Section II: Admissions

Overview

Over 16,000 undergraduate students attend Hunter College. These students vary widely in age, interests, background and educational goals. The Undergraduate Office of Admissions at Hunter College encourages all prospective students to meet with an admissions counselor to discuss their educational goals and opportunities at Hunter. Prospective students are also invited to visit the campus. Campus tours originate from the College Welcome Center, room 100 Hunter North.

Catalog Home

Welcome to Hunter College's Online Catalog

Hunter College, located in the Upper East Side neighborhood of New York City and easily reached by public transportation, now releases its undergraduate catalog annually online to permit changes in programs and courses to reach you more swiftly. The online catalog makes the information more accessible at the same time reducing our impact on the environment.

Hunter offers a myriad of academic offerings in our School of Arts and Sciences, School of Education, Hunter Bellevue School of Nursing and School of Urban Public Health. Our goal is to provide you, the student, with the most accurate and up-to-date information. The catalog should be used as a guide in planning your course of study in order to meet your degree requirements and graduate in a timely fashion. We hope you find this information useful and we wish you good luck at Hunter!

- The Kaye Playhouse
- Assembly Hall
- The Frederick Loewe Theatre
- Ida K. Lang Recital Hall
- Hunter Galleries

Section IX: Programs of Study

Bachelor of Arts - BA

Adolescent Biology, Grades 7-12 - BA

The BA program in Adolescent Biology Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.
The Education course of study is a 27-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

Applying for Admission

Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Admission Requirements

1. Minimum of at least 65 credits but no more than 90 credits.
2. A Hunter College Grade Point Average (GPA) of 3.0 or better.
3. Receive a grade of B or better in ENGL 12000.
4. Have no more than 6 cr. of CR/NC grades.
5. Formal declaration of a major in biology.
6. Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

Liberal Arts and Sciences Major Requirements

37 credits in Biology plus 33.5-36.5 credits in required additional science and math courses (total 70.5 to 73.5 credits). (see Biological Sciences for details of course requirements)

New York State Liberal Arts & Science Distribution Requirement

These are courses required for School of Education students. Most of these courses may also be used towards the Hunter Core requirement.

- ENGL 12000 and ENGL 22000
- Two courses selected from HIST 15100, HIST 15200 and GEOG 10100
- STAT 21300 (STEM)
- 12 credits of foreign language
- 6 credits of art
• One course in communication

Academic Progress Standards

• Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
• Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
• Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
• Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.
• Any student who has more than two grades of IN will be permitted to register for only one course the following semester.
• Second Methods Course: Students will be permitted to register for the second methods course in their subject area only after having met the following requirements: Completion of 18 credits of study in the major subject area; approval of the major department adviser; and maintenance of an overall GPA of 3.0 and an education sequence index of 3.0.
• Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
• Complete at least 21 credits in an approved Arts & Sciences major before student teaching.

Course of Study

SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs
3 cr.

SEDF 20400 - Adolescent Development

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDF 20500 - Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

prereq: SEDF 20300, 20400
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12
The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

 prereq: SEDF 20500, SEDC 21000
2 per week plus lab
2 cr.

SEDC 21000 - Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs
3 cr.

SEDC 21300 - Methods I: Classroom Organization, Management and Instruction in Mathematics and Science, Grades 7-12

Candidates will identify the impact of various classroom organization patterns, rules and routines. Candidates will be able to design, implement and evaluate lessons in the context of state and city standards for learning in grades 7-12.

 prereq or coreq: SEDF 20300, 20400
3 hrs
3 cr.

SEDC 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

 prereq: SEDF 20300, 20400
1 hr
1 cr.

SEDC 32400 - Methods II: Teaching Diverse Learners Science, Grades 7-12

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

 prereq: SEDC 21300
 prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDC 34100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade
below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500
15 hours of seminar; 48 hours of fieldwork
1 cr.

SEDC 45410 - Student Teaching in Biology, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified biology teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 32400

prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

prereq: 12 credits of coursework
45 hrs
3 cr.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Chemistry, Grades 7-12 - BA

The BA program in Adolescent Chemistry Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.
The Education course of study is a 27-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

Applying for Admission

Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Admission Requirements

1. Minimum of at least 65 credits but no more than 90 credits.
2. A Hunter College Grade Point Average (GPA) of 3.0 or better.
3. Receive a grade of B or better in ENGL 12000.
4. Have no more than 6 cr. of CR/NC grades.
5. Formal declaration of a major in chemistry.
6. Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

Liberal Arts and Sciences Major Requirements

24-27 credits of chemistry plus 27 credits of biology, math and physics. (See Chemistry Major II for details of course requirements)

New York State Liberal Arts & Science Distribution Requirement

These are courses required for School of Education students. Most of these courses may also be used towards the Hunter Core requirements

- ENGL 12000 and ENGL 22000
- Two courses selected from HIST 15100, HIST 15200 and GEOG 10100
- STAT 21300 (STEM)
- 6 credits in the arts
- 12 credits of foreign language

Adolescent Education Programs, Grades 7-12 and Dance Education, Grades Pre K-12

List of Programs

- Adolescent Biology, Grades 7-12 - BA
- Adolescent Biology, Grades 7-12 - BA/MA
- Adolescent Chemistry, Grades 7-12 - BA
• Adolescent Chemistry, Grades 7-12 - BA/MA
• Adolescent Earth Science, Grades 7-12 - BA/MA
• Adolescent English, Grades 7-12 - BA
• Adolescent Mathematics, Grades 7-12 - BA
• Adolescent Mathematics, Grades 7-12 - BA/MA
• Adolescent Physics, Grades 7-12 - BA
• Adolescent Physics, Grades 7-12 - BA/MA
• Adolescent Social Studies, Grades 7-12 - BA
• Dance Pre-K - 12 - BA
• Dance Pre-K - 12 - BA/MA

Progress Standards

1. Students must maintain a minimum overall GPA of 2.8 and an education sequence index of 2.8.

2. Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.

3. Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.

4. Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.

5. Any student who has more than two grades of IN will be permitted to register for only one course the following semester.

Students will be permitted to register for the second methods course in their subject area only after having met the following requirements:

1. Completion of 18 credits of study in the major subject area;

2. Approval of the major department adviser; and

3. Maintenance of an overall GPA of 2.8 and an education sequence index of 2.8.

Students should register to take the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examinations during their junior year. Students will not be allowed to enroll in student teaching until their scores on the LAST have been received by the School of Education. Students who do not pass the LAST at least partly because of low scores on subtest 4 and/or 5 must enroll in a college writing course before being allowed to register for any additional courses.

Admission Process

1. Students interested in applying to the Adolescent Education program should apply at the beginning of the semester prior to the semester in which they plan to enroll.

2. Students must participate in a group interview with several other students and School of Education faculty members.

3. Students must complete an on-site writing sample that the School of Education faculty will use to assess written English skills.
Admission Requirements

Students who wish to enter the adolescent education sequence must meet all the criteria given below.

1. Minimum of 65 credits but no more than 90 credits;

2. GPA of at least 2.8. If a student has more than 6 credits of CR/NR grades, the excess of these grades will be calculated as C or F in determining whether the student meets the minimum GPA;

3. A grade of at least B in ENGL 12000 (or a 200- or 300-level writing course such as ENGL 201);

4. Formal declaration of a major in a subject area appropriate for certification: English, Languages Other than English (Chinese, French, German, Hebrew, Italian, Russian, Spanish), Mathematics, Biology, Chemistry, Physics, Social Studies (Geography Option 2), Dance; and

5. Submission of an application for admission to the sequence (the application is available in the Office of Educational Services, Room 1000 Hunter West).

Program Overview

Students who major in an academic subject may also wish to complete a sequence of courses in education that will enable them to pursue a career teaching students in grades 7-12. The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools.

Programs in adolescent education at Hunter College prepare prospective teachers to serve as highly effective educators in urban middle and high schools. Through rigorous course work, fieldwork and student teaching experiences in New York City schools, students learn how to provide an academically rigorous education to students of diverse backgrounds, abilities and interests.

Content Knowledge

Courses in the academic discipline offered by the School of Arts & Sciences will deepen teacher candidates’ subject knowledge. They will learn how to use knowledge of their subject to design and implement classroom instruction that reflects State and professional standards.

Professional Knowledge

Teacher candidates will learn the theory and practice of effective pedagogy in their subject area. They will gain a grounding in the history, philosophy, psychology and sociology of education that will inform their teaching. They will study research-based theories and methods of teaching their subject to students with special needs, including special education students and English language learners.

Skills

Teacher candidates will learn to design lessons and units of work for students and to adapt their instruction to students’ prior knowledge and level of skill. They will gain expertise in analyzing and using assessments of student achievement to guide and inform their instruction. They will master the use of technology as a tool for teaching their subject. They will learn to manage their classrooms to provide effective instruction for all students. They will practice ways to assess and reflect on their teaching practice in order to strengthen their work with students and grow as professionals.
Creating Community

Teacher candidates will learn to create humane and ethical learning communities in their classrooms and schools in which all students receive the support they need to achieve academically. They will learn to communicate effectively with parents, families, community members and other members of the school faculty and staff in order to provide this support.

Programs

The Hunter College School of Education offers the following undergraduate programs leading to initial certification in adolescent education (grades 7-12): biology, chemistry, Chinese, English, French, German, Hebrew, Italian, mathematics, physics, Russian, social studies and Spanish. Hunter also offers an undergraduate program leading to initial certification in dance (pre-K-12). In addition, BA/MA programs in biology, chemistry, earth science, mathematics, music and physics are offered. These programs lead to initial and professional certification.

The program of study for the baccalaureate degree at Hunter College requires a minimum of 120 credits. This is a daytime program that includes fieldwork in New York City public schools designated by the Hunter College School of Education. Students who wish to pursue initial certification in one of the above areas must take a specified sequence of education courses, in addition to fulfilling the college’s General Education Requirement (GER) and the requirements of their liberal arts or sciences major. All relevant departments accept the adolescent education sequence as a minor.

Transfer Students

The program will conditionally admit transfer students with 60 or more credits who have a GPA of at least 3.3 without requiring that they complete 12 credits at Hunter College. However, they must establish a minimum GPA of 2.8 at Hunter College to continue in the program after the first semester. Any transfer student who has a GPA of 2.8-3.29 must complete 12 credits at Hunter College with a cumulative GPA of at least 2.8 before being admitted to the program in adolescent education.

Adolescent English, Grades 7-12 - BA

The BA program in Adolescent English Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

The Education course of study is a 27-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

Applying for Admission

Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek
Advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Admission Requirements

1. Minimum of at least 65 credits but no more than 90 credits.
2. A Hunter College Grade Point Average (GPA) of 3.0 or better.
3. Receive a grade of B or better in ENGL 12000.
4. Have no more than 6 cr. of CR/NC grades.
5. Formal declaration of a major in English.
6. Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

Liberal Arts and Sciences Major Requirements

Completion of the BA degree: Concentration in English: Preparation for Secondary School Teaching (39 cr)

New York State Liberal Arts & Science Distribution Requirement

These are courses required for School of Education students. Most of these courses may also be used towards the Appendix I: Hunter Core Requirement.

- ENGL 12000 and ENGL 22000
- Two courses selected from HIST 15100, HIST 15200 and GEOG 10100
- STAT 11300
- 9 credits in math, science and technology (must include one laboratory science course)
- 6 credits in the arts
- 12 credits of foreign language
- One course in communication

Academic Progress Standards

- Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.
• Any student who has more than two grades of IN will be permitted to register for only one course the following semester
• Second Methods Course: Students will be permitted to register for the second methods course in their subject area only after having met the following requirements: Completion of 18 credits of study in the major subject area; approval of the major department adviser; and maintenance of an overall GPA of 3.0 and an education sequence index of 3.0.
• Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
• Complete at least 21 credits in an approved Arts & Sciences major before student teaching.

Course of Study

**SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)**

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

*3 hrs
3 cr.*

**SEDF 20400 - Adolescent Development**

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

*2 hrs per week plus 36 hrs fieldwork
2 cr.*

**SEDF 20500 - Educational Psychology: Applications in Grades 7-12**

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

*prereq: SEDF 20300, 20400
2 hrs per week plus 36 hrs fieldwork
2 cr.*

**SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12**

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

*prereq: SEDF 20500, SEDC 21000
2 per week plus lab
2 cr.*

**SEDC 21000 - Building the Foundations of Literacy in Grades 7-12**

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.
SEDC 21100 - Young Adult Literature in Our Diverse Society

Familiarizes prospective teachers with a wide variety of literature for or about young adults. Books discussed and dramatized during each session reflect diverse cultures, varying learning styles, and special needs of young adults. The English language arts standards are addressed as delineated in city and state regulations. Literacy and comprehension skills are explored as well.

prereq or coreq: SEDF 20300, 20400
3 hrs
3 cr.

SEDC 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

prereq: SEDF 20300, 20400
1 hr
1 cr.

SEDC 32100 - Teaching English Methods to a Diverse Population in Grades 7-12

Methodology that facilitates the learning of English language arts for a diverse population in secondary schools. Teacher candidates will engage in ways of teaching adolescents the skills of reading, responding to literature, writing (creative and expository), listening, speaking, and applying grammar conventions. They will write lesson and unit plans and experiment with classroom management and assessment techniques as they present lessons to the class for peer and instructor criticisms. State and city teaching standards will be applied throughout the course.

prereq: SEDC 21100
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDC 34100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500
15 hours of seminar; 48 hours of fieldwork
1 cr.

SEDC 45100 - Student Teaching in English, Grades 7-12
Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified English teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 32100
prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

prereq: 12 credits of coursework
45 hrs
3 cr.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Mathematics, Grades 7-12 - BA

The BA program in Adolescent Mathematics Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

The Education course of study is a 27-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

Applying for Admission

Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.
All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

**Admission Requirements**

1. Minimum of at least 65 credits but no more than 90 credits.
2. A Hunter College Grade Point Average (GPA) of 3.0 or better.
3. Receive a grade of B or better in ENGL 12000.
4. Have no more than 6 cr. of CR/NC grades.
5. Formal declaration of a major in mathematics.
6. Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

**Liberal Arts and Sciences Major Requirements**

33-credit major in mathematics Mathematics - BA plus one year of calculus (MATH 15000 (STEM) and MATH 15500 (STEM), or the equivalent).

**New York State Liberal Arts & Science Distribution Requirement**

These are courses required for School of Education students. Most of these courses may also be used towards the Common Core Requirement.

- ENG 120 and ENG 220
- Two courses selected from HIST 151, HIST 152 and GEOG 101
- STAT 213
- One science course with a lab component
- 6 credits in the arts
- 12 credits of foreign language
- One course in communication

**Academic Progress Standards**

- Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.
- Any student who has more than two grades of IN will be permitted to register for only one course the following semester.
• Second Methods Course: Students will be permitted to register for the second methods course in their subject area only after having met the following requirements: Completion of 18 credits of study in the major subject area; approval of the major department adviser; and maintenance of an overall GPA of 3.0 and an education sequence index of 3.0.
• Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
• Complete at least 21 credits in an approved Arts & Sciences major before student teaching.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.
Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Admission Requirements

- Minimum of at least 65 credits but no more than 90 credits.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Receive a grade of B or better in ENGL 12000.
- Have no more than 6 cr. of CR/NC grades.
- Formal declaration of a major in physics.
- Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

Liberal Arts and Sciences Major Requirements

30-credit major in physics. (see Physics Option 1)

New York State Liberal Arts & Science Distribution Requirement

These are courses required for School of Education students. Most of these courses may also be used toward the Common Core Requirement.

- ENG 120 and ENG 220
- Two courses selected from HIST 151, HIST 152 and GEOG 101
- STAT 213
- 6 credits in the arts
- 12 credits of foreign language
- One course in communication

Academic Progress Standards

- Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.
- Any student who has more than two grades of IN will be permitted to register for only one course the following semester.
- Second Methods Course: Students will be permitted to register for the second methods course in their subject area only after having met the following requirements: Completion of 18 credits of study in the major subject area; approval of the major department adviser; and maintenance of an overall GPA of 3.0 and an education sequence index of 3.0.
• Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
• Complete at least 21 credits in an approved Arts & Sciences major before student teaching.

Course of Study

SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool- community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDF 20500 - Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

prereq: SEDF 20300, 20400
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 20500, SEDC 21000
2 per week plus lab
2 cr.

SEDC 21000 - Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs
3 cr.

SEDC 21300 - Methods I: Classroom Organization, Management and Instruction in Mathematics and Science, Grades 7-12
Candidates will identify the impact of various classroom organization patterns, rules and routines. Candidates will be able to design, implement and evaluate lessons in the context of state and city standards for learning in grades 7-12.

**prereq or coreq:** SEDF 20300, 20400

3 hrs

3 cr.

**SEDC 22000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

**prereq:** SEDF 20300, 20400

1 hr

1 cr.

**SEDC 32400 - Methods II: Teaching Diverse Learners Science, Grades 7-12**

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in science. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

**prereq:** SEDC 21300

**prereq or coreq:** SEDF 20500, SEDC 21000

2 hrs per week plus 48 hrs fieldwork

2 cr.

**SEDC 34100 - Adolescent Fieldwork**

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

**coreq:** SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500

15 hours of seminar; 48 hours of fieldwork

1 cr.

**SEDC 45430 - Student Teaching in Physics, Grades 7-12**

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified physics teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** SEDC 32400

**prereq or coreq:** SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

**SPED 30800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

*prereq: 12 credits of coursework
45 hrs
3 cr.*

**School of Education Exit Standards**

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

**Adolescent Social Studies, Grades 7-12 - BA**

The BA program in Adolescent Social Studies Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

The Education course of study is a 27-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

**Applying for Admission**

Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts &
Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Admission Requirements

1. Minimum of at least 65 credits but no more than 90 credits.
2. A Hunter College Grade Point Average (GPA) of 3.0 or better.
3. Receive a grade of B or better in ENGL 12000.
4. Have no more than 6 cr. of CR/NC grades.
5. Formal declaration of a major in history.
6. Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

Liberal Arts and Sciences Major Requirements

A history major for adolescent teachers. See History for Adolescent Education (Social Studies)

New York State Liberal Arts & Science Distribution Requirement

These are courses required for School of Education students. Most of these courses may also be used towards the Appendix I: Hunter Core Requirement. 

- ENGL 12000 and ENGL 22000
- Two courses selected from HIST 15100, HIST 15200 and GEOG 10100
- STAT 11300
- 9 credits in math, science and technology (must include one laboratory science course)
- 6 credits in the arts
- 12 credits of foreign language
- One course in communication

Academic Progress Standards

- Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.
- Any student who has more than two grades of IN will be permitted to register for only one course the following semester.
- Second Methods Course: Students will be permitted to register for the second methods course in their subject area only after having met the following requirements: Completion of 18 credits of study in the major subject area; approval of the major department adviser; and maintenance of an overall GPA of 3.0 and an education sequence index of 3.0.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
- Complete at least 21 credits in an approved Arts & Sciences major before student teaching.
Course of Study

SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.
3 hrs
3 cr.

SEDF 20400 - Adolescent Development

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDF 20500 - Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.
_prereq: SEDF 20300, 20400
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.
_prereq: SEDF 20500, SEDC 21000
2 per week plus lab
2 cr.

SEDC 21000 - Building the Foundations of Literacy in Grades 7-12

Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.
3 hrs
3 cr.

SEDC 21500 - Methods I: Classroom Organization, Management, and Instruction in Social Studies, Grades 7-12

Rationales and methodologies for teaching social studies based on current theories of the nature of students, the social sciences and secondary schooling.
_prereq or coreq: SEDF 20300, 20400
3 hrs
3 cr.
SEDC 22000 - Adolescent Health and Safety

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

prereq: SEDF 20300, 20400
1 hr
1 cr.

SEDC 32500 - Methods II: Teaching Diverse Learners in Social Studies, Grades 7-12

Familiarizes prospective middle and high school teachers, grades 7-12, with pedagogical approaches and innovative teaching techniques needed to convey to a diverse population current state and professional standards-based curriculum in the social studies. Innovative uses of technology, development of instructional units, individualizing for students with special needs, and strategies for managing problem behavior will be emphasized throughout the course.

prereq: SEDC 21500
prereq or coreq: SEDF 20500, SEDC 21000
2 hrs per week plus 48 hrs fieldwork
2 cr.

SEDC 34100 - Adolescent Fieldwork

Seminar and field experience in adolescent education. Students will complete a 48-hour field experience in a grade 7-12 classroom in their subject and will participate in an accompanying seminar. They will be observed and evaluated in the field by a School of Education faculty member. An accompanying seminar will treat issues arising from the field experience. Students must achieve a grade of B or better in this course to continue in the program. Any student who obtains a grade of F in the course will not be allowed to continue in the program. Any student who obtains a grade below B must apply to the department chairperson for permission to repeat the course, which may be repeated only once.

coreq: SEDC 31200 or SEDC 32100 or SEDC 32200 or SEDC 32300 or SEDC 32400 or SEDC 32500
15 hours of seminar; 48 hours of fieldwork
1 cr.

SEDC 45500 - Student Teaching in Social Studies, Grades 7-12

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified social studies teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

prereq: SEDC 32500

prereq or coreq: SEDF 20600
2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings
Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

*prereq: 12 credits of coursework

45 hrs

3 cr.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Teaching Languages Other Than English, Grades 7-12 - BA

The BA program in Adolescent Teaching Languages Other Than English leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

The Education course of study is a 27-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

Applying for Admission

The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.
Admission Requirements

1. Minimum of at least 65 credits but no more than 90 credits.
2. A Hunter College Grade Point Average (GPA) of 3.0 or better.
3. Receive a grade of B or better in ENGL 12000.
4. Have no more than 6 cr. of CR/NC grades.
5. Formal declaration of a major one of these languages: Chinese, French, Italian, or Spanish.
6. Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

Liberal Arts and Sciences Major Requirements

Major in Chinese Language and Literature - BA, French - BA, Italian - BA or Spanish - BA.

New York State Liberal Arts & Science Distribution Requirement

These courses are required for School of Education students. Most of these courses may be used towards the Common Core Requirement.

- ENGL 12000 and ENGL 22000
- Two courses selected from: HIST 15100/HIST 15200/GEOG 10100
- STAT 11300
- 9 credits in math, science or technology with at least one science course with a lab component
- 6 credits in the arts
- One course that focuses on communication (see program adviser for acceptable courses)

Academic Progress Standards

- Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.
- Any student who has more than two grades of IN will be permitted to register for only one course the following semester.
- Second Methods Course: Students will be permitted to register for the second methods course in their subject area only after having met the following requirements: Completion of 18 credits of study in the major subject area; approval of the major department adviser; and maintenance of an overall GPA of 3.0 and an education sequence index of 3.0.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
- Complete at least 21 credits in an approved Arts & Sciences major before student teaching.

And One Student Teaching Course

SEDC 45210 - Student Teaching in Chinese, Grades 7-12
Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Chinese teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** SEDC 32200

**prereq or coreq:** SEDF 20600

2 hrs per week, 60 days student teaching plus workshops and conferences

5 cr.

**SEDC 45220 - Student Teaching in French, Grades 7-12**

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified French teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** SEDC 32200

**prereq or coreq:** SEDF 20600

2 hrs per week, 60 days student teaching plus workshops and conferences

5 cr.

**SEDC 45260 - Student Teaching in Italian, Grades 7-12**

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Italian teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** SEDC 32200

**prereq or coreq:** SEDF 20600

2 hrs per week, 60 days student teaching plus workshops and conferences

5 cr.

**SEDC 45280 - Student Teaching in Spanish, Grades 7-12**

Teacher candidates complete 30 days of student teaching at grades 7-9 and 30 days at grades 10-12 under the supervision of a Hunter College faculty member and a certified Spanish teacher in a New York City school selected by the college. Students will further develop their skills in the delivery of instruction. Student teachers will assume significant responsibility for classroom instruction and management.

**prereq:** SEDC 32200

**prereq or coreq:** SEDF 20600

2 hrs per week, 60 days student teaching plus workshops and conferences

5 cr.

**School of Education Exit Standards**
Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

**Africana and Puerto Rican/Latino Studies**

**BA in Africana and Puerto Rican/Latino Studies**

Given the interdisciplinary organization of the department, students may elect to concentrate their program of study in the Africana sequence, Puerto Rican/Latino sequence or a combination of both with courses from social sciences and humanities offered by the department.

**Hunter Core Requirements**

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here:

Appendix I: Hunter Core Requirement

In the case of the Africana and Puerto Rican/Latino Studies, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Courses</th>
<th>CUNY Common Core</th>
<th>Foundational or Major</th>
</tr>
</thead>
<tbody>
<tr>
<td>AFPRL 20100</td>

<td>Major</td>
</tr>
</tbody>
</table>

*Please note that no more than two courses from any one department will count for the CUNY Common Core.*

**Major**

The major consists of 30 credits. Courses to be taken are as follows:

6 credits from among

**AFPRL 20100 - African History from Human Origins to 1600 CE**

- **Hunter Core**
  - World Culture and Global Issues (WCGI)
- **Pluralism and Diversity**
  - PD/A
  - GER
  - 2/B
African history from ancient times with emphasis on endogenous African development of civilizations and complex economic, technological and cultural systems over time.
3 hrs
3 cr.

**AFPRL 20200 - African History Since 1600 CE**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/A
GER
2/B

Main currents of African history from 1600 CE to present

3 hrs
3 cr.

**AFPRL 20300 - African American History I**

**Pluralism and Diversity**
PD/B
GER
2/B

Survey of historical experiences of African people in U.S. from 16th century to end of Civil War.

3 hrs
3 cr.

**AFPRL 20400 - African American History II**

**Pluralism and Diversity**
PD/B
GER
2/B

Survey of historical experiences of African people in U.S. from Reconstruction to the present.

3 hrs
3 cr.

**AFPRL 20900 - Introduction to Caribbean History to 1900**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/A
GER
2/B

Introduction to the major themes in Caribbean history to 1900.

*prereq: ENGL 12000*

World Culture and Global Issues
Pluralism and Diversity
PD/A
GER
2/B

Introduction to the major themes in Caribbean history after 1900.
prereq: ENGL 12000
3 hrs
3 cr.

AFPRL 24100 - Puerto Rican History to 1897

Pluralism and Diversity
PD/A
GER
2/B

An examination of Taino society, Spanish colonialism, slave economy and the development of nationhood in the 19th century.
3 hrs
3 cr.

AFPRL 24200 - Puerto Rican History Since 1898

Pluralism and Diversity
PD/A
GER
2/B

Sociohistorical, political and economic analysis of Puerto Rico dating from the U.S. invasion to the present.
3 hrs
3 cr.

3 credits from

AFPRL 28100 - Fieldwork in African American/Latino Communities

Fieldwork involvement and sociopolitical analysis of a community organization in the Black and/or Puerto Rican/Latino communities.
Course open to Majors and Minors Only
3 hrs
3 cr. each

21 credits
• Of which at least 12 must be taken at the 300 and/or 400 level. At least 3 credits must be taken in Puerto Rican/Latino studies if the student’s concentration is in Africana studies and vice versa.

Minor in Africana and Puerto Rican/Latino Studies

The Department of Africana & Puerto Rican/Latino Studies offers a 12-credit minor that requires students to successfully complete two 100/200 level courses and two 300/400 level courses.

Honors

The honors research course, AFPRL 49900, is open to AFPRL upper seniors who have a 3.5 GPA in the major with a 3.0 GPA overall and have completed at least 24 credits including three AFPRL 300/400 level courses. In order to receive an honors endorsement, a student must receive a final grade of at least B+. Students who do not meet the requirement for an honors endorsement but have passed the course, will receive three credits without honors. The research theme changes every academic year. The project is supervised by one full-time AFPRL faculty member but is read and graded by the supervisor and two additional AFPRL full-time faculty members.

Anthropology - BA

BA in Anthropology

The anthropology major is designed to give students an overview of the discipline, as well as training in all four fields of the subject (archaeology, cultural anthropology and ethnology, anthropological linguistics and biological anthropology). The anthropology major consists of 25 credits [see table below]. To declare a major in anthropology, the student must have completed at least one course in anthropology with a C grade or better. In order to graduate with a major in anthropology, students must earn a C grade or better in all required courses and electives counted toward the major (effective for students declaring the major after September 1, 2007

Foundational Courses

Students with no prior background in this academic field will need one 3 credit Foundational Course. This course must be completed before embarking upon the major. Students will appropriate background may be exempted from some or all Foundational Courses. See department for proper placesment.

ANTHC 10100 - Introduction to Cultural Anthropology

Hunter Core
Individual and Society (Social Sciences) -I&S SS
Pluralism and Diversity
PD/A
GER
2/B

Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.
3 hrs
3 cr.
offered every sem.

Hunter Core Requirement

Note: Several courses leading to or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement.

offered every sem.

Research Design (3 cr.)

ANTHC 31400 - Research Design in Anthropology

Pluralism and Diversity
GER 3/B
Introduction to basic principles of research design employed in anthropology.
prereq: ANTHC 10100
3 hrs
3 cr.
History of Anthropological Theory (3 cr.)

**ANTHC 31800 - History of Anthropological Theory**

Pluralism and Diversity  
PD/D  
GER  
3/B

Changing approaches to the study of society and culture. Political and historical context of the development of theory, the link between theory and method and the impact of theory on policy.  
*prereq: ANTHC 10100 or perm instr.*  
3 hrs  
3 cr.

Elective courses (9 cr.)

(selected from above fields)

Total credits 25

Minor in Anthropology

There are two new rules about the minor. First, the minor department controls the minor. Second, the minor is no longer a degree requirement.

General Anthropology

The Anthropology Minor provides students an overview of the discipline through survey courses in each of the four primary subfields of anthropology. It is designed to help students appreciate the significance of, and relations between, language, biology, and culture, for human beings past and present. The minor consists of four courses for a total of 13 credits. In order to graduate with an Anthropology Minor, students must earn a C grade or better in all the courses counted towards the minor.

The minor includes the following three required courses:

**ANTHC 10100 - Introduction to Cultural Anthropology**

Hunter Core  
Individual and Society (Social Sciences) -I&S SS  
Pluralism and Diversity  
PD/A  
GER  
2/B

Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.  
3 hrs  
3 cr.  
*offered every sem.*
ANTHC 12600 - Introduction to Prehistoric Archaeology

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.

3 hrs
3 cr.
offered every sem.

ANTHC 15100 - Introduction to Linguistics

Hunter Core
World Cultures and Global Issues (WCGI)
GER
2/B

Structure and analysis of human languages; language history; language in society, culture and mind; language universals.

3 hrs
3 cr.

Plus one additional course selected from the following two options:

ANTHP 10100 (STEM) - Human Evolution

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.

6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

Minor in Linguistic Anthropology

The Linguistic Anthropology Minor introduces students to the comparative and interdisciplinary study of language as a cultural resource and speaking as a cultural practice. In its study of the ways in which language and culture are interrelated, linguistic anthropology often draws from linguistics, sociology, psychology, philosophy, communication studies, as well as education, semiotics, and ethnic and literary studies. The Minor consists of a minimum of 12 credits from any of the following courses, or other courses with approval of the departmental undergraduate adviser. In order to graduate with a Linguistic Anthropology Minor, students must earn a C grade or better in all the courses counted towards the minor.

ANTHC 15100 - Introduction to Linguistics
Hunter Core
World Cultures and Global Issues (WCGI)
GER 2/B
Structure and analysis of human languages; language history; language in society, culture and mind; language universals.
3 hrs
3 cr.

ANTHC 35100 - Language in Culture and Society
GER 3/B
Sociolinguistics; ethnography of communication; languages and dialects; face-to-face interaction; bilingualism in social and political life; language, ideology and identity.
3 hrs
3 cr.

ANTHC 40100 - Seminars in Selected Topics
Topics TBA.

Minor in Anthropological Archaeology

The Anthropological Archaeology Minor introduces students to the study of past human societies and cultural diversity from an anthropological perspective. The minor consists of a minimum of 12 credits from the courses listed below, or other courses with the approval of the departmental undergraduate advisor. Only one non-ANTHC course from the following list may count towards the minor. In order to graduate with an Anthropological Archaeology Minor, students must earn a C grade or better in all the courses counted towards the minor.

ANTHC courses:

ANTHC 12600 - Introduction to Prehistoric Archaeology

ANTHC 12700 - Methods In Archaeological Science
Hunter Core
SW
Introduction to theory and method of scientific research in archaeology.
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 34600 - Analytic Methods in Archaeology

GER
3/B

Theory and methods of analysis of materials recovered from archaeological excavations and surveys.
prereq: ANTHC 12600 or perm instr.
5 hrs (3 hrs lec, 2 lab)
4 cr.

Non-ANTHC courses

ANTHP 10100 (STEM) - Human Evolution

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.
6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

CLA 20400 - Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/C

Introduction to ancient archaeology, including Greece and Rome, Mesopotamia, Egypt, Anatolia, and the Levant.
prereq: ENGL 12000
3 hrs
3 cr.

GEOG 10100 - People and Their Environment

Hunter Core
Individual and Society - Social Science
GER
2/B
A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life. Contemporary economic, political and social patterns and problems are discussed.

3 hrs
3 cr.
offered fall and spring.

GEOL 10000 - Introductory to Geology

Hunter Core
Scientific World (SW)
GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

Minor in Cultural Anthropology or Ethnology

The Cultural Anthropology Minor introduces students to the study of contemporary human cultures through a focus on cross-cultural similarities and differences in such areas as kinship, politics, economics, religion, sexuality, gender, and artistic production. The minor consists of a minimum of 12 credits from the courses listed below, as well as others that may be approved by the departmental undergraduate adviser. In order to graduate with a Cultural Anthropology Minor, students must earn a C grade or better in all the courses counted towards the minor.

ANTHC 10100 - Introduction to Cultural Anthropology

Hunter Core
Individual and Society (Social Sciences) -I&S SS
Pluralism and Diversity
PD/A
GER
2/B

Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.

3 hrs
3 cr.
offered every sem.
ANTHC 21500 - The Anthropology of Black America (W)

Pluralism and Diversity
GER
3/B

Examines anthropological knowledge about Black America and the various socio-political contexts in which this body of scholarship has been produced. Focuses on the politics of knowledge production on Black culture.

prereq: ENGL 12000
3 hrs
3 cr.

ANTHC 27500 - Reading Ethnographies (W)

GER
3/B

Examines the most significant mode of writing within cultural anthropology: the ethnography. Students explore interpretive, theoretical and political issues in the representation of cultures through close reading and analysis of ethnographic texts.

prereq: ANTHC 10100 or perm instr.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

ANTHC 30100 - Gender in Anthropological Perspective

Pluralism and Diversity
PD/C
GER
3/B

Men and women in different societies, division of labor, socialization, stratification, political activism and gender construction.

cross-listed WGSC 30100
prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 30900 - Countryside and City: Comparative Perspectives

Rural-urban connections and the transformations that affect rural areas and peoples in diverse parts of the world.

prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 31000 - Politics and Power in Anthropological Perspective
Pluralism and Diversity
PD/A
GER
3/B

Leadership, conflict, inequality, decision-making and law in different societies; interaction of local politics with state and global institutions.
prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 31800 - History of Anthropological Theory

Pluralism and Diversity
PD/D
GER
3/B

Changing approaches to the study of society and culture. Political and historical context of the development of theory, the link between theory and method and the impact of theory on policy.
prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 32000 - Problems in Anthropology

GER
3/B

Topics TBA. Recent courses have looked at globalization, social movements and civil society, energy policy, women and economic development, international migration. Depending on topic, may meet PD/A, B, or C.
prereq: perm instr.
3 hrs
3 cr.
offered every sem.

ANTHC 32200 - Family and Household in Anthropology and History

Pluralism and Diversity
PD/C
GER
3/B

Examines variations in household structure and family relations across cultures and over time, focusing on the relationship between domestic arrangements and other aspects of society.
prereq or coreq: ANTHC 10100
3 hrs
3 cr.

ANTHC 35100 - Language in Culture and Society
GER
3/B

Sociolinguistics; ethnography of communication; languages and dialects; face-to-face interaction; bilingualism in social and political life; language, ideology and identity.

3 hrs
3 cr.

ANTHC 40000 - Honors Projects

prereq: perm chair
offered every sem.

Minor in Physical Anthropology

The Physical Anthropology Minor introduces students to the study of human evolution, including human variation, paleontology, genetics, and primatology. The Minor consists of a minimum of 12 credits. These must include ANTHP 10100 (STEM) - Human Evolution (4 Cr). The remaining credits can be filled by any ANTHP courses. Also, one (and only one) non-ANTHP course from the following list may count towards the minor. In order to graduate with a Physical Anthropology Minor, students must earn a C grade or better in all the courses counted towards the minor.

Required course for the minor

ANTHP 10100 (STEM) - Human Evolution

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.

6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

ANTHP 30100 - Human Fossil Record

Pluralism and Diversity
PD/C
GER
3/B

The hominid fossil record of Africa, Asia and Europe. Human evolution as evidenced in fossil record.

prereq: ANTHP 10100, 10200, or equiv.

3 hrs
3 cr.

ANTHP 30200 - Human Genetics
Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

*prereq: ANTHP 10100 or ANTHP 10200 or BIOL 10200 or ANTHP 10500*

3 hrs

3 cr.

**ANTHP 31000 - Primate Ecology and Behavior**

**GER**

3/B

Examination of ecological factors responsible for the distribution and behavior of living primate species.

*prereq: ANTHP 10100 or 10200 or BIOL 10000 or 10200*

3 hrs

3 cr.

**ANTHP 31100 - Primate Evolution**

**GER**

3/B

65 million years of evolution covering the appearance and radiation of our own mammalian Order. A detailed look at the primate fossil record and the evolution of primate anatomy, behavior, and ecology.

*prereq: ANTHP 10100 or perm instr.*

3 hrs

3 cr.

**ANTHP 31200 - Primate Evolutionary Genetics**

Examines evolutionary relationships, social behavior, natural selection, disease, population history, demography, medicine and genomics. This course draws on readings from the primary literature.

*prereq: ANTHP 10100 OR ANTHP 10200 OR BIOL 10200 OR ANTHP 10500*

3 hrs

3 cr.

**ANTHP 31600 - Human Evolutionary Adaptations**

**GER**

3/B

How does the human body work, and how did it get that way? This course investigates the workings and evolution of all aspects of human biology. Human physiology is considered in an evolutionary framework.

*prereq: ANTHP 10100 or ANTHP 10500*

3 hrs

3 cr.

**ANTHP 40100 - Seminars in Selected Topics**
Course provides in-depth study of specific topics in field of physical anthropology.

prereq: prereq; depends on topic
3 hrs
3 cr.

Non-ANTHP courses

ANTHC 12600 - Introduction to Prehistoric Archaeology

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.
3 hrs
3 cr.
offered every sem.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 12000 - Anatomy and Physiology I

Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program.
Not accepted for credit toward the biology major.
prereq: CHEM 10000, 10100
coreq: CHEM 12000, 12100
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.
fall only

GEOL 10000 - Introductory to Geology
**Hunter Core**
Scientific World (SW)
GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

*3 hrs (3 lec, 3 lab)*

*3 cr.*

Offered fall and spring.

**PSYCH 16000 - Evolution and Behavior**

GER
2/B

Aggression, sleep, learning, communication, emotion, motivation and social behavior in human and other species; underlying mechanisms, development, evolutionary history.

*prereq: PSYC 10000*

*3 hrs*

*3 cr.*

**Honors Work**

Honors work is possible in each of the major branches of anthropology. The emphasis is on independent student research under the supervision of a faculty member. In order to graduate with departmental honors in anthropology, a student must: (1) have taken at least 2 credits of ANTHC 40000; (2) have a GPA in the major of not less than 3.5 and a cumulative GPA of not less than 2.8 at the time of graduation; and (3) complete a departmental honors form available from the departmental undergraduate adviser.

**ANTHC 40000 Honors Project**

(available to students in each of the four fields of anthropology) Open to qualified juniors and seniors every semester. Research under supervision of a faculty member. From 2 to 3 credits per semester, depending on the nature of the student's work. May be taken for 1, 2, or 3 semesters for a maximum of 6 credits. To apply, students must (1) present a research plan prepared in conjunction with a faculty member; (2) have this plan approved by the undergraduate adviser and the department chair; and (3) obtain approval prior to preregistration.

**Interdepartmental Fields**

Students who want to do work in anthropology as part of an interdepartmental field, such as Africana and Puerto Rican/Latino studies, Latin American and Caribbean studies, religion, urban affairs and planning, or women and gender studies, should refer to descriptions under the department or field of their interest.

**Area of Concentration 4: Labor, Migration and Globalization (WGSL)**
Courses with the prefix WGSL denote courses that can be taken under the area of concentration Labor, Migration and Globalization.

- WGSL 20600 - Gender and Immigration
- WGSL 20017 Globalization and Gender
- WGSL 31500 - Work and Society (W)
- WGSL 32100 - Women and Globalization
- WGSL 34500 - Women and Men in the Labor Market

In addition selected courses offered in other departments do meet the departmental requirement for this area of concentration. Such courses include but are not limited to:

- SOC 31500 Work and Society (W)
- ANTHC 32100 Women and Globalization
- ECO 34500 Women and Men in the Labor Market
- ENGL 32956 – Migration and Immigration in the 20th Century
- SOC 32551 – Women and Work

Check the Women and Gender Studies Department to see the complete list of courses that meet the area of concentration requirement for the major. Also on the department website, check the Schedule of Classes to see which of these courses are offered each semester.

Art History - BA

Art History- BA

The Department of Art and Art History offers introductory, intermediate and advanced courses in art history. The major consists of 3 credits in a foundational course and 30 credits in the major. No more than 15 credits transferred from another institution may be applied to the major.

The Art History BA is intended for students interested in a liberal arts education in the humanities or students planning to continue their art history studies in a graduate program. A broad range of courses from different fields, rather than specialization in one area, is encouraged. In order to declare a major in art history, students must have taken ARTH 11100. Majors who have completed 3 credits in art history beyond ARTH 11100 are eligible to take the required seminar, Research Methods of Art History ARTH 30000, to be programmed in consultation with an art history adviser.

Majors planning graduate study in art history should discuss with an art history adviser the requirements for graduate admission, including graduate language requirements; this should be done during an early semester.

Students may declare a double major in Studio Art (24 cr.)

Note: At least one class numbered ARTH 31100 (W) - ARTH 38100 (W) must be taken in the major (either to fulfill a distribution area or as a major elective)

Required Courses for the BA in Art History

Foundational Course

ARTH 11100 - Introduction to History of Art
**Hunter Core**
Individual and Society (Humanities) - I&S H

**Pluralism and Diversity**
PD/D
GD/D

Changing forms and subjects of art in several periods of Western civilization, including ancient Greece and Rome, Middle Ages in Western Europe, Renaissance, baroque, modern, American; also Islamic and African art.

3 hrs
3 cr. cr

One course in each of four distribution areas 12 cr.

Note: Distributions can be met via 200-, 300- or 400-level courses.

**Distribution areas**

(If in doubt, consult with an adviser)

1) Ancient and Medieval (including Egyptian, Greek, Roman)

2) Renaissance and Baroque (including 18th Century and Colonial Latin American)

3) Modern: 18th, 19th, 20th, and 21st century (including Modern Latin American)

4) Islamic, Asian (including Indian, Chinese and Japanese) and African

**ARTH 30000 Research Methods**

**ARTH 30000 - Research Methods of Art History Seminar (W)**

**GER**
3/A

Training in fundamental methods of learning and writing about works of art through visual analysis and art-historical research, focusing on a particular area in art history, and culminating in a substantial academic research paper.

*prereq: ARTH 11100 and one 200-level art history course*

3 hrs
3 cr.

At least one Advanced Studies Seminar (41000-48000 level) 3 cr.

(Prerequisite: ARTH 30000 Research Methods) 3 cr.

**ARTLA 3 cr.**

**ARTLA 10100 - Introduction to Study of Visual Experience**
Introduction to conceiving and formulating ideas for visual experience. Students work in 3 different areas in day session, 2 in evening session.
Material Fee: $25
6 hrs
3 cr. + 3 cr. hrs open studio

Please note: ARTLA 10100, or any studio course taken for the Studio Art 24cr major, cannot count toward both the Studio Art (24cr) major and the Art History major. To replace the ARTLA 10100 requirement, Art History majors double-majoring in Studio Art (24cr) must choose a replacement course in consultation with the Art History adviser. The replacement course may be a Studio Course (ARTCR), an Art History course (ARTH), or a cognate in another department, such as Classics, Religion, or History.

3 additional courses 9 cr.

3 additional courses, from any of the department offerings in art history at the 200, 300 or 400 level

Total 33 cr.

Notes:

only grades of C and above can be counted toward the Art History major

Graduate Study

The Department of Art and Art History offers a number of courses, listed in the Graduate Catalog http://catalog.hunter.cuny.edu/index.php?catoid=22, that may be credited toward the degree of bachelor of arts. Qualified undergraduate art history students in the senior year may be admitted to these courses with the approval of the graduate art history adviser.

Minor in Art History

A minor in art history is also available consisting of 12 credits as follows: ARTH 11100 Introduction to the History of Art, followed by 9 credits selected from the other department offerings. No more than 6 credits transferred from another institution may be applied to the minor.

Honors

Art History Major students wishing to graduate with honors must consult an adviser to make an official application for consideration by the faculty members on the Undergraduate Art History Committee on Honors. Application forms are in the Art and Art History office, Room 11054 Hunter North. Major credits must have been completed with a 3.7 grade point average, and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Students must submit a research paper written for Research Methods of Art History ARTH 30000 or an Advanced Studies Seminar ARTH 41000-ARTH 48000 with instructor's comments, edits, and grade, to the department's Undergraduate Art History Committee on Honors. The paper must have received a minimum grade of A-. Papers written for other art history courses may be considered if they conform to the requirements for an Advanced Studies Seminar; consult with an adviser. The committee will review the complete application to determine if the student merits departmental honors.
Biological Sciences

Return to: Biological Sciences-BA

The major in Biological Sciences has the following Concentrations:

- Basic (shown below)

Three other concentrations that are slightly more rigorous than the basic major. Interested students should speak with a biology adviser as soon as possible to plan their courses accordingly.

- Behavioral Neurobiology
- Bioinformatics
- Biophysics

Foundational Courses

Foundational Courses for the Biology Major (all concentrations) must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

MATH 12600 - Precalculus Technology Laboratory

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: MATH 12500
2 hrs
1 cr.

Hunter Core Requirement
Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement.

Major

The basic major is for students who intend to prepare for graduate study, medicine, dentistry, secondary school teaching, biotechnology and industry. Students planning to pursue the biology major are strongly encouraged to declare their major as soon as possible after completing one semester of Principles of Biology. Declared majors are assigned a permanent faculty advisor who will assist in individual curriculum planning. Students are required to meet with their advisor at least once each semester throughout their undergraduate career to discuss their program and progress.

A. Introductory Biology (9 cr.)

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
PD/C or D

GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: MATH 12500, CHEM 10200

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

Pluralism and Diversity
PD/C or D

GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

fall only
B. 200-level and higher Concentration in Biology (24.5 cr.)

1. Required Courses (13.5 cr.)

**BIOL 20300 - Molecular Biology and Genetics**

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

*prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv. (for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)
coreq: CHEM 22200, 22300 or perm instr.*

7 hrs
4.5 cr.
spring only

**BIOL 30000 - Biological Chemistry**

**GER 3/B**

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10

*prereq: Open only for majors.*

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

**BIOL 30300 - Cell Biology**

This Biology major capstone course builds upon what has been learned in molecular biology & genetics and biochemistry providing and integrated look at the molecular biology of the cell. Separated into 5 units, the lecture and laboratory components are coordinated. The course includes integrated components in the following eukaryotic cell biology areas through the following 5 units: 1. Introduction: Cell morphology and commonly used techniques for examining the cell. An introduction to cell proliferation, cell motility, and cell communication (comparing prokaryotic and eukaryotic systems). 2.Cell Cycle Regulation: Cell cycle regulation, cellular signal transduction, regulation of cell proliferation and cell growth, cell death mechanisms, and de-regulation of cell growth the process of tumorigenesis. 3. Membranes and Cytoskeleton: Membranes, cytoskeleton, and signaling, are including mechanisms for transport and cellular channels for intracellular and intercellular communication. Human biology and disease as it pertains to membrane biology. 4. Organelles: Intracellular organelles are examined in detail for their structures and functions. This includes, but is not limited to, mitochondrial function and energy production, protein degradation pathways and intracellular trafficking. 5.Cell Communication: Cellular differentiation, cell-cell communication, and an introduction
to development.

prereq: Advisor permission; BIOL 30000 or instructor permission
7 hrs
4.5 cr
spring only

2. Electives (11 credits)

Students select the remainder of their credits toward the Biology Major from advanced courses in the biological sciences so as to create a core area of study. Eleven credits are required to complete the major. A minimum of two elective lecture courses must be taken, with at least one course at the 30000 level or higher, in addition to BIOL 30000 and BIOL 30300, for a minimum of six credits. For the remaining elective credits, at least one special-topics course must be taken (BIOL 47000 or BIOL 47100 or BIOL 79000; various topics offered each semester) in addition to other lecture or research courses. There are some BIOL courses that do not count as electives towards the Biology Major (e.g. BIOL 12000, BIOL 12200 and BIOL 23000). Please read the course descriptions carefully to identify those courses. If you have any questions about which courses can be used as major electives, please speak to your Biology department advisor. Students with strong interdisciplinary interests may select advanced course offerings in other departments after approval by their adviser. Four credits of laboratory research are recommended and can count towards the total elective credits either from a laboratory elective course or from research within an approved research laboratory. Laboratory research credits are taken as a BIOL 48000 research course for a maximum of two credits per semester and require a written report or presentation of work required for completion of course. Laboratory research credits can also be obtained from BIOL 61000.

Together, introductory biology and the concentration (33.5 cr.) satisfy the major requirement for certification as a teacher of biology in grades 7-12.

Additional science and math requirements for the major:

- CHEM 10200 (STEM), CHEM 10400 (STEM), CHEM 10600 (STEM), CHEM 22200, CHEM 22300, CHEM 22400
- PHYS 11000 (STEM), PHYS 12000 (STEM) (or PHYS 11100 (STEM), PHYS 12100 (STEM))
- MATH 15000 (STEM); MATH 15500 (STEM) or STAT 21300 (STEM)

Allied courses credits required: 37.5-44.5, including MATH 12500 (STEM) or placement test.

Curriculum Guide for Biology Major

Year 1

Fall

CHEM 10200 (STEM) - General Chemistry I
In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.

Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

Spring

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

CHEM 10400 (STEM) - General Chemistry II
**Hunter Core**  
Life and Physical Sciences (LPS) Scientific World (SW)  
**GER**  
2/E  

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.  
**prereq:** CHEM 10200 with grade of C or better or CHEM 10000 with perm chair  
5 hrs (4 lec, 1 rec)  
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**  
Life and Physical Sciences (LPS); Scientific World (SW)  
**Pluralism and Diversity**  
GER 2/E  

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.  
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.  
**prereq:** CHEM 10200  
**coreq:** CHEM 10400  
6 hrs  
3 cr.

**Year 2**

**Fall**

**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)  
**Pluralism and Diversity**  
PD/C or D  
**GER**  
2/E  

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.  
Material fee: $5  
PD credit awarded only upon completion of BIOL 10000 and 10200.  
**prereq:** BIOL 10000 or perm instr, MATH 10100 or equiv.  
7 hrs (3 lec, 3 lab, 1 disc)  
4.5 cr.  
fall only

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**
Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER
3/B

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10500 or CHEM 10600
prereq or coreq: CHEM 22200
4 hrs
2.5 cr.

Spring

BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.
prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv. (for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100) coreq: CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

Year 3

Fall
BIOL 30000 - Biological Chemistry

GER
3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10
prereq: Open only for majors.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.
prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.
prereq or coreq: coreq (with perm dept.): MATH 15000
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.
• 30000-level BIOL electives

Spring

BIOL 30300 - Cell Biology

This Biology major capstone course builds upon what has been learned in molecular biology & genetics and biochemistry providing and integrated look at the molecular biology of the cell. Separated into 5 units, the lecture and laboratory components are coordinated. The course includes integrated components in the following eukaryotic cell biology areas through the following 5 units: 1. Introduction: Cell morphology and commonly used techniques for
examining the cell. An introduction to cell proliferation, cell motility, and cell communication (comparing prokaryotic
and eukaryotic systems). 2. Cell Cycle Regulation: Cell cycle regulation, cellular signal transduction, regulation of cell
proliferation and cell growth, cell death mechanisms, and de-regulation of cell growth the process of tumorigenesis. 3.
Membranes and Cytoskeleton: Membranes, cytoskeleton, and signaling, are including mechanisms for transport and
cellular channels for intracellular and intercellular communication. Human biology and disease as it pertains to
membrane biology. 4. Organelles: Intracellular organelles are examined in detail for their structures and functions. This
includes, but is not limited to, mitochondrial function and energy production, protein degradation pathways and
intracellular trafficking. 5. Cell Communication: Cellular differentiation, cell-cell communication, and an introduction
to development.

prereq: Advisor permission; BIOL 30000 or instructor permission
7 hrs
4.5 cr

spring only

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and
Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.
prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and
Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.
prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

- 30000/40000-level BIOL electives

Year 4

Fall

- 30000 and 40000-level BIOL electives

Spring
• 30000 and 40000-level BIOL electives

Note(s)

*We recommend that math, physics and chemistry courses be completed as early as the student's schedule allows. Note that CHEM 22200 and CHEM 22300 must be taken prior to BIOL 30000; otherwise, instructor permission is required. Students who are behind in the chemistry sequence are urged to take advantage of the summer session, during which these chemistry courses are usually offered.

Biological Sciences - BA

The Department of Biological Sciences offers a single major for students who intend to prepare for graduate study, medicine, dentistry, secondary school teaching, biotechnology and industry. This Major is equivalent to and replaces the Major I program from previous years. Students planning to pursue a Biology major are strongly encouraged to declare their major as soon as possible after completing one semester of Principles of Biology.

Declared majors are assigned a permanent faculty adviser who will assist in individual curriculum planning. Students are required to meet with their adviser at least once each semester throughout their undergraduate career to discuss their program and progress.

• Biological Sciences

CR/NC Policy

Only a letter grade (A, B, C, D, including + or -) will be accepted by the department in the required science and mathematics courses for the biology major.

Minor for other Majors

The minor in Biological Sciences gives students a basic understanding of biology from the molecular and cellular to the organismal and population level. This includes both theoretical aspects presented in lecture as well as practical aspects presented in lab. Flexibility is built into the minor to allow students to select courses corresponding to their interests. In order to minor in Biological Sciences a student must pass four courses resulting in a minor GPA of 2.0 or higher. All students who want a Minor in Biological Sciences must take:

• BIOL 10000 (STEM) - Principles of Biology I and BIOL 10200 (STEM) - Principles of Biology II or BIOL 10000 (STEM) - Principles of Biology I and BIOL 16000 - Honors Principles of Biology II or the equivalent

• two additional courses in Biological Sciences, one of which must be at the 20000 level or higher

Number of Credits: A minimum of 12 credits. Transfer credits may be applied. At least 2 courses must be taken at Hunter College.

Opportunities for Undergraduates in Biological Sciences

Undergraduate Research Students who wish to undertake a research project under the supervision of a faculty member must first obtain written permission from that faculty member and then register for BIOL 48000. Research opportunities for undergraduates at Hunter are available in cell and molecular biology, developmental biology, neuroscience, cancer biology, AIDS, microbiology and a variety of other contemporary areas. In some cases students may be permitted to work at one of the several neighboring research institutions. Synopses of faculty research interests can be obtained in the department office or from the Department of Biological Sciences Web
site http://Biology.hunter.cuny.edu). In addition, there are summer research opportunities available at Cold Spring Harbor Laboratory and Woods Hole Research Center through the Howard Hughes Medical Institute. Please note that, to qualify for departmental honors at graduation, there is a research requirement.

Honors Work

In order to qualify for departmental honors, students must have a departmental GPA of at least 3.5 and an overall GPA of at least 3.0. They must also satisfy a research requirement consisting of either:

(a) at least 2 research credits of

**BIOL 48000 - Introduction to Experimental Biology**

**GER**

3/B

Laboratory research under guidance of faculty member. Work at another institution may be permitted under auspices and supervision of a faculty member. Written report or presentation of work required for completion of course. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors and a maximum of 4 credits can count towards the Biology major. Since student research projects can take more than one semester, and students can develop and expand their research into continuing and related projects, this course may be repeated an unlimited number of times.

*prereq: BIOL 10000 and 10200, Departmental permission prior to registration.*

*hrs TBA*

*1-2 cr. per sem.*

**BIOL 48100 - Introduction to Experimental Biology**

**GER**

3/B

Laboratory research under guidance of faculty member. Work at another institution may be permitted in some cases, under auspices of a faculty member. Written report required upon completion of research. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors.

*prereq: BIOL 10000 and 10200, BIOL 20000 or 20200 (or the equiv), written perm instr. prior to reg.*

*TBA*

*1-2 credits per semester*

**BIOL 48200 - Introduction to Experimental biology**

**GER**

3/B

Laboratory research under guidance of faculty member. Work at another institution may be permitted in some cases, under auspices of a faculty member. Written report required upon completion of research. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors.

*prereq: BIOL 10000 and 10200, BIOL 20000 or 20200 (or the equiv), written perm instr. prior to reg.*

*TBA*

*1-2 credits per semester*
BIOL 48300 - Introduction to Experimental Biology

GER
3/B

Laboratory research under guidance of faculty member. Work at another institution may be permitted in some cases, under auspices of a faculty member. Written report required upon completion of research. A minimum of 2 credits satisfies the research requirement for graduation with departmental honors.

prereq: BIOL 10000 and 10200, BIOL 20000 or 20200 (or the equiv), written perm instr. prior to reg.
hrs TBA
1-2 cr. per sem.

or (b) at least one course chosen from among

BIOL 39000 - Laboratory in Cell Structure

GER
3/B

Applications of light and confocal microscopy, using fluorescence and multidimensional imaging to study cell structures. Lab projects involve immunofluorescence: fixation methods and immunocytochemistry. Illumination methods including multi-channel 3D rendering, image processing and visualization software.

prereq or coreq: BIOL 30000 or BIOL 20200 and perm instr.
7 hrs (2 lecture, 5 lab)
4.5 cr.
fall only

BIOL 39100 - Laboratory in Cell Structure -- Biological Electron Microscopy

The students will learn basic concepts of transmission electron microscope, principles of biological sample preparation for transmission electron microscopy, various electron microscopy applications, to be familiar with the morphology of different organelles inside the mammalian cell, and understand the functions of each organelle. Lab projects involve: (1) perfusion fixation of mouse tissues; (2) routine transmission electron microscopy sample preparation; (3) techniques and tools used for microtomy; (4) transmission electron microscope alignment; and (5) imaging various cellular ultra-structures using a transmission electron microscope.

prereq or coreq: Instructor Permission
7 hrs.
4 cr.
spring only

Additional Information

The research requirement includes a written report resulting from work in any of these courses.

Accelerated Bachelor's/Master's Programs in Biological Sciences

BA/MA Program in Biological Sciences and Adolescent Education: Biology
This is an accelerated program leading to a BA in Biological Sciences and an MA in Adolescent Education: Biology. Undergraduates admitted to the program start graduate courses during their senior year and will be able to complete the MA degree one year after they complete the requirements for the BA degree. Interested students should contact a Biology Department adviser early in their undergraduate career.

**BA/MA Program with Specialization in Biotechnology**

In this five-year program, qualified biology majors begin graduate work as seniors and receive the MA one year after completing BA requirements. Students are provided with theoretical knowledge and skills in molecular biology and a foundation for application of these skills in careers in the biotechnology and pharmaceutical industries, academic research, or public health. Successful completion of the biotechnology workshop, BIOL 61000, an essential program component, entitles students to a summer internship in an industrial or private research laboratory. Interested biology majors should contact a departmental adviser as early as possible.

**BA/MS Program in Biological Sciences/Environmental and Occupational Health Sciences**

This is an accelerated program leading to a BA in biology and an MS in environmental and occupational health sciences in five years. Biology majors admitted to the program start graduate work in their senior year. Interested students should contact a departmental adviser early in their undergraduate studies, as well as the office of the Director of the Environmental and Occupational Health Sciences Program at the CUNY School of Public Health at Hunter College. The program provides biology majors with a career option in public health.

**BS/MA Program in Medical Laboratory Sciences and Biotechnology**

Qualified medical lab science seniors may apply to the BS/MA collaboration: Medical Laboratory Sciences with Specialization in Biotechnology - Accelerated BS/MA between the department of Medical Laboratory Sciences and the department of Biological Sciences. An intensive techniques workshop (BIOL 61000 -see the graduate catalog) is taken prior to graduation and upon successful completion, students may continue with professional internship and the MA program, allowing MLS graduates to complete the degree at an accelerated pace.

**MA Program in Biological Sciences**

See Career Planning-Graduate Study.

**Biological Sciences: Concentration in Behavioral Neurobiology**

Return to: Biological Sciences

The concentration in Behavioral Neurobiology within the Department of Biological Sciences, one of the options for Major I, has the following required courses and schedule.

**Required Courses**

**BIOL 10000 (STEM) - Principles of Biology I**
Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: MATH 12500, CHEM 10200

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

Pluralism and Diversity
PD/C or D
GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

fall only

BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.
(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)
coreq: CHEM 22200, 22300 or perm instr.

7 hrs
4.5 cr.

spring only

BIOL 30000 - Biological Chemistry
GER
3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10
prereq: Open only for majors.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

BIOL 30300 - Cell Biology

This Biology major capstone course builds upon what has been learned in molecular biology & genetics and biochemistry providing and integrated look at the molecular biology of the cell. Separated into 5 units, the lecture and laboratory components are coordinated. The course includes integrated components in the following eukaryotic cell biology areas through the following 5 units: 1. Introduction: Cell morphology and commonly used techniques for examining the cell. An introduction to cell proliferation, cell motility, and cell communication (comparing prokaryotic and eukaryotic systems). 2. Cell Cycle Regulation: Cell cycle regulation, cellular signal transduction, regulation of cell proliferation and cell growth, cell death mechanisms, and deregulation of cell growth the process of tumorigenesis. 3. Membranes and Cytoskeleton: Membranes, cytoskeleton, and signaling, are including mechanisms for transport and cellular channels for intracellular and intercellular communication. Human biology and disease as it pertains to membrane biology. 4. Organelles: Intracellular organelles are examined in detail for their structures and functions. This includes, but is not limited to, mitochondrial function and energy production, protein degradation pathways and intracellular trafficking. 5. prereq: Advisor permission; BIOL 30000 or instructor permission
7 hrs
4.5 cr
spring only

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II
Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER 2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.
MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.
prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.
prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

PSYCH 10000 - Introduction to Psychology

GER
2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.
3 hrs
3 cr.

PSYCH 25000 - Experimental Psychology: General
Open to declared majors only. Research and general experimental techniques in study of behavior. Introduction to the principles of research methodology and experimental techniques. Required research reports involve a variety of laboratory exercises related to the study of basic behavioral processes. (Students may take either PSYC 24900 or 25000, but not both.)

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000 with a minimum grade of C; one sem. acceptable lab science sequence with a passing grade;
PSYCH 24800 with a minimum grade of C
prereq or coreq: Writing Intensive
6 hrs (2 lec, 4 lab)
4 cr.

PSYCH 24800 - Statistical Methods in Psychological Research

Open to declared majors only. Analysis and interpretation of quantified data. Descriptive and inferential statistics applied to psychological research.

Writing Intensive

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: PSYCH 10000 and any other 3 cr PSYCH course, MATH 12500 or STAT 11300 with a C or better, or appropriate score on math placement exam
prereq or coreq: ENGL 12000
4 hrs
4 cr.

BIOL 47000 - Special Topics in Biology

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

prereq: BIOL 30000
2 hrs (lec)
2 cr. per sem.

BIOL 47100 - Special Topics in Biology

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written
paper are required.

\textit{prereq: BOL 30000}

3 hrs (lec)

3 cr. per sem.

Electives

9 credits, 6 of which must be PSYCH

**PSYCH 30100 - Sensation and Perception (B; C)**

**GER**

3/B

Open to declared majors only. Methods, theories and empirical data relating to stimulus detection, encoding and perception as a function of variables including current stimuli and past history.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

\textit{prereq: ENGL 12000. PSYCH 24900 or 25000}

3 hrs

3 cr.

**PSYCH 30900 - Behavioral Neuroendocrinology (B; D/S)**

**Pluralism and Diversity**

PD/C

**GER**

3/B

Research and attitudes about sex-related behavior in human and nonhuman animals emphasizing evolutionary and neuroendoinological processes and social-psychological processes; male-female differences and similarities, therapeutic strategy in sex-behavior pathology and sexual behavior and the law.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

\textit{prereq: ENGL 12000. PSYCH 24900 or 25000}

3 hrs

3 cr.

**PSYCH 32700 - Motivation and Emotion (B; C)**

**GER**

3/B

The question of how behavior is initiated, maintained, directed and terminated. Human and non-human research evaluated.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a
psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

**prereq:** ENGL 12000, PSYCH 24900 or 25000

3 hrs

3 cr.

**PSYCH 36900 - Behavioral Pharmacology (B)**

**GER**

3/B

This course will provide information on the interrelationship of pharmacology and behavior. The relationship of licit, illicit and therapeutic drugs and their use and abuse will be explored in the context of their historical use and biological effects. Topics discussed include an overview of the nervous system, basic psychopharmacology, drug classification and specific drugs such as alcohol, nicotine, narcotics, marijuana, and psychotherapeutic agents.

**prereq:** ENGL 12000, PSYCH 24900 or 25000, PSYCH 30000 or perm instr.

3 hrs

3 cr.

**BIOL 37000 - Physiology of the Nervous System**

**GER**

3/B

A comprehensive introduction to neuroscience. Topics include how nerve cells (neurons) transmit electrical impulses, how neurons communicate with each other through synapses and how nerve pathways and networks determine many functions of the brain. The last portion of the course shall explore how developing neurons seek out targets and establish synapses.

**prereq:** BIOL 30000 or perm instr.

4 hrs (lec)

4 cr.

spring only

**BIOL 37600 - Endocrinology**

**GER**

3/B

Cellular organization of the endocrine system; molecular mechanisms of hormone action; hormonal physiology of metabolism and reproduction; integration of endocrine responses by the central nervous system.

**prereq:** BIOL 20200 or perm instr.

3 hrs (lec)

3 cr.

spring only

**BIOL 38000 - Molecular Neurobiology**

**GER**

3/B

Molecular components and molecular mechanisms involved in the cell biology of neurons and glia, neuronal signaling,
neuronal development, learning, memory and diseases of the nervous system.

*prereq: BIOL 30000 or perm instr.*

3 lec hrs
3 cr.

*fall only*

**Total: 72.5 Credits**

Curriculum common to Behavioral Neurobiology Students (Biology/Psychology)

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: MATH 12500, CHEM 10200*

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

*spring only*

**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.*

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

*fall only*

**BIOL 20300 - Molecular Biology and Genetics**
This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.
(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)
coreq: CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.

PSYCH 10000 - Introduction to Psychology

GER
2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize
the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.

3 hrs
3 cr.

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

**prereq:** grade of C or better in MATH 12500 or appropriate score on placement exam.

4 hrs
4 cr.

**CHEM 22200 - Organic Chemistry Lecture I**

**GER**
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

*Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.*

**prereq:** CHEM 10400 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.

**PSYCH 24800 - Statistical Methods in Psychological Research**

**GER**
3/B

Open to declared majors only. Analysis and interpretation of quantified data. Descriptive and inferential statistics applied to psychological research.

Writing Intensive

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

**prereq:** PSYCH 10000 and any other 3 cr PSYCH course, MATH 12500 or STAT 11300 with a C or better, or appropriate score on math placement exam

**prereq or coreq:** ENGL 12000

4 hrs
4 cr.
PSYCH 25000 - Experimental Psychology: General

GER
3/B

Open to declared majors only. Research and general experimental techniques in study of behavior. Introduction to the principles of research methodology and experimental techniques. Required research reports involve a variety of laboratory exercises related to the study of basic behavioral processes. (Students may take either PSYC 24900 or 25000, but not both.)

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

Prereq: ENGL 12000 with a minimum grade of C; one sem. acceptable lab science sequence with a passing grade; PSYCH 24800 with a minimum grade of C
Prereq or coreq: Writing Intensive
6 hrs (2 lec, 4 lab)
4 cr.

- Biology BN elective
- Psychology BN elective
- Independent Research
- Behavioral Neurobiology Seminar*
  * This interdisciplinary course will serve as a discussion group for research articles of current interest to the Neuroscience community; as a venue for student research presentations and as a venue at which visiting may meet informally with Neuroscience undergraduates.

Schedule

A typical timetable for graduation is presented below.

Fall (Year 1)

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

Prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.
MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

Spring (Year 1)

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory. Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

PSYCH 10000 - Introduction to Psychology

GER 2/B
An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.
3 hrs
3 cr.

Fall (Year 2)

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
Pluralism and Diversity
PD/C or D
GER 2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology. Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER 2/E

First semester of two-semester introductory physics course using algebra.
prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

Spring (Year 2)

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.
prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as
recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv. (for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)
coreq: CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

Fall (Year 3)

BIOL 30000 - Biological Chemistry

GER
3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10
prereq: Open only for majors.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

PSYCH 24800 - Statistical Methods in Psychological Research

GER
3/B

Open to declared majors only. Analysis and interpretation of quantified data. Descriptive and inferential statistics applied to psychological research.

Writing Intensive

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: PSYCH 10000 and any other 3 cr PSYCH course, MATH 12500 or STAT 11300 with a C or better, or appropriate score on math placement exam
prereq or coreq: ENGL 12000
4 hrs
4 cr.

Spring (Year 3)

BIOL 30300 - Cell Biology
This Biology major capstone course builds upon what has been learned in molecular biology & genetics and biochemistry providing and integrated look at the molecular biology of the cell. Separated into 5 units, the lecture and laboratory components are coordinated. The course includes integrated components in the following eukaryotic cell biology areas through the following 5 units: 1. Introduction: Cell morphology and commonly used techniques for examining the cell. An introduction to cell proliferation, cell motility, and cell communication (comparing prokaryotic and eukaryotic systems). 2.Cell Cycle Regulation: Cell cycle regulation, cellular signal transduction, regulation of cell proliferation and cell growth, cell death mechanisms, and de-regulation of cell growth the process of tumorigenesis. 3. Membranes and Cytoskeleton: Membranes, cytoskeleton, and signaling, are including mechanisms for transport and cellular channels for intracellular and intercellular communication. Human biology and disease as it pertains to membrane biology. 4. Organelles: Intracellular organelles are examined in detail for their structures and functions. This includes, but is not limited to, mitochondrial function and energy production, protein degradation pathways and intracellular trafficking. 5.Cell Communication: Cellular differentiation, cell-cell communication, and an introduction to development.

**prereq:** Advisor permission; BIOL 30000 or instructor permission

7 hrs
4.5 cr
spring only

**PSYCH 25000 - Experimental Psychology: General**

**GER**
3/B

Open to declared majors only. Research and general experimental techniques in study of behavior. Introduction to the principles of research methodology and experimental techniques. Required research reports involve a variety of laboratory exercises related to the study of basic behavioral processes. (Students may take either PSYC 24900 or 25000, but not both.)

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

**prereq:** ENGL 12000 with a minimum grade of C; one sem. acceptable lab science sequence with a passing grade; PSYCH 24800 with a minimum grade of C
**prereq or coreq:** Writing Intensive

6 hrs (2 lec, 4 lab)
4 cr.

**BIOL 47000 - Special Topics in Biology**

**GER**
3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

**prereq:** BIOL 30000

2 hrs (lec)
2 cr, per sem.

**Fall (Year 4)**

**BIOL 38000 - Molecular Neurobiology**
Molecular components and molecular mechanisms involved in the cell biology of neurons and glia, neuronal signaling, neuronal development, learning, memory and diseases of the nervous system.

prereq: BIOL 30000 or perm instr.
3 lec hrs
3 cr.
fall only

BIOL 37600 - Endocrinology

GER
3/B

Cellular organization of the endocrine system; molecular mechanisms of hormone action; hormonal physiology of metabolism and reproduction; integration of endocrine responses by the central nervous system.

prereq: BIOL 20200 or perm instr.
3 hrs (lec)
3 cr.
spring only

PSYCH 30100 - Sensation and Perception (B; C)

GER
3/B

Open to declared majors only. Methods, theories and empirical data relating to stimulus detection, encoding and perception as a function of variables including current stimuli and past history.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000. PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 30900 - Behavioral Neuroendocrinology (B; D/S)

Pluralism and Diversity
PD/C
GER
3/B

Research and attitudes about sex-related behavior in human and nonhuman animals emphasizing evolutionary and neuroendocrinological processes and social-psychological processes; male-female differences and similarities, therapeutic strategy in sex-behavior pathology and sexual behavior and the law.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000. PSYCH 24900 or 25000
3 hrs
3 cr.

Sub-total 63.5

Electives 9

Total credits required 72.5

**Biological Sciences: Concentration in Bioinformatics**

Return to: Biological Sciences

The requirements and schedule for the Concentration in Bioinformatics, one of the options in Biological Sciences Major I, are as follows:

**Required Courses**

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only*

**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.
BIOL 30000 - Biological Chemistry

GER
3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10

prereq: Open only for majors.

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.

Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.

5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)

GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair

5 hrs (4 lec, 1 rec)
4 cr.
CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.
MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

STAT 21200 - Discrete Probability

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

prereq: MATH 12500 or STAT 11300 or appropriate score on placement exam.
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.

prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.
**PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**  
Scientific World (SW) Life and Physical Sciences (LPS)  
GER  
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.  
**prereq or coreq:** coreq (with perm dept.): MATH 15000  
8 hrs (4 lec, 3 lab, 1 rec)  
5.5 cr.

**PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)  
GER  
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.  
**prereq:** PHYS 11000 or 11100  
7 hrs (3 lec, 3 lab, 1 rec)  
4.5 cr.

**PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)  
GER  
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.  
**prereq:** PHYS 11000 or 11100  
**prereq or coreq:** (with perm dept.): MATH 15500  
8 hrs (4 lec, 3 lab, 1 rec)  
5.5 cr.

**Electives (10 credits)**

**ANTHP 30200 - Human Genetics**

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.  
**prereq:** ANTHP 10100 or ANTHP 10200 or BIOL 10200 or ANTHP 10500  
3 hrs  
3 cr.
CHEM 38800 - Topics of Current Interest in Chemistry

Pluralism and Diversity
GER 3/B
Offered subject to adequate student interest and enrollment. Taught by specialists from department faculty. The specific topic will be listed in the schedule of classes for a given semester.

prereq or coreq: CHEM 35200 and CHEM 35600 or perm instr.
3 hrs
3 cr.

BIOL 42500 - Computational Molecular Biology

GER
3/B
An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of in silico biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and predication of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.
prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.
3 hrs
3 cr.

BIOL 47100 - Special Topics in Biology

GER
3/B
Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.
prereq: BIOL 30000
3 hrs (lec)
3 cr. per sem.

Total Credits (72 to 74 credits)

Schedule

A typical timetable for graduation is presented below.

Fall (Year 1) 11.5 credits

BIOL 10000 (STEM) - Principles of Biology I
Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

Spring (Year 1) 14.5 credits

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
**Pluralism and Diversity**

PD/C or D  
GER  
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.*

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**  
Life and Physical Sciences (LPS) Scientific World (SW)  
GER  
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

*prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair*

5 hrs (4 lec, 1 rec)

4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**  
Life and Physical Sciences (LPS); Scientific World (SW)  
**Pluralism and Diversity**  
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq: CHEM 10200*

*coreq: CHEM 10400*

6 hrs

3 cr.

**MATH 15500 (STEM) - Calculus with Analytic Geometry II**

**Hunter Core**  
Math/Quantitative Reasoning  
GER  
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

Fall (Year 2) 12 credits

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.
prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

Spring (Year 2) 7.5 credits

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics
Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

**prereq:** PHYS 11000 or 11100

7 hrs (3 lec, 3 lab, 1 rec)

4.5 cr.

**Fall (Year 3) 10.5 credits**

**BIOL 30000 - Biological Chemistry**

**GER**

3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10

**prereq:** Open only for majors.

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

**fall only**

**CSCI 13200 - Practical UNIX and Programming, with Lab**

**Hunter Core**

Scientific World (SW)

**GER**

2/E

An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition. This course cannot be counted towards the CSCI major.

**prereq:** none

3 hrs

3 cr.

**STAT 21200 - Discrete Probability**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.
prereq: MATH 12500 or STAT 11300 or appropriate score on placement exam.
3 hrs
3 cr.

Spring (Year 3) 6 credits

CSCI 23200 - Relational Databases and SQL Programming, with Lab

GER
3/B

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment. Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

prereq: CSCI 12700 or CSCI 13200
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

Fall (Year 4) 5 credits

• BIOL 3XX

BIOL 47100 - Special Topics in Biology

GER
3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

prereq: BIOL 30000
3 hrs (lec)
3 cr. per sem.

Spring (Year 4) 5 credits
ANTHP 30200 - Human Genetics

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

prereq: ANTHP 10100 or ANTHP 10200 or BIOL 10200 or ANTHP 10500
3 hrs
3 cr.

BIOL 47100 - Special Topics in Biology

GER
3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.
prereq: BIOL 30000
3 hrs (lec)
3 cr. per sem.

Biological Sciences: Concentration in Biophysics

Return to: Biological Sciences

The requirements and timetable for graduation for the Concentration in Biophysics, one of the options in the Biological Sciences Major I, are as follows:

Required Courses

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 10200 (STEM) - Principles of Biology II
**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**  
PD/C or D  
GER  
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.  
Material fee: $5  
PD credit awarded only upon completion of BIOL 10000 and 10200.  
prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.  
7 hrs (3 lec, 3 lab, 1 disc)  
4.5 cr.  
fall only

**BIOL 30000 - Biological Chemistry**  
GER  
3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.  
Material Fee: $10  
prereq: Open only for majors.  
7 hrs (3 lec, 3 lab, 1 disc)  
4.5 cr.  
fall only

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)  
GER  
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.  
Primarily for pre-med, medical laboratory sciences and science majors.  
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.  
prereq or coreq: MATH 12500, 15000 or equiv.  
5 hrs (4 lec, 1 rec)  
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**
**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)

**GER**
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

**CHEM 10200 with grade of C or better or CHEM 10000 with perm chair**

5 hrs (4 lec, 1 rec)

4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**CHEM 22200 - Organic Chemistry Lecture I**

**CHEM 22400 - Organic Chemistry Lecture II**
MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.  
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.  
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

MATH 25000 - Calculus with Analytic Geometry III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.  
prereq: MATH 15500
4 hrs
4 cr.

PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors.  First semester of a two-semester introductory physics course using calculus.  
prereq or coreq: coreq (with perm dept.): MATH 15000
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics
Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.

**prereq:** PHYS 11000 or 11100

**prereq or coreq:** (with perm dept.): MATH 15500

8 hrs (4 lec, 3 lab, 1 rec)

5.5 cr.

**PHYS 33000 - Atomic and Nuclear Physics**

Examines experimental evidence and develops modern view of structure of atom and nucleus.

**prereq:** PHYS 12000 or 12100

**prereq or coreq:** MATH 25000

4 hrs

4 cr.

**PHYS 33600 - Thermodynamics and Statistical Mechanics**

Study of fundamental ideas of heat, reversibility, and entropy. Introduction to statistical nature of some physical laws.

**prereq:** PHYS 12000 or 12100; MATH 25000

4 hrs

4 cr.

**PHYS 42000 - Introduction to Biophysics**

A comprehensive introduction to the interface between physics and biology and the application of the techniques of physics to understanding biological systems, focusing on developing an understanding of the thermodynamics of living systems, on the physical kinematics of macromolecules and other biological structures and on the theory of physical techniques that are used in the study of biological systems.

**prereq or coreq:** PHYS 33000, PHYS 33600, BIOL 30000, CHEM 37600.

4 hrs

4 cr.

**Electives (any 2)**

**BIOL 39000 - Laboratory in Cell Structure**

**GER**

3/B

Applications of light and confocal microscopy, using fluorescence and multidimensional imaging to study cell structures. Lab projects involve immunofluorescence: fixation methods and immunocytochemistry. Illumination methods including multi-channel 3D rendering, image processing and visualization software.

**prereq or coreq:** BIOL 30000 or BIOL 20200 and perm instr.

7 hrs (2 lecture, 5 lab)

4.5 cr.

fall only
BIOL 47000 - Special Topics in Biology

GER
3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.
prereq: BIOL 30000
2 hrs (lec)
2 cr. per sem.

MATH 25400 - Ordinary Differential Equations

GER
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.
prereq: MATH 25000
3 hrs
3 cr.

Total Credits (77.5 to 79.5 credits)

Schedule

A typical timetable for graduation is presented below.

Fall (Year 1) 11.5 credits

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
PD/C or D

GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

CHEM 10200 (STEM) - General Chemistry I
In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.

Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

Spring (Year 1) 14.5 credits

**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)

**GER**
In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

**prereq:** CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

**prereq:** CHEM 10200  
**coreq:** CHEM 10400
6 hrs
3 cr.

**MATH 15500 (STEM) - Calculus with Analytic Geometry II**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

**prereq:** grade of C or better in MATH 15000
4 hrs
4 cr.

**Fall (Year 2) 13 credits**

**CHEM 22200 - Organic Chemistry Lecture I**

**GER**

GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

*Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.*

**prereq:** CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

**PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

*prereq or coreq: coreq (with perm dept.): MATH 15000
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.*

Spring (Year 2) 12.5 credits

**CHEM 22400 - Organic Chemistry Lecture II**

**GER**
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

*prereq: CHEM 2200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.*

**MATH 25000 - Calculus with Analytic Geometry III**

**GER**
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

*prereq: MATH 15500
4 hrs
4 cr.*

**PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.

*prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500*
Fall (Year 3) 8.5 credits

BIOL 30000 - Biological Chemistry

GER
3/B

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: prereq: BIOL 20300 and coreq: CHEM 22200.

Material Fee: $10
prereq: Open only for majors.

Fall only

PHYS 33000 - Atomic and Nuclear Physics

Examines experimental evidence and develops modern view of structure of atom and nucleus.
prereq: PHYS 12000 or 12100
prereq or coreq: MATH 25000
4 hrs
4 cr.

Spring (Year 3) 8.5 credits

PHYS 33600 - Thermodynamics and Statistical Mechanics

Study of fundamental ideas of heat, reversibility, and entropy. Introduction to statistical nature of some physical laws.
prereq: PHYS 12000 or 12100; MATH 25000
4 hrs
4 cr.

Fall (Year 4) 4 credits

PHYS 42000 - Introduction to Biophysics

A comprehensive introduction to the interface between physics and biology and the application of the techniques of physics to understanding biological systems, focusing on developing an understanding of the thermodynamics of living systems, on the physical kinematics of macromolecules and other biological structures and on the theory of physical techniques that are used in the study of biological systems.
prereq or coreq: PHYS 33000, PHYS 33600, BIOL 30000, CHEM 37600.
4 hrs
4 cr.
Spring (Year 4) 5 credits

**BIOL 39000 - Laboratory in Cell Structure**

**GER**

3/B

Applications of light and confocal microscopy, using fluorescence and multidimensional imaging to study cell structures. Lab projects involve immunofluorescence: fixation methods and immunocytochemistry. Illumination methods including multi-channel 3D rendering, image processing and visualization software.

*prereq or coreq: BIOL 30000 or BIOL 20200 and perm instr.*

7 hrs (2 lecture, 5 lab)

4.5 cr.

fall only

**BIOL 47000 - Special Topics in Biology**

**GER**

3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

*prereq: BIOL 30000*

2 hrs (lec)

2 cr. per sem.

**Chemistry - BA**

**Major**

There are two chemistry majors: Major I, a 43-credit concentration in addition to an 11-credit general chemistry core, is designed to prepare the students with intensive training for professional research and graduate study. Major II consists of three options: Option 1 for students interested in the chemical industry; Option 2 (the biochemistry option) for students interested in the pharmaceutical industry, medicine, dentistry, veterinary medicine or physical therapy; Option 3 (bioinformatics option) for students interested in graduate studies in biochemistry and bioinformatics as well as pharmaceutical and biotechnology industry. Major II includes a minimum concentration of 28 credits (option 1), 26 credits (option 2), and 20.5 credits (option 3) in 200-level and above chemistry courses, in addition to an 11-credit general chemistry core. Options 1-3 are all appropriate for students pursuing teacher education programs.

Students considering a chemistry major should consult the departmental adviser during their first semester to plan the proper sequence of courses, and they are urged to consult with the adviser at least once each succeeding semester. A year of General Chemistry and the accompanying General Chemistry Laboratory are prerequisites for admission to both Major I and Major II.

- Chemistry Major I
- Chemistry Major II

**Minor in Chemistry**
A minor in Chemistry consists of a pre-requisite year of General Chemistry with laboratory (CHEM 10200 (STEM) through CHEM 10600 (STEM) or equivalent, 9 credits), and a minimum of 14 credits of coursework. Note that MATH 12500 is a co-requisite to General Chemistry. The minimum of 14 credits include the following required courses below. In addition, students will be required to take at least 5.5 credits of electives selected from Chemistry offerings numbered 200 or above, excluding CHEM 29101.

Prerequisite year of General Chemistry (note that MATH 12500 (STEM) is a prerequisite to General Chemistry)

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)  
**GER**  
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.  
*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

*prereq or coreq: MATH 12500, 15000 or equiv.*  
5 hrs (4 lec, 1 rec)  
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**  
Life and Physical Sciences (LPS) Scientific World (SW)  
**GER**  
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.  
*prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair*  
5 hrs (4 lec, 1 rec)  
4 cr.

**CHEM 10300 (STEM) - General Chemistry Laboratory I**

**Hunter Core**  
Life and Physical Sciences (LPS) Scientific World (SW)  
**Pluralism and Diversity**  
**GER** 2/E  
Study of experiments designed to illustrate fundamental laws and techniques of chemistry.

Core credit awarded only if CHEM 10200 (STEM) and CHEM 10300 (STEM) are completed. Primarily for pre-med, medical laboratory sciences and science majors.  
*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*
prereq or coreq: CHEM 10200
4 hrs (3 lab, 1 rec)
1.5 cr.

and

CHEM 10500 (STEM) - General Chemistry Laboratory II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
Pluralism and Diversity
GER 2/E
Laboratory experiments illustrating and applying theory of solutions to qualitative analysis.
Offered for transfer students who have completed only one semester of General Chemistry Laboratory.
prereq: One semester of General Chemistry Laboratory.
prereq or coreq: CHEM 10400
3 hrs
1.5 cr.

or

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

and a minimum of 14 credits of coursework which include the following required courses:

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10400 with a grade of C or better
5- 6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.
CHEM 22300 - Organic Chemistry Laboratory I

GER
3/B

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10500 or CHEM 10600
prereq or coreq: CHEM 22200
4 hrs
2.5 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

In addition, students will be required to take at least 5.5 credits of electives selected from Chemistry offerings numbered 200 or above, excluding

CHEM 29101 - Chemical Investigations

Pluralism and Diversity
GER 3/B

Original chemical investigations under supervision of faculty member. Written report required. Enrollment for maximum of two semesters.

prereq: CHEM 22400, perm chair
4 hrs
1 cr.

Honors Work

Opportunity for an individual research experience is provided by an honors course

CHEM 49101 - Introduction to Research

Pluralism and Diversity
GER 3/B

Open to Jr/Sr only. Similar to CHEM 29101. Written report required. Fulfills requirement for departmental honors course.
CHEM 49102 - Introduction to Research

Pluralism and Diversity

GER 3/B
Open to Jr/Sr only. Similar to CHEM 29102. Written report required. Fulfills requirement for departmental honors course.

Electives

Advanced lecture courses in special areas of chemistry, and lab courses providing training in inorganic and organic chemistry and in research techniques, are offered as electives for Major I and are open to students enrolled in Major II who have fulfilled the course prerequisites.

Graduate Study

Qualified chemistry majors may be admitted to 700-level courses in the graduate program. Permission of the department is required.

Preparation for Teaching

In cooperation with the School of Education, the Department of Chemistry provides opportunities for students to prepare for careers in teaching at the elementary and secondary level in the area of chemistry. Chemistry Major II, Option I (37 credits) and Option 2 (35 credits) both satisfy the requirements for New York State certification for teachers of chemistry in Childhood Education (Grades 1-6) and Adolescent Education (Grades 7-12). See Childhood Education (QUEST) Grades 1-6 - BA and Adolescent Chemistry, Grades 7-12 - BA. For students pursuing certification as chemistry teachers at the secondary level, the 26-credit adolescent education sequence is appropriate. Students who want to qualify for New York City licensing and New York State certification for teaching in secondary schools should consult the The School of Education section of this catalog for additional requirements.

Chemistry Major I

Return to Program and Courses in Chemistry

Foundational Courses

Foundational Courses include courses in chemistry and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.
Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

In the case of the Chemistry Major I, the courses that meet CCC are:

The major consists of a minimum of 43 credits

The requirements for this major consist of a minimum of 43 credits in chemistry. This major is recommended for students preparing for admission to graduate school or for careers in chemical research. It will also be useful to students seeking a position in the chemical or allied industries, as it is accredited by the Committee on Professional Training of the American Chemical Society.

**CHEM 22200 - Organic Chemistry Lecture I**

**GER**

**GER 3/B**

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

*Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.*

*prereq: CHEM 10400 with a grade of C or better*

*5-6 hrs (4 lec, 1-2 recitation/workshop)*

*4 cr.*

**CHEM 22300 - Organic Chemistry Laboratory I**

**GER**

**3/B**

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.
Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

**CHEM 22400 - Organic Chemistry Lecture II**

**GER**
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

- **prereq:** CHEM 22200 with a grade of C or better
- **5-6 hrs (4 lec, 1-2 recitation/workshop)**
- **4 cr.**

**CHEM 22500 - Organic Chemistry Laboratory II**

**GER**
3/B

Continuation of CHEM 22300.

- **prereq:** CHEM 22300
- **prereq or coreq:** CHEM 22400
- **4 hrs**
- **2.5 cr.**

**CHEM 24900 - Quantitative Analysis**

**GER**
GER 3/B

A set of laboratory experiments, performed by individual students, covering important areas of quantitative analysis such as pH and metal ion titrations, spectroscopic analysis including gas chromatography, electronic absorption, and fluorescence.

- **prereq:** CHEM 10400 with grade of C or better, 10500
- **5 hrs (4 lab, 1 rec)**
- **3 cr.**

**CHEM 34900 - Instrumental Analysis**

**Pluralism and Diversity**
GER 3/B
Principles of modern instrumental techniques; emphasis on spectroscopic and electrometric methods.
prereq: CHEM 35400 or 35600 with grade of C or better with 35500
8 hrs (2 lec, 6 lab)
5 cr

CHEM 35200 - Physical Chemistry I

GER
3/B
Ideal and real gases. Laws of thermodynamics with applications to properties of solutions and phase equilibria in general.
prereq: CHEM 24900, MATH 15500, PHYS 12100 all with grade of C or better
3 hrs
3 cr.
offered fall

CHEM 35400 - Physical Chemistry II - F

Pluralism and Diversity
GER 3/B
Selected topics from statistical thermodynamics, electrochemistry, kinetic theory and rate processes.

prereq: CHEM 35200, MATH 25000
3 hrs
3 cr.
offered fall

-or-

CHEM 35600 - Physical Chemistry II - S

GER
GER 3/B
Selected topics from quantum chemistry, molecular structure, and spectroscopy.

prereq: PHYS 12100, CHEM 24900, MATH 15500 all with grade of C or better
3 hrs
3 cr.
offered spring

-with-

CHEM 35500 - Physical Chemistry Laboratory I

GER
3/B
Laboratory course involving experiments based on topics covered in CHEM 35200 on chemical systems.

prereq: CHEM 24900
CHEM 35700 - Physical Chemistry Laboratory II

**Pluralism and Diversity**
GER 3/B
Laboratory course involving experiments based on topics covered in CHEM 35600 on chemical systems.

*prereq: CHEM 24900 or perm chair*

*prereq or coreq: CHEM 35600*

3 hrs
1.5 cr.
offered spring

CHEM 36600 - Inorganic Chemistry

**GER**
GER 3/B

Treatment of structure, bonding and reactivity of inorganic compounds.

*prereq: CHEM 35200 with grade of C or better*

3 hrs
3 cr.

CHEM 37600 - Biochemistry I

**GER**
3/B

Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

*prereq: CHEM 22400 with grade of C or better*

4 hrs (3 lec, 1 rec)
3 cr.

CHEM 39000 - Current Laboratory Methods in Chemistry

**Pluralism and Diversity**
GER 3/B
Offered subject to adequate student interest and enrollment. Taught by specialists from department faculty. The specific topic will be listed in the schedule of classes for a given semester.

*prereq or coreq: CHEM 35700 or perm instr.*

4 hrs
2 cr.
One further laboratory course must be chosen from (research), (honors research) or the following

**CHEM 29102 - Chemical Investigations**

**Pluralism and Diversity**
GER 3/B

Original chemical investigations under supervision of faculty member. Written report required. Enrollment for maximum of two semesters.

*prereq: CHEM 22400, perm chair*

*8 hrs*

*2 cr.*

-or-

**CHEM 49102 - Introduction to Research**

**Pluralism and Diversity**
GER 3/B

Open to Jr/Sr only. Similar to CHEM 29102. Written report required. Fulfills requirement for departmental honors course.

*prereq: CHEM 22400, 35400, 34900, perm chair*

*8 hrs*

*2 cr.*

-or-

**CHEM 37800 - Biochemistry Laboratory**

**GER**
3/B

A set of laboratory experiments, performed by individual students, covering important areas of biochemistry such as protein analysis, enzyme purification, enzymatic assays, recombinant DNA and the polymerase chain reaction.

*prereq: CHEM 22300 and CHEM 37600 or CHEM 64000*

*5 hrs (4 lab, 1 rec)*

*3 cr.*

In addition, one additional lecture course must be chosen from among the following:

**CHEM 32200 - Organic Chemistry Lecture III**

**GER**
3/B

Selected topics such as advanced synthesis, reaction mechanisms, MO theory, natural products, NMR spectroscopy.
CHEM 22400 with grade of C or better, perm instr.
3 hrs
3 cr.

CHEM 35400 - Physical Chemistry II - F

Pluralism and Diversity
GER 3/B
Selected topics from statistical thermodynamics, electrochemistry, kinetic theory and rate processes.

prereq: CHEM 35200, MATH 25000
3 hrs
3 cr.
offered fall

CHEM 35600 - Physical Chemistry II - S

GER
GER 3/B
Selected topics from quantum chemistry, molecular structure, and spectroscopy.

prereq: PHYS 12100, CHEM 24900, MATH 15500 all with grade of C or better
3 hrs
3 cr.
offered spring

CHEM 37700 - Biochemistry II

GER
3/B
Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.

prereq: CHEM 37600 with grade of C or better or BIOL 30000 or perm instr.
3 hrs
3 cr.

Also acceptable for completion of Major I are

PHYS 33000 - Atomic and Nuclear Physics
Examines experimental evidence and develops modern view of structure of atom and nucleus.
prereq: PHYS 12000 or 12100
prereq or coreq: MATH 25000
4 hrs
4 cr.

PHILO 36200 - Theory of Knowledge (W)
GER
3/A

Study of origin, structure, methods and foundations of human knowledge.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

-or-

PHILO 37900 - Philosophy of Science (W)

GER
3/B

Study of foundations of knowledge in natural and social sciences.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

Additional Information

Students should be aware, however, that if either of the philosophy courses is used to complete the Major I requirements, the major will not be eligible for accreditation by the American Chemical Society.

One year of physics, and four semesters of mathematics, are also required for this major

PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.
prereq or coreq: coreq (with perm dept.): MATH 15000
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.
prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

MATH 15000 (STEM) - Calculus with Analytic Geometry I

**Hunter Core**
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

*prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.*

4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

**Hunter Core**
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

*prereq: grade of C or better in MATH 15000*

4 hrs
4 cr.

MATH 25000 - Calculus with Analytic Geometry III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

*prereq: MATH 15500*

4 hrs
4 cr.

MATH 25400 - Ordinary Differential Equations

GER
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

*prereq: MATH 25000*

3 hrs
3 cr.

-or-
MATH 26000 - Linear Algebra

GER
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

prereq: MATH 15600

prereq or coreq: MATH 25000

4 hrs

4 cr.

Additional Information

CHEM 24900, MATH 15000 (STEM) and MATH 15500 (STEM), and PHYS 12100 (STEM) are prerequisites for CHEM 35200 and should be completed by the end of the sophomore year.

Major I is required of all students who wish to be considered for certification by the American Chemical Society upon graduation. It is recommended for all students intending to enter the profession of chemistry through either graduate study or employment in industry or government. Students who can attend only in the evenings should consult the department adviser regarding the feasibility of completing Chemistry Major I.

Chemistry Major II

Return to Programs and Courses in Chemistry

Foundational Courses

Foundational Courses include courses in chemistry and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. General Chemistry Core:

One year of General Chemistry Lecture and Laboratory

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)
**GER**
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

or its equivalent

-or-
CHEM 11100 (STEM) - Chemical Principles

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E
In-depth introduction to chemical principles including measurement, stoichiometric calculations, inorganic nomenclature, gas laws, equilibrium, acids, bases and buffers. Emphasis is placed on problem-solving, oral presentations, and collaborative work. Laboratory and coursework emphasize analysis and evaluation of data.

Primarily for pre-med, medical laboratory sciences and science majors.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500 or equiv, MATH 12600
9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)
5.5
offered fall

CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of quantum theory, atomic structure, periodic properties of the elements, kinetics, electrochemistry, and thermodynamics.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 11100
9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)
5.5
offered spring

Option 1:

For students interested in a career in the chemical industry. It consists of a minimum of 28 credits in chemistry above the introductory level and an 11-credit general chemistry core for a minimum total of 39 credits of chemistry. One year of physics and three semesters of calculus are also required.

Required chemistry courses:

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.
prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER
3/B

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10500 or CHEM 10600
prereq or coreq: CHEM 22200
4 hrs
2.5 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22500 - Organic Chemistry Laboratory II

GER
3/B

Continuation of CHEM 22300.

prereq: CHEM 22300
prereq or coreq: CHEM 22400
4 hrs
2.5 cr

CHEM 24900 - Quantitative Analysis

GER
GER 3/B

A set of laboratory experiments, performed by individual students, covering important areas of quantitative analysis such as pH and metal ion titrations, spectroscopic analysis including gas chromatography, electronic absorption, and
fluorescence.

prereq: CHEM 10400 with grade of C or better, 10500
5 hrs (4 lab, 1 rec)
3 cr.

CHEM 35200 - Physical Chemistry I

GER
3/B

Ideal and real gases. Laws of thermodynamics with applications to properties of solutions and phase equilibria in general.
prereq: CHEM 24900, MATH 15500, PHYS 12100 all with grade of C or better
3 hrs
3 cr.
offered fall

CHEM 35400 - Physical Chemistry II - F

Pluralism and Diversity
GER 3/B
Selected topics from statistical thermodynamics, electrochemistry, kinetic theory and rate processes.

prereq: CHEM 35200, MATH 25000
3 hrs
3 cr.
offered fall

-or-

CHEM 35600 - Physical Chemistry II - S

GER
GER 3/B

Selected topics from quantum chemistry, molecular structure, and spectroscopy.

prereq: PHYS 12100, CHEM 24900, MATH 15500 all with grade of C or better
3 hrs
3 cr.
offered spring

CHEM 35500 - Physical Chemistry Laboratory I

GER
3/B

Laboratory course involving experiments based on topics covered in CHEM 35200 on chemical systems.

prereq: CHEM 24900
prereq or coreq: CHEM 35200
3 hrs
1.5 cr.
offered fall

CHEM 35700 - Physical Chemistry Laboratory II

Pluralism and Diversity
GER 3/B
Laboratory course involving experiments based on topics covered in CHEM 35600 on chemical systems.

prereq: CHEM 24900 or perm chair

prereq or coreq: CHEM 35600
3 hrs
1.5 cr.
offered spring

Required elective course:

• Any chemistry course at the 300 level or above excluding CHEM 49101.

Required allied courses:

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

MATH 25000 - Calculus with Analytic Geometry III
Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

**PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

Hunter Core
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

**PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.

Option 2 (Biochemistry option):

For students preparing for admission to medical, dental, veterinary schools or physical therapy programs, or for students interested in a career in the pharmaceutical industry. It consists of a minimum of 26 credits above the introductory level and an 11-credit general chemistry core for a minimum total of 37 credits of chemistry. One year of physics, one year of biology and one year of calculus are also required.

Required chemistry courses:

**CHEM 22200 - Organic Chemistry Lecture I**

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.
Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER
3/B
Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10500 or CHEM 10600
prereq or coreq: CHEM 22200
4 hrs
2.5 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22500 - Organic Chemistry Laboratory II

GER
3/B
Continuation of CHEM 22300.

prereq: CHEM 22300
prereq or coreq: CHEM 22400
4 hrs
2.5 cr

CHEM 35000 - Biophysical Chemistry

Pluralism and Diversity
GER 3/B
Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.

*prereq: CHEM 22400, BIOL 10200, MATH 15000 all with grade of C or better*

5 hrs (4 lec, 1 rec)

4 cr

**CHEM 37600 - Biochemistry I**

**GER**

3/B

Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

*prereq: CHEM 22400 with grade of C or better*

4 hrs (3 lec, 1 rec)

3 cr.

**CHEM 37700 - Biochemistry II**

**GER**

3/B

Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.

*prereq: CHEM 37600 with grade of C or better or BIOL 30000 or perm instr.*

3 hrs

3 cr.

**CHEM 37800 - Biochemistry Laboratory**

**GER**

3/B

A set of laboratory experiments, performed by individual students, covering important areas of biochemistry such as protein analysis, enzyme purification, enzymatic assays, recombinant DNA and the polymerase chain reaction.

*prereq: CHEM 22300 and CHEM 37600 or CHEM 64000*

5 hrs (4 lab, 1 rec)

3 cr.

Required elective course:

Any chemistry course at the 300 level or above excluding CHEM 49101 Introduction to Research

Also acceptable CHEM 24900 Quantitative Analysis

Required allied courses:

**BIOL 10000 (STEM) - Principles of Biology I**
Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
Pluralism and Diversity
PD/C or D
GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

**prereq:** grade of C or better in MATH 15000

4 hrs

4 cr.

**PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**GER**
2/E

First semester of two-semester introductory physics course using algebra.

**prereq:** MATH 12500; pre-calculus or equiv. By math dept. exam.

7 hrs (3 lec, 3 lab, 1 rec)

4.5 cr.

**PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**GER**
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

**prereq:** PHYS 11000 or 11100

7 hrs (3 lec, 3 lab, 1 rec)

4.5 cr.

**Option 3 (Bioinformatics option):**

For students interested in graduate studies in biochemistry and bioinformatics as well as the pharmaceutical and biotechnology industry. In order to enroll in this Option, students must earn an average grade of B- or above in CHEM 10400 (STEM), CHEM 22200, BIOL 10000 (STEM), and MATH 15000 (STEM). In addition, no more than one C grade is allowed in these four courses to declare Option 3. This option consists of a minimum of 20.5 credits above the introductory level and an 11-credit general chemistry core for a minimum total of 32 credits of chemistry. Three semesters of biology, one year of physics, one year of computer science, one year of calculus, and one semester of statistics are also required.

**Required chemistry courses:**

**CHEM 22200 - Organic Chemistry Lecture I**

**GER**

GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

*Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.*

*prereq: CHEM 10400 with a grade of C or better*

5-6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.

**CHEM 22500 - Organic Chemistry Laboratory II**

**GER**

3/B

Continuation of CHEM 22300.

*prereq: CHEM 22300*

*prereq or coreq: CHEM 22400*

4 hrs

2.5 cr

**CHEM 35000 - Biophysical Chemistry**

**Pluralism and Diversity**

GER 3/B

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.

*prereq: CHEM 22400, BIOL 10200, MATH 15000 all with grade of C or better*

5 hrs (4 lec, 1 rec)

4 cr

**CHEM 37600 - Biochemistry I**

**GER**

3/B

Chemical aspects of protein structure and function, fundamentals of bioenergetics, biochemical mechanisms of gene replication and expression.

*prereq: CHEM 22400 with grade of C or better*

4 hrs (3 lec, 1 rec)

3 cr

**CHEM 37700 - Biochemistry II**

**GER**

3/B

Biosynthesis of lipids, amino acids, carbohydrates. Muscle contraction, hormones, immune response, DNA sequencing.
prereq: CHEM 37600 with grade of C or better or BIOL 30000 or perm instr.
3 hrs
3 cr.

Required allied courses:

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

**prereq: MATH 12500, CHEM 10200**

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

spring only

**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

**prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.**

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

fall only

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.
prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.
prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

CSCI 13200 - Practical UNIX and Programming, with Lab

Hunter Core
Scientific World (SW)
GER
2/E

An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the
UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition. This course cannot be counted towards the CSCI major.

prereq: none
3 hrs
3 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab

GER
3/B

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment. Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

prereq: CSCI 12700 or CSCI 13200
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

Childhood Education (QUEST) Grades 1-6 - BA

The Childhood Education, Grades 1-6, undergraduate teacher education program prepares students to become New York State certified teachers of childhood education.

This program is committed to the preparation of urban elementary school teachers who can deal effectively with the wide range of diverse learning needs found among the City's students. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

This is a 36-credit program in which students have an option to complete the course of study over four or six semesters.

Applying for Admission

Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can
be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

### Admissions Requirements

- 30 credits in liberal arts and sciences (*Students may apply to QUEST if the total of their completed credits plus credits in which they are currently enrolled is at least 30 credits.*)
- Minimum GPA of 3.0.
- Prerequisite for MATH 10400 (STEM): either a score high enough on the CUNY COMPASS to be placed in MATH 10400 (STEM) or completion of MATH 10100.
- ENGL 12000 (or a 200- or 300-level writing course), with a grade of B or better.
- Declaration of an appropriate liberal arts and sciences major.
- Transfer students may enter the program with 40 to 72 credits. (Students with more than 72 credits should complete their liberal arts and sciences major and apply to the master's degree program in childhood education.)
- Transfer students with 60 or more credits, a GPA of 3.3 or better and a grade of B or better in ENGL 12000 do not have to present Hunter College grades. Transfer students with GPAs below 3.3 will have to complete 12 credits of coursework at Hunter College with a GPA of at least 3.0 before a final decision will be made on their application to the School of Education.

### Liberal Arts & Sciences Major Requirement

All students in School of Education programs must also declare a major in the School of Arts & Sciences. This major must lead to a BA degree.

See the School of Arts & Sciences for more information on major options.

### New York State Liberal Arts & Sciences Distribution Requirement

Teachers in elementary schools are required to teach all subject areas in the curriculum and thus need a broad liberal arts background in addition to specialized knowledge of teaching. Therefore, students will be required to complete the following liberal arts and sciences courses, or their equivalent (most of these courses can be taken within the Hunter Core requirements).

These courses require a grade of C or better.

- ENGL 12000 - Expository Writing
- ENGL 22000 - Introduction to Writing about Literature (W)
• GEOG 10100 - People and Their Environment
• HIST 15100 - The United States from the Colonial Era to the Civil War (W)
• HIST 15200 - The United States from the Civil War Era to the Present (W)
• MATH 10400 (STEM) - Mathematics for Elementary Education I
• MATH 10500 - Mathematics for Elementary Education II
• Two semesters of science, at least one of which is a laboratory science,*
• 6 credits in the arts (courses in ARTCR, ARTH, FILM, MUSHL, THEA)**
• At least 6 credits in the study of a language other than English

Two additional courses that are required for students in the childhood education program are

• HED 31400 - Health Education for the Classroom Teacher
• SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Note(s)

* Computer Science does not count as a science course in meeting this requirement.

** Courses in FILMP, MEDIA, and MEDP do not meet the arts requirements.

Academic Progress Standards

Students must meet the following criteria in order to continue in the program:

• Students must maintain a GPA of at least 3.0.
• Students must receive grades of C or better in required coursework in liberal arts and sciences and in QUEST courses that do not include fieldwork. QUEST fieldwork courses require a grade of B or better. All QUEST courses are repeatable once by students who have received a grade of C-, D+ or D in a non-fieldwork course or a grade below B in a fieldwork course. Students must officially reregister for these courses. Students who receive an F in any course or a D+ or D in fieldwork may not continue in the program. In order to register for QSTA 40600 - Mathematics Teaching and Learning in Elementary School, students must have completed MATH 10400 (STEM) and MATH 10500. With the approval of the program coordinator, transfer students may be allowed to enroll in QSTA 40600 after completing MATH 10400 (STEM) and registering for MATH 10500 if their progress through the QUEST program would be delayed by the requirement for MATH 105 as a prerequisite.
• In order to register for QSTA 41400 - Teaching Science in Elementary Schools, students must have completed two courses in science, at least one of which must be a laboratory science.
• In order to register for QSTA 41200 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools, students must have completed HIST 15100 and HIST 15200, or one of these courses plus GEOG 10100.
• Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
• Complete at least 21 credits in an approved Arts & Sciences major before student teaching.

Course of Study

Six-Semester Track

Semester 1
HED 31400 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1-6 in making decisions for optimum health and wellness, including nutrition education and fitness; mental/emotional health and conflict resolution; drug education; stress management; safety education including fire safety; family living/sex education including HIV/AIDS education and orientation issues; personal safety and the role of the classroom teacher as a mandated reporter of child abuse and neglect; environmental health; and violence prevention.

prereq: QSTB 20200, QSTF 30100
prereq or coreq: QSTF 30200
3 hrs
3 cr.

QSTA 40080 - The Art of Effective Teaching

This course is designed to orient elementary school teacher candidates to the world of urban education and their roles as quality educators. An introduction to the basic pedagogical practices of teaching, the connection between theory and practice as it relates to the role of teachers, instructional methods for teaching diverse student populations, effective classroom management practices, organizational strategies, motivation techniques and methods of assessment.

3 hrs
3 cr.

Semester 2

QSTA 40180 - Developmental Reading

Theoretical and practical aspects of literacy with particular emphasis on teaching literacy to diverse populations. In addition, the role of family and community involvement and the use of technology for literacy development will be stressed.

coreq: QSTB 20200, QSTAB 30000
prereq or coreq: QSTA 40000
2 hrs
2 cr.

QSTB 20280 - Child Growth and Development

The biological, cognitive, emotional, linguistic, moral, physical and social aspects of development will be addressed with respect to their role in children's experiences in school. The critical application of developmental theories and research to diverse populations will be emphasized. Contextual influences on children's development, including family, peers and the media will be included.

coreq: QSTA 40100, QSTAB 30000
prereq or coreq: QSTA 40000
2 hrs
2 cr.

QSTAB 30000 - Fieldwork I: Fieldwork for Child Development and Developmental Reading
Supervised experiences in classroom applications of QSTA 40180: Developmental Reading and QSTB 20280: Child Growth and Development. Students will complete 6 per week of fieldwork for a minimum of 75 contact per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C in fieldwork must apply to the chairperson for permission to re register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than C may not repeat the course and may not continue in the program.

coreq: QSTA 40100, QSTB 20200
prereq or coreq: QSTA 40000, CSCI 11500
75 hrs
1 cr.

Semester 3

QSTA 41080 - Literacy Across the Content Areas

Theoretical, methodological, practical, and technological aspects of teaching literacy to elementary school students with an emphasis on meeting the literacy needs of diverse student populations.

prereq: QSTA 40100, QSTB 20200, QSTAB 30000, CSCI 11500
coreq: QSTA 41200, QSTAB 30100
2 hrs
2 cr.

QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

Teaching social studies through literature, the arts, and technology in grades 1-6. Literature selections will include original documents, essays, historical fiction, novels, diaries, journals, poetry, drama and folktales. Instructional strategies will include interdisciplinary curriculum and differentiated learning, teaching, and assessment strategies for English language learners and students with disabilities. Diverse activities will include utilizing the community, particularly museums, as a laboratory for student learning.

prereq: QSTA 40100, QSTB 20200, QSTAB 30000
coreq: QSTA 41000, QSTAB 30100
2 hrs
2 cr.

QSTAB 30100 - Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

Supervised experiences in classroom applications of QSTA 41080 - Literacy Across the Content Areas and QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools. Students will complete 6 of fieldwork per week for a minimum of 75 contact per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individuals and small groups of children. Students will design or adapt curriculum that meet the needs of diverse learners, including children with special needs and English language learners.

prereq: QSTA 40100, QSTB 20200, QSTAB 30000
QSTA 41000, 41200
75 hrs
1 cr.

Semester 4

QSB 41380 - Psychology of Teaching and Learning

The critical application of psychological theories and principles to classroom instruction, including: learning styles; instructional models; effective teaching; motivation; student diversity; students with special needs; classroom management; and formal and informal assessment.

prereq: QSTA 41000, 41200, QSTAB 30100
coreq: QSTA 40600, QSTF 30200
2 hrs
2 cr.

QSTA 40680 - Mathematics Teaching and Learning in Elementary School

Modern methods for teaching mathematics through understanding in the elementary grades.

Transfer students may be allowed to enroll in QSTA 40600 after completing MATH 10400 and registering for MATH 10500 if their progress through the QUEST program would be delayed by the MATH 10500 prerequisite requirement.

prereq: MATH 10400, 10500, QSTA 41000, 41200, QSTAB 30000
coreq: QSTB 41300, QSTAB 30200
2 hrs
2 cr.

QSTAB 30200 - Fieldwork III: Fieldwork for Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning

Supervised experiences in classroom applications of QSTA 40680: Mathematics Teaching and Learning in Elementary School and QSB 41380: Psychology of Teaching and Learning. Students will complete 6 of fieldwork per week for a semester minimum of 75 contact to demonstrate the ability to apply knowledge acquired in the Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning courses to effectively deliver instruction in the content areas to individual children, small work groups, and large groups of children.

prereq: QSTA 41000, 41200, QSTAB 30100
coreq: QSTA 40600, QSTB 41300
75 hrs
1 cr.

Semester 5

QSTA 40780 - The Arts: An Interdisciplinary Learning Experience
Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1-6.

**prereq:** QSTA 40100, QSTB 20200, QSTAB 30000
3 hrs
3 cr.

**QSTB 40380 - Social Foundations of Urban Education**

Contemporary issues and themes in the social foundations of childhood education viewed from an interdisciplinary perspective. Special emphasis on the role of family and community in the educational process.

**prereq:** QSTA 40100, QSTB 20200, QSTAB 30000
3 hrs
3 cr.

**SPED 30800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

**prereq:** 12 credits of coursework
45 hrs
3 cr.

**Semester 6**

**QSTA 41480 - Teaching Science in Elementary Schools**

This course is inquiry-based or process-oriented. Focuses on the doing part of science more than the facts part of science. Includes analysis of local, state and national science standards, working with students from culturally diverse backgrounds, using multimedia technology effectively, and working with parents and the community. Students will be observed in science teaching activities during their co requisite student teaching in science.

**prereq:** QSTA 40600, 41000, 41200, QSTAB 30100
**coreq:** QSTA 41500
2 hrs
2 cr.

**QSTA 41580 - Student Teaching**

Supervised student teaching experience in an elementary school setting at one grade level from grades 1-6. Requirements include four full days per week of student teaching for a minimum of 50 days, 30 hours of seminars + conferences, and attendance at professional development workshops.

**prereq:** QSTA 40600, 40700, QSTB 41300, QSTAB 30200, HED 31400
coreq: QSTA 41400
2 per week of seminar plus student teaching
4 cr.

Four-Semester Track

Semester 1

HED 31400 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1-6 in making decisions for optimum health and wellness, including nutrition education and fitness; mental/emotional health and conflict resolution; drug education; stress management; safety education including fire safety; family living/sex education including HIV/AIDS education and orientation issues; personal safety and the role of the classroom teacher as a mandated reporter of child abuse and neglect; environmental health; and violence prevention.

prereq: QSTB 20200, QSTF 30100
prereq or coreq: QSTF 30200
3 hrs
3 cr.

QSTA 40080 - The Art of Effective Teaching

This course is designed to orient elementary school teacher candidates to the world of urban education and their roles as quality educators. An introduction to the basic pedagogical practices of teaching, the connection between theory and practice as it relates to the role of teachers, instructional methods for teaching diverse student populations, effective classroom management practices, organizational strategies, motivation techniques and methods of assessment.

3 hrs
3 cr.

QSTA 40180 - Developmental Reading

Theoretical and practical aspects of literacy with particular emphasis on teaching literacy to diverse populations. In addition, the role of family and community involvement and the use of technology for literacy development will be stressed.

coreq: QSTB 20200, QSTAB 30000
prereq or coreq: QSTA 40000
2 hrs
2 cr.

QSTB 20280 - Child Growth and Development

The biological, cognitive, emotional, linguistic, moral, physical and social aspects of development will be addressed with respect to their role in children's experiences in school. The critical application of developmental theories and research to diverse populations will be emphasized. Contextual influences on children's development, including family, peers and the media will be included.

coreq: QSTA 40100, QSTAB 30000
prereq or coreq: QSTA 40000
**QSTAB 30000 - Fieldwork I: Fieldwork for Child Development and Developmental Reading**

Supervised experiences in classroom applications of QSTA 40180: Developmental Reading and QSTB 20280: Child Growth and Development. Students will complete 6 per week of fieldwork for a minimum of 75 contact per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C in fieldwork must apply to the chairperson for permission to re register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than C may not repeat the course and may not continue in the program.

*coreq: QSTA 40100, QSTB 20200*

*prereq or coreq: QSTA 40000, CSCI 11500*

**Semester 2**

**QSTB 40380 - Social Foundations of Urban Education**

Contemporary issues and themes in the social foundations of childhood education viewed from an interdisciplinary perspective. Special emphasis on the role of family and community in the educational process.

*prereq: QSTA 40100, QSTB 20200, QSTAB 30000*

**3 hrs**

**3 cr.**

**QSTA 41080 - Literacy Across the Content Areas**

Theoretical, methodological, practical, and technological aspects of teaching literacy to elementary school students with an emphasis on meeting the literacy needs of diverse student populations.

*prereq: QSTA 40100, QSTB 20200, QSTAB 30000, CSCI 11500*

*coreq: QSTA 41200, QSTAB 30100*

**2 hrs**

**2 cr.**

**QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools**

Teaching social studies through literature, the arts, and technology in grades 1-6. Literature selections will include original documents, essays, historical fiction, novels, diaries, journals, poetry, drama and folktales. Instructional strategies will include interdisciplinary curriculum and differentiated learning, teaching, and assessment strategies for English language learners and students with disabilities. Diverse activities will include utilizing the community, particularly museums, as a laboratory for student learning.

*prereq: QSTA 40100, QSTB 20200, QSTAB 30000*
coreq: QSTA 41000, QSTAB 30100
2 hrs
2 cr.

**QSTAB 30100 - Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools**

Supervised experiences in classroom applications of QSTA 41080 - Literacy Across the Content Areas and QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools. Students will complete 6 of fieldwork per week for a minimum of 75 contact per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individuals and small groups of children. Students will design or adapt curriculum that meet the needs of diverse learners, including children with special needs and English language learners.

*prereq: QSTA 40100, QSTB 20200, QSTAB 30000
coreq: QSTA 41000, 41200
75 hrs
1 cr.*

**Semester 3**

**QSTA 40780 - The Arts: An Interdisciplinary Learning Experience**

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1-6.

*prereq: QSTA 40100, QSTB 20200, QSTAB 30000
3 hrs
3 cr.*

**SPED 30800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

*prereq: 12 credits of coursework
45 hrs
3 cr.*

**QSTB 41380 - Psychology of Teaching and Learning**

The critical application of psychological theories and principles to classroom instruction, including: learning styles; instructional models; effective teaching; motivation; student diversity; students with special needs; classroom management; and formal and informal assessment.
QSTA 40680 - Mathematics Teaching and Learning in Elementary School

Modern methods for teaching mathematics through understanding in the elementary grades.

Transfer students may be allowed to enroll in QSTA 40600 after completing MATH 10400 and registering for MATH 10500 if their progress through the QUEST program would be delayed by the MATH 10500 prerequisite requirement.

QSTAB 30200 - Fieldwork III: Fieldwork for Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning

Supervised experiences in classroom applications of QSTA 40680: Mathematics Teaching and Learning in Elementary School and QSTB 41380: Psychology of Teaching and Learning. Students will complete 6 of fieldwork per week for a semester minimum of 75 contact to demonstrate the ability to apply knowledge acquired in the Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning courses to effectively deliver instruction in the content areas to individual children, small work groups, and large groups of children.

QSTA 41480 - Teaching Science in Elementary Schools

This course is inquiry-based or process-oriented. Focuses on the doing part of science more than the facts part of science. Includes analysis of local, state and national science standards, working with students from culturally diverse backgrounds, using multimedia technology effectively, and working with parents and the community. Students will be observed in science teaching activities during their co requisite student teaching in science.

QSTA 41580 - Student Teaching

Supervised student teaching experience in an elementary school setting at one grade level from grades 1-6. Requirements include four full days per week of student teaching for a minimum of 50 days, 30 hours of seminars +
conferences, and attendance at professional development workshops.

**prereq:** QSTA 40600, 40700, QSTB 41300, QSTAB 30200, HED 31400  
**coreq:** QSTA 41400  
2 per week of seminar plus student teaching  
4 cr.

### School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0  
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

### Chinese Language and Literature - BA

Return to Classical and Oriental Studies

### Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

**CHIN 10100 - Elementary Chinese I**

**Hunter Core**  
World Culture and Global Issues (WCGI)  
Beginning course in Mandarin.  
CHIN 10100 not usually credited without CHIN 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.  
3 hrs  
3 cr.  
offered fall

**CHIN 10200 - Elementary Chinese II**

Beginning course in Mandarin.  
3 hrs  
3 cr.  
offered spring

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement
Major

The major in Chinese language and literature consists of 24 credits chosen from the following CHIN-prefixed courses:

**CHIN 20100 - Intermediate Chinese I**

Reading of literature in *baihua* (vernacular style) with emphasis on structural use of “function words” and vocabulary-building.

*prereq: CHIN 10200 or equiv.*

3 hrs

3 cr.

offered fall

**CHIN 20200 - Intermediate Chinese II**

Continued reading of literature in *baihua*.

*prereq: CHIN 20100 or equiv.*

3 hrs

3 cr.

offered spring

**CHIN 30100 - Journalistic Chinese Literature I**

Intensive reading of literature and essays written in journalistic style.

*prereq: CHIN 20200 or equiv.*

3 hrs

3 cr.

offered fall

**CHIN 30200 - Journalistic Chinese Literature II**

Intensive reading and translation of literature written in journalistic style.

*prereq: CHIN 30100 or equiv.*

3 hrs

3 cr.

offered spring

**CHIN 30300 - Classical Chinese Literature I**

Intensive study of literature written in *wenyan* or classical style, with attention to basic structures of literary styles.

*prereq: CHIN 20200 or equiv.*

3 hrs

3 cr.

offered fall

**CHIN 30400 - Classical Chinese Literature II**

Continuation of CHIN 303. Selected readings in literature written in *wenyan* or classical style.

*prereq: CHIN 303 or equiv.*

3 hrs
CHIN 30700 - Classical Chinese Poetry

Pluralism and Diversity
PD/A
Close textual and stylistic analysis of texts selected from standard verse forms, with emphasis on Tang shi.

_prereq: CHIN 30400 or equiv._

3 hrs

CHIN 40100 - Advanced Studies in Chinese Literature

Including 20th-century literature, poetry; etymology and vocabulary building; Chinese-English translation.

_prereq: CHIN 30200 or equiv, perm chair_

3 hrs

CHIN 40200 - Independent Study in Chinese Literature

Independent study and research in Chinese literature under supervision of a faculty member.
For majors only.

_prereq: CHIN 40100, perm chair_

3 hrs

Preparation for Teaching Chinese in Grades 7-12

Students preparing to teach Chinese must complete a 30-credit major option for teaching that includes the 24-credit sequence taken by non-teaching majors plus 9 additional credits: CHIN 39900 and 6 credits in Chinese language and literature at the 300 or 400 level. Students interested in teaching Chinese in New York schools should take the 23-credit pedagogical sequence for grades 7-12; this sequence may count toward the course requirements for New York State certification, but will not by itself be sufficient for certification. Students interested in a teaching career should consult with the The School of Education.

Minor in Chinese

The minor in Chinese consists of 12 credits. Students must take 4 courses at or above the CHIN 200 level taught in Chinese. Course prerequisites must be satisfied. Internships and independent studies do not count toward the minor. Consult the Chinese program adviser for appropriate course recommendations.

Advanced Placement and Exemptions

Students who elect to take Chinese as their required language and have studied the language abroad or at home must consult the head of the Chinese Division for advanced placement or exemptions. The Chinese program does not offer proficiency tests.

Electives
All courses, unless otherwise stated in course descriptions, are open to qualified students majoring in other disciplines.

Chinese: Other Courses

Language Courses

CHIN 10100 - Elementary Chinese I

Hunter Core
World Culture and Global Issues (WCGI)
Beginning course in Mandarin.

3 cr.

**ANTHC 22800 - Archaeology of the Near East to 2000 BC**

Pluralism and Diversity  
PD/A  
GER  
3/B

Sociocultural development of Near East from early hunter-gatherers to first states and empires.

*prereq: ANTHC 12600 or perm instr.*  
3 hrs  
3 cr.

**ANTHC 23100 - Archaeology of Mesoamerica**

GER  
3/B

Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.

*prereq: ANTHC 12600 or perm instr.*  
3 hrs  
3 cr.

**ANTHC 23200 - Archaeology of South America and the Caribbean**

GER  
3/B

Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.

*prereq: ANTHC 12600 or perm instr.*
ANTHC 42600 - Seminar in Archaeological Field Methods

Pluralism and Diversity
See note below
Introduction to field methods and techniques in survey and excavation; involves weekend fieldwork on nearby sites.

The only ANTHC 42600 courses that currently meet Pluralism and Diversity Requirement are:

ANTHC 42659 Archaeology of North America meets PD/B
ANTHC 42660 Archaeology of Colonialism meets PD/D
prereq: ANTHC 12600 or perm instr.

Minor in Classical Archaeology

12 Credits

1. CLA 20400 - Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)
2. CLA 22100 - Greek Archaeology (W)
3. CLA 22200 - Roman Archaeology I: Etruscans, Monarchy, Republic (W)
4. One other course in Classical Archaeology at the 200- or 300-level.

Note: CLA 20400 is a prerequisite for all other Classical Archaeology courses.

Classical Studies - BA

Return to Classical and Oriental Studies

12 credits of Greek or 12 credits of Latin, including

GRK 10100 - Beginning Greek

Hunter Core
World Culture and Global Issues (WCGI)
For credit policy on GRK 10100 without GRK 10200 please see Appendix II: Foreign Language Requirement.

3 hrs
3 cr.

CLA 30200 - Comparative Backgrounds of Classical Mythology (W)

Pluralism and Diversity
PD/D
GER
3/A

Mythological systems that bear on classical myth, including Egyptian, Mesopotamian, Hittite, Ugaritic, and Celtic myths.
prereq: ENGL 12000; CLA 10100
3 hrs
3 cr.

CLA 30300 - Religion of Ancient Greece (W)

Pluralism and Diversity
GER 3/A
The Ancient Greek religious experience: official rites, mystery cults, oracles, personal religious belief, and practice.
prereq: ENGL 12000, CLA 10100 or 20100
3 hrs
3 cr.

CLA 30400 - Pagans and Christians (W)

Pluralism and Diversity
PD/D
GER
3/A

Transformation of classical culture in late antiquity: religion, philosophy, mysticism, magic, astrology.
prereq: ENGL 12000; CLA 20100 or 20300
3 hrs
3 cr.

CLA 30500 - Women and Slaves in Classical Antiquity (W)

Pluralism and Diversity
PD/C or D
GER
GER 3/A

Women and slaves in Greek and Roman society and their influence on Western attitudes about sex and class.
cross-listed WGSC 30500 (W)
prereq: ENGL 12000; CLA 20100 or 20300
3 hrs
3 cr.
CLA 30600 - Special Studies in Ancient Greek Culture

Examination of specific areas of Greek life. Topics vary from year to year.

prereq: ENGL 12000
3 hrs
3 cr.

CLA 30700 - Special Studies in Ancient Roman Culture

Pluralism and Diversity
PD/D
Examination of specific areas of Roman life. Topics vary from year to year.

prereq: ENGL 12000
3 hrs
3 cr.

CLA 30800 - Magic and Science in the Ancient World (W)

GER
3/A

The interaction of scientific and magical world views in Greek, Roman and Near Eastern antiquity from the invention of writing to the origins of alchemy.

prereq: ENGL 12000; CLA 20100 or 20300
3 hrs
3 cr.

CLA 31000 - Ancient Sports and Spectacles (W)

Pluralism and Diversity
PD/D
GER
3/A

An exploration of ancient Greek and Roman sports and spectacles, focusing on evidence supplied by literary texts, archaeology, and the visual arts.

prereq: ENGL 12000; CLA 20100 or 20300
3 hrs
3 cr.

CLA 32200 - Archaeology of Mesopotamia and Iran (W)

Pluralism and Diversity
PD/A
GER
3/A

Sites, cultures, and styles of ancient Mesopotamia and Iran. First cities, tombs of Ur, ziggurats, palaces, Elamites and Persians.

prereq: ENGL 12000, CLA 20400
CLA 32300 - Archaeology of Anatolia (W)

Pluralism and Diversity
PD/A
GER
3/A

Sites, cultures, and styles of ancient Anatolia: Catal Huyuk, Troy, the Hittites, royal tombs of Phrygia and Lycia.
prereq: ENGL 12000, CLA 20400
3 hrs
3 cr.

CLA 32900 - Problems in Archaeology

Exploration in depth of particular area or period in Old World archaeology. Topics vary.
prereq: ENGL 12000, two courses in classical archaeology
3 hrs
3 cr.

CLA 33000 - Field Seminar in Archaeology

Open to majors only. Fieldwork, undertaken during a school semester or summer, under auspices of department or in an approved program, teaching excavation, or field school.
prereq: ENGL 12000, perm dept.
6 cr. maximum

CLA 42100 - Independent Study in Classics

Open to majors only.
prereq: ENGL 12000, perm dept.
1-3 cr.

CLA 49100 - Honors in Classics

Sr only. Individual research under direction of member of department, culminating in essay approved by Honors Committee.
prereq: ENGL 12000, perm dept.
3 hrs
3 cr.

CLA 49800 - Internship

prereq: ENGL 12000, perm dept.
1-6 cr.

Comparative Literature - BA
Foundational Courses

Foundational Courses include courses in Comparative Literature and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

Major Requirements

All majors take a core course in methodology, but the remaining classes in a student’s program are arranged with the coordinator in an effort to work out a balance between two different bodies of literature, two different literary periods, and two different genres. In addition to comparative literature courses in prose fiction, drama, myth and folklore, literary movements, and literature and the arts, majors may also elect appropriate classes from other literature departments, as well as from such disciplines as history, philosophy, art and anthropology, with the approval of the coordinator. Upon becoming a major, a student will, in consultation with the coordinator, choose one member of the comparative literature committee as an adviser and plan an individualized program. All majors are required to review their programs with their adviser once a semester.

The comparative literature major consists of 30 credits distributed as follows:

A. Concentration in at least two periods and in two genres.

B. At least 9 credits in COMP-prefixed courses, beginning with the following

(all of these courses will be taught in English)

**COMPL 30100 - Seminar: Approaches to Comparative Literature**

Study of selected major works to demonstrate scope and various approaches of comparative literature. Focus on conscious imitation, treatment of similar themes, use of well-defined genres and conventions as well as of concepts from history of ideas. Emphasis on close reading of texts and development of critical vocabulary.

Required of all majors in comparative literature.

3 hrs
3 cr.

C. 21 credits in literature courses
distributed so that at least 12 credits are courses studied in the original language (be it a foreign language, if the student is proficient in that language, or English). Courses at the 300 level are strongly preferred, although exceptions may be granted by the adviser.

Minor for Students Majoring in Comparative Literature

A 12 credit minor is recommended for students majoring in Comparative Literature. Students will be advised by their Comparative Literature faculty mentor to choose a discipline that will complement and enrich their major field of study.

Honors

Students are eligible for departmental honors if their GPA in the major is no less than 3.5. The student must also take at least 3 credits (but no more than 6 credits) in honors courses offered by the program and approved by the adviser. The offerings of the Comparative Literature Program are determined by the needs of students in the program and the faculty available. For specific information, consult the coordinator.

Computer Science - BA

Foundational Courses

Foundational Courses include courses in computer science and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

One of the following (prereq to CSCI 15000):

**MATH 12500 (STEM) - Precalculus**

**Hunter Core**
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.*

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

*prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.*
MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

CSCI 12700 - Introduction to Computer Science

Hunter Core
Scientific World (SW)
GER
2/E (Non lab course)

A technical introduction to computer science. Organization of hardware, software, information and an introduction to programming. This course is meant for: potential computer science majors who may not be prepared for CSCI 13500; science majors who need some basic computer knowledge; and non-CSCI majors who want a more rigorous introduction to the field than CSCI 120 provides.

May not be used toward the CSCI major or minor.

prereq or coreq: MATH 12100, 12500 or 15000

Hunter Core Requirement

Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

Major

The computer science major consists of 41 credits in CSCI courses and a collateral 14 credits in MATH/STAT courses. An additional 6 credits of foundational courses (CSCI 12700 and MATH 12500 (STEM)) may be required.

Required Courses
All computer science majors (except those following requirements for the Computer Science with Concentration in Bioinformatics - BA) must complete successfully the following courses with a grade of C or better:

**CSCI 13500 - Software Analysis and Design I**

This first course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language. The course includes a brief overview of computer systems.

*prereq: CSCI 12700 or equivalent*

*coreq: CSCI 13600*

3 hrs
3 cr.

**CSCI 15000 - Discrete Structures**

Mathematical background required for computer science. Sets, relations, cardinality, propositional calculus, discrete functions, truth tables, induction, combinatorics.

*prereq: MATH 12500, 15000 or 15500*

4 hrs (3 Lec. 1 Rec.)
4 cr.

**CSCI 16000 - Computer Architecture I**

GER 3/B

Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.

*prereq: CSCI 12700, CSCI 15000*

3 hrs
3 cr.

**CSCI 23500 - Software Analysis and Design II**

GER 3/B

Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.

*prereq: CSCI 13500, 15000; MATH 15000*

3 hrs
3 cr.

**CSCI 26000 - Computer Architecture II**

GER 3/B

Organization of computer systems and design of system elements, including ALU, memories and interfaces. Some assembly language programming.

*prereq: CSCI 13500, 16000 or 24500; MATH 15000*
CSCI 26500 - Computer Theory I

GER
3/B

Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.

Prereq: CSCI 16000 or 14500; MATH 15000

3 hrs
3 cr.

CSCI 33500 - Software Analysis and Design III

GER
3/B

The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including NP-completeness.

Prereq: CSCI 23500, MATH 15500

3 hrs
3 cr.

CSCI 34000 - Operating Systems

GER
3/B

Definition of functions and components of operating systems. Survey of contemporary multiprocessing/multiprogramming systems. Exploration of systems programs: their design, internal structure and implementation.

Prereq: CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300

3 hrs
3 cr.

CSCI 49900 - Advanced Applications: A Capstone for Majors

A chance for computer science majors to test their mettle on major projects. Working in small groups they will implement systems that involve at least two platforms running programs written in at least three languages.

Prereq: All non-elective courses in Computer Science required for graduation or permission of instructor.

4 hrs
4 cr.

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.  
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.  
4 hrs  
4 cr.

**MATH 15500 (STEM) - Calculus with Analytic Geometry II**

**Hunter Core**  
Math/Quantitative Reasoning  
GER  
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.  
prereq: grade of C or better in MATH 15000  
4 hrs  
4 cr.

**MATH 16000 - Matrix Algebra**

GER  
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.  
prereq: MATH 12500 or appropriate score on placement exam  
3 hrs  
3 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**  
Math/Quantitative Reasoning  
GER  
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.  
prereq: MATH 12500 or appropriate score on placement exam.  
3 hrs  
3 cr.

**Electives**

**Students who declared their major in spring 2009 or before**

Students who declared their major in or before spring 2009 are held bound by this rule: In addition to the preliminary and required courses, each major must complete 15 hours of elective credits from CSCI courses higher than 200-level with a grade of C or better. At least 12 elective credits must be in classes other than CSCI 39100 CSCI 39200 and
CSCI 39300. With departmental permission, certain appropriate upper-level electives from other academic departments may be substituted. They are not required to take CSCI 49900, but may choose is as an elective.

Students who declared their major after Spring 2009

Students who declared their major after spring 2009 take a minimum of 12 (rather than 15) elective credit hours and are required to successfully complete CSCI 49900, after having successfully completed all other required courses for the major.

Recommended course sequence for entering freshmen without credit for pre-calculus and without prior computer programming experience:

Term 1

**MATH 12500 (STEM) - Precalculus**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*

4 hrs

4 cr.

**CSCI 12700 - Introduction to Computer Science**

**Hunter Core**
Scientific World (SW)

**GER**
2/E (Non lab course)

A technical introduction to computer science. Organization of hardware, software, information and an introduction to programming. This course is meant for: potential computer science majors who may not be prepared for CSCI 13500; science majors who need some basic computer knowledge; and non-CSCI majors who want a more rigorous introduction to the field than CSCI 120 provides. May not be used toward the CSCI major or minor.

*prereq or coreq: MATH 12100, 12500 or 15000*

3 hrs

3 cr.

Term 2

**CSCI 13500 - Software Analysis and Design I**
This first course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language. The course includes a brief overview of computer systems.

**prereq:** CSCI 12700 or equivalent  
**coreq:** CSCI 13600
3 hrs   
3 cr.

### CSCI 13600 - Supervised Programming Lab

Students work in small teams to complete weekly programming assignments under the supervision of an instructor. Assignments are at the level of material covered in CSCI 135 and CSCI 127 though this is not a recitation or review section for either course. Emphasis is on solving problems in a cooperative programming environment. May not be counted towards the computer science major.

**coreq:** CSCI 13500
2 hrs   
1 cr.

### CSCI 15000 - Discrete Structures

Mathematical background required for computer science. Sets, relations, cardinality, propositional calculus, discrete functions, truth tables, induction, combinatorics.

**prereq:** MATH 12500, 15000 or 15500
4 hrs (3 Lec. 1 Rec.)  
4 cr.

### Term 3

#### CSCI 16000 - Computer Architecture I

**GER**  
3/B

Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.

**prereq:** CSCI 12700, CSCI 15000
3 hrs  
3 cr.

#### MATH 15000 (STEM) - Calculus with Analytic Geometry I

**Hunter Core**  
Math/Quantitative Reasoning  
**GER**  
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

**prereq:** grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs   
4 cr.

### Term 4
CSCI 23500 - Software Analysis and Design II

GER
3/B

Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.

_prereq: CSCI 13500, 15O00; MATH 15000
3 hrs
3 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

_prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

Term 5

CSCI 26000 - Computer Architecture II

GER
3/B

Organization of computer systems and design of system elements, including ALU, memories and interfaces. Some assembly language programming.

_prereq: CSCI 13500, 16000 or 24500; MATH 15000
3 hrs
3 cr.

CSCI 33500 - Software Analysis and Design III

GER
3/B

The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including NP-completeness.

_prereq: CSCI 23500, MATH 15500
3 hrs
3 cr.
MATH 16000 - Matrix Algebra

GER
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

*prereq: MATH 12500 or appropriate score on placement exam*
3 hrs
3 cr.

Term 6

CSCI 26500 - Computer Theory I

GER
3/B

Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.

*prereq: CSCI 16000 or 14500; MATH 15000*
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning

GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

*prereq: MATH 12500 or appropriate score on placement exam.*
3 hrs
3 cr.

Term 7

CSCI 34000 - Operating Systems

GER
3/B

Definition of functions and components of operating systems. Survey of contemporary multiprocessing/multiprogramming systems. Exploration of systems programs: their design, internal structure and implementation.

*prereq: CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300*
3 hrs
3 cr.

- 2 CSCI electives
Term 8

CSCI 49900 - Advanced Applications: A Capstone for Majors

A chance for computer science majors to test their mettle on major projects. Working in small groups they will implement systems that involve at least two platforms running programs written in at least three languages.

prereq: All non-elective courses in Computer Science required for graduation or permission of instructor.

