, cognition and communication; development of the human nervous system; neurological disorders and their effects on communication processes.

prereq: none

Hours 45
Credits 3

COMSC 72000 - Clinical Methods in Speech-Language Pathology

This course is an introduction to the scope and essentials of clinical practicum across the life span as reflected in the management of speech and language disorders in pediatric and adult populations. Basic clinical methods and procedures will be emphasized, including the development of the skills to select therapy targets, develop session plans, generate behavioral objectives and write SOAP notes. 25 hours of clinical observation (external to the course hours) are included. Completion of workshops in reporting child abuse and violence protection in the classroom will be required.

coreq: COMSC 70000, 70800, 71100, 71200

Hours 45
Credits 3

Spring 1

COMSC 71600 - Phonological Development and Disorders

Anatomical/physiological, cultural and psychological aspects of articulatory and phonological development and disorders; methods of prevention, assessment and intervention across the range of severity and etiology; impact of phonological disorders on acquisition of literacy; collaboration with teachers in management.

prereq: COMSC 72000

Hours 45
Credits 3

COMSC 71700 - Language Disorders in Children

Language and communication disorders and differences in children from infancy through adolescence, including specific language impairment, pervasive developmental delay, autism and mental retardation, cognitive and social aspects of communication, variation in severity and type of disorders; management of children requiring special education as mandated by Federal Law; implications of early language disorders on literacy acquisition, assessment and intervention; cultural diversity issues; interdisciplinary strategies for intervention for children with communication challenges within the home, preschool, school, and community settings.

prereq: COMSC 71100

Hours 45
Credits 3

COMSC 71900 - Assessment and Management of Dysphagia across the Lifespan
Normal and abnormal swallowing function across the lifespan, clinically known as dysphagia; evaluation, management, and treatment of dysphagia across various neurological, mechanical, and esophageal conditions in infants, children and adults will be emphasized. Interpretation of modified barium swallow (MBS) and fiberoptic endoscopic evaluation of swallow (FEES) studies as well as non-oral options for nutrition/hydration will be addressed.

Hours 60
Credits 4

COMSC 72600 - Adult Neurogenic Communication Disorders

Neurological, linguistic, cognitive and psychological aspects of acquired communication disorders across the life span, including aphasia, traumatic brain injury, and dementia; prevention, assessment and intervention across a range of severity and etiology; interdisciplinary collaboration in acute care, home, educational and vocational settings.

prereq: COMSC 71200
Hours 45 hrs,
Credits 3 cr

COMSC 72800 - Clinical Practicum in Speech-Language Pathology

First-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 728.04, for students in the bilingual extension, designates a special section of COMSC 728 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 72000, 73300
Credits 1 cr

COMSC 73300 - Clinical Methods in Speech-Language Pathology: Diagnosis and Assessment

This course is a continuation of the discussion of the scope and essentials of clinical practicum, as reflected in the identification and assessment of speech and language disorders across the life span. Basic clinical methods and procedures will be emphasized, including the development of the skills related to generating and interpreting diagnostic reports. Students will learn about processes related to the selection, interpretation, and administration of appropriate, client-specific formal and informal assessment tools.

prereq: COMSC 72000
Hours 30
Credits 2

Summer 1

COMSC 70300 - Professional Practice in Educational Settings

The multifaceted role of the speech language pathologist in school settings; models of service delivery; collaborative assessment and teaching; computerized teaching programs; national and state legislation and regulations; rights and responsibilities of teachers and other staff; individualized educational planning; language-based learning disabilities; cultural diversity issues including bilingual and multicultural issues; roles of language in academic development and
instruction; drug abuse education and fire safety. For successful completion of the course, students must also attend (a) a 2-hour workshop on identifying and reporting suspected child abuse or maltreatment; (b) a 2-hour workshop on school violence prevention and intervention.

**prereq:** COMSC 72000

**Hours** 45

**Credits** 3

**COMSC 77100 - Summer Clinical Practicum in Speech-Language Pathology 1**

First-year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervisor of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practicum and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood and adolescence, as well as with adults.

**prereq:** COMSC 73300

**Credits** 1 cr

**Fall 2**

**COMSC 70600 - Summative Project I**

The intention of this project is for students to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter College will be considered.

**prereq or coreq:** none

**Hours** 30

**Credits** 2

**COMSC 71500 - Communication Processes Related to Aging**

Current understanding of adult development and aging as related to communication processes and disorders. Speech, language and hearing changes, as well as social, behavioral, physical and cognitive changes associated with normal and pathological aging processes. Intervention strategies, diagnostic and treatment materials, and audiological equipment for the communicatively impaired elderly population.

**prereq:** COMSC 70800, 75300

**Hours** 45

**Credits** 3

**COMSC 72400 - Developmental and Acquired Motor Speech and Swallowing Disorders**

Disorders of speech resulting from neurologic impairment affecting the motor programming (apraxia) or neuromuscular execution (dysarthria) of speech in infants, children, and adults; assessment and therapeutic management strategies in social, educational and vocational settings.
COMSC 72300 - Studies in Bilingualism

A survey of classical and contemporary psycholinguistics literature as it pertains to bilingual speakers (both children and adults). The ways in which languages can be acquired and be represented will be reviewed in preparation for understanding how language and communication disorders might manifest in bilingual speakers. Several critical articles on the study of bilingualism will be discussed, under the following headings: (1) psycholinguistics from a cross language perspective, (2) early bilingual development, (3) the bilingual brain, (4) learning to read in more than one script, and (5) the cognitive impact of bilingualism. In addition, students will be engaged in discussions regarding the nature of bilingual language skills, the role of language in second language learning and how these factors impact assessment and treatment of language and communication disorders.

Hours 45
Credits 3

COMSC 72700 - Voice Disorders

The identification, assessment, diagnosis, and management of dysphonia and related laryngeal disorders; an overview of the functional, congenital, psychogenic, trauma-related, organic and neurogenic disorders that can affect vocal function, respiration, and resonance. The role of stroboscopy, glottography, aerodynamic and acoustic measures in the assessment of phonatory disorder is discussed and a survey of treatment techniques and strategies for voice patients is discussed. An off-campus trip to an ENT/voice lab in the metropolitan area will be scheduled for later in the semester.

prereq: COMSC 70800, 71200
Hours 30
Credits 2

COMSC 72900 - Clinical Practicum in Speech-Language Pathology 1

Second-year fall semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica or off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 72904 for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish speaking children eligible for bilingual services.

prereq: COMSC 73300
coreq: COMSC 73600
Credits 1 cr

Spring 2

COMSC 70300 - Professional Practice in Educational Settings

The multifaceted role of the speech language pathologist in school settings; models of service delivery; collaborative assessment and teaching; computerized teaching programs; national and state legislation and regulations; rights and responsibilities of teachers and other staff; individualized educational planning; language-based learning disabilities; cultural diversity issues including bilingual and multicultural issues; roles of language in academic development and
instruction; drug abuse education and fire safety. For successful completion of the course, students must also attend (a)
a 2-hour workshop on identifying and reporting suspected child abuse or maltreatment; (b) a 2-hour workshop on
school violence prevention and intervention.

prereq: COMSC 72000
Hours 45
Credits 3

COMSC 70700 - Summative Project II

COMSC 70600 and 70700 are designed to facilitate the completion of a summative project. Students are intended to
demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking.
It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and
relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with
emphasis on students' coursework at Hunter college will be considered.

prereq or coreq: none
Hours 30
Credits 2

COMSC 71500 - Communication Processes Related to Aging

Current understanding of adult development and aging as related to communication processes and disorders. Speech,
language and hearing changes, as well as social, behavioral, physical and cognitive changes associated with normal and
pathological aging processes. Intervention strategies, diagnostic and treatment materials, and audiological equipment
for the communicatively impaired elderly population.

prereq: COMSC 70800, 75300
Hours 45
Credits 3

COMSC 72200 - Fluency Disorders

Anatomical/physiological, neurological, psychological, developmental, linguistic and cultural bases of fluency
disorders; methods of prevention, assessment and intervention across the life span and range of severity and etiology;
management in social, educational and vocational settings.

prereq: COMSC 70800, 71200
Hours 30
Credits 2

COMSC 72300 - Studies in Bilingualism

A survey of classical and contemporary psycholinguistics literature as it pertains to bilingual speakers (both children
and adults). The ways in which languages can be acquired and be represented will be reviewed in preparation for
understanding how language and communication disorders might manifest in bilingual speakers. Several critical
articles on the study of bilingualism will be discussed, under the following headings: (1) psycholinguistics from a cross
language perspective, (2) early bilingual development, (3) the bilingual brain, (4) learning to read in more than one
script, and (5) the cognitive impact of bilingualism. In addition, students will be engaged in discussions regarding the
nature of bilingual language skills, the role of language in second language learning and how these factors impact
assessment and treatment of language and communication disorders.
COMSC 73700 - Clinical Methods in Speech Language Pathology: Developmental Disabilities and AAC

This seminar focuses on knowledge and skills in speech-language pathology related to clinical competence and professionalism, clinical interventions, and clinical research with a focus on Developmental Disabilities (DD) (intellectual disability, autism spectrum disorders, cerebral palsy, and others) & Alternative and Augmentative Communication (AAC). Topics discussed include fundamental principles of assessment, diagnostic intervention planning & implementation, data- collection & interpretation, and follow-up assessment for monitoring progress across the lifespan in individuals with developmental disabilities. Presentation of no-tech (unaided communication), low-tech, mid-tech and high-tech AAC supports will be made available.

COMSC 73900 - Clinical Practicum in Speech-Language Pathology 2

Second-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence, or adulthood.

prereq: COMSC 72900
coreq: COMSC 73700
Credits 1 cr

Total Credits: 68

TSSLD with Bilingual Extension (Spanish-English)

The Teachers of Students with Speech and Language Disabilities with Bilingual Extension (Spanish-English) option is available to students in the SLP curriculum who meet the admission requirements regarding demonstration of bilingual proficiency. A written and oral Spanish/English proficiency exam is administered to candidates by the Communication Sciences program. The bilingual requirements include an additional 12 credits of coursework:

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 77800 - Instruction Through the Native Language-Spanish
To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100
Hours 45 hrs plus 10 hrs of fieldwork,
Credits 3

BILED 77900 - Multicultural Education

Conceptual framework derived from anthropological, cross-cultural research on learning and interaction, emphasizing theories and practical perspectives of multicultural education. Theories and strategies that make use of diversity throughout the curriculum and schools will be the focus of the course.

prereq or coreq: BILED 70100
Hours includes 5 hrs of fieldwork
Credits 3 cr

and a bilingual school-based practicum

COMSC 72904 - Clinical Practicum in Speech- Language Pathology 1

for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 73300
coreq: COMSC 73600
Credits 1

EDESL 79610 - Methodology of Teaching English to Speakers of Other Languages

An overview of K-12 program types and classroom options for teaching English to speakers of other languages. The course covers language teaching methods for teaching the four language skills, options for classroom management, and setting up learning environments. Required of students in Program 1.

Credits 4 cr.
includes 30 hours fieldwork

Additional Bilingual Examinations

Students seeking TSSLD with Bilingual Extension are required to take the Bilingual Content Specialty Test (CST). In addition to the requirements for TSSLD, candidates for a bilingual extension must also take two language examinations — one in the target language (Spanish) and the other in English.

Teachers of Students with Speech-Language Disabilities – Bilingual (English-Spanish Extension) MS
Requirements for Admission

In addition to all of the requirements for admission to the TSSLD curriculum, students applying for the bilingual (Spanish and English) extension must pass a Communication Sciences Program-administered evaluation of written and oral proficiency in Spanish and English.

Requirements for the Degree

In addition to all of the TSSLD requirements identified above, students must complete the following Extension requirements:

A. 12 additional credits of coursework:

EDESL 79620 - Methodology of Teaching English to Speakers of Other Languages

An overview of program types and classroom options for teaching English to speakers of other languages. The course covers basic language teaching methods, options for classroom management, and setting up optimal learning environments. Required of students in Programs 2 and 3.

Hours includes 20 hours fieldwork
Credits 4
20 hours fieldwork

BILED 70100 - Foundations of Bilingual Education

Historical overview of bilingual education and its relationship to ESL instruction. Emphasis is placed on social and linguistic theories underlying bilingual instructional models and the political context in which they function.

Hours includes 5 hrs of fieldwork
Credits 3 cr

BILED 77100 - Psychology of Language Learning and Teaching

Survey of the research in first and second language acquisition as it pertains to bilingual children. Emphasis is on the psychological underpinnings of the language acquisition process and their implications for language learning in the classroom. Lab time is an integral part of this course.

prereq or coreq: BILED 70100
Hours 30 hrs plus 5 hrs of fieldwork and lab,
Credits 2 cr

BILED 77800 - Instruction Through the Native Language-Spanish

To enhance Spanish language skills of teacher candidates for the purpose of teaching content areas in and through Spanish. The academic language needed to teach content areas will be emphasized. Teacher candidates will develop, adapt and revise curriculum materials in Spanish for the bilingual classroom.

prereq or coreq: BILED 70100
Hours 45 hrs plus 10 hrs of fieldwork,
Credits 3

B. School-based Language Practicum

A school-based language practicum (COMSC 72900 for 1 credit) must involve work with Spanish-speaking children eligible for bilingual education services.

C. NYSTCE Tests for English Language Proficiency

NYSTCE tests for English Language Proficiency Assessment (LPA) and the Target Language Proficiency Assessment (TLPA).

**AUD 70000 - Anatomy and Physiology of the Audio-Vestibular System**

Investigation of the embryology, structure, and function of the auditory and vestibular systems.

*Hours 30 hours lecture plus conference,*
*Credits 3 cr*

**AUD 70300 - Acoustics and Psychoacoustics**

Exploration of the decibel, sound transmission, complex stimuli, psychoacoustic methods, signal detection theory, auditory sensitivity, masking, loudness, pitch, binaural hearing.

*coreq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology*
*Hours 30 hours lecture, 15 hours laboratory,*
*Credits 3 cr*

**AUD 70500 - Speech-Language Sciences**

Exploration of phonological, lexical syntacticmorphological, and pragmatic aspects of human communication associated with speech, language, hearing and related disorders, normal processes of speech and language comprehension and production over the life span.

*Hours 30 hours lecture plus conference,*
*Credits 3 cr*

**AUD 70900 - Instrumentation in Audiology**

Measurement and calibration of the physical characteristics of acoustic, electric, and other non-acoustic stimuli; instrumentation, digital technology; bio-electrical hazards.

*prereq: Psychoacoustics*
*coreq: Physiological Acoustics*
*Hours 15 hours lecture; 30 hours laboratory,*
*Credits 3 cr*

**AUD 71000 - Diagnostic Audiology**
Study of audiological test procedures and interpretation in the assessment of peripheral and functional hearing impairment.

*prereq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology; Psychoacoustics*

*Hours 30 hours lecture plus conference; 15 hours laboratory,*

*Credits 4 cr*

**AUD 71200 - Speech-Language Pathology for Audiologists**

Exploration of the effects of communication disorders and differences on audiological testing, treatment and counseling; screening and prevention of communication disorders across the life span. In accordance with the American Speech-Language-Hearing Association's certification standards, students will complete the hours of speech and language screenings in a variety of settings.

*prereq: Speech-Languages Sciences*

*coreq: Diagnostic Audiology*

*Hours 15 hours lecture plus conference, 15 hours laboratory,*

*Credits 3 cr*

**AUD 71600 - Physiological Acoustics**

Detailed study of the pneumatic/mechanical/hydraulic/electrical interfaces involved in the transduction of acoustic energy through the auditory system. In-depth investigation of the external ear biophysics, the middle ear transfer function, cochlear hydrodynamics and hydromechanics, auditory biopotentials, cochlear non linearity, neural transduction and neural coding in the peripheral and central auditory systems.

*prereq: courses in Anatomy & Physiology of the Audio-Vestibular System and Psychoacoustics*

*Hours 30 hours lecture plus conference,*

*Credits 3 cr*

**AUD 71800 - Introduction to Research Methods**

Exploration of issues and concepts in study design and analysis including types of research, controlling for confounding variables, measurement errors and their effects, statistical methods, and their applications to clinical populations.

*prereq: 30 hours lecture plus conference*

*Credits 3 cr*

**AUD 72000 - Multicultural Issues for Audiologists**

Examination of multicultural influences on the prevalence of auditory, vestibular, and otologic disorders; dialectical considerations for suprathreshold speech-recognition assessment; multicultural influences on attitudes toward health care providers, health care, disability, and deaf; ramifications of cultural diversity for professional practice; using culturally sensitive measures and protocols for assessment and management.

*prereq: Diagnostic Audiology*

*Hours 30 hours lecture plus conference,*

*Credits 3 cr*

**AUD 73000 - Amplification I**
Examination of hearing-aid components, hearing aid candidacy, output limiting/compression, electroacoustic and real-ear measures, prescriptive procedures, amplification, earmolds and earmold acoustics, cerumen management, binaural issues including deprivation and acclimatization, approaches to hearing aid evaluation.

**prereq:** Diagnostic Audiology, Physiological Acoustics, and 1 cr of Audiology Practicum
* Hours 30 hours lecture plus conference; 15 hours laboratory,
* Credits 4 cr

**AUD 73300 - Communication Skills of Adults with Hearing Loss**

A comprehensive approach to rehabilitation of adults with hearing impairment. Assessment of adult communicative function including auditory/visual speech perception, and use of selfassessment using cochlear implants and other sensory aids.

**prereq:** Diagnostic Audiology and 1 cr of Audiology Practicum
**coreq:** Amplification 1
* Hours 30 hours lecture plus conference,
* Credits 3 cr

**AUD 73500 - Auditory Electrophysiology**

Advanced differential diagnosis of auditory disorders. Exploration of theoretical bases and clinical aspects of otoacoustic emissions and middle ear measurement.

**prereq:** Diagnostic Audiology and 1 cr of Audiology Practicum
**coreq:** 2nd cr of Audiology Practicum
* Hours 15 hours lecture and conference; 15 hours laboratory,
* Credits 3 cr

**AUD 73700 - Prevention and Identification of Hearing Loss**

Exploration of procedures to prevent the onset and minimize the development of hearing disorders; identifying individuals at risk for hearing impairment throughout the lifespan; screening individuals for hearing impairment and disability/handicap; administering hearing conservation programs.

**prereq:** courses in Diagnostic Audiology and Auditory Evoked Responses
**coreq:** course in Audiology Electrophysiology
* Hours 30 hours lecture plus conference,
* Credits 3 cr

**AUD 74000 - Aural Habilitation**

Roles and responsibilities of the audiologist in clinical and educational settings. Assessment and management of communicative function in children with hearing impairment, including those with minimal hearing loss. Development of strategies for improving speech perception skills, including usage of assistive technology.

**prereq:** Auditory Evoked Responses; Speech-Language Pathology for Audiologists; and, 2 cr of Audiology Practicum
**coreq:** Audiology Electrophysiology
* Hours 30 hours lecture plus conference,
* Credits 3 cr
AUD 74200 - Auditory Evoked Responses

Exploration of the theoretical bases and clinical applications of the auditory evoked potentials.

prereq: Audiology Electrophysiology and 2 cr of Audiology Practicum

Hours 15 hours lecture and conference; 15 hours laboratory,
Credits 3 cr

AUD 74600 - Pediatric Audiology

Exploration of the effects of hearing loss on child development, prevalence of hearing loss in childhood, embryology, genetic issues, development of auditory function, hearing and balance disorders in children, pediatric audiology assessment battery, pediatric considerations in amplification, assessment of special populations.

prereq: Amplification I, Auditory Evoked Responses and 2 cr of Audiology Practicum
coreq: Audiology Electrophysiology, Prevention and Identification of Hearing Loss

Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 74800 - Amplification II

Advanced signal processing, verification, validation/outcome measures, pediatric amplification fitting, noise-reduction strategies, multi-microphone/directional technology, troubleshooting/repair, hearing-aid orientation.

prereq: Amplification I and 2 cr of Audiology Practicum

Hours 15 hours lecture and conference; 15 hours laboratory,
Credits 3 cr

AUD 75000 - Counseling

Contemporary theories of counseling. Application of principles and methods to problems faced by individuals with communication, hearing, vestibular and tinnitus disorders and their families. Counseling strategies to maximize individual's ability to understand, adapt and cope with his/her disorder.

prereq: Diagnostic Audiology

Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 76000 - Medical Audiology

Medical and audiological aspects of hearing and balance disorders, including issues in genetics, otologic assessment and treatment, and use of imaging studies.

prereq: Auditory Evoked Responses and 2 cr of Audiology Practicum
coreq: Audiology Electrophysiology

Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 76300 - Vestibular and Tinnitus Evaluation and Management
Investigation of balance tests including electronystagmography, posturography, and rotary chair; vestibular rehabilitation; electrophysiologic and behavioral techniques for the assessment of tinnitus; tinnitus management.

prereq: Anatomy & Physiology of the Audio-Vestibular System; Instrumentation in Audiology, Diagnostic Audiology, Auditory Evoked Responses, Audiology Electrophysiology
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 76500 - Audiologic Research Proposal

Critiquing of research and the development of individual research proposals. Development of Institutional Review Board (IRB) application.

prereq: Introduction to Research Methods and completion of 45 Au.D. credits
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 76700 - Amplification III

Advanced programming. FM fitting and evaluation; special fittings; developing technologies; current research in amplification.

prereq: Amplification I and 2 cr of Audiology Practicum
Hours 15 hours lecture and conference; 15 hours laboratory,
Credits 3 cr

AUD 77000 - Cochlear Implants and other Sensory Aids

Effects of electrical stimulation on the auditory system; exploration of candidacy, principles of signal processing, and audiologic management for children and adults who use cochlear implants and other sensory aids.

prereq: courses in Anatomy & Physiology of the Audio-Vestibular System; Acoustics and Psychoacoustics; Speech-Language Sciences; Physiological Acoustics; Instrumentation in Audiology, Amplification I
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 77200 - Auditory Processing Disorders: Assessment and Treatment

Relevant neuroanatomy and physiology of auditory pathways: behavioral and physiological assessment techniques and management procedures for children and adults with auditory processing disorders.

prereq: Auditory Evoked Responses; Auditory Electrophysiology, Speech-Language Pathology for Audiologists, Pediatric Audiology. Audiologic Habilitation and 2 cr of Audiology Practicum
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 77400 - Hearing and Aging

Examination of the biological, physiological and sociological changes accompanying the aging process; protocols for evaluating and treating older adults with hearing impairment.
prereq: courses in Diagnostic Audiology and Anatomy & Physiology of the Audio-Vestibular System; Auditory Electrophysiology; Communication Skills of Adults with Hearing Loss
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 77600 - Seminar in Professional Practice - Business Practices

Issues of a professional nature that impact on the practice of audiology. Topics include licensure, accreditation/certification, quality assurance, reimbursement, establishing a private practice, professional liability, privacy/confidentiality and ethics.

prereq: courses in Diagnostic Audiology; Audiology Practicum; Audiology Seminar; Amplification ll
Hours 30 hours lecture plus conference,
Credits 3 cr

AUD 78000 - Audiologic Research

Students, under the direction of their clinical research project committee, will carry out the proposal developed in Audiologic Research Proposal.

prereq: Audiologic Research Proposal
Hours 15 hours,
Credits 1 cr

AUD 79000 - Audiology Practicum

Clinical Practicum in assessment and management of a wide variety of hearing disorders under the supervision of an ASHA certified and New York licensed audiologist.

Hours 15 hours laboratory,
Credits 1 cr

AUD 79600 - Seminar in Audiology

Examination of ethical issues, certification standards, Center policies and procedures, infectious disease and infection control, history taking, report-writing, counseling, case studies, procedures and protocol in various settings.

Hours 15 hours,
Credits 1 cr

AUD 79800 - Independent Study

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

Hours Conference,
Credits 1-3 cr

AUD 79900 - Audiology Residency

Students will be placed and supervised in setting(s), which will meet CAA standards for the certificate of Clinical Competence for the clinical residency year. Student must successfully complete this course two times.
COMSC 60400 - Introduction to Language Science

An introduction to the nature of language and communication. Topics include components of the linguistic system, relationship between verbal and non-verbal communication, and language acquisition across the life span.

*Hours 45  
*Credits 3

COMSC 60700 - Phonetics of American English

*Hours 45  
*Credits 3

COMSC 61500 - Speech and Its Production

An overview of the structure of speech and the basic mechanisms involved the production of speech sounds; a foundation for a more in-depth study of speech science and its application to clinical practice in speech-language pathology and audiology; structure and organization of the ventilatory, laryngeal, supralaryngeal and orofacial mechanisms; issues in basic speech acoustics and perception.

*Hours 45  
*Credits 3

COMSC 62000 - Introduction to Speech-Language Pathology

Introduction to organic and behavioral correlates of human communication; its development and disorders. The influence of culture, heritage, and socioeconomic status on the disorders of voice, articulation, fluency, and language.

*Hours 45  
*Credits 3

COMSC 64000 - Introduction to Audiology

Etiology and pathology of hearing disorders, basic properties of the auditory stimulus: measurement of pure tone thresholds by air and bone conduction. Overview of the audiologist in diagnosis and management of hearing disorders.

*Hours 45  
*Credits 3

COMSC 70000 - Introduction to Research Methods
Introduction to basic research design and techniques used to study basic and applied communication science. Included is an overview of basic concepts and terminology, with emphasis on developing the ability to form a reasonable critical assessment of published literature. The course will focus on the development of technical writing skills, conducting thorough and efficient library and Internet research, the interpretation of graphical information, and a working understanding of common statistical models.

prereq: none  
Hours 45  
Credits 3

COMSC 70200 - Multicultural Issues in Counseling and Communication

This course presents a multicultural perspective of counseling theories, techniques and strategies for persons with disorders and their families. It addresses the impact of cultural, ethnic, gender, socioeconomic and individual variations in culturally appropriate delivery of services to individuals with speech-language disorders as well as those acquiring English as a second language.

prereq: COMSC 72000  
Hours 45  
Credits 3

COMSC 70300 - Professional Practice in Educational Settings

The multifaceted role of the speech language pathologist in school settings; models of service delivery; collaborative assessment and teaching; computerized teaching programs; national and state legislation and regulations; rights and responsibilities of teachers and other staff; individualized educational planning; language-based learning disabilities; cultural diversity issues including bilingual and multicultural issues; roles of language in academic development and instruction; drug abuse education and fire safety. For successful completion of the course, students must also attend (a) a 2-hour workshop on identifying and reporting suspected child abuse or maltreatment; (b) a 2-hour workshop on school violence prevention and intervention.

prereq: COMSC 72000  
Hours 45  
Credits 3

COMSC 70500 - Acoustics, Physiologic and Auditory Phonetics

A comprehensive overview of basic phonetic science, as well as a foundation for its application to clinically relevant issues; basic concepts and terminology associated with the scientific study of the production, structure, transmission, and perception of the speech signal; acquisition, measurement and interpretation of physical data; speech and voice acoustics, aerodynamics, glottography, and kinematics.

prereq: COMSC 70800  
Hours 45  
Credits 3

COMSC 70600 - Summative Project I

The intention of this project is for students to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students' coursework at Hunter College will be
COMSC 70700 - Summative Project II

COMSC 70600 and 70700 are designed to facilitate the completion of a summative project. Students are intended to demonstrate skills acquired in graduate school, including field research, writing, oral presentation and critical thinking. It is meant to advance and facilitate student-initiated research in the field of speech/language pathology. Current and relevant topics in the fields of speech/language pathology, applied linguistics, psycholinguistics, and education with emphasis on students’ coursework at Hunter college will be considered.

prereq or coreq: none
Hours 30
Credits 2

COMSC 71100 - Models of Language

Designed to further the understanding of the nature of language acquisition process as it pertains to the field of speech/language pathology. By surveying the various scientific proposals with respect to language learning, the student will gain a richer understanding of how language learning might be interrupted. The student will gain exposure to an interdisciplinary approach to the notion of language learning.

prereq: none
Hours 45
Credits 3

COMSC 71200 - Neural Processes of Communication

Neuroanatomy of normal processes and disorders of speech, swallowing, language, vision, hearing, emotion, cognition and communication; development of the human nervous system; neurological disorders and their effects on communication processes.

prereq: none
Hours 45
Credits 3

COMSC 71500 - Communication Processes Related to Aging

Current understanding of adult development and aging as related to communication processes and disorders. Speech, language and hearing changes, as well as social, behavioral, physical and cognitive changes associated with normal and pathological aging processes. Intervention strategies, diagnostic and treatment materials, and audiological equipment for the communicatively impaired elderly population.

prereq: COMSC 70800, 75300
Hours 45
Credits 3

COMSC 71600 - Phonological Development and Disorders
Anatomical/physiological, cultural and psychological aspects of articulatory and phonological development and disorders; methods of prevention, assessment and intervention across the range of severity and etiology; impact of phonological disorders on acquisition of literacy; collaboration with teachers in management.

prereq: COMSC 72000
Hours 45
Credits 3

COMSC 71700 - Language Disorders in Children

Language and communication disorders and differences in children from infancy through adolescence, including specific language impairment, pervasive developmental delay, autism and mental retardation, cognitive and social aspects of communication, variation in severity and type of disorders; management of children requiring special education as mandated by Federal Law; implications of early language disorders on literacy acquisition, assessment and intervention; cultural diversity issues; interdisciplinary strategies for intervention for children with communication challenges within the home, preschool, school, and community settings.

prereq: COMSC 71100
Hours 45
Credits 3

COMSC 71800 - Language and Literacy Disorders in School-Age Children

The impact of language disorders in school-age children and adolescents on their acquisition of academic skills required for the development of literacy skills and written language (reading, spelling and writing); cognitive and social aspects of communication; formal and informal assessment; collaborative management strategies; cultural diversity issues.

prereq: COMSC 71100
Hours 45
Credits 3

COMSC 71900 - Assessment and Management of Dysphagia across the Lifespan

Normal and abnormal swallowing function across the lifespan, clinically known as dysphagia; evaluation, management, and treatment of dysphagia across various neurological, mechanical, and esophageal conditions in infants, children and adults will be emphasized. Interpretation of modified barium swallow (MBS) and fiberoptic endoscopic evaluation of swallow (FEES) studies as well as non-oral options for nutrition/hydration will be addressed.

Hours 60
Credits 4

COMSC 72000 - Clinical Methods in Speech-Language Pathology

This course is an introduction to the scope and essentials of clinical practicum across the life span as reflected in the management of speech and language disorders in pediatric and adult populations. Basic clinical methods and procedures will be emphasized, including the development of the skills to select therapy targets, develop session plans, generate behavioral objectives and write SOAP notes. 25 hours of clinical observation (external to the course hours) are included. Completion of workshops in reporting child abuse and violence protection in the classroom will be required.

coreq: COMSC 70000, 70800, 71100, 71200
COMSC 72200 - Fluency Disorders

Anatomical/physiological, neurological, psychological, developmental, linguistic and cultural bases of fluency disorders; methods of prevention, assessment and intervention across the life span and range of severity and etiology; management in social, educational and vocational settings.

prereq: COMSC 70800, 71200

Hours 45
Credits 3

COMSC 72300 - Studies in Bilingualism

A survey of classical and contemporary psycholinguistics literature as it pertains to bilingual speakers (both children and adults). The ways in which languages can be acquired and be represented will be reviewed in preparation for understanding how language and communication disorders might manifest in bilingual speakers. Several critical articles on the study of bilingualism will be discussed, under the following headings: (1) psycholinguistics from a cross language perspective, (2) early bilingual development, (3) the bilingual brain, (4) learning to read in more than one script, and (5) the cognitive impact of bilingualism. In addition, students will be engaged in discussions regarding the nature of bilingual language skills, the role of language in second language learning and how these factors impact assessment and treatment of language and communication disorders.