4 hrs
4 cr.

and 2 CSCI electives

Additional Information

Students with both credit for pre-calculus and prior computer programming experience can begin with Semester 2.

Recommended course sequence for students with transfer credit for CSCI 13500, 15000 and 16000 and MATH 15000 and 15500:

Term 1

CSCI 23500 - Software Analysis and Design II

GER

3/B

Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.

prereq: CSCI 13500, 15000; MATH 15000

3 hrs
3 cr.

CSCI 26000 - Computer Architecture II

GER

3/B

Organization of computer systems and design of system elements, including ALU, memories and interfaces. Some assembly language programming.

prereq: CSCI 13500, 16000 or 24500; MATH 15000

3 hrs
3 cr.

MATH 16000 - Matrix Algebra
Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

**prereq:** MATH 12500 or appropriate score on placement exam

3 hrs

3 cr.

**Term 2**

**CSCI 33500 - Software Analysis and Design III**

**GER**

3/B

The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including NP-completeness.

**prereq:** CSCI 23500, MATH 15500

3 hrs

3 cr.

**CSCI 26500 - Computer Theory I**

**GER**

3/B

Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.

**prereq:** CSCI 16000 or 14500; MATH 15000

3 hrs

3 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

**prereq:** MATH 12500 or appropriate score on placement exam.

3 hrs

3 cr.

**Term 3**

**CSCI 34000 - Operating Systems**
Definition of functions and components of operating systems. Survey of contemporary multiprocessing/multiprogramming systems. Exploration of systems programs: their design, internal structure and implementation.

*prereq: CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300*

3 hrs
3 cr.
- 2 CSCI electives

**Term 4**

**CSCI 49900 - Advanced Applications: A Capstone for Majors**

A chance for computer science majors to test their mettle on major projects. Working in small groups they will implement systems that involve at least two platforms running programs written in at least three languages.

*prereq: All non-elective courses in Computer Science required for graduation or permission of instructor.*

4 hrs
4 cr.
- and 2 CSCI electives

**Minor in Computer Science**

A minor in Computer Science consists of 13-14 credits of coursework. These credits include the following required courses – note that MATH 12500 (STEM) is a prerequisite course to CSCI 12700 however MATH 125 does not count towards the Computer Science Minor:

**CSCI 12700 - Introduction to Computer Science**

**Hunter Core**

Scientific World (SW)

**GER**

2/E (Non lab course)

A technical introduction to computer science. Organization of hardware, software, information and an introduction to programming. This course is meant for: potential computer science majors who may not be prepared for CSCI 13500; science majors who need some basic computer knowledge; and non-CSCI majors who want a more rigorous introduction to the field than CSCI 120 provides. May not be used toward the CSCI major or minor.

*prereq or coreq: MATH 12100, 12500 or 15000*

3 hrs
3 cr.

**CSCI 13300 - Programming for Everyone**

**Hunter Core**

Scientific World (SW)

**GER**

2/E
A comprehensive practical course in programming that concentrates on producing working software for games, simulations, animations, data manipulations, interacting with the Internet, graphical user interfaces and many other application areas. No programming experience is necessary. This course is required for Computer Science minors. This course does not count toward the computer science major.

3 hrs
3 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab

GER
3/B

An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment. Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

prereq: CSCI 12700 or CSCI 13200
3 hrs
3 cr.

CSCI 23300 - Programming Projects Seminar for Minors

This course will serve as a capstone for the minor, affording students the opportunity to write reasonably large and complex programs. Students will be expected to draw topics for these programs from their majors or other areas of interest. This course does not count toward the computer science major.

prereq or coreq: CSCI 13300 and 23200 and a declared Computer Science Minor.
2 hrs.
1 credit

In addition, students will be required to take at least one 3 credit elective selected from Computer Science offerings numbered 13500 or above. Although minors may take any Computer Science course numbered 135 or above, courses that require only one or more of the above courses as prerequisites include:

CSCI 13500 - Software Analysis and Design I

This first course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language. The course includes a brief overview of computer systems.

prereq: CSCI 12700 or equivalent
coreq: CSCI 13600
3 hrs
3 cr.

CSCI 13600 - Supervised Programming Lab

Students work in small teams to complete weekly programming assignments under the supervision of an instructor. Assignments are at the level of material covered in CSCI 135 and CSCI 127 though this is not a recitation or review section for either course. Emphasis is on solving problems in a cooperative programming environment.

May not be counted towards the computer science major.

coreq: CSCI 13500
CSCI 15000 - Discrete Structures

Mathematical background required for computer science. Sets, relations, cardinality, propositional calculus, discrete functions, truth tables, induction, combinatorics.

prereq: MATH 12500, 15000 or 15500
4 hrs (3 Lec. 1 Rec.)
4 cr.

CSCI 16000 - Computer Architecture I

GER
3/B

Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.

prereq: CSCI 12700, CSCI 15000
3 hrs
3 cr.

CSCI 26700 - Microprocessors and Embedded Systems

GER
3/B

Students will assemble and program a small single board computer to control, or simulate control of, some device.

prereq: CSCI 13300 or 26000
3 hrs
3 cr.

Note

All prerequisites must be fulfilled for any CSCI course. The only exception is a written waiver from the instructor.

Prospective minors should be aware that this course of study usually requires a minimum of four semesters to complete.

Please note

Computer science majors cannot choose computer science for their minor.

Minors for Computer Science Majors

Hunter College does not requires students to take a minor field of study in conjunction with their major. Nevertheless, we encourage students to pursue a minor. Interested students may wish to combine a computer science major with a minor in such fields as mathematics, geography, economics, film and media. In fact most disciplines would be appropriate as a minor depending on the student's interests.
Consult and adviser in the department of the minor you wish to pursue for further information.

Honors

To graduate from Hunter College with honors in computer science, a student must have at least a 2.7 GPA overall and a 3.5 GPA or better in computer science/math and a grade of A in one of the CSCI 49300 series of courses.

Additional Information

The “one repeat” rule is in effect for all courses to be used toward the major, from CSCI 13500 through the 400-level courses. This means that if a student fails a CSCI major course once (failure = D, F, NC, WU), that student will have only one more chance to pass the course. In addition, the Computer Science Department will not accept a CR grade in any of the preliminary or required courses for the major (CSCI 13500, CSCI 15000, CSCI 16000, CSCI 23500, CSCI 26000, CSCI 26500, CSCI 33500, CSCI 34000, CSCI 36000). Any student wishing to declare computer science as a major who has received a grade of CR in any of the CSCI courses listed above, must ask the instructor of that course to change the CR grade to the appropriate letter grade. This must be done before the declaration of major form can be authorized.

*Please note: A grade of “D” is not considered a passing grade by this department for any of the computer science or math courses required for the major.*

Computer Science with Concentration in Bioinformatics - BA

Return to Programs and Courses in Computer Science

This course of study will provide computer science majors with a fundamental understanding of the most important aspects of quantitative and computational biology, including a solid background in biology, chemistry, mathematics, statistics, and computer science, with an emphasis on quantitative reasoning. Students opting to concentrate in bioinformatics are not required to take CSCI 26000, and CSCI 36000. Instead of 15 hours of 300-level and 400-level elective credits, the following requirements must be met:

Foundational Courses

Foundational Courses include courses in computer science and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

MATH 12500 (STEM) - Precalculus

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*

4 hrs

4 cr.
MATH 15000 (STEM) - Calculus with Analytic Geometry I

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
*prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.*
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
*prereq: grade of C or better in MATH 15000*
4 hrs
4 cr.

CSCI 12700 - Introduction to Computer Science

**Hunter Core**
Scientific World (SW)
**GER**
2/E (Non lab course)

A technical introduction to computer science. Organization of hardware, software, information and an introduction to programming. This course is meant for: potential computer science majors who may not be prepared for CSCI 13500; science majors who need some basic computer knowledge; and non-CSCI majors who want a more rigorous introduction to the field than CSCI 120 provides. May not be used toward the CSCI major or minor.
*prereq or coreq: MATH 12100, 12500 or 15000*
3 hrs
3 cr.

CSCI 13500 - Software Analysis and Design I

This first course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language. The course includes a brief overview of computer systems.
*prereq: CSCI 12700 or equivalent*
*coreq: CSCI 13600*
3 hrs
3 cr.
CSCI 13600 - Supervised Programming Lab

Students work in small teams to complete weekly programming assignments under the supervision of an instructor. Assignments are at the level of material covered in CSCI 135 and CSCI 127 though this is not a recitation or review section for either course. Emphasis is on solving problems in a cooperative programming environment. May not be counted towards the computer science major.

coreq: CSCI 13500
2 hrs
1 cr.

Hunter Core Requirement

Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

I. Required Foundational Courses (6 credits)

CSCI 12700 - Introduction to Computer Science

Hunter Core
Scientific World (SW)
GER
2/E (Non lab course)

A technical introduction to computer science. Organization of hardware, software, information and an introduction to programming. This course is meant for: potential computer science majors who may not be prepared for CSCI 13500; science majors who need some basic computer knowledge; and non-CSCI majors who want a more rigorous introduction to the field than CSCI 120 provides. May not be used toward the CSCI major or minor.

prereq or coreq: MATH 12100, 12500 or 15000
3 hrs
3 cr.

CSCI 13500 - Software Analysis and Design I

This first course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language. The course includes a brief overview of computer systems.

prereq: CSCI 12700 or equivalent
coreq: CSCI 13600
3 hrs
3 cr.

A student may declare a concentration in bioinformatics upon successful completion CSCI 13500 when declaring computer science as a major field of study.

II. Required Courses for Concentration in Bioinformatics

Students must obtain a grade of C or better in the following courses:
A. Computer science component 24 credits

**CSCI 15000 - Discrete Structures**

Mathematical background required for computer science. Sets, relations, cardinality, propositional calculus, discrete functions, truth tables, induction, combinatorics.

*prereq: MATH 12500, 15000 or 15500*

4 hrs (3 Lec. 1 Rec.)

4 cr.

**CSCI 16000 - Computer Architecture I**

**GER**

3/B

Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.

*prereq: CSCI 12700, CSCI 15000*

3 hrs

3 cr.

**CSCI 23500 - Software Analysis and Design II**

**GER**

3/B

Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.

*prereq: CSCI 13500, 15O00; MATH 15000*

3 hrs

3 cr.

**CSCI 26500 - Computer Theory I**

**GER**

3/B

Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.

*prereq: CSCI 16000 or 14500; MATH 15000*

3 hrs

3 cr.

**CSCI 33500 - Software Analysis and Design III**

**GER**

3/B

The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including NP-completeness.

*prereq: CSCI 23500, MATH 15500*
CSCI 34000 - Operating Systems

GER
3/B

Definition of functions and components of operating systems. Survey of contemporary multiprocessing/multiprogramming systems. Exploration of systems programs: their design, internal structure and implementation.

prereq: CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300

3 hrs
3 cr.

CSCI 43500 - Database Management

GER
3/B

Hierarchical and network databases; theory of relational databases; normalization theory; query languages.

prereq: CSCI 33500

3 hrs
3 cr.

CSCI 49369 - Big Data Technology

The increasing availability of big data has changed fundamental practices in business, health care, policy making, and scientific research. The primary objective of this course is to enable students to efficiently process, manage, reformulate, and mine an extremely large data set. This is an interdisciplinary course that considers data from many different sources. Students are welcome to work with their own interested domains in addition to the required ones.

prereq: CSCI 13500 and CSCI 23200 or CSCI43500, or permission of the instructor

3 hrs
3 cr.

B. Math and statistics component 17 credits

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.

4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II
**Hunter Core**  
Math/Quantitative Reasoning  
GER  
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.  
*prereq: grade of C or better in MATH 15000*  
4 hrs  
4 cr.

**MATH 16000 - Matrix Algebra**

GER  
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.  
*prereq: MATH 12500 or appropriate score on placement exam*  
3 hrs  
3 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**  
Math/Quantitative Reasoning  
GER  
1/B

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.  
*prereq: MATH 12500 or appropriate score on placement exam.*  
3 hrs  
3 cr.

**STAT 31900 - Bayesian Statistical Inference in the Sciences**

GER  
3/B

*prereq: MATH 15500; at least one of STAT 21200, STAT 21300 or STAT 21400 (or permission of instructor).*  
Prerequisites waived for students who have passed STAT 311.  
Familiarity with matrix algebra (at the level of MATH 160) and with the Windows computing environment are encouraged.  
3 hrs  
3 cr.
C. Biology component 12 credits

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: MATH 12500, CHEM 10200*

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

**BIOL 20300 - Molecular Biology and Genetics**

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

*prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv. (for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)*

coreq: CHEM 22200, 22300 or perm instr.

7 hrs

4.5 cr.

**BIOL 42500 - Computational Molecular Biology**

**GER**
3/B

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of *in silico* biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and predication of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

*prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.*
D. Chemistry component 12 credits

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

*prereq or coreq: MATH 12500, 15000 or equiv.*
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)
**GER**
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

*prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair*
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
**Pluralism and Diversity**
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq: CHEM 10200*

*coreq: CHEM 10400*
6 hrs
3 cr.
CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

Total credits for Bioinformatics Concentration: 65

Total Credits for a students who is not exempted from any foundational classes: 71

Additional Information

Prerequisites for certain courses are waived for students opting for this concentration. BIOL 102 is waived for BIOL 203. CSCI 26000 is waived for CSCI 34000. Other prerequisites must be satisfied. Students who plan to apply to graduate school in Computer Science are recommended to take CSI 26000, 36000 and 36500.

Recommended course sequence for students in the bioinformatics concentration:

Term 1

CSCI 12700 - Introduction to Computer Science

Hunter Core
Scientific World (SW)
GER
2/E (Non lab course)

A technical introduction to computer science. Organization of hardware, software, information and an introduction to programming. This course is meant for: potential computer science majors who may not be prepared for CSCI 13500; science majors who need some basic computer knowledge; and non-CSCI majors who want a more rigorous introduction to the field than CSCI 120 provides.
May not be used toward the CSCI major or minor.
prereq or coreq: MATH 12100, 12500 or 15000
3 hrs
3 cr.

MATH 12500 (STEM) - Precalculus
**Hunter Core**
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*

4 hrs
4 cr.

**Term 2**

**CSCI 13500 - Software Analysis and Design I**

This first course for prospective computer science majors and minors concentrates on problem-solving techniques using a high-level programming language. The course includes a brief overview of computer systems.

*prereq: CSCI 12700 or equivalent*

*coreq: CSCI 13600*

3 hrs
3 cr.

**CSCI 13600 - Supervised Programming Lab**

Students work in small teams to complete weekly programming assignments under the supervision of an instructor. Assignments are at the level of material covered in CSCI 135 and CSCI 127 though this is not a recitation or review section for either course. Emphasis is on solving problems in a cooperative programming environment. May not be counted towards the computer science major.

*coreq: CSCI 13500*

2 hrs
1 cr.

**CSCI 15000 - Discrete Structures**

Mathematical background required for computer science. Sets, relations, cardinality, propositional calculus, discrete functions, truth tables, induction, combinatorics.

*prereq: MATH 12500, 15000 or 15500*

4 hrs (3 Lec. 1 Rec.)
4 cr.

**Term 3**

**CSCI 16000 - Computer Architecture I**

GER
3/B

Boolean algebra, data representation, combinational circuits and minimization, sequential circuits.

*prereq: CSCI 12700, CSCI 15000*
MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.

4 hrs
4 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

Term 4

CSCI 23500 - Software Analysis and Design II

GER
3/B

Representation of information in computers, including process and data abstraction techniques. Topics covered include static and dynamic storage methods, lists, stacks, queues, binary trees, recursion, analysis of simple algorithms and some searching and sorting algorithms.
prereq: CSCI 13500, 15O00; MATH 15000
3 hrs
3 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II
**Hunter Core**  
Math/Quantitative Reasoning  
GER  
1/B  

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.  
*prereq: grade of C or better in MATH 15000*  
4 hrs  
4 cr.

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)  
GER  
2/E  

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.  

Primarily for pre-med, medical laboratory sciences and science majors.  
*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*  

*prereq or coreq: MATH 12500, 15000 or equiv.*  
5 hrs (4 lec, 1 rec)  
4 cr.

**Term 5**

**CSCI 33500 - Software Analysis and Design III**

**GER**  
3/B  

The design and analysis of various types of algorithms, including searching, sorting, graph and tree algorithms. Problem-solving techniques. Worst and average case behavior analysis and optimality. Polynomial time complexity classes and theory, including NP-completeness.  
*prereq: CSCI 23500, MATH 15500*  
3 hrs  
3 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**  
Math/Quantitative Reasoning  
GER  
1/B  

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.
prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

Term 6

CSCI 26500 - Computer Theory I

GER
3/B

Recursion, regular sets, regular expressions, finite automata, context-free grammars, pushdown automata.

prereq: CSCI 16000 or 14500; MATH 15000
3 hrs
3 cr.

CSCI 34000 - Operating Systems

GER
3/B

Definition of functions and components of operating systems. Survey of contemporary multiprocessing/
multiprogramming systems. Exploration of systems programs: their design, internal structure and implementation.

**prereq:** CSCI 23500, 26000 or 24500; MATH 15500, STAT 11300 or 21300

3 hrs

3 cr.

**MATH 16000 - Matrix Algebra**

**GER**

1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

**prereq:** MATH 12500 or appropriate score on placement exam

3 hrs

3 cr.

**CHEM 22200 - Organic Chemistry Lecture I**

**GER**

GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

*Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.*

**prereq:** CHEM 10400 with a grade of C or better

5- 6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.

**Term 7**

**CSCI 43500 - Database Management**

**GER**

3/B

Hierarchical and network databases; theory of relational databases; normalization theory; query languages.

**prereq:** CSCI 33500

3 hrs

3 cr.

**STAT 31900 - Bayesian Statistical Inference in the Sciences**

**GER**

3/B

Fundamental principles and techniques of probability, statistical inference and data analysis, as pertains to the sciences, especially bioinformatics. Random variables and their distributions. Central limit theorem. Conditional probability, Markov chains and Hidden Markov Models. Bayesian statistical paradigm and inference using Markov chain Monte
Carlo. Computer simulations and data analysis.

**prereq:** MATH 15500; at least one of STAT 21200, STAT 21300 or STAT 21400 (or permission of instructor).

Prerequisites waived for students who have passed STAT 311.

Familiarity with matrix algebra (at the level of MATH 160) and with the Windows computing environment are encouraged.

3 hrs  
3 cr

**BIOL 20300 - Molecular Biology and Genetics**

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

**prereq:** Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.  
(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)  
**coreq:** CHEM 22200, 22300 or perm instr.  
7 hrs  
4.5 cr.  
spring only

**Term 8**

**CSCI 49366 - UNIX System Programming**

**GER**  
3/B

An introduction to the key components of the UNIX application programming interface, including files, processes, terminal control, signals, interprocess communication, the ncurses library, and multi-threading. Includes basic of the internal structure of the UNIX operating system, and selected user-level utilities and commands for efficient programming and working in UNIX.

**prereq or coreq:** CSCI 23500, 34000  
3 hours  
3 credits

**BIOL 42500 - Computational Molecular Biology**

**GER**

3/B

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of *in silico* biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and prediction of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.
Concentration in Creative Writing (39 cr)

Return to Programs and Courses in English

The concentration in Creative Writing is designed to provide students with an informed appreciation of the depth and breadth of literature written in English, as well as the opportunity to develop their own interests and skills in creative writing. Students concentrating in Creative Writing take ENGL 25200 Introduction to Literary Studies, five required courses in literature, and at least four creative writing workshops.

Foundational Courses

Foundational Courses include courses in English and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

B.A. in English: Concentration in Creative Writing

A. Introduction to Literary Studies (3 cr)

– to be taken within one semester of declaring the major

ENGL 25200 - Introduction to Literary Studies

GER

3A

Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.
B. Five Required Literature Courses (15 cr)

1. Required Course

ENGL 33800 - Survey of British Literature I: Early Texts To the Eighteenth Century

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range of authors and genres in their cultural, social, and historical contexts.

prereq: ENGL 22000
3 hrs
3 cr.

2. One course chosen from the following courses in American Literature

ENGL 39500 - Survey of American Literature: Origins to the Civil War (W)

GER
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 39600 - American Prose from Reconstruction to World War I

GER
3/A

Study of selected prose works in their historical, cultural, and literary contexts. Authors may include Twain, James, Crane, Du Bois, Wharton, Dreiser, Chesnutt, and Chopin.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 39700 - Pre-20th Century American Poetry

GER
3/A

Study of selected poets in their historical, cultural, and literary contexts. Authors may include Bradstreet, Taylor, Wheatley, Poe, Emerson, Lazarus, Whitman, Dickinson, Dunbar, and Robinson. May be used toward Part 4 of the American Literature concentration.
prereq: ENGL 22000
3 hrs
3 cr.

3. One course chosen from the following courses in Multi-Ethnic or Transnational Literatures written in English

ENGL 31800 - Topics in Literature of Non-European Americans (W)

Pluralism and Diversity
PD/B
GER
3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 32000 - Multi-Ethnic American Literature (W)

Pluralism and Diversity
PD/B
GER
3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 32100 - Topics in African American Literature

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 32500 - Post-Colonial Literature in English (W)
Pluralism and Diversity
P&D A
GER
3/A

Study of postcolonial literature written in English and in translation by writers from a number of different regions, which may include South Asia, Africa, the Caribbean, and the Middle East.

\textit{prereq: ENGL 22000}
3 hrs
3 cr.

-or-

\textbf{ENGL 32700 - Topics in Caribbean Literature (W)}

Pluralism and Diversity
PD/A
GER
3/A

Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.

\textit{prereq: ENGL 22000}
3 hrs
3 cr.

4. One course chosen from the following courses in Literary Theory, Linguistics, or Rhetoric

\textbf{ENGL 30600 - Literary Theory (W)}

GER
3/A

Major theories of literature, with emphasis on contemporary trends.

\textit{prereq: ENGL 22000}
3 hrs
3 cr.

-or-

\textbf{ENGL 33000 - Sociolinguistics}

This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.

\textit{prereq: ENGL 22000}
3 hrs
3 cr

-or-
ENGL 33100 - The Structure of Modern English

Exploration of the acquisition, structure, and use of modern English and its regional and social variations
prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.
prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 34000 - History of Rhetoric

GER
3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.
prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 34800 - English Across the World

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two texts that present opposing views of the historical processes in question and will be further illuminated by students’ own research on individual countries.
prereq: ENGL 22000
3 hrs
3 cr

5. One 300- or 400-level English course with a focus on literature or rhetoric before 1800

Note:

1. Students may use a period appropriate Honors Seminar to satisfy this requirement. Students may not use ENGL 33800 or ENGL 39500 to satisfy this requirement.
2. Topics courses must conform to the pre-1800 period requirement. Consult individual course descriptions or an English advisor for guidance.
Students may choose from among the following English courses:

**ENGL 31700 - Topics in Non-European Literary Traditions (W)**

- **Pluralism and Diversity**
- PD/A
- **GER**
- 3/A

Study of literature written in English by writers in non-European traditions, in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester.

**prereq:** ENGL 22000

- 3 hrs
- 3 cr.

**ENGL 31800 - Topics in Literature of Non-European Americans (W)**

- **Pluralism and Diversity**
- PD/B
- **GER**
- 3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.

**prereq:** ENGL 22000

- 3 hrs
- 3 cr.

**ENGL 31900 - Topics in Literature by Women (W)**

- **Pluralism and Diversity**
- PD/C
- **GER**
- 3/A

Study of selected works by women in relation to a particular literary, cultural, historical, or theoretical theme.

**cross-listed** WGSU 31900

**prereq:** ENGL 22000

- 3 hrs
- 3 cr.

**ENGL 32100 - Topics in African American Literature**

- **Pluralism and Diversity**
- PD/B
- **GER**
- 3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.
ENGL 32200 - Topics in Gender and Sexuality in Literature

Pluralism and Diversity
PD/C
Study of selected works examining gender and sexuality in literature in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32300 - Topics in Asian American Literature

Pluralism and Diversity
PD/B
Selected works by Asian American writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32400 - Topics in Native American Literature

Pluralism and Diversity
PD/B
GER
3/A
Study of selected works by Native American writers in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32600 - Topics in US Latina/o Literature

Pluralism and Diversity
PD/B
Selected works by US Latina/o writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32700 - Topics in Caribbean Literature (W)
Pluralism and Diversity
PD/A
GER
3/A

Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32900 - Topics in Cross-Cultural Literature in English (W)

GER
3/A

Study of selected works of cross-cultural world literature in English in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33300 - Topics in Language and Linguistics

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33400 - Beowulf and Other Early Texts

This course will introduce students to the Old English language through the study of its literature, and it will be organized around a topic to be determined by a faculty member. Students will learn the fundamentals of Old English grammar and pronunciation so that they can read Old English texts with the aid of a dictionary; hence students will deepen their research and writing skills.

prereq: ENGL 22000
3 hrs
3 cr.
ENGL 33500 - Chaucer

Pluralism and Diversity
PD/D
GER
3/A

Study of Chaucer, with emphasis on The Canterbury Tales.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33600 - Medieval Literature (1100-1500)

GER
3/A

A survey of selected works from across the medieval period, encompassing a range of authors and literary genres

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33700 - Literary Aspects of Folklore

GER
3/A

Studies of folktales, ballads and legends in their relationship to written literature.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34000 - History of Rhetoric

GER
3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 34200 - Topics in Rhetoric

GER
3/A
Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.

**prereq:** ENGL 22000

3 hrs
3 cr.

**ENGL 34700 - Language and Ethnicity**

**Pluralism and Diversity**

PD/B

GER

3/A

This course explores the relationship between language and ethnicity with a primary focus on the United States. It examines how language is used in the construction of ethnic identities, and how ideologies about ethnicity influence the ways in which people use language. It is centered on class discussion of social scientific research that closely analyzes how ethnicity is performed in discursive interaction. The course investigates language use in relation to African American, Native American, U.S. Latino/a, Asian American, and European American identities, and covers topics, such as codeswitching, crossing, mocking, passing, interethnic communication, and language prejudice.

**prereq:** ENGL 22000

3 hrs
3 cr

**ENGL 35000 - Renaissance Drama**

**Pluralism and Diversity**

GER 3/A

A survey of English Renaissance drama in its cultural, social, and historical context, excluding Shakespeare. Authors may include Marlowe, Jonson, Cary, Webster, Dekker, and Middleton

**prereq:** ENGL 22000

3 hrs
3 cr.

**ENGL 35100 - The Age of Elizabeth I**

**Pluralism and Diversity**

PD/D

GER

3/A

Major emphasis on the work of Spenser; readings in other Elizabethan poetry and prose.

**prereq:** ENGL 22000

3 hrs
3 cr.

**ENGL 35200 - Shakespeare Survey**

**Pluralism and Diversity**

PD/D

GER
A survey of Shakespeare's works from across his career.

**prereq:** ENGL 22000

**3 hrs**

**3 cr.**

**ENGL 35300 - Shakespeare I**

*Pluralism and Diversity*

**PD/D**

**GER**

**3/A**

Study of works from first half of Shakespeare's career.

**prereq:** ENGL 22000

**3 hrs**

**3 cr.**

**ENGL 35400 - Shakespeare II**

*Pluralism and Diversity*

**PD/D**

**GER**

**3/A**

Study of works from second half of Shakespeare's career.

**prereq:** ENGL 22000

**3 hrs**

**3 cr.**

**ENGL 35500 - Topics in Shakespeare (W)**

*GER*

**3/A**

Study of Shakespeare’s works in relation to a particular literary, historical, or theoretical theme

**prereq:** ENGL 22000

**3 hrs**

**3 cr.**

**ENGL 35900 - Topics in Seventeenth-Century Literature**

Poetry, prose and/or drama of the seventeenth century. Representative authors may include John Donne, Ben Jonson, Amilia Lanyer, Katherine Philips, John Milton, George Herbert, Lady Mary Wroth, Francis Bacon and Andrew Marvell.

**prereq:** ENGL 22000

**3 hrs**

**3 cr**
**ENGL 36000 - The 17th Century**

*Pluralism and Diversity*

PD/D  
GER  
3/A

A survey of representative works from the period in their cultural, social, and historical contexts. Authors may include Donne, Cary, Philips, Marvell, Herrick, Milton, and Rochester.

*prereq: ENGL 22000*

3 hrs  
3 cr.

**ENGL 36100 - Milton**

*Pluralism and Diversity*

PD/D  
GER  
3/A

Poetry and selected prose of Milton, with special emphasis on Paradise Lost.

*prereq: ENGL 22000*

3 hrs  
3 cr.

**ENGL 36200 - English Drama of Restoration and 18th Century**

*Pluralism and Diversity*

PD/D  
GER  
3/A

A survey of representative works of the period in their cultural, social, and historical contexts. Authors may include Behn, Etherege, Wycherley, Dryden, Otway, Congreve, Centlivre, Gay, Goldsmith and Sheridan.

*prereq: ENGL 22000*

3 hrs  
3 cr.

**ENGL 36300 - Topics in Milton**

Study of Milton’s works in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with another topic.

*prereq: ENGL 22000*

3 hrs  
3 cr.

**ENGL 36400 - The Age of Satire**

*Pluralism and Diversity*

PD/D
**GER 3/A**

A survey of poetry and non-fiction prose in their cultural, social, and historical contexts. Authors may include Dryden, Manley, Pope, Montagu and Swift.

*prereq: ENGL 22000*

3 hrs

3 cr.

**ENGL 36500 - The Later 18th Century**

Pluralism and Diversity

PD/D

GER

3/A

A survey of poetry and non-fiction prose in their cultural, social, and historical contexts. Authors may include Johnson, Boswell, Blake, and Smith.

*prereq: ENGL 22000*

3 hrs

3 cr.

**ENGL 36800 - The 18th Century English Novel**

Pluralism and Diversity

PD/D

GER

3/A

A survey of representative novels of the period in their cultural, social, and historical contexts. Authors may include Behn, Haywood, Fielding, Richardson, Sterne, Burney, and Austen.

*prereq: ENGL 22000*

3 hrs

3 cr.

**ENGL 37100 - Topics in Romantic Literature**

Study of selected works and writers of the British Romantic period in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with another topic.

*prereq: ENGL 22000*

3 hrs

3 cr.

**ENGL 37200 - Romantic Poetry**

Pluralism and Diversity

PD/D

GER

3/A
Study of major poets of the Romantic period in their cultural, social, and historical contexts. Authors may include Wordsworth, Coleridge, Byron, Shelley, Keats, Blake, Clare, Barbauld, Smith and Yearsley.

*prereq: ENGL 22000*

3 hrs
3 cr.

**ENGL 38200 - Topics in Medieval Literature**

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic. May include study of Old and/or Middle English.

*prereq: ENGL 22000*

3 hrs
3 cr.

**ENGL 38300 - Topics in Renaissance Literature**

GER
3/A

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme.

*prereq: ENGL 22000*

3 hrs
3 cr.

**ENGL 38400 - Topics in Restoration and 18th Century Literature**

GER
3/A

Topics vary from semester to semester.

*prereq: ENGL 22000*

3 hrs
3 cr.

**ENGL 38600 - Topics in British and American Literature**

Pluralism and Diversity
PD/C or PD/D (some topics)
GER
3/A

Topics vary from semester to semester. Check the schedule of classes and with the undergraduate adviser to see which topics meet PD requirements.

*prereq: ENGL 22000*

3 hrs
3 cr.
ENGL 38700 - Topics in British and/or Irish Fiction

GER
3/A

Study of selected works and writers in relation to a particular literary, cultural, historical or theoretical theme. Topics vary from semester to semester. Some topics may satisfy PD requirements in categories C or D; check the schedule of classes and with an undergraduate adviser.

May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38800 - Topics in Multi-Genre British and/or Irish Literature

GER
3/A

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. Some topics may satisfy PD requirements in categories C or D; check the schedule of classes and with the undergraduate adviser.

May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38900 - One Major Writer (W)

Pluralism and Diversity
PD/C or D

GER
3/A

Authors vary from semester to semester. May be taken more than once with permission of dept. Some authors may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 39100 - Topics in British and/or Irish Poetry

Study of selected works and poets in the British and/or Irish poetry canon in relation to a particular literary, cultural, historical, or theoretical theme

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 39200 - Topics in American Poetry
Study of selected American poetry in relation to a particular literary, cultural, historical, or theoretical theme.

*prereq: ENGL 22000
3 hrs
3 cr.*

**ENGL 39400 - World Literature: Drama**

**GER**
3/A

Selected plays, classical, medieval and modern, including dramatic criticism.

*prereq: ENGL 22000
3 hrs
3 cr.*

**ENGL 39800 - Topics in American Fiction**

**Pluralism and Diversity**
**PD/C**
**GER**
3/A

Authors or topics vary from semester to semester. Some topics may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.
May be repeated once for credit with a different topic.

*prereq: ENGL 22000 ENGL 39500 or ENGL 39600
3 hrs
3 cr.*

**ENGL 39900 - Topics in American Multi-Genre Literature (W)**

**Pluralism and Diversity**
**PD/C**
**GER**
3/A

Authors or topics vary from semester to semester. Some topics may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.
May be repeated once for credit with a different topic.

*prereq: ENGL 22000, ENGL 39500 or ENGL 39600
3 hrs
3 cr.*

**ENGL 49000 - Advanced Topics Seminar**

Focused study of and research on selected authors, texts and/or periods in relation to a particular literary, linguistic, rhetorical, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated for credit if a different topic is taken.
prereq: ENGL 22000; ENGL 25200; completion of at least 24 credits in the major with a minimum GPA of 2.0
3 hrs.
3 cr.

ENGL 49400 - Honors Seminar: Special Studies

Pluralism and Diversity
PD/C
GER
3/A

Topics in British and American literature and linguistics. May be taken a second time in another subject. Some topics satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.
1 sem
3 cr.

C. Four Required Creative Writing Workshops (12 cr)

1. All students who are planning to concentrate in Creative Writing must first take:

ENGL 30000 - Introduction to Creative Writing

GER
3/A

An introduction to creative writing with a primary focus on poetry, fiction and creative nonfiction, including expository writing, workshop exercises and an introduction to workshop methods. Students must pass this course with a B to major in Creative Writing. Prerequisite for all 300-level writing courses, except ENGL 30100.
prereq: ENGL 22000
3 hrs
3 cr.

(and pass it with a grade of B or higher)

2. Students must then take 3 more creative writing workshops from the following, at least one of which must be a level-II workshop.

Note: Students may repeat level-II workshops once for credit. Students may not take a Level-II Workshop without first taking the Level-I Workshop in that genre. Students may not take ENGL 484 without first taking a Level-II Workshop in that genre.

ENGL 30800 - Workshop in Non-Fiction I

GER
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of various non-fiction genres, including memoir/autobiography and other
forms of personal essays, review essays, occasional pieces, and philosophical essays.

*prereq: ENGL 30000

3 hrs
3 cr.

**ENGL 30900 - Workshop in Non-Fiction II**

**GER**
3/A

A continuation of Workshop in Non-Fiction I, with increasing emphasis on craft and revision.

This course may be repeated once for credit.

*prereq: ENGL 30000 and 30800

3 hrs
3 cr.

**ENGL 31100 - Workshop in Fiction I**

**GER**
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of fiction.

*prereq: ENGL 30000

3 hrs
3 cr.

**ENGL 31300 - Workshop in Fiction II**

**GER**
3/A

A continuation of ENGL 31100, with increasing emphasis on craft and revision.

This course may be repeated once for credit.

*prereq: ENGL 30000 and ENGL 31100

3 hrs
3 cr.

**ENGL 31400 - Workshop in Poetry I**

**GER**
3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of poetry.

*prereq: ENGL 30000

3 hrs
3 cr.
ENGL 31600 - Workshop in Poetry II

GER
3/A

A continuation of ENGL 31400, with increasing emphasis on craft and revision.
This course may be repeated once for credit.
prereq: ENGL 30000 and ENGL 31400
3 hrs
3 cr.

ENGL 48400 - Special Studies Seminar

GER
3/A

Topics in British and American literature or linguistics. Some topics satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.
3 hrs
3 cr.

(offerings vary and may include: Advanced Workshop in Poetry; Advanced Prose Writing; Narrative Forms: Strategies in Fiction; or The Art of Revision: Poetry and Fiction – See the Department web page each semester for current information.)

D. Three Electives (9 cr.)

Electives may be chosen from any of the department’s 300-or 400-level courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). In special cases, full-time faculty may find it appropriate to supervise a student who is interested in taking on an individual creative project for 3 credits; this option is listed in the catalogue, and in semester-by-semester class postings, as ENGL 48500: Independent Tutorial Study. Successful completion of such a course may also, if arranged beforehand, qualify as an Honors course. All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department’s prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 342.51 Britain Since 1689 may count that course toward either the English or History major, not both.
Note: To take a 300-level course that is not listed below, students must get prior written consent from an English advisor, and any such course must meet all the prerequisites for the course.

Concentration in English Language Arts (39 cr.)

Return to Programs and Courses in English

The concentration in English Language Arts is designed to provide students with experience in the study of literature, language, rhetoric, and writing. While it is designed and intended primarily for prospective elementary school teachers, the concentration is open to all students. The English department strongly recommends that students choose at least one Language, Writing, or Modern/Contemporary Literature elective course.

This concentration consists of five parts:

Note: Double majors may count the course toward the requirements for only one of their majors. Students wishing to take a 300-level course that is not listed below must get prior written consent from an English advisor, and any such
course is subject to the pre-requisites of the department in which the course is taken. Students also enrolled in the QUEST major may satisfy one of their ELA elective requirements by taking any Art History, Music History, Theatre, or Dance History course. Taking one of these courses will also satisfy 3 credits of the QUEST Arts Distribution requirement. This option is available only to ELA majors who are also majoring in QUEST.

**Foundational Courses**

Foundational Courses include courses in English and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

**B.A. in English: Concentration in English Language Arts**

**A. Introduction to Literary Studies (3 cr)**

– to be taken within one semester of declaring the major

**ENGL 25200 - Introduction to Literary Studies**

**GER**

3A

Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.

*prereq: ENGL 22000*

3 hrs.

3 cr.

**B. Four Required Literature Courses (12 cr.)**

1. **Three Required Courses**

**ENGL 30500 - Studies in Children's Literature**

**GER**

3/A
Selected works of children's literature in relation to a special theme, technique, theoretical issue, or cultural consideration.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32000 - Multi-Ethnic American Literature (W)

Pluralism and Diversity
PD/B
GER
3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33800 - Survey of British Literature I: Early Texts To the Eighteenth Century

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range authors and genres in their cultural, social, and historical contexts.

prereq: ENGL 22000
3 hrs
3 cr.

2. One course chosen from among the following courses in American Literature (3 cr)

ENGL 39500 - Survey of American Literature: Origins to the Civil War (W)

GER
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 39600 - American Prose from Reconstruction to World War I

GER
3/A

Study of selected prose works in their historical, cultural, and literary contexts. Authors may include Twain, James, Crane, Du Bois, Wharton, Dreiser, Chesnutt, and Chopin.

prereq: ENGL 22000
ENGL 39700 - Pre-20th Century American Poetry

GER
3/A

Study of selected poets in their historical, cultural, and literary contexts. Authors may include Bradstreet, Taylor, Wheatley, Poe, Emerson, Lazarus, Whitman, Dickinson, Dunbar, and Robinson. May be used toward Part 4 of the American Literature concentration.

 prerequisite: ENGL 22000
3 hrs
3 cr.

C. Two Required Language and/or Rhetoric Courses (6 cr.)

1. Required Course

ENGL 33100 - The Structure of Modern English

Exploration of the acquisition, structure, and use of modern English and its regional and social variations

 prerequisite: ENGL 22000
3 hrs
3 cr.

2. One course chosen from among the following (3 cr):

ENGL 33000 - Sociolinguistics

This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.

 prerequisite: ENGL 22000
3 hrs
3 cr.

- or -

ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.

 prerequisite: ENGL 22000
3 hrs
3 cr.

- or -

ENGL 33300 - Topics in Language and Linguistics
GER 3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

*prereq: ENGL 22000
3 hrs
3 cr.*

-or-

ENGL 34000 - History of Rhetoric

GER 3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

*prereq: ENGL 22000
3 hrs
3 cr.*

-or-

ENGL 34200 - Topics in Rhetoric

GER 3/A

Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.

*prereq: ENGL 22000
3 hrs
3 cr.*

-or-

ENGL 34800 - English Across the World

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two texts that present opposing views of the historical processes in question and will be further illuminated by students’ own research on individual countries.

*prereq: ENGL 22000
3 hrs
3 cr.*
D. Two Required Courses in Writing (6 cr.)

1. Required Course

**ENGL 30100 - Theory and Practice of Expository Writing**

**GER**

3/A

Composition in variety of nonfiction prose forms and study of rhetorical theories.

*prereq: ENGL 22000*

3 hrs

3 cr.

2. One course chosen from among the following (3 cr):

**ENGL 30000 - Introduction to Creative Writing**

**GER**

3/A

An introduction to creative writing with a primary focus on poetry, fiction and creative nonfiction, including expository writing, workshop exercises and an introduction to workshop methods.

Students must pass this course with a B to major in Creative Writing. Prerequisite for all 300-level writing courses, except ENGL 30100.

*prereq: ENGL 22000*

3 hrs

3 cr.

-or-

**ENGL 30800 - Workshop in Non-Fiction I**

**GER**

3/A

Using student work and literary models as a basis for discussion, this workshop class offers students the opportunity to develop their skills as writers and readers of various non-fiction genres, including memoir/autobiography and other forms of personal essays, review essays, occasional pieces, and philosophical essays.

*prereq: ENGL 30000*

3 hrs

3 cr.

-or-

**ENGL 34100 - Rhetorical Principles of Expository Writing**

**GER**

3/A

This course will focus on the relationship between rhetorical principles and academic writing.
**prereq:** ENGL 22000

3 hrs

3 cr.

Note: Students must take ENGL 30000 or 30100 before taking ENGL 30800.

### E. Four Electives (12 cr.)

Students may choose from among 300- or 400-level English courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). It is strongly recommended that students consider choosing either a Modern/Contemporary Literature, Linguistics, Rhetoric, or Writing course to fulfill one of the Elective requirements. All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both.

NOTE: Students also enrolled in the QUEST major may satisfy one of their ELA elective requirements by taking any Art History, Music History, Theatre, or Dance History course. Taking one of these courses will also satisfy 3 credits of the QUEST Arts Distribution requirement. This option is available only to ELA majors who are also majoring in QUEST. To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English advisor and must meet all the prerequisites for the course.

### Concentration in English: Preparation for Secondary School Teaching (39 cr)

Return to Programs and Courses in English

The concentration in English: Preparation for Secondary School Teaching is designed to prepare students to teach English in grades 7-12 by providing a foundation in British, American, and Multi-Ethnic literatures, as well as writing and language studies. Students choosing this concentration take ENGL 252 Introduction to Literary Studies, 18 credits of required literature courses, 6 credits of required writing courses, a 3-credit language course, and three electives chosen from among 300- and 400-level courses offered by the Department, with the option to choose one of their three electives from a menu of courses in other departments and programs. When taken together with the requirements for the Secondary Education minor of the School of Education, this program meets initial certification requirements for New York State and New York City public schools. Students interested in the Education minor must apply to the School of Education for admission. Students who do not wish to pursue certification need not take the Secondary Education minor. Eligible English: Preparation for Secondary School Teaching majors may pursue English Departmental Honors by taking ENGL 49400 Honors Seminar.

Note: The English Department strongly recommends that students take at least one modern or contemporary literature course.

This concentration consists of five parts:

#### Foundational Courses

Foundational Courses include courses in English and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.
Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

B.A. in English: Concentration in English: Preparation for Secondary School Teaching

A. Introduction to Literary Studies (3 cr)

**ENGL 25200 - Introduction to Literary Studies**

**GER**

3A

Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.

_prereq: ENGL 22000_

3 hrs.

3 cr.

B. Six Required Literature Courses (18 cr)

1. Three Required Courses (9 cr)

**ENGL 30300 - Western Literary Backgrounds of British and American Literature**

**Pluralism and Diversity**

**PD/D**

Major works of Western drama, poetry, and prose in translation, which may include the Bible and Greek and Roman epic, and exploration of their influence on works from other periods

_prereq: ENGL 22000_

3 hrs.

3 cr.

**ENGL 30600 - Literary Theory (W)**

**GER**

3/A

Major theories of literature, with emphasis on contemporary trends.
ENGL 33800 - Survey of British Literature I: Early Texts To the Eighteenth Century

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range authors and genres in their cultural, social, and historical contexts.

prereq: ENGL 22000
3 hrs
3 cr.

2. One course chosen from the following (3 cr):

ENGL 35200 - Shakespeare Survey

Pluralism and Diversity
PD/D
GER
3/A

A survey of Shakespeare's works from across his career.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 35300 - Shakespeare I

Pluralism and Diversity
PD/D
GER
3/A

Study of works from first half of Shakespeare's career.

prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 35400 - Shakespeare II

Pluralism and Diversity
PD/D
GER
3/A

Study of works from second half of Shakespeare's career.

prereq: ENGL 22000
3 hrs
3 cr.
3. One course chosen from the following (3 cr):

**ENGL 39500 - Survey of American Literature: Origins to the Civil War (W)**

**GER 3/A**

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches.

*prereq: ENGL 22000*

3 hrs

3 cr.

---or---

**ENGL 39600 - American Prose from Reconstruction to World War I**

**GER 3/A**

Study of selected prose works in their historical, cultural, and literary contexts. Authors may include Twain, James, Crane, Du Bois, Wharton, Dreiser, Chesnutt, and Chopin.

*prereq: ENGL 22000*

3 hrs

3 cr.

---or---

**ENGL 39700 - Pre-20th Century American Poetry**

**GER 3/A**

Study of selected poets in their historical, cultural, and literary contexts. Authors may include Bradstreet, Taylor, Wheatley, Poe, Emerson, Lazarus, Whitman, Dickinson, Dunbar, and Robinson. May be used toward Part 4 of the American Literature concentration.

*prereq: ENGL 22000*

3 hrs

3 cr.

4. One course chosen from the following (3 cr.)

**ENGL 32000 - Multi-Ethnic American Literature (W)**

**Pluralism and Diversity PD/B**

**GER 3/A**

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

*prereq: ENGL 22000*
ENGL 32500 - Post-Colonial Literature in English (W)

Pluralism and Diversity
P&D A
GER
3/A

Study of postcolonial literature written in English and in translation by writers from a number of different regions, which may include South Asia, Africa, the Caribbean, and the Middle East.

prereq: ENGL 22000
3 hrs
3 cr.

C. Required Writing Courses (6 cr)

1. Theory and Practice of Expository Writing (3 cr)

ENGL 30100 - Theory and Practice of Expository Writing

GER
3/A

Composition in variety of nonfiction prose forms and study of rhetorical theories.

prereq: ENGL 22000
3 hrs
3 cr.

2. One course chosen from the following (3 cr.)

ENGL 30000 - Introduction to Creative Writing

GER
3/A

An introduction to creative writing with a primary focus on poetry, fiction and creative nonfiction, including expository writing, workshop exercises and an introduction to workshop methods.

Students must pass this course with a B to major in Creative Writing. Prerequisite for all 300-level writing courses, except ENGL 30100.

prereq: ENGL 22000
3 hrs
3 cr.

- or -

ENGL 34100 - Rhetorical Principles of Expository Writing
GER 3/A

This course will focus on the relationship between rhetorical principles and academic writing.

prereq: ENGL 22000
3 hrs
3 cr.

D. Required Language Course (3 cr)

ENGL 33100 - The Structure of Modern English

Exploration of the acquisition, structure, and use of modern English and its regional and social variations
prereq: ENGL 22000
3 hrs
3 cr.

E. Three Electives (9 cr)

Students may choose from among 300- or 400-level English courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). It is strongly recommended that students consider choosing either a Modern/Contemporary Literature, Linguistics, Rhetoric, or Writing course to fulfill one of the Elective requirements. All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 342.51 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.

Note: To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English advisor and must meet all the prerequisites for the course.

Concentration in Linguistics and Rhetoric (39 cr)

Return to Programs and Courses in English

The concentration in Linguistics and Rhetoric is designed to provide students with a comprehensive course of study in the structures, uses, and ideologies of discourse in various types of texts, genres, and domains: from everyday talk to persuasive writing. Students will gain a complex understanding of spoken and written discourse by comparing a wide range of philosophical underpinnings, theoretical perspectives, and methodological approaches. This concentration is particularly suited for students who are interested in graduate study in Linguistics, Rhetoric, Applied Linguistics, and Teaching English to Speakers of Other Languages (TESOL).

The concentration consists of two parts:

Foundational Courses

Foundational Courses include courses in English and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.
BA in English: Concentration in Linguistics and Rhetoric

A. REQUIRED COURSES (30 cr)

1. Two Required Courses (6 cr)

**ENGL 25200 - Introduction to Literary Studies**

**GER**

3A

Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.

*prereq: ENGL 22000*

3 hrs.

3 cr.

**ENGL 33100 - The Structure of Modern English**

Exploration of the acquisition, structure, and use of modern English and its regional and social variations

*prereq: ENGL 22000*

3 hrs.

3 cr.

2. Two additional courses in linguistics chosen from the following (6 cr)

**ENGL 30100 - Theory and Practice of Expository Writing**

**GER**

3/A

Composition in variety of nonfiction prose forms and study of rhetorical theories.

*prereq: ENGL 22000*

3 hrs.

3 cr.

-or-
ENGL 33000 - Sociolinguistics

This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.

prereq: ENGL 22000
3 hrs
3 cr

ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.

prereq: ENGL 22000
3 hrs
3 cr

ENGL 33300 - Topics in Language and Linguistics

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr

ENGL 34600 - Discourse Analysis

Discourse analysis has been informed by several academic disciplines, including anthropology, linguistics, philosophy, literary theory, and sociology. Since there are many ways to define and analyze discourse, there exist multiple, and often conflicting, approaches to the study of language use. This course is an introduction to various methods of discourse analysis, which will be explored through critical reading and discussion, and through hands-on application of these methods on actual discourse data.

prereq: ENGL 22000
3 hrs
3 cr

ENGL 34700 - Language and Ethnicity

Pluralism and Diversity
PD/B
GER
3/A

This course explores the relationship between language and ethnicity with a primary focus on the United States. It examines how language is used in the construction of ethnic identities, and how ideologies about ethnicity influence the
ways in which people use language. It is centered on class discussion of social scientific research that closely analyzes how ethnicity is performed in discursive interaction. The course investigates language use in relation to African American, Native American, U.S. Latino/a, Asian American, and European American identities, and covers topics, such as codeswitching, crossing, mocking, passing, interethnic communication, and language prejudice.

`prereq: ENGL 22000
3 hrs
3 cr`

- or -

**ENGL 34800 - English Across the World**

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two texts that present opposing views of the historical processes in question and will be further illuminated by students’ own research on individual countries.

`prereq: ENGL 22000
3 hrs
3 cr`

3. Theory and Practice of Expository Writing (3 cr)

**ENGL 30100 - Theory and Practice of Expository Writing**

**GER**

3/A

Composition in variety of nonfiction prose forms and study of rhetorical theories.

`prereq: ENGL 22000
3 hrs
3 cr`

4. Two courses in rhetoric chosen from the following (6 cr)

**ENGL 34000 - History of Rhetoric**

**GER**

3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

`prereq: ENGL 22000
3 hrs
3 cr`

- or -

**ENGL 34100 - Rhetorical Principles of Expository Writing**
This course will focus on the relationship between rhetorical principles and academic writing.

prereq: ENGL 22000
3 hrs
3 cr.

- or -

**ENGL 34200 - Topics in Rhetoric**

GER
3/A

Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

5. Survey of British Literature I (3 cr)

**ENGL 33800 - Survey of British Literature I: Early Texts To the Eighteenth Century**

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range of authors and genres in their cultural, social, and historical contexts.

prereq: ENGL 22000
3 hrs
3 cr.

6. One course in American literature chosen from the following (3 cr)

**ENGL 39500 - Survey of American Literature: Origins to the Civil War (W)**

GER
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches.

prereq: ENGL 22000
3 hrs
3 cr.

- or -

**ENGL 39600 - American Prose from Reconstruction to World War I**
GER
3/A
Study of selected prose works in their historical, cultural, and literary contexts. Authors may include Twain, James, Crane, Du Bois, Wharton, Dreiser, Chesnutt, and Chopin."  
prereq: ENGL 22000  
3 hrs  
3 cr.

-or-

ENGL 39700 - Pre-20th Century American Poetry

GER
3/A
Study of selected poets in their historical, cultural, and literary contexts. Authors may include Bradstreet, Taylor, Wheatley, Poe, Emerson, Lazarus, Whitman, Dickinson, Dunbar, and Robinson. May be used toward Part 4 of the American Literature concentration.  
prereq: ENGL 22000  
3 hrs  
3 cr.

7. One additional course in literature chosen from the following (3 cr)

ENGL 31700 - Topics in Non-European Literary Traditions (W)

Pluralism and Diversity  
PD/A  
GER
3/A
Study of literature written in English by writers in non-European traditions, in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester  
prereq: ENGL 22000  
3 hrs  
3 cr.

-or-

ENGL 31800 - Topics in Literature of Non-European Americans (W)

Pluralism and Diversity  
PD/B  
GER
3/A
Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.  
prereq: ENGL 22000  
3 hrs  
3 cr.
ENGL 32000 - Multi-Ethnic American Literature (W)

Pluralism and Diversity
PD/B
GER
3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

*prereq: ENGL 22000
3 hrs
3 cr.*

---or---

ENGL 32100 - Topics in African American Literature

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.

*prereq: ENGL 22000
3 hrs
3 cr.*

---or---

ENGL 32300 - Topics in Asian American Literature

Pluralism and Diversity
PD/B

Selected works by Asian American writers in relation to a particular literary, cultural, historical, or theoretical theme.

Topics vary from semester to semester. May be repeated once for credit with a different topic.

*prereq: ENGL 22000
3 hrs.
3 cr.*

---or---

ENGL 32400 - Topics in Native American Literature

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by Native American writers in relation to a particular literary, cultural, historical, or theoretical theme.

*prereq: ENGL 22000*
ENGL 32500 - Post-Colonial Literature in English (W)

Pluralism and Diversity
P&D A
GER
3/A

Study of postcolonial literature written in English and in translation by writers from a number of different regions, which may include South Asia, Africa, the Caribbean, and the Middle East.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32600 - Topics in US Latina/o Literature

Pluralism and Diversity
PD/B

Selected works by US Latina/o writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32700 - Topics in Caribbean Literature (W)

Pluralism and Diversity
PD/A
GER
3/A

Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32900 - Topics in Cross-Cultural Literature in English (W)

GER
3/A

Study of selected works of cross-cultural world literature in English in relation to a particular literary, cultural,
historical, or theoretical theme.
prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 33300 - Topics in Language and Linguistics

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.
prereq: ENGL 22000
3 hrs
3 cr.

-or-

ENGL 34200 - Topics in Rhetoric

GER
3/A

Topics vary from semester to semester. Course will focus on the persuasive function of language in relation to a special theme, theoretical issue, or cultural consideration. May be repeated multiple times for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

B. THREE ELECTIVE COURSES (9 CREDITS)

Students may select electives from any 300- or 400-level English courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). ENGL 30600 - Literary Theory (W) is strongly recommended for all Linguistics and Rhetoric students. Students may also choose from courses related to linguistics or rhetoric offered in other departments, such as Anthropology (e.g., ANTHC 15100 - Introduction to Linguistics; ANTHC 32076 - Language, Sex and Gender; ANTHC 35100 - Language in Culture and Society), Classics (e.g., CLA 11000 - The Greek and Latin Roots of English, and Philosophy (e.g., PHILO 10300 - Introduction to Logic and Critical Thinking); or from courses in foreign language study that are beyond those taken in fulfillment of the foreign language requirement (e.g., advanced courses in a second language, beginning courses in a third language).

All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 342.51 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.

Note: To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English advisor and must meet all the prerequisites for the course.

Note
Concentration in Literatures, Language and Criticism (39 cr)

Majors who plan to concentrate in Literatures, Language and Criticism take ENGL 25200 Introduction to Literary Studies within one semester of declaring the major, four required courses (33800, 39500, 30600, and either 32000 or 32500), and three courses in a specialized area of study. We recommend that students take the four required courses early in their major studies, preferably soon after they have declared the major. Students are also required to take one 300- or 400-level English course with a focus on literature or rhetoric before 1800 (excluding the required ENGL 33800 and 39500).

The Literatures, Language and Criticism concentration is designed to provide students with exposure to a range of literary texts and traditions, as well as to a specific area of study in which to focus. The first two areas of study reflect particular national literatures, but the remaining five are designed with broader approaches to literary study in mind. With prior approval, a student may also work with an advisor to design her own area of study.

This concentration consists of five parts:

Foundational Courses

Foundational Courses include courses in English and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

B.A. in English: Concentration in Literatures, Language and Criticism

A. Introduction to Literary Studies (3 cr)

- to be taken within one semester of declaring the major

ENGL 25200 - Introduction to Literary Studies

GER
3A
Description: Study of selected authors, works, genres, or time periods emphasizing various modes of critical and theoretical analysis, methods of research, and historical contextualization.

prereq: ENGL 22000
3 hrs.
3 cr.

B. Required Courses (12 cr)

The following four courses are required for all students in this concentration:

**ENGL 30600 - Literary Theory (W)**

**GER**

3/A

Major theories of literature, with emphasis on contemporary trends.

prereq: ENGL 22000
3 hrs.
3 cr.

**ENGL 33800 - Survey of British Literature I: Early Texts To the Eighteenth Century**

A survey of British Literature from its earliest manifestations to the eighteenth century, encompassing a range authors and genres in their cultural, social, and historical contexts.

prereq: ENGL 22000
3 hrs.
3 cr.

**ENGL 32000 - Multi-Ethnic American Literature (W)**

**Pluralism and Diversity**

PD/B

**GER**

3/A

Study of American writers of diverse backgrounds, which may include, Asian, African, Latino, Jewish, and Native American, in their historical and cultural contexts.

prereq: ENGL 22000
3 hrs.
3 cr.

-or-

**ENGL 32500 - Post-Colonial Literature in English (W)**

**Pluralism and Diversity**

P&D A

**GER**

3/A

Study of postcolonial literature written in English and in translation by writers from a number of different regions, which may include South Asia, Africa, the Caribbean, and the Middle East.
ENGL 39500 - Survey of American Literature: Origins to the Civil War (W)

GER
3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches.

C. Required Area of Study (9 cr)

Students in this concentration must take three additional courses in one of the areas below. Particularly motivated students may also obtain prior approval from an advisor to design an area of their own choosing (e.g. literature by genre or by historical period, literary theory, cultural studies).

1. British and/or Irish Literatures
2. American Literatures, including African American, Asian American, Latino, and Native American
3. Transnational and/or Postcolonial Studies
4. Gender and Sexuality Studies
5. Race, Ethnicity, and/or Class Studies
6. Linguistics, Language, and/or Rhetoric
7. Transatlantic Studies

D. One 300- or 400-level English course with a focus on literature or rhetoric before 1800 (3 cr)

Note: Students may use a period appropriate Area of Study course or Honors Seminar to satisfy this requirement. Students may not use ENGL 33800 or 39500 to satisfy this requirement.

Students may choose from among the following English courses:

ENGL 31700 - Topics in Non-European Literary Traditions (W)

Pruralism and Diversity
PD/A
GER
3/A

Study of literature written in English by writers in non-European traditions, in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester.

ENGL 31800 - Topics in Literature of Non-European Americans (W)
Pluralism and Diversity
PD/B
GER
3/A

Comparative study of literature written in English by writers from two or more of the following groups, in relation to a particular literary, cultural, historical, or theoretical theme: African Americans, Asian Americans, Latino Americans, Native Americans, and Caribbean Americans.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 31900 - Topics in Literature by Women (W)

Pluralism and Diversity
PD/C
GER
3/A

Study of selected works by women in relation to a particular literary, cultural, historical, or theoretical theme.
cross-listed WGS 31900
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32100 - Topics in African American Literature

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by African American writers in relation to a particular literary, cultural, historical, or theoretical theme.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32200 - Topics in Gender and Sexuality in Literature

Pluralism and Diversity
PD/C

Study of selected works examining gender and sexuality in literature in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 32300 - Topics in Asian American Literature
Pluralism and Diversity
PD/B
Selected works by Asian American writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

*prereq: ENGL 22000*

3 hrs.
3 cr.

**ENGL 32400 - Topics in Native American Literature**

Pluralism and Diversity
PD/B
GER
3/A

Study of selected works by Native American writers in relation to a particular literary, cultural, historical, or theoretical theme.

*prereq: ENGL 22000*

3 hrs.
3 cr.

**ENGL 32600 - Topics in US Latina/o Literature**

Pluralism and Diversity
PD/B

Selected works by US Latina/o writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic.

*prereq: ENGL 22000*

3 hrs.
3 cr.

**ENGL 32700 - Topics in Caribbean Literature (W)**

Pluralism and Diversity
PD/A
GER
3/A

Study of selected works by Caribbean writers in relation to a particular literary, cultural, historical, or theoretical theme. May be repeated once for credit with a different topic.

*prereq: ENGL 22000*

3 hrs.
3 cr.

**ENGL 32900 - Topics in Cross-Cultural Literature in English (W)**
GER
3/A

Study of selected works of cross-cultural world literature in English in relation to a particular literary, cultural, historical, or theoretical theme.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33300 - Topics in Language and Linguistics

GER
3/A

Exploration of language or linguistic systems in relation to their social and cultural contexts. Topics vary from semester to semester. May be repeated for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33400 - Beowulf and Other Early Texts

This course will introduce students to the Old English language through the study of its literature, and it will be organized around a topic to be determined by a faculty member. Students will learn the fundamentals of Old English grammar and pronunciation so that they can read Old English texts with the aid of a dictionary; hence students will deepen their research and writing skills.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33500 - Chaucer

Pluralism and Diversity
PD/D
GER
3/A

Study of Chaucer, with emphasis on The Canterbury Tales.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33600 - Medieval Literature (1100-1500)
A survey of selected works from across the medieval period, encompassing a range of authors and literary genres.

**ENGL 33700 - Literary Aspects of Folklore**

3/A

Studies of folktales, ballads and legends in their relationship to written literature.

**ENGL 34000 - History of Rhetoric**

3/A

This course will explore canonical and marginalized developments in the history of rhetoric. Individual sections will concentrate on specific periods such as Ancient, Enlightenment, 20th-Century, etc.

**ENGL 34700 - Language and Ethnicity**

Pluralism and Diversity

PD/B

GER 3/A

This course explores the relationship between language and ethnicity with a primary focus on the United States. It examines how language is used in the construction of ethnic identities, and how ideologies about ethnicity influence the ways in which people use language. It is centered on class discussion of social scientific research that closely analyzes how ethnicity is performed in discursive interaction. The course investigates language use in relation to African American, Native American, U.S. Latino/a, Asian American, and European American identities, and covers topics, such as codeswitching, crossing, mocking, passing, interethnic communication, and language prejudice.

**ENGL 35000 - Renaissance Drama**

Pluralism and Diversity

GER 3/A
A survey of English Renaissance drama in its cultural, social, and historical context, excluding Shakespeare. Authors may include Marlowe, Jonson, Cary, Webster, Dekker, and Middleton

*prereq: ENGL 22000*

3 hrs
3 cr.

**ENGL 35100 - The Age of Elizabeth I**

**Pluralism and Diversity**

PD/D
GER
3/A

Major emphasis on the work of Spenser; readings in other Elizabethan poetry and prose.

*prereq: ENGL 22000*

3 hrs
3 cr.

**ENGL 35200 - Shakespeare Survey**

**Pluralism and Diversity**

PD/D
GER
3/A

A survey of Shakespeare's works from across his career.

*prereq: ENGL 22000*

3 hrs
3 cr.

**ENGL 35300 - Shakespeare I**

**Pluralism and Diversity**

PD/D
GER
3/A

Study of works from first half of Shakespeare's career.

*prereq: ENGL 22000*

3 hrs
3 cr.

**ENGL 35400 - Shakespeare II**

**Pluralism and Diversity**

PD/D
GER
3/A

Study of works from second half of Shakespeare's career.

*prereq: ENGL 22000*
ENGL 35500 - Topics in Shakespeare (W)

GER
3/A

Study of Shakespeare’s works in relation to a particular literary, historical, or theoretical theme
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 35900 - Topics in Seventeenth-Century Literature

Poetry, prose and/or drama of the seventeenth century. Representative authors may include John Donne, Ben Jonson, Amilia Lanyer, Katherine Philips, John Milton, George Herbert, Lady Mary Wroth, Francis Bacon and Andrew Marvell.
prereq: ENGL 22000
3 hrs
3 cr

ENGL 36000 - The 17th Century

Pluralism and Diversity
PD/D
GER
3/A

A survey of representative works from the period in their cultural, social, and historical contexts. Authors may include Donne, Cary, Philips, Marvell, Herrick, Milton, and Rochester.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 36100 - Milton

Pluralism and Diversity
PD/D
GER
3/A

Poetry and selected prose of Milton, with special emphasis on Paradise Lost.
prereq: ENGL 22000
3 hrs
3 cr.

ENGL 36200 - English Drama of Restoration and 18th Century
A survey of representative works of the period in their cultural, social, and historical contexts. Authors may include Behn, Etherege, Wycherley, Dryden, Otway, Congreve, Centlivre, Gay, Goldsmith and Sheridan.

**ENGL 36300 - Topics in Milton**

Study of Milton’s works in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with another topic.

**ENGL 36400 - The Age of Satire**

A survey of poetry and non-fiction prose in their cultural, social, and historical contexts. Authors may include Dryden, Manley, Pope, Montagu and Swift.

**ENGL 36500 - The Later 18th Century**

A survey of poetry and non-fiction prose in their cultural, social, and historical contexts. Authors may include Johnson, Boswell, Blake, and Smith.

**ENGL 36800 - The 18th Century English Novel**
A survey of representative novels of the period in their cultural, social, and historical contexts. Authors may include Behn, Haywood, Fielding, Richardson, Sterne, Burney, and Austen.

\textit{prereq: ENGL 22000}  
3 hrs  
3 cr.

\textbf{ENGL 37100 - Topics in Romantic Literature}

Study of selected works and writers of the British Romantic period in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with another topic.

\textit{prereq: ENGL 22000}  
3 hrs  
3 cr.

\textbf{ENGL 37200 - Romantic Poetry}

\textbf{Pluralism and Diversity}  
PD/D  
GER  
3/A  

Study of major poets of the Romantic period in their cultural, social, and historical contexts. Authors may include Wordsworth, Coleridge, Byron, Shelley, Keats, Blake, Clare, Barbauld, Smith and Yearsley.

\textit{prereq: ENGL 22000}  
3 hrs  
3 cr.

\textbf{ENGL 38200 - Topics in Medieval Literature}

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated once for credit with a different topic. May include study of Old and/or Middle English.

\textit{prereq: ENGL 22000}  
3 hrs  
3 cr.

\textbf{ENGL 38300 - Topics in Renaissance Literature}

\textbf{GER}  
3/A  

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme.

\textit{prereq: ENGL 22000}  
3 hrs  
3 cr.
ENGL 38400 - Topics in Restoration and 18th Century Literature

GER
3/A

Topics vary from semester to semester.

prereq: ENGL 22000
3 hrs
3 cr.

GER
3/A

Study of selected works and writers in relation to a particular literary, cultural, historical or theoretical theme. Topics vary from semester to semester. Some topics may satisfy PD requirements in categories C or D; check the schedule of classes and with an undergraduate adviser.

May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38800 - Topics in Multi-Genre British and/or Irish Literature

GER
3/A

Study of selected works and writers in relation to a particular literary, cultural, historical, or theoretical theme. Topics vary from semester to semester. Some topics may satisfy PD requirements in categories C or D; check the schedule of classes and with the undergraduate adviser.

May be repeated once for credit with a different topic.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38900 - One Major Writer (W)

Pluralism and Diversity
PD/C or D
GER
3/A

Authors vary from semester to semester. May be taken more than once with permission of dept. Some authors may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 39100 - Topics in British and/ or Irish Poetry
Study of selected works and poets in the British and/or Irish poetry canon in relation to a particular literary, cultural, historical, or theoretical theme

*prereq: ENGL 22000*

3 hrs

3 cr.

**ENGL 39200 - Topics in American Poetry**

Study of selected American poetry in relation to a particular literary, cultural, historical, or theoretical theme.

*prereq: ENGL 22000*

3 hrs

3 cr.

**ENGL 39400 - World Literature: Drama**

**GER**

3/A

Selected plays, classical, medieval and modern, including dramatic criticism.

*prereq: ENGL 22000*

3 hrs

3 cr.

**ENGL 39800 - Topics in American Fiction**

**Pluralism and Diversity**

**PD/C**

**GER**

3/A

Authors or topics vary from semester to semester. Some topics may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

May be repeated once for credit with a different topic.

*prereq: ENGL 22000 ENGL 39500 or ENGL 39600*

3 hrs

3 cr.

**ENGL 39900 - Topics in American Multi-Genre Literature (W)**

**Pluralism and Diversity**

**PD/C**

**GER**

3/A

Authors or topics vary from semester to semester. Some topics may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

May be repeated once for credit with a different topic.

*prereq: ENGL 22000, ENGL 39500 or ENGL 39600*
ENGL 49000 - Advanced Topics Seminar

Focused study of and research on selected authors, texts and/or periods in relation to a particular literary, linguistic, rhetorical, cultural, historical, or theoretical theme. Topics vary from semester to semester. May be repeated for credit if a different topic is taken.

**prereq:** ENGL 22000; ENGL 25200; completion of at least 24 credits in the major with a minimum GPA of 2.0

3 hrs.

3 cr.

ENGL 49400 - Honors Seminar: Special Studies

**Pluralism and Diversity**
PD/C
GER
3/A

Topics in British and American literature and linguistics. May be taken a second time in another subject. Some topics satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

1 sem

3 cr.

E. Electives (12-15 cr)

The remaining courses in the major are electives, chosen by the student. Unless a student uses an Area of Study course to fulfill the requirement, one of these courses must be a 300- or 400-level English course with a focus on literature or rhetoric before 1800.

All English majors also have the option to take one of their elective courses in another department. In order to do this, students must meet all of that department's prerequisites for the course. Students with double majors may apply the course to one of those majors, but not both. For example, someone majoring in English and History who takes HIST 342.51 Britain Since 1689 may count that course toward either the English or History major, not both. Students may choose from the courses and departments listed below.

Note: To take a 300-level course in one of the following departments and programs that is not on the list, or in another department, students must have prior written permission from an English advisor and must meet all the prerequisites for the course.

Dance - BA

Foundational Courses

Foundational Courses include courses in dance and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. All students must take a technique placement class prior to the beginning of each semester in order to gain permission for registration. Students should check the department website for placement class dates.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a
student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

In the case of Dance, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Courses</th>
<th>CUNY Common Core</th>
<th>Foundational or Major</th>
</tr>
</thead>
<tbody>
<tr>
<td>DAN 23200</td>
<td>Creative Expression</td>
<td>Foundational</td>
</tr>
<tr>
<td>DAN 10200</td>
<td>Creative Expression</td>
<td>Foundational</td>
</tr>
</tbody>
</table>

The following 34-credit curriculum is required of all majors.

Note: All dance technique classes may be taken two times for credit.

**DAN 15100 - Folk Forms of Dance I**

Development of basic dance skills necessary for participation in international folk dances. Students are exposed to dance and music of world cultures.
Open to dance majors and minors only.

- **3 hrs**
- **1 cr.**

**DAN 21000 - Contemporary Dance Technique I**

**GER**

- **3/A**

Analytical and physical study of basic concepts of dance: space, time, dynamics and design. Intermediate development of movement skills and vocabulary as required by professional demands. May be taken twice for credit with permission of the department.

*prereq: DAN 10100, perm dept., placement class*

- **4 hrs**
- **2 cr.**

**DAN 21300 - Basic Musicianship for Dancers**

**GER**

- **3/A**

Basic music theory in relation to dance. Development of auditory and kinesthetic understanding of melody, rhythm and harmony through movement. Open only to Dance majors and minors.
All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

*prereq: DAN 21000*

- **3 hrs**
- **2 cr.**

**DAN 22000 - Contemporary Dance Technique II**
Continued development of analytical and physical study of basic concepts of dance: space, time, dynamics and design. Focus on expanded movement vocabulary and increased facility; understanding dance as means of communication; ordering of movement to produce controlled performance. May be taken twice for credit with permission of the department.

prereq: DAN 21000, perm dept, or placement class
4 hrs
2 cr.

DAN 22100 - Improvisation as a Creative Process I

GER
3/A
Introduction to basic skills of structured improvisation; use of these skills by individual students to explore their creative movement potential.
prereq or coreq: DAN 21000 or perm dept.
4 hrs
2 cr.

DAN 23200 - 20th-Century Dance History

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D
Readings, lectures, films, discussions of 20th century ballet, modern, social and popular theatre dance forms; analysis of individual styles and cultural trends.
All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.
3 hrs
3 cr.

DAN 24500 - Ballet I

GER
3/A
Advanced-beginning level. Study of classical ballet vocabulary, basic anatomical concepts, and introduction to stylistic conventions of classical ballet. May be taken twice for credit with permission of the department.

prereq: DAN 14500, perm dept, or placement class
4 hrs
2 cr.

DAN 31000 - Contemporary Dance Technique III
Pluralism and Diversity
GER 3/A
Intermediate-advanced movement experience, expansion of technical and aesthetic range; continued in-depth study of all concepts of dance. May be taken twice for credit with permission of the department.

prereq: DAN 22000, or perm. depart.
4 hrs
2 cr.

DAN 32000 - Contemporary Dance Technique IV

Pluralism and Diversity
GER 3/A
Advanced movement experience, further expansion of technical, dynamic and aesthetic range; emphasis on clarifying performance intention. May be taken twice for credit with permission of the department.

prereq: DAN 31000, permission of department
4 hrs
2 cr.

DAN 32100 - Composition I

Pluralism and Diversity
GER 3/A
Introduction to dance composition. Students will compose solo, duet, and small group works, applying their understanding of basic compositional devices to projects developed during class time as well as during independent practice.

prereq: DAN 22100, permission of dept.
4 hrs, 2 hrs open studio
2 cr.

DAN 32400 - Production I

GER
3/A
Practical experience in all aspects of production that contribute to realization of student's choreographic intentions: costumes, sets, lighting, publicity and business skills.
prereq: DAN 32200 or perm dept.
3 hrs, 3 hrs open studio
3 cr.

DAN 34500 - Ballet II

GER
3/A
Intermediate-level ballet. Continued study of classical ballet vocabulary, and its stylistic conventions. Emphasis on the application of sound anatomical practices, and further artistic development. May be taken twice for credit with permission of the department.
All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**DAN 35000 - Anatomy and Kinesiology for Dancers**

**GER**

3/A

Anatomy of skeletal, muscular and neuromuscular systems; anatomical analysis of basic movement; application of anatomical information to proper and successful performance of dance.

**DAN 42200 - Choreographic Projects**

**GER**

3/A

Independent student choreographic works in preparation for performance in concert. Registration once per academic year.

**DAN 44000 - Lecture/Demonstration Touring Group**

**GER**

3/A

Performance of prescribed choreography in lecture/ demonstration format to be presented in public schools on a weekly basis during the fall semester. Open to dance majors/minors only. Students must be available to rehearse intensively for 1 week before classes begin.

**Major**

(34 credits)
A placement audition is required of all incoming majors. All dance majors are required to be registered in at least one technique class every semester they are in attendance at Hunter. Performance, choreography and technical production requirements are to be fulfilled prior to graduation. These requirements include:

1. Performance in at least two (2) concerts.

2. Choreography of at least two (2) works:
   a. solo performed in open composition.
   b. group work developed during fall and spring semesters and performed in formal concert.

3. Production crew work in two (2) formal concerts.

Note: All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

Policy on advancement through the technique curriculum

All dance students should be aware that completion of a dance technique course for a passing grade does not automatically guarantee acceptance into the next level of technique. For example, if you pass the Fundamentals of Contemporary Dance course, you may not necessarily be admitted to Contemporary Dance Technique I.

Your instructor will, at the end of the current course, advise you to either repeat the course for credit or to move on to the next level. (You can take technique courses twice for credit, and it is also possible to audit thereafter.) It is neither safe nor constructive to place yourself in a class that is not appropriate for your skill level. The quality of your dance education is of utmost importance to us — this policy is designed to maintain the highest standards of learning and achievement.

All dance majors are required to register for at least one technique course every semester they are enrolled at Hunter College.

Additional Information

The undergraduate adviser suggests the appropriate sequence of electives for the career specialization the student chooses.

Prerequisites for all dance majors:

Attendance at placement class audition prior to the beginning of the semester.

Meeting with Dance Adviser prior to declaration of major.

Dance Education

Students planning to teach Dance in Pre-K through 12th grade should look at Dance Education Pre-K - 12 of the The School of Education for requirements and program.

Minor in Dance
The Hunter College Minor in Dance (a minimum of 16 required credits) is designed to allow students to pursue a variety of interests in the field.

Required courses (a minimum of 16 credits total)

The following 2 courses must be taken prior to declaration of the minor:

**DAN 10100 - Fundamentals of Contemporary Dance Technique**

Survey of concepts involved in understanding and integrating physicality and creativity through movement. Review of basic skills required for further study. May be taken two times for credit with permission of the department.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

*prereq: minimum 12 cr.*

3 hrs  
2 cr.

**DAN 10200 - Dance, Dancers and the Audience**

Hunter Core  
Creative Expression (CE)  
Pluralism and Diversity  
GER 2/D

Lecture demonstration course designed to introduce students to the art of dance through analysis of history, dance style and socio-political underpinnings. This course includes participation in both lecture and movement sessions.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

*prereq: minimum 12 cr.*

3 hrs  
3 cr.

Additional required courses

**DAN 21000 - Contemporary Dance Technique I**

GER  
3/A

Analytical and physical study of basic concepts of dance: space, time, dynamics and design. Intermediate development of movement skills and vocabulary as required by professional demands. May be taken twice for credit with permission of the department.

*prereq: DAN 10100, perm dept., placement class*

4 hrs  
2 cr.

**DAN 22100 - Improvisation as a Creative Process I**

GER  
3/A
Introduction to basic skills of structured improvisation; use of these skills by individual students to explore their creative movement potential.

prereq or coreq: DAN 21000 or perm dept.

4 hrs
2 cr.

1 additional dance technique course, selected from the following:

**DAN 14500 - Fundamentals of Ballet**

Introduction to fundamental skills and nomenclature of ballet. May be taken two times for credit with permission of the department.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: minimum 12 cr.

3 hrs
2 cr.

**DAN 15100 - Folk Forms of Dance I**

Development of basic dance skills necessary for participation in international folk dances. Students are exposed to dance and music of world cultures.

Open to dance majors and minors only.

3 hrs
1 cr.

**DAN 22000 - Contemporary Dance Technique II**

GER 3/A

Continued development of analytical and physical study of basic concepts of dance: space, time, dynamics and design. Focus on expanded movement vocabulary and increased facility; understanding dance as means of communication; ordering of movement to produce controlled performance. May be taken twice for credit with permission of the department.

prereq: DAN 21000, perm dept, or placement class

4 hrs
2 cr.

**DAN 24500 - Ballet I**

GER 3/A

Advanced-beginning level. Study of classical ballet vocabulary, basic anatomical concepts, and introduction to stylistic conventions of classical ballet. May be taken twice for credit with permission of the department.

prereq: DAN 14500, perm dept, or placement class

4 hrs
2 cr.
DAN 25200 - Special Topics: Traditional Dance I

Pluralism and Diversity
GER 3/A PD/A
Introduction to the cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit with permission of department.

prereq: placement class 
4 hrs 
2 cr.

DAN 31000 - Contemporary Dance Technique III

Pluralism and Diversity
GER 3/A
Intermediate-advanced movement experience, expansion of technical and aesthetic range; continued in-depth study of all concepts of dance. May be taken twice for credit with permission of the department.

prereq: DAN 22000, or perm. depart. 
4 hrs 
2 cr.

DAN 32000 - Contemporary Dance Technique IV

Pluralism and Diversity
GER 3/A
Advanced movement experience, further expansion of technical, dynamic and aesthetic range; emphasis on clarifying performance intention. May be taken twice for credit with permission of the department.

prereq: DAN 31000, permission of department 
4 hrs 
2 cr.

DAN 34500 - Ballet II

GER
3/A

Intermediate-level ballet. Continued study of classical ballet vocabulary, and its stylistic conventions. Emphasis on the application of sound anatomical practices, and further artistic development. May be taken twice for credit with permission of the department.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: DAN 24500, or perm. dept. 
4 hrs 
2 cr.

DAN 35200 - Special Topics: Traditional Dance II
Continuation of DAN 25200.
Continuation of DAN 25200. Further investigation of cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit with permission of department.

prereq: DAN 25200, perm dept.
4 hrs
2 cr.

Plus a minimum of 6 additional credits in dance

A minimum of 6 additional credits in Dance (choices must be approved by Dance Faculty Adviser):

Any DAN course at the 200 level or above (At least one of these must be a 3-credit course)

Additional Requirements of the Dance Minor

Participation on one production crew team for a fully produced dance program concert.
Performance in at least one Hunter dance concert.

Note:

Placement in technique courses above the Fundamentals level is by placement class, the first day of class review, recommendation of instructor, or department permission. Repeated courses may not be counted in these requirements.

Grading

All dance majors and minors must receive a letter grade for all dance classes. Grades of “NC” or “CR” are not permissible.

Dance Pre-K - 12 - BA

The BA program in PreK-12 Dance Education leads to initial certification as a teacher in New York State.

This undergraduate program is designed to prepare prospective teachers to serve as high-quality educators for students in urban schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

The Education course of study is a 27-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

Applying for Admission
Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Admission Requirements

1. Minimum of at least 65 credits but no more than 90 credits.
2. A Hunter College Grade Point Average (GPA) of 3.0 or better.
3. Receive a grade of B or better in ENGL 120.
4. Have no more than 6 cr. of CR/NC grades.
5. Formal declaration of a major in dance.
6. Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

Liberal Arts and Sciences Major Requirements

34-credit major in Dance - BA.

New York State Liberal Arts & Science Distribution Requirement

These are courses required for School of Education students. Most of these courses may also be used towards the Appendix I: Hunter Core Requirement.

- ENGL 12000 and ENGL 22000
- Two courses selected from HIST 15100, HIST 15200 and GEOG 10100
- STAT 11300
- 9 credits in math, science and technology (must include one laboratory science course)
- 12 credits of foreign language
- One course in communication

Academic Progress Standards

- Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
• Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.
• Any student who has more than two grades of IN will be permitted to register for only one course the following semester.
• Second Methods Course: Students will be permitted to register for the second methods course in their subject area only after having met the following requirements: Completion of 18 credits of study in the major subject area; approval of the major department adviser; and maintenance of an overall GPA of 3.0 and an education sequence index of 3.0.
• Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
• Complete at least 21 credits in an approved Arts & Sciences major before student teaching.

Course of Study

SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)

Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.
3 hrs
3 cr.

SEDF 20400 - Adolescent Development

The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDF 20500 - Educational Psychology: Applications in Grades 7-12

Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.
prereq: SEDF 20300, 20400
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12

The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.
prereq: SEDF 20500, SEDC 21000
2 per week plus lab
2 cr.

SEDC 21000 - Building the Foundations of Literacy in Grades 7-12
Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs
3 cr.

**SEDC 22000 - Adolescent Health and Safety**

Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

*prereq: SEDF 20300, 20400*

1 hr
1 cr.

**SEDC 45600 - Student Teaching in Dance, Grades Pre-K-12**

Two 30-day supervised placements (one in grades Pre-K-6 and one in grades 7-12) in New York City public schools selected by Hunter College. Special Conditions: Students must apply for student teaching the fall semester before enrolling in this course. Scores on the Liberal Arts and Sciences Test (LAST) of the New York State Teacher Certification Examination must have been received by the coordinator of adolescent education prior to enrollment in student teaching.

*prereq or coreq: SEDF 20600, SEDC 22000*

2 hrs per week, 60 days student teaching plus workshops and conferences
5 cr.

**DANED 30200 - Theory and Practice of Teaching Dance (pre-K-12)**

Methods of teaching dance in grades pre-K-12 to students with diverse backgrounds and abilities in diverse learning environments; the organization of instruction and classroom management strategies; technological resources; community and family resources.

Field work required.

*prereq: completed 12 cr in dance or perm dance adviser*

*prereq or coreq: SEDF 20400*

3 hrs plus 36 hours fieldwork
4 cr.

**SPED 30800 - Teaching Students with Special Needs in Inclusive Settings**

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

*prereq: 12 credits of coursework*

45 hrs
3 cr.
School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Early Childhood Education, Birth-Grade 2 - BA

The Early Childhood, Birth through Grade 2 undergraduate teacher education program prepares students to become New York State certified teachers of early childhood education.

This program is designed to prepare prospective teachers to serve as high-quality educators for students in urban schools and other childcare settings. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

This is a 36-credit program in which students have an option to complete the course of study over four or six semesters.

Applying for Admission

Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Admission Requirements

- Complete at least 30 credits toward the Bachelor's degree. Students with more than 72 credits should consider pursuing Early Childhood Education at the graduate level.
- Attain a Hunter College Grade Point Average (GPA) of 3.0 or better.
- Have taken the CUNY COMPASS exam for math placement, or taken MATH 10100, or have an equivalent pre-requisite for MATH 10400.
- Have completed ENGL 12000 (or a 200- or 300-level writing course) with a grade of B or better.
- Declare an appropriate liberal arts and sciences major either preceding admission or upon admission to the program.
• Have completed at least 12 credits at Hunter College. Transfer students with a GPA of 3.3 or better may be immediately considered for admission.

**Liberal Arts & Sciences Major Requirement**

All students in School of Education programs must also declare a major in the School of Arts & Sciences. This major must lead to a BA degree.

See the School of Arts & Sciences for more information on major options.

**New York State Liberal Arts & Sciences Distribution Requirement**

The courses listed below are required for all Early Childhood teacher candidates, and constitute several of the prerequisites for courses in the program. A minimum grade of C must be earned in these classes in order for them to count towards the program.

(These courses do not have to be completed for a student to be considered for admission):

- ENGL 120: Introduction to Expository Writing
- ENGL 220: Introduction to Literature
- Any 3 credits eligible to meet CUNY's Common Core in Creative Expression
- Two semesters of natural science. Courses used to meet CUNY's Common Core in Life and Physical Sciences, and in Scientific World can be used to meet this requirement (with the exception of computer science (CSCI) and economics (ECO) courses)
- POLSC 110: American Government
- Any 3 credits eligible to meet CUNY's Common Core in World Cultures and Global Issues
- SOC 101: Introduction to Sociology
- Any 3 credits eligible to meet CUNY's Common Core in Individual and Society (Humanities)
- 6 credits of foreign language
- MATH 104: Mathematics for Elementary Education 1

**Academic Progress Standards**

Students must meet the following criteria in order to continue in the program:

- A minimum grade of C or better in all non-field courses (Courses can only be repeated once)
- A minimum grade of B or better in all fieldwork courses. (Fieldwork courses can only be repeated once)
- Maintain a cumulative GPA of at least 3.0
- Complete 6 credits of study in a foreign language prior to the completion of ECC 306: Language and Literacy for Children of Diverse Backgrounds, K-2
- Complete Math 104 with a minimum grade of C prior to registering for ECC 310: Mathematics in Early Childhood.
- Complete with a minimum grade of C two semesters of natural science prior to registering for ECC 311: Early Childhood Science and Inquiry-Based Learning. Courses used to meet CUNY's Common Core in Life and Physical Sciences, and in Scientific World can be used to meet this requirement (with the exception of computer science (CSCI) and economics (ECO) courses).
- Take and pass both the Academic Literacy Skills Test (ALST) and the Educating All Students test (EAS) of the New York State Teacher Certification Exams prior to student teaching.
- Complete at least 21 credits in an approved Arts & Sciences major before student teaching.
Follow the course sequence, which represents the required classes that Early Childhood students must take each semester. The courses for each semester must be completed successfully in that term.

Course of Study

Six-Semester Track

Semester 1

**ECF 20000 - Human Development and Theories of Learning, Prenatal-Age 8**

This course will examine the history of child development and the major theories and theorists in the area of child development. An understanding of research strategies and the impact of cultural, biological and environmental influences on the development of young children will also be examined. Current research in the areas of prenatal development, physical, cognitive, language, social, emotional and early brain development will also be discussed.

*prereq: ENGL 12000*

*coreq: ECF 20100, ECC 30000*

3 hrs

3 cr.

**ECC 30000 - Early Childhood Programs and Curricular Frameworks**

Students will gain an in-depth understanding of the array of early childhood programs that comprise the field of early care and education. In addition, students will learn about philosophies and approaches to curriculum that are commonly used in early childhood settings including Montessori education, Reggio Emilia, the Project Approach, High Scope Curriculum, and the Creative Curriculum.

*coreq: ECF 20000, ECF 20100*

3 hrs

3 cr.

**ECF 20100 - Social and Historical Foundations of Early Childhood Care and Education**

An examination and analysis of the social and historical contexts of early childhood education including applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in urban settings.

*coreq: ECF 20000, ECC 30000*

2 hrs

2 cr.

Semester 2

**ECC 30500 - Language and Literacy for Children of Diverse Backgrounds (B-Prekindergarten)**

This course is grounded in research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of literacy development between Birth and age 4 and the role of families,
programs and schools in early literacy development.

prereq: 6 credits of foreign language; ECC 30000, ECF 20000, ECF 20100
3 hrs
3 cr.

**ECC 30400 - Creative Arts and Play-Based Learning**

Theoretical and practical aspects of play, creativity and arts-based learning are the central tenets of this course. Students will gain fundamental knowledge for constructing playful learning experiences across early learning settings, particularly within the context of the standards-based, high-stakes accountability climate of education in the United States and beyond.

prereq: ECC 30000, ECF 20000, ECF 20100
3 hrs
3 cr.

**ECC 30100 - Field work/Internship 1**

This course gives students the means to connect conceptual and theoretical information about children, early childhood education, and effective teaching to daily classroom life. Each of the fieldwork courses places students in classrooms where they will gain experience teaching in a full range of early childhood settings.

coreq: ECC 30400
50 hrs.
1 cr.
Offered fall and spring

Semester 3

**ECC 30600 - Language and Literacy for Children of Diverse Backgrounds, Kindergarten through 2nd Grade**

Theoretical and practical aspects of early childhood literacy instruction with particular emphasis on teaching literacy to diverse populations between the grades of Kindergarten and 2nd grade will be addressed. In addition, the role of family and community involvement and the use of technology for literacy development.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30500
3 hrs
3 cr.

**ECC 30800 - Inclusionary Practices and Teaching Children of Diverse Backgrounds**

An overview of children with exceptional cognitive, physical, social, and/or emotional characteristics, including learning disabilities. Students will also gain knowledge and skills on working with children who are emerging language learners (ELLs). Assessment and screening strategies will be discussed to meet the educational needs of all students.

prereq: ECF 20000, ECC 30000, ECC 30500
3 hrs
3 cr.
ECC 30200 - Field work/Internship 2

This course gives students the means to connect conceptual and theoretical information about children, early childhood education, and effective teaching to daily classroom life. Each of the fieldwork courses places students in classrooms where they will gain experience teaching in a full range of early childhood settings.

coreq: ECC 30800
50 hrs.
1 cr.
Offered fall and spring

Semester 4

ECC 31000 - Mathematics in Early Childhood

Examines the theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth through second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings.

prereq: MATH 10400; ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800
3 hrs
3 cr.

ECC 31100 - Early Childhood Science and Inquiry-Based Learning

Explores the theories and research of scientific thinking in young children. Assessing science learning in diverse infant, toddler, preschool and grade K-2 settings and how to incorporate the use of community resources in scientific learning will be discussed.

prereq: Two semesters of natural science which must include: 3 credits eligible to meet CUNY Common Core in Life and Physical Sciences and 3 credits eligible to meet CUNY Common Core in Scientific World (CSCI and ECO courses do not qualify for this requirement): ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30500, ECC 30600, ECC 30800
2 hrs
2 cr.

ECC 30300 - Field work/Internship 3

This course gives students the means to connect conceptual and theoretical information about children, early childhood education, and effective teaching to daily classroom life. Each of the fieldwork courses places students in classrooms where they will gain experience teaching in a full range of early childhood settings.

coreq: ECC 31100
50 hrs.
1 cr.
Offered fall and spring

Semester 5

ECC 314000 - Health, Family, and Community Partnerships
This course gives students the means to understand how to promote children's health, safety, and nutrition. Students will also gain skills and knowledge needed to foster positive, reciprocal relationships with families of diverse backgrounds. In meeting the NYSDOE mandate, child abuse, drug abuse prevention, prevention of school violence, anti-bullying, and fire safety workshops are included.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100
3 hrs
3 cr.

ECF 40000 - Assessment in Early Childhood, Birth through 2nd Grade

Provides students with an understanding of the role of assessment for planning and implementing effective early childhood instruction for young children, ages birth to age eight, from culturally diverse environments and with varied learning needs.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100
3 hrs
3 cr.

Semester 6

ECC 40100 - Student Teaching

Students will complete one semester of student teaching in early childhood settings, including preK settings, kindergarten, first, and second grade classrooms. Students will complete their student teaching in at least two of the following early childhood settings: pre-kindergarten, kindergarten, first grade or second grade. Students will attend seminar for 30 hours during the semester to discuss topics that range from classroom management to supporting children with diverse learning needs. During student teaching, students will complete the Teacher Performance Assessment (edTPA).

prereq: ECF 20000, ECF 20100, ECF 40200 ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100, ECC 31400
3 hrs
3 cr.

Four-Semester Track

Semester 1

ECF 20000 - Human Development and Theories of Learning, Prenatal-Age 8

This course will examine the history of child development and the major theories and theorists in the area of child development. An understanding of research strategies and the impact of cultural, biological and environmental influences on the development of young children will also be examined. Current research in the areas of prenatal development, physical, cognitive, language, social, emotional and early brain development will also be discussed.

prereq: ENGL 12000
coreq: ECF 20100, ECC 30000
3 hrs
3 cr.
ECC 30000 - Early Childhood Programs and Curricular Frameworks

Students will gain an in-depth understanding of the array of early childhood programs that comprise the field of early care and education. In addition, students will learn about philosophies and approaches to curriculum that are commonly used in early childhood settings including Montessori education, Reggio Emilia, the Project Approach, High Scope Curriculum, and the Creative Curriculum.

coreq: ECF 20000, ECF 20100
3 hrs
3 cr.

ECC 30400 - Creative Arts and Play-Based Learning

Theoretical and practical aspects of play, creativity and arts-based learning are the central tenets of this course. Students will gain fundamental knowledge for constructing playful learning experiences across early learning settings, particularly within the context of the standards-based, high-stakes accountability climate of education in the United States and beyond.

prereq: ECC 30000, ECF 20000, ECF 20100
3 hrs
3 cr.

ECC 30500 - Language and Literacy for Children of Diverse Backgrounds (B-Prekindergarten)

This course is grounded in research and practice in language learning and the development of early literacy among diverse learners. Examination of the process of literacy development between Birth and age 4 and the role of families, programs and schools in early literacy development.

prereq: 6 credits of foreign language; ECC 30000, ECF 20000, ECF 20100
3 hrs
3 cr.

ECC 30100 - Field work/Internship 1

This course gives students the means to connect conceptual and theoretical information about children, early childhood education, and effective teaching to daily classroom life. Each of the fieldwork courses places students in classrooms where they will gain experience teaching in a full range of early childhood settings.

coreq: ECC 30400
50 hrs.
1 cr.
Offered fall and spring

Semester 2

ECF 20100 - Social and Historical Foundations of Early Childhood Care and Education

An examination and analysis of the social and historical contexts of early childhood education including applications to contemporary issues in the education of young children in families, childcare centers, schools and communities in
urban settings.

*coreq: ECF 20000, ECC 30000
2 hrs
2 cr.*

**ECC 30600 - Language and Literacy for Children of Diverse Backgrounds, Kindergarten through 2nd Grade**

Theoretical and practical aspects of early childhood literacy instruction with particular emphasis on teaching literacy to diverse populations between the grades of Kindergarten and 2nd grade will be addressed. In addition, the role of family and community involvement and the use of technology for literacy development.

*prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30500
3 hrs
3 cr.*

**ECC 30800 - Inclusionary Practices and Teaching Children of Diverse Backgrounds**

An overview of children with exceptional cognitive, physical, social, and/or emotional characteristics, including learning disabilities. Students will also gain knowledge and skills on working with children who are emerging language learners (ELLs). Assessment and screening strategies will be discussed to meet the educational needs of all students.

*prereq: ECF 20000, ECC 30000, ECC 30500
3 hrs
3 cr.*

**ECC 30200 - Field work/Internship 2**

This course gives students the means to connect conceptual and theoretical information about children, early childhood education, and effective teaching to daily classroom life. Each of the fieldwork courses places students in classrooms where they will gain experience teaching in a full range of early childhood settings.

*coreq: ECC 30800
50 hrs.
1 cr.*

*Offered fall and spring*

**Semester 3**

**ECF 40000 - Assessment in Early Childhood, Birth through 2nd Grade**

Provides students with an understanding of the role of assessment for planning and implementing effective early childhood instruction for young children, ages birth to age eight, from culturally diverse environments and with varied learning needs.

*prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100
3 hrs
3 cr.*
ECC 31000 - Mathematics in Early Childhood

Examines the theories and research that focus on the relationship between children's development and learning of mathematical concepts and skills. Appropriate mathematics activities for children from birth through second grade and ways of assessing mathematical learning in diverse infant, toddler, preschool, and grade K-2 settings.

prereq: MATH 10400; ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800
3 hrs
3 cr.

ECC 31100 - Early Childhood Science and Inquiry-Based Learning

Explores the theories and research of scientific thinking in young children. Assessing science learning in diverse infant, toddler, preschool and grade K-2 settings and how to incorporate the use of community resources in scientific learning will be discussed.

prereq: Two semesters of natural science which must include: 3 credits eligible to meet CUNY Common Core in Life and Physical Sciences and 3 credits eligible to meet CUNY Common Core in Scientific World (CSCI and ECO courses do not qualify for this requirement); ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30500, ECC 30600, ECC 30800
2 hrs
2 cr.

ECC 30300 - Field work/Internship 3

This course gives students the means to connect conceptual and theoretical information about children, early childhood education, and effective teaching to daily classroom life. Each of the fieldwork courses places students in classrooms where they will gain experience teaching in a full range of early childhood settings.

coreq: ECC 31100
50 hrs.
1 cr.
Offered fall and spring

Semester 4

ECC 31400 - Health, Family, and Community Partnerships

This course gives students the means to understand how to promote children's health, safety, and nutrition. Students will also gain skills and knowledge needed to foster positive, reciprocal relationships with families of diverse backgrounds. In meeting the NYSDOE mandate, child abuse, drug abuse prevention, prevention of school violence, anti-bullying, and fire safety workshops are included.

prereq: ECF 20000, ECF 20100, ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100
3 hrs
3 cr.

ECC 40100 - Student Teaching

Students will complete one semester of student teaching in early childhood settings, including preK settings, kindergarten, first, and second grade classrooms. Students will complete their student teaching in at least two of the following early childhood settings: pre-kindergarten, kindergarten, first grade or second grade. Students will attend
seminar for 30 hours during the semester to discuss topics that range from classroom management to supporting children with diverse learning needs. During student teaching, students will complete the Teacher Performance Assessment (edTPA).

**prereq:** ECF 20000, ECF 20100, ECF 40200 ECC 30000, ECC 30400, ECC 30600, ECC 30800, ECC 31000, ECC 31100, ECC 31400

3 hrs

3 cr.

**School of Education Exit Standards**

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

**Economics - BA**

**Foundational Courses**

Foundational Courses include courses in Economics and prerequisites to these courses. These courses must be completed early in the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

<table>

*Note: Please note MATH 12500 may not need to be taken; it is dependent upon math placement exam.

**Majors**

The Department of Economics offers two Economics majors. The first, discussed below, is the Economics - BA, requiring a minimum of 24 credits beyond the foundational courses. In addition, for motivated students, the department offers the opportunity to complete both the BA and MA degrees simultaneously, where 30 of the 120 credits required for graduation are graduate credits. Students interested in this option should follow the link below.

**Economics - Accelerated BA/MA**
Grade Options

The department strongly urges economics majors who plan to go on to graduate or professional school to choose letter grades rather than CR/NC.

Major- 24 credits

Students majoring in economics must take:

A. Courses Preliminary to the Economics Major

ECO 20000 - Principles of Microeconomics

Hunter Core
Scientific World (SW)
GER
2/B

May be taken prior to or concurrently with ECO 20100. Determination of prices and quantities of goods and services, including labor and other resources; competitive and imperfect markets; public policy implications.

_prereq: MATH 10100 or exemption from the course

3 hrs
3 cr.

ECO 20100 - Principles of Macroeconomics

Hunter Core
Individual and Society (Social Sciences) -I&S SS
GER
2/B

May be taken prior to or concurrently with ECO 20000. Economic growth; fluctuations in the aggregate economy; inflation; monetary and fiscal policy.

_prereq: MATH 10100 or exemption from the course

3 hrs
3 cr.

These courses must be completed with a grade of C, CR, or better to serve as prerequisites for courses credited to the major.

Additional Information

Although required, neither ECO 20000 nor ECO 20100 are counted as part of the 24 credits in the major. While it is preferable to start with ECO 20000, students may begin the study of economics with either ECO 20000 or ECO 20100. If they wish a one-semester survey before embarking on the principles courses, they may take ECO 10000, but this is not required. If taken, ECO 10000 cannot be substituted for either ECO 20000 or 20100 or credited toward the major.

B. Core of the Economics Major

ECO 22100 - Economic Statistics
Probability and statistics in the context of economics, business and public policy; data analysis, probability distributions, and hypothesis testing.

prereq: MATH 12500 or exemption from the course

3 hrs
3 cr.

ECO 30000 - Intermediate Microeconomics

Households and firms as maximizing agents; implications for equilibrium in perfectly and imperfectly competitive markets; general equilibrium; welfare.

prereq: ECO 20000, 20100, MATH 15000

3 hrs
3 cr.

ECO 30100 - Intermediate Macroeconomics

Growth, employment and prices in the short and long run; monetary and fiscal policy.

prereq: ECO 20000, 20100, MATH 15000

3 hrs
3 cr.

ECO 32100 - Introduction to Econometrics

Linear and non-linear regression models in economics; statistical methods for estimation and inference.

prereq: ECO 22100, MATH 15000

3 hrs
3 cr.

*ECO 22100 must be completed with a grade of C, CR or better to be accepted for credit towards the major and to serve as prerequisites for other courses in the major.

C. Allied Required Course

MATH 15000 (STEM) - Calculus with Analytic Geometry I
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.  
\textit{prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.}  
\textit{4 hrs}  
\textit{4 cr.}  

*MATH 15000 must be completed with a grade of C, CR or better to be accepted for credit towards the major and to serve as prerequisites for other courses in the major.

Additional Information

Majors are advised to complete MATH 15000 (STEM) and ECO 22100 within their first 75 credits of college work and ECO 30000 or ECO 30100 within their first 90 credits. For students already at or beyond these points when they become majors, such courses should be taken within the first 12 credits following declaration of the major. The department may waive the requirement of any of the above or other courses upon satisfactory proof of course equivalency. Courses waived through substitution or examination do not provide course credit nor do they count toward the major.

D. Elective courses

The remaining 12 credits needed to complete the 24-credit major shall be satisfied by other economics courses offered by the department. No courses in accounting or business law may be credited toward the economics major. No more than 3 credits may be at the 100-level (note: ECO 10000 cannot be counted.)

Minor in Economics

The economics minor consists of a minimum of 12 credits, including

\begin{description}
\item[ECO 20000 - Principles of Microeconomics] \hfill  
\vspace{0.5cm}  
\textbf{Hunter Core}  
\textit{Scientific World (SW)}  
\textit{GER}  
\textit{2/B}  
May be taken prior to or concurrently with ECO 20100. Determination of prices and quantities of goods and services, including labor and other resources; competitive and imperfect markets; public policy implications.  
\textit{prereq: MATH 10100 or exemption from the course}  
\textit{3 hrs}  
\textit{3 cr.}
\item[ECO 20100 - Principles of Macroeconomics] \hfill  
\vspace{0.5cm}  
\textbf{Hunter Core}  
\textit{Individual and Society (Social Sciences) -I&S SS}  
\textit{GER}  
\textit{2/B}  
May be taken prior to or concurrently with ECO 20000. Economic growth; fluctuations in the aggregate economy; inflation; monetary and fiscal policy.  
\textit{prereq: MATH 10100 or exemption from the course}  
\end{description}
and two other courses in economics. Accounting and business law courses do not count towards the economics minor.

**Interdepartmental Fields**

Students with majors in other departments may take courses in economics as part of an interdepartmental program of study in public policy, Latin American and Caribbean studies, environmental studies (geography), women's and gender studies and Jewish social studies. Listings in each area discuss recommended courses.

**Internships**

Students may receive one credit for internships in government agencies, private firms, and not-for-profit institutions. The position must provide opportunities for learning about some area of economics, accounting, or business. The course may be taken no more than twice. Credits may not be applied towards the economics or accounting major. Internships will be graded on a CR/NC basis. Note that it is the responsibility of the student, not the Department, to identify internship opportunities.

**Honors**

Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for the award of departmental honors.

**ECO 49900 - Honors Project**

Jr/Sr only. Supervised individual research and directed reading. Honors essay.  
*prereq: For accounting majors: ECO 32100 and 37200; For economics majors: ECO 30000, 30100 and 32100. A 3.5 GPA required in the major offered by the department and permission of the chair*

3 hrs

3 cr.

**Public Policy**

Economics majors may find both the minor and the Certificate Program in Public Policy of particular interest.

**English - BA**

**Major**

The English Department offers students five concentrations: (1) Literatures, Language and Criticism, (2) Creative Writing, (3) English: Preparation for Secondary School Teaching, (4) English Language Arts, and (5) Linguistics and Rhetoric. Thirty-nine credits (13 classes) in 300- and 400-level courses are required for each concentration. Up to 6 credits in the major sequence may be taken for CR/NC. Students must take ENGL 22000 before declaring the major or taking any other English classes (with the exception of ENGL 21800 - Advanced Expository Writing).
Concentration in Literatures, Language and Criticism (39 cr)

Concentration in Creative Writing (39 cr)

Concentration in English Language Arts (39 cr.)

**Concentration in English: Preparation for Secondary School Teaching (39 cr)**

**Concentration in Linguistics and Rhetoric (39 cr)**

**Literatures, Language and Criticism Concentration**

Majors who choose the Concentration in Literatures, Language and Criticism (39 cr) take five required courses (15 cr), and three courses in a specialized area of study (9 cr.). The department recommends that students take the five required courses early in their major studies, preferably soon after they have declared the major. The Literatures, Language and Criticism concentration is designed to provide students with exposure to a range of literary texts and traditions, as well as to a specific area of study in which to focus. The first two areas of study reflect particular national literatures, and the remaining four are designed with broader approaches to literary study in mind. With prior approval, a student may also work with an adviser to design her own area of study.

**Creative Writing Concentration**

The Concentration in Creative Writing (39 cr) is designed to provide students with an informed appreciation of the depth and breadth of literature written in English, as well as the opportunity to develop their own interests and skills in creative writing. Students concentrating in Creative Writing take ENGL 25200 Introduction to Literary Studies (3 cr), five required courses in literature (15 cr), at least four creative writing workshops (12 cr), and three electives (9 cr). The five literature requirements are: 1) ENGL 33800; 2) ENGL 39500, 39600, or 39700; 3) ENGL 31800, 32000, 32100, 32400, 32500, or 32700; 4) ENGL 30600, 31100, 33200, or 34000; and 5) One 300- or 400-level English course with a focus in literature or rhetoric before 1800. The first workshop for ALL students is the 3-genre workshop ENGL 30000: Introduction to Creative Writing, which must be passed with a grade of B or higher in order to qualify for this concentration. After successfully completing ENGL 30000, students are required to take a minimum of three additional workshops, beginning with the level-I workshop in the genre(s) in which they are interested: ENGL 30800, 31100, or 31400. Students are required to take at least one level-II workshop (ENGL 30900, 31300, or 31600) after completing the level-I workshop in that genre. Students may also take one of the special topics genre workshops (ENGL 48400) after completing both 300-level workshops in that genre. The remaining three courses for the major are electives and may be chosen from any of the department's 300-or 400-level courses, including, if the student is eligible, one of the Honors Seminars (ENGL 49400). In special cases, full-time faculty may find it appropriate to supervise a student who is interested in taking on an individual creative project; this option is listed in the catalogue, and in semester-by-semester class postings, as ENGL 48500: Independent Tutorial Study. Successful completion of such a course may also, if arranged beforehand, qualify as an Honors course.

**English Language Arts Concentration**

The Concentration in English Language Arts (39 cr.) is designed to provide students with experience in the study of literature, language, rhetoric, and writing. While it is designed and intended primarily for prospective elementary school teachers, the concentration is open to all students. Students take ENGL 25200, Introduction to Literary Studies (3 cr), four required literature courses (12 cr), two required courses in language and/or rhetoric (6 cr), and two required
courses in writing (6 cr). The remaining four courses (9 cr) are electives and may be chosen from among the following: any of the English department's 300- or 400-level literature courses, including, if the student is eligible, one of the Honors seminars (ENGL 49400); any of the 300-level Creative Writing workshops for which the student has met the prerequisite(s); any 300- or 400-level courses in linguistics or literatures taught in English in other departments for which the student meets that department's prerequisite(s); and selected Theatre courses (16000, 16100, 32100, 37600, 37700, 37800) for which the student meets that department's prerequisite(s). The English department strongly recommends that students choose at least one Language, Writing, or Modern/Contemporary Literature elective course.

Concentration in Preparation for Secondary School Teaching

The Concentration in English: Preparation for Secondary School Teaching (39 cr) is designed to prepare students to teach English in grades 7-12 by providing a foundation in British, American, and Multi-Ethnic literatures, as well as writing and language studies. Students choosing this concentration take ENGL 25200, Introduction to Literary Studies (3 cr), 18 credits of required literature courses, 6 credits of required writing courses, one 3-credit language course, and three electives chosen from among 300- and 400-level courses offered by the Department. When taken together with the requirements for the Secondary Education minor of the School of Education, this program meets initial certification requirements for New York State and New York City public schools. Students interested in the Education minor must apply to the School of Education for admission. Students who do not wish to pursue certification need not take the Secondary Education minor. Eligible English: Preparation for Secondary School Teaching majors may pursue English Departmental Honors by taking ENGL 49400 - Honors Seminar: Special Studies.

Concentration in Linguistics and Rhetoric

The Concentration in Linguistics and Rhetoric (39 cr) is designed to provide students with a comprehensive course of study in the structures, uses, and ideologies of discourse in various types of texts, genres, and domains: from everyday talk to persuasive writing. Students will gain a complex understanding of spoken and written discourse by comparing a wide range of philosophical underpinnings, theoretical perspectives, and methodological approaches. Students choosing this concentration will take ENGL 25200, Introduction to Literary Studies (3 cr), three courses in linguistics (9 cr), three courses in composition and rhetoric (9 cr), three courses in literature (9 cr), and three electives (9 cr). This concentration is particularly suited for students who are interested in graduate study in Linguistics, Rhetoric, Applied Linguistics, and Teaching English to Speakers of Other Languages (TESOL).

Note: The English Department strongly recommends that students take at least one modern or contemporary literature course.

Honors

In order to qualify for departmental honors, students must take the Honors Seminar (ENGL 49400) and write an honors essay. The essay is normally written in relation to the Honors Seminar and under the supervision of the professor teaching the seminar. To take the Honors Seminar, students must first complete at least 24 credits of 300- and/or 400-level English classes with a GPA of at least 3.5 in those courses and an overall GPA of at least 2.8. Of these 24 credits, 21 must be taken at Hunter (in exceptional cases, 18 credits may suffice). The Honors Seminar requirement is in addition to the specified required courses in the student's concentration. Students interested in pursuing departmental honors should consult an undergraduate adviser. Please see the college rules on Academic Honors for more information in Section IV: Academic Policies & Procedures.

ENGL 49400 - Honors Seminar: Special Studies

Pluralism and Diversity
PD/C
Topics in British and American literature and linguistics. May be taken a second time in another subject. Some topics satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

*Note(s)*

_The Honors Seminar requirement is in addition to the specified courses in the student’s major concentration. Students interested in departmental honors should consult the undergraduate adviser._

_Minor in English_

The English Department offers a 12-credit minor that provides students with an opportunity to pursue interests in literature, language, rhetoric, composition, and creative writing at the intermediate and advanced levels. Students may declare the Minor only _after_ completing ENGL 22000 - Introduction to Writing about Literature (W), the prerequisite for all English courses above the 220 level. Students minoring in English may choose four courses (12 cr.) from among 200- and 300-level literature, language, rhetoric, or writing offerings, with a minimum of _two_ 300-level courses necessary to satisfy the Minor requirements. Students who wish to take Creative Writing workshops in any of the three genres offered (Fiction, Poetry, and Creative Non-Fiction) must first pass ENGL 30000 - Introduction to Creative Writing, with a minimum grade of B.

_Note:_

_The Honors Seminar requirement is in addition to the specified courses in the student’s major concentration. Students interested in departmental honors should consult the undergraduate adviser._

_Math/Quantitative Reasoning_  

### Environmental Earth Science Concentration

Return to: Return to Programs and Courses in Geography

**Foundational Courses**

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

**MATH 12500 (STEM) - Precalculus**

_Hunter Core_  
Math/Quantitative Reasoning  
GER  
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.
MATH 12600 - Precalculus Technology Laboratory

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

GEOL 10100 - Introductory Geology Lab

Hunter Core
Life & Physical Sciences
GER
2/E

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.

PGEOG 13000 (STEM) - Weather and Climate

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

Material Fee: $ 5
5 hrs (3 lec, 2 lab)
4 cr.

Offered in the Fall and Spring

* these courses are prerequisites to PGEOG 25000. Either of these courses, or GEOG 22600 is acceptable. 

Hunter Core Requirement Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core
Major- 40 credits

Required courses - 22 credits (including Capstone)

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)  
GER  
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.  
*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

**prereq or coreq: MATH 12500, 15000 or equiv.**  
5 hrs (4 lec, 1 rec)  
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**  
Life and Physical Sciences (LPS) Scientific World (SW)  
GER  
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.  
*prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair*  
5 hrs (4 lec, 1 rec)  
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**  
Life and Physical Sciences (LPS); Scientific World (SW)  
**Pluralism and Diversity**  
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.  
*prereq: CHEM 10200  
coreq: CHEM 10400*
GEOG 22600 - Environmental Conservation: Resource Management

GER
2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

PGEOG 25000 - Earth System Science I

GER
3/B

In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

prereq: at least one 100-level science course or perm instr.
prereq or coreq: GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.

4 hrs
3.5 cr.

PGEOG 25100 - Earth System Science II

GER
3/B

The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate system.

prereq: PGEO 25000 or perm instr.

4 hrs
3.5 cr.

Required Capstone Course - 3 credits

PGEOG 49000 - Honors in Environmental Studies

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

prereq: perm dept.

-or-
PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.
1-4 cr.

Electives - 18 credits

A minimum of 18 credits from the list below. 12 credits must be taken at the 300-level or higher.

*Note: It is strongly recommended that students take STAT 11300 - Elementary Probability and Statistics.*

GEOL 20500 - Environmental Geology

**GER**
3/B

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today’s environmental issues.

*prereq: GEOL 10100*

3 hrs
3 cr.

GEOL 28000 - Marine Geology

**GER**
3/B

Marine Geology is the study of the seafloor. This course attempts to answer the questions “what?”, “where?”", “when?” and more importantly “how?” in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.

*prereq: GEOL 10200 or perm instr.*

3 hrs
3 cr.

*Fall*

GEOL 38000 - Advanced Oceanography: Physics of the Oceans

**GER**
3/B

The oceans play a significant role in how the climate system responds to anthropogenic perturbations. To
**understand past, present and future climate, students need to know and understand the world ocean.**

Oceanography is multidisciplinary. It offers an opportunity to review and to apply many of the concepts taught in the major traditional disciplines of physics, chemistry, biology and mathematics. This course will offer an in-depth tour of the complex study of oceanography and an introduction to quantitative methods in oceanography using Matlab. This science-based course requires students to learn and understand, and be willing to work with, physical and quantitative concepts. Students must be prepared to learn the basics of computer scripting/programming syntax and logic, one of the major skills to be acquired in this course.

*prereq: one sem CHEM or PHYS, MATH 15000 or equiv.*

3 hrs
3 cr.

**GEOL 38300 - Special Topics in Geology and Oceanography**

**GER**
3/B

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

*prereq: 200-level course of which special topic is logical outgrowth; perm instr.*

1-4 hrs (lec or lec/lab)
1-3 cr.

**GTECH 20100 - Introduction to Geographic Information Science**

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15

*prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or equiv or perm instr.*

6 hrs (2 lec, 4 lab)
4 cr.

*Offered fall and spring*

**GTECH 32100 - Remote Sensing of the Environment**

Focuses on use of satellite images to study the environment and the physical processes involved in remote sensing to better understand the nature and properties of electromagnetic radiation and how it interacts with the atmosphere and the Earth’s surface and a wide variety of satellite sensors. These sensors make measurements in the optical, thermal and microwave electromagnetic spectrums and are used to study issues related to global environmental science and natural resource management. The course includes heavy lab components which will include practical assignments, field exercises, computer-based analysis of remotely-sensed images and the use of image processing software (ENVI) to analyze satellite images. Field measurements will be made in Central Park to facilitate better understanding satellite measurements.

Material Fee: $15

*prereq: GTEC 32000 or perm instr.*

4 hrs (2 lec, 2 lab)
3 cr.

**GTECH 36100 - GIS Analysis**

Advanced principles and operation of GIS, including 3-D, network and field representations and their respective analysis functions. Development of geoprocessing workflows. Geographic information science approaches to geo-
spatially relevant methods, including geophysical, landscape ecological, econometric, epidemiological, and regional science.

Material Fee: $15
prereq: GTECH 20100
4 hrs (2 lec, 2 lab)
3 cr.

**PGEOG 31300 - Biogeography**

GER
3/B

Provides an understanding of the geographic distribution and temporal variability of biological diversity over the face of the Earth and the biotic and abiotic factors and processes underlying these patterns and dynamics. Completion of PGEOG 25000/25100 and GTECH 37300 prior to enrollment is strongly recommended.

prereq: PGEOG 13000, GEOG 10100 or BIOL 10000/10200
3 hrs
3 cr.

**PGEOG 33200 - Introduction to Hydrology**

GER
3/B

Designed to provide the basic understanding of how water on the Earth moves, distributes, circulates and interacts with the environment. Focus will be on hydrological processes including precipitation, evapotranspiration (evaporation and transpiration), soil water, ground water, and runoff, which form the complete water cycle at global, regional and watershed scales. The course will also cover some topics on how water responds to environmental changes and strategies of integrated water resources.

prereq: GEOL 10100, PGEO 13000 or perm instr.
3 hrs
3 cr.

**PGEOG 33500 - Urban and Metropolitan Coasts**

GER
3/B

A systematic study of the natural and anthropogenic processes on urban coastal environments. Special emphasis on the coastline of the NY metropolitan area, with examples from coastal cities worldwide.

prereq or coreq: Prereq: GEOL 10100 or GEOG 10100
3 hrs
3 cr.

**PGEOG 36100 - Global Climatic Change**

GER
3/B
Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth’s climate history, and modern climate change.

 prerequisites: PGEO 13000 or GEOL 10100 or 10500
3 hrs
3 cr.

PGEOG 36300 - Environmental Hazards

GER
3/B

The course, in response to actual and potential hazards, either natural or anthropogenic in origin, will investigate the processes that link fundamental social development to environmental processes that are influenced by human activities. Natural hazards, in many cases, augment the environmental fragility of our society and the consideration of environmental hazards needs to be incorporated into management of climate variability, storms, droughts, floods, earthquakes, etc. An aim is to seek preventive measures and find solutions to act on environmental hazards on national and international levels.

 prerequisites: PGEO 13000 or equiv.
 prerequisites or coreq: PGEOG 13000 or equiv.
3 hrs
3 cr.

PGEOG 38300 - Special Topics in Environmental Studies

GER
3/B

Open to Jr/Sr only. Topics to be announced.

 prerequisites: GEOL 10500, GEOG 22600 or PGEOG 13000, one course of which special topic is logical outgrowth; perm instr.

1-4 hrs (lec or lec/lab)
1-3 cr.

Total credits 40

Environmental Management and Policy Concentration

Return to Programs and Courses in Geography

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

MATH 12500 (STEM) - Precalculus
Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

**prereq:** grade of C or better in MATH 10100 or appropriate score on placement exam

**4 hrs**

**4 cr.**

**MATH 12600 - Precalculus Technology Laboratory**

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

**prereq:** grade of C or better in MATH 10100 or appropriate score on placement exam

**prereq or coreq:** MATH 12500

**2 hrs**

**1 cr.**

**GEOL 10100 - Introductory Geology Lab**

**Hunter Core**
Life & Physical Sciences

**GER**

**2/E**

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.

**3 hrs.**

**3 cr.**

-or-

**PGEOG 13000 (STEM) - Weather and Climate**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**GER**

**2/E**

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

Material Fee: $5
Hunter Core Requirement Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement

Major

Required courses - 22 credits (including Capstone)

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.

Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

**CHEM 10600**

*prereq: CHEM 10200*

*coreq: CHEM 10400*

6 hrs

3 cr.

**GEOG 22600 - Environmental Conservation: Resource Management**

*GER*

2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

3 hrs

3 cr.

**PGEOG 25000 - Earth System Science I**

*GER*

3/B

In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

*prereq: at least one 100-level science course or perm instr.*

*prereq or coreq: GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.*

4 hrs

3.5 cr.

**PGEOG 25100 - Earth System Science II**

*GER*

3/B

The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate system.

*prereq: PGEO 25000 or perm instr.*

4 hrs

3.5 cr.

**Required Capstone Course - 3 credits**

**PGEOG 49000 - Honors in Environmental Studies**
Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

prereq: perm dept.
-or-

PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

1-4 cr.

Electives - 18 credits

A minimum of 18 credits from the list of courses below. 12 credits must be taken at the 300-level or higher. Courses not listed may be included in a student's concentration with permission of the ES adviser.

Note: It is strongly recommended that students take STAT 11300 Probability and Statistics.

COMHE 32500 - Environmental Public Health

Impact of environmental problems associated with urbanization, e.g., water quality, air and noise pollution, waste disposal and radiation hazards.

prereq: acceptance to the COMHE major, or permission of the instructor

3 hrs

3 cr.

GEOG 24100 - Population Geography

Pluralism and Diversity

PD/B or C

GER

3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the “mechanics” of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

prereq: GEOG 10100 or GEOG 15000 or perm instr.

3 hrs

3 cr.

GEOG 32800 - Urban Environmental Problems: Evaluations and Solutions

GER

3/B

Open to Jr/Sr only. The special environmental problems of urban and metropolitan areas will be studied, including water supplies, waste management, environmental impact and waterfront use. Natural physical processes, methodologies and techniques will be reviewed and applied to decision making. Transportation fee for field work may be required.

prereq: GEOG 101 or GEOG 150 or URBS 101 and Jr/Sr standing
GEOG 33500 - International Pollution Issues

GER
3/B

A study of international trans-boundary pollution and the science, source terms, transport pathways and international impacts of contamination events. The regional focus will change yearly pending current global environmental events.

_prereq: GEOG 101 or GEOL 101 or PGEO 130 or perm instr._

3 hrs
3 cr.

GEOG 24300 - Urban Geography

GER
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

_prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only

3 hrs
3 cr.

GEOG 37000 - Geography of Sustainable Development in Developing Countries

Pluralism and Diversity
PD/A
GER
3/B

Reviews the theories and approaches of international development. Themes include development theory, availability and distribution of resources, population growth, food production, water supply and forestry. The course will also highlight the development and environmental problems that challenge the achievement of sustainable development such as population growth, food and world economic crises, increasing number of the poor and climate change. The course will provide students with theory, methods, problems and analysis of factors that influence sustainable development in developing countries.

_prereq: one of the following: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr._

3 hrs
3 cr.

GEOG 37100 - Rural Water Supply in Developing Regions

Pluralism and Diversity
PD/A
GER
3/B

Covers concepts, methods and analysis of rural water utilization and related problems and challenges in developing countries. It will discuss water management and quality and their relationship with sanitation and hygiene education.
The course will also discuss methods of providing drinking water in a sustainable manner.

prereq: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.
3 hrs
3 cr.

GEOL 20500 - Environmental Geology

GER
3/B

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today’s environmental issues.

prereq: GEOL 10100
3 hrs
3 cr.

GEOL 33400 - Geomorphology: The Study of Beaches and Coasts

GER
3/B

A study of the basic processes shaping the coast and the resulting form; surficial morphology and internal geometry of such forms as cliffs, dunes, beaches and near shore bars. Map exercise and a one-day field trip.

prereq: GEOL 23100 or PGEO 23100 or equiv. or perm dept.
3 hrs
3 cr.

GEOL 38300 - Special Topics in Geology and Oceanography

GER
3/B

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

prereq: 200-level course of which special topic is logical outgrowth; perm instr.

1-4 hrs (lec or lec/lab)
1-3 cr.

GTECH 32100 - Remote Sensing of the Environment

Focuses on use of satellite images to study the environment and the physical processes involved in remote sensing to better understand the nature and properties of electromagnetic radiation and how it interacts with the atmosphere and the Earth’s surface and a wide variety of satellite sensors. These sensors make measurements in the optical, thermal and microwave electromagnetic spectrums and are used to study issues related to global environmental science and natural resource management. The course includes heavy lab components which will include practical assignments, field exercises, computer-based analysis of remotely-sensed images and the use of image processing software (ENVI) to analyze satellite images. Field measurements will be made in Central Park to facilitate better understanding satellite
measurements.
Material Fee:$ 15
prereq: GTEC 32000 or perm instr.
4 hrs (2 lec, 2 lab)
3 cr.

GTECH 38500 - GIS Applications

Selected topics in GIS applications to human and physical geographic problems. See department for topics offered. May be repeated for credit as topics change.
Material Fee:$ 15
prereq: GTEC 20100 or equiv.
3 hrs
3 cr.

PGEOG 31300 - Biogeography

GER
3/B

Provides an understanding of the geographic distribution and temporal variability of biological diversity over the face of the Earth and the biotic and abiotic factors and processes underlying these patterns and dynamics. Completion of PGEOG 25000/25100 and GTECH 37300 prior to enrollment is strongly recommended.

prereq: PGEOG 13000, GEOG 10100 or BIOL 10000/10200
3 hrs
3 cr.

PGEOG 33500 - Urban and Metropolitan Coasts

GER
3/B

A systematic study of the natural and anthropogenic processes on urban coastal environments. Special emphasis on the coastline of the NY metropolitan area, with examples from coastal cities worldwide.
prereq or coreq: Prereq: GEOL 10100 or GEOG 10100
3 hrs
3 cr.

PGEOG 36100 - Global Climatic Change

GER
3/B

Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth’s climate history, and modern climate change.
prereq: PGEO 13000 or GEOL 10100 or 10500
The course, in response to actual and potential hazards, either natural or anthropogenic in origin, will investigate the processes that link fundamental social development to environmental processes that are influenced by human activities. Natural hazards, in many cases, augment the environmental fragility of our society and the consideration of environmental hazards needs to be incorporated into management of climate variability, storms, droughts, floods, earthquakes, etc. An aim is to seek preventive measures and find solutions to act on environmental hazards on national and international levels.

**Prereq:** PGEO 13000 or equiv.

**Prereq or Coreq:** PGEOG 13000 or equiv.

3 hrs
3 cr.

**PGEOG 38300 - Special Topics in Environmental Studies**

GER
3/B

Open to Jr/Sr only. Topics to be announced.

**Prereq:** GEOL 10500, GEOG 22600 or PGEOG 13000, one course of which special topic is logical outgrowth; perm instr.

1-4 hrs (lec or lec/lab)

1-3 cr.

**POLSC 24400 - Energy and Environmental Politics and Public Policy (W)**

GER
3/B

Examination of political processes and public policies shaping energy production and consumption in the U.S. with comparative reference to other countries. Emphasis on political, economic, social, environmental and foreign policy aspects.

**Prereq:** ENGL 12000 or its equivalent

3 hrs
3 cr.

**SOC 36100 - Development and Modernization (W)**

**Pluralism and Diversity**

PD/A

GER
3/B

Examinations of models of social change with a special focus on developing countries.

**Prereq:** SOC 10100
3 hrs
3 cr.

**URBS 31000 - Methods of Urban Research and Policy Analysis**

**GER**
3/B

Survey of research skills necessary for analysis of contemporary urban issues. Includes review of data sources, methods of forecasting, use of computer, and methods of information presentation.

*prereq: URBS 10200 or perm instr.*

3 hrs
3 cr.

**URBS 40100 - Managing Urban Physical Environment**

**GER**
3/B

Advanced study of the physical structure of cities which includes an analysis of zoning, land use, transportation, and the location of housing. The role of public and private agencies at local, state, and national levels in the planning and management of the physical environment is also considered.

*prereq: URBS 20100 or perm instr.*

3 hrs
3 cr.

Total credits 40

**Environmental Studies - BA**

The major offers two concentrations which are organized to promote an intensive understanding of contemporary physical science, specifically earth system science as it relates to environmental issues, and an intensive understanding of a system-based approach to the dynamic nature of human-environmental interactions particularly as manifest in contemporary politics and economics. The concentrations are Environmental Earth Science and Environmental Management and Policy. It is suggested that students select a concentration as they enter the major with the understanding that the choice is not final at this stage and students can switch concentrations as they advance in the program. To aid in this process, the curriculum offers a common core of required courses, as well as sufficient overlap within the required elective courses. It is strongly recommended that students considering this major meet with the adviser to discuss their interests and program of studies as courses may be added or deleted as the college’s and department’s offerings change. One or more courses not listed below may be included in a student’s concentration with the advice and consent of the adviser.

A. Environmental Earth Science Concentration
B. Environmental Management and Policy Concentration

**Internships**

Students can receive from one to four credits for internships in government agencies, consumer and activist groups, business and industry and media organizations involved in energy issues (e.g., Council on the Environment of NYC,
Minor in Environmental Studies

A minor in environmental studies consists of a minimum of 12 credits as follows

one course selected from

**PGEOG 13000 (STEM) - Weather and Climate**

**Hunter Core**

Life and Physical Sciences (LPS); Scientific World (SW)

**GER**

2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

Material Fee: $ 5

5 hrs (3 lec, 2 lab)

4 cr.

Offered in the Fall and Spring

**GEOL 10000 - Introductory to Geology**

**Hunter Core**

Scientific World (SW)

**GER**

2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)

3 cr.

Offered fall and spring.

**GEOL 10500 - Introduction to Environmental Geoscience**

**Hunter Core**

Scientific World (SW)

**GER**

2/E (Non lab course)

Introduction to environmental geoscience focusing on aspects of global change and the interrelationship of earth systems. Review of the evolution of the earth from its origins to potential future developments; environmental
problems and issues.

prereq: ENGL 12000
3 hrs
3 cr.

GEOL 18000 - Introduction to Oceanography

Hunter Core
Scientific World (SW)
GER
2/E

An introduction to the subject of oceanography. We will discuss the physical, chemical, biological and geological aspects of the oceans; learn about the structure and motion of the atmosphere and how they all influence ocean circulation; and we will learn about waves, tides and tsunamis, the carbon cycle and how the ocean influences the Earth's climate system. In addition to providing a good introduction to aspects of the scientific world, it is a foundational course for Environmental Studies, Geography and BA/MA Earth Science Education majors.

prereq: Prerequisite: Math Proficient and Reading Proficient/Non degree students
3 hrs
3 cr.
Offered fall and spring
and

at least one course (minimum of 3 credits) selected from

PGEOG 25000 - Earth System Science I

GER
3/B

In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

prereq: at least one 100-level science course or perm instr.
prereq or coreq: GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.
4 hrs
3.5 cr.

PGEOG 25100 - Earth System Science II

GER
3/B

The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate system.

prereq: PGEO 25000 or perm instr.
4 hrs
3.5 cr.
GEOG 22600 - Environmental Conservation: Resource Management

GER
2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

3 hrs
3 cr.

GEOL 28000 - Marine Geology

GER
3/B

Marine Geology is the study of the seafloor. This course attempts to answer the questions “what?”, “where?”, “when?” and more importantly “how?” in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.

prereq: GEOL 10200 or perm instr.
3 hrs
3 cr.
Fall

GTECH 20100 - Introduction to Geographic Information Science

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15

prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or equiv or perm instr.
6 hrs (2 lec, 4 lab)
4 cr.
Offered fall and spring

and

• at least one course (minimum of 3 credits) from the 300-level approved electives listed in the college catalog under either the environmental studies program’s Concentration A Environmental Earth Science Concentration or Concentration B Environmental Management and Policy Concentration).

Minor in Geology

A minor in geology consists of 12 credits selected from GEOL prefix courses

-or-

PGEOG 23100 - Physical Geography II: Principles of Geomorphology

See GEOL 23100
- or -

PGEOG 33400 - Coastal Geomorphology See GEOL 33400

See GEOL 33400
- or -

GTECH 35000 - Field Topographic Surveying

Field use of surveying equipment. Notebook and computer data collection relating to horizontal and vertical location on the landscape, including the use of global positioning systems. Field record-keeping and preliminary analysis of results. Fee for transportation, accommodations and food allowance required.

prereq: GTEC 20100, perm instr.
90 hrs of field/lab work (1 day lab, 10 days field)
3 cr.
Offered summer intersession (check with dept. in April).
Prerequisites may apply. It is recommended that prospective geology minors consult with an undergraduate adviser from the Department of Geography.

Additional Information

If after taking a number of geology courses at Hunter, a student wishes to concentrate in geology, it is recommended that the student transfer to a unit of CUNY offering a geology major or take courses on permit at other CUNY units as elective credits.

Preparation for Graduate Work in Teaching Earth Science

For students planning to pursue an MA degree for teachers of earth science, grades 7-12, it is recommended that they complete the following undergraduate work: a baccalaureate degree with a grade point average of 2.8 or better in their science courses and in their overall undergraduate work; a major of at least 30 credits in arts and sciences.

At least 21 credits in

- geology,
- physical geography,
- earth science or environmental science, including geographic techniques;
- general education core in the liberal arts and sciences that includes
  - 6 credits in English,
  - 6 credits in mathematics/technology,
  - 6 credits in social studies (to include at least one course in U.S. history or geography),
  - 6 credits in the arts and
  - 6 credits in a language other than English.

It is recommended, but not required, that the criteria above be satisfied using

- electives selected from GEOL, PGEOG and GTECH courses;
- a minor in geology;
- GER core requirement laboratory science chosen from
chemistry, physics or biology and
- GER core requirement non-laboratory science chosen from
  astronomy, oceanography, statistics or mathematics.

For further information on the education requirements, students should see an adviser in the School of Education.

Honors Work and Individual Study

To graduate with departmental honors, a major in the geography or environmental studies program must be admitted to

**GEOG 49000 - Honors in Geography**

Upper Jr/Sr geography majors only. Individual research to be carried on under faculty guidance. Results must be embodied in an honors essay or equivalent.

*prereq: perm dept.*
*1 sem*
*3 cr.*

**PGEOG 49000 - Honors in Environmental Studies**

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

*prereq: perm dept.*
- and have a 3.0 cumulative GPA and a 3.5 GPA in the major.

The following courses

also offer students the opportunity of undertaking individual research in geography, geology or environmental studies.

**GEOG 39100 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sem of geography, perm dept.*
*1-3 cr*

**GEOG 39200 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sem of geography, perm dept.*
*1-3 cr*

**GEOG 39300 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sem of geography, perm dept.*
*1-3 cr*
GEOL 39100 - Individual Study in Geology

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: 2 sems of geology, perm dept.
1-3 cr.

GEOL 39200 - Individual Study in Geology

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: 2 sems of geology, perm dept.
1-3 cr.

GEOL 39300 - Individual Study in Geology

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: 2 sems of geology, perm dept.
1-3 cr.

PGEOG 39100 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: GEOL 10500, GEOG 22600 or PGEOG 13000
1-3 cr.

PGEOG 39200 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: GEOL 10500, GEOG 22600 or PGEOG 13000, perm instr.
1-3 cr.

PGEOG 39300 - Individual Study in Environmental Studies

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

prereq: GEOL 10500, GEOG 22600 or PGEOG 13000; perm instr.
1-3 cr.

Fieldwork

Several courses offer students an opportunity to study geography, geology and environmental situations in the field. They are usually offered during intersession periods, summer session or on weekends (consult Schedule of Classes). In addition to the regular field courses, special-topic field courses are offered periodically and fieldwork is conducted in connection with a number of the other courses. The department participates in the Study Abroad Program. It offers a field geography of selected world regions course (check with adviser for current location). An additional fee for transportation, lodging and food allowance is attached to these courses, depending on the focus of the course and its itinerary.

Graduate Study
Graduate-level courses may be taken for credit toward the bachelor’s degree by highly qualified seniors. Written permission must be obtained from the undergraduate and graduate advisers.

**Intern Program**

Internship provides opportunities for qualified majors and minors in both geography and environmental studies to work in positions of responsibility in professional institutions while earning from 1 to 4 academic credits. See a departmental adviser for details.

**GEOG 49800 - Internship**

Open to qualified geography majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See undergraduate adviser.

1-4 cr.

**PGEOG 49800 - Internship in Environmental Studies**

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

1-4 cr.

**Film - BA**

**Foundational Courses**

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

**FILM 10100 - Introduction to Cinema**

- **Hunter Core**
  - Creative Expression (CE)
  - Pluralism and Diversity
- **PD/D**
- **GER**
- **2/D**

Fundamental concepts of film and discussion of major critical systems. Screening of relevant films.

3 hrs

3 cr.

**FILMP 16000 - Media & Film in a Digital Age II**

The second part of a two-semester sequence that introduces students to the theoretical and practical fundamentals of film, video, and digital media production.
**MEDP 16000 - Media and Film in a Digital Age Pt. 2**

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

*cross-listed FILMP 16000*

*prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)*

4 hrs  
3 cr.

**Hunter Core Requirement**

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

In the case of the Film major, the course that meets CCC is:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core</th>
<th>Foundational or Major</th>
</tr>
</thead>
<tbody>
<tr>
<td>FILM 10100</td>
<td>Creative Expression</td>
<td>Foundational</td>
</tr>
</tbody>
</table>

**BA in Film**

Credits required for the major 30-36

Foundational Courses (for students without background in the field)  

| Major in Film | 30 |

- Analytic Course Requirements (12)  
- Production Course Requirements (12)  
- Electives (6)

Total for students without background in field  

36

**Major in Film (30 cr)**
30 credits, combined total: 12 credits analytical, 12 credits production and 6 credits electives from analytical and/or production courses.

Students must receive a grade of B or better in FILM 10100 to declare a major in film. The major must be declared in person with an undergraduate film adviser (call (212) 772-4949 to schedule). The student must bring his or her transcript, and, where relevant, transcripts from other colleges attended, when meeting with the undergraduate film adviser to declare a film major. Students majoring in film must also take FILMP 16000/MEDP 16000 which is prerequisite for all film production courses. FILM 10100 and FILMP 16000/MEDP 16000 do not count towards the major. A maximum of 6 credits in MEDIA courses at the 200 or 300 level may be applied toward the major in film. Students must meet any prerequisites for these courses. Courses at the 100 level, independent study, and internship courses do not count toward the major. Students must see a program adviser to plan choice and sequence of courses.

I Analytical Course Requirements (12 cr)

A) Film Style and Close Analysis (6 cr)

**FILM 20100 - Practical Film Analysis**

**GER**

3/A

Close case study of a selected motion picture.

*prereq: FILM 10100*

3 hrs

3 cr.

plus 3 credits from one of the following courses:

**FILM 22400 - Cinematic Space**

**GER**

3/A

Study of the theories and uses of cinematic space, film design, and the relationship between art direction and film narrative.

*prereq: FILM 10100, 20100*

4 hrs

3 cr.