Hours 45
Credits 3

COMSC 72400 - Developmental and Acquired Motor Speech and Swallowing Disorders

Disorders of speech resulting from neurologic impairment affecting the motor programming (apraxia) or neuromuscular execution (dysarthria) of speech in infants, children, and adults; assessment and therapeutic management strategies in social, educational and vocational settings.

prereq: none

Hours 60
Credits 4

COMSC 72500 - Developmental Motor Speech and Swallowing Disorders

Diagnosis and management of childhood dysarthrias, developmental apraxia of speech and related disorders of swallowing.

prereq: COMSC 70800, 71200

Hours 45 hrs,
Credits 3 cr

COMSC 72600 - Adult Neurogenic Communication Disorders

Neurological, linguistic, cognitive and psychological aspects of acquired communication disorders across the life span, including aphasia, traumatic brain injury, and dementia; prevention, assessment and intervention across a range of
severity and etiology; interdisciplinary collaboration in acute care, home, educational and vocational settings.

prereq: COMSC 71200
Hours 45 hrs,
Credits 3 cr

COMSC 72700 - Voice Disorders

The identification, assessment, diagnosis, and management of dysphonia and related laryngeal disorders; an overview of the functional, congenital, psychogenic, trauma-related, organic and neurogenic disorders that can affect vocal function, respiration, and resonance. The role of stroboscopy, glottography, aerodynamic and acoustic measures in the assessment of phonatory disorder is discussed and a survey of treatment techniques and strategies for voice patients is discussed. An off-campus trip to an ENT/voice lab in the metropolitan area will be scheduled for later in the semester.

prereq: COMSC 70800, 71200
Hours 30
Credits 2

COMSC 72800 - Clinical Practicum in Speech-Language Pathology

First-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 728.04, for students in the bilingual extension, designates a special section of COMSC 728 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 72000, 73300
Credits 1 cr

COMSC 72900 - Clinical Practicum in Speech-Language Pathology 1

Second-year fall semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica or off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence or adulthood. COMSC 72904 for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish speaking children eligible for bilingual services.

prereq: COMSC 73300
coreq: COMSC 73600
Credits 1 cr

COMSC 72904 - Clinical Practicum in Speech- Language Pathology 1

for students in the bilingual extension, designates a special section of COMSC 72900 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 73300
coreq: COMSC 73600
Credits 1
COMSC 73000 - Cleft Palate and Craniofacial Disorders of Speech

Broad spectrum of velopharyngeal incompetence, including embryogenesis, classification of clefts, aspects of cleft palate speech, associated disorders, modes of formal and informal assessment and intervention strategies within the home, school, hospital and work environments; current surgical and prosthetic management of cleft lip, palate and related craniofacial disorders; impact on learning and literacy acquisition.

prereq: COMSC 70800, 71200
Hours 45 hrs,
Credits 3 cr

COMSC 73100 - Assessment and Management of Speech, Voice, and Swallowing Following Surgical Intervention for Head and Neck Cancer

Assessment and management of surgically based swallowing disorders in children, adolescents and adults; rehabilitation of speech, voice following oral and laryngeal surgery including the use of speech aids.

prereq: COMSC 70800, 71200
Hours 45 hrs,
Credits 3 cr

COMSC 73300 - Clinical Methods in Speech-Language Pathology: Diagnosis and Assessment

This course is a continuation of the discussion of the scope and essentials of clinical practicum, as reflected in the identification and assessment of speech and language disorders across the life span. Basic clinical methods and procedures will be emphasized, including the development of the skills related to generating and interpreting diagnostic reports. Students will learn about processes related to the selection, interpretation, and administration of appropriate, client-specific formal and informal assessment tools.

prereq: COMSC 72000
Hours 30
Credits 2

COMSC 73500 - Clinical Methods in Speech-Language Pathology: Reading and Dyslexia

This clinical seminar addresses typical processes of reading across the life span including pre-literacy skills. Reading disorders in children and adults are discussed; differential diagnosis; therapeutic intervention; the role of the speech-language pathologist in the educational setting; collaboration among reading professionals, school-based curriculum and neuro-rehabilitation.

Hours 3 hrs
Credits 3 cr.

COMSC 73600 - Clinical Seminar in Speech-Language Pathology 1

Assessment measures and intervention strategies for individuals with disorders of speech and language across the lifespan; development of professional oral and written communication skills.

prereq: COMSC 73300
COMSC 73700 - Clinical Methods in Speech Language Pathology: Developmental Disabilities and AAC

This seminar focuses on knowledge and skills in speech-language pathology related to clinical competence and professionalism, clinical interventions, and clinical research with a focus on Developmental Disabilities (DD) (intellectual disability, autism spectrum disorders, cerebral palsy, and others) & Alternative and Augmentative Communication (AAC). Topics discussed include fundamental principles of assessment, diagnostic intervention planning & implementation, data- collection & interpretation, and follow-up assessment for monitoring progress across the lifespan in individuals with developmental disabilities. Presentation of no-tech (unaided communication), low-tech, mid-tech and high-tech AAC supports will be made available.

COMSC 73800 - Communication and Developmental Disabilities

This course surveys the communication status of individuals with developmental disabilities (i.e., intellectual disability, autism spectrum disorder, and cerebral palsy) with a focus on evidence-based assessment and intervention practices across the life span.

prereq: none
Credits 3

COMSC 73900 - Clinical Practicum in Speech-Language Pathology 2

Second-year spring semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised off-campus clinical practica include experiences with individuals who have speech and language disabilities in early childhood, childhood, middle childhood, adolescence, or adulthood.

prereq: COMSC 72900
coreq: COMSC 73700
Credits 1 cr

COMSC 73904 - Clinical Practicum in Speech-Language Pathology 2

For students in the bilingual extension, designates a special section of COMSC 73900 for practicum with Spanish-speaking children eligible for bilingual services.

prereq: COMSC 72900
coreq: COMSC 73700
Hours 45 hrs,
Credits 3 cr

COMSC 75200 - Audiology for Speech-Language Pathologists
This course provides an overview of topics in audiology that are highly relevant to the professional in speech-language pathology. Specifically, identification, assessment and management of individuals across the life span (newborns through older adults) who have hearing loss and auditory processing disorders and disabilities are topics covered. Particular emphasis will be on the role of speech-language pathologists in aural rehabilitive processes including cochlear implant use and other assistive technologies. Roles and responsibilities of the speech-language pathologist working with professionals in other disciplines as delineated in the Scope of Practice for the profession and the Code of Ethics of the American Speech-Language-Hearing Association are similarly reviewed.

prereq: none
Hours 45
Credits 3

**COMSC 77100 - Summer Clinical Practicum in Speech-Language Pathology 1**

First-year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervisor of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practicum and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood and adolescence, as well as with adults.

prereq: COMSC 77300
Credits 1 cr

**COMSC 77200 - Summer Clinical Practicum in Speech-Language Pathology 2**

Second year summer semester clinical practicum in assessment and management of communication disorders of varying types and severity under the supervision of an ASHA certified and New York State licensed speech-language pathologist. College-supervised on-campus clinical practica and off-campus clinical practica include experiences with students with speech and language disabilities in early childhood, childhood, middle childhood, adolescence, as well as with adults.

prereq: COMSC 77100
Credits 1 cr

**COMSC 78100 - Independent Study**

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

prereq: completion of 24 cr. minimum
Hours Hours to be arranged
Credits 2 cr

**COMSC 78200 - Independent Study**

Limited research review or research study to permit in-depth exploration of single area; with faculty supervision.

prereq: completion of 24 cr. minimum
Hours Hours to be arranged
Credits 2 cr

**COMSC 79000 - Special Topics in Speech-Language Pathology or Audiology**
Programs and Courses in Theatre

Theatre

OVERVIEW

The Hunter College Theatre Department offers students the opportunity to study theatre while exploring New York's vibrant theatre scene. We offer both an MA in Theatre and an MFA in Playwriting. We believe that critical thinking and practical skills nourish each other, and students in both programs can take elective classes in acting, directing and design, in addition to theatre history, literature, and theory. Our accomplished faculty members bring their professional experience as practitioners and scholars outside the college to the classroom. The Department produces one mainstage and several smaller productions each semester, with students taking part in all areas of performance and production.

What can I do with my degree in Theatre?

The MA in Theatre prepares students to teach at all levels, work as a teaching artist or work in a nonprofit in the theatre industry. The MFA in Playwriting prepares a select group of students for professional careers as dramatic writers in theatre, film and television.

Programs and Courses

Programs and Courses in Theatre

Administration and Faculty

Chair:
Faculty

Theatre Faculty

Master's Programs

Playwriting MFA

The program provides ample workshop opportunities and free or affordable tickets to a wide range of New York City productions. The capstone project of the program is the Hunter Play Festival, a week-long workshop with professional actors and a director which culminates in a public reading attended by agents, producers, and directors.

Admissions

Applicants to the Rita and Burton MFA in playwriting are required to have a bachelor's degree; they must submit two letters of recommendation and a full length play or a one act play of at least 40 pages, both as hard copy and as a PDF attachment. An interview is strongly recommended. (Only matriculated students will be eligible to take MFA courses.) Admission will be decided by the Acting Director of the program and the Chair. The deadline for application is January 30.

Degree Requirements

This two year program encourages playwrights to discover and celebrate their unique voice. Towards that end they will be given a thorough grounding in theatre history, dramatic literature, play analysis, and the craft of playwriting as well have the opportunity to take electives in other departments. Well known theatre artists will also be invited in to share their experience and expertise. In conjunction with this academic grounding and focus on individual needs, there will be hands-on workshops in which students learn how to collaborate with actors, directors and designers,
culminating in staged readings and full productions of their plays.

Required Courses (27 credits)

**THC 73100 - MFA Playwriting I: The One-Act Play**

This course is designed for experienced playwrights. Students will complete a ten minute play including three rewrites and a new one act play with three rewrites, with attention to the fundamentals of playwriting: Character, Action, Story, Tone. Readings during the semester

Writing Requirements: A ten-minute play and a one-act play in several drafts, a journal, and other writing exercises.

*prereq or coreq: Pre- and/or Corequisites (and/or other special conditions): Students admitted to the MFA program in Playwriting or by special permission of the Instructor

*Hours 3
*Credits 3

**THC 73200 - MFA Playwriting II: The Full-Length Play**

This course is designed for the experienced playwright. Students will complete a new full-length play including one rewrite with attention to the fundamentals of structure as well as giving freedom to their individual voices and the process of rewriting. Forms of Drama will be discussed. Staged readings at completion of the projects.

Writing Requirements: Students will complete a full-length play in several drafts.

*prereq: (and/or other special conditions):
THC 73100 or permission of instructor.

*Hours 3
*Credits 3

**THC 73300 - MFA Playwriting III: Adaptation**

Students will write a full length play adapted from fact or fiction, including two rewrites. Students will fulfill readings in plays which have been adapted from other mediums. Students will be required to complete oral presentations of one adapted project in dramatic literature. Production at completion of the semester. Students will be required to present a thesis play proposal.

*prereq: THC 73200 or permission of the instructor

*Hours 3
*Credits 3

**THC 73400 - MFA Playwriting IV: Final Script for Production**

Students will complete a Thesis Masterpiece play including rewrites and culminating in a Final Production.
prereq: THC 72100 Playwriting III  
coreq: THC 72400 Production Workshop II

**THC 73500 - MFA Production Workshop I**

Development of new scripts through table work, scene work, culminating in staged readings. Working with a community of artists – directors, actors, and dramaturges – through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, and dramaturges.

The class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting and directing.

prereq: Playwriting II  
coreq: Playwriting III

**THC 73600 - MFA Production Workshop II**

Development of new scripts through table work, scene work, and readings, culminating in works-in-progress performances. Working with a community of artists--directors, actors, designers, and dramaturges--through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, designers, and dramaturges. This class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting, directing, and design.

prereq: THC 72300 Production Workshop I and THC 721 Playwriting III  
coreq: THC 72200 Playwriting IV

**THC 75100 - History of Theatre I**

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 2 hrs, including conferences  
Credits 3 cr*

**THC 75200 - History of Theatre II**

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 2 hrs, including conferences  
Credits 3 cr*

**THC 79000 - Play Analysis**

Study of structural elements of play essential to playwright and director.
Hours 2 hrs, including conferences
Credits 3 cr

Electives (9 credits)

Nine credits are to be chosen from Courses in Theatre

Sample Program of Study

First Semester

THC 75100 - History of Theatre I

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

Hours 2 hrs, including conferences
Credits 3 cr

THC 73100 - MFA Playwriting I: The One-Act Play

This course is designed for experienced playwrights. Students will complete a ten minute play including three rewrites and a new one act play with three rewrites, with attention to the fundamentals of playwriting: Character, Action, Story, Tone. Readings during the semester.

Writing Requirements: A ten-minute play and a one-act play in several drafts, a journal, and other writing exercises.

prereq or coreq: Pre- and/or Corequisites (and/or other special conditions): Students admitted to the MFA program in Playwriting or by special permission of the Instructor

Hours 3
Credits 3

THC elective: select from the following Courses in Theatre

Second Semester

THC 75200 - History of Theatre II

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

Hours 2 hrs, including conferences
Credits 3 cr

THC 73200 - MFA Playwriting II: The Full-Length Play

This course is designed for the experienced playwright. Students will complete a new full-length play including one rewrite with attention to the fundamentals of structure as well as giving freedom to their individual voices and the process of rewriting. Forms of Drama will be discussed. Staged readings at completion of the projects.
Writing Requirements: Students will complete a full-length play in several drafts.

prereq: (and/or other special conditions):
THC 73100 or permission of instructor.

Hours 3
Credits 3

THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

Hours 2 hrs, including conferences
Credits 3 cr

Third Semester

THC 73300 - MFA Playwriting III: Adaptation

Students will write a full length play adapted from fact or fiction, including two rewrites. Students will fulfill readings in plays which have been adapted from other mediums. Students will be required to complete oral presentations of one adapted project in dramatic literature. Production at completion of the semester. Students will be required to present a thesis play proposal.

prereq: THC 73200 or permission of the instructor
Hours 3
Credits 3

THC 73500 - MFA Production Workshop I

Development of new scripts through table work, scene work, culminating in staged readings. Working with a community of artists – directors, actors, and dramaturges – through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, and dramaturges.

The class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting and directing.

prereq: Playwriting II
coreq: Playwriting III

• THC elective or Internship: select from the following Courses in Theatre

Fourth Semester

THC 73400 - MFA Playwriting IV: Final Script for Production
Students will complete a Thesis Masterpiece play including rewrites and culminating in a Final Production.

*prereq: THC 72100 Playwriting III
*coreq: THC 72400 Production Workshop II

**THC 73600 - MFA Production Workshop II**

Development of new scripts through table work, scene work, and readings, culminating in works-in-progress performances. Working with a community of artists—directors, actors, designers, and dramaturges—through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, designers, and dramaturges. This class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting, directing, and design.

*prereq: THC 72300 Production Workshop I and THC 721 Playwriting III
*coreq: THC 72200 Playwriting IV

THC elective or Internship: select from the following Courses in Theatre

**Theatre - MA**

The MA program in theatre is designed to offer concentrated study in the areas of theatre history, theory, and criticism; dramaturgy; production and performance studies. The curriculum integrates theory with practice and accommodates the various backgrounds and career goals of theatre professionals, dramaturgs, and educators. Most students continue professional work or go on to PhD programs. In addition to the permanent faculty, well-known theatre artists, critics, and scholars teach on a part-time basis. Individual counseling is an integral part of the program. Through meetings with the graduate advisor, a program of study that meets each student's needs is developed.

MA students may take MFA Playwriting classes with permission. A one-act play must be submitted for consideration.

**Requirements for Admission**

General admission requirements to the graduate program in the arts and sciences are observed. Applicants with a GPA of 3.4 or higher in theatre history, theory and literary criticism courses, or 6 credits of graduate work with a grade or grades of 3.0 or better need not submit scores on the Graduate Record Examination. An undergraduate theatre major is not needed for admission to the MA program in theatre. Students enter with a wide variety of academic backgrounds.

**Requirements for the Degree**

**Courses**

Each candidate must complete an approved program of study of at least 30 credits, including following. Courses other than those in the Department of Theatre may be applied toward the 30 credits with the approval of the graduate adviser, but may not exceed 9 credits. Not more than 9 credits may be transferred from nonmatriculated to matriculated status.
THC 70200 - History of Theatrical Theory

Historical survey of major theatre theories and theorists from Aristotle to poststructuralism.

*Hours 2 hours, including conferences,  
*Credits 3

THC 75100 - History of Theatre I

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

*Hours 2 hrs, including conferences  
*Credits 3 cr

THC 75200 - History of Theatre II

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 2 hrs, including conferences  
*Credits 3 cr

THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

*Hours 2 hrs, including conferences  
*Credits 3 cr

Examination

The student is required to pass a three-hour comprehensive examination covering general knowledge in theatre history, criticism, and production. The comprehensive exam may be repeated if failed, but may be taken no more than three times. The department no longer requires a proficiency examination in one foreign language.

MA with Honors

**Master's Essay:** Upon completion of the comprehensive examination, the graduate committee will determine which students shall be invited to submit a proposal for a Master's Essay. This decision will be based on academic performance: papers, class participation, and the quality of the comprehensive examination. Honors students must register for THC 79900 - Master's Essay to complete the 30 required credits when the proposal is approved.

THC 79900 - Master's Essay

Individually supervised research and writing of a thesis, leading to graduation with honors.

*Credits 3

Recent Electives
Our course offerings also include a continually changing roster of electives

**Recent Electives:**
- Advanced Directing
- Theatre and the Middle East
- Law and American Drama
- Intercultural Theatre
- Greek Drama
- History of Opera
- Puppetry and Performing Objects On-stage
- Performing Arts of Kerala, India
- Goethe's Faust: Text, Background, Tradition

**THC 70200 - History of Theatrical Theory**

Historical survey of major theatre theories and theorists from Aristotle to poststructuralism.

*Hours 2 hours, including conferences,
Credits 3*

**THC 70500 - Theatre in Society**

Study of influence of social, philosophical, and religious concepts on content and form of modern theatre.

*Hours 2 hrs, including conferences,
Credits 3 cr*

**THC 71000 - Studies in Dramatic Genre**

Theories and changing forms of traditional theatrical genres: tragedy, comedy, tragicomedy, farce, melodrama.

*Hours 2 hrs, including conferences,
Credits 3 cr
May be repeated for credit.

**THC 71100 - Theatre Criticism**

Analysis of practical modern criticism.

*Hours 2 hrs, including conferences
Credits 3 cr*

**THC 72000 - Independent Research**

Directed program of reading, research, or creative presentation under supervision of graduate faculty member.

*prereq: perm instr
Hours Hrs to be arranged.
Credits 3 cr*
THC 72500 - Special Topics

Studies in specialized areas of theatre.

Hours 3 hrs, including conferences,
Credits 3 cr
May be repeated for credit.

THC 73000 - Harold Clurman Seminar in Theatre

A seminar named in honor of Harold Clurman that features guest artists from the professional theatre discussing various aspects of theatre.

Hours 3 hrs, including conferences
Credits 3 cr

THC 73100 - MFA Playwriting I: The One-Act Play

This course is designed for experienced playwrights. Students will complete a ten minute play including three rewrites and a new one act play with three rewrites, with attention to the fundamentals of playwriting: Character, Action, Story, Tone. Readings during the semester

Writing Requirements: A ten-minute play and a one-act play in several drafts, a journal, and other writing exercises.

prereq or coreq: Pre- and/or Corequisites (and/or other special conditions): Students admitted to the MFA program in Playwriting or by special permission of the Instructor

Hours 3
Credits 3

THC 73200 - MFA Playwriting II: The Full-Length Play

This course is designed for the experienced playwright. Students will complete a new full-length play including one rewrite with attention to the fundamentals of structure as well as giving freedom to their individual voices and the process of rewriting. Forms of Drama will be discussed. Staged readings at completion of the projects.

Writing Requirements: Students will complete a full-length play in several drafts.

prereq: (and/or other special conditions):
THC 73100 or permission of instructor.

Hours 3
Credits 3

THC 73300 - MFA Playwriting III: Adaptation

Students will write a full length play adapted from fact or fiction, including two rewrites Students will fulfill readings in plays which have been adapted from other mediums. Students will be required to complete oral presentations of one adapted project in dramatic literature. Production at completion of the semester. Students will be required to present a
thesis play proposal.

prereq: THC 73200 or permission of the instructor
Hours 3
Credits 3

THC 73400 - MFA Playwriting IV: Final Script for Production

Students will complete a Thesis Masterpiece play including rewrites and culminating in a Final Production.

prereq: THC 72100 Playwriting III
coreq: THC 72400 Production Workshop II

THC 73500 - MFA Production Workshop I

Development of new scripts through table work, scene work, culminating in staged readings. Working with a community of artists – directors, actors, and dramaturges – through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, and dramaturges.

The class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting and directing.

prereq: Playwriting II
coreq: Playwriting III

THC 73600 - MFA Production Workshop II

Development of new scripts through table work, scene work, and readings, culminating in works-in-progress performances. Working with a community of artists–directors, actors, designers, and dramaturges--through the various steps in the production process, the playwright will develop the script through rewrites stimulated by the input of actors, directors, designers, and dramaturges. This class will be open for credit to other students in the department who can serve the playwright through dramaturgy, acting, directing, and design.

prereq: THC 72300 Production Workshop I and THC 721 Playwriting III
coreq: THC 72200 Playwriting IV

THC 75100 - History of Theatre I

Study of development of composite arts of theatre and their interaction in production, from origins to 1700.

Hours 2 hrs, including conferences
Credits 3 cr
THC 75200 - History of Theatre II

Study of development of composite arts of theatre and their interaction in production, from 1700 to the present.

*Hours 2 hrs, including conferences*
*Credits 3 cr*

THC 75300 - History of American Theatre

Theatre in United States from Colonial times to present, with emphasis on its importance as a social and cultural force.

*Hours 2 hrs, including conferences*
*Credits 3 cr*

THC 75400 - Contemporary Styles of Production

Theories in style and method of dramatic production.

*Hours 2 hrs, including conferences*
*Credits 3 cr*

THC 75500 - Visual Elements of Theatre I

Study and practice of director's and playwright's conceptual approach to visual requirements of plays.

*Hours 2 hrs, including conferences*
*Credits 3 cr*

THC 75600 - Visual Elements of Theatre II

Study and practice of scene and lighting design with special emphasis on their value to the director as important tools of interpretation.

*prereq: THC 75500*
*Hours 2 hrs, including conferences*
*Credits 3 cr*

THC 75800 - Asian Performance

Study of traditional performance genres in India, China, Japan and Southeast Asia.

*Hours 2 hrs, including conferences*
*Credits 3 cr*

THC 76000 - Studies in Theatre History and Production

Intensive study of history and theory of one of the component arts of theatre. Subjects announced in advance.

*Hours 2 hrs, including conferences*
Credits 3 cr
May be repeated for credit.

THC 76100 - Dramaturgy Research and Case Studies
Consideration of general problems of production research, including its application in rehearsal; specific examples will be analyzed.
Hours 3 hrs, plus hrs to be arranged,
Credits 3 cr

THC 76200 - History of Directing
Seminar on the history of the directing profession, with emphasis on innovative 19th- and 20th-century artists.
Hours 3 hrs
Credits 3 cr

THC 76300 - Dramaturgy Workshop
Workshop in the theory and practice of production dramaturgy emphasizing performance projects conceptualized by students working in director-dramaturgy pairs.
prereq: THC 75100, 75200, 79100, or perm instr
Hours 3 hrs
Credits 3 cr

THC 76400 - Translation Workshop
Workshop in the theory and practice of translating plays. Each student will translate a play or other theatre-related text during the semester.
prereq: perm instr
Hours 3 hrs
Credits 3 cr

THC 76500 - Dramaturgy Practicum
Independent study as a dramaturgy-assistant at a local professional theatre, supervised by a faculty member.
prereq: THC 76100, 76200, 76300, or perm instr
Hours Hrs to be arranged.
Credits 3 cr
May be repeated twice for credit.

THC 78500 - Theories and Styles of Acting
Intensive study in theories and techniques of acting, with emphasis on historical and modern styles.
Hours 3 hrs
Credits 3 cr
THC 79000 - Play Analysis

Study of structural elements of play essential to playwright and director.

*Hours 2 hrs, including conferences
*Credits 3 cr

THC 79100 - Advanced Directing and Rehearsal

Study of problems in play direction, with practice in presentation of scenes and plays.

*Hours 3 hrs
*Credits 3 cr

THC 79200 - Special Problems in Directing

Interrelation of director and playwright through project work on original scripts.

*prereq: THC 79100
*Hours 3 hrs
*Credits 3 cr

THC 79300 - Playwriting I

Study of techniques of playwriting based on student's own work with special emphasis on scenes and one-act form.

*Hours 3 hrs
*Credits 3 cr

THC 79400 - Playwriting II

Writing and criticism of original material with emphasis on full-length form.

*prereq: THC 79300
*Hours 3 hrs
*Credits 3 cr

THC 79500 - Seminar in Playwriting and Directing

Designed for playwrights at work on new scripts and for directors desirous of staging original material.

*prereq: THC 79400 or 79200
*Hours 3 hrs
*Credits 3 cr
*May be repeated for credit.

THC 79600 - Film Writing

Study of problems of writing for film. Students are required to prepare original scripts for class critique.
THC 79900 - Master's Essay

Individually supervised research and writing of a thesis, leading to graduation with honors.

Credits 3

Programs and Courses in Urban Affairs and Planning

Urban Policy and Planning

Overview

The Department of Urban Policy and Planning offers two graduate degrees, an accredited Master of Urban Planning degree, and a Master of Science in Urban Policy and Leadership degree. Both programs combine theory and practice in order to provide students with an in-depth understanding and appreciation of urban planning and policy.

Since its creation by advocacy planner Paul Davidoff, in 1965, the department has consistently upheld a vision of urban policy and planning as multi-disciplinary fields. In keeping with this vision, the department's faculty members represent a wide range of disciplines including architecture, economics, history, political science, public health, public policy, social work, sociology and urban planning. They collectively bring a wealth of academic and professional expertise to their teaching. The programs also benefit greatly from a distinguished part-time faculty who bring practical experience and knowledge in both public and non-profit sectors into the classroom. The programs offer specialized courses in advocacy, comparative politics, economic development, education, governance, health, housing, immigration, infrastructure, policy analysis, public and nonprofit management, sustainability and the environment, transportation and urban design.

What can I do with my degree in Urban Policy and Planning?

Graduates pursue careers in the following areas: urban and regional planning, community planning and advocacy, economic development, environmental planning, transportation and infrastructure development, housing, public policy, and nonprofit management.

Master's Programs

Master of Urban Planning/Juris Doctor

Brooklyn Law School and Hunter Urban Policy & Planning jointly sponsor a program leading to the degrees of Juris Doctor (JD) and Master of Urban Planning (MUP).

Urban planners often turn to the legal profession for implementation of their work, and lawyers seek planners' advice in identifying present and future land use choices and regarding other development issues for public and private clients. Individuals with credentials in both areas are increasingly sought as advisors for urban policy makers and clients with urban land problems. This program is designed to provide students with the knowledge, skills and background necessary to practice both professions.

Students must apply and be accepted to both programs separately. Hunter College admits students for either the fall or spring semester. Students typically spend their first year at BLS, followed by one year at Hunter College, and then the remaining time integrating studies by registering concurrently in both schools. Advisors at both institutions, however, will work directly with individual students to devise the most appropriate plan of study.

Students can pursue an MUP/JD on a full or part-time basis. In the MUP/JD joint program, a student may receive up to 10 of the 86 credits required for the JD degree by successfully completing approved course work in the MUP program. Similarly, a student may receive up to 15 of the 60 credits for the MUP degree by successfully completing approved law school courses. Students enrolled in the law school's full-time program may complete the requirements for both degrees in four to five years, depending on the number of summer courses. If pursued on a part-time basis, the program generally takes five to six years to complete depending on the number of summer courses. With approval, the MUP degree may be awarded in advance of the JD degree; otherwise, degrees are awarded concurrently upon completion of all degree requirements.
Urban Planning - MUP

The Master of Urban Planning program has four integrated components: a core curriculum, an area of concentration, an internship, and a studio. Its purpose is to train planners who, like their counterparts throughout the nation, have general expertise in planning theory and methods, an understanding of urban structure, specialized knowledge of a chosen planning concentration, and the skills and intellectual maturity to operate in the professional arena.

The 54-credit program is structured to provide students with the expertise essential to professional practice and to allow for flexibility to accommodate individual professional and academic aspirations. The core curriculum (21 credits) provides basic training in planning. It has a dual purpose: to place planning in its societal and theoretical context and to teach the skills of the profession. The area of concentration (12 credits) allows for in-depth training in a specific subfield of general planning practice. The studio (6 credits) provides experience in applied planning. Unrestricted electives (12 credits) allow for the exploration of a range of planning topics in elective courses and through independent research.

In organizing their programs, students work closely with faculty advisers. Each student must also take one 3-credit internship. As interns, students may work for city and suburban planning agencies, neighborhood development groups, banks, municipal housing or budgeting units, planning journals, and other groups approved by the department. For many students, field experiences have led to full-time employment in their internship agencies after graduation. In addition, the department has periodic internal work opportunities generated by the faculty, which can count towards the internship requirement. Faculty members routinely include in their research grant proposals funds to support graduate research assistants.

The Hunter College graduate program in urban planning is accredited by the Planning Accreditation Board (PAB), which is the national accrediting body of urban planning degree programs. The PAB is sponsored by the Association of Collegiate Schools of Planning (ACSP), the American Institute of Certified Planners (AICP), and the American Planning Association (APA). Students with multiple professional interests may wish to pursue joint degree programs with other New York universities. For example, a joint master of urban planning/juris doctor, available through a cooperative program with Brooklyn Law School, allows students to earn the two degrees in four years of full-time study.

Admission Requirements

Requirements for Admission to the Planning Program

Traditionally, most applicants come from the social sciences (economics, geography, sociology, political science, and urban and American studies), engineering, and architecture. English majors and students of religion, art history, and business have also enrolled. While many students enter Hunter directly from undergraduate study, a large percentage have spent time away from school and return to develop their knowledge and expertise or to prepare for a new career. Applicants must meet the general admission requirements for Hunter graduate programs, except for the Graduate Record Examination, which is not required. The program requires a minimum GPA of 3.0 (although the program may recommend admission to students with lower GPAs when their GRE scores, documentation of professional experience in the field, or graduate-level academic work document adequate preparation to successfully pursue the degree). These requirements include the submission of transcripts and two letters of recommendation, along with a completed online application form submitted through the Hunter College Graduate Admissions Office. Applicants are encouraged to visit the department during scheduled open house sessions and to contact the program director by e-mail with specific questions. Applicants are also encouraged to reach out to individual faculty members who may share their professional or research interests.

Degree Requirements

Requirements for the Master of Urban Planning
The degree requires 54 credits of graduate study. Of these, 42 must be selected within course offerings of the Hunter College graduate program in urban planning. With the approval of the department, 12 credits may be elected from other graduate programs.

Credits are distributed as follows:

Core Curriculum 21 credits
Area of Concentration 12 credits
Planning Studio 6 credits
Internship 3 credits
Unrestricted Electives 12 credits

Core Curriculum

The core curriculum includes content and courses in four areas: theories and process of urban planning, urban structures, public policy and law, and planning methods and information management. Students must take required courses, except where choices are allowed. The core consists of:

**URBP 70000 - Introduction to Planning**

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy. Also, an introduction to the various planning sub-fields including urban design, land development, economic and community development, housing, environmental planning, transportation planning, and public finance.

*Hours 3  
Credits 3*

**URBP 70100 - History and Theory of Urban Planning**

The study of conscious efforts to guide city development from ancient civilizations to the present, and the evolution of planning theory to guide these actions. Emphasis on the relationship between public and private planning activities and the set of roles available to contemporary planners.