**FILM 23100 - Studies of Selected Directors**

**Pluralism and Diversity**

GER 3/A

Study of aesthetic and cultural implications of authorship as developed and practiced in cinema. May be repeated for credit with a different topic.

*prereq: FILM 10100, 20100*

4 hrs

3 cr.

**FILM 32300 - Film Technology and Aesthetic Theory**
Study of the relationship between film technology and film theory. May be repeated for credit with a different topic. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

**FILM 32351 - Aesthetics of Film Sound**

GER 3/A

Examination of the history, theory and aesthetics of the relationship between film sound and image. Except as otherwise noted, ENGL 12000 is prerequisite for all 30000- and 40000-level courses in FILM.

**FILM 33300 - Styles and Theories of Film Acting**

GER 3/A

Study of film acting with regard to theoretical structures and aesthetic practice. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

B) Film History (6 cr):

**FILM 21100 - Film History I: 1895-1942**

Pluralism and Diversity

PD/D

GER 3/A

Survey of film history and theory from the silent era to 1942.

**FILM 21200 - Film History II: Since 1942**

Pluralism and Diversity

PD/D

GER 3/A
Survey of film history and theory from 1942 to the present.

*prereq: FILM 10100

4 hrs

3 cr.

If students choose to take only FLM 21100 or only FLM 21200, they must also choose from the following:

**FILM 21300 - National Cinema**

**Pluralism and Diversity**

PD/D or A

**GER**

3/A

Study of the cultural background, theoretical underpinnings, and artistic practices of a selected national cinema. May be repeated for credit with a different topic.

*prereq: FILM 10100

4 hrs

3 cr.

**FILM 23000 - Movies in American Culture**

**GER**

3/A

Cultural processes that affect the production and reception of movies in the U.S. Interrelationships among the stylistic, thematic, technical, industrial and regulatory aspects of American moviemaking.

*prereq: FILM 10100, 21100 or FILM 21200

3 hrs

3 cr.

**FILM 34400 - History of Cinematography**

**GER**

3/A

Survey class addressing key developments in the history and aesthetics of cinematography.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

*prereq: FILM 10100, 20100, 21100 or 21200

4 hrs

3 cr.

**FILM 39700 - Topics in Film History**

**Pluralism and Diversity**

PD/D

**GER**

3/A
A focused examination of specific issues and moments in film history. May be repeated for credit under a different topic.  
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.  

prereq: FILM 10100, 20100, 21100 or 21200  
4 hrs  
3 cr.  

II Production Course Requirements (12 cr):  

A) Required Production Sequence (9 cr):  

FILMP 25100 - Film Production I  
Introduction to the fundamentals of filmmaking, writing, cinematography and editing.  
Material Fee: $20  
prereq: MEDP/FLMP 16000; open to majors only or perm instr.  
4 hrs  
3 cr.  

FILMP 27600 - Screen Writing I - The Short (W)  
The Short Fundamentals of writing for film; critiques of original student scripts.  
prereq: FILM 10100 and ENGL 12000; open to film/media majors only or perm instr.  
4 hrs  
3 cr.  

FILMP 35200 - Film Production II  
Further development of fundamental filmmaking skills: pre-production, directing, and syncsound production techniques.  
Material Fee: $20  
prereq: FILMP 25100, FILMP 27600 open to film/media majors only or perm instr.  
prereq or coreq: Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.  
4 hrs  
3 cr.  

B) Advanced Production Cluster (3 cr):  

FILMP 37100 - Screen Directing I  
Theory and practice of the film director's role as guiding force in creation of visual and aural images.  
Except as otherwise noted, ENGL 120 is prerequisite for all 300- and 400-level courses in FILM.  
prereq: FILMP 251, FILMP 276; open to film/media majors only or perm instr.  
4 hrs  
3 cr.  

FILMP 37700 - Screen Writing II The Feature (W)  
Continuation of workshop experience with emphasis on full-length screenplay.  
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
III Elective Course Requirements (6 cr):

From analytical and/or production electives: At least one elective must be a 300 level or above course.

A) Analytical Electives:

**FILM 21400 - Multicultural Perspectives in Cinema**

*Pluralism and Diversity*
*GER*

3/A

Study of the contributions of minority groups to filmmaking, including examination of how those contributions have countered stereotypical representations of racial, national, and cultural identity in mainstream cinema. May be repeated for credit with a different topic.

*prereq: FILM 10100*

4 hrs

3 cr.

**FILM 21500 - Women and Film**

*Pluralism and Diversity*
*GER*

3/A

Films by women directors and the ways women's films counter the dominant patriarchal view of women reflected in commercial cinema.

*prereq: FILM 10100*

4 hrs

3 cr.

**FILM 22200 - Topics in Genre Studies**

*GER*

3/A

Critical study of generic categories such as the western, horror, comedy, film noir, melodrama, or the musical. May be repeated for credit with a different topic.

*prereq: FILM 10100*

4 hrs

3 cr.

**FILM 22252 - Topics in Genre Studies: “The Woman’s Film” of the 1940s**
This course focuses on “the woman's film”, from the forties. Discussion of the woman's film, an umbrella term for a series of genres (melodrama, gothic film, comedies) in which the woman is the main protagonist as well as the intended spectator. 

cross-listed WGSA 222.52 
prereq: FILM 10100 
4 hrs 
3 cr.

**FILM 23200 - Experimental Film and Video**

Historical examination of pertinent films and videos with particular emphasis on current American productions. 

prereq: FILM 20100 or MEDP/FILMP 15000 (or MED/FILM 15100). 
4 hrs 
3 cr.

**FILM 29900 - Special Topics in Film**

Not offered at all times. A specific topic will be listed in Schedule of Classes for a given semester. 

prereq: perm dept. 
1-3 hrs 
1-3 cr.

**FILM 32200 - Contemporary Film Theory**

Survey of current film theory and criticism, including developments in film semiotics, psychoanalytic film theory, feminist film theory, narrative theory, historiography and reception theory. 

Except as otherwise noted, ENGL 12000 is pre requisite for all 30000- and 40000-level courses in FILM. 

prereq: FILM 10100, 21100 or 21200 
4 hrs 
3 cr.

**FILM 32400 - Narrative Strategies**
GER
3/A

Study of narrative techniques in cinema
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100 and 20100 or 23100
4 hrs
3 cr.

FILM 32600 - America in American Film and Video

GER
3/A

Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100, 21100 or 21200
3 hrs
3 cr.

FILM 32700 - Representations of Race and Ethnicity in U.S. Media

Pluralism and Diversity
PD/B
GER
3/A

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism, and other forms of American popular culture. May be repeated for credit with different topic.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100
4 hrs
3 cr.

FILM 32800 - Images of Resistance in the Developing World

Pluralism and Diversity
PD/A
GER
3/A

Focuses on challenges by developing world films and filmmakers to Western media stereotypes.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100
4 hrs
3 cr.

FILM 33200 - Myths and Images in the Media
GER
3/A

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100
3 hrs
3 cr.

FILM 33400 - Theatricality and the Presentation of Self

GER
3/A

Examination of the problems of authenticity in the performing self through analysis of representations in film, TV and the everyday. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100, FILM 21100 or 21200
4 hrs
3 cr.

FILM 39100 - Problems in Film Research

GER
3/A

Study of basic methods of solving problems in the field of cinema studies. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100, 20100, 21100 or 21200
3 hrs
3 cr.

FILM 39900 - Studies in Film

GER
3/A

Not offered at all times. Specialized topics for majors will be listed in Schedule of Classes for a given semester. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: variable
3 hrs
3 cr.

FILM 40100 - Independent Research

Open to majors only. Directed program of reading, research, or creative presentation, arranged on an individual basis. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: perm chair
1-3 cr.

FILM 40200 - Honors Project
Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM. 

FILM 49900 - Advanced Seminar

Selected topics in cinema studies. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: perm instr.

4 hrs
3 cr.

B) Film Production Electives:

A second course from the advanced production cluster may be taken as an elective course

FILMP 37100 - Screen Directing I

Theory and practice of the film director's role as guiding force in creation of visual and aural images. Except as otherwise noted, ENGL 120 is pre requisite for all 300- and 400-level courses in FILM.

prereq: FILMP 251, FILMP 276; open to film/media majors only or perm instr.

4 hrs
3 cr.

FILMP 37700 - Screen Writing II The Feature (W)

Continuation of workshop experience with emphasis on full-length screenplay. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILMP 27600

4 hrs
3 cr.

FILMP 31100 - Directing Documentary Video Production

Exploration of the aesthetics of documentary form that provides students with an in-depth and hands-on understanding of preproduction and production of documentary video. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: MEDP 28100; open to film/media majors only or perm instr.

4 hrs
3 cr.

or

FILMP 28600 - Location Sound

Basic sound theory and production sound recording techniques, concentrating on microphones, field mixers and recording equipment, boom operation and on-set procedures.
cross-listed MEDP 28600
prereq: FILMP 25100 or MEDP 28100
3 hrs
3 cr.

FILMP 34100 - Producing the Film

Contracts, financing, distribution, copyright law, options, acquisition of rights, securities law requirements. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 25100, FILMP 27600
3 hrs
3 cr.

FILMP 37200 - Screen Directing II

Continuation of FILMP 37100. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 37100 or permission of instructor
4 hrs
3 cr.

FILMP 38100 - Techniques of Cinematography

Advanced cinematographic techniques such as sensitometry, effects lighting and special effects. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 35200 or permission of instructor
4 hrs
3 cr.

FILMP 38200 - Narrative Editing

Narrative editing concepts, theories and techniques. Editing exercises explore the aesthetic and practical components of the craft and introduce advanced digital editing tools.
prereq: FILMP 25100
4 hrs
3 cr.

FILMP 38300 - Sound Design

Aesthetics of sound design with practical instruction in audio post-production technology. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 25100 or MEDLAP 28100 or perm. instr.
3 hrs
3 cr.

FILMP 38400 - Film and Video Production

Production of short films with each student assigned to specific crew positions. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILMP 35200, and permission of instructor.
variable hrs
3 cr.

FILMP 39900 - Special Topics in Advanced Film Practice

Offered periodically with the specific topic listed in the schedule of classes.
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: perm instr.
4 hrs
3 cr.

FILMP 45100 - Film and Video Production Seminar

Individual student films produced under faculty supervision.
Material Fee: $20 May be taken twice for credit.
cross-listed MEDP 45100
prereq: FILMP 35200 and perm instr.
prereq or coreq: Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
3 hrs
3 cr.

FILMP 49800 - Internship

Opportunity to gain professional experience
40 working per. Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.
prereq: FILM 10100, two other film courses or equiv; perm dept and host institution
1-6 cr, 40 working hrs per cr.

Minor in Film

Students who wish to minor in film must complete a total of 15 credits in addition to FILM 10100 which does not count towards the minor and is a prerequisite for all FILM courses.

Required courses

FILM 21100 - Film History I: 1895-1942

Pluralism and Diversity
PD/D
GER
3/A

Survey of film history and theory from the silent era to 1942.
prereq: FILM 10100
4 hrs
3 cr.

-or-

FILM 21200 - Film History II: Since 1942
**Pluralism and Diversity**

PD/D  
GER  
3/A

Survey of film history and theory from 1942 to the present.  
*prereq: FILM 10100*  
4 hrs  
3 cr.

and two 200-level courses, and two 300-level courses.

No film production classes (designated FILMP) are available to minors with the exception of

**FILMP 27600 - Screen Writing I - The Short (W)**

The Short Fundamentals of writing for film; critiques of original student scripts.  
*prereq: FILM 10100 and ENGL 12000; open to film/media majors only or perm instr.*  
4 hrs  
3 cr.

**FILMP 37700 - Screen Writing II The Feature (W)**

Continuation of workshop experience with emphasis on full-length screenplay.  
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.  
*prereq: FILMP 27600*  
4 hrs  
3 cr.

**Honors**

To qualify for departmental honors in Film or Media Studies, a student must have a 3.5 grade point average in major courses and a 3.0 grade point average overall. The student must also either complete an Honors Project, approved by the Department Policy and Curriculum Committee, with a grade of A; or a 400-level production or analytical seminar course with a grade of A. See the department for more information.

**FILM 40200 - Honors Project**

Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision.  
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.  
*prereq: 3 advanced-level courses, 3.0 GPA and 3.5 major GPA perm dept.*  
3 hrs  
3 cr.

**MEDIA 40200 - Honors Project**

Open to Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision. Successful completion qualifies student for departmental honors at graduation.  
*prereq: 3 advanced-level courses; 3.0 GPA and 3.5 major GPA; perm dept.*  
3 hrs  
3 cr.
French - BA

Major

The French major provides two concentrations:

a. French Literature (30 cr)

b. French Language and Civilization

Preparation for Teaching French, Spanish or Italian Adolescent Education (grades 7-12)

Students pursuing adolescent education must complete the 30 or 36 credit major in one of these languages and, in addition, complete the course in second language acquisition (3 cr). The 23-credit pedagogical sequence in adolescent education will serve as the minor. See the Section XII: School of Education section of the catalog for further information.

Study Abroad

All study abroad programs are open to students from Hunter College and other accredited institutions. Majors and minors in the Department of Romance Languages are strongly encouraged to participate in study abroad programs (see adviser for GPA requirements).

Qualified students can apply for financial aid and STOCS grants.

The New York/Paris Exchange Program is open to students who wish to study a semester or a year at a French university in Paris. For the requirements and more details, contact Professor J. Przybos at (212) 772-5097. French in France is offered during June, July and August at Pau and Bayonne.

Minor in French (15 credits)

a. French Literature and Culture

This course of study provides the opportunity to deepen the knowledge of French language beyond the basic language sequence and to introduce students to French Culture transhistorically, in ways that could usefully complement a major in another field in the humanities, where a broad knowledge of French history or culture could be useful (for instance in the Arts).

The prerequisite for this minor consists either of

**FREN 20200 - Intermediate French II**

Language lab mandatory.
There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

*prereq: FREN 2000 or three yrs high school French*
For the minor, 3 language courses to be chosen from

**FREN 21100 - Intermediate Grammar and Composition**

Continued study of grammar and syntax, with focus on reading and writing. Intended for French majors and minors.

_prereq: FREN 202, 203, or placement by departmental adviser_

3 hrs

3 cr.

**FREN 22000 - Advanced French Conversation**

_prereq: FREN 20200 or four yrs high school French_

3 cr.

and 2 Culture and Civilization courses to be chosen from

**FREN 33500 - French Culture I**

**Pluralism and Diversity**

PD/D

Main intellectual and artistic currents from the Gauls to the French Revolution. Conducted in French.
prereq: FREN 20200 or four yrs high school French
3 hrs
3 cr.

FREN 33600 - French Culture II

Pluralism and Diversity
PD/D
Main intellectual and artistic currents from the French Revolution to 1958. Conducted in French.
prereq: FREN 20200 or four years of high school French
3 hrs
3 cr.

FREN 33700 - Contemporary French Culture

Contemporary French civilization and culture from 1958 to the present, as seen in its press. World events observed through the lens of French culture and politics. Comparison of current events coverage by French and U.S. Press.
prereq: FREN 31100 or 31200 or perm instr.
3 hrs
3 cr.

b. French Literature

This course of study provides the opportunity to deepen the knowledge of French language beyond the basic language sequence through the analysis of French Literature. Among undergraduates potentially interested in this track are our native-speakers, or students with a francophone background, whose majors are in another, non-related, discipline.

The prerequisite for this minor consists of

FREN 21100 - Intermediate Grammar and Composition

Continued study of grammar and syntax, with focus on reading and writing. Intended for French majors and minors.

prereq: FREN 202, 203, or placement by departmental adviser
3 hrs
3 cr.

For the minor, students must first complete

FREN 34100 - Survey of French Literature from the Middle Ages to the End of the 17th Century

Pluralism and Diversity
PD/D
GER
3/A

prereq: FREN 20200 or four yrs high school French
FREN 34200 - Survey of French Literature from the 18th Century to the Modern Period

Pluralism and Diversity
PD/D
GER
3/A

prereq: FREN 20200 or four yrs high school French
3 hrs
3 cr.

and then choose 3 courses from the following:

FREN 34300 - Medieval and Renaissance French Literature

Pluralism and Diversity
PD/D
GER
3/A

From medieval epics, lyrical poetry and mystery plays to writers such as See, Du Bellay, Ronsard, Rabelais and Montaigne.

FREN 34100 and 34200 are prerequisite to all courses numbered 34300 and above.
3 hrs
3 cr.

FREN 34400 - 17th Century French Literature

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Boileau, Bossuet, Corneille, Cyrano de Bergerac, La Bruye, Mme de Lafayette, La Fontaine, Malherbe, Molire, Pascal, Racine, Mme de Sign Saint Simon.

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 34600 - 18th Century French Literature

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Beaumarchais, Buffon, Ch'nier, the Encyclopedists, Diderot, Laclos, Marivaux, Montesquieu, Provost,
Rousseau, Sade, Voltaire.

Prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 34800 - 19th Century French Literature (1800-1850)

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Balzac, Chateaubriand, Constant, Gautier, Hugo, Lamartine, Musset, Sand, Mme de Sta, Stendhal, Vigny.
FREN 34100 and 34200
3 hrs
3 cr.

FREN 34900 - 19th Century French Literature (1850-1900)

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Barbey durevilly, Barr's, Baudelaire, Daudet, Flaubert, France, Huysmans, Leconte de Lisle, Mallarm, Maupassant, Renan, Rimbaud, Sainte-Beuve, Taine, Verlaine, Villiers de Isle-Adam, Zola.
Prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 35000 - 20th Century French Literature (1900-1950)

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Apollinaire, Beauvoir, Breton, Claudel, Cocteau, Colette, Gide, Giraudoux, Malraux, Mauriac, Pgui, Proust, Sartre.
Prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 35100 - Contemporary French Literature (1950-present)

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Beckett, Bon, Butor, Camus, Duras, Echenoz, Ernaux, Kolt's, NDiaye, Perec, Redonnet, Robbe-Grillet,
Sarraute.
*prereq:* FREN 34100 and 34200
3 hrs
3 cr.

**FREN 36000 - French Literature: Special Topics**

*Pluralism and Diversity*

Pluralism and Diversity
PD/D
GER
3/A

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 36500 - The 20th Century: Special Topics

Pluralism and Diversity
GER 3/A PD/D
Topics to be offered may include single authors, themes, genres, movements, or approaches.
prereq: FREN 34100 and 34200
3 hrs
3 cr.

c. French Culture and Literature in Translation

This course of study provides the opportunity to students with no knowledge of the French language to be introduced to French Culture & Literature. This minor offers an interesting complement or context to studies in other fields (such as history, philosophy, political theory or women’s studies) that have benefited, historically, from French influences.

The courses in this minor are to be chosen from a selection of 200-level courses, taught in English, such as

FREN 24100 - Early French Civilization: From Gothic to Revolution

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/C

Conducted in English; readings in English.
3 hrs
3 cr.

FREN 24200 - Modern French Civilization: From Revolution to Present

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/C

Conducted in English; readings in English.
There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100,
20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

3 hrs
3 cr.

FREN 25100 - French Literature and the Arts

Pluralism and Diversity
PD/D
Conducted in English; readings in English and French. Particular attention to theme, image and structure as they may be compared in literary and artistic works.
3 hrs
3 cr.

FREN 25200 - From Symbolism to Surrealism in French Literature

GER
3/A
Conducted in English; readings in English. Impressionist, symbolist, cubist, Dada and surrealist movements in literature and art from the late 19th to 20th century.
3 hrs
3 cr.

FREN 25300 - Modern French Theatre: Theory and Practice

Pluralism and Diversity
PD/D
GER
3/A
4 hrs
3 cr.

FREN 25400 - Film and the French Novel

Pluralism and Diversity
PD/D
GER
3/A
Conducted in English. Truffaut, Godard, Resnais, Robbe-Grillet and others.
4 hrs
3 cr.

FREN 25500 - New Approaches to Modern French Literature

GER
3/A
Conducted in English; readings in French and English. Investigation of various currents of 20th century literary and aesthetic criticism as practiced in France.

3 hrs
3 cr.

**FREN 25600 - Dream and Image (W)**

GER
3/A

Conducted in English. Analysis of literary representations of dreams. Exploration of the relationship between word and image in French Literature. Such authors as Flaubert, Maupassant, Nerval and Proust.

3 hrs
3 cr.

**FREN 25700 - Literary Cross-Currents**

Conducted in English. Topics: Interaction of French and Russian literature, of French and American literature; the myth of Germany in French literature; Shakespeare in France; Dante and French literature.

Pluralism and Diversity
PD/C or D
GER
3/A

The representation of women in literary texts from the Middle Ages to the present. Conducted in English. Readings in English translation.

3 hrs
3 cr.

Honors

Students qualified to graduate with departmental honors must take an honors course or equivalent approved by the departmental advisers. Departmental honors will be conferred upon a recommendation from the appropriate departmental committee. Candidates must present a paper of at least 7,000 typewritten words in the language of specialization. Consult the department for further information.

Graduate Study

Qualified seniors with a minimum GPA of 3.5 in their discipline may be admitted to graduate level courses. Permission must be secured from the chair and then forwarded to the dean. Consult the graduate catalog for requirements and regulations.

French Language and Civilization

Return to: French - BA

A concentration in French language as well as in French and Francophone literature, culture and civilization. 12 credits from the language sequence (Group A); 0-9 credits from Group B (offered in English); and 9-18 credits from Group C (offered in French).

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

FREN 10100 - Elementary French I

Hunter Core
World Culture and Global Issues (WCGI)
Language lab mandatory.

There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100,
20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four
and a course for students who use French as a heritage language. FREN 10100 usually not credited without FREN
10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.
3 hrs
3 cr.

3/A

Readings, discussion and reports.
prereq: FREN 34100 and 34200; five courses in French major
3 hrs
3 cr.

**FREN 49100 - Honors Course in French**

**Pluralism and Diversity**

PD/D
Open to Jr/Sr only. Research in history of French literature.
prereq: FREN 34400, 34600, 34800; major GPA 3.2, cum GPA 2.8; perm adviser
3 hrs
3 cr.

**FREN 49500 - Independent Study in French Literature**

prereq: perm adviser
1-3 cr.

**Additional Information**

Within the Language and Civilization concentration, students may choose either FREN 24100 or FREN 33500 (but not both) and either FREN 24200 or FREN 33600 (but not both) to count towards the major.

**French Literature (30 cr)**

Return to: French - BA

A concentration in French literature that emphasizes the study of literary works and criticism.

**Foundational Courses**

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

**FREN 10100 - Elementary French I**
**Hunter Core**
World Culture and Global Issues (WCGI)
Language lab mandatory.

There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language. FREN 10100 usually not credited without FREN 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.

3 hrs
3 cr.

**FREN 10200 - Elementary French II**

Language lab mandatory.

There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

*prereq: FREN 101 or one yr high school French.*

3 hrs
3 cr.

**FREN 20100 - Intermediate French I**

Language lab mandatory.

There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

*prereq: FREN 10200 or two yrs high school French*

3 hrs
3 cr.

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

Major - 30 credits

3 credits from

FREN 31100 - Advanced French Grammar

prereq: FREN 20200
3 hrs
3 cr.

FREN 31200 - French Oral and Written Expression

prereq: FREN 20200 or equiv.
3 hrs
3 cr.

FREN 32100 - French Translation

prereq: FREN 20200 or equiv.
3 hrs
3 cr.

6 credits in

FREN 34100 - Survey of French Literature from the Middle Ages to the End of the 17th Century

Pluralism and Diversity
PD/D
GER
3/A

prereq: FREN 20200 or four yrs high school French
FREN 34200 - Survey of French Literature from the 18th Century to the Modern Period

Pluralism and Diversity
PD/D
GER
3/A

prereq: FREN 20200 or four yrs high school French
3 hrs
3 cr.

21 credits from

FREN 33500 - French Culture I

Pluralism and Diversity
PD/D
Main intellectual and artistic currents from the Gauls to the French Revolution. Conducted in French.
prereq: FREN 20200 or four yrs high school French
3 hrs
3 cr.

FREN 33600 - French Culture II

Pluralism and Diversity
PD/D
Main intellectual and artistic currents from the French Revolution to 1958. Conducted in French.
prereq: FREN 20200 or four years of high school French
3 hrs
3 cr.

FREN 33700 - Contemporary French Culture

Contemporary French civilization and culture from 1958 to the present, as seen in its press. World events observed through the lens of French culture and politics. Comparison of current events coverage by French and U.S. Press.
prereq: FREN 31100 or 31200 or perm instr.
3 hrs
3 cr.

FREN 34300 - Medieval and Renaissance French Literature

Pluralism and Diversity
PD/D
GER
3/A
From medieval epics, lyrical poetry and mystery plays to writers such as Sce, Du Bellay, Ronsard, Rabelais and Montaigne.

FREN 34100 and 34200 are prerequisite to all courses numbered 34300 and above.

3 hrs
3 cr.

FREN 34400 - 17th Century French Literature

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Boileau, Bossuet, Corneille, Cyrano de Bergerac, La Bruye, Mme de Lafayette, La Fontaine, Malherbe, Molire, Pascal, Racine, Mme de Sign Saint Simon.

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 34600 - 18th Century French Literature

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Beaumarchais, Buffon, Ch'nier, the Encyclopedists, Diderot, Laclos, Marivaux, Montesquieu, Provost, Rousseau, Sade, Voltaire.

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 34800 - 19th Century French Literature (1800-1850)

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Balzac, Chateaubriand, Constant, Gautier, Hugo, Lamartine, Musset, Sand, Mme de Sta, Stendhal, Vigny.
FREN 34100 and 34200
3 hrs
3 cr.

FREN 34900 - 19th Century French Literature (1850-1900)

Pluralism and Diversity
PD/D
GER
3/A
Such authors as Barbey durevilly, Barr's, Baudelaire, Daudet, Flaubert, France, Huysmans, Leconte de Lisle, Mallarm, Maupassant, Renan, Rimbaud, Sainte-Beuve, Taine, Verlaine, Villiers de l'Isle-Adam, Zola.

_prereq: FREN 34100 and 34200_

3 hrs

3 cr.

**FREN 35000 - 20th Century French Literature (1900-1950)**

Pluralism and Diversity

PD/D

GER

3/A

Such authors as Apollinaire, Beauvoir, Breton, Claudel, Cocteau, Colette, Gide, Giraudoux, Malraux, Mauriac, Puy, Proust, Sartre.

_prereq: FREN 34100 and 34200_

3 hrs

3 cr.

**FREN 35100 - Contemporary French Literature (1950-present)**

Pluralism and Diversity

PD/D

GER

3/A

Such authors as Beckett, Bon, Butor, Camus, Duras, Echenoz, Ernaux, Kolt's, NDiaye, Perek, Redonnet, Robbe-Grillet, Sarraute.

_prereq: FREN 34100 and 34200_

3 hrs

3 cr.

**FREN 35300 - Survey of Francophone Literature**

GER

3/A

A study of literature produced in French-speaking regions and nations (other than France) such as North and West Africa, the Caribbean, Vietnam and Quebec.

_prereq: FREN 34100 and 34200_

3 hrs

3 cr.

**FREN 36000 - French Literature: Special Topics**

Pluralism and Diversity

PD/D

GER

3/A

_prereq: FREN 34100 and 34200_
FREN 36100 - Middle Ages and the Renaissance: Special Topics

Pluralism and Diversity
PD/D
GER
3/A

*prereq: FREN 34100 and 34200*

FREN 36300 - The 18th Century: Special Topics

Pluralism and Diversity
PD/D
GER
3/A

*prereq: FREN 34100 and 34200*

FREN 36500 - The 20th Century: Special Topics

Pluralism and Diversity
GER 3/A PD/D
Topics to be offered may include single authors, themes, genres, movements, or approaches.

*prereq: FREN 34100 and 34200*

FREN 37500 - Seminar in French Literary History

Pluralism and Diversity
PD/D
GER
3/A

Readings, discussion and reports.

*prereq: FREN 34100 and 34200; five courses in French major*

FREN 49100 - Honors Course in French

Pluralism and Diversity
PD/D
Open to Jr/Sr only. Research in history of French literature.
prereq: FREN 34400, 34600, 34800; major GPA 3.2, cum GPA 2.8; perm adviser
3 hrs
3 cr.

FREN 49500 - Independent Study in French Literature

prereq: perm adviser
1-3 cr.

Students planning to teach in grades 7-12 must also complete 3 credits in Second Language Acquisition:

FREN 39900 - Second Language Acquisition

prereq: at least three courses at the 300 level in the language; ENGL 12000
3 hrs
3 cr.

-or-

FREN 49500 - Independent Study in French Literature

prereq: perm adviser
1-3 cr.

-or-

SEDC 21200 - Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12

The nature of language, and language acquisition/learning, and the inherent implications for teaching a foreign/heritage language at the secondary level. The foreign language standards and the English language arts standards are reviewed as they impact on curriculum design for foreign/heritage language learners.

prereq or coreq: SEDF 20300, 20400
3 hrs
3 cr.

• SEDC 712 (see graduate catalog)

Geography - BA

The major in Geography is designed to prepare students to understand and respond to our world's changing social and natural environments. The major consists of 43-45 credits—a 13-15 credit Common Core that includes a capstone project, and 30 credits in one of four tracks: Urban and Social Geography, Physical and Environmental Geography, Geographic Information Science, and Sustainability Studies. Students interested in temporary certification as a Social Studies-Childhood Education teacher should complete Track A: Urban and Social Geography and must apply for the QUEST Program through the School of Education before completing a total of 45 undergraduate credits.

To declare as a geography major, students must complete one of the following three courses (which are included in the major): GEOG 10100 or GEOG 15000 or GEOL 10500. Completion of ENGL 12000 prior to declaring as a major is also strongly recommended since several advanced courses have ENGL 120 as a prerequisite. Students interested in the
Geographic Information Science track are strongly encouraged to take STAT 11300 or STAT 21300 (STEM) since it is a prerequisite for GTECH 30100.

Note: Courses leading to this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core, Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

**Major in Geography (43-45 cr)**

Students complete the Geography Core (13-15 credits), and select one of the four tracks (30 credits).

**Geography Core 13-15 credits**

**GEOG 10100 - People and Their Environment**

**Hunter Core**
Individial and Society - Social Science
GER
2/B

A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life. Contemporary economic, political and social patterns and problems are discussed.

3 hrs
3 cr.
offered fall and spring.

-or-

**GEOG 15000 - World Regional Geography**

**Pluralism and Diversity**
PD/A or D
GER
2/B

A survey of the world’s major regions. Geographic concepts and principles are used to study the physical, economic, social and political conditions and problems in the culturally diverse world. Spatial expression of culture; specialized behavior patterns; adaptations and way of life in distinct environments. Regional interdependence; implications for development.

*prereq:* ENGL 12000

3 hrs
3 cr.
Offered fall and spring

-or-
GEOL 10500 - Introduction to Environmental Geoscience

Hunter Core
Scientific World (SW)
GER
2/E (Non lab course)

Introduction to environmental geoscience focusing on aspects of global change and the interrelationship of earth systems. Review of the evolution of the earth from its origins to potential future developments; environmental problems and issues.
prereq: ENGL 12000
3 hrs
3 cr.

PGEOG 13000 (STEM) - Weather and Climate

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.
Material Fee: $5
5 hrs (3 lec, 2 lab)
4 cr.
Offered in the Fall and Spring
or both

GEOL 10000 - Introductory to Geology

Hunter Core
Scientific World (SW)
GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.
3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring
and

GEOL 10100 - Introductory Geology Lab
Hunter Core
Life & Physical Sciences
GER
2/E

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.
3 hrs.
3 cr.

GTECH 10100 - Digital Earth

Digital Earth introduces students to the new suite of geospatial technologies and how they are being used to capture, store, process and display the vast amount of geospatial information about our planet, a wide variety of environmental and cultural phenomena, and how this information helps us to better understand natural and cultural characteristics of the world, address world problems, and make sound decisions. Students will learn how satellites take complete photographs of the entire planet, Geographic Information Systems (GIS) display geospatial data, Global Positioning Systems (GPS) track the location of environmental and cultural phenomena, Geovisualization tools map our 3-D planet, and how these technologies are applied to solve problems in diverse fields and phenomena in the physical and social sciences in exciting ways. The knowledge and skills learned in Digital Earth open the door toward a geotechnology-oriented career.
3 hr.
3 cr.

One Approved Capstone course from the following list (3 credits):

GEOG 48000 - Capstone in Urban and Social Geography

Individual or group research project as capstone experience in urban and social geography.

prereq: Senior standing as a geography major, approval of undergraduate adviser, and signed project contract with faculty sponsor.
3 hrs
3 cr.

PGEOG 48000 - Capstone in Physical Geography

Individual or group research project as capstone experience in physical and environmental geography.

prereq: Senior standing as a geography or environmental studies major, approval of undergraduate adviser, and signed project contract with faculty sponsor.
3 hrs
3 cr.

GTECH 48000 - Capstone in Geographic Information Science

Individual or group research project as capstone experience in geographic information science.

prereq: Senior standing, approval of undergraduate adviser, and signed project contract with faculty sponsor.
GEOG 49000 - Honors in Geography

Upper Jr/Sr geography majors only. Individual research to be carried on under faculty guidance. Results must be embodied in an honors essay or equivalent.

prereq: perm dept.
1 sem
3 cr.

PGEOG 49000 - Honors in Environmental Studies

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

prereq: perm dept.

GTECH 49000 - Honors in Geographic Information Science

Open to qualified Track C geography majors.

prereq: Senior standing, a minimum GPA of 3.5 in the major, approval of undergraduate adviser, and signed project contract with faculty sponsor
3 hrs
3 cr.

GEOG 49800 - Internship

Open to qualified geography majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See undergraduate adviser.

1-4 cr.

PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

1-4 cr.

GTECH 49800 - Internship in Geographic Information Science

Open to qualified geography majors and minors. Opportunities for working in positions of responsibility in professional institutions for academic credit.

prereq: Senior standing, approval of undergraduate adviser, and signed project contract with faculty sponsor.
3 hrs
3 cr.

Note: To graduate with departmental honors, students must hold senior status, have a minimum GPA in the major of 3.5, and complete GEOG 49000 or PGEOG 49000 or GTECH 49000 as their capstone course.
Track A: Urban and Social Geography (30 credits)

5 courses from the list below (15 credits)

**GEOG 22100 - Economic Geography and Globalization**

**GER**
2/B

An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history of the development of economic thought, leading up to, and transformed, by today’s crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is capitalistic, and the way this economic structure plays out through different geographies at different historical moments in time.

Not open to freshmen

*prereq: GEOG 10100 or perm instr.*

3 hrs

3 cr.

*Offered fall and spring*

**GEOG 24100 - Population Geography**

**Pluralism and Diversity**
PD/B or C

**GER**
3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the “mechanics” of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

*prereq: GEOG 10100 or GEOG 15000 or perm instr.*

3 hrs

3 cr.

**GEOG 24300 - Urban Geography**

**GER**
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

*prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only*

3 hrs

3 cr.

**GEOG 24400 - Political Geography**
Political geography concerns the nature and consequences of human efforts to divide and control Earth. Major topics to be covered by this course include the origin and evolution of countries and their constituent political units; the defining and drawing of political boundaries; territorial conflicts and disputes; the impact of boundaries on personal and cultural identity; centripetal and centrifugal forces that encourage the success or failure of political units; jurisprudence, crime and punishment; electoral geography; war, piracy and terrorism; ownership of ocean floors and outer space; the environmental impacts of political power (zoning, incorporation, height restrictions, land tenure); and symbols of power in the landscape. Lectures and assignments will stress the relevancy of political geography to issues that affect our everyday life.

prereq: GEOG 10100 or GEOG 15000 or perm instr
3 hrs
3 cr.

GEOG 24700 - Cultural Geography

This course provides an overview of the field of cultural geography. It will cover the basics as well as recent developments in social and cultural geographic theory. The main focus is to understand relationships between cultures and environments through geographical analyses of processes, landscapes, and identities.

effective term 2016
prereq: ENGL 12000, and GEOG 10100 -or- GEOG 15000
3 hrs
3 cr.

GEOG 25000 - Geographic Research Methods

Introduction to geographic theories and research methods, with a focus on social and cultural geographic research. Lectures, hands-on exercises, collaborative projects.

prereq: ENGL 12000 and a 100-level GEOG, P GEOG, GTECH, or GEOL course
3 hrs
3 cr.

GTECH 20100 - Introduction to Geographic Information Science

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15
prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or equiv or perm instr.
6 hrs (2 lec, 4 lab)
4 cr.
Offered fall and spring

2 courses with a GEOG 30600 course number (6 credits)
GEOG 30600 - Special Topics in Contemporary Regional Geographies

Advanced topics in contemporary regional geographies and globalization. Topics will vary. Open to Jr/Sr only.

*prereq:* GEOG 15000 World Regional Geography or instructor permission
3 hrs
3 cr.

3 courses with a GEOG 30500, GEOG 38300, or GTECH 38500 course number (9 credits) with advice and approval of the undergraduate adviser as appropriate to student interests and professional goals

GEOG 30500 - Special Topics in Urban and Regional Dynamics

Advanced topics in urban geography. Topics will vary. Open to Jr/Sr only.

*prereq:* GEOG 24300 Urban Geography or instructor permission
3 hrs
3 cr.

GEOG 38300 - Special Topics in Geography

GER 3/B

Open to Jr/Sr only. Topics to be announced.
*prereq:* GEOG 101, 200-level course of which special topic is logical outgrowth, perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr

GTECH 38500 - GIS Applications

Selected topics in GIS applications to human and physical geographic problems. See department for topics offered. May be repeated for credit as topics change.
Material Fee:$ 15
*prereq:* GTEC 20100 or equiv.
3 hrs
3 cr.

Note: Most GEOG 30600 courses have GEOG 15000 or permission of instructor as a prerequisite. GEOG 30500 courses have GEOG 24300 or permission of instructor as a prerequisite. GTECH 38500 courses have GTECH 20100 as a prerequisite.

Track B: Physical and Environmental Geography (30 credits)

The following 15 credits

PGEOG 21200 - Geography of Soils and Vegetation
PGEOG 25000 - Earth System Science I

In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

prereq: at least one 100-level science course or perm instr.
prereq or coreq: GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.
4 hrs
3.5 cr.

GEOL 23100 - Principles of Geomorphology

Investigates the geologic forces that shape the surface of the Earth. In the laboratory students will learn to analyze features of the landscape and deduce the processes that produced them. Students will use traditional laboratories as well as Google Earth to learn about a variety of surficial processes.

prereq: PGEO 13000 or GEOL 10100
4 hrs (2 lec, 2 lab)
3 cr.

GTECH 20100 - Introduction to Geographic Information Science

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15
prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or equiv or perm instr.
6 hrs (2 lec, 4 lab)
4 cr.
Offered fall and spring

GTECH 20300 - Introduction to Remote Sensing

Introduces remote sensing image interpretation and a basic understanding of the use of remote sensing technology in the study of environmental issues and the monitoring of Earth systems. The first half of the course focuses on aerial photography, photogrammetry and image interpretation. The second half focuses on the use of remote sensing in Earth system sciences. Extensive lab exercises include practical assignments and computer-based analysis of remote sensing images. Students will learn basic image interpretation and some web-based image processing skills through various lab exercises.

Material Fee: $15
prereq: GTECH 20100
Five 300-level courses with a PGEOG, GEOL, and/or GTECH prefix with advice and approval of the undergraduate advisor as appropriate to student interests and professional goals (15 credits)

Track C: Geographic Information Science (30 credits)

The following 9 credits:

**GTECH 20100 - Introduction to Geographic Information Science**

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15  
*prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or equiv or perm instr.*  
*6 hrs (2 lec, 4 lab)*  
*4 cr.*  
*Offered fall and spring*

**GTECH 20300 - Introduction to Remote Sensing**

Introduces remote sensing image interpretation and a basic understanding of the use of remote sensing technology in the study of environmental issues and the monitoring of Earth systems. The first half of the course focuses on aerial photography, photogrammetry and image interpretation. The second half focuses on the use of remote sensing in Earth system sciences. Extensive lab exercises include practical assignments and computer-based analysis of remote sensing images. Students will learn basic image interpretation and some web-based image processing skills through various lab exercises.

Material Fee: $15  
*prereq: GTECH 20100*  
*6 hrs (2 lec, 4 lab)*  
*4 cr.*

**GEOG 25000 - Geographic Research Methods**

Introduction to geographic theories and research methods, with a focus on social and cultural geographic research. Lectures, hands-on exercises, collaborative projects.

*prereq: ENGL 12000 and a 100-level GEOG, PGEOG, GTECH, or GEOL course*  
*3 hrs*  
*3 cr.*

The following 15 credits:
GTECH 30100 - Quantitative Methods in Geography

Open to Jr/Sr only. Process of spatial analysis. Application of scientific methods to geographic research; sampling; distribution measurement; statistical analysis of spatial data.

prereq: GTEC 201, STAT 113 or 213 or perm instr.
3 hrs
3 cr.

GTECH 32100 - Remote Sensing of the Environment

Focuses on use of satellite images to study the environment and the physical processes involved in remote sensing to better understand the nature and properties of electromagnetic radiation and how it interacts with the atmosphere and the Earth’s surface and a wide variety of satellite sensors. These sensors make measurements in the optical, thermal and microwave electromagnetic spectrums and are used to study issues related to global environmental science and natural resource management. The course includes heavy lab components which will include practical assignments, field exercises, computer-based analysis of remotely-sensed images and the use of image processing software (ENVI) to analyze satellite images. Field measurements will be made in Central Park to facilitate better understanding satellite measurements.

Material Fee:$ 15

prereq: GTEC 32000 or perm instr.
4 hrs (2 lec, 2 lab)
3 cr.

GTECH 32200 - Digital Image Processing

Course emphasizes the acquisition and nature of digital image data and the tools required to process and analyze remotely sensed data. Topics include: image preprocessing, spectral mixture analysis, image transformation, image classification and accuracy assessment, change detection, information extraction from LIDAR and radar. At least one application for each image processing method will be introduced. This is an advanced remote sensing course. The course includes lab exercises through which students will obtain hands-on experience in digital image processing. The labs include practical assignments and computer-based analysis of remotely-sensed images, and also field work to evaluate the results. The lab will use ENVI, an image processing software, together with the comprehensive data analysis tool IDL.

prereq: GTEC 32100, and multivariate statistics, elementary linear algebra or perm instr.
4 hrs (2 lec, 2 lab)
3 cr.

GTECH 36100 - GIS Analysis

Advanced principles and operation of GIS, including 3-D, network and field representations and their respective analysis functions. Development of geoprocessing workflows. Geographic information science approaches to geospatially relevant methods, including geophysical, landscape ecological, econometric, epidemiological, and regional science.

Material Fee:$ 15

prereq: GTECH 20100
4 hrs (2 lec, 2 lab)
3 cr.

GTECH 38000 - Introduction to Cartographic Design and Geovisualization
This course explores fundamental design concepts and considerations in map production and presentation in the context of GIS. Students will combine computer graphics and cartographic design principles to develop visual representations and analysis of geospatial information.

Material Fee: $15

*prereq: GTECH 20100

4 hrs (2 lec, 2 lab)

3 cr.

-and-

2 additional 300-level GTECH courses with advice and approval of the undergraduate advisor as appropriate to student interests and professional goals

Note: GTECH 30100 has GTECH 20100 and STAT 11300 or STAT 21300 as prerequisites. Selected GTECH 38500 courses have GEOG or PGEOG prerequisites in addition to GTECH 20100.

Track D: Sustainability Studies (30 credits)

Five courses from the list below (15 credits):

**GEOG 22100 - Economic Geography and Globalization**

*GER

2/B

An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history of the development of economic thought, leading up to, and transformed, by today’s crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is capitalistic, and the way this economic structure plays out through different geographies at different historical moments in time.

Not open to freshmen

*prereq: GEOG 10100 or perm instr.

3 hrs

3 cr.

*Offered fall and spring*

**GEOG 24500 - Geography of Development**

Introduction to geographic concepts, methods, and theories of development, as well as failures and challenges for development in a changing world.

*prereq: ENGL 12000, and GEOG 10100 or GEOG 15000 or permission of instructor

3 hrs

3 cr.

**GEOG 22600 - Environmental Conservation: Resource Management**
Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

3 hrs
3 cr.

**GEOG 24300 - Urban Geography**

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

*prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only*

3 hrs
3 cr.

**GEOG 24100 - Population Geography**

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the “mechanics” of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

*prereq: GEOG 10100 or GEOG 15000 or perm instr.*

3 hrs
3 cr.

**GTECH 20100 - Introduction to Geographic Information Science**

Introduces the means by which geographers analyze the world to better understand geography and geographical processes. It offers an introduction to various methods for interpreting and analyzing spatial data including, cartography, GIS, remote sensing, spatial statistics and survey research.

Material Fee: $15

*prereq: GEOG 10100 or GEOG 15000 and MATH 10100 or equiv or perm instr.*

6 hrs (2 lec, 4 lab)
4 cr.

*Offered fall and spring*

**WGSL 20017 - Globalization and Gender**
Globalization has been the subject of intense debate within both academic and journalistic spheres. These debates have questioned whether globalization ‘works for the greater good or not.’ In this course we will examine globalization critically by looking at some of the academic debates. We will examine the claim that globalization has heralded the end of the nation-state, review the implications of globalization on gender and sexuality, and consider the formation of a ‘global middle class.’

prereq: WGS 10000 and ENGL 12000
3 hrs
3 cr.

The following 9 credits:

**GEOG 38300 - Special Topics in Geography**

GER
3/B

Open to Jr/Sr only. Topics to be announced.
prereq: GEOG 101, 200-level course of which special topic is logical outgrowth, perm instr.
1-4 hrs (lec or lec/lab)
1-3 cr

**GEOG 37000 - Geography of Sustainable Development in Developing Countries**

Pluralism and Diversity
PD/A
GER
3/B

Reviews the theories and approaches of international development. Themes include development theory, availability and distribution of resources, population growth, food production, water supply and forestry. The course will also highlight the development and environmental problems that challenge the achievement of sustainable development such as population growth, food and world economic crises, increasing number of the poor and climate change. The course will provide students with theory, methods, problems and analysis of factors that influence sustainable development in developing countries.
prereq: one of the following: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.
3 hrs
3 cr.

**GEOG 37100 - Rural Water Supply in Developing Regions**

Pluralism and Diversity
PD/A
GER
3/B

Covers concepts, methods and analysis of rural water utilization and related problems and challenges in developing countries. It will discuss water management and quality and their relationship with sanitation and hygiene education. The course will also discuss methods of providing drinking water in a sustainable manner.
prereq: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.
3 hrs
3 cr.
2 courses with a GEOG 30500, GEOG 30600, GEOG 38300 or GTECH 38500 course number (6 credits) with advice and approval of the undergraduate adviser as appropriate to student interests and professional goals

Note: Most GEOG 30600 courses have GEOG 15000 or permission of instructor as a prerequisite. GEOG 30500 courses have GEOG 24300 or permission of instructor as a pre-requisite. GTECH 38500 courses have GTECH 20100 as a prerequisite.

Minors for Geography Majors

A minor course of study is no longer required at Hunter College. However, geography majors can elect to minor in any field of their choice. It is recommended, but not required, that the chosen field be related to the student’s principal interest(s) in geography, and that the student consult with the Geography Undergraduate Adviser prior to selection of a minor course of study.

Minor in Geography

A minor in geography consists of a minimum of 12 credits chosen from undergraduate courses that have a GEOG, PGEOG or GTECH prefix. Prerequisites may apply. Thoughtful selection of courses may result in a minor program of study that will enhance the student’s major. It is recommended that prospective geography minors consult with the geography undergraduate adviser concerning course selection.

Minor in Geology

A minor in geology consists of a minimum of 12 credits selected from courses with a GEOL prefix, or PGEOG 23100, or PGEOG 33400, or GTECH 35000. Prerequisites may apply. It is recommended that prospective geology minors consult with an undergraduate adviser from the Department of Geography.

Minor in Environmental Studies

A minor in environmental studies consists of a minimum of 12 credits as follows:

- one course selected from PGEOG 13000 (STEM), GEOL 10000, GEOL 10500, GEOL 18000; and
- at least one course (minimum of 3 credits) selected from PGEOG 25000, PGEOG 25100*, GEOG 22600, GEOL 28000, or GTECH 20100; and
- at least one course (minimum of 3 credits) from the 300-level approved electives listed in the college catalog under either the environmental studies program's Concentration A (Environmental Earth Science) or Concentration B (Environmental Management and Policy).

*PGEOG 25000 is a prerequisite for PGEOG 25100

Options in Social Studies Education within the Geography Major

The Department of Geography and the School of Education provide opportunities for students to prepare for a career in teaching social studies in grades 1-6 (Childhood Education) or in grades 7-12 (Adolescent Education).
1. Option in Social Studies within the Geography Major for Childhood Education Teachers
2. Option in Social Studies within the Geography Major for Adolescent Education Teachers

Honors Work and Individual Study

To graduate with departmental honors, a major in the geography or environmental studies program must be admitted to the following and have a 3.0 cumulative GPA and a 3.5 GPA in the major.

**GEOG 49000 - Honors in Geography**

Upper Jr/Sr geography majors only. Individual research to be carried on under faculty guidance. Results must be embodied in an honors essay or equivalent.

*prereq: perm dept.*

1 sem

3 cr.

**PGEOG 49000 - Honors in Environmental Studies**

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.

*prereq: perm dept.*

The following courses

Also offer students the opportunity of undertaking individual research in geography, geology or environmental studies.

**GEOG 39100 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sem of geography, perm dept.*

1-3 cr

**GEOG 39200 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sem of geography, perm dept.*

1-3 cr

**GEOG 39300 - Individual Study in Geography**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

*prereq: 2 sem of geography, perm dept.*

1-3 cr

**GEOL 39100 - Individual Study in Geology**
Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.  

**prereq:** 2 sems of geology, perm dept.  
1-3 cr.

**GEOL 39200 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.  

**prereq:** 2 sems of geology, perm dept.  
1-3 cr.

**GEOL 39300 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.  

**prereq:** 2 sems of geology, perm dept.  
1-3 cr.

**PGEOG 39100 - Individual Study in Environmental Studies**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.  

**prereq:** GEOL 10500, GEOG 22600 or PGEOG 13000  
1-3 cr.

**PGEOG 39200 - Individual Study in Environmental Studies**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.  

**prereq:** GEOL 10500, GEOG 22600 or PGEOG 13000, perm instr.  
1-3 cr.

**PGEOG 39300 - Individual Study in Environmental Studies**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.  

**prereq:** GEOL 10500, GEOG 22600 or PGEOG 13000; perm instr.  
1-3 cr.

**Fieldwork**

Several courses offer students an opportunity to study geography, geology and environmental situations in the field. They are usually offered during intersession periods, summer session or on weekends (consult Schedule of Classes). In addition to the regular field courses, special-topic field courses are offered periodically and fieldwork is conducted in connection with a number of the other courses. The department participates in the Education Abroad Program. It offers a field geography of selected world regions course (check with adviser for current location). An additional fee for transportation, lodging and food allowance is attached to these courses, depending on the focus of the course and its itinerary.

**Graduate Study**

Graduate-level courses may be taken for credit toward the bachelor’s degree by highly qualified seniors. Written permission must be obtained from the undergraduate and graduate advisers.
Intern Program

Internship provides opportunities for qualified majors and minors in both geography and environmental studies to work in positions of responsibility in professional institutions while earning from 1 to 4 academic credits. See a departmental adviser for details.

GEOG 49800 - Internship

Open to qualified geography majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See undergraduate adviser.

1-4 cr.

PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.

1-4 cr.

German - BA

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

GERMN 10100 - Elementary German I

Hunter Core
World Culture and Global Issues (WCGI)
Practice in 4 basic skills of speaking, reading, writing and comprehending German. For beginners.
GERMN 10100 not usually credited without GRMN 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.

3 hrs
3 cr.

GERMN 10200 - Elementary German II

Continued practice in speaking, reading, writing and comprehending German.

prereq: GRMN 10100 or equiv.

3 hrs
3 cr.

GERMN 20100 - Intermediate German I

Practice in comprehending and communicating in German at the intermediate level. Review of basic structures and study of advanced grammar topics.

prereq: GRMN 10200 or equiv.
GERMN 20200 - Intermediate German II

Grammar review and composition. Reading and discussion of selected literary texts.  
*prereq: GRMN 20100 or equiv.*

3 hrs  
3 cr.

- or -

GERMN 10300 - Intensive Elementary German

Intensive practice in 4 basic skills of German. Covers material of GRMN 10100 and 10200 in one semester.

6 hrs  
6 cr.

GERMN 20300 - Intensive Intermediate German

Covers material of GRMN 201 and 202 in one semester.  
*prereq: GRMN 10200, 10300 or equiv.*

6 hrs  
6 cr.

Hunter Core Requirement

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

Major - 24 credits

The major consists of 24 credits chosen from the following courses:

Advanced courses in language, level I (30100 - 31200):  

GERMN 30100 - Advanced German Comprehension and Conversation

GER  
3/A

Intensive practice in reading and listening to German texts and in conversational German; some essay writing.  
*(Conducted in German)*

*prereq: GRMN 20200 or 20300 or equiv.*

3 hrs  
3 cr.

GERMN 30200 - Advanced German Conversation and Composition
Intensive practice in speaking and writing German.  
(Conducted in German)  
*prereq:* GERMN 20200 or 20300 or equiv.  
3 hrs  
3 cr.

**GERMN 31000 - Advanced German Language Studies**

Intensive language study in a German speaking country. May be repeated at different levels.  
(Conducted in German)  
*prereq:* GERMN 20200 or 20300 or equiv.  
3 hrs  
3 cr.

**GERMN 31200 - Introduction to Business German**

Introduction to the specialized language of German business and economics and intensive practice in German terminology and style on such topics as banking and finance, the corporate structure and the European Union.  
(Conducted in German)  
*prereq:* GERMN 30100 or perm instr.  
3 hrs  
3 cr.

**Advanced courses in literature, level I (32000 - 33900):**

**GERMN 32000 - Studies in German Literature and Language**

Pluralism and Diversity  
PD/D  
GER  
3/A  

Discussion of literary topics or linguistic phenomena. May be repeated with a different topic.  
(Conducted in German)  
*prereq:* GERMN 20200 or 20300 or equiv.  
3 hrs  
3 cr.

**GERMN 32100 - Individual and Society in Modern German Literature**

Pluralism and Diversity  
PD/D
The central conflict between individual liberty and societal constraints as reflected in short stories, novellas and plays by 20th century authors such as Kafka, Brecht, Böll and Frisch.

(Conducted in German)

prereq: GERMN 20200 or 20300 or equiv.

3 hrs
3 cr.

GERMN 32200 - German Civilization

Pluralism and Diversity
PD/D
GER
3/A

Introduction to key topics in German history, politics, arts, literature and sciences.

(Conducted in German)

prereq: GERMN 20200 or equiv.

3 hrs
3 cr.

GERMN 32300 - Women in German Literature

Pluralism and Diversity
PD/C
GER
3/A

Reading and discussion of literature from the 19th century to the present written in German by and about women.

(Conducted in German)

prereq: GERMN 20200 or 20300 or equiv.

3 hrs
3 cr.

GERMN 32700 - Modern Swiss Literature

Pluralism and Diversity
PD/D
GER
3/A

Reading and discussion of literature written in German by Swiss authors since the 19th century.

(Conducted in German)

prereq: GERMN 20200 or 20300 or equiv.

3 hrs
3 cr.

GERMN 32800 - German Children's and Adolescent Literature
Reading and discussion of literature for young readers and adolescents.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

**GERMN 33400 - The German Short Story and Novelle**

Discussion of short narrative works from age of Goethe to present.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

**GERMN 33500 - German Radio Plays: Hoerspiel**

Listening to and discussion of literary radio plays from the 1950s to today.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

**GERMN 33600 - German Lyric Poetry**

Discussion of important lyrics from Baroque period to present.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

**GERMN 33900 - German Drama from Naturalism to Present**
Discussion of dramas by such writers as Hauptmann, Wedekind, Brecht, Dürrenmatt, Frisch and Handke.
(Conducted in German)
prereq: GERMN 20200 or 20300 or equiv.
3 hrs
3 cr.

**Advanced courses in literature, level II (34000 - 35900):**

**GERMN 34100 - German Drama from Age of Goethe to Naturalism**

Discussion of dramas by such writers as Goethe, Schiller, Kleist, Büchner, Grillparzer and Hebbel.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

**GERMN 34200 - The German Novel**

Discussion of narrative works by such writers as Goethe, Keller, Fontane, T. Mann, Kafka, Döblin and Böll.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

**GERMN 34300 - German Literature from Its Origins to the Age of Goethe**

**GERMN 34400 - Readings in Classical Period of German Literature**
Discussion of selected works by Lessing, Goethe and Schiller. (Conducted in German)

prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

**GERMN 34500 - Literature of Weimar Republic**

Pluralism and Diversity
PD/D
GER
3/A

Discussion of literary works and documents influential in German life between 1918 and 1933. (Conducted in German)

prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

**GERMN 34600 - German Literature of the 1930s and 1940s**

Pluralism and Diversity
PD/D
GER
3/A

Reading and discussion of literature written between the time of the Weimar Republic and 1945. (Conducted in German)

prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

**GERMN 34700 - German Literature 1945-1995**

Pluralism and Diversity
PD/D
GER
3/A

Reading and discussion of German literature written between 1945 and 1995. (Conducted in German)

prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

**GERMN 34800 - East German Literature (1945-1990)**

Pluralism and Diversity
PD/D
GER
3/A
Reading and discussion in German of literature written in East Germany during the existence of the German Democratic Republic as a sovereign state.
(Conducted in German)
prereq: one course numbered GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

GERMN 35000 - Austrian Literature

Pluralism and Diversity
PD/D
GER
3/A

Discussion of literature and culture of the fin-de-siècle Vienna.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

GERMN 35300 - Goethe's Faust

Pluralism and Diversity
PD/D
GER
3/A

Intensive study of Goethe's Faust, Parts I and II.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

GERMN 35900 - German Literary Seminar

Pluralism and Diversity
PD/D
GER
3/A

Seminar study of significant theme in German literature, German author or literary movement or genre. May be repeated with a different topic.
(Conducted in German)
prereq: one course numbered from GERMN 32000 to 35900 or equiv.
3 hrs
3 cr.

Advanced courses in language, level II (all course numbers beginning with 38500);
GERMN 38501 - The German Press of Today: Reading and Understanding Newspapers and Magazines

GER
3/A

Reading and discussion of present-day German newspapers and magazines.
(Conducted in German) A varying selection of 38500 courses will be offered in alternate years in accordance with student needs. Please consult the chair of the department or a departmental adviser for specific details.

prereq: two courses numbered GERMN 30000 or above or equiv. (excluding courses in English translation)
3 hrs
3 cr.

GERMN 38502 - Advanced Business German

GER
3/A

Cross-cultural study and practicing of German business culture and language while studying Germany as global economic player. Topics such as corporate structure, management strategies, international marketing and labor relations.
A varying selection of 38500 courses will be offered in alternate years in accordance with student needs. Please consult the chair of the department or a departmental adviser for specific details.

prereq or coreq: GERMN 31200 or perm. instr.
3 hrs
3 cr.

GERMN 38503 - German Grammar for Upper-Level Discourse

GER
3/A

Study of German grammar from basic to complex structures. Intensive practice in control of grammatical forms at high levels of spoken and written discourse.
(Conducted in German)
A varying selection of 38500 courses will be offered in alternate years in accordance with student needs. Please consult the chair of the department or a departmental adviser for specific details.

prereq: three courses above GERMN 30000 or equiv (excluding courses in English translation)
3 hrs
3 cr.

Special projects:

GERMN 44400 - Seminar Studies in German Literature and Language

Pluralism and Diversity
PD/D
GER
3/A

Seminar study of literary topic or linguistic phenomenon. May be repeated with a different topic.
GERMN 49100 - Honors Project

Open to Jr/Sr only. Individual study and independent research in consultation with faculty member. Honors essay required.

prereq: perm chair
3 cr.

3 hrs
3 cr.

GERMN 49200 - Independent Study in German

Number of credits to be determined in advance in consultation with faculty member on basis of work planned.

prereq: perm chair
1-3 cr.

3 cr.

GERMN 49300 - Individual Studies Project in German Studies

Individual research on German-studies topic under direction of faculty member. Written report required.

prereq: perm chair
3 cr.

Additional Information

At least 12 credits must be earned by taking advanced classes in German literature and culture (numbered 32000-35900; also 44400).

Three or more of these credits must be from level II literature courses (numbered 34000-35900; also 44400). Majors are permitted to substitute one level I literature course (numbered 32000-33900) with a level II language course (any course with a number that begins with 38500).

Students are encouraged to consult a departmental adviser as early as possible to plan their course of studies in German.

Students who begin German in college may count the following as major courses.
GERMN 20100 - Intermediate German I

Practice in comprehending and communicating in German at the intermediate level. Review of basic structures and study of advanced grammar topics.

prereq: GRMN 10200 or equiv.
3 hrs
3 cr.

GERMN 20200 - Intermediate German II

Grammar review and composition. Reading and discussion of selected literary texts.

prereq: GRMN 20100 or equiv.
3 hrs
3 cr.

-or-

GERMN 20300 - Intensive Intermediate German

Covers material of GRMN 201 and 202 in one semester.

prereq: GRMN 10200, 10300 or equiv.
6 hrs
6 cr.

Preparation for Teaching in Grades 7-12

In cooperation with the School of Education, the program in German provides opportunities for students to prepare for a career in teaching German in grades 7-12. Students preparing to teach German must complete a 33-credit major option (Option 2) for teaching that includes the 24-credit sequence (Option 1) taken by non-teaching majors plus 9 additional credits: GERMN 39900 and 6 additional credits in advanced GERMN language and literature courses in the German Department between GERMN 30100 and 44400 or GERMN 24000, GERMN 24100 or 300-level courses related to German studies offered in other departments (with prior approval by the chairperson of the German Department). Students interested in teaching German in New York schools will take the 23-credit pedagogical sequence for grades 7-12 Languages Other than English: Chinese, French, German, Hebrew, Italian, Russian, Spanish (BA) Additional Coursework and Student Teaching along with the major in German. This sequence may count toward the course requirements for New York State Certification but will not by itself be sufficient for certification. Students interested in a teaching career should consult with the School of Education. All students who want to pursue a teaching certificate in German must take an oral examination with the German Department. See the The School of Education section of this catalog for further information.

Minor in German

Foundational Courses must be completed before embarking upon the minor. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

GERMN 10100 - Elementary German I

Hunter Core
World Culture and Global Issues (WCGI)
Practice in 4 basic skills of speaking, reading, writing and comprehending German. For beginners.
GERMN 10100 is not usually credited without GERMN 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.

3 hrs

**Courses Required for the Minor**

12 credits in language and literature taught in German at the 300-level or higher are required for the minor.

- GERMN 30100 to 35900
- GERMN 38100 to 44400

At least 3 of the credits for a German minor must be earned by taking a literature class numbered between GERMN 320.00 and GERMN 35900. Students who begin their study of German in college may count GERMN 20100 and GERMN 20200 or GERMN 20300 towards the minor and will need to take two courses at the 300-level.
Electives

All courses offered are open to all qualified students as electives. For placement, consult a departmental adviser or the department chair.

Honors, Tutorials

Consult the department chair for these special programs. In order to graduate with departmental honors the student has to write an honors essay in the following. Please check under “Academic Honors” for exact details. Students who qualify can be elected to the German Honor Society Sigma Epsilon Phi. Please consult the department for exact requirements.

GERMN 49100 - Honors Project

Open to Jr/Sr only. Individual study and independent research in consultation with faculty member. Honors essay required.

(Conducted in German)

prereq: perm chair
3 cr.

Study Abroad

The German Department sponsors a summer study abroad program in Kassel, Germany, for students at all levels.

Exchange Program with Pädagogische Hochschule Karlsruhe, Germany

The German Department has a semester-long or year-long exchange program with the Pädagogische Hochschule Karlsruhe www.ph-karlsruhe.de/index.php. The department will help students seek financial support. Please consult the department for details.

International Examinations

The German Department is a testing site for the “Goethe Zertifikate” B1, B2 and C1. These examinations are given world-wide by the Goethe Institute www.goethe.de/lrn/prj/pba/bes/enindex.htm, the cultural arm of the German government.

Hebrew - BA

Return to: Classical and Oriental Studies

Placement and Exemption: Students with background in the language should consult the head of the Hebrew Division for proper placement or for language exemption.
Majors

The major consists of 24 credits from courses beyond HEBR 101-102. In general, a Hebrew major is required to achieve proficiency in Biblical and/or modern Hebrew literature by successfully completing a minimum of four courses at the 300 level in Hebrew. Courses in Hebraic studies conducted in English may be applied toward partial fulfillment of the Hebrew major provided they are part of a coherent program approved by the head of the division.

Qualified students interested in a more intensive program in the field of Hebraic or Judaic studies, particularly those preparing for graduate work in such specialized areas as Semitic languages and civilizations, Jewish history, Biblical studies and archaeology, medieval or modern Hebrew literature, Near Eastern studies or religious studies, should consult a division adviser regarding additional courses and supportive studies in related fields.

Preparation for Teaching in Grades 7-12

In cooperation with the School of Education, the Program in Hebrew provides opportunities for students to prepare for a career in teaching Hebrew in grades 7-12. Students preparing to teach Hebrew must complete a 33-credit major option for teaching that includes the 24-credit sequence taken by non-teaching majors, HEBR 39900, and 6 additional credits in Hebrew language and literature at the 300 or 400 level. Students interested in teaching Hebrew in New York schools should take the 23-credit pedagogical sequence for grades 7-12. This sequence may count toward the course requirements for New York State Certification, but will not by itself be sufficient for certification. Students interested in a teaching career should consult with the Section XII: School of Education.

Minor

Two minors are offered, one in Hebrew, the other in Hebraic Studies.

Hebrew Minor

The Hebrew minor requires the successful completion of 12 credits at the 200-level or above. Courses counted toward the Hebrew minor must be either language courses or have Hebrew as their language of instruction.

Hebraic Studies Minor

The Hebraic Studies minor requires the successful completion of four HEBR literature and/or culture courses on the 200-level or above, taught in English or in Hebrew. Two Hebrew language courses other than Elementary and Intermediate Hebrew—e.g., Biblical Hebrew, Advanced Hebrew—may be used toward the minor requirement in lieu of two literature or culture courses.

Honors

Opportunity for honors work is available through HEBR 49100 - Honors Project.

Courses in Hebrew

HEBR 10100 - Elementary Hebrew I

Hunter Core
World Culture and Global Issues (WCGI)
Fundamentals of reading, pronunciation and grammar for beginners. Practice in conversation and writing. HEBR 101 not credited without HEBR 102. HEBR 10100 usually not credited without HEBR 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.

3 hrs
3 cr.

HEBR 10200 - Elementary Hebrew II

Continuation of HEBR 10100.

prereq: HEBR 10100 or equiv.

3 hrs
3 cr.

HEBR 10300 - Intensive Elementary Hebrew

Intensive practice in basic skills of Hebrew. Course covers in one semester the material covered in the two semesters of HEBR 10100 and 10200.

6 hrs
6 cr.

3 hrs
3 cr

HEBR 22000 - Israeli Cinema

Pluralism and Diversity
PD/A
GER
3/A

Israeli cinema and the development of Israeli cultural identity. Designed for students of Hebrew studies and Film studies who are interested in the history of Israeli film and Israeli cultural identity as expressed in the Israeli cinema. The course is designed for students of Hebrew studies and Film studies who are interested in the history of Israeli film and Israeli cultural identity as expressed in the Israeli cinema. This course will explore discourses on topics concerning the Israeli-Palestinian and Israeli-Arab conflicts, Zionist and post-Zionist trends, socio-economic gaps, religious controversies and aesthetic societal contexts, as well as women’s issues. The course will employ a variety of disciplines, including but not limited to formalist and semiotic film theories and literary analysis. The student will gain fundamental insight into Israeli culture. No knowledge of Hebrew is required but can be helpful. Students, who wish to do the reading and discussion in the Hebrew language, may have that option. Course will be conducted in English.

cross-listed cross-listed with FILM 21344
priseq: ENGL 12000

3 cr.

HEBR 31700 - Biblical Literature: Prophetic Books

Pluralism and Diversity
PD/A
GER
Selections from minor and major prophets.
prereq: HEBR 202 or equiv.
3 hrs
3 cr

HEBR 31800 - Biblical Literature: Hagiographa

Pluralism and Diversity
PD/A
GER
3/A

Selections from Job, Proverbs, Psalms and the five Magillot.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32000 - The Modern Hebrew Short Story

GER
3/A

Extensive reading of short stories from late 19th century to present, illustrating different literary trends.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr.

HEBR 32100 - Talmudic Literature

Pluralism and Diversity
PD/A
GER
3/A

Selections from Talmud and Midrash.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32200 - Medieval Literature

Pluralism and Diversity
PD/D
GER
3/A

Selections from literature of Golden Age in Spain.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr
HEBR 32300 - Poetry of the Modern Hebrew Renaissance Period

Pluralism and Diversity
PD/D
GER
3/A

Study of major works of Bialik, Tschernichovsky, Kahan and Shneour.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32400 - The Modern Hebrew Essay

Pluralism and Diversity
PD/D
GER
3/A

Study of selected essays of Ahad ha'Am, Berditchevsky and Frischman.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32500 - History of Modern Hebrew Literature

GER
3/A

Evolution of Hebrew literature from period of Enlightenment to contemporary Hebrew letters.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32600 - Hebrew Poetry Between the Two World Wars

GER
3/A

Study of Hebrew poetry since World War I. Emphasis on works of Greenberg, Schlonsky, Lamdan and Alterman.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 32700 - The Modern Hebrew Novel

GER
3/A

Intensive study of a major novel by Agnon, Barash or Hazaz, with collateral readings in other Hebrew novels.
prereq: HEBR 20200 or equiv.
HEBR 32800 - Contemporary Hebrew Prose

GER
3/A

prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 33100 - Medieval Hebrew Philosophic Texts

GER
3/A

Study of selected chapters of Halevi's Kuzari and Maimonide' Moreh Nebukim (Guide to the Perplexed).
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 35100 - Hebrew Grammar and Composition

Intensive study of principles of vocalization, inflections of nouns and verbs, rules of syntax and practice in composition.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 35700 - Approaches to Main Problems in Hebraic Studies

Explorations in depth of a particular area in Hebraic studies. May be repeated as topics vary from semester to semester.

There are "unlimited" repeats for this course.
prereq: HEBR 20200 or equiv.
3 hrs
3 cr

HEBR 39900 - Second Language Acquisition

A survey of issues and approaches to second language acquisition. For students planning to teach languages other than English in grades 7-12.
prereq: at least three courses at the 300 level in the language, ENGL 12000
3 hrs
3 cr

HEBR 45100 - Selected Studies in Hebrew Literature
Pluralism and Diversity

PD/D
Course will concentrate on an author, theme, genre or period in Hebrew literature. May be repeated as topics vary from semester to semester. Some topics may meet a PD requirement.

There are unlimited repeats for this course.

prereq: HEBR 20200 or equiv, perm division
3 hrs
3 cr

HEBR 49000 - Independent Studies

Independent research under direction of a member of the division. May be repeated as topics vary from semester to semester.
There are "unlimited" repeats for this course.

prereq: permission of division head
hrs TBA
3 cr

HEBR 49100 - Honors Project

Individual study and research in Hebrew literature in consultation with staff member. Honors essay required. May be repeated as topics vary from semester to semester.
There are "unlimited" repeats for this course.

prereq: Jr/Sr only; perm division
1 sem
3 cr.

History - BA

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

ENGL 12000 - Expository Writing

Hunter Core

English Comp (EC)
GER
1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

prereq: successful completion of developmental courses, if required
3 hrs + conf
3 cr.

Hunter Core Requirement Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core
Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Major

BA: 30 credits

• A minimum of 6 credits of HIST-designated courses with a grade of C or better are required before the declaration of major

• A maximum of 9 credits in 100-level courses may be taken.

• A minimum of 18 credits in advanced-level courses distributed as follows:

  o 6 credits in 200-level courses (not including HIST 29000)
  o 9 credits in 300-level courses or higher (not including HIST 30000/HIST 40000)

• History Practicum

HIST 29000 - History Practicum (W)

A seminar-style course intended to introduce students to the practice of historical research and writing. Students will be given a directed “hands-on” experience in conducting historical research and in the writing of research papers in measured, progressively challenging assignments. The course will prepare students to successfully engage in more self-directed, substantial and independent historical research projects in the future.

prereq: ENGL 12000; 6 cr in history and permission of the department
3 hrs.
3 cr.

A minimum grade of C is required to receive credit for HIST 29000

• Historical Research or Historical Research Honors

HIST 30000 - Historical Research (W)

GER
3/B

Independent research related to a prior upper-level course already completed under the supervising instructor. The research will result in an extensive paper.
Courses at the 300-level and above not offered to freshmen.

**prereq:** HIST 29000 and departmental permission

3 hrs
3 cr.

-or-

**HIST 40000 - Historical Research [H]**

**GER**

3/B

The origins of history writing and the modern historical profession; modes of historical research; the evaluation of historical evidence; the historical and social uses of history. Recommended for all history majors. Required of students who wish to graduate with honors in history.

Courses at the 300-level and above not offered to freshmen.

**prereq:** not open to students who have completed fewer than 80 credits

3 hrs
3 cr.

*A minimum grade of C is required to receive credit for HIST 30000/HIST 40000*

Geographic Distribution:

- Within the requirements for the major (exclusive of HIST 30000) students must complete a minimum of 6 credits in each of the following geographic fields:
  - 1) United States history
  - 2) European history (includes Russia and the U.S.S.R.)
  - 3) World/Non-Western history (includes Asia, Africa, Middle East, Latin America).

Chronological Distribution:

Within the requirements for the major (exclusive of HIST 30000) students must also complete a minimum of 3 credits in a course that is largely focused on years prior to 1815:

- If the course is at the 100-level, it must cover material that is entirely pre-1815.
- If the course is at the 200-level or higher, the majority of the material in it must be pre-1815.

Minor

Students majoring in disciplines other than history may elect a minor in history. The history minor consists of 12 credits. The minor in History is flexible and thus it can provide depth to a variety of majors; students can tailor the minor to suit best their individual interests.

**Requirements:**

1. Four history courses of 3 credits each (or 12 credits total) taken for a letter grade (C or better. Courses taken for a grade of Credit/No Credit will not count toward the minor.)
2. Courses must be distributed in at least two geographic fields, i.e. at least one course (3 credits) must be taken in a geographic area different from the other three. (Currently, the geographic areas are defined as U.S., European and World/Non-Western.)

3. At least two courses (6 credits) must be at the 300-level or above. Internships do not count toward completion of the minor, although students completing the minor may elect to include an internship as an additional course. Independent studies (tutorials) and HIST300 are available only to History Majors and, thus, do not count toward the minor.

4. At least two of the courses (or 6 credits) must be taken in the History Department at Hunter College. Courses taken in other disciplines will not count toward the minor unless cross-listed and taken under the appropriate HIST course code. Transfer courses must be approved by the History Undergraduate Advisor.

There are no prerequisites for the minor, although certain courses may have their own prerequisites.

**Declaring a Minor in History:**

Students are advised to declare their minor by the beginning of the upper junior semester, but must do it prior to their final semester (that of graduation). Declaration requires a planning session with the History Undergraduate Advisor and completion of the Major/Minor Declaration Form (to be obtained from the OASIS).

**Preparation for Teaching**

**Childhood Education (grades 1-6)**

In cooperation with the School of Education, the Department of History provides opportunities for history majors to prepare for a career in childhood education. Students complete the 30-credit History major with the childhood education sequence as a collateral major.

**Adolescent Education**

Students who wish to prepare for a career in teaching social studies in grades 7-12 may take a 33-credit history major with an additional 9 credits of prerequisites History for Adolescent Education (Social Studies) In addition, students take the 23-credit adolescent education sequence.

**Honors in History**

Students will be eligible for honors in history upon the completion of all of the requirements for the major (including HIST 30000) with a 3.5 GPA and a 3.0 cumulative GPA at the time of graduation. In order to receive honors students may complete a portion of their major requirements in one of the following ways:

- completing HIST 40000 with a grade of B or better in lieu of HIST 30000, which is required for the major

  OR

- completing 3 credits with a grade of B or better in an honors seminar, problems course, or tutorial (with departmental permission) in lieu of one of their 300-level or higher courses required for the major. Such seminars, honors courses, or tutorial options include:
  - HIST 48300 Problems in U.S. History (Honors) (W)
  - HIST 48400 Problems in European History (Honors) (W)
  - HIST 48500 Problems in Non-Western History (Honors) (W)
  - HIST 49300 Individual Tutorial Research Project

  Note: the student must still complete HIST 30000 or HIST 40000
OR

- completing a graduate-level course (with special permission from the instructor) with a grade of B or better in lieu of one of their 300-level or higher courses required for the major.

Note: the student must still complete HIST 30000 or HIST 40000

Eligible students should apply for honors at the time they file for graduation. Applications are available from the department.

Graduate Study

Qualified students in their junior and senior years may be admitted to graduate courses with the approval of the department chair.

History for Adolescent Education (Social Studies)

Return to: History - BA

Foundational Courses (9 credits)

At least 6 credits of Foundational Courses must be completed to declare the major. The remaining 3 credits can be completed along with the major.

HIST 15100 - The United States from the Colonial Era to the Civil War (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War. Courses at the 300-level and above not offered to freshmen.

Prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 15200 - The United States from the Civil War Era to the Present (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the Civil War to the present. Courses at the 300-level and above not offered to freshmen.

Prereq or coreq: ENGL 12000
GEOG 15000 - World Regional Geography

Pluralism and Diversity
PD/A or D
GER
2/B

A survey of the world’s major regions. Geographic concepts and principles are used to study the physical, economic, social and political conditions and problems in the culturally diverse world. Spatial expression of culture; specialized behavior patterns; adaptations and way of life in distinct environments. Regional interdependence; implications for development.

*prereq: ENGL 12000
3 hrs
3 cr.
Offered fall and spring

Major (33 credits)

Geography (6 credits)

GEOG 22100 - Economic Geography and Globalization

GER
2/B

An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history of the development of economic thought, leading up to, and transformed, by today’s crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is capitalistic, and the way this economic structure plays out through different geographies at different historical moments in time.

Not open to freshmen

*prereq: GEOG 10100 or perm instr.
3 hrs
3 cr.
Offered fall and spring

GEOG 24100 - Population Geography

Pluralism and Diversity
PD/B or C
GER
3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why
these processes vary around the world. Additionally, students will examine the “mechanics” of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

prereq: GEOG 10100 or GEOG 15000 or perm instr.

3 hrs
3 cr.

**GEOG 24300 - Urban Geography**

**GER**
3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only

3 hrs
3 cr.

**GEOG 24400 - Political Geography**

**GER**
3/B

Political geography concerns the nature and consequences of human efforts to divide and control Earth. Major topics to be covered by this course include the origin and evolution of countries and their constituent political units; the defining and drawing of political boundaries; territorial conflicts and disputes; the impact of boundaries on personal and cultural identity; centripetal and centrifugal forces that encourage the success or failure of political units; jurisprudence, crime and punishment; electoral geography; war, piracy and terrorism; ownership of ocean floors and outer space; the environmental impacts of political power (zoning, incorporation, height restrictions, land tenure); and symbols of power in the landscape. Lectures and assignments will stress the relevancy of political geography to issues that affect our everyday life.

prereq: GEOG 10100 or GEOG 15000 or perm instr

3 hrs
3 cr.

**GEOG 24700 - Cultural Geography**

**GER**
3/B

This course provides an overview of the field of cultural geography. It will cover the basics as well as recent developments in social and cultural geographic theory. The main focus is to understand relationships between cultures and environments through geographical analyses of processes, landscapes, and identities.

effective term 2016

prereq: ENGL 12000, and GEOG 10100 -or- GEOG 15000

3 hrs
3 cr.

**GEOG 30500 - Special Topics in Urban and Regional Dynamics**
Advanced topics in urban geography. Topics will vary. Open to Jr/Sr only.

prereq: GEOG 24300 Urban Geography or instructor permission
3 hrs
3 cr.

GEOG 30600 - Special Topics in Contemporary Regional Geographies

Advanced topics in contemporary regional geographies and globalization. Topics will vary. Open to Jr/Sr only.

prereq: GEOG 15000 World Regional Geography or instructor permission
3 hrs
3 cr.

GEOG 32800 - Urban Environmental Problems: Evaluations and Solutions

GER
3/B

Open to Jr/Sr only. The special environmental problems of urban and metropolitan areas will be studied, including water supplies, waste management, environmental impact and waterfront use. Natural physical processes, methodologies and techniques will be reviewed and applied to decision making. Transportation fee for field work may be required.

prereq: GEOG 101 or GEOG 150 or URBS 101 and Jr/Sr standing
3 hrs
3 cr.

Political Science & Economics (6 credits)

ECO 10000 - Introduction to Economics

Hunter Core
Individual and Society (Social Sciences) - I&S SS
GER
2/B

Introduction to economic principles, issues, and policy. Recommended for students who want a broad, one-semester overview.
Not open to students who have taken or are currently enrolled in ECO 20000 or 20100 or their equivalents. Cannot be credited towards the Economics major.
3 hrs
3 cr.

POLSC 11000 - American Government: A Historical Introduction (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its
enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

History (21 credits)

A maximum of 6 credits in history courses at the 100-level and a minimum of 9 credits in history courses at the 300-level or above. Foundational courses do not count toward the History credits.

World/Non-US History (12 credits)

including a least three credits in each of the following categories (courses may be used to count toward only one category; described category must comprise 50% or more of course content for course to qualify):

1) Pre-1800
2) non-Europe
3) Europe
4) One additional World/Non-US History

US History (6 credits)

all above the 100-level

Keystone Course in History (3 credits)

SWIM or SYNC: History Practicum or any dedicated seminar or Honors course at the 400 level approved by the Undergraduate Advisor and/or the Department Chair, as involving significant writing in the major (“SWIM”) or graduate-level history course (700-level) available with permission to graduating seniors (Senior Year Non-Traditional Course; “SYNC”)

History: Major with Minor in International Affairs - BA

Adviser: Michael Luther

Major

The major consists of 18 credits in history:

HIST 32900 - History of European Diplomacy
Pluralism and Diversity  
PD/D  
GER  
3/B

From the Congress of Vienna and national unification movements through the era of total wars and cold war. Courses at the 300-level and above not offered to freshmen.

3 hrs  
3 cr.

HIST 36100 - America and the World in the 20th Century

Pluralism and Diversity  
PD/D  
GER  
3/B

The trajectory of American foreign relations during the last century, focusing on how and why the United States engaged other nations and peoples as it did. It also explores the ways in which developments overseas helped shape American domestic life. Courses at the 300-level and above not offered to freshmen.

prereq: ENGL 12000  
3 hrs  
3 cr.

plus 9 credits selected from

HIST 27700 - East Asia to 1600

Hunter Core  
World Culture and Global Issues (WCGI)
Pluralism and Diversity  
PD/A  
GER  
2/B

Survey of traditional cultures and sociopolitical structures of China, Japan, Korea and Vietnam to about 1600 AD. Courses at the 300-level and above not offered to freshmen.

3 hrs  
3 cr.

HIST 27800 - East Asia, 1600 to the Present

Hunter Core  
World Culture and Global Issues (WCGI)
Pluralism and Diversity  
PD/A  
GER  
2/B

Coming of West to Asia and resulting processes of revolution and modernization after 1600 AD. Courses at the 300-level and above not offered to freshmen.
HIST 28800 - History of Africa to the 19th Century

Pluralism and Diversity
PD/A
GER
2/B

Survey of pre-colonial African societies with emphasis on economic and social institutions changing under the impact of the environment. Courses at the 300-level and above not offered to freshmen.

HIST 28900 - Africa in the 19th and 20th Centuries

Pluralism and Diversity
PD/A
GER
2/B

Historical explanation of independent Africa rising after colonialism and adjusting to modernization. Courses at the 300-level and above not offered to freshmen.

HIST 32700 - Europe since 1914

GER
3/B

Europe in a century of total wars and cold war: the military, political, social, economic and intellectual scene. Courses at the 300-level and above not offered to freshmen.

HIST 34600 - Churchill's Britain (W)

GER
3/B

The history of Britain and its empire in the 20th century. The emphasis will be on the world wars and their impact on British military and diplomatic power, and thus on the spread of British imperial rule up to the 1920s, as well as on the changes the wars brought to the British economy, society and culture and, ultimately, the collapse of the empire after 1945. The major theme of the course will be how to understand Britain's "decline" in the 20th century. The rise and fall of the British imperial system and its transformation into a Commonwealth of nations. Courses at the 300-level and above not offered to freshmen.

prereq: ENGL 12000

3 hrs
3 cr.
HIST 37500 - Late Imperial Russia and the Soviet Union

Pluralism and Diversity
PD/D
GER
3/B

Political, socioeconomic and cultural development of late 19th and 20th century Russian and Soviet society. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 37700 - Ancient and Imperial China to 1800

GER
3/B

China's traditions and transformation from Neolithic times to the late-imperial period, emphasizing state/society relations and the development of the centralized bureaucratic political system; covers political, economic, religious and social developments. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 37800 - China Since 1800

GER
3/B

Internal and external challenges to China's traditional order; the collapse of the imperial system and the establishment of a republic; the warlord period; the war against Japan; the civil war between Communist and Nationalist forces; China since the rise of the Communist Party to state power in 1949. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 39000 - History of Modern West Africa

GER
3/B

Impact of Islam, Christianity and colonialism. Analysis of African nationalism and problems of independence. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.
- Seminars, problems courses and tutorial if appropriate

Minor

The minor consists of 18 credits including
**ECO 34000 - International Trade**

**GER**

3/B

Theories of international trade and international trade policies.

*prereq: ECO 20000*

3 hrs

3 cr.

**POLSC 37500 - International Law (W)**

**GER**

3/B

The course will examine the sources, principles, functions, and effectiveness of international law.

*prereq: ENGL 12000 and POLSC 27000 or POLSC 27500 or POLSC 27800 or POLSC 282 or permission of instructor*

3 hrs

3 cr.

**POLSC 27800 - International Organizations (W)**

**GER**

3/B

Powers, functions and effectiveness of international institutions; emphasis on United Nations and regional organizations.

*prereq: ENGL 12000 or its equivalent*

3 hrs

3 cr.

**GEOG 22100 - Economic Geography and Globalization**

**GER**

2/B

An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history of the development of economic thought, leading up to, and transformed, by today’s crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is capitalistic, and the way this economic structure plays out through different geographies at different historical moments in time.

Not open to freshmen

*prereq: GEOG 10100 or perm instr.*

3 hrs

3 cr.

*Offered fall and spring*

**GEOG 24400 - Political Geography**
Political geography concerns the nature and consequences of human efforts to divide and control Earth. Major topics to be covered by this course include the origin and evolution of countries and their constituent political units; the defining and drawing of political boundaries; territorial conflicts and disputes; the impact of boundaries on personal and cultural identity; centripetal and centrifugal forces that encourage the success or failure of political units; jurisprudence, crime and punishment; electoral geography; war, piracy and terrorism; ownership of ocean floors and outer space; the environmental impacts of political power (zoning, incorporation, height restrictions, land tenure); and symbols of power in the landscape. Lectures and assignments will stress the relevancy of political geography to issues that affect our everyday life.

prereq: GEOG 10100 or GEOG 15000 or perm instr

3 hrs
3 cr.

- plus 6 additional credits chosen from cultural anthropology, economics, energy and environmental studies, geography, political science, sociology, religion or other appropriate areas chosen with the approval of the adviser

Human Biology - BA

Human Biology is a multidisciplinary major that provides students with a curriculum that emphasizes the analysis of humanity in a holistic framework that includes behavioral, cultural, social, and biological approaches. This major will guide students towards an integrated view of humans and our biology through a wide array of courses from departments including Anthropology, Biological Sciences, Psychology, Sociology, and Urban Public Health.

The Human Biology major curriculum is built on a core foundation of courses in biology, anthropology, and statistics. Students will then choose one of the following three specialized tracks: Track I. Body, Mind, and Health, which emphasizes biological knowledge within the context of human biology, with coursework that addresses how social factors have an impact on humans and human health; Track II. Human Evolution and Variation, which emphasizes humans as an evolved species that is part of the natural world, with coursework focusing on physical anthropology; and Track III. Human Organizations, which emphasizes social phenomena, with coursework from multiple social science disciplines. Finally, students will complete a capstone course in human biology (HMBIO 40100), where they will analyze some of the key contemporary topics and issues in human biology from multiple vantage points.

The knowledge and skills obtained by Human Biology majors will prepare students well for a range of future careers and educational paths, including graduate school in the sciences or social sciences; medical, public health, and allied health graduate training (possibly requiring additional course work); and careers in natural or social sciences research or related fields.

Declaring the Human Biology Major:

Students will be required to meet a GPA requirement of 2.5 in this Core Sequence to declare the major. Transfer students will be required to take ANTHP 10500 and receive a C or better to declare the major.

A. Core Requirements

1. Introductory Course in the Major

ANTHP 10500 - The Human Species
In this course we examine human biology and behavior from an evolutionary perspective, comparing our anatomy, physiology, and behavior to those of living primates and other mammals. We will discuss the relative roles of genes ("nature") and environment ("nurture"), the biological basis of behavior, local biological adaptations evident in modern human populations, growth and development, and diet and disease. Students will actively engage in the development of scientific hypotheses, data collection, and data synthesis analysis, as part of laboratory research experiences throughout the semester. Material covered will help prepare students to understand and evaluate recent advances in genetics, behavioral studies, medicine, and evolution.

3 hrs
3 cr.

2. Choose One Biology Sequence

**BIOL 10000 (STEM) - Principles of Biology I**

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: MATH 12500, CHEM 10200*

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

*spring only*

**BIOL 10200 (STEM) - Principles of Biology II**

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.*

7 hrs (3 lec, 3 lab, 1 disc)
CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.
prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

- OR-

BIOL 12000 - Anatomy and Physiology I

Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program.
Not accepted for credit toward the biology major.
prereq: CHEM 10000, 10100
coreq: CHEM 12000, 12100
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.
fall only

BIOL 12200 - Anatomy and Physiology II

Structure and function of circulatory, digestive, excretory, endocrine and reproductive systems. Basic concepts of metabolism, embryology. Required for admission to the nursing program.
Not accepted for credit toward the biology major.

**prereq:** BIOL 12000 or equiv.

7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.

**CHEM 12000 (STEM) - Essentials of Organic Chemistry Lecture**

**Hunter Core**
Life and Physical Sciences (LPS): Scientific World (SW)

**Pluralism and Diversity**
GER 2/E

Course presents essential facts, laws and theories of organic chemistry.

Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health education students.

*Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.*

**prereq:** CHEM 10000

4 hrs (3 lec, 1 rec)
3 cr.

**CHEM 12100 (STEM) - Essentials of Organic Chemistry Laboratory**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
GER 2/E

Experiments designed to illustrate fundamental laws and techniques of organic chemistry.
Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health students.

*Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.*

**prereq:** CHEM 10100
**prereq or coreq:** CHEM 12000

3 hrs (3 lab)
1.5 cr.

3. Choose One Statistics course

**STAT 11300 - Elementary Probability and Statistics**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics
or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

-or-

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

(or appropriate score on placement exam)
* if not taken in Biology Sequence 1

B. One the Following Three Tracks

Choose ONE of the following THREE Tracks and complete 18 credits of coursework within that track (9 of the 18 credits must be at the 300+ level. The 18 credits must come from more than one department)

Track I: Body, Mind, & Health

ANTHP 30200 - Human Genetics
Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

**prereq:** ANTHP 10100 or ANTHP 10200 or BIOL 10200 or ANTHP 10500
3 hrs
3 cr.

**ANTHP 30500 - Evolution of the Human Skeleton**

The goal of this course is to understand the biology of the human skeleton: know all of the bones of the human body, how they work, and how they evolved. This course will cover basic bone and muscle biology, bone and bone landmark identification, basic dental anatomy, basic functional interpretation, and discuss the evolution of the human skeleton with comparisons to great ape and fossil material. Typically, there will be two class periods spent on a given topic: the first class meeting will be a lecture and the second class meeting on a given topic will provide a laboratory-type setting where students can handle and work with real osteological specimens and/or fossil casts. Occasionally, the first half of a class period will be a lecture, and the second half will be a lab. Worksheets/Study Guides will be provided and are expected to be completed by the end of the lab. In order to become skilled in bone identification and do well in the course, additional study time with the bones will most likely be necessary. We will set up a system to encourage and facilitate study time outside of class.

**prereq:** ANTHP 10100 (Intro. to Physical Anthropology: Human Evolution) or ANTHP 10200 (Intro. to Physical Anthropology: Human Variation) or ANTHP 10500 (The Human Species) or BIOL 10200 (Principles of Biology 2).
3 hrs.
3 cr.

**ANTHP 30600 - Human Anatomy**

The goal of this course is to understand basic human anatomy: know all of the bones, muscles, major nerves and vessels in the human body, how they are organized, and how they function. Typically, there will be two class periods spent on a given topic: the first class meeting will be a lecture and the second class meeting on a given topic will provide a laboratory setting where students can handle and work with real osteological specimens and/or anatomical models. A given lecture will provide a synthesis of a particular anatomical region and the hands-on details of regional anatomy will then be learned in the associated laboratory session. To gain the most from each lecture and laboratory session, you must do the assigned readings and relevant exercises in the lab workbook beforehand. The laboratory workbook is a required acquisition. Any anatomy textbook will provide you with the necessary reading for lectures, and the purchase of an anatomy atlas is highly recommended as well. In order to do well in the course, additional study time with the anatomical models may be necessary. We will set up a system to encourage and facilitate study time outside of class.

**prereq:** ANTHP 10100 (Intro. to Physical Anthropology: Human Evolution) or ANTHP 10200 (Intro. to Physical Anthropology: Human Variation) or ANTHP 10500 (The Human Species) or BIOL102 (Principles of Biology 2) or BIOL 12200 (Anatomy & Physiology 2).

3 hrs.

3 cr.

**BIOL 12500 (STEM) - Human Biology**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
GER
An introductory lecture/laboratory course for non-biology majors. BIOL 12500 explores the biology that underlies current health and disease topics (including diabetes, cancer, heart disease, sexually transmitted diseases, and nutrition). Using this topics approach, the course provides a survey of human anatomy and physiological function, along with the biological principles of genetics and cellular interactions that comprise our current understanding of the human organism. Laboratory exercises will introduce students to a scientific approach in studying human disease and physiology.

6 hrs
4.5 cr.
spring only

BIOL 15000 (STEM) - CSI: HUNTER (Forensic Biology)

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

GER
GER 2/E with lab

An introductory laboratory course for non-biology majors. This lecture/laboratory course will cover the techniques used by forensic scientists to analyze a crime scene, and the biological concepts behind them. Through the topics that are covered, students will learn how biological evidence like fingerprints, hair, blood, and DNA are collected, analyzed, and presented as evidence to solve crimes. Required for this course is a 10 minutes PowerPoint presentation in groups in four students. In order to prepare for the presentation, a two page outline from each student is expected. In addition, a group assignment of less than 5 pages long will be assigned as preparation of the presentation. This assignment helps students prepare for a "crime scene" that will be designed by the group using the topics and materials provided in class. Further research for this project is encouraged using library materials or the WWW to provide supplemental information, ideas and images. The laboratory component of the course requires that students record their data, observations, and answer discussion questions (in a short answer format). The completion of their laboratory manual will constitute part of the laboratory grade.

6 hrs
4.5 cr.
fall only

BIOL 22000 - Topics in Genetics and Evolution

GER
3/B

prereq: BIOL 10000 or equiv.
3 hrs
3 cr.
spring only

BIOL 25000 - Current Topics in the Biosciences (W)
GER 3/B

Seminar focusing on topics of current relevance such as the science of pharmaceuticals, vaccine development, and environmental quality standards. Coverage includes not only the science, but the social, legal, political and ethical issues associated with each topic. This course will also examine how government agencies (eg. FDA, USDA, EPA) use science to form public policy.

prereq or coreq: ENGL 12000 or equiv, and 2 sems intro lab science or equiv, or perm instr
3 hrs
3 cr.
fall only

BIOL 30400 - Environmental Microbiology

GER 3/B

Role of microorganisms in normal and polluted environments: bioremediation, waste and water treatment, heavy metals, nutrient cycles, microbes as a food source, algal toxins, microbial pesticides, microbial indicators of mutagens and pollutants, microbial leaching of ores.
prereq: BIOL 10000, 10200, 20000 or perm instr.
3 hrs
3 cr.

BIOL 37600 - Endocrinology

GER 3/B

Cellular organization of the endocrine system; molecular mechanisms of hormone action; hormonal physiology of metabolism and reproduction; integration of endocrine responses by the central nervous system.
prereq: BIOL 20200 or perm instr.
3 hrs (lec)
3 cr.
spring only

COMHE 30300 - Social Structure and Health (W)

An exploration of the roles of economic structure and social linkages that shape health -- including power relations, interactions between subgroups within society, and tensions within groups over institutional control and individual agency.
prereq: acceptance to the COMHE major, or permission of the instructor
3 hrs
3 cr.

COMHE 30600 - Social Disparities in Health

In depth examination of the social, cultural and political factors that influence and lead to health disparities and health inequalities. Course explores demographic trends in mortality and morbidity and the role of history, race, class, policy, and socioeconomic and cultural factors, and health literacy levels in the development and continuation of disparities in health. This course uses a social justice lens to understand health, health care and health disparities.
prereq: acceptance to the COMHE major or permission of the instructor.

3 hrs
3 cr.

COMHE 32800 - Public Health Biology

Introduction to population biology and ecological principles underlying public health and the relationship of biology to public health. Offers a basic understanding of the biological basis of core public health issues including infectious diseases, vaccines, genetic illnesses, neoplastic processes and environmental illnesses.

prereq: acceptance to the COMHE major or permission of the instructor
3 hrs
3 cr.

COMHE 33000 - Principles of Epidemiology

Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases.

prereq: Acceptance to the major, or permission of the instructor.
3 hrs
3 cr.

COMHE 40500 - Health Care Systems and Health Policy

Overview of U.S. health care system, official and voluntary agencies; introduction to administrative skills, especially those skills necessary for working the the health care field.

prereq: Acceptance to the COMHE major or permission of the instructor.
3 hrs
3 cr.

NFS 13100 - Food Science I

Basic principles of the chemical and physical nature of foods, food sanitation and safety; the nutritional value of food in relation to storage, processing and preparation.

Open to all students.
3 hrs
3 cr.

NFS 14100 - Nutrition

Fundamentals of the science of nutrition as they apply to individuals and society.

Open to all students.
3 hrs
3 cr.

NFS 33200 - Cultural Aspects of Food and Nutrition

Study of the way in which cultural, social and technological factors influence food behavior and dietary patterns.

Open to NFS majors only and need department permission.

prereq: NFS 13100, 14100, ANTHP 10100, SOC 101)
PHILO 25400 - Ethical Issues in Biology and Medical Care (W)

GER
3/B

Treats issues such as abortion, euthanasia, extraordinary means, confidentiality, human experimentation, genetic control and allocation of limited life-saving therapy.

prereq: ENGL 12000 and one previous course in philosophy.

3 hrs
3 cr.

PSYCH 10000 - Introduction to Psychology

GER
2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.

3 hrs
3 cr.

PSYCH 17000 - Psychology of Human Sexuality

Pluralism and Diversity
PD/C
GER
2/B

Psychological foundations, sexual development and response patterns; male and female roles; individual and social attitudes, legal issues.

cross-listed WGS 17000

prereq: PSYCH 10000

3 hrs
3 cr.

PSYCH 18000 - Brain and Behavior

GER
2/B

Brain structure, function and relation to behavior. Topics include the neural basis of perception, learning and memory, consciousness, motivation, emotion.

prereq: PSYC 10000

3 hrs
3 cr.
PSYCH 21000 - Child Development (D/S)

GER
3/B

Emotional, social, motor and cognitive development as influenced by genetic, cultural and individual factors during the first twelve years of life. (May not be taken for credit by students who have a collateral major, or a minor, in education.)

Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

WGSP 25100 - Women and Health

Pluralism and Diversity
PD/C
An exploration of health issues affecting women, particularly as these issues relate to the socialization of women, reproductive and sexual health, and medical practices.
cross-listed HED 20100
3 hrs
3 cr.

Track II: Human Evolution and Variation

ANTHP 10100 (STEM) - Human Evolution

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.
6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

ANTHP 21000 - Biology of the Living Primates

This survey-based course will examine the diversity of the Order: Primates. The course will focus on the habitats, life history, ecology, behavior, and conservation of the living primates from an evolutionary perspective.
3 hrs
3 cr.

ANTHP 30100 - Human Fossil Record

Pluralism and Diversity
PD/C
GER
The hominid fossil record of Africa, Asia and Europe. Human evolution as evidenced in fossil record.

prereq: ANTHP 10100, 10200, or equiv.
3 hrs
3 cr.

ANTHP 30200 - Human Genetics

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.

prereq: ANTHP 10100 or ANTHP 10200 or BIOL 10200 or ANTHP 10500
3 hrs
3 cr.

ANTHP 30500 - Evolution of the Human Skeleton

The goal of this course is to understand the biology of the human skeleton: know all of the bones of the human body, how they work, and how they evolved. This course will cover basic bone and muscle biology, bone and bone landmark identification, basic dental anatomy, basic functional interpretation, and discuss the evolution of the human skeleton with comparisons to great ape and fossil material. Typically, there will be two class periods spent on a given topic: the first class meeting will be a lecture and the second class meeting on a given topic will provide a laboratory-type setting where students can handle and work with real osteological specimens and/or fossil casts. Occasionally, the first half of a class period will be a lecture, and the second half will be a lab. Worksheets/Study Guides will be provided and are expected to be completed by the end of the lab. In order to become skilled in bone identification and do well in the course, additional study time with the bones will most likely be necessary. We will set up a system to encourage and facilitate study time outside of class.

prereq: ANTHP 10100 (Intro. to Physical Anthropology: Human Evolution) or ANTHP 10200 (Intro. to Physical Anthropology: Human Variation) or ANTHP 10500 (The Human Species) or BIOL 10200 (Principles of Biology 2).
3 hrs.
3 cr.

ANTHP 30600 - Human Anatomy

The goal of this course is to understand basic human anatomy: know all of the bones, muscles, major nerves and vessels in the human body, how they are organized, and how they function. In order to do well in the course, additional study time with the anatomical models may be necessary. We will set up a system to encourage and facilitate study time outside of class.

prereq: ANTHP 10100 (Intro. to Physical Anthropology: Human Evolution) or ANTHP 10200 (Intro. to Physical Anthropology: Human Variation) or ANTHP 10500 (The Human Species) or BIOL102 (Principles of Biology 2) or
BIOL 12200 (Anatomy & Physiology 2).
3 hrs.
3 cr.

ANTHP 31000 - Primate Ecology and Behavior

GER
3/B

Examination of ecological factors responsible for the distribution and behavior of living primate species.
prereq: ANTHP 10100 or 10200 or BIOL 10000 or 10200
3 hrs
3 cr.

ANTHP 31100 - Primate Evolution

GER
3/B

65 million years of evolution covering the appearance and radiation of our own mammalian Order. A detailed look at
the primate fossil record and the evolution of primate anatomy, behavior, and ecology.
prereq: ANTHP 10100 or perm instr.
3 hrs
3 cr.

ANTHP 31200 - Primate Evolutionary Genetics

Examines evolutionary relationships, social behavior, natural selection, disease, population history, demography,
medicine and genomics. This course draws on readings from the primary literature.
prereq: ANTHP 10100 OR ANTHP 10200 OR BIOL 10200 OR ANTHP 10500
3 hrs
3 cr.

ANTHP 31600 - Human Evolutionary Adaptations

GER
3/B

How does the human body work, and how did it get that way? This course investigates the workings and evolution of
all aspects of human biology. Human physiology is considered in an evolutionary framework.
prereq: ANTHP 10100 or ANTHP 10500
3 hrs
3 cr.

ANTHP 31800 - Primate Nutritional Ecology

This course will examine how primates meet their nutritional needs through interactions with their environments. From
an evolutionary perspective, the course will address primate feeding and digestion, foraging theory and dietary
methods.
**prereq:** ANTHP 10100 (Intro. to Physical Anthropology: Human Evolution) or BIOL 10200 (Principles of Biology 2) or ANTHP 105 (The Human Species) or ANTHP 21000 (Biology of the Living Primates

3 hrs.

3 cr.

**BIOL 12500 (STEM) - Human Biology**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**GER**
2/E w/ lab

An introductory lecture/laboratory course for non-biology majors. BIOL 12500 explores the biology that underlies current health and disease topics (including diabetes, cancer, heart disease, sexually transmitted diseases, and nutrition). Using this topics approach, the course provides a survey of human anatomy and physiological function, along with the biological principles of genetics and cellular interactions that comprise our current understanding of the human organism. Laboratory exercises will introduce students to a scientific approach in studying human disease and physiology.

**GER**
3/B

*prereq: BIOL 10000 or equiv.*

3 hrs

3 cr.

*spring only*

**BIOL 32200 - Evolution**

**GER**
3/B

Modern synthetic theory, genetic basis of variation, gene pool in populations.

*prereq: BIOL 30000*

3 hrs (lec)

3 cr.

*not offered 2015-16*

**PSYCH 16000 - Evolution and Behavior**

**GER**
2/B
Aggression, sleep, learning, communication, emotion, motivation and social behavior in human and other species; underlying mechanisms, development, evolutionary history.

**Prerequisites:**
- PSYC 10000
- 3 hrs
- 3 cr.

**PSYCH 22500 - Ethology: Animal Behavior (B)**

**GER**
- 3/B

Adaptation, survival, reproduction and evolution of behavior, emphasizing development and species-comparison.

**Writing Intensive**
- Prerequisite: PSYCH 10000 and any other 3 cr PSYCH course
- Corequisite: ENGL 12000
- 3 hrs
- 3 cr.

**Track III: Human Organizations**

**ANTHC 10100 - Introduction to Cultural Anthropology**

**Hunter Core**
- Individual and Society (Social Sciences) - I&S SS

**Pluralism and Diversity**
- PD/A

**GER**
- 2/B

Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.

- 3 hrs
- 3 cr.

*offered every sem.*

**ANTHC 12600 - Introduction to Prehistoric Archaeology**

**Hunter Core**
- World Culture and Global Issues (WCGI)

**GER**
- 2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.

- 3 hrs
- 3 cr.

*offered every sem.*

**ANTHC 12700 - Methods In Archaeological Science**
**Hunter Core**

**SW**

Introduction to theory and method of scientific research in archaeology.

_prereq: ANTHC 12600 or perm instr._

3 hrs

3 cr.

---

**ANTHC 23200 - Archaeology of South America and the Caribbean**

**GER**

3/B

Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.

_prereq: ANTHC 12600 or perm instr._

3 hrs

3 cr.

---

**ANTHC 30100 - Gender in Anthropological Perspective**

**Pluralism and Diversity**

**PD/C**

**GER**

3/B

Men and women in different societies, division of labor, socialization, stratification, political activism and gender construction.

_cross-listed WGSC 30100_

_prereq: ANTHC 10100 or perm instr._

3 hrs

3 cr.

---

**ANTHC 30800 - Human Ecology**

**Pluralism and Diversity**

**PD/A**

**GER**

3/B

Relationship between human populations and environment; ecosystems, population interactions, resource management and environmental movements.

_prereq: ANTHC 10100 or perm instr._

3 hrs

3 cr.

---

**ANTHC 30900 - Countryside and City: Comparative Perspectives**

Rural-urban connections and the transformations that affect rural areas and peoples in diverse parts of the world.

_prereq: ANTHC 10100 or perm instr._

3 hrs

3 cr.
ANTHC 31200 - Anthropological Approaches to Sexuality

Pluralism and Diversity
PD/C
GER
3/B

Documents the social construction of human sexuality through an examination of sexual variation cross-culturally and over recent history, including the development of sexually defined communities and identities within contemporary societies.

prereq: ANTHC 10100
3 hrs
3 cr.

ANTHC 31500 - Applied Anthropology

GER
3/B

Practical applications of theory and methods to contemporary social problems; community development; inter-cultural relations.

prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 32700 - Prehistoric Cultural Ecology

GER
3/B

Survey of selected problems in human evolution and adaptation from an ecological perspective.

prereq: ANTHC 12600 or perm instr
3 hrs
3 cr.

GEOG 24100 - Population Geography

Pluralism and Diversity
PD/B or C
GER
3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the “mechanics” of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

prereq: GEOG 10100 or GEOG 15000 or perm instr.
3 hrs
3 cr.

PSYCH 10000 - Introduction to Psychology
An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.

3 hrs
3 cr.

PSYCH 17000 - Psychology of Human Sexuality

Pluralism and Diversity
PD/C
GER
2/B

Psychological foundations, sexual development and response patterns; male and female roles; individual and social attitudes, legal issues.
cross-listed WGSS 17000
prereq: PSYCH 10000
3 hrs
3 cr.

PSYCH 19000 - Development of Gender Roles

Pluralism and Diversity
PD/C
GER
2/B

Social, cognitive, hormonal and personality factors in development of gender roles; determinants of behavioral and cognitive gender differences.
cross-listed WGSS 19000
prereq: PSYCH 10000
3 hrs
3 cr.

PSYCH 23000 - Social Psychology (D/S)

GER
3/B

Problems of human experience and behavior in the social context; theories and current methodology in research on the influence of the group on cognitive processes, motivation, personality structure and the self; attitudes and prejudice; leadership; group processes.
Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.
SOC 10100 - Introduction to Sociology

Hunter Core
Individual and Society (Social Sciences) -I&S SS
GER
2/B

Development of sociological imagination through introduction and application of basic concepts incorporating global and comparative perspectives.
3 hrs
3 cr.

SOC 20100 - The Family

Pluralism and Diversity
PD/C
GER
3/B

Family functions and interaction. Factors affecting stability and instability.
cross-listed WGSP 22300
prereq: SOC 10100
3 hrs
3 cr.

SOC 21700 - Race and Ethnicity

Italian - BA

Major

The Italian major provides two concentrations:

a. Italian Literature (30 cr)

b. Italian Language and Civilization (30 cr.)

Preparation for Teaching French, Spanish or Italian Adolescent Education (grades 7-12)

Students pursuing adolescent education must complete the 30 or 36 credit major in one of these languages and, in addition, complete the course in second language acquisition (3 cr). The 23-credit pedagogical sequence in adolescent education will serve as the minor. See the The School of Education section of the catalog for further information.

Minor in Italian (12 cr)

Prerequisite for the minor

ITAL 20200 - Intermediate Italian II

Language lab mandatory.
There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 101, 102, 201, 202) and an intensive sequence (ITAL 103-203) that covers in one semester material normally covered in two.

prereq: ITAL 201 or three yrs high school Italian
3 hrs
3 cr.

- or -

3 hrs
3 cr.

ITAL 33100 - Italian Phonetics and Diction

There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 101, 102, 201, 202) and an intensive sequence (ITAL 103-203) that covers in one semester material normally covered in two.

prereq: ITAL 202 or equiv.
3 hrs
3 cr.

Honors

Students qualified to graduate with departmental honors must take an honors course or equivalent approved by the departmental advisers. Departmental honors will be conferred upon a recommendation from the appropriate departmental committee. Candidates must present a paper of at least 7,000 typewritten words in the language of specialization. Consult the department for further information.

Graduate Study

Qualified seniors with a minimum GPA of 3.5 in their discipline may be admitted to graduate level courses. Permission must be secured from the chair and then forwarded to the dean. Consult the graduate catalog for requirements and regulations.

Study Abroad

All study abroad programs are open to students from Hunter College and other accredited institutions. Majors and minors in the Department of Romance Languages are strongly encouraged to participate in study abroad programs (see adviser for GPA requirements).

Qualified students can apply for financial aid and STOCS grants.
Hunter in Italy: Summer Program in Pescara, June-July, at the University of Pescara; Italian Language courses and Italian literature and culture courses taught in English.

**Winter Program Hunter in Florence**, held during January intersession, offers courses and Italian Culture and Literature taught in English.

3 cr. each

Minor in Jewish Studies

The minor in Jewish Studies consists of 12 credits in courses in Jewish studies of which at least 3 credits must be on topics in the history of the Jews or Judaism and at least 3 credits in Jewish literature, thought, religion, or one of the social sciences (sociology, anthropology, or political science). Students can apply to the minor up to 6 credits in Independent Studies (JS 30000 or JS 40000) or fieldwork (JS 31000). Up to six credits in Jewish studies taken at other institutions of higher learning may be applied to the minor. Jewish Studies minors cannot apply any 100-level courses to the minor.
Honors in Jewish Studies

Students will be eligible for honors in Jewish Studies upon completion of 24 credits in Jewish Studies with a 3.5 GPA and a 2.8 cumulative GPA at the time of graduation. To be eligible to graduate with honors in Jewish Studies, students can take the following JS 40000 (Individual Honors Project) or JS 41050/JS 41051 (Jewish Studies Seminar, I or II), HEBR 49100 (Honors Project) or graduate courses with special permission, with a grade of B or better. Eligible students should apply for honors at the time they file for graduation.

prereq: LAT 20100 or equiv. and Department Permission
3 hrs
3 cr.

Latin American and Caribbean Studies - BA

The specialization in Latin American and Caribbean Studies as a major leading to a BA degree consists of 24 credits. The core courses for the major are drawn from the social sciences, humanities, and arts. Following the program's goal of exposing the region's realities from the perspectives of various disciplines, no more than two courses from any single department may count for the 24 major credits. The program recommends that students take a 12-credit minor in one of the associated disciplinary departments. Students select courses for the major in consultation with the program's director or with a member of the Latin American and Caribbean Studies Faculty Advisory Committee.

The interdisciplinary specialization of the major will serve graduates well, whether they choose to seek employment in public or private organizations, pursue professional degrees, or go on to a graduate degree in the social sciences or humanities.

Language Requirement

Latin American and Caribbean Studies majors are required to demonstrate a reading knowledge of Spanish, Portuguese, or French, fulfilled at least one semester before graduation from the college.

Course Requirements for the Major

LACS students are required to take either LACS 33000 (a field course for students to study or intern in the region or intern in an institution in the New York area) or LACS 43400 (a course that comprises preparation of a major original research paper to be developed in close association with a mentor from the Latin American and Caribbean Studies Faculty Advisory Committee). ENGL 12000 is a prerequisite for program courses.

LACS 33000 - Latin America and the Caribbean Field Course/Internship
A field course for students to study in the region or who are interning in an institution either in the New York area or in the region. Major research paper based on field or internship experience.

3 cr.

**LACS 43400 - Seminar in Latin American and Caribbean Studies**

Open to sophomores, juniors, and seniors who have completed at least 18 credits in LACS or have instructor permission. Interdisciplinary reading, research, and discussion of selected topics involving cultural, economic, political, and social problems. Research paper required. May be repeated for a maximum of 6 edits.

3 cr.

**Departmental Honors**

LACS majors with a GPA above 3.5 are eligible to receive the Lily Mage Award.

**CR/NC Policy**

No CR/NC grades will be accepted in courses to meet LACS major requirements.

**Teaching**

In addition to its distinguished regular Hunter faculty, LACS offers students courses by excellent adjunct faculty.

**Mentoring**

Faculty mentoring is very important to the LACS Program. Majors should maintain regular contact with their mentors/advisers.

**Study Abroad**

Study abroad is encouraged for LACS majors. Study-abroad programs are offered through the Education Abroad Programs office at Hunter College.

**Course Offerings for LACS**

Course Offerings in LACS from Other Departments

**Africana and Puerto Rican/Latino Courses**

Courses from Africana and Puerto Rican Studies Department

3 hrs
3 cr.

WGS 20005 - Dominican and Haitian Literature and Culture

3 hrs
3 cr.

Major concentration in Spanish-English/English-Spanish translation and interpretation (36 cr)

This program prepares students for careers in the growing translation field. Students take courses in Spanish language, literature and civilization in conjunction with specialized courses in translation/interpretation theory and practice. Allied courses in English and related fields of study are required and must be approved by the program adviser. Sufficient flexibility is built into the program so that students may tailor certain requirements to fit their individual needs and interests. An intensive internship in translation and/or interpretation serves as the student’s capstone
experience and preparation for future professional settings. Please see the department of Romance Languages for more details regarding this new and innovative program of study.

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

**SPAN 10100 - Elementary Spanish I**

ANTHC 35300 - Phonological Analysis and Theory

GER 3/B

Phonetics of diverse languages, their phonemic analysis at different levels of theory, including distinctive feature analysis and phonological links to grammar.
prereq: ANTHC 15100 or equiv.

ANTHC 35400 - Grammatical Analysis and Theory

GER 3/B

Methods of syntax and morphology in work with diverse languages; syntactic theories and their development relative to universals, semantics, pragmatics, discourse.
prereq: ANTHC 15100 or equiv.

AFPRL 18100 - Language and Ethnic Identity

Hunter Core
Individual and Society (Social Sciences) -I&S SS

ENGL 33200 - History of the English Language (W)

The diversity and spread of English across the globe. The effects of language contact on English.
prereq: ENGL 22000

MEDP 20100 - Reporting and Writing I (W)

The sequence will introduce students to the fundamentals of reporting through interviews, observation and documentary research, and to the forms in which journalists present their reporting. It will also ask them to grapple with some of the ethical, legal and technological issues facing contemporary journalism, and will provide a basic understanding of the workings of state and city government.
prereq: MEDIA 18000

MEDP 20200 - Reporting and Writing 2(W)
The sequence will introduce students to the fundamentals of reporting through interviews, observation and documentary research, and to the forms in which journalists present their reporting. It will also ask them to grapple with some of the ethical, legal and technological issues facing contemporary journalism, and will provide a basic understanding of the workings of state and city government.

prereq: MEDP 20100
3 hrs
3 cr.

THEA 16100 - Acting I: Basic Acting Techniques

For intended majors and non-majors. Exploration of the fundamentals of acting technique through exercises and improvisation.

coreq: .
3 hrs
3 cr.

THEA 26100 - Acting II: American Realism

GER
3/A

Fundamentals of scene study focusing on text analysis, personalization, objective and action using American realism.

prereq: THEA 16100 or perm instr.
4 hrs
3 cr.

THEA 26200 - Acting III: World Realism

GER
3/A

Continuation of scene study focusing on text analysis, personalization, objective and action using the world realistic repertory, such as the plays of Chekhov, Ibsen and Strindberg.

prereq: THEA 26100 or perm instr.
coreq: THEA 26300
4 hrs
3 cr.

Mathematics - BA

return to Mathematics BA Programs

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.
MATH 12500 (STEM) - Precalculus

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*

4 hrs
4 cr.

MATH 15000 (STEM) - Calculus with Analytic Geometry I

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

*prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.*

4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

*prereq: grade of C or better in MATH 15000*

4 hrs
4 cr.

**Hunter Core Requirement**
Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement.

**Major**

To enter the standard Mathematics Major, the student should have completed the Foundational Courses of one year of calculus (MATH 15000 (STEM) and MATH 15500 (STEM), or the equivalent). The major consists of at least 33 credits of coursework: 24 credits of core curriculum courses and at least 9 credits of advanced elective courses chosen by students according to their career plans. Proficiency in symbolic computation is also required.
Major Core Curriculum (24 cr)

MATH 15600 - Introduction to Mathematical Proof Workshop

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

prereq: MATH 15000
prereq or coreq: MATH 15500
2 hrs
1 cr.

MATH 25000 - Calculus with Analytic Geometry III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

prereq: MATH 15500
4 hrs
4 cr.

MATH 25400 - Ordinary Differential Equations

GER
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

prereq: MATH 25000
3 hrs
3 cr.

MATH 25500 - Vector Analysis

GER
3/B

Line and surface integrals, Green's Theorem, divergence theorem, Stokes' Theorem, generalized coordinates.

prereq: MATH 25000
3 hrs
3 cr.

MATH 26000 - Linear Algebra

GER
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

prereq: MATH 15600
prereq or coreq: MATH 25000
MATH 31100 - Abstract Algebra I

GER
3/B

Introduction to the theory of groups and rings.
_prereq:_ MATH 26000
3 hrs
3 cr.

MATH 35100 - Mathematical Analysis I

GER
3/B

Rigorous treatment of foundations of calculus, including topology of real line and higher dimensional spaces. Basic results on continuous functions.
_prereq:_ MATH 25000, 26000
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.
_prereq:_ MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

-or-

STAT 31100 - Probability Theory

GER
3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.
_prereq:_ MATH 25000.
3 hrs
3 cr.

Elective Courses
The student must complete three 3-credit approved elective courses. The elective courses must be chosen from the 300- or 400-level courses in mathematics or statistics listed by the department. Factors affecting the choice of courses will include the student’s career goals (preparation for graduate study; education; careers in business, government service or industry), the student’s other major, where applicable, and the availability of courses due to the course rotation schedule. A 300-level course may be replaced by a graduate level course approved by a departmental adviser.

Symbolic Computation Proficiency Requirement

As a requirement for graduation with a BA in Mathematics, students must demonstrate entry level proficiency in symbolic computation. The requirement can be met in any of the following ways:

a) passing any of

**MATH 12600 - Precalculus Technology Laboratory**

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: MATH 12500
2 hrs
1 cr.

**MATH 15400 - An Introduction to Symbolic Computation**

Laboratory introduction to machine-aided computation with an emphasis on examples related to calculus. Students use a symbolic computation package to investigate and solve problems numerically, analytically and graphically. The same package is used to create reports of their results.

prereq: MATH 15000
2 hrs
1 hr.

**MATH 38500 - Numerical Methods I**

GER
3/B

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations.

prereq: MATH 25000 and MATH 26000 or permission of the instructor
3 hrs
3 cr.

b) passing a departmental exam in a computer algebra system (currently we use MATHEMATICA or the equivalent)
Mathematics BA Programs

The mathematics major introduces students to the fundamental areas of mathematics and provides some degree of specialization in one or more areas. It trains students in the analytic thinking characteristic of pure and applied mathematics and provides familiarity with rigorous methods of mathematical proof. In addition to offering a standard Mathematics Major, described below, the department also offers a number of specialized undergraduate tracks for students interested in pursuing careers in bioinformatics or in preparing for teaching: the concentration in Quantitative Biology, the concentration in Preparation for Adolescent Education (grades 7-12), and the concentration in Preparation for Childhood Education (grades 1-6).

Students interested in pursuing mathematics at the advanced graduate level are urged to participate in the BA/MA program in Mathematics. The BA/MA program in Preparation for Adolescent Education leads to initial certification in adolescent education (grades 7-12) in mathematics. Certification may also be received by completing the BA degree with a Mathematics Major and then completing the MA in adolescent education in mathematics.

Mathematics - BA
Mathematics Concentration in Preparation for Adolescent Education (Grades 7-12) - BA
Mathematics Major with a Concentration in Quantitative Biology - BA
Mathematics Concentration in Preparation for Childhood Education (Grades 1-6) - BA
Mathematics or Statistics and Applied Mathematics - BA/MA
Mathematics Preparation for Adolescent Education (Grades 7-12) - BA/MA

Honors

A student majoring in mathematics or statistics may become a candidate for departmental honors by successfully completing MATH 49000 or STAT 48600, by presenting a major GPA of at least 3.6 and by achieving a satisfactory rating on a comprehensive examination.

MATH 49000 - Honors Seminar

GER
3/B

prereq: MATH 31100, 35100, departmental permission
3 hrs
3 cr.

-or-

STAT 48600 - Modeling and Visualization

GER
3/B

The development of continuous mathematical models, the resolution of the resulting differential equations by numerical techniques and the visualization of the simulated data. Problems come from various areas of the social, biological and physical sciences. Project required. Course may be used to qualify for departmental honors.

prereq: departmental permission
3 hrs
3 cr.
Minor in Mathematics

A minor in mathematics consists of a minimum of 12 credits selected from any of the following courses offered by the Department:

- MATH courses numbered MATH 15000 or above

**STAT 31100 - Probability Theory**

**GER**

3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.  
*prereq: MATH 25000.*

3 hrs  
3 cr.

**STAT 31200 - Stochastic Processes**

**GER**

3/B

Discrete and continuous stochastic processes including Markov chains, birth processes, queues and Brownian motion.  
*prereq: STAT 31100.*

3 hrs  
3 cr.

Students should consult the catalog to determine prerequisites necessary for them to enroll in courses that count toward the minor. It is recommended that prospective mathematics minors consult with an undergraduate mathematics adviser concerning course selection.

**Mathematics Concentration in Preparation for Adolescent Education (Grades 7-12) - BA**

return to Mathematics BA Programs

Provisional certification for teaching mathematics in grades 7-12 may be obtained by:

- Completing the BA with a standard mathematics major, and
- Completing the adolescent education sequence as prescribed by the The School of Education.

Students following this concentration in the mathematics major should consult a departmental adviser as to which advanced elective courses are recommended to complete 33 or more credits in the major.

**Mathematics Concentration in Preparation for Childhood Education (Grades 1-6) - BA**

return to Mathematics BA Programs

This concentration constitutes a mathematics major for students in the Quality Urban Elementary School Teacher (QUEST) program. QUEST students majoring in mathematics are not exempt from the MATH 10400 (STEM)/MATH
10500 requirement. To enter this major, the student should have completed one semester of calculus (MATH 15000 (STEM) or the equivalent). The specified collateral major is Childhood Education. This mathematics major consists of at least 32 credits of coursework: 20 credits of major core curriculum courses and at least 12 additional credits, as described below.

The student should consult the School of Education for the sequence of teacher education courses in the Childhood Education (QUEST) major.

**Major Core Curriculum (20 credits)**

**MATH 15400 - An Introduction to Symbolic Computation**

Laboratory introduction to machine-aided computation with an emphasis on examples related to calculus. Students use a symbolic computation package to investigate and solve problems numerically, analytically and graphically. The same package is used to create reports of their results.

*prereq: MATH 15000
2 hrs
1 hr.*

**MATH 15500 (STEM) - Calculus with Analytic Geometry II**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

*prereq: grade of C or better in MATH 15000
4 hrs
4 cr.*

**MATH 15600 - Introduction to Mathematical Proof Workshop**

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

*prereq: MATH 15000
prereq or coreq: MATH 15500
2 hrs
1 cr.*

**MATH 16000 - Matrix Algebra**

**GER**

1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

*prereq: MATH 12500 or appropriate score on placement exam
3 hrs
3 cr.*
MATH 25000 - Calculus with Analytic Geometry III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

 prerequisites: MATH 15500

4 hrs
4 cr.

MATH 26000 - Linear Algebra

GER
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

 prerequisites: MATH 15600
 prerequisites or corequisites: MATH 25000

4 hrs
4 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning

GER
1/B

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

 prerequisites: MATH 12500 or appropriate score on placement exam.

3 hrs
3 cr.

Additional Required Courses (at least 12 credits)

STAT 21200 - Discrete Probability

Hunter Core
Math/Quantitative Reasoning

GER
1/B

Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

 prerequisites: MATH 12500 or STAT 11300 or appropriate score on placement exam.

3 hrs
3 cr.

STAT 22000 - Statistical Analysis in Forensics
A second course in probability and statistics and the evaluation of evidence in the forensic sciences.

 prereq: STAT 21200 and either STAT 21300 or 11300 by permission of instructor. One of the above, i.e., STAT 21200 or STAT 21300 or STAT 11300 by permission of instructor may be taken as a coreq.

3 hrs
3 cr.

- Two additional courses approved by a departmental adviser

**Mathematics Major with a Concentration in Quantitative Biology - BA**

return to Mathematics BA Programs

This program is for students intending to pursue research careers in biomedical sciences. It provides students with a working knowledge of computing and biological sciences for bioengineering careers in bioinformatics, the pharmaceutical industry, and the biotechnology industry.

**Foundational Courses**

The requirements for the mathematics major, which also apply to the bioinformatics concentration, are the entry requirements of MATH 15000: Calculus with Analytic Geometry I (4 cr) and MATH 15500: Calculus with Analytic Geometry II (4 cr), the symbolic computation proficiency requirement, which is met by taking STAT 31900, and the following major core curriculum. Students may be except of some of these courses by placement. Please contact the Department for information on exceptions.

**Entry Requirements**

**MATH 12500 (STEM) - Precalculus**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

 prereq: grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs
4 cr.

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**

Math/Quantitative Reasoning
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

The Following Courses with B- or better

In order to enroll in the quantitative biology concentration within the mathematics major, students must obtain an average of B- or better in the following courses:

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.
prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10500 (STEM) - General Chemistry Laboratory II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)

**Pluralism and Diversity**
GER 2/E

Laboratory experiments illustrating and applying theory of solutions to qualitative analysis. Offered for transfer students who have completed only one semester of General Chemistry Laboratory.

*prereq: One semester of General Chemistry Laboratory.*

*prereq or coreq: CHEM 10400*

3 hrs
1.5 cr.

**CHEM 22200 - Organic Chemistry Lecture I**

**GER**

GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

*Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.*

*prereq: CHEM 10400 with a grade of C or better*  
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**

PD/C or D

**GER**

2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: MATH 12500, CHEM 10200*

7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

*spring only*

In addition, no more than one (1) of these four courses may be passed with a grade of C.

Requirements for the Major
Symbolic Computation Proficiency Requirement

As a requirement for graduation with a BA in Mathematics, students must demonstrate entry level proficiency in symbolic computation. The requirement can be met in any of the following ways:

a) passing any of

**MATH 12600 - Precalculus Technology Laboratory**

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving precalculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: MATH 12500*

2 hrs
1 cr.

**MATH 15400 - An Introduction to Symbolic Computation**

Laboratory introduction to machine-aided computation with an emphasis on examples related to calculus. Students use a symbolic computation package to investigate and solve problems numerically, analytically and graphically. The same package is used to create reports of their results.

*prereq: MATH 15000*

2 hrs
1 hr.

**MATH 38500 - Numerical Methods I**

*GER
3/B*

Accuracy and precision, convergence, iterative and direct methods. Topics selected from: solution of polynomial equations and linear systems of equations, curve fitting and function approximation, interpolation, differentiation and integration, differential equations.

*prereq: MATH 25000 and MATH 26000 or permission of the instructor*

3 hrs
3 cr.

b) passing a departmental exam in a computer algebra system (currently we use MATHEMATICA or the equivalent)

Major Core Curriculum

**MATH 15600 - Introduction to Mathematical Proof Workshop**

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.
prereq: MATH 15000
prereq or coreq: MATH 15500
2 hrs
1 cr.

MATH 25000 - Calculus with Analytic Geometry III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.
prereq: MATH 15500
4 hrs
4 cr.

MATH 25400 - Ordinary Differential Equations

GER
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.
prereq: MATH 25000
3 hrs
3 cr.

MATH 25500 - Vector Analysis

GER
3/B

Line and surface integrals, Green's Theorem, divergence theorem, Stokes' Theorem, generalized coordinates.
prereq: MATH 25000
3 hrs
3 cr.

MATH 26000 - Linear Algebra

GER
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.
prereq: MATH 15600
prereq or coreq: MATH 25000
4 hrs
4 cr.

MATH 31100 - Abstract Algebra I

GER
3/B
Introduction to the theory of groups and rings.

prereq: MATH 26000
3 hrs
3 cr.

MATH 35100 - Mathematical Analysis I

GER
3/B

Rigorous treatment of foundations of calculus, including topology of real line and higher dimensional spaces. Basic results on continuous functions.

prereq: MATH 25000, 26000
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

STAT 31100 - Probability Theory

GER
3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.

prereq: MATH 25000.
3 hrs
3 cr.

Additional Required Courses

STAT 31900 - Bayesian Statistical Inference in the Sciences

GER
3/B

Fundamental principles and techniques of probability, statistical inference and data analysis, as pertains to the sciences, especially bioinformatics. Random variables and their distributions. Central limit theorem. Conditional probability, Markov chains and Hidden Markov Models. Bayesian statistical paradigm and inference using Markov chain Monte
Carlo. Computer simulations and data analysis.  
\textit{prereq: MATH 15500; at least one of STAT 21200, STAT 21300 or STAT 21400 (or permission of instructor).}
Prerequisites waived for students who have passed STAT 311.  
Familiarity with matrix algebra (at the level of MATH 160) and with the Windows computing environment are encouraged.  
3 hrs  
3 cr

\textbf{CSCI 13200 - Practical UNIX and Programming, with Lab}

\textbf{Hunter Core}  
Scientific World (SW)  
\textbf{GER}  
2/E  
An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition.  
This course cannot be counted towards the CSCI major.  
\textit{prereq: none}  
3 hrs  
3 cr.

\textbf{CSCI 23200 - Relational Databases and SQL Programming, with Lab}

\textbf{GER}  
3/B  
An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment.  
Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.  
\textit{prereq: CSCI 12700 or CSCI 13200}  
3 hrs  
3 cr.

\textbf{CHEM 10200 (STEM) - General Chemistry I}

\textbf{Hunter Core}  
Scientific World (SW); Life and Physical Sciences (LPS)  
\textbf{GER}  
2/E  
In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.  
Primarily for pre-med, medical laboratory sciences and science majors.  
\textit{Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.}

\textit{prereq or coreq: MATH 12500, 15000 or equiv.}
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10500 (STEM) - General Chemistry Laboratory II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
Pluralism and Diversity
GER 2/E

Laboratory experiments illustrating and applying theory of solutions to qualitative analysis.

Offered for transfer students who have completed only one semester of General Chemistry Laboratory.

prereq: One semester of General Chemistry Laboratory.
prereq or coreq: CHEM 10400
3 hrs
1.5 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

**BIOL 20300 - Molecular Biology and Genetics**

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, micro RNA function, and translation will be extensively covered. Prokaryotic and eucaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eucaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.
(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)
coreq: CHEM 22200, 22300 or perm instr.
7 hrs
4.5 cr.
spring only

**BIOL 42500 - Computational Molecular Biology**

GER
3/B

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of in silico biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and predication of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting.

Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.
3 hrs
3 cr.

**Note:**

For more information about this concentration, visit: http://www.hunter.cuny.edu/qubi/mathematics-majors

**Media Studies - BA**
Hunter Core Requirement

Courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement.

Major (36 cr)

Students must receive a grade of B or better in MEDIA 18000 to declare a major in Media Studies. The major must be declared in person with an undergraduate media studies adviser. (see department website for adviser schedules http://fm.hunter.cuny.edu/).

Students will be able to do a

Media Studies BA: General Media Studies Major

but may choose one of the concentrations in the major. These concentrations are

Media Studies BA: Concentration in Media Analysis and Criticism
Media Studies BA: Concentration in Documentary and Television Production
Media Studies BA: Concentration in Journalism
Media Studies BA: Emerging Media

However, these concentrations are optional; as long as they satisfy the General Media Studies Major requirements, students may combine courses from different concentrations.

Students majoring in Media Studies must take the following introductory courses. These courses count toward the major.

MEDIA 18000
FILMP 15000/MEDP 15000
FILMP 16000/MEDP 16000

A maximum of 6 credits in FILM or FILMP courses at the 200- or 300-level may be applied toward the major in media studies. Students must meet any prerequisites for these courses. Courses in Independent Study, Honors Project, and Internship do not count toward the major. Students must consult a program adviser to plan choice and sequence of courses.

Double Majors

Students may choose to complete a major in the Department of Film and Media Studies and a second major in another department. A student cannot declare a double major in film and media studies. Because of the intensive nature of the production courses in both Film and Media Studies, it is strongly recommended that all students take no more than two production courses per semester.

Minor in Media Studies

The Minor in Media Studies consists of five courses for a total of 15 credits. At least one 200-level course and at least one 300-level course are required. The other three courses can be at any level. Course prerequisites must be
satisfied. Internships and independent studies do not count towards the minor. Courses may be taken as either MEDIA or MEDP.

Honors

To qualify for departmental honors in Film or Media Studies, a student must have a 3.5 grade point average in major courses and a 3.0 grade point average overall. The student must also either complete an Honors Project FILM 40200 or MEDIA 40200, approved by the Department Policy and Curriculum Committee, with a grade of A; or a 400-level production or analytical seminar course with a grade of A. See the department for more information.

Media Studies BA: Concentration in Documentary and Television Production

Return to Media Studies - BA

This concentration is intended to give students foundational knowledge in the theory and practice of linear non-fiction video and related digital media skills. Students in this concentration will also specialize in one of three advanced areas: Documentary Production, Experimental Media Production or Studio Television Production.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

In the case of the Media Studies major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Courses</th>
<th>CUNY Common Core</th>
<th>Foundational or Major</th>
</tr>
</thead>
<tbody>
<tr>
<td>MEDIA 18000</td>
<td>Individual &amp; Society</td>
<td>Major</td>
</tr>
</tbody>
</table>

Major- 36 credits

A. Introductory Courses (9 cr.)

MEDIA 18000 - Introduction to Media Studies

**Hunter Core**

- Individual & Society (Social Sciences) - I&S SS
- GER 2/C

Social, political, and economic factors that determine and shape products of media organizations.

*3 hrs*

*3 cr.*
**MEDP 15000 - Media and Film in a Digital Age Pt. 1**

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

*cross-listed FILMP 15000*

*prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)*

4 hrs

3 cr.

**MEDP 16000 - Media and Film in a Digital Age Pt. 2**

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

*cross-listed FILMP 16000*

*prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)*

4 hrs

3 cr.

**B. Required Production Courses (9 cr.)**

**MEDP 28100 - Documentary Video Production 1**

Students learn the camera, lighting, sound, editing and directing skills necessary to create documentary and other forms of linear non-fiction media.

Material Fee: $20

*prereq: MEDP/FILMP 16000*

3 hrs

3 cr.

**MEDP 29000 - Developing the Documentary (W)**

This workshop guides students through the research, writing and production planning essential for creating a video or film documentary.

*prereq: MEDIA 18000 and MEDP 16000*

3 hrs

3 cr.

Choice of one course from the following

**MEDP 31100 - Documentary Video Production 2**

Exploration of the aesthetics and practice of documentary form that provides students with an in-depth and hands-on understanding of preproduction and production of documentary video.

Material Fee: $20

*prereq: MEDP 28100 or FILMP 35200*

*prereq or coreq: MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.*

4 hrs

3 cr.

-or-
**MEDP 31600 - Experimental Production**

Experimental methods of film and video production, emphasizing innovative and non-traditional formal and conceptual practice.

*prereq: FILM 25100 or MEDP 28100 or perm. instr.*

3 hrs

3 cr.

**C. Elective Production Courses (9 cr.)**

These may be any regular 200- or 300-level MEDP courses. Any regular 200- or 300-level FILMP course counts toward this requirement as well, though students may only count up to 6 credits total of FILM or FILMP classes toward the major.

**D. Required Analytical Course (3 cr.)**

**MEDIA 31500 - Nonfiction Film and Video**

*GER*

3/A

Study of the history and theory of the nonfiction film and video, with screenings and examples of documentary, propaganda and direct cinema and video.

MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

*prereq: MEDIA 18000*

4 hrs

3 cr.

**E. Elective Analytical Courses (6 cr.)**

Two regular analytical courses may be chosen from any analytical offering, however it is strongly recommended that students consider analytical courses in relation to their area of production.

**F. Total (36 cr.)**

**Media Studies BA: Concentration in Journalism**

Return to Media Studies - BA

The journalism concentration offers a liberal arts approach to the study of news. Students will learn to gather information through observation, interviews, and research, to evaluate it and to communicate it through clear and compelling writing enhanced by photography, video, audio, and interactive features. In addition to a toolkit for newsgathering and presentation, they will gain a critical perspective through courses that offer a critical analysis of media.

**Hunter Core Requirement**
Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

Major-36 credits

A. Introductory Courses (9 cr.)

**MEDIA 18000 - Introduction to Media Studies**

Hunter Core
Individual & Society (Social Sciences) - I&S SS
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.
3 hrs
3 cr.

**MEDP 15000 - Media and Film in a Digital Age Pt. 1**

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

cross-listed FILMP 15000
prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)
4 hrs
3 cr.

**MEDP 16000 - Media and Film in a Digital Age Pt. 2**

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

cross-listed FILMP 16000
prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)
4 hrs
3 cr.

B. Required Production Courses (6 cr.)

**MEDP 20100 - Reporting and Writing I (W)**
The sequence will introduce students to the fundamentals of reporting through interviews, observation and documentary research, and to the forms in which journalists present their reporting. It will also ask them to grapple with some of the ethical, legal and technological issues facing contemporary journalism, and will provide a basic understanding of the workings of state and city government.

**prereq:** MEDIA 18000
3 hrs
3 cr.

**MEDP 20200 - Reporting and Writing 2(W)**

The sequence will introduce students to the fundamentals of reporting through interviews, observation and documentary research, and to the forms in which journalists present their reporting. It will also ask them to grapple with some of the ethical, legal and technological issues facing contemporary journalism, and will provide a basic understanding of the workings of state and city government.

**prereq:** MEDP 20100
3 hrs
3 cr.

**C. Elective Production Courses (12 cr.)**

Choose among:

**MEDP 23900 - Entertainment Journalism (W)**

Development of practical, theoretical, and rhetorical skills for writing reviews and feature stories about entertainment and the arts.

**prereq:** MEDP 20100
3 hrs
3 cr.

**MEDP 28100 - Documentary Video Production 1**

Students learn the camera, lighting, sound, editing and directing skills necessary to create documentary and other forms of linear non-fiction media.

Material Fee: $20

**prereq:** MEDP/FILMP 16000
3 hrs
3 cr.

**MEDP 28300 - Electronic News Gathering**

This workshop guides students through the research, writing, digital video production and digital editing of community television news stories.

**prereq:** MEDP 28100
3 hrs
3 cr.

**MEDP 28500 - Web Production I**
An exploration of the production of Internet distributed media, primarily words and images distributed as Web pages, using HTML, CSS, and image manipulation software.

**MEDP 29400 - Magazine Writing (W)**

This course prepares students for publishing articles in magazines, feature sections of newspapers and online Internet publications by developing writing portfolios and studying the workings of the publishing industry.

*prereq: MEDP 20100*

3 hrs
3 cr.

**MEDP 29500 - Online Journalism (W)**

Evaluating and employing the Internet as a source of information for journalists, as a subject of journalistic coverage and as a new form of newspaper publication.

*prereq: MEDP 20100*

3 hrs
3 cr.

**MEDP 29600 - Feature Writing (W)**

A course on advanced feature writing media taught periodically, with topic listed in Schedule of Classes.

*prereq: MEDP 20100*

3 hrs
3 cr.

**MEDP 31100 - Documentary Video Production 2**

Exploration of the aesthetics and practice of documentary form that provides students with an in-depth and hands-on understanding of preproduction and production of documentary video.

Material Fee: $20

*prereq: MEDP 28100 or FILMP 35200*

*prereq or coreq: MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.*

4 hrs
3 cr.

**MEDP 34500 - Web Design Projects**

A project-based class designed to give students the experience of solving practical problems in web production and to add to the advanced student's web design portfolio with a comprehensive project. Students will work independently and in teams on a large-scale collaborative project.

*prereq: MEDP 33100 or perm instr.*
MEDP 37200 - Investigative Reporting (W)

Understanding and practicing journalism that explores significant social issues and injustices, using diverse sources developed through the enterprise of the reporter.

prereq: MEDP 20100
3 hrs
3 cr.

MEDP 37700 - Neighborhood News (W)

An advanced reporting and writing class that will produce a community newspaper and on-line news outlet serving underserved neighborhoods. This class may be repeated once for credit.

prereq: MEDP 20100 or permission of instructor
3 hrs
3 cr.

MEDP 39900 - Special Topics in Advanced Media Production

Taught periodically, with topic listed in Schedule of Classes.

prereq: MEDIA 18000, others variable
3 hrs
3 cr.

E. Elective Analytical Courses (9 cr.)

Analytical courses may be chosen from any analytical offering; however, it is strongly recommended that students consider analytical courses in relation to their area of production.

Media Studies BA: Concentration in Media Analysis and Criticism

Return to Media Studies - BA

The media analysis concentration develops critical thinking in students and offers students in-depth understanding of the field of media studies. It includes the study of Media Representations; Media Technologies, Industries, and Policies; and News, Politics, and Propaganda.

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses
that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

In the case of the Media Studies major, the courses that meet CCC are:

</table>

Major- 36 credits

A. Introductory Courses (9 cr.)

MEDIA 18000 - Introduction to Media Studies

Hunter Core
Individual & Society (Social Sciences) - I&S SS
GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.
3 hrs
3 cr.

MEDP 15000 - Media and Film in a Digital Age Pt. 1

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

cross-listed FILMP 15000
prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)
4 hrs
3 cr.

MEDP 16000 - Media and Film in a Digital Age Pt. 2

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.
cross-listed FILMP 16000
prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)
4 hrs
3 cr.

B. Required Analytical Courses (21 CR):

Analytical courses in 3 categories, as outlined below.

Some courses are listed in more than 1 place, but each course fulfills a requirement in just 1 category. (Students may not double count a course.)
1. Media Representations (9 credits from the following)

**MEDIA 27100 - Television Culture**

**GER**

3/A

Theoretical analysis of the production and reception of televisual texts, with close reading of particular texts.

*prereq: MEDIA 18000*

3 hrs

3 cr.

**MEDIA 29853 - The Horror Film**

**GER**

3/A

A historically informed exploration of the international horror film genre in cultural context. Includes a consideration of filmic conventions, marketing practices, and audience reception. We will explore cultural fears, and how art and industry manage to express and profit from those fears.

*prereq: MEDIA 18000 or FILM 10100*

3 hrs

3 cr.

**MEDIA 31500 - Nonfiction Film and Video**

**GER**

3/A

Study of the history and theory of the nonfiction film and video, with screenings and examples of documentary, propaganda and direct cinema and video.

MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

*prereq: MEDIA 18000*

4 hrs

3 cr.

**MEDIA 32600 - America in American Film and Video**

**GER**

3/A

Investigation of the ways that film and video have dealt with issues of American identity. This course explores how basic American myths have been mobilized to project a particular view of the nation at various historical points.

*prereq: MEDIA 18000*

3 hrs

3 cr.

**MEDIA 32700 - Representations of Race and Ethnicity in U.S. Media**
Pluralism and Diversity
PD/B
GER
3/A

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism; and other forms of American popular culture.

prereq: MEDIA 18000
4 hrs
3 cr.

MEDIA 33200 - Myths and Images in the Media

GER
3/A

Study of film and media as decisive vehicles of myth, imagery and aesthetics in an advanced industrial society.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 33300 - Typecasting

GER
3/A

A history of the relationship between stereotyping as a social, cultural and psychological language and the rise of modern society.
MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

prereq: MEDIA 180 and either MEDIA 327 or MEDIA 384 or perm instr.
3 hrs
3 cr.

MEDIA 37400 - Media, Sports, and Society

GER
3/A

Examination of the relationship between media and sports and their impact on society. Workings of the present-day sports-television-advertising complex, textual analysis of television sports productions.

prereq: MEDIA 18000
3 hrs
3 cr.

MEDIA 38400 - Women and Media

Pluralism and Diversity
PD/C
GER
3/A
Examination, from historical and formal perspective, of ways in which women have been represented by mass media in America since mid-19th century. Exploration of how feminists for 100 years have challenged these images and posed alternative modes of cultural representation and production.  
cross-listed WIGSA 38400 (W)  
prereq: MEDIA 18000  
3 hrs  
3 cr.

MEDIA 39700 - Cult TV and its Audiences

GER  
3/A

This course explores the historical and cross-cultural development of “cult” television, from cancelled programs whose narratives are kept alive by fan audiences, to the mainstreaming of cult audience behavior for high-rated programs today.  
prereq: MEDIA 27100  
3 hrs  
3 cr.

2. Media Technologies, Industries, and Policies (6 credits from the following)

MEDIA 26000 - Internet and Society

GER  
3/A

The Impact of the Internet on American and global society.  
prereq: MEDIA 18000 or permission of instr.  
3 hrs  
3 cr.

MEDIA 36500 - Digital Copyright

GER  
3/A

An introduction to the legal, economic and social principles at stake in the debate over copyright and digital technologies. The semester begins with an introduction to the basics of copyright law, the legal system, and legal research. Students then review some of the specifics of the digital copyright debate, including topics such as peer-to-peer trading, digital rights management, and third party liability for information service providers.  
prereq: MEDIA 18000  
3 hrs  
3 cr.

MEDIA 37400 - Media, Sports, and Society

GER  
3/A
Examination of the relationship between media and sports and their impact on society. Workings of the present-day sports-television-advertising complex, textual analysis of television sports productions.

*MEDIA 38000 - History of Broadcasting*

**GER**

3/A

Broadcasting’s roots in industrialization and influence on modern society.

*prereq: MEDIA 18000
3 hrs
3 cr.*

*MEDIA 38300 - Popular Music and the Music Industry*

**GER**

3/A

Exploration of social and cultural significance of popular music; history, structure, and economics of music industry. Particular emphasis on popular music from fifties to present.

*prereq: MEDIA 18000
3 hrs
3 cr.*

*MEDIA 39200 - Communications, Technology and Change*

**GER**

3/A

Examination of media technologies, their development and their impact on quality and organization of human life.

*prereq: MEDIA 18000
3 hrs
3 cr.*

*MEDIA 39400 - Mass Communications and the Law*

**GER**

3/A

Relationship of mass media to significant constitutional problems.

*prereq: MEDIA 18000
3 hrs
3 cr.*

*MEDIA 39600 - Global Communication*
Structures, policies and impact of global communications. Areas covered include global news, film, TV and music industries; telecommunications and the Internet. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

**MEDIA 18000 - Journalism and Society**

This course focuses on industry issues and service to the public good. It is partly designed for students interested in careers in journalism, who can benefit from greater sophistication about the news industry. The course explores the way news is gathered and written, the way news organizations are structured and financed, and the way they relate to other forms of political and entertainment communication. It examines the ways that the news industry describes itself and its problems and surveys journalistic practice in different media, e.g. print, the Internet, etc. Many of the readings will be drawn from the news industry trade press as well as from cultural studies and media sociology. Students will be asked to address journalism as citizens, weighing the role of journalism in our democracy.

**MEDIA 31300 - The Culture of Publicity**

An in-depth historical understanding of public relations, social image-management, and opinion engineering in the U.S. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

**MEDIA 37300 - Journalism as Literature**

An examination of the relationships between journalism and literature, including literary journalism, the journalistic prose of major imaginative writers, and the stylistic characteristics of hard news reporting.

**MEDIA 37500 - Media and Politics**
The impact of the electronic media on American politics.

**MEDIA 38000 - History of Broadcasting**

Broadcasting's roots in industrialization and influence on modern society.

**MEDIA 38100 - Propaganda and the Mass Media**

Study of mass media (broadcast, film, print) as forms for propaganda.

**MEDIA 39000 - Broadcast Journalism**

Structure and operations of radio and television news in relation to social, political and economic institutions.

**MEDIA 39100 - History of Print Journalism**

Development of newspapers and magazines as social force.
C. Elective Analytical or Production Courses at the 200-level or higher (6 cr.)

**Media Studies BA: Emerging Media**

Return to Media Studies - BA

The Emerging Media concentration gives students foundational knowledge in the theory and practice of digital media as a creative and investigative form of production. Students in this concentration may elect to specialize in various areas of production including Web Production, Interactive Media Production and 3D Imaging Production or may elect a broad curriculum of study from the Emerging Media courses. The curriculum interweaves technical instruction with aesthetic, communicative and cultural production and research to help a student establish a cohesive portfolio in new media.

**Hunter Core Requirement**

Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

In the case of the Emerging Media Concentration, the courses that meet CCC are:

<table>
<thead>
<tr>

</tbody>
</table>

**Major- 36 credits**

**A. Introductory Courses (9 cr.)**

**MEDIA 18000 - Introduction to Media Studies**

**Hunter Core**

Individual & Society (Social Sciences) - I&S SS

GER

2/C

Social, political, and economic factors that determine and shape products of media organizations.

*3 hrs*

*3 cr.*

**MEDP 15000 - Media and Film in a Digital Age Pt. 1**

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

*cross-listed* FILMP 15000
prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)
4 hrs
3 cr.

MEDP 16000 - Media and Film in a Digital Age Pt. 2

Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.
cross-listed FILM 16000
prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)
4 hrs
3 cr.

B. Required Production Courses

-select 4 from the list below for 12 credits:

MEDP 25000 - Digital Design and Usability

This course introduces students to the fundamentals of 2D design and interaction design for digital media. The class approaches the subject from a creative and conceptual perspective. Students choose which digital production tools are most effective to address specific creative design problems.

prereq: MEDP/FILMP 15000
3 hrs.
3 cr.

MEDP 26000 - Introduction to 2D Animation

This hands-on class is an introduction to animation using 2D digital tools. Historical precursors to digital animation including experimental and animated film as well as contemporary animation will be screened. Class time will consist of screenings, in-class demonstration, production and critique.

prereq: MEDIA 18000, MEDP 15000, MEDP 16000
4 hrs.
3 cr.

MEDP 28100 - Documentary Video Production 1

Students learn the camera, lighting, sound, editing and directing skills necessary to create documentary and other forms of linear non-fiction media.
Material Fee: $20
prereq: MEDP/FILMP 16000
3 hrs
3 cr.

MEDP 28500 - Web Production I

An exploration of the production of Internet distributed media, primarily words and images distributed as Web pages, using HTML, CSS, and image manipulation software.
prereq: MEDP/FILMP 15000
3 hrs
3 cr.

MEDP 33100 - Web Production II

An exploration of the production of Internet-distributed media, especially animation, sound, and video, using GIF Animation, Flash, and sound tools.

prereq: MEDP 28500
3 hrs
3 cr.

MEDP 34100 - Web Programming

Advanced programming skills for website design. Dynamic content development explored through state of the art programming languages for the creation of interactive web sites. Students will create web pages that utilize the most current techniques in web development. The curriculum in this class emphasizes an integrated and creative approach to web programming, including detailed instruction and practice in the technical aspects. It is designed to give students a basic introduction to the tools and techniques used by web programmers.

prereq: MEDP 28500
3 hrs
3 cr.

MEDP 34500 - Web Design Projects

A project-based class designed to give students the experience of solving practical problems in web production and to add to the advanced student's web design portfolio with a comprehensive project. Students will work independently and in teams on a large-scale collaborative project.

prereq: MEDP 33100 or perm instr.
3 hrs
3 cr.

MEDP 34900 - Introduction to Physical Computing

This hands-on class is an introduction to electronics, circuit building and the programming of microcontrollers for the production of interactive creative works that may include installation and art objects.

prereq: MEDP 150, MEDP 160

MEDP 35500 - Physical Computing: Interactive Installation

A hands-on course focusing on the current state of interactive media in a collaborative environment. Students will create projects integrating video, sound and text exploring design concepts and using sensors for real-time interactivity. Material Fee: $20

prereq: MEDIA 18000, MEDP 15000 and 16000, MEDP 28500
3 hrs
3 cr.
MEDP 36000 - 3D Animation and Modeling

This hands-on production course will examine concepts and practices that form the basis of 3D animation for video, graphic novels, filmmaking, and net based art.

prereq: MEDP 25000, MEDP 26000
3 hrs.
3 cr.

MEDP 36500 - 3D Virtual Environments

This course is an introduction to skills and creative approaches for the development of computer-generated 3D interactive virtual environments. Students will develop 3D virtual environments using standard 3D game design techniques and technologies. This class approaches the subject from both a technical and creative perspective. It gives students an introduction to the tools and techniques used to design 3D computer games and how those processes may be applied to create artistically focused work.

prereq: MEDP 36000
3 hrs.
3 cr.

MEDP 39909 - Game Design and Programming

This class is an introduction to the practical and conceptual aspects of electronic game creation. Students learn a variety of gamedevelopment tools and approaches, while exploring a variety of theoretical, social, and other aspects of modern game culture.

prereq: MEDP 25000
prereq or coreq: MEDIA 36300
3 hrs
3 cr.

MEDP 39950 - Motion Graphics

This course examines the design and use of computer animation and effects for digital video. The course emphasizes the use of motion graphics to animate and render typography, effects and the compositing of distinct visual assets as well as its function within a greater narrative.

prereq: MEDP/FILMP 15000 and MEDP/FILMP 16000 and MEDP 25000
3 hrs
3 cr.

C. Elective Production Courses (6 cr.)

These may be any regular 200- or 300-level MEDP courses including those from the list of required courses (see B. above.) Any regular 200- or 300-level FILMP course counts toward this requirement as well, though students may only count up to 6 credits total of FILM or FILMP classes toward the major.

D. Elective Analytical Courses (9 cr.)
Three analytical courses may be chosen from any analytical offering; however it is strongly recommended that students consider analytical courses in relation to their area of production.

E. Total (36 cr.)

Media Studies BA: General Media Studies Major

Return to Media Studies - BA

Hunter Core Requirement

Several courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

In the case of the Media Studies major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Courses</th>
<th>CUNY Common Core</th>
<th>Foundational or Major</th>
</tr>
</thead>
<tbody>
<tr>
<td>MEDIA 18000</td>
<td>Individual &amp; Society</td>
<td>Major</td>
</tr>
</tbody>
</table>

Major - 36 credits

A. Required Introductory Courses (9 cr.)

**MEDIA 18000 - Introduction to Media Studies**

**Hunter Core**
Individual & Society (Social Sciences) - I&S SS
**GER**
2/C

Social, political, and economic factors that determine and shape products of media organizations.

*3 hrs*

*3 cr.*

**MEDP 15000 - Media and Film in a Digital Age Pt. 1**

Introduction to the theoretical and practical fundamentals of visual design and 2-D digital imaging and production in a lecture/lab format.

*cross-listed FILMP 15000*

*prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)*

*4 hrs*

*3 cr.*

**MEDP 16000 - Media and Film in a Digital Age Pt. 2**
Introduces students to the theoretical and practical fundamentals of film and video production in a lecture/lab format. It is strongly suggested, but not required, that students take MEDP/FILMP 15000 before taking this class.

cross-listed FILMP 16000

prereq: MEDIA 18000 or FILM 10100 (or permission from instructor)

4 hrs
3 cr.

B. Required Analytical Courses (9 cr.)

Students must take at least 9 credits of analytical courses. Any 200- and 300-level MEDIA courses may be used to meet this requirement. Any 200- or 300-level FILM course counts toward this requirement as well, though students may only count up to 6 credits total of FILM or FILMP classes toward the major. MEDP and FILMP courses do not count toward the analytical requirement.

C. Elective Analytical or Production Courses (18 cr.)

Students must take an additional 18 credits of analytical and/or production courses. These may be any 200- or 300-level MEDIA or MEDP courses. Any 200- or 300-level FILM or FILMP course counts toward this requirement as well, though students may only count up to 6 credits total of FILM or FILMP classes toward the major.

Music 25-Credit Major (BA)

This degree is designed for students who want to study music in the context of a general liberal arts education, but who do not plan to pursue careers in music. It may also be convenient for students who enter Hunter with a large number of transfer credits in music. Requirements are:

Foundational Courses

Foundational Courses include courses in English and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

Music History

MUSHL 20100 - Introduction to Music Research
Techniques of research and writing about music. Sources of information (reference books, monographs, periodicals, scores, recordings, Internet resources); types of writing (theoretical, historical, ethnomusicological, critical); writing issues specific to music.

**coreq:** MUSHL 20500

**prereq or coreq:** ENGL 12000

1 hr

1 cr.

offered fall

## MUSHL 20500 - Music History I

**Pluralism and Diversity**

PD/D

For music majors. Survey of the history of music in the European tradition to 1600.

**prereq:** elementary knowledge of music history and literature, demonstrated by dept. exam

**coreq:** MUSHL 20100

**prereq or coreq:** MUSTH 22000, 23000, ENGL 12000, perm dept.

3 hrs

3 cr.

offered fall

## MUSHL 20600 - Music History II (W)

**Pluralism and Diversity**

PD/D

For music majors. Continuation of MUSHL 20500. Survey of the history of music in the European tradition from 1600 to 1800.

**prereq:** MUSHL 20100, 20500, ENGL 12000

**prereq or coreq:** MUSTH 22100, 23100

3 hrs

3 cr.

offered spring

## MUSHL 30500 - Music History III (W)

**Pluralism and Diversity**

PD/D

Continuation of MUSHL 20600. Survey of the history of music in the European tradition from 1800 to the present.

**prereq:** MUSHL 20600, MUSTH 22100, 23100

3 hrs

3 cr.

offered fall

- and any other 3-credit MUSHL course at the 300-level

## Music Theory

### MUSTH 22000 - Music Theory I

Review of fundamentals of music theory; introduction to melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

**prereq:** ability to read music as demonstrated by dept. exam, perm dept.
MUSTH 22100 - Music Theory II

Continuation of MUSTH 22000.
*prereq:* MUSTH 22000
*coreq:* MUSTH 23100
3 hrs
3 cr.
offered spring

MUSTH 23000 - Musicianship I

Sight singing, ear training, and keyboard drill on materials studied in the corequisite course. Individual work in the Computer Assisted Instruction facility.
*coreq:* MUSTH 22000
3 hrs
2 cr.
offered fall

MUSTH 23100 - Musicianship II

Continuation of MUSTH 23000.
*prereq:* MUSTH 23000
*coreq:* MUSTH 22100
3 hrs
2 cr.
offered spring

Performance:

MUSPF 22100 - College Choir

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.
3 hrs
1 cr.

MUSPF 23100 - Hunter Symphony

Rehearsal and performance of orchestral works. May be taken 8 times.
*prereq:* audition, perm instr.
3 hrs
1 cr.

Piano Proficiency Requirement
All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at their own expense. The Music Department office has a list of recommended piano teachers.

**Music 42-Credit Major (BA)**

This degree is designed for students planning to pursue professional careers in music. It provides basic training in all areas of music and serves as a foundation for graduate study of any aspect of the field. Requirements are:

**Foundational Courses**

Foundational Courses include courses in English and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. 3 hrs
2 cr.
offered spring

MUSTH 32000 - Music Theory III

Intermediate-level study of melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

prereq: MUSTH 20100, MUSTH 22100
coreq: MUSTH 33000
3 hrs
3 cr.
offered fall

MUSTH 33000 - Musicianship III

Sight singing, ear training, and keyboard drill on materials studied in corequisite course. Individual work in the Computer Assisted Instruction facility.

prereq: MUSTH 23100
coreq: MUSTH 32000
3 hrs
2 cr.
offered fall
and any other 3-credit MUSTH course at the 300-level

Performance:

MUSPF 40100 - Individual Instruction in Instrument or Voice

Limited to the 42-credit BA music major, the 25-credit BA music major, the BA/MA music major and the music minor. Audition demonstrating performance skills equivalent to New York State School Music Association (NYSSMA) level
2 or higher. Students must make their own arrangements with department-listed teachers to receive credit for this course. Jury examination required. The jury examination following the second and subsequent semesters of private lessons must demonstrate performance skills equivalent to NYSSMA level 4 or higher.
May be taken 8 times.

*prereq: perm dept.*

1 hr

1 cr.

2 credits in large ensembles

**MUSPF 22100 - College Choir**

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.

3 hrs

1 cr.

**MUSPF 23100 - Hunter Symphony**

Rehearsal and performance of orchestral works. May be taken 8 times.

*prereq: audition, perm instr.*

3 hrs

1 cr.

2 credits in performance electives

**MUSPF 22100 - College Choir**

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.

3 hrs

1 cr.

**MUSPF 23100 - Hunter Symphony**

Rehearsal and performance of orchestral works. May be taken 8 times.

*prereq: audition, perm instr.*

3 hrs

1 cr.

**MUSPF 24900 - Jazz Ensemble**

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz, and musical comedy. May be taken 6 times.

2 hrs

1 cr.

**MUSPF 25000 - Jazz and Popular Music Combos**

Study and performance within a small ensemble context of the popular music genres, such as Pop, Rock, Hip-Hop, R & B, Country/Bluegrass, and Jazz. May be taken 6 times.
MUSPF 25100 - Jazz Vocal Workshop Ensemble

Jazz performance and improvisation. May be taken 6 times.
prereq: MUSPF 11100 or 21100 or 40100 in Voice, and audition
2 hrs
1 cr.

MUSPF 35300 - Chamber Singers

Study and public performance of solo and chamber chorus works from all musical eras. May be taken 6 times.
prereq: audition, perm instr.
2 hrs
1 cr.

MUSPF 35500 - Chamber Music Workshop

Rehearsal and public performance of instrumental chamber works. May be taken 6 times.
prereq: audition, perm instr.
2 hrs
1 cr.

MUSPF 36500 - Topics in Piano Performance

Seminar in performance for advanced piano students focusing on a different topic area each semester. The seminar will involve study and performance of representative works of piano repertoire relevant to the semester’s topic area. Each semester will also include individual attention to problems of public performance. May be taken 4 times.
coreq: MUSPF 40100 or 43100
2 hrs
1 cr.

MUSPF 36900 - Topics in Vocal Performance

Seminar in performance for advanced voice students, focusing on a different topic each semester. The seminar will involve study and performance of representative works of vocal repertoire relevant to the semester’s topic area. Each semester will also include individual attention to problems of public performance. May be taken 4 times.
prereq: ENGL 12000
coreq: MUSPF 40100 or 43100
2 hrs
1 cr.

MUSPF 40100 - Individual Instruction in Instrument or Voice

Limited to the 42-credit BA music major, the 25-credit BA music major, the BA/MA music major and the music minor. Audition demonstrating performance skills equivalent to New York State School Music Association (NYSSMA) level
2 or higher. Students must make their own arrangements with department-listed teachers to receive credit for this course. Jury examination required. The jury examination following the second and subsequent semesters of private lessons must demonstrate performance skills equivalent to NYSSMA level 4 or higher.
May be taken 8 times.

prereq: perm dept.
1 hr
1 cr.

Electives:

- 4 credits in music courses above the 100-level

Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at their own expense. The Music Department office has a list of recommended piano teachers.

Option in Social Studies within the Geography Major for Adolescent Education Teachers

Return to: Geography - BA

In cooperation with the The School of Education, the Department of Geography provides opportunities for students to prepare for a career in teaching social studies in grades 7 – 12. In addition to mandatory course work provided by the School of Education, interested students must complete the course of study outlined below. At least 18 credits of these courses or equivalents must be satisfactorily completed (grade of C or better) before the student enrolls in the social studies methods courses. Refer to the catalog section specific to programs in the The School of Education.

Transfer students who enter Hunter College with more than 90 credits or who will exceed 90 credits in completing the prerequisites for this option in the Geography major, cannot apply for the Adolescent Education program of the School of Education. They may still complete this option within the Geography major but must complete a Master of Arts degree in Adolescent Education before certification as a New York State teacher. While New York State recognizes the regular major in Geography for certification in Childhood Education, students interested in becoming certified as Social Studies-Adolescent Education teachers in New York State must complete this interdisciplinary course of study.

Prerequisites for the Major 9 credits

HIST 15100 - The United States from the Colonial Era to the Civil War (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War.
Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

**HIST 15200 - The United States from the Civil War Era to the Present (W)**

**Hunter Core**
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the Civil War to the present.

Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

**GEOG 15000 - World Regional Geography**

**Pluralism and Diversity**
PD/A or D
GER
2/B

A survey of the world’s major regions. Geographic concepts and principles are used to study the physical, economic, social and political conditions and problems in the culturally diverse world. Spatial expression of culture; specialized behavior patterns; adaptations and way of life in distinct environments. Regional interdependence; implications for development.

prereq: ENGL 12000
3 hrs
3 cr.
Offered fall and spring

**Requirements for the Major 36 credits**

**ECO 10000 - Introduction to Economics**

**Hunter Core**
Individual and Society (Social Sciences) -I&S SS
GER
2/B

Introduction to economic principles, issues, and policy. Recommended for students who want a broad, one-semester overview.

Not open to students who have taken or are currently enrolled in ECO 20000 or 20100 or their equivalents. Cannot be credited towards the Economics major.

3 hrs
3 cr.

**GEOG 24100 - Population Geography**
Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the “mechanics” of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring. 

*prereq: GEOG 10100 or GEOG 15000 or perm instr.*

3 hrs
3 cr.

**HIST 11100 - World History to 1500**

**Hunter Core**

World Culture and Global Issues (WCGI)

**Pluralism and Diversity**

PD/A
GER
2/B

The rise of civilizations; technological and intellectual breakthroughs; classical cultures and empires; interregional connections; the spread of civilization across the globe.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 11200 - World History from 1500 to the Present**

**Hunter Core**

World Culture and Global Issues (WCGI)

**GER**
2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

1. **Required courses (18 cr.)**

**POLSC 11000 - American Government: A Historical Introduction (W)**

**Hunter Core**

US Experience in its Diversity (USED)

**GER**
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its
enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

ECO 10000 - Introduction to Economics

Hunter Core
Individual and Society (Social Sciences) - I&S SS
GER
2/B

Introduction to economic principles, issues, and policy. Recommended for students who want a broad, one-semester overview. Not open to students who have taken or are currently enrolled in ECO 20000 or 20100 or their equivalents. Cannot be credited towards the Economics major.
3 hrs
3 cr.

GEOG 24100 - Population Geography

Pluralism and Diversity
PD/B or C
GER
3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the “mechanics” of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.
prereq: GEOG 10100 or GEOG 15000 or perm instr.
3 hrs
3 cr.

HIST 11100 - World History to 1500

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B
The rise of civilizations; technological and intellectual breakthroughs; classical cultures and empires; interregional connections; the spread of civilization across the globe.

Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 11200 - World History from 1500 to the Present**

_Hunter Core_

World Culture and Global Issues (WCGI)
GER
2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world.

Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

2. One 3-credit course in cultural anthropology (ANTHC) or Sociology (3 cr)

- One 3-credit course in cultural anthropology (ANTHC) or Sociology (SOC) selected with approval of the Geography Undergraduate Adviser.

3. Elective Courses in History (6 credits)

- Any two 3-credit 300-level courses in history with approval of the Geography Undergraduate Adviser.

4. Elective Courses in Geography (9 credits, at least 6 credits at the 300-level)

**GEOG 32800 - Urban Environmental Problems: Evaluations and Solutions**

GER
3/B

Open to Jr/Sr only. The special environmental problems of urban and metropolitan areas will be studied, including water supplies, waste management, environmental impact and waterfront use. Natural physical processes, methodologies and techniques will be reviewed and applied to decision making. Transportation fee for field work may be required.

_prereq: GEOG 101 or GEOG 150 or URBS 101 and Jr/Sr standing_

3 hrs
3 cr.

**GEOG 24300 - Urban Geography**
GEOG 34200 - Geography of International Migration and Ethnicity

Pluralism and Diversity
PD/B
GER
3/B

Quantitative and qualitative examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analysis of ethnic and racial minorities in the United States.

prereq: GEOG 24100 or perm instr.
3 hrs
3 cr.

GEOG 24700 - Cultural Geography

GER
3/B

This course provides an overview of the field of cultural geography. It will cover the basics as well as recent developments in social and cultural geographic theory. The main focus is to understand relationships between cultures and environments through geographical analyses of processes, landscapes, and identities.

effective term 2016
prereq: ENGL 12000, and GEOG 10100 or GEOG 15000
3 hrs
3 cr.

GEOG 35700 - Geography of New York City and Vicinity

GER
3/B

Informed immersion in NYC is the main objective of this course. Students will learn by exploration and observation more than by media. The city is the laboratory to complement readings, lectures and discussion. Students will emerge from this class with an enhanced appreciation of the entire city. Study assignments include keeping a journal of walking assignments as well as readings. Field work will focus on the five boroughs of New York City. (Students with difficulties in walking or using public transportation or who have phobias regarding unfamiliar neighborhoods should consider this before registering.)

Open to Jr/Sr only.
prereq: GEOG 10100
3 hrs
3 cr.
Offered fall.

GEOG 38000 - Seminar in Geographic Concepts and Methodology

GER
3/B

An investigation of the evolution, conceptual framework, and methodological approaches of modern geography.
Course goals are: increase student competence and marketability as a teacher; review content of geography with teaching in mind; share strategies, ideas activities (as befits a seminar course); familiarization with national and state standards; develop and acquire appropriate classroom-ready materials; acquire a classroom-ready photo collection; explore links to other subjects; and develop appropriate bibliographies of children’s literature and websites.
prereq: perm instr.
3 hrs
3 cr.

Option in Social Studies within the Geography Major for Childhood Education Teachers

In cooperation with the School of Education, the Department of Geography provides opportunities for students to prepare for a career in teaching in grades 1-6. Students may choose to complete the Geography - BA , in addition to successful completion of the QUEST program. Interested students may also choose to complete the course of study outlined below. The option in Social Studies for Childhood Education is available only to students who are accepted into the QUEST program.

Students not accepted to the QUEST program, or students not eligible to apply to the QUEST program, should complete the traditional Geography major outlined above. They must complete a Master of Arts degree in Childhood Education before being certified as a New York State teacher.

Program Prerequisites (9 credits)

HIST 15100 - The United States from the Colonial Era to the Civil War (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War. Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 15200 - The United States from the Civil War Era to the Present (W)

Hunter Core
US Experience in its Diversity (USED)
GER
American political, social and cultural history from the Civil War to the present.
Courses at the 300-level and above not offered to freshmen.

Prerequisite or corequisite: ENGL 12000
3 hrs
3 cr.

GEOG 15000 - World Regional Geography

Pluralism and Diversity
PD/A or D
GER
2/B

A survey of the world’s major regions. Geographic concepts and principles are used to study the physical, economic, social and political conditions and problems in the culturally diverse world. Spatial expression of culture; specialized behavior patterns; adaptations and way of life in distinct environments. Regional interdependence; implications for development.

Prerequisite: ENGL 12000
3 hrs
3 cr.

Offered fall and spring

Requirements for the Major (30 credits)

Required Courses (18 credits)

HIST 11100 - World History to 1500

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

The rise of civilizations; technological and intellectual breakthroughs; classical cultures and empires; interregional connections; the spread of civilization across the globe. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 11200 - World History from 1500 to the Present

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the
democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

GEOG 24100 - Population Geography

Pluralism and Diversity
PD/B or C
GER
3/B

Course will explore several critical issues such as the relationship between population growth and development; immigration and internal migration; how age, race and gender affect other demographic processes; and how and why these processes vary around the world. Additionally, students will examine the “mechanics” of computing population growth and change as well as different ways to visually display measures of population. Offered fall and spring.

prereq: GEOG 10100 or GEOG 15000 or perm instr.
3 hrs
3 cr.

POLSC 11000 - American Government: A Historical Introduction (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

2. Elective Courses in Geography (6 credits)

Choose any two of the following:

GEOG 24300 - Urban Geography

GER
3/B
Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only
3 hrs
3 cr.

GEOG 34200 - Geography of International Migration and Ethnicity

Pluralism and Diversity
PD/B
GER
3/B

Quantitative and qualitative examination of historic and contemporary international migration patterns. Spatial demographic impacts of immigration policy in the United States with a focus on major urban centers. Comparative analysis of ethnic and racial minorities in the United States.

prereq: GEOG 24100 or perm instr.
3 hrs
3 cr.

GEOG 24700 - Cultural Geography

GER
3/B

This course provides an overview of the field of cultural geography. It will cover the basics as well as recent developments in social and cultural geographic theory. The main focus is to understand relationships between cultures and environments through geographical analyses of processes, landscapes, and identities.

effective term 2016

prereq: ENGL 12000, and GEOG 10100 -or- GEOG 15000
3 hrs
3 cr.

GEOG 35700 - Geography of New York City and Vicinity

GER
3/B

Informed immersion in NYC is the main objective of this course. Students will learn by exploration and observation more than by media. The city is the laboratory to complement readings, lectures and discussion. Students will emerge from this class with an enhanced appreciation of the entire city. Study assignments include keeping a journal of walking assignments as well as readings. Field work will focus on the five boroughs of New York City. (Students with difficulties in walking or using public transportation or who have phobias regarding unfamiliar neighborhoods should consider this before registering.)

Open to Jr/Sr only.

prereq: GEOG 10100
3 hrs
3 cr.
Offered fall.
GEOG 38000 - Seminar in Geographic Concepts and Methodology

GER
3/B

An investigation of the evolution, conceptual framework, and methodological approaches of modern geography. Course goals are: increase student competence and marketability as a teacher; review content of geography with teaching in mind; share strategies, ideas activities (as befits a seminar course); familiarization with national and state standards; develop and acquire appropriate classroom-ready materials; acquire a classroom-ready photo collection; explore links to other subjects; and develop appropriate bibliographies of children’s literature and websites.

prereq: perm instr.
3 hrs
3 cr.

3. Elective Courses in History (6 credits)

Any two 3-credit 300-level courses in history with approval of the Geography Undergraduate Adviser.

Philosophy - BA

Major

The Philosophy Department offers two concentrations: 1) the Standard concentration and 2) the concentration in Philosophy, Politics and Society (PPS).

Standard Concentration

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

One of the following:

PHILO 10100 - Introduction to Philosophy

Hunter Core
Individual and Society (Humanities) - I&S H
GER
2/C

Examination of basic philosophical questions through study of selected philosophical classics.
3 hrs
3 cr.
offered each semester

PHILO 10300 - Introduction to Logic and Critical Thinking
Recognizing arguments; traditional logic including concepts, propositions, categorical, hypothetical and disjunctive syllogisms; argument structure, natural language argumentation, fallacies.

3 hrs
3 cr.
offered each semester

**PHILO 10400 - Introduction to Ethics**

**Hunter Core**
Individual and Society (Humanities) - I&S H
**GER**
2/C

Examination of standards of right conduct and the good life through study of selected philosophical classics.

3 hrs
3 cr.
offered each semester

**PHILO 10600 - Philosophy, Politics and Society**

**Hunter Core**
Individual and Society (Social Sciences) - I&S SS
**Pluralism and Diversity**
P/D
**GER**
2/C

Introduction to social and political philosophy.

3 hrs
3 cr.
offered each semester

Macaulay Honors students may take the following:

**PHILO 20400 - Great Philosophers**

**Hunter Core**
Individual and Society (Humanities) - I&S H
**Pluralism and Diversity**
P/D
**GER**
2/C

A comprehensive study of major philosophical thinkers.

*prereq: ENGL 12000*

3 hrs
3 cr.

Hunter Core Requirement
Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

The Standard Concentration

consists of 30 credits distributed as follows:

1. Logic (3 cr.)

**PHILO 17000 - Introduction to Logic and Scientific Method**

**Hunter Core**

**Scientific World**

An introduction to logical analysis and evaluation, especially applied to scientific arguments. Recognizing arguments and their support structure; evaluating reliability of sources vouching for premises; elementary deductive formal logic; evaluation of arguments central to empirical science.

3 hrs.

3 cr.

-or-

**PHILO 27500 - Symbolic Logic**

**GER**

3/B

Sentential logic including symbolizations, truth-value tables, formal derivations, Predicate logic including symbolizations, interpretations and formal derivations.

cross-listed MATH 27500

3 hrs.

3 cr.

2. History of Philosophy (9 cr.)

**PHILO 21200 - Classical Greek Philosophy: Plato and Aristotle (W)**

**Pluralism and Diversity**

**PD/D**

**GER**

3/A

Study of major works of Plato and Aristotle in the context of the philosophical thought of the ancient world.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs.

3 cr.

**PHILO 21500 - Foundations of Modern Philosophy (W)**
Pluralism and Diversity
PD/D
GER
3/A

Study of major philosophers of the 17th and early 18th centuries such as Descartes, Spinoza, Leibniz, Locke, Berkeley and Hume.

prereq: ENGL 12000 and one previous course in philosophy.

3 hrs
3 cr.

PHILO 21800 - Revolutions in Modern Philosophy (W)

Pluralism and Diversity
PD/D
GER
3/A

Study of major philosophers of the late 18th and 19th centuries such as Kant, Hegel, Schopenhauer, Feuerbach, Kierkegaard, Marx and Nietzsche.

prereq: ENGL 12000 and one previous course in philosophy.

3 hrs
3 cr.

3. Ethics, Politics and Aesthetics (3 cr.)

any course from

PHILO 24400 - Moral Philosophy (W)

GER
3/A

Study of selected problems in philosophical ethics and moral psychology.

prereq: ENGL 12000 and one previous course in philosophy.

3 hrs
3 cr.

PHILO 24600 - Political Philosophy (W)

GER
3/B

Study of selected philosophical problems in politics, law, economics and society.

prereq: ENGL 12000 and one previous course in philosophy.

3 hrs
3 cr.

PHILO 25800 - Aesthetics (W)
Study of philosophical issues that arise in our understanding and criticism of the arts. Topics include nature of expression, purpose and standards of criticism and aesthetic value.  

**prereq:** ENGL 12000 and one previous course in philosophy.  
3 hrs  
3 cr.

4. Metaphysics and Epistemology (3 cr.)

any course from

**PHILO 36000 - Metaphysics (W)**

Study of major metaphysical views, such as materialism, idealism, nominalism and realism. The major question is: What is reality and how may it be known?  

**prereq:** Two courses in philosophy, at least one of which is at the 200 level.  
3 hrs  
3 cr.

**PHILO 36200 - Theory of Knowledge (W)**

Study of origin, structure, methods and foundations of human knowledge.  

**prereq:** Two courses in philosophy, at least one of which is at the 200 level.  
3 hrs  
3 cr.

**PHILO 36400 - Philosophy of Language (W)**

Inquiry into the philosophical significance of language, its structure, meaning, reference and use.  

**prereq:** Two courses in philosophy, at least one of which is at the 200 level.  
3 hrs  
3 cr.

**PHILO 36600 - Philosophy of Mind (W)**

Examination of the concept of mind and the person. Topics include thinking, intention, consciousness, supervenience, emotion, self-knowledge.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 37800 - Philosophy of Biology (W)

Philosophical problems of biology, including evolutionary biology, molecular biology and genetics, and neuroscience.
prereq: ENGL 12000 and 2 courses in philosophy, at least one at the 200-level
3 hrs
3 cr.

PHILO 37900 - Philosophy of Science (W)

GER
3/B

Study of foundations of knowledge in natural and social sciences.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

5. Intensive Study of a Major Philosopher (3 cr.)

any course from those offered under PHILO 38000 Major Figures in Philosophy (W)

6. Additional Credits (9 cr.)

- Chosen in consultation with an adviser. Students are required to select at least one course (3 cr.) at the 300-level. Also they are encouraged to select courses that acquaint them with philosophic traditions other than the dominant Western ones.

Concentration in Philosophy, Politics and Society

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

One previous course in philosophy. Students are encouraged to take:

PHILO 10600 - Philosophy, Politics and Society

Hunter Core
Individual and Society (Social Sciences) -I&S SS

Pluralism and Diversity
PD/D

GER
2/C

Introduction to social and political philosophy.
Macaulay Honors students may take the following:

**PHILO 20400 - Great Philosophers**

**Hunter Core**
Individual and Society (Humanities) - I&S H

**Pluralism and Diversity**
PD/D
GER
2/C

A comprehensive study of major philosophical thinkers.

*prereq: ENGL 12000*

3 hrs
3 cr.

**Hunter Core Requirement**

Courses foundational to or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement.

**The concentration in Philosophy, Politics and Society**

consists of 30 credits distributed as follows:

**History of Philosophy (9 cr.)**

**PHILO 21200 - Classical Greek Philosophy: Plato and Aristotle (W)**

**Pluralism and Diversity**
PD/D
GER
3/A

Study of major works of Plato and Aristotle in the context of the philosophical thought of the ancient world.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

**PHILO 21500 - Foundations of Modern Philosophy (W)**

**Pluralism and Diversity**
PD/D
GER
3/A
Study of major philosophers of the 17th and early 18th centuries such as Descartes, Spinoza, Leibniz, Locke, Berkeley and Hume.

prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

PHILO 21800 - Revolutions in Modern Philosophy (W)

Pluralism and Diversity
PD/D
GER
3/A

Study of major philosophers of the late 18th and 19th centuries such as Kant, Hegel, Schopenhauer, Feuerbach, Kierkegaard, Marx and Nietzsche.

prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

Political Philosophy (3 cr.)

PHILO 24600 - Political Philosophy (W)

GER
3/B

Study of selected philosophical problems in politics, law, economics and society.

prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

Social Philosophy (3 cr.)

PHILO 24800 - International Ethics (W)

GER
3/B

Study of the ethical dimensions of problems in contemporary international relations, such as war and peace, imperialism, national identity and development.

prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

PHILO 25000 - Problems of Ethics and Society (W)

GER
3/B
Study of the ethical dimensions of contemporary social problems, such as poverty, consumption, sexual deviance, racism and environmental destruction.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

Intensive Study of a major philosopher, preferably concerning their political and/or social ideas (3 cr.)

offered under PHILO 38000 Major Figures in Philosophy (W)

Study of Recent Issues in Political and Social Philosophy (3 cr.)

**PHILO 34600 - Contemporary Theories of Justice (W)**

**GER**
3/B

A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.

3 hrs
3 cr

**Electives (9 cr.)**

chosen from 200- and 300-level PHIL courses (excluding PHILO 20400, but including PHILO 17000); 6 credits of this requirement may be taken from the nondepartmental courses listed below. It is also recommended that 3 credits be taken on philosophical approaches to class, race, or gender; the following philosophy courses satisfy this recommendation: PHILO 31900 - Marxist and Critical Theory (W), PHILO 22600 - African-American Philosophy (W), or PHILO 23000 - Feminism: Philosophical Theory and Practice (W)

Nondepartmental courses to satisfy elective requirement

**AFPRL 40100 - Pan-Africanism**

**GER**
3/B

Seminar traces development of Pan-Africanism through the 20th century.
Not open to freshmen.

*prereq: AFPRL 20200 or 20400 or 20600*

3 hrs
3 cr.

**AFPRL 40200 - African American Political Thought**

**GER**
3/B
Comparative theorists; methods and ideological currents.

**HIST 33100 - European Culture in the 16th, 17th and 18th Centuries (W)**

**GER**

3/B

The impact of the Reformation, Counter- Reformation, the Scientific Revolution and related movements. Courses at the 300-level and above not offered to freshmen.

**prereq or coreq:** ENGL 12000

3 hrs

3 cr.

**HIST 33200 - Modern Culture from the 18th to the 20th Centuries**

**GER**

3/B

From the impact of the Scientific Revolution and the Enlightenment to recent literature, art, religion and science. European political and social thought. Courses at the 300-level and above not offered to freshmen.

3 hrs

3 cr.

**POLSC 20100 - Ancient to Early Modern Political Thought (W)**

**Pluralism and Diversity**

**PD/D**

**GER**

3/B

The study of selected writers from the ancient Greeks to the Renaissance (e.g., Plato to Machiavelli), focusing on the political dimensions of such ideas as rationality, virtue, community, human nature and historical change.

**prereq:** ENGL 12000 or its equivalent

3 hrs

3 cr.

**POLSC 20200 - Modern Political Thought (1600-1900) (W)**

**Pluralism and Diversity**

**PD/D**

**GER**

3/B

The study of selected political writers (e.g., Hobbes to Nietzsche), with special emphasis given to the nature of and problems with, liberty, equality and justice in modern societies and states.

**prereq:** ENGL 12000 or its equivalent

3 hrs

3 cr.
POLSC 20300 - Political Thought Since 1900 (W)

**Pluralism and Diversity**
PD/D
GER
3/B

Exploration of concepts and thinkers in political theory since 1900. Topics include such traditional issues of political theory as the nature and scope of political regimes, justice, equality and changing concepts of human nature.

*prereq: ENGL 12000 or its equivalent*

3 hrs
3 cr.

POLSC 20400 - Contemporary Issues in Political Theory

GER
3/B

Topics vary each semester. They have included democracy in America, totalitarianism, liberty and authority.

POLSC 20451 Women in Western Political Thought meets PD/D

*prereq: ENGL 12000 or its equivalent*

3 hrs
3 cr.

POLSC 20900 - Women and Gender in Western Political Thought (W)

**Pluralism and Diversity**
PD/C or D
GER
3/B

Examines history of political thought from the perspective of gender relations and the treatment of women.

*cross-listed WGST 20900*

*prereq: ENGL 12000 or its equivalent*

3 hrs
3 cr.

POLSC 30100 - American Political Thought (W)

GER
3/B

Examination of ideas that have shaped American politics from the Revolution to the present, including Federalists and Anti-Federalists, Progressivism and responses to industrialization and recent debates over the welfare state, political inclusion and democracy.

*prereq: ENGL 12000 or its equivalent; one course in political theory or perm. instr.*

3 hrs
3 cr.

POLSC 30300 - Democracy and Emergency (W)
This seminar in political theory examines the issue of emergency powers in constitutional democracies. It will examine various attempts to define what is an emergency, as well as the spirited debates over the legitimacy of extraordinary powers to manage such crises.  

**POLSC 30400 - Contemporary Issues in Political Theory**

**GER**  
3/B  

Selected topics in political theory.  

*prereq: ENGL 12000 or its equivalent; one course in political theory subfield or perm instr*  
3 hrs  
3 cr.

**POLSC 30500 - Democratic Theory (W)**

**GER**  
3/B  

A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.  

*prereq or coreq: ENGL 12000 or its equivalent*  
3 hrs  
3 cr.

**POLSC 30700 - Theory of Revolution**

**GER**  
3/B  

Traditional and modern revolutions. Conditions and objectives of socialist and communist revolutions.  

*prereq: ENGL 12000 or its equivalent*  
3 hrs  
3 cr.

**POLSC 30900 - Feminist Political Theory (W)**

**Pluralism and Diversity**  
PD/C  

**GER**  
3/B  

Readings in feminist ideas, both historical and contemporary, on issues of power, justice and equality. The course will emphasize different perspectives, including those of liberal, radical, postmodernist, women of color, third world and 'global' feminists.  

*cross-listed WGST 30900 (W)*
prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

POLSC 31100 - Utopian Theory (W)

GER
3/B

Political theorists often imagine ideal worlds, both to explore ideals and to criticize political realities. This course will explore utopias and dystopias as theories that explore political possibilities and challenge existing realities.

prereq: ENGL 12000 or its equivalent; one course in political theory or perm dept.
3 hrs
3 cr.

POLSC 31600 - Political Theory of Human Rights (W)

GER
3/B

A critical analysis of the intersection of academic and practical discourse of human rights with the central concerns of political theory, particularly as it engages relationships between ethics and power as well as theory and practice.

prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

PUPOL 40000 - Capstone Seminar

This writing intensive course is the culminating experience in the Public Policy minor/certificate. It provides students with an opportunity to apply the knowledge and skills acquired in their other courses to a specific policy problem. An interdisciplinary course, it will require students to make an inquiry into a specific policy problem. The project will be overseen jointly by a faculty adviser who specializes in the substantive area of public policy chosen and another faculty adviser in the program by writing a formal paper.
Each student will write an appropriately revised 5-7 page research proposal and a 20-25 page research paper involving primary research.
These courses are only open to students enrolled in the program. They cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

prereq: Students must have completed 45 credits, have a declared major, and a cumulative GPA of 3.0 or higher.
3 hours
3 credits

SOC 22100 - Classical Sociological Theory

Pluralism and Diversity
PD/D
GER
3/B

Classical theorists and their contributions.

prereq: SOC 10100
3 hrs
3 cr.
SOC 22300 - Current Sociological Theory

GER
3/B

Significance of concepts and nature of evidence applied to leading theories. Theory construction.

 prereq: SOC 10100, SOC 22100, major
3 hrs
3 cr.

Elective courses recommended for students with particular interests

Elective credits should be carefully chosen to focus students’ programs on their present interests and future needs. The following courses are recommended for students with particular interests.

Graduate study in philosophy

PHILO 27500 - Symbolic Logic

GER
3/B

Sentential logic including symbolizations, truth-value tables, formal derivations, Predicate logic including symbolizations, interpretations and formal derivations.

 cross-listed MATH 27500
3 hrs
3 cr.

PHILO 24400 - Moral Philosophy (W)

GER
3/A

Study of selected problems in philosophical ethics and moral psychology.

 prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

Admission to law school

PHILO 27500 - Symbolic Logic

GER
3/B

Sentential logic including symbolizations, truth-value tables, formal derivations, Predicate logic including symbolizations, interpretations and formal derivations.

 cross-listed MATH 27500
3 hrs
3 cr.
PHILO 24400 - Moral Philosophy (W)

GER
3/A

Study of selected problems in philosophical ethics and moral psychology.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

Careers in public administration

PHILO 25000 - Problems of Ethics and Society (W)

GER
3/B

Study of the ethical dimensions of contemporary social problems, such as poverty, consumption, sexual deviance, racism and environmental destruction.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

Careers in foreign service

PHILO 24800 - International Ethics (W)

GER
3/B

Study of the ethical dimensions of problems in contemporary international relations, such as war and peace, imperialism, national identity and development.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

POLSC 31600 - Political Theory of Human Rights (W)

GER
3/B

A critical analysis of the intersection of academic and practical discourse of human rights with the central concerns of political theory, particularly as it engages relationships between ethics and power as well as theory and practice.
prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

An additional course relating philosophy to international relations

Careers in social welfare

PHILO 25000 - Problems of Ethics and Society (W)
GER 3/B

Study of the ethical dimensions of contemporary social problems, such as poverty, consumption, sexual deviance, racism and environmental destruction.

prereq: ENGL 12000 and one previous course in philosophy.

3 hrs

SOC 22100 - Classical Sociological Theory

Pluralism and Diversity
PD/D

GER 3/B

Classical theorists and their contributions.

prereq: SOC 10100

3 hrs

SOC 22300 - Current Sociological Theory

GER 3/B

Significance of concepts and nature of evidence applied to leading theories. Theory construction.

prereq: SOC 10100, SOC 22100, major

3 hrs

3 cr.

Note:

Certain new, ad hoc, or independent study courses may be taken in partial satisfaction of requirements listed above, if they are approved by the Philosophy, Politics and Society major concentration adviser.

Major Adviser

The Philosophy Department offers extensive advising services to majors, including: guidance for course selection and sequencing and devising a course of study; tracking progress and compliance with college, CUNY, and state regulations; career advice; planning for graduate and professional school applications; and information about special opportunities for philosophy students. Minors may also make use of these services.

Mentoring

Philosophy majors are encouraged to establish a relationship with a faculty mentor of their choice. This relationship can be distinct from the departmental advising relationship.
Honors

To be eligible for graduation with departmental honors in philosophy, a major must have at least a 3.50 GPA in philosophy, at least a 3.0 overall GPA. The student must register for the 3- or 6-credit PHILO 49400, which is taken in addition to and is not part of the 30 credits for the major. The student must write a substantial paper under the direction of a full-time faculty member. To receive departmental honors the completed paper must be submitted to a three-member committee who will judge whether it merits departmental honors. This committee will consist of the director of the student's Honors Tutorial and two other full-time philosophy faculty members appointed by the director.

PHILO 49400 - Honors Tutorial in Philosophy

Open to Jr/Sr only. Students must present a proposal for an individual project to be completed under faculty supervision. Successful completion is one requirement for departmental honors at graduation.

prereq: 3.0 cum GPA and 3.50 major GPA; philosophy majors only, minor with perm instr; two 300-level PHIL courses, one of which may be taken concurrently; perm dept.

3 or 6 cr.

Independent Study

Students may engage in independent study under the supervision of a member of the Philosophy department by receiving permission to take the following.

PHILO 49200 - Independent Study in Philosophy

Independent study of philosophical works under faculty supervision.

prereq: one PHILO course at 300-level, perm instr. (see Program Prerequisites)

1-6 cr.

Minors in Philosophy

Minors in Philosophy

Physics - BA

Major

One of the following 3 options (concentrations) may be taken.

- Physics Option 1
- Physics Option 2
- Physics Option 3

Graduate Study
The Department of Physics and Astronomy offers a number of advanced courses, listed in the graduate catalog, which give credit toward the degree of master of arts. Qualified undergraduate students may be admitted to these courses with the approval of the department chair.

**Minor in Physics**

A minor in Physics consists of a minimum of 12 credits of PHYS courses, including two courses numbered above 200 or one course numbered above 300.

Students who wish to enroll in the Physics Minor must have completed MATH 15000 (STEM) and MATH 15500 (STEM). The prerequisites for the 300-level courses include MATH 25000 and/or MATH 25400.

**Honors Work**

The opportunity for students to do individual research (experimental or theoretical) is offered in courses

**PHYS 45300 - Introduction to Research**

Independent theoretical or experimental research or independent study of approved topic.

_prereq: PHYS 33000, 33400, 33500, and 42700 or perm chair

1-3 cr.

**PHYS 45400 - Introduction to Research**

Independent theoretical or experimental research or independent study of approved topic.

_prereq: PHYS 45300 or perm chair

1 to 3 cr.

**Articulation Agreement**

**Articulation Agreement with New York City College of Technology**

An agreement is in place for students from New York City College of Technology (CUNY) who successfully complete an associate degree in science in Liberal Arts (LAS) with at least a 2.0 overall grade-point average to be accepted into the Hunter College BA program in Physics. Consult the physics and astronomy department for further information.

**Physics Option 1**

Return to Programs and Courses in Physics & Astronomy

For students in the BA/MA program, students intending to teach grades 7-12, and students intending to enter the medical profession.

**Foundational Courses**
Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

**MATH 12500 (STEM) - Precalculus**

**Hunter Core**
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*

4 hrs
4 cr.

**MATH 12600 - Precalculus Technology Laboratory**

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*

*prereq or coreq: MATH 12500*

2 hrs
1 cr.

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

*prereq: grade of C or better in MATH 12500 or appropriate score on placement exam*

4 hrs
4 cr.

**Hunter Core Requirement** Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

**Option 1**

The requirements consist of 8 credits of introductory physics courses

PHYS 11100 (STEM) and PHYS 12000 (STEM) preferred
and a 22-credit concentration in physics courses at the 200 level and higher:

PHYS 22100
PHYS 22200
PHYS 33000
PHYS 33400
PHYS 23000
PHYS 23500
PHYS 33500

Additionally, 15-24 credits of allied courses (mathematics and chemistry) are also required. Together, the introductory physics and the Option 1 concentration (30 credit total) satisfy the major requirement for initial certification as a teacher of physics in grades 7-12. Option 1, together with the MA (see the Accelerated BA/MA Program in Physics), is recommended for students planning to pursue a PhD in physics.

Preparation for Teaching

The Option 1 major in physics satisfies the requirements for NY State initial certification of at least 30 credits for teachers in adolescent education: physics (grades 7-12). Students planning to become physics teachers at the secondary level should take the 23-credit sequence in secondary education.

Students preparing to teach physics are advised to include the following courses or their equivalents in their undergraduate program:

**MATH 25400 - Ordinary Differential Equations**

**GER**
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

*prereq: MATH 25000*
3 hrs
3 cr.

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.
*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*
CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

ASTRO 10100 - Basic Concepts of Astronomy with Laboratory Exercises

GER
2/E with lab

An introductory, one-semester astronomy course designed for non-science majors. Topics include: basic observational features of the night sky, and their explanations; Kepler’s laws of planetary motion; Newton’s laws of motion and gravitation. Properties of light, and how it reveals the nature of its source. Origin, properties, and evolution of our solar system. The origin and evolution of stars, including giants, dwarfs, supernovae, neutron stars, and black holes. Structure of The Milky Way and other type of galaxies. Cosmology, Hubble’s Law and the expanding universe, from the Big Bang to the present; future scenarios.

The lab consists of traditional hardware experiments and virtual online experiments. Students taking this course will be required to submit online and hard-copy laboratory reports.

GEOL 10000 - Introductory to Geology
Hunter Core
Scientific World (SW)
GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

Physics Option 2

Return to Programs and Courses in Physics & Astronomy

(Biophysics concentration) is recommended for students planning to pursue graduate studies and industrial R&D in biological related areas in physics, chemistry, bioengineering, and material sciences. This concentration is designed to allow the students to gain a solid foundation in physics and biology, together with a specially-designed course in biophysics which demonstrates the disciplinary interface between the two. The concentration requirements consist of courses in physics (26 cr), mathematics (12 cr), chemistry (15 cr) and biology (18 cr) and 8 credits of electives (at least 4 must be in physics).

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

MATH 12500 (STEM) - Precalculus
Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs

4 cr.

MATH 12600 - Precalculus Technology Laboratory

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: MATH 12500

2 hrs

1 cr.

Hunter Core Requirement: Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Option 2

Courses in Physics (26 credits)

PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

prereq or coreq: coreq (with perm dept.): MATH 15000

8 hrs (4 lec, 3 lab, 1 rec)

5.5 cr.

PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics
Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.

**Prereq:** PHYS 11000 or 11100

**Prereq or Coreq:** (with perm dept.): MATH 15500

**8 hrs** (4 lec, 3 lab, 1 rec)

**5.5 cr.**

**PHYS 33000 - Atomic and Nuclear Physics**

Examines experimental evidence and develops modern view of structure of atom and nucleus.

**Prereq:** PHYS 12000 or 12100

**Prereq or Coreq:** MATH 25000

**4 hrs**

**4 cr.**

**PHYS 33400 - Intermediate Electricity and Magnetism**

Electrostatics, currents, magnetism, and introduction to electromagnetic theory of light.

**Prereq:** PHYS 12000 or 12100

**Prereq or Coreq:** MATH 25000

**4 hrs**

**4 cr.**

**PHYS 33600 - Thermodynamics and Statistical Mechanics**

Study of fundamental ideas of heat, reversibility, and entropy. Introduction to statistical nature of some physical laws.

**Prereq:** PHYS 12000 or 12100; MATH 25000

**4 hrs**

**4 cr.**

**PHYS 42000 - Introduction to Biophysics**

A comprehensive introduction to the interface between physics and biology and the application of the techniques of physics to understanding biological systems, focusing on developing an understanding of the thermodynamics of living systems, on the physical kinematics of macromolecules and other biological structures and on the theory of physical techniques that are used in the study of biological systems.

**Prereq or Coreq:** PHYS 33000, PHYS 33600, BIOL 30000, CHEM 37600.

**4 hrs**

**4 cr.**

**Mathematics (12 cr)**

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**

Math/Quantitative Reasoning

**GER**
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications. 
*prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.*
4 hrs
4 cr.

**MATH 15500 (STEM) - Calculus with Analytic Geometry II**

**Hunter Core**
Math/Quantitative Reasoning
**GER**
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
*prereq: grade of C or better in MATH 15000*
4 hrs
4 cr.

**MATH 25000 - Calculus with Analytic Geometry III**

**GER**
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.
*prereq: MATH 15500*
4 hrs
4 cr.

**Chemistry (15 cr)**

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors. 
*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

*prereq or coreq: MATH 12500, 15000 or equiv.*
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**
**Hunter Core**  
Life and Physical Sciences (LPS) Scientific World (SW)  
**GER**  
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

**prereq:** CHEM 10200 with grade of C or better or CHEM 10000 with perm chair  
5 hrs (4 lec, 1 rec)  
4 cr.

---

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**  
Life and Physical Sciences (LPS); Scientific World (SW)  
**Pluralism and Diversity**  
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.  
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

**prereq:** CHEM 10200  
**coreq:** CHEM 10400  
6 hrs  
3 cr.

---

**CHEM 22200 - Organic Chemistry Lecture I**

**GER**  
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

**Note:** No student may receive credit for both CHEM 12000-12100 and 22200-22300.

**prereq:** CHEM 10400 with a grade of C or better  
5- 6 hrs (4 lec, 1-2 recitation/workshop)  
4 cr.

---

**CHEM 22400 - Organic Chemistry Lecture II**

**GER**  
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

**prereq:** CHEM 22200 with a grade of C or better  
5-6 hrs (4 lec, 1-2 recitation/workshop)  
4 cr.
Biology (18 cr)

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**  
Life and Physical Sciences (LPS); Scientific World (SW)  
Pluralism and Diversity  
GER  
2/E  

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.  
Material Fee: $5  
PD credit awarded only upon completion of BIOL 10000 and 10200.  
*prereq: MATH 12500, CHEM 10200*  
7 hrs (3 lec, 3 lab, 1 disc)  
4.5 cr.  
*spring only*

**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**  
Scientific World (SW); Life and Physical Sciences (LPS)  
Pluralism and Diversity  
GER  
2/E  

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.  
Material fee: $5  
PD credit awarded only upon completion of BIOL 10000 and 10200.  
*prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.*  
7 hrs (3 lec, 3 lab, 1 disc)  
4.5 cr.  
*fall only*

**BIOL 30000 - Biological Chemistry**

**GER**  
3/B  

Molecular aspects of cellular function; properties of biomolecules, their biosynthesis and breakdown; structure and function of proteins and enzymes, metabolites, membranes and nucleic acids; cellular mechanisms of energy transduction; integration and control of cell metabolism. Experiments cover a variety of modern techniques in biological chemistry. The following pre/co-requisites apply: *prereq: BIOL 20300 and coreq: CHEM 22200.*  

Material Fee: $10  
*prereq: Open only for majors.*  
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

and 8 cr of electives

At least 4 credits must be in physics

**Physics Option 3**

Return to Programs and Courses in Physics & Astronomy

(Laser and fiber optics concentration) is recommended for those interested in a career in the telecommunications industry, as it includes a foundation in lasers and fiber optics.

**Foundational Courses**

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

**MATH 12500 (STEM) - Precalculus**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*

4 hrs
4 cr.

**MATH 12600 - Precalculus Technology Laboratory**

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving pre-calculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*

*prereq or coreq: MATH 12500*

2 hrs
1 cr.

**Hunter Core Requirement** Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.
Option 3

Eight (8) credits of introductory physics are required

Recommended

**PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Scientific World (SW) Life and Physical Sciences (LPS)
**GER**
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

*prereq or coreq: coreq (with perm dept.): MATH 15000*

8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

**PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
**GER**
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.

*prereq: PHYS 11000 or 11100*

*prereq or coreq: (with perm dept.): MATH 15500*

8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

May be taken instead

**PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
**GER**
2/E

First semester of two-semester introductory physics course using algebra.

*prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.*

7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

**PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**
Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra. 

prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec) 
4.5 cr.

No more than 8 credits toward the major can be obtained from these courses. It is recommended that the following be taken, if the PHYS 110-120 sequence is taken instead of the PHYS 111-121 sequence.

**PHYS 19000 - Tutorial in Mathematical Physics**

Applications of differential and integral calculus to selected topics chosen from the major subfields of physics. Completion of this course and its prerequisites is equivalent to completion of the calculus-based general physics sequence, PHYS 11100 and 12100. 

prereq: MATH 15500, PHYS 12000
3 hrs (2 lec, 1 rec) 
2 cr.

(15 cr) are required in addition to one year of high school chemistry or college chemistry

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

Hunter Core 
Math/Quantitative Reasoning 
GER 
1/B 

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications. 

prereq: grade of C or better in MATH 12500 or appropriate score on placement exam. 

4 hrs 
4 cr.

**MATH 15500 (STEM) - Calculus with Analytic Geometry II**

Hunter Core 
Math/Quantitative Reasoning 
GER 
1/B 

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates. 

prereq: grade of C or better in MATH 15000 
4 hrs 
4 cr.

**MATH 25000 - Calculus with Analytic Geometry III**
Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

**prereq:** MATH 15500

4 hrs

4 cr.

**MATH 25400 - Ordinary Differential Equations**

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

**prereq:** MATH 25000

3 hrs

3 cr.

All four courses of the sequence are required

No more than 4 credits of the sequence PHYS 231-234 may be used toward the major.

**PHYS 23100 - Fundamentals of Laser and Fiber Optics**

Topics in optics related to lasers and optical fiber and devices for modulating and directing signals from such devices. Geometrical optics with emphasis on ray tracing. Matrix methods in optics. Lenses thick and thin, mirrors, prisms and other passive optical elements and systems. Propagation of light in materials. Dispersion and its effects. Special topics in geometric and wave optics. Laboratory complements classwork.

**prereq:** PHYS 12000 or 12100 or equiv; MATH 12500

5 hrs

4 cr.

**PHYS 23200 - Laser and Electro-Optics Technology**

Wave optics, interference, coherence, polarization, birefrigence, diffraction, gratings in two and three dimensions, power and energy measurements, basics of laser safety, ultra-fast pulse technology measurements, basics of laser safety, ultra-fast pulse technologies, electro-optics and acoustooptics switches, optical materials, non-linear optics. Laboratory complements classwork.

**prereq:** PHYS 23100

7 hrs

5 cr.

**PHYS 23300 - Laser Electro-Optics Devices, Measurements and Applications**
GER
3/B
Laser as a device, principle of operation, cavity modes and their control (tuning elements, Q switching, mode-locking) and detection, laser design, types of lasers, includes discussion of laser types for medical, ranging and tracking, material processing, pollution monitoring, and optical memory applications, semiconductor laser. Laboratory complements class work.

prereq: PHYS 23100
6 hrs
4 cr.

PHYS 23400 - Fiber Optics Devices, Measurements, and Applications

GER
3/B

prereq: PHYS 23100
6 hrs
4 cr.

Political Science - BA

Major

30 cr for students declaring after September 1, 2009
Majors are required to take at least one course in each of the four following subfields of the discipline:

1. American Government
2. Political Theory
3. Comparative Politics
4. International Relations

Students may distribute their remaining courses in the major as they see fit. However, students contemplating graduate work are encouraged to specialize appropriately in consultation with the department's faculty members.

For students declaring after September 1, 2009, no more than two introductory (100-level) courses can be applied toward the major. Majors must complete at least three courses at the 300-level or above in any subfield.

No more than 6 credits in internship, independent study, and/or experiential courses (such as Model United Nations) may be used to satisfy the 30 credits in the major. Also, such credits may not be used to satisfy the distribution requirements in the four fields. Courses taken for Credit/No Credit may not be applied toward the major.

Hunter Core Requirement

Several courses leading to or in this major fulfill parts of the Hunter Core Requirement (CUNY Common Core, Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path of the major. Details of the Hunter
Core Requirement can be found here: Appendix I: Hunter Core Requirement.

In the case of political science, the courses that meet CCC are:

<table>
<thead>

Please note that no more than two courses from any one department will count for the CUNY Common Core.

**Minor in Political Science**

Students minoring in political science must complete 12 credits in political science. No more than three credits can be at the 100-level. No more than three credits in independent study can be used to satisfy the minor. Internship credits may not be applied toward the minor.

The minor in Political Science is designed to provide students with a solid grounding in political science and to encourage them to develop depth in the discipline in an area that will complement their major or develop expertise in an area of particular interest to them. To complete a minor in Political Science, students must complete 12 credits in Political Science with no more than 3 credits at the 100 level. Students may apply up to 3 credits of independent study in Political Science POLSC 29001-29003; however, internship credit may not be applied to the minor.

The minor in Political Science offers students considerable flexibility in designing a minor that will best serve their academic goals. Students may, for instance, wish to focus on courses dealing with European politics and foreign policy to complement a major in a European language and culture. Other students may wish to emphasize courses in international and public law in preparation for law school. Students may concentrate their courses in one field of political science, or spread them across several fields. Students may consult an advisor in the Department of Political Science about their goals as they choose courses to satisfy the minor.

**Interdepartmental Fields**

Political Science department faculty are actively involved in many interdisciplinary programs at Hunter College. Students who want to do work in political science as part of the following interdepartmental programs should refer to the appropriate programs in this catalog.

Minor in Asian American Studies,

Human Rights,

Jewish Studies - BA,

Latin American and Caribbean Studies - BA,

Public Policy,

Women and Gender Studies - BA
**Honors**

To complete the requirements for departmental honors in Political Science at graduation, students must have at least 30 credits in Political Science and be eligible for graduation in the semester that they formally complete department honors. At least 21 of these credits (or in exceptional cases, 18) must be taken in the Political Science Department at Hunter College. In the case of transfer students, the student's faculty supervisor must recommend an exception to this policy; however, in no case should a student who has taken fewer than 15 credits in academic coursework (excluding internships or other experiential education courses) in political science at Hunter College be recommended for departmental honors.

In addition, students must 1) have a GPA in the major of not less than 3.5; 2) have completed at least two credits (but not more than 6) in coursework specifically designated for honors (POLSC 492xx); 3) completed POLSC 49300, 4) work on the thesis with one Supervisor who must be a full-time political science faculty member.

The thesis should be a major paper of approximately 25 pages in length that reflects serious scholarship in an honors course. Students should enroll in POLSC 49202-49203 under the supervision of a faculty member with whom the student has done prior coursework and who has agreed to supervise the student's honors project. Students seeking to graduate with departmental honors should begin to plan the sequence of honors work at least two semesters in advance of their expected graduation date.

Approval for Honors will come from the Supervisor. Once students have received the approval of the Sponsor, the thesis can be submitted for departmental honors. Successful completion of departmental honors includes a formal presentation of the thesis to the Honors Committee. Final papers must be deposited in the department office.

**Pi Sigma Alpha**

Students interested in joining this honor society should consult with Professor Leonard Feldman, 1702 Hunter West, (212)396-6246, lfeldman@hunter.cuny.edu.

**Writing Corequisite and Prerequisites**

Introductory, intermediate and advanced political science courses require significant expository writing and ENGL 12000 as a co- or prerequisite. To assure that students are ready for these courses, they should be enrolled in ENGL 12000 (or its equivalent) or have successfully completed the course. For all 100-level courses, ENGL 12000 (or its equivalent) is a prerequisite or co-requisite; for all 200-level, 300-level and 400-level courses, ENGL 12000 (or its equivalent) is a prerequisite.

**Seminar/Internship Program in New York Government**

This university-wide program is designed to bridge the gap between academic study and the practical world of government. Each year approximately 300 students are selected as CUNY interns. Hunter College students participate by enrolling in POLSC 22200/22300. Interns spend eight to ten hours a week in agencies, political offices or community groups working on administrative or research assignments related to urban affairs and services.

They attend a weekly classroom seminar at Hunter and monthly meetings of the entire program at the CUNY Graduate School. Prominent government officials, political leaders, community representatives and academic experts participate in both the weekly and monthly meetings. Students are advised to have taken prior coursework in American politics and to have at least a 3.0 GPA prior to being admitted to this program. For further information, consult the Department of Political Science.

**Other Internships**
Students may wish to consider internships in any field of political science, and receive credit through POLSC 29801-29806. The department does not offer internship credits to students in their first semester at Hunter College or to students who have never taken a political science course at Hunter. Up to 6 credits in internship work (POLSC 29801-29806) may be used to satisfy requirements for the major. As a general rule, a student who takes POLSC 29801-29806 must be supervised by a full-time faculty member with whom the student has done prior coursework and who has agreed to supervise the student’s internship. Additional internship credits may be used as electives toward graduation.

**Preparation for Graduate Study**

Many political science majors go on to graduate study. Students considering graduate work should consult members of the political science faculty.

**Awards and Prizes**

The Political Science Department confers recognition on its outstanding graduates through prizes and awards. The Katherine Duffy Prize and the David Haight Memorial Prize are presented annually to graduating political science majors.

**Scholarships**

The Political Science Department may award the Joan Pincus Scholarship to students majoring in political science who have achieved at least sophomore status, have an excellent academic record and have demonstrated financial need. For additional information, see the department chair or a departmental adviser.

**Psychology - BA**

**Foundational Courses**

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

**ENGL 12000 - Expository Writing**

*Hunter Core*

*GER*

1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

*prereq: successful completion of developmental courses, if required*

*3 hrs + conf*

*3 cr.*

**PSYCH 10000 - Introduction to Psychology**
GER
2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.

3 hrs
3 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs
4 cr.

-or-

STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam

prereq or coreq: ENGL 12000

3 hrs
3 cr.

Hunter Core Requirement Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement.

Exemptions

A student may be exempt from PSYCH 10000 by earning a score of 4 or 5 on the Advanced Placement Test taken in conjunction with a high school course in psychology or by passing the CLEP examination (College Level Education
Program). Exemption from Child Psychology (PSYCH 21000) may be earned by a passing grade on the CLEP examination in Developmental Psychology. CLEP examinations are given at various testing centers. Interested students can obtain information and application forms at http://www.collegeboard.com or by contacting the Office of Student Services. A passing grade on either CLEP examination provides 3 credits. Information on exemption from the mathematics course requirement and on test administration is available from the Testing Center, North 150 (http://admissions.hunter.cuny.edu/Testing.htm).

The Psychology Major

Preparation

The psychology major is designed to provide students with training in both the evaluation and the generation of research data. For this reason, the core sequence of Psychological Statistics and Experimental Psychology is central to the program and is a prerequisite for all upper-level psychology courses. Performance in the Psychological Statistics/Experimental Psychology sequence will be greatly facilitated by proper preparation in mathematics and laboratory science and the development of excellent writing skills.

PSYCH 24800 - Statistical Methods in Psychological Research

GER
3/B

Open to declared majors only. Analysis and interpretation of quantified data. Descriptive and inferential statistics applied to psychological research.

Writing Intensive

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: PSYCH 10000 and any other 3 cr PSYCH course, MATH 12500 or STAT 11300 with a C or better, or appropriate score on math placement exam

prereq or coreq: ENGL 12000

4 hrs

4 cr.

PSYCH 24900 - Experimental Psychology: Social

GER
3/B

Introduction to the principles of research methodology and experimental techniques. Required research reports involve laboratory and field exercises concerned with a variety of social psychological phenomena. (Students may take either PSYC 249 or 250, but not both.)

Writing Intensive

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000 with a minimum grade of C; one sem. acceptable lab science sequence with a passing grade; PSYC 24800 with a minimum grade of C

prereq or coreq: Writing Intensive
PSYCH 25000 - Experimental Psychology: General

GER
3/B

Open to declared majors only. Research and general experimental techniques in study of behavior. Introduction to the principles of research methodology and experimental techniques. Required research reports involve a variety of laboratory exercises related to the study of basic behavioral processes. (Students may take either PSYC 24900 or 25000, but not both.)

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000 with a minimum grade of C; one sem. acceptable lab science sequence with a passing grade; PSYCH 24800 with a minimum grade of C
prereq or coreq: Writing Intensive

Course of Study

Completion of ENGL 12000 prior to declaration of the major in psychology is strongly recommended. ENGL 12000 is a pre or co-requisite for all 200-level classes below 24900. For any classes numbered 24900 and above, ENGL 12000 is a prerequisite. Students whose career goals include professional work in psychology, social work, or counseling should take the following courses, as appropriate. Note that each may be used only once to satisfy major requirements.

PSYCH 20100 - Independent Study in Psychology

May be taken two times but will be applied to major only once. Designed to meet the needs of individual students under the direction of a particular faculty sponsor. The course may involve independent readings, tutorials, work as an advising assistant or peer counselor, field placement, an individual research project, or participation in ongoing faculty research, any of these culminating in a written report.

prereq: PSYCH 10000 and any other 3 cr PSYCH course, perm dept.
prereq or coreq: ENGL 12000

3 hrs

PSYCH 30600 - Seminar in Psychological Services I (A)

Open to declared majors only. An integration of personality and abnormal psychology, the helping process and the role of the helper. Seminar and one day per week placement in mental health/community service setting.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000, PSYCH 2200 or 32300, PSYCH 24900 or 25000, perm instr.
PSYCH 30700 - Seminar in Psychological Services II (A)

Integration of personality and abnormal psychology. Seminar and one day per week placement in mental health/community service setting.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000, PSYCH 30600, perm instr.

3 hrs

3 cr.

PSYCH 39500 - Independent Research in Psychology

May be taken two times, but will apply to the major only once. Designed to meet the needs of individual students under the direction of a particular instructor at a more advanced level than PSYCH 20100. Such study may involve independent reading, tutorials, independent research projects, or participation in ongoing faculty research, any of these culminating in an APA-style research report or literature review. Field Placements (internships) cannot be granted credit as PSYCH 39500; however, supervised field Placement taken in conjunction with PSYCH 36100 - Psychological Tests (A) will be granted credit as PSYCH 39500.

prereq: ENGL 12000, PSYCH 24900 or 25000, perm instructor and department

3 hrs

3 cr.

PSYCH 39600 - Honors in Psychology

Independent, sponsored, empirical research and seminar. Students are expected to attend the regularly scheduled seminar. An APA-style research report or its equivalent (to be filed in the department) is a requirement of this course. To graduate with departmental honors, the student must receive a grade of A in PSYCH 39600. Honors in Psychology is typically a one-semester course; however, when a PSYCH 39600 research project extends beyond a single semester, the student may (with permission) register for a second semester as PSYCH 39800. If taken, the student must receive a grade of A in both PSYCH 39600 and 39800 to graduate with departmental honors.

prereq: ENGL 12000, PSYCH 24900 or 25000; 3.5 major GPA; 3.00 cumulative GPA; perm instr.

3 hrs

3 cr.

Declaration of Major

To declare a psychology major, the student must have completed Introduction to Psychology (PSYCH 10000) and any other 100-level psychology course with a minimum grade of B, a required mathematics course with a minimum grade of C or CR and have a minimum GPA of 2.00. The mathematics requirement may be satisfied by the following, or by earning exemption from the mathematics requirement. The major must be declared in person with an undergraduate psychology adviser. (Refer to website http://hunter.cuny.edu/psychology for schedule.) The student must bring his/her Hunter transcript (and where relevant, transcripts from all other colleges attended) when meeting with the adviser to declare a psychology major.

STAT 11300 - Elementary Probability and Statistics
Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

-or-

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

Psychology Major

- The major consists of 26 credits in psychology above the 100 level, including PSYCH 24800 - Statistical Methods in Psychological Research and PSYCH 24900 - Experimental Psychology: Social or PSYCH 25000 - Experimental Psychology: General. The major also requires at least one course in each of the following content areas:

Applications of Psychology (A):

- PSYCH 22100 - Psychoanalytic Theories (A; D/S)
- PSYCH 22300 - Abnormal Psychology (A; D/S)
- PSYCH 24000 - Applications of Psychology (A)
- PSYCH 24200 - Health Psychology (A)
- PSYCH 30600 - Seminar in Psychological Services I (A)
- PSYCH 30700 - Seminar in Psychological Services II (A)
- PSYCH 32300 - Developmental Psychopathology (A; D/S)
- PSYCH 32800 - States of Consciousness (A/C)
- PSYCH 34000 - Industrial and Organizational Psychology (A)
- PSYCH 34100 - Stress, Trauma, and Resilience (A)
• PSYCH 34200 - Emotion: Function and Dysfunction (A)
• PSYCH 34400 - Clinical Psychology (A)
• PSYCH 36100 - Psychological Tests (A)
• PSYCH 36200 Psychological Determinants of Health Disparities (A; D/S)
• PSYCH 36300 Health Behavior Change (A; D/S)
• PSYCH 36400 Sexuality and Health (A)
• PSYCH 36500 Coping with Chronic Disease (A; D/S)
• PSYCH 36600 Interpersonal Relationships and Health (A; D/S)
• PSYCH 38400 Current Topics in Developmental Psychology (A; D/S)
• PSYCH 38600 Current Topics in Clinical Psychology (A)
• PSYCH 38700 Current Topics in Health Psychology (A; DS)

Biopsychology (B):

• PSYCH 22400 - Neuroscience (B)
• PSYCH 22500 - Ethology: Animal Behavior (B)
• PSYCH 30000 - Physiological Psychology (B)
• PSYCH 30100 - Sensation and Perception (B; C)
• PSYCH 30900 - Behavioral Neuroendocrinology (B; D/S)
• PSYCH 31600 - Cognitive Neuroscience (B/C)
• PSYCH 32000 Neuronal Basis of Behavior (Neuroethology) (B)
• PSYCH 32100 - Animal Orientation: Function and Mechanisms (B)
• PSYCH 32400 - Communication Behavior (B/C)
• PSYCH 32500 - Animal Cognition (B/C)
• PSYCH 32700 - Motivation and Emotion (B; C)
• PSYCH 36700 Biological and Social Bases of Addictive Behavior (B)
• PSYCH 36900 - Behavioral Pharmacology (B)
• PSYCH 38100 Current Topics in Animal Behavior (B)
• PSYCH 38200 Current Topics in Biopsychology (B)

Cognitive Processes (C):

• PSYCH 24300 - Cognitive Processes (C)
• PSYCH 30100 - Sensation and Perception (B; C)
• PSYCH 31000 - Research Methods in Developmental Psychology (C; D/S)
• PSYCH 31600 - Cognitive Neuroscience (B/C)
• PSYCH 32200 - Psychology of Language (C)
• PSYCH 32400 - Communication Behavior (B/C)
• PSYCH 32500 - Animal Cognition (B/C)
• PSYCH 32700 - Motivation and Emotion (B; C)
• PSYCH 32800 - States of Consciousness (A/C)
• PSYCH 32900 - Cognitive Science (C)
• PSYCH 33000 - Memory and Attention (C)
• PSYCH 33100 - Social Cognition of Gender (C)
• PSYCH 35000 - Learning (C)
• PSYCH 37000 - Cognitive Development (C; D/S)
Developmental/social psychology (D/S):

- PSYCH 21000 - Child Development (D/S)
- PSYCH 21200 - Exceptional Childhoods (D/S)
- PSYCH 22000 - Personality (D/S)
- PSYCH 22100 - Psychoanalytic Theories (A; D/S)
- PSYCH 22300 - Abnormal Psychology (A; D/S)
- PSYCH 23000 - Social Psychology (D/S)
- PSYCH 23500 - The Psychology of Women (D/S)
- PSYCH 30900 - Behavioral Neuroendocrinology (B; D/S)
- PSYCH 31000 - Research Methods in Developmental Psychology (C; D/S)
- PSYCH 31300 - Adolescence (D/S)
- PSYCH 31500 - Adult Development (D/S)
- PSYCH 32300 - Developmental Psychopathology (A; D/S)
- PSYCH 33100 - Social Cognition of Gender (D/S)
- PSYCH 33200 - Attitudes and Persuasion (D/S)
- PSYCH 33300 - Advanced Social Psychology Theory and Methods (D/S)
- PSYCH 33400 - Cultural Psychology (D/S)
- PSYCH 33500 - Ethnic and Cultural Identity Theories (D/S)
- PSYCH 36200 Psychological Determinants of Health Disparities (A; D/S)
- PSYCH 36300 Health Behavior Change (A; D/S)
- PSYCH 36500 Coping with Chronic Disease (A; D/S)
- PSYCH 36600 Interpersonal Relationships and Health (A; D/S)
- PSYCH 37000 - Cognitive Development (C; D/S)
- PSYCH 38400 Current Topics in Developmental Psychology (A; D/S)
- PSYCH 38500 Current Topics in Social Psychology D/S
- PSYCH 38700 Current Topics in Health Psychology (A; D/S)

(If a course meets requirements for more than one content area, the student may apply the course to only one of them.)

All of the content-area courses must be at or above the 200 level and at least 2 of the content-area courses must be at or above the 300 level. Two additional (elective) courses in psychology, at the 200 level or higher, must be completed. Two semesters of laboratory science must also be completed. (See the Science Requirement for Graduation below.)

Qualified undergraduates in their last semester may register for graduate-level psychology courses with the permission of the instructor and the graduate adviser. Most psychology majors intending to attend graduate school take more than the minimum 26 credits in psychology and design their course of study in close consultation with a faculty mentor. Students should obtain a copy of "Psychology Major Requirements and Policies" from the undergraduate advising office as soon as they declare the major for up-to-date information on department resources, activities and faculty research interests.

Beginning in the spring 1998 semester, psychology courses taken on a Credit/No Credit basis may not be applied toward the major; PSYCH 24800, PSYCH 24900, PSYCH 25000 may not be taken on a Credit/No Credit basis.

Courses Taken on Permit and Courses Transferred into Hunter

Once the psychology major is declared, students may not take any psychology course that they wish to count toward the major on permit at another college. In contrast, psychology courses that were taken before the student enrolled at Hunter and that are deemed equivalent to a Hunter College course may count toward the major. The assessment of course equivalency is made by the Office of Admissions and by the undergraduate psychology advising office.
Prerequisites

Course prerequisites are strictly enforced. Students are responsible for meeting all course prerequisites, including satisfactory completion of courses in progress at the time of enrollment. Students enrolling in courses without necessary prerequisites will be dropped from the class by the registrar. The department screens for prerequisites and students may be dropped after the course begins. (See specific prerequisites for each course in Course Listings section.)

**Prerequisites for PSYCH 24800 - Statistical Methods in Psychological Research.** All students must have received at least a C or CR in STAT 11300 or MATH 12500 (STEM) or earned mathematics exemption and must have declared psychology as their major in the Psychology Department Advising Office at Hunter.

**Prerequisites for PSYCH 24900 - Experimental Psychology: Social and PSYCH 25000 - Experimental Psychology: General.** All students must be declared Psychology majors and have passed ENGL 12000 with C or higher, STAT 11300 or MATH 12500 with C or higher (or earned mathematics exemption), PSYC 24800 with C or higher, and 1 semester of laboratory science (see Science Requirement for Graduation, below).

As of fall 2011, only PSYCH 25000 will be offered

Science Requirement for Graduation

In order to graduate, psychology majors must have completed two semesters in laboratory science that were approved by the department. Students must take at least one semester of laboratory science before taking PSYCH 24900 or PSYCH 25000. Students may complete the laboratory science courses at any point in their studies, and the courses need not be taken in sequence. The science requirement may be met by any of the following courses, all of which meet the General Education Requirement Stage 2/E, Laboratory Science, requirement:

**ANTHP 10100 (STEM) - Human Evolution**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)

**GER**
2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.

*6 hrs (3 hrs lec, 3 hrs lab)*

*4 cr.*

*offered every sem.*

**ASTRO 10100 - Basic Concepts of Astronomy with Laboratory Exercises**

**GER**
2/E with lab

An introductory, one-semester astronomy course designed for non-science majors. Topics include: basic observational features of the night sky, and their explanations; Kepler’s laws of planetary motion; Newton’s laws of motion and gravitation. Properties of light, and how it reveals the nature of its source. Origin, properties, and evolution of our solar system. The origin and evolution of stars, including giants, dwarfs, supernovae, neutron stars, and black holes. Structure of The Milky Way and other type of galaxies. Cosmology, Hubble’s Law and the expanding universe, from the Big Bang to the present, future scenarios. The lab consists of traditional hardware experiments and virtual online experiments. Students taking this course will be required to submit online and hard-copy laboratory reports.
5 hrs
4 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
PD/C or D

GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: MATH 12500, CHEM 10200

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

Pluralism and Diversity
PD/C or D

GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

fall only

BIOL 12000 - Anatomy and Physiology I

Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program.

Not accepted for credit toward the biology major.

prereq: CHEM 10000, 10100

coreq: CHEM 12000, 12100

7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)

4.5 cr.

fall only

BIOL 12200 - Anatomy and Physiology II
Structure and function of circulatory, digestive, excretory, endocrine and reproductive systems. Basic concepts of metabolism, embryology. Required for admission to the nursing program. Not accepted for credit toward the biology major.

**prereq:** BIOL 12000 or equiv.

7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)

4.5 cr.

*spring only*

**BIOL 12500 (STEM) - Human Biology**

**Hunter Core**

Life and Physical Sciences (LPS); Scientific World (SW)

**GER**

2/E w/ lab

An introductory lecture/laboratory course for non-biology majors. BIOL 12500 explores the biology that underlies current health and disease topics (including diabetes, cancer, heart disease, sexually transmitted diseases, and nutrition). Using this topics approach, the course provides a survey of human anatomy and physiological function, along with the biological principles of genetics and cellular interactions that comprise our current understanding of the human organism. Laboratory exercises will introduce students to a scientific approach in studying human disease and physiology.

6 hrs

4.5 cr.

*spring only*

**CHEM 10000 (STEM) - Essentials of General Chemistry Lecture**

**Hunter Core**

Scientific World (SW); Life and Physical Sciences (LPS)

**GER**

GER 2/E

Essential facts, laws, and theories of general chemistry.

Primarily for nursing, nutrition and food science and community health education students.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

4 hrs (3 lec, 1 rec)

3 cr.

**CHEM 10100 - Inquiries into the Nature of Matter**

**Hunter Core**

Life and Physical Sciences (LPS)

**GER**

GER 2/E

A laboratory-based introduction to chemistry for non-science and health science majors that focuses on the basic principles of matter, energy and the environment. CHEM 10100 satisfies the laboratory requirements for a one-semester general chemistry course for health science students.
Primarily for nursing, nutrition and food science and community health students.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

*prereq or coreq: MATH 12500, 15000 or equiv.*

5 hrs (4 lec, 1 rec)

4 cr.

**CHEM 10300 (STEM) - General Chemistry Laboratory I**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)

**Pluralism and Diversity**
GER 2/E

Study of experiments designed to illustrate fundamental laws and techniques of chemistry.

Core credit awarded only if CHEM 10200 (STEM) and CHEM 10300 (STEM) are completed. Primarily for pre-med, medical laboratory sciences and science majors.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

*prereq or coreq: CHEM 10200*

4 hrs (3 lab, 1 rec)

1.5 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)

**GER**
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.
Primarily for premed, medical laboratory sciences and science majors.

**CHEM 10500 (STEM) - General Chemistry Laboratory II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)

**Pluralism and Diversity**
GER 2/E
Laboratory experiments illustrating and applying theory of solutions to qualitative analysis.
Offered for transfer students who have completed only one semester of General Chemistry Laboratory.

*prereq: One semester of General Chemistry Laboratory.*

**prereq or coreq:** CHEM 10400

*3 hrs
1.5 cr.*

**CHEM 11100 (STEM) - Chemical Principles**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
GER 2/E
In-depth introduction to chemical principles including measurement, stoichiometric calculations, inorganic nomenclature, gas laws, equilibrium, acids, bases and buffers. Emphasis is placed on problem-solving, oral presentations, and collaborative work. Laboratory and coursework emphasize analysis and evaluation of data.

Primarily for pre-med, medical laboratory sciences and science majors.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

*prereq or coreq: MATH 12500 or equiv, MATH 12600*

*9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)*

*5.5*

*offered fall*

**CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)

**GER**
2/E
The study of quantum theory, atomic structure, periodic properties of the elements, kinetics, electrochemistry, and thermodynamics.
Primarily for pre-med, medical laboratory sciences and science majors.

*prereq: CHEM 11100*

*9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)*

*5.5*

*offered spring*
CHEM 12000 (STEM) - Essentials of Organic Chemistry Lecture

Hunter Core
Life and Physical Sciences (LPS): Scientific World (SW)
Pluralism and Diversity
GER 2/E
Course presents essential facts, laws and theories of organic chemistry.

Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health education students.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10000
4 hrs (3 lec, 1 rec)
3 cr.

CHEM 12100 (STEM) - Essentials of Organic Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E
Experiments designed to illustrate fundamental laws and techniques of organic chemistry.
Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health students.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10100
prereq or coreq: CHEM 12000
3 hrs (3 lab)
1.5 cr.

GEOL 10000 - Introductory to Geology

Hunter Core
Scientific World (SW)
GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.
GEOL 10200 - Plate Tectonics and the Earth’s Evolution

GER
2/E

The second course in geology offered to non-geology majors. It is designed to familiarize students with the main concepts used in deciphering and interpreting earth’s evolution from the spatial and temporal perspective. Topics to be covered include: geologic time; geological principles; earth materials as recorders of past geologic processes; depositional environments and sedimentary rock record; igneous and metamorphic geologic environments and their rock records; evolution of the solar system; plate tectonics and life on earth; origin of the universe; life on earth and the fossil record; Precambrian, Paleozoic, Mesozoic, and Cenozoic life, history and tectonics. Field trips may be required; transportation fee.

prereq: GEOL 10100
5 hrs (3 lec, 2 lab)
4 cr.
Offered fall.

PGEOG 13000 (STEM) - Weather and Climate

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

Material Fee: $5
5 hrs (3 lec, 2 lab)
4 cr.
Offered in the Fall and Spring

PGEOG 23100 - Physical Geography II: Principles of Geomorphology

See GEOL 23100

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.

prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.
PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.
prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

Additional Information

For transfer students, the laboratory science requirement may be met by courses taken at previous institutions only if they have been assigned the Hunter College course numbers in the above list. Transfer students should check with the psychology adviser after their courses have been formally evaluated by Hunter College to determine whether the science requirement has been met.

Note: Students who declared a psychology major before January 1, 1998 are exempt from the science requirement within the Department of Psychology.

Special Programs

Field Placement Program

Offered for one semester (PSYCH 30600) or as a 2-semester sequence, Psychological Services I and II (PSYCH 30600 and PSYCH 30700) give enrolled students practical supervised career experience one day per week in an approved mental health or community service setting in conjunction with a class that meets once each week. Students may also gain field experience in conjunction with academic work through Independent Study (PSYCH 20100) with a faculty sponsor. Permission of the instructor is required for these courses and students should start making arrangements by the preceding term before they plan to take the course (e.g., midspring for the fall term). The undergraduate adviser can inform students of the instructor who will be teaching PSYCH 30600 and PSYCH 30700, for which field placement referrals are made by the instructor. Students wishing to take PSYCH 20100 in conjunction with a field experience should meet with the college internship coordinator (by appointment in Career Development, Room 805 Hunter East) and with prospective faculty sponsors.

The DIDARP Program (Diversity Institutional Drug Abuse Research Development Program)

The overall goal of DIDARP is to develop the capacity of Hunter College to support drug abuse research through the following objectives: (1) provide faculty from diverse populations with drug abuse research knowledge and skill development through the conduct of research projects and other professional development activities, (2) encourage students from diverse populations to pursue drug abuse research careers by providing them with educational enrichment and research experiences; and (3) strengthen the underlying institutional infrastructure needed to support drug abuse research. Undergraduate students supported by DIDARP are highly qualified students from underrepresented populations. They must be interested in pursuing careers in drug abuse research and in working in the laboratory of a DIDARP investigator.
BP-ENDURE

The Blueprint Program for Enhancing Neuroscience Diversity through Undergraduate Education is designed to identify exceptionally talented undergraduates and prepare them to obtain doctoral degrees in neuroscience-related fields of study. The program offers specialized neuroscience courses, summer research experiences, and mentoring from senior faculty. For additional information, please visit http://www.bpendure.org

Minor

As of the spring of 2009, Hunter no longer requires that students have a minor. Those students wishing to do a minor should go directly to the department in which they are interested in doing a minor and declare it with that department.

Minor in Psychology

Declaring a Minor in Psychology

The minor in psychology is designed to expose students to a variety of content areas in the field of psychology and to provide the student with the ability to evaluate psychological research as a consumer.

To declare a psychology minor, the student must have completed PSYCH 10000 and any other 100-level psychology course with a minimum grade of C and a required mathematics course with a minimum grade of C or CR. The mathematics requirement may be satisfied by STAT 11300 or MATH 12500 (STEM), or by an appropriate score on the mathematics placement test.

The minor in Psychology consists of 15 credits in Psychology as follows:

**PSYCH 10000 - Introduction to Psychology**

**GER**

2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.

3 hrs  
3 cr.

- Another 3-credit 100-level PSYCH course

**PSYCH 21500 - Introduction to Research Methods in Psychology (W)**

**GER**

3/B

Evaluation of published research; research principles and the concepts which underlie them; how to evaluate and select research strategies.

*prereq: PSYCH 10000 and any other 3 cr PSYCH course  
prereq or coreq: ENGL 12000

3 hrs  
3 cr.
- Two 200-level PSYCH courses below PSYCH 24800
- NOTE: The total number of credits to fulfill all minor requirements, including credits for all prerequisites is 18. Fifteen credits in PSYCH courses and 3 credits in STAT 11300 or MATH 12500.

Concentration

- Psychology: Concentration in Behavioral Neuroscience

Psychology: Concentration in Behavioral Neuroscience

Purpose

The Behavioral Neuroscience Concentration within Psychology provides interdisciplinary training for students preparing for academic or professional careers in neuroscience-related areas. The concentration brings together students from Psychology and Biology in a set of core courses and offers mentored research experience in faculty laboratories, opportunities for student research presentations and talks by distinguished visiting neuroscientists. The neuroscience concentration is a particularly good option for students who plan to do graduate study in neuroscience or neuroscience-related fields or attend medical school for neurology, neurosurgery, or psychiatry specialties. Because of the large number of required courses in the concentration, it is very important that interested students meet with the concentration adviser as early in their college career as possible-no later than the start of their Sophomore year. The concentration adviser is Prof. Philip Zeigler, (212) 772-5363; Room 626 Hunter North.

Admission Requirements

Admission is by application at the end of the sophomore year. Applicants will need to have completed or be currently taking the following courses with a minimum GPA overall of 3.0 and of 3.5 in the major. Selection will be based upon a combination of grades and an interview, and the identification of a faculty sponsor in whose laboratory the student’s research will be carried out. Application forms and names of faculty contacts may be obtained from the Psychology adviser’s office.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
PD/C or D

GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only
BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
Pluralism and Diversity
PD/C or D
GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.

PSYCH 10000 - Introduction to Psychology
An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.

3 hrs
3 cr.

**PSYCH 18000 - Brain and Behavior**

Brain structure, function and relation to behavior. Topics include the neural basis of perception, learning and memory, consciousness, motivation, emotion.

**prereq:** PSYC 10000

3 hrs
3 cr.

**PSYCH 24800 - Statistical Methods in Psychological Research**

Open to declared majors only. Analysis and interpretation of quantified data. Descriptive and inferential statistics applied to psychological research.

Writing Intensive

**prereq:** PSYCH 10000 and any other 3 cr PSYCH course, MATH 12500 or STAT 11300 with a C or better, or appropriate score on math placement exam

**prereq or coreq:** ENGL 12000

4 hrs
4 cr.

**Course Requirements for the Undergraduate Concentration in Behavioral Neuroscience**

In addition to completion of the psychology major and the introductory sequences in chemistry and biology, students in the concentration will take the introductory course in calculus, additional courses in biology and chemistry and an interdisciplinary Behavioral Neuroscience Seminar. A year of laboratory research is required and an undergraduate thesis based on this research will be eligible for consideration for Departmental Honors. Completion of the concentration meets the requirements for the minor in Biology. For continuation in the concentration, students must maintain the GPA required for entry.

**Required Courses/Credits**
PSYCH 10000 - Introduction to Psychology

GER
2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.
3 hrs
3 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
Pluralism and Diversity
PD/C or D
GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

CHEM 10200 (STEM) - General Chemistry I
Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.

Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10300 (STEM) - General Chemistry Laboratory I

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
Pluralism and Diversity
GER 2/E

Study of experiments designed to illustrate fundamental laws and techniques of chemistry.

Core credit awarded only if CHEM 10200 (STEM) and CHEM 10300 (STEM) are completed. Primarily for pre-med, medical laboratory sciences and science majors.

Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: CHEM 10200
4 hrs (3 lab, 1 rec)
1.5 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10500 (STEM) - General Chemistry Laboratory II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
Pluralism and Diversity
GER 2/E
Laboratory experiments illustrating and applying theory of solutions to qualitative analysis. Offered for transfer students who have completed only one semester of General Chemistry Laboratory.

**prereq:** One semester of General Chemistry Laboratory.

**prereq or coreq:** CHEM 10400

3 hrs

1.5 cr.

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**  
Math/Quantitative Reasoning  
**GER**  
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

**prereq:** grade of C or better in MATH 12500 or appropriate score on placement exam.

4 hrs

4 cr.

**PSYCH 18000 - Brain and Behavior**

**GER**  
2/B

Brain structure, function and relation to behavior. Topics include the neural basis of perception, learning and memory, consciousness, motivation, emotion.

**prereq:** PSYC 10000

3 hrs

3 cr.

**CHEM 22200 - Organic Chemistry Lecture I**

**GER**  
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

**Note:** No student may receive credit for both CHEM 12000-12100 and 22200-22300.

**prereq:** CHEM 10400 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)

4 cr.

**PSYCH 24800 - Statistical Methods in Psychological Research**

**GER**  
3/B

Open to declared majors only. Analysis and interpretation of quantified data. Descriptive and inferential statistics applied to psychological research.
Writing Intensive

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: PSYCH 10000 and any other 3 cr PSYCH course, MATH 12500 or STAT 11300 with a C or better, or appropriate score on math placement exam

prereq or coreq: ENGL 12000

4 hrs

4 cr.

PSYCH 25000 - Experimental Psychology: General

GER

3/B

Open to declared majors only. Research and general experimental techniques in study of behavior. Introduction to the principles of research methodology and experimental techniques. Required research reports involve a variety of laboratory exercises related to the study of basic behavioral processes. (Students may take either PSYC 24900 or 25000, but not both.)

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000 with a minimum grade of C; one sem. acceptable lab science sequence with a passing grade; PSYC 24800 with a minimum grade of C

prereq or coreq: Writing Intensive

6 hrs (2 lec, 4 lab)

4 cr.

PSYCH 39600 - Honors in Psychology

Independent, sponsored, empirical research and seminar. Students are expected to attend the regularly scheduled seminar. An APA-style research report or its equivalent (to be filed in the department) is a requirement of this course. To graduate with departmental honors, the student must receive a grade of A in PSYCH 39600. Honors in Psychology is typically a one-semester course; however, when a PSYCH 39600 research project extends beyond a single semester, the student may (with permission) register for a second semester as PSYCH 39800. If taken, the student must receive a grade of A in both PSYCH 39600 and 39800 to graduate with departmental honors.

prereq: ENGL 12000. PSYCH 24900 or 25000; 3.5 major GPA; 3.00 cumulative GPA; perm instr.

3 hrs

3 cr.

PSYCH 39800 - Honors in Psychology

Independent sponsored research and seminar. Attendance at regularly scheduled seminar and research report required. If taken, the student must receive a grade of A in both PSYCH 39600 and 39800 to graduate with departmental honors.

prereq: PSYCH 39600, perm instr.

3 hrs

3 cr.
BIOL 47100 - Special Topics in Biology

GER
3/B

Specific area of contemporary interest in biology. Topics change from term to term. An oral presentation and a written paper are required.

prereq: BIOL 30000
3 hrs (lec)
3 cr. per sem.

Electives

(9 credits, at least 3 of which must be Biology)

PSYCH 30000 - Physiological Psychology (B)

GER
3/B

Neural and endocrine mechanisms involved in learning, emotion, perception and other psychological processes. PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000. PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 30100 - Sensation and Perception (B; C)

GER
3/B

Open to declared majors only. Methods, theories and empirical data relating to stimulus detection, encoding and perception as a function of variables including current stimuli and past history.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000. PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 30900 - Behavioral Neuroendocrinology (B; D/S)

Pluralism and Diversity
PD/C
GER
3/B

Research and attitudes about sex-related behavior in human and nonhuman animals emphasizing evolutionary and
neuroendocrinological processes and social-psychological processes; male-female differences and similarities, therapeutic strategy in sex-behavior pathology and sexual behavior and the law.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000, PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 32700 - Motivation and Emotion (B; C)

GER
3/B

The question of how behavior is initiated, maintained, directed and terminated. Human and non-human research evaluated.

PSYCH 24800 and 24900 or 25000, one semester of an acceptable science sequence, ENGL 12000 and declaration of a psychology major are the minimum prerequisite for all courses above PSYCH 25000. (Students falling under the previous curriculum need not fulfill the science prerequisite.)

prereq: ENGL 12000, PSYCH 24900 or 25000
3 hrs
3 cr.

PSYCH 36900 - Behavioral Pharmacology (B)

GER
3/B

This course will provide information on the interrelationship of pharmacology and behavior. The relationship of licit, illicit and therapeutic drugs and their use and abuse will be explored in the context of their historical use and biological effects. Topics discussed include an overview of the nervous system, basic psychopharmacology, drug classification and specific drugs such as alcohol, nicotine, narcotics, marijuana, and psychotherapeutic agents.

prereq: ENGL 12000, PSYCH 24900 or 25000, PSYCH 30000 or perm instr.
3 hrs
3 cr.

BIOL 37000 - Physiology of the Nervous System

GER
3/B

A comprehensive introduction to neuroscience. Topics include how nerve cells (neurons) transmit electrical impulses, how neurons communicate with each other through synapses and how nerve pathways and networks determine many functions of the brain. The last portion of the course shall explore how developing neurons seek out targets and establish synapses.

prereq: BIOL 30000 or perm instr.
4 hrs (lec)
4 cr.
spring only
BIOL 37600 - Endocrinology

GER
3/B

Cellular organization of the endocrine system; molecular mechanisms of hormone action; hormonal physiology of metabolism and reproduction; integration of endocrine responses by the central nervous system.

prereq: BIOL 20200 or perm instr.

3 hrs (lec)
3 cr.
spring only

BIOL 38000 - Molecular Neurobiology

GER
3/B

Molecular components and molecular mechanisms involved in the cell biology of neurons and glia, neuronal signaling, neuronal development, learning, memory and diseases of the nervous system.

prereq: BIOL 30000 or perm instr.

3 lec hrs
3 cr.
fall only

QUEST Four-Semester Sequence for Students Entering the Program with More than 40 credits

Semester I

QSTA 40080 - The Art of Effective Teaching

This course is designed to orient elementary school teacher candidates to the world of urban education and their roles as quality educators. An introduction to the basic pedagogical practices of teaching, the connection between theory and practice as it relates to the role of teachers, instructional methods for teaching diverse student populations, effective classroom management practices, organizational strategies, motivation techniques and methods of assessment.

3 hrs
3 cr.

QSTB 20280 - Child Growth and Development

The biological, cognitive, emotional, linguistic, moral, physical and social aspects of development will be addressed with respect to their role in children's experiences in school. The critical application of developmental theories and research to diverse populations will be emphasized. Contextual influences on children's development, including family, peers and the media will be included.
QSTA 40180 - Developmental Reading

Theoretical and practical aspects of literacy with particular emphasis on teaching literacy to diverse populations. In addition, the role of family and community involvement and the use of technology for literacy development will be stressed.

coreq: QSTA 40100, QSTAB 30000
prereq or coreq: QSTA 40000
2 hrs
2 cr.

QSTAB 30000 - Fieldwork I: Fieldwork for Child Development and Developmental Reading

Supervised experiences in classroom applications of QSTA 40180: Developmental Reading and QSTB 20280: Child Growth and Development. Students will complete 6 per week of fieldwork for a minimum of 75 contact per semester. Students will develop guided observation skills, acquire practical knowledge of the design and management of instruction and the classroom environment, and work effectively with individual students and small work groups. Students receiving a grade of C in fieldwork must apply to the chairperson for permission to re register for the course. Fieldwork may be repeated only once. Students who receive a grade lower than C may not repeat the course and may not continue in the program.

coreq: QSTA 40100, QSTB 20200
prereq or coreq: QSTA 40000, CSCI 11500
75 hrs
1 cr.

HED 31400 - Health Education for the Classroom Teacher

The preparation of the elementary educator to assist children in grades 1-6 in making decisions for optimum health and wellness, including nutrition education and fitness; mental/emotional health and conflict resolution; drug education; stress management; safety education including fire safety; family living/sex education including HIV/AIDS education and orientation issues; personal safety and the role of the classroom teacher as a mandated reporter of child abuse and neglect; environmental health; and violence prevention.

prereq: QSTB 20200, QSTF 30100
prereq or coreq: QSTF 30200
3 hrs
3 cr.

Total ED Credits 11
Fieldwork 75 hours
Semester II
QSTA 41080 - Literacy Across the Content Areas

Theoretical, methodological, practical, and technological aspects of teaching literacy to elementary school students with an emphasis on meeting the literacy needs of diverse student populations.

prereq: QSTA 40100, QSTB 20200, QSTAB 30000, CSCI 11500
coreq: QSTA 41200, QSTAB 30100
2 hrs
2 cr.

QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

Teaching social studies through literature, the arts, and technology in grades 1-6. Literature selections will include original documents, essays, historical fiction, novels, diaries, journals, poetry, drama, and folktales. Instructional strategies will include interdisciplinary curriculum and differentiated learning, teaching, and assessment strategies for English language learners and students with disabilities. Diverse activities will include utilizing the community, particularly museums, as a laboratory for student learning.

prereq: QSTA 40100, QSTB 20200, QSTAB 30000
coreq: QSTA 41000, QSTAB 30100
2 hrs
2 cr.

QSTAB 30100 - Fieldwork II: Fieldwork for Literacy Across the Content Areas and Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools

Supervised experiences in classroom applications of QSTA 41080 - Literacy Across the Content Areas and QSTA 41280 - Teaching Social Studies through Literature, the Arts, and Technology in Elementary Schools. Students will complete 6 of fieldwork per week for a minimum of 75 contact per semester. Students will develop the ability to apply theoretical concepts and deliver instruction to individuals and small groups of children. Students will design or adapt curriculum that meet the needs of diverse learners, including children with special needs and English language learners.

prereq: QSTA 40100, QSTB 20200, QSTAB 30000
coreq: QSTA 41000, 41200
75 hrs
1 cr.

QSTB 40380 - Social Foundations of Urban Education

Contemporary issues and themes in the social foundations of childhood education viewed from an interdisciplinary perspective. Special emphasis on the role of family and community in the educational process.

prereq: QSTA 40100, QSTB 20200, QSTAB 30000
3 hrs
3 cr.

Total ED Credits 8

Fieldwork 75 hours
Semester III

QSTB 41380 - Psychology of Teaching and Learning

The critical application of psychological theories and principles to classroom instruction, including: learning styles; instructional models; effective teaching; motivation; student diversity; students with special needs; classroom management; and formal and informal assessment.

prereq: QSTA 41000, 41200, QSTAB 30100
coreq: QSTA 40600, QSTF 30200
2 hrs
2 cr.

QSTA 40680 - Mathematics Teaching and Learning in Elementary School

Modern methods for teaching mathematics through understanding in the elementary grades.

Transfer students may be allowed to enroll in QSTA 40600 after completing MATH 10400 and registering for MATH 10500 if their progress through the QUEST program would be delayed by the MATH 10500 prerequisite requirement.

prereq: MATH 10400, 10500, QSTA 41000, 41200, QSTAB 30000
coreq: QSTB 41300, QSTAB 30200
2 hrs
2 cr.

QSTAB 30200 - Fieldwork III: Fieldwork for Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning

Supervised experiences in classroom applications of QSTA 40680: Mathematics Teaching and Learning in Elementary School and QSTB 41380: Psychology of Teaching and Learning. Students will complete 6 of fieldwork per week for a semester minimum of 75 contact to demonstrate the ability to apply knowledge acquired in the Mathematics Teaching and Learning in Elementary School and Psychology of Teaching and Learning courses to effectively deliver instruction in the content areas to individual children, small work groups, and large groups of children.

prereq: QSTA 41000, 41200, QSTAB 30100

coreq: QSTA 40600, QSTB 41300
75 hrs
1 cr.

QSTA 40780 - The Arts: An Interdisciplinary Learning Experience

Offered in collaboration with Lincoln Center Institute, this course is designed to introduce teacher candidates to the role of arts in learning across the curriculum. Teacher candidates will experience the creative process through hands-on study of works of art (visual arts, music, theatre, and dance) to enhance the aesthetic sensibilities of students in grades 1-6.

prereq: QSTA 40100, QSTB 20200, QSTAB 30000
3 hrs
3 cr.

SPED 30800 - Teaching Students with Special Needs in Inclusive Settings
Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

**prereq:** 12 credits of coursework

**45 hrs**

**3 cr.**

**Total ED Credits 11**

**Fieldwork 75 hours**

**Semester IV**

**QSTA 41480 - Teaching Science in Elementary Schools**

This course is inquiry-based or process-oriented. Focuses on the doing part of science more than the facts part of science. Includes analysis of local, state and national science standards, working with students from culturally diverse backgrounds, using multimedia technology effectively, and working with parents and the community. Students will be observed in science teaching activities during their co requisite student teaching in science.

**prereq:** QSTA 40600, 41000, 41200, QSTAB 30100

**coreq:** QSTA 41500

**2 hrs**

**2 cr.**

**QSTA 41580 - Student Teaching**

Supervised student teaching experience in an elementary school setting at one grade level from grades 1-6. Requirements include four full days per week of student teaching for a minimum of 50 days, 30 hours of seminars + conferences, and attendance at professional development workshops.

**prereq:** QSTA 40600, 40700, QSTB 41300, QSTAB 30200, HED 31400

**coreq:** QSTA 41400

**2 per week of seminar plus student teaching**

**4 cr.**

**Total ED Credits 6**

**Fieldwork 60 days**

**Total Credits 36**

**Note(s)**
QSTA is a designation for courses offered by the Department of Curriculum and Teaching; QSTB is a designation for courses offered by the Department of Educational Foundations; QSTAB is a designation for fieldwork attached to two courses.

**QUEST Six-Semester Sequence for Students Who Enter the Program with 30 - 40 credits**

**Semester I**

**QSTA 40080 - The Art of Effective Teaching**

This course is designed to orient elementary school teacher candidates to the world of urban education and their roles as quality educators. An introduction to the basic pedagogical practices of teaching, the connection between theory and practice as it relates to the role of teachers, instructional methods for teaching diverse student populations, effective classroom management practices, organizational strategies, motivation techniques and methods of assessment.

3 hrs
3 cr.

**HED 31400 - Health Education for the Classroom Teacher**

The preparation of the elementary educator to assist children in grades 1-6 in making decisions for optimum health and wellness, including nutrition education and fitness; mental/emotional health and conflict resolution; drug education; stress management; safety education including fire safety; family living/sex education including HIV/AIDS education and orientation issues; personal safety and the role of the classroom teacher as a mandated reporter of child abuse and neglect; environmental health; and violence prevention.

Religion - BA

Return to: Religion Program Information

Foundational Course
A Foundational Course, ENGL 12000, must be completed before embarking upon the major.

**Hunter Core Requirement**

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement.

**Major (30 cr)**

A major in religion consists of 30 credits. A sequence of courses for the major normally includes REL 11000-Nature of Religion, REL 11100-Approaches to Religion, REL 25100-Asian Religions, and REL 25300-Abrahamic Religions followed by at least one course in theoretical studies and at least one course in religious issues.

1. Introduction to the Field of Religion
2. Theoretical studies in Religion
3. Issues in Religion
4. Religious Traditions

On becoming a major the student, in consultation with the director, will select one member of the program in Religion staff as his or her major adviser. Each religion major is required to consult with this adviser at least twice a year.

**Religion Program Courses**

I. Introduction to the Field of Religion

**REL 11000 - Nature of Religion (W)**

**Hunter Core**
Individual and Society (Humanities) - I&S H
GER
2/C

Study of basic facets of religion: God, ethics, worship, faith, myth, ritual, symbolism, etc.

3 hrs
3 cr.

**REL 11100 - Approaches to Religion (W)**

**Hunter Core**
Individual and Society (I&S) Humanities
GER
2/C

Different understandings of religion: sociological, anthropological, psychological, philosophical, theological.

prereq: ENGL 12000
II. Theoretical Studies in Religion

REL 27000 - Religion and Psychology (W)

Pluralism and Diversity
PD/D
GER
2/C

An examination of ways in which psychology understands, describes, values (or devalues) religion using the media of text, story and film.

prereq: ENGL 12000
3 hrs
3 cr.

SOC 20500 - Sociology of Religion

GER
3/B

Comparative study of religion in human societies. Analysis of beliefs, myths and sacred attitudes.

prereq: SOC 10100
3 hrs
3 cr.

PHILO 26200 - Philosophy of Religion (W)

GER
3/A

Philosophical examination of some religious questions and beliefs.

prereq: one course in philosophy or religion (see statement under Program Prerequisites)
3 hrs
3 cr.

ANTHC 30700 - Anthropology of Religion

Pluralism and Diversity
PD/A
GER
3/B

Emphasis on non-Western societies; theories of religion, magic; functions and symbolic meaning.

3 hrs
3 cr.

REL 39000 - Modern Theories of Religion (W)
Pluralism and Diversity
PD/D
GER
3/A

An interdisciplinary continuation of the study of methodological and theoretical issues begun in REL 11100, focusing on current debates and contemporary literature.

prereq: ENGL 12000, REL 11100
3 hrs
3 cr.

REL 26000 - Special Topics: Theoretical Studies in Religion

Specialized study of a methodological approach to the study of religion. Different topic each time offered.
3 hrs
3 cr.

REL 36000 - Special Topics: Theoretical Studies in Religion

GER
3/A

Specialized study of a methodological approach to study of religion. Different topic each time offered.
3 hrs
3 cr.

III. Issues in Religion

REL 20400 - Religious Experience (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER
2/C

Cross-cultural analysis of religious experiences: Biblical, ancient Greek, Asian, modern Western.
prereq: ENGL 12000
3 hrs
3 cr.

REL 20500 - Faith and Disbelief (W)

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER
2/C
Examination of questions of faith and disbelief in modern Western thought.

prereq: ENGL 12000
3 hrs
3 cr.

REL 20600 - Ideas of God in Contemporary Western Thought (W)

Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity
PD/D
GER
2/C

Survey of representative schools of current Western religious thought: Christian theism, metaphysical protest, process theology, feminist theology, liberation theology, beyond theism thought.

prereq: ENGL 12000
3 hrs
3 cr.

REL 20700 - Religious Sources for Morality (W)

Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity
PD/D
GER
2/C

Religious reasons for determining good and evil; religious sources for ethical decisions.

prereq: ENGL 12000
3 hrs
3 cr.

REL 20800 - Religion and Social Justice (W)

Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity
PD/D
GER
2/B

An exploration into religious perspectives on such social issues as war, race, the economy and gender relations.

prereq: ENGL 12000
3 hrs
3 cr.

REL 20900 - Religion and Human Rights (W)
Hunter Core
Individual and Society - Humanities
GER
2/C

It has been contended that religious beliefs about the natural and moral order, as well those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. And, as the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project. Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—for example, those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

prereq: ENGL 12000
3 hrs
3 cr.

REL 21000 - Atheism (W)

When a person, group, or idea is called 'atheist,' is that only a statement about theology or metaphysics, or do those who use that label intend to invoke the cultural power of God and, if so, to what end? How is the concept, 'atheism,' put into action in the world, and what does what we say about atheism say about what we think of God? At the end of the semester, we will even consider the possibility of atheism as not merely a religious but a devotional stance.

prereq: ENGL 12000
3 hrs
3 cr.

REL 21100 - The Sacred Sky: Astrology in World Religions (W)

GER
2/C

Astrology is a belief system that exists cross-culturally because the sky is an omnipresent cultural resource, and while different civilizations have varied beliefs about the meaning of celestial activity, those beliefs share a common thread: the sky is sacred, and celestial activity is an expression of that sacrality. The names of the planets and the stars, as well as their myths and stories may differ from tradition to tradition, but ancient astronomers of every culture studied celestial motion, detected patterns, understood those patterns to be cyclical, and believed they formed the basis of an orderly and precise cosmology.

prereq: ENGL 12000
3 hrs
3 cr.

REL 30700 - Religious Ideas in Modern Literature (W)

Pluralism and Diversity
PD/D
GER
3/A

Exploration of religious themes in modern literature.

prereq: ENGL 12000
**REL 30800 - Religion and the Arts (W)**

**Pluralism and Diversity**  
PD/D  
GER  
3/A

Examination of religious themes in art, music, theatre, cinema, or literature. Different topics each time offered.  
*prereq: ENGL 12000*  
3 hrs  
3 cr.

**REL 30900 - The Religious Meanings of Love and Sex (W)**

**Pluralism and Diversity**  
PD/D  
GER  
3/A

Interdisciplinary investigation of the major ways humankind has understood the relation between the sexually erotic and religious realities.  
*prereq: ENGL 12000*  
3 hrs  
3 cr.

**REL 31000 - The Religious Meanings of Death (W)**

**Pluralism and Diversity**  
PD/D  
GER  
3/A

Consideration of the meaning of death in major world religions.  
*prereq: ENGL 12000*  
3 hrs  
3 cr.

**REL 31100 - Women and Religion (W)**

**Pluralism and Diversity**  
PD/C  
GER  
3/A

An examination of the role of women and the concept of the feminine in world religions.  
*prereq: ENGL 12000*  
3 hrs  
3 cr.
REL 31200 - Religion and Politics (W)

Pluralism and Diversity
PD/D
GER
3/A

The role of political ideology in the shaping of religious belief and theology's influence on politics in Western and non-Western traditions, both conservative and radical.

*prereq: ENGL 12000
3 hrs
3 cr.*

REL 31300 - Spirit and Nature (W)

Pluralism and Diversity
PD/D
GER
3/A

An exploration of the ideas of nature and animal life in a representative sampling of the religious traditions of the world, inquiring into the implications for environmental policy and the treatment of animals.

*prereq: ENGL 12000
3 hrs
3 cr.*

REL 31400 - Religion and Sports (W)

GER
3/A

A study of sport using the methods and concerns of scholarship in religion, considering sports as a form of religious expression; and reflexively, an introduction to the concerns and methods of the academic study of religion by means of a concentration on sport. Course foci: a) the meaning of sport forms derivative of its religious setting in a sampling of traditional cultures; b) the values expressed in sport forms considered as rituals; c) the rise of team sports against the background of the reconsideration of the importance of the body in 19th century Western religion, and the emergence of the modern Olympic movement as part of a search for a religious alternative; and d) an arguable implicit spirituality of sport.

*prereq: ENGL 12000
3 hrs
3 cr.*

REL 31500 - The Problem of Evil (W)

Pluralism and Diversity
PD/D
GER
3/A

Exploration of the religious meaning of evil in different cultures.

*prereq: ENGL 12000*
REL 31600 - Men and Religion (W)

Pluralism and Diversity
PD/C –or- PD/D
Some years ago, it was deemed axiomatic that all talk of the generic human was really framed by the experience of men, and women's issues were thereby suppressed and overlooked. It has become increasingly recognized by scholars that the generic human is neither male nor female, and such scholars—both male and female—have begun to address issues specific to men. This course is intended to explore some of the concerns that come to expression in this emerging scholarship. Specifically, it focuses on the content of the masculinity within the religious imaginary, the way in which religion has historically promoted the masculinity of males, and on the way in which religion used the rhetoric of masculinity to promote itself.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31700 - Religion and Film (W)

As human expressions, both religion and film attempt to describe the world and organize it into a meaningful place for human activity. This course will survey the mutual academic studies of both film and religion, as well as the emerging discipline of 'religion and film studies.' As such, students will explore the nature of vision, representation, and narrative – topics central to both film and religious studies. Students will also view and analyze films as expressions of culture, including religious culture, and seek to understand the impact of ideology and social practice, gender and sexuality, as well as the economic structures underlying both film and religion.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31800 - Religion and Science (W)

A critical reflection upon the interrelation of religion and science, a fundamental issue within historical and contemporary culture. Analysis of key definitions, of the roles of each endeavor in human inquiry, of the presumptions underlying the self-understandings of people pursuing each approach to reality deploying the tools and insights of the modern academic study of religion as well as those of the philosophy of science.

prereq: ENGL 12000
3 hrs
3 cr.

REL 31900 - Religion and the Body (W)

This course will explore the various representations of the body in world religious traditions. Through an assortment of primary sources and secondary literature, the course will examine what these traditions suggest about how the human body exists, perceives, engages with the world, creates, and participates in the moral and visceral fabric of life. The topic of the body and religion will be approached from philosophical, sociological, anthropological, and historical perspectives as the course considers the relationship between the body and society, nature and culture, and the sacred and the profane. Themes such as gender, disability, food, sex, and death will be treated in the effort to understand what it means to be a body and to have a body in a variety of religious contexts.

prereq: ENGL 12000
3 hrs
3 cr.
REL 33400 - Mysticism (W)

**Pluralism and Diversity**
PD/D
GER
3/A

Cross-cultural exploration of mystical experience and mystical doctrines, as well as an exploration of the various methods of studying them.

*prereq: ENGL 12000*

3 hrs
3 cr.

REL 33500 - Myth and Ritual (W)

**Pluralism and Diversity**
PD/D
GER
3/A

Cross-cultural exploration of myth and ritual and their place in various cultures; methodologies for analysis.

*prereq: ENGL 12000*

3 hrs
3 cr.

REL 34000 - Homosexuality in World Religions (W)

**Pluralism and Diversity**
PD/C
GER
3/A

A survey and analysis of typical ways in which homosexuality has been understood, evaluated and in some cases institutionalized in a variety of religious traditions, attending especially to implicit constructions of gender.

*prereq: ENGL 12000*

3 hrs
3 cr.

REL 26100 - Special Topics: Issues in Religion

Study of particular religious topics or thinkers. Different subject each time offered.

3 hrs
3 cr.

REL 36100 - Special Topics: Issues in Religion

3 hrs

3 cr.

**REL 32600 - Religious Meanings of the Qur’ān (W)**

**GER**

3/A

This course introduces students to the study of the Qur’ān based on the traditional Islamic “sciences of the Qur’ān” (‘Ulūm al-Qur’ān). Using an introductory text on the Qur’ānic sciences, the course will introduce the traditional areas of concern in the Qur’ānic sciences: the revelation, transmission, form, language and style, hermeneutics, and principles and types of exegesis. The course will continue by introducing students to representative examples of the types of material referred to in the textbook. This material is chosen on the basis of (1) interest, (2) accessibility (especially the availability of English translations) and (3) the ability to give students some exposure to the variety of styles and approaches to the material available in the literature, introducing the students to representative examples of the types of material referred to in the introductory text. This material provides students with illustrative exposure to both classical and modern Muslim approaches to the Qur’ān and its exegesis.

**prereq:** ENGL 12000

3 hrs

3 cr.

**REL 33700 - Sufism (W)**

**Pluralism and Diversity**

PD/A

**GER**

3/A

A course on the esoteric or mystical dimension of Islam, known among Muslims as ta/awwuf, attending to the history, doctrine and metaphysics of the Sufi path.

**prereq:** ENGL 12000

PD/A or B

**GER**

2/C

Study of indigenous religions of Pacific Islanders and North American Indians.

**prereq:** ENGL 12000
Special Topics in Traditions

REL 26200 - Special Topics: Religious Traditions

Specialized study of specific religious traditions or groups of traditions. Different topic each time offered.

3 hrs
3 cr.

REL 36200 - Special Topics: Religious Traditions

GER

Specialized study of specific religious tradition or groups of traditions. Different topic each time offered.

3 hrs
3 cr.

Independent Study

REL 41000 - Independent Study in Religion

Open to majors only. Individual research and writing on topic in religion under supervision of a religion professor.

May be taken a second or third time with another subject.

prereq: perm chair
hrs TBA
1-6 cr.

Honors

To be eligible for honors classes a student must have the director's permission and at least a 3.5 GPA in the major and cumulatively. To qualify for departmental honors, a student must complete one of the honors courses with a grade of B or above, achieving a final GPA in Religion and cumulatively of at least 3.5.

REL 45000 - Honors Seminar in Religion

Specialized study in religion. For religion majors or other advanced religion students. Different topic each time offered. May be taken a second or third time with another subject. One topic offered under REL 45000 or 49000 satisfies the course requirements for departmental honors.

prereq: five courses in religion or a major/CUNY-BA focus in religion and perm instr. or program director
3 hrs
3 cr.

REL 49000 - Honors Tutorial in Religion
Open to majors only. Individual research and writing on topic in religion under supervision of Religion Honors Committee. REL 49000 or one topic offered under REL 45000 satisfies the course requirements for departmental honors.

prereq: perm chair
hrs TBA
3-6 cr.

Minor in Religion

The Minor in Religion consists of four courses for a total of 12 credits.

The following two courses are required:

**REL 11000 - Nature of Religion (W)**

Hunter Core
Individual and Society (Humanities) - I&S H
GER
2/C

Study of basic facets of religion: God, ethics, worship, faith, myth, ritual, symbolism, etc.
3 hrs
3 cr.

**REL 11100 - Approaches to Religion (W)**

Hunter Core
Individual and Society (I&S) Humanities
GER
2/C

Different understandings of religion: sociological, anthropological, psychological, philosophical, theological.
prereq: ENGL 12000
3 hrs
3 cr.

Also required for the Minor in Religion:
a) one course to be chosen from those listed under the category “Religious Traditions”; and

b) one course from the category “Issues in Religion” reflecting a theme central to the religious tradition in which the student has chosen to focus, to be selected in consultation with a Religion Program adviser.

At least one course presented in satisfaction of the minor must be a 300-level course.

**Romance Languages - BA**

**Foundational Courses**

Foundational Courses must be completed before embarking upon the major. In the case of the major in Romance Languages, Foundational courses vary with the foreign languages selected for the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.
Major (36 cr)

Intended for students who want to specialize in two Romance languages.

- Required: 34100 and 34200 in each of two chosen languages (12 cr)
- and -
- 9 credits in advanced literature in each of the two languages (18 cr)
- 3 credits in culture or translation in each of the two languages (6 cr)

Minor (12 cr)

Students majoring in one or more Romance languages take as a minor 12 credits in one field of study that leads to a BA degree, which must be approved by the departmental adviser.

Honors

Students qualified to graduate with departmental honors must take an honors course or equivalent approved by the departmental advisers. Departmental honors will be conferred upon a recommendation from the appropriate departmental committee. Candidates must present a paper of at least 7,000 typewritten words in the language of specialization. Consult the department for further information.

Graduate Study

Qualified seniors with a minimum GPA of 3.5 in their discipline may be admitted to graduate level courses. Permission must be secured from the chair and then forwarded to the dean. Consult the graduate catalog for requirements and regulations.

Study Abroad

All study abroad programs are open to students from Hunter College and other accredited institutions. Majors and minors in the Department of Romance Languages are strongly encouraged to participate in study abroad programs (see adviser for GPA requirements).

Qualified students can apply for financial aid and STOCS grants.

Russian - BA

Return to: Classical and Oriental Studies

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement. Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement
RUSS 10100 - Elementary Russian

Hunter Core
World Culture and Global Issues (WCGI)
Introduction to Russian language. Practice in spoken Russian. Reading of simple texts. RUSS 10100 not credited without RUSS 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.
2 sems, 3 hrs
3 cr. each sem.

RUSS 10200 - Elementary Russian

Introduction to Russian language. Practice in spoken Russian. Reading of simple texts. RUSS 10100 not credited without RUSS 10200.
2 sems, 3 hrs
3 cr. each sem.

-or-

RUSS 10300 - Elementary Russian for Heritage Speakers (Intensive)

Intensive study of the Russian language for heritage speakers who seek to gain literacy in the language. Two semesters in one.
6 hrs
6 cr.

Major- 24 credits

The Russian major consists of no fewer than 24 credits chosen among courses in the language beyond RUSS 10100 and RUSS 10200.

1. Russian language sequence: for students who want to acquire native fluency in spoken and written Russian and a thorough knowledge of Russian literature.

   2. Russian language and culture sequence: for students whose interests lie in the arts rather than in language. With the permission of the division head, a limited number of courses in translation may be applied to the major sequence.

III. Concentration in Russian and East Central European Studies (RECE): This concentration within the Russian program draws on a variety of disciplines in combination with courses from the Division of Russian and Slavic Studies. Requirements for RECE include

   1. Russian or Slavic language proficiency or a pre- or corequisite of 6 credits in Russian or Slavic language at the 20200 (intermediate) level or above and

   2. 18 credits distributed as follows:

      1. Russian or East Central European history (3 cr.);
      2. RECE area political science (3 cr.);
      3. Russian or East Central European literature, culture or arts (3 cr.);
      4. and three additional 200- or 300-level courses chosen from two of the following categories:

         1. anthropology,
         2. economics,
         3. geography,
         4. history,
         5. political science and
         6. literature, culture or arts.
Students should select courses in consultation with their RECE adviser. In addition to their 18-to 24-credit concentration, students are strongly urged to choose 12 minor credits from disciplines related to RECE.

IV. **Concentration in Russian translation**: for students with interest in acquiring training in Russian translation in a variety of professional fields. Requirements for the concentration in Russian translation include:

1. 6 credits in Russian language at the intermediate level (RUSS 20100 and RUSS 20200) or 6 credits in the intensive RUSS 20300 for heritage speakers.

2. RUSS 21500 Translating Culture: Introduction to Theory and Practice of Translation for 3 credits.

3. RUSS 30100 Advanced Russian I for 3 credits

4. RUSS 30200 Advanced Russian II for 3 credits

5. RUSS 31700 Practical Aspects of Translation for 3 credits

6. RUSS 31800 Advanced Translation for 3 credits

7. RUSS 49800 Internship in Russian and Slavic Studies for 3 credits

Students exempt from the Russian language requirement through proficiency testing or by permission of the Division Head are required to take also either:

1. one 300-level literature course taught in Russian for 3 credits and one of the following 300-level language courses:
   - RUSS 31200
   - RUSS 31300
   - RUSS 31400
   - RUSS 31500 or
   - RUSS 31900 for 3 credits (6 credits in all) or:

2. two 300-level language courses from the following courses
   - RUSS 31200
   - RUSS 31300
   - RUSS 31400
   - RUSS 31500
   - RUSS 31900 for 6 credits

3. or two 300-level literature courses in Russian for 6 credits

**Electives**

All courses offered by the Russian Division are open to qualified students for elective credit.

**Preparation for teaching in Grades 7-12**

In cooperation with the The School of Education, the program in Russian provides opportunities for students to prepare for a career in teaching Russian in grades 7-12. Students preparing to teach Russian must complete a 33-credit major option for teaching that includes the 24-credit sequence taken by non-teaching majors plus 9 additional credits:RUSS 39900 and 6 additional credits in Russian language and literature at the 300 or 400 level. Students interested in teaching Russian in New York Schools should take the 23-credit pedagogical sequence for grades 7-12. This sequence may
count toward the course requirements for New York State Certification, but will not by itself be sufficient for certification. Students interested in a teaching career should consult with the The School of Education.

**Minor in Russian**

The minor in Russian consists of no fewer than 12 credits. Courses taken toward the Russian minor could follow two tracks: the Russian language minor or the Russian literature and culture minor.

Students wishing to minor in Russian should either pass a proficiency test or take the language sequences of

Open to Russian majors only. Essay.
prereq: RUSS 20200 or equiv.
3 hrs
3 cr.

UKR 30000 - Independent Study in Ukrainian Language and Literature

3 hrs
3 cr.

Sociology

BA in Sociology

The department recommends a GPA of at least 2.3 when declaring the major. Prospective majors should also complete SOC 10100 Introduction to Sociology.

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

SOC 10100 - Introduction to Sociology

Hunter Core
Individual and Society (Social Sciences) -I&S SS
GER
2/B

Development of sociological imagination through introduction and application of basic concepts incorporating global and comparative perspectives.
3 hrs
3 cr.
Hunter Core Requirement

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here:

Appendix I: Hunter Core Requirement

In the case of Sociology, the course that meets CCC is:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core</th>
<th>Foundational Or Major</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 10100</td>
<td>CUNY Common Core Individual and Society (Social Sciences) I&amp;S SS 1</td>
<td>Foundational</td>
</tr>
</tbody>
</table>

*Please note that no more than two courses from any one department will count for the CUNY Common Core.*

Major (27 credits)

1. Required Courses (6 cr.)

**SOC 24000 - Introduction to Research Methods**

**GER**

3/B

Discussion of various research techniques and strategies including the survey method, field research, experiments, and content analysis. Firsthand involvement in the collection of quantitative data.

*prereq: SOC 10100*

3 hrs

3 cr.

**SOC 24100 - Social Statistics**

**GER**

3/B

Application of elementary statistical techniques. Introduction to statistical inference and sampling theory.

*prereq: SOC 10100*

3 hrs

3 cr.

2. Sociological Theory (6 cr.)

**SOC 22100 - Classical Sociological Theory**

Pluralism and Diversity

PD/D
Classical theorists and their contributions.

**prereq:** SOC 10100

3 hrs

3 cr.

**SOC 22300 - Current Sociological Theory**

Significance of concepts and nature of evidence applied to leading theories. Theory construction.

**prereq:** SOC 10100, SOC 22100, major

3 hrs

3 cr.

3. Electives (15 cr.)

Of the remaining 15 credits, at least 6 must be in courses at the 300 level or above. No more than 3 credits from the following may be used to satisfy this requirement.

**SOC 33100 - Field Placement in Social Work Agencies**

Supervised work in social service agency, weekly seminar, preparation of weekly assignments and term paper.

**prereq:** SOC 10100, perm instr.

8 hrs per week

3 cr.

**SOC 33200 - Advanced Field Placement in Social Work Agencies**

Supervised work in social service agency, weekly seminar, agency-based research project.

**prereq:** SOC 10100, SOC 33100 or documented equiv. experience in social work agency, perm instr.

8 hrs per week

3 cr.

**SOC 37101 - Independent Study**

Completion of reading list and written assignment as proposed by student in consultation with full-time faculty sponsor.

**prereq:** SOC 10100, perm instr.
SOC 37200 - Independent Study

GER
3/B

Completion of reading list and written assignment as proposed by student in consultation with full-time faculty sponsor. 
prereq: SOC 10100, perm instr. 
3 cr. each sem

SOC 47100 - Honors/Independent Study

GER
3/B

Advanced independent research project under direction of full-time member of department. 
prereq: SOC 10100, perm instr. 
3 cr. each sem

SOC 47200 - Honors/Independent Study

GER
3/B

Advanced independent research project under direction of full-time member of department. 
prereq: SOC 10100, perm instr. 
3 cr. each sem

SOC 49800 - Internship

GER
3/B

Open to advanced majors only. Placement of qualified sociology majors off campus in professional nonsocial service internship settings. Credits are based on analytic internship report, number of hours worked and by written evaluation by agency/company intern supervisor. 
prereq: SOC 22100 or 22300 and SOC 24000; major; perm supervising full-time faculty 
hrs TBA 
3-6 cr.