*Hours 3  
Credits 3*

**URBP 71900 - Land Use, People and the Environment**

A comprehensive overview to the theory and practice of land use planning and zoning that sees land as a set of social relations that define the way cities and urban regions develop. Land use planning is placed within larger economic, political, and legal contexts and issues of environmental conservation, environmental justice, air and water quality, public health, energy, infrastructure, and global sustainability.
**URBG 70200 - Structure of the Urban Region**

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

*Hours 45 hrs,
Credits 3 cr*

**URBG 71000 - Urban Data Analysis**

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,
Credits 3 cr*

**URBP 71200 - Methods of Planning Analysis**

Introduction to methods of demographic and economic analysis. Emphasis on applications to current urban planning practice.

*Hours 3
Credits 3*

**Areas of Concentration**

The graduate program offers the following areas of concentration: Community Planning and Advocacy (including Human Services), Sustainability and the Environment, Transportation and Infrastructure, Housing and the Built Environment (including Urban Design and Historic Preservation), Economic Development, and General Practice. Each concentration is designed to give students a working knowledge of specific foci within the field of planning. To fulfill the concentration requirement, students select four courses related to the concentration in consultation with their adviser, from the suggested list. Students with special interests may create their own concentration. In developing their programs, students may combine Hunter courses with the resources of the larger City University community or other approved institutions. Some individually tailored specializations may include Education Planning and Policy, Immigration and Global Change, and Urban Information Systems.

**Representative Courses in the Areas of Concentration**

**Community Planning and Advocacy (including Human Services)**

**URBG 75600 - Citizen Participation in Planning and Development**

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.
URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

Hours 45
Credits 3

URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constrints, suburbanization, and secession and ask, "Is it getting better?"

URBG 76000 - Cities and Health

The course will examine health problems and policy solutions from the perspective of the city, integrating the theory and analytic approaches from the fields of public health and urban planning, through such topics as the historical relationship between public health and urban planning, environmental justice as it relates to urban health, and urban health care systems.

Hours 45
Credits 3

- URBG 787.11 - Homeless Policy
- URBG 787.18 - Political Economy of Cities
- URBG 787.30 - Diversity and the City
- URBG 787.40 - Community Planning in New York City
- URBG 787.62 - Inequality and Poverty in the US

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,
Credits 3 cr

Sustainability and the Environment

URBP 72000 - Law of Land Use Regulation I
Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for controlling urban growth.

**URBP 72200 - Land Use Planning Workshop**

Application of land use planning skills to specific problem in New York metropolitan region. Class operates as team to produce recommendations.

*prereq: URBP 71900 or permission of the instructor*

**URBP 73400 - Environmental Planning**

Study of current and emerging issues in controlling and preventing environmental degradation. Emphasis on administrative and political considerations.

**URBP 73500 - Law of Environmental Planning**

Examination of legal aspects of environmental protection and methods of public intervention. Study of role of law in formulation and implementation of environmental public policy.

**URBG 78700 - Selected Topics in Urban Planning and Urban Affairs**

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

**Transportation and Infrastructure**

**URBP 72600 - Site Planning Workshop**

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.
URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

• URBP 787.38 Public Transportation Planning
• URBP 787.53 Physical Planning of the Waterfront
• Selected Topics in Urban Planning and Urban Policy can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Housing and the Built Environment (including Urban Design and Historic Preservation)

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

URBP 72000 - Law of Land Use Regulation I

Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for controlling urban growth.

URBP 72300 - Introduction to Urban Design

Analysis of three-dimensional urban space by studying methods of visual perception and notation; criteria for determining desirable spatial relationships; and means of implementing policies to achieve urban design goals.
URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

Hours 3 hrs
Credits 3 cr

URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

Hours 3 hrs
Credits 3 cr

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

Hours 45 hrs,
Credits 3 cr

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

Hours 45 hrs,
Credits 3 cr

- URBG 787.01 Housing in the Global City
- URBP 787.1B Urban Spaces and the Public Sphere
- URBP 787.1C Urban Form and Zoning in New York City
- URBP 787.1K Gentrification: Roots and Remedies
- URBG 787.11 Homeless Policy
- URBP 787.12 Regulating Urban Form
- URBP 787.83 Preserving the City
- URBG 787.99 Politics of Gentrification
- Selected Topics in Urban Planning and Urban Policy can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy
Economic Development

URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

Hours 45 hrs, 
Credits 3 cr
Open only to graduate students matriculated in Department of Urban Affairs and Planning

URBG 74200 - Economics of Real Estate Development

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

Hours 45 hrs, 
Credits 3 cr

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 3 hrs 
Credits 3 cr

URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

Hours 45 
Credits 3

- URBG 787.18 - Political Economy of Cities
- URBG 787.30 - Diversity and the City
- URBG 787.62 - Inequality and Poverty in the US
- URBP 787.86 - Revitalizing the City
- URBG 787.88 - Economic Development Workshop
- Selected Topics in Urban Planning and Urban Policy can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs
Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,
Credits 3 cr*

**General Practice**

**URBG 72700 - Introduction to Housing**

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,
Credits 3 cr*

**URBP 73200 - Introduction to Transportation Planning**

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

*Hours 3 hrs
Credits 3 cr*

**URBG 74000 - Planning for Economic Development**

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

*Hours 45 hrs,
Credits 3 cr*

Open only to graduate students matriculated in Department of Urban Affairs and Planning
- URBP 787.17 - Planning for a Sustainable Environment
- Selected Topics in Urban Planning and Urban Policy can be taken to complete the concentration
- URBG 78700 Selected Topics in Urban Planning and Urban Affairs -or- URBP 78700 Selected Topics in Urban Planning and Urban Affairs

**Planning Studio**

To solidify knowledge and skills gained in the core curriculum and other courses, students are required to participate in a 6-credit planning studio. This requirement is satisfied by completion of URBP 73700 (6 credits) or URBP 73800 (Planning Studio I, 3 credits) and URBP 73900 (Planning Studio II, 3 credits), which are taken consecutively. Ordinarily students take the studio course in their second year of study or after completion of at least 27 credits of work.

**Urban Policy and Leadership - MS**
The 36-credit MS in Urban Policy and Leadership contains a flexible curriculum that launches students into the study of cities and the urban environment. The interdisciplinary nature of the program allows students to tailor their education to career aspirations and/or interests of their own choosing. The program is designed to accommodate both full and part-time attendees. It can be completed in either two full semesters and a summer session or over a longer period of time. In combining both theory and practice, the program seeks to foster an understanding of urbanism while teaching practical skills to prepare students to be change-agents in an urban environment.

Our faculty specializes in a diverse range of urban disciplines with expertise and specializations that include: urban planning and international perspectives; history; non-profit management; governance; education; health; housing; immigration; comparative and international perspectives; non-profit management; economic development; community advocacy; transportation; environment; law; and integrated technologies and data science. The program boasts a distinguished part-time faculty, bringing years of practical experience and knowledge in both public and non-profit sectors. It is not uncommon to take courses from high level New York City professionals, practitioners and civic leaders.

Our students are drawn from a diverse population locally, nationally and internationally. While most have been out of college for some time and many are already in the midst of their careers, an increasing number are arriving one or two years out of college. Most plan or are pursuing careers in the public and non-profit sectors. Students may substitute courses from other departments and/or CUNY schools that more appropriately address their substantive interest for the course listed in each of the Required Disciplines.

Students may include a limited number of courses from other departments and/or CUNY schools that address their specific urban interests.

Requirements for Admission to the Master of Science in Urban Policy and Leadership

Applicants must meet Hunter's general graduate admission requirements, except that the Graduate Record Examination is not required. Applicants must present an undergraduate cumulative GPA of at least 3.0, including 12 or more credits in the social sciences or related fields, (although the program may recommend admission of applicants with lower GPAs when their GRE scores, professional experience in the field, or graduate-level academic work documents adequate preparation to successfully pursue the degree).

Requirements for the Master of Science in Urban Policy and Leadership

Core Requirements (12 credits)

URBG 79000 - Urban Development Workshop I

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

prereq: permission of the adviser
Credits 6 cr
URBG 79200 - Urban Affairs Capstone

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

prereq: permission of the director/adviser
Hours 45 hrs,
Credits 3 cr

and either

URBG 70000 - Introduction to Urban Policy Processes

An introduction to policy processes in an urban context with attention to issues of formulation, functionality, evaluation and implementation. This is a core requirement for MS students in the public policy track, and an elective for others.

Hours 3 hrs
Credits 3 cr.

-or-

URBG 70100 - Introduction to Organization and Management for the Public and Non-Profit Sectors

An introduction to organizational structures and theories, with attention to the identification and analysis of management challenges that organizations face when seeking to carry out public purposes in urban settings. This is a core requirement for MS students in the non-profit track, and an elective for others.

Hours 3 hrs
Credits 3 cr.

Political Structure Requirement (3 credits)

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

Hours 45 hrs,
Credits 3 cr

URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constraints, suburbanization, and secession and ask, "Is it getting better?"

URBG 78718 - Political Economy of the City

The course will explore the framework in which urban policy and development occurs in US urban areas. We will explore the 'anatomy' of the city, that is, to what extent is the physical shape of the city influenced by the interaction between the public and private sectors. Cities, of course, are embedded in
larger economic and political settings. Indeed, some would argue that the forces generated in this larger context tend to overwhelm the local political/economic theatre. To this end, the course will examine the extent to which greater national and international political and economic forces impact the shape of cities.

Methods/Skills Requirement (6 credits)

Students must take two of the following Methods/Skills courses

**URBG 71000 - Urban Data Analysis**

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs,*
*Credits 3 cr*

**GTECH 70900 - Introduction to Geographic Information Systems**

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management. MS GeoInformatics students are recommended to take GTECH 71000 at the same time as this course.

*Hours 4*
*Credits 3*
*Material Fee: $15.00*

**URBG 71300 - Introduction to Qualitative Research Methods**

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

*Credits 3*

Specializations (9 credits)

Students choose one 9-credit area of specialization from among: urban policy, non-profits, and neighborhood development. Or, with approval of the program adviser, students may also develop their own specialization.

**Urban Policy**

**URBG 70600 - Introduction to Policy Analysis**

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.
URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

Hours 45 hrs,
Credits 3 cr

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

Hours 45 hrs,
Credits 3 cr

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

Hours 45 hrs,
Credits 3 cr

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 3 hrs
Credits 3 cr

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

Hours 45 hrs,
Credits 3 cr

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

Hours 45 hrs,
Credits 3 cr

URBG 75100 - Educational Planning and Policies
Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

*Hours 45 hrs,*
*Credits 3 cr*
URBG/URBP 78700 special topics course can be taken to fill the concentration.

**Neighborhood Development**

**URBG 70700 - Graphical Communication for Urban Planners**

Introduction to graphical techniques commonly used to facilitate communication of ideas and information among planners and planning-related professionals.

*Hours 45 hrs,*
*Credits 3 cr*

**URBG 72700 - Introduction to Housing**

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,*
*Credits 3 cr*

**URBG 72800 - Housing and Community Development Seminar**

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

*prereq: URBG 72700 or permission of the adviser*
*Hours 45 hrs,*
*Credits 3 cr*

**URBG 74000 - Planning for Economic Development**

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

*Hours 45 hrs,*
*Credits 3 cr*
*Open only to graduate students matriculated in Department of Urban Affairs and Planning*

**URBG 74800 - Management Control of Nonprofit Organizations**

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

*Hours 45 hrs,*
*Credits 3 cr*
URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

Hours 45 hrs,
Credits 3 cr

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

Hours 45 hrs,
Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

Hours 45 hrs,
Credits 3 cr

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

Hours 45 hrs,
Credits 3 cr

URBG/URBP 78700 special topics course can be taken to fill the concentration

Non-Profit Sector

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

Hours 45 hrs,
Credits 3 cr

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 3 hrs
Credits 3 cr
URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

*Hours 45 hrs,
*Credits 3 cr

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

*Hours 45 hrs,
*Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,
*Credits 3 cr

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,
*Credits 3 cr

URBG/URBP 787 Special topics course can be taken to fill the concentration

Unrestricted Electives (6 credits)

In addition, students must complete an additional 6 credits in unrestricted electives.

Total credits required: 36

Additional Courses

A wide variety of courses are offered each semester in the department, including special topics courses to meet the requirements. Students are also encouraged to consult course listings in other departments within Hunter in which to take classes that are in line with their course of study. Up to 9 credits can be taken outside the Department of Urban Policy and Planning, in other departments at Hunter or elsewhere within the CUNY system.

Urban Affairs
URBG 70000 - Introduction to Urban Policy Processes

An introduction to policy processes in an urban context with attention to issues of formulation, functionality, evaluation and implementation. This is a core requirement for MS students in the public policy track, and an elective for others.

Hours 3 hrs
Credits 3 cr.

URBG 70100 - Introduction to Organization and Management for the Public and Non-Profit Sectors

An introduction to organizational structures and theories, with attention to the identification and analysis of management challenges that organizations face when seeking to carry out public purposes in urban settings. This is a core requirement for MS students in the non-profit track, and an elective for others.

Hours 3 hrs
Credits 3 cr.

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

Hours 45 hrs,
Credits 3 cr

URBG 70300 - Demographic Issues in Planning and Development

Survey of current demographic trends including national population growth, age distribution patterns and changes in household composition. Discussion of how patterns relate to planning practice.

Hours 45 hrs,
Credits 3 cr

URBG 70400 - Comparative International Planning

Comparison of approaches to urban planning in developing nations with emphasis on large-scale project planning and management. Focus on development plan as tool for resource allocation and decision-making.

Hours 45 hrs,
Credits 3 cr

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

Hours 45 hrs,
Credits 3 cr
URBG 70700 - Graphical Communication for Urban Planners

Introduction to graphical techniques commonly used to facilitate communication of ideas and information among planners and planning-related professionals.

Hours 45 hrs,
Credits 3 cr

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

Hours 45 hrs,
Credits 3 cr

URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

Credits 3

URBG 71400 - Computer Applications in Planning and Urban Affairs

Review of computers and their roles in urban professions. Survey of spreadsheets, data bases and word-processing programs as well as simple programming, computer mapping and mainframe computers.

Hours 45 hrs,
Credits 3 cr

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

Hours 45 hrs,
Credits 3 cr

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

Hours 45 hrs,
Credits 3 cr
URBG 72800 - Housing and Community Development Seminar

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

prereq: URBG 72700 or permission of the adviser
Hours 45 hrs,
Credits 3 cr

URBG 72900 - International Human Settlements

Review of habitats in urbanized world. Highlight of experience from Third World including squatting, slum upgrading, service delivery, new towns and settlement policies.

Hours 45 hrs,
Credits 3 cr

URBG 73000 - Law of Housing and Urban Development

Focus on legal aspects of key housing and community development policy. Examination of federal and state housing programs, landlord-tenant laws and rent controls.

Hours 45 hrs,
Credits 3 cr

URBG 73700 - Planning Studio

Students synthesize physical, social and economic elements of selected town or city to prepare multi functional plan to guide development.

Hours 90 hours including conferences,
Credits 6 cr

URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

Hours 45 hrs,
Credits 3 cr
Open only to graduate students matriculated in Department of Urban Affairs and Planning

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

Hours 45 hrs,
Credits 3 cr

URBG 74200 - Economics of Real Estate Development
Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

Hours 45 hrs,  
Credits 3 cr

**URBG 74300 - Economic Planning and Policy**

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

Hours 45 hrs,  
Credits 3 cr

**URBG 74800 - Management Control of Nonprofit Organizations**

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

Hours 45 hrs,  
Credits 3 cr

**URBG 74900 - Strategic Planning for Nonprofit Organizations**

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

Hours 45 hrs,  
Credits 3 cr

**URBG 75000 - Social Planning and Policy**

Examination of major social problems facing urban planners. Review of social planning theories and methods.

Hours 45 hrs,  
Credits 3 cr

**URBG 75100 - Educational Planning and Policies**

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

Hours 45 hrs,  
Credits 3 cr

**URBG 75500 - Planning for Community Development and Implementation**

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.
URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constraints, suburbanization, and secession and ask, "Is it getting better?"