Areas of Concentration

Students may design their own areas of concentration but they are not required to do so.

1. Urban Sociology & Immigration

SOC 21100 - Urban Sociology
GER
3/B

The relationships of space and society, with special attention to the nature and problems of urban life.
prereq: SOC 10100
3 hrs
3 cr.

SOC 21700 - Race and Ethnicity

Pluralism and Diversity
PD/B
GER
3/B

Dominant-subordinate relations among selected groups: Asians, Blacks, Hispanics, Jews, Indians, White ethnics.
prereq: SOC 10100
3 hrs
3 cr.

SOC 30700 - Migration

Pluralism and Diversity
PD/B
GER
3/B

Economic, demographic, political and cultural factors influencing migration and the consequences of migration.
prereq: SOC 10100
3 hrs
3 cr.

SOC 22507 Asians in the US
SOC 32500 Second Generation Asian Americans

SOC 20100 - The Family

Pluralism and Diversity
PD/C
GER
3/B

Family functions and interaction. Factors affecting stability and instability.
cross-listed WGSP 22300
prereq: SOC 10100
3 hrs
3 cr.

SOC 20300 - Education
GER
3/B

Education viewed cross-culturally and historically. Schools and colleges as social systems.

prereq: SOC 10100
3 hrs
3 cr.

SOC 23100 - Introduction to Social Work Profession

GER
3/B

Introduction to and critical analysis of the social work profession in American society.

prereq: SOC 10100
3 hrs
3 cr.

SOC 23500 - Community Organization and Action

GER
3/B

Evaluation of specific local and national action programs.

prereq: SOC 10100
3 hrs
3 cr.

SOC 23700 - Social Welfare Policy

GER
3/B

Development of welfare institutions. Consequences of welfare services for client and community.

prereq: SOC 10100
3 hrs
3 cr.

SOC 23900 - Child Welfare (W)

GER
3/B

Historical and contemporary perspectives on the impact of poverty on children and the social policies that deal with it.

cross-listed WGSP 23900 (W)

prereq: SOC 10100, ENGL 12000
3 hrs
3 cr.

SOC 30100 - Medical Sociology
Social and cultural factors related to health. Organization of health care services, social structure of the hospital.

**prereq:** SOC 10100

3 hrs

3 cr.

**SOC 31500 - Work and Society (W)**

Work in market economies, mechanisms of control and sources of stratification, gender and ethnic factors, role of education and trade unions.

**cross-listed** WGSL 31500

**prereq:** SOC 10100

3 hrs

3 cr.

**SOC 32100 - Sociology of Organizations**

Organization, structure, and processes; relationship between individual and organization.

**prereq:** SOC 10100

3 hrs

3 cr.

**SOC 33000 - Children and Public Policy (W)**

Study of changes in children’s lives, including family composition, parental work, child care, and poverty, as well as the day-to-day lives of children living in poverty and immigrant families. The historical evolution of public policies and current policy issues are studied as they relate to children, particularly education, income support, and health policies. International policy comparisons are highlighted

**prereq:** ENGL 12000

3 hrs

3 cr.

SOC 325xx Food and Society

3. Comparative/Cross-Cultural/Global Studies

**SOC 20500 - Sociology of Religion**

3/B
Comparative study of religion in human societies. Analysis of beliefs, myths and sacred attitudes.

**prereq:** SOC 10100

3 hrs
3 cr.

**SOC 36100 - Development and Modernization (W)**

**Pluralism and Diversity**

PD/A

GER

3/B

Examinations of models of social change with a special focus on developing countries.

**prereq:** SOC 10100

3 hrs
3 cr.

GER
3/B

The structure and patterning of everyday life as concerned with material well-being. Symbolic and moral dimensions of food and living arrangements, as well as commerce and the marketplace.

prereq: SOC 10100

5. Research Methods, Demography, & Applied Sociology

SOC 23500 - Community Organization and Action

GER
3/B

Evaluation of specific local and national action programs.

prereq: SOC 10100

SOC 24000 - Introduction to Research Methods

GER
3/B
Discussion of various research techniques and strategies including the survey method, field research, experiments, and content analysis. Firsthand involvement in the collection of quantitative data.

prereq: SOC 10100
3 hrs
3 cr.

**SOC 24100 - Social Statistics**

GER
3/B

Application of elementary statistical techniques. Introduction to statistical inference and sampling theory.

prereq: SOC 10100
3 hrs
3 cr.

**SOC 30700 - Migration**

**Pluralism and Diversity**
PD/B
GER
3/B

Economic, demographic, political and cultural factors influencing migration and the consequences of migration.

prereq: SOC 10100
3 hrs
3 cr.

**SOC 31100 - Population Dynamics**

GER
3/B

Comparative analysis of fertility, mortality, migration trends, and related social factors.

prereq: SOC 10100
3 hrs
3 cr.

**SOC 31300 - Consumer Behavior**

GER
3/B

Individual and social perspectives on consumer decision making. Social patterns of consumption and consumer social movements.

prereq: SOC 10100
3 hrs
3 cr.

**SOC 32100 - Sociology of Organizations**
Organization, structure, and processes; relationship between individual and organization.

**prereq:** SOC 10100

3 hrs

3 cr

SOC 425xx Mapping Social Science Data
SOC 425xx Ethnographic Research & Interviewing
SOC 425xx Research Design
SOC 425xx Statistics
SOC 42555 Focus Group Research
SOC 70900 Statistics (graduate course)
SOC 71600 – Workshop Information Technology (graduate course)
SOC 75200 – Focus Group Research

6. Crime, Law, & Deviance

**SOC 32000 - Law, Society and Civil Rights**

**GER**

3/B

Examines from a sociological perspective the concept of law, and legal institutions and their relationship to society and culture, concentrating on the struggle for civil rights in America.

**prereq:** SOC 10100

3 hrs

3 cr.

**SOC 32200 - Drugs and Society**

**GER**

3/B

The course focuses on the social, cultural and historical dimensions of drug use, and treats the causes and consequences of drug use and abuse as a social –rather than bio-physical phenomenon. Course topics may include: drug use as a universal phenomenon, regulatory issues related to drugs, especially in relation to race, class and subcultures; and drugs as a media phenomenon.

**prereq:** SOC 10100

3 hrs

3 cr

**SOC 325xx Sociology of Crime and Punishment**

7. Inequality and Social Movements: Gender, Race, Class, Sexualities

**SOC 21300 - Political Sociology**

**GER**

3/B
Power, authority, political ideologies, and patterns of participation. Articulation and resolution of political issues in contemporary societies in the context of globalization.

prereq: SOC 10100
3 hrs
3 cr.

**SOC 21700 - Race and Ethnicity**

**Pluralism and Diversity**
PD/B
GER
3/B

Dominant-subordinate relations among selected groups: Asians, Blacks, Hispanics, Jews, Indians, White ethnics.

prereq: SOC 10100
3 hrs
3 cr.

**SOC 21800 - Social Inequality**

GER
3/B

Examination of social inequality in contemporary society from various empirical and theoretical perspectives focusing on class, ethnic, gender, and other determinants of stratification.

prereq: SOC 10100
3 hrs
3 cr.

**SOC 21900 - American Society (W)**

GER
3/B

Analysis of social structures and culture of the contemporary USA.

prereq: SOC 10100, ENGL 12000
3 hrs
3 cr.

**SOC 25700 - Sex and Gender Roles**

**Pluralism and Diversity**
PD/C
GER
3/B

Sex role differentiation: femininity, masculinity, marriage, child rearing.

cross-listed WGSS 25700
prereq: SOC 10100
3 hrs
3 cr.
SOC 30900 - Social Movements and Social Change (W)

GER
3/B

Analysis of emerging groups inducing or resisting social change often using unconventional means in historical and/or international perspective.

prereq: SOC 10100
3 hrs
3 cr.

SOC 31700 - Class, Status, and Power

GER
3/B

Inquiry into the empirical and conceptual relation between the fundamental sociological constructs of 'class', 'status', and 'power' through a case study of the upper class in the United States. Review of current research and relevant theoretical approaches.

prereq: SOC 10100
3 hrs
3 cr.

Independent Study

These options allow students to initiate and carry out a course of study of their own choosing under the guidance of a full-time faculty sponsor. Students must have a written proposal and a general plan of study to submit to the potential faculty mentor.

Students may pursue independent study through

SOC 37101 - Independent Study

GER
3/B

Completion of reading list and written assignment as proposed by student in consultation with full-time faculty sponsor.

prereq: SOC 10100, perm instr.
1 hr
1 cr

SOC 37200 - Independent Study

GER
3/B

Completion of reading list and written assignment as proposed by student in consultation with full-time faculty sponsor.

prereq: SOC 10100, perm instr.
3 cr. each sem
SOC 47100 - Honors/Independent Study

GER
3/B

Advanced independent research project under direction of full-time member of department.

prereq: SOC 10100, perm instr.
3 cr. each sem

SOC 47200 - Honors/Independent Study

GER
3/B

Advanced independent research project under direction of full-time member of department.

prereq: SOC 10100, perm instr.
3 cr. each sem

Honors

In order to graduate with departmental honors in sociology, students must have a 3.0 GPA overall and a 3.5 GPA in sociology; at least 21 of the credits toward the major should have been courses taken at Hunter College.

Students must complete either an Honors Seminar

SOC 47300 - Honors Seminar

GER
3/B

Honors paper.

prereq: SOC 10100, perm instr.
3 cr. each sem

or an Honors Independent Study

SOC 47100 - Honors/Independent Study

GER
3/B

Advanced independent research project under direction of full-time member of department.

prereq: SOC 10100, perm instr.
3 cr. each sem

SOC 47200 - Honors/Independent Study
GER
3/B

Advanced independent research project under direction of full-time member of department.
prereq: SOC 10100, perm instr.
3 cr. each sem

or a graduate course

SOC 42500 - Seminar in Selected Problems of Sociology

GER
3/B

Advanced seminar: reading, discussion, and papers on significant problems in sociology and in applied social research; in most cases cross-listed with graduate social research course or seminar.

prereq: SOC 10100, perm instr.
3 hrs
3 cr

Additional Information

Students whose GPAs are within this range are urged to consult their adviser before planning senior year programs of study, since honors seminars are generally offered only once per year, usually in the fall semester. In addition, students qualifying for departmental honors are eligible for membership in Alpha Kappa Delta, the International Sociology Honor Society. See adviser for more information.

Internships

Provided students secure approval of a full-time faculty member, internships can be carried out for 3 to 6 credits in the areas of marketing, media, and politics, with other areas provided faculty supervision can be secured. Interested students must meet the requirements listed under the SOC 49800 entry.

Awards

The Department of Sociology offers four prestigious awards to outstanding students in sociology and applied social research. Once a year at the end of the spring term the Benjamin Ringer Award, carrying a cash stipend of $100, is granted for the best undergraduate paper in the areas of ethnic and race relations. The endowed Rosalyn Tough Award is granted with a tuition remission to one outstanding sociology student. Two Suzanne Keller Awards with a stipend of $250 each are granted at the end of the academic year. One goes to the graduating sociology major with the best academic record. The second Keller award is given to the best BA/MS graduate entering the field of applied social research. For more information about the awards contact the departmental advisers.

Career Opportunities

Applied Social Research
Students interested in careers in research-related fields such as media and marketing research, policy analysis and evaluation, advertising, consumer behavior, and public opinion polling, as well as students who are contemplating graduate studies in sociology, are encouraged to gain research experience through selected coursework and independent research carried out under faculty supervision.

In addition to the following, which are required for the major,

**SOC 24000 - Introduction to Research Methods**

**GER**  
3/B  
Discussion of various research techniques and strategies including the survey method, field research, experiments, and content analysis. Firsthand involvement in the collection of quantitative data.  
*prereq:* SOC 10100  
3 hrs  
3 cr.

**SOC 24100 - Social Statistics**

**GER**  
3/B  
Application of elementary statistical techniques. Introduction to statistical inference and sampling theory.  
*prereq:* SOC 10100  
3 hrs  
3 cr.

Select electives from the following:

**SOC 25900 - Mass Media, Communication and Public Opinion (W)**

**GER**  
3/B  
Impact of mass media on public opinion and government action.  
*prereq:* SOC 10100 ENGL 12000  
3 hrs  
3 cr.

**SOC 31100 - Population Dynamics**

**GER**  
3/B  
Comparative analysis of fertility, mortality, migration trends, and related social factors.  
*prereq:* SOC 10100  
3 hrs  
3 cr.
SOC 31300 - Consumer Behavior

GER 3/B

Individual and social perspectives on consumer decision making. Social patterns of consumption and consumer social movements.

prereq: SOC 10100
3 hrs
3 cr.

Additional Information

The department has also participated in a number of programs that place qualified minority students in summer research internships at leading universities. See advisers for more information.

Social Work

Students interested in careers in social work or other human services are strongly encouraged to consult the pre-social work adviser (Prof. Poppendieck, Room 1603 Hunter West, (212) 772-5583, jpoppend@hunter.cuny.edu). The presocial work advising office offers information about graduate study in social work as well as help with program planning.

Pre-social work

Pre-social work students without work experience in the human services should plan to take the following courses that provide supervised field experience.

SOC 33100 - Field Placement in Social Work Agencies

GER 3/B

Supervised work in social service agency, weekly seminar, preparation of weekly assignments and term paper.

prereq: SOC 10100, perm instr.
8 hrs per week
3 cr.

SOC 33200 - Advanced Field Placement in Social Work Agencies

GER 3/B

Supervised work in social service agency, weekly seminar, agency-based research project.

prereq: SOC 10100, SOC 33100 or documented equiv. experience in social work agency, perm instr.
8 hrs per week
3 cr.

Ideally, this coursework should be completed by the end of the junior year, and students must meet with the instructor in the previous semester to arrange a placement.
Directly related to social work

While virtually all sociology courses are relevant to the practice of social work, several courses are directly related to social work

**SOC 23100 - Introduction to Social Work Profession**

**GER**

3/B

Introduction to and critical analysis of the social work profession in American society.

*prereq: SOC 10100*

3 hrs

3 cr.

**SOC 23500 - Community Organization and Action**

**GER**

3/B

Evaluation of specific local and national action programs.

*prereq: SOC 10100*

3 hrs

3 cr.

**SOC 23700 - Social Welfare Policy**

**GER**

3/B

Development of welfare institutions. Consequences of welfare services for client and community.

*prereq: SOC 10100*

3 hrs

3 cr.

**SOC 23900 - Child Welfare (W)**

**GER**

3/B

Historical and contemporary perspectives on the impact of poverty on children and the social policies that deal with it.

*cross-listed WGSP 23900 (W)*

*prereq: SOC 10100, ENGL 12000*

3 hrs

3 cr.

Graduate Courses
Qualified undergraduates seeking more advanced or specialized work may, with the permission of the instructor, be permitted to take graduate courses. Consult the graduate catalog for course listings.

**Sociology Minor**

The minor in sociology consists of 12 cr, including

SOC 10100 Introduction to Sociology
SOC 22100 Classical Sociological Theory

and two additional Sociology electives. It is recommended that one of the electives be at the upper division level (i.e. 300 level)

**Spanish - BA**

**Preparation for Teaching French, Spanish or Italian Adolescent Education (grades 7-12)**

Students pursuing adolescent education must complete the 30 or 36 credit major in one of these languages and, in addition, complete the course in second language acquisition (3 cr). The 23-credit pedagogical sequence in adolescent education will serve as the minor. See the The School of Education section of the catalog for further information.

**Major**

The Spanish major provides two concentrations:

a. Spanish Literature

b. Major concentration in Spanish-English/English-Spanish translation and interpretation (36 cr)

**Honors**

Students qualified to graduate with departmental honors must take an honors course or equivalent approved by the departmental advisers. Departmental honors will be conferred upon a recommendation from the appropriate departmental committee. Candidates must present a paper of at least 7,000 typewritten words in the language of specialization. Consult the department for further information.

**Minor in Spanish**

**1. Spanish Minor**

The Spanish minor consists of 15 credits of courses that are taught entirely in Spanish and combines language, civilization, and literature.

The prerequisite for a Spanish minor consists of either

**SPAN 20200 - Intermediate Spanish II**
Language lab mandatory.
Spanish for English speakers.

prereq: SPAN 20100 or three yrs high school Spanish
3 hrs
3 cr.

-or-

SPAN 20800 - Advanced Spanish for Native Speakers

Spanish for native speakers.

prereq: SPAN 20700 or perm dept.
3 hrs
3 cr.

or equivalent proficiency

2. Minor in Spanish Cultures and Literatures

The following courses are required for a minor in Spanish Cultures and Literatures:

Two language courses

Two language courses (6 credits) above the SPAN 20200 (non-heritage speakers) or SPAN 20800 (heritage speakers) level, at least one of which must be a 300-level course. Recommended courses are:

SPAN 21100 - Spanish Grammar and Composition

Not recommended for fluent speakers of Spanish. Study of grammatical and syntactical patterns. Practice in reading, writing and speaking Spanish.

prereq: SPAN 20200 or 20300
3 hrs
3 cr.

SPAN 22100 - Spanish for Oral Communication

Not for fluent Spanish speakers.

prereq: SPAN 20200 or equiv. and perm adviser
3 hrs
3 cr.

SPAN 27000 - Spanish Composition for Spanish Speaking Students

prereq: SPAN 20800 or perm adviser
3 hrs
3 cr.

SPAN 31100 - The Structure of Modern Spanish

prereq: SPAN 21100 or permission of departmental adviser
SPAN 31200 - Advanced Spanish Writing

Applying morphosyntactical patterns through intensive composition. Exploration of various writing forms. Required of all Spanish majors.
prereq: SPAN 31100 or equiv.
3 hrs
3 cr.

One civilization course

One civilization course (3 credits) chosen from

SPAN 33500 - Spanish Civilization

Pluralism and Diversity
PD/D
GER
3/A

prereq: SPAN 20800, 21100 or dept. perm
3 hrs
3 cr.

-or-

SPAN 33600 - Latin American Civilization

GER
3/A

Geographical, historical, political, literary, artistic and economic evolution of Latin American nations. Given in Spanish.
prereq: SPAN 20800, 21100 or dept. perm
3 hrs
3 cr.

Two literature courses

Two literature courses (6 credits) on Spanish or Latin American literature. Recommended courses include:

SPAN 27500 - Readings in Modern Spanish Literature

Pluralism and Diversity
PD/D
Representative writers: Unamuno, Lorca, Cela.
prereq: SPAN 20200, 20300, 20800, 21100 or four yrs high school Spanish or dept. perm
3 hrs
3 cr.

SPAN 27600 - Readings in Modern Spanish-American Literature

Representative writers: Borges, Neruda, Cortazar, Garcia Márquez.

*prereq: SPAN 20200, 20300, 20800, 21100 or four yrs high school Spanish or dept. perm.*

3 hrs
3 cr.

Alternately, students may take 300-level Spanish and Latin American literature courses from the following list by special permission of adviser:

SPAN 34300 - Spanish Literature of the Middle Ages

<table>
<thead>
<tr>
<th>Pluralism and Diversity</th>
</tr>
</thead>
<tbody>
<tr>
<td>PD/D</td>

prereq: SPAN 34100
3 hrs
3 cr.

SPAN 37000 - Special Topics in Spanish Literature

Pluralism and Diversity
PD/D
GER
3/A
May be repeated with different topic.

prereq: SPAN 34100; permission of adviser.

3 hrs
3 cr.

Note:

Students may use transfer credits and credits from the Hunter programs in Spain and Argentina up to a maximum of 6 credits. At least 9 credits of the minor must be completed in residence at Hunter.

Graduate Study

Qualified seniors with a minimum GPA of 3.5 in their discipline may be admitted to graduate level courses. Permission must be secured from the chair and then forwarded to the dean. Consult the graduate catalog for requirements and regulations.

Study Abroad

All study abroad programs are open to students from Hunter College and other accredited institutions. Majors and minors in the Department of Romance Languages are strongly encouraged to participate in study abroad programs (see adviser for GPA requirements).

Qualified students can apply for financial aid and STOCS grants.

Spanish in Spain is offered during June, July, or both months at the Universidad Antonio de Nebrija in Madrid. Spanish in Argentina is offered during the winter break in Mar del Plata (Argentina) at the Universidad Nacional de Mar del Plata.

Spanish Literature

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

SPAN 10100 - Elementary Spanish I

Hunter Core
World Culture and Global Issues (WCGI)

3 hrs
3 cr.

Principal forms and issues of poetic composition in Spain in the 16th and 17th centuries, with emphasis on major poets such as Garcilaso, Fray Luis, San Juan de la Cruz, Lope, Quevedo and Góngora.

**SPAN 35300 - Spanish Neoclassicism and Romanticism**

**Prerequisite:** SPAN 34100
3 hrs
3 cr.
Representative works of Neoclassical and Romantic periods, including costumbrismo.

*prereq: SPAN 34100
3 hrs
3 cr.*

3. Latin American literature (9 cr.)

choose from:
(At least 3 credits from this category must be in contemporary literature)

**SPAN 36000 - Spanish-American Literature of the Colonial Period**

**GER**
3/A

Masterpieces from the 16th to the late 18th centuries; from the age of exploration to the period of independence.

*prereq: SPAN 34100
3 hrs
3 cr.*

**SPAN 36200 - Spanish-American Romanticism, Realism and Naturalism**

**GER**
3/A

Representative works of 19th century Spanish-American literature.

*prereq: SPAN 34100
3 hrs
3 cr.*

**SPAN 36400 - Spanish-American Modernism and Post-modernism**

**GER**
3/A

Modernist and post-modernist authors.

*prereq: SPAN 34100
3 hrs
3 cr.*

**SPAN 36500 - Survey of Spanish-American Teatro**

**GER**
3/A

Survey of major trends in Spanish-American dramatic literature from colonial days to the present, with emphasis on the second half of the 20th century.

*prereq: SPAN 34100
3 hrs
3 cr.*
SPAN 36600 - Contemporary Latin American Poetry

GER
3/A

Major trends, such as Vanguardia, Brazilian Modernismo, Caribbean poetry, Anti-Poetry, Exteriorismo and popular poetry.
prereq: SPAN 34100
3 hrs
3 cr.

SPAN 36700 - Latin American Essay

GER
3/A

Exploration of the essay as an aesthetic form and its role in the social and cultural struggles that have marked Latin-American history.
prereq: SPAN 34100
3 hrs
3 cr.

SPAN 36800 - Contemporary Latin American Narrative

GER
3/A

Major trends, such as the Indianist novel, Mexican Revolution, social and psychological realism, novel of the 'boom', novel of the dictator.
prereq: SPAN 34100
3 hrs
3 cr.

SPAN 37100 - Special Topics in Spanish-American Literature

GER
3/A

May be repeated with different topic.
prereq: SPAN 34100; permission of adviser.
3 hrs
3 cr.

4. One course chosen from the following (3 cr.)

SPAN 33500 - Spanish Civilization

Pluralism and Diversity
PD/D
GER
3/A

prereq: SPAN 20800, 21100 or dept. perm
3 hrs
3 cr.

-or-

SPAN 33600 - Latin American Civilization

GER
3/A

Geographical, historical, political, literary, artistic and economic evolution of Latin American nations. Given in Spanish.

prereq: SPAN 20800, 21100 or dept. perm
3 hrs
3 cr.

5. Two additional courses chosen from the following (6 cr.)

Students may choose the remaining 6 credits in any course in literature from Spain or Hispanic America numbered above 342. Students planning to teach in grades 7-12 must also complete 3 credits in Second Language Acquisition:

SPAN 39900 - Second Language Acquisition

prereq: at least three courses at the 300- level in the language; ENGL 12000
3 hrs
3 cr.

SPAN 49500 - Independent Study in Hispanic Literature

Pluralism and Diversity
PD/D
prereq: perm dept.
1-3 cr.

SEDC 21200 - Methods I: Foundations of Literacy, Language and Learning in the Foreign/Heritage Language Classroom, Grades 7-12

The nature of language, and language acquisition/learning, and the inherent implications for teaching a foreign/heritage language at the secondary level. The foreign language standards and the English language arts standards are reviewed as they impact on curriculum design for foreign/heritage language learners.

prereq or coreq: SEDF 20300, 20400
3 hrs
3 cr.

• SEDC 712 (see graduate catalog)

Statistics - BA
Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students will appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

**MATH 12500 (STEM) - Precalculus**

**Hunter Core**
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq: grade of C or better in MATH 10100 or appropriate score on placement exam*

4 hrs
4 cr.

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

*prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.*

4 hrs
4 cr.

**MATH 15500 (STEM) - Calculus with Analytic Geometry II**

**Hunter Core**
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

*prereq: grade of C or better in MATH 15000*

4 hrs
4 cr.

**Hunter Core Requirement**

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance...
the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

Major

To enter the major the student must have completed MATH 15000 (STEM) and MATH 15500 (STEM). Normally, the statistics major consists of 32 credits as follows: 29 credits of core curriculum courses and any additional 3-credit statistics, mathematics, or computer science course approved by the statistics adviser. Modifications are permitted with the consent of the statistics adviser. For example, a student may elect to replace STAT 21200 with a more advanced course. With permission of the adviser, a student may take graduate courses in statistics and applied mathematics. Students interested in bioinformatics take the additional courses listed in the concentration in Quantitative Biology.

Major Core Curriculum (29 cr)

MATH 25000 - Calculus with Analytic Geometry III

GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

*prereq: MATH 15500*

4 hrs
4 cr.

MATH 25400 - Ordinary Differential Equations

GER
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

*prereq: MATH 25000*

3 hrs
3 cr.

-or-

MATH 35400 - Dynamical Systems and Chaos

GER
3/B

Linear flows, qualitative theory of low-dimensional nonlinear systems, introduction to chaos in discrete one-dimensional dynamical systems.

*prereq: MATH 25000, 26000*

3 hrs
3 cr.

MATH 26000 - Linear Algebra
GER
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

\textit{prereq: MATH 15600}

\textit{prereq or coreq: MATH 25000}

4 hrs

4 cr.

\textbf{STAT 21200 - Discrete Probability}

\textbf{Hunter Core}

\textbf{Math/Quantitative Reasoning}

\textbf{GER}

1/B

Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

\textit{prereq: MATH 12500 or STAT 11300 or appropriate score on placement exam.}

3 hrs

3 cr.

\textbf{STAT 21300 (STEM) - Introduction to Applied Statistics}

\textbf{Hunter Core}

\textbf{Math/Quantitative Reasoning}

\textbf{GER}

1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

\textit{prereq: MATH 12500 or appropriate score on placement exam.}

3 hrs

3 cr.

\textbf{STAT 21400 - Data Analysis Using Statistical Software}

\textbf{GER}

3/B

Analysis of variance, simple and multiple regression, nonparametric statistics, statistical model building

\textit{prereq: STAT 21300 or MATH 12500 and STAT 11300 with grade of C or better in each course.}

3 hrs

3 cr.

\textbf{STAT 31100 - Probability Theory}

\textbf{GER}

3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.
prereq: MATH 25000.
3 hrs
3 cr.

STAT 31200 - Stochastic Processes

GER
3/B

Discrete and continuous stochastic processes including Markov chains, birth processes, queues and Brownian motion.
prereq: STAT 31100
3 hrs
3 cr.

STAT 31300 - Introduction to Mathematical Statistics

GER
3/B

Estimation, hypothesis testing, confidence limits for normal, binomial, Poisson and exponential random variables.
prereq: STAT 31100
3 hrs
3 cr.

Actuarial Sequence

A student interested in actuarial work should take the following courses. Students are also encouraged to take courses in accounting, economics and computer science. For information concerning examinations and prizes given to undergraduates by the Society of Actuaries, consult the departmental adviser.

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

MATH 25000 - Calculus with Analytic Geometry III

GER
3/B
Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.
prereq: MATH 15500
4 hrs
4 cr.

MATH 26000 - Linear Algebra

GER
3/B
Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.
prereq: MATH 15600
prereq or coreq: MATH 25000
4 hrs
4 cr.

STAT 31100 - Probability Theory

GER
3/B
Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.
prereq: MATH 25000.
3 hrs
3 cr.

STAT 31300 - Introduction to Mathematical Statistics

GER
3/B
Estimation, hypothesis testing, confidence limits for normal, binomial, Poisson and exponential random variables.
prereq: STAT 31100
3 hrs
3 cr.

Statistics BA Programs

The study of statistics provides the student with analytical tools that may find application in various fields within the sciences and social sciences. Bioinformatics is a rapidly developing area open to students in statistics with a working knowledge of computing and biological sciences. Actuarial science is one area open to students in statistics who also have backgrounds in such subjects as computer science, mathematics and economics. In addition to offering the
Statistics Major, the department has a specialized undergraduate track for students interested in pursuing a career in bioinformatics: the concentration in Quantitative Biology. The BA/MA in Statistics and Applied Mathematics offered by the department provides enrichment for undergraduate statistics majors.

Statistics - BA
Statistics Major with a Concentration in Quantitative Biology - BA
Mathematics or Statistics and Applied Mathematics - BA/MA

Honors

A student majoring in mathematics or statistics may become a candidate for departmental honors by successfully completing MATH 49000 or STAT 48600, by presenting a major GPA of at least 3.6 and by achieving a satisfactory rating on a comprehensive examination.

MATH 49000 - Honors Seminar

GER
3/B

_prereq: MATH 31100, 35100, departmental permission_

3 hrs
3 cr.

-or-

STAT 48600 - Modeling and Visualization

GER
3/B

The development of continuous mathematical models, the resolution of the resulting differential equations by numerical techniques and the visualization of the simulated data. Problems come from various areas of the social, biological and physical sciences. Project required. Course may be used to qualify for departmental honors.

_prereq: departmental permission_

3 hrs
3 cr.

Statistics Minor

A minor in statistics consists of at least 12 credits selected from STAT courses offered by the department. Students should consult the catalog to determine prerequisites necessary for them to enroll in courses that count toward the minor. It is recommended that prospective statistics minors consult with an undergraduate adviser concerning course selection.

Statistics Major with a Concentration in Quantitative Biology - BA

return to Statistics BA Programs
For students intending to pursue research careers in biomedical sciences. It provides students with a working knowledge of computing and biological sciences for bioengineering careers in bioinformatics, the pharmaceutical industry, and the biotechnology industry.

Students interested in this concentration in the statistics major should consult the adviser. Information at http://www.hunter.cuny.edu/qubi/statistics-majors

For this concentration, the student must complete the entry requirement for the statistics major (MATH 15000 (STEM) and MATH 15500 (STEM)). This major consists of the following core curriculum and additional required courses:

**Major Core Curriculum (30 credits)**

**MATH 15600 - Introduction to Mathematical Proof Workshop**

Techniques of proof will be introduced, among them the direct and indirect methods of proof, epsilon-delta arguments and induction. These will be applied to theorems in number theory, set theory and in differential and integral calculus.

*prereq: MATH 15000
*prereq or coreq: MATH 15500

2 hrs
1 cr.

**MATH 25000 - Calculus with Analytic Geometry III**

*GER
3/B

Vector geometry, dot and cross products, partial derivatives, matrices, determinants, Jacobians, multiple integration.

*prereq: MATH 15500

4 hrs
4 cr.

**MATH 26000 - Linear Algebra**

*GER
3/B

Vector spaces, linear transformations, canonical forms, inner product spaces, bilinear forms, applications.

*prereq: MATH 15600
*prereq or coreq: MATH 25000

4 hrs
4 cr.

**MATH 25400 - Ordinary Differential Equations**

*GER
3/B

First-order equations, second-order linear equations and linear systems, power series solutions, transform and numerical methods, introduction to qualitative theory.

*prereq: MATH 25000
3 hrs
3 cr.

or

MATH 35400 - Dynamical Systems and Chaos

GER
3/B

Linear flows, qualitative theory of low-dimensional nonlinear systems, introduction to chaos in discrete one-dimensional dynamical systems.

prereq: MATH 25000, 26000
3 hrs
3 cr.

STAT 21200 - Discrete Probability

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

prereq: MATH 12500 or STAT 11300 or appropriate score on placement exam.
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

STAT 21400 - Data Analysis Using Statistical Software

GER
3/B

Analysis of variance, simple and multiple regression, nonparametric statistics, statistical model building

prereq: STAT 21300 or MATH 12500 and STAT 11300 with grade of C or better in each course.
3 hrs
3 cr.
STAT 31100 - Probability Theory

GER
3/B

Combinatorics, distribution theory for discrete and continuous random variables, central limit theorems.

prereq: MATH 25000.
3 hrs
3 cr.

STAT 31200 - Stochastic Processes

GER
3/B

Discrete and continuous stochastic processes including Markov chains, birth processes, queues and Brownian motion.

prereq: STAT 31100
3 hrs
3 cr.

STAT 31300 - Introduction to Mathematical Statistics

GER
3/B

Estimation, hypothesis testing, confidence limits for normal, binomial, Poisson and exponential random variables.

prereq: STAT 31100
3 hrs
3 cr.

Additional Required Courses (30 credits)

CSCI 13200 - Practical UNIX and Programming, with Lab

Hunter Core
Scientific World (SW)
GER
2/E

An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition. This course cannot be counted towards the CSCI major.

prereq: none
3 hrs
3 cr.

CSCI 23200 - Relational Databases and SQL Programming, with Lab

GER
3/B
An introduction to elementary database concepts and SQL, the standard language for communicating with most database systems. A pragmatic course with an emphasis on skills acquisition; students will learn how to get things done quickly and easily in a database environment. Required for computer science minors; open to computer science majors, but may not be used toward the computer science major.

prereq: CSCI 12700 or CSCI 13200
3 hrs
3 cr.

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)
**GER**
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

*prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair*
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
**Pluralism and Diversity**
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory. Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq: CHEM 10200*
coreq: CHEM 10400
6 hrs
3 cr.
(or equivalent)

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
PD/C or D

GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 20300 - Molecular Biology and Genetics

This course includes a detailed examination of the fundamental principles of gene expression. The processes of DNA replication, transcription, mRNA processing, micro RNA function, and translation will be extensively covered. Prokaryotic and eukaryotic systems will be described. Classical Mendelian as well as molecular genetics principles will be covered in the lecture through a discussion of several model systems. Important genetic processes such as recombination, transposition and DNA repair will be discussed in-depth. The course will provide a modern view of the concept of the gene, and introduce basic bioinformatics analysis. Hands-on laboratory experiments will reinforce bacterial and eukaryotic genetic concepts as well as provide basics in recombinant DNA technology.

prereq: Advisor permission; BIOL 10000 and 10200 or equiv; CHEM 10200, CHEM 10400, CHEM 10600 or equiv.
(for Major II students, chem prereqs are CHEM 10000, 10100; coreqs are CHEM 12000,12100)

coreq: CHEM 22200, 22300 or perm instr.
BIOL 42500 - Computational Molecular Biology

GER
3/B

An introduction to the interdisciplinary field of computational molecular biology. Students are taught the scope and methods of in silico biology, i.e., the application of computational and statistical methods to solving problems in molecular biology. Topics will include homology searching, sequence alignment, molecular phylogenetics, comparative genomics, analysis of gene expression, and prediction of macromolecular structures. The course will be taught using a mixed format of lectures and hands-on workshops in a UNIX computer laboratory setting. Knowledge and skills in molecular biology, UNIX programming, and statistics are essential for success in this core course required for bioinformatics-concentration students from all majors.

prereq: BIOL 30000 or BIOL 30200 or CHEM 37600; STAT 21300; CSCI 13200 or CSCI 23500 or UNIX proficiency permitted by instructor.
3 hrs
3 cr.

Studio Art - BA

- Studio Art 24-Credit Major (BA)
- Studio Art 42-Credit Major (BA)

Electives

All courses, unless otherwise specified, are open to qualified students majoring in other areas.

Honors

Students wishing to graduate with honors must consult an adviser to make an official application. Application forms are in the Art Office, Room 11054 Hunter North. Major credits must have been completed with a 3.5 grade point average and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Student must submit digital images of an advanced studio project or independent study course.

ARTCR 36000 - Special Projects

Advanced students only. Advanced projects are announced prior to registration each term. Recent examples of Special Projects courses: Color Photo; Advanced Photo Darkroom Process; Collage and Assemblage; Color as Communication; Computer Graphics; Projects in Clay; Advanced Watercolor Painting; Experiment: Photography and Graphics; Site-Specific Painting; Projects in 2-D., Digital Art, Advanced Digital Art, Video for Artists, Installation Art, Sculpture: Methods & Materials, Advanced 2-D studio Seminar, Politics & Painting, Unconventional Approaches: Drawing, 2-D,3-D,4-D Seminar, Advanced Painting Tech. & Concepts

Material Fee: $50

prereq: See department
3 hrs
3 cr. + 5 hrs open studio
ARTCR 40200 - Independent Study in Studio Art

ARTC 10100 and 22100 are prerequisites to all studio courses.

prereq: perm instr.
1-3 hrs
1-3 cr. per semester

Graduate Study

The Department of Art offers a number of courses, listed in the Graduate Catalog, that may be credited toward the degree of bachelor of arts. Qualified students in the senior year may be admitted to these courses with the approval of the graduate art history adviser.

Studio Art 24-Credit Major (BA)

Return to Programs and Courses in Art

The 24-Credit Major (BA) is recommended to the student interested in a liberal arts education, particularly those interested in double majoring in Art History, or in other majors in the college. It consists of eight courses in the major subject, normally one 3-credit course per semester, beginning with ARTLA 10100, followed by ARTCR 22100, and an additional 18 credits selected from 20000- and 30000-level ARTCR courses. Repeated and additional courses cannot count towards the BA degree.

The 24-credit major in creative art consists of eight courses:

Honors

Students wishing to graduate with honors must consult an adviser to make an official application. Application forms are in the Art Office, Room 11054 Hunter North. Major credits must have been completed with a 3.5 grade point average and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Student must submit 35mm slides of an advanced studio project or independent study course.

Foundational Courses (6 credits)

ARTLA 10100 - Introduction to Study of Visual Experience

Introduction to conceiving and formulating ideas for visual experience. Students work in 3 different areas in day session, 2 in evening session.
Material Fee: $25
6 hrs
3 cr. + 3 cr. hrs open studio

ARTCR 22100 - Drawing

Basic principles in various media and subjects. Eye/hand coordination, perceptual acuity, spatial organization; interpretation of directly observed subjects.
Material Fee: $50
prereq: ARTLA 10100
Studio Art Courses (18 credits)

6 courses selected from ARTCR 20000 and 30000 level courses.

Total for Major: 24 credits

Studio Art 42-Credit Major (BA)

The 42-credit Major (BA) is an intensive major recommended for the student who prefers a greater concentration in studio art and particularly for the student who plans to do graduate study in art. It consists of ARTLA 10100 and ARTCR 22100, with a concentration of 9 credits in one study area (e.g., painting, sculpture, drawing, graphics, ceramics, photography, combined media) and 18 credits of other studio art courses to be determined in consultation with a departmental adviser. Nine credits of study in art history are required. Students in the 42-cr Studio Art major may not double major in Art History, but they may minor in Art History, by taking any 4 classes (12cr) in addition to the 3 classes (9 cr) required for the Studio Art 42cr major. No more than 30 credits of ARTCR can be counted toward the 120 credit BA degree, whether in the major or as college electives.

Students should consult with a department adviser for guidance in the selection of 200-level courses. The plan for the area of concentration should be submitted to an adviser for tentative approval at the beginning of the junior year and for final approval in the lower senior term.

Please note: A maximum of 30 ARTCR credits may be applied toward the BA degree.

The 42-credit major in creative art consists of fourteen courses

Foundational Courses (6 credits) - 6 cr.

**ARTLA 10100 - Introduction to Study of Visual Experience**

Introduction to conceiving and formulating ideas for visual experience. Students work in 3 different areas in day session, 2 in evening session.
Material Fee: $25
6 hrs
3 cr. + 3 cr. hrs open studio

**ARTCR 22100 - Drawing**

Basic principles in various media and subjects. Eye/hand coordination, perceptual acuity, spatial organization; interpretation of directly observed subjects.
Material Fee: $50
prereq: ARTLA 10100
prereq or coreq: ARTLA 10100 and 22100 are prerequisites to all studio courses.
Concentration Courses (9 credits)

3 courses in one study area
(e.g., painting, sculpture, drawing, graphics, ceramics, photography or combined media)
Example Concentration: Painting - ARTCR 23500, ARTCR 33600, ARTCR 33600
Advanced level courses may be repeated once with two different instructors.
Please note: ARTCR 360xx (special topic courses) cannot be used towards the concentration.

Art History (9 credits)

3 courses of ARTH

Studio Art Courses (18 credits):

6 other studio art courses, selected from 200 and 300 level to be determined in consultation with adviser.
Please note: ARTLA 36018 may be substituted for an ARTCR course with permission of the adviser.)

Total for Major: 42 credits

Honors

Students wishing to graduate with honors must consult an adviser to make an official application. Application forms are in the Art Office, Room 11054 Hunter North. Major credits must have been completed with a 3.5 grade point average and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Student must submit digital images of an advanced studio project or independent study course.

ARTCR 36000 - Special Projects

Advanced students only. Advanced projects are announced prior to registration each term. Recent examples of Special Projects courses: Color Photo; Advanced Photo Darkroom Process; Collage and Assemblage; Color as Communication; Computer Graphics; Projects in Clay; Advanced Watercolor Painting; Experiment: Photography and Graphics; Site-Specific Painting; Projects in 2-D., Digital Art, Advanced Digital Art, Video for Artists, Installation Art, Sculpture: Methods & Materials, Advanced 2-D studio Seminar, Politics & Painting, Unconventional Approaches: Drawing, 2-D,3-D,4-D Seminar, Advanced Painting Tech. & Concepts
Material Fee: $50
prereq: See department
3 hrs
3 cr. + 5 hrs open studio

ARTCR 40200 - Independent Study in Studio Art
ARTC 10100 and 22100 are prerequisites to all studio courses.

*prereq: perm instr.*

1-3 hrs

1-3 cr. per semester

**Note:**

All ARTCR courses, unless otherwise specified, are open to qualified students majoring in other areas with instructor permission.

**Theatre - BA**

**Foundational Courses**

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

**ENGL 12000 - Expository Writing**

**Hunter Core**

English Comp (EC)

**GER**

1/A

Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

*prereq: successful completion of developmental courses, if required*

3 hrs + conf

3 cr.

**THEA 10100 - Introduction to Theatre**

**Hunter Core**

Creative Expression (CE)

**GER**

2/D

Study of elements of theatre arts acting, directing, playwriting, design from standpoints of both viewer and participant.

3 hrs

3 cr.

**Hunter Core Requirement**

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement.

**Major in Theatre (30 cr)**
Students must have earned at least 24 credits to declare a Theatre major.

THEA 21100 - World Theatre I (W)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/C

Survey of international theatre from its pre-Greek origins to the Spanish Golden Age.
prereq: ENGL 12000, THEA 10100
3 hrs
3 cr.

THEA 21200 - World Theatre II (W)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/C

Survey of international theatre from the Elizabethan period to Wagner.
prereq: ENGL 12000, THEA 10100
3 hrs
3 cr.

THEA 21300 - World Theatre III (W)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/C

Survey of international theatre from 19th-century Naturalism to the present day.
prereq: ENGL 12000, THEA 10100
3 hrs
3 cr.

THEA 25100 - Theatre Production

Introduction to the theory and practice of theatrical production. Includes required practical work on departmental productions
prereq: THEA 10100 or perm instr.
5 hrs
3 cr.
THEA 26100 - Acting II: American Realism

GER
3/A

Fundamentals of scene study focusing on text analysis, personalization, objective and action using American realism.

prereq: THEA 16100 or perm instr.
4 hrs
3 cr.

THEA 32100 - Play Analysis (W)

Pluralism and Diversity
PD/D
GER
3/A

Principles of play analysis; examination of play structure, theatrical form, and dramatic genre.

prereq: THEA 21100 or 21200 or 21300
3 hrs
3 cr.

THEA 28100 - Visual Elements of Theatre

GER
3/A

Introduction to the theory and practice of various design elements and their contribution to theatrical production. Includes practical work on departmental productions.

prereq: THEA 10100
5 hrs
3 cr.

-or-

THEA 28500 - Design Concepts for Theatre, Film, and Television

GER
3/A

Theoretical and practical elements of design in theatre, film, and television.

prereq: THEA 10100 or FILM 10100
3 hrs
3 cr.

- Electives chosen from 300-level courses 6 cr.
- 2 production crews (not-for-credit)

plus one course selected from the following:

THEA 38100 - Scene Design I
 Theory and practice of scenic design for the stage. Includes practical work on departmental productions.

prereq: THEA 28100
5 hrs
3 cr.

**THEA 38300 - Costume Design I**

 Theory and practice of costume design for the stage. Includes practical work on departmental productions.

prereq: THEA 28100
5 hrs
3 cr.

**THEA 38400 - Stage Lighting Design**

 Principles, techniques, and practice of lighting for theatre, emphasizing its contribution to dramatic interpretation.

prereq: THEA 28100
5 hrs
3 cr.

**THEA 38500 - Production Design I for Theatre, Film, and Television**

 Theory and practice in scenic design for theatre, film, and television.

prereq: THEA 10100 or FILM 10100 and THEA 28500
4 hrs
3 cr.

**THEA 38700 - Concepts of Light in Theatre, Film, and Television**

 The aesthetics, styles, conventions, and vocabulary of lighting in theatre, film, and television: how light establishes style, mood, rhythm, and atmosphere as interpretive elements of performance.

prereq: THEA 28100 or THEA 28500
3 hrs
3 cr.

**Minor**
Theatre majors may select a minor from any department or program in the college that offers a program of study leading to a BA degree. Students should consult the departmental adviser regarding appropriate minor choices.

Minor in Theatre

A Minor in Theatre requires a minimum of 12 credits in the Department of Theatre at the 200-level or higher of which at least 3 credits must be at the 300-level (these are usually at least 3 credits). Minors are required to take all necessary prerequisites for these courses. Minors have access to all courses offered by the Department of Theatre. Minors are encouraged to participate in departmental and student productions. Interested students must meet with the undergraduate advisor in the Department of Theatre to declare a minor and to define their course of study.

Honors

Open to any qualified junior or senior with a 3.5 GPA in Theatre and an overall minimum GPA of 2.7 and permission of the chair. Individual work under faculty supervision. Departmental honors granted at graduation.

Urban Studies - BA

Hunter Core Requirement

Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement.

Major (30 credits)

Urban studies majors must complete 30 credits of courses that provide a rigorous background that will make students competitive job seekers or graduate school applicants. The core includes an introductory course as well as classes about the city's physical structure, public polices and research methods, both qualitative and quantitative. The urban studies core provides a foundation for more advanced courses. In addition to the core and advanced courses, the major requires an internship, elective courses, and interdisciplinary set of classes from several social science disciplines, e.g., political science, history, and economics.

A. Urban Studies Core 15 cr

URBS 10100 - Urban Life: Personal and Observational View (W)

Hunter Core
Individual & Society - Social Science I&S SS
GER
2/B

Introduction to urban studies allowing students to translate personal knowledge and experience of New York City to
more theoretical understanding of urbanism. Includes four projects dealing with mapping, immigration, census data analysis, and local development issues.
3 hrs
3 cr.

URBS 10200 - Structure of Urban Region (W)

Hunter Core
Individual and Society Social Science (I&S SS)
GER
2/B

Introduction to forces shaping institutions and life of contemporary American urban regions. Focus on evolving metropolitan economic, social, demographic, spatial, and political systems, and their relevance to current policy.
prereq: URBS 10100 or relevant intro course (e.g., ECO 10000 or 20100-20200; GEOG 10100, PLSC 11100, SOC 10100) or perm instr.
3 hrs
3 cr.

URBS 20100 - Urban Plans and Policies

GER
2/B

Includes the study of the policy making process, major plans/policies (e.g. War on Poverty, urban renewal, neighborhood rezoning), “politics/power,” the role of non-profits in urban planning and policy making.
prereq: URBS 10200 or 6 cr. intro social science courses or perm instr.
3 hrs
3 cr.

URBS 31000 - Methods of Urban Research and Policy Analysis

GER
3/B

Survey of research skills necessary for analysis of contemporary urban issues. Includes review of data sources, methods of forecasting, use of computer, and methods of information presentation.
prereq: URBS 10200 or perm instr.
3 hrs
3 cr.

URBS 31100 - Quantitative Approaches to Urban Analysis

GER
3/B

A survey of quantitative methods used to analyze urban policy and plans. Students are taught about demography, data analysis, and benefits cost analysis.
prereq: Open only urban studies majors who have completed the URBS 10100/10200 sequence or perm instr.
3 hrs
3 cr.
B. Urban Studies Electives 6 cr

Any two (2) 400-level courses in Urban Studies may fulfill this requirement

Examples:

**URBS 40100 - Managing Urban Physical Environment**

**GER**
3/B

Advanced study of the physical structure of cities which includes an analysis of zoning, land use, transportation, and the location of housing. The role of public and private agencies at local, state, and national levels in the planning and management of the physical environment is also considered.

*prereq: URBS 20100 or perm instr.*

3 hrs
3 cr.

**URBS 40200 - Urban Studies Studio**

**GER**
3/B

This course is structured as a site-based research project where the classroom will extend into the city to actual project. In particular, students will work to understand the structural elements of development as it is taking place in one location, for example, the Hudson Yards on the Far West side of Manhattan. A goal is to see how theory holds up to reality; how ideas are linked to practice.

*prereq: URBS 20100 or perm instr.*

3 hrs
3 cr.

**URBS 40300 - Selected Topics in Urban Affairs**

**GER**
3/B

Intensive examination or investigation of specialized topics or new developments in literature and research.

3 hrs
3 cr.

C. Fieldwork Component 3 cr

**URBS 40900 - Urban Studies Internship**

**GER**
3/B
Students gain first-hand experience by working in urban-related public, private, or non-profit agencies. The internships provide knowledge about urban planning or policy issues.

Open only to declared urban studies majors within 45 credits of graduation.

3 hrs
3 cr.

D. Basic Social Science Component 6 cr

Select two from:

**AFPRL 38400 - Poverty in Society (W)**

**GER**

3/B

Causes and effects of deprivation, with emphasis on policy and program approaches for African Americans and Puerto Ricans/Latinos.

*prereq: successful completion of any 2 AFPRL courses*

3 hrs
3 cr.

**AFPRL 42000 - The Black Church and Social Change**

**GER**

3/B

In-depth study of the sociopolitical role of Black church in political struggle of Black people with special emphasis on America.

*prereq: AFPRL 20300 or 20400 or 20500 or perm instr.*

3 hrs
3 cr.

**ECO 33000 - Economic Development**

Pluralism and Diversity

**PD/A**

**GER**

3/B

Critical variables explaining the diversity of growth and economic and development outcomes across developing countries. Theories, case studies, measurement and policies.

*prereq: ECO 20000*

3 hrs
3 cr.

**GEOG 22700 - Environmental Conservation: Urban Problems**

**GER**

3/B
Covers topics related to environmental problems and their connection to urban areas. The course will begin with a survey of urban systems (transport, water, food, waste and energy) followed by investigating how these systems contribute to environmental problems and their solutions. This investigation will also include a discussion about the connections between rural and urban areas and urban planning that attempts to minimize environmental hazards.

3 hrs
3 cr.

**GEOG 24300 - Urban Geography**

**GER**

3/B

Open to Jr/Sr only. Spatial analysis of functions of metropolitan areas. Social and economic characteristics of cities and suburbs. Land use and transportation patterns.

*prereq: GEOG 10100 or GEOG 15000 or perm instr, Jr/Sr only*

3 hrs
3 cr.

**GEOG 35700 - Geography of New York City and Vicinity**

**GER**

3/B

Informed immersion in NYC is the main objective of this course. Students will learn by exploration and observation more than by media. The city is the laboratory to complement readings, lectures and discussion. Students will emerge from this class with an enhanced appreciation of the entire city. Study assignments include keeping a journal of walking assignments as well as readings. Field work will focus on the five boroughs of New York City. (Students with difficulties in walking or using public transportation or who have phobias regarding unfamiliar neighborhoods should consider this before registering.)

Open to Jr/Sr only.

*prereq: GEOG 10100*

3 hrs
3 cr.

*Offered fall.*

**HIST 31700 - History of the American City**

**Pluralism and Diversity**

**PD/D**

**GER**

3/B

History of the American city from the Colonial era to the present; development of the city as physical environment, social experience, political entity and cultural symbol.

Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**POLSC 21200 - Urban Politics (W)**
Politics in New York City and other urban areas. Decentralization, suburbanization, race, ethnicity, reform.

**soc 21100 - urban sociology**

GER
3/B

The relationships of space and society, with special attention to the nature and problems of urban life.

**Prereq:** soc 10100

3 hrs
3 cr.

**soc 21700 - race and ethnicity**

pluralism and diversity
PD/B
GER
3/B

Dominant-subordinate relations among selected groups: Asians, Blacks, Hispanics, Jews, Indians, White ethnics.

**Prereq:** soc 10100

3 hrs
3 cr.

**soc 21800 - social inequality**

GER
3/B

Examination of social inequality in contemporary society from various empirical and theoretical perspectives focusing on class, ethnic, gender, and other determinants of stratification.

**Prereq:** soc 10100

3 hrs
3 cr.

**soc 23500 - community organization and action**

GER
3/B

Evaluation of specific local and national action programs.

**Prereq:** soc 10100

3 hrs
3 cr.
URBS 40100 - Managing Urban Physical Environment

GER
3/B

Advanced study of the physical structure of cities which includes an analysis of zoning, land use, transportation, and the location of housing. The role of public and private agencies at local, state, and national levels in the planning and management of the physical environment is also considered.

prereq: URBS 20100 or perm instr.

3 hrs
3 cr.

URBS 40200 - Urban Studies Studio

GER
3/B

This course is structured as a site-based research project where the classroom will extend into the city to actual project. In particular, students will work to understand the structural elements of development as it is taking place in one location, for example, the Hudson Yards on the Far West side of Manhattan. A goal is to see how theory holds up to reality; how ideas are linked to practice.

prereq: URBS 20100 or perm instr.

3 hrs
3 cr.

URBS 40300 - Selected Topics in Urban Affairs

GER
3/B

Intensive examination or investigation of specialized topics or new developments in literature and research.

3 hrs
3 cr.

Additional Information

*Students should consult with a program advisor to choose 6 credits (2 courses) of upper-level social science classes appropriate to students' interest. This component can also be met by another 300- or 400-level urban-related course, if approved by the undergraduate advisor.

Departmental Honors: Eligibility Criteria

Overall GPA: 3.2 and above
Major GPA: 3.5 and above

Graduate Courses
The following graduate courses are open to senior urban studies majors. Other graduate-level courses may be taken by seniors with permission of the instructor:

URBP 70100 History and Theory of Urban Planning

URBG 70200 Structure of the Urban Region

In addition to these two courses, there are cross-listed classes, offered each semester, that are open to undergraduate students.

**Women and Gender Studies - BA**

**Foundational Courses**

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

**ENGL 12000 - Expository Writing**

**Hunter Core**

English Comp (EC)

**GER**

1/A

Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research. 

*prereq: successful completion of developmental courses, if required

3 hrs + conf

3 cr.

**Hunter Core Requirement** Courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement.

**Major**

The Women and Gender Studies Program offers a 27-credit major. The 27 required credits are distributed as follows:

**Core 12 cr**

**WGS 10000 - Introduction to Gender and Sexuality Studies**

**Hunter Core**

Individual and Society (I&S)

**Pluralism and Diversity**

PD/C

**GER**

2/B
The course will introduce students to the political and theoretical debates in the discipline of gender and sexuality. We will cover historical struggles for the women's enfranchisement, the abolitionist movements, sex wars, and the queer rights movement. The course introduces students to feminist contribution to the debate that considers sex as biology and gender as culture, critical race theory, and queer theory. In addition the course will also deal with structural and institutional forms of disenfranchisement by examining the relationship between gender and the state, colonialism, law and capital.

3 hrs
3 cr.

WGS 20100 - Classics in Feminist Thought (W)

Pluralism and Diversity
PD/C
GER
3/A or B

The course covers the historical debates within the ‘women’s movement’ in the United States by examining some of the ‘classical’ texts by Mary Wollstonecraft, John Adams, and Sojourner Truth. The course also covers the political and intellectual contribution by women of color to the discipline by reading Gloria Anzuldua, bell hooks, Audre Lorde, Patricia Williams, Kimberley Crenshaw among others. ‘Foundational’ texts by Gayle Rubin, Judith Butler, and Adrienne Rich offer a deeper understanding of queer theory’s influence to the discipline. Even as the course reads ‘classic’ texts of the discipline, we will critically examine the formation of a cannon.

prereq: WGS 10000, ENGL 12000 or equiv.
3 hrs
3 cr.

WGS 24400 - Transnational Feminisms

Pluralism and Diversity
PD/C
GER
3/A or B

Exploring the gender dynamics of racial, ethnic, and economic relations of power in domestic, international, and transnational settings. We will examine feminist scholarship produced by and about American women of color, Third World women, and other social and political actors whose experiences and thinking have shaped contemporary ideas about gender in different parts of the world.

prereq: WGS 10000, ENGL 12000
3 hrs
3 cr.

WGS 31000 - Research Seminar: Feminist Theory and Methodology

Open to Jr/Sr only. Study of the theoretical models that feminist scholars create to guide their work and application of feminist methodology to a research project. To graduate with honors in Women's Studies, majors must enroll in this seminar.

Note: Students may take WGS 31000 or 32000 to satisfy the Senior Seminar requirement in the major; students may also opt to take both courses. Since both classes are not taught every semester, students are urged to consult the program director in advance to plan their senior seminar
prereq: WGS 10000, 20100, at least one other WGS course at 200-level or higher
3 hrs
3 cr.
spring semester

Area of Concentration - 9 Credits

Students will choose one from among the 6 areas of concentration listed as follows:

Area of Concentration 1: Feminist Thought and Theory (WGST)
Area of Concentration 2: Sexualities (WGSS)
Area of Concentration 3: Gender & Public Policy (WGSP)
Area of Concentration 4: Labor, Migration and Globalization (WGSL)
Area of Concentration 5: Women and Gender across Cultures (WGSC)
Area of Concentration 6: Gender, Literature and the Arts (WGSA)

Electives - 6 credits

Students will be required to take two elective classes (6 credits). One (3 credits) of the two elective classes MUST be in a different Area of Concentration than their primary one. At least one of the classes in your Area of Concentration or an elective must be 300 level or above.

Minor in Women and Gender Studies - 12 credits

The Minor in Women and Gender Studies requires students to take 12 credits: Introduction to Gender and Sexuality Studies (WGS 10000), Classics in Feminist Thought (WGS 20100), Transnational Feminisms (WGS 24400) and one elective course from one of the six areas of concentration.

WGS 10000 - Introduction to Gender and Sexuality Studies, must be completed before WGS 20100 - Classics in Feminist Thought (W) and WGS 24400 - Transnational Feminisms.

Research Seminar

Majors may satisfy the Senior Seminar requirement of the major by enrolling in the Research Seminar (WGS 31000). This course serves as a capstone course in which WGS majors apply feminist theory and methodology to develop an original research project resulting in a substantial paper.

Honors

In order to graduate with honors in Women and Gender Studies, a student must have a 3.5 GPA in the Women and Gender Studies major and a college-wide cumulative index of at least 3.0. Students should submit a 18-20 page paper written for any Women and Gender Studies 300 level class including but not limited to the Research Seminar (WGS 31000). The student must submit the paper by March 30 (for June graduation) and October 30 (for December
graduation) to be considered for program honors. A faculty committee will read submitted papers and determine whether they merit honors.

**Bachelor of Arts/Master of Arts - BA/MA**

**Adolescent Biology, Grades 7-12 - BA/MA**

The BA/MA program in Adolescent Biology Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

The Education course of study is a 27-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

**Applying for Admission**

Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

**Admission Requirements**

1. Minimum of at least 65 credits but no more than 90 credits.
2. A Hunter College Grade Point Average (GPA) of 3.0 or better.
3. Receive a grade of B or better in ENGL 12000.
4. Have no more than 6 cr. of CR/NC grades.
5. Formal declaration of a major in biology.
6. Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

**Liberal Arts and Sciences Major Requirements**
Complete the full major in Biology replacing 10 credits of elective courses that they take towards the BA with graduate courses. Complete the extra 19 credits of graduate biology courses for a total of 29 graduate biology credits.

**New York State Liberal Arts & Science Distribution Requirement**

These are courses required for School of Education students. Most of these courses may also be used toward the Common Core Requirements.

- 6 credits of English courses
- 6 credits of social studies (at least one course in U.S. history or U.S. geography)
- 3 credits in the arts
- 6 credits of foreign language
- 6 credits in math (a college course in calculus meets this requirement)

**Academic Progress Standards**

- Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.
- Any student who has more than two grades of IN will be permitted to register for only one course the following semester.
- Second Methods Course: Students will be permitted to register for the second methods course in their subject area only after having met the following requirements: Completion of 18 credits of study in the major subject area; approval of the major department adviser; and maintenance of an overall GPA of 3.0 and an education sequence index of 3.0.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
- Complete at least 21 credits in an approved Arts & Sciences major before student teaching.

**Course of Study**

_Education Courses for BA/MA in Adolescent Biology. For course descriptions please see the graduate catalog._

- SEDF 70300: Social Foundations of Education: Grades 7-12
- SEDF 70400: Adolescent Development
- SEDF 70500: Educational Psychology: Applications in Grades 7-12
- SEDF 70600: Assessment of the Teaching and Learning Process in Grades 7-12
- SEDC 71000: Building the Foundations of Literacy in Grades 7-12
- SEDC 72000: Adolescent Health and Safety
- SEDC 71300: Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science
- SEDC 72400: Methods II: Intensive Study of Teaching Diverse Learners in Science Grades 7-12
- SEDC 75401: Student Teaching in Grades 7-12: Biology
- SPED 70800: Teaching Students with Special Needs in Inclusive Settings
School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Chemistry, Grades 7-12 - BA/MA

The BA/MA program in Adolescent Chemistry Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

The Education course of study is a 27-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

Applying for Admission

Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Admission Requirements

1. Minimum of at least 65 credits but no more than 90 credits.
2. A Hunter College Grade Point Average (GPA) of 3.0 or better.
3. Receive a grade of B or better in ENGL 12000.
4. Have no more than 6 cr. of CR/NC grades.
5. Formal declaration of a major in chemistry.
6. Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

Liberal Arts and Sciences Major Requirements

Minimum of 138 credits to include the Chemistry major (minimum of 26 credits) and associated auxiliary courses (41.5 credits) at the undergraduate level; 14 graduate credits in chemistry.

New York State Liberal Arts & Science Distribution Requirement

These are courses required for Adolescent Chemistry, BA/MA School of Education students. Most of these courses may also be used towards the Hunter Core requirements

- 6 credits of English courses
- 6 credits of social studies (at least one course in U.S. history or U.S. geography)
- 3 credits in the arts
- 6 credits of foreign language
- 6 credits in math or technology (a college course in calculus meets this requirement)

Academic Progress Standards

- Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.
- Any student who has more than two grades of IN will be permitted to register for only one course the following semester
- Second Methods Course: Students will be permitted to register for the second methods course in their subject area only after having met the following requirements: Completion of 18 credits of study in the major subject area; approval of the major department adviser; and maintenance of an overall GPA of 3.0 and an education sequence index of 3.0.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
- Complete at least 21 credits in an approved Arts & Sciences major before student teaching.

Course of Study

Education Courses for BA/MA in Adolescent Chemistry. For course descriptions please see the graduate catalog.

- SEDF 70300: Social Foundations of Education: Grades 7-12
- SEDF 70400: Adolescent Development
- SEDF 70500: Educational Psychology: Applications in Grades 7-12
- SEDF 70600: Assessment of the Teaching and Learning Process in Grades 7-12
- SEDC 71000: Building the Foundations of Literacy in Grades 7-12
School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Earth Science, Grades 7-12 - BA/MA

The BA/MA program in Adolescent Earth Science Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

The Education course of study is a 27-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

Applying for Admission

Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Admission Requirements

1. Minimum of at least 65 credits but no more than 90 credits.
2. A Hunter College Grade Point Average (GPA) of 3.0 or better.
3. Receive a grade of B or better in ENGL 120.
4. Have no more than 6 cr. of CR/NC grades.
5. Formal declaration of a major in earth science.
6. Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

Liberal Arts and Sciences Major Requirements

Minimum of 134 credits to include the Environmental Earth Science Concentration major (minimum of 39 credits) and associated auxiliary courses (15.5 credits) at the undergraduate level; 16 graduate credits in earth science.

New York State Liberal Arts & Science Distribution Requirement

These are courses required for School of Educaiton BA/MA Adolescent Earth science students. Most of these courses may be used toward the Common Core Requirements.

- 6 credits of English courses
- 6 credits of social studies (at least one course in U.S. history or U.S. geography)
- 3 credits in the arts
- 6 credits of foreign language
- 6 credits in math or technology (a college course in calculus meets this requirement)

Academic Progress Standards

- Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.
- Any student who has more than two grades of IN will be permitted to register for only one course the following semester
- Second Methods Course: Students will be permitted to register for the second methods course in their subject area only after having met the following requirements: Completion of 18 credits of study in the major subject area; approval of the major department adviser; and maintenance of an overall GPA of 3.0 and an education sequence index of 3.0.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
- Complete at least 21 credits in an approved Arts & Sciences major before student teaching.

Adolescent Mathematics, Grades 7-12 - BA/MA

The BA/MA program in Adolescent Mathematics Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

The Education course of study is a 27-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

Applying for Admission

Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.
Admission Requirements

1. Minimum of at least 65 credits but no more than 90 credits.
2. A Hunter College Grade Point Average (GPA) of 3.0 or better.
3. Receive a grade of B or better in ENGL 120.
4. Have no more than 6 cr. of CR/NC grades.
5. Formal declaration of a major in mathematics.
6. Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

Liberal Arts and Sciences Major Requirements

50-credits in Mathematics Preparation for Adolescent Education (Grades 7-12) - BA/MA, including MATH 150, 155, 250, 260, 311, 620, 623 or 634, 630, 661, STAT 213 and 614, plus 12 additional credits at the 200 level or above.

A minimum of 141 credits is required for this degree.

New York State Liberal Arts & Science Distribution Requirement

These are courses required for School of Education students. Most of these courses may also be used towards the Common Core Requirement.

- ENG 120 and ENG 220
- Two courses selected from HIST 151, HIST 152 and GEOG 101
- STAT 213
- One science course with a lab component
- 6 credits in the arts
- 12 credits of foreign language
- One course in communication

Academic Progress Standards

- Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.
- Any student who has more than two grades of IN will be permitted to register for only one course the following semester.
- Second Methods Course: Students will be permitted to register for the second methods course in their subject area only after having met the following requirements: Completion of 18 credits of study in the major subject area; approval of the major department adviser; and maintenance of an overall GPA of 3.0 and an education sequence index of 3.0.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
- Complete at least 21 credits in an approved Arts & Sciences major before student teaching.
Course of Study

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Adolescent Physics, Grades 7-12 - BA/MA

The BA/MA program in Adolescent Physics Education leads to initial certification as a teacher in New York State.

The undergraduate programs in adolescent education are designed to prepare prospective teachers to serve as high-quality educators for students in urban secondary schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

The Education course of study is a 27-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

Applying for Admission

Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.
Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Admission Requirements

- Minimum of at least 65 credits but no more than 90 credits.
- A Hunter College Grade Point Average (GPA) of 3.0 or better.
- Receive a grade of B or better in ENGL 12000.
- Have no more than 6 cr. of CR/NC grades.
- Formal declaration of a major in physics.
- Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

Liberal Arts and Sciences Major Requirements

Minimum of 130.5 credits to include Physics major (minimum of 37 credits) and 16 graduate credits in physics.

New York State Liberal Arts & Science Distribution Requirement

These are courses required for School of Education students. Most of these courses may also be used towards the Common Core Requirement.

- 6 credits of English courses
- 6 credits of social studies (at least one course in U.S. history or U.S. geography)
- 3 credits in the arts
- 6 credits of foreign language
- 6 credits in math or technology (a college course in calculus meets this requirement)

Academic Progress Standards

- Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Anthropology - BA/MA

A special feature of the Hunter Anthropology Department is the innovative BA/MA program, designed to permit a small number of highly motivated students to begin graduate study before completing their undergraduate degrees. The program allows students to pursue the MA degree as part of the undergraduate curriculum by substituting graduate courses for electives in their degree programs. Participants fulfill all the requirements for the BA and MA degrees in anthropology. The total number of credits taken by the student is 130. At least 30 must be graduate credits (the same number of course credits required of a student admitted as a matriculated graduate student with a BA in hand). Graduate courses may fulfill undergraduate major requirements with the exception of. Applicants to the BA/MA program must have a minimum GPA of 3.25 and a minimum of 3.5 in their anthropology courses. Students must apply to the program early in their academic careers, usually before beginning the junior year.

Please note: This program is suspended. It is not currently admitting new students. For further information, please contact the department at (212) 772-5410.

Biological Sciences with Specialization in Biotechnology - Accelerated BA/MA

In this five-year program, qualified biology majors begin graduate work as seniors and receive the MA one year after completing BA requirements. Students are provided with theoretical knowledge and skills in molecular biology and a foundation for application of these skills in careers in the biotechnology and pharmaceutical industries, academic
research, or public health. Successful completion of the biotechnology workshop (BIOL 61000 see graduate catalog), an essential program component, entitles students to a summer internship in an industrial or private research laboratory. Interested biology majors should contact a departmental adviser as early as possible.

**Biological Sciences/Environmental and Occupational Health Sciences - Accelerated BA/MS**

This is an accelerated program leading to a BA in biology and an MS in environmental and occupational health sciences in five years. Biology majors admitted to the program start graduate work in their senior year. Interested students should contact a departmental adviser early in their undergraduate studies, as well as the office of the director of the Environmental and Occupational Health Sciences Program at the CUNY School of Public Health at Hunter College. The program provides biology majors with a career option in public health.

**Chemistry/Adolescent Education: Chemistry - BA/MA**

An accelerated program leading to a BA in Chemistry and an MA in Adolescent Education: Chemistry. Undergraduates admitted to the program start graduate courses during their senior year and will be able to complete the MA degree one year after they complete the requirements for the BA degree. Students interested in the program should speak to a chemistry department adviser during their sophomore year to review the curriculum path for the five-year program. A minimum of 138 credits is required for the dual degree.

**Dance Pre-K - 12 - BA/MA**

The BA/MA program in PreK-12 Dance Education leads to initial certification as a teacher in New York State.

This undergraduate program is designed to prepare prospective teachers to serve as high-quality educators for students in urban schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

The Education course of study is a 24-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

**Applying for Admission**

Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.3 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

Undergraduate teacher education programs require a minimum cumulative GPA of 3.0. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.
Admission Requirements

1. Minimum of at least 65 credits but no more than 90 credits.
2. A Hunter College Grade Point Average (GPA) of 3.0 or better.
3. Receive a grade of B or better in ENGL 120.
4. Have no more than 6 cr. of CR/NC grades.
5. Formal declaration of a major in dance.
6. Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

Liberal Arts and Sciences Major Requirements

34-credits in the Dance - BA major plus 20 additional graduate credits including the following courses - DAN 740, DAN 742, DAN 746, DAN 701, DAN 705, DAN 730, DAN 735.

New York State Liberal Arts & Science Distribution Requirement

These are courses required for School of Education students. Most of these courses may also be used towards the Appendix I: Hunter Core Requirement.

- ENGL 12000 and ENGL 22000
- Two courses selected from HIST 15100, HIST 15200 and GEOG 10100
- STAT 11300
- 9 credits in math, science and technology (must include one laboratory science course)
- 12 credits of foreign language
- One course in communication

Academic Progress Standards

- Students must maintain a GPA of at least 3.0 and an education sequence index of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.
- Any student who has more than two grades of IN will be permitted to register for only one course the following semester.
- Second Methods Course: Students will be permitted to register for the second methods course in their subject area only after having met the following requirements: Completion of 18 credits of study in the major subject area; approval of the major department adviser; and maintenance of an overall GPA of 3.0 and an education sequence index of 3.0.
- Take and pass both the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
- Complete at least 21 credits in an approved Arts & Sciences major before student teaching.

Course of Study
Education Courses for BA/MA in Dance Education PreK-Grade 12.

- SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)
- SEDF 20400 - Adolescent Development
- SEDC 21000 - Building the Foundations of Literacy in Grades 7-12
- SEDF 20500 - Educational Psychology: Applications in Grades 7-12
- SEDC 22000 - Adolescent Health and Safety

For graduate-level course descriptions please see the graduate catalog.

- SPED 70800: Teaching Students with Special Needs in Inclusive Settings
- SEDF 70600: Assessment of Teaching and Learning in Adolescent Education
- DAN 70100: Physical Training (taken twice)
- DAN 70500: Maintenance of the Instrument
- DAN 73000: Studies of Forms
- DAN 73500: Performance/Presentation
- DAN 74000: Aesthetics
- DAN 74200: Dance History
- DAN 74600: Special Topics
- DANED 76000: Methods I
- DANED 76200: Methods II
- DANED 76605: Student Teaching

School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Economics - Accelerated BA/MA

The Department of Economics offers promising students the opportunity to complete both the BA and MA degrees within 120 credits, 30 of which must be at the graduate level.

Students who wish to declare the BA/MA major must have a 3.0 average in Economics and in the cumulative index.

A minimum grade of B in the following, or their equivalents

ECO 30000 - Intermediate Microeconomics

GER
3/B

Households and firms as maximizing agents; implications for equilibrium in perfectly and imperfectly competitive markets; general equilibrium; welfare.

prereq: ECO 20000, 20100, MATH 15000
ECO 32100 - Introduction to Econometrics

GER
3/B

Linear and non-linear regression models in economics; statistical methods for estimation and inference.

Prereq: ECO 22100, MATH 15000

3 hrs
3 cr.

A minimum grade of C in the following, or their equivalents

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

Prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.

4 hrs
4 cr.

Continuing in the program is contingent upon maintaining a 3.0 GPA in economics and the cumulative index

A minimum grade of B in

ECO 30100 - Intermediate Macroeconomics

GER
3/B

Growth, employment and prices in the short and long run; monetary and fiscal policy.

Prereq: ECO 20000, 20100, MATH 15000

3 hrs
3 cr.

An average grade of B in

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.  
*prereq:* grade of C or better in MATH 12500 or appropriate score on placement exam.  
4 hrs  
4 cr.

**MATH 16000 - Matrix Algebra**

**GER**  
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.  
*prereq:* MATH 12500 or appropriate score on placement exam  
3 hrs  
3 cr.

All students in the BA/MA program must complete the following, or their equivalents, as well as the courses listed above

**MATH 15500 (STEM) - Calculus with Analytic Geometry II**

**Hunter Core**  
Math/Quantitative Reasoning  
**GER**  
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.  
*prereq:* grade of C or better in MATH 15000  
4 hrs  
4 cr.

**MATH 16000 - Matrix Algebra**

**GER**  
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.  
*prereq:* MATH 12500 or appropriate score on placement exam  
3 hrs  
3 cr.

**Additional Information**

An undergraduate major in economics is normally required. Thomas Hunter Honors Program students may be admitted without declaring an undergraduate economics major, provided that the above courses are completed. To apply, see the graduate adviser.
Honors

Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for the award of departmental honors.

Note: Students enrolled in the BA/MA program may substitute enrollment in ECO 798 and an MA thesis for ECO 49900 and the Honors paper.

ECO 49900 - Honors Project

Five-Year BA/MA Program in Environmental Studies and Adolescent Education: Earth Science (Grade 7-12)

Students who major in Environmental Studies may also want to complete a sequence of courses that will enable them to pursue a career teaching earth science in grades 7-12. The BA/MA program in Environmental Studies and Adolescent Education: Earth Science is designed to prepare prospective teachers to serve as high-quality educator for adolescents in urban schools.

This is an accelerated program leading to a BA in Environmental Studies and an MA in Adolescent Education: Earth Science. The program is designed for highly qualified Environmental Studies majors who, during their sophomore year, decide to pursue a career in secondary school teaching. This program will ensure that these students receive all of their pedagogical and disciplinary training before entering the classroom to teach. Students who complete the 134 credit program will have satisfied the coursework requirements for teacher certification. The 18 elective credits required for the Environmental Studies degree must emphasize atmospheric systems, earth systems, water systems, or geological systems.

For students in this BA/MA program, the 18 credit elective portion of the Environmental Earth Science Concentration major must include GEOL 10200, PGEOG 13000 (STEM), ASTRO 10100/ASTRO 10700 or, after spring 2011, ASTRO 10100, and a minimum of 9 undergraduate credits selection from 200- and 300-level GEOL, PGEOG, and GTECH courses (with the exception of GTECH 20100), and the independent study, honors, and internship courses in each of these series.

Students interested in this program should speak to adviser in the Department of Geography during their sophomore year to review the curriculum path for the five-year program. And students should also speak to an adviser in the School of Education as soon as possible.

Admission to the School of Education is not automatic with admission to Hunter College. There is a separate admission process that involves a paper application, a writing sample, and an interview.

Required Courses

ASTRO 10100 - Basic Concepts of Astronomy with Laboratory Exercises
An introductory, one-semester astronomy course designed for non-science majors. Topics include: basic observational features of the night sky, and their explanations; Kepler’s laws of planetary motion; Newton’s laws of motion and gravitation. Properties of light, and how it reveals the nature of its source. Origin, properties, and evolution of our solar system. The origin and evolution of stars, including giants, dwarfs, supernovae, neutron stars, and black holes. Structure of The Milky Way and other type of galaxies. Cosmology, Hubble’s Law and the expanding universe, from the Big Bang to the present; future scenarios. The lab consists of traditional hardware experiments and virtual online experiments. Students taking this course will be required to submit online and hard-copy laboratory reports.

5 hrs
4 cr.

-or-

**ASTRO 10700 - Laboratory Exercises in Astronomy**

**GER**
2/E

Classroom and online experimental laboratory exercises in astronomy to observe the major features of the night sky, demonstrate the physical basis of astronomical instruments, and experiment with astronomical phenomena. Only offered to students who have previously taken ASTRO 100 which is no longer offered [ASTRO 100 + ASTRO 107 are replaced by ASTRO 10100].

**prereq or coreq:** ASTRO 10000

2 hrs
1 cr.

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**

Scientific World (SW); Life and Physical Sciences (LPS)

**GER**
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

**prereq or coreq:** MATH 12500, 15000 or equiv.

5 hrs (4 lec, 1 rec)
4 cr.

and

**CHEM 10400 (STEM) - General Chemistry II**

**Hunter Core**

Life and Physical Sciences (LPS) Scientific World (SW)

**GER**
2/E
In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

*prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.

**CHEM 10600 (STEM) - General Chemistry Laboratory**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

-or-

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
PD/C or D

**GER**
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

*prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.

spring only

**BIOL 10200 (STEM) - Principles of Biology II**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**Pluralism and Diversity**
PD/C or D

**GER**
Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

fall only

**GEOG 22600 - Environmental Conservation: Resource Management**

**GER**

2/B

Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

3 hrs
3 cr.

**GEOL 18000 - Introduction to Oceanography**

**Hunter Core**

Scientific World (SW)

**GER**

2/E

An introduction to the subject of oceanography. We will discuss the physical, chemical, biological and geological aspects of the oceans; learn about the structure and motion of the atmosphere and how they all influence ocean circulation; and we will learn about waves, tides and tsunamis, the carbon cycle and how the ocean influences the Earth's climate system. In addition to providing a good introduction to aspects of the scientific world, it is a foundational course for Environmental Studies, Geography and BA/MA Earth Science Education majors.

prereq: Prerequisite: Math Proficient and Reading Proficient/Non degree students

3 hrs
3 cr.

Offered fall and spring

**GEOL 10000 - Introductory to Geology**

**Hunter Core**

Scientific World (SW)

**GER**

2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course
provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

GEOL 10200 - Plate Tectonics and the Earth's Evolution

GER
2/E

The second course in geology offered to non-geology majors. It is designed to familiarize students with the main concepts used in deciphering and interpreting earth’s evolution from the spatial and temporal perspective. Topics to be covered include: geologic time; geological principles; earth materials as recorders of past geologic processes; depositional environments and sedimentary rock record; igneous and metamorphic geologic environments and their rock records; evolution of the solar system; plate tectonics and life on earth; origin of the universe; life on earth and the fossil record; Precambrian, Paleozoic, Mesozoic, and Cenozoic life, history and tectonics. Field trips may be required; transportation fee.

prereq: GEOL 10100

GEOL 20500 - Environmental Geology

GER
3/B

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today’s environmental issues.

prereq: GEOL 10100

GEOL 28000 - Marine Geology

GER
3/B

Marine Geology is the study of the seafloor. This course attempts to answer the questions “what?” “where?” “when?” and more importantly “how?” in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.

prereq: GEOL 10200 or perm instr.
3 hrs
3 cr.
Fall

**MATH 12500 (STEM) - Precalculus**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

*prereq:* grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs
4 cr.

**PGEOG 13000 (STEM) - Weather and Climate**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**GER**
2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

Material Fee: $ 5

5 hrs (3 lec, 2 lab)
4 cr.

Offered in the Fall and Spring

**PGEOG 25000 - Earth System Science I**

**GER**
3/B

In this course students learn to think of Earth as a system of several components that interact with each other, sometimes in very complicated ways. The components of the Earth system that will be considered include the atmosphere, the hydrosphere, the lithosphere, and the biosphere. While each of these components can, and should, be studied in more detail in separate courses, here the focus is on interactions between them.

*prereq:* at least one 100-level science course or perm instr.

*prereq or coreq:* GEOL 10100 or PGEOG 13000 or GEOG 22600 or perm instr.

4 hrs
3.5 cr.

**PGEOG 25100 - Earth System Science II**
The second part of a two-course sequence, students continue the objectives of PGEOG 25000, and learn about our planet as a system of interacting components, including the atmosphere, hydrosphere, lithosphere, and biosphere. This course focuses primarily on the biosphere, paleoclimates, and the Arctic climate system.

prereq: PGEO 25000 or perm instr.
4 hrs
3.5 cr.

PGEOG 49000 - Honors in Environmental Studies

Open to upper Jr/Sr environmental studies majors only. Individual research to be carried out under faculty guidance. Results may be embodied in an honors essay or equivalent.
prereq: perm dept.
-or-

PGEOG 49800 - Internship in Environmental Studies

Open to qualified environmental studies majors and minors, upper Jr/Sr only. Opportunities for working in positions of responsibility in professional institutions for academic credit. See environmental studies faculty adviser.
1-4 cr.

Major Electives 6-8 credits
Graduate Courses (see graduate catalog)

PGEOG 630 Science and Society 3
PGEOG 660 Challenging Concepts in Earth Science 4
PGEOG 701.63 Earth Science Today 3
GTECH 710 Introduction to GIS 3
SEDC 710 Building Foundations of Literacy 3
SEDC 713 Methods I 3
SEDC 720 Adolescent Health and Safety 1
SEDC 724 Methods II 2
SEDC 754.04 Student Teaching in Earth Sciences 5
SEDF 703 Social Foundations of Adolescent Education 3
SEDF 704 Adolescent Development 2
SEDF 705 Educational Psychology 2

PGEOG or GTECH elective credits (grad) 3

Mathematics (BA/MA): Additional Required Coursework and Student Teaching

Return to: Adolescent Education, Grades 7-12
Adolescent Education BA Course Requirements

SEDF 20300 - Social Foundations of Education, Grades 7-12 (W)
Students explore different sociological, historical, philosophical, anthropological, and political concepts and theories related to urban schooling. Emphasis on issues such as tracking, parentschool-community relations, inclusion of students with disabilities, the teaching of English language learners, and other diverse populations. Students will learn to analyze these concepts and theories and apply them to current classroom practices.

3 hrs
3 cr.

SEDF 20400 - Adolescent Development
The process of cognitive, social/emotional, personality and language development among youth who vary by gender, race and ethnicity, English proficiency and varying levels of abilities.

2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDF 20500 - Educational Psychology: Applications in Grades 7-12
Basic educational psychology covering the characteristics of the learner, applications of learning theories and the instruction process as applied to the secondary setting, grades 7-12.

prereq: SEDF 20300, 20400
2 hrs per week plus 36 hrs fieldwork
2 cr.

SEDF 20600 - Assessment of the Teaching and Learning Process in Grades 7-12
The principles and practices for the assessment of learning and teaching in the classroom, grades 7-12. Includes instructional objectives, test construction, descriptive statistics, interpretation of standardized test scores, performance outcome measures and alternative forms of assessment.

prereq: SEDF 20500, SEDC 21000
2 per week plus lab
2 cr.

SEDC 21000 - Building the Foundations of Literacy in Grades 7-12
Supporting the development of literacy across the curriculum, with a focus on under-prepared students, students with special education needs, and students who are English language learners; implications for working toward standards.

3 hrs
3 cr.

SEDC 22000 - Adolescent Health and Safety
Health issues that are relevant to the health promotion and wellness of adolescents and their families from diverse backgrounds, abilities, and sexual orientations. Specific content areas will include nutrition, fitness, drug education, child abuse and neglect, fire prevention and safety, and violence prevention and intervention.

prereq: SEDF 20300, 20400
1 hr
1 cr.
SPED 30800 - Teaching Students with Special Needs in Inclusive Settings

Participants will explore the benefits and challenges of creating and maintaining classrooms designed to incorporate students with disabilities in the general education environment for part, or all, of their program.

A new State regulation requires that all teacher education programs leading to initial certification include a 3-credit course in teaching students with disabilities. This course will be added to all initial certification programs that do not currently have such a course. It is intended for teachers of general (not special) education at all grade levels.

prereq: 12 credits of coursework
45 hrs
3 cr.

Note

Please note that the parallel courses at the graduate level may be substituted for these undergraduate courses in the BA/MA Mathematics and the BA/MA Dance Programs.

Additional Required Coursework and Student Teaching**

- SEDC 713 - Methods I: Advanced Study of Secondary Learning Environments for Teaching Mathematics and Science 3 cr
- SEDC 723 - Methods II: Intensive Study of Teaching Diverse Learners in Mathematics, Grades 7-12 2 cr
- SEDC 753 - Student Teaching in Mathematics, Grades 7-12 (60 days, 30 hrs seminar, plus workshops and conferences) 5 cr

Note(s)

** See the Graduate Catalog for these graduate course descriptions

Mathematics or Statistics and Applied Mathematics - BA/MA

return to Mathematics BA Programs

The BA/MA program offers promising students the opportunity to complete both the bachelor's and master's requirements with a minimum of 120 credits. Requirements are the same as those for a major in the department, plus 30 credits at the graduate level. Interested students should contact the graduate adviser for further information regarding eligibility and curriculum requirements.

Track 1: BA/MA Program in Mathematics

Students complete the BA with a standard Mathematics Major, with 30 additional credits at the graduate level in pure mathematics approved by the departmental graduate adviser.

Track 2: BA/MA Program in Statistics and Applied Mathematics

Students complete the BA with a standard major in statistics or mathematics, with 30 additional credits at the graduate level in applied mathematics, statistics, and computer science, approved by the departmental graduate adviser.
Mathematics Preparation for Adolescent Education (Grades 7-12) - BA/MA

return to Mathematics BA Programs

Students interested in secondary school teaching may pursue a combined BA/MA program in teaching. This program requires a minimum of 141 credits.

Admission Requirements for the BA/MA in Teaching

- Completion of at least 45 credits with a GPA of 3.0.
- Completion of at least 10 credits in mathematics, including a year of calculus (MATH 15000 (STEM) and MATH 15500 (STEM), or the equivalent), with an average of 2.7 in these major courses.
- Admission to the The School of Education.

Degree Requirements for the BA/MA in Teaching

The BA/MA program in the teaching of mathematics includes 47–48 credits in mathematics (in addition to the year of calculus described above) and 27 credits in teacher education courses, some of them taken at the undergraduate level and some at the graduate level. The required mathematics/statistics courses are:

- The 33 credits required for the BA in Mathematics OR the 32 credits required for the BA in Statistics.
- The following 15 graduate credits: MATH 62000, 63000, 63300, 63500, and STAT 61200 *or 61400.
  *Although students are required to take either STAT 61200 or STAT 61400, they are encouraged to take both courses.

Also required is passing a comprehensive examination in mathematics consisting of three parts covering the material in MATH 620, 630, and 633. Students may sit for the comprehensive examination only after having taken all three courses. Students who fail any part of the examination need only retake that part of the examination. A student can take any part of the comprehensive exam in mathematics twice; after that, a committee formed by the Mathematics/Statistics Chairperson and consisting of members from the Department of Mathematics and Statistics and the Department of Curriculum and Teaching will decide if the student can take the examination a third and final time.

The student should consult the The School of Education section of the graduate catalog for the sequence of teacher education courses.

Music - BA/MA

4-Year Dual BA/MA Degree

The department offers unusually gifted students the opportunity to obtain a master’s degree in four years with a minimum of 120 credits. Requirements are the same as those for the 42-credit BA plus those for the MA in music (30 credits at the graduate level; see graduate catalog). Students may be admitted to this program only after they have completed at least 60 credits of college work, including at least 29 credits in music (three semesters of music history, four semesters of music theory, and four semesters of musicianship). At least 12 credits (including six in music) must have been taken at Hunter College, and students must have a cumulative GPA of at least 3.5 with no grade of less than B in any music course. At that time, they must fulfill all requirements for entry into the MA program except completion of the BA degree. The graduate adviser must be consulted about the MA requirements.
Music Pre-K - 12 - BA/MA

The BA/MA program in PreK-12 Music Education leads to initial certification as a teacher in New York State.

This undergraduate program is designed to prepare prospective teachers to serve as high-quality educators for students in urban schools. Teacher candidates will take a specified sequence of education courses in addition to fulfilling the CUNY Common Core Requirement and the requirements of their liberal arts or sciences major. These programs include fieldwork in New York City Public schools.

The Education course of study is a 25-credit sequence that students usually complete over four semesters in addition to the major in the subject they plan to teach.

Applying for Admission

Before Hunter students can declare a School of Education major or minor, they must apply to the School of Education and be accepted. The School of Education application is open to current Hunter students throughout the year, and can be accessed online through the School of Education website. Students interested in an Education program should apply as early as is possible in the semester prior to the one in which they plan to enroll. Transfer students should seek advisement about applying to the School of Education as soon as they have been admitted to Hunter. Transfer students who have a GPA of at least 3.5 may apply to start an Education program in their first term at Hunter.

All applicants must complete an on-site writing test to assess written English skills, as well as participate in a group interview with other students and School of Education faculty members. Accepted students will declare both an appropriate major in the School of Arts & Sciences, and a major or minor in the School of Education.

The undergraduate music education program requires a minimum cumulative GPA of 3.5. Candidates for BA/MA programs must also receive approval for graduate-level study by the relevant department in the School of Arts & Sciences. The School of Education does not accept nondegree or second-degree students. Meeting minimum admission requirements does not guarantee entry into the program.

Admission Requirements

1. Minimum of at least 65 credits but no more than 90 credits.

2. A Hunter College Grade Point Average (GPA) of 3.5 or better.

3. Receive a grade of B or better in ENGL 12000.

4. Have no more than 6 cr. of CR/NC grades.

5. Formal declaration of a major in music.

6. Transfer students will have to complete 12 credits of coursework at Hunter College before applying. However, transfer students with 60 or more credits and a GPA of 3.3 or better may be immediately considered for admission.

Liberal Arts and Sciences Major Requirements

Requirements are the same as those for the 42-credit Music-BA plus the following graduate-level courses: MUS 64100, MUS 64300, MUS 64500, MUS 64700, MUS 64900, MUS 65100, MUS 72400, MUS 75100, MUS 75200, MUS 77900, 3 cr. Music elective chosen in consultation with graduate adviser. (For course descriptions, see graduate catalog)
See the BA/MA Music program catalog page for the music department major and audition requirements.

A minimum of 140 credits is required for this degree.

**Liberal Arts and Sciences Distribution Requirements**

These are courses required for School of Education students. Most of these courses may also be used toward the Common Core Requirements.

- 6 credits of English courses
- 6 credits of social studies (at least one course in U.S. history or U.S. geography)
- 6 credits of foreign language
- 12 credits in math, science, or technology with at least one science with a lab component. (A college course in calculus meets 6 credits of these requirements)

**Academic Progress Standards**

- Students must maintain a GPA of at least 3.5 and an education sequence index of at least 3.0.
- Any student who receives a grade of B-, C+, C or D in student teaching must apply to the department chairperson for permission to reregister for that course, which may be repeated only once.
- Any student who receives a grade of D+ or D in a course in the education sequence will be required to repeat that course. Students are permitted to repeat a course only once.
- Any student who receives a grade of F in any course in the pedagogical sequence (including student teaching) will not be permitted to continue in the program.
- Any student who has more than two grades of IN will be permitted to register for only one course the following semester.
- Second Methods Course: Students will be permitted to register for the second methods course in their subject area only after having met the following requirements: Completion of 18 credits of study in the major subject area; approval of the major department adviser; and maintenance of an overall GPA of 3.5 and an education sequence index of 3.0.
- Take and pass the Educating All Students test (EAS) and the appropriate Content Specialty Test (CST) of the New York State Teacher Certification Exams prior to student teaching.
- Complete at least 21 credits in an approved Arts & Sciences major before student teaching.

**Course of Study**

*For graduate-level course descriptions please see the graduate catalog.*

- SEDF 70300 - Social Foundations of Adolescent Education
- SEDF 70400 - Adolescent Development, Grades 7–12
- SEDF 70500 - Educational Psychology: Applications to Adolescent Education
- SEDF 70600 - Assessment of Teaching and Learning in Adolescent Education
- SPED 70800 - Teaching Students with Special Needs in Inclusive Settings
- SEDC 71000 - Building the Foundations of Literacy in Adolescent Education
- SEDC 72000 - Adolescent Health and Safety
- MUSED 67700 - Methods of Teaching Instrumental Music in Grades Pre-K-12
- MUSED 67800 - Methods of Teaching Vocal and General Music in Grades Pre-K-12
- SEDC 75600 - Student Teaching in Music, Pre-K–12
School of Education Exit Standards

Students must meet the following criteria in order to graduate with a School of Education major or minor:

- Have an overall GPA of at least 3.0
- Complete the Dignity for All Students Act (DASA) anti-bullying workshop. The DASA workshop is required for all students in a NYS certification program at the School of Education. The workshop requires six clock hours of coursework or training.

Music/Music Teacher Education Pre-K-12 - BA/MA

Major Programs

The Department of Music offers three undergraduate and two BA/MA major programs to fit individual interests and requirements. Students must take three examinations before declaring a music major:

1. **Music notation, rudimentary theory, and basic aural skills.** This examination is prerequisite to MUSTH 22000 (Music Theory I).
   
   Students who do not pass it must take MUSTH 10100 (Basic Musicianship) or learn the material on their own, then repeat the examination.

2. **Elementary music history and literature.** This examination is prerequisite to MUSHL 20500 (Music History I). Students who do not pass it must take MUSHL 10100 A Thousand Years of Listening or learn the material on their own, then repeat the examination.

3. **Performance audition on an instrument or voice.** This examination is prerequisite to MUSPF 40100 (Private Instruction in Instrument or Voice). Students whose performance skills fall below New York State School Music Association (NYSSMA) level 2, equivalent to about one year of study, must take MUSPF 21100-MUSPF 21200 (Voice I-II), MUSPF 21300-MUSPF 21400 (Piano III), or private lessons at their own expense (without credit), then repeat the examination. Students with no experience in performance may defer the audition until the end of their first semester of study.

   Prospective majors should consult the Music Department's undergraduate adviser as soon as possible to discuss these examinations and any prerequisite courses they may need before beginning the major.

Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the second year of study in music theory (MUSTH 32000 and MUSTH 32100). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at their own expense. The Music Department office has a list of recommended piano teachers.

5- to 6-Year Dual BA/MA Degree in Teacher Education

Exceptionally qualified students may obtain a master’s degree in teacher education in 5-6 years with a minimum of 140 credits. Requirements are the same as those for the 42-credit BA plus requirements for the MA degree in music teacher education (see graduate catalog). Students may be admitted to this program only after they have completed at least 60 credits of college work, including at least 29 credits in music (three semesters of music history, four semesters of music theory, and four semesters of musicianship). At least 12 credits (including six in music) must have been taken at Hunter
College, and students must have a cumulative GPA of at least 3.5 with no grade of less than B in any music course. They must have passed the Music Department’s piano proficiency examination and an audition-interview demonstrating reasonable mastery of an instrument or voice. In addition, they must either have passed the LAST (Liberal Arts and Sciences Test) or fulfilled the following requirements of the School of Education:

- Completion of developmental courses;
- Grade of B- or better in ENGL 12000 or a 200-level English course;
- Application, on-site essay, and interview with the School of Education;
- Proof of negative result on TB test;
- Maximum of 6 credits taken with CR/NC grades, or else calculation of those grades as C/F for computation of grade-point average.

Admission requires the consent of both the Music Department and the School of Education. See the The School of Education section of both the undergraduate and graduate catalogs for more information.

Minor

For 25-credit music majors, the minor consists of 12 credits in a field of study leading to a BA degree and approved by the Music Department adviser. Double-majors and students in other music major programs are exempt from the minor requirement. Minor courses can be used without limit to satisfy stages 1, 2, and 3 of the GER.

Minor for non-Majors

For students minoring in music, the requirements are determined by the student’s major department. See your major adviser. The Music Department recommends the following courses. Because 300-level courses are intended primarily for music majors and have extensive prerequisites, students whose major departments require a 300-level course in the minor may, with permission of their adviser, substitute a 200-level course in the music minor.

**MUSTH 10100 - Music Theory Fundamentals**

**Hunter Core**
Creative Expression (CE)

**GER**
2/D

For non-majors. Introduction to music theory, sight singing, and ear training.

3 hrs
3 cr.

or

**MUSTH 22000 - Music Theory I**

Review of fundamentals of music theory; introduction to melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

*prereq: ability to read music as demonstrated by dept. exam, perm dept. coreq: MUSTH 23000
3 hrs*
3 cr.
offered fall

**MUSTH 23000 - Musicianship I**

Sight singing, ear training, and keyboard drill on materials studied in the corequisite course. Individual work in the Computer Assisted Instruction facility.

*coreq: MUSTH 22000*

3 hrs
2 cr.
offered fall

**MUSHL 10100 - A Thousand Years of Listening**

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D

For non-majors. Selected compositions primarily from the European tradition studied with aim to develop perceptive listening.

3 hrs
3 cr.

**MUSHL 10700 - The World of Music**

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/D

For non-majors. Introduction to music from a spectrum of world cultures, including Africa, Asia, and the Caribbean.

3 hrs
3 cr.

- One course with an MU-H prefix at the 200-level
- 1-3 credits of music electives

**Grading Policy**

Students must have grades of C or better in all prerequisite courses in order to take courses that are required for the major. The grade of CR may not be elected in major courses. In accordance with Hunter College policy, a course may not be taken more than twice without permission of the department.

**Honors**
To qualify for departmental honors in music, a student must have a 3.5 grade point average in major courses and complete an honors project, taken under the following course number. The project, which must be approved in advance by the Policy Committee, may be a research paper on a historical, theoretical, or other topic; an original composition; or a recital. All projects should demonstrate an advanced level, a broad scope, and a high quality, and must be done under the supervision of a faculty member of the Music Department.

**MUSTH 49100 - Honors Project**

Upper Jr/Sr only. Individual project of large scope in music history, theory, composition, or performance.

*prereq: minimum music GPA of 3.5, perm undergrad adviser*

1 sem
3 cr.

**MUSTH 49200 - Honors Project**

*prereq: MUSTH 49100*

1 sem
3 cr.

**Physics - BA/MA**

This special program for a limited number of well qualified students leads to a bachelor of arts and a master of arts degree. Students are offered the opportunity to quickly reach a level where they are competitive for admission into any doctoral program in physics. The program requires 124-126 credits (including the 30 credits required for a physics major BA degree and 30 credits from the graduate curriculum). Because this program requires a large number of physics courses, many of which have other physics courses as prerequisites, students in this program should begin taking physics courses in their first or second semester. Students should consult with the department chair, undergraduate adviser or graduate adviser for details as early as possible.

**Bachelor of Arts/Master of Science - BA/MS**

**Sociology/Social Research - Accelerated BA/MS**

**Five-Year BA/MS Program**

For a limited number of qualified undergraduate students, the sociology department offers an accelerated five-year program leading to a BA in sociology and an MS in social research. The program requires a total of 145 credits of college work (100 undergraduate, 45 graduate). To get the maximum financial benefit from the BA/MS program, students should apply before the number of cumulative credits taken (including those being taken currently) exceeds 100 credits. All credits above 120 will be charged at the graduate tuition rates. The BA/MS program is a full-time program requiring 12 graduate credits per term.

In order to be admitted to the program, students must complete their basic requirements, including their major, pass an honors course or its equivalent (cross listed graduate course, honors independent study), have an overall GPA of 3.25 and meet other requirements of the MS program as outlined in the graduate catalog except for the GRE examination. BA/MS applicants should have no more than 100 credits completed before entering the program and can apply for fall or spring admission. After consulting with the undergraduate adviser to establish eligibility, students may apply to the
Graduate Director. Applications require a cover letter/personal statement and include a copy of one's current transcript and two letters of recommendation.

Students are admitted to the BA/MS program at the end of their junior year but must consult with the undergraduate advisor before they file the application.

**Bachelor of Fine Arts - BFA**

**Studio Art - BFA**

This degree is open to the student who wants to complete work in studio art beyond the 42-credit major and particularly the student who intends to pursue a career as a professional artist and attend graduate school. Students follow the regular Appendix I: Hunter Core Requirement for the BA degree. Departmental approval of the 61-credit BFA concentration is required. Students who have successfully completed 90 credits may apply to the BFA program, pending an interview with the BFA adviser. Students are required to maintain a GPA of 3.0 in this program. Required courses are as follows:

**Hunter Core Requirement**

Courses within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement.

**Major - 61-cr.**

**Year 1 6 cr**

**ARTLA 10100 - Introduction to Study of Visual Experience**

Introduction to conceiving and formulating ideas for visual experience. Students work in 3 different areas in day session, 2 in evening session.

Material Fee: $25

6 hrs

3 cr. + 3 cr. hrs open studio

**ARTCR 22100 - Drawing**

Basic principles in various media and subjects. Eye/hand coordination, perceptual acuity, spatial organization; interpretation of directly observed subjects.

Material Fee: $50

prereq: ARTLA 10100

prereq or coreq: ARTLA 10100 and 22100 are prerequisites to all studio courses.

4 hrs

3 cr. + 5 hrs open studio

**ARTH 11100 - Introduction to History of Art**
Hunter Core
Individual and Society (Humanities) - I&S H

Pluralism and Diversity
PD/D
GER
2/D

Changing forms and subjects of art in several periods of Western civilization, including ancient Greece and Rome, Middle Ages in Western Europe, Renaissance, baroque, modern, American; also Islamic and African art.

3 hrs
3 cr. cr

Year 2 12 cr

four of the following six courses or 3 of the following 6 courses plus one 300-level course:

**ARTCR 22500 - Graphic Arts Workshop**

Techniques of woodcut, intaglio, lithography, silkscreen and related media.
Material Fee: $75
*prereq: ARTLA 10100 and ARTCR 22100*
*prereq or coreq: ARTLA 10100 and ARTCR 22100 are prerequisites to all studio courses.*
4 hrs
3 cr. + 5 hrs open studio

**ARTCR 23500 - Painting**

Basic principles of painting. Studio practice using varied paint media, varied paint surfaces, paper and canvas.
Material Fee: $100
*prereq: ARTLA 10100 and ARTCR 22100*
*prereq or coreq: ARTLA 10100 and ARTCR 22100 are prerequisites to all studio courses.*
4 hrs
3 cr. + 5 hrs open studio

**ARTCR 25100 - Sculpture**

Basic principles of sculpture. Studio practice in varied materials.
Material Fee: $65
*prereq or coreq: ARTC 10100 and 22100 are prerequisites to all studio courses.*
4 hrs
3 cr. + 5 hrs open studio

**ARTCR 25700 - Ceramics**

Introduction to pottery and ceramic sculpture, including hand forming, throwing on the wheel, glazing and kiln operation.
Material Fee: $85
*prereq or coreq: ARTC 10100 and 22100 are prerequisites to all studio courses.*
4 hrs
3 cr. + 5 hrs open studio
ARTCR 27100 - Principles of Photography

Black and white photography as creative medium; camera and its functions; exposure and film development, contact printing and enlarging.
Material Fee: $75
prereq or coreq: ARTC 10100 and 22100 are prerequisites to all studio courses.
3 hrs
3 cr. + 6 hrs open studio

ARTCR 29000 - Combined Media

An introduction to basic technologies, methods and ideas that result in ways of making art that mix and combine media. The course will emphasize the production of moving images, sounds, performance as well as still images and objects.

4 hrs + 5 hrs open studio
3 cr.

Year 3

At least one area of concentration with two 300-level courses repeated in any one of the following: 6 cr

ARTCR 32200 - Advanced Drawing

Continued experience in drawing with emphasis on drawing from life.
Material Fee: $50
prereq: ARTC 22100
prereq or coreq: May be repeated once. ARTC 10100 and 22100 are prerequisites to all studio courses.
4 hrs
3 cr. + 5 hrs open studio

ARTCR 32600 - Advanced Graphic Arts Workshop

Advanced study of one or more graphic art methods. Individual exploration emphasized.
Material Fee: $75
prereq: ARTCR 22500
prereq or coreq: May be repeated once. ARTLA 10100 and ARTCR 22100 are prerequisites to all studio courses.
4 hrs
2 cr. + 5 hrs open studio

ARTCR 33600 - Advanced Painting

Continued experience in painting with possible concentration upon one medium and theme. Individual exploration emphasized.
Material Fee: $100
prereq: ARTCR 23500
prereq or coreq: May be repeated once. ARTLA 10100 and ARTCR 22100 are prerequisites to all studio courses.
4 hrs
3 cr. + 5 hrs open studio
ARTCR 35200 - Advanced Sculpture

Continued experience in sculpture with possible concentration in one material. Individual exploration emphasized. Material Fee: $65
prereq: ARTC 25100
prereq or coreq: May be repeated once. ARTC 10100 and 22100 are prerequisites to all studio courses.
4 hrs
3 cr. + 5 hrs open studio

ARTCR 35700 - Advanced Ceramics

Continued experimentation in form, surface and techniques. Individual exploration emphasized. Material Fee: $85
prereq: ARTC 25700
prereq or coreq: May be repeated once. ARTC 10100 and 22100 are prerequisites to all studio courses.
4 hrs
3 cr. + 5 hrs open studio

ARTCR 37200 - Advanced Photography

Techniques and aesthetics of black and white photography; self-expression and exploration; classroom critiques. Material Fee: $75
prereq: ARTC 27100
prereq or coreq: May be repeated once. ARTC 10100 and 22100 are prerequisites to all studio courses.
3 hrs
3 cr. + 6 hrs open studio

ARTCR 39000 - Combined Media

Continued experience in combined media with possible concentration in one approach and/or method. Individual exploration will be emphasized. May be repeated once (i.e., taken twice).
4 hrs + 5 hrs open studio
3 cr.

Additional studio art requirements: 6 cr

- Courses chosen from all other 200- and 300-level studio art courses. Special-topic advanced studio courses will also be offered each semester for advanced art students; however they do not count toward the major concentration.

Art history requirements: 15 cr

To be completed by the end of year three.

ARTH 11100 - Introduction to History of Art

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
Changing forms and subjects of art in several periods of Western civilization, including ancient Greece and Rome, Middle Ages in Western Europe, Renaissance, baroque, modern, American; also Islamic and African art.

3 hrs
3 cr. cr

**ARTH 24900 - Twentieth-Century Art I**

Pluralism and Diversity
PD/D
GER
3/A

Western art to World War II.
prereq: ARTH 11100
3 hrs
3 cr.

**ARTH 25000 - Twentieth-Century Art II**

Pluralism and Diversity
PD/D
GER
3/A

Western art from World War II to approximately 1980.
prereq: ARTH 11100
3 hrs
3 cr.

- and six to nine additional credits chosen from 200- and 300-level courses.

**ARTH 25100 - Contemporary Art**

GER
3/B

Significant international artists and art works of the past twenty years, as well as recent developments in art theory and criticism.
prereq: ARTH 11100
3 hrs
3 cr.

**Year 4 16 cr**

**ARTCR 40500 - Art and Current Ideas II**

Lecture and discussion; a non-studio course. Topics of concern in art today as brought forth by current exhibitions. Scheduled trips to galleries and museums. Reading assignments, papers and oral reports focus on issues relative to the
exhibitions.
ARTC 10100 and 22100 are prerequisites to all studio courses.

prereq: BFA students or perm dept.
3 hrs
3 cr.

ARTCR 45900 - Professional Experience in Art I

BFA majors, seniors only. Not credited toward BA degree. Advanced projects may include activities outside the college, as well as within the department.
Material Fee: $50
prereq: perm BFA committee at end of junior yr.
prereq or coreq: ARTC 10100 and 22100 are prerequisites to all studio courses.
3 hrs + 15 hrs open studio
6.5 cr.

ARTCR 46000 - Professional Experience in Art II

Continuation of ARTC 45900.
Material Fee: $50
prereq or coreq: ARTC 10100 and 22100 are prerequisites to all studio courses.
3 hrs + 15 hrs open studio
6.5 cr.

Honors

Students wishing to graduate with honors must consult an adviser to make an official application. Application forms are in the Art Office, Room 11054 Hunter North. Major credits must have been completed with a 3.5 grade point average and the cumulative grade point average, from courses taken only at Hunter, must be at least 3.0. Student must submit digital images of an advanced studio project or independent study course.

ARTCR 36000 - Special Projects

Advanced students only. Advanced projects are announced prior to registration each term. Recent examples of Special Projects courses: Color Photo; Advanced Photo Darkroom Process; Collage and Assemblage; Color as Communication; Computer Graphics; Projects in Clay; Advanced Watercolor Painting; Experiment: Photography and Graphics; Site-Specific Painting; Projects in 2-D., Digital Art, Advanced Digital Art, Video for Artists, Installation Art, Sculpture: Methods & Materials, Advanced 2-D studio Seminar, Politics & Painting, Unconventional Approaches: Drawing, 2-D,3-D,4-D Seminar, Advanced Painting Tech. & Concepts
Material Fee: $50
prereq: See department
3 hrs
3 cr. + 5 hrs open studio

ARTCR 40200 - Independent Study in Studio Art

ARTC 10100 and 22100 are prerequisites to all studio courses.
prereq: perm instr.
1-3 hrs
1-3 cr. per semester
Graduate Study

The Department of Art offers a number of courses, listed in the Graduate Catalog, that may be credited toward the degree of bachelor of fine arts. Qualified students in the senior year may be admitted to these courses with the approval of the graduate art history adviser.

Bachelor of Music - BMus

Music - BMus

Foundational Courses

Foundational Courses include courses in English and prerequisites to these courses. These courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

Note: Several courses leading to (foundational) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

60-Credit Major

This degree is designed for students planning to pursue careers as professional performers of music or as teachers of music performance. It provides intensive instruction in the student’s instrument or voice; solid training in music history and theory; and a broad, liberal arts education. Admission to this program is conditional on passing an audition (preferably before the student enters college) demonstrating a high level of skill in performance. Requirements are:

Music history:

**MUSHL 20100 - Introduction to Music Research**

Techniques of research and writing about music. Sources of information (reference books, monographs, periodicals, scores, recordings, Internet resources); types of writing (theoretical, historical, ethnomusicological, critical); writing issues specific to music.

*coreq: MUSHL 20500*

*prereq or coreq: ENGL 12000*

*1 hr*

*1 cr.*

*offered fall*

**MUSHL 20500 - Music History I**
**Pluralism and Diversity**

**PD/D**

For music majors. Survey of the history of music in the European tradition to 1600.

*prereq: elementary knowledge of music history and literature, demonstrated by dept. exam*

*coreq: MUSHL 20100*

*prereq or coreq: MUSTH 22000, 23000, ENGL 12000, perm dept.*

3 hrs

3 cr.

*offered fall*

---

**MUSHL 20600 - Music History II (W)**

**Pluralism and Diversity**

**PD/D**

For music majors. Continuation of MUSHL 20500. Survey of the history of music in the European tradition from 1600 to 1800.

*prereq: MUSHL 20100, 20500, ENGL 12000*

*prereq or coreq: MUSTH 22100, 23100*

3 hrs

3 cr.

*offered spring*

---

**MUSHL 30500 - Music History III (W)**

**Pluralism and Diversity**

**PD/D**

Continuation of MUSHL 20600. Survey of the history of music in the European tradition from 1800 to the present.

*prereq: MUSHL 20600, MUSTH 22100, 23100*

3 hrs

3 cr.

*offered fall*

and any other 3-credit MUSHL course at the 300-level

---

**Music theory:**

**MUSTH 20100 - Introduction to Music Technology**

An introduction to basic music technology skills: music notation software, MIDI sequencing, and digital audio editing.

*prereq or coreq: prereqs: MUSTH 22000 and 23000, or perm dept.*

1 hr

1 cr.

*offered spring*

---

**MUSTH 22000 - Music Theory I**

Review of fundamentals of music theory; introduction to melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.

*prereq: ability to read music as demonstrated by dept. exam, perm dept.*

*coreq: MUSTH 23000*

3 hrs
MUSTH 22100 - Music Theory II

Continuation of MUSTH 22000.
prereq: MUSTH 22000
coreq: MUSTH 23100
3 hrs
3 cr.
offered fall

MUSTH 23000 - Musicianship I

Sight singing, ear training, and keyboard drill on materials studied in the corequisite course. Individual work in the Computer Assisted Instruction facility.
coreq: MUSTH 22000
3 hrs
2 cr.
offered fall

MUSTH 23100 - Musicianship II

Continuation of MUSTH 23000.
prereq: MUSTH 23000
coreq: MUSTH 22100
3 hrs
2 cr.
offered spring

MUSTH 32000 - Music Theory III

Intermediate-level study of melodic, rhythmic, contrapuntal, harmonic, and formal organization of music.
prereq: MUSTH 20100, MUSTH 22100
coreq: MUSTH 33000
3 hrs
3 cr.
offered fall

MUSTH 33000 - Musicianship III

Sight singing, ear training, and keyboard drill on materials studied in corequisite course. Individual work in the Computer Assisted Instruction facility.
prereq: MUSTH 23100
coreq: MUSTH 32000
3 hrs
2 cr.
offered fall

and any other 3-credit MUSTH course at the 300-level

Private lessons:
MUSPF 43100 - Individual Instruction in Instrument or Voice

Limited to students in the 60-credit BMus program and the BA/MA music program. Intensive study in instrumental or vocal techniques. Jury examination required. May be taken 8 times.

prereq: perm dept.
1 hr
3 cr.

Performance ensembles:

For instrumentalists - 6 credits in instrumental ensembles

Choose 6 credits from the following:

MUSPF 23100 - Hunter Symphony

Rehearsal and performance of orchestral works. May be taken 8 times.

prereq: audition, perm instr.
3 hrs
1 cr.

MUSPF 24900 - Jazz Ensemble

Open to all instrumentalists by audition. Study and performance of popular forms of music, including dance, jazz, and musical comedy. May be taken 6 times.

2 hrs
1 cr.

MUSPF 35500 - Chamber Music Workshop

Rehearsal and public performance of instrumental chamber works. May be taken 6 times.

prereq: audition, perm instr.
2 hrs
1 cr.

MUSPF 25000 - Jazz and Popular Music Combos

Study and performance within a small ensemble context of the popular music genres, such as Pop, Rock, Hip-Hop, R & B, Country/Bluegrass, and Jazz. May be taken 6 times.

prereq or coreq: audition, dept. permission required
2 hrs
1 cr.

MUSPF 36500 - Topics in Piano Performance

Seminar in performance for advanced piano students focusing on a different topic area each semester. The seminar will involve study and performance of representative works of piano repertoire relevant to the semester’s topic area. Each
semester will also include individual attention to problems of public performance. May be taken 4 times.

**coreq**: MUSPF 40100 or 43100

2 hrs

1 cr.

For singers

6 credits in vocal ensembles

**MUSPF 22100 - College Choir**

Open to all students. Rehearsal and public performance of major choral works. May be taken 8 times.

3 hrs

1 cr.

**MUSPF 25100 - Jazz Vocal Workshop Ensemble**

Jazz performance and improvisation. May be taken 6 times.

**prereq**: MUSPF 11100 or 21100 or 40100 in Voice, and audition

2 hrs

1 cr.

**MUSPF 35300 - Chamber Singers**

Study and public performance of solo and chamber chorus works from all musical eras. May be taken 6 times.

**prereq**: audition, perm instr.

2 hrs

1 cr.

**MUSPF 36900 - Topics in Vocal Performance**

Seminar in performance for advanced voice students, focusing on a different topic each semester. The seminar will involve study and performance of representative works of vocal repertoire relevant to the semester’s topic area. Each semester will also include individual attention to problems of public performance.

May be taken 4 times.

**prereq**: ENGL 12000

**coreq**: MUSPF 40100 or 43100

2 hrs

1 cr.

for singers, a minimum of 2 credits must be in MUSPF 36900

**Electives:**

- 4 credits in music courses above the 100-level.

**Recital:**

- A senior recital, for which no credit is given, is also required.
Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at their own expense. The Music Department office has a list of recommended piano teachers.

Bachelor of Science - BS

Accounting - BS

The degree of bachelor of science (accounting) offered at Hunter College fulfills educational requirements for the CPA examination in New York State. Candidates pursuing licensure in New York State will need to complete 150 college credits including ACC 49000 - Accounting & Auditing Research. An appropriate masters degree, while not required, is another path to licensure. For information on the MS in Accounting at Hunter College, see the Hunter College Graduate Catalog.

All students contemplating a career in accounting should request an interview with the accounting program adviser during the lower freshman term. To assure completion of the BS (accounting) degree within four years, a full-time student should begin the accounting major sequence in the upper freshman term, if possible, and no later than the lower sophomore term, by registering for ACC 27100.

Hunter Core Requirement

Note: Several courses leading to or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Hunter Core Requirement.

In the case of the accounting major, the courses that meet CCC are:

<table>
<thead>
<tr>
<th>Course</th>
<th>CUNY Common Core</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 12500 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>MATH 15000 (STEM)</td>
<td>Math/Quantitative Reasoning</td>
</tr>
<tr>
<td>ECO 20000</td>
<td>Scientific World</td>
</tr>
<tr>
<td>ECO 20100</td>
<td>Individual and Society</td>
</tr>
</tbody>
</table>

*Please note that no more than two courses from any one department will count for the CUNY Common Core.*

Foundational Courses (0-7 credits)

**MATH 10100 - Algebra for College Students**

Topics in algebra, graphing and functions Includes: algebraic and graphical solutions to systems of equations and inequalities; absolute value, polynomial, rational and radical expressions and equations; complex numbers; the function concept; introduction to polynomial, rational and exponential functions and their graphs.
prereq: appropriate score on placement exam or exit from appropriate departmental workshop
4 hrs (2 lec, 2 lab)
3 cr.
(depending on results of Math placement exam) (3 credits)

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.
prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.
(depending on results of Math placement exam) (4 credits)

Major

The Department of Economics offers a major leading to the BS in accounting, requiring a minimum of 34 credits of accounting, 33 credits of other professional studies and an additional 7 credits of Allied required courses. Details are outlined below.

Grade Options

Students enrolled in the BS (accounting) curriculum may not use CR/NC grades for the 34 accounting credits in the accounting major.

Progression in the Major

Students who have not completed the prerequisites with a grade of C, CR or better will not be allowed to register for the course for which the prerequisites are required. ECO 22100 is required for the major and must be completed with a grade of C, CR or better to be accepted for credit toward fulfillment of the major.

Allied Required Courses (7 credits)

ECO 20100 - Principles of Macroeconomics

Hunter Core
Individual and Society (Social Sciences) -I&S SS
GER
2/B

May be taken prior to or concurrently with ECO 20000. Economic growth; fluctuations in the aggregate economy; inflation; monetary and fiscal policy.
prereq: MATH 10100 or exemption from the course
MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.

Professional Studies (67 cr)

Accounting (34 cr)

ACC 27100 - Accounting I

Basic accounting concepts; preparation of financial statements. Emphasis on income determination and financial position.
prereq: upper freshman standing

ACC 27200 - Accounting II

Accounting concepts applied to partnerships and corporations; funds statements; financial statement analysis.
effective term spring 2016
prereq: ACC 27100 with a grade of C or better

ACC 37100 - Intermediate Accounting I

In-depth study of current concepts relating to accounting for assets and current liabilities.
effective term spring 2016
prereq: ACC 27100 and ACC 27200 all with a grade of C or better.

ACC 37200 - Intermediate Accounting II

Revenue recognition; accounting for equities, income taxes, pensions, leases, price level changes.
effective term spring 2016
prereq: ACC 27100 and ACC 27200 and ACC 37100 all with a grade of C or better.
ACC 37300 - Federal Income Taxation

Principles of federal income taxation and the impact of taxes on individuals.

effective term spring 2016
prereq: ACC 27100 and ACC 27200 and ACC 37100, all with a grade of C or better
3 hrs
3 cr.

ACC 37400 - Managerial Accounting (Cost Accounting)

Accumulation, analysis, presentation and use of cost data by management; budgets.

effective term spring 2016
prereq: ACC 27100 and ACC 27200 and ACC 37100 all with a grade of C or better
3 hrs
3 cr.

ACC 47100 - Advanced Accounting I

effective term spring 2016
prereq: ACC 27100 and ACC 27200 and ACC 37100 and ACC 37200 all with a grade of C or better
3 hrs
3 cr.

ACC 47200 - Advanced Accounting II

Accounting theory and practice focused on partnerships, joint ventures, multinationals, government and public sector entities; not-for-profit accounting; interim and segment reporting; SEC problems, fiduciary accounting, bankruptcy.

effective term spring 2016
prereq: ACC 27100 and ACC 27200 and ACC 37100 and ACC 37200 all with a grade of C or better
3 hrs
3 cr.

ACC 47300 - Business Taxes

Federal income taxation of partnerships and corporations; other special tax issues.

effective term spring 2016
prereq: ACC 27100 and ACC 27200 and ACC 37100 and ACC 37200 and ACC 37300 all with a grade of C or better
3 hrs
3 cr.

ACC 47500 - Auditing

Auditing theory and practices; ethics of accounting profession; procedures for auditing financial statements.

prereq: ACC 27100 and ACC 27200 and ACC 37100 and ACC 37200 all with a grade of C or better
prereq or coreq: ACC 47100 with a grade of C or better
4 hrs
4 cr.
ACC 49000 - Accounting & Auditing Research

Acquisition of research, analytical and communication skills. Provides coverage of fundamental knowledge and skills to conduct research as well as their application through announced readings, cases and research discussions on selected topics. Requires extensive Internet and library research including the use of FASB codification database.

prereq: ECO 22100
prereq or coreq: ACC 47500
3 hrs
3 cr.

Additional Information
An overall average of at least "C+" (2.3 Grade Point Average) must be maintained in these 34 credits. Students who receive a grade of "D" or lower in any of the eleven required Accounting courses in the Professional Studies Requirement will be allowed to repeat the course only once. In total, students may repeat no more than three Accounting courses for which they received a grade of "D" or lower. Students who exceed this allowed number of course repeats will be dismissed from the BS program in Accounting. The Academic Adviser for the BS program in Accounting may, under extraordinary circumstances, make exceptions to this rule.

Other Professional Studies (33 cr)

Business Law (6 cr)

ACC 28000 - Business Law I

Legal institutions; contract law and commercial paper law with focus on Uniform Commercial Code.

prereq: sophomore standing or perm chair
3 hrs
3 cr.

ACC 38000 - Business Law II

Legal aspects of business organizations; agency, partnership and corporate relationships.

prereq: ACC 28000
3 hrs
3 cr.

Statistics (3 cr)

ECO 22100 - Economic Statistics

Hunter Core
Mathematics and Quantitative Reasoning
GER
1/B

Probability and statistics in the context of economics, business and public policy; data analysis, probability distributions, and hypothesis testing.

prereq: MATH 12500 or exemption from the course
3 hrs
3 cr.

note: For students already at or beyond this point when they become majors, the course should be taken within the first 12 credits following declaration of the major.

Finance (6 cr)

Select two of the following courses:

**ECO 21000 - Money and Banking**

**GER**

3/B

Monetary and banking principles and practice; current issues; theory and policy.

*prereq: ECO 20000, 20100*

3 hrs
3 cr.

**ECO 36500 - Corporate Finance**

**Pluralism and Diversity**

**GER**

3/B

**GER**

3/B

Analysis of corporate investment and financing decisions.

*prereq: ECO 20000 and either ECO 22100 or STAT 21300*

3 hrs
3 cr.

**ECO 36600 - Security and Investment Analysis**

**GER**

3/B

Operation of the stock market; security analysis and evaluation; economic variables influencing security values.

*prereq: ECO 36500*

3 hrs
3 cr.

**ACC 36700 - Analysis of Financial Statements**

**GER**

3/B

Analysis, interpretation, and use of financial statements.

*note: This course does not count as an elective towards the Economics major.*

*prereq: ECO 37200 and ECO 36500 or adviser's permission*
Business Core-Required (6 cr)

ECO 20000 - Principles of Microeconomics

Hunter Core
Scientific World (SW)
GER
2/B

May be taken prior to or concurrently with ECO 20100. Determination of prices and quantities of goods and services, including labor and other resources; competitive and imperfect markets; public policy implications.

prereq: MATH 10100 or exemption from the course

3 hrs
3 cr.

• One course in computer science
  note: ACC 47600 - Computer Accounting Systems is strongly recommended.

Business elective (12 cr)

Choose four courses from the following:

ECO 26000 - Business Organization and Management

GER
3/B

The economic theory of the firm, including the formal analysis of incentives and contracts. Particular focus on how the internal organization of the firm can mitigate the negative effects of conflicts of interest between different stakeholders in the firm.

prereq: ECO 20000

3 hrs
3 cr.

• Any 300- or 400-level ACC or ECO courses (ACC 48000 is strongly recommended)

Additional Information

Majors are advised to complete MATH 15000 (STEM) and ECO 22100 within their first 75 credits of college work. For students already at or beyond this point when they become majors, such courses should be taken within the first 12 credits following declaration of the major. The department may waive the major requirement of MATH 15000 and/or ECO 22100 upon satisfactory proof of course equivalency. Courses waived through substitution or examination do not provide course credit nor do they count toward the major.

Total Credits 74

Total major credits required 67
Allied Required Courses 7

(Additional foundational courses 0 - 7 credits, depending on Math placement)

Minor in Accounting

A Minor in Accounting is available. These courses may be used for CPLicensure in New York State, but represent only 15 of the 69 credits required.

Interdepartmental Fields

Students may take courses in economics as part of an interdepartmental program of study in Latin American and Caribbean studies, environmental studies (geography), women’s and gender studies and Jewish studies. Listings in each area discuss recommended courses.

Internships

Students may receive one credit for internships in government agencies, private firms, and not-for-profit institutions. The position must provide opportunities for learning about some area of economics, accounting, or business. The course may be taken no more than twice. Credits may not be applied towards the economics or accounting major. Internships will be graded on a CR/NC basis. Note that it is the responsibility of the student, not the Department, to identify internship opportunities.

Honors

Students with a 3.5 GPA in a major offered by the department and an overall 2.8 GPA at the beginning of their upper senior semester may apply for departmental honors at that time. Completion of the following and submission of an honors paper are required. Honors papers are written under faculty supervision and must be approved by a second reader as well. GPA levels must be maintained for the award of departmental honors.

ECO 49900 - Honors Project

Jr/Sr only. Supervised individual research and directed reading. Honors essay.

prereq: For accounting majors: ECO 32100 and 37200; For economics majors: ECO 30000, 30100 and 32100. A 3.5 GPA required in the major offered by the department and permission of the chair

3 hrs

3 cr.

Community Health - BS

Community Health

Program Director: Philip Alcabes, PhD
palcabes@hunter.cuny.edu
Community Health Program Description:

*Why are children in East Harlem hospitalized for asthma at twice the rate elsewhere in NYC? How can we assess if gun violence is a health priority for members of our community and ensure their expertise informs local public health efforts? How can social media be leveraged to reduce sexually transmitted infections?*

Students in the Community Health program will develop the skills needed to be able to effectively answer these types of public health questions through a social justice lens. Community health professionals work to improve the health and wellbeing of entire communities. While clinical health professionals might treat an elderly diabetic patient, a community health professional will work to understand and reduce a community’s elevated risk for diabetes. At Hunter College, students in the Bachelor of Science program in Community Health will learn to analyze how both social structures (including poverty, racism and environmental exposures) and behavioral choices shape a community's health. They will take courses in health disparities, epidemiology, public health biology, and community health assessment to develop their analytic skills and courses in health communications and social media to learn tools for addressing public health problems. Fieldwork experience and a research seminar give students the opportunity to apply what they have learned in a real-world setting on a community health topic of their choosing. This program is designed to prepare students for work in community-based and human rights organizations, family planning clinics, mental health centers, homeless shelters, research centers, media organizations, as well as in city, state and national health departments. This is a competitive, 51-credit major, taken after 60 credits are completed of undergraduate study (see pre-requisites & application information below).

Admission Requirements

Admission into the COMHE major is competitive and students enter in the Fall semester only (no Spring admission). Students may apply during the semester that they are completing prerequisites for the program. All applicants, including current Hunter College students, must apply for admission to the program. The prerequisites for admission into the COMHE major are:

1. Completion of 60 credits at the time of admission (courses can still be in progress the spring and summer after applying and before entering that fall)
2. A combined GPA of 3.0 from all postsecondary institutions attended
3. Submission of a 500 word essay, in the supplemental application
4. At least a grade of "C" in the prerequisite courses listed below
5. Completion of the following courses:
   - English Composition (ENGL 12000) - 3 cr.
   - Intro level statistics (STAT 11300 or STAT 21300 (STEM)), PSYCH 24800, SOC 24100, ECO 22100 or equivalent) - 3 cr.
   - Any lab science in the Natural Sciences (Preferred: ANTHP 10100 (STEM); BIOL 10000 (STEM), BIOL 10200 (STEM) or BIOL 12500 (STEM) or BIOL 15000 (STEM) - 4 to 4.5 cr.
   - Intro to Sociology (SOC 10100) - 3 cr.
   - Intro level Psychology OR Anthropology PSYCH 10000, PSYCH 15000, ANTHC 10100 - 3 cr
   - Any upper level course (at least 200 level) in the social sciences (e.g., anthropology (ANTHC), community health, psychology, sociology or urban studies, women and gender studies, or human rights. (Note: The statistics prerequisite or SOC 30100 Medical Sociology cannot meet this requirement.) - 3 cr.

For details on admissions process, see [http://www.hunter.cuny.edu/communityhealth/admissions-info](http://www.hunter.cuny.edu/communityhealth/admissions-info)

Hunter Core Requirement

Several courses leading to or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to
choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

**Community Health Major Curriculum Requirements (51 crs.)**

**SOC 30100 - Medical Sociology**

**GER**
3/B

Social and cultural factors related to health. Organization of health care services, social structure of the hospital.  
*prereq: SOC 10100*  
3 hrs  
3 cr.

**COMHE 30100 - Introduction to Community and Public Health**

An introduction to the study of structural inequalities that contribute to health disparities with an emphasis on communities – geographic, identity-based, or virtual, as the focus for research and intervention.

*prereq: acceptance to the COMHE major, or permission of the instructor.*

3 hrs  
3 cr.

**COMHE 30200 - Principles of Health Promotion**

Introduction to community health methods; presentation skills, learning theories.

*prereq: acceptance to the COMHE major, or permission of instructor*  
3 hrs  
3 cr.

**COMHE 30300 - Social Structure and Health (W)**

An exploration of the roles of economic structure and social linkages that shape health -- including power relations, interactions between subgroups within society, and tensions within groups over institutional control and individual agency.  
*prereq: acceptance to the COMHE major, or permission of the instructor*  
3 hrs  
3 cr.

**COMHE 30400 - Introduction to Health Communication Theory and Practice**

An introduction to the field of health communication with a particular emphasis on theoretical constructs, case studies and U.S. and international practical models and applications. Highlights the multidisciplinary and multifaceted nature of health communication and its contribution to the achievement of behavioral, social and organizational objectives as one of the keys to public health interventions.  
*prereq: acceptance to the COMHE major, or permission of the instructor*
3 hrs
3 cr.

COMHE 30600 - Social Disparities in Health

In depth examination of the social, cultural and political factors that influence and lead to health disparities and health inequalities. Course explores demographic trends in mortality and morbidity and the role of history, race, class, policy, and socioeconomic and cultural factors, and health literacy levels in the development and continuation of disparities in health. This course uses a social justice lens to understand health, health care and health disparities.

prereq: acceptance to the COMHE major or permission of the instructor.

3 hrs
3 cr.

COMHE 32500 - Environmental Public Health

Impact of environmental problems associated with urbanization, e.g., water quality, air and noise pollution, waste disposal and radiation hazards.

prereq: acceptance to the COMHE major, or permission of the instructor

3 hrs
3 cr.

COMHE 32800 - Public Health Biology

Introduction to population biology and ecological principles underlying public health and the relationship of biology to public health. Offers a basic understanding of the biological basis of core public health issues including infectious diseases, vaccines, genetic illnesses, neoplastic processes and environmental illnesses.

prereq: acceptance to the COMHE major or permission of the instructor

3 hrs
3 cr.

COMHE 33000 - Principles of Epidemiology

Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases.

prereq: Acceptance to the major, or permission of the instructor.

3 hrs
3 cr.

COMHE 40500 - Health Care Systems and Health Policy

Overview of U.S. health care system, official and voluntary agencies; introduction to administrative skills, especially those skills necessary for working the health care field.

prereq: Acceptance to the COMHE major or permission of the instructor.

3 hrs
3 cr.

COMHE 40800 - Digital Media and Health

An introduction to key technological advances and current use of new media (Internet and other digital media, mobile technology, etc.) to communicate about health issues as part of broad community based public health and health
communication interventions. It also provides students with practical skills in creating media for health promotion.

prereq: Acceptance to the COMHE major or permission of the instructor
3 hrs
3 cr.

**COMHE 41100 - Community Health Assessment**

Introduction to assessing health needs of communities and populations, in preparation for fieldwork.

prereq: acceptance to the COMHE major or permission of the instructor
3 hrs
3 cr.

**COMHE 41200 - Directed Fieldwork Practicum**

200 hours summer internship to gain experience in community health setting, culminating in production of e-portfolio.

prereq: acceptance to the COMHE major or permission of instructor
3 hrs
3 cr.

**COMHE 41300 - Research Symposium**

Overview of quantitative and qualitative research methods and issues in study design and analysis.

prereq: acceptance to the COMHE major or permission of the instructor
3 hrs
3 cr.

**NFS 14100 - Nutrition**

Fundamentals of the science of nutrition as they apply to individuals and society.
Open to all students.
3 hrs
3 cr.

- Two electives (300 or 400 level) in COMHE, SOC or ANTHC; or NFS 13100 -3 cr. each

**Medical Laboratory Sciences - BS**

**Medical Laboratory Sciences–BS**

**Department Chair:**

Steven Einheber  
Brookdale Campus West 700A  
(212) 481-4442, 4502  
E-mail: seinhebe@hunter.cuny.edu  
Web site: [http://www.hunter.cuny.edu/mls](http://www.hunter.cuny.edu/mls)

HEGIS Code: 1223

**Curricula for the Bachelor of Science Degree**
The Department of Medical Laboratory Sciences (MLS) offers two majors: (1) Medical Laboratory Sciences: Clinical Science BS and 2) Medical Laboratory Sciences: Biomedical Science BS. The Clinical Science major is intended for students pursuing careers in the diagnostic laboratory and meets the requirements for NY State licensure of clinical laboratory technologists. The Biomedical Science major is appropriate for students seeking other careers or graduate education in the biomedical field.

**Professional Outcomes**

**Entry-Level Positions** Students completing the MLS degree are prepared for positions in a variety of settings. These include clinical (medical) technologists in diagnostic laboratories in hospitals and commercial environments, and research assistants in medical center and university labs, pharmaceutical and biotechnology companies and public health laboratories. Personnel shortages are severe in several of these areas, and opportunities are predicted to grow. The Monthly Labor Review projects a growth rate of 20.6% for clinical laboratory positions from 2008 to 2018.

The passage of the Clinical Laboratory Technology Practice Act in 2005 created a transparent professional pathway defining the education, experience and examination to qualify as a clinical technologist in New York State. [http://www.op.nysed.gov/prof/clt/cllaw.htm](http://www.op.nysed.gov/prof/clt/cllaw.htm). The course of study in the Medical Laboratory Sciences: Clinical Science major fulfills the educational and practice components for licensure. It is expected that status as licensed professionals will help to alleviate shortages in the field.

**Further Education**

MLS students are encouraged to plan for postbaccalaureate education, and are guided to complete prerequisites. MLS alumni have been successful in medical and dental school, graduate programs in biomedical science (master's and PhD), management and clinical specialties (PA, forensic science, etc.) and advanced laboratory diagnostics such as cytotechnology.

**Opportunities for Pre-Professional Experience**

**Professional Practice** Qualified students planning for careers in the diagnostic lab enroll in MLS 41000 to fulfill the practical experience requirement of the clinical technologist license. Students are assigned to hospital, reference or public health labs for summer or semester-long internship experience in an area consistent with their interests.

**Biotechnology BS/MA**

Qualified seniors may apply to the BS/MA in Medical Laboratory Sciences with Specialization in Biotechnology. The accelerated BS/MA is a collaboration between MLS and the Department of Biological Sciences. An intensive techniques workshop (BIOL 41000) is taken prior to graduation and upon successful completion, students may continue with professional internship and the MA program, allowing MLS graduates to complete the degree at an accelerated pace.

**Student Research**

Qualified students are encouraged to participate in faculty research projects through independent study and honors courses in such areas as innate immune regulation, bacteriophage, microbial pathogenesis, antimicrobials, gastric secretion and cancer, glutamate receptors in neurological diseases and cancer, and myelination in the peripheral and central nervous systems.

**Academic Advising**

MLS majors meet each semester with a faculty adviser to review progress and plan the next semester's program. The adviser helps students pace their studies appropriately. Counseling for graduate school, employment and reference support is ongoing for our alumni. A strong professional network exists among MLS alumni.
Admission Requirements

The requirements for consideration for admission to Medical Laboratory Sciences - BS programs are as follows:

Completion of 60 credits before enrolling in MLS, including: 1 year general chemistry with lab (CHEM 10200 (STEM), CHEM 10400 (STEM), CHEM 10600 (STEM), or equiv) 1 year general biology with lab (BIOL 10000 (STEM), BIOL 10200 (STEM), or equiv) and overall GPA of at least 2.5. Students can enter the Medical Laboratory Sciences major in fall and spring semesters. Advisers welcome e-mail inquiries anytime. To apply both current Hunter College students and transfer students must complete a Transfer Application with the CUNY University Application Processing Center. Visit http://www.hunter.cuny.edu/prospectivestudents/ug_students/transfer.shtml and select On-Line Application from the choices. Be sure to select "Medical Laboratory Sciences" at Hunter College as the choice of curriculum. Use CUNY curriculum code 0344 when applying. Admissions take place on a rolling basis so students should apply as early as possible. Admission deadlines for fall and spring semesters are February 1 and September 15, respectively. Students are encouraged to complete most of their Hunter Core Requirement (HCR) Appendix I: Hunter Core Requirement which includes the CUNY Common Core, the Hunter Focus on foreign language and the concurrent Rrequirements before entering the program, but liberal arts classes can be interspersed with major courses.

Meeting the minimum requirements does not guarantee acceptance into the program, which is based, by necessity, on the limitations of space and resources. The Hunter College Department of Medical Lab Sciences is dedicated to equal opportunity for all applicants who meet admission requirements.

Course of Study Candidates for the BS degree complete a total of 120 credits including the Hunter Core Requirement. See requirements for the two undergraduate majors offered in MLS (1) Medical Laboratory Sciences: Clinical Science BS and 2) Medical Laboratory Sciences: Biomedical Science BS.

Scholastic Requirements Student grades are reviewed each semester to determine eligibility for remaining in the program. Each student must maintain an overall GPA of 2.0 for each semester and a grade of C or better in each major course. Major courses must be taken for letter grades except, at the discretion of the chair, for clinic, field or independent study. Departmental permission is required in order to register for courses. Faculty advisers authorize course permissions during the pre-registration and registration periods.

Medical Laboratory Sciences: Biomedical Science BS

Go to Medical Laboratory Sciences - BS

The Medical Laboratory Sciences (MLS): Biomedical Science major prepares students for careers in biomedical laboratories and other health-related professions. The MLS curriculum builds upon the basic science courses required to enter the program. Courses in the major fall into the following categories:

1. fundamental lab skills
2. clinical subspecialties
3. advanced biomedical courses

Emphasis is placed on problem solving and development of laboratory strategies, in addition to theoretical knowledge and practical skills in each of the disciplines in the curriculum. The Biomedical Science major is appropriate for students seeking graduate education in biomedical or health-related fields. This major does not meet the requirements for NY State licensure of clinical laboratory technologists. For the licensure-qualifying program, please see the Medical Laboratory Sciences: Clinical Science BS major.
The academic demands of MLS courses often require students to carry lighter credit loads than they are accustomed to. Part-time attendance and some evening classes are mechanisms for assisting students to complete the challenging curriculum. See course descriptions and the MLS Web site for more detail.

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

**STAT 11300 - Elementary Probability and Statistics**

**Hunter Core**  
Math/Quantitative Reasoning  
**GER**  
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.  
**prereq:** A grade of C or better in MATH 10100 or appropriate score on placement exam  
**prereq or coreq:** ENGL 12000  
3 hrs  
3 cr.

-or-

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**  
Math/Quantitative Reasoning  
**GER**  
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.  
**prereq:** grade of C or better in MATH 12500 or appropriate score on placement exam.  
4 hrs  
4 cr.

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**  
Life and Physical Sciences (LPS); Scientific World (SW)  
**Pluralism and Diversity**  
PD/C or D  
**GER**  
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and
evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)

Pluralism and Diversity
PD/C or D

GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning

GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

MATH 12600 - Precalculus Technology Laboratory

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving precalculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: MATH 12500
2 hrs
1 cr.

* these courses are prereqs to CHEM 10200 (STEM).
Hunter Core Requirement

Several courses leading to (Foundational - see above) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement.

Major in Medical Laboratory Sciences: Biomedical Science (120 cr.)

Allied Courses (22 cr.)

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

*prereq or coreq: MATH 12500, 15000 or equiv.*

5 hrs (4 lec, 1 rec)

4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for pre-med, medical laboratory sciences and science majors.

*prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair*

5 hrs (4 lec, 1 rec)

4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

*Pluralism and Diversity*
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.
_prereq: CHEM 10200
_coreq: CHEM 10400
6 hrs
3 cr.

**CHEM 22200 - Organic Chemistry Lecture I**

GER
GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

*Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.*

_prereq: CHEM 10400 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

**CHEM 22300 - Organic Chemistry Laboratory I**

GER
3/B
Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

*Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.*

_prereq: CHEM 10500 or CHEM 10600
_prereq or coreq: CHEM 22200
4 hrs
2.5 cr.

**PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

_Hunter Core_
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E
First semester of two-semester introductory physics course using algebra.
_prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.*
Med Lab Sciences: Biomedical Science Curriculum (42 cr.)

**MLS 30000 - Fundamental Concepts and Techniques in the Medical Laboratory**

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment.

MLS 60000 is the graduate component of this course

*prereq: BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv.*

3 hrs (2 lec, 1 lab)

3 cr.

**MLS 31200 - Human Physiology: Integration and Control**

Study of function at the cellular and systemic level, with emphasis on the integrated organism and associated control systems. Electronic resources are used extensively in this course.

*prereq: BIOL 10000 and 10200, CHEM 10400, 10500 or equiv.*

3 hrs

3 cr.

**MLS 34700 - Human Histology**

Structure and function of normal human tissues and cells, including systematic study of microscopic morphology.

*coreq: MLS 31200*

5 hrs (2 lec, 3 lab)

3 cr.

**MLS 34900 - Hematology**

Study of normal and pathological conditions of blood. Use of current diagnostic techniques to analyze peripheral blood and bone marrow, differential counting and blood banking.

*prereq or coreq: MLS 30000*

5 hrs (2 lec, 3 lab)

3 cr.

**MLS 35100 - Clinical Microbiology I**

Properties and mechanisms of pathogenesis of microorganisms associated with disease and the antimicrobial agents used to control them.

*prereq or coreq: MLS 30000*

5 hrs (2 lec, 3 lab)

3 cr.

**MLS 35200 - Clinical Microbiology II**

Continuation of MLS 35100 with particular emphasis on anaerobic bacteria, fungi, and viruses, diagnostic strategies using classical, serological and molecular techniques.

*prereq: MLS 30000, 35100 or equiv.*
MLS 35400 - Clinical Biochemistry I: Biomolecules & Metabolism

Basic macromolecules of life, including amino acids, lipids, nucleic acids, and carbohydrates; membrane biochemistry and signal transduction; cellular metabolism and bioenergetics; clinical and biochemical laboratory methods.

prereq: CHEM 22200

5 hrs (2 lec, 3 lab)
3.5 cr.

MLS 35500 - Clinical Biochemistry II: Genes to Proteins

Structure and function of nucleic acids and proteins and the genetic basis of human disease. Laboratory methodologies include analysis of proteins, including enzymes in clinical samples, and manipulation of microbial nucleic acids.

prereq: MLS 35400

5 hrs (2 lec, 3 lab)
3.5 cr.

MLS 36100 - Computers and Data Processing in the Medical Laboratory

Study of computer integration in the medical and research lab, data compilation and medical information systems. Approximately 3 additional informal lab hours are required weekly.

prereq: MATH 15000 or STAT 11300

3 hrs (1 lec, 2 lab)
3 cr.

MLS 45000 - Cell and Tissue Culture

Cell and tissue culture theory and techniques, including starting primary cultures, passing and preservation of cells, cell cycle and growth factor assays and monoclonal antibody techniques. Several informal hours are required each week in the lab in addition to the scheduled class.

prereq: MLS 35100
coreq: MLS 34700, 35200
5 hrs (2 lec, 3 lab)
4 cr.

MLS 45700 - Senior Seminar

Oral presentations and written exercises (including research proposal) introduce students to the use and proper citation of the biomedical literature, research design, effective scientific communication and regulatory oversight of science.

prereq: perm instr.
2 hrs
3 cr.

MLS 46000 - Immunology

Cellular reactions in immunology, structure of antibodies and antigens, and laboratory determination of immune functions.

prereq: MLS 34900, 35100
coreq: MLS 35200, 35400
COMHE 33000 - Principles of Epidemiology

Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases.
prereq: Acceptance to the major, or permission of the instructor.
3 hrs
3 cr.

-or-

PHILO 25400 - Ethical Issues in Biology and Medical Care (W)

GER
3/B

Treats issues such as abortion, euthanasia, extraordinary means, confidentiality, human experimentation, genetic control and allocation of limited life-saving therapy.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

SOC 30100 - Medical Sociology

GER
3/B

Social and cultural factors related to health. Organization of health care services, social structure of the hospital.
prereq: SOC 10100
3 hrs
3 cr.

-or-

MLS 40000 - Topics in Biomedical Sciences

Topics vary from semester to semester and are announced before registration.
1-3 hrs
1-3 cr.

Electives (5-6 cr.)

MLS 40000 - Topics in Biomedical Sciences

Topics vary from semester to semester and are announced before registration.
1-3 hrs
1-3 cr.

MLS 48001-48003 - Independent Study
prereq or coreq: departmental permission
1-3

MLS 49000 - Honors

prereq: departmental permission
hrs TBA
3 cr.

CHEM 22400 - Organic Chemistry Lecture II

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

prereq: CHEM 22200 with a grade of C or better
5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22500 - Organic Chemistry Laboratory II

GER
3/B

Continuation of CHEM 22300.

prereq: CHEM 22300
prereq or coreq: CHEM 22400
4 hrs
2.5 cr

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

Medical Laboratory Sciences: Clinical Science BS

Go to Medical Laboratory Sciences - BS

Medical Laboratory Sciences (MLS): Clinical Science is a pre-professional major, preparing students for careers in laboratories devoted to promoting, maintaining and restoring human health. The MLS curriculum builds upon the basic science courses required to enter the program. Courses in the major fall into

the following categories:

1. fundamental lab skills
2. clinical subspecialties
3. advanced biomedical courses
4. pre-professional practice

Emphasis is placed on problem solving and development of laboratory strategies, in addition to theoretical knowledge and practical skills in each of the disciplines in the curriculum. The Clinical Science major is intended for, but not limited to, students pursuing careers in the diagnostic laboratory and is designed to meet the requirements for NY State licensure of clinical laboratory technologists.

The academic demands of MLS courses often require students to carry lighter credit loads than they are accustomed to. Part-time attendance and some evening classes are mechanisms for assisting students to complete the challenging curriculum. See course descriptions and the MLS Web site: http://www.hunter.cuny.edu/mls for more detail.

Foundational Courses

Foundational Courses must be completed before embarking upon the major. Students with appropriate background may be exempted from some or all Foundational Courses. See department for proper placement.

STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics
or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
Pluralism and Diversity
PD/C or D
GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

**prereq:** grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs  
4 cr.

**MATH 12600 - Precalculus Technology Laboratory**

Students are introduced to MATHEMATICA as a tool for exploring qualitative features of functions and solving precalculus problems: simplifying algebraic expressions, solving equations, plotting functions and curves, finding and approximating zeros and solving systems of equations. MATH 12600 cannot be taken for credit after a student has passed MATH 15000. Students who have passed MATH 15000 should register for MATH 15400 to satisfy the symbolic proficiency requirement.

**prereq:** grade of C or better in MATH 10100 or appropriate score on placement exam

**prereq or coreq:** MATH 12500

2 hrs  
1 cr.

* these courses are prereqs to CHEM 10200 (STEM)

**Hunter Core Requirement**

Several courses leading to (Foundational - see above) or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student’s advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement.

**Major in Medical Laboratory Sciences: Clinical Science**

**Allied Courses (22 cr.)**

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**

Scientific World (SW); Life and Physical Sciences (LPS)

**GER**

2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.

**Note:** No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

**prereq or coreq:** MATH 12500, 15000 or equiv.
CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair

5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400

5 hrs
3 cr.

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10400 with a grade of C or better

5-6 hrs (4 lec, 1-2 recitation/workshop)
4 cr.

CHEM 22300 - Organic Chemistry Laboratory I

GER
3/B
Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

**Phys 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

- **Hunter Core**
  - Life and Physical Sciences (LPS); Scientific World (SW)
  - **GER**
    - 2/E

  First semester of two-semester introductory physics course using algebra.
  - **prereq:** MATH 12500; pre-calculus or equiv. By math dept. exam.
  - **7 hrs** (3 lec, 3 lab, 1 rec)
  - 4.5 cr.

**Med Lab Sciences: Clinical Science Curriculum (48 cr.)**

**MLS 30000 - Fundamental Concepts and Techniques in the Medical Laboratory**

Function of the medical laboratory, data analysis and operation of basic laboratory equipment. Approximately 1-2 informal laboratory hours are required to practice the use of equipment.

- **prereq:** BIOL 10000, 10200, CHEM 10200, 10300, 10400, 10500 or equiv.
- **3 hrs** (2 lec, 1 lab)
- 3 cr.

**MLS 31200 - Human Physiology: Integration and Control**

Study of function at the cellular and systemic level, with emphasis on the integrated organism and associated control systems. Electronic resources are used extensively in this course.

- **prereq:** BIOL 10000 and 10200, CHEM 10400, 10500 or equiv.
- **3 hrs**
- 3 cr.

**MLS 34700 - Human Histology**

Structure and function of normal human tissues and cells, including systematic study of microscopic morphology.

- **coreq:** MLS 31200
- **5 hrs** (2 lec, 3 lab)
- 3 cr.

**MLS 34900 - Hematology**
Study of normal and pathological conditions of blood. Use of current diagnostic techniques to analyze peripheral blood and bone marrow, differential counting and blood banking.

**prereq or coreq:** MLS 30000  
5 hrs (2 lec, 3 lab)  
3 cr.

**MLS 35100 - Clinical Microbiology I**

Properties and mechanisms of pathogenesis of microorganisms associated with disease and the antimicrobial agents used to control them.  
**prereq or coreq:** MLS 30000  
5 hrs (2 lec, 3 lab)  
3 cr.

**MLS 35200 - Clinical Microbiology II**

Continuation of MLS 35100 with particular emphasis on anaerobic bacteria, fungi, and viruses, diagnostic strategies using classical, serological and molecular techniques.  
**prereq:** MLS 30000, 35100 or equiv.  
5 hrs (2 lec, 3 lab)  
4 cr.

**MLS 35400 - Clinical Biochemistry I: Biomolecules & Metabolism**

Basic macromolecules of life, including amino acids, lipids, nucleic acids, and carbohydrates; membrane biochemistry and signal transduction; cellular metabolism and bioenergetics; clinical and biochemical laboratory methods.  
**prereq:** CHEM 22200  
5 hrs (2 lec, 3 lab)  
3.5 cr.

**MLS 35500 - Clinical Biochemistry II: Genes to Proteins**

Structure and function of nucleic acids and proteins and the genetic basis of human disease. Laboratory methodologies include analysis of proteins, including enzymes in clinical samples, and manipulation of microbial nucleic acids.  
**prereq:** MLS 35400  
5 hrs (2 lec, 3 lab)  
3.5 cr.

**MLS 36100 - Computers and Data Processing in the Medical Laboratory**

Study of computer integration in the medical and research lab, data compilation and medical information systems. Approximately 3 additional informal lab hours are required weekly.  
**prereq:** MATH 15000 or STAT 11300  
3 hrs (1 lec, 2 lab)  
3 cr.

**MLS 41000 - Professional Practice**

Directed full-time experience in clinical, research, public health or other biomedical laboratories. Arranged on an individual basis.  
**prereq:** departmental permission
MLS 43000 - Immunohematology

Study of the immunologic properties of blood associated with blood group systems, donor screening, transfusion reactions and hemolytic disease and laboratory techniques used to characterize antigen-antibody reactions.

prereq: MLS 34900
3 hrs (2 lec, 1 lab)
3 cr.

MLS 45000 - Cell and Tissue Culture

Cell and tissue culture theory and techniques, including starting primary cultures, passing and preservation of cells, cell cycle and growth factor assays and monoclonal antibody techniques. Several informal hours are required each week in the lab in addition to the scheduled class.

prereq: MLS 35100
coreq: MLS 34700, 35200
5 hrs (2 lec, 3 lab)
4 cr.

MLS 45700 - Senior Seminar

Oral presentations and written exercises (including research proposal) introduce students to the use and proper citation of the biomedical literature, research design, effective scientific communication and regulatory oversight of science.

prereq: perm instr.
2 hrs
3 cr.

MLS 46000 - Immunology

Cellular reactions in immunology, structure of antibodies and antigens, and laboratory determination of immune functions.

prereq: MLS 34900, 35100
coreq: MLS 35200, 35400
5 hrs (2 lec, 3 lab)
3 cr.

COMHE 33000 - Principles of Epidemiology

Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases.

prereq: Acceptance to the major, or permission of the instructor.
3 hrs
3 cr.

- or -

PHILO 25400 - Ethical Issues in Biology and Medical Care (W)

GER
3/B
Treats issues such as abortion, euthanasia, extraordinary means, confidentiality, human experimentation, genetic control and allocation of limited life-saving therapy.

prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

SOC 30100 - Medical Sociology

GER
3/B

Social and cultural factors related to health. Organization of health care services, social structure of the hospital.

prereq: SOC 10100
3 hrs
3 cr.

-or-

MLS 40000 - Topics in Biomedical Sciences

Topics vary from semester to semester and are announced before registration.
1-3 hrs
1-3 cr.

Nursing Accelerated 2nd Degree Program

This program is designed for students who have a baccalaureate degree in another field and wish to transition into a career in nursing. The program is intensive; students receive a Bachelor of Science degree with a major in Nursing in 18 months provided they have met all general education requirements. The Accelerated 2nd Degree Program is a full-time program that includes weekends, daytime and evening classes.

Requirements for Admission

In order to be considered for admission into the Accelerated 2nd Degree Program, applicants must meet eligibility requirements and admission criteria. All students applying to the Accelerated 2nd Degree Nursing Program must have a baccalaureate degree from an accredited institution with a minimum cumulative GPA of 3.2 and a minimum grade of "B" in all science courses by June 1 preceding their entrance into the program. Students who do not meet GPA and degree requirements are not eligible to take the National League for Nursing Pre-admission-RN Examination and are not eligible to apply for admission into the program.

Students may take their last two prerequisite courses during the spring semester of the admission process. Prerequisite courses must be taken for a grade: courses taken on a credit/no credit (CR/NC) basis will not be accepted. Students may not take prerequisite courses during the summer immediately preceding the fall entry into the program. Proof of successful completion of courses taken in the spring must be received by the School of Nursing by June 1. Because admissions decisions are made before the spring term ends, applicants with pending grades will be conditionally accepted until receipt of final grades.

Acceptance into the nursing major is based on the following admission criteria: composite admission score (GPA plus score on NLN Pre-Admission-RN Examination) and completion of all admission requirements. The composite scores
are rank ordered from the highest to the lowest, and admission decisions are given to those applicants with the highest scores.

Requirements for the Degree:

69 non-nursing and 51 nursing credits

Suggested Sequences of Courses:

First Semester (Fall)

**NURS 20000 - Introduction to Nursing**

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced.

RN to BS only: fully online/hybrid

*prereq: CHEM 10100; STAT 11300*
*coreq: Generic Pathway: NURS 21000; NURS 24000*
*Accelerated 2nd Degree: NURS 21000; NURS 22000; NURS 33100*

30 hrs
2 cr.
offered fall

**NURS 21000 - Nursing Fundamentals and Health Assessment**

This course is designed to provide students with the tools required to perform a comprehensive physical assessment and review of a client’s history. The course will also introduce students to the nursing process, principles of infection control, and safety promotion. Students will learn inspection, auscultation, palpation, and percussion techniques. Emphasis is placed upon assessment of the well person with common health problems. Health promotion and maintenance strategies are highlighted for all age groups.

*prereq: CHEM 10000/10100; STAT 11300*
*coreq: (Generic): NURS 20000; NURS 24000; (A2D): NURS 20000; NURS 22000; NURS 33100*

30 hrs Lecture; 30 hrs Health Assessment Lab; 45 hrs Clinical
4 cr.

**NURS 22000 - Adult Health and Illness**

This class provides a knowledge base for effective nursing care of adult clients. Students will gain insight into the management of chronic illnesses. Through utilization of the nursing process, the student's role as client advocate, patient educator, and caregiver are further actualized. Methods of systematic analysis of research are introduced. Experimental learning in a variety of setting provide an opportunity for the student to promote, maintain and/or restore an optimum level of wellness in adult clients and families in collaboration with other members of the health team.

*prereq: (Generic): NURS 20000; NURS 21000; NURS 24000; (A2D): CHEM 10000/10100; STAT 11300*
*coreq: NURS 33100, NURS 20000; NURS 21000; NURS 33100*
22.5 hrs Lecture, 30 hrs Lab, 67.5 hrs. Clinical
4 cr.

**NURS 33100 - Pharmacology I**

The first course presenting essential pharmacological information with a focus on respiratory, cardiovascular, renal, gastrointestinal, and neurological systems. Emphasis is placed upon clinical applications and the nurse's role in drug therapy.

*prereq: 1. Generic Program: NURS 20000; NURS 21000; NURS 24000
2. Accelerated 2nd Degree: CHEM 10000/10100; STAT 11300
coreq: 1. Generic Program: NURS 22000
2. Accelerated 2nd Degree: NURS 20000; NURS 21000; NURS 22000

3 hrs
3 cr.

**Second Semester (Winter)**

**NURS 33900 - Pharmacology II**

This course is designed to further explore essential pharmacological information. The class will build upon information provided in NURS 33100 and provide insight into additional topics in pharmacotherapy, including substance abuse, chemotherapy, alternative medicine, and medications acting on the immune and endocrine systems.

*prereq: NURS 22000; NURS 33100
coreq: NURS 33200; NURS 35200; NURS 38000

45 hrs. lecture
3 hrs.

**Third Semester (Spring)**

**NURS 34300 - Pathophysiology and Nursing Care**

This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological sciences as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

*prereq: 1. Generic Program: NURS 22000; NURS 24000; NURS 33900; NURS 38000
2. Accelerated 2nd Degree: NURS 22000; NURS 33900
coreq: 1. Generic Program: NURS 34900; NURS 36000
2. Accelerated 2nd Degree: NURS 35200; NURS 36000; NURS 38000

45 hrs
3 cr.

**NURS 35200 - Nursing Care of Women and Childbearing Families**

The course focuses on the assessment, care, counseling, and education of women and childbearing families. Didactic and clinical learning opportunities focus on nursing practice with expectant mothers, neonates and their families in classroom and selected health care settings. This course provides the theoretical basis for the nursing management of healthy and high risk women and childbearing families. Standards and Guidelines for Professional Nursing Practice in
the Care of Women and Newborns (7th edition) (2009) developed by the Association for Women's Health, Obstetric and Neonatal Nursing will be utilized to emphasize the nurse's key role in providing evidence-based care that is developmentally and culturally appropriate.

prereq: NURS 22000; NURS 33100
coreq: (Generic) NURS 33200; NURS 33900; NURS 38000
(A2D) NURS 34300; NURS 36000; NURS 38000;
30 hrs. Lecture, 90 hrs. Clinical
4 cr.

NURS 36000 - Nursing Care of Infants, Children, and Adolescents

This course provides an analysis of the biological, psychological, social, cultural and spiritual dimensions of the pediatric client as a member of a family system within a changing society. The learner is taught to provide care in the context of the client's developmental stage. Emphasis is on the application of the nursing process in health promotion, maintenance and/or restoration to optimum levels of wellness. Experiential learning in a wide variety of settings provides the opportunity for the student to collaborate with other members of the nursing team.

prereq: NURS 22000; NURS 33100
coreq: (Generic) NURS 34300; NURS 34900
(A2D) NURS 34300; NURS 35200; NURS 38000
22.5 hrs: Lecture; 30 hrs: Lab; 67.5 hrs: Clinical
4 cr.

NURS 38000 - Nursing Research and Theory

Introduction to theory development and research in nursing.
For RN to BS only: Fully online.
prereq: Generic Program: NURS 22000
Accelerated 2nd Degree: NURS 22000
RN Program: STAT 11300
coreq: Generic Program: NURS 33200; NURS 33900; NURS 35200
Accelerated 2nd Degree: NURS 34300; NURS 35200; NURS 36000
RN Program: None
3 hrs
3 cr.

Fourth Semester (Summer)

NURS 45500 - Public Health Nursing

In lectures and in supervised clinical experiences, the student examines the roles of nurses in planning, delivering and evaluating health programs and services for families, communities and populations. The impact of social, economic and environmental determinants of human health is explored, as are tools for assessing the health status of communities and populations. The course introduces students to the global context of public and community health and examines nursing practice in areas including home health, environmental and school health. The role of nurses in preparing communities to plan for and recover from natural and human-made disasters is also examined.

prereq: NURS 35200; NURS 36000
coreq: NURS 46000
30 hrs: Lecture, 90 hrs: Clinical
4 cr.
NURS 46000 - Mental and Behavioral Health Nursing

This course introduces the learner to assessment and common interventions for care of patients across the lifespan who require mental and behavioral health care, including biological, psychological, social, cultural and spiritual dimensions of individuals. Disease/illness trajectories and their translation into clinical practice guidelines and standard procedures are considered in relation to their impact on providing culturally sensitive, person-centered care. Classroom, laboratory and clinical learning experiences in a variety of settings provide an opportunity for the student to practice delivering high quality and safe client care in collaboration with other members of the health team.

prereq: NURS 35200; NURS 36000
coreq: NURS 45500
30 hrs: Lecture, 15 hrs: Lab; 67.5 hrs Clinical
4 cr.

Fifth Semester (Fall)

NURS 42000 - Nursing Leadership and Ethics

In this course, students will examine the roles of the professional leadership in leading and managing health care services and ensuring ethical nursing practice. The course examines trends in health care delivery and health policy, as well as registered nurses' accountability for delivering and overseeing the provision of safe, quality health care services consistent with the ethical principles of the nursing profession. Students will be introduced to principles of coordinating care, including delegation and assignment of nursing tasks and functions. The course addresses nurses' roles in advocating on behalf of patients, themselves and the profession.

prereq: NURS 45500; NURS 46000
coreq: NURS 47000; NURS 49000; NURS 49200
3 hrs
3 cr.

NURS 47000 - Adult Acute Illness/ Immersion Clinical

This course includes in-depth study of the biological, social, cultural and spiritual dimensions of the acutely and critically ill adults. Experiential learning in acute care settings provides an opportunity for the student to promote, maintain and/or restore an optimum level of health for these adults and their families in collaboration with other members of the health care team. Methods of systematic analysis of relevant research are discussed.

prereq: NURS 45500; NURS 46000
coreq: (Generic) NURS 42200; NURS 49000; NURS 49200
(A2D) NURS 42000;NURS 49000; NURS 49200
22.5 hrs: Lecture; 112.5 hrs: Clinical
4 cr.

NURS 49000 - Gerontological Nursing

This course provides a knowledge and skill base for effective nursing care of older adults. Evidence-based practice and theories guide the student in assisting the older adult and his/her family in understanding and managing health related issues in the aging process. The course includes an in-depth study of the biological, psychological, social, cultural and spiritual dimensions of the older adult client as a member of families and community systems within a changing society. The students learn to do a comprehensive assessment of the older adult using valid and reliable assessment tools. The nursing process is used as the foundation to assist the older adult to attain an optimal level of health. Concepts from related disciplines are explored as they impact on the promotion, maintenance and/or restoration of health. Experiential learning in a variety of settings provides the opportunity for the student to collaborate with inter-disciplinary health teams.
NURS 49200 - Advanced Synthesis of Nursing Knowledge

This course will serve as a review of essential concepts and skills from the nursing curriculum. Students will focus on those concepts that they need to improve for the successful practice of professional nursing. Students will utilize the Hunter-Bellevue School of Nursing Learning Laboratory to review clinical skills practiced throughout the nursing curriculum. Students will also take a comprehensive examination to determine their mastery of professional nursing content.

NURS 20000 - Introduction to Nursing

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced.

NURS 21000 - Nursing Fundamentals and Health Assessment

This course is designed to provide students with the tools required to perform a comprehensive physical assessment and review of a client’s history. The course will also introduce students to the nursing process, principles of infection control, and safety promotion. Students will learn inspection, auscultation, palpation, and percussion techniques. Emphasis is placed upon assessment of the well person with common health problems. Health promotion and maintenance strategies are highlighted for all age groups.
30 hrs Lecture; 30 hrs Health Assessment Lab; 45 hrs Clinical  
4 cr.

**NURS 22000 - Adult Health and Illness**

This class provides a knowledge base for effective nursing care of adult clients. Students will gain insight into the management of chronic illnesses. Through utilization of the nursing process, the student's role as client advocate, patient educator, and caregiver are further actualized. Methods of systematic analysis of research are introduced. Experimental learning in a variety of settings provide an opportunity for the student to promote, maintain and/or restore an optimum level of wellness in adult clients and families in collaboration with other members of the health team.

*prereq: (Generic): NURS 20000; NURS 21000; NURS 24000; (A2D): CHEM 10000/10100; STAT 11300  
coreq: NURS 33100, NURS 20000; NURS 21000; NURS 33100  
22.5 hrs Lecture, 30 hrs Lab, 67.5 hrs. Clinical  
4 cr.*

**NURS 33100 - Pharmacology I**

The first course presenting essential pharmacological information with a focus on respiratory, cardiovascular, renal, gastrointestinal, and neurological systems. Emphasis is placed upon clinical applications and the nurse's role in drug therapy.

*prereq: 1. Generic Program: NURS 20000; NURS 21000; NURS 24000  
2. Accelerated 2nd Degree: CHEM 10000/10100; STAT 11300  
coreq: 1. Generic Program: NURS 22000  
2. Accelerated 2nd Degree: NURS 20000; NURS 21000; NURS 22000  
3 hrs  
3 cr.*

**NURS 33900 - Pharmacology II**

This course is designed to further explore essential pharmacological information. The class will build upon information provided in NURS 33100 and provide insight into additional topics in pharmacotherapy, including substance abuse, chemotherapy, alternative medicine, and medications acting on the immune and endocrine systems.

*prereq: NURS 22000; NURS 33100  
coreq: NURS 33200; NURS 33200; NURS 38000  
45 hrs. lecture  
3 hrs.*

**NURS 34300 - Pathophysiology and Nursing Care**

This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological sciences as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

*prereq: 1. Generic Program: NURS 22000; NURS 24000; NURS 33900; NURS 38000  
2. Accelerated 2nd Degree: NURS 22000; NURS 33900  
coreq: 1. Generic Program: NURS 34900; NURS 36000  
2. Accelerated 2nd Degree: NURS 35200; NURS 36000; NURS 38000*
**NURS 35200 - Nursing Care of Women and Childbearing Families**

The course focuses on the assessment, care, counseling, and education of women and childbearing families. Didactic and clinical learning opportunities focus on nursing practice with expectant mothers, neonates and their families in classroom and selected health care settings. This course provides the theoretical basis for the nursing management of healthy and high risk women and childbearing families. Standards and Guidelines for Professional Nursing Practice in the Care of Women and Newborns (7th edition) (2009) developed by the Association for Women's Health, Obstetric and Neonatal Nursing will be utilized to emphasize the nurse's key role in providing evidence-based care that is developmentally and culturally appropriate.

*prereq: NURS 22000; NURS 33100  
coreq: (Generic) NURS 33200; NURS 33900; NURS 38000  
(A2D) NURS 34300; NURS 36000; NURS 38000*

30 hrs. Lecture, 90 hrs. Clinical  
4 cr.

**NURS 36000 - Nursing Care of Infants, Children, and Adolescents**

This course provides an analysis of the biological, psychological, social, cultural and spiritual dimensions of the pediatric client as a member of a family system within a changing society. The learner is taught to provide care in the context of the client's developmental stage. Emphasis is on the application of the nursing process in health promotion, maintenance and/or restoration to optimum levels of wellness. Experiential learning in a wide variety of settings provides the opportunity for the student to collaborate with other members of the nursing team.

*prereq: NURS 22000; NURS 33100  
coreq: (Generic) NURS 34300; NURS 34900  
(A2D) NURS 34300; NURS 35200; NURS 38000*

22.5 hrs: Lecture; 30 hrs: Lab; 67.5 hrs: Clinical  
4 cr.

**NURS 38000 - Nursing Research and Theory**

Introduction to theory development and research in nursing.  
For RN to BS only: Fully online.  
*prereq: Generic Program: NURS 22000  
Accelerated 2nd Degree: NURS 22000  
RN Program: STAT 11300  
coreq: Generic Program: NURS 33200; NURS 33900; NURS 35200  
Accelerated 2nd Degree: NURS 34300; NURS 35200; NURS 36000  
RN Program: None*

3 hrs  
3 cr.

**NURS 42000 - Nursing Leadership and Ethics**

In this course, students will examine the roles of the professional leadership in leading and managing health care services and ensuring ethical nursing practice. The course examines trends in health care delivery and health policy, as well as registered nurses' accountability for delivering and overseeing the provision of safe, quality health care services consistent with the ethical principles of the nursing profession. Students will be introduced to principles of coordinating care, including delegation and assignment of nursing tasks and functions. The course addresses nurses' roles in
advocating on behalf of patients, themselves and the profession.

**NURS 45500 - Public Health Nursing**

In lectures and in supervised clinical experiences, the student examines the roles of nurses in planning, delivering and evaluating health programs and services for families, communities and populations. The impact of social, economic and environmental determinants of human health is explored, as are tools for assessing the health status of communities and populations. The course introduces students to the global context of public and community health and examines nursing practice in areas including home health, environmental and school health. The role of nurses in preparing communities to plan for and recover from natural and human-made disasters is also examined.

**NURS 46000 - Mental and Behavioral Health Nursing**

This course introduces the learner to assessment and common interventions for care of patients across the lifespan who require mental and behavioral health care, including biological, psychological, social, cultural and spiritual dimensions of individuals. Disease/illness trajectories and their translation into clinical practice guidelines and standard procedures are considered in relation to their impact on providing culturally sensitive, person-centered care. Classroom, laboratory and clinical learning experiences in a variety of settings provide an opportunity for the student to practice delivering high quality and safe client care in collaboration with other members of the health team.

**NURS 47000 - Adult Acute Illness/ Immersion Clinical**

This course includes in-depth study of the biological, social, cultural and spiritual dimensions of the acutely and critically ill adults. Experiential learning in acute care settings provides an opportunity for the student to promote, maintain and/or restore an optimum level of health for these adults and their families in collaboration with other members of the health care team. Methods of systematic analysis of relevant research are discussed.

**NURS 49000 - Gerontological Nursing**

This course provides a knowledge and skill base for effective nursing care of older adults. Evidence-based practice and theories guide the student in assisting the older adult and his/her family in understanding and managing health related issues in the aging process. The course includes an in-depth study of the biological, psychological, social, cultural and spiritual dimensions of the older adult client as a member of families and community systems within a changing society. The students learn to do a comprehensive assessment of the older adult using valid and reliable assessment tools. The nursing process is used as the foundation to assist the older adult to attain an optimal level of health.
Concepts from related disciplines are explored as they impact on the promotion, maintenance and/or restoration of health. Experiential learning in a variety of settings provides the opportunity for the student to collaborate with interdisciplinary health teams.

**NURS 49200 - Advanced Synthesis of Nursing Knowledge**

This course will serve as a review of essential concepts and skills from the nursing curriculum. Students will focus on those concepts that they need to improve for the successful practice of professional nursing. Students will utilize the Hunter-Bellevue School of Nursing Learning Laboratory to review clinical skills practiced throughout the nursing curriculum. Students will also take a comprehensive examination to determine their mastery of professional nursing content.

**Nursing Course Listing**

Return to Hunter-Bellevue School of Nursing

*Note: Students who fail a core prerequisite course in a nursing sequence may not proceed to the next course in the sequence without repeating the failed course. In order to continue in the Nursing major, students must receive minimum grades of “C” in all required nursing courses. Only one failed required nursing course is repeatable only once by students who have received a “D” or less. Students who fail a second required nursing course in the sequence may not repeat that course and may not continue in the major. This policy applies even though a grade appeal is in progress.*

**Generic Pathway Courses**

Nursing Generic Program

**NURS 20000 - Introduction to Nursing**

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced.

RN to BS only: fully online/hybrid

*prereq: CHEM 10100; STAT 11300
coreq: Generic Pathway: NURS 21000; NURS 24000*
Accelerated 2nd Degree: NURS 21000; NURS 22000; NURS 33100
30 hrs
2 cr.
offered fall

**NURS 33100 - Pharmacology I**

The first course presenting essential pharmacological information with a focus on respiratory, cardiovascular, renal, gastrointestinal, and neurologic systems. Emphasis is placed upon clinical applications and the nurse's role in drug therapy.

*prereq:*
1. Generic Program: NURS 20000; NURS 21000; NURS 24000
2. Accelerated 2nd Degree: CHEM 10000/10100; STAT 11300

*coreq:*
1. Generic Program: NURS 22000
2. Accelerated 2nd Degree: NURS 20000; NURS 21000; NURS 22000

3 hrs
3 cr.

**NURS 33200 - Normal and Therapeutic Nutrition in the Nursing Process**

This course introduces students to the principles of nutrition and their application to professional nursing practice. Examines macro- and micro-nutrients, the role of nutrition in disease prevention and health promotion throughout the life span. Nutrition-related nursing interventions are discussed for acute and critically ill patients and for patients with selected disorders including gastrointestinal and cardiovascular diseases, diabetes, cancer and HIV/AIDS.

*prereq:*
NURS 22000

30 hrs
2 cr.

**NURS 38000 - Nursing Research and Theory**

Introduction to theory development and research in nursing.
For RN to BS only: Fully online.

*prereq:*
Generic Program: NURS 22000
Accelerated 2nd Degree: NURS 22000
RN Program: STAT 11300

RN Pathway Courses

Nursing RN Program

NURS 37900 - Nursing and Societal Forces in the Health Care Delivery System

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses. Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service-learning are introduced. **Fully online/hybrid**

NURS 38000 - Nursing Research and Theory

Introduction to theory development and research in nursing. **For RN to BS only: Fully online.**

NURS 38100 - Health Assessment Throughout the Lifespan

Open to RN-BS Program students only. Analysis of normal patterns of wellness for individual clients with emphasis on development of assessment skills.
Nursing Program

NURS 38400 - Nursing Culturally Diverse Families

Pluralism and Diversity
PD/B
Open to RN-BS Program students only. Explores the interrelationships between sociocultural factors and health care practices of families from diverse cultures as a basis for nursing practice. Principles of service-learning are reflected in the culturally competent interventions.
3 hrs
3 cr.

NURS 48000 - Promotion of Wellness in the Community

Open to RN-BS Program students only. Examination of family and community patterns as they relate to individual clients of all ages. Principles of service-learning are used in community-based clinical experiences to promote civic engagement. Combination online/hybrid.
4 hrs
4 cr.

NURS 48200 - Advancement of Roles and Relationships in Professional Nursing

Open to RN-BS Program students only. Explores the roles and relationships in nursing with a focus on leadership as the key to the professionalism of nursing. Principles of service-learning are reflected in the ongoing development of the professional role. This is the last course in the RN Program. Fully online-hybrid.
3 hrs
3 cr.

Nursing Electives

NURS 34000 - Women’s Health

Pluralism and Diversity
PD/C
Designed to identify and analyze those factors which impact on the health status of women: biological, sociological, psychological, environmental, political.

3 hrs
3 cr.

NURS 34200 - Ethical Issues in Nursing Practice

Open to RN-BS and senior Generic Program students only. Examines ethical issues which arise from the practice of nursing in an interpersonal, professional, institutional and social context of diverse and competing values.
NURS 34300 - Pathophysiology and Nursing Care

This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological sciences as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

prereq: 1. Generic Program: NURS 22000; NURS 24000; NURS 33900; NURS 38000
2. Accelerated 2nd Degree: NURS 22000; NURS 33900
coreq: 1. Generic Program: NURS 34900; NURS 36000
2. Accelerated 2nd Degree: NURS 35200; NURS 36000; NURS 38000
45 hrs
3 cr.

NURS 34500 - HIV/AIDS: An Interdisciplinary Perspective for Health Care Providers

Examines the impact of the HIV epidemic on the biological, psychological and social dimensions of persons affected by HIV/AIDS.

3 hrs
3 cr.

NURS 34600 - Death and Dying

Pluralism and Diversity
P/D B
Provides an overview of current theories, concepts, and practices associated with death, dying and end-of-life care.

3 hrs
3 cr.

NURS 35000 - Independent Study in Nursing

An opportunity to explore a topic relevant to nursing which is of individual interest.

1-3 hrs
1-3 cr.

NURS 35100 - Gender, Science and Technology

Pluralism and Diversity
PD/C
Explores the complex relationship between women and the sciences.
cross-listed WGSS 35100
3 hrs
3 cr.

NURS 37900 - Nursing and Societal Forces in the Health Care Delivery System
Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses. Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service-learning are introduced.

Fully online/hybrid

3 hrs

3 cr.

**NURS 39998 - Urban Disaster Response and the Health Care Team**

Provides the student with an understanding of the causes, prevention, and mitigation of disasters and insight into the disaster management system nationally and locally. The course will include content relevant to all disciplines in the disaster care continuum and focus on each individual health care member's role and responsibilities within these systems.

3 hrs

3 cr.

**NURS 44000 - Stress Management for Nurses**

An overview of stress and its effect upon behavior within the framework of the holistic man-wellness model.

3 hrs

3 cr.

**NURS 44100 - Selected Studies in Nursing Research**

Honors course. Utilization of basic knowledge in nursing research to critique and interpret studies and discuss their relevance and application in nursing.

prereq: NURS 31000, 31200, 33100, 33200, 38000, 38100

3 hrs

3 cr.

**NURS 44200 - Nursing Care of Acute and Critically Ill Clients**

Examination of nursing knowledge and roles in caring for acute and critically ill clients and their families.

3 hrs

3 cr.

**NURS 44500 - Teaching-Learning Across the Developmental and Health Continua**

Pedagogical/androgogical principles of learning and instruction to enhance client teaching in the promotion, maintenance and/or restoration of health.

3 hrs

3 cr.

**NURS 45000 - Computer Concepts and Application in Nursing**

Study of computing concepts, principles, practices, and applications in nursing and health care.

3 hrs

3 cr.
NURS 48300 - Politics of Health

An analysis of the relationships between politics and health status, health services and health care providers.
3 hrs
3 cr.

Leave of Absence Policy and Reserved Placement in a Clinical Course

A reserved placement in a clinical/field course will be held for the student for only one year from the date of the leave of absence. The School of Nursing cannot guarantee the placement for any longer period of time. It is the responsibility of the student to submit to the undergraduate program director a letter of intent, one semester prior to returning to the program and enrolling in the course (April 1 for a fall course). Students who fail to follow this procedure release the School of Nursing from reserving a clinical/field placement in a course for the student.

Nursing Generic Program

The Hunter-Bellevue School of Nursing undergraduate program of study combines liberal arts and professional nursing education with a humanistic and comprehensive approach to health care, leading to a Bachelor of Science degree with a major in Nursing. At the completion of this generic program, students are eligible to take the National Council of State Boards Licensing Examination for RNs (NCLEX-RN). The undergraduate program also provides a foundation for graduate study. The Generic Program consists of two parts:

- Non-nursing (liberal arts and core requirements)
- Nursing (professional nursing education)

Students are considered for admission to the school of nursing for the fall semester only, after completing non-nursing pre-requisite courses and an application. Only students admitted to the School of Nursing are permitted to declare nursing as their major. Students admitted to the School of Nursing are required to attend the program on a full-time basis.

Requirements for Admission to Nursing Program

All students applying to the Generic Nursing Program must have a college GPA of 3.2 or above by the end of the fall semester preceding spring application.

- Courses taken prior to clinical nursing courses may not be taken on a Credit/No Credit basis.
- Prerequisite courses with a minimum GPA of 3.2 and a minimum grade of "B" in statistics and all science courses:
  - General Chemistry with lab (CHEM 10000/ CHEM 10100) or higher equivalent course
  - Organic Chemistry with lab (CHEM 12000 /CHEM 12100) or higher equivalent course
  - Introduction to Statistics (STAT 11300) or higher equivalent course
  - History (HIST 15100, HIST 15200 or POLSC 11000)
  - English Composition (ENGL 12000 and ENGL 22000)
  - General Psychology (PSYCH 10000)
  - Human Development (Developmental Psychology of the Life Span; PSYCH 15000)
- Students enrolled in prerequisite courses during the spring semester of application must provide proof of a minimum cumulative GPA of 3.2 and a minimum grade of "B" in all science courses no later than June 1st in order to receive final acceptance to the nursing major.
A career goal statement will be required.
Complete the NLN RN Pre-Admission exam (referred to as the NLN PAX exam) which is administered in February at Hunter College Testing Center (150N)

Non-Nursing Program Requirement

For CUNY Common Core-Required Core & CUNY Common Core-Flexible Core go to Appendix I: Hunter Core Requirement

Nursing Program Requirements

Requirements for the Degree:
60 non-nursing and 60 nursing credits

Allied Courses:

**BIOL 12000 - Anatomy and Physiology I**

Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program.
Not accepted for credit toward the biology major.
*prereq: CHEM 10000, 10100
coreq: CHEM 12000, 12100
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.*
*fall only*

**BIOL 12200 - Anatomy and Physiology II**

Structure and function of circulatory, digestive, exetary, endocrine and reproductive systems. Basic concepts of metabolism, embryology. Required for admission to the nursing program.
Not accepted for credit toward the biology major.
*prereq: BIOL 12000 or equiv.
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.*
*spring only*

Humanities:

**BIOL 23000 - Fundamentals of Microbiology**

**GER**

3/B

Topics include scope, historical aspects, taxonomy, survey of the microbial world, viruses, infectious diseases, control of microorganisms and immunology. Required for admission to the nursing program.
Not accepted for credit toward the biology Major I.
*prereq: CHEM 10000, 10100 or equiv; BIOL 12000 or BIOL 10200
5 hrs (2 lec, 3 lab)
3 cr.*
*spring only*
NURS 20000 - Introduction to Nursing

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced.
RN to BS only: fully online/hybrid

prereq: CHEM 10100; STAT 11300
coreq: Generic Pathway: NURS 21000; NURS 24000
Accelerated 2nd Degree: NURS 21000; NURS 22000; NURS 33100
30 hrs
2 cr.
offered fall

NURS 21000 - Nursing Fundamentals and Health Assessment

This course is designed to provide students with the tools required to perform a comprehensive physical assessment and review of a client’s history. The course will also introduce students to the nursing process, principles of infection control, and safety promotion. Students will learn inspection, auscultation, palpation, and percussion techniques. Emphasis is placed upon assessment of the well person with common health problems. Health promotion and maintenance strategies are highlighted for all age groups.

prereq: CHEM 10000/10100; STAT 11300
coreq: (Generic): NURS 20000; NURS 24000;
(A2D): NURS 20000; NURS 22000; NURS 33100
30 hrs Lecture; 30 hrs Health Assessment Lab; 45 hrs Clinical
4 cr.

NURS 22000 - Adult Health and Illness

This class provides a knowledge base for effective nursing care of adult clients. Students will gain insight into the management of chronic illnesses. Through utilization of the nursing process, the student's role as client advocate, patient educator, and caregiver are further actualized. Methods of systematic analysis of research are introduced. Experimental learning in a variety of setting provide an opportunity for the student to promote, maintain and/or restore an optimum level of wellness in adult clients and families in collaboration with other members of the health team.

prereq: (Generic): NURS 20000; NURS 21000; NURS 24000; (A2D): CHEM 10000/10100; STAT 11300
coreq: NURS 33100, NURS 20000; NURS 21000; NURS 33100
22.5 hrs Lecture, 30 hrs Lab, 67.5 hrs. Clinical
4 cr.

NURS 24000 - Foundations of Genetics for Nurses

This course explores the implications of genetics on nursing practice. The basic principles of gene action and inheritance models are reviewed. Innovations in genetics and genomics research are examined and consideration is given to potential future clinical applications. This course will highlight the integration of genetic information into nursing practice including ethical, legal, and social issues.
For RN to BS students only.

Fully online/hybrid.
prereq: CHEM 10000/10100; STAT 11300
coreq: NURS 20000; NURS 21000
NURS 33100 - Pharmacology I

The first course presenting essential pharmacological information with a focus on respiratory, cardiovascular, renal, gastrointestinal, and neurological systems. Emphasis is placed upon clinical applications and the nurse's role in drug therapy.

prereq: 1. Generic Program: NURS 20000; NURS 21000; NURS 24000
2. Accelerated 2nd Degree: CHEM 10000/10100; STAT 11300
coreq: 1. Generic Program: NURS 22000
2. Accelerated 2nd Degree: NURS 20000; NURS 21000; NURS 22000

NURS 33200 - Normal and Therapeutic Nutrition in the Nursing Process

This course introduces students to the principles of nutrition and their application to professional nursing practice. Examines macro- and micro-nutrients, the role of nutrition in disease prevention and health promotion throughout the life span. Nutrition-related nursing interventions are discussed for acute and critically ill patients and for patients with selected disorders including gastrointestinal and cardiovascular diseases, diabetes, cancer and HIV/AIDS.

prereq: NURS 22000

NURS 33900 - Pharmacology II

This course is designed to further explore essential pharmacological information. The class will build upon information provided in NURS 33100 and provide insight into additional topics in pharmacotherapy, including substance abuse, chemotherapy, alternative medicine, and medications acting on the immune and endocrine systems.

prereq: NURS 22000; NURS 33100
coreq: NURS 33200; NURS 35200; NURS 38000

NURS 34300 - Pathophysiology and Nursing Care

This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological sciences as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

prereq: 1. Generic Program: NURS 22000; NURS 24000; NURS 33900; NURS 38000
2. Accelerated 2nd Degree: NURS 33900
coreq: 1. Generic Program: NURS 34900; NURS 36000
2. Accelerated 2nd Degree: NURS 35200; NURS 36000; NURS 38000
NURS 34900 - Foundations of Ethics and End-of-Life Care

Core professional values and excellences, foundational ethical principles, and essential topics in end of life care will be introduced and explored during this course. Emphasis will be on acquiring generalized knowledge to enable the novice nurse to 1) apply ethical principles to practice, 2) develop the skills to practice with moral comportment and courage, and 3) understand the needs of the dying patient (and loved ones) in order to provide quality end of life care. At the completion of this course with required attendance for all modules, students will be designated “ELNEC Trained.”

prereq: NURS 22000, NURS 24000, NURS 38000
coreq: NURS 34300; NURS 36000
45 hrs. lecture
3 hrs.

NURS 35200 - Nursing Care of Women and Childbearing Families

The course focuses on the assessment, care, counseling, and education of women and childbearing families. Didactic and clinical learning opportunities focus on nursing practice with expectant mothers, neonates and their families in classroom and selected health care settings. This course provides the theoretical basis for the nursing management of healthy and high risk women and childbearing families. Standards and Guidelines for Professional Nursing Practice in the Care of Women and Newborns (7th edition) (2009) developed by the Association for Women's Health, Obstetric and Neonatal Nursing will be utilized to emphasize the nurse's key role in providing evidence-based care that is developmentally and culturally appropriate.

prereq: NURS 22000; NURS 33100
coreq: (Generic )NURS 33200; NURS 33900; NURS 38000
(A2D) NURS 34300; NURS 36000; NURS 38000;
30 hrs. Lecture, 90 hrs. Clinical
4 cr.

NURS 36000 - Nursing Care of Infants, Children, and Adolescents

This course provides an analysis of the biological, psychological, social, cultural and spiritual dimensions of the pediatric client as a member of a family system within a changing society. The learner is taught to provide care in the context of the client's developmental stage. Emphasis is on the application of the nursing process in health promotion, maintenance and/or restoration to optimum levels of wellness. Experiential learning in a wide variety of settings provides the opportunity for the student to collaborate with other members of the nursing team.

prereq: NURS 22000; NURS 33100
coreq: (Generic) NURS 34300; NURS 34900
(A2D) NURS 34300; NURS 35200; NURS 38000
22.5 hrs: Lecture; 30 hrs: Lab; 67.5 hrs: Clinical
4 cr.

NURS 38000 - Nursing Research and Theory

Introduction to theory development and research in nursing. For RN to BS only: Fully online.
prereq: Generic Program: NURS 22000
Accelerated 2nd Degree: NURS 22000
RN Program: STAT 11300
coreq: Generic Program: NURS 33200; NURS 33900; NURS 35200
Accelerated 2nd Degree: NURS 34300; NURS 35200; NURS 36000
RN Program: None
NURS 42200 - Health Policy and Leadership

This final-semester course examines the roles of the professional nurse in leading and managing health care services within a complex and evolving health system. The course examines trends in health care delivery and health policy, as well as registered nurses' accountability for delivering and overseeing the provision of safe, quality health care services. Principles of coordinating care, delegation and assignment of nursing tasks and functions, and collaboration with other health professions are addressed. The course examines nurses' roles in advocating on behalf of patients, themselves and the profession.

prereq: NURS 45500; NURS 46000
coreq: NURS 47000; NURS 49000; NURS 49200
45 hrs: Lecture
3 cr.

NURS 45500 - Public Health Nursing

In lectures and in supervised clinical experiences, the student examines the roles of nurses in planning, delivering and evaluating health programs and services for families, communities and populations. The impact of social, economic and environmental determinants of human health is explored, as are tools for assessing the health status of communities and populations. The course introduces students to the global context of public and community health and examines nursing practice in areas including home health, environmental and school health. The role of nurses in preparing communities to plan for and recover from natural and human-made disasters is also examined.

prereq: NURS 35200; NURS 36000
coreq: NURS 46000
30 hrs: Lecture, 90 hrs: Clinical
4 cr.

NURS 46000 - Mental and Behavioral Health Nursing

This course introduces the learner to assessment and common interventions for care of patients across the lifespan who require mental and behavioral health care, including biological, psychological, social, cultural and spiritual dimensions of individuals. Disease/illness trajectories and their translation into clinical practice guidelines and standard procedures are considered in relation to their impact on providing culturally sensitive, person-centered care. Classroom, laboratory and clinical learning experiences in a variety of settings provide an opportunity for the student to practice delivering high quality and safe client care in collaboration with other members of the health team.

prereq: NURS 35200; NURS 36000
coreq: NURS 45500
30 hrs: Lecture, 15 hrs: Lab; 67.5 hrs Clinical
4 cr.

NURS 47000 - Adult Acute Illness/ Immersion Clinical

This course includes in-depth study of the biological, social, cultural and spiritual dimensions of the acutely and critically ill adults. Experiential learning in acute care settings provides an opportunity for the student to promote, maintain and/or restore an optimum level of health for these adults and their families in collaboration with other members of the health care team. Methods of systematic analysis of relevant research are discussed.

prereq: NURS 45500; NURS 46000
coreq: (Generic) NURS 42200; NURS 49000; NURS 49200
(A2D) NURS 42000;NURS 49000; NURS 49200
22.5 hrs: Lecture; 112.5 hrs: Clinical
4 cr.

**NURS 49000 - Gerontological Nursing**

This course provides a knowledge and skill base for effective nursing care of older adults. Evidence-based practice and theories guide the student in assisting the older adult and his/her family in understanding and managing health related issues in the aging process. The course includes an in-depth study of the biological, psychological, social, cultural and spiritual dimensions of the older adult client as a member of families and community systems within a changing society. The students learn to do a comprehensive assessment of the older adult using valid and reliable assessment tools. The nursing process is used as the foundation to assist the older adult to attain an optimal level of health. Concepts from related disciplines are explored as they impact on the promotion, maintenance and/or restoration of health. Experiential learning in a variety of settings provides the opportunity for the student to collaborate with inter-disciplinary health teams.

*prereq: NURS 45500; NURS 46000
coreq: (Generic) NURS 42200; NURS 47000; NURS 49200
(A2D) NURS 42000; NURS 47000; NURS 49200
30 hrs: Lecture; 90 hrs: Clinical  
4 cr.*

**NURS 49200 - Advanced Synthesis of Nursing Knowledge**

This course will serve as a review of essential concepts and skills from the nursing curriculum. Students will focus on those concepts that they need to improve for the successful practice of professional nursing. Students will utilize the Hunter-Bellevue School of Nursing Learning Laboratory to review clinical skills practiced throughout the nursing curriculum. Students will also take a comprehensive examination to determine their mastery of professional nursing content.

*prereq: NURS 45500; NURS 46000
coreq: (Generic) NURS 42200; NURS 47000; NURS 49000
NURS 42000; NURS 47000; NURS 49000
22.5 hrs: Lecture, 30 hrs: Lab  
2 cr.*

Nursing Elective 2 cr.
P&D: 6 cr.
Total Credits for Degree: 120 cr.

**Repeating a Course**

*Note: Students who fail a core prerequisite course in a nursing sequence may not proceed to the next course in the sequence without repeating the failed course. In order to continue in the Nursing major, students must receive minimum grades of “C” in all required nursing courses. Students who receive a grade of “D” or lower, or who fail any segment of a clinical nursing course or lab will be allowed to repeat the course or segment only once. Students who fail a second required nursing course or clinical lab/segment will be dismissed from the nursing program. This policy applies even if a grade appeal is in progress. Students who fail the clinical portion of a course will receive an "F" for the entire course, regardless of the corresponding theory grade.*

**Leave of Absence Policy and Reserved Placement in a Clinical Course**
A reserved placement in a clinical/field course will be held for the student for only one year from the date of the leave of absence. It is the responsibility of the student to submit to the undergraduate program director a letter of intent, one semester prior to returning to the program and enrolling in the course (April 1 for a fall course). Students who fail to follow this procedure release the School of Nursing from reserving a clinical/field placement in a course for the student.

Nursing RN Program

Admission Criteria: RN Program

An overall college GPA of 3.2 in addition to other requirements is the minimum requirement for consideration of an application. Admission to the School of Nursing is competitive.

The program is designed for RN students who have already completed a two- or three-year nursing program. All RN students admitted to the program are required to submit evidence of NYS RN licensure and health insurance, medical records with specified immunizations and CPR certification prior to entering the first semester of the nursing major.

Applicants who are in the process of taking the licensing examination are admitted conditionally. Proof of receipt of an RN license must be submitted to the Hunter-Bellevue School of Nursing by December 1 for students admitted in the fall. Students unable to show proof of license will not be permitted to continue in the nursing major. Applicants to the RN-BS Program must have completed 36 credits of liberal arts and sciences (including credits in progress) at an accredited college, plus the equivalent of 24 credits in nursing.

Students transferring from any accredited associate degree program in the United States will be granted 24 nursing credits for having a Professional Registered Nurse license. The Nursing Regents College Examinations (RCES) in Adult Nursing, Maternal and Child Nursing, and Psychiatric/Mental Health Nursing at the baccalaureate level are required for applicants from schools without accreditation, and for international graduates. A score of "C" or better is acceptable.

Students should download a current RN Program Fact Sheet, which details the admission process, from the Hunter-Bellevue School of Nursing website at http://www.hunter.cuny.edu/nursing.

Lower Division (Hunter Core)

Students entering Hunter with an AAS degree are required to complete Core, Pluralism and Diversity, and one writing course. Transfer students will have their transcripts evaluated upon admission by the admissions office. Courses for which equivalency is granted need not be repeated. Some transfer courses al may be used to satisfy Core requirements.

For CUNY Common Core, Required Core & CUNY Common Core, Flexible Core go to Appendix I: Hunter Core Requirement

The requirements for students holding an AA, AS, BS, or AAS are differentiated at this link: http://www.hunter.cuny.edu/academics/hunter-core-requirement

Prerequisite Courses

Prerequisite Courses (courses meet Hunter Core as noted)

English Composition (ENGL 12000 or transfer equivalent)* meets English Comp 1

Introduction to Statistics (STAT 11300 or transfer equivalent)* meets M/QR
General Psychology (PSYCH 10000 or transfer equivalent)

Human Development (PSYCH 15000 or transfer equivalent)

General Chemistry with Lab (CHEM 10000 (STEM) and CHEM 10100 or transfer equivalent) * meets LPS

Anatomy & Physiology (BIOL 12000 & BIOL 12200 or transfer equivalent)

Microbiology with lab (BIOL 23000 or transfer equivalent)

12.5 credits of science and math in addition to Statistics and Chemistry

Total lower division credits: 66

Upper Division (Major Requirements)

Students partially fulfill the major requirements with 24 credits of nursing with their AAS degree or Regents Colleges Examinations. The remaining major courses and nine credits of electives are completed at Hunter:

**NURS 37900 - Nursing and Societal Forces in the Health Care Delivery System**

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses. Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service-learning are introduced.

Fully online/hybrid

3 hrs

3 cr.

**Meets Pluralism and Diversity Requirement/Group B. Only open to nursing majors.**

**NURS 38400 - Nursing Culturally Diverse Families**

**Pluralism and Diversity**

Open to RN-BS Program students only. Explores the interrelationships between sociocultural factors and health care practices of families from diverse cultures as a basis for nursing practice. Principles of service-learning are reflected in the culturally competent interventions.

3 hrs

3 cr.

**NURS 38100 - Health Assessment Throughout the Lifespan**

Open to RN-BS Program students only. Analysis of normal patterns of wellness for individual clients with emphasis on development of assessment skills.

Fully online.

Material Fee: $45

prereq: CHEM 10000, CHEM 10100

3 hrs

3 cr.
**NURS 38000 - Nursing Research and Theory**

Introduction to theory development and research in nursing.
For RN to BS only: Fully online.

*prereq: Generic Program: NURS 22000
Accelerated 2nd Degree: NURS 22000
RN Program: STAT 11300

*coreq: Generic Program: NURS 33200; NURS 33900; NURS 35200
Accelerated 2nd Degree: NURS 34300; NURS 35200; NURS 36000
RN Program: None

3 hrs
3 cr.

**NURS 48000 - Promotion of Wellness in the Community**

Open to RN-BS students only. Examination of family and community patterns as they relate to individual clients of all ages. Principles of service-learning are used in community-based clinical experiences to promote civic engagement. Combination online/hybrid.

4 hrs
4 cr.

**NURS 48200 - Advancement of Roles and Relationships in Professional Nursing**

Open to RN-BS Program students only. Explores the roles and relationships in nursing with a focus on leadership as the key to the professionalism of nursing. Principles of service-learning are reflected in the ongoing development of the professional role. This is the last course in the RN Program. Fully online-hybrid.

3 hrs
3 cr.

**Hunter nursing electives (9 cr.)**

Nine credits from the following courses:

**NURS 34000 - Women's Health**

*Pluralism and Diversity
PD/C
Designed to identify and analyze those factors which impact on the health status of women: biological, sociological, psychological, environmental, political.

3 hrs
3 cr.

**NURS 34200 - Ethical Issues in Nursing Practice**

Open to RN-BS and senior Generic Program students only. Examines ethical issues which arise from the practice of nursing in an interpersonal, professional, institutional and social context of diverse and competing values.

3 hrs
3 cr.
NURS 34300 - Pathophysiology and Nursing Care

This course examines biological mechanisms producing disruptions in homeostasis and resulting alterations in physiologic function. The course synthesizes knowledge and theories from nursing, psychosocial, and biological sciences as a foundation for the study of pathophysiology. Emphasis is placed on the molecular basis of illness, the resulting clinical manifestations, and key nursing interventions.

prereq: 1. Generic Program: NURS 22000; NURS 24000; NURS 33900; NURS 38000
2. Accelerated 2nd Degree: NURS 22000; NURS 33900
coreq: 1. Generic Program: NURS 34900; NURS 36000
2. Accelerated 2nd Degree: NURS 35200; NURS 36000; NURS 38000
45 hrs
3 cr.

NURS 34500 - HIV/AIDS: An Interdisciplinary Perspective for Health Care Providers

Examines the impact of the HIV epidemic on the biological, psychological and social dimensions of persons affected by HIV/AIDS.
3 hrs
3 cr.

NURS 34600 - Death and Dying

Pluralism and Diversity
P/D B
Provides an overview of current theories, concepts, and practices associated with death, dying and end-of-life care.
3 hrs
3 cr.

NURS 35000 - Independent Study in Nursing

An opportunity to explore a topic relevant to nursing which is of individual interest.
1-3 hrs
1-3 cr.

NURS 35100 - Gender, Science and Technology

Pluralism and Diversity
PD/C
Explores the complex relationship between women and the sciences.
cross-listed WGSS 35100
3 hrs
3 cr.

NURS 37900 - Nursing and Societal Forces in the Health Care Delivery System

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses.
Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service-learning are introduced.

Fully online/hybrid

3 hrs
3 cr.

**NURS 39998 - Urban Disaster Response and the Health Care Team**

Provides the student with an understanding of the causes, prevention, and mitigation of disasters and insight into the disaster management system nationally and locally. The course will include content relevant to all disciplines in the disaster care continuum and focus on each individual health care member's role and responsibilities within these systems.

3 hrs
3 cr.

**NURS 44000 - Stress Management for Nurses**

An overview of stress and its effect upon behavior within the framework of the holistic man-wellness model.

3 hrs
3 cr.

**NURS 44100 - Selected Studies in Nursing Research**

Honors course. Utilization of basic knowledge in nursing research to critique and interpret studies and discuss their relevance and application in nursing.

*prereq: NURS 31000, 31200, 33100, 33200, 38000, 38100
3 hrs.
3 cr.

**NURS 44200 - Nursing Care of Acute and Critically Ill Clients**

Examination of nursing knowledge and roles in caring for acute and critically ill clients and their families.

3 hrs
3 cr.

**NURS 44500 - Teaching-Learning Across the Developmental and Health Continua**

Pedagogical/androgogical principles of learning and instruction to enhance client teaching in the promotion, maintenance and/or restoration of health.

3 hrs
3 cr.

**NURS 45000 - Computer Concepts and Application in Nursing**

Study of computing concepts, principles, practices, and applications in nursing and health care.

3 hrs
3 cr.

**NURS 48300 - Politics of Health**
An analysis of the relationships between politics and health status, health services and health care providers.

3 hrs
3 cr.

Total upper division credits: 54

Total minimum credits required for degree: 120

Repeating a Course

Note: Students who fail a course in a nursing sequence may not proceed to the next course in the sequence without repeating the failed course. In order to continue in the Nursing major, students must receive minimum grades of "C" in all required nursing courses. Students who receive a grade of "D" or lower, or who fail any segment of a clinical nursing course or lab will be allowed to repeat the course or segment only once. Students who fail a second required nursing course or clinical lab/segment will be dismissed from the nursing program. This policy applies even if a grade appeal is in progress. Students who fail the clinical portion of a course will receive an "F" for the entire course, regardless of the corresponding theory grade.

Leave of Absence Policy and Reserved Placement in a Clinical Course

A reserved placement in a clinical/field course will be held for the student for only one year from the date of the leave of absence. The School of Nursing cannot guarantee the placement for any longer period of time. It is the responsibility of the student to submit to the undergraduate program director a letter of intent, one semester prior to returning to the program and enrolling in the course (April 1 for a fall course). Students who fail to follow this procedure release the School of Nursing from reserving a clinical/field placement in a course for the student.

Nursing Dual/Joint Degree

This is an early entry into the RN-BS program for students at Queensborough Community College. They are granted acceptance to Hunter after their freshman year if they satisfy certain GPA and course requirements. See the Queensborough website for further information about this phase of the dual degree www.qcc.cuny.edu/nursing/dualJoint-hunterBellevue.html

The Hunter portion of the curriculum follows the RN-BS curriculum:

Nursing Major

NURS 34000 - Women’s Health

Pluralism and Diversity
PD/C
Designed to identify and analyze those factors which impact on the health status of women: biological, sociological, psychological, environmental, political.

3 hrs
3 cr.
NURS 35100 - Gender, Science and Technology

Pluralism and Diversity
PD/C
Explores the complex relationship between women and the sciences.
cross-listed WGSS 35100
3 hrs
3 cr.

NURS 37900 - Nursing and Societal Forces in the Health Care Delivery System

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses. Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service-learning are introduced.
Fully online/hybrid
3 hrs
3 cr.

NURS 38000 - Nursing Research and Theory

Introduction to theory development and research in nursing.
For RN to BS only: Fully online.
prereq: Generic Program: NURS 22000
Accelerated 2nd Degree: NURS 22000
RN Program: STAT 11300
coreq: Generic Program: NURS 33200; NURS 33900; NURS 35200
Accelerated 2nd Degree: NURS 34300; NURS 35200; NURS 36000
RN Program: None
3 hrs
3 cr.

NURS 38100 - Health Assessment Throughout the Lifespan

Open to RN-BS Program students only. Analysis of normal patterns of wellness for individual clients with emphasis on development of assessment skills.
Fully online.
Material Fee: $45
prereq: CHEM 10000, CHEM 10100
3 hrs
3 cr.

NURS 38400 - Nursing Culturally Diverse Families

Pluralism and Diversity
PD/B
Open to RN-BS Program students only. Explores the interrelationships between sociocultural factors and health care practices of families from diverse cultures as a basis for nursing practice. Principles of service-learning are reflected in the culturally competent interventions.
3 hrs
3 cr.
**NURS 48000 - Promotion of Wellness in the Community**

Open to RN-BS students only. Examination of family and community patterns as they relate to individual clients of all ages. Principles of service-learning are used in community-based clinical experiences to promote civic engagement. Combination online/hybrid.

*4 hrs 4 cr.*

**NURS 48200 - Advancement of Roles and Relationships in Professional Nursing**

Open to RN-BS Program students only. Explores the roles and relationships in nursing with a focus on leadership as the key to the professionalism of nursing. Principles of service-learning are reflected in the ongoing development of the professional role. This is the last course in the RN Program.

Fully online-hybrid.

*3 hrs 3 cr.*

Six credits of nursing electives: The following two courses are suggested. They meet PD/C requirements.

**Total HC Nursing (24 cr.)**

**Nursing-BS**

**Admission Criteria: RN Program**

An overall college GPA of 3.2 in addition to other requirements is the minimum requirement for consideration of an application. Admission to the School of Nursing is competitive.

The program is designed to meet the special needs of the experienced RN student who has already completed a two- or three-year nursing program. All RN Program students admitted to the program are required to submit evidence of NYS RN licensure and current registration, liability insurance, health insurance, medical records with specified immunizations and CPR certification prior to entering the first semester of the nursing major.

Students awaiting their State Board licensing examination scores who have not yet been awarded the Registered Professional Nurse License are admitted conditionally. Proof of receipt of the RN license must be submitted to the Hunter-Bellevue School of Nursing by December 1 for students admitted in the fall. Students unable to document receiving the license will not be permitted to continue in the nursing major. Applicants to the RN-BS Program must have completed 36 credits of liberal arts and sciences (including credits in progress) at an accredited college, plus the equivalent of 24 credits in nursing.

Students transferring from any accredited associate degree program in the United States will be granted 24 nursing credits for having a Professional Registered Nurse license. The Nursing Regents College Examinations (RCE'S) in Adult Nursing, Maternal and Child Nursing, and Psychiatric/Mental Health Nursing at the baccalaureate level are required for applicants from schools without accreditation by recognized bodies, and by international graduates. A score of "C" or better is acceptable.

Students should download a current RN Program Fact Sheet, which details the admission process, from the Hunter-Bellevue School of Nursing website at http://www.hunter.cuny.edu/nursing.

**Curriculum**
Pre-requisite courses may not be taken on a Credit/No Credit basis.

Prerequisite Course of Study with a minimum grade of "C" or its equivalent:

**CHEM 10000 (STEM) - Essentials of General Chemistry Lecture**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**GER**
GER 2/E

Essential facts, laws, and theories of general chemistry.

Primarily for nursing, nutrition and food science and community health education students.  
*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

4 hrs (3 lec, 1 rec)  
3 cr.

-or-

**CHEM 10100 - Inquiries into the Nature of Matter**

**Hunter Core**
Life and Physical Sciences (LPS)

**GER**
GER 2/E

A laboratory-based introduction to chemistry for non-science and health science majors that focuses on the basic principles of matter, energy and the environment. CHEM 10100 satisfies the laboratory requirements for a one-semester general chemistry course for health science students.

Primarily for nursing, nutrition and food science and community health students.  
*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

3 hrs  
3 cr.

**BIOL 12000 - Anatomy and Physiology I**

Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program.  
Not accepted for credit toward the biology major.  
*prereq: CHEM 10000, 10100*
coreq: CHEM 12000, 12100
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.
fall only

BIOL 12200 - Anatomy and Physiology II

Structure and function of circulatory, digestive, excretory, endocrine and reproductive systems. Basic concepts of metabolism, embryology. Required for admission to the nursing program.
Not accepted for credit toward the biology major.
prereq: BIOL 12000 or equiv.
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)
4.5 cr.
spring only

STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.
prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

BIOL 23000 - Fundamentals of Microbiology

GER
3/B

Topics include scope, historical aspects, taxonomy, survey of the microbial world, viruses, infectious diseases, control of microorganisms and immunology. Required for admission to the nursing program.
Not accepted for credit toward the biology Major I.
prereq: CHEM 10000, 10100 or equiv; BIOL 12000 or BIOL 10200
5 hrs (2 lec, 3 lab)
3 cr.
spring only

ENGL 12000 - Expository Writing

Hunter Core
English Comp (EC)
GER
1/A
Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

*prereq: successful completion of developmental courses, if required*

3 hrs + conf

3 cr.

**PSYCH 15000 - Human Development**

**GER**

2/B

Development from conception to death; biological, physiological and social factors and their interactions at each stage.

*prereq: PSYC 10000*

3 hrs

3 cr.

*Note:* Submit proof of graduation from an accredited nursing program prior to beginning course work. The licensing exam (NCLEX-RN) must be completed and proof of passing the exam must be submitted to the School of Nursing by the end of the first semester or a student will be unable to progress in the program.

**Non-Nursing Program Requirement (NEW HUNTER CORE):**

**Required Core (12 credits)**

**ENGL 12000 - Expository Writing**

*Hunter Core*

English Comp (EC)

**GER**

1/A

Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

*prereq: successful completion of developmental courses, if required*

3 hrs + conf

3 cr.

**ENGL 22000 - Introduction to Writing about Literature (W)**

*Hunter Core*

English Comp (EC)

**GER**

2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

*prereq: ENGL 12000*

3 hrs + one additional conference hour

3 cr.
STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

Prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam
Prereq or coreq: ENGL 12000
3 hrs
3 cr.

CHEM 10000 (STEM) - Essentials of General Chemistry Lecture

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
GER 2/E

Essential facts, laws, and theories of general chemistry.

Primarily for nursing, nutrition and food science and community health education students.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

4 hrs (3 lec, 1 rec)
3 cr.

Flexible Core (18 credits)

HIST 15100 - The United States from the Colonial Era to the Civil War (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War. Courses at the 300-level and above not offered to freshmen.

Prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 15200 - The United States from the Civil War Era to the Present (W)
Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the Civil War to the present.
Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

POLSC 11000 - American Government: A Historical Introduction (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

PSYCH 10000 - Introduction to Psychology

GER
2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.
3 hrs
3 cr.

BIOL 23000 - Fundamentals of Microbiology

GER
3/B

Topics include scope, historical aspects, taxonomy, survey of the microbial world, viruses, infectious diseases, control of microorganisms and immunology. Required for admission to the nursing program.
Not accepted for credit toward the biology Major I.

**prereq:** CHEM 10000, 10100 or equiv; BIOL 12000 or BIOL 10200

5 hrs (2 lec, 3 lab)

3 cr.

**spring only**

**Requirements for the Degree:**

**66 non-nursing and 54 nursing credits (24 from the Associate's degree program and 30 from Hunter).**

**Suggested Sequences of Courses:**

**First Semester Nursing Program (Fall)**

**NURS 20000 - Introduction to Nursing**

Introduction to essential theories, concepts, and values of the nursing profession. Emphasis on understanding the practice and principles of nursing. The principles of service-learning are introduced.

RN to BS only: fully online/hybrid

**prereq:** CHEM 10100; STAT 11300

**coreq:** Generic Pathway: NURS 21000; NURS 24000

Accelerated 2nd Degree: NURS 21000; NURS 22000; NURS 33100

30 hrs

2 cr.

**offered fall**

**NURS 33400 - Pathopharmacology**

An intensive course focused on a molecular understanding of the disease process. The course emphasizes physiological disruptions, associated nursing care, and pharmacological management.

**prereq:** CHEM 10000/10100; BIOL 23000

4 hrs

4 cr.

**NURS 37900 - Nursing and Societal Forces in the Health Care Delivery System**

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses.

Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service-learning are introduced.

Fully online/hybrid

3 hrs

3 cr.

**NURS 38000 - Nursing Research and Theory**
Introduction to theory development and research in nursing.
For RN to BS only: Fully online.

**prereq:**
- Generic Program: NURS 22000
- Accelerated 2nd Degree: NURS 22000
- RN Program: STAT 11300

**coreq:**
- Generic Program: NURS 33200; NURS 33900; NURS 35200
- Accelerated 2nd Degree: NURS 34300; NURS 35200; NURS 36000
- RN Program: None

3 hrs
3 cr.

**Winter Intersession**

**NURS 24000 - Foundations of Genetics for Nurses**

This course explores the implications of genetics on nursing practice. The basic principles of gene action and inheritance models are reviewed. Innovations in genetics and genomics research are examined and consideration is given to potential future clinical applications. This course will highlight the integration of genetic information into nursing practice including ethical, legal, and social issues.

For RN to BS students only.

- Fully online/hybrid.
- **prereq:** CHEM 10000/10100; STAT 11300
- **coreq:** NURS 20000; NURS 21000

30 hrs. lecture
2 cr.

**Second Semester (Spring)**

**NURS 38100 - Health Assessment Throughout the Lifespan**

Open to RN-BS Program students only. Analysis of normal patterns of wellness for individual clients with emphasis on development of assessment skills.

- Fully online.
- Material Fee: $45
- **prereq:** CHEM 10000, CHEM 10100

3 hrs
3 cr.

**NURS 42300 - Foundations of Ethics and Palliative Care**

An introduction to ethics and palliative care in nursing.

- **prereq:** CHEM 10000/10100; STAT 11300

3 hrs
3 cr.

**NURS 48000 - Promotion of Wellness in the Community**

Open to RN-BS students only. Examination of family and community patterns as they relate to individual clients of all ages. Principles of service-learning are used in community-based clinical experiences to promote civic engagement.
Combination online/hybrid.
4 hrs
4 cr.

NURS 49100 - Gerontology for Nurses

This course provides a knowledge and skill base for effective nursing care of older adult clients.

prereq: CHEM 10000/10100
3 hrs
3 cr.

Summer Session

NURS 48200 - Advancement of Roles and Relationships in Professional Nursing

Open to RN-BS Program students only. Explores the roles and relationships in nursing with a focus on leadership as the key to the professionalism of nursing. Principles of service-learning are reflected in the ongoing development of the professional role. This is the last course in the RN Program.

Fully online-hybrid.
3 hrs
3 cr.

Nutrition and Food Science - BS

School of Urban Public Health

Nutrition and Food Science

Program Coordinator:

Ming-Chin Yeh, PhD
Associate Professor
Silberman Building
2180 Third Avenue, Room 609
(212) 396-7776
myeh@hunter.cuny.edu

Recruitment and Admissions Coordinator:

Amina Alam, BA
Room 301
212-396-7778
aala@hunter.cuny.edu

The Nutrition and Food Science (NFS) major at Hunter College is a diverse science-based program where students learn about food and its effect on our health. It offers a comprehensive study of the fundamental principles of food preparation and safety, nutrition, food service management, and community nutrition education. This is accomplished through the application of a variety of sciences. Students who like physical and biological sciences, are interested in
good health, enjoy working with people, and are concerned about the nutritional well-being of people and communities will find interesting and challenging career opportunities within health care fields or in the food industry. The NFS major at Hunter develops these interests and prepares students for challenging opportunities after graduation.

This major is designed for students who plan to enter the workforce directly out of college. The BS in NFS may be a terminal degree, or NFS graduates may elect to continue on for additional education. Students in the NFS major will take courses in nutrition, food science, food service management, research methods, community nutrition education, and epidemiology.

Along with providing students with a good preparation in nutrition, this major is also a good undergraduate preparation for those who might want to go into allied health fields, social work, or other human service professions. The elective courses also allows these undergraduate students who may wish to pursue medicine, nursing, physical therapy or other health careers to take additional science and other pre-requisite coursework for those programs.

Career Opportunities: The BS in NFS degree provides graduates with a wide variety of career opportunities. Foods and nutrition majors frequently work with athletes, weight control and fitness programs, or other special groups like WIC (Women, Infants & Children in community settings. Industries like hotels, airlines, universities, food service chains, and industrial cafeterias employ food service managers. Graduates can become food science technical specialists and conduct research, development and quality control of food products for food companies. It is also possible to use foods and nutrition knowledge for jobs in advertising, marketing and in the mass media. Students can become consultants to television programs, or write articles on food for newspapers. Students may take steps after graduation to enter a graduate didactic program in dietetics to become registered dietitians.

Note: This major is not a didactic program in dietetics (DPD) and does NOT prepare the student to become a registered dietitian.

Admission Requirements

Students planning to apply for admission to the School of Health Sciences Nutrition and Food Science track should attend a group orientation session for prospective students held several times throughout the year. Please see http://sph.cuny.edu/news-events/ for updates.

Students enter the program in the fall semester and can attend on a full-time or part-time basis during the day. The Appendix I: Hunter Core Requirement should be met before entrance into the NFS major. The requirements for admission into the NFS major are completion of 60 credits, including the following courses: two semesters of anatomy and physiology with lab BIOL 12000 and BIOL 12200; one semester of general chemistry with lab CHEM 10000 (STEM) and CHEM 10100; one semester of organic chemistry with lab CHEM 12000 (STEM) and CHEM 12100 (STEM); one semester of microbiology with lab BIOL 23000; one semester of statistics STAT 11300 or STAT 21300 (STEM); one semester of introductory food science NFS 13100; one semester of introductory nutrition NFS 14100. A grade of C or better must be earned in all science prerequisites, and a grade of B or better in the two nutrition and food science courses.

The prerequisite courses must be completed by the end of the summer session preceding entrance into the NFS major. An overall GPA (combined grade point average from all postsecondary institutions attended) of 2.8 is required for consideration. Because of the competitive nature of the applicant pool and the small size of the incoming class, the admission process may favor applicants with an overall GPA greater than 2.8.

All applicants, including those currently enrolled at Hunter College, must file a City University of New York (CUNY) Transfer (Advanced Standing) application. The application may be obtained at Hunter's 68th Street campus in the college's Welcome Center, Room 100 North Building, (212) 772-4490, online at http://admissions.hunter.cuny.edu, at CUNY's Office of Admission Services, 1114 Avenue of the Americas, New York NY 10036, (212) 997-2869 and at all CUNY campuses. You can also apply online at www.cuny.edu.
The transfer application and required supporting academic records must be mailed to the University Application Processing Center, PO Box 359023, Brooklyn, New York, 11235-9023 by March 1. Applications that arrive after March 1 are not given priority consideration and are processed on a space available basis. Applicants with completed applications by the deadline date can expect to be notified no later than May 1.

Students who have not completed the prerequisite course requirements to be considered for admission to the NFS major may wish to transfer to Hunter College as liberal arts and science students. These students should follow the same transfer admission process detailed above for the following year.

CUNY students with an earned AA or AS degree in fall 2003 and after are exempt from the Core requirements of the GER but must fulfill the graduation requirements of significant writing, and pluralism and diversity. Students must have successfully completed the other prerequisites before applying as a NFS major. Transfer students who have not earned a degree, or who have earned an associate degree from a non-CUNY institution are required to complete the Hunter GER requirements in order to graduate.

Requirements for Graduation with a BS in Nutrition and Food Science (120 credits)

**Hunter Core Requirement**

Several courses leading to or within this major may fulfill parts of the Hunter Core Requirement (CUNY Common Core [CCC], Hunter Focus, Concurrent Requirements). When selecting courses, it may be to a student's advantage to choose courses that count toward the Hunter Core Requirement and also advance the student on the path to the major. Details on the Hunter Core Requirement can be found here: Appendix I: Hunter Core Requirement

**Nutrition and Food Science Major Courses (24 cr)**

Prerequisite courses (open to non-majors)

**NFS 13100 - Food Science I**

Basic principles of the chemical and physical nature of foods, food sanitation and safety; the nutritional value of food in relation to storage, processing and preparation.
Open to all students.
3 hrs
3 cr.

**NFS 14100 - Nutrition**

Fundamentals of the science of nutrition as they apply to individuals and society.
Open to all students.
3 hrs
3 cr.

Open to majors only

**NFS 33300 - Nutrition Education**
Introduction to the theories and principles of the teaching-learning process in the field of nutrition. 
Open to NFS majors only and need department permission.

**prereq:** NFS 13100, 14100  
3 hrs  
3 cr.

**NFS 33500 - Institutional Management**

Overview of the theories, functions and tasks of management. Discussion of labor and effective methods for directing an operation with applications drawn from food service.  
Open to NFS majors only and need department permission.  

**prereq:** NFS 13100, 14100, ECO 10000  
3 hrs  
3 cr.

**NFS 34200 - Nutrition and Human Development**

Nutritional needs throughout the life cycle: pregnancy, infancy, childhood, adolescence, adulthood and later years.  
Open to NFS majors only and need department permission.  

**prereq:** NFS 13100, 14100  
3 hrs  
3 cr.

**NFS 40200 - Seminar in Nutrition and Food Science**

Research in nutrition and food science; examination of professional goals.  
Open to NFS majors only and need department permission.  

**prereq:** NFS 13100, 14100  
3 hrs  
3 cr.

**NFS 43500 - Food Service Systems**

The organization and administration of a food service operation from the systems approach on the tactical and strategic level, stressing learning activities and competencies required by the American Dietetic Association.  
Open to NFS majors only and need department permission.  

**prereq:** NFS 13100, 14100  
3 hrs  
3 cr.

**NFS 44100 - Community Nutrition**

Analysis of nutrition services, legislation and policy; role and function of community nutritionists; nutrition education in a community setting.  
Open to NFS majors only and need department permission.  

**prereq:** NFS 13100, 14100  
3 hrs  
3 cr.

**NFS 44351 - Practicum in Nutrition and Food Science**
Practicum in institutions, agencies, business and research firms; projects.
Open to NFS majors only and need department permission.

\textit{prereq:} NFS 13100, 14100
\textit{7 hrs (1 lec, 6 lab)}
\textit{3 cr.}

\textbf{COMHE 33000 - Principles of Epidemiology}

Methods of study of disease; risk factors; distribution, causes, prevention, and control of selected diseases.

\textit{prereq: Acceptance to the major, or permission of the instructor.}
\textit{3 hrs}
\textit{3 cr.}

\textbf{Bachelor of Social Work - BSW}

\textbf{Bachelor of Social Work (BSW)}

\textbf{About the Program}

The Silberman School of Social Work at Hunter College has launched its practice based BSW program. The BSW Program is open to full time, matriculated Hunter students, who currently have between 55 to 80 credits.

The BSW program offers Hunter students a two-year professional social work degree with a practice focus in Child Welfare or Care Coordination. The curriculum is robust, linking theory, concepts and evidence informed practice, through formal instruction and skills based structured field work. Students will learn the core skills of assessment, engagement, intervention, advocacy and documentation through a generalist practice lens. The BSW program will prepare students to become knowledgeable, caring, entry level social workers in the areas of Child Welfare and Care Coordination.

Hunter students must apply to the BSW degree program. If accepted into the program, students will be required to declare Social Work as their major. Students in the second year of the BSW program will complete 400 hours of Field Work in addition to the required social work courses. Students will also register for electives at the college, relevant to social work, and approved by the social work department, to complete the required 120 credits required for a Bachelor's degree.

\textbf{IMPORTANT: Please check the Hunter College School of Social Work website: http://sssw.hunter.cuny.edu/ssw/programs/bsw/ for up-to-date information.}

\textbf{Admissions Requirements}

Applications are completely online.

Students are admitted in the fall only.
Students must be full-time, matriculated students at Hunter.
Students will be considered for admission if they have between 55 and 80 credits and an overall GPA of 2.75.
Students must have taken and received a grade of B or better, in the Introduction to Social Work course SW 20100 or SOC 23100.

Transfer students must apply to Hunter College and be accepted as a Liberal Arts student in the previous fall from the semester they are applying to the BSW program. All associate degree holders may require an additional three years of full-time study at Hunter College to complete the BSW requirements.

Transfer students with an associate degree who graduated from a Human Services program, and received credit from Hunter for their Introduction to Social Work course may still be required to take the Introduction to Social Work course SW 20100, or a Social Work Practice review workshop with a required 32 hour, supervised volunteer social services assignment prior to admission. BSW advisers will meet with these applicants, and review transcripts on a case by case basis.

**Note:** BMCC Human Service program graduates, who have been accepted to Hunter as full-time students are not required to register for the Introduction to Social Work course SW 20100

### Required BSW Courses

**SW 31000 - Social Work Practice and Learning LAB I**

Social Work Practice Lab (PL) I, is the first part of a two-semester foundation course that introduces the BSW student to professional social work practice with individuals, families, groups, organizations and communities.

**prereq:** SW 20100 Introduction to Social Work

**coreq:** SW 33000 Human Behavior and the Social Environment I ; SW 32000 Social Work Policy I

3 hrs.

3 cr.

**fall only**

**SW 31100 - Social Work Practice and Learning LAB II**

Social Work Practice Lab (PL) II, is the second part of a two-semester foundation course and builds on the foundational issues and generalist practice approach in Social Work Practice Lab I.

**prereq:** SW 21000, SW 32000, SW 33000, SW 31000

3 hrs.

3 cr.

**spring only**

**SW 32000 - Introduction to Social Welfare Policy & Services**

Provides students with orienting knowledge and skills needed to examine social welfare policies and to understand their relevance to social service delivery and practice.

**prereq:** SW 20100

**coreq:** SW 31000, SW 33000

3 hrs.

3 cr.

**fall only**

**SW 33000 - Human Behavior in the Social Environment I**
Provides a foundation for students to make conceptual linkages between multiple formulations of the person-environment configuration in understanding the complexities of human behavior, while paying specific attention to both social diversity and human development.

prereq: SW 20100  
coreq: SW 31000, SW 32000  
3 hrs  
3 cr.  
fall only

**SW 33100 - Human Behavior in the Social Environment II**

Continuation of the two-semester course (SW 33000/33100). It builds on a foundation of knowledge on "human behavior in the social environment" for social work practice with individuals, families, groups, organizations and communities.

prereq: SW 20100, SW 33000  
coreq: SW 34000  
3 hrs  
3 cr.

**SW 34000 - Social Work Policy in Child Welfare**

This course is designed to help students understand the current and historical context of child welfare policies and programs in New York and the United States; the major issues in child welfare; policy frameworks; and services and practices in the child welfare arena.

prereq: SW 20100, SW 31000, SW 32000  
coreq: SW 31100, SW 33100  
3 hrs.  
3 cr.  
spring only

**SW 35000 - Social Work Policy II in Care Coordination**

An overview of health care and care coordination systems and policies, with a specific focus on the role of social workers in implementing care coordination services to aging, health and mental health clients.

prereq: SW 20100, SW 31000, SW 33000  
coreq: SW 31100, SW 33100  
prereq or coreq: SW 32000  
3 hrs.  
3 cr.  
spring only

**SW 41000 - Social Work Practice in Child Welfare I**

Social Work Practice in Child Welfare I is designed to help students apply the major psychological and sociological theories about attachment, trauma, and development; policy frameworks; and evidence-informed practices to Interventions and Services in child welfare.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 34000
SW 41100 - Social Work Practice in Child Welfare II

The 2nd semester of a year long practice course designed to help students apply the major psychological and sociological theories about attachment, trauma, and development; policy frameworks; and evidence-informed practices to Interventions and Services in child welfare.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 34000, 41000
coreq: SW 43100, 45100
3 hrs
3 cr.
spring only

SW 42000 - Social Work Practice in Care Coordination I

The first part of a two semester practice course. It is designed to help students apply the major psychological and sociological theories about illness, disease, policy frameworks, and evidence informed practices to care for older adults, the mentally ill and persons with chronic health issues.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 35000
coreq: SW 43000, 45000
fall only

SW 42100 - Social Work Practice in Care Coordination II

The second half of a two-semester practice course on Care Coordination. It deepens knowledge and skills of students learning how to apply psychological and sociological theories about illness, disease, policy frameworks, and evidence informed practice to care for older adults, mentally ill, and persons with chronic health issues.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000, 35000, 42000
coreq: SW 43100, 45100
3 hrs
3 cr.
spring only

SW 43000 - Integrative Seminar 1

This is the first part of a two-semester Integrative Seminar taken in conjunction with field placements. Students are taught how to use assessment, planning, intervention and evaluation paradigms to facilitate the application of skills and knowledge in direct social work practice with individuals, families and groups.

prereq: SW 20100, 31000, 31100, 33000, 31100, 32000; 34000 -or- 35000
coreq: SW 41000 -or- 42000; SW 45000
3 hrs
3 cr.
fall only
SW 43100 - Integrative Seminar 2

This is the second semester skills building Integrative Seminar taken in conjunction with field placements. The assessment, planning, intervention and evaluation paradigms are used to facilitate the application of skills and knowledge in direct social work practice with individuals, families and groups.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000; 35000 -or- 34000; 43000, 45000
coreq: SW 41100 -or- 42100; 45100
3 hrs
3 cr.
spring only

SW 44000 - Social Work Research

An introduction to basic research methods within the context of social work practice.

prereq: SW 20100, 31000, 31100, 33000, 33100, 32000; 34000 -or- 35000
3 hrs
3 cr.
fall only

Attendance Requirements

BSW program is a full time program. All courses and field work are offered only during the day. Students must attend on a full time basis. Courses are offered sequentially by semester, and must be taken in order.

- Classes in the first year of the program will be held on the Hunter main campus.
- Classes in the second year will be at the Silberman School of Social Work.

Grading Policy

BSW students will receive a letter grade for course work. A minimum overall GPA of 3.0 is expected to remain in good academic standing. Students who do not pass a continuing course - offered over two semesters, sequentially - will not be allowed to repeat the course until it is offered again in the curriculum sequence. Students will be allowed to repeat a course only one time.

Accreditation

The Silberman School of Social Work Bachelor in Social Work degree is accredited by the Council on Social Work Education (CSWE).

Bachelor of Science/Master of Arts - BS/MA

Medical Laboratory Sciences/Biological Sciences with Specialization in Biotechnology - BS/MA

Return to: Medical Laboratory Sciences
Qualified Hunter College seniors majoring in medical lab sciences in the School of Arts & Sciences may apply to the new BS/MA collaboration between the Department of Medical Laboratory Sciences and the Department of Biology. An intensive techniques workshop (Biol 61000 - see graduate catalog) is taken prior to graduation and upon successful completion, students may continue with professional internship, and the accelerated MA program.

Bachelor's Degrees

Music Bachelor's Degrees

Return to: Department of Music

- Music 25-Credit Major (BA)
- Music 42-Credit Major (BA)
- Music - BMus

Major Programs

The Department of Music offers three undergraduate and two BA/MA major programs to fit individual interests and requirements. Students must take three examinations before declaring a music major:

1. **Music notation, rudimentary theory, and basic musicianship skills.** This examination is prerequisite to MUSTH 22000 (Music Theory I).
   
   Students who do not pass it must take MUSTH 10100 (Music Theory Fundamentals) or learn the material on their own, then repeat the examination.

2. **Elementary music history and literature.** This examination is prerequisite to MUSHL 20500 (Music History I). Students who do not pass it must take MUSHL 10100 (Introduction to Music) or learn the material on their own, then repeat the examination.

3. **Performance audition on an instrument or voice.** This examination is prerequisite to MUSPF 40100 (Private Instruction in Instrument or Voice). Students whose performance skills fall below New York State School Music Association (NYSSMA) level 2, equivalent to about one year of study, must take MUSPF 21100-MUSPF 21200 (Voice I-II), MUSPF 21300-MUSPF 21400 (Piano III), or private lessons at their own expense (without credit), then repeat the examination. Students with no experience in performance may defer the audition until the end of their first semester of study.

   Prospective majors should consult the Music Department’s undergraduate adviser as soon as possible to discuss these examinations and any prerequisite courses they may need before beginning the major.

Piano Proficiency Requirement

All music majors must demonstrate elementary proficiency at the piano. Students should plan to fulfill this requirement during their first year of study. A passing grade on the piano proficiency examination is a prerequisite for the third semester of study in music theory (MUSTH 32000). Students entering Hunter with limited keyboard background may take MUSPF 21300-MUSPF 21400 (Piano I and II) for elective credit or private lessons in piano at their own expense. The Music Department office has a list of recommended piano teachers.

Minor in Music

The music minor consists of 15 credits in music:
MUSTH 10100 - Music Theory Fundamentals

**Hunter Core**
Creative Expression (CE)
GER
2/D

For non-majors. Introduction to music theory, sight singing, and ear training.
3 hrs
3 cr.

MUSHL 10100 - A Thousand Years of Listening

**Hunter Core**
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D

For non-majors. Selected compositions primarily from the European tradition studied with aim to develop perceptive listening.
3 hrs
3 cr.

-or-

MUSHL 10700 - The World of Music

**Hunter Core**
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/D

For non-majors. Introduction to music from a spectrum of world cultures, including Africa, Asia, and the Caribbean.
3 hrs
3 cr.

- one course with an MUSHL prefix at the 200-level; and 6 credits of music electives, 3 of which must be at the 200-level or higher.

Prospective minors who have already mastered the material taught in the required 100-level courses MUSTH 10100 and/or MUSHL 10100 or MUSHL 10700) may be exempted from these courses by passing the same entrance examination that is required of prospective music majors (see above). Music minors may substitute more advanced courses in any area of music study, including private lessons (subject to availability) and ensembles, for the courses from which they are exempt. PLEASE NOTE: Music minors who wish to take private lessons for credit (MUSPF 40100) must first pass both the performance audition and music theory portions of the entrance examination.

Grading Policies
Students must have grades of C or better in all prerequisite courses in order to take courses that are required for the major. The grade of CR may not be elected in major courses. In accordance with Hunter College policy, a course may not be taken more than twice without permission of the department.

Honors

To qualify for departmental honors in music, a student must have a 3.5 grade point average in major courses and complete an honors project, taken under the following course number. The project, which must be approved in advance by the Policy Committee, may be a research paper on a historical, theoretical, or other topic; an original composition; or a recital. All projects should demonstrate an advanced level, a broad scope, and a high quality, and must be done under the supervision of a faculty member of the Music Department.

**MUSTH 49100 - Honors Project**

Upper Jr/Sr only. Individual project of large scope in music history, theory, composition, or performance.

*prereq: minimum music GPA of 3.5, perm undergrad adviser*

1 sem
3 cr.

**MUSTH 49200 - Honors Project**

*prereq: MUSTH 49100*

1 sem
3 cr.

Graduate Study

Seniors of high academic standing who are recommended by the department may be permitted to take graduate courses for undergraduate credit. Seniors within 9 credits of graduation may apply to the Admissions Office for permission to take graduate courses creditable toward the MA degree.

Honors

**Thomas Hunter Honors Program**

Major

Students in the Thomas Hunter Honors Program who wish to design an interdisciplinary major for themselves may do so in consultation with the appropriate Council adviser. The final transcript of such students designates the major as "Special Honors Curriculum." Most students in the Thomas Hunter Honors Program, however, elect to fulfill the requirements for one or more specific departmental majors. These students abide by departmental criteria for the major, and are expected to pursue departmental honors in their major. Their final transcript records the major as Special Honors Curriculum/Specific Department. Whatever their major concentration, all students in the Program must also successfully complete three special interdisciplinary honors colloquia (see further on) and maintain a cumulative grade point average of 3.5 or better until their final certification into the Program. Certification usually occurs in the student's junior year, when the Council, ruling on each case individually, decides that the student's continuing academic distinction, commitment to interdisciplinary work, and promise of future productivity warrant permanent membership in the Thomas Hunter Honors Program.
Thomas Hunter Honors Program students meet regularly in 200-level and 300-level colloquia, led by members of the Council on Honors and by other invited members of the faculty. Students take a minimum of three colloquia, one of which must be at the 200-level, and one of which must be at the 300-level. While the specific content of these courses varies from semester to semester, the underlying principles remain the same.

The 200-level colloquium is taught by one professor, often a member of the Council on Honors, who studies a specific theme using the materials and methodologies of at least two disciplines. Students may take more than one of these colloquia if they so desire, but at least one must be taken during their first year in the Program. The 300-level honors colloquia are special seminars, usually conducted by two professors, devoted to topics lending themselves to broad interdisciplinary investigation. One of the required three colloquia must be a 300-level.

The colloquia offer breadth of exposure, but, even more importantly, they seek to demonstrate how knowledge gained from a variety of disciplines can be related and integrated in an effort to understand complex processes and phenomena. In all colloquia, students write at least one major paper, in which they apply the methodology of the course to material of particular interest to them.

Upon completion of 90 credits, Thomas Hunter Honors students may also be admitted by the Council to Advanced Interdisciplinary Studies, with the opportunity of engaging in advanced independent study under the Council's supervision. A thesis or other appropriate report of the results of the student's research is presented to the Council.

**Requirements**

**CUNY Common Core Creative Expression (CE) 1 Course**

Return to Appendix I: Hunter Core Requirement

**Creative Expression (CE) 1 Course**

**ARB 25000 - The Arab Novel (in translation) (W)**

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/C

A consideration of Arab novels as a source for understanding issues such as urbanization, war, imperialism, nationalism, gender, as well as the politics of translation.

*prereq: ENG 22000 or equiv.*

3 hrs
3 cr.

**ARB 25100 - Arab Cinema (in translation)**

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/D
This course will introduce students to the history of Arab Cinema through readings and weekly screenings of films from all over the Arab World.

**prereq:** ENGL 12000 or equivalent

3 hrs

3 credits

**DAN 10200 - Dance, Dancers and the Audience**

**Hunter Core**
Creative Expression (CE)

**Pluralism and Diversity**
GER 2/D

Lecture demonstration course designed to introduce students to the art of dance through analysis of history, dance style and socio-political underpinnings. This course includes participation in both lecture and movement sessions.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

**prereq:** minimum 12 cr.

3 hrs

3 cr.

**DAN 23200 - 20th-Century Dance History**

**Hunter Core**
Creative Expression (CE)

**Pluralism and Diversity**
PD/D

GER

2/D

Readings, lectures, films, discussions of 20th century ballet, modern, social and popular theatre dance forms; analysis of individual styles and cultural trends.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

3 hrs

3 cr.

**ENGL 25000 - Topics in Literature**

**Hunter Core**
Creative Expression (CE)

**Pluralism and Diversity**

PD/A or B or C or D

GER

2/C

Specific critical and thematic approaches to selected works of literature written in English. Course may be taken twice if the topic differs, but not more than twice. Some topics in ENGL 250 satisfy PD requirements in categories A, B, C, or D. Check in the schedule of classes and with an undergraduate adviser.

**prereq:** ENGL 22000

3 hrs

3 cr.
ENGL 25100 - Topics in Literature

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/C

Specific critical and thematic approaches to selected works of literature written in English. Course may be taken twice if the topic differs, but not more than twice. Some topics in ENGL 250 satisfy PD requirements in categories A, B, C, or D. Check in the schedule of classes and with an undergraduate adviser.

prereq: ENGL 22000

3 cr.

FILM 10100 - Introduction to Cinema

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D

Fundamental concepts of film and discussion of major critical systems. Screening of relevant films.
3 hrs
3 cr.

GERMN 24100 - German Fairy Tales in Translation (W)

Hunter Core
Creative Expression
Pluralism and Diversity
PD/D
GER
2/C

Reading and discussion of traditional and literary fairy tales of Germany. Cross-cultural comparison of various fairy-story traditions; development of motifs through various ages and cultures. (Conducted in English) Note: No knowledge of German required.

prereq or coreq: ENGL 12000
3 hrs
3 cr.
*No "W" designation when offered in Winter Session

HUM 20100 - Explorations in the Arts

Hunter Core
Creative Expression (CE)
GER
2/D
Introduction to temporal and spatial arts with special emphasis on theatre, film, music, and visual arts. Focus on principles they share as well as on their distinguishing features. Attendance at artistic events in NYC.

**MHC 10000 - MHC Seminar 1, The Arts in New York City (W)**

*Hunter Core*
Creative Expression (CE)
Fulfills GER 2D, Visual and Performing Arts: Media, Art, Dance, Film, Music, Theatre
*prereq: Open to Macaulay Honors College students only*
3 hours
3 credits

**MUSHL 10100 - A Thousand Years of Listening**

*Hunter Core*
Creative Expression (CE)
*Pluralism and Diversity*
PD/D
GER
2/D

For non-majors. Selected compositions primarily from the European tradition studied with aim to develop perceptive listening.
3 hrs
3 cr.

*Hunter Core*
Creative Expression (CE)
*Pluralism and Diversity*
PD/A
GER
2/D

For non-majors. Introduction to music from a spectrum of world cultures, including Africa, Asia, and the Caribbean.
3 hrs
3 cr.

**MUSTH 10100 - Music Theory Fundamentals**

*Hunter Core*
Creative Expression (CE)
GER
2/D

For non-majors. Introduction to music theory, sight singing, and ear training.
3 hrs
3 cr.
RUSS 25300 - Russian Theater in English Translation (W)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/C

Development of Russian drama and theater from early 19th century to present. Griboedov, Chekhov, Pushkin, Gogol and others.
prereq: ENGL 12000
3 hrs
3 cr.

RUSS 29500 - The Vampire in Lore and Literature (W)

Hunter Core
Creative Expression (CE)
GER
2/C

Comparative study of the vampire in various folk and literary traditions from ancient Greece to the 21st century. Characteristics of vampires and their kith and kin in folklore and in classical antiquity. Eastern and Western European vampires in folklore and popular culture; their reinterpretation in literature and basis for their popularity. Readings include J. Sheridan Le Fanu, Bram Stoker, Nicholas Gogol, A.K. Tolstoi, Anne Rice, and others. The vampire tradition in films from Murnau's Nosferatu, to Coppola's Dracula, to Hardwicke's Twilight.

prereq: ENGL 22000
3 hrs
3 cr.

THEA 10100 - Introduction to Theatre

Hunter Core
Creative Expression (CE)
GER
2/D

Study of elements of theatre arts acting, directing, playwriting, design from standpoints of both viewer and participant.
3 hrs
3 cr.

THEA 21100 - World Theatre I (W)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/C
Survey of international theatre from its pre-Greek origins to the Spanish Golden Age.

*prereq: ENGL 12000, THEA 10100
3 hrs
3 cr.

**THEA 21200 - World Theatre II (W)**

**Hunter Core**
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/C

Survey of international theatre from the Elizabethan period to Wagner.

*prereq: ENGL 12000, THEA 10100
3 hrs
3 cr.

**THEA 21300 - World Theatre III (W)**

**Hunter Core**
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/C

Survey of international theatre from 19th-century Naturalism to the present day.

*prereq: ENGL 12000, THEA 10100
3 hrs
3 cr.

**CUNY Common Core by Department**

return to: Appendix I: Hunter Core Requirement

Students may take no more than two courses from one department or program to fulfill categories A2 (English Composition 2) through H.

**Africana and Puerto Rican/Latino Studies**

**AFPRL 10000 - Introduction to Black Politics**

**Hunter Core**
Individual and Society (Social Sciences) -I&S SS
Pluralism and Diversity
PD/B
GER
2/B
General survey of politics of African world with major emphasis on politics in Black America.

*AFPRL 10300 - Conquest and Resistance: Puerto Rican Experiences in Comparative Perspective*

**Hunter Core**
Individual and Society (Social Sciences) -I&S SS
Pluralism and Diversity
PD/B
GER
2/B

Introductory study of the Puerto Rican experience compared with experiences of Native and African Americans, Chicanos and Pacific Island peoples in the territorial expansion of the United States.

*AFPRL 18100 - Language and Ethnic Identity*

**Hunter Core**
Individual and Society (Social Sciences) -I&S SS

*AFPRL 18200 - Culture and Ethnic Identity*

**Hunter Core**
World Culture and Global Issues (WCGI)

*AFPRL 20100 - African History from Human Origins to 1600 CE*

**Hunter Core**
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

African history from ancient times with emphasis on endogenous African development of civilizations and complex economic, technological and cultural systems over time.

*AFPRL 20200 - African History Since 1600 CE*

**Hunter Core**
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B
Main currents of African history from 1600 CE to present
3 hrs

**AFPRL 20500 - African American Politics of Social Change**

**Hunter Core**
- Individual and Society (Social Sciences) -I&S SS

**Pluralism and Diversity**
- PD/B
- GER
- 2/B

The Civil Rights Movement and social change in U.S. Since 1954.
3 hrs
3 cr.

**AFPRL 20900 - Introduction to Caribbean History to 1900**

**Hunter Core**
- World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
- PD/A
- GER
- 2/B

Introduction to the major themes in Caribbean history to 1900.
prereq: ENGL 12000
3 hrs
3 cr.

**AFPRL 21000 - Introduction to Caribbean History: 1900 - Present**

**Hunter Core**
- World Culture and Global Issues

**Pluralism and Diversity**
- PD/A
- GER
- 2/B

Introduction to the major themes in Caribbean history after 1900.
prereq: ENGL 12000
3 hrs
3 cr.

**AFPRL 22200 - African Civilization**

**Hunter Core**
- World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
- PD/A
**GER 2/C**

Introduction to study of African civilization.

*3 hrs*

*3 cr.*

**AFPRL 23800 - Introduction to the Literature of the African Diaspora (W)**

**Hunter Core**

- English Composition (EC)
- Pluralism and Diversity
- GER 2/A

Introduction to a cross-section of texts that contribute to the creation and development of an African Diaspora literary tradition.

*prereq: ENGL 12000*

*3 hrs*

*3 cr.*

**AFPRL 24300 - Puerto Rican Culture**

**Hunter Core**

- World Culture and Global Issues (WCGI)
- Pluralism and Diversity
- GER 2/C

General study of Puerto Rican culture and ethnic mixtures that went into making of that culture.

*3 hrs*

*3 cr.*

**Anthropology**

**ANTHC 10000 - Cultural Diversity in the United States: Historical and Ethnographic Perspectives (W)**

**Hunter Core**

- US Experience in its Diversity (USED)

Introduction to the critical and comparative study of cultural diversity in the United States.

*prereq: ENGL 12000*

*3 hrs*

*3 cr.*

**ANTHC 10100 - Introduction to Cultural Anthropology**
**Hunter Core**
Individual and Society (Social Sciences) - I&S SS

**Pluralism and Diversity**
PD/A
GER
2/B

Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.

3 hrs
3 cr.
offered every sem.

**ANTHC 12600 - Introduction to Prehistoric Archaeology**

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.

3 hrs
3 cr.
offered every sem.

**ANTHC 15100 - Introduction to Linguistics**

Hunter Core
World Cultures and Global Issues (WCGI)
GER
2/B

Structure and analysis of human languages; language history; language in society, culture and mind; language universals.

3 hrs
3 cr.

**ANTHP 10100 (STEM) - Human Evolution**

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.

6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

**ANTHP 10500 - The Human Species**
Hunter Core
Life and Physical Sciences (LPS)
GER
2/E

In this course we examine human biology and behavior from an evolutionary perspective, comparing our anatomy, physiology, and behavior to those of living primates and other mammals. We will discuss the relative roles of genes ("nature") and environment ("nurture"), the biological basis of behavior, local biological adaptations evident in modern human populations, growth and development, and diet and disease. Students will actively engage in the development of scientific hypotheses, data collection, and data synthesis analysis, as part of laboratory research experiences throughout the semester. Material covered will help prepare students to understand and evaluate recent advances in genetics, behavioral studies, medicine, and evolution

3 hrs
3 cr.

Art

ARTH 11100 - Introduction to History of Art

Hunter Core
Individual and Society (Humanities) -I&S H
Pluralism and Diversity
PD/D
GER
2/D

Changing forms and subjects of art in several periods of Western civilization, including ancient Greece and Rome, Middle Ages in Western Europe, Renaissance, baroque, modern, American; also Islamic and African art.

3 hrs
3 cr.

Asian American Studies

ASIAN 23002 - Asian American Communities and Mental Health

Hunter Core
Individual and Society (Social Sciences) -I&S SS
Pluralism and Diversity
PD/B
Introduction to psychological experiences of Asian Americans, including historical, sociopolitical, and cultural influences that shape personality and mental health. Specific topics include stereotypes and racism, processes of acculturation and enculturation, ethnic identity development, interracial relationships, stressors and social support systems within Asian American communities, and culturally competent mental health treatment and service delivery.

3 hrs
3 credits

Biology

BIOL 10000 (STEM) - Principles of Biology I
The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.

Material Fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: MATH 12500, CHEM 10200

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

spring only

**BIOL 10200 (STEM) - Principles of Biology II**

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.

Material fee: $5

PD credit awarded only upon completion of BIOL 10000 and 10200.

prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.

7 hrs (3 lec, 3 lab, 1 disc)

4.5 cr.

fall only

**BIOL 10500 - Introduction to Genome Biology**

A genome is the total genetic content of an organism. Driven by breakthroughs such as the decoding of the first human genome and rapid DNA-sequencing technologies, biomedical sciences are undergoing a rapid and profound transformation into a highly data-intensive field, which requires familiarity with concepts in both biology and computer science. Genome information is revolutionizing virtually all aspects of biology and medicine and will lead to major advances such as more efficient production of renewable energy, better cures for cancers, and longer and healthier life expectancy. This course will introduce genome-sequencing technologies, explore hundreds of genome projects online, and discuss both the benefits and challenges (e.g., ethical and legal) of the genomic revolution to society.

3 hrs.

3 cr.
Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E w/ lab

An introductory lecture/laboratory course for non-biology majors. BIOL 12500 explores the biology that underlies current health and disease topics (including diabetes, cancer, heart disease, sexually transmitted diseases, and nutrition). Using this topics approach, the course provides a survey of human anatomy and physiological function, along with the biological principles of genetics and cellular interactions that comprise our current understanding of the human organism. Laboratory exercises will introduce students to a scientific approach in studying human disease and physiology.

6 hrs
4.5 cr.
spring only

BIOL 15000 (STEM) - CSI: HUNTER (Forensic Biology)

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
GER 2/E with lab

An introductory laboratory course for non-biology majors. This lecture/laboratory course will cover the techniques used by forensic scientists to analyze a crime scene, and the biological concepts behind them. Through the topics that are covered, students will learn how biological evidence like fingerprints, hair, blood, and DNA are collected, analyzed, and presented as evidence to solve crimes.

Required for this course is a 10 minutes PowerPoint presentation in groups in four students. In order to prepare for the presentation, a two page outline from each student is expected. In addition, a group assignment of less than 5 pages long will be assigned as preparation of the presentation. This assignment helps students prepare for a "crime scene" that will be designed by the group using the topics and materials provided in class. Further research for this project is encouraged using library materials or the WWW to provide supplemental information, ideas and images. The laboratory component of the course requires that students record their data, observations, and answer discussion questions (in a short answer format). The completion of their laboratory manual will constitute part of the laboratory grade.

6 hrs
4.5 cr.
fall only

BIOL 17500 - Choreographing Genomics

Hunter Core
Scientific World (SW)

This course uses postmodern dance to model biological processes. It is an introductory biology course for non-majors studies in the biological science of molecular genome information through readings, quantitative assignments, movement exercises and artistic lenses. Students explore a detailed examination of heredity and cancer with a focus on contributions of DNA. Students are expected to articulate gene information flow through problem solving, written assignments, oral contributions, and movement forms. Topics covered include the definition of a gene, recombination of genes, the central dogma of genetic flow in a biological system, the 1:1 Pair Rule (Chargaff's rules), DNA sequencing, functional genomics and the relationships of genes to cancer and heredity, as well as ethical issues in medicine.

Each student is in charge of their own body and must recognize that they will have to use their body for assignments and in class participation work.
Students will be required to talk and move in class (comfortable clothes, flat shoes or bare feet, and a yoga mat are required).
Students will have reflective assignments that include written work.
Students will be required to develop visual and movement-based models.

**prereq:** MATH 10100

3 hrs

3 cr.

**spring only**

### Chemistry

**CHEM 10000 (STEM) - Essentials of General Chemistry Lecture**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**GER**
GER 2/E

Essential facts, laws, and theories of general chemistry.

Primarily for nursing, nutrition and food science and community health education students.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

4 hrs (3 lec, 1 rec)

3 cr.

**CHEM 10100 - Inquiries into the Nature of Matter**

**Hunter Core**
Life and Physical Sciences (LPS)

**GER**
GER 2/E

A laboratory-based introduction to chemistry for non-science and health science majors that focuses on the basic principles of matter, energy and the environment. CHEM 10100 satisfies the laboratory requirements for a one-semester general chemistry course for health science students.

Primarily for nursing, nutrition and food science and community health students.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

3 hrs

3 cr.

**CHEM 10200 (STEM) - General Chemistry I**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)

**GER**
2/E
In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10300 (STEM) - General Chemistry Laboratory I

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
Pluralism and Diversity
GER 2/E
Study of experiments designed to illustrate fundamental laws and techniques of chemistry.

Core credit awarded only if CHEM 10200 (STEM) and CHEM 10300 (STEM) are completed. Primarily for pre-med, medical laboratory sciences and science majors.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: CHEM 10200
4 hrs (3 lab, 1 rec)
1.5 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E
In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10500 (STEM) - General Chemistry Laboratory II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
Pluralism and Diversity
GER 2/E
Laboratory experiments illustrating and applying theory of solutions to qualitative analysis.
Offered for transfer students who have completed only one semester of General Chemistry Laboratory.
prereq: One semester of General Chemistry Laboratory.
prereq or coreq: CHEM 10400
CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 11100 (STEM) - Chemical Principles

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
GER 2/E
In-depth introduction to chemical principles including measurement, stoichiometric calculations, inorganic nomenclature, gas laws, equilibrium, acids, bases and buffers. Emphasis is placed on problem-solving, oral presentations, and collaborative work. Laboratory and coursework emphasize analysis and evaluation of data.
Primarily for pre-med, medical laboratory sciences and science majors.

Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500 or equiv, MATH 12600
9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)
5.5
offered fall

CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)

GER
2/E
The study of quantum theory, atomic structure, periodic properties of the elements, kinetics, electrochemistry, and thermodynamics.
Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 11100
9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)
5.5
offered spring
CHEM 12000 (STEM) - Essentials of Organic Chemistry Lecture

Hunter Core
Life and Physical Sciences (LPS): Scientific World (SW)
Pluralism and Diversity
GER 2/E
Course presents essential facts, laws and theories of organic chemistry.

Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health education students.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10000
4 hrs (3 lec, 1 rec)
3 cr.

CHEM 12100 (STEM) - Essentials of Organic Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E
Experiments designed to illustrate fundamental laws and techniques of organic chemistry.

Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health students.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10100
prereq or coreq: CHEM 12000
3 hrs (3 lab)
1.5 cr.

**Hunter Core**  
World Culture and Global Issues (WCGI)  
**Pluralism and Diversity**  
PD/D  
**GER**  
3/A
Students will be introduced to basic concepts of literature and folklore to increase, through a comparative study, their understanding and appreciation of both art forms. Works in English of major Russian writers such as Pushkin, Gogol and Pilnyak will be read in juxtaposition with folklore genres in search of how literary texts mirror folklore subjects. European, African and South American literature and folklore will be introduced or comparative purposes.

prereq: ENGL 12000
3 hrs
3 cr.

RUSS 29500 - The Vampire in Lore and Literature (W)

Hunter Core
Creative Expression (CE)
GER
2/C

Comparative study of the vampire in various folk and literary traditions from ancient Greece to the 21st century. Characteristics of vampires and their kith and kin in folklore and in classical antiquity. Eastern and Western European vampires in folklore and popular culture; their reinterpretation in literature and basis for their popularity. Readings include J. Sheridan Le Fanu, Bram Stoker, Nicholas Gogol, A.K. Tolstoi, Anne Rice, and others. The vampire tradition in films from Murnau's Nosferatu, to Coppola's Dracula, to Hardwicke's Twilight.

prereq: ENGL 22000
3 hrs
3 cr.

RUSS 29600 - Vladimir Nabokov Between Two Cultures

Hunter Core
Creative Expression (CE)
GER
3/A

Nabokov as a bilingual writer, including major works originally written in Russian and in English: Priglashenie na kazn' (Invitation to a Beheading); Dar (The Gift); Drugie Berega (Other Shores); Speak, Memory; Pnin; Lolita and Pale Fire.

prereq: ENGL 22000 or perm dept.
3 hrs
3 cr.

ARB 10100 - Beginning Arabic I

Hunter Core
World Culture and Global Issues (WCGI)
The goal of this course is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination.

This class is not for native speakers. ARB 10100 usually not credited without ARB 10200. For details about credit
policy look here: Appendix II: Foreign Language Requirement

3 hrs
3 cr.

**ARB 14800 - Beginning Arabic for Heritage Speakers**

**Hunter Core**
World Culture and Global Issues (WCGI)

This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academia. The course is not open to students who have taken the ARB 10100-30200 sequence.

*prereq: perm of division head*

3 hrs
3 cr.

**ARB 25000 - The Arab Novel (in translation) (W)**

**Hunter Core**
Creative Expression (CE)

**Pluralism and Diversity**

PD/A

**GER**

2/C

A consideration of Arab novels as a source for understanding issues such as urbanization, war, imperialism, nationalism, gender, as well as the politics of translation.

*prereq: ENG 22000 or equiv.*

3 hrs
3 cr.

**ARB 25100 - Arab Cinema (in translation)**

**Hunter Core**
Creative Expression (CE)

**Pluralism and Diversity**

PD/A

**GER**

2/D

This course will introduce students to the history of Arab Cinema through readings and weekly screenings of films from all over the Arab World.

*prereq: ENGL 12000 or equivalent*

3 hrs
3 credits

**ARB 25300 - Literatures and Cultures of Muslim Spain (W)**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
A survey of the literary and cultural history of Muslim Spain, 8th - 15th century C.E.

*prereq: ENGL 12000 or equivalent*

3 hrs

3 credits

**ARB 25400 - The Arabian Nights East and West (W)**

**Hunter Core**
Creative Expression (CE)

**Pluralism and Diversity**
PD/A

GER 2/C

The course studies not only the stories of the Arabian Nights (1001 Nights), but also the history of the translation and adaptation of the Nights into European languages.

*prereq or coreq: ENGL 12000 or equivalent*

3 hours

3 credits

**ARB 25500 - Modern Palestinian Culture**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**

PD/A

War and trauma shape modern Palestinian identities as evident in narratives of diaspora and return, nationalism, and militarism. This class introduces and explores the intersections of Palestinian national aspirations and Palestinian fiction, poetry, and film. There will be a focus on geography, as land and borders play a central role in the conflict. In addition, the class will include discussion of the following topics: Jerusalem; the Green Line; colonialism; 1948; 1967; refugees, diaspora and return; nationalism; resistance; and violence and militarism.

3 hrs

3 cr.

**ARB 25600 - Modern Arab Theatre**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**

PD/A

Welcoming students of any major or background, this course opens an angle on to culture and society in the Arab world through the lens of drama and theatre. Some themes covered: prison, political critique, heritage, and women/gender.

3 hrs
3 cr.

JPN 25100 - Japanese Culture Before 1600

Pluralism and Diversity
PD/A
GER
2/C

Covering many facets of Japanese culture, this course will focus on the various periods of Japanese history (Jomon, Yayoi, Kofun, and Heian – to name a few) and uncover how many aspects of Japanese culture were shaped. From the influence from nearby countries – most notably China – to its isolationist periods, its mythology, the evolution of its art, the deep-seated love of nature shared by many Japanese, and the co-existence of multiple belief systems, Japan is a truly unique country whose culture continues to gain in popularity within the United States. Taught entirely in English.

While this is a two-part course, Japanese Culture Before 1600 (JPN 25100) will not act as a prerequisite for Japanese Culture Since 1600 (JPN 25200).

prereq: ENGL 120

Computer Science

CSCI 12000 - Introduction to Computers

Intended for non-majors. Basic concepts of computer technology. Principles of hardware operation, software and networking. Roles of computers in society, including ethical and legal issues. This course cannot be counted towards the CSCI major  
prereq: none  
3 hrs  
3 cr.

CSCI 12100 - Computers and Money: Quantitative Reasoning in Context

Quantitative reasoning tackled from a computer based perspective and focusing on practical financial topics-stocks, gambling, inflation, diversification, taxes, hedging, saving, real estate, retirement and others. Students take a hands-on, spreadsheet-based approach to understanding issues of money and personal finance.
This course cannot be counted towards the CSCI major.

**prereq: none**

3 hrs

3 cr.

**CSCI 12700 - Introduction to Computer Science**

**Hunter Core**
Scientific World (SW)

**GER**
2/E (Non lab course)

A technical introduction to computer science. Organization of hardware, software, information and an introduction to programming. This course is meant for: potential computer science majors who may not be prepared for CSCI 13500; science majors who need some basic computer knowledge; and non-CSCI majors who want a more rigorous introduction to the field than CSCI 120 provides. May not be used toward the CSCI major or minor.

**prereq or coreq:** MATH 12100, 12500 or 15000

3 hrs

3 cr.

**CSCI 13200 - Practical UNIX and Programming, with Lab**

**Hunter Core**
Scientific World (SW)

**GER**
2/E

An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition. This course cannot be counted towards the CSCI major.

**prereq: none**

3 hrs

3 cr.

**CSCI 13300 - Programming for Everyone**

**Hunter Core**
Scientific World (SW)

**GER**
2/E

A comprehensive practical course in programming that concentrates on producing working software for games, simulations, animations, data manipulations, interacting with the Internet, graphical user interfaces and many other application areas. No programming experience is necessary. This course is required for Computer Science minors. This course does **not** count toward the computer science major.

GER
2/C

Social, political, and economic factors that determine and shape products of media organizations.
3 hrs
3 cr.

Geography

GEOG 10100 - People and Their Environment

Hunter Core
Individual and Society - Social Science
GER
2/B

A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life. Contemporary economic, political and social patterns and problems are discussed.

3 hrs
3 cr.
offered fall and spring.

PGEOG 13000 (STEM) - Weather and Climate

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant
environmental issues of our time.

Material Fee: $5
5 hrs (3 lec, 2 lab)
4 cr.
Offered in the Fall and Spring

**GEOL 10000 - Introductory to Geology**

**Hunter Core**

Scientific World (SW)

**GER**

2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

**GEOL 10100 - Introductory Geology Lab**

**Hunter Core**

Life & Physical Sciences

**GER**

2/E

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.

3 hrs.
3 cr.

**GEOL 10500 - Introduction to Environmental Geoscience**

**Hunter Core**

Scientific World (SW)

**GER**

2/E (Non lab course)

Introduction to environmental geoscience focusing on aspects of global change and the interrelationship of earth systems. Review of the evolution of the earth from its origins to potential future developments; environmental problems and issues.

prereq: ENGL 12000
3 hrs
3 cr.

**GEOL 18000 - Introduction to Oceanography**
Hunter Core
Scientific World (SW)
GER
2/E

An introduction to the subject of oceanography. We will discuss the physical, chemical, biological and geological aspects of the oceans; learn about the structure and motion of the atmosphere and how they all influence ocean circulation; and we will learn about waves, tides and tsunamis, the carbon cycle and how the ocean influences the Earth's climate system. In addition to providing a good introduction to aspects of the scientific world, it is a foundational course for Environmental Studies, Geography and BA/MA Earth Science Education majors.

prereq: Prerequisite: Math Proficient and Reading Proficient/Non degree students
3 hrs
3 cr.
Offered fall and spring

German

GERMN 10100 - Elementary German I

Hunter Core
World Culture and Global Issues (WCGI)
Practice in 4 basic skills of speaking, reading, writing and comprehending German. For beginners.
GERMN 10100 not usually credited without GRMN 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.
3 hrs
3 cr.

GERMN 24100 - German Fairy Tales in Translation (W)

Hunter Core
Creative Expression
Pluralism and Diversity
PD/D
GER
2/C

Reading and discussion of traditional and literary fairy tales of Germany. Cross-cultural comparison of various fairy-story traditions; development of motifs through various ages and cultures.
(Conducted in English) Note: No knowledge of German required.
prereq or coreq: ENGL 12000
3 hrs
3 cr.
*No "W" designation when offered in Winter Session

History

HIST 11100 - World History to 1500

Hunter Core
World Culture and Global Issues (WCGI)
**Pluralism and Diversity**
PDA  
GER  
2/B

The rise of civilizations; technological and intellectual breakthroughs; classical cultures and empires; interregional connections; the spread of civilization across the globe.  
Courses at the 300-level and above not offered to freshmen.  
3 hrs  
3 cr.

**HIST 11200 - World History from 1500 to the Present**

**Hunter Core**  
World Culture and Global Issues (WCGI)  
GER  
2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world.  
Courses at the 300-level and above not offered to freshmen.  
3 hrs  
3 cr.

**HIST 12100 - Early Modern Europe 1500 to 1815**

**Hunter Core**  
World Culture and Global Issues (WCGI)  
Pluralism and Diversity  
PDA  
GER  
2/B

Transition from feudal society to national states; religious upheavals, expansion up to the French revolutionary era  
Courses at the 300-level and above not offered to freshmen.  
3 hrs  
3 cr.

**HIST 12200 - 19th and 20th Century Europe (W)**

**Hunter Core**  
World Culture and Global Issues (WCGI)  
Pluralism and Diversity  
PDA  
GER  
2/B

Scientific and industrial revolutions, liberalism, imperialism, socialism and fascism, total war, reconstruction.  
Courses at the 300-level and above not offered to freshmen.  
prereq or coreq: ENGL 12000
HIST 15100 - The United States from the Colonial Era to the Civil War (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War. Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 15200 - The United States from the Civil War Era to the Present (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the Civil War to the present. Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 20800 - History of the Jews

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

An introductory survey emphasizing how Jewish communities adapted to a wide range of environments during more than 3000 years of world history.
prereq or coreq: ENGL 12000
3 hours
3 credits

HIST 27700 - East Asia to 1600

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B
Survey of traditional cultures and sociopolitical structures of China, Japan, Korea and Vietnam to about 1600 AD. Courses at the 300-level and above not offered to freshmen.

3 hrs  
3 cr.

HIST 27800 - East Asia, 1600 to the Present

Hunter Core  
World Culture and Global Issues (WCGI)  
Pluralism and Diversity

PD/A  
GER  
2/B

Coming of West to Asia and resulting processes of revolution and modernization after 1600 AD. Courses at the 300-level and above not offered to freshmen.

3 hrs  
3 cr.

Humanities

HUM 11000 - Map of Knowledge (W)

GER  
2/C

Introduction to range of knowledge available in the curriculum. Discusses subject matter and methodology of various disciplines as well as their relations within and across the curriculum to aid students in making intelligent choices in their course of study.

3 hrs  
3 cr.

HUM 20100 - Explorations in the Arts

Hunter Core  
Creative Expression (CE)

GER  
2/D

Introduction to temporal and spatial arts with special emphasis on theatre, film, music, and visual arts. Focus on principles they share as well as on their distinguishing features. Attendance at artistic events in NYC.

3 hrs  
3 cr.

Macaulay Honors College

MHC 10000 - MHC Seminar 1, The Arts in New York City (W)
**Hunter Core**

**Creative Expression (CE)**
Fulfills GER 2D, Visual and Performing Arts: Media, Art, Dance, Film, Music, Theatre

*prereq: Open to Macaulay Honors College students only*

3 hours
3 credits

---

**MHC 15000 - MHC Seminar 2: Peopling of New York (W)**

**Hunter Core**

Individual and Society (Social Sciences) - I&S SS
Fulfills GER 2B, Social Science: People and Their Societies.

*prereq: Open only to Macaulay Honors College students.*

3 hours
3 credits

---

**MHC 20000 - MHC Seminar 3: Science and Technology (W)**

**Hunter Core**

Scientific World (SW)

**GER**

GER 3B

*prereq: Macaulay Honors College only. ENGL 12000; MHC 15000 or its equivalent at another CUNY Honors College campus*

3 hours
3 credits

---

**Mathematics and Statistics**

**MATH 10000 - Basic Structures of Mathematics**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

GER 1/B

Not open to students who have received credit for any math or stat course that satisfies the GER 1/B requirement. Not recommended for students majoring in mathematics, statistics, computer science, or natural sciences. Symbolic logic, sets, number systems, relations and operations and topics in probability and statistics. This course is a terminal course and does not serve as a prerequisite to any other course in the department

*prereq: CUNY Math Proficiency*

3 hrs
3 cr.

---

**MATH 10200 - Mathematics and Everyday Life**

**Hunter Core**

Math/Quantitative Reasoning

**GER**

1/B
Students will learn how to model real world problems with mathematics, and learn techniques for solving them. Topics include personal finance, statistical reasoning, probability, exponential growth, and voting theory.

**prereq:** CUNY Math Proficiency

3 hours

3 credits

**MATH 10400 (STEM) - Mathematics for Elementary Education I**

**Hunter Core**
Math/Quantitative Reasoning

GER

1/B

Fundamental and relevant mathematics as recommended by the NCTM for prospective elementary school teachers, including problem solving, sets, logic, numeration, computation, integers and number theory. Required of students planning to teach in elementary schools. Not open to other students.

**prereq:** grade of C or better in MATH 10100 or appropriate score on the placement exam

3 hrs

3 cr.

**MATH 12500 (STEM) - Precalculus**

**Hunter Core**
Math/Quantitative Reasoning

GER

1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.

**prereq:** grade of C or better in MATH 10100 or appropriate score on placement exam

4 hrs

4 cr.

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

**Hunter Core**
Math/Quantitative Reasoning

GER

1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

**prereq:** grade of C or better in MATH 12500 or appropriate score on placement exam.

4 hrs

4 cr.

**MATH 15500 (STEM) - Calculus with Analytic Geometry II**

**Hunter Core**
Math/Quantitative Reasoning

GER
Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

prereq: grade of C or better in MATH 15000

4 hrs
4 cr.

STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: ENGL 12000

3 hrs
3 cr.

STAT 21200 - Discrete Probability

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

prereq: MATH 12500 or STAT 11300 or appropriate score on placement exam.

3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.

3 hrs
3 cr.
Music

MUSHL 10100 - A Thousand Years of Listening

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/D
GER
2/D

For non-majors. Selected compositions primarily from the European tradition studied with aim to develop perceptive listening.

3 hrs
3 cr.

MUSHL 10700 - The World of Music

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/D

For non-majors. Introduction to music from a spectrum of world cultures, including Africa, Asia, and the Caribbean.

3 hrs
3 cr.

MUSTH 10100 - Music Theory Fundamentals

Hunter Core
Creative Expression (CE)
GER
2/D

For non-majors. Introduction to music theory, sight singing, and ear training.

3 hrs
3 cr.

Philosophy

PHILO 10100 - Introduction to Philosophy

Hunter Core
Individual and Society (Humanities) -I&S H
GER
2/C

Examination of basic philosophical questions through study of selected philosophical classics.
PHILO 10400 - Introduction to Ethics

Hunter Core
Individual and Society (Humanities) - I&S H
GER
2/C

Examination of standards of right conduct and the good life through study of selected philosophical classics.

PHILO 10600 - Philosophy, Politics and Society

Hunter Core
Individual and Society (Social Sciences) - I&S SS
Pluralism and Diversity
PD/D
GER
2/C

Introduction to social and political philosophy.

PHILO 17000 - Introduction to Logic and Scientific Method

Hunter Core
Scientific World
An introduction to logical analysis and evaluation, especially applied to scientific arguments. Recognizing arguments and their support structure; evaluating reliability of sources vouching for premises; elementary deductive formal logic; evaluation of arguments central to empirical science.

PHILO 20400 - Great Philosophers

Hunter Core
Individual and Society (Humanities) - I&S H
Pluralism and Diversity
PD/D
GER
2/C

A comprehensive study of major philosophical thinkers.

prereq: ENGL 12000
Physics

ASTRO 10000 - Basic Concepts in Astronomy

Hunter Core
Scientific World (SW)
GER
2/E

This is an introductory, one-semester astronomy course designed for non-science majors. The approach in this course is to emphasize the ideas of Astronomy and a qualitative understanding of the physical processes that shape the Universe.

3 hrs
3 cr.

ASTRO 10200 - Laboratory Explorations in Astronomy

Hunter Core
Life and Physical Sciences (LPS)
GER
2/E

This is an introductory, one-semester astronomy course designed for non-science majors. The approach in this course is to emphasize the ideas of Astronomy and a qualitative understanding of the physical processes that shape the Universe via laboratory exercises. Each laboratory exercise is self-contained and accompanied with an introduction discussing the fundamental physical principle and methods used.

prereq or coreq: ASTRO 10000

3 hrs
3 cr.

PHYS 10000 - Basic Concepts of Physics

Hunter Core
Scientific World (SW)
GER
2/E

This is an introductory, one-semester physics course designed for non-science majors. It minimizes the use of mathematics, beyond simple addition, multiplication, subtraction and division. The course will meet three hours per week in lecture. The contents are the lecture material of the existing PHYS 101 LC course. Topics include: Newton's laws of motion, linear motion and falling objects, momentum, energy, rotational motion, gravity, atomic structure, liquids, gases, heat, vibrations and waves, sound, electrostatics, electric current, magnetism, electromagnetic induction, light, color, reflection and refraction, an introduction to quantum mechanics, and radioactivity. This course is a co-requisite or pre-requisite of PHYS 10100, which consists of traditional lab experiments and guided problem-solving sessions, that are closely correlated with the lecture material covered in this course.

3 hrs
3 cr.

PHYS 10100 - Basic Concepts of Physics with Laboratory Exercises
Hunter Core
Life and Physical Sciences (LPS)
GER
2/E

Introductory one-semester physics lab-based course designed for non-science majors. The course emphasizes the basic concepts of physics, and a qualitative understanding of physics in everyday life.

prereq or coreq: PHYS 10000
3 hrs
3 cr.

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.

prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

prereq or coreq: coreq (with perm dept.): MATH 15000
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.
PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.
prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

Political Science

POLSC 10000 - Introduction to Politics: Democracy, Anarchy and the State (W)

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/B

Introduction to some of the major questions, approaches, and texts of political science. Students will explore questions of power, coercion, virtue, democracy, conflict, and cooperation and read Plato, Aristotle, Weber, Lipset, Waltz, and Jervis, among others. Does not satisfy the major’s four subfield distribution requirement.

prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 11000 - American Government: A Historical Introduction (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.
POLSC 20000 - Interpreting Politics: An Introduction to Political Ideas (W)

Hunter Core
Individual and Society (Social Sciences) -I&S SS
GER
2/B or 3/B

An introduction to interpreting major political ideas and their significance in the contemporary world. Competing understandings of concepts such as freedom, equality, justice, citizenship, and legitimacy will be explored, in part by applying them to concrete political issues such as multiculturalism, economic distribution, and the death penalty.

prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 25000 - Comparing Countries (W)

Hunter Core
Flexible Core: World Culture and Global Issues
Pluralism and Diversity
PD/A
GER
3/B

Examination of the core concepts, theories, and issues in the field of comparative relations. Topics include: Comparative analysis of democracies and democratization, revolution, and ethnicity and ethnic conflict. Cases will be drawn from Africa, Asia, Western Europe, the Americas, Eastern Europe, and the Middle East.

prereq: ENGL 12000 or equivalent
3 hrs
3 cr.

Religion

REL 11000 - Nature of Religion (W)

Hunter Core
Individual and Society (Humanities) -I&S H
GER
2/C

Study of basic facets of religion: God, ethics, worship, faith, myth, ritual, symbolism, etc.
3 hrs
3 cr.

REL 11100 - Approaches to Religion (W)

Hunter Core
Individual and Society (I&S) Humanities
GER
2/C
Different understandings of religion: sociological, anthropological, psychological, philosophical, theological.  
prereq: ENGL 12000  
3 hrs  
3 cr.

REL 20400 - Religious Experience (W)

Hunter Core  
Individual and Society (Humanities) -I&S H  
Pluralism and Diversity  
PD/D  
GER  
2/C

Cross-cultural analysis of religious experiences: Biblical, ancient Greek, Asian, modern Western.  
prereq: ENGL 12000  
3 hrs  
3 cr.

REL 20500 - Faith and Disbelief (W)

Hunter Core  
Individual and Society (Humanities) -I&S H  
Pluralism and Diversity  
PD/D  
GER  
2/C

Examination of questions of faith and disbelief in modern Western thought.  
prereq: ENGL 12000  
3 hrs  
3 cr.

REL 20600 - Ideas of God in Contemporary Western Thought (W)

Hunter Core  
Individual and Society (Humanities) -I&S H  
Pluralism and Diversity  
PD/D  
GER  
2/C

Survey of representative schools of current Western religious thought: Christian theism, metaphysical protest, process theology, feminist theology, liberation theology, beyond theism thought.  
prereq: ENGL 12000  
3 hrs  
3 cr.

REL 20700 - Religious Sources for Morality (W)

Hunter Core  
Individual and Society (Humanities) -I&S H
Religious reasons for determining good and evil; religious sources for ethical decisions.

**prereq:** ENGL 12000

*3 hrs
3 cr.*

**REL 20800 - Religion and Social Justice (W)**

**Hunter Core**
Individual and Society (Humanities) - I&S H

**Pluralism and Diversity**

PD/D
GER
2/B

An exploration into religious perspectives on such social issues as war, race, the economy and gender relations.

**prereq:** ENGL 12000

*3 hrs
3 cr.*

**REL 20900 - Religion and Human Rights (W)**

**Hunter Core**
Individual and Society - Humanities

**GER**
2/C

It has been contended that religious beliefs about the natural and moral order, as well those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. And, as the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project. Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—for example, those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

**prereq:** ENGL 12000

*3 hrs
3 cr.*

**REL 25100 - Asian Religions (W)**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**

PD/A
GER
2/C
Study of Hinduism, Buddhism, Jainism, Taoism and Confucianism.

 prerq: ENGL 12000
 3 hrs
 3 cr.