URBG 77500 - Urban Affairs Internship Seminar

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: permission of the adviser

Hours 45 hrs, 
Credits 3 cr

URBG 77600 - Internship

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: URBG 77500 permission of the adviser

Hours 45 hrs, 
Credits 3 cr

URBG 77700 - Internship

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

prereq: URBG 77500 permission of the adviser

Hours 45 hrs, 
Credits 3 cr

URBG 77800 - Internship

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.
URBG 77500 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation; gender, power and community; community capacity building; and advocacy.

Hours 45 hrs,
Credits 3 cr

URBG 78700 - Political Economy of the City

The course will explore the framework in which urban policy and development occurs in US urban areas. We will explore the 'anatomy' of the city, that is, to what extent is the physical shape of the city influenced by the interaction between the public and private sectors. Cities, of course, are embedded in larger economic and political settings. Indeed, some would argue that the forces generated in this larger context tend to overwhelm the local political/economic theatre. To this end, the course will examine the extent to which greater national and international political and economic forces impact the shape of cities.

URBG 79000 - Urban Development Workshop I

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

prereq: permission of the adviser
Credits 6 cr

URBG 79100 - Grantwriting and Fundraising Practicum

Focus on problem-solving skills used to resolve crucial issues in urban community; program development procedures including program planning, strategizing, implementation, administration and funding. Students work with selected organizational and community concerns as consultants-in-training.

prereq: permission of the adviser
Hours 45 hrs,
Credits 3 cr

URBG 79200 - Urban Affairs Capstone

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

prereq: permission of the director/adviser
Hours 45 hrs,
Credits 3 cr
Urban Planning

URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

Hours 45
Credits 3

URBG 76000 - Cities and Health

The course will examine health problems and policy solutions from the perspective of the city, integrating the theory and analytic approaches from the fields of public health and urban planning, through such topics as the historical relationship between public health and urban planning, environmental justice as it relates to urban health, and urban health care systems.

Hours 45
Credits 3

URBP 70000 - Introduction to Planning

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy. Also, an introduction to the various planning sub-fields including urban design, land development, economic and community development, housing, environmental planning, transportation planning, and public finance.

Hours 3
Credits 3

URBP 70100 - History and Theory of Urban Planning

The study of conscious efforts to guide city development from ancient civilizations to the present, and the evolution of planning theory to guide these actions. Emphasis on the relationship between public and private planning activities and the set of roles available to contemporary planners.

Hours 3
Credits 3

URBP 70500 - Introduction to the Planning Process

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy.

Hours 3
Credits 3
URBP 71100 - Planning Information

Survey of public and private data bases available to planners focusing on traditional and nontraditional sources. Exploration of utilization and implications of data.

Hours 3  
Credits 3

URBP 71200 - Methods of Planning Analysis

Introduction to methods of demographic and economic analysis. Emphasis on applications to current urban planning practice.

Hours 3  
Credits 3

URBP 71300 - Planning Methods for Optimization and Decision-making

Introduction to quantitative techniques for optimization and decision-making. Applications of techniques in planning contexts.

Hours 3  
Credits 3

URBP 71600 - Participatory Planning Using GIS and the Internet

Understanding complexities associated with using GIS and other digital technologies in community organizing and urban development; intensive lab-based course

prereq: GTECH 71000 or perm instr.  
Credits 3

URBP 71900 - Land Use, People and the Environment

A comprehensive overview to the theory and practice of land use planning and zoning that sees land as a set of social relations that define the way cities and urban regions develop. Land use planning is placed within larger economic, political, and legal contexts and issues of environmental conservation, environmental justice, air and water quality, public health, energy, infrastructure, and global sustainability.

Hours 3  
Credits 3

URBP 72000 - Law of Land Use Regulation I

Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for controlling urban growth.
**URBP 72100 - Law of Land Use Regulation II**

Focus on inclusionary and exclusionary zoning; growth management; aesthetics and historic preservation; transfer of development rights; regional and state planning and development control; and tax policies and land use control.

*prereq: URBP 72000

**URBP 72200 - Land Use Planning Workshop**

Application of land use planning skills to specific problem in New York metropolitan region. Class operates as team to produce recommendations.

*prereq: URBP 71900 or permission of the instructor

**URBP 72300 - Introduction to Urban Design**

Analysis of three-dimensional urban space by studying methods of visual perception and notation; criteria for determining desirable spatial relationships; and means of implementing policies to achieve urban design goals.

**URBP 72400 - Urban Design Workshop**

Application of urban design concepts in studio setting to develop design solutions for typical physical planning problems.

*prereq: URBP 72300 or permission of the instructor

**URBP 72600 - Site Planning Workshop**

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

**URBP 73100 - Neighborhood Planning Workshop**

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.
prereq: URBG 72700 or permission of the instructor

Hours 3 hrs
Credits 3 cr

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

Hours 3 hrs
Credits 3 cr

URBP 73300 - Transportation Planning Methods and Models

Review of variety of transportation planning tools including highway capacity calculations, transportation impact studies, models of trip generation, trip distribution, modal split and network assignments. Presentation of related microcomputer software.

prereq: permission of the instructor

Hours 3 hrs
Credits 3 cr

URBP 73400 - Environmental Planning

Study of current and emerging issues in controlling and preventing environmental degradation. Emphasis on administrative and political considerations.

Hours 3 hrs
Credits 3 cr

URBP 73500 - Law of Environmental Planning

Examination of legal aspects of environmental protection and methods of public intervention. Study of role of law in formulation and implementation of environmental public policy.

Hours 3 hrs
Credits 3 cr

URBP 73600 - Energy Planning and Policy Seminar

Introduction to conceptual and operational aspects of plans and policies promoting the efficient use of energy in urban communities. Review of national and global energy markets and appropriate responses in transportation, housing, land use and related areas.

Hours 3 hrs
Credits 3 cr

URBP 73700 - Planning Studio

Students synthesize physical, social and economic elements of selected town or city to prepare multifunctional plan to guide development.
Hours 6 including conferences  
Credits 6

URBP 73800 - Planning Studio I

Students work with a client organization to synthesize physical, social and economic elements of a selected neighborhood, town or city. This information is utilized in URBP 73900 to prepare a multifunctional plan to guide development and the fulfillment of needs.

Credits 3

URBP 73900 - Planning Studio II

Students work with a client organization to synthesize physical, social and economic elements of a selected neighborhood, town or city. This information is utilized in URBP 73800 to prepare a multifunctional plan to guide development and the fulfillment of needs.

Credits 3

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 3 hrs  
Credits 3 cr

URBP 78000 - Independent Research

Supervised study of topics of special interest to advanced students.

Hours 3 hrs  
Credits 3 cr  
Students may not take more than 3 credits of Independent Research per semester.

URBP 78100 - Independent Research

Supervised study of topics of special interest to advanced students.

Hours 3 hrs  
Credits 3 cr  
Students may not take more than 3 credits of Independent Research per semester.

URBP 78200 - Independent Research

Supervised study of topics of special interest to advanced students.
URBP 78300 - Independent Research

Supervised study of topics of special interest to advanced students.

**Hours** 3 hrs
**Credits** 3 cr
Students may not take more than 3 credits of Independent Research per semester.

URBP 78400 - Independent Study

Supervised study of topics of special interest to advanced students.

Credits 1 cr
Students may not take more than 3 credits of Independent Research per semester.

URBP 78500 - Independent Study

Supervised study of topics of special interest to advanced students. Students may not take more than 3 credits of Independent Study per semester.

Credits 2 cr
Students may not take more than 3 credits of Independent Research per semester.

URBP 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Cross-listed URBG 78700

Programs and Courses in Urban Policy and Planning

Joint Program

- MS Nursing Administration/MS Urban Policy and Leadership Dual Degree Program

Urban Policy and Planning

Overview
The Department of Urban Policy and Planning offers two graduate degrees, an accredited Master of Urban Planning degree, and a Master of Science in Urban Policy and Leadership degree. Both programs combine theory and practice in order to provide students with an in-depth understanding and appreciation of urban planning and policy.

Since its creation by advocacy planner Paul Davidoff, in 1965, the department has consistently upheld a vision of urban policy and planning as multi-disciplinary fields. In keeping with this vision, the department's faculty members represent a wide range of disciplines including architecture, economics, history, political science, public health, public policy, social work, sociology and urban planning. They collectively bring a wealth of academic and professional expertise to their teaching. The programs also benefit greatly from a distinguished part-time faculty who bring practical experience and knowledge in both public and non-profit sectors into the classroom. The programs offer specialized courses in advocacy, comparative politics, economic development, education, governance, health, housing, immigration, infrastructure, policy analysis, public and nonprofit management, sustainability and the environment, transportation and urban design.

**What can I do with my degree in Urban Policy and Planning?**

Graduates pursue careers in the following areas: urban and regional planning, community planning and advocacy, economic development, environmental planning, transportation and infrastructure development, housing, public policy, and nonprofit management.

Master's Programs

Master of Urban Planning/Juris Doctor

Brooklyn Law School and Hunter Urban Policy & Planning jointly sponsor a program leading to the degrees of Juris Doctor (JD) and Master of Urban Planning (MUP).

Urban planners often turn to the legal profession for implementation of their work, and lawyers seek planners' advice in identifying present and future land use choices and regarding other development issues for public and private clients. Individuals with credentials in both areas are increasingly sought as advisors for urban policy makers and clients with urban land problems. This program is designed to provide students with the knowledge, skills and background necessary to practice both professions.

Students must be apply and be accepted to both programs separately. Hunter College admits students for either the fall or spring semester. Students typically spend their first year at BLS, followed by one year at Hunter College, and then the remaining time integrating studies by registering concurrently in both schools. Advisors at both institutions, however, will work directly with individual students to devise the most appropriate plan of study.

Students can pursue an MUP/JD on a full or part-time basis. In the MUP/JD joint program, a student may receive up to 10 of the 86 credits required for the JD degree by successfully completing approved course work in the MUP program. Similarly, a student may receive up to 15 of the 60 credits for the MUP degree by successfully completing approved law school courses. Students enrolled in the law school's full-time program may complete the requirements for both degrees in four to five years, depending on the number of summer courses. If pursued on a part-time basis, the program generally takes five to six years to complete depending on the number of summer courses. With approval, the MUP degree may be awarded in advance of the JD degree; otherwise, degrees are awarded concurrently upon completion of all degree requirements.

Urban Planning - MUP

The Master of Urban Planning program has four integrated components: a core curriculum, an area of concentration, an internship, and a studio. Its purpose is to train planners who, like their counterparts throughout the nation, have general expertise in planning theory and methods, an understanding of urban structure, specialized knowledge of a chosen planning concentration, and the skills and intellectual maturity to operate in the professional arena.

The 54-credit program is structured to provide students with the expertise essential to professional practice and to allow for flexibility to accommodate individual professional and academic aspirations. The core curriculum (21 credits) provides basic training in planning. It has a dual purpose: to place planning in its societal and theoretical context and to teach the skills of the profession. The area of concentration (12 credits) allows for in-depth training in a specific subfield of general planning practice. The studio (6 credits) provides experience in applied planning. Unrestricted electives (12 credits) allow for the exploration of a range of planning topics in elective courses and through independent research.

In organizing their programs, students work closely with faculty advisers. Each student must also take one 3-credit internship. As interns, students may work for city and suburban planning agencies, neighborhood development groups, banks, municipal housing or budgeting units, planning journals, and other groups approved by the department. For many students, field experiences have led to full-time employment in their internship agencies after graduation. In addition, the department has periodic internal work opportunities generated by the faculty, which can count towards the
internship requirement. Faculty members routinely include in their research grant proposals funds to support graduate research assistants.

The Hunter College graduate program in urban planning is accredited by the Planning Accreditation Board (PAB), which is the national accrediting body of urban planning degree programs. The PAB is sponsored by the Association of Collegiate Schools of Planning (ACSP), the American Institute of Certified Planners (AICP), and the American Planning Association (APA). Students with multiple professional interests may wish to pursue joint degree programs with other New York universities. For example, a joint master of urban planning/juris doctor, available through a cooperative program with Brooklyn Law School, allows students to earn the two degrees in four years of full-time study.

Admission Requirements

Requirements for Admission to the Planning Program

Traditionally, most applicants come from the social sciences (economics, geography, sociology, political science, and urban and American studies), engineering, and architecture. English majors and students of religion, art history, and business have also enrolled. While many students enter Hunter directly from undergraduate study, a large percentage have spent time away from school and return to develop their knowledge and expertise or to prepare for a new career. Applicants must meet the general admission requirements for Hunter graduate programs, except for the Graduate Record Examination, which is not required. The program requires a minimum GPA of 3.0 (although the program may recommend admission to students with lower GPAs when their GRE scores, documentation of professional experience in the field, or graduate-level academic work document adequate preparation to successfully pursue the degree). These requirements include the submission of transcripts and two letters of recommendation, along with a completed online application form submitted through the Hunter College Graduate Admissions Office. Applicants are encouraged to visit the department during scheduled open house sessions and to contact the program director by e-mail with specific questions. Applicants are also encouraged to reach out to individual faculty members who may share their professional or research interests.

Degree Requirements

Requirements for the Master of Urban Planning

The degree requires 54 credits of graduate study. Of these, 42 must be selected within course offerings of the Hunter College graduate program in urban planning. With the approval of the department, 12 credits may be elected from other graduate programs.

Credits are distributed as follows:

Core Curriculum 21 credits
Area of Concentration 12 credits
Planning Studio 6 credits
Internship 3 credits
Unrestricted Electives 12 credits

Core Curriculum
The core curriculum includes content and courses in four areas: theories and process of urban planning, urban structures, public policy and law, and planning methods and information management. Students must take required courses, except where choices are allowed. The core consists of:

**URBP 70000 - Introduction to Planning**

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy. Also, an introduction to the various planning sub-fields including urban design, land development, economic and community development, housing, environmental planning, transportation planning, and public finance.

*Hours 3*
*Credits 3*

**URBP 70100 - History and Theory of Urban Planning**

The study of conscious efforts to guide city development from ancient civilizations to the present, and the evolution of planning theory to guide these actions. Emphasis on the relationship between public and private planning activities and the set of roles available to contemporary planners.

*Hours 3*
*Credits 3*

**URBP 71900 - Land Use, People and the Environment**

A comprehensive overview to the theory and practice of land use planning and zoning that sees land as a set of social relations that define the way cities and urban regions develop. Land use planning is placed within larger economic, political, and legal contexts and issues of environmental conservation, environmental justice, air and water quality, public health, energy, infrastructure, and global sustainability.

*Hours 3*
*Credits 3*

**URBG 70200 - Structure of the Urban Region**

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

*Hours 45 hrs, 
Credits 3 cr*

**URBG 71000 - Urban Data Analysis**

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

*Hours 45 hrs, 
Credits 3 cr*
**URBP 71200 - Methods of Planning Analysis**

Introduction to methods of demographic and economic analysis. Emphasis on applications to current urban planning practice.

*Hours 3  
Credits 3*

**Areas of Concentration**

The graduate program offers the following areas of concentration: Community Planning and Advocacy (including Human Services), Sustainability and the Environment, Transportation and Infrastructure, Housing and the Built Environment (including Urban Design and Historic Preservation), Economic Development, and General Practice. Each concentration is designed to give students a working knowledge of specific foci within the field of planning. To fulfill the concentration requirement, students select four courses related to the concentration in consultation with their adviser, from the suggested list. Students with special interests may create their own concentration. In developing their programs, students may combine Hunter courses with the resources of the larger City University community or other approved institutions. Some individually tailored specializations may include Education Planning and Policy, Immigration and Global Change, and Urban Information Systems.

**Representative Courses in the Areas of Concentration**

**Community Planning and Advocacy (including Human Services)**

**URBG 75600 - Citizen Participation in Planning and Development**

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,  
Credits 3 cr*

**URBG 75700 - Politics of Education**

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

*Hours 45  
Credits 3*

**URBG 75800 - Governing the City**

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constrints, suburbanization, and secession and ask, "Is it getting better?"
URBG 76000 - Cities and Health

The course will examine health problems and policy solutions from the perspective of the city, integrating the theory and analytic approaches from the fields of public health and urban planning, through such topics as the historical relationship between public health and urban planning, environmental justice as it relates to urban health, and urban health care systems.