 REL 25200 - Ancient Near Eastern Religions (W)

 Hunter Core
 World Culture and Global Issues (WCGI)
 Pluralism and Diversity
 PD/A
 GER
 2/C

 Study of Egyptian religion, religions of Sumer and Babylonia, religion of the early Hebrews (including the Old Testament).
 prerq: ENGL 12000
 3 hrs
 3 cr.

 REL 25300 - Abrahamic Religions (W)

 Hunter Core
 World Culture and Global Issues (WCGI)
 Pluralism and Diversity
 PD/D
 GER
 2/C

 Study of Judaism, Christianity, and Islam-- with some considerations of Zoroastrian parallels.
 prerq: ENGL 12000
 3 hrs
 3 cr.

 REL 25400 - Tribal Religions: From Australia to the Americas (W)

 Hunter Core
 World Culture and Global Issues (WCGI)
 Pluralism and Diversity
 PD/A or B
 GER
 2/C

 Study of indigenous religions of Pacific Islanders and North American Indians.
 prerq: ENGL 12000
 3 hrs
 3 cr.

 REL 25500 - Religions of Two Gods (W)
Pluralism and Diversity
PD/A
GER
2/C

A survey of historical varieties of dualistic religion both classical and modern which inquires into the moral grounds for their recurring appeal.

*prereq:* ENGL 12000

3 hrs

3 cr.

**REL 25600 - Afro-Caribbean Religions (W)**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/B
GER
2/C

An introduction to the diversity of African-based religions in the Caribbean and beyond.

*prereq:* ENGL 12000

3 hrs

3 cr.

**REL 27000 - Religion and Psychology (W)**

**Pluralism and Diversity**
PD/D
GER
2/C

An examination of ways in which psychology understands, describes, values (or devalues) religion using the media of text, story and film.

*prereq:* ENGL 12000

3 hrs

3 cr.

**Romance Languages**

**FREN 10100 - Elementary French I**

**Hunter Core**
World Culture and Global Issues (WCGI)

Language lab mandatory.

There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language. FREN 10100 usually not credited without FREN 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.

3 hrs

3 cr.
FREN 24100 - Early French Civilization: From Gothic to Revolution

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/C

Conducted in English; readings in English.
3 hrs
3 cr.

FREN 24200 - Modern French Civilization: From Revolution to Present

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/D
GER
2/C

Conducted in English; readings in English.
There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.
3 hrs
3 cr.

ITAL 10100 - Elementary Italian I

Hunter Core
World Culture and Global Issues (WCGI)
Language lab.
There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 10100, 10200, 20100, 20200) and an intensive sequence (ITAL 10300-20300) that covers in one semester material normally covered in two. ITAL 10100 not usually credited without ITAL 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.
3 hrs
3 cr.

ITAL 28000 - The Italian Renaissance: An Introduction

Hunter Core
Individual and Society
Pluralism and Diversity
PD/D
GER
2/C

In English. An introduction to the literature of the Italian Renaissance and the major humanist figures in art, politics, philosophy and science.
There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 10100, 10200, 20100, 20200) and an intensive sequence (ITAL 10300-20300) that covers in one semester material normally covered in two.

*prereq: ENGL 12000*

3 hrs

3 cr.

**SPAN 10100 - Elementary Spanish I**

**Hunter Core**

World Culture and Global Issues (WCGI)

Language lab mandatory.

Spanish for English speakers. SPAN 10100 not usually credited without SPAN 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.

3 hrs

3 cr.

**SPAN 10500 - Basic Reading and Writing for Native Speakers of Spanish**

**Hunter Core**

World Culture and Global Issues (WCGI)

Spanish for native speakers.

3 hrs

3 cr.

**SPAN 24100 - Civilization of Spain, in English**

**Hunter Core**

World Culture and Global Issues (WCGI)

**Pluralism and Diversity**

GER 2/C PD/D

An integrated presentation of Spanish civilization, combining historical with literary and other cultural aspects.

*prereq: ENGL 12000*

3 hrs

3 cr.

**Sociology**

**HUM 11000 - Map of Knowledge (W)**

Introduction to range of knowledge available in the curriculum. Discusses subject matter and methodology of various disciplines as well as their relations within and across the curriculum to aid students in making intelligent choices in their course of study.
3 hrs
3 cr.

**ITAL 28000 - The Italian Renaissance: An Introduction**

In English. An introduction to the literature of the Italian Renaissance and the major humanist figures in art, politics, philosophy and science.
There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 10100, 10200, 20100, 20200) and an intensive sequence (ITAL 10300-20300) that covers in one semester material normally covered in two.

prereq: ENGL 12000
3 hrs
3 cr.
JPN 25100 - Japanese Culture Before 1600

Pluralism and Diversity
PD/A
GER
2/C

Covering many facets of Japanese culture, this course will focus on the various periods of Japanese history (Jomon, Yayoi, Kofun, and Heian – to name a few) and uncover how many aspects of Japanese culture were shaped. From the influence from nearby countries – most notably China – to its isolationist periods, its mythology, the evolution of its art, the deep-seated love of nature shared by many Japanese, and the co-existence of multiple belief systems, Japan is a truly unique country whose culture continues to gain in popularity within the United States. Taught entirely in English.

While this is a two-part course, Japanese Culture Before 1600 (JPN 25100) will not act as a prerequisite for Japanese Culture Since 1600 (JPN 25200).

prereq: ENGL 120
3 hrs
3 cr.

PHILO 10100 - Introduction to Philosophy

Hunter Core
Individual and Society (Humanities) -I&S H
GER
2/C

Examination of basic philosophical questions through study of selected philosophical classics.
3 hrs
3 cr.

Pluralism and Diversity
PD/D
GER
2/B

An exploration into religious perspectives on such social issues as war, race, the economy and gender relations.

prereq: ENGL 12000
3 hrs
3 cr.

REL 20900 - Religion and Human Rights (W)

Hunter Core
Individual and Society - Humanities

GER
It has been contended that religious beliefs about the natural and moral order, as well those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. And, as the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project. Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—for example, those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

prereq: ENGL 12000
3 hrs
3 cr.

REL 25500 - Religions of Two Gods (W)

Pluralism and Diversity
PD/A
GER
2/C

A survey of historical varieties of dualistic religion both classical and modern which inquires into the moral grounds for their recurring appeal.
prereq: ENGL 12000
3 hrs

ANTHP 10100 (STEM) - Human Evolution

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.
6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

ANTHP 10500 - The Human Species

Hunter Core
Life and Physical Sciences (LPS)
GER
2/E

In this course we examine human biology and behavior from an evolutionary perspective, comparing our anatomy, physiology, and behavior to those of living primates and other mammals. We will discuss the relative roles of genes ("nature") and environment ("nurture"), the biological basis of behavior, local biological adaptations evident in modern human populations, growth and development, and diet and disease. Students will actively engage in the development of scientific hypotheses, data collection, and data synthesis analysis, as part of laboratory research experiences throughout the semester. Material covered will help prepare students to understand and evaluate recent advances in genetics, behavioral studies, medicine, and evolution
3 hrs
3 cr.

ASTRO 10200 - Laboratory Explorations in Astronomy

Hunter Core
Life and Physical Sciences (LPS)
GER
2/E

This is an introductory, one-semester astronomy course designed for non-science majors. The approach in this course is to emphasize the ideas of Astronomy and a qualitative understanding of the physical processes that shape the Universe via laboratory exercises. Each laboratory exercise is self-contained and accompanied with an introduction discussing the fundamental physical principle and methods used.
prereq or coreq: ASTRO 10000

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
Pluralism and Diversity
PD/C or D
GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

BIOL 10500 - Introduction to Genome Biology

Hunter Core
Life and Physical Sciences (LPS)

A genome is the total genetic content of an organism. Driven by breakthroughs such as the decoding of the first human genome and rapid DNA-sequencing technologies, biomedical sciences are undergoing a rapid and profound transformation into a highly data-intensive field, which requires familiarity with concepts in both biology and computer science. Genome information is revolutionizing virtually all aspects of biology and medicine and will lead to major advances such as more efficient production of renewable energy, better cures for cancers, and longer and healthier life expectancy. This course will introduce genome-sequencing technologies, explore hundreds of genome projects online, and discuss both the benefits and challenges (e.g., ethical and legal) of the genomic revolution to society.
3 hrs.
3 cr.

BIOL 10700 - The Human Barcode: Biology and Genetics of Personal Identification

Hunter Core
LPS

An introductory lecture/laboratory course for non-biology majors. This lecture/laboratory course will cover the
techniques used by scientists to analyze how DNA or skin can uniquely lead to a person's identification, and the biological concepts behind them. For example, through the topics that are covered, students will learn how biological evidence like fingerprints and DNA is collected, analyzed, and presented as evidence to solve crimes. Students will learn important biological concepts such as DNA, development, and characteristics of body tissues.

3 hrs
3 cr.

BIOL 12500 (STEM) - Human Biology

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E w/ lab

An introductory lecture/laboratory course for non-biology majors. BIOL 12500 explores the biology that underlies current health and disease topics (including diabetes, cancer, heart disease, sexually transmitted diseases, and nutrition). Using this topics approach, the course provides a survey of human anatomy and physiological function, along with the biological principles of genetics and cellular interactions that comprise our current understanding of the human organism. Laboratory exercises will introduce students to a scientific approach in studying human disease and physiology.

6 hrs
4.5 cr.
spring only

BIOL 15000 (STEM) - CSI: HUNTER (Forensic Biology)

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
GER 2/E with lab

An introductory laboratory course for non-biology majors. This lecture/laboratory course will cover the techniques used by forensic scientists to analyze a crime scene, and the biological concepts behind them. Through the topics that are covered, students will learn how biological evidence like fingerprints, hair, blood, and DNA are collected, analyzed, and presented as evidence to solve crimes.

Required for this course is a 10 minutes PowerPoint presentation in groups in four students. In order to prepare for the presentation, a two page outline from each student is expected. In addition, a group assignment of less than 5 pages long will be assigned as preparation of the presentation. This assignment helps students prepare for a "crime scene" that will be designed by the group using the topics and materials provided in class. Further research for this project is encouraged using library materials or the WWW to provide supplemental information, ideas and images. The laboratory component of the course requires that students record their data, observations, and answer discussion questions (in a short answer format). The completion of their laboratory manual will constitute part of the laboratory grade.

6 hrs
4.5 cr.
fall only

CHEM 10000 (STEM) - Essentials of General Chemistry Lecture

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
GER 2/E

Essential facts, laws, and theories of general chemistry.

Primarily for nursing, nutrition and food science and community health education students.  
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

4 hrs (3 lec, 1 rec)
3 cr.

CHEM 10100 - Inquiries into the Nature of Matter

Hunter Core
Life and Physical Sciences (LPS)
GER
GER 2/E

A laboratory-based introduction to chemistry for non-science and health science majors that focuses on the basic principles of matter, energy and the environment. CHEM 10100 satisfies the laboratory requirements for a one-semester general chemistry course for health science students.

Primarily for nursing, nutrition and food science and community health students.  
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

3 hrs
3 cr.

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.  
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10300 (STEM) - General Chemistry Laboratory I

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
Pluralism and Diversity
GER 2/E
Study of experiments designed to illustrate fundamental laws and techniques of chemistry.

Core credit awarded only if CHEM 10200 (STEM) and CHEM 10300 (STEM) are completed. Primarily for pre-med, medical laboratory sciences and science majors.

*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

*prereq or coreq: CHEM 10200
4 hrs (3 lab, 1 rec)
1.5 cr.*

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.

*prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.*

CHEM 10500 (STEM) - General Chemistry Laboratory II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
Pluralism and Diversity
GER 2/E

Laboratory experiments illustrating and applying theory of solutions to qualitative analysis.

Offered for transfer students who have completed only one semester of General Chemistry Laboratory.

*prereq: One semester of General Chemistry Laboratory.
prereq or coreq: CHEM 10400
3 hrs
1.5 cr.*

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.

Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.

*prereq: CHEM 10200
coreq: CHEM 10400*
CHEM 11100 (STEM) - Chemical Principles

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E

In-depth introduction to chemical principles including measurement, stoichiometric calculations, inorganic nomenclature, gas laws, equilibrium, acids, bases and buffers. Emphasis is placed on problem-solving, oral presentations, and collaborative work. Laboratory and coursework emphasize analysis and evaluation of data.

Primarily for pre-med, medical laboratory sciences and science majors.

Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500 or equiv, MATH 12600
9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)
5.5
offered fall

CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of quantum theory, atomic structure, periodic properties of the elements, kinetics, electrochemistry, and thermodynamics. Primarily for pre-med, medical laboratory sciences and science majors.

prereq: CHEM 11100
9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)
5.5
offered spring

CHEM 12000 (STEM) - Essentials of Organic Chemistry Lecture

Hunter Core
Life and Physical Sciences (LPS): Scientific World (SW)
Pluralism and Diversity
GER 2/E

Course presents essential facts, laws and theories of organic chemistry.

Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health education students.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10000
4 hrs (3 lec, 1 rec)
3 cr.

**CHEM 12100 (STEM) - Essentials of Organic Chemistry Laboratory**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**Pluralism and Diversity**
GER 2/E

Experiments designed to illustrate fundamental laws and techniques of organic chemistry. Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health students.

*Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.*

prereq: CHEM 10100
prereq or coreq: CHEM 12000

3 hrs (3 lab)
1.5 cr.

**GEOL 10100 - Introductory Geology Lab**

**Hunter Core**
Life & Physical Sciences

**GER**
2/E

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.

3 hrs.
3 cr.

**PGEOG 13000 (STEM) - Weather and Climate**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)

**GER**
2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

Material Fee: $ 5

5 hrs (3 lec, 2 lab)
4 cr.

*Offered in the Fall and Spring*
PHYS 10100 - Basic Concepts of Physics with Laboratory Exercises

Hunter Core
Life and Physical Sciences (LPS)
GER
2/E

Introductory one-semester physics lab-based course designed for non-science majors. The course emphasizes the basic concepts of physics, and a qualitative understanding of physics in everyday life.

**prereq or coreq: PHYS 10000**

3 hrs

3 cr.

PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.

**prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.**

7 hrs (3 lec, 3 lab, 1 rec)

4.5 cr.

PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound

Hunter Core
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

**prereq or coreq: coreq (with perm dept.): MATH 15000**

8 hrs (4 lec, 3 lab, 1 rec)

5.5 cr.

PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.

**prereq: PHYS 11000 or 11100**

7 hrs (3 lec, 3 lab, 1 rec)

4.5 cr.
PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.
prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept.): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

**CUNY Common Core Math/Quantitative Reasoning (MQR) 1 Course**

Return to Appendix I: Hunter Core Requirement

**Math/Quantitative Reasoning 1 Course**

**CSCI 12100 - Computers and Money: Quantitative Reasoning in Context**

**Hunter Core**
Math and Quantitative Reasoning (MQR)
GER
1/B

Quantitative reasoning tackled from a computer based perspective and focusing on practical financial topics-stocks, gambling, inflation, diversification, taxes, hedging, saving, real estate, retirement and others. Students take a hands-on, spreadsheet- based approach to understanding issues of money and personal finance.
This course cannot be counted towards the CSCI major.
prereq: none
3 hrs
3 cr.

**ECO 22100 - Economic Statistics**

**Hunter Core**
Mathematics and Quantitative Reasoning
GER
1/B

Probability and statistics in the context of economics, business and public policy; data analysis, probability distributions, and hypothesis testing.
prereq: MATH 12500 or exemption from the course
3 hrs
3 cr.
MATH 10000 - Basic Structures of Mathematics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have received credit for any math or stat course that satisfies the GER 1/B requirement. Not recommended for students majoring in mathematics, statistics, computer science, or natural sciences. Symbolic logic, sets, number systems, relations and operations and topics in probability and statistics. This course is a terminal course and does not serve as a prerequisite to any other course in the department.

prereq: CUNY Math Proficiency
3 hrs
3 cr.

MATH 10200 - Mathematics and Everyday Life

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Students will learn how to model real world problems with mathematics, and learn techniques for solving them. Topics include personal finance, statistical reasoning, probability, exponential growth, and voting theory.

prereq: CUNY Math Proficiency
3 hours
3 credits

MATH 10400 (STEM) - Mathematics for Elementary Education I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Fundamental and relevant mathematics as recommended by the NCTM for prospective elementary school teachers, including problem solving, sets, logic, numeration, computation, integers and number theory. Required of students planning to teach in elementary schools. Not open to other students.

prereq: grade of C or better in MATH 10100 or appropriate score on the placement exam
3 hrs
3 cr.

MATH 12500 (STEM) - Precalculus

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent.
prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

MATH 15500 (STEM) - Calculus with Analytic Geometry II

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.
prereq: grade of C or better in MATH 15000
4 hrs
4 cr.

STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.
prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

STAT 21200 - Discrete Probability

Hunter Core
Math/Quantitative Reasoning
GER
Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

prereq: MATH 12500 or STAT 11300 or appropriate score on placement exam.
3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

CUNY Common Core Scientific World (SW) 1 Course

Return to Appendix I: Hunter Core Requirement

Scientific World (SW) 1 Course

ANTHP 10100 (STEM) - Human Evolution

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.

6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

ANTHC 12700 - Methods In Archaeological Science

Hunter Core
SW
Introduction to theory and method of scientific research in archaeology.

prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.
ASTRO 10000 - Basic Concepts in Astronomy

Hunter Core
Scientific World (SW)
GER
2/E

This is an introductory, one-semester astronomy course designed for non-science majors. The approach in this course is to emphasize the ideas of Astronomy and a qualitative understanding of the physical processes that shape the Universe.
3 hrs.
3 cr.

BIOL 10000 (STEM) - Principles of Biology I

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
PD/C or D
GER
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.
Material Fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: MATH 12500, CHEM 10200
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
spring only

BIOL 10200 (STEM) - Principles of Biology II

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
Pluralism and Diversity
PD/C or D
GER
2/E

Taxonomy; homeostasis; internal transport and gas exchange in plants and animals; plant hormones; osmoregulation; mechanisms of action in the muscular, nervous and neuroendocrine systems; the senses, behavior; ecology.
Material fee: $5
PD credit awarded only upon completion of BIOL 10000 and 10200.
prereq: BIOL 10000 or perm instr, MATH 10100 or equiv.
7 hrs (3 lec, 3 lab, 1 disc)
4.5 cr.
fall only

BIOL 12500 (STEM) - Human Biology
An introductory lecture/laboratory course for non-biology majors. BIOL 12500 explores the biology that underlies current health and disease topics (including diabetes, cancer, heart disease, sexually transmitted diseases, and nutrition). Using this topics approach, the course provides a survey of human anatomy and physiological function, along with the biological principles of genetics and cellular interactions that comprise our current understanding of the human organism. Laboratory exercises will introduce students to a scientific approach in studying human disease and physiology.

6 hrs
4.5 cr.
spring only

**BIOL 15000 (STEM) - CSI: HUNTER (Forensic Biology)**

An introductory laboratory course for non-biology majors. This lecture/laboratory course will cover the techniques used by forensic scientists to analyze a crime scene, and the biological concepts behind them. Through the topics that are covered, students will learn how biological evidence like fingerprints, hair, blood, and DNA are collected, analyzed, and presented as evidence to solve crimes.

Required for this course is a 10 minutes PowerPoint presentation in groups in four students. In order to prepare for the presentation, a two page outline from each student is expected. In addition, a group assignment of less than 5 pages long will be assigned as preparation of the presentation. This assignment helps students prepare for a "crime scene" that will be designed by the group using the topics and materials provided in class. Further research for this project is encouraged using library materials or the WWW to provide supplemental information, ideas and images. The laboratory component of the course requires that students record their data, observations, and answer discussion questions (in a short answer format). The completion of their laboratory manual will constitute part of the laboratory grade.

6 hrs
4.5 cr.
fall only

**BIOL 17500 - Choreographing Genomics**

This course uses postmodern dance to model biological processes. It is an introductory biology course for non-majors studies in the biological science of molecular genome information through readings, quantitative assignments, movement exercises and artistic lenses. Students explore a detailed examination of heredity and cancer with a focus on contributions of DNA. Students are expected to articulate gene information flow through problem solving, written assignments, oral contributions, and movement forms. Topics covered include the definition of a gene, recombination of genes, the central dogma of genetic flow in a biological system, the 1:1 Pair Rule ( Chargaff's rules), DNA sequencing, functional genomics and the relationships of genes to cancer and heredity, as well as ethical issues in medicine.

Each student is in charge of their own body and must recognize that they will have to use their body for assignments and in class participation work.
Students will be required to talk and move in class (comfortable clothes, flat shoes or bare feet, and a yoga mat are required).
Students will have reflective assignments that include written work.
Students will be required to develop visual and movement-based models.

prereq: MATH 10100
3 hrs
3 cr.
spring only

CHEM 10000 (STEM) - Essentials of General Chemistry Lecture

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
GER 2/E

Essential facts, laws, and theories of general chemistry.

Primarily for nursing, nutrition and food science and community health education students.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

4 hrs (3 lec, 1 rec)
3 cr.

CHEM 10200 (STEM) - General Chemistry I

Hunter Core
Scientific World (SW); Life and Physical Sciences (LPS)
GER
2/E

In-depth introduction to stoichiometric calculations, atomic and molecular structure and chemical bonding.

Primarily for pre-med, medical laboratory sciences and science majors.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500, 15000 or equiv.
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10400 (STEM) - General Chemistry II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

In-depth introduction to thermodynamics, redox reactions, electrochemistry and chemical equilibrium.

Primarily for premed, medical laboratory sciences and science majors.
prereq: CHEM 10200 with grade of C or better or CHEM 10000 with perm chair
5 hrs (4 lec, 1 rec)
4 cr.

CHEM 10500 (STEM) - General Chemistry Laboratory II

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)

Pluralism and Diversity
GER 2/E
Laboratory experiments illustrating and applying theory of solutions to qualitative analysis.
Offered for transfer students who have completed only one semester of General Chemistry Laboratory.
prereq: One semester of General Chemistry Laboratory.
prereq or coreq: CHEM 10400
3 hrs
1.5 cr.

CHEM 10600 (STEM) - General Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
GER 2/E
Experiments designed to illustrate the fundamental laws of chemistry. The course is equivalent one year of general chemistry laboratory.
Credit not given for CHEM 10600 and CHEM 10300 or CHEM 10500. Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 10200
coreq: CHEM 10400
6 hrs
3 cr.

CHEM 11100 (STEM) - Chemical Principles

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)

Pluralism and Diversity
GER 2/E
In-depth introduction to chemical principles including measurement, stoichiometric calculations, inorganic nomenclature, gas laws, equilibrium, acids, bases and buffers. Emphasis is placed on problem-solving, oral presentations, and collaborative work. Laboratory and coursework emphasize analysis and evaluation of data.

Primarily for pre-med, medical laboratory sciences and science majors.
Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.

prereq or coreq: MATH 12500 or equiv, MATH 12600
9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)
5.5
offered fall

CHEM 11200 (STEM) - Thermodynamics and Solution Chemistry
Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of quantum theory, atomic structure, periodic properties of the elements, kinetics, electrochemistry, and thermodynamics.
Primarily for pre-med, medical laboratory sciences and science majors.
prereq: CHEM 11100
9 hrs (4 hrs lec, 3 hrs lab, 2 hrs workshop)
5.5
offered spring

CHEM 12000 (STEM) - Essentials of Organic Chemistry Lecture

Hunter Core
Life and Physical Sciences (LPS): Scientific World (SW)
Pluralism and Diversity
GER 2/E
Course presents essential facts, laws and theories of organic chemistry.

Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health education students.
Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10000
4 hrs (3 lec, 1 rec)
3 cr.

CHEM 12100 (STEM) - Essentials of Organic Chemistry Laboratory

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E
Experiments designed to illustrate fundamental laws and techniques of organic chemistry.
Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health students.
Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

prereq: CHEM 10100
prereq or coreq: CHEM 12000
3 hrs (3 lab)
1.5 cr.

CSCI 12000 - Introduction to Computers
Intended for non-majors. Basic concepts of computer technology. Principles of hardware operation, software and networking. Roles of computers in society, including ethical and legal issues. This course cannot be counted towards the CSCI major

*prereq: none*

3 hrs

3 cr.

**CSCI 12700 - Introduction to Computer Science**

A technical introduction to computer science. Organization of hardware, software, information and an introduction to programming. This course is meant for: potential computer science majors who may not be prepared for CSCI 13500; science majors who need some basic computer knowledge; and non-CSCI majors who want a more rigorous introduction to the field than CSCI 120 provides.

May not be used toward the CSCI major or minor.

*prereq or coreq: MATH 12100, 12500 or 15000*

3 hrs

3 cr.

**CSCI 13200 - Practical UNIX and Programming, with Lab**

An introduction to computer programming and the UNIX operating system using Perl. Conceptual overview of the UNIX operating system and programming environment, a practical introduction to shell programming, and the use of UNIX filters and utilities. A pragmatic course with an emphasis on skills acquisition.

This course cannot be counted towards the CSCI major.

*prereq: none*

3 hrs

3 cr.

**CSCI 13300 - Programming for Everyone**

A comprehensive practical course in programming that concentrates on producing working software for games, simulations, animations, data manipulations, interacting with the Internet, graphical user interfaces and many other
application areas. No programming experience is necessary. This course is required for Computer Science minors. This course does not count toward the computer science major.

3 hrs
3 cr.

ECO 20000 - Principles of Microeconomics

Hunter Core
Scientific World (SW)
GER
2/B

May be taken prior to or concurrently with ECO 20100. Determination of prices and quantities of goods and services, including labor and other resources; competitive and imperfect markets; public policy implications.
prereq: MATH 10100 or exemption from the course
3 hrs
3 cr.

GEOL 10000 - Introductory to Geology

Hunter Core
Scientific World (SW)
GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.
3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

GEOL 10500 - Introduction to Environmental Geoscience

Hunter Core
Scientific World (SW)
GER
2/E (Non lab course)

Introduction to environmental geoscience focusing on aspects of global change and the interrelationship of earth systems. Review of the evolution of the earth from its origins to potential future developments; environmental problems and issues.
prereq: ENGL 12000
3 hrs
3 cr.

GEOL 18000 - Introduction to Oceanography
An introduction to the subject of oceanography. We will discuss the physical, chemical, biological and geological aspects of the oceans; learn about the structure and motion of the atmosphere and how they all influence ocean circulation; and we will learn about waves, tides and tsunamis, the carbon cycle and how the ocean influences the Earth's climate system. In addition to providing a good introduction to aspects of the scientific world, it is a foundational course for Environmental Studies, Geography and BA/MA Earth Science Education majors.

**Prerequisite:** Math Proficient and Reading Proficient/Non degree students

3 hrs

3 cr.

**Offered fall and spring**

**MHC 20000 - MHC Seminar 3: Science and Technology (W)**

**Hunter Core**

Scientific World (SW)

**GER**

**GER 3B**

**Prerequisite:** Macaulay Honors College only. ENGL 12000; MHC 15000 or its equivalent at another CUNY Honors College campus

3 hours

3 credits

**PGEOG 13000 (STEM) - Weather and Climate**

**Hunter Core**

Life and Physical Sciences (LPS); Scientific World (SW)

**GER**

2/E

Offers a basic understanding of how weather systems form, why certain regions have particular types of weather patterns, and what is known about climatic fluctuations across the globe. This includes an understanding of the basic physical principals that determine: how hot or cold a particular location is; how seasonal cycles vary in different parts of the world; and the types and amounts of precipitation. Students learn to analyze several types of weather maps and acquire a basic understanding of central issues related to global climate change, one of the most significant environmental issues of our time.

Material Fee: $5

5 hrs (3 lec, 2 lab)

4 cr.

*Offered in the Fall and Spring*

**PHILO 17000 - Introduction to Logic and Scientific Method**

**Hunter Core**

Scientific World

An introduction to logical analysis and evaluation, especially applied to scientific arguments. Recognizing arguments and their support structure; evaluating reliability of sources vouching for premises; elementary deductive formal logic;
evaluation of arguments central to empirical science.

3 hrs.
3 cr.

**PHYS 10000 - Basic Concepts of Physics**

**Hunter Core**
Scientific World (SW)
GER
2/E

This is an introductory, one-semester physics course designed for non-science majors. It minimizes the use of mathematics, beyond simple addition, multiplication, subtraction and division. The course will meet three hours per week in lecture. The contents are the lecture material of the existing PHYS 101 LC course. Topics include: Newton's laws of motion, linear motion and falling objects, momentum, energy, rotational motion, gravity, atomic structure, liquids, gases, heat, vibrations and waves, sound, electrostatics, electric current, magnetism, electromagnetic induction, light, color, reflection and refraction, an introduction to quantum mechanics, and radioactivity. This course is a co-requisite or pre-requisite of PHYS 10100, which consists of traditional lab experiments and guided problem-solving sessions, that are closely correlated with the lecture material covered in this course.

3 hrs
3 cr.

**PHYS 11000 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Life and Physical Sciences (LPS); Scientific World (SW)
GER
2/E

First semester of two-semester introductory physics course using algebra.

*prereq: MATH 12500; pre-calculus or equiv. By math dept. exam.*

7 hrs (3 lec, 3 lab, 1 rec)

4.5 cr.

**PHYS 11100 (STEM) - General Physics: Introductory Course in Mechanics, Heat, and Sound**

**Hunter Core**
Scientific World (SW) Life and Physical Sciences (LPS)
GER
2/E

For physics and other science majors. First semester of a two-semester introductory physics course using calculus.

*prereq or coreq: coreq (with perm dept.): MATH 15000*

8 hrs (4 lec, 3 lab, 1 rec)

5.5 cr.

**PHYS 12000 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**
Second semester of PHYS 11000 (STEM), a two-semester introductory physics course using algebra.
prereq: PHYS 11000 or 11100
7 hrs (3 lec, 3 lab, 1 rec)
4.5 cr.

**PHYS 12100 (STEM) - General Physics: Introductory Course in Electricity and Magnetism, Light, and Atomic Physics**

Second semester of PHYS 11100 (STEM), a two-semester introductory physics course using calculus.
prereq: PHYS 11000 or 11100
prereq or coreq: (with perm dept): MATH 15500
8 hrs (4 lec, 3 lab, 1 rec)
5.5 cr.

**CUNY Common Core US Experience in its Diversity (USED) 1 Course**

Return to Appendix I: Hunter Core Requirement

**US Experience in its Diversity (USED)**

**ANTHC 10000 - Cultural Diversity in the United States: Historical and Ethnographic Perspectives (W)**

Hunter Core
US Experience in its Diversity (USED)
Introduction to the critical and comparative study of cultural diversity in the United States.
prereq: ENGL 12000
3 hrs
3 cr.

**HIST 15100 - The United States from the Colonial Era to the Civil War (W)**

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War.
Courses at the 300-level and above not offered to freshmen.

**HIST 15200 - The United States from the Civil War Era to the Present (W)**

**Hunter Core**
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the Civil War to the present.

Courses at the 300-level and above not offered to freshmen.

**POLSC 11000 - American Government: A Historical Introduction (W)**

**Hunter Core**
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

**AFPRL 18200 - Culture and Ethnic Identity**
Hunter Core
World Culture and Global Issues (WCGI)

APRRL 20200 - African History Since 1600 CE

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

Main currents of African history from 1600 CE to present

**Hunter Core**

World Culture and Global Issues (WCGI)

**Pluralism and Diversity**

PD/A or B

GER

2/C

General study of Puerto Rican culture and ethnic mixtures that went into making of that culture.

3 hrs

3 cr.

**ANTHC 12600 - Introduction to Prehistoric Archaeology**

**Hunter Core**

World Culture and Global Issues (WCGI)

GER

2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.

3 hrs

3 cr.

*offered every sem.*

**ANTHC 15100 - Introduction to Linguistics**

**Hunter Core**

World Cultures and Global Issues (WCGI)

GER

2/B

Structure and analysis of human languages; language history; language in society, culture and mind; language
ARB 10100 - Beginning Arabic I

Hunter Core
World Culture and Global Issues (WCGI)
The goal of this course is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination.

This class is not for native speakers. ARB 10100 usually not credited without ARB 10200. For details about credit policy look here: Appendix II: Foreign Language Requirement

ARB 14800 - Beginning Arabic for Heritage Speakers

Hunter Core
World Culture and Global Issues (WCGI)
This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

prereq: perm of division head

ARB 25200 - Literatures from the Islamic World (W)

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

A survey of literary genres and themes from the Islamic World from the 7th to the 15th century.
prereq: ENGL 12000 or equivalent

ARB 25300 - Literatures and Cultures of Muslim Spain (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
A survey of the literary and cultural history of Muslim Spain, 8th - 15th century C.E.  
prereq: ENGL 12000 or equivalent  
3 hrs  
3 credits

CHIN 10100 - Elementary Chinese I

Hunter Core  
World Culture and Global Issues (WCGI)  
Beginning course in Mandarin.  
CHIN 10100 not usually credited without CHIN 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.  
3 hrs  
3 cr.  
offered fall

CHIN 11100 - Chinese Culture I

Hunter Core  
World Culture and Global Issues (WCGI)  
Pluralism and Diversity  
PD/A  
GER  
2/C  

Introduction to Chinese culture with emphasis on classical tradition. Lectures and readings in English.  
3 hrs  
3 cr.

CHIN 11200 - Chinese Culture II

Hunter Core  
World Culture and Global Issues (WCGI)  
Pluralism and Diversity  
GER 2/C PD/A  

Emphasis on modern transformation against background of classical tradition. Lectures and readings in English.  
3 hrs  
3 cr.

CLA 10100 - Classical Mythology

Hunter Core  
World Culture and Global Issues (WCGI)  
Pluralism and Diversity  
PD/D  
GER  
2/C
Greek and Roman myth as represented in ancient art and literature, with emphasis on modern interpretations and theories.

3 hrs
3 cr.

**CLA 11000 - The Greek and Latin Roots of English**

**Hunter Core**
World Culture and Global Issues (WCGI)
**GER**
2/C

Elements of language structure; how languages work; elements of Latin and Greek in English vocabulary.

3 hrs
3 cr.

**CLA 20100 - Greek Civilization (W)**

**Hunter Core**
World Culture and Global Issues (WCGI)
**Pluralism and Diversity**
**PD/D**
**GER**
2/C

Ancient Greek culture: art and literature, religion, philosophy, economics, politics, education, and athletics.

3 hrs  
3 cr.

FREN 10100 - Elementary French I

Hunter Core  
World Culture and Global Issues (WCGI)  
Language lab mandatory.

There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language. FREN 10100 usually not credited without FREN 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.  
3 hrs  
3 cr.

FREN 24100 - Early French Civilization: From Gothic to Revolution

Hunter Core  
World Culture and Global Issues (WCGI)  
Pluralism and Diversity  
PD/D  
GER  
2/C

Conducted in English; readings in English.  
3 hrs  
3 cr.

FREN 24200 - Modern French Civilization: From Revolution to Present

Hunter Core  
World Culture and Global Issues (WCGI)  
Pluralism and Diversity  
PD/D  
GER  
2/C

Conducted in English; readings in English.  
There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.  
3 hrs  
3 cr.

GERMN 10100 - Elementary German I

Hunter Core  
World Culture and Global Issues (WCGI)  
Practice in 4 basic skills of speaking, reading, writing and comprehending German. For beginners.
GERMN 10100 not usually credited without GERMN 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.
3 hrs
3 cr.

GRK 10100 - Beginning Greek

Hunter Core
World Culture and Global Issues (WCGI)
For credit policy on GRK 10100 without GRK 10200 please see Appendix II: Foreign Language Requirement.
3 hrs
3 cr.
offered fall

HEBR 10100 - Elementary Hebrew I

Hunter Core
World Culture and Global Issues (WCGI)
Fundamentals of reading, pronunciation and grammar for beginners. Practice in conversation and writing. HEBR 101 not credited without HEBR 102.
HEBR 10100 usually not credited without HEBR 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.
3 hrs
3 cr.

HEBR 10500 - Elementary Biblical Hebrew I

Hunter Core
World Culture and Global Issues (WCGI)
Introduction to Biblical Hebrew alphabet and vowels, basic vocabulary and grammar. No prior knowledge of Hebrew required. This basic course is not recommended for students who have studied or are studying Modern Hebrew.
Not credited without HEBR 10600
3 hours
3 credits

HEBR 22100 - Modern Israeli Culture

Hunter Core
World Culture and Global Issues (WCGI)
A survey of contemporary Israeli culture, exploring topics relating to language, literature, history, rituals, politics, music and education.
prereq: ENGL 12000
3 hours
3 credits

HEBR 22200 - Introduction to Jewish Texts and Writings

Hunter Core
World Culture and Global Issues (WCGI)
A broad survey of influential Jewish texts and literary masterpieces from ancient to modern times.
prereq or coreq: ENGL 120
HEBR 24000 - Introduction to the Old Testament

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

Survey of the books of the Old Testament, their form, content and cultural background. Introduction to the tools and methods of modern biblical criticism.

3 hrs
3 cr

HEBR 25900 - Old Testament Religion

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

Comprehensive survey of ancient Israelite religious practice, expression and thought as reflected in Hebrew Bible.

3 hrs
3 cr

HEBR 29000 - Biblical Archaeology

Hunter Core
Flexible Core; World Culture and Global Issues
Pluralism and Diversity
PD/A
GER
2/C

Study of Biblical sources in translation in relation to major archaeological discoveries in Israel and Near East.

3 hrs
3 cr

HEBR 29500 - Ancient Hebrew Law

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C
Historical and comparative study of Biblical and rabbinic law.

3 hrs
3 cr

**HIST 11100 - World History to 1500**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/A
GER
2/B

The rise of civilizations; technological and intellectual breakthroughs; classical cultures and empires; interregional connections; the spread of civilization across the globe. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 11200 - World History from 1500 to the Present**

**Hunter Core**
World Culture and Global Issues (WCGI)
GER
2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 12100 - Early Modern Europe 1500 to 1815**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/D
GER
2/B

Transition from feudal society to national states; religious upheavals, expansion up to the French revolutionary era. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

GER
The interaction of a theme (the city) and a genre (the novel). Crime and Punishment, The Master and Margarita, We and others in their comparative context.

*prereq: ENGL 22000 or perm dept.*

3 hrs  
3 cr.

**RUSS 27100 - East European Cinema (W)**

**Pluralism and Diversity**

**PD/ D**

The ways in which East European filmmakers have used the medium of cinema to explore history, culture, politics, and social issues prevalent in their respective societies, starting with the immediate post-World War II period and covering both the Communist era and post-Communist period. By the end of the course students will have acquired critical tools to provide an informed verbal and written analysis of the films and discuss how various aesthetic and ideological approaches to filmmaking inform the cinema practice over time. The course will combine screening of East European films and class discussion of issues raised in these films. All students are expected to complete the assigned readings of chapters in history books and other material prior to each class and print out questionnaires for class discussions posted on the course blackboard after the film screenings. Informed class participation is strongly encouraged and will positively affect your final term grade.

*prereq: ENGL 12000. The exams in this course consist of essay writing.*

3 hrs  
3 cr.

**RUSS 29500 - The Vampire in Lore and Literature (W)**

Prereq: ENGL 22000

Study of Shakespeare’s works in relation to a particular literary, historical, or theoretical theme.

ENGL 37300 - Victorian Literature (W)

Prerequisites: ENGL 22000

Study of Victorian literature in relation to a particular literary, historical, or theoretical theme.
GER 3/A

A survey of representative works of the period in their cultural, social, and historical contexts. Authors may include Tennyson, Browning, Arnold, the Rossettis, Swinburne, Carlyle, Ruskin, Newman, Dickens, the Brontes, George Eliot, and Thackery.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 38900 - One Major Writer (W)

Pluralism and Diversity
PD/C or D

GER 3/A

Authors vary from semester to semester. May be taken more than once with permission of dept. Some authors may satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 39000 - Topics in 20th Century Literature (W)

GER 3/A

Selected works from the 20th century originally written in English will be studied in relation to a special theme, technique, theoretical issue, or cultural consideration. Some topics satisfy PD requirements; check the schedule of classes and with the undergraduate adviser.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 39500 - Survey of American Literature: Origins to the Civil War (W)

GER 3/A

An introduction to American literature up to the Civil War, surveying material in a range of genres and periods and encompassing a variety of interpretive approaches.

prereq: ENGL 22000
3 hrs
3 cr.

ENGL 33000 - Sociolinguistics

This course introduces the study of language use in society in relation to class, gender, ethnicity, race, and age. The nature of language and language rights including pidgins, creoles, and dialects are examined. Critical discourse theory is introduced as part of the analysis of the relationship of language and education, social mobility and power.

prereq: ENGL 22000
ENGL 34800 - English Across the World

This course will examine the spread of English across the world in terms of two major processes: linguistic imperialism, or the imposition of the language from a colonial center on a colonized periphery, and macroacquisition, or the adoption and adaptation of English by speech communities themselves. The main geographical focus will be the former colonial territories of Britain and the United States in Asia and Africa. Class discussions will be guided by two texts that present opposing views of the historical processes in question and will be further illuminated by students’ own research on individual countries.

prereq: ENGL 22000
3 hrs
3 cr

Film and Media Studies

FILMP 27600 - Screen Writing I - The Short (W)

The Short Fundamentals of writing for film; critiques of original student scripts.

prereq: FILM 10100 and ENGL 12000; open to film/media majors only or perm instr.
4 hrs
3 cr.

FILMP 37700 - Screen Writing II The Feature (W)

Continuation of workshop experience with emphasis on full-length screenplay.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILMP 27600
4 hrs
3 cr.

MEDIA 21100 - News Literacy in a Digital Age (W)

In this writing-intensive course, students will judge the reliability and credibility of news reports through a close textual analysis of print, TV, radio, web and social media stories. We will also study the First Amendment, the underpinnings of an independent press and the consequences of censorship.

prereq: ENGL 12000, MEDIA 18000
3 hrs
3 cr.

MEDIA 31400 - Public Relations: Theory and Practice (W)

GER
3/A

An examination of principal techniques and strategies in public relations, including critical analysis of its social uses. MEDIA 18000 is a prerequisite for all 200-, 300-, and 400-level MEDIA and MEDP courses.

prereq: MEDIA 18000 & MEDP 20100
MEDIA 37300 - Journalism as Literature

GER
3/A

An examination of the relationships between journalism and literature, including literary journalism, the journalistic prose of major imaginative writers, and the stylistic characteristics of hard news reporting.

prereq: MEDIA 18000

3 hrs
3 cr.

MEDIA 39800 - Complex Television Narratives (W)

This course examines the historical emergence and characteristics of long-term arc-driven TV serials. Emphasis will be on the narrative strategies and formal features of dramatic serials, with some attention to complex comedies. This course falls under the Media Analysis and Criticism concentration of the Media major.

prereq: MEDIA 27100 (Television Culture, previously MEDIA 37100) or MEDIA 37100 or MEDIA 39700 (Cult Television Theory and Audiences) or Permission of instructor

3 hrs
3 cr.

MEDP 23900 - Entertainment Journalism (W)

Development of practical, theoretical, and rhetorical skills for writing reviews and feature stories about entertainment and the arts.

prereq: MEDP 20100

Pluralism and Diversity
PD/D
GER
3/B

Leading personalities and domestic problems of the U.S. Since 1900.
Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 37300 - History of the Ottoman Empire (W)

Pluralism and Diversity
PD/A
GER
3/B

This course comprises, chronologically and thematically, the history of the Ottoman Empire from the Turkic migrations in the 12th-century to the end of the empire in 1923 and the rise of nationalism in the Middle East. Fundamental knowledge of the history of the Middle East is recommended.

prereq: ENGL 12000
3 hrs
3 cr.
HIST 38300 - Problems in U.S. History (W)

GER
3/B

Intensive reading and research in selected topics. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 38400 - Problems in European History (W)

GER
3/B

Intensive reading and research in selected topics. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 29000 - History Practicum (W)

A seminar-style course intended to introduce students to the practice of historical research and writing. Students will be given a directed “hands-on” experience in conducting historical research and in the writing of research papers in measured, progressively challenging assignments. The course will prepare students to successfully engage in more self-directed, substantial and independent historical research projects in the future.

prereq: ENGL 12000; 6 cr in history and permission of the department
3 hrs.
3 cr.

HIST 34600 - Churchill's Britain (W)

GER
3/B

The history of Britain and its empire in the 20th century. The emphasis will be on the world wars and their impact on British military and diplomatic power, and thus on the spread of British imperial rule up to the 1920s, as well as on the changes the wars brought to the British economy, society and culture and, ultimately, the collapse of the empire after 1945. The major theme of the course will be how to understand Britain's "decline" in the 20th century. The rise and fall of the British imperial system and its transformation into a Commonwealth of nations.

Courses at the 300-level and above not offered to freshmen.

prereq: ENGL 12000
3 hrs.
3 cr.

HIST 33600 - History of 20th-Century Germany (W)

Pluralism and Diversity
PD/D
An introduction to the major themes in German history in the 20th Century. It covers such topics as the impact of the First World War, the rise of Adolf Hitler and the Nazis, the Second World War, and Germany's place in the Cold War. The course places particular emphasis on the controversies which have arisen out of Germany's turbulent recent past.

This course is an introduction to the major themes in German history in the 20th Century. It covers such topics as the impact of the First World War, the rise of Adolf Hitler and the Nazis, the Second World War, and Germany's place in the Cold War. The course places particular emphasis on the controversies which have arisen out of Germany's turbulent recent past.

*prereq: ENGL 12000; Not offered to freshmen.*

3 hrs  
3 cr.

**Humanities Interdisciplinary**

**HUM 11000 - Map of Knowledge (W)**

**GER**  
2/C  

Introduction to range of knowledge available in the curriculum. Discusses subject matter and methodology of various disciplines as well as their relations within and across the curriculum to aid students in making intelligent choices in their course of study.

3 hrs  
3 cr.

**Human Rights**

**HR 20000 - Introduction to Human Rights: History, Discourse, Practice (W)**

**Pluralism and Diversity**  
PD/D  
**GER**  
3/B  

An introduction to the study of human rights. It explores the historical, philosophical, and legal roots of human rights as a political idea and institutionalized practice. It also addressed the contested nature of human rights as an idea and practice in contemporary societies. In addition to providing an introduction to the subject, the course is a requirement for students minoring in Human Rights or pursuing a Human Rights Certificate.

In order to pursue a Human Rights minor or Certificate, a student must receive at least a B (3.0) in this course. Students should take this introductory course in their sophomore year but must take it no later than the first semester of their junior year. This is a writing intensive course.

*prereq: ENGL 12000 or equivalent; one course in ethics, political philosophy, political theory, sociological theory, or permission from the instructors.*

3 hrs  
3 cr.  
*fall and spring; summer when possible*

**HR 26000 - Human Rights Internship Seminar (W)**

This course critically evaluates the role of human rights organizations and human rights practices in determining the meaning and value of human rights.
prereq: ENGL 12000 and HR 20000
prereq or coreq: HR 25000
3 hrs
3 cr.
fall semesters on Wednesdays, 10:10 a.m. – 1:00 p.m. It is recommended that students not take an earlier Wednesday morning class, as site visits off campus may start at 10:00 a.m.

**HR 35000 - Human Rights Capstone Seminar (W)**

This course involves the theoretical examination of constitutive problems in the discourse and practice of human rights, especially as they would inform the composition of a human rights academic research project. It requires participating students to present their research projects in the seminar and to compose a 20-25 page research paper on a human rights topic.

This course is specifically designed for students who are pursuing a Certificate in Human Rights. This is a writing intensive course.

**prereq or coreq: HR 26000**  
Offered spring 2012; not offered fall 2011

**Macaulay Honors College (a/o fall 2001)**

**MHC 10000 - MHC Seminar 1, The Arts in New York City (W)**

**Hunter Core**  
Creative Expression (CE)  
Fulfills GER 2D, Visual and Performing Arts: Media, Art, Dance, Film, Music, Theatre

**Hunter Core**  
Scientific World (SW)  
GER
GER 3B

**prereq: Macaulay Honors College only. ENGL 12000; MHC 15000 or its equivalent at another CUNY Honors College campus**

3 hours
3 credits
MHC 25000 - MHC Seminar 4: Shaping the Future of New York City (W)

**Pluralism and Diversity**
Macaulay Honors College
Fulfills GER 2B, Social Science: People and their Societies
*prereq: Open only to Macaulay Honors College students.*
3 hours
3 credits

Mathematics and Statistics

**MATH 37600 - Philosophy of Mathematics (W)**

**GER**
3/B

Study of such issues as the nature of demonstration or proof and the nature of mathematical knowledge and mathematical objects such as numbers and sets. Cross-listed as PHIL 37600.
*prereq: ENGL 12000; PHIL 10100, MATH 27500*
3 hrs
3 cr.

Music

**MUSHL 20600 - Music History II (W)**

**Pluralism and Diversity**
PD/D
For music majors. Continuation of MUSHL 20500. Survey of the history of music in the European tradition from 1600 to 1800.
*prereq: MUSHL 20100, 20500, ENGL 12000*
*prereq or coreq: MUSTH 22100, 23100*
3 hrs
3 cr.
offered spring

**MUSHL 21000 - Music for the Piano (W)**

**Pluralism and Diversity**
GER 3/A PD/D
Piano literature from the 18th century to the present.
*prereq: ENGL 12000; one of the following: MUSHL 10100, 10700, 20000, MUSTH 10100, or perm instr.*
3 hrs
3 cr.

**MUSHL 21200 - Masterpieces of Opera (W)**

**Pluralism and Diversity**
PD/D
GER
Study of operatic styles of such composers as Mozart, Verdi, and Wagner.

**prereq:** ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 10100, or perm instr.
3 hrs
3 cr.

**MUSHL 21700 - History of Jazz (W)**

Pluralism and Diversity
PD/B
GER
3/A

Survey of jazz from its origins to the present.

**prereq:** ENGL 12000; one of the following: MUSHL 10100, 10700, 20500, MUSTH 10100, or perm instr.
3 hrs
3 cr.

Pluralism and Diversity
PD/D
GER
3/A

Philosophical writings of major existentialists. Topics include nature of subjectivity, moral value, freedom, authenticity.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

**PHILO 23000 - Feminism: Philosophical Theory and Practice (W)**

Pluralism and Diversity
PD/C
GER
3/A

Analyses of feminist theories and their practical implications.

*cross-listed WGST 23000 (W)*

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

**PHILO 24400 - Moral Philosophy (W)**

GER
3/A

Study of selected problems in philosophical ethics and moral psychology.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

**PHILO 24600 - Political Philosophy (W)**

GER
3/B

Study of selected philosophical problems in politics, law, economics and society.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

**PHILO 24800 - International Ethics (W)**

GER
3/B

Study of the ethical dimensions of problems in contemporary international relations, such as war and peace, imperialism, national identity and development.

*prereq: ENGL 12000 and one previous course in philosophy.*
PHILO 25000 - Problems of Ethics and Society (W)

GER
3/B

Study of the ethical dimensions of contemporary social problems, such as poverty, consumption, sexual deviance, racism and environmental destruction.

_prereq: ENGL 12000 and one previous course in philosophy.

3 hrs
3 cr.

PHILO 25400 - Ethical Issues in Biology and Medical Care (W)

GER
3/B

Treats issues such as abortion, euthanasia, extraordinary means, confidentiality, human experimentation, genetic control and allocation of limited life-saving therapy.

_prereq: ENGL 12000 and one previous course in philosophy.

3 hrs
3 cr.

PHILO 25600 - Philosophical Ideas in Literature (W)

GER
3/A

Analysis of major philosophical themes in some classics of world literature.

_prereq: ENGL 12000 and one previous course in philosophy.

3 hrs
3 cr.

PHILO 25800 - Aesthetics (W)

GER
3/A

Study of philosophical issues that arise in our understanding and criticism of the arts. Topics include nature of expression, purpose and standards of criticism and aesthetic value.

_prereq: ENGL 12000 and one previous course in philosophy.

3 hrs
3 cr.

PHILO 26200 - Philosophy of Religion (W)

GER
3/A
Philosophical examination of some religious questions and beliefs.
prereq: one course in philosophy or religion (see statement under Program Prerequisites)
3 hrs
3 cr.

PHILO 26800 - Philosophical Psychology (W)

GER
3/B

Views of human nature underlying some major contemporary schools of psychology, such as Freudian psychoanalysis, behaviorism, existential psychoanalysis, Piaget's developmental psychology.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

PHILO 27000 - Philosophy, Science and Culture (W)

GER
3/B

Issues relating to the impact of modern science on philosophy, religion and culture.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

PHILO 32000 - Twentieth-Century Philosophy (W)

GER
3/A

Survey of such movements as pragmatism, process philosophy, analytic philosophy, existentialism, phenomenology, feminism and post modernism through consideration of such representative figures as Dewey, Moore, Whitehead, Russell, Husserl, Heidegger, Wittgenstein, Ayer, Sartre, De Beauvoir, Quine, Rorty and Rawls.
prereq: Two courses in philosophy, at least one of which is at the 200 level.
3 hrs
3 cr.

PHILO 34400 - Contemporary Theories in Ethics (W)

GER
3/A

A study of important theories in contemporary ethics, such as rule utilitarianism, intuitionism, prescriptivism, and constructivism.
prereq: 2 courses in philosophy, 1 at the 200-level.
3 hrs
3 cr

GER
3/B

A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.

3 hrs
3 cr

PHILO 37600 - Philosophy of Mathematics (W)

GER
3/B

Study of such issues as the nature of demonstration or proof and the nature of mathematical knowledge and mathematical objects such as numbers and sets. cross-listed with MATH 376.

prereq: ENGL 12000; one PHIL course and one PHIL or MATH course (precalculus or beyond)

3 hrs
3 cr.

PHILO 37900 - Philosophy of Science (W)

GER
3/B

Study of foundations of knowledge in natural and social sciences.

prereq: Two courses in philosophy, at least one of which is at the 200 level.

3 hrs
3 cr.

PHILO 38000 - Major Figures in Philosophy (W)

GER
3/A

Intensive study of the works and legacy of a major philosopher. The course may be repeated as different figures are offered. Figures include:

PHILO 38010 Plato (W)
PHILO 38011 Aristotle (W)
PHILO 38020 Plotinus (W)
PHILO 38063 Hume (W)
PHILO 38068 Kant (W)
PHILO 38070 Hegel (W)
PHILO 38076 Marx (W)
PHILO 38078 Nietzsche (W)
PHILO 38080 Wittgenstein (W)
PHILO 38083 Heidegger (W)
PHILO 38086 Foucault (W)

prereq: Two courses in philosophy, at least one of which is at the 200 level.

3 hrs
3 cr
Physics and Astronomy

PHYS 39900 - Senior Thesis (W)

This course is to prepare the students for graduate research. Each student will undertake a research experience, experimental, theoretical, and/or computational, under the supervision of a department faculty member. A final oral as well as written report will be required. The goals are that the student learns research skills in physics, written and oral communication skills, while furthering their knowledge in a topical area in physics.

*prereq: PHYS 11100, 12100

*prereq or coreq: ENGL 12000, and at least four 200-, 300-, or 400-level physics courses

3 cr.

Political Science

POLSC 10000 - Introduction to Politics: Democracy, Anarchy and the State (W)

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/B

Introduction to some of the major questions, approaches, and texts of political science. Students will explore questions of power, coercion, virtue, democracy, conflict, and cooperation and read Plato, Aristotle, Weber, Lipset, Waltz, and Jervis, among others. Does not satisfy the major’s four subfield distribution requirement.

*prereq or coreq: ENGL 12000 or its equivalent

3 hrs
3 cr.

POLSC 11000 - American Government: A Historical Introduction (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

*prereq: ENGL 12000 (or equivalent)

*prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 20000 - Interpreting Politics: An Introduction to Political Ideas (W)

Hunter Core
Individual and Society (Social Sciences) - I&S SS
GER
2/B or 3/B

An introduction to interpreting major political ideas and their significance in the contemporary world. Competing understandings of concepts such as freedom, equality, justice, citizenship, and legitimacy will be explored, in part by applying them to concrete political issues such as multiculturalism, economic distribution, and the death penalty.

3 hrs
3 cr.

POLSC 20100 - Ancient to Early Modern Political Thought (W)

Pluralism and Diversity
PD/D
GER
3/B

The study of selected writers from the ancient Greeks to the Renaissance (e.g., Plato to Machiavelli), focusing on the political dimensions of such ideas as rationality, virtue, community, human nature and historical change.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 20200 - Modern Political Thought (1600-1900) (W)

Pluralism and Diversity
PD/D
GER
3/B

The study of selected political writers (e.g., Hobbes to Nietzsche), with special emphasis given to the nature of and problems with, liberty, equality and justice in modern societies and states.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 20300 - Political Thought Since 1900 (W)

Pluralism and Diversity
PD/D
GER
3/B

Exploration of concepts and thinkers in political theory since 1900. Topics include such traditional issues of political
theory as the nature and scope of political regimes, justice, equality and changing concepts of human nature.

**prereq:** ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 20600 - Research Design in Political Science (W)**

**GER**
3/B

Public opinion surveys, content analysis, legislative roll-call analysis, census data, election returns. Introduction to statistics. Uses Social Science Data Lab.

**prereq:** passing college proficiency exam in math or perm instr; ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 20700 - Data Analysis in Political Science (W)**

**GER**
3/B

Computer applications and statistical analysis in political science. Students write a quantitative term paper. Uses Social Science Data Lab.

**prereq:** POLSC 20600 or perm instr.
3 hrs
3 cr.

**POLSC 20900 - Women and Gender in Western Political Thought (W)**

**Pluralism and Diversity**
PD/C or D

**GER**
3/B

Examines history of political thought from the perspective of gender relations and the treatment of women.

**cross-listed** WGST 20900

**prereq:** ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 21100 - State Government and Politics (W)**

**GER**
3/B

Comparative analysis of state governments. Power and role of governors, state legislatures, parties, lobbies.

**prereq:** ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 21200 - Urban Politics (W)**
Politics in New York City and other urban areas. Decentralization, suburbanization, race, ethnicity, reform.

*prereq: ENGL 12000 or its equivalent*

3 hrs

3 cr.

**POLSC 21500 - Public Opinion and Political Participation (W)**

What American people think about politics and how they express it, from polls to elections to demonstrations.

*prereq: ENGL 12000 or its equivalent*

3 hrs

3 cr.

**POLSC 21800 - Women and Politics (W)**

Constitutional and legal position of women, ERA, affirmative action, marriage, divorce, property, feminist causes.

*cross-listed WGSP 21800 (W)*

*prereq: ENGL 12000 or its equivalent*

3 hrs

3 cr.

**POLSC 21900 - Women and the Law (W)**

Overview of how local, state and federal laws treat people on the basis of sex.

*cross-listed WGSP 21900*

*prereq: ENGL 12000 or its equivalent*

3 hrs

3 cr.

**POLSC 22100 - U.S. Immigration Policy (W)**

The course focuses on the political development of federal immigration policy, and on historical and contemporary
issues in policy design and implementation. The course also surveys recent findings and debates arising from empirical analyses of immigration policy.

*prereq: ENGL 12000 or its equivalent and POLSC 11000/11100 or HIST 15100/15200*

3 hrs
3 cr.

**POLSC 22600 - Interest Group Politics (W)**

**GER**
3/B

Analysis of the organization and role of interest groups in American politics. The course stresses the importance of organizational resources and the ability of interest groups to be “faithful advocates” of member interests in exercising influence in elections and policy-making.

*prereq: ENGL 12000 or equivalent*

3 hrs
3 cr.

**POLSC 22700 - Political Parties (W)**

**GER**
3/B

Theories, historical analysis, and contemporary views of the central institution that links citizens and office holders in the United States, with a focus on the role of parties as vehicles for expressing and pursuing policy goals.

Not open to students who completed POLSC 21400

*prereq: ENGL 12000 or its equivalent*

3 hrs
3 cr.

**POLSC 22800 - Protest Movements in American Politics (W)**

**Pluralism and Diversity**

P/D B or C

**GER**
3/B

Analysis of historical and contemporary protest movements in the context of American politics; includes key concepts and explanatory factors in social movement theory, and movements such as the anti-slavery, women's suffrage, labor, civil-rights, anti-war, feminist, environmental, gay-rights, pro-choice, pro-life, and Patriot movements.

*prereq: ENGL 12000 or equivalent*

3 hrs
3 cr.

**POLSC 23000 - The American Presidency (W)**

**GER**
3/B

Selection, election, role, functions and powers of the president.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 23500 - The American Congress (W)**

**GER**

3/B

**prereq: ENGL 12000 or its equivalent**
3 hrs
3 cr.

**POLSC 24000 - The American Judiciary (W)**

**GER**

3/B

The Supreme Court and other federal courts as part of policy-making process in American government.

**prereq: ENGL 12000 or its equivalent**
3 hrs
3 cr.

**POLSC 24400 - Energy and Environmental Politics and Public Policy (W)**

**GER**

3/B

Examination of political processes and public policies shaping energy production and consumption in the U.S. with comparative reference to other countries. Emphasis on political, economic, social, environmental and foreign policy aspects.

**prereq: ENGL 12000 or its equivalent**
3 hrs
3 cr.

**POLSC 25000 - Comparing Countries (W)**

**Hunter Core**

World Culture and Global Issues (WCGI)

**Pluralism and Diversity**

GER
3/B

An introduction to basic concepts and problems in the area of international security, this course will explore explanations for some of the central causes of security/insecurity and peace/war, as well as examine select contemporary security issues.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 28300 - Terrorism (W)
The course will explore the types, causes, and strategies of terrorism as well as the effectiveness and civil liberty implications of counterterrorism strategies. Both contemporary and historical terrorist groups will be considered.

Not open to students who have completed POLSC 27353.

**prereq or coreq:** ENGL 12000 or the equivalent

3 hrs
3 cr.

**POLSC 29102-29103 - Directed Research (W)**

This course is designed to teach individual students how to do research under the direction of a full-time faculty member. Students will participate in ongoing faculty research, and may do independent reading, library research, data collection and data analysis. The course will culminate in a research paper, literature review, or co-authored conference paper submitted for publication. Students will gain an understanding of the research methods utilized in the project, will gain hands-on experience in basic research, and will learn how to write the a research report with extensive feedback from their faculty supervisor.

**prereq or coreq:** ENGL 12000 or the equivalent; minimum of 60 credits and 15 credits in political science or permission of a full-time faculty supervisor.

2 or 3 hrs
2 or 3 cr.

**POLSC 30100 - American Political Thought (W)**

3/B

Examination of ideas that have shaped American politics from the Revolution to the present, including Federalists and Anti-Federalists, Progressivism and responses to industrialization and recent debates over the welfare state, political inclusion and democracy.

**prereq:** ENGL 12000 or its equivalent; one course in political theory or perm. instr.

3 hrs
3 cr.

**POLSC 30200 - Critical Theory and Politics (W)**

3/B

Intensive study in the core concepts and ideas in the tradition of Critical Theory. Thinkers include, among others, Kant, Hegel, Marx, Nietzsche, Adorno, Horkheimer, Marcuse, Fanon, and Foucault, as well as contemporary critical theorists. Themes and foci will vary by semester and will include: the nature and purpose of critique; political sociology and the analysis of liberalism, fascism and other political formations; mass culture and the fate of art; power and the psyche; reason and affect; violence and terror; the philosophy of history, and the politics of liberation.

**prereq:** ENGL 12000 or the equivalent; at least one 200-level course in political theory or permission of the instructor.

4 hrs
4 cr.

**POLSC 30500 - Democratic Theory (W)**
A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.

**POLSC 30900 - Feminist Political Theory (W)**

**Pluralism and Diversity**

Readings in feminist ideas, both historical and contemporary, on issues of power, justice and equality. The course will emphasize different perspectives, including those of liberal, radical, postmodernist, women of color, third world and 'global' feminists.

*cross-listed WGST 30900 (W)*

**prereq:** ENGL 12000 or its equivalent; one course in political theory or perm instr.

3 hrs

3 cr.

**POLSC 31000 - Comparative Legal Systems (W)**

Comparative study of major legal traditions of the modern world, including common law, civil law, Soviet, Islamic, Chinese, tribal and hybrid systems.

**prereq:** POLSC 11000, 23800 or 34000 or 34100 or 34300 or 37500 or any course in comparative politics subfield, or perm instr; ENGL 12000 or its equivalent

3 hrs

3 cr.

**POLSC 31100 - Utopian Theory (W)**

Political theorists often imagine ideal worlds, both to explore ideals and to criticize political realities. This course will explore utopias and dystopias as theories that explore political possibilities and challenge existing realities.

**prereq:** ENGL 12000 or its equivalent; one course in political theory or perm dept.

3 hrs

3 cr.

**POLSC 31600 - Political Theory of Human Rights (W)**

3/B
A critical analysis of the intersection of academic and practical discourse of human rights with the central concerns of political theory, particularly as it engages relationships between ethics and power as well as theory and practice.

*prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.*

3 hrs

3 cr.

**POLSC 32000 - Ethnic Politics (W)**

**Pluralism and Diversity**

PD/B

GER

3/B

Ethnicity in local and national politics. Major groups, how they affect government, what government does for them.

*prereq: ENGL 12000 or its equivalent*

3 hrs

3 cr.

**POLSC 32100 - American Political Economy (W)**

GER

3/B

Critical analysis of the distribution of power between the state and the private sector. Theories about the government-business relationship are tested through a series of case studies.

*prereq: ENGL 12000 or its equivalent*

3 hrs

3 cr.

**POLSC 32200 - Social and Economic Policies in Western Europe and the United States (W)**

**Pluralism and Diversity**

PD/D

GER

3/B

Evolution of social and economic policies from the 19th century to the present. Policies are analyzed in light of tensions between democracy and capitalism.

*prereq: Prereq: ENGL 12000 (or equivalent) and any course in Amer Pol or Comp Pol. Open only to students who have completed 45 credits and 9 credits in PolSc. Not open to students who have completed PolSc 31500. Counts as either American or Theory (but not both).*

4 hrs

4 cr.

**POLSC 32300 - Politics of Public Budgeting (W)**

GER

3/B

This course sets the processes and techniques of public budgeting within the context of American political institutions at the national, state and local levels.
prereq: ENGL 12000 or the equivalent; two political science courses at the 200-level or above or permission of the instructor
4 hrs
4 cr.

POLSC 33000 - American Political Development (W)

GER
3/B

Analysis of the historical development of American politics, including: the impact of the Constitution, ideas, and political culture; state building/unbuilding in different historical eras; and the evolution of citizenship and political participation.

prereq: ENGL 12000 or its equivalent, POLSC 11000 or perm. inst
4 hrs
4 cr.

POLSC 34000 - Constitutional Law: Organizing the Government (W)

GER
3/B

Constitutional problems and Supreme Court decisions. Federalism, judicial review, separation of powers, foreign policy.
prereq: POLSC 11000 or 11100 or 23800
3 hrs
3 cr.

POLSC 34100 - Constitutional Law: Civil Rights (W)

GER
3/B

Constitutional problems and Supreme Court decisions regarding race and sex discrimination.
prereq: POLSC 11000 or 11100 or 23800
3 hrs
3 cr.

POLSC 34200 - Constitutional Law: The First Amendment (W)

GER
3/B

Constitutional problems and Supreme Court decisions regarding freedom of speech, press (media), religion and assembly.
prereq: POLSC 11000 or 11100 or 23800
3 hrs
3 cr.

POLSC 34300 - Criminal Law (W)
Constitutional problems and judicial decisions regarding search and seizure, right to counsel, self incrimination.

**POLSC 34800 - Public Administration and Public Policy (W)**

Analysis of problems in policy-making and administration, focusing on motivations, ethics, authority.

**POLSC 35100 - Government and Politics of Russia and the Post-Soviet States (W)**

Post-Soviet politics, institutions, social forces, economic transformations and regions.

**POLSC 35200 - State and Society in Africa (W)**

An examination of the nature of the relationship between the African state and civil society in the post-independence period and how this relationship influences governance and democracy.

**POLSC 35300 - Social Movements, Civil Society and the State in Latin America (W)**

Analysis of the role of popular and opposition movements in Latin America and their relationship to the state, from the challenges to the dictatorships of the 1970s through the contemporary neoliberal economic order and democratic politics.
prereq: ENGL 12000 or the equivalent; a course in comparative politics; minimum of 45 credits and 9 credits in political science or permission of the instructor.
4 hrs
4 cr.

**POLSC 35600 - India's Democratic Experiment (W)**

**Pluralism and Diversity**
P/D A
GER
3/B

Assesses the nature and durability of India's democratic political system. Examines key events, personalities, institutions, and movements in Indian politics from Independence (1947) to the present. Focuses on the challenge of adapting democratic institutions to circumstances of extreme social diversity and economic deprivation.

*prereq: ENG 12000 and any POLSC course at either the 200 or 300 level in comparative politics*
4 hrs
4 cr.

**POLSC 36000 - Democracy & Development in a Globalizing World (W)**

**Pluralism and Diversity**
P/D A
GER
3/B

The relationship between democracy and development in post-colonial countries. Questions include: What relations of causality, in either direction, have political scientists sought to establish between democracy and development? What is the impact of globalization on these relations? How can historical analysis help to illuminate these and other issues, such as why some countries have been better at promoting per capita income growth than others? What efforts have been undertaken – by individual citizens, by civic groups, by aid donors – to plug the democratic deficits that arise in the course of pursuing development under 21st Century conditions?

*prereq: ENG 12000 and any POLSC course at either the 200 or 300 level in comparative politics*
4 hrs
4 cr.

**POLSC 37400 - International Human Rights (W)**

GER
3/B

An examination of the origins, substance and processes of human rights in international relations.

*prereq: ENGL 12000 or its equivalent*
3 hrs
3 cr.

**POLSC 37500 - International Law (W)**

GER
3/B
The course will examine the sources, principles, functions, and effectiveness of international law.

**Polsci 37600 - International Political Economy (W)**

**GER**
3/B

Examination of the intersection of politics and economics at the international level through a careful reading and analysis of dominant theoretical approaches and their application to central debates concerning the politics of trade, money and finance, development and globalization.

**Prereq:** Polsci 11500 or 27000 or 27500; minimum of 45 credits and 9 credits in political science or permission of the instructor

**Coreq:** English 12000 or its equivalent

4 hrs
4 cr.

**Polsci 37700 - Theories of International Politics (W)**

**GER**
3/B

An examination of the central concepts and issues in international politics that underpin the main theoretical debates in the field.

**Prereq:** Polsci 11500 or 27000 or 27500 or 28200 or perm. instr.

**Coreq:** English 12000 or its equivalent

3 hrs
3 cr.

**Polsci 37800 - Russian National Interest: Past and Present (W)**

**Pluralism and Diversity**

**PD/D**

**GER**
3/B

In a contemporary, historical and comparative context, this course will explore the factors influencing debates on and definitions of Russia’s national interests, the strategies for promoting those interests and the implications for Russia and the international system.

**Prereq:** Polsci 11500 or 11700 or 25000 or 27000 or perm instr.

**Coreq:** English 12000 or equivalent

3 hrs
3 cr.

**Polsci 38000 - European Security (W)**
Pluralism and Diversity

PD/D
GER
3/B

A theoretically informed examination of current and historical security problems in Europe, with a focus on the sources of war and peace, strategic calculations, alliances, institutions, democratization, norms, and ideological and identity conflicts. A principal aim is to establish a foundation for analyzing the prospects for a secure order in Europe in the first part of the 21st century.

*prereq: POLSC 11500 or 27000 or 28200; minimum of 45 credits and 9 credits in political science or permission of the instructor
*coreq: ENGL 12000 or its equivalent
*4 hrs
*4 cr.

**POLSC 38100 - East Asia in World Politics (W)**

Pluralism and Diversity

PD/A
GER
3/B

An examination of sources of stability and instability in East Asia, using social science theories and historical background.

3 cr.

REL 33400 - Mysticism (W)
Cross-cultural exploration of mystical experience and mystical doctrines, as well as an exploration of the various methods of studying them.  

*prereq:* ENGL 12000  
3 hrs  
3 cr.

**REL 33500 - Myth and Ritual (W)**

Cross-cultural exploration of myth and ritual and their place in various cultures; methodologies for analysis.  

*prereq:* ENGL 12000  
3 hrs  
3 cr.

**REL 33600 - Zen (W)**

An inquiry into the teachings of Chinese and Japanese Zen in light of their Buddhist and Daoist backgrounds.  

*prereq:* ENGL 12000  
3 hrs  
3 cr.

**REL 33700 - Sufism (W)**

A course on the esoteric or mystical dimension of Islam, known among Muslims as ta'awwuf, attending to the history, doctrine and metaphysics of the Sufi path.  

*prereq:* ENGL 12000  
3 hrs  
3 cr.

**REL 34000 - Homosexuality in World Religions (W)**

A course on the esoteric or mystical dimension of Islam, known among Muslims as ta'awwuf, attending to the history, doctrine and metaphysics of the Sufi path.  

*prereq:* ENGL 12000  
3 hrs  
3 cr.
A survey and analysis of typical ways in which homosexuality has been understood, evaluated and in some cases institutionalized in a variety of religious traditions, attending especially to implicit constructions of gender.

prereq: ENGL 12000
3 hrs
3 cr.

**REL 39000 - Modern Theories of Religion (W)**

**Pluralism and Diversity**
PD/D
GER
3/A

An interdisciplinary continuation of the study of methodological and theoretical issues begun in REL 11100, focusing on current debates and contemporary literature.

prereq: ENGL 12000, REL 11100
3 hrs
3 cr.

**REL 20900 - Religion and Human Rights (W)**

**Hunter Core**
Individual and Society - Humanities
GER
2/C

It has been contended that religious beliefs about the natural and moral order, as well those concerning human nature, lie at the foundation of the idea of human rights. Some histories of human rights even begin with a survey of the teachings of various major religious traditions. And, as the idea of, and movements for, international human rights swept the globe in the latter parts of the 20th century, scholars and religious thinkers examined and assessed the confluence of the world's religious systems of thought, conscience, and belief with the norms and standards of the human rights project. Yet, even as religious thinkers and leaders contribute significantly to human rights movements around the world, some human rights norms—for example, those prohibiting gender- or religion-based discrimination, prohibitions on certain forms of punishment—seem to conflict head on with the strictures of various religions. This course will examine these various intersections.

prereq: ENGL 12000
3 hrs
3 cr.

**REL 21100 - The Sacred Sky: Astrology in World Religions (W)**

GER
2/C

Astrology is a belief system that exists cross-culturally because the sky is an omnipresent cultural resource, and while different civilizations have varied beliefs about the meaning of celestial activity, those beliefs share a common thread: the sky is sacred, and celestial activity is an expression of that sacrality. The names of the planets and the stars, as well as their myths and stories may differ from tradition to tradition, but ancient astronomers of every culture studied
celestial motion, detected patterns, understood those patterns to be cyclical, and believed they formed the basis of an orderly and precise cosmology.

**prereq: ENGL 12000**

3 hrs

3 cr.

**REL 25700 - Religions of Ancient Central and South America (W)**

**Hunter Core**
World Cultures and Global Issues (WCGI)

**Pluralism and Diversity**

P/D B

GER

2/C

Exploration of the religious traditions of several pre-Columbian cultures of Central and South America using both material culture and texts, and raising such central questions in the study of religion as the nature of cosmologies and their relation to ritual, architecture, and social organization.

The course will also briefly consider if the thread of Mesoamerican, Central and South American religions still holds in the modern age, whether in modern syncretic religious movements or pockets of traditional life-ways.

**prereq: ENGL 12000**

3 hrs

3 cr.

**REL 25800 - Religions of Ancient Europe (W)**

**Hunter Core**
World Cultures and Global Issues (WCGI)

**Pluralism and Diversity**

PD/D

GER

2C

Exploration of the religions of Europe before influence of the Classical Greek, Roman and Christian worlds. Areas covered include the material culture of pre-literate peoples—the prehistoric cave art of the Upper Paleolithic and farming settlements of the British Isles, Central Europe, Iberia, Scandinavia, the Balkans and Eastern Europe—as well as ancient texts revealing beliefs and practices which pre-exist Christian influence and are foundational for future cultural developments.

3 hrs

3 cr.

**REL 32600 - Religious Meanings of the Qurʾān (W)**

GER

3/A

This course introduces students to the study of the Qurʾān based on the traditional Islamic “sciences of the Qurʾān” (ʿUlam al-Qurʾān). Using an introductory text on the Qurʾānic sciences, the course will introduce the traditional areas of concern in the Qurʾānic sciences: the revelation, transmission, form, language and style, hermeneutics, and principles and types of exegesis. The course will continue by introducing students to representative examples of the types of material referred to in the textbook. This material is chosen on the basis of (1) interest, (2) accessibility (especially the availability of English translations) and (3) the ability to give students some exposure to the variety of
styles and approaches to the material available in the literature, introducing the students to representative examples of
the types of material referred to in the introductory text. This material provides students with illustrative exposure to
both classical and modern Muslim approaches to the Qur’an and its exegesis.

\textit{prereq: Engl 12000}
3 hrs
3 cr.

Romance Languages

French

\textbf{FREN 25600 - Dream and Image (W)}

\textit{GER}

3 cr.

**Women and Gender Studies**

**WGS 20100 - Classics in Feminist Thought (W)**

- **Pluralism and Diversity**
- **PD/C**
- **GER**
- 3/A or B

The course covers the historical debates within the ‘women’s movement’ in the United States by examining some of the ‘classical’ texts by Mary Wollstonecraft, John Adams, and Sojourner Truth. The course also covers the political and intellectual contribution by women of color to the discipline by reading Gloria Anzuldua, bell hooks, Audre Lorde, Patricia Williams, Kimberley Crenshaw among others. ‘Foundational’ texts by Gayle Rubin, Judith Butler, and Adrienne Rich offer a deeper understanding of queer theory’s influence to the discipline. Even as the course reads ‘classic’ texts of the discipline, we will critically examine the formation of a cannon.

prereq: WGS 10000, ENGL 12000 or equiv.
3 hrs
3 cr.
WGST 20900 - Women and Gender in Western Political Thought (W)

WGST 30900 - Feminist Political Theory

Pluralism and Diversity
PD/C
GER
3/B

Readings in feminist ideas, both historical and contemporary, on issues of power, justice and equality. The course will emphasize different perspectives, including those of liberal, radical, postmodernist, women of color, third world and global feminists.
cross-listed POLSC 30900
prereq: ENGL 12000
WGSL 31500 - Work and Society (W)

GER
3/B

Work in market economies, mechanisms of control and sources of stratification, gender and ethnic factors, role of education and trade unions.
cross-listed SOC 31500
prereq: SOC 10100
3 hrs
3 cr.

WGSC 31800 - Women in Africa (W)

Pluralism and Diversity
GER 3/B PD/A or C
Examination of African womanhood in traditional setting during colonialism and neo-colonialism, independence and revolution.
cross-listed AFPRL 31800(W)
prereq: AFPRL 20200 or AFPRL 22200 or perm instr.
3 hrs
3 cr.

WGSA 31900 - Advanced Topics in Literature by Women (W)

Pluralism and Diversity
PD/C
GER
3/A

Selected works by women in relation to a special theme, technique, genre, theoretical issue or cultural consideration. May be repeated once for credit with a different topic.
cross-listed ENGL 31900
prereq: ENGL 22000
3 hrs
3 cr.

WGSC 32900 - Women in the African Diaspora (W)

Pluralism and Diversity
PD/B or C
GER
3/B

The cultural-historical role of women of African descent in North America and the Caribbean in relation to the family, to political resistance, and in sustaining African culture and values.
cross-listed AFPRL 31900 (W)
prereq: AFPRL 20400, 20900 or 21000 or perm instr.
WGS 33600 - African-American Women Writers (W)

Pluralism and Diversity
PD/B or C
GER
3/A

African-American female authors from slavery to present: novels, short stories, essays, plays, poetry, teenage fiction, and children's books.
cross-listed AFPRL 33600
prereq: AFPRL 23600 or perm instr.
3 hrs
3 cr.

WGSA 33700 - Caribbean Women Writers (W)

GER
3/A

A study of some of the major preoccupations of Caribbean fiction, such as history, migration/travel, eolization, memory and language, from the perspectives of selected women writers, paying close attention to the historical, intellectual and cultural contexts that stimulated the production of these works.
cross-listed AFPRL 33700
prereq: AFPRL 23600 or 23700 or ENGL 22000 or WGS 10000
3 hrs
3 cr.

WGSA 38400 - Women and Media (W)

Pluralism and Diversity
PD/C
GER
3/A

Examination, from historical and formal perspective, of ways in which women have been represented by mass media in America since mid-19th century. Exploration of how feminists for 100 years have challenged these images and posed alternative modes of cultural representation and production.
cross-listed MEDIA 38400
prereq: MEDIA 18000
3 hrs
3 cr.

Undergraduate Certificate and Minor

Human Rights

Return to Human Rights Program
Minor in Human Rights

15-credit Minor in Human Rights (5 3-credit courses).

The minor consists of the following courses:

2 Core Required Courses

- Introduction to Human Rights (HR 20000)
- Internship in Human Rights (HR 25000)

3 Elective Cognate Courses from an approved list

The approved list of cognates comprises courses drawn from 16 academic departments and programs, giving students a wide range of traditional disciplinary perspectives to examine claims about the universal nature of human rights, their historical origins, social and cultural contexts that affect the understanding and status of human rights, and the relation of human rights to political conflicts and the presence or absence of economic well-being. Students should work with the Human Rights Program adviser to put together an intellectually meaningful set of cognate courses.

Complementing these elective courses offered by regular Hunter departments, the Human Rights Program itself offers special elective courses taught at Roosevelt House each semester by distinguished human rights practitioners.

To be accepted into the Minor program, a student must have completed HR 20000 with a B and have a cumulative GPA of 3.0.

Certificate in Human Rights

24-credit Certificate in Human Rights

4 Core Required Courses

HR 20000 Introduction to Human Rights: History, Discourse, Practice (W)
HR 25000 Human Rights Internship
HR 26000 Human Rights Internship Seminar (W)
HR 35000 Human Rights Capstone Seminar (W)

4 Elective Cognate Courses from an Approved List

The approved list of cognates comprises courses drawn from 16 academic departments and programs, giving students a wide range of traditional disciplinary perspectives to examine claims about the universal nature of human rights, their historical origins, social and cultural contexts that affect the understanding and status of human rights, and the relation of human rights to political conflicts and the presence or absence of economic well-being. Students should work with the Human Rights Program adviser to put together an intellectually meaningful set of cognate courses.

Complementing these elective courses offered by regular Hunter departments, the Human Rights Program itself offers special elective courses taught at Roosevelt House each semester by distinguished human rights practitioners.

To be accepted into the Certificate program, a student must have at least completed HR 20000 with a B and have a cumulative GPA of 3.0.
Courses in Human Rights

Public Policy

The Program in Public Policy is an 18-credit undergraduate minor open to students in all disciplines. Students also have an option to pursue 9 additional credits (for a total of 27 credits) to receive a Certificate in Public Policy upon graduation. The Roosevelt House program is based on the understanding that the preparation of informed citizens is essential to a healthy democracy and an important aspect of a liberal arts education. Unlike most graduate programs in public policy that are designed to prepare people for careers in the public and nonprofit sectors, the undergraduate program at Roosevelt House provides students with knowledge and skills that enable them to be active participants in a democratic society. Many of its graduates will undoubtedly go on to careers in the public and nonprofit sectors. Capable citizenship, however, is required in all walks of life; therefore the program can benefit all students regardless of their stated major, career goals, or personal objectives. To enroll in the public policy minor (18 credits) or certificate (27 credits), a student must have completed at least 45 credits of undergraduate study, with a minimum G.P.A. of 3.0.

Minor in Public Policy

An 18-credit undergraduate minor in public policy is open to students in all disciplines.

Core Requirements

PUPOL 10000 - Introduction to Public Policy

An interdisciplinary introduction to public policy utilizing the literature and tools of a variety of social science disciplines. This course introduces students to basic concepts and approaches in public policy. It will acquaint students with public policy as a field of study, the basic elements of the policy making process, and distinct modes for analyzing public policy and its outcomes. It will be team-taught by faculty from at least two related social science disciplines.

Writing Requirements: This course will require 20 to 25 pages of writing in the form of two take home essay examinations (4-5 pages each), a proposal for a final paper (3-5), and a final paper (8-10 pages).

Open only to students enrolled in the program. Cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

prereq: declaration of a minor/certificate in Public Policy and a minimum GPA requirement of 3.0
3 hrs
3 cr.

PUPOL 40000 - Capstone Seminar

This writing intensive course is the culminating experience in the Public Policy minor/certificate. It provides students with an opportunity to apply the knowledge and skills acquired in their other courses to a specific policy problem. An interdisciplinary course, it will require students to make an inquiry into a specific policy problem. The project will be overseen jointly by a faculty adviser who specializes in the substantive area of public policy chosen and another faculty adviser in the program by writing a formal paper.

Each student will write an appropriately revised 5-7 page research proposal and a 20-25 page research paper involving primary research.

These courses are only open to students enrolled in the program. They cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.
prereq: Students must have completed 45 credits, have a declared major, and a cumulative GPA of 3.0 or higher.
3 hours
3 credits

Introduction to American Government and Politics

POLSC 11000 - American Government: A Historical Introduction (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

One Course in Economic Analysis

ECO 20000 - Principles of Microeconomics

Hunter Core
Scientific World (SW)
GER
2/B

May be taken prior to or concurrently with ECO 20100. Determination of prices and quantities of goods and services, including labor and other resources; competitive and imperfect markets; public policy implications.

prereq: MATH 10100 or exemption from the course
3 hrs
3 cr.

One Course in Quantitative Analysis

ECO 22100 - Economic Statistics

Hunter Core
Mathematics and Quantitative Reasoning
GER
1/B

Probability and statistics in the context of economics, business and public policy; data analysis, probability
distributions, and hypothesis testing.

**prereq:** MATH 12500 or exemption from the course
3 hrs
3 cr.

**POLSC 20600 - Research Design in Political Science (W)**

**GER**
3/B

Public opinion surveys, content analysis, legislative roll-call analysis, census data, election returns. Introduction to statistics. Uses Social Science Data Lab.

**prereq:** passing college proficiency exam in math or perm instr; ENGL 12000 or its equivalent
3 hrs
3 cr.

**SOC 24000 - Introduction to Research Methods**

**GER**
3/B

Discussion of various research techniques and strategies including the survey method, field research, experiments, and content analysis. Firsthand involvement in the collection of quantitative data.

**prereq:** SOC 10100
3 hrs
3 cr.

**STAT 21300 (STEM) - Introduction to Applied Statistics**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Sampling, estimation, tests of hypotheses, including one-and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

**prereq:** MATH 12500 or appropriate score on placement exam.
3 hrs
3 cr.

One Course in Normative, Ethical, and Value Analysis. Such courses include but are not limited to:

**PHILO 10600 - Philosophy, Politics and Society**

**Hunter Core**
Individual and Society (Social Sciences) - I&S SS

**Pluralism and Diversity**
PD/D

**GER**
2/C
Introduction to social and political philosophy.
3 hrs
3 cr.
offered each semester

PHILO 24400 - Moral Philosophy (W)

GER
3/A

Study of selected problems in philosophical ethics and moral psychology.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

PHILO 10400 - Introduction to Ethics

Hunter Core
Individual and Society (Humanities) -I&S H
GER
2/C

Examination of standards of right conduct and the good life through study of selected philosophical classics.
3 hrs
3 cr.
offered each semester

SOC 21800 - Social Inequality

GER
3/B

Examination of social inequality in contemporary society from various empirical and theoretical perspectives focusing on class, ethnic, gender, and other determinants of stratification.
prereq: SOC 10100
3 hrs
3 cr.

POLSC 31100 - Utopian Theory (W)

GER
3/B

Political theorists often imagine ideal worlds, both to explore ideals and to criticize political realities. This course will explore utopias and dystopias as theories that explore political possibilities and challenge existing realities.
prereq: ENGL 12000 or its equivalent; one course in political theory or perm dept.
3 hrs
3 cr.

POLSC 30500 - Democratic Theory (W)
A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.

prereq or coreq: ENGL 12000 or its equivalent; one course in political theory or perm instr.

3 hrs
3 cr.

Substantive Policy Specialization

For the Public Policy Certificate each student will take the 6 core courses (18 credits) and will be required to declare a substantive area of specialization comprised of 3 courses (9 credits) of additional course work. These may be grounded in a particular discipline or disciplines. Or a student may use the substantive specialization to take advantage of clusters of expertise that exist across several Hunter departments. Examples of the latter include (but are not limited to) immigration, health, aging, gender studies, macroeconomics, public finance, economic development, race and ethnicity, public law, human rights, ethics, international relations, international trade, education, urban affairs, environmental studies, employment, and social services. Courses designated for the substantive specialization need approval by the faculty advisor.

Additional Opportunities

Hunter College offers other unique opportunities to its students. These options are designed to enrich the student experience in policy curriculum.

Generic Policy Courses

Advanced courses which build on the knowledge and skills acquired in the core courses and are applicable to students in a wide range of substantive specializations.

Internships

Undergraduate internship programs currently exist in a number of academic departments which are designed to give students a chance to work in a policy-related institutional setting outside the university, either in a government agency, nonprofit, think tank, or advocacy group. Some carry compensation, others are voluntary.

Policy Colloquia

A colloquium series will be launched at Roosevelt House that will allow students and faculty to come together several times a semester to discuss public policy issues. Guest speakers, including scholars and practitioners, with relevant expertise will be invited to discuss topics of the day either individually or in panels.

The Africana & Puerto Rican/Latino Studies Minor

The Minor concentration consists of 12 credits chosen from Africana and Puerto Rican/Latino sequence courses as follows: 2 at the 100/200 and 2 at the 300/400 levels.

Post-Baccalaureate Certificate
Post-Baccalaureate Certificate Program in Health Careers Preparation

Return to: Health Careers Preparation

The Post-Baccalaureate Certificate in Health Careers Preparation Program is designed for students who wish to enter a professional program in medicine, dentistry, optometry, podiatry or veterinary medicine but whose undergraduate education does not meet the requirements for these programs. Students interested in entering programs in nursing, nutrition, physical therapy, pharmacy or physician assistant studies are not eligible for the Post-Baccalaureate Certificate Program.

Admission Criteria

We encourage prospective students who meet the admission criteria to apply to our certificate program. All applicants must:

- Hold a baccalaureate degree from an accredited institution with a minimum overall GPA of 3.00 (students with undergraduate degrees in progress are not eligible to apply). Internal Hunter College second degree candidates must have a minimum overall GPA of 3.5 and have completed no more than 12 credits of required science courses (Biology, Chemistry or Physics) at Hunter in order to apply to the program.
- Apply for admission to City University of New York (CUNY), Hunter College.
- Submit a completed Post-Baccalaureate Certificate Program supplemental application by the December 15th deadline.
- Demonstrate their commitment to a career in the health professions through paid or volunteer experience.

Application Procedures

Admission to the program is limited to the fall semester. Application to the program is a two-step process. For detailed, step-by-step instructions for completing the application procedures, please refer to the Prospective Post-Baccalaureate Student section of the Pre-Health Website at:

http://www.hunter.cuny.edu/prehealth/the-post-baccalaureate-certificate-program/prospective-students/information-for-prospective-post-baccalaureate-students/

All prospective students must submit a supplemental application directly to the Pre-Health Advising Office at Hunter College. The supplemental application is completed electronically and is available on the Pre-Health website in mid-fall. In addition to a supplemental application all candidates for the Post-Baccalaureate Certificate Program must apply to CUNY as transfer students. The 4-digit code for Hunter's Post-Baccalaureate Certificate Program is 0339, and this must be selected in order for the student to be considered for the program. All students must submit their official transcripts directly to CUNY through the CUNY Application Portal. High school transcripts are NOT required. The Admissions Committee may also request an interview and/or letters of recommendation for applicants sometime after the supplemental application has been submitted.

Deadlines

Both CUNY and supplemental applications must be received (by CUNY and the Hunter College Pre-Health Office) by December 15 of each year to be considered for admission to the Program in the fall. Applications received after December 15 may not be considered.
Program Requirements

To complete the Program, all Post-Baccalaureate Certificate students starting in fall 2010 and after must:

- Complete one year of college-level English. This requirement can be fulfilled by undergraduate transfer credit and/or by taking courses at Hunter College.
- Complete one year of college-level mathematics beyond pre-calculus. This requirement can also be fulfilled by undergraduate transfer credit and/or by taking courses at Hunter. There are two ways to fulfill this requirement at Hunter:
  1. MATH 15000 (STEM) (calculus) and MATH 15500 (STEM) (calculus II)
  2. MATH 15000 (STEM) (calculus) and STAT 21300 (STEM) (STAT 113 does not fulfill this requirement)

- Complete 38 credits in science (biology, chemistry or physics) at Hunter College.
- Maintain a 3.3 GPA for every semester in the program with no individual course grade below B-.
- Provide 56 hours of service to the Hunter College Community during their time in the program. Tutoring in science courses, mentoring undergraduate students, and assisting with activities sponsored by the Pre-Health Advising Office are examples of activities that fulfill the service commitment requirements.
- Obtain a committee letter from the Pre-Health Advisory Committee at Hunter College.

Courses and Requirements

The exact titles and sequence of courses for Post-Baccalaureate students depend on their individual academic needs and availability of courses at Hunter College each semester. Students typically take 9–12 credits of mathematics/science per semester but individual students’ course loads can vary depending on their schedules of extracurricular activities and other factors.

In addition to the mathematics and English requirements stated above, typical course work for pre-health students includes the following:

- One year of general biology with lab: BIOL 10000 (STEM) and BIOL 10200 (STEM) (4.5 credits each, including lab) offered in spring and fall semesters, respectively.
- One year of general chemistry with lab: CHEM 10200 (STEM) and CHEM 10400 (STEM) (lecture, 3 credits each) and CHEM 10600 (STEM) (lab, 3 credits). CHEM 10400, which serves as a pre-requisite to CHEM 10600 may be taken concurrently to satisfy requirements.
- One year of Organic Chemistry lectures: CHEM 22200 and CHEM 22400 (4 credits each); and one year of Organic Chemistry labs: CHEM 22300 and CHEM 22500 (2.5 credits each).
- One year of general physics with lab: PHYS 11000 (STEM) and PHYS 12000 (STEM) (4.5 credits each, including lab).
- One semester of Biological Chemistry BIOL 30000 or a year of Biochemistry CHEM 37600, CHEM 37700 and CHEM 37800

Additional Courses

Students may use classes from the following list of upper division biology and chemistry courses to fulfill the requirements for the program:

Courses
BIOL 30600 - Developmental Biology

GER
3/B

Major topics include molecular and cellular mechanisms of early embryonic development in amphibians, mammals and model organisms such as Drosophila, as well as the related subjects of vertebrate organ system development, biology of stem cells and animal cloning. Emphasis is placed on seminal and current research in cell-cell communication, signal transduction and differential gene regulation in developmental processes.

prereq: BIOL 30000
3 hrs (lec)
3 cr.
fall only

BIOL 35000 - The Biology of Cancer

GER
3/B

When a normal cell becomes a cancer cell there are genetic changes that occur that alter the biology of the cell such that it behaves independent of its neighbors. This course will investigate the altered biology of cancer cells that lead to uncontrolled proliferation and cancer. Topics include: cell culture, the cell cycle, hormones, receptors, intracellular signal transduction, oncogenes, tumor suppressor genes, apoptosis, metastasis, and the etiology of human cancer.

prereq: BIOL 20000, 30000, or perm instr.
3 hrs (lec)
3 cr.

BIOL 36000 - Cellular and Molecular Immunology

GER
3/B

Study of the immune system from a molecular perspective. Molecular genetics of antibody and T cell receptor diversity, hematopoiesis and lymphocyte development, humoral and cellular immunity, histocompatibility.

prereq or coreq: BIOL 30000, perm instr.
4 hrs (3 lec, 1 disc)
3.5 cr.
spring only

BIOL 37000 - Physiology of the Nervous System

GER
3/B

A comprehensive introduction to neuroscience. Topics include how nerve cells (neurons) transmit electrical impulses, how neurons communicate with each other through synapses and how nerve pathways and networks determine many functions of the brain. The last portion of the course shall explore how developing neurons seek out targets and establish synapses.

prereq: BIOL 30000 or perm instr.
4 hrs (lec)
An overview of the various methods and kinds of data used in systematics, the study of organism diversity and biological relationships. Emphasis is on modern molecular and genetic approaches to identification of individual species and strains and full phylogenetic analyses of suites of species to determine their evolutionary history. The knowledge base is provided for experimental investigation of questions of current interest in phylogeny and population biology.

**BIOL 37500 - Molecular Systematics**

**GER**

3/B

**BIOL 37600 - Endocrinology**

**GER**

3/B

**CHEM 35000 - Biophysical Chemistry**

**Pluralism and Diversity**

GER 3/B

Essential physical chemical principles as applied to biological problems. Emphasis on kinetics, thermodynamics, and equilibria.

prereq: CHEM 22400, BIOL 10200, MATH 15000 all with grade of C or better

5 hrs (4 lec, 1 rec)

4 cr
CHEM 32200 - Organic Chemistry Lecture III

GER
3/B

Selected topics such as advanced synthesis, reaction mechanisms, MO theory, natural products, NMR spectroscopy.

prereq: CHEM 22400 with grade of C or better, perm instr.
3 hrs
3 cr.

New Required Courses for Medical School

Students intending to apply to medical school are now required to complete

PSYCH 10000 - Introduction to Psychology

GER
2/B

An introduction to the problems, methods and concepts of psychology, covering a range of topics which characterize the discipline, including history, methodology and professional ethics, biological foundations, perception, motivation and emotion, learning, memory and thinking, individual differences, intelligence, personality, behavior disorders and their treatment, group processes.
3 hrs
3 cr.

and

SOC 10100 - Introduction to Sociology

Hunter Core
Individual and Society (Social Sciences) -I&S SS
GER
2/B

Development of sociological imagination through introduction and application of basic concepts incorporating global and comparative perspectives.
3 hrs
3 cr.

Consult the Sociology department or the Pre-Health Advising Office for information about the specific section recommended. These courses can also be satisfied with equivalent transfer credits.

Note:

Please refer to the Pre-Health Office website and publications for information regarding the specific coursework and extracurricular activities required by the individual health professional schools.

Time to Completion
Students must complete all of the required courses within 36 months in order to receive the certificate. A typical post-baccalaureate student completes the minimum coursework required to take standardized tests such as the MCAT or DAT within this same time period. Many students also go on to take additional upper division courses recommended by many health professional schools during the third (application) year. Decisions about professional school admissions are usually made one year after applications are submitted. Hunter College also has linkage agreements with several medical schools, which allows highly qualified Post-Baccalaureates who have completed all pre-medical requirements to matriculate in the same year in which they apply.

Additional Fees

Hunter College Post-Baccalaureates are required to pay additional Academic Excellence fees, which are used to improve the resources available to them. Among other things, these fees entitle students to the additional support of a dedicated Post-Baccalaureate advisor and preparatory courses for standardized tests such as the MCAT. The following is a breakdown of the Academic Excellence Fee structure:

- Resident Full-time students: $500 per semester for 12 credits or more
- Resident Part-time students: $50 per credit
- Non Resident Full-time and Part-time students: $90 per credit

Associate in Applied Science/Bachelor of Science

Nursing Dual/Joint Degree

This is an early entry into the RN-BS program. Students start out at Queensborough Community College. They are granted acceptance to Hunter after their freshman year if they satisfy certain GPA and course requirements. See the Queensborough website for further information about this phase of the dual degree [http://www.qcc.cuny.edu/academies/hrs-academy.html](http://www.qcc.cuny.edu/academies/hrs-academy.html)

The Hunter portion of the curriculum follows the RN-BS curriculum:

Nursing Major

**NURS 37900 - Nursing and Societal Forces in the Health Care Delivery System**

Open to RN-BS Program students only. This is the first course in the RN-BS Program curriculum and must be taken prior to or in conjunction with other required nursing courses depending on the pre/co requisites of the courses. Exploration of health care dilemmas through the integration of knowledge from nursing, social sciences and public health. Principles of service- learning are introduced.

*Fully online/hybrid*

3 hrs
3 cr.

**NURS 38000 - Nursing Research and Theory**

Introduction to theory development and research in nursing.
For RN to BS only: Fully online.

*prereq: Generic Program: NURS 22000*
Accelerated 2nd Degree: NURS 22000  
RN Program: STAT 11300  
coreq: Generic Program: NURS 33200; NURS 33900; NURS 35200  
Accelerated 2nd Degree: NURS 34300; NURS 35200; NURS 36000  
RN Program: None  
3 hrs  
3 cr.

**NURS 38100 - Health Assessment Throughout the Lifespan**

Open to RN-BS Program students only. Analysis of normal patterns of wellness for individual clients with emphasis on development of assessment skills.  
Fully online.  
Material Fee: $45  
prereq: CHEM 10000, CHEM 10100  
3 hrs  
3 cr.

**NURS 38400 - Nursing Culturally Diverse Families**

**Pluralism and Diversity**  
PD/B  
Open to RN-BS Program students only. Explores the interrelationships between sociocultural factors and health care practices of families from diverse cultures as a basis for nursing practice. Principles of service-learning are reflected in the culturally competent interventions.  
3 hrs  
3 cr.

**NURS 48000 - Promotion of Wellness in the Community**

Open to RN-BS students only. Examination of family and community patterns as they relate to individual clients of all ages. Principles of service-learning are used in community-based clinical experiences to promote civic engagement.  
Combination online/hybrid.  
4 hrs  
4 cr.

**NURS 48200 - Advancement of Roles and Relationships in Professional Nursing**

Open to RN-BS Program students only. Explores the roles and relationships in nursing with a focus on leadership as the key to the professionalism of nursing. Principles of service-learning are reflected in the ongoing development of the professional role. This is the last course in the RN Program.  
Fully online-hybrid.  
3 hrs  
3 cr.

Six credits of nursing electives: The following two courses are suggested. They meet PD/C requirements

**NURS 34000 - Women’s Health**

**Pluralism and Diversity**  
PD/C
Designed to identify and analyze those factors which impact on the health status of women: biological, sociological, psychological, environmental, political.

3 hrs
3 cr.

**NURS 35100 - Gender, Science and Technology**

**Pluralism and Diversity**
PD/C
Explores the complex relationship between women and the sciences.
cross-listed WGSS 35100
3 hrs
3 cr.

Total HC Nursing (24 cr.)

**Bachelor of Science/Master of Science (BS/MS)**

**Accelerated BS/MS in Nutrition (DPD)**

This pathway is for third year NFS majors who are interested in completing their degree and then continuing at Hunter to obtain a master's degree and verification statement (students will be provisionally accepted into the program in their junior year but must maintain grade requirements to matriculate into the MS-DPD program).

This accelerated pathway provides the opportunity for undergraduate students to remain at Hunter for their graduate coursework providing students the opportunity for academic acceleration to a graduate degree.

Since the MS-Nutrition curriculum meets the didactic program in dietetics (DPD) requirements established by the Accreditation Council for Education in Nutrition and Dietetics (ACEND), the credentialing arm of the Academy of Nutrition and Dietetics (AND), it will qualify students from this BS/MS accelerated track to apply for Dietetic Internships and continue their professional preparation for the Registered Dietitian (RD) credential.

To become an RD, students must have:

- **Completed a minimum of a bachelor's degree** at a US regionally accredited university or college
- **Completed the DPD coursework (didactic program in dietetics)** approved by the the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND),
- **Completed an ACEND-accredited supervised practice program** such as a dietetic internship (DI). The Hunter DI is described in the graduate catalog and online at www.hunter.cuny.edu/schoolhp/nfs. For further information on the Hunter DI, contact Prof. Ann Gaba at agaba@hunter.cuny.edu.
- **Passed a national examination** administered by the Commission on Dietetic Registration (CDR).

**Career Opportunities for students graduating with this accelerated BS/MS:**

Dietetics is an allied health profession which focuses on the food and nutrition intake of individuals and its relationship to health. Registered dietitians are trained in the sciences and are able to translate scientific findings and help people
live healthy lives. Major areas of practice include clinical, community, management, and consultant dietetics. More than half of all dietitians and nutritionists are found to work in hospitals, nursing homes, and physician's offices and clinics. More information about career opportunities may be found on the Academy of Nutrition and Dietetics's website at http://www.eatright.org

Academic Requirements for Entry into the BS-MS

Students must be able to complete the NFS major and graduation requirements in about 96-102 credits, must have an overall GPA of 3.5 and prerequisite GPA of 3.2 or better to be considered.

Prerequisite courses

**CHEM 10000 (STEM) - Essentials of General Chemistry Lecture**

**Hunter Core**
Scientific World (SW); Life and Physical Sciences (LPS)
**GER**
GER 2/E

Essential facts, laws, and theories of general chemistry.

Primarily for nursing, nutrition and food science and community health education students.
*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

4 hrs (3 lec, 1 rec)
3 cr.

**CHEM 10100 - Inquiries into the Nature of Matter**

**Hunter Core**
Life and Physical Sciences (LPS)
**GER**
GER 2/E

A laboratory-based introduction to chemistry for non-science and health science majors that focuses on the basic principles of matter, energy and the environment. CHEM 10100 satisfies the laboratory requirements for a one-semester general chemistry course for health science students.

Primarily for nursing, nutrition and food science and community health students.
*Note: No student may receive credit for both CHEM 10000-10100 and 10200-10300 or 11100.*

3 hrs
3 cr.

**CHEM 12000 (STEM) - Essentials of Organic Chemistry Lecture**

**Hunter Core**
Life and Physical Sciences (LPS): Scientific World (SW)
Pluralism and Diversity
GER 2/E
Course presents essential facts, laws and theories of organic chemistry.

Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health education students.
Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

\[ \text{prereq: CHEM 10000} \]
\[ 4 \text{ hrs (3 lec, 1 rec)} \]
\[ 3 \text{ cr.} \]

**CHEM 12100 (STEM) - Essentials of Organic Chemistry Laboratory**

Hunter Core
Life and Physical Sciences (LPS); Scientific World (SW)
Pluralism and Diversity
GER 2/E
Experiments designed to illustrate fundamental laws and techniques of organic chemistry.
Core credit awarded only if CHEM 12000 and CHEM 12100 are completed. Primarily for nursing, nutrition and food science and community health students.
Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

\[ \text{prereq: CHEM 10100} \]
\[ \text{prereq or coreq: CHEM 12000} \]
\[ 3 \text{ hrs (3 lab)} \]
\[ 1.5 \text{ cr.} \]

**BIOL 12000 - Anatomy and Physiology I**

Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program.
Not accepted for credit toward the biology major.

\[ \text{prereq: CHEM 10000, 10100} \]
\[ \text{coreq: CHEM 12000, 12100} \]
\[ 7\text{hrs (3hr Lecture, 1hr Recitation, 3hr Lab)} \]
\[ 4.5 \text{ cr.} \]
\[ \text{fall only} \]

**BIOL 12200 - Anatomy and Physiology II**

Structure and function of circulatory, digestive, excretory, endocrine and reproductive systems. Basic concepts of metabolism, embryology. Required for admission to the nursing program.
Not accepted for credit toward the biology major.

\[ \text{prereq: BIOL 12000 or equiv.} \]
\[ 7\text{hrs (3hr Lecture, 1hr Recitation, 3hr Lab)} \]
\[ 4.5 \text{ cr.} \]
\[ \text{spring only} \]
BIOL 23000 - Fundamentals of Microbiology

GER
3/B

Topics include scope, historical aspects, taxonomy, survey of the microbial world, viruses, infectious diseases, control of microorganisms and immunology. Required for admission to the nursing program. Not accepted for credit toward the biology Major I.

prereq: CHEM 10000, 10100 or equiv; BIOL 12000 or BIOL 10200
5 hrs (2 lec, 3 lab)
3 cr.
spring only

NFS 14100 - Nutrition

Fundamentals of the science of nutrition as they apply to individuals and society. Open to all students.
3 hrs
3 cr.

NFS 13100 - Food Science I

Basic principles of the chemical and physical nature of foods, food sanitation and safety; the nutritional value of food in relation to storage, processing and preparation. Open to all students.
3 hrs
3 cr.

STAT 11300 - Elementary Probability and Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

prereq: A grade of C or better in MATH 10100 or appropriate score on placement exam
prereq or coreq: ENGL 12000
3 hrs
3 cr.

-or-

MATH 15000 (STEM) - Calculus with Analytic Geometry I

Hunter Core
Math/Quantitative Reasoning
Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications.

prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.

Students take graduate courses after completing 96 credits

Students must have completed the NFS major and academic requirements for their undergraduate degree in about 96 credits, must have an overall GPA of 3.5 and pre-requisite GPA of 3.2 or better to be considered. However, a 3.5 GPA in and of itself does not guarantee admission.

Undergraduates admitted to the program take graduate courses during their senior year and will be able to complete the MS-DPD degree one year after they complete the requirements for the BS (NFS) degree. These students will be admitted directly into the MS-DPD program without having to take the GRE exam. Upon completion of the requirements for the MS degree, both the BS and MS degrees will be awarded. These students will pay undergraduate tuition rates up to the number of credits required to earn a baccalaureate degree (120 cr) and credits taken after that number toward the combined dual degree will be paid at the graduate level. Students interested in this accelerated program should speak to the adviser in the Nutrition track during their sophomore year to review the curriculum path for the five-year program.

Students who have been provisionally accepted into the BS-MS program but who do not maintain the required GPA will not be allowed to continue but will be eligible to receive a BS (NFS) degree from Hunter provided that they fulfill all other academic requirements for their undergraduate degree.

Curriculum Requirements

The accelerated BS/MS is a 137-credit program

For a list of the graduate courses, consult http://catalog.hunter.cuny.edu/index.php?coid=22

Undergraduate Minor

Minor in Accounting

A minor in accounting is available. These courses may be used for CPLicensure in New York State, but represent only 15 of the 69 credits required.

The Minor consists of 15 credits

with the following required courses:

ACC 27100 - Accounting I

Basic accounting concepts; preparation of financial statements. Emphasis on income determination and financial position.
prereq: upper freshman standing
3 hrs
3 cr.

**ACC 27200 - Accounting II**

Accounting concepts applied to partnerships and corporations; funds statements; financial statement analysis.

*effective term spring 2016*

prereq: ACC 27100 with a grade of C or better
3 hrs
3 cr.

and Three of the following courses for the Financial Accounting Track 1

**ACC 37100 - Intermediate Accounting I**

In-depth study of current concepts relating to accounting for assets and current liabilities.

*effective term spring 2016*

prereq: ACC 27100 and ACC 27200 all with a grade of C or better.
3 hrs
3 cr.

**ACC 37200 - Intermediate Accounting II**

Revenue recognition; accounting for equities, income taxes, pensions, leases, price level changes.

*effective term spring 2016*

prereq: ACC 27100 and ACC 27200 and ACC 37100 all with a grade of C or better.
3 hrs
3 cr.

**ACC 37400 - Managerial Accounting (Cost Accounting)**

Accumulation, analysis, presentation and use of cost data by management; budgets.

*effective term spring 2016*

prereq: Prereq: ACC 27100 and ACC 27200 and ACC 37100 all with a grade of C or better
3 hrs
3 cr.

**ACC 47100 - Advanced Accounting I**

*effective term spring 2016*

prereq: ACC 27100 and ACC 27200 and ACC 37100 and ACC 37200 all with a grade of C or better
3 hrs
3 cr.

or Three of the following courses for the Law and Taxation Track 2 (ECO 37300 strongly recommended)
ACC 28000 - Business Law I

Legal institutions; contract law and commercial paper law with focus on Uniform Commercial Code.

prereq: sophomore standing or perm chair
3 hrs
3 cr.

ACC 37300 - Federal Income Taxation

Principles of federal income taxation and the impact of taxes on individuals.

effective term spring 2016
prereq: Prereq: ACC 27100 and ACC 27200 and ACC 37100, all with a grade of C or better
3 hrs,
3 cr.

ACC 38000 - Business Law II

Legal aspects of business organizations; agency, partnership and corporate relationships.

prereq: ACC 28000
3 hrs
3 cr.

ACC 47300 - Business Taxes

Federal income taxation of partnerships and corporations; other special tax issues.

effective term spring 2016
prereq: ACC 27100 and ACC 27200 and ACC 37100 and ACC 37200 and ACC 37300 all with a grade of C or better
3 hrs
3 cr.

ACC 48000 - Business Law III

Sales and financing devices under Uniform Commercial Code; property; trusts and estates; bankruptcy; other selected topics.

prereq: ACC 38000
3 hrs
3 cr.

Minor in Africana & Puerto Rican/Latino Studies

The Minor concentration consists of 12 credits chosen from Africana and Puerto Rican/Latino sequence courses as follows: 2 at the 100/200 and 2 at the 300/400 levels.

Minor in Anthropological Archaeology
The Anthropological Archaeology Minor introduces students to the study of past human societies and cultural diversity from an anthropological perspective. The minor consists of a minimum of 12 credits from the courses listed below, or other courses with the approval of the departmental undergraduate advisor. Only one non-AN-C course from the following list may count towards the minor. In order to graduate with an Anthropological Archaeology Minor, students must earn a C grade or better in all the courses counted towards the minor.

Courses for the Minor

**ANTHC 12600 - Introduction to Prehistoric Archaeology**

**Hunter Core**
World Culture and Global Issues (WCGI)
**GER**
2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.
*3 hrs*
*3 cr.*
*offered every sem.*

**ANTHC 12700 - Methods In Archaeological Science**

**Hunter Core**
SW
Introduction to theory and method of scientific research in archaeology.
*prereq: ANTHC 12600 or perm instr.*
*3 hrs*
*3 cr.*

**ANTHC 22600 - Archaeology of Africa**

**Pluralism and Diversity**
PD/A
**GER**
3/B

Prehistory; origins, adaptations, cultural evolution of early hominids; origins of agriculture, early complex societies.
*prereq: ANTHC 12600 or perm instr.*
*3 hrs*
*3 cr.*

**ANTHC 23200 - Archaeology of South America and the Caribbean**

**GER**
3/B

Sociocultural development from early hunter-gatherers to first pre-Hispanic states and empires.
*prereq: ANTHC 12600 or perm instr.*
*3 hrs*
*3 cr.*
ANTHC 32000 - Problems in Anthropology

GER
3/B

Topics TBA. Recent courses have looked at globalization, social movements and civil society, energy policy, women and economic development, international migration. Depending on topic, may meet PD/A, B, or C.

prereq: perm instr.
3 hrs
3 cr.
offered every sem.

ANTHC 32600 - Rise of Old and New World Civilizations

GER
3/B

Theoretical and empirical examination of development of urbanism and state, in the Old and New Worlds.

prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

ANTHC 32700 - Prehistoric Cultural Ecology

GER
3/B

Survey of selected problems in human evolution and adaptation from an ecological perspective.

prereq: ANTHC 12600 or perm instr
3 hrs
3 cr.

ANTHC 34600 - Analytic Methods in Archaeology

GER
3/B

Theory and methods of analysis of materials recovered from archaeological excavations and surveys.

prereq: ANTHC 12600 or perm instr.
5 hrs (3 hrs lec, 2 lab)
4 cr.

ANTHC 42600 - Seminar in Archaeological Field Methods

Pluralism and Diversity
See note below
Introduction to field methods and techniques in survey and excavation; involves weekend fieldwork on nearby sites.

The only ANTHC 42600 courses that currently meet Pluralism and Diversity Requirement are:

ANTHC 42659 Archaeology of North America meets PD/B
ANTHC 42660 Archaeology of Colonialism meets PD/D
prereq: ANTHC 12600 or perm instr.
3 hrs
3 cr.

Non ANTHC Courses:

**ANTHP 10100 (STEM) - Human Evolution**

**Hunter Core**
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.
6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

**CLA 20400 - Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)**

**Hunter Core**
World Culture and Global Issues (WCGI)
GER
2/C

Introduction to ancient archaeology, including Greece and Rome, Mesopotamia, Egypt, Anatolia, and the Levant.
prereq: ENGL 12000
3 hrs
3 cr.

**GEOG 10100 - People and Their Environment**

**Hunter Core**
Individual and Society - Social Science
GER
2/B

A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life. Contemporary economic, political and social patterns and problems are discussed.

3 hrs
3 cr.
offered fall and spring.
GEOL 10000 - Introductory to Geology

Hunter Core
Scientific World (SW)
GER
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

Minor in Anthropology

The Anthropology Minor provides students an overview of the discipline through survey courses in each of the four primary subfields of anthropology. It is designed to help students appreciate the significance of, and relations between, language, biology, and culture, for human beings past and present. The minor consists of four courses for a total of 13 credits. In order to graduate with an Anthropology Minor, students must earn a C grade or better in all the courses counted towards the minor.

The minor includes the following three required courses:

ANTHC 10100 - Introduction to Cultural Anthropology

Hunter Core
Individual and Society (Social Sciences) -I&S SS
Pluralism and Diversity
PD/A
GER
2/B

Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.

3 hrs
3 cr.
offered every sem.

ANTHC 12600 - Introduction to Prehistoric Archaeology

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.

3 hrs
ANTHC 15100 - Introduction to Linguistics

Hunter Core
World Cultures and Global Issues (WCGI)
GER
2/B

Structure and analysis of human languages; language history; language in society, culture and mind; language universals.
3 hrs
3 cr.

Plus one additional course selected from the following two options:

ANTHP 10100 (STEM) - Human Evolution

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.
6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

Minor in Arabic and Minor in Arabic Studies

Return to Classical and Oriental Studies

Two minors are offered by the Arabic Language, Literature, and Culture Division of the Department of Classical and Oriental Studies: Arabic and Arabic Studies.

Minor in Arabic

The minor in Arabic requires the successful completion of

ARB 20100 - Intermediate Arabic I

Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.
prereq: ARB 10200 or equiv.
3 hrs
3 cr.

ARB 20200 - Intermediate Arabic II
Continuation of ARB 20100.

prereq: ARB 20100 or equiv.
3 hrs
3 cr.

**ARB 30100 - Advanced Arabic I**

Emphasis on increased proficiency in reading, speaking and writing Arabic

prereq: ARB 20200 or equiv.
3 hrs
3 cr.

**ARB 30200 - Advanced Arabic II**

Continuation of ARB 30100
prereq: ARB 30100 or equiv.
3 hrs
3 cr.

or their equivalent as determined by the Arabic Program Head.

**ARB 14900 - Spoken Egyptian Arabic**

The goal of this course is to teach students oral communication in the Egyptian dialect, as well as to impart cultural knowledge relevant to a student living in or visiting Egypt. This course is closed to native speakers of Arabic.

prereq: ARB 10200 and permission of instructor
3 hours
3 credits

can be taken in lieu of ARB 30200

The prerequisite for the minor is successful completion of ARB 10100 and 10200 (8 credits).

**Arabic Studies Minor**

The Arabic Studies Minor requires the successful completion of 4 ARB courses on cultural or literary topics taught in English or in Arabic. Up to 2 Arabic language courses may be used to fulfill the minor requirements in lieu of two culture or literature courses.

The prerequisite for the minor is successful completion of ARB 10100 and ARB 10200 (8 credits).

**Arabic Courses**

**ARB 10100 - Beginning Arabic I**

Hunter Core
World Culture and Global Issues (WCGI)

The goal of this course is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding
of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination.

This class is not for native speakers. ARB 10100 usually not credited without ARB 10200. For details about credit policy look here: Appendix II: Foreign Language Requirement

3 hrs
3 cr.

ARB 10200 - Beginning Arabic II

Continuation of ARB 10100. The goal of this course sequence (ARB 10100/10200) is to begin developing reading, speaking, listening, writing, and cultural skills in Arabic. The course stresses communication using both formal and informal Arabic. Emphasis is also placed on reading authentic texts from Arabic media, listening to and watching audio and video materials, and developing students' understanding of Arab culture. Preparation for class is an essential component of course, allowing us to devote in-class time to communicating in the language rather than talking "about" the language. Students will be evaluated on attendance and class participation, daily homework assignments, quizzes, skits, a final oral interview and a final examination. This class is not for native speakers.

prereq: ARB 10100 or permission of Head of Arabic Program.

3 hrs
3 cr.

ARB 14800 - Beginning Arabic for Heritage Speakers

Hunter Core
World Culture and Global Issues (WCGI)
This course is for students of Arab origin who grew up speaking a dialect of Arabic but not reading and writing it. This course will quickly cover the alphabet and then focus on reading and writing in formal Arabic, i.e., the language of the Arabic language media and academe. The course is not open to students who have taken the ARB 10100-30200 sequence.

prereq: perm of division head

3 hrs
3 cr.

ARB 14900 - Spoken Egyptian Arabic

The goal of this course is to teach students oral communication in the Egyptian dialect, as well as to impart cultural knowledge relevant to a student living in or visiting Egypt. This course is closed to native speakers of Arabic.

prereq: ARB 10200 and permission of instructor

3 hours
3 credits

ARB 20000 - Topics in Arabic Literature and Culture

This course will focus on a variety of topics related to the literatures and cultures of the Arab World. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.

prereq: ENGL 12000 or equivalent

3 hrs.
3 cr.
ARB 20100 - Intermediate Arabic I

Emphasis placed on reading materials from Arabic media, and expanding vocabulary and grammar skills.

*prereq: ARB 10200 or equiv.*

3 hrs
3 cr.

ARB 20200 - Intermediate Arabic II

Continuation of ARB 20100.

*prereq: ARB 20100 or equiv.*

3 hrs
3 cr.

ARB 24800 - Intermediate Arabic for Heritage Speakers

This course is a continuation of ARB 14800. It is also for Heritage Students who can already read and write and who speak one of the dialects with some degree of fluency but have not studied enough formal Arabic to be exempt from the language requirement. More than ARB 14800, this course will rely on authentic materials not found in any textbook. The course is not open to students who have taken the ARB 10100-30200 sequence.

*prereq: ARB 14800 or Arabic Program head's permission*

3 hrs
3 cr.

ARB 25000 - The Arab Novel (in translation) (W)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/C

A consideration of Arab novels as a source for understanding issues such as urbanization, war, imperialism, nationalism, gender, as well as the politics of translation.

*prereq: ENG 22000 or equiv.*

3 hrs
3 cr.

ARB 25100 - Arab Cinema (in translation)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/D

This course will introduce students to the history of Arab Cinema through readings and weekly screenings of films from all over the Arab World.
ARB 25200 - Literatures from the Islamic World (W)

Hunter Core
World Cultures and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

A survey of literary genres and themes from the Islamic World from the 7th to the 15th century.

prereq: ENGL 12000 or equivalent
3 hrs
3 credits

ARB 25300 - Literatures and Cultures of Muslim Spain (W)

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/C

A survey of the literary and cultural history of Muslim Spain, 8th - 15th century C.E.

prereq: ENGL 12000 or equivalent
3 hrs
3 credits

ARB 25400 - The Arabian Nights East and West (W)

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
PD/A
GER
2/C

The course studies not only the stories of the Arabian Nights (1001 Nights), but also the history of the translation and adaptation of the Nights into European languages.

prereq or coreq: ENGL 12000 or equivalent
3 hours
3 credits

ARB 25500 - Modern Palestinian Culture

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
War and trauma shape modern Palestinian identities as evident in narratives of diaspora and return, nationalism, and militarism. This class introduces and explores the intersections of Palestinian national aspirations and Palestinian fiction, poetry, and film. There will be a focus on geography, as land and borders play a central role in the conflict. In addition, the class will include discussion of the following topics: Jerusalem; the Green Line; colonialism; 1948; 1967; refugees, diaspora and return; nationalism; resistance; and violence and militarism.

3 hrs
3 cr.

**ARB 25600 - Modern Arab Theatre**

**Hunter Core**
World Culture and Global Issues (WCGI_

**Pluralism and Diversity**

PD/A
Welcoming students of any major or background, this course opens an angle on to culture and society in the Arab world through the lens of drama and theatre. Some themes covered: prison, political critique, heritage, and women/gender.

3 hrs
3 cr.

**ARB 30000 - Problems in Arabic Literature and Culture**

This course will focus on a specific area related to the literatures and topics of the Arab World. As a 300-level course, it will cover a narrow spectrum of texts. Readings in translation. Specific information on a particular semester's offerings can be found on the on-line class schedule.

prereq or coreq: ENGL 12000 and one of the following or permission of the instructor: ANTHC 20100, ARB 20000, ARB 25000W, ARB 25100, ARB 25200W, ARB 25400W, ARTH 26000W, ASIA 22004, ASIA 39013, ASIA 45051, GEOG 27400, HEBR 21500W, HIST 27650, HIST 27651, POLSC 26300W, POLSC 26900W, REL 32200W, REL 33700W OR SOC 36200W.

3 hours
3 credits

**ARB 30100 - Advanced Arabic I**

Emphasis on increased proficiency in reading, speaking and writing Arabic

prereq: ARB 20200 or equiv.

3 hrs
3 cr.

**ARB 30200 - Advanced Arabic II**

Continuation of ARB 30100

prereq: ARB 30100 or equiv.

3 hrs
3 cr.

**Minor in Art History**
The Art History minor requires students to take 12 credits in Art History as follows: ARTH 11100 - Introduction to History of Art, followed by 9 credits selected from the other department offerings. No more than 6 credits transferred from another institution may be applied to the minor.

Minor in Asian American Studies

The interdisciplinary Asian American Studies Minor provides students with focused competence in the histories and contemporary experiences of diverse Asian diasporic communities, including but not limited to those of North America. As one of only a few Asian American Studies programs in the tri-state area, the AASP offers its Minors a unique opportunity to gain the knowledge and skills necessary to make meaningful contributions to the city and nation's growing APA communities.

A Minor consists of a minimum of 12 credits and can be made up of any courses offered by—or cross-listed with—the Asian American Studies Program, excluding ASIAN 360.02 (East Asia to 1600) and ASIAN 360.03 (China since 1800). No more than 6 Minor credits may be transferred from another institution. Please note that a number of 300-level courses in Asian American Studies may be used to satisfy requirements in the ENGL, POLSC, and WGS majors: see individual courses for details.

Minor in Biological Sciences

The minor in Biological Sciences gives students a basic understanding of biology from the molecular and cellular to the organismal and population level. This includes both theoretical aspects presented in lecture as well as practical aspects presented in lab. Flexibility is built into the minor to allow students to select courses corresponding to their interests. In order to minor in Biological Sciences a student must pass four courses resulting in a minor GPA of 2.0 or higher. All students who want a Minor in Biological Sciences must take:

- BIOL 10000 (STEM) - Principles of Biology I and BIOL 10200 (STEM) - Principles of Biology II or BIOL 10000 (STEM) - Principles of Biology I and BIOL 16000 - Honors Principles of Biology II or the equivalent
- two additional courses in Biological Sciences, one of which must be at the 200 level or higher

Number of Credits: A minimum of 12 credits. Transfer credits may be applied. At least 2 courses must be taken at Hunter College.

Minor in Chemistry

A minor in Chemistry consists of a pre-requisite year of General Chemistry with laboratory (CHEM 10200 (STEM) through CHEM 10600 (STEM) or equivalent, 9 credits), and a minimum of 14 credits of coursework. Note that MATH 12500 is a co-requisite to General Chemistry. The minimum of 14 credits include the following required courses below. In addition, students will be required to take at least 5.5 credits of electives selected from Chemistry offerings numbered 200 or above, excluding CHEM 29101.

Required courses for the Minor

CHEM 22200 - Organic Chemistry Lecture I

GER
GER 3/B
Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

**CHEM 22300 - Organic Chemistry Laboratory I**

**GER**
3/B

Various organic syntheses, Distillation, extraction, chromatography, qualitative analysis, spectroscopy.

Note: No student may receive credit for both CHEM 12000-12100 and 22200-22300.

**CHEM 22400 - Organic Chemistry Lecture II**

**GER**
GER 3/B

Structure, bonding, and reactions of organic molecules. Synthesis, stereochemistry, spectroscopy, reaction mechanisms.

**Minor in Chinese**

The Minor in Chinese consists of 12 credits. Students must take four courses at or above CHIN 200-level taught in Chinese. Course prerequisites must be satisfied. Internships and independent studies do not count towards the minor.

**Minor in Classical Archaeology**

12 credits

CLA 20400 Introduction to Classical, Near Eastern, and Egyptian Archaeology (W)
CLA 22100 Greek Archaeology (W)
CLA 22200 Roman Archaeology I: Etruscans, Monarchy, Republic (W)

One other course in Classical Archaeology at the 200- or 300-level.

Note: CLA 204 is a prerequisite for all other Classical Archaeology courses.

**Minor in Classical Studies**

12 Credits:

1. CLA 10100 - Classical Mythology
2. CLA 20100 - Greek Civilization (W)
3. CLA 20300 - Roman Civilization (W)
4. One course with a CLA prefix at the 200- or 300-level (e.g. literature in translation or upper-level culture courses)

Note: CLA 10100, CLA 20100, and CLA 20300 have no prerequisites

**Minor in Community Organizing**

Requirements for the Minor: Minor in Community Organizing (CO)

Students are required to take the following courses in sequence:

SW 36000 Introduction to Community Organizing - 3 credits
SW 46000 Advanced Community Organizing Theory & Practice - 3 credits (Spring Year One)
SW 37000 Community Organizing Internship and Field Seminar (formerly SOSCI 397) – 100 hours-3 credits (Spring or Fall Year One)

Sub-total = 9 credits

Students are required to select two 3 credit electives from a menu of 3 credit elective courses approved by 11 Departments and Programs: Africana & Latino/Puerto Rican Studies; Anthropology; Community Health; Film & Media Studies; History; Political Science; Public Policy; Psychology; Sociology; Urban Studies; Women & Gender Studies.

No courses in the student's major department or program may be applied to meet this minor's 6 credit elective requirement.

Sub-Totals= 6 credits

**Total Credits for the Minor = 15 credits**

Community Health:

**COMHE 30600 - Social Disparities in Health**
In depth examination of the social, cultural and political factors that influence and lead to health disparities and health inequalities. Course explores demographic trends in mortality and morbidity and the role of history, race, class, policy, and socioeconomic and cultural factors, and health literacy levels in the development and continuation of disparities in health. This course uses a social justice lens to understand health, health care and health disparities.

*prereq: acceptance to the COMHE major or permission of the instructor.*

3 hrs
3 cr.

**COMHE 32500 - Environmental Public Health**

Impact of environmental problems associated with urbanization, e.g., water quality, air and noise pollution, waste disposal and radiation hazards.

*prereq: acceptance to the COMHE major, or permission of the instructor*

3 hrs
3 cr.

**COMHE 41100 - Community Health Assessment**

Introduction to assessing health needs of communities and populations, in preparation for fieldwork.

*prereq: acceptance to the COMHE major or permission of the instructor*

3 hrs
3 cr.

**Urban Studies:**

**URBS 10100 - Urban Life: Personal and Observational View (W)**

*Hunter Core*

Individual & Society - Social Science I&S SS

*GER*

2/B

Introduction to urban studies allowing students to translate personal knowledge and experience of New York City to more theoretical understanding of urbanism. Includes four projects dealing with mapping, immigration, census data analysis, and local development issues.

3 hrs
3 cr.

**URBS 20100 - Urban Plans and Policies**

*GER*

2/B

Includes the study of the policy making process, major plans/policies (e.g. War on Poverty, urban renewal, neighborhood rezoning), “politics/power,” the role of non-profits in urban planning and policy making.

*prereq: URBS 10200 or 6 cr. intro social science courses or perm instr.*

3 hrs
3 cr.

**URBS 31000 - Methods of Urban Research and Policy Analysis**
Survey of research skills necessary for analysis of contemporary urban issues. Includes review of data sources, methods of forecasting, use of computer, and methods of information presentation.

prereq: URBS 10200 or perm instr.
3 hrs
3 cr.

Sociology:

**SOC 21700 - Race and Ethnicity**

Pluralism and Diversity
PD/B
GER
3/B

Dominant-subordinate relations among selected groups: Asians, Blacks, Hispanics, Jews, Indians, White ethnics.

prereq: SOC 10100
3 hrs
3 cr.

**SOC 23500 - Community Organization and Action**

GER
3/B

Evaluation of specific local and national action programs.

prereq: SOC 10100
3 hrs
3 cr.

**SOC 23700 - Social Welfare Policy**

GER
3/B

Development of welfare institutions. Consequences of welfare services for client and community.

prereq: SOC 10100
3 hrs
3 cr.

**SOC 23900 - Child Welfare (W)**

GER
3/B

Historical and contemporary perspectives on the impact of poverty on children and the social policies that deal with it.

cross-listed WGSP 23900 (W)

prereq: SOC 10100, ENGL 12000
SOC 25300 - Deviance and Social Control

GER
3/B

Theories of causation and analysis of particular types of deviance: sexual, criminal, political.
prereq: SOC 10100
3 hrs
3 cr.

SOC 25700 - Sex and Gender Roles

Pluralism and Diversity
PD/C
GER
3/B

Sex role differentiation: femininity, masculinity, marriage, child rearing.
cross-listed WGSS 25700
prereq: SOC 10100
3 hrs
3 cr.

SOC 25900 - Mass Media, Communication and Public Opinion (W)

GER
3/B

Impact of mass media on public opinion and government action.
prereq: SOC 10100 ENGL 12000
3 hrs
3 cr.

SOC 30700 - Migration

Pluralism and Diversity
PD/B
GER
3/B

Economic, demographic, political and cultural factors influencing migration and the consequences of migration.
prereq: SOC 10100
3 hrs
3 cr.

SOC 30900 - Social Movements and Social Change (W)
Analysis of emerging groups inducing or resisting social change often using unconventional means in historical and/or international perspective.

**SOC 31700 - Class, Status, and Power**

Inquiry into the empirical and conceptual relation between the fundamental sociological constructs of 'class', 'status', and 'power' through a case study of the upper class in the United States. Review of current research and relevant theoretical approaches.

**SOC 31900 - Criminology**

Criminal behavior, arrest, and punishment. Problems of definition, administration of criminal justice.

**SOC 32000 - Law, Society and Civil Rights**

Examines from a sociological perspective the concept of law, and legal institutions and their relationship to society and culture, concentrating on the struggle for civil rights in America.

**Africana & Puerto Rican/Latino Studies:**

**AFPRL 18200 - Culture and Ethnic Identity**

**AFPRL 20500 - African American Politics of Social Change**
Hunter Core
Individual and Society (Social Sciences) - I&S SS
Pluralism and Diversity
PD/B
GER
2/B

The Civil Rights Movement and social change in U.S. Since 1954.
3 hrs
3 cr.

AFPRL 30400 - Leaders and Movements of Black Urban Communities (W)

Pluralism and Diversity
PD/B
GER
3/B

Personalities and movements that have influenced Black communities of U.S.; focuses mainly on 20th century.
prereq: AFPRL 20300 or 20400 or 20500
3 hrs
3 cr.

AFPRL 32100 - Caribbean Migration and New York City (W)

Pluralism and Diversity
PD/A or B
GER
3/B

An historical examination of the lives of Caribbean immigrants in New York City from the causes for emigration to the development of an ethnic community in the City.
prereq: ENGL 12000; AFPRL 20700, 20800, 20900, 21000, 30700 or 30800
3 hrs
3 cr.

AFPRL 38400 - Poverty in Society (W)

GER
3/B

Causes and effects of deprivation, with emphasis on policy and program approaches for African Americans and Puerto Ricans/Latinos.
prereq: successful completion of any 2 AFPRL courses
3 hrs
3 cr.

AFPRL 38700 - Puerto Rican/Latino Politics in the United States (W)

Pluralism and Diversity
PD/B
GER
An analysis of the political participation and leadership of Puerto Ricans and other Latinos in the United States.

prereq: either AFPRL 10200, 24200 or 24400 or perm. Instr.
3 hrs
3 cr.

Anthropology:

ANTHC 21800 - The Anthropology of the Civil Rights Movement in the U.S.

Pluralism and Diversity
PD/B
GER
3/B

This course examines the grassroots struggle to gain equality and justice in the United States, viewed as a social protest movement, from the perspective of cultural anthropology. The course will focus on the major events, themes and issues of the Civil Rights Movement and examine their effect in challenging the American concept of democracy; in changing those who participated in it; and in spawning other social movements that transformed American society and culture.

prereq: ANTHC 10100 or departmental permission
prereq or coreq: ENG 120
3 hours
3 credits

ANTHC 30100 - Gender in Anthropological Perspective

Pluralism and Diversity
PD/C
GER
3/B

Men and women in different societies, division of labor, socialization, stratification, political activism and gender construction.
cross-listed WGSC 30100
prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 32076 - Language, Sex and Gender

Pluralism and Diversity
PD/C
GER
3B

cross-listed WGSA 300.53
prereq: ANTHC 15100 or permission from instructor and or department
3 hrs
3 cr.
Psychology:

PSYCH 19000 - Development of Gender Roles

Pluralism and Diversity
PD/C
GER
2/B

Social, cognitive, hormonal and personality factors in development of gender roles; determinants of behavioral and cognitive gender differences.
cross-listed WGSS 19000
prereq: PSYCH 10000
3 hrs
3 cr.

PSYCH 23000 - Social Psychology (D/S)

GER
3/B

Problems of human experience and behavior in the social context; theories and current methodology in research on the influence of the group on cognitive processes, motivation, personality structure and the self; attitudes and prejudice; leadership; group processes.
Writing Intensive
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 23500 - The Psychology of Women (D/S)

Pluralism and Diversity
PD/C
GER
3/B

Psychological functioning of women; sexuality, pregnancy, social roles and status, aging, achievement, life styles, power.
Writing Intensive
cross-listed WGSP 23500 (W)
prereq: PSYCH 10000 and any other 3 cr PSYCH course
prereq or coreq: ENGL 12000
3 hrs
3 cr.

PSYCH 33400 - Cultural Psychology (D/S)

As our society becomes more multi-cultural, the question of how culture impacts psychological processes is increasingly important. The goal of this course is to expose students to the ways that cultural meanings, practices, and institutions influence and reflect individual human psychologies, with an emphasis on cultural variability in psychological theories and research findings. Topics include but are not limited to: a) What is cultural psychology; b)
Research methods in cultural psychology; e) Historical and conceptual issues in cultural psychology d) cross-cultural models of self, attention, perception, morality, memory, human development and health, e) cultural differences in gender effects and f) policy implications of cultural psychology

prereq: ENGL 12000, Completion of PSYCH 24900 or 25000
3 hrs.
3 cr.

Public Policy:

PUPOL 10000 - Introduction to Public Policy

An interdisciplinary introduction to public policy utilizing the literature and tools of a variety of social science disciplines. This course introduces students to basic concepts and approaches in public policy. It will acquaint students with public policy as a field of study, the basic elements of the policy making process, and distinct modes for analyzing public policy and its outcomes. It will be team-taught by faculty from at least two related social science disciplines. Writing Requirements: This course will require 20 to 25 pages of writing in the form of two take home essay examinations (4-5 pages each), a proposal for a final paper (3-5), and a final paper (8-10 pages).

Open only to students enrolled in the program. Cannot be used to fulfill any other requirements. This course is taken at the state of the art Roosevelt House.

prereq: declaration of a minor/certificate in Public Policy and a minimum GPA requirement of 3.0
3 hrs
3 cr.

SOC 21800 - Social Inequality

GER
3/B

Examination of social inequality in contemporary society from various empirical and theoretical perspectives focusing on class, ethnic, gender, and other determinants of stratification.

prereq: SOC 10100
3 hrs
3 cr.

Film And Media Studies:

FILM 32700 - Representations of Race and Ethnicity in U.S. Media

Pluralism and Diversity
PD/B
GER
3/A

A historical look at changes and continuities in the social construction of a selected race or ethnicity in movies; advertising, including political campaigns; journalism, and other forms of American popular culture. May be repeated for credit with different topic.

Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.

prereq: FILM 10100
FILM 32800 - Images of Resistance in the Developing World

**Pluralism and Diversity**  
**PD/A**  
**GER**  
3/A  

Focuses on challenges by developing world films and filmmakers to Western media stereotypes.  
Except as otherwise noted, ENGL 12000 is prerequisite for all 300- and 400-level courses in FILM.  
*prereq: FILM 10100*  
4 hrs  
3 cr.

MEDIA 37000 - The Press and the Public

**GER**  
3/A

Analysis and discussion of relationship of the press to great issues of our time.  
*prereq: MEDIA 18000*  
3 hrs  
3 cr.

MEDIA 38100 - Propaganda and the Mass Media

**GER**  
3/A

Study of mass media (broadcast, film, print) as forms for propaganda.  
*prereq: MEDIA 18000*  
3 hrs  
3 cr.