Hours 45
Credits 3

- URGB 787.11 - Homeless Policy
- URGB 787.18 - Political Economy of Cities
- URGB 787.30 - Diversity and the City
- URGB 787.40 - Community Planning in New York City
- URGB 787.62 - Inequality and Poverty in the US

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,
Credits 3 cr

Sustainability and the Environment

URBP 72000 - Law of Land Use Regulation I

Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for controlling urban growth.

Hours 3
Credits 3

URBP 72200 - Land Use Planning Workshop

Application of land use planning skills to specific problem in New York metropolitan region. Class operates as team to produce recommendations.

prereq: URGB 71900 or permission of the instructor
Hours 3 hrs
Credits 3 cr

URBP 73400 - Environmental Planning

Study of current and emerging issues in controlling and preventing environmental degradation. Emphasis on administrative and political considerations.
URBP 73500 - Law of Environmental Planning

Examination of legal aspects of environmental protection and methods of public intervention. Study of role of law in formulation and implementation of environmental public policy.

Hours 3 hrs
Credits 3 cr

- URBP 787.17 - Planning for a Sustainable Environment
- URBG 787.71 - Environmental Justice

Selected Topics in Urban Planning and Urban Affairs can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Hours 45 hrs,
Credits 3 cr

Transportation and Infrastructure

URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

Hours 3 hrs
Credits 3 cr

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

Hours 3 hrs
Credits 3 cr

- URBP 787.38 Public Transportation Planning
- URBG 787.53 Physical Planning of the Waterfront
- Selected Topics in Urban Planning and Urban Policy can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and
advocacy

*Hours 45 hrs,  
Credits 3 cr*

**Housing and the Built Environment (including Urban Design and Historic Preservation)**

**URBG 70200 - Structure of the Urban Region**

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

*Hours 45 hrs,  
Credits 3 cr*

**URBP 72000 - Law of Land Use Regulation I**

Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for controlling urban growth.

*Hours 3  
Credits 3*

**URBP 72300 - Introduction to Urban Design**

Analysis of three-dimensional urban space by studying methods of visual perception and notation; criteria for determining desirable spatial relationships; and means of implementing policies to achieve urban design goals.

*Hours 3 hrs  
Credits 3 cr*

**URBG 72500 - Infrastructure and Site Planning**

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

*Hours 45 hrs,  
Credits 3 cr*

**URBP 72600 - Site Planning Workshop**

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

*Hours 3 hrs  
Credits 3 cr*

**URBG 72700 - Introduction to Housing**
Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,
* **Credits 3 cr**

**URBG 74200 - Economics of Real Estate Development**

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

*Hours 45 hrs,
* **Credits 3 cr**

- URGB 787.01 Housing in the Global City
- URGB 787.1B Urban Spaces and the Public Sphere
- URGB 787.1C Urban Form and Zoning in New York City
- URGB 787.1K Gentrification: Roots and Remedies
- URGB 787.11 Homeless Policy
- URGB 787.12 Regulating Urban Form
- URGB 787.83 Preserving the City
- URGB 787.99 Politics of Gentrification
- Selected Topics in Urban Planning and Urban Policy can be taken to complete the concentration

**URBG 78700 - Selected Topics in Urban Planning and Urban Affairs**

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,
* **Credits 3 cr**

**Economic Development**

**URBG 74000 - Planning for Economic Development**

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

*Hours 45 hrs,
* **Credits 3 cr**

*Open only to graduate students matriculated in Department of Urban Affairs and Planning*

**URBG 74200 - Economics of Real Estate Development**

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

*Hours 45 hrs,
* **Credits 3 cr**
URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

*Hours 3 hrs
*Credits 3 cr

URBG 75700 - Politics of Education

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

*Hours 45
*Credits 3

- URBG 787.18 - Political Economy of Cities
- URBG 787.30 - Diversity and the City
- URBG 787.62 - Inequality and Poverty in the US
- URBP 787.86 - Revitalizing the City
- URBG 787.88 - Economic Development Workshop
- Selected Topics in Urban Planning and Urban Policy can be taken to complete the concentration

URBG 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

*Hours 45 hrs,
*Credits 3 cr

General Practice

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

*Hours 45 hrs,
*Credits 3 cr

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.
**URBG 74000 - Planning for Economic Development**

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

*Hours 45 hrs,
Credits 3 cr*

Open only to graduate students matriculated in Department of Urban Affairs and Planning

- URBP 787.17 - Planning for a Sustainable Environment
- Selected Topics in Urban Planning and Urban Policy can be taken to complete the concentration
- URBG 78700 Selected Topics in Urban Planning and Urban Affairs -or- URBP 78700 Selected Topics in Urban Planning and Urban Affairs

**Planning Studio**

To solidify knowledge and skills gained in the core curriculum and other courses, students are required to participate in a 6-credit planning studio. This requirement is satisfied by completion of URBP 73700 (6 credits) or URBP 73800 (Planning Studio I, 3 credits) and URBP 73900 (Planning Studio II, 3 credits), which are taken consecutively. Ordinarily students take the studio course in their second year of study or after completion of at least 27 credits of work.

**Urban Policy and Leadership - MS**

The 36-credit MS in Urban Policy and Leadership contains a flexible curriculum that launches students into the study of cities and the urban environment. The interdisciplinary nature of the program allows students to tailor their education to career aspirations and/or interests of their own choosing. The program is designed to accommodate both full and part time attendees. It can be completed in either two full semesters and a summer session or over a longer period of time. In combining both theory and practice, the program seeks to foster an understanding of urbanism while teaching practical skills to prepare students to be change-agents in an urban environment.

Our faculty specializes in a diverse range of urban disciplines with expertise and specializations that include: urban planning and international perspectives, history, non-profit management, governance, education, health, housing, immigration, comparative and international perspectives, non-profit management, economic development, community advocacy, transportation, environment, law, and integrated technologies and data science. The program boasts a distinguished part-time faculty, bringing years of practical experience and knowledge in both public and non-profit sectors. It is not uncommon to take courses from high level New York City professionals, practitioners and civic leaders.

Our students are drawn from a diverse population locally, nationally and internationally. While most have been out of college for some time and many are already in the midst of their careers, an increasing number are arriving one or two years out of college. Most plan or are pursuing careers in the public and non-profit sectors. Students may substitute courses from other departments and/or CUNY schools that more appropriately address their substantive interest for the course listed in each of the Required Disciplines.

Students may include a limited number of courses from other departments and/or CUNY schools that address their specific urban interests.
Requirements for Admission to the Master of Science in Urban Policy and Leadership

Applicants must meet Hunter's general graduate admission requirements, except that the Graduate Record Examination is not required. Applicants must present an undergraduate cumulative GPA of at least 3.0, including 12 or more credits in the social sciences or related fields, (although the program may recommend admission of applicants with lower GPAs when their GRE scores, professional experience in the field, or graduate-level academic work documents adequate preparation to successfully pursue the degree).

Requirements for the Master of Science in Urban Policy and Leadership

Core Requirements (12 credits)

**URBG 79000 - Urban Development Workshop I**

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

*prereq: permission of the adviser*

Credits 6 cr

**URBG 79200 - Urban Affairs Capstone**

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

*prereq: permission of the director/adviser*

*Hours 45 hrs,*

Credits 3 cr

and either

**URBG 70000 - Introduction to Urban Policy Processes**

An introduction to policy processes in an urban context with attention to issues of formulation, functionality, evaluation and implementation. This is a core requirement for MS students in the public policy track, and an elective for others.

*Hours 3 hrs*

Credits 3 cr.

-or-

**URBG 70100 - Introduction to Organization and Management for the Public and Non-Profit Sectors**

An introduction to organizational structures and theories, with attention to the identification and analysis of management challenges that organizations face when seeking to carry out public purposes in urban settings. This is a core requirement for MS students in the non-profit track, and an elective for others.
Political Structure Requirement (3 credits)

URBG 70200 - Structure of the Urban Region

Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constricts, suburbanization, and secession and ask, "Is it getting better?"

URBG 78718 - Political Economy of the City

The course will explore the framework in which urban policy and development occurs in US urban areas. We will explore the 'anatomy' of the city, that is, to what extent is the physical shape of the city influenced by the interaction between the public and private sectors. Cities, of course, are embedded in larger economic and political settings. Indeed, some would argue that the forces generated in this larger context tend to overwhelm the local political/economic theatre. To this end, the course will examine the extent to which greater national and international political and economic forces impact the shape of cities.

Methods/Skills Requirement (6 credits)

Students must take two of the following Methods/Skills courses

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

GTECH 70900 - Introduction to Geographic Information Systems

Thorough introduction to geographic information systems (GIS) using multiple desktop and web-based GIS with an emphasis on spatial data handling and project management. MS GeoInformatics students are recommended to take GTECH 71000 at the same time as this course.
URBG 71300 - Introduction to Qualitative Research Methods

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.

Credits 3

Specializations (9 credits)

Students choose one 9-credit area of specialization from among: urban policy, non-profits, and neighborhood development. Or, with approval of the program adviser, students may also develop their own specialization.

Urban Policy

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

Hours 45 hrs,
Credits 3 cr

URBG 71000 - Urban Data Analysis

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

Hours 45 hrs,
Credits 3 cr

URBG 74100 - Employment Planning and Policies

Examination of structural changes in American economy and the implications for public policy and planning.

Hours 45 hrs,
Credits 3 cr

URBG 74300 - Economic Planning and Policy

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.
**URBP 74700 - Planning in the Budget Process**

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

*Hours 3 hrs  
Credits 3 cr*

**URBG 74800 - Management Control of Nonprofit Organizations**

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

*Hours 45 hrs  
Credits 3 cr*

**URBG 75000 - Social Planning and Policy**

Examination of major social problems facing urban planners. Review of social planning theories and methods.

*Hours 45 hrs  
Credits 3 cr*

**URBG 75100 - Educational Planning and Policies**

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

*Hours 45 hrs  
Credits 3 cr*

URBG/URBP 78700 special topics course can be taken to fill the concentration.

Neighborhood Development

**URBG 70700 - Graphical Communication for Urban Planners**

Introduction to graphical techniques commonly used to facilitate communication of ideas and information among planners and planning-related professionals.

*Hours 45 hrs  
Credits 3 cr*

**URBG 72700 - Introduction to Housing**

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.
URBG 72800 - Housing and Community Development Seminar

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

_prereq: URBG 72700 or permission of the adviser

Hours 45 hrs,
Credits 3 cr

URBG 74000 - Planning for Economic Development

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

Hours 45 hrs,
Credits 3 cr
Open only to graduate students matriculated in Department of Urban Affairs and Planning

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

Hours 45 hrs,
Credits 3 cr

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

Hours 45 hrs,
Credits 3 cr

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

Hours 45 hrs,
Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

Hours 45 hrs,
Credits 3 cr
URBG 76500 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

Hours 45 hrs,
Credits 3 cr

URBG/URBP 78700 special topics course can be taken to fill the concentration

Non-Profit Sector

URBG 70600 - Introduction to Policy Analysis

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

Hours 45 hrs,
Credits 3 cr

URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 3 hrs
Credits 3 cr

URBG 74800 - Management Control of Nonprofit Organizations

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

Hours 45 hrs,
Credits 3 cr

URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

Hours 45 hrs,
Credits 3 cr

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.
URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

URBG/URBP 787 Special topics course can be taken to fill the concentration

Unrestricted Electives (6 credits)

In addition, students must complete an additional 6 credits in unrestricted electives.

Total credits required: 36

Additional Courses

A wide variety of courses are offered each semester in the department, including special topics courses to meet the requirements. Students are also encouraged to consult course listings in other departments within Hunter in which to take classes that are in line with their course of study. Up to 9 credits can be taken outside the Department of Urban Policy and Planning, in other departments at Hunter or elsewhere within the CUNY system.

Urban Affairs

URBG 70000 - Introduction to Urban Policy Processes

An introduction to policy processes in an urban context with attention to issues of formulation, functionality, evaluation and implementation. This is a core requirement for MS students in the public policy track, and an elective for others.

URBG 70100 - Introduction to Organization and Management for the Public and Non-Profit Sectors

An introduction to organizational structures and theories, with attention to the identification and analysis of management challenges that organizations face when seeking to carry out public purposes in urban settings. This is a core requirement for MS students in the non-profit track, and an elective for others.

URBG 70200 - Structure of the Urban Region
Examination of economic, social, demographic, spatial and political structures of typical American metropolitan areas. Integration of concepts and models from social sciences with discussion of current trends and problems.

Hours 45 hrs,  
Credits 3 cr

**URBG 70300 - Demographic Issues in Planning and Development**

Survey of current demographic trends including national population growth, age distribution patterns and changes in household composition. Discussion of how patterns relate to planning practice.

Hours 45 hrs,  
Credits 3 cr

**URBG 70400 - Comparative International Planning**

Comparison of approaches to urban planning in developing nations with emphasis on large-scale project planning and management. Focus on development plan as tool for resource allocation and decision-making.

Hours 45 hrs,  
Credits 3 cr

**URBG 70600 - Introduction to Policy Analysis**

Examination of conceptual and analytical processes leading to design, selection and implementation of public policies dealing with urban problems.

Hours 45 hrs,  
Credits 3 cr

**URBG 70700 - Graphical Communication for Urban Planners**

Introduction to graphical techniques commonly used to facilitate communication of ideas and information among planners and planning-related professionals.

Hours 45 hrs,  
Credits 3 cr

**URBG 71000 - Urban Data Analysis**

Introduction to basic statistical concepts used in urban research. Emphasis on application of concepts in typical urban planning and policy contexts.

Hours 45 hrs,  
Credits 3 cr

**URBG 71300 - Introduction to Qualitative Research Methods**

Introduction to both qualitative research methodologies and methods, key social science research design components, and specific qualitative research strategies such as participant observation, case study, interview, focus group, discourse analysis, life histories, and archival research.
Credits 3

URBG 71400 - Computer Applications in Planning and Urban Affairs

Review of computers and their roles in urban professions. Survey of spreadsheets, data bases and word-processing programs as well as simple programming, computer mapping and mainframe computers.

Hours 45 hrs,
Credits 3 cr

URBG 72500 - Infrastructure and Site Planning

Introduction to installed infrastructure systems (water supply, sewage, roadways, etc.) and physical aspects of site development (surveying, landscaping, facilities design, environmental concerns).

Hours 45 hrs,
Credits 3 cr

URBG 72700 - Introduction to Housing

Introduction to facets of housing market. Examination of determinants of supply and demand, finance and public programs influencing cost of housing.

Hours 45 hrs,
Credits 3 cr

URBG 72800 - Housing and Community Development Seminar

Study and evaluation of public sector activities in housing market. Focus on critical housing and community development legislation and analysis of financing techniques used to stimulate private housing production.

prereq: URBG 72700 or permission of the adviser

Hours 45 hrs,
Credits 3 cr

URBG 72900 - International Human Settlements

Review of habitats in urbanized world. Highlight of experience from Third World including squatting, slum upgrading, service delivery, new towns and settlement policies.

Hours 45 hrs,
Credits 3 cr

URBG 73000 - Law of Housing and Urban Development

Focus on legal aspects of key housing and community development policy. Examination of federal and state housing programs, landlord-tenant laws and rent controls.
URBG 73700 - Planning Studio

Students synthesize physical, social and economic elements of selected town or city to prepare multi functional plan to guide development.

**Hours** 45 hrs,
**Credits** 3 cr

**URBG 74000 - Planning for Economic Development**

Introduction to theoretical, conceptual and operational aspects of promoting economic development in urban communities.

**Hours** 45 hrs,
**Credits** 3 cr
Open only to graduate students matriculated in Department of Urban Affairs and Planning

**URBG 74100 - Employment Planning and Policies**

Examination of structural changes in American economy and the implications for public policy and planning.

**Hours** 45 hrs,
**Credits** 3 cr

**URBG 74200 - Economics of Real Estate Development**

Review of economic aspects of real estate investment and development including real estate market determinants; real estate finance, location evaluation and investment analysis as affected by public sector regulation and taxation.

**Hours** 45 hrs,
**Credits** 3 cr

**URBG 74300 - Economic Planning and Policy**

Examination of public sector economic intervention and its effects. Emphasis on national manipulation of macroeconomic variables. Discussion of forces affecting inter- and intraregional location of economic activity.

**Hours** 45 hrs,
**Credits** 3 cr

**URBG 74800 - Management Control of Nonprofit Organizations**

Examination of techniques used by nonprofits to implement plans by managing more effectively. Emphasis on budgeting, management by objectives, performance auditing and organizational analysis.

**Hours** 45 hrs,
**Credits** 3 cr
URBG 74900 - Strategic Planning for Nonprofit Organizations

Explanation of strategic planning process. Cases from range of state, local and federal nonprofit organizations in health, education, social service, religion and government.

*Hours 45 hrs,  
Credits 3 cr*

URBG 75000 - Social Planning and Policy

Examination of major social problems facing urban planners. Review of social planning theories and methods.

*Hours 45 hrs,  
Credits 3 cr*

URBG 75100 - Educational Planning and Policies

Review of structure and functioning of American educational systems with analysis of major policy issues confronting them today. Examination of questions of who is to be educated for what and at what period in life.

*Hours 45 hrs,  
Credits 3 cr*

URBG 75500 - Planning for Community Development and Implementation

Review of process required to implement plans. Focus on teaching methods and techniques required to deal with administrative, technical and political issues.

*Hours 45 hrs,  
Credits 3 cr*

URBG 75600 - Citizen Participation in Planning and Development

Review of organized citizen efforts to share in development planning and implementation. Analysis of roles of individuals, grassroots organizations, coalitions and partnerships vis-a-vis development professionals, governmental agencies and the private sector.

*Hours 45 hrs,  
Credits 3 cr*

URBG 75800 - Governing the City

This course examines the American city from a historical perspective with a particular focus on governance: how people and institutions shape policy. We will consider literary portraits, Tweed's New York, legal structure, reform efforts, racial succession, fiscal constraints, suburbanization, and secession and ask, "Is it getting better?"

URBG 77500 - Urban Affairs Internship Seminar
Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

**prereq:** permission of the adviser

**Hours** 45 hrs,

**Credits** 3 cr

**URBG 77600 - Internship**

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

**prereq:** URBG 77500 permission of the adviser

**Hours** 45 hrs,

**Credits** 3 cr

**URBG 77700 - Internship**

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

**prereq:** URBG 77500 permission of the adviser

**Hours** 45 hrs,

**Credits** 3 cr

**URBG 77800 - Internship**

Participation in public, nonprofit or private agency with involvement in urban planning or policy issues under field supervisor and faculty direction.

**prereq:** URBG 77500 permission of the adviser

**Hours** 45 hrs,

**Credits** 3 cr

**URBG 78700 - Selected Topics in Urban Planning and Urban Affairs**

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

**Hours** 45 hrs,

**Credits** 3 cr

**URBG 78718 - Political Economy of the City**

The course will explore the framework in which urban policy and development occurs in US urban areas. We will explore the 'anatomy' of the city, that is, to what extent is the physical shape of the city influenced by the interaction between the public and private sectors. Cities, of course, are embedded in larger economic and political settings. Indeed, some would argue that the forces generated in this larger context tend to overwhelm the local political/economic theatre. To this end, the course will examine the extent to which greater national and
international political and economic forces impact the shape of cities.

**URBG 79000 - Urban Development Workshop I**

Analysis of local communities and urban issues by engaging in field research. Students undertake projects commissioned by public and private organizations and employ community and issue analysis, impact assessment and program evaluation techniques.

*prereq: permission of the adviser  
Credits 6 cr*

**URBG 79100 - Grantwriting and Fundraising Practicum**

Focus on problem-solving skills used to resolve crucial issues in urban community; program development procedures including program planning, strategizing, implementation, administration and funding. Students work with selected organizational and community concerns as consultants-in-training.

*prereq: permission of the adviser  
Hours 45 hrs,  
Credits 3 cr*

**URBG 79200 - Urban Affairs Capstone**

Review of contemporary urban issues and problems as the concluding course in the graduate program in urban affairs.

*prereq: permission of the director/adviser  
Hours 45 hrs,  
Credits 3 cr*

**Urban Planning**

**URBG 75700 - Politics of Education**

Education politics and policy in American education. After considering the basic principles that shape schooling and the governmental structure of decision making, the course will focus on distinct developments in about a dozen different cities.

*Hours 45  
Credits 3*

**URBG 76000 - Cities and Health**

The course will examine health problems and policy solutions from the perspective of the city, integrating the theory and analytic approaches from the fields of public health and urban planning, through such topics as the historical relationship between public health and urban planning, environmental justice as it relates to urban health, and urban health care systems.
URBP 70000 - Introduction to Planning

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy. Also, an introduction to the various planning sub-fields including urban design, land development, economic and community development, housing, environmental planning, transportation planning, and public finance.

URBP 70100 - History and Theory of Urban Planning

The study of conscious efforts to guide city development from ancient civilizations to the present, and the evolution of planning theory to guide these actions. Emphasis on the relationship between public and private planning activities and the set of roles available to contemporary planners.

URBP 70500 - Introduction to the Planning Process

Introduction to operational aspects of plan-making process: formulation of objectives, evaluation and implementation; ethics and values; and administration and bureaucracy.

URBP 71100 - Planning Information

Survey of public and private data bases available to planners focusing on traditional and nontraditional sources. Exploration of utilization and implications of data.

URBP 71200 - Methods of Planning Analysis

Introduction to methods of demographic and economic analysis. Emphasis on applications to current urban planning practice.

URBP 71300 - Planning Methods for Optimization and Decision-making

Introduction to quantitative techniques for optimization and decision-making. Applications of techniques in planning contexts.
URBP 71600 - Participatory Planning Using GIS and the Internet

Understanding complexities associated with using GIS and other digital technologies in community organizing and urban development; intensive lab-based course

prereq: GTECH 71000 or perm instr.
Credits 3

URBP 71900 - Land Use, People and the Environment

A comprehensive overview to the theory and practice of land use planning and zoning that sees land as a set of social relations that define the way cities and urban regions develop. Land use planning is placed within larger economic, political, and legal contexts and issues of environmental conservation, environmental justice, air and water quality, public health, energy, infrastructure, and global sustainability.

Credits 3

URBP 72000 - Law of Land Use Regulation I

Description of legal structure surrounding public sector control and management of land use including police power, eminent domain, zoning, subdivision control, master plans, official maps and expansion of legal techniques for controlling urban growth.

Credits 3

URBP 72100 - Law of Land Use Regulation II

Focus on inclusionary and exclusionary zoning; growth management; aesthetics and historic preservation; transfer of development rights; regional and state planning and development control; and tax policies and land use control.

prereq: URBP 72000
Hours 3 hrs
Credits 3 cr

URBP 72200 - Land Use Planning Workshop

Application of land use planning skills to specific problem in New York metropolitan region. Class operates as team to produce recommendations.

prereq: URBP 71900 or permission of the instructor
Hours 3 hrs
Credits 3 cr
URBP 72300 - Introduction to Urban Design

Analysis of three-dimensional urban space by studying methods of visual perception and notation; criteria for determining desirable spatial relationships; and means of implementing policies to achieve urban design goals.

*Hours 3 hrs
Credits 3 cr*

URBP 72400 - Urban Design Workshop

Application of urban design concepts in studio setting to develop design solutions for typical physical planning problems.

*prereq: URBP 72300 or permission of the instructor
Hours 3 hrs
Credits 3 cr*

URBP 72600 - Site Planning Workshop

Use of specific problems on real sites to deal with land conversion, conventional residential subdivisions, "cluster" residential developments, and low-density commercial or institutional growth.

*Hours 3 hrs
Credits 3 cr*

URBP 73100 - Neighborhood Planning Workshop

Application of neighborhood planning, conservation and revitalization principles in declining residential areas. Emphasis on formulation of small-scale development strategies.

*prereq: URBG 72700 or permission of the instructor
Hours 3 hrs,
Credits 3 cr*

URBP 73200 - Introduction to Transportation Planning

Introduction to major issues in urban transportation including analysis of characteristics of transport networks and discussion of federal and local policies and programs.

*Hours 3 hrs
Credits 3 cr*

URBP 73300 - Transportation Planning Methods and Models

Review of variety of transportation planning tools including highway capacity calculations, transportation impact studies, models of trip generation, trip distribution, modal split and network assignments. Presentation of related microcomputer software.

*prereq: permission of the instructor
Hours 3 hrs
Credits 3 cr*
URBP 73400 - Environmental Planning

Study of current and emerging issues in controlling and preventing environmental degradation. Emphasis on administrative and political considerations.

*Hours 3 hrs
*Credits 3 cr

URBP 73500 - Law of Environmental Planning

Examination of legal aspects of environmental protection and methods of public intervention. Study of role of law in formulation and implementation of environmental public policy.

*Hours 3 hrs
*Credits 3 cr

URBP 73600 - Energy Planning and Policy Seminar

Introduction to conceptual and operational aspects of plans and policies promoting the efficient use of energy in urban communities. Review of national and global energy markets and appropriate responses in transportation, housing, land use and related areas.

*Hours 3 hrs
*Credits 3 cr

URBP 73700 - Planning Studio

Students synthesize physical, social and economic elements of selected town or city to prepare multifunctional plan to guide development.

*Hours 6 including conferences
*Credits 6

URBP 73800 - Planning Studio I

Students work with a client organization to synthesize physical, social and economic elements of a selected neighborhood, town or city. This information is utilized in URBP 73900 to prepare a multifunctional plan to guide development and the fulfillment of needs.

*Credits 3

URBP 73900 - Planning Studio II

Students work with a client organization to synthesize physical, social and economic elements of a selected neighborhood, town or city. This information is utilized in URBP 73800 to prepare a multifunctional plan to guide development and the fulfillment of needs.

*Credits 3
URBP 74700 - Planning in the Budget Process

Introduction to principles of financial management as applied to cities and municipal authorities. Survey of approaches to budgeting.

Hours 3 hrs
Credits 3 cr

URBP 78000 - Independent Research

Supervised study of topics of special interest to advanced students.

Hours 3 hrs
Credits 3 cr
Students may not take more than 3 credits of Independent Research per semester.

URBP 78100 - Independent Research

Supervised study of topics of special interest to advanced students.

Hours 3 hrs
Credits 3 cr
Students may not take more than 3 credits of Independent Research per semester.

URBP 78200 - Independent Research

Supervised study of topics of special interest to advanced students.

Hours 3 hrs
Credits 3 cr
Students may not take more than 3 credits of Independent Research per semester.

URBP 78300 - Independent Research

Supervised study of topics of special interest to advanced students.

Hours 3 hrs
Credits 3 cr
Students may not take more than 3 credits of Independent Research per semester.

URBP 78400 - Independent Study

Supervised study of topics of special interest to advanced students.

Credits 1 cr
Students may not take more than 3 credits of Independent Research per semester.

URBP 78500 - Independent Study
Supervised study of topics of special interest to advanced students. Students may not take more than 3 credits of Independent Study per semester.

Credits 2 cr
Students may not take more than 3 credits of Independent Research per semester.

URBP 78700 - Selected Topics in Urban Planning and Urban Affairs

Such as immigration policy; youth services; current and critical issues in non-profits; journalism and public policy; human service delivery, policy implementation gender, power and community; community capacity building; and advocacy

Cross-listed URBG 78700

Programs and Courses Romance Languages

Romance Languages

OVERVIEW

The Department of Romance Languages' Graduate Division offers MA degrees in French, Italian, and Spanish as a terminal degree or as a preparation for a doctoral program in the respective areas. The Department also offers an MA/TEP (Teacher Education Program) in each language in conjunction with the School of Education. This MA/TEP Program is designed to prepare candidates to teach in elementary and secondary schools. The department enjoys the teaching and scholarship of professors who have acquired high reputation in their respective fields.

What can I do with my degree in Romance Languages?

The MA programs in languages prepare students for both teaching and research in language and literature. The MA/TEP Program is designed to prepare candidates to teach in elementary and secondary schools.

Programs and Courses

- Adolescent French - MA / Advanced Certificate
- Adolescent Italian - MA / Advanced Certificate
- Adolescent Spanish - MA / Advanced Certificate

Doctor of Philosophy

CUNY Graduate Center offers a PhD in French and in Iberian and Latin American Studies.

Administration and Faculty

Chair:
Master's Programs

French - MA

The master's degree in French provides opportunities for professional advancement in teaching and professional fields that require a good knowledge of other languages and cultures. It is also a means of intellectual development for those who want to expand their knowledge in the humanities. The MA may be taken either as a final degree or as preparation for doctoral work. It is accepted in lieu of the first year of study in the PhD program at the City University. See the Bulletin of the Graduate Center for a description of the PhD programs.

Requirements for Admission

Admission to graduate study is contingent upon admission requirements of Hunter College and upon approval by a departmental committee. Where general scholarship is superior, but the applicant did not major in the field, or preparation in that field is deemed to be insufficient, an examination and/or enrollment in specified undergraduate courses will be required. Before matriculation, applicants must demonstrate proficiency in the language of specialization.

Requirements for MA

1. Courses

A total of 30 credits from the Literature of Specialization including a Thesis Seminar (3cr) for those students electing to write a master's essay.

2. Languages
In addition to a high degree of competence in the language of specialization, candidates must demonstrate a reading knowledge of a second Romance language, German, or Latin.

3. Comprehensive Examination

Candidates must pass a written examination on the field of study, in the language of specialization.

4. Master's essay

The master's essay is optional. Topic is determined in consultation with the principal adviser. Thesis Seminar, to be taken concurrently with preparation of the essay, is completed when the essay is approved by the principal adviser and another faculty member.

Italian - MA

The master's degree in Italian provides opportunities for professional advancement in teaching and professional fields that require a good knowledge of other languages and cultures. It is also a means of intellectual development for those who want to expand their knowledge in the humanities. The MA may be taken either as a final degree or as preparation for doctoral work. It is accepted in lieu of the first year of study in the PhD program at the City University. See the Bulletin of the Graduate Center for a description of the PhD programs.

**FREN 60000 - Basic Course in French for Graduate Students**

**FREN 61100 - Explication de Texte**

**FREN 62100 - Genre Studies I: French Poetry**
FREN 62200 - Genre Studies II: The Theatre in France

FREN 62300 - Genre Studies III: The French Novel

FREN 62400 - Literature of Ideas

FREN 70100 - History of the French Language

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 70200 - Studies in French Criticism

FREN 70800 - Methods of Research

FREN 71100 - Medieval French Literature

FREN 71200 - Medieval French Literature II

FREN 72100 - French Poetry of 16th Century Classical and Italian Influences

The Lyons poets, the Pléiade, Protestant poets.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 72200 - Rabelais and Montaigne

FREN 72500 - Main Currents of French Renaissance

Study of different aspects of French Renaissance in the works of major authors.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 73100 - Descartes and Pascal

FREN 73200 - French Tragedy of 17th Century

Study of characteristics of French tragic theatre from Baroque to Classicism. Emphasis on plays and prefaces of Corneille and Racine.

*Hours 30 hrs plus conferences,
Credits 3 cr*

FREN 73300 - Theatre of Molière
Analysis of major plays. Discussion of theatrical life of the period.

*Hours 30 hrs plus conferences,*  
*Credits 3 cr*

**FREN 73400 - French Moralists of Classical Period**

Works by such authors as La Rochefoucauld, Bossuet, La Fontaine, Madame de Sévigné, Fénélon, La Bruyère, Saint-Simon.

*Hours 30 hrs plus conferences,*  
*Credits 3 cr*

**FREN 74100 - Diderot**

Study of novels and aesthetic and philosophical theories. Diderot's influence through the Encyclopédie.

*Hours 30 hrs plus conferences,*  
*Credits 3 cr*

**FREN 74200 - Voltaire and Rousseau**