MEDIA 38400 - Women and Media

**Pluralism and Diversity**  
**PD/C**  
**GER**  
3/A

Examination, from historical and formal perspective, of ways in which women have been represented by mass media in America since mid-19th century. Exploration of how feminists for 100 years have challenged these images and posed alternative modes of cultural representation and production.  
*cross-listed WGS 38400 (W)*  
*prereq: MEDIA 18000*  
3 hrs  
3 cr.
History:

**HIST 31700 - History of the American City**

Pluralism and Diversity
PD/D
GER
3/B

History of the American city from the Colonial era to the present; development of the city as physical environment, social experience, political entity and cultural symbol.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 31800 - History of the American Working Class (W)**

Pluralism and Diversity
PD/D
GER
3/B

History of the American working class from Colonial times to the present; changing work experience, community life, organizational efforts and political activity of working people.
Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

- HIST 3411J - Terror and the Constitution: Free Speech in the U.S. Since 1886 *
- HIST 38225 - LGBT Living in the Global 20th Century *
- HIST 34100 - Race & Racism in U.S. History *
- HIST 34120 - Women and Gender in Islam *
- HIST 38224 - Black Women's History: From Mum Bett to Michelle Obama and Beyond *

Political Science:

**POLSC 20900 - Women and Gender in Western Political Thought (W)**

Pluralism and Diversity
PD/C or D
GER
3/B

Examines history of political thought from the perspective of gender relations and the treatment of women.
cross-listed WGST 20900
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 21200 - Urban Politics (W)**
Politics in New York City and other urban areas. Decentralization, suburbanization, race, ethnicity, reform.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 21500 - Public Opinion and Political Participation (W)**

What American people think about politics and how they express it, from polls to elections to demonstrations.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 21800 - Women and Politics (W)**

Pluralism and Diversity
PD/C
GER
3/B

Constitutional and legal position of women, ERA, affirmative action, marriage, divorce, property, feminist causes.

cross-listed WGSP 21800 (W)

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 22100 - U.S. Immigration Policy (W)**

Pluralism and Diversity
PD/B -or- PD/C
GER
3/B

The course focuses on the political development of federal immigration policy, and on historical and contemporary issues in policy design and implementation. The course also surveys recent findings and debates arising from empirical analyses of immigration policy.

prereq: ENGL 12000 or its equivalent and POLSC 11000/11100 or HIST 15100/15200
3 hrs
3 cr.

**POLSC 22800 - Protest Movements in American Politics (W)**

Pluralism and Diversity
P/D B or C
GER
3/B
Analysis of historical and contemporary protest movements in the context of American politics; includes key concepts and explanatory factors in social movement theory, and movements such as the anti-slavery, women's suffrage, labor, civil-rights, anti-war, feminist, environmental, gay-rights, pro-choice, pro-life, and Patriot movements.

prereq: ENGL 12000 or equivalent
3 hrs
3 cr.

**POLSC 32000 - Ethnic Politics (W)**

Pluralism and Diversity

PD/B
GER
3/B

Ethnicity in local and national politics. Major groups, how they affect government, what government does for them.

prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 30500 - Democratic Theory (W)**

GER
3/B

A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.

prereq or coreq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

**POLSC 30900 - Feminist Political Theory (W)**

Pluralism and Diversity

PD/C
GER
3/B

Readings in feminist ideas, both historical and contemporary, on issues of power, justice and equality. The course will emphasize different perspectives, including those of liberal, radical, postmodernist, women of color, third world and 'global' feminists.

cross-listed WGST 30900 (W)

prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

- POLSC 27225 Comparative LGBT Politics *

**Women & Gender Studies:**

**WGS 24400 - Transnational Feminisms**
Exploring the gender dynamics of racial, ethnic, and economic relations of power in domestic, international, and transnational settings. We will examine feminist scholarship produced by and about American women of color, Third World women, and other social and political actors whose experiences and thinking have shaped contemporary ideas about gender in different parts of the world.

prereq: WGS 10000, ENGL 12000
3 hrs
3 cr.

WGSS 15000 - Introduction to LGBTQI Studies

Psychological foundations, sexual development and response patterns; male and female roles; individual and social attitudes, legal issues.

3 hrs
3 cr.

WGSS 26600 - Our Bodies, Our Politics

Sex and sexuality are commonly understood as an innate drive, but as science has recently begun to show, the way we experience sexuality is better understood as a series of connected cultural practices. It is the constructed meaning attached to the act of sex that make up the foundation of our sexuality. This meaning changes across cultures and communities and has historically been a subject of political and legal struggle. From the battle for reproductive rights to laws limiting dildo ownership in Texas, our own bodies and the way we experience them are legislated and controlled.

prereq: ENGL 12000
3 hrs
3 cr.

WGSL 30600 - Gender and Migration

This course will explore the multiple intersections between gender and migration. We will study how patterns of migration are fundamentally gendered, how migration affects men and women differently, and how migration policies in sending and destination countries can have gendered outcomes.
prereq: WGS 10000 and ENGL 12000

3 hrs

3 cr.

- **WGSS 30002** - Reproductive Rights in the United States *
- **WGSL 20004** - Gender and Human Rights *
- **WGSL 20010** - Sexuality, Race and Economics *
- **WGSC 20001** - Writings from Detention: Repression, Gender & Politics *
- **WGSP 20003** - Prison Writing Memoirs *
- **WGSP 20010** - Gender, Sexualities & Indigenous Rights *
- **WGSP 20011** - Sex Education and Public Policy *
- **WGSP 20051** - Gender, Disability & Embodiment *
- **WGSP 20057** - Gender & Health Policy *
- **WGSP 20070** - Prison, Human Rights & Gender

Courses followed by ‘**’ are experimental and will be offered only certain semesters. Please check the schedule of classes.

**Minor in Computer Science**

An applied minor in Computer Science consists of 13-14 credits of coursework. These credits include the following required courses – note that MATH 12500 is a prerequisite course to CSCI 12700 however MATH 125 does not count towards the Computer Science Minor:

- **CSCI 12700** - Introduction to Computer Science (3 credits, 3 hours)
- **CSCI 13300** - Programming for Everyone (3 credits, 3 hours)
- **CSCI 23200** - Relational Databases and SQL Programming, with Lab (3 credits, 3 hours)
- **CSCI 23300** - Programming Projects Seminar for Minors (1 credit, 2 hours)

In addition, students will be required to take at least one 3 credit elective selected from Computer Science offerings numbered 135 or above. Although you may take any Computer Science course numbered 135 or above, courses that require only one or more of the above courses as prerequisites include:

- **CSCI 13500** - Software Analysis and Design I (3 credits , 3 hours) and **CSCI 13600** - Supervised Programming Lab (1 credit, 2 hours)
- **CSCI 15000** - Discrete Structures (4 credits, 4 hours)
- **CSCI 26700** - Microprocessors and Embedded Systems (3 credits, 3 hours)
- **CSCI 16000** - Computer Architecture I (3 credits, 3 hours)

**Minor in Cultural Anthropology**

The Cultural Anthropology Minor introduces students to the study of contemporary human cultures through a focus on cross-cultural similarities and differences in such areas as kinship, politics, economics, religion, sexuality, gender, and artistic production. The minor consists of a minimum of 12 credits from the courses listed below, as well as others that
may be approved by the departmental undergraduate advisor. In order to graduate with a Cultural Anthropology Minor, students must earn a C grade or better in all the courses counted towards the minor.

Courses (12 cr.):

**ANTHC 10100 - Introduction to Cultural Anthropology**

**Hunter Core**
Individual and Society (Social Sciences) - I&S SS

**Pluralism and Diversity**
PD/A
GER
2/B

Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.
3 hrs
3 cr.
offered every sem.

**ANTHC 20100 - The Middle East: Societies and Cultures**

**Pluralism and Diversity**
PD/A
GER
3/B

Peasant, nomadic and urban society; kinship, ethnic, religious and ecological diversity; colonialism and modernization.
3 hrs
3 cr.

**ANTHC 21400 - The Caribbean: Societies and Cultures**

**Pluralism and Diversity**
PD/A
GER
3/B

Indigenous peoples, colonization and slavery; minorities, race relations; family life, religion and economy.
3 hrs
3 cr.

**ANTHC 21500 - The Anthropology of Black America (W)**

**Pluralism and Diversity**
PD/B
GER
3/B

Examines anthropological knowledge about Black America and the various socio-political contexts in which this body of scholarship has been produced. Focuses on the politics of knowledge production on Black culture.
prereq: ENGL 12000
3 hrs
3 cr.

ANTHC 27500 - Reading Ethnographies (W)

GER
3/B

Examines the most significant mode of writing within cultural anthropology: the ethnography. Students explore interpretive, theoretical and political issues in the representation of cultures through close reading and analysis of ethnographic texts.
prereq: ANTHC 10100 or perm instr.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

ANTHC 30100 - Gender in Anthropological Perspective

Pluralism and Diversity
PD/C
GER
3/B

Men and women in different societies, division of labor, socialization, stratification, political activism and gender construction.
cross-listed WGSC 30100
prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 30700 - Anthropology of Religion

Pluralism and Diversity
PD/A
GER
3/B

Emphasis on non-Western societies; theories of religion, magic; functions and symbolic meaning.
3 hrs
3 cr.

ANTHC 30900 - Countryside and City: Comparative Perspectives

Rural-urban connections and the transformations that affect rural areas and peoples in diverse parts of the world.
prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 31000 - Politics and Power in Anthropological Perspective
Pluralism and Diversity

Leadership, conflict, inequality, decision-making and law in different societies; interaction of local politics with state and global institutions.

*prereq: ANTHC 10100 or perm instr.*

3 hrs
3 cr.

ANTHC 31100 - Anthropology of Art

ANTHC 31200 - Anthropological Approaches to Sexuality

Documents the social construction of human sexuality through an examination of sexual variation cross-culturally and over recent history, including the development of sexually defined communities and identities within contemporary societies.

*prereq: ANTHC 10100*

3 hrs
3 cr.

ANTHC 31500 - Applied Anthropology

Practical applications of theory and methods to contemporary social problems; community development; inter-cultural relations.

*prereq: ANTHC 10100 or perm instr.*

3 hrs
3 cr.

ANTHC 31800 - History of Anthropological Theory

Changing approaches to the study of society and culture. Political and historical context of the development of theory,
the link between theory and method and the impact of theory on policy.

prereq: ANTHC 10100 or perm instr.
3 hrs
3 cr.

ANTHC 32000 - Problems in Anthropology

GER
3/B

Topics TBA. Recent courses have looked at globalization, social movements and civil society, energy policy, women and economic development, international migration. Depending on topic, may meet PD/A, B, or C.
prereq: perm instr.
3 hrs
3 cr.
offered every sem.

ANTHC 32200 - Family and Household in Anthropology and History

Pluralism and Diversity
PD/C
GER
3/B

Examines variations in household structure and family relations across cultures and over time, focusing on the relationship between domestic arrangements and other aspects of society.
prereq or coreq: ANTHC 10100
3 hrs
3 cr.

ANTHC 32500 - Special Projects and Independent Research in Anthropology

GER
3/B

prereq: perm instr.
3 hrs
3 cr.
offered every sem.

ANTHC 35100 - Language in Culture and Society

GER
3/B

Sociolinguistics; ethnography of communication; languages and dialects; face-to-face interaction; bilingualism in social and political life; language, ideology and identity.
3 hrs
3 cr.

ANTHC 40000 - Honors Projects
prereq: perm chair
offered every sem.

ANTHC 40100 - Seminars in Selected Topics

Topics TBA.

Minor in Dance

The Hunter College Dance Program Minor in Dance (a minimum of 16 required credits) is designed to allow students to pursue a variety of interests in the field, from performance and creative work to analysis, production and pedagogy.

Required courses (a minimum of 16 credits total)

The following 2 courses must be taken prior to declaration of the minor:

DAN 10100 - Fundamentals of Contemporary Dance Technique

Survey of concepts involved in understanding and integrating physicality and creativity through movement. Review of basic skills required for further study. May be taken two times for credit with permission of the department.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: minimum 12 cr.

3 hrs
2 cr.

DAN 10200 - Dance, Dancers and the Audience

Hunter Core
Creative Expression (CE)
Pluralism and Diversity
GER 2/D

Lecture demonstration course designed to introduce students to the art of dance through analysis of history, dance style and socio-political underpinnings. This course includes participation in both lecture and movement sessions.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: minimum 12 cr.

3 hrs
3 cr.

Additional required courses

DAN 21000 - Contemporary Dance Technique I

GER
3/A
Analytical and physical study of basic concepts of dance: space, time, dynamics and design. Intermediate development of movement skills and vocabulary as required by professional demands. May be taken twice for credit with permission of the department.

prereq: DAN 10100, perm dept., placement class
4 hrs
2 cr.

DAN 22100 - Improvisation as a Creative Process I

GER 3/A

Introduction to basic skills of structured improvisation; use of these skills by individual students to explore their creative movement potential.

prereq or coreq: DAN 21000 or perm dept.
4 hrs
2 cr.

1 additional dance technique course, selected from the following:

DAN 14500 - Fundamentals of Ballet

Introduction to fundamental skills and nomenclature of ballet. May be taken two times for credit with permission of the department.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: minimum 12 cr.
3 hrs
2 cr.

DAN 15100 - Folk Forms of Dance I

Development of basic dance skills necessary for participation in international folk dances. Students are exposed to dance and music of world cultures.

Open to dance majors and minors only.
3 hrs
1 cr.

DAN 22000 - Contemporary Dance Technique II

GER 3/A

Continued development of analytical and physical study of basic concepts of dance: space, time, dynamics and design. Focus on expanded movement vocabulary and increased facility; understanding dance as means of communication; ordering of movement to produce controlled performance. May be taken twice for credit with permission of the department.

prereq: DAN 21000, perm dept, or placement class
4 hrs
2 cr.
DAN 24500 - Ballet I

GER
3/A

Advanced-beginning level. Study of classical ballet vocabulary, basic anatomical concepts, and introduction to stylistic conventions of classical ballet. May be taken twice for credit with permission of the department.

prereq: DAN 14500, perm dept, or placement class
4 hrs
2 cr.

DAN 25200 - Special Topics: Traditional Dance I

Pluralism and Diversity
GER 3/A PD/A

Introduction to the cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit with permission of department.

prereq: placement class
4 hrs
2 cr.

DAN 31000 - Contemporary Dance Technique III

Pluralism and Diversity
GER 3/A

Intermediate-advanced movement experience, expansion of technical and aesthetic range; continued in-depth study of all concepts of dance. May be taken twice for credit with permission of the department.

prereq: DAN 22000, or perm. depart.
4 hrs
2 cr.

DAN 32000 - Contemporary Dance Technique IV

Pluralism and Diversity
GER 3/A

Advanced movement experience, further expansion of technical, dynamic and aesthetic range; emphasis on clarifying performance intention. May be taken twice for credit with permission of the department.

prereq: DAN 31000, permission of department
4 hrs
2 cr.

DAN 34500 - Ballet II

GER
3/A

the application of sound anatomical practices, and further artistic development. May be taken twice for credit with permission of the department.

All required classes are not offered every semester. Annual meetings with dance advisers are essential for both majors and minors in order to assure that required coursework will be completed in time for graduation.

prereq: DAN 24500, or perm. dept.

4 hrs
2 cr.

DAN 35200 - Special Topics: Traditional Dance II

Pluralism and Diversity
PD/A
GER
3/A

Continuation of DAN 25200. Continuation of DAN 25200. Further investigation of cultural context and techniques of traditional, social, and urban movement practices: Topics vary. May be taken twice for credit with permission of department.

prereq: DAN 25200, perm dept.

4 hrs
2 cr.

A minimum of 6 additional credits in dance

A minimum of 6 additional credits in Dance (choices must be approved by Dance Faculty Adviser):

Any DAN course at the 200 level or above (At least one of these must be a 3-credit course)

Participation on one production crew

Participation on one production crew team for a fully produced dance program concert

Note:

Placement in technique courses above the Fundamentals level is by placement class, the first day of class review, recommendation of instructor, or department permission. Repeated courses may not be counted in these requirements.

Minor in Economics

The economics minor consists of a minimum of 12 credits, including ECO 20000 - Principles of Microeconomics, ECO 20100 - Principles of Macroeconomics and two other courses in economics. Accounting and business law courses do not count towards the economics minor.

Minor in English

The English Department offers a 12-credit minor that provides students with an opportunity to pursue interests in literature, language, rhetoric, composition, and creative writing at the intermediate and advanced levels. The
prerequisite to declare a minor is ENGL 22000 - Introduction to Writing about Literature (W). Students minoring in English may choose four courses (12 cr.) from among 200- and 300-level literature, language, or writing offerings, with a minimum of two 300-level courses necessary to satisfy the Minor requirements. Students who wish to take Creative Writing workshops in any of the three genres offered (Fiction, Poetry, and Creative Non-Fiction) must first pass ENGL 30000 - Introduction to Creative Writing , with a minimum grade of B.

NOTE: No course below English 22000 counts towards fulfillment of the Minor except ENGL 21800 - Advanced Expository Writing . English minors may not take 400-level courses.

Minor in Environmental Studies

A minor in environmental studies consists of a minimum of 12 credits as follows:

- one course selected from PGEOG 13000, GEOL 10100, GEOL 10500, GEOL 18000; and
- at least one course (minimum of 3 credits) selected from PGEOG 25000, PGEOG 25100*, GEOG 22600, GEOL 28000, or GTECH 20100; and
- at least one course (minimum of 3 credits) from the 300-level approved electives listed in the college catalog under either the environmental studies program’s Concentration A (Environmental Earth Science) or Concentration B (Environmental Management and Policy).

*PGEOG 25000 is a prerequisite for PGEOG 25100

Minor in Film

Students who wish to minor in Film must complete a total of 15 credits in addition to Film 101, which is a prerequisite for all Film courses.

1. Prior to declaring a Film Minor, students must take FILM 10100.
2. Film Minors must then enroll in either FILM 21100 - Film History I: 1895-1942; 3 cr.) or FILM 21200 - Film History II: Since 1942; 3 cr. FILM 10100 is the prerequisite for both courses.
3. Once Film Minors complete this film history requirement, they must take two classes from the 200-level (6 crs. total) and two classes from the 300-level (6 crs. total). No film production classes (designated FILMP) are available to Film Minors, with the exception of Screenwriting I (FILMP 27600 - Screen Writing I - The Short (W)) and FILMP 37700 - Screen Writing II The Feature (W)). Film Minors must satisfy all other course prerequisites.

Minor in French Culture and Literature in Translation

This course of study provides the opportunity to students with no knowledge of the French language to be introduced to French Culture & Literature. This minor offers an interesting complement or context to studies in other fields (such as history, philosophy, political theory or women’s studies) that have benefited, historically, from French influences.

The courses in this minor are to be chosen from a selection of 200-level courses, taught in English, such as

FREN 24100 - Early French Civilization: From Gothic to Revolution
FREN 24200 - Modern French Civilization: From Revolution to Present
FREN 25100 - French Literature and the Arts
FREN 25200 - From Symbolism to Surrealism in French Literature
Minor in French Language & Culture

The French minor consists of 15 credits:

Prerequisite for the minor

FREN 20200 - Intermediate French II

Language lab mandatory.
There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

prereq: FREN 2000 or three yrs high school French
3 hrs
3 cr.

-or-

FREN 20300 - Intensive Intermediate French

Equivalent to material covered in 20100 and 20200. Language lab mandatory.
There are three options for students beginning French at Hunter. A regular sequence (FREN 10100, 10200, 20100, 20200), an intensive sequence (FREN 10300, 20300) which covers in two semesters material normally covered in four and a course for students who use French as a heritage language.

prereq: FREN 10200 or two yrs high school French
6 hrs
6 cr.

3 language courses

to be chosen from:
FREN 21100 - Intermediate Grammar and Composition

Continued study of grammar and syntax, with focus on reading and writing. Intended for French majors and minors.

_prereq: FREN 202, 203, or placement by departmental adviser
3 hrs
3 cr.

FREN 22000 - Advanced French Conversation

_prereq: FREN 20200 or four yrs high school French
3 hrs
3 cr.

FREN 31100 - Advanced French Grammar

_prereq: FREN 20200
3 hrs
3 cr.

FREN 31200 - French Oral and Written Expression

_prereq: FREN 20200 or equiv.
3 hrs
3 cr.

2 Culture & Civilization courses

to be chosen from:

FREN 33500 - French Culture I

Pluralism and Diversity
PD/D
Main intellectual and artistic currents from the Gauls to the French Revolution. Conducted in French.
_prereq: FREN 20200 or four yrs high school French
3 hrs
3 cr.

FREN 33600 - French Culture II

Pluralism and Diversity
PD/D
Main intellectual and artistic currents from the French Revolution to 1958. Conducted in French.
_prereq: FREN 20200 or four years of high school French
3 hrs
3 cr.

FREN 33700 - Contemporary French Culture
Contemporary French civilization and culture from 1958 to the present, as seen in its press. World events observed through the lens of French culture and politics. Comparison of current events coverage by French and U.S. Press.

prereq: FREN 31100 or 31200 or perm instr.
3 hrs
3 cr.

Minor in French Literature

The French Literature minor consists of 15 credits:

Prerequisite for the minor

The prerequisite for the minor consists of:

FREN 21100 - Intermediate Grammar and Composition

Continued study of grammar and syntax, with focus on reading and writing. Intended for French majors and minors.

prereq: FREN 202, 203, or placement by departmental adviser
3 hrs
3 cr.

Requirements

Students must first complete:

FREN 34100 - Survey of French Literature from the Middle Ages to the End of the 17th Century

Pluralism and Diversity
PD/D
GER
3/A

prereq: FREN 20200 or four yrs high school French
3 hrs
3 cr.

and

FREN 34200 - Survey of French Literature from the 18th Century to the Modern Period

Pluralism and Diversity
PD/D
GER
3/A
prereq: FREN 20200 or four yrs high school French
3 hrs
3 cr.

and then choose 3 courses from the following

FREN 34300 - Medieval and Renaissance French Literature

Pluralism and Diversity
PD/D
GER
3/A

From medieval epics, lyrical poetry and mystery plays to writers such as See, Du Bellay, Ronsard, Rabelais and Montaigne.

FREN 34100 and 34200 are prerequisite to all courses numbered 34300 and above.
3 hrs
3 cr.

FREN 34400 - 17th Century French Literature

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Boileau, Bossuet, Corneille, Cyrano de Bergerac, La Bruyére, Mme de Lafayette, La Fontaine, Malherbe, Molire, Pascal, Racine, Mme de Sign Saint Simon.

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 34600 - 18th Century French Literature

Pluralism and Diversity
PD/D
GER
3/A

Such authors as Beaumarchais, Buffon, Ch'nier, the Encyclopedists, Diderot, Laclos, Marivaux, Montesquieu, Provost, Rousseau, Sade, Voltaire.

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 34800 - 19th Century French Literature (1800-1850)

Pluralism and Diversity
PD/D
GER
Such authors as Balzac, Chateaubriand, Constant, Gautier, Hugo, Lamartine, Musset, Sand, Mme de Sta, Stendhal, Vigny.
FREN 34100 and 34200
3 hrs
3 cr.

**FREN 34900 - 19th Century French Literature (1850-1900)**

Pluralism and Diversity

PD/D

GER

3/A

Such authors as Barbey durevilly, Barr's, Baudelaire, Daudet, Flaubert, France, Huysmans, Leconte de Lisle, Mallarm, Maupassant, Renan, Rimbaud, Sainte-Beuve, Taine, Verlaine, Villiers de Isle-Adam, Zola.

*prereq: FREN 34100 and 34200*

3 hrs

3 cr.

**FREN 35100 - Contemporary French Literature (1950-present)**

Pluralism and Diversity

PD/D

GER

3/A

Such authors as Beckett, Bon, Butor, Camus, Duras, Echenoz, Ernaux, Kolt's, NDiaye, Perec, Redonnet, Robbe-Grillet, Sarraute.

*prereq: FREN 34100 and 34200*

3 hrs

3 cr.

**FREN 36000 - French Literature: Special Topics**

Pluralism and Diversity

PD/D

GER

3/A

*prereq: FREN 34100 and 34200*

3 hrs

3 cr.

**FREN 36100 - Middle Ages and the Renaissance: Special Topics**

Pluralism and Diversity

PD/D

GER

3/A
FREN 36200 - The 17th Century: Special Topics

Pluralism and Diversity
PD/D
GER
3/A

3 hrs
3 cr.

FREN 36300 - The 18th Century: Special Topics

Pluralism and Diversity
PD/D
GER
3/A

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 36400 - The 19th Century: Special Topics

Pluralism and Diversity
PD/D
GER
3/A

prereq: FREN 34100 and 34200
3 hrs
3 cr.

FREN 36500 - The 20th Century: Special Topics

Pluralism and Diversity
GER 3/A PD/D
Topics to be offered may include single authors, themes, genres, movements, or approaches.
prereq: FREN 34100 and 34200
3 hrs
3 cr.

Minor in Geography

A minor in geography consists of a minimum of 12 credits chosen from undergraduate courses that have a GEOG, PGE0 or GTEC prefix. Prerequisites may apply. Thoughtful selection of courses may result in a minor program of study that will enhance the student’s major. It is recommended that prospective geography minors consult with the geography undergraduate adviser concerning course selection.
Minor in Geology

A minor in geology consists of a minimum of 12 credits as follows:

One course selected (at least 3 credits) from

**GEOL 10000 - Introductory to Geology**

*Hunter Core*
*Scientific World (SW)*
*GER*
*2/E*

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

*3 hrs (3 lec, 3 lab)*
*3 cr.*

Offered fall and spring.

**GEOL 10100 - Introductory Geology Lab**

*Hunter Core*
*Life & Physical Sciences*
*GER*
*2/E*

Hands-on study of science, scientific method, scientific language and thought, regarding the earth, earth materials and the major geologic processes that continuously shape and reshape our dynamic planet surface. Guided study of minerals and rocks, geological structures, and the sequence of geologic events.

*3 hrs.*
*3 cr.*

**GEOL 10200 - Plate Tectonics and the Earth’s Evolution**

*GER*
*2/E*

The second course in geology offered to non-geology majors. It is designed to familiarize students with the main concepts used in deciphering and interpreting earth’s evolution from the spatial and temporal perspective. Topics to be covered include: geologic time; geological principles; earth materials as recorders of past geologic processes; depositional environments and sedimentary rock record; igneous and metamorphic geologic environments and their rock records; evolution of the solar system; plate tectonics and life on earth; origin of the universe; life on earth and the fossil record; Precambrian, Paleozoic, Mesozoic, and Cenozoic life, history and tectonics. Field trips may be required; transportation fee.

*prereq: GEOL 10100*

*5 hrs (3 lec, 2 lab)*
GEOL 10500 - Introduction to Environmental Geoscience

Hunter Core
Scientific World (SW)
GER
2/E (Non lab course)

Introduction to environmental geoscience focusing on aspects of global change and the interrelationship of earth systems. Review of the evolution of the earth from its origins to potential future developments; environmental problems and issues.
prereq: ENGL 12000
3 hrs
3 cr.

GEOL 18000 - Introduction to Oceanography

Hunter Core
Scientific World (SW)
GER
2/E

An introduction to the subject of oceanography. We will discuss the physical, chemical, biological and geological aspects of the oceans; learn about the structure and motion of the atmosphere and how they all influence ocean circulation; and we will learn about waves, tides and tsunamis, the carbon cycle and how the ocean influences the Earth's climate system. In addition to providing a good introduction to aspects of the scientific world, it is a foundational course for Environmental Studies, Geography and BA/MA Earth Science Education majors.
prereq: Prerequisite: Math Proficient and Reading Proficient/Non degree students
3 hrs
3 cr.
Offered fall and spring

at least one course (minimum of 3 credits) selected from

GEOL 20500 - Environmental Geology

GER
3/B

As human populations continue to grow, resource depletion and hazards will become more severe. Many decisions concerning the use of resources, such as water, soil, minerals, energy and space to live, will determine our standard of living and the quality of the environment. Scientific knowledge, combined with human values, will dictate these decisions. This course examines not only the way geological processes operate and impact society, but also how the earth system responds to human activity. The difficult problems associated with extracting enormous quantities of resources needed to sustain modern societies will be discussed. The course will also address ways humans can minimize the risks associated with hazardous earth processes. Quantitative analysis of selected topics will be introduced to provide a deeper understanding of the complexity of today’s environmental issues.
prereq: GEOL 10100
GEOL 23100 - Principles of Geomorphology

GER
2/E or 3/B

Investigates the geologic forces that shape the surface of the Earth. In the laboratory students will learn to analyze features of the landscape and deduce the processes that produced them. Students will use traditional laboratories as well as Google Earth to learn about a variety of surficial processes.

prereq: P GEO 13000 or GEOL 10100
4 hrs (2 lec, 2 lab)
3 cr.

GEOL 28000 - Marine Geology

GER
3/B

Marine Geology is the study of the seafloor. This course attempts to answer the questions “what?”, “where?”, “when?” and more importantly “how?” in order to better understand the processes that shape the ocean basins and determine the structure and composition of the oceanic crust. The main patterns of sediment distribution in the ocean basins and how sediments preserve a record of past climatic and sea-level changes will be explored. In addition, the role of fluids in ocean sediments and the oceanic crust will be examined. The seafloor sediments will be studied with a focus on their role in marine biogeochemical cycles.

prereq: GEOL 10200 or perm instr.
3 hrs
3 cr.
Fall

or other approved course, and

at least one course (minimum of 3 credits) from the following list of 300-level courses

GEOL 33400 - Geomorphology: The Study of Beaches and Coasts

GER
3/B

A study of the basic processes shaping the coast and the resulting form; surficial morphology and internal geometry of such forms as cliffs, dunes, beaches and near shore bars. Map exercise and a one-day field trip.

prereq: GEOL 23100 or P GEO 23100 or equiv. or perm dept.
3 hrs
3 cr.

GEOL 38000 - Advanced Oceanography: Physics of the Oceans

GER
3/B
The oceans play a significant role in how the climate system responds to anthropogenic perturbations. To understand past, present and future climate, students need to know and understand the world ocean. Oceanography is multidisciplinary. It offers an opportunity to review and to apply many of the concepts taught in the major traditional disciplines of physics, chemistry, biology and mathematics. This course will offer an in-depth tour of the complex study of oceanography and an introduction to quantitative methods in oceanography using Matlab. This science-based course requires students to learn and understand, and be willing to work with, physical and quantitative concepts. Students must be prepared to learn the basics of computer scripting/programming syntax and logic, one of the major skills to be acquired in this course.

**prereq:** one sem CHEM or PHYS, MATH 15000 or equiv.

3 hrs

3 cr.

**GEOL 38300 - Special Topics in Geology and Oceanography**

**GER**

3/B

Intensive courses in various aspects of geology or oceanography. Topics to be announced.

**prereq:** 200-level course of which special topic is logical outgrowth; perm instr.

1-4 hrs (lec or lec/lab)

1-3 cr.

**GEOL 39300 - Individual Study in Geology**

Individual studies and readings, with lab or fieldwork where appropriate, carried out under faculty guidance.

**prereq:** 2 sems of geology, perm dept.

1-3 cr.

**GTECH 35100 - Field Techniques in Geography**

Observation and analysis of physical geography, biogeography and geomorphology of selected areas. Field geographic techniques such as ground-truthing of remotely sensed images, the use of maps, compasses and GPS to navigate. Fee for transportation, lodging and food allowance required.

Material Fee: $300-400

**prereq:** GTEC 20100, any two additional geography or geology courses, perm dept.

90 hrs field/lab work (3 days lab, 7 days field)

3 cr.

Offered summer intersession (check with dept. in April).

**PGEOG 36100 - Global Climatic Change**

**GER**

3/B

Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth’s climate history, and modern climate change.

**prereq:** PGEO 13000 or GEOL 10100 or 10500

3 hrs

3 cr.
PGEOG 36300 - Environmental Hazards

GER
3/B

The course, in response to actual and potential hazards, either natural or anthropogenic in origin, will investigate the processes that link fundamental social development to environmental processes that are influenced by human activities. Natural hazards, in many cases, augment the environmental fragility of our society and the consideration of environmental hazards needs to be incorporated into management of climate variability, storms, droughts, floods, earthquakes, etc. An aim is to seek preventive measures and find solutions to act on environmental hazards on national and international levels.

prereq: PGEO 13000 or equiv.
prereq or coreq: PGEOG 13000 or equiv.
3 hrs
3 cr.

or other approved course

Other

A minimum of one lab* or field course** or other approved course with a field component is required

†PGEOG 25000 Earth System Science I (while not counted toward the geology minor) is a prerequisite for PGEOG 36100.

Minor in German

I. Foundational Courses for the Minor Core

GERMN 10100 - Elementary German I

Hunter Core
World Culture and Global Issues (WCGI)
Practice in 4 basic skills of speaking, reading, writing and comprehending German. For beginners. GERMN 10100 not usually credited without GRMN 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.
3 hrs
3 cr.

GERMN 10200 - Elementary German II

Continued practice in speaking, reading, writing and comprehending German.
prereq: GRMN 10100 or equiv.
3 hrs
3 cr.

-or-

GERMN 10300 - Intensive Elementary German
Intensive practice in 4 basic skills of German. Covers material of GRMN 10100 and 10200 in one semester.

6 hrs
6 cr.

II. Intermediate Core

GERMN 20100 - Intermediate German I

Practice in comprehending and communicating in German at the intermediate level. Review of basic structures and study of advanced grammar topics.
prereq: GRMN 10200 or equiv.
3 hrs
3 cr.

- and -

GERMN 20200 - Intermediate German II

Grammar review and composition. Reading and discussion of selected literary texts.
prereq: GRMN 20100 or equiv.
3 hrs
3 cr.

- or -

GERMN 20300 - Intensive Intermediate German

Covers material of GRMN 201 and 202 in one semester.
prereq: GRMN 10200, 10300 or equiv.
6 hrs
6 cr.

III. Required Core

Courses required for the Minor: 12 credits in language and literature taught in German at the 300-level or higher.

- GERMN 30100 to 35900
- GERMN 38100 to 44400

At least 3 of the credits for a German minor must be earned by taking a literature class numbered between GERMN 320.00 and GERMN 35900. Students who begin their study of German in college may count GERMN 20100 and GERMAN 20200 or GERMN 20300 towards the minor and will need to take two courses at the 300-level.

Minor in Hebraic Studies

Minor: 12 credits

The Hebraic Studies minor requires the successful completion of four HEBR literature and/or culture courses on the 200-level or above, taught in English or in Hebrew. Two Hebrew language courses on 300-level or above may be used toward the minor requirement in lieu of two literature or culture courses.
Minor in Hebrew

The Hebrew minor requires the successful completion of 12 credits at the 200-level or above. Courses counted toward the Hebrew minor must be either language courses or have Hebrew as their language of instruction.

Minor in History

Students majoring in disciplines other than history may elect a minor in history. The history minor consists of 12 credits. The minor in History is flexible and thus it can provide depth to a variety of majors; students can tailor the minor to suit best their individual interests.

Requirements:

1. Four history courses of 3 credits each (or 12 credits total) taken for a letter grade (C or better. Courses taken for a grade of Credit/No Credit will not count toward the minor.)
2. Courses must be distributed in at least two geographic fields, i.e. at least one course (3 credits) must be taken in a geographic area different from the other three. (Currently, the geographic areas are defined as U.S., European and World/Non-Western.)
3. At least two courses (6 credits) must be at the 300-level or above. Internships do not count toward completion of the minor, although students completing the minor may elect to include an internship as an additional course. Independent studies (tutorials) and HIST300 are available only to History Majors and, thus, do not count toward the minor.
4. At least two of the courses (or 6 credits) must be taken in the History Department at Hunter College. Courses taken in other disciplines will not count toward the minor unless cross-listed and taken under the appropriate HIST course code. Transfer courses must be approved by the History Undergraduate Advisor.

There are no prerequisites for the minor, although certain courses may have their own prerequisites.

Declaring a Minor in History:

Students are advised to declare their minor by the beginning of the upper junior semester, but must do it prior to their final semester (that of graduation). Declaration requires a planning session with the History Undergraduate Advisor and completion of the Major/Minor Declaration Form (to be obtained from the One Stop).

Minor in International Relations

The International Relations (IR) minor is an inter-disciplinary course of study that allows students to examine international relations from different perspectives within a liberal arts curriculum. The International Relations minor introduces students to the major themes in IR: IR theories and approaches, peace and security, international political economy, foreign policy, and international norms and institutions.

Requirements

- 15 credit minor—Students are required to complete at least one course from Group A and at least one course from two of the other four categories (Groups B-E).
- Students can take no more than three courses from one department.
- Students must complete at least one 300-level course to fulfill the requirements of the IR minor.
- No more than two courses from the student’s major can be applied toward the IR minor.

Note: Though not a requirement for the IR minor, students are strongly encouraged to study a foreign language.
A. IR Theories and Approaches

These courses teach students the skills necessary to think and write clearly about IR.

**POLSC 27000 - International Relations: Conceptual Foundations and Current Issues (W)**

**GER**
3/B

Examines the conceptual foundations of international relations and their application to current issues. *Topics include: anarchy, power, war and peace, international cooperation, the role of the state and non-state actors, international institutions, norms and human rights, and the global economy.*

Students may not take both POLSC 11500 and POLSC 27000 at Hunter College for credit. (Transfer students may receive only 100-level credit for a course equivalent for POLSC 11500 after spring 2010, when POLSC 27000 becomes the prerequisite for most advanced courses in international relations.)

*prereq: ENGL 12000 or its equivalent*

*3 hrs*

*3 cr.*

**POLSC 37700 - Theories of International Politics (W)**

**GER**
3/B

An examination of the central concepts and issues in international politics that underpin the main theoretical debates in the field.

*prereq: POLSC 11500 or 27000 or 27500 or 28200 or perm. instr.*

*coreq: ENGL 12000 or its equivalent*

*3 hrs*

*3 cr.*

**ECO 20000 - Principles of Microeconomics**

**Hunter Core**
Scientific World (SW)
**GER**
2/B

May be taken prior to or concurrently with ECO 20100. Determination of prices and quantities of goods and services, including labor and other resources; competitive and imperfect markets; public policy implications.

*prereq: MATH 10100 or exemption from the course*

*3 hrs*

*3 cr.*

**ECO 20100 - Principles of Macroeconomics**

**Hunter Core**
Individual and Society (Social Sciences) -I&S SS
May be taken prior to or concurrently with ECO 20000. Economic growth; fluctuations in the aggregate economy; inflation; monetary and fiscal policy.

**prereq:** MATH 10100 or exemption from the course

3 hrs

3 cr.

**GEOG 24400 - Political Geography**

Political geography concerns the nature and consequences of human efforts to divide and control Earth. Major topics to be covered by this course include the origin and evolution of countries and their constituent political units; the defining and drawing of political boundaries; territorial conflicts and disputes; the impact of boundaries on personal and cultural identity; centripetal and centrifugal forces that encourage the success or failure of political units; jurisprudence, crime and punishment; electoral geography; war, piracy and terrorism; ownership of ocean floors and outer space; the environmental impacts of political power (zoning, incorporation, height restrictions, land tenure); and symbols of power in the landscape. Lectures and assignments will stress the relevancy of political geography to issues that affect our everyday life.

**prereq:** GEOG 10100 or GEOG 15000 or perm instr

3 hrs

3 cr.

**B. Foreign Policy and Analysis**

These courses emphasize the foreign policies of countries or regions and research design and methods in IR.

**POLSC 20600 - Research Design in Political Science (W)**

Public opinion surveys, content analysis, legislative roll-call analysis, census data, election returns. Introduction to statistics. Uses Social Science Data Lab.

**prereq:** passing college proficiency exam in math or perm instr; ENGL 12000 or its equivalent

3 hrs

3 cr.

**POLSC 27600 - Global Issues (W)**

Examination of current global issues using traditional and critical international relations perspectives. Topics vary each semester: population growth, food insecurity, human trafficking, the future of the euro, immigration challenges in Europe, climate change, resource shortages, global poverty, shared values, and other issues.

**prereq:** ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 27400 - American Foreign Policy (W)

GER
3/B

Broad overview of the sources, processes, institutions, traditional tenets, current challenges, and aims of American foreign policy.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 37800 - Russian National Interest: Past and Present (W)

Pluralism and Diversity
PD/D
GER
3/B

In a contemporary, historical and comparative context, this course explores the factors influencing debates on and definitions of Russia's national interests, the strategies for promoting those interests and the implications for Russia and the international system.
prereq: ENGL 12000 or equiv; POLSC 11500 or POLSC 11700 or perm instr.
3 hrs
3 cr.

POLSC 38400 - Comparative Foreign Policy (W)

An analysis of why states have different foreign policies and the sources of those differences. Various factors such as power, political culture, religion, regime type, history, economic and state development, and individuals will be explored.
prereq: ENGL 12000 or the equivalent; POLSC 27000 or POLSC 28200; or permission of the instructor; may not be taken by students who have completed POLSC 373.14.
4 hrs.
4 cr.

ECO 22100 - Economic Statistics

Hunter Core
Mathematics and Quantitative Reasoning
GER
1/B

Probability and statistics in the context of economics, business and public policy; data analysis, probability distributions, and hypothesis testing.
prereq: MATH 12500 or exemption from the course
3 hrs
3 cr.
POLSC 27100 - International Politics in the Americas (W)

**Pluralism and Diversity**

PD/A  
GER  
3/B

Dynamics of US relations with Latin American countries from the colonial era through the Cold War to the present, and of relations of Latin American countries with each other and with extra-hemispheric nations.

cross-listed LACS 43432  
*prereq: ENGL 12000 or its equivalent*  
3 hrs  
3 cr.

or

HIST 34100 - Topics in History

GER  
3/B

Exploration of major trends, special controversies or significant events; topics vary each term.  
Courses at the 300-level and above not offered to freshmen.  
3 hrs  
3 cr.

C. International Norms and Institutions

These courses teach students how global cooperation has been achieved through the creation of international law, international norms, and international institutions.

POLSC 27800 - International Organizations (W)

GER  
3/B

Powers, functions and effectiveness of international institutions; emphasis on United Nations and regional organizations.  
*prereq: ENGL 12000 or its equivalent*  
3 hrs  
3 cr.

POLSC 28100 - Drugs, Politics and Public Policy (W)

GER  
3/B

Examination of public policies addressing drug use and abuse in the United States and other countries with emphasis on political and cultural determinants, economic and market factors, constitutional implications and United States foreign policy.  
*prereq: ENGL 12000*
POLSC 37400 - International Human Rights (W)

GER
3/B

An examination of the origins, substance and processes of human rights in international relations.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 37500 - International Law (W)

GER
3/B

The course will examine the sources, principles, functions, and effectiveness of international law.
prereq: ENGL 12000 and POLSC 27000 or POLSC 27500 or POLSC 27800 or POLSC 282 or permission of instructor
3 hrs
3 cr.

POLSC 38300 - Power Transitions, the U.S. and World Order (W)

GER
3/B

An examination of global power transitions and their consequences for international competition and order. Draws on theoretical insights to explain patterns in historical and contemporary cases, including the current rise of China and other "BRICS" countries.
prereq: ENGL 12000 (or equivalent), one course in international relations
4 hrs
4 cr.

GEOG 33500 - International Pollution Issues

GER
3/B

A study of international trans-boundary pollution and the science, source terms, transport pathways and international impacts of contamination events. The regional focus will change yearly pending current global environmental events.
prereq: GEOG 101 or GEOL 101 or PGEO 130 or perm instr.
3 hrs
3 cr.

PGEOG 36100 - Global Climatic Change

GER
3/B
Open to Jr/Sr only. An intensive introduction to the study of climate change with emphasis on modern climate change, anthropogenic forcing and measured and predicted consequences of this forcing. Students will develop an understanding of natural climate forcing, natural variability and feedbacks in the climate system while concurrently studying the Earth’s climate history, and modern climate change.

**prereq:** P GEO 13000 or GEOL 10100 or 10500  
3 hrs  
3 cr.

**D. International Political Economy**

These courses emphasize international trade, finance, and development.

**POLSC 27500 - Politics of the Global Economy (W)**

**GER**  
3/B  
Introduction to International Political Economy (IPE). Examines the dynamic interaction between politics and economics across national borders, including the politics of trade, development, finance, varieties of capitalism, globalization and environmental protection. Not open to students who have taken POLSC 37600.

**prereq:** ENGL 12000 or its equivalent  
3 hrs  
3 cr.

**POLSC 37600 - International Political Economy (W)**

**GER**  
3/B  
Examination of the intersection of politics and economics at the international level through a careful reading and analysis of dominant theoretical approaches and their application to central debates concerning the politics of trade, money and finance, development and globalization.

**prereq:** POLSC 11500 or 27000 or 27500; minimum of 45 credits and 9 credits in political science or permission of the instructor  
coreq: ENGL 12000 or its equivalent  
4 hrs  
4 cr.

**GEOG 22100 - Economic Geography and Globalization**

**GER**  
2/B  
An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history of the development of economic thought, leading up to, and transformed, by today’s crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is capitalistic, and the way this economic structure plays out through different geographies at different historical moments in time.
Not open to freshmen

**Prereq:** GEOG 10100 or perm instr.

*3 hrs*

*3 cr.*

*Offered fall and spring*

**GEOG 37000 - Geography of Sustainable Development in Developing Countries**

**Pluralism and Diversity**

**PD/A**

**GER**

*3/B*

Reviews the theories and approaches of international development. Themes include development theory, availability and distribution of resources, population growth, food production, water supply and forestry. The course will also highlight the development and environmental problems that challenge the achievement of sustainable development such as population growth, food and world economic crises, increasing number of the poor and climate change. The course will provide students with theory, methods, problems and analysis of factors that influence sustainable development in developing countries.

*Prereq:* one of the following: GEOG 10100, 15000, 27000, 27100, 27500, 27700 or perm instr.

*3 hrs*

*3 cr.*

**ECO 33000 - Economic Development**

**Pluralism and Diversity**

**PD/A**

**GER**

*3/B*

Critical variables explaining the diversity of growth and economic and development outcomes across developing countries. Theories, case studies, measurement and policies.

*Prereq:* ECO 20000

*3 hrs*

*3 cr.*

**ECO 34000 - International Trade**

**GER**

*3/B*

Theories of international trade and international trade policies.

*Prereq:* ECO 20000

*3 hrs*

*3 cr.*

**ECO 34100 - International Finance**

**GER**

*3/B*
Theories of exchange-rate determination and open-economy macroeconomic theory and policy.

*prereq: ECO 20100
3 hrs
3 cr.*

**SOC 36100 - Development and Modernization (W)**

**Pluralism and Diversity**
PD/A
GER
3/B

Examinations of models of social change with a special focus on developing countries.

*prereq: SOC 10100
3 hrs
3 cr.*

**SOC 30700 - Migration**

**Pluralism and Diversity**
PD/B
GER
3/B

Economic, demographic, political and cultural factors influencing migration and the consequences of migration.

*prereq: SOC 10100
3 hrs
3 cr.*

**SOC 31100 - Population Dynamics**

GER
3/B

Comparative analysis of fertility, mortality, migration trends, and related social factors.

*prereq: SOC 10100
3 hrs
3 cr.*

**E. International Peace and Security**

These courses focus on peace, security, conflict, violence, war, and terrorism.

**POLSC 28200 - International Security (W)**

GER
3/B

An introduction to basic concepts and problems in the area of international security, this course will explore explanations for some of the central causes of security/insecurity and peace/war, as well as examine select contemporary security issues.
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 28300 - Terrorism (W)

GER
3/B

The course will explore the types, causes, and strategies of terrorism as well as the effectiveness and civil liberty implications of counterterrorism strategies. Both contemporary and historical terrorist groups will be considered.

Not open to students who have completed POLSC 27353.

prereq or coreq: ENGL 12000 or the equivalent
3 hrs
3 cr.

POLSC 37900 - War and Strategy (W)

GER
3/B

An examination of strategy and wars between states, within states, and between states and transnational groups. Focuses on how strategy affects the avoidance, outbreak, conduct, and consequences of war and the difficulty of devising strategies that successfully link political ends and military means.

prereq: POLSC 11500 or 27000 or 28200; minimum of 45 credits and 9 credits in political science or permission of the instructor
coreq: ENGL 12000 or the equivalent
4 hrs
4 cr.

POLSC 38000 - European Security (W)

Pluralism and Diversity
PD/D
GER
3/B

A theoretically informed examination of current and historical security problems in Europe, with a focus on the sources of war and peace, strategic calculations, alliances, institutions, democratization, norms, and ideological and identity conflicts. A principal aim is to establish a foundation for analyzing the prospects for a secure order in Europe in the first part of the 21st century.

prereq: POLSC 11500 or 27000 or 28200; minimum of 45 credits and 9 credits in political science or permission of the instructor
coreq: ENGL 12000 or its equivalent
4 hrs
4 cr.

POLSC 38200 - Causes of War (W)
GER
3/B

An analysis of the causes of war and peace for both civil and interstate wars including especially the role of bargaining, but also the roles alliances, arms races, rivalries, and institutions.

prereq or coreq: ENGL 12000 or the equivalent; POLSC 27000 or POLSC 28200; minimum of 45 credits and 9 credits in political science or permission of the instructor.
4 hrs
4 cr.

Minor in Italian

Prerequisite for the minor

ITAL 20200 - Intermediate Italian II

Language lab mandatory.
There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 101, 102, 201, 202) and an intensive sequence (ITAL 103-203) that covers in one semester material normally covered in two.
prereq: ITAL 201 or three yrs high school Italian
3 hrs
3 cr.

-or-

ITAL 22100 - Italian for Oral Communication

A highly interactive course developing oral communication skills in Italian; includes practice in the written language and the study of culture.
There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 10100, 10200, 20100, 20200) and an intensive sequence (ITAL 10300-20300) that covers in one semester material normally covered in two.
prereq: ITAL 20200 or perm dept.
3 hrs
3 cr.

or placement test

• The minor of 12 credits utilizes four existing courses, all taught in Italian

ITAL 31100 - Advanced Italian Grammar

There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 10100, 10200, 20100, 20200) and an intensive sequence (ITAL 10300-20300) that covers in one semester material normally covered in two.
prereq: ITAL 20200 or equiv.
3 hrs
3 cr.
ITAL 31200 - Advanced Italian Composition

There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 10100, 10200, 20100, 20200) and an intensive sequence (ITAL 10300-20300) that covers in one semester material normally covered in two.

prereq: ITAL 31100 or equiv.
3 hrs
3 cr.

ITAL 32100 - Italian Translation

There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 101, 102, 201, 202) and an intensive sequence (ITAL 103-203) that covers in one semester material normally covered in two.

prereq: ITAL 311 or equiv.
3 hrs
3 cr.

ITAL 33100 - Italian Phonetics and Diction

There are two options for students beginning Italian at Hunter: a regular sequence (ITAL 101, 102, 201, 202) and an intensive sequence (ITAL 103-203) that covers in one semester material normally covered in two.

prereq: ITAL 202 or equiv.
3 hrs
3 cr.

Minor in Japanese Language

The Japanese Language Minor seeks to develop students' understanding of the Japanese language at an advanced level. With higher-level language courses, students will be exposed to more complex oral and written Japanese that will lead to a greater fluency in the language. To this end, the Japanese Language Minor requires completion of a minimum of 12 credits (4 courses). By completing the Japanese Language Minor, students will also have fulfilled the Hunter College language requirement.

No grade below B- shall be considered to fulfill the requirements for this minor.

Students must complete the following course:

JPN 20200 - Intermediate Japanese II

Continuation of JPN 20100.

prereq: JPN 20100 or equiv.
3 hrs
3 cr.

Students must take at least three of the following courses or an elective course approved by the department head (9 credit hours total):

JPN 27100 - Japanese Reading: Recitation and Comprehension
This course is targeted at students looking to strengthen their skills in reading and comprehension of Japanese books and periodicals. Additionally, reading aloud will be required in order to improve students' pronunciation and intonation.

**prereq: JPN 20100 (Intermediate Japanese I) or permission from the instructor**
3 hrs
3 cr.

**JPN 30100 - Advanced Japanese I**

Continuation of JPN 20200. Extensive reading and writing practice, including at least 700 additional kanji; advanced grammar study.

**prereq: JPN 20200 or equiv.**
3 hrs
3 cr.

**JPN 30200 - Advanced Japanese II**

Continuation of JPN 30100. Extensive reading and writing practice, including at least 600 additional kanji; advanced grammar study.

**prereq: JPN 30100 or equiv.**
3 hrs
3 cr.

**JPN 35100 - Advanced Japanese Conversation**

This course is designed for students looking to gain fluency in speaking Japanese in formal and informal situations. Speaking regularly in class is expected. Kanji radicals will also be covered.

**prereq: JPN 20200 (intermediate Japanese II) or perm instructor**
3 hrs
3 cr.

**JPN 42103 - Independent Study in Japanese**

This is an independent study course for highly motivated students enrolled in a Japanese minor. Students who take the course should be interested in researching a specific aspect of Japanese culture and/or language. Course repeatable up to 6 credits.

**prereq: Students must see an advisor in the Japanese Division before registering for this course and have departmental permission.**
3 hrs
3 cr.

**Minor in Japanese Studies**

The Japanese Studies Minor seeks to develop students' understanding of Japanese culture, while also fostering a broader understanding of Japan's influence in the world. The required culture classes (JPN 25100 and JPN 25200) will give students a foundation specifically in Japanese culture and society, and the additional elective courses offer students the option to customize the aspects of Japan they want to research. This minor is designed to be flexible and accommodate students who do not take Japanese language classes, but rather have an interest purely in Japanese culture. The majority of classes that satisfy this minor are taught in English, however some Japanese language classes
can be used to fulfill it. Students who complete the minor will have a well-rounded perspective on Japanese history and contemporary issues that will give insight into Japan.

**Minor in Japanese Studies: 12 credits**

No grade below B- shall be considered to fulfill these requirements.

**Students must complete the following courses (6 credit hours)**

**JPN 25100 - Japanese Culture Before 1600**

**Pluralism and Diversity**
PD/A
GER
2/C

Covering many facets of Japanese culture, this course will focus on the various periods of Japanese history (Jomon, Yayoi, Kofun, and Heian – to name a few) and uncover how many aspects of Japanese culture were shaped. From the influence from nearby countries – most notably China – to its isolationist periods, its mythology, the evolution of its art, the deep-seated love of nature shared by many Japanese, and the co-existence of multiple belief systems, Japan is a truly unique country whose culture continues to gain in popularity within the United States. Taught entirely in English.

While this is a two-part course, Japanese Culture Before 1600 (JPN 25100) will not act as a prerequisite for Japanese Culture Since 1600 (JPN 25200).

*prereq: ENGL 120*

3 hrs
3 cr

**JPN 25200 - Japanese Culture Since 1600**

**Pluralism and Diversity**
PD/A
GER
2/C

This course will focus on Japanese culture after roughly 1600. During this time, Japan was largely isolated from the rest of the world, but specific events led to a mixture of vastly different cultures – that of the Japanese and the Western world, which led to many changes within Japan. Additional major topics include the impact of both World Wars, contemporary Japanese lifestyle, and the various holidays and traditions that are celebrated today. Art, literature, and social reform will also play important roles throughout the semester.

*prereq: ENGL 12000*

3 hours
3 credits

Students must take at least two of the following elective courses or an elective course approved by the department head (6 credit hours total):
JPN 27100 - Japanese Reading: Recitation and Comprehension

This course is targeted at students looking to strengthen their skills in reading and comprehension of Japanese books and periodicals. Additionally, reading aloud will be required in order to improve students' pronunciation and intonation.

prereq: JPN 20100 (Intermediate Japanese I) or permission from the instructor
3 hrs
3 cr.

JPN 35100 - Advanced Japanese Conversation

This course is designed for students looking to gain fluency in speaking Japanese in formal and informal situations. Speaking regularly in class is expected. Kanji radicals will also be covered.

prereq: JPN 20200 (intermediate Japanese II) or perm instructor
3 hrs
3 cr.

JPN 42103 - Independent Study in Japanese

This is an independent study course for highly motivated students enrolled in a Japanese minor. Students who take the course should be interested in researching a specific aspect of Japanese culture and/or language. Course repeatable up to 6 credits.

prereq: Students must see an advisor in the Japanese Division before registering for this course and have departmental permission.
3 hrs
3 cr.

ASIAN 21000 - Asians in the U.S.

Hunter Core
I&S
Pluralism and Diversity
PD/B

Critical interdisciplinary examination of Asian American experiences of discrimination and exclusion in the context of domestic and foreign U.S. policies regarding immigration, labor, and national identity. Through an examination of historical, theoretical and cultural texts, the course also looks at the impact of the current expansion of Asian American communities on America's social, cultural, and political order.
Recommended for but not required of AASP Minors.
3 hrs
3 cr.

ASIAN 22001 - Asian American Women Writers

Pluralism and Diversity
PD/B or C

Critical examination of Asian American women’s identity formations in relation to factors such as racial ideology, global migrations of labor and capital, class status, sexuality, military conflict, constructions of family, and language.

3 hrs
3 cr.
ASIAN 32001 - Nation, Self, and Asian Identity

**Pluralism and Diversity**
PD/B
Critical examination of literary constructions of Asian American identity in relation to the U.S. nation-state, with particular emphasis placed upon juridical constructions of citizenship, community, and belonging.

3 hrs
3 cr.

- ASIAN 35152 Asian American Literature and Pop Culture

**FILM 21355 - National Cinema: Asian Cinema**

**Pluralism and Diversity**
PD/A
GER
3/A

*prereq: FILM 10100*

4 hrs
3 cr.

**HIST 27700 - East Asia to 1600**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/A
GER
2/B

Survey of traditional cultures and sociopolitical structures of China, Japan, Korea and Vietnam to about 1600 AD.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 27800 - East Asia, 1600 to the Present**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/A
GER
2/B

Coming of West to Asia and resulting processes of revolution and modernization after 1600 AD.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.
Students may petition for other courses to fulfill the elective requirement. No more than one class from other campuses or universities may be used to fulfill requirements.

Total credits required: 12 credits

**Minor in Jewish Studies**

The minor in Jewish Studies consists of 12 credits in courses in Jewish studies of which at least 3 credits must be on topics in the history of the Jews or Judaism and at least 3 credits in Jewish literature, thought, religion, or one of the social sciences (sociology, anthropology, or political science). Students can apply to the minor up to 6 credits in Independent Studies (JS 30000 or JS 40000) or fieldwork (JS 31000). Up to six credits in Jewish studies taken at other institutions of higher learning may be applied to the minor. Jewish Studies minors cannot apply any 100-level courses to the minor.

**Minor in Latin or Ancient Greek**

**Greek:** 12 credits beyond GRK 10100/GRK 10200

**Latin:** 12 credits beyond LAT 10100/LAT 10200 or LAT 10700

**Minor in Legal Studies**

The Legal Studies minor is an interdisciplinary course of study that allows students to examine the role and development of law from different perspectives within a liberal arts curriculum. Legal studies students will be introduced to the study of judicial opinions, theories of law and legal interpretation, the structure and role of legal institutions, and the operation of law in history and everyday life.

Law is a central feature of political, social, and economic life. The legal studies minor will prepare students embarking on careers in government, business, or the non-profit sector to think broadly and critically about the nature of law. It will also be extremely helpful for any students planning to pursue graduate study focusing on law or legal institutions, in a wide variety of disciplines. The legal studies program places an emphasis on developing students’ communication skills, interdisciplinary scholarship and a commitment to connect undergraduate education to advanced career opportunities. The core of the legal studies minor, though, is a commitment to the study of law within the liberal arts tradition.

While there are many ways for students to prepare successfully for law school, an advantage of the legal studies minor is its ability to help the college identify students planning to apply to law school, to ensure that these students receive guidance on the application process as early as possible, and to give them a solid foundation when they enter law school.

**Program Requirements**

**15-credit minor**
Students are required to complete at least one course from within each of the three categories below. Students can take no more than three courses from one department.

No more than two courses from the student's major can be applied toward the Legal Studies minor. Courses used to fulfill the Legal Studies minor may be used to meet any other degree requirements, including the political science major. Students should be aware that courses listed for this minor may have prerequisites within their home departments.

Foundations of Legal Studies

These courses teach students foundational knowledge and skills that are important for thinking and writing clearly about law.

**PHILO 10300 - Introduction to Logic and Critical Thinking**

**GER**

2/C

Recognizing arguments; traditional logic including concepts, propositions, categorical, hypothetical and disjunctive syllogisms; argument structure, natural language argumentation, fallacies.

3 hrs

3 cr.

offered each semester

**PHILO 10600 - Philosophy, Politics and Society**

**Hunter Core**

Individual and Society (Social Sciences) -I&S SS

**Pluralism and Diversity**

PD/D

**GER**

2/C

Introduction to social and political philosophy.

3 hrs

3 cr.

offered each semester

**PHILO 17000 - Introduction to Logic and Scientific Method**

**Hunter Core**

Scientific World

An introduction to logical analysis and evaluation, especially applied to scientific arguments. Recognizing arguments and their support structure; evaluating reliability of sources vouching for premises; elementary deductive formal logic; evaluation of arguments central to empirical science.

3 hrs.

3 cr.

**POLSC 11000 - American Government: A Historical Introduction (W)**
**Hunter Core**  
**Flexible Core: US Experience in its Diversity**  
**GER**  
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11000. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11000. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

*prereq or coreq: ENGL 12000 or its equivalent*
3 hrs
3 cr.

**Legal Institutions and Legal Processes**

These courses emphasize the “law on the ground.” They tend to present a more external analysis of the role and operation of legal institutions, actors, and norms.

**POLSC 21900 - Women and the Law (W)**

**Pluralism and Diversity**  
**PD/C**  
**GER**  
3/B

Overview of how local, state and federal laws treat people on the basis of sex.  
*cross-listed* WGSP 21900  
*prereq: ENGL 12000 or its equivalent*  
3 hrs  
3 cr.

**POLSC 23800 - The American Legal System (W)**

**GER**  
3/B

Civil and criminal law, common law and equity, substantive and procedural law. Emphasis on federal and New York law.  
*prereq: ENGL 12000 or its equivalent*  
3 hrs  
3 cr.

**POLSC 24000 - The American Judiciary (W)**

**GER**  
3/B
The Supreme Court and other federal courts as part of policy-making process in American government.

**prereq:** ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 31000 - Comparative Legal Systems (W)**

**GER**
3/B

Comparative study of major legal traditions of the modern world, including common law, civil law, Soviet, Islamic, Chinese, tribal and hybrid systems.

**prereq:** POLSC 11000, 23800 or 34100 or 34300 or 37500 or any course in comparative politics subfield, or perm instr; ENGL 12000 or its equivalent
3 hrs
3 cr.

**POLSC 37500 - International Law (W)**

**GER**
3/B

The course will examine the sources, principles, functions, and effectiveness of international law.

**prereq:** ENGL 12000 and POLSC 27000 or POLSC 27500 or POLSC 27800 or POLSC 282 or permission of instructor
3 hrs
3 cr.

**ASIAN 39002 - Asian American Civil Rights and the Law**

**Pluralism and Diversity**
PD/B

Critical examination of major immigration and civil rights laws and Supreme Court cases that have affected Asian Americans.

3 hrs
3 cr.

**MEDIA 39400 - Mass Communications and the Law**

**GER**
3/A

Relationship of mass media to significant constitutional problems.

**prereq:** MEDIA 18000
3 hrs
3 cr.

**HIST 36400 - American Constitutional History, 1783 to 1900**
Pluralism and Diversity
PD/D
GER
3/B

Development of constitutional thought from the framing of the Articles of Confederation to 1900. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

SOC 31900 - Criminology

GER
3/B

Criminal behavior, arrest, and punishment. Problems of definition, administration of criminal justice.
prereq: SOC 10100
3 hrs
3 cr.

SOC 32000 - Law, Society and Civil Rights

GER
3/B

Examines from a sociological perspective the concept of law, and legal institutions and their relationship to society and culture, concentrating on the struggle for civil rights in America.
prereq: SOC 10100
3 hrs
3 cr.

The Theory and Practice of Legal Interpretation

These courses emphasize the “law on the books,” the way relative insiders, like legal theorists and judges, talk about the content of law. Courses in this category introduce students to judicial opinions as well as normative theories about the way law should be interpreted

POLSC 34000 - Constitutional Law: Organizing the Government (W)

GER
3/B

Constitutional problems and Supreme Court decisions. Federalism, judicial review, separation of powers, foreign policy.
prereq: POLSC 11000 or 11100 or 23800
3 hrs
3 cr.

POLSC 34100 - Constitutional Law: Civil Rights (W)
Constitutional problems and Supreme Court decisions regarding race and sex discrimination.

**prereq:** POLSC 11000 or 11100 or 23800

3 hrs

3 cr.

**POLSC 34200 - Constitutional Law: The First Amendment (W)**

Constitutional problems and Supreme Court decisions regarding freedom of speech, press (media), religion and assembly.

**prereq:** POLSC 11000 or 11100 or 23800

3 hrs

3 cr.

**ECO 37000 - Law and Economics**

Analytical tools of microeconomics are used to examine various aspects of the law, including property, contracts, torts, liability, and criminal and family law.

**prereq:** ECO 20000

3 hrs

3 cr.

**PHILO 25200 - Problems of Law and Morality**

Philosophy of law and the relation of legal to ethical issues.

**prereq:** ENGL 12000 and one previous course in philosophy.

3 hrs

3 cr.

**PHILO 34600 - Contemporary Theories of Justice (W)**

A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.

3 hrs

3 cr
Minor in Linguistic Anthropology

The Linguistic Anthropology Minor introduces students to the comparative and interdisciplinary study of language as a cultural resource and speaking as a cultural practice. In its study of the ways in which language and culture are interrelated, linguistic anthropology often draws from linguistics, sociology, psychology, philosophy, communication studies, as well as education, semiotics, and ethnic and literary studies.

Minor in Linguistic Anthropology

The Minor consists of a minimum of 12 credits from any of the following courses, or other courses with approval of the departmental undergraduate advisor. In order to graduate with a Linguistic Anthropology Minor, students must earn a C grade or better in all the courses counted towards the minor.

Choose from courses below:

ANTHC 15100 - Introduction to Linguistics

Hunter Core
World Cultures and Global Issues (WCGI)
GER
2/B

Structure and analysis of human languages; language history; language in society, culture and mind; language universals.
3 hrs
3 cr.

ANTHC 32000 - Problems in Anthropology

GER
3/B

Topics TBA. Recent courses have looked at globalization, social movements and civil society, energy policy, women and economic development, international migration. Depending on topic, may meet PD/A, B, or C.
prereq: perm instr.
3 hrs
3 cr.
offered every sem.

ANTHC 35100 - Language in Culture and Society

GER
3/B

Sociolinguistics; ethnography of communication; languages and dialects; face-to-face interaction; bilingualism in social and political life; language, ideology and identity.
3 hrs
3 cr.
ANTHC 35400 - Grammatical Analysis and Theory

GER
3/B

Methods of syntax and morphology in work with diverse languages; syntactic theories and their development relative to universals, semantics, pragmatics, discourse.

Prereq: ANTHC 15100 or equiv.
3 hrs
3 cr.

ANTHC 40100 - Seminars in Selected Topics

Topics TBA.

Minor in Mathematics

A minor in mathematics consists of a minimum of 12 credits selected from any of the following courses offered by the Department:

- MATH courses numbered 15000 or above
- STAT 31100
- STAT 31200

Students should consult the catalog to determine prerequisites necessary for them to enroll in courses that count toward the minor. It is recommended that prospective mathematics minors consult with an undergraduate mathematics adviser concerning course selection.

Minor in Media Studies

The Minor in Media Studies consists of five courses for a total of 15 credits. At least one 200-level course and at least one 300-level course are required. The other three courses can be at any level. Course prerequisites must be satisfied. Internships and independent studies do not count towards the minor.

Minor in Middle East Studies

The Minor in Middle East Studies seeks to develop students' understanding of the complex and interconnected political, economic, cultural, environmental, linguistic, historical, and religious issues in the region by fostering critical, interdisciplinary and global approaches to the study of the Middle East and its diasporas.

To this end, the Minor in Middle East Studies (MMES) requires completion of a minimum of 12 credits (4 courses). In addition, students are encouraged to fulfill the college language requirement through study of a regional language. However, there is no language requirement for the MMES.

No grade below B- shall be considered to fulfill these requirements.
Admission to the Minor

Students who have completed at least 3 credits of relevant coursework in Middle East Studies (including regional languages) with an average GPA of 3.0 may apply for admission to the Minor. To declare the Minor, students will complete the Minor Declaration form and meet with the Director. For advising purposes students are encouraged to apply early in their academic careers. Any Middle East Studies related courses taken prior to declaring the Minor shall count toward the 12 credit minimum for the Minor in Middle East Studies.

Credits earned toward the Minor in Middle East Studies shall not also count toward the fulfillment of Major or other Minor requirements.

Introductory survey course: 3 cr

All students will take one survey course in Middle East Studies chosen from among the following, or another general survey course subject to approval by the Director:

**ANTHC 20100 - The Middle East: Societies and Cultures**

- **Pluralism and Diversity**
- PD/A
- GER
- 3/B

Peasant, nomadic and urban society; kinship, ethnic, religious and ecological diversity; colonialism and modernization.

3 hrs
3 cr.

**HIST 27650 - Middle Eastern History from the Beginning of Islam to 1800**

- **Pluralism and Diversity**
- PD/A

Religious, cultural and social changes in the region. The emergence of the religion of Islam, the expansion of the Islamic realm and the rise and fall of subsequent Islamic states up to the 18th century.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**HIST 27651 - The Modern Middle East from 1800 to the Present**

- **Pluralism and Diversity**
- PD/A

The transformation of states and peoples in the last two centuries in the region stretching from Turkey to Iran and including Iraq, Syria, Egypt and Arabia. Modern social and cultural trends, conflicts and reactions under the impact of imperialism, nationalism, economic trends and religious forces.
Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

**MUSHL 24300 - Music of the Middle East**
Music and its relationship to tradition, modernity, gender, and politics in the major regions and ethnic groups of the Middle East and North Africa.

**prereq or coreq:** MUSHL 10100, or MUSHL 10700, or MUSHL 20500, or MUST 10100, or permission of the instructor

*3 hrs*

*3 cr*

**POLSC 26300 - Government and Politics in the Middle East (W)**

**Pluralism and Diversity**

PD/A

GER

*3/B*

Introduction to Islamic societies and their politics with particular attention to cultures of region.

**prereq:** ENGL 12000 or its equivalent

*3 hrs*

*3 cr.*

Additional courses may be developed to fulfill this requirement

**Electives: 9 cr**

In addition, students will take a minimum of 9 credits in electives, and must choose at least one class focusing on the Middle East from each of the following three areas of concentration:

I) Historical Formations

II) Society and Politics

III) Arts, Literatures, and Cultures

Students may petition for other courses to fulfill the elective requirement.

Click here for a list of currently offered courses that meet these requirements:

List of Selected Approved Courses for the Minor in Middle East Studies

Students may fulfill 3 of the 9 credit hour elective requirement with advanced language and literature classes (3rd year and beyond), for Area of Concentration III) Arts, Literatures and Cultures. With the approval of the Director, students may take an independent study and one course from outside Hunter College to satisfy the requirements for the Minor.

**Minor in Music**

The music minor consists of 15 credits in music: MUSTH 10100; MUSHL 10100 or MUSHL 10700; one course with an MUSHL prefix at the 200-level; and 6 credits of music electives, 3 of which must be at the 200-level or higher. Prospective minors who have already mastered the material taught in the required 100-level courses (MUSTH 10100 and/or MUSHL 10100 or 10700) may be exempted from these courses by passing the same entrance examination that is required of prospective music majors (see Music 25-Credit Major (BA)). Music minors must substitute more advanced courses in any area of music study, which may include private lessons and ensembles, for the courses from which they are exempt. PLEASE NOTE: Music minors who wish to take private lessons for credit (MUSPF 40100) must first pass both the performance audition and music theory portions of the entrance examination.
Minor in Philosophy (the Standard concentration)

Prerequisite to the minor: one of 4 introductory philosophy courses

Chose one:

PHILO 10100 - Introduction to Philosophy

**Hunter Core**
Individual and Society (Humanities) - I&S H
**GER**
2/C

Examination of basic philosophical questions through study of selected philosophical classics.
3 hrs
3 cr.
offered each semester

PHILO 10400 - Introduction to Ethics

**Hunter Core**
Individual and Society (Humanities) - I&S H
**GER**
2/C

Examination of standards of right conduct and the good life through study of selected philosophical classics.
3 hrs
3 cr.
offered each semester

PHILO 10600 - Philosophy, Politics and Society

**Hunter Core**
Individual and Society (Social Sciences) - I&S SS
**Pluralism and Diversity**
PD/D
**GER**
2/C

Introduction to social and political philosophy.
3 hrs
3 cr.
offered each semester

PHILO 20400 - Great Philosophers

**Hunter Core**
Individual and Society (Humanities) - I&S H
Pluralism and Diversity
PD/D
GER
2/C
A comprehensive study of major philosophical thinkers.
prereq: ENGL 12000
3 hrs
3 cr.

ENGL 12000 - Expository Writing

Hunter Core
English Comp (EC)
GER
1/A
Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.
prereq: successful completion of developmental courses, if required
3 hrs + conf
3 cr.

The Philosophy Minor

The philosophy minor requires 12 credits at the 200-level and above with no fewer than 3 credits at the 300-level. Exceptions: PHILO 17000 may count toward the minor at the 200-level and PHILO 20400 shall not count.

Minimum gpa for the minor
A student must pass a minor in philosophy with a minimum GPA of 3.00.

Note:
Students should always consult with a philosophy department adviser when constructing their minor. Some suggested tracks may be found on the philosophy department website http://www.hunter.cuny.edu/philosophy.

Minor in Philosophy, Politics and Society (PPS)
A student must take, as a prerequisite to the minor, PHILO 10600. This course does not count toward the PPS minor.
The PPS minor consists in taking 4 courses or 12 credits from the philosophy courses listed in the PPS major, at least one of which must be at the 300-level. Non-philosophy courses counting toward the PPS major concentration may not count toward the PPS minor.
A student must pass the PPS minor with a minimum GPA of 3.00.
Note: When constructing a minor in the PPS concentration, a student should always consult with a philosophy department advisor beforehand.

Minor in Physical Anthropology

The Physical Anthropology Minor introduces students to the study of human evolution, including human variation, paleontology, genetics, and primatology. The Minor consists of a minimum of 12 credits. These must include ANTHP 101 Human Evolution (4 Cr). The remaining credits can be filled by any AN-P courses. Also, one (and only one) non-ANTHP course from the following list may count towards the minor. In order to graduate with a Physical Anthropology Minor, students must earn a C grade or better in all the courses counted towards the minor.

Required course for the Minor:

ANTHP 10100 (STEM) - Human Evolution

Hunter Core
Life and Physical Sciences (LPS) Scientific World (SW)
GER
2/E

The study of human origins and adaptation, through an understanding of evolutionary mechanisms, genetics, comparative primate biology, the fossil record, and modern human variation.
6 hrs (3 hrs lec, 3 hrs lab)
4 cr.
offered every sem.

8 or more credits from any of the following courses:

Note: Only one non-ANTHP may be used for the Physical Anthropology Minor.

ANTHP 30100 - Human Fossil Record

Pluralism and Diversity
PD/C
GER
3/B

The hominid fossil record of Africa, Asia and Europe. Human evolution as evidenced in fossil record.
prereq: ANTHP 10100, 10200, or equiv.
3 hrs
3 cr.

ANTHP 30200 - Human Genetics

Analysis of distribution of contemporary human populations and microevolutionary processes that underlie human variability.
prereq: ANTHP 10100 or ANTHP 10200 or BIOL 10200 or ANTHP 10500
ANTHP 31000 - Primate Ecology and Behavior

GER
3/B

Examination of ecological factors responsible for the distribution and behavior of living primate species.

prereq: ANTHP 10100 or 10200 or BIOL 10000 or 10200

3 hrs
3 cr.

ANTHP 31100 - Primate Evolution

GER
3/B

65 million years of evolution covering the appearance and radiation of our own mammalian Order. A detailed look at the primate fossil record and the evolution of primate anatomy, behavior, and ecology.

prereq: ANTHP 10100 or perm instr.

3 hrs
3 cr.

ANTHP 31200 - Primate Evolutionary Genetics

Examines evolutionary relationships, social behavior, natural selection, disease, population history, demography, medicine and genomics. This course draws on readings from the primary literature.

prereq: ANTHP 10100 OR ANTHP 10200 OR BIOL 10200 OR ANTHP 10500

3 hrs
3 cr.

ANTHP 31600 - Human Evolutionary Adaptations

GER
3/B

How does the human body work, and how did it get that way? This course investigates the workings and evolution of all aspects of human biology. Human physiology is considered in an evolutionary framework.

prereq: ANTHP 10100 or ANTHP 10500

3 hrs
3 cr.

ANTHP 40100 - Seminars in Selected Topics

Course provides in-depth study of specific topics in field of physical anthropology.

prereq: prereq; depends on topic

3 hrs
3 cr.
Non ANTHP Courses:

**ANTHC 12600 - Introduction to Prehistoric Archaeology**

**Hunter Core**  
World Culture and Global Issues (WCGI)  
**GER**  
2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.  
3 hrs  
3 cr.  
offered every sem.

**BIOL 10000 (STEM) - Principles of Biology I**

**Hunter Core**  
Life and Physical Sciences (LPS); Scientific World (SW)  
**Pluralism and Diversity**  
PD/C or D  
**GER**  
2/E

The chemical basis of life; basic structure and function of pro- and eucaryotic cells; bioenergetics; Mendelian and molecular genetics; development and mechanisms of control of gene expression at all levels; population genetics and evolution.  
Material Fee: $5  
PD credit awarded only upon completion of BIOL 10000 and 10200.  
prereq: MATH 12500, CHEM 10200  
7 hrs (3 lec, 3 lab, 1 disc)  
4.5 cr.  
spring only

**BIOL 12000 - Anatomy and Physiology I**

Cell structure and function; histology; nervous, muscular and skeletal systems; integument. Required for admission to the nursing program.  
Not accepted for credit toward the biology major.  
prereq: CHEM 10000, 10100  
coreq: CHEM 12000, 12100  
7hrs (3hr Lecture, 1hr Recitation, 3hr Lab)  
4.5 cr.  
fall only

**GEOL 10000 - Introductory to Geology**

**Hunter Core**  
Scientific World (SW)  
**GER**  
2/E

Introduction to Geology is the study of the physical aspects of our planet. The goal of this course is to provide students
with a basic understanding of the forces continuously shaping the surface of our planet and the influence they have on our environment, so that their appreciation and interest in our planet is heightened. At the same time, this course provides a strong fundamental background for students who want to pursue more advanced geological and environmental studies courses.

3 hrs (3 lec, 3 lab)
3 cr.
Offered fall and spring.

**PSYCH 16000 - Evolution and Behavior**

**GER**
2/B

Aggression, sleep, learning, communication, emotion, motivation and social behavior in human and other species; underlying mechanisms, development, evolutionary history.

*prereq: PSYC 10000*

3 hrs
3 cr.

**Minor in Physics**

A minor in Physics consists of a minimum of 12 credits of PHYS courses, including two courses numbered above 200 or one course numbered above 300. Students who wish to enroll in the Physics Minor must have completed:

- MATH 15000
- MATH 15500.

The prerequisites for the 300-level courses include MATH 25000 and/or MATH 25400.

**Minor in Political Science**

Students minoring in political science must complete 12 credits in political science. No more than three credits can be at the 100-level. No more than three credits in independent study (POLSC 29001-29003) can be used to satisfy the minor. Internship credits may not be applied toward the minor.

The minor in Political Science is designed to provide students with solid grounding in political science and to encourage them to develop depth in the discipline in an area that will complement their major or develop expertise in an area of particular interest to them.

The minor in Political Science allows students considerable flexibility in designing a minor that will best serve their academic goals. Students may, for instance, wish to focus on courses dealing with European politics and foreign policy to complement a major in a European language and culture. Students may concentrate their courses in one field of political science, or spread them across several fields. Students may consult an advisor in the Department of Political Science about their goals as they choose courses to satisfy the minor.

**Minor in Political Theory**
The Political Theory Minor provides a concentration of study for students interested in political, social, and legal philosophy or thought, often related to public discourses, practices, and laws. It recognizes the interdisciplinary character of political theory, which operates at the intersection of the humanities and social sciences. It focuses on critical issues of ethics and power in history and the present, along with major authors in the traditions of political philosophy and thought.

The minor program consists of at least 15 credits taken from the courses listed below, or others as approved by the minor program advisor. Students must take at least 6 credits in philosophy and 6 credits in political science, including PHILO 10600 (or another 100-level PHILO course, with permission of the Advisor) and POLSC 20000. At least 3 credits must be taken at the 300-level, and one course must be taken from each of the three Minor categories (listed below). No more than six credits that count towards the student's major may be used to fulfill this Minor.

1. Required Courses

PHILO 10600 - Philosophy, Politics and Society

<table>
<thead>
<tr>
<th>Hunter Core</th>
<th>Individual and Society (Social Sciences) -I&amp;S SS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pluralism and Diversity</td>
<td>PD/D</td>
</tr>
<tr>
<td>GER</td>
<td>2/C</td>
</tr>
</tbody>
</table>

Introduction to social and political philosophy.

3 hrs
3 cr.
offered each semester

POLSC 20000 - Interpreting Politics: An Introduction to Political Ideas (W)

<table>
<thead>
<tr>
<th>Hunter Core</th>
<th>Individual and Society (Social Sciences) -I&amp;S SS</th>
</tr>
</thead>
<tbody>
<tr>
<td>GER</td>
<td>2/B or 3/B</td>
</tr>
</tbody>
</table>

An introduction to interpreting major political ideas and their significance in the contemporary world. Competing understandings of concepts such as freedom, equality, justice, citizenship, and legitimacy will be explored, in part by applying them to concrete political issues such as multiculturalism, economic distribution, and the death penalty.

prereq or coreq: ENGL 12000 or its equivalent

3 hrs
3 cr.

2. Current Courses That Count Towards the Political Theory Minor

Minor courses are to be selected from the following list of regularly taught courses or special topics courses in Philosophy or Political Science that pertain to the Minor but are irregularly taught (those interested in the latter should check with the advisor to verify that they may count toward the minor). In addition, one course, with significant theoretical content, offered in, e.g., Anthropology, Classics, Geography, History, Religion, or Sociology, may count toward the Minor, upon approval of the Political Theory Adviser.
History of Political Philosophy and Thought

One Course on figures in, or periods of, political theory, eg., courses in the PHILO 38000 Major Figures in Philosophy (W) topic series:

**PHILO 38010 - Plato (W)**

**GER**

3A

Intensive study of the works and legacy of Plato.

*prereq: Two courses in philosophy, at least one of which is at the 200 level.*

3 hrs

3 cr.

-or-

**PHILO 38011 - Aristotle (W)**

**GER**

3A

Intensive study of the works and legacy of Aristotle.

*prereq: Two courses in philosophy, at least one of which is at the 200 level.*

3 hrs

3 cr.

-or-

**PHILO 38070 - Hegel (W)**

**GER**

3A

Intensive study of the works of Hegel.

*prereq: Two courses in philosophy, at least one of which is at the 200 level.*

3 hrs

3 cr.

-or-

**PHILO 38076 - Marx (W)**

**GER**

3A

Intensive study of the works and legacy of Marx (W)

*prereq: Two courses in philosophy, at least one of which is at the 200 level.*

3 hrs

3 cr.

-or-
PHILO 38086 - Foucault (W)

GER
3A

Intensive study of the works and legacy of Foucault.

prereq: Two courses in philosophy, at least one of which is at the 200 level.

3 hrs
3 cr.

-or-

POLSC 20100 - Ancient to Early Modern Political Thought (W)

Pluralism and Diversity
PD/D
GER
3/B

The study of selected writers from the ancient Greeks to the Renaissance (e.g., Plato to Machiavelli), focusing on the political dimensions of such ideas as rationality, virtue, community, human nature and historical change.

prereq: ENGL 12000 or its equivalent

3 hrs
3 cr.

-or-

POLSC 20200 - Modern Political Thought (1600-1900) (W)

Pluralism and Diversity
PD/D
GER
3/B

The study of selected political writers (e.g., Hobbes to Nietzsche), with special emphasis given to the nature of and problems with, liberty, equality and justice in modern societies and states.

prereq: ENGL 12000 or its equivalent

3 hrs
3 cr.

-or-

POLSC 20300 - Political Thought Since 1900 (W)

Pluralism and Diversity
PD/D
GER
3/B

Exploration of concepts and thinkers in political theory since 1900. Topics include such traditional issues of political theory as the nature and scope of political regimes, justice, equality and changing concepts of human nature.

prereq: ENGL 12000 or its equivalent

3 hrs
3 cr.

-or-
POLSC 20900 - Women and Gender in Western Political Thought (W)

Pluralism and Diversity
PD/C or D
GER
3/B

Examines history of political thought from the perspective of gender relations and the treatment of women.
cross-listed WGST 20900
prereq: ENGL 12000 or its equivalent
3 hrs
3 cr.

-or-

POLSC 30100 - American Political Thought (W)

GER
3/B

Examination of ideas that have shaped American politics from the Revolution to the present, including Federalists and Anti-Federalists, Progressivism and responses to industrialization and recent debates over the welfare state, political inclusion and democracy.
prereq: ENGL 12000 or its equivalent; one course in political theory or perm. instr.
3 hrs
3 cr.

Note: For more information on the topic series course click here: PHILO 38000 Major Figures in Philosophy (W)

Basic Concepts and Themes

One course on theoretical or conceptual tendencies in political theory

PHILO 22600 - African-American Philosophy (W)

Pluralism and Diversity
PD/B
GER
3/A

Development of the African-American intellectual tradition. Study of the work of such figures as Equiano, Douglass, Cooper, Blyden, Du Bois and Hurston.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

PHILO 23000 - Feminism: Philosophical Theory and Practice (W)

Pluralism and Diversity
PD/C
GER
Analyses of feminist theories and their practical implications.
cross-listed WGST 23000 (W)
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.
-or-

PHILO 24600 - Political Philosophy (W)

Study of selected philosophical problems in politics, law, economics and society.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.
-or-

PHILO 24800 - International Ethics (W)

Study of the ethical dimensions of problems in contemporary international relations, such as war and peace, imperialism, national identity and development.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.
-or-

PHILO 25500 - Environmental Philosophy (W)

Conceptual, ethical, and methodological issues pertaining to the environment and environmental sciences.
prereq: ENGL 12000 and one course in Philosophy
3 hrs
3 cr.
-or-

PHILO 31900 - Marxist and Critical Theory (W)

Study of 20th century philosophers, such as Lucás, Adorno, and Marcuse, who attempted to develop a theory of historical materialism or a critical theory of society, as well as the sources of their ideas in the work of Marx, Weber, and Freud.
prereq: ENGL 12000 and 2 courses in philosophy, 1 at the 200-level
PHILO 34600 - Contemporary Theories of Justice (W)

GER
3/B

A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.

3 hrs
3 cr.

PHILO 34800 - Philosophy of Human Rights (W)

A study of the philosophical foundations and justifications of human rights, including core notions of freedom and dignity in cross-cultural context, their scope as civil-political and economic-social rights, and newer women's and environmental rights.

*prereq: ENGL 12000, and either a) two courses in philosophy, with at least one at the 200-level, or b) a course in political theory and one course in philosophy at the 200-level.*

3 hrs
3 cr.

PHILO 39400 - Philosophical Problems

GER
3/A

Study of one or more major philosophical problems.

*prereq: variable (see Program Prerequisites)*

3 hrs
3 cr.

POLSC 30200 - Critical Theory and Politics (W)

GER
3/B

Intensive study in the core concepts and ideas in the tradition of Critical Theory. Thinkers include, among others, Kant, Hegel, Marx, Nietzsche, Adorno, Horkheimer, Marcuse, Fanon, and Foucault, as well as contemporary critical theorists. Themes and foci will vary by semester and will include: the nature and purpose of critique; political sociology and the analysis of liberalism, fascism and other political formations; mass culture and the fate of art; power and the psyche; reason and affect; violence and terror; the philosophy of history, and the politics of liberation.

*prereq: ENGL 12000 or the equivalent; at least one 200-level course in political theory or permission of the instructor.*

4 hrs
4 cr.
POLSC 30500 - Democratic Theory (W)

GER
3/B

A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.

prereq or coreq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

POLSC 30900 - Feminist Political Theory (W)

Pluralism and Diversity
PD/C
GER
3/B

Readings in feminist ideas, both historical and contemporary, on issues of power, justice and equality. The course will emphasize different perspectives, including those of liberal, radical, postmodernist, women of color, third world and 'global' feminists.

cross-listed WGST 30900 (W)

prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

POLSC 31600 - Political Theory of Human Rights (W)

GER
3/B

A critical analysis of the intersection of academic and practical discourse of human rights with the central concerns of political theory, particularly as it engages relationships between ethics and power as well as theory and practice.

prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.
3 hrs
3 cr.

Theoretical Dimensions of Contemporary Controversies

One course on problems or issues in political theory

PHILO 20080

- or -

PHILO 22600 - African-American Philosophy (W)

Pluralism and Diversity
PD/B
GER
3/A

Development of the African-American intellectual tradition. Study of the work of such figures as Equiano, Douglass, Cooper, Blyden, Du Bois and Hurston.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

PHILO 23000 - Feminism: Philosophical Theory and Practice (W)

Pluralism and Diversity
PD/C
GER
3/A

Analyses of feminist theories and their practical implications.
cross-listed WGST 23000 (W)
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

PHILO 25000 - Problems of Ethics and Society (W)

GER
3/B

Study of the ethical dimensions of contemporary social problems, such as poverty, consumption, sexual deviance, racism and environmental destruction.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

PHILO 25200 - Problems of Law and Morality

GER
3/B

Philosophy of law and the relation of legal to ethical issues.
prereq: ENGL 12000 and one previous course in philosophy.
3 hrs
3 cr.

-or-

PHILO 25500 - Environmental Philosophy (W)

Conceptual, ethical, and methodological issues pertaining to the environment and environmental sciences.
prereq: ENGL 12000 and one course in Philosophy
PHILO 34600 - Contemporary Theories of Justice (W)

GER
3/B
A study of important contemporary theories of economic, political, and social justice, such as political liberalism, democratic socialism, communitarianism, and civic republicanism.

3 hrs
3 cr.

PHILO 34800 - Philosophy of Human Rights (W)

A study of the philosophical foundations and justifications of human rights, including core notions of freedom and dignity in cross-cultural context, their scope as civil-political and economic-social rights, and newer women's and environmental rights.

prereq: ENGL 12000, and either a) two courses in philosophy, with at least one at the 200-level, or b) a course in political theory and one course in philosophy at the 200-level.

3 hrs
3 cr.

PHILO 39400 - Philosophical Problems

GER
3/A
Study of one or more major philosophical problems.

prereq: variable (see Program Prerequisites)

3 hrs
3 cr.

POLSC 20400 - Contemporary Issues in Political Theory

GER
3/B
Topics vary each semester. They have included democracy in America, totalitarianism, liberty and authority.

POLSC 20451 Women in Western Political Thought meets PD/D

prereq: ENGL 12000 or its equivalent

3 hrs
3 cr.

POLSC 30300 - Democracy and Emergency (W)
This seminar in political theory examines the issue of emergency powers in constitutional democracies. It will examine various attempts to define what is an emergency, as well as the spirited debates over the legitimacy of extraordinary powers to manage such crises.

*prereq: ENGL 12000*

**POLSC 30400 - Contemporary Issues in Political Theory**

Selected topics in political theory.

*prereq: ENGL 12000 or its equivalent; one course in political theory subfield or perm instr*

**POLSC 30500 - Democratic Theory (W)**

A critical survey of different conceptions of democracy: issues include democracy as a political order, democracy and 'non-political' forms of life (e.g., business, family, religion), toleration, political representation, democracy and justice.

*prereq or coreq: ENGL 12000 or its equivalent; one course in political theory or perm instr.*

**POLSC 30900 - Feminist Political Theory (W)**

Readings in feminist ideas, both historical and contemporary, on issues of power, justice and equality. The course will emphasize different perspectives, including those of liberal, radical, postmodernist, women of color, third world and 'global' feminists.

*cross-listed WGST 30900 (W)*

**POLSC 31600 - Political Theory of Human Rights (W)**
A critical analysis of the intersection of academic and practical discourse of human rights with the central concerns of political theory, particularly as it engages relationships between ethics and power as well as theory and practice.

*prereq: ENGL 12000 or its equivalent; one course in political theory or perm instr.*

3 hrs
3 cr.

**Minor in Psychology**

The minor in psychology is designed to expose students to a variety of content areas in the field of psychology and to provide the student with the ability to evaluate psychology research as a consumer. To declare a psychology minor, the student must have completed any 100-level psychology course with a minimum grade of C and a required mathematics course with a minimum grade of C or CR. The mathematics requirement may be satisfied by STAT 11300 or MATH 12500 or by an appropriate score on the mathematics placement test. The minor in Psychology consists of 15 credits in Psychology, as follows: PSYCH 10000 and any other 3 cr. PSYC course; PSYCH 21500; and any 2 200-level PSYC courses below PSYCH 24800. The total number of credits to fulfill all minor requirements, including credits for all prerequisites, is 18: 15 credits in PSYC course and 3 credits in STAT 11300 or MATH 12500.

**Minor in Religion**

The Minor in Religion consists of four courses for a total of 12 credits.

- The following two courses are required:

- REL 11000 - Nature of Religion (W)
- REL 11100 - Approaches to Religion (W)

- Also required for the Minor in Religion:

  a) one course to be chosen from those listed under the category “Religious Traditions”; and

  b) one course from the category “Issues in Religion” reflecting a theme central to the religious tradition in which the student has chosen to focus, to be selected in consultation with a Religion Program adviser.

At least one course presented in satisfaction of the minor must be a 300-level course.

**Minor in Russian Language and Minor in Russian Literature and Culture**

The Program will encourage students to take the Russian minor. The minor consists of minimum of 12 credits. Students wishing to minor in Russian should either pass a proficiency test or take the language sequence of RUSS 10100 — RUSS 10200; RUSS 20100 — RUSS 20200. Courses taken toward the Russian minor could follow two tracks:

**Track I: Russian Language Minor**

Prerequisite: RUSS 20200 or equivalent. Students are expected to take: RUSS 30100 & RUSS 30200; RUSS 31700 or RUSS 31800 or RUSS 31900; plus one literature course taught in Russian.

**Track II: Russian Literature and Culture Minor**
Prerequisite: RUSS 20200 or equivalent. Students are expected to take: RUSS 30100 & RUSS 30200 and two literature or culture courses conducted either in Russian or in English. Literature courses may be substituted for language courses in the Literature and Culture Minor with permission by the head of the program.

**Minor in Sociology**

The minor in Sociology requires four courses with 12 credits which students have to pass with a GPA of at least 2.0. Students minoring in Sociology must take SOC 10100 - Introduction to Sociology, the prerequisite for all other sociology courses, SOC 22100 - Classical Sociological Theory and two additional courses selected from those offered on a regular basis. It is recommended but not required that one sociology course on the 300 or higher level be included.

**Minor in Spanish**

The Spanish minor consists of 15 credits of courses that are taught entirely in Spanish and combines language, civilization, and literature.

- The prerequisite for a Spanish minor consists of either

  **SPAN 20200 - Intermediate Spanish II**

  Language lab mandatory.
  Spanish for English speakers.
  *prereq: SPAN 20100 or three yrs high school Spanish*
  3 hrs
  3 cr.

  -or-

  **SPAN 20800 - Advanced Spanish for Native Speakers**

  Spanish for native speakers.
  *prereq: SPAN 20700 or perm dept.*
  3 hrs
  3 cr.

  or equivalent proficiency

**Minor in Spanish Cultures and Literatures**

The following courses are required for a minor in Spanish Cultures and Literatures:

Two language courses (6 credits)
above the SPAN 20200 (non-heritage speakers) or SPAN 20800 (heritage speakers) level, at least one of which must be a 300-level course. Recommended courses are:

**SPAN 21100 - Spanish Grammar and Composition**

Not recommended for fluent speakers of Spanish. Study of grammatical and syntactical patterns. Practice in reading, writing and speaking Spanish.

*prereq: SPAN 20200 or 20300
3 hrs
3 cr.*

**SPAN 22100 - Spanish for Oral Communication**

Not for fluent Spanish speakers.

*prereq: SPAN 20200 or equiv. and perm adviser
3 hrs
3 cr.*

**SPAN 27000 - Spanish Composition for Spanish Speaking Students**

*prereq: SPAN 20800 or perm adviser
3 hrs
3 cr.*

**SPAN 31100 - The Structure of Modern Spanish**

*prereq: SPAN 21100 or permission of departmental adviser
3 hrs
3 cr.*

**SPAN 31200 - Advanced Spanish Writing**

Applying morphosyntactical patterns through intensive composition. Exploration of various writing forms. Required of all Spanish majors.

*prereq: SPAN 31100 or equiv.
3 hrs
3 cr.*

One civilization course (3 credits)

chosen from

**SPAN 33500 - Spanish Civilization**

*Pluralism and Diversity
PD/D
GER
3/A*

*prereq: SPAN 20800, 21100 or dept. perm*

3 hrs 
3 cr.

-or-

**SPAN 33600 - Latin American Civilization**

**GER** 
3/A

Geographical, historical, political, literary, artistic and economic evolution of Latin American nations. Given in Spanish.

*prereq: SPAN 20800, 21100 or dept. perm*

3 hrs 
3 cr.

**Two literature courses (6 credits)**

on Spanish or Latin American literature. Recommended courses include:

**SPAN 27500 - Readings in Modern Spanish Literature**

**Pluralism and Diversity**

PD/D

Representative writers: Unamuno, Lorca, Cela.

*prereq: SPAN 20200, 20300, 20800, 21100 or four yrs high school Spanish or dept. perm*

3 hrs 
3 cr.

**SPAN 27600 - Readings in Modern Spanish- American Literature**

Representative writers: Borges, Neruda, Cortazar, Garcia Mírquez.

*prereq: SPAN 20200, 20300, 20800 21100 or four yrs high school Spanish or dept. perm.

3 hrs 
3 cr.

Alternately, students may take 300-level Spanish and Latin American literature courses from the following list by special permission of adviser:

**SPAN 34300 - Spanish Literature of the Middle Ages**

**Pluralism and Diversity**

PD/D

**GER**

3/A

After exploring Al Andalus’ poetry, prose and philosophy written by Muslim and Jewish authors; the Castilian epic *Poema de Mio Cid*, the beginning of the Christian cult of Virgin Mary (*Milagros de Nuestra Señora*), the origins of the short stories (*Libro de Conde Lucanor*), and the elegy will be studied. Special attention will be given to the position of
women since the 12th Century, especially in *Libro de buen amor.*

**SPAN 34500 - Spanish Drama of the Golden Age**

**Pluralism and Diversity**  
**PD/D**  
**GER**  
**3/A**

Theatre of 16th and 17th centuries, Lope de Vega and Calderon.  
*prereq: SPAN 34100*  
3 hrs  
3 cr.

**SPAN 34600 - Cervantes**

**Pluralism and Diversity**  
**PD/D**  
**GER**  
**3/A**

Don Quijote.  
*prereq: SPAN 34100*  
3 hrs  
3 cr.

**SPAN 34900 - Spanish Prose of the Golden Age**

**Pluralism and Diversity**  
**PD/D**  
**GER**  
**3/A**

Principal themes and genres of prose production in Spain in the 16th and 17th centuries, with emphasis on such authors as Rojas, Santa Teresa, Cervantes, Zayas and Quevedo.  
*prereq: SPAN 34100*  
3 hrs  
3 cr.

**SPAN 35000 - Spanish Poetry of the Golden Age**

**Pluralism and Diversity**  
**PD/D**  
**GER**  
**3/A**

Principal forms and issues of poetic composition in Spain in the 16th and 17th centuries, with emphasis on major poets such as Garcilaso, Fray Luis, San Juan de la uz, Lope, Quevedo and Góngora.  
*prereq: SPAN 34100*
SPAN 35300 - Spanish Neoclassicism and Romanticism

Pluralism and Diversity
PD/D
GER
3/A

Representative works of Neoclassical and Romantic periods, including costumbrismo.
prereq: SPAN 34100
3 hrs
3 cr.

SPAN 35500 - Spanish Literature from Realism to World War I

Pluralism and Diversity
PD/D
GER
3/A

From Realism and Naturalism through the Generation of 1898 and Modernism.
prereq: SPAN 34100
3 hrs
3 cr.

SPAN 35700 - Early 20th Century Spanish Literature

Pluralism and Diversity
PD/D
GER
3/A

Presentation of the major writers and works of the first 40 years of 20th century Spanish literature.
prereq: SPAN 34100
3 hrs
3 cr.

SPAN 35800 - Post-Civil War Spanish Literature

Pluralism and Diversity
PD/D
GER
3/A

Major trends and writers since the Spanish Civil War, with particular attention to the social, cultural and political context.
prereq: SPAN 34100
3 hrs
3 cr.
SPAN 36000 - Spanish-American Literature of the Colonial Period

GER 3/A

Masterpieces from the 16th to the late 18th centuries; from the age of exploration to the period of independence.

prereq: SPAN 34100
3 hrs
3 cr.

SPAN 36200 - Spanish-American Romanticism, Realism and Naturalism

GER 3/A

Representative works of 19th century Spanish-American literature.

prereq: SPAN 34100
3 hrs
3 cr.

SPAN 36400 - Spanish-American Modernism and Post-modernism

GER 3/A

Modernist and post-modernist authors.

prereq: SPAN 34100
3 hrs
3 cr.

SPAN 36500 - Survey of Spanish-American Teatro

GER 3/A

Survey of major trends in Spanish-American dramatic literature from colonial days to the present, with emphasis on the second half of the 20th century.

prereq: SPAN 34100
3 hrs
3 cr.

SPAN 36600 - Contemporary Latin American Poetry

GER 3/A

Major trends, such as Vanguardia, Brazilian Modernismo, Caribbean poetry, Anti-Poetry, Exteriorismo and popular poetry.

prereq: SPAN 34100
3 hrs
3 cr.
**SPAN 36700 - Latin American Essay**

**GER**
3/A

Exploration of the essay as an aesthetic form and its role in the social and cultural struggles that have marked Latin-American history.

*prereq: SPAN 34100*

3 hrs
3 cr.

**SPAN 36800 - Contemporary Latin American Narrative**

**GER**
3/A

Major trends, such as the Indianist novel, Mexican Revolution, social and psychological realism, novel of the 'boom', novel of the dictator.

*prereq: SPAN 34100*

3 hrs
3 cr.

**SPAN 37000 - Special Topics in Spanish Literature**

**Pluralism and Diversity**

**PD/D**

**GER**
3/A

May be repeated with different topic.

*prereq: SPAN 34100; permission of adviser.*

3 hrs
3 cr.

**Note:**

Students may use transfer credits and credits from the Hunter programs in Spain and Argentina up to a maximum of 6 credits. At least 9 credits of the minor must be completed in residence at Hunter.

**Minor in Statistics**

A minor in statistics consists of at least 12 credits selected from STAT courses offered by the Department. Students should consult the catalog to determine prerequisites necessary for them to enroll in courses that count toward the minor. It is recommended that prospective statistics minors consult with an undergraduate statistics adviser concerning course selection.

**Minor in Theatre**
A Minor in Theatre requires a minimum of 12 credits in the Department of Theatre at the 200-level or higher of which at least 3 credits must be at the 300-level (these are usually at least 3 credits). Minors are required to take all necessary prerequisites for these courses. Minors have access to all courses offered by the Department of Theatre. Minors are encouraged to participate in departmental and student productions. Interested students must meet with the undergraduate advisor in the Department of Theatre to declare a minor and to define their course of study.

Minor in Women and Gender Studies

The Minor in Women and Gender Studies requires students to take 12 credits: Introduction to Gender and Sexuality Studies (WGS 10000), Classics in Feminist Thought (WGS 20100), Transnational Feminisms (WGS 24400) and one elective course from one of the six areas of concentration.

WGS 10000 - Introduction to Gender and Sexuality Studies, must be completed before WGS 20100 - Classics in Feminist Thought (W) and WGS 24400 - Transnational Feminisms.

Minors in Philosophy

Students may declare an optional minor in Philosophy (the Standard concentration) or a minor in the Philosophy, Politics, Society (PPS) concentration. In either case a minor in Philosophy is comprised of 12 credits at the 200-level or above, including no fewer than 3 credits at the 300-level. Exceptions: PHILO 17000 may count toward the minor at the 200-level and PHILO 20400 shall not count. PHILO 20400 is excluded from counting toward the minor, because it is an, albeit advanced, introductory course. A student must pass a minor in philosophy with a minimum GPA of 3.00.

When constructing a philosophy minor in either the standard or the PPS concentration, a student should always consult with a philosophy department advisor beforehand.

A third minor, Political Theory, is offered jointly between the Philosophy and Political Science departments. This minor consists of 15 credits. All three minors are described below:

- Standard Philosophy Minor
- Minor in Philosophy, Politics and Society (PPS)
- Minor in Political Theory

Standard Philosophy Minor

Students should follow their interests in choosing the courses taken to satisfy the minor. Usually this will involve choosing courses related to the student's major. Ideally the minor will allow the student to study the philosophical issues associated with a field or period of history in increasing depth.

Prerequisite to the minor:

PHILO 10100 - Introduction to Philosophy

Hunter Core
Individual and Society (Humanities) -I&S H
GER
Examination of basic philosophical questions through study of selected philosophical classics.

**PHILO 10300 - Introduction to Logic and Critical Thinking**

**GER**
2/C

Recognizing arguments; traditional logic including concepts, propositions, categorical, hypothetical and disjunctive syllogisms; argument structure, natural language argumentation, fallacies.

**PHILO 10400 - Introduction to Ethics**

**Hunter Core**
Individual and Society (Humanities) - I&S H

**GER**
2/C

Examination of standards of right conduct and the good life through study of selected philosophical classics.

**PHILO 10600 - Philosophy, Politics and Society**

**Hunter Core**
Individual and Society (Social Sciences) - I&S SS

**Pluralism and Diversity**
PD/D

**GER**
2/C

Introduction to social and political philosophy.

**PHILO 20400 - Great Philosophers**

**Hunter Core**
Individual and Society (Humanities) - I&S H

**Pluralism and Diversity**
PD/D

**GER**
2/C
A comprehensive study of major philosophical thinkers.

*prereq: ENGL 12000*

*3 hrs*

*3 cr.*

**ENGL 12000 - Expository Writing**

**Hunter Core**

English Comp (EC)

**GER**

1/A

Required of all students unless exempt This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

*prereq: successful completion of developmental courses, if required*

*3 hrs + conf*

*3 cr.*

Some suggested tracks are listed below:

**Logic and Mathematics**

**PHILO 17000 - Introduction to Logic and Scientific Method**

**Hunter Core**

Scientific World

An introduction to logical analysis and evaluation, especially applied to scientific arguments. Recognizing arguments and their support structure; evaluating reliability of sources vouching for premises; elementary deductive formal logic; evaluation of arguments central to empirical science.

*3 hrs.*

*3 cr.*

**PHILO 27500 - Symbolic Logic**

**GER**

3/B

Sentential logic including symbolizations, truth-value tables, formal derivations, Predicate logic including symbolizations, interpretations and formal derivations.

*cross-listed MATH 27500*

*3 hrs*

*3 cr.*

**PHILO 27900 - Inductive Logic**

**GER**

3/B

Deductive vs. inductive logic, basic forms of inductive inference, Mill's methods and controlled experiments, the
probability calculus, interpretations of probability, the problem of induction, confirmation and disconfirmation of hypotheses.

*prereq: ENGL 12000 and one previous course in philosophy.*

3 hrs
3 cr.

**PHILO 36400 - Philosophy of Language (W)**

**GER**

3/A

Inquiry into the philosophical significance of language, its structure, meaning, reference and use.

*prereq: Two courses in philosophy, at least one of which is at the 200 level.*

3 hrs
3 cr.

**PHILO 37500 - Advanced Symbolic Logic**

**GER**

3/B

A survey of the central results and techniques of meta-logic, principally mathematical induction, the soundness and completeness of theorems for first-order logic, the Skolem theorem and Church's theorem on undecidability.

*prereq: PHIL 27500 or equiv.*

3 hrs
3 cr.

**PHILO 37600 - Philosophy of Mathematics (W)**

**GER**

3/B

Study of such issues as the nature of demonstration or proof and the nature of mathematical knowledge and mathematical objects such as numbers and sets. cross-listed with MATH 376.

*prereq: ENGL 12000; one PHIL course and one PHIL or MATH course (precalculus or beyond)*

3 hrs
3 cr.

**Natural and Social Sciences**

**PHILO 17000 - Introduction to Logic and Scientific Method**

**Hunter Core**

**Scientific World**

An introduction to logical analysis and evaluation, especially applied to scientific arguments. Recognizing arguments and their support structure; evaluating reliability of sources vouching for premises; elementary deductive formal logic; evaluation of arguments central to empirical science.

3 hrs.
3 cr.

**PHILO 21500 - Foundations of Modern Philosophy (W)**
Pluralism and Diversity
PD/D
GER
3/A
Study of major philosophers of the 17th and early 18th centuries such as Descartes, Spinoza, Leibniz, Locke, Berkeley and Hume.

 3 hrs
 3 cr

Other Degrees

Area of Concentration 1: Feminist Thought and Theory (WGST)

Return to Women and Gender Studies - BA

Courses with the prefix WGST denote courses that can be taken under the area of concentration Feminist Thought and Theory.
- WGST 400.53 Body Politics: Sexuality and Reproduction
- WGST 20900 Women and Gender in Western Political Thought (W)
- WGST 23000 Feminism: Philosophical Theory and Practice (W)
- WGST 30900 Feminist Political Theory

In addition selected courses offered in other departments do meet the departmental requirement for this area of concentration. Such courses include but are not limited to:

- POLSC 486.57 - Body Politics: Sexuality and Reproduction
- POLSC 20900 Women and Gender in Western Political Thought (W)
- PHILO 23000 Feminism: Philosophical Theory and Practice (W)
- POLSC 20900 Women and Gender in Western Political Thought (W)
- POLSC 30900 Feminist Political Theory (W)

Check the Women and Gender Studies Department to see the complete list of courses that meet the area of concentration requirement for the major. Also on the department website, check the Schedule of Classes to see which of these courses are offered each semester.

**Area of Concentration 2: Sexualities (WGSS)**

Return to Women and Gender Studies - BA

Courses with the prefix WGSS denote courses that can be taken under the area of concentration Sexualities.

- WGSS 15000 - Introduction to LGBTQI Studies
- WGSS 17000 - Psychology of Human Sexuality
- WGSS 19000 - Development of Gender Roles
- WGSS 21900 - Women and the Law (W)
- WGSS 25700 - Sex and Gender Roles
- WGSS 28700 - Masculinities
- WGSS 35100 - Gender, Science, and Technology
- WGSS 38700 - Queer Theory

In addition selected courses offered in other departments do meet the departmental requirement for this area of concentration. Such courses include but are not limited to:

- PSYCH 17000 Psychology of Human Sexuality
- PSYCH 19000 Development of Gender Roles
- SOC 25700 Sex and Gender Roles
- NURS 35100 Gender, Science and Technology

Check the Women and Gender Studies Department to see the complete list of courses that meet the area of concentration requirement for the major. Also on the department website, check the Schedule of Classes to see which of these courses are offered each semester.

**Area of Concentration 3: Gender & Public Policy (WGSP)**

Return to Women and Gender Studies - BA
Courses with the prefix WGSP denote courses that can be taken under the area of concentration Gender and Public Policy

- WGSP 21900 - Women and the Law
- WGSP 22300 - Sociology of the Family
- WGSP 23500 - The Psychology of Women (W)
- WGSP 23900 - Child Welfare (W)
- WGSP 25100 - Women and Health
- WGSP 26100 - Women and Politics (W)
- WGSP 26200 - Women, War and Peace (W)
- WGSP 32000 - Internship Seminar: Feminist Activism and Advocacy
- WGSP 39800 - Community Leadership Seminar
- WGSP 49000 Leadership Field Work Internship

In addition selected courses offered in other departments do meet the departmental requirement for this area of concentration. Such courses include but are not limited to:

POLSC 21900 Women and the Law (W)
SOC 20100 The Family
PSYCH 23500 The Psychology of Women (D/S)
SOC 23900 Child Welfare (W)
HED 20100 Women and Health
ANTHC 400.54 – Ethnicity, Gender and Disease
COMHE 40008 - Women, Health and Society

Check the Women and Gender Studies Department to see the complete list of courses that meet the area of concentration requirement for the major. Also on the department website, check the Schedule of Classes to see which of these courses are offered each semester.

Area of Concentration 5: Women and Gender across Cultures (WGSC)

- Return to Women and Gender Studies - BA

Courses with the prefix WGSC denote courses that can be taken under the area of concentration Women and Gender Across Cultures.

- WGSC 15600 Culture of Imperial Russia: The Age of Empresses
- WGSC 30100 Gender in Anthropological Perspective
- WGSC 30500 Women and Slaves in Classical Antiquity (W)
- WGSC 31800 Women in Africa (W)
- WGSC 32900 Women in the African Diaspora (W)

In addition selected courses offered in other departments do meet the departmental requirement for this area of concentration. Such courses include but are not limited to:

- ANTHC 30100 Gender in Anthropological Perspective
- CLA 30500 Women and Slaves in Classical Antiquity (W)
- CLA 240.70/ENLG 258.61 – Women in Ancient Greece
- RUSS 256.12 – Women in Russian Culture
ASIAN 241.00 – Asian American Family
ASIAN 290.94 – Gender Dynamics in Africa
AFPRL 290.17 – Latina Women
AFPRL 290.32 – Black Feminism
ASIAN 390.06 – Gender and Sexuality in Asian American Literature
GEOG 383.89 – Geography and Gender

Check the Women and Gender Studies Department to see the complete list of courses that meet the area of concentration requirement for the major. Also on the department website, check the Schedule of Classes to see which of these courses are offered each semester.

Area of Concentration 6: Gender, Literature and the Arts (WGSA)

Return to Women and Gender Studies - BA

Courses with the prefix WGSA denote courses that can be taken under the area of concentration Gender, Literature and The Arts

- WGSA 22252 - Topics in Genre Studies: The Woman's Film of the 1940s
- WGSA 25000 - Women and Music (W)
- WGSA 26000 - Russian Women Writers in English Translation (W)
- WGSA 26900 - Spanish American Women's Literature and Cinema (W)
- WGSA 31900 - Advanced Topics in Literature by Women (W)
- WGSA 33700 - Caribbean Women Writers (W)
- WGSA 36100 - Russian Women Writers
- WGSA 38400 - Women and Media (W)

In addition selected courses offered in other departments do meet the departmental requirement for this area of concentration. Such courses include but are not limited to:

- MUSHL 25000 Women and Music (W)
- RUSS 26000 Russian Women Writers in English Translation (W)
- SPAN 26900 Spanish American Women's Literature and Cinema (W)

Japanese Courses

Return to Classical and Oriental Studies
The following are the courses offered in Japanese language and culture.

Courses in Japanese Language/Culture

**JPN 10100 - Elementary Japanese I**

*Hunter Core*
World Culture and Global Issues (WCGI)
JPN 10100 not usually credited without JPN 10200. For details about credit policy, please see Appendix II: Foreign Language Requirement.
3 hrs
3 cr.

**JPN 10200 - Elementary Japanese II**

Continuation of 10100.
*prereq: JPN 10100 or equiv.*
3 hrs
3 cr.

**JPN 20100 - Intermediate Japanese I**

Continuation of JPN 10100-10200. Extensive reading and writing practice, including at least 500 additional kanji; advanced grammar study.
*prereq: JPN 10200 or equiv.*
3 hrs
3 cr.

**JPN 20200 - Intermediate Japanese II**

Continuation of JPN 20100.
*prereq: JPN 20100 or equiv.*
3 hrs
3 cr.

**JPN 30100 - Advanced Japanese I**

Continuation of JPN 20200. Extensive reading and writing practice, including at least 700 additional kanji; advanced grammar study.
*prereq: JPN 20200 or equiv.*
3 hrs
3 cr.

**JPN 30200 - Advanced Japanese II**

Continuation of JPN 30100. Extensive reading and writing practice, including at least 600 additional kanji; advanced grammar study.
*prereq: JPN 30100 or equiv.*
JPN 25100 - Japanese Culture Before 1600

**Pluralism and Diversity**
**PD/A**  
**GER**  
**2/C**

Covering many facets of Japanese culture, this course will focus on the various periods of Japanese history (Jomon, Yayoi, Kofun, and Heian – to name a few) and uncover how many aspects of Japanese culture were shaped. From the influence from nearby countries – most notably China – to its isolationist periods, its mythology, the evolution of its art, the deep-seated love of nature shared by many Japanese, and the co-existence of multiple belief systems, Japan is a truly unique country whose culture continues to gain in popularity within the United States. Taught entirely in English.

While this is a two-part course, Japanese Culture Before 1600 (JPN 25100) will not act as a prerequisite for Japanese Culture Since 1600 (JPN 25200).

**prereq:** ENGL 120

3 hrs  
3 cr

JPN 25200 - Japanese Culture Since 1600

**Pluralism and Diversity**
**PD/A**  
**GER**  
**2/C**

This course will focus on Japanese culture after roughly 1600. During this time, Japan was largely isolated from the rest of the world, but specific events led to a mixture of vastly different cultures – that of the Japanese and the Western world, which led to many changes within Japan. Additional major topics include the impact of both World Wars, contemporary Japanese lifestyle, and the various holidays and traditions that are celebrated today. Art, literature, and social reform will also play important roles throughout the semester.

**prereq:** ENGL 12000

3 hours  
3 credits

List of Approved Courses for GER Core Stage 1: Academic Foundations

Stage 1A English Composition: 3 credits

This requirement introduces expository writing and academic discourse. Through reading, writing and rewriting, students learn to generate, explore and refine their own ideas, analyze and evaluate intellectual arguments, take positions and support them persuasively and write with sound grammar, varied sentence structure, logic and coherence.

**ENGL 12000 - Expository Writing**
Hunter Core
English Comp (EC)
GER
1/A

Required of all students unless exempt. This course trains students to analyze, develop and evaluate ideas and to express themselves clearly and effectively. Introduction to documented research.

*prereq: successful completion of developmental courses, if required*

3 hrs + conf
3 cr.

Stage 1B Quantitative Reasoning: 3 credits

The goal of this requirement is to develop competence in mathematical and quantitative reasoning, including the use of numerical and graphical data in making judgments on personal, professional and public issues. Students who place out of MATH 125 are exempt from this requirement.

**CSCI 12100 - Computers and Money: Quantitative Reasoning in Context**

Hunter Core
Math and Quantitative Reasoning (MQR)
GER
1/B

Quantitative reasoning tackled from a computer based perspective and focusing on practical financial topics—stocks, gambling, inflation, diversification, taxes, hedging, saving, real estate, retirement and others. Students take a hands-on, spreadsheet-based approach to understanding issues of money and personal finance.

This course cannot be counted towards the CSCI major.

*prereq: none*

3 hrs
3 cr.

**ECO 22100 - Economic Statistics**

Hunter Core
Mathematics and Quantitative Reasoning
GER
1/B

Probability and statistics in the context of economics, business and public policy; data analysis, probability distributions, and hypothesis testing.

*prereq: MATH 12500 or exemption from the course*

3 hrs
3 cr.

**MATH 10000 - Basic Structures of Mathematics**

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Not open to students who have received credit for any math or stat course that satisfies the GER 1/B requirement. Not recommended for students majoring in mathematics, statistics, computer science, or natural sciences. Symbolic logic, sets, number systems, relations and operations and topics in probability and statistics. This course is a terminal course and does not serve as a prerequisite to any other course in the department.

prereq: CUNY Math Proficiency
3 hrs
3 cr.

**MATH 10200 - Mathematics and Everyday Life**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Students will learn how to model real world problems with mathematics, and learn techniques for solving them. Topics include personal finance, statistical reasoning, probability, exponential growth, and voting theory.

prereq: CUNY Math Proficiency
3 hours
3 credits

**MATH 10400 (STEM) - Mathematics for Elementary Education I**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Fundamental and relevant mathematics as recommended by the NCTM for prospective elementary school teachers, including problem solving, sets, logic, numeration, computation, integers and number theory. Required of students planning to teach in elementary schools. Not open to other students.

prereq: grade of C or better in MATH 10100 or appropriate score on the placement exam
3 hrs
3 cr.

**MATH 10500 - Mathematics for Elementary Education II**

**GER**
1/B

Continuation of MATH 10400. Continuation of the content of the mathematics recommended by the NCTM for prospective elementary school teachers, including probability, statistics, plane and transformational geometry, congruence and similarity.

prereq: grade of C or better in MATH 10400
3 hrs
3 cr.

**MATH 11000 - Topics in the Mathematical Sciences**

**GER**
1/B
Not open to students who have completed MATH 10500, 16000 or 26000. Intended for liberal arts or social science students. Applications of topics selected from algebra, analysis, computer science, geometry, probability and statistics. 
prereq: college-level mathematics or statistics course.
3 hrs
3 cr.

**MATH 11100 - Matrices, Vectors and Linear Programming**

GER
1/B

Not open to students who have completed MATH 16000 or 26000. Recommended for accounting students; not recommended for students majoring in mathematics or statistics. Introduction to matrices and vectors, systems of linear equations and linear programming with applications. 
prereq: MATH 10100 or appropriate score on placement exam
3 hrs
3 cr.

**MATH 12500 (STEM) - Precalculus**

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Functions and their graphs: polynomial, rational, exponential, logarithmic and trigonometric functions; conic sections; topics in trigonometry; graphical and analytical solutions to systems of equations and inequalities. Not credited to students who have completed MATH 15000 or its equivalent. 
prereq: grade of C or better in MATH 10100 or appropriate score on placement exam
4 hrs
4 cr.

**MATH 15000 (STEM) - Calculus with Analytic Geometry I**

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Limits, continuity, differentiation and integration of elementary functions and trigonometric functions, applications. 
prereq: grade of C or better in MATH 12500 or appropriate score on placement exam.
4 hrs
4 cr.

**MATH 15500 (STEM) - Calculus with Analytic Geometry II**

Hunter Core
Math/Quantitative Reasoning
GER
1/B
Differentiation and integration of transcendental functions, integration techniques, infinite sequences and series, improper integrals, polar coordinates.

**MATH 16000 - Matrix Algebra**

**GER**
1/B

Systems of linear equations, matrices, determinants, introduction to vector spaces and linear transformations, applications.

**prereq:** MATH 12500 or appropriate score on placement exam

**3 hrs**

**3 cr.**

**STAT 11000 - Selected Topics in Elementary Probability and Statistics as Applied to Popular Science and Current Events**

**GER**
1/B

Topics to be studied in any given term will be announced prior to registration. This course does not serve as a prerequisite for any other mathematics or statistics course. This course is a topics course that serves as an introduction to selected topics in probability and statistics with applications to the real world.

**prereq:** CUNY Math Proficiency

**3 hrs**

**3 cr.**

**STAT 11300 - Elementary Probability and Statistics**

**Hunter Core**
Math/Quantitative Reasoning

**GER**
1/B

Not open to students who have completed STAT 21300 (STEM) or PSYCH 24800. Not credited for majors in statistics or mathematics unless minor is elementary education. An introduction to applied statistics and statistical computing. Hands-on data analysis. Graphical inference. The five number summary, box plots, scatterplots, normal probability plots. Elementary probability. Statistical estimation and hypothesis testing. Linear regression. Students are expected to analyze real data sets and write reports. Students who have taken calculus or place into calculus by the placement exam should take STAT 21300 instead of STAT 11300.

**prereq:** A grade of C or better in MATH 10100 or appropriate score on placement exam

**prereq or coreq:** ENGL 12000

**3 hrs**

**3 cr.**

**STAT 21200 - Discrete Probability**

**Hunter Core**
Math/Quantitative Reasoning
Combinations, permutations, discrete probability. Characteristics of probability distributions. Model building. Additional topics like sampling, random walks or game theory will be introduced from time to time.

prereq: MATH 12500 or STAT 11300 or appropriate score on placement exam.

3 hrs
3 cr.

STAT 21300 (STEM) - Introduction to Applied Statistics

Hunter Core
Math/Quantitative Reasoning
GER
1/B

Sampling, estimation, tests of hypotheses, including one- and two-sample tests, two- and three-way tables for nominal and ordinal data, linear regression, analysis of variance through two-way with interaction, appropriate statistical software.

prereq: MATH 12500 or appropriate score on placement exam.

3 hrs
3 cr.

Stage 1C US History: 3 credits

This requirement introduces portions of the history of the United States covering periods of time sufficiently long to reveal the historical dynamic and bring understanding of the historical contexts that have created our social and political institutions. It emphasizes the importance of the historical perspective and method, an understanding of how, where and why change has occurred over time and an awareness that the world we live in has been influenced by the past.

HIST 15100 - The United States from the Colonial Era to the Civil War (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000

3 hrs
3 cr.

HIST 15200 - The United States from the Civil War Era to the Present (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B
American political, social and cultural history from the Civil War to the present. Courses at the 300-level and above not offered to freshmen.

prereq or coreq: ENGL 12000
3 hrs
3 cr.

**POLSC 11000 - American Government: A Historical Introduction (W)**

**Hunter Core**
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

**List of Approved Courses for GER Core Stage 2: Broad Exposure**

Stage 2A Survey of Literature Written in English: 3 credits

**ENGL 22000 - Introduction to Writing about Literature (W)**

**Hunter Core**
English Comp (EC)
GER
2/A

Analytical writing and close reading in British and American fiction, drama, poetry, and literary criticism, with an emphasis on further development of critical writing and research skills. Students gain a deeper understanding and appreciation of literature as well as more extensive experience with academic writing.

prereq: ENGL 12000
3 hrs + one additional conference hour
3 cr.

**AFPRL 23500 - African Literature (W)**
Pluralism and Diversity
PD/A
GER
2/A

Introduction to contemporary African literature originally written in English. The course is conducted in English; all course requirements are in English.

prereq: ENGL 12000
3 hrs
3 cr.

AFPRL 23600 - African American Literature (W)

Pluralism and Diversity
PD/B
GER
2/A

Introduction to African American writing, from earliest expressions to present.

prereq: ENGL 12000
3 hrs
3 cr.

AFPRL 23700 - African Caribbean Literature (W)

Pluralism and Diversity
PD/A or B
GER
2/A

Introduction to the historical development and major artistic preoccupations of Caribbean literature. The course is conducted in English; all course requirements are in English.

prereq: ENGL 12000
3 hrs
3 cr.

AFPRL 23800 - Introduction to the Literature of the African Diaspora (W)

Hunter Core
English Composition (EC)

Pluralism and Diversity
PD/A or B
GER
2/A

Introduction to a cross-section of texts that contribute to the creation and development of an African Diaspora literary tradition.

prereq: ENGL 12000
3 hrs
3 cr
Stage 2B Social Science: People and Their Societies: 6 credits

Africana and Puerto Rican/Latino Studies

**AFPRL 10000 - Introduction to Black Politics**

**Hunter Core**  
Individual and Society (Social Sciences) -I&S SS  
**Pluralism and Diversity**  
PD/B  
GER  
2/B

General survey of politics of African world with major emphasis on politics in Black America.  
3 hrs  
3 cr

**AFPRL 10100 - Introduction to Africana Studies**

**Pluralism and Diversity**  
PD/A or B  
GER  
2/B

Introduction to the history and culture of Africa and the African diaspora.  
3 hrs  
3 cr.

**AFPRL 10200 - Latino Communities in the United States**

**Pluralism and Diversity**  
PD/B  
GER  
2/B

Migration, ethnicity, community life and public policy issues of Latino groups compared to the Puerto Rican experience.  
3 hrs  
3 cr.

**AFPRL 10300 - Conquest and Resistance: Puerto Rican Experiences in Comparative Perspective**

**Hunter Core**  
Individual and Society (Social Sciences) -I&S SS  
**Pluralism and Diversity**  
PD/B  
GER  
2/B
Introductory study of the Puerto Rican experience compared with experiences of Native and African Americans, Chicanos and Pacific Island peoples in the territorial expansion of the United States.

3 hrs
3 cr.

**AFPRL 20100 - African History from Human Origins to 1600 CE**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/A
GER
2/B

African history from ancient times with emphasis on endogenous African development of civilizations and complex economic, technological and cultural systems over time.

3 hrs
3 cr.

**AFPRL 20200 - African History Since 1600 CE**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/A
GER
2/B

Main currents of African history from 1600 CE to present

3 hrs
3 cr.

**AFPRL 20300 - African American History I**

**Pluralism and Diversity**
PD/B
GER
2/B

Survey of historical experiences of African people in U.S. from 16th century to end of Civil War.

3 hrs
3 cr.

**AFPRL 20400 - African American History II**

**Pluralism and Diversity**
PD/B
GER
2/B

Survey of historical experiences of African people in U.S. from Reconstruction to the present.
AFPRL 20500 - African American Politics of Social Change

Hunter Core
Individual and Society (Social Sciences) - I&S SS

Pluralism and Diversity
PD/B
GER
2/B

The Civil Rights Movement and social change in U.S. Since 1954.

3 hrs
3 cr.

AFPRL 20900 - Introduction to Caribbean History to 1900

Hunter Core
World Culture and Global Issues (WCGI)

Pluralism and Diversity
PD/A
GER
2/B

Introduction to the major themes in Caribbean history to 1900.
prereq: ENGL 12000

3 hrs
3 cr.

AFPRL 21000 - Introduction to Caribbean History: 1900 - Present

Hunter Core
World Culture and Global Issues

Pluralism and Diversity
PD/A
GER
2/B

Introduction to the major themes in Caribbean history after 1900.
prereq: ENGL 12000

3 hrs
3 cr.

AFPRL 24100 - Puerto Rican History to 1897

Pluralism and Diversity
PD/A
GER
2/B

An examination of Taino society, Spanish colonialism, slave economy and the development of nationhood in the 19th
AFPRL 24200 - Puerto Rican History Since 1898

Pluralism and Diversity
PD/A
GER
2/B

Sociohistorical, political and economic analysis of Puerto Rico dating from the U.S. invasion to the present.
3 hrs
3 cr.

AFPRL 24400 - Puerto Ricans in the United States

Pluralism and Diversity
PD/B
GER
2/B

Survey of the origins, contemporary and future development of Puerto Ricans in the United States.
3 hrs
3 cr.

Anthropology

ANTHC 10100 - Introduction to Cultural Anthropology

Hunter Core
Individual and Society (Social Sciences) - I&S SS
Pluralism and Diversity
PD/A
GER
2/B

Comparative and historical examination of the human condition through a focus on diverse responses to universal problems, such as making a living, resolving conflict, organizing family/kin relations and finding meaning in the world.
3 hrs
3 cr.
offered every sem.

ANTHC 12600 - Introduction to Prehistoric Archaeology

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/B

Human social and cultural evolution from the earliest humans to the rise of the first civilizations.
ANTHC 15100 - Introduction to Linguistics

Hunter Core
World Cultures and Global Issues (WCGI)
GER
2/B

Structure and analysis of human languages; language history; language in society, culture and mind; language universals.
3 hrs
3 cr.

Asian American Studies

ASIAN 23002 - Asian American Communities and Mental Health

Hunter Core
Individual and Society (Social Sciences) -I&S SS
Pluralism and Diversity
PD/B
Introduction to psychological experiences of Asian Americans, including historical, sociopolitical, and cultural influences that shape personality and mental health. Specific topics include stereotypes and racism, processes of acculturation and enculturation, ethnic identity development, interracial relationships, stressors and social support systems within Asian American communities, and culturally competent mental health treatment and service delivery.
3 hrs
3 credits

Economics

ECO 10000 - Introduction to Economics

Hunter Core
Individual and Society (Social Sciences) -I&S SS
GER
2/B

Introduction to economic principles, issues, and policy. Recommended for students who want a broad, one-semester overview.
Not open to students who have taken or are currently enrolled in ECO 20000 or 20100 or their equivalents. Cannot be credited towards the Economics major.
3 hrs
3 cr.

ECO 20000 - Principles of Microeconomics

Hunter Core
Scientific World (SW)
GER
2/B

May be taken prior to or concurrently with ECO 20100. Determination of prices and quantities of goods and services, including labor and other resources; competitive and imperfect markets; public policy implications.

prereq: MATH 10100 or exemption from the course
3 hrs
3 cr.

ECO 20100 - Principles of Macroeconomics

Hunter Core
Individual and Society (Social Sciences) - I&S SS
GER
2/B

May be taken prior to or concurrently with ECO 20000. Economic growth; fluctuations in the aggregate economy; inflation; monetary and fiscal policy.

prereq: MATH 10100 or exemption from the course
3 hrs
3 cr.

Geography

GEOG 15000 - World Regional Geography

Pluralism and Diversity
PD/A or D
GER
2/B

A survey of the world’s major regions. Geographic concepts and principles are used to study the physical, economic, social and political conditions and problems in the culturally diverse world. Spatial expression of culture; specialized behavior patterns; adaptations and way of life in distinct environments. Regional interdependence; implications for development.

prereq: ENGL 12000
3 hrs
3 cr.
Offered fall and spring

History

HIST 11100 - World History to 1500

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B
The rise of civilizations; technological and intellectual breakthroughs; classical cultures and empires; interregional connections; the spread of civilization across the globe.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 11200 - World History from 1500 to the Present**

**Hunter Core**
World Culture and Global Issues (WCGI)

**GER**
2/B

The transition from relatively isolated individual cultures to an interrelated global network; the impact of the democratic and scientific revolutions; the development of nationalism and internationalism among the nations of the world.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 12100 - Early Modern Europe 1500 to 1815**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/D

**GER**
2/B

Transition from feudal society to national states; religious upheavals, expansion up to the French revolutionary era
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

**HIST 12200 - 19th and 20th Century Europe (W)**

**Hunter Core**
World Culture and Global Issues (WCGI)

**Pluralism and Diversity**
PD/D

**GER**
2/B

Scientific and industrial revolutions, liberalism, imperialism, socialism and fascism, total war, reconstruction.
Courses at the 300-level and above not offered to freshmen.

*prereq or coreq: ENGL 12000*
3 hrs
3 cr.

**HIST 15100 - The United States from the Colonial Era to the Civil War (W)**
Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the time of the European settlements to the Civil War. Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 15200 - The United States from the Civil War Era to the Present (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

American political, social and cultural history from the Civil War to the present. Courses at the 300-level and above not offered to freshmen.
prereq or coreq: ENGL 12000
3 hrs
3 cr.

HIST 20100 - Ancient Civilization

GER
2/B

Development of civilization in the Near East. Its expansion under Greece and Rome to 500 CE in the Mediterranean basin. Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 20800 - History of the Jews

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

An introductory survey emphasizing how Jewish communities adapted to a wide range of environments during more than 3000 years of world history.
prereq or coreq: ENGL 12000
3 hours
3 credits

HIST 21000 - History of Judaism
GER
2/B

Survey of the Jewish religious tradition with attention to interactions between Judaism and other religions and to the role of Judaism in the formation of Christianity and Islam.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 27700 - East Asia to 1600

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

Survey of traditional cultures and sociopolitical structures of China, Japan, Korea and Vietnam to about 1600 AD.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 27800 - East Asia, 1600 to the Present

Hunter Core
World Culture and Global Issues (WCGI)
Pluralism and Diversity
PD/A
GER
2/B

Coming of West to Asia and resulting processes of revolution and modernization after 1600 AD.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 28800 - History of Africa to the 19th Century

Pluralism and Diversity
PD/A
GER
2/B

Survey of pre-colonial African societies with emphasis on economic and social institutions changing under the impact of the environment.
Courses at the 300-level and above not offered to freshmen.
3 hrs
3 cr.

HIST 28900 - Africa in the 19th and 20th Centuries
Pluralism and Diversity
PD/A
GER
2/B

Historical explanation of independent Africa rising after colonialism and adjusting to modernization. Courses at the 300-level and above not offered to freshmen.

3 hrs
3 cr.

Human Geography

GEOG 10100 - People and Their Environment

Hunter Core
Individual and Society - Social Science
GER
2/B

A broad overview of subjects and ideas in geography, possibly the most internally diverse of the social sciences. Covers the geographical aspects of topics including weather and climate, landforms, religions, food, cities, economics, culture, politics and much more. While students will be expected to understand the basics of each of the topics covered, the overarching emphasis will be on understanding the relationships among them. As such, the course builds from one topic to the next, ultimately stressing the sheer geographical complexity and wonder of modern life. Contemporary economic, political and social patterns and problems are discussed.

3 hrs
3 cr.
Offered fall and spring.

GEOG 22100 - Economic Geography and Globalization

GER
2/B

An introduction to the sub-discipline of economic geography, which will include an exploration of the history of both economics and geography, and a rigorous global approach to the subjects. Students will come to understand the history of the development of economic thought, leading up to, and transformed, by today’s crisis, as well as the particularly geographical nature of economic phenomena and processes, and the immense contributions geographers have made to the understanding of economics. Course focus is on the dominant form of global economic activity today, which is capitalistic, and the way this economic structure plays out through different geographies at different historical moments in time.

Not open to freshmen
prereq: GEOG 10100 or perm instr.
3 hrs
3 cr.
Offered fall and spring

GEOG 22600 - Environmental Conservation: Resource Management
Introduces students to environmental studies with a focus on policy and management of resources. The course will examine issues pertaining to sustaining our resource base (biodiversity, food, soil, water and energy), a review of factors influencing sustainable use, and how humans have impacted these key elements of the natural system.

3 hrs
3 cr.

Macaulay Honors College

MHC 15000 - MHC Seminar 2: Peopling of New York (W)

Hunter Core
Individual and Society (Social Sciences) - I&S SS
Fulfills GER 2B, Social Science: People and Their Societies.
prereq: Open only to Macaulay Honors College students.
3 hours
3 credits

MHC 25000 - MHC Seminar 4: Shaping the Future of New York City (W)

Pluralism and Diversity
Macaulay Honors College
Fulfills GER 2B, Social Science: People and their Societies
prereq: Open only to Macaulay Honors College students.
3 hours
3 credits

Mathematics and Statistics

Political Science

POLSC 10000 - Introduction to Politics: Democracy, Anarchy and the State (W)

Hunter Core
World Culture and Global Issues (WCGI)
GER
2/B

Introduction to some of the major questions, approaches, and texts of political science. Students will explore questions of power, coercion, virtue, democracy, conflict, and cooperation and read Plato, Aristotle, Weber, Lipset, Waltz, and Jervis, among others. Does not satisfy the major’s four subfield distribution requirement.

prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.
POLSC 11000 - American Government: A Historical Introduction (W)

Hunter Core
US Experience in its Diversity (USED)
GER
1/C or 2/B

Overview of the American political system from a historical perspective, with emphasis on the Constitution and its enduring influence, development of party systems and citizen participation and evolving role of Congress, presidency and courts.

Not open to students who have passed CLEP or the AP American Government exam or who have taken or received transfer credit for POLSC 11100. Please note that all versions of Introduction to American Government taken at other colleges and universities or credited by examination (e.g., CLEP, AP American Government) are the equivalent of POLSC 11100. Students cannot use credit for both POLSC 11000 and POLSC 11100 to fulfill graduation requirements or major requirements.

prereq: ENGL 12000 (or equivalent)
prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 11200 - Introduction to Political Theory (W)

GER
2/B

Selected writings of the great political thinkers. Recurrent problems of politics from Plato to the present.

prereq or coreq: ENGL 12000 or its equivalent
3 hrs
3 cr.

POLSC 20000 - Interpreting Politics: An Introduction to Political Ideas (W)

Hunter Core
Individual and Society (Social Sciences) -I&S SS
GER
2/B or 3/B

An introduction to interpreting major political ideas and their significance in the contemporary world. Competing understandings of concepts such as freedom, equality, justice, citizenship, and legitimacy will be explored, in part by applying them to concrete political issues such as multiculturalism, economic distribution, and the death penalty.

3 cr.

Women and Gender Studies

WGS 10000 - Introduction to Gender and Sexuality Studies

Hunter Core
Individual and Society (I&S)
Pluralism and Diversity
PD/C
GER
2/B

The course will introduce students to the political and theoretical debates in the discipline of gender and sexuality. We will cover historical struggles for the women's enfranchisement, the abolitionist movements, sex wars, and the queer rights movement. The course introduces students to feminist contribution to the debate that considers sex as biology and gender as culture, critical race theory, and queer theory. In addition the course will also deal with structural and institutional forms of disenfranchisement by examining the relationship between gender and the state, colonialism, law and capital.
